In response to the inquiry sent to the Ministry of Defense of the Republic of Azerbaijan by letter No. 2-2-030/2-038632/2023 dated 5 December 2023, and based on the unclassified extract from the classified reply letter prepared by that Ministry, No. 0527 dated 30 December 2023, it was determined that appropriate operational measures had been carried out to identify the combat operations conducted by military units of the Armed Forces of the Republic of Armenia that participated in the occupation of the territories of the Republic of Azerbaijan in 1989–1994, as well as to identify the leadership of those units. As a result of the measures carried out, the chronological sequence of the operations was studied in detail, and the following information
was obtained regarding the formations and participants involved in the occupation process.

The 1st "Defense Region" — hereinafter, **DR**.
The 1st DR was created in September 1992 in the Hadrut area on the basis of previously existing volunteer detachments and separate groups. It was mainly formed in border-adjacent areas. Before the creation of a special military unit within the system of the regular army, the district's self-defense formations mainly conducted locally significant defensive operations and, in some cases, sudden counterattack operations. Its first commander was Artur Aghabekyan. Before his appointment to this position, he had organized the self-defense of the Great Taghlar valley. On 17 May, the first volunteer detachments entered the villages of Khandadzor and Chor. To begin operations, on 20 and 23 May, two self-defense groups were sent respectively to Qaraghlukh and Mulkdere. At that time, the self-defense of Edilli settlement was handled by a detachment led by Manvel Grigoryan, who had come from the Republic of Armenia.
In the autumn of 1991, Arkadi Ter-Tadevosyan ("Komandos"), a career officer of the Soviet army and a colonel who at that time was not very well known among the population, came to Hadrut District. He became more widely known after an operation personally led by him against the positions of the Republic of Azerbaijan located in Tegh village.

Page 920
On 29 October, a meeting was held with the participation of the commanders of the Degadzor self-defense detachments and the persons who had come to Khankendi, in order to make a decision regarding offensive operations. Although the meeting lasted only a short time, it took place in an atmosphere of heated discussions. The start of the combat operations was set for 17:00, but there was a slight delay.
According to the military action plan, before the start of the offensive, in order to prevent weapons coming to the aid of the Azerbaijanis from the Fuzuli direction, the main part of the forces was concentrated in an area called Dimanabad, located in the eastern part of Tegh settlement.

The combat operation against Tegh settlement was led by Colonel Arkadi Ter-Tadevosyan, nicknamed "Commandos." At 17:15 in the evening, the Armenian detachments and groups

participating in the offensive took the positions envisaged in the operational plan and brought under control the paths and roads leading into the settlements where Azerbaijanis lived. The military operation was carried out successfully, without any losses or even any wounded among those designated for the operation. By 19:00, Tegh had already been occupied. Members of the detachments, including Vigen Grigoryan, Armen Gasparyan, Rubik Balayan, Slavik Sarkisyan, and others, actively participated in the operation.

Two weeks after the Tegh operation, on 14 November, the village of Shahyeri was occupied. On 2 January 1992, information was received by the headquarters of the district self-defense units that the Azerbaijani side was going to attack in the direction of the village of Kochbek. In addition, information was also obtained regarding the seizure of forces.
In the winter and spring months of 1992, the situation remained relatively stable in several border districts of the conflict zone and in Hadrut.

In January–May 1992, a number of events important for the Armenians took place in the military-political situation. These included the elimination of positions of the Republic of Azerbaijan around Khankendi, the establishment of a self-defense committee under the "council of ministers" of the "Nagorno-Karabakh Republic," and the beginning of the occupation of Shusha. The units operating in Hadrut District made efforts to transform the detachments and groups they led into units capable of carrying out more complex combat missions. This process first began under the command of the Great Taghlar detachment. Within a short period of time, a battalion was formed there which stated that it was ready to be subordinated to the headquarters of the self-defense forces of the so-called "Nagorno-Karabakh Republic" and to fulfill the assigned tasks. Later, this process was carried out by other detachments as well.

On 27 June, the forces of the Republic of Azerbaijan attacked the villages of Tegh and Drakhtik, advancing from several points and taking control of Armenian positions. At that time, Artur Aghabekyan, who had been commander of the Great Taghlar battalion, contacted Serzh Sarkisyan, informed him about the danger of losing the territories, and asked for assistance. Serzh Sarkisyan gave Aghabekyan two hours and tasked him with meeting the support forces coming from Khankendi under the command of Seyran Ohanyan at the entrance to Qirmizi Bazar.

However, shortly afterward, tanks belonging to the army of the Republic of Azerbaijan entered Qirmizi Bazar. One side of the combat line was defended by Manvel Grigoryan's volunteers, and the other by the Great Taghlar battalion. After noon, Armenian units advanced toward Tegh village and took control of it. During the operations, the Azerbaijani side lost 10 people. On the Armenian side, the commander of the Great Taghlar unit, Edik Hayriyan, and another person died.

In the evening hours, in addition to Hadrut town, Sevan and Gorus detachments, volunteers from Khankendi, and military equipment were also brought in. In addition, Armen Gasparyan brought anti-tank weapons to Hadrut.

In the surrounding area, units of the Republic of Azerbaijan attacked the village of Chor and captured it. Two days later, on 29 June, Tegh and Drakhtik villages were attacked again. Before the battle, the Azerbaijanis, with the support of a large amount of armored equipment, managed to break the resistance of the Armenian forces and advance toward the wine factory in Tegh village. After several hours of heavy fighting, the Azerbaijani advance was stopped, and in the evening they withdrew to their original positions.

Page 921

The second offensive carried out by the Azerbaijani side in the area of Tegh and Drakhtik also ended in failure. In July–August, the situation in the Hadrut region was relatively calm. Artur Aghabekyan, the first commander of the Hadrut defense district, stated that at the beginning of July he was called to Khankendi and offered the position of unified commander of the district's detachments. He refused, saying that there were still unresolved and difficult issues in the district. Serzh Sarkisyan, in response, said: "In that case, Hadrut will be handed over; therefore, make your own decision." Iqor Muradyan and Valeri Balayan also participated in the meeting.

At that time, the commanders of the self-defense detachments in Hadrut were Samvel Grigoryan, Armencho, and Saro from Sarinshen.
At Aghabekyan's proposal, Tegh, Hadrut, Edilli, and Xcaberd-Shahyeri fortified districts were created under unified command. After all these issues were discussed and assessed, Aghabekyan accepted Khankendi's proposal.

On 14 July 1992, on the basis of the order of the chairman of the Self-Defense Forces Committee of the "Nagorno-Karabakh Republic" "on the creation of combat defense zones," the "Hadrut combat operations zone" was created in the Hadrut area. Artur Aghabekyan was appointed commander, and Armen Abramyan was appointed chief of staff. On the basis of that order, three motorized rifle battalions and three separate companies were created:

1st motorized rifle battalion — Hadrut. Permanent place of deployment: Hadrut. Commander: Artur Sarkisyan. Chief of staff: Viktor Abramyan.
2nd motorized rifle battalion — Tegh. Permanent place of deployment: Tegh village. Commander: Vachagan Hayriyan. Chief of staff: Vigen Grigoryan.
3rd motorized rifle battalion — Edilli. Permanent place of deployment: Edilli village. Commander: Manvel Grigoryan. Chief of staff: Frunze Avagyan.
Separate company — Sarinshen. Permanent location: Sarinshen village. Commander: Saro Sardaryan. Chief of staff: Valeri Ayvazyan.
Separate company — Old Taghlar. Permanent location: Old Taghlar village. Commander: Eduard Ayvazyan.
Separate tank battalion. Permanent place of deployment: Hadrut settlement. Commander: Kamo Poghosyan.

Vladimir Sarkisyan was appointed deputy commander of the Defense District for rear support; Saro Hakobyan was appointed deputy for armaments; Qamo Dadunch was appointed communications chief; Aramayis Atayan was appointed head of the automobile service; Vilen Hayrapetyan was appointed head of the YSM service; and Garnik Aleksanyan was appointed head of the medical service.

Under the order issued on 26 July, within five days the positions of the Republic of Azerbaijan located at an altitude of 1020.0 were to be attacked; the village of Norashen was to be reached; the villages there were to be captured; and coordinate 7779 was to be reached.

At the same time, a joint "Qajar" operation was also planned by the 2nd battalion of the Hadrut defense district and the Khojavend self-defense forces.

On 15 August 1992, the Azerbaijani side again launched an attack in the Hadrut direction and captured Melikashen. In that battle, Araik Harutyunyan hit a tank of the Republic of Azerbaijan. In the same battle, the Armenians launched a counterattack and achieved their objectives.

On 14 August 1992, on the basis of Order No. 002, the 6th Defense District was created.
At the end of August and the beginning of September, the situation in the south-eastern direction of the front deteriorated again. In August, the Azerbaijani side began concentrating manpower and equipment in various directions. The command of the 1st Defense District distributed its forces in different directions using reserve manpower and equipment.
The situation in the positions located in the direction of the "Lachin corridor" had become difficult. Roads had also been struck in the directions of Gubadli, Zangilan, and Kalbajar Districts.

Page 922
On 6 February, the commander of the 1st Defense District signed Order No. 001 "On the Preparation of an Offensive Strategy." The order stated: "An offensive operation shall be carried out in the Qajar–Qovshatli direction through the joint activity of the 1st and 2nd Defense Districts. All forces shall be concentrated, and an action plan shall be prepared on the basis of intelligence information." The movements of the "enemy" were to be constantly monitored, and daily reports were to be submitted in accordance with the situation.
According to the combat order, the necessary conditions for the Armenians' passages were to be created, and supervision over the preparation of the units was envisaged. The unit commanders were required to report on the execution of the order by 22:00 on 31 March 1993.

In mid-March, a number of units selected from various defense districts, including a 120-person detachment from the 1st Defense District under the leadership of Chief of Staff Armen Abramyan, were sent to the area. The military operation began on 27 March. The attack was carried out in three different directions. As a result of the sudden offensive, the Azerbaijani side abandoned the settlements of Aghdaban, Cherekdar, Narestar, and Tezekend, and took

temporary positions in the north-western section of the border. On 29 March, the Azerbaijani support points in the villages of Yenikend and Aghjakend of Kalbajar District were occupied. One day later, Bagirli, Kechiligaya, and Chorman, and on 1 April, Kalbajar District came under the control of the forces of the Republic of Armenia.

In accordance with the combat order of the commander of the 1st Defense District, the "Qajar–Qovshatli" military operation began on 2 April. The main direction of the attack was toward Shahruvenyal. The forces of the 14th and 15th battalions were concentrated in that direction. As a result of the operation, the Shahruvenyal and Khazaz heights were occupied. Two days later, on 4 April, units of the 1st Defense District attacked and captured the Meqelenata, or Sacred Kavak, height.

On 5 April, fighting took place in the village of Yenidam. Seven Armenians, including Vigen Grigoryan, chief of staff of the 14th motorized rifle battalion, died in that battle.
The following units took part in the "Qajar–Qovshatli" military operation: the 14th motorized rifle battalion of the 1st Defense District, commanded by Armen Gasparyan; the 15th motorized rifle battalion, commanded by Artur Sarkisyan; the tank company, commanded by Qarik Hakopyan; the reconnaissance company, commanded by Robert Hamparcumyan; and the 1st motorized rifle battalion, commanded by Manvel Grigoryan.

At the end of June, the command of the 1st Defense District planned the "Norashen–Khatin Bulag–Aresh" operation. The main forces were concentrated in the direction of the village of Suleymanli in Fuzuli. On 2 July, at 00:00, the units took their positions; at 03:45, the unit commanders reported their readiness, and the battle began early in the morning. On 2 July, the forces of the 1st Defense District entered the villages of Qaradaghli and Norashen, and on 5 July, with the assistance of the 83rd Brigade, they entered positions in the settlements of Khatinbulag and Aresh. Within five days, they had advanced 10 kilometres.

On 24 July, they occupied Zergar village, one of the main positions defending Fuzuli.
On 15 August, they attacked in the Qovshatli–Zergar direction, entered the village of Qaramammadli, and advanced toward Fuzuli.
On the same date, the 1st and 2nd Defense Districts jointly attacked the city of Fuzuli. During the three-day battle, they occupied the positions of the units of the Armed Forces of the Republic of Azerbaijan located in that direction.

On 22 August, the units of the 1st and 2nd Defense Districts occupied Fuzuli District.
On 31 August, as a result of the joint activity of the 1st and 6th Defense Districts, Gubadli District was occupied.

On 24 October, fighting began in the direction of Quyjaq and Shaybey in Jabrayil. The direction of the attack was Horadiz station. The Central, 1st, and 2nd Defense Districts took part in the operation. On that day, the said areas and Horadiz were occupied. Later, combat operations were conducted in the direction of Jabrayil.
As of early November, all villages of Hadrut District had been occupied.

On 4 January, they attacked the Republic of Azerbaijan, and as of 5 January the areas defended by the 54th Separate Motorized Rifle Battalion, the 3rd Artillery Battalion, commanded by Artur Grigoryan, and the 5th Rifle Battalion, commanded by Artur Sarkisyan, remained unchanged.
On 7 January, Armenian units crossed from the south-eastern section of the defensive line to the other side of the front, into the areas of the villages of Ashaghi Abdurrahmanli, Yukhari Seyidahmadli, and Garakhanbeyli. In connection with the situation, the 71st Separate Battalion and units of the Central Defense District were sent to that area.

Until mid-February, the situation in that direction remained stable. Other volunteers from the Ministry of Internal Affairs of the Republic of Azerbaijan and from the Republic of Armenia were also involved in the operations.
In order to restore the positions lost in January, a new operation was planned for the second half of February. The Central and 4th Defense Districts were also involved in the operation.
On 28 February, Colonel Seyran Ohanyan, chief of staff of the Defense Army, who at that time was directing the battles in the south-eastern direction, addressed the personnel. Seyran Ohanyan actively participated in the operations from December 1993 until the end of the battles.
During the fighting, on 4 March, the Armenians besieged Ashaghi Seyidahmadli. Qarik Hakopyan was commander of the tank battalion. The Ashaghi Seyidahmadli operation was the last operation in Karabakh.

The 2nd and 3rd "Defense Districts"
In order to organize the defense of the front, Monte Melkonyan assigned responsibility for the southern flank of the battle line extending from Bertashen to the Qirmizi Bazar valley to Movses Hakopyan, commander of the Chartar self-defense forces. He himself led the fighting in the northern direction.
The main defense east of Qirmizi Bazar was formed by detachments commanded by Karen Alaverdyan and Sahak Poghosyan. The defensive line extended from the Fuzuli River to the east of Shekher village.
After the battles that took place on 28 June 1992, the 5th volunteer company was brought from Khankendi to the area of operations. By decision of the self-defense committee, Seyran Ohanyan came to Qirmizi Bazar.

On 17 November 1991, the settlements of Khojavend and Karvin, the administrative center of the district, were destroyed by the Khojavend self-defense detachments.
On 22 February 1992, the district's self-defense detachments were tasked with eliminating the Upper Veysalli settlement, which was subordinate to the administrative center of Fuzuli, thereby ensuring road communication between the district center and the villages. The task was carried out under the leadership of Movses Hakopyan.

On 5 May 1992, an operation was carried out, with the personal participation of Monte Melkonyan and Colonel Hmayak Haroyan, to seize Azerbaijani positions located in the villages of Aghdam, Abdul, and Gulabli; however, it was unsuccessful. The units participating in the operation and their commanders were as follows:
Chartar battalion — first commander Movses Hakopyan;
Qirmizi Bazar battalion — commander Arushan Badasyan;
Madshalashen battalion — commander Armen Melkumyan;
1st battalion of Khojavend District — commander Mavr Ohanyan;
2nd battalion of Khojavend District — commander Merujan Mosiyan;
Bertashen battalion — commander Nelson Soghomonyan;
Ashan battalion — commander David Ishkhanyan.

In order to ensure the centralized command of the newly formed battalions, in mid-July 1992, on the basis of an order of the chairman of the Self-Defense Committee of the so-called Nagorno-Karabakh Republic, the territory was divided into defense zones. One of these was the Khojavend combat operations zone. It extended from the south of the Fuzuli River to the south of Askeran District.

Page 924
In order to form a headquarters in the Khojavend Defense District, by decision of the Self-Defense Committee of the so-called Nagorno-Karabakh Republic, Colonel Hamayak Haroyan, Lieutenant Colonel Hrant Shamkhalyan, Lieutenant Colonel Miron Vartanyan, Lieutenant Colonel Vostanik Adoyan, Lieutenant Colonel Sergey Beklaryan, and Lieutenant Colonel Sergey Melikyan were sent to Khojavend.

The duties of chief of staff of the Khojavend Defense District were initially performed by Lieutenant Colonel Miron Vartanyan, later by Saro Yeremyan, and at the end of August by Abrik Hayrapetyan. Saro Yeremyan was appointed deputy commander of the defense district. On 4 September 1992, the Armed Forces of the Republic of Azerbaijan launched an attack from the Aghdam, Abdul, and Gulabli posts against the defensive positions of the settlements of Avdur, Chorekli (Hatsi), and Yenikend (Norshen). Initially, two military helicopters began the operation. Monte Melkonyan and Colonel Haroyan went to the area of operations to organize the defense. Immediately, the command of the forces of the so-called Nagorno-Karabakh Republic concentrated the reserve forces that had come to assist in the main direction of attack, and the attack was repelled.

By decision of the leadership, a reconnaissance detachment moved to the rear of the units of the Armed Forces of the Republic of Azerbaijan located in Gulabli and, by means of a sudden raid, forced them to withdraw from there. At 13:00, the villages of Abdal and Gulabli, as well as the surrounding villages, came under the control of Armenian forces. The following day, the Armed Forces of the Republic of Azerbaijan launched another attack, which also failed.

At that time, there were a number of Azerbaijani villages near the administrative territory of Khojavend where strong military systems were located. Some firing points were 500 meters

from Khojavend. In order to neutralize those firing points, reconnaissance was tasked with studying the area as quickly as possible, clarifying the situation, and providing tactical options. Monte Melkonyan personally took part in that reconnaissance mission. In order to break through the defense of the Armed Forces of the Republic of Azerbaijan in that direction, the leadership decided to involve the personnel of the units led by Mavr Ohanyan and Serujan Mosiyan.
In order to support the advance of the attacking units from the right and left flanks, the Chartar battalion was to advance south of the Qarachukh height, while the Bertashen battalion was to advance in the northern direction.

On 2 October 1992, the said firing points were neutralized, and an attack was carried out in the direction of the Kuropatkino and Qarachukh heights. By around noon, the Khojavend units had taken Amiranlar and Kuropatkino under control.

After the operation, on 8 October 1992, a decision was made to begin an attack in the Fuzuli direction. The operation was to be carried out by motorized rifle battalions No. 21 (Qirmizi Bazar), No. 22 (Machkalashen), and No. 23 (Chartar).

On 8 October, units of the defense district began an attack in the direction of Mount Uryan and the Khazaz heights. From the very beginning, the Chartar battalion took Mount Uryan under control, but the other units were unsuccessful. During the operation, the Qirmizi Bazar battalion shot down one Mi-24 helicopter belonging to the Armed Forces of the Republic of Azerbaijan.
On 5 December 1992, the troops of the northern sector of the Khojavend defense zone were tasked with destroying units of the Armed Forces of the Republic of Azerbaijan located in Marzili village. The attack was carried out by the Ashan and Bertashen battalions.
On 4 January 1993, the 24th Chartar battalion and the 25th and 26th Khojavend city battalions began military operations in the southern direction of the district. The task was to occupy the Gevorkavan settlement. Although the Khojavend city units seized Ashaghi Veysalli village and the Chartar units seized the Qizil Qaya height, as a result of a counterattack by the Armed Forces of the Republic of Azerbaijan, the Qizil Qaya height was again taken under control.
At the end of March 1993, Monte Melkonyan was appointed commander of the forces of the separatist regime in the direction of Kalbajar District. The operation began on 27 March. The task was to occupy Kalbajar District. A 130-person detachment from the units of the Khojavend (Martuni) Defense District also participated in the operation.

Page 925
On 27 March, soldiers from Khojavend occupied the village of Charektar, then advanced toward the tunnel road connecting Kalbajar and Lachin Districts, and blocked the only road. On 2 April 1993, Kalbajar District was occupied.

The deputy commander of the Khojavend Defense District, Movses Hakobyan, and the commanders of a number of units prepared operations to occupy the Qizil Qaya and Khazaz

heights. On 1 April, the 24th battalion of Chartar, commanded by Karen Tovmasyan, seized the Qizil Qaya height and the surrounding areas.

On 2 April, the 23rd battalion of Chartar, commanded by Hovik Civanyan; the 22nd battalion of Machkalashen, commanded by Sos Gasparyan; and the 21st battalion of Qirmizi Bazar, commanded by Arushan Badasyan, carried out an operation in the Divanlar-Khazaz-Qajar direction.

On 12 June 1993, under the leadership of Monte Melkonyan, commander of the Khojavend Defense District, an attack began in the south-western direction. On the south-western front, the village of Marzili was occupied. The opposing side advanced in the Novruzlu-Yusifjanli-Giyamaddinli direction. In the south-eastern direction, the advance of units of the Askeran regiment was unsuccessful.

On 12 June 1993, at noon, Lieutenant Colonel Monte Melkonyan, together with four armed men, was traveling by car near Marzili when they came under fire from armored equipment of the Republic of Azerbaijan. Monte Melkonyan and the reconnaissance chief Sarbek (Rachik) Martirosyan were killed. The deputy commander, Captain Saro Yeremyan; the driver of the commander of the 23rd battalion, Hovik Civanyan; and, after him, the reconnaissance chief of the defense district, Komitas Avanesyan, were wounded. After Monte Melkonyan, Movses Hakobyan was temporarily appointed commander of the defense district.

In July 1993, the Khojavend Defense District began operations in the direction of Aghdam District. The combat operations began on 4 July and continued until 23 July. The 27th and 28th battalions of the defense district, units from Khojavend, Chartar, and Machkalashen, and armored tank units were involved in the combat operations. On 16 July, the settlements of Baghmanlar and Saybali were occupied.

On 23 July, an attack on Aghdam District began from three directions: from the north by Askeran, from the east by the Central Defense District (Khankendi), and from the south by units of the Khojavend Defense District. On 23 July, Aghdam District was occupied.
On 15 August, the villages of Ashaghi Veysalli, Dilagarda, Qobu Dilagarda, and Qarvand, as well as the heights around the city of Fuzuli, were occupied. The 23rd battalion took positions near the television tower; the 24th battalion took positions opposite Qarvand village; and the 4th battalion seized stationary positions.

On 15 August, the Qirmizi Bazar and Machkalashen battalions attacked from the right and left flanks of the Khazaz mountain, occupied the village of Yaghlivand, and took positions in the area of the stone quarry west of the city of Fuzuli.

On 22 August 1993, the Khojavend Defense District, together with the 83rd Brigade of the 1st Defense District and a centrally subordinated mortar division, began an operation to occupy Fuzuli District. The 24th battalion attacked from the north-east; the 23rd and 29th battalions from the north; and the 21st and 22nd battalions from the east. They occupied the

settlements of Yukhari Yaghlivand, Dovlatyar, Seyidahmadli, Shakarjik, Qaramammadli, Zargar, and others, and entered the city of Fuzuli.

After the occupation of Fuzuli, a detachment of the Khojavend Defense District was sent in the southern direction, and that detachment participated in the operations to occupy Gubadli, which began on 25 August. On 31 August, Gubadli District was occupied.
The 21st, 22nd, 23rd, 25th, and 26th rifle battalions of the Khojavend Defense District, together with the Hadrut and Central Defense Districts, launched an attack on 23 October in the Horadiz-Gubadli-Zangilan direction.

By order of the commander of the "Defense Army" of the separatist regime, on 1 December 1993 the Khojavend Defense District was divided, and the 2nd and 3rd Defense Districts were formed. The 2nd Defense District, commanded by Movses Hakobyan, was created with the 21st, 22nd, 23rd, and 24th battalions; and the 3rd Defense District, commanded by Nelson Soghomonyan, was created with the 25th, 26th, 27th, and 28th battalions.

Page 926

In December 1993, on the basis of the 21st Battalion of the 2nd Defense District, the Qirmizi Bazar and Taghavard battalions were created. The Defense District included the following:
21st motorized rifle battalion, Qirmizi Bazar — commander Sahak Poghosyan, killed on 30 December in the fighting in the Qarakhambeyli–Qarvand direction;
22nd motorized rifle battalion, Taghavard — commander Vanya Khachatryan;
23rd motorized rifle battalion, Machkalashen — commander Nelson Harutyunyan;
24th motorized rifle battalion, Chartar — commander Sevak Ghukasyan;
25th motorized rifle battalion, Chartar — commander Hovik Harutyunyan.
In January 1994, as a result of the counteroffensive by the Azerbaijani Army, Hadrut settlement, the Aghburun and Qaraqantapa heights, and the surrounding areas were liberated from occupation. The enemy was forced to fortify itself along the Qarakhambeyli–Ashaghi Veysalli–Kuropatkino line. In those battles, Hovik Harutyunyan, commander of the 25th Chartar motorized rifle battalion, was killed.

In April 1994, the forces of the 2nd Defense District were concentrated along the Yarımca–Seysulan–Qızıloba line. Fighting in this direction continued from mid-April until 5 May. On 26 April, Seysulan was occupied.
On 5 May, the units of the defense district changed the direction of the attack and occupied the area known as the "3rd sovkhoz."

As a result of the reorganization of the Khojavend Defense District on 1 December 1993, the 2nd military unit that had been created was named the 3rd Defense District.
The military unit had the following subunits:
1st Ashan Battalion — commander Arkadi Zakharyan;
2nd Bertashen Battalion — commander Qenadi Israelyan;
3rd Khojavend Battalion — commander Hayk Sarkisyan;

4th Khojavend Battalion — commander Artur Mosiyan;
Separate tank battalion — commander Qor Ishkhanyan;
Artillery division — commander Yuri Hovsepyan;
Engineering company — commander Artur Zarqaryan;
Communications company — commander Baghdasar Baghdasaryan;
Repair company — commander Qarik Dadalyan;
MTT company — commander Pabedik Hayrapetyan.

The commander of the 3rd Defense District was Nelson Soghomonyan, the former commander of the Bertashen Battalion.
The deputy commander was Mavr Ohanyan.
The chief of staff was Abrik Hayrapetyan.
The deputy commander for political affairs was Gevorg Kamalyan.
The deputy commander for rear services was Artyom Avanesyan.
The chief of artillery was Artak Zarqaryan.
The chief of air defense was Artur Balayan.
The chief of engineering and fortification was Komitas Zarqaryan.
The chief of communications was Arek Hayrapetyan.
As a result of the military operations carried out by the 3rd Defense District from December 1993 until May 1994, nearly 400 Azerbaijani servicemen were killed, and two were taken prisoner.

The 4th "Defense District"
Representatives of the separatist regime began operating in Askeran District from 1988 under the pretext of forming self-defense forces. The initiators of the creation of the first volunteer battalions there were Vitali Balasanyan, Yuri Aghajanyan, and Manvel Danielyan.
In Baradsa, Suren Avanesyan and Karen Arzumanyan; in Khndristan, Ashot Ghulyan, Alish Beqlaryan, and Nelson Ghulyan; in Khanabad village of Khojaly District, Slavik Melkumyan; in Lusacord, that is, Qaranliqdara village of Tavush Province, Tigran Khachatryan; in Yenikend village of Khojavend District, Eduard Aslanyan; in Khanyurdu village of Askeran District, Armen Avagyan; in Sharnakhbyur, Slavik Mirzoyan; in Pirjamal village of Askeran District, Feliks Beqlaryan and Benik Hakopyan; in Pirlar village of Khojaly District, Qarnik Avanesyan; and in Askeran District

Page 927
in Sardarkend village, Qayzer Shahbazyan; in Qishlaq village of Askeran District, Ivan Mehrabyan; in Khagnakh village of Askeran District, Slavik Stepanyan; in Dashbulag village of Askeran District, Vladik Ghazaryan and Vazgen Gabrielyan; in Dahraw village of Askeran District, Eduard Khachatryan; in Ballija village of Khojaly District, Samvel Hakopyan and Qarik Dadayan; in Harov village of Khojaly District, Kamo Melkumyan; in Shushakend village, Soma Hayryan and Albert Sarkisyan; in Qarakend village of Askeran District, Samvel Vartanyan; in Qirmizikend village of Aghdara District, Artur Stepanyan; in Yemishjan village of Askeran District, Mher Aharumyan, Hamlet Stepanyan, and Avedik

Hayrapetyan; in Qarabulag village of Khojaly District, Arshavir Gharamyan; and in Marushen, Karmen Avedisyan led the creation of these detachments.

The main organizer of the formation of new detachments and their armament was Marat Hakobjanyan. He was engaged in this activity until 26 November 1991 and was wounded that day in Khojaly. After that, this position passed to Vitali Balasanyan.
On 23 December 1991, Armenian armed forces, under the name of self-defense forces and under the leadership of J. Sefilyan and V. Balayan, began military operations. The detachments of Armavir Qalustyan, commander of the unit in Yenikend village of Khojavend District; Nersis Ghulyan, commander from Khndristan; and Qayzer Shahbazyan from Sardarkend village of Askeran District attacked Khojaly on the night of 25–26 February 1992.
On the night of 7–8 May, Arshavir Qaramyan was the commander of the Aknakhbyur company that attacked Shusha. In 2008, he became "prosecutor general" of the so-called Nagorno-Karabakh with the rank of major general.

A 38-person detachment from Avedaran, commanded by Hamlet Stepanyan, attacked in the directions of Zarisli and Nabiylar at the southern foot of Kirs Mountain, and Turshsu village of Shusha District. At the same time, in the fighting in the Shusha direction, Arqam Harutyunyan, Vilen Safaryan, and Valeri Baghiryan distinguished themselves with their detachments.
In December 1992, a new military unit was formed in Askeran District, and Vilen Safaryan was appointed commander of the 1st Battalion, Robert Hakobjanyan commander of the 2nd Battalion, Artur Harutyunyan commander of the 3rd Battalion, and Qaren Arzumanyan commander of the 4th Battalion.

The following persons were appointed to leadership positions in the Defense District:
Sanasar Qadryan — deputy commander of the Defense District;
Zoren Ghazaryan — chief of staff of the Defense District;
Martik Hayrapetyan — deputy of the Defense District for RAS;
Samvel Hakopyan — deputy of the Defense District for rear services;
Emirjan Aslanyan — chief of artillery of the Defense District;
Feliks Davtyan — chief of the engineering and fortification service of the Defense District;
Samvel Baghiryan — chief of communications of the Defense District;
Armen Harutyunyan — chief medical officer of the Defense District.

On 5 June 1992, a unit separated from the 1st Battalion, under the command of battalion commander Vilen Safaryan, occupied the village of Zukhurmahalla.
By decision of the commander of the self-defense forces, the following were involved in the operation to destroy the military station in Aghdam District:
Khojavend — commander Movses Hakopyan;
Center — commander Samvel Karapetyan;
Askeran — commander Vitali Balasanyan and Qaren Babayan, commander of the 71st Separate Motorized Rifle Battalion.

The commander of the armored tank unit of the Defense District, M. Avsharyan; the commander of the artillery unit, E. Aslanyan; D. Safaryan; the commander of the engineering and fortification unit, E. Martirosyan; and A. Qalstyan actively participated in that activity.
In order to ensure the effectiveness of the counteroffensive operation, at the beginning of February a 180-person group from the Askeran Defense District, led by Vitali Balasanyan, was sent in the direction of Kalbajar District. The group's task was to recapture the Omar Pass.
In addition, in order to repel the offensive of the Army of the Republic of Azerbaijan, Artur Harutyunyan led a 200-person unit selected from the 4th Defense District in the south-east.

Page 928
At the beginning of the offensive, Martik Chahangiryan's personnel — mechanic-driver Hrayr Abresyan and gunner-operator Qarnik Petrosyan — took part in the operation.
Combat operations conducted in the eastern direction were led from the command post located in Goytapa by the commander of the 4th Defense District, Lieutenant Colonel Vitali Balasanyan.
As a result of the reorganization of the Defense District, the combat units were organized as follows:
The Veringshen detachment — 75 personnel, commander Novik Gülümyan;
Lower Aghjakend (Nerkinshen) — 39 personnel, commander Vartan Mkrtumyan;
Buzluq — commander Hamlet Stepanyan, 13 personnel;
Yergech — 37 personnel, commander Qamo Havhanisyan;
Hayparis — 33 personnel, commander Civan Amiryan;
A battalion from Qarachinar, also including Xrkharput — commander Vaqif Gevorkyan;
Qakhtud — commander Rudik Yeghyan;
Manas village — commander Vartan Malkasyan.
Detachments:
Personnel: 152 persons.
Battalion commander: Kolya Petrosyan.
Chief of staff: Genadi Ghulyan, and a 25-person group from Gülüsat. Commander: Poghos Meghryan.

The 5th "Defense District"
In the middle of 1988, in addition to volunteer groups, detachments began to be formed in the district. Among the leaders of the covertly operating volunteer detachments were Vaqif Qalstyan and chief of staff Haykaz Baghmanyan.
By the end of 1991, nearly 50 self-defense detachments were operating in almost all villages of the district. In the city of Aghdara alone, there were three volunteer detachments. They were led by A. Baghdasaryan, A. Naftalyan, and V. Minasyan. In addition, detachments and groups were also formed in Talish village.
In general, A. Khalapyan was commander of the 1st volunteer detachment; the commanders of the 2nd partisan detachment were S. Iskandaryan and S. Sarkisyan. In Aychestan, that is, Ballija village of Khojaly District, Q. Antonyan; in Haykaduz, J. Poghosyan; in Maraga, R. Karapetyan; in Varngatag, A. Mirzabekyan; in Qiziloba, that is, Qirmizikend, Y. Qalstyan; in

Chardaqli, that is, Maghavuz, Q. Badalyan; in Aghabekalij and Mokhratagh, V. Balayan; in Lower Oratagh, V. Hayrapetyan; in Chaghashen, V. Avagimyan; in Zaqliq, A. Harutyunyan; in Hasanriz, that is, Haterk, Z. Harutyunyan; in Zardakhach, Z. Sarkisyan; in Chapar, H. Grigoryan; in Getavand, A. Sarkisyan and H. Tamrazyan; in Upper Oratagh, R. Saiyan; in Qochoghot, H. Adamyan and Q. Poghosyan; in Vaghuhas and Khngaban, H. Aghabekyan; in Harutyunagomer, A. Bakhshiyan; in Heyvali, that is, Drombon, S. Aslanyan; in Poghosagomer, V. Begyan; in Gülyatag, N. Danelyan; in Chanqatagh, S. Cahangiryan; in Childiran, S. Arzumanyan; in Gazanchi, T. Arustamyan; in Qichan, Q. Arakelyan; in Chmakhog, A. Avanesyan; in Shahmasor, M. Stepanyan; in Veng, Y. Hakopyan; in Arachadzor, M. Alaverdyan; in Tbgluda, V. Grigoryan; in Qarnakard, N. Zakaryan; and in Koladag, O. Balasanyan served in these roles.

On 11 March 1992, the Armenians launched a counteroffensive in the Qichan direction from the 1st Defense District. The offensive was led by commander Vitali Balayan; in Bash Gunepaya, by commander A. Ghulyan; and in Qarachilar, by commander Q. Antonyan.

In 1992, the Armenians created a Defense Ministry in the direction of Chayli under the leadership of commander Qurgen Antonyan and chief of staff Robert Ayvazyan. In that battle, Rubik Abrahamyan and his fellow villagers particularly distinguished themselves. The commander of the artillerymen was Vladik Khachatryan. Later, he was appointed chief of artillery of the Defense Army, and subsequently deputy major general for “AHDA” to the commander of the Defense Army.
The founder and first chief of the artillery service of the Defense Army was Major General Jora Gasparyan, nicknamed “GRAD Jora.”

The defense of Chanyatagh was carried out under the leadership of Ashot Ghulyan, nicknamed “Begor,” commander of the 1st Khankendi company. On 3 July, by order of Serzh Sarkisyan, chairman of the Defense Committee, Seyran Ohanyan was dispatched to the Aghdara front and began performing the duties of front commander.

Page 929
Alongside this, Arkadi Ter-Tadevosyan, nicknamed “Commandos,” and Felix Ghazoyan were also there.

Combat operations in the Aghdara direction were carried out with the participation of commander Haykaz Ananyan and chief of staff Vitali Harutyunyan. Armen Naftalyan, commander of the control post in the Heyvali, that is, Drombon, direction, and Artur Aleksanyan in the Vaghuhas direction also participated.
In December 1993, under Order No. “002,” Norayr Eduardi Danelyan was appointed commander of the Defense District.

As deputy commander of the Defense District, Ashot Arshusanyan was appointed; as chief of staff, Haykaz Baghmanyan; as deputy for RAS, Yura Mkhitaryan; as deputy for rear services, Ignat Harutyunyan; as chief of reconnaissance, Razmik Harutyunyan; as chief of artillery,

Qarnik Israelyan; as chief of communications, Hrant Baghdasaryan; as chief of air defense, Samvel Haghubyan; as chief of medical service, Pavel Atayan; and as chief of engineering service, Seyran Chamrahanyan.

The leadership of the battalions of the Defense District was appointed as follows:

1st — 41st motorized rifle battalion:

Battalion commander: Kamo Nalbandyan;
Deputy battalion commander: Vladik Manqasaryan;
Chief of staff of the battalion: Zarmik Marqosyan.
Company commanders: Varujan Begnazaryan, Albert Hayrapetyan, Temur Arustamyan.

2nd — 42nd motorized rifle battalion:

Battalion commander: Vago Beglaryan;
Deputy battalion commander: Rafik Saiyan;
Acting chief of staff of the battalion: Alik Sakisyan.
Company commanders: Jülver Seryan, Hambarcum Adamyan, Rashid Arakelyan.

3rd — 43rd motorized rifle battalion:

Battalion commander: Ilich Baghiryan;
Acting deputy battalion commander: Mikael Arzumanyan, commander of the 1st company;
Chief of staff of the battalion: Nikolay Avagimyan.
Company commanders: Edik Musaelyan, Sergey Apants, Mais Arustamyan.

4th — 44th motorized rifle battalion:

Battalion commander: Yura Hakobyan;
Deputy battalion commander: Aramais Poghosyan;
Chief of staff of the battalion: Ardavaz Sarkisyan.
Commanders of company and separate units: Sherjik Abrahamyan, Mesik Mkrtchyan;
Commander of Vladimir’s detachment: Sasun Hakopyan, and from April 1993 Suren Qalstyan;
Commander of the 122-mm howitzer division: Vladik Khachatryan;
Commander of the BM-21 YARS battery: Qarik Harutyunyan, later Sanasar Gurjyan;
Commander of the air-defense anti-aircraft battery: Manvel Sarkisyan;
Commander of the separate tank company: Volodya Sarkisyan;
Commander of the ZTR separate repair squad: Aram Avaqyan;
Commander of the separate engineering-fortification company: Volodya Avanesyan.

Page 930

The 6th “Defense District”

The 6th Defense District was created on 25 June 1992 in Hasanriz village by the “Yegnikler” partisan detachments. The general staff of the detachments included Safaryan, and in Getashen, B. Boyakhchyan.

The combat detachments and units were reorganized in terms of number and composition as follows:

Veringshen detachment — 75 personnel, commander Novik Gülümyan;
Nerkishen, Aghjayan settlement — 39 personnel, commander Vartan Mkrtumyan;
Buzluq village — Hamlet Stepanyan, 13 personnel;

Yergech — 37 personnel, commander Qamo Ihavanisyan;
Hayparis — 33 personnel, commander Civan Amiryan;
Battalion from Qarachinar, which also included Xrkharpor — commander Vaqif Gevorkyan;
Qakhtud — commander Rudik Yeghyan;
Manas village — commander Vartan Malkhasyan.
Detachments:
Personnel: 152 persons;
Battalion commander: Kolya Petrosyan;
Chief of staff: Genadi Qulyan; and a 25-person group from Gülüstan, commanded by Poghos Meghryan.
In 1994, Sergey Celanyan was appointed commander of the 6th Defense District, and two battalions were created within it. Vanya Surani Gigiyan and Davit Petrosyan were appointed commanders of the battalions. In addition, some time later, a 3rd Battalion was created under the command of Q. Harutyunyan.
Those who fought within the 6th Defense District and were awarded were:
S. Meghryan, S. Chalyan, A. Gülümyan, S. Nahabedyan, D. Petrosyan, X. Martirosyan, Q. Harutyunyan, A. Gechyajyan, Y. Malyan, Y. Ayvazyan, F. Giziryan, and V. Giziryan.
In April 1995, the 6th Defense District was reorganized and renamed the 7th Defense District.

The 7th "Defense District"
After the known events, on 18 May, in Chanaqchi, that is, Avodaranç village, a plan of military occupation against Azerbaijanis was launched, first under the command of Mikael Hovsepyan and later under the command of Qaqik Shakaryan.
During that period, the particularly distinguished detachment commanders in the fighting were Vachagan Isakhanyan, commander of the "Vacho" or "Uragan" detachment, and Martik Qasbaryan, commander of the 8th company.

In the summer of 1992, a regular army began to be formed in Karabakh. A battalion was created through the unification of part of the detachments mentioned in Karabakh, in particular the 8th company and the Beradzor detachment. Martik Qasbaryan was appointed battalion commander, and the following persons were appointed company commanders:
1st company, Yeghsakhchili — commander Hrachik Nasibyan;
2nd company, Mushen — commander Varujan Nasibyan;
3rd company, Hinshen — commander Samvel Hovsepyan;
4th company, Khankendi — commander Vladimir Avanyan;
5th company, Sarkard — commander Davit Jamharıyan.
On the same date, a training battalion was created in Shusha, and Mikael Qabrelyan was appointed its commander.
Thus, the formation process of the 7th Defense District was completed.

In 1993, on the basis of Order No. "111," the 7th Defense District was organized in Shusha on the basis of the Beradzor, Dashalti, 8th, and Shusha commandant companies, the "Uragan" detachment, and the training and women's battalions.

The leadership staff of the 7th Defense District was as follows:
Commander — Vachagan Isakhanyan;
Chief of staff — Mikael Qabrelyan;
Deputy chief of staff — Sergey Beglaryan;
Deputy for RAS — Yuri Khachatryan;
Deputy for rear services — Armen Sarkisyan.

Page 931
Head of the operations department — Mikael Poghosyan;
Chief of reconnaissance — Araik Avakyan;
Chief of communications — Qaregin Babayan;
Chief of engineering service — Arkadi Qabrelyan;
Commander of the 51st Battalion — Vilaim Grasyan;
Commander of the 52nd Battalion — Rafael Grigoryan;
Commander of the 53rd Battalion — Naruk Qabaryan, later Vladimir Avazyan;
Chief of reconnaissance of the 53rd Battalion — Alvaro Sheyan.

The 8th "Defense District"
The battalions of the Defense District were organized on the basis of the following units:
1st motorized battalion:
The battalion consisted of the 1st company, Ago's platoon, Felix's company, and the platoons of Ago and Shoshin.
2nd motorized battalion:
The 4th company, Ago's platoon, the Amaras and Vrej groups, and the platoons of Vado, Shahen, and Borya.
3rd motorized battalion:
The 6th, 3rd, and 7th companies.
Battalion commanders:
1st Battalion — Henrikh Shahen Hakopyan;
2nd Battalion — Qaqik Nikolay Sarkisyan;
3rd Battalion — Samvel Vladimir Harutyunyan.
On 10 October 1992, new staff positions were created under Order No. "011" of the chairman of the Self-Defense Committee.
Under that order, the following persons were appointed in the Central Defense District: Samvel Karapetyan as commander; Razmik Petrosyan as chief of staff; Vladimir Vanyan as deputy for rear services; Andranik Sarkisyan as chief of reconnaissance; Rafik Taradyan as chief of communications; Hrayr Abrahamyan as head of the food service; and Vitali Abresyan as head of the automobile service.
The following persons led the battalions of the Defense District:

1st motorized battalion:
Battalion commander — Henrik Hakopyan;
Deputy battalion commander — Levon Mnatsakanyan;
Chief of staff of the battalion — Arqam Harutyunyan;

Commander of the 1st company — Mikael Arzumanyan;
Commander of the 2nd company — Armen Sakisyan;
Commander of the 3rd company — Albert Güryan.

2nd motorized rifle battalion:
Battalion commander — Qagik Sakisyan;
Deputy battalion commander — Armen Danielyan;
Chief of staff of the battalion — Andrey Sarukhanyan;
Commander of the 4th company — Ashot Balayan;
Commander of the 5th company — Yuri Hakopyan;
Commander of the 6th company — Ashot Grigoryan.

3rd motorized battalion:
Battalion commander — Samvel Harutyunyan;
Deputy battalion commander — Aleksandr Galstyan;
Chief of staff of the battalion — Leonid Avetisyan;
Commander of the 7th company — Andranik Gasparyan;
Commander of the 8th company — Artur Tevanyan;
Commander of the 9th company — Murad Galstyan.

Within the Central Defense District, a reconnaissance platoon operated under the leadership of Sergo Dadayan, and an engineering-fortification company operated under the leadership of Qagik Roster Sarkisyan.
On 13 February 1993, the personnel of the 3rd motorized rifle battalion were tasked with moving in the direction of Heyvali, and for support purposes by order of the regiment commander Samvel…

Page 932
Karapetyan, the reconnaissance personnel of the military unit were also involved in the operation. The reconnaissance personnel were led by Vigen Soghomonyan from Childiran. A Shusha-trained 30-person detachment of the Central Defense District, under the leadership of regiment commander Samvel Karapetyan, advanced in the north-western direction of the line of contact. Some time later, a regular artillery unit was created within the Central Defense District. Levon Mnatsakanyan was appointed chief of artillery of the regiment. In addition, new appointments were made for the command staff of the rifle units. Thus, after the death of Samvel Harutyunyan, the duties of commander of the 3rd motorized rifle battalion were assigned to Ararat Ghazaryan, and the duties of head of the regiment's operational department were assigned to Vyacheslav Danielyan.

In response to the inquiry sent to the State Security Service of the Republic of Azerbaijan by letter No. 2-2-030/2-032614/2023 dated 13 November 2023, the reply letter prepared by that Service, No. 3-39/2-24/9-54/2024 dated 11 January 2024, stated that the administrative and auxiliary buildings, as well as their structural components, located in the cities of Aghdam, Fuzuli, Jabrayil, and Zangilan and carried on the balance sheet of the State Security Service

of the Republic of Azerbaijan, were destroyed during the period of occupation. The administrative building located in the city of Khankendi is currently partially fit for use.
The initial balance-sheet value of the administrative building located in the city of Aghdam was 30,870 rubles;
the initial balance-sheet value of the service residential administrative building located in the city of Aghdam was 622,275 rubles;
the initial balance-sheet value of the administrative building located in the city of Fuzuli was 26,125 rubles;
the initial balance-sheet value of the guard booth for security personnel located in the city of Fuzuli was 897.50 rubles;
the initial balance-sheet value of the eight-apartment residential building located in the city of Jabrayil was 291,260 rubles;
the initial balance-sheet value of the eight-apartment residential building located in the city of Zangilan was 165,135 rubles;

The value of the administrative building located in the city of Khankendi was 425,735 rubles.
In response to the inquiry sent to the Ministry of Economy of the Republic of Azerbaijan by letter No. 2-2-030/2-036785/2023 dated 29 November 2023, the reply letter prepared by that Ministry, No. 3-21/2-320/2024 dated 15 January 2024, stated that, for the purpose of determining the damage caused to immovable properties that had existed in the territories liberated from occupation before the occupation period, with the participation of representatives of state enterprises, institutions, and organizations, as well as central and local executive authorities, 164,834 immovable properties — buildings and structures — had been digitized and vectorized through the Karabakh Digital Geoinformation System. Of these, 145,526 had been recorded, and their ownership had been determined.

In response to the inquiry sent to the Logistics Department of the Prosecutor General's Office of the Republic of Azerbaijan by letter No. 2-2-030/3-000511/2024 dated 8 January 2024, the reply letter prepared by the Logistics Department, No. 19.01.2024-ü il tarixli 2-2-00/3-002485/2024, stated that, because the administrative buildings used by prosecutorial authorities before the occupation were not on the balance sheet of the Prosecutor General's Office of the Republic of Azerbaijan, it had not been possible to obtain other necessary information. Only the following had been established:

The Gubadli District Prosecutor's Office, located on Lenin Street, consisting of two floors and five rooms, had been demolished.
The Lachin District Prosecutor's Office, located on Kommunist Street, consisting of two floors, a basement, and four rooms, had become unusable.
The Kalbajar District Prosecutor's Office, located on Nizami Avenue, consisting of one raised-floor level and six rooms, had been demolished.
The canteen of the Kalbajar District Prosecutor's Office, located on Nizami Avenue, consisting of one floor and two rooms, had been demolished.
The guest house of the Kalbajar District Prosecutor's Office, located on Nizami Avenue, consisting of one floor and three rooms, had been demolished.

The Shusha District Prosecutor's Office, located on Kommunist Street, consisting of three rooms on the third floor of a three-story building, had become unusable.
The Fuzuli District Prosecutor's Office, located on Inshaatcilar Street, consisting of three floors, a basement, and 20 rooms, had been demolished.
The Zangilan District Prosecutor's Office, located on Husu Hajiyev Street, consisting of three floors, a basement, and 20 rooms, had become unusable.

Page 933

The Jabrayil District Prosecutor's Office, located on M. A. Rasulzada Street, consisting of four floors, a basement, and 20 rooms, had become unusable.
The Aghdam District Prosecutor's Office, located at 13 Tofig Ismayilov Street, consisting of five floors, a basement, and eight rooms, had been demolished.

According to letter No. 19-3/2-65/2024 dated 27 February 2024, received from the State Commission of the Republic of Azerbaijan on Prisoners of War, Hostages and Missing Citizens, the remains of 25 Azerbaijanis who went missing during the First Karabakh War had been identified, and their identities had been established. They are as follows:

1. One set of remains discovered in the area of Dashalti village, Shusha District, was determined to belong to **Nureli Hacibaba oghlu Abdullayev**, a military serviceman, who was born on 19 December 1960 in Surakhani District, Baku city, and went missing on 26 January 1992 in the area of Dashalti village, Shusha District.
2. One set of remains discovered in the area of Dashalti village, Shusha District, was determined to belong to **Nofel Nariman oghlu Gurbanov**, a military serviceman, who was born on 3 December 1971 in Sabunchu District, Baku city, and went missing on 26 January 1992 in the area of Dashalti village, Shusha District.
3. One set of remains discovered in the area of Dashalti village, Shusha District, was determined to belong to **Araz Baghi oghlu Rustamov**, a military serviceman, who was born on 7 April 1968 in Gilazi settlement, Khizi District, and went missing on 26 January 1992 in the area of Dashalti village, Shusha District.
4. One set of remains discovered in the area of Dashalti village, Shusha District, was determined to belong to **Gulverdi Aghahuseyn oghlu Huseynov**, a military serviceman, who was born on 25 February 1961 in Gobu settlement, Absheron District, and went missing on 26 January 1992 in the area of Dashalti village, Shusha District.
5. One set of remains discovered in the area of Dashalti village, Shusha District, was determined to belong to **Maharram Abbas oghlu Abbasov**, a military serviceman, who was born on 26 February 1961 in Nizami District, Baku city, and went missing on 26 January 1992 in the area of Dashalti village, Shusha District.
6. One set of remains discovered in the area of Dashalti village, Shusha District, was determined to belong to **Adil Kamal oghlu Niftaliyev**, a military serviceman, who was born on 24 July 1966 in Kichik Buraxum village, Khachmaz District, and went missing on 26 January 1992 in the area of Dashalti village, Shusha District.

7. One set of remains discovered in the area of Dashalti village, Shusha District, was determined to belong to **Baba Balakishi oghlu Mikayilov**, a military serviceman, who was born on 22 September 1969 in Goylar village, Shamakhi District, and went missing on 26 January 1992 in the area of Dashalti village, Shusha District.
8. One set of remains discovered in the area of Dashalti village, Shusha District, was determined to belong to **Elmar Ingilab oghlu Mammadov**, a military serviceman, who was born on 25 May 1967 in Baku city and went missing on 26 January 1992 in the area of Dashalti village, Shusha District.
9. One set of remains discovered in the area of Dashalti village, Shusha District, was determined to belong to **Veysal Gasim oghlu Gasimov**, a military serviceman, who was born on 17 November 1963 in Baku city and went missing on 26 January 1992 in the area of Dashalti village, Shusha District.
10. One set of remains discovered in the area of Dashalti village, Shusha District, was determined to belong to **Riad Fikrat oghlu Ahmadov**, a military serviceman, who was born on 20 December 1956 in Sabail District, Baku city, and went missing on 26 January 1992 in the area of Dashalti village, Shusha District.
11. One set of remains discovered in the area of Edilli village, Khojavend District, was determined to belong to **Shamsaddin Avaz oghlu Allahverdiyev**, a military serviceman, who was born on 1 July 1971 in Ishigli village, Fuzuli District, and went missing on 27 March 1993 in Juvarli village, Fuzuli District.

Page 934

12. It was determined that one of the sets of human remains discovered in the area of Edilli village, Khojavend District, belonged to **Ali Heydar oghlu Huseynov**, a military serviceman, who was born on 13 August 1968 in Yukhari Yaghlivand village, Fuzuli District, and went missing on 6 August 1993 in the area of Govshatli village, Fuzuli District.
13. It was determined that one of the sets of human remains discovered in the area of Edilli village, Khojavend District, belonged to **Asad Mammad oghlu Mammadov**, a military serviceman, who was born on 9 September 1966 in Yenalli village, Aghstafa District, and went missing on 31 August 1993 in the area of Kurdmahmutlu village, Fuzuli District.
14. It was determined that one of the sets of human remains discovered in the area of Edilli village, Khojavend District, belonged to **Seyfulla Veytulla oghlu Tahirov**, a military serviceman, who was born on 1 February 1973 in Jafarxan village, Saatli District, and went missing on 31 August 1993 in the area of Kurdmahmutlu village, Fuzuli District.
15. It was determined that one of the sets of human remains discovered in the area of Edilli village, Khojavend District, belonged to **Abulfat Sabir oghlu Atamoglanov**, a military serviceman, who was born on 4 July 1967 in Kursangi village, Salyan District, and went missing on 31 August 1993 in the area of Kurdmahmutlu village, Fuzuli District.
16. It was determined that one of the sets of human remains discovered in the area of Edilli village, Khojavend District, belonged to **Tahsin Fikran oghlu Hajiyev**, a military serviceman, who was born on 27 April 1973 in Qaradaghli village, Salyan District, and went missing on 31 August 1993 in the area of Kurdmahmutlu village, Fuzuli District.

17. It was determined that one of the sets of human remains discovered in the area of Edilli village, Khojavend District, belonged to **Vugar Habil oghlu Asadov**, a military serviceman, who was born on 29 June 1974 in Baku, Qaradagh District, and went missing on 31 August 1993 in the area of Kurdmahmutlu village, Fuzuli District.
18. It was determined that one of the sets of human remains discovered in the area of Edilli village, Khojavend District, belonged to **Ahmad Tahir oghlu Babasov**, a military serviceman, who was born on 11 January 1974 in Bagbanlar village, Bilasuvar District, and went missing on 31 August 1993 in the area of Kurdmahmutlu village, Fuzuli District.
19. It was determined that one of the sets of human remains discovered in the area of Edilli village, Khojavend District, belonged to **Cahangir Mami oghlu Khalafov**, a civilian, who was born on 1 June 1933 in Dordchinar village, Fuzuli District, and went missing on 3 September 1993 in that area.
20. It was determined that one of the sets of human remains discovered in the area of Edilli village, Khojavend District, belonged to **Jahid Shafa oghlu Naghiyev**, a military serviceman, who was born on 26 August 1969 in Ashaghi Seyidahmadli village, Fuzuli District, and went missing on 5 August 1993 in the area of "Murquzlu" Mountain, also known as the "Uchtapa" height, in Fuzuli District.
21. It was determined that one of the sets of human remains discovered in the area of Yenikend village, Kalbajar District, belonged to **Yusif Ismayil oghlu Azizov**, a civilian, who was born on 1 June 1952 in Taxtabashi village, Kalbajar District, and went missing on 27 March 1993 in the area of Chiragli village, Kalbajar District.
22. It was determined that one of the sets of human remains discovered in the area of Yenikend village, Kalbajar District, belonged to **Mehman Jamal oghlu Musayev**, a civilian, who was born on 1 June 1963 in Taxtabashi village, Kalbajar District, and went missing on 27 March 1993 in the area of Chiragli village, Kalbajar District.
23. It was determined that one of the sets of human remains discovered in the area of Yenikend village, Kalbajar District, belonged to **Qafar Qambar oghlu Qarayev**, a civilian, who was born on 1 June 1939 in Taxtabashi village, Kalbajar District, and went missing on 27 March 1993 in the area of Chiragli village, Kalbajar District.
24. It was determined that one of the sets of human remains discovered in the area of Chirag village, Kalbajar District, belonged to **Sanam Hasan gizi Isayeva**, a civilian, who was born on 1 June 1948 in Istisu settlement, Kalbajar District, and went missing on 2 April 1993 in that area.

Page 935

25. It was determined that the human remains exhumed from the grave of an unidentified martyr buried in the cemetery of Shammadli village, Imishli District, belonged to **Valiyaddin Sohrab oghlu Ibrahimov**, a military serviceman, who was born on 7 April 1971 in Aranli settlement, Yevlakh District, and went missing on 19 January 1994 in the area of Shukurbayli village, Fuzuli District.

In response to the inquiry sent to the Personnel Department of the Internal Troops of the Ministry of Internal Affairs of the Republic of Azerbaijan by letter No. 2-2-030/2-

016593/2024 dated 8 March 2024, the reply letter prepared by that body, No. 3-13-14/2-1281/2024 dated 8 March 2024, stated that during the Patriotic War in 2020, 346 servicemen of the Internal Troops were wounded and 66 became martyrs; and during the anti-terror operation carried out in 2023, 12 persons became martyrs and 24 persons were wounded.

It appears from the response classified as confidential given by the Ministry of Defense of the Republic of Azerbaijan to the inquiry sent to that Ministry, and from the audio recordings contained on the CD attached to it, that during the Patriotic War in 2020, the following conversations took place among Armenians on the dates and with the content indicated below, and that these conversations further proved their commission of the noted crimes.

31 October 2020

Time: 12:27, F-137.225

33-101

101: Listen, 33, as the former head of the rescue service, I am very grateful; the smoke is choking [us], there are wounded, but from behind one battalion of spetsnaz is coming, they are also choking. So fulfill your obligations and duties; burn the new forests.

33: Understood. It is just that there are many wounded and dead there.

101: Organize evacuation. They are in that situation there. As much as possible, quickly burn all the forests and so on.

?: 101-33, do you copy?

?: I copy. As the former owner/head of PKK, thank you very much, I am grateful. We are choking from the smoke, we have wounded, a spetsnaz battalion has arrived, and they are also choking. So continue to carry out the assigned tasks — that is, burn the forests. How do you copy?

?: Copy. All those wounded and dead…

?: Good, now let evacuation be organized. There is also one more battalion; have them record its identity as well. Then burn the entire forest, brother; burn as much of the forest as you can.

?: Good, good.

92-11: Calling.

?: Is 51 ready?

?: I did not copy.

KM conclusion: It is presumed that, in order to prevent an attack by units of the Azerbaijani Army in the Dashalti direction, the commander of the 1st MRB gave an instruction to the chief of reconnaissance of the 1st MRB to burn the forests. The exchange included the following: “from behind, one battalion of spetsnaz is coming, they are also choking”; “the smoke is choking”; “burn the forests.”

Radio conversations

27 September 2020

Time: 11:16–11:41, Frequency 141.859 MHz, QSQ 3

It starts on the left side, from those trees, from the base, on the left side. A tank is positioned 500 meters, 600 meters away; they are striking our men. All of them are working on that strip…

?: In that case, do it quickly, hit the tank, [expletive].

Time: 15:14–15:16, Frequency 155.700 MHz, QSQ HHM
?: First order: if an aircraft or helicopter is seen, open fire in the first attack. Do you copy?
12: I copy, Qrunk.
Time: 16:12–16:15, Frequency 148.795 MHz, QSQ 6, DAA HHM
611: Has it taken off from Kurdamir?
150: One pair took off from Kurdamir and one from Dalilar.
611: Yes, but it does not know the ground directions.
150: Hit them all; destroy them as soon as they enter the destruction zone.
28 September 2020
Time: 15:52–15:55, Frequency 147.850 MHz, QSQ 6, DAA 1 DAT
?: Hit it with the mortar next to the tank school; hit next to the school, quickly; do it, 52, quickly.
30 September 2020
Time: 09:29–09:35, Frequency 162.625 MHz, QSQ 10, DAD artillery unit, BM-21 Grad
Jraq-10: 107, do you copy?
107: Yes, hit it with the gun.
Time: 12:50–12:51, Frequency 170.150 MHz, QSQ 10, DAD 42 AAA
11: Hit the power line behind that building.
93: Throw it on top of 11. Yes.
MIS Kocharli y.m.
3 October 2020
Time: 13:31–13:42, Frequency 155.300 MHz, QSQ 41 AAA
?: There are three tanks, hit them.
?: There is infantry, hit them.
Time: 13:34–13:34, Frequency 139.270 MHz, QSQ 10, DAD HHM
150: … aircraft, helicopter; hit it for that reason.
Time: 15:16–15:58, Frequency 155.174 MHz, QSQ 10, DAD AQ
31: I can see that there is now a lot of personnel there; hit them, hit that place.
91: 31, is it opposite?
91-11: Yes, I see it. Two people have come out of the line.
31: 91, the size of those units is not known; your mountains are also Madagiz.
91: Open fire.
9 October 2020
Time: 15:54, Frequency 142.400 MHz, QSQ 10, DAD
410: "411," look, post numbers "43," "424," "425" — all of them are theirs. They have filled them all with wounded and dead; they cannot bring them out by vehicle. The ambulance personnel want to rescue and help them. Destroy that direction. We are doing it too. Did you hear, 411?
Time: 17:41–17:44, Frequency 151.770 MHz, QSQ 5, DAA
101: Do not make a sound; strike them suddenly.
Time: 23:17–23:23, Frequency 151.770 MHz, QSQ 5, DAA
?: Did 101 open fire?
?: If necessary, hit them. Do not let them move from beside the bodies. Open fire; tell them to clear out.

?: I copy, 101.
10 October 2020

Page 937

Time: 10:37, Frequency 142.750 MHz, QSQ 59, continued
159: Surround the district, destroy
110: I copy.
15 October 2020
Time: 10:33, Frequency 141.300 MHz, QSQ 5, DAA
113-345
345: On my right, the commander is organizing it there. He said there is a serious body there. They are getting very close for that reason; they want to take it away. Now all of them have fled from there. We told the descendants, there is a serious body there; each time they come for it, take it away, calling out.
16 October 2020
Time: 08:21–08:34, Frequency 141.300 MHz, QSQ 10, DAD
110: Levon, throw grenades. Thwrw are wounded and dead; they are inside the campers. Throw a grenade — the matter will be resolved. Go straight with the mortar; throw one or two grenades; they are already calling out.
22 October 2020
Time: 16:25, Frequency 141.300 MHz, QSQ ÜO
45: The world belongs to us Armenians. However many Armenians there are, they are the owners of the world.
30 October 2020
Time: 09:33, Frequency 138.788 MHz, QSQ 41 AAA
185: Next to the left flank, farther away, a vehicle is coming to the entrance of the village. Watch the vehicle. If it is a vehicle, hit it in the middle with a Fagot.
31 October 2020
Time: 12:27, Frequency 137.225 MHz, QSQ ÜO commander
33-101
101: Listen, 33, as the former head of the old rescue service, I appreciate you very much. The smoke is suffocating [us]; there are wounded, but from behind, a battalion of special forces is coming; they too are suffocating. Therefore, fulfill your obligations and duties; burn the new forests.
33: I copy. It is just that there are many wounded and dead there.
101: Organize evacuation. They are in that situation there. As much as possible, burn all those new forests.
33-101: Yes.
101: It is far away. Burn Barkhudaryan's sector. It is very serious in Barkhudaryan's sector; it is somewhere above the river. Barkhudaryan's … There are wounded …
33: I cannot enter that angle. It is to my right. From there … I will crawl back and get out.

KM conclusion: In order to counter the attack by units of the Azerbaijani Army in the Dashalti direction, the commander of the 1st ÜO gave an instruction to the intelligence chief of the 1st ÜO to burn the forests.

7 November 2020

Time: 10:32, Frequency 141.550 MHz, QSQ 41 AAA

??: Attention. A rocket has been placed in the Shusha direction to strike the enemy. Be careful.

591-135: Yes.

8 November 2020

Time: 12:12, F-150.325 MHz, artillery unit in the Khojavend direction

402-830:

830: Is it ready for the four-way road?

Page 938

402: Yes.

830: A lot of people are coming — approximately 300 people. When they say "ready," let them strike.

402: All right.

13 April 2021

Time: 12:33, Frequency 150.100 MHz

102-131

131: They are only skull bones; nothing else.

102: This must be something frightening — bones and so on. Look carefully.

131: No.

102: 172.

172: There were one or two; I found them. Nothing else.

102: There must be other bones. Look carefully.

172: We are looking.

102: There should be arms and legs. Look carefully.

172: All right, I will search now.

102: Do you hear me, 131?

131: Yes.

102: Is no flesh visible?

131: No.

102: Are there just a few skull bones on top?

131: Yes, only those.

102: Are they digging properly? Let them dig long/deep.

131: All right.

102: Which post is 101 at?

102: Who among the 120s is in contact?

128: Copy.

102: Is 101 near you?

126: Copy, to 132.

102: Understood.

131-102
102: Did you dig lengthwise?
131: Again, they are skull bones.
102: There should be many bones, boys. Dig lengthwise, dig deep.
131: Understood.
102: Do you have plastic sheeting with you?
131: It should be in the tent. I will take it out and put them inside.
102: There must be human arms and fingers there.
131: I will look now.
102: Do you hear me, Bilik post?
110-102
102: Yes, get in touch with the checkpoint.
110: All right.
102-177
?: Go ahead, Alex.
?: Is 101 saying that he found that moment/place?
102: Yes, I found it. There are several pieces of bone. They say those… keep that there too, let me see.
?: Do you hear me, 101?
102-111
Time: 12:33
102: They are only skull bones, but we are still digging. Let us see what we find.

Page 939
102: I will now bring it myself.
?: …
102: Listen, Alex, I did not receive 101. See what he was saying.
?: What should I tell 101?
102: Tell him we found several skull bones and so on; now they are still digging.
?: Do you hear me, 128?
102: …
102: I can hear now.
101: What is it?
102: We found skull bones and so on, but we are still digging.
101: …
102: We are digging now. Once we find that too, I will signal you.
101: Yes, yes, it exists; those shells are theirs, I know.
?: …
102: Good.
?: Has anyone come up toward us?
?: …
?: Do you hear me, 128?
128: I hear you.
?: 123 is asking: has anyone come up toward us?

?: Do you hear me, Sako?
Sako: Yes.
?: … Hayirbeyan.
?: Understood.
?: Do you hear me, Moso?
131-101
101: To 102.
102: Go ahead, I am here.
101: I am asking whether you found anything.
102: Yes, they are skull bones. I will bring them myself now.
101: The people are here; what should I do?
102: Let them wait; I will bring them. There are several skull bones. Let them wait; we will take several skull bones with us.
101: Is it only skulls, or are there other body parts as well?
102: We are digging now. If there is more, we will bring it.
101: …
102: They buried them head and feet together.
101: Are they digging again now?
102: Yes, they are digging.
101: Skull bones…
102: These are one hundred percent what they wanted, because Qaren buried them. That Qaren is our friend, a normal guy. He buried them. Those people who burned Akulyan buried them.
101: I understand. And what pieces did you find there?
102: Pieces of skull.
101: Bring whatever you find.
102: Understood.
Time: 12:43
MM-164
164: Is everything normal?
MM: Everything is normal.
169-164

Page 940
164: Have you not finished?
169: …
164: There is no one.
164-163-MM
163: Tell 110 that we found one or two more pieces.
110-164-MM
164: The one at 163 says they found two or three more pieces.
110: Good.
131-102-MM
102: Do you hear me, Chor?

131: Yes.
102: What have you done? I cannot keep standing down here.
131: There are only one or two pieces from that skull, nothing else.
102: Then tell him to put them in a bag and come running.
131: Understood. He is putting them in the bag.
102: Bring them.
163-164-MM
164: …
163: Shall we leave it there?

19 September 2023
Time: 15:17, Frequency 145.512 MHz
Voluntary detachment involved in reinforcement in the 3rd motorized-rifle brigade's defensive zone, in the Dağyurdu–Gənəyirman direction
?: About 200 people have appeared in front of me.
?: Now they are in the bunker, set it on fire.
?: There are 25 of them. Let them work on the area above the fuel station of Amirxanli village.
Time: 15:58
?: Hamo, do you hear me? There are more than 200 people at the post. Fire at them, let us destroy all of them. They are all Turks. Hit all of them. They have fallen into one group.

Page 941
The statements given during the preliminary investigation by the legal successors of the injured parties, by the injured parties themselves, and by witnesses were examined in court.

The testimony given during the preliminary investigation by **Babayev Qafqaz Qabil oghlu**, the brother and legal successor in the case of the injured person **Babayev Zabil Qabil oghlu**, was read out in court. In that statement, he indicated that on 1 January 2021, his brother Zabil Babayev, together with his cousin Ehtiram Qasimov, crossed on foot through Shukurbeyli village in Fuzuli District and entered the territory of the newly liberated village of Qorgan in order to become familiar with the newly liberated areas for the purpose of grazing his small livestock. There, as a result of a mine explosion, he sustained serious bodily injuries. Although he was removed from the area with the help of local villagers who had learned about the incident and was taken to hospital, he died from the injuries he had received.

The testimony given during the preliminary investigation by **Qasimov Ehtiram Eyvaz oghlu**, who was questioned as a witness, was read out in court. In that statement, he indicated that on 1 January 2021, at approximately 09:00 in the morning, Zabil Babayev called him to the house where he lived, and they met in the yard. During their conversation, Zabil Babayev asked him to go to the outskirts of Shukurbeyli village in order to graze his small livestock and to become familiar with new grazing areas. They went to that area together on foot and saw that the place where they were located was the newly liberated village of Qorgan.

At that time, Zabil Babayev was walking ahead, while he was following behind Zabil. Zabil entered the area of a former trench that lay in front of them and, after moving a little further, he heard three explosions and realized that these were mine explosions. As a result, Zabil Babayev lost both legs in the mine explosion. Later, together with villagers who had come to help Zabil Babayev, they removed him from the area and transported him to a hospital in an emergency medical service vehicle. However, it was not possible to save Zabil Babayev's life, and he became a victim of mines planted by Armenian servicemen.

The testimony given during the preliminary investigation by the injured person **Mamishov Rafis Mahadin oghlu** was read out in court. In that statement, he indicated that he had known Behruz Imanov and his fellow villager Azad Mukhtarov for a long time and that they had normal relations. On 1 February 2021, they met together in Dashburun settlement of Beylagan District and decided to go the following day in Behruz Imanov's truck to the liberated territories of Fuzuli District to look around.

The next day, that is, on 2 February 2021, at approximately 15:00, together in Behruz Imanov's truck, they entered the liberated territory of Fuzuli District by passing without authorization through an area known as "Harami Duzu." There, they saw many unused metal remnants, loaded them into the vehicle, and, while driving back in order to leave Fuzuli District, he suddenly heard the sound of an explosion and lost consciousness. When he woke up, he realized that he was in hospital, that he had been injured, that his fellow villager Azad Mukhtarov was in the same ward as him, and that both of them had been injured. From the people in the ward, he heard that Behruz Imanov had died as a result of the explosion.
The statements given during the preliminary investigation by the injured person **Mukhtarov Azad Aydin oghlu**, by **Imanov Azad Telman oghlu**, the brother and legal successor in the case of the injured person **Imanov Behruz Telman oghlu**, and by **Mamishov Rafis Mahadin oghlu** were read out in court. They gave statements of similar content and confirmed the facts they had indicated.

The testimony given during the preliminary investigation by **Ibayev Huseyn Gurban oghlu**, a resident of the 11th Gayidish settlement of Fuzuli District, who was questioned as a witness, was read out in court. In that statement, he indicated that on 2 February 2021, together with his son Ceyhun Ibayev and his cousin Rovshan Aliyev, he went in a white GAZ-24 vehicle along an unofficial road to the liberated village of Seyidahmadli, looked around there, saw ownerless metal remnants, loaded them into the vehicle, and then drove back.

On the way back, at around 18:00, while he was driving the vehicle, he saw a GAZ-53 truck moving approximately 500 meters away from them. After some time, he heard the sound of an explosion, returned, and saw that the truck had been destroyed as a result of a mine explosion.

As a result of the incident, one person unknown to him died at the scene, while two other persons sustained serious bodily injuries. As he approached the scene, servicemen and police officers, who had also heard the sound, arrived there.

The statements given during the preliminary investigation by witness **Ibayev Jeyhun Huseyn oglu** and by his father, **Ibayev Huseyn Gurban oglu**, were read out in court. They gave statements of the same content and confirmed the stated facts.

The testimony given during the preliminary investigation by the injured person **Hashimov Elnur Aydin oglu** was read out in court. In that statement, he indicated that he and his friend **Nuriyev Nuru Aslan oglu** went in Nuru Nuriyev's **VAZ-2107** vehicle to the liberated village of **Ashaghi Abdurrahmanli**. After getting out of the car, they continued on foot. At that time, Nuru Nuriyev, who was at some distance from him, was injured as a result of a mine explosion. When he approached Nuriyev in order to help him, he himself was injured as a result of the explosion of another mine.

Nuru Nuriyev called his brother on his mobile phone, told him where they were, and informed him about the incident. After that, Hashimov lost consciousness, and when he regained consciousness, he saw that he was in hospital. From the people around him, he learned that Nuru Nuriyev had died at the scene before being transported to hospital. They had gone to that area in order to find out whether there was a suitable pasture there for grazing livestock.

It appears from the statement of **Nuriyev Aslan Jamil oglu**, the father and legal successor in the case of the injured person **Nuriyev Nuru Aslan oglu**, which was examined by being read out in the courtroom, that he gave a statement similar in content to that of the injured person **Hashimov Elnur Aydin oglu** and confirmed the stated circumstances.
The testimony given during the preliminary investigation by **Guliyev Bahadir Mahi oglu**, the father and legal successor in the case of the injured person **Guluzada Charkaz Bahadir oglu**, was read out in court. In that statement, he indicated that his son **Charkaz Guliyev** and his son-in-law **Amid Asadov** had lived with him in the same house. On **29 September 2022**, while he was not at home, Amid and Charkaz left the house and told the family members that they were going to the liberated territories of **Fuzuli District** in order to find work in construction.
That day, Amid and Charkaz did not return home. Since Charkaz had changed his mobile number shortly before the incident and obtained a new number, he did not know Charkaz's mobile number and therefore could not contact either Charkaz or Amid by phone.

The following day, he went to the liberated territories and began searching for Amid Asadov and Charkaz Guliyev. He even gave his mobile number to servicemen serving in the area and told them that he was looking for his son and son-in-law. That same evening, in the area of **Yukhari Yaghlivand** village of Fuzuli District, he saw the bodies of his son Charkaz Guliyev and his son-in-law Amid Asadov together. From the disturbed ground near their bodies, he understood that both of them had died as a result of a mine explosion.

It appears from the statement of **Mehizade Aynur Mehi Bahadir gizi**, the wife and legal successor in the case of the injured person **Asadov Amid Fatulla oglu**, which was examined by being read out in the courtroom, that she gave a statement similar in content to that of **Guliyev Bahadir Mahi oglu** and confirmed the stated circumstances.

The testimony given during the preliminary investigation by **Alishov Nasib Ogtay oglu**, the child and legal successor in the case of the injured person **Alishov Ogtay Bayram oglu**, was read out in court. In that statement, he indicated that his father Ogtay lived with him in the same house and was not officially employed anywhere. He was engaged in grazing the small livestock kept in his private household.

On **1 May 2023**, his father took the small livestock to graze around **Horadiz** village. However, unlike on previous days, on **1 May 2023** his father Ogtay went approximately one kilometre farther, crossed into the liberated territory of Horadiz village, carelessly entered a mined area, and died as a result of a mine explosion.

The testimony given during the preliminary investigation by witness **Jafarov Habil Maarif oglu**, head of Demining Group No. 3 of the Mine Action Agency of the Republic of Azerbaijan

was read out in court. In that statement, he indicated that the group under his leadership was carrying out demining operations in the area of **Horadiz** village, Fuzuli District. On **1 May 2023**, the place where the injured person **Ogtay Alishov** died as a result of a mine explosion was located beside a motor road, and the entire area had been mined by Armenian servicemen during the period of occupation. At the location where the incident occurred, a **TM-7 anti-tank mine** had previously exploded.

During the investigation, employees of Demining Group No. 3 of the Mine Action Agency of the Republic of Azerbaijan — **Guliyev Samir Zahir oglu**, **Hashimov Safar Sanani oglu**, **Jamilli Emin Tofig oglu**, and **Mammadov Elvin Adil oglu** — were questioned as witnesses. In their statements, they confirmed the circumstances described by **Jafarov Habil Maarif oglu**.
The testimony given during the preliminary investigation by the injured person **Khalilov Elshan Eyvaz oglu** was read out in court. In that statement, he indicated that he worked as a truck driver at **“Korpu-Bina Tikinti” LLC**, a company carrying out construction work in the liberated territories. In July 2021, as an employee of that company, he took part in the construction of bridges on the **Victory Road** being built in Fuzuli District.

On **12 July 2021**, at around **11:00**, he entered a hut-like structure located near the construction site in order to drink water. After drinking water and leaving the hut, he saw a piece of iron on the ground. Thinking that it might damage a vehicle tyre, he picked it up in order to move it aside. As he threw it aside, an explosion occurred and he lost consciousness.

When he regained consciousness, he saw that he was in hospital. He confirmed that he is currently undergoing treatment and that numerous shrapnel fragments remain in his body.

It appears from the statement of **Imanov Anar Jahangir oglu**, who was questioned as a witness and worked as an engineer at **"Korpu-Bina Tikinti" LLC**, which was examined by being read out in the courtroom, that he confirmed the facts described by the injured person **Khalilov**
Elshan Eyvaz oglu.

The testimony given during the preliminary investigation by the injured person **Huseynov Gilman Nidayat oglu** was read out in court. In that statement, he indicated that on **2 August 2022**, together with his colleagues **Alizade Rovshan Ruslan oglu** and **Shukurov Yadigar Dilavar oglu**, he went to an empty field in the area of the liberated village of **Garakhanbayli** in order to carry out demining work. Servicemen referred to that area as the **"Ohanyan line,"** and the area was mined.

Their work consisted of detecting mines buried there, clearing the area, and also collecting concrete posts buried there. That day, at around **10:00**, as he approached a concrete post, a mine exploded and he was injured. With the help of his other colleagues, he was removed from the area and transported to hospital by car.

It appears from the statements of the injured persons **Shukurov Yadigar Dilavar oglu** and **Alizade Rovshan Ruslan oglu**, examined by being read out in the courtroom, that they confirmed the circumstances described by **Huseynov Gilman Nidayat oglu** and gave statements of the same content.

The testimony given during the preliminary investigation by witness **Jafarov Habil Maarif oglu**, an employee of the Mine Action Agency of the Republic of Azerbaijan, was read out in court. In that statement, he indicated that on the morning of **22 January 2021**, he was in the liberated village of **Mehdili**, Jabrayil District. At that time, he, together with his colleagues **Sultanov Azer Ali oglu** and **Namazov Fuad Maharram oglu**, had been assigned to clear an area mined by Armenians during the period of occupation.
After giving instructions regarding the demining work, he left the area by car. Hearing the sound of an explosion, he returned and saw that **Azer Sultanov** had been injured after stepping on an anti-personnel mine while moving on foot.

It appears from the statement of witness **Namazov Fuad Maharram oglu**, examined by being read out in the courtroom, that he confirmed the circumstances described by **Jafarov Habil Maarif oglu**.

Page 944

The testimony given during the preliminary investigation by the injured person **Mirzaliyev Guloglan Imran oglu** was read out in court. In that statement, he indicated that on **25**

February 2021, at around **14:00**, while moving toward a hill in the direction of **Mehdili** village of **Jabrayil District**, which had been liberated from occupation, in order to graze his animals, an explosion occurred, and he was seriously injured as a result of the explosion. His fellow villager **Afsel Mirzaliyev** also saw the incident. The latter immediately came up to him and saw that he had been injured, and then called another fellow villager, **Umid Aliyev**, to help. After some time, Umid Aliyev came to the place where they were in his car and took him to hospital.

The testimony given during the preliminary investigation by **Mirzaliyev Afsar Sadrkhan oglu**, a resident of **Jojug Marjanli** village of **Jabrayil District**, who was questioned as a witness, was read out in court. In that statement, he indicated that on **25 February 2021**, at approximately **14:00**, while grazing his animals in the area of **Mehdili** village, he heard the sound of an explosion. He began looking for his fellow villager **Guloglan Mirzaliyev**, who had been grazing animals nearby, and, when he reached the place where he was, he saw Guloglan lying on the ground. Seeing that Guloglan Mirzaliyev had been injured as a result of a mine explosion, he called another fellow villager, **Umid Aliyev**, for help in order to take him to hospital. Umid Aliyev came to the scene and took Guloglan Mirzaliyev to hospital by car.

It appears from the statement of **Aliyev Umid Ganimat oglu**, who was questioned as a witness and whose statement was examined by being read out in the courtroom, that he gave a statement similar in content to that of witness **Mirzaliyev Afsar Sadrkhan oglu** and confirmed the stated fact.

It appears from the statements of employees of the Mine Action Agency of the Republic of Azerbaijan — **Guliyev Samir Zahir oglu**, **Hasanov Joshgun Garjugay oglu**, **Hasanov Ibrahim Zahir oglu**, and **Jafarov Habil Maarif oglu** — who were questioned as witnesses and whose statements were examined by being read out in the courtroom, that they gave statements similar in content to that of the injured person **Bahruz Nasirov** and confirmed the stated fact.

The testimony given during the preliminary investigation by the injured person **Valiyev Ruhid Sultan oglu** was read out in court. In that statement, he indicated that on **17 June 2022**, at around **09:00**, together with his colleagues, while carrying out clearance work in a mined area in accordance with instructions and an assignment in the area of **Khudafarin**village of **Jabrayil District**, which had been liberated from occupation, an explosion occurred when he stepped on a mine. As a result, he was injured. At the same time, his colleagues **Farid Jabrail oglu**, **Samir Gozalov**, **Alasgar Guliyev**, **Gahraman Rzayev**, **Gismet Nasirov**, and **Mahir Mustafayev** were also injured.

It appears from the statements of the injured persons **Jabraili Farid Zakir oglu**, **Gozalov Samir Arif oglu**, **Guliyev Alasgar Asif oglu**, **Rzayev Gahraman Bilal oglu**, **Nasirov Gismet Rasim oglu**, and **Mustafayev Mahir Husamaddin oglu**, which were examined by being read out in the courtroom, that they confirmed the circumstances described by the injured person **Valiyev Ruhid Sultan oglu**.

The testimony given during the preliminary investigation by the injured person **Mammadov Shamil Farahim oglu** was read out in court. In that statement, he indicated that on **14 July**

2022, in order to transport cargo, he was driving a truck in the area of **Daghtumas** village of **Jabrayil District**, which had been liberated from occupation. While driving along the edge of a stream, the vehicle he was driving struck one of the mines buried by Armenian servicemen during the period of occupation. An explosion occurred, and as a result he sustained bodily injuries. People who were near the sound of the explosion came to help him, removed him from the vehicle, and took him to hospital in another car.
The testimony given during the preliminary investigation by **Khalilov Rashad Savalan oglu**, who was questioned as a witness, was read out in court. In that statement, he indicated that on **14 July 2022**, at around **15:00**, he was also in **Daghtumas** village. At that time, from a distance, he saw that the vehicle driven by **Shamil Mammadov**, whom he knew personally, had struck a mine. He went to the scene and, together with other people, helped place Shamil into the vehicle he had been driving

Page 945
and, after meeting an emergency medical service vehicle on the road, sent him to hospital in that vehicle.
It appears from the statements of witnesses **Aliyev Babak Zakara oglu**, **Ahmadov Omar Ramiz oglu**, and **Safiyeyev Mustafa Gumush oglu**, which were examined by being read out in the courtroom, that they gave statements similar in content to that of **Khalilov Rashad Savalan oglu** and confirmed the stated fact.

The testimony given during the preliminary investigation by **Ahmadov Ilgar Heybat oglu**, who was recognized and questioned as an injured person, was read out in court. In that statement, he indicated that he worked as a driver at **"Improtex Industries" LLC**, and that his job consisted of delivering equipment belonging to that company from one address to another. By order of **"Improtex Industries" LLC**, in order to deliver equipment related to mine-clearance work to the mine-clearance area of the Mine Action Agency of the Republic of Azerbaijan, he went to **Mehdili** village of **Jabrayil District**, which had been liberated from occupation. As he was tired and the test work was nearing completion, on **2 November 2022**, at around **12:00**, he sat down on the ground to rest, put his left leg on the ground, and an explosion occurred. As a result, he was injured. Later, his colleagues approached him and arranged for him to be taken to hospital.
It appears from the statements of **Huseynov Taleh Surkhay oglu**, **Amrahov Eduard Heydar oglu**, **Alakbarov Seyid Majnun oglu**, **Ganbarov Vusal Vugar oglu**, and **Agalarov Parvin Miryusif oglu**, who were questioned as witnesses during the investigation and whose statements were examined by being read out in the courtroom, that they confirmed the stated fact and gave statements similar in content to that of the injured person **Ahmadov Ilgar Heybat oglu**.
The testimony given during the preliminary investigation by **Nasibov Beybala Jabrayil oglu**, who was recognized and questioned as an injured person, was read out in court. In that statement, he indicated that he worked as an excavator operator at **"Protean Construction" LLC**, which was carrying out construction work in **Gubadli District**, liberated from occupation. On **22 April 2022**, at around **18:00**, while traveling together with the driver of a truck belonging to the company from **Teymur Muskanli** village of Gubadli District toward

the city of Gubadli, he asked the driver to stop the vehicle so that he could meet his natural need. After that, he got out of the vehicle, walked approximately **10 meters** away from the road, and, as he was about to go behind a bush, an explosion occurred. He does not clearly remember what happened afterward. When he woke up, he saw that he was in hospital and that his leg had been wounded as a result of the explosion.

The testimony given during the preliminary investigation by **Aliyev Khanlar Alasgar oglu**, who was questioned as a witness, was read out in court. In that statement, he indicated that he worked as a truck driver at **"Protean Construction" LLC**. On **22 April 2022**, he went by car from **Davudlu** village, liberated from occupation, toward **Khudafarin** village of **Gubadli District**, and the company's excavator operator, **Beybala Nasibov**, was with him. At around **18:00**, while they were moving through the area of **Teymur Muskanli** village, Beybala asked him to stop the vehicle so that he could meet his natural need. He stopped the vehicle on the edge of the road, and Beybala got out and walked toward the bush. Approximately one minute later, he heard the sound of an explosion, went to Beybala, and saw that he had been injured as a result of a mine explosion. He immediately informed the company where he worked and, with the help of people who came to assist, arranged for him to be taken to hospital by car.

The testimony given during the preliminary investigation by **Aghamaliyev Surat Musakhan oglu**, who was recognized and questioned as an injured person, was read out in court. In that statement, he indicated that he worked as a combine operator at **"Cronco"** company, and that he was engaged in harvesting wheat with a combine on a **400-hectare wheat field** in the liberated territory of **Gubadli District**. On **1 August 2022**, at around **15:00**, while operating the combine on a wheat field in an area known as **Yaziduzu** in **Malikahmadli** village of Gubadli District, he struck a mine buried by Armenians

struck it, and, as a result of the explosion that occurred, he was injured. At the time of the incident, other combine drivers were also nearby, including his brother **Panah Aghamaliyev**. It appears from the statements of witnesses **Abbasov Ceyhun Iba oglu**, **Aghamaliyev Mushfiq Musaxan oglu**, **Aghamaliyev Panah Musaxan oglu**, **Niftaliyev Mirhasil Tofig oglu**, and **Suleymanli Davud Suleyman oglu**, which were examined by being read out in the courtroom, that they confirmed the stated fact and gave statements similar in content to that of **Aghamaliyev Surat Musaxan oglu**.

The testimony given during the preliminary investigation by the injured person **Huseynov Nejmeddin Abdulla oglu** was read out in court. In that statement, he indicated that on **30 August 2022**, together with his colleagues, employees of the Mine Action Agency of the Republic of Azerbaijan, he was carrying out clearance work in mined areas in **Teymur Muskanli** village of **Gubadli District**, liberated from occupation, where mines had been planted by Armenian armed formations during the period of occupation.

A specially trained Belgian dog was also used during the demining work. That day, at around **10:00**, while moving toward a corridor cleared of mines, the trained dog carelessly went beyond the designated cleared area, as a result of which an explosion occurred and he was

injured. The dog died at the scene. After that, his colleagues helped him and provided him with first aid.
It appears from the statements of employees of the Mine Action Agency of the Republic of Azerbaijan — **Mammadov Sabuhi Majnun oglu** and **Aliyev Mayis Yahya oglu** — who were questioned as witnesses and whose statements were examined by being read out in the courtroom, that they confirmed the stated fact and gave statements similar in content to that of the injured person **Huseynov Nejmeddin Abdulla oglu**.

The testimony given during the preliminary investigation by the injured person **Aliyev Sahib Isa oglu** was read out in court. In that statement, he indicated that he was not officially employed anywhere and supported his family by engaging in beekeeping. Although he was originally from **Kalbajar District**, he had lived for many years as an internally displaced person in **Ganja**.
After **Kalbajar** was liberated from occupation, he would take his **42 beehives** to Kalbajar District in the summer season and would stay in Kalbajar during that season. In the summer of **2023**, he was also keeping bees in **Seyidler** village of Kalbajar District and was staying in a mountain foothill area.

On **13 July 2023**, he woke up early in the morning and was busy with his personal household work. Later, at approximately **20:00**, he walked around **Seyidler** village and also looked for a more suitable place for his beehives. While walking for that purpose, he stepped on a mine, and an explosion occurred. After that, he removed the belt from his trousers, tied it around his leg to stop the bleeding, and crawled away from the area. He was then taken to hospital with the help of servicemen serving in the area, and his leg was amputated.

The testimony given during the preliminary investigation by **Ojaqquliyev Kamal Yunis oglu**, the father and legal successor in the case of the injured person **Ojaqquliyev Ramal Kamal oglu**, was read out in court. In that statement, he indicated that he lived with his family in **Mollajalilli** village of **Goygol District**. His son **Ramal Ojaqquliyev** kept his own cattle and was not officially employed anywhere.

Almost every year, Ramal would take the cattle to an area called the **“Benovshali yaylaq”** in Goygol District during the summer season and graze them there until September. On **8 June 2021**, his son Ramal again took the animals to that pasture. At the same time, Ramal Ojaqquliyev’s relative **Muzahim Ibrahimov** had also taken his own animals to the same area.
On **14 July 2021**, at around **23:00**, Muzahim Ibrahimov called him and said that Ramal had stepped on a mine while grazing the animals and had died. Later, it became known to him that his son Ramal had gone into a mined area in order to bring back animals that had entered territory liberated from Armenian occupation, and, while returning in foggy weather

he stepped on a mine and died. The horse belonging to Ramal also died as a result of the incident.

The testimony given during the preliminary investigation by witness **Ibrahimov Muzahim Hasan oglu** was read out in court. In that statement, he indicated that he knew **Ramal Ojaqquliyev**. He, Ramal, and other village residents would take their animals every summer to graze in the area called the **"Benovshali yaylaq"** in Goygol District. From June **2021**, he had also moved to that area for the summer pasture season. However, on **14 July 2021**, because his younger daughter had a university entrance examination, he did not go to the pasture.
A village resident named **Baloglan**, who kept cattle in that area, called him at around **19:00** that day and told him that a mine explosion had occurred and that Ramal had died. After that, he and other village residents went to the scene. The place where the mine explosion occurred was an area that had been under the control and occupation of Armenian servicemen. Because many mines had been planted there, residents did not go into those areas.

The testimony given during the preliminary investigation by witness **Mammadov Vusal Ziyafat oglu** was examined by being read out in the courtroom. It appears from that statement that he confirmed the fact described by the injured person **Mammadov Vugar Maqsud oglu**. He stated that on **18 January 2022**, at around **12:00**, Vugar Mammadov called him and invited him to go with him to the bank of the **Inje** River in order to look after large livestock. He declined that invitation.

Approximately one hour later, while he was going toward the bank of the Inje River, he heard the sound of an explosion. When he reached the place where Vugar Mammadov was, he saw that Vugar had been injured as a result of a mine explosion and was lying on the ground. He helped remove him from the area, placed him in a car, and took him to hospital.

The testimony given during the preliminary investigation by the injured person **Gormez Ibrahim Ali oglu** was read out in court. In that statement, he indicated that he was a citizen of the Republic of Turkey and lived in **Ankara**. When he was in **Shusha**, on **16 May 2023**, he was working as a bulldozer operator at the Azerbaijan representative office of **"Kolin Inshaat Turizm Sanayi ve Ticaret Anonim Shirketi."** While he was in Shusha, his supervisor assigned him to clear roads in sections.

On **22 September 2023**, at around **12:00**, while he was clearing the **Shusha–Khalfali** road with a bulldozer in accordance with that assignment, an anti-tank mine previously and covertly planted there by Armenian armed formations exploded. As a result, the bulldozer was damaged, and he was injured when the glass of one of the cabin windows broke and hit his eye.
The testimony given during the preliminary investigation by the injured person **Alakbarli Afgan Sayyaf oglu** was read out in court. In that statement, he indicated that he worked as a mechanic-driver at **"Agroservis" ASC** and performed tractor work with a tractor belonging to the company in the liberated territories.

From **22 to 24 August 2023**, he worked in a cultivated field in **Signag** village of **Khojaly District**. On **24 August 2023**, at around **12:00**, after completing the work in the field, he was

driving the tractor from the field toward a dirt road when an explosion occurred, and he was injured as a result. After the explosion, servicemen serving nearby approached him, helped him, and removed him from the area.
It appears from the statement of witness **Abbasov Natiq Rusman oglu**, who worked as a mechanic at **"Jahan Holding" LLC** and whose statement was examined by being read out in the courtroom, that he confirmed the stated fact and gave a statement similar in content to that of the injured person **Alakbarli Afgan Sayyaf oglu**.

The testimony given during the preliminary investigation by **Karimzada Rasif Nusrat oglu**, who was recognized and questioned as an injured person, was read out in court. In that statement, he indicated that, on the instructions of **"Azertrans LLC,"** a subcontractor of **"Kolin"** company, he worked as a laborer on the construction of a bridge to be built on a road section passing through the territory of **Taghavard** village of **Khojavend District**.
On **2 October 2022**, he began work at around **08:00**. In order to meet his natural need, he moved away from the area where he was working

Page 948
toward the bushes near the place where he was working, where he stepped on a mine and was injured as a result of the explosion that occurred, after which he lost consciousness.
The testimony given during the preliminary investigation by witness **Genbereliyev Eldeniz Gurbanali oglu** was examined by being read out in the courtroom. In that statement, he indicated that he worked for **"Kolin"** company. On **2 October 2022**, at around **12:00**, in the territory of **Taghavard** village of **Khojavend District**, **Rasif Karimzada**, who had just started work in that area, stepped on a mine near the place where he was working and was injured as a result of the explosion that occurred. He was later taken to hospital.
The statements of witnesses **Ahmadli Elnur Famil oglu**, **Ahmadli Ashraf Elnur oglu**, and **Eyvazov Namil Sarvan oglu** were examined by being read out in the courtroom. They confirmed the stated fact and gave statements similar in content to that of **Genbereliyev Eldeniz Gurbanali oglu**.

The testimony given during the preliminary investigation by **Huseynova Malahat Tohid gizi**, who had been recognized by the decision dated **29 March 2021** as the legal successor of the injured person, was read out in court. In that statement, she indicated that she lived with her family in **Afatli** village of **Aghdam District**. The deceased **Huseynov Razi Akif oglu** was her husband. The incident occurred on **16 March 2021**, on the eve of **Novruz**, on the last **Wednesday**.

On that day, they had prepared for the holiday and gathered at the house belonging to her father-in-law **Akif Huseynov**. At approximately **15:00**, **Razi**, **Bayram**, and **Anar** spoke in the yard and decided first to go and look at Razi's land plot located in **Hacimammadli** village of Aghdam District, and then, upon returning, to make kebab. In the direction of **Hacimammadli** village, they had a plot of land, and Razi had planted onions and wheat there.

After that, Razi, his son **Huseyn**, Bayram, and Anar went together in the car belonging to her father-in-law. At around **16:00-17:00**, she heard that they had stepped on a mine in **Yusifjanli** village of Aghdam District, which had been liberated from occupation. At first, they did not tell her that her husband had died. Later, she learned that her husband **Razi Huseynov** and her brother-in-law **Bayram Huseynov** had died at the scene as a result of the mine explosion, while her father-in-law **Akif Huseynov** and her other brother-in-law **Anar Huseynov** had been injured. Her child **Huseyn** had not been injured.

The testimony given during the preliminary investigation by **Huseynova Gulxanim Matlab gizi**, who had been recognized by the decision dated **29 March 2021** as the legal successor of the injured person, was read out in court. In that statement, she indicated that she lived with her family in **Afatli** village of **Aghdam District**. The deceased **Huseynov Bayram Akif oglu** was her husband. The incident occurred on **16 March 2021**, on the eve of **Novruz**, on the last **Charshanba**.

On that day, they had prepared for the holiday, and her father-in-law **Akif Huseynov** and others had come to visit them. At approximately **15:00**, **Razi**, **Bayram**, and **Anar** spoke in the yard and decided first to go and look at Razi's land plot located in **Hacimammadli** village of Aghdam District, and then, upon returning, to make kebab. After that, Razi, his son **Huseyn**, Bayram, and Anar went together in the car belonging to her father-in-law.

At around **16:00-17:00**, she heard that they had stepped on a mine in **Yusifjanli** village of Aghdam District, which had been liberated from occupation. Later, she learned that her husband **Bayram Huseynov** and her brother-in-law **Razi Huseynov** had died at the scene as a result of the mine explosion, while her father-in-law **Akif Huseynov** and her other brother-in-law **Anar Huseynov** had been injured.

The testimony given during the preliminary investigation by the injured person **Huseynov Anar Akif oglu** was read out in court. In that statement, he indicated that his native village, **Yusifjanli**, had been occupied by Armenian armed formations in **1993**, and that after the occupation he and his family settled in **Afatli** village of **Aghdam District**, where he currently lives.
In **March 2005**, while grazing animals in **Afatli** village of Aghdam District, he was injured in the abdomen as a result of fire opened by Armenian armed formations from the opposite direction, and, as a result of the injury he sustained, he is a person with a **second-degree disability**. The deceased **Razi Huseynov** and **Bayram Huseynov** were his brothers, **Akif Huseynov** was his father, and **Behruz Abdullov** was his fellow villager.

Page 949
On the eve of **Novruz**, on the last **Wednesday**, on **16 March 2021**, at around **15:00**, together with his brothers **Razi** and **Bayram**, Razi's son **Huseyn**, and his father, they went in his father's car to look at a land plot belonging to his brother Razi, located in **Hacimammadli** village of **Aghdam District**. In that area, they saw onions and wheat, and then returned to the

car. However, his brothers Razi and Bayram said that they wanted to go to **Yusifjanli** village, which had been under occupation, and look around there.

He did not go with them and waited for his brothers near the car. Approximately one hour later, he saw from the direction of the forest that they were returning toward the car. During that time, he heard several explosion sounds, but since mine-clearance work was being carried out in the liberated territories and explosion sounds were also heard at that time, he assumed that the explosions were related to that work.
While waiting for his brothers, his father, who was standing near him, asked where his brothers were. In response, he said that they would return soon. After that, his father, crying, told him that his brothers had stepped on a mine. He immediately began searching for his brothers. When he found them, he saw that both of his brother **Razi Huseynov's** legs and his brother **Bayram Huseynov's** left leg had been injured. He determined that they were alive. His brother's son **Huseyn** had not been injured.

There was a trench dug into a mound. He took his brothers out of that place and handed them over to his father and **Behruz**. However, while trying to carry **Razi Huseynov** in his arms, he himself stepped on a mine with his left foot. As a result of the explosion, his brother died at the scene, his father and **Behruz Abdullov** were injured, and he himself sustained injuries to his left foot, mouth area, and left hand. His brother **Bayram Huseynov** died from blood loss caused by the injuries he had sustained.

The testimony given during the preliminary investigation by the injured person **Huseynov Akif Mukhtar oglu** was read out in court. In that statement, he indicated that he lived with his family in **Afatli** village of **Aghdam District**. His native village, **Yusifjanli** in Aghdam District, was occupied by Armenian armed formations in **1993**, after which he and his family settled in **Afatli** village of Aghdam District.

On **16 March 2020**, on the last **Wednesday**, he returned from his daughter **Leyla's** house to the house where he lived. When he came home, he saw his sons **Anar**, **Razi**, and **Bayram** talking in the yard. When **Razi saw** him, he said that they were going to look at the cultivated land plot located in **Hacimammadli** village, because his son had planted onions and wheat there. He also told him that the village was located near **Yusifjanli** village, which had been liberated from occupation.

After his sons left the village, the road was blocked with a gate. Approximately one hour later, his fellow villager **Mammadov Shahlar Beylar oglu**, who worked with him, called and said that his sons had stepped on a mine in **Yusifjanli** village. He told them to come and remove the sons from there and warned his father-in-law **Shahlar** to be careful.

He immediately went to the indicated place in a **VAZ-2106** vehicle together with his field partner **Zohrab Razin oglu** and **Abdullayeva Zohrab**. When they arrived, his son **Anar** and **Behruz**, the son of Nadir, were standing there at the boundary of the prohibited area.

However, because they were afraid, they could not go toward **Razi** and **Bayram**. He asked Anar where his brothers were, but Anar could not show the exact place.

He immediately began searching for his sons and saw that his son **Razi** had injuries to both legs and **Bayram** also had injuries to both legs. His grandson **Huseyn** had not been injured, and Huseyn was in the arms of his son Razi. The village resident **Zohrab Razigil**, who had come with him, entered the trench dug from the place where they were, first took Huseyn from Razi's arms, and, together with his grandson Huseyn, moved back along the road by which they had come, taking Huseyn away from that place.

Seeing that he could not enter the trench and help Razi and Bayram, he called his son **Anar** for help. Anar came to where they were together with **Abdullov Behruz**, who was settled in **Afatli**, and they too entered the trench dug from the upper side. As Anar began moving in order to hand Razi over to them

Page 950
he took him in his arms and began to move, the mine under their feet exploded. As a result, they were thrown upward and fell to the ground. **Razi** sustained multiple shrapnel wounds to his body and died at the scene. At that time, his son **Anar**, himself, and **Behruz** were also injured. His other son **Bayram** had been wounded separately earlier and died from blood loss. After that, they were forced to remain still and waited to be rescued.

The testimony given during the preliminary investigation by the injured person **Abdullov Behruz Nadir oglu** was read out in court. In that statement, he indicated that he lived with his family in **Afatli** village of **Aghdam District**. On **16 March 2021**, at around **17:00**, while he was grazing cattle in a field in the village where he lived, his fellow villager **Anar Huseynov** came to him crying and said that his brothers **Razi** and **Bayram Huseynov** had stepped on a mine in **Yusifjanli** village of Aghdam District, which had been liberated from occupation. He said that his brothers had gone there in connection with the **Novruz** holiday in order to visit the graves of their relatives.

He immediately went with **Anar** and Anar's father **Akif** in Akif's **VAZ-2107** vehicle to a military trench. From there, they continued on foot toward the scene. The incident site was located inside an old military trench at the entrance to **Yusifjanli** village. When they arrived there, they saw **Razi** and **Bayram** lying in the trench covered in blood. They also saw **Huseyn**, Razi's seven-year-old son, next to Razi, but there were no injuries on Huseyn's body.
They entered the trench in order to help them. While they were carrying Razi, another explosion occurred. This time, mine fragments struck him, Anar, and uncle Akif. All of them sustained bodily injuries of varying degrees. After that, they remained in the trench, unable to move. Razi died as a result of the second explosion. By that time, Bayram had already died. About half an hour later, mine-clearance personnel arrived and removed them from the trench. As a result of the explosion, his right leg was amputated above the knee.

The testimony given during the preliminary investigation by **Verdiyev Jahid Vahid oglu**, who was recognized by the decision of **28 April 2021** as the legal successor of the injured person, was read out in court. In that statement, he indicated that **Verdiyev Shahin Vahid oglu** was his brother. His brother returned to Azerbaijan from the Russian Federation in **2014**, married **Sharafat Verdiyeva**, and had two children. Shahin Verdiyev lived in the city of **Aghjabadi**and was engaged in buying and selling metal.

On **26 April 2021**, at around **13:00**, his brother **Shahin Verdiyev**, his other brother **Aydin Verdiyev**, and their neighbor **Firdovsi Guliyev** went to **Aghdam District** to collect metal. At around **17:00**, they were caught in a mine explosion in **Marzili** village of Aghdam District. As a result, his brother Shahin Verdiyev died, while his other brother Aydin Verdiyev sustained serious injuries to his leg and eye area, and their neighbor Firdovsi Guliyev sustained injuries to his eye area.

The testimony given during the preliminary investigation by witness **Verdiyev Orkhan Jahid oglu** was read out in court. In that statement, he indicated that **Shahin** and **Aydin Verdiyev** were his uncles, while **Firdovsi Guliyev** was their neighbor. Their family was engaged in collecting and selling metal.

On **26 April 2021**, they went to the Aghdam area to collect metal. That day, at around **17:00**, Aydin Verdiyev called him and said that they had been caught in a mine explosion. He immediately went to the place they described. At the time, Shahin was not visible. He saw that Aydin and Firdovsi had injuries to the eye area. He immediately put them in a car and took them to hospital, but Shahin Verdiyev died while they were on the way.

The testimony given during the preliminary investigation by the injured person **Verdiyev Aydin Vahid oglu** was read out in court. In that statement, he indicated that on **26 April 2021**, at around **13:00**, while he was sitting in a tea house in **Aghjabadi**, his brother **Shahin Verdiyev** came up to him and said that, according to information he had obtained, metal pieces were located in the **Pirabulag** area of **Aghdam District** and that they needed to go there to collect them. Their neighbor **Firdosif Guliyev** was also nearby at that time and, hearing the conversation

said that he wanted to go to the liberated areas of Aghdam District as well.

After that, they went in his **Mercedes-Benz** vehicle, with state registration number **04-BO-733**, to the area called **Pirabulag** in Aghdam District. They entered that area through the place known as **Ergi settlement** in Aghdam District, and after driving for about half an hour from Ergi settlement, they reached the mentioned place.
They stopped the car there and went on foot to the place where his brother Shahin’s tools were located. There, they took a nail puller, a hammer, a shovel, and a crowbar, and then returned toward the car. When they were about **500 meters** away from the car, a mine located

on the right-foot side of his brother Shahin exploded. At that moment, he heard a powerful explosion. He did not remember what happened afterward.
The cause of the explosion was the planting by Armenian armed formations of various explosive devices for different purposes in territories of the Republic of Azerbaijan liberated from occupation.
It appears from the statement of the injured person **Guliyev Firdosif Idris oglu**, which was examined by being read out during the court hearing, that he gave a statement similar in content to that of the injured person **Verdiyev Aydin Vahid oglu** and confirmed the circumstances described by him.
The testimony given during the preliminary investigation by **Hatamkhanova Ilaha Allahverdi gizi**, who was recognized by the decision of **22 June 2021** as the legal successor of the injured person, was read out in court. In that statement, she indicated that she was the wife of **Hatamkhanov Jasaret Sifayat oglu**.
On **7 June 2021**, at approximately **08:00**, Jasaret had breakfast and went to work in the **GAZelle** vehicle belonging to the gravestone workshop where he worked. At lunchtime, he came home, had lunch, and returned to work. Jasaret left home at approximately **13:50**. When leaving, he said that he would return at around **18:00** and take her to her mother's house. From **18:00** onward, she repeatedly called Jasaret's mobile phone number [redacted] , but he did not answer. He also did not call her himself. At around **21:00**, she called Jasaret again, but his phone was switched off. Her brother **Vasif** informed her about this. Since her brother was also unable to reach him by phone, Vasif called Jasaret's manager **Rafig**, but he also did not answer.
Her brother Vasif learned from Jasaret's uncle **Tanriverdiyev Jangir** and from employees of the workshop that they had taken a gravestone in the vehicle driven by Jasaret to the cemetery located in **Mahrizli** village of the district, and that while they were carrying out repair work there, Jasaret had been next to the vehicle. They had later gone to look for him but could not find him.
That same day, information about Jasaret's disappearance was reported to the **Aghdam District Police Department**, and a search was launched. On **17 June 2021**, they were informed by the district police department that the body of her husband **Hatamkhanov Jasaret Sifayat oglu** had been found in the territory of Aghdam District, in the area of **Sarijali** village, near Observation Post No. 23 of the "N" military unit of the Ministry of Defense of the Republic of Azerbaijan. It became known that Jasaret had entered the territory liberated from occupation without permission and died after stepping on a mine planted by Armenian armed formations.
The testimony given during the preliminary investigation by **Aliyev Anar Khudayar oglu** was read out in court. In that statement, he indicated that on **7 June 2021**, at approximately **17:00**, while working at the workshop located in **Guzanli** settlement of Aghdam District, he and his colleague **Ali** went in a **GAZelle** cargo vehicle driven by **Hatamkhanov Jasaret Sifayat oglu** to the cemetery of **Mahrizli** village in Aghdam District in order to deliver a gravestone.
At that time, after he and Ali had completed their work and were looking for Jasaret, they could not find him. At the same time, although they repeatedly called Jasaret's mobile phone number [redacted], which he used, his phone rang but he did not answer. Therefore, he and

Ali informed a person named **Rafig**, the manager of the workshop, about this. Later, Rafig came to **Mahrizli** village cemetery, and together they searched the area around the cemetery, but they could not find Jasaret. After that, they returned to the workshop in Rafig's car.

Page 952

Rustamov Ali Bakir oglu and **Shukurov Rafig Mursal oglu** confirmed the circumstances described by **Aliyev Anar Khudayar oglu**.

The testimony given during the preliminary investigation by **Dadashov Ragub Imran oglu** was read out in court. In that statement, he indicated that he knew **Hatamkhanov Jasarat Sifayat oglu**, as they both lived in **Guzanli** settlement of **Aghdam District**.

On **7 June 2021**, at around **17:40**, while he was traveling to **Shahvellar** village of **Barda District** for personal matters, near a hill located in the area of **Imamgulubayli** village of Aghdam District, he received a call on his mobile phone number [redacted]. The person speaking on the other end of the phone was speaking in a very low voice, and he could barely hear him. After realizing that the person speaking was **Jasarat Hatamov**, he told him to speak a little louder. At that time, Jasarat Hatamov told him that he had stepped on a mine. After that, no matter how many times he called out to him, the mobile-phone connection with him was cut off. Since Jasarat had previously approached him about installing a gravestone and because of his friendly relationship with him, he thought that Jasarat was joking and ended the call. Because he did not believe what Jasarat had said, he did not inform anyone about it.

The testimony given during the preliminary investigation by the injured person **Mirzayev Elmaddin Tofig oglu** was read out in court. In that statement, he indicated that he lived with his family in **Yukhari Giyamaddinli** village of **Aghjabadi District**. Since **2006**, he had worked at the Mine Action Agency of the Republic of Azerbaijan. His last position was that of a division head at the Mine Action Agency of the Republic of Azerbaijan.

He stated that Armenian armed forces, acting as a criminal association or organization in order to conduct an aggressive war, used methods of warfare capable of causing major destruction, and, with the intent of inciting national hatred, hostility, and conflict, planted numerous mines containing explosive devices in the territory of **Shurabad** village of **Aghdam District**, which they had kept under occupation from **23 July 1993** to **20 November 2020**, as well as in other territories of the Republic of Azerbaijan that they had occupied.

In accordance with his service assignment, he and others were clearing from mines the section of the railway line passing through the liberated territory of Shurabad village in Aghdam District. On **29 January 2021**, at approximately **11:00**, while performing his official duties in the territory of Shurabad village, that is, while clearing the railway line of mines, an anti-personnel mine planted by Armenian armed formations exploded, as a result of which he sustained numerous bodily injuries.

Because the injuries he sustained were severe, the part of his left leg below the ankle was amputated. In addition, as a result of the mine explosion, he sustained injuries to both eyes; he has no vision in his right eye, and only weak vision in his left eye.

It also appears from the statements of **Ibrahimov Rasim Imran oglu** and **Priyev Sadig Khanlar oglu**, who were questioned as witnesses during the preliminary investigation and

whose statements were examined by being read out in the courtroom, that they gave statements similar in content to that of the injured person **Mirzayev Elmaddin Tofig oglu**.
The testimony given during the preliminary investigation by the injured person **Ahmadov Orkhan Kamil oglu** was read out in court. In that statement, he indicated that on **13 December 2020**, at approximately **13:00**, he went to the house of his cousin **Togrul Ahmadov**, who lived in **Zangishali** village of **Aghdam District**, and brought food with him. They had lunch, and afterward he and Togrul decided to go around the village.
At around **14:30**, **Shemistan** also joined them. In a **Niva** vehicle belonging to Togrul, with an Aghdam registration plate containing the state number **135**, the series of which he did not remember, they decided to drive around the village. Togrul drove the car, Shemistan sat in the back, and Orkhan sat in the front.
After driving around the village for a while, they went into a field. In the field, the car got stuck in the mud; the vehicle's wheels spun in place, and the car could not move forward. They managed, with difficulty, to pull the car out of the mud. After that, in order not to let Togrul drive the car into the mud again, they decided to return along the same road and moved the car forward. After advancing approximately **200 meters**

Page 953

they encountered an earthen embankment. Togrul began steering the car to the right of the earthen embankment, and that road brought them to an empty building belonging to the military. They had never been there before. They got out of the car, looked around, and saw that there was no one in the building or in the surrounding area.
After standing and talking for approximately **five minutes** in front of that building, they saw a local resident, **Elchin Mammadov**, and **Parviz Guliyev**. After greeting them, Elchin said that he was carrying out irrigation work on his own land plot nearby and invited them to come along as well. Elchin told them that there was no longer any danger in the territories liberated from occupation and invited them to walk around. Each of them agreed, and they began moving from in front of the military building along a trench.
In the trench, **Elchin** was walking first, followed by **Togrul**, then Orkhan himself, then **Shemistan**, and then **Parviz**. After moving approximately **100-200 meters**, they saw, on the upper side of the trench, in the territory liberated from occupation, a red rubber pipe approximately **10 meters** long. When Elchin said that he would take that rubber pipe, Togrul objected and said that there could be mines in that area. However, Elchin ignored him and went down into the trench toward the place where the rubber pipe was standing.
At that time, they saw that the rubber pipe was attached to spherical iron caps. They did not know that the object was a mine. After that, they began to return. This time, **Shemistan** was in front, followed by **Parviz**, then Orkhan himself, then **Togrul**, and **Elchin** was moving at the back in the trench. As Elchin was climbing up from the rubber pipe, he began dragging the mine behind him. After approximately **20-25 meters**, Elchin took the mine in his hand and began examining it. Orkhan himself and Togrul stood next to Elchin, while Shemistan and Parviz continued moving ahead.
Suddenly, a quiet sound came from the mine. After that sound, Elchin said, **"Move away from me,"** and immediately after that there was a sudden, powerful explosion. As a result of

the explosion, Orkhan sustained injuries to his head and leg, Togrul sustained injuries to his body, and **Elchin Mammadov** died at the scene.
It appears from the statements of the injured person **Ahmadov Togrul Vilayat oglu** and of witnesses **Rahimli Shemistan Yunis oglu** and **Guliyev Parviz Rahbar oglu**, which were examined by being read out in the courtroom, that they gave statements similar in content to that of the injured person **Ahmadov Orkhan Kamil oglu** and confirmed the stated facts.
The testimony given during the preliminary investigation by **Hasanov Ibrahim Alinaghi oglu**, the father and legal successor in the case of the injured person **Hasanov Israil Ibrahim oglu**, was read out in court. In that statement, he indicated that on **15 March 2023**, his son **Israil** left the house in the evening and did not return. That night, Israil did not come home. Thinking that his son was somewhere in the settlement, he did not become worried. At the same time, his nephew's son **Amid Hasanov** also did not come home that night.
The next morning, they informed the police. After a police search on **16 March 2023**, they learned that **Israil Hasanov**and **Amid Hasanov** had both died during a mine explosion in the area of **Yusifjanli** village of Aghdam District.
The testimony given during the preliminary investigation by **Hasanov Huseyn Mahammad oglu**, the father and legal successor in the case of the injured person **Hasanov Amid Huseyn oglu**, was read out in court. In that statement, he indicated that on **15 March 2023**, his son **Amid** left the house in the evening and did not return. That night, his nephew's son, **Israil Hasanov**, also did not go home. Because of this, they became worried and informed the police the following day, that is, on **16 March 2023**. On **16 March 2023**, they learned that Israil and Amid had both died as a result of a mine explosion in the liberated village of **Yusifjanli** in Aghdam District.
The testimony given during the preliminary investigation by the injured person **Aliyev Ramin Amir oglu** was read out in court. In that statement, he indicated that on **8 October 2022**, he was at his workplace in **Yusifjanli** village of Aghdam District, in connection with the construction of the **Aghdam-Fuzuli** highway. At around **17:00**, his colleague **Parviz Najafov**, being a religious person and taking water with him, moved away from the road

toward an area containing old structures that had been destroyed by Armenians during the occupation period, and a few minutes later he heard the sound of an explosion. He immediately went, together with another colleague, **Sakhavat Abdullaligov**, to **Parviz** in order to help him. They saw that Parviz had stepped on a mine and had been injured as a result of the explosion. As he was sitting next to one of the old destroyed buildings and trying to help remove him from there, after a few steps they themselves also stepped on a mine, and all three of them sustained bodily injuries as a result of the explosion that occurred. During the incident, **Sakhavat Abdullaligov** sustained relatively minor injuries and went for help. They were then rescued and taken away.
The testimony given during the preliminary investigation by the injured person **Najafov Parviz Sozali oglu** was read out in court. In that statement, he indicated that he worked as a construction worker for **"Korpu-Bina Tikinti" LLC** in the construction of the **Aghdam-Fuzuli** highway in **Aghdam District**. On **8 October 2022**, at the sixth kilometre of that road, that is, in the area of **Yusifjanli** village, which had been liberated from occupation, he was at

his workplace. At around **17:00**, in order to meet his natural need, and also because he was a religious person and wished to perform ablution with water, he moved approximately **200 meters** away from the location of the construction camp toward the place where the old destroyed buildings were located. On his way there, he stepped on a mine that had been buried by Armenians during the occupation period. He was injured as a result of the explosion, was thrown aside, and remained there.

Later, his colleagues **Ramin Aliyev** and **Sakhavat Abdullaligov** came to help him. While they were helping each other and trying to remove him from there, another mine exploded, and each of them was thrown to one side. After that, he lost consciousness and remembers nothing. When he woke up, he saw that he was in hospital.

It appears from the statement of **Abdullaligov Sakhavat Aladdin oglu**, who was questioned as an injured person and whose statement was examined by being read out in the courtroom, that he confirmed the circumstances described by **Aliyev Ramin Amir oglu** and **Najafov Parviz Sozali oglu**, and stated that all three of them were injured as a result of the mine explosion that occurred on **8 October 2022**.

The testimony given during the preliminary investigation by the injured person **Yusibov Elmir Islam oglu** was read out in court. In that statement, he indicated that on **18 March 2023**, while carrying out cleaning work with a **Volvo** tractor in an area between **Afatli** village and **Yusifjanli** village, he stepped on a mine and was injured as a result of the explosion. Although the location where the mine exploded was in the territory of Afatli village, the area had for a long time been under the occupation of Armenian military servicemen because it was adjacent to neighboring Yusifjanli village. Because he was inside the tractor at the time of the explosion, he did not sustain serious injuries.

The testimony given during the preliminary investigation by **Abbasova Aygun Afaddin gizi**, the wife and legal successor in the case of the injured person **Mahmudov Bakhtiyar Mahmud oglu**, was read out in court. In that statement, she indicated that on **18 February 2021**, **Bakhtiyar Mahmudov** went with his brother **Elshan Abbasov** to **Talish** village of **Tartar District**. That same day, at around **18:00**, he stepped on a mine, died as a result of the explosion, and at the same time his vehicle became unusable. He had not informed anyone that he was going to Talish village.

The testimony given during the preliminary investigation by witness **Abbasov Elshan Afaddin oglu**, a resident of **Haji Garvand** village of **Tartar District**, was read out in court. In that statement, he indicated that he was **Bakhtiyar Mahmudov's** brother-in-law. On **18 February 2021**, at around **15:00**, Bakhtiyar Mahmudov called his mobile phone and suggested that they go together to see **Talish** village, which had been liberated from occupation. He did not object to Bakhtiyar.

That same day, Bakhtiyar Mahmudov came to his house in the car he was driving, and he got into that car. Together they went toward the mentioned area. After driving for some time on the asphalt road to **Chayli** village of Tartar District, Bakhtiyar turned the car from the right side of the road, over a water canal, onto a dirt road. They continued along that road for approximately **10 kilometres** in the direction of Talish village, after which he stopped the car and told him to wait there. He got out of the car and waited for Bakhtiyar at that location. Bakhtiyar Mahmudov drove approximately **50-60 meters** farther

to the side, stopped the car, got out, and walked approximately **100 meters** farther in order to collect pieces of metal in the surrounding area. After some time, he returned. While he was returning, because it was not yet dark, he was able to see Bakhtiyar. As Bakhtiyar was returning toward the car, an explosion occurred, and the surrounding area was covered with dust and smoke.

After some time had passed, he called out to Bakhtiyar several times, but there was no response, and at that moment he understood that Bakhtiyar had stepped on a mine. For that reason, fearing the danger of mines, he did not move in any direction and instead called Bakhtiyar's brother **Ismayil** and informed him of the incident. Approximately one hour later, Ismayil came to the scene together with officers of the Tartar District Police Department. Later, employees of the Mine Action Agency of the Republic of Azerbaijan also arrived at the scene. However, because it was evening and the area was mined, it was not possible to go there. Therefore, Bakhtiyar's body could not be removed from the area that day. The following day, after the area was cleared of mines, Bakhtiyar's body was removed from there.

The testimony given during the preliminary investigation by witness **Abbasov Veysal Ravan oglu**, an employee of the Mine Action Agency of the Republic of Azerbaijan, was read out in court. In that statement, he indicated that when he was sent to the area in **Talish** village of **Tartar District** where **Bakhtiyar Mahmudov** had died as a result of a mine explosion, he took part in the investigation of the incident scene. Anti-tank and anti-personnel mines had been planted in that area by Armenians during the occupation period.

It appears from the statement of witness **Mirzayev Babek Vakil oglu**, which was examined by being read out in the courtroom, that he gave a statement similar in content to that of **Abbasov Veysal Ravan oglu** and confirmed the stated facts.

The testimony given during the preliminary investigation by witness **Amrahli Elgun Gahraman oglu** was read out in court. In that statement, he indicated that **Nadir**, **Sakhavat**, and **Farid** were his colleagues. They would conduct monitoring of territories liberated from occupation in the districts of **Tartar** and **Aghdam** as a group and take photographs of those areas.

On **28 February 2023**, his colleagues **Maarif** and **Vusal** had gone from **Aghdam District** to the city of **Tartar** and were heading to the house they had rented. When they called the numbers used by **Sakhavat**, **Nadir**, and **Farid**, who had been working in **Talish** village of **Tartar District**, none of them answered. They then became worried and, thinking that their car might have broken down and remained on the road, went with other colleagues to Talish village in Tartar District. When they reached the place where the car was, they saw that the company's special vehicle had burned, and around it they saw the charred bodies of their colleagues.

It appears from the statement of witness **Aliyev Vusal Rovshan oglu**, which was examined by being read out in the courtroom, that he gave a statement similar in content to that of **Amrahli Elgun Gahraman oglu** and fully confirmed the circumstances he described.

The testimony given during the preliminary investigation by **Gozalov Rovshan Ismayil oglu**, the brother and legal successor in the case of the injured person **Gozalov Sakhavat Ismayil**

oglu, was read out in court. In that statement, he indicated that **Sakhavat Gozalov** worked as an operator in a company that surveyed territories liberated from occupation for the purpose of carrying out demining work and took aerial photographs and video footage of those areas using unmanned aerial vehicles. **Nadir Yusifov**, who later died, also worked at that company. On **28 April 2023**, in the evening, he was at home. At that time, Sakhavat's colleagues called him and, saying that they had been unable to reach Sakhavat by phone, asked where he was. He told them that Sakhavat was at work. That same day, at approximately **19:00**, Sakhavat's colleagues called him again and said that Sakhavat and two other colleagues had stepped on a mine. On the basis of the information he received, he went by car to the **Tartar District Central Hospital**, where he was told that his brother Sakhavat, his neighbors **Nadir Yusifov** and one other person, while in a car in Talish village, had died as a result of a mine explosion.

Page 956

The testimony given during the preliminary investigation by **Yusifov Panah Aghaverdi oglu**, the father and legal successor in the case of the injured person **Yusifov Nadir Panah oglu**, was read out in court. In that statement, he indicated that in the evening of **28 April 2023**, one of his son Nadir's colleagues called him on his mobile phone and said that Nadir and two of his colleagues had died as a result of a mine explosion in the area of **Talish** village of **Tartar District**, which had been liberated from occupation. His son Nadir, at the company where he worked, had performed duties related to conducting photo and video recording of liberated territories.

The testimony given during the preliminary investigation by **Sadiyeva Sevil Saleh gizi**, the mother and legal successor in the case of the injured person **Sadiyev Farid Mehran oglu**, was read out in court. In that statement, she indicated that her son Farid Sadiyev had worked since **2022** at a company cooperating with the Mine Action Agency of the Republic of Azerbaijan. Most recently, he had worked in **Talish** village of Tartar District, which had been liberated from occupation, and operated a drone. She learned from news reports published on social networks that day that her son had died as a result of a mine explosion.

The testimony given during the preliminary investigation by **Namazaliyev Javid Gurban oglu**, a deminer of the Mine Action Agency of the Republic of Azerbaijan who was questioned as a witness, was read out in court. In that statement, he indicated that on **13 January 2021**, at around **11:00**, they cleared mines from the area around a bridge over a water canal in the territory of **Talish** village of Tartar District and discovered and neutralized **seven anti-tank mines**.

After that, **Ojaqverdiyev Aliyar Hidayat oglu**, a tractor driver of **"54 Sayli Yol Istismari" LLC**, filled with a tractor, state registration number **10 A 867**, the holes that had remained around the bridge where the mines had been located. At that time, an explosion occurred in the left front part of the tractor, and it became clear that the tractor had struck an anti-tank mine. As a result, the left front part of the tractor was damaged, and the driver Aliyar Ojaqverdiyev sustained bodily injuries. During the mine-clearance work, that mine had not been detected because it was buried and because the mine detector could not detect mines at a depth of more than **20-25 centimeters**.

It appears from the statements of employees of the Mine Action Agency of the Republic of Azerbaijan who were questioned as witnesses - **Abbasov Emin Hasan oglu**, **Shahlarov Sirxan Polad oglu**, **Allahverdiyev Sadiq Nushiravan oglu**, **Ashrafzade Vazir Vakil oglu**, as well as **Ismayilov Mehrac Ismayil oglu**, head of the demining group, and **Shahmammadov Rasim Fehruz oglu**, a section head in the demining group - which were examined by being read out in the courtroom, that they gave statements similar in content to that of witness **Namazaliyev Javid Gurban oglu**.

The testimony given during the preliminary investigation by the injured person **Hasanov Elnur Tofig oglu** was read out in court. In that statement, he indicated that on the evening of **8 September 2022**, he brought the small livestock belonging to his private household by truck to **Shahlebad** village of **Tartar District** for grazing. On **9 April 2022** [as written in the source], at around **06:00**, he took his small livestock to an open field in **Hasanqaya** village of Tartar District and grazed them there.

At around **12:00** the same day, while moving his small livestock toward the foothill in the direction of **Suqovushan**village, which had been liberated from occupation, and grazing them there, he unknowingly entered a mined area and sustained injuries to his legs as a result of a mine explosion. After that, he removed the belt from his trousers, tied it around his leg, and crawled to one side. Residents of the village came upon hearing the explosion, and with the help of the police they placed him in a vehicle and took him to hospital. As a result of the explosion, he lost both legs from the knee area.

The testimony given during the preliminary investigation by **Novruzov Ayburan Maharram oglu**, a police sergeant and police officer of the **Tartar District Police Department** who was questioned as a witness, was read out in court. In that statement, he indicated that, because a large number of mines had been planted by Armenians in **Suqovushan** and **Talish**villages of Tartar District during the occupation period, after those areas were liberated from occupation, posts were set up by the district police department in order to restrict the entry and exit of civilians to and from the mentioned villages.

Page 957

He himself served at the post established in **Hasanqaya** village. On **9 April 2022**, at around **12:00**, he came to the post to which he had been assigned in order to perform service. First, he inspected the surrounding area, and while looking toward the open field, he saw that residents were grazing cattle in the direction of territories liberated from occupation. In order to remove them from that area, he moved in that direction and heard the sound of an explosion.

Later, seeing that the residents were moving in the direction of that sound, he also went there. It became known to him that **Elnur Hasanov** had stepped on a mine planted by Armenians near an old water-pipeline line in the direction of **Suqovushan** village and had been injured as a result of the explosion. After that, together with the village residents, he helped remove Elnur from there and arranged for him to be sent to hospital by car.

The testimony given during the preliminary investigation by the injured person **Bayramov Rafail Kocheri oglu** was read out in court. In that statement, he indicated that he owned a **VAZ-2107** vehicle with state registration plate **56-BX-217**. He was not officially employed anywhere and was engaged in taxi activity in the village where he lived.

On **1 October 2022**, at approximately **11:00**, he went to the place where cars stopped in the center of **Shahlebad** village, where he happened to meet his nephew **Nicat Jabbarov**. After that, Nicat pointed out a serviceman to him and said that the serviceman wanted to go to some military area in the direction of **Aghdara** via the **Qiziloba** village road, and that he could pay **25 manats** as fare.
After that, the unknown serviceman approached him, hurried him, and asked him to take him in exchange for **25 manats**. He put that serviceman into his car and set off together with Nicat Jabbarov. After driving some distance along a dirt road in the unknown direction, Nicat Jabbarov said that he needed to relieve himself. Rafail stopped the car on the side of the road and asked him to wait there. Thus, Nicat got out of the car and moved toward the open field. One or two minutes later, the sound of an explosion was heard.
He immediately got out of the car and went in the direction of the sound. He saw Nicat lying wounded on the ground and understood that he had been injured as a result of a mine explosion. He wanted to remove Nicat from there and, holding him by the belt of his trousers, tried to pull him toward himself. At that moment, another explosion occurred, and this time he himself stepped on a mine and sustained a leg injury.
Without losing consciousness, he crawled toward the car, started it, and drove toward **Shahlebad** village. On the opposite side of the road, he stopped the car next to a person who had come out and asked him to drive the car. After that, he lost consciousness, and when he woke up, he saw that he was in hospital.
The statement given by the injured person **Jabbarov Nijat Novruz oglu**, which had been examined by being read out in the courtroom, shows that he gave a statement similar in content to that of the injured person **Bayramov Rafail Kocheri oglu**. He stated that, together with an unfamiliar serviceman, Rafail Bayramov had driven him by car in an unfamiliar direction. On the way back, when he said that he needed to relieve himself, Rafail stopped the car on the side of the road. Rafail waited for him in the car, while he moved toward the open field to relieve himself and, near a trench there, stepped on a mine. As a result of the explosion, he was injured in the leg.
When Rafail Bayramov came toward him, he asked Rafail to help him. Later, when Rafail held him by the belt of his trousers and tried to pull him out of that area, Rafail himself also stepped on a mine. A second explosion occurred, and Rafail was injured during the second explosion. After that, seeing that he had lost a lot of blood, they crawled toward the car. Rafail Bayramov got into the car and drove it toward **Shahlebad** village. After driving for a while, they met a person and asked him to drive the car. Because of blood loss, he felt unwell and then lost consciousness. When he woke up, he saw that he was in hospital.
The testimony given during the preliminary investigation by the injured person **Alizade Samir Buruz oglu** was read out in court. In that statement, he indicated that on **23 October 2022**

On **23 October 2022**, he went to the liberated area of Chayli village in Tartar District. His purpose in going to that area was to collect old scrap metal. For this purpose, at around 16:00 that day, he went alone to the said area and, while walking through the liberated area along

the line of contact, through carelessness stepped on an anti-personnel mine. As a result of the explosion, he was injured and fell to the ground. As a result of the explosion, he sustained injuries to his legs and eye. For this reason, he called his brother Ali Alizada on his mobile phone and informed him that he had been injured in an area called “Torpaq tapa.” Some time later, his friend Mayis Mammadov heard him calling from the hill, and he raised his hand to signal to him. After that, Mayis came to him, lifted him onto his shoulder, and removed him from the area. Mayis Mammadov called Ali Alizada from the scene of the incident, and Ali Alizada also came to help. After that, they placed him in an emergency medical assistance vehicle and took him to the hospital.

The testimony given during the preliminary investigation by **Mammadov Mayis Akif oglu**, a resident of Seydimli village in Tartar District, who was questioned as a witness, was read out in court. In that statement, he indicated that on 23 October 2022, at around 17:00, while he was in the village, his fellow villager Ali Alizada called him and informed him that the latter’s brother, and his own friend, Samir Alizada, had been injured as a result of a mine explosion in a mined area called “Torpaq tapa” in the liberated territory of Chayli village. At Ali’s request to help Samir Alizada and remove him from the area, he immediately went by car to Chayli village, crossed the former line of contact, climbed to the hilly area near the trenches, called out to Samir Alizada, and saw that the latter had taken his hand out from the lower side of the last trench and was signaling to him. He immediately went there, lifted Samir Alizada onto his shoulder, and removed him from the area. At that time, Ali Alizada also came to help. After that, they handed Samir Alizada over to an emergency medical assistance vehicle and sent him to the hospital.

It is apparent from the statement of **Alizada Ali Buruz oglu**, who was questioned as a witness and whose statement was read out and examined in the courtroom, that, giving a statement of the same content as Mammadov Mayis Akif oglu, he stated that he had received information by phone from Samir himself that his brother Samir Alizada had been injured as a result of a mine explosion. He also informed his fellow villager Mayis Mammadov of the incident in order to provide assistance, and the latter arrived at the scene before him and removed Samir Alizada from the mined area.

The testimony given during the preliminary investigation by the injured person **Babashov Xazar Taryel oglu** was read out in court. In that statement, he indicated that he works as a driver in the Community Mine Team of the International Eurasia Press Fund and, together with his colleagues, was engaged in clearing mined areas in a bushy field along the side of the Seydimli–Suqovushan road in Suqovushan village of Tartar District. On 26 April 2023, he again began work together with his colleagues. His function was to drive the vehicle. Therefore, approximately 30 minutes after his colleagues had begun work, he went toward a nearby hilly area to relieve himself and did not pay attention to a warning sign in the area about the mine danger. At that moment, he was injured as a result of a mine explosion. Hearing the sound, his colleagues also came to his vicinity. They removed him from there on a stretcher and later sent him to the hospital by car.

The testimony given during the preliminary investigation by **Rahimli Shahriyar Nasimi oglu**, a deminer of the Community Mine Team of the International Eurasia Press Fund, who was questioned as a witness, was read out in court. In that statement, he indicated that together with his colleagues he was engaged in clearing mined areas in a bushy field along

the side of the Seydimli–Suqovushan road in Suqovushan village of Tartar District. On 26 April 2023, at around 09:00, they went to the area as a team and began work. Approximately 20–30 minutes after the work began, they heard the sound of an explosion from the nearby hilly bushy field where their driver—

Page 959

—**Xazar Babashov** had gone to relieve himself, without paying attention to the warning sign indicating a mine danger in the area. Acting carelessly, he had gone into that bushy area and, after stepping on one of the mines, was injured as a result of the explosion. After that, they jointly removed him from the area and sent Xazar Babashov to the hospital in the emergency medical assistance vehicle they had called for help. The said area had been deliberately and purposefully mined by Armenian armed formations during the period of occupation.

It is apparent from the statements of **Huseynov Jalal Huseyn oglu**, **Isgandarov Uzeyir Hasan oglu**, and **Maharramzada Vusal Ogtay oglu**, employees of the Community Mine Team of the International Eurasia Press Fund, who were questioned as witnesses and whose statements were read out and examined in the courtroom, that they confirmed as true statements of similar content to the statement of Rahimli Shahriyar Nasimi oglu.

The testimony given during the preliminary investigation by the injured person **Asgarov Masim Hasan oglu** was read out in court. In that statement, he indicated that he works as a laborer at "Mugansutikinti" LLC and worked as a laborer in the works being carried out on the restoration and repair of the "Garabagh" water canal in the liberated territories of Tartar District. On 27 May 2023, in the liberated area of Chayli village, after one of his colleagues had cleaned the inside of the water canal with a tractor, he and other laborers began, at around 15:00, cleaning soil, metal, and other debris inside the canal. While taking debris from inside the canal by hand and throwing it aside, he picked up from the ground a piece of iron to which he had attached no importance, in order to throw it away; an explosion occurred, and he sustained an injury to his left hand. He was later sent to the hospital.

Likewise, it is apparent from the statements of **Ibrahimov Fariz Aghagaddash oglu**, **Guliyev Vugar Telman oglu**, and **Rzayev Rovshan Elshan oglu**, employees of "Mugansutikinti" LLC, who were questioned as witnesses and whose statements were read out and examined in the courtroom, that they confirmed as true the statement given by Asgarov Masim Hasan oglu.

The testimony given during the preliminary investigation by the injured person **Salimov Mammad Vahid oglu** was read out in court. In that statement, he indicated that on 4 December 2020, at around 11:00, because there was no water at combat position No. 12, he and his fellow soldier Nicat Ismayilov brought water for soldier Shahriyar Agali, who was serving at that position. At that moment, they heard the sound of an explosion from the opposite side. In order to determine where the sound had come from, he climbed a hill located 5–6 meters from their position, and a mine previously planted by Armenian military formations exploded there. At that moment, he felt pain in his left leg and realized that he had been injured by stepping on a mine. Some time later, he was evacuated from the trench.

The testimony given during the preliminary investigation by soldier **Ismayilov Nicat Yusif oglu**, who was questioned as a witness, was read out in court. In that statement, he indicated that on 4 December 2020, at around 11:00, because there was no water at combat position

No. 12, he and his fellow soldier Mammad Salimov brought water for Shahriyar Agali, who was serving at that position. At that moment, they heard the sound of an explosion from the opposite side. In order to determine where the sound had come from, Mammad Salimov climbed a hill located 5–6 meters from them, and at that time he saw that there had been a powerful explosion. Not knowing what had happened, he began calling out and informing the surrounding soldiers. Later, he learned that soldier Mammad Salimov had stepped on a mine and had sustained an injury to his left leg. Some time later, Mammad Salimov was evacuated from the trench.

It is apparent from the statements of junior sergeant **Agali Shahriyar Ogtay oglu**, **Safaraliyev Ruslan Rafail oglu**, **Jafarov Orkhan Natiq oglu**, **Umudov Maharram Movsum oglu**, and **Musayev Elgun Eldar oglu**, who were questioned as witnesses and whose statements were read out and examined in the courtroom, that they confirmed the statements of the injured person Mammad Salimov and the witness Nicat Ismayilov as true.

The testimony given during the preliminary investigation by the injured person **Rahimli Vusal Tagi oglu** was read out in court. In that statement, he indicated that on 6 December 2020

Page 960

…on that date, at approximately 14:00, after speaking with soldier **Ahmadov Murad Vugar oglu**, they decided to go toward a spring located approximately one kilometer from the place where they had gathered, in order to bring water and to obtain cigarettes from the servicemen of another platoon located in the area. For this purpose, while moving together, they began proceeding along the road. He walked ahead of M. Ahmadov, left the road, and wanted to look around the surrounding area. After taking several steps, an anti-personnel mine planted by Armenian armed formations exploded under his right foot, and because he sustained an injury to his right leg, he fell to the ground. At that moment, several seconds later, he heard that an anti-personnel mine had also exploded under the foot of soldier Murad Ahmadov. Some time later, the personnel of the platoon in which they served came running to help them after hearing the sound of the explosion.

It is apparent from the statement of the injured person **Ahmadov Murad Vugar oglu**, which was read out and examined in the courtroom, that he confirmed what was stated in the statement of the injured person Vusal Rahimli and gave a statement of the same content.

The testimony given during the preliminary investigation by **Huseynov Faiq Ali oglu**, who was questioned as a witness, was read out in court. In that statement, he indicated that after the declaration of the ceasefire on 10 November 2020, at approximately 1 December 2020, because the place of deployment of the 5th battalion of military unit No. “N” had been changed to the territory of Khojavend District, the personnel of the 5th battalion, including the personnel of the 13th company in which he served, went to Shahar settlement of Khojavend District, which was their assembly point, and began service there. On 6 December 2020, at approximately 14:00, they heard an explosion from the area where the 1st platoon of the 13th company was assembled. It was heard that soldiers of the 1st platoon of the 13th company, Vusal Rahimli and Murad Ahmadov, had fallen onto a mine planted by Armenian servicemen at a distance of 400–500 meters from their assembly point. For that reason, he and other servicemen of the company went to that area in order to help them. They saw that

both soldier V. Rahimli and soldier M. Ahmadov had sustained serious injuries to their right legs.
The testimony given during the preliminary investigation by the injured person **Guliyev Elchin Ziyadkhan oglu** was read out in court. In that statement, he indicated that, as an assistant in radio reconnaissance and radio-electronic warfare of the reconnaissance unit of the 2nd corps of the Ministry of Defence's military unit No. "N", on the instruction of Major Rovshan Guliyev, he, together with **Ragib Azizov**, head of the radio station of military unit No. "N", and servicemen named Orkhan and Tabriz, listened to and recorded radio communications conducted by the Armenian side using an "ASENA" device. On 8 December 2020, at around 13:00, together with Ragib Azizov, he went toward Shahyeri village to bring firewood and water, and they proceeded along narrow forest roads. While they were going along the forest roads, Ragib said that there was firewood in one of the yards. When they entered that yard, Ragib instructed him to look for and find a container in order to fill it with water. For that reason, while he was looking for a container at the entrance of the bunker in the basement, Ragib Azizov suddenly shouted to him, "Run, there are many of them," and then he heard sounds of gunfire. In the lower part of the bunker, he saw Ragib lying face down at the entrance door of the basement and a person in Armenian military uniform standing in front of the entrance. He went out of that same yard, moved 6–7 meters away, entered a ditch in a bushy area, hid there by covering himself with remaining leaves, and by mobile phone informed Major Rovshan Guliyev, as well as serviceman **Tural Babakhanov** of military unit No. "N", that they had fallen into an ambush, also sending the coordinates he had written down. Shortly afterward, he heard sounds of bullets, and the enemy soldiers began leaving the scene. During that time, soldiers of military unit No. "N" also arrived, but by then the Armenian servicemen had left the house. After that, with the assistance of the servicemen, they took the body of warrant officer Ragib Azizov and brought it to Hadrut settlement.

Page 961

The testimony given during the preliminary investigation by **Azizov Vidadi Khankishi oglu**, the legal successor of the injured person, was read out in court. In that statement, he indicated that on 8 December 2020, at around 13:00, his son **Ragib Azizov** was fired upon with automatic weapons by servicemen of Armenian military formations in Shahyeri village of Khojavend District and was killed.
The testimony given during the preliminary investigation by the injured person **Aghayev Sevindik Dilaver oglu** was read out in court. In that statement, he indicated that on 8 December 2020, at around 17:00, in order to inspect the electrical lines leading to a radio base located on high ground 8–9 kilometers from Hadrut settlement of Khojavend District, he, together with an unfamiliar serviceman, set off in a "Mitsubishi L200" vehicle with state registration plate **90-PF-384**, which he was driving, while **Seymur Rzayev**, an energy engineer of "Azercell" LLC, set off in a "VAZ-2121" vehicle. After traveling 6–7 kilometers, they saw two armed persons in military uniform walking along the side of the road. Because the clothing of one of those persons was untidy, he thought that they could be Armenian servicemen, stopped, and decided to turn back. When he turned the vehicle around, its engine

stalled. Seymur Rzayev also stopped the "VAZ-2121" vehicle he was driving and turned back. At that moment, the person in the military uniform ahead opened fire at them. Therefore, together with the serviceman, he got out of the vehicle and ran toward Hadrut settlement. When he looked back to make sure that Seymur was also coming, he saw that Seymur was running after them, and that a few armed servicemen were running in their direction a little farther behind. When he reached the positions of the military unit belonging to the Azerbaijani Army, he saw that Seymur Rzayev had sustained a gunshot wound to the area of his left shoulder. While at the post, he learned that one serviceman of the Azerbaijani Army had been killed in Shahyeri village of the district by Armenian armed groups. After Seymur received first aid, he was evacuated to the hospital located in Ahmadbayli village of Fuzuli District. He himself sustained no injury, and the "Mitsubishi L200" vehicle with state registration plate 90-PF-384 that he had been driving was not damaged.

The testimony given during the preliminary investigation by the injured person **Rzayev Seymur Aghajan oglu** was read out in court. In that statement, he indicated that on 8 December 2020, at around 17:00, in order to inspect the electrical lines leading to a radio base located on high ground 8–9 kilometers from Hadrut settlement of Khojavend District, he set off in a "VAZ-2121" vehicle with state registration plate **90-AN-801** belonging to "Azercell" LLC, while Sevindik Aghayev, together with an unfamiliar serviceman with the rank of lieutenant, set off in a "Mitsubishi L200" vehicle. When approximately one kilometer remained before reaching the station, he saw two armed persons in military uniform walking along the side of the road ahead. Seeing that Sevindik Aghayev, who was behind him, had stopped the vehicle and was trying to turn back, he realized that the persons in military uniform ahead were Armenian servicemen and stopped the vehicle. At that moment, the Armenian servicemen opened fire at him, and one of the bullets struck the front windshield of his vehicle and wounded his left shoulder. He got out of the vehicle and ran toward Hadrut settlement. After reaching the positions of the military unit belonging to the Azerbaijani Army, first aid was provided to him, and he was evacuated to the hospital located in Ahmadbayli village of Fuzuli District.

The testimony given during the preliminary investigation by the injured person **Hasanov Elnur Mazahir oglu** was read out in court. In that statement, he indicated that he served in the 12th company of the 4th motorized battalion of military unit No. "N" as deputy company commander for work with personnel. On 8 December 2020, at around 15:00, in order to inspect electrical lines in a mountainous area together with "Azercell" LLC employee Sevindik Aghayev Dilaver oglu and the company's other employee Seymur Rzayev Aghajan oglu, and also in order to meet with his combat comrades, he got into a "Mitsubishi L200" vehicle driven by Sevindik Aghayev, while Seymur Rzayev got into a "VAZ-2121"

that he set off in that vehicle; when approximately one kilometer remained before reaching the station, he saw, 30–40 meters ahead, four armed persons in military field uniforms walking along the side of the motor road. Sevindik Aghayev stopped the "Mitsubishi L200" vehicle and began moving backward. Seeing this, Seymur Rzayev turned the "VAZ-2121" vehicle around and moved backward. At that moment, the persons in military uniforms ahead

opened fire at them with automatic weapons. Therefore, in order to save their lives, they got out of the vehicle and, together with Sevindik Aghayev, ran toward Hadrut settlement. When he looked back, he saw that the four armed Armenian servicemen were following them. Seymur Rzayev caught up with them on the road and had sustained a gunshot wound to the area of his left shoulder. From the latter's words, he learned that he had been wounded in the left shoulder area while driving the "VAZ-2121" vehicle, as a result of fire opened by Armenian servicemen. When they reached Hadrut settlement, they encountered servicemen of military unit No. "N", and, according to what the latter said, he learned that one serviceman of the Azerbaijani Army had been killed by Armenian armed groups in Shahyeri village of the district. Thus, he confirmed the statement given by Aliyev Elchin.

The testimony given during the preliminary investigation by **Aliyev Ramil Shakir oglu**, who was questioned as a witness, was read out in court. In that statement, he indicated that on 8 December 2020, at around 15:00, information was provided that several servicemen of Armenian military formations were hiding in one of the villages located upward from Hadrut settlement of Khojavend District, and that during a shootout that had occurred in the village, warrant officer **Elchin Guliyev**, a serviceman of military unit No. "N", had been killed. In connection with the information received, servicemen of military unit No. "N", numbering 20–25 persons, set off in that direction in two reconnaissance groups. At that time, they saw three persons running toward them along the motor road from the direction of Hadrut. When they approached, they determined that one of those persons was a serviceman of military unit No. "N" with the rank of lieutenant, and that the other two were employees of "Azercell" LLC. One of those two persons had sustained a gunshot wound to the area of his left shoulder. After that, they moved in that direction and reached Shahyeri village of Khojavend District. In the village, with warrant officer Elchin Guliyev, who met them there, acting as guide, they went to the house where warrant officer **Ragib Azizov** had been killed. On the stairs they found the latter's body. He observed that Ragib Azizov had gunshot wounds to the area of his left leg and to various parts of his body, caused by fire opened from an automatic weapon.

The testimony given during the preliminary investigation by **Abbasov Mayis Avaz oglu**, who was recognized and questioned as the legal successor of the injured person, was read out in court. In that statement, he indicated that he currently lives in Shorsulu village of Salyan District with his family members, namely his wife and two sons. His son **Avaz Abbasov** was called up for active military service on 7 January 2019 by the Salyan District Department of the State Service for Mobilization and Conscription and served in military unit No. **073(052)** of the Ministry of Defence's Special Forces, located in Jabrayil District. On 12 December 2020, in the afternoon, representatives of the Salyan District municipality and neighbors informed him that his son Avaz Abbasov had been killed heroically in combat operations. On 12 December 2020, he went to Salyan District Hospital to collect the body of his son Avaz Abbasov, saw his son, and became certain that he had been killed. After that, he took his child's body, returned to Salyan District, and buried him in the Borankend cemetery of Salyan District.

The testimony given during the preliminary investigation by **Huseynli Samir Mahal oglu**, who was recognized and questioned as the legal successor of the injured person, was read out in court. In that statement, he indicated that his brother **Azer** had served since 2015 in

military unit No. “N” as an active-duty serviceman beyond the prescribed term, with the rank of junior sergeant—

Page 963

—that he had served with the military rank of junior sergeant; on 27 September 2020 he was assigned to military unit No. **073(052)** of the Special Forces, and after noon on 12 December 2020, from the military unit where he served, he was informed that his brother **Azer Huseynov** had been killed heroically in battles in the area located in the direction of Jabrayil District, where Armenian separatist forces were unlawfully positioned. On 13 December 2020, in order to collect the body of his brother Azer Huseynov, he went to Fuzuli District in a vehicle organized by Gadabay District Hospital and the Safarbarlik department, saw his brother, and became certain that the deceased person was his brother Azer Huseynov. After that, he took his brother’s body and returned to Gadabay District. The body of his brother Azer Huseynov was buried on 13 December 2020 in the cemetery of Yeni Saratovka village, Gadabay District.

The testimony given during the preliminary investigation by the injured person **Baghiyev Rashad Gudrat oglu** was read out in court. In that statement, he indicated that on 28 August 2020, he was assigned to military unit No. “N”, which was part of military unit No. “N” of the Ministry of Defence, and from that date he served in the position of deputy commander of the 3rd platoon of military unit No. “N” within **F detachment**, with the military rank of captain. During his service, he was provided with all types of supplies and had no problems related to service.

On 10 December 2020, in accordance with the combat task given to them, two detachments consisting of more than 100 persons moved from the direction of Jabrayil District toward the directions of Qubadli and Lachin Districts, to mountainous areas and villages that were territory of the Republic of Azerbaijan and where servicemen of unlawful formations created by Armenians were gathered. They were tasked with ensuring that the Armenian military formations, or rather their remnants, left those territories and, if fire was opened against them, with silencing them by return fire. For this purpose, on 10 December 2020, they began moving in the indicated direction. On 11 December 2020, at approximately 21:00, after passing through the last villages of Jabrayil District, they reached a mountainous area in the Qubadli–Lachin direction, the name of which as a district or village he did not know.

In the mountainous area, at a distance of approximately 40–50 meters from them, they encountered armed servicemen, the exact number of whom he did not know, belonging to unlawful formations created by Armenians, who were holding a position there. The servicemen who were with him announced to the Armenians located in that area that they should surrender, lay down their weapons, and leave the territory of the Republic of Azerbaijan. However, one of them spoke in Russian and said that they would not surrender, that they themselves should leave the area, and he opened fire on them. After fire was opened, they took positions in order to defend themselves and exchanged fire with the Armenians. For approximately 5–10 minutes, the Armenians fired in their direction. As a result, two persons — senior sergeant **Avaz Abbasov** and soldier **Azer Huseynov** — were killed by gunshot injuries sustained from fire opened by the Armenians. At that time, while

trying to change position, he was injured as a result of fire opened by the Armenians and sustained bodily injury. In addition, five other servicemen — soldiers **Nicat Habibov**, **Abbas Babayev**, **Eljan Mammadov**, **Farid Imamaliyev**, and **Khayyam Javadov** — were wounded, sustaining various bodily injuries.
After that, when the Armenians saw that assistance was coming to them, they fled the area. Until approximately 05:00 on 12 December 2020, they served in that area. Later, an evacuation group arrived and evacuated the killed and wounded to a military hospital, while the other members of the detachment remained in that area. The Armenian forces had set up all conditions there to defend themselves and to fight: firing positions and trenches had been dug, a weapons depot and shelters had been arranged. In addition, during a search conducted there, maps were found that indicated the presence of three further firing positions belonging to the unlawful Armenian military formations opposite them. After that, the servicemen who had not been injured moved in the direction of the indicated places. The next day, the wounded servicemen were first evacuated to hospital No. **214**, and then to the military hospital of the Internal Troops. During the battle, he sustained a gunshot wound to the area of his right calf and had no other injuries.

Page 964

The testimony given during the preliminary investigation by the injured person **Habibov Nicat Mahir oglu** was read out in court. In that statement, he indicated that on **11 December 2020**, at around **15:00–16:00**, under the command of the commander of **M detachment**, Major **Ilgar Orujov**, and the commander of **F detachment**, Captain **Rubun**, together with subordinate servicemen and also as part of the personnel of **F detachment** of military unit No. “N”, they began, on foot, to carry out search and sweep operations in a mined area from that area in the direction of **Jabrayil–Qubadli**. After they had covered approximately **6–7 kilometers** on foot, at around **20:00–21:00**, in a mountainous and forested area, they saw the light of a pocket flashlight. Looking more carefully, they saw three armed persons performing patrol duty there, saw that all of them were armed, and, because they heard them speaking to one another in Armenian, they became certain that they were Armenian servicemen.
At that time, he witnessed that behind those three persons there were also Armenian saboteurs, that is, Armenian servicemen, with personnel numbering approximately **100 persons**. After an exchange of fire lasting approximately **5–10 minutes**, their servicemen called out in Russian to the Armenians there, warning them once again to surrender. However, they did not surrender and told them that they had **20 minutes** to leave. For this reason, a firefight began between them. At that time, they opened fire using large-caliber weapons and hand grenades. During the battle, he was wounded in the area of his left foot; in addition, five soldier comrades — **Khayyam Javadov**, **Farid Imamaliyev**, **Abbas Babayev**, **Eljan Mammadov**, and Captain **Rashad Baghiyev** — sustained injuries to various parts of their bodies, while two of his fellow servicemen — **Azer Huseynov** and **Avaz Abbasov** — were killed as a result of fire opened by the Armenians. He further stated that during the battle there were also many losses on the Armenian side; afterward, the Armenian soldiers abandoned their positions and began fleeing toward the village. Later, first aid was provided

by orderlies to him and the four other wounded servicemen, and they were evacuated by military medical vehicles to a military hospital, while the other servicemen continued the battle.

The testimony given during the preliminary investigation by the injured person **Imamaliyev Farid Jabir oglu** was read out in court. In that statement, he indicated that on **10 December 2020**, at around **19:00–20:00**, he had gone to **Aghjakand village** of Khojavend District; that settlement consisted of mountainous and forested terrain. On **11 December 2020**, at around **15:00–16:00**, under the command of the commander of **F detachment**, Captain **Dadashov**, and the commander of **M detachment**, their serviceman with the rank of major, as part of the personnel of **M detachment** and **F detachment** of military unit No. "N", numbering approximately **230 persons**, in full combat readiness, on foot, they began to carry out search and sweep operations in a mined area from that area in the direction of **Jabrayil–Qubadli**. After they had covered approximately **6–7 kilometers** on foot, at around **20:00–21:00**, in a mountainous and forested area, they saw the light of a pocket flashlight. Looking more carefully, they observed that three armed persons were on patrol duty there and that all of them were armed. At that time, seeing that there were persons positioned there and that they were armed, they informed the persons there that they should leave the area and surrender. However, instead of surrendering, the Armenians began firing at them using large-caliber weapons and hand grenades. At that time, as a result of fire opened from automatic weapons by Armenian servicemen, he was wounded in the area of his right upper arm and right thigh. During the battle, five other servicemen — **Khayyam Javadov**, **Nicat Habibov**, **Abbas Babayev**, **Eljan Mammadov**, **Farid Imamaliyev**, and Captain **Rashad Baghiyev** — sustained injuries to various parts of their bodies, while two servicemen — **Azer Huseynov** and **Avaz Abbasov** — were killed. He further stated that during the battle there were also many losses on the Armenian side; afterward, the Armenian soldiers abandoned their positions and began fleeing toward the village. Later, first aid was provided by orderlies to him and the four other wounded servicemen, and they were evacuated by military medical vehicles to a military hospital, while the other servicemen continued the battle.

Page 965

The testimony given during the preliminary investigation by the injured person **Javadov Khayyam Zafar oglu** was read out in court. In that statement, he indicated that on **11 December 2020**, on the basis of an order given by the command, on that day the personnel of **M and F detachments** were to proceed to mountainous areas in **Qubadli and Jabrayil Districts**, identify approximately **60–70** members of Armenian military formations hiding there, and, after going there, first hold talks with the hidden Armenian forces in order to secure their surrender; after that, they were to be handed over to the relevant authorities. If this did not happen, the Armenian military forces were to be removed from those areas by other methods.

At that time, in order to carry out the assignment given by the command, at around **20:00–21:00**, they moved toward the indicated area, on foot, in teams of **30–32 persons**, with **120–130 persons** together, moving from one place to another. In order to check the areas for the possible presence of mines, a group of four sapper servicemen moved ahead of them with **IMA-07 mine-detecting devices**. On that day, at around **20:00–21:00**, the weather was dark. While they were moving as a team in a mountainous area, they saw, at a distance of

approximately **70 meters**, a light resembling the light of a flashlight. When they approached in that direction, they stopped in a position ready to fire. When that light was directed toward them, he realized that the source of the light was an Armenian serviceman. Looking more carefully in that direction, he saw several Armenian servicemen there. At first, they spoke with those servicemen and asked them to leave the area where they were positioned. However, they suddenly began opening fire. At that time, they also opened fire in the direction where the Armenian servicemen were located.
During the battle, the Armenian servicemen opened fire at them using large-caliber weapons and hand grenades. During the battle, he sustained a shrapnel injury to the area of his left leg, but continued fighting. The battle lasted approximately **one hour**. At that time, the detachment's long-term active-duty servicemen **Azer Huseynov** and **Avaz Abbasov** were killed, while soldiers **Nicat Habibov**, **Eljan Mammadov**, **Farid Imamaliyev**, and Captain **Rashad Baghiyev** were wounded. He further stated that during the battle there were also many losses on the Armenian side. Afterward, the Armenian soldiers abandoned their positions and began fleeing toward the village. Later, first aid was provided by orderlies to him and the wounded servicemen together with him, and they were evacuated by military medical vehicles to a military hospital, while the other servicemen continued the battle.
The testimony given during the preliminary investigation by the injured person **Mammadov Eljan Elburus oglu** was read out in court. In that statement, he indicated that on **11 December 2020**, at around **15:00–16:00**, under the command of the commander of **M detachment**, Major **Ilgar Orujov**, and the commander of **F detachment**, Captain **Dadashov**, as part of the personnel of **F detachment** and **M detachment** of military unit No. "N", with approximately **230 persons** in full combat readiness, on foot, began to carry out search and sweep operations in that mined area.
After covering approximately **6–7 kilometers** on foot, they encountered Armenian saboteurs in the territory of **Jabrayil District**, and witnessed that Armenian servicemen with personnel numbering approximately **100 persons** had taken up positions in that area. Since the weather was foggy and dark, although they could not see exactly what was on them, they saw that all of them were armed. Then the Armenian servicemen also saw them and began firing at them. In order to defend themselves and respond to the enemy, they opened fire at them. At that time, the Armenians used large-caliber weapons and hand grenades against them. During the battle, while trying to avoid a bullet fired from automatic weapons by the Armenian servicemen, his right foot was sprained. At that time, five servicemen sustained injuries to various parts of their bodies, and two servicemen were killed. Although he did not know their approximate number, there were also persons killed among the Armenian servicemen as a result of the battle, and the survivors began fleeing from the positions where they were located. At that time, he did not know the names of the servicemen who had been killed in the course of the exchange of fire. However, the wounded soldiers were **Babayev Abbas**, **Javadov Khayyam**, and **Habibov Nijat**, but the other two wounded servicemen were—

Page 966

—he did not know who they were. After first medical aid had been provided by the medic of **F detachment** to the five wounded servicemen, they were evacuated to a military hospital by military medical aid vehicles that came to the place where they were located.

The testimony given during the preliminary investigation by the injured person **Babayev Abbas Yadulla oglu** was read out in court. In that statement, he indicated that on **11 December 2020**, at approximately **12:00**, pursuant to an assignment given by the leadership, by the time it became dark that day the personnel of **M and F detachments** of military unit No. "N" were to identify the approximately **50-person** personnel of Armenian military formations hiding in mountainous terrain in the territory of **Qubadli and Jabrayil Districts**, go there, and hold talks only with the Armenian forces hiding there in order to ensure their surrender; after that, they were to transfer them to the relevant authority, and if this did not happen, they were to remove the Armenian forces from the areas by force.

There were **120–130** persons in each detachment. At that time, they began carrying out the assigned task. The weather was cold, the ground was snowy, and they were wearing white camouflage uniforms of a masking type. The areas through which they moved were mountainous; there were few trees, but sparse bushes could be seen. They began moving on foot, in platoons of **30–32** persons, together with **120–130** persons, at close distances from one another. Ahead of them, because of the possibility that the areas were mined, a four-person group of engineer servicemen moved with **IMA-07 mine-detecting devices**.

While moving in the indicated direction, there were no problems on the road and no incident occurred. At around **20:00**that day, it had already become dark. While moving in platoon formation through the mountainous terrain, they saw, at a distance of approximately **70 meters** from them, a light similar to the beam of a flashlight. At that moment, they lay down on the ground and remained in a position ready to fire. When that light was directed toward them, they understood that the source of the light was a serviceman from the Armenian side. That person suddenly opened fire in their direction, after which they also began firing in the direction of the light. At that time, heavy fire began to be opened at them both from that direction and from the rear, and for that reason they understood that the enemy force there did not consist of one person.

They exchanged fire with the Armenians for approximately **two minutes** and then stopped firing and tried to conduct talks in Russian with the Armenians regarding their voluntary laying down of weapons and surrender. They told the Armenians that they did not want bloodshed, that they were giving them **20 minutes**, that they were numerically superior, and that they had to surrender. At that point, being certain that the Armenian side would not surrender, they continued the firefight with the Armenians in that direction.

He also indicated that during the firefight the Armenian side used large-caliber weapons and grenades. During the battle, they neutralized approximately **four or five** members of the Armenian military formations and wounded some others. After that, the Armenians left those areas and fled in the direction of the village located there. They then positioned themselves in the same area that the Armenian military formations had chosen as their base. During the battle, because he felt pain in the area above his left eyebrow, he approached the doctor there; the doctor examined the painful area and told him that he had been wounded.

Later, he learned from members of the detachment that the long-term active-duty serviceman **Azer Huseynov** had been killed as a result of fire opened by the Armenian military formations during the operation, and that other soldiers — **Nicat Habibov**, **Khayyam Javadov**, and **Eljan Mammadov** — had been wounded. In **F detachment**, one person had been killed, one officer with the rank of captain whose name he did not know, and one soldier

whose name he did not know had been wounded. Within a short time, medical aid was provided to the wounded servicemen, and after that they went to the place toward which the Armenians had fled from their positions, in the direction of a village of Jabrayil District, and continued carrying out the assigned task.
The testimony given during the preliminary investigation by the injured person **Abbasov Ulfat Namaz oglu** was read out in court. In that statement, he indicated that on **9 December 2020**, the task of taking food to the personnel of the **7th and 9th companies** had been assigned to Ulfat Abbasov. At around **16:00** that day, in order to distribute dinner to those companies, he, as the driver, Lieutenant **Rashad Abbasov** as the vehicle commander, cook-soldier **Shahveran Safarov**, and communications team soldier **Raul—**

Page 967

—**Kovalskiy** set off. Soldier Raul Kovalskiy went with them because there was a problem with the communication line between the battalion and the company. First, they distributed food to the personnel and combat positions of the **7th company**, and then of the **9th company**. After distributing food at the **27th combat position** of the 9th company, because the road was narrow, they moved back and forth by vehicle along the supply road. At that moment, there was the sound of an explosion. They immediately got down and saw that the left rear wheel of the vehicle had run over an anti-tank mine. They informed the deputy battalion commander for logistics, Captain **Eltun Jafarov**, about the incident. On **10 December 2021**, he was sent to hospital No. **214** for treatment and examination, where he was treated with the diagnosis of "blast trauma, headaches after the shock wave."
The testimony given during the preliminary investigation by **Abbasov Rashad Yavar oglu**, who was recognized and questioned as an injured person, was read out in court. In that statement, he indicated that on **9 December 2020**, the task of taking food to the personnel of the **7th and 9th companies** had been assigned to **Ulfat Abbasov**. At around **16:00** that day, in order to distribute dinner to those companies, driver **Ulfat Abbasov**, himself as the vehicle commander, cook-soldier **Shahveran Safarov**, and communications team soldier **Raul Kovalskiy** set off. Soldier Raul Kovalskiy went with them because there was a problem with the communication line between the battalion and the company. First, they distributed food to the personnel and combat positions of the **7th company**, and then of the **9th company**. After distributing food at the **27th combat position** of the 9th company, because the road was narrow, they moved back and forth by vehicle along the supply road. At that moment, there was the sound of an explosion. They immediately got down and saw that the left rear wheel of the vehicle had run over an anti-tank mine.
The testimony given during the preliminary investigation by the injured person **Safarov Shahveran Fazail oglu** was read out in court. In that statement, he indicated that on **9 December 2020**, the task of taking food to the personnel of the **7th and 9th companies** had been assigned to **Ulfat Abbasov**. At around **16:00** that day, in order to distribute dinner to those companies, driver **Ulfat Abbasov**, **Rashad Abbasov** as the vehicle commander, he himself as the cook-soldier, and communications team soldier **Raul Kovalskiy** set off. Soldier Raul Kovalskiy went with them because there was a problem with the communication line between the battalion and the company. First, they distributed food to the personnel and combat positions of the **7th company**, and then of the **9th company**. After distributing food

at the **27th combat position** of the 9th company, because the road was narrow, they moved back and forth by vehicle along the supply road. At that moment, there was the sound of an explosion. They immediately got down and saw that the left rear wheel of the vehicle had run over an anti-tank mine.
The testimony given during the preliminary investigation by the injured person **Kovalskiy Raul Borisovich** was read out in court. In that statement, he indicated that on **9 December 2020**, the task of taking food to the personnel of the **7th and 9th companies** had been assigned to **Ulfat Abbasov**. At around **16:00** that day, in order to distribute dinner to those companies, driver **Ulfat Abbasov**, **Rashad Abbasov** as the vehicle commander, cook-soldier **Shahveran Safarov**, and he himself set off. He went with them because there was a problem with the communication line between the battalion and the company. First, they distributed food to the personnel and combat positions of the **7th company**, and then of the **9th company**. After the problem on the communication line was resolved, and after distributing food at the **27th combat position** of the 9th company, because the road was narrow, they moved back and forth by vehicle along the supply road. At that moment, there was the sound of an explosion. They immediately got down and saw that the left rear wheel of the vehicle had run over an anti-tank mine. They informed the deputy battalion commander for logistics, Captain **Eltun Jafarov**, about the incident. When he was examined at the medical point of the military unit, no injury or trace of injury was found on him.
The testimony given during the preliminary investigation by **Jafarov Anar Intigam oglu**, who was questioned as a representative of military unit No. "N", which was recognized as an injured person, was read out in court. In that statement, he indicated that on **9 December 2020—**

—on that date, at around **18:00**, he was informed that a **KamAZ-43114** vehicle with military registration plate **D588QQ**, belonging to the logistics support platoon of the **3rd battalion**, had struck an anti-tank mine at around **17:00** near **Marzili village of Aghdam District**. A few days after the incident, the said vehicle was brought to the vehicle park of the military unit, the technical condition of the vehicle was inspected by an internal inspection commission, and a defect report was drawn up. As a result of the vehicle being rendered unusable, material damage was caused to military unit No. "N".
The testimony given during the preliminary investigation by **Cafarov Eltun Hasan oglu**, who was questioned as a witness, was read out in court. In that statement, he indicated that on **9 December 2020**, **Ulfat Abbasov** contacted him and reported that the vehicle in which they had gone to distribute food had struck a mine in the area of the **9th company**, and that the vehicle had been rendered unusable. He reported the incident to the command, and the servicemen who had been in the vehicle were sent for examination to the medical point of the military unit and to hospital No. **214**.
The testimony given during the preliminary investigation by **Akbarov Samir Safar oglu**, a doctor at the medical point of military unit No. "N", with the rank of medical service lieutenant, who was recognized as an injured person, was read out in court. In that statement, he indicated that while serving, on **13 December 2020**, at around **15:00–16:00**, the head of

the medical point of the **5th battalion** of military unit No. “N”, medical service senior lieutenant **Ibrahimov Firuz Gazanfar oglu**, informed him that two soldiers had been injured by striking a mine near the **5th combat position** in the area of the **15th company**. Together with F. G. Ibrahimov, he went to the front of the 15th company. There were two servicemen there. They set off in a service vehicle toward the 5th combat position, and then passed through an area previously known as neutral territory and proceeded along the trench road. The company commander called a soldier named **Ayaz**, who had provided information about the persons injured as a result of the mine explosion at the scene of the incident, and asked him where they were. The soldier gave directions by phone. While moving along the trench road, he saw one of the soldiers bringing one of the wounded soldiers to the trench road. He approached the wounded soldier, who was lying on the ground. He asked the soldier what had happened and in which areas he had been wounded. The soldier, **Huseynov Shamistan Sabir oglu**, said that he was in pain and did not know specifically which part of his body had been injured. When he examined the soldier, he found a blast wound in the middle third of the left lower leg; the bones of the left lower leg were also fractured in an open shrapnel fracture.

F. Ibrahimov stayed with that soldier, while he, together with the commander of the 15th company, went to the place where the incident had occurred, namely to the former observation post of the Armenian armed formations. With them was Major **Inshallah Musayev**, deputy commander of the 5th battalion for logistics support. One of the soldiers was standing motionless on top of the trench, near the earth embankment, at a distance of about **100 meters** from them; another was lying wounded on the ground on the trench road, about **4–5 meters** away. He first wanted to go toward the wounded, but the soldier on the earth embankment said that the area was mined and warned them to be careful.

He loudly instructed that soldier to help the other wounded soldier. **Camil Hasanov**, the assistant to the commander of the military unit for legal affairs, with the rank of justice captain, and Firuz Ibrahimov went toward them. While he was giving that instruction to the soldier, he heard the sound of an explosion near the soldier, and the soldier rolled into the trench. After that, they moved toward that trench along the path on the earth embankment and reached the wounded. First, C. Hasanov and F. Ibrahimov went down into the trench and provided aid to the soldiers. He remained standing on the earth embankment. One of the wounded soldiers was **Ibrahimov Vugar Ayaz oglu**, and sanitary stretchers were also there. C. Hasanov and F. Ibrahimov lifted one of the wounded from the trench toward him and placed him on the earth embankment. He placed the wounded soldier on a sanitary stretcher. C. Hasanov and F. Ibrahimov lifted the other wounded soldier onto the earth embankment and placed him on a stretcher. With the help of the commander of the 15th company, they began carrying soldier V. A. Ibrahimov. After they had gone approximately **15–20 meters**, while passing over—

Page 969

—the fire sector located within the earth embankment, he heard the sound of an explosion under his left foot. Without losing control, he moved forward **1–2 meters** and placed the stretcher on the ground. The company commander was standing at the guiding end of the stretcher. As a result of the explosion, the shock wave was directed toward his face; he felt

very unwell, and foreign objects and particles of soil on the ground stuck to his face because of the explosion. The wounded soldiers were then evacuated to military unit No. **056**.
While at the scene, he learned that the soldiers had been serving at the **5th combat position** and had gone there in order to look at the area in front of the combat post that had recently been liberated from occupation. As a result, three soldiers were wounded by the explosion of anti-personnel mines. Although he did not sustain any bodily injury as a result of the explosion, he experienced blast trauma and blast shock.
The testimony given during the preliminary investigation by **Hasanli Ayaz Hasrat oglu**, senior rifleman of the **3rd squad of** the **1st platoon** of the **15th company** of the **5th battalion** of military unit No. "N", who was recognized and questioned as an injured person, was read out in court. In that statement, he indicated that on **13 December 2020**, at around **14:00**, while he was on a mound located in the area of the 15th company, he heard his fellow soldiers **Huseynov Shamistan Sabir oglu** and **Ibrahimov Vugar Ayaz oglu** speaking about going to look at a post in front of the **5th combat position**, located in the area of **Shikhlar village of Aghdam District**, which had previously been under the control of Armenian military formations. A short time later, V. A. Ibrahimov and Sh. S. Huseynov went in the direction of the 5th combat position.
Approximately **30 minutes** later, he heard the sounds of an explosion and shouting. As soon as he heard the explosion, he immediately went to that area. First, he went to the 5th combat position and looked for the soldiers there, but could not find them. He then heard shouting from a nearby area. Moving in the direction of the sound, he saw soldier **Ibrahimov Vugar Ayaz oglu** and soldier **Huseynov Shamistan Sabir oglu** lying on the ground about **5 meters** apart from one another. When he approached the soldiers, he saw that Huseynov Shamistan Sabir oglu's right leg was in a torn-apart condition, while the parts of both of Ibrahimov Vugar's legs below the knees were torn apart, and their legs were entirely covered in blood. As soon as he saw the soldiers in that condition, he immediately called the platoon commander, Lieutenant **Khazar Alasgarov**, and informed him that his fellow soldiers had struck a mine and been injured. The platoon commander said that they would come to the place where he was with support forces for evacuation. Approximately **one hour** later, the assistant to the commander of the military unit for legal affairs, Captain **Camil Hasanli**, the battalion doctors, medical service lieutenant **Samir Akbarov**, and another doctor with the rank of senior lieutenant came to that area, stood on the earth embankment, and helped with the evacuation. First, Huseynov Shamistan Sabir oglu was brought up onto the earth embankment and evacuated. Then he was instructed to carry Vugar on his back and bring him up onto the earth embankment.
When he took Vugar in his arms and moved forward, placing his foot on a place resembling a combat post built from saw-cut stone, he suddenly heard the sound of an explosion. As a result of the explosion, his left foot began bleeding, his boot was torn apart, and the bones of his foot were separated from one another. Because of the explosion, soldier Ibrahimov Vugar, whom he was holding in his arms, fell to the ground. After that, with the help of the evacuation group there, Ibrahimov Vugar was taken from the trench, placed on a stretcher, and carried along the earth embankment. After they had moved **10 meters** forward, there was the sound of another explosion. Although medical service lieutenant **Akbarov Samir**, who

was holding the handle of the stretcher, struck an anti-personnel mine, he did not sustain serious bodily injury.
With the help of C. Hasanli and the other doctor, he was brought up onto the earth embankment and was then evacuated to military hospital No. "N". The next day, he was taken to the Main Clinical Hospital of the Armed Forces and underwent surgery. They had been warned by the command that mines had been planted in positions previously under the control of Armenian military formations. When V. A. Ibrahimov and Sh. Huseynov went to that area, they had not received permission from any commander or superior. As a result of striking anti-personnel mines, V. A. Ibrahimov sustained injuries to both legs; he himself sustained an injury to the foot area of his right leg; and soldier Huseynov Shamistan Sabir oglu sustained an injury to his right leg.

Page 970

It is apparent from the statements of **Ibrahimov Vugar Ayaz oglu**, **Huseynov Shamistan Sabir oglu**, **Hasanov Camil Gadimali oglu**, **Gurbanov Ceyhun Ashraf oglu**, and **Asgarov Anar Telman oglu**, who were recognized and questioned as injured persons and whose statements were read out and examined in the courtroom, that they gave statements of similar content to that of **Hasanli Ayaz Hasrat oglu**.
The testimony given during the preliminary investigation by **Musayev Inshallah Aghamusa oglu**, who was questioned as a witness and served as deputy for logistics of the **5th battalion** of military unit No. "N", with the rank of major, was read out in court. In that statement, he indicated that on **13 December 2020**, at around **15:00**, while he was in the service room, he received information that soldiers of the **15th company**, **Ibrahimov Vugar Ayaz oglu** and **Huseynov Shamistan Sabir oglu**, had struck a mine in an area previously under Armenian control opposite the **5th combat position**. When he went there, he saw that the said soldiers had been injured by stepping on a mine. After that, soldier **Ayaz Huseynov** was instructed to bring the wounded soldiers back. While soldier Ayaz Huseynov was carrying wounded soldier Shamistan Huseynov in his arms and taking him out, he also struck a mine and was injured. At that time, medical lieutenant **Samir Akbarov**, who had gone with them to provide medical assistance to the wounded, had a mine explode near his foot and was injured. After that, all the wounded were evacuated.
It is apparent from the statement of **Aliyev Rashad Mazahir oglu**, who was questioned as a witness and whose statement was read out and examined in the courtroom, that he gave a statement of similar content to that of witness Musayev Inshallah Aghamusa oglu and confirmed his statement.
The testimony given during the preliminary investigation by the injured person **Ibadov Mahammad Shahruddin oglu**was read out in court. In that statement, he indicated that on **14 December 2020**, at around **10:00**, **Kazimov**, senior lieutenant and assistant to the head of the engineering service of the military unit, came to the engineer-sapper company and told him and soldier **Talibli Asif Soltanagha oglu** to take mine-detecting devices and go to search for mines at the current **13th combat position** of military unit No. "N", which had been liberated from Armenian armed formations. Several trench roads at that position had already been cleared of mines by sappers.

At around **11:00**, he and soldier **A. Talibli** began clearing the trench road and the earthen embankment with a mine-detecting device, and they found **51 anti-personnel mines** along that trench road. Soldier A. Talibli searched the inside of the trench, while he searched for mines on the earthen embankment above the trench. While they were looking for the next mine, at around **13:10**, he suddenly heard an explosion, and at that moment soldier A. Talibli fell on top of him. Soldier A. Talibli's left foot had been destroyed at the ankle. Senior Lieutenant **K. Hajiyev** and he helped soldier A. Talibli by tying his left leg with a rubber tourniquet. Two soldiers whose post name he did not know came to help them, and together they carried soldier A. Talibli to the motor road. From there, the battalion medical point's medical assistance vehicle arrived and took soldier A. Talibli and him to hospital No. **056**.
It is apparent from the statements of the injured person **Talibli Asif Soltanagha oglu**, as well as witnesses **Mammadov Sanan Niyazi oglu**, **Ismayilov Jeyhun Isakhan oglu**, and **Hajiyev Kamran Natiq oglu**, whose statements were read out and examined in the courtroom, that they gave statements of similar content and confirmed the stated facts.
The testimony given during the preliminary investigation by the injured person **Aminov Elmar Hasan oglu** was read out in court. In that statement, he indicated that on **17 December 2020**, at around **11:00**, he, **A. Aghayev**, and **J. Ismayilov** left the personnel in the same vehicle and went to the main command post. When approximately **500 meters** remained before reaching the main command post, the vehicle in which they were travelling began sliding on the road. The road had an earthen surface. Since snow was falling at that time, the road on which the vehicle was travelling was muddy, and because the vehicle was climbing an incline, it began to slide. At that moment, he himself was sitting in the front right seat, while Senior Lieutenant **A. Aghayev** was sitting in the rear left seat, behind the driver **J. Ismayilov**. After the vehicle slid and left the road, an explosion occurred underneath it. When he regained consciousness, he saw that the vehicle—

Page 971

—had overturned and was burning, and he understood that the vehicle had run over an anti-tank mine.
The testimony given during the preliminary investigation by **Manafov Azer Mazahir oglu**, who was recognized and questioned as the representative of the injured party, was read out in court. In that statement, he indicated that the **"Great Wall"** vehicle with military registration plate **J311QQ** had become completely unusable and that it had not been possible to repair the vehicle and put it back into use.
The testimony given during the preliminary investigation by **Aghayeva Gulnara Babaverdi qizi**, who was recognized and questioned as the legal successor of the injured person, was read out in court. In that statement, she indicated that on **17 December 2020**, in the evening, while she was at home, their relatives and neighbors came to them and informed her that her son **Asaf** had been killed while carrying out a combat assignment. They also informed her that the soldiers who had been in the vehicle with Asaf had not died, but that a person with the rank of major had been injured.
The testimony given during the preliminary investigation by **Ismayilov Asif Isabala oglu**, who was recognized and questioned as the legal successor of the injured person, was read out in court. In that statement, he indicated that on **18 December 2020**, the executive representative of **Sarvan village** of Salyan District, **Tabriz Ismayilov**, rang his brother **Asim**

Ismayilov's doorbell and informed him that **Javad** had been wounded as a result of a mine explosion and was at the Fuzuli District Diagnostic Center. When his brother Asim went there, they called Asim and informed him that Javad had died.
It is apparent from the statements of witnesses **Ahmadov Samir Sarkhanaddin oglu**, **Gasimov Azer Aliovsat oglu**, **Dadashov Fuad Dashdamir oglu**, and **Maharramov Bakhtiyar Baba oglu**, whose statements were read out and examined in the courtroom, that they gave statements of the same content as **Aminov Elmar Hasan oglu** and confirmed the stated facts.
The testimony given during the preliminary investigation by the injured person **Gurbanov Tarlan Tajaddin oglu** was read out in court. In that statement, he indicated that on **19 December 2020**, at around **11:00**, when they reached the area of **Mehdili village** of Jabrayil District, that village was in liberated territory. In order to find and neutralize mines and unexploded ordnance planted by Armenian armed formations, they turned off the asphalt road in that direction — toward a large flat area located in front of an earthen embankment on the left side of the main asphalt road, opposite a road sign fixed in the ground on the right side of the **Jabrayil–Zangilan** highway indicating the direction to that village. After moving approximately **two meters**, there was the sound of an explosion under the front left wheel of the vehicle. He felt severe pain in his legs and lost consciousness. When he regained consciousness some time later, he was lying on the ground by the side of the road. After that, he understood that a mine had exploded under the wheel of the vehicle.
The injured persons **Gurbanli Mahabbat Maharram oglu** and **Huseynli Etibar Javid oglu**, who were questioned in that capacity, gave statements of similar content and confirmed the statement of **Gurbanov Tarlan Tajaddin oglu**.
The testimony given during the preliminary investigation by **Mammadov Mehman Mammadtaghi oglu**, who was questioned as the representative of military unit No. "N", which was recognized as an injured party, was read out in court. In that statement, he indicated that on **19 December 2020**, as part of the assignment to locate mines and combat munitions planted by enemy Armenian armed formations in the area of **Mehdili village** of Jabrayil District, and to neutralize detected mines and munitions, they set off from the military unit at around **08:00**. At around **11:00**, in the area of that village, a mine exploded under the front left wheel of the **KAMAZ-43114** vehicle with military registration plate **E-727-QQ**. As a result, the vehicle with that military registration plate became unusable. At the same time, the driver of the vehicle, junior sergeant **Gurbanli Mahabbat—**

—**Maharram oglu**, as well as **Qurbanov Tarlan Tajaddin oglu**, a junior sergeant and long-term active-duty serviceman who was in the vehicle cabin and served as commander of the reconnaissance squad of the reconnaissance platoon of the headquarters and supply company of the military unit, and **Huseynli Etibar Javid oglu**, lieutenant and commander of the headquarters and supply company, sustained bodily injuries of various degrees.
The testimony given during the preliminary investigation by **Najafli Farid Rashad oglu**, who was questioned as a witness, was read out in court. In that statement, he indicated that on **19 December 2020**, at around **11:00**, when they reached the area of **Mehdili village** of

Jabrayil District, in the direction indicated by a road sign fixed to the ground on the right side of the **Jabrayil–Zangilan** main road showing the way to that village, and directly opposite a large flat area in front of an earthen embankment on the left side of the asphalt main road, they turned off the asphalt road in the indicated direction in order to find and neutralize mines and unexploded shells planted by Armenian armed formations. After moving approximately **two meters**, they heard the sound of an explosion under the front left wheel of the vehicle, and he understood that a mine had exploded. He immediately got down from the cargo bed and told the soldiers in the cargo bed to get down as well. When he got down, he saw that the driver **M. Gurbanli** and **T. Gurbanov**, who was in the driver's cabin, had been injured. They sent them to military hospital No. "N". As a result of the incident, Lieutenant **Etibar Huseynli** was also injured, but because his injury was minor, he did not go to the hospital.
It is apparent from the statement of **Karimli Sarviravan Asef oglu**, which was read out and examined in the courtroom, that he gave a statement of the same content and confirmed the statement of **Najafli Farid Rashad oglu**.
The testimony given during the preliminary investigation by the injured person **Mammadov Elvin Islam oglu** was read out in court. In that statement, he indicated that on **21 December 2020**, they went to **Kechikli village** of Zangilan District in order to establish a defensive position there. At that time, for the defensive positions being set up, they had taken a tent and other necessary equipment in a **"Ural" vehicle with military registration plate F552QQ**. Earlier that day, they had gone to **Beshdara village** and then proceeded from there toward Kechikli village. In the vehicle in which he was travelling, besides himself, were **Lieutenant Colonel Orucaliyev Ibrahim Burcali oglu**, deputy commander of the 2nd battalion of the military unit for logistics support, and driver-soldier **Hashimov Ilgar Etibar oglu**. He and Lieutenant Colonel Ibrahim Orucaliyev were seated in the vehicle cabin. Since the area was mountainous, the personnel of the military unit followed them on foot, while in front the personnel of the engineer-sapper unit carried out work to check whether there were mines in the area. At around **16:00**, while the vehicle was moving, the front left wheel of the vehicle touched an anti-tank mine, and an explosion occurred. As a result of the explosion, the vehicle overturned, and he, Lieutenant Colonel Orucaliyev Ibrahim Burcali oglu, and driver-soldier Hashimov Ilgar Etibar oglu sustained bodily injuries of various degrees.
The testimony given during the preliminary investigation by the injured person **Orucaliyev Ibrahim Burjali oglu** was read out in court. In that statement, he indicated that on **21 December 2020**, they went to **Kechikli village** of Zangilan District in order to establish a defensive position there. At that time, for the defensive positions being set up, they had taken a tent and other necessary equipment in a **"Ural" vehicle with military registration plate F552QQ**. Earlier that day, they had gone to **Beshdara village** and then proceeded from there toward Kechikli village. In the vehicle in which he was travelling, besides himself, were driver-soldier **Hashimov Ilgar Etibar oglu** and junior sergeant **Mammadov Elvin Islam oglu**. He and junior sergeant Elvin Mammadov were seated in the vehicle cabin. Since the area was mountainous, the personnel of the military unit followed them on foot, while in front the personnel of the engineer-sapper unit carried out work to check whether there were mines in the area. At around **16:00**, while the vehicle was moving, the front left—

—wheel of the vehicle touched an anti-tank mine, and an explosion occurred. As a result of the explosion, the vehicle overturned, and he, junior sergeant **Mammadov Elvin Islam oglu**, and driver-soldier **Hashimov Ilgar Etibar oglu** sustained bodily injuries of various degrees.
The testimony given during the preliminary investigation by the injured person **Hashimov Ilgar Etibar oglu** was read out in court. In that statement, he indicated that on **21 December 2020**, they went to **Kechikli village** of Zangilan District in order to establish a defensive position there. Earlier that day, they had gone to **Beshdara village** and then proceeded from there toward Kechikli village. At that time, in the vehicle he was driving, besides himself, were **Lieutenant Colonel Orujaliyev Ibrahim Burcali oglu**, deputy commander of the 2nd battalion of the military unit for logistics support, and junior sergeant **Mammadov Elvin Islam oglu**. They were also seated in the vehicle cabin. Since the area was mountainous, the personnel of the military unit followed them on foot, while in front the personnel of the engineer-sapper unit carried out work to check whether there were mines in the area. At around **16:00**, while the vehicle was moving, the front left wheel of the vehicle touched an anti-tank mine, and an explosion occurred. As a result of the explosion, the vehicle overturned, and he, Lieutenant Colonel **Orucaliyev Ibrahim Burcali oglu**, and junior sergeant **Mammadov Elvin Islam oglu** sustained bodily injuries of various degrees.
The testimony given during the preliminary investigation by **Idrisov Babek Ricail oglu**, who was recognized and questioned as a representative of military unit No. "N" of the **Qubadli Border Corps** of the **State Border Service**, was read out in court. In that statement, he indicated that in mid-December **2020**, after Armenian armed formations surrendered the villages of **Zangilan District** located on the border with the Republic of Armenia, the personnel of the military unit went to those villages and began establishing defensive positions there; one part proceeded toward **Kechikli village**. At that time, the **"Ural" vehicle with military registration plate F552QQ**, belonging to the military unit and carrying supplies for the personnel, moved toward Kechikli village, and the vehicle contained **Lieutenant Colonel Orucaliyev Ibrahim Burcali oglu**, deputy commander of the 2nd battalion of the military unit for logistics support, driver-soldier **Hashimov Ilgar Etibar oglu**, and junior sergeant **Mammadov Elvin Islam oglu**. On that day, at around **16:00**, he received information that the **"Ural" vehicle with military registration plate F552QQ**, belonging to the military unit, had struck an anti-tank mine in the area of Kechikli village. He, together with Captain **Mubariz Khalafli**, commander of the logistics support section, went to the scene and saw that the **"Ural" vehicle with military registration plate F552QQ**, belonging to the military unit, had struck an anti-tank mine on a height in Kechikli village, and that the persons in the vehicle — **Orucaliyev Ibrahim Burcali oglu**, **Hashimov Ilgar Etibar oglu**, and **Mammadov Elvin Islam oglu** — had been injured. All three servicemen were evacuated directly from the scene to the hospital. As a result of the incident, the **"Ural" vehicle with military registration plate F552QQ**, belonging to the military unit, also became unusable.
The testimony given during the preliminary investigation by **Qaradayev Anar Ziyavaddin oglu**, who was questioned as a witness, was read out in court. In that statement, he indicated that on that day, at around **16:00**, the **"Ural" vehicle with military registration plate F552QQ**, belonging to the military unit, struck an anti-tank mine in the area of Kechikli

village. At that moment, he was near the place where the explosion occurred, and after the explosion a crater **1.20 meters**deep formed in the area. As a result of the **"Ural" vehicle with military registration plate F552QQ**, belonging to the military unit, striking an anti-tank mine on a height in Kechikli village, **Orucaliyev Ibrahim Burcali oglu**, **Hashimov Ilgar Etibar oglu**, and **Mammadov Elvin Islam oglu** were injured, and all three servicemen were evacuated directly from the scene to the hospital.
It is apparent from the statement of **Karimov Anar Adil oglu**, which was read out and examined in the courtroom, that he gave a statement of the same content as **Qaradayev Anar Ziyavaddin oglu** and confirmed the stated facts.

Page 974

The testimony given during the preliminary investigation by **Gambarov Rayil Pirali oglu**, who was questioned as the legal successor of the victim, was read out in court. In that statement, he indicated that on **27 December 2020**, at around midday, he was informed by his son Elmir's military comrades that Elmir had been wounded. After that, they told him that Elmir had been taken to the **Fuzuli Diagnostic Center**. At around midday that day, he learned that his son Elmir had died. According to what he heard from Elmir's military comrades, Elmir died as a result of fire opened by Armenian servicemen who had remained in one of the villages of **Khojavend District** that had been liberated from occupation.
The testimony given during the preliminary investigation by the injured person **Rahimov Ramil Ali oglu** was read out in court. In that statement, he indicated that on **27 December 2020**, at around **14:00**, company commander **Rustam Allahverdiyev** ordered the company personnel to come to combat readiness. He said that, as a result of sabotage committed by Armenian servicemen in liberated territory, one serviceman had become a martyr, after which the company personnel came to readiness. They took their weapons and ammunition, got into a **Ural** vehicle, and went to the place where the incident had occurred.
After getting out of the vehicle in a liberated village of **Khojavend District**, they split into two groups and began inspecting the village houses. At that time, a total of **11 servicemen** from the reconnaissance company had gone there. He, **Zamin Aliyev**, **Emin Aliyev**, **Rustam Verdiyev**, and **Gulu Mirzayev** were in one group. While they were moving toward a village house, an Armenian serviceman raised his head from the window of the house and began opening fire at the group from a distance of **5–6 meters**. The shots fired by the Armenian serviceman struck the body of his weapon, and the bullets that struck it fragmented and hit the second finger of his right hand, the fifth finger of his left hand, and the front surface of his left wrist. In addition, several bullets struck the helmet on his head. After the shooting, he ran to the side of the window and saw that **Emin Aliyev** had been wounded. After being wounded, Emin Aliyev crawled to the side.
After the shooting, the servicemen of the company surrounded that house. One Armenian serviceman was killed inside the house, and another **five** Armenian servicemen were killed outside, near the fence. After fighting with Armenian servicemen around that house for approximately **one and a half hours**, and after **six** Armenian servicemen had been neutralized, they returned to the military unit. He had two injury marks on the right side of

his face. Since it was evening and there was no medical vehicle, he was sent to the hospital the following day.

It is apparent from the statement of the injured person **Aliyev Emin Suleyman oglu**, which was read out and examined in the courtroom, that he confirmed the circumstances described by the injured person Ramil Rahimov, gave a statement of similar content, and stated that, as a result of the incident, he had received gunshot injuries to his right knee, left elbow, right arm, chin, and right subcostal area.

The testimony given during the preliminary investigation by **Shabanov Vusal Zabit oglu**, who was questioned as an injured person and had served as a long-term active-duty serviceman with the rank of captain in military unit No. "N", in the position of commander of the **4th obstacle-clearing platoon** of the obstacle-clearing company, was read out in court. In that statement, he indicated that on **29 December 2020**, at around **11:15**, after detecting and neutralizing the **11th anti-personnel mine** approximately **8 meters** ahead of Lieutenant **Mehman Mammadov**, he took the mine in his hand in order to carry it to a safe area and neutralize it. As he turned back and placed his left foot slightly off the track, a sudden explosion occurred, and he fell backward onto the ground. When he looked at his left foot, he saw that the toe/front part of the foot had been torn off and was hanging. Lieutenant Mehman Mammadov and other servicemen in the area immediately took him from the minefield to a safe area. After first medical aid was provided, he was evacuated to the hospital by a military medical vehicle.

It is apparent from the statements of the persons questioned as witnesses — **Aliyev Elchin Eyvaz oglu**, **Mammadov Mehman Baylar oglu**, **Mammadov Elchin Ahmad oglu**, **Jabrayilov Islam Elchin oglu**, and **Kazimov Murad Mirkazim oglu** — which were read out and examined in the courtroom, that in their statements they confirmed the statement of **Shabanov Vusal Zabit oglu**.

Page 975

The testimony given during the preliminary investigation by **Taghiyev Giyas Fariz oglu**, who was questioned as an injured person and was a long-term active-duty serviceman, with the rank of soldier, of military unit No. "N", was read out in court. In that statement, he indicated that on **25 December 2020**, at around **14:00**, while serving in the **4th battalion** of military unit No. "N" located in the area of **Talish village** of **Tartar District**, on the instruction of the command, he was to go, together with soldier **Pashayev Asim Fakhraddin oglu**, to combat position No. **24**, located at the height called **"1353"** in the area of Talish village of Tartar District, in order to take water there. Since he had to take water in a **MAZ** vehicle with military registration plate **C 159 QQ**, he asked the vehicle's driver to act as the driver of that vehicle, and the latter agreed to go with them.

After that, on that date, at around **14:10**, he and **A. F. Pashayev** set off in that vehicle. On that date, at around **15:30**, while they were moving by vehicle along a dirt road passing through a forest, and when there was little distance left before reaching combat position No. **24**, the vehicle began slipping when it reached a steep part of the road. Since he had difficulty controlling it, he stopped the vehicle, and together with him they got out of the vehicle and decided to go forward on foot to examine the condition of the road. **A. F. Pashayev** also got out of the vehicle and began walking along the road. Because of the snowfall, the roadside was covered with snow. Although he told soldier Pashayev that the side area was mined,

Pashayev did not pay attention to his words and entered that area. At that moment, there was a sudden explosion; because of the force of the anti-personnel mine exploding on him, he was thrown approximately **2 meters** from that place toward the road, and when he regained consciousness, he saw that his right foot was missing at the ankle.

It is apparent from the statements of **Pashayev Asim Fakhraddin oglu**, **Nasibli Amrah Mushvig oglu**, **Guliyev Emin Imran oglu**, and **Seyidov Sharif Mirmehdi oglu**, who were questioned as witnesses and whose statements were read out and examined in the courtroom, that in their statements they once again confirmed what was stated in **Giyas Taghiyev's**statement.

It is apparent from the statements of **Orujov Amil Alhiman oglu** and **Orujov Goshgar Ali oglu**, who were questioned as witnesses and whose statements were read out and examined in the courtroom, that on **1 January 2021**, at around **08:00**, on the instruction of **Colonel Telman Huseynov**, intelligence chief of the **2nd Corps**, they had to conduct a search for a martyr as part of a group of **six** persons. For this purpose, they left by **Ural** military vehicle from **Hadrut settlement** of **Khojavend District** toward the area of **Gubadli District**, in the direction of the height **1226**. On that date, at around **14:00**, they reached the indicated area and proceeded on foot up to the **1,226-meter** height. That area is located on the border with the State of Armenia, and mines had previously been planted in the area by Armenian armed forces. They conducted searches in that area for approximately **3–4 hours**. While they were moving, there was a sudden explosion, and **Vasif Maharramov** stepped on a mine. The part of his left leg above the knee was completely amputated, while his right foot was amputated in an incomplete, hanging condition. First aid was immediately provided, the wounds he had received were bandaged, and he died.

The testimony given during the preliminary investigation by **Najafov Mahammad Farman oglu**, who was questioned as an injured person and was the head of Road Maintenance Department No. **55** of the **Azerbaijan State Automobile Roads Agency**, located in **Kalbajar District**, **Dashbulag village**, was read out in court. In that statement, he indicated that on **22 December 2020**, at around **00:00**, while he was asleep in the building, he heard numerous gunshots from outside. At that time, the servicemen and police officers on duty there did not allow them to go outside, saying that the attackers were armed Armenian groups. Therefore, they switched off the light inside. Fire was opened in the direction of the building in which they were. It is possible that the armed group saw the light of the building and thought that there were people inside; for that reason, they set the building on fire in order to kill them. Since at that time he was not permitted to go outside, he remained inside and did not know what was happening around the building. However—

—he realized that the building in which he was staying had been fired upon. At that time, together with him, **Kamalov Aqil**, **Kamalov Ogtay**, **Aliyev Aydin**, **Jamilov Mubariz**, and **Ugurluyev Parvin** were in that same building, and as a result of bullets fired by Armenian armed forces, an attempt was also made on their lives. After this incident, he experienced psychological shock and was frightened by the danger that he might be killed.

It is apparent from the statements of the injured persons **Kamalov Aqil Alasgar oglu**, **Aliyev Aydin Allahverdi oglu**, **Jamilov Mubariz Huseyn oglu**, **Mamishov Nemat Galandar oglu**, **Asgarov Azer Azim oglu**, **Ismayilov Gachay Aydin oglu**, **Gahramanov Eldost**

Kapari oglu, **Ugurluyev Parvin Chingiz oglu**, and **Abdullayev Shamo Elburus oglu**, which were read out and examined in the court hearing, that in their statements they gave accounts of similar content to the statement of the injured person **Najafov Mahammad Farman oglu**.

The testimony given during the preliminary investigation by the injured person **Safarov Majid Jalil oglu** was read out in court. In that statement, he indicated that on **12 January 2021**, at around **08:00**, together with the commander of the **1st battalion**, Captain **Sarkhan Mukhtarov**, in the **Mitsubishi** vehicle driven by him, they set off from **Isgandarbayli village** of **Zangilan District**, which was the battalion's assembly point, toward the **Yemazli** villages of Zangilan District in order to take fuel to the platoons. Posts had been established in that area, fuel had been distributed to **seven** platoons, and they were also travelling by car to take additional fuel to **two** more platoons. While they were on the move, in the area of **Yukhari Yemazli village** of Zangilan District, Captain Sarkhan Mukhtarov told him to drive toward the inside of the village, because there was a spring in that area. The road leading to Yukhari Yemazli village was mountainous and unpaved, and the area was located on the border with the Armenians.

On **12 January 2021**, at around **13:00**, while they were moving along the dirt road, there was a sudden explosion, and the **Mitsubishi** vehicle he was driving overturned. He lost consciousness and sustained injuries to various parts of his body, mainly his facial area. When he regained consciousness, he heard a voice from the driver's side. He called out to Captain S. Mukhtarov, but realized that S. Mukhtarov had died. When he understood that the vehicle in which they had been travelling had struck a mine planted by the Armenians, he got out of the vehicle in order to ask for help and moved toward the position of the **2nd platoon** of the **1st company** of the **1st battalion**. After climbing out onto the hill, the personnel of the **2nd platoon** helped him and also removed the body of Captain Sarkhan Mukhtarov from the area. Some time later, they were taken to a military hospital by a sanitary vehicle belonging to the State Border Service.

The testimony given during the preliminary investigation by **Mukhtarov Israfil Ilgar oglu**, who was recognized and questioned as the legal successor of the injured person, was read out in court. In that statement, he indicated that on **12 January 2021**, at around **16:00**, he received a phone call and was informed that his brother **Sarkhan Mukhtarov** had been killed when the vehicle he was in struck an anti-tank mine while it was moving.

The testimony given during the preliminary investigation by **Javadov Farzali Novruzali oglu**, who was recognized and questioned as the legal successor of the injured person, was read out in court. In that statement, he indicated that his son **Javadov Rashad Farzali oglu** had been called up for active military service in **October 2019**; he had first served in **Aghjabadi District**, and later continued his service in **Fuzuli District**. After the fighting began on **27 September 2020**, his son took part in the liberation of **Fuzuli** and **Khojavend Districts** from occupation and was awarded medals for the bravery he showed in combat. On **21 January 2021**, a representative of the **Hil village** office of the **Gusar District Executive Authority** came to his home address and informed him that his son Rashad had become a martyr as a result of a mine explosion. On **22 January 2021**, they buried him in the cemetery of the village where he lived.

The testimony given during the preliminary investigation by **Gambarov Toghrul Mahir oglu**, who was questioned as a witness, was read out in court. In that statement, he indicated that on **21 January 2021**, he and soldier **Rafael Mammadov** were assigned to combat duty together from **07:00 to 09:00**. Before them, soldiers **Ibrahim Manafov** and **Rashad Javadov** had been on combat duty, and after they handed over the combat duty, they went out on patrol—

Page 977

—Soldier **I. Manafov** served in the area in front of the soldiers' dormitory, while soldier **R. Javadov** went on patrol in the trench that led to the combat position and was located below the combat position, where a mine warning sign had been placed. While he was on duty at the post together with soldier **R. Mammadov**, at around **08:00** he heard the sound of an explosion in the trench on the left side and observed that the Armenians were firing a projectile, from a mortar device. However, in order to find out what had happened, **R. Mammadov** went down from the post, and some time later he returned to the post and stated that an explosion had occurred in the mined section of the trench and that soldier **R. Javadov** had died. This was because, as a result of the explosion, parts of his body had fallen in different places in the trench. After the sound of the explosion, the platoon commander, Lieutenant **Huseyn Guliyev**, also came toward the post and stated that the person killed in the explosion was soldier **R. Javadov**.

It is apparent from the statements of **Mirzayev Javid Azer oglu**, **Manafov Ibrahim Mehdi oglu**, and **Mammadov Rafail Samad oglu**, which were read out and examined in the court hearing, that they gave statements of the same content as **Gambarov Toghrul Mahir oglu** and confirmed his statement.

The testimony given during the preliminary investigation by the injured person **Mammadov Ayxan Karimkhan oglu** was read out in court. In that statement, he indicated that on **4 February 2021**, at around **12:30**, during formation, warrant officer **Sadi Huseynov**, who served as the senior sergeant of the **1st battery**, separated four soldiers — **Qubad Zeynalov**, **Nemat Babayev**, **Balagardash Malikmammadov**, and **Ali Zeynalov** — to bring lunch, and instructed him to go with those soldiers as the person in charge. Since they were in the supply of the **1st battalion** of the **1st battery** of the artillery division of military unit No. "N", located in the area of **Shelli village** of **Aghdam District**, they were among the personnel sent to bring food from the **1st battalion**, which was located approximately **one kilometer** away. A **MAZ** vehicle belonging to the artillery division was used to bring food, but there was no vehicle that day. Since the stony road was shorter, they went along that stony road to the deployment point of the **1st battalion**, took food products such as food, bread, and tomatoes from there, and while returning to the division by the same road, after they had gone approximately **500–600 meters**, soldier **Ali Zeynalov**, who was pushing the handcart, called out to him, saying, "Comrade sergeant, look here." When he turned back, he saw in Ali Zeynalov's hand an object resembling a lamp socket, with a dark red cord attached to it. Soldier Ali Zeynalov was holding that object by the cord and showing it to him. He looked at the object from a distance of approximately **one meter**, stated that he did not know what it was, and instructed soldier Ali Zeynalov to throw the object away.

At that moment, **Qubad Zeynalov** asked Ali Zeynalov to give the object to him, saying that he would look at it and then throw it away. Ali Zeynalov extended the object toward soldier

Qubad Zeynalov. At that time, because Qubad Zeynalov had a plastic crate containing tomatoes in his hand, he tucked the crate under his arm and took the object. After Qubad Zeynalov took the object, he tried to take the crate out from under his arm; the object fell from his hand through carelessness, and at that moment it exploded.

After the explosion, both of them fell to the ground. He felt pain in his foot, and his ears did not hear well. He then called **Sadi Huseynov** by mobile phone and reported that there had been an explosion and that there were wounded persons. A short time later, senior sergeant **Sadi Huseynov** came to them with several servicemen who were with him; they loaded them into a vehicle and, because they had been injured in the incident, they were taken to the hospital of military unit No. "N".

He did not know what the unidentified object was; before the incident, it had resembled a lamp socket. According to soldier **Ali Zeynalov**, he had found that foreign object on the ground, near the scene of the incident, by the roadside. At the time of the explosion, the closest persons to the place of the explosion were **Zeynalov Qubad Islam oglu** and **Zeynalov Ali Afgan oglu**. He himself was standing approximately **2–3 meters** to the left of **Q. I. Zeynalov**, while soldiers **Malikmammadov Balagardash Mubariz oglu** and **Babayev Nemat Novruz oglu** were standing **2–3 meters** away in the opposite direction from the place of the explosion. As a result of the explosion, **Zeynalov Qubad Islam oglu** died, while he and the other soldiers were injured.

Page 978

It is apparent from the statements of the injured persons **Zeynalov Ali Afgan oglu**, **Babayev Nemat Novruz oglu**, and **Malikmammadov Balagardash Mubariz oglu**, which were read out and examined in the courtroom, that they gave statements of the same content as the injured person **Mammadov Ayxan Karimkhan oglu**.

The testimony given during the preliminary investigation by **Zeynalov Islam Qubad oglu**, who was recognized and questioned as the legal successor of the injured person, was read out in court. In that statement, he indicated that his child, **Zeynalov Qubad Islam oglu**, had been called up for compulsory active military service on **5 July 2019**; from September 2019, he served in military unit No. "N", in the artillery division, in the **1st battery**, **1st platoon**, as a crew member of the **1st gun**. On **4 February 2021**, he learned, through a telephone call from one of the servicemen of that military unit, that his son **Qubad Zeynalov** had become a martyr.

The testimony given during the preliminary investigation by **Gasimov Shamshaddin Mustafa oglu**, chief of the ammunition depot of military unit No. "N", who was questioned as a witness, was read out in court. In that statement, he indicated that a cluster-type rocket projectile is included in the list of prohibited munitions and that, for that reason, there was no cluster-type rocket projectile in the ammunition depot of the military unit. He further stated that he assumed that the projectile found by soldier **Ali Zeynalov** had been fired by Armenian military forces in the direction of the positions where the Azerbaijani Army was located, and that, after being neutralized by the army's air forces, part of the cluster had fallen at the scene of the incident. He also stated that there are numerous explosive elements inside a cluster-type rocket projectile, and that when it falls to the ground, the explosive elements scatter.

It is apparent from the statement of **Gurbanov Javanshir Movlud oglu**, lieutenant colonel and chief of the artillery service of military unit No. "N", who was questioned as a witness and whose statement was read out and examined in the courtroom, that he gave a statement of similar content to that of witness **Ismayilov Ceyhun Isakhan oglu**.
The testimony given during the preliminary investigation by **Chalabizada Azer Khayyam oglu**, a doctor at the medical point of the **1st battalion** of military unit No. "N", with the rank of medical service lieutenant, who was questioned as a witness, was read out in court. In that statement, he indicated that on **4 February 2021**, soldiers **Mammadov Ayxan Kariman oglu**, **Zeynalov Ali Afgan oglu**, **Babayev Nemat Novruz oglu**, **Malikmammadov Balagardash Mubariz oglu**, and **Zeynalov Qubad Islam oglu** sustained various bodily injuries as a result of a shell explosion. He provided medical aid to them at the scene and took them to hospital No. "N", but soldier **Zeynalov Qubad Islam oglu**, who was in more serious condition, died.
It is apparent from the statements of **Ismayilov Ceyhun Isakhan oglu**, chief of the engineering service of military unit No. "N", and **Valiyev Nahid Sakit oglu**, senior lieutenant and commander of the **1st battery** of the artillery division of that military unit, which were read out and examined in the courtroom, that they gave statements of similar content to those of the injured persons and witness **Chalabizada Azer Khayyam oglu**.
The testimony given during the preliminary investigation by the injured person **Hasanov Alihasan Tumar oglu**, who was recognized and questioned as an injured person and served as a rifleman of the **1st squad** of the **2nd platoon** of the **3rd company** of the **1st battalion** of military unit No. "N" of the Ministry of Defence, was read out in court. In that statement, he indicated that on **13 February 2020**, at approximately **12:45**, he suddenly heard an explosion characteristic of an anti-personnel mine explosion. The blast wave threw him approximately **one meter** backward, and he fell onto his back. At first, he thought that another person had stepped on a mine and tried to stand up. However, when trying to stand, he felt severe pain in his right leg and lay down on his left side. When he looked at his right foot, he saw that the heel part of that foot had been torn apart. At that moment, on the instruction of Colonel **R. Agasiyev**, the servicemen next to him remained in their places and did not move. At that time, mine fragments had struck only his right foot, and therefore he did not feel pain or signs of injury in any other part of his body. After that, with the help of one of the officers next to him, whose name he did not remember—

Page 979

—he tightly tied a tourniquet around his right leg so that he would not lose a large amount of blood.
It is apparent from the statements of **Rahimov Rahim Gulamhuseyn oglu**, commander of the **1st battalion** of military unit No. "N" of the Ministry of Defence; **Shammadov Geysar Amiraslan oglu**, senior lieutenant and commander of the engineer-sapper company of military unit No. "N"; and **Hajiyev Yahya Vasif oglu**, lieutenant and commander of the **2nd platoon** of the **3rd company** of the **1st battalion** of military unit No. "N", which were read out and examined in the courtroom, gave statements of similar content to what was stated by **Hasanov Alihasan Tumar oglu**, soldier and rifleman of the **1st squad** of the **2nd platoon** of the **3rd company** of the **1st battalion** of military unit No. "N".

The testimony given during the preliminary investigation by the injured person **Azizli Nureddin Gurbaddin oglu**, a sapper of the engineer-sapper company of the **Qubadli Separate Border Division**, with the rank of junior warrant officer, was read out in court. In that statement, he indicated that on **26 February 2021**, he, together with junior warrant officer **Alishanov Elmaddin Chingiz oglu**, junior warrant officer **Nagiyev Vaqif Shamil oglu**, junior warrant officer **Ibrahimov Vugar Elkhan oglu**, junior warrant officer **Khagani Mehdiyev**, and a serviceman with the military rank of junior warrant officer named **Amil**, whose surname he did not know, were engaged in mine clearance.

On that day, at approximately **16:00–17:00**, while they were engaged in mine-clearance work, a powerful explosion occurred at the place where he and junior warrant officer **E. Alishanov** were located. At that moment, he felt severe pain in his right leg. When he raised his head and looked, he saw that the part of his right leg below the ankle was missing and that blood was flowing from that place. He realized that there had been a mine explosion. Looking around, he saw junior warrant officer **E. Alishanov** sitting on the ground and saw that, as a result of the explosion, he had sustained an injury to his face.

At the time of the explosion, junior warrant officer **Vaqif Nagiyev** had been away from them. Later, when he came and took him by the left leg in order to help him, another mine exploded. During the second mine explosion, he felt pain in his left leg, and as a result of the explosion junior warrant officer **V. Nagiyev** was thrown some distance away from him. After that, the other servicemen present there began removing them from the area they had been clearing of mines. After they were removed from the area, he learned that junior warrant officer **V. Nagiyev** had sustained an injury to his left leg, **E. Alishanov** to his face, and **Vugar Ibrahimov**, if he was not mistaken, to his left leg.

It is apparent from the statements of the injured persons **Nagiyev Vaqif Shamil oglu**, **Alishanov Elmaddin Chingiz oglu**, **Maharramov Alim Ilgar oglu**, **Nazarov Hachinazar Eldaniz oglu**, and **Ibrahimov Vugar Elkhan oglu**, which were read out and examined in the courtroom, that they gave statements of similar content to what was stated in the statement of the injured person **Azizli Nureddin Gurbaddin oglu**.

The testimony given during the preliminary investigation by the injured person **Hajizada Ruhid Alim oglu** was read out in court. In that statement, he indicated that, with the rank of warrant officer, he served as deputy commander of the **1st platoon** of the **9th company** of the **3rd battalion** of military unit No. “N”, at combat point No. **31**, located in the area of **Kuropatkino village** of **Khojavend District**, on the line of contact with Armenian armed formations. On **20 March 2021**, at around **11:00**, while he was in the trench behind the soldiers’ sleeping quarters of the combat post where he served, together with soldiers **Guliyev Siraj Javid oglu**, **Bandaliyev Hazar Vahid oglu**, and **Aslanov Rashad Faraj oglu**, a mine exploded under his left foot, and he and the soldiers whose names he had mentioned sustained injuries.

It is apparent from the statements of the injured persons **Guliyev Siraj Javid oglu**, soldier and member of the **2nd machine-gun squad** of the **9th company** of the **3rd battalion** of military unit No. “N”; **Bandaliyev Hazar Vahid oglu**, soldier and aimer of the **2nd squad** of the **1st platoon** of that company; and **Aslanov Rashad Faraj oglu**, soldier, rifleman, and member of that squad, which were read out and examined in the courtroom, that they gave

statements of similar content to that of the injured person **Ruhid Hajizada** and once again confirmed the circumstances stated by him.

Page 980

It is apparent from the statements of witnesses **Sarizada Farid Zakir oglu**, **Huseynov Shamistan Azer oglu**, **Alizada Asaf Adil oglu**, and **Mastanov Ali Bahlul oglu**, which were read out and examined in the courtroom, that they gave statements corresponding to the statements of the injured persons.

The testimony given during the preliminary investigation by the injured person **Ziyadov Rustam Ali oglu**, captain and deputy head for logistics support of the head of the **8th Border Commandant's Office** of the **Qubadli Separate Border Division** of the **State Border Service**, was read out in court. In that statement, he indicated that on **4 April 2021**, at around **11:00**, they went in a **KAMAZ** vehicle with military registration plate **Q-341-SQ**, driven by warrant officer **Alakbarov Sahil Dilsuz oglu**, commander of the **2nd squad** of the **3rd platoon** of the **3rd Rapid Reaction Company** of the **Rapid Reaction Battalion** of the Qubadli Separate Border Division of the State Border Service, to the **8th Border Commandant's Office** positioned in **Bartaz village of Zangilan District**, in order to unload metal mesh and a generator.

After they unloaded the items and were returning, at around **13:20**, an anti-tank mine exploded under the front left wheel of the vehicle, that is, on the side where the driver was seated. As a result, he sustained an injury to the right side of his head, his left eardrum was perforated, and one of his teeth was broken. After that, with his assistance and with the assistance of the personnel at the post, warrant officer **Alakbarov Sahil Dilsuz oglu** was removed from the vehicle; painkiller injections were administered to them, and they were evacuated by helicopter to the military hospital of the State Border Service.

The testimony given during the preliminary investigation by **Mammadov Gunduz Elman oglu**, who was recognized and questioned as a representative of the injured party and serves as the head of the transport section of the Qubadli Separate Border Division of the State Border Service, with the rank of senior lieutenant, was read out in court. In that statement, he indicated that the **KAMAZ** vehicle with military registration plate **Q-341-SQ** had been assigned to warrant officer **Alakbarov Sahil Dilsuz oglu**. On **4 April 2021**, at around **13:10**, the said **KAMAZ** vehicle, driven by warrant officer **Alakbarov Sahil Dilsuz oglu** and under the leadership of Captain **Ziyadov Rustam Ali oglu**, deputy head for logistics support of the head of the **8th Border Commandant's Office** of the Qubadli Separate Border Division of the State Border Service, while moving in the area of **Bartaz village of Zangilan District**, had an anti-tank mine explode under its front left wheel, that is, on the side where the driver was seated.

During the incident, the servicemen sustained bodily injuries of various degrees, and the vehicle became unusable. Since the place where the incident occurred is a mined area, and because the mines there have not yet been cleared, the vehicle has not been removed from the scene, and it is currently not possible to determine the damage caused to it.

The statements given during the preliminary investigation by **Rustamov Kamil Rovshan oglu** and **Tapdigli Sadiq Mushfig oglu**, who were questioned as witnesses, were read out in court. Confirming the above, they indicated in their statements that on **4 April 2021**, at around **13:10**, they had gone to the "**Kapaz**" post located in **Bartaz village of Zangilan**

District in order to provide assistance. At that time, a **KAMAZ** vehicle driven by warrant officer **Alakbarov Sahil Dilsuz oglu**, under the leadership of Captain **Ziyadov Rustam Ali oglu**, deputy head for logistics support of the head of the **8th Border Commandant's Office** of the Qubadli Separate Border Division, while moving in the area of **Bartaz village of Zangilan District**, had an anti-tank mine explode under its front left wheel, that is, on the side where the driver was seated. During the incident, the servicemen sustained bodily injuries of various degrees, and the vehicle became unusable. They immediately provided assistance to the injured persons at the scene. After that, both servicemen were evacuated to the military hospital of the State Border Service.

The testimony given during the preliminary investigation by the injured person **Hajiyev Javanshir Nadir oglu** was read out in court. In that statement, he indicated that on **5 April 2021**, in the morning at approximately **09:00–10:00**, from the support point of the engineer-fortification unit located in **Yenikand village of Qubadli District**, together with personnel consisting of **Javanshir Hajiyev**, warrant officer **Habil Najafov**, warrant officer **Elchin Haziyev**, warrant officer **Fattayev Atamali**, warrant officer **Nurlan Khalilov**, driver **Hajiyev**, and paramedic **Hachinazar Hajiyev**, under the leadership of Major **Mustafa—**

—**Aslanov**, they began moving in the direction of a height called **Khan Qaya**, located in the area of **Ashagi Khojamsagli village**. On that day, at approximately **12:00**, they reached the **1st border combat point** of the **11th Border Outpost** of the **4th Border Commandant's Office** and began mine-clearance activities.

On that day, clearance work was first carried out using mine-detecting devices from the lowest part of the hill. Starting from the place where the explosion had occurred and moving toward the summit of the hill, on the left flank **J. Hajiyev** moved ahead, and approximately **10 meters** behind him he moved together with **H. Najafov**, advancing **100 meters**. On the right flank, **N. Khalilov** moved ahead, and **A. Fattayev** moved behind him.

While working in the said area for approximately **3–4 hours**, he personally neutralized **30 anti-personnel mines**. The other personnel detected approximately **40** mines, making a total of **70** mines. On that day, at around **18:00**, when his right foot pressed near a stone, that is, onto the ground, a sudden explosion occurred. At that moment he realized that an anti-personnel mine had been placed near that very stone and that it had exploded immediately when pressure was applied by his foot. During the explosion, he felt a sharp pain in his right foot; as a result of the explosion, his foot was severed from his body and detached. At the time of the explosion, shrapnel also struck both of his hands and the right side of his chest.

It is apparent from the statement of witness **Khalilov Nurlan Khalil oglu**, commander of the obstacle-clearing team of the engineer-fortification center of the Qubadli Separate Border Division, which was read out and examined in the courtroom, that he confirmed what was stated in the statement of junior warrant officer **Javanshir Hajiyev** and gave a statement of the same content.

The testimony given during the preliminary investigation by the injured person **Dunyamalizada Azer Imkan oglu**, who was recognized and questioned as the commander of the **1st squad** of the **4th obstacle-clearing platoon** of the obstacle-clearing company of military unit No. "N" of the Ministry of Defence and a long-term active-duty serviceman with the rank of sergeant, was read out in court. In that statement, he indicated that on **6**

April 2021, at approximately **14:00**, they went to the place where the mine explosion had occurred the previous day in order to inspect the site. Soldier **Punhan Aliyev** moved backward along an open path. Seeing that the toe part of his right foot was hanging down and that blood was coming from his left eye and temple area, he immediately approached him and administered first medical aid. Approximately **two minutes** later, when soldier **Bakhtiyar Ilgaroglu** approached soldier **Punhan Aliyev** in order to help him, a second explosion suddenly occurred. As a result of the explosion, because stone fragments on the ground struck his right eye, his lower back area, and his right thigh area, he injured himself by losing his balance and falling backward onto the ground.

It is apparent from the statements of the injured persons **Aliyev Punhan Shaban oglu**, **Bakhtiyar Ilgaroglu**, and **Baghirov Ilyas Seyidmasim oglu**, which were read out and examined in the courtroom, that they gave statements of similar content to the statement of **Dunyamalizada Azer Imkan oglu**.

The testimony given during the preliminary investigation by the injured person **Mamedov Namiq Alicavad oglu** was read out in court. In that statement, he indicated that on **9 April 2021**, at around **10:00**, together with long-term active-duty servicemen of the artillery division where he served, soldier **Aliyev Samir Firsad oglu** and soldier **Aliyev Ogtay Mushfig oglu**, he went to a forested area located approximately **2–3 kilometers** from the area where the division was stationed, in order to dismantle usable spare parts from unusable vehicles left behind by Armenian armed formations. While they were removing spare parts from unusable vehicles there, he saw that the rope of the horse they had brought with them had come loose and that the horse had crossed the river. In order to bring the horse back, he crossed the river, caught the horse's rope, and, after crossing the river again, was injured when a mine under his left foot exploded.

Page 982

It is apparent from the statements of **Aliyev Samir Firsad oglu** and **Aliyev Ogtay Mushfig oglu**, soldiers of military unit No. "N", who were questioned as witnesses and whose statements were read out and examined in the courtroom, gave statements of similar content to that of the injured person **Namiq Mamedov** and confirmed the facts stated by him.

The testimony given during the preliminary investigation by the injured person **Shahbazov Safaladdin Mirzabay oglu** was read out in court. In that statement, he indicated that, in accordance with order No. **1sh** of the commander of the military unit dated **26 March 2021**, the personnel of the military unit's engineer-fortification division were involved from **29 March 2021** to **30 April 2021** in clearing the said areas of mines.

On **15 April 2021**, at approximately **10:00**, while he and servicemen of the **1st engineer-fortification team** of that engineer-fortification division were moving along a trench road, he decided to relieve himself and stood near the right-side wall of the soldiers' dormitory located there. That place was the right side of the soldiers' dormitory of a former Armenian combat position, and because the area was approximately **2–3 square meters** wide, concrete posts had previously been placed on the ground there by Armenians. They had cleared that area of mines and had even passed through it many times.

At that moment, while he was trying to follow behind the servicemen who were walking ahead, an explosion occurred under one of the concrete posts on which he had placed his left foot. As a result, he was injured and saw that the foot area of his left leg was missing. At that

time, he did not lose consciousness and saw his boot, with the severed foot inside it, lying there near the door of the soldiers' dormitory. He also saw other servicemen coming toward him. After that, they took him to a military medical aid vehicle and first medical aid was provided.

The testimony given during the preliminary investigation by soldier **Bayramov Elmeddin Ulfat oglu**, who was questioned as a witness, was read out in court. In that statement, he indicated that on **15 April 2021**, as Senior Lieutenant **Yaqublu Ibadat Salman oglu** was walking behind them, when they were approximately **60–70 meters** from reaching the motor road, they heard the sound of an explosion. When they looked back, they saw the explosion and the smoke and ran quickly in that direction.

At that moment, they observed that Senior Lieutenant **I. S. Yaqublu** was not moving along the trench road but had gone quickly toward the soldiers' dormitory of that combat position. When they reached the front of the dormitory, they saw Yaqublu lying on the ground opposite the dormitory door, shouting, "my foot is gone, my foot is gone." They saw that the part of his left leg below the ankle had been amputated as a result of the mine explosion and that blood was flowing from that area.

After that, **Ali Huseynov** took **I. S. Yaqublu** in his arms and carried him from in front of the soldiers' dormitory toward the broad part of the trench road where they had arrived. Then **Q. A. Gozalov** quickly tied and compressed the parts of **I. S. Yaqublu's** left leg below the knee and at the thigh with belts, took him in his arms, and carried him from inside the trench to the military medical aid vehicle, which was waiting beforehand on the side of the motor road. Senior Sergeant **Babashov**, the paramedic, quickly injected pain medication into **I. S. Yaqublu's** left leg and evacuated him to military unit No. "N" by military medical aid vehicle.

It is apparent from the statements of Senior Lieutenant **Mammadov Orkhan Bakhtiyar oglu**, Sergeant **Huseynov Avaz Imamverdi oglu**, and soldier **Gozalov Ganbar Adalat oglu**, who were questioned as witnesses and whose statements were read out and examined in the courtroom, that they gave statements of similar content to that of **Bayramov Elmeddin Ulfat oglu** and confirmed the circumstances he stated.

The testimony given during the preliminary investigation by the injured person **Huseynli Etibar Javid oglu** was read out in court. In that statement, he indicated that on **16 February 2021**, while participating, on the basis of an assignment given by the leadership of the military unit, in an operation to clear mines from cultivated fields located in the area of **Amirvarli village of Jabrayil District**, which had been liberated from occupation—

—at around **12:00** that day, he sustained injuries as a result of the explosion of an anti-personnel mine that had been planted in advance for the purpose of deliberate killing by members, whose identities and exact number were not known to the investigation, of unlawful armed formations created by Armenian separatists with the intent of national hatred and hostility. The injuries were accompanied by the diagnosis of "incised wound of the sole of the left foot, closed displaced fracture of the lower one-third of the bones of the left lower leg, open shrapnel fracture of the first and second metatarsal bones of the left foot, and superficial shrapnel wound of the sclera of the right eye." He was immediately evacuated to

military hospital No. “N” of the Ministry of Defence, and from there to the Main Clinical Hospital of the Armed Forces.

It is apparent from the statements of **Gahraman Shamil Shahin oglu**, **Aliyev Elshan Nureddin oglu**, **Balakishiyev Vugar Khangulu oglu**, **Zalov Kamal Vusal oglu**, **Abuzarli Sanan Aladdin oglu**, and **Mammadov Mehman Mammadtaghi oglu**, who were questioned as witnesses and whose statements were read out and examined in the courtroom, that they gave statements consistent with the statement of the injured person **Huseynli Etibar Javid oglu**.

The testimony given during the preliminary investigation by the injured person **Abdullayev Kamil Salim oglu**, dated **5 June 2021**, was read out in court. In that statement, he indicated that on **4 June 2021**, at approximately **06:00**, he and his assistant **Aliyev Arif Aghalar oglu** set off from **Ganja** toward **Kalbajar District**. They were to meet in **Choplu village of Kalbajar District** with the persons accompanying them and then go from there to **Susuzlug**. At approximately **09:15**, they reached Choplu village. There, **Ibrahimov Maharram Ali oglu**, an employee of the “Azertaj” information agency; **Abisov Siraj Abis oglu**, an AZTV cameraman; **Mammadov Emin Hasan oglu**, an AZTV employee and director; and journalist **Jafarov Sohret Elshan oglu**, who were to go into Kalbajar District, were with them. In addition, **Jafarov Sohret Elshan oglu**, who was serving in the position of executive representative in **Yanshaq village of Kalbajar District**, was also with them. After that, they set off in a **KamAZ** vehicle driven by **Etibar Aliyev**. At that time, he himself was seated on the right side of the vehicle cabin, while **Emin Mammadov** was seated between him and the driver.

At around **11:00**, they were moving from Choplu village toward Susuzlug village. Their purpose in going there was to accompany persons who were to film buildings that had been under occupation and prepare a report. When approximately **2 kilometers** remained before they entered Susuzlug village, a mine exploded at the moment when the vehicle’s front left wheel ran over it. Because of the force of the explosion, the vehicle was thrown approximately **one meter** upward and to the side, after which he and the persons seated in the cabin fell to the ground. At that moment, he saw that he had sustained an injury to the head area. At the same time, although he could not determine this precisely, he saw the bodies of several deceased persons on one side. Military police personnel who passed by helped them. **Emin Mammadov** and **Sohret Jalilov** were taken from there in a military police vehicle, while he and **Etibar Aliyev** remained there. Later, many ordinary servicemen came to the area and removed the bodies; they themselves were evacuated to a military hospital.

It is apparent from the statements of the injured persons **Aliyev Etibar Imamverdi oglu**, **Jafarov Sohret Elshan oglu**, and **Mammadov Emin Hasan oglu**, which were read out and examined in the courtroom, that they gave statements of the same content as **Abdullayev Kamil Salim oglu** and confirmed the circumstances he stated.

The testimony given during the preliminary investigation by **Samadov Ruslan Vahid oglu**, who was questioned as a witness, was read out in court. In that statement, he indicated that, on the basis of the information received, they went to the scene of the incident. They took mine detectors and fire-extinguishing cylinders with them. After arriving at the scene, they extinguished the burning vehicle from three directions with cylinders. They then found the bodies of two persons at the scene and, in a gorge located more than **60 meters** away, found

the body of a person named **Siraj**. After that, the scene was inspected, and it was considered likely that the cause of the explosion was an anti-tank mine. He calculated that the mine had been placed by Armenian armed formations at the exit from **Kalbajar District**.

It is apparent from the statements of **Babayev Kamal Nazim oglu** and **Ahmadov Anar Avazkhan oglu**, who were questioned as witnesses and whose statements were read out and examined in the courtroom—

—it is apparent that they gave statements of the same content as **Samadov Ruslan Vahid oglu** and confirmed the circumstances stated.

The testimony given during the preliminary investigation by the injured person **Mammadov Miragha Aghamir oglu** was read out in court. In that statement, he indicated that on **1 December 2020**, in the territory of **Lachin District**, the personnel of military unit No. "N" were carrying out activities in the liberated territories in the direction of clearing mines from the area; he was there in order to provide first medical aid as an orderly to persons who might be injured during mine-clearance work in the area. At that time, with him were a doctor named **Ilgar**, whose surname he did not know, warrant officer **Orujov**, soldier **Huseynli Safa Adilkhan oglu**, and other servicemen.

That day, at around **15:00**, they were searching for deceased persons who had stepped on a mine approximately **10 days earlier**, had died in an emergency medical aid vehicle, and still remained in the area. While observing the area, he saw the body of a man. Although they tried to remove that body by means of a thick rope, it was not possible. After that, in order to determine the identity of the deceased, he was instructed to take items from the vehicle standing near the body. He approached the vehicle, took an identity document and a driver's license from inside the vehicle, and handed them to the serviceman beside him. When he got out of the vehicle and tried to move with his right foot, an explosion occurred. After that, he was evacuated to hospital No. "N".

It is apparent from the statements of the injured persons **Huseynli Safa Adilkhan oglu** and **Racili Taleh Shakir oglu**, which were read out and examined in the courtroom, that they gave statements of the same content.

The testimony given during the preliminary investigation by the injured person **Valizada Vusal Rahim oglu** was read out in court. In that statement, he indicated that on **6 December 2020**, at **08:00**, they set off, and at **10:00** they reached **Zar village**. After the personnel disembarked from the vehicle, they placed gathered firewood in the area where the personnel were located, in a village that had been completely abandoned by the Armenians and where there were no residents. At around **15:00**, they set off to return to **Kalbajar District**. At that time, the vehicle was empty.

After they had travelled approximately **3–4 kilometers**, the rear left wheel of the vehicle ran over an anti-personnel mine, and an explosion occurred. His head struck the metal part of the vehicle's left door, and his left side struck the door handle. He fell out of the vehicle and was evacuated to military unit No. "N" by a vehicle at the medical point.

The testimony given during the preliminary investigation by **Ahmadov Yusif Murad oglu**, who was recognized as an injured person and was the driver of the logistics support company of military unit No. "N", was read out in court. In that statement, he indicated that on **6 December 2020**, at around **15:00**, information was given that a **KAMAZ** vehicle of the

commander of military unit No. “N” had struck a mine. Although they heard the sound of the explosion, they did not know what had happened. On the basis of the order given, the personnel lined up in column formation and waited for orders. After some time, a tractor came and pulled the KAMAZ that had struck the mine to the side of the road.
After that, an order to move was given to the column. First, the KAMAZ vehicle began moving, and after that the KAMAZ vehicle he was driving began to move. After he had started moving and travelled approximately **1–2 meters**, he did not understand what had happened; when he opened his eyes, he saw that he was in the mobile medical unit of hospital No. “N”.
It is apparent from the statements of servicemen **Ahmadov Cavid Gahraman oglu** and **Ibrahimov Ramil Mammad oglu** of military unit No. “N”, who were recognized as injured persons and whose statements were read out and examined in the courtroom, that they gave statements of the same content as **Ahmadov Yusif Murad oglu**.
The testimony given during the preliminary investigation by **Mammadov Niyamaddin Jamaladdin oglu**, chief sergeant of the **1st battalion** of military unit No. “N”, who was recognized as an injured person, was read out in court. In that statement, he indicated that driver **Aliyev Karam Ilham oglu** was driving the vehicle. The incident occurred on **17 May 2021**. In the said **KAMAZ** vehicle driven by Karam Aliyev, he had brought food from the battalion to the personnel at the positions. After handing over the food, the radio operator of the 1st battalion—

—**Nazarov Inqilab Taji oglu**, also got into their vehicle in order to return to the battalion command point. While they were returning from that place to the battalion command point, when approximately **500 meters** remained before reaching the command point, an explosion occurred on the road along which they always travelled. The front right wheel of the vehicle struck an anti-tank mine, and at that time all three of them were injured. While they were travelling, all three were in the cabin. Karam was driving the vehicle; **Inqilab Nazarov** was seated to his right; and he himself was seated to the right of Inqilab.
It is apparent from the statements of servicemen of military unit No. “N”, **Aliyev Karam Ilham oglu** and **Nazarov Inqilab Taci oglu**, who were recognized as injured persons and whose statements were read out and examined in the courtroom, that they gave statements of the same content as **Mammadov Niyamaddin Jamaladdin oglu**.
The testimony given during the preliminary investigation by the injured person **Heydarli Orkhan Ilyas oglu** was read out in court. In that statement, he indicated that on **20 April 2021**, the unit commander gave him and soldier **Mirzali Ravan Rafiq oglu** an order to clean a trench and handed them over to the supervision of **Sahil Valiyev**. They cleaned the area and threw the rubbish collected from the trench into the mined area in front of the trench. Approximately **2–3 meters** to the left of the baskets, beside a tree, there was a small red metal plate with the letter **“M”** on it, that is, a warning sign indicating that the area was mined. Lieutenant **Ramin Jabbarov** repeatedly instructed them to be careful while throwing away the rubbish and not to pass beyond the small metal plate.
After **Ramin Mirzali** and **Sahil Valiyev** moved away from him in order to perform some other work, he climbed onto the trench and began looking in the direction of the Armenian positions. After approximately **five minutes** of observation, while he was trying to get back

into the trench, his foot slipped and he fell into the mined area. As soon as he fell into that area, an explosion occurred. Although he understood that it was a mine explosion, he dragged himself toward the trench; after approaching somewhat, commander **Ramin Cabbarov** came with assistance and pulled him into the trench. From there, he was evacuated to military unit No. “N”.

It is apparent from the statements of **Valiyev Sahil Farhad oglu** and **Cabbarov Ramin Mirsamil oglu**, who were questioned as witnesses and whose statements were read out and examined in the courtroom, that they gave statements of the same content as the injured person **Orkhan Heydarli** and confirmed the circumstances stated.

The testimony given during the preliminary investigation by **Dadashov Sakit Ahliman oglu**, who was questioned as an injured person and served as the chief technician and senior warrant officer of the engineer-road section of military unit No. “N”, was read out in court. In that statement, he indicated that on **6 July 2021**, the acting commander of military unit No. “N”, **Eldaniz Ismayilov**, gave them an order to pull road position No. **24** and clear the road. In the laying of the road to that position, in addition to him, the tractor driver assigned from military unit No. “N”, junior sergeant **Muslim Novruzov**, and **Emin Rustamov** participated. On **6 July 2021**, at around **16:00**, during the road-laying work, after hearing gunfire **5–6 times**, and after the gunfire stopped, he ran toward them in order to check whether the tractors had been hit. When he approached the tractors, he heard another **2–3** shots, and one of the bullets struck him.

The statements given during the preliminary investigation by **Novruzov Muslim Mursal oglu**, **Rustamov Emin Musaddin oglu**, and **Ismayilov Eldaniz Ismayil oglu**, who were questioned as witnesses, were read out in court. In those statements, they indicated that on **6 July 2021**, at around **18:00**, after they had finished their work, they parked the excavator on the side of the road and went over to **Sakit Dadashov** and **Eldaniz Ismayilov**, who were standing at the roadside, and watched as Sakit Dadashov was repairing the road opened by the **“CAT”** bulldozer. At that time, while they were speaking with Sakit Dadashov, they heard gunfire **3–4** times from the side of Armenian armed formations, and they heard Sakit say, “they are shooting at me,” after which he fell.

The testimony given during the preliminary investigation by **Majidov Bahman Aghammad oglu**, deputy commander of military unit No. “N”, with the rank of major, who on **1 October 2021** was recognized as a representative of the injured party and questioned as a witness, was read out in court—

—was read out in court. In that statement, he indicated that during the incident that occurred on **6 July 2021**, at around **18:00**, bullets struck the fuel tank and the rear window of the cabin of the **CAT D6R** bulldozer with military registration plate **C 919 QQ**, belonging to military unit No. “N”, as a result of which those parts were rendered unusable.

The testimony given during the preliminary investigation by the injured person **Mardanli Ibadulla Mahsud oglu** was read out in court. In that statement, he indicated that the place where he served had been the post called **“Mil-1”**, located in the territory of **Sadarak District**. On **14 July 2021**, at around **09:30**, before the tractor began working there, they positioned themselves at observation positions located on the embankment in order to conduct observation. Approximately **one hour** later, the tractor began working, and the

Armenians opened fire in the direction of the place where their observation position was located. While he was observing from the left side, fire was opened by Armenian armed formations, and he sustained an injury to the mouth area; medical aid was provided to him.
The testimony given during the preliminary investigation by the injured person **Ahmadli Elvin Sudeyf oglu** was read out in court. In that statement, he indicated that on **14 July 2021**, at around **12:00**, information was provided about a fire in the border zone located in the territory of **Sadarak District**. Together with the personnel under his command, he went to that place. In the part of the area called **"Val"** that faced the enemy side, in the neutral zone, trees and bushes were burning. While they were extinguishing the fire there, at approximately **15:00**, he was standing on the embankment, and the Armenians opened fire at the place where the fire was being extinguished and shot him. After the fire was put out, the Armenians again began opening numerous shots. He felt severe pain in his shoulder and arm. Medical aid was provided to him.
It is apparent from the statements of **Guliyev Elxan Abbas oglu**, **Rzabeyli Ziyadxan Yashar oglu**, **Mammadov Yusif Hikmat oglu**, **Valiyev Tural Vidadi oglu**, **Eyvazov Emin Hagverdi oglu**, **Mamedov Kamil Galib oglu**, **Huseynov Huseyngulu Hanifa oglu**, **Hasanov Royal Hafiz oglu**, and **Mammadov Orkhan Kheyraddin oglu**, who were questioned as witnesses and whose statements were read out and examined in court, that they gave statements of the same content and confirmed the statements of **Mardanli Ibadulla Mahsud oglu** and **Ahmadli Elvin Sudeyf oglu**.
The testimony given during the preliminary investigation by the injured person **Gilmizliyev Mahammad Ilham oglu** was read out in court. In that statement, he indicated that, pursuant to an assignment given by the commander of the **Qubadli Separate Border Division**, several servicemen of the engineering-fortification unit were involved in a mine-search operation in the territory of **Zangilan District**, at coordinates shown on forms provided by the Armenian side. On **14 July 2021**, he, **Nurlan Khalilov**, **Jafar Rzayev**, **Ali Mammadov**, **Murtuz Namazov**, **Gasimzada**, and others, under the leadership of Lieutenant **Arzu Hajiyev**, carried out a mine search along the forms indicated from **Nafchilar village** to **Satariz village** in **Zangilan District**.
At around **17:00**, after he had slightly dug the upper layer of soil with an engineering entrenching spade, he found an iron ring located on the upper part of a mine. He checked the surrounding area using a mine-detecting device and was certain that there were no other mines nearby. Based on the sound coming from the device, when he tried to clear the gravel-and-soil layer located beside his right foot with the engineering entrenching spade, an explosion occurred. He saw that his right leg had been amputated at the knee area, that there was heavy bleeding in that area, and that his left arm and left leg had also been injured. Medical aid was provided to him.
The statement of the injured person **Namazov Murtuz Farman oglu**, which was read out and examined in the courtroom, shows that he confirmed the circumstances stated by **Gilmizliyev Mahammad Ilham oglu**.
It is apparent from the statements of **Hajiyev Arzu Fikrat oglu**, **Khalilov Nurlan Khalil oglu**, and **Mammadov Ali Suleyman oglu**, who were questioned as witnesses and whose statements were read out—

—and examined that they gave statements of the same content as **Gilmizliyev Mahammad Ilham oglu** and confirmed their statements.

The testimony given during the preliminary investigation by the injured person **Aghayev Mustafa Rasim oglu** was read out in court. In that statement, he indicated that on **16 July 2021**, at around **08:00**, while he was serving at the observation position of combat position **"Mil-1"**, one of the bullets fired several times, with intent of national hatred and hostility, from the position of Armenian formations toward the observation position from the weapons set up there, pierced the pipe of the metal observation tower intended for the extraction of cartridge cases, fragmented, and entered inside. This caused him to sustain small shrapnel wounds to his face and both lips. He contacted the medical point by radio and was evacuated from there to a military hospital.

It is apparent from the statements of **Mammadov Kamil Galib oglu**, **Huseynov Huseyngulu Hanifa oglu**, **Hasanov Royal Hafiz oglu**, **Mammadov Orkhan Kheyraddin oglu**, and **Rajabli Rajab Siral oglu**, who were questioned as witnesses and whose statements were read out and examined in the courtroom, that they gave statements of the same content as the statement of the injured person **Aghayev Mustafa Rasim oglu**.

The testimony given during the preliminary investigation by the injured person **Mammadov Orkhan Kheyraddin oglu**was read out in court. In that statement, he indicated that, by order of the commander of the military unit, from **11 July 2021** they began engineering-fortification work with a **Hidromex-370** excavator with military registration plate **K 056**, which he operated, in the area opposite the post provisionally called **"Mil-1"**, where the **11th company** of the **4th battalion** was located.

On **17 July 2021**, at around **08:00**, he continued engineering-fortification work in the area located opposite the **Mil-1**post. While he was carrying out digging work behind the embankment, or earthen mound, the Armenian side opened fire in that direction **five or six times**. Since the excavator was behind the embankment, it was not possible for the Armenians, who were on the opposite side, to see him. At approximately **09:00**, while working in the excavator, he felt severe pain in his left leg. Seeing that there was a tear in the left calf area of his trousers, he signaled with his hand to one of the servicemen nearby and then got down from the excavator. After he got down from the excavator, the deputy commander of the military unit, **Elnur Mustafayev**, and the company commander, **Rajab Rajabli**, came there. Later, a doctor with the rank of lieutenant provided him with first medical aid and sent him to a military hospital. In the military hospital, during the operation, it was established that the bullet had passed through his left calf area.

It is apparent from the statements of **Huseynov Huseyngulu Hanifa oglu**, **Mamedov Kamil Galib oglu**, **Huseynli Ramazan Umid oglu**, **Hasanov Royal Hafiz oglu**, and **Rajabli Rajab Siral oglu**, which were read out and examined in the courtroom, that they gave statements of the same content and confirmed the statement of the injured person **Mammadov Orkhan Kheyraddin oglu**.

The testimony given during the preliminary investigation by the injured person **Badalli Ramal Bahlul oglu** was read out in court. In that statement, he indicated that on **12 July 2021** he served as commander of the **11th company** of the **4th battalion** of military unit No. "N". The **4th battalion** of the military unit was located in the territory of **Sadarak District**. The positions included in the **11th company** were also located in the territory of Sadarak

District, on the line of contact with the Armenians, and the position provisionally called **"Vagon 2"** was the company center.
On **19 July 2021**, in the morning hours, he went to **Nakhchivan** on service-related matters, and at approximately **23:00**he returned to the **"Vagon 2"** position. Inside, he changed his clothes and put on a short-sleeved military shirt and black sports trousers. He went outside, first washed at the spring, and then came to the firing sector opposite the dormitory. After telling Junior Sergeant **A. Imanov** that he was tired and should go to sleep, he sat down in his place on the chair. At around **23:30**, fire was opened from Armenian positions at the **"Vagon 2"** position, and since there was an earthen embankment in front of the dormitory, the bullets they fired—

Page 988

—by them were passing overhead. One of the shots fired struck his left leg, and he stood up and went inside, saying, "I have been hit." Junior sergeant **Z. Aliyev** and junior sergeant **A. Imanov**, who were there, helped him, and **F. Abbasov** also helped him enter the dormitory. First, they tightened the upper part of the injured area of his leg with the rubber that they used with the weapon and brought rubber from the first-aid cabinet, tying his leg in order to prevent heavy bleeding.
It is apparent from the statements of **Hasanov Royal Hafiz oglu**, **Aliyev Zahid Faramaz oglu**, and **Imanov Abulfaz Abulfat oglu**, who were questioned and whose statements were read out and examined in the courtroom, that they gave statements of the same content and confirmed the statement of the injured person **Badalli Ramal Bahlul oglu**.
The testimony given during the preliminary investigation by **Sura Aslanova**, who was recognized and questioned as the legal successor of the injured person, was read out in court. In that statement, she indicated that her son **Yaqublu Farman**had served as a serviceman for approximately **eight years**. Farman Yaqublu had served in military unit No. "N" of the Ministry of Defence. On **19 July 2021**, she spoke with her son on the phone for the last time. On **23 July 2021**, at around **17:00**, she was called from military unit No. "N" and told that her son Farman Yaqublu had been wounded and taken to **Ganja** city. Later, she was informed that her son had become a martyr. On **24 July 2021**, at around **12:00**, they buried her son in **Gahramanli village**.
The statements given during the preliminary investigation by **Mammadov Vugar Vahid oglu**, **Salimov Ulfat Mais oglu**, and **Aghayev Tosif Sabala oglu**, who were questioned as witnesses, were read out in court. In those statements, they indicated that on **23 July 2021**, at around **16:00**, the commander of the **10th company**, Captain **Zamin Ibrahimov**, called them by mobile phone and reported that servicemen of Armenian military formations had approached approximately **10–12 meters** from the combat post provisionally called **"Ertogrul"**. They immediately brought the military medical vehicle into working condition and moved in the direction of the Ertogrul post. Before reaching the combat position, they heard the sound of gunfire approximately **three or four** times. When approximately **30 meters** remained before the place where combat duty was being carried out, they again heard the sound of bullets **three or four** times. At that time, they reported that the Armenians had fired at warrant officer **Farman Yaqublu**, and that he had gone to bring a medical bag in

order to provide first medical aid. When they approached the positions where combat duty was being carried out, they saw warrant officer Farman Yaqublu lying face down. They checked Farman Yaqublu's pulse and established that he had already died. In their statements, the witnesses indicated that the bullet that caused **F. Yaqublu's** death had been fired by Armenian military formations.

The testimony given during the preliminary investigation by the injured person **Aliyev Sadiq Nizami oglu** was read out in court. In that statement, he indicated that on **28 July 2021**, at around **04:00**, the Armenian Armed Forces opened intensive fire from various types of firearms and machine guns from the northern and north-western sectors toward the combat post of military unit No. "N", provisionally called **"Ertogrul."** The distance between the Armenians and their combat post was approximately **80–100 meters** from the northern side and **3,000 meters** from the north-eastern side. The combat post where he was located was **2,473 meters** above sea level, while the position of the Armenian military formations opposite their north-eastern positions was located at an altitude of approximately **2,800 meters** above sea level.

The Armenians opened fire on the combat post where they were located from all three positions. At that time, they returned fire and silenced the Armenian soldiers. During the battle, he was in full military uniform; since it was the phase of a new moon and the night was visible and clear, there was no impediment to shooting. At that time, he was standing in position on the left flank of the combat post. The personnel at the combat post were positioned in the firing sectors at a distance of approximately **3–5 meters** from one another. At **04:20**, a bullet fired by Armenian servicemen from the combat position located on the northern side came close to him from his left side, struck a stone, changed direction, and hit his left thigh area. At that time, he did not lose consciousness and informed warrant officer **Babayev Israil Alikram oglu** that he had been hit. Israil Babayev immediately—

—provided first medical aid to prevent bleeding. After Israil Babayev provided him with first medical aid, he again opened fire in response to the shots fired by Armenian military formations for approximately **40 minutes** at the combat post, in order not to leave his combat comrades alone. Later, fearing that the injury he had sustained might worsen, warrant officer Israil Babayev said that he should be evacuated. At that time, two servicemen of military unit No. "N", whose names he did not remember, evacuated him and took him to the support point. There, first medical aid was provided to him. Approximately **15 minutes** later, servicemen of military unit No. "N", whose names he did not remember, took him to a military medical vehicle waiting approximately **700 meters** away, and he was evacuated by the military medical vehicle to military unit No. "N" located in **Kalbajar District**. There, he underwent surgery, and the bullet in his left thigh area was removed. Later, in order to continue his treatment, on **28 July 2021**, at around **16:00**, he was sent to military unit No. "N". The initial witness to the incident was warrant officer **Babayev Israil Alikram oglu**, a serviceman of military unit No. **196**; later, he heard that the latter had also been wounded as a result of fire opened by Armenian military formations.

It is apparent from the statements of the injured persons **Imranli Imran Dilqam oglu**, **Musayev Akshin Mehman oglu**, **Orucov Muzamil Mehman oglu**, **Ibrahimli Tunar Tumar oglu**, **Farhadli Telman Arzu oglu**, and **Babayev Israil Alikram oglu**, which were

read out and examined in the courtroom, that they gave statements of similar content to the statement of **Sadiq Aliyev**.

The testimony given during the preliminary investigation by the injured person **Huseynov Bakhtiyar Asaf oglu** was read out in court. In that statement, he indicated that on **29 July 2021**, at **03:00**, Armenian armed forces opened intensive fire from various types of firearms in the direction of their post, and the combat post came under fire. In order to repel the Armenian attack, they returned fire and forced the Armenian armed formations to retreat. As a result of the fire opened by Armenian armed formations at around **03:00**, he and **Elshad Aghayev** were wounded. He sustained a penetrating wound to the right side of his chest and a wound to the left ankle area. Aghayev Elshad sustained a shrapnel wound to the area of his left finger. First medical aid was provided to them. After first medical aid was provided, they continued opening return fire in the direction of the Armenian armed formations. Approximately **15 minutes** later, **Orucov Nusrat** and **Dadasov Roman** were wounded as a result of fire opened by Armenian armed formations. At approximately **04:00**, the Armenian armed formations were forced to withdraw to their own positions.

It is apparent from the statements of the injured persons **Dadasov Roman Ramil oglu**, **Aghayev Rashad Rafat oglu**, and **Orucov Nusrat Gunduz oglu**, which were read out and examined in the courtroom, that they confirmed the circumstances stated in the statement of **Huseynov Bakhtiyar Asaf oglu**.

It is apparent from the statements of witnesses **Nasibov Ramin Amrah oglu** and **Gadimov Tunar Gabil oglu**, which were read out and examined in the courtroom, that they gave statements of the same content and confirmed the statement of **Huseynov Bakhtiyar Asaf oglu**.

The testimony given during the preliminary investigation by the injured person **Allahverdiyev Khosrov Maharram oglu**was read out in court. In that statement, he indicated that on **2 August 2021**, at around **00:20**, while he was moving in the area of **Alagoller** in **Kalbajar District**, approximately **500 meters** from the **"Pora"** post, the vehicle ran over a mine previously planted by Armenian separatists, as a result of which the vehicle overturned. After that, they quickly got out of the vehicle and began running back in the direction of the support point of the **6th company**. After reaching the company, they were evacuated to the military unit and from there to the hospital. He had no injury to his left eye, but he had certain pains. He had no information about the health condition of the other servicemen.

It is apparent from the statements of **Pira Hasan Nizami oglu**, who was questioned as an injured person and whose statements were read out and examined in the courtroom, that in his statement he—

Page 990

—confirmed the fact he had stated and indicated that during the incident he sustained injuries to the head area, had difficulty hearing in his ear, and was treated for high blood pressure.

It is apparent from the statement of the injured person **Qafarov Abbas Hasan oglu**, which was read out and examined in the courtroom, that, confirming what had been stated in the statements of the other injured persons, he indicated that the vehicle's left middle wheel struck a mine and that during the incident he sustained injuries to the head and shoulder areas.

The testimony given during the preliminary investigation by **Hasanov Goshgar Fikrat oglu**, captain and deputy commander for work with personnel of the **11th company** of the **4th battalion** of military unit No. "N", who represented the military unit in relation to the material damage caused to the military unit as a result of the **"Ural-432000"** vehicle with registration plate **G503QQ**, belonging to military unit No. "N", being involved in an accident as a result of a mine explosion, was read out in court. In that statement, he indicated that on **2 August 2021**, while servicemen of the military unit were moving in the **"Ural-432006"** vehicle with registration plate **G503QQ** in the area of **Alagoller** in **Kalbajar District** for the purpose of repairing the supply road to the **"Pora"** post, they were involved in an accident as a result of a mine, previously placed by Armenian separatists approximately **500 meters** from the "Pora" post, exploding. The servicemen sustained injuries of various degrees, were given initial medical aid, and were evacuated to the hospital for examination and treatment.
As a result of the incident, the **"Ural-432006"** vehicle with registration plate **G503QQ**, which was on the balance sheet of the military unit, became partially unusable. The vehicle's left middle wheel and its rim were put out of order, the fuel tank was punctured, the left side of the vehicle was dented inward, the upper cover was torn off, some parts located on the upper left side of the body were damaged, the left and front windows in the cabin and the left-side rear-view mirror were broken, and the left door was dented in various places.
The testimony given during the preliminary investigation by the injured person **Musayev Feyruz Mahammad oglu** was read out in court. In that statement, he indicated that from **31 January 2020** he served as a long-term active-duty serviceman in military unit No. "N", as a bulldozer operator of the **1st squad** of the **2nd engineer-road team** of the **1st engineer-road division**. On **1 June 2021**, together with the **Caterpillar D-6R** bulldozer with registration plate **H830QQ**assigned to him, he was seconded for a period of one month to military unit No. "N" in order to carry out engineering work in the area of the **3335th height** near **Zar village** of **Kalbajar District**.
On the day of the incident, that is, on **11 June 2021**, at approximately **17:00–18:00**, while he was carrying out engineering work at the combat position called **"Tanker"**, Armenian armed forces opened fire with large-caliber weapons. At that time, he got down from the tracked vehicle and took shelter in a nearby trench; he remained there until it became dark and then moved the vehicle and returned to the battalion. In his statement, Feyruz Musayev also indicated that he himself did not sustain any physical injury, but the **Caterpillar D-6R** bulldozer with registration plate **H830QQ** had become partially unusable.
It is apparent from the statement of **Panahov Vafadar Zahir oglu**, a representative of the injured party, which was read out and examined in the courtroom, that he gave a statement of the same content as the injured person and confirmed the stated circumstances.
It is apparent from the statements of witnesses **Mehdiyev Farahim Ulfat oglu** and **Huseynov Famil Alim oglu**, which were read out and examined in the courtroom, that they confirmed the circumstances stated in the statement of the injured person and gave statements of the same content.
The testimony given during the preliminary investigation by the injured person **Tamjidi Asif Azer oglu** was read out in court. In that statement, he indicated that he had been seconded for a period of one month to military unit No. "N" in order to carry out engineering and technical

work, namely trench-digging work, in the area called the **5th combat position** in **Yellice village** of **Kalbajar District**. He—

Page 991

—arrived on **11 June 2021**, at around **14:00**, in the area called the **5th combat position** located in **Yellice village** of Kalbajar District, and, in order to dig a trench, operated **New Holland** engineering equipment with registration plate **H175QQ**. When smoke came out while he was working, he stopped the engineering equipment near the trench. When the smoke subsided, and while he was trying to get down from the excavator, at around **16:00–17:00**, Armenian separatists opened fire on the engineering equipment with large-caliber weapons. Four bullets struck the equipment and broke the front, left, and rear windows of the equipment. The right side of the working arm, the part on the right side of that arm, the iron oil pipe of the cylinder on the left side, the fuel tank in two places, the radiator's flushing hose, the oil indicator dipstick, and the engine oil filler cap were damaged or broken.

It is apparent from the statements of the injured party's representative **Panahov Vafadar Zahir oglu** and witnesses **Huseynov Mamaxan Elshad oglu** and **Huseynli Tayyar Ramil oglu**, which were read out and examined in the courtroom, that they gave statements of similar content.

The testimony given during the preliminary investigation by the injured person **Abdullayev Abdulaziz Elshad oglu** was read out in court. In that statement, he indicated that on **16 August 2021**, at around **18:00**, while he was in the soldiers' dormitory, information was provided that there was activity at the combat position of the Armenian military formations by the servicemen serving at the combat position conditionally called **"Goycha 5."** When they immediately reported this to the battalion commander, they received an order for all servicemen to proceed to the combat position. After taking their weapons and ammunition, they came to the combat position and began conducting observation.

On that day, at around **20:00**, fire was opened from the Armenian positions using large-caliber weapons. As soon as the fire began, he was injured in the area of his right upper arm and right temple. He lost a large amount of blood but continued firing despite this. After being wounded, he reported this to the battalion. A military medical vehicle came to the ravine located beside the battalion's combat position, and sanitary instructor junior sergeant **Aliyev Elcan Charkaz oglu** provided first medical aid to him and soldier **Muradov Khayal Mikayil oglu**, and evacuated them to the military hospital located in **Kalbajar District**.

The testimony given during the preliminary investigation by the injured person **Muradov Khayal Mikayil oglu** was read out in court. In that statement, he indicated that on **16 August 2021**, at around **18:00**, while he was in the soldiers' dormitory, information was provided that there was activity at the combat position of the Armenian military formations by the servicemen serving at the combat position conditionally called **"Goycha 5."** When they immediately reported this to the battalion commander, all servicemen received the order to proceed to the combat position. After taking their weapons and ammunition, they came to the combat position and began conducting observation.

On that day, at around **20:00**, fire was opened from the Armenian positions using large-caliber weapons. At that time, he saw that **Abdullayev Abdulaziz Elshad oglu**, who was with him at the same combat position, had sustained injuries to his right arm and temple area. At the combat position located opposite them, he saw that the Armenian armed formations

were loading their weapons near trees. Without losing time, he fired with the weapon in his hand at the positions of the Armenian armed formations. After that, the exchange of fire continued. At that time, although he did not feel that he had been injured in his left hand, a few minutes after the exchange of fire began he saw that a large amount of blood was flowing from his hand.

After being wounded, he reported this to the battalion. A military medical vehicle came to the ravine located beside the battalion's combat position, and sanitary instructor **Aliyev Elcan Charkaz oglu** provided first medical aid to him and to **Abdullayev Abdulaziz Elshad oglu** and evacuated them to the military hospital located in **Kalbajar District**.

The testimony given during the preliminary investigation by witness **Abdulhuseynov Nijat Mahir oglu** was read out in court. In that statement, he indicated—

—that on **16 August 2021**, at around **20:50**, in the area of **Zar village of Kalbajar District**, as a result of numerous shots fired from the Armenian position with small arms and large-caliber weapons, one of the bullets struck a rock and shattered it; as a result of its fragments scattering around and those fragments striking servicemen of military unit No. "N" of the Ministry of Defence, **Abdullayev Abdulaziz Elshad oglu**, a soldier of the **1st squad** of the **2nd platoon** of the **12th company** of the **4th battalion** of military unit No. "N", and **Muradov Khayal Mikayil oglu**, a soldier of the **1st squad** of the **2nd platoon** of the **12th company** of the **4th battalion** of military unit No. "N", sustained injuries.

The **"Goycha 5"** combat position where the incident occurred is located at approximately **2,770 meters** above sea level, and the distance to the Armenian position is approximately **25–30 meters**. There are Armenian positions to the left and directly opposite the **"Goycha 5"** combat position. The right and rear sides are territories under the control of the Armed Forces of the Republic of Azerbaijan. After the servicemen were injured, they were quickly evacuated to the medical point; medical assistance was provided to the servicemen at the medical point, and at present they are continuing their treatment at military hospital No. "N".

It is apparent from the statement of **Aliyev Elcan Charkaz oglu**, which was read out and examined in the courtroom, that he gave a statement of the same content and confirmed the statement of **Abdulhuseynov Nicat Mahir oglu**.

The testimony given during the preliminary investigation by the injured person **Shiraliyev Ruslan Nariman oglu** was read out in court. In that statement, he indicated that on **25 August 2021**, from **12:00 to 16:00**, he had been assigned to sentry duty at a combat post located near a forested area in **Chayzami village of Qubadli District**. At around **15:20**, hearing a rustling sound from that area, he moved in that direction. From the place where he was located, in the direction where the positions of Armenian armed formations were situated, at a distance of **29 meters**, in the forested area, he observed one serviceman in military uniform belonging to the Armenian armed forces, with an automatic weapon on his shoulder, moving in ambush formation toward the combat position where he was located. He advanced in that direction, aimed his weapon in that direction, and intended to open fire. Hearing a rustling sound behind him and turning back, he saw behind him another serviceman in the military uniform of the Armenian armed forces. The latter suddenly attacked him with the knife in his hand with the purpose of killing him and struck him with

the knife in various parts of his body. He resisted that person and shouted to call his other service comrades. The Armenian servicemen left the combat position and fled from there.
It is apparent from the statements of witnesses **Ahmadov Elchin Mubariz oglu**, **Isgandarov Afgan Ilgar oglu**, **Mammadov Vusal Kamaladdin oglu**, **Sahibov Hasanagha Seyfulla oglu**, **Salmanli Rovshan Vasif oglu**, **Taghiyev Tofiq Intizam oglu**, **Aliyev Rufat Zakir oglu**, **Ibrahimov Sadiq Aydin oglu**, **Jafarli Mirsayyar Vugar oglu**, **Ismayilzada Niyazi Anar oglu**, and **Isgandarli Isgandar Yashar oglu**, whose statements were read out and examined in the courtroom, that they gave statements of the same content and confirmed the statement of **Shiraliyev Ruslan Nariman oglu**.
The testimony given during the preliminary investigation by the injured person **Khalilov Nicat Yalchin oglu**, a member of the machine-gun squad of the **1st anti-tank platoon** of the anti-tank division of military unit No. "N", with the rank of sergeant, was read out in court. In that statement, he indicated that in the morning hours of **10 July 2021**, he, Chief Warrant Officer **Zaur Sadigov**, Sergeant **Arif Zeynalov**, Junior Sergeant **Gadir Rzayev**, and Sergeant **Rufat Maharov**decided to look for an easier vehicle road in order to send by truck to the **1st battalion** the wooden structures that had remained from the previous day and that they had dismantled and gathered in one place. For that purpose, they climbed to the upper part of the trench communication road used by combat units before the Second Karabakh War and advanced along it.
After walking for approximately **10–15 minutes**, they saw another wooden-structure building inside the trench communication road, and shortly before reaching that building, with him in front, they descended in single file into the trench communication road. He—

—was moving along the trench communication road approximately **3–5 meters** from that building when an explosion occurred. After that, he felt severe pain in his right leg. The servicemen who were there at that time helped him, and with their assistance he was brought out to the motor road.
The statements of **Zeynalov Arif Hasan oglu**, sergeant and commander of the **2nd grenade-launcher** of the anti-tank division of military unit No. "N", and **Abdiyev Orkhan Ogtay oglu**, captain and commander of the anti-tank division of military unit No. "N", who were questioned as witnesses, were read out in the courtroom and examined. It is apparent from their statements that they gave accounts similar in content to those stated by Sergeant **Khalilov Nijat Yalchin oglu**.
The testimony given during the preliminary investigation by the injured person **Namazov Vasif Faiq oglu**, who was recognized and questioned as an injured person and served as driver of the **1st squad** of the **1st platoon** of the engineering-fortification division of military unit No. "N", with the rank of senior soldier, was read out in court. In that statement, he indicated that on **4 September 2021**, at approximately **17:50**, he suddenly heard the sound of an explosion and fell to the ground. Approximately **10–15 seconds** later, he felt severe pain in the ankle area of his right foot and, when he looked at that area, saw that his right foot had sustained a serious injury as a result of a mine explosion. After that, the servicemen who were there provided him with first medical aid and evacuated him to military hospital No. "N". Later, in order to continue his treatment, on **6 September 2021** he was sent to military unit No. "N" located in **Ganja**.

The statements given during the preliminary investigation by **Mammadov Farid Aziz oglu**, **Yusifov Rovshan Mammad oglu**, **Mehdiyev Farahim Urfat oglu**, **Alizada Aydin Aghamoglan oglu**, and **Aghayev Khayal Mammad oglu**, who were questioned as witnesses, were read out in court. In those statements, they indicated that on **4 September 2021**, on the basis of a special assignment given by higher command and in connection with service necessity, servicemen of military unit No. "N" and military unit No. "N", including themselves, were assigned to conduct engineering reconnaissance of the road and area in order to establish an appropriate combat post in the area at an altitude of **3,172 meters** on the mountain conditionally called **"Konqor"**, in the direction of **Chopurlu** and **Lev** villages of **Kalbajar District**.

Their main duties there consisted of carrying out a mine search in the area and organizing the clearance of the area from mines. The area had been liberated from the Armed Forces of Armenia after the Patriotic War. There was a destroyed combat post belonging to Armenian servicemen there. Approximately **4 meters** from the road to that post, **four anti-tank mines** arranged in a checkerboard pattern had been detected and removed from their places. At approximately **17:50**, the sound of an explosion was heard. When they heard the explosion and looked at the ground, they saw black dust caused by the explosion rising upward. Since the sound of the explosion was weak, they understood that the explosion had been caused by an anti-personnel mine.

When they came to the place where the explosion had occurred, they saw **Namazov Vasif Faiq oglu**, a long-term active-duty serviceman of military unit No. "N" with the rank of senior soldier, lying on the ground, with his right leg covered in blood. When they saw him, they understood that he had sustained a serious injury to his right leg as a result of a mine explosion. After that, the servicemen who were there provided him with first medical aid and evacuated him to military hospital No. "N". In the area where the explosion occurred, no mining had been carried out by their military unit or, generally, by the Armed Forces of the Republic of Azerbaijan. There were also no signs near that area indicating that the said area was mined. As a result of that incident, no servicemen other than **Namazov Vasif Faiq oglu** were injured.

The testimony given during the preliminary investigation by the injured person **Hasanov Valeh Mali oglu** was read out in court. In that statement, he indicated that on **18 September 2021**, at around **18:05**, the ceasefire was violated by the Armed Forces of Armenia, which opened fire with large- and small-caliber weapons. At that time, in order to suppress the fire with a machine gun, he went to the **"KPVT"** position of the **"Mil-I"** post, and at that moment the Armenian—

—from the direction of the Armenian positions, fire was opened in that direction with a large-caliber weapon, and one of the fired bullets pierced the **"tower"** part of the **"KPVT"** position; a fragment of the bullet struck the left side of his forehead and injured him.

It is apparent from the statements of **Aliyev Xagani Arif oglu**, **Alasgarov Nazir Fariz oglu**, **Badalli Ramal Bahlul oglu**, **Mammadov Emin Jamaladdin oglu**, **Khalidli Rashad Ziyafat oglu**, **Hasanov Royal Hafiz oglu**, **Karimov Kanan Vagif oglu**, and **Abdullayev Peyman Goshgar oglu**, who were questioned as witnesses and whose statements were read

out and examined in the courtroom, that they gave statements consistent with the statement of the injured person **Hasanov Valeh Mali oglu**.

The testimony given during the preliminary investigation by the injured person **Jalilov Nazir Vidadi oglu** was read out in court. In that statement, he indicated that on **29 July 2021**, at around **07:00**, when approximately **30 meters** remained before reaching combat position No. **29**, the vehicle was suddenly fired upon from the posts of Armenian armed formations. As a result of the fire, the right-side window of the vehicle, that is, the window on the side of the seat where he was sitting, was struck; at that moment, the driver, **Ali Mikanayev**, told him to drive the vehicle quickly to the combat position. For safety reasons, while the vehicle was moving, he opened the right door and held himself toward the ground. At that time, he sustained injuries to his left wrist, left ankle, and right knee areas, and when the vehicle stopped, he saw that he was lying under the wheel of the moving vehicle. After that, **Ali Mikanayev** drove the vehicle into the combat position.

At that time, he saw that fire was being opened by Armenian armed formations from a distance of approximately **100 meters** from their combat position, but he could not see who they were. Then he looked left and right to see whether anyone had come to help him; thinking that there were Armenians nearby, he shouted. At that moment, an unfamiliar soldier came out and said that he was Azerbaijani, that he was a soldier of military unit No. "N", and that he was soldier **Ganbarli Bahruz Mutallim oglu**. **Bahruz Ganbarli** handed him his weapon and ammunition, and when they moved together toward combat position No. 29, the Armenian armed formations again opened fire. Fire was opened from combat position No. 29 at the Armenian post, and after return fire the Armenian armed formations stopped shooting.

It is apparent from the statements of the injured persons **Heydarzada Mirsaleh Mail oglu**, **Alizada Yusif Arif oglu**, **Mikanayev Ali Ilham oglu**, **Gurbanov Vusal Tahir oglu**, and **Abbasov Arif Yanvar oglu**, which were read out and examined in the courtroom, that in their statements they confirmed the facts stated by **Jalilov Nazir Vidadi oglu**.

The testimony given during the preliminary investigation by **Guliyev Agshin Fazil oglu**, who participated as a representative of the military unit recognized as the injured party, was read out in court. In that statement, he indicated that, as a result of fire opened on that vehicle from the position of Armenian armed formations, a bullet struck the lower and upper parts of the vehicle's right wing and the left side of the bumper, causing damage to those parts of the vehicle. After the incident, the vehicle's right-side window was replaced. The parts of the vehicle that were struck by bullets were not repaired, as they were not of any significance.

It is apparent from the statement of **Ganbarli Bahruz Mutallim oglu**, who was questioned as a witness and whose statement was read out and examined in the courtroom, that in his statement he confirmed the circumstances stated by the injured persons.

The testimony given during the preliminary investigation by witness **Gasimov Guloglan Rauf oglu** was read out in court. In that statement, he indicated that on **14 October 2021**, at around **18:00**, he was inside a tent set up at the combat position of the **5th division**, conditionally called No. **15**. At that time, soldier **Hamzayev Afgan Bahman oglu** had gone to bring water to the position and, while returning with a kettle full of water, entered the western part of the tent. Seeing that **A. Hamzayev** was tired, he went over to him. At that time, from the eastern part of the position, in the territory of **Khojavend District**, members

of Armenian armed groups located approximately **370 meters** away and at a comparatively higher elevation—

Page 995

—began firing numerous shots of various calibers in the direction of the combat position where he, junior sergeant **Karimli Sahib Ahmadkhan oglu**, soldier **Ibrahimkhalilov Ilkin Elshad oglu**, soldier **Namazov Mahiraddin Mirza oglu**, **Karimli Namiq Ramin oglu**, and soldier **Hamzayev Afgan Bahman oglu** were located. At that moment, soldier **Hamzayev Afgan Bahman oglu** entered the tent located at the support point of the battalion in order to report that the Armenians were firing at the support point with large-caliber weapons. He told **I. Ibrahimkhalilov** to enter the tent and help **A. Hamzayev**, and then quickly ran outside. After **I. Ibrahimkhalilov** had been inside the tent for three to four seconds, five persons entered the tent upon hearing a loud cry; they saw the deceased lying on the ground, with heavy bleeding from the head area and in a motionless condition. They informed the battalion's support point of this, placed him on a stretcher, and evacuated him. Later, they learned that **A. B. Hamzayev** had died in a military medical vehicle.

It is apparent from the statements of the injured persons **Karimli Sahib Ahmadkhan oglu**, **Ibrahimkhalilov Ilkin Elshad oglu**, **Namazov Mahiraddin Mirza oglu**, and **Karimli Namiq Ramin oglu**, which were read out and examined in the courtroom, that, by giving statements of the same content as the statement of witness **Gasimov Guloglan Rauf oglu**, they confirmed what he had said.

The testimony given during the preliminary investigation by **Hamzayev Bahman Huseyn oglu**, who was questioned as the legal successor of the injured person, was read out in court. In that statement, he indicated that on **14 October 2021**, at around **19:00**, his brother-in-law **Qarapur Shahruz Eldar oglu** came to the house where he lived and informed him that **Afgan Hamzayev** had been shot in the head. At that time, they did not know that he had died, and they went to the military unit where **Afgan Hamzayev** had served. There, they learned that at a combat position located in the area of **Gulabli village of Aghdam District**, he had been injured in the head area as a result of numerous shots fired by Armenian armed formations positioned opposite, and that he had become a martyr as a result. He was buried on **15 October 2021**.

The testimony given during the preliminary investigation by the injured person J**abbarzada Jabbar Rasim oglu** was read out in court. In that statement, he indicated that on **13 October 2021**, at approximately **13:20**, while they were moving in a vehicle on an ascending and winding section of a road approximately **5 kilometers** from **Heyvali village of Kalbajar District**, numerous shots were fired at the vehicle in which they were travelling from a forested area. He and driver **B. Shabanov** were startled by the sound of gunfire, and driver **B. Shabanov** lost control of the vehicle, as a result of which the vehicle went off the road approximately **10 meters** into a dangerous area and overturned. After the incident, they informed the Russian peacekeeping servicemen of what had happened, and they got out of their vehicles and inspected the area.

When he got out of the vehicle, he saw that a bullet had struck the front left wheel of the vehicle and that the wheel had begun to lose air. After inspecting the vehicle together with the others, he saw damage to the vehicle caused by two other bullets. Later, the driver replaced the vehicle's wheel with a spare wheel and they continued moving. At the time of

the incident, from the forested area on their left side, he heard four or five shots fired at the vehicle in which they were travelling and at the vehicles accompanying them in the convoy, but the other vehicles in the convoy were not damaged.

It is apparent from the statements of **Shabanov Baylar Etibar oglu**, **Rustamov Avaz Akif oglu**, **Israfilov Jabrayil Khanbala oglu**, and **Guliyev Valeh Nadir oglu**, who were recognized and questioned as injured persons and whose statements were read out and examined in the courtroom, that in their statements they gave accounts similar in content to the statement of warrant officer **Jabbarzada Jabbar Rasim oglu**.

The testimony given during the preliminary investigation by **Mammadov Shahmar Khanmirza oglu**, major and serviceman of military unit No. "N" of the Ministry of Defence, who was questioned as a representative of the injured person, was read out in court. In that statement, he indicated that on **30 September 2021**, in the morning hours, he was informed that the **KAMAZ-43114** cargo vehicle with military registration plate **D-553-QQ**, assigned to the **1st battalion**, had been moving in the area of **Marzili village of Aghdam District** when, because the weather was rainy and the ground surface was muddy and slippery, it skidded and the driver lost control—

—the vehicle went off the road and struck an anti-tank mine previously planted by Armenian servicemen, and as a result of the explosion the vehicle and the persons inside it were damaged and injured.

The testimony given during the preliminary investigation by the injured person **Huseynov Afer Mahir oglu** was read out in court. In that statement, he indicated that on **29 September 2021**, because driver **Yusif Abdullayev** was tired and sleepy, and because he thought that Abdullayev was unlikely to be able to drive the vehicle himself, he got behind the wheel. After all the above-mentioned persons had got into the vehicle, they moved in the direction of the **"Ceylidag"** road indicated by **A. Aydinov**, toward the place where the farm was located. Because the indicated road had steep descents and ascents, and because there was rain and the ground was muddy, while descending from the hill in the **KAMAZ-43114** truck with military registration plate **D-553-QQ**, following the track of the vehicle's wheels, he lost control of it. At that moment, the vehicle went approximately **4–5 meters** off the road to the left, entered a flat-looking area, crossed into a mined area, and a mine explosion occurred. At that time, he and soldier **Rashad Haziyev** sustained injuries to one leg, while the other persons did not receive serious injuries. After that, because of the impact of the incident, he did not remember the events that occurred.

The testimony given during the preliminary investigation by the injured person **Abdullayev Yusif Shahmali oglu** was read out in court. In that statement, he indicated that on **29 September 2021**, he went to the place intended for sleeping, while warrant officer **Huseynov** got behind the wheel. After the loading work was completed, soldier **Ahmadov** and soldier **Haziyev** sat beside him behind the cabin, soldier **Aliyev** sat in the middle, and the police officer sat in the right front seat, and they began moving.

At that time, because it was raining and the ground was muddy, warrant officer **Huseynov** was driving the vehicle. After some time, there was the sound of a powerful explosion. At first, he did not understand what had happened, but later he understood that they had struck a mine. At that moment, because soldier **Aliyev** and soldier **Ahmadov** had sustained minor

injuries, they got out of the cabin themselves. At the indicated time, warrant officer **Huseynov** had sustained an injury to his leg, and soldier **Haziyev** had also been injured. The police officer had not sustained any injury. After that, the leadership of the military unit came to the scene and evacuated soldier **Haziyev** and warrant officer **Huseynov** to a military hospital.

It is apparent from the statement of the injured person **Ahmadov Kanan Bahlul oglu**, which was read out and examined in the courtroom, that, giving a statement similar in content to the statement of **Abdullayev Yusif Shahmali oglu**, he indicated that on **30 September 2021**, at around **00:30**, the **KAMAZ-43114** truck with military registration plate **D553QQ**, driven by warrant officer **Afer Huseynov**, who served as a technician in the logistics support team of the **1st battalion** of military unit No. "N" of the Ministry of Defence, was moving along the supply road in the area of **Marzili village of Aghdam District**, liberated from occupation. Because of the way the vehicle was driven, the truck went off the road and struck an anti-tank mine planted by Armenian armed formations. As a result, **Afer Huseynov**, soldier **Yusif Abdullayev**, soldier **Rashad Haziyev**, soldier **Adam Aliyev**, and he himself sustained various injuries.

It is apparent from the statement of the injured person **Haziyev Rashad Rahim oglu**, which was read out and examined in the courtroom, that, giving a statement similar in content to the statement of **Abdullayev Yusif Shahmali oglu**, he indicated that on **30 September 2021**, at around **00:30**, the **KAMAZ-43114** truck with military registration plate **D553QQ**, driven by warrant officer **Afer Huseynov**, who served as a technician in the logistics support team of the **1st battalion** of military unit No. "N" of the Ministry of Defence, was moving along the supply road in the area of **Marzili village of Aghdam District**, liberated from occupation. Because of the way the vehicle was driven, the truck went off the road and struck an anti-tank mine planted by Armenian armed formations. As a result, **Afer Huseynov**, soldier **Yusif Abdullayev**, soldier **Kanan Ahmadov**, soldier **Adam Aliyev**, and he himself sustained various injuries.

Page 997

It follows from the statements of the victim **Adem Nail oglu Aliyev**, announced and examined in the courtroom, that he gave testimony similar in content to the statement of **Yusif Shahmali oglu Abdullayev**, stating that on 30 September 2021, at approximately 00:30, while serving as a technician-driver in the vehicle platoon of the 1st battalion's material and technical supply unit of Military Unit No. "N" of the Ministry of Defense, **secretary Afar Huseynov**, while driving a **KAMAZ-43114** heavy truck with military registration number **D-553QQ**, was moving along a supply road in the territory of the liberated village of **Marzili**, **Aghdam District**. Because of the driver, the truck went off the road and hit an anti-tank mine planted by Armenian armed formations. As a result, **Afar Huseynov**, soldier **Yusif Abdullayev**, soldier **Kenan Ahmadov**, soldier **Rashad Haziyev**, and he himself sustained various injuries.

The statement given by **Farhad Eldar oglu Eyvazli**, questioned at the preliminary investigation as a witness, was announced in court. From his statement it is seen that on 29

September 2021, when he was at the support point of the 1st company at about 22:00, the battalion servicemen — secretary **Afar Huseynov**, the driver of the **KAMAZ-43114** truck with military registration number **D-553QQ**, **Yusif Abdullayev**, and police officer **Aydin Aydinov** — came there. They informed him that the battalion commander **S. Zulfuqarov** had ordered the soldiers of the working group to be sent for the purpose of bringing in and dismantling boards. Since he had previously repeatedly received assignments from **S. Zulfuqarov** concerning the dismantling and collection of boards by the working group, he called soldiers **Rashad Haziyev**, **Adem Aliyev**, and **Kenan Ahmadov**, and sent them together with the above-mentioned persons. At that time, he thought that police officer **A. Aydinli** was also supervising the area and ensuring that the boards were not taken for another purpose. Later that night, while on duty, he heard that secretary **Afar Huseynov** had hit a mine with the **KAMAZ-43114** truck bearing military registration number **D-553QQ**.

From the statements of **Elmir Yavar oglu Madatov**, **Ruslan Elman oglu Aslanzade**, and **Azar Khayyam oglu Chalabizade**, announced and examined in the courtroom, it is seen that, by giving statements of the same content, they confirmed the statement of **Farhad Eldar oglu Eyvazli**.

The statement given by the victim **Vusal Musa oglu Tagiyev** at the preliminary investigation was announced in court. He stated that on 19 May 2021, at approximately 22:00, about 220 Armenian servicemen illegally crossed the state border of the Republic of Azerbaijan in a group and entered the area, after which they were asked to withdraw to their own positions. At that time, a dispute with Armenian servicemen continued. In order to support the Armenians, additional vehicles and military servicemen arrived and, by relying on their numerical superiority over the Azerbaijani soldiers, tried to advance further. One Armenian serviceman struck an Azerbaijani soldier in the face with the butt of an automatic rifle. After that, a group of 300–400 armed Armenian servicemen and civilians surrounded the Azerbaijani soldiers, used the weapons and stones in their hands to strike the Azerbaijani servicemen, and caused injuries to them.

Despite all this, the Azerbaijani servicemen did not succumb to the provocation, did not use weapons, and, despite being fewer in number, managed to force the Armenian armed groups to retreat. As a result of the incident, he sustained injuries to his forehead, head, and both arms, while another 31 officers, warrant officers, and soldiers sustained injuries of various degrees as a result of the Armenians throwing stones and using force.

It follows from the statements of the victims **Senior Lieutenant Zahid Abdulla oglu Najafov**, **Senior Lieutenant Adalat Abdulla oglu Abdullazade**, **Senior Lieutenant Kamran Firudin oglu Huseynov**, **Senior Lieutenant Shamsi Khalid oglu Kazimli**, **Senior Lieutenant Azad Azar oglu Axundov**, **Senior Lieutenant Tural Javanshir oglu Koroghliyev**, **Senior Lieutenant Hidayat Farhad oglu Jahangirov**, **Senior Warrant Officer Nuran Sabir oglu Gasimov**, **Senior Warrant Officer Ilhamat Gulagha oglu Ibrahimov**, Warrant Officer **Anar Elshad oglu Shaphalov**, Warrant Officer **Asif Oktay oglu Babirli**, and Warrant Officer **Shirkhan Shohrat oglu Hajimammadov**—

—Warrant Officer **Kamandar Sarkhan oglu Oruczada**, Warrant Officer **Panah Khaladdin oglu Aliyev**, Warrant Officer **Vusal Vugar oglu Guliyev**, Warrant Officer **Royal Bakhtiyar oglu Karimov**, Junior Warrant Officer **Elmin Tahir oglu Allahverdiyev**, Junior Warrant Officer **Samir Sanan oglu Mammadov**, Junior Warrant Officer **Elvin Islam oglu Salimov**, Junior Warrant Officer **Umid Gachay oglu Hasanli**, Junior Warrant Officer **Asgar Ali oglu Baylarov**, Junior Warrant Officer **Elsan oglu Abdullazade**, Junior Warrant Officer **Afif oglu Zakeriyya**, Junior Warrant Officer **Sardar Shukur oglu Chalabiyev**, servicemen performing extended active military service — soldier **Mustafa Imran oglu Mammadov**, soldier **Kenan Araz oglu Sariyev**, soldier **Abdulla Ramazan oglu Amirzazov**, soldier **Samir Elsan oglu Ahmadov**, soldier **Vagif oglu Muradov**, and Junior Sergeant **Orkhan Zeynal oglu Heydarov** — announced and examined in the courtroom, that they confirmed the circumstances indicated in the statement of the victim **Vusal Musa oglu Tagiyev**.

The statement given by the victim **Asabali Khanlar oglu Mammadov** at the preliminary investigation was announced in court. In his statement he indicated that on 16 November 2021, at about 12:00, the post No. 40 where they were located was fired upon by members of Armenian armed formations using incendiary bullets, mortars, and anti-tank shells. At that time, two **BTR-82A** vehicles, one **KAMAZ**, and **SandCat** vehicles standing in the area were hit by rocket fire from members of Armenian armed formations. At that moment, a shell fell and exploded nearby; as a result of the explosion, his ears were damaged and he received an injury to his right foot. He was then sent to the medical point of Military Unit No. “N”, then to the military hospital No. “N” located in the city of **Ganja**, then to the **Central Clinical Hospital** located in **Baku**, and after that he received inpatient treatment for 15 days at another hospital located in **Baku**. He stated that because the terrain of the area where the incident occurred was somewhat hilly and mountainous-rocky, in some places there was a distance of 1 kilometer, in some places 500 meters, and in some places 30 meters between the positions of the Armenian servicemen and the position where they were located when the incident occurred.

The statement given by the victim **Tabriz Isa oglu Mamizade** at the preliminary investigation was announced in court. In his statement he indicated that on 16 November 2021, at about 12:00, the post No. 40 where they were located was fired upon by members of Armenian armed formations using incendiary bullets, mortars, and anti-tank shells. At that time, two **BTR-82A** vehicles, one **KAMAZ**, and **SandCat** vehicles standing in the area were hit by rocket fire from members of Armenian armed formations. At that moment, a mortar shell fell and exploded 5–6 meters away from him; as a result of the explosion, he sustained injuries to his right foot and the right side of his chest. He was then sent to the medical point of Military Unit No. “N”, then to the hospital located in **Kalbajar District**, then to Military Hospital No. “N” in **Ganja**, and thereafter, from 18 November 2021 until 8 December 2021, he received inpatient treatment at a military hospital located in **Baku**. He stated that because the terrain of the area where the incident occurred was somewhat hilly and mountainous-rocky, in some places there was a distance of 1 kilometer, in some places 500 meters, and in

some places 30 meters between the positions of the Armenian servicemen and the position where they were located when the incident occurred.

The statement given by the victim **Eldaniz Abil oglu Mahmudov** at the preliminary investigation was announced in court. In his statement he indicated that on 11 September 2021 he served as a military serviceman with the rank of warrant officer, as a medical feldsher at the medical point of the 2nd battalion of Military Unit No. "N" of the Ministry of Defense. On 16 November 2021, at midday, the military unit's reconnaissance chief, Major **Azar Humbatov**, the deputy commander of the 2nd battalion for personnel, Major **Ramiz Guliyev**, the communications team's radio operator, soldier **Vugar Aliyev**, and soldier **Orkhan Talirov**, traveling in a military medical vehicle operated by him, went to combat position No. 39 of Military Unit No. "N".

Page 999

Two of the three hills in the area they went to contained posts of Armenian armed formations, while the remaining one contained a post of Military Unit No. "N". On that date, he saw three Russian peacekeeping representatives holding a conversation with **Major Azar Humbatov**, the reconnaissance chief of Military Unit No. "N". After the peacekeepers spoke with them for approximately 35–40 minutes, they left the area. **Major Azar Humbatov** ordered them to take positions. Approximately 20 minutes later, the combat posts were fired upon by members of Armenian armed formations using incendiary bullets, mortars, and anti-tank shells. First, a rocket fired by the Armenian armed formations struck the **KAMAZ** vehicle of Military Unit No. "N"; after that, an armored personnel carrier belonging to Military Unit No. "N" was hit. At that moment, a shell fell and exploded near him, and as a result of the explosion he sustained barotrauma and an injury to the top of his head. At that time, he saw that **Namik Alizade** and **Elsevar Gadirov**, who were serving in the same place as him, had also been injured. He was then provided medical assistance at the medical point of Military Unit No. "N". He stated that because the terrain of the area where the incident occurred was somewhat hilly and mountainous-rocky, in some places there was a distance of 3–4 kilometers, in some places 500 meters, and in some places 100–150 meters between the positions of the Armenian servicemen and the position where they were located when the incident occurred.

The statement given by the victim **Elvin Sehran oglu Huseynov** at the preliminary investigation was announced in court. In his statement he indicated that on 16 November 2021, at about 12:00, the post No. 40 where they were located was fired upon by members of Armenian armed formations using incendiary bullets, mortars, and anti-tank shells. At that time, two **BTR-82A** vehicles, one **KAMAZ**, and **SandCat** vehicles standing in the area were hit by rocket fire from members of Armenian armed formations. At that moment, a mortar shell fell and exploded 5–6 meters away from him, as a result of which he sustained a barotrauma injury. Later, on 19 November 2021, due to discomfort in his head, he applied to the medical point of Military Unit No. "N", was sent to Military Hospital No. "N" in **Ganja**, and later to a military hospital in **Baku**, where he received inpatient treatment for 23 days in

the neurology department. He stated that because the terrain of the area where the incident occurred was somewhat hilly and mountainous-rocky, in some places there was a distance of 1 kilometer, in some places 500 meters, and in some places 30 meters between the positions of the Armenian servicemen and the position where they were located when the incident occurred.

The statement given by the victim **Maharram Sakit oglu Karimli** at the preliminary investigation was announced in court. In his statement he indicated that on 16 November 2021, at about 12:00, the post No. 40 where they were located was fired upon by members of Armenian armed formations using incendiary bullets, mortars, and anti-tank shells. At that time, two **BTR-82A** vehicles, one **KAMAZ**, and **SandCat** vehicles standing in the area were hit by rocket fire from members of Armenian armed formations. At that moment, while he was assisting the wounded **Roman Teyyubzade** in his capacity as an instructor-sanitary orderly, a shell fell and exploded near him. As a result of the explosion, its fragments grazed the occipital part of his head. Later, while he was trying to assist another wounded person, **Hikmat Abdullayev**, another shell fell and exploded nearby, as a result of which he sustained an injury to the top of his head. After that, on 19 November 2021, due to discomfort in his head, he applied to the medical point of Military Unit No. “N” and was sent to Military Hospital No. “N” in **Ganja**. He stated that because the terrain of the area where the incident occurred was somewhat hilly and mountainous-rocky, in some places there was a distance of 1 kilometer, in some places 500 meters, and in some places 30 meters between the positions of the Armenian servicemen and the position where they were located when the incident occurred.

Page 1000

The testimony given during the preliminary investigation by the victim **Khalilov Tural Nariman oglu** was read out in court. In that testimony, he stated that at approximately 12:00 on **16 November 2021**, Post No. 40, where they were stationed, came under fire from members of Armenian armed formations using tracer incendiary bullets, mortars and anti-tank projectiles. Two **BTR-82A** armoured personnel carriers, one **KamAZ** vehicle and one **SandCat** vehicle in the area were struck by rocket fire launched by members of the Armenian armed formations.

At that time, while he was assisting the wounded Roman, a shell fell nearby and exploded, as a result of which he sustained a closed craniocerebral trauma and injuries to his right leg, right ear and right flank. He was subsequently sent to the medical aid station of Military Unit No. “N,” then to Military Hospital No. “N” in the city of Ganja, and thereafter underwent inpatient treatment for 29 days at the Main Clinical Hospital of the Border Troops in Baku.

He stated that the terrain in which they were located during the incident was somewhat hilly, mountainous and rocky. In some places, the distance between the positions of the Armenian servicemen and the position occupied by them at the time of the incident was one kilometre, in other places 500 metres, and in some places 30–50 metres.

The testimony given during the preliminary investigation by the victim **Bekdamirov Sahil Eldaniz oglu** was read out in court. In that testimony, he stated that at approximately 12:00 on **16 November 2021**, Post No. 40, where they were stationed, came under fire from members of Armenian armed formations using tracer incendiary bullets, mortars and anti-tank projectiles.

At that time, a shell fell approximately seven metres away from him and exploded, as a result of which he sustained barotrauma. He was subsequently taken to the medical aid station of Military Unit No. "N," then sent to Military Hospital No. "N" in the city of Ganja, and thereafter examined at the Main Clinical Military Hospital in Baku.

He stated that the terrain in which they were located during the incident was somewhat hilly, mountainous and rocky. In some places, the distance between the positions of the Armenian servicemen and the position occupied by them at the time of the incident was one kilometre, in other places 500 metres, and in some places 30–50 metres.

The testimony given during the preliminary investigation by the victim **Shabanli Hamid Zahir oglu** was read out in court. In that testimony, he stated that in the morning hours of **16 November 2021**, information was received that one of the posts of Military Unit No. "N" had been placed under siege by an Armenian armed formation. In order to provide support to that military unit, the command of Military Unit No. "N" sent him, Lieutenant **Umid Niftaliyev**, Lieutenant **Arzu Piriyev**, Senior Lieutenant **Emil Aliyev**, Senior Lieutenant **Rashad Mammadov**, Warrant Officer **Orkhan Jabbarov**, and other servicemen to that area.

They arrived at the combat position of Military Unit No. "N" near **Minkand village in the Lachin district**. At that time, members of the Armenian armed formations launched an attack against them using automatic weapons and mortars. A 120-millimetre mortar shell fell nearby and exploded, as a result of which he sustained injuries to his right hand and right ear.

He was subsequently sent to the medical aid station of Military Unit No. "N," then to Military Hospital No. "N" in the Kalbajar district, and thereafter to the military hospital of the Border Troops in Baku, where he underwent inpatient rehabilitation treatment from **25 November 2021 to 16 December 2021**.

He stated that the terrain in which they were located during the incident was somewhat hilly, mountainous and rocky. In some places, the distance between the positions of the Armenian servicemen and the position occupied by them at the time of the incident was one kilometre, in other places 500 metres, and in some places 30–50 metres.

The testimony given during the preliminary investigation by the victim **Abdullayev Hikmat Elman oglu** was read out in court. In that testimony, he stated that in the morning hours of **16 November 2021**, they had arrived in order to reinforce an isolated post of Military Unit No. "N." At approximately 12:00, the post at which they were stationed came under fire from members of Armenian armed formations using tracer incendiary bullets and mortars…

…and anti-tank projectiles. At that time, a shell fell nearby and exploded, and its fragments injured his right hand. Shortly thereafter, a second shell fell and exploded nearby, as a result of which he sustained injuries to his left leg in the knee region and below the knee.

His fellow servicemen **Elgun Mammadli** and **Sakhavat Aliyev** assisted him and removed him from the area. He was subsequently sent to the medical aid station of Military Unit No. "N," then to the military hospital in the Kalbajar district, and thereafter underwent inpatient treatment for three months at the Main Clinical Military Hospital in Baku.

He stated that the terrain in which they were located during the incident was somewhat hilly, mountainous and rocky. In some places, the distance between the positions of the Armenian servicemen and the position occupied by them at the time of the incident was one kilometre, in other places 500 metres, and in some places 30 metres.

The testimony given during the preliminary investigation by the victim **Mammadli Elgun Nazim oglu** was read out in court. In that testimony, he stated that on **16 November 2021**, they split into groups and took up positions at various posts. At that time, three representatives of the Russian peacekeeping forces were present on the road at the junction of Posts Nos. 39 and 40. Talks were held with those peacekeepers; however, the peacekeepers were not permitted to enter the area.

After they departed, when he moved from Combat Post No. 40, Combat Posts Nos. 39 and 40 came under fire from members of Armenian armed formations using tracer incendiary bullets, mortars and anti-tank projectiles. A shell fell nearby and exploded. The force of the explosion knocked him to the ground, caused dizziness and made his vision go dark.

At that time, the servicemen who were beside him—**Tabriz Mamizada, Roman Teyyubzada, Hikmat Abdullayev, Isgandar Adigozalov and Sakhavat Aliyev**—were also wounded. He was subsequently taken to the medical aid station of Military Unit No. "N," then to a hospital in the Kalbajar district, where he was examined, then to Military Hospital No. "N" in the city of Ganja, and thereafter to the Main Clinical Military Hospital in Baku.

He stated that the terrain in which they were located during the incident was somewhat hilly, mountainous and rocky. In some places, the distance between the positions of the Armenian servicemen and the position occupied by them at the time of the incident was one kilometre, in other places 500 metres, and in some places 30 metres.

The testimony given during the preliminary investigation by the victim **Aghayev Orkhan Qambar oglu** was read out in court. In that testimony, he stated that on **16 November 2021**, they split into groups and took up positions at various posts. At that time, three representatives of the Russian peacekeeping forces were present on the road at the junction of Posts Nos. 39 and 40.

The intelligence chief of Military Unit No. “N,” a serviceman with the rank of major whose name he did not know, held talks with those peacekeepers; however, the peacekeepers were not permitted to enter the area. Approximately ten minutes after the peacekeepers departed, Combat Posts Nos. 39 and 40 came under fire from members of Armenian armed formations using tracer incendiary bullets, mortars and anti-tank projectiles.

At that time, an anti-tank projectile fell nearby and exploded. The force of the explosion threw him approximately seven to eight metres away, and he lost consciousness. On **17 November 2021**, he regained consciousness at the medical aid station of Military Unit No. “N” and realised that he had sustained injuries to his nose and left eyebrow region.

He was subsequently taken to Military Hospital No. “N” in the city of Ganja and thereafter to the Main Clinical Military Hospital in Baku.

He stated that the terrain in which they were located during the incident was somewhat hilly, mountainous and rocky. In some places, the distance between the positions of the Armenian servicemen and the position occupied by them at the time of the incident was one kilometre, in other places 500 metres, and in some places 150 metres.

The testimony given during the preliminary investigation by the victim **Jafarov Muzaffar Eldar oglu** was read out in court. In that testimony, he stated that in the afternoon hours of **16 November 2021**, while he was in the area near **Kilsalidagh**, where the 4th Battalion in which he served was deployed, the battalion commander, Major **Shahmar Hajiyev**, contacted him by radio and informed him that intense fighting was taking place between their servicemen and Armenian armed formations at the **L-40 combat position near Minkand village in the Lachin district**, and instructed him to go to that area in order to assist the wounded servicemen.

Page 1002

He immediately travelled to the specified area together with the driver, **Jafarov Ramin Zohrab oglu**, in an ambulance bearing military registration number **B 251 QQ**. He saw that intense fighting was indeed taking place there.

Near Post No. 40, after providing first aid to four severely wounded servicemen, he placed them in the ambulance in order to prevent further blood loss and instructed the driver, Ramin Jafarov, to drive quickly away from the area.

While they were on the road, members of the Armenian armed formations opened fire on the ambulance. One of the bullets struck the vehicle’s front right tyre, passed into the cabin and injured him in the knee region.

He immediately removed the wounded servicemen from the vehicle and took them to a safe area approximately 500 metres away. He handed them over to the chief of service of Military Unit No. “N,” Major **Qafur Hasanov**.

He and the wounded servicemen were taken to the medical aid station of Military Unit No. "N," then sent to a hospital in the Kalbajar district. Thereafter, he was sent to Military Hospital No. "N" in the city of Ganja, and subsequently to the military hospital of the Border Troops, where he underwent inpatient treatment for **one year and 15 days**.

He stated that the terrain in which they were located during the incident was somewhat hilly, mountainous and rocky. In some places, the distance between the positions of the Armenian servicemen and the position occupied by them at the time of the incident was one kilometre, in other places 500 metres, and in some places 30 metres.

The testimony given during the preliminary investigation by the victim **Rustamli Parviz Ikhtiyar oglu** was read out in court. In that testimony, he stated that on **16 November 2021**, they split into groups and took up positions at various posts.

At that time, three representatives of the Russian peacekeeping forces were present on the road at the junction of Posts Nos. 39 and 40. One of those peacekeepers, who held the rank of colonel, spoke with the intelligence chief of Military Unit No. "N," Major **Azer Humbatov**; however, the peacekeepers were not permitted to enter the area.

The peacekeeper holding the rank of colonel then entered a vehicle and proceeded towards the positions of the Armenian armed formations. Approximately ten minutes later, Combat Posts Nos. 39 and 40 came under fire from members of Armenian armed formations using tracer incendiary bullets, mortars and anti-tank projectiles.

At that time, a shell fell approximately five to six metres away from him and exploded. The force of the explosion knocked him to the ground, and he sustained barotrauma.

He was subsequently taken to the medical aid station of Military Unit No. "N," then sent to Military Hospital No. "N" in the city of Ganja, and thereafter to the Main Clinical Military Hospital in Baku.

He stated that the terrain in which they were located during the incident was somewhat hilly, mountainous and rocky. In some places, the distance between the positions of the Armenian servicemen and the position occupied by them at the time of the incident was one kilometre, in other places 500 metres, and in some places 30 metres.

The testimony given during the preliminary investigation by the victim **Jafarli Rasim Oruj oglu** was read out in court. In that testimony, he stated that on **16 November 2021**, they split into groups and took up positions at various posts. They attempted to reinforce Combat Post No. 40.

At that time, three representatives of the Russian peacekeeping forces were present on the road at the junction of Posts Nos. 39 and 40. One of those peacekeepers, who held the rank of colonel, spoke with the intelligence chief of Military Unit No. "N," Major **Azer Humbatov**; however, the peacekeepers were not permitted to enter the area.

The peacekeeper holding the rank of colonel then entered a vehicle and proceeded towards the positions of the Armenian armed formations. Approximately ten minutes later, Combat Posts Nos. 39 and 40 came under fire from members of Armenian armed formations using tracer incendiary bullets, mortars and anti-tank projectiles.

At that time, a mortar shell fell approximately two to three metres away from him and exploded. The force of the explosion knocked him to the ground, and he sustained barotrauma. He was subsequently taken to the medical aid station of Military Unit No. "N"…

Page 1003

in the city of Ganja, and thereafter to the Main Clinical Military Hospital in Baku.

He stated that the terrain in which they were located during the incident was somewhat hilly, mountainous and rocky. In some places, the distance between the positions of the Armenian servicemen and the position occupied by them at the time of the incident was one kilometre, in other places 500 metres, and in some places 30 metres.

The testimony given during the preliminary investigation by the victim **Manafli Madat Elbrus oglu** was read out in court. In that testimony, he stated that on **16 November 2021**, he saw three representatives of the Russian peacekeeping forces speaking with the intelligence chief of Military Unit No. "N," Major **Azer Humbatov**. After the peacekeepers had spoken with him for approximately 35–40 minutes, they left the area.

Major Azer Humbatov ordered them to take up positions. Approximately 20 minutes later, the combat posts came under fire from members of Armenian armed formations using tracer incendiary bullets, mortars and anti-tank projectiles.

First, an anti-tank rocket fired by the Armenian armed formations struck a **KamAZ** vehicle belonging to Military Unit No. "N," and then a specialised armoured personnel carrier belonging to Military Unit No. "N."

At that time, a shell fell nearby and exploded. As a result of the explosion, he sustained barotrauma, a closed blunt injury to the spinal column and an uncomplicated, stable compression fracture of the body of the **L2 vertebra**. He saw that **Namiq Alizada** and **Elsevar Qadirov**, who were serving with him, had also been injured.

He stated that the terrain in which they were located during the incident was somewhat hilly, mountainous and rocky. In some places, the distance between the positions of the Armenian servicemen and the position occupied by them at the time of the incident was three to four kilometres, in other places 500 metres, and in some places 100–150 metres.

The testimony given during the preliminary investigation by the victim **Qadirov Elsevar Elkhan oglu** was read out in court. In that testimony, he stated that on **16 November 2021**, acting as a driver, he transported personnel in a **KamAZ**vehicle to Combat Position No. 39.

At that time, he saw three representatives of the Russian peacekeeping forces speaking with the intelligence chief of Military Unit No. “N,” Major **Azer Humbatov**. After the peacekeepers had spoken with him for approximately 35–40 minutes, they left the area.

Major Azer Humbatov ordered them to take up positions. Approximately 20 minutes later, the combat posts came under fire from members of Armenian armed formations using tracer incendiary bullets, mortars and anti-tank projectiles.

First, an anti-tank rocket fired by the Armenian armed formations struck the **KamAZ** vehicle belonging to Military Unit No. “N,” and then a specialised armoured personnel carrier belonging to Military Unit No. “N.”

At that time, a shell fell nearby and exploded. As a result of the explosion, he sustained a closed craniocerebral trauma and a crushing injury to his left foot. He saw that **Namiq Alizada** and **Madat Manafli**, who were serving with him, had also been injured.

He stated that the terrain in which they were located during the incident was somewhat hilly, mountainous and rocky. In some places, the distance between the positions of the Armenian servicemen and the position occupied by them at the time of the incident was three to four kilometres, in other places 500 metres, and in some places 100–150 metres.

The testimony given during the preliminary investigation by the victim **Almasov Nurlan Nabil oglu** was read out in court. In that testimony, he stated that on **16 November 2021**, they split into groups and took up positions at various posts. They attempted to reinforce Combat Post No. 40.

At that time, three representatives of the Russian peacekeeping forces were present on the road at the junction of Posts Nos. 39 and 40. One of those peacekeepers, who held the rank of colonel, spoke with the intelligence chief of Military Unit No. “N,” Major **Azer Humbatov**; however, the peacekeepers were not permitted to enter the area.

The peacekeeper holding the rank of colonel then entered a vehicle and proceeded towards the positions of the Armenian armed formations. Approximately ten minutes later, Combat Posts No. 39 and 40

Page 1004

came under fire from members of Armenian armed formations using tracer incendiary bullets, mortars and anti-tank projectiles.

At that time, a mortar shell fell approximately two to three metres away from him and exploded. The shell fragments struck the helmet on his head and the automatic weapon in his hands, causing the automatic weapon to fall into an unusable condition.

After the firing ceased, he was taken to the medical aid station of Military Unit No. “N,” then sent to Military Hospital No. “N” in the city of Ganja, and thereafter brought to the Main Clinical Military Hospital in Baku.

He stated that the terrain in which they were located during the incident was somewhat hilly, mountainous and rocky. In some places, the distance between the positions of the Armenian servicemen and the position occupied by them at the time of the incident was one kilometre, in other places 500 metres, and in some places 30 metres.

The testimony given during the preliminary investigation by the victim **Shikhaliyev Nurali Nuri oglu** was read out in court. In that testimony, he stated that on **16 November 2021**, they split into groups and took up positions at various posts. They attempted to reinforce Combat Post No. 40.

At that time, three representatives of the Russian peacekeeping forces were present on the road at the junction of Posts Nos. 39 and 40. One of those peacekeepers, who held the rank of colonel, spoke with the intelligence chief of Military Unit No. “N,” Major **Azer Humbatov**; however, the peacekeepers were not permitted to enter the area.

The peacekeeper holding the rank of colonel then entered a vehicle and proceeded towards the positions of the Armenian armed formations. Approximately ten minutes later, Combat Posts Nos. 39 and 40 came under fire from members of Armenian armed formations using tracer incendiary bullets, mortars and anti-tank projectiles.

At that time, a mortar shell fell approximately two to three metres away from him and exploded. As a result of the explosion, he temporarily experienced hearing problems.

After the firing ceased, he was taken to the medical aid station of Military Unit No. “N” and then sent to Military Hospital No. “N” in the city of Ganja, where he was examined.

He stated that the terrain in which they were located during the incident was somewhat hilly, mountainous and rocky. In some places, the distance between the positions of the Armenian servicemen and the position occupied by them at the time of the incident was one kilometre, in other places 500 metres, and in some places 30 metres.

The testimony given during the preliminary investigation by the victim **Akhundov Mazahir Alim oglu** was read out in court. In that testimony, he stated that on **16 November 2021**, they split into groups and took up positions at various posts. They attempted to reinforce Combat Post No. 40.

At that time, three representatives of the Russian peacekeeping forces were present on the road at the junction of Posts Nos. 39 and 40. One of those peacekeepers, who held the rank of colonel, spoke with the intelligence chief of Military Unit No. “N,” Major **Azer Humbatov**; however, the peacekeepers were not permitted to enter the area.

The peacekeeper holding the rank of colonel then entered a vehicle and proceeded towards the positions of the Armenian armed formations. Approximately ten minutes later, Combat Posts Nos. 39 and 40 came under fire from members of Armenian armed formations using tracer incendiary bullets, mortars and anti-tank projectiles.

At that time, a mortar shell fell approximately two to three metres away from him and exploded. The blast wave first affected his lower back and then his ear region, causing his ears to become blocked and small wounds to form on his back.

At that time, the servicemen beside him—**Roman Teyyubzada, Hikmat Abdullayev, Isgandar Adigozalov and Sakhavat Aliyev**—were seriously wounded. Together with **Elgun Mammadli**, he placed them on an open stretcher so that the medical vehicle could collect them.

The military medical vehicle that arrived to assist the wounded was also fired upon, and the doctor of the 4th Battalion of Military Unit No. "N," who was in that vehicle, was wounded in the leg.

After the firing ceased, he was taken to the medical aid station of Military Unit No. "N," then to Military Hospital No. "N" in the city of Ganja, thereafter to a hospital in the Shamkir district, and then to the Main Clinical Military Hospital in Baku. He was subsequently sent back to Military Hospital No. "N" in Ganja,

Page 1005

where he underwent inpatient treatment for 14 days with a diagnosis of a spinal hernia.

He stated that the terrain in which they were located during the incident was somewhat hilly, mountainous and rocky. In some places, the distance between the positions of the Armenian servicemen and the position occupied by them at the time of the incident was one kilometre, in other places 500 metres, and in some places 30 metres.

The testimony given during the preliminary investigation by the victim **Nasibov Elmaddin Nariman oglu** was read out in court. In that testimony, he stated that on **16 November 2021**, they split into groups and took up positions at various posts. They attempted to reinforce Combat Post No. 40.

At that time, three representatives of the Russian peacekeeping forces were present on the road at the junction of Posts Nos. 39 and 40. One of those peacekeepers, who held the rank of colonel, spoke with the intelligence chief of Military Unit No. "N," Major **Azer Humbatov**; however, the peacekeepers were not permitted to enter the area.

The peacekeeper holding the rank of colonel then entered a vehicle and proceeded towards the positions of the Armenian armed formations. Approximately ten minutes later, Combat Posts Nos. 39 and 40 came under fire from members of Armenian armed formations using tracer incendiary bullets, mortars and anti-tank projectiles.

At that time, a mortar shell fell approximately five to six metres away from him and exploded. The blast wave knocked him to the ground, as a result of which he sustained barotrauma.

At that time, the servicemen beside him—**Tabriz Mamizada, Roman Teyyubzada, Hikmat Abdullayev, Isgandar Adigozalov and Sakhavat Aliyev**—were also wounded.

He was subsequently taken to the medical aid station of Military Unit No. "N," then to Military Hospital No. "N" in the city of Ganja, and thereafter to a hospital in the Shamkir district, where he was examined.

He stated that the terrain in which they were located during the incident was somewhat hilly, mountainous and rocky. In some places, the distance between the positions of the Armenian servicemen and the position occupied by them at the time of the incident was one kilometre, in other places 500 metres, and in some places 30 metres.

The testimony given during the preliminary investigation by the victim **Hasanov Zamiq Namiq oglu** was read out in court. In that testimony, he stated that on **16 November 2021**, they split into groups and took up positions at various posts. They attempted to reinforce Combat Post No. 40.

At that time, three representatives of the Russian peacekeeping forces were present on the road at the junction of Posts Nos. 39 and 40. One of those peacekeepers, who held the rank of colonel, spoke with the intelligence chief of Military Unit No. "N," Major **Azer Humbatov**; however, the peacekeepers were not permitted to enter the area.

The peacekeeper holding the rank of colonel then entered a vehicle and proceeded towards the positions of the Armenian armed formations. Approximately ten minutes later, Combat Posts Nos. 39 and 40 came under fire from members of Armenian armed formations using tracer incendiary bullets, mortars and anti-tank projectiles.

At that time, a mortar shell fell approximately one to two metres away from him and exploded. As a result of the blast wave, he developed sharp pain in his head, dizziness and a small wound near his ear.

At that time, the servicemen beside him—**Tabriz Mamizada, Roman Teyyubzada, Hikmat Abdullayev, Isgandar Adigozalov and Sakhavat Aliyev**—were also wounded.

As he was the post commander, he remained at that post for ten days. He was then sent to Military Hospital No. "N" in the city of Ganja and thereafter to the Main Clinical Military Hospital in Baku, where he underwent inpatient treatment.

He stated that the terrain in which they were located during the incident was somewhat hilly, mountainous and rocky. In some places, the distance between the positions of the Armenian servicemen and the position occupied by them at the time of the incident was one kilometre, in other places 500 metres, and in some places 30 metres.

The testimony given during the preliminary investigation by the victim **Alizada Namiq Natiq oglu** was read out in court. In that testimony, he stated that on **16 November 2021**, he saw three representatives of the Russian peacekeeping forces speaking with the intelligence chief of Military Unit No. “N,” Major **Azer Humbatov**

Page 1006

—after the peacekeepers spoke with them for approximately 35–40 minutes, they left the area. **Major Azar Humbatov** ordered them to take positions. Approximately 20 minutes later, the combat posts were fired upon by members of Armenian armed formations using incendiary bullets, mortars, and anti-tank shells. First, a rocket fired by the Armenian armed formations struck the **KAMAZ** vehicle of Military Unit No. “N”; after that, an armored personnel carrier belonging to Military Unit No. “N” was hit. At that moment, a shell fell and exploded near him, and as a result of the explosion he sustained an injury to the jaw area. At that time, he saw that **Vugar Aliyev** and **Elsevar Gadirov**, who were serving in the same place as him, had also been injured. He stated that because the terrain of the area where the incident occurred was somewhat hilly and mountainous-rocky, in some places there was a distance of 3–4 kilometers, in some places 500 meters, and in some places 100–150 meters between the positions of the Armenian servicemen and the position where they were located when the incident occurred.

The statement given by the victim **Vugar Eldar oglu Aliyev** at the preliminary investigation was announced in court. In his statement he indicated that on 16 November 2021 he saw three Russian peacekeeping representatives speaking with **Major Azar Humbatov**, the reconnaissance chief of Military Unit No. “N”. After the peacekeepers spoke with them for approximately 35–40 minutes, they left the area. **Major Azar Humbatov** ordered them to take positions.

Approximately 20–25 minutes later, the combat posts were fired upon by members of Armenian armed formations using incendiary bullets, mortars, and anti-tank shells. First, a rocket fired by the Armenian armed formations struck the **KAMAZ** vehicle of Military Unit No. “N”; after that, an armored personnel carrier belonging to Military Unit No. “N” was hit. At that moment, a shell fell and exploded near him. As a result of the explosion, he sustained barotrauma, a closed blunt spinal cord injury, an uncomplicated stable compression fracture of the body of the L2 vertebra. At that time, he saw that **Namik Alizade** and **Elsevar Gadirov**, who were serving in the same place as him, had also been injured. He stated that because the terrain of the area where the incident occurred was somewhat hilly and mountainous-rocky, in some places there was a distance of 3–4 kilometers, in some places 500 meters, and in some places 100–150 meters between the positions of the Armenian servicemen and the position where they were located when the incident occurred.

The statement given by the victim **Royal Heydar oglu Nuruyev** at the preliminary investigation was announced in court. In his statement he indicated that on 16 November

2021 they were divided and took positions at various posts. They went up to reinforce combat post No. 40. At that time, there were three Russian peacekeeping representatives on the road at the intersection of posts Nos. 39 and 40. Of those peacekeepers, the one holding the rank of colonel spoke with **Major Azar Humbatov**, the reconnaissance chief of Military Unit No. "N"; however, the peacekeepers were not allowed to enter the area. After that, the peacekeeper with the rank of colonel got into a vehicle and moved toward the positions of the Armenian armed formations.

Approximately 10 minutes later, combat posts Nos. 39 and 40 were fired upon by members of Armenian armed formations using incendiary bullets, mortars, and anti-tank shells. At that moment, a mortar shell fell and exploded 5–6 meters away from him. Under the effect of the blast wave, noise appeared in his ear. At that time, the servicemen near him — **Tabriz Mamizade**, **Roman Teyyubzade**, **Hikmat Abdullayev**, **Isgandar Adigozalov**, and **Sakhavat Aliyev** — were also wounded. After the fighting stopped, the next day he was evacuated to the medical point of Military Unit No. "N", from there to Military Hospital No. "N" located in **Ganja**, then to the **Central Clinical Hospital** located in **Baku**, where he was prescribed outpatient treatment for three months; he also received inpatient treatment for 11 days at Military Hospital No. "N" located in **Ganja**. He stated that because the terrain of the area where the incident occurred was somewhat hilly and mountainous-rocky, in some places there was a distance of 1 kilometer, in some places 500 meters, and in some places—

Page 1007

—30 meters between the positions of the Armenian servicemen and the position where they were located when the incident occurred.

The statement given by the victim **Roman Ramiz oglu Teyyubzade** at the preliminary investigation was announced in court. In his statement he indicated that on 16 November 2021 they were divided and took positions at various posts. At that time, there were three Russian peacekeeping representatives on the road at the intersection of posts Nos. 39 and 40. Of those peacekeepers, the one holding the rank of colonel spoke with **Major Azar Humbatov**, the reconnaissance chief of Military Unit No. "N"; however, the peacekeepers were not allowed to enter the area. After that, the peacekeeper with the rank of colonel got into a vehicle and moved toward the positions of the Armenian armed formations.

Approximately 10 minutes later, combat posts Nos. 39 and 40 were fired upon by members of Armenian armed formations using incendiary bullets, mortars, and anti-tank shells. At that moment, a shell fell and exploded near him. The force of the explosion threw him to the ground, and he sustained shrapnel wounds to the face, left arm, left eye, throat, left knee, and lower leg areas. He regained consciousness at Military Hospital No. "N" located in **Ganja**, after which he was evacuated to the **Central Clinical Hospital**, where he received inpatient treatment for two months. He stated that because the terrain of the area where the incident occurred was somewhat hilly and mountainous-rocky, in some places there was a distance of 1 kilometer, in some places 500 meters, and in some places 30 meters between the positions

of the Armenian servicemen and the position where they were located when the incident occurred.

The statement given by the victim **Asiman Ganimat oglu Khuduzade** at the preliminary investigation was announced in court. In his statement he indicated that on 16 November 2021 they were divided and took positions at various posts. At that time, there were three Russian peacekeeping representatives on the road at the intersection of posts Nos. 39 and 40. Of those peacekeepers, the one holding the rank of colonel spoke with **Major Azar Humbatov**, the reconnaissance chief of Military Unit No. "N"; however, the peacekeepers were not allowed to enter the area. After that, the peacekeeper with the rank of colonel got into a vehicle and moved toward the positions of the Armenian armed formations.

Approximately 10 minutes later, combat posts Nos. 39 and 40 were fired upon by members of Armenian armed formations using incendiary bullets, mortars, and anti-tank shells. At that moment, a shell fell and exploded near him. The force of the explosion threw him against nearby pieces of wood; as a result, his vision darkened, he felt dizzy, and he could not get up from where he was. On 17 November 2021, because of his injury, he applied to the medical point of Military Unit No. "N"; on 18 November 2021, he came to Military Unit No. "N", and later, after being examined at Military Hospital No. "N" located in **Ganja**, he was sent to the **Central Clinical Hospital**. He stated that because the terrain of the area where the incident occurred was somewhat hilly and mountainous-rocky, in some places there was a distance of 1 kilometer, in some places 500 meters, and in some places 30 meters between the positions of the Armenian servicemen and the position where they were located when the incident occurred.

The statement given by the victim **Isgandar Nizami oglu Adigozalov** at the preliminary investigation was announced in court. In his statement he indicated that on 16 November 2021 they were divided and took positions at various posts. At that time, there were three Russian peacekeeping representatives on the road at the intersection of posts Nos. 39 and 40. Of those peacekeepers, the one holding the rank of colonel spoke with **Major Azar Humbatov**, the reconnaissance chief of Military Unit No. "N"; however, the peacekeepers were not allowed to enter the area. After that, the peacekeeper with the rank of colonel got into a vehicle and moved toward the positions of the Armenian armed formations.

Approximately 10 minutes later, combat posts Nos. 39 and 40 were fired upon by members of Armenian armed formations using incendiary bullets, mortars, and anti-tank shells. At that moment, a shell fell and exploded near him. The force of the explosion threw him to the ground, as a result of which his left leg was dislocated in the ankle area—

—he sustained shrapnel wounds to the knee and back areas, and, because he had also sustained a craniocerebral injury, blood came from his mouth. At that time, soldier **Murad Khalilov** of Military Unit No. "N" was killed. The medical vehicle that came to assist the wounded servicemen was also hit by members of Armenian armed formations while

evacuating them; as a result, the doctor of the 4th battalion of Military Unit No. “N” was also wounded. Later, he and the other wounded were evacuated to the medical point of Military Unit No. “N”.

The statement given by the victim **Sakhavat Rizvan oglu Aliyev** at the preliminary investigation was announced in court. In his statement he indicated that on 16 November 2021 they were divided and took positions at various posts. At that time, there were three Russian peacekeeping representatives on the road at the intersection of posts Nos. 39 and 40. Of those peacekeepers, the one holding the rank of colonel spoke with **Major Azar Humbatov**, the reconnaissance chief of Military Unit No. “N”; however, the peacekeepers were not allowed to enter the area. After that, the peacekeeper with the rank of colonel got into a vehicle and moved toward the positions of the Armenian armed formations.

Approximately 10 minutes later, combat posts Nos. 39 and 40 were fired upon by members of Armenian armed formations using incendiary bullets, mortars, and anti-tank shells. At that moment, a shell fell and exploded near him. The force of the explosion threw him to the ground, as a result of which he sustained shrapnel wounds to the right hand and left shoulder areas, as well as a craniocerebral injury. At that time, soldier **Murad Khalilov** of Military Unit No. “N” was killed. The medical vehicle that came to assist the wounded servicemen was also hit by members of Armenian armed formations while evacuating them; as a result, the doctor of the 4th battalion of Military Unit No. “N” was also wounded. Later, he and the other wounded were evacuated to the medical point of Military Unit No. “N”. He was then evacuated to Hospital No. “N”, and later to the **Central Clinical Hospital**, where he received inpatient treatment for one month.

The statement given by the victim **Kamran Eyvaz oglu Kazimov** at the preliminary investigation was announced in court. In his statement he indicated that on the morning of 15 November 2021, on the instructions of the military unit command, he, together with **Captain Elnur Pashayev**, who served in the same military unit as him, **Lieutenant Robert Ramazanov**, Warrant Officer **Feyzi Mustafayev**, and others, was sent to a village in **Kalbajar District** whose name he did not know. After staying there for one day, on the morning of 16 November 2021, they were sent to one of the posts of Military Unit No. “N” located in a village of **Lachin District** whose name he did not know.

The command instructed him and his comrades-in-arms to conduct negotiations with the members of Armenian armed formations located in that area, within the borders of the Republic of Azerbaijan, and to secure their withdrawal from their positions; if they resisted, they were to disarm them and hand them over to the command. For this reason, with a 25-person personnel group under the leadership of **Captain Elnur Pashayev**, they approached the positions of the Armenian armed formations. As a result of the dialogue between **Captain Elnur Pashayev** and the 13–14 members of the Armenian armed formations who were at that position, the members of the Armenian armed formations sharply objected to leaving their positions. A hand-to-hand fight began between the parties.

He grabbed the automatic rifle of the member of the Armenian armed formation standing in front of him and, because that person resisted, struck him in the face with his fist. That person fell to the ground but did not release the weapon from his hands. The serviceman of the Armenian armed formation who had fallen to the ground opened fire from the automatic rifle; the fired bullet hit him in the abdomen area, but because he was wearing a bulletproof vest, he did not sustain a serious injury. However, because the bullet hit the metal part of the bulletproof vest, the metal fragmented and injured his abdominal cavity. One of his comrades-in-arms who was nearby opened fire and neutralized that member of the Armenian armed formation, while another comrade-in-arms neutralized another serviceman who was offering armed resistance. After that, the members of the Armenian armed formations handed over their weapons—

Page 1009

—handed over their weapons and surrendered. At that time, they loaded one member of the Armenian armed formation alive, and the body of another, together with weapons and ammunition, onto a **KAMAZ** vehicle and brought them to **Kalbajar District**, where they handed them over to the command.

The statement given by the victim **Ibrahim Hasan oglu Aliyev** at the preliminary investigation was announced in court. In his statement he indicated that on 16 November 2021, while he and his fellow servicemen were at combat post No. 42, both their post and another combat post, whose name he did not know and which was located 70 meters away from them near a stream, were fired upon using incendiary bullets, mortars, and anti-tank shells. At that time, approximately 100 members of Armenian armed formations attacked the post where they were located. At that moment, an **RQD-7** shell fell 1–2 meters away from him, and the force of the explosion threw him aside.

The statement given by the victim **Huseyn Rovshan oglu Mehdiyev** at the preliminary investigation was announced in court. In his statement he indicated that on 16 November 2021, at about 12:00–13:00, members of Armenian armed formations began opening fire with incendiary bullets, mortars, and anti-tank shells toward posts Nos. 39 and 40, as well as toward post No. 42, where they were located. At that time, the command at post No. 42 was exercised by the battalion headquarters chief, Captain **Khagani Aliyev**. At that moment, two mortar shells fell and exploded near him, as a result of which he sustained “blast trauma, bilateral ear barotrauma, and closed craniocerebral trauma.” He was then sent to the medical point of Military Unit No. “N”, then to the hospital located in **Kalbajar District**, then to Military Hospital No. “N” located in **Ganja**, and after that to the **Central Clinical Hospital** located in **Baku**. He stated that because the terrain of the area where the incident occurred was somewhat hilly and mountainous-rocky, in some places there was a distance of 1 kilometer, in some places 500 meters, and in some places 30 meters between the positions of the Armenian servicemen and the position where they were located when the incident occurred. At that time, soldiers **Rahim Shahverdiyev** and **Hasan Aliyev**, who were serving with him in the same place, were also injured.

The statement given by the victim **Gulu Isakhan oglu Guliyev** at the preliminary investigation was announced in court. In his statement he indicated that on 16 November 2021, at about 12:00, members of Armenian armed formations began opening fire toward posts Nos. 39 and 40 using incendiary bullets, mortars, and anti-tank shells. At that moment, a mortar shell fell and exploded near him, as a result of which he sustained "blast trauma, a blind shrapnel wound to the left forearm, and a shrapnel wound of the soft tissues of the chest." He was then sent to the medical point of Military Unit No. "N", and from there to the hospital located in **Kalbajar District**.

The statement given by the victim **Sanan Famil oglu Farzaliyev** at the preliminary investigation was announced in court. In his statement he indicated that on 16 November 2021, close to midday, while he was inside a **KAMAZ** vehicle with military registration number **J 229 QQ**, which he was driving, and while moving toward the positions, members of Armenian armed formations hit the vehicle he was driving with an anti-tank rocket. He sustained "blast trauma, closed craniocerebral trauma, concussion, and a blunt shrapnel wound to the soft tissues of the forehead." He was sent first to the hospital located in **Kalbajar District**, then to Military Hospital No. "N" located in **Ganja**, and after that to the military hospital located in **Baku**. At the time of the incident, Senior Warrant Officer **Boyukkishi Huseynov**, Junior Warrant Officer **Elchin Hasanov**, and soldier **Ravan Tahmazov**, who were in the vehicle, also sustained injuries of varying severity.

The statement given by the victim **Rahim Sadraddin oglu Shahverdiyev** at the preliminary investigation was announced in court. In his statement he indicated that on 16 November 2021, at about 11:00, while observing the positions of the Armenian armed formations through binoculars, he saw a person dressed in the uniform of Russian peacekeepers arrive by vehicle, get the servicemen who were there out of the vehicle, and give them instructions. After that person—

Page 1010

—got out of the vehicle and left, members of the Armenian armed formations advanced on foot toward their positions, after which they began opening fire toward their posts using incendiary bullets, mortars, and anti-tank shells. When the shooting began, an **RPG-7** shell fell near him, and at that time he sustained an injury to his right hand. He was then sent to the medical point of Military Unit No. "N", then to the hospital located in **Kalbajar District**, then to Military Hospital No. "N" located in **Ganja**, and after that to a military hospital located in **Baku**, where he received inpatient treatment for 20 days.

The statement given by the victim **Jafar Gurban oglu Malikov** at the preliminary investigation was announced in court. In his statement he indicated that on 16 November 2021, at about 11:00, while observing the positions of the Armenian armed formations through binoculars, he saw a person dressed in the uniform of Russian peacekeepers arrive by vehicle, get the servicemen who were there out of the vehicle, and give them instructions. After that person left the vehicle and departed, members of the Armenian armed formations

advanced on foot toward their positions, after which they began opening fire toward their posts using incendiary bullets, mortars, and anti-tank shells.

When the shooting began, he jumped into a trench at the post and fired toward the opposite side with a machine gun mounted on a tripod. At that moment, a shell fell near him; he saw blood coming from his nose and, at that time, sustained injuries to his nose and the left temporal area. He was then sent to the medical point of Military Unit No. "N", then to the hospital located in **Kalbajar District**, then to Military Hospital No. "N" located in **Ganja**, and after that to the military hospital located in **Baku**, where he received inpatient treatment for one month.

The statement given by the victim **Gafur Jamaladdin oglu Hasanov** at the preliminary investigation was announced in court. In his statement he indicated that on 16 November 2021, close to midday, while he was moving by vehicle toward the area called **Kilsali**, near the village of **Bozlu** in **Lachin District**, where the 4th battalion — his place of service — was deployed, the deputy commander of the 4th Army Corps contacted him by radio and said that in **Lachin District**, near the village of **Minkend**, fierce fighting was taking place between the personnel at posts conditionally numbered 35–42 and members of Armenian armed formations located on the opposite positions. He also stated that there were wounded persons among the personnel and that first medical aid had to be provided to them.

He immediately went to the stated location and, while trying to get out near post conditionally numbered 39, the vehicle they were in came under fire. He and driver **Simran Safarov** got out of the vehicle. At that moment, a shell fell and exploded 4–5 meters away from him. When he came to himself, he saw blood coming from his left ear and realized that he had suffered barotrauma. Despite being wounded, he helped evacuate the wounded servicemen at posts Nos. 39, 40, 41, and 42. He was then sent to the medical point of Military Unit No. "N", then to Hospital No. "N" located in **Kalbajar District**, then to Military Hospital No. "N" located in **Ganja**, and after that to a military hospital located in **Baku**, where he was discharged from service due to health reasons.

The statement given by the victim **Ramin Zohrab oglu Jafarov** at the preliminary investigation was announced in court. In his statement he indicated that on 16 November 2021, close to midday, while he was in the area called **Kilsali** in **Lachin District**, where the 4th battalion, his place of service, was deployed, the command informed them that in **Lachin District**, in the area of the village of **Minkend**, fierce fighting was taking place between the personnel at posts conditionally numbered 35–42 and the Armenian armed formations located on the opposite positions. Since there were wounded persons among the personnel and they needed first medical aid, he was told to go there together with doctor **Muzaffar Jafarov**. He immediately went to the stated place and saw wounded servicemen near post conditionally numbered 41—

—there. To prevent the wounded from losing too much blood, he wanted to put them into the vehicle and quickly move away from the area. At that time, the vehicle came under fire from members of Armenian armed formations, and one of the bullets struck the front right wheel of the vehicle. Doctor **Muzaffar Jafarov**, who was in the vehicle at that time, sustained a bullet wound to the knee area. He got them out of the vehicle and wanted to move to a safe area; at that moment, a shell fell and exploded about 20 meters away from them. The blast impact struck a nearby vehicle, and as a result he suffered severe pain in the back and head areas and lost consciousness.

The statement given by the victim **Elgun Elchin oglu Aslanli** at the preliminary investigation was announced in court. In his statement he indicated that on 16 November 2021, at midday, while at post No. 40, members of Armenian armed formations began opening fire toward their post using incendiary bullets, mortars, and anti-tank shells. At that time, he tried to enter the trench to avoid the fire; one of the fired shells fell and exploded 5 meters away from him. The force of the explosion threw him aside. At that time, he sustained severe pain in the body. In the evening hours, after the fire stopped, he was sent to the medical point of Military Unit No. "N", and from there to the hospital located in **Kalbajar District**.

The statement given by the victim **Vahid oglu Ami Mammadov** at the preliminary investigation was announced in court. In his statement he indicated that on 16 November 2021, at midday, while he was in the vehicle assigned to service together with his comrades-in-arms **Ragib Mirzayev** and others, their location and the positions of Military Unit No. "N" were fired upon by members of Armenian armed formations using incendiary bullets, mortars, and anti-tank shells. At that time, when they got out of the **SandCat** vehicle and wanted to take positions, he heard the military unit commander **Fakhraddin Javadov** say: "A shell is coming, take positions." When he wanted to lie down on the ground, the shell hit the **SandCat** vehicle. The force of the explosion threw him aside; his ears rang, his head became dizzy, and his vision darkened. He was then sent in that condition to the medical point of Military Unit No. "N", and from there to the hospital located in **Kalbajar District**.

The statement given by the victim **Ragib Teyyub oglu Mirzayev** at the preliminary investigation was announced in court. In his statement he indicated that on 16 November 2021, at midday, while he was in the vehicle assigned to service together with his comrades-in-arms **Amil Mammadov** and others, the location and positions of Military Unit No. "N" where they were present were fired upon by members of Armenian armed formations using incendiary bullets, mortars, and anti-tank shells. At that time, when they got out of the **SandCat** vehicle and wanted to take positions, he heard the military unit commander **Fakhraddin Javadov** say: "A shell is coming, take positions." When he wanted to lie down on the ground, the shell hit the **SandCat** vehicle. The force of the explosion threw him aside; his ears rang, his head became dizzy, and his vision darkened. He was then sent in that condition to the medical point of Military Unit No. "N", from there to the hospital located in **Kalbajar District**, and then to Military Hospital No. "N" located in **Ganja**.

The statement given by the victim **Farhad Yasar oglu Ismayilli** at the preliminary investigation was announced in court. In his statement he indicated that on 16 November

2021, at midday, while he was serving at combat post No. 307 in the area called **“4th District”** in **Lachin District**, where Military Unit No. “N” was located for reinforcement purposes, the area where they were located was fired upon by members of Armenian armed formations using incendiary bullets, mortars, and anti-tank shells. At that moment, while he was trying to take the weapon and ammunition from the shelter located at the post, one of the shells fired by members of Armenian armed formations—

Page 1012

—fell and exploded approximately 7–8 meters away from him. The force of the explosion threw him aside; his ears rang, his head became dizzy, and his vision darkened. He was then sent in that condition to the medical point of Military Unit No. “N”, then to the hospital located in **Kalbajar District**, and after that to Military Hospital No. “N” located in **Ganja**.

The statement given by the victim, questioned as a witness, **Elgun Elshan oglu Aliyev**, at the preliminary investigation was announced in court. In his statement he indicated that on 16 November 2021, at midday, while serving for reinforcement purposes at a combat post whose number he did not remember in the area called **“4th District”** in **Lachin District**, where Military Unit No. “N” was located, the area where they were located was fired upon by members of Armenian armed formations using incendiary bullets, mortars, and anti-tank shells. At that time, while he was trying to cross from the trench to the shelter, one of the shells fired by members of Armenian armed formations fell and exploded approximately 50 meters away from him. The force of the explosion threw him aside; his ears rang, his head became dizzy, and his vision darkened. He was then sent in that condition to the medical point of Military Unit No. “N”, then to the hospital located in **Kalbajar District**, and after that to Military Hospital No. “N” located in **Ganja**. Later he was sent to the **Central Clinical Hospital**, and after that he received inpatient treatment for 3–4 days at the medical point of Military Unit No. “N”.

The statement given by the victim, questioned as a witness, **Markaz Jahid oglu Sadigov**, at the preliminary investigation was announced in court. In his statement he indicated that on 16 November 2021, at midday, while serving for reinforcement purposes at a combat post whose number he did not remember in the area called **“4th District”** in **Lachin District**, where Military Unit No. “N” was located, the area where they were located was fired upon by members of Armenian armed formations using incendiary bullets, mortars, and anti-tank shells. In the evening hours that day, one of the shells fired by members of Armenian armed formations fell and exploded approximately 7–8 meters away from him. The force of the explosion threw him aside; his ears rang, his head became dizzy, and his vision darkened. He was then sent in that condition to the medical point of Military Unit No. “N”, then to the hospital located in **Kalbajar District**, and after that to Military Hospital No. “N” located in **Ganja**. Later he was sent to the hospital located in **Kalbajar District**, where he received inpatient treatment for one day. He stated that because the terrain of the area where the incident occurred was somewhat hilly and mountainous-rocky, in some places there was a distance of 1 kilometer, in some places 500 meters, and in some places 30 meters between the

positions of the Armenian servicemen and the position where they were located when the incident occurred.

The statement given by the victim **Oruj Nabi oglu Huseynov** at the preliminary investigation was announced in court. In his statement he indicated that on 16 November 2021, at midday, while at the post, members of Armenian armed formations began opening fire toward their posts using incendiary bullets, mortars, and anti-tank shells. When they lay down in the trench and tried to avoid the fire, a mortar shell fell near them. At that time, he sustained shrapnel wounds to the back and leg areas, underwent treatment for the injuries he received in a military hospital located in **Ganja**, and additionally received inpatient treatment for two months in the psychiatric department located in **Shaki**. He stated that because the terrain of the area where the incident occurred was somewhat hilly and mountainous-rocky, in some places there was a distance of 1 kilometer, in some places 500 meters, and in some places 30 meters between the positions of the Armenian servicemen and the position where they were located when the incident occurred.

Page 1013

The statement given by the victim **Gabil Habil oglu Yusifov** at the preliminary investigation was announced in court. In his statement he indicated that on 16 November 2021, at midday, while he was at the post, members of Armenian armed formations began opening fire toward their posts using incendiary tracer bullets, mortars, and anti-tank shells. He crouched down near the place where firewood was stacked at the post and tried to take position. At that time, fog descended over the place where they were located. After the fog cleared, he saw members of Armenian armed formations coming toward their position and opened fire in their direction. At that moment, while trying to remove his wounded comrade-in-arms **Emin Alizade** from the area, he himself sustained a gunshot wound to the back. He received treatment for the injury at a military hospital, and later completed his service and was discharged from the army.

The statement given by the victim **Murad Tahir oglu Naghiyev** at the preliminary investigation was announced in court. In his statement he indicated that they had reported the concentration of a large number of manpower and equipment. On 16 November 2021, at approximately 11:00, while he was at the post, members of Armenian armed formations began opening fire toward their posts using incendiary tracer bullets, mortars, and anti-tank shells. When he saw a shell fall in front of the trench where he was located and tried to change his position, he felt pain in his head and saw blood coming from his head area. In the evening hours, after the sound of fire stopped, he was sent to the medical point of Military Unit No. “N”, and from there to the hospital located in **Kalbajar District**. Later he was sent to Military Hospital No. “N” located in **Ganja**, but there he was told that performing surgery on the head area was dangerous, and the fragment remained in his head. Later he heard that his comrade-in-arms **Elchin Aghayev** had been killed.

The statement given by the victim **Murad Bakhtiyar oglu Gulaliyev** at the preliminary investigation was announced in court. In his statement he indicated that on 16 November 2021, at about 11:00, while he was at the post, members of Armenian armed formations began opening fire toward their posts using incendiary tracer bullets, mortars, and anti-tank shells. At that time, he opened return fire with the **PK** weapon assigned to him. His fellow soldier **Eltaj Hasanov**, who was next to him, also opened return fire with the automatic rifle he had. Since the ammunition in the magazine had run out, while he was trying to attach a second ammunition box to the weapon, a mortar shell fell in front of him. When he came to himself, he learned that he had sustained injuries to the chest, head, and left side of the leg area. He was then sent to the medical point of Military Unit No. "N", from there to the hospital located in **Kalbajar District**, then to Military Hospital No. "N" located in **Ganja**, and later to a military hospital located in **Baku**, where he received inpatient treatment for five months. He stated that because the terrain of the area where the incident occurred was somewhat hilly and mountainous-rocky, in some places there was a distance of 1 kilometer, in some places 500 meters, and in some places 30 meters between the positions of the Armenian servicemen and the position where they were located when the incident occurred.

The statement given by **Samir Sahib oglu Aliyev**, the legal successor of the victim, at the preliminary investigation was announced in court. In his statement he indicated that in 2002 he married **Aynur Israfil gizi Aliyeva**, and from their marriage they had one daughter and one son. **Elmin Alizade** was their only son. In April 2021, his son **Elmin** was called up for compulsory active military service by the **Aghdam District Department of the State Service for Mobilization and Conscription**, and was first sent to serve in Military Unit No. "N" of the Ministry of Defense, and later to another military unit of the Ministry of Defense. On 17 November 2021, while he was in the city of **Mingachevir**, where he lived, he was informed that his son **Elmin** had died after sustaining injuries during an attack by Armenian armed formations on 16 November 2021 in the **Lachin–Kalbajar** direction. On that same day, the body of his son **Elmin Alizade** was brought to **Mingachevir**, where they lived, and **Elmin Alizade** was buried in the **Alley of Martyrs** in **Mingachevir**—

Page 1014

—city. During the period of his service, his son **Elmin** had never complained about the military unit where he served or about the personnel of that military unit; on the contrary, he had always been proud of serving in the military.

The statement given by **Zulfiyya Mammad-yar gizi Jabbarova**, the legal successor of the victim, at the preliminary investigation was announced in court. In her statement she indicated that her son **Orkhan Jabbarov** was called up for military service in July 2013, served in the rank of soldier in Military Unit No. "N" of the Ministry of Defense, and later continued his service as a warrant officer in Military Unit No. "N", being sent to **Lachin District**. On the morning of 17 November 2021, her husband **Hatam Jabbarov** came home and informed her that their son **Orkhan** had died on 16 November 2021 as a result of fire opened by Armenian armed formations. On 18 November 2021, the body of her son **Orkhan**

was buried in the **Alley of Martyrs** located in **Guba District**. During the period of his service, **Orkhan** had never complained about the military unit where he served or about the personnel of that military unit; on the contrary, he had always been proud of serving in the military.

The statement given by **Oruc Mirzammad oglu Niftaliyev**, the legal successor of the victim, at the preliminary investigation was announced in court. In his statement he indicated that **Umud Niftaliyev** was his biological son. His son **Umud** completed his education in August 2021 and received the military rank of lieutenant. Two months later he was sent to Military Unit No. "N" of the Ministry of Defense located in **Lachin District**, and, as far as he knew, served in that military unit as a platoon commander. On 17 November 2021, at about 08:00, he was informed that his son **Umud** had been killed. Later he learned that his son **Umud** had been killed on 16 November 2021 in **Lachin District**. On 18 November 2021, the body of his son **Umud** was handed over to them, and the body of his son **Umud** was buried in the cemetery of the village of **Nehram**, **Babak District**, **Nakhchivan Autonomous Republic**. During the period of his service, his son **Umud** had never complained about the military unit where he served or about the personnel of that military unit; on the contrary, he had always been proud of serving in the military.

The statement given by **Galib Rajab oglu Khalilov**, the legal successor of the victim, at the preliminary investigation was announced in court. In his statement he indicated that **Murad Khalilov** was his biological son. On the early morning of 17 November 2021, the settlement executive representative's office informed him that his son **Murad** had died on 16 November 2021 as a result of fire opened by Armenian armed formations. On 18 November 2021, the body of his son **Murad** was buried in the **Alley of Martyrs** located in the settlement of **Chinarli**, **Shamkir District**. During the period of his service, his son **Murad** had never complained about the military unit where he served or about the personnel of that military unit; on the contrary, he had always been proud of serving in the military.

The statement given by **Aligardash Ashurali oglu Aliyev**, the legal successor of the victim, at the preliminary investigation was announced in court. In his statement he indicated that **Elchin Ramil oglu Aliyev** was his biological son. **Elchin** was called up for active military service in April 2021, sent to Military Unit No. "N" of the Ministry of Defense, and later, as part of the military unit, was sent to continue his service in an area located in the direction of **Kalbajar District**. On 17 November 2021, at approximately 04:00 at night, he received a call from the military unit where his son **Elchin** served and was told that his son **Elchin** had been wounded and taken to a hospital in **Ganja**. On 17 November 2021, while he was in **Ganja**, he received the news that his son **Elchin** had died during fighting that had occurred the day before. On that same day, his son **Elchin** was buried in the **Alley of Martyrs** located in the city of **Shirvan**. During the period of his service, his son **Elchin** had never complained about the military unit where he served or about the personnel of that military unit; on the contrary, he had always been proud of serving in the military.

The statement given by **Emil Mardan oglu Aliyev**, questioned as a witness at the preliminary investigation, was announced in court. In his statement he indicated that—

—on 16 November 2021, at approximately 16:00, an armed clash occurred between special-purpose units and members of Armenian armed formations located at the left block post. As a result, 10 members of the Armenian armed formations who were at that post left the post and began to flee. During the exchange of fire, one member of the illegal Armenian armed formations sustained a gunshot wound to the head and died, while the remaining nine were captured by the group under his command together with a group that had arrived from Military Unit No. "N", and were taken to Lieutenant General **Munasib Babayev**, who was acting as corps commander.

On that day, at approximately 16:00, the positions were fired upon by members of Armenian armed formations using incendiary tracer bullets, mortars, and anti-tank shells. As a result of the fire, Lieutenant **Umud Niftaliyev** and Warrant Officer **Orkhan Jabbarov** were killed, and several servicemen were wounded. At around 19:00, a ceasefire was declared. At around 21:00–22:00, he saw a **KAMAZ** vehicle belonging to the military unit arriving in the direction of their military unit and stopped it. He learned that the nine members of the illegal Armenian armed formations in the cargo section of that vehicle were being taken to the village of **Minkend**, **Lachin District**, by an unfamiliar warrant officer of the special-purpose forces and by Warrant Officer **Jeyhun Mammadov** of Military Unit No. "N". Together with four of his soldiers, he got into the cargo section of the **KAMAZ** vehicle and brought those nine members of the Armenian armed formations to the battalion support point in the village of **Minkend**, **Lachin District**, where they handed them over to the special-purpose forces.

The statement given by **Sabir Seymur oglu Khasmatov**, questioned as a witness at the preliminary investigation, was announced in court. In his statement he indicated that on 16 November 2021, when the "alarm" command was given to them, fighting was already taking place between the positions of the Armenian armed formations and servicemen of the Republic of Azerbaijan. After the fire stopped, he was first sent to the medical point of Military Unit No. "N", and from there to Hospital No. "N", where he received inpatient treatment for 12 days.

It follows from the statements of **Etibar Yasin oglu Aliguliyev**, **Aslan Shahhuseyn oglu Aslanov**, **Samir Rasil oglu Taharov**, and **Oruc Nabi oglu Huseynov**, announced and examined in the courtroom, that by giving statements of the same content, they confirmed the statement of **Sabir Seymur oglu Khasmatov**.

The statement given by **Yusif Isa oglu Aliyev**, the legal successor of the victim, at the preliminary investigation was announced in court. In his statement he indicated that his son **Natiq** was born on 22 May 1989. Since 2014, he had begun serving in Military Unit No. "N" as an extended active military serviceman. In April 2016, **Natiq** also took part in the battles and in the **Patriotic War**. After the Patriotic War, when the lands were liberated from occupation, **Natiq** served as part of Military Unit No. "N" in one of the units located in newly liberated **Kalbajar District**, in the border area with Armenian servicemen. In 2019, his son **Natiq** married **Gulnar Gazanfar gizi Aliyeva**, and from their marriage a daughter named

Zeynab was born. From the time he was sent to service, he had no complaints related to his service. On 16 November 2021, at around 19:30, while he was at the address where he lived with his family members, his son **Samir** came home and told him that **Natiq** had been killed as a result of fire opened by the Armenian side. On 17 November 2021, at midday, they buried his son's body in the **Ganja City Alley of Martyrs**, with the participation of the district executive head and heads of district organizations.

The statement given by the victim **Elmar Eldar oglu Alishanov** at the preliminary investigation was announced in court. In his statement he indicated that on 16 November 2021, as part of Military Unit No. "N", while in the territory of the village of **Gilincli**, **Kalbajar District**, together with Battery Commander Captain **Elmaddin Jabrayilov** and several servicemen, he was sent to one of the villages of **Lachin District**, the name of which he did not remember, in order to prevent an Armenian provocation. By the time they were already heading in that direction, Armenian servicemen had attacked the positions of their servicemen and had positioned their equipment—

Page 1016

—at their positions. Therefore, they were given an order to remove the Armenian servicemen from their positions and, if they faced a counterattack, to destroy them. On the basis of this order, they — servicemen **E. Jabrayilov**, Junior Sergeant **Ragif Naghiyev**, soldiers **Kamil Yusifov**, **Yusif Ibrahimov**, and others — took positions in the territory of **Lachin District**, in the border area with **Armenia**, near the positions of units of some military unit. At that time, Armenian servicemen attacked them using automatic weapons and mortars. During that exchange of fire, soldier **Aslan Aslanov** from among their servicemen was injured. Later, as a result of the impact of a mortar strike, he sustained a shrapnel wound to the left elbow area and a craniocerebral trauma caused by the blast wave. During that battle, the Armenian servicemen were driven out of the positions; some were killed and some were taken prisoner. However, since he was wounded at that time and was evacuated by servicemen from the battlefield to the rear in a medical aid vehicle, he had no information about the other events that occurred there. After receiving treatment for his injuries for approximately two months, he returned to his place of service. After returning to his place of service, he learned that from their military unit, together with him, soldier **Aslan Aslanov** had also been wounded, while no one had been killed.

The statement given by the victim **Bayram Asad oglu Mammadov** at the preliminary investigation was announced in court. In his statement he indicated that on 16 November 2021, at approximately midday, Armenian armed formations' posts in the direction of **Lachin District** began firing at their posts with mortars, artillery, and other large-caliber weapons. Shortly thereafter, from Armenian posts located in front of and around the **"Tanker-1"** post where he was located, they began firing toward their posts with large- and small-caliber weapons. At that time, because he and the servicemen at the post began opening return fire at the Armenian armed formations, a mutual exchange of fire began. Since he was firing from a grenade launcher in the direction of members of the Armenian armed formations, he

frequently changed his position. He fired twice in the direction of the Armenians. While attempting to fire for the third time, as he tried to evade the bullets fired by Armenian servicemen and was changing his position, his foot slipped, he fell to the ground, and his right leg was bruised in the knee area. Because his knee was bruised, he crawled somewhat toward the sector in order to avoid the fire opened by the Armenians and took cover there; afterwards, although with difficulty, he continued to exchange fire with the Armenian armed formations. The exchange of fire stopped in the evening hours of that same day. After remaining at that post and serving there for 10 days, because there was swelling in his knee, he applied to the medical point of the military unit, from where he was sent to the military hospital located in **Kalbajar District**, and from there to Hospital No. **230** for examination.

The statement given by the victim **Tural Gahraman oglu Isgandarov** at the preliminary investigation was announced in court. In his statement he indicated that on 14 November 2021, as part of the 1st battalion of Military Unit No. "N", where he served, he went for reinforcement purposes to the posts of Military Unit No. "N" located in a village of **Lachin District** whose name he did not remember. On 16 November 2021, at approximately midday, Armenian armed formations violated the "ceasefire" and began firing at their posts with large-caliber small arms, including mortar shells. Approximately 15 minutes after that exchange of fire began, he sustained a **"through-and-through gunshot wound of the upper one-third of the right shoulder, passing through to the back area"**, and other servicemen urgently evacuated him to the **Kalbajar District Hospital**. For this reason, he did not know who at the post had been wounded or killed at that time. Later, at the **Main Clinical Hospital of the Armed Forces**, he saw soldier **Farhad Farrukh oglu Guliyev**, an extended active military serviceman serving in the same military unit as him, and learned that during that incident he had sustained a **barotrauma** injury and had been placed in the hospital.

Page 1017

The statement given by the victim **Farhad Farrukh oglu Guliyev** at the preliminary investigation was announced in court. In his statement he indicated that on 14 November 2021, as part of the 3rd battalion of Military Unit No. "N", where he served, he went for reinforcement purposes to post **"K-17"** of Military Unit No. "N", located in a village of **Lachin District** whose name he did not remember. On 16 November 2021, at approximately midday, the ceasefire was violated by Armenian armed formations, and they began firing at their posts with large-caliber small arms, including mortar shells. As a result of the blast wave from a mortar shell, he lost consciousness and later opened his eyes at the **Kalbajar hospital**. There he was diagnosed with a **closed craniocerebral trauma**. He learned that approximately 15 minutes after the shooting began while he was at the post, **Tural Isgandarov**, a soldier performing extended active military service in the same military unit as him, had sustained a **through-and-through gunshot wound of the upper one-third of the right shoulder, passing through to the back area**. Apart from that, he had no information about who had been wounded or killed at the post at that time.

The statement given by the victim **Samir Mammad oglu Mammadov** at the preliminary investigation was announced in court. In his statement he indicated that on the morning of 14 November 2021, on the instructions of the military unit command, he, together with **Major Ramin Nuriyev**, who served in the same company as him, **Lieutenant Saleh Musali**, Junior Sergeant **Tural Isgandarov**, and others, was sent to the territory of a village in **Kalbajar District**, bordering the **Republic of Armenia**, whose name he did not know, to the post conditionally called **"Tanker-5"**. On 16 November 2021, at midday, in the left direction from the position where he was located, he saw that Armenian servicemen had stopped vehicles belonging to Military Unit No. "N" in front of the combat position and did not allow them to move.

A few minutes after that incident, from the posts of Armenian armed formations in the direction of **Lachin District**, they began firing toward their posts with mortars, artillery, and other large-caliber weapons. A little later, from the Armenian posts located in front of and around the **"Tanker-5"** post where he was located, they began firing toward their post with large- and small-caliber weapons. At that time, because he and his comrades-in-arms at the post began opening return fire, a mutual exchange of fire began. During the exchange of fire, a mortar shell fell approximately 8 meters away from him. The blast wave of that shell lifted him into the air and threw him against a nearby stone, as a result of which he injured his head. Although no blood was coming from his head at that time, he felt dizzy, his ears were blocked, and his vision became blurred.

After the shooting stopped, he reported the injury he had sustained to the command and was sent from there to the military hospital located in **Kalbajar District**. After being examined at that hospital, he returned to his place of service. After the shooting stopped, he also learned that soldier **Tural Isgandarov**, who was at the same post as him, had been wounded and injured during that exchange of fire.

The statement given by the victim **Fagan Aghamali oglu Ismayilov** at the preliminary investigation was announced in court. In his statement he indicated that on the morning of 16 November 2021, on the instructions of the military unit command, he, together with **Major Ramin Nuriyev**, Junior Sergeant **Mahammad Asgarov**, Junior Sergeant **Elvin Mammadov**, **Samir Orucov**, **Nurlan Salamzade**, Lieutenant **Sahil Musali**, and others whose names he did not remember, was sent to the territory of a village in **Kalbajar District**, bordering the **Republic of Armenia**, whose name he did not know, to one of the posts conditionally numbered either **18** or **19**, located to the right of the place called **Alagollar**. Since the vehicles of the Armenian armed formations were firing at their posts with small- and large-caliber weapons, they were told to open return fire. After an exchange of fire lasting approximately one hour, they reached that position. At that time, they took 11 Armenian servicemen alive and two Armenians dead, and handed them over to their servicemen. After that, they fortified themselves at that position. At that—

—time, the Armenian armed formations began continuously firing with mortars and artillery at the post where he was located and at other posts. At that moment, a mortar shell fell near him. Since the blast wave threw him against a nearby rock, he lost consciousness; after about 10–15 seconds, when he came to himself, blood came from his mouth as he coughed. Then one of the nearby servicemen dragged him toward the place where tires were stacked, and they took cover there beside the tires. While there, he learned that **Tural Isgandarov** and Lieutenant **Sahil Musali** had also been wounded. A few hours later, information was received by radio that a ceasefire had been declared. After that, he and the other wounded servicemen were sent down from the post to Military Unit No. "N" located in **Kalbajar**. The next day, because blood came from his mouth when he coughed, he applied to the medical point of the military unit and was sent first to Military Hospital No. "N" located in **Kalbajar**, and then to Military Hospital No. "N".

The statement given by the victim **Rashad Alviz oglu Ismayilov** at the preliminary investigation was announced in court. In his statement he indicated that on the morning of 16 November 2021, on the instructions of the military unit command, he, together with **Major Ramin Nuriyev**, Junior Sergeant **Mahammad Asgarov**, Junior Sergeant **Elvin Mammadov**, **Samir Orucov**, **Nurlan Salamzade**, Lieutenant **Sahil Musali**, and others whose names he did not remember, went to the territory of a village in **Kalbajar District**, bordering the **Republic of Armenia**, whose name he did not know, to the area located to the right of the place called **Alagollar**.

Together with those servicemen, when they advanced toward one of the Armenian posts conditionally numbered either **18** or **19**, the Armenians began firing at them with automatic weapons. They also opened fire from automatic weapons and resisted them. After approximately one hour of mutual shooting, they reached that position and took 11 Armenian servicemen alive and two Armenians dead, and handed them over to their servicemen. After that, while they were fortifying themselves at that position, the Armenians began continuously firing with mortars and artillery at the post where they were located and at other posts. At that time, a mortar shell fell near him, and the blast wave threw him against a woven basket filled with stones located nearby, causing his vision to darken. After about 10–15 seconds, he came to himself and changed his position, while the Armenians continued to fire continuously at their positions and other posts. While there, he learned that **Tural Isgandarov** and Lieutenant **Sahil Musali** had been wounded.

The statement given by the victim **Ulfat Rahim oglu Humbatov** at the preliminary investigation was announced in court. In his statement he indicated that on 16 November 2021, while serving at the combat position of Military Unit No. "N" conditionally called **K-21**, at approximately 13:00, continuous mortar fire began to be opened toward their positions from the combat posts conditionally called **341** and **430**. He and the personnel at the post took positions in order to avoid the mortar shells. After the position where he was located had been continuously fired upon by mortars from the Armenian side for several hours, at approximately 17:00, he heard the sound of a tank in the area where the shooting was taking place. He moved away from where he was and watched to see where the tank was coming

from. While he was trying to inform the command, a mortar shell fell nearby, and under the effect of the blast wave he was thrown into the air and struck first against a mesh filled with stones at the firing position, and then against the ground. Although he had a helmet on at that time, his head hit a stone; and when he fell to the ground, because he landed forcefully on his back, his back area was injured. At that moment, his vision darkened, he felt dizzy, noise appeared in his ears, and after remaining motionless for some time and then crawling aside, when he tried to stand up and move, his legs went numb and he began vomiting.

The statement given by the victim **Rahib Abdulla oglu Karimli** at the preliminary investigation was announced in court. In his statement he indicated that on 16 November 2021—

Page 1019

while he was serving at that position on the date in question, the position where they were located began to come under fire from the Armenian positions using mortars and other large-calibre weapons. At that time, reconnaissance servicemen arrived at their position; the intelligence chief, Major **Ramin Nuriyev**, was also with them. R. Nuriyev then formed a group consisting of him, **V. Mirzaliyev**, and other persons and gave them the appropriate assignment.

In accordance with that assignment, they moved under fire from the right-hand direction towards the positions of the Armenian armed formations, while the reconnaissance group moved from the left-hand direction. During the ensuing exchange of fire, one of the servicemen beside him, **Tural Isgandarli**, was wounded; no one was killed.

At approximately midday that day, the location where they were stationed began to come under continuous fire from the positions of the Armenian armed formations using mortars and other weapons. A mortar shell fell approximately ten metres from the place where he was located. Since there was a tyre between him and the place where the shell landed, the shell fragments did not strike him; however, the blast wave and noise caused blockage of his right ear and dizziness. Nevertheless, he did not lose consciousness and continued guarding the post.

At approximately 19:00, although the Armenian armed formations continued firing without interruption at the position where they were located, they did not abandon the position. A ceasefire was subsequently established, and some time later they handed the post over to other personnel and returned to the headquarters of the military unit.

After handing over the post, on **18 November 2021**, he informed the military unit's doctor about the pain in his head that had developed following the explosion. As he subsequently went on leave, he did not apply to any medical institution in connection with that injury.

The testimony given during the preliminary investigation by the victim **Mirzaliyev Valeh Ali oglu** was read out in court. In that testimony, he stated that on **16 November 2021**, while he

was serving at that position, the position where they were stationed began to come under fire from the Armenian positions using mortars and other large-calibre weapons.

At that time, reconnaissance servicemen arrived at their position; the intelligence chief, Major **Ramin Nuriyev**, was also with them. R. Nuriyev then formed a group consisting of him, V. Mirzaliyev, and other persons and gave them the appropriate assignment.

In accordance with that assignment, they moved under fire from the right-hand direction towards the positions of the Armenian armed formations, while the reconnaissance group moved from the left-hand direction. During the ensuing exchange of fire, one of the servicemen beside him, **Tural Isgandarli**, was wounded; no one was killed.

Thereafter, reconnaissance servicemen whose names he did not know took prisoner the Armenian servicemen who had remained at the post, while the group to which he belonged organised the defence of that position.

At approximately midday, the location where they were stationed began to come under continuous fire from the Armenian armed formations using mortars and other weapons. A mortar shell fell approximately five metres from the place where he was located. The blast wave threw him aside. He did not lose consciousness and stood up, but as he rose his vision darkened, he became dizzy and his nose began to bleed. He bandaged himself there.

After regaining his composure, he again took up a firing position at the combat post and continued guarding the post by observing the direction of the Armenian armed formations.

At approximately 19:00, although the Armenian armed formations continued firing without interruption at the position where they were stationed, they did not abandon the position. A ceasefire was subsequently established, after which they handed the post over to other personnel.

After handing over the post, he informed the military unit's doctor of the injury he had sustained on **16 November 2021**. The doctor made the appropriate record; however, as he subsequently went on leave, he did not apply to any medical institution in connection with that injury.

The testimony given during the preliminary investigation by the victim **Hasanov Kamran Elshad oglu** was read out in court. In that testimony, he stated that on **16 November 2021**, while serving at the combat position of Military Unit No. "N" bearing the code name **"Ertoghrul,"** at approximately 15:00, while he was resting, an "alarm" order was issued at the post.

When he reached the vicinity of that position in order to assist in repelling a sudden attack by the Armenian armed formations, an Armenian serviceman who was approximately fifteen metres away

saw him and fled. At that time, he felt pain in his right leg. When he placed his hand on his leg, he saw that it was bleeding, and because of the pain he fell near the trench.

One of the fellow servicemen beside him dragged him into the trench. Another fellow serviceman, whose name and identity he could not recall, removed the belt from over his trousers, wrapped it around his leg and tightened it firmly in order to stop the bleeding.

By that time, their positions had come under intense fire from the Armenian armed formations. The platoon commander was subsequently informed of his injury. At approximately 17:00, the post commander, Lieutenant **Azizli**, arrived at the position, placed him on his back and carried him down to the post's support point.

Because all roads leading to the post were under fire from Armenian positions located on the surrounding heights, the ambulance was unable to approach the post. After the ambulance eventually arrived, he was placed inside it. Junior Sergeant **Natiq Aliyev** also entered the vehicle with him.

However, because the area around the post and the direction in which the ambulance was located remained under continuous fire, the vehicle was unable to move for some time and remained in that position for approximately twenty minutes.

When the firing diminished, the driver attempted to reverse the vehicle, but the ambulance again began to come under fire from the Armenian side. While the vehicle was being fired upon, he heard Natiq Aliyev, who was beside him, scream. After the scream, N. Aliyev collapsed on top of him. He felt that N. Aliyev had stopped breathing and was making a rattling sound.

However, because he was unable to turn around, he did not know what had happened to N. Aliyev. At that time, for a reason unknown to him, his left eye filled with blood, became darkened and he was unable to see.

He did not know how many minutes he remained in that condition. After some time, the rear door of the ambulance, which remained under fire, suddenly opened. Lieutenant Azizli, who had opened the door, pulled himself backwards and, from above the open door, fired three shots upwards in the direction of the opposing side.

Seeing that the door had opened, he pushed N. Aliyev, whose body was lying on top of him, out of the vehicle and then threw himself to the ground at one side. The fellow servicemen present there pulled them aside and took them to a safe location.

After they had remained there for several hours, the chief of staff of the battalion, **Elshad Mammadov**, and several servicemen approached along a rear route in order to assist them. E. Mammadov placed him on his back and carried him on foot for several kilometres over the snow until they reached an asphalt road.

From there, he was taken by ambulance first to the military hospital in Kalbajar and then to Military Hospital No. “N” in the city of Ganja. After being examined there, he was transported by helicopter to the military hospital in Baku.

He underwent inpatient treatment at that hospital until approximately the beginning of **February 2022** and was subsequently discharged from military service. He later learned that the serviceman of the military unit, **Aliyev Natiq Yusif oglu**, had been killed during the exchange of fire.

The testimony given during the preliminary investigation by the victim **Musali Sahil Sahibkhan oglu** was read out in court. In that testimony, he stated that at the beginning of **November 2021**, acting on the instructions of the military-unit command, he was sent together with the military unit’s intelligence chief, Major **Ramin Nuriyev**, Sergeant **Javid Huseynov**, **Tural Isgandarov**, and several other servicemen whose names he could not recall to reinforce the combat position bearing the code name **“Tanker-2”** of Military Unit No. “N.” The position was located opposite a district of the Republic of Armenia bordering the territory of a village in the Kalbajar district whose name he could not recall.

On **16 November 2021**, while they were serving at that position, it began to come under fire from members of Armenian armed formations using mortars and other large-calibre weapons.

At that time, acting on the command’s instructions, a group consisting of him, Tural Isgandarov, and other persons was formed and given the appropriate assignment. After receiving the assignment, the reconnaissance group destroyed the Armenian servicemen who had resisted at the post of the Armenian armed formations and took the remaining twelve Armenian servicemen prisoner.

Thereafter, he, T. Isgandarov, **Seymur Abbasov**, **Javid Huseynov**, and five other persons whose names he could not recall took control of the post and reinforced their positions there. Approximately thirty minutes later, several **KamAZ**vehicles and other equipment began moving from the direction of the Armenian armed formations’ post

Page 1021

—and personnel were coming. Approximately 15 minutes after that observation, the Armenian posts located opposite them — to the right, to the left, and in front — began firing intensively. In order to avoid that fire, they lay down on the ground at the post. During that firing, **T. Isgandarov**, who was near him, was hit in the chest area. At that time, he approached him, provided first aid, and injected morphine. He then informed the command about this by radio. Some time later, the position where they were located began to be fired upon continuously with mortars from the right side. During that fire, a mortar shell once fell approximately 10–15 meters away from him, and the blast wave threw him aside.

At that time, after lying in place for some time and then trying to regain control of himself, another mortar shell fell near him, and the blast wave from that shell also threw him aside. At that moment, he fell on his back and lost consciousness. Later, when he opened his eyes, he saw that he was at one edge of the post and that there was no one from the personnel at the post. A little later, a medical aid vehicle came up to the post, and he, together with four servicemen, was taken to the military hospital in **Kalbajar District**. After staying there for one day, they were sent to Military Hospital No. **230**. After receiving treatment there for two days, he was sent to a hospital located in **Baku**, where, after receiving inpatient treatment for approximately one month, he was discharged from the army due to illness.

The statement given by **Vilayat Hidayat oglu Gurbanov**, questioned as a witness, at the preliminary investigation was announced in court. In his statement he indicated that on 16 November 2021, at approximately midday, fire began to be opened toward their posts from Armenian posts located in the direction of **Lachin District**, using mortars, artillery, and other large-caliber weapons. Some time later, Armenian armed formations opened fire with large- and small-caliber weapons toward their post from the posts located opposite and around the post where he was located. Since his fellow servicemen at the post began opening return fire at the Armenian armed formations, a mutual exchange of fire began.

At that time, he approached the vehicle of which he was the driver and stood beside it. While the exchange of fire continued for some time, he saw several servicemen at the post carrying soldier **Tural Isgandarov** in a wounded condition toward the post's communication road. At that time, because the medical aid vehicle that had come to the communication road was taking **T. Isgandarov** away, he did not see from which part of the body he had been wounded. That same evening, the firing stopped, and that night, on the basis of an assignment given by the command, he drove the vehicle and returned to the headquarters of the military unit.

The statement given by the victim **Renad Murad oglu Aghababayev** at the preliminary investigation was announced in court. In his statement he indicated that on 19 November 2021, at about 14:00, during the opening of a supply road leading from the 4th border combat point to the 5th border combat point of the 30th border detachment of the 8th border commandant's office of Military Unit No. "N" of the State Border Service, located in the territory of **Zangilan District**, **Seyidov Nadir Badir oglu**, who was driving a **Tırtıl Ekskavator EK-230-06** excavator with state registration number **10X901**, fell into an anti-tank mine previously planted on that road by members of Armenian armed formations. As a result, he and one employee of the Mine Action Agency of the Republic of Azerbaijan, whose name he did not know, sustained injuries in the form of shrapnel wounds to the front part of the body, the middle one-third of the right and left thighs, and numerous facial shrapnel wounds.

At that time, he was sitting opposite him, and when the explosion occurred while he was moving, the force of the explosion threw him aside. When he stood up, he felt blood flowing from the right back part of his neck. An employee of the Mine Action Agency of the Republic of Azerbaijan was also covered in blood over the whole facial area at that moment.

After that, military medical aid vehicles came to the area, provided them with first aid, and evacuated them from the scene.

Page 1022

The statement given by the victim **Samir Budag oglu Hasanov** at the preliminary investigation was announced in court. In his statement he indicated that on 19 November 2021, in the territory of **Zangilan District**, a **Tırtıl Ekskavator EK-230-06** excavator with state registration number **10X901**, driven by **Seyidov Nadir Badir oglu**, who worked as a driver at Road-Operation Department No. 1 of **Azeravtoyol Open Joint-Stock Company**, became unusable after hitting an anti-tank mine planted by servicemen of Armenian armed formations. On the basis of a power of attorney issued by **Aliyeva Tarala Isa gizi**, who had all ownership rights over the excavator, the excavator had been sold to **N.B. Seyidov** for **30,000 manats**. The **EK-230-06** excavator with state registration number **10X901** belonged to him. As a result of the incident, the vehicle's bucket, front windows, and other parts became unusable. The material damage caused to the vehicle was undertaken for payment by Road-Operation Department No. 1 of **Azeravtoyol Open Joint-Stock Company**.

The statement given by the victim **Nadir Badir oglu Seyidov**, who worked as a driver on the basis of a contract at Road-Operation Department No. 1 of **Azeravtoyol Open Joint-Stock Company**, was announced in court. In his statement he indicated that since March 2021 he had worked as a driver on the basis of a contract at Road-Operation Department No. 1 of **Azeravtoyol Open Joint-Stock Company**. On 19 November 2021, in the territory of **Zangilan District**, during the opening of the supply road leading from the 4th border combat point to the 5th border combat point of the 30th border detachment of the 8th commandant's office of the State Border Service, at approximately 10:00 employees of the Mine Action Agency of the Republic of Azerbaijan arrived, and until approximately 14:00 four employees of the Mine Action Agency of the Republic of Azerbaijan inspected the mentioned supply road, checking three meters deep and two meters to the right and left.

After the work had begun, he, driving the excavator under his control, followed the trace of the excavator's bucket together with one employee of the Mine Action Agency of the Republic of Azerbaijan and Warrant Officer **Renad Aghababayev** of the 8th commandant's office of the State Border Service. Approximately two minutes after the employee of the Mine Action Agency of the Republic of Azerbaijan informed him that the excavator's bucket was clean, the next time the bucket struck the road, an explosion occurred. **Vagif Babayev** and Warrant Officer **Renad Aghababayev** of the 8th commandant's office of the State Border Service were injured. When the explosion occurred, he himself lost consciousness inside the excavator.

It follows from the statements of **Vagif Ilzaab oglu Babayev**, an operator of the Mine Action Agency of the Republic of Azerbaijan, who was recognized as a victim and questioned, announced and examined in the courtroom, that, by giving a statement of the same content as

the other victims, he confirmed the fact that he sustained injuries to his foot and various parts of his body as a result of the explosion.

At the preliminary investigation by Junior Warrant Officer **Elgun Elkhan oglu Nazarxanli** of the 4th border combat point of the 30th border outpost of the 9th border commandant's office of Military Unit No. "N" of the State Border Service, who was questioned as a victim, was announced in court. In his statement he indicated that on 30 September 2021, because it was a rest period, in order to procure firewood, he, together with the servicemen of the point — **Javidan Hidatov**, **Murad Musayev**, and **Rashad Mammadov** — went approximately 80 meters from the supply point in the area of the left side of the communication road in the direction of the post, to a relatively elevated place near firing position No. 1. First, from the firing position they descended to the left toward the sand piles and began cutting the trees there with an axe. After that, when he saw a dry tree approximately 30 meters from those sand piles and, because the tree was dry, moved toward it, suddenly a powerful explosion occurred and he was injured.

From the statements of **Rashad Baylar oglu Babayev**, **Javidan Mardan oglu Hidatov**, **Murad Farman oglu Musayev**, **Knyaz Murad oglu Garayev**—

—**Rashad Dadash oglu Mammadov**, and **Elsan Bulud oglu Bayramli**, announced and examined in the courtroom, it follows that in their statements they confirmed the fact indicated by Junior Warrant Officer **Elgun Elkhan oglu Nazarxanli**.

The statement given by the victim **Karimov Tadjeddin Gazanfar oglu**, a driver of the 1st vehicle platoon of the 2nd supply company of Military Unit No. "N", was announced in court. In his statement he indicated that on 23 November 2021, at 08:00, together with five servicemen, he went to a position in the territory of the village of **Talysh**, **Tartar District**. In the direction of the village of **Talysh**, **Tartar District**, and toward the village of **Tapgaragoyunlu**, **Goranboy District**, they were carrying out engineering works to lay a supply road. After the area had been inspected by three dogs, within approximately 25 meters ahead of them, **59 PMN-E** type anti-personnel mines belonging to Armenian armed formations were found and neutralized, and the search operations continued. Later, while continuing the work with the **OZAN** type mine detector in his hand, he hit a mine that had been buried deep and had not reacted to the mine detector, and he was injured.

It follows from the statements of **Taleh Dashdamir oglu Mammadov**, **Rashad Rasim oglu Alakbarli**, **Arshad Sharif oglu Sharifli**, and **Elchin Akif oglu Jafarli**, announced and examined in the courtroom, that in their statements, by confirming the circumstances indicated by **Tadjeddin Karimov**, they gave statements similar in content.

At the preliminary investigation by **Asif Mehman oglu Huseynov**, Senior Lieutenant and head of the medical service of Military Unit No. "N" of the Ministry of Defense, who was questioned as a witness, was announced in court. In his statement he indicated that on 8

December 2021, at about 23:00, the body of the deceased **Asif Aliyev** was placed from the sanitary vehicle of the battalion into the sanitary vehicle of the military unit's medical point, near the support point of the 1st battalion of Military Unit No. "N", approximately 300 meters from combat position **"Zirva-4"**and from combat position **"Zirva-2"** in the direction of the "Zirva-4" combat position. After bringing the vehicle to the area where Military Hospital No. "N" was located, he saw one bleeding wound on the lower one-third of the right leg and accumulated blood in the back part of the head.

The statement given by **Babakishi Bahman oglu Abbasov**, questioned as a witness, was announced in court. In his statement he indicated that on 8 December 2021, at about 20:00, the fire opened by Armenians intensified further; soldier **Asif Aliyev**, who was on combat duty, and **Rashad Novruzov**, together with other soldiers of the platoon, **Behbud Ganbarov** and **Taleh Aliyev**, who were resting, organized a night watch inside the post. At 20:00, **Rashad Novruzov** returned to the post from post No. 1, and **Asif Aliyev** organized a night watch inside the post. At 21:40, **Asif Aliyev** went out in front of the post and continued organizing the night watch there. At that time, the fire opened by Armenians became even more intense. He reached the combat position approximately one minute after the **"shooting"** instruction was given and saw that soldier **Asif Adil oglu Aliyev**, who was on night watch opposite the post, had been hit by fire and was lying face down.

He found that the other soldier of the platoon, **Elshad Safarov**, had taken **Elnur Mammadov**, the sniper of **PRAMIDOL-6**, to the **PRAMIDOL-4** part of the position. When he approached the same **Asif Aliyev**, he saw that soldier **Asif Aliyev** had died. After that, he took the deceased in his arms, stretched him out on the soldier's shelter located at the post, covered him with a sheet, and evacuated the martyr.

The statement given by **Elchin Nariman oglu Mehdiyev**, questioned as a witness, was announced in court. In his statement he indicated that on 15 December 2021, while he was with **Allahyar Rustamov** in the area intended for the medical workers of the 1st demining group near **Lalatapa Height**, **Jabrayil District**—

—they received a phone call informing them that, nearby, a tank carrying out demining activity had hit a mine previously planted by members of Armenian armed formations, and that its driver had been injured. They immediately went to the scene by ambulance. **Elshan Rustamov**, who had been injured, was not visibly bleeding in the first medical aid examination, and no injuries were observed on his body. However, pain in his body could be sensed from his behavior. Paramedic **Allahyar Rustamov**, together with him, placed **Elshan Rustamov** on a stretcher and into the ambulance. They then evacuated him to Military Hospital No. "N" of the Ministry of Defense located in **Fuzuli District**.

It follows from the statements of **Allahyar Soltan oglu Rustamov**, questioned as a witness and announced and examined in the courtroom, that he gave a statement of the same content, confirming the circumstances indicated in **Elchin Mehdiyev's** statement.

The statement given by the victim **Elshan Yagub oglu Rustamov** at the preliminary investigation was announced in court. In his statement he indicated that on 15 December 2021, at about 12:00, on the **Horadiz–Jabrayil** highway, on the front part of the road belonging to **Jabrayil District**, approximately 150 meters from **Jabrayil District**, on the left side of the road, he was carrying out mine-search and mine-clearance activity with a **T-72 M1** tank, turret number **256**, belonging to Military Unit No. "N". A **KMT-7** mine-clearing device had been attached to the front of the tank. **Shahin Mammadov**, who was inside that tank, was approximately 30 meters away from him and was ordering him by radio to perform various maneuvers. While maneuvering with the tank, it hit an anti-tank mine, a sudden explosion occurred, and he was thrown upward inside the tank.

At that time, pain began in his foot, waist, and head, but he could not faint. **Shahin Mammadov**, who was inside the tank, got out of the tank, and a few minutes later medical workers of the Mine Action Agency of the Republic of Azerbaijan arrived, provided first medical aid, gave him painkillers, and stretched him out on a wheeled medical stretcher. They then evacuated him to Military Hospital No. "N" of the Ministry of Defense.

The statement given by **Sanam Khidir oglu Orujov**, a representative of Military Unit No. "N", who was recognized as a victim in connection with the material damage caused as a result of the **T-72 M1** tank with turret number **256** hitting an anti-tank mine previously planted by members of Armenian armed formations, was announced in court. In his statement he indicated that on 15 December 2021, at about 12:00, on the basis of information provided to the military unit command by Warrant Officer **Shahin Mammadov**, extended active military serviceman Junior Sergeant **Yagub oglu Elsan Rustamov**, who was driving a **T-72 M1** tank with turret number **256** belonging to Military Unit No. "N", was carrying out mine-clearing and mine-search operations on the **Horadiz–Jabrayil** highway in **Jabrayil District**, when the tank hit an anti-tank mine previously planted by members of Armenian armed formations. As a result, the tank's tracks and support rollers were damaged, and **E.Y. Rustamov** was injured.

The statement given by the victim **Sabuhi Rovshan oglu Mammadov** at the preliminary investigation was announced in court. In his statement he indicated that on 13 December 2020, at about midday, while he was with several extended active military servicemen in the village of **Chanagchi**, **Khojaly District**, where the artillery division of Military Unit No. "N", in which he served, was located, they went to collect wood for lighting a fire. Together with six servicemen, under the leadership of the team commander, Lieutenant **Rovshan Aliyev**, they went by **MAZ** vehicle to the lower part of the village of **Chanagchi**, toward the nearby village of **Garabulag**, **Khojaly District**, approximately 3–4 kilometers away, in order to collect wood.

After they reached the area, they got out of the vehicle, scattered around the area, and began collecting wood. After they arrived in that village, sounds of intermittent firing came from the positions of Armenian servicemen near the village. Sometimes those sounds—

—the sounds intensified; since the positions of the Armenian servicemen were approximately **700–800 meters** away from that village, he could not clearly see the Armenian servicemen who were there. After they brought the collected firewood and their food supplies next to the vehicle, he climbed into the rear cargo section of the vehicle and, together with the soldiers, began placing that load there. At that time, at approximately **16:00**, when one of the servicemen was chopping the firewood at the rear part of the vehicle and he himself was standing near the rear part of the vehicle, he saw blood flowing from the heel area of his right foot and immediately fell to the ground.

After falling, he saw that he had sustained a bullet wound to his foot and felt that the wound was extremely painful. The servicemen nearby immediately provided him with first medical aid, took him to the settlement of **Hadrut**, **Khojavend District**, and from there he was evacuated to Military Hospital No. "N".

The statement given by **Ramil Rahim oglu Asadov**, questioned as a witness, at the preliminary investigation was announced in court. In that statement he indicated that from 9 September 2020 he had served as senior driver of the 1st team of the 1st battery of the artillery division of Military Unit No. "N" of the Ministry of Defense. During his service in Military Unit No. "N" he had known extended active military serviceman, soldier **Sabuhi Zahid oglu Rahimov**; their relationship had been service-related, and there had been no hostility or enmity between them.

On 13 December 2020, in the village of **Chanagchi**, **Khojaly District**, he learned on that day that at approximately **16:00**, while battery serviceman **Sabuhi Rahimov** was in the village of **Garabulag**, **Khojaly District**, he had sustained an injury to the heel area of his right foot as a result of fire opened by Armenian servicemen. After he was wounded, first medical aid was provided to him, for which purpose he was taken to the settlement of **Hadrut**, **Khojavend District**, and from there evacuated to Military Hospital No. "N".

The statement given by **Rovshan Elshan oglu Aliyev**, questioned as a witness, was announced in court. In that statement he indicated that on 13 December 2020, in the village of **Garabulag**, **Khojaly District**, they had procured firewood for heating with a **MAZ** truck. At that time, among the servicemen present there were soldier **Sabuhi Zahid oglu Rahimov**, extended active military serviceman **Surkhay Safa oglu Aliyev**, **Tamir Mammadov**, and other servicemen whose names he did not remember.

The Armenian positions were approximately **700–800 meters** away from the village where they were located. While they were near the forest area in the territory of the village of **Garabulag**, **Khojaly District**, engaged in loading firewood, he heard the sound of gunfire coming from the direction of the Armenian servicemen. Soldier **Sabuhi Rahimov**, hearing the sound of gunfire, immediately walked from the place where he was toward the vehicle. Before **Sabuhi Rahimov** reached the vehicle, the soldiers there lowered him from the vehicle. After he was taken out of the vehicle, he saw that the upper part of his right shoe had

somewhat opened and that there was a bullet entry in the heel area. At that moment, he provided first medical aid to him, tied the upper part of his foot with a piece of cloth, and together with driver **Surkhay Aliyev** took him to Military Unit No. "N" located in the village of **Ahmadbayli**, **Fuzuli District**. After examination at the hospital located in **Ahmadbayli**, soldier **S. Rahimov** was sent to the **Main Clinical Hospital of the Armed Forces** and later discharged from service.

It follows from the statements of **Surkhay Safa oglu Aliyev**, questioned as a witness and examined in court, that, by giving a statement of the same content as **Rovshan Elshan oglu Aliyev**, he confirmed the circumstances indicated by him.

The statements of **Khayal Ibrahim oglu Zulfuqarli**, **Elvin Tofig oglu Aliyev**, and **Nurmammad Gurban oglu Nuriyev**, questioned as witnesses, were announced and examined in court; they gave statements similar in content to **Ramil Rahim oglu Asadov's** statement and confirmed the circumstances indicated by him.

The statement given by the victim **Yusif Suleyman oglu Eyniyev** at the preliminary investigation was announced in court. In that statement he indicated that on **2 January 2022**—

—at about **12:00**, personnel from the mortar battery were involved in searching for an unmanned aerial vehicle that had been shot down. On that day, at about **14:00**, he separated from the search group and, while moving through a forested and mountainous area, stepped on an anti-personnel mine that had previously been planted by unidentified members of Armenian armed formations. Approximately **10–15 seconds** later, he felt severe pain in the heel area of his left foot and, when he looked at that area, saw that as a result of the mine explosion he had sustained a serious injury to his left foot.

At that moment, no one was near him; he began crawling downhill. After crawling for approximately **1 hour and 1 minute**, someone heard him calling. After that, soldier **Ilamat Aghaverdi oglu Hasanov** and **Samir Ramin oglu Safiyev** also came to help him and carried him down from the mountainous area toward the lower forested area. There, servicemen provided him with first medical aid and evacuated him to hospital.

The statement given by **Ravan Zaur oglu Mikayilov**, questioned as a witness, was announced in court. In that statement he indicated that on **2 January 2022**, for the purpose of searching for an unmanned aerial vehicle, a search group consisting of **26 people** was created, and at **12:00** they left the territory of the battery and began searching in two groups in the direction of the area where the unmanned aerial vehicle was believed to have fallen. The area consisted of dense forest and mountainous terrain. The 12-person team, moving at intervals of 10 meters through the dense forest and mountainous area, could not find the unmanned aerial vehicle they were searching for, and, leaving that area, descended toward the automobile road.

When the presence of the personnel was checked, it was established that soldier **Yusif Suleyman oglu Eyniyev** was not there. Approximately at **14:15**, when they returned to the battery, they learned that soldier **Y.S. Eyniyev** had not come to the battery at all. After that, **E.S. Narimanzade** immediately formed two groups again: in the first group, headed by Senior Lieutenant **E.S. Narimanzade**, and in the second group, headed by Junior Sergeant **Habil Abdullayev**, searches for soldier **Y.S. Eyniyev** were begun. Approximately one hour after the search began, **Habil Abdullayev** informed the group leader, Senior Lieutenant **Elnur Narimanzade**, that soldier **Yusif Suleyman oglu Eyniyev** had been injured as a result of a mine explosion.

It follows from the statements of **Habil Misir oglu Abdullayev**, **Parviz Gurban oglu Gurbanov**, **Elnur Salman oglu Narimanzade**, **Nazim Ildirim oglu Mirzayev**, **Ilamat Aghaverdi oglu Hasanov**, and **Samir Ramin oglu Safiyev**, questioned as witnesses and announced and examined in court, that they gave statements of the same content.

It follows from the statements of Warrant Officer **Nemat Mirza oglu Mammadov** and Captain **Kamal Ali Mammad oglu Mammadov**, questioned as victims and announced and examined in the courtroom, that they gave statements similar in content to the statement of **Shohrat Aslanov**, confirming the circumstances indicated in his statement.

The statement given by the victim **Teymur Aladdin oglu Huseynov** at the preliminary investigation was announced in court. In that statement he indicated that soldier **Murad Mikayil oglu Mustafayev**, since he knew that road well, together with him moved from the 25th post toward the 27th post. After some time, they left the unused 26th post nearby and, when passing near the post of the Armenian armed formations, three Armenian servicemen emerged from behind a hill and shouted loudly in Russian for them to lay down their weapons. Then, in order to make them lay down their weapons, they fired approximately three shots under their feet. He did not lay down his weapon, and they, with their weapons, moved slowly toward their posts and reached their posts.

The servicemen of the Armenian armed formations then tied their hands and arms, put them into a **KAMAZ** vehicle, tied their eyes while they were inside the vehicle, and after driving for a while changed vehicles several times. Finally, they were taken to a building, then to another building, and placed in a cell—

Page 1027

—where they were held for two days. During that period, he was questioned about the posts and the number of servicemen at those posts, and he gave incorrect information in response to the questions. On **20 December 2021**, as a result of the exchange of prisoners, he and soldier **Murad Mustafayev** were handed over to the city of **Shusha**.

It follows from the statements of the victim **Murad Mikayil oglu Mustafayev**, announced and examined in the courtroom, that, by giving a statement similar in content to that of **K.G.**

Guliyev, **X.N. Asgarov**, and others, and to the statement of **Teymur Aladdin oglu Huseynov**, questioned as a witness, he confirmed the fact indicated by the latter.

The statement given by **Aykhan Fazamir oglu Shakaliyev**, questioned as a witness, at the preliminary investigation was announced in court. In that statement he indicated that on **11 January 2022**, at about **08:00**, personnel of the service unit where he served began work in the direction of reinforcing the **KS-14** combat position, conditionally called **"Zirva-1"**. The combat position was located approximately **five combat positions** away from the position where they served, near the Armenian armed forces belonging to the Armenian armed forces; three Armenian **"Zirva-1"** combat positions were located opposite that position: one approximately **60–70 meters** away, one **300–400 meters** away, and one **1 kilometer** away.

On that day, at about **12:00**, they heard Armenian servicemen shouting in a language they did not understand from their shelters, and later they began intensively firing at the **"Zirva-1"** combat position with firearms. At the time of the incident, while the exchange of fire continued until approximately **13:00**, soldier-sanitary instructor **Ayaz Azar oglu Nazarov**, of the personnel of the company that had come to the post for reinforcement, changed his position and climbed from there onto a long earth mound arranged approximately **20–30 meters** in front of the soldier shelter. From there he continued opening fire toward the Armenian side. He appealed for a PK-type weapon to be fired at the Armenian position located opposite them at a distance of approximately **10 meters**, asking **"Commander, is everything okay?"** The latter replied: **"Yes, everything is fine, keep firing, I am watching them."** Some time later, after hearing the sound of a sniper rifle shot, he saw **A. Nazarov** struck in the front of the head and fall on his back upward. When they reached **A. Nazarov**, they saw that he had no pulse and was already dead. After that, they placed **A. Nazarov's** body on a stretcher from the place where he had been shot and brought it opposite the soldier shelter.

It follows from the statements of **Emin Taryel oglu Yolchuyev**, questioned as a witness and announced and examined in court, that he gave a statement similar in content to the one indicated in **Aykhan Fazamir oglu Shakaliyev's** statement.

The statement given by the victim **Ramazanov Ziyafaddin Nizamaddin oglu** at the preliminary investigation was announced in court. In that statement he indicated that on **25 March 2022**, at about **03:00**, Armenian armed formations opened fire with automatic weapons on him and other servicemen who were near him. At that time, the other servicemen near him opened fire from their automatic weapons in the direction from which the Armenian armed formations were located.

During that fire, **Javid Shirvanov**, who was in front of him, opened fire with an **AK-74** automatic rifle, 5.45 mm caliber, handed to him, in the direction of the positions where the Armenian armed formation members were located. Approximately **20–25 minutes** later, he saw **Javid Shirvanov** wounded, leaning on his right side, and he himself, while firing from the **AK-74** automatic rifle handed to him in the direction where the Armenians were located, sustained an injury to his right arm. After that, they were evacuated to Military Unit No. "N".

It follows from the statements of the victim **Javid Rasul oglu Shirvanov**, announced and examined in the courtroom, that in his statement he gave testimony similar in content to the statement of the victim **Ziyafaddin Nizamaddin oglu Ramazanov**.

The statement given by soldier **Gudrat Sahib oglu Najafov**, questioned as a witness, was announced in court. In that statement he indicated that on **25 March 2022**, at night, at about **02:00–03:00**, while he was performing his service duties in accordance with the relevant instructions at **Farrukh Height**, **Aghdam District**—

Page 1028

—he was subjected to fire from automatic weapons by illegal armed formations. At that time, **Ziyafaddin Ramazanov** and **Javid Shirvanov** were wounded. After that, **J. Shirvanov** and **Ziyafaddin Ramazanov**, together with other servicemen, were taken out of the area and both servicemen were evacuated to Military Hospital No. **056**.

It follows from the statements of soldier **Rashid Ibrahim oglu Gahramanov**, questioned as a witness and announced and examined in the courtroom, that in his statement he gave testimony similar in content to that indicated in the statement of **Gudrat Sahib oglu Najafov**.

The statement given by **Amid Aliverdi oglu Guliyev**, recognized and questioned as a victim, at the preliminary investigation was announced in court. In that statement he indicated that on **25 March 2022**, under the command of the commander of the military unit and the deputy commander of the military unit, together with servicemen forming part of the 6th company of the 2nd battalion, they moved toward the positions opposite the village of **Farrukh**, **Khojaly District**. They remained in that area. On **26 March 2022**, at about **15:00**, as a result of continuous fire opened by Armenian armed formations in the forested area on the height, he sustained bullet wounds below the knee area of both legs. In connection with the injuries he received, he was evacuated to Military Unit No. “N”, where medical assistance was provided to him.

It follows from the statements of Lieutenant **Vali Hikmat oglu Alasgarov**, deputy commander for personnel of the 6th company of the 2nd battalion of Military Unit No. “N”, and Senior Sergeant **Tofig oglu Dashgin Mammadov** of that company, who were questioned as witnesses and whose statements were announced and examined in court, that they gave statements similar in content to that of the victim **Amid Guliyev**, confirming the fact indicated by him.

The statement given by **Aykhan Mobil oglu Jamalzade**, recognized and questioned as a victim, an extended active military serviceman and commander of the 2nd team of the 2nd platoon of the engineer-assault division of Military Unit No. “N”, was announced in court. In that statement he indicated that on **19 April 2022**, at approximately **13:30**, for the purpose of finding a mine, he separated from the other servicemen, found and marked two mines using a mine detector. One of the mines then exploded and was thrown aside from the explosion;

after that, he went into shock for 15 seconds. When he came to himself, he saw that the lower part of his right leg had been severed. Then the servicemen who came to the scene evacuated him from the incident site to Military Hospital No. “N”.

The statements given at the preliminary investigation by **Ramin Shahriza oglu Nuriyev**, **Ramin Akif oglu Bayramov**, and **Farid Anar oglu Alizada**, questioned as witnesses, were announced in court. In those statements they indicated that on **19 April 2022**, at about **12:30**, after the Patriotic War, in the territory of the village of **Yenikend**, **Kalbajar District**, which had been liberated from the occupation of Armenian military formations, they were carrying out reconnaissance service in an area **800 meters** away from combat position **Z1A**, called **“Arif”**, located in that area. At that time, with them were the commander of the 2nd team of the 2nd platoon of the engineer-assault division of Military Unit No. “N”, extended active military serviceman soldier **Aykhan Mobil oglu Jamalzade**, and other servicemen.

At about **13:30**, while moving and serving in mountainous, earthen, gravelly terrain, soldier **Farid Anar oglu Alizada** gave a proper signal for mine danger. Approximately **2–3 seconds** after that, an explosion sound was heard. They then realized that it was an anti-personnel mine, and after that, they saw that soldier **Aykhan Mobil oglu Jamalzade** had sustained a severe injury to his right leg and witnessed that his leg was bleeding. They then provided first medical aid to soldier **Aykhan Jamalzade** and evacuated him to Military Hospital No. “N”.

The statement given by Major **Vurgun Idris oglu Abilov**, chief of staff of the 9th border commandant’s office of Military Unit No. “N” of the State Border Service, who was recognized and questioned as a victim—

Page 1029

—the statement given at the preliminary investigation by **Vurgun Idris oglu Abilov** was announced in court. In his statement he indicated that on **18 April 2022**, at about **10:00**, together with the commander of the 9th border commandant’s office where he served, Captain **Bayram Mammadov**, Warrant Officer **Mustafa Hasanov**, who was acting as platoon commander for supply, and soldiers who were personnel of the combat-support company of the 9th border commandant’s office, he set off for the 2nd border combat point for the construction of the mentioned firing position.

At approximately **10:25**, after arriving at the border combat point, Captain **B. Mammadov**, Warrant Officer **M. Hasanov**, and a group of soldiers of the combat-support company moved in the direction of the rocky area where the firing position was to be built. Suddenly, they heard the sound of an explosion and thought that this sound had been caused by fire from mortar installations fired by Armenian servicemen. When he looked at his leg, he saw that the part of his right leg below the knee was missing and that the bone of his right leg was visible.

It follows from the statements of **Bayram Aydin oglu Mammadov**, **Sahil Maharram oglu Masiyev**, and **Sakhavat Ismayil oglu Mehdizade**, questioned as witnesses and announced and examined in the courtroom, that they gave statements of similar content.

The statement given by the victim **Mirsadiq Miragha oglu Mirsadiqov** at the preliminary investigation was announced in court. In his statement he indicated that on **17 August 2021**, at approximately **04:00–05:00**, they heard footsteps from the ravine below the post where they were located. When **Turan Huseynov** illuminated that direction with a flashlight, he saw a person in black uniform and immediately gave the command to open fire. At that time, the assistant to the commander of the 4th company for personnel, **Eliyer Aldarov**, threw approximately two or three **F-1** grenades toward the ravine. After that, fire began to be opened from that place in the direction where they were located.

After the grenades were thrown, groaning and shouting sounds were heard from the ravine. Seeing that the bullets he had fired had gone into the air, he moved one or two meters forward toward the ravine in order to fire more accurately. At that time, although the helmet on his head opened and fell to the ground because he was agitated, he did not pay attention to this and continued firing. During the exchange of fire, he felt warmth on his forehead and thought it was sweat; however, shortly afterward, when he touched his forehead and looked in the moonlight, he saw blood. A few minutes later, the shooting ended. When he said that he had been wounded, the battalion chief of staff came up to him and looked at his wound. Some time later, he was sent by a **UAZ** vehicle that had arrived to a hospital in the territory of **Shusha** city.

It follows from the statements of **Turan Firuddin oglu Huseynov**, **Anvar Ansar oglu Mehdiyev**, and **Namiq Gahraman oglu Abdullayev**, questioned as witnesses and announced and examined in the courtroom, that, by giving statements of the same content as the victim **Mirsadiq Miragha oglu Mirsadiqov**, they confirmed the circumstances indicated by him.

The statement given by the victim **Vugar Tofig oglu Isbandiyarov** at the preliminary investigation was announced in court. In his statement he indicated that on **26 July 2022**, at **07:00** in the morning, he received information that Deputy Minister of Defense, Commander of the Ground Forces **Anvar Afandiyev** would inspect combat position **KS-1**, conditionally called **“Kongur”**. That day, he got into his service vehicle, met the persons arriving from higher command, and, while they were inspecting the combat position called **KS-1** together, the battalion commander, Major **Mahir Javadov**, who was moving ahead of them, said that he had seen a mine. Immediately, the persons present at that place stopped moving and remained where they were. He wanted to determine the coordinates of the place where the mine was located using his phone; at that instant, his foot shifted one or two centimeters on the ground, and suddenly an anti-personnel mine exploded, causing him serious bodily injury.

At the preliminary investigation by **Ravan Yadullakhovich Gurbanov**, assistant for combat training to the head of the operations and combat training department of Military Unit No. “N”, who was questioned as a witness, was announced in court. In his statement he indicated that on **26 July 2022**, at about **16:00**, together with the commander of Military Unit No. “N”, Colonel **Vugar Isbandiyarov**, they set off by service vehicle to meet the persons arriving from higher command—

—and to take them to the combat positions. On the road, because the vehicle in which the senior personnel had arrived broke down, he and Warrant Officer **Hafiz Valiyev** stayed near the faulty vehicle, while the persons who had arrived from higher command got into one vehicle together with **Vugar Isbandiyarov** and continued moving. At approximately **17:00**, he learned that a mine explosion had occurred and that **Vugar Isbandiyarov** had been injured. They met the vehicle in which the latter had been brought and evacuated him to the hospital by medical aid vehicle.

It follows from the statement of serviceman **Mahir Amirkhan oglu Javadov**, questioned as a witness and announced and examined in the courtroom, that he gave testimony corresponding to the statement of the victim **Vugar Isbandiyarov**.

The statement given by **Eynur Rustam oglu Kazimov**, recognized and questioned as the legal successor of the victim, was announced in court. In his statement he indicated that on **3 August 2022**, at about **15:00**, while he was at his home in the village of **Garajamirli**, **Shamkir District**, he was informed by the village executive representative's office that his brother **Anar Kazimov** had died while serving in the territory of **Lachin District** as a result of fire opened by members of illegal Armenian armed groups in the territory of Azerbaijan where the Russian Federation peacekeeping contingent was temporarily deployed. Later, on **4 August 2022**, together with family members and relatives, they went to the **Ganja city branch of the Forensic Medical Examination and Pathological Anatomy Association of the Ministry of Health**, brought the body of his brother **Anar Kazimov** to their home address, and then buried **Anar Kazimov** in the cemetery of the village of **Garajamirli**, **Shamkir District**.

The statement given by the victim **Huseyn Fazil oglu Aghayev** at the preliminary investigation was announced in court. In his statement he indicated that on **2 August 2022**, at about **18:00–20:00**, while a group of eight people in total, led by Lieutenant **Sanan Sharbala oglu Mammad-yarov**, who served as platoon commander in the 6th company where he served, was moving toward the combat position planned in the direction of **Saribaba Height**, **Lachin District**, and while they were moving toward the direction where the Russian Federation peacekeeping contingent was temporarily deployed, he sustained a gunshot wound to the right thigh area as a result of fire opened by members of illegal Armenian armed groups. The bullet entered through his right thigh area and exited from the front.

After the incident, doctors from the military unit's medical point, who arrived near the scene, provided him with first medical aid. He was then evacuated by military medical vehicle first to the medical point of the military unit, from there to Military Hospital No. "N" of the Ministry of Defense located in the city of **Kalbajar**, then to Military Hospital No. "N" of the Ministry of Defense located in **Ganja**, and finally to the **Main Clinical Hospital of the Ministry of Defense** located in **Baku**.

The statement given by the victim **Yusif Arasdun oglu Hasanov** at the preliminary investigation was announced in court. In his statement he indicated that on **2 August 2021**, in the afternoon hours, they began moving toward that height. They had been moving toward that height for approximately **40 minutes** when Armenian separatist forces located on another height in that area prevented them from advancing to that height and, from the combat positions of Armenian armed formations conditionally numbered **174** and **175**, opened fire on them with machine guns and automatic weapons, preventing them from moving toward that height.

At that time, an exchange of fire occurred. During the mutual shooting, a bullet fired by the Armenian armed formations grazed the upper part of his arm and passed through. Lieutenant **Israfil Badalov**, who was there, immediately provided him with first medical aid and bandaged his arm. They then returned to combat position **LM-13** and remained there. On **3 August 2022**, they saw that in the position where they intended to fortify themselves, there was an armored personnel carrier belonging to the Russian peacekeeping forces, and that the Russian flag was flying there on the vehicle. Therefore, fire was no longer opened in that direction. Later, he was brought down to the battalion support point, where medical aid was provided to him.

Page 1031

The statement given by **Sanan Sharbala oglu Mammadyarov**, questioned as a witness at the preliminary investigation, was announced in court. In his statement he indicated that on **2 August 2022**, at about **18:00–20:00**, while they were moving toward combat position **LM-21**, planned in the direction of **Sarıbaba Height**, **Lachin District**, members of illegal Armenian armed groups in the territory of Azerbaijan where the Russian Federation peacekeeping contingent was temporarily deployed began opening fire in their direction. At that time, as a result of the fire opened by members of the illegal Armenian armed groups in the territory of Azerbaijan where the Russian Federation peacekeeping contingent was temporarily deployed, soldier **Huseyn Fazil oglu Aghayev** sustained a gunshot wound to the right thigh area. The bullet entered through his right thigh area and exited from the front.

To prevent soldier **Huseyn Aghayev** from losing a large amount of blood, he immediately provided first medical aid on the spot and tied a tourniquet on his right leg. After the incident, he immediately informed higher command about it, and, after soldier **Huseyn Aghayev** was provided first medical aid by doctors from the medical point who came near the scene, he was evacuated by military aid vehicle to the medical point of the military unit. The remaining seven persons continued on their way. That evening, they reached combat position **LM-21**, planned in the direction of **Sarıbaba Height**, **Lachin District**.

On **3 August 2022**, at about **08:00** in the morning, while they were performing combat duty at combat position **LM-21**, members of illegal Armenian armed groups in the territory of Azerbaijan where the Russian Federation peacekeeping contingent was temporarily deployed again began opening fire in their direction. At that time, as a result of the opened fire, soldier

Anar Rustam oglu Kazimov sustained a gunshot wound approximately to the lower abdominal area and fell to the ground. After sustaining the severe gunshot wound, blood flowed from him very rapidly. Since at that moment they were under intensive fire from members of the Armenian armed groups, they did not even have the opportunity to reach the wounded soldier **Anar Kazimov**. **Anar Kazimov** rolled approximately **5–6 meters** downward and stopped.

At that time, when he found an opportunity, quickly changed his position, moved behind a narrow rock located on the right side, and tried to reach **Anar Kazimov**, **Anar Kazimov** sustained a second gunshot wound from fire opened by members of the Armenian armed groups, approximately in the right flank, in the hollow area below the ribs. After receiving the second gunshot wound, he rolled another approximately **2–3 meters** downward from where he was and stopped again. After the second gunshot wound, he completely weakened, his hands relaxed, he closed his eyes, and approximately one minute later he died. After death, his lifeless body rolled approximately **20 meters** downward and fell onto rocks located approximately **60–70 meters** below the cliff. After the incident, he immediately informed higher command about it, and **Anar Kazimov's** body was recovered from the place where it had fallen and evacuated by representatives of the military unit who arrived near the scene.

It follows from the statements of **Kenan Nabi oglu Mehdiyev**, **Elgun Firgat oglu Mammadov**, and **Anar Alik oglu Rashidov**, announced and examined in the courtroom, that by giving statements of the same content, they confirmed the statement of **Sanan Sharbala oglu Mammadyarov**.

The statement given by **Asgar Bayram oglu Aliyev**, the legal successor of the victim, at the preliminary investigation was announced in court. In his statement he indicated that his son **Babak Aliyev** had served as a company commander in a military unit located in **Kalbajar District**. He heard the news that his son had hit a mine and died from the executive representative who came to his home on **5 August 2022**. On **6 August 2022**, his son's body was handed over to him, and they buried him in the cemetery of the village of **Lakatagh**, **Julfa District**, **Nakhchivan Autonomous Republic**.

At the preliminary investigation by Major **Ruslan Vahid oglu Samadov**, assistant to the head of the engineering support department of Military Unit No. "N", questioned as a witness, was announced in court. In his statement he indicated that on **5 August 2022**—

—while he was trying to go from combat position **ZM2** toward combat position **ZM3** in order to meet the equipment that was to be used for cable laying, **Babak Aliyev** also wanted to go with him in order to become more familiar with the area. While they were moving toward the equipment that had stopped approximately **600 meters** away, a sound came from the mine detector, and they stopped. At that moment, two consecutive explosions occurred. He fell to the ground from the blast wave. When he called out to **Babak Aliyev**, the latter said that he had been wounded and could not move. After three mines located in the direction

of their movement were neutralized, and after first medical aid was provided to **Babak Aliyev**, he helped evacuate him from the scene. The mines that **Babak Aliyev** hit had been planted by Armenian military formations.

It follows from the statement of **Vusal Gulhuseyn oglu Mamiyev**, questioned as a witness and announced and examined in the courtroom, that he gave testimony corresponding to the statement of witness **Ruslan Samadov**.

The statement given by the victim, Warrant Officer **Elkhas Eldar oglu Israfilov**, commander of the 2nd operational group of the 3rd platoon of the 3rd company of the 2nd battalion of Military Unit No. "N" of the Ministry of Defense, was announced in court. In his statement he indicated that on **5 August 2022**, at about **11:00** in the morning, they again began moving in the direction of the steep rocky mountain where combat position **L-21** was located. However, when they were **150–200 meters** from climbing to the combat position, servicemen of the Armenian armed groups threw a rock fragment approximately **1 meter** wide and **1.5 meters** long from the combat position down toward them. Before that rock fragment reached them, it broke into three large pieces. Although they tried to avoid the rock fragment, those pieces of rock struck soldiers **Samir Khudiyev** and **Tahir Aliyev** from the operational group that had come to assist, in the abdominal and head areas, and threw them down from the steep rock. Another piece of the rock struck his left leg; although he almost fell from the rock, he managed to hold on to stones and bushes at the side and remain where he was. Soldier **Samir Khudiyev** died at that time, and soldier **Tahir Aliyev** died on the way while being evacuated.

The statement given by **Samad Famil oglu Khudiyev**, recognized and questioned as the legal successor of the victim, was announced in court. In his statement he indicated that on **6 August 2022**, at about **01:30** at night, the body of his son **Samir Khudiyev** was brought to the village of **Ramana Südçülük Sovkhoz**, **Sabunchu District**, **Baku**, where he lived.

The statement given by **Chingiz Tahir oglu Aliyev**, recognized and questioned as the legal successor of the victim, was announced in court. In his statement he indicated that his child **Tahir** was killed as a result of a provocation committed by Armenian armed units in the territory of **Lachin District** on **5 August 2022**, at about **11:00**.

It follows from the statements of Warrant Officer **Elkhas Eldar oglu Israfilov**, commander of the 2nd operational group of the 3rd platoon of the 3rd company of the 2nd battalion of Military Unit No. "N" of the Ministry of Defense; Major **Elnur Elchin oglu Hasanov**, commander of the 2nd operational battalion of Military Unit No. "N"; soldier **Namiq Samiq oglu Huseynov**, scout of the 2nd group of the 3rd platoon of the 1st operational company of the 2nd operational battalion of Military Unit No. "N"; soldier **Sadiq Aladdin oglu Abdullayev**, scout-sniper of the 1st group of the 2nd platoon of the 1st operational company of the 2nd operational battalion of Military Unit No. "N"; and soldier **Mirzakhan Shukur oglu Manafov**, scout-operator of the 1st group of the 4th platoon of the 1st operational company of the 2nd operational battalion of Military Unit No. "N", which were announced and examined in the courtroom, that in their statements they gave testimony similar in content to what was indicated by Warrant Officer **Elkhas Eldar oglu Israfilov**.

The statement given by the victim **Jamal Bahram oglu Huseynov** at the preliminary investigation was announced in court. In his statement he indicated that on **25 May 2021**, at about **08:00**, the duty soldier **Ali Imanov**—

—said that he was moving quickly toward the combat position. At a distance of approximately **70 meters** from the position, on the road, there were two **KAMAZ** vehicles, two **Ural** vehicles, one **UAZ** sanitary vehicle, and one **QAZ-3308** vehicle. Seeing personnel in various uniforms, numbering approximately **150** persons and in combat readiness, moving quickly toward the combat position, they told the Armenian servicemen not to enter the position. They did not obey and, continuing to move forward, began resisting by striking them with fists and kicks. **Captain Ilkin Yusifov** struck an Armenian serviceman's body with a baton and knocked him to the ground. Several Armenian servicemen then struck **Captain Ilkin Yusifov** with fists and kicks and knocked him down. When **Ilkin Yusifov** was falling to the ground, the unlawful armed persons tried to strike him with the butt of an automatic weapon but failed to hit him. Another Armenian serviceman struck him in the left arm area with the butt of a rifle. He saw that **Adil Humbatov** struck the Armenian serviceman. Later, negotiations were held and the Armenian servicemen left the area.

It follows from the statements of the victims **Adil Nadir oglu Humbatov**, **Ilkin Salim oglu Yusifov**, **Kamil Aslan oglu Suleymanov**, **Arif Samandar oglu Gasimov**, and **Ali Saiq oglu Imanov**, announced and examined in the courtroom, that in their statements they confirmed the circumstances indicated by **Jamal Bahram oglu Huseynov**.

The statements given at the preliminary investigation by **Nurlan Mazahir oglu Tapdigli**, **Eshgin Faramaz oglu Rahimov**, **Asaf Valeh oglu Abbasov**, and **Orkhan Muhibbat oglu Jabbarli**, questioned as witnesses, were announced and examined in the courtroom. It follows from their statements that, by giving statements of the same content, they confirmed the statement of **Jamal Bahram oglu Huseynov**.

The statement given by the victim **Ilkin Namiq oglu Rustamov** at the preliminary investigation was announced in court. In his statement he indicated that on **28 October 2021**, he was appointed to the position of machine-gunner of the 1st machine-gun squad of the combat-support team of the 1st battalion of Military Unit No. "N" located in **Lachin District**, with the military rank of soldier. On **17 August 2022**, by order No. **245** of the commander of Military Unit No. "N", he went to the area where Military Unit No. "N" was deployed in order to place canopies on combat firing pits. On that day, at about **18:00**, while he and **50–60** other persons were digging trenches in that area in order to protect themselves from fire by Armenian armed formations and from other possible dangers, fire was opened by Armenian armed formations located **500–600 meters** away. As a result of the opened fire, he was wounded in the right shoulder area and was immediately evacuated from there by his comrades-in-arms to a medical facility.

The statement given as a witness by **Murad Aghagul oglu Guliyev** at the preliminary investigation was announced in court. In his statement he indicated that on **17 August 2022**, in the territory of **Lachin District**, while he was digging a trench together with his comrades-in-arms in order to protect himself from fire by Armenian armed formations, at about **18:00**, fire was opened twice by Armenian armed formations. He immediately shouted to his comrades-in-arms that they should enter the trench; however, the second of the fired bullets hit soldier **Ilkin Rustamov** in the shoulder area, causing him injury.

The statements of **Shahin Karam oglu Amanov** and **Rabil oglu Ali Khan**, which were announced and examined in the courtroom, show that, by giving statements of the same content, they confirmed the statement of **Murad Aghagul oglu Guliyev**.

The statement given by the victim **Vugar Nizam oglu Suleymanov** at the preliminary investigation was announced in court. In his statement he indicated that on **20 August 2022**, while serving in the military rank of senior lieutenant as commander of the telephone team of the communications platoon of the main command point of Military Unit No. "N" of the Ministry of Defense, at **13:42** he was in the direction of **Sarıbaba Height**, **Lachin District**—

—in the newly cleared part between combat positions Nos. **LM17** and **LM18**, where hard-rock names were used, near combat position No. **LM17**, on the side of the vehicle road, mostly laying a communications line. At that time, as a result of the explosion of an anti-personnel mine that had been planted earlier by members of Armenian armed formations in the territory of Azerbaijan where the peacekeeping contingent of the Russian Federation was temporarily deployed, he sustained an injury to his left foot. At that time, Warrant Officer **Shahmar Tagiyev**, a serviceman of Military Unit No. "N" of the Ministry of Defense, was near him. Immediately after the incident, doctors from the medical point of nearby Military Unit No. "N" provided him with first medical aid; he was then evacuated by medical aid vehicle first to the medical point of Military Unit No. "N", then to Military Hospital No. "N" located in **Kalbajar**, and then to Military Hospital No. "N".

The statement given as a witness by **Shahmar Safar oglu Tagiyev** at the preliminary investigation was announced in court. In his statement he indicated that on **20 August 2022**, while serving as squad commander of the radio-communications section of the communications platoon of the main command point of Military Unit No. "N" of the Ministry of Defense, as an extended active military serviceman, at about **09:00–10:00** he went, together with Senior Lieutenant **Vugar Nizam oglu Suleymanov**, the commander of the telephone team of the communications platoon of the main command point of Military Unit No. "N", extended active military serviceman **Madat Nurmammadov**, and the duty officer of the radio-communications platoon of the unit where he served, Senior Lieutenant **Araz Vagif oglu Mammadov**, to connect communications lines to combat positions Nos. **LM17**, **LM18**, **LM19**, and **LM20**, located in the direction of **Sarıbaba Height**, **Lachin District**.

On that day, at **13:42**, while **Vugar Suleymanov** was laying a communications line on the side of the vehicle road, mostly on the newly cleared part between combat positions Nos. **LM17** and **LM18**, near combat position No. **LM17**, as a result of the explosion of an anti-personnel mine that had been planted by members of Armenian armed formations in the territory of Azerbaijan where the Russian Federation peacekeeping contingent was temporarily deployed, he sustained an injury to his left foot. Immediately after the incident, doctors from the medical point of nearby Military Unit No. "N" provided him with first medical aid and he was evacuated.

It follows from the statements of **Madat Mahir oglu Nurmammadov** and **Araz Vagif oglu Mammadov**, announced and examined in the courtroom, that, by giving statements of the same content, they confirmed the statement of **Shahmar Safar oglu Tagiyev**.

The statement given by the victim **Heydar Elman oglu Gulmaliyev** at the preliminary investigation was announced in court. In his statement he indicated that on **21 August 2022**, in the morning, on the instruction given by the command of Military Unit No. "N" of the Ministry of Defense, they came with approximately one squad in order to clear the area around **Sarıbaba Mountain** of mines. Before that, they had been mobilized several times to clear the area around that mountain of mines. By lunchtime, the area around **Sarıbaba Height** had been cleared of **73 mines**. After lunch, they began the mine search again. At about **16:00**, he heard an explosion and felt that he had stepped on a mine. At that time, he was in a crouched position, and his right elbow was resting on the ground. At that moment, he saw that there was also a mine near his right arm and warned the soldiers who came to help him by saying, **"There is another mine near me."**The soldiers immediately removed that mine from there.

The statement given as a witness by **Fariz Goshgar oglu Mammadov** at the preliminary investigation was announced in court. In his statement he indicated that on **21 August 2022**, on the instruction of the engineering-fortification unit of Military Unit No. "N", together with four servicemen from the unit and five persons in total, they were called to search the area near combat position No. **LM-18** of Military Unit No. "N", located near **Saribaba Height**, **Lachin District**—

—located near combat position No. **LM-18**. In addition to him, the group included extended active military servicemen soldier **Vahid Yuzbashiyev**, soldier **Kenan Aslanov**, soldier **Sakhavat Mammadov**, and soldier **Heydar Elman oglu Gulmaliyev**. They were issued an **OZAN** mine detector, protective suits, and a **KR-I** kit, and they started the search in the morning hours of that day.

After eating lunch at **13:00**, they began the search again. Since the searched area was mountainous, during the search they moved at a distance of **40–50 meters** from one another for safety purposes. At about **16:00** that day, a loud explosion was heard, and when they

looked toward the place from which the sound had come, they saw soldier **Heydar Gulmaliyev** step on an anti-personnel mine.

It follows from the statements of witnesses **Vahid Yuzbashiyev**, **Kenan Aslanov**, and **Sakhavat Mammadov**, announced and examined in the courtroom, that they gave statements corresponding to the statement of the victim **Heydar Gulmaliyev** and witness **Fariz Mammadov**.

The statement given by the victim **Elchin Anvar oglu Zeynalzada** at the preliminary investigation was announced in court. In his statement he indicated that on **24 August 2022**, at about **13:00**, while he was observing with **BDS111**binoculars, No. **57514**, at combat position No. **3**, located in the village of **Marzili**, **Aghdam District**, a shot fired by members of Armenian armed formations located on the opposite side hit him in the right eye area, as a result of which he sustained an eye injury.

It follows from the statements of **Nurlan Agif oglu Bannayev**, **Eldar Tapdig oglu Mammadov**, **Sarkhan Gubad oglu Atakishiyev**, **Anvar Rza oglu Zeynalov**, **Eldar Nureddin oglu Guliyev**, **Kenan Sohlan oglu Mahmudov**, **Murad Elchin oglu Azizov**, and **Ramil Vidadi oglu Ramazanov**, questioned as witnesses and announced and examined in the courtroom, that they confirmed the fact indicated by the victim **Elchin Anvar oglu Zeynalzada**.

The statement given by the victim **Musa Azar oglu Ahmadov** at the preliminary investigation was announced in court. In his statement he indicated that, while serving in the military rank of soldier as machine-gunner of the 1st squad of the 3rd team of the 3rd company of the 1st battalion of Military Unit No. "N" of the Ministry of Defense, on **2 September 2022**, at about **17:00**, in the territory of the village of **Zaylik**, **Kalbajar District**, at the combat position of the 3rd company conditionally called **KS-15**, they were digging trenches and performing trench-fortification work there.

At that time, servicemen of the Armed Forces of Armenia opened fire on them from the direction of the **Yukhari Shorja** settlement of **Basarkechar District**, using automatic weapons and machine guns. At that moment, extended active military serviceman, Sergeant **Anar Ilham oglu Isgandarov**, who was serving with them, had his left ear and the left side of his neck grazed by the opened fire; then a bullet grazed his left arm as well. At that time, extended active military serviceman, Junior Sergeant **Farhad Nazir oglu Rzayev**, who was standing near them, also sustained a grazing injury to the back of his neck as a result of the opened fire.

The statement given by the victim **Anar Ilham oglu Isgandarov** at the preliminary investigation was announced in court. In his statement he indicated that, while serving in the military rank of sergeant as commander of the 3rd squad of the 3rd team of the 3rd company of the 1st battalion of Military Unit No. "N" of the Ministry of Defense, on **2 September 2022**, at about **17:00**, in the territory of the village of **Zaylik**, **Kalbajar District**, at the

combat position of the 3rd company conditionally called **KS-15**, they were digging trenches and performing trench-fortification work there.

At that time, servicemen of the Armed Forces of Armenia opened fire on them from the direction of the **Yukhari Shorja** settlement of **Basarkechar District**, using automatic weapons and machine guns. At that moment, his left ear and the left side of his neck were grazed by the opened fire; then, near him, soldier **Musa Azar oglu Ahmadov** also had his left arm grazed. At that time—

Page 1036

—extended active military serviceman, Junior Sergeant **Farhad Nazir oglu Rzayev**, who was standing near them, also sustained a grazing injury to the back of his neck as a result of the opened fire.

At the preliminary investigation by **Farhad Nazir oglu Rzayev**, recognized and questioned as a victim, was announced in court. In his statement he indicated that, while serving as driver of the 2nd team of the 3rd company of the 3rd battalion of Military Unit No. “N” of the Ministry of Defense, as an extended active military serviceman in the military rank of Junior Sergeant, on **2 September 2022**, at about **17:00**, in the territory of the village of **Zaylik**, **Kalbajar District**, at the combat position of the 3rd company conditionally called **KS-15**, they were digging trenches and performing trench-fortification work there.

At that time, servicemen of the Armed Forces of Armenia opened fire on them from the direction of the **Yukhari Shorja** settlement of **Basarkechar District**, using automatic weapons and machine guns. At that moment, a bullet hit the iron helmet on his head and, because the bullet ricocheted off the helmet, he did not sustain a serious injury, but only received a grazing wound to the back of the neck. At that time, near him, Sergeant **Anar Ilham oglu Isgandarov** had his left ear and left side of the neck grazed by the opened fire, and soldier **Musa Azar oglu Ahmadov** had his left arm grazed as well.

The statement given as a witness by **Emin Tariyel oglu Yolchuyev** at the preliminary investigation was announced in court. In his statement he indicated that, while serving in the military rank of captain as deputy commander for personnel of the headquarters company of the 1st battalion of Military Unit No. “N” of the Ministry of Defense, on **11 September 2022**, at about **17:00**, in the territory of the village of **Zaylik**, **Kalbajar District**, at the combat position of the 3rd company conditionally called **KS-15**, they were digging trenches and performing trench-fortification work there.

At that time, servicemen of the Armed Forces of Armenia opened fire on them from the direction of the **Yukhari Shorja** settlement of **Basarkechar District**, using automatic weapons and machine guns. At that moment, Junior Sergeant **Farhad Nazir oglu Rzayev**, Sergeant **Anar Ilham oglu Isgandarov**, and soldier **Musa Azar oglu Ahmadov** sustained injuries of varying degrees.

The statement given by **Anar Maharram oglu Muradov**, recognized as a victim and questioned as a witness, was announced in court. In his statement he indicated that on **2 September 2022**, in the territory of **Muxtarkend** village, **Khojaly District**, work was being carried out in accordance with an order to clear the area of mines and other combat ammunition. He and other servicemen — Junior Sergeant **Shahin Oktay oglu Muradli**, soldiers **Omar Vagif oglu Nasirov**, **Khayal Gadir oglu Mammadov**, **Yunis Arif oglu Bakhshov**, **Nariman Adalat oglu Huseynov**, **Gabil Valeh oglu Suleymanov**, and **Shahruz Matlab oglu Rustamli** — were carrying out that order. At that time, at approximately **12:55**, they brought a **MON-200** mine remaining from Armenian armed formations; because they wanted to dismantle the safety cap, he put it on loose soil. The mine fell onto it and touched his right foot. At that moment, an explosion occurred, and the other servicemen sustained injuries of varying severity. Immediately after the incident, they were evacuated to the military hospital.

It follows from the statements of Junior Sergeant **Shahin Oktay oglu Muradli**, soldiers **Omar Vagif oglu Nasirov**, **Khayal Gadir oglu Mammadov**, **Yunis Arif oglu Bakhshov**, **Nariman Adalat oglu Huseynov**, **Gabil Valeh oglu Suleymanov**, and **Shahruz Matlab oglu Rustamli**, announced and examined in the courtroom, that in their statements they confirmed the circumstances indicated by soldier **Anar Maharram oglu Muradov**.

The statement given by soldier **Anar Safar oglu Dadashzade** at the preliminary investigation was announced in court. In his statement he indicated that on **13 August 2022**, after finishing lunch, while he was taking firewood and preparing food, one explosion occurred nearby with a loud sound; as a result of the explosion—

—since he was approximately **2–3 meters** from the fire, he sustained small shrapnel wounds to his face and various parts of his body. As a result of that explosion, other servicemen present there also sustained injuries. Because of the injuries they had received as a result of the explosion, other servicemen of the military unit who came to assist provided them with first medical aid and evacuated them to Military Hospital No. “N”.

It follows from the statements of the victims **Mahabbat Tabriz oglu Guliyev**, **Ali Chingiz oglu Rahimov**, **Farzani Yasar oglu Najafzade**, **Mahammad Adil oglu Nagizade**, **Ibrahim Ilham oglu Ganbarov**, and **Sahib Soltan oglu Ibrahimov**, announced and examined in the courtroom, that in their statements they confirmed what soldier **Anar Safar oglu Dadashzade** had indicated.

It follows from the statements of **Saribala Mammadali oglu Hasanov**, the legal successor of the victim **Said Saribala oglu Hasanov**, announced and examined in the courtroom, that the statement he gave at the preliminary investigation was announced in court. In that statement he indicated that his son **S.S. Hasanov** had begun serving as an extended active military serviceman in August 2013. On **13 September 2022**, while preventing large-scale

provocative actions by Armenian armed formations and defending **Kalbajar District**, he died as a result of fire opened by members of Armenian armed formations.

At the preliminary investigation by **Mail Shukur oglu Huseynov**, the legal successor of the victim **Ziyarat Mail oglu Huseynov**, was announced in court. In that statement he indicated that his son **Z.M. Huseynov** had begun serving as an extended active military serviceman in January 2014. On **13 September 2022**, while preventing large-scale provocative actions by Armenian armed formations and defending **Kalbajar District**, he became a martyr as a result of a sniper bullet fired by members of Armenian armed formations striking the right side of the front wall of his chest.

At the preliminary investigation by **Mahabbat Aghabala oglu Gurbanov**, the legal successor of the victim **Saleh Mahabbat oglu Gurbanov**, was announced in court. In that statement he indicated that his son **S.M. Gurbanov** had served as an officer in a military unit of the Ministry of Defense since 2012. On **13 September 2022**, while preventing large-scale provocative actions by Armenian armed formations and defending **Lachin District**, he became a martyr as a result of a mortar shell fired by members of Armenian armed formations falling near him and exploding.

At the preliminary investigation by **Sola Novruz gizi Samadova**, the legal successor of the victim **Elmin Mirzali oglu Isayev**, was announced in court. In that statement she indicated that her son **E.M. Samadov** had begun serving as an extended active military serviceman in a military unit of the Ministry of Defense in October 2021. On **13 September 2022**, while preventing large-scale provocative actions by Armenian armed formations and defending **Lachin District**, he died as a result of the explosion of a mortar shell fired by members of Armenian armed formations.

At the preliminary investigation by **Javad Haji oglu Aliyev**, the legal successor of the victim **Ali Javad oglu Aliyev**, was announced in court. In that statement he indicated that his son **A.J. Aliyev** had begun serving as an officer in a military unit of the Ministry of Defense in June 2019. On **13 September 2022**, the **Sharur District Department of the State Service for Mobilization and Conscription** called him and informed him that his son **A.J. Aliyev** had died as a result of the explosion of a mortar shell fired by members of Armenian armed formations while preventing large-scale provocative actions by Armenian armed formations and defending **Lachin District**.

Page 1038

At the preliminary investigation by **Rufat Hasan oglu Fatullayev**, the legal successor of the victim **Rafail Rufat oglu Fatullayev**, was announced in court. In that statement he indicated that his son **R.R. Fatullayev** had begun compulsory active military service in a military unit of the Ministry of Defense in April 2021. On **13 September 2022**, the **Neftchala District Department of the State Service for Mobilization and Conscription** called him and informed him that his son **R.R. Fatullayev** had died as a result of the explosion of a mortar

shell fired by members of Armenian armed formations while preventing large-scale provocative actions by Armenian armed formations and defending **Kalbajar District**.

At the preliminary investigation by **Khayala Arif gizi Farzaliyeva**, the legal successor of the victim **Emin Elnur oglu Farzaliyev**, was announced in court. In that statement she indicated that her son **E.E. Farzaliyev** had begun compulsory active military service in January 2022. On **13 September 2022**, the **Aghjabadi District Department of the State Service for Mobilization and Conscription** called her and informed her that her son **E.E. Farzaliyev** had died on **12 September 2022** as a result of the explosion of a mortar shell fired by members of Armenian armed formations while preventing large-scale provocative actions by Armenian armed formations and defending **Kalbajar District**.

At the preliminary investigation by **Shohrat Ibrahim oglu Hasanov**, the legal successor of the victim **Ibrahim Shohrat oglu Hasanov**, was announced in court. In that statement he indicated that his son **I.Sh. Hasanov** had begun compulsory active military service in a military unit of the Ministry of Defense in January 2022. On **13 September 2022**, while preventing large-scale provocative actions by Armenian armed formations and defending **Kalbajar District**, he died as a result of the explosion of a mortar shell fired by members of Armenian armed formations.

At the preliminary investigation by **Mehman Yasar oglu Gasimov**, the legal successor of the victim **Nihad Mehman oglu Gasimov**, was announced in court. In that statement he indicated that his son **N.M. Gasimov** had begun compulsory active military service in a military unit of the Ministry of Defense in April 2021. On **13 September 2022**, while preventing large-scale provocative actions by Armenian armed formations and defending **Kalbajar District**, he died as a result of the explosion of a mortar shell fired by members of Armenian armed formations.

At the preliminary investigation by **Yegana Abbas gizi Muradova**, the legal successor of the victim **Bakhtiyar Guloglan oglu Muradov**, was announced in court. In that statement she indicated that her son **B.G. Muradov** had begun compulsory active military service in a military unit of the Ministry of Defense in November 2021. On **13 September 2022**, while preventing large-scale provocative actions by Armenian armed formations and defending **Kalbajar District**, he died as a result of fire from a mortar shell fired by members of Armenian armed formations.

At the preliminary investigation by **Sabir Nasib oglu Aliyev**, the legal successor of the victim **Uzeyir Sabir oglu Aliyev**, was announced in court. In that statement he indicated that his son **U.S. Aliyev** had begun serving as an extended active military serviceman in a military unit of the Ministry of Defense in February 2020. **U.S. Aliyev** died on **13 September 2022** as a result of fire opened by members of Armenian armed formations while preventing large-scale provocative actions by Armenian armed formations and defending **Kalbajar District**.

At the preliminary investigation by **Sevil Akbar gizi Rzayeva**, the legal successor of the victim **Tarlan Parviz oglu Rzayev**, was announced in court. In that statement she indicated that her son **T.P. Rzayev** had begun compulsory active military service in a military unit of the Ministry of Defense in July 2021. **T.P. Rzayev** died on **13 September 2022** as a result of fire from a mortar shell fired by illegal Armenian armed formations while preventing large-scale provocative actions by those formations and defending **Kalbajar District**.

At the preliminary investigation by **Zaur Alik oglu Azizov**, the legal successor of the victim **Sadiq Zaur oglu Azizli**, was announced in court. In that statement he indicated that his son **S.Z. Azizli** had begun compulsory active military service in a military unit of the Ministry of Defense in April 2021. **S.Z. Azizli** died on **13 September 2022**as a result of fire from a mortar shell fired by members of Armenian armed formations while preventing large-scale provocative actions by Armenian armed formations and defending **Kalbajar District**.

At the preliminary investigation by **Sovgiya Rafail gizi Gasimova**, the legal successor of the victim **Rashad Anvar oglu Gasimov**, was announced in court. In that statement she indicated that her son **R.A. Gasimov** had begun compulsory active military service in a military unit of the Ministry of Defense in April 2021. **R.A. Gasimov** died on **13 September 2022** as a result of fire from a mortar shell fired by members of Armenian armed formations while preventing large-scale provocative actions by Armenian armed formations and defending **Kalbajar District**.

At the preliminary investigation by **Jamafat Teymur gizi Azizova**, the legal successor of the victim **Nazar Aghajalil oglu Azizov**, was announced in court. In that statement she indicated that her son **N.A. Azizov** had begun serving as an extended active military serviceman in a military unit of the Special Forces of the Ministry of Defense in late 2011. **N.A. Azizov** died on **12 September 2022** as a result of fire opened by members of Armenian armed formations while preventing large-scale provocative actions by Armenian armed formations and defending **Kalbajar District**.

At the preliminary investigation by **Gasim Yunis oglu Kazimov**, the legal successor of the victim **Yunis Gasim oglu Kazimov**, was announced in court. In that statement he indicated that his son **Y.G. Kazimov** had begun serving as an officer in a military unit of the Special Forces of the Ministry of Defense in 2016. **Y.G. Kazimov** died on **13 September 2022** as a result of fire opened by members of Armenian armed formations while preventing large-scale provocative actions by Armenian armed formations and defending **Kalbajar District**.

At the preliminary investigation by **Faid Bayram oglu Rustamov**, the legal successor of the victim **Elnur Faid oglu Rustamov**, was announced in court. In that statement he indicated that his son **E.F. Rustamov** had begun serving as an extended active military serviceman in a military unit of the Special Forces of the Ministry of Defense in late 2009. **E.F. Rustamov** died on **12 September 2022** as a result of fire opened by members of Armenian armed formations while preventing large-scale provocative actions by Armenian armed formations and defending **Kalbajar District**.

At the preliminary investigation by **Mubariz Rajab oglu Omarov**, the legal successor of the victim **Sarkhan Mubariz oglu Omarov**, was announced in court. In that statement he indicated that his son **S.M. Omarov** had begun serving as an officer in a military unit of the Special Forces of the Ministry of Defense in July 2020—

—had begun his service. **S.M. Omarov** died on **12 September 2022** as a result of fire opened by members of Armenian armed formations while preventing large-scale provocative actions by Armenian armed formations and defending **Kalbajar District**.

Page 1118

were killed, and at the same time he, Lieutenant Seymur Hasanli, and several other servicemen of military unit No. “N” whose names he did not remember sustained various types of bodily injuries.

The statement given during the preliminary investigation by **Nasib Alakbarov, son of Telman**, who had been recognized and questioned as a victim and who served as commander of the 3rd group of the 3rd platoon of the 3rd company of the 1st battalion of military unit No. “N” of the Ministry of Defence, with the rank of warrant officer, was read out in court. In that statement, he indicated that, while preventing large-scale actions of a provocative nature committed by Armenian armed formations, on 13.09.2022, at around 16:00, in the territory of the Dashkasan district, as a result of the explosion of an artillery shell fired by Armenian armed formations, servicemen of military unit No. “N” whose names he did not currently remember were killed, and at the same time he and several other servicemen of military unit No. “N” whose names he did not remember sustained various types of bodily injuries.

The statement dated 01.02.2023, given during the preliminary investigation by **Elmir Maharramov, son of Narbala**, who had been questioned as the legal successor of the victim, was read out in court. In that statement, he indicated that **Elnur Maharramov, son of Narbala**, was his biological brother. Elnur Maharramov was called up for military service in October 2021 and served in military unit No. “N” located in the Kalbajar district. On 15.09.2022, at approximately 10:00, he was informed by the village executive representative’s office that his brother Elnur Maharramov had been killed as a result of the explosion of a mine planted by Armenian armed formations. That same day, his body was brought to Shakar village of the Goychay district, where he lived, and was buried with the participation of the district community.

It appears from the statements of witnesses **Elmaddin Bakhshiyev, son of Huseyn**, private; **Elgun Hasanov, son of Gurshad**, sergeant; **Heydar Akhundov, son of Khalid**, private; and **Nemat Alakbarov, son of Yashar**, captain, which were announced in the courtroom and confirmed, that they confirmed what had been stated in the testimony of **Ali Aslanov, son of Zargam**, sergeant.

The statement given during the preliminary investigation by **Sakhavat Rajabov, son of Togrul**, who had been questioned as a victim and who served as deputy head of the 2nd group of the 1st operations department of the rapid operations battalion of military unit No. “N” of the State Border Service, with the rank of lieutenant, was read out in court. In that statement, he indicated that on 15.09.2022, at approximately 16:30, they began carrying out a combat assignment; on his instruction, he and servicemen of military unit No. “N” — Chief Sergeant **Rashad Huseynli, son of Ramiz**, and Chief Sergeant **Behruz Nazarov, son of Sattar** — were to move ahead as the first subgroup, while the second subgroup, consisting of serviceman **Ceyhun Rzaguliev** of military unit No. “N” and servicemen of the military unit

in which he served, Chief Warrant Officer **Ravan Guliyev** and **Parviz Abdullayev**, was to move approximately 45–50 metres behind them. At approximately 17:00, while moving along the previously planned route in order to carry out the combat assignment, they stopped to observe the upward direction of movement. At that moment, Armenian servicemen suddenly began firing from the surrounding woodland area along the planned route in his direction and in the direction of R. Huseynli. Since he and Chief Sergeant R. Huseynli were moving in front, they were unable to defend themselves against the sudden attack by Armenian servicemen and sustained injuries.

It appears from the statements of witnesses **Behruz Nazarov, son of Sattar**, and **Ceyhun Rzaguliev, son of Cavad**, which were announced in the courtroom and confirmed, that they gave statements similar in content to the statement of **Sakhavat Rajabov, son of Togrul**.

The statement given during the preliminary investigation by victim **Aydin Alizade, son of Aghamoghlan**, was read out in court. In that statement, he indicated that on 23.09.2022, at around 15:30, while conducting mine searches in the service area of combat position No. "K2" of the 2nd battalion of military unit No. "N" of the Ministry of Defence of the Republic of Azerbaijan, located in the area called Alagollar in the Kalbajar district, he stepped on a mine and sustained an injury to his right leg. After being given first aid, he was evacuated to military hospital No. "N".

Page 1119

It appears from the statements of witnesses — servicemen of military unit No. "N", **Ali Rahmanzade, son of Rovshan**, and **Mahammad Huseynov, son of Tahir** — which were announced in the courtroom and confirmed, that they gave statements similar in content to that of victim Aydin Alizade and confirmed the fact stated by him.

The statement given during the preliminary investigation by victim **Ravan Javadov, son of Shamsaddin**, was read out in court. In that statement, he indicated that he had served in military unit No. "N"; from 01.08.2022, together with other servicemen of the military unit, he had been temporarily positioned in the village of Gamishli in the Kalbajar district. On 23.09.2022, at around 18:00, he was taken in two Kamaz vehicles belonging to the military unit to dig a trench at a combat position whose name he did not remember, located in the settlement of Jermuk. A few minutes after they arrived, Armenian armed formations opened warning fire into the air, at which moment all personnel bent downward. Shortly afterwards, the position where they were standing came under fire from Armenian armed formations; as a result, he and other servicemen were injured, and they were then taken to military hospital No. "N".

It appears from the statements of victims **Ruhi Rahimzade, son of Oktay**, **Rashad Amanullayev, son of Aghajan**, and others, which were announced in the courtroom and confirmed, that they gave statements similar in content to that of **Ravan Javadov, son of Shamsaddin**, and confirmed the fact stated by him.

The statement given during the preliminary investigation by victim **Sabuhi Aliyev, son of Vahid**, was read out in court. In that statement, he indicated that on 25.09.2022, at around

11:00, while serving as a scout-medic of the 1st group of the 2nd company of the 1st battalion of military unit No. “N”, and while carrying out engineering-fortification work, including digging a trench, in the area assigned to him in order to protect against fire and attack by Armenian military formations, he sustained a gunshot wound to the thigh area as a result of intense fire from small- and medium-calibre weapons opened by armed formations located around Lake Goycha, approximately 800 metres away from him.

It appears from the statements of witnesses — **Kanan Valizade, son of Nariman**, junior sergeant, scout-aimer of the 1st group of the 2nd company of the 1st battalion of military unit No. “N”; and **Vusal Shahguliyev, son of Mazahir**, private, scout-operator of the 1st group of the 2nd company of the 1st battalion of military unit No. “N” of the Ground Forces — which were announced in the courtroom and confirmed, that on 25.09.2022, at around 11:00, while they were serving in the 1st group of the 2nd company of the 1st battalion of military unit No. “N”, as a result of intense fire from small- and medium-calibre weapons opened by armed formations located around Lake Goycha, approximately 800 metres away from them, **Sabuhi Aliyev, son of Vahid**, scout-medic of the 1st group of the 2nd company of the 1st battalion of military unit No. “N”, sustained a gunshot wound to the thigh area.

The statement given during the preliminary investigation by victim **Firuddin Namazaliyev, son of Rafayil**, was read out in court. In that statement, he indicated that on 25.09.2022, at around 11:00, while serving as commander of the grenade-launcher squad of the anti-tank unit of the 1st squad of the 2nd platoon of military unit No. “N”, and while carrying out engineering-fortification work, including digging a trench, in the area assigned to him in order to protect against fire and attack by Armenian military formations, he sustained a gunshot wound to the right thigh area as a result of intense fire from small- and medium-calibre weapons opened by armed formations located around Lake Goycha, approximately 1,000 metres away from him.

It is evident from the testimonies of Elvin Yavar oglu Guliyev and Ilkin Namig oglu Huseynov, who were interrogated as witnesses and announced in the courtroom, that on September 25, 2022, at around 11:00, while they were serving in the 1st squad of the 2nd platoon of the anti-tank unit of the military unit No. "N", as a result of intense fire from small and medium-caliber weapons from armed units located around Lake Goycha, approximately 1,300 meters away,

Page 1120

the commander of the grenade launcher squad of the anti-tank unit of the military unit No. "N", a serviceman who had served over the term of active military service, soldier Namazalıyev Firuddin Rafael oglu, received a bullet wound in the thigh.

The statement of **Nijat Isgandarov, son of Hidayat**, who had been recognized and questioned as a victim, was read out in court. In that statement, he indicated that on 28.09.2022, at around 17:00, when they saw an excavator belonging to Armenia digging a trench from the Armenian side in the direction of combat position K-82-C and moving toward them in the direction of the ravine, the commander of the 1st platoon of the 1st company, Lieutenant **Khayal Novruzzade, son of Bahman**, informed the battalion

commander, Captain **Vusal Najafbayli**, about this. The latter reported this to higher command and was instructed to open warning fire. After that, Lieutenant Novruzzade opened fire toward the position where Armenian armed formations were located, in the direction of the tractor; in response, Armenian armed formations fired at the tent where their personnel were located. In addition to him, servicemen **Dilgam Valiyev**, **Vusal Almuradzade**, and **Aqil Islamzade** were also near the tent. While he was lying on the ground, a 5.45 mm-calibre bullet fired by the Armenians entered from the area of his right lower jaw and exited through the forehead area. His fellow soldiers immediately came to him, provided first aid, and placed a bandage over his eye. The battalion feldsher, Lieutenant **Orkhan Mammadov**, who arrived at the combat position, took him by a Kamaz vehicle to the battalion medical point, and from there he was evacuated to a hospital.

It appears from the statements of witnesses **Dilgam Valiyev, son of Adigozal**, **Vusal Almuradzade, son of Vahid**, and **Aqil Islamzade, son of Ramil**, which were announced and examined in the courtroom, that they confirmed what Nicat Isgandarov had stated and gave statements of the same content.

The statement given during the preliminary investigation by Lieutenant Colonel **Gorkhmaz Mamiyev, son of Mazahim**, who was questioned as a witness and who served as head of the engineering-support department of the military unit, was read out in court. In that statement, he indicated that on 13.09.2022, at around 12:00, in the territory of the Dashkasan district, at the foot of Mount Bughdadag, during the construction of supply roads, an engineering reconnaissance group under his supervision, consisting of extended active-duty Junior Sergeant **Elsevar Alakbarov, son of Malik**, commander of the 1st engineering-fortification squad of the engineering-fortification platoon of the engineering-fortification company of the military unit's combat-support battalion, and soldiers **Vugar Khudiyev, son of Mahir**, and **Gadir Abbasov, son of Gabil**, carried out mine-search operations using Ozan mine-detection devices. During the search, at the foot of Mount Bughdadag, at an altitude of 2,312 metres, at coordinates X-4464787, Y-8573289 under the SK-42 coordinate system, 60 metres from the route of the road being laid, they discovered four TM-62M anti-tank mines and eight PMN-2 anti-personnel mines planted by servicemen of the Republic of Armenia. Since five of the anti-personnel mines were dangerous to remove from the soil, they were destroyed on site; the other mines were neutralized, removed from the soil, and placed together at one location on the roadside. In addition, the road itself and its left and right sides were inspected by the engineering reconnaissance group using Ozan mine-detection devices, but no additional mines were found in the surrounding area.

In addition, on the same day, 13.09.2022, at around 15:00, approximately 1,500 metres from the above-mentioned location, at the foot of unnamed elevations around Mount Bughdadag, at an altitude of 2,491 metres, at coordinates X-4463899, Y-8572557 under the SK-42 coordinate system, the engineering reconnaissance group under his supervision discovered six TM-62M anti-tank mines planted by servicemen of the Republic of Armenia using Ozan mine-detection devices. Five of them were on the road they had laid, and one was on the right side of the road. The six discovered mines were neutralized by the engineering reconnaissance group, removed from the soil, and placed together slightly higher up on the

right side of the road. At that location, during a search by the engineering reconnaissance group using Ozan mine-detection devices over the surrounding area of approximately **120 square metres**,

Page 1121

no anti-personnel mines, and no anti-tank mines other than the six anti-tank mines found there, were discovered. The surrounding area there was fully cleared.

In addition, on 14.09.2022, approximately 500 metres ahead of the place where the six anti-tank mines had been discovered, at the foot of unnamed elevations, at an altitude of 2,520 metres, at coordinates X-4463743, Y-8572278 under the SK-42 coordinate system, while supply roads were being laid, during a search over a distance of approximately 60–80 metres using Ozan mine-detection devices, the engineering reconnaissance group discovered TM-62M anti-tank mines planted by servicemen of the Republic of Armenia. For that reason, the supply road, the right and left sides of the road, and an area of 0.5 hectares there were searched using Ozan mine-detection devices by the engineering reconnaissance group, and 64 TM-62M anti-tank mines were discovered there. The discovered mines were neutralized and removed from the soil; they were then brought to the six anti-tank mines that had been discovered 500 metres back and placed by the roadside, and were placed there as well. The surrounding area there was also fully cleared of mines. At present, there are a total of 70 TM-62M anti-tank mines at the side of the above-mentioned supply road. All three areas are, according to the map, territory of the Republic of Azerbaijan. Nevertheless, after the tripartite statement signed on 10.11.2020, servicemen of the Republic of Armenia planted numerous mines in those areas. In all three locations he mentioned, there had been no incident of any serviceman or civilian stepping on the mines planted by Armenian servicemen and later discovered.

It appears from the statement of extended active-duty Junior Sergeant **Elsevar Alakbarov, son of Malik**, commander of the 1st engineering-fortification squad of the engineering-fortification platoon of the engineering-fortification company, which was announced and examined in the courtroom, that he confirmed the facts stated by **Gorkhmaz Mamiyev, son of Mazahim**, and gave a statement of the same content.

The statement given during the preliminary investigation by Captain **Panah Novruzov, son of Yusif**, who was questioned as a witness and who served as commander of the military unit's engineering-fortification company, was read out in court. In that statement, he indicated that on 23.09.2022, the commander of the military unit, Captain **Babak Aghayev**, informed him that there was a possibility that Armenian servicemen had planted mines in the Alagollar area of the Kalbajar district, and instructed him to inspect the area. Together with the personnel of the company he commanded, he carried out search operations in that area using Ozan mine-detection devices, in an area located 5.6 kilometres north of Kichik Alagol in a straight line. There had previously been an enemy combat position there. On 24.09.2022, during an inspection in that area, sapper soldier **Aydin Alizade, son of Aghamoghlan**, stepped on an anti-personnel mine and sustained an injury to his right heel. An area of approximately 20 hectares was inspected there, and in a 0.14-hectare area below, in a

direction parallel to the combat position left behind by the Armenians, at coordinates X: 4432854–4432944; Y: 8567180–8567239 under the SK-42 coordinate system, 543 PMN-E blast-type anti-personnel mines and eight TM-62M anti-tank mines were discovered. All the discovered mines were removed from the soil and taken to an ammunition collection point near that area, where they were stored. He stated that the area around that combat position had been fully cleared. He reported that, although the area is sovereign territory of the Republic of Azerbaijan according to the map, after the tripartite statement signed on 10.11.2020, servicemen of the Armenian Armed Forces planted at least 544 PMN-E blast-type anti-personnel mines and eight TM-62M anti-tank mines there.

From the statements of Junior Sergeant Valiyev Turan Demir oglu, a military serviceman who had been questioned as a witness for an extended period of active military service and was announced in the courtroom,

it appears that Novruzov gave a statement similar to that of Panah Yusif oglu, confirming the facts he indicated.

The statement given during the preliminary investigation by Captain **Ulvi Aliyev, son of Ismayil**, who was questioned as a witness and who served as head of the engineering service of the military unit, was read out in court. In that statement, he indicated that, at the head of Konkurdagh, in an area where Armenian military formations had had combat positions, an instruction had been given to discover and neutralize mines, and for that purpose, on 27.07.2022, he went to the area together with a mine-search group. According to the map, that area is territory of the Republic of Azerbaijan, and its coordinates under the SK-42 coordinate system are X-4460007, Y-8582642. On the dirt road in that area, on its right and left sides, in an area of approximately 0.07 hectares, that is, 700 square metres, the group discovered, on 27–28 July 2022, using Ozan mine-detection devices, 51 PMN-E blast-type anti-personnel mines and 22 TM-62M anti-tank mines. They neutralized them, brought them approximately 150 metres down from there along the dirt road, and placed them on the right side of the road. The serial numbers “G-001M 45 20”, “48”, and “G-001M 36 19” were written on three of the PMN-E anti-personnel mines. The TM-62M anti-tank mines bore the serial numbers TM-62M-79-75, TM-62M-6-120-75, and TM-62M-30-75. Since the area around the dirt road had not been fully cleared of mines on the right and left sides, an inspection of approximately 10 hectares of land around that area was to begin in the summer months.

In addition, on 8–9 September 2022, in the Kalbajar district, two kilometres south of the overhead line from the Zod deposit, on territory of the Republic of Azerbaijan, in an area of 200 square metres, 72 PMN-E anti-personnel mines planted by servicemen of the Republic of Armenia were discovered, neutralized, and destroyed on site. The coordinates of that area under the SK-42 coordinate system are X-4453505, Y-8583482. That area has not been fully cleared of mines either, and there is a possibility that more mines remain there.

In addition, on 9–10 September 2022, in the Kalbajar district, two kilometres south-east of the overhead line from the Zod deposit, on territory of the Republic of Azerbaijan, about 100

metres from the combat positions, in soil taken from the dirt road by an excavator and dumped down on the right side, 50 PMN-E anti-personnel mines planted by servicemen of the Republic of Armenia exploded and were destroyed. The coordinates of that area under the SK-42 coordinate system are X-4453613, Y-8583642. Although all three areas are, according to the map, territory of the Republic of Azerbaijan, after the tripartite statement signed on 10.11.2020, Armenian servicemen planted numerous mines there.

It appears from the statements of extended active-duty serviceman Junior Sergeant **Afgan Hasanov, son of Karam**, which were announced and examined in the courtroom, that he gave a statement similar in content to that of **Ulvi Aliyev, son of Ismayil**, and confirmed the facts stated by him.

The statement given during the preliminary investigation by Captain **Namiq Basheyishzade, son of Isaq**, who was questioned as a witness and who served as head of the engineering service of military unit No. "N", was read out in court. In that statement, he indicated that from 29.09.2022 to 06.10.2022, mine-search work was carried out by an engineering-reconnaissance group in the territory of the Dashkasan district, at the northern foot of Mount Bughdadag. In a ravine at coordinates X-8569267, Y-4466118 under the SK-42 coordinate system, 213 PMN G001-M anti-personnel mines planted by servicemen of the Armed Forces of the Republic of Armenia were discovered. The anti-personnel mines were neutralized, removed from the soil, and placed on the grass cover. In addition, about 700 metres from the indicated place, in a ravine on the right side of Mount Bughdadag, at coordinates X-8571350, Y-4464786 under the SK-42 coordinate system, under his supervision, the engineering-reconnaissance group discovered 400 anti-personnel

mines of the PMN G001-M type. They were neutralized, removed from the soil, taken away, and placed on the grass cover. Since it was not possible to neutralize three of them, those three were placed separately from the others on a stone. Both areas are, according to the map, sovereign territory of the Republic of Azerbaijan.

The statement given during the preliminary investigation by **Adam Novruzlu, son of Aftandil**, who was questioned as a witness, was read out in court. In that statement, he indicated that on 13.09.2022, at around 10:00, the engineering-fortification group began mine-search work in the area around the third kilometre of the Lachin–Gubadli road, and at around 11:00 that same day, at the third kilometre of the Lachin–Gubadli road, in a ravine on the left side of the road, in an area that had previously been used as a motor road but was no longer in use, two TM-62P2 anti-tank mines were discovered. Those mines, made of plastic, with a total weight of seven kilograms, had been produced by the Russian Federation, formerly the USSR, since 1962; they were filled with TNT explosive material, had a mechanical detonator, could be triggered by a load of 25 to 30 kilograms applied to the top, could explode at temperatures from -20°C to +50°C, and were in combat-ready condition when discovered. After those mines were discovered, they were taken to a temporary ammunition collection point in compliance with safety rules and secured there.

On 17.09.2022, the engineering-fortification group discovered one TM-62P2 anti-tank mine approximately 70 metres from the area where the mines had been discovered on 13.09.2022, in the ravine on the left side of the road at the third kilometre of the Lachin–Gubadli road, in the area that had previously been used as a motor road but was no longer in use. That mine, made of plastic, with a total weight of seven kilograms, had been produced by the Russian Federation, formerly the USSR, since 1962; it was filled with TNT explosive material, had a mechanical detonator, could be triggered by a load of 25 to 30 kilograms applied to the top, could explode at temperatures from -20°C to +50°C, and was in combat-ready condition when discovered. After the mine was discovered, it was taken to a temporary ammunition collection point in compliance with safety rules and secured there. The absence of any change in the paint coating and external appearance of the mines, and the absence of any signs of deformation or corrosion on them, indicate that those mines had been planted shortly before they were discovered. Before the engineering-reconnaissance work began, when a general inspection of the area was carried out, it was assumed that a weapons depot had previously been located there. For that reason, the area was conditionally named "Lachin depot". However, as a result of the subsequent engineering-reconnaissance measures, it was established that there was no depot in that area. Apart from the above, during engineering-reconnaissance measures carried out in those areas, no other ammunition or explosive materials were discovered.

The statement given during the preliminary investigation by Junior Sergeant **Adilkhan Gasimov, son of Tahir**, who was questioned as a witness and who served as commander of the 2nd engineer-fortification squad of the 1st engineer-fortification platoon of the engineer-fortification company of military unit No. "N", was read out in court. In that statement, he indicated that on 19.09.2022, engineering-reconnaissance measures were continued in the territory of the Lachin district. In a ravine on the right side of the supply road leading to the combat positions located at the northern foot of Mount Boyuk Ishigli, a total of 122 **E-001M blast-type anti-personnel mines** were discovered. Their bodies were made of plastic; their total weight was 400 grams; the mass of the explosive material placed inside ranged from 40 to 100 grams; their dimensions were 160x120x55 millimetres; they had a mechanical detonator; a load of eight to 25 kilograms applied to the top was sufficient to trigger detonation; they could explode at temperatures from -20°C to +50°C; and when discovered, those mines were in combat-ready condition. Upon examining the markings on the mines indicating their year and week of manufacture, it was established that **91 of those mines had been manufactured in the second week of 2021, and 31 in the forty-seventh week of 2016**.

Page 1124

After that, the detonator caps on those mines were removed, and, in compliance with safety rules, the mines were taken to a temporary ammunition collection point and secured there. On 21.09.2022, while engineering-fortification measures were being continued in those areas in order to lay supply roads to the combat positions of military unit No. "N", 90 E-001M blast-type anti-personnel mines were discovered in a ravine on the northern slope of Mount Boyuk Ishigli, in the territory of the Lachin district, in an area 100 metres long and 10 metres deep.

Their bodies were made of plastic; their total weight was 400 grams; the mass of the explosive material placed inside ranged from 40 to 100 grams; their dimensions were 160x120x55 millimetres; they had a mechanical detonator; a load of eight to 25 kilograms applied to the top was sufficient for detonation; they could explode at temperatures from -20°C to +50°C; and when discovered, those mines were in combat-ready condition. Upon examining the indicators on the mines showing their year and week of manufacture, it was established that 80 of those mines had been manufactured in the second and ninth weeks of 2021, and 10 in the forty-seventh week of 2016. Since two mines manufactured in 2021 posed a danger of explosion at the place where they had been discovered, they were destroyed by detonation at the discovery site; the other 88 mines, after their detonator caps were removed, were taken in compliance with safety rules to a temporary ammunition collection point. The fact that those mines had been manufactured in 2021, that there were no changes in their camouflage layer or external appearance, and that no deformation or corrosion marks were detected on them indicates, in military terms, that those mines had been planted by Armenian military formations shortly before they were discovered.

It appears from the statements of Captain **Rustam Aghayev, son of Elshan**, commander of the engineer-fortification company of military unit No. "N", who was questioned as a witness, which were announced and examined in the courtroom, that he gave a statement similar in content to that of **Adilkhan Gasimov, son of Tahir**, and confirmed the facts stated by him.

The statement given during the preliminary investigation by Lieutenant **Murad Hajiyev, son of Elshan**, commander of the engineer-fortification company of military unit No. "N", who was questioned as a witness, was read out in court. In that statement, he indicated that in August 2022 new combat positions were established for the military unit in which he served on the slopes of the Saribaba mountain range, in the territory of the Lachin district, and near Ikinci Ipak village of the Lachin district. In accordance with the relevant instruction of higher command, a decision was made to carry out engineer-reconnaissance measures in those areas. For that purpose, on 15.08.2022, an engineer-fortification group began engineer-reconnaissance of the area around Mount Saribaba and the territory of Ikinci Ipak village. On that date, at around 12:00, in a ravine on the left and right sides of the supply road leading to the newly established combat position, provisionally called "LM-17", in the north-western direction of Mount Saribaba, a total of 991 E-001M blast-type anti-personnel mines were discovered, buried irregularly approximately 0.5 metres apart in three rows, in an area approximately 450 metres long and five metres deep. Their bodies were made of plastic; their total weight was 400 grams; the mass of the explosive material placed inside ranged from 40 to 100 grams; their dimensions were 160x120x55 millimetres; they had a mechanical detonator; a load of eight to 25 kilograms applied to the top was sufficient for detonation; they could explode at temperatures from -20°C to +50°C; and when discovered, those mines were in combat-ready condition. Upon examining the indicators on the mines showing their year and week of manufacture, it was established that those mines had been manufactured in the second week of 2021. After being removed from the ground, the detonator caps on those mines were removed, and, in compliance with safety rules, they were taken to an ammunition collection point that same day, that is,

on 15.08.2022, and in the evening hours they were destroyed by detonation using the burning method. On 17.08.2022, at around 10:00, engineer-reconnaissance measures carried out in that area were continued. In addition, on that day, in the territory of Ikinci Ipak village of the Lachin district, in a ravine on the left side of the supply road leading to the combat position provisionally called “LM-17”, located south-east of Finge settlement, a total of 168 E-001M blast-type anti-personnel mines were discovered. Their bodies were made of plastic; their total weight was 400 grams; the mass of the explosive material placed inside ranged from 40 to 100 grams; their dimensions were 160x120x55 millimetres; they had a mechanical detonator; a load of eight to 25 kilograms applied to the top was sufficient for detonation; they could explode at temperatures from -20°C to +50°C; and when discovered, those mines were in combat-ready condition. Upon examining the indicators on the mines showing their year and week of manufacture, it was established that 21 of those mines had been manufactured in the forty-ninth week of 2020, and 147 in the first week of 2021. Since 20 mines manufactured in 2020 posed a danger of explosion at the place where they had been discovered, they were destroyed there by detonation; the detonator caps were removed from the other 148 mines, and, in compliance with safety rules, they were taken to a temporary ammunition collection point and secured there.

On 21.08.2022, in order to lay the supply road, engineer-fortification measures were continued in those areas. In the territory of Ikinci Ipak village of the Lachin district, in a ravine on the left side of the supply road leading to the combat position provisionally called “LM-19”, located in the north-eastern direction of the Saribaba mountain range, a total of 100 E-001M blast-type anti-personnel mines were discovered. Their bodies were made of plastic; their total weight was 400 grams; the mass of the explosive material placed inside ranged from 40 to 100 grams; their dimensions were 160x120x55 millimetres; they had a mechanical detonator; a load of eight to 25 kilograms applied to the top was sufficient for detonation; they could explode at temperatures from -20°C to +50°C; and when discovered, those mines were in combat-ready condition. At that time, because the sapper of the 1st engineer-fortification squad of the 2nd engineer-fortification platoon, a conscript serviceman, soldier **Heydar Gulmaliyev, son of Elman**, sustained an injury as a result of one of the mines exploding, 28 of the 100 discovered mines were collected from the area where they had been found, while the other 72 remained in that area in a neutralized state. Upon examining the indicators showing the year and week of manufacture on the 28 mines removed from the area, it was established that seven of those mines had been manufactured in the forty-ninth week of 2020, i.e. at the end of the year before 2021, and the other 21 mines in the first week of 2021. It is likely that the 78 mines remaining in the area were also manufactured in 2021. Those mines had been buried on the day when the peacekeeping contingent of the Russian Federation was temporarily deployed in the territory of Azerbaijan, in places under the control of illegal Armenian armed detachments. The fact that the mines had been manufactured in 2021, that there were no changes in their camouflage layer or external appearance, and that no deformation or corrosion marks were detected on them indicates, in military terms, that those mines had been planted shortly before they were discovered.

It appears from the statements of Lieutenant **Sadraddin Ahmadov, son of Jabbar**, commander of the 1st platoon of the engineer-fortification company of military unit No. "N", and soldier **Samir Hashimov, son of Maarif**, were announced and examined in the courtroom, that they gave statements similar in content to that of **Murad Hajiyev, son of Elshan**, and confirmed the facts stated by him.

The statement given during the preliminary investigation by victim **Namig Abbasov, son of Afrayil**, was read out in court. In that statement, he indicated that from 28.06.2022,

he has served as a sapper of the 1st squad of the 1st platoon of the 1st engineer-fortification company. On 09.10.2022, at post "K1", located in the Alagollar direction of the Kalbajar district, he collected the mines found by the company commander, **Panah Novruzov**, and placed them at the designated location. At approximately 12:00, while returning after placing a mine at the designated location, he stepped on a mine on the road and sustained various injuries to his right leg. **Namig Abbishov** also stated in his testimony that the safety rules had been explained to him before the incident.

It appears from the statements of witnesses **Sabir Mostaliyev, son of Tale**, **Ali Rahmanzade, son of Rovshan**, and **Ramin Ismayilov, son of Vagif**, which were announced and examined in the courtroom, that they confirmed the circumstances stated by the victim regarding the mechanism by which the incident occurred and gave statements of the same content.

The statement given during the preliminary investigation by victim **Nurlu Nurullayev, son of Yusif**, was read out in court. In that statement, he indicated that while laying a communications line to the combat position provisionally called "LQ-18", located in the territory of Finge village of the Lachin district, on 09.12.2022, at around 12:20, he stepped on a mine buried in the ground, which exploded. His fellow servicemen came to his aid, provided him with first aid, and he was taken to a military hospital.

It appears from the statements of witnesses **Rovshan Guluzade, son of Eyvaz**, platoon commander; **Akbar Musayev, son of Alik**, private; and **Sarkhan Mammadov, son of Namiq**, private, which were announced and examined in the courtroom, that they confirmed what **Nurlu Nurullayev, son of Yusif**, had stated in his testimony.

The statement given during the preliminary investigation by victim **Ismayil Malikov, son of Shikhi**, was read out in court. In that statement, he indicated that on 10.10.2022, at approximately 18:00, while going together with other servicemen toward a post abandoned by Armenian armed formations, he sustained an injury to his right leg as a result of the explosion of a mine previously planted by Armenian armed formations.

The statement given during the preliminary investigation by witness Lieutenant **Mahir Karimli, son of Najaf**, was read out in court. In that statement, he indicated that on 10.10.2022, at approximately 18:00, while they were going toward a post abandoned by Armenian armed formations, an explosion occurred behind him. When he turned back, he

saw that **Ismayil Malikov**, who had been walking behind him, had stepped on a mine previously planted by Armenian armed formations and had injured his right leg.

The statement given during the preliminary investigation by victim **Ziyafat Seyfullayev, son of Farrukh**, was read out in court. In that statement, he indicated that on 12.10.2022, at approximately 14:00, while he was carrying out engineering work at a worksite, the working group leader **Vugar Mammadov**, he himself, and Warrant Officer **Sabuhi Hasanli, son of Rauf**, a serviceman seconded to military unit No. "N", were assigned to cut bushes and trees in order to gather construction materials from the left side of the road leading to the combat position. After inspecting the area, **Sabuhi Hasanli** showed him the trees in an approximately eight-metre-deep ravine on the left side of the road leading to the combat position and instructed him to cut them. In accordance with that instruction, he went down into the ravine and began cutting the trees with a saw. At that moment, a powerful explosion occurred near the trees in the ravine, and he fell on his back. He then realized that he had been injured as a result of the explosion of a mine planted in that area by Armenian armed formations. When he stood up, he saw that the lower part of his left arm, below the elbow, had been torn off. Lieutenant **Elvin Pashayev, son of Natiq**, and **Sabuhi Hasanli**, together with other servicemen, went down into the ravine, removed him from the area, and placed him on the left side of the road leading to the combat position. After first aid was given to him there, he was placed in a military medical vehicle and evacuated from the area.

Page 1127

The statement given during the preliminary investigation by witness **Vugar Mammadov, son of Ali**, was read out in court. In that statement, he indicated that on 12.10.2022, the main part of the working group that had arrived at the 129th border combat post of the 7th Border Commandant's Office was assigned to prepare the firing position located in the area, while **Ziyafat Seyfullayev, son of Farrukh**, and the serviceman seconded to military unit No. "N", Warrant Officer **Sabuhi Hasanli, son of Rauf**, under the latter's supervision, were assigned to cut trees with a saw in an approximately eight-metre-deep ravine on the left side of the road leading to the combat post in order to cover the firing position. While they were doing so, **Ziyafat Seyfullayev, son of Farrukh**, was injured as a result of the explosion of a mine that had possibly been planted in that area by Armenian armed formations.

It appears from the statements of witnesses **Maharram Mostaliyev, son of Abbas**, **Yusif Aqqraxov, son of Rahim**, and **Elvin Pashayev, son of Natiq**, which were announced and examined in the courtroom, that **Sabuhi Hasanli, son of Rauf**, gave a statement of the same content.

The statement given during the preliminary investigation by victim **Taleh Nabiyev, son of Zakir**, was read out in court. In that statement, he indicated that on 07.11.2022, due to service necessity, they had been seconded to a liberated area and were located there. At that time, Chief Sergeant **Azer Muradov**, a serviceman of military unit No. "N" of the Internal Troops, and another serviceman of the Internal Troops whose name he did not remember, **Aydin Alikhanov Ashrafovich**, and others whose names he did not remember, were together. At around 07:20, they approached a water-conveying structure located under the

road. When he came close to the entrance of the culvert and tried to enter it, he stepped with his left foot on an explosive device planted under the soil at the entrance, and an explosion occurred. As a result of the explosion, he fell backward inside the culvert and sustained an injury to the front part of his left foot. Other parts of his body sustained shrapnel wounds of various sizes. Captain **Aydin**, who was behind him, sustained an eye injury, while Chief Sergeant **Azer**, who was on the other side of the culvert, was thrown out of the culvert by the blast wave.

The statement given during the preliminary investigation by victim **Aydin Alikhanov Ashrafovich**, was read out in court. In that statement, he indicated that on 07.11.2022, at around 07:20, while they were inspecting the water-conveying structure passing under the road leading toward the military unit, he and **Taleh Nabiyev, son of Zakir**, approached the water conduit from the left side of the road, while **Azer Muradov** was on the right side of the road. At that time, **Bogdan Kovalenko** was in a service vehicle because he was drawing up a handover-acceptance act. Chief Sergeant **Taleh Nabiyev**, a serviceman of the Internal Troops, went ahead and moved toward the water conduit. When **Taleh Nabiyev** tried to enter that culvert, an explosive device planted under the soil at the entrance exploded when he stepped on it with his left foot. As a result of the explosion, fragments of the explosive device struck his eye area, while other pieces of stone and soil hit other parts of his body, and the blast threw him backward so that he fell on his face. On the other side of the culvert, the blast wave threw **Azer Muradov** into the ravine. When he raised his head, he saw that **Taleh** had fallen on his back inside the culvert and that the front part of his left foot had been torn off.

It appears from the statements of witnesses **Azer Muradov, son of Kamal**, and **Bogdan Kovalenko, son of Grigory**, which were announced and examined in the courtroom, that they confirmed the facts stated in the injured parties' testimonies.

The statement given during the preliminary investigation on 16.02.2023 by **Mammad Hummatov, son of Mirza**, who had been questioned as the legal successor of the victim, was read out in court. In that statement, he indicated that the late **Zohrab Hummatov** was his biological son. He had served in the military for a long time and had always been satisfied with his service. He divorced his mother when his son was three years old. On 14.12.2022, he received a call from the Tovuz District Mobilization and Conscription Service, informing him that his son **Zohrab** had been killed after stepping on a mine planted by Armenian armed groups.

Page 1128

The statement given during the preliminary investigation by victim **Vidadi Xasiyev, son of Aziz**, was read out in court. In that statement, he indicated that in October 2022 he worked as a cable-laying labourer at "Telekommunikasiya Servis" LLC. On 14.12.2022, at around 17:00, he, **Allahverdi Haciyev**, **Sadir Aliyarov**, and **Tofig Balakishiyev** loaded cables and pipes onto a GAZ vehicle with state registration plate 99-JY-396, driven by Tofig, in order to carry out cable and pipe installation work from the city of Kalbajar to the village of Chiragli, and set off. Before them, **Siyasat Allahverdiyev** had gone to Chiragli village in a Hidromek

loader-excavator with state registration plate 10-AC-854, belonging to “Telekommunikasiya Servis” LLC, to install cables.

When they were in the territory of Vang village of the Kalbajar district, **Rodik Panahov**, who had gone together with Siyasat Allahverdiyev, called Sadir and said that in the territory of Chiragli village the tractor had struck a mine and overturned, and that Siyasat had been injured. Five to ten minutes later they arrived in Chiragli village and saw both of them lying on the ground beside the tractor, injured, while servicemen were already helping the wounded. After that, they lowered the injured Siyasat and Rodik into the cargo bed of the truck driven by Tofig. Together with Sadir, Chief Warrant Officer **Zohrab Hummatov** and Tofig also got into the vehicle. He, Allahverdi, and several servicemen got into the cargo bed of the vehicle.

Tofig started the vehicle and began driving back along the road by which they had come. Approximately 20–25 metres below the place where Siyasat and Rodik had struck the mine, while the vehicle was moving downward, the front right part of the vehicle struck another mine, and a powerful explosion occurred. After the explosion, the vehicle’s cargo bed dropped to the ground, and the front part, that is, the cabin, was destroyed by the blast. He saw that Chief Warrant Officer **Zohrab Hummatov** and **Sadir Aliyarov** had sustained leg injuries, and that both of Tofig’s legs had been broken. After that, the servicemen and themselves carried Zohrab and Sadir approximately 20–30 metres downhill, after which a military medical vehicle arrived and took the serviceman Zohrab Hummatov away together with Sadir. At that time, Zohrab’s condition was very serious. After that, they helped Siyasat and Rodik, took them 400–500 metres down the road, and then a Kamaz military vehicle arrived and transported them to the city of Kalbajar.

It appears from the statements of witnesses **Tofig Balakishiyev, son of Hacimirza**, **Sadir Aliyarov, son of Heydar**, **Allahverdi Haciyev, son of Niyazi**, **Rodik Panahov, son of Shamsaddin**, **Murad Shirinov, son of Isa**, **Siyasat Allahverdiyev, son of Ziyadkhan**, **Rza Akhundov, son of Yusif**, and **Qabil Ibisli, son of Adalat**, which were announced and examined in the courtroom, that they confirmed the circumstances stated by victim Vidadi Xasiyev, son of Aziz.

The statement given during the preliminary investigation on 27.03.2023 by **Samir Balayev, son of Elman**, chief director of “Telekommunikasiya Servis” LLC, who had been recognized and questioned as the legal successor of the victim, was read out in court. In that statement, he indicated that at the end of October 2022 the company had contracted **Rodik Panahov, son of Shamsaddin**, **Siyasat Allahverdiyev, son of Ziyadkhan**, **Sadir Aliyarov, son of Heydar**, **Tofig Balakishiyev, son of Hacimirza**, and **Vidadi Xasiyev, son of Aziz** in order to lay optical communication lines in the territory of the Kalbajar district. On 14.12.2022, he was informed by telephone that the company’s excavator and the vehicle that had gone to help it had struck mines, as a result of which employees and servicemen had sustained bodily injuries of various degrees, and Chief Warrant Officer **Zohrab Hummatov** had been killed.

The statement given during the preliminary investigation by victim **Kamiz Ibayev, son of Mubariz**, was read out in court. In that statement, he indicated that from 23.07.2022 to

03.08.2022, while in captivity in the territory of Armenia, he had been tortured by servicemen of the Armenian Armed Forces: he was beaten, insulted with obscene words, and burn injuries were inflicted on various parts of his body with cigarettes. After he had spent 13 days in captivity,

servicemen of the Armenian Armed Forces handed him over to Russian peacekeepers; when the Russian peacekeepers handed him over to Azerbaijani servicemen, he was brought to the city of Baku on 03.08.2022.

The statement given during the preliminary investigation by **Sabuhi Dugi, son of Kamaladdin**, who was questioned as a witness, was read out in court. In that statement, he indicated that at the end of July 2022, he took soldier Kamiz Ibayev from the headquarters of the military unit to the headquarters of the 4th battalion in the back of his car, then began to engage in official duties, after which he searched for Kamiz Ibayev in the territory of the battalion, but could not find him, and in the evening he learned that while leaving the territory of the battalion and moving in some direction from the Narimanli village of the Kalbajar region, due to the foggy and cloudy weather, he lost his way and went to the direction where the Armenians were, where he was taken prisoner by the Armenians.

The statement given during the preliminary investigation by victim **Afiq Suleymanov, son of Ziyafat**, was read out in court. In that statement, he indicated that on 14.07.2022, in the vicinity of Nuzgar village of the Jabrayil district, he was engaged in mine-clearance activity and was driving a T-72 M-1 tank with hull number 256. While the tank commander, Warrant Officer **Mirza Aghayev, son of Intigam**, directed him by radio along the indicated route, at around 08:00 the front left side of the tank struck a mine, the engine stopped, and the front right part then struck another mine, as a result of which he sustained injuries.

The statement given during the preliminary investigation by victim **Mirza Aghayev, son of Intigam**, was read out in court. In that statement, he indicated that on 14.07.2022, in the vicinity of Nuzgar village of the Jabrayil district, he was engaged in mine-clearance activity, while **Afiq Suleymanov** was driving a T-72 M-1 tank with hull number 256. He himself was moving alongside the tank and giving directions by radio. At around 08:00, the front left side of the tank struck a mine, the engine stopped, and the front right part then struck another mine, as a result of which he sustained injuries.

It appears from the statement of witness **Shahin Aliyev, son of Mahammad**, which was announced and examined in the courtroom, that victims Afiq Suleymanov and Mirza Aghayev gave statements of similar content.

The statement given during the preliminary investigation by **Mehdi Pirjanov, son of Pirjan**, who had been recognized as the representative of military unit No. “N” as an injured legal entity, was read out in court. In that statement, he indicated that on 14.07.2022, a T-72 tank with hull number 256, belonging to the military unit, was carrying out mine-search and mine-clearance activity in the territory of Nuzgar village of the Jabrayil district, when, as a result of

hitting an anti-tank mine previously planted by Armenian armed formations, the equipment was damaged.

The statement given during the preliminary investigation by witness **Nuran Gasimov, son of Sabir**, was read out in court. In that statement, he indicated that on 05.03.2023, at around 11:00, having noticed a suspicious UAZ vehicle moving, they signalled to it to stop; however, the vehicle did not obey and continued moving. When they approached the vehicle in order to check the cargo it was carrying, numerous shots were fired at them from inside the vehicle, from its rear part, and the vehicle began moving backward. As a result of the initial shots, extended active-duty serviceman **Eshgin Huseynov, son of Jamil**, who was sitting in the front right part of the vehicle, and First Lieutenant **Shahriyar Alibeyli, son of Ramiz**, who was standing opposite the door on the right side of the vehicle, each sustained a gunshot wound to the head. First Lieutenant Shahriyar Alibeyli and Eshgin Huseynov were killed at the scene. They immediately returned fire, suppressed the Armenians' fire, and then evacuated the deceased servicemen from the area.

Page 1130

It appears from the statements of witnesses **Orkhan Mammadov, son of Ilyas**, and **Elvin Salimov, son of Islam**, which were announced and examined in the courtroom, that they gave statements of the same content.

The statement given during the preliminary investigation by **Ramiz Aliyev, son of Abdülali**, who had been recognized as the legal successor of the victim, was read out in court. In that statement, he indicated that on 05.03.2023, in the evening hours, he received a call on his mobile phone from the military unit, informing him that his son had sustained injuries as a result of fire opened by Armenian armed detachments in the territory of the Shusha district and had died as a martyr in a road accident. The following day, his son's body was buried in the Martyrs' Alley in the Gabala district.

It appears from the statement of **Jamil Huseynov, son of Mustafa**, who had been recognized as the legal successor of the victim, which was announced and examined in the courtroom, that he gave a statement of similar content.

The statement given during the preliminary investigation by witness **Elvin Salimov, son of Islam**, was read out in court. In that statement, he indicated that on 04.03.2023, in the territory of Shusha city, in order to prevent sabotage by Armenian separatists, pursuant to an order received from the command, they began moving as a group along the part of the Khankendi–Khalfali–Turshsu road passing through the territory of Shusha city. During the movement, after they determined that it was impossible to cross through the rocky part of the river ahead of them, First Lieutenant **Kamran Huseynov, son of Namiz**, together with Warrant Officer **Royal Karimov**, moved to the left side of the river, westward, in order to find a suitable place to cross. Since no suitable crossing place was found, while they were returning, Warrant Officer Royal Karimov's left foot stepped on a mine and an explosion occurred. Under the force of the explosion, he also fell to the ground, and while lying down, he saw that Royal Karimov was holding his leg, while Kamran Huseynov was also lying down. After that, he got up, went to the other members of the group and informed them. With

the help of the mine-search personnel, they detected and neutralized the mines located in the direction of Royal Karimov's head and pulled him out of the mined area. At that moment, he heard the sound of an explosion and, when he turned around, saw that First Lieutenant Kamran Huseynov had stepped on a mine and sustained an injury to the knee area. They then removed both of them from the area and handed them over to the evacuation group.

He additionally stated that, while clearing the area of mines, they discovered three **PMN-E** mines manufactured in the Republic of Armenia. The mined area was approximately 2,000 metres ahead of the combat positions of the military units of the Ministry of Defence, in the area where Armenian servicemen's positions were located.

It appears from the statements of witnesses **Orkhan Mammadov, son of Ilyas**, **Huseynagha Rzayev, son of Ilham**, and **Nuran Gasimov, son of Sabir**, which were announced and examined in the courtroom, that they gave statements of the same content as Elvin Salimov, son of Islam, and confirmed the circumstances he had stated.

The statement given during the preliminary investigation by **Namiz Huseynov, son of Aslan**, who had been recognized and questioned as the legal successor of the victim, was read out in court. In that statement, he indicated that Kamran Huseynov was his son. On 04.03.2023, he learned that, in the part of the Khankendi–Khalfali–Turshsu road passing through the territory of Shusha city, his son had stepped on a mine planted by Armenian armed formations and had died as a martyr. His body was buried in the Martyrs' Alley of the Neftchala district.

The statement given during the preliminary investigation by victim **Royal Karimov, son of Zaur**, was read out in court. In that statement, he indicated that on 04.03.2023, in the territory of Shusha city, in order to prevent sabotage by Armenian separatists, pursuant to an order from the command of the military unit, they began moving as a group along the part of the Khankendi–Khalfali–Turshsu road passing through the territory of Shusha city. During the movement, after they determined that it was impossible to cross through the rocky part of the river ahead of them, he and First Lieutenant **Kamran Huseynov, son of Namiz**, moved

toward the left side of the river in order to find a suitable place to cross. Since it was not possible to find a suitable place for movement, while returning, his left foot stepped on a mine and an explosion occurred. At that moment, Kamran Huseynov, who was next to him, provided him with initial medical assistance; afterwards, the other members of the group came to him, placed him on a stretcher, and removed him from the area. Kamran Huseynov returned to retrieve his bag from where he had left it, at which point an explosion occurred, as a result of which he too was injured and died on the way while being evacuated. The mined area was in the area where Armenian servicemen's positions were located.

The statement given during the preliminary investigation by victim **Ramil Manafov Subhi oglu**, was read out in court. In that statement, he indicated that on 20.03.2023, during the preceding night, at around 01:00, approximately half an hour after going on duty, single shots were heard from a long distance, from the direction where the positions of Armenian armed formations were located. After a few minutes, those sounds stopped. At approximately 01:00,

various sounds began coming from the wooded area located below the firing position, and lights began to appear. At the same time, continuous sounds of gunfire began to come from that area. At around 03:00, while he was approximately 5–7 metres from the firing position, on the lower left side of the position, consecutive single shots were heard, and he suddenly fell to the ground after being hit by a bullet in the left side of his chest, shouting to **Mahammad Taraghuliyev** that he had been hit. After hearing this, Mahammad came to him, placed him on a stretcher, and took him to the medical point.

It appears from the statements of witnesses **Mammadagha Bejanov, Vagif oglu**, **Rasul Bagirov, Rovshan oglu**, and **Chingiz Salmanzade Sadiq oglu**, which were announced and examined in the courtroom, that they gave statements of similar content to that of victim Ramil Manafov Subhi oglu.

The statement given during the preliminary investigation by victim **Yusif Ahmadov Alasgar oglu**, was read out in court. In that statement, he indicated that on 25.03.2023, by order of the commander of the military unit, together with the personnel of the lower unit under his command, he was sent to military unit No. "N" located in Shusha city to carry out a combat mission. There, he performed combat duty and defended within the forest. On 31.03.2023, at around 14:50, while organizing combat duty at the conditionally designated combat position No. "7", located in the territory of Imamgular village of the Shusha district, as a result of fire opened from a firearm by unidentified members of Armenian armed formations, he sustained a gunshot wound, dangerous to life and health, in which the bullet entered from the posterior-lateral surface of the lower third of his left thigh and exited from the anterior-lateral surface in the area of the knee joint, and he was evacuated to hospital. Since the area where the incident occurred was dense forest, he was unable to see the exact location of the Armenian servicemen, but judging by the sound, when looking toward the ravine, the distance between him and four persons was approximately 10 metres.

It appears from the statements of witnesses **Samir Jafarov Ceyhun oglu**, a lieutenant serving as commander of the 1st platoon of the division, and extended active-duty serviceman Junior Sergeant **Mahammad Aliyev Ali oglu**, which were announced and examined in the courtroom, that they gave statements similar in content to that of victim Yusif Ahmadov, son of Alasgar, and confirmed the fact stated by him.

The statement given during the preliminary investigation by **Nizami Zalov Gurban oglu**, who had been recognized and questioned as the legal successor of the victim, who was registered at house 16 on K. Akhundov Street, Saray settlement, Absheron district, and who was living in rented accommodation in the Taza Mahalla area of Saray settlement, Absheron district, was read out in court. In that statement, he indicated that on 12.04.2023, the body of his son **Vidadi Zalov** was brought to the address where he lived and buried in the cemetery of Saray settlement, Absheron district.

The statement given during the preliminary investigation by victim **Murad Hajiyev Elshan oglu**, lieutenant, commander of the engineering-fortification company of military unit No. "N" of the Ministry of Defence, was read out in court. In that...

In that statement, he indicated that on 11.04.2023, at around 16:00, at the combat position conditionally named “H5”, where military personnel of the 1st battalion of military unit No. “N” of the Ministry of Defence, stationed in Zabukh village of the Lachin district newly liberated from the Armenians, were serving on the direct line of contact with Armenian servicemen and opposite the combat positions of Armenian military formations located in the area of Tegh (Digh) village of the Gorus district, he was carrying out engineering-fortification work together with approximately 11–12 servicemen of the engineering-fortification company of that military unit. At that time, they saw that Armenian servicemen, violating the state border of the Republic of Azerbaijan, were carrying out engineering-fortification work at a distance of approximately 150 metres, in an expanded area in front of the combat position conditionally named “H5”. He reported this to command, and shortly thereafter the military unit commander arrived at combat position “H5” in a VAZ-2106 service vehicle with state registration plate 400QQ together with his commander, Colonel **Mirsamir Seyidov**.

In that area, the commander of the military unit spoke in Russian with an Armenian serviceman, a colonel, who introduced himself as “Armen” and said that he was the commander of the special-purpose corps of the Armenian military. At that time, he himself watched the area and saw that approximately 40–50 Armenian servicemen were standing there fully ready for combat. After that, taking the situation into account, the military unit commander, Colonel Mirsamir Seyidov, ordered that a group of servicemen from the commando military unit No. “N” of the Ministry of Defence establish a support point in that area, in Zabukh village of the Lachin district newly liberated from the Armenians, on the direct contact line with Armenian servicemen and near our positions, in order to prevent Armenian servicemen from advancing.

After that, a confrontation arose between them and the Armenian servicemen. On the instruction of the Armenian commander, 40–50 persons brought their automatic weapons to a ready position and came toward them. A mutual exchange of fire occurred, and at that time, as a result of fire opened by the Armenians, **Elshad Hasanov Gabil oglu**, a warrant officer serving in military unit No. “N”, received a bullet wound to the right temple area, fell to the ground, and was killed. As a result, close combat operations began, and all servicemen began trying to take cover; they sustained various injuries.

It appears from the statements of the injured servicemen **Nurlan Ibrahimov Ibrahim oglu**, private; **Basharaddin Aliyev Kamil oglu**, private; and **Akbar Safarov Farhad oglu**, captain, which were announced and examined in the courtroom, that they gave statements similar in content to the statement of Lieutenant **Murad Hajiyev Elshan oglu**.

The statement given during the preliminary investigation by **Sardar Taghiyev Gunduz oglu**, private, an extended active-duty serviceman and driver of the 1st squad of the vehicle platoon of the material-technical support division of military unit No. “N” of the Ministry of Defence, who had been recognized as the legal successor of the injured person and questioned as a witness, was read out in court. In that statement, he indicated that on 11.04.2023, at around 17:00, while the personnel of military unit No. “N” of the Ministry of Defence were carrying out engineering-fortification work at the combat positions of the military unit in Zabukh

village of the Lachin district newly liberated from the Armenians, sniper and automatic-weapons fire was opened by Armenian servicemen stationed opposite them at positions located in the area of Tegh (Der) village of the Gorus district. As a result, **Sabuhi Tagiyev**, a serviceman of the military unit in which he served, and two other servicemen, Warrant Officer **Elshad Hasanov Gabil oglu**, and Warrant Officer **Vidadi Zalov Nizami oglu**, were killed. On 12.04.2023, the body of his brother Sabuhi Tagiyev was brought to Yasagli village of the Shahbuz district of the Nakhchivan Autonomous Republic and buried in the cemetery of Badamli settlement in the Shahbuz district.

It appears from the statements of injured persons **Shahin Safarov Elsevar oglu**, captain; **Ramis Zamanov Yolchu oglu**, private; **Renat Najafov Zaur oglu**, private; **Elmir Rustamov Bashir oglu**, private; **Cavid Eminov Ogtay oglu**, major, deputy chief of staff of military unit No. "N" of the Ministry of Defence and questioned as a witness; and **Kenan Mustafayev Nemat oglu**, captain, head of the vehicle service of military unit No. "N" of the Ministry of Defence,

who had been recognized as the representative of the injured person and questioned as a witness, which were announced and examined in the courtroom, that they gave statements similar in content to the statement of Lieutenant **Murad Hajiyev Elshan oglu**.

The statement given during the preliminary investigation by injured person **Vusal Mammadov Firad oglu** was read out in court. In that statement, he indicated that on 22.04.2023, at approximately 17:00, while he was travelling by car in Allahgulular village of the Shusha district, a mine explosion occurred under the front right wheel of the vehicle, and he sustained injuries. Nearby servicemen who came after hearing the sound of the explosion helped him out of the vehicle, after which he was evacuated to a military hospital. The driver of the vehicle was **Elchin Rahimli**, and he also sustained injuries. Since the explosion was on the front right side of the vehicle, soldier **Elchin Rahimli**'s injuries were lighter than his. In addition, after hearing the sound of the explosion, **Niyad Aliyev Orujali oglu**, a serviceman of military unit No. "N" who came to help them, also sustained injuries when he stepped on an anti-personnel mine. All three of them were evacuated to military hospital No. "N".

It appears from the statements of injured persons **Elchin Rahimli Rahim oglu**, **Niyad Aliyev Orucali oglu**, and witness **Mahmud Ibrahimli Shirkhan oglu**, which were announced and examined in the courtroom, that they gave statements similar in content to **Rahib Nabiyev Musa oglu**, and confirmed the facts stated by him.

The statement given during the preliminary investigation by injured person **Ehtibar Abbasguliyev Huseynkhan oglu**, was read out in court. In that statement, he indicated that on 08.05.2023, while carrying out excavation work with a Doosan DX225 LCA excavator with military registration number O428QQ, assigned to him, from the post conditionally named H4A toward the post conditionally named H3B, fire was opened on the equipment he was operating from the Armenian position located approximately 200–250 metres from the post named H3B, and he suddenly saw the front glass of the excavator cabin shatter. He stopped the excavator, immediately got down, and moved away from there.

It appears from the statements of **Sarkhan Maharramov Aghalar oglu**, who was questioned as a witness and whose statements were announced and examined in the courtroom, that he confirmed the fact stated by Ehtibar Abbasguliyev.

The statement given during the preliminary investigation by Captain **Jamil Hasanov Gadimali oglu**, who, on 19.06.2023, was recognized as the representative of military unit No. "N" as a victim and, on the basis of the power of attorney issued by the commander of the military unit on 19.06.2023, served as assistant to the commander of that military unit for legal affairs, was read out in court. In that statement, he indicated that on 08.05.2023, while **Ehtibar Abbasguliyev Huseynkhan oglu**, was carrying out engineering work in the area of Zabukh village of the Lachin district with a Doosan excavator with military registration number O428QQ assigned to him, he received an instruction from command to go around the area and carry out inspections. At around 10:00, while he was approximately 60 metres from the post named H4A and approximately 200–250 metres from the post named H3B, fire was opened on the equipment he was operating from the position where Armenian armed formations were located; the front glass of the excavator cabin shattered. At that moment, Ehtibar Abbasguliyev immediately stopped the excavator, got down, and moved away from there.

The statement given during the preliminary investigation by **Asif Huseynov Mehman oglu**, who was questioned as a witness, was read out in court. In that statement, he indicated that the armed provocation launched by Armenian military formations on 10.05.2023 continued on 12.05.2023 as well. As a result of Armenian armed formations firing at the combat positions of the 4th battalion of military unit No. "N" on 12.05.2023, soldier **Mahammad Garayev Mahir oglu**, was killed, Lieutenant **Maqsud Maqsudlu Valeh oglu**, sustained serious bodily injuries, and soldier **Sohrab Asgarov Sardar oglu**…

Page 1134

and **soldier Togrul Mehraliyev, son of Fariz**, sustained minor bodily injuries. Chief Sergeant **Nicat Guliyev** informed him by mobile phone about the incident and that there were wounded persons; he immediately set off in a medical vehicle for evacuation. While they were halfway up, they encountered combat vehicle equipment of the 4th battalion coming down; when he saw that the wounded were in serious condition, he instructed them to continue moving without delay.

The statement given during the preliminary investigation by witness **Nilgun Aliyev, son of Dayanat**, was read out in court. In that statement, he indicated that the armed provocation launched by Armenian military formations on 10.05.2023 continued on 12.05.2023 as well, and that members of the Armenian armed formations continued firing on the combat positions of the 4th battalion of military unit No. "N" on 12.05.2023. On 12.05.2023, at approximately 19:00, after Captain of the Medical Service **Asif Huseynov** of military unit No. "N" received information that there were wounded persons in the 4th battalion, they set off together in the direction of that battalion. A vehicle had already gone ahead of them toward that battalion for evacuation purposes. Halfway along the road, despite encountering the vehicle in which **Mahammad Garayev, son of Mahir**, and Lieutenant **Maqsud**

Maqsudlu, son of Valeh, were being carried, that vehicle evacuated those persons to military unit No. “N”, while they brought the other two wounded persons, **Sohrab Asgarov, son of Sardar**, and **Togrul Mehraliyev, son of Fariz**, and evacuated them to military hospital No. “N”. After evacuating the wounded, they returned to military unit No. “N”.

The statement given during the preliminary investigation by witness **Vugar Gurbanov, son of Shakir**, was read out in court. In that statement, he indicated that he had served in military unit No. “N” since 30.03.2022. While they were digging a trench for tanks in the direction of the Zod gold mine in the Kalbajar district and monitoring the firing of the rampart, a provocation occurred against the units located opposite the units of the Republic of Armenia. During that time, on 10.05.2023, at approximately 19:30, the commander of military unit No. “N”, Lieutenant Colonel **Ramil Karimov**, called him and stated that they would move four tanks, which were generally in the 1st battalion of the military unit located in the village of Gamishli, toward the Zod direction. He assigned soldier **Orkhan Novruzalizada, son of Elkhan**, to take the T-72M1K tank with hull number 400, which he drove, to the combat position located on the left side of the gold mine. **Vugar Gurbanov**, Chief Warrant Officer **R. Khalilov**, **E. Gushchiyev**, and soldier **O. Novruzalizada** together opened the firing sector at approximately 03:30 on 11.05.2023. At around 09:00, due to the presence of strike drones in the air, he ordered the persons whose names he mentioned to pull the tank into the trench in order to protect the personnel, and to go into the shelter themselves. However, when **O. Novruzalizada**, following the instructions of Chief Warrant Officer **R. Khalilov**, was moving the tank backward, the left side of the tank was hit by an anti-tank rocket fired by Armenian servicemen; while his fellow servicemen were removing him from the tank, they saw that he had died.

The statement given during the preliminary investigation by injured person **Emin Gushchiyev, son of Huseyn**, was read out in court. In that statement, he indicated that on 10.05.2023, at approximately 20:30, the chief of staff of the military unit, Lieutenant Colonel **Vugar Gurbanov**, had informed the personnel of the T-72M1K tank with hull number 400 and the T-72M1 tank with hull number 405 that they would move in the Zod direction with those tanks and take part in a combat mission. After arriving at the combat position, at around 04:00, they opened the firing sector and, at approximately 06:10, on the instruction of Lieutenant Colonel **V. Gurbanov**, fired four times from the tank at a post of Armenian servicemen, destroying a Ural vehicle at that post and seven Armenians. At approximately 06:45, the battalion commander, Captain **Emin Mammadov**, ordered them by radio to cease fire. Having ceased fire, he stopped inside the tank behind the rampart and waited for the next order. At around 09:00, Lieutenant Colonel **V. Gurbanov** radioed Chief Warrant Officer **R. Khalilov** and said that Armenian servicemen had a drone in the air, that they should pull the tank into the trench located 35–40 metres behind it and cover it with a camouflage net, and that they themselves

should go into the shelter. Chief Warrant Officer **R. Khalilov** got down from the tank to show the way to the tank driver, soldier **O. Novruzalizada**, and also to take the night-vision device located beside the rampart. After taking the night-vision device, as he began moving

toward the trench on the left side of the tank and did not look behind him, Chief Warrant Officer **R. Khalilov** was run over by the tank being driven backward by soldier **O. Novruzalizada**, and he sustained an injury. After the tank had moved approximately 4–5 metres backward, its left side was hit by a guided anti-tank rocket fired by Armenian servicemen. As a result of the shell explosion, the tank driver, soldier **O. Novruzalizada**, who was in the driver's seat, was killed. Chief Warrant Officer **R. Khalilov**, who was on the ground and wounded, saw that the tank was moving backward and shouted to soldier **O. Novruzalizada** to stop the tank, but saw that the latter was unconscious. Then Chief Warrant Officer **R. Khalilov** climbed onto the tank, pulled **O. Novruzalizada** out through the hatch, and, despite being injured himself, entered the driver's compartment of the tank from the rear and applied the brake and switched off the engine. After that, together with **V. Gurbanov**, they pulled **O. Novruzalizada** out through the hatch and saw that he had died. He additionally stated that although he had not sustained any injuries, he was later diagnosed with post-traumatic stress disorder at the hospital.

The statement given during the preliminary investigation by injured person **Rafael Khalilov, son of Gadim**, was read out in court. In that statement, he indicated that he had continued serving in military unit No. "N" since September 2014 as a tank section technician of the 1st tank battalion, 1st tank division, with the military rank of warrant officer. He gave a statement essentially identical in content to that of **Emin Gushchiyev, son of Huseyn**, and confirmed the circumstances stated by the latter.

The statement given during the preliminary investigation by injured person **Togrul Salahli, son of Sabir**, was read out in court. In that statement, he indicated that on 12.04.2020 he had been called up for military service and sent to military unit No. "N"; after completing his full military service, he continued serving as a bulldozer operator in the 1st squad of the 2nd platoon of the 1st engineer-road division of the engineer-road battalion of the military unit. In early February 2023, he was sent to military unit No. "N" to clear the roads leading to the posts of snow and mud, and was assigned to work in the 4th battalion located in Yellice village of the Kalbajar district. The Armenian armed forces were positioned in the direction of Zod settlement of Basarkechar district; the posts of the 4th battalion of military unit No. "N" were opposite those Armenian posts, and the distance between the posts by air was 30–40 metres. Since the Armenian armed forces opened fire with large-calibre weapons as a provocation on 11.05.2023 toward the posts where military unit No. "N" and military unit No. "N" were located, all units were instructed to remain alert. On 12.05.2023, while he was in front of the battalion, the Armenian armed forces began intensive fire from tube artillery weapons, and at that moment, as a result of one of the shells falling in front of the battalion...

Page 1136

he sustained injuries to his right arm, back area, and shoulder. At the time of the incident, soldier **Mahammad Garayev** was killed, having sustained serious injuries, and several servicemen were wounded.

The statement given during the preliminary investigation by injured person **Absalam Cavadzada, son of Nazim**, was read out in court. In that statement, he indicated that on

07.07.2022 he had been called up for fixed-term active military service and was first sent to military unit No. “N”; after completing the young soldiers’ training course, he continued his service as a private in the position of cook in the material-technical support company of the 4th battalion of military unit No. “N”. The military unit No. “N” in which he served was located in Yellice village of the Kalbajar district, while the Armenian armed forces were positioned in the direction of Zod settlement of the Basarkechar district. The posts of the 4th battalion of military unit No. “N” were located in positions opposite those Armenian posts, with a straight-line distance of 30–40 metres between the posts. On 11.05.2023, after the Armenian armed forces opened fire with large-calibre weapons, in a provocative manner, at the posts where military units No. “N” and No. “N” were located, all units were instructed to remain vigilant. On 12.05.2023, while he was in front of the battalion, the Armenian armed forces began intensive fire from small-arms and artillery weapons, and at around 21:00, as a result of one of the shells falling in front of the battalion, he sustained an injury to his left leg. At the time of the incident, soldier Mahammad Garayev was killed, having sustained serious injuries, and several servicemen were wounded.

The statement given during the preliminary investigation by injured person **Rail Nazirov, son of Asim**, was read out in court. In that statement, he indicated that on 20.05.2014 he had been called up for military service and began serving in military unit No. “N” at that time; on 23.03.2022, he continued serving in military unit No. “N”, and his service post was the K-4 combat position of the 3rd company of the 1st battalion, conditionally named “Polad-2”. The 1st battalion in which he served was located in the area of Demirchidam village of the Kalbajar district, in a position opposite Armenian posts. After the Armenian armed forces injured his fellow serviceman **Muslum Mahmud, son of Vidadi**, at the K-7 combat position conditionally named “Ertogrul” of military unit No. “N”, all units were instructed from 10 May 2023 to remain vigilant. On 11.05.2023, while he was serving at the K-4 combat position conditionally named “Polad-2”, the Armenian armed forces subjected the positions to intensive fire from small-arms and artillery weapons; as a result of one of the fired shells falling near the edge of the sector, he sustained injuries to his left leg and right hand.

The statement given during the preliminary investigation by injured person **Asad Aliyev, son of Elman**, was read out in court. In that statement, he indicated that on 21.06.2018 he had been accepted into the Armed Forces as an officer and sent to military unit No. “N”; he served as deputy commander for personnel work of the 10th company of the 4th battalion of that military unit. The military unit No. “N” in which he served was located in Yellice village of the Kalbajar district, while the Armenian armed forces were positioned in the direction of Zod settlement of the Basarkechar district. The posts of the 4th battalion of military unit No. “N” were located in positions opposite those Armenian posts, with a straight-line distance of 30–40 metres between the posts. On 11.05.2023, after the Armenian armed forces opened fire with large-calibre weapons, in a provocative manner, at the posts where military units No. “N” and No. “N” were located, all units were instructed to remain vigilant. On 12.05.2023, while he was in front of the battalion, the Armenian armed forces began intensive fire from small-arms and artillery weapons, and at around 21:00, as a result of one of the shells falling in front of the battalion, he sustained an injury to his right arm. At the time of the incident,

soldier Mahammad Garayev was killed, having sustained serious injuries, and several servicemen were wounded.

The statement given during the preliminary investigation by injured person **Idris Mammadov, son of Nariman**, was read out in court. In that statement, he indicated that on 30.04.2022 he had been called up for fixed-term active military service and was first sent to military unit No. “N” for the young soldiers’ course;

Page 1137

after completing the young soldiers’ course, he was sent to military unit No. “N” and continued his service with the rank of private as a radio-telephone operator of the communications platoon of the 4th battalion. The military unit No. “N” in which he served was located in Yellice village of the Kalbajar district, while the Armenian armed forces were positioned in the direction of Zod settlement of the Basarkechar district. The posts of the 4th battalion of military unit No. “N” were located in positions opposite those Armenian posts, with a straight-line distance of 30–40 metres between the posts. On 11.05.2023, after the Armenian armed forces opened fire with large-calibre weapons, in a provocative manner, at the posts where military units No. “N” and No. “N” were located, all units were instructed to remain vigilant. On 12.05.2023, at around 21:00, the Armenian armed forces began intensive fire from small-arms and artillery weapons; as a result of one of the fired shells falling in front of the battalion, despite being inside a covered shelter at the time, he was thrown to the ground by the blast wave. At the time of the incident, soldier Mahammad Garayev was killed, having sustained serious injuries, and several servicemen were wounded.

The statement given during the preliminary investigation by injured person **Muslum Mahmud, son of Vidadi**, was read out in court. In that statement, he indicated that after being called up for military service, he continued serving in military unit No. “N”. The 1st battalion of the military unit in which he served was located in the area of Demirchidam in the Kalbajar district. During his service, units of the Republic of Armenia carried out provocative shooting from the direction of Yukhari Shorja settlement of the Basarkechar district toward the units positioned opposite them in the directions of Demirchidam and Zod villages. On 10 May 2023, at around 19:00, while he was serving at the K-7 combat position conditionally named “Ertogrul”, one of the shells fell near the post during provocative shooting, and he sustained a head injury and lost consciousness. He had no information about what happened afterward.

The statement given during the preliminary investigation by injured person **Maqsud Maqsudlu, son of Valeh**, was read out in court. In that statement, he indicated that on 09.06.2021 he had been accepted into the Armed Forces as an officer and sent to military unit No. “N”; he served as deputy commander for personnel work of the 10th company of the 4th battalion of that military unit. The military unit No. “N” in which he served was located in Yellice village of the Kalbajar district, while the Armenian armed forces were positioned in the direction of Zod settlement of the Basarkechar district. The posts of the 4th battalion of military unit No. “N” were located in positions opposite those Armenian posts, with a straight-line distance of 30–40 metres between the posts. On 11.05.2023, after the Armenian

armed forces opened fire with large-calibre weapons, in a provocative manner, at the posts where military units No. “N” and No. “N” were located, all units were instructed to remain vigilant. On 12.05.2023, while he was in front of the battalion, the Armenian armed forces began intensive fire from small-arms and artillery weapons, and at around 21:00, as a result of one of the shells falling in front of the battalion, he sustained injuries to the abdominal area and various parts of his body. At the time of the incident, soldier Mahammad Garayev was killed, having sustained serious injuries, and several servicemen were wounded.

The statement given during the preliminary investigation by injured person **Tural Ismayilzada, son of Zafar**, was read out in court. In that statement, he indicated that after being called up for fixed-term active military service, he first served in military unit No. “N”; after serving in various other military units, he was sent to military unit No. “N” and continued his service as a sanitary instructor in the 12th company of the 4th battalion. The military unit No. “N” in which he served was located in Yellice village of the Kalbajar district, while the Armenian armed forces were positioned in the direction of Zod settlement of the Basarkechar district. The posts of the 4th battalion of military unit No. “N” were located in positions opposite those Armenian posts, with a straight-line distance of 30–40 metres between the posts. Since the Armenian armed forces opened fire with large-calibre weapons, in a provocative manner, at the posts where military units No. “N” and No. “N” were located...

Page 1138

all units had been instructed to remain vigilant. On 12.05.2023, the Armenian armed forces began intensive fire from small-arms and artillery weapons, and at around 21:00, as a result of one of the shells falling in front of the battalion, he sustained an injury to his right hand. At the time of the incident, soldier **Mahammad Garayev** was killed, having sustained serious injuries, and several servicemen were wounded.

The statement given during the preliminary investigation by injured person **Vurgun Orujzada, son of Abilfaz**, was read out in court. In that statement, he indicated that on 26.06.2012 he was admitted to the Armed Forces as an officer and sent to military unit No. “N”, and that he served with the rank of captain as assistant for material-technical support to the quartermaster of the 4th battalion of that military unit. The military unit No. “N” in which he served was located in Yellice village of the Kalbajar district, while the Armenian armed forces were positioned in the direction of Zod settlement of Basarkechar district. The posts of the 4th battalion of military unit No. “N” were located in positions opposite those Armenian posts, with a straight-line distance of 30–40 metres between the posts. On 11.05.2023, after the Armenian armed forces opened fire with large-calibre weapons, in a provocative manner, at the posts where military units No. “N” and No. “N” were located, all units were instructed to remain vigilant. On 12.05.2023, while he was in front of the battalion, the Armenian armed forces began intensive fire from small-arms and artillery weapons, and at around 21:00, as a result of one of the shells falling in front of the battalion, he sustained an injury to his right hand. At the time of the incident, soldier **Mahammad Garayev** was killed, having sustained serious injuries, and several servicemen were wounded.

The statement given during the preliminary investigation by **Elxan Novruzaliyev, son of Farman**, who had been recognized and questioned as the legal successor of **Orkhan Novruzalizada, son of Elxan**, was read out in court. In that statement, he indicated that his son had been called up for military service in 2020 and had served in military unit No. "N". During his military service, he never had any complaints and was awarded medals by higher command for distinction in service. On 11.05.2023, he learned that his son had been killed as a result of the explosion of a shell fired while preventing a provocation by Armenian armed forces; his son's body was brought on 12.05.2023 to Vurgun settlement of the Agstafa district and buried in the village cemetery.

The statement given during the preliminary investigation by injured person **Zamir Sadigov, son of Adalat**, was read out in court. In that statement, he indicated that from 12.08.2006 he began serving as an officer, and after serving in various military units, on 25.06.2018 he was assigned to military unit No. "N" and continued his service in the 1st battalion. Since there was a provocation by Armenian military formations in the direction of Demirchidam and Zod villages, opposite Yukhari Shorja settlement of Basarkechar district, against the units, he served at the K-8 combat position of the 3rd company of the 1st battalion, conditionally named "Shangar-49". On 11.05.2023, at around 19:00, the Armenian armed forces began intensive fire from small-arms and artillery weapons, and as a result of one of the fired shells falling at the edge of the sector and exploding, he sustained an injury to the chest area, and after receiving initial medical assistance, he continued his service.

The statement given during the preliminary investigation by injured person **Sohrab Asgarov, son of Sardar**, was read out in court. In that statement, he indicated that on 05.04.2014 he was called up for military service and sent to military unit No. "N", where he served as driver of the vehicle section of the material-technical support team of the 4th battalion of that military unit. The military unit No. "N" in which he served was located in Yellice village of the Kalbajar district, while the Armenian armed forces were positioned in the direction of Zod settlement of Basarkechar district. The posts of the 4th battalion of military unit No. "N" were located in positions opposite those Armenian posts, with a straight-line distance of 30–40 metres between the posts. After the Armenian armed forces opened fire with large-calibre

weapons, in a provocative manner, at the posts where military units No. "N" and No. "N" were located, all units were instructed to remain vigilant. On 12.05.2023, while he was in front of the battalion, the Armenian armed forces began intensive fire from small-arms and artillery weapons, and at around 21:00, as a result of one of the shells falling in front of the battalion, he sustained an injury to the head area. At the time of the incident, soldier **Mahammad Garayev** was killed, having sustained serious injuries, and several servicemen were wounded.

The statement given during the preliminary investigation by **Mahir Garayev, son of Kamal**, who had been recognized and questioned as the legal successor of the injured person, was read out in court. In that statement, he indicated that his son **Mahammad Garayev** was born and raised in the city of Gabala on 16.11.2001. In 2007–2018, he studied at full secondary

school No. 4 in the city of Gabala; in 2018–2022, he completed his studies in business administration at the University of Economics in Baku, and on 02.06.2022 he was called up for military service. He served in military unit No. "N" in the Kalbajar district. On 12.05.2023, he heard from relatives that Mahammad had been killed. His body was handed over by the military unit on 13.05.2023, and he was buried that same day in the city of Gabala. M. Mahammad was calm and gentle by nature, had never filed any complaint during his service, and had no hostile relations with anyone. He had no information about the circumstances in which his son was killed or who was with him at the time.

The statement given during the preliminary investigation by witness **Burhan Tagiyev, son of Ahmad**, was read out in court. In that statement, he indicated that on 04.04.2020 he served in military unit No. "N" as head of the communications section and platoon commander of the artillery division. On 12 May 2023, in order to prevent the provocation by Armenian servicemen in the Kalbajar direction, he went to the K-9 combat position, conditionally named "Sangar-49", located in the direction of Zod settlement, and, as head of communications of the division, was responsible for organizing the communications link between the commando observation point and the firing positions. On 12.05.2023, at around 20:30, while the combat order to destroy the targets of Armenian servicemen was being carried out, an artillery shell fired by the Armenians exploded near the position held by the division commander, Major **Sanan Mustafayev**. As a result of the blast, Major Sanan Mustafayev hit a concrete shelter and fell to the ground. When he went to help him, he saw that his left leg was injured and his left eye was swollen. Together with First Lieutenant **Parvin Mammadov**, commander of the division's command-control team, he provided assistance to him, bandaged his leg and head, and brought the unconscious Burhan Tagiyev to consciousness with ammonia spirit. On 14.05.2023, because of the intensive artillery fire by Armenian servicemen, the danger of attack drones being used against the positions, and the road leading to the K-9 combat position being snowy and icy, Major Sanan Mustafayev refused to go to the medical point and was assisted with the medical supplies they had with them. On 14.05.2023, at around 13:00, with the assistance of Major **Heydar Jafarov**, assistant to the division chief of staff for material-technical support, he was evacuated to the division medical point.

The statement given during the preliminary investigation by witness **Parvin Mammadov, son of Galib**, was read out in court. In that statement, he indicated that on 12.05.2023, while carrying out a combat mission to destroy the targets of Armenian servicemen, at around 20:30, an artillery shell fired by the Armenians exploded near the position held by division commander Major **Mustafayev Sanan**. As a result, Major Mustafayev was thrown by the blast against the wall of a stone-and-concrete shelter. When he went to help him, he saw that his left leg was injured and his left eye was swollen. Together with First Lieutenant **Burhan Tagiyev**, commander of the division's command-control team, he provided assistance to him, bandaged his leg and head, and brought the unconscious Burhan Tagiyev to consciousness with ammonia spirit. On 14.05.2023, due to intensive artillery fire by Armenian servicemen, the danger of attack drones being used, and the road leading to the K-9 combat position being snowy and icy, Major Sanan Mustafayev was unable to apply to the medical point, and they provided assistance with the medical supplies they had with them. On 14.05.2023, he was

evacuated to the division's medical point by Major Heydar Jafarov, assistant to the division chief of staff for material and technical support.

Page 1140

The statement given during the preliminary investigation by the victim **Mustafayev Sanan Elchin oglu** was read out in court. In that statement, he indicated that on 12.05.2023, while at the duty station located at combat position "K-9" in the Zod settlement of the Kalbajar District, he had been assigned the task of conducting artillery reconnaissance and opening an observation point in order to direct artillery fire. On 12.05.2023, at around 20:30, while artillery fire was being carried out against the combat positions of Armenian servicemen located on the front line in order to prevent Armenian sabotage, and while corrections were being made to the artillery fire, the place where they were located came under fire from Armenian servicemen using small arms, an anti-tank guided missile, and large-calibre artillery shells. As a result of the explosion of a fired artillery shell, he sustained a wound to the anterior surface of the lower third of his left shin and a shrapnel wound to the right hand area, with a fracture of the styloid process of the right ulna; as a result of the blast wave, his left temple area struck an engineering-type concrete shelter, and he lost consciousness. After first medical aid was provided by Senior Lieutenant **Pervin Mammadov** and Senior Lieutenant **Burhan Taghiyev**, who were nearby, he regained consciousness. Since Armenian servicemen's artillery fire and the danger of an aerial strike drone continued, and because the route of movement to the combat position was snowy and icy, the medical vehicle sent from the unit on 14.05.2023 was unable to provide him with assistance. As a result of the trauma he received and due to the shrapnel wound, he had severe pain, dizziness, and vomiting, and on 14.05.2023, at around 13:00, he was evacuated by the assistant to the artillery division commander for material and technical support, Major **Jafarov Heydar Akram oglu**, to the artillery division's medical point, where first medical aid was provided to him.

The statement given during the preliminary investigation by the victim **Omarov Sanan Khidir oglu** was read out in court. In that statement, he indicated that on 11.05.2023, at around 09:00, in the territory of Chaykend village of the Kalbajar District, as a result of an armoured tank of the "T-72 M-1K" model with turret number "400," belonging to military unit No. "N," being struck by an anti-tank missile, the driver-mechanic of the tank platoon's tank crew, serviceman **Novruzzade Orkhan Elkhan oglu**, died, while servicemen Warrant Officer **Gushchiyev Emin Huseyn oglu**and **Khalilov Rafael Gadim oglu** sustained bodily injuries of varying degrees.

It was additionally reported that, in connection with the material damage caused to military unit No. "N" as a result of the destruction of the "T-72 M-1K" armoured tank with turret number "400," relevant inquiries were sent to the Main Department for Material and Technical Support of the Ministry of Defence, but no official response was received to that inquiry.

The statement given during the preliminary investigation by the victim **Aliyev Novruz Hagverdi oglu** was read out in court. In that statement, he indicated that on 17.05.2023, while he was at the post at the combat position conditionally named K-22 of the 10th

company of the 4th battalion, located in the territory of Yellica village of the Kalbajar District, Armenian armed forces began firing with large-calibre weapons. At the same time, the Armenian armed forces attempted to commit sabotage using special strike drones. By attaching explosive devices to the said drones, they intended to inflict damage on the post and personnel. On that day, at around 19:00, one of the special strike drones of the Armenian servicemen fell at the combat position conditionally named K-22 of the 10th company. At that time, an explosion occurred above the combat sector where **Novruz Aliyev** was located, and a stone fragment from the sector struck his right arm. No other servicemen were injured as a result of the explosion of the special strike drone belonging to the Armenian armed formations. Since it was a stone fragment that struck his arm at that time, no damage was caused to his clothing.

The statement given during the preliminary investigation by **Isgandarov Bakhtiyar Masallah oglu**, who was questioned as a witness, was read out in court. In that statement, he indicated

that on 17.05.2023, reinforcement had been assigned to each unit, and several days earlier the Armenian armed forces had fired at the posts with large-calibre artillery weapons and carried out sabotage. For that reason, all posts had been instructed to remain vigilant. On 17.05.2023, in the territory of Yellica village of the Kalbajar District, the combat position conditionally named K-22 of the 10th company of the 4th battalion was suddenly subjected to sabotage by the Armenian armed forces using a strike drone. By attaching an explosive device to the said drone, they intended to inflict damage on the post and personnel. At that time, several strike drones belonging to the Armenian armed formations were neutralised, but one of the special strike drones of the Armenian armed forces fell at the combat position conditionally named K-22 of the 10th company. At that time, no serviceman at the post, other than Junior Sergeant **Aliyev Novruz Hagverdi oglu**, sustained bodily injury in the right elbow area.

It is seen from the statements of **Gozalov Galib Ahad oglu**, who was questioned as a witness and whose statements were read out and confirmed in the courtroom, that he confirmed the facts indicated by **Novruz Aliyev** and **Bakhtiyar Isgandarov**.

The statement given during the preliminary investigation by the victim **Bakirov Ali Shukur oglu** was read out in court. In that statement, he indicated that on 27.06.2023, at around 19:00, while he was at his assigned combat duty station at the combat position located in the territory of Galaychilar village of the Aghdam District, he sustained bodily injuries accompanied by a penetrating firearm wound to the left calf as a result of Armenian armed formations opening fire with firearms.

It is seen from the statements of **Asadov Safar Nazim oglu**, **Isayev Orkhan Israil oglu**, and **Ashimov Elvin Zakir oglu**, who were questioned as witnesses and whose statements were read out and confirmed in the courtroom, that they gave statements consistent with the statement of the victim **Bakirov Ali Shukur oglu**.

The statement given during the preliminary investigation by the victim **Abdullayev Huseyn Arif oglu** was read out in court. In that statement, he indicated that on 11.07.2023, at around 14:00, sandbags were brought to the area, and one tractor arrived behind the bags. After the tractor became visible, Armenian servicemen began firing in the direction of the tractor. After that, combat-readiness order No. 1 was given at the position. At that moment, something fell somewhere on the opposite side's positions, behind the trench against which he was leaning, and exploded. A few seconds later, he saw that his right arm was bleeding, informed Major **Sahib Zeynalov** about this, and was evacuated to the medical point.

It is seen from the statements of **Bazayev Vusal Bayram oglu**, **Guliyev Alizamin Ali oglu**, and **Dadashov Aykhan Atesh oglu**, who were questioned as witnesses and whose statements were read out and confirmed in the courtroom, that, by confirming the circumstances shown by the victim, they gave statements of the same content.

The statement given during the preliminary investigation by the victim **Habibov Khayal Gabil oglu** was read out in court. In that statement, he indicated that on 20.07.2023, at around 10:00, together with other servicemen, he went in a military-registration-plated "Volkswagen Amarok" vehicle with state registration number 99-KU-898 to the No. "N" military unit located in Buluduz village of the Lachin District for a meeting with soldiers. At military unit No. "N," he was given a day off, and after some time, together with Araz's son, he travelled by car in the direction of Gorchu village of the Lachin District. When the car approached the village, it suddenly hit a mine, and as a result of the explosion's impact he was thrown around inside the car and sustained various bodily injuries.

The statement given during the preliminary investigation by the victim **Barkhudarov Niyamaddin Shukur oglu** was read out in court. In that statement, he indicated that on 20.07.2023, at around 09:00–10:00, in the Lachin District, he, together with other servicemen, **Eltun Khudiyev**, Major **Rufat Abbasguliyev**, and Sergeant **Khayal Habibov**, went to military unit No. "N"...

Page 1142

...when they arrived, they got out of the vehicle, while **Khayal Habibov** drove the vehicle along the road toward **Gorchu**village of the Lachin District. About one hour later, they were informed that **Kh. Habibov's** vehicle had hit a mine and that he had been injured. The vehicle damaged as a result of hitting the mine was later repaired by him.

The statement given during the preliminary investigation by the victim **Nazarov Ramil Ismat oglu** was read out in court. In that statement, he indicated that on 21.08.2023, at around 09:00, the positions of military unit No. "N" began to be fired upon by the Armenian armed forces. While the fire continued, he, together with Junior Sergeant **Abbasov Kamran Shukur oglu**, discovered and destroyed one Armenian serviceman who was attempting to observe the movement of Azerbaijani military personnel. At around 10:00, while continuing his service together with Junior Sergeant **Kamran Abbasov**, and while observing the movement of Armenian military formations, several bullets fired from a vehicle in which persons in civilian clothing were moving at a distance from the position hit the **Truvello 3432** sniper rifle through which he was observing, as well as the rock beside it. Since he was

unable to change position as a result of the fire, fragments separated from the bullets caused injuries to his face-jaw, right shoulder, and left forearm areas. **Nazarov Ramil Ismat oglu** also stated that, while serving in the said unit, he had been provided with a bulletproof vest, a combat helmet, and other necessary equipment.

It is seen from the statements of **Abbasov Kamran Shukur oglu**, **Novruzov Nuraddin Safayat oglu**, **Tanriverdiyev Ramin Andriyas oglu**, and **Huseynov Asif Mehman oglu**, who were questioned as witnesses and whose statements were read out and examined in the courtroom, that, confirming the circumstances described by the injured person regarding the conditions under which the incident occurred, they gave statements of the same content.

The statement given during the preliminary investigation by the injured person, serviceman of military unit No. "N" of the Ministry of Defence, First Lieutenant **Ahmadov Mehdi Huseyn oglu**, who was questioned as an injured person, was read out in court. In that statement, he indicated that on 01.09.2023, at around 12:00, Armenian armed units from the territory of **Azizli** village of the Basarkechar District of the Republic of Armenia began shelling, with cannons, the combat position conditionally named "K-20" located in the territory of Azerbaijan, as a result of which the positions were damaged. During that continuous fire, while he was observing the Armenian servicemen, a shell fragment struck him; in addition, the blast wave from the shell threw him approximately 1–2 metres to the side and slammed him into a fortification basket. As a result of the incident, he was injured.

It is seen from the statements of **Alisoy Mammad Chapay oglu**, Lieutenant **Taghiyev Mahammad Ramiz oglu**, Sergeant **Aliyev Ulfat Novruz oglu**, Junior Sergeant **Mammadli Sadig Saday oglu**, Soldier **Gasimov Gunduz Intizam oglu**, and Soldier **Eyvazov Maharram Ceyhun oglu**, who were questioned as injured persons and whose statements were read out and examined in the courtroom, that they gave statements of similar content to those of First Lieutenant **Novruzov Nuraddin Safayat oglu**, Chief Sergeant **Mammadov Habil Isgandar oglu**, and First Lieutenant **Ahmadov Mehdi Huseyn oglu**, who were questioned as witnesses.

The statement given during the preliminary investigation by the victim **Ismayilov Yunis Panah oglu** was read out in court. In that statement, he indicated that on 07.09.2023, at around 07:00, while he, together with Sergeant **Abbasov Vugar**, was clearing the area around the position of mines planted by Armenian armed formations, a dry piece of wood under his foot slipped because the ground was wet and sloped downward, and, as a result of his right foot slipping, one of the next mines deliberately planted in the area came under his foot and exploded. The blast wave lifted him and threw him to the ground. After he fell, Sergeant **Abbasov** came to help him, began applying pressure with a tourniquet to stop the bleeding, gave him an anaesthetic injection, and, when he could not move his leg, saw that the lower one-third of his right calf had been severed. Later, a reconnaissance-medic instructor serving in military unit No. "N" nearby provided him with first medical aid, and his comrades removed him from the scene and brought him to a support point. There, the doctors of the military unit examined him and his wound

cleaned and re-bandaged. After that, on the doctor's advice, he went to military unit No. "N"; there he was admitted for inpatient treatment, and his leg was operated on surgically. His condition is now good. He also stated that no one else was wounded or killed as a result of the incident.

The statement given during the preliminary investigation by **Masmaliyev Farid Alhuseyn oglu**, who was questioned as a witness, was read out in court. In that statement, he indicated that on 26.03.2022, he was serving as the chief of the medical service of military unit No. "N," with the military rank of medical service Senior Lieutenant. On 07:20, while engineering-fortification work was being carried out at the combat position of military unit No. "N" conditionally named "KQ-13," that is, while the area was being cleared of mines, long-service active-duty serviceman of military unit No. "N," Sergeant **Ismayilov Yunis Panah oglu**, was injured after stepping on a mine planted by Armenian military formations in front of the trench and sustained injuries accompanied by the diagnosis of "traumatic amputation of the lower one-third of the right calf, surgical treatment of mine-blast trauma."

It is seen from the statement of **Ganbarov Abulfat Azer oglu**, who was questioned as a witness and whose statement was read out and examined in the courtroom, that he confirmed what **Farid Masmaliyev** had stated and gave a statement of the same content.

The statement given during the preliminary investigation by the victim **Eminov Khayyam Mahal oglu** was read out in court. In that statement, he indicated that on 10.09.2023, at around 13:00, during reconnaissance of the area, he stepped with his left foot on an anti-personnel mine; after the mine exploded, he fell to the ground, and while falling, his right foot also touched another anti-personnel mine, causing a second explosion. As a result of the first mine explosion, one-third of his left foot/leg was amputated. In addition, as a result of the second mine explosion, he sustained numerous shrapnel wounds to his right leg.

The statement given during the preliminary investigation by **Gubadli Ilgar Saday oglu**, who was questioned as a witness, was read out in court. In that statement, he indicated that on 10.09.2023, servicemen of military unit No. "N" were conducting reconnaissance in the area of **Qaralar** village of the Aghdam District in order to prevent a possible attack by Armenian armed formations from the direction of **Dovshanli** village of the Khojaly District. Then, at around 13:00 that day, he heard the sound of an explosion, followed by screams, and, assuming that an anti-personnel mine had exploded, immediately instructed Junior Sergeant **Asgarov Ilkin Hafiz oglu** to prepare a stretcher intended for carrying the wounded from the area where the explosion had occurred. About two minutes later, he saw that **Eminov Khayyam Mahal oglu**, who was serving in military unit No. "N" as deputy to the chief of staff and deputy commander of the military unit, with the military rank of lieutenant colonel, had been brought with injuries to his legs. At that time, in order to stop the bleeding in the area of his left foot/leg, he immediately tied a tourniquet to his left leg.

The statement given during the preliminary investigation by **Isayev Charkaz Aghabak oglu**, who was questioned as the legal successor of the victim **Isayev Ismayil Charkaz oglu**, was read out in court. In that statement, he indicated that his son **Ismayil Isayev** had served as an officer in military unit No. "N" of the Ministry of Defence since 2022, and that on

19.09.2023 he received a phone call informing him that his son **Charkaz** had been killed in the direction of Aghdara.

The statement given during the preliminary investigation by **Zamanli Murad Azad oglu**, who was questioned as the legal successor of the victim **Zamanli Ahmad Azad oglu**, was read out in court. In that statement, he indicated that his brother **Ahmad Zamanli** had been serving in military unit No. "N" of the Ministry of Defence as a conscript since June 2022, and that on 19.09.2023 he was killed in the direction of Aghdara as a result of a sniper bullet fired by Armenian armed formations striking his head.

The statement given during the preliminary investigation by **Canbakhishov Kheyrulla Bakhtiyar oglu**, who was questioned as the legal successor of the victim **Canbakhishov Khayal Kheyrulla oglu**, was read out in court. type actions committed by Armenian armed formations, on **19 September 2023**, at around **21:00–22:00**, during combat operations conducted in the direction of **Aghdara District**, as a result of fire opened by Armenian armed formations, he and soldier **Hikmat Garabeyli** sustained various bodily injuries.

The statement given at the preliminary investigation by soldier **Imran Elman oglu Hasanli**, rifleman and personnel member of the 2nd squad of the 1st team of the 10th company of the 4th battalion of Military Unit No. "N" of the Ministry of Defense, was announced in court. In that statement he indicated that, while preventing large-scale sabotage-type actions committed by Armenian armed formations, on **20 September 2023**, at around **13:00**, during combat operations conducted in the direction of **Aghdara District**, as a result of fire opened by Armenian armed formations, he and Lieutenant **Ayaz Rzayev** sustained various bodily injuries.

The statement given at the preliminary investigation by Senior Lieutenant **Farhad Fikrat oglu Tagiyev**, head of the medical point of Military Unit No. "N" of the Ministry of Defense, was announced in court. In that statement he indicated that on **19 September 2023**, at around **13:00**, he received information from the units fighting in the territory of **Aghdam District** that there were wounded servicemen. As head of the medical point, he went in an armored medical vehicle toward post **A-11** to help the wounded; however, as they approached the post, Armenian armed formations struck their armored vehicle with a shell. At that time, he and the medical personnel who were in the vehicle got out of the vehicle, crawled toward a thicket, and hid there.

He informed brigade Major **Rufat Guliyev** and Captain **Elvar Nahmatzade**, acting head of the corps medical service, that they had been hit; they said they would send assistance. He himself was also wounded and sustained injuries to various parts of his body. Among those wounded together with him were **Sarkhan Rahimov** and **Farid Zeynalov**.

The statement given at the preliminary investigation by soldier **Nahid Sahib oglu Zeynalov**, a long-term active-duty serviceman of the 1st operations company of the 1st operations battalion of Military Unit No. "N" of the Ministry of Defense, was announced in court. In that statement he indicated that on **19 September 2023**, at around **13:00**, by order of Chief of Staff **Vusal Rustamov**, together with a group of servicemen, he was about to attack in order to seize, in accordance with the assigned task, the post of Armenian armed formations located on the road to the village of **Sirxavand**, **Aghdara District**. At that time, a **Fagot-type rocket projectile** fired by Armenian armed formations in their direction fell near them and exploded. As a result, Chief of Staff **Vusal Rustam oglu Rustamov** was killed, while he and **Gahraman Ismayilov** sustained injuries.

The statement given at the preliminary investigation by Senior Lieutenant **Farid Zahid oglu Zeynalov**, head of the medical point of the 1st operations battalion of Military Unit No. "N" of the Ministry of Defense—

—was announced in court. In that statement he indicated that on **19 September 2023**, at approximately **13:00**, information was received from the units fighting in the territory of **Aghdam District** that there were wounded servicemen. As head of the medical point of the 1st battalion, he went in an armored medical vehicle toward post **A-11**; however, as they approached the post, the armored vehicle they were in was struck by a shell fired by Armenian armed formations. As a result of the explosion, he sustained injuries to various parts of his body. The brigade medical point chief, **Farhad Tagiyev**, who was with him, was also injured.

The statement given at the preliminary investigation by Sergeant **Afgan Hafiz oglu Kamilov**, a long-term active-duty serviceman of the 1st operations company of the 1st operations battalion of Military Unit No. "N" of the Ministry of Defense, was announced in court. In that statement he indicated that on **19 September 2023**, at **13:25**, by order of Chief of Staff **Vusal Rustam oglu Rustamov**, he moved forward together with a group of servicemen in the direction of **Aghdara District** in order to seize the posts belonging to Armenian armed formations on the road to the village of **Sirxavand**. While doing so, a shell called **Fagot**, fired by Armenian armed formations in their direction, fell near them and exploded, as a result of which he sustained injuries.

The statement given at the preliminary investigation by Sergeant **Mayis Aydinbey oglu Koroghliyev**, a long-term active-duty serviceman of the 1st operations company of the 1st operations battalion of Military Unit No. "N" of the Ministry of Defense, was announced in court. In that statement he indicated that on **19 September 2023**, at around **13:00**, while he was in the territory of **Aghdam District**, a Fagot-type rocket projectile fired by Armenian armed formations fell near him and exploded. As a result, Chief of Staff **Vusal Rustam oglu Rustamov** was killed, while he and **Gahraman Ismayilov sustained** injuries.

The statement given at the preliminary investigation by soldier **Nurlan Mahammad oglu Safarov**, a long-term active-duty serviceman of the 2nd operations company of the 1st operations battalion of Military Unit No. "N" of the Ministry of Defense, was announced in court. In that statement he indicated that on **19 September 2023**, at around **13:00**, while he was in the territory of **Aghdam District** together with approximately **40 servicemen**, they were ordered that after the artillery forces opened fire on the posts of Armenian armed formations, they should attack and seize those posts. After those posts were fired upon, they launched the attack. At that time, a Fagot-type rocket projectile was fired by Armenian armed formations in their direction, and as a result of that projectile falling near them and exploding, he sustained injuries.

The statement given at the preliminary investigation by soldier **Famil Faid oglu Safarguliyev**, a long-term active-duty serviceman of the 2nd operations company of the 1st operations battalion of Military Unit No. "N" of the Ministry of Defense, was announced in court. In that statement he indicated that on **19 September 2023**, at around **13:00**, while he was in the territory of **Aghdam District** together with approximately **40 servicemen**, they were ordered that after the artillery forces opened fire on the posts belonging to Armenian armed formations, they should attack and seize those posts. After those posts were fired upon,

they launched the attack. At that time, a Fagot-type rocket projectile was fired by Armenian armed formations in their direction, and as a result of that projectile falling near them and exploding, he sustained injuries.

The statement given at the preliminary investigation by Lieutenant **Abil Vugar oglu Alakbarov**, commander of the 1st operations team of the 4th operations company of the 2nd operations battalion of Military Unit No. “N” of the Ministry of Defense, was announced in court. In that statement he indicated that on **19 September 2023**, at **13:10**, while he was in the territory of **Aghdam District**, they were instructed to attack and seize the posts belonging to Armenian armed formations. Approximately **70 servicemen** went together with him. At that time—

Page 1268

—a shell fired by Armenian armed formations fell near him and exploded, as a result of which he sustained injuries.

The statement given at the preliminary investigation by soldier **Elshan Sarkar oglu Nadirshahov**, a long-term active-duty serviceman of the 2nd operations company of the 1st operations battalion of Military Unit No. “N” of the Ministry of Defense, was announced in court. In that statement he indicated that on **19 September 2023**, at **13:25**, on the assignment of Chief of Staff **Vusal Rustam oglu Rustamov**, he went together with several servicemen in the direction of **Aghdara District** in order to seize a post belonging to Armenian armed formations on the road to the village of **Sirxavand**. At that time, **Vusal Rustamov** told him and the other servicemen to attack after those posts were struck by cannon fire. After some time, artillery forces fired at those combat positions; approximately **5–10 seconds** later, as they were advancing in attack, the positions where they were located came under fire from a rocket called **Fagot**, launched by Armenian armed formations. As a result of the rocket projectile falling near them and exploding, he sustained injuries.

The statement given at the preliminary investigation by soldier **Firuz Mushfiq oglu Samadov**, reconnaissance-fortification specialist of the 1st operations company of the 1st operations battalion of Military Unit No. “N” of the Ministry of Defense, was announced in court. In that statement he indicated that on **19 September 2023**, at around **13:00**, their task was to take control of the direction of the village of **Sirxavand**, **Aghdara District**. Together with **Kamal Abdullayev**, assistant to the company commander for personnel, he advanced in that direction and went to the post called **A-11**. However, when he reached it, since that post had been hit by a rocket called **Kornet** by Armenian armed formations, he left that area and advanced toward the post belonging to Armenian armed formations. At that moment, a shell fired by Armenian armed formations in the direction where they were located fell near him and exploded, as a result of which he sustained injuries.

The statement given at the preliminary investigation by Sergeant **Murad Famil oglu Kamilov**, a long-term active-duty serviceman of the sniper company of Military Unit No. “N” of the Ministry of Defense, was announced in court. In that statement he indicated that

on **19 September 2023**, at around **13:00**, together with a group of servicemen, he attacked from the direction of **Aghdam District** in order to seize the posts belonging to Armenian armed formations. Later, a rocket projectile called **Kornet**, fired by Armenian armed formations, fell near him and exploded, as a result of which he sustained injuries.

The statement given at the preliminary investigation by soldier **Anar Fazil oglu Ahmadov**, reconnaissance-UAV crew member of Military Unit No. "N" of the Ministry of Defense, was announced in court. In that statement he indicated that on **19 September 2023**, at around **16:30**, in the territory of the village of **Chaghaduz**, **Khojavend District**, as a result of fire opened by Armenian armed formations located there and as a result of the projectile of an **AGS** weapon fired by them falling near him and exploding, he sustained injuries.

The statement given at the preliminary investigation by Senior Lieutenant **Rasul Avtandil oglu Aghayev**, chief of staff of the 3rd marine infantry battalion of Military Unit No. "N" of the Ministry of Defense, was announced in court. In that statement he indicated that on **19 September 2023**, at around **19:00**, in the territory of the village of **Sardarkend**, **Khojaly District**, as a result of sniper fire opened by Armenian armed formations located there, his comrade-in-arms, long-term active-duty serviceman soldier **Allahverdi Shafiyev**, who was near him, was killed, while he himself sustained injury.

The statement given at the preliminary investigation by Senior Soldier **Ramazan Habib oglu Mammadov**, long-term active-duty serviceman and commander of the 1st half-group of the seizure group of the 3rd special-means application division of the 4th special-means application detachment of Military Unit No. "N" of the Internal Troops of the Ministry of

Internal Affairs, was announced in court. In that statement he indicated that on **19 September 2023**, at around **14:30**, in the territory of **Khojavend District**, as a result of an artillery shell fired by Armenian armed formations located there falling near him and exploding, he sustained injury.

The statement given at the preliminary investigation by soldier **Elmir Yadigar oglu Beydullayev**, long-term active-duty serviceman and sanitary rifleman of the 1st half-group of the 1st group of the 1st special-means application division of the 4th special-means application detachment of Military Unit No. "N" of the Internal Troops of the Ministry of Internal Affairs, was announced in court. In that statement he indicated that on **19 September 2023**, at around **14:30**, in the territory of **Khojavend District**, as a result of an artillery shell fired by Armenian armed formations located there falling near him and exploding, he sustained injury.

The statement given at the preliminary investigation by

soldier **Ilkin Eldaniz oglu Rahimov**, long-term active-duty serviceman and rifleman of the 2nd half-group of the 1st group of the 1st special-means application division of the 4th special-means application detachment of Military Unit No. "N" of the Internal Troops of the Ministry of Internal Affairs, was announced in court. In that statement he indicated that on **19 September 2023**, at around **14:30**, in the territory of **Khojavend District**, as a result of an artillery shell fired by Armenian armed formations located there falling near him and exploding, he sustained injury.

The statement given at the preliminary investigation by Lieutenant **Royal Sahibaddin oglu Hasanov**, commander of the fire-support group of the 8th artillery battery of the 3rd artillery division of Military Unit No. "N" of the Ministry of Defense, was announced in court. In that statement he indicated that on **19 September 2023**, at around **16:00**, in the territory of the village of **Janyatag**, **Aghdara District**, as a result of an anti-tank guided missile system projectile fired by Armenian armed formations located there falling onto and exploding on a tank belonging to them nearby, he and his comrade-in-arms Senior Lieutenant **Farid Alisultanov** sustained injuries.

The statement given at the preliminary investigation by soldier **Sadiq Isbat oglu Ismayilov**, chief gunner of the rocket-artillery battery of the separate company of Military Unit No. "N" of the Ministry of Defense, was announced in court. In that statement he indicated that on **19 September 2023**, at around **17:00**, in the territory of **Aghdara District**, as a result of a mortar shell fired by Armenian armed formations located there falling near him and exploding, his comrade-in-arms Senior Lieutenant **Ruslan Abbasov** was killed, while he himself sustained injury.

The statement given at the preliminary investigation by Captain **Elturk Ali oglu Rzabeyli**, scout of Military Unit No. "N" of the Ministry of Defense, was announced in court. In that

statement he indicated that on **20 September 2023**, at around **10:30**, in the territory of **Khojaly city**, as a result of fire opened by Armenian armed formations located there and as a result of a mortar shell fired by them falling near him and exploding, he sustained injuries.

The statement given at the preliminary investigation by Sergeant **Ilkin Natiq oglu Aliyev**, sniper-scout of the sniper squad of the special-weapons platoon of Military Unit No. "N" of the Ministry of Defense, was announced in court. In that statement he indicated that on **19 September 2023**, at around **15:00**, in the territory of **Aghdara District**, as a result of a mortar shell fired by Armenian armed formations located there falling near him and exploding, he sustained injury.

The statement given at the preliminary investigation by Warrant Officer **Rashad Kamal oglu Aslanov**, senior sergeant of the 11th company of the 4th battalion of Military Unit No. "N" of the Ministry of Defense, was announced in court. In that statement he indicated that on **19 September 2023**, at around **23:00**, in the territory of **Aghdam District**, as a result of an artillery shell fired by Armenian armed formations falling in the area near him and exploding, he sustained injury.

The statement given at the preliminary investigation by Senior Lieutenant **Farid Vugar oglu Alisultanov**, commander of the fire-support group of the 9th battery of the 3rd division of Military Unit No. "N" of the Ministry of Defense, was announced in court. In that statement he indicated that on **19 September 2023**, at around **16:00**, in the territory of **Aghdam District**, as a result of an artillery shell fired by Armenian armed formations falling near the tank beside which he was located and exploding, he and soldier **Mahammadali Mammadzade** from his group, who was near him, sustained injuries.

The statement given at the preliminary investigation by Major **Musa Rizvan oglu Ahmadov**, assistant to the head of the combat training division of the operations and combat training section of Military Unit No. "N" of the Ministry of Defense, was announced in court. In that statement he indicated that on **19 September 2023**, at around **18:00**, in the territory of **Aghdam District**, as a result of Armenian armed formations

as a result of an artillery shell fired by Armenian armed formations falling at a road junction near him and exploding, he sustained injuries.

The statement given at the preliminary investigation by soldier **Ramiz Anar oglu Muradli**, driver of the 1st vehicle squad of the main command point of the headquarters supply-support battalion of Military Unit No. "N" of the Ministry of Defense, was announced in court. In that statement he indicated that on **19 September 2023**, at around **15:00**, in the territory of **Aghdam District**, as a result of a rocket projectile fired by Armenian armed formations exploding near him, he and servicemen **Riyad Rzayev** and a soldier surnamed **Hasanov**, whose name he did not remember, sustained injuries.

The statement given at the preliminary investigation by Captain of the medical service **Rafail Mustafa oglu Karimov**, chief resident of the surgical department of Military Unit No. "N" of the Ministry of Defense, was announced in court. In that statement he indicated that on **19 September 2023**, at around **14:00**, while going to provide medical assistance to wounded soldiers in the territory of **Aghdam District**, he sustained injury as a result of an artillery shell fired by Armenian armed formations exploding near him.

The statement given at the preliminary investigation by soldier **Allahverdi Bahruz oglu Rasulov**, rifleman-regulator of the commandant squad of the security and commandant platoon of the headquarters and supply company of Military Unit No. "N" of the Ministry of Defense, was announced in court. In that statement he indicated that on **19 September 2023**, at around **17:00**, in the territory of **Khojavend District**, as a result of an artillery shell fired by Armenian armed formations located there falling near him and exploding, he sustained injury. In the area where he was wounded and at that time, his comrades-in-arms Senior Lieutenant **Zamil Abbasov**, soldier **Osman Aghakhanov**, soldier **Arzulla Hasanli**, soldier **Murad Akhundov**, soldier **Mirali Tahmazov**, Senior Lieutenant **Karam Hasanov**, Junior Lieutenant **Garib Gasimov**, and Major **Elkhan Najafi** were killed.

The statement given at the preliminary investigation by soldier **Shahin Hasan oglu Talibov**, reconnaissance-aimer of the 2nd group of the 3rd platoon of the 6th company of the 2nd battalion of Military Unit No. "N" of the Ministry of Defense, was announced in court. In that statement he indicated that on **19 September 2023**, at around **23:00**, in the territory of the village of **Janyatag**, **Aghdara District**, as a result of a mortar shell fired by Armenian armed formations located there falling near him and exploding, he sustained injury. In the area where he was wounded and at that time, his comrade-in-arms, long-term active-duty serviceman soldier **Mirmusa Huseynzade**, was killed, while Sergeant **Sarkhan Isgandarov**and soldiers **Shams Yusibli**, **Shahriyar Alakbarli**, and **Farid Huseynov** sustained injuries.

The statement given at the preliminary investigation by long-term active-duty serviceman soldier **Ramal Jamil oglu Shabizade**, reconnaissance operator of the 1st group of the 4th platoon of the 4th company of the 2nd battalion of Military Unit No. "N" of the Ministry of Defense, was announced in court. In that statement he indicated that on **20 September 2023**, at around **11:00**, in the territory of the village of **Janyatag**, **Aghdara District**, he sustained injuries as a result of fire opened by Armenian armed formations located there. In the area where he was wounded and at that time, his comrades-in-arms **Vaseh Asim oglu Eyvazov** and **Alim Rahim oglu Gulmaliyev** also sustained injuries.

The statement given at the preliminary investigation by soldier **Nijat Shafiyulla oglu Mirzamov**, grenadier of the 3rd squad of the 1st platoon of the 5th company of the 2nd battalion of Military Unit No. "N" of the Ministry of Defense, was announced in court. In that statement he indicated that on **19 September 2023**, at around **13:00**, while attacking a combat post belonging to Armenian armed formations located in the territory of **Shusha District**, in mountainous terrain, he slipped on stones under his feet, fell, and sustained injury. In addition—

—on **20 September 2023**, at around **12:00**, in the territory of **Khankendi city**, as a result of a mortar shell fired by Armenian armed formations located there falling near him and exploding, he sustained injury. In the area where he was wounded and at that time, his comrade-in-arms Warrant Officer **Mehdi Mursalov** also sustained injury.

The statement given at the preliminary investigation by soldier **Anar Mais oglu Garayzade**, engineer of the 1st squad of the 2nd mine-clearing platoon of the engineering-fortification company of Military Unit No. "N" of the Ministry of Defense, was announced in court. In that statement he indicated that on **20 September 2023**, at around **12:00**, in the territory of **Khankendi city**, as a result of a mortar shell fired by Armenian armed formations located there falling near him and exploding, his comrade-in-arms soldier **Daghbay Orujov**, who was near him, was killed, while he himself sustained injury.

The statement given at the preliminary investigation by Junior Sergeant **Rashad Kamil oglu Aghayev**, reconnaissance operator of the 2nd group of the 2nd platoon of the 4th company of the 2nd battalion of Military Unit No. "N" of the Ministry of Defense, was announced in court. In that statement he indicated that on **19 September 2023**, at around **13:15**, in the territory of the village of **Sirxavand**, **Aghdara District**, as a result of an anti-tank guided rocket projectile fired by Armenian armed formations located there falling near him and exploding, the comrades-in-arms near him — Lieutenant Colonel **Vusal Rustamov**, Captain **Elvin Aliyev**, Senior Lieutenant **Nihad Guluzade**, Sergeant **Alibey Alibeyov**, long-term active-duty serviceman soldier **Aghami Alishanov**, and long-term active-duty serviceman soldier **Altun Aliyev** — were killed, while he and his other comrades-in-arms Major **Nusrat Mustafayev** and Captain **Asaf Musayev** sustained injuries.

The statement given at the preliminary investigation by Captain **Nizami Eynullah oglu Abdullayev**, commander of the 2nd battery of the artillery division of Military Unit No. "N" of the Ministry of Defense, was announced in court. In that statement he indicated that on **19 September 2023**, at around **15:00**, in the territory of **Khojavend District**, as a result of a cannon shell fired by Armenian armed formations located there falling near him and exploding, he sustained injury.

The statement given at the preliminary investigation by Senior Lieutenant **Rahib Vagif oglu Nazarov**, commander of the 3rd tank company of the 1st tank battalion of Military Unit No. "N" of the Ministry of Defense, was announced in court. In that statement he indicated that on **19 September 2023**, at around **14:50**, in the territory of the village of **Janyatag**, **Aghdara District**, as a result of a **Kornet-type rocket projectile** fired by Armenian armed formations located there falling onto and exploding on the **T-72** tank in which he was located, he and his comrades-in-arms Warrant Officer **Abdulali Gurbanov** and long-term active-duty serviceman soldier **Najmaddin Alasgarov**, who were near him, sustained injuries.

The statement given at the preliminary investigation by Senior Lieutenant **Elvin Gurban oglu Mammadov**, reconnaissance chief of the 2nd self-propelled artillery division of

Military Unit No. “N” of the Ministry of Defense, was announced in court. In that statement he indicated that on **19 September 2023**, at around **20:00**, in the territory of the village of **Sardarkend**, **Khojaly District**, as a result of a mortar shell fired by Armenian armed formations located there falling near him and exploding, he and the comrade-in-arms near him, long-term active-duty serviceman soldier **Kamran Hasanov**, sustained injuries.

The statement given at the preliminary investigation by long-term active-duty serviceman soldier **Farid Fagan oglu Ibrahimov**, senior driver of the 1st squad of the vehicle platoon of Military Unit No. “N” of the Ministry of Defense, was announced in court. In that statement he indicated that on **20 September 2023**, at around **09:00**, in the territory of **Aghdara District**, as a result of a cannon shell fired by Armenian

armed formations falling near him and exploding, he sustained injury.

The statement given at the preliminary investigation by Sergeant **Rovshan Aliheyder oglu Hajibalayev**, driver of the headquarters company of Military Unit No. “N” of the Ministry of Defense, was announced in court. In that statement he indicated that on **19 September 2023**, at around **13:40**, in the territory of the village of **Sirkhavand**, **Aghdara District**, as a result of an artillery shell fired by Armenian armed formations located there falling near him and exploding, he sustained injury.

The statement given at the preliminary investigation by soldier **Raul Eldar oglu Mammadov**, reconnaissance-aimer of the 1st operations company of the 1st battalion of Military Unit No. “N” of the Ministry of Defense, was announced in court. In that statement he indicated that on **19 September 2023**, at around **14:00**, in the territory of **Aghdara District**, as a result of a mortar shell fired by Armenian armed formations located there falling near him and exploding, he sustained injury. In the area where he was wounded and at that time, his comrade-in-arms, long-term active-duty serviceman **Tapdig Khalafov**, was killed.

The statement given at the preliminary investigation by Captain **Namiq Asgar oglu Zohrabov**, commander of the 1st company of the 1st battalion of Military Unit No. “N” of the Ministry of Defense, was announced in court. In that statement he indicated that on **20 September 2023**, at around **11:30**, in the territory of the settlement of **Asgaran**, **Khojaly District**, as a result of fire opened by Armenian armed formations located there, he and his comrade-in-arms **Aliqismet Nuriyev**, who was near him, sustained injuries. In the area where he was wounded and at that time, his comrades-in-arms, long-term active-duty serviceman soldier **Rustam Dunyamaliyev**, was killed, while soldier **Soltan Samadov** sustained injury.

The statement given at the preliminary investigation by the injured person **Anar Mahammad oglu Rahimli** was announced in court. In that statement he indicated that since **2016** he had worked at **Smartcom Limited Liability Company** as an installation specialist, and that his

duties consisted of carrying out the installation and operation of radio equipment held on the balance sheets of companies working under subcontracting agreements.

On **28 December 2021**, in accordance with the company's instructions, in order to inspect the operation of telephone towers belonging to **Bakcell Limited Liability Company** in the liberated territories of **Aghdam District**, on **29 December 2021**, at around **10:00**, together with **Rashad Pashayev**, an employee of **Technocell Limited Liability Company**, he traveled toward the liberated territories of Aghdam District in a **Mitsubishi L200** vehicle with state registration plate **99-JK-820**, belonging to the company where he worked.

In accordance with the instructions, they first inspected a tower installed in the territory of the village of **Galaichilar**, **Aghdam District**, and carried out planning work. Afterwards, they moved toward an area called **"Yeddi Khirman."** At around **13:00**, they arrived there and carried out planning work for approximately half an hour. After that, they began moving by vehicle in the direction of the settlement of **Guzanli**, **Aghdam District**.

They had gone to that area through the territory of **Aghdam city**. When returning, they drove from a dirt road onto a road junction. At that point the road split into two parts. Since they did not know the area well, and considering that the direction branching off to the right appeared to be more commonly used, they continued moving in that direction.

After driving approximately **300 meters**, they encountered a military post. They stopped the vehicle in front of the post, and **Rashad** got out of the vehicle and began looking for a serviceman at the post. At that moment, one person in military uniform came out from the post and approached Rashad. Although that person was in military uniform, he had no weapon in his hand. When that person reached Rashad, Rashad greeted him. At that moment, the person in military uniform became alarmed, turned around, and began running back. At that point they noticed the military uniform the person was wearing and understood that it belonged to Armenian armed formations. Rashad immediately got into the vehicle and told him that they had come the wrong way and had to leave that place immediately.

Page 1329

He stated that by that time it was already around 14:00. He first drove the vehicle backward and turned it around; at that moment, fire was opened on them from the post with automatic weapons. Because he was alarmed, he could not see the exact number of persons firing, but he concluded from the crossfire-type pattern of the shooting that there was more than one person. There was no other military equipment at the post. The bullets were fired continuously for approximately 20–30 seconds.

When he was driving the vehicle backward, as a result of the shooting, one of the bullets struck his left arm. Despite this, he did not lose control and managed to continue driving the vehicle with one hand. The vehicle, after moving about 50 meters, struck an electric pole made of concrete, and that pole fell onto the vehicle. At that time, because he lost control of the vehicle, he was able to move only about 30 meters. When he tried to stop the vehicle, a

bullet hit the front windshield, and because he could not see ahead, the vehicle went off the road in the direction of Aghdam city and came to a stop. By that time the sound of gunfire had ceased. Rashad got out of the vehicle through the front passenger-door window, and he himself got out by crawling from his side of the vehicle; they then moved on foot toward Aghdam district. At that time, blood was flowing continuously from his arm. After moving about 50 meters, he fell into a ravine; thus, the Armenians lost sight of him. Rashad then took off his own shirt and bandaged his arm. They tried to inform the management by mobile phone to request help, but since there was no network in that place, Rashad climbed to a higher place nearby where there was better reception and informed the management. After some time, a medical vehicle arrived there, and three people placed him in the vehicle, removed him from that location, and took him to a military hospital. That same day in the evening, due to the wound on his arm, he was taken to Ganja Central Clinical Hospital. Apart from himself and Rashad Pasayev, there was no one else in the vehicle during the incident, and as a result of the incident only he was injured.

The testimony given in court by the injured person Pashayev Rashad Asif oglu was examined, and it was established that, by giving testimony similar in content to that of the injured person Rahimli Anar Mahammad oghlu, he confirmed the circumstances described in his testimony.

The testimony given during the preliminary investigation by **Mammadli Museyib Iqbal oglu**, representative of "Smartkom" Limited Liability Company, recognized as an injured party, was announced in court. He stated in his testimony that he has worked at "Smartkom" LLC since 2010. Since 30 November 2018, he has held the position of chief financial officer of the company. The executive director of the company is his father, Mammadov Iqbal Musayib oglu. The company operates in the field of communications and information technologies. Its main activity consists of installing mobile base stations and organizing services in this field. After the territories liberated from occupation in November 2020 following the Patriotic War became accessible, the company began operating in many areas of the Karabakh region, including the territory of Aghdam district, in connection with restoration and reconstruction works carried out there.

For this purpose, by relevant orders of the company, a number of employees were sent to the said territories. One of those employees was Rahimli Anar Mahammad oghu. Anar Rahimli was entrusted with a company-owned "Mitsubishi L200" vehicle bearing state registration plate "AZ 99-JK-820," which he drove as a driver. Employees of "Texnocell" LLC and the employees of their company had also been engaged in installing mobile base stations in the liberated territories. On 29 December 2021, at around 14:00, Anar Rahimli, together with Pasayev Rashad Asif oghlu, an employee of "Texnocell" LLC, drove to the mentioned area in accordance with the pre-arranged schedule and after prior instructions, in order to inspect a tower installed in the territory of Chinli village of Aghdam district and to carry out planning work. However, while passing through an area without a road, they were fired upon with automatic firearms from a combat position unlawfully established in the area by Armenian armed formations. As a result, Anar Rahimli received an injury to his left arm.

In addition, because he lost control of the vehicle, the company-owned vehicle struck a tree and was left hanging there, sustaining serious damage. Some time after the incident, Rashad Pasayev informed the company about the incident by mobile phone. Later, an investigation into the incident was conducted by the State Labour Inspection Service under the Ministry of Labour and Social Protection of the Population of the Republic of Azerbaijan. In addition, they were informed that materials collected through an investigation conducted by the Aghdam District Prosecutor's Office had been sent to the Prosecutor General's Office. As a result of the vehicle being left hanging, the company suffered material damage of approximately 10,000 manats.

The testimony given during the preliminary investigation by the injured person Hasanov Mehman Fikrat oglu was announced in court. He stated that on 10 September 2023 he was entrusted, as an excavator driver, with the "Liugong CLG 930E" excavator bearing state registration plate "10-FC-054," which was on the balance sheet of "Körpü-Bina-Tikinti" LLC, for excavation and construction works to be carried out in the future in connection with road construction in the territory of Mollalar village of Aghdam district. On 19 September 2023, at around 18:00–19:00, while he was at work and standing near the excavator to plan the work, he heard the sound of bullets. In order to hide, he moved toward a nearby wooded area. After moving approximately 80 meters, a bullet struck him in the right knee, causing injuries, and with the help of people nearby he was taken to Aghdam District Central Hospital.

The testimony given during the preliminary investigation by Effendiyev Altay Seid oghlu, questioned as a witness, was announced in court. He stated that Ruben Karlenovich Vardanyan, born on 25 May 1968 in the city of Yerevan of the former Armenian SSR and a citizen of the Russian Federation, renounced Russian citizenship on 1 September 2022. He then crossed the state border of the Republic of Azerbaijan outside the established state border checkpoints and without the relevant documents, came to the city of Khankendi of the Republic of Azerbaijan, and, calling himself the "state minister" of the so-called "Republic of Artsakh," committed acts directed against the unity, inviolability and indivisibility of the territory of the Republic of Azerbaijan as established in Article 11 of the Constitution of the Republic of Azerbaijan, as well as acts aimed at the alienation of the territory of the Republic of Azerbaijan.

Thus, in interviews given by Ruben Karlenovich Vardanyan to Russia's "Kommersant" (https://www.youtube.com/watch?v=31LvANzNr8Q) and "Dozhd" (https://www.youtube.com/watch?v=XeRMnO5brro) channels and published on various internet resources, he made open calls aimed at forcibly changing the constitutional order of the Republic of Azerbaijan, forcibly changing the constitutional structure of the state, and partitioning its territorial integrity, and he disseminated materials of such content.

In his opinion, Ruben Karlenovich Vardanyan committed criminal acts provided for under Articles 278.1, 281.1, and 318.1 of the Criminal Code of the Republic of Azerbaijan, namely

seizure of power by force or retention of power by force, forcible change of the constitutional order of the state, public calls directed against the state, and illegal crossing of the state border of the Republic of Azerbaijan.

He noted that the information he had provided about these acts could be regarded as grounds for initiating a criminal case. Under Part I of Article 57 of the Constitution of the Republic of Azerbaijan, citizens of the Republic of Azerbaijan have the right to personally apply to state bodies, as well as to send individual and collective written appeals. Each appeal must be answered in writing in the manner and within the time limits established by law.

Page 1331

In the testimony of **Altay Efendiyev**, questioned as a witness, it was also emphasized that, under Article 204.1 of the Criminal Procedure Code of the Republic of Azerbaijan, information from physical persons, regarded as grounds for initiating criminal proceedings concerning a committed or planned crime, may be provided in written or oral form; that under Article 207.1 of the Criminal Procedure Code of the Republic of Azerbaijan, information received from a physical or legal person concerning a committed or planned crime must be immediately registered and examined; and that under Article 207.1.3 of the Criminal Procedure Code of the Republic of Azerbaijan, the examination of information concerning a committed or planned crime must result, based on the outcome of the inspection carried out, in the adoption of a decision either to initiate criminal proceedings or to refuse to initiate criminal proceedings.

He stated that, by exercising the right granted to him under Part I of Article 57 of the Constitution of the Republic of Azerbaijan and Article 204.1 of the Criminal Procedure Code of the Republic of Azerbaijan, and taking into account the information he had provided and the requirements of the law, he had reported that this information constituted grounds for initiating criminal proceedings concerning a committed or planned crime.

On the basis of the foregoing, in 2022 he filed a complaint with the Prosecutor General's Office of the Republic of Azerbaijan and requested that criminal proceedings be initiated against Ruben Vardanyan and that a legal assessment be given to his actions. He noted that, at present, as he had stated above, Ruben Vardanyan's actions are considered criminal acts under the Criminal Code of the Republic of Azerbaijan.

During the court proceedings it became known that some members of the Armenian armed detachments, realizing that resistance was pointless, surrendered to the Armed Forces of Azerbaijan. Their statements were subsequently taken by the investigative authorities. Later, because they were handed over to the Republic of Armenia, it was not possible to question them in court. The statements they had given during the preliminary investigation were added to the materials of the criminal case. The content of those statements is as follows:

In his testimony given during the preliminary investigation, **Gevondyan Andranik Qaragenovich**, questioned as a witness, stated that on 16 November 2021, at around 08:00,

Major Narek, who was serving as battalion commander by order of the military unit commander, instructed him and the servicemen under his command — Armen Sarkisyan, who served as a grenade-launcher operator in the company where he was newly appointed commander and who was serving under a long-term contract; Arshak Danielyan, who served as a rifleman; Sarkis Abrahamyan, who served as a grenade-launcher operator; and Hakop Atayan, who served as a machine gunner — to go to combat post No. 114 in connection with reinforcement.

Major Narek, who was serving as battalion commander, told them that they were to go up to that post and, on the order of the military unit commander, attack the posts of the Republic of Azerbaijan located opposite them and seize those posts. The Azerbaijani post they were to attack was located directly opposite combat post No. 114 where he was serving, and the distance between them was approximately 40 meters.

After that, in connection with the reinforcement, they were instructed to take large-caliber weapons, machine guns, grenade launchers, hand grenades and other weapons up to that post. He, together with the persons he had mentioned, took the weapons listed above and reached post No. 114 at around 11:00. When they went up to that post, Major Namek, who was serving as battalion commander, was there, together with three other soldiers. After they arrived, Major Namek instructed them to attack, and they went on the assault.

They began firing at the Azerbaijani post with grenade launchers, machine guns and automatic weapons, and the Azerbaijani servicemen returned fire in order to defend themselves. While the exchange of fire was taking place, when they saw that a part of that post had been captured by Azerbaijani servicemen and that they had been surrounded by Azerbaijani servicemen, they laid down their weapons and said that they were surrendering.

Page 1332

At that time, when they saw that they had been surrounded, they laid down their weapons and surrendered. They were taken from there, placed in a vehicle and driven away, but he did not know where they were taken. He did not know who had been wounded and who had not been wounded during the exchange of fire. After they were taken away from there, because his eyes were covered, he did not see anything. During the period in which he was held at the investigative detention facility, none of the servicemen of the Azerbaijani Republic used physical force against him, no one insulted or humiliated him by beating him, he was provided with food and water, and he had no complaints regarding his treatment.

It appears from the statements of **Avsepyan Edik Tiqranovich** and **Abrahamyan Sarkis Artur**, questioned as witnesses, that they gave statements of the same content and confirmed the statement of Gevondyan Andranik Qaragenovich.

In his testimony given during the preliminary investigation, **Babayan Artur Seryanovich**, questioned as a witness, stated that on 16 November 2021, at around 14:00–15:00, on the instruction of the military unit commander, the personnel of the post where he was serving

opened fire, each with weapons of various calibers — that is, automatic rifles and grenade launchers — directly at the combat post where the Azerbaijani servicemen located opposite them were serving, and launched an attack.

After they moved from their post and attacked the Azerbaijani post and opened fire, the Azerbaijani servicemen approached them and demanded that they lay down their weapons and disarm. They also laid down their weapons and surrendered. The distance from the post where he was serving to the post opposite them, where the Azerbaijani servicemen were serving, was approximately 50 meters. Their purpose in attacking that post was to destroy the Azerbaijani servicemen and seize their post. He did not know in which territory of the Republic of Azerbaijan that post was located. He had not killed or wounded any Azerbaijani serviceman. During his service, he had fired only at training targets at firing ranges. He had been at the post for one day, had arrived there, and had been taken prisoner that same day.

It appears from the statements of **Sarkisyan Hmayak Khachik**, **Avetisyan Erik Hunan** and **Arman Tevosyan Artur**, questioned as witnesses, that they also gave statements of the same content and confirmed the statement of Babayan Artur Seryanovich.

In his testimony given during the preliminary investigation, **Araikelyan Araik Arshaluis**, questioned as a witness, stated that he was born on 15 February 1980 in the city of Vanadzor, formerly Kirovakan, in the Armenian Republic. In 1998, he was sent to military service by the Vanadzor Commissariat and performed his service in a military unit in the city of Etchmiadzin. After serving there for some time, he was appointed as a soldier to a unit located in the area of Yanshaq village of Kalbajar district.

At that time there was a military unit consisting of five battalions there, and he served as the driver of one of the Ural vehicles in that military unit. In 2000, after completing military service, he returned to his hometown. Because he could not find work, he cut wood in a forested area located in that city and sold it. Since he could not find work, in 2004 he submitted his documents to the Vanadzor city commission and was accepted for long-term service. He was appointed as an ordinary serviceman to the post located in the mountainous area called Sikhta, at an altitude of 3,000 meters, in the area of Kalbajar city, belonging to military unit No. 52258.

He served there for approximately six months, and because of the harsh, cold conditions there and because he became ill, he did not serve there regularly. In 2010 he was given the military rank of lieutenant and was appointed commander of the 2nd platoon of the 3rd company of the 5th battalion of that military unit. He continued his service at the post in the area called Aghda, in the mountainous area called Sikhta (Zangir). In 2012 he was given the military rank of senior lieutenant, and he continued his service in the same place.

In 2019, a unit consisting of snipers from the battalions of the military unit was created, and he was appointed commander of the sniper unit in the 2nd battalion of that military unit. Until 27 September 2020, he served in the area mentioned above. On 27 September 2020, by order of the military unit commander, Colonel Gegham Martirosyan, together with his battalion

commander Lieutenant Colonel Astrayan Hovanes issued an order that, from the area where he was serving, fire should be opened with large- and small-caliber weapons at the posts and directions located ahead where Azerbaijani servicemen were positioned, and that after opening fire they should advance. He, together with the 40-person personnel under his command, began firing at the positions where the Azerbaijanis were located from the mortars, automatic weapons, machine guns and other weapons present at the post. The units positioned behind them began firing artillery weapons at the positions where the Azerbaijanis were located. After that fire had been opened, they also began advancing toward the opposite side, but because the Azerbaijanis were continuously firing at them from the area where they were positioned, they were unable to advance, returned to their own positions, and from there began firing mortars and other weapons.

After the trilateral statement known to all was signed on 10 November 2020, the post where he served at that time, as well as the positions of the military unit where he generally served, located in the territory of Kalbajar district, were abandoned and they were sent to the territory of the Jermuk city district of Armenia. However, the personnel of their units were assigned from the city of Jermuk to posts located in the direction of the territory of Istisu village of Kalbajar district, approximately 30–40 kilometers away as the crow flies.

At that time, he was serving as commander of the sniper team of the 2nd battalion of military unit No. 52258, and he continued his service in the area surrounding the city of Jermuk. On 15 November 2021, during the night hours, on the order of Major Gegham Geghamyan, who was acting as battalion commander, he, together with Gevondyan Andranik, Sako and four other persons whose names he did not know, went up to combat post No. 114 as reinforcement. That post was located 15 meters from the post where the Azerbaijanis were positioned.

After going there, he saw that Major Narek Yeremyan, deputy battalion commander for moral and psychological support of the battalion in which he served, was also there with several personnel. There he heard Major Narek Yeremyan speaking; it became known that an attack had been planned from that post, and at the same time in the direction of the 3rd battalion of the military unit, the battalion of Lieutenant Colonel Tigran Geghamyan, toward the positions of Azerbaijani servicemen located on the opposite side, and that he too had personally come to that post with personnel in order to participate in the attack. The reason for the attack was that the scouts had seen that the number of personnel at the posts where the Azerbaijanis were positioned in those directions was very small, and after the scouts had reported from which side and in what manner the attack would be carried out, they rested until the next morning.

On 16 November 2021, at approximately 12:00, on the order given by the higher command, he, N. Yeremyan, A. Gevondyan, and other servicemen whose names he did not know began advancing toward the Azerbaijani servicemen positioned opposite them, firing automatic weapons. When approximately 4–5 meters remained to the position of the Azerbaijani

servicemen, the Azerbaijani servicemen counterattacked them. During that counterattack, because fire was unexpectedly opened in their direction from various weapons, he and the others moved back and were forced to flee toward their own post and hide in a shelter.

At that time, the Azerbaijani servicemen surrounded the post where they were located in the blink of an eye and offered that they surrender. However, at that moment, while Major Narek Yeremyan was trying to negotiate with one of the Azerbaijani servicemen, some serviceman began firing toward the Azerbaijani servicemen. At that point, a firefight lasting approximately 3–5 minutes began with the Azerbaijani servicemen. After the mutual exchange of fire ended, because they were surrounded, they took their weapons in order to surrender and came forward. After that, the Azerbaijani servicemen blindfolded him and the other Armenian servicemen there and took them in an unknown direction. When his eyes were opened, he found out that he was in the city of Baku. He had no information as to whether any persons had been wounded or killed during that exchange of fire, but he remembered that his servicemen had resisted by firing automatic weapons.

Page 1334

It appears from the statements of Vasilyan Ayik Levon, Arutunyan Gagig Valeriy and Yerimyan Narek Volodya that they also gave statements of the same content and confirmed the statement of Araikelyan Araik Arshaluis.

In his testimony given during the preliminary investigation, **Aghajanyan Vahe Sasunovich**, questioned as a witness, stated that on 16 November 2021, on the order given to them by the commander of the military unit, they attacked the Azerbaijani side. Their purpose was to seize the positions located in the territory of the Azerbaijani side and to kill the soldiers who came out against them. However, because the Azerbaijani Army counterattacked, they were forced to return to their position.

At around 15:00, while they were in that combat position, the Azerbaijani Army carried out a counteroffensive operation, raided the position, surrounded them and informed them that they should surrender. At that time Sarkisyan Harutyun took an RQD-type grenade from his pocket, pulled out its pin, and then, when the Azerbaijani servicemen approached, laid down the AKM assault rifle with serial number 171152536 that he had, together with four magazines fully loaded with cartridges, and they captured him. At that time he also had a helmet, a bulletproof vest and military uniform.

It appears from the statements of **Amirkhanyan Serjik Samsonovich, Dilanyan Mkrtich Valikoyevich and Nazaryan Artur Sirveni** that they also gave statements of the same content and confirmed the statement of Aghajanyan Vahe Sasunovich.

In his testimony given during the preliminary investigation, **Nalbandyan Robert Mamikonovich**, questioned as a witness, stated that he was born on 26 October 1977 in the city of Gyumri, Armenia, and that he resided at building [redacted], apartment [redacted], [redacted] Street, in that city. He was married, had secondary education, had completed the 8th grade of a

secondary school named after Avedik Isahakyan in 1991 and had then discontinued his education. He is ethnically Armenian and a citizen of Armenia. He has two sons and one daughter. He has a foreign passport, but has never been in any foreign country. On 17 July 1996, he was called up for military service by the military commissariat of the city of Gyumri and began serving as a communications soldier in military unit No. 31549 located in the city of Yerevan. On 17 July 1998, he completed his military service and returned home to the city of Gyumri, where he began working as a loader in a store located in Gyumri.

His father, Nalbandyan Mamiko Vachaganovich, was born in 1953 and for seven months had been working as a laborer in construction work in the city of Moscow of the Russian Federation. In 1988–1994 he had not participated in battles in Karabakh and the surrounding districts. In April 2016, during the four-day war in Karabakh, he had been in the city of Gyumri. His mother, Namushyan Yevgin, was born in 1956, was born in Georgia, and is ethnically Armenian; her relatives live in Georgia. His mother Yevgine lives in the city of Gyumri and has never worked anywhere. She has one sister, who was born in 1987, is disabled, and has no children.

He himself had also never been on the territory of the Azerbaijani state or of Karabakh. About one month earlier, he had signed a contract at regiment No. 63853 located in the city of Vanadzor and had become a contract serviceman. He served with the military rank of soldier as an RPK machine-gunner in the 1st company of the 1st battalion. On 8 November 2021, together with the personnel of the military unit located in Vanadzor, he came to the city of Sisian and spent the night there in a military unit. The next day, they left Sisian and came to the border with Azerbaijan. There, they replaced servicemen of the regiment that had come from the city of Noyemberyan and began serving at their posts. He had an RPK machine gun and performed service with that weapon.

There were 10–13 servicemen at the combat post where they served, and Azerbaijani servicemen had established posts at a very close distance from them and were serving there. On 16 November 2021, at approximately 15:00–16:00, the battalion commander, a lieutenant colonel whose name and surname he did not know, instructed them to attack the Azerbaijani servicemen, and they began attacking the Azerbaijani posts. During the attack, with their weapons, they opened fire at the Azerbaijani military

servicemen. However, because the Azerbaijani servicemen were greater in number, they surrounded and disarmed them, and took prisoner the servicemen of the post where he served, as well as the servicemen of the other post.

It appears from the statements of **Shahinyan Marat Jorayevich** and **Akopyan Gevorg Araik** that they gave statements of the same content and confirmed the statement of **Nalbandyan Robert Mamikonovich**.

In his testimony given during the preliminary investigation, **Stepanyan Karen Rubikovich**, questioned as a witness, stated that he was born in Lori province of the Republic of Armenia, in the city of Vanadzor; that he lived registered at house No. [redacted] on [redacted] Street in Debet village; that his mother was **Anik Petrasyan Pavlovna**, and his father was **Stepanyan Rubik Aghasiyevich**. Both of them were ethnically Armenian. His mother currently lived with him at the address where he was registered, and his father had died in 2016 from lung disease.

On 12 October 2021, he applied to the Vanadzor Military Commissariat to serve as a serviceman, and on the basis of that application he began serving in military unit No. 63853 of the ground forces located in the city of Vanadzor. He was appointed to the position of rifleman of the 3rd squad of the 2nd platoon of the 1st company of the 1st battalion of military unit No. 63853, and continued his service in that military unit as a contract serviceman in the military rank of private.

The commander of the military unit where he served was Colonel Simon Nazaryan; the battalion commander was Lieutenant Colonel Daron Kocharyan; the company commander was Lieutenant Serjo Amirkhanyan; and the platoon commander was Sergeant Suren. Thirteen servicemen served in the squad where he served. Among the servicemen serving in that squad with him, he remembered Private Davit Amiryan, Private Stepanyan Karen, Private Levon Chomiryan and Private Arut Sarkisyan; he did not remember the names of the other servicemen. Some of those servicemen were of the same age as him, while others were younger.

There were three battalions in the military unit where he served, and each battalion had three companies; in total, there were approximately 500 servicemen in the military unit. He did not see any tanks or other large-caliber equipment in their military unit. The military unit where he served was located in the city of Vanadzor, in the Taronsk district, in an area called Duts.

He continued serving in that area for two months, until 7 November 2021. On that date, by order of the commander of the military unit where he served, the personnel of the 1st battalion were moved to an area called Noravan village, located in Sisian district. While they were in that area, the personnel of their company were divided among three or four posts. Approximately 20 servicemen served at each post. The post where he served was located in a mountainous area on high ground near Noravan village. Those posts were approximately 50 meters or more apart from each other. There was approximately a 50-meter distance between their combat posts and the combat posts of the Republic of Azerbaijan, but he did not know in which area of the Republic of Azerbaijan the combat posts located opposite them were situated.

Until 16 November 2021, there had been no contact between the personnel of their unit and the servicemen of the Armed Forces of the Republic of Azerbaijan, and no armed use of force had taken place. At the post where he served, he performed sentry duty for about two hours, and rested for six hours in the barracks. He performed sentry duty at the position together with Private David Amiryan. They were stationed in the area in tents. While serving in that

area, their duty was to observe the movement of the Armed Forces of the Republic of Azerbaijan and collect information in this regard.

The senior lieutenant at the post where he served was Serjo Amirkhanyan, who gave them any instructions concerning matters at the post. Among the persons serving together with him in that area, he remembered Suren Khachatryan, Arut Sarkisyan, Serjo Amirkhanyan and David Amiryan; he did not remember the others.

On 16 November 2021, during daytime hours, Serjo Amirkhanyan instructed them, on the order of the commander of the military unit, to attack the posts of the Republic of Azerbaijan located opposite them and seize those posts. He showed them the direction. At that time, together with the reinforcement, there were also the persons whose names he had mentioned, as well as other servicemen. At that time, as reinforcement, they were instructed to use grenade launchers and automatic weapons,

Page 1336

Serjo showed them the direction from which the attack would be carried out, and they began the attack. On approximately 16 November 2021, at around 12:00–13:00, they began using grenade launchers and automatic weapons against the servicemen at the Azerbaijani post. The servicemen of the Republic of Azerbaijan returned fire with the weapons they were using in order to defend themselves.

They advanced somewhat toward the post of the Armed Forces of the Republic of Azerbaijan. At that time, they were surrounded by Azerbaijani servicemen, and the servicemen of the Republic of Azerbaijan first opened warning fire, then told them to lay down their weapons and surrender. Seeing that they had been surrounded, they laid down their weapons and surrendered.

It appears from the statements of **Khachaturyan Suren Lyova oghlu** and **Manasyan Artyom Suren oghlu** that they gave statements of the same content and confirmed the statement of **Stepanyan Karen Rubikovich**.

In his testimony given during the preliminary investigation, **Sarkisyan Arut Aramaisovich**, questioned as a witness, stated that he was born in Vanadzor district of the Republic of Armenia; that he was married and had three daughters. His wife, **Hakopyan Anus Yurikovna**, had not worked anywhere and was a housewife. His father, **Sarkisyan Aramais Qrantikovich**, had worked at the railway station in Vanadzor district, and his mother, **Virabyan Ovsanna Chahangirovna**, had not worked anywhere. They lived together at building [redacted], apartment [redacted], [redacted] Street, Vanadzor district.

In 2017, for a period of six months, he worked in road construction in Qustana district of the Republic of Kazakhstan as the driver of a vehicle used to compact asphalt. In January 2020, he applied to the Vanadzor District Military Commissariat to be called up for military service, and on the basis of a positive response he began serving in military unit No. 63853

located in Vanadzor district, in the position of grenade-launcher operator of the 2nd platoon of the 1st company of the 1st battalion, with the military rank of private.

The commander of military unit No. 63853 was Colonel Simon; the commander of the 1st battalion was Lieutenant Colonel Daron Kocharyan; the commander of the 1st company was Captain Artyom; and the platoon commander was Lieutenant Serjo. He did not participate in the combat operations that took place in 2020 over Karabakh. During the war, he served in the military unit in Vanadzor district and did not leave the position where he was serving; he did not participate in the battles that took place around Karabakh. He also did not participate in the battles that took place in 2016 in Aghdam, Tartar, Goranboy and Fuzuli districts, nor in the battles that took place in the direction of Tovuz district in 2020.

On 7 November 2021, together with the personnel of the battalion, he went to Sisian district. On 8 November 2021, he went up to the post. On 16 November 2021, at around 15:00, on the instruction of the battalion commander, Lieutenant Colonel Daron Kocharyan, based on the order of the commander of the military unit, all the personnel of the post located on the mountain called Ishkhanasar in Sisian district, armed with firearms of various calibers — namely automatic rifles, grenade launchers and other weapons — opened fire at and attacked the combat post where Azerbaijani servicemen were serving opposite them.

After they had moved somewhat in the direction of the Azerbaijani post, they heard gunfire. Then Azerbaijani servicemen approached them and demanded that they lay down their weapons and disarm. They laid down their weapons and surrendered. During the fighting, Sergeant Gurgen Sarkisyan detonated a grenade, but he himself did not kill or wound any Azerbaijani serviceman.

After the Azerbaijani servicemen disarmed them, they gave them bread and water. They did not use any force against them and did not beat them. During the attack, he did not know whether anyone among them had received a gunshot wound. At the time he was captured, he had an automatic rifle and a bulletproof vest. He had seized the weapon bearing serial number 171008412. Afterwards, Azerbaijani servicemen blindfolded them and took them away. In Azerbaijan, normal conditions were created for them; no pressure of any form was exerted on them, and no force was used against them.

Page 1337

It appears from the statements of **Haqobyan Tigran Armenovich**, **Avetyan Aram Artemovich** and **Khachatryan Arman Vachaganovich** that they gave statements of the same content and confirmed the statement of **Sarkisyan Arut Aramaisovich**.

In his testimony given during the preliminary investigation, **Tarziyan Sarkis Hovhannes**, questioned as a witness, stated that he was born on 17 March 1983 in the city of Gyumri, Shirak province, Republic of Armenia; that he was a citizen of the Republic of Armenia and ethnically Armenian; and that he had lived registered at house No. [redacted] on [redacted] Street in Gyumri, Republic of Armenia.

In 2016, he married **Zakaryan Lilit Paruyr**, and from that marriage he had a four-year-old daughter named **Tarziyan Nairi Sarkisi** and a one-year-and-six-month-old son named **Tarziyan Hovhannes Sarkisi**. He had a father, mother, one sister and one brother. All members of his family lived at house No. [redacted] on [redacted] Street in Gyumri, while he himself also lived there.

After finishing school, in 2009 he enrolled at the Pedagogical Institute named after Mikael Nalbandian, located in the city of Gyumri, and graduated from that institute in 2016. On 16 June 2011, he was called up for compulsory active military service by the Gyumri Commissariat and began serving as a senior rifleman in the 10th and 11th companies of the 4th battalion of military unit No. 2 in Martuni, Khojavend district.

At that time, the commander of the military unit was Colonel **Artak Budagyan**, the battalion commander was Lieutenant Colonel **Karen Hayrapetyan**, the commander of the 10th company was **Armen**, and the commander of the 11th company was **Hambartsum**. He served only in one military unit during his period of compulsory service. On 16 June 2013, because his compulsory active military service had ended, he was discharged. After being discharged, he continued his studies at the institute by correspondence, and he also travelled to Orenburg in the Russian Federation to work in construction.

Later, for about one year, he worked at the place where he lived in Gyumri repairing technical problems that occurred in household appliances. Approximately one and a half years earlier, at the end of 2019 or the beginning of 2020, he signed a three-year contract with military unit No. 55035, located in the city of Gyumri. In that military unit, he served as head of the property warehouse. The commander of the military unit was Colonel **Masis Hovsepyan**.

Approximately six months earlier, he had been appointed commander of the 2nd squad of the 2nd platoon of the 1st company of the 1st battalion of military unit No. 63853, where he was currently serving, and he held the military rank of sergeant. The commander of the military unit where he served was Colonel **Simon Nazaryan**, the battalion commander was Lieutenant Colonel **Taron Kocharyan**, the company commander was Captain **Arman**, the deputy company commander was Senior Lieutenant **Serjik Amirkhanyan**, and the platoon commander was Lieutenant **Arman**.

The military unit was located in the city of Vanadzor. While serving beyond the compulsory term, he was given an AK-74 assault rifle, and he remembered only the last three digits of that weapon's number; that number was 939. On 7 November 2021, for strengthening purposes, he was sent to the Sisian area, to post No. 101/2, together with 10 people, and on 8 November 2021 he went up to that post.

The commander of the post was a serviceman named **Aren**. At the post, in addition to him, **Artur Martirosyan**, **Marat**, **Radik**, **Artur**, **Tigran**, **Sevak**, **Aranik** and other contract servicemen also served. Approximately 800–1,000 meters from the post where they served,

another post was located; the commander of that post was a sergeant named **Gurgen**. Near the posts where they served were the positions of the Army of the Republic of Azerbaijan.

On 16 November 2021, at around 12:00, post commander Aren informed the personnel of the post that an order had been given by the higher command to seize the positions of the Army of the Republic of Azerbaijan, because those positions were located on their border and were lawful positions. Aren instructed them, the personnel of the post, to take their weapons and attack. On Aren's instruction, he and the other personnel of the post, under his command, attacked the positions of the Army of the Republic of Azerbaijan in order to seize them. When they went into the attack, each of the personnel had one AK-74 assault rifle, and in total they had one RPG-7 hand grenade launcher, three PK machine guns and one RPK machine gun.

Page 1338

They had assault rifles. In order to seize the posts, they began opening fire at the positions where the Army of the Republic of Azerbaijan was deployed, and the latter also began returning fire in order to defend themselves. At that time, a firefight lasting approximately one to one and a half hours took place between them. He did not know who at the post had been wounded or killed during the firefight, and he also did not know whether anyone among the servicemen of the Army of the Republic of Azerbaijan had been killed or wounded.

Because their ammunition ran out, they stated that they would not open fire at the servicemen of the Army of the Republic of Azerbaijan, laid down their weapons and surrendered. They searched them and took their weapons. After they had surrendered, the servicemen did not inflict any injury on them and did not use force against them. They were then taken by vehicle somewhere and, as he currently knew, they were being held in prison. They were treated well, they were not separated from other persons, no force was used against them, food was provided to them on time, their conditions were good, and they had no complaints.

It appears from the statements of **Balayan Vartges Samveli**, **Petrosyan Sevak Aghvani**, **Poghosyan Radik Razmikovich**, **Petrosyan Armen Garniki** and **Galstyan Hrachik Aramovich** that they gave statements of the same content and confirmed the statement of **Tarziyan Sarkis Hovhannes**.

Thus, based on the totality of objective evidence collected and examined during the court hearing, including expert opinions, statements of injured persons, statements of persons questioned as witnesses, statements given by the accused at the court hearing and during the preliminary investigation and examined in court, audio and video recordings added to the criminal case, photographs, physical evidence and other case materials, it was established that **Ruben Karlenovich Vardanyan**, for the purpose of committing serious and especially serious crimes, joined at the beginning of December 2020 a criminal association, or organization, created and led by other persons.

It was further established that, until the end of September 2023, he led that association and the structural divisions forming part of it, and, acting in accordance with the common criminal purpose and intent of the criminal association, participated in the planning of an aggressive war, the preparation of new attack plans, and the conduct of an aggressive war in furtherance of those aims and intentions.

He also participated in the forced displacement of the population from their lawful places of residence without grounds established by the norms of international law and the laws of the Republic of Azerbaijan; in persecution of a group identified on national, ethnic, cultural and religious grounds, that is, in the gross deprivation of fundamental rights of persons belonging to such a group; in the detention, imprisonment and abduction of persons over a long period of time, with the instruction, support and consent of state and political organizations, for the purpose of excluding them from legal protection; in the subsequent deprivation of liberty of those persons, denial of the deprivation of liberty, and refusal to provide information on their fate and whereabouts; in imprisonment and other forms of deprivation of liberty contrary to international law; in causing physical pain and mental suffering to detained persons and persons whose liberty had otherwise been restricted; in imposing obligations on them, executing orders, financing them and providing other material support; in using them in armed conflicts and military operations; in taking prisoners and other persons protected by international humanitarian law as hostages; in subjecting them to cruel and inhuman treatment; in holding them hostage; in using methods of warfare capable of causing significant destruction during armed conflict; in carrying out attacks against individual civilians not directly participating in hostilities; in using violence against the population in areas of military operations; in destroying property; and in using, in armed conflicts, weapons, means and methods of warfare prohibited by international agreements to which the Republic of Azerbaijan is a party, against prisoners and other

Page 1339

persons, in violation of the norms of international law, of arrest and other forms of deprivation of liberty, as well as deprivation of procedural rights; in intentionally killing more than two persons, in connection with the victims' performance of official duties and public obligations, with particular cruelty and by a generally dangerous method, in connection with terrorism and motivated by national enmity and hostility — that is, in intentionally depriving them of life; in attempting to intentionally kill more than two persons, in connection with the victims' performance of official duties and public obligations, with particular cruelty and by a generally dangerous method, in connection with terrorism and motivated by national enmity and hostility — that is, in attempting intentionally to deprive them of life.

It was also fully proven that he engaged in unlawful entrepreneurial activity, causing especially large-scale damage to the Republic of Azerbaijan and to its natural and legal persons — that is, he engaged in entrepreneurial activity on the territory of the Republic of Azerbaijan without state registration, namely without tax registration in the prescribed manner, and, where special permission, namely a license, was required, without obtaining such permission.

It was further proven that, using firearms, he committed acts aimed at disrupting public security, creating panic among the population, and influencing decision-making by state authorities, acts that created a danger of death, harm to health, significant property damage and other socially dangerous consequences, and that resulted in deaths and other grave consequences; that he threatened to commit explosions, arson and other acts for the purpose of carrying out a terrorist act.

It was also proven that, regardless of the source of acquisition, he intentionally collected and provided funds and other property, in part, directly and indirectly, knowing that they would be used to finance a terrorist organization and to prepare, organize and commit, by a criminal organization, acts provided for in Articles 214, terrorism; 270-1, acts creating a threat to aviation security; 278, seizure or retention of power by force and forcible change of the constitutional order of the state; and 279, creation of armed formations or groups not provided for by law, of the Criminal Code.

It was further proven that he unlawfully acquired, transferred to others, stored, transported and carried firearms, their component parts, ammunition, explosive substances and devices; knowingly transmitted false information to aircraft during flight; intentionally interfered with the operation of air-navigation equipment; created a threat to the safety of aircraft during flight; caused damage creating a threat to the flight safety of aircraft in operation; carried out actions contrary to the Constitution of the Republic of Azerbaijan and aimed at forcibly changing the constitutional order of the state on the territory of the Republic of Azerbaijan; and participated in the creation and activity of stable armed formations and groups not provided for by the legislation of the Republic of Azerbaijan, which caused deaths and other grave consequences, as well as in equipping them with weapons, ammunition, explosive substances, military equipment, military supplies and gear.

It was also proven that he participated, within those formations and groups, in organizing attacks against enterprises, institutions, organizations and individual persons, and, as part of an organized group included in a criminal association or organization, crossed the state border of the Republic of Azerbaijan without the required documents or outside state border checkpoints.

Although the accused in this case, Ruben Karlenovich Vardanyan, did not plead guilty to the charge brought against him, he refused to testify and did not submit evidence in his defense.

The letter No. 3/1890 dated 17 October 2024 from the Main Military Counterintelligence Department of the State Security Service, examined at the court hearing, the inspection protocol dated 26 October 2023 concerning the inspection of Ruben Vardanyan’s office located in the city of Khankendi

the inspection protocol dated 26 October 2023, operational information and other documents confirmed that, at the beginning of December 2020, he joined the criminal association and

participated in the activities of the criminal organization and its structural divisions, as well as in the planning of an aggressive war against the Republic of Azerbaijan — that is, in preparing attack plans, in continuing those aims and intentions, and in organizing an aggressive war.

It was confirmed that, at the beginning of December 2020, he used funds and other property at his disposal, belonging to citizens of various foreign countries, partially, directly and indirectly, to prepare, organize and commit acts by the criminal organization; and, knowing that they would be used to finance a terrorist organization, he used the "Aurora" foundation, of which he was a co-founder and whose executive director was Arman Gagikovich Jilavyan, operating under the guise of humanitarian purposes.

On 9 December 2020, Mirza Dinnayi, a public figure and citizen of the Republic of Iraq who was presented as a laureate of the "Awakening of Humanity" award established by the "Aurora" foundation, came to the city of Khankendi on Ruben Vardanyan's instructions. In violation of the rules on entry, exit and temporary stay of foreign citizens in the territories of the Republic of Azerbaijan where the peacekeeping forces of the Russian Federation were temporarily deployed, he allocated, at various times and in various amounts, 2,370 US dollars directly from the "Aurora" foundation to 150 mercenary fighters of Kurdish origin, who were members of armed formations not provided for by law and who operated in the form of organized detachments as part of the criminal association or organization on the territory of the Republic of Azerbaijan.

In addition, under the name "obtained by special initiative groups consisting of volunteers," he provided field military uniforms regarded as military supplies, thereby financing terrorism by financially and materially supporting and supplying military equipment to armed formations and groups not provided for by the legislation of the Republic of Azerbaijan.

In addition, with the general criminal intent and purpose of the criminal association or organization, Ruben Vardanyan reached an agreement on 11 January 2013 with Vladimir Vartanov, also known as Vova, Levanovich, also known as Levani, founder of the "VoMA" terrorist organization. This organization had begun operating in the Republic of Armenia and also in the occupied territories of the Republic of Azerbaijan as an organized detachment forming a structural division of the criminal association or organization; it was an armed formation not provided for by law, had branches in Yerevan (Irevan), Gorus, Kapan, Sisian (Gharakilisa), Kavar, Etchmiadzin (Uchkilisa) and Yeghegnadzor (Keshikend) in present-day Armenia, and, together with its structural divisions, continued to operate.

Vartanov Vladimir, known as Vova, Levanovich, known as Levani, had participated in the First Karabakh War in the early 1990s, in the April 2016 battles and in the 2020 Second Karabakh War, in military operations against the Armed Forces of the Republic of Azerbaijan on the territory of the Republic of Azerbaijan.

On 22 May 2022, by means of the WhatsApp mobile application, using the mobile phone number [redacted] he corresponded and exchanged voice messages with Ruben

Vardanyan, using the mobile phone number [redacted] which was in the latter's use. On the basis of instructions sent to him by Ruben Vardanyan, the instructors of the "VoMA" terrorist organization, as well as Akopyan Armen Volodya, Ohanyan Harut Arayik, Dallakyan Khachik Sevadayi, Akopyan Mikael Artur, Isayan Hovhannes Sasuni, Bakhshyan Albert Artak, Hovannisyan Hovannes Mikael — who had participated in military operations against the Armed Forces of the Republic of Azerbaijan on the territory of the Republic of Azerbaijan during the Second Karabakh War as part of armed formations not provided for by law — were sent to Azerbaijan with the consent of Ruben Vardanyan.

For the purpose of committing terrorist acts against citizens of the Republic of Azerbaijan, and for the purpose of organizing training by those instructors on the methods of committing such acts, on the use of firearms, explosive substances and devices, and other generally dangerous methods and technical means, as well as knowing that those persons would be used by the criminal association of which they were members in the preparation, organization and commission of acts provided for in Articles 214, 270-1, 278 and 279 of the Criminal Code

Page 1341

committed acts of financing terrorism by intentionally providing the funds and other property at his disposal.

The foregoing is confirmed by letter No. 3/535 dated 28 March 2024 of the Main Military Counterintelligence Department of the State Security Service of the Republic of Azerbaijan, as well as by the inspection protocol dated 22 November 2023 concerning the inspection of "BlackBerry" and "Nokia" mobile phones belonging to Ruben Karlenovich Vardanyan, specifically through the "WhatsApp" mobile application installed on the "BlackBerry" mobile phone.

It was established by that protocol, examined at the court hearing, that through the "WhatsApp" mobile application installed on the "BlackBerry" mobile phone, Ruben Vardanyan, while corresponding from the mobile phone number [redacted] with the user of mobile phone number [redacted] identified as "Vova Vartanov" and "VOMA" terror- and sabotage-purpose military facility secret reconnaissance guide, was informed by the latter at 02:21 on 22 May 2022 that he was sending the list of instructors of the "VoMA" terrorist organization and that those persons would use the cableway free of charge.

According to letter No. 3/535 dated 28 March 2024 of the Main Military Counterintelligence Department of the State Security Service of the Republic of Azerbaijan, it was established that, during operational-search measures, the mobile phone number [redacted] belonging to the cellular network of the Republic of Armenia, was used by Vladimir Tevayevich Vartanov.

According to operational information obtained concerning Vladimir Tevayevich Vartanov, in 1988, when the "square movement" began, he joined protest actions, came to the border with

Azerbaijan and began creating unlawful armed detachments under the name of "self-defense units." After forming a reconnaissance unit in November–December 1989, he conducted his first operation in January 1990 in the direction of Qazakh district of the Republic of Azerbaijan. He was later a member of a special-purpose unit subordinated to Sarkisyan Vazgen Zavenovich, who was one of the founders of an unlawful armed formation; Sarkisyan Vazgen Zavenovich was born on 5 March 1959 in Ararat district of the Armenian SSR and participated in the First Karabakh War as commander of a reconnaissance-sabotage unit.

In 2014, V. Vartanov created the Armenian terrorist organization "VOMA" — "The Art of Survival" — in the Republic of Armenia, as well as in the territories of the Republic of Azerbaijan that were under occupation. Through internet resources, the organization extensively disseminates propaganda on such topics as the so-called "Armenian genocide," "Greater Armenia," territorial claims against the Republic of Azerbaijan and the Republic of Türkiye, and the activities of Armenian terrorists. In order to form absurd views among members of the terrorist organization that the Republic of Azerbaijan and the Republic of Türkiye intend to occupy Armenian lands and destroy all Armenians, they are educated in a spirit of hatred toward those countries. It is also emphasized that every Armenian, regardless of age or sex, must acquire combat skills in order to support the Armenian army during possible wars. Armenians living in the Republic of Armenia and abroad are invited to the organization's military training sessions.

In "VOMA" camps, different types of combat are taught and military courses are conducted, including military-tactical training, urgent medical aid, instruction in the use of firearms, mastering the art of shooting, physical training, Armenian "nomadic" combat dances and other similar abilities and skills. In 2016–2018, V. Vartanov met with persons of Armenian origin aged 18–35 in six cities of the Russian Federation — Moscow, Saint Petersburg, Nizhny Novgorod, Yaroslavl, Saratov and Krasnodar — with the assistance of the Armenian diaspora; he gave them information about the activity of the center, held various propaganda conversations about the importance of participation, and, during the Second Karabakh War, on the final three days, on V. Vartanov's initiative, appeals were made to persons living in various countries for assistance to the organization.

Page 1342

During that period accelerated combat training was organized with the participation of 60 volunteers. Unlike previous trainings, the noted trainings were held in the city of Yerevan, and the persons who completed the training were immediately sent to take part in combat operations as part of the "VOMA" volunteer battalion.

During the Patriotic War, a total of 340 members of the "VOMA" terrorist organization participated in battles against the Armed Forces of the Republic of Azerbaijan. During that period, a financial fund had been created in advance for the activity of the "VOMA" battalion and for the conduct of trainings, and bank accounts had been opened in the Russian Federation, France, Lebanon, the United States, Germany and Austria. During the war, as a

result of funds transferred by various persons to the budget of the "VOMA" battalion, a total of 200,000 US dollars was collected.

During operational-search measures, it was established that V. Vartanov had maintained regular contact with Ruben Vardanyan, the so-called "state minister" of the so-called entity; that negotiations had been held with Vardanyan concerning the preparation of fighters and instructors in the "VOMA" terrorist organization, the organization of trainings, and their participation in battles against the Armed Forces of the Republic of Azerbaijan as part of Armenian unlawful armed forces located in the Karabakh economic region; and that Vardanyan had undertaken the financing of that terrorist organization and its members.

It was also established from information obtained during searches conducted on social networks that R. Vardanyan participated (https://lurer.com/?p=463373&l=am) in a one-week training of the "VOMA" terrorist organization held on 1 May 2022, regularly took part in the organization's meetings, and in that connection gave instructions regarding the continuation of the organization's activity in the noted direction. It was also established that the above-mentioned Akopyan Armen Volodya, Ohanyan Harut Arayik, Dallakyan Khachik Sevaday, Akopyan Mikael Artur, Isayan Hovhannes Sasuni, Bakhshyan Albert Artak and Hovannisyan Hovannes Mikael acted as instructors in the "VOMA" terrorist organization and, during the Patriotic War, participated in battles against the Azerbaijani Army as part of unlawful armed groups.

In addition, in accordance with the common criminal intent and objectives of the criminal association or organization, Ruben Vardanyan continued committing criminal acts. Thus, in June 2022, through negotiations with responsible persons of the "AKVA" company operating in the territory of the Russian Federation, he agreed on the preparation of a set of documents titled "Terms of Agreement" concerning the creation of a joint enterprise related to the installation of anti-aircraft missile complexes consisting of guided anti-aircraft missiles, transport-launch containers, package-type transport-launch containers, target-detection stations, accumulator and radio-transmitting units, power-supply and testing stations, as well as other devices, which were to be under the control of the criminal association and intended for use against civilian and military facilities. For this purpose, by intentionally collecting and providing personal and other funds, partly directly and partly indirectly, he committed acts of financing terrorism.

The court considers that the act under the noted charge was also fully confirmed by the evidence examined during the judicial investigation. Thus, according to the inspection protocol dated 22 November 2023 concerning the inspection of the "BlackBerry" mobile phone belonging to Ruben Karlenovich Vardanyan, during the inspection of a document dated 23 June 2022 titled "Anti-Aircraft Missile Complex, 'Investment Capital for Product Development'" in the section named "One Drive" on the "Telegram" social platform, it was established that negotiations had been conducted with responsible persons of the "AKVA" company regarding the acquisition of the noted weapons.

It was also established at the court hearing that, in September 2022, the accused person Ruben Vardanyan, in accordance with the common criminal intent and objectives of the criminal association, for terror-sabotage purposes, as a foreign citizen, unlawfully joined the criminal association or organization

Page 1343

as an organized group forming part of the criminal association or organization, being a foreign citizen, he unlawfully crossed the protected state border of the Republic of Azerbaijan, outside state border checkpoints and without documents prescribed by law, from the territory of the Republic of Armenia in the direction of Lachin district, entered the territory of the Republic of Azerbaijan, and settled in the territory of the Karabakh economic region of the Republic of Azerbaijan where Russian peacekeepers were temporarily deployed.

The court notes that the commission of this act was also confirmed by the evidence examined during the judicial investigation.

Thus, from the protocol dated 27 September 2023 concerning the inspection of items found on Ruben Vardanyan when he was detained, it appears that, in one black bag, along with other items and documents, an Armenian Republic foreign passport No. **AU**[redacted] belonging to Ruben Vardanyan and one driver's license registered in the name of that person were found and inspected. The inside of the passport showed that Ruben Vardanyan had a visa No. [redacted] belonging to the United States of America and a visa No. [redacted] belonging to the French Republic. In view of the documents and the inspection, it was established that, after unlawfully arriving in the Karabakh region of the Republic of Azerbaijan in early September 2022, Ruben Vardanyan left the territory of the country several times, travelled to various countries, and later again unlawfully returned to the territory of the Republic of Azerbaijan. No note, stamp or other indication confirming his lawful entry into the Republic of Azerbaijan was found in that document.

In addition, Ruben Vardanyan, using funds and other property at his own disposal and at the disposal of individual foreign citizens, as well as under the names of allegedly humanitarian funds, the organization **"We Are Our Mountains"** and other aid campaigns, fully and partly, directly and indirectly, collected funds and other property in various amounts. Using those funds, during the period from early September 2022 to the end of September 2023, at various times, for the purpose of artificially increasing [the capabilities/resources], he unlawfully acquired firearms, their component parts, ammunition, explosive substances and devices, military weapons and equipment; unlawfully transported them from the Republic of Armenia into the Republic of Azerbaijan through the direction of Lachin district; and, by organizing their unlawful transportation to previously specially arranged military warehouses located near Kolatagh village of Aghdara district and in the city of Khankendi, as well as to a building in Khankendi that he had arbitrarily taken into his own use under the name of his personal office, stored them there.

Furthermore, beginning in September 2022, from a source not identified by the investigation, he unlawfully acquired, along with other weapons and ammunition, the following serviceable ammunition: 7 factory-made fragmentation **F-1**hand grenades; 7 **UZRQM** and **UZRQM-2** detonators; 1,257 factory-made 7.62 mm cartridges, including 40 tracer rounds; 448 factory-

made 5.45x39 mm cartridges; as well as 3 factory-made magazines, serviceable for their intended purpose, each with a capacity of 30 cartridges of 7.62x39 mm caliber and intended for **AK**-type Kalashnikov assault rifles, namely **AKM**, **AKS** and **AKMS** models.
He unlawfully transported and stored these, together with other weapons and ammunition, from the Republic of Armenia into the territory of the Republic of Azerbaijan. During the inspection conducted on 3 October 2023 of the building located in Khankendi that Ruben Vardanyan had arbitrarily taken into use under the name of his personal office, the above-mentioned ammunition and magazines were found, as well as military equipment consisting of 5 tactical helmets, 5 armored vests, 26 field sleeping sets and one communications device regarded as a special communications means.
During the inspection conducted on 4 October 2023 of Ruben Vardanyan's former garden house and yard in Kolatagh village of Aghdara district

Page 1344
14 field sleeping sets regarded as military equipment were found and seized.
It is also stated in letter No. **3/2178** dated 29 November 2024, received from the Main Military Counterintelligence Department of the State Security Service of the Republic of Azerbaijan, that after the local anti-terrorist operations carried out by the Armed Forces of the Republic of Azerbaijan on 19–20 September 2023 in the Karabakh economic region for the purpose of neutralizing Armenian unlawful armed forces, three weapons-and-ammunition warehouses created in the city of Khankendi with financial resources during the period when Ruben Karlenovich Vardanyan was the "state minister" of the so-called entity were identified:

- a structure located at **8 S. Kasparov Street, Khankendi** — coordinates **x4410740, y8650423**, according to data obtained through the Google Maps application — near an administrative building which, judging by its external appearance, was built within the last 4–5 years and is presumed to have belonged to the so-called entity's "justice bodies";
- a structure located on the road formerly called **"Stepanakert–Lernavan–Aygestan"** in Khankendi, outside the residential area — coordinates **x4412768, y8650179**, according to data obtained through the Google Maps application — and used as an ammunition warehouse of the unlawful armed forces' Combined-Arms Army;
- a structure located near the intersection of the road formerly called **"Tigran Mets"** with the circle called **"Azatutyun Hraparak"** in Khankendi — coordinates **x4411833, y8651149**, according to data obtained through the Google Maps application — within the military camp of the headquarters of the unlawful armed forces' Combined-Arms Army.

During the visual inspection and investigation carried out, the above-mentioned firearms and explosive substances stored in those warehouses were found and seized.
According to expert opinions No. **3/16-16/2-3/1695** and **3/1696** dated 6 November 2023, issued by experts of the Forensic Examination Center of the Ministry of Justice of the Republic of Azerbaijan, it was established that the 7 grenade bodies submitted for examination were factory-made and constituted the body parts of cased **F-1** hand grenades.

The 7 detonators submitted for examination were **UZRQM** and **UZRQM-2** grenade detonators, intended for use in detonating **F-1**, **RQD-5** and **RQ-42** cased hand grenades, assembled at different times and factory-made; when those **UZRQM** and **UZRQM-2** detonators, which form part of the complete set, are attached to the grenade bodies, they constitute **F-1** hand grenades, which are considered ammunition.
The 1,257 cartridges submitted for examination were factory-made cartridges with center-fire primers, of 1943 model and 7.62 mm caliber, intended for use in rifled combat firearms of that caliber, including Kalashnikov-type **AK** assault rifles — **AKM**, **AKS**, **AKMS** models — **RPK** and **RPKS** light machine guns, the **SKS** carbine and others. They are ammunition and are suitable for firing. Of them, 40 were tracer bullets.
The 3 magazines submitted for examination are factory-made magazines that are component parts of Kalashnikov-type **AK** assault rifles — **AKM**, **AKS**, **AKMS** models — which do not have independent functional significance as firearms; each has a capacity of 30 cartridges of 7.62x39 mm caliber and is suitable for use for its intended purpose.
The 448 cartridges submitted for examination were factory-made cartridges with center-fire primers, of 5.45x39 mm caliber, intended for use in rifled combat firearms of that caliber, including Kalashnikov-type **AK-74** assault rifles — **AKS-74**, **AKS-74U** models — **RPK-74** and **RPKS-74** light machine guns and others. They are ammunition and are suitable for firing.

Page 1345

According to the protocol on the inspection carried out on 4 October 2023 of the garden house where Ruben Vardanyan had lived, located in Kolatagh village of Aghdara district, it was established that during the inspection of a container-type storage area located in the yard, 14 military-purpose bedding sets intended for overnight stay in field conditions were found.

It was also established by evidence examined at the court hearing that Ruben Vardanyan, after being appointed on 4 November 2022 by Harutyunyan Arayik Vladimiri, also known as Vladimirovich, to the position of "state minister" of the so-called structure, financed terrorism by allocating monthly salaries in the amount of 700–2,000 US dollars to the leaders and members of armed detachments and groups called "local self-defense detachments," formed and operating by that so-called structure, which were not provided for by the legislation of the Republic of Azerbaijan, and also to other armed detachments and groups consisting mainly of professional military personnel, depending on the unlawful activities carried out by each of those persons.

The indicated fact was confirmed by the statements of **Qriqoryan Mushegh Qurgenovich**, **Hayrapetyan Kamo Eduardovich** and other witnesses questioned during the judicial investigation.

The accused person Ruben Vardanyan, on 11 November 2022, during correspondence through the WhatsApp mobile application with **Arustamyan Ernest Sanatrukovich**, a full member of the Russian Engineering Academy, held negotiations with the Czech company **"Liaz"** regarding the acquisition of helicopter-type unmanned aerial vehicles intended for use

by unlawful armed formations in the entity called "Artsakh." He agreed to Arustamyan's proposal concerning the obtaining of technical documents required for securing consent to the purchase of those UAVs and their delivery to Yerevan, contacted **Arman Jilavyan**, chief executive officer of "Aurora," sent him the text of the correspondence, and then instructed that technical documents be obtained for the purchase of the UAVs and for securing the consent to manufacture them, thereby financing terrorism.

It appears from the correspondence on the WhatsApp application on Ruben Vardanyan's BlackBerry telephone with **Arman Jilavyan**, chief executive officer of the "Aurora" humanitarian initiative group, dated 12 November 2022, that he sent to Arman Jilavyan, at 06:24 on 12 November 2022, the correspondence between **Ernest Arustamyan**, a full member of the Russian Engineering Academy, and the Czech company **"Liaz"** regarding the obtaining of consent for the acquisition of unmanned aerial vehicles and their delivery to Yerevan, and regarding the obtaining of the technical documents necessary to manufacture those vehicles, instructing him to handle that matter. The facts stated were confirmed by the inspection protocols examined at the court hearing.

For the purpose and objective of the general criminal intent of the criminal association or organization of which Ruben Vardanyan was a member, and by continuing its activity, in March–April 2023 he personally drew up an activity plan titled **"The Initiative Group and Artsakh Political Parties Must Take the Following Steps."** In the section of that plan concerning acts of terrorism to be committed against officials of various states by members of Armenian terrorist organizations under the name of revenge operations known as **"Nemesis,"** and against representatives of the diplomatic corps of the Republic of Azerbaijan in foreign countries, and against citizens performing official duties and public obligations, by using firearms and objects used as weapons, with the intent to disrupt public security, create panic among the population, and influence decision-making by state authorities, thereby creating a danger of loss of life and other socially dangerous consequences, he proposed the launch of the **"Nemesis-2"** terrorist operation as a continuation of the terrorist act, by means of explosion and other methods, and carried out preparatory actions for the noted terrorist acts.

Page 1346

Thus, according to the protocol dated 27 September 2023 concerning the inspection of items found on Ruben Vardanyan when he was detained, one document in a black bag contained information about the **"Nemesis"** operation; documents were also found bearing the headings **"Achievements obtained over 100 days"** and **"Artsakh's — and Armenia's? — initiative group and political parties must take the following steps";** in addition, one **Nokia** mobile phone, one **BlackBerry** mobile phone and one **iPad** tablet were found.

It was also established during the judicial investigation that on 18 May 2023, under the direct influence of Ruben Vardanyan, the group called the **"Artsakh Security and Development Front,"** which was part of the criminal association or organization and had been created by him, prepared a written plan. Under that plan, in the areas of the Republic of Azerbaijan where the Russian peacekeeping forces were temporarily deployed, military training camps

were to be created for persons aged 20–55, and at each camp 30 persons were to undergo military training at the same time under the leadership of two instructors.

On the basis of that plan, the organization called **“Biz — dağlarımızıq”** — “We Are Our Mountains” — of which he was the founder, intentionally collected funds at various times and in various amounts from the **“Ruben Vardanyan Foundation,” “Dilijan Community Center,” “Aznavour Foundation,” “IDEA” Charitable Foundation,** other organizations, foundations and individuals, including **212,000 US dollars**, or **360,400 manats**, in May 2023, for the purpose of financing training connected with terrorism. Through the account of the organization called **“**We Are Our Mountains**,”** it transferred those funds to the leadership of the **“Artsakh Security and Development Front.”**

Under the guise of the **“David Bek military sport,”** also called **“David Bek military sports games,”** strategy section supposedly created under that Front, and by relying on information published on internet resources about the conduct of trainings concerning **“the secret of survival in extreme conditions,”** he organized the creation of relevant terrorist organizations, consisting mainly of young people, under the names **“ASALA”** — Armenian Secret Army for the Liberation of Armenia — **“Nemesis”** — revenge — and other groups.

In the area on the right bank of the Badara River, near Badara village of Khojaly district, in May–August 2023, he directly organized and conducted military training for those groups in preparation for the commission of terrorist acts, involving the use of firearms, explosive and incendiary substances and devices, other generally dangerous methods and technical means. He then provided information about those trainings to other members of the criminal association or organization, including his close associate **Ovagimyan Aik Armenovich**.

Thus, letter No. **3/2138** dated 25 November 2024 from the Main Military Counterintelligence Department of the State Security Service of the Republic of Azerbaijan states that, during the investigation carried out, it was established that the idea of creating the organization called the **“Artsakh Security and Development Front”** was put forward by R. Vardanyan during the period when he was the “state minister” of the so-called entity.

Manukyan Davit Azatovich, who in 2019–2021 served as deputy for combat training to the commander of the so-called **“Artsakh Defense Army,”** was also a member of the governing board of the organization called the **“Artsakh Security and Development Front.”** On 17 August 2023, information was obtained that, with the support of the organization called **“Young Club of Artsakh,”** an athletic and tactical games project called **“DAVIT VEK”** was being implemented.

Thus, the **“DAVIT VEK”** project was organized with the aim of providing schoolchildren from various regions of the Republic of Armenia with military knowledge. There, participants were taught how to use various weapons, survive in extreme conditions, set up tents in mountainous conditions, move in roadless areas, and other skills. The noted competition was organized in 2023 over a period of six months, with the participation of boys and girls aged 16–18, and its budget amounted to approximately **212,000 US dollars**.

It became known that, although the main bank account for collecting donations for the "DAVIT VEK" project belonged to ER's **"Ameriabank,"** cooperation was also carried out with well-known banks such as **"Citibank"** for transfers in US dollars, **"Raiffeisen Bank International"** for transfers in euros, and **"Raiffeisen Bank Russia"** for transfers in Russian rubles, by appealing to Armenians; and that support for that project was also provided, on R. Vardanyan's initiative, by his organization called **"We Are Our Mountains."**

According to the operational information obtained, in the territory of the Karabakh economic region, under the name of the **"DAVID VEK"** sports and tactical games project, minors, persons of various adolescent age groups, as well as members of the well-known **"VOMA"** terrorist organization, were involved in training conducted for terrorist purposes. Within the framework of that project, participants were taught various military skills, and under the name of **"VOMA,"**trainings for terrorist purposes were conducted by instructors of the terrorist organization in field conditions.

It was established that Ruben Vardanyan had undertaken the organization of the noted military trainings, the preparation of fighters and instructors, as well as the financing of the organization and its members.

The foregoing was also fully confirmed by the protocol dated **29 October 2023** concerning the inspection of one dark-grey **Apple iPad Pro** tablet belonging to Ruben Vardanyan.

Another piece of evidence confirming the noted accusation is the protocol dated **22 November 2023** concerning the inspection of **BlackBerry** and **Nokia** mobile phones belonging to Ruben Karlenovich Vardanyan. It appears from that protocol that there was correspondence between Ruben Vardanyan and a person named **Aik Ovakimian** in the **Telegram** application. In that correspondence it was stated:

Aik Ovakimian: "This will be the end of sovereign Armenia. We need weapons, we need instructors from the West, and we need time. No one will leave this defeat as it is, but right now throwing oneself into disaster while completely exposed — this is a fact, it can be clearly seen — will not solve any issue."

Ruben Vardanyan: "Inside Artsakh they told me this too, both the elite and the majority of the population; in fact, from the very first day they accused me of supposedly wanting there to be blood and sacrifices. When I say that, as in the Russian tale, either you will lose the homeland/the horse, or dignity/the sword, or you may lose your head, the relative majority says that we do not want any of these options, let someone else decide for us. Believe me, I do not doubt you for even a second, nor the 120 people we have prepared over the last three months, but this is a drop in the ocean."

It was also established by the evidence examined during the court hearing that Ruben Vardanyan, in accordance with the common criminal intent and objectives of the criminal association or organization, during the period from **2 July 2023 to 20 September 2023**,

conducted talks and correspondence, through the **Signal** mobile application using mobile number [redacted], with **Vladimir Sergeyevich Poghosyan**, founder and chairman of the **"27 Committee"** movement, a citizen of the Republic of Armenia, who had served in the National Security Service of the Republic of Armenia and as assistant to the Chief Adviser on National Security Matters to the President of the Republic of Armenia, and who operated under the name of a security expert. Poghosyan used the mobile number [redacted] recorded under the name **"Sonunjunun."** Communications were also carried out through other mobile applications and social networks.

The purpose was to ensure that the sovereign territories of the Republic of Azerbaijan remained under occupation, to keep the Azerbaijani population in fear and panic, and to prevent internally displaced persons from returning to the formerly occupied territories. For this purpose, in the territories of the Republic of Azerbaijan where the Russian peacekeeping forces were temporarily deployed, it was agreed that a new special-purpose armed formation, not provided for under the legislation of the Republic of Azerbaijan and to be financed by Ruben Vardanyan, would be created, and that this special-purpose

Page 1348

armed formation would be equipped with the firearms, ammunition, explosive substances, military equipment and military supplies belonging to it. In addition, agreement was reached that a radio-electronic warfare system, or **REM**, capable of destroying unmanned aerial vehicles belonging to the Republic of Azerbaijan at a distance of **50 kilometers**, operating at frequencies of **300 MHz to 8 GHz** and having a **12-channel control system**, would be obtained by Ruben Vardanyan from European countries and delivered to unlawful armed formations. For that purpose, by intentionally collecting and providing funds, partly directly and partly indirectly, Ruben Vardanyan committed an act of financing terrorism.

Thus, in letter No. **3/489** dated **14 March 2024** from the Main Military Counterintelligence Department of the State Security Service of the Republic of Azerbaijan, it is stated that, during the operational measures carried out, it became known that mobile phone numbers [redacted] and [redacted], belonging to the communications network of the Republic of Armenia, were in the use of **Vladimir Sergeyevich Poghosyan**.

It was also established that on **11–14 November 2020**, **Vova Vartanov**, head of the **"VOMA"** terrorist organization, while in the area of Taghavard village of Khojavend district, had several telephone conversations with V. Poghosyan. During the telephone conversations with V. Poghosyan, he brought to the latter's attention that he was aware that a criminal case had been opened against him by the Republic of Azerbaijan and that the organization he headed was regarded as a terrorist group, that he was therefore worried, and that he had appealed to the higher leadership for the replacement of the personnel who were with him.

In addition, during the conversation, V. Vartanov stated that the detachment under his command was in the city of Khankendi, while he himself was located in Taghavard village of Khojavend district together with approximately **200** persons, and that on **14 November 2020**,

according to a previously determined list, he planned to return from the direction of Kalbajar district together with **70** persons. V. Vartanov emphasized that not everything had been lost and that, if he could return with the full personnel, matters would be different.

According to the information, V. Poghosyan worked as assistant to the President of the Republic of Armenia on national security matters and as adviser to the Chief of the General Staff of the Armed Forces. At present, he regularly participates as a political and military "expert" in live discussions organized on social networks on various topics, mainly on **Telegram** and **YouTube** channels.

At the same time, during research conducted on social networks, it became known that V. Poghosyan, in an interview given to mass media on **4 November 2020**, stated that he had gone to the city of Shusha and, together with **Artyom**, the brother of former "defense minister" of the so-called regime **Jalal Anatolyevich Harutyunyan**, who had been the head of the police headquarters, had tried on that date to gather support and organize the defense of the city.

During the operational measures carried out, it was established that V. Poghosyan maintained regular contact with Ruben Vardanyan, who was the "state minister" of the so-called entity, and that they reached agreement through discussions concerning the creation, within Armenian armed formations not provided for under the legislation of the Republic of Azerbaijan and deployed in the Karabakh economic region, of new special-purpose forces, as well as concerning the acquisition of radio-electronic warfare, or **REM**, systems. It was also planned that, although the keeping of those special-purpose forces in reserve would be formalized by an order signed by the "president" of the so-called entity, they would be subordinate to the Ministry of Defense of the Republic of Armenia.

However, the local anti-terrorist operations carried out on **19–20 September 2023** prevented the intended plan concerning the creation of the said forces and the financing by Ruben Vardanyan of matters relating to the acquisition of REM systems.

It appears from the protocol dated **22 November 2023** concerning the inspection of **BlackBerry** and **Nokia** mobile phones belonging to Ruben Karlenovich Vardanyan that, in the memory of those phones, the accused person Ruben Vardanyan had downloaded to the phone

Page 1349

using the **Signal** mobile application, through mobile phone number [redacted] he corresponded with the user of mobile phone number [redacted] recorded under the name **"SS"** — Vladimir Poghosyan — and discussed the creation of **XQMM** — the National Center of Special Operations Forces — its subordination, management, areas of activity, and the acquisition of **REM** equipment.

In addition, Ruben Vardanyan, in accordance with the common criminal intent and objectives of the criminal association or organization, acted for the purpose of equipping with military

equipment the armed formations included in that criminal association or organization, which operated unlawfully and contrary to the norms of international law in the occupied territories of the Republic of Azerbaijan under the support and control of the political-military leadership of Armenia.

For this purpose, in September 2023, he carried out activities aimed at acquiring **"Malloy"**-type unmanned aerial vehicles, manufactured by the British and Northern Irish company **Malloy**, with a payload capacity of **180 kilograms** and a range of **70 kilometers**. Through the **Telegram** application, using mobile phone number [redacted] he contacted **Artur Alaverdyan**, a close associate, who used mobile phone number [redacted] and instructed him to obtain those **Malloy**-type UAVs.

On **14 September 2023**, through the **Telegram** application, in a Telegram group called **"АТР Мы — Наши Горы"** — "ATP We Are Our Mountains" — he shared a video of the UAV being reflected/demonstrated, thereby committing acts of financing terrorism through the intentional collection and provision of funds, knowing that the money and other property of citizens of various foreign states would be used in the preparation, organization and commission by the criminal association or organization of acts provided for in Articles **214**, **270-1**, **278** and **279** of the Criminal Code.

The foregoing was once again confirmed by the protocol dated **29 October 2023** concerning the inspection of one dark-grey **Apple iPad Pro** tablet belonging to Ruben Vardanyan, including the planning and other documents recorded there.

In the territories of the Republic of Azerbaijan that were under occupation, the so-called gendarmerie body created by the criminal association or organization and called **"Artsakh"**, during the period when Vardanyan held the office of "state minister" from **4 November 2022 to 23 February 2023**, and thereafter, until the end of September 2023, directly participated in the adoption of decisions connected with the planning and commission of crimes against the Republic of Azerbaijan, its natural and legal persons, in accordance with the common criminal intent and objectives of the criminal association or organization and its members.

It was also fully confirmed by the statements of witnesses **Qriqoryan Mushegh Qurgenovich** and **Hayrapetyan Kamo Eduardovich**, as well as by other documents examined at the court hearing, that in order to ensure the participation of at least **2,000** foreign citizens as more experienced fighters in the aggressive war against Azerbaijan, they were brought from the territory of the Republic of Armenia through the Lachin corridor, which had been kept under occupation, to Khankendi and the cities of Shusha, Kalbajar, Khojavend and other settlements of the Republic of Azerbaijan. Their participation was ensured, as part of organized detachments, in military operations against Azerbaijan in the occupied Karabakh region of the Republic of Azerbaijan and the surrounding districts, including the cities of Shusha and Khankendi and the districts of Jabrayil, Fuzuli, Zangilan, Gubadli, Lachin, Kalbajar, Khojavend, Khojaly and Aghdam, during the aggressive war conducted against Azerbaijan from the end of September 2020 until **10 November 2020**, and in the subsequent period as well.

It was also established by the evidence examined during the judicial investigation that, during the period when Ruben Vardanyan operated within the criminal association, after the statements of **10 November 2020** by the President of the Republic of Azerbaijan, the President of the Republic of Armenia and the President of the Russian Federation, and until **20 April 2024**, during visits by citizens of the Republic of Azerbaijan to territories liberated from occupation, Azerbaijani

civilians and servicemen were subjected to explosions of planted mines. As a result, **155** servicemen of the Republic of Azerbaijan and **116** civilians — a total of **271** persons — sustained bodily injuries of various degrees; **17** servicemen and **48** civilians — a total of **65** persons — were intentionally killed. As a result of the planting of mines in those territories and the destruction of military equipment, a total material damage of at least **26,603,033,593 manats** was caused to the Republic of Azerbaijan.

In addition, members of the criminal association joined by Ruben Vardanyan carried out a terrorist attack on **19 September 2023**, at around **18:00–19:00**, by opening fire with artillery weapons on **Mollalar** village of Aghdam district, which had been liberated from occupation.

At that time, **Hasanov Mehman Fikrat oghlu**, born on **25 February 1992**, a civilian resident of Bashgarvand village of Aghdam district, had been assigned by **"Körpü-Bina-Tikinti" LLC** as an excavator driver to the territory of Mollalar village of Aghdam district for excavation and construction works for the purpose of laying a road. While standing near the **Liugong CLG 930E** excavator, bearing state registration plate **AZ 10-FC-054**, which belonged to the LLC and was on its balance sheet, and while planning the work, he heard artillery shell explosions and ran to a nearby wooded area to hide. When he had moved approximately **80 meters**, he was hit by shrapnel from an artillery shell explosion and sustained shrapnel wounds to the right knee area, classified as light injury causing minor harm to health. Because he was relatively far from the explosion wave, they were unable to kill him intentionally.

During the court investigation, it was determined from the evidence examined that on July 23, 2022, at around 12:00, a soldier of the Ministry of Defense's "N" military unit, **Ibayev Kamiz Mubariz oglu**, who had lost his way due to foggy and drizzly weather conditions while leaving the base of the Ministry of Defense's "N" military unit, where he served in the village of Yellija, Kalbajar region, and moving on foot toward the headquarters of the military unit, was taken hostage.

In the testimony given in court by **Ibayev Kamiz Mubariz oglu**, he stated that during the period from **23 July 2022** to **3 August 2022**, while being held captive in the territory of Armenia, he was beaten by servicemen of the Armed Forces of Armenia, insulted with degrading words, and subjected to torture by cigarette burns on various parts of his body. After being held captive for **13 days**, the servicemen of the Armed Forces of Armenia handed

him over to Russian peacekeepers, and they in turn handed him over to Azerbaijani servicemen; on **3 August 2022**, he was brought to the city of Baku.

Ruben Vardanyan's rapid joining of the criminal association upon his arrival in Karabakh is also confirmed by numerous interviews he gave on open internet resources that were examined at the court hearing.

Thus, in a video recording posted on the **YouTube** portal titled **"NO to the ethnic cleansing of Artsakh | Ruben Vardanyan's speech at the rally of 09.05.2023"**, in his speech at the rally of **9 May 2023**, Ruben Vardanyan stated: **"We have a goal that was established in 1988. To this day, we have had a dream — a free, independent and Armenian Artsakh. For this purpose, without giving up, we have raised these slogans. These days, it is very important that all of us note that we have no other purpose."**

The court notes that the discussion concerns **May 2023**, that is, a period when the Armenian population living in the Karabakh economic region of the Azerbaijani state used all available means for integration, while the page of war had been closed and plans were being made for living in peace. At that time, Ruben Vardanyan was criminally calling on the population to a new **"war"** — in effect, to act in accordance with the intentions of the criminal association in whose ranks he was operating.

Page 1351

In another interview, Ruben Vardanyan went somewhat further than the statements noted above and said that the separatist movement launched in 1988 by the said criminal association was his life's purpose. Thus, in a video on the YouTube portal titled **"It is important to revive respect for one's roots, traditions and especially vows as a sacred duty / Важно возрождать уважение к своим корням, традициям и особенно к обетам как к святой обязанности,"** Ruben Vardanyan, while proudly presenting the book of the Dashnak terrorist Andranik — who had played an exceptional role in the destruction of villages inhabited mainly by Azerbaijanis in Karabakh and Zangezur in 1918 and in the massacre of their population — stated that back in 1988 his friends had obtained that book at a very high price, had sworn an oath on that book in the Amaras church, and had promised that they would not turn back from the struggle for Artsakh. He added: **"In 1988, in the Amaras church, I too joined the oath of those who swore on this book; I swear to fight for the independence of Artsakh. I call on everyone to join this movement."**

In the video material titled **"Nationwide Rally in Artsakh | Ruben Vardanyan's Speech / Всенародный митинг в Арцахе | Речь Рубена Варданяна,"** Ruben Vardanyan expressed similar views, stating: **"I was not with you in 1988, but now there is such a feeling as if history is repeating itself. On 23 February, our struggle will be 35 years old — the February 1988 events. We have three paths: first, to surrender to Azerbaijan and integrate; second, to flee; third, to fight victoriously. I have chosen my path — struggle. I chose my path on 2 September. I am here; I will not go anywhere and I will fight; I**

will not surrender to Azerbaijan's conditions." He also stated: **"This path is not an easy path; blood will be shed on this path, and much effort will be required."**

In the video material titled **"Ruben Vardanyan on the Problems in Artsakh, the Struggle and the Statements of the Armenian Authorities / Рубен Варданян о проблемах в Арцахе, о борьбе и о высказываниях властей Армении [ARM sub],"** when the host reminded him that certain senior figures of "Artsakh" supported integration with Azerbaijan and asked for his position on the matter, Ruben Vardanyan replied that **"there can be no talk of any integration."** It is therefore clearly apparent that, after 2020, he was encouraging the population of Armenian origin living in the Karabakh territory of Azerbaijan to continue the criminal war against Azerbaijan.

With regard to the legal characterization of the acts charged against Ruben Vardanyan, it should be noted that he was charged with acting as part of a criminal organization and participating in the planning of the aggressive war that had been started; in the preparation of new attack plans; in the conduct of an aggressive war by continuing those aims and intentions; in the forced displacement of the population from their lawful places of residence without grounds established by international law and the laws of the Republic of Azerbaijan; in the financing of terrorism; and in the commission of other crimes by the criminal association in accordance with the general criminal purpose and intent of that association.

As noted above, the evidence examined established that he joined the criminal association at the beginning of December 2020 and, from that date onward, is accused of participating in the commission of crimes serving the association's single common purpose. When Ruben Vardanyan joined the criminal association, the sovereign territories of the Republic of Azerbaijan had already been occupied as a result of an aggressive war, and hundreds of thousands of people had been expelled from the territories where they lawfully lived, but the occupation and ethnic cleansing had not yet ended.

From the moment Ruben Vardanyan joined that association, through his unlawful acts, he actively participated in preventing the return of the occupied territories to their lawful owners and the return of the displaced population, which was the common purpose of that association. By closely participating in the arming of unlawful armed formations operating in Karabakh and in supplying them with other equipment, he served the said common purposes of the criminal association

Page 1352

and thereby participated in all crimes committed by the association from that period onward. During that period, thousands of civilians and servicemen were killed or subjected to attempted killing by the criminal association; they were taken prisoner and hostage, and were subjected to terror and torture.

The accused, Ruben Vardanyan, by acting under the title of "state minister" from **4 November 2022 to 23 February 2023**, seized power by force in violation of the Constitution

of the Republic of Azerbaijan and also created conditions for the commission of those crimes by other persons.

Karabakh and the other occupied districts are sovereign territories of the Republic of Azerbaijan. Those territories were occupied by the Armenian state and the criminal association formed by it; hundreds of thousands of people were expelled from the territories where they lawfully lived. By joining that criminal association, and by arming, supporting, financing and otherwise assisting the unlawful armed detachments operating there, Ruben Vardanyan participated in all crimes committed by that association for the purpose of continuing the occupation and ethnic cleansing.

As a result of the aggressive war conducted by the said criminal organization, which operated unlawfully on the territory of Azerbaijan and in violation of domestic and international legal norms, on the basis of the support directly provided by the political-military leadership of the Republic of Armenia, including its armed forces and other armed formations, as well as their material, technical and personnel support, centralized management, oral and written orders, instructions and directives, and under their strict supervision, the following occurred:

During **1988–1994**, a total of **925 settlements** of the Republic of Azerbaijan — **12 cities, 18 settlements and 895 villages** — were occupied; at least **442,841** members of the population, consisting of **114,184 Azerbaijani families**, were displaced from the places where they lawfully lived.

During **1988–1994**, as a result of crimes committed in **one episode of genocide**, **nine episodes of mass extermination of the population without signs of genocide**, and **ten episodes of other crimes**, at least **854 persons** were intentionally killed, **871 persons** were subjected to attempted intentional killing, **5 persons** were taken prisoner, **610 persons** were taken hostage, and **300 persons** were forcibly disappeared.

During **1988–2023**, as a result of at least **308 episodes of terrorist acts**, at least **449 persons** were intentionally killed and **1,729 persons** were subjected to attempted intentional killing.

During **1990–2024**, as a result of **285 episodes of mine explosions**, at least **353 persons** were intentionally killed and **882 persons** were subjected to attempted killing.

During **1989–2023**, **414 servicemen** were taken prisoner and tortured; of them, **48** were intentionally killed, while **366**were returned.

During **1988–2021**, **1,284 civilians** were taken hostage and tortured; of them, **122** were intentionally killed.

With the instructions, consent and support of Armenia's military-political leadership, the **"Karabakh Committee," "Krunk," "Miatsum," "Dashnaktsutyun"** and other criminal organizations, during the course of the aggressive war in **1989–2020**, information concerning the fate and whereabouts of **3,980 persons** was refused, and they were forcibly disappeared.

During **1988–2024**, a total of **18,850 persons** were intentionally killed, including those forcibly disappeared; in addition, a total of **56,268 persons** were subjected to attempted intentional killing through harm being caused to their health.

At least **23,000** persons of Armenian origin from various foreign countries were resettled in a purposeful and systematic manner in the occupied territories unlawfully.

Beginning on **27 September 2020**, at least **2,000** foreign citizens were brought as mercenary fighters to the territories held under occupation, and their participation in military operations against Azerbaijan was ensured.

At least **1,087,226** anti-tank and anti-personnel mines were planted in the occupied territories, and unexploded military ordnance was left there, thereby contaminating those territories. As a result of the noted crimes, damage was caused to the civil infrastructure, economy, environment, defense arsenal and other sectors of the Republic of Azerbaijan,

causing the Republic of Azerbaijan material damage in the total amount of **103,047,605,899.53 manats**.

When classifying the act of the accused, the court takes into account the Constitution of the Republic of Azerbaijan, the Criminal Code of the Republic of Azerbaijan, the Criminal Procedure Code of the Republic of Azerbaijan, the Constitutional Law of the Republic of Azerbaijan No. **106-IIKQ** dated **12 May 2006**, **"On the retroactive application of the law establishing liability for international crimes,"** and other normative legal acts and acts of a normative character.

According to Part VII of Article 149 of the Constitution of the Republic of Azerbaijan ("Constitution"), normative legal acts that improve the legal status of individuals and legal entities, eliminate or mitigate legal liability, shall have retroactive effect. The force of other normative legal acts shall not be retroactive.

According to Article 1.3 of the Criminal Code of the Republic of Azerbaijan ("CC"), which entered into force on September 1, 2000, laws establishing criminal liability and punishment for a person who has committed a crime may be applied only after their inclusion in this Code. According to Article 10.4 of the CC, a criminal law that considers an act (action or inaction) to be a crime and determines the punishment for that act, aggravates the punishment, or otherwise worsens the situation of a person who has committed a crime shall not have retroactive effect.

Criminal liability for planning, preparing and waging an aggressive war, genocide and other crimes against peace and humanity was not provided for in the Criminal Code of the Republic of Azerbaijan that was in force at the time when the events occurred.

Thus, although crimes against humanity, as well as war crimes, were not included in the Criminal Code of the Republic of Azerbaijan in force until **1 September 2000**, it is possible to bring to international criminal liability persons who committed crimes of that category in **1988–2000**.

Thus, the Constitutional Law of the Republic of Azerbaijan dated **12 May 2006 "On the retroactive application of the law establishing liability for international crimes"** was adopted not to worsen the legal status of persons who committed crimes against peace and humanity, genocide and war crimes in the Republic of Azerbaijan, but, on the contrary, in order to bring the application of criminal laws into conformity with the provisions of the Convention for the Protection of Human Rights and Fundamental Freedoms and the International Covenant on Civil and Political Rights.

Under Article 1 of the Constitutional Law, no provision of the Constitution of the Republic of Azerbaijan may be interpreted or understood as a provision preventing any person from being brought to criminal liability and punished for an act — action or inaction — that, at the time it was committed, was considered a crime under universally recognized norms of international law.

Under Article 2 of the Constitutional Law, the criminal prosecution of persons who committed an act — action or inaction — constituting a crime against peace may be carried out only after liability for that act has been established in the Criminal Code of the Republic of Azerbaijan.

In this regard, the court considers that since Vardanyan Ruben Karlenovich's participation in the illegal acquisition, transfer, storage, transportation, and movement of firearms, their components, ammunition, explosives, and devices as part of a criminal association formed from organized gangs, as charged against him, constitutes the elements of the offence under **Article 228.2.1 of the Criminal Code of the Republic of Azerbaijan, the act charged against him under Article 228.3 of the Criminal Code of the Republic of Azerbaijan should be reclassified under Article 228.2.1 of that Code**.

Page 1354

In addition, the act charged against Ruben Karlenovich Vardanyan — participation in the creation and activity of armed formations and groups not provided for by the legislation of the Republic of Azerbaijan, which caused deaths and other grave consequences; supplying them with weapons, ammunition, explosive substances, military equipment, military supplies and provisions, and individual persons; managing them; participating in their training; and participating in the organization of attacks against organizations and individual persons — is covered by Article **279.3** of the Criminal Code of the Republic of Azerbaijan. Therefore, Articles **279.1** and **279.2** of the Criminal Code of the Republic of Azerbaijan must be removed from the charge brought against Ruben Karlenovich Vardanyan.

On the basis of the foregoing, the court considers that Ruben Karlenovich Vardanyan must be found guilty under Articles **100.1, 100.2, 107, 109, 110, 112, 113, 114.1, 115.2, 116.0.1, 116.0.2, 116.0.10, 116.0.11, 116.0.16, 116.0.18, 120.2.1, 120.2.3, 120.2.4, 120.2.7,**

120.2.11, 120.2.12, 29,120.2.1, 29,120.2.3, 29,120.2.4, 29,120.2.7, 29,120.2.11, 29,120.2.12,

192.3.1, 214.2.1, 214.2.3, 214.2.4, 214-1, 218.1, 218.2, 228.2.1, 270-1.2, 270-1.4, 278.1, 279.3 and 318.2 of the Criminal Code of the Republic of Azerbaijan, and he must be punished within the limits of the sanctions of Articles **100.1, 100.2, 107, 109, 110, 112, 113, 114.1, 115.2, 116.0.1, 116.0.2, 116.0.10, 116.0.11, 116.0.16, 116.0.18, 120.2.1, 120.2.3, 120.2.4, 120.2.7, 120.2.11, 120.2.12, 29,120.2.1, 29,120.2.3, 29,120.2.4, 29,120.2.7, 29,120.2.11, 29,120.2.12, 29, 192.3.1, 214.2.1, 214.2.3, 214.2.4, 214-1, 218.1, 218.2, 228.2.1, 270-1.4, 278.1, 279.3 and 318.2** of the Criminal Code of the Republic of Azerbaijan.

Thus, since the criminal act provided for in Article **270-1.2** of the Criminal Code of the Republic of Azerbaijan carries a penalty of imprisonment for a term of up to two years, that act is a crime that does not pose a great public danger.

Under Article **75.1.1** of the same Code, if two years have passed from the day a crime that does not pose a great public danger was committed, the person may not be brought to criminal liability.

Under Article **44.2.1** of the Criminal Procedure Code of the Republic of Azerbaijan, when there are no grounds specified in Articles **42** and **43** of this Code for issuing an acquittal or a decision terminating criminal prosecution, the court, in connection with the expiry of the limitation period for bringing a person to criminal liability, issues a conviction without assigning punishment to the accused person.

It should be noted that, in connection with the expiry of the limitation period for bringing a person to criminal liability, no punishment should be assigned to Ruben Karlenovich Vardanyan under Article **270-1.2** of the Criminal Code of the Republic of Azerbaijan, under which he has been found guilty.

According to **Article 8.1 of the Criminal Code of the Republic of Azerbaijan**, the punishment or other criminal-legal measures imposed on a person who has committed a crime must be fair; that is, they must correspond to the nature and degree of public danger of the crime, the circumstances of its commission, and the identity of the person found guilty of committing the crime.

Under Article **58.3** of the same Code, when imposing punishment, the nature and degree of public danger of the crime committed, the personality of the guilty person, including mitigating and aggravating circumstances, as well as the effect of the imposed punishment on the person’s correction and on the living conditions of his family, must be taken into account.

No circumstance mitigating the punishment of the accused Ruben Karlenovich Vardanyan, under Article **59** of the Criminal Code of the Republic of Azerbaijan, has been established.

In the acts of the accused Ruben Karlenovich Vardanyan, the court establishes as aggravating circumstances under Article **61.1.2** of the Criminal Code of the Republic of Azerbaijan the recidivism of crimes; under Article **61.1.3**, the commission of crimes as part of a criminal association or organization; under Article **61.1.4**, particularly active participation in the commission of crimes; under Article **61.1.6**, the commission of crimes motivated by national hostility, for mercenary purposes and other base motives; and under Article **61.1.7**

that the crimes were committed against a woman who was clearly pregnant, as well as against minors, elderly persons, helpless persons, and persons clearly dependent on the offender; under Article **61.1.8** of the Criminal Code, that the crimes were committed against persons performing their official or public duty; under Article **61.1.9** of the Criminal Code, that the crimes were committed against the victims with particular cruelty, including by inflicting suffering and torture; under Article **61.1.10** of the Criminal Code, that the crimes were committed with the use of firearms, explosive devices, other generally dangerous methods and technical means; under Article **61.1.11** of the Criminal Code, that the crimes were committed under conditions of martial law; and under Article **61.1.13** of the Criminal Code, that the crime was committed through the use of an official position or of the trust placed in the guilty person on the basis of a contract.

When imposing punishment on Ruben Karlenovich Vardanyan, the court takes into account the nature of the crime committed, the degree of public danger, the personality of the accused person, the absence of circumstances mitigating the punishment, and the existence of aggravating circumstances. The court considers it appropriate to sentence Vardanyan Ruben Karlenovich, who has been found guilty under Articles **100.1, 100.2, 107, 109, 110, 112, 113, 114.1, 115.2, 116.0.1, 116.0.2, 116.0.10, 116.0.11, 116.0.16, 116.0.18, 120.2.1, 120.2.3, 120.2.4, 120.2.7, 120.2.11, 120.2.12, 29,120.2.1, 29,120.2.3, 29,120.2.4, 29,120.2.7, 29,120.2.11, 29,120.2.12, 192.3.1, 214.2.1, 214.2.3, 214.2.4, 214-1, 218.1, 218.2, 228.2.1, 270-1.4, 278.1, 279.3 and 318.2** of the Criminal Code of the Republic of Azerbaijan, to punishment in the form of long-term imprisonment, and considers that such punishment will be sufficient for his correction.

Under Article **56.1.3** of the Criminal Code of the Republic of Azerbaijan, for persons sentenced for the first time to imprisonment for committing especially grave crimes, as well as in the case of recidivism of crimes, if the convicted person previously served a sentence of imprisonment, and in the case of especially dangerous recidivism of crimes, for women, the sentence is to be served in correctional institutions with a strict regime.

Under Article **56.2** of the same Code, for persons sentenced to imprisonment for a term of more than five years for committing especially grave crimes, as well as in the case of

especially dangerous recidivism of crimes, it may be determined that part of the sentence is to be served in prison.

The court considers that, taking into account the nature and gravity of the criminal acts committed by Ruben Karlenovich Vardanyan, Ruben Vardanyan must serve part of his sentence in prison, and the remaining part in a strict-regime correctional institution, pursuant to Articles **56.1.3** and **56.2** of the Criminal Code.

The punishment imposed on a person who has committed a crime is applied for the purposes set out in Article **41.2** of the Criminal Code, that is, to restore social justice, to correct the convicted person, and to prevent the commission of new crimes both by convicted persons and by others. At present, the court considers that the punishment intended to be applied to the accused Ruben Karlenovich Vardanyan will ensure the purpose of punishment.

Under Article **158.2** of the Criminal Procedure Code of the Republic of Azerbaijan, the term of detention of an accused person is calculated from the moment of actual deprivation of liberty, from the moment of detention, or, if a preventive measure in the form of arrest is chosen for a person who has not been detained, from the moment the court decision on the choice of that preventive measure is executed.

The materials of the criminal case and the confirmation that Ruben Karlenovich Vardanyan was actually deprived of liberty on **27 September 2023** give the court grounds to conclude that the beginning of the term of his sentence must be calculated from that date.

The court considers that the preventive measure in the form of **"arrest"** chosen with respect to Vardanyan Ruben Karlenovich must remain unchanged until the judgment enters into legal force.

Page 1356

It must be taken into account that, as stated in the descriptive-reasoning part of the judgment in the case, the criminal case separated under No. **242006053** with respect to the leaders and members of the criminal organization who have been placed on the wanted list, as well as other persons, under Articles **100.1, 100.2, 102, 103, 105, 106.1, 106.2, 107, 109, 110, 112, 113, 114.1, 114.2, 115.2, 115.3, 115.4, 29, 115.4, 116.0.1, 116.0.2, 116.0.6, 116.0.7, 116.0.8, 116.0.8-1, 116.0.8-2, 116.0.8-3, 116.0.9, 116.0.10, 116.0.11, 116.0.12, 116.0.14, 116.0.15, 116.0.16, 116.0.17, 116.0.18, 118, 120.2.1, 120.2.3, 120.2.4, 120.2.7, 120.2.11, 120.2.12, 29, 120.2.1, 29, 120.2.3, 29, 120.2.4, 29, 120.2.7, 29, 120.2.11, 29, 120.2.12, 192.3.1, 214.2.1, 214.2.3, 214.2.4, 214-1, 218.1, 218.2, 218.3, 228.3, 270-1.2, 270-1.4, 277, 278.1, 279.1, 279.2 and 279.3** of the Criminal Code of the Republic of Azerbaijan, must remain separated.

The procedural costs in the case — expert examination expenses totaling **1,584** manats — must be recovered from the accused Ruben Karlenovich Vardanyan in favor of the state budget through the Ministry of Economy of the Republic of Azerbaijan, TIN (VOEN) **1700326621**, **AZ34CTRE00000000000002088501**, State Treasury Agency, code **210005**,

On the basis of the foregoing, and guided by Articles **197–198, 341–349, 351–353, 358 and 384–385** of the Criminal Procedure Code of the Republic of Azerbaijan, the court

DECIDED:

The act charged against **Vardanyan Ruben Karlenovich** under Article **228.3** of the Criminal Code of the Republic of Azerbaijan shall be reclassified under Article **228.2.1** of the same Code.

Articles **279.1** and **279.2** of the Criminal Code of the Republic of Azerbaijan shall be removed from the charge brought against **Vardanyan Ruben Karlenovich**.

Vardanyan Ruben Karlenovich shall be found guilty under Articles **100.1, 100.2, 107, 109, 110, 112, 113, 114.1, 115.2, 116.0.1, 116.0.2, 116.0.10, 116.0.11, 116.0.16, 116.0.18, 120.2.1, 120.2.3, 120.2.4, 120.2.7, 120.2.11, 120.2.12, 29,120.2.1, 29,120.2.3, 29,120.2.4, 29,120.2.7, 29,120.2.11, 29,120.2.12, 192.3.1, 214.2.1, 214.2.3, 214.2.4, 214-1, 218.1, 218.2, 228.2.1, 270-1.2, 270-1.4, 278.1, 279.3 and 318.2** of the Criminal Code of the Republic of Azerbaijan.

Pursuant to Article **44.2.1** of the Criminal Procedure Code of the Republic of Azerbaijan, in connection with the expiry of the limitation period for bringing a person to criminal liability, no punishment shall be imposed on **Vardanyan Ruben Karlenovich** under Article **270-1.2** of the Criminal Code of the Republic of Azerbaijan, under which he has been found guilty.

Vardanyan Ruben Karlenovich shall be sentenced as follows: under Article **100.1** of the Criminal Code of the Republic of Azerbaijan — to imprisonment for a term of **11 years**; under Article **100.2** of the same Code — to imprisonment for a term of **20 years**; under Article **107** of the same Code — to imprisonment for a term of **14 years**; under Article **109** of the same Code — to imprisonment for a term of **9 years**; under Article **110** of the same Code — to imprisonment for a term of **20 years**; under Article **112** of the same Code — to imprisonment for a term of **7 years**; under Article **113** of the same Code — to imprisonment for a term of **9 years**; under Article **114.1** of the same Code — to imprisonment for a term of **11 years**; under Article **115.2** of the same Code — to imprisonment for a term of **9 years**; under Articles **116.0.1, 116.0.2, 116.0.10, 116.0.11, 116.0.16 and 116.0.18** of the same Code — to imprisonment for a term of **20 years**; under Articles **120.2.1, 120.2.3, 120.2.4, 120.2.7, 120.2.11 and 120.2.12** of the same Code — to imprisonment for a term of **20 years**; and under Articles **29,120.2.1, 29,120.2.3, 29,120.2.4, 29,120.2.7, 29,120.2.11 and 29,120.2.12** — to imprisonment for a term of **15 years**,

under Article **192.3.1** of the same Code — to imprisonment for a term of **6 years**; under Articles **214.2.1, 214.2.3 and 214.2.4** of the same Code — to imprisonment for a term of **20**

years; under Article **214-1** of the same Code — to imprisonment for a term of **13 years**; under Article **214-2** of the same Code — to imprisonment for a term of **14 years**; under Article **218.1** of the same Code — to imprisonment for a term of **11 years**; under Article **228.2.1** of the same Code — to imprisonment for a term of **5 years**; under Article **270-1.4** of the same Code — to imprisonment for a term of **7 years**; under Article **278.1** of the same Code — to imprisonment for a term of **20 years**; under Article **279.3** of the same Code — to imprisonment for a term of **20 years**; and under Article **318.2** of the same Code — to imprisonment for a term of **4 years**.

Pursuant to Article **66.3** of the Criminal Code of the Republic of Azerbaijan, by absorbing the less severe punishment into the more severe punishment, **Vardanyan Ruben Karlenovich** shall finally be sentenced to imprisonment for a term of **20 years**.

Vardanyan Ruben Karlenovich shall serve the first **10 years** of his sentence in prison, and the remaining part in a strict-regime correctional institution.

The beginning of the term of his sentence shall be calculated from **27 September 2023**.

The preventive measure in the form of **"arrest"** chosen with respect to him shall remain unchanged until the judgment enters into legal force.

It must be taken into account that the material evidence listed in the descriptive-reasoning part of the judgment in the case is to be retained in connection with criminal case No. **242006053**, separated with respect to the leaders and members of the criminal organization who have been placed on the wanted list, as well as other persons, under Articles **100.1, 100.2, 102, 103, 105, 106.1, 106.2, 107, 109, 110, 112, 113, 114.1, 114.2, 115.2, 115.3, 115.4, 29,115.4, 116.0.1, 116.0.2, 116.0.6, 116.0.7, 116.0.8, 116.0.8-1, 116.0.8-2, 116.0.8-3, 116.0.9, 116.0.10, 116.0.11, 116.0.12, 116.0.14, 116.0.15, 116.0.16, 116.0.17, 116.0.18, 118, 120.2.1, 120.2.3, 120.2.4, 120.2.7, 120.2.11, 120.2.12, 29,120.2.1, 29,120.2.3, 29,120.2.4, 29,120.2.7, 29,120.2.11, 29,120.2.12, 192.3.1, 214.2.1, 214.2.3, 214.2.4, 214-1, 218.1, 218.2, 218.3, 228.3, 270-1.2, 270-1.4, 277, 278.1, 279.1, 279.2 and 279.3** of the Criminal Code of the Republic of Azerbaijan.

The expert examination expenses in the case, totaling **1,584 manats**, shall be recovered from the accused **Vardanyan Ruben Karlenovich** in favor of the state budget and transferred to the following account: **AZ.MEM**, Taxpayer Service of the Ministry of Economy, State Treasury Agency, code **210005**, TIN **1401555071**, correspondent account **AZ41 NABZ01360100000000003944**, SWIFT/BIC **CTREAZ22**.

An appeal or appeal protest may be filed with the Baku Court of Appeal through the Baku Military Court within 20 (twenty) days from the date of the announcement of the verdict, or from the date of the official issuance of the verdict to the prisoner in custody.

The judgment shall enter into legal force on the day following the expiry of the period established for filing an appeal or appellate protest against the judgment.

Presiding judge: Zeynal Aghayev
Judges: Jamal Ramazanov, Anar Rzayev
