Page 21

The military-political leadership of the Republic of Armenia, including its armed forces and other armed formations, created and managed a criminal organization, its other leaders and members, and, from **1987**, with clear criminal intent and purpose, prepared, planned and conducted an aggressive war against the Republic of Azerbaijan.

In the course of that war, by violating norms of international humanitarian law, they allegedly used methods of warfare that caused major destruction, created large-scale devastation that

was not caused by military necessity, attacked undefended areas, settlements and militarized zones, destroyed the property of the population in military operation areas, and violated the agreement on cessation of hostilities.

By committing an attack on civilian objects, they occupied the Karabakh region and surrounding territories of the Republic of Azerbaijan until **April 1994**, namely: the city of **Khankendi**; **Shusha**, **Lachin**, **Khojaly**, **Khojavand**, **Aghdara**, **Aghdam**, **Fuzuli**, **Jabrayil**, **Zangilan**, **Gubadli**, **Kalbajar** districts; **7 villages of Gazakh district**; and the village of **Karki** in the **Sadarak district** of the Nakhchivan Autonomous Republic.

As a result, :

- in **Aghdam district**, **100,574 persons** from **27,922 families**;
- in **Jabrayil district**, **52,141 persons** from **13,183 families**;
- in **Fuzuli district**, **83,544 persons** from **22,699 families**;
- in **Kalbajar district**, **48,847 persons** from **12,050 families**;
- in **Lachin district**, **57,047 persons** from **13,282 families**;
- in **Gubadli district**, **29,539 persons** from **7,176 families**;
- in **Tartar / Aghdara district**, **899 persons** from **202 families**;
- in **Khojaly district**, **7,161 persons**;
- in **Khankendi city**, including Karkijahan, **2,944 persons**;
- in **Khojavand district**, **7,451 persons** from **1,359 families**;
- in **Zangilan district**, **32,775 persons** from **8,210 families**;
- in **Shusha district**, **16,299 persons** from **5,544 families**;
- in the **7 villages of Gazakh district**, **3,159 persons** from **726 families**;
- in the village of **Karki** in the **Sadarak district** of the Nakhchivan Autonomous Republic, **461 persons** from **94 families**;

In total, **442,841 persons** from **114,184 families** were forcibly displaced from their lawful places of residence without grounds provided by international legal norms or the laws of the Republic of Azerbaijan.

After their displacement, in gross violation of the requirements of the **Fourth Geneva Convention of 12 August 1949 relative to the Protection of Civilian Persons in Time of War**, and allegedly for the purpose of collapsing the state economy of the Republic of Azerbaijan, preventing resistance to Armenia's military aggression, creating a tense socio-economic situation in the country, and forcing Azerbaijan to accept the continued presence of sovereign Azerbaijani territories under Armenian jurisdiction, the displaced persons were forced to live in unfinished buildings, dormitories, medical and educational institutions, tent camps, railway carriages and other administrative buildings in various parts of the country, under conditions unsuitable for habitation and creating serious factual difficulties for receiving medical assistance. In order to ensure the minimum living needs of internally displaced persons, improve their material and living conditions, build temporary tent and prefabricated settlements, and later provide them with houses, buildings and apartments, the Republic of Azerbaijan, up to and including **2023**, spent budget funds, as well as funds from loans obtained from foreign international companies and banks, in the amount of **8,816,009,937 manats** for social security and improvement of the material-living conditions of internally displaced persons, and **15,993,000 manats** for improving and ensuring the supply of drinking water. In this way, especially large-scale material damage was caused to the state in the amount of **8,832,002,937 manats**.

The military-political leadership of the Republic of Armenia, including its armed forces and other armed formations, as well as their direct material, technical and personnel support, centralized management, oral and written assignments, instructions and directives, and strict control over members of a criminal organization operating illegally in the territory of the Republic of Azerbaijan in violation of domestic and international law and its structural units, armed with various types of weapons, ammunition, military equipment and other weapons, in accordance with the common criminal purpose and intent, with the support and consent of the Republic of Armenia at the state level for the purpose of implementing a criminal plan, violated international humanitarian law norms and principles, including:

- Article 17 of the **First Geneva Convention of 12 August 1949** on the amelioration of the condition of wounded and sick members of armed forces in the field;
- Article 120 of the **Third Geneva Convention of 12 August 1949** relative to the treatment of prisoners of war;
- Articles 34, 130 and 147 of the **Fourth Geneva Convention of 12 August 1949** relative to the protection of civilian persons in time of war;
- Article 34 of the **First Additional Protocol of 8 June 1977** to the Geneva Conventions of 12 August 1949;
- Rules 96, 113, 115 and 116 of **customary international humanitarian law**;
- the **International Convention for the Protection of All Persons from Enforced Disappearance** of 20 December 2006;
- the **Universal Declaration of Human Rights** of 10 December 1948;
- the **European Convention for the Protection of Human Rights and Fundamental Freedoms** of 4 November 1950;
- Protocol No. 1 to that Convention;
- the **International Covenant on Civil and Political Rights** of 16 December 1966;
- the **Convention against Torture and Other Cruel, Inhuman or Degrading Treatment or Punishment** of 10 December 1984;
- the **Convention for the Protection of Victims of International Armed Conflicts** of 12 August 1949 and the **Additional Protocol I** of 8 June 1977.

- Rules 96, 113, 115 and 116 of Customary International Law, as confirmed by Article 38 of the Statute of the International Court of Justice

These sources confirmed that, each party to a conflict, as soon as circumstances permit and at the latest after the end of active hostilities, must search for persons reported missing by the adverse party and must provide the adverse party with all relevant information concerning the whereabouts of such persons.

This includes information concerning persons held for more than two weeks as a result of combat operations or occupation, persons placed in detention facilities or otherwise deprived of liberty, persons who died during detention or imprisonment, and missing persons, including their surname, name, place and date of birth, citizenship, last known place of residence, special identifying features, father’s name and mother’s maiden name, the date, place and nature of measures taken in relation to the person, the address to which mail should be sent, and information about the person to be notified.

If such persons died during combat operations or occupation, the responsible side must show maximum possible assistance in searching for them and recording information about them; where necessary, such searches and assistance may be carried out on the basis of information and requests relating to missing persons and the dead, either directly or through a Protecting Power, the Central Tracing Agency of the International Committee of the Red Cross, or national Red Cross, Red Crescent or Red Lion and Sun societies.

Contrary to these and other similar international legal norms, in the course of the aggressive war conducted against the Republic of Azerbaijan, during the period from **10 November 1989 to 8 November 2020**, in the Karabakh region and surrounding territories of Azerbaijan:

In 1989, 2 people in Khojaly district,

In 1990, 5 people in Gadabay district, 3 people in Gazakh district, 1 person in Shusha district, 1 person in Shahbuz district of Nakhchivan AR, totaling 10 people,

including 490 men (20 minors), 283 women (18 minors), and 3,207 military personnel (3,206 men and 1 woman), and a total of 3,980 people

They refused to provide any information about the fate and location of them, as well as without handing over their bodies, in order to escape responsibility in accordance with international law in the future, and to lose traces of the crime they committed, they dug large pits in the territories they occupied using machinery in a way that is massive and insulting, religiously and morally unacceptable in neither Armenian nor Azerbaijani society, and piled them up in those pits, covered them with clothes, and then forcibly disappeared without providing any information about their whereabouts and fate. These individuals have been considered missing to this day.

In accordance with the Statement of the President of the Republic of Azerbaijan, the Prime Minister of the Republic of Armenia and the President of the Russian Federation dated November 10, 2020 on the declaration of a complete ceasefire and the cessation of all military operations as a result of the countermeasures taken by the Armed Forces of the Republic of Azerbaijan to prevent the large-scale aggressive attacks that they have been actively launching since September 27, 2020, as well as as a result of the anti-terrorist operations carried out on September 20, 2023, after the liberation of the sovereign territories of the Republic of Azerbaijan, which had been occupied for more than 30 years, and as a result of the relevant measures taken by law enforcement agencies, found the soldiers of the Azerbaijani army and civilians of Azerbaijani origin who are considered missing. During the aggressive war against Azerbaijan in 1987-1994, members of a criminal organization opened fire from automatic weapons, machine guns, grenade launchers and other types of firearms and ammunition, causing numerous bullet and shrapnel wounds and intentionally killing them, and buried them in cemeteries and other graves located in the territory of the Republic of Azerbaijan.

Page 24

In graves where servicemen of the Azerbaijani Army and Azerbaijani civilian residents, currently considered missing, had been buried, the following were identified.

Thus, at the **First Martyrs' Alley** in Baku city, out of **23 unknown martyr graves**, **11** were identified as persons who, according to the judgment, had been intentionally killed by members of the criminal association:

- servicemen of the Ministry of Defence **Mayilov Garabala Aghabala oghlu**, **Javadov Elman Khurshud oghlu**, **Aliagha Imaddin oghlu**, **Yasin Shakir oghlu Abdurrahmanov**, **Shahlar Huseynagha oghlu Aghayev**, and **Ujar Fidai oghlu Zeynalov**, allegedly killed on **19 July 1992** in the territory of Hasanriz / Aterk village of Aghdara district;
- servicemember **Rauf Ismayil oghlu Aliyev**, allegedly killed on **18 August 1992** in the territory of Childiran village of Aghdara district;
- servicemember **Fagan Misir oghlu Yagubov**, allegedly killed on **7 August 1992**;
- servicemember **Ahliman Vahid oghlu Asgarov**, allegedly killed on **29 September 1992**;
- servicemember **Adigozal Amirsultan oghlu Gasimov**, allegedly killed on **15 August 1993** in the territory of Lachin city;
- servicemember **Akbar Bayramali oghlu Sarkhanov**, allegedly killed on **26 September 1992** in the territory of Aghdara district.

The judgment states that the identities of **12 persons** remain unidentified.

In addition, at the **Second Martyrs' Alley** in Baku city, out of **9 unknown martyr graves**, **2** were identified as persons who, according to the judgment, had been intentionally killed by members of the criminal association:

- servicemember **Natig Suleyman oghlu Aliyev**, allegedly killed on **3 January 1994** in the territory of Ashaghi Abdurrahmanli village of Fuzuli district;
- servicemember **Hormat Beytulla oghlu Baratov**, allegedly killed on **18 April 1994** in the territory of Gulluje village of Aghdam district.

The judgment states that the identities of **7 persons** remain unidentified.

In addition, at the **Tartar city cemetery**, out of **26 unknown martyr graves**, **13** were identified as persons who, according to the judgment, had been intentionally killed by members of the criminal association:

- servicemember **Adalat Vilayat oghlu Abbasov**, allegedly killed on **15 November 1992** in the territory of Childiran village of Aghdara district;
- servicemember **Rufat Mammad-Huseyn oghlu Jabbarov**, allegedly killed on **4 October 1992**;
- servicemember **Zakir Nusrat oghlu Isagov**, allegedly killed on **24 September 1992**;
- servicemember **Elman Almaz oghlu Churagov**, allegedly killed on **21 August 1992**;
- servicemember **Sabuhi Yaman oghlu Suleymanov**, allegedly killed on **25 December 1992** in the territory of Gozlu village of Aghdara district;
- servicemen **Jalal Abdulhakim oghlu Rustamov** and **Ragabov Osman Khalifa oghlu**, allegedly killed on **20 September 1992**;
- servicemember **Ismayil Anatoliy oghlu Khalilov**, allegedly killed on **20 November 1992** in the territory of Sirkhavand village of Aghdara district;
- servicemember **Rovshan Majid oghlu Aliyev**, allegedly killed on **9 November 1992** in the territory of Tazakend village of Lachin district;

- servicemember **Niyaz Ilyas oghlu Novruzov**, allegedly killed on **17 November 1992** in the territory of Dovshanli / Vang village of Aghdara district;
- servicemember **Ikhtiyar Huseyn oghlu Akbarov**, allegedly killed on **13 October 1993** in the territory of Heyvali / Drmbon village of Aghdara district;
- servicemember **Zakir Minad oghlu Muradov**, allegedly killed on **9 November 1992** in the territory of Aghdara district;
- servicemember **Namig Balakhan oghlu Jafarov**, allegedly killed on **30 September 1992**.

The judgment states that the identities of **13 persons** remain unidentified.

In addition, at the cemetery called **"Peygambarli"** in **Beylagan district**, out of **23 unknown martyr graves**, **10** were identified as persons who, according to the judgment, had been intentionally killed by members of the criminal association:

- servicemember **Rasul Arif oghlu Aliyev**, allegedly killed on **28 October 1993** in the territory of Kurdmahmudlu village of Fuzuli district;
- servicemember **Siraj Feyruz oghlu Narimanov**, allegedly killed on **11 January 1994** in the territory of Abdurrahmanli village of Fuzuli district;
- servicemen **Ayaz Habibulla oghlu Aghayev**, **Ibad Musazarza oghlu Musayev**, **Siyavush Eldar oghlu Ismayilov**, **Asim Nadir oghlu Safarov**, **Gulali Mahammad oghlu Dadashov**, and **Mushfig Ilyas oghlu Jafarov**, allegedly killed on **26 January 1994** in the territory of Ashaghi Abdurrahmanli village of Fuzuli district;
- servicemember **Habil Oruj oghlu Ismayilov**, allegedly killed on **27 January 1994** around the Shishgaya height in the Khojavand district;
- servicemember **Elshad Shirin oghlu Gayimov**, allegedly killed on **16 February 1994** in the territory of Karimbeyli village of Fuzuli district

Page 25

It was established that, as of the present date, there were **13 persons whose identities had not yet been determined**.

In addition, of the **12 unknown martyr graves** located in the **Sammalli cemetery** of the **Imishli district**, **1** was identified as the servicemember **Valiyaddin Sehrab oghlu Ibrahimov**, who, according to the judgment, was intentionally killed by members of the criminal association on **19 January 1994** in the territory of **Shukurbeyli village** of the **Fuzuli district**. It was further established that **11 persons** remained unidentified as of the present date.

In addition, of the **11 unknown martyr graves** located in the **Bala Bahmanli village cemetery** of the **Fuzuli district**, **5** were identified as persons who, according to the judgment, had been intentionally killed by members of the criminal association:

- servicemember **Abish Asgar oghlu Mammadov**, allegedly killed on **31 August 1993** in the territory of **Balasoltanli village** of the **Gubadli district**;
- civilian **Madat Mehdiqulu oghlu Guliyev**, resident of **Niyazgullar village** of the **Jabrayil district**, allegedly killed on **23 October 1993** in the territory of **Horadiz settlement** of the **Fuzuli district**;

- civilian **Muzayyar Safiyya Mualim gizi Rahimova**, resident of **Garayevkand village** of the **Saatli district**;
- Civillian **Rahimov Musaddin Sadri oglu**, resident of **Garayevkand village** of the **Saatli district**;
- servicemember/police officer **Nazim Shirin oghlu Shirinov**, allegedly killed on **23 October 1993** in the territory of **Shukurbeyli village** of the **Fuzuli district**.

The judgment states that **6 persons** remained unidentified as of the present date.

In addition, in **one unknown martyr grave** located in the territory of **Mahmudlu-2 village** of the **Fuzuli district**, the remains were identified as servicemember **Rasim Safar oghlu Eldarov**, who, according to the judgment, had been intentionally killed by members of the criminal association on **23 August 1993** in the territory of **Kurdmahmudlu village** of the **Fuzuli district**.

In addition, of the **49 unknown martyr graves** located in the **Martyrs' Alley of Ganja city**, **22** were identified as persons who, had been intentionally killed by members of the criminal association:

- servicemember **Hafiz Gadim oghlu Mammadov**, allegedly killed on **3 April 1993** near **Murov Mountain** in the **Kalbajar district**;
- servicemember **Zahid Ziyad oghlu Abbasov**, allegedly killed on **16 April 1993**;
- servicemember **Sabuhi Sabir oghlu Soltanov**, allegedly killed on **22 January 1994**;
- servicemember **Elshan Nazarali oghlu Khasiyev**, allegedly killed on **10 February 1994**;
- servicemen **Elbrus Ishag oghlu Ishagov**, **Jalil Isa oghlu Shakhayev**, **Rahib Aghaseyid oghlu Mirzayev**, and **Siyavush Ali oghlu Mammadov**, allegedly killed on **11 February 1994**;
- servicemember **Elmaddin Shirkhan oghlu Abbasov**, allegedly killed on **12 February 1994**;
- servicemen **Bakhtiyar Alis oghlu Hummatov**, **Ilgar Shaiq oghlu Rahimov**, and **Vurgun Alamat oghlu Seyidov**, allegedly killed on **14 February 1994**;
- servicemen **Aliyar Adalat oghlu Alakbarov** and **Arif Alakbar oghlu Imamaliyev**, allegedly killed on **15 February 1994**;
- servicemember **Fazil oghlu Alakbarov Javid**, allegedly killed on **17 February 1994**;
- servicemen **Firudin Nadir oghlu Hajiyev** and **Shohrat Telman oghlu Nuriyev**, allegedly killed on **14 April 1994**;
- servicemember **Adalat Veysal oghlu Aliyev**, allegedly killed on **27 January 1994** in the territory of **Bozlu village** of the **Kalbajar district**;
- servicemember **Arif Hamdulla oghlu Nazafati**, allegedly killed on **12 February 1994** in the territory of **Gamishli village** of the **Kalbajar district**;
- servicemember **Nuhu Mustafa oghlu Mustafayev**, allegedly killed on **14 February 1994** in the territory of **Takaqaya village** of the **Kalbajar district**;
- servicemember **Rza Gazanfar oghlu Amrullayev**, allegedly killed on **18 February 1994** in the territory of **Toghane village** of the **Kalbajar district**;
- servicemember **Zulfugar Kamil oghlu Abbasov**, allegedly killed on **30 March 1994** in the territory of **Chaparli village** of the **Kalbajar district**.

The judgment states that **27 persons** remained unidentified as of the present date.

In addition, it states that the remains of **27 persons**, currently unidentified, were found across several locations: **1** in the territory of **Aftali village** of the **Aghdam district**; **3** in the **Khindiristan village cemetery** of the **Aghdam district**; **1** in the **Martyrs' Alley of Aghjabadi city**; **6** in the **Martyrs' Alley of Barda city**; **3** in the **Martyrs' Alley of Gazakh city**; **1** in the yard of the secondary school of **Kurdmahmudlu village** of the **Fuzuli district**; **2** in the **Martyrs' Alley of Shirvan city**; **3** in the **Martyrs' Alley of Sumgayit city**; **2** in the **Yaldili village cemetery** of the **Yevlakh district**; **1** in the **Martyrs' Alley of Yevlakh city,**

Page 26

1 in the **Martyrs' Alley of Ismayilli city**, and **3** in the cemetery of **Hasanli village** of the **Tartar district**.

After the liberation from occupation of the sovereign territories of the Republic of Azerbaijan, which had been under occupation for more than **30 years**, measures carried out by law-enforcement bodies and other institutions the remains of at least **128** individuals, whose identities have not been determined to date and who are believed to be servicemen of the Azerbaijani Army and civilians of Azerbaijani origin, have been handed over to the Azerbaijani side by representatives of the Armenian side.

During the aggressive war conducted against Azerbaijan in **1987–1994**, members of the criminal association intentionally killed them with automatic rifles, machine guns, grenade launchers and other firearms and ammunition, causing numerous firearm and shrapnel injuries, and then concealed or otherwise destroyed the bodies.

- **7 bodies** on **12 February 2021** near **Shusha city**;
- **8 bodies** on **20 February 2021**;
- **13 bodies** on **17 February 2021**, discovered in the territory of **Dahraz village**, now **Khanabad village**, of the **Khojaly district**;
- **5 bodies** on **23 May 2021**, discovered in the territory of **Garadaghli village** of the **Khojavand district**;
- **3 bodies** on **10 July 2021**, discovered in the territory of the **Khojavand district**;
- **3 bodies** on **16 August 2021**, discovered in the territory of the **Khojavand district**;
- **5 bodies** on **20 October 2021**, discovered in the territory of **Garadaghli village** of the **Khojavand district**;
- **1 body** on **26 January 2022**, discovered in the territory of **Sirkhavand village** of the **Aghdara district**;
- **5 bodies** on **28 January 2022**;
- **3 bodies** on **25 February 2022**;
- **14 persons** on **28 April 2022**, discovered in the territory of Armenia;
- **7 bodies** on **1 December 2022**, discovered in the territory of **Sirkhavand village** of the **Aghdara district**;
- **3 bodies** discovered in the territory of the **Askeran district**;
- **3 white-coloured body bags** on **30 March 2023**, discovered between the **Khojavand** and **Aghdam** districts;
- **2 bodies**, **1 skeleton**, and **3 polyethylene bags** on **28 September 2023**, discovered in the territory of the **Aghdara** and **Khojavand** districts.

After the liberation of the sovereign territories of the Republic of Azerbaijan which had been under occupation for more than **30 years**, measures were carried out by law-enforcement

bodies, other institutions, and individuals and legal entities performing restoration and construction work. As a result, it was discovered that on **26 January 1992**, with the aim of disarming and neutralizing members of the criminal association from the direction of **Shusha city**, a military operation had been launched. In the territory of **Dashalti village**, members of the criminal association, who had allegedly been lying in ambush, opened fire with automatic rifles, machine guns, grenade launchers and other firearms and ammunition from trenches, individual residential houses and non-residential buildings of unknown model, intentionally killing, hiding their bodies and destroying them in other ways, and forcibly disappearing the military personnel of the military unit "N" of the Ministry of Defense, who were performing their official duties for the restoration of the territorial integrity and public security of the Republic of Azerbaijan.

The named servicemen include:

Maharram Abbas oghlu Abbasov, **Gulverdi Aghahuseyn oghlu Huseynov**, **Adil Kamal oghlu Niftaliyev**, **Nofal Nariman oghlu Gurbanov**, **Araz Baghi oghlu Rustamov**, **Vusif Balasaf oghlu Aghayev**, **Nurali Hajibaba oghlu Abdullayev**, and **Baba Balakishi oghlu Mikayilov**.

The judgment further states that the remains of at least **9 unidentified persons**, and in total **17 persons**, were found in one location in the territory of **Dashalti village** of the **Shusha district**. It describes them as having been placed together and buried in a manner not compliant with religious burial customs.

In another location in the territory of **Dashalti village** of the **Shusha district**, approximately **20 metres** from the first burial site, remains belonging to at least **7 unidentified persons**, and in total **11 persons**, including servicemen **Riad Fikrat oghlu Ahmadov**, **Veysal Gasim oghlu Gasimov**, **Elmar Ingilab oghlu Mammadov**, and **Sabir Islam oghlu Mustafayev**, were discovered on **17 February 2021**.

Page 27

In addition, on **24 July 1993**, in the territory of **Sarijali village** of the **Aghdam district**, members of the criminal association, allegedly lying in ambush, opened fire from unknown models of automatic rifles, machine guns, grenade launchers and other firearms and ammunition, causing multiple firearm and shrapnel injuries, intentionally killing the persons concerned, and then concealed or otherwise destroyed the bodies.

- servicemember **Seyfaddin Eldar oghlu Najafov**, rank-and-file servicemember of military unit No. “N” of the Ministry of Defence;
- civilian resident of **Aghdam city**, **Maharram Ismayil oghlu Azizov**, who had been taken prisoner on **23 July 1993** in the territory of **Aghdam city**;
- servicemember **Hikmat Zili oghlu Aliyev**, rank-and-file servicemember of military unit No. “N” of the Ministry of Defence.

The remains of at least **3 unidentified persons**, and in total **6 persons**, were found on **19 June 2023** in one location in the territory of **Sarijali village** of the **Aghdam district**. It describes those remains as having been placed together and buried in a manner not compliant with religious burial customs.

In addition, on **27 March 1993**, in the territory of **Yenikend village** of the **Kalbajar district**, members of the criminal association, allegedly lying in ambush, opened fire from unknown models of automatic rifles, machine guns, grenade launchers and other firearms and ammunition, causing multiple firearm and shrapnel injuries, intentionally killing the persons concerned, and then concealing or otherwise destroying the bodies.

The named persons are:

Qafar Qambar oghlu Garayev, **Jamal oghlu Museyib**, **Yusif Ismayil oghlu Azizov**, and at least **1 unidentified person**, all residents of **Takhtabashi village** of the **Kalbajar district** and members of that village's self-defence detachment.

The remains of **4 persons** were found in one location in the territory of **Yenikend village** of the **Kalbajar district** on **6 March 2023**, placed together and buried in a manner not compliant with religious burial customs.

In addition, on **26 February 1992**, in the territory of **Khojaly city**, members of the criminal association, allegedly lying in ambush, opened fire from unknown models of automatic rifles, machine guns, grenade launchers and other firearms and ammunition, causing multiple firearm and shrapnel injuries, intentionally killing the following residents of **Khojaly city**:

Basira / Nazli Vali gizi Maharramova,
Akif Seydulla oghlu Mahmudov / Azimov,
Ismayil Bahman oghlu Ismayilov,
Aghali Naib oghlu Aliyev,
Sureyya Behbud gizi Aliyeva,
Tamila Aghamirza gizi Salimova,
Khazar Sayavush oghlu Salimov,
Ali Musul oghlu Javadov,
Shiraslan Mammad oghlu Najafov,
Vagif Jamil oghlu Maharramov,
and at least **8 unidentified persons**.

The remains of **18 persons** were found on **21 February 2024** in one location in the territory of **Khojaly city**, placed together and buried in a manner not compliant with religious burial customs.

In addition, during the aggressive war conducted against Azerbaijan in **1987–1994**, members of the criminal association intentionally killed and concealed or otherwise destroyed the bodies of at least **2 unidentified persons**. Their remains were found on **28 March 2024** in one location in the **Gala Darasi** neighbourhood of **Khojaly city**, placed together and buried in a manner not compliant with religious burial customs.

During the aggressive war conducted against Azerbaijan in **1987–1994**, members of the criminal association intentionally killed and concealed or otherwise destroyed the bodies of additional at least **10 unidentified persons**, whose remains were found on **24 April 2024** in one location in the territory of **Malibeyli village** of the **Khojaly district**. It describes them as having been placed together and buried in a manner not compliant with religious burial customs.

In addition, during the aggressive war conducted against Azerbaijan in **1987–1994**, members of the criminal association intentionally killed at least **5 unidentified persons**, concealed or otherwise destroyed their bodies, and that their remains were found on **2 December 2023** in one location inside the **Chol Gala Mosque** in the territory of **Shusha city**, placed together and buried in a manner not compliant with religious burial customs.

In addition, in **April 1993**, in the territory of **Chirag village** of the **Kalbajar district**, members of the criminal association, allegedly lying in ambush, opened fire from unknown models of automatic rifles and other firearms at **Eyvaz Yusif oghlu Mustafayev**, a resident of **Istisu settlement** of the **Kalbajar district**, and took him prisoner.

He was released from captivity in **August 1993**, and that the body of his spouse, **Sanam Hasan gizi Isayeva**, a resident of **Istisu settlement** of the **Kalbajar district**, who had allegedly been intentionally killed after receiving a firearm injury to the chest in the same location, was found on **1 August 2022** in the territory of **Chirag village** of the same district, in a place called **"Tovla Darasi"**, under a vehicle chassis.

In addition, during large-scale construction and restoration works carried out in the territories liberated from occupation, from **6 January 2021** to the present date, in the territories of **Aghdam**, **Shusha**, **Goygol**, **Tartar**, **Fuzuli**, **Khojavand** and **Zangilan** districts, a total of at least **127 persons** and body remains were discovered.

It is likely that these as belonging to servicemen of the Azerbaijani Army who had fallen into captivity and civilians who had been taken hostage, whose identities had not yet been established as of the present date, and whom members of the criminal association allegedly intentionally killed during the aggressive war conducted against Azerbaijan in **1987–1994**, then concealed or otherwise destroyed their bodies.

After the liberation from occupation of the sovereign territories of the Republic of Azerbaijan which had been under occupation for more than **30 years**, measures carried out by law-enforcement bodies, other institutions, and individuals and legal entities conducting restoration and construction work revealed further remains. The following persons, who had been taken prisoner in the territory of the **Fuzuli district**, were intentionally killed by members of the criminal association using **7.62 mm calibre firearms** and other means:

- servicemember **Shamsaddin Avaz oghlu Allahverdiyev**, taken prisoner on **23 July 1993** in the territory of **Juvarli village** of the **Fuzuli district**;
- servicemember **Jahid Shafa oghlu Nagiyev**, taken prisoner on **5 August 1993** near **Murquzlu mountain** in the **Fuzuli district**;
- sergeant **Vugar Telman oghlu Hasanov**, taken prisoner on **6 August 1993** near the **Uchtapa height** in the **Fuzuli district**;
- servicemember **Ali Heydar oghlu Huseynov**, taken prisoner in the territory of **Govshadli village** of the **Fuzuli district**;
- junior lieutenant **Vugar Habil oghlu Asadov**, taken prisoner on **31 August 1993** in the territory of **Kurdmahmudlu village** of the **Fuzuli district**;
- and at least **3 unidentified persons**.

In total, the remains of **8 persons** were found in one location in the territory of **Edilli village** of the **Khojavand district**, approximately **50 metres north of the last house of the village**, on **23–26 February** and **15–21 September 2022**. It describes them as having been placed together and buried in a manner not compliant with religious burial customs.

In addition, on **31 August 1993**, in the territory of **Kurdmahmudlu village** of the **Fuzuli district**, the following servicemembers who had been taken prisoner were intentionally killed by members of the criminal association using **5.45 mm calibre firearms** and other means:

Abulfat Sabir oghlu Atamoghlanov,
servicemember **Asad Mammad oghlu Mammadov**,
servicemember **Seyfulla Veytulla oghlu Tahirov**,
servicemember **Tahsin Fikran oghlu Hajiyev**,
servicemember **Ahmad Tahir oghlu Babashov**

Page 29

civilian **Jahangir Mami oghlu Khalafov**, resident of **Dordchinar village** of the **Fuzuli district**. He was taken hostage on **3 September 1993**, subjected to physical abuse and other ill-treatment, and intentionally killed;

civilian **Jumshud Mehrali oghlu Ibishov**, resident of **Horadiz village** of the **Fuzuli district**;

and at least **8 persons** whose identities have not yet been established, making a total of **15 persons**.

Their remains were discovered on **22–28 September** and **26–27 October 2022** in another location in the territory of **Edilli village** of the **Khojavand district**, approximately **20 metres** from the first burial site.

In addition, the civilian **Novruz Mahmud oghlu Guliyev**, resident of **Chimen village** of the **Fuzuli district**, was taken hostage on **14 April 1992** in the territory of that village; and that civilian **Anvar Jumshud oghlu Taghiyev**, resident of **Dadali village** of the **Fuzuli district**, was taken hostage on **16 August 1993** and, subjected to physical abuse and other ill-treatment by members of the criminal association.

The remains of these two named persons and at least **2 unidentified persons**, a total of **4 persons**, were discovered on **26–27 October 2022** in another location in the territory of **Edilli village** of the **Khojavand district**, approximately **300 metres north** of the first burial site, on the right side of the road leading from the last house of the village toward the grape fields.

After the liberation from occupation of the sovereign territories of the Republic of Azerbaijan, which had been held under occupation for more than **30 years**, measures carried out in those territories by Azerbaijani law-enforcement bodies, other institutions, and individuals and legal entities conducting reconstruction and restoration works revealed further remains.

During the aggressive war conducted against Azerbaijan in **1987–1994**, members of the criminal association intentionally killed persons, concealed their bodies or otherwise disposed

of them. The remains of at least **12 persons**, whose identities have not yet been established — including **5 men**, **5 women**, and **2 children** — were found on **31 March 2022** in one location in the territory of **Farrukh village** of the **Khojaly district**, buried in a manner described by the judgment as not corresponding to religious burial customs.

After liberation from occupation, Azerbaijani law-enforcement bodies and other institutions, as well as individuals and legal entities conducting reconstruction and restoration works, found remains belonging to at least **11 persons** in the territory of **Yukhari Seyidahmadli village** of the **Fuzuli district**, on two areas located on the right and left sides of the asphalt road leading to **Ashaghi Seyidahmadli village**, on **22–25 November 2022** and **5–8 May 2023**. The identities of these persons had not been established. These persons were victims of the aggressive war conducted against Azerbaijan in **1987–1994**, alleging that members of the criminal association intentionally killed them using firearms and ammunition, concealed their bodies or otherwise disposed of them.

Page 30

After the liberation of the sovereign territories of the Republic of Azerbaijan, which they had occupied for more than 30 years, as a result of the relevant measures taken in those territories by the law enforcement bodies, other institutions, individuals and legal entities of the Republic of Azerbaijan carrying out development and construction works, the remains belonging to at least **31 persons** were discovered in the territory of the **old prison** in **Shusha city** on **31 May**, **3 June**, **22–23 June**, and in **August 2023**. The remains were found in two locations: **14 persons** in one place and **17 persons** in another place, approximately **10 metres** away.

Thus, at least **602 persons' remains** have been discovered to date, including:

- remains of **181 persons** in **20 cemeteries** located in **14 cities and districts** of the Republic of Azerbaijan;
- remains of at least **166 persons** in mass burial sites in territories liberated from occupation;
- remains of at least **127 persons** during large-scale construction and reconstruction works in liberated territories;
- remains of at least **128 persons** in body transfers handed over by representatives of Armenia in **Shusha** and **Khankendi** cities.

The identities of **120 persons** from these remains have been established.

The military-political leadership of the Republic of Armenia, including its armed forces and other armed formations, as well as their direct material, technical and personnel support, centralized management, oral and written assignments, instructions and directives, and strict control over members of a criminal organization operating illegally in the territory of the Republic of Azerbaijan in violation of domestic and international law and its structural units, armed with various types of weapons, ammunition, military equipment and other weapons, included persons who allegedly directly led the aggressive war against the Republic of Azerbaijan during **1987–1994**.

Robert Sedraki Kocharyan as one of the principal leaders of the criminal organization. Xe served as "prime minister" of the so-called entity called the **"Nagorno-Karabakh Republic"**

or **“Artsakh”**, created on **10 December 1991**, from **August 1992 to 29 December 1994**, and as "president" of that so-called institution, which has not been recognized by any state in the world, including the Republic of Armenia, or international organizations, since December 9, 1994 (and on November 24, 1996, they created the appearance of being elected by holding a vote).

Serzh Azati Sarkisyan is one of the leaders of the **“Karabakh movement”**, which promoted and created ideas of national-ethnic hatred and hostility against Azerbaijanis in Armenian society, and ideas for preparing and planning aggressive war against Azerbaijan. During **1987–1994** he directly led the aggressive war against Azerbaijan; served from **January 1992 to August 1992** as commander of the unlawful armed formation called the **“self-defence committee”** of the so-called entity; from **August 1992 to 20 August 1993** as “minister of defence” of the so-called entity; from **21 August 1993 to 17 May 1995** as Minister of Defence of the Republic of Armenia; from **4 November 1996 to 11 June 1999** as Minister of National Security and Internal Affairs of Armenia; from **11 June 1999 to 20 May 2000** as head of the Presidential Administration; from **20 May 2000 to 26 March 2007** again as Minister of Defence; from **4 April 2007 to 9 April 2008** as Prime Minister; and from **9 April 2008 to 9 April 2018** as President.

Manvel Sedrakovich Grigoryan, from **1989 to 1991** he fought in the armed detachment called **“Ejmiadzin”**, allegedly created for the purpose of attacking villages inhabited by Azerbaijanis; from **1993 to 1996** he commanded the 83rd Brigade of the Armed Forces of Armenia; from **1996 to 2000** he commanded the First Corps of the Ministry of Defence of Armenia; and from **2000 to 2008** served as Deputy Minister of Defence of Armenia. He played an important role in the creation, armament, military-diplomatic activity and preparation of military personnel of the armed forces in the regions of Armenia bordering Azerbaijan.

Page 31

Levon Vladimirovich Stepanyan, who from **1991 to 1993** served as military commissar of Armenia, First Deputy Chief of the General Staff of the Ministry of Defence of Armenia; head of the Main Organizational and Mobilization Directorate of the Ministry of Defence of Armenia; and from **1993 to 2003**, head of the Main Directorate for Protection of the State Border of Armenia — commander of the Border Troops of the National Security Service of the Republic of Armenia.

Arshavir Surenovich Gharamyan, in **1990**, for the purpose of attacking villages inhabited by Azerbaijanis, he created the unlawful armed formation called the **“Arsho”** battalion in **Garabulag village** of the **Khojaly district**. It further states that from **1991 to 1994** he took part in fighting for the occupation of **Khojavand**, **Shusha**, **Lachin**, **Khojaly** — formerly Askeran — **Aghdara**, **Aghdam**, **Kalbajar** and **Fuzuli** districts; and from **1992 to 1996** served as commander of the 35th motor-rifle battalion of the so-called entity’s **“Defence Army”**.

Albert Zavenovich Voskanyan, who from **June 1993 to July 1997** served as deputy chairman of the state commission of Armenia dealing with prisoners, missing persons and captured citizens.

Karo Vanoyevich Petrosyan, who from **1991 to 1992** served as head of the fire-protection division of the Internal Affairs Department of the **Khojaly**, formerly **Askeran**, district.

Samvel Andranikovich Babayan, stating that from **1989 to 1991** he led the unlawful armed formation called the Khankendi **"2nd self-defence battalion"**, allegedly created for the purpose of attacking villages inhabited by Azerbaijanis; from **August 1992 to April 1993**, served as first deputy chairman of the unlawful armed formation called the **"self-defence committee"** of the so-called entity; from **November 1993 to December 1999**, commander of the unlawful armed formation called the so-called entity's **"Defence Army"**; from **1995 to 1999**, as "minister of defence" of the so-called entity; as member of the "presidential government" and of the "security council"; and in **May–November 2020**, as secretary of the so-called entity's **"security council"**.

Lyova Henrikovich Mnatsakanyan, from **September 1992 to 1994**, he served in the so-called entity's **"Defence Army"** as deputy battalion commander, division commander, and chief of artillery; from **1994 to 1998**, as commander of artillery military unit No. **39138**; from **1998 to 1999**, as commander of the 10th mountain division located in the **Aghdara district**; from **2001 to 2004**, as commander of the 18th rifle division located in the **Hadrut settlement** of the **Khojavand district**; from **2005 to 2007**, as deputy commander of the so-called entity's **"Defence Army"** — deputy to **Seyran Ohanyan**; from **2007 to 2012**, as Chief of Staff of the so-called entity's **"Defence Army"**; from **2012 to 2015**, as Deputy Chief of the General Staff of the Armed Forces of the Republic of Armenia; from **15 June 2015 to 14 December 2018**, as "minister of defence" of the so-called entity; from **2018 to 2019**, as head of the "emergency situations service"; and from **June 2019**, as "chief of police

Arkadi Arshaviri / Arshavirovich, from **1980 to 1992**, he was deputy editor-in-chief of the newspaper **"Soviet Karabakh"**, which the was promoting national hatred and discrimination against Azerbaijanis; from **1992 to 1993**, as "deputy of parliament" of the so-called regime; from **September 1992 to 23 July 1993**, as political adviser to the chairman of the "State Defence Committee"; from **23 July 1993 to 8 September 1997**, as "minister of foreign affairs" of the so-called entity; from **8 September 1997 to 7 September 2007**, as "president"; and from **2008 to 2018**, as ambassador-at-large at the Ministry of Foreign Affairs of the Republic of Armenia.

Bako Sahaki Sahakyan, from **1990 to June 1992**, he served as a supplier in the material-technical support division of the unlawful armed organized detachment called the **"self-defence forces"** of the so-called entity; from **June 1992 to early 1993**, as deputy head of that division for material-technical support; from early 1993 to the second half of that year, as chief of staff for material-technical support of the so-called entity's **"Defence Army"**; from the second half of 1993 until 1995, as head of material-technical support of the so-called entity's **"Defence Army"**; from **1999 to 2001**, as "minister of internal affairs" of the so-called entity; from **2001 to 2007**, as head of the "security service"; from **7 September 2007 to 19 May 2020**, as "president."

Davit Rubeni Ishkhanyan, from **1989**, he was one of the active members of the **Dashnaktsutyun** party among persons of Armenian nationality, allegedly instilling national hostility against Azerbaijanis; and that from **1990 to 1992**, he was an armed member of the unlawful armed organized detachment called the **"self-defence forces"** of the so-called entity named **"Artsakh"** from **10 September 1992 to February 1994**,

commander of the 28th **"Martuni"** battalion of the unlawful armed formations of the so-called entity; from **February 1994 to March 1995**, deputy chief of staff and chief of staff of the 27th **"Martuni"** battalion; from **1995 to 2000**, director of the secondary school in **Heshan village** of the **Khojavand district**, allegedly for the purpose of instilling national hostility against Azerbaijanis among students of Armenian nationality; from **2000 to 2005**, head of the **Heshan** village community; from **2007**, representative of the **Artsakh Central Committee** of the Armenian Revolutionary Federation; from **2022**, chairman of the bureau of the supreme body of that organization worldwide; from **3 May 2015**, "deputy" of the 8th electoral district of the sixth convocation "parliament" of the so-called entity and member of the standing commission on "financial-budgetary and economic management of parliament"; from **May 2015 to March 2017**, head of the **Dashnaktsutyun** faction in the so-called entity's "National Assembly"; from **March 2020**, again "deputy" of the so-called entity's "parliament"; from **7 August 2023 to 1 September 2023**, "president of the National Assembly" of the so-called entity; and from **1 to 9 September 2023**, temporarily performed the duties of "president" of the so-called entity.

Arayik Vladimiri / Vladimirovich Harutyunyan, borned on **27 December 1968**. From **December 1991 to 1 September 1992**, he served as a soldier in the so-called regime's **"Defence Army"**; from **10 October 1992 to 1995**, as an officer in the armed organized detachment called the **3rd battalion** of the so-called entity's **"Defence Army"**, located in **Khankendi city**; as deputy head and head of the rocket-artillery weapons service; from **1995 to 1997**, as adviser to the so-called regime's "minister of economy and finance"; from **1997 to 2003**, as head of **ARM Agri Bank** located in Khankendi city; from **2003 to 2005**, as director of the **cognac factory** located in Khankendi city; from **2005 to 2007**, as "deputy" of the so-called entity's "parliament"; from **14 September 2007 to 25 September 2017**, as "prime minister"; from **25 September 2017 to 6 June 2018**, as "state minister"; and from **21 May 2020 to 1 September 2023**, as "president."

Davit Azati Manukyan, from **January 1993 to May 1994**, he served as a soldier in the battalion called the **"Shusha Special-Purpose Battalion"** of the so-called entity's **"Defence Army";** from that date until **September 2001**, in that same battalion — later military unit No. **37043** — as deputy company commander, company commander and chief of staff; from **September 2001 to 2005**, as chief of staff of the 5th defensive line of the so-called entity's **"Defence Army"**, namely military unit No. **49971**; from **2005 to 2010**, as commander of the 7th defensive line of the so-called entity's **"Defence Army"**, namely military unit No. **38862**; from **2010 to 2015**, as chief of staff of the 10th Aghdara division of the so-called entity's **"Defence Army"**, namely military unit No. **32964**; from **March 2015 to July 2016**, as head of the Personnel Department of the General Staff of the Ministry of Defence of Armenia; from **July 2016 to 26 December 2019**, as commander of the 2nd Army Corps of the Ministry of Defence of Armenia, military unit No. **282233**; from **26 December 2019 to January 2022**, as first deputy commander of the so-called entity's **"Defence Army"**, deputy commander for combat readiness; and from that date until **20 September 2023**, on the invitation of the leading officials of the so-called entity, directly participated in sessions of the so-called **"Security Council"** and in the adoption of other important decisions. Although he did not formally hold office, he in fact had decision-making authority and leadership functions within the criminal association.

Davit Klimi / Klimovich Babayan, from **1998 to 1999**, he served as second secretary in the so-called regime's "Ministry of Foreign Affairs"; from **1999 to 2001**, as head of the "political planning division" of the so-called "Ministry"; from **May 2001 to December of that year**, as head of the "political administration division" of the so-called "Ministry"; from **December 2001 to 2005**, as employee of the so-called regime's "president's political planning group"; from **2005 to 2007**, as "assistant to the president on political affairs"; and from **2007 to 2013**

in the so-called regime, as **Head of the Main Information Department of the President's Office**; from **2013 to 2020**, while continuing to perform that last position, as **Deputy Head of the Office**; from **May 2020 to 4 January 2021**, as **assistant to the "president" on foreign-policy issues**; from **4 January 2021 to 15 January 2023**, as **"Minister of Foreign Affairs"**; and from **17 January 2023 to 19 September 2023**, as **assistant to the "president" for special assignments**.

Vitali Mikaeli Balasanyan, from **1988 to 1990** he was head of the unlawful armed organized detachment called the **"self-defence association"** of the **Askeran district**; from **1990 to 1996**, commander of the unlawful armed organized detachment called the **"self-defence association"** of the Askeran district; simultaneously, from **1991**, elected "deputy" of the so-called **"Artsakh National Council"**; from **1996 to 1998**, commander of the division; from **1998 to 1999**, deputy commander of the so-called entity's **"Defence Army"**; from **September 1999 to 2005**, commander of an unlawful armed formation; from **2010**, as a professional political figure of the **Armenian Revolutionary Federation / Dashnaktsutyun**, elected "deputy" of the so-called **"Artsakh National Council"**; from **2007 to 2010**, "adviser to the president" of the so-called regime; and from **2 December 2020 to 29 May 2020** , secretary of the so-called entity's **"Security Council."**

Seyran Musheghi Ohanyan, from **1989 to March 1992**, he served as battalion commander in the **366th Motor Rifle Regiment** of the former USSR, and later of the Russian Federation, located in **Khankendi city**; from **March 1992 to March 1993**, as commander of the unlawful armed organized group called the **"self-defence associations"** of the **Askeran** and **Aghdara** districts of the so-called entity named **"Artsakh"**; from **March 1993 to February 1994**, as Chief of Staff of the so-called entity's **"Defence Army"**; from **1994 to 1997**, as first deputy commander of the unlawful armed organized detachment called the **"Defence Army"**; from **1997 to 1999**, as commander of the Fifth Corps of the Armed Forces of the Republic of Armenia; from **1999 to 2007**, as commander of the unlawful armed organized detachment called the **"Defence Army"**; from **2007 to 2008**, as Chief of the General Staff of the Ministry of Defence of the Republic of Armenia and First Deputy Minister of Defence; from **2008 to 2016**, as Minister of Defence of the Republic of Armenia with the high military rank of colonel general; from **27 September 2020**, during the more active phase of the aggressive war launched by them, as an active participant in the criminal association managed from the centre; and later as adviser to the president of the so-called entity.

Monte Charles Melkonian, until **October 1992** he was commander of the unlawful armed organized detachment called the **"self-defence detachments"** of the **Khojavand district**; from **10 October 1992 to 12 June 1993**, commander of the second region of the so-called entity's **"Defence Army."** He was a Lebanese-born founder and leader of the **ASALA-RM** wing of the ASALA terrorist organization, and after his death he was awarded for allegedly active participation in the aggressive war and hostilities against Azerbaijan as part of the

Armenian Republic's apparatus, including being named **"National Hero"** of Armenia and **"Hero of Artsakh"** by the so-called entity, under the nickname **"Avo."**

The judgment further states that various persons served in different positions within the criminal organization, mainly in its rear-support sphere, including:

Viktor Mikhaylovich Kocharyan, **Hovhannes Simonovich Mkrtchyan**, **Artur Aleksandrovich Aghabekyan**, **Maksim Amirovich Ambartsumyan**, **Karen Andranikovich Babayan**, **Elmira Aleksandrovna Aghayan**, **Hamlet Aleksandrovich Tangamyan**, **Khachik Serzhikovich Manasyan**, **Basesi Baghdasarovich Azoyan**, **Henrik Grigoryevich Movsesyan**, **Kamo Vladimirovich Abramyan**, **Samvel Robertovich Petrosyan**, **Robert Sergeyevich Tumanyants**, **Yuri Shagenovich Gasparyan**, **Karen Grigoryevich Aghamalyan**, **Aleksandr Arutyunovich Sarumyan**, **Ovik Basesi Azoyan**, **Sergey Gavrushovich Arutyunyan**, **Ashot Vachaganovich Khachatryan**, **Razmikovich Melkonyan**, **Melikset Abramovich Poghosyan**, **Poghos Qarunshevich Abrahamyan**, **Martin Nazarovich Karapetyan**, **Arzuman Aramaisovich Amiryan**, **Levon Grishovich Sarkisyan**, **Ashot Grishovich Sarkisyan**, **Bella Setrakovna Grigoryan**, **Karen Gervondovich Grigoryan**, and **Hamlet Aleksandrovich Tangamyan**.

Page 34

From the end of **1992** until **31 December 1995**, the above-mentioned persons served as soldiers in the unlawful armed organized detachment called the **"Askeran self-defence forces"** of the so-called regime named **"Artsakh."**

Melikset Vladimiri Pasayan, born on **28 January 1971**, stating that from **27 September 2020 to 10 November 2020**, and again from **January 2023 to 20 September 2023**, he served as a soldier in the **"self-defence forces"** created by them in **Ashaghi Yemishjan village** of the **Khojaly district**.

Garik Grigori Martirosyan, born on **27 March 1972**, stating that from **January 1990 until the end of 1994**, he served as a soldier in the unlawful armed organized detachment called the **Aghdara "self-defence forces"**; and from **18 September 2023 to 20 September 2023**, as a soldier in the **"self-defence forces"** created by them in **Gozlu Korpu village** of the **Aghdara district**.

Madat Arakeli Babayan, born on **15 September 1952**, and others, alleging that every member of the criminal organization acted in accordance with the common criminal purpose and intent of the ideology of **"Greater Armenia."**

These persons allegedly further strengthened already-formed ideas of national-ethnic hostility against Azerbaijanis in Armenian society, promoted discrimination against Azerbaijanis, created confrontations, and sought to force Azerbaijanis and persons of other nationalities out of the Karabakh region of Azerbaijan, surrounding territories, and other places.

During the aggressive war begun against Azerbaijan, they sought to maintain the sovereign territories of the Republic of Azerbaijan under occupation; for this purpose, they instilled national-ethnic hatred and hostility against Azerbaijanis and subjected those Azerbaijanis to captivity, hostage-taking, and other criminal acts, including unlawful deprivation of liberty.

These actions were allegedly committed in gross violation of the following instruments:

- the **Regulations concerning the Laws and Customs of War on Land**, annexed to the **Fourth Hague Convention of 18 October 1907**;
- the **First Geneva Convention of 12 August 1949** on the amelioration of the condition of wounded and sick members of armed forces in the field;
- the **Third Geneva Convention of 12 August 1949** relative to the treatment of prisoners of war;
- the **Fourth Geneva Convention of 12 August 1949** relative to the protection of civilian persons in time of war;
- **Additional Protocols I and II of 8 June 1977** to the Geneva Conventions, concerning the protection of victims of international and non-international armed conflicts;
- the **International Convention against the Taking of Hostages**, adopted in New York on **17 December 1979**;
- the **Charter of the United Nations**;
- the **Universal Declaration of Human Rights** of **10 December 1948**;
- the **European Convention for the Protection of Human Rights and Fundamental Freedoms** of **4 November 1950**;
- the **Convention against Torture and Other Cruel, Inhuman or Degrading Treatment or Punishment** of **10 December 1984**;
- the **International Covenant on Civil and Political Rights** of **16 December 1966**;
- and other norms of international law.

From **1 January 1988** until **3 October 2023**, during the period when the persons concerned were being held by Azerbaijani law-enforcement bodies, a total of **1,698 persons** were taken prisoner or hostage in the **Karabakh region of Azerbaijan and surrounding territories** between **1992 and 3 October 2023**.

- in **1992**: **647 hostages** and **72 prisoners of war**;
- in **1993**: **325 hostages** and **134 prisoners of war**;
- in **1994**: **15 hostages** and **83 prisoners of war**;
- in **1995**: **9 hostages** and **15 prisoners of war**;
- in **1996**: **5 hostages** and **11 prisoners of war**;
- in **1997**: **1 hostage** and **8 prisoners of war**;
- in **1998**: **7 hostages** and **9 prisoners of war**;
- in **1999**: **1 hostage** and **3 prisoners of war**;
- in **2000**: **3 hostages** and **5 prisoners of war**.

- in **2001**: **3 hostages** and **2 prisoners of war**;
- in **2002**: **1 hostage** and **2 prisoners of war**;
- in **2003**: **3 hostages** and **3 prisoners of war**;
- in **2004**: **4 prisoners of war**;
- in **2005**: **1 prisoner of war**;
- in **2006**: **1 prisoner of war**;
- in **2007**: **3 hostages**;
- in **2008**: **1 hostage** and **2 prisoners of war**;
- in **2009**: **1 hostage** and **2 prisoners of war**;

- in **2012**: **1 hostage**;
- in **2014**: **4 hostages**;
- in **2016**: **1 hostage** and **1 prisoner of war**;
- in **2019**: **1 prisoner of war**;
- in **2020**: **3 hostages** and **23 prisoners of war**;
- in **2021**: **1 hostage** and **5 prisoners of war**;
- in **2022**: **2 prisoners of war**.

In total, **1,036 persons** were taken hostage, including **660 men** — of whom **101** were minors and **120** were elderly — and **376 women** — of whom **68** were minor girls and **82** were elderly women.

389 persons were prisoners of war, and that **1,425 persons** in total were subjected to torture or ill-treatment. According to this:

- **729 hostages** were subjected to physical suffering and psychological torment;
- **307 hostages** were subjected to psychological torment;
- **356 prisoners of war** were subjected to physical suffering and psychological torment;
- **33 prisoners of war** were subjected to psychological torment;
- in total, **1,085 persons** were subjected to physical suffering and psychological torment;
- **341 persons** were subjected to psychological torment.

During the aggressive war launched against Azerbaijan, these persons were unlawfully taken as prisoners of war or hostages from **Khankendi**, **Khojaly**, **Shusha**, **Lachin**, **Khojavand**, **Kalbajar**, **Aghdam**, **Aghdara**, **Jabrayil**, **Gubadli**, **Fuzuli**, **Zangilan**, as well as from areas of **Gazakh**, **Tovuz**, **Gadabay**, **Goygol**, and border areas between the Republic of Armenia and the **Nakhchivan Autonomous Republic**.

Those prisoners of war and hostages were transferred, on the instructions and orders of the Armenian military-political leadership, from the occupied Azerbaijani cities and districts to different parts of Armenia, including **Yerevan**, **Goris**, **Masis / Zangibasar**, **Meghri**, **Sisian / Garakilsa**, **Vardenis / Basarkechar**, **Noyemberyan / Barana**, **Berd / Tovuzqala**, **Vayk / Azizbayov**, **Leninakan / Gyumri**, **Ijevan / Karvansara**, **Krasnoselsk / Chambarak**, **Artashat / Gamarli**, **Echmiadzin / Uchkilsa**, and other districts and cities.

They were held in special-regime detention facilities, militarized camps, basements of police departments, military units, hospitals, children's institutions, farms, sites used for the commission of serious crimes, and other enclosed or isolated places.

These persons were kept in degrading and inhuman conditions, subjected to severe physical and psychological pressure, humiliation, threats, and coercive treatment, including violence against detainees in front of relatives and other forms of cruel, degrading, and traumatic treatment.

They subjected their children to various tortures with particular cruelty, regardless of their age, gender, illness, or injury, and in front of their parents, and in front of their children, to their parents.

In particular, in the places where they were kept, they were regularly beaten with automatic rifle butts, rubber and iron batons, pieces of metal and wood, as well as various hard, blunt objects, until they became weak, they were tortured by applying electric current to their bodies, by holding their hands and breaking their resistance, by forcing them to sit on a glass bottle (a narrow-necked bottle for pouring liquid into) and inserting the bottle into their backside, by forcibly removing their healthy teeth and gold prostheses, toenails and fingernails from their mouths with nail pliers, by squeezing and breaking their fingers between doors, by inflicting injuries on their body parts with piercing and cutting instruments and pouring sulfuric acid, salt, and melted wax on those wounds, by extinguishing burning cigarettes on various parts of their bodies, by applying cross-shaped marks on their bodies with heated knives, which meant both torture and humiliation, by forcing them to swallow broken glass, and by tearing off the scabs from their wounds, and by beating them on their heads. They caused mental illnesses as a result of the injuries they inflicted by hitting children with nails, pressing heated objects on their bodies, and throwing young children headfirst onto concrete floors from heights.

Page 36

In addition, by using physical force and threatening to use physical force, as well as taking advantage of their helpless situation, they had sexual intercourse with minors, underage girls and women in a natural and unnatural way, raped them and forced them to perform sexual acts, had forced sexual intercourse with men in an unnatural way, at the same time, by applying force to both women and men, they applied sexual acts of violence by satisfying their sexual desires in a perverted way, forced men to have sexual intercourse with each other in an unnatural way, raped and forcibly impregnated women, removed their organs (including the humerus with the muscle layer) for transplantation purposes, consciously and purposefully conducted illegal medical and other experiments on them to make them disabled in the future, forcibly tested various medicines on their bodies, injected substances of unknown composition, including diesel fuel and gasoline into their veins by injection, and conducted medical and biological research by exposing them to various radiations, and They subjected them to psychological violence and extremely degraded their personalities and dignity by leaving them among dogs, causing them to be bitten and gnawed on various parts of their bodies, spitting on their faces, continuously insulting them, threatening to kill them, forcing them to imitate the sounds and movements of different animals, eating from the same bowl as animals, and forcing them to commit physical, immoral, humiliating and insulting acts against each other.

They were kept without food or water for a long time under severe torture, given a piece of stale bread and a very small amount of water in unwashed iron containers for months to prevent them from dying, demanded that they eat within a minute by looking at the clock, and took away those who did not deliver their food on time and used physical force in return, and were forced to work in unsanitary conditions and in jobs requiring heavy physical labor, especially in production areas harmful to human life and health, namely in the copper-gold mines of Vejnali in the Zangilan region, Soyudlu-Zod in the Kalbajar region, Qizilbulag in the Aghdara region and other deposits, in the stone quarries of Fuzuli and Khojavend regions, in the lime wells of the Aghdam region, in the demolition of houses, buildings, structures and facilities they looted in settlements located in the occupied regions, in the acts of vandalism they committed against historical and cultural monuments, in the construction and repair of military units, farms, residential and non-residential buildings, in private residential houses and farms as house servants. They used them as slaves in different fields, cruelly exploited

them, forced them to work and deliberately created conditions for them to become infected with infections. In order to turn them into a tool of anti-Azerbaijani ideological propaganda, that is, national hostility, they presented the captured military personnel in a humiliated and insulted appearance and presented them in Armenian settlements, especially in secondary schools, with the phrases "Look, this is a Turk, is he your enemy?". They also demonstratively beat prisoners of war and hostages in the squares by individual representatives of the civilian population in order to increase hatred against the Azerbaijani nation, thereby extremely promoting hatred and hostility against the Azerbaijani nation in Armenian society, and subjected them to illegal interrogations accompanied by torture in order to obtain information on the defense, security, economic, political and other fields of the state.

On the graves of the members of the illegal criminal organization of Armenian nationality and Armenian soldiers who died in the battles and on the days of commemoration of the "Armenian genocide", the citizens of the Republic of Azerbaijan who were taken captive and hostage were beheaded as victims with cutting and piercing tools, as well as cutting off various organs of their bodies, especially the mammary glands of women, the genitals of men, the earlobes, the noses, by injuring the chest areas in the shape of a cross, by laying their eyes and internal organs (heart, liver, spleen, etc.) face up on the snow and pouring cold water on them, by keeping them in running rivers, as well as in water containers with corrosive chemicals added and in large refrigerators in frosty weather and low temperatures for a long time, thereby causing frostbite, as well as abrasion of the skin layers, by tying them to the back of a moving car and dragging them on the ground, by deliberately not providing medical assistance and care to the sick and wounded, by deliberately causing tuberculosis, anthrax and various other diseases. They deliberately killed by infecting them with diseases, keeping them in cold and damp places for a long time without food or water, and by bringing them to the point of dystrophy, a disease caused by a disruption in the metabolism of organs and tissues. They regularly beat, tortured, and humiliated them, which led to numerous prisoners of war and hostages committing suicide or reaching the point of suicide.

Page 37

Thus, by applying more than a hundred different torture methods, they deliberately killed 1 out of 34 civilians and 12 out of 65 military personnel they took hostage, a total of 13 prisoners and hostages, by applying torture and inhuman treatment to them in the place of detention, and the remaining 86 people, including 33 hostages and 53 prisoners of war, were released in exchange for financial benefits provided by the Azerbaijani state through measures taken through international organizations, as well as through personal initiatives and connections of close relatives of prisoners of war and hostages.

The military-political leadership of the Republic of Armenia, including its armed forces and other armed formations; their direct material, technical and personnel support; centralized management; oral and written assignments, instructions and directives; and strict control, the structural entity of the criminal organization operated unlawfully in the territory of Azerbaijan in violation of domestic and international legal norms, the so-called entity named **“Artsakh”**, armed with firearms, ammunition, military equipment and other weapons, had among its leaders:

- **Arayik Vladimiri / Vladimirovich Harutyunyan**, born on **14 December 1973**, presenting himself as “president” of the so-called entity;

- **Davit Klimi / Klimovich Babayan**, born on **5 April 1973**, presenting himself as "adviser";
- **Davit Rubeni Ishkhanyan**, born on **27 December 1968**, member of the **Dashnaktsutyun** party since 1989, presenting himself as head of the **Dashnaktsutyun faction** in the so-called "Artsakh National Assembly" and as "member of parliament";
- **Davit Azati Manukyan**, born on **15 October 1971**, presenting himself as "deputy commander of the Defence Army for combat readiness";
- **Arkadi Arshaviri / Arshavirovich Gukasyan**, born on **21 June 1957**, presenting himself as the second "president" from **8 September 1997 to 7 September 2007**;
- **Bako Sahaki Sahakyan**, born on **30 August 1960**, presenting himself as the third "president" from **19 July 2007 to 21 May 2020**;
- **Lyova Henrikovich Mnatsakanyan**, born on **14 September 1965**, presenting himself as "minister of defence" from **15 June 2015 to 14 December 2018**;
- and other leaders.

They adopted collective decisions and participated in discussions, including decisions connected with the preparation and continuation of criminal acts. The ceasefire regime agreed by the protocol of **8 May 1994** between the Azerbaijani and Armenian troops on the line of direct contact, and international legal norms, including the convention on combating the recruitment, use, financing and training of mercenaries, were allegedly violated.

Page 38

In gross violation of the **UN Convention on combating the recruitment, use, financing and training of mercenaries**, dated in the text as **4 December 1970**; the **2005 Warsaw Convention on the Prevention of Terrorism**; and the **Additional Protocol to that Convention adopted in 2015**., the members of the criminal organization, including persons who were not Armenian nationals, acted in accordance with the common purpose and intent of every member of the criminal organization and continued the criminal plan. On **27 September 2020**, a new large-scale phase of aggressive war against Azerbaijan began.

The purpose was to continue the forced national hatred and hostility toward Azerbaijanis that had been formed in Armenian society; to continue the aggressive war begun against Azerbaijan; to ensure that the sovereign territories of Azerbaijan remained under occupation; to keep the Azerbaijani population in constant fear and panic; to prevent them from returning to their lawful places of residence by any means; to force Azerbaijan to decide to renounce its sovereign territories in favour of Armenia; and to use fire from weapons of various calibres both along the line of contact and at a sufficient distance from it against Azerbaijani civilians living in Azerbaijani sovereign territory.

That members of the criminal organization caused explosions and fires in populated areas, used methods of warfare capable of causing major destruction, deliberately inflicted widespread, long-term and serious damage to the environment, caused large-scale destruction not arising from military necessity, attacked undefended areas, settlements and demilitarized zones, laid mines and used other explosive devices without military necessity, and deprived the Azerbaijani population of free movement, safe living conditions and other fundamental rights in their homeland.

Azerbaijani civilians were subjected to special cruelty, robbery, terrorist acts, banditry and intentional killing in connection with the performance of official and public duties; that they were persecuted specifically because they were Azerbaijanis, contrary to international legal norms; and that they were taken prisoner or hostage, forcibly expelled, tortured, and used in exchange for material compensation and for other criminal purposes.

In order to prepare for a pre-planned war, Vartanov Vladimir (Vova) Levanovich (Levani), who was the commander of the first intelligence-sabotage detachment of the Republic of Armenia, founded on January 11, 2013, "VoMa" ("Voxj Mnalu Arvest" - the art of survival) and created an illegal armed group of the organization - "insurgent reserve battalion" - which is not provided for in the legislation of the Republic of Azerbaijan, using the Internet resources "www.voma.am" for that group. Through the websites "www.vk.com.voma-official", "www.facebook.com /vomacenter/", "www.voma.center", "www.youtube.com/channel/UCDtZm9GdMGeDt3C5n-1UX.w", "www.instagram.com/voma.center" and other links, the United States of America, the Republic of France, the Kingdom of Sweden, the Kingdom of Belgium, the Kingdom of Spain, the State of Israel, the United Arab Emirates, Lebanon Republic, the Syrian Arab Republic, the Russian Federation, the Republic of Belarus, Georgia, Greece, Canada and other countries of Armenian origin and others, as well as members of various terrorist organizations, in the form of a criminal association to come from the territory of the Republic of Armenia to the occupied city of Khankendi, Kalbajar district and other territories of the Republic of Azerbaijan during the years 2013-2020, and through that organization, which was a branch of the criminal association for many years, conducted illegal military training in the occupied cities of Shusha and Khankendi and the territories of Jabrayil, Fuzuli, Zangilan, Gubadli, Lachin, Kalbajar, Khojavand, Khojaly, and Aghdam regions of the Republic of Azerbaijan, by allocating territory for the mentioned officials and others to participate in the training, directly under their instructions, consent, and by providing them with weapons and ammunition from their military arsenals.

Page 39

After this, on **27 September 2020**, at approximately **06:00**, in order to participate in the new phase of the aggressive war against the Republic of Azerbaijan — which had been planned and prepared since the second half of the 1980s — the following persons arrived in the territory of the Republic of Armenia at the end of September and beginning of October of that year:

Vartanov Vladimir (Vova) Levanovich (Levani), a citizen of the Republic of Armenia, the head of the “VoMa” paramilitary organization, as well as other leaders and members of the criminal organization, as well as Georgian citizen Chakhalyan Vaagn Rubenovich, a citizen of the Republic of France Artur Oganisyan, a citizen of the Republic of France Gilbert Minas Minasyan, a member of the “ASALA” terrorist organization, a citizen of the Republic of France Sipan Mouradian, a citizen of the Republic of France living in the city of Alfortville, France, born in the city of Aleppo, Syria, the head of the organization “Union of Veterans of the Solidarity Regiment of the People’s Volunteers of the Republic of Crimea” Martoyan Armen Hamletovich, nicknamed “Samvel”, a citizen of the Russian Federation, living in the city of Sochi, Russia, the citizen of the Russian Federation Ardash Oksuzyan, living in the city of Gali, the citizen of the Russian Federation, living in the Gali district of the Abkhazia region of Georgia, citizens of the Russian Federation living in the region of Abkhazia Eksuzyan Andrey Yepromevich, Trapizonian Galust Parnakovich, citizens of the Russian

Federation who served as an intelligence officer of the Abkhazian “Ibris” intelligence unit, living in the city of Sukhumi of the same region Garegin Khalaydjian nicknamed “Garik”, Garo Karapetyan, Ruslan Peklivanyan, Kojamanyan Seyran Ardashevich, a reserve officer of the Ministry of Internal Affairs of the Russian Federation, head of the legal department of the Cossack society operating under the name “Stanisza Admiralteyskaya”, a citizen of the Russian Federation, Viktor Alexandrovich Rastorguev, a citizen of the Russian Federation, living in the city of Sochi, the Russian Federation, Alexander Anakhasyan, a citizen of the Russian Federation, David Samvelovich Tonoyan, a citizen of the Russian Federation, a former officer of the Ministry of Internal Affairs of the Russian Federation, a member of the “Black Panther” military group, a citizen of the Russian Federation, Rustem Zigfridovich Akhmetvaleyev, a citizen of the Russian Federation, living in the city of Ufa, the Russian Federation, a member of the “Black Panther” military group, a citizen of the Russian Federation, Roman Andreyevich Biryukov, a citizen of the Russian Federation, living in Donetsk, Ukraine, Viken Abraham Eulcekcian, a citizen of the Republic of Lebanon, living in Beirut, the Republic of Lebanon, Armen Knyazyan, a citizen of the Kingdom of Spain, who is on friendly terms with Arayik Vladimir Harutyunyan, a citizen of the Kingdom of Spain, living in Paris, the Republic of France Sipan Koroghlian, a citizen of the French Republic, living in Paris, France, born in Aleppo, Syrian Arab Republic, Herve Hrayr Keoroghlian, a citizen of the French Republic, living in Paris, France, Aren Osipov, a citizen of Greece, Artur Ohannisyan, a citizen of the French Republic, Christopher Artin, a citizen of the Lebanese Republic, Gevorg Hajiyan, a citizen of the Syrian Arab Republic, Stepan Keshishyan, a citizen of the French Republic, Marc de Cacqueray-Valmenier, a leader of the Zouaves Paris (ZVP) grouping of the French Republic, born in Nanterre, French Republic, Harut Panoyan, a citizen of the Syrian Arab Republic, a member of the Dashnaktsutyun party living in Aleppo, Syrian Arab Republic, Akop Astarjian, a citizen of the Syrian Arab Republic, Mosik Seklemyani, a citizen of the Syrian Arab Republic, a member of the Dashnaktsutyun party living in Aleppo, Syrian Arab Republic, and members of the PKK-PYD-YPG terrorist organizations, Syrian Arab and Iraqi Citizens of the Republics Ali Abdulkarim Mahbuba (commander), Rustam Faiz Qasim Atiya (commander),

Nureddin Ahmed Banaz (commander), Abdulsalam Abdulqaffur Fatima (commander), Sardar Abdulvahid Nahla (commander), Ayman Barkal Amina (commander), Imad Ali Bahar (commander), Mahir Muhammad Zeynab (assistant commander), Muhammadali Sheikho Amina, Hussein Al-Ahmad Zahra, Shirzad Shamo Hajar, Sadullah Karim Jamila, Shahin Karimi Sumeyya, Jalal Joudat Maryam, Michel Butrus Maria, Azad Izattin Sara, Ibrahim Al-Hussein Khadija, Abdulkarim Adil Fatima, Abbas Adil Masuma, Muhammad Faraj Shahla, Ahmed Adnan Leyla, Burhan Shukur Hajar, Akram Jalal Gulnaz, Ala Omar Shukri, Anvar Amin Basima, Latif Asad Roushan, Abdulaziz Rustam Nur, Azad Abbas Amina, Jabbar Abdulsattar Ayisha, Loghman Burzo Manel, Abdo Kalo Rena, Alan Rasho Maryam, Basil Hami Nada, Huseyn Gencho Nazira, Lebo Bavi Hajar, Metin Hambarosh Hala, Mustafa Yusif Khayriya, Osman Darvish Ali, Haunaz Riyaz Risho, Yasmin Salah Sabir Asma, Shero Omar Vefaq, Armen Ahmed Kelsum, Yasmin Ismail Hayfa and Ozel Alyaz Farahi, in order to ensure their participation as more experienced fighters in the aggressive war they launched against Azerbaijan, they transferred at least 2,000 (two thousand) foreign citizens to the cities of Khankendi and Shusha of the Republic of Azerbaijan using the occupied Lachin corridor from the territory of the Republic of Armenia,

Later, they ensured that those individuals, who were recruited into the aggressive activities of the armed forces of the Republic of Armenia as mercenaries, participated in the military operations against Azerbaijan in the occupied Karabakh region and surrounding regions of the Republic of Azerbaijan, including the cities of Shusha and Khankendi, and the territories of Jabrayil, Fuzuli, Zangilan, Gubadli, Lachin, Kalbajar, Khojavend, Khojaly, and Aghdam regions, as part of organized groups formed from stable armed groups.

Among the mercenaries, members of the "PKK-PYD-YPG" terrorist organizations actively participated in the military operations against the Republic of Azerbaijan, including in the areas of the cities of Susa and Khankendi, members of the "VoMa" paramilitary organization in strategic combat positions established in various villages of the Kalbajar region, in the village of Tagaverd of the Khojavend region and in the settlement of Qirmiz Bazar, and others, armed with Kalashnikov 7.62 and 5.45 mm caliber automatic weapons, grenade launchers, their components, as well as various types of ammunition, explosives, devices and other weapons, from the end of September 2020 to November 10, 2020 and thereafter.

In accordance with the criminal plan prepared in line with the general criminal intent and purposes of the criminal association, the provisions of the following instruments were grossly violated:

- the UN Convention on combating the recruitment, use, financing and training of mercenaries, dated in the text as **4 December 1970**;
- the **International Convention for the Suppression of the Financing of Terrorism** of **9 December 1999**;
- the **Warsaw Convention on the Prevention of Terrorism** of **16 May 2005**;
- the **Fourth Geneva Convention of 12 August 1949 relative to the protection of civilian persons in time of war**;
- the **Fourth Hague Convention of 18 October 1907 respecting the Laws and Customs of War on Land**, together with the provisions of its annexed Regulations;
- other international conventions;
- the Constitution and laws of the Republic of Azerbaijan.

By these acts, they caused violations of property rights of Azerbaijanis who had been forcibly displaced from the region and prevented their return to their native lands; created mined areas and contact lines; prevented access to natural resources belonging to the Republic of Azerbaijan; and created and maintained, in areas not recognized by any state and not registered by Azerbaijan, economic activities in agriculture, mineral resources, energy production, including hydro-energy, and other sectors.

Page 41

The companies belonging to the Republic of Armenia, as well as companies from various other countries, were brought into the occupied territories, and that the state of Azerbaijan and its physical and legal persons were deprived of property rights over movable and immovable assets, which were unlawfully plundered and exploited.

Thus, the above-mentioned leaders and other members of the criminal organization, acting in accordance with their common criminal purpose and intent, entered into a criminal connection as an organized group during **2009–2017** with the following persons and entities:

- **Vartan Sirmakes**, **Franck Muller Group** founder and chief executive officer; financial investor in the **Vallex Group**; head of the **Zolotaya Zvezda / Gold Star** Closed Joint-Stock Company registered in the city of Minusinsk, Republic of Khakassia, Russian Federation;
- **Valeri Yanibekovich Mejlumyan**, citizen of Armenia and head of the **Vallex Group** group of companies created in Armenia;
- **Artur Ashotovich Mkrtumyan**, citizen of Armenia and executive director of **Base Metals**, a company within the Vallex Group.

During that period, they travelled from the territory of Armenia to the occupied territories of the Republic of Azerbaijan, including **Khankendi**, **Lachin**, **Kalbajar**, **Zangilan** and other districts.

In violation of Article 2 of the Law of the Republic of Azerbaijan **"On Entrepreneurial Activity"** dated **15 December 1992**, and Article 4 of the Law **"On State Registration and State Register of Legal Entities"** dated **12 December 2003**, they operated without being registered by the state in the manner prescribed by law and without being registered as taxpayers. They conducted unlawful extraction of gold-copper and quartz-gold-sulphide deposits located in the occupied districts.

Specifically, at the **Vejnali quartz-gold-sulphide deposit**, located in **Vejnali village** of the **Zangilan district**, the **Zolotaya Zvezda / Gold Star** Closed Joint-Stock Company, led and financed by **Vartan Sirmakes**, allegedly conducted unlawful extraction work by geochemical, drilling and mining methods.

As a result, during **2009–2016**, they unlawfully extracted:

- **1,405 kg of gold**, valued at **139,597,040.9 manats**;
- **1,553.8 tons of silver**, valued at **2,400,771.5 manats**;
- **489.4 tons of copper**, valued at **7,776,184.3 manats**.

The total value stated for the **Vejnali deposit** is **149,773,996.7 manats**.

Through **Base Metals**, a company included in the **Vallex Group**, unlawful extraction was carried out at the **Gizilbulag gold-copper deposit**, located in **Heyvali village** of the **Kalbajar district**.

During **2009–2011**, the following were extracted:

- **47,900 tons of copper**, valued at **761,083,140 manats**;
- **27,440 tons of zinc**, valued at **4,898,040 manats**;
- **18.03 tons of selenium**, valued at **1,103,400 manats**;
- **0.85 tons of tellurium**, valued at **79,500 manats**;
- **13.7 tons of gold**, valued at **1,361,005,950 manats**;
- **18.9 tons of silver**, valued at **29,166,471 manats**.

The total value stated for this deposit is **2,157,336,501 manats**.

At the **Demirli deposit**, located in **Demirli village** of the **Tartar district** (this village was part of Aghdara district from 13.10.1992 to 05.12.2023), unlawful extraction was carried out on a territory of **740 hectares**.

During **2011–2017**, the following were extracted:

- **700 kg of gold**, valued at **69,540,450 manats**;
- **16 tons of silver**, valued at **24,691,200 manats**;
- **123,000 tons of copper**, valued at **1,954,347,000 manats**;
- **2.5 tons of molybdenum**, valued at **136,000,000 manats**.

The total value stated for the **Demirli deposit** is **2,184,578,650 manats**.

Page 42

Through the Vejnali, Gizilbulag and Demirli deposits, a total material damage of **4,491,689,147.7 manats** was caused to the Republic of Azerbaijan through unlawful entrepreneurial activity.

In addition, the aforementioned leaders of the criminal organization and others, acting in accordance with the same criminal purpose and intent, engaged in illegal entrepreneurial activity by using the gold obtained as a result of illegal mining activities carried out on the state-owned lands of the Republic of Azerbaijan they occupied as raw materials for the production of gold and jewelry through the company "Frank Muller Group", of which Vartan Sirmakes is the co-founder and CEO, during 2009-2017, thereby obtaining illegal income in the amount of 6,602,059.4 (six million six hundred two thousand fifty-nine manats and forty kopecks) manats in the field of production and sale of watches without state registration in the occupied territories of Azerbaijan, causing material damage in the same amount.

In addition, in territories kept under occupation and belonging to the state property of the Republic of Azerbaijan, **Artsakhbank** Closed Joint-Stock Company, created on **12 February 1996**, with **Vartan Sirmakes** as shareholder and head of the Hadrut branch, as well as **11 branches** operating in Hadrut settlement, Shusha city and other occupied territories without state registration, carried out financial operations during **1996–2020**.

These operations generated unlawful income of **116,972,785.4 manats**, causing material damage in that amount.

Artsakh HEK Open Joint-Stock Company — described in the text as **HEK — Ermanistan Qardashliq Camiyyati**, with **Vartan Sirmakes** as shareholder and financial investor — was created on **1 November 2007**.

The company allegedly constructed, at the junction of the **Hakari** and **Zabukh** rivers in the **Lachin district**, a water reservoir with a capacity of **12 million cubic metres** and a hydroelectric power station capable of producing **30 million kWh** of electricity.

The judgment further states that shareholders belonging to the criminal association operated small hydroelectric power stations built on rivers in the occupied territories of **Lachin**, **Gubadli**, **Zangilan** and **Tartar** districts, unlawfully producing electricity during **2009–2016** and receiving illegal income of **1,997,681.53 manats**.

Thus,

- unlawful extraction from the **Vejnali, Gizilbulag and Demirli** deposits caused **4,491,689,147.7 manats** in damage;
- production and sale of gold-jewellery items from unlawfully extracted gold caused **6,602,059.4 manats** in damage;
- unlawful fish-breeding activity caused **236,904.1 manats** in damage;
- unlawful financial operations through **Artsakhbank CJSC** caused **116,972,785.4 manats** in damage;
- unlawful electricity production through **Artsakh HEK OJSC** caused **1,997,681.53 manats** in damage.

In total, unlawful entrepreneurial activity caused material damage of **4,500,642,765.13 manats** to the Republic of Azerbaijan.

They caused a particularly large amount of material damage to the Republic of Azerbaijan, and also spent part of the illegally obtained income among the criminal group, forming, maintaining, socio-economic strengthening of the criminal group, purchasing weapons and ammunition, keeping mercenaries, bringing Armenians living abroad to the Karabakh region and illegally settling them there, and implementing other similar criminal plans, and financed terrorism and aggressive war with the help of these funds.

Page 43

The leaders of the criminal organization and others, acting in accordance with the same criminal purpose and intent, caused economic damage to the agricultural sector in lands belonging to the state property of the Republic of Azerbaijan and kept under occupation, including in crop production, livestock, farm animals and bee colonies.

After the occupation of Karabakh and surrounding regions, as well as territories located on the conditional border with Armenia, during **1991–1993**, economic damage was caused to crop production, including grains and legumes, cotton, tobacco, potatoes, vegetables, melons, fruits, berries and grapes.

The damage to crop production is stated as follows:

- **Aghdam district** — **707,220,000 manats**;
- **Fuzuli district** — **548,770,000 manats**;
- **Jabrayil district** — **235,820,000 manats**;
- **Kalbajar district** — **6,950,000 manats**;
- **Gubadli district** — **84,130,000 manats**;
- **Lachin district** — **31,320,000 manats**;
- **Zangilan district** — **97,020,000 manats**;
- other areas of the Karabakh region of Azerbaijan — **2,276,700,000 manats**.

The total damage to crop production is stated as **3,987,934,000 manats**.

This is the damage to livestock production, including meat, milk and egg production:

- **Aghdam district** — **483,400,000 manats**;

- **Jabrayil district** — **292,200,000 manats**;
- **Fuzuli district** — **371,400,000 manats**;
- **Kalbajar district** — **302,800,000 manats**;
- **Gubadli district** — **180,500,000 manats**;
- **Lachin district** — **303,700,000 manats**;
- **Zangilan district** — **159,900,000 manats**;
- other areas of the Karabakh region of Azerbaijan — **1,236,400,000 manats**.

The total damage to livestock production is stated as **3,330,306,000 manats**.

Thus, according to the judgment, total damage to crop and livestock production amounted to **7,318,240,000 manats**.

In addition, during the occupation period the following were destroyed or could not be brought out of the occupied territories:

- **154,076 head of cattle**;
- **443,554 small ruminants**;
- **4,112 horses**;
- **6,697 bee colonies**.

The damage connected with farm animals and bee colonies is stated as **319,517,920 manats**.

Thus, the total material damage caused to Azerbaijan in the agricultural sector was at least **7,637,757,920 manats**.

The activities of the above-mentioned **Franck Muller Group**, **Vallex Group** and **Base Metals** group of companies, as well as their successors, ensured unlawful economic activity in the sovereign territories of the Republic of Azerbaijan.

Acting in accordance with the general criminal purpose and intent, they unlawfully exploited underground and surface resources, including:

- **128 non-ore deposits**;
- **13 ore deposits**;
- **26 deposits of underground fresh water, mineral water and thermal-mineral water**.

In total, the judgment refers to **167 mineral raw-material deposits** recorded in state and sectoral balances, including **7 ore** and **39 non-ore** deposits, making **46 deposits** in total involving exhaustible and non-renewable natural resources.

These included ferrous, non-ferrous and precious metal ores, rare metal and dispersed element ores, chemical industry raw materials, refractory raw materials for metallurgy, construction materials, thermal-mineral waters and other natural resources.

These resources were unlawfully exploited in Karabakh and surrounding areas, as well as in territories located on the conditional border with Armenia and kept under occupation.

During **1993–2020**, unlawful extraction of non-ore minerals was carried out as follows:

- **Shusha district** — **1 deposit**, **70,000 manats**;
- **Zangilan district** — **2 deposits**, **345,590 manats**;
- **Aghdam district** — **6 deposits**, **20,384,934 manats**;
- **Gubadli district** — **1 deposit**, **3,010,000 manats**;
- **Tartar / Aghdara district** — **3 deposits**, **22,036,000 manats**;
- **Jabrayil district** — **6 deposits**, **7,916,100 manats**;
- **Fuzuli district** — **2 deposits**, **2,087,500 manats**;
- **Kalbajar district** — **4 deposits**, **18,454,400 manats**;
- **Lachin district** — **2 deposits**, **1,640,900 manats**;
- **Khojavand, Khojaly and Aghdara districts** — **10 deposits**, **16,831,278 manats**.

The total damage for unlawful extraction of non-ore minerals is stated as **92,776,702 manats**.

For ore minerals, the judgment states:

- **Zangilan district** — **1 deposit**, **149,773,996 manats**;
- **Tartar / Aghdara district** — **1 deposit**, **2,184,578,650 manats**;
- **Kalbajar district** — **5 deposits**, **6,718,079,210 manats**.

The total damage for unlawful extraction of ore minerals is stated as **9,052,431,856 manats**.

For thermal-mineral waters:

- **Shusha district** — **1 deposit**, **5,518,800 manats**;
- **Kalbajar district** — **2 deposits**, **432,862,853 manats**;
- **Lachin district** — **1 deposit**, **1,671,840 manats**.

The total damage for thermal-mineral waters is stated as **440,053,493 manats**.

Calculated at minimum values, the total material damage caused to the Republic of Azerbaijan through unlawful extraction of minerals and thermal-mineral waters was at least **9,585,262,051 manats**.

During the occupation period, unlawful activity was carried out at hydroelectric stations operating in the sovereign territories of Azerbaijan.

For the period **1993–2023**, the judgment states:

- economic damage from the **Sarsang HPP**, built on the **Tartar River**, amounted to **111,023,400 manats**;
- economic damage from the **Khudafarin** and **Giz Galasi** hydroelectric power stations, built on the **Araz River**, amounted to **397,325,000 manats**.

Thus, according to the judgment, unlawful economic activity in hydroenergy caused at least **508,348,400 manats** in material damage to the Republic of Azerbaijan.

In addition, the above-mentioned leaders of the criminal organization and others, acting in accordance with the same criminal purpose and intent, carried out unlawful economic activity

during the occupation period in lands belonging to the state property of Azerbaijan, including through separate companies in the fields of retail trade, public catering turnover, industrial production and other sectors.

For the period **1993–2023**, at least **3,140,642,270 manats** in material damage was caused to Azerbaijan in those sectors.

Thus, under the military-political leadership of the Republic of Armenia, its armed forces and other armed formations, and through their direct material, technical and personnel support, strict centralized control, instructions, orders and directives, the criminal organization and its structural entity operated unlawfully in the territory of Azerbaijan contrary to domestic and international legal norms.

The members of armed formations equipped with various weapons, ammunition, military equipment and other arms, together with the physical and legal persons listed above and others, carried out unlawful economic activity during **1992–2023** in the occupied sovereign territories of Azerbaijan, including **Khankendi**, **Shusha**, **Aghdam**, **Gubadli**, **Zangilan**, **Jabrayil**, **Fuzuli**, **Kalbajar**, **Lachin**, **Khojavand**, **Khojaly**, **Tartar / Aghdara**, and **Aghdara**.

The total damage included:

- **7,637,757,920 manats** in the agricultural sector during **1992–2022**;
- **9,585,262,051 manats** in mineral raw-material extraction during **1993–2020**;
- **508,348,400 manats** in energy / hydroenergy production during **1993–2023**;
- **3,140,642,270 manats** in retail trade, public catering turnover, industrial production and other sectors during **1993–2023**;
- **6,602,059.4 manats** from unlawful activity by the **Franck Muller Group** during **2009–2017**;
- **236,904.1 manats** from unlawful fish-breeding activity during **2009–2016**;
- and unlawful financial operations carried out by **Artsakhbank CJSC** during **1996–2020**.

Page 45

including **116,972,785.4 manats** in respect of banking operations, causing total material damage in the amount of **20,995,822,389.9 manats**.

The unlawful income obtained during those periods in the occupied territories of the Karabakh region of the Republic of Azerbaijan and the surrounding districts was spent on the aggressive war planned and launched against Azerbaijan, on terrorism and other criminal activities, including:

- payment of salaries to members of unlawful armed detachments;
- payment to servicemen serving under contract;
- financing mercenaries brought from foreign countries in exchange for material and other benefits;
- gathering and training those mercenaries;
- providing them with various types of weapons, clothing, food and other necessary supplies;

- forming the Armed Forces of the Republic of Armenia;
- purchasing firearms, components, ammunition, explosives and devices;
- equipping the Armenian armed forces and the criminal associations;
- ensuring participation in military operations forming part of the aggressive war against Azerbaijan;
- increasing the combat capability of army formations included in the criminal associations;
- transferring civilians and servicemen from various countries, including Lebanon, Syria and other states, as well as from Armenia, into the occupied sovereign territories of the Republic of Azerbaijan for unlawful settlement;
- financing terrorism;
- and other personal interests.

Under the military-political leadership of the Republic of Armenia, including its armed forces and other armed formations, and through their direct material, technical and personnel support, centralized management, oral and written assignments, instructions and directives, and strict control, the criminal organization and its structural entity operated unlawfully in the territory of Azerbaijan contrary to domestic and international legal norms.

The members of armed formations equipped with various weapons, ammunition, military equipment and other weapons, acting under the direct leadership of the named leaders of the criminal organization and other unidentified persons, implemented the criminal plan in accordance with the common purpose and intent of each member of the criminal organization.

For the purpose of continuing national hatred and hostility against Azerbaijanis formed in Armenian society, continuing the aggressive war conducted against Azerbaijan, and causing deliberate, especially large-scale and long-term damage to the environment, they targeted:

- forest fund areas;
- vegetation not included in the forest fund;
- rare plants regarded as natural monuments;
- specially valuable forest areas;
- agricultural lands;
- water basins and reservoirs;
- sources of mineral resources;
- and other elements of the environment.

These acts were committed in violation of domestic and international law, including:

- Principle 5 of the UN **World Charter for Nature**, stating that nature shall be secured against degradation caused by warfare or other hostile activities;
- Article 1 of the **Convention on the Prohibition of Military or Any Other Hostile Use of Environmental Modification Techniques** of 10 December 1976, prohibiting the use of environmental modification techniques with widespread, long-lasting or severe effects against another state;
- Article 35 of **Additional Protocol I of 8 June 1977** to the Geneva Conventions of 12 August 1949, which provides that the right of parties to a conflict to choose methods or means of warfare is not unlimited, prohibits weapons and methods causing superfluous injury or unnecessary suffering, and prohibits methods or means of

warfare intended or expected to cause widespread, long-term and severe damage to the natural environment;

- and Article 55 of that Protocol I, which cites as requiring that care be taken in warfare to protect the natural environment against widespread, long-term and severe damage, including prohibiting methods or means of warfare intended or expected to cause such damage and thereby prejudice the health or survival of the population.

Page 46

These requirements were violated during the aggressive war launched against Azerbaijan, from the early **1990s** until **20 September 2023**, causing large-scale damage.

In the territories held under occupation from the early 1990s until **20 September 2023**, different species and diameters of standing perennial trees, shrubs and other greenery belonging to the forest fund of the Republic of Azerbaijan were deliberately and unlawfully cut down or intentionally burned and destroyed.

The judgment gives the following district-by-district figures.

Aghdam district

In the territory of **Aghdam district**, out of a total area of **4,743 hectares**, including **4,733 hectares** of dense forest, **1,248 hectares** were affected.

The following were destroyed:

- **52,948.4 cubic metres** of usable timber valued at **2,773,560.33 manats**;
- **42,872.8 cubic metres** of firewood valued at **120,855.81 manats**;
- in total, **95,821.1 cubic metres** of wood valued, at regulated tariff prices, at **2,894,416.13 manats**.

In addition, the different species and diameters of standing perennial trees and shrubs valued at **3,829,411 manats** were unlawfully cut, and natural regeneration valued at **6,022,280 manats** was destroyed.

Total damage for **Aghdam district** is stated as **12,746,107.13 manats**.

Jabrayil district

In **Jabrayil district**, out of a total area of **4,629 hectares**, including **2,497 hectares** of dense forest, **2,319.7 hectares** were affected.

The following were destroyed:

- **73,503.2 cubic metres** of usable timber valued at **3,057,019.63 manats**;
- **66,152.2 cubic metres** of firewood valued at **211,436.92 manats**;
- in total, **139,655.4 cubic metres** of wood valued at **3,268,456.54 manats**.

The standing perennial trees and shrubs valued at **5,556,671 manats** were unlawfully cut, and natural regeneration valued at **10,250,680 manats** was destroyed.

Total damage for **Jabrayil district** is stated as **19,075,807.54 manats**.

Khojaly district

In **Khojaly district**, out of a total area of **47,043 hectares**, including **41,769 hectares** of dense forest, **4,661 hectares** were affected.

The following were destroyed:

- **347,402.9 cubic metres** of usable timber valued at **15,859,996.45 manats**;
- **288,593.6 cubic metres** of firewood valued at **951,216.94 manats**;
- in total, **635,996.5 cubic metres** of wood valued at **16,811,213.39 manats**.

The standing perennial trees and shrubs valued at **20,522,201 manats** were unlawfully cut, and natural regeneration valued at **18,242,400 manats** was destroyed.

On **31 August 2022**, in the territory of **Chanagchi village** of Khojaly district, the following were unlawfully cut and burned:

- **24 oak trees**;
- **10 apple trees**;
- **6 plum trees**;
- **10 pear trees**;
- **1 blackthorn tree**;
- **51 blackberry bushes**;

in total, **102** trees, shrubs and other greenery of various species.

Total damage for **Khojaly district** is stated as **55,575,814.39 manats**.

Khojavand district

In **Khojavand district**, out of a total area of **22,428 hectares**, including **20,403 hectares** of dense forest, **3,537.4 hectares** were affected.

The following were destroyed:

- **208,811.7 cubic metres** of usable timber valued at **8,777,276.06 manats**;
- **188,647.2 cubic metres** of firewood valued at **604,671.28 manats**;
- in total, **397,458.9 cubic metres** of wood valued at **9,381,947.34 manats**.

The standing perennial trees and shrubs valued at **15,228,110 manats** were unlawfully cut, and natural regeneration valued at **15,756,400 manats** was destroyed.

Total damage for **Khojavand district** is stated as **40,366,457.34 manats**.

Page 47

Kalbajar district

In **Kalbajar district**, out of a total area of **80,019 hectares**, including **73,468 hectares** of dense forest, **16,524 hectares** were affected.

The following were destroyed:

- **1,090,177.1 cubic metres** of usable timber valued at **48,144,060.23 manats**;
- **873,676.4 cubic metres** of firewood valued at **2,841,154.03 manats**;
- in total, **1,963,853.4 cubic metres** of wood valued at **50,985,214.26 manats**.

The standing perennial trees and shrubs valued at **44,628,775 manats** were unlawfully cut, and natural regeneration valued at **72,045,600 manats** was destroyed.

Total damage for **Kalbajar district** is stated as **167,659,589.26 manats**.

Lachin district

In **Lachin district**, out of a total area of **32,096 hectares**, including **26,793 hectares** of dense forest, **9,565.3 hectares** were affected.

The following were destroyed:

- **671,650.4 cubic metres** of usable timber valued at **29,845,204.27 manats**;
- **582,585.4 cubic metres** of firewood valued at **1,886,118.19 manats**;
- in total, **1,254,235.8 cubic metres** of wood valued at **31,731,322.47 manats**.

The standing perennial trees and shrubs valued at **38,261,808 manats** were unlawfully cut, and natural regeneration valued at **42,069,720 manats** was destroyed.

On **10 November 2020 a trilateral statement** by the President of Azerbaijan, the Prime Minister of Armenia and the President of Russia stated that under paragraphs 4 and 6 of that statement, Armenian armed forces were required to completely and unconditionally leave the liberated territories of Azerbaijan, including Lachin district by **1 December 2020**, and hand those territories over to Azerbaijan.

During the period from **10 November 2020 to 26 August 2022**, with the purpose of obstructing the transfer of those territories to Azerbaijan and continuing criminal acts on Azerbaijan's sovereign territory, thereby causing serious harm to the country's economic security, oral instructions were given to persons of Armenian origin unlawfully settled in Lachin district.

The first half of **August 2022** the following were unlawfully cut and burned:

In **Lachin city**:

- **212 acacia trees** of various diameters.

In **Sus village** of Lachin district:

- **12 mulberry trees**;
- **15 walnut trees**;

- **3 willow trees**;
- **5 poplar trees**.

On the right and left sides of the road from **Lachin city to Dahliz**:

- **5,055 acacia trees**;
- **40 walnut trees**;
- **585 juniper trees**;
- **35 oak trees**;
- **55 willow trees**;
- **65 maple trees**;
- **1,305 hornbeam trees**;
- **120 blackthorn bushes**;
- **220 blackberry bushes**.

Total damage for **Lachin district** is stated as **112,062,850.47 manats**.

Shusha district

In **Shusha district**, out of a total area of **8,526 hectares**, including **8,250 hectares** of dense forest, **2,972.8 hectares** were affected.

The following were destroyed:

- **65,541.6 cubic metres** of usable timber valued at **2,843,396.81 manats**;
- **56,390.5 cubic metres** of firewood valued at **184,137.47 manats**;
- in total, **121,932 cubic metres** of wood valued at **3,027,534.28 manats**.

The standing perennial trees and shrubs valued at **4,370,974 manats** were unlawfully cut, and natural regeneration valued at **12,909,600 manats** was destroyed.

Total damage for **Shusha district** is stated as **20,308,108.28 manats**.

Aghdara / Tartar district

The city of **Aghdara** and **22 villages** of the former Aghdara district, which was abolished by Resolution No. 327 of the Milli Majlis of the Republic of Azerbaijan dated **13 October 1992** and incorporated into Tartar district.

In that area, out of a total area of **33,224 hectares**, including **28,459 hectares** of dense forest, **1,799 hectares** were affected.

The following were destroyed:

- **171,115 cubic metres** of usable timber valued at **6,652,366.06 manats**;
- **145,941 cubic metres** of firewood valued at **482,221.61 manats**;
- in total, **317,056 cubic metres** of wood valued at **7,134,587.68 manats**.

The standing perennial trees and shrubs valued at **9,143,266 manats** were unlawfully cut, and natural regeneration valued at **11,088,000 manats** was destroyed.

Total damage for that area is stated as **27,365,853.68 manats**.

Zangilan district

In **Zangilan district**, out of a total area of **13,485 hectares**, including **11,690 hectares** of dense forest, **5,458.7 hectares** were affected.

The following were destroyed:

- **238,017.5 cubic metres** of usable timber valued at **9,773,560.79 manats**;
- **215,950.8 cubic metres** of firewood valued at **693,664.3 manats**;
- in total, **453,968.3 cubic metres** of wood valued at **10,467,225.09 manats**.

The standing perennial trees and shrubs valued at **16,155,197 manats** were unlawfully cut, and natural regeneration valued at **23,953,600 manats** was destroyed.

Total damage for **Zangilan district** is stated as **50,576,022.09 manats**.

Fuzuli district

In **Fuzuli district**, out of a total area of **124 hectares**, including **108 hectares** of dense forest, **2 hectares** were affected.

The following were destroyed:

- **96 cubic metres** of usable timber valued at **4,705.51 manats**;
- **78.52 cubic metres** of firewood valued at **237.34 manats**;
- in total, **174.52 cubic metres** of wood valued at **4,942.85 manats**.

The standing perennial trees and shrubs valued at **6,114 manats** were unlawfully cut, and natural regeneration valued at **8,800 manats** was destroyed.

Total damage for **Fuzuli district** is stated as **19,856.85 manats**.

Gubadli district

In **Gubadli district**, out of a total area of **13,994 hectares**, including **10,624 hectares** of dense forest, **6,240 hectares** were affected.

The following were destroyed:

- **258,036.9 cubic metres** of usable timber valued at **10,608,936.6 manats**;
- **234,138.9 cubic metres** of firewood valued at **752,292.02 manats**;
- in total, **492,175.8 cubic metres** of wood valued at **11,361,228.6 manats**.

The standing perennial trees and shrubs valued at **17,466,528 manats** were unlawfully cut, and natural regeneration valued at **27,422,560 manats** was destroyed.

Total damage for **Gubadli district** is stated as **56,250,316.6 manats**.

The shells fired deliberately from heavy artillery weapons from the occupied territories fell and exploded in areas under the control of the Republic of Azerbaijan:

- on **26 October 2020**, at around **00:30**, in forest plot No. 6 of the **Dastafur forestry unit** of the **Shamkir Regional Forestry Centre** under the Forest Development Service of the Ministry of Ecology and Natural Resources of the Republic of Azerbaijan;
- on **2 November 2020**, at around **19:30**, in forest plot No. 8 of the **Amirvar forestry unit**, in the territories of compartments **55** and **38**.

As a result, fires were caused over **4 hectares** and **3 hectares**, respectively — **7 hectares** in total — of dense forest included in the forest fund. Different species and diameters of standing perennial trees and shrubs were destroyed.

The damage is stated as:

- **1,131.52 manats** for compartment 55;
- **941.88 manats** for compartment 38;
- **2,073.4 manats** in total.

Across the territories of **11 districts** held under occupation, out of a total area of **260,311 hectares**, including **228,794 hectares** of dense forest, **54,327.9 hectares** were affected.

It states that the following were deliberately destroyed:

- **3,177,300.7 cubic metres** of usable timber valued at **138,340,083 manats**;
- **2,695,027 cubic metres** of firewood valued at **8,728,005.9 manats**;
- in total, **5,872,328 cubic metres** of wood valued at **147,068,088.6 manats**.

In addition:

- standing perennial trees and shrubs of various species and diameters valued at **175,169,055 manats** were deliberately and unlawfully cut;
- natural regeneration valued at **239,769,640 manats** was deliberately destroyed;
- heavy artillery shells caused further damage in territories under the control of the Republic of Azerbaijan.

caused material damage in the amount of **562,008,857 manats** (**147,068,088.6 + 175,169,055 + 239,769,640 + 2,073.4**).

Page 49

The judgment states that the above-mentioned leaders and other members of the criminal organization, acting with the same criminal intent and purposes, during the period from the early **1990s** until **20 September 2023**, in the territories of the Republic of Azerbaijan kept under occupation, deliberately and unlawfully cut down, intentionally set on fire and destroyed various species of trees and greenery located outside the forest fund, including

trees of various diameters, root systems and numbers, such as oak, plane tree, elm, pine, fir, cypress, acacia and hackberry.

In the territory of **Aghdam district**, trees of various diameters, roots and numbers, mostly oak, plane tree, elm, pine, fir, cypress, acacia and hackberry, with a value of **836,460 manats**, comprising **3,297 trees**, and branches with a value of **51,760 manats**, comprising **647 branches**, were allegedly destroyed.

In the territory of the **Aghdara district**, abolished by Decision No. 327 of the Milli Majlis of the Republic of Azerbaijan dated **13 October 1992** and incorporated into the **Tartar district**, including **Aghdara city** and **22 villages** held under occupation, **8 trees** of various species and diameters, valued at **11,950 manats**, were allegedly destroyed.

In the territory of **Fuzuli district**, **5,688 trees** of various diameters and species were allegedly destroyed, with a value of **1,321,270 manats**.

In the territory of **Khojavand district**, **117 trees** of various diameters and species were allegedly destroyed, with a value of **71,030 manats**.

In the territory of **Jabrayil district**, **170,080 trees** of various diameters and species were allegedly destroyed, with a value of **39,524,980 manats**, as well as **235,024 branches**, with a value of **18,801,920 manats**.

In the territory of **Zangilan district**, **67,354 trees** of various diameters and species were allegedly destroyed, with a value of **105,425,130 manats**, as well as **21,004 branches**, with a value of **1,680,320 manats**.

In the territory of **Gubadli district**, **231,404 trees** of various diameters and species were allegedly destroyed, with a value of **50,099,840 manats**, as well as **102,461 branches**, with a value of **8,196,880 manats**.

In the territory of **Kalbajar district**, **1,857 trees** of various diameters and species were allegedly destroyed, with a value of **434,050 manats**.

In the territory of **Lachin district**, **2,879 trees** of various diameters and species were allegedly destroyed, with a value of **1,916,710 manats**.

Thus, according to the judgment, across the **9 districts** held under occupation, **482,684 trees** of various diameters and species, valued at **199,641,420 manats**, and **359,136 branches**, valued at **28,730,880 manats**, were deliberately and unlawfully cut down, intentionally set on fire and destroyed.

As a result of the destruction of a total of **841,820 trees and branches** belonging to greenery outside the forest fund, the judgment states that material damage in the amount of **228,372,300 manats** was caused to the ecology and nature of the Republic of Azerbaijan.

In addition, during the same period, in the territories of the Republic of Azerbaijan kept under occupation, ancient trees of various species and diameters having the status of **natural monuments** were deliberately and unlawfully cut down, intentionally set on fire and destroyed.

In **Aghdam district**,

- on former **Lenin Street** in Aghdam city, **2 eastern plane trees**, each with a diameter of **80 cm**, height of **25 m**, age of **188 years**, with a total value of **96,000 manats**;
- on **28 April Avenue** in Aghdam city, **3 eastern plane trees**, each with a diameter of **90 cm**, height of **25 m**, age of **238 years**, with a total value of **174,000 manats**;
- in **Seyidli village**, **3 eastern plane trees**, each with a diameter of **100 cm**, height of **25 m**, age of **238 years**, with a total value of **204,000 manats**;
- in **Sarihajili village**, **2 eastern plane trees**, each with a diameter of **120 cm**, height of **28 m**, age of **238 years**…

Page 50

…with a total value of **176,000 manats**;

- in **Aliaghali village**, **1 oriental plane tree (chinar)**, with a diameter of **110 cm**, height of **26 m**, age of **238 years**, valued at **78,000 manats**;
- in **Boyahmadli village**, **71 oriental plane trees (chinar)**, each with a diameter of **250 cm**, height of **25 m**, age of **438 years**, with a total value of **15,478,000 manats**.

In **Jabrayil district**, the judgment lists:

- in **Jabrayil city**, **1 oriental plane tree (chinar)**, with a diameter of **250 cm**, height of **30 m**, age of **538 years**, valued at **218,000 manats**;
- in **Hajili village**, **1 oriental plane tree**, with a diameter of **350 cm**, height of **30 m**, age of **738 years**, valued at **318,000 manats**;
- also in **Hajili village**, **6 oriental plane trees**, each with a diameter of **800 cm**, height of **45 m**, age of **1,638 years**, with a total value of **768,000 manats**;
- in **Karkhulu village**, **1 oriental plane tree**, with a diameter of **90 cm**, height of **25 m**, age of **238 years**, valued at **58,000 manats**;
- in **Furganli village**, **1 oriental plane tree**, with a diameter of **450 cm**, height of **30 m**, age of **938 years**, valued at **418,000 manats**;
- also in **Furganli village**, **1 oriental plane tree**, with a diameter of **370 cm**, height of **30 m**, age of **758 years**, valued at **338,000 manats**;
- in **Horovlu village**, **1 oriental plane tree**, with a diameter of **400 cm**, height of **30 m**, age of **838 years**, valued at **368,000 manats**;
- in **Ishigli village**, at the place called **"Shirin Bulag"**, **1oriental plane tree**, with a diameter of **400 cm**, height of **25 m**, age of **838 years**, valued at **368,000 manats**;
- in **Khalafli village**, trees of the **pear** species, including **1 pear tree**, with a diameter of **60 cm**, height of **9 m**, age of **338 years**, valued at **28,000 manats**.

In **Zangilan district**, the judgment lists:

- in **Mughanli village**, **2 hackberry trees** with a diameter of **80 cm**, height of **12 m**, age of **298 years**, with a total value of **96,000 manats**;
- in **Minjivan village**, **1 oriental plane tree**, with a diameter of **60 cm**, height of **20 m**, age of **120 years**, valued at **28,000 manats**;
- also in **Minjivan village**, **1 oriental plane tree**, with a diameter of **100 cm**, height of **30 m**, age of **338 years**, valued at **68,000 manats**;

- in the place called **Zamiyeri**, **1 oak tree**, with a diameter of **80 cm**, height of **12 m**, age of **198 years**, valued at **48,000 manats**.

In **Gubadli district**, the judgment lists:

- in **Gubadli city**, **2 oriental plane trees**, each with a diameter of **80 cm**, height of **35 m**, age of **198 years**, with a total value of **96,000 manats**;
- **1 oriental plane tree**, with a diameter of **150 cm**, height of **20 m**, age of **338 years**, valued at **118,000 manats**;
- **2 oriental plane trees**, each with a diameter of **90 cm**, height of **30 m**, age of **218 years**, with a total value of **116,000 manats**;
- in **Godaklar village**, **1 gum tree / mastic tree**, with a diameter of **80 cm**, height of **8 m**, age of **188 years**, valued at **48,000 manats**;
- in **Khanlig village**, **3 oriental plane trees**, each with a diameter of **800 cm**, height of **40 m**, age of **1,638 years**, grown from one root, with a total value of **768,000 manats**;
- at the place called **Dashli**, **1 eastern plane tree**, with a diameter of **150 cm**, height of **35 m**, age of **338 years**, valued at **118,000 manats**.

In **Fuzuli district**, the judgment lists:

- in **Ishigli village**, near **Taghli Bridge**, **1 oriental plane tree**, with a diameter of **250 cm**, height of **25 m**, age of **538 years**, valued at **218,000 manats**;
- also there, **1 oriental plane tree**, with a diameter of **450 cm**, height of **25 m**, age of **938 years**, valued at **418,000 manats**;
- in **Mandili village**, at the place called **"Mustafa"**, **5 oriental plane trees**, each with a diameter of **150 cm**, height of **40 m**, age of **338 years**, with a total value of **590,000 manats**;
- on the border with the **Islamic Republic of Iran**, **1 oriental plane tree**, with a diameter of **100 cm**, height of **20 m**, age of **238 years**, valued at **68,000 manats**;
- at the place called **"Iba Piri"**, **1 oriental plane tree**, with a diameter of **520 cm**, height of **30 m**, age of **1,438 years**, valued at **488,000 manats**;
- also there, **1 oriental plane tree**, with a diameter of **250 cm**, height of **25 m**, age of **588 years**, valued at **218,000 manats**;
- in the private yard of a person named **Vahid**, **1 oriental plane tree**, with a diameter of **180 cm**, height of **45 m**, age of **438 years**, valued at **148,000 manats**.

In **Lachin district**, the judgment lists:

- on the right bank of the **Akar / Akara River**, **1 oriental plane tree**, with a diameter of **210 cm**, height of **26 m**, age of **438 years**, valued at **178,000 manats**;
- in **Malkhalaf village**, near the bridge of the same name, **8 oriental plane trees**, each with a diameter of **220 cm**, height of **22 m**, age of **288 years**, with a total value of **1,504,000 manats**.

Page 51

According to the judgment, in the **6 districts** held under occupation, a total of **131 ancient trees** of various diameters and roots, having the status of **natural monuments**, including oriental plane trees, pear trees, hackberry trees, gum trees and oak trees, were deliberately and unlawfully cut down, intentionally set on fire and destroyed.

The judgment states that material damage in the amount of **24,422,000 manats** was thereby caused to the ecology and nature of the Republic of Azerbaijan in relation to ancient trees having the status of natural monuments.

In addition, the judgment states that the above-mentioned leaders and other members of the criminal organization, acting with the same criminal intent and purposes, during the same period, in the territory of **Zangilan district** kept under occupation, deliberately and unlawfully cut and destroyed trees of the **Araz oak** species located in the **287.5-hectare** part of a **10,000-hectare** forest area having the status of a **natural monument** and a **specially valuable Araz oak forest area**. The trees are described as Araz oaks with diameters of **10–14 cm**, roots and numbers totalling **351,325 trees**.

The judgment states that material damage in the amount of **843,180,000 manats** was caused to the ecology and nature of the Republic of Azerbaijan in relation to specially valuable forest areas having the status of natural monuments.

Also, the members of the criminal organization, driven by the common criminal intent of each member of the criminal organization and with the same criminal goals, during the mentioned period, illegally cut down and deliberately set fire to various species and diameters of stumps, perennial trees and bushes that existed in the specially protected nature reserves and sanctuaries of the Republic of Azerbaijan that they occupied, and destroyed them by setting fire to the forest cover located on 42.8 hectares of the total area of 107 hectares of the Basitchay State Nature Reserve located in the territory of Zangilan district, and illegally cut down and set fire to the forest cover located there, and destroyed them by setting fire to the forest cover located there. By burning and destroying, in the amount of 24,565,080 manats, the forest cover located on 2,137 hectares of the total area of 20,000 hectares of the Gubadly State Nature Reserve located in the territory of Gubadly district, by illegally cutting down and burning and destroying the trees and shrubs of various species and diameters, standing on the stump, perennial trees and bushes growing there, in the amount of 9,271,726 manats, the forest cover located on 3,041 hectares of the total area of 20,000 hectares of the Lachin State Nature Reserve located in the territory of Lachin district, by illegally cutting down and burning and destroying the trees and shrubs of various species and diameters, standing on the stump, perennial trees and bushes growing there, in the amount of 20,004,734 manats, the forest cover located on 50 hectares of the total area of 450 hectares of the Dashalty State Nature Reserve located in the territory of Shusha district, by illegally cutting down and burning and destroying the trees and shrubs of various species and diameters, standing on the stump, perennial trees and bushes growing there, in the amount of 128,266 manats, and by setting fire and destroying it, they caused material damage in the amount of 128,266 manats; that is, by deliberately illegally cutting down and destroying various species and diameters of standing perennial trees and bushes growing there, and by deliberately setting fire and destroying them, a total of 6,835 hectares of forest cover in the territories of the 5 specially protected nature reserves and sanctuaries they occupied, and by deliberately setting fire and destroying it, causing material damage to the ecology and nature of the Republic of Azerbaijan in the specially protected natural areas, amounting to a total of 160,694,617 manats. Thus, they caused material damage in the amount of **1,818,677,774 manats in total**.

In addition, during the mentioned period, due to the fact that they stopped supplying water to 56,200,000 hectares of irrigated farmlands located in the territories of Goranboy, Tartar, Barda, Aghdam, Aghjabadi, Beylagan, and Bilasuvar regions, which were supplied with water through the Tartarchay, Gargarchay, and Khachinchay irrigation systems located in the territories of

the Republic of Azerbaijan under their occupation, a total of 102,831,600 manats were spent from the state budget of the Republic of Azerbaijan on drilling 1,279 sub-artesian wells in the territories of those regions in 2005–2020. Therefore, in order to protect settlements from the threat of flooding by deliberately regulating the Sarsang reservoir, i.e., since the release of water in excess of the reservoir in the autumn-winter months creates a flood hazard for the Tartar and Barda regions located below the reservoir, special measures were taken in the Tartar River in 1993–2020. Since a total of 6,090,000 manats were spent on coastal fortification measures from the state budget of the Republic of Azerbaijan, in that amount, there is a need to provide irrigation water to agricultural fields in the areas where the population they forcibly displaced from the occupied territories temporarily settled and to improve the ameliorative condition of winter pastures in the territories of Agjabedi and Fuzuli regions in 2006–2020, 91,861,000 manats were spent from the state budget of the Republic of Azerbaijan on iron or concrete canals, closed drainage systems, open collectors, metal pipes, and other similar construction and installation works; in that amount, that is, as a result, by deliberately making it impossible to use water resources and deliberately mismanaging water reservoirs, **a total of 200,782,600 manats (102,831,600 + 6,090,000 + 91,861,000) were spent, and they caused damage**.

Page 52

In addition, during the mentioned period, they were fined 12,000,000 manats for improper exploitation of the Sarsang reservoir located in the territories of the Republic of Azerbaijan under their occupation, i.e., without following any rules, including timely cleaning, reinforcement work, and improper regulation of the water volume; 20,708,000 manats for improper exploitation of the Sugovushan reservoir, i.e., without following any rules, including timely cleaning, reinforcement work, and improper regulation of the water volume; 20,824,000 manats for improper exploitation of the Khachinchay reservoir, i.e., without following any rules, including timely cleaning, reinforcement work, and improper regulation of the water volume; and 20,824,000 manats for improper exploitation of the Agdamkend reservoir, i.e., without following any rules, including timely cleaning, reinforcement work, and improper regulation of the water volume; 1,156,000 manats for operating the “Kondalen-1” reservoir without following any rules, including without timely cleaning, without carrying out reinforcement work, and without properly regulating the water volume; 2,066,000 manats for operating the “Kondalen-2” reservoir without following any rules, including without timely cleaning, without carrying out reinforcement work, and without properly regulating the water volume; and 3,442,000 manats for operating the Lower Kondalen reservoir without following any rules, including without timely cleaning, without carrying out reinforcement work, and without properly regulating the water volume; as a result, operating 7 reservoirs built in the pre-occupation periods in the territories they occupied without following any rules, including without timely cleaning, without carrying out reinforcement work, and without properly regulating the water volume. For what they did, they caused material damage to the ecology and nature of the Republic of Azerbaijan in the amount of 69,540,000 manats in total, that is, by deliberately making it impossible to use water resources in the territories of the Republic of Azerbaijan they occupied and by deliberately not managing the water reservoirs properly, and by operating the water reservoirs built in the pre-occupation periods in the territories they occupied without following any rules, that is, without cleaning them in a timely manner, without carrying out reinforcement work, and without properly regulating the volume of water, which amounts to **a total of 270,322,600 manats (200,782,600 + 69,540,000).**

Page 53

In addition, the aforementioned leaders and other members of the criminal organization, with the same criminal intentions and goals, deliberately destroyed 5,210 hectares of common agricultural lands in the territories of Zangilan, Jabrayil, Gubadli, Fuzuli, Lachin, Kalbajar, Shusha, Khojaly, Khojavand, Aghdam and Tartar, and the current Aghdara districts of the Republic of Azerbaijan, which they occupied during the period from the early 1990s to 2023, and, during the military aggression, they subjected those lands to military erosion by detonating large-scale heavy artillery shells and rockets, burying mines and placing explosive devices, i.e., causing deformation of landscapes, collapse and disruption of the soil structure, and degradation of vegetation. Therefore, for the initial simple cleaning measures by removing fragments of military equipment, rockets and projectile elements, 34,000 manats per hectare, for a total of 177,140,000 manats; for the application of biological means for the protection of cultivated plants, taking into account their biological characteristics, 68,000 manats per hectare, for a total of 354,280,000 manats; for phytoremediation measures, 3,400 manats per hectare, for a total of 17,714,000 manats; for the addition of synthetic geopolymers, 361,250 manats per hectare, for a total of 1,882,112,500 manats; and for the application of beneficial bacteria and fungal spores, 850,000 manats per hectare. Thus, a total of 11,398,959,000 manats are required for those seven measures to be implemented to bring 5,210 hectares of agricultural land into a usable condition. As a result of the aggressive war, the agricultural lands located in the occupied territories were rendered unusable, causing especially large-scale material damage to the ecology and nature of the Republic of Azerbaijan in the amount of **11,398,959,000 manats**.

The judgment then states that, from the end of the **1980s** until **20 September 2023**, the named leaders and other members of the criminal organization, during the period in which they conducted aggressive war and kept Azerbaijani territories under occupation, deliberately cut down and destroyed trees, shrubs and other vegetation located on the territory of Azerbaijan; deliberately polluted water sources, water basins and reservoirs; deliberately made the use of water resources impossible; intentionally failed to manage them properly; and deliberately damaged agricultural lands and subjected them to military erosion. According to the judgment, by doing so, they caused especially large-scale material damage to the ecology and nature of the Republic of Azerbaijan in the amount of **13,487,959,374 manats**.

The judgment then returns to the alleged structure of the criminal organization. It states that, under the military-political leadership of the Republic of Armenia, including its armed forces and other armed formations, and through their direct material, technical and personnel support, centralized management, oral and written assignments, instructions and directives, and strict control, the criminal organization and its structural entity operated unlawfully in the territory of Azerbaijan contrary to domestic and international legal norms.

The judgment states that, together with other members of the criminal organization whose identities were not known to the investigation, each member of the criminal organization acted in accordance with the common criminal purpose and intent, continuing the national hatred and hostility against Azerbaijanis that had been formed in Armenian society.

It further states that they continued the aggressive war launched against Azerbaijan, sought to ensure that the sovereign territories of Azerbaijan occupied during that war remained under occupation, kept the Azerbaijani population in constant fear and terror, prevented them from returning to their lawful places of residence by all desired means, and sought to secure a decision by Azerbaijan to renounce its sovereign territories in favour of Armenia.

The judgment continues that, for that purpose, they kept civilian Azerbaijani settlements located both on the line of contact with the occupied territories and at a sufficient distance from that line under constant fire from various-calibre weapons; caused explosions and fires in the areas where those civilians lived; used means and methods of warfare capable of causing major destruction; deliberately caused widespread, long-term and serious damage to the environment; caused large-scale destruction not resulting from military necessity; attacked undefended areas, settlements and demilitarized zones; and mined those areas in a disorderly manner without military necessity using various mines and other explosive devices.

The judgment further alleges that they deprived the Azerbaijani population of the right to move freely within the territory of their own country, to live in healthy and safe conditions, and to exercise other fundamental rights.

It further states that, on the grounds of national and ethnic hatred and hostility, with special cruelty, in connection with terrorism and banditry, and in connection with the performance of official duties and public duties, they intentionally killed persons; persecuted them contrary to international legal norms because they were Azerbaijanis; took them prisoner and hostage; forcibly expelled them or otherwise coerced them; and committed other criminal acts.

The judgment states that these acts grossly violated the requirements of:

- the **Charter of the United Nations**, which entered into force on **24 October 1945**;
- the **Universal Declaration of Human Rights** of **10 December 1948**;
- the **Fourth Geneva Convention of 12 August 1949 relative to the protection of civilian persons in time of war**;
- the **First Additional Protocol of 8 June 1977 to the Geneva Conventions**, relating to the protection of victims of international armed conflicts;
- the **European Convention for the Protection of Human Rights and Fundamental Freedoms** of **4 November 1950**;
- UN General Assembly Resolution **3314 (XXIX)** of **14 December 1974** on the **Definition of Aggression**;
- the **International Covenant on Civil and Political Rights** of **16 December 1966**;
- the **Helsinki Final Act** of **1975**;
- the **European Convention on the Suppression of Terrorism** of **27 January 1977**;
- the **Ottawa Convention** of **3 December 1997** on the prohibition of the use, stockpiling, production and transfer of anti-personnel mines and on their destruction;
- the Convention of **10 October 1980** on prohibitions or restrictions on the use of certain conventional weapons which may be deemed excessively injurious or to have indiscriminate effects, and the Protocol on prohibitions or restrictions on the use of mines, booby-traps and other devices;
- the **Warsaw Convention on the Prevention of Terrorism** of **16 May 2005**;
- the **Oslo Convention on Cluster Munitions** of **3 December 2008**;
- the provisions of the **Bishkek Protocol** of **8 May 1994** on the declaration of a ceasefire between Azerbaijan and Armenia, which entered into force on **12 May 1994**;
- and other norms of international law prohibiting states from using force against the territorial integrity or political independence of another state.

The judgment states that, in violation of those documents and norms, they carried out large-scale destruction not arising from military necessity; deliberately damaged or destroyed state property and especially large-scale property by explosion and fire; destroyed citizens' property, farms and residential infrastructure; and committed other criminal acts.

The judgment further alleges that, from all directions along the conditional Armenia-Azerbaijan state border, and also in the Karabakh region of Azerbaijan and other territories inhabited by persons of Armenian origin, they involved such persons in criminal activity; recruited members of terrorist organizations and persons of Armenian origin living abroad, as well as other persons, as mercenaries; equipped them with weapons and ammunition and other types of material and technical supplies; and created armed groups.

Page 55

The judgment states that, through such armed groups, they conducted the aggressive war launched against Azerbaijan; used automatic firearms, artillery installations, multiple-launch rocket systems, ballistic missile systems, and various-calibre weapons whose mark and model were precisely known or unknown to the investigation.

It further alleges that they opened fire, mined residential areas without military necessity, organized armed raids, caused fires and explosions, subjected the persons named in the judgment to suffering and violence, and intentionally killed persons with special cruelty and by other methods.

The judgment then gives a year-by-year breakdown of persons allegedly intentionally killed, including the injured parties named in the judgment:

- **1988**: at least **24 persons**, all male civilians;
- **1989**: at least **33 persons**: **28 men**, **5 women**, including **10 children**; **32 civilians** and **1 servicemember**;
- **1990**: at least **118 persons**: **108 men**, **10 women**, including **8 children**; **112 civilians** and **6 servicemen**;
- **1991**: at least **324 persons**: **281 men**, **43 women**, including **13 children**; **272 civilians** and **52 servicemen**;
- **1992**: at least **4,632 persons**: **4,286 men**, **346 women**, including **199 children**; **1,331 civilians** and **3,301 servicemen**;
- **1993**: at least **4,091 persons**: **3,768 men**, **323 women**, including **129 children**; **1,079 civilians** and **3,012 servicemen**;
- **1994**: at least **4,789 persons**: **4,762 men**, **27 women**, including **32 children**; **284 civilians** and **4,505 servicemen**. The judgment specifies **4,104 persons** before **12 May 1994** and **685 persons** after **12 May 1994**;
- **1995**: at least **289 persons**: **288 men**, **1 woman**, including **5 children**; **39 civilians** and **250 servicemen**;
- **1996**: at least **182 persons**: **181 men**, **1 woman**, including **4 children**; **28 civilians** and **154 servicemen**;
- **1997**: at least **163 persons**, all men, including **3 children**; **27 civilians** and **136 servicemen**;
- **1998**: at least **114 persons**: **113 men**, **1 woman**, including **1 child**; **11 civilians** and **103 servicemen**;

- **1999**: at least **88 persons**: **87 men**, **1 woman**, including **1 child**; **7 civilians** and **81 servicemen**;
- **2000**: at least **41 persons**: **40 men**, **1 woman**, including **1 child**; **9 civilians** and **32 servicemen**;
- **2001**: at least **44 persons**: **43 men**, **1 woman**, including **1 child**; **11 civilians** and **33 servicemen**;
- **2002**: at least **53 persons**, all men, including **3 children**; **6 civilians** and **47 servicemen**;
- **2003**: at least **57 persons**: **56 men**, **1 woman**, including **1 child**; **6 civilians** and **51 servicemen**;
- **2004**: at least **34 persons**, all men, including **1 child**; **13 civilians** and **21 servicemen**;
- **2005**: at least **44 persons**, all men, including **1 child**; **8 civilians** and **36 servicemen**;
- **2006**: at least **21 persons**: **20 men**, **1 woman**; **4 civilians** and **17 servicemen**;
- **2007**: at least **36 persons**, all men, including **1 child**; **7 civilians** and **29 servicemen**;
- **2008**: at least **27 persons**, all men; **8 civilians** and **19 servicemen**;
- **2009**: at least **11 persons**: **10 men**, **1 woman**; **2 civilians** and **9 servicemen**;
- **2010**: at least **20 persons**, all men; **2 civilians** and **18 servicemen**;
- **2011**: at least **16 persons**: **15 men**, **1 woman**, including **2 children**; **4 civilians** and **12 servicemen**.

Page 56

The judgment continues the year-by-year breakdown of persons allegedly intentionally killed:

- **2012**: at least **14 persons**, all men; **1 civilian** and **13 servicemen**;
- **2013**: at least **10 persons**, all men; **1 civilian** and **9 servicemen**;
- **2014**: at least **36 persons**, all men; **3 civilians** and **33 servicemen**;
- **2015**: at least **32 persons**, all men; **3 civilians** and **29 servicemen**;
- **2016**: at least **112 persons**: **111 men**, **1 woman**, including **1 child**; **6 civilians** and **106 servicemen**;
- **2017**: at least **21 persons**: **19 men**, **2 women**, including **1 child**; **4 civilians** and **17 servicemen**;
- **2018**: at least **7 persons**, all male servicemen;
- **2019**: at least **5 persons**, all men; **1 civilian** and **4 servicemen**;
- **2020**: at least **2,991 persons**: **2,956 men**, **35 women**, including **12 children**; **105 civilians** and **2,886 servicemen**. The judgment states that **2,866** of these persons were killed between **27 September 2020** and **10 November 2020**, during the **Patriotic War**;
- **2021**: at least **47 persons**, all men, including **1 child**; **20 civilians** and **27 servicemen**;
- **2022**: at least **91 persons**, all men, including **1 child**; **7 civilians** and **84 servicemen**;
- **2023**: at least **232 persons**, all men; **16 civilians** and **216 servicemen**;
- **2024**: at least **1 person**, a male servicemember.

According to the judgment, in total:

- **3,053 civilians**;
- **15,298 servicemen**;
- **17,607 men**;
- **744 women**;
- including **401 children**;

that is, **18,351 persons** were intentionally killed.

The judgment then begins a separate year-by-year breakdown of persons who, according to the judgment, suffered bodily injury or other harm.

It states:

- **1988**: at least **42 persons**: **40 men**, **2 women**; **19 civilians** and **23 servicemen**;
- **1989**: at least **128 persons**: **122 men**, **6 women**, including **4 children**; **95 civilians** and **33 servicemen**;
- **1990**: at least **267 persons**: **245 men**, **22 women**, including **10 children**; **199 civilians** and **68 servicemen**;
- **1991**: at least **654 persons**: **587 men**, **67 women**, including **15 children**; **437 civilians** and **217 servicemen**;
- **1992**: at least **9,284 persons**: **8,706 men**, **578 women**, including **265 children**; **1,941 civilians** and **7,343 servicemen**;
- **1993**: at least **6,778 persons**: **6,628 men**, **150 women**, including **57 children**; **489 civilians** and **6,289 servicemen**;
- **1994**: at least **9,102 persons**: **9,046 men**, **56 women**, including **23 children**; **228 civilians** and **8,874 servicemen**;
- **1995**: at least **1,537 persons**: **1,521 men**, **16 women**, including **13 children**; **90 civilians** and **1,447 servicemen**;
- **1996**: at least **1,144 persons**: **1,130 men**, **14 women**, including **5 children**; **44 civilians** and **1,100 servicemen**;
- **1997**: at least **1,003 persons**: **990 men**, **13 women**, including **3 children**; **24 civilians** and **979 servicemen**;
- **1998**: at least **557 persons**: **555 men**, **2 women**, including **4 children**; **16 civilians** and **541 servicemen**;
- **1999**: at least **387 persons**: **386 men**, **1 woman**, including **3 children**; **17 civilians** and **370 servicemen**;
- **2000**: at least **326 persons**: **325 men**, **1 woman**, including **5 children**; **11 civilians** and **315 servicemen**;
- **2001**: at least **286 persons**: **285 men**, **1 woman**, including **2 children**; **14 civilians** and **272 servicemen**;
- **2002**: at least **269 persons**: **266 men**, **3 women**, including **8 children**; **8 civilians** and **261 servicemen**;
- **2003**: at least **261 persons**: **259 men**, **2 women**, including **1 child**; **10 civilians** and **251 servicemen**;
- **2004**: the page begins the entry as **257 men**, **1 woman**, including **17 civilians**…

The sentence continues on the next page.

Page 57

…including **17 civilians** and **241 servicemen**, at least **258 persons** suffered bodily injury of varying degrees in **2004**.

For **2005**, at least **286 persons** suffered bodily injury of varying degrees, including **281 men** and **5 women**; of them, **6** were civilians and **280** were servicemen.

For **2006**, at least **232 persons** suffered bodily injury of varying degrees, all of them male servicemen.

For **2007**, at least **311 persons** suffered bodily injury of varying degrees, including **309 men** and **2 women**, of whom **1** was a child; **5** were civilians and **306** were servicemen.

For **2008**, at least **268 persons** suffered bodily injury of varying degrees, including **265 men** and **3 women**; **5** were civilians and **263** were servicemen.

For **2009**, at least **301 persons** suffered bodily injury of varying degrees, including **296 men** and **5 women**, of whom **1** was a child; **11** were civilians and **290** were servicemen.

For **2010**, at least **326 persons** suffered bodily injury of varying degrees, including **321 men** and **5 women**, of whom **1** was a child; **3** were civilians and **323** were servicemen.

For **2011**, at least **281 persons** suffered bodily injury of varying degrees, including **274 men** and **7 women**, of whom **1** was a child; **8** were civilians and **273** were servicemen.

For **2012**, at least **253 persons** suffered bodily injury of varying degrees, including **251 men** and **2 women**; **7** were civilians and **246** were servicemen.

For **2013**, at least **206 persons** suffered bodily injury of varying degrees, including **205 men** and **1 female servicemember**.

For **2014**, at least **309 persons** suffered bodily injury of varying degrees, including **305 men** and **4 female servicemembers**.

For **2015**, at least **357 persons** suffered bodily injury of varying degrees, including **350 men** and **7 women**, of whom **2** were children; **8** were civilians and **349** were servicemen.

For **2016**, at least **626 persons** suffered bodily injury of varying degrees, including **618 men** and **8 women**, of whom **2** were children; **29** were civilians and **597** were servicemen.

For **2017**, at least **301 persons** suffered bodily injury of varying degrees, including **294 men** and **7 women**; **1** was a civilian and **300** were servicemen.

For **2018**, at least **230 persons** suffered bodily injury of varying degrees, including **225 men** and **5 women**; **4** were civilians and **226** were servicemen.

For **2019**, at least **199 persons** suffered bodily injury of varying degrees, including **192 men** and **7 women**; **1** was a civilian and **198** were servicemen.

For **2020**, at least **16,860 persons** suffered bodily injury of varying degrees, including **16,705 men** and **155 women**, of whom **66** were children; **520** were civilians and **16,340** were servicemen. The judgment specifies that **15,382** of these persons suffered such injuries between **27 September 2020 and 10 November 2020**, during the **Patriotic War**.

For **2021**, at least **676 persons** suffered bodily injury of varying degrees, including **672 men** and **4 women**; **65** were civilians and **611** were servicemen.

For **2022**, at least **730 persons** suffered bodily injury of varying degrees, including **722 men** and **8 women**, of whom **1** was a child; **49** were civilians and **681** were servicemen.

For **2023**, at least **1,228 persons** suffered bodily injury of varying degrees, including **1,227 men** and **1 woman**, of whom **1** was a child; **74** were civilians and **1,154** were servicemen.

For **2024**, at least **5 persons**, all female civilians, suffered bodily injury of varying degrees.

Thus, in total, according to the judgment:

- **3,710 civilians**;
- **51,467 servicemen**;
- **54,103 men**;
- **1,074 women**;
- including **457 children**;

that is, **55,177 persons** suffered bodily injury of varying degrees.

The judgment states, however, the victims were not intentionally killed due to their ability to evade the armed attack, the timely provision of qualified medical assistance that saved their lives, the intervention of international organizations on behalf of the captives and hostages, the circumstances of the events, and other reasons beyond their control. .

In addition, the judgment states that, in the course of the aggressive war prepared, planned and conducted against Azerbaijan since **1987**, for the purpose of aggravating the consequences of that war for the Republic of Azerbaijan, weakening the economic condition of the state and achieving other crimin al objectives, during military operations carried out in the sovereign territories of Azerbaijan, and in the subsequent period by firing from engineering-fortification positions established in the occupied territories and by mining those territories, persons were intentionally killed during **1994–2023**, received martyr status, or suffered bodily injuries of varying degrees and became disabled.

The judgment states that, in connection with these consequences, the Azerbaijani state paid:

- **2,540,657,321 manats** to persons who became disabled as a result of bodily injuries of varying degrees received in the aggressive war;
- **2,903,826,722 manats** for pension support to families of martyrs and war-disabled persons;
- **1,027,040,000 manats** for housing support;
- **83,970,000 manats** for automobile provision

Page 58

…**44,208,057 manats** for the provision of prosthetic and orthopaedic products, wheelchairs, bicycle-wheelchairs, technical and other rehabilitation means to persons who became disabled;

8,695,675 manats for socio-psychological support and rehabilitation services;

and **15,281,500 manats** paid in **2020** to affected civilians in contact districts during the **44-day Patriotic War** for damage caused to their property, including household appliances and household items.

The judgment states that, in total, **6,623,679,275 manats** were allocated and spent from the state budget in these areas, thereby causing especially large-scale material damage to the Azerbaijani state in relation to eliminating the consequences of the aggressive war.

The judgment further states that, in implementation of the criminal plan covered by the common criminal intent of the criminal organization, during the aggressive war prepared, planned and conducted against Azerbaijan since **1987**, the Armed Forces of the Republic of Azerbaijan were targeted with the aim of weakening Azerbaijan's military power and defence capability, causing maximum material damage to Azerbaijan, and achieving other criminal objectives.

It states that, until **20 September 2023**, including in the period after that, armed attacks were carried out using various large- and small-calibre weapons, ammunition, artillery systems and rockets unlawfully obtained from the material-technical base of the Armed Forces of Armenia, as well as from the **366th Regiment** previously belonging to the former USSR and later to the Russian Federation, and from other armed formations located in the Karabakh region of Azerbaijan.

As a result, according to the judgment, military property belonging to the Ministry of Defence of the Republic of Azerbaijan was destroyed, seized or rendered unusable in the districts of **Lachin**, **Kalbajar**, **Gubadli**, **Aghdam**, **Jabrayil**, **Fuzuli**, **Zangilan**, **Tartar**, as well as in **Gazakh**, **Tovuz**, **Gadabay** and other districts located on the border with Armenia.

The judgment lists the following damage:

- weapons, ammunition, military-optical devices and other military-technical property recorded under the weapons service: **87,307,831.65 manats**;
- tanks and other armoured combat vehicles, their components and other military property recorded under the armoured-tank service: **394,459,761.18 manats**;
- motor vehicles and other military property recorded under the automobile service: **25,906,621.64 manats**;
- fuel and lubricant materials, fuel-storage facilities, fuel-carrying vehicles, fuel tanks and other military property recorded under the fuel service: **236,499.42 manats**;
- food warehouses, canteens, vehicles transporting food supplies, food products and other military property recorded under the food service: **2,138,501.48 manats**.

Page 59

The judgment continues the list of military-property damage:

- soldiers' barracks, storage facilities, laundries, headquarters and other buildings, as well as clothing items, bedding and other property recorded under the clothing service and used by Azerbaijani servicemen: **12,780,406.07 manats**;
- engineering and armament means, including devices and tools used for detecting and clearing mines, and other military property recorded under the engineering service: **3,275,499.87 manats**;

- communications equipment, communications lines and other military property recorded under the communications service: **24,793,996.83 manats**;
- military property recorded under the radiation, chemical and biological protection service: **1,380,442.36 manats**;
- headquarters buildings, soldiers' barracks, residential buildings, warehouses, canteens and other buildings recorded under the housing and maintenance service: **4,719,445.53 manats**;
- military property recorded under the Navy Special Forces involved in combat operations for the liberation of **Jabrayil** and **Khojavand** districts: **33.60 manats**;
- military aircraft, helicopters, unmanned aerial vehicles, air-defence systems, radar stations and other military property recorded under the Air Force: **345,074,397.44 manats**;
- medical equipment and other military-medical property located in military hospitals and medical units, and medical equipment and other military property used to provide medical assistance to Azerbaijani servicemen wounded during combat operations: **57,909.87 manats**.

The judgment states that, in total, material damage in the amount of **902,164,913 manats** was caused to the Ministry of Defence.

It further states that, during the same period and by the same methods, military equipment, weapons, ammunition and other military-supply means recorded under the **State Border Service** of the Republic of Azerbaijan were destroyed or rendered unusable, causing damage of **3,216,058 manats**.

It also states that military equipment, weapons, ammunition and other military-supply means recorded under the **Ministry of Internal Affairs** of the Republic of Azerbaijan were destroyed or rendered unusable, causing damage of **3,023,854 manats**.

Accordingly, by conducting an aggressive war against the Republic of Azerbaijan, the judgment states that intentional material damage in the amount of **908,404,826 manats** was caused to the defence arsenal of the Azerbaijani Army through the destruction, rendering unusable and seizure of military property.

The judgment then turns specifically to **Ruben Karlenovich Vardanyan**.

It states that **Ruben Karlenovich Vardanyan**, with the aim of ensuring that the sovereign territories of the Republic of Azerbaijan remained under occupation, and acting under the control of the military-political leadership of Armenia and the criminal association/organization operating under that control, allegedly acted against the Republic of Azerbaijan.

Page 60

The judgment states that Ruben Karlenovich Vardanyan, for the purpose of participating in the commission of crimes provided for under Articles **100.1, 100.2, 107, 109, 110, 112, 113, 114.1, 115.2, 116.0.1, 116.0.2, 116.0.10, 116.0.11, 116.0.16, 116.0.18, 120.2.1, 120.2.3, 120.2.4, 120.2.7, 120.2.11, 120.2.12, 29,120.2.1, 29,120.2.3, 29,120.2.4, 29,120.2.7, 29,120.2.11, 29,120.2.12, 192.3.1, 214.2.1, 214.2.3, 214.2.4, 214-1, 218.1, 218.2, 228.3, 270-**

1.2, 270-1.4, 278.1, 279.1, 279.2, 279.3 and 318.2 of the Criminal Code of the Republic of Azerbaijan, joined the criminal association/organization in early **December 2020**.

The judgment alleges that, after joining that criminal association, he provided, directly and indirectly, different amounts of money and other property, knowing that they would be used in part for:

- terrorism;
- acts creating a threat to aviation safety;
- forcible change of the constitutional order of the state on the territory of Azerbaijan;
- preparation and commission of the creation and organization of armed formations and groups not provided for by Azerbaijani legislation;
- and financing a terrorist organization.

The judgment further alleges that, acting unlawfully in accordance with the common criminal purpose and intent and operating within the criminal association/organization, he obtained, stored, transported and transferred firearms, their components, combat ammunition, explosives and explosive devices.

It further states that, he illegally crossed the protected state border of the Republic of Azerbaijan outside the checkpoints of the state border and illegally entered the territory of the Republic of Azerbaijan as a citizen of a foreign country. He worked in the so-called "Artsakh" organization created by the criminal group (organization) in the occupied territories of the Republic of Azerbaijan from **November 4, 2022, to February 23, 2023, under the title of "state minister**", as well as in the subsequent period until the end of September 2023.

It further states that, during the subsequent period until the end of September 2023, by directly participating in the adoption of decisions related to the preparation and commission of crimes against the Republic of Azerbaijan, its individuals, and legal entities in accordance with the common criminal intentions and goals of the criminal association (organization) and its members, by illegally transporting explosives and devices, military weapons and equipment, firearms, and ammunition from the Republic of Armenia to the territory of the Republic of Azerbaijan as part of an organized group included in that criminal association (organization), organized and conducted training on the methods of committing those acts, the use of firearms, explosives and devices, and technical means for the purpose of committing terrorism, created armed formations and groups not provided for by the legislation of the Republic of Azerbaijan within the criminal association (organization), equipped them with weapons, ammunition, explosives, military equipment, and other military equipment, and committed acts of violence against enterprises, departments, organizations, and individuals through those formations and groups, and participated in organizing raids that led to violence and other serious consequences. .

In addition, the judgment states that Ruben Vardanyan, acting by prior agreement with other persons, led the criminal association/organization and its structural subdivisions; acted within the criminal association/organization in accordance with its common criminal purpose and intent; and participated in the planning of the continuation of the aggressive war against Azerbaijan, the preparation of new attack plans, and the conduct of aggressive war while continuing that purpose and intent.

The judgment further alleges that, contrary to international legal norms and to the laws of the Republic of Azerbaijan, he participated in:

- the forced removal of Azerbaijani civilians from their lawful places of residence;
- persecution of a group consisting of Azerbaijanis on national, ethnic, cultural and religious grounds;
- severe deprivation of fundamental rights of persons because of their belonging to that group;
- long-term isolation of persons on the grounds of their attitude toward the state and political organizations, their support and their consent, with the aim of excluding them from lawful protection;
- detention and abduction of persons;
- subsequent denial of deprivation of liberty;
- refusal to provide information concerning their fate and whereabouts;
- and detention and other forms of deprivation of liberty contrary to international legal norms.

Page 61

The judgment continues that Ruben Vardanyan allegedly participated in:

- detention and other forms of deprivation of liberty;
- infliction of physical suffering and psychological torment on persons detained or otherwise restricted in their liberty;
- recruitment of mercenaries, their training, financing and other forms of material support;
- use of such persons in armed conflicts and military operations;
- torture of prisoners and other persons protected under international humanitarian law;
- cruel and inhuman treatment;
- hostage-taking;
- use of methods of warfare capable of causing major destruction during armed conflict;
- deliberate widespread, long-term and serious damage to the environment;
- attacks against civilians and individual civilians not taking part in hostilities;
- violence against the population in areas of military operations;
- destruction of property;
- use in armed conflicts of weapons, means and methods of warfare prohibited by interstate treaties to which the Republic of Azerbaijan and other states are parties;
- unlawful detention and other deprivation of liberty of prisoners and other persons protected under international humanitarian law;
- deprivation of procedural rights;
- intentional killing of more than two persons with special cruelty and by a generally dangerous method, in connection with terrorism and on grounds of national hatred and hostility;
- attempted intentional killing under the same aggravating circumstances;
- unlawful entrepreneurial activity causing especially large-scale damage to the Republic of Azerbaijan and its physical and legal persons;
- terrorist acts involving the use of firearms, explosions, fires and other acts creating a danger of death, harm to health, significant property damage and other socially dangerous consequences;
- threats to commit such acts;

- transmission of knowingly false information to aircraft during flight;
- intentional interference with aeronavigation equipment;
- creation of threats to the safety of aircraft in flight;
- causing damage creating a threat to the flight safety of operating aircraft;
- and acts aimed at the forcible change of the constitutional order of the Republic of Azerbaijan in the territory of Azerbaijan.

Thus, by participating in the activities of a criminal association (organization) and its structural units, Ruben Vardanyan took part in the planning of an aggressive war against the Republic of Azerbaijan, the preparation of new attack plans, and the organization of such an aggressive war through the continuation of those aims and intentions. In early December 2020, knowing that monetary funds and other property under his control, belonging partially, directly and indirectly to citizens of various foreign countries, would be used for the preparation, organization, and commission of acts provided for in Articles 214, 270-1, 278, and 279 of the Criminal Code by a criminal organization, as well as for financing a terrorist organization, he deliberately collected funds under the guise of humanitarian purposes for the "Aurora" Foundation, which operates under a humanitarian cover and of which he is a co-founder and **whose executive director is Jilavyan Arman Gagikovich**, and through aid campaigns. On 9 December 2020, at the instruction of Ruben Vardanyan, Mirza Dinnayi, a public activist and citizen of the Republic of Iraq presented as a laureate of the "Awakening Humanity" award established by the "Aurora" Foundation, arrived in the city of Khankendi and, in the territories of the Republic of Azerbaijan where Russian peacekeeping

Page 62

forces were temporarily stationed, transferred in separate instances and in different amounts funds he allocated to 150 Kurdish-origin mercenary fighters who were members of illegal armed formations operating in the form of organized groups within a criminal association (organization). This included 2,370 (two thousand three hundred seventy) US dollars directly allocated from the "Aurora" Foundation on 9 December 2020, as well as military supplies considered field combat uniforms, provided under the name of "obtained by private initiative groups consisting of volunteers." By providing financial support and supplying military equipment to armed formations and groups not provided for by the legislation of the Republic of Azerbaijan, he financed terrorism.

The judgment states that, by materially supporting armed formations and groups not provided for by the legislation of the Republic of Azerbaijan and equipping them with military supplies, Ruben Vardanyan financed terrorism.

In addition, in accordance with the general criminal intent and objectives of the criminal association (organization), Ruben Vardanyan, by communicating via the WhatsApp mobile application on 22 May 2022 through mobile phone number [redacted] and exchanging messages and voice notes with the mobile phone number [redacted] used by the latter, reached an agreement with Vladimir (Vova) Levanovich Vartanov, the founder of the terrorist organization "VoMa," which was established on 11 January 2013 as part of the criminal association (organization) as a structural unit operating as an organized group in the Republic of Armenia as well as in the previously occupied territories of the Republic of Azerbaijan, and which is currently operating in Armenia with branches in Yerevan (Irevan), Goris, Kapan, Sisian (Garakilsa), Kavar, Echmiadzin (Uchkilsa), and Yeghegnadzor (Keshishkend). Vartanov had participated in military operations against the Armed Forces of the Republic of

Azerbaijan in the territory of the Republic of Azerbaijan during the First Karabakh War in the early 1990s, the April battles of 2016, and the Second Karabakh War in 2020. Acting on the list sent to him by the latter, which included names of instructors of the "VoMa" terrorist organization—namely Akopyan Armen Volodya, Ohanyan Harut Arayiki, Dallakyan Khachik Sevada, Akopyan Mikael Arturi, Isayan Hovhannes Sasuni, Bakhshyan Albert Artaki, and Hovhannisyan Hovhannes Mikaeli—who had participated in military operations against the Armed Forces of the Republic of Azerbaijan during the Second Karabakh War as members of illegal armed formations within the Republic of Azerbaijan, Ruben Vardanyan, knowing that these instructors would be used by the criminal association to prepare, organize, and commit acts provided for under Articles 214, 270-1, 278, and 279 of the Criminal Code, and that they would conduct training in methods of committing acts of terrorism against citizens of the Republic of Azerbaijan, including training in the use of firearms, explosives and explosive devices, other generally dangerous methods and technical means, deliberately provided funds and other property under his control for the purpose of organizing such training for the commission of terrorist acts.

In addition, in accordance with the general criminal intent and objectives of the criminal association (organization), by continuing his criminal activities in contradiction with the provisions of the Warsaw Convention of 16 May 2005 on the Prevention of Terrorism and numerous other norms of international law, Ruben Vardanyan, in order to supply the said criminal association (organization), which is conducting illegal activities in the Republic of Azerbaijan's Karabakh region under the control of the military-political leadership of Armenia in violation of domestic and international legal norms, as well as its structural entity operating in the form of organized groups and unlawful armed formations not provided for by law, with weapons, ammunition, explosives, military equipment, and military supplies, and in order for those illegal armed formations to maintain the occupation of the territory of the Republic of Azerbaijan and to commit acts of terrorism and other grave and especially grave crimes against citizens of the Republic of Azerbaijan, during **June 2022 held negotiations with responsible persons of the company "AKVA" operating in the territory of the Russian Federation** and agreed upon and prepared a set of documents titled "Agreement Terms" concerning the establishment of a joint enterprise for the purpose of organizing the mass production of surface-to-air missile systems (SAMs), including guided anti-aircraft missiles, transport-launch containers (TLC), packaged type transport-launch containers (PTLC), target detection stations (TDS), battery and radio transmitter units (BRU), power supply and testing stations (PSTS), as well as other equipment, with the aim of keeping such systems at the disposal of the criminal association and using them against civilian and military targets. For this purpose, he deliberately collected and transferred, directly and indirectly, personal and other monetary funds, thereby committing acts of financing terrorism.

Page 63

In addition, in accordance with the general criminal intent and objectives of the criminal association (organization), for terrorist-sabotage purposes, in September 2022, as part of an organized group belonging to the criminal association (organization), Ruben Vardanyan, as a foreign citizen, illegally crossed the protected state border of the Republic of Azerbaijan from the territory of the Republic of Armenia in the direction of the Lachin district, bypassing official state border checkpoints, and entered the territory of the Republic of Azerbaijan, subsequently settling in the area of the Karabakh Economic Region of the Republic of Azerbaijan where Russian peacekeeping forces were temporarily deployed. Thereafter, in contradiction with the provisions of the Treaty on Conventional Armed Forces in Europe of 19 November 1990, the

Convention on the Prohibition of the Use, Stockpiling, Production and Transfer of Anti-Personnel Mines and on Their Destruction (Ottawa Convention) of 3 December 1997, the Council of Europe Convention on the Prevention of Terrorism signed in Warsaw on 16 May 2005, and numerous other norms of international law, and in accordance with the general criminal intent and objectives of the criminal association (organization), and knowing that acts provided for under Articles 214, 270-1, 278, and 279 of the Criminal Code would be prepared, organized, and committed by the criminal organization and that the funds would be used for financing a terrorist organization, he deliberately collected, in whole and in part, directly and indirectly, monetary funds and other property belonging to him and to various foreign citizens, as well as funds collected under the guise of so-called humanitarian foundations, the organization "We Are Our Mountains," and other aid campaigns.

With these funds, in order to implement the plan prepared by the leadership of the criminal association for the continuation of an aggressive war on the sovereign territories of the Republic of Azerbaijan in line with the objectives of the criminal association and for the commission of terrorist acts, during the period from early September 2022 to late September 2023, as part of an organized group within the criminal association, at various times he illegally acquired firearms, their components, ammunition, explosives and explosive devices, military weapons and equipment, transported them illegally from the Republic of Armenia into the Republic of Azerbaijan in the direction of the Lachin district, and organized their unlawful transportation and storage in pre-prepared military depots located near the village of Kolatagh in the Aghdara district and in the city of Khankendi (coordinates x4410740/y8650423, x4412768/y8650179, x4411833/y8651149), as well as in a structure unlawfully used by him as a private office in the city of Khankendi (coordinate x4410849/y8650297), where they were stored.

The judgment then states that Ruben Vardanyan, continuing his activity in accordance with the common criminal intent and purposes of the criminal association/organization, sought to participate directly in decisions concerning the planning and implementation of crimes.

By continuing his activities in accordance with the general criminal intent and objectives of the criminal association (organization), Ruben Vardanyan, with the aim of directly participating in the adoption of decisions related to the planning and execution of crimes, and acting in concert with others, was appointed on 4 November 2022 by Arayik Vladimiri (Vladimirovich) Harutyunyan, who had acted within the criminal association under the title of so-called "President of the Artsakh Republic," to the position of so-called "State Minister" of that fictitious structure. Under this appointment, he assumed functions and responsibilities belonging to the leadership of the criminal association and its structural units, thereby becoming a person who in practice possessed decision-making authority and leadership functions within the criminal association, and jointly with others directed the commission by the criminal association of continuing criminal acts provided for under Articles 100.1, 100.2, 107, 109, 110, 112, 113, 114.1, 115.2, 116.0.1, 116.0.2, 116.0.10, 116.0.11, 116.0.16, 116.0.18, 120.2.1, 120.2.3, 120.2.4, 120.2.7, 120.2.11, 120.2.12, 29,120.2.1, 29,120.2.3, 29,120.2.4, 29,120.2.7, 29,120.2.11, 29,120.2.12, 192.3.1, 214.2.1, 214.2.3, 214.2.4, 214-1, 218.1, 218.2, 228.3, 270-1.2, 270-1.4, 278.1, 279.1, 279.2, 279.3, and 318.2 of the Criminal Code of the Republic of Azerbaijan, and directly participated in the organization of these criminal acts committed by the criminal association. In addition, from that time onward, under the pretext of acting in the said "position," in accordance with the general criminal intent and objectives of the criminal association (organization), in gross violation of the requirements of the Council of Europe Convention on the Prevention of Terrorism of 16 May 2005 (Warsaw Convention) and other norms of international law, he created so-called "local self-defense units" not provided

for by the legislation of the Republic of Azerbaijan in the formerly occupied territories of the Republic of Azerbaijan, as well as other organized armed groups consisting mainly of professional military personnel, and participated in their creation and activities. He ensured that these groups were supplied, with knowledge that they would be used for the preparation, organization, and commission by a criminal organization of acts provided for under Articles 214, 270-1, 278, and 279 of the Criminal Code, and for financing a terrorist organization, using monetary funds and other property collected partly and wholly, directly and indirectly, intentionally, from his own resources and those of various foreign citizens, as well as under the guise of so-called humanitarian foundations, the "We Are Our Mountains" organization, and other aid campaigns. These forces and materials were stored in military warehouses he had organized near the village of Kolatagh in the Aghdara district and in the city of Khankendi, as well as in a structure unlawfully used by him as a personal office (coordinate x4410849/y8650297), where illegally stored firearms, ammunition, explosives, military equipment, and military supplies were kept.

Page 64

At the same time, in accordance with the general criminal intent and objectives of the criminal association (organization), Ruben Vardanyan prepared lists of the leaders and members of so-called "local self-defense units," which he himself had formed and whose activities he organized, as well as other armed groups and formations not provided for by the legislation of the Republic of Azerbaijan, consisting mainly of professional military personnel. Based on those lists, he allocated and paid monthly remuneration in the amount of 700–2,000 US dollars to each of the said individuals, depending on the nature of their unlawful activities. In doing so, he knowingly provided monetary funds, in part, directly and indirectly, for the purpose of financing terrorism, namely for the organization and commission of actions by those unlawful formations and groups that create danger to public security by causing explosions, fires, and other acts capable of leading to human casualties, harm to health, significant property damage, or other socially dangerous consequences, with the aim of spreading fear among the population or influencing decision-making by state authorities and international organizations. Thus, he intentionally provided funds knowing that they would be used for such purposes, thereby financing terrorism.

In addition, in violation of the requirements of the Council of Europe Convention on the Prevention of Terrorism signed in Warsaw on 16 May 2005 and other norms of international law, and in accordance with the general criminal intent and objectives of the criminal association (organization), Ruben Vardanyan, for the purpose of supplying the organized unlawful armed formations that are part of the criminal association (organization), starting from September 2022, unlawfully acquired from an unidentified source, as usable combat ammunition, 7 (seven) factory-made fragmentation "F-1" hand grenades, 7 (seven) "UZRGM" and "UZRGM-2" detonators, 1,257 (one thousand two hundred fifty-seven) factory-manufactured 7.62 mm caliber cartridges, including 40 (forty) tracer rounds, 448 (four hundred forty-eight) factory-manufactured 5.45×39 mm caliber cartridges, as well as 3 (three) factory-made magazine clips with a capacity of 30 (thirty) cartridges of 7.62×39 mm caliber, intended for use in "Kalashnikov"-type "AK" ("AKM", "AKS", "AKMS") automatic firearms, and transported them unlawfully together with other weapons and ammunition from the Republic of Armenia into the Republic of Azerbaijan, where he stored them. During a search conducted on 3 October 2023 at the structure in the city of Khankendi used unlawfully by Ruben Vardanyan as a personal office, these ammunition items and magazines were discovered and seized, along with military equipment consisting of 5 (five) tactical helmets, 5 (five) body

armor vests, 26 (twenty-six) field sleeping sets, and 1 (one) radio communication device. Additionally, during a search carried out on 4 October 2023 at his country house and yard in the village of Kolatagh in the Aghdara district, where he had previously lived, 14 (fourteen) field sleeping sets classified as military equipment were discovered and seized.

Page 65

In addition, while Ruben Vardanyan, as part of a criminal association (organization), was acting under the title of so-called "state minister" of a fictitious entity, in accordance with the general criminal intent and objectives of the criminal association (organization), under the support and control of the military-political leadership of Armenia, during his communication via the WhatsApp mobile application on 11 November 2022, from the mobile phone number [redacted] in his use, with **Ernest Sanatrukovich Arustamyan, a full member of the Russian Academy of Engineering**, using the latter's mobile phone number [redacted] in order to equip with military equipment the aforementioned criminal association (organization) operating illegally on the territory of Azerbaijan and contrary to norms of international law, as well as illegal armed formations not provided for by legislation operating in the form of organized groups as its structural unit, discussed with the Czech company "Liaz" the acquisition of helicopter-type unmanned aerial vehicles (UAVs) intended for use by illegal armed formations in the fictitious entity called "Artsakh" created in the occupied territories of the Republic of Azerbaijan. Ruben Vardanyan, agreeing with Ernest Arustamyan's proposal regarding the acquisition of those UAVs and obtaining technical documentation for the construction of a plant to manufacture them, contacted the general director of the organization operating under the name of the "Aurora" humanitarian initiative group, which he co-founded, Arman Jilavyan, via the WhatsApp mobile application from the mobile phone number [redacted] in his use, using the number [redacted] in the latter's use, sent him the text of the mentioned correspondence, and instructed him to obtain the acquisition of UAVs and the technical documentation for the construction of a plant to manufacture them, and, knowing that they would be used by the criminal association for the preparation, organization, and commission of acts provided for in Articles 214, 270-1, 278, and 279 of the Criminal Code, and for the financing of a terrorist organization, he committed acts of financing terrorism by deliberately providing funds and other property under his control.

Ruben Vardanyan, after the period in which he acted until 23 February 2023 under the title of "state minister" of the fictitious entity called "Artsakh" created by the criminal association (organization), continued his criminal acts in accordance with the general criminal intent and objectives of the criminal association (organization), and in accordance with mutual agreement with others, by effectively participating in the leadership of the criminal association (organization) and its structural units, has, together with others, led the commission of ongoing criminal acts by the criminal association as provided for in Articles 100.1, 100.2, 107, 109, 110, 112, 113, 114.1, 115.2, 116.0.1, 116.0.2, 116.0.10, 116.0.11, 116.0.16, 116.0.18, 120.2.1, 120.2.3, 120.2.4, 120.2.7, 120.2.11, 120.2.12, 29,120.2.1, 29,120.2.3, 29,120.2.4, 29,120.2.7, 29,120.2.11, 29,120.2.12, 192.3.1, 214.2.1, 214.2.3, 214.2.4, 214-1, 218.1, 218.2, 228.3, 270-1.2, 270-1.4, 278.1, 279.1, 279.2, 279.3 and 318.2 of the Criminal Code, and has directly participated in organizing the commission of those criminal acts by the criminal association. Furthermore, Ruben Vardanyan, continuing his criminal activity in line with the general criminal intent and objectives of the criminal association (organization) he belonged to, in violation of the requirements of the Convention on the Prevention of Terrorism of the Council of Europe of 16 May 2005 (Warsaw Convention) and other norms of international law, in March–April 2023 personally drafted a document titled "The Initiative Group and Artsakh

Political Parties Must Take the Following Steps", in which, by referencing a series of terrorist acts ("Nemesis") committed in the previous century by members of Armenian terrorist organizations against officials of various states, he proposed the initiation of a terrorist operation called "Nemesis-2". In doing so, he put forward an initiative for the commission of acts of terrorism against representatives of the diplomatic corps of the Republic of Azerbaijan abroad and citizens performing official duties and public obligations, namely acts carried out using firearms and objects used as weapons, in order to disrupt public security, create fear among the population, and influence decision-making by state authorities, thereby creating a danger of death and other socially dangerous consequences.

Page 66

The judgment states that, by putting forward the idea of launching the **"Nemesis-2"** terrorist operation, Vardanyan carried out preparatory actions for the terrorist acts described.

In addition, Ruben Vardanyan, in violation of the provisions of the Warsaw Convention "On the Suppression of Terrorism" dated May 16, 2005, and numerous other international legal norms, in accordance with the general criminal intent and goals of the criminal association (organization), organized and led the grouping "Artsakh Security and Development Front", which was actually included in the criminal association (organization) established by him on May 18, 2023, to conduct military training for persons aged 20–55 in the areas where the Russian peacekeeping forces were temporarily located in the Republic of Azerbaijan, to establish military camps for this purpose, to prepare a written plan for 30 people to undergo military training simultaneously under the leadership of 2 instructors in each camp, and, based on that plan, to organize the organization "We Are Our Mountains", which he founded during May–August 2023, to provide financial assistance to the following organizations: "Ruben Vardanyan Foundation", "Dilijan Community Center", "Aznavour Foundation", and "IDEA" Charity Foundation, deliberately collected funds in the amount of 212,000 (two hundred and twelve thousand) US dollars (360,400 manats) from other organizations, funds, and individuals at different times and in different amounts, including in May 2023, for the purpose of directly financing the organization of terrorism-related trainings, and with the help of these funds, under the leadership of the "Artsakh Security and Development Front", through the organization "We Are Our Mountains", allegedly under the name "David Beck military sport" ("David Beck military sports games"), "airsoft" sports competitions, and "survival skills in extreme conditions" were held, and under the cover of information provided on internet resources, groups created under the names of the relevant organizations, mainly consisting of young people, under the names "ASALA" (Armenian Secret Army for the Liberation of Armenia), "Nemesis" (revenge), and other groups, which were established in accordance with the names of the relevant organizations. Directly organized and conducted military training on methods of committing terrorist acts, preparation for the use of firearms, explosives and devices, and other generally dangerous methods and technical means in a special camp on the banks of the river (with coordinates X39.906947, Y46.655509) during May–August 2023, and then informed other members of the criminal association (organization), including his close associate Ovakimyan Aik Armenovich, about these trainings.

Furthermore, in accordance with the general criminal intent and objectives of the criminal association (organization), during the period from 2 July 2023 to 20 September 2023, Ruben Vardanyan, a citizen of the Republic of Armenia, who served in the National Security Service of the Republic of Armenia and as assistant to the head adviser to the President of the Republic of Armenia on national security matters, and who acted under the name of a security expert as

the founder and chairman of the movement "Committee 27", conducted negotiations and correspondence via the Signal mobile application from the mobile phone number [redacted] in his use, with Poghosyan (Poghosyan) Vladimir Sergeyevich, founder and chairman of the "Committee 27" movement, via the latter's mobile phone number [redacted], as well as through other mobile applications and social networks, and, for the purpose of ensuring the continued occupation of the sovereign territories of the Republic of Azerbaijan, keeping the Azerbaijani population under fear and intimidation, and preventing the return of internally displaced persons to the formerly occupied territories, agreed on the creation of a new special-purpose armed formation, which is not provided for by the legislation of the Republic of Azerbaijan and which was to be financed by Ruben Vardanyan, to be deployed in the territories of the Republic of Azerbaijan where Russian peacekeeping forces are temporarily stationed, and on equipping that special-purpose armed formation with firearms, ammunition, explosives, military equipment, and military supplies. It was also agreed that a radio-electronic warfare (REW) system capable of destroying aerial vehicles within a range of 50 kilometers of the Republic of Azerbaijan, operating on frequencies of 300 MHz – 8 GHz with a 12-channel control system, would be acquired by Ruben Vardanyan from European countries and delivered to illegal armed formations. For this purpose, Ruben Vardanyan committed acts of financing terrorism by intentionally collecting and providing funds, both partially directly and indirectly.

It states that, in accordance with the common criminal intent and purposes of the criminal association/organization, during the period from **2 July 2023 to 20 September 2023**, Vardanyan communicated with **Vladimir Sergeyevich Poghosyan**, a citizen of Armenia, former employee of Armenia's National Security Service and the Office of the President of Armenia on national-security issues;

Page 67

who had served as assistant to the chief adviser on security matters, operated under the title of security expert, and was the founder and president of the movement called **"27 Committee."**

The judgment states that Vardanyan communicated with **Vladimir Sergeyevich Poghosyan** through the **Signal** mobile application, using the mobile number [redacted] while Poghosyan used the mobile number [redacted] as well as through other mobile applications and social networks.

According to the judgment, the purpose of those communications was:

- to preserve the occupation of the sovereign territories of the Republic of Azerbaijan;
- to keep the Azerbaijani population in fear and panic;
- to prevent internally displaced persons from returning to territories that had been under occupation;
- to establish, in the area where Russian peacekeeping forces were temporarily deployed, a new special-purpose armed formation not provided for by Azerbaijani law and financed by Ruben Vardanyan;
- to equip that formation with firearms, ammunition, explosives, military equipment and military supplies;
- and to obtain from European countries and deliver to unlawful armed formations a **radio-electronic warfare system** described as capable of neutralizing unmanned

aerial vehicles operating within a **300 MHz–8 GHz** frequency range at a distance of up to **50 kilometres** and having a **12-channel control system**.

The judgment alleges that, for that purpose, Vardanyan knowingly and intentionally collected and provided funds partly, directly and indirectly, thereby committing acts of financing terrorism.

In addition, Vardanyan, acting in accordance with the common criminal intent and purposes of the criminal association/organization, under the support and control of Armenia's military-political leadership, sought to equip armed formations included in the criminal association/organization and operating unlawfully in the occupied territories of Azerbaijan with military equipment.

It alleges that in **September 2023**, Vardanyan communicated through **Telegram**, using the number [redacted] with **Artur Alaverdyan**, who used the number [redacted]

According to the judgment, they corresponded regarding the possible purchase and delivery from a third country of a **Malloy-type unmanned aerial vehicle**, produced in the **United Kingdom of Great Britain and Northern Ireland**, with a payload capacity of **180 kg** and an operating range of **70 km**.

The judgment further states that, through Telegram, Vardanyan shared a video file showing that UAV in a Telegram group called **"ATR Mi - Nashi Qori"** on **14 September 2023**, informing group members about it.

Vardanyan knew the funds and other property collected from citizens of various foreign states would be used in the preparation, organization and commission by the criminal association of acts provided for under Articles **214, 270-1, 278 and 279** of the Criminal Code, and that, by intentionally collecting such funds, he committed acts of financing terrorism.

In addition, the military-political leadership of the Republic of Armenia, including its armed forces and other armed formations, as well as through the direct material, technical, and personnel support they provided, their centralized command and control, their oral and written orders, instructions, and directives, and under their strict supervision, the leaders and other members of the criminal association (organization), which operated unlawfully within the territory of the Republic of Azerbaijan in violation of domestic and international legal norms, acting in accordance with the common criminal intent and objectives of the criminal association (organization), sought to continue the national hatred and enmity toward Azerbaijanis that they had cultivated within Armenian society; to ensure the continued occupation of the sovereign territories of the Republic of Azerbaijan seized during the aggressive war they launched against Azerbaijan; to prevent, by keeping the Azerbaijani population under constant fear and terror, their return by any lawful means to the places where they had legally resided; to compel the Republic of Azerbaijan to renounce its sovereign territories in favor of Armenia;

and for this purpose, to keep under constant fire, using weapons of various calibers, the places inhabited by peaceful Azerbaijani civilians lawfully settled in the sovereign territories of Azerbaijan, both along the line of contact with the occupied territories and at considerable

distances from it; to cause explosions and fires in the settlements where they lived; that is, to employ methods of warfare capable of causing extensive destruction during armed conflict; to intentionally inflict widespread, long-term, and severe damage upon the environment; to carry out large-scale destruction not justified by military necessity; to attack undefended areas, populated places, and demilitarized zones; to indiscriminately mine territories with numerous mines and other explosive devices without any military necessity; to deprive the Azerbaijani population of the freedom of movement within the territory of their own country, of the right to live in health and safety, and of other fundamental rights; to intentionally kill them with particular cruelty on the grounds of national and ethnic hatred and enmity, including by means of terrorism and in connection with the performance of their official duties and public responsibilities; to persecute them solely because they were Azerbaijanis in violation of international legal norms; to take them as prisoners of war and hostages; to subject them to enforced disappearance, torture, and other criminal acts; and, in connection with these and other criminal objectives, despite international law, including the resolutions of the United Nations Security Council No. 822 of 30 April 1993, No. 853 of 29 July 1993, No. 874 of 14 October 1993, and No. 884 of 12 November 1993, calling for the unconditional and immediate liberation of the Karabakh region of the Republic of Azerbaijan and the surrounding districts, which constitute an integral part of the Republic of Azerbaijan, occupied as a result of the aggressive war waged by the Armed Forces of the Republic of Armenia and other military formations against the Republic of Azerbaijan beginning in 1987 and liberated during the military operations conducted between 27 September 2020 and 10 November 2020; and despite Article 2 of the Charter of the United Nations of 26 June 1945, which provides that "all Members shall refrain in their international relations from the threat or use of force against the territorial integrity or political independence of any state, or in any other manner inconsistent with the Purposes of the United Nations"; and in gross violation of the provisions of the Protocol against the Illicit Manufacturing of and Trafficking in Firearms, Their Parts and Components and Ammunition, supplementing the United Nations Convention against Transnational Organized Crime, as well as the Warsaw Convention of 16 May 2005 on the Prevention of Terrorism, they, by recruiting persons of Armenian origin engaged in entrepreneurial activities within the territory of the Russian Federation who possessed substantial financial resources as well as extensive and stable connections and capabilities, reached a prior agreement and developed a plan with those persons for supplying the criminal association (organization) and the units within it with weapons, ammunition, explosives, military equipment, and military supplies.

For the implementation of that plan, Ruben Vardanyan and other members of the criminal association (organization), at various times until the end of May 2021, in violation of the requirements of the Customs Convention on the International Transport of Goods of 14 November 1975, ratified by the Republic of Armenia on 8 December 1993, and the Treaty on Conventional Armed Forces in Europe of 19 November 1990, transported, via the Russia-Armenia air route, using passenger aircraft arriving on various flights until 29 December 2020, as well as using the IL-76 TD cargo aircraft bearing tail number "76310," which had been on the balance sheet of the Armenian Air Force since 2006, was transferred in 2015 to the balance sheet of the "Atlantis Armenian Airlines" company of the Civil Aviation of the Republic of Armenia under tail number "EK76345," but was again operated by the Armenian Air Force under tail number "76310" during August and September 2020, and also using another IL-76TD cargo aircraft they had acquired, clandestinely procured and transported from the Russian Federation to the Republic of Armenia, and from there placed in the illegally established engineering and fortification positions in the Karabakh region and surrounding districts that had been under occupation as a result of the military aggression of the Republic

of Armenia, the following weapons and military equipment: the "Iskander-M" operational-tactical ballistic missile manufactured at the Votkinsk Plant in the Russian Federation, possessing great destructive force and a maximum firing range of 500 kilometers;

Page 69

the "Tochka-U" tactical missile system manufactured by the Kolomna Machine Design Bureau of the Russian Federation; the "9K33 OSA" self-propelled surface-to-air missile system; the "S-8" unguided aircraft rocket; the "Smerch" and "TOS-1A Solntsepek" systems; the "Igla-S" surface-to-air missile systems; the guided anti-tank "Konkurs" and "Kornet" missiles; the "RPG-26" grenade launchers; and various types of large-caliber military firearms, their component parts, ammunition, explosives, and explosive devices, and used them in the aggressive war against Azerbaijan and in the commission of other grave and especially grave criminal offenses.

In addition, the judgment states that during the period when Ruben Vardanyan participated in the criminal association/organization and in its leadership, acting in accordance with the common criminal purpose and intent, and contrary to international legal norms, including:

- the **Charter of the United Nations** of **26 June 1945**;
- UN General Assembly Resolution of **14 December 1974** on the **Definition of Aggression**;
- the **Fourth Geneva Convention of 12 August 1949 relative to the protection of civilian persons in time of war**;
- Articles **34, 130 and 147** of that Convention;
- Article **34** of the **First Additional Protocol of 8 June 1977** to the Geneva Conventions;
- the **European Convention for the Protection of Human Rights and Fundamental Freedoms** of **4 November 1950**;
- Protocol No. 1 to that Convention;
- the **International Covenant on Civil and Political Rights** of **16 December 1966**;
- the **Ottawa Convention of 3 December 1997** on the prohibition of anti-personnel mines;
- the Protocol on mines, booby-traps and other devices annexed to the **1980 Convention on Certain Conventional Weapons**;
- and the **Warsaw Convention on the Prevention of Terrorism** of **16 May 2005**,

he allegedly participated, from the beginning of **December 2020** until the end of **September 2023**, in the unlawful acquisition and transportation by members of the armed formations of various anti-tank and anti-personnel mines, and in their unlawful importation from the Republic of Armenia into the Republic of Azerbaijan.

These mines were unlawfully stored in specially separated locations, and that he participated in organizing the indiscriminate mining of territories of the Republic of Azerbaijan with numerous mines and other explosive devices without any military necessity.

First, according to the judgment, members of the criminal organization, acting in accordance with the common criminal intent and purpose of the association and each of its members, placed numerous **PMN-type anti-personnel mines** at different times in the territory of

Gulabird (Gulabird) village of the **Lachin district**, in areas liberated from occupation between **27 September and 1 December 2020**.

In the morning hours of 1 December 2020, while servicemen of Military Unit No. "N" of the Ministry of Defence were performing their official duties in the area of the former combat positions of the illegal Armenian armed formations established during the occupation in the territory of Gulabird village, Lachin District, they stepped on a PMN-type anti-personnel landmine of unknown origin and date of manufacture that had previously been planted in the area. As a result of the explosion, Private **Miraga Agamir oglu Mammadov**, serving as a medical orderly at the medical station of Military Unit No. "N" of the Ministry of Defence, sustained injuries classified as less serious bodily harm causing prolonged impairment of health, namely a traumatic amputation of the middle one-third of the right lower leg; Junior Sergeant **Safa Adilkhan oglu Huseynli**, serving as commander of the 2nd squad of the 1st engineer-sapper platoon of the engineer-sapper company, sustained pigmentation injuries to the right side of the face not causing bodily harm; and a soldier **Taleh Shakir oglu Rajili**, serving as a sapper in the engineer-sapper company, sustained a wound to the anterior surface of the right auricle not causing bodily harm, as well as other injuries. However, as they received timely qualified medical assistance and had avoided numerous fragments by lying on the ground during the incident, it was possible to save their lives.

Page 70

IIn addition, the members of the criminal organization (association), acting in accordance with the common criminal intent and purpose of the organization and each of its members, during the period in which they maintained occupation over part of the territory of Hasanqaya (Hasanqaya) village in the Tartar District, at dates that could not be precisely established, systematically planted numerous anti-tank and anti-personnel mines of unknown model and place of manufacture in close proximity to one another, thereby establishing ambushes and creating mined areas for the purposes of the said criminal organization.

At approximately 11:00 a.m. on 4 December 2020, soldier **Mammad Vahid oglu Salimov** of Military Unit No. "N" of the Ministry of Defence, located in the territory of Hasanqaya village, Tartar District, while ascending to Combat Position No. 12 of that military unit, was caught in the explosion of an anti-personnel landmine. As a result, he sustained a traumatic amputation below the lower one-third of the left lower leg, shrapnel wounds to both lower extremities and the right patella, as well as multiple penetrating blind shrapnel wounds classified as grievous bodily injuries dangerous to life. However, due to the timely provision of qualified medical assistance, it was possible to save his life, and they were unable to kill him.

In addition, the judgment states that members of the criminal organization, acting in accordance with the same common criminal intent and purpose, placed numerous explosive-type anti-tank mines marked **TM-62**, **TM-57 TMK-2**, **TM-72**, **TM-73** and **TM-83**, of unknown date and place of manufacture, on a road in the territory of **Zar village** of the **Kalbajar district**, an area liberated from occupation between **27 September 2020 and 5 December 2020**.

According to the judgment, on **5 December 2020**, at around **10:00**, servicemen of Military Unit No. "N" of the Ministry of Defence, travelling in a **KamAZ 4314** vehicle with military

registration number **H 256 QQ**, passed through the territory of **Zar village**. The vehicle struck one of the previously planted anti-tank mines.

As a result, the **KamAZ 4314** truck became completely unusable. The driver, **Vusal Rahim oghlu Valizade**, a contract servicemember serving as driver in the 2nd squad of the 1st battery of the 3rd artillery division of that military unit, sustained various injuries. The judgment states that, because fragments passed through the metal structure of the vehicle and lost lethal force, his life was saved, while significant damage was caused to the military vehicle.

In addition, the members of the criminal organization (association), acting in accordance with the common criminal intent and purpose of the organization and each of its members, in the territory of Jabrayil District and its surrounding villages, which they had occupied on 23 August 1993 as a result of the large-scale aggressive war they had launched against Azerbaijan, during the period immediately preceding the liberation of those territories from occupation, namely on dates that could not be precisely established between 27 September 2020 and 5 December 2020, systematically installed explosive devices in buildings that remained standing in the areas they abandoned, thereby establishing booby traps and creating mined areas for the purposes of the said criminal organization.

Following the commencement of intensified large-scale aggressive attacks on 27 September 2020, and after the Armed Forces of the Republic of Azerbaijan repelled those attacks through counter-offensive operations, as a result of which Jabrayil District and its surrounding villages were liberated from occupation on 3 October 2020, at approximately 10:00 a.m. on 5 December 2020, **Idrak Nizamaddin oglu Abbasov**, serving as First Lieutenant and Commander of the 1st Mobile Company of the Rapid Response Battalion of Military Unit No. "N" of the State Border Service, while on duty at the military unit located in the liberated territory of Jabrayil District,

was injured when the explosive component of a fragmentation hand grenade of the **"M-DN 11," "M-DN 21," "M-DN 31," or "M-DN 61"** type, manufactured by the German company **Diehl**, of unknown date of manufacture and previously installed as a booby trap in front of a window inside the guard building on the premises of the military unit, detonated. As a result of the explosion, he sustained injuries to various parts of his body, including small lacerated wounds to the third, fourth, and fifth fingers of his right hand and an avulsion fracture of the proximal end of the fifth metacarpal bone, injuries classified as less serious bodily harm causing prolonged impairment of health. However, due to the timely provision of qualified medical assistance, it was possible to save his life.

In addition, the judgment states that members of the criminal organization, acting in accordance with the same common criminal intent and purpose, placed numerous explosive-type anti-tank mines marked **TM-62**, **TM-57 TMK-2**, **TM-72**, **TM-73** and **TM-83**, of unknown date and place of manufacture, on a road in the territory of **Zar village** of **Kalbajar district**, during the period from **27 September 2020 to 5 December 2020**, when the area was liberated from occupation.

According to the judgment, on **6 December 2020**, at around **15:00**, servicemen of Military Unit No. "N" of the Ministry of Defence, travelling in a **KamAZ 4314** vehicle with military

registration number **H 692 QQ**, driven by **Yusif Murad oghlu Ahmadov**, passed through the territory of **Zar village**.

The vehicle struck one of the previously planted anti-tank mines and became completely unusable.

The judgment states that:

- **Javid Gahraman oghlu Ahmadov**, a warrant officer serving as commander of the 1st squad of the technical-support unit, sustained injuries;
- **Ramil Mammad oghlu Ibrahimov**, a soldier serving as head bulldozer operator of the road and technical unit of the engineer-fortification division, sustained severe injuries;
- **Yusif Murad oghlu Ahmadov**, a junior sergeant serving as driver of the material-support division, sustained severe injuries.

The judgment states that their lives were saved because specialized medical assistance was provided in time, and because fragments passed through the metal structure of the vehicle and lost lethal force. It further states that significant damage was caused to the military vehicle.

The judgment then states that members of the criminal organization, acting in accordance with the same common criminal purpose and intent, created mined areas and ambush conditions in the territory of the **Khojavand district**, which had been occupied on **2 October 1992** and liberated under the trilateral statement of **10 November 2020**.

It states that, during the period from **27 September 2020 to 6 December 2020**, at dates not precisely known, numerous anti-tank and anti-personnel mines of unknown mark, model and place of manufacture were placed close to one another.

Page 72

The judgment states that those mined areas were created for the purposes of the criminal organization.

According to the judgment, after the **Khojavand district** and many surrounding villages were liberated under the trilateral statement of **10 November 2020**, on **6 December 2020**, at around **13:30**, servicemen of the 5th battalion of a military unit of the Ministry of Defence, **Vusal Tagi oghlu Rahimli** and **Murad Vugar oghlu Ahmadov**, were moving on foot near the **Shahar settlement** of the **Khojavand district**.

They allegedly stepped on a previously planted anti-personnel mine of unknown date, place and mark of manufacture.

The judgment states that both servicemen sustained severe injuries, including injuries to their hands and lower limbs. It further states that, because they were evacuated in time and received specialized medical assistance, the lives of both servicemen were saved.

In addition, the judgment states that members of the criminal organization, acting in accordance with the same common criminal intent and purpose, created mined areas in the

territory of **Marzili village** of the **Aghdam district**, occupied on **11 June 1993** and liberated in **November 2020**.

According to the judgment, at dates not precisely known during **November–December 2020**, numerous anti-tank and anti-personnel mines of unknown mark, model and place of manufacture were placed close to one another.

The judgment states that, on **9 December 2020**, at around **17:10**, servicemen of a military unit of the Ministry of Defence of the Republic of Azerbaijan were travelling on a supply road in the territory of **Marzili village** in a **KamAZ 43114** vehicle with military registration number **D 588 QQ**, driven by company commander **Rashad Yavar oghlu Abbasov**.

The left rear wheel of the vehicle struck an anti-tank mine that had been planted earlier on the road. The explosion caused significant material damage to the vehicle.

The judgment states that **Rashad Yavar oghlu Abbasov**, soldiers **Ulfat Namaz oghlu Abbasov** and **Shahveran Fazail oghlu Safarov** sustained pressure-related and fragment-related injuries, but the fragments did not penetrate into the vehicle cabin and therefore did not kill them. Significant damage was caused to the military vehicle.

In addition, the judgment states that members of the criminal organization, acting in accordance with the same common criminal intent and purpose, created mined areas in **Shikhlar village** of the **Aghdam district**, occupied on **26 April 1994** and liberated on **20 November 2020**.

According to the judgment, at dates not precisely known, numerous anti-tank and anti-personnel mines of unknown mark, model and place of manufacture were placed close to one another.

The judgment states that on **13 December 2020**, at around **14:00**, servicemen of a military unit of the Ministry of Defence were moving along a trench path at a combat position in the territory of **Shikhlar village** and stepped on mines.

As a result, according to the judgment:

- soldier **Ayaz Hasrat oghlu Hasanli** sustained severe injuries to the left leg and other injuries;
- soldier **Shamistan Sabir oghlu Huseynov** sustained severe injuries to the left leg and other injuries;
- soldier **Vugar Ayaz oghlu Ibrahimov** sustained severe injuries to both legs;
- platoon commander, Senior Lieutenant **Anar Telman oghlu Asgarov**, also sustained injuries.

Page 73

The judgment continues the previous episode in **Shikhlar village** of the **Aghdam district**.

It states that the servicemen affected by the mine explosion suffered various head, hearing-related, blast-related and fragment-related injuries. The named servicemen included, among others:

- Captain **Jamil Gadimali oghlu Hasanov**, assistant to the commander of the military unit for legal affairs;
- soldier **Ceyhun Ashraf oghlu Gurbanov**;
- medical post chief, medical service lieutenant **Samir Safar oghlu Akbarov**.

The judgment states that, due to their timely lying down in the trench and the provision of medical assistance, they were unable to kill 7 servicemen.

In addition, the members of the criminal organization (union), acting in accordance with the common criminal intent and purpose of the union and each of its members, on the eve of the liberation from occupation of the village of Seyidli in the Aghdam region, which they occupied in July 1993, that is, between 27.09.2020 and 20.11.2020, in a planned manner, at close distances from each other, planted numerous anti-tank and anti-personnel mines of unknown brand, model and place of manufacture, and set up ambushes, creating mined areas for the purposes of the aforementioned criminal organization.

The large-scale aggressive attacks that were launched more actively starting from September 27, 2020, were prevented by the Armed Forces of the Republic of Azerbaijan and, as a result of the countermeasures taken, they traveled to the Aghdam region at around 15:00 on December 13, 2020, to visit their native lands in that area, which were completely liberated from occupation on November 20, 2020. Residents of the village of Zangishali - Elchin Ganboy oglu Mammadov, born on July 17, 1990, Shamistan Yunis oglu Rahimli, born on October 30, 1993, Orkhan Kamil oglu Ahmadov, born on February 6, 1994, Parviz Rahbar oglu Guliyev, born on October 16, 1987, and Togrul Vilayat oglu Ahmadov, born on June 5, 1989, were moving back from there, that is, in the direction of the village of Zangishali in the Aghdam region, along the trenches that were part of the engineering and fortification facilities of the criminal organization. As a result of the explosion of one of the mines, Elchin Mammadov suffered crushed and torn wounds of the intestines that penetrated the abdominal cavity of the latter, injury to the iliac artery, traumatic amputation of the right calf, left thigh, left hip, pelvic bones fractures, multiple shrapnel wounds to the body accompanied by severe bleeding, intentionally killing him. Orkhan Ahmadov, who was with him at that time, suffered a crushed lacerated wound of the soft tissues of the outer corner of the right eye socket, a burn of the right earlobe, the back of the right neck, a thermal burn of the upper 1/3 of the right thigh and calf, multiple abrasions of the abdomen and right upper limbs, and Togrul Ahmadov suffered a non-penetrating lacerated wound on the left half of the anterior abdominal wall, a displaced transverse fracture of the distal 1/3 of the left radius and other injuries, and with the help of Shamistan Rahimli and Parviz Guliyev, who were nearby, they were evacuated from the scene and taken to the hospital, where it was possible to save their lives with the timely qualified medical assistance provided.

Page 74

In addition, the members of the criminal organization (union), acting in accordance with the common criminal intent and purpose of the union and each of its members, as a result of the large-scale aggressive war they launched against Azerbaijan, on July 23, 1993, during the period when they occupied the territory of the Aghdam region and surrounding villages, planned and planted numerous anti-tank and anti-personnel mines of unknown brand, model, and production location at close distances, set up ambushes, and created mined areas for the purposes of the aforementioned criminal organization.

As a result of the countermeasures taken by the Armed Forces of the Republic of Azerbaijan, the large-scale aggressive attacks that were launched more actively starting from September 27, 2020, were prevented and, in accordance with the trilateral statement dated November 10, 2020, after the liberation of the Aghdam region and many surrounding villages from occupation on November 20, 2020, the engineering and fortification unit of the "N" military unit of the Ministry of Defense—the chief sapper of the 2nd engineer-fortification platoon, soldier Tahbli **Asif Soltanagha oglu**, and the sapper of the 1st obstacle clearance squad of the obstacle clearance platoon of the same unit, soldier **Ibadov Mahammad Shahruddin oglu**—according to the order of the commander of military unit No. "N" dated December 10, 2020, at around 13:10 on December 14, 2020, while conducting mine clearance work around the Marzili village of the liberated Aghdam region, stepped on an anti-personnel mine that had been buried in the area.

As a result of the explosion, soldier Asif Talibly suffered severe, life-threatening injuries, resulting in the amputation of the lower one-third of his left leg, and soldier Mahammad Ibadov, who was nearby, suffered shrapnel injuries in various parts of his body, causing a short-term deterioration in his health. Both soldiers were evacuated in a timely manner and received qualified medical assistance. It was possible to save the lives of the servicemen.

In addition, the members of the criminal organization (union), acting in accordance with the common criminal intent and purpose of the union and each of its members, on the eve of the liberation from occupation near the village of Tazakand in the Aghdam region, which they occupied in April 1994, that is, between 27.09.2020 and 20.11.2020, systematically planted numerous anti-tank and anti-personnel mines of unknown brand, model, and production location, in close proximity to each other, and set up ambushes, creating mined areas for the purposes of the aforementioned criminal organization.

As a result of the countermeasures taken by the Armed Forces of the Republic of Azerbaijan, the large-scale aggressive attacks that began more actively starting from September 27, 2020, were prevented, and in that area, which was completely liberated from occupation on November 20, 2020, at around 13–14 on December 14, 2020, a resident of Sumgayit city, **Mamedov Natig Nureddin oglu**, born on 10 October 1989, went to the liberated Ergi plain of the Aghdam region in his own car, registered as "<NKZ 21074>", with the state registration number 10-HS-115, with the aim of walking with his neighbor **Khayal Verdiyev**.

There, while getting out of the car and walking in the area, he became separated from Khayal Verdiyev, and a landmine exploded. As a result, he suffered a traumatic amputation of the middle one-third of his left calf and shrapnel wounds to his right thigh and right calf, which would have caused serious harm to his health in a living person, due to the impact of shrapnel. With the help of Khayal Verdiyev, who was nearby at the time, he was evacuated from the scene and taken to the hospital, where he received timely qualified medical assistance and his life was saved.

In addition, the members of the criminal organization (union), acting in accordance with the common criminal intent and purpose of the union and each of its members, as a result of the large-scale aggressive war they launched against Azerbaijan, on the eve of the liberation of the territory of the **Khojavend region** occupied by them on October 2, 1992, that is, during September–December 2020, on unknown dates, in a planned manner, planted numerous anti-tank and anti-personnel mines of unknown brand, model, and place of manufacture at close distances from each other, set up ambushes, and created mined areas for the purposes of the said criminal organization.

In accordance with the Trilateral Statement II dated November 10, 2020, after the liberation of the Khojavend region and many surrounding villages from occupation, on December 17, 2020, at 11:10, the driver of the military unit "N" of the Ministry of Defense of the Republic of Azerbaijan, soldier Ismayilov Javad Asif oglu, while driving a "Wall vehicle", approximately 500 meters before reaching the main command post, hit an anti-tank mine that had been previously planted in the area.

As a result, driver Javad Ismayilov suffered burn shock due to severe thermal burns of various parts of the body of the 11th–12th degree, which were life-threatening, and massive internal bleeding due to rupture of the spleen. The commander of the radio platoon of the communications unit in the vehicle, Senior Lieutenant Aghayev Asaf Abid oglu, suffered open fractures of the left thigh and left calf bones and injuries to large arteries, which were life-threatening, as well as massive external bleeding due to traumatic hemorrhagic shock injuries. The assistant to the chief of the operations department for planning, Major Eminov Elmdar Hasan oglu, suffered closed head trauma and other injuries, which caused minor damage to health in a short period.

As a result of the explosion, two persons were killed and one person was injured. The vehicle was also damaged and rendered completely unusable, causing significant material damage.

In addition, the members of the criminal organization (union), acting in accordance with the common criminal intent and purpose of the union and each of its members, on the eve of the liberation of **Mehdili village of the Jabrayil district** of the Republic of Azerbaijan, which they occupied in August 1993, that is, during September–December 2020, on the eve of the liberation of those territories from occupation, planned and set up ambushes at close distances from each other by planting numerous anti-tank and anti-personnel mines of unknown brand, model, and place of manufacture, and created mined areas for the purposes of the said criminal organization.

On December 19, 2020, at around 08:00, while military personnel of the "N" military unit of the Ministry of Defense were carrying out mine clearance work in **Mehdili village of the Jabrayil district of the Republic of Azerbaijan**, the front left wheel of a "MAZ" truck with military license plate B 202 QQ, belonging to the military unit, hit an anti-tank mine that had been previously planted in the middle of the road, resulting in material damage to the vehicle and the death of a junior sergeant.

Gurbanli Mahabbat Maharram oglu sustained a life-threatening shrapnel wound accompanied by a traumatic avulsion of the lower one-third of the right calf and open, displaced fractures of the left calf bones, and his life was saved due to timely qualified medical assistance. Lieutenant **Huseynli Etibar Javid oglu** sustained a shrapnel wound of undetermined severity accompanied by abrasions of the right eyelid and right knee. **Junior Sergeant Gurbanov Tarlan Tajeddin oglu** sustained a shrapnel wound of undetermined severity accompanied by abrasions on the front surface of both calves and the right hand. Due to timely qualified medical assistance, three servicemen's lives were saved.

In addition, the members of the criminal organization (association), acting in accordance with the common criminal intent and purpose of the association and of each of its members, in the village of **Kechikli of the Zangilan district**, which had been occupied on 29 October 1993, during the period shortly before the liberation of those territories, namely between September

and December 2020, at unspecified dates, in a planned manner, at close distances from each other, planted numerous anti-tank and anti-personnel mines of unknown brand, model, and place of manufacture, set ambushes, and created mined areas for the purposes of the said criminal organization. After the liberation from occupation on 09 November 2020, on 21 December 2020 at 16:30, when servicemen of the military unit "N" of the Ministry of Defense of the Republic of Azerbaijan were transporting necessary equipment to a position to be established on a strategic height in the village of Kechikli;

Page 76

Zangilan district, as the front left wheel of a military unit truck of the "Ural" brand, with military registration number F 552 QQ, hit an anti-tank mine previously planted in the middle part of the road, the vehicle was materially damaged and the deputy battalion commander, lieutenant colonel **Orucaliyev Ibrahim Burj oghlu** sustained injuries classified as less severe harm causing long-term health disorder, accompanied by fractures of both legs and ribs, blunt chest trauma, and lung contusion; the platoon commander present in the same vehicle, junior sergeant **Mammadov Elvin Islam oghlu** sustained injuries classified as less severe harm causing long-term health disorder, accompanied by fractures of the heel, ankle, wedge-shaped bone of the right foot, right shin bone, and right hand; and soldier Hashimov Ilgar Etibar oghlu present in the same vehicle sustained injuries classified as minor harm to health causing short-term health disorder, accompanied by abrasions of the forehead, neck, chest, and right shin regions. Due to timely medical assistance, the three servicemen could not be killed.

In addition, the members of the criminal organization (association), acting in accordance with the common criminal intent and purpose of the association and each of its members, as a result of the aggressive war they started against Azerbaijan; during the occupation of **Talysh village of the Tartar region**, which they occupied on April 22, 1994, set up ambushes and, as a result of countermeasures, on December 25, 2020, at around 15:30, the 4th military unit of the Ministry of Defense No. 4, which performs its duties on the protection of the territorial integrity and public safety of the Republic of Azerbaijan, near combat position No. 24 of military unit No.N — the driver of the vehicle crew of the material and technical support platoon of the battalion, active military serviceman Tagiyev Giyas Fariz oglu, assigned to him with the "MAZ" vehicle with military license plate "C 159 QQ", was involved in an explosion that occurred as a result of passing over one of those mines.

As a result of the explosion, he sustained severe injuries, including traumatic amputation of the right leg and shrapnel wounds to the forehead and right lower limb at the level of the sacroiliac joint. He was evacuated to the mobile medical team of the Ministry of Defense "N" hospital, and his life was saved due to timely qualified medical assistance.

In addition, the members of the criminal organization created mined areas in **Hasangaya village** of the **Tartar district**, which they had held under control.

According to the judgment, at dates not precisely known, numerous mines of unknown mark, model and place of manufacture were placed close to one another.

On **29 December 2020**, at around **11:15**, Captain **Vusal Zabit oghlu Shabanov**, serving as commander of the 1st engineer-fortification team of the obstacle-clearing division of a

military unit of the Ministry of Defence, was conducting a mine-clearance operation in that area.

He stepped on one of the mines, as a result of which he sustained severe injuries. He was evacuated first to a military hospital of the Ministry of Defence, then to the Main Clinical Hospital of the Armed Forces, and his life was saved because specialized medical assistance was provided in time.

Page 77

In addition, the judgment states that members of the criminal organization, acting in accordance with the common criminal intent and purpose of the organization and of each of its members, created mined areas and ambush conditions in the territory of **Jabrayil district** and its surrounding villages, which had been occupied on **23 August 1993** and later liberated during the period of **September–December 2020**.

According to the judgment, at dates not precisely known, during the period when those areas were under occupation, numerous anti-tank and anti-personnel mines of unknown mark, model and place of manufacture were deliberately placed close to one another.

After the broader attacks beginning on **27 September 2020** were countered by the Armed Forces of the Republic of Azerbaijan, **Jabrayil district** and surrounding villages were liberated on **3 October 2020**.

On **30 December 2020**, at around **16:00**, servicemember of military unit No. “N” of the **State Border Service**, junior warrant officer **Sarkhan Karim oghlu Karimli**, was performing service duties in the territory of **Jabrayil district**, in a liberated area where a military unit was located.

According to the judgment, inside a guard building located in the former military-unit area, an explosive device produced by the German company **Diehl**, marked **M-DN 11**, **M-DN 21**, **M-DN 31** and **M-DN 61**, had been installed as a trap opposite the window. The explosion caused injuries to Karimli. The judgment states that his life was saved because, at the moment of explosion, he lay down on the floor and thereby avoided numerous fragments.

In addition, the judgment states that members of the criminal organization created mined areas in **Gorgan village** of the **Fuzuli district**, which had been occupied in **August 1993** and later liberated.

According to the judgment, on **1 January 2021**, at around **11:00**, civilian resident of **Shukurbeyli village** of the **Fuzuli district**, **Zabil Gabil oghlu Babayev**, went to an open field area to graze small livestock. He stepped on one of the previously planted mines.

The judgment states that he sustained life-threatening injuries and died.

In addition, the judgment states that members of the criminal organization created mined areas in the territory of **Gubadli district**, which had been occupied on **31 August 1993** and later liberated during **September 2020–January 2021**.

According to the judgment, at dates not precisely known, during the period when the district was under occupation, numerous anti-tank and anti-personnel mines of unknown mark, model and place of manufacture were placed close to one another, creating mined areas and ambush conditions.

The judgment states that, after the district was liberated on **25 October 2020**, on **1 January 2021**, at around **18:00**, in the territory of **Gubadli district**, at height **1226** located on the state border with the Republic of Armenia

Page 78

the reconnaissance-medic of the 2nd reconnaissance group of the reconnaissance company of military unit No. "N" of the Ministry of Defence, warrant officer **Vasif Uzeyir oghlu Maharramov**, was performing his service duties.

According to the judgment, he stepped on an anti-personnel mine of unknown mark and model. The explosion caused fatal injuries, and the judgment states that he was intentionally killed.

In addition, the judgment states that members of the criminal organization created mined areas near **Marzili village** of the **Aghdam district**, which had been occupied in **June 1993** and later liberated between **27 September 2020 and 20 November 2020**.

According to the judgment, at dates not precisely known, during the occupation period, numerous anti-tank and anti-personnel mines of unknown mark, model and place of manufacture were deliberately placed close to one another.

On **8 January 2021**, at around **12:00–13:00**, **Elgiz Malik oghlu Mammadov**, born on **15 February 1984**, resident of **Mingachevir city**, was driving a "**Howo"** truck with registration number **23-AC-523**, belonging to **Goychay ATF LLC**, loaded with construction materials, while travelling toward **Marzili village** for road-construction work.

According to the judgment, a mine planted in the ground exploded. Mammadov sustained life-threatening injuries, but his life was saved because employees of the **Azerbaijan Mine Action Agency** helped evacuate him from the scene and specialized medical assistance was provided in time.

In addition, the judgment states that members of the criminal organization created mined areas in the territory of **Zangilan district**, which had been occupied on **29 October 1993** and later liberated during **September 2020–January 2021**.

According to the judgment, after **Zangilan district** and its surrounding villages were liberated on **20 October 2020**, on **12 January 2021**, at around **13:00**, the commander of the 1st battalion of military unit No. "N" of the **Gubadli Border Corps** of the State Border Service, Captain **Sarkhan Ilgar oghlu Mukhtarov**, was travelling in a **Mitsubishi** vehicle with military registration number **F 449 QQ**, together with soldier **Majid Jalil oghlu Safarov**, a line supervisor of the communications team.

The judgment states that, while moving in the direction of **Yukhari Yemazli village** of **Zangilan district**, the vehicle struck a previously planted anti-tank mine.

As a result, Captain **Sarkhan Mukhtarov** died. Soldier **Majid Safarov** sustained injuries, but his life was saved because the blast and fragments were absorbed by Mukhtarov's body. The judgment also states that the military vehicle became unusable, causing significant damage to the military unit.

Page 79

In addition, the judgment states that members of the criminal organization created mined and non-designated explosive areas in the territory of the current **Aghdara district**, which had been occupied during the occupation period.

According to the judgment, after **Talysh village** of **Aghdara district** was fully liberated from occupation on **3 October 2020**, on **13 January 2021**, at around **11:00**, road-widening works were being carried out on the **Tartar–Sugovushan–Talysh** automobile road, in the section passing through **Talysh village**.

The work was being carried out by the **"54th Road Maintenance" Limited Liability Company** of the **Azerbaijan Automobile Roads State Agency**. Bulldozer driver **Elyar Hidayat oghlu Ocaqverdiyev**, born on **1 April 1960**, resident of **Seydimli village** of **Barda district**, was operating a **LIU GONG CLG B160** bulldozer with state registration number **10 A 867**.

According to the judgment, while conducting soil-compaction works, the right blade wheel of the bulldozer struck an anti-tank mine. Ocaqverdiyev sustained injuries but was not killed because he was inside the bulldozer cabin and the fragments did not directly reach him. The judgment states that the bulldozer, valued at **13,419 manats**, sustained significant damage.

In addition, the judgment states that members of the criminal organization created mined areas in **Ashaghi Veysalli village** of the **Fuzuli district**, which had been occupied in **August 1993** and liberated on **20 October 2020**.

According to the judgment, on **21 January 2021**, at around **08:00**, soldier **Rashad Farzali oghlu Javadov**, serving in military unit No. "N" of the Ministry of Defence, was moving toward a shelter in a trench located in that village.

The judgment states that a mine planted in the shelter exploded, causing fatal injuries. Javadov was intentionally killed.

In addition, the judgment states that members of the criminal organization created mined areas in **Mehdili village** of the **Jabrayil district**, which had been occupied on **23 August 1993** and later fully liberated on **3 October 2020**.

According to the judgment, at dates not precisely known, during the occupation period, numerous anti-tank and anti-personnel mines of unknown mark, model and place of manufacture were deliberately placed close to one another.

On **22 January 2021**, at around **10:00**, an employee of the **Azerbaijan Mine Action Agency**

Page 80

deminer of the mine-search group of the Azerbaijan Mine Action Agency, **Azar Ali oghlu Sultanov**, born on **26 October 1974**, resident of **Horadiz city** of the **Fuzuli district**, was carrying out demining operations near the railway line passing through **Mehdili village** of **Jabrayil district**.

According to the judgment, he stepped on a **PMN-type anti-personnel mine**. The explosion caused injuries, but his life was saved because he was transported to the **Fuzuli Treatment and Diagnostic Centre** and specialized medical assistance was provided in time.

In addition, the judgment states that members of the criminal organization created mined areas in **Sugovushan village** of **Aghdara district** and surrounding areas, which were liberated on **3 October 2020**.

According to the judgment, between **27 September 2020 and 3 October 2020**, in the border area between **Chileburt village** and **Giziloba village** of the **Aghdara district**, an anti-tank mine was placed.

On **28 January 2021**, at around **13:00**, tractor driver **Elgun Mahmud oghlu Alakbarov**, born on **21 December 1987**, resident of **Seydimli village** of **Barda district**, was operating a **John Deere** tractor with state registration number **90-775**, belonging to the **Tartar branch of MKT IK LLC**.

According to the judgment, while conducting ploughing work in a crop field, the right front wheel of the tractor struck the mine. Alakbarov sustained injuries but was not killed because he received specialized medical assistance in time. The judgment also states that the tractor sustained significant damage.

In addition, the judgment states that members of the criminal organization created mined areas near **Shuraabad village** of the **Aghdam district**, which had been occupied in **April 1994** and later liberated on **20 November 2020**.

According to the judgment, on **29 January 2021**, at around **11:00**, **Elmaddin Tofig oghlu Mirzayev**, born on **4 July 1983**, resident of **Yukhari Qiyamaddinli village** of **Aghjabadi district**, head of a demining section of the **Azerbaijan Mine Action Agency**, was clearing the right side of an automobile road passing through the territory of **Shuraabad village**.

The judgment states that he stepped on a **PMN-type anti-personnel mine** planted there. He sustained life-threatening injuries, but his life was saved because he was evacuated from the scene and received specialized medical assistance in time.

In addition, the members of the criminal organization (union), acting in accordance with the common criminal intent and purpose of the union and each of its members, on the eve of the liberation from occupation of the territory in the village of **Yukhari Yaglivand of the Fuzuli region**, which they occupied on August 15, 1993,

that is, during September–November 2020, on unknown dates, in a planned manner, planted numerous anti-tank and anti-personnel mines of unknown model and production location at

close distances from each other, set up ambushes, and created mined areas for the purposes of the aforementioned criminal organization.

As a result of the countermeasures taken by the Armed Forces of the Republic of Azerbaijan to prevent the large-scale aggressive attacks that were launched more actively starting from September 27, 2020, on November 9, 2020, in the territory that had been completely liberated from occupation on November 2, 2020, at around 17:00, residents of Shahsevan village, **Mukhtarov Azad Aydin oglu, Mamishov Rafis Mahaddin oglu, and Imanov Bahruz Telman oglu**, were traveling in a "Gaz 53" truck with state registration number 11-BF-263, driven by the latter, when it ran over one of those anti-tank mines.

As a result of the explosion, Imanov Bahruz Telman oglu suffered combined blunt trauma to the head, torso, and extremities; crushed and lacerated wounds to the cheek, neck, back surface of the right elbow joint, anterior abdominal wall, and both lower extremities; a crushed and collapsed left eyeball; traumatic amputation of the upper one-third of the left calf; displaced fractures of the middle one-third of the right calf bones; acute hemorrhage; and severe traumatic shock. Mukhtarov Azad Aydin oglu lost vision in his left eye. Mamishov Rafis Mahaddin oglu suffered multiple fractures of the left orbital (periorbital) bones, multiple shrapnel wounds to the face and head, and minor shrapnel injuries, which led to long-term impairment of his health. However, their lives were saved because they were taken to the hospital in time and received qualified medical assistance.

The "Gaz 53" truck with state registration number 11-BF-263, driven by Imanov Bahruz Telman oglu during the incident, was rendered unusable and suffered significant damage.

In addition, the judgment states that members of the criminal organization created mined areas in **Nuzgar village** of the **Jabrayil district**, which had been occupied on **23 August 1993** and later liberated between **27 September 2020** and **10 November 2020**.

According to the judgment, at dates not precisely known during that period, they deliberately placed numerous anti-tank and anti-personnel mines of unknown model and place of manufacture close to one another.

On **3 February 2021**, at around **19:00**, civilian resident of **Horadiz city** of the **Fuzuli district**, **Ilgar Nabi oghlu Ahmadov**, born on **18 December 1969**, travelled to **Nuzgar village** in a **VAZ-2106** vehicle with state registration number **99-NH-623**.

He was travelling together with fellow villagers:

- **Mustagim Allahveren oghlu Alasgarov**, born on **11 October 1971**;
- **Mehman Allahverdi oghlu Guliyev**, born on **6 December 1988**.

According to the judgment, while the vehicle was moving along the road passing through **Nuzgar village**, it drove over an anti-tank mine described as **TM-62P2**. The explosion killed **Mehman Guliyev**, **Mustagim Alasgarov**, and **Ilgar Ahmadov**.

The **VAZ-2106** vehicle belonging to **Ilgar Ahmadov** was completely destroyed.

The military-political leadership of the Republic of Armenia, including the armed forces and other armed formations, as well as their direct material, technical, and personnel support, centralized management, oral and written instructions, and strict control of the criminal organization and its structural units, which are illegally operating in the territory of the Republic of Azerbaijan in violation of domestic and international law, and its members, whose identities are unknown, equipped with various types of firearms, ammunition, military equipment, and other weapons, carried out the implementation of the criminal plan in accordance with the common goal and intention, namely, to ensure the continuation of the aggressive war they launched against the Republic of Azerbaijan and to keep the occupied territories under their control, to kill them on the basis of national-ethnic hatred and hostility they formed against Azerbaijanis in Armenian society, and for other criminal purposes.

On February 4, 2021, at around 13:05, military personnel of the "N" military unit of the Ministry of Defense, located in the territory of **Shelli village of the Aghdam region** of the Republic of Azerbaijan, were deployed to the designated place of deployment.

During the combat operations that lasted from September 27, 2020, to November 10, 2020, the same armed groups found a 300 mm cluster-type warhead and fragmentation warhead used in the "Smerch" multiple launch rocket system, which was dropped by the same armed groups in gross violation of the provisions of the United Nations Oslo (Norway) "Convention on Cluster Munitions" dated December 3, 2008, and as a result of the grenade falling from the latter's hand and exploding, **Zeynalov Gubad Islam oglu**, a soldier of the "N" military unit of the Ministry of Defense who was performing his official duties to protect the territorial integrity and public security of the Republic of Azerbaijan, was intentionally killed after receiving life-threatening serious bodily injuries, including penetration of the abdominal and chest cavities, damage to internal organs and major arteries, and severe bleeding.

The soldier serving in that position, **Malikmammadov Balagardash Mubariz oglu**, suffered a severe, life-threatening shrapnel wound accompanied by wounds penetrating the pleural cavity of the left half of the chest, a fracture of the nasal bones, wounds to the left side of the neck, and wounds to the right knee area. Babayev Nemat Novruz oglu suffered a severe, life-threatening injury accompanied by wounds penetrating the pleural cavity of the right half of the chest, fractures of the right tibia and left fibula, but his life was saved due to timely qualified medical care. **Mamedov Aykhan Kerimkhan** oglu suffered multiple blunt shrapnel wounds to both lower extremities and minor injuries causing short-term impairment of health, accompanied by damage to soft tissues. Zeynalov Ali Afgan oglu suffered a blast trauma and minor injuries causing short-term impairment of health, accompanied by a blunt shrapnel wound to the upper one-third of the left thigh.

Four military personnel could not be killed because they were protected by the impact and reached the trench in time, where they received medical assistance.

In addition, members of the criminal organization (union), acting in accordance with the common criminal intent and purpose of the union and each of its members, as a result of the aggressive war they launched against Azerbaijan, in the village of **Sugovushan** of the **Tartar region**, which was occupied in April 1994; on the eve of the liberation of those territories from occupation, that is, during September–November 2020, on unknown dates, planned and planted numerous anti-personnel mines of unknown brand, model, and place of manufacture

at close distances from each other, set up ambushes, and created mined areas for the purposes of the aforementioned criminal organization.

Starting from September 27, 2020, as a result of countermeasures carried out by the Armed Forces of the Republic of Azerbaijan,

in a forest area in the area of combat position No. 27, approximately 500 meters to the right of the height called "1047," located in the territory of the village of **Sugovushan** of the **Tartar region**, which was liberated from occupation as a result of countermeasures carried out by the Armed Forces of the Republic of Azerbaijan, on February 13, 2021, at 12:45 p.m., Private **Hasanov Alihasan Tumar oglu**, the shooter of the 1st squad of the 2nd platoon of the 3rd company of the 1st battalion of the 1st division, suffered life-threatening shrapnel wounds causing serious harm to health, accompanied by traumatic amputation of the right lower limb from the calf region, during an explosion that occurred as a result of stepping on one of those mines while performing his duties. His life was saved due to timely qualified medical assistance.

In addition, the members of the criminal organization (union), acting in accordance with the common criminal intent and purpose of the union and each of its members, as a result of the large-scale aggressive war they launched against Azerbaijan, on the eve of the liberation of the territories from occupation on August 23, 1993, that is, during September–October 2020, on unknown dates, in the **Jabrayil district** and surrounding villages, planned and planted numerous anti-tank and anti-personnel mines of unknown model and production location at close distances, and set up ambushes, creating mined areas for the purposes of the aforementioned criminal organization.

As a result of the countermeasures taken by the Armed Forces of the Republic of Azerbaijan, the large-scale aggressive attacks that were launched more actively starting from September 27, 2020, on October 4, 2020, after the liberation of the **Jabrayil district** and surrounding villages from occupation, military personnel of military unit No. "N" of the Ministry of Defense of the Republic of Azerbaijan, which was performing its duties to protect the territorial integrity and public security of the Republic of Azerbaijan, were carrying out mine clearance work in **Amirvarli village** of the **Jabrayil region**, when Lieutenant **Huseynli Etibar Javid oglu** was exposed to the explosion of an anti-personnel mine of the "PMN" brand, the production date and location of which are unknown, which had been buried in the area under unknown circumstances.

As a result, he suffered life-threatening injuries, including severe blunt trauma to the right eye, abrasions to the cornea and conjunctiva, and a laceration to the left instep area accompanied by myopia of the left eye, as well as other injuries. His life was saved thanks to timely qualified medical assistance.

In addition, themembers of the criminal organization created mined areas in Talysh village of the Aghdara district, which had been occupied in April 1994 and fully liberated on 3 October 2020.

According to the judgment, on 18 February 2021, at around 18:00, civilian resident of Chaylivillage of the Aghdara district, Bakhtiyar Mahmud oghlu Mahmudov, born on 15 June

1988, drove his Niva vehicle with state registration number 01-BC-845 to that village in order to collect abandoned metal scrap from open areas.

After stopping the car in an empty plot of land and getting out, he saw a piece of metal nearby, picked it up, and began walking back toward the vehicle. He then stepped on a camouflaged anti-tank mine.

As a result of the explosion in that mine, Bakhtiyar Mahmudov was intentionally killed at the scene of the incident, causing serious damage to his health, including a life-threatening blast trauma, residual injuries to the head, face and neck, dismemberment of the chest and abdominal organs, traumatic amputation of the upper and lower limbs, multiple fractures, and multiple shrapnel wounds to the body. It also intentionally caused significant damage to Bakhtiyar Mahmudov by damaging his "NIVA" car with state registration number 01 BC 845 during the explosion.

Page 84

Furthermore, the members of the criminal organization, acting in accordance with the common criminal intent and purpose of the association and each of its members, in the territory of **Mehdili village of Jabrayil district**, which they had occupied on **23 August 1993**, seeing that the village would be liberated from the occupation of the Republic of Armenia during the military operations conducted by the Armed Forces of the Republic of Azerbaijan from **27 September 2020**, during the period from **27 September 2020 to 3 October 2020**, planted numerous mines of unknown type and model and created mined areas.

On **25 February 2021**, at around **14:00**, a civilian resident of **Cocuq Marcanli village of Jabrayil district**, **Mirzaliyev Guloghlan Imran oglu**, born on **10 October 1964**, while grazing small livestock in the territory of the liberated village of Mehdili, at a hill located **452 metres** away from the entrance area of the administrative building of the Cocuq Marcanli village office of **“Azerbaijan Amelioration and Water Management” OJSC**, in a south-western direction toward Mehdili village along a dirt road, sustained bodily injuries as a result of the explosion of one of the **“PMN” type anti-personnel mines** in the pasture area. These injuries consisted of an intra-articular closed fracture of the distal end of the left tibia, with displaced fragments, characteristic of **less serious harm to health** causing a long-term impairment of health. He was taken by fellow villagers nearby to the **Fuzuli Treatment and Diagnostic Centre**, where timely qualified medical assistance made it possible to save his life.

Furthermore, the members of the criminal organization , acting in accordance with the common criminal intent and purpose of the association and each of its members, as a result of the aggressive war they had launched against Azerbaijan, in **Ashaghi Xocamsaqli village of Qubadli district**, which they had occupied on **31 August 1993**, on the eve of the liberation of that territory, that is, during **September–November 2020**, on dates not precisely established, deliberately planted, at close distances from one another, numerous anti-

personnel mines of unknown brand, model and place of manufacture, set ambushes, and created mined areas for the purposes of the said criminal organization.

Following the more active commencement, from **27 September 2020**, of large-scale aggressive attacks, which were repelled by the Armed Forces of the Republic of Azerbaijan through countermeasures, the said territory was liberated from occupation on **25 October 2020**. On **26 February 2021**, at around **17:00**, while servicemen of the engineering-sapper company of the **Qubadli Separate Border Division of the State Border Service**, who were performing their duties in protecting the territorial integrity and public security of the Republic of Azerbaijan, were carrying out mine-clearance operations in that area, an explosion occurred when they stepped on one of the said mines.

As a result of that explosion, **junior warrant officer Azizli Nuraddin Qurbaddin oglu** sustained shrapnel wounds to both lower legs and the left foot, accompanied by post-traumatic amputation of the right lower limb at the upper one-third of the lower leg, injuries which in their totality constituted **serious harm to health**. **Junior warrant officer Alishanov Elmaddin Çingiz oglu** sustained shrapnel wounds to the face, neck, right hand, right eye and left eye, which in their totality constituted **serious harm to health**. **Junior warrant officer Naghiyev Vaqif Shamil oglu** sustained shrapnel wounds to both lower legs, the face and the right hand, accompanied by post-traumatic amputation of the left lower limb at the lower one-third of the lower leg, injuries which in their totality constituted **serious harm to health**. However, they were evacuated to the military hospital of the State Border Service, and timely qualified medical assistance made it possible to save the lives of all three servicemen.

Page 85

Junior warrant officer Ibrahimov Vuqar Elxan oglu sustained shrapnel wounds to the left thigh, which in their totality caused a short-term impairment of health and constituted **minor harm to health**; he was able to save his life by avoiding other fragments.

Furthermore, the members of the criminal organization , acting in accordance with the common criminal intent and purpose of the association and each of its members, near **Novruzlu village of Aghdam district**, which they had occupied in **July 1993**, on the eve of the liberation of that village by the Armed Forces of the Republic of Azerbaijan, that is, during the period from **27 September 2020 to 20 November 2020**, deliberately planted, at close distances from one another, numerous anti-tank and anti-personnel mines of unknown brand, model and place of manufacture, set ambushes, and created mined areas for the purposes of the said criminal organization.

On **3 March 2021**, at around **15:00**, **Azimzada Hafis Salim oglu**, born on **2 April 1967**, a resident of Barda district and head of the Aghdam Mechanical Irrigation Department of **"Amelioration and Water Management" OJSC**, together with his colleagues **Qasimov Nuraddin Sabir oglu** and **Sadiqov Iqbal Ilqar oglu**, was performing his official duties in the territory of the liberated villages of **Yusifcanli** and **Novruzlu** of Aghdam district in order

to determine the locations of water sources — sub-artesian wells — and to assess their condition, namely whether they were usable or not. While he was somewhat ahead of his colleagues, near Novruzlu village of Aghdam district, a **"PMN-E" type high-explosive anti-personnel mine** exploded. As a result, he sustained, due to the effect of fragments, superficial shrapnel wounds to both upper limbs and shrapnel wounds to the right foot/lower leg, complicated by amputation of the right lower limb at the upper one-third of the lower leg, injuries constituting **serious harm to health** and dangerous to life. With the help of his colleagues, he was evacuated from the scene and taken to hospital, where timely qualified medical assistance made it possible to save his life.

Furthermore, the members of the criminal organization, acting in accordance with the common criminal intent and purpose of the association and each of its members, near **Marzili village of Aghdam district**, which they had occupied in **June 1993**, on the eve of the liberation of that village by the Armed Forces of the Republic of Azerbaijan, that is, during the period from **27 September 2020 to 20 November 2020**, deliberately planted, at close distances from one another, numerous anti-tank and anti-personnel mines of unknown brand, model and place of manufacture, set ambushes, and created mined areas for the purposes of the said criminal organization.

On **13 March 2021**, at around **09:00**, **Baxshaliyev Iman Eyvaz oglu**, born on **24 July 1980**, a resident of **Qalaghan village of Ismayilli district**, went to a land plot near Marzili village of Aghdam district where he regularly grazed sheep. At around **15:00**, when he saw that the sheep had entered a mined area in front of an old trench dug in that territory and attempted to remove them from there, a mine buried in the ground exploded. As a result, he sustained, due to the effect of fragments, traumatic separation of the right lower leg from the lower one-third, an open fracture of the distal phalanx of the first finger of the right hand with displaced fragments, and multiple contused wounds on the surface of the body, injuries constituting **serious harm to health** and dangerous to life. With the help of nearby servicemen, he was evacuated from the scene and taken to hospital, where timely qualified medical assistance made it possible to save his life.

Furthermore, the members of the criminal organization, acting in accordance with the common criminal intent and purpose of the association and each of its members, as a result of the aggressive war they had launched against Azerbaijan, near **Yusifcanli village of Aghdam district**, which they had occupied in **July 1993**, on the eve of the liberation of that territory, that is, during the period from **27 September 2020 to 20 November 2020**, deliberately planted, at close distances from one another, numerous anti-tank and anti-personnel mines of unknown brand, model and place of manufacture, set ambushes, and created mined areas for the purposes of the said criminal organization.

Page 86

As a result of the countermeasures carried out by the Armed Forces of the Republic of Azerbaijan against the large-scale aggressive attacks more actively launched from **27 September 2020**, the area was fully liberated from occupation on **20 November 2020**.

Thereafter, on **16 March 2021**, at around **15:00**, residents of **Afatli village of Aghdam district** — **Huseynov Bayram Akif oglu**, born on **12 March 1987**, **Huseynov Anar Akif oglu**, born on **29 September 1982**, and **Huseynov Razi Akif oglu**, born on **28 December 1979** — travelled in the direction of **Yusifcanli village of Aghdam district** in a **VAZ-2107** vehicle belonging to the latter in order to see their native lands located in that territory.

After stopping the vehicle near Yusifcanli village, Anar Huseynov remained near the car, while Razi and Bayram Huseynov went on foot toward the liberated village of Yusifcanli. At that moment, a mine buried in the ground exploded. As a result of the fragments, **Razi Huseynov** sustained traumatic amputation of both thighs and multiple shrapnel wounds to the body. **Bayram Huseynov** sustained blast trauma, destruction of the soft tissues of the left knee/lower-leg area, comminuted fractures of the left femur, injury to the femoral artery and vein, and multiple shrapnel wounds to the body accompanied by acute blood loss, injuries constituting **serious harm to health** and dangerous to life.

A short time later, when their brother **Anar Huseynov**, their father **Huseynov Akif Muxtar oglu**, born on **10 October 1957**, and their fellow villager **Abdulov Bahruz Nadir oglu**, born on **20 November 1985**, arrived there to rescue them, Anar Huseynov attempted to take his brother Razi Huseynov in his arms and carry him away. At that moment, another mine buried in the ground exploded. As a result of the fragments, **Razi Huseynov** sustained blast trauma, crushed and torn wounds penetrating into the abdominal cavity and intestines, injury to the femoral artery, traumatic amputation of both thighs, fractures of the upper skeletal bones, a crushed wound to the left hand area, and multiple shrapnel wounds to the body accompanied by acute blood loss, injuries constituting **serious harm to health** and dangerous to life.

Anar Huseynov sustained amputation of the left lower limb at the upper one-third of the lower leg, scar tissue on the dorsal surfaces of both hands, and numerous other injuries, constituting **serious harm to health** and dangerous to life. **Bahruz Abdulov** sustained scar injuries to the right half of the forehead extending into the hair-covered part, the nasal area, the left lateral surface, the entire anterior surface of the left lower leg, and the anterior surface of the middle and lower one-third of the right lower leg. **Akif Huseynov** sustained injuries constituting **less serious harm to health**, including multiple-fragment fractures of the right lower-leg bones, closed displaced fractures of the first to fifth toe phalanges of the right foot, open displaced fractures of the first to fifth metatarsal bones, and dislocation of the talus.

As a result, **Bayram Huseynov** and **Razi Huseynov** were intentionally killed through multiple injuries. **Anar Huseynov**, **Akif Huseynov** and **Bahruz Abdulov** were evacuated from the scene with the help of other persons and taken to hospital, where timely qualified medical assistance made it possible to save their lives.

Furthermore, the members of the criminal organization , acting in accordance with the common criminal intent and purpose of the association and each of its members, as a result of the large-scale aggressive war they had launched against the Republic of Azerbaijan, in the territory of **Kuropatkino village of Khojavend district**, which they had occupied on **2 October 1992**, during the period when they kept those territories under occupation, on dates

not precisely established, deliberately planted, at close distances from one another, numerous anti-tank and anti-personnel mines of unknown model, brand and place of manufacture, set ambushes, and created mined areas for the purposes of the said criminal organization.

On **20 March 2021**, at around **11:00**, while performing their official duties, servicemen of the **31st observation post of the 9th company of the 3rd battalion** of a military unit of the Ministry of Defence located in the territory of Kuropatkino village of Khojavend district — soldiers **Quliyev Sirac Cavid oglu**, **Bandaliyev Hazar Vahid oglu**, **Aslanov Rashad Farac oglu**, and warrant officer **Hacizada Ruhid Alim oglu** — were in a trench behind the soldiers' dormitory. At that time, a buried **"PMN" type high-explosive anti-personnel mine** exploded under the left foot of warrant officer Ruhid Hacizada.

Page 87

As a result, serviceman **Sirac Quliyev** sustained injuries to the left half of the face, the left forearm, the back of the left hand, and the left lateral wall of the abdomen; **Hazar Bandaliyev** sustained injuries to the right half of the face, the lower one-third of the left forearm, the back of the left hand, and the left half of the abdomen; and **Rashad Aslanov** sustained injuries to both upper limbs and the right half of the abdomen. The injuries caused to these three persons were characteristic of **minor harm to health**, causing a short-term impairment of health. **Warrant officer Ruhid Hacizada**sustained shrapnel wounds accompanied by traumatic severance of the left lower limb at the ankle/lower-leg joint level, injuries constituting **serious harm to health** and causing a long-term impairment of health. Since all four servicemen were evacuated in time and provided with qualified medical assistance, it was possible to save their lives.

Furthermore, the members of the criminal organization, acting in accordance with the common criminal intent and purpose of the union and each of its members, as a result of the large-scale aggressive war they had launched against Azerbaijan, in the territory of **Suqovushan settlement of Tartar district**, which they had fully occupied in **April 1994**, on the eve of the liberation of that territory, between **27 September 2020 and 3 October 2020**, deliberately planted, at close distances from one another, numerous anti-tank and anti-personnel mines of unknown brand, model and place of manufacture, set ambushes, and created mined areas for the purposes of the said criminal organization.

After Suqovushan settlement of Tartar district was liberated from occupation by the Armed Forces of the Republic of Azerbaijan on **3 October 2020**, **junior sergeant Babayev Xayal Farman oglu**, commander of the 3rd squad of the 1st platoon of the engineering-sapper unit of a military unit of the Ministry of Defence; **soldier Bayramov Ilkin Bayram oglu**, sapper of that squad; **soldier Rustamov Eldaniz Rustam oglu**, assistant rifleman-grenade launcher of the 1st squad of the 2nd platoon of the 10th company of the 4th battalion of the military unit; and **soldier Isayev Abil Ayaz oglu**, assistant rifleman-grenade launcher of the 2nd squad of that platoon, were moving on **3 April 2021**, at around **12:00**, around the trail path leading to combat position No. 5 of the 3rd battalion located in the territory of Suqovushan settlement of Tartar district.

At that time, soldier **Ilkin Bayramov** attempted to neutralise an anti-personnel mine previously planted in the area by Armenian armed formations, which he had found at the side of the trail path. As a result of its explosion, he sustained traumatic-hemorrhagic shock, traumatic severance of the left lower limb at the lower one-third of the lower leg, and numerous other shrapnel injuries which in their totality constituted **serious harm to health** and were life-threatening. He died on **16 April 2021** in the hospital where he was receiving treatment.

The other servicemen — **junior sergeant Xayal Babayev** and **soldier Abil Isayev** — sustained injuries to the thigh area constituting **minor harm to health**, while **soldier Eldaniz Rustamov** sustained injuries to various parts of the body constituting **less serious harm to health**. However, because the main force of the explosion was absorbed by the body of Ilkin Bayramov, the lives of the other three servicemen — Xayal Babayev, Abil Isayev and Eldaniz Rustamov — were saved.

Furthermore, the members of the criminal organization / union, acting in accordance with the common criminal intent and purpose of the association and each of its members, near **Bash Qarvand village of Aghdam district**, which they had occupied in **April 1994**, on the eve of the liberation of that village by the Armed Forces of the Republic of Azerbaijan, that is, during the period from **27 September 2020 to 20 November 2020**, deliberately planted, at close distances from one another, numerous anti-tank and anti-personnel mines of unknown brand, model and place of manufacture, set ambushes, and created mined areas for the purposes of the said criminal organization.

On **3 April 2021**, at around **11:00**, **Shukurov Alövsat Mursal oglu**, born on **8 March 1985**, a resident of **Palçiqoba village of Khachmaz district** and driver for **"Körpu-bina tikinti" LLC**, was driving a **"Hova"** truck bearing state registration number **99-JT-474** along the Khachinchay riverbed passing through the territory of Bash Qarvand village of Aghdam district. At that time, a buried **"TM62M" type anti-tank mine** exploded.

As a result of fragments, he sustained superficial crushed wounds to the dorsal surface of the second, third, fourth and fifth fingers of the left hand, injuries for which no degree was assigned because they did not cause harm to health.

Page 88

With the help of persons nearby, he was evacuated from the scene and taken to hospital, where timely qualified medical assistance made it possible to save his life.

In addition, by damaging the **"Hova"** truck belonging to **"Körpu-bina tikinti" LLC**, bearing state registration number **99-JT-474**, during the explosion, they intentionally caused significant material damage to a legal entity.

Furthermore, the members of the criminal organization / union, acting in accordance with the common criminal intent and purpose of the union and each of its members, as a result of the

aggressive war they had launched against Azerbaijan, in **Bartaz village of Qubadli district**, which they had occupied on **31 August 1993**, on the eve of the liberation of those territories or on later dates, that is, during the period from **27 September 2020 to 4 April 2021**, on dates not precisely established, deliberately planted, at close distances from one another, numerous anti-tank and anti-personnel mines of unknown brand, model and place of manufacture, set ambushes, and created mined areas for the purposes of the said criminal organization.

Following the more active commencement, from **27 September 2020**, of large-scale aggressive attacks, which were repelled by the Armed Forces of the Republic of Azerbaijan through countermeasures, **Bartaz village of Zangilan district** was liberated from occupation on **22 October 2020**. On **4 April 2021**, at around **13:20**, a vehicle belonging to the 3rd squad of the 2nd platoon of the 3rd rapid-response company of the rapid-response battalion of the **Qubadli Separate Border Division of the State Border Service**, driven by the squad commander **warrant officer Alakbarov Sahil Dilsuz oglu**, a **"KAMAZ"** vehicle bearing military registration number **Q-341-SQ**, was moving when it struck and detonated an anti-tank mine of unknown brand and model.

As a result, while performing his official duties, **warrant officer Sahil Alakbarov** sustained injuries to the chest, left thigh and right lower-leg areas which in their totality constituted **serious harm to health** and were life-threatening. **Captain Ziyadov Rustam Ali oglu**, deputy head for material and technical support of the 8th border commandant's office, sustained injuries to various parts of the body which in their totality caused a short-term impairment of health and constituted **minor harm to health**. Both servicemen were evacuated to military hospital No. "N" of the State Border Service, and timely qualified medical assistance made it possible to save their lives.

Furthermore, the members of the criminal organization / union, acting in accordance with the common criminal intent and purpose of the association and each of its members, as a result of the large-scale aggressive war they had launched against Azerbaijan, in the territory of **Qubadli district and surrounding villages**, which they had occupied on **31 August 1993**, on the eve of the liberation of those territories and on later dates, that is, during the period from **27 September 2020 to 5 April 2021**, on dates not precisely established, deliberately planted, at close distances from one another, numerous anti-tank and anti-personnel mines of unknown brand, model and place of manufacture, set ambushes, and created mined areas for the purposes of the said criminal organization.

After Qubadli district and the surrounding villages were liberated from occupation on **25 October 2020**, **junior warrant officer Haciyev Cavanshir Nadir oglu**, an extended active-duty serviceman of military unit No. "N" of the Qubadli Separate Border Division of the State Border Service, on **5 April 2021**, on the basis of an assignment given by the command of the military unit, participated in an operation to clear mines from the areas of the 1st border combat post of the 11th border outpost of the 4th border commandant's office, located in the territory of **Ashaghi Xocamsaqli village of the liberated Qubadli district**. On that day, at around **18:00**, he stepped on an anti-personnel mine previously planted in the area. As

a result of the explosion, he sustained injuries to various parts of his body which, in their totality, constituted **serious harm to health** and were life-threatening

Page 89

shrapnel injuries; as he was evacuated in time and provided with qualified medical assistance, it was possible to save his life.

Furthermore, the members of the criminal organization / union, acting in accordance with the common criminal intent and purpose of the association and each of its members, as a result of the aggressive war they had launched against Azerbaijan, in **Suqovushan village of Tartar district**, which they had occupied in **April 1994**, on the eve of the liberation of that village from occupation, that is, during the period from **27 September 2020 to 3 October 2020**, deliberately planted, in a planned manner and at close distances from one another, numerous anti-personnel mines of unknown brand, model and place of manufacture, set ambushes, and created mined areas for the purposes of the said criminal organization.

After the large-scale aggressive attacks that had been launched more actively from **27 September 2020** were repelled by the Armed Forces of the Republic of Azerbaijan through countermeasures, and after that settlement was liberated from occupation on **3 October 2020**, servicemen were conducting a search for missing servicemen on a height conventionally called **"951"** in the territory of that settlement. On **6 April 2021**, at around **14:00**, one of the anti-personnel mines exploded.

As a result, **soldier Punhan Aliyev Shaban oglu**, an extended active-duty serviceman and commander of the 1st squad of the 2nd platoon of the obstacle-laying company of military unit No. "N" of the Ministry of Defence, sustained shrapnel injuries to the left eye and right leg, accompanied by traumatic amputation of the right lower limb at the level of the ankle/lower-leg joint, which in their totality constituted **serious harm to health** and were life-threatening.

Soldier Baxtiyar Ilqar oglu, an extended active-duty serviceman and commander of the 2nd squad of the visual observation platoon of the reconnaissance-observation company of the same military unit, sustained shrapnel injuries to the right leg and right hand, accompanied by traumatic amputation of the right foot at the level of the metatarsal bones, which in their totality constituted **serious harm to health** and were life-threatening.

Both servicemen were evacuated to military hospital No. "N" of the Ministry of Defence, and timely qualified medical assistance made it possible to save the lives of both servicemen.

Sergeant Azar Dunyamalizada Imkan oglu, an extended active-duty serviceman and commander of the 1st squad of the 4th platoon of the same unit, sustained a shrapnel wound to the right eye area, which caused a short-term impairment of health and constituted **minor harm to health**. By avoiding other fragments, he was able to save his life.

Furthermore, the members of the criminal organization / union, acting in accordance with the common criminal intent and purpose of the association and each of its members, as a result of the large-scale aggressive war they had launched against Azerbaijan, in the territory of **Khojaly district and surrounding villages**, which they had occupied on **26 February 1992**, on the eve of the liberation of those territories from occupation and in the subsequent period, that is, during the period from **27 September 2020 to 9 April 2021**, deliberately planted, in a planned manner and at close distances from one another, numerous anti-tank and anti-personnel mines of unknown model and place of manufacture, set ambushes, and created mined areas for the purposes of the said criminal organization.

After the large-scale aggressive attacks that had been launched more actively from **27 September 2020** were repelled by the Armed Forces of the Republic of Azerbaijan through countermeasures, and after **Çanaqçi village of Khojaly district and surrounding villages** were liberated from occupation on **9 November 2020**, **soldier Namiq Mammadov Alicavad oglu**, serving as the driver of the 2nd gun of the 1st platoon of the 3rd battery of the artillery division of military unit No. "N" of the Ministry of Defence, was performing service in the territory of Çanaqçi village of Khojaly district on **9 April 2021**, at around **10:00**.

At that time, a **"PMN" type high-explosive anti-personnel mine**, whose date and place of manufacture were unknown and which had previously been planted in the area under unknown circumstances, exploded. As a result, he sustained injuries to various parts of the body, including traumatic amputation of the left lower limb at the lower one-third of the lower leg, and other injuries which in their totality constituted **serious harm to health** and were life-threatening.

As he was provided with qualified medical assistance in time, it was possible to save his life.

Furthermore, the criminal organization and the members of its armed formations, which constituted its structural unit, continuing their criminal acts in accordance with the common criminal intent and purposes of the criminal association, on **21 April 2011**, at around **17:45**, opened fire with **5.45 mm AK-type automatic firearms** from their opposing positions located in the territory of **Shurabad village of Aghdam district**, which they kept under occupation, at the command-observation post of combat post No. 2 of military unit No. "N" of the Ministry of Defence located in Shurabad village of Aghdam district of the Republic of Azerbaijan.

As a result, **warrant officer Anar Suleymanov Ali oglu**, serving as deputy commander of the 2nd platoon of the 2nd company of the 1st battalion of military unit No. "N" of the Ministry of Defence and performing his official duties to protect the territorial integrity and public security of the Republic of Azerbaijan at the command-observation post of the combat post, sustained two through-and-through bullet wounds to the left half of the chest, constituting **minor harm to health**. At that moment, by lying down in the trench and avoiding the bullets, he saved his life.

Furthermore, the members of the criminal organization / union, acting in accordance with the common criminal intent and purpose of the association and each of its members, as a result of the large-scale aggressive war they had launched against Azerbaijan, in the territory of **Aghdam district and surrounding villages**, which they had occupied on **23 July 1993**, on the eve of the liberation of those territories from occupation, that is, during the period from **27 September 2020 to 20 November 2020**, deliberately planted, in a planned manner and at close distances from one another, numerous anti-tank and anti-personnel mines of unknown model and place of manufacture, set ambushes, and created mined areas for the purposes of the said criminal organization.

After the large-scale aggressive attacks that had been launched more actively from **27 September 2020** were repelled by the Armed Forces of the Republic of Azerbaijan through countermeasures, and after Aghdam district and surrounding villages were liberated from occupation on **20 November 2020** pursuant to the trilateral Statement signed on **10 November 2020**, **First Lieutenant Ibadat Yaqublu Salman oglu**, serving as commander of the 1st engineering platoon of the engineering-sapper company of military unit No. "N" of the Ministry of Defence, was carrying out mine-clearance operations in areas located in **Orta Qarvand village of Aghdam district** on **15 April 2021**, at around **10:45**.

At that time, a **"PMN" type high-explosive anti-personnel mine**, whose date and place of manufacture were unknown and which had previously been planted in the area under unknown circumstances, exploded. As a result, he sustained injuries to various parts of the body, including traumatic severance of the left lower limb at the ankle/lower-leg joint level, and other injuries which in their totality constituted **serious harm to health** and were life-threatening. However, as qualified medical assistance was provided in time, it was possible to save his life.

Furthermore, the members of the criminal organization / union, acting in accordance with the common criminal intent and purpose of the association and each of its members, near **Marzili village of Aghdam district**, which they had occupied in **June 1993**, on the eve of the liberation of that village from occupation by the Armed Forces of the Republic of Azerbaijan, that is, during the period from **27 September 2020 to 20 November 2020**, deliberately planted, in a planned manner and at close distances from one another, numerous anti-tank and anti-personnel mines of unknown brand, model and place of manufacture, set ambushes, and created mined areas for the purposes of the said criminal organization.

On **17 April 2021**, at around **20:00**, **Arif Quliyev Sabir oglu**, born on **22 November 1983**, a resident of **Yuxari Qiyamaddinli village of Aghjabadi district**, was grazing cattle in the **Ergi duzu** area of Marzili village of Aghdam district. Seeing that several of the animals had gone missing, he began walking around the area in order to find them. At that time, a mine buried in the ground in the Ergi duzu area of Aghdam district exploded. As a result of the fragments, he sustained injuries classified as **minor harm to health**, including traumatic amputation of the lower one-third of the left lower leg and hyperemia of the upper one-third of the left lower leg.

With the help of persons nearby, he was evacuated from the scene and taken to hospital, where timely qualified medical assistance made it possible to save his life.

Furthermore, the members of the criminal organization / union, acting in accordance with the common criminal intent and purpose of the association and each of its members, as a result of the large-scale aggressive war they had launched against Azerbaijan, in the territory of **Aghdara district and surrounding villages**, which they had occupied on **7 July 1993**, on dates not precisely established, deliberately planted, in a planned manner and at close distances from one another, numerous anti-tank and anti-personnel mines of unknown model and place of manufacture, set ambushes, and created mined areas for the purposes of the said criminal organization.

After the large-scale aggressive attacks that had been launched more actively from **27 September 2020** were repelled by the Armed Forces of the Republic of Azerbaijan through countermeasures, and after **Talish village of Aghdara district and surrounding territories** were liberated from occupation on **3 October 2020**, **soldier Orxan Heydarli Ilyas oglu**, serving as a rifleman/personnel member of the 3rd squad of the 2nd platoon of the 1st company of the 1st battalion of military unit No. "N" of the Ministry of Defence, was carrying out mine-clearance work on **20 April 2021**, at around **08:00**, in the territory of Talish village of Aghdara district, in areas that had served as combat positions of illegal Armenian armed formations during the occupation.

At that time, a **"PMN" type high-explosive anti-personnel mine**, whose date and place of manufacture were unknown and which had previously been planted in the area, exploded. As a result, he sustained injuries to various parts of the body, including an injury to the left half of the chest accompanied by left-sided hemopneumothorax penetrating into the pleural cavity, and other injuries which in their totality constituted **serious harm to health** and caused long-term impairment of health. However, as qualified medical assistance was provided in time, it was possible to save his life.

Furthermore, the members of the criminal organization / union, acting in accordance with the common criminal intent and purpose of the association and each of its members, as a result of the aggressive war they had launched against Azerbaijan, near **Marzili village of Aghdam district**, which they had occupied in **June 1993**, on the eve of the liberation of Marzili village from occupation, that is, during the period from **27 September 2020 to 20 November 2020**, deliberately planted, in a planned manner and at close distances from one another, numerous anti-tank and anti-personnel mines of unknown brand, model and place of manufacture, set ambushes, and created mined areas for the purposes of the said criminal organization.

After the large-scale aggressive attacks that had been launched more actively from **27 September 2020** were repelled by the Armed Forces of the Republic of Azerbaijan through

countermeasures, and after that village was fully liberated from occupation on **20 November 2020**, on **26 April 2021**, at around **17:00**, residents of Aghjabadi city — **Shahin Verdiyev Vahid oglu**, born on **1 January 1977**, his brother **Aydin Verdiyev Vahid oglu**, born on **28 December 1983**, and their neighbour **Firdovsi Guliyev Idris oglu**, born on **25 March 1974** — travelled to that village to collect scrap metal.

When a **"PMN-E" type high-explosive anti-personnel mine** buried in the ground near Marzili village of Aghdam district exploded, the effect of the fragments caused **Shahin Verdiyev** injuries characteristic of **serious harm to health** and life-threatening in living persons, namely blast trauma, destruction and crushing of the left eyeball and brain tissue, and multiple shrapnel wounds to the body surface.

Aydin Verdiyev sustained injuries characteristic of **serious harm to health** and life-threatening in living persons, namely through-and-through wounds of the left eyeball.

Firdovsi Guliyev sustained injuries characteristic of **serious harm to health** and life-threatening in living persons, namely destruction of the right eyeball; extensive through-and-through tearing and wounding of the sclera in the left eye; prolapse of the inner membranes through the wound opening; corneal burn; multiple foreign bodies; severe contusion of the eyeball; and perforating corneal injury.

As a result, **Shahin Verdiyev** was intentionally killed by the multiple injuries he sustained, while **Aydin Verdiyev** and **Firdovsi Guliyev**, with the help of persons nearby

were evacuated from the scene and taken to hospital, where timely qualified medical assistance made it possible to save their lives; that is, the perpetrators were unable to intentionally kill them.

Furthermore, the members of the criminal organization / union, acting in accordance with the common criminal intent and purpose of the association and each of its members, in the heights around **Gyunut village of Sharur district of the Nakhchivan Autonomous Republic**, which had been occupied by Armenia in **1992**, created mined areas by planting numerous mines until those territories were liberated by the Azerbaijani Armed Forces during the period from **20 to 27 May 2018**.

On **5 May 2021**, at around **09:00**, **Elchin Huseynov Ali oglu**, born on **15 August 1980**, a civilian resident of **Ashaghi Yaydji village of Sharur district**, was gathering the **cashir** plant in an area called **"Paya dara"**, located near the Armenian border in Gunnut village of Sharur district, which had been liberated from occupation as a result of the counterattack operation of the Separate Combined Arms Army from **20 to 27 May 2018** — the **Gyunut operation**. At that time, a **"PMN-1" type anti-personnel mine** exploded. As a result, he sustained bodily injuries characteristic of **serious harm to health** and life-threatening, accompanied by amputation of the middle one-third of the left lower leg. He was taken by a

fellow villager to the Sharur District Central Hospital, where timely qualified medical assistance made it possible to save his life.

Furthermore, the members of the criminal organization / association, acting in accordance with the common criminal intent and purpose of the association and each of its members, in the border area of **Goyalli village of Gadabay district of the Republic of Azerbaijan**, located on the border with Armenia, on dates not precisely established, deliberately planted, in a planned manner and at close distances from one another, numerous anti-tank and anti-personnel mines of unknown brand, model and place of manufacture, set ambushes, and created mined areas for the purposes of the said criminal organization.

On **11 May 2021**, at around **17:00**, residents of **Sonalar village of Gadabay district** — **Kamran Namazov Aydin oglu**, born on **1 February 1995**, and **Saadam Nasibov Ilyas oglu**, born on **26 December 1994** — were grazing cattle in a pasture area located in the border area of Göyalli village of Gadabay district, **1,300 metres** from the combat post called **"Chanlibel"** and **1,500 metres** from the combat post called **"Kondalam"**. At that time, one of the anti-personnel mines of unknown brand located there exploded.

As a result, **Kamran Namazov** sustained bodily injuries characteristic of **serious harm to health** and life-threatening, namely blast trauma, traumatic severance of the left foot accompanied by traumatic shock, open displaced comminuted fractures of both lower-leg bones, and shrapnel wounds to the nose, upper eyelid of the left eye, lower lip, right corner of the mouth, right upper arm, right elbow joint, right forearm, right hand, and the anterior surface of the chest.

Saddam Nasibov sustained bodily injuries characteristic of **minor harm to health**, causing a short-term impairment of health, namely contused and lacerated shrapnel wounds to the dorsal surface of the right hand and the left thigh, as well as superficial contused and lacerated shrapnel wounds to the upper eyelid of the right eye, the area between the eyebrows, the right lower leg, and the right knee.

They were taken by nearby servicemen to Shamkir District Central Hospital, where timely qualified medical assistance made it possible to save their lives.

Furthermore, the members of the criminal organization / union, acting in accordance with the common criminal intent and purpose of the association and each of its members, on the eve of the liberation from occupation — during the period from **27 September 2020** until **December of that year** — on dates not precisely established, created mined areas in the territory of **Zar village of Kalbajar district** by planting on the road numerous **"TM-62, TM-57, TMK-2, TM-72, TM-73, TM-83" type high-explosive anti-tank mines** whose date and place of manufacture were unknown.

On **17 May 2021**, at around **18:45**, servicemen of military unit No. "N" of the Ministry of Defence were in the territory of Zar village of Kalbajar district in a **KamAZ 43114** vehicle belonging to military unit No. "N" of the Ministry of Defence, driven by **soldier Karam**

Aliyev Ilham oglu, serving as driver of the 1st automobile squad of the 1st automobile platoon of the material and technical support company of that military unit.

Page 93

The vehicle, bearing military registration plate **"-084-QQ"**, struck one of the **"TM-62, TM-57, TMK-2, TM-72, TM-73, TM-83" type high-explosive anti-tank mines**, whose date and place of manufacture were unknown and which had previously been planted in the area. As a result of the mine explosion, the **KamAZ 43114** cargo vehicle became completely unusable.

Senior warrant officer Niyamaddin Mamadov Jamaladdin oglu, serving as chief sergeant of the 1st battalion of military unit No. "N" of the Ministry of Defence, sustained injuries constituting **less serious harm to health** and causing long-term impairment of health, namely closed comminuted displaced fractures of the distal metaphysis of the fibula.

Senior warrant officer Inqilab Nazarov Taji oglu, serving as radiotelephone operator of the 1st battalion, sustained injuries constituting **less serious harm to health** and causing long-term impairment of health, namely grazed wounds to the parietal area.

Soldier Karam Aliyev Ilham oglu, serving as driver of the 1st automobile squad of the 1st automobile platoon of the material and technical support company, sustained injuries constituting **less serious harm to health** and causing long-term impairment of health, namely comminuted displaced fractures of the bones of the right lower leg, the right talus bone, and both heel bones, as well as other injuries.

However, because they were provided with qualified medical assistance in time, and because the vehicle's metal structures partially blocked the fragments, it was possible to save their lives. Significant material damage was caused to the vehicle belonging to the military unit.

Furthermore, the members of the criminal organization / Union, acting in accordance with the common criminal intent and purpose of the association and each of its members, as a result of the aggressive war they had launched against Azerbaijan, in the territories of the present-day **Aghdara, Kalbajar, Khojaly, Jabrayil and Lachin districts** of the Republic of Azerbaijan, which they had occupied, on the eve of the liberation of those settlements from occupation, that is, during the period from **27 September 2020** until the dates on which the mine explosions occurred, deliberately planted, in a planned manner and at close distances from one another, numerous anti-tank and anti-personnel mines of unknown brand, model and place of manufacture, and placed other types of explosive devices, set ambushes, and created mined areas and areas of uncertain extent where explosive devices had been dispersed, for the purposes of the said criminal organization.

On **27 May 2021**, at around **15:00**, **Masim Asgarov Hasan oglu**, born on **25 December 1986**, a worker of **"MUGHANSUTIKINTI" Limited Liability Company**, which had been entrusted with restoring the section of the **"Qarabagh" water canal** passing through the territory of **Chayli village of Aghdara district**, and a civilian resident of **Ashagi Surra**

village of Neftchala district, was cleaning stones and gravel near that canal in the territory of Çayli village. At that time, he stepped on a mine and an explosion occurred.

As a result, he was intentionally caused injuries constituting **serious harm to health**, life-threatening, namely traumatic amputation of the 1st, 2nd, 3rd and 4th fingers of the left hand, accompanied by amputation of the 1st finger at the metacarpophalangeal joint and of the 2nd, 3rd and 4th metacarpal bones at the level of the middle one-third, resulting in total loss of function of the left hand; fractures of the 2nd, 3rd, 4th and 5th metacarpal bones; dislocation of the 1st metacarpal bone; a soft-tissue defect of the left hand; multiple thermal and contused-lacerated wounds; and abrasions to the anterior surface of the chest and the abdominal area.

Because qualified medical assistance was provided to **Masim Asgarov** in time, it was possible to save his life; therefore, the perpetrators were unable to intentionally kill him.

Furthermore, the members of the criminal organization / union, acting in accordance with the common criminal intent and purpose of the association and each of its members, as a result of the aggressive war they had launched against Azerbaijan, in the territory of **Saricali village of Aghdam district of the Republic of Azerbaijan**, which they had occupied on **23 July 1993**, during the period of occupation and also on the eve of liberation from occupation, that is, during the period from **27 September 2020 to 20 November 2020**, on dates not precisely established, deliberately planted, in a planned manner and at close distances from one another, numerous anti-tank and anti-personnel mines of unknown brand, model and place of manufacture, set ambushes, and created mined areas for the purposes of the said criminal organization.

Page 94

As a result of the large-scale aggressive attacks launched in a more active manner being repelled by the Armed Forces of the Republic of Azerbaijan through countermeasures, and after the completion of military operations, pursuant to the trilateral statement signed thereafter, **Sarijali village of Aghdam district** was returned to the Republic of Azerbaijan on **20 November 2020**.

On **1 June 2021**, at around **13:00**, servicemen of military unit No. "N" of the Ministry of Defence, **warrant officer Mammadov Nemat Mirza oglu** and **soldier Aslanov Shohrat Arif oglu**, who were performing their official duties to protect the territorial integrity and public security of the Republic of Azerbaijan, were conducting a mine-clearance operation in the territory of Saricali village of Aghdam district using a **T-72 tank** belonging to that military unit, with turret number **"239"**. The tank passed over two of the said anti-tank mines, causing explosions.

As a result of those explosions, **Nemat Mammadov** sustained injuries to the head, back and lumbar area, which were not classified by degree because they did not constitute harm to health. **Shohrat Aslanov** sustained injuries to the head area, which likewise were not

classified by degree because they did not constitute harm to health. They were evacuated to a military hospital. Since they were inside the tank and were protected by the armour of that equipment, they did not die. However, significant material damage was caused to the equipment of military unit No. "N".

Furthermore, the members of the criminal organization / union, acting in accordance with the common criminal intent and purpose of the association and each of its members, during the period on the eve of liberation from occupation — from **27 September 2020 to 4 June 2021** — on dates not precisely established, created mined areas in the territory of **Zar village of Kalbajar district** by planting on the road numerous **"TM-62, TM-57, TMK-2, TM-72, TM-73, TM-83" type high-explosive anti-tank mines**, whose date and place of manufacture were unknown.

On **4 June 2021**, at around **11:00**, in the territory of **Susuzlug village of Kalbajar district**, a bus-type **KamAZ** cargo vehicle bearing military registration number **G-698-QQ**, belonging to military unit No. "N" of the Ministry of Defence and driven by **Aliyev Etibar Imamverdi oglu**, who served with the rank of soldier as an extended active-duty serviceman, as chief driver of the automobile squad of the commandant platoon of the headquarters company of that military unit, struck one of the **"TM-62, TM-57, TMK-2, TM-72, TM-73, TM-83" type high-explosive anti-tank mines** that had previously been planted in the area. As a result of the explosion, the KamAZ cargo vehicle was completely destroyed and rendered unusable.

In addition, the persons inside the vehicle sustained the following injuries:

Ibrahimov Maharram Ali oglu, a correspondent of the **AZARTAC State Information Agency**, sustained open craniocerebral trauma accompanied by destruction of the left eyeball, classified as **serious harm to health** and life-threatening.

Abishov Sirac Abish oglu, an operator of **Azerbaijan Television and Radio Broadcasting CJSC**, sustained an incomplete traumatic separation of the right lower limb at the lower one-third of the thigh, hanging on a flap-like piece of skin, classified as **serious harm to health** and life-threatening.

Aliyev Arif Agalar oglu, deputy representative of the head of the Kalbajar District Executive Authority for Susuzluq village, sustained open, displaced, comminuted fractures of the skull vault, skull base and facial skeleton, as well as other injuries, classified as **serious harm to health** and life-threatening, and died at the scene.

Abdullayev Kamil Salim oglu, representative of the head of the Kalbajar District Executive Authority for Susuzluq village and a resident of Kalbajar district, sustained barotrauma accompanied by sensorineural hearing loss, classified as **less serious harm to health** causing long-term impairment of health.

Aliyev Etibar Imamverdi oglu, the driver of the vehicle, serving with the rank of soldier as an extended active-duty serviceman, as chief driver of the automobile squad of the commandant platoon of the headquarters company of military unit No. "N" of the Ministry of

Defence, sustained an abrasion to the left parietal area accompanied by concussion of the brain, classified as **minor harm to health** causing short-term impairment of health.

Cafarov Shohrat Elshan oglu, representative of Yanshaq village of Kalbajar district and a resident of Kalbajar district, sustained shrapnel wounds to the soft tissues of the right lumbar area and the left lateral wall of the abdomen, classified as **less serious harm to health** causing long-term impairment of health.

Page 95

Mammadov Emin Hasan oglu, director of **Azerbaijan Television and Radio Broadcasting CJSC** and a resident of the Nizami district of Baku, sustained blunt trauma accompanied by bruising of the left half of the chest, as well as other injuries, classified as **minor harm to health** causing short-term impairment of health.

Because qualified medical assistance was provided in time and because the metal structures of the vehicle partially blocked the fragments, it was possible to save their lives.

Furthermore, the members of the criminal organization / union, acting in accordance with the common criminal intent and purpose of the association and each of its members, as a result of the aggressive war they had launched against Azerbaijan, in **Mahrizli and Sarijali villages of Aghdam district**, which they had occupied in **July 1993**, on the eve of the liberation of those villages, that is, during the period from **27 September 2020 to 20 November 2020**, deliberately planted, in a planned manner and at close distances from one another, numerous anti-tank and anti-personnel mines of unknown brand, model and place of manufacture, set ambushes, and created mined areas for the purposes of the said criminal organization.

After the large-scale aggressive attacks that had been launched more actively from **27 September 2020** were repelled by the Armed Forces of the Republic of Azerbaijan through countermeasures, and after that territory was fully liberated from occupation on **20 November 2020**, on **7 June 2021**, at around **17:00–18:00**, **Hatamxanov Jasarat Siyafat oglu**, born on **22 February 1978**, a resident of **Quzanli settlement of Aghdam district**, together with five companions, brought a gravestone to the cemetery located in **Mahrizli village of Aghdam district**. After that, he separated from his companions in order to visit the liberated village of Sarijali.

When he attempted to enter the area, he was caught in the explosion of a buried **"PMN" type high-explosive anti-personnel mine**. As a result of the fragments, he sustained blast trauma, amputation of the right lower leg at the upper one-third, multiple comminuted fractures, injury to the tibial artery, and numerous other injuries, classified as **serious harm to health**, and was thereby intentionally killed.

Furthermore, the members of the criminal organization / union, acting in accordance with the common criminal intent and purpose of the association and each of its members, as a result of the aggressive war they had launched against Azerbaijan, in **Ashagi Abdurrahmanli village**

of Fuzuli district, which they had occupied in **August 1993**, during the period when they kept it under occupation, on dates not precisely established, deliberately planted, in a planned manner and at close distances from one another, numerous anti-tank and anti-personnel mines of unknown brand, model and place of manufacture, set ambushes, and created mined areas for the purposes of the said criminal organization.

Following the more active commencement, from **27 September 2020**, of large-scale aggressive attacks, which were repelled by the Armed Forces of the Republic of Azerbaijan through countermeasures, that territory was fully liberated from occupation on **3 October 2020**. On **8 July 2021**, at around **13:00**, **Nuriyev Nuru Aslan oglu**, a peaceful resident and civilian from **Zobujuq-2 settlement of Fuzuli district**, and **Hashimov Elnur Aydin oglu**, a peaceful resident and civilian from **Horadiz city**, travelled to that area to inspect a pasture for feeding small livestock.

When **Nuru Nuriyev** stepped on one of the said mines, an explosion occurred. As a result, he sustained a shrapnel injury causing traumatic amputation of the lower one-third of the left lower leg, acute blood loss and severe traumatic shock, classified as **serious harm to health** and life-threatening, and died.

When his friend **Hashimov Elnur Aydin oglu** saw that Nuru Nuriyev had been injured and remained in the mined area, he attempted to remove him from the area. At that moment, another mine exploded. As a result, he sustained traumatic amputation of the lower one-third of the left lower leg and other shrapnel injuries, classified as **serious harm to health**and life-threatening. He was taken to hospital, where timely qualified medical assistance made it possible to save his life.

Furthermore, the members of the criminal organization / union, acting in accordance with the common criminal intent and purpose of the association and each of its members, as a result of the aggressive war they had launched against Azerbaijan, in the territory of **Fuzuli district**, which they had occupied on **23 August 1993,**

Page 96

during the period when they kept it under occupation, on dates not precisely established, deliberately planted, in a planned manner and at close distances from one another, numerous anti-tank and anti-personnel mines of unknown brand, model and place of manufacture, set ambushes, and created mined areas for the purposes of the said criminal organization.

On July 10, 2021, at around 9:00 a.m., at a combat post called "Goyarchin" in the Alikhanli village of the Fuzuli region, a serviceman of the "N" military unit of the Ministry of Defense, Sergeant Khalilov Nijat Yalchin oglu, while performing his duties to protect the territorial integrity and public security of the Republic of Azerbaijan, suffered a traumatic injury to the lower 1/3 of his left calf during an explosion that occurred as a result of stepping over one of those anti-personnel mines of unknown make and model. He suffered serious injuries that were life-threatening and accompanied by amputation. He was evacuated to the "N" Military

Hospital of the Ministry of Defense, where he was able to save his life with timely qualified medical assistance.

Furthermore, the members of the criminal organization / union, acting in accordance with the common criminal intent and purpose of the association and each of its members, fired at **Qaraxanbayli village of Fuzuli district** from their positions in other territories of the Republic of Azerbaijan that they held under occupation, using a combat element with a cluster munition warhead, the brand, model and place of manufacture of which were not precisely known. A remnant of an unexploded combat element separated from the shells fell and remained in that territory, which had been fully liberated from occupation on **27 September 2020**.

As a result, Khalilov Elshan Eyvaz oglu, a civilian resident and driver at "Körpu-Bina Tikinti" LLC, which is engaged in construction and installation works in the liberated areas, accidentally touched the unexploded part of a cluster bomb while walking on July 12, 2021 at around 11:00 am. The explosion occurred and he received multiple shrapnel wounds to the left side of the chest, which were life-threatening and caused serious damage to health. He was taken to the hospital in a timely manner and received qualified medical assistance, but his life was saved.

Furthermore, the members of the criminal organization / union, acting in accordance with the common criminal intent and purpose of the association and each of its members, as a result of the aggressive war they had launched against Azerbaijan, in the area called **"Banovshali yaylagi"**, located on the border of **Kalbajar district** with **Goygol district**, which they had occupied on **3 April 1993**, during the period when they kept it under occupation, on dates not precisely established, deliberately planted, in a planned manner and at close distances from one another, numerous anti-tank and anti-personnel mines of unknown brand, model and place of manufacture, set ambushes, and created mined areas for the purposes of the said criminal organization.

After the large-scale aggressive attacks that had been launched more actively from **27 September 2020** were repelled by the Armed Forces of the Republic of Azerbaijan through countermeasures, and after Kalbajar district and many surrounding villages were liberated from occupation on **25 November 2020** pursuant to the trilateral statement of **10 November 2020**, **Ojaqquliyev Ramal Kamal oglu**, a peaceful resident and civilian from **Mollajalilli village of Goygol district**, travelled to that area on **14 July 2021**, at around **20:00**. While grazing his small livestock in a field pasture area, he stepped on one of the mines and an explosion occurred. As a result, he sustained complete amputation of the lower one-third of the left lower leg and other injuries, classified as **serious harm to health**, and died from shrapnel injuries accompanied by acute bleeding and traumatic shock.

The military-political leadership of the Republic of Armenia, including its armed forces and other armed formations, as well as the members of the criminal organization unlawfully operating in the territory of the Republic of Azerbaijan in violation of domestic and international law, and the members of its structural unit — armed formations equipped with

various types of firearms, ammunition, military equipment and other weapons — acting on the basis of the direct material, technical and personnel support provided to them, centralized management, verbal and written tasks, orders and instructions, and under their strict control

Page 97

for the purpose of implementing the criminal plan covered by the common criminal intent of each member of the criminal organization, and in violation of international humanitarian law, as a result of the large-scale aggressive war they had launched against Azerbaijan, in the territory of Zangilan region, which they occupied on October 30, 1993, in order to prevent the return of Azerbaijani civilians and military personnel to that territory by killing them, to create panic among the population by causing explosions and for other criminal purposes, in gross violation of the provisions of the Ottawa Convention dated 03.12.1997 "On the Prohibition of the Use, Stockpiling, Production and Transfer of Anti-Personnel Mines and on their Destruction" and the Protocol "On Prohibitions or Restrictions on the Use of Mines, Booby-Traps and Other Devices" annexed to the Convention dated October 10, 1980 "On Prohibitions or Restrictions on the Use of Certain Conventional Weapons Which May Be Considered to Be Excessively Injurious or Which May Have Indiscriminate Effects", they deliberately planted numerous anti-tank and anti-personnel mines of unknown make, model and place of manufacture in close proximity to each other on unknown dates, and set up ambushes for the purposes of the aforementioned criminal organization.

After the liberation of Zangilan district and many surrounding villages from occupation by the Armed Forces of the Republic of Azerbaijan, on July 14, 2021, at around 16:50, drivers and junior sergeants Gilmizliyev Mahammad Ilham oglu and Namazov Murtuz Farman oglu of the military unit "N" of the State Border Service in the territory of the Zangilan district of the Republic of Azerbaijan, while participating in a mine search operation on the forest road from the village of Najaflar in the Zangilan district to the village of Shotariz, fell on an anti-personnel mine that had been previously buried in the area.

As a result, Mahammad Gilmizliyev suffered a traumatic amputation of the lower 1/3 of the right leg resulting in amputation of the knee area of the right leg, multiple shrapnel wounds of the left lower limb, post-traumatic stress disorder reactions related to minor damage to health, which caused long-term deterioration of health, and mild contusion of each eyeball. They suffered contusions, corneal erosion, and foreign body injuries to the cornea and upper eyelid of the right eye. Both were provided with timely qualified medical care, which saved their lives, so they were not intentionally killed.

In addition, the members of the criminal organization (union), acting in accordance with the common criminal intent and purpose of the union and each of its members, created mined areas by planting numerous mines in the village of Sygnag in the Khojaly region, which they occupied in 1992, on the eve of the liberation of that territory from the occupation of the Republic of Armenia, that is, on 27.09.2020-09.11.2020, and on 21.07.2021 at around 12:00, employees of the “Kolin Inshaat Sanayi ve Ticaret Anonim” company, who carried out road construction work in the liberated territories - Mahmudov Tahir Polad oglu, a resident of Gumlaq village of Jabrayil region, born on 20.09.1998, and Mehraliyev Yasin Mehdi oglu, a resident of Gizilkend village of Imishli region, born on 12.10.1996, As a result of the explosion of one of the anti-personnel “PMN-2” type mines on a hill, 300 meters away from

the tunnel built on the highway in the area of the village of Sygnag in the Khojaly region, Yasin Mehraliyev suffered minor injuries to his right lower limb, accompanied by multiple crushed wounds on the back surfaces, which caused a short-term deterioration of his health, and Tahir Mahmudov suffered traumatic amputation of the lower 1/3 of his right calf, open fractures of the bones of his left calf, and severe injuries to his left lower limb and left scapula, which were life-threatening.

They were taken to the Fuzuli Treatment and Diagnostic Center by nearby military personnel and their lives were saved with timely qualified medical assistance.

Page 98

In addition, on July 27, 2021, at around 07:00, another anti-personnel "PMN" type mine, which the members of the criminal organization (association) planted in the territory of the same village during the occupation period and on the eve of its liberation by acting in accordance with the common criminal intent and purpose of the association and each of its members, was buried by an employee of the Mine Action Agency of the Republic of Azerbaijan, a resident of Horadiz, Fuzuli district. Nasirov Bahruz Tapdig, born on 26.08.1979, was carrying out a mine clearance operation on the left side of the bed of the railway line passing through the Mehdili village of Jabrayil district of the Baku-Nakhchivan railway line in the direction of Nakhchivan at a distance of 1500 meters from the highway Chocug Marjanli village of Jabrayil district (39°23'33"N 47°17'06"E coordinates) was exposed to the explosion, as a result, he received numerous bruises on his cheek and right leg, body injuries characteristic of light damage to health accompanied by barotrauma, he was taken to the Fuzuli Treatment Diagnostic Center and it was possible to save his life with timely qualified medical assistance.

Furthermore, the members of the criminal organization / union, acting in accordance with the common criminal intent and purpose of the association and each of its members, as a result of the aggressive war they had launched against Azerbaijan, in the direction of **Kalbajar district**, which they had occupied on **3 April 1993**, in the **Murovdagh mountain range**, located opposite the engineering-fortification installations of illegal Armenian armed formations and occupied by them in **February 1994**, seeing that, as a result of the countermeasures carried out by the Armed Forces of the Republic of Azerbaijan against the large-scale aggressive attacks launched in a more active manner from **27 September 2020**, the part of the Murovdagh range located in Kalbajar district would be liberated from occupation, during the period from **27 September 2020 to 3 October 2020**, on dates not precisely established, deliberately planted, in a planned manner and at close distances from one another, numerous anti-tank and anti-personnel mines of unknown brand, model and place of manufacture, set ambushes, and created mined areas for the purposes of the said criminal organization.

On October 3, 2020, after the Murovdag range was completely liberated from the occupation of the Republic of Armenia, civilians Bayramov Qismat Allahverdi oglu, born on October 20, 2010, and Rustamov Ulfat Hikmat oglu, born on December 25, 2000, who came to the area

on July 29, 2021 to search for their cattle, were riding a horse they were using as a riding vehicle when an explosion occurred while they were passing over one of the anti-personnel mines. As a result, both individuals died from shrapnel injuries. Two months after the incident, the remains of the body parts of Qismat Bayramov and clothing belonging to both individuals were discovered and taken.

Furthermore, the members of the criminal organization / union, acting in accordance with the common criminal intent and purpose of the association and each of its members, in the territory of **Amirvali village of Jabrayil district**, which they had occupied on **23 August 1993**, created mined areas during the occupation period by planting numerous mines.

On July 31, 2021, at around 3:00 PM, Abbaszade Elnur Raftar oglu, a resident of Mahmudlu-3 village of Fuzuli region, working as a laborer at "Geototul" LLC, which was carrying out the construction of the Horadiz-Zangilan highway, was driving on the 47th km of the Horadiz-Zangilan highway towards the Amirvarli village of Jabrayil region, which was liberated from occupation on October 3, 2020, when a "PMN" type mine exploded on the side of the road. As a result, he sustained minor injuries characteristic of causing harm to health, including a penetrating wound on the anterior-inner surface of 1/3 of his right calf and a scratch on the inner surface of the heel of his right foot. He was taken to the Fuzuli Treatment Diagnostic Center and his life was saved with timely qualified medical assistance.

Page 99

Furthermore, the members of the criminal organization / union, acting in accordance with the common criminal intent and purpose of the association and each of its members, as a result of the large-scale aggressive war they had launched against Azerbaijan, in the territory of **Kalbajar district and surrounding villages**, which they had occupied on **3 April 1993**, during the period from **27 September 2020 to 2 August 2021**, on dates not precisely established, deliberately planted, in a planned manner and at close distances from one another, numerous anti-tank and anti-personnel mines of unknown brand, model and place of manufacture, set ambushes, and created mined areas for the purposes of the said criminal organization.

After the large-scale aggressive attacks that had been launched more actively from **27 September 2020** were repelled by the Armed Forces of the Republic of Azerbaijan through countermeasures, and after **Kalbajar district and many surrounding villages** were liberated from occupation on **25 November 2020** pursuant to the trilateral statement of **10 November 2020**, servicemen of military unit No. "N" of the Ministry of Defence — extended active-duty soldiers **Pira Hasan Nizami oglu**, **Qafarov Abbas Hasan oglu**, and **Allahverdiyev Xosrov Maharram oglu** — were travelling on **2 August 2021**, at around **00:20**, in the **Alagollar** area of Kalbajar district in order to transport material supplies to posts.

They were travelling in a **Ural-432006** vehicle belonging to military unit No. “N”, bearing military registration number **G503QQ**, when the vehicle struck an anti-tank mine that had previously been planted in the area. As a result of the explosion, **Xosrov Allahverdiyev** managed to jump out of the vehicle and did not sustain injuries.

The other servicemen in the vehicle sustained injuries: **soldier Pira Hasan Nizami oglu** sustained perforations of both tympanic membranes in the ear area, classified as **minor harm to health** causing short-term impairment of health; **Abbas Qafarov** sustained an abrasion to the left cheek area, blunt trauma to the chest, and contusions of the soft tissues of the left chest area and left upper arm, injuries for which no degree was assigned because they did not constitute harm to health.

They were evacuated in time and provided with medical assistance, which made it possible to save both of their lives. In addition, as a result of the mine explosion, significant damage was caused to the **Ural-432006** vehicle bearing military registration number **G503QQ**.

In addition, the members of the criminal organization (association) acting in accordance with the common criminal intent and purpose of the association and each of its members, near the Bash Garvand village of Aghdam district, which they occupied in April 1994, on the eve of the liberation of that village by the Armed Forces of the Republic of Azerbaijan, i.e. between 27.09.2020 and 20.11.2020, in a planned manner, at a close distance from each other, make, model and By burying numerous anti-tank and anti-personnel mines whose production location is unknown, Aliyev Farid Alimusa oglu, a resident of Jalilabad district, born on February 01, 1990, who worked as a deminer of the Mine Clearance Agency of the Republic of Azerbaijan at around 8 a.m. on August 6, 2021, was carrying out a ground mine search in the territory of Bash Garvand district, Agdam district buried in the Republic of Armenia, a factory-produced "PMN" model, compression-action, anti-personnel mine exploded, as a result of which he suffered injuries to the left eye and eye socket due to the impact of shrapnel, and scar tissue (crushed-torn scar) on the back surface of the comb area of the right hand I-II. It was possible to save his life with help.

As a result of the fragments, he sustained injuries classified as **minor harm to health**, namely trauma to the left eye and eye socket, as well as scar tissue on the dorsal surface of the first and second metacarpal area of the right hand, that is, the scar of a crushed-lacerated wound. With the help of persons nearby, he was evacuated from the scene and taken to hospital, where timely qualified medical assistance made it possible to save his life.

Furthermore, unidentified members of the criminal organization, acting with the same criminal intent and purpose encompassed by the common criminal intent of each member of the criminal organization, as a result of the aggressive war they had launched against Azerbaijan, in the territory of **Takagaya village of Kalbajar district**, which they had occupied on **2 April 1993**, during the period from **1993 to 2020**, while they kept that territory under occupation, on dates not precisely established, deliberately planted, in a planned manner and at close distances from one another, numerous anti-tank and anti-personnel mines

of unknown brand, model and place of manufacture set ambushes, and created mined areas for the purposes of the said criminal organization.

Page 100

On August 29, 2021, at around 11:00, a civilian resident of the Alakhanchally village of the Dashkesan region, Taghiyev Shukur Ashraf oglu, who had traveled to the mentioned area to search for cattle, was walking along the trails in the village when an explosion occurred while he was walking over one of the anti-personnel mines. As a result, he suffered a shrapnel injury that resulted in the amputation of the lower middle 1/3 of his right calf, causing serious harm to health that was life-threatening. He was taken to the hospital by his relatives and his life was saved with timely qualified medical assistance.

In addition, the members of the criminal organization (union), acting in accordance with the common criminal intent and purpose of the union and each of its members, as a result of the aggressive war they launched against Azerbaijan, on April 2, 1993, from 27.09.2020 to 04.09.2021, on unknown dates, in the territory of the Chopurlu and Lev villages of the Kalbajar region of the Republic of Azerbaijan, which they occupied on April 2, 1993, they planted numerous anti-tank and anti-personnel mines of unknown brand, model and place of manufacture, and set up ambushes, creating mined areas for the purposes of the aforementioned criminal organization. As a result of the countermeasures taken by the Armed Forces of the Republic of Azerbaijan, large-scale aggressive attacks launched more actively starting from September 27, 2020, were prevented by the large-scale aggressive attacks launched on November 15, 2020. At around 17:50, while military personnel of the "N" military unit of the Ministry of Defense were carrying out a mine clearance operation, a driver of the 1st platoon, 1st motor vehicle of the engineering and fortification unit of that military unit, a serviceman of active military service over the term, senior private Namazov Vasif Faig oglu, who stepped over one of the anti-personnel mines, sustained life-threatening injuries, including traumatic amputation of the right lower limb at the level of the middle 1/3 of the calf, and was evacuated to the "N" military hospital, where he was able to save his life as a result of timely qualified medical assistance.

In addition, members of the criminal organization (union), acting in accordance with the common criminal intent and purpose of the union and each of its members, planned, on the eve of the liberation of the village of Bash Garvand in the Aghdam region from occupation by the Armed Forces of the Republic of Azerbaijan, between 27.09.2020 and 20.11.2020, in a close distance from each other, by planting numerous anti-tank and anti-personnel mines of unknown brand, model and place of manufacture, and setting up ambushes, creating mined areas for the purposes of the aforementioned criminal organization. On September 20, 2021, at around 01:00, Aghayev Zafar Yunus oglu, a resident of Sumgayit city, born on November 22, 1972, an excavator operator at "Korpu-Bina-Tikinti" LLC, while on duty in the village of

Bash Garvand in the Aghdam region, was killed by a "Liugong CLG" mine. When he saw that the side of the 936E crawler excavator was not properly stopped and started the excavator and tried to fix the side, a mine buried in the ground exploded. As a result, he suffered injuries to the right half of his face, the front surface of his chest, and the front surfaces of the middle and lower 1/3 of both calves, which were not determined due to the impact of the shrapnel, but did not cause any harm to his health. He was evacuated from the scene with the help of bystanders and taken to the hospital, where he was able to save his life with the timely qualified medical assistance.

Also, during the explosion, they intentionally caused significant material damage to the legal entity by damaging a "Liugong CLG 936E" crawler excavator with state registration number 110-FY-307, manufactured in 2019, belonging to "Korpu-Bina-Tikinti" LLC.

Page 101

Furthermore, the members of the criminal organization (union), acting in accordance with the common criminal intent and purpose of the association and each of its members, as a result of the aggressive war they had launched against Azerbaijan, on the **Sofulu–Barxudarli road** leading to **Barxudarli village of Qazakh district**, which they had occupied on **27 April 1992**, during the period when they kept that road under occupation, on dates not precisely established, deliberately planted, in a planned manner and at close distances from one another, numerous anti-tank and anti-personnel mines, set ambushes, and created mined areas for the purposes of the above mentioned criminal organization.

On **22 September 2021**, at **12:30**, **Mardanov Memmed Aladdin oglu**, a resident of **Xanliqlar village of Qazakh district**, was clearing the Sofulu–Barxudarli road of bushes using a **New Holland B90** tractor belonging to the irrigation systems department of Gazakh, bearing state registration plate **35-T-549**. When the tractor passed over one of the "**TM-57"** anti-tank mines, an explosion occurred.

As a result, **Memmed Mardanov** died from shrapnel injuries consisting of open craniocerebral trauma, fracture of the left temporal bone, fractures of the skull base bones, hemorrhages into the brain tissue, its ventricles and beneath its membranes, and other injuries that caused death. In addition, the **New Holland B90** tractor belonging to the Qazakh Irrigation Systems Administration, bearing state registration plate **35-T-549**, became completely unusable as a result of the fragments, causing significant damage.

Furthermore, the members of the criminal organization (union), acting in accordance with the common criminal intent and purpose of the association and each of its members, in **Marzili village of Aghdam district of the Republic of Azerbaijan**, which they had occupied in **1993**, during the period when they kept that territory under occupation, on dates not precisely established, deliberately planted, in a planned manner and at close distances from one another, numerous anti-tank and anti-personnel mines of unknown brand, model and place of manufacture, set ambushes, and created extensive mined areas for the purposes of the said criminal organization.

On **30 September 2021**, at around **00:30**, in the territory of **Marzili village of Aghdam district of the Republic of Azerbaijan**, **warrant officer Huseynov Afar Mahir oglu** of military unit No. "N" of the Ministry of Defence was driving a "**KamAZ-43114"** cargo vehicle bearing military registration plate "**D 553 QQ"** along a supply road. Because the weather was rainy and the ground surface was muddy and slippery, he lost control, the cargo vehicle went off the road and struck an anti-tank mine.

As a result of the explosion, material damage was caused to the vehicle, and **warrant officer Afar Huseynov** sustained injuries classified as **less serious harm to health**, causing long-term impairment of health, namely a closed displaced fracture of the left heel bone.

The other servicemen in the cargo vehicle sustained injuries for which no degree was assigned: **soldier Abdullayev Yusif Shahmali oglu** sustained superficial scratched wounds to the crown of the head and forehead; **soldier Haziyev Rashad Rahim oglu** sustained superficial scratched wounds to the crown of the head and forehead; **soldier aliyev Adam Nail oglu** sustained an abrasion to the nose and left infraorbital area; and **soldier ahadov Kanan Bahlul oglu** sustained scratched wounds to the left wrist, left scapular/back area and right shoulder, contused wounds to the left heel, left plantar surface and crown of the head, as well as contusions of the soft tissues of the right and left shoulder girdles and the left half of the chest.

Because qualified medical assistance was provided to **Afar Huseynov** in time, it was possible to save his life; the others saved their lives by acting vigilantly.

Furthermore, the members of the criminal organization(union), acting in accordance with the common criminal intent and purpose of the association and each of its members, as a result of the aggressive war they had launched against Azerbaijan, in **Aghband village of Zangilan district**, which they had occupied on **29 October 1993**, on the eve of the liberation of that village, that is, during the period from **27 September 2020 to 22 October 2020**, on dates not precisely established, deliberately planted, in a planned manner and at close distances from one another, numerous anti-personnel mines of unknown brand, model and place of manufacture, set ambushes, and created mined areas for the purposes of the said criminal organization.

From **27 September 2020**, the large-scale aggressive attacks launched in a more active manner were repelled by the Armed Forces of the Republic of Azerbaijan through countermeasures…

Page 102

As a result of those countermeasures, **Aghband village of Zangilan district of the Republic of Azerbaijan** was liberated from occupation on **22 October 2020**.

On **30 September 2021**, at around **14:50**, in the territory of Aghband village of Zangilan district, near the 1st firing position of the 4th border combat post of the 30th border outpost of

the 9th border commandant's office of military unit No. "N" of the State Border Service, **junior warrant officer Nazarxanli Elgun Elxan oglu**, group commander of the 4th border combat post of the 30th border outpost of the 9th border commandant's office of military unit No. "N" of the State Border Service, was performing his official duties. While on duty, he stepped on one of the anti-personnel mines.

Page 103

and as a result of the explosion sustained severe bodily injuries that were life-threatening, namely traumatic amputation of the left lower limb up to the lower one-third of the thigh. He was taken to number "N" military hospital by fellow villagers, where timely qualified medical assistance made it possible to save his life.

In addition, as a result of the aggressive war launched against Azerbaijan by each member of the criminal organization, acting in accordance with the common criminal purpose and intention, in the territory of the **Kalbajar region**, which they occupied in February 1994, at the area known as the "Omzr" Pass on the Kalbajar-Goygol highway, which they kept under occupation from 1994 to 2020, they planted numerous anti-tank and anti-personnel mines of unknown brand, model, and place of manufacture, in a planned manner, on unknown dates, and in close proximity to each other, and set up ambushes, creating mined areas for the purposes of the said criminal organization. On October 11, 2021, at around 11:00, a "Caterpillar D8" bulldozer belonging to the "Cengiz Construction" company, operated by Bilal Koca Dursun oglu, a citizen of the Republic of Türkiye, who was expanding the Toganali-Kalbajar road in the Goygol region, exploded after passing over one of the mines. As a result, the "Caterpillar D8" bulldozer belonging to the "Cengiz Construction" company was rendered unusable and suffered significant damage, but there were no injuries or fatalities as a result of the explosion.

In addition, the members of the criminal organization, as a result of the aggressive war launched against Azerbaijan by each member of the criminal organization in accordance with the common criminal purpose and intention, systematically planted numerous anti-tank and anti-personnel mines in the territory of **Chojug Marjanli** village of the Jabrayil region, which was occupied by **the Republic of Armenia** in August 1993 and liberated from occupation by the Armed Forces of the Republic of Azerbaijan on April 2, 2016, from the latter date until October 4, 2020, when it was completely liberated from occupation, and set up ambushes, creating mined areas for the purposes of the said criminal organization. On November 7, 2021, at around 16:00, **Aslanov Khanlar Fazil oglu, a resident of Chojug Marjanli village of the Jabrayil region**, was grazing his small-horned animals in front of the trenches illegally dug by the Armenian militants in a pasture area when an explosion occurred after he passed over one of the mines, resulting in severe, life-threatening bodily injuries. He suffered a traumatic amputation of the lower one-third of his body, was taken to the hospital by bystanders, and his life was saved through the timely provision of qualified medical care.

In addition, during the occupation of the territory of the latter village, located on the border between the **village of Talish in the Aghdere region and the village of Tapgaragoyunlu in the Goranboy region**, which they occupied on April 11, 1994, the members of the criminal organization, acting in accordance with the common criminal purpose and intent of each of its members, systematically planted numerous anti-tank and anti-personnel mines in close proximity to each other and set up ambushes, creating extensive mined areas for the purposes of the aforementioned criminal organization. On October 3, 2020, after the territory was completely liberated from occupation, Garayev Shahin Gadir oglu, who traveled there, suffered life-threatening serious bodily injuries, namely, a traumatic amputation of the lower one-third of his left lower limb, in an explosion that occurred as a result of passing over one of those mines in the area known as "Yanikh Dag" on November 11, 2021, at around 1:00 p.m. He was taken to the hospital by his fellow villagers, and his life was saved with timely qualified medical assistance.

Furthermore, the members of the criminal organization / association, acting in accordance with the common criminal intent and purpose of the association and each of its members, as a result of the aggressive war they had launched against Azerbaijan, near **Taghibayli village of Aghdam district**, which they had occupied in **April 1994**, on the eve of the liberation of that village, that is, during the period from **27 September 2020 to 20 November 2020**, deliberately planted, in a planned manner and at close distances from one another, numerous anti-tank and anti-personnel mines, set ambushes, and created mined areas for the purposes of the said criminal organization.

After the large-scale aggressive attacks that had been launched more actively from **27 September 2020** were repelled by the Armed Forces of the Republic of Azerbaijan through countermeasures, and after that territory was fully liberated from occupation on **20 November 2020**, **Aghayev Zahur Isa oglu**, born on **6 June 1980**, a resident of **Tazakand village of Aghdam district**, travelled to that territory on **15 November 2021**, at around **17:00**.

As a result of the explosion of a **"PMN" type high-explosive mine**, he sustained, due to the effect of the fragments, blast trauma, destruction of the organs of the thoracic and abdominal cavities, traumatic amputations of the upper and lower limbs, and multiple comminuted fractures, injuries classified in living persons as **serious harm to health** and life-threatening, and was intentionally killed.

Furthermore, the members of the criminal organization (union), acting in accordance with the common criminal intent and purpose of the association and each of its members, near **Marzili village of Aghdam district**, which they had occupied in **June 1993**, on the eve of the liberation of that village by the Armed Forces of the Republic of Azerbaijan, that is, during the period from **27 September 2020 to 20 November 2020**, deliberately planted, in a planned manner and at close distances from one another, numerous anti-tank and anti-personnel mines, set ambushes, and created mined areas for the purposes of the said criminal organization.

On **18 November 2021**, at around **15:00**, **Babayev Ramil Nazim oglu**, born on **3 August 1976**, a resident of **Xindiristan village of Aghdam district**, was using a tractor bearing state registration plate **09-T-030**, belonging to the Barda Forestry and Amelioration Administration, in the territory of **Tazakand village of Aghdam district**. While filling in an embankment/earthwork created by Armenian armed formations during the period of occupation in order to open a road, a mine buried in the ground exploded.

As a result of the fragments, he sustained injuries classified as **minor harm to health**, namely contusions of the soft tissues of the left half of the chest, the left elbow and left wrist, both knee areas, and the forehead. With the help of servicemen of military unit No. "N", he was evacuated from the scene and taken to hospital, where timely qualified medical assistance made it possible to save his life.

In addition, during the explosion, by damaging a **DOOSAN-210 excavator**, bearing state registration plate **AZ 09-AB-030**, belonging to the **Karabakh Regional Forestry Center**, they intentionally caused significant material damage to a legal entity.

Furthermore, the members of the criminal organization (union), acting in accordance with the common criminal intent and purpose of the association and each of its members, as a result of the large-scale aggressive war they had launched against Azerbaijan, in the territory of **Zangilan district and surrounding villages**, which they had occupied on **29 October 1993**, on the eve of the liberation of those territories and in the subsequent period, that is, during the period from **27 September 2020 to 19 November 2021**, deliberately planted, in a planned manner and at close distances from one another, numerous anti-tank and anti-personnel mines, set ambushes, and created mined areas for the purposes of the said criminal organization.

From **27 September 2020**, the large-scale aggressive attacks launched in a more active manner were repelled by the Armed Forces of the Republic of Azerbaijan through countermeasures

as a result of which **Zangilan district and the surrounding villages** were liberated from occupation on **20 October 2020**.

Thereafter, on **19 November 2021**, at **14:15**, civilian **Seyidov Nadir Badir oglu**, who worked under contract as a driver at Road Transport Department No. 1 of **"Azaravtoyol" OJSC**, was carrying out works to open a supply road from the 4th border combat point to the 5th border combat point of the 30th border post of the 8th border commandant's office of military unit No. "N" of the State Border Service, located at the height of the same name near **Bartaz village of Zangilan district**. While digging the road with the bucket of the **EK-230-06 tracked excavator**, bearing state registration plate **10 X 901**, which he was operating, an anti-tank mine previously planted in the area by the armed formations of the criminal organization exploded.

As a result of that explosion, **junior warrant officer Aghababayev Renad Murad oglu**, commander of the engineering support group of the security and support platoon of the combat support company of the 8th border commandant's office of military unit No. "N" of the State Border Service, who was nearby, sustained a wound consisting of the presence of a millimetre-sized foreign body in the soft tissue of the left retroauricular area, for which no degree was assigned because it did not constitute harm to health.

Babayev Vaqif Alizaab oglu, operator of the unexploded ordnance operations group of the Mine Action Agency of the Republic of Azerbaijan (**ANAMA**), sustained shrapnel injuries to various parts of his body causing a short-term impairment of health, classified as **minor harm to health**.

Because the working bucket of the equipment absorbed the mine's blast wave and prevented a larger quantity of fragments from spreading into the surrounding area, and because driver **Nadir Seyidov** was behind the steering wheel and at a distance from the point of explosion, their lives were saved.

In addition, the working bucket, front windows and other parts of the **EK-230-06 excavator**, bearing state registration plate **10 X 901**, became unusable, thereby causing material damage to the owner of the equipment, **Hasanov Samir Budaq oglu**.

Furthermore, the members of the criminal organization / association, acting in accordance with the common criminal intent and purpose of the association and each of its members, in **Lachin district and the surrounding villages**, which they had occupied on **18 May 1992**, and which were liberated from occupation by the Armed Forces of the Republic of Azerbaijan on **1 December 2020** pursuant to the Statement of the President of the Republic of Azerbaijan, the Prime Minister of the Republic of Armenia and the President of the Russian Federation dated **10 November 2020**, during the period on the eve of liberation — that is, from **27 September 2020 to 1 December 2020** — on dates not precisely established, deliberately planted, in a planned manner and at close distances from one another, numerous anti-tank and anti-personnel mines, set ambushes, and created mined areas for the purposes of the said criminal organization.

Abilov Mahir Ramiz oglu, a peaceful civilian resident of **Amankand village of Bilasuvar district**, who worked as an overhead-line electrician at the Southern Regional Energy Supply and Sales Department and had been seconded to the Karabakh Regional Energy Supply and Sales Department by order No. **KE/21-00129** of the Deputy Chairman of **"Azarishiq" OJSC** dated **15 November 2021**, was repairing electrical wires in the territory of **Gulabird village of Lachin district** on **21 November 2021**, at around **14:00**. When he stepped on one of the anti-personnel mines whose date and place of manufacture, as well as brand and type, were unknown, an explosion occurred.

As a result, **Mahir Abilov** sustained injuries classified as **serious harm to health**, namely blast trauma and loss of the right foot as a result of amputation at the level of the

talocrural/ankle joint. He was taken to hospital in time and provided with qualified medical assistance, which made it possible to save his life.

Furthermore, the members of the criminal organization / association, acting in accordance with the common criminal intent and purpose of the association and each of its members, as a result of the aggressive war they had launched against Azerbaijan, in **Talish village of Tartar district of the Republic of Azerbaijan**, which they had occupied on **22 April 1994**, during the period when they kept it under occupation, deliberately planted, in a planned manner and at close distances from one another, numerous mines of unknown brand and place of manufacture, set ambushes, and created mined areas for the purposes of the above mentioned criminal organization.

Page 105

After the large-scale aggressive attacks launched in a more active manner from **27 September 2020** were repelled by the Armed Forces of the Republic of Azerbaijan through countermeasures, **Talish village of Tartar district** was liberated from occupation on **3 October 2020**.

On **23 November 2021**, at around **08:00**, in the area conventionally called **"Aghuchuq"**, located in Talish village of Tartar district, **soldier Karimov Tacaddin Qazanfar oglu**, commander of the 1st squad of the 2nd engineering platoon of the obstacle-removal unit of military unit No. "N" of the Ministry of Defence, was performing his official duties to protect the territorial integrity and public security of the Republic of Azerbaijan. When he stepped on one of the **PMN-E type anti-personnel mines**, an explosion occurred.

As a result, he sustained shrapnel wounds to the left side of the body and the left leg, classified in their totality as **less serious harm to health**, causing long-term impairment of health. He was evacuated to hospital No. "N" of the Ministry of Defence, where timely qualified medical assistance made it possible to save his life.

Furthermore, the members of the criminal organization, acting in accordance with the common criminal purpose and intent of each member of the criminal organization, as a result of the aggressive war they had launched against Azerbaijan, in the territory of **Mehdili village of Jabrayil district**, which they had occupied in **August 1993**, on the eve of the liberation of that village by the Azerbaijani Armed Forces — that is, from **3 October 2020 to 29 November 2021**— deliberately planted, in a planned manner and at close distances from one another, numerous anti-tank and anti-personnel mines of unknown brand, model and place of manufacture, set ambushes, and created mined areas for the purposes of the above mentioned criminal organization.

After the area was fully liberated from occupation on **3 October 2020**, **Mamedov Natiq Vali oglu**, a peaceful civilian resident of **Barmaqbina village of Kalbajar district**, who worked as a driver for **"Mirakl Dent" LLC**, travelled there on **29 November 2021**, at around **15:00**. While driving a company-owned cargo vehicle along the 8th kilometre of the **Baku–**

Nakhchivan railway line passing through the territory of Mehdili village of Jabrayil district, he stopped the vehicle and walked toward a semi-constructed building by the roadside that had been destroyed during the occupation by members of the criminal organization. When he stepped on one of the mines, an explosion occurred.

As a result, he sustained an injury classified as **serious harm to health**, namely traumatic amputation of the lower one-third of the right lower leg. He was taken to hospital by persons nearby, where timely qualified medical assistance made it possible to save his life.

Furthermore, the members of the criminal organization / association, acting in accordance with the common criminal intent and purpose of the association and each of its members, as a result of the aggressive war they had launched against Azerbaijan, in **Dashalti village of Shusha district**, which they had occupied on **26 January 1992**, during the period from **27 September 2020 to 9 December 2021**, deliberately planted, in a planned manner and at close distances from one another, numerous anti-tank and anti-personnel mines of unknown brand, model and place of manufacture, set ambushes, and created mined areas for the purposes of the said criminal organization.

After the large-scale aggressive attacks launched in a more active manner from **27 September 2020** were repelled by the Armed Forces of the Republic of Azerbaijan through countermeasures, the said territory was fully liberated from occupation on **8 November 2020**.

Xanatov Orxan Nazim oglu, a peaceful civilian resident of **Goydara village of Gobustan district** and a labourer employed by the contractor company **"Voltac"**, and **Qandiyev Vusal Firidun oglu**, a resident of **Qurbanafandi village of Ismayilli district** and a labourer employed by **"Chengiz Inshaat" Limited Liability Company**, had come to the said territory for construction and reconstruction work. On **9 December 2021**, at around **08:00**, while they were carrying out the installation of electrical lines in **Dashalti village of Shusha district**, they stepped on one of the said mines, causing an explosion.

As a result, **Orxan Xanatov** sustained injuries classified as **serious harm to health** and life-threatening, including crushing and destruction of the head at neck level, traumatic amputation of the right lower limb at the knee joint level, traumatic amputation of the left lower limb at the upper one-third of the thigh, incomplete traumatic amputation of the penis from the bulb, and other injuries, causing his death.

Page 106

The destruction of the head at neck level resulted in brain herniation. **Vusal Qaniyev** sustained multiple amputations and shrapnel injuries to the body, classified as **serious harm to health** and life-threatening. They were intentionally killed.

Furthermore, the members of the criminal organization (union), acting in accordance with the common criminal intent and purpose of the association and each of its members, as a result of the large-scale aggressive war they had launched against Azerbaijan, in the territory of

Jabrayil district and the surrounding villages, which they had occupied on **23 August 1993**, on the eve of liberation from occupation — during the period from **27 September 2020 to 10 November 2020** — deliberately planted, in a planned manner and at close distances from one another, numerous anti-tank and anti-personnel mines, set ambushes, and created mined areas for the purposes of the said criminal organization.

After **Jabrayil district and the surrounding villages** were liberated from occupation by the Armed Forces of the Republic of Azerbaijan on **4 October 2020**, **junior sergeant Rustamov Elshan Yaqub oglu**, an extended active-duty serviceman serving as mechanic-driver of the 2nd tank of the 2nd tank company of the 1st tank battalion of military unit No. "N" of the Ministry of Defence, was carrying out mine-searching and mine-clearance operations around the **Horadiz–Jabrayil highway** on **15 December 2021**, at around **12:00**, as part of the Mine Action Agency of the Republic of Azerbaijan (**ANAMA**), using a **T-72 M-1 tank**, turret number **256**, with a **KMT-7 mine-clearing device** attached to its front section.

While manoeuvring, on the left side of the Horadiz–Jabrayil highway in the territory of Jabrayil district, the tank struck an anti-tank mine previously planted in the area, the date, place of manufacture and brand of which were unknown. As a result of the blast wave, he sustained injuries to various parts of the body, classified as **minor harm to health**, causing a short-term impairment of health. However, because the force of the blast wave was not sufficient, his life was saved. The track and support rollers of the **T-72 M-1 tank**, turret number **256**, belonging to military unit No. "N", were damaged, causing significant damage to the military unit.

Furthermore, the members of the criminal organization / association, acting in accordance with the common criminal intent and purpose of the association and each of its members, in **Bash Qarvand village of Aghdam district**, which they had occupied on **26 April 1994**, on the eve of liberation from occupation — that is, from **27 September 2020 to 20 November 2020** — deliberately planted, in a planned manner and at close distances from one another, numerous anti-tank and anti-personnel mines of unknown brand, model and place of manufacture, set ambushes, and created mined areas for the purposes of the said criminal organization.

After the village was liberated from occupation by the Armed Forces of the Republic of Azerbaijan on **20 November 2020**, **Idrisov Ahmad Shohrat oglu**, a peaceful civilian resident of **Muxas village of Oghuz district** and an excavator operator employed by **"Korpu-Bina-Tikinti" Limited Liability Company**, was carrying out road construction work in that area on **16 December 2021**, at around **13:00**, using a **LiuGong CLG 936E** tracked excavator belonging to that company, bearing state registration plate **110-FY-439**. When the machine he was operating passed over one of the mines, an explosion occurred.

As a result of the explosion, the track of the said excavator was damaged and became inoperative. Because the excavator's front window was covered with metal bars, they were unable to intentionally kill **Ahmad Idrisov**.

Furthermore, the members of the criminal organization / association, acting in accordance with the common criminal intent and purpose of the association and each of its members, in **Bash Qarvand village of Aghdam district**, which they had occupied on **26 April 1994**, on the eve of liberation from occupation — that is, from **27 September 2020 to 20 November 2020** — deliberately planted, in a planned manner and at close distances from one another, numerous anti-tank and anti-personnel mines of unknown brand, model and place of manufacture, set ambushes, and created mined areas for the purposes of the said criminal organization.

After the village was liberated from occupation by the Armed Forces of the Republic of Azerbaijan on **20 November 2020**, on **29 December 2021**, at around **15:30**, in the **Khachinchay riverbed** passing through the territory of the said village, a **LiuGong CLG 936LC** tracked excavator belonging to **"Korpu-Bina-Tikinti" Limited Liability Company**

bearing state registration plate **1-K-023**, was being used to collect river stones in one place. It was operated by **Mammadov Vurghun Sudciddin oglu**, a peaceful civilian resident of **Shirvan city** and an excavator operator employed by the said company. When the machine he was operating passed over one of the mines, an explosion occurred.

As a result, the front and side windows of the excavator cabin were completely shattered and fell out, causing damage to the company. Because the excavator's front window was covered with metal bars, they were unable to intentionally kill **Vurghun Mammadov**.

Furthermore, the members of the criminal organization (union), acting in accordance with the common criminal intent and purpose of the association and each of its members, as a result of the large-scale aggressive war they had launched against Azerbaijan, in the territory of **Kalbajar district**, which they had occupied on **3 April 1993**, on the eve of liberation from occupation — that is, from **27 September 2020 to 25 November 2020** — deliberately planted, in a planned manner and at close distances from one another, numerous mines of unknown brand, model and place of manufacture, set ambushes, and created mined areas for the purposes of the said criminal organization.

After **Kalbajar district and many surrounding villages** were liberated from occupation by the Armed Forces of the Republic of Azerbaijan on **25 November 2020** pursuant to the trilateral statement of **10 November 2020**, **soldier Eyniyev Yusif Suleyman oglu** of the mortar battery of military unit No. "N", located in **Baghlipaya village of Kalbajar district**, was performing service in the area on **2 January 2022**, at **14:00**. As a result of stepping on a mine, he sustained shrapnel injuries classified as **serious harm to health**, namely traumatic amputation of the left lower leg at the one-third level, accompanied by first-degree traumatic-hemorrhagic shock and post-traumatic anaemia. He was evacuated in time and provided with qualified medical assistance, which saved his life.

Furthermore, the members of the criminal organization, acting with the same criminal purpose covered by the common criminal intent of each member of the criminal organization, as a result of the aggressive war they had launched against Azerbaijan, in the territory of **Tapqaraqoyunlu village of Goranboy district**, located on the border between **Talish village of Aghdara district** and Tapqaraqoyunlu village of Goranboy district — a large part of which they had occupied on **11 April 1994** — during the period when they kept that territory under occupation, deliberately planted, in a planned manner and at close distances from one another, numerous anti-tank and anti-personnel mines, set ambushes, and created extensive mined areas for the purposes of the said criminal organization.

After that territory was fully liberated from occupation on **3 October 2020**, **Mammadov Vuqar Maqsud oglu**, a peaceful civilian resident of **Tapqaraqoyunlu village of Goranboy district**, who was engaged in cattle farming, travelled there. On **18 January 2022**, at around **12:00**, on the bank of the **Inca river (İncəçay)**, he stepped on one of the said mines. As a result of the explosion, he sustained bodily injuries classified as **serious harm to health** and life-threatening, namely traumatic amputation of the left lower limb. He was taken to hospital by his relatives, where timely qualified medical assistance made it possible to save his life.

Furthermore, the members of the criminal organization, acting with the same criminal purpose covered by the common criminal intent of each member of the criminal organization, as a result of the aggressive war they had launched against Azerbaijan, in the territory of **Chiraquz village of Khojavend district**, which they had occupied on **2 October 1992** and which was liberated from occupation by the Armed Forces of the Republic of Azerbaijan on **15 October 2020**, during the period from **27 September 2020 to 15 October 2020**, deliberately planted, in a planned manner and at close distances from one another, numerous anti-tank and anti-personnel mines, set ambushes, and created extensive mined areas for the purposes of the said criminal organization.

On **28 January 2022**, at around **11:00**, **Damirov Elxan Yaqub oglu**, a peaceful civilian resident of Gobustan district, was operating a **New Holland** tracked tractor belonging to **"Azvirt-Infracon" LLC**, which was constructing the **Ahmadbayli–Shusha motor road** passing through the territory of Chiraquz village of Khojavend district. When he drove over one of the **TM62P3** anti-tank mines manufactured in the Russian Federation, an explosion occurred. As a result, the **New Holland** bulldozer belonging to **"Azvirt-Infracon"** exploded, was destroyed and rendered unusable

causing significant damage. No one was killed or injured as a result of the explosion.

The military-political leadership of the Republic of Armenia, including its armed forces and other armed formations, as well as unidentified members of the criminal organization unlawfully operating in the territory of the Republic of Azerbaijan in violation of domestic and international law, and members of its structural unit — armed formations equipped with various types of weapons, ammunition, military equipment and other arms — acting on the

basis of the direct material, technical and personnel support provided by the former, centralized management, verbal and written assignments, orders and instructions, and under their strict supervision, in order to implement the criminal plan encompassed by the common criminal intent of each member of the criminal organization, namely:

to continue the national hatred and hostility against Azerbaijanis that they had formed in Armenian society; to ensure the continued occupation of the sovereign territories of the Republic of Azerbaijan seized in the course of the aggressive war they had launched against Azerbaijan; to keep the Azerbaijani population permanently under fear and intimidation and thereby prevent them by any means from returning to the places where they had lawfully lived; to cause the Republic of Azerbaijan to adopt a decision renouncing its own sovereign territories in favour of Armenia; for that purpose, to keep under constant fire, using weapons of various calibres, the places of residence of the peaceful civilian Azerbaijani population lawfully settled in Azerbaijan's sovereign territories along the line of contact with the occupied territories, as well as at sufficiently distant locations from it; to cause explosions and fires in their settlements, that is, to use methods of warfare capable of causing extensive destruction during an armed conflict; to intentionally cause widespread, long-term and serious damage to the environment; to cause large-scale destruction not justified by military necessity; to carry out attacks on undefended territories, settlements and demilitarised zones; to mine territories indiscriminately with numerous mines and other explosive devices in a manner not justified by any military necessity; to deprive the Azerbaijani population of the ability to move freely within the territory of the country of which they were citizens, to live in a healthy and safe environment, and of other fundamental rights; to intentionally kill them with particular cruelty on the grounds of national-ethnic hatred and hostility, by means of genocide, terrorism and banditry, and in connection with the performance of their official duties and public obligations; to persecute them, contrary to the norms of international law, precisely because they were Azerbaijanis; to take them prisoner and hostage; to subject them to enforced disappearance, torture and other criminal acts —

grossly violated the **Bishkek Protocol on the Declaration of a Ceasefire**, concluded between the Republic of Armenia and the Republic of Azerbaijan on **8 May 1994** on the conditional line of contact between the troops of the Republic of Azerbaijan and Armenia and which entered into force on **12 May 1994**, as well as the norms of international law, including the provisions of the **Geneva Convention of 12 August 1949 relative to the Protection of Civilian Persons in Time of War**, the Council of Europe **Warsaw Convention on the Prevention of Terrorism** of **16 May 2005**, and the United Nations **Oslo Convention on Cluster Munitions** of **3 December 2008**.

Acting with the same criminal intent, on **6 October 2020**, at around **17:00**, they fired from engineered and fortified positions which had been transported and established from the direction of the Republic of Armenia in the territories of the Republic of Azerbaijan kept under occupation during **1987–2020**, using a **9K58 "Smerch"** rocket launcher, also known as **BM-30** or **M1983**. Although the rocket, equipped with **9N235** fragmentation cluster

bomblets, was neutralised in the air by units of the Air Force of the Republic of Azerbaijan, the unexploded bomblets contained inside separated and scattered across various areas.

On **1 February 2022**, at around **20:00**, **Mikayilov Ismayil Vidadi oglu**, born on **15 May 1996**, a resident of **Veyisli village of Goranboy district**, was grazing his own animals in the territory of the **"Shirinbulaq" residential area of Aran settlement, Yevlakh district**, when he touched one of the bomblets that had fallen and remained in the area shrapnel wounds accompanied by damage to the left kidney, damage to the main blood vessels of the left upper limb, acute blood loss, open comminuted fractures of the radius, ulna, humerus, tibia and fibula, and numerous other injuries causing **serious harm to health**

Page 109

an explosion occurred. As a result, he sustained firearm-related injuries classified as **serious harm to health**, life-threatening and complicated by acute blood loss, including injuries to the brain, lungs and liver, and was intentionally killed.

Furthermore, the members of the criminal organization / association, acting in accordance with the common criminal intent and purpose of the association and each of its members, in **Chayli village of the present-day Aghdara district**, during the period of occupation — that is, from **1993**, when they occupied it, until **9 October 2020**, when it was liberated — buried a camouflaged anti-personnel mine in the territory of that village.

On **18 February 2022**, at around **11:00**, a piece of stone fell onto that mine. At that time, workers of **Road Maintenance LLC No. 42** of the Azerbaijan State Agency of Automobile Roads were carrying out road construction works according to the project at the **12th kilometre** of the **Tartar–Suqovushan–Talish motor road**, in the section passing through Chayli village.

As a result of the explosion, **Safarov Alishan Sharif oglu**, born on **22 March 1963**, a peaceful civilian resident of **Bayimsarov village of Tartar district** and a worker of the said company, sustained injuries to the dorsal surfaces of the second and third fingers of the left hand, which were not assigned a degree of severity.

Another worker of the same company, **Safarov Faiq Islam oglu**, born on **1 January 1965**, a peaceful civilian resident of **Tartar city**, sustained contused-puncture wounds to the forehead, left parietal and interbrow areas, as well as abrasions to the upper lip and the dorsal surfaces of both hands; these injuries likewise were not assigned a degree of severity.

Because **Alishan Safarov** and **Faiq Safarov** were outside the area into which most of the fragments spread at the moment of the explosion, the perpetrators were unable to intentionally kill them.

Furthermore, the members of the criminal organization, acting with the same criminal purpose encompassed by the common criminal intent of each member of the criminal organization, as a result of the aggressive war they had launched against Azerbaijan, in

Mehdili village of Jabrayil district, which they had occupied in **August 1993**, on the eve of liberation from occupation, deliberately planted, in a planned manner and at close distances from one another, numerous anti-tank and anti-personnel mines of unknown brand, model and place of manufacture, set ambushes, and created mined areas for the purposes of the said criminal organization.

After the village was fully liberated from occupation on **3 October 2020**, **aliyev Safar ahliman oglu**, a peaceful civilian resident of **Aghjabadi city**, travelled there on **17 March 2022**, at around **15:00**, in order to collect usable metal fragments. While walking in the territory of Mehdili village of Jabrayil district, he passed over one of the mines and an explosion occurred.

As a result, he sustained injuries classified as **serious harm to health**, including amputation of the right lower limb at the lower one-third of the lower leg, and other bodily injuries. He was taken to hospital by persons nearby, and timely qualified medical assistance made it possible to save his life.

Furthermore, the members of the criminal organization / association, acting in accordance with the common criminal intent and purpose of the association and each of its members, in **Yusifcanli village of Aghdam district**, which they had occupied on **12 April 1994**, during the period when they kept it under occupation — from **1994 to 2020** — deliberately planted, in a planned manner and at close distances from one another, numerous anti-tank and anti-personnel mines of unknown brand, model and place of manufacture, set ambushes, and created mined areas for the purposes of the said criminal organization.

After the village was liberated from occupation by the Armed Forces of the Republic of Azerbaijan on **20 November 2020**, **Mammadov Xalid Asif oglu**, a peaceful civilian resident of **Xinisli village of Kurdamir district**, who worked as a bulldozer operator for **"Korpu-Bina-Tikinti" Limited Liability Company**, was levelling and smoothing the earth surface of the road at the **9th kilometre** of the **Aghdam–Fuzuli motor road** under construction, in the section passing through Yusifcanli village, on **27 March 2022**, at around **15:00**.

He was operating a **LiuGong CLG B230** bulldozer belonging to the said company, bearing state registration plate **1-K-064**, when the machine passed over one of the mines and an explosion occurred. As a result, the front and side windows of the bulldozer cabin were completely shattered and fell out, and the right rear track was rendered unusable, causing damage to the company.

Page 110

Because the fragments of the exploded mine did not spread in the direction of the bulldozer's steering wheel, the perpetrators were unable to intentionally kill **Xalid Mammadov**.

Furthermore, the members of the criminal organization, acting with the same criminal purpose encompassed by the common criminal intent of each member of the criminal

organization, as a result of the aggressive war they had launched against Azerbaijan, in **Ashaghi Seyidahmadli village of Fuzuli district**, which they had occupied in **August 1993**, during the period when they kept it under occupation, deliberately planted, in a planned manner and at close distances from one another, numerous anti-tank and anti-personnel mines, set ambushes, and created mined areas for the purposes of the said criminal organization.

After that village was fully liberated from occupation on **21 October 2020**, **Zulfuqarli Vuqar Natiq oglu**, a peaceful civilian resident of **Horadiz city of Fuzuli district**, travelled there on **23 March 2022**, at around **09:00**. While driving his own "**HOWO"** vehicle bearing state registration plate **77-CB-134** in the territory of Ashaghi Seyidahmadli village of Fuzuli district in connection with landscaping and construction works, the vehicle passed over one of the **TM-62M anti-tank mines** manufactured in the Russian Federation, causing an explosion.

As a result, he sustained a comminuted displaced fracture of the left heel bone, closed displaced fractures of the navicular and cuboid bones, and other severe, life-threatening bodily injuries to various parts of the body. He was taken to hospital by persons nearby, and timely qualified medical assistance made it possible to save his life.

In addition, the **2012 HOWO** vehicle bearing state registration plate **77-CB-134**, which he was driving, was torn apart by the fragments and rendered completely unusable, causing significant damage.

Furthermore, the members of the criminal organization / association, acting in accordance with the common criminal intent and purpose of the association and each of its members, as a result of the aggressive war they had launched against Azerbaijan, in **Hasanqaya village of Tartar district** — a large part of which they had occupied in **April 1994**, and which until **13 October 1992** had been part of Aghdara district — during the period when they kept it under occupation, on dates not precisely established, deliberately planted, in a planned manner and at close distances from one another, numerous anti-tank and anti-personnel mines of unknown model and place of manufacture, set ambushes, and created mined areas for the purposes of the said criminal organization.

After the territory was fully liberated from occupation on **9 October 2020**, **Hasanov Elnur Tofiq oglu**, a peaceful civilian resident of **Xoylu village of Goranboy district**, travelled there on **9 April 2022**, at around **12:00**. While grazing small livestock in an open pasture area, he passed over one of the anti-personnel mines and an explosion occurred.

As a result, he sustained traumatic amputation of both lower limbs and severe, life-threatening bodily injuries to various parts of his body. He was taken to hospital by relatives, and timely qualified medical assistance made it possible to save his life.

Furthermore, the members of the criminal organization / association, acting in accordance with the common criminal intent and purpose of the association and each of its members, in

Yusifcanli village of Aghdam district, which they had occupied on **12 April 1994**, during the period when they kept it under occupation — from **1994 to 2020** — deliberately planted, in a planned manner and at close distances from one another, numerous anti-tank and anti-personnel mines of unknown brand, model and place of manufacture, set ambushes, and created mined areas for the purposes of the said criminal organization.

After the village was liberated from occupation by the Armed Forces of the Republic of Azerbaijan on **20 November 2020**, **Fataliyev Alim Sharafaddin oglu**, a peaceful civilian resident of **Karrar settlement of Kurdamir district**, who worked as a grader operator for **"Korpu-Bina-Tikinti" Limited Liability Company**, was levelling and smoothing the earth surface of the road at the **6th kilometre** of the **Aghdam–Fuzuli motor road** under construction, in the section passing through Yusifcanli village, in the bed of the **Qarqarchay river**, on **17 April 2022**, at around **19:00**.

He was operating a **LiuGong CLG B418** grader belonging to the said company, bearing state registration plate **1-K-045**, when the machine passed over one of the mines and an explosion occurred. As a result, the grader was rendered completely unusable.

Page 111

Because the fragments of the exploded mine spread in the opposite direction from where the grader was located, the perpetrators were unable to intentionally kill **Alim Fataliyev** .

Furthermore, the members of the criminal organization / union, acting in accordance with the common criminal intent and purpose of the organization and each of its members, as a result of the aggressive war they had launched against Azerbaijan, in **Vejnali village of Zangilan district**, which they had occupied on **29 October 1993**, on the eve of liberation from occupation — that is, during the period from **27 September 2020 to 18 April 2022** — deliberately planted, in a planned manner and at close distances from one another, numerous anti-personnel mines of unknown brand, model and place of manufacture, set ambushes, and created mined areas for the purposes of the said criminal organization.

After the large-scale aggressive attacks launched in a more active manner from **27 September 2020** were repelled by the Armed Forces of the Republic of Azerbaijan through countermeasures, the territory of **Vejnali village of Zangilan district** was liberated from occupation on **30 October 2020**.

On **18 April 2022**, at around **10:20**, **Major Abilov Vurghun Idris oglu**, chief of staff of the 9th border commandant's office of military unit No. "N" of the State Border Service, was performing his official duties at the 2nd combat point of the 28th border outpost of the 9th border commandant's office of military unit No. "N" of the Qubadli Separate Border Division of the State Border Service. While moving in that area during the establishment of a new firing position, he passed over one of the anti-personnel mines and an explosion occurred.

As a result, **Vurghun Abilov** sustained shrapnel injuries to the right lower-leg area, accompanied by traumatic amputation of the right lower leg at the middle one-third level, classified in their totality as **serious harm to health** and life-threatening. He was evacuated to military hospital No. “N” of the Ministry of Defence, and timely qualified medical assistance made it possible to save his life.

Furthermore, the members of the criminal organization / union, acting in accordance with the common criminal intent and purpose of the association and each of its members, as a result of the aggressive war they had launched against Azerbaijan, in **Yenikand village of Kalbajar district of the Republic of Azerbaijan**, which they had occupied on **2 April 1993**, during the period from **27 September 2020 to 19 April 2022**, deliberately planted, in a planned manner and at close distances from one another, numerous anti-tank and anti-personnel mines of unknown brand, model and place of manufacture, set ambushes, and created mined areas for the purposes of the said criminal organization.

After the large-scale aggressive attacks launched in a more active manner from **27 September 2020** were repelled by the Armed Forces of the Republic of Azerbaijan through countermeasures, the territory was liberated from occupation on **25 November 2020** pursuant to the trilateral statement signed on **10 November 2020**.

On **19 April 2022**, at around **13:30**, in the area of the **“Z1A” combat position**, conventionally called **“Arif”**, located in that territory, **soldier Jamalzada Ayxan Mobil oglu**, an extended active-duty serviceman and commander of the 2nd squad of the 2nd platoon of the engineering-fortification company of military unit No. “N” of the Ministry of Defence, was performing his official duties. When he passed over one of the anti-personnel mines, an explosion occurred.

As a result, **Ayxan Camalzada** sustained injuries to both legs, including traumatic amputation of the right lower limb at the middle one-third level of the lower leg, classified in their totality as **serious harm to health** and life-threatening. He was evacuated to military hospital No. “N” of the Ministry of Defence, where timely qualified medical assistance made it possible to save his life.

Furthermore, the members of the criminal organization / union, acting in accordance with the common criminal intent and purpose of the association and each of its members, as a result of the aggressive war they had launched against Azerbaijan, in **Teymur Muskanli village of Gubadli district**, which they had occupied on **31 August 1993**, on the eve of liberation from occupation — that is, during the period from **27 September 2020 to 10 November 2020** — deliberately planted, at close distances from one another, numerous anti-tank and anti-personnel mines of unknown brand, model and place of manufacture

set ambushes, and created mined areas for the purposes of the said criminal organization.

After the territory was fully liberated from occupation on **9 November 2020**, **Nasibov Baybala Jabrayil oglu**, a peaceful civilian resident of **Asrik-Jirdaxan village of Tovuz district** and an excavator operator for **"Protean Construction" JSC**, travelled there on **22 April 2022**, at around **18:00**. While travelling in a company cargo vehicle from Teymur Muskanli village toward Gubadli district, he got out of the vehicle in the territory of that village and began walking toward the roadside. When he passed over one of the mines, an explosion occurred.

As a result, he sustained injuries classified as **serious harm to health**, including traumatic amputation of the left lower limb at the ankle/lower-leg joint level, and other bodily injuries. He was taken to hospital by persons nearby, and timely qualified medical assistance made it possible to save his life.

Furthermore, the members of the criminal organization / union, acting in accordance with the common criminal intent and purpose of the association and each of its members, as a result of the large-scale aggressive war they had launched against Azerbaijan, in the border section between **Baghanis Ayrim village** and **Qushchu Ayrim village** of **Qazakh district**, which they had occupied on **24 March 1990** and have kept under occupation up to the present time, deliberately planted, in a planned manner and at close distances from one another, on dates not precisely established, numerous **TM-62**, **TM-62M** and other anti-tank and anti-personnel mines and explosive devices of unknown brand and place of manufacture, set ambushes, and created mined areas for the purposes of the said criminal organization.

On **23 April 2022**, at around **17:00**, in the open field area called **"Gangalli dara"**, peaceful civilian minors from **Qushchu Ayrim village of Qazakh district** — **Nuriyeva Nabat Mikayil qizi**, born on **6 November 2008**, and her brother **Nuriyev Cavad Mikayil oglu**, born on **14 June 2010** — were grazing animals. The latter unknowingly picked up and threw aside a factory-manufactured **MBCh-62 anti-tank mine fuze**, designed to be used for detonating **TM-62** and **TM-62M** anti-tank mines and, when attached to the body of such mines, forming part of the mine's munition; it is activated by pressure from above. At that moment, an explosion occurred.

As a result of the flame wave, **Cavad Nuriyev** sustained bodily injuries classified as **less serious harm to health**, namely first- to second-degree thermal burns covering **20%** of the total body surface, including the inner surfaces of both forearms, the anterior surfaces of both thighs, the anterior surfaces of the chest and abdomen, and the left and right cheeks.

Nabat Nuriyeva sustained bodily injuries classified as **minor harm to health**, namely first- to second-degree thermal burns covering **10%** of the total body surface, including the inner surfaces of both forearms and the left and right cheeks.

Because **Cavad Nuriyev** was taken to hospital in time and provided with qualified medical assistance, it was possible to save his life. **Nabat Nuriyeva**, being at a certain distance from the area where the explosion occurred, was able to avoid the flame created by the explosion.

Furthermore, the members of the criminal organization / union, acting in accordance with the common criminal intent and purpose of the association and each of its members, seeing that, pursuant to the statement of the President of the Republic of Azerbaijan, the Prime Minister of the Republic of Armenia and the President of the Russian Federation dated **10 November 2020**, **Lachin district and the surrounding villages** would be liberated from occupation by the Armed Forces of the Republic of Azerbaijan on **1 December 2020**, on the eve of that liberation — that is, during the period from **27 September 2020 to 1 December 2020** — planted, at close distances from one another, numerous anti-tank and anti-personnel mines of unknown model and place of manufacture, set ambushes, and created mined areas for the purposes of the said criminal organization.

Salahov Parvin Famil oglu, born on **14 April 1992**, a peaceful civilian resident of **Dagh Kasaman village of Aghstafa district**, worked as a warehouseman for the **"Amazon" construction company**, which was carrying out road repair and construction works in **Safiyan village of Lachin district**, fully liberated from occupation on **9 November 2020**. On **29 April 2022**, at around **14:00**, while walking on foot on the motor road in the territory of the village, he passed over one of the anti-personnel mines

and an explosion occurred. As a result, he sustained severe bodily injuries accompanied by acute blood loss, namely traumatic amputation of the left foot; multiple shrapnel wounds of various shapes and sizes to the left testicle, abdomen and left upper limb, accompanied by a wide tissue defect on the anterior-lateral surface of the left lower leg and thigh; an open comminuted fracture of the left kneecap; and venous pallor of the internal organs. He was intentionally killed.

Furthermore, the members of the criminal organization / union, acting in accordance with the common criminal intent and purpose of the union and each of its members, as a result of the aggressive war they had launched against Azerbaijan, in **Mehdili village of Jabrayil district**, which they had occupied in **August 1993**, seeing that, as a result of the countermeasures carried out by the Armed Forces of the Republic of Azerbaijan against the large-scale aggressive attacks launched in a more active manner from **27 September 2020**, that village would be liberated from occupation, during the period from **27 September 2020 to 3 October 2020**, on dates not precisely established, deliberately planted, in a planned manner and at close distances from one another, numerous anti-tank and anti-personnel mines of unknown place of manufacture, set ambushes, and created mined areas for the purposes of the said criminal organization.

After the village was fully liberated from the occupation of the Republic of Armenia on **3 October 2020**, **Ahmadov Ilqar Heybat oglu**, a peaceful civilian resident of **Qaradagh district of Baku city**, who worked as a driver for **"Improtex Industries" LLC**, travelled to the territory of Mehdili village on **5 May 2022**, bringing with him mine-clearance devices belonging to the company.

At around **12:00**, he stopped the **MAN** vehicle bearing registration number **99-JH-985**, which he was driving, got out in order to rest, walked toward the roadside, and, when he tried to sit down on the ground using his hands for support, one of the **PMN anti-personnel mines** exploded as his hands touched the ground surface.

As a result, he sustained bodily injuries classified as **serious harm to health**, accompanied by traumatic separation of the first, second and third fingers of the left hand. He was taken to hospital by persons nearby, and timely qualified medical assistance made it possible to save his life.

Furthermore, the members of the criminal organization / union, acting in accordance with the common criminal intent and purpose of the union and each of its members, as a result of the large-scale aggressive war they had launched against Azerbaijan, in the territory of **Aghdam district and surrounding villages**, which they had occupied on **23 July 1993**, during the period when they kept them under occupation, on dates not precisely established, deliberately planted, in a planned manner and at close distances from one another, numerous anti-tank and anti-personnel mines of unknown model and place of manufacture, set ambushes, and created mined areas for the purposes of the said criminal organization.

After the large-scale aggressive attacks launched in a more active manner from **27 September 2020** were repelled by the Armed Forces of the Republic of Azerbaijan through countermeasures, and after **Aghdam district and the surrounding villages** were liberated from occupation on **20 November 2020** pursuant to the trilateral statement signed on **10 November 2020**, **Captain Heydarov Suleyman Vaqif oglu**, head of the pyrotechnic and engineering training section of the Combat and Special Training Department of military unit No. “N” of the Ministry of Emergency Situations, namely the Special Risk Rescue Service, was carrying out mine-clearance work on **13 May 2022**, at **11:30**, in the territory of **Abdinli village of Aghdam district**, in areas that had served during the occupation as combat positions of illegal Armenian armed formations.

He was caught in the explosion of a **PMN** high-explosive anti-personnel mine of unknown place of manufacture and type, which had previously been buried in that area under unknown circumstances. As a result, he sustained injuries classified as **serious harm to health**, causing long-term impairment of health, including open injuries to both eyes; penetrating wounds of the cornea and sclera; multiple blind shrapnel wounds to the periorbital areas of both eyes; avulsion of the upper one-third of the right forearm; blind shrapnel wounds to the face, forehead, submental area and anterior neck area; post-traumatic fractures of the crowns of teeth **11, 21 and 22,**

and other injuries. Since qualified medical assistance was provided in time, it was possible to save his life.

Furthermore, unidentified members of the criminal organization, continuing their acts with the same criminal intent and purposes, in the territory of **Gorazilli village of Fuzuli district**, which they had occupied on **2 July 1993**, on the eve of the liberation of that village — that is, during the period from **27 September 2020 to 9 October 2020** — deliberately planted, in a planned manner and at close distances from one another, numerous anti-tank and anti-personnel mines whose date and place of manufacture, as well as brand and type, were not precisely known, set ambushes, and created mined areas for the purposes of the said criminal organization.

In **Gorazilli village**, which was fully liberated from occupation on **9 October 2020**, **Abdullayev Xayal Baxtiyar oglu**, born on **4 December 1999**, a peaceful civilian resident of **Khojavend village of Khojavend district**, was living in a building located in that village and grazing small livestock belonging to **"KRAUN CO-R" LLC**. On **28 May 2022**, at around **17:00**, one of the animals passed over one of the said anti-personnel mines and an explosion occurred.

As a result, **Xayal Abdullayev** sustained bodily injuries classified as **less serious harm to health**, namely an open comminuted fracture of the distal phalanx of the fifth finger of the left hand, rupture of the dorsal artery of the right foot — **arteria dorsalis pedis** — and multiple wounds to the lower limbs. He was taken to hospital in time and provided with qualified medical assistance, which made it possible to save his life.

Furthermore, unidentified members of the criminal organization, continuing their acts with the same criminal intent and purposes, in the territory of **Xudafarin village of Jabrayil district**, which they had occupied on **23 August 1993**, on the eve of the liberation of that territory — that is, during the period from **27 September 2020 to 18 October 2020** — deliberately planted, in a planned manner and at close distances from one another, numerous anti-tank and anti-personnel mines whose date and place of manufacture, as well as brand and type, were not precisely known, set ambushes, and created mined areas for the purposes of the said criminal organization.

After the large-scale aggressive attacks launched in a more active manner from **27 September 2020** were repelled by the Armed Forces of the Republic of Azerbaijan through countermeasures, and after the said territory was fully liberated from occupation on **18 October 2020**, on **17 June 2022**, at around **09:00**, minesweepers of the mine-search group of the Mine Action Agency of the Republic of Azerbaijan were carrying out their official duties and conducting operations to clear mines that had been intentionally planted in advance by members of armed formations during the occupation period.

The minesweepers were: **Mustafayev Mahir Husamaddin oglu**, born on **10 December 1988**, a peaceful resident of **Horadiz city of Fuzuli district**; **Gozalov Samir Arif oglu**, born on **4 September 1995**, a peaceful resident of **Ahmadalilar village of Fuzuli district**; **Valiyev Ruhin Sultan oglu**, born on **31 March 1991**, a peaceful resident of **Garadaghli village of Goranboy district**; **Rzayev Gahraman Bilal oglu**, born on **20 February 1991**, a peaceful resident of **Ashaghi Abdulrahmanli village of Fuzuli district**; **Jabrayilli Farid**

Zakir oglu, born on **14 September 2001**, a peaceful resident of **Soltanli village of Jabrayil district**; **Guliyev Alasgar Asif oglu**, born on **28 June 1990**, a peaceful resident of **Ahmadalilar village of Fuzuli district**; and **Nasirov Gismat Rasim oglu**, born on **19 June 1990**, a peaceful resident of **Boyuk Bahmanli village of Fuzuli district**.

During those mine-clearance operations, a **PMN-type mine** located **103 metres** north-east of the **Second Xudafarin Bridge** over the **Araz River**, between Xudafarin village and the Islamic Republic of Iran, at coordinates **39°09'06"N, 46°56'27"E**, exploded.

As a result, **Ruhin Valiyev** sustained injuries classified as **serious harm to health**, namely multiple shrapnel wounds to the inner surfaces of the right thigh and lower leg and to the anterior-inner surface of the left lower leg, accompanied by post-traumatic amputation of the lower one-third of the left lower leg and formation of a stump.

Mahir Mustafayev sustained injuries classified as **minor harm to health**, namely closed craniocerebral trauma with concussion of the brain, first- and second-degree thermal burns and multiple shrapnel wounds to the face, left upper limb, left half of the chest and left scapular area, barotrauma, and erosion of the cornea of the left eye.

Samir Gozalov sustained injuries classified as **minor harm to health**, namely closed craniocerebral trauma with concussion of the brain.

Gahraman Rzayev sustained injuries classified as **minor harm to health**, namely closed craniocerebral trauma with concussion of the brain.

Page 115

Alasgar Guliyev sustained injuries classified as **minor harm to health**, namely closed craniocerebral trauma with concussion of the brain, blunt closed trauma of the chest and abdomen, and contusion of soft tissues.

Gismat Nasirov sustained injuries classified as **minor harm to health**, namely closed craniocerebral trauma with concussion of the brain and contusion of soft tissues.

Farid Jabrayilli sustained injuries classified as **minor harm to health**, namely closed craniocerebral trauma with concussion of the brain and contusion of soft tissues.

Since **Ruhin Valiyev** was taken to hospital in time and provided with qualified medical assistance, it was possible to save his life. The other injured persons, being relatively farther away from the area where the explosion occurred, were able to avoid the blast wave.

Furthermore, unidentified members of the criminal organization, continuing their acts with the same criminal intent and purposes, in the territory of **Xudafarin village of Jabrayil district**, which they had occupied on **23 August 1993**, on the eve of liberation from occupation — that is, during the period from **27 September 2020 to 18 October 2020** — deliberately planted, in a planned manner and at close distances from one another, numerous

anti-tank and anti-personnel mines whose date and place of manufacture, as well as brand and type, were not precisely known, set ambushes, and created mined areas for the purposes of the said criminal organization.

In that territory, fully liberated from occupation on **18 October 2020**, on **19 June 2022**, at around **11:00**, **Shukurov Ali Shirali oglu**, born on **4 February 1992**, a peaceful resident of **Boyuk Bahmanli village of Fuzuli district** and a minesweeper of the mine-search group of the Mine Action Agency of the Republic of Azerbaijan, was carrying out his official duties and conducting operations to clear mines that had been intentionally planted in advance by members of armed formations during the occupation period. In the territory of Xudafarin village, at coordinates **39°09'06"N, 46°56'27"E**, a **PMN-type mine** exploded.

As a result, he sustained bodily injuries classified as **minor harm to health**, namely wounds on the outer surface of the middle one-third and the outer and anterior surfaces of the upper one-third of the left lower leg; on the anterior surface of the middle-upper one-third of the right lower leg; on the posterior surface of the middle one-third of the left thigh; and bruising of the outer ankle area of the left foot. He was taken to the **Fuzuli Treatment and Diagnostic Centre**, where timely qualified medical assistance made it possible to save his life.

Furthermore, unidentified members of the criminal organization, continuing their acts with the same criminal intent and purposes, in the territory of **Ashaghi Seyidahmadli village of Fuzuli district**, which they had occupied on **23 August 1993**, during the occupation period, on dates not precisely established, deliberately planted, in a planned manner and at close distances from one another, numerous anti-tank and anti-personnel mines whose date and place of manufacture, as well as brand and type, were not precisely known, set ambushes, and created mined areas for the purposes of the said criminal organization.

On **26 June 2022**, at around **20:00**, **Salmanov Ilham Baxtiyar oglu**, born on **7 July 1989**, a police officer of the Patrol-Guard Service Company of the Fuzuli District Police Department, holding the rank of **senior police sergeant**, and a peaceful resident of **Shukurbayli village of Fuzuli district**, visited **Ashaghi Seyidahmadli village**, which had been fully liberated from occupation on **21 October 2020**. Near a semi-constructed residential house in the village territory that had been built before the occupation, he stepped on one of the said anti-personnel mines, causing an explosion.

As a result, he sustained bodily injuries classified as **serious harm to health**, namely an open wound along the medial surface of the left thigh and lower leg and traumatic amputation of the right lower leg at the level of the middle one-third. He was taken to hospital in time and provided with qualified medical assistance, which made it possible to save his life.

Furthermore, unidentified members of the criminal organization, continuing their acts with the same criminal intent and purposes, in the territory of **Taghaverd village of Khojavend district**, which they had occupied on **2 October 1992**, on the eve of liberation from occupation and also on later dates — that is, during the period from **27 September 2020 to**

14 July 2022 — deliberately planted, in a planned manner and at close distances from one another, numerous anti-tank and anti-personnel mines whose date and place of manufacture, as well as brand and type, were not precisely known, set ambushes, and created mined areas.

Page 116

After the large-scale aggressive attacks launched in a more active manner from **27 September 2020** were repelled by the Armed Forces of the Republic of Azerbaijan through countermeasures, and after **Taghaverd village** was fully liberated from occupation on **9 November 2020**, on **14 July 2022**, at around **14:00**, at the **57th kilometre** of the **Ahmadbayli–Fuzuli–Shusha motor road**, in the territory of Taghaverd village, **Yalpiri Yildiray Juma oglu**, born on **10 December 1987**, a citizen of the Republic of Turkey and an excavator operator employed by **"Kolin Inshaat Sanayi ve Ticaret Anonim"**, was carrying out excavation works at the exit section of **T-1 tunnel** using a **CAT D8T excavator**. When the excavator he was operating passed over one of the said anti-tank mines, an explosion occurred.

As a result, he sustained bodily injuries classified as **serious harm to health**, namely firearm-shrapnel wounds to the auricle of the left ear, the left cheek, the dorsal surface of the left hand, the palmar surface of the right hand, the anterior surface of the chest, the left forearm, the left upper arm, and the anterior-inner surface of the right upper arm; a shrapnel wound in the right subclavian area, surrounded by a burn area and accompanied by a tissue defect; multiple shrapnel wounds at the level of the right knee joint; an open shrapnel wound on the anterior-inner surface of the middle one-third of the left knee/lower-leg area; and a shrapnel wound in the right third intercostal area of the chest, along the midclavicular line, surrounded by a burn area, penetrating into the thoracic cavity and damaging the anterior surface of the lung, accompanied by hemopneumothorax.

He was taken to hospital in time and provided with qualified medical assistance, which made it possible to save his life. Because the excavator was damaged, significant material damage was caused to the company.

Furthermore, unidentified members of the criminal organization, continuing their acts with the same criminal intent and purposes, in the territory of **Dagh Tumas village of Jabrayil district**, which they had occupied on **23 August 1993**, on the eve of liberation from occupation — that is, during the period from **27 September 2020 to 23 October 2020** — deliberately planted, in a planned manner and at close distances from one another, numerous anti-tank and anti-personnel mines whose date and place of manufacture, as well as brand and type, were not precisely known, set ambushes, and created mined areas for the purposes of the said criminal organization.

After the large-scale aggressive attacks launched in a more active manner from **27 September 2020** were repelled by the Armed Forces of the Republic of Azerbaijan through countermeasures, and after **Dagh Tumas village** was fully liberated from occupation on **23 October 2020**, on **14 July 2022**, at around **13:00**, at a location **1.4 kilometres** south-west by

air from the shrine called **“Bashikasik”** in the territory of Dagh Tumas village, at geographical coordinates **39°21'35"N, 46°45'22"E**, a **Shacman** vehicle bearing state registration plate **90-VG-134**, driven by **Mammadov Shamil Farahim oglu**, born on **21 March 1996**, a civilian resident of **Xubyarli village of Imishli district**, and belonging to **Mammadov Mahammad Sadulla oglu**, passed over one of the said anti-tank mines, causing an explosion.

As a result, **Shamil Mammadov** sustained bodily injuries classified as **serious harm to health**, namely traumatic amputation of the lower one-third of the left lower leg, a closed displaced intra-articular fracture of the lower one-third of the right lower-leg bones, and multiple wounds to the foot. He was taken to hospital in time and provided with qualified medical assistance, which made it possible to save his life.

As a result of the explosion, the **Shacman** vehicle bearing state registration plate **90-VG-134** became unusable, thereby causing significant damage to **Mahammad Mammadov**.

Furthermore, the members of the criminal organization / union, acting in accordance with the common criminal intent and purpose of the association and each of its members, as a result of the large-scale aggressive war they had launched against Azerbaijan, in **Jabrayil district and the surrounding villages**, which they had occupied on **23 August 1993**, on the eve of liberation from occupation — that is, during the period from **27 September 2020 to 10 November 2020** — on dates not precisely established, deliberately planted, in a planned manner and at close distances from one another, numerous anti-tank and anti-personnel mines whose model and place of manufacture were not precisely known, set ambushes, and created mined areas for the purposes of the said criminal organization.

Page 117

After the large-scale aggressive attacks were repelled by the Armed Forces of the Republic of Azerbaijan through countermeasures and after **Nuzgar village of Jabrayil district** and the surrounding villages were liberated from occupation, **warrant officer Aghayev Mirza Intiqam oglu**, serving as commander of the 4th tank of the 1st platoon of the 3rd company of the 1st battalion of military unit No. “N” of the Ministry of Defence, and **junior sergeant Suleymanov Afiq Ziyafat oglu**, serving as mechanic-driver of the 4th tank of the 1st platoon of the 1st company of the same battalion, were carrying out mine-clearance work in the territory of **Nuzgar village of Jabrayil district** on **14 July 2022**, at around **08:00**, using a **T-72 heavy battle tank**.

As a result of the explosion of an anti-tank high-explosive mine whose date and place of manufacture were unknown and which had previously been buried in the area, the front left part of the tank was damaged and rendered unusable.

In addition, **Mirza Aghayev** sustained injuries classified as **minor harm to health**, causing short-term impairment of health, namely closed craniocerebral trauma.

Afiq Suleymanov sustained injuries classified as **minor harm to health**, causing short-term impairment of health, namely closed craniocerebral trauma.

Furthermore, the members of the criminal organization / union, acting in accordance with the common criminal intent and purpose of the association and each of its members, as a result of the large-scale aggressive war they had launched against the Republic of Azerbaijan, in **Kalbajar district and the surrounding villages**, including **Jamilli village**, which they had fully occupied on **2 April 1993**, during the period from **27 September 2020 to 25 November 2020**, deliberately planted, in a planned manner and at close distances from one another, numerous anti-tank and anti-personnel mines whose model, brand and place of manufacture were not precisely known, set ambushes, and created mined areas for the purposes of the said criminal organization.

In the territory of **Jamilli village of Kalbajar district**, liberated from occupation on **25 November 2020**, **Colonel Isbandiyarov Vuqar Tofiq oglu**, commander of military unit No. "N" of the Ministry of Defence, was inspecting a trench on **26 July 2022**, at around **17:00**, in the service area of the **"KS-1" combat position**, conventionally called **"Konqur"**, of the 1st battalion. As a result of the explosion of an anti-personnel mine buried in the ground, he sustained shrapnel injuries classified as **serious harm to health** and life-threatening, accompanied by traumatic amputation of the left lower limb at the middle one-third level of the lower leg.

Since **Vuqar Isbandiyarov** was evacuated in time and provided with qualified medical assistance, it was possible to save his life.

Furthermore, unidentified members of the criminal organization, continuing their acts with the same criminal intent and purposes, in the territory of **Malikahmadli village of Gubadli district**, which they had occupied in **August 1993**, on the eve of the liberation of that village — that is, during the period from **27 September 2020 to 10 November 2020** — deliberately planted, in a planned manner and at close distances from one another, numerous anti-tank and anti-personnel mines whose date and place of manufacture, as well as brand and type, were not precisely known, set ambushes, and created mined areas for the purposes of the said criminal organization.

In the territory of **Malikahmadli village**, liberated from occupation by the Armed Forces of the Republic of Azerbaijan as a result of countermeasures against the large-scale aggressive attacks launched in a more active manner from **27 September 2020**, in a grain field called **"Yaziduzu"**, on **1 August 2022**, at around **15:00**, **Aghamaliyev Surat Musaxan oglu**, born on **1 January 1994**, a civilian resident of **Musali village of Jalilabad district** and a combine operator employed by **"Kroun Ko-R" LLC**, was harvesting grain. The **Class Dominator 130** combine bearing state registration plate **44-T-869**, belonging to **"Masalli Servis" LLC** and operated by him, passed over one of the said anti-tank mines, causing an explosion.

As a result, he sustained bodily injuries that did not constitute harm to health, namely burn wounds on the posterior surface of the middle and upper one-thirds of the right forearm,

abrasions on the anterior surfaces of both knee joints and both lower legs, and wounds on the sole of the right foot.

Page 118

As a result of the explosion, the **Class Dominator 130** combine bearing state registration plate **44-T-869** was rendered unusable, causing significant damage to **"Masalli Servis" LLC**.

Furthermore, unidentified members of the criminal organization, continuing their acts with the same criminal intent and purposes, in the territory of **Garaxanbayli village of Fuzuli district**, which they had occupied on **23 August 1993**, during the occupation period, on dates not precisely established, deliberately planted, in a planned manner and at close distances from one another, numerous anti-tank and anti-personnel mines whose date and place of manufacture, as well as brand and type, were not precisely known, set ambushes, and created mined areas for the purposes of the said criminal organization.

After the large-scale aggressive attacks launched in a more active manner from **27 September 2020** were repelled by the Armed Forces of the Republic of Azerbaijan through countermeasures, and after that territory was fully liberated from occupation on that same date, on **2 August 2022**, at around **10:00**, **Huseynov Gilman Nidayat oglu**, born on **1 June 1976**, a civilian resident of **Mahmudlu village of Shamkir district**, an employee of **"Alpha Demining" LLC**, which was carrying out mine-clearance work under a contract with the Mine Action Agency of the Republic of Azerbaijan, and the head of a mine-search group, was performing his official duties. He was conducting an operation to clear mines that had been intentionally planted in advance by members of armed formations during the occupation period, at a location **3.5 kilometres** to the right of the bridge situated on the section of the **Ahmadbayli–Fuzuli–Shusha main motor road**passing through the territory of Garaxanbayli village.

When he stepped on one of the said anti-personnel mines, an explosion occurred. As a result, he sustained injuries classified as **serious harm to health**, namely traumatic amputation of the lower one-third of the right lower leg.

Other minesweepers of the same company also sustained injuries:

Shukurov Yadigar Dilavar oglu, born on **18 August 1990**, a civilian resident of **ahmadalilar village of Fuzuli district**, sustained injuries classified as **less serious harm to health**, namely neurosensory severe hearing impairment accompanied by a neurotic reaction to severe stress — moderate-to-severe hearing loss in the right ear and total deafness in the left ear — and a chopped/incised wound to the left half of the chest.

Alizada Rovshan Ruslan oglu, born on **20 October 1991**, a civilian resident of **Ahmadalilar village of Fuzuli district**, sustained bodily injuries classified as **minor harm to health**, namely chopped/incised wounds of the right upper limb and the right half of the

abdomen, a neurotic reaction to severe stress, and traumatic erosion of the cornea of the right eye.

Since **Qilman Huseynov** and **Yadigar Shukurov** were taken to hospital in time and provided with qualified medical assistance, it was possible to save their lives. **Rovshan alizada**, being relatively farther away from the area where the explosion occurred, was able to avoid the fragments scattered by the explosion.

Furthermore, the members of the criminal organization / union, acting in accordance with the common criminal intent and purpose of the association and each of its members, as a result of the large-scale aggressive war they had launched against the Republic of Azerbaijan, in **Kalbajar district and the surrounding villages**, which they had fully occupied on **2 April 1993**, during the period from **27 September 2020 to 25 November 2020**, deliberately planted, in a planned manner and at close distances from one another, numerous anti-tank and anti-personnel mines whose model, brand and place of manufacture were not precisely known, set ambushes, and created mined areas for the purposes of the said criminal organization.

In the eastern part of **Kalbajar district**, liberated from occupation on **25 November 2020**, in the service area of the combat position conventionally called **ZM-3**, on **5 August 2022**, at around **16:00**, while moving on foot and performing his official duties to protect the territorial integrity and public security of the Republic of Azerbaijan, **Lieutenant Aliyev Babak Asgar oglu**, serving as commander of the 7th company of the 3rd battalion of military unit No. “N” of the Ministry of Defence, stepped on **two anti-personnel mines**. As a result, he sustained shrapnel injuries classified as **serious harm to health** and life-threatening, accompanied by damage to the left kidney, damage to the main blood vessels of the left upper limb, acute blood loss, open comminuted fractures of the radius, ulna, humerus, tibia and fibula, and numerous other wounds shrapnel wounds accompanied by damage to the left kidney, damage to the main blood vessels of the left upper limb, acute blood loss, open comminuted fractures of the radius, ulna, humerus, tibia and fibula, and numerous other injuries causing **serious harm to health** and endangering human life, thereby intentionally killing him.

Page 119

Furthermore, the members of the criminal organization / union, acting in accordance with the common criminal intent and purpose of the association and each of its members, as a result of the aggressive war they had launched against Azerbaijan, in **Xirmanlar village of Lachin district**, which they had occupied on **18 May 1992**, on the eve of the liberation of those territories from occupation — that is, during the period from **27 September 2020 to 1 December 2020**— deliberately planted, in a planned manner and at close distances from one another, numerous anti-personnel mines of unknown brand, model and place of manufacture, set ambushes, and created mined areas for the purposes of the said criminal organization.

After the large-scale aggressive attacks launched more actively from **27 September 2020** were repelled by the Armed Forces of the Republic of Azerbaijan through countermeasures, **Xirmanlar village of Lachin district** was liberated from occupation on **1 December 2020**.

On **5 August 2022**, at around **11:00**, on the **Saribaba height** near Xirmanlar village of Lachin district, servicemen of the 2nd battalion of military unit No. "N" of the Ministry of Defence were moving toward that height in order to carry out an official task connected with the protection of the territorial integrity and public security of the Republic of Azerbaijan. When they passed over one of the anti-personnel mines, an explosion occurred.

As a result, **soldier Xudiyev Samir Samad oglu** sustained shrapnel wounds to various parts of his body, classified in their totality as **serious harm to health** and life-threatening. **Soldier Aliyev Tahir Chingiz oglu** sustained shrapnel wounds to the crown, forehead, temple and occipital areas, classified as **serious harm to health** and life-threatening. Both servicemen were intentionally killed at the scene.

Another serviceman of the same military unit, **warrant officer Israfilov Elxan Eldar oglu**, sustained injuries to the left lower-leg area; since those injuries did not constitute harm to health, no degree of severity was assigned. By avoiding other fragments, he was able to save his life.

Furthermore, the members of the criminal organization / association, acting in accordance with the common criminal intent and purpose of the association and each of its members, as a result of the large-scale aggressive war they had launched against Azerbaijan, during the combat operations that continued from **27 September 2020 to 10 November 2020** in the territory of **Khojavend district and the surrounding villages**, which they had occupied on **2 October 1992**, used against the Armed Forces of the Republic of Azerbaijan and the civilian population cluster munitions consisting of small bomblets capable of fragmentation and anti-tank effect, belonging to a **300 mm "9M55K5 Smerch BM-30" multiple-launch rocket system**, manufactured in **1987** at an arms plant located in **Tula, Russian Federation**.

After the large-scale aggressive attacks launched more actively from **27 September 2020** were repelled by the Armed Forces of the Republic of Azerbaijan through countermeasures, and after **Hadrut settlement and surrounding villages were** liberated from occupation on **15 October 2020**, the following servicemen of military unit No. "N" of the Ministry of Defence were performing service in a mountainous forest area near Hadrut settlement of Khojavend district on **13 August 2022**, at around **14:00**:

Lieutenant Rahimov ali Chingiz oglu, commander of the 3rd platoon of the 1st company of the 1st battalion; **Naghizada Mahammad Adil oglu**, of the 2nd group of the 1st platoon of the 1st company of the 1st battalion; **Ganbarov Ibrahim Ilham oglu**, reconnaissance-sapper of the 1st group of the 3rd platoon of the 7th company of the 3rd battalion; **soldier Najafzada Farzani Yashar oglu**, senior reconnaissance soldier of the 2nd squad of the 3rd platoon of the 1st company of the 1st battalion; **Dadashzada Anar Safar oglu**, reconnaissance-observer of the 2nd-degree sniper team of the 1st sniper platoon of the sniper

company; and **Quliyev Mahabbat Tabriz oglu**, reconnaissance-sniper of the 1st group of the 3rd platoon of the 1st company of the 1st battalion.

At that time, unexploded bomblets from the 300 mm cluster-warhead **"9M55K5 Smerch BM-30"** rocket system used by the criminal organization exploded.

Page 120

As a result of numerous fragments and the blast wave created by the explosion of those unexploded bomblets:

Rahimov ali Chingiz oglu sustained injuries classified in their totality as **serious harm to health** and life-threatening, namely a shrapnel wound to the anterior surface of the chest penetrating into the thoracic cavity and accompanied by open hemopneumothorax, as well as shrapnel wounds to the right thigh, the dorsal surface of the right hand, and the right auricle.

Naghizada Mahammad Adil oglu sustained injuries classified as **serious harm to health** and life-threatening, namely a blind shrapnel wound to the anterior abdominal wall penetrating into the abdominal cavity, accompanied by rupture of the transverse colon.

Ganbarov Ibrahim Ilham oglu sustained injuries classified as **less serious harm to health**, causing long-term impairment of health, namely barotrauma resulting in acute cochlear neuritis, closed craniocerebral trauma accompanied by concussion of the brain, and a blind shrapnel wound to the soft tissues of the right temporal area.

Najafzada Farzani Yashar oglu sustained injuries classified as **serious harm to health** and life-threatening, namely a blind shrapnel wound to the anterior abdominal wall penetrating into the abdominal cavity, accompanied by rupture of the transverse colon, and fracture of the nasal bones.

Dadashzada Anar Safar oglu sustained injuries that did not constitute harm to health, namely shrapnel wounds to the left temporal-occipital area, the left zygomatic area, the left scapular area, the outer surface of the left upper arm, the outer surface of the right upper arm, the left shoulder girdle, and the left iliac crest area.

Guliyev Mahabbat Tabriz oglu sustained injuries that did not constitute harm to health, namely injuries to the right posterior axillary area, the posterior surface of the chest, the projection of the left iliac crest, the posterior surface of the left thigh, and contusion of the soft tissues of the buttock area, as well as other injuries.

Because qualified medical assistance was provided in time, and because they lay down on the ground during the incident and avoided numerous fragments, it was possible to save their lives.

Furthermore, the members of the criminal organization / union, acting in accordance with the common criminal intent and purpose of the association and each of its members, as a result of

the large-scale aggressive war they had launched against Azerbaijan, in the territory of **Lachin district**, which they had occupied on **18 May 1992**, during the period from **27 September 2020 to 1 December 2020**, deliberately planted, in a planned manner and at close distances from one another, numerous anti-tank and anti-personnel mines of unknown brand, model and place of manufacture, set ambushes, and created mined areas for the purposes of the said criminal organization.

On **20 August 2022**, at **13:42**, **First Lieutenant Suleymanov Vuqar Nizam oglu**, a serviceman of military unit No. "N" of the Ministry of Defence located in the area of the **Saribaba height** in Lachin district, was laying a communications line in that area when he was caught in the explosion of an anti-personnel mine.

As a result, he sustained shrapnel injuries classified as **serious harm to health** and life-threatening, accompanied by traumatic amputation / severance of the left lower limb at the lower one-third of the lower leg, causing permanent loss of more than one-third of his overall working capacity. Timely qualified medical assistance made it possible to save his life.

Furthermore, the members of the criminal organization / union, acting in accordance with the common criminal intent and purpose of the association and each of its members, as a result of the aggressive war they had launched against Azerbaijan, in the territory of **Lachin district**, occupied on **18 May 1992**, during the period from **27 September 2020 to 1 December 2020**, deliberately planted, in a planned manner and at close distances from one another, numerous anti-tank and anti-personnel mines of unknown brand, model and place of manufacture, set ambushes, and created mined areas for the purposes of the said criminal organization.

After the large-scale aggressive attacks launched more actively from **27 September 2020** were repelled by the Armed Forces of the Republic of Azerbaijan through countermeasures, and after **Lachin district** was returned to the Republic of Azerbaijan on **1 December 2020** pursuant to the trilateral Statement signed on **10 November 2020**, on **21 August 2022**, at around **16:00**, near the **Saribaba height** in Lachin district, **soldier Gulmaliyev Heydar Elman oglu**, an extended active-duty serviceman and sapper of the 1st squad of the 2nd platoon of the engineering-sapper company of military unit No. "N" of the Ministry of Defence, was carrying out mine-clearance activities. When he stepped on one of the said anti-personnel mines of unknown brand and model, an explosion occurred.

As a result, he sustained bodily injuries classified in their totality as **serious harm to health** and life-threatening, accompanied by amputation of the left lower limb at the middle one-third level of the lower leg. He was evacuated to military hospital No. "N" of the Ministry of Defence, where timely qualified medical assistance made it possible to save his life.

Furthermore, unidentified members of the criminal organization, continuing their acts with the same criminal intent and purposes, in the territory of **Teymur Muskanli village of Qubadli district**, which they had occupied on **31 August 1993**, on the eve of the liberation

of that village — that is, during the period from **27 September 2020 to 10 November 2020** — deliberately planted, in a planned manner and at close distances from one another, numerous anti-tank and anti-personnel mines whose date and place of manufacture, as well as brand and type, were not precisely known, set ambushes, and created mined areas for the purposes of the said criminal organization.

After the large-scale aggressive attacks launched more actively from **27 September 2020** were repelled by the Armed Forces of the Republic of Azerbaijan through countermeasures, and after that territory was liberated by the Armed Forces of the Republic of Azerbaijan, on **30 August 2022**, at around **10:00**, **Huseynov Nacmaddin Abdulla oglu**, born on **30 May 1984**, a civilian resident of **Karimbayli village of Fuzuli district** and a dog handler of the operational group for mine-detection dogs of the Mine Action Agency of the Republic of Azerbaijan, was carrying out his official duties. During an operation to clear mines deliberately planted in advance by members of armed formations during the occupation period, the mine-detection dog named **"Dina"**, which was **11 metres** ahead of him, stepped on one of the said anti-personnel mines, causing an explosion.

As a result, **Nacmaddin Huseynov** sustained bodily injuries classified as **minor harm to health**, namely abrasions to both sides of the face and closed craniocerebral trauma. Since he was relatively away from the area where the explosion occurred, he was able to avoid the fragments that were dispersed. The mine-detection dog was killed.

Furthermore, the members of the criminal organization / union, acting in accordance with the common criminal intent and purpose of the association and each of its members, as a result of the large-scale aggressive war they had launched against Azerbaijan, in the territory of **Khojaly district and the surrounding villages**, which they had occupied on **26 February 1992**, on the eve of the liberation of those territories — that is, in the first ten days of **November 2020** — deliberately planted, in a planned manner and at close distances from one another, numerous anti-tank and anti-personnel mines of unknown model and place of manufacture, set ambushes, and created mined areas for the purposes of the said criminal organization.

After the large-scale aggressive attacks launched more actively from **27 September 2020** were repelled by the Armed Forces of the Republic of Azerbaijan through countermeasures, and after **Muxtarkand village of Khojaly district** and surrounding villages were liberated from occupation on **9 November 2020**, servicemen of military unit No. "N" of the Ministry of Defence were carrying out mine-clearance work in areas located in Muxtarkand village of Khojaly district that had served as combat positions of illegal Armenian armed formations during the occupation. On **2 September 2022**, at around **13:00**, the following servicemen were involved:

Junior sergeant Muradli Shahin Oktay oglu, extended active-duty serviceman, commander of the 3rd squad of the 1st platoon of the engineering-sapper unit; **soldier Nasirov Omar Vaqif oglu**, extended active-duty serviceman, commander of the 1st engineering-sapper squad of the 1st sapper platoon of that unit; and conscript servicemen of

the same unit, namely **soldier Muradov Anar Maharram oglu**, sapper of the 1st squad of the 4th platoon; **soldier Suleymanov Qabil Valeh oglu**, sapper of the 1st squad of the 3rd platoon; **soldier Mammadov Xayal Qadir oglu**, sapper of the 3rd squad of the 1st platoon; **soldier Baxishov Yunus Arif oglu**, sapper of the 1st squad of the 1st platoon; **soldier Huseynov Nariman adalat oglu**, sapper of the 2nd squad of the 4th platoon; and **soldier Rustamli Shahruz Matlab oglu**, sapper of the 2nd squad of the 1st platoon.

Page 122

While they were carrying out mine-clearance work in the territory of **Muxtarkand village of Khojaly district**, in areas that had served during the occupation as combat positions of illegal Armenian armed formations, a previously planted **MON-200** high-explosive anti-personnel mine of unknown date and place of manufacture exploded.

As a result:

Muradli Shahin Oktay oglu sustained injuries classified as **less serious harm to health**, causing long-term impairment of health, namely multiple shrapnel wounds to the second, third and fourth toes of the left foot and the right lower limb.

Nasirov Omar Vaqif oglu sustained injuries classified as **less serious harm to health**, causing long-term impairment of health, namely multiple blind shrapnel wounds to the right upper limb, both lower limbs, and the left half of the scrotum.

Mammadov Xayal Qadir oglu sustained injuries classified as **less serious harm to health**, causing long-term impairment of health, namely traumatic severance of the second finger of the left hand.

Huseynov Nariman adalat oglu sustained injuries classified as **less serious harm to health**, causing long-term impairment of health, namely multiple shrapnel wounds to the lower one-third of both thighs and the one-third area of the left lower leg.

Suleymanov Qabil Valeh oglu sustained injuries classified as **minor harm to health**, causing short-term impairment of health, namely grazing shrapnel wounds to the soft tissues of the right lateral ankle.

Muradov Anar Maharram oglu sustained injuries classified as **minor harm to health**, causing short-term impairment of health, namely multiple shrapnel wounds to the right foot.

Baxishov Yunus Arif oglu sustained injuries classified as **minor harm to health**, causing short-term impairment of health, namely multiple blind shrapnel wounds to the left upper arm and the left half of the chest, not penetrating into the cavity.

Rustamli Shahruz Matlab oglu sustained injuries classified as **minor harm to health**, causing short-term impairment of health, namely blind shrapnel wounds to the right thigh and the surface of the chest.

Because qualified medical assistance was provided in time, and because they lay down on the ground during the incident and avoided numerous fragments, it was possible to save their lives.

Furthermore, the members of the criminal organization / union, acting in accordance with the common criminal intent and purpose of the association and each of its members, as a result of the large-scale aggressive war they had launched against Azerbaijan, in **Kalbajar district and the surrounding villages**, which they had occupied on **3 April 1993**, during the period from **27 September 2020 to 25 November 2020**, deliberately planted, in a planned manner and at close distances from one another, numerous anti-tank and anti-personnel mines of unknown model and place of manufacture, set ambushes, and created mined areas for the purposes of the said criminal organization.

After the territories were liberated, **soldier Maharramov Elnur Narbala oglu**, a sapper of military unit No. "N" of the Ministry of Defence, on **14 September 2022**, at around **20:00**, in the service area of the combat position conventionally called **"KA 3"**, located in the area of Kalbajar district known as **"Alagollar"**, was caught in the explosion of a previously planted **PMN** high-explosive anti-personnel mine of unknown place of manufacture and type.

As a result, he sustained injuries classified in their totality as **serious harm to health** and life-threatening in living persons, namely traumatic amputation of the right lower leg at the upper one-third level accompanied by acute blood loss; injury to the external genital organ; and multiple blind shrapnel wounds to the perineal area, the dorsal surface of the left hand, the left thigh, both knee joints, the left lower leg, and the left ankle/lower-leg joint area. He was thereby intentionally killed.

Furthermore, the members of the criminal organization / union, acting in accordance with the common criminal intent and purpose of the association and each of its members, as a result of the large-scale aggressive war they had launched against Azerbaijan, in **Kalbajar district and the surrounding villages**, which they had occupied on **2 April 1993**, on the eve of the liberation of Kalbajar district and surrounding villages by the Armed Forces of the Republic of Azerbaijan on **25 November 2020** pursuant to the trilateral Statement signed on **10 November 2020** — that is, during the period from **27 September 2020 to 25 November 2020** — deliberately planted, in a planned manner and at close distances from one another, numerous anti-tank and anti-personnel mines of unknown model and place of manufacture, set ambushes, and created mined areas for the purposes of the said criminal organization.

Page 123

After the territories were liberated, the following servicemen of the Ministry of Defence were travelling on **21 September 2022**, at around **16:00**, in order to carry out a combat task connected with clarifying the terrain for laying a communications line to new combat positions established on the conditional Azerbaijan-Armenia border, and with providing communications lines to military units and divisions of the Ground Forces serving at those positions:

Abbasov Aydin Huseyn oglu, serving with the rank of lieutenant colonel as chief of communications / head of the communications department of the command staff of military unit No. “N”; **Xankishiyev Nazim Xasay oglu**, serving with the rank of colonel as deputy chief of the Main Communications Directorate / head of a communications directorate of military unit No. “N”; **Sulxayev Aslan alixan oglu**, serving with the rank of colonel as head of the planning and support department / deputy head of the Communications and Information Technology Systems Directorate of military unit No. “N”; **Nabiyev Mehman Vaqif oglu**, serving with the rank of major as senior assistant for information technology to the head of the communications department of military unit No. “N”; and **Mahmudov Sarxan Rza oglu**, serving with the rank of junior sergeant as commander of the maintenance squad of the repair and technical service division of military unit No. “N”.

They were travelling in a military **UAZ-31512** vehicle, bearing plate number **B 007 QQ**, belonging to military unit No. “N” and driven by **Sarxan Mahmudov** on the basis of waybill No. **627**, drawn up on **10 September 2022**. While the vehicle was moving in the **Alagollar** area of Kalbajar district, on the **Sarchali mountain height**, which had been liberated from Armenian armed formations on **12–14 September 2022**, the wheel of the vehicle drove over an anti-personnel mine previously planted in that area, whose date and place of manufacture, as well as brand and type, were unknown. The mine exploded.

As a result, the front right tire of the **UAZ-31512** military vehicle was destroyed, the windshield was broken, and the electrical wiring was damaged.

In addition, **Abbasov Aydin Huseyn oglu**, who was in the vehicle, sustained injuries classified as **minor harm to health**, causing short-term impairment of health, namely closed craniocerebral trauma and concussion of the brain.

The driver, **Mahmudov Sarxan Rza oglu**, sustained injuries that did not constitute harm to health, namely one incised-puncture wound on the dorsal surface of the second phalanx of each of the second, third and fourth fingers of his left hand.

Since the fragments were partially stopped by striking the metal structures of the vehicle, the lives of **Aydin Abbasov**, **Sarxan Mahmudov**, **Nazim Xankishiyev**, **Aslan Sulxayev** and **Mehman Nabiyev** were saved; the perpetrators were unable to intentionally kill them. Material damage was caused to the vehicle.

Furthermore, unidentified members of the criminal organization, acting with the same criminal intent and purpose encompassed by the common criminal intent of each member of the criminal organization, as a result of the aggressive war they had launched against Azerbaijan, in **Yuxari Yaghlivand village of Fuzuli district**, which they had occupied in **August 1993**, seeing that the village would be liberated from occupation as a result of the countermeasures carried out by the Armed Forces of the Republic of Azerbaijan against the large-scale aggressive attacks launched more actively from **27 September 2020**, during the period from **27 September 2020 to 9 November 2020**, on dates not precisely established, deliberately planted, in a planned manner and at close distances from one another, numerous

anti-tank and anti-personnel mines of unknown place of manufacture, set ambushes, and created mined areas for the purposes of the said criminal organization.

The territory was fully liberated from occupation on **9 November 2020**. **Asadov Amid Fatulla oglu** and **Quluzada Charkaz Bahadir oglu**, residents of **Alixanli village of Fuzuli district**, had gone there to be involved in construction and reconstruction works. On **30 September 2022**, at around **20:00**, while moving on foot in the territory of Yuxari Yaghlivand village, they passed over one of the mines, causing an explosion.

As a result, **Amid Asadov** sustained injuries classified as **serious harm to health** and life-threatening, namely combined blunt trauma of the head, chest, abdomen and limbs incompatible with life; traumatic loss of the facial skeletal bones and both eyeballs; and other injuries accompanied by severe traumatic shock and acute blood loss, causing his death.

Charkaz Quluzada sustained shrapnel injuries classified as **serious harm to health** and life-threatening, accompanied by crushing and destruction of brain tissue, severe traumatic shock causing death, and was killed.

Page 124

Furthermore, unidentified members of the criminal organization, acting with the same criminal purpose encompassed by the common criminal intent of each member of the criminal organization, as a result of the aggressive war they had launched against Azerbaijan, during the period from **1992 to 2020**, in the part of **Qiziloba village of Aghdara district situated** opposite the engineering-fortification structures of illegal Armenian armed formations in the direction of **Aghdara city**, which they kept under occupation, on dates not precisely established, deliberately planted, in a planned manner and at close distances from one another, numerous anti-tank and anti-personnel mines of unknown brand, model and place of manufacture, set ambushes, and created mined areas for the purposes of the said criminal organization.

On **1 October 2022**, at around **11:00**, **Bayramov Rafail Kochari oglu**, a peaceful civilian resident of **Sahlabad village of Tartar district** engaged in taxi activity, together with his fellow villager and relative **Cabbarov Nijat Novruz oglu**, travelled to that area and was returning to Tartar district. In the territory of **Gvillage**, **Nijat Jabbarov** got out of the vehicle and walked toward the roadside. When he stepped on one of the anti-personnel mines, an explosion occurred.

As a result, he sustained injuries classified as **serious harm to health** and life-threatening, namely multiple shrapnel wounds to both lower limbs and traumatic amputation of the left lower leg.

When **Rafail Bayramov** approached his cousin in order to help him, he stepped on another anti-personnel mine, causing a second explosion. As a result, he sustained injuries classified as **serious harm to health** and life-threatening, namely traumatic amputation of the middle

one-third of the left thigh and other bodily injuries. They were taken to hospital by acquaintances, and timely qualified medical assistance made it possible to save their lives.

Furthermore, unidentified members of the criminal organization, continuing their acts with the same criminal intent and purposes, in the territory of **Taghaverd village of Khojavend district**, which they had occupied on **2 October 1992**, on the eve of the liberation of that village — that is, during the period from **27 September 2020 to 9 November 2020** — deliberately planted, in a planned manner and at close distances from one another, numerous anti-tank and anti-personnel mines whose date and place of manufacture, as well as brand and type, were not precisely known, set ambushes, and created mined areas for the purposes of the said criminal organization.

After the large-scale aggressive attacks launched more actively from **27 September 2020** were repelled by the Armed Forces of the Republic of Azerbaijan through countermeasures, and after **Taghaverd village** was fully liberated from occupation on **9 November 2020**, on **2 October 2022**, at around **11:00**, at the **68th kilometre** of the **Ahmadbayli–Fuzuli–Shusha main motor road**, in the territory of Taghaverd village, **Karimzada Rasif Nusrat oglu**, born on **1 April 2002**, a civilian resident of **Poladtughay village of Sabirabad district** and a labourer employed by **"Azartranss" LLC**, was carrying out repair and construction work. When he stepped on one of the said anti-personnel mines, an explosion occurred.

As a result, he sustained bodily injuries consisting of traumatic amputation of the first and second toes of the right foot and shrapnel wounds to the right arm and right leg. Since he was taken to hospital in time and provided with qualified medical assistance, it was possible to save his life.

Furthermore, unidentified members of the criminal organization, acting with the same criminal intent and purpose encompassed by the common criminal intent of each member of the criminal organization, as a result of the aggressive war they had launched against Azerbaijan, in **Yusifjanli village of Aghdam district**, which they had occupied on **12 April 1994**, during the period from that date until **20 November 2020**, on dates not precisely established, deliberately planted, in a planned manner and at close distances from one another, numerous anti-tank and anti-personnel mines whose place of manufacture was not precisely known, set ambushes, and created mined areas for the purposes of the said criminal organization.

After **Yusifjanli village of Aghdam district** was liberated from the occupation of the Republic of Armenia on **20 November 2020**

Page 125

Aliyev Ramin Amir oglu, a peaceful civilian resident of **Ashaghi Seyfali village of Shamkir district**, and **Najafov Parviz Sozali oglu** and **Abduxaliqov Saxavat Aladdin oglu**, peaceful civilian residents of **Qarayazi village of Aghstafa district**, all engineer-topographers of **"Korpu-Bina Tikinti" LLC** who had been involved in repair and

installation work, were marking coordinates by the side of the **Aghdam–Fuzuli motor road** passing through the territory of Yusifcanli village on **8 October 2022**, at around **17:00**.

While taking a short rest, **Parviz Najafov** walked toward a house by the roadside that had been destroyed by members of the criminal organization during the occupation period. When he stepped on a **PMN-type anti-personnel mine**, an explosion occurred. As a result, he sustained injuries classified as **serious harm to health** and life-threatening, including loss of vision in the right eye and other injuries.

After hearing the explosion, **Ramin Aliyev** and **Saxavat Abduxaliqov** went to help **Parviz Najafov**. When they picked him up and attempted to return, they stepped on another **PMN-type anti-personnel mine**, causing a second explosion.

As a result, **Ramin Aliyev** sustained injuries classified as **serious harm to health** and life-threatening, namely traumatic amputation of the phalanges and metatarsal bones of the third, fourth and fifth toes of the left foot, as well as other injuries.

Saxavat Abduxaliqov sustained injuries classified as **less serious harm to health**, causing long-term impairment of health, namely an intra-articular fracture of the upper end of the proximal phalanx of the fifth finger of the right hand and shrapnel injuries to various parts of the body.

All three were taken to hospital by persons nearby, and timely qualified medical assistance made it possible to save their lives.

Furthermore, the members of the criminal organization / union, acting in accordance with the common criminal intent and purpose of the association and each of its members, as a result of the large-scale aggressive war they had launched against Azerbaijan, in the territory of **Kalbajar district**, which they had occupied on **3 April 1993**, on the eve of the liberation of those places — during the period from **27 September 2020 to 9 October 2022** — on dates not precisely established, deliberately planted, in a planned manner and at close distances from one another, numerous anti-tank and anti-personnel mines of unknown brand, model and place of manufacture, set ambushes, and created mined areas for the purposes of the said criminal organization.

After **Kalbajar district** and many surrounding villages were liberated by the Armed Forces of the Republic of Azerbaijan on **25 November 2020**, **soldier Abishov Namiq Afrayil oglu**, a sapper of the 1st squad of the 1st platoon of the 1st engineering-fortification company of military unit No. “N” of the Ministry of Defence, located at the **K1 combat position**in the **Alagollar** direction of Kalbajar district, was carrying out engineering reconnaissance in that area on **9 October 2022**, at around **12:00**. He stepped on an anti-personnel mine previously planted in the area, causing an explosion.

As a result, he sustained shrapnel injuries classified in their totality as **serious harm to health** and life-threatening, namely first- to second-degree traumatic-hemorrhagic shock; open comminuted displaced fractures of the bases of the third and fourth metatarsal bones,

the fifth metatarsal bone, the body of the talus, the distal metaphysis of the fibula, the navicular and cuboid bones; lacerated wounds to the plantar surface of the right foot; and abrasions to the right hand. He was evacuated in time and provided with qualified medical assistance, which made it possible to save his life.

Furthermore, the members of the criminal organization / union, acting in accordance with the common criminal intent and purpose of the association and each of its members, as a result of the large-scale aggressive war they had launched against Azerbaijan, in **Kalbajar district and the surrounding villages**, which they had occupied on **3 April 1993**, during the period from **27 September 2020 to 10 October 2022**, deliberately planted, in a planned manner and at close distances from one another, numerous anti-tank and anti-personnel mines whose model and place of manufacture were not precisely known, set ambushes, and created mined areas for the purposes of the said criminal organization.

After **Kalbajar district** and the surrounding villages were liberated from occupation on **25 November 2020**, **soldier Malikov Ismayil Shixi oglu**, a rifleman of the 3rd squad of the 2nd platoon of the 1st company of the 1st battalion of military unit No. "N" of the Ministry of Defence, while seconded to military unit No. "N", on **10 October 2022**, at around **18:00**

was conducting observation at the combat post of the 5th company of the 2nd battalion, conventionally called **"KCh-53"**, located in the territory of **Zar village of Kalbajar district**. As a result of the explosion of a **PMN-type high-explosive anti-personnel mine**, whose date and place of manufacture were unknown and which had previously been buried in the area, he sustained injuries to various parts of his body which in their totality were classified as **serious harm to health** and life-threatening, including loss of the right lower limb at the middle one-third level of the lower leg, traumatic amputation of the right lower limb at the lower one-third level of the lower leg accompanied by second- to third-degree traumatic-hemorrhagic shock, and other injuries. Since qualified medical assistance was provided in time, it was possible to save his life.

Furthermore, the members of the criminal organization / union, acting in accordance with the common criminal intent and purpose of the association and each of its members, as a result of the large-scale aggressive war they had launched against Azerbaijan, in **Zangilan district and the surrounding villages**, which they had occupied on **29 October 1993**, during the period from **27 September 2020 to 10 November 2020**, deliberately planted, in a planned manner and at close distances from one another, numerous anti-tank and anti-personnel mines of unknown model, brand and place of manufacture, set ambushes, and created mined areas for the purposes of the said criminal organization.

After **Zangilan district** and the surrounding villages were liberated from occupation by the Armed Forces of the Republic of Azerbaijan on **20 October 2020**, **soldier Seyfullayev Ziyafat Farrux oglu**, an extended active-duty serviceman and gunner of the 2nd mortar battery of the mortar division of military unit No. "N" of the State Border Service, was

participating in engineering-fortification work on **12 October 2022**, at around **14:00**, in the area of combat position No. “N” of the 7th border commandant’s office, located in the territory of **Razdara village of Zangilan district**. As a result of the explosion of an anti-personnel mine, whose date, place of manufacture and brand were unknown and which had previously been buried in the area, he sustained a shrapnel injury classified as **less serious harm to health**, causing long-term impairment of health, namely an open fracture of the left calcaneus. He was evacuated to a military hospital in time and provided with qualified medical assistance, which made it possible to save his life.

Furthermore, the members of the criminal organization / union, acting in accordance with the common criminal intent and purpose of the association and each of its members, as a result of the aggressive war they had launched against Azerbaijan, in **Lachin district and the surrounding villages**, which they had occupied on **18 May 1992**, on the eve of the liberation of Lachin district and the surrounding villages by the Armed Forces of the Republic of Azerbaijan on **1 December 2020** pursuant to the trilateral Statement signed on **10 November 2020** — that is, during the period from **27 September 2020 to 1 December 2020** — on dates not precisely established, deliberately planted, in a planned manner and at close distances from one another, numerous anti-tank and anti-personnel mines whose model and place of manufacture were not precisely known, set ambushes, and created mined areas for the purposes of the said criminal organization.

After the territories were liberated, peaceful civilian residents of **Suarasi village of Lachin district**, **Hasanov Sabuhi Telman oglu** and **Hamidov Elsevar Sovet oglu**, travelled to Suarasi village on **21 October 2022**, at around **18:00**. At the entrance to Suarasi village, on the motor road, the **Mitsubishi L200 Minik** vehicle bearing state registration plate **77-FE-279**, belonging to **Babayev Fuad Atash oglu** and driven by **Elsevar Hamidov**, passed over one of the said anti-tank mines, whose date and place of manufacture, as well as brand and type, were unknown, causing an explosion.

As a result, **Elsevar Hamidov** sustained bodily injuries classified as **serious harm to health** and life-threatening, namely multiple crushed wounds to the head, chest, abdomen and limbs; multiple open comminuted fractures of the phalanges and metatarsal bones of both hands and the right foot, with displaced fragments; traumatic amputation of the left foot at the level of the metatarsal bones; venous pallor of the internal organs; acute blood loss; and severe traumatic shock causing death. He was killed.

Sabuhi Hasanov sustained injuries classified as **less serious harm to health**, namely closed fractures of the second, third, fourth and fifth metatarsal bones of the left foot with displaced fragments, and contused wounds to the crown area and left lower leg.

Since **Sabuhi Hasanov** was taken to hospital in time and provided with qualified medical assistance, it was possible to save his life. In addition, the **Mitsubishi L200 Minik** vehicle

bearing state registration plate **77-FE-279**, driven by **Elsevar Hamidov**, who was killed during the incident, was rendered unusable, causing significant damage.

Furthermore, unidentified members of the criminal organization, acting with the same criminal purpose encompassed by the common criminal intent of each member of the criminal organization, as a result of the aggressive war they had launched against Azerbaijan, in **Chayli village of Aghdara district**, which they had occupied in **April 1994**, during the period from April 1994 until **9 October 2020**, while they kept it under occupation, on dates not precisely established, deliberately planted, in a planned manner and at close distances from one another, numerous anti-tank and anti-personnel mines, set ambushes, and created mined areas for the purposes of the said criminal organization.

After the village was fully liberated from occupation on **9 October 2020**, **Alizada Samir Buruz oglu**, a peaceful civilian resident of **Seydimli village of Tartar district**, travelled to the territory of Chayli village on **23 October 2022**, at around **17:00**. While walking on foot in front of the engineering-fortification structures abandoned by Armenian armed formations in the territory of that village, he stepped on one of the anti-personnel mines, causing an explosion.

As a result, he sustained shrapnel injuries classified as **serious harm to health** and life-threatening, namely traumatic amputation of both lower limbs at the middle one-third level of the lower legs. He was later taken to hospital by other persons who arrived in the area, and timely qualified medical assistance made it possible to save his life.

Furthermore, the members of the criminal organization / union, acting in accordance with the common criminal intent and purpose of the association and each of its members, as a result of the large-scale aggressive war they had launched against Azerbaijan, in **Fuzuli district and the surrounding villages**, which they had occupied on **23 August 1993**, during the period when they kept them under occupation, deliberately planted, in a planned manner and at close distances from one another, numerous anti-tank and anti-personnel mines of unknown brand and place of manufacture, set ambushes, and created mined areas for the purposes of the said criminal organization.

After the large-scale aggressive attacks launched more actively from **27 September 2020** were repelled by the Armed Forces of the Republic of Azerbaijan through countermeasures, and after **Fuzuli district and the surrounding villages were** liberated from occupation on **17 October 2020**, **Senior Sergeant Nabiyev Taleh Zakir oglu**, a serviceman of military unit No. “N” of the Internal Troops of the Ministry of Internal Affairs, and **Captain Alixanov Aydin Ashrafovich**, an employee of the 17th Directorate of the Security Service of the President of the Republic of Azerbaijan, were on official assignment in the liberated territories.

On **7 November 2022**, at around **07:20**, while they were jointly checking the area in communication structures / a ditch in **Ashaghi Veysalli village of Fuzuli district** using a mine-detection device called **“Vallon”**, they struck a previously buried **PMN-type anti-**

personnel mine of unknown date and place of manufacture. As a result of the explosion of an **MD-9-type detonator** installed inside it, **Senior Sergeant Taleh Nabiyev** sustained shrapnel injuries to various parts of his body, which in their totality were classified as **serious harm to health** and life-threatening.

Captain Aydin Alixanov sustained shrapnel injuries to various parts of his body, which in their totality were classified as **less serious harm to health**, causing long-term impairment of health. However, because both servicemen were evacuated in time and provided with medical assistance, it was possible to save their lives.

Furthermore, the members of the criminal organization / union, acting in accordance with the common criminal intent and purpose of the association and each of its members, as a result of the large-scale aggressive war they had launched against Azerbaijan, in **Lachin district and the surrounding villages**, which they had occupied on **18 May 1992**, during the period from **27 September 2020 to 1 December 2020**, deliberately planted, in a planned manner and at close distances from one another, numerous anti-tank and anti-personnel mines whose model and

place of manufacture were not precisely known, set ambushes, and created mined areas for the purposes of the said criminal organization.

After the large-scale aggressive attacks launched more actively from **27 September 2020** were repelled by the Armed Forces of the Republic of Azerbaijan through countermeasures, and after **Lachin district and the surrounding villages were** liberated from occupation on **1 December 2020** pursuant to the trilateral Statement signed on **10 November 2020**, **Nurullayev Nurali Yusif oglu**, serving with the rank of soldier as an electric-charger of the radio squad of the communications platoon of the 2nd battalion, was laying a communications line on **9 December 2022**, at around **12:30**, in areas in **Finga village of Lachin district** that had served as combat positions of illegal Armenian armed formations during the occupation. As a result of the explosion of a **PMN-type high-explosive anti-personnel mine**, whose date and place of manufacture were unknown and which had previously been buried in the area, he sustained injuries to various parts of the body, including traumatic severance of the right lower leg at the lower one-third level, classified as **serious harm to health** causing long-term impairment of health. Since qualified medical assistance was provided in time, it was possible to save his life.

Furthermore, the members of the criminal organization / union, acting in accordance with the common criminal intent and purpose of the association and each of its members, as a result of the large-scale aggressive war they had launched against Azerbaijan, in **Kalbajar district and the surrounding villages**, which they had occupied on **3 April 1993**, during the period from **27 September 2020 to 14 December 2022**, deliberately planted, in a planned manner and at close distances from one another, numerous anti-tank and anti-personnel mines whose

model and place of manufacture were not precisely known, set ambushes, and created mined areas for the purposes of the said criminal organization.

After the large-scale aggressive attacks launched more actively from **27 September 2020** were repelled by the Armed Forces of the Republic of Azerbaijan through countermeasures, and after **Kalbajar district and the surrounding villages** were liberated from occupation on **25 November 2020** pursuant to the trilateral Statement signed on **10 November 2020**, on **14 December 2022**, at around **17:00**, employees of **"Telekommunikasiya Servis" LLC** were laying telecommunication lines in the territory of **Chiraqli village of Kalbajar district**. A **Hidromek HMK 102 B** tractor belonging to **"Telekommunikasiya Servis" LLC**, bearing state registration plate **10 AC 854**, struck one of the previously buried **TM-62, TM-57, TMK-2, TM-72, TM-73, TM-83** type high-explosive anti-tank mines of unknown date and place of manufacture, causing an explosion.

As a result of the mine explosion, **Allahverdiyev Siyasat Ziyadxan oglu**, a resident of **Axtachi Shirvan village of Hajiqabul district** and tractor driver-operator of the LLC, sustained injuries classified as **less serious harm to health**, causing long-term impairment of health, namely closed non-displaced fractures of the fifth metatarsal bone of the right foot and a shrapnel wound to the right forehead-temple area.

Panahov Rodik Shamsaddin oglu, a resident of **Urva village of Qusar district** and a cable worker/labourer at **"Telekommunikasiya Servis" LLC**, sustained injuries classified as **serious harm to health** and life-threatening, namely numerous superficial shrapnel wounds to the right temporal and zygomatic areas, the right half of the face, and other injuries. Since qualified medical assistance was provided in time, it was possible to save their lives.

Thereafter, servicemen of military unit No. "N" of the Ministry of Defence and other employees of the company arrived at the scene. They placed the injured persons into a **GAZ C-41 A23-20** cargo vehicle belonging to **"Telekommunikasiya Servis" LLC**, bearing state registration plate **99-/Y-396**, and moved approximately **15–20 metres** in the direction of Kalbajar city. At that moment, the vehicle's front right wheel struck one of the previously buried **TM-62, TM-57, TMK-2, TM-72, TM-73, TM-83** type high-explosive anti-tank mines of unknown date and place of manufacture. As a result of the explosion, **Hummatov Zohrab Mammad oglu**, serving with the rank of senior warrant officer as commander of the 1st platoon of the 8th operational company of the 3rd operational battalion of military unit No. "N" of the Ministry of Defence, sustained life-threatening injuries classified as **serious harm to health**, involving the right lower limb at the lower-leg he sustained life-threatening injuries classified as **serious harm to health**, namely incomplete traumatic amputation of the right lower limb at the lower one-third level, hanging on a flap of skin, and died at the scene.

In addition, **Alverov Sadir Heydar oglu**, who worked as a cable worker at **"Telekommunikasiya Servis" LLC**, sustained injuries classified as **less serious harm to health**, causing long-term impairment of health, namely a non-displaced fracture of the right

tibia, a comminuted fracture of the right calcaneus, and other injuries. Since qualified medical assistance was provided in time, it was possible to save his life.

Axundov Rza Yusif oglu, serving with the rank of junior sergeant as an extended active-duty serviceman, a reconnaissance grenade-launcher rifleman of the 2nd squad of the 1st platoon of the 9th company of the 3rd operational battalion, sustained an abrasion to the forehead area, for which no degree of severity was assigned.

Shirinov Murad Isa oglu, serving with the rank of soldier as an extended active-duty serviceman, a reconnaissance team member of the 1st squad of the 1st platoon of the 8th company of the 3rd operational battalion, sustained a contusion of the soft tissues of the right knee joint, which did not constitute harm to health.

Balakishiyev Tofiq Hacimirza oglu, a resident of **Urva village of Qusar district** and a driver at **"Telekommunikasiya Servis" LLC**, sustained injuries classified as **minor harm to health**, causing short-term impairment of health, namely an abrasion to the right auricle and other injuries.

At that time, they lay down on the ground and avoided numerous fragments, thereby saving their lives. **Ibisov Qabil adalat oglu**, serving with the rank of soldier as chief reconnaissance telephone operator of the communications platoon of the 3rd operational battalion, and **Xasiyev Vidadi aziz oglu** and **Haciyev Allahverdi Niyaz oglu**, who worked as cable workers at **"Telekommunikasiya Servis" LLC**, did not sustain any injuries as a result of the incident. Significant damage was caused to the equipment.

Furthermore, the members of the criminal organization / union, acting in accordance with the common criminal intent and purpose of the association and each of its members, as a result of the large-scale aggressive war they had launched against Azerbaijan, in **Kalbajar district and surrounding villages**, which they had occupied on **3 April 1993**, during the period from **27 September 2020 to 23 December 2022**, deliberately planted, in a planned manner and at close distances from one another, numerous anti-tank and anti-personnel mines of unknown brand, model and place of manufacture, set ambushes, and created mined areas for the purposes of the said criminal organization.

After the large-scale aggressive attacks launched more actively from **27 September 2020** were repelled by the Armed Forces of the Republic of Azerbaijan through countermeasures, and after **Kalbajar district and surrounding villages were** liberated from occupation on **25 November 2020** pursuant to the trilateral Statement signed on **10 November 2020**, on **23 December 2022**, at around **15:30**, **alizada Aydin Aghamoghlan oglu**, serving with the rank of soldier as a saper of the 1st engineering-sapper squad of the 1st mine-clearance platoon of the 1st engineering-fortification company of the 3rd battalion, was carrying out mine-clearance work in areas in **Yellija village of Kalbajar district** that had served during the occupation as combat positions of illegal Armenian armed formations.

At that time, a **PMN-type high-explosive anti-personnel mine**, whose date and place of manufacture were unknown and which had previously been buried in the area, exploded. As a result, he sustained injuries to various parts of the body which in their totality were classified as **serious harm to health**, causing long-term impairment of health, namely second-degree traumatic-hemorrhagic shock; open, comminuted fractures of the calcaneus, talus, navicular, lateral cuneiform and cuboid bones, with bone defects; and other injuries. Since qualified medical assistance was provided in time, it was possible to save his life.

Furthermore, the members of the criminal organization / union, acting in accordance with the common criminal intent and purpose of the association and each of its members, as a result of the large-scale aggressive war they had launched against Azerbaijan, in the territory of **Shusha city**, which they had occupied on **8 May 1992**, during the period from **27 September 2020 to 10 November 2020**, deliberately planted, in a planned manner and at close distances from one another, numerous anti-tank and anti-personnel mines of unknown brand, model and place of manufacture, set ambushes, and created mined areas

for the purposes of the said criminal organization.

After **Shusha city** was liberated from occupation by the Armed Forces of the Republic of Azerbaijan on **8 November 2020**, **Huseynov Kamran Namiz oglu**, deputy commander of group "E" of battalion "N" of military unit No. "N" of the Ministry of Defence located in Shusha, holding the rank of first lieutenant, and **Karimov Royal Baxtiyar oglu**, reconnaissance medic of the same group, holding the rank of warrant officer, were performing service in the territory of Shusha city on **4 March 2023**, at **01:15**. They stepped on an anti-personnel mine previously planted in the area.

As a result of the mine explosion, **Kamran Huseynov** sustained shrapnel injuries classified as **serious harm to health and** life-threatening, namely sharp and massive blood loss of the body resulting from incomplete traumatic amputation of the right lower limb from the lower one-third of the thigh, and was intentionally killed.

Royal Karimov sustained shrapnel injuries classified as **less serious harm to health**, causing long-term impairment of health, accompanied by concussion of the brain and multiple fractures. Since he was evacuated in time and provided with qualified medical assistance, it was possible to save his life.

Furthermore, unidentified members of the criminal organization, continuing their acts with the same criminal intent and purposes, in the territory of **Chayli village of Tartar district**, which they had occupied in **April 1994** and which had been part of **Aghdara district** until **13 October 1992**, during the period when they kept it under occupation, deliberately planted, in a planned manner and at close distances from one another, numerous anti-tank and anti-personnel mines of unknown centre, type and place of manufacture, set ambushes, and created mined areas for the purposes of the said criminal organization.

After the territory was fully liberated from occupation on **9 October 2020**, on **9 March 2023**, at around **13:00**, **Mahammad Hadiyev Yaquar Alihad oglu**, a peaceful civilian resident of **Hasanqaya village of Tartar district**, stepped on one of the anti-personnel mines in that area, causing an explosion. As a result, he sustained injuries classified as **serious harm to health**, namely traumatic amputation at the level of the left ankle-foot joint. Since he was taken to hospital in time and provided with qualified medical assistance, it was possible to save his life.

Furthermore, members of the criminal organization, including **Shakaryan Karen Shagenovich**, **Qor Ishxanyan**, **Sasun Qriqoryan**, **Salon Arustamyan**, who had served as commanders and chief of staff of motor-rifle regiments subordinate to the 37th Motor-Rifle Division of the Armed Forces of the Republic of Armenia during **2010–2020**, and other unidentified members, acting in accordance with the common criminal intent and purpose of the association and each of its members, as a result of the aggressive war they had launched against Azerbaijan, in the territory of **Yusifjanli village of Aghdam district**, which they had occupied in **April 1994**, during the period when they kept it under occupation, deliberately planted, in a planned manner and at close distances from one another, numerous anti-tank and anti-personnel mines of unknown brand, model and place of manufacture, set ambushes, and created mined areas for the purposes of the said criminal organization.

As a result of the countermeasures taken by the Armed Forces of the Republic of Azerbaijan to prevent the large-scale aggressive attacks that were launched more actively starting from September 27, 2020, in the same area that was completely liberated from occupation on November 20, 2020, on March 15, 2023, at around 8:00 PM, Hasanov Amid Huseyn oglu, born on April 5, 1987, living in the Safarli settlement of the Aghdam region, and his relative Hasanov Israil Ibrahim oglu, born on July 1, 1999, were moving along the Gargar River in the Afetli village of the Aghdam region, opposite the direction of the river's flow, in the direction of the Yusifjanli village of the Aghdam region, which was liberated from occupation on November 20, 2020, when a high-explosive type "PMN" anti-personnel mine buried in the ground in the area of the Yusifjanli village exploded, resulting in the death of Hasanov Amid Huseyn oglu.

They intentionally killed Hasanov Amid Huseyn oglu, suffered a blast trauma resulting in severe damage to his health due to shrapnel, an open fracture of his right shinbone and shrapnel wounds to his body accompanied by acute bleeding as a result of damage to his left femoral artery, and Hasanov Israil Ibrahim oglu, suffered a blast trauma resulting in severe damage to his health due to shrapnel, and shrapnel wounds to his body accompanied by acute bleeding as a result of damage to his inguinal and jugular arteries and veins.

Page 131

Furthermore, members of the criminal organization, including **Shakaryan Karen Shagenovich**, **Qor Ishxanyan**, **Sasun Qriqoryan**, **Salon Arustamyan**, who had served as commanders and chief of staff of motor-rifle regiments subordinate to the 37th Motor-Rifle Division of the Armed Forces of the Republic of Armenia during **2010–2020**, and other

unidentified members, acting in accordance with the common criminal intent and purpose of the association and each of its members, as a result of the aggressive war they had launched against Azerbaijan, in the territory of **Yusifjanli village of Aghdam district**, which they had occupied in **April 1994**, during the period when they kept it under occupation, deliberately planted, in a planned manner and at close distances from one another, numerous anti-tank and anti-personnel mines of unknown brand, model and place of manufacture, set ambushes, and created mined areas for the purposes of the said criminal organization.

After the large-scale aggressive attacks launched more actively from **27 September 2020** were repelled by the Armed Forces of the Republic of Azerbaijan through countermeasures, and after that territory was fully liberated from occupation on **20 November 2020**, on **18 March 2023**, at around **13:00**, **Yusifov Amir Islam oglu**, born on **31 August 1976**, a resident of **Afatli village of Aghdam district**, was cleaning the contact line of liberated **Yusifjanli village of Aghdam district** of mines. He was carrying out the work with a **Volvo AZ 02 BA 147** excavator-loader when the machine passed over one of the mines previously planted in the area, causing an explosion. As a result, he sustained injuries classified as **minor harm to health**, namely scar-tissue injury to the posterior parietal area caused by fragments. Since he was taken to hospital by persons nearby and provided with qualified medical assistance in time, it was possible to save his life.

During the explosion, the **Volvo AZ 02 BA 147** excavator-loader belonging to **Muradov Siyavush Ibrahim oglu** was damaged by shrapnel fragments, thereby causing significant damage to that person.

Furthermore, the members of the criminal organization / union, acting in accordance with the common criminal intent and purpose of the association and each of its members, pursuant to the trilateral Statement of **10 November 2020** regarding **Lachin district**, which they had occupied on **18 May 1992**, and which was liberated by the Armed Forces of the Republic of Azerbaijan on **1 December 2020**, during the period on the eve of liberation — that is, from **27 September 2020 to 1 December 2020** — deliberately planted, in a planned manner and at close distances from one another, numerous anti-tank and anti-personnel mines of unknown place of manufacture and model, set ambushes, and created mined areas for the purposes of the said criminal organization.

On **14 April 2023**, at around **14:50**, **Azizov Ramil Aliagha oglu**, a peaceful civilian resident of **Azadkand village of Saatli district**, was searching for large livestock in the territory of **Sus village of Lachin district**. When he entered the yard of a half-destroyed residential house, built before the occupation, he stepped on one of the mines placed in front of the entrance gate, causing an explosion.

As a result, **Ramil Azizov** sustained injuries classified as **serious harm to health**, namely traumatic amputation of the right lower limb at the level of the ankle-foot joint. Since he was taken to hospital in time and provided with qualified medical assistance, it was possible to save his life.

Furthermore, the members of the criminal organization / union, acting in accordance with the common criminal intent and purpose of the association and each of its members, in the contiguous area between **Talish village of Aghdara district** and **Borsunlu village of Tartar district**, which they kept under occupation, on dates not precisely established, deliberately planted, in a planned manner and at close distances from one another, numerous anti-tank and anti-personnel mines of unknown brand, place of manufacture and model, set ambushes, and created mined areas for the purposes of the said criminal organization.

Page 132

On **18 April 2023**, at around **17:00**, **Asgarov Elnur Asif oglu**, a peaceful civilian resident of **Borsunlu village of Tartar district**, was collecting asparagus plants in that area. When he stepped on one of the anti-personnel mines, an explosion occurred.

As a result, he sustained injuries classified as **serious harm to health**, namely traumatic amputation at the level of the left ankle-foot joint, second-degree traumatic shock, and blind shrapnel wounds to the anterior surface of the right lower leg and the inner lateral surface of the left lower leg. Since he was taken to hospital in time and provided with qualified medical assistance, it was possible to save his life.

Furthermore, the members of the criminal organization / union, acting in accordance with the common criminal intent and purpose of the association and each of its members, as a result of the large-scale aggressive war they had launched against Azerbaijan, in the territory of **Shusha city and surrounding villages**, which they had occupied on **8 May 1992**, after those places were liberated from occupation — that is, during the period from **27 September 2020 to 22 April 2023** — deliberately planted, in a planned manner and at close distances from one another, numerous anti-tank and anti-personnel mines of unknown brand, model and place of manufacture, set ambushes, and created mined areas for the purposes of the said criminal organization.

After the large-scale aggressive attacks launched more actively from **27 September 2020** were repelled by the Armed Forces of the Republic of Azerbaijan through countermeasures, and after **Shusha city and its surrounding villages** were liberated from occupation on **8 November 2020**, as well as after **Allahqulular village of Shusha district** was liberated from occupation as a result of the operation carried out on **25 March 2023**, on **22 April 2023**, in his official capacity and on the basis of order No. **116** dated **20 April 2023** of the commander of military unit No. “N”, **soldier Rahimli Elchin Rahim oglu**, serving as driver of the 1st automobile squad of the automobile platoon of the material and technical support company of military unit No. “N” of the Ministry of Defence, was driving a **GAZ-3308** vehicle bearing military registration plate **E-062-QQ**. At **17:03**, while supplying a field kitchen of the 10th company of the 4th battalion to the 7th combat position of that battalion in the territory of Allahqulular village of Shusha district, the vehicle struck an anti-tank mine previously planted in the area, causing an explosion.

As a result of the explosion, **Elchin Rahimli** sustained shrapnel injuries to various parts of his body, classified as **minor harm to health**, causing short-term impairment of health.

Mammadov Vusal Firad oglu, commander of the commandant and guard squad of the headquarters and support platoon of military unit No. "N", who came to assist after the mine explosion, sustained shrapnel injuries to various parts of his body, classified as **less serious harm to health**, causing long-term impairment of health.

Aliyev Niyad Orucali oglu, a soldier and rifleman of the guard squad of the commandant and guard platoon of the headquarters and support company of military unit No. "N", sustained shrapnel injuries to various parts of his body, classified as **less serious harm to health**, causing long-term impairment of health.

Since all three servicemen were evacuated in time and provided with medical assistance, it was possible to save their lives. In addition, as a result of the mine explosion, significant damage was caused to the **GAZ-3308** vehicle bearing military registration plate **E-062-QQ**.

Furthermore, the members of the criminal organization / union, acting in accordance with the common criminal intent and purpose of the association and each of its members, in the area near **Suqovushan settlement**, within the administrative-territorial district of **Chayli village of Tartar district** — which until **5 December 2023** was part of **Aghdara district** — and which they had occupied in **1994**, during the period when they kept it under occupation, deliberately planted, in a planned manner and at close distances from one another, numerous anti-tank and anti-personnel mines of unknown brand, model and place of manufacture, set ambushes, and created mined areas for the purposes of the said criminal organization.

Page 133

After the large-scale aggressive attacks launched more actively from **27 September 2020** were repelled by the Armed Forces of the Republic of Azerbaijan through countermeasures, and after the said territory was fully liberated from occupation on **20 November 2020**, on **26 April 2023**, at around **09:00**, **Babasov Xazar Taryel oglu**, born on **11 March 1990**, a peaceful civilian resident of **Shukurbayli village of Fuzuli district** and a driver at the Aghdam Regional Centre of the Mine Action Agency of the Republic of Azerbaijan, was in the territory of Suqovushan settlement within the administrative-territorial district of Chayli village of Aghdara district. He got out of the vehicle and began walking toward a green area when a mine buried in the ground exploded.

As a result of fragments, he sustained injuries classified as **serious harm to health**, namely traumatic amputation of the right lower limb from the upper one-third of the lower leg and traumatic shock; traumatic fragmentation and detachment of the right ankle at the level of the ankle-foot joint; multiple thermal and crushed-lacerated shrapnel wounds to both upper and lower limbs, the chest and abdomen, the left thigh and left lower leg. He was evacuated from the scene by persons nearby and taken to hospital, where timely qualified medical assistance made it possible to save his life.

Following the more active commencement of large-scale aggressive attacks from **27 September 2020**, those attacks were repelled by the Armed Forces of the Republic of Azerbaijan through counteroffensive operations, and **Talish village of Aghdara district** was fully liberated from occupation on **3 October 2020**.

On **28 April 2023**, at around **19:00**, **Seyidov Farid Mehman oglu**, born on **6 June 1996**, a peaceful civilian resident of Sumgait city and group leader of **"R GROUP OF COMPANIES" LLC**, together with **Yusifov Nadir Panah oglu**, born on **24 September 1982**, an operator and peaceful civilian resident of Fuzuli district, and **Gozalov Saxavat Ismayil oglu**, born on **27 September 1981**, travelled to the mined areas in order to conduct monitoring using an unmanned aerial vehicle. They were moving in a **Mitsubishi L200** vehicle bearing state registration plate **90-UH-894** along the **Talish–Tapqaraqoyunlu motor road**, in the territory of Talish village, when the wheels of the vehicle passed over a properly camouflaged anti-tank mine, causing an explosion.

As a result of the explosion and subsequent fire, **Farid Seyidov** sustained burn injuries and carbonisation classified as **serious harm to health** and life-threatening; **Nadir Yusifov** sustained burn injuries and carbonisation classified as **serious harm to health** and life-threatening; and **Saxavat Gozalov** sustained burn injuries and carbonisation classified as **serious harm to health** and life-threatening. All three were intentionally killed at the scene. In addition, the **Mitsubishi L200** vehicle bearing state registration plate **90-UH-894**, belonging to **"R GROUP OF COMPANIES" LLC**, was completely burned, causing significant damage to that legal entity.

Furthermore, the members of the criminal organization / association, acting in accordance with the common criminal intent and purpose of the association and each of its members, in **Horadiz village of Fuzuli district**, which they had occupied on **3 September 1993**, during the period when they kept it under occupation, deliberately planted, in a planned manner and at close distances from one another, numerous anti-tank and anti-personnel mines, set ambushes, and created mined areas for the purposes of the said criminal organization.

After the large-scale aggressive attacks launched more actively from **27 September 2020** were repelled by the Armed Forces of the Republic of Azerbaijan through countermeasures, and after the said territory was fully liberated from occupation on **27 September 2020**, on **1 May 2023**, at around **18:00**, **Alishov Oqtay Bayram oglu**, a peaceful civilian resident of **Qazaxlar village of Fuzuli district**, was in a field pasture area, riding a horse which he was using as a means of transport while grazing his small livestock, when he passed over one of the **TM-57 anti-tank mines** manufactured in the Russian Federation, causing an explosion.

As a result, **Oqtay Alishov** sustained shrapnel injuries classified as **serious harm to health** and life-threatening, including traumatic amputation of the upper part of the right thigh, traumatic amputation of the left lower limb at the ankle/lower-leg joint level, acute blood loss and severe traumatic shock, which caused his death. The horse used by him as a means of transport was also killed by the fragments.

Furthermore, the members of the criminal organization / union, acting in accordance with the common criminal intent and purpose of the association and each of its members, on **13 July 2023**, at around **20:00**, caused **Aliyev Sahib Isa oglu**, born on **19 July 1964**, a peaceful civilian resident of **Seyidlar village of Kalbajar district**, to be caught in a mine explosion while he was walking in the territory of that village in order to tend to the bees he kept in connection with his beekeeping activity.

As a result, they intentionally caused him injuries classified as **serious harm to health** and life-threatening, namely traumatic amputation of the lower one-third of the right lower leg, and multiple shrapnel wounds to the left lower limb and face. Since qualified medical assistance was provided to **Sahib Aliyev** in time, it was possible to save his life; therefore, they were unable to intentionally kill him.

Furthermore, the members of the criminal organization / association, acting in accordance with the common criminal intent and purpose of the association and each of its members, as a result of the large-scale aggressive war they had launched against Azerbaijan, in the territory of **Lachin district**, which they had occupied on **18 May 1992**, during the period from **27 September 2020 to 1 December 2020**, deliberately planted, in a planned manner and at close distances from one another, numerous anti-tank and anti-personnel mines whose brand and place of manufacture were not precisely known, set ambushes, and created mined areas for the purposes of the said criminal organization.

After **Lachin district and many surrounding villages** were liberated from occupation on **1 December 2020** pursuant to the trilateral Statement of **10 November 2020**, **Sergeant Habibov Xayal Qabil oglu**, commander of the automobile squad of the commandant platoon of the headquarters company of military unit No. “N” of the Ministry of Defence located in Lachin district, was moving on **20 July 2023**, at around **11:00**, near **Qorchu village of Lachin district**, in a **Volkswagen Amarok** vehicle bearing registration plate **99-KU-898**, belonging to his acquaintance **Barxudarov Niyamaddin Shukur oglu**.

The vehicle struck one of the anti-tank mines previously buried in the area, likely of the **TM-62M, TM-62P2, TM-62P3, TM-62T or TM-62B** type, and an explosion occurred. As a result, he sustained cut, lacerated and grazed injuries to the face, hands and legs, classified as **minor harm to health**. However, since the blast impact occurred on the right side of the vehicle, which was in direct contact with the mine, his life was saved.

In addition, the **2014 Volkswagen Amarok** bearing registration plate **99-KU-898** was rendered unusable, thereby causing significant damage to **Barxudarov Niyamaddin Shukur oglu**.

On **24 August 2023**, at around **12:00**, **Alakbarli Afqan Sayyaf oglu**, born on **15 July 1987**, a peaceful civilian resident of **Bolsulu village of Beylagan district** and a machine operator of **“AGROSERVIS” Open Joint Stock Company**, was returning after carrying out ploughing

work in a field in the territory of **Sighnaq village of Khojaly district** using a **BELARUS 1523** tractor bearing state registration plate **04 AB 271**. While the tractor was moving, its wheel drove over a mine, causing an explosion.

As a result, he sustained injuries for which no degree of severity was assigned, namely multiple abrasions to the face, neck and left forearm area, and haemorrhage in the white membrane of the right eye. Since **Afqan Alakbarli** was inside the tractor at the moment of the explosion and was outside the area where most of the fragments dispersed, they were unable to intentionally kill him.

In addition, the **2019 BELARUS 1523** tractor, chassis No. **10459**, bearing state registration plate **04 AB 271**, belonging to **"AGROSERVIS" Open Joint Stock Company**, was damaged in the explosion, thereby causing significant damage to that legal entity.

Page 135

On **25 August 2023**, at around **07:00**, **Gasimov Habib Teymur oglu**, born on **2 January 1999**, a peaceful civilian resident of **Baharli settlement of Aghdam district** and a mine searcher of **"AZERBAIJAN DEMINING COMPANY" Limited Liability Company**, while performing his duties, found a munition in the territory of **Hovuslu village**. In order to neutralise it, at around **09:00**, he transported it in the cargo section of a **Ford Transit** vehicle to the territory of **Huseynalilar village of Jabrayil district**. After taking it out of the vehicle and placing it in an appropriate safe area, an **OQ-9 type shell** suddenly exploded.

As a result, he sustained injuries classified as **less serious harm to health**, namely wounds to the palmar surface of the left hand, wounds to the right eye, a wound to the upper eyelid of the right eye, burns to the forehead, the left half of the face and the palmar surface of the left hand, and traumatic rupture of the eardrum of the left ear. Since qualified medical assistance was provided to **Habib Gasimov** in time, it was possible to save his life; therefore, they were unable to intentionally kill him.

Furthermore, the members of the criminal organization / union, acting in accordance with the common criminal intent and purpose of the association and each of its members, as a result of the large-scale aggressive war they had launched against Azerbaijan, in the territory of **Kalbajar district**, which they had occupied on **3 April 1993**, during the period from **27 September 2020 to 7 September 2023**, deliberately planted, in a planned manner and at close distances from one another, numerous anti-tank and anti-personnel mines whose brand, model and place of manufacture were not precisely known, set ambushes, and created mined areas for the purposes of the said criminal organization.

After **Kalbajar district and many surrounding villages** were liberated from occupation on **25 November 2020** pursuant to the trilateral Statement of **10 November 2020**, **Sergeant Ismayilov Yunis Panah oglu**, an extended active-duty serviceman and reconnaissance-

sapper of the 1st group of the 4th platoon of the 1st company of the 1st battalion, serving at the combat position conventionally called **"KQ-13"** located in **Marcimak village** in Kalbajar district, was caught in the explosion of an anti-personnel mine buried in the area on **7 September 2023**, at **07:20**.

As a result, he sustained shrapnel injuries classified in their totality as **serious harm to health** and life-threatening, namely loss of the right lower limb at the upper one-third level of the lower leg, traumatic severance of the right lower leg at the middle one-third level accompanied by first-degree traumatic-hemorrhagic shock, and other injuries. Since he was evacuated in time and provided with qualified medical assistance, his life was saved.

Furthermore, the members of the criminal organization / union, acting in accordance with the common criminal intent and purpose of the association and each of its members, as a result of the large-scale aggressive war they had launched against Azerbaijan, in the territory of **Aghdam district and surrounding villages**, which they had occupied on **23 July 1993**, during the period when they kept them under occupation, deliberately planted, in a planned manner and at close distances from one another, numerous anti-tank and anti-personnel mines whose model and place of manufacture were not precisely known, set ambushes, and created mined areas for the purposes of the said criminal organization.

After the large-scale aggressive attacks launched more actively from **27 September 2020** were repelled by the Armed Forces of the Republic of Azerbaijan through countermeasures, and after **Aghdam district and surrounding villages were** liberated from occupation on **20 November 2020** pursuant to the trilateral Statement signed on **10 November 2020**, **Lieutenant Colonel Eminov Xayyam Mahal oglu**, chief of staff and deputy commander of military unit No. "N" of the Ministry of Defence, while seconded to military unit No. "N" for the purpose of carrying out a combat task, was conducting observation on **10 September 2023**, at **13:14**, in the area between the combat position of the 5th company of the 2nd battalion located in the territory of **Garalar village of Aghdam district**, conventionally called **"A-11"**, and the positions of illegal Armenian armed formations placed in that area.

At that time, a previously buried **PMN-type high-explosive anti-personnel mine**, whose date and place of manufacture were unknown, exploded. As a result, he sustained shrapnel injuries to various parts of his body, classified in their totality as **serious harm to health** and life-threatening, including subtotal traumatic severance of the left foot at the ankle/lower-leg joint level with an extensive soft-tissue defect.

Since he was evacuated to a military hospital in time and provided with qualified medical assistance, it was possible to save his life.

The members of the criminal organization, acting with the same criminal purposes and within the common criminal intent of each member of the criminal organization, in **Qazidara village of Lachin district**, which remained under occupation until its liberation on **1 December 2020**, during the period on the eve of liberation — that is, between **27 September 2020 and 25 November 2020** — on dates not precisely established, camouflaged and buried an anti-tank mine in the territory of that village which they kept under occupation.

On **13 September 2023**, at around **16:00**, because the bridge over the **Hakari River** on the section of the motor road extending from **Gulabird village** to **Gazidara village** of Lachin district had collapsed, **Turgay Bayram Ali oglu**, born on **19 September 1983**, a citizen of the Republic of Turkey, resident of Trabzon, and an operator of **"CENGIZ INShAAT A.Sh."**, a company established in the Republic of Turkey, was restoring that section of the road with a tracked excavator. When the bucket of the excavator he was operating pressed onto the anti-tank mine, the mine exploded.

As a result of damage caused to the excavator belonging to **"CENGIZ INShAAT A.Sh."**, significant damage was intentionally caused to that legal entity. Since **Bayram Turgay** was inside the excavator at the moment of the explosion and was therefore outside the area in which the fragments dispersed, he did not sustain injuries; accordingly, they were unable to intentionally kill him.

The military-political leadership of Armenia, including its armed forces and other armed formations, as well as unidentified members of the criminal organization and of its structural unit — armed formations equipped with various types of firearms, ammunition, military equipment and other weapons — unlawfully operating in the territory of the Republic of Azerbaijan in violation of domestic and international law, acted on the basis of the direct material, technical and personnel support provided by the former, centralized management, oral and written tasks, instructions and orders, and under their strict supervision.

They acted contrary to the norms of domestic and international law, including the **Charter of the United Nations of 26 June 1945**, the **UN General Assembly Resolution of 14 December 1974 on the Definition of Aggression**, Articles **34, 130, 147** and other provisions of the **Fourth Geneva Convention of 12 August 1949 relative to the Protection of Civilian Persons in Time of War**, Article **34** of the **First Additional Protocol of 8 June 1977** to the Geneva Conventions of 12 August 1949, Rule **96** of customary international humanitarian law and customary rules **113, 115 and 116** relating to the dead, the **UN Convention of 20 December 2006 for the Protection of All Persons from Enforced Disappearance**, the **Universal Declaration of Human Rights of 10 December 1948**, the **Convention for the Protection of Human Rights and Fundamental Freedoms** adopted by the Council of Europe on **4 November 1950**, **Protocol No. 1** to that Convention, the **International Covenant on Civil and Political Rights** of **16 December 1966**, the **UN Convention against Torture and Other Cruel, Inhuman or Degrading Treatment or Punishment** of **10 December 1984**, the **Additional Protocol I of 8 June 1977 relating to the Protection of Victims of International Armed Conflicts** to the Geneva Conventions of **12 August 1949**, the **Ottawa Convention of 3 December 1997 on the Prohibition of the**

Use, Stockpiling, Production and Transfer of Anti-Personnel Mines and on Their Destruction, the **Protocol on Prohibitions or Restrictions on the Use of Mines, Booby-Traps and Other Devices** annexed to the **Convention of 10 October 1980 on Prohibitions or Restrictions on the Use of Certain Conventional Weapons Which May Be Deemed to Be Excessively Injurious or to Have Indiscriminate Effects**, the **Council of Europe Convention on the Prevention of Terrorism**, signed in Warsaw on **16 May 2005**, and numerous other norms of international law.

Page 137

For the purpose of implementing the criminal plan encompassed by the common criminal intent — namely, continuing the aggressive war launched against the Republic of Azerbaijan, ensuring that the occupied territories remained under their control, killing Azerbaijanis on the grounds of the national-ethnic hatred and hostility they had formed in Armenian society, and pursuing other criminal purposes — after the large-scale aggressive attacks launched more actively against the Republic of Azerbaijan from **27 September 2020** were repelled by the Armed Forces of the Republic of Azerbaijan through countermeasures, and after **Jabrayil, Fuzuli, Zangilan and Qubadli districts**, as well as **Shusha city**, which had been kept under occupation for many years, were liberated, they again violated the requirements of the Statement of **10 November 2020** by the President of the Republic of Azerbaijan, the Prime Minister of the Republic of Armenia and the President of the Russian Federation.

In particular, they violated paragraph 1 of that Statement, which declared that “as of 00:00 Moscow time on 10 November 2020, a complete ceasefire and cessation of all military operations in the zone of the Nagorno-Karabakh conflict shall be announced”; paragraph 4, according to which “the Armenian armed forces shall be withdrawn from the occupied territories”; paragraph 7, according to which “internally displaced persons and refugees shall return to the territory of Nagorno-Karabakh and the surrounding districts under the supervision of the Office of the United Nations High Commissioner for Refugees”; and other requirements.

Although almost three years had passed since the signing of that legal document, in the sovereign territories of the Republic of Azerbaijan — **Khojaly, Aghdara, Khankendi, Khojavend and Shusha districts** — they continued unlawfully building engineering-fortification structures for their future criminal purposes, openly refused to hand over the weapons, ammunition, military equipment and installations remaining in those territories, and continued mining the areas around the positions where they had fortified themselves.

Taking advantage of the extensive restoration and reconstruction work being carried out in all liberated territories, and therefore of the regular movement of numerous workers, police officers maintaining public order in the area, vehicles and special road-construction equipment, around **17–18 September 2023**, they lay in ambush in the form of reconnaissance-sabotage groups, came to the territory of **Taghaverd village of Khojavend**

district, and created mined areas at the **58th kilometre** of the **Ahmadbayli–Fuzuli–Shusha road** passing through that village by planting numerous high-explosive anti-tank mines of the **TM-62, TM-57, TMK-2, TM-72, TM-73 and TM-83** types, whose date and place of manufacture were unknown.

On **19 September 2023**, at around **03:45**, employees of Department No. 43 of the Azerbaijan State Agency of Automobile Roads, **Guliyev Farhad Huseynagha oglu** and driver **Sadixov Samir Sabirovich**, were carrying out repair and restoration work in that area using a **Shaman Howo** cargo vehicle bearing state registration plate **99-JO-021**, belonging to **"Colin Inshaat Turizm Sanayi ve Ticaret Anonim" LLC**, driven by **Samir Sadixov**, and a **Hamm 3516** road-construction machine bearing state registration plate **110 FA 409**. They were caught in the explosion of one of the said anti-tank mines.

As a result, **Sadixov Samir Sabirovich** sustained injuries to various parts of the body, classified in their totality as **serious harm to health** and life-threatening, namely anaemia of the internal organs and multiple shrapnel wounds to the body surface.

Guliyev Farhad Huseynagha oglu likewise sustained injuries to various parts of the body, classified in their totality as **serious harm to health** and life-threatening, namely anaemia of the internal organs, multiple shrapnel wounds to the body surface and other injuries. Both were intentionally killed at the scene.

After receiving information that employees of the Azerbaijan State Agency of Automobile Roads had struck a mine, employees of the Rapid Police Regiment of the Ministry of Internal Affairs, seconded to the area, arrived at the scene on **19 September 2023** in a **KamAZ 43118** vehicle bearing state registration plate **77-JX-224**, belonging to the Ministry of Internal Affairs of the Republic of Azerbaijan, in order to protect public order and ensure public safety and to perform other official duties.

At a distance of **100 metres** from the place where the first explosion had occurred, on the same road, they were caught in the explosion of another anti-tank mine planted by members of the criminal association.

As a result, the driver of the vehicle, **Jamalzada Asim Knyaz oglu**, who served as a police officer of the Rapid Police Regiment of the Ministry of Internal Affairs with the rank of police sergeant, sustained injuries to various parts of the body, classified in their totality as **serious harm to health** and life-threatening, including crushing and destruction of brain tissue and traumatic amputation of the lower one-third of the left upper arm.

Zamanov Xazar Azar oglu, who served as a police officer of the same Regiment with the rank of police sergeant, sustained injuries to various parts of the body, classified in their

totality as **serious harm to health** and life-threatening, namely multiple open and linear fractures of the skull vault and skull base bones, and crushing of brain tissue.

Mahmudov Seymur Elsevar oglu, who served as a police officer of the same Regiment with the rank of police sergeant, sustained injuries to various parts of the body, classified in their totality as **serious harm to health** and life-threatening, namely multiple comminuted, open and linear fractures of the skull vault, skull base and facial skeleton bones, and crushing and destruction of brain tissue.

Shirinov Ramil Arif oglu, who served as a police officer of the same Regiment with the rank of police sergeant, sustained injuries to various parts of the body, classified in their totality as **serious harm to health** and life-threatening, namely crushing of brain tissue, haemorrhage into the meninges and cerebral ventricles, and multiple contused wounds and abrasions to the body surface.

All four were intentionally killed at the scene.

Thus, as a result of the terrorist attack committed by members of the criminal association in the territory of the Republic of Azerbaijan, **six persons were intentionally killed**, including **two civilians and four police officers**, and **three vehicles were completely destroyed**.

Continuing their acts, from around **13:00 on 19 September 2023**, members of the criminal association, using artillery installations, mortars, and other large- and small-calibre weapons which they had unlawfully placed and kept in the engineering-fortification structures they had unlawfully built in **2020–2023** in the territories of **Khojaly, Aghdara, Khankendi, Khojavend and Shusha districts**, which they kept under occupation, opened fire more actively and launched attacks against military and civilian facilities belonging to the Republic of Azerbaijan.

From that date, proceeding from the requirement of Article 7, paragraph 2, of the **Council of Europe Convention on the Prevention of Terrorism**, signed in Warsaw on **16 May 2005**, according to which "each Party shall adopt such measures as may be necessary to establish as a criminal offence under its domestic law the unlawful and intentional commission of recruitment for terrorism as defined in paragraph 1 of this Article," and guided by the requirements of the Law of the Republic of Azerbaijan **"On Combating Terrorism"**, as well as in accordance with the requirements of the **Fourth Geneva Convention of 12 August 1949 relative to the Protection of Civilian Persons in Time of War**, the Armed Forces of the Republic of Azerbaijan launched local anti-terrorist operations.

These operations were launched for the purpose of clearing those territories of members of the criminal association, whom Azerbaijan regarded as a serious threat to public security; detecting and seizing unlawfully held weapons and ammunition; ensuring human rights and freedoms and the security of society and the state; and restoring state sovereignty.

The Statement of **10 November 2020** by the President of the Republic of Azerbaijan, the Prime Minister of the Republic of Armenia and the President of the Russian Federation,

including paragraph 1, declaring a complete ceasefire and cessation of all hostilities in the zone of the Nagorno-Karabakh conflict as of **00:00 Moscow time on 10 November 2020**; paragraph 4, according to which "the Armenian armed forces shall be withdrawn from the occupied territories"; paragraph 7, according to which "internally displaced persons and refugees shall return to the territory of Nagorno-Karabakh and the surrounding districts under the supervision of the Office of the United Nations High Commissioner for Refugees"; and other requirements, as well as to the **UN Charter of 26 June 1945**, the **UN General Assembly Resolution of 14 December 1974 on the Definition of Aggression**, Articles **34, 130, 147** and other provisions of the **Fourth Geneva Convention of 12 August 1949 relative to the Protection of Civilian Persons in Time of War**, Article **34** of the **First Additional Protocol of 8 June 1977** to the Geneva Conventions of 12 August 1949, and Rule **96** of customary international humanitarian law,

as well as customary rule **96** and customary rules **113, 115 and 116** concerning the dead; the **United Nations Convention of 20 December 2006 for the Protection of All Persons from Enforced Disappearance**; the **Universal Declaration of Human Rights** of **10 December 1948**; the **Convention for the Protection of Human Rights and Fundamental Freedoms**, adopted by the Council of Europe on **4 November 1950**; **Protocol No. 1** to that Convention; the **International Covenant on Civil and Political Rights** of **16 December 1966**; the **UN Convention against Torture and Other Cruel, Inhuman or Degrading Treatment or Punishment** of **10 December 1984**; the **Geneva Convention relative to the Treatment of Prisoners of War** of **12 August 1949**; **Additional Protocol I of 8 June 1977** to the Geneva Conventions of 12 August 1949 relating to the protection of victims of international armed conflicts; the **Ottawa Convention of 3 December 1997 on the Prohibition of the Use, Stockpiling, Production and Transfer of Anti-Personnel Mines and on Their Destruction**; the **Protocol on Prohibitions or Restrictions on the Use of Mines, Booby-Traps and Other Devices**, annexed to the **Convention of 10 October 1980 on Prohibitions or Restrictions on the Use of Certain Conventional Weapons Which May Be Deemed to Be Excessively Injurious or to Have Indiscriminate Effects**; as well as **Protocol IV on Blinding Laser Weapons**, annexed to the same Convention of 10 October 1980; the **Council of Europe Convention on the Prevention of Terrorism**, signed in Warsaw on **16 May 2005**; and numerous other norms of international law.

Acting contrary to those requirements, the military-political leadership of Armenia, including its armed forces and other armed formations, as well as the members of the criminal organization and of its structural unit — armed formations equipped with various types of weapons, ammunition, military equipment and other arms — which continued unlawful activity in the sovereign territories of the Republic of Azerbaijan, namely in **Khojaly, Aghdara, Khankendi, Khojavend and Shusha districts**, in violation of domestic and international law, acted on the basis of direct material, technical and personnel support provided by Armenia, centralized management, oral and written assignments, instructions and orders, and under its strict supervision.

Under the leadership of the heads of that criminal organization and its armed formations — **Vardanyan Ruben Karlenovich**, **Harutyunyan Arayik Vladimiri / Vladimirovich**, **Babayan Davit Klimi / Klimovich**, **Mnatsakanyan Lyova Henrikhi**, **Ishkhanyan David Rubeni**, **Sahakyan Bako Sahaki**, **Ghukasyan Arkadi Arshaviri / Arshavirovich**, **Manukyan Davit Azati** and others — members of the said criminal association, including **Beglaryan Vasili Ivani**, **Kazaryan Erik Roberti**, **Stepanyan Gurgen Homerosi**, **Pashayan Melikset Vladimiri**, **Martirosyan Garik Grigori**, **Babayan Madat Arakeli**, **Balayan Levon Romiki**, **Allahverdiyan David Nelsoni** and others, were armed with at least:

1 T-90 C tank, 71 T 72 taanks, 22 BMP-2 brands and 160 different types of armored combat vehicles, including 3059 5.45 mm AK-74 brands, 393 AK-74N brands of the same caliber, 167 AKS-74 brands of the same caliber, 2110 7.62 mm caliber AK-103, 2,040 AKM automatic weapons of the same caliber, 422 AKMS automatic weapons of the same caliber, 4,257 bayonets and knives, as well as a total of 1,680,5903 different types of firearms, their complete parts and ammunition, including various types of cartridges, 230 different types of mortars, a total of 137 various types of anti-tank weapons, a total of 162 different types of artillery cannons, a total of 1419 different types of optical devices, a total of 1540 pieces of armored jackets, as well as plates and linings for armored jackets, a total of 5320 pieces of combs for various types of automatic weapons, 3-foot radar systems and other types of military technical property, a total of 35621 pieces of ammunition of various types for mortars, a total of 3994 pieces of different types of artillery ammunition, a total of 9353 pieces of various types of explosives, a total of 41522 pieces different types of hand grenades, a total of 221 different types of anti-tank guided missiles, stations and silence navigation and telemetry signals by applying radio jamming to their control channels,

as well as the protection of important facilities of the state and the Armed Forces from air attack vehicles (UAVs, etc.), radio-guided missiles and artillery shells, as well as GPS, GLONASS, BelDou-type global satellites, which were developed in 2016 at the Radio-Electronic Warfare Scientific and Technical Center of the Russian Federation, by applying an obstacle to the means of global navigation satellite systems Armed with the "Pole-2r" radio-jamming complex, which is used to distract aircraft and other equipment in flight using navigation systems, as well as the "Repellent-1" radio-electronic combat complex, which is used to conduct radio-technical reconnaissance, detect small-scale UAVs and their ground control.

Armed in this manner, they continued the national hatred and hostility against Azerbaijanis that had been formed in Armenian society over many years; continued the aggressive war against the Republic of Azerbaijan in order to ensure that the said districts remained under occupation; committed fires and explosions in order to prevent the Azerbaijani population from returning to those territories and to the liberated territories; used methods of warfare capable of causing significant destruction during an armed conflict; intentionally caused widespread, long-term and serious damage to the environment; caused large-scale destruction

not justified by military necessity; attacked undefended territories, settlements and demilitarised zones; continued the indiscriminate mining of territories with numerous mines and other explosive devices in a manner not required by any military necessity; constantly created fear and panic among the Azerbaijani population; sought thereby to cause the Republic of Azerbaijan to adopt a decision renouncing its sovereign territories in favour of the criminal organization and Armenia; deprived the Azerbaijani population of freedom of movement within the territory of the country of which they were citizens, of the possibility of living in a healthy and safe environment, and of other fundamental rights; and, on the grounds of national-ethnic hatred and hostility, intentionally killed them with particular cruelty, through genocide, terrorism and banditry, as well as in connection with the performance of their official duties and public obligations, and for numerous other criminal purposes.

As a result of the anti-terrorist operation carried out by the Ministry of Defence of the Republic of Azerbaijan from **19 September 2023 to 20 September 2023**, **Xalfali village of Shusha district** was liberated from occupation on **20 September 2023**. During the periods when they had kept that territory under occupation, on dates not precisely established, they had deliberately planted, in a planned manner and at close distances from one another, numerous anti-tank and anti-personnel mines of unknown brand, model and place of manufacture, set ambushes, and created mined areas for the purposes of the said criminal organization.

On **22 September 2023**, at around **12:00**, a **2011 CAT D8T bulldozer**, bearing state registration plate **90 H 435**, belonging to **"Kolin Inshaat Turizm Sanayi ve Ticaret Anonim Shirketi"**, which was operating in **Shusha city**, was carrying out road restoration work in the territory of **Xalfali village of Shusha district**. It was caught in the explosion of an anti-personnel mine previously buried in that area, whose date and place of manufacture were unknown.

As a result, the operator of that equipment, **Ibrahim Gormaz Ali**, a citizen of the Republic of Turkey, sustained bodily injuries classified as **minor harm to health**, namely contused wounds to the forehead and nose areas caused by metal fragments scattered around, and a bruise under the right eye. In addition, as a result of the damage to the bulldozer he was operating, **"Kolin Inshaat Turizm Sanayi ve Ticaret Anonim Shirketi"** sustained material damage in the amount of **128,651.41 manats**.

Furthermore, the members of the criminal organization (union), acting in accordance with the common criminal intent and purpose of the association and each of its members, as a result of the large-scale aggressive war they had launched against Azerbaijan, in the territory of **Aghdam district and surrounding villages**, which they had occupied on **23 July 1993**, during the period from **27 September 2020 to 20 September 2023**, deliberately planted, in a planned manner and at close distances from one another, numerous anti-tank and anti-personnel mines whose model and place of manufacture were not precisely known as set ambushes, and created mined areas for the purposes of the above mentioned criminal organization.

After the large-scale aggressive attacks launched more actively from **27 September 2020** were repelled by the Armed Forces of the Republic of Azerbaijan through countermeasures, and after **Abdal-Gulabli village of Aghdam district and surrounding villages** were liberated from occupation on **20 November 2020** pursuant to the trilateral Statement signed on **10 November 2020**, the following servicemen were involved:

Shadmanov Akram Yunus oglu, serving with the rank of lieutenant colonel as chief of staff and deputy commander of military unit No. "N" of the Ministry of Defence; **Seyidov Tural Islam oglu**, serving with the rank of soldier as an extended active-duty serviceman and driver of the automobile squad of the material and technical support platoon of the 2nd battalion; **Aliyev Elvin Taleh oglu**, serving with the rank of major as chief of staff and deputy commander of the 2nd battalion; **Nasibov Yusif Muraz oglu**, serving with the rank of lieutenant as commander of the 3rd platoon of the 9th company of the 3rd battalion; **Ahadli Murad Elman oglu**, serving with the rank of soldier as an extended active-duty serviceman and reconnaissance grenade-launcher of the 2nd group of the 4th platoon of the 1st company of the 1st battalion; **Qasimov Nurlan Ceyhun oglu**, serving with the rank of soldier as an extended active-duty serviceman and reconnaissance personnel member of the 2nd group of the 3rd platoon of the 1st company of the 1st battalion;

Quliyev Irshad Hafiz oglu, serving with the rank of soldier as reconnaissance gunner of the 3rd group of the 4th platoon of the 7th company of the 3rd battalion; **Abdunov Babak Camshid oglu**, serving with the rank of soldier as reconnaissance gunner of the 1st group of the 3rd platoon of the 1st company of the 1st battalion; **Dovlatov Rahil Zaki oglu**, serving with the rank of soldier as reconnaissance personnel member of the 2nd group of the 1st platoon of the 7th company of the 3rd battalion; **Novruzov Ruhin aladdin oglu**, serving with the rank of soldier as reconnaissance gunner of the 2nd group of the 1st platoon of the 9th company of the 3rd battalion; **Rzayev Mashqur Masmud oglu**, serving with the rank of soldier as reconnaissance gunner of the 1st group of the 3rd platoon of the 1st company of the 1st battalion; and **Xancanov Ülvi Parvin oglu**, serving with the rank of soldier as reconnaissance personnel member of the 2nd group of the 2nd platoon of the 8th company of the 3rd battalion.

On **24 September 2023**, at around **17:30**, they were delivering supplies in a **KamAZ 4326** vehicle, bearing military registration plate **K-445-QQ**, belonging to military unit No. "N" of the Ministry of Defence, to personnel of that military unit positioned in the territory of **Abdal-Gulabli village of Aghdam district**, in front of the combat position conventionally called **"M 7"**, in the direction of Khojaly district, which had been liberated from the armed terrorist group during the anti-terrorist operations that began on **19 September 2023**.

When the front left wheel of the vehicle struck one of the previously buried high-explosive anti-tank mines of the **TM-62, TM-57, TMK-2, TM-72, TM-73 and TM-83** types, the **KamAZ 4326** cargo vehicle was completely disabled and rendered unusable.

In addition, **Shadmanov akram Yunus oglu** sustained injuries classified as **serious harm to health** and life-threatening, namely contusions of the right temporal, occipital and frontal areas of the brain and contusion of both lungs.

Seyidov Tural Islam oglu sustained injuries classified as **serious harm to health** and life-threatening, namely crushing and tearing of the heart, both lungs, liver and spleen, as well as numerous other injuries. As a result, **two servicemen were killed at the scene**.

Aliyev Elvin Taleh oglu sustained injuries classified as **less serious harm to health**, causing long-term impairment of health, namely dislocation of the subtalar joint of the left foot.

Nasibov Yusif Muraz oglu sustained injuries classified as **minor harm to health**, causing short-term impairment of health, namely a shrapnel wound to the soft tissues of the right parietal area.

Ahadli Murad Elman oglu sustained an abrasion to the left thigh area that did not constitute harm to health.

Qasimov Nurlan Ceyhun oglu sustained injuries classified as **minor harm to health**, causing short-term impairment of health, namely a wound to the right parietal area.

Quliyev Irshad Hafiz oglu sustained injuries that did not constitute harm to health

namely an abrasion to the left knee area.

Abdunov Babak Camshid oglu sustained a contused-abrasive wound to the lumbar area that did not constitute harm to health.

Dovlatov Rahil Zaki oglu sustained wounds to the left elbow joint and left upper arm areas that did not constitute harm to health.

Novruzov Ruhin aladdin oglu sustained abrasions to both lateral surfaces of the chest that did not constitute harm to health.

Rzayev Mashqur Masmud oglu sustained abrasions to the dorsal surfaces of both hands that did not constitute harm to health.

Xancanov Ülvi Parvin oglu sustained abrasions to both lateral surfaces of the chest that did not constitute harm to health.

They also sustained other injuries. Since the ten servicemen were provided with qualified medical assistance in time, and since they lay down on the ground during the incident and avoided numerous fragments, it was possible to save their lives; that is, the perpetrators were unable to intentionally kill them.

Furthermore, the members of the criminal organization (union), acting in accordance with the common criminal intent and purpose of the association and each of its members, as a result of the large-scale aggressive war they had launched against Azerbaijan, in the territory of **Fuzuli district and surrounding villages**, which they had occupied on **23 August 1993**, during the period when they kept them under occupation, deliberately planted, in a planned manner and at close distances from one another, numerous anti-tank and anti-personnel mines whose model and place of manufacture were not precisely known, set ambushes, and created mined areas for the purposes of the said criminal organization.

After the surrounding areas of **Alixanli village of Fuzuli district** were liberated from occupation by the Armed Forces of the Republic of Azerbaijan on **27 September 2020**, **Adgozalov Sunay akbar oglu**, serving with the rank of sergeant as rifleman of the 3rd special operations half-group of the 1st special operations group of the 3rd special operations section of the special forces detachment of military unit No. "N" of the Internal Troops, was carrying out observation duty on **5 October 2023**, at around **16:30**, at the 5th post, conventionally designated for military unit No. "N" of the Internal Troops, located **9 kilometres** from Alixanli village, and established in order to prevent civilians from entering mined areas in the territories of **Alixanli and Shukurbayli villages of Fuzuli district**.

When his right foot touched an anti-personnel mine previously buried in the area, whose date and place of manufacture, as well as brand and type, were unknown, an explosion occurred. As a result, he sustained a shrapnel injury classified as **serious harm to health**, causing permanent and stable loss of more than one-third of general working capacity, namely loss of the right lower limb at the middle one-third level of the lower leg. Since qualified medical assistance was provided in time, it was possible to save his life; that is, the perpetrators were unable to intentionally kill him.

Furthermore, the members of the criminal organization (union), acting in accordance with the common criminal intent and purpose of the association and each of its members, as a result of the large-scale aggressive war they had launched against Azerbaijan, in the territory of **Fuzuli district and surrounding villages**, which they had occupied on **23 August 1993**, during the period when they kept them under occupation, deliberately planted, in a planned manner and at close distances from one another, numerous anti-tank and anti-personnel mines whose model and place of manufacture were not precisely known, set ambushes, and created mined areas for the purposes of the said criminal organization.

After the large-scale aggressive attacks launched more actively from **27 September 2020** were repelled by the Armed Forces of the Republic of Azerbaijan through countermeasures, and after **Yuxari Veysalli village of Fuzuli district and surrounding territories** were liberated from occupation, **Niftaliyev Elmaddin Mammadsadiq oglu**, serving with the rank

of soldier as senior rifleman of the 2nd platoon of the 1st company of the 1st battalion of military unit No. “N” of the Ministry of Defence, was carrying out observation duty on **5 October 2023**, at around **19:15**, in the surrounding area in connection with organising the protection of combat position No. **18**, located in the territory of Yuxari Veysalli village of Fuzuli district.

When his right foot touched an anti-personnel mine previously buried in the area by Armenian armed formations, whose date and place of manufacture, as well as brand and type, were unknown, he sustained injuries classified in their totality as **serious harm to health** and life-threatening, namely traumatic severance of the left lower leg at the lower one-third level, multiple shrapnel wounds to the anterior surface of the upper one-third of the left lower leg, foreign bodies / fragments in soft tissues

Page 143

and second- to third-degree traumatic-hemorrhagic shock. Since qualified medical assistance was provided in time, it was possible to save his life; that is, the perpetrators were unable to intentionally kill him.

Furthermore, the members of the criminal organization / association, acting in accordance with the common criminal intent and purpose of the association and each of its members, as a result of the aggressive war they had launched against Azerbaijan, in **Chayli village of Tartar district**, which they had occupied in **April 1994** — the village had been part of **Aghdara district** until **13 October 1992** and, from **5 December 2023**, again became part of that district — during the period when they kept it under occupation, on dates not precisely established, deliberately planted, in a planned manner and at close distances from one another, numerous anti-tank and anti-personnel mines of unknown brand, model and place of manufacture, set ambushes, and created mined areas for the purposes of the said criminal organization.

On **6 October 2023**, at around **16:00**, **Hadiyev Yaquar Aliheydar oglu**, a peaceful civilian resident of **Hasanqaya village of Tartar district**, who had travelled to that area, was walking on foot when he passed over one of the said mines and an explosion occurred. As a result, he sustained severe, life-threatening bodily injuries to the heart, lungs and various parts of the body, accompanied by acute blood loss resulting from injury to the lungs and heart, and was intentionally killed.

Furthermore, unidentified members of the criminal organization, acting with the same criminal purpose encompassed by the common criminal intent of each member of the criminal organization, as a result of the aggressive war they had launched against Azerbaijan, in the **Bazirgan** area of **Yanshaq village of Kalbajar district**, which they had occupied by **3 April 1993**, on the eve of its full liberation on **25 November 2020** as a result of countermeasures carried out by the Armed Forces of the Republic of Azerbaijan against the large-scale aggressive attacks launched more actively from **27 September 2020** — that is, during the period from **27 September 2020 to 25 November 2020**, while leaving those

territories — and for the purpose of continuing the aggressive war against Azerbaijan, during the period from **27 September 2020 to 20 September 2023**, deliberately planted, in a planned manner and at close distances from one another, numerous anti-tank and anti-personnel mines of unknown brand, model and place of manufacture, set ambushes, and created extensive mined areas for the purposes of the said criminal organization.

After those territories were fully liberated from occupation on **25 November 2020**, **Asgarov Qasim Sardar oglu**, a peaceful civilian resident of **Sarkar village of Samukh district**, engaged in cattle farming, travelled there. On **6 October 2023**, at around **08:00**, while riding a horse, he passed over one of the said mines and an explosion occurred.

As a result, he sustained wounds to the left thigh and left lower-leg areas, for which no degree of severity was assigned. Since, at the moment of the explosion, he was approximately **150 centimetres** above the ground, that is, on horseback, and because the fragments produced by the explosion spread into the horse's body and the surrounding area, the perpetrators were unable to intentionally kill him. One horse belonging to him was killed.

Furthermore, unidentified members of the criminal organization, acting with the same criminal purpose encompassed by the common criminal intent of each member of the criminal organization, as a result of the aggressive war they had launched against Azerbaijan, in **Hasanqaya village of Tartar district**, which they had occupied in **April 1994** — the village had been part of **Aghdara district** until **13 October 1992** and, from **5 December 2023**, again became part of that district — on dates not precisely established, deliberately planted, in a planned manner and at close distances from one another, numerous anti-tank and anti-personnel mines of unknown brand, model and place of manufacture, set ambushes, and created mined areas for the purposes of the said criminal organization.

After the village was fully liberated from occupation on **9 October 2020**, **Hasanov Zamaddin Qalandar oglu**, a peaceful civilian resident of **Hasanqaya village of Tartar district**, travelled there on **6 October 2023**, at around **19:00**. While walking on foot, he passed over one of the said mines and an explosion occurred. As a result, he sustained traumatic amputation of both lower limbs and severe, life-threatening bodily injuries to various parts of his body. As a result, he sustained traumatic amputation of both lower limbs and severe, life-threatening bodily injuries to various parts of his body. Since he was taken to hospital by his relatives and provided with qualified medical assistance in time, it was possible to save his life.

Page 144

Furthermore, the members of the criminal organization (union), acting in accordance with the common criminal intent and purpose of the association and each of its members, in the area near the **Boyuk Oxlu height** of **Khojavend district**, in the territory of **Kuropatkino village**, in the areas known as **Harami plain**, which had been used by the Azerbaijani civilian population as pastureland, during the period when they kept those territories under occupation, deliberately planted, in a planned manner and at close distances from one

another, numerous anti-tank and anti-personnel mines whose brand, model and place of manufacture were not precisely known, set ambushes, and created extensive mined areas for the purposes of the said criminal organization.

After the large-scale aggressive attacks launched more actively from **27 September 2020** were repelled by the Armed Forces of the Republic of Azerbaijan through countermeasures, and when **Abilov Famil Ilyas oglu**, a peaceful civilian resident of **Birinci Shahsevan village of Beylagan district**, was returning from a visit to that liberated territory on **13 October 2023**, at around **05:00**, in a **GAZ-3302** cargo vehicle bearing state registration plate **59-BF-094**, which he was driving, the vehicle passed over one of the said anti-tank mines, causing an explosion.

As a result, he sustained traumatic amputation of the lower one-third of the left lower leg and severe, life-threatening bodily injuries to various parts of his body, and was intentionally killed at the scene due to severe traumatic shock and acute blood loss. In addition, the said vehicle belonging to him was completely destroyed and rendered unusable.

Furthermore, on the same date and at the same time, **Bayramov Namaz Nabadi oglu**, a peaceful civilian resident of **Ikinci Shahsevan village of Beylagan district**, the son of the sister of the deceased, who was driving his own **Mercedes-Benz Atego** cargo vehicle bearing state registration plate **99-EU-321** behind Famil Abilov on the same road, also struck another anti-tank mine. As a result of the explosion, his vehicle was rendered unusable and destroyed, while he himself sustained severe, life-threatening bodily injuries to various parts of his body. With the assistance of his fellow villager **Quliyev Xayal Kamil oglu**, he was taken to hospital by his relatives, and timely qualified medical assistance made it possible to save his life.

In addition, as a result of the aggressive war they launched against Azerbaijan with the same criminal purpose, and driven by the common criminal intent shared by each member of the criminal organization, in **Suqovushan village of Tartar district** — which had been fully occupied in **April 1994**, had been part of **Aghdara district** until **13 October 1992**, and since **5 December 2023** has again been part of that district — seeing that the large-scale aggressive attacks launched more actively from **27 September 2020** would be repelled by the Armed Forces of the Republic of Azerbaijan through countermeasures and that the territory would be fully liberated on **3 October 2020**, during the period from **27 September 2020** until its liberation on **3 October 2020**, while leaving those territories and with the purpose of continuing the aggressive war against Azerbaijan, deliberately planted, in a planned manner and at close distances from one another, numerous anti-tank and anti-personnel mines whose brand, model and place of manufacture were not precisely known, set ambushes, and created extensive mined areas for the purposes of the said criminal organization.

After the said territory was liberated from occupation on **3 October 2020**, **Azimov Ayaz Yusif oglu**, a peaceful civilian resident of **Uzuntapa village of Jalilabad district**, together with **Nuraliyev Elchin Xanbala oglu**, a resident of **Tazakand village** of the same district, travelled there in order to sow grain and carry out ploughing work. On **26 October 2023**, at

around **07:00**, the **Claas-820** tractor bearing state registration plate **15-BA-027**, driven by the latter, passed over one of the mines, causing an explosion.

As a result, **Elchin Nuraliyev** sustained amputation of the lower one-third of the right upper arm and severe, life-threatening bodily injuries to various parts of his body.

Page 145

However, he was taken to hospital by **Ayaz Azimov**, who had been with him during the incident and had himself sustained multiple abrasions to various parts of his body which did not constitute harm to health. Timely qualified medical assistance made it possible to save Elchin Nuraliyev's life.

Furthermore, the members of the criminal organization (union), acting in accordance with the common criminal intent and purpose of the association and each of its members, as a result of the aggressive war they had launched against Azerbaijan, in the areas of **Borsunlu village of Tartar district** located on the border with **Talish village**, which they had fully occupied in **April 1994**, during the period when they kept those areas under occupation, deliberately planted, in a planned manner and at close distances from one another, numerous anti-tank and anti-personnel mines whose brand, model and place of manufacture were not precisely known, set ambushes, and created extensive mined areas for the purposes of the said criminal organization.

After the said territory was fully liberated from occupation on **9 October 2020**, **Aghalarov Ali Alibaba oglu**, an individual entrepreneur engaged in cattle farming, travelled there. On **3 November 2023**, at around **02:00**, when he passed over one of the said mines, an explosion occurred. As a result, he sustained amputation of the lower one-third of the right lower leg and severe, life-threatening bodily injuries to various parts of his body. He was taken to hospital by fellow villagers, and timely qualified medical assistance made it possible to save his life.

Furthermore, the members of the criminal organization (union), acting in accordance with the common criminal intent and purpose of the association and each of its members, as a result of the aggressive war they had launched against Azerbaijan, in **Tapakand village of Tartar district**, which they had occupied during the period from **7 July 1993** to **April 1994** — the village had been part of **Aghdara district** until **13 October 1992** and since **5 December 2023** has again been part of that district — seeing that the large-scale aggressive attacks launched more actively from **27 September 2020** would be repelled by the Armed Forces of the Republic of Azerbaijan through countermeasures and that the territory would be fully liberated on **20 September 2023**, during the period from **27 September 2020** until its liberation on **20 September 2023**, while leaving those territories and with the purpose of continuing the aggressive war against Azerbaijan, deliberately planted, in a planned manner and at close distances from one another, numerous anti-tank and anti-personnel mines whose brand, model and place of manufacture were not precisely known, set ambushes, and created extensive mined areas for the purposes of the said criminal organization.

After the territory was liberated from occupation on **20 September 2023**, **Huseynov Asif Novruz oglu**, a peaceful civilian resident of **Seydimli village of Tartar district**, travelled there on **5 November 2023**, at around **11:00**. While walking on foot, he passed over one of the mines, causing an explosion. As a result, he sustained a life-threatening injury classified as **serious harm to health**, namely traumatic amputation of the upper one-third of the right lower leg. He was taken to hospital by his children, and timely qualified medical assistance made it possible to save his life.

Furthermore, the members of the criminal organization (union), acting in accordance with the common criminal intent and purpose of the association and each of its members, in **Saricali village of Aghdam district**, which they had occupied by **23 July 1993**, during the period when they kept it under occupation, deliberately planted, in a planned manner and at close distances from one another, numerous anti-tank and anti-personnel mines whose brand, model and place of manufacture were not precisely known, set ambushes, and created extensive mined areas for the purposes of the said criminal organization.

After the said territory was liberated from occupation on **20 November 2020**, on **5 December 2023**, at around **12:00**, **Akparov Vaqif Sabir oglu**, a minesweeper of the 3rd section of the 2nd group of Detachment No. 2 of the Mine Action Agency of the Republic of Azerbaijan, was carrying out mine-clearance work there in connection with the performance of his official duties.

Page 146

Because he had been working for a long time in a semi-reclining position in accordance with the relevant instructions, when he stood up and attempted to move, he lost his balance and stepped backwards with his right foot, touching one of the mines. As a result of the explosion of a **PMN-type high-explosive anti-personnel mine**, he sustained a severe, life-threatening bodily injury, namely traumatic amputation of the upper one-third of the right lower leg. After hearing the sound of the explosion, his colleagues and medical personnel came to help him, provided first aid at the scene, and immediately transported him to hospital. Timely qualified medical assistance made it possible to save his life.

Furthermore, the members of the criminal organization (union), acting in accordance with the common criminal intent and purpose of the association and each of its members, as a result of the aggressive war they had launched against Azerbaijan, in **Kurdlar village of Fuzuli district**, which they had occupied by **23 August 1993**, during the period when they kept it under occupation, deliberately planted, in a planned manner and at close distances from one another, numerous anti-tank and anti-personnel mines whose brand, model and place of manufacture were not precisely known, set ambushes, and created extensive mined areas for the purposes of the said criminal organization.

After that territory was liberated from occupation on **17 October 2020**, **Hatamli Zamin Zahir oglu** was carrying out ploughing work for grain sowing on roadside areas cleared of mines by the Mine Action Agency of the Republic of Azerbaijan, on the section of the

Horadiz–Hadrut motor road passing through **Kurdlar village of Fuzuli district**. He was using a **New Holland TD 5.110** tractor, bearing state registration plate **30-AB-320**, belonging to the **Imishli Service Centre of the Ganja Automobile Plant Production Association**, which he operated under a lease agreement.

On **7 December 2023**, at around **11:00**, at geographical coordinates **39°28'51.00"N, 47°13'22.93"E**, while carrying out ploughing work, he drove the tractor toward an area that had not been cleared of mines and passed over one of them. As a result of the explosion of an anti-tank mine, he sustained injuries classified as **less serious harm to health**, namely a wound in the inner ankle area of the left foot; wounds on the posterior surface of the elbow joint accompanied by damage to the left ulnar nerve; and open, displaced, comminuted fractures of the left calcaneus. After hearing the sound of the explosion, his colleagues came to help him and transported him to hospital, where timely qualified medical assistance made it possible to save his life.

At the same time, the tractor he was operating was deformed by the explosion and the resulting fragments; its flammable parts caught fire and burned, rendering it unusable and destroying it. As a result, damage in the amount of **91,617 manat** was caused to the **Imishli Service Centre of the Ganja Automobile Plant Production Association**.

Furthermore, the members of the criminal organization (union), acting in accordance with the common criminal intent and purpose of the association and each of its members, as a result of the aggressive war they had launched against Azerbaijan, seeing that **Shusha city**, which they had occupied on **8 May 1992**, would be fully liberated by the Armed Forces of the Republic of Azerbaijan by **9 November 2020**, during the period from **27 September 2020** until its liberation on **9 November 2020**, while leaving those territories and with the purpose of continuing the aggressive war against Azerbaijan, deliberately planted, in a planned manner and at close distances from one another, numerous anti-tank and anti-personnel mines whose brand, model and place of manufacture were not precisely known, set ambushes, and created extensive mined areas for the purposes of the said criminal organization.

After those territories were fully liberated from occupation on **20 September 2023**, **Habibov Rahim Shirmammad oglu**, head of the Engineering-Geodesy Department of the Engineering Survey Directorate of **"Azerbaijan Scientific Research and Design-Survey Energy Institute" LLC**, was moving on foot and inspecting the area in connection with the performance of his official duties, for the purpose of planning the construction of the **Shusha–Khankendi 110 kV high-voltage overhead power line**, near the building of the workshop for the production of **tar** musical instruments, located at the northern edge of Shusha city.

On **7 December 2023**, at around **12:00**, when he passed over one of the mines, an explosion occurred. As a result, he sustained a complete post-traumatic stump of the upper one-third of the right lower leg and severe, life-threatening bodily injuries to various parts of his body.

He was immediately taken to hospital by his colleagues, and timely qualified medical assistance made it possible to save his life.

Furthermore, the members of the criminal organization (union), acting in accordance with the common criminal intent and purpose of the association and each of its members, in **Saricali village of Aghdam district**, which they had occupied by **23 July 1993**, during the period when they kept it under occupation, deliberately planted, in a planned manner and at close distances from one another, numerous anti-tank and anti-personnel mines whose brand, model and place of manufacture were not precisely known, set ambushes, and created extensive mined areas for the purposes of the said criminal organization.

After that territory was liberated from occupation on **20 November 2020**, on **26 December 2023**, at around **13:00**, **Mahmudov Zaur Eldar oglu**, a specialist of the explosive ordnance group of the Mine Action Agency of the Republic of Azerbaijan, was carrying out mine-clearance work there in connection with the performance of his official duties. After neutralising a large number of anti-personnel mines and completing the task assigned to him, he moved approximately **10 metres** away from the area. When he passed over one of the mines, namely a **PMN-E type anti-personnel mine**, an explosion occurred.

As a result, he sustained injuries classified as **less serious harm to health**, namely an open shrapnel displaced fracture of the left tarsal bones; swelling of the lower one-third of the left lower leg; infected shrapnel wounds to the lower one-third of the lower leg and heel area, and to the ankle and plantar areas of the left foot; mild bilateral sensorineural hearing loss; and blast trauma. After hearing the sound of the explosion, his colleagues came to help him and transported him to hospital, where timely qualified medical assistance made it possible to save his life.

Furthermore, the members of the criminal organization (union), acting in accordance with the common criminal intent and purpose of the association and each of its members, as a result of the aggressive war they had launched against Azerbaijan, in the area of **Aghdam district** known as **"Nargiz tapa"**, located on the border with **Mughanli and Kuropatkino villages of Khojavend district**, which they had occupied on **2 October 1992**, during the period when they kept it under occupation, deliberately planted, in a planned manner and at close distances from one another, numerous anti-tank and anti-personnel mines whose brand, model and place of manufacture were not precisely known, set ambushes, and created extensive mined areas for the purposes of the said criminal organization.

After that territory was liberated from occupation on **20 September 2023**, **Abishov Faiq Sayyab oglu**, a peaceful civilian resident of **Kurdlar village of Aghjabadi district**, travelled there on **24 January 2024**, at around **12:00**. Near former combat positions abandoned by Armenian servicemen, he stepped on an anti-personnel mine, causing an explosion. As a result, he sustained injuries classified as **serious harm to health**, namely life-threatening open comminuted fractures of the left lower leg, traumatic amputation of the first and second toes of the left foot, and other injuries. With the help of his relative **Sultanov Anar ali oglu**,

who witnessed the incident, he was transported by car to hospital, where timely qualified medical assistance made it possible to save his life.

Furthermore, the members of the criminal organization (union), acting in accordance with the common criminal intent and purpose of the association and each of its members, as a result of the aggressive war they had launched against Azerbaijan, in **Qiziloba village**, located in a large area in the direction of **Chilaburt village of Aghdara district**, which they had occupied in **April 1994** — the village was part of **Tartar district** from **13 October 1992** to **5 December 2023**, and since **5 December 2023** has again been part of **Aghdara district** — during the period when they kept it under occupation, deliberately planted, in a planned manner and at close distances from one another, numerous anti-tank and anti-personnel mines whose brand, model and place of manufacture were not precisely known, set ambushes, and created mined areas for the purposes of the said criminal organization.

After it was fully liberated from occupation on **9 October 2020**, **Aliyev Hasanali Shahin oglu**, a peaceful civilian resident of **Tartar city**, travelled there on **4 February 2024**, at around **11:00**. While walking on foot, he passed over one of the mines.

Page 148

As a result of the explosion, he sustained injuries classified as **serious harm to health**, namely life-threatening traumatic amputation of the lower one-third of the left lower leg and multiple shrapnel injuries to the right foot. His father was informed and he was immediately taken to hospital, where timely qualified medical assistance made it possible to save his life.

Furthermore, the members of the criminal organization (union), acting in accordance with the common criminal intent and purpose of the association and each of its members, as a result of the aggressive war they had launched against Azerbaijan, in **Goyarx village**, located in a large area in the direction of **Chilaburt village of Aghdara district**, which they had occupied in **April 1994** — the village was part of **Tartar district** from **13 October 1992** to **5 December 2023**, and since **5 December 2023** has again been part of **Aghdara district** — during the period when they kept it under occupation, deliberately planted, in a planned manner and at close distances from one another, numerous anti-tank and anti-personnel mines whose brand, model and place of manufacture were not precisely known, set ambushes, and created mined areas for the purposes of the said criminal organization.

After it was fully liberated from occupation on **9 October 2020**, **Mammadov Azar Ahmad oglu**, a peaceful civilian resident of **Tartar city**, travelled there on **5 February 2024**, at around **11:00**. While walking on foot, he passed over one of the mines, causing an explosion. As a result, he sustained injuries classified as **serious harm to health**, namely life-threatening traumatic amputation of the left lower limb at the level of the ankle/lower-leg joint. Timely qualified medical assistance made it possible to save his life.

Furthermore, the members of the criminal organization (union), acting in accordance with the common criminal intent and purpose of the association and each of its members, in **Seyidli**

village of Aghdam district, which they had occupied by **23 July 1993**, during the period when they kept it under occupation, deliberately planted, in a planned manner and at close distances from one another, numerous anti-tank and anti-personnel mines whose brand, model and place of manufacture were not precisely known, set ambushes, and created extensive mined areas for the purposes of the said criminal organization.

After the territory was liberated from occupation on **20 November 2020**, **Abbasov Baxtiyar Yaqub oglu**, a peaceful civilian resident of **Ahmadaghali village of Aghdam district**, travelled there on **3 March 2024**, at around **11:00**. While moving inside a trench abandoned by Armenian servicemen, he stepped on an anti-personnel mine, causing an explosion. As a result, he sustained injuries classified as **serious harm to health**, namely life-threatening traumatic amputation of the right thigh at the middle one-third level and of the left lower leg at the middle one-third level. With the help of his acquaintance **Bayramov Namiq Nemat oglu**, who witnessed the incident, he was transported by car to hospital, where timely qualified medical assistance made it possible to save his life.

Furthermore, the members of the criminal organization (union), acting in accordance with the common criminal intent and purpose of the association and each of its members, in **Saricali village of Aghdam district**, which they had occupied by **23 July 1993**, during the period when they kept it under occupation significant damage was caused to the Mine Action Agency of the Republic of Azerbaijan as a result of the front windshield and the right-side tracked metal chain of the armoured **LiuGong** excavator, bearing state registration plate **10-AC-827**, being broken and rendered unusable. Since the fragments produced by the explosion struck the metal parts of the excavator and were deflected away, they were unable to intentionally kill **Aliyev Xayyam Qambar oglu**, who was inside it.

Page 149

Furthermore, the members of the criminal organization (union), acting in accordance with the common criminal intent and purpose of the association and each of its members, as a result of the aggressive war they had launched against Azerbaijan, in **Chayli village**, in the direction of **Suqovushan village of Aghdara district**, a large area of which they had occupied in **April 1994** — the village was part of **Tartar district** from **13 October 1992 to 5 December 2023**, and since **5 December 2023** has again been part of **Aghdara district** — during the period when they kept it under occupation, deliberately planted, in a planned manner and at close distances from one another, numerous anti-tank and anti-personnel mines whose brand, model and place of manufacture were not precisely known, set ambushes, and created mined areas for the purposes of the said criminal organization.

After the area was fully liberated from occupation on **9 October 2020**, on **2 April 2024**, at around **15:00**, peaceful civilian residents of **Tartar district**, namely **Ismayilov Polad Alish oglu**, **Taghizada Arzuman Ahliman oglu**, and **Baghirov Elmin Elnur oglu**, travelled there. While they were walking on foot, the latter stepped on one of the mines, causing an explosion.

As a result, **Baghirov Elmin Elnur oglu** sustained injuries classified as **serious harm to health** and life-threatening, namely traumatic amputation of the lower one-third of the right thigh, traumatic amputation of the upper one-third of the left lower leg, and other injuries.

Taghizada Arzuman Ahliman oglu sustained injuries classified as **serious harm to health** and life-threatening, namely an open fracture of the right humerus, blast trauma, and multiple shrapnel wounds to the body.

Ismayilov Polad Alish oglu, who was relatively farther away from the epicentre of the explosion, sustained injuries classified as **minor harm to health**, namely superficial shrapnel wounds to the anterior parietal area, the right half of the forehead in the supraorbital area, the right lateral surface of the root of the nose, the right nostril, the right zygomatic area, the right temporal area, the entire posterior surface of the chest and abdomen; abrasions to the anterior surface of the left forearm and the outer surface of the middle one-third of the right upper arm; and severe contusion of the right eyeball.

Persons carrying out restoration and reconstruction work in those liberated territories heard the sound of the explosion, became aware of the incident, and promptly informed the emergency medical service and police officers. The injured persons were transported to hospital, and timely qualified medical assistance made it possible to save their lives.

Furthermore, the members of the criminal organization (union), acting in accordance with the common criminal intent and purpose of the association and each of its members, as a result of the aggressive war they had launched against Azerbaijan, in **Saricali village of Aghdam district**, which they had occupied by **23 July 1993**, during the period when they kept it under occupation, deliberately planted, in a planned manner and at close distances from one another, numerous anti-tank and anti-personnel mines whose brand, model and place of manufacture were not precisely known, set ambushes, and created extensive mined areas, as well as territories contaminated with mine detonators and other explosive devices capable of causing explosions and harming human health, for the purposes of the said criminal organization.

After the territory was liberated from occupation on **20 November 2020**, on **6 April 2024**, at around **09:00**, **Piriyev Anar Murshud oglu**, head of the 5th section of the 2nd mine-clearance group of Mine-Clearance Detachment No. 2 of the Mine Action Agency of the Republic of Azerbaijan, was carrying out mine-clearance work there in connection with the performance of his official duties. Seeing an unknown foreign object on the ground and not assuming that an explosion might occur, he bent down and picked up the mine detonator from the ground. An explosion occurred.

Because he was equipped with special gloves, a helmet and other personal protective equipment, he sustained injuries that did **not** constitute harm to health, namely a contused wound to the palmar surface of the proximal phalanx of the first finger of the right hand; multiple abrasions to the palmar surface of the proximal phalanx of the first finger and the palmar surface of the second phalanx of the second finger of the right hand; and abrasions to

the right knee joint and to the anterior and outer surfaces of the upper-middle one-third of the right lower leg.

Page 150

Furthermore, the members of the criminal organization (union), acting in accordance with the common criminal intent and purpose of the association and each of its members, as a result of the aggressive war they had launched against Azerbaijan, in **Sirxavand village of Aghdara district**, which they had occupied on **12 March 1992** — the village was part of **Aghdam district** from **13 October 1992 to 5 December 2023**, and since **5 December 2023** has again been part of **Aghdara district** — seeing that, as a result of the countermeasures carried out by the Armed Forces of the Republic of Azerbaijan against the large-scale aggressive attacks launched more actively from **27 September 2020**, that territory would be fully liberated on **20 September 2023**, during the period from **27 September 2020** until its liberation on **20 September 2023**, while leaving those territories and with the purpose of continuing the aggressive war against Azerbaijan, deliberately planted, in a planned manner and at close distances from one another, numerous anti-tank and anti-personnel mines whose brand, model and place of manufacture were not precisely known, set ambushes, and created mined areas for the purposes of the said criminal organization.

After the area was fully liberated from occupation on **20 September 2023**, on **12 April 2024**, at around **12:00**, peaceful civilian residents of **Aghdam district**, **Teymurov Xaqani Allahverdi oglu** and **Baghirov Mirfattah Baghir oglu**, travelled there. While walking in a pasture area in the village, approximately **50–60 metres** apart from one another, **Baghirov Mirfattah Baghir oglu** first stepped on one of the mines, causing an explosion. As a result, he sustained a life-threatening injury classified as **serious harm to health**, namely traumatic amputation of the left lower limb at the lower one-third level of the thigh.

Having heard the sound of the explosion, **Teymurov Xaqani Allahverdi oglu** moved toward him to help, but stepped on another mine, causing a second explosion. As a result, he sustained a life-threatening injury classified as **serious harm to health**, namely traumatic amputation of the left lower limb at the middle one-third level of the lower leg.

On the basis of information about their location provided by mobile phone, employees of the Mine Action Agency of the Republic of Azerbaijan, police officers and emergency medical personnel immediately arrived in the area, evacuated them to a safe area and ensured that they were transported to hospital. Timely qualified medical assistance made it possible to save their lives.

The military-political leadership of the Republic of Armenia, including its armed forces and other unlawful armed formations, as well as members of the criminal organization unlawfully operating in the territory of the Republic of Azerbaijan in violation of domestic and international law, and members of its structural unit — armed formations equipped with various types of firearms, ammunition, military equipment and other weapons — acting on the basis of the direct material, technical and personnel support provided by the former,

centralized management, oral and written assignments, instructions and orders, and under their strict supervision, acted for the purpose of implementing the criminal plan encompassed by the common criminal intent of each member of the criminal organization.

As a result of the large-scale aggressive war they had launched against Azerbaijan, in the sovereign territories of the Republic of Azerbaijan occupied during **1987–1994**, along the line of contact they had created, and also while leaving territories liberated from occupation as a result of the countermeasures carried out by the Armed Forces of the Republic of Azerbaijan from **27 September 2020**, pursuant to the trilateral Statement signed on **10 November 2020**, and as a result of the local anti-terrorist operations of **19–20 September 2023**, they acted with the purpose of preventing and making impossible the return of the Azerbaijani civilian population and servicemen to those territories by killing them by a generally dangerous method; creating fear and panic among the population by causing explosions; continuing military aggression by seeking to return those territories under occupation by such means; and pursuing other criminal purposes.

In doing so, they grossly violated the **United Nations Convention of 10 October 1980 on Prohibitions or Restrictions on the Use of Certain Conventional Weapons Which May Be Deemed to Be Excessively Injurious or to Have Indiscriminate Effects**

Page 151

the **First, Second and Third Additional Protocols** to that Convention; the **Convention of 3 December 1997 on the Prohibition of the Use, Stockpiling, Production and Transfer of Anti-Personnel Mines and on Their Destruction**; Article 6 of the **International Covenant on Civil and Political Rights**, adopted by the United Nations General Assembly on **16 December 1966**, according to which "no one shall be arbitrarily deprived of his life"; Article 3 of the **Geneva Convention of 12 August 1949 relative to the Protection of Civilian Persons in Time of War**, ratified on **7 June 1993**, according to which "violence to life and person, in particular murder of all kinds, mutilation and bodily injury, shall be prohibited at any time and in any place with respect to persons taking no active part in hostilities"; and Article 51 of **Additional Protocol I of 8 June 1977** to the Geneva Conventions of 12 August 1949 relating to the protection of victims of international armed conflicts, ratified on the same date, according to which "the civilian population as such, as well as individual civilians, shall not be the object of attack."

They also grossly violated the provisions of the **Ottawa Convention of 3 December 1997 on the Prohibition of the Use, Stockpiling, Production and Transfer of Anti-Personnel Mines and on Their Destruction**, and the **Protocol on Prohibitions or Restrictions on the Use of Mines, Booby-Traps and Other Devices**, annexed to the **Convention of 10 October 1980 on Prohibitions or Restrictions on the Use of Certain Conventional Weapons Which May Be Deemed to Be Excessively Injurious or to Have Indiscriminate Effects**.

In the territories of **Aghdam, Jabrayil, Fuzuli, Aghdara, Goranboy, Kalbajar, Lachin, Qubadli, Khojavend, Zangilan, Shusha, Khojaly, Khankendi, Tartar, Tovuz,**

Dashkasan and other districts, they repeatedly and on dates not precisely established deliberately planted, in a planned manner, numerous anti-personnel mines manufactured in Armenia of the **PMN-E**, **PMN G001-M**, **E-001M**, **PMN-G** and **PMN-2** types; anti-tank mines manufactured in Russia of the **TM-62M**, **TM-62P2**, **TM-57** and **TM-62R** types; and many anti-tank and anti-personnel mines whose model and place of manufacture were not precisely known. By placing explosive ordnance and devices, they set ambushes and created mined areas for the purposes of the said criminal organization. The Republic of Armenia, at state level, refused to provide the Republic of Azerbaijan with information and documents concerning mined areas.

After the Statement of **10 November 2020** by the President of the Republic of Azerbaijan, the Prime Minister of the Republic of Armenia and the President of the Russian Federation, and until **20 April 2024**, civilians and servicemen of the Republic of Azerbaijan who visited liberated territories were subjected to explosions of buried mines. As a result, a total of **271 persons** — **155 servicemen** and **116 peaceful civilians** of the Republic of Azerbaijan — sustained bodily injuries of varying degrees, and a total of **65 persons** — **17 servicemen** and **48 civilians** — were intentionally killed.

At the same time, after the trilateral Statement of **10 November 2020** and until **22 April 2024**, the Ministry of Defence of the Republic of Azerbaijan, the Azerbaijan National Agency for Mine Action (**ANAMA**), the Ministry of Emergency Situations, the State Border Service, as well as the mine-clearance companies **"Alphademining," "Azerbaijan Demining," "Qaya Safety Solutions"** and **"Safe Point"**, discovered and neutralised in the liberated territories the following mines and unexploded ordnance belonging to the Armed Forces of the Republic of Armenia:

in **Aghdam district**, **9,222 anti-personnel mines**, **6,112 anti-tank mines**, and **10,053 items of unexploded ordnance**;

in **Aghdara district**, **4 anti-personnel mines**, **38 anti-tank mines**, and **932 items of unexploded ordnance**;

in **Jabrayil district**, **4,887 anti-personnel mines**, **2,856 anti-tank mines**, and **10,259 items of unexploded ordnance**;

in **Fuzuli district**, **8,911 anti-personnel mines**, **5,723 anti-tank mines**, and **21,234 items of unexploded ordnance**;

in **Qubadli district**, **835 anti-personnel mines**, **1,504 anti-tank mines**, and **1,304 items of unexploded ordnance**;

in **Tartar district**, **2,409 anti-personnel mines**

1,507 anti-tank mines, and **2,525 items of unexploded ordnance**;

in **Khankendi district**, **4,859 anti-personnel mines**, **112 anti-tank mines**, and **172 items of unexploded ordnance**;

in **Khojaly district**, **72 anti-personnel mines**, **1 anti-tank mine**, and **1,886 items of unexploded ordnance**;

in **Khojavend district**, **77 anti-personnel mines**, **196 anti-tank mines**, and **7,528 items of unexploded ordnance**;

in **Zangilan district**, **925 anti-personnel mines**, **510 anti-tank mines**, and **1,161 items of unexploded ordnance**;

in **Tovuz district**, **2 anti-personnel mines**;

in **Kalbajar district**, **1,434 PMN-2 and PMN-E high-explosive anti-personnel mines**, of which **50** were manufactured in the Republic of Armenia in **2018**, **312** in **2019**, and **740** in **2021**; **322 Russian-made TM-57, TM-62P2 and TM-62M anti-tank mines** of unknown year of manufacture; and **2,131 items of unexploded ordnance**;

in **Lachin district**, **2,113 PMN-2 and PMN-E high-explosive anti-personnel mines**, of which **1** was manufactured in the Republic of Armenia in **2012** and **2,021** in **2021**; **43 Russian-made TM-62P2 and TM-62M anti-tank mines** of unknown year of manufacture; and **162 items of unexploded ordnance**;

in **Shusha district**, **116 PMN-E high-explosive anti-personnel mines**, of which **20** were manufactured in the Republic of Armenia in **2021**; **13 Russian-made TM-62P2 anti-tank mines** of unknown year of manufacture; and **2,445 items of unexploded ordnance**;

in **Dashkasan district**, **796 anti-personnel mines**, including **613 PMN-E and PMN-2 high-explosive anti-personnel mines** manufactured in the Republic of Armenia in **2016**, and **5 OZM-72E mines** manufactured in the Republic of Armenia with an unknown year of manufacture; as well as **4 Russian-made TM-62M anti-tank mines** of unknown year of manufacture.

In total, **31,964 anti-personnel mines**, **19,110 anti-tank mines**, and **67,204 items of unexploded ordnance** were discovered and neutralised.

Thus, the military-political leadership of the Republic of Armenia, including its armed forces and other unlawful armed formations, as well as members of the criminal organization unlawfully operating in the territory of the Republic of Azerbaijan in violation of domestic and international law, and members of its structural unit — armed formations equipped with various types of firearms, ammunition, military equipment and other weapons — acting on the basis of the direct material, technical and personnel support provided by the former, centralized management, oral and written assignments, instructions and orders, and under their strict supervision, acted in accordance with the criminal plan encompassed by the common criminal intent of each member of the criminal organization.

By these acts, they contaminated **1,166,702 hectares** — **11,667,020,000 square metres** — of sovereign territories of the Republic of Azerbaijan occupied as a result of the aggressive war, during the period from **September 1988 to 20 September 2024**, with at least **1,087,226 anti-tank and anti-personnel mines**, as well as other unexploded ordnance. As a result, they caused material damage to the Republic of Azerbaijan in the total amount of at least **26,603,033,593 manats**, including at least **25,189,096,180 manats** required to clear those territories of the said contamination and restore access to them, and at least **1,413,937,413 manats** required to neutralise the ordnance.

Furthermore, the members of the criminal organization and of the armed formations constituting its structural unit, continuing their criminal acts in accordance with the common criminal intent and purposes of the criminal association, set an ambush in the territory of **Shahyeri village of Khojavend district**, which had been liberated from the occupation of the Republic of Armenia on **9 November 2020**, and hid in one of the houses.

On **8 December 2020**, at around **14:00**, warrant officers of military unit No. "N" of the Ministry of Defence, **Azizov Raqib Vidadi oglu** and **Quliyev Elchin Ziyadxan oglu**, who had been deployed in that area and were performing their official duties to protect the territorial integrity and public security of the Republic of Azerbaijan, entered the yard of the ambush house located in the centre of the village.

At that moment, the members of the criminal organization came out from their hiding place and opened numerous shots with **5.45 mm and 7.62 mm automatic firearms**.

As a result, **Raqib Azizov** sustained life-threatening injuries classified as **serious harm to health**, namely a gunshot wound causing diffuse destruction of the brain accompanied by open comminuted fractures of the skull vault bones, and was intentionally killed.

Elchin Quliyev, seeing that warrant officer Raqib azizov had been killed, moved away from the area, hid in the snow, and called his fellow servicemen for help by mobile phone. Since additional forces arrived in the area, the perpetrators were unable to intentionally kill **Elchin Quliyev** and fled from there.

Furthermore, the members of the criminal organization and of the armed formations constituting its structural unit, continuing their criminal acts in accordance with the common criminal intent and purposes of the criminal association, on **12 December 2020**, at around **01:00**, while hiding at a position near the height known as **"Ziyaratgah"** in the territory of **Jabrayil district** of the Republic of Azerbaijan, opened fire from their positions using firearms of unknown brand and model.

As a result, servicemen of military unit No. "N" of the Ministry of Defence, who were performing their official duties to protect the territorial integrity and public security of the Republic of Azerbaijan, sustained the following injuries:

Junior sergeant Huseynov Azar Mahal oglu sustained life-threatening injuries classified as **serious harm to health**, namely bodily injuries accompanied by acute internal blood loss resulting from gunshot wounds to the organs of the chest and abdominal cavities.

Soldier Abbasov Avaz Mayis oglu sustained life-threatening injuries classified as **serious harm to health**, namely bodily injuries accompanied by acute blood loss resulting from gunshot wounds to the organs of the chest cavity.

Thus, they intentionally killed the two servicemen.

Other servicemen serving at that height sustained injuries:

Soldier Cavadov Xayyam Zafar oglu sustained a life-threatening gunshot wound classified as **serious harm to health**, namely a penetrating injury of the left eye accompanied by disruption of the integrity of the left eyeball.

Captain Baghiyev Rashad Qudrat oglu, commander of the assault group, sustained gunshot wounds consisting of a through-and-through injury to the soft tissues of the middle one-third of the right lower leg, and a grazing wound to the left lower leg.

Soldier Habibov Nicat Mahir oglu sustained a gunshot wound to the left foot accompanied by an open, slightly displaced fracture of the second metatarsal bone, classified as **less serious harm to health** causing long-term impairment of health.

Soldier Imamaliyev Farid Cabir oglu sustained through-and-through gunshot wounds to the right thigh and right upper arm.

Soldier Babayev Abbas Yadulla oglu sustained a single blind shrapnel wound to the left groin area, not penetrating into the abdominal cavity.

Soldier Mammadov Elcan Elbrus oglu sustained gunshot injuries classified as **minor harm to health**, causing short-term impairment of health, accompanied by concussion of the brain.

Since the six servicemen entered shelter in time and were provided with qualified medical assistance, the perpetrators were unable to intentionally kill them.

Furthermore, the members of the criminal organization and of the armed formations constituting its structural unit, continuing their criminal acts in accordance with the common criminal intent and purposes of the criminal association, on **13 December 2020**, at around **16:00**, fired from a firearm at **Rahimov Sabuhi Zahid oglu**, a soldier of military unit No. "N" of the Ministry of Defence, while he was loading firewood into the cargo section of a **MAZ** vehicle belonging to the military unit in the territory of **Qarabulaq village of Khojaly district**.

They caused him a gunshot injury classified as **less serious harm to health**, causing long-term impairment of health, namely a through-and-through gunshot wound to the anterior surface of the lower one-third of the right lower leg, resulting in a displaced fracture of the

right tibia. Since **Sabuhi Rahimov** was evacuated to a military hospital and provided with qualified medical assistance, it was possible to save his life; therefore, they were unable to intentionally kill him.

Furthermore, the members of the criminal organization and of the armed formations constituting its structural unit, continuing their criminal acts in accordance with the common criminal intent and purposes of the criminal association, on **23 December 2020**, at around **00:15**

Page 154

fired, from the direction of armed combat positions established by them in neighbouring territories which they at that time kept under occupation, with firearms whose brand and model were not precisely known, at the building of Road Maintenance Department No. 55 of the Azerbaijan State Agency of Automobile Roads, located in the territory of **Chapli village of Kalbajar district of the Republic of Azerbaijan**, and at the workers staying in that building.

As a result, they attempted to intentionally kill the workers of Road Maintenance Department No. 55 of the Azerbaijan State Agency of Automobile Roads, namely **Nacafov Mahammad Farman oglu**, **Kamalov Aqil alasdan oglu**, **Aliyev Aydin Allahverdi oglu**, **Camilov Mubariz Huseyn oglu**, **Kamalov Oktay Aqil oglu**, **Ughurluyev Parvin Chingiz oglu**, **Mamishov Nemat Qalandar oglu**, **Abdullayev Shamo Elburus oglu**, **asgarov Azar azim oglu**, **Ismayilov Qashqay Aydin oglu**, **Ismayilov Vidadi Huseyn oglu**, and **Qahramanov Eldost Kochari oglu**.

As a result of measures taken by servicemen of the Internal Troops of the Ministry of Internal Affairs and officers of the Kalbajar District Police Department who were serving in the area, the members of that group were driven away from the scene, and it was thus possible to save the lives of the peaceful civilian workers.

Furthermore, the members of the criminal organization and of the armed formations constituting its structural unit, continuing their criminal acts in accordance with the common criminal intent and purposes of the criminal association, on **27 December 2020**, at around **15:00**, hid in a civilian house located in the territory of **Ataqut village of Khojavend district** of the Republic of Azerbaijan. From that house, they opened fire with **5.45 mm AK-74 Kalashnikov-type firearms**, factory-produced in **1986** at the **Izhevsk Mechanical Plant**, serial numbers **4337283** and **1185383**, at **soldier Qambarov Elmir Rayil oglu**, an extended active-duty serviceman of the headquarters and supply company of military unit No. “N” of the Ministry of Defence, who was performing his official duties to protect the territorial integrity and public security of the Republic of Azerbaijan.

As a result, **Elmir Qambarov** sustained a penetrating gunshot wound to the chest area, damaging internal organs and constituting, in its totality, **serious harm to health** and danger to life. He was intentionally killed at the scene.

Thereafter, they also opened fire on the evacuation group created by the military-unit command and sent to the scene. As a result, extended active-duty servicemen of military unit No. “N” — **soldier Aliyev Emin Suleyman oglu** — sustained gunshot wounds to the back and right knee area constituting **serious harm to health** dangerous to life, while **sergeant Rahimov Ramil ali oglu** sustained gunshot wounds to both hands constituting **less serious harm to health** causing long-term impairment of health. Since both servicemen were evacuated to hospital No. “N” and provided with qualified medical assistance, the perpetrators were unable to intentionally kill them.

Furthermore, the members of the criminal organization and of the armed formations constituting its structural unit, continuing their criminal acts in accordance with the common criminal intent and purposes of the criminal association, on the night leading into **20 May 2021**, at around **01:00**, approached the combat positions located around **Lake Qaragol** in the territory of **Lachin district** of the Republic of Azerbaijan. Under the pretext of allegedly peacefully clarifying border disputes, and after making sure that the number of soldiers at the post was many times smaller than their own number, they used physical violence against them, beating them with the metal and wooden stocks of various firearms, wooden pieces, fists, kicks, various cutting-piercing objects and other items, and demanded that they abandon the combat positions established on the part belonging to the territory of the Republic of Azerbaijan.

As a result, at the observation point of the combat position in mountainous terrain, the following servicemen of military unit No. “N” of the Ministry of Defence, who were performing their official duties to protect the territorial integrity and public security of the Republic of Azerbaijan, sustained injuries:

Nacafov Zahid Abdulla oglu, serving with the rank of first lieutenant as head of the tactical command post of the headquarters company, sustained bruising of the soft tissues of the occipital part of the head, which did not constitute harm to health.

Page 155

Ahmadov Samir Elshan oglu, serving with the rank of soldier as rifleman of the support squad of the 5th group of the 1st battalion, sustained a contused wound to the back area, which did not constitute harm to health.

Ankbazov Abdulla Ramazan oglu, serving with the rank of soldier as rifleman of the support squad of the 1st battalion, sustained an abrasion of the right cheek resulting in pigmentation, which did not constitute harm to health.

Muradov Elvin Vaqif oglu, serving with the rank of soldier as rifleman-medic of the support squad of the 1st battalion, sustained a chopped wound to the left frontal half of the head, classified as **minor harm to health** causing short-term impairment of health.

Abdullazada Abdulla Abutalib oglu, serving with the rank of medical-service first lieutenant as head of medical service, sustained closed craniocerebral trauma accompanied by bruising of the soft tissues of the occipital part of the head, which did not constitute harm to health.

Oruczada Kamandar Sarxan oglu, serving with the rank of warrant officer as scout of the 5th group of the 1st battalion, sustained closed craniocerebral trauma, which did not constitute harm to health.

Taghiyev Vusal Musa oglu, serving with the rank of major as commander of the 2nd group of the 1st battalion, sustained bruising of the soft tissues of the occipital part of the head, which did not constitute harm to health.

Huseynov Kamran Namiz oglu, serving with the rank of first lieutenant as senior scout of the 6th group of the 1st battalion, sustained bruising of the soft tissues of the right ear and the occipital part of the head, which did not constitute harm to health.

Allahverdiyev Elmin Tahir oglu, serving with the rank of junior warrant officer as scout of the 5th group of the 1st battalion, sustained bruising of the soft tissues of the occipital part of the head, which did not constitute harm to health.

Mammadov Samir Sanan oglu, serving with the rank of junior warrant officer as scout of the 6th group of the 1st battalion, sustained bruising of the soft tissues of the occipital part of the head, which did not constitute harm to health.

Ibrahimov alimuxtar Gulagha oglu, serving with the rank of senior warrant officer as scout of the 3rd group of the 1st battalion, sustained closed craniocerebral trauma and concussion of the brain, which did not constitute harm to health.

Qasimov Nuran Sabir oglu, serving with the rank of warrant officer as scout of the 2nd group of the 1st battalion, sustained closed craniocerebral trauma, which did not constitute harm to health.

Karimli Royal Baxtiyar oglu, serving with the rank of warrant officer as scout of the 6th group of the 1st battalion, sustained bruising of the soft tissues of the occipital part of the head, which did not constitute harm to health.

Salimov Elvin Islam oglu, serving with the rank of junior warrant officer as scout of the 6th group of the 1st battalion, sustained bruising of the soft tissues of the occipital part of the head, which did not constitute harm to health.

Kazimli Shamsi Xalid oglu, serving with the rank of first lieutenant as deputy commander of the 2nd group of the 1st battalion, sustained bruising of the soft tissues of the occipital part of the head, which did not constitute harm to health.

Sariyev Kanan Araz oglu, serving with the rank of extended active-duty soldier as scout of the 4th group of the 1st battalion, sustained bruising of the soft tissues of the occipital part of the head and a contused wound to the left upper limb, which did not constitute harm to health.

Koroghluyev Tural Cavanshir oglu, serving with the rank of first lieutenant as deputy commander of the 2nd group of the 1st battalion, sustained an abrasion of the middle one-third of the left upper arm resulting in pigmentation, which did not constitute harm to health.

Mammadov Mustafa Imran oglu, serving with the rank of extended active-duty soldier as scout of the 6th group of the 1st battalion, sustained bruising of the soft tissues of the occipital part of the head, which did not constitute harm to health.

Axundov Azad Azar oglu, serving with the rank of first lieutenant as deputy commander / senior scout of the 3rd group of the 1st battalion, sustained bruising of the soft tissues of the occipital part of the head, which did not constitute harm to health.

Hasanli Umid Qachay oglu, serving with the rank of junior warrant officer as scout of the 5th group of the 1st battalion, sustained bruising of the soft tissues of the occipital part of the head, which did not constitute harm to health.

Heydarov Orxan Zeynal oglu, serving with the rank of junior warrant officer as scout of the 4th group of the 1st battalion, sustained a hematoma of the thigh and lower-leg areas of the left leg, which did not constitute harm to health.

Page 156

Baylarov asgar ali oglu, serving with the rank of junior warrant officer as scout of the 1st group of the 1st battalion, sustained bruising of the soft tissues of the parietal part of the head, which did not constitute harm to health.

Abdullazada Hasrat Elshan oglu, serving with the rank of junior warrant officer as scout of the 1st group of the 1st battalion, sustained bruising of the soft tissues of the parietal part of the head, which did not constitute harm to health.

Aliyev Panah Xaladdin oglu, serving with the rank of warrant officer as scout of the 5th group of the 1st battalion, sustained bruising of the soft tissues of the occipital part of the head, which did not constitute harm to health.

Quliyev Vusal Vuqar oglu, serving with the rank of warrant officer as scout of the 3rd group of the 1st battalion, sustained a contused wound to the back and bruising of the soft tissues of the occipital part of the head, which did not constitute harm to health.

Huseynzada Zakariyya Akif oglu, serving with the rank of junior warrant officer as scout of the 6th group of the 1st battalion, sustained bruising of the soft tissues of the occipital part of the head, which did not constitute harm to health.

Chalabiyev Sardar Shukur oglu, serving with the rank of junior warrant officer as scout of the 5th group of the 1st battalion, sustained bruising of the soft tissues of the occipital part of the head, which did not constitute harm to health.

Cahangirov Hidayat Farhad oglu, serving with the rank of first lieutenant as deputy commander of the 5th group of the 1st battalion, sustained bruising of the soft tissues of the occipital part of the head, which did not constitute harm to health.

Hacimammadov Shirxan Shohrat oglu, serving with the rank of warrant officer as scout of the 5th group of the 1st battalion, sustained a contused wound to the back area, which did not constitute harm to health.

Shahpalangov Anar Elshad oglu, serving with the rank of warrant officer as scout of the 6th group of the 1st battalion, sustained bruising of the soft tissues of the occipital part of the head, which did not constitute harm to health.

Babirli Asif Oktay oglu, serving with the rank of warrant officer as head of the medical point of the 1st battalion, sustained bruising of the soft tissues of the occipital part of the head, which did not constitute harm to health.

The above persons also sustained other injuries. **Sultanli Kamran Firudin oglu**, serving with the rank of first lieutenant as deputy group commander of the 3rd battalion, did not sustain injuries. Thus, a total of **32 servicemen** saved their lives because they were able to defend themselves during the attack. The servicemen of the Armed Forces of the Republic of Armenia who attacked the combat positions were unable to seize the positions and retreated.

Furthermore, the members of the criminal organization and of the armed formations constituting its structural unit, continuing their criminal acts in accordance with the common criminal intent and purposes of the criminal association, during the period from **06:00 to 08:00 on 25 May 2021**, with the intention of seizing the combat position conventionally called **"Tanker-5"** of military unit No. "N" of the Ministry of Defence, located in the territory of **Zar village of Kalbajar district**, liberated from occupation, crossed the state border of the Republic of Azerbaijan from the direction of that village while armed with various firearms.

Under the pretext of allegedly peacefully clarifying border disputes, they approached the servicemen performing their official duties at that position. After making sure that the number of soldiers at the post was many times smaller than their own number, they attacked them and used violence against **Captain Yusifov Ilkin Salim oglu**, assistant to the battalion chief of staff for material and technical support, and soldiers **Imanov ali Shaiq oglu**, **Humbatov Adil Nadir oglu**, **Huseynov Camal Bahram oglu**, **Suleymanov Kamil Aslan oglu**, and **Qasimov Arif Samandar oglu**, striking various parts of their bodies numerous times with fists, kicks and the metal-covered helmets on their heads. Fearing the possible arrival of additional forces, they immediately left the area.

Furthermore, the members of the criminal organization and of the armed formations constituting its structural unit, continuing their criminal acts in accordance with the common criminal intent and purposes of the criminal association, on **11 June 2021**, **junior sergeant Musayev Feyruz Mahammad oglu**, an extended active-duty serviceman of military unit No. "N" of the Ministry of Defence, bulldozer operator of the 1st squad of the 2nd platoon of the 1st engineering-road company, was carrying out engineering works with a **Caterpillar D-6R** bulldozer, bearing military plate **H 830 QQ**, assigned to him and belonging to military unit No. "N", near **height 3335** close to **Zar village of Kalbajar district**

Page 157

when he was fired upon with firearms from a combat position located in the territory of the Republic of Armenia. Although **Feyruz Musayev** acted quickly and saved his life by hiding in a shelter in the area, the rear window of the **Caterpillar D-6R** bulldozer bearing military plate **H 830 QQ** was pierced, and the rear part of the cabin seat and other parts were damaged by bullets, thereby causing material damage to military unit No. "N".

Furthermore, the members of the criminal organization and of the armed formations constituting its structural unit, continuing their criminal acts in accordance with the common criminal intent and purposes of the criminal association, after the large-scale aggressive attacks launched more actively from **27 September 2020** had been repelled by the Armed Forces of the Republic of Azerbaijan through countermeasures, in **Yellica village of Kalbajar district**, liberated from occupation, on **11 June 2021**, at approximately **16:00–17:00**, **junior sergeant Tamcidi Asif Azar oglu**, an extended active-duty serviceman and bulldozer operator of the 3rd engineering-road squad of the 1st engineering-road platoon of the 1st engineering-road company of military unit No. "N" of the Ministry of Defence, was performing his official duties with a **New Holland** engineering vehicle bearing military plate **H175QQ**, assigned to him and belonging to military unit No. "N", digging a trench in order to protect against the threat of armed attack by Armenian armed formations.

At that time, he was fired upon with large-calibre machine guns of unknown brand and model from the direction of **Basarkechar district** of the Republic of Armenia. As a result, the **New Holland** engineering vehicle bearing military plate **H175QQ** was partly rendered unusable. Since **Asif Tamcidi** acted quickly during the attack and took shelter in a trench dug beforehand, the perpetrators were unable to intentionally kill him.

Furthermore, the members of the criminal organization and of the armed formations constituting its structural unit, continuing their criminal acts in accordance with the common criminal intent and purposes of the criminal association, on **6 July 2021**, at around **17:45**, fired with firearms of unknown brand and model from combat positions located in the territory of **Aghdara district**, which they kept under occupation, at the supply-evacuation road leading to combat position No. **24** of the **12th company of the 4th battalion** of military unit No. "N" of the Ministry of Defence, located in the territory of **Aliaghali village of Aghdam district**.

As a result, **Dadashov Sakit Ahliman oglu**, senior technician of the engineering-road unit of military unit No. "N" of the Ministry of Defence, serving with the rank of senior warrant officer and performing his official duties to protect the territorial integrity and public security of the Republic of Azerbaijan, sustained a gunshot wound to the intestinal area penetrating the internal organs, classified as **serious harm to health and dangerous** to life. However, since he was provided with qualified medical assistance in time, it was possible to save his life; that is, the perpetrators were unable to intentionally kill him.

Furthermore, the members of the criminal organization and of the armed formations constituting its structural unit, continuing their criminal acts in accordance with the common criminal intent and purposes of the criminal association, on **14 July 2021**, at around **10:30**, fired with weapons of unknown brand and model from positions located in **Ararat / Aghri district** of the Republic of Armenia at the observation point located in the area of the position conventionally called **"Mil-1"** of military unit No. "N" of the Ministry of Defence, situated in the territory of **Sadarak district of the Nakhchivan Autonomous Republic** of the Republic of Azerbaijan.

As a result, **soldier Mardanli Ibadulla Mahsud oglu**, who was at the observation point performing his official duties to protect the territorial integrity and public security of the Republic of Azerbaijan, sustained a combined gunshot wound to the head and right shoulder girdle. The injury consisted of a through-and-through wound to the right half of the upper lip and the right submandibular neck area, a grazing wound to the right shoulder, and fractures of the jaw and right scapular bones, and was classified as **less serious harm to health** causing long-term impairment of health. Since he was provided with qualified medical assistance in time, the perpetrators were unable to intentionally kill him.

Furthermore, unidentified members of the criminal organization, acting in accordance with the same intent and purposes of the criminal organization, for the implementation of the criminal plan encompassed by the common criminal intent

namely, to continue the aggressive war they had launched against the Republic of Azerbaijan, to ensure that the territories they had occupied remained under their control, to kill Azerbaijanis on the grounds of the national-ethnic hatred and hostility they had formed in Armenian society, and for other criminal purposes — as a result of the fire opened on **14 July 2021**, at around **10:30**, in the direction of the **"Mil-1"** post of military unit No. "N" of the Ministry of Defence, located in the territory of **Sadarak district of the Nakhchivan Autonomous Republic** of the Republic of Azerbaijan, a fire broke out in that area.

On **14 July 2021**, at around **15:00**, while performing his official duties and extinguishing the fire, **Ahmadli Elvin Sudeyf oglu**, head of the on-duty firefighting service of the Sadarak District State Fire Safety Department of the Ministry of Emergency Situations of the Nakhchivan Autonomous Republic, holding the rank of internal-service major, was also fired upon from the same positions with weapons of unknown brand and model. As a result, **Elvin**

Ahmadli sustained a single gunshot wound to the right shoulder and right scapular/back area, classified as **less serious harm to health** causing long-term impairment of health. Since qualified medical assistance was provided in time, the perpetrators were unable to intentionally kill him.

Furthermore, the members of the criminal organization and of the armed formations constituting its structural unit, continuing their criminal acts in accordance with the common criminal intent and purposes of the criminal association, on **16 July 2021**, at around **08:00**, fired with automatic-type weapons of unknown brand and model from opposing combat positions located in the territory of the Republic of Armenia at the combat position conventionally called **"Mil-1"**, located in the territory of **Sadarak district of the Nakhchivan Autonomous Republic** of the Republic of Azerbaijan.

As a result, **soldier Aghayev Mustafa Rasim oglu** of military unit No. "N" of the Ministry of Defence, who was performing his official duties at the post to protect the territorial integrity and public security of the Republic of Azerbaijan, sustained gunshot-related injuries when a bullet struck the pipe of the metal observation tower intended for ejecting spent cartridge cases and fragmented. During the explosion, including as a result of the bullet fragmentation, he sustained multiple blind shrapnel wounds to the face, neck and dorsal surface of the left hand, accompanied by partial fractures of the crowns of the upper left first and second teeth and the lower left second tooth. These injuries were classified as **minor harm to health** causing short-term impairment of health. Since he lay down in the trench and avoided the bullets, he was able to save his life, and the perpetrators were unable to intentionally kill him.

Furthermore, the members of the criminal organization and of the armed formations constituting its structural unit, continuing their criminal acts in accordance with the common criminal intent and purposes of the criminal association, on **17 July 2021**, at around **09:00**, fired with firearms of unknown brand and model from combat positions located in the **Ararat / Aghri province** of the Republic of Armenia at the position conventionally called **"Mil-1"** of military unit No. "N" of the Ministry of Defence, located in the territory of **Sadarak district of the Nakhchivan Autonomous Republic**of the Republic of Azerbaijan.

As a result, **soldier Mammadov Orxan Xeyraddin oglu** of military unit No. "N" of the Ministry of Defence, who was performing his official duties at the post to protect the territorial integrity and public security of the Republic of Azerbaijan, sustained a gunshot wound to the left lower leg along the wound canal.

In addition, the criminal organization and the members of its structural units, continuing their criminal acts in accordance with the common criminal intent and goals of the criminal organization, fired on the position of military unit "N" of the Ministry of Defense of the Republic of Azerbaijan, conventionally called "Vagon-2" and located in the Sadarak district of the Nakhchivan Autonomous Republic of Azerbaijan, with firearms of unknown make and model from combat positions located in the Ararat (Agri) region of the Republic of Armenia on July 19, 2021.

As a result, the company commander of military unit "N" of the Ministry of Defense, **Badalli Ramal Bahlul oglu**, who was performing his duties to protect the territorial integrity and public security of the Republic of Azerbaijan, sustained a bullet wound constituting less serious harm to health, accompanied by a penetrating injury to the soft tissues of the middle one-third of the left calf, which caused a long-term deterioration of his health. However, due to his ability to dodge the bullets and the timely provision of qualified medical assistance, it was possible to save his life; therefore, they were unable to intentionally kill him.

Furthermore, the members of the criminal organization and of the armed formations constituting its structural unit, continuing their criminal acts in accordance with the common criminal intent and purposes of the criminal association, on **23 July 2021**, at around **16:00**, fired with firearms of unknown brand and model at the combat position conventionally called **"Ertugrul"** of the 10th company of the 4th battalion of military unit No. "N" of the Ministry of Defence, located in the Kalbajar **district** of the Republic of Azerbaijan.

As a result, **Yagublu Farman Telman oglu**, serving with the rank of warrant officer as deputy commander of the 2nd anti-tank platoon / commander of the grenade-launcher squad of the anti-tank company of that military unit, who was performing his official duties at the post to protect the territorial integrity and public security of the Republic of Azerbaijan, sustained a gunshot wound to the chest area penetrating into the body and accompanied by acute blood loss. This injury was classified as **serious harm to health** and life-threatening. He was intentionally killed at the scene.

Furthermore, the members of the criminal organization and of the armed formations constituting its structural unit, continuing their criminal acts in accordance with the common criminal intent and purposes of the criminal association, on **28 July 2021**, at around **01:00**, fired numerous shells and rounds from firearms and mortars of unknown brand and model from positions located in the direction of **Zod** and **Narimanli** villages of **Vardenis / Basarkechar district** of the Republic of Armenia at the defence posts conventionally called **"K-1"**, **"K-3"**, **"K-4"** and **"Ertugrul"** of military unit No. "N" of the Ministry of Defence, located in the direction of **Kalbajar district** of the Republic of Azerbaijan.

As a result, at the combat position, the following servicemen of that military unit, who were performing their official duties to protect the territorial integrity and public security of the Republic of Azerbaijan, sustained injuries:

Aliyev Sadig Nizami oglu, serving with the rank of major as section chief, sustained a blind wound to the left thigh area, classified as **less serious harm to health**, causing long-term impairment of health.

Imranli Imran Dilgam oglu, serving with the rank of lieutenant as platoon commander, sustained an open comminuted displaced fracture of the distal end of the ulna, classified as **less serious harm to health**, causing long-term impairment of health.

Musayev Akshin Mehman oglu, serving with the rank of lieutenant as platoon commander, sustained closed craniocerebral trauma accompanied by concussion of the brain, classified as **minor harm to health**, causing short-term impairment of health.

Orujov Muzamil Mehman oglu, a soldier, sustained a through-and-through wound of the soft tissues of the right upper arm, classified as **minor harm to health**, causing short-term impairment of health.

Farhadli Telman Arzu oglu, serving with the rank of senior lieutenant as group commander, sustained a blind wound of the soft tissues of the left lower-leg area, classified as **minor harm to health**, causing short-term impairment of health.

Ibrahimli Tunar Tumar oglu, a soldier, sustained closed craniocerebral trauma, classified as **minor harm to health**, causing short-term impairment of health.

Babayev Israil Alikram oglu, serving with the rank of warrant officer as deputy platoon commander, sustained gunshot and shrapnel wounds, including a blind wound of the soft tissues of the lower one-third of the left thigh, classified as **minor harm to health**, causing short-term impairment of health.

However, because the seven servicemen took shelter in time and were provided with qualified medical assistance, the perpetrators were unable to intentionally kill them.

Page 160

Furthermore, the members of the criminal organization and of the armed formations constituting its structural unit, continuing their criminal acts in accordance with the common criminal intent and purposes of the criminal association, from around **03:00 on 29 July 2021**, fired intensively with large-calibre weapons of unknown brand and model from positions located in **Zod** and **Narimanli** villages of **Basarkechar district** of the Republic of Armenia at the combat post conventionally called **"Zirva-2"** of military unit No. "N" of the Ministry of Defence, located in the liberated territory of **Kalbajar district** of the Republic of Azerbaijan.

As a result, at the post, the following servicemen, who were performing their official duties to protect the territorial integrity and public security of the Republic of Azerbaijan, sustained injuries:

Orujov Nusrat Gunduz oglu, a soldier, sustained a grazing gunshot wound to the right upper-arm area, classified as **minor harm to health**, causing short-term impairment of health.

Dadashov Raman Ramil oglu sustained a blind shrapnel wound to the left upper-arm area, classified as **minor harm to health**, causing short-term impairment of health.

Huseynov Bakhtiyar Asaf oglu, a senior soldier, sustained blind shrapnel wounds to the left back area not penetrating into the cavity, as well as a grazing shrapnel wound to the left upper-arm area, classified as **minor harm to health**, causing short-term impairment of health.

Aghayev Rashad Rafat oglu, a senior soldier, sustained a through-and-through wound of the fifth finger of the left hand, accompanied by an open comminuted displaced fracture of the proximal phalanx bone, classified as **less serious harm to health**, causing long-term impairment of health.

Although injuries were inflicted on them, the four servicemen acted quickly and took shelter in a trench; therefore, the perpetrators were unable to intentionally kill them.

Furthermore, the members of the criminal organization and of the armed formations constituting its structural unit, continuing their criminal acts in accordance with the common criminal intent and purposes of the criminal association, in the territory of **Shusha city**, liberated from occupation as a result of the countermeasures carried out by the Armed Forces of the Republic of Azerbaijan against the large-scale aggressive attacks launched more actively from **27 September 2020**, attacked servicemen of military unit No. "N" of the Ministry of Defence.

On **29 July 2021**, at around **07:00**, **Jalilov Nazir Vidadi oglu**, serving with the rank of warrant officer; **Abbasov Arif Yanvar oglu**, serving with the rank of sergeant; **Alizade Yusif Arif oglu**, serving with the rank of junior sergeant; and soldiers **Mikanayev Ali Ilham oglu**, **Gurbanov Vusal Tahir oglu** and **Heydarzade Mirsaleh Mail oglu** were moving in the territory of **Shusha city** in a **GAZ-33081** cargo vehicle belonging to the 2nd battalion of that military unit, bearing military registration plate **D 107 QQ**. They were moving toward the combat position conventionally called **"29"**, located approximately **500 metres** from the 4th company of that battalion on the **Shusha–Khankendi motor road**.

The vehicle was fired upon with firearms of unknown brand and model. At the moment of the shooting, **Nazir Jalilov** acted quickly and jumped out of the moving vehicle, sustaining injuries for which no degree of severity was assigned. The driver, **Ali Mikanayev**, did not lose vigilance and immediately drove the vehicle toward the combat position, moving it away from the firing point. As a result, the lives of **Arif Abbasov**, **Yusif Alizade**, **Ali Mikanayev**, **Vusal Gurbanov** and **Mirsaleh Heydarzade** were saved; that is, the perpetrators were unable to intentionally kill them.

In addition, during the execution of the criminal plan, bullets struck various parts of the **GAZ-33081** cargo vehicle belonging to the 2nd battalion of military unit No. "N", bearing military registration plate **D 107 QQ**, causing material damage to the vehicle.

Furthermore, the members of the criminal organization and of the armed formations constituting its structural unit, continuing their criminal acts in accordance with the common criminal intent and purposes of the criminal association, on **16 August 2021**, at **20:50**,

opened fire with large-calibre weapons of unknown brand and model from positions in the territory of **Zarkand village of Basarkechar district** of the Republic of Armenia at the combat position conventionally called **"Goycha 5"** of military unit No. "N" of the Ministry of Defence, deployed in the territory of **Zar village of Kalbajar district** of the Republic of Azerbaijan.

As a result, injuries were inflicted on **Abdullayev Abdulaziz Elshad oglu**, who was performing his official duties to protect the territorial integrity and public security of the Republic of Azerbaijan, namely blind wounds to the right temple and chest areas, and a foreign body in the right upper arm, classified as **minor harm to health**, causing short-term impairment of health.

Muradov Khayal Mikayil oglu sustained an injury consisting of a foreign body in the left hand, classified as **minor harm to health**, causing short-term impairment of health.

Since **Abdulaziz Abdullayev** and **Khayal Muradov** avoided the bullets and were able to save their lives, the perpetrators were unable to intentionally kill them.

Page 161

Furthermore, the members of the criminal organization and of the armed formations constituting its structural unit, continuing their criminal acts in accordance with the common criminal intent and purposes of the criminal association, on **17 August 2021**, at around **22:00**, fired on combat position No. **31** of military unit No. "N" of the Ministry of Defence, located in the territory of **Gaybaly village of Shusha city** of the Republic of Azerbaijan.

They fired from opposing combat positions which they had unlawfully established in the territory of **Shusha district**, kept under occupation at that time, under the pretext that Armenian civilians were living there up to that day. They did so by preventing the competent state authorities of the Republic of Azerbaijan, lawfully operating in the sovereign territories of Azerbaijan in **Shusha district**, from entering those areas; by unlawfully digging trenches and building barricades; and by establishing armed opposing combat positions. They used **7.62 mm Kalashnikov-type automatic firearms** and **PK / PKM-type machine guns**, and attempted to carry out an assault with a reconnaissance-sabotage group.

As a result, at the observation point of the combat position in mountainous terrain, **Mirsadigov Mirsadig Miragha oglu**, who served with the rank of soldier as a rifleman in the 1st squad of the 2nd platoon of the 6th company of the 2nd battalion of military unit No. "N" of the Ministry of Defence and was performing his official duties to protect the territorial integrity and public security of the Republic of Azerbaijan, sustained a gunshot wound to the interbrow area which did not constitute harm to health. Since he lay down on the ground in the trench and avoided numerous bullets, he was able to save his life; therefore, the perpetrators were unable to intentionally kill him.

Furthermore, the members of the criminal organization and of the armed formations constituting its structural unit, continuing their criminal acts in accordance with the common criminal intent and purposes of the criminal association, on **25 August 2021**, at around **15:20**, attacked **Shiraliyev Ruslan Nariman oglu**, a soldier who was performing his official duties to protect the territorial integrity and public security of the Republic of Azerbaijan at a combat post of military unit No. "N" of the State Border Service, deployed in the territory of **Chayzami village of Qubadli district** of the Republic of Azerbaijan.

Acting as part of a reconnaissance-sabotage group, they began striking him with a knife in various parts of the body. Since **Ruslan Shiraliyev** resisted them and shouted to call his fellow servicemen, they were unable to kill him for reasons beyond their control and fled.

As a result, **Ruslan Shiraliyev** sustained incised wounds to the left anterior surface of the chest, not penetrating into the cavity but damaging the pectoralis major muscle, and to the anterior surface of the right forearm, damaging only the superficial layers of the skin. These injuries were classified as **minor harm to health**, causing short-term impairment of health.

Furthermore, the members of the criminal organization and of the armed formations constituting its structural unit, continuing their criminal acts in accordance with the common criminal intent and purposes of the criminal association, on **18 September 2021**, at around **18:05**, fired with automatic-type weapons of unknown brand and model from combat positions located in the territory of the Republic of Armenia at the combat position called **"M1-1"**, located in the territory of **Sadarak district of the Nakhchivan Autonomous Republic** of the Republic of Azerbaijan.

As a result, **Hasanov Valeh Mali oglu**, a soldier of military unit No. "N" of the Ministry of Defence who was performing his official duties at the post to protect the territorial integrity and public security of the Republic of Azerbaijan, sustained a blind shrapnel wound to the soft tissues of the left half of the forehead after a bullet struck an obstacle and fragmented. This injury was classified as **minor harm to health**, causing short-term impairment of health. Since he lay down in the trench and avoided the bullets, he was able to save his life; therefore, the perpetrators were unable to intentionally kill him.

Page 162

Furthermore, the members of the criminal organization and of the armed formations constituting its structural unit, continuing their criminal acts in accordance with the common criminal intent and purposes of the criminal association, on **13 October 2021**, at around **14:20**, fired from a forest strip with firearms of unknown brand and model at a vehicle convoy moving in the direction of **Kalbajar district**, along the **Suqovushan–Aghdara–Kalbajar** route, under the escort of the Peacekeeping Forces of the Russian Federation, in a forested area located **5 kilometres** from **Heyvali village of Kalbajar district** of the Republic of Azerbaijan.

As a result, an attempt was made to intentionally kill **Shabanov Beylar Etibar oglu**, a junior sergeant and commander of the automobile squad of the traffic-control platoon of the military-police company of the Barda Garrison Military Police Department of the Ministry of Defence, who was driving a **NIVA-21214** passenger vehicle belonging to that department and bearing military registration plate **M 839 QQ**, as well as **Jabbarzade Jabbar Rasim oglu**, a warrant officer and senior instructor of the military automobile inspectorate of the 1st military-police detachment of the same department. Both were performing their official duties to protect the territorial integrity and public security of the Republic of Azerbaijan and were travelling in that vehicle.

As a result of avoiding the bullets, both servicemen did not sustain injuries. However, the vehicle belonging to that department was damaged, causing significant material damage.

Furthermore, the members of the criminal organization and of the armed formations constituting its structural unit, continuing their criminal acts in accordance with the common criminal intent and purposes of the criminal association, on **14 October 2021**, at **18:15**, fired with firearms of unknown brand and model from opposing positions located in the territory of **Khojavend district**, which was occupied at the time of the incident, at the combat position conventionally called No. **15**, located in the direction of **Gulably village of Aghdam district** of the Republic of Azerbaijan.

The position was manned by soldiers of the 3rd squad of the 1st platoon of the 5th company of the 2nd battalion of military unit No. "N" of the Ministry of Defence: **Hamzayev Afghan Bahman oglu**, **Karimli Sahib Ahmadkhan oglu**, **Karimli Namig Ramin oglu**, **Ibrahimkhalilov Ilkin Elshad oglu**, **Gasimov Guloghlan Rauf oglu** and **Namazov Mahiraddin Mirza oglu**.

As a result, **Hamzayev Afghan Bahman oglu**, a soldier serving as assistant rifleman-grenade launcher of the 3rd squad of the 1st platoon of the 5th company of the 2nd battalion of military unit No. "N", who was at the combat position and was performing his official duties to protect the territorial integrity and public security of the Republic of Azerbaijan, sustained a through-and-through bullet wound entering from the right anterior surface of the forehead and exiting from the left temporal area, accompanied by brain injury, acute blood loss and fractures of the skull bones. This caused his death, and he was intentionally killed.

The other five servicemen — **Sahib Karimli**, **Namig Karimli**, **Ilkin Ibrahimkhalilov**, **Guloghlan Gasimov** and **Mahiraddin Namazov** — took shelter in the combat position at the moment of the shooting and were able to save their lives; therefore, the perpetrators were unable to intentionally kill them.

Furthermore, the members of the criminal organization and of the armed formations constituting its structural unit, continuing their criminal acts in accordance with the common criminal intent and purposes of the criminal association, on **16 November 2021**, at around **11:00**, fired with small arms of various calibres, mortars and artillery installations of unknown brand and model from combat positions located approximately **500–600 metres**

away by air in **Khazinevar / Khoznavar settlement of Gorus / Qoris district** of the Republic of Armenia at posts Nos. **39** and **40** of military unit No. "N" of the Ministry of Defence, located in the territory of **Bozlu village of Lachin district** of the Republic of Azerbaijan, and at their surroundings.

As a result, the following servicemen of military unit No. "N" of the Ministry of Defence, who were performing their official duties to protect the territorial integrity and public security of the Republic of Azerbaijan, sustained life-threatening injuries classified as **serious harm to health**:

Niftaliyev Umud Oruj oglu, serving with the rank of lieutenant as platoon commander, sustained through-and-through gunshot and shrapnel wounds accompanied by multiple comminuted open fractures of the bones of the skull vault, skull base and facial skeleton, diffuse crushing and destruction of the brain tissue, and destruction of both eyeballs.

Jabbarov Orkhan Hatam oglu, serving with the rank of warrant officer, sustained through-and-through gunshot and shrapnel wounds accompanied by comminuted open fractures of the skull and facial-skeleton bones, diffuse injury to the brain tissue, blind wounds penetrating into the cranial cavity and from the right scapular area into the thoracic cavity, as well as numerous blind wounds of the soft tissues of the right scapular, right shoulder, left thigh, left knee and right lower-leg areas.

Aghayev Elchin Marifat oglu, a soldier, sustained through-and-through gunshot and shrapnel wounds accompanied by comminuted open fractures of the skull vault and skull base bones, diffuse injury to the brain tissue, and a comminuted open fracture of the body of the third cervical vertebra.

Page 163

Khalilov Murad Galib oglu, a soldier, sustained through-and-through gunshot and shrapnel wounds accompanied by two blind wounds of the left lateral wall of the chest penetrating into the cavity, one through-and-through wound of the soft tissues of the anterior surface of the chest, open multiple-fragment fractures of the left scapula and the ninth rib, injuries to the organs of the thoracic and abdominal cavities, and acute blood loss.

Aliyev Elchin Ramil oglu, a soldier, sustained through-and-through gunshot and shrapnel wounds accompanied by comminuted open fractures of the cervical vertebrae, multiple injuries to major blood vessels, and acute blood loss.

Alizade Elmin Samir oglu, a soldier, sustained through-and-through gunshot and shrapnel wounds with the entry wound located in the occipital area and the exit wound in the right zygomatic area, accompanied along the wound channel by comminuted open fractures of the skull and facial-skeleton bones and diffuse injury to the brain tissue.

All of the above injuries were classified as **serious harm to health** and life-threatening. The above servicemen were intentionally killed at the scene.

Furthermore, the following servicemen of military unit No. “N” of the Ministry of Defence sustained injuries:

Jahangirov Vugar Jahangir oglu, a junior sergeant, sustained blunt trauma to the left hand, crushing of soft tissues, shrapnel wounds to the soft tissues of the right anterior upper surface of the chest, and blind shrapnel wounds to the left zygomatic, cheek and right zygomatic areas.

Teyyubzade Roman Ramiz oglu, a soldier, sustained a through-and-through wound of the left forearm; blind shrapnel wounds passing through the left cheek and reaching the C1 vertebra; a fracture of the left ascending ramus of the jawbone; an open comminuted wound of the left forearm bones with bone and extensive soft-tissue defect; and contusion of the right lung.

Abdullayev Hikmat Elman oglu, a soldier, sustained blind shrapnel wounds to the left kneecap area, left lower leg and the fifth finger of the right hand; an open comminuted fracture with bone defect of the middle and distal phalanges of the fifth finger of the right hand; an open comminuted displaced fracture of the left kneecap; and rupture of the extensor tendon of the fifth finger of the right hand.

Gulaliyev Murad Bakhtiyar oglu, a soldier, sustained severe hemorrhagic contusion of the frontal lobes of the brain, a blind shrapnel wound of the cranial cavity, injury to the stomach, and blind shrapnel wounds to the left half of the chest, the thoracoabdominal cavity, and the anterior surface of the upper one-third of the left thigh.

Hasanov Eltaj Bayram oglu, a soldier, sustained acute blood loss, comminuted displaced open fractures of the lower one-third of the diaphysis of the left femur, a blind wound of the soft tissues of the posterior surface of the right half of the chest not penetrating into the cavity, and numerous blind shrapnel wounds to both upper arms, the perineal area and the buttock area.

Yusifov Gabil Habil oglu, a soldier, sustained one blind firearm bullet wound entering from the right lumbar area and penetrating the abdominal and thoracic cavities, with injury to the liver and right kidney, fractures of the right ninth and twelfth ribs, and second- to third-degree traumatic-hemorrhagic shock.

Huseynov Oruj Nabi oglu, a soldier, sustained bodily injuries classified as **serious harm to health** and life-threatening, accompanied by a shrapnel fracture of the phalanx of the first toe of the right foot and shrapnel wounds to the soft tissues of the chest.

Jafarov Muzaffar Eldar oglu, an officer, sustained a transverse displaced open fracture of the base of the kneecap bone and a through-and-through gunshot wound to the right knee area.

Khalilov Tural Nariman oglu, an officer, sustained closed craniocerebral trauma, post-concussion astheno-neurotic manifestations, and vegetative vascular instability.

Adigozalov Iskandar Nizami oglu, a sergeant, sustained a perforated fracture of the body of the right scapula, and blind shrapnel wounds to the right popliteal and right scapular areas not penetrating into the cavities.

Mamizade Tabriz Isa oglu, a junior warrant officer, sustained an injury to the right lateral wall of the chest penetrating into the pleural cavity, with a non-displaced fracture of the right sixth rib; blind shrapnel wounds to the soft tissues of the upper one-third of the right thigh; and shrapnel wounds to the right lung and soft tissues of the upper one-third of the right thigh.

Manafli Madat Elbrus oglu, an extended active-duty serviceman, sustained closed blunt trauma of the spinal column and an uncomplicated stable compression fracture of the body of the L2 vertebra.

Farzaliyev Sanan Famil oglu, a soldier, sustained concussion of the brain, closed craniocerebral trauma, and blind shrapnel wounds of the soft tissues of the occipital area of the head, with glass fragments in the wound cavity.

Soldier **Tahmazov Ravan Vilayat oglu** suffered a fracture of the left eyeball, a penetrating corneal injury caused by a foreign object, blind shrapnel wounds to the right lower limb, penetrating shrapnel wounds to the right vertex of the head, and barotrauma.

Page 164

Soldier **Shahverdlyev Rahim Sadraddin oglu** suffered a traumatic avulsion of the distal phalanx of the fourth finger of the right hand at the level of the middle one-third. Soldier **Taharov Samir Rasil oglu** suffered a shrapnel wound to the shoulder area.

Soldier **Aliyev Sakhavat Rizvan oglu** suffered a shrapnel wound to the posterior surface of the left shoulder girdle and the second finger of the right hand, as well as a traumatic avulsion of the middle one-third of the middle phalanx of the second finger of the right hand.

Soldier **Taghiyev Eljan Elman oglu** suffered a penetrating bullet wound to the soft tissues of the posterior surface of the lower one-third of the left thigh, which caused a long-term deterioration of health.

Military serviceman **Aliguliyev Etibar Yasin oglu** suffered a minor head injury caused by a blow, which resulted in a long-term deterioration of health.

Serviceman **Aliyev Elchin Rovshan oglu** suffered blind shrapnel wounds to the soft tissues of the calf, right outer ankle, and heel, as well as a penetrating wound to the right thigh.

Serviceman **Aliyev Vugar Eldar oglu** suffered multiple blind shrapnel wounds to the soft tissues of both shoulders and the right upper arm.

Serviceman **Malikov Jafar Gurban oglu** suffered bilateral acute cochlear neuritis due to the impact of the detonation shock wave during the explosion, as well as right-sided acute exudative otitis media.

Solider **Huseynov Elvin Sehran oglu** suffered injuries to the nose and left temple caused by the impact of the explosion.

Soldier **Kazimov Kamran Eyvaz oglu** suffered vegetative vascular dystonia caused by the impact of the shock wave and blunt object(s) during the explosion, as well as left-sided acute cochlear neuritis.

Soldier **Guliyev Gulu Isakhan oglu** suffered bullet wounds to the soft tissues of the anterior abdominal wall that did not penetrate the abdominal cavity.

Soldier **Guliyev Gulu Isakhan oglu** also suffered blunt shrapnel wounds to the soft tissues of the anterior chest wall that did not penetrate the chest cavity, as well as injuries to the second finger of the left hand.

Alizade Namig Natig oglu suffered blast trauma, left-sided acute cochlear neuritis, and left-sided sensorineural hearing loss.

Soldier **Mehdizade Huseyn Rovshan oglu** suffered bilateral acute cochlear neuritis as a result of barotrauma.

Officer **Shabanli Hamid Zahid oglu** suffered blunt trauma to the fifth finger of the right hand, accompanied by crushing of the soft tissues, as well as minor injuries caused by the impact of the blow, which resulted in a short-term deterioration of health.

Serviceman **Karimli Maharram Sakit oglu**, who had served beyond the term of active military service, suffered a scraped wound to the right cheekbone and a hematoma of the vertex.

Soldier **Naghiyev Murad Tahir oglu** suffered blunt shrapnel wounds to the left vertex of the head.

Soldier **Aliyev Hasan Ibrahim oglu** suffered injuries that did not harm his health.

However, it was possible to save their lives because they avoided the central impact of the blast wave by reaching the trench, and because they received timely qualified medical assistance. Thus, they intentionally killed six people, intentionally failed to kill 31 people, and also caused significant material damage by burning two "BTR-82A" armored combat vehicles and one "Kamaz" truck belonging to the military unit, and by damaging one "BTR-82A" armored combat vehicle and one "SandCat" armored vehicle with the shells they fired.

Furthermore, the members of the criminal organization and of the armed formations constituting its structural unit, continuing their criminal acts in accordance with the common criminal intent and purposes of the criminal association, on **16 November 2021**, at around

16:00, opened fire from opposing positions located in **Shaki settlement of Garakilsa / Sisian district** of the Republic of Armenia, using firearms of various calibres, mortars and artillery weapons of unknown brand and model, at the combat positions conventionally called **"K-21"** and **"L-42"** of military unit No. "N" of the Ministry of Defence, located in the territory of **Minkand village of Lachin district** of the Republic of Azerbaijan, and at their surroundings.

As a result, **Aliyev Natig Yusif oglu**, a junior sergeant and extended active-duty serviceman of military unit No. "N" of the Ministry of Defence, who was at the observation point of the combat position and was performing his official duties to protect the territorial integrity and public security of the Republic of Azerbaijan, sustained injuries classified as **serious harm to health** and life-threatening, namely a comminuted fracture of the bones of the left forearm and a through-and-through gunshot wound accompanied by damage to the soft tissues along the wound channel, as well as other injuries. He was intentionally killed at the scene.

Page 165

Officers of military unit No. "N" of the Ministry of Defence — **Humbatov Ulfat Rahim oglu** and **Musali Sahil Sahibkhan oglu** — and extended active-duty servicemen **Mirzayev Valeh Ali oglu**, **Karimli Rahib Abdulla oglu**, **Ismayilov Rashad Alviz oglu** and **Ismayilov Fagan Aghamali oglu** sustained acoustic trauma / barotrauma caused by the blast wave during the explosion, classified as **minor harm to health**, causing short-term impairment of health.

The following soldiers sustained injuries classified as **minor harm to health**, causing short-term impairment of health:

Mammadov Bayram Asad oglu sustained bruising of the knee area of the right leg.

Guliyev Farhad Farrukh oglu sustained closed craniocerebral trauma.

Mammadov Samir Mammad oglu sustained a superficial shrapnel wound to the right lower-leg area.

Aliyev Elgun Elshan oglu sustained a shrapnel wound to the outer heel area of the right foot.

The following soldiers sustained injuries classified as **less serious harm to health**, causing long-term impairment of health:

Isgandarov Tural Gahraman oglu sustained a through-and-through gunshot wound to the soft tissues of the upper one-third of the right upper arm and the back area.

Alishanov Elmar Eldar oglu sustained an open non-displaced fracture of the olecranon process of the left ulna and a blind shrapnel wound to the left elbow joint area.

Aslanov Aslan Shahhuseyn oglu sustained a blind shrapnel wound to the soft tissues of the right thigh, accompanied by temporary dysfunction of the right lower limb.

Hasanov Kamran Elshad oglu, a soldier, sustained injuries classified as **serious harm to health** and life-threatening, namely a blind shrapnel wound to the left eyeball, caused by fragments resulting from the explosion of an explosive device / shell, and a through-and-through gunshot wound to the soft tissues of the right thigh.

However, because they acted carefully, lay down away from the central force of the blast wave, and because qualified medical assistance was provided in time, it was possible to save their lives. Thus, **one person was intentionally killed**, and the perpetrators were unable to intentionally kill **14 persons** whom they had wounded.

Furthermore, the members of the criminal organization and of the armed formations constituting its structural unit, continuing their criminal acts in accordance with the common criminal intent and purposes of the criminal association, on **8 December 2021**, at around **21:50**, opened fire from opposing positions located in **Yukhari Shorja village of Basarkechar district** of the Republic of Armenia, using a **7.62 mm Dragunov / SVD sniper rifle** manufactured in the Russian Federation in **1963**, and **Kalashnikov-design PK, PKT and PKS machine-gun-type firearms**, at the combat positions conventionally called **"Zirva-4"** and **"KC-15"** of military unit No. "N" of the Ministry of Defence, located in the territory of **Zeylik village of Kalbajar district** of the Republic of Azerbaijan.

As a result, **Aliyev Asif Adil oglu**, a soldier serving as machine-gunner of the 1st squad of the 3rd platoon of the 2nd company of the 1st battalion of military unit No. "N" of the Ministry of Defence, who was at the observation point of the combat position and was performing his official duties to protect the territorial integrity and public security of the Republic of Azerbaijan, sustained injuries classified as **serious harm to health** and life-threatening, namely damage to the large veins of the right leg and a through-and-through gunshot wound to the second finger of the left foot. He was intentionally killed at the scene.

Furthermore, the members of the criminal organization and of the armed formations constituting its structural unit, continuing their criminal acts in accordance with the common criminal intent and purposes of the criminal association, grossly violating the **Geneva Convention of 1949 relative to the Protection of Civilian Persons in Time of War**, the **International Convention against the Taking of Hostages**, adopted in New York on **17 December 1979**, the **Universal Declaration of Human Rights** of **10 December 1948**, the **Convention for the Protection of Human Rights and Fundamental Freedoms**, adopted by the Council of Europe on **4 November 1950**, the **International Covenant on Economic, Social and Cultural Rights** of **16 December 1966**, the **International Covenant on Civil and Political Rights** of **16 December 1966**, and other norms of international law, on **18 December 2021**, at around **11:00**, near **Minkand village of Lachin district**, set an ambush against servicemen of the 1st squad of the 2nd platoon of the 12th company of the 4th battalion of military unit No. "N" of the Ministry of Defence.

They ambushed **Huseynov Teymur Aladdin oglu**, an extended active-duty serviceman and soldier serving as grenade launcher, and **Mustafayev Murad Mikayil oglu**, an extended active-duty serviceman and soldier serving as machine-gunner of the 2nd squad of the 2nd platoon of the 12th company of the 4th battalion of military unit No. "N" of the Ministry of Defence.

The members of the criminal organization, while unlawfully hiding in the other sovereign territories of Azerbaijan that they kept under occupation after the end of the 25-day war, attacked them using **AK-type automatic rifles**, **PK-type machine guns** and other firearms. They unlawfully seized from **Murad Mustafayev** a service firearm belonging to **Teymur Huseynov** — a **5.45 mm AKM-74 automatic rifle**, military registration number **13 9922**, together with one magazine containing **30 rounds**.

Thereafter, they tied the eyes of **Murad Mustafayev** and **Teymur Huseynov** and placed them in a **NIVA** passenger vehicle, whose state registration plate was unknown. They stretched them out under the seats of the vehicle and brought them to a dark basement in **Shusha city**, the exact location of which was not identified, where there was no daylight and no objects inside. They tied their arms and restricted their movement. In total, they unlawfully deprived them of liberty for **two days**.

During that period, members of the criminal organization repeatedly asked them about the location of the posts, the number, names and surnames of the servicemen serving there, and other information. When they did not provide information, they threatened to cut off their fingers and kill them. On **20 December 2021**, they released them in **Shusha city**.

Furthermore, on **29 December 2021**, at **14:45**, civilians **Pashayev Rashad Asad oglu**, born in **1991**, an engineer at **"Texnocell" Limited Liability Company**, and **Rahimli Anar Mahammad oglu**, born in **1993**, a driver, were performing their official duties in a **Mitsubishi L200** passenger vehicle bearing state registration plate **99-JK-820**. They were travelling from **Chinli village of Aghdam district** toward **Pirlar village of Khojaly district**, to a place known as **"Yeddi Khirman"**, where a telephone-tower generator belonging to **Bakcell** Limited Liability Company was located. After replacing the generator and while returning in the direction of Chinli village, they were fired upon from hiding by members of the criminal organization, using firearms whose brand and model were not precisely known.

As a result, **Anar Rahimli** sustained injuries classified as **less serious harm to health**, causing long-term impairment of health, namely traumatic shock accompanied by damage to the radial and elbow nerves, a through-and-through gunshot wound to the upper one-third of the left forearm, comminuted displaced open fractures of the left forearm bones, and an open dislocation of the left wrist joint. However, because they failed to aim accurately, the perpetrators were unable to intentionally kill him.

In addition, by damaging the **Mitsubishi L200** vehicle, they caused significant material damage in the amount of **7,543 manats**.

Furthermore, the members of the criminal organization and of the armed formations constituting its structural unit, continuing their criminal acts in accordance with the common criminal intent and purposes of the criminal association, on **11 January 2022**, at around **13:15**, opened fire from opposing positions located in **Yukhari Shorja village of Basarkechar district** of the Republic of Armenia, using a **7.62 mm Dragunov / SVD sniper rifle** manufactured in the Russian Federation in **1963**, and **Kalashnikov-design PK, PKT and PKS machine-gun-type firearms**, at the combat position conventionally called **"Zirva-1"** and **"KC-14"** of military unit No. "N" of the Ministry of Defence, located in the territory of **Zeylik village of Kalbajar district** of the Republic of Azerbaijan.

As a result, **Nazarov Ayaz Azer oglu**, an extended active-duty serviceman and junior sergeant serving as medical instructor of the 2nd platoon of the 1st battalion of military unit No. "N" of the Ministry of Defence, who was at the observation point of the combat position and was performing his official duties to protect the territorial integrity and public security of the Republic of Azerbaijan, sustained injuries classified as **serious harm to health** and life-threatening, namely a bullet wound to the chest and open fractures of the base bones, as well as a through-and-through gunshot wound accompanied by diffuse crushing and destruction of brain tissue. He was intentionally killed at the scene.

Page 167

Furthermore, the members of the criminal organization and of the armed formations constituting its structural unit, continuing their criminal acts in accordance with the common criminal intent and purposes of the criminal association, on **25 March 2022**, at around **03:00 at night**, opened fire on the combat position of military unit No. "N" of the Ministry of Defence, located on the rocky high ground of **Farrukh Mountain** in **Aghdam district** of the Republic of Azerbaijan.

They fired from opposing combat positions located in the territory of **Farrukh village**, which they had unlawfully constructed in an armed manner by digging trenches and building barricades in the sovereign territories of Azerbaijan that they were keeping under occupation in **Khojaly district**, under the pretext that Armenian civilians had been living there until that day, and without allowing the lawful competent state bodies of the Republic of Azerbaijan to enter those territories. They used **7.62 × 54 mm "Mosin" and "SKS" sniper-rifle type firearms**.

As a result, at the observation point of the combat position in mountainous terrain, **Shirvanov Javid Rasul oglu**, serving with the rank of warrant officer as commander of the 3rd group of the 1st platoon of the 1st company of the 1st battalion of military unit No. "N" of the Ministry of Defence, who was performing his official duties to protect the territorial integrity and public security of the Republic of Azerbaijan, sustained a through-and-through bullet

wound to the soft tissues of the back area, classified as **less serious harm to health**, causing long-term impairment of health.

In addition, **Ramazanov Ziyafaddin Nizamaddin oglu**, serving with the rank of sergeant as an extended active-duty serviceman and operational sapper of the relevant operational unit, sustained a through-and-through bullet wound to the right upper limb and other injuries, classified as **less serious harm to health**, causing long-term impairment of health. Since qualified medical assistance was provided to them in time, it was possible to save their lives; that is, the perpetrators were unable to intentionally kill them.

Furthermore, the members of the criminal organization and of the armed formations constituting its structural unit, continuing their criminal acts in accordance with the common criminal intent and purposes of the criminal association, on **26 March 2022**, at around **15:00**, opened fire on combat position No. **18** of military unit No. "N" of the Ministry of Defence, located in the territory of **Farrukh village of Khojaly district**. They fired from opposing combat positions located in a mountainous forest area of the same village, which they kept under occupation, using **7.62 mm "PK" machine-gun type firearms**.

As a result, at the observation point of the combat position in mountainous terrain, **Guliyev Amid Aliverdi oglu**, serving with the rank of soldier as an extended active-duty serviceman and reconnaissance-operator of the 1st squad of the 2nd platoon of the 6th company of the 2nd battalion of military unit No. "N" of the Ministry of Defence, who was performing his official duties to protect the territorial integrity and public security of the Republic of Azerbaijan, sustained through-and-through and other firearm injuries to the upper one-third of both lower legs, classified as **serious harm to health** and life-threatening. Since qualified medical assistance was provided in time, it was possible to save his life; that is, the perpetrators were unable to intentionally kill him.

Furthermore, the members of the criminal organization and of the armed formations constituting its structural unit, continuing their criminal acts in accordance with the common criminal intent and purposes of the criminal association, on **2 August 2022**, at around **03:00**, opened fire on the combat position conventionally called **"LM-21"** of military unit No. "N" of the Ministry of Defence, located in the area of **Sarybaba height** in **Lachin district**. They fired from their positions located in **Shaki settlement of Garakilsa / Sisian district** of the Republic of Armenia, using firearms whose brand and model were unknown.

As a result, at the combat position, **Aghayev Huseyn Fazil oglu**, a soldier of military unit No. "N" of the Ministry of Defence, who was performing his official duties to protect the territorial integrity and public security of the Republic of Azerbaijan, sustained a combined through-and-through firearm bullet wound entering the right buttock and the anterior surface of the upper one-third of the right thigh, accompanied by post-traumatic neuropathy of the right sciatic nerve and a perforated fracture of the neck of the right femur.

The injuries sustained by **Huseyn Aghayev** were classified as **serious harm to health** and life-threatening. Since qualified medical assistance was provided in time, it was possible to save his life.

The members of the criminal organization and of the armed formations constituting its structural unit, continuing their criminal acts in accordance with the common criminal intent and purposes of the criminal association, on **2 August 2022**, opened fire on the combat position conventionally called **"174-N"** of military unit No. "N" of the Ministry of Defence, located in the territory of **Kalafalig village of Lachin district**. They fired from combat positions located in **Khazinevar / Khoznavar settlement of Gorus / Qoris district** of the Republic of Armenia, using firearms whose brand and model were unknown.

As a result, **Hasanov Yusif Arasdu n oglu**, a soldier of military unit No. "N" of the Ministry of Defence, who was performing his official duties to protect the territorial integrity and public security of the Republic of Azerbaijan, sustained a grazing firearm bullet wound to the soft tissues of the outer surface of the upper one-third of the right upper arm. Since the injury did not constitute harm to health, no degree of severity was assigned. He saved his life by entering shelter and avoiding the remaining bullets.

The members of the criminal organization and of the armed formations constituting its structural unit, continuing their criminal acts in accordance with the common criminal intent and purposes of the criminal association, on **3 August 2022**, at around **08:00**, opened fire on the combat position conventionally called **"LM-21"** of military unit No. "N" of the Ministry of Defence, located in **Khirmanlar village of Lachin district**. They fired from positions located in **Shaki settlement of Garakilsa / Sisian district** of the Republic of Armenia, using firearms whose brand and model were unknown.

As a result, at the combat position, **Kazimov Anar Rustam oglu**, a soldier of military unit No. "N" of the Ministry of Defence, who was performing his official duties to protect the territorial integrity and public security of the Republic of Azerbaijan, sustained a through-and-through firearm bullet wound to the left thigh, accompanied by multiple comminuted open fractures of the femur and damage to the femoral artery, resulting in acute blood loss. These injuries were classified as **serious harm to health** and life-threatening. He was intentionally killed.

Furthermore, the members of the criminal organization and of the armed formations constituting its structural unit, continuing their criminal acts in accordance with the common criminal intent and purposes of the criminal association, on **17 August 2022**, at around **18:00**, opened fire on the combat position of military unit No. "N" of the Ministry of Defence, located in **Minkand village of Lachin district**. They fired from positions located in **Shaki settlement of Garakilsa / Sisian district** of the Republic of Armenia, using firearms whose brand and model were unknown.

As a result, at that combat position, **Rustamov Ilkin Namiq oglu**, a soldier of the same military unit, who was performing his official duties to protect the territorial integrity and

public security of the Republic of Azerbaijan, sustained a firearm bullet wound to the right half of the chest accompanied by right-sided hemopneumothorax, classified as **serious harm to health** and life-threatening. Since qualified medical assistance was provided in time, it was possible to save his life; that is, the perpetrators were unable to intentionally kill him.

Furthermore, the members of the criminal organization and of the armed formations constituting its structural unit, continuing their criminal acts in accordance with the common criminal intent and purposes of the criminal association, grossly violating the provisions of the **Convention of 10 October 1980 on Prohibitions or Restrictions on the Use of Certain Conventional Weapons Which May Be Deemed to Be Excessively Injurious or to Have Indiscriminate Effects**, and **Protocol IV on Blinding Laser Weapons**, annexed to that Convention, installed on the occupied opposing positions facing combat post No. **3** of military unit No. "N" of the Ministry of Defence, located in **Marzili village of Aghdam district**, a green-beam device of unknown brand and type. They did so with the intention of neutralising targets not visible to the naked eye by means of that device.

On **24 August 2022**, at around **13:00**, **Zeynalzada Elchin Anvar oglu**, a soldier of military unit No. "N" of the Ministry of Defence, was observing the area through binoculars from a mirror device and performing his official duties to protect the territorial integrity and public security of the Republic of Azerbaijan, they directed the device into his eyes.

Page 169

As a result, they caused **Elchin Zeynalzada Enver oghlu** radiation maculopathy of the right and left eyes, resulting in a decrease in visual acuity to the level of hand movement. This injury was classified as **serious harm to health** and life-threatening. By doing so, they used weapons, means and methods of warfare prohibited by international law.

Furthermore, the members of the criminal organization and of the armed formations constituting its structural unit, continuing their criminal acts in accordance with the common criminal intent and purposes of the criminal association, on **2 September 2022**, at around **17:00**, opened fire on the combat position conventionally called **"KS-15"** of military unit No. "N" of the Ministry of Defence, located in **Zaylik village of Kalbajar district**. They fired from the direction of **Yukhari Shorja settlement of Basarkechar district** of the Republic of Armenia, using firearms whose brand and model were unknown.

As a result, servicemen of military unit No. "N" of the Ministry of Defence, who were performing their official duties to protect the territorial integrity and public security of the Republic of Azerbaijan, sustained injuries.

Rzayev Farhad Nazir oglu, a junior sergeant, sustained two superficial grazing firearm bullet wounds to the neck area.

Isgandarov Anar Ilham oglu, a sergeant, sustained a superficial grazing firearm bullet wound to the area of the left mandibular angle; since these injuries did not constitute harm to health, no degree of severity was assigned.

Ahmadov Musa Azar oglu, a soldier, sustained blind wounds of the left upper-arm area and small metallic foreign bodies in the soft tissues of the left shoulder girdle, caused by fragments that separated when a bullet fired from a firearm struck a hard obstacle. These injuries were classified as **minor harm to health**, causing short-term impairment of health.

Because they avoided the bullets, they were able to save their lives; that is, the perpetrators were unable to intentionally kill them.

Furthermore, the members of the criminal organization and of the armed formations constituting its structural unit, continuing their criminal acts in accordance with the common criminal intent and purposes of the criminal association, on **15 September 2022**, at around **16:00**, opened fire with automatic-type firearms of unknown brand and model from border positions of the Republic of Armenia on units of the State Border Service located in the territory of **Bartaz height in Zangilan district** of the Republic of Azerbaijan.

As a result, **Huseynli Rashad Ramiz oglu**, senior sergeant and extended active-duty serviceman, assistant reconnaissance-grenade launcher of the 2nd rapid operational group of the rapid operational company of the rapid operational battalion of military unit No. "N", who was performing his official duties to protect the territorial integrity and public security of the Republic of Azerbaijan, sustained penetrating bullet wounds to the chest and abdominal cavities, classified as **serious harm to health** and life-threatening. He was intentionally killed at the scene.

In addition, **Rajabov Sakhavat Togrul oglu**, lieutenant, deputy head of the 2nd group of the 2nd operational section of the 1st operational department of military unit No. "N", who had been seconded to that military unit, sustained a penetrating bullet wound damaging the lung, classified as **serious harm to health** and life-threatening. Since he was evacuated and provided with qualified medical assistance, it was possible to save his life; that is, the perpetrators were unable to intentionally kill him.

Furthermore, the members of the criminal organization and of the armed formations constituting its structural unit, continuing their criminal acts in accordance with the common criminal intent and purposes of the criminal association, on **23 September 2022**, at around **18:00**, opened fire on the combat positions of military unit No. "N" of the Ministry of Defence, located in the direction of **Istisu and Zaylik settlements of Kalbajar district**. They fired from opposing positions located in the territories of **Yukhari Shorja** and **Jermuk** settlements of **Basarkechar district** of the Republic of Armenia, using a **7.62 mm Dragunov / SVD sniper rifle**, manufactured in the Russian Federation from **1963**, and **Kalashnikov-design "PK, PKT and PKS" machine-gun type firearms**.

As a result, at the observation point of the combat position, **Amanullayev Rashad Aghajan oglu**, serving with the rank of captain as commander of the 1st operational platoon of the 9th operational company of the 3rd operational battalion of military unit No. "N" of the Ministry of Defence, sustained a through-and-through bullet wound to the soft tissues of the left upper arm, accompanied by temporary dysfunction of the elbow joint. This injury was classified as **less serious harm to health**, causing long-term impairment of health.

Javadov Ravan Shamsaddin oglu, serving with the rank of soldier as assistant reconnaissance-grenade launcher/rifleman of the 2nd operational group of the 1st operational platoon of the 9th operational company of the 3rd operational battalion, sustained a through-and-through bullet wound to the left thigh area, accompanied by a large soft-tissue defect. This injury was classified as **serious harm to health** and life-threatening.

Rahimzada Ruhid Oktay oglu, serving with the rank of soldier as assistant reconnaissance-grenade launcher/rifleman of the same unit, sustained a through-and-through bullet wound to the right foot, accompanied by an open displaced comminuted fracture of the body of the fifth metatarsal bone, and other injuries. This injury was classified as **less serious harm to health**, causing long-term impairment of health.

Since qualified medical assistance was provided to them in time, it was possible to save their lives; that is, the perpetrators were unable to intentionally kill them.

Furthermore, the members of the criminal organization and of the armed formations constituting its structural unit, continuing their criminal acts in accordance with the common criminal intent and purposes of the criminal association, on **25 September 2022**, at around **11:00**, opened fire on the combat position conventionally called **"GC-4"** of military unit No. "N" of the Ministry of Defence, located in the territory of **Dashkasan district**. They fired from border positions of the Republic of Armenia, using small arms whose brand and model were not precisely known.

As a result, **Namazaliyev Firuddin Rafayil oglu**, a soldier and commander of the grenade-launcher squad of the anti-tank unit of the 1st squad of the 2nd platoon of the same military unit, who was performing his official duties to protect the territorial integrity and public security of the Republic of Azerbaijan, sustained a bullet wound to the left thigh, classified as **minor harm to health**, causing short-term impairment of health.

Aliyev Sabuhi Vahid oglu, a junior sergeant and extended active-duty serviceman, reconnaissance-medic of the 1st group of the 1st company of the 2nd battalion of the same military unit, sustained a bullet wound to the right thigh, classified as **minor harm to health**, causing short-term impairment of health.

Because both servicemen lay down in a trench and avoided the bullets, the perpetrators were unable to intentionally kill them.

Furthermore, the members of the criminal organization and of the armed formations constituting its structural unit, continuing their criminal acts in accordance with the common

criminal intent and purposes of the criminal association, on **28 September 2022**, at around **18:00**, opened fire on the units of military unit No. "N" of the Ministry of Defence, located in the direction of the area known as **Alagoller** in **Kalbajar district**. They fired from the combat position known as **"K-82-C"**, located in the same direction in the Republic of Armenia, using firearms whose brand and model were unknown.

As a result, at the said combat position, **Isgandarov Nijat Hidayat oglu**, a junior sergeant and extended active-duty serviceman, served as a member of the mortar group of the 4th platoon of the 5th company of the 2nd operational battalion of military unit No. "N", who was performing his official duties to protect the territorial integrity and public security of the Republic of Azerbaijan, sustained a bullet injury entering from the area of the right mandibular angle and exiting from the forehead, accompanied by open craniocerebral trauma and loss of vision in the right eye. This injury was classified as **serious harm to health**. Since he was evacuated to a military hospital in time and provided with qualified medical assistance, the perpetrators were unable to intentionally kill him.

Page 171

Furthermore, the members of the criminal organization and of the armed formations constituting its structural unit, continuing their criminal acts in accordance with the common criminal intent and purposes of the criminal association, opened fire on **Alibayli Shahriyar Ramiz oglu**, a senior lieutenant and serviceman of group "C" of battalion No. "N" of military unit No. "N" of the Ministry of Defence, and **Huseynov Eshgin Jamil oglu**, a soldier and extended active-duty serviceman of group "E" of battalion No. "N" of the same military unit, who were performing service in the territory of **Shusha district** in connection with the protection of the territorial integrity and public security of the Republic of Azerbaijan.

On **5 March 2023**, at around **11:00**, they opened fire at both servicemen from the territory of **Shusha district**, using firearms whose brand and model were unknown. As a result, they inflicted firearm bullet injuries to the head areas of both servicemen, damaging an organ essential for human life, accompanied by fractures of the skull bones and severe crushing and destruction of the brain. These injuries would be classified in living persons as **serious harm to health** and life-threatening, and caused their deaths. Thus, the perpetrators intentionally killed them.

Furthermore, the members of the criminal organization and of the armed formations constituting its structural unit, continuing their criminal acts in accordance with the common criminal intent and purposes of the criminal association, on **20 March 2023**, at around **03:00**, opened fire on the 1st border combat point of military unit No. "N" of the State Border Service, located in the territory of **Aghbashyurd height of Zangilan district**. They fired from positions located in the direction of **Gafan / Kapan district** of the Republic of Armenia, using firearms whose brand and model were unknown.

As a result, **Manafov Ramil Subhi oglu**, junior sergeant and member of the combat-support platoon of the rapid operational battalion of military unit No. "N", who was on combat duty

at the said combat point and performing his official duties to protect the territorial integrity and public security of the Republic of Azerbaijan, sustained a through-and-through bullet wound to the left half of the chest. This injury was classified as **serious harm to health** and life-threatening. Since he was evacuated to a military hospital in time and provided with qualified medical assistance, it was possible to save his life; that is, the perpetrators were unable to intentionally kill him.

Furthermore, the members of the criminal organization and of the armed formations constituting its structural unit, continuing their criminal acts in accordance with the common criminal intent and purposes of the criminal association, after the large-scale aggressive attacks launched more actively from **27 September 2020** were repelled by the Armed Forces of the Republic of Azerbaijan through countermeasures, acted in the territory of **Imamgulular village of Shusha district**, which had been liberated from occupation.

On **31 March 2023**, at around **14:50**, **Ahmadov Yusif Alasgar oglu**, a junior sergeant and extended active-duty serviceman serving as reconnaissance-medic of the 4th platoon of the 1st company of the 1st battalion of military unit No. "N" of the Ministry of Defence, was organising combat duty at the combat position conventionally called No. **"7"**, located in **Imamgulular village of Shusha district**. The perpetrators fired from a rifled firearm whose type and model were not precisely known.

As a result, they inflicted on him an injury classified as **minor harm to health**, namely a firearm bullet wound of the left thigh entering from the posterior-outer surface of the lower one-third and exiting from the anterior-outer surface of the knee-joint area. Since **Yusif Ahmadov** took shelter in the trench at the combat position and avoided the bullets, he was able to save his life; that is, the perpetrators were unable to intentionally kill him.

Furthermore, the members of the criminal organization and of the armed formations constituting its structural unit, continuing their criminal acts in accordance with the common criminal intent and purposes of the criminal association, on **11 April 2023**, at around **17:00**, opened fire on the combat position of the 1st battalion of military unit No. "N" of the Ministry of Defence, located in **Zabukh village of Lachin district**, from positions of the Armed Forces of the Republic of Armenia located in **Tekh village of Gorus district** from positions of the Armed Forces of the Republic of Armenia located in **Tekh village of Gorus district**, using sniper and automatic-type firearms whose brand and model were not precisely known.

Page 172

As a result, servicemen of military unit No. "N" of the Ministry of Defence, who were carrying out engineering and fortification works and performing their official duties to protect the territorial integrity and public security of the Republic of Azerbaijan, sustained the following injuries:

Hasanov Elshad Gabil oglu, a warrant officer, sustained a penetrating bullet wound to the left hip area, classified as **serious harm to health** and life-threatening.

Zalov Vidadi Nizami oglu sustained a penetrating bullet wound to the left chest area, classified as **serious harm to health** and life-threatening.

Taghiyev Sabuhi Gunduz oglu sustained a penetrating bullet wound to the nose area, classified as **serious harm to health** and life-threatening.

All three servicemen were intentionally killed at the scene.

The following servicemen of the same military unit sustained injuries:

Aliyev Basharaddin Kamil oglu sustained a penetrating bullet wound to the right hip area, classified as **serious harm to health** and life-threatening.

Ibrahimov Nurlan Ibrahim oglu sustained a penetrating bullet wound to the neck area, classified as **serious harm to health** and life-threatening.

Rustamov Elmir Bashir oglu sustained an open blind fracture wound to the left ankle area.

Najafov Renat Zaur oglu sustained injuries to the face area.

Zamanov Ramis Yolchu oglu sustained injuries to the lip area.

Captain Safarov Shahin Elsevar oglu, commander of the engineering-fortification unit of the military unit, sustained injuries to various parts of the body.

Lieutenant Hajiyev Murad Elshan oglu sustained a bullet wound to the right chest area, classified as **minor harm to health**, causing short-term impairment of health.

Guliyev Mahammad Safi oglu sustained abrasions to the right calf area, which did not constitute harm to health and therefore were not assigned a degree of severity.

Because qualified medical assistance was provided to them in time, because they hid in a shelter during the incident, and because they avoided the bullets, the perpetrators were unable to intentionally kill **eight servicemen**.

In addition, as a result of damage caused to a **UAZ** vehicle bearing military registration plate **0-400-QQ**, belonging to military unit No. “N”, and to a **Mitsubishi L200** vehicle bearing state registration plate **50-AA-743**, belonging to **Qartal Tikinti Firmasi**, material damage was caused in the amount of **350 manats** to the military unit and **2,119.46 manats** to Qartal Tikinti Firmasi.

Furthermore, the members of the criminal organization and of the armed formations constituting its structural unit, continuing their criminal acts in accordance with the common criminal intent and purposes of the criminal association, on **8 May 2023**, at around **10:00**, in

the territory of **Zalukh village of Lachin district**, opened fire with firearms of unknown brand and model at a **Doosan** excavator bearing military registration plate **O 428 QQ**, which was operated by **Abbasguliyev Etibar Hasankhan oglu**, a soldier and mechanic-driver of the 5th squad of the 1st engineering-fortification platoon of the engineering-fortification unit of military unit No. "N" of the Ministry of Defence, who was carrying out excavation work.

The fire was opened from their positions located in **Gorus district** of the Republic of Armenia. As a result, the excavator's mirror and window were damaged. Since driver **Etibar Abbasguliyev** acted quickly, got out from behind the steering wheel and hid in a shelter in the area, the perpetrators were unable to intentionally kill him. Material damage was caused to military unit No. "N" due to damage to the **Doosan** excavator bearing military registration plate **O 428 QQ**.

Furthermore, the members of the criminal organization and of the armed formations constituting its structural unit, continuing their criminal acts in accordance with the common criminal intent and purposes of the criminal association, on **10 May 2023**, at around **19:00**, opened fire with firearms of unknown brand and model from combat positions located in **Basarkechar district** of the Republic of Armenia at the combat positions conventionally, **K-7** combat position, codenamed "Ertugrul, of the Azerbaijani Army, located on the Azerbaijan-Armenia state border in the territory of **Demirchidam village of Kalbajar district**.

As a result, at the said combat position, while performing his official duties to protect the territorial integrity and public security of the Republic of Azerbaijan, **Mahmudlu Muslim Vidadi oglu**, a soldier serving as senior rifleman of the 2nd squad of the 3rd platoon of the 1st company of the 1st battalion of military unit No. "N"

Page 173

sustained a penetrating bullet wound to the left temporal area and the cranial cavity, accompanied by severe bruising of the brain, classified as **serious harm to health** and life-threatening. Since he was evacuated in time and provided with qualified medical assistance, the perpetrators were unable to intentionally kill him.

Furthermore, unidentified members of the criminal organization, acting with the same criminal intent and purposes as each member of the criminal organization, on **11 May 2023**, at around **09:00**, opened fire from positions located in **Basarkechar district** of the Republic of Armenia at sections of military unit No. "N" of the Ministry of Defence located on the Azerbaijan-Armenia state border in the territory of **Demirchidam village of Kalbajar district**. They used an anti-tank artillery shell of unknown brand and model.

At that time, at the combat position, **Novruzzada Orkhan Elkhan oglu**, a soldier serving as mechanic-driver of the tank unit of the 1st tank platoon of the 1st tank company of the 1st tank battalion of military unit No. "N", was operating a **T-72 M-1K** armoured tank bearing turret number **400**, belonging to that military unit. The tank was struck directly by the shell and caught fire.

As a result, **Orkhan Novruzzada** sustained injuries classified as **serious harm to health** and life-threatening, including open comminuted fractures of the skull vault bones, severe bruising of the right parietal lobe of the brain, bleeding into the brain tissue, and other injuries caused by impact, explosion and fire. He was intentionally killed.

Gushchiyev Emin Huseyn oglu, a warrant officer and tank commander of the command-control vehicle of the communications unit of the 1st tank battalion of the same military unit, and **Xalilov Rafael Qadim oglu**, a warrant officer of the same tank battalion, sustained closed craniocerebral trauma resulting in concussion of the brain, classified as **minor harm to health**, causing short-term impairment of health.

Since the latter two servicemen were located at a certain distance from the centre of the explosion, they were not intentionally killed. In addition, by striking the **T-72 M-1K** armoured tank bearing turret number **400**, they caused significant damage to military unit No. "N".

Furthermore, unidentified members of the criminal organization, acting with the same criminal intent and purposes as each member of the criminal organization, on **12 May 2023**, at around **20:30**, opened fire with a large-calibre artillery shell of unknown brand and model from positions located in **Basarkechar district** of the Republic of Armenia at the combat position conventionally called **"K-9"**, located in **Zod settlement of Kalbajar district**.

As a result, at that combat position, **Mustafayev Sanan Elchin oglu**, commander of the artillery division of military unit No. "N", who was performing his official duties to protect the territorial integrity and public security of the Republic of Azerbaijan, sustained blast trauma and shrapnel injuries to the hand and foot areas, classified as **less serious harm to health**, causing long-term impairment of health. He was evacuated to a military hospital in time and provided with qualified medical assistance, and the perpetrators were unable to intentionally kill him.

Furthermore, unidentified members of the criminal organization, acting with the same criminal intent and purposes as each member of the criminal organization, on **12 May 2023**, at around **21:00**, opened fire with a large-calibre artillery shell of unknown brand and model from positions located in **Basarkechar district** of the Republic of Armenia at the support point of the 4th battalion of military unit No. "N", located in the territory of **Yellice village of Kalbajar district**.

As a result, at that time, **Garayev Mahammad Mahir oglu**, an employee of the technical-service squad of the material and technical support unit of the 4th motorised rifle battalion, who was performing his official duties to protect the territorial integrity and public security of the Republic of Azerbaijan, sustained injuries involving damage to the right lung and the right pulmonary artery

causing acute blood loss and death. The injury was classified as **serious harm to health** and life-threatening, and he was intentionally killed.

Captain Maksudlu Maqsud Valeh oglu, assistant to the chief of staff of the 4th motorised rifle battalion for material and technical support, sustained blind penetrating wounds to the thoracic and abdominal cavities, accompanied by damage to the liver, small intestine and diaphragm, as well as other injuries. These injuries were classified as **serious harm to health** and life-threatening in living persons, and he was intentionally killed.

Mehraliyev Togrul Fariz oglu, commander of the technical-service squad of the material and technical support unit of the 4th motorised rifle battalion, sustained injuries to various parts of the body classified as **less serious harm to health**, causing long-term impairment of health.

Ismayilzada Tural Zafar oglu, sanitary instructor of the 12th company of the 4th battalion, sustained injuries to various parts of the body classified as **minor harm to health**, causing short-term impairment of health.

Asgarov Shohrab Sardar oglu, driver of the automobile squad of the material and technical support unit of the 4th motorised rifle battalion, sustained injuries classified as **minor harm to health**, causing short-term impairment of health.

Oruczada Vurgun Abulfaz oglu, deputy for personnel of the commander of the 10th company of the 4th battalion; **Aliyev Asad Elman oglu**, deputy commander of the 4th battalion for work with personnel; and **Javadzada Absalam Nazim oglu**, warrant officer of the transport squad of the material and technical support unit of the 4th battalion, sustained bodily injuries for which no degree of severity was assigned.

However, **Maqsud Maksudlu** and **Togrul Mehraliyev** were evacuated to a military hospital in time and provided with qualified medical assistance, which made it possible to save their lives. The other persons — **Tural Ismayilzada**, **Shohrab Asgarov**, **Vurgun Oruczada**, **Asad Aliyev** and **Absalam Javadzada** — were located at a certain distance from the centre of the explosion, and the perpetrators were unable to intentionally kill them.

Furthermore, the members of the criminal organization and of the armed formations constituting its structural unit, continuing their criminal acts in accordance with the common criminal intent and purposes of the criminal association, on **17 May 2023**, at around **19:00**, used a **kamikaze-type attack drone** from their positions located in **Zod settlement of Basarkechar district** of the Republic of Armenia to attack the combat position conventionally called **"K-22"** of the 10th company of the 4th battalion of military unit No. "N" of the Ministry of Defence, located in the territory of **Yellice village of Kalbajar district**.

As a result of the drone detonation at that position, its separated external part struck **Aliyev Novruz Hagverdi oglu**, a junior sergeant and commander of the 2nd squad of the 1st platoon of the 1st company of the said unit, causing a blunt injury to the right elbow area. The blast

wave and fragments were intercepted, and therefore the perpetrators were unable to intentionally kill him.

Furthermore, the members of the criminal organization and of the armed formations constituting its structural unit, continuing their criminal acts in accordance with the common criminal intent and purposes of the criminal association, on **27 June 2023**, at around **19:00**, opened fire with automatic-type weapons of unknown brand and model from the combat position located in the occupied area of **Qalaychilar village of Aghdam district** at a combat position of the Azerbaijani Army.

As a result, **Bekirov Ali Shukur oglu**, a soldier of military unit No. "N" of the Ministry of Defence, who was performing his official duties to protect the territorial integrity and public security of the Republic of Azerbaijan, sustained a penetrating bullet wound to the soft tissues of the left lower-leg area, classified as **minor harm to health**, causing short-term impairment of health. By crawling into a trench and avoiding the bullets, he was able to save his life, and the perpetrators were unable to intentionally kill him.

Furthermore, the members of the criminal organization and of the armed formations constituting its structural unit, continuing their criminal acts in accordance with the common criminal intent and purposes of the criminal association, on **11 July 2023**, opened fire on the units of military unit No. "N" of the Ministry of Defence located in **Lachin district**

from a combat position located in the same direction in the Republic of Armenia, using firearms whose brand and model were unknown.

As a result, at the said combat position, **Abdullayev Huseyn Arif oglu**, a soldier and operator of the anti-tank guided missile section of the anti-tank unit of the 2nd battalion of military unit No. "N", who was performing his official duties to protect the territorial integrity and public security of the Republic of Azerbaijan, sustained injuries classified as **minor harm to health**, causing short-term impairment of health, namely superficial penetrating bullet wounds to the right buttock area and the outer one-third of the right forearm. Since the bullet struck an obstacle and slightly changed direction, the perpetrators were unable to intentionally kill him.

Furthermore, the members of the criminal organization and of the armed formations constituting its structural unit, continuing their criminal acts in accordance with the common criminal intent and purposes of the criminal association, on **9 August 2023**, at around **19:45**, opened fire with **5.45 mm Kalashnikov-design AK and AKS-74 automatic rifles** from positions located approximately **25–30 metres** away in areas under the control of the Republic of Armenia, at the long-term observation point of the combat position conventionally called **"K-22-C"** of military unit No. "N" of the Ministry of Defence, located in the territory of **Yukhari Yellice village of Kalbajar district**.

As a result, **Aghayev Ali Aliman oglu**, a soldier serving as a rifleman of the 2nd squad of the 2nd platoon of the 10th company of the 4th battalion of military unit No. "N", sustained injuries classified as **minor harm to health**, causing short-term impairment of health, namely a bullet wound to the right shoulder area and multiple bullet wounds to the left periocular and upper-lip areas. By crawling into a trench and avoiding numerous bullets, he was able to save his life, and the perpetrators were unable to intentionally kill him.

Furthermore, the members of the criminal organization and of the armed formations constituting its structural unit, continuing their criminal acts in accordance with the common criminal intent and purposes of the criminal association, on **21 August 2023**, at around **10:00**, opened fire with weapons of unknown brand and model from combat positions located in **Ashaghi Shorja settlement of Basarkechar district** of the Republic of Armenia at the combat position conventionally called **"K-48"** of the 3rd company of the 1st battalion of military unit No. "N", located in the direction of **Zar village of Kalbajar district**.

As a result, **Nazarov Ramiz Ismat oglu**, a warrant officer and commander of the 2nd squad of the sniper platoon of the 1st battalion of that military unit, sustained a through-and-through wound to the right shoulder joint, penetrating into the right thoracic cavity, accompanied by other injuries. These injuries were classified as **less serious harm to health**, causing long-term impairment of health. However, since the fired bullet struck a wooden part of the hut and changed direction, and since he was evacuated to a military hospital and provided with qualified medical assistance in time, the perpetrators were unable to intentionally kill him.

Furthermore, the members of the criminal organization and of the armed formations constituting its structural unit, continuing their criminal acts in accordance with the common criminal intent and purposes of the criminal association, on **31 August 2023**, at around **07:00**, opened fire with firearms and artillery weapons of unknown brand and model from border positions of the Republic of Armenia at the combat position conventionally called **"K-8"** of the Azerbaijani Army, located on the Azerbaijan-Armenia state border in the territory of **Demirchidam village of Kalbajar district**.

Page 176

As a result, servicemen of military unit No. "N" of the Ministry of Defence, who were performing their official duties to protect the territorial integrity and public security of the Republic of Azerbaijan, sustained injuries.

Taghiyev Mahammad Rami oglu, a warrant officer, sustained a bullet wound penetrating into the right hip area, classified as **less serious harm to health**, causing long-term impairment of health.

Mammadli Sadiq Saday oglu, a junior sergeant, sustained injuries classified as **less serious harm to health**, causing long-term impairment of health, namely temporary loss of knee function accompanied by post-traumatic contracture, two blind wounds to the left knee area,

metallic foreign bodies in the soft tissues, and a wound to the soft tissues of the right thigh area.

Since both servicemen were evacuated to a military hospital and provided with qualified medical assistance, the perpetrators were unable to intentionally kill them.

Furthermore, unidentified members of the criminal organization, acting with the same criminal intent and purposes, on **1 September 2023**, at around **09:00**, opened fire from Armenian border positions with firearms and artillery weapons of unknown brand and model at the combat positions conventionally called **"K-7"** and **"K-8"** of the Azerbaijani Army, located on the Azerbaijan-Armenia state border in the territory of **Demirchidam village of Kalbajar district**.

As a result, **Aliyev Ulfat Novruz oglu**, a captain and serviceman of military unit No. "N" of the Ministry of Defence, sustained a shrapnel wound penetrating the thoracic cavity, damaging the tissues of the left lung, the left diaphragm and the left lower-leg area, classified as **serious harm to health** and life-threatening.

Eyvazov Maharram Jeyhun oglu, a soldier, sustained shrapnel wounds to the left shoulder, left foot and left lower-leg areas, classified as **less serious harm to health**, causing long-term impairment of health.

Both servicemen were evacuated to a military hospital and provided with qualified medical assistance, which made it possible to save their lives; that is, the perpetrators were unable to intentionally kill them.

Furthermore, unidentified members of the criminal organization, acting with the same criminal intent and purposes, on **1 September 2023**, at around **11:30**, opened fire from Armenian border positions with firearms and artillery weapons of unknown brand and model at the combat positions conventionally called **"K-7"** and **"K-8"** of the Azerbaijani Army, located on the Azerbaijan-Armenia state border in the territory of **Demirchidam village of Kalbajar district**.

As a result, **Alisoy Mammad Chapay oglu**, a lieutenant and serviceman of military unit No. "N" of the Ministry of Defence, sustained injuries to the nape, left hip, right thigh and left cheek areas, classified as **minor harm to health**, causing short-term impairment of health. Since he crawled into a trench and avoided other fragments, the perpetrators were unable to intentionally kill him.

Furthermore, unidentified members of the criminal organization, acting with the same criminal intent and purposes, on **1 September 2023**, at around **12:00**, opened fire from Armenian border positions with firearms and artillery weapons at the combat position conventionally called **"K-20"** of the Azerbaijani Army, located on the Azerbaijan-Armenia state border in the territory of **Yellice village of Kalbajar district**.

As a result, **Ahmadov Mehdi Huseyn oglu**, a first lieutenant and serviceman of military unit No. “N” of the Ministry of Defence, sustained shrapnel injuries to the neck area, classified as **minor harm to health**, causing short-term impairment of health.

Gasimov Gunduz Intizam oglu, a soldier of the same military unit, sustained injuries to the right hand area, which did not constitute harm to health and therefore were not assigned a degree of severity.

Since both servicemen hid in the trench and avoided other fragments, the perpetrators were unable to intentionally kill them.

Page 177

Furthermore, the members of the criminal organization and of the armed formations constituting its structural unit, continuing their criminal acts in accordance with the common criminal intent and purposes of the criminal association, grossly violating the **International Convention against the Taking of Hostages**, adopted in New York on **17 December 1979**, the **Universal Declaration of Human Rights** of the United Nations of **10 December 1948**, the **Convention for the Protection of Human Rights and Fundamental Freedoms**, adopted by the Council of Europe on **4 November 1950**, the **International Covenant on Civil and Political Rights** of **16 December 1966**, and other norms of international law, on **23 July 2022**, at around **12:00**, took hostage **Ibayev Kamiz Mubariz oglu**, a soldier of military unit No. “N” of the Ministry of Defence, who had left the support point located in **Yellice village of Kalbajar district** and was moving on foot toward the headquarters of the military unit. Due to foggy and misty weather, he lost his way.

Thereafter, **Kamiz Ibayev Mubariz oghlu**, with his hands tied and his movement restricted, was taken to the territory of the Republic of Armenia. There, in an unidentified dark cell, he was beaten unconscious by members of the criminal organization using blunt objects, subjected to physical violence without mercy, insulted with offensive words, and deliberately struck in various parts of the body. He was held captive and tortured. Contrary to international legal norms, from the time he was taken prisoner until **3 August 2022**, he was unlawfully deprived of liberty. During the **13 days** of unlawful detention, he sustained injuries classified as **minor harm to health**, causing short-term impairment of health, including injuries to the back surface of the neck, the front surface of the left half of the chest, the left shoulder and both wrists, the right lumbar area, and the outer surface of the right hand. He was subjected to physical violence, left without food, insulted, and tortured. On **3 August 2022**, he was released and returned to the Republic of Azerbaijan.

Furthermore, on **19 September 2023**, at around **18:00–19:00**, members of the criminal association committed a terrorist attack by opening fire with artillery weapons on **Mollalar village of Aghdam district**, which had been liberated from occupation. At that time, Mehman Fikret oglu Hasanov, a civilian resident of Bashgarvand village in the Aghdam region, who was born on February 25, 1992, had been seconded to the area as an excavator operator by "Korpu-Bina-Tikinti" LLC on September 10, 2023, to carry out excavation and

construction works for the purpose of road construction in Mollalar village of the Aghdam region. While standing near a **Liugong CLG 930E** excavator, bearing state registration plate **AZ 10-FC-054**, assigned to him and belonging to the company, he heard the sounds of shells exploding and lay down on the ground in order to hide. At that moment, he was caught in the explosion of another artillery shell that fell approximately **80 metres** away from him. As a result, he sustained a shrapnel wound to the right knee area, classified as **minor harm to health** according to its degree of severity. Since he was relatively far from the blast wave, the perpetrators were unable to intentionally kill him.

The military-political leadership of Armenia, including its armed forces and other armed formations, as well as the leaders and members of the criminal association, who, with their direct material, technical and personnel support, operated on the basis of centralized management, oral and written assignments, instructions and orders and under strict supervision, grossly violated the requirements of the **Charter of the United Nations** of **26 June 1945**, Chapters VI and VII concerning threats to peace, breaches of peace and acts of aggression, the **Convention of 10 October 1980 on Prohibitions or Restrictions on the Use of Certain Conventional Weapons Which May Be Deemed to Be Excessively Injurious or to Have Indiscriminate Effects**

Page 178

and its **Protocol on Prohibitions or Restrictions on the Use of Mines, Booby-Traps and Other Devices**, the **UN Principles on the Effective Prevention and Investigation of Extra-Legal, Arbitrary and Summary Executions**, the Geneva Conventions of **12 August 1949**, the **Ottawa Convention of 3 December 1997 on the Prohibition of the Use, Stockpiling, Production and Transfer of Anti-Personnel Mines and on Their Destruction**, the **Universal Declaration of Human Rights** of the United Nations of **10 December 1948**, the **Convention for the Protection of Human Rights and Fundamental Freedoms** of the Council of Europe of **4 November 1950**, the **Council of Europe Convention on the Prevention of Terrorism**, signed in Warsaw on **16 May 2005**, as well as the requirements of the **Hague Convention of 1907** and numerous other international legal norms.

For many years, they unlawfully kept under occupation the districts of **Fuzuli, Jabrayil, Zangilan, Qubadli** and others of the Republic of Azerbaijan, as well as **Shusha city**. Although those territories were liberated from occupation, and although paragraph 1 of the Statement signed on **10 November 2020** by the President of the Republic of Azerbaijan, the Prime Minister of the Republic of Armenia and the President of the Russian Federation provided that, from **00:00 Moscow time on 10 November 2020**, a complete ceasefire and cessation of all hostilities in the Nagorno-Karabakh conflict zone would be announced, paragraph 4 provided that Armenian armed forces would be withdrawn from the occupied territories, and paragraph 7 provided that internally displaced persons and refugees would return to the territory of Nagorno-Karabakh and the surrounding districts under the supervision of the Office of the United Nations High Commissioner for Refugees, they disregarded these and other requirements of that Statement.

For almost two years after the signing of the said Statement, they did not withdraw their armed forces from **Khojaly, Aghdara, Khankendi, Khojavend** districts and **Khankendi city**, which are sovereign territories of the Republic of Azerbaijan and remained under occupation. They continued unlawfully building engineering-fortification structures and fortifying the areas around positions in which their armed forces, military equipment and installations were unlawfully kept throughout the entire border area with the Republic of Armenia and in the said territories, for future criminal purposes.

In order to create obstacles to the restoration and reconstruction work being carried out in the territories liberated from occupation by the Republic of Azerbaijan, on **12 September 2022**, at around **23:30**, the Armed Forces of the Republic of Armenia launched large-scale attacks from border positions located in the territories of **Gafan / Kapan, Gorus / Qoris, Jermuk, Basarkechar** and **Jambarak** districts of Armenia, against military and civilian facilities in the directions of **Zangilan, Qubadli, Dashkasan, Kalbajar** and **Lachin** districts of Azerbaijan. The attacks were carried out using artillery installations, mortars, and other weapons of large and small calibre, from border positions against the criminal association's armed formations located in **Khojaly, Aghdara, Khankendi, Khojavend** districts and **Khankendi city**, which were then under occupation.

During the period from **12 September 2022 to 14 September 2022**, under the direct leadership of the leaders and other members of the criminal organization, and in accordance with the common criminal intent and purposes of the criminal association, they carried out intensive fire from the combat positions of the Armed Forces of the Republic of Armenia at the defence posts and headquarters located in the territories of **Zangilan, Qubadli, Dashkasan, Kalbajar** and **Lachin** districts of the Republic of Azerbaijan, using artillery installations of large calibre, mortars and artillery systems of various calibre.

Page 179

As a result, in the territory of **Zangilan district**, **five** servicemen of military units No. "N" of the State Border Service of the Republic of Azerbaijan were killed; in the territory of **Lachin district**, **fourteen** servicemen of military units No. "N" of the Ministry of Defence of the Republic of Azerbaijan and **two** servicemen of military unit No. "N" of the State Border Service were killed; in the territory of **Kalbajar district**, **fifty-five** servicemen of military units No. "N" of the Ministry of Defence and **one** serviceman of military unit No. "N" of the State Border Service were killed.

In total, **77 servicemen of the Armed Forces of the Republic of Azerbaijan** were intentionally killed. The document lists them as:

Hasanov Said Saribala oglu, **Huseynov Ziyafat Mail oglu**, **Gurbanov Saleh Mohubat oglu**, **Mammadov Elmin Mirzali oglu**, **Aliyev Ali Javad oglu**, **Fatullayev Rafail Rufat oglu**, **Farzaliyev Emin Elnur oglu**, **Hasanov Ibrahim Shohrat oglu**, **Gasimov Nihat Mehman oglu**, **Muradov Bakhtiyar Guloghlan oglu**, **Aliyev Uzeyir Sabir oglu**, **Rzayev Tarlan Parviz oglu**, **Azizli Sadig Zaur oglu**, **Gasimov Rashad Anvar oglu**, **Azizov Nazar**

Agacelil oglu, **Kazimov Yunis Gasim oglu**, **Rustamov Elnur Faid oglu**, **Omarov Sarkhan Mubariz oglu**, **Abbasli Nail Adil oglu**, **Hasanov Umid Ilgar oglu**, **Ahmadzada Khayal Alovsat oglu**, **Gojayev Vadim Alik oglu**, **Ahmadov Firuz Mazahir oglu**, **Ahmadov Sabuhi Fuad oglu**, **Imammadiyev Asiman Mehman oglu**, **Karimov Azad Zakir oglu**, **Suleymanov Khayal Elkhan oglu**, **Badalov Javidan Zaur oglu**, **Rasulov Murad Ilgar oglu**, **Mahmudzada Ulvi Mazahir oglu**, **Shirinov Omar Mughan oglu**, **Aghazada Mirtalib Heydar oglu**, **Zulfizada Joshgun Adil oglu**, **Mammadov Mahammad Bilal oglu**, **Huseynov Erkin Adalat oglu**, **Budaqli Sulay Maharram oglu**, **Humbatov Ravil Mubariz oglu**, **Gurbanov Khagan Dashgin oglu**, **Huseynov Saddam Rafig oglu**, **Maharramov Turan Tarlan oglu**, **Huseynov Elmir Abdul oglu**, **Imamguliyev Umid Vugar oglu**, **Mammadov Safiyar Elshan oglu**, **Shirinov Polad Seyran oglu**, **Khalilov Gadim Ilgar oglu**, **Samadov Elnur Sadagat oglu**, **Karimov Zohrab Azad oglu**, **Mammadli Namiq Agammad oglu**, **Latifov Farid Giyas oglu**, **Nabiyev Huseynali Hikmat oglu**, **Gaferli Aslan Rasim oglu**, **Heydarov Sair Jamaladdinovich**, **Isayev Sadiq Rashad oglu**, **Suleymanov Turkhan Idris oglu**, **Malikov Vusal Bakhtiyar oglu**, **Verdiyev Nihad Nijat oglu**, **Muradov Seyfaddin Mahmud oglu**, **Nasibov Kanan Jabrail oglu**, **Ahmadzada Maftun Seymur oglu**, **Kalbiyev Isa Rahim oglu**, **Guliyev Farid Vahid oglu**, **Isgandarov Gorkhmaz Isgandar oglu**, **Gurbanzada Jamil Anar oglu**, **Ganbari Rashad Elzamin oglu**, **Mahbali Farid Kamaladdin oglu**, **Mammadov Azer Mustafa oglu**, **Abdullayev Elvin Elchin oglu**, **Mammadov Nahid Huseynaga oglu**, **Omarov Eshgin Nasib oglu**, **Garazada Nijat Malik oglu**, **Nasirov Ulvi Asadulla oglu**, **Babazada Elshan Sahib oglu**, **Balashzada Royal Atdukhan oglu**, **Sadikhov Shamistan Abdulagha oglu**, **Rustamov Farid Nofel oglu**, **Rahimov Tabriz Rahim oglu**, and **Gurbanov Yusif Asif oglu**.

They were killed by bullets, shell fragments, or shell-blast injuries, including the explosion of mortar shells and various artillery shells, and sustained injuries classified as **serious harm to health** and life-threatening.

In addition, as a result of the same attacks, in the territory of **Zangilan district**, six servicemen of military units No. "N" of the State Border Service sustained serious injuries, twenty-one sustained less serious injuries, and eleven sustained minor injuries; in **Lachin district**, twenty servicemen of military units No. "N" of the Ministry of Defence sustained serious injuries, twenty-eight sustained less serious injuries, and thirty-seven sustained minor injuries; in **Kalbajar district**, twenty-eight servicemen of military units No. "N" of the Ministry of Defence sustained serious injuries, ninety-one sustained less serious injuries, and 179 sustained minor injuries; in **Dashkasan district**, one serviceman of military units No. "N" of the Ministry of Defence sustained serious injuries and six sustained minor injuries; and in **Qubadli district**, one serviceman of military unit No. "N" of the Ministry of Defence sustained minor injuries.

Thus, a total of **435 servicemen of the Armed Forces of the Republic of Azerbaijan** sustained injuries. The document begins listing them as follows:

Allahverdiyev Rahim Gashgay oglu, **Mammadli Nahid Alik oglu**, **Nurmahammadov Adil Elchin oglu**, **Abbasov Nurlan Ruslan oglu**, **Aliyev Novruz Murvat oglu**, **Budagov**

Salman Marifat oglu, **Aliyev Emil Ehtiram oglu**, **Hasanov Eltekin Alik oglu**, **Alyarov Mahir Fazil oglu**, **Safiyev Kanan Vidadi oglu**, **Javadli Kamran Khaladdin oglu**, **Hajizada Amrah Taleh oglu**, **Aliyev Ilknur Shahin oglu**…

Page 180

… **Zohrabov Namiq Askar oglu**, **Abbasov Sehr an Maharram oglu**, **Manafov Ravan Aziz oglu**, **Osmanov Shohrat Nasib oglu**, **Abdullayev Ramin Etibar oglu**, **Ibrahimov Nariman Sabir oglu**, **Mammadov Tabriz Isa oglu**, **Mammadov Razil Rafig oglu**, **Nabiyev Nadir Igor oglu**, **Abbasov Nijat Abulfat oglu**, **Aliyev Ujal Habil oglu**, **Jamalov Shukur Aghaverdi oglu**, **Safiyev Muslim Ramil oglu**, **Huseynov Panah Surkhay oglu**, **Abdullayev Orkhan Ulvi oglu**, **Huseynov Bahram Bakhtiyar oglu**, **Mammadzada Murad Rahim oglu**, **Mirzayev Rustam Vagif oglu**, **Sheydayev Elshad Saleh oglu**, **Khasiyev Alasgar Hasan oglu**, **Tahirli Halay Malik oglu**, **Javadov Natiq Shahin oglu**, **Shukurli Ughur Vasif oglu**, **Mammadli Elvin Hafiz oglu**, **Mehdiyev Sanan Sadraddin oglu**, **Yusifov Mehdi Fuzuli oglu**, **Huseynov Jeyhun Faralmaz oglu**, **Rajabov Sakhavat Togrul oglu**, **Zeynalov Tural Nail oglu**, **Shukurov Mahmud Sabir oglu**, **Rzazada Kenan Fayyaz oglu**, **Bayramov Azad Ziyaddin oglu**, **Guliyev Sakhavat Rahil oglu**, **Yusifov Yusif Suhib oglu**, **Hajiyev Ruzi Dayanat oglu**, **Shikhaliyev Ali Fagan oglu**, **Khalilov Suleyman Hovsat oglu**, **Guliyev Sayyad Kamal oglu**, **Khankishiyev Arzuman Fakhraddin oglu**, **Eyvazov Elmin Dashdamir oglu**, **Gayibov Mammad Valeh oglu**, **Aliyev Nabi Akif oglu**, **Latifzada Zamiq Rzagulu oglu**, **Mammadov Muraz Shahriyar oglu**, **Garibov Yaver Firuz oglu**, **Aljanov Vahid Faiq oglu**, **Shikhaliyev Elmir Rovshan oglu**, **Abdullazada Nurlan Elkhan oglu**, **Anarajabov Ramazan Elshad oglu**, **Musayev Ravan Shafat oglu**, **Ananyev Nazim Roman oglu**, **Feyzullayev Kanan Mahmud oglu**, **Jafarov Teymur Mahammadrasul oglu**, **Hasanov Jeyhun Ramiz oglu**, **Ibrahimli Umid Mikayil oglu**, **Karimov Allahverdi Ilyas oglu**, **Mammadov Elhan Galandar oglu**, **Musayev Nurlan Hafiz oglu**, **Garayev Suleyman Faiq oglu**, **Safarov Etibar Sahib oglu**, **Abbasi Vusal Fazil oglu**, **Shikhiyev Ruslan Zahir oglu**, **Soltanov Tural Rahil oglu**, **Taghiyev Elvin Ibad oglu**, **Abdullayev Yuksal Basrat oglu**, **Aghja Hamid Isa oglu**, **Abbasli Murad Adalat oglu**, **Abdulhasimli Ibrahim Habil oglu**, **Aslanov Elzar oglu**, **Bashirov Rashan Zafar oglu**, **Ismayilov Rabil Nayyub oglu**, **Muradli Mahammad Fikrat oglu**, **Nasirov Talat Habib oglu**, **Safarli Sanan Elshad oglu**, **Nuraliyev Ruslan Yalchin oglu**, **Abbasov Ruslan Shaban oglu**, **Hasanov Hakim Nusreddin oglu**, **Orucov Shahin Azizkhan oglu**, **Bagirov Neymat Seymur oglu**, **Ahmadzada Ahmad Telman oglu**, **Aliyev Amrah Sabir oglu**, **Asgarli Kamil Hasangulu oglu**, **Hajiyev Khayal Alovsat oglu**, **Huseynov Nijat Ramiz oglu**, **Gasimov Gunduz Intizar oglu**, **Gasimov Safar Sakhavat oglu**, **Salimov Javidan Nadir oglu**, **Adishli Nariman Jamil oglu**, **Aghayev Ramiz Etimad oglu**, **Aliyev Kanan Shahin oglu**, **Jabbarov Peyman Bayram oglu**, **Jafarov Ravan Namizad oglu**, **Aliyev Zahid Mazahir oglu**, **Azimli Elburus Faday oglu**, **Hamidli Ibrahim Sabir oglu**, **Huseynov Ariz Arif oglu**, **Huseynov Afrayil Jabrayil oglu**, **Huseynov Ismayil Buyukishi oglu**, **Ismayil Shavkat Dayanat oglu**, **Mammadov Ehtiram Hasan oglu**, **Nahmatli Kanan Elman oglu**, **Pirverdiyev Garib Hafiz oglu**, **Gazakhov Azer Elman oglu**, **Gojayev Zahid Vilayat oglu**, **Guliyev Mehman Bahruz oglu**, **Sadigov**

However, since the said persons entered shelters, were able to avoid bullets and shells by hiding behind various obstacles, were evacuated from the scene, and were provided with qualified medical assistance in time, the perpetrators were unable, for reasons beyond their control, to kill them — **436 persons in total**.

Following the armed conflict that took place in **September–November 2020**, under paragraph 4 of the trilateral Statement signed on **10 November 2020** by the President of the Republic of Azerbaijan, the Prime Minister of the Republic of Armenia and the President of the Russian Federation, the withdrawal of Armenian armed formations from the occupied territories of Azerbaijan was envisaged, and the temporary deployment of Russian peacekeepers in the **Karabakh region of** Azerbaijan was provided.

Page 183

However, the criminal organization operating in that territory and its structural units — armed formations not provided for by law — did not withdraw from the sovereign territories of the Republic of Azerbaijan. In **Khojaly, Aghdara, Khankendi, Khojavend** and **Shusha districts**, they continued unlawfully building engineering-fortification structures for future criminal purposes. They concealed the remaining weapons, military equipment and installations in that territory in an open manner, and brought to that territory, unlawfully, weapons, combat ammunition, explosives and devices, and military equipment. They continued mining operations around the positions they had fortified.

Under the leadership of the heads of the criminal organization — **Ruben Vardanyan**, **Arkadi Ghukasyan**, **Arayik Harutyunyan**, **Davit Ishkhanyan**, **Lyova Mnatsakanyan**, **Davit Manukyan** and other leaders of the criminal organization — the members of the criminal organization possessed at least:

1 T-90C tank, **71 T-72 tanks**, **22 BMP-2 vehicles** and other types of armoured combat vehicles — **160 units of armoured combat equipment in total**; **3,059 AK-74 automatic rifles** of **5.45 mm** calibre; **393 AK-74N automatic rifles** of the same calibre; **167 AKS-74 automatic rifles** of the same calibre; **2,110 AK-103 automatic rifles** of **7.62 mm** calibre; **2,040 AKM automatic rifles** of the same calibre; **422 AKMS automatic rifles** of the same calibre; **4,257 bayonet-knives**; and, including various types of cartridges, **16,805,903 units** of various firearms, their component parts and ammunition in total.

They also possessed **230 mortars of various types in total**, **137 anti-tank weapons of various types in total**, **162 artillery guns of various types in total**, **1,419 optical devices of various types in total**, **1,540 bulletproof vests in total**, as well as plates and inserts for bulletproof vests, **5,320 magazines for various types of automatic rifles in total**, **3 tripod radar systems and other military-technical property**, **35,621 rounds of various types of mortar ammunition in total**, **3,994 artillery rounds of various types in total**, **9,353 detonators of various types in total**, **41,522 hand grenades of various types in total**, and **221 guided anti-tank missiles of various types in total**.

They also possessed the **"Pole-21" radio-electronic warfare complex**, developed in **2016** at the **Scientific and Technical Centre of Radio-Electronic Warfare of the Russian Federation**, designed to create interference with global navigation satellite systems used for protecting important state and Armed Forces facilities from aerial attack means, including UAVs, radio-guided missiles and artillery shells, and to interfere at precise frequencies with

GPS, GLONASSand **BeiDou**-type global satellite navigation systems used by aircraft and other flying devices in order to divert them from their targets.

They also possessed the **"Repellent-1" radio-technical reconnaissance and jamming system**, used to detect small UAVs and their ground-control stations, and to suppress their control channels, navigation and telemetry signals.

According to the text, they thereby issued orders and instructions that served to cause explosions, fires and other acts (considered terrorism); to disturb public security in the sovereign territory of the Republic of Azerbaijan, which was under the temporary supervision of Russian peacekeepers; to create fear among the population; to influence decision-making by state authorities or international organizations; to cause death to people; to inflict harm on health; to cause significant material damage; and to create the danger of other socially dangerous consequences.

Furthermore, the members of the armed formations that were structural units of the criminal association, in order to execute criminal orders and instructions, positioned themselves in unlawfully constructed combat positions and other military engineering-fortification structures and, from **10 November 2020 to 19 September 2023**, continuously fortified those positions.

Page 184

During that period, from their central headquarters unlawfully deployed in **Khankendi city**, and from **Dashkend village of Khojaly district**, **Askeran settlement**, **Khojaly city** and other settlements of **Khojaly district**, from **Aghdara city** and other settlements of **Aghdara district**, from **Khojavend city**, the **Girmizi Bazar settlement** and other settlements of **Khojavend district**, from **Khalfali village** and the **Turshsu settlement** of **Shusha district**, as well as from armed forces protection posts and headquarters located in **Aghdam, Fuzuli, Khojavend, Kalbajar** and **Lachin districts**, and in **Shusha city**, they opened intensive fire of a destructive nature.

They fired on the protection posts and headquarters of the Armed Forces of the Republic of Azerbaijan, using tanks and artillery installations. In addition, in a planned manner and at close distances from one another, and without being required by any military necessity, they continued laying numerous anti-tank and anti-personnel mines and other explosive devices, many of which were manufactured in the Republic of Armenia and brought by them to the occupied territories until **2020**.

From around **13:00 on 19 September 2023**, they began attacking military and civilian objects belonging to the Republic of Azerbaijan by firing, in a more active manner, from the said artillery installations, mortars and weapons of various calibres that they had unlawfully kept.

From around **13:00 on 19 September 2023** until around **13:00 on 20 September 2023**, local anti-terrorist operations were carried out. During those operations, the leaders and members of the criminal organization offered armed resistance to the Armed Forces of the Republic of Azerbaijan from unlawful armed combat positions established in the territories they had occupied.

As a result of intensive fire from the above-mentioned large-calibre weapons, mortars and artillery installations at the protection posts and headquarters of the Armed Forces of the Republic of Azerbaijan located in **Aghdam, Fuzuli, Khojavend, Kalbajar** and **Lachin districts**, as well as in **Shusha city**, bodily injuries were caused to **205 servicemen** of the Armed Forces of the Republic of Azerbaijan. These included:

50 persons in **Papravand, Abdal, Gulabli and Mollalar villages of Aghdam district** and other areas of that district; **48 persons** in **Gharakand, Sos and Jutju villages of Khojavend district** and other areas of that district; **45 persons** in **Janyatag village of Aghdara district** — formerly **Janyatag village of Tartar district** — and in **Sirkhavend village of Aghdara district** and other areas of that district; **26 persons** in **Daghdaghan and Harov villages of Khojaly district**and other areas of that district; **7 persons** in **Shusha district**; **7 persons** in **Khankendi city**; **2 persons** in **Finga village of Lachin district**; **1 person** in **Tartar district**; and **12 persons** in **Tazakend village of Kalbajar district** and other areas of that district, from military unit No. "N" of the Internal Troops of the Ministry of Internal Affairs, as well as **7 servicemen** of military unit No. "N" of the Ministry of Defence.

By means of bullets, shrapnel and fragments of shells fired by them, these injuries were classified, according to their nature, as **serious harm to health and dangerous to life**.

In addition, on the same date, the leaders, members and other persons of the criminal organization opened fire:

in **Aghdara district**, causing injuries to **35 servicemen** of military units No. "N" of the Ministry of Defence — **39 servicemen** sustained less serious injuries, **31 servicemen** sustained injuries for which no degree was assigned;

in **Khojavend district**, causing serious injuries to **22 servicemen** of military units No. "N" of the Ministry of Defence, less serious injuries to **55 servicemen**, minor injuries to **97 servicemen**, and injuries with no assigned degree to **16 servicemen**;

in **Aghdam district**, causing serious injuries to **20 servicemen** of military units No. "N" of the Ministry of Defence, less serious injuries to **50 servicemen**, minor injuries to **155 servicemen**, and injuries with no assigned degree to **21 servicemen**;

in **Khojaly district**, causing serious injuries to **15 servicemen** of military units No. "N" of the Ministry of Defence, less serious injuries to **33 servicemen**, minor injuries to **69 servicemen**, and injuries with no assigned degree to **7 servicemen**;

in the same area, causing minor injuries to **3 servicemen** of military unit No. "N" of the Internal Troops of the Ministry of Internal Affairs;

in **Kalbajar district**, causing serious injuries to **3 servicemen** of military units No. "N" of the Ministry of Defence, less serious injuries to **14 servicemen**, minor injuries to **34 servicemen**, and injuries with no assigned degree to **1 serviceman**;

also in **Kalbajar district**, causing serious injuries to **5 servicemen** of military unit No. "N" of the Internal Troops of the Ministry of Internal Affairs, less serious injuries to **6 servicemen**, minor injuries to **8 servicemen**, and injuries with no assigned degree to **1 serviceman**;

in **Fuzuli district**, causing serious injuries to **1 serviceman** of military units No. "N" of the Ministry of Defence, less serious injuries to **4 servicemen**, minor injuries to **9 servicemen**, and injuries with no assigned degree to **2 servicemen**;

in **Lachin district**, causing less serious injuries to **2 servicemen** of military units No. "N" of the Ministry of Defence and minor injuries to **3 servicemen**;

in **Shusha district**, causing serious injuries to **6 servicemen** of military units No. "N" of the Ministry of Defence, less serious injuries to **10 servicemen**, minor injuries to **38 servicemen**, and injuries with no assigned degree to **2 servicemen**;

also in **Shusha district**, causing less serious injuries to **2 servicemen** of military unit No. "N" of the Internal Troops of the Ministry of Internal Affairs;

in **Khankendi city**, causing serious injuries to **16 servicemen** of military units No. "N" of the Ministry of Defence, less serious injuries to **11 servicemen**, minor injuries to **27 servicemen**, and injuries with no assigned degree to **11 servicemen**;

and in **Tartar district**, causing minor injuries to **1 serviceman** of military unit No. "N" of the Ministry of Defence.

In total, injuries were inflicted on **1,004 servicemen** of the Armed Forces of the Republic of Azerbaijan: **123** sustained serious injuries, **226** sustained less serious injuries, **563** sustained minor injuries, and **92** sustained injuries for which no degree was assigned. Since the said persons entered shelters, hid behind various obstacles, avoided bullets and shells in time, were evacuated from the scene, and were provided with qualified medical assistance in time, they could not be killed as a result of the incident.

Thus, as a result of the local anti-terrorist operations carried out, the sovereign territories of the Republic of Azerbaijan — **Aghdara city and district**, as well as **Shusha district** — were completely liberated from occupation on **20 September 2023**; **Khojaly city and district** on **24 September 2023**; **Khojavend city and district** on **26 September 2023**; and **Khankendi city** on **29 September 2023**.

At the same time, injuries were inflicted on **205 servicemen** of the Armed Forces of the Republic of Azerbaijan, namely:

Isayev Ismayil Cherkez oglu, **Zamanli Ahmad Azad oglu**, **Janbakhishov Khayal Kheyrulla oglu**, **Iskandarov Murad Alagha oglu**, **Khanaliyev Ismayil Ziyad oglu**, **Hamidli Mikayil Vugar oglu**, **Abbasov Ruslan Abilfat oglu**, **Khanmammadov Huseyn Mayis oglu**, **Mirzayev Sanan Vugar oglu**, **Garayev Elmin Rafat oglu**, **Huseynzada Mirmusa Vugar oglu**, **Mammadov Royal Asif oglu**, **Khalilli Mahammad Ilgar oglu**, **Mammadov Tural Suleyman oglu**, **Gafarov Savalan Isfandiyar oglu**, **Aliyev Sarkhan Rahil oglu**, **Balabayli Eljan Vasif oglu**, **Nasibov Agshin Vasif oglu**, **Teymurov Rasul Yusif oglu**, **Aliyev Shahriyar Bakhtiyar oglu**, **Gasimli Nijat Elshan oglu**, **Samadov Elchin Akif oglu**, **Aghjabayov Tural Tabriz oglu**, **Karimov Elnur Adil oglu**, **Mehdizada Mirpasha Yagub oglu**, **Mammadaliyev Niyazi Samir oglu**, **Ibrahimli Elchin Sadiq oglu**, **Bilalov Sarkhan Ismat oglu**, **Aghayev Jeyhun Etibar oglu**, **Shahriyarov Vusal Tabiyyat oglu**, **Alakbarov Ramal Elnur oglu**, **Bayramov Tapdiq Namiq oglu**, **Ahmadov Vusal Ilgar oglu**, **Jalilov David Raufovich**, **Salmanov Elchin Habil oglu**, **Abbasov Mehdi Amrah oglu**, **Guluzada Nihat Gasim oglu**, **Amirov Tural Matlab oglu**, **Khalfov Tapdiq Vidadi oglu**, **Rustamov Vusal Rustam oglu**, **Jafarov Oleg Gulu oglu**, **Aliyev Valiulla Elmanovich**, **Safarov Gokhan Ilgar oglu**, **Nurmahammadov Ramazan Nurahmadovich**, **Aliyev Sabuh Tahir oglu**, **Gardashzada Elsevar Rakif oglu**, **Mustafazada Vali Jeyhun oglu**, **Zeynalli Rashid Madat oglu**, **Akbarov Sahid Natiq oglu**, **Valizada Rashad Elshan oglu**, **Guliyev Najmaddin Natiq oglu**, **Hasanov Amral Vugar oglu**, **Ziyadov Jasarat, Zaur oglu,**

Mirzamov Nijat Safiyulla oglu, **Garayzada Anar Mais oglu**, **Aghayev Rashad Kamil oglu**, **Abdullayev Nizami Eynulla oglu**, **Nazarov Rahib Vagif oglu**, **Mammadov Elvin Gurban oglu**, **Ibrahimov Farid Fagan oglu**, **Hajibabayev Rovshan Aliheydar oglu**, **Mammadov Raul Eldar oglu**, and **Zohrabov Namiq Asgar oglu** sustained bodily injuries of varying degrees.

During subsequent inspections of the territories, the above-listed weapons, ammunition, military equipment and other devices belonging to members of the criminal association were discovered and seized.

Under the direct leadership of **Ruben Vardanyan** and others, members of the criminal association, acting with the common criminal intent and purpose of committing crimes against the safety of civil aviation, contrary to the requirements of the **Montreal Convention of 23 September 1971 for the Suppression of Unlawful Acts against the Safety of Civil Aviation**, including provisions concerning the destruction or damage of aircraft in service, or the transmission of false information that endangers the safety of an aircraft in flight, as well as the **Chicago Convention of 1944 on International Civil Aviation**, the **Tokyo Convention of 1963 on Offences and Certain Other Acts Committed on Board Aircraft**, and numerous other norms of international law, directly interfered with the exclusive sovereignty of the Republic of Azerbaijan over its airspace in international and domestic flights.

They did so for the purpose of creating a threat to the safety of air traffic and flights, causing death and other serious consequences, causing aircraft to lose real-time control of their location and route while in flight, and creating conditions under which aircraft could be involved in accidents in adverse visual weather conditions requiring visibility of their actual location.

For that purpose, they used the **Pole-21** radio-electronic warfare complex, manufactured in the Russian Federation in **2016** at the **Scientific and Technical Centre of Radio-Electronic Warfare**. This complex is designed to jam receivers of global navigation systems, with a jamming area of **150 × 150 kilometres**, a sector of **125° in azimuth** and **25° in elevation angle**, and is intended to suppress **NAVSTAR GPS** and **GLONASS** receiver devices.

They also used means capable of suppressing global satellite navigation-system receivers at a distance of not less than **25 kilometres**, with an output power of **300–1,000 watts**, allowing stations to be easily concealed in populated areas and installed on various roofs, high

buildings and other places. These means were capable of interfering with global navigation satellite-system equipment, thereby protecting important facilities from air-attack means, including UAVs, and creating precise interference in space in order to divert aircraft and other aerial equipment flying by means of **GPS, GLONASS** and **BeiDou** global satellite navigation systems away from their targets.

They also used the **Repellent-1** radio-electronic warfare complex, manufactured in the Russian Federation, which is intended for detecting small UAVs and their control stations, and for suppressing their navigation and telemetry signals. In addition, by acquiring the **Mortira** type radio jamming station operating in the **25–2600 MHz** range, capable of jamming radio communications and severing communication links in areas of military operations, they deployed members of the criminal association to various locations in the occupied territories of the Republic of Azerbaijan and thereby created a threat to safe use of the airspace belonging to the Republic of Azerbaijan.

Page 192

In order to restrict and obstruct safe and regular air traffic in the airspace of the **Republic of Azerbaijan** by transporting members of the criminal organization to various points within the territory of the **Republic of Azerbaijan**, they installed the **"Repellent-1"** and **"Pole-21M"** radio-electronic jamming stations through unknown individuals in the village of **Hasanriz** (**40°12'5.826"N, 46°27'30.498"E**) of the **Kalbajar region** (currently **Aghdara**); the village of **Mehdibeyli** (**39°53'32.000"N, 46°43'40.000"E**) of the **Khojaly region**; and the village of **Avdur** (**39°49'56.023"N, 46°56'14.324"E**) of the **Aghdam region**.

In addition, the **"Mortira"** radio-electronic barrier station was installed in the territory of the **Khojaly region**, in the **Noraguh settlement** (**39°57'20"N, 46°47'09"E**), **Khankendi city** (**39°49'31.738"N, 46°44'22.626"E**), the village of **Garakend** in the **Khojavend region** (**39°50'48.198"N, 47°02'13.084"E**), the village of **Guneykhirman** in the **Khojavend region** (**39°44'32.959"N, 47°00'37.064"E**), the village of **Kichik Garabey** in the **Tartar region** (currently **Aghdara**) (**40°12'11.039"N, 46°44'46.390"E**), the village of **Ashagi Oratag** in the **Tartar region** (currently **Aghdara**) (**40°11'22.515"N, 46°47'49.577"E**), and on the border of the **Khojaly** and **Khojavend districts**, **1 km** from the village of **Giziloba**, **Khojaly district**.

By placing and putting into operation the station on **Mount Bogurkhan** (**39°47'05.533"N, 46°50'44.599"E**), located in the north, they interfered with the operation of aircraft using the airspace of the **Republic of Azerbaijan**, including:

On **May 31, 2022**, a civil aircraft of the **Republic of Turkey**, model **"B-77-I"**, with flight number **0443-0734**, flying on the **Istanbul–Almaty** route at an altitude of **10,668 meters** using the airspace of the **Republic of Azerbaijan**, starting at **11:56** over the **Gazakh region** and ending at **12:07** over the **Sheki region**.

On **31 May 2022**, they applied radio interference to an aircraft belonging to the Republic of Turkey, model **"A-21-N"**, board number **0434-0207**, flying on the **Bishkek–Istanbul** route at an altitude of **9,600 metres**, using the airspace of the Republic of Azerbaijan. The interference began at **12:05** over **Shamkir district** and ended at **12:12** over **Gazakh district**.

On **8 July 2022**, they applied radio interference to an aircraft belonging to the Republic of Finland, model **"A-359"**, board number **0405-0632**, flying on the **Hong Kong–Helsinki** route at an altitude of **10,000–12,000 metres**, using the airspace of the Republic of Azerbaijan. The interference began at **01:10** over **Kurdamir district** and ended at **01:15** over **Gakh district**.

On **8 July 2022**, they applied radio interference to an aircraft belonging to the Republic of Finland, model **"A-359"**, board number **0433-3604**, flying on the **Singapore–Helsinki** route at an altitude of **12,000 metres**, using the airspace of the Republic of Azerbaijan. The interference began at **02:09** over **Neftchala district** and ended at **01:28** over **Gakh district**.

On **11 August 2022**, they applied radio interference to an aircraft belonging to the Grand Duchy of Luxembourg, model **"B-748"**, board number **0470-1305**, flying on the **Baku–Luxembourg** route at an altitude of **10,200 metres**, using the airspace of the Republic of Azerbaijan. The interference began at **12:12** over **Ganja city** and ended at **12:22** over **Gadabay district**.

On **3 January 2023**, they applied radio interference to an aircraft belonging to the Republic of Finland, model **"A-359"**, board number **0471-5147**, flying on the **Hong Kong–Helsinki** route at an altitude of **11,400 metres**, using the airspace of the Republic of Azerbaijan. The interference began at **13:26** over **Kurdamir district** and ended at **13:39** over **Gakh district**.

On **25 March 2023**, they applied radio interference to an aircraft belonging to the Republic of Turkey, model **"A20N"**, board number **0432-2463**, flying on the **Kazan–Antalya** route at an altitude of **11,400 metres**. The interference began at **07:18** in the international airway intersection corridor within the territory of Azerbaijan, conventionally called **"Gaspi"**, and ended at **07:57** within the country in the corridor conventionally called **"Peman."**

On **20 September 2023**, they applied radio interference to an aircraft belonging to **Hong Kong**, model **"B-77VV"**, board number **0424-0245**, flying on the **Paris–Hong Kong** route at an altitude of **10,000 metres**, using the airspace of the Republic of Azerbaijan. The interference began at **19:37** over **Gabala district** and ended at **19:40** over **Gipar**, one of the international airway intersection corridors located in the territory of Azerbaijan.

On **20 September 2023**, they applied radio interference to an aircraft belonging to the Republic of Ireland, model **"A-320"**, board number **0423-6771**, flying on the **Kutaisi–Alma-Ata** route at an altitude of **10,600 metres**, using the airspace of the Republic of Azerbaijan. The interference began at **19:38** over **Gabala district** and ended at **19:41** over the same district.

They also applied radio interference to numerous unidentified aircraft and other flying objects, interfering with the ability of aircraft engaged in international air cargo to carry out unobstructed flights, and thereby creating a threat to the safety of aircraft during flight.

Page 193

During the anti-terrorist operation carried out by the Armed Forces of the Republic of Azerbaijan on **19 September 2023**, the **Pole-21** radio-electronic jamming station was discovered and seized in working condition by the Azerbaijani Armed Forces in the territory of **Khojaly district**, in a military unit used by members of unlawful armed formations.

However, in order to prevent the competent authorities of the Republic of Azerbaijan from seizing the other radio-electronic jamming stations — **Repellent-1** and **Mortira** — members of the unlawful armed formation disabled them. The remaining parts of those jamming stations were later identified and seized from a facility in **Khankendi city** used under the name of a military unit by members of the unlawful armed formations.

Page 194

In court, the accused **Ruben Vardanyan** refused to testify.

His statements given during the preliminary investigation were read out in court. It was established that, at the initial stage of the preliminary investigation, when he was charged under Articles **214-1**, **279.3** and **318.1** of the Criminal Code of the Republic of Azerbaijan, he did not plead guilty.

In his statement, he said that he was born on **25 May 1968** in **Yerevan**, Republic of Armenia. In **1985**, he graduated from School No. 20 in Yerevan. In the same year, he entered the Faculty of Economics of **Moscow State University**. After his first year, he was called up for military service and served on active duty in the Armed Forces of the USSR from **1986 to 1988**.

After returning from military service, he continued his education and graduated from the university in **1992**. In **1993**, in Russia, he married **Veronika Zonabend**. Four children were born from that marriage: his sons **David** and **Georgy**, and his daughters **Margarita** and **Maria**.

Beginning in the early 1990s, he engaged in commercial activity, carried out investment projects and created various companies. The main years of his business activity were **2006–2011**. During that period, he created several companies, the most successful of which was **Troika Dialog**. He headed that company until **2012**, after which he sold his shares in the company to one of Russia’s well-known banks.

At present, he owns shares in companies in Russia and in several other foreign countries. During the last ten years, he has not participated in the management of his shares in those companies and appointed special representatives for that purpose. Until **2021**, he lived in **Moscow**, Russia, **London**, United Kingdom, and other European countries.

After the Second Karabakh War, which took place at the end of **2020**, he decided, out of patriotic feelings, to participate in the governance of **"Artsakh."** For that reason, in the summer of **2022**, he applied to the relevant state bodies of the Russian Federation to renounce Russian citizenship. Before that, he had applied for citizenship of the Republic of Armenia and received Armenian citizenship in **June 2021**.

From **October 2022**, he in fact began permanently living in **"Artsakh,"** in **Khankendi city**. On **4 November 2022**, taking into account his wish to participate in the governance of Artsakh and the support of the Armenian population, he was appointed by the **"president"** of that **"entity"** to the position of **"State Minister of Artsakh."**

The **"State Minister"** performed the functions of the **"head of government"** and mainly dealt with economic and social issues. He held the position of **"State Minister"** until **23 February 2023** and was removed from that position by a decision of the **"president."** Nevertheless, he voluntarily continued living in **Khankendi**, participated in the socio-economic life of the local population and continued providing them with whatever support he could.

After the military operations carried out by Azerbaijan on **19–20 September 2023**, the leadership of **"Artsakh"** decided to surrender. After that, because the Armenian population did not wish to live together with Azerbaijanis, they began leaving the region in the direction of the Republic of Armenia. He, however, decided to stay there because he regarded those territories as ancient Armenian lands.

In the following days, however, observing that the outflow of the population had become more intensive, and because the Armenian population did not wish to integrate into Azerbaijan and live together with Azerbaijanis, he also decided to leave that region in the direction of Armenia.

For that purpose, on **25 September 2023**, together with several of his compatriots, he set out in a **Toyota** vehicle. Because of traffic congestion on the roads, they reached the Armenia–Azerbaijan border checkpoint located in **Lachin district** in the morning hours of **27 September**. During passport control, he was detained by persons wearing the military uniform of the Republic of Azerbaijan.

In response to questions put to him, the accused **Ruben Vardanyan** stated that he had first visited **Shusha** and **Khankendi** in **2002**, as a person of Armenian ethnicity who regarded those places as native to him. Although he himself was born in **Yerevan**, his father was originally from **Hadrut settlement**. After that, he repeatedly travelled to those regions.

During those trips, he provided financial support for the restoration of the territories, including schools and other infrastructure facilities.

Page 195

At the same time, wedding ceremonies were held for hundreds of people living in Karabakh using his financial resources.

In addition, he had repeatedly travelled to the Azerbaijan SSR. He had visited **Baku** and other cities for leisure and to meet friends who had lived there. The last time he was in Baku was in **1986**.

The following question was put to the accused **Ruben Vardanyan**:

"You state in your testimony that you held the position of **'State Minister'** in **Khankendi city**, located in the Karabakh economic zone of the Republic of Azerbaijan. However, the territory you refer to is internationally recognised as the territory of Azerbaijan. Neither the Constitution of the Republic of Azerbaijan nor any other legal act provides for or recognises such a position in that territory. Nor were you appointed, in the manner established by law, to any position in the state structures of the Republic of Azerbaijan. You entered the territory of Azerbaijan and began your activity there after the trilateral Statement concerning the withdrawal of Armenian armed formations from the occupied territories of the Republic of Azerbaijan. Moreover, you were not born either in Azerbaijan or in its Karabakh region, and you are a citizen of another country. How do you explain this?"

In response, he stated that he held the position of **"State Minister of the Republic of Artsakh"** existing in that region; that he regarded that **"entity"** as an independent state with its own state structures; and that, during numerous speeches he made through social networks, as well as during interviews he gave to local and foreign television channels, he had declared that he considered **"Artsakh"** to be an independent state.

In addition, the accused **Ruben Vardanyan**, answering questions, stated that armed formations not provided for by the legislation of the Republic of Azerbaijan existed in the Karabakh economic zone of the Republic of Azerbaijan, and that these constituted the **Artsakh Self-Defence Army**, subordinate to the **"president of the state."** The armed forces were subordinate to the president of Artsakh, and he himself had no authority to give instructions to military personnel.

However, in speeches he had repeatedly made through social media accounts, he stated that they had to defend their native lands and resist until the end. He told the Armenian population that they had to defend their ancestral lands, that is, **"Artsakh,"** and resist until the end.

After the First Karabakh War, there had been no border between Armenia and the Karabakh region. They travelled back and forth without using the border crossing points of the Republic of Azerbaijan, using roads built through empty areas.

During subsequent interrogations at later stages of the investigation, **Ruben Vardanyan** refused to answer the questions addressed to him.

The guilt of **Vardanyan Ruben Karlenovich** in committing the above-mentioned criminal acts was confirmed by the evidence set out below.

Alakbarli Afgan Sayyaf oglu, questioned in court as a victim, stated that on **24 August 2023**, while carrying out agricultural work on agricultural land belonging to **Agroservice OJSC** in **Khojaly district**, and while operating a combine harvester belonging to that company, he struck an anti-tank mine. As a result, he sustained various bodily injuries, and the combine harvester was rendered completely unusable. He stated that he had a complaint against the accused and asked the court to impose the most severe punishment on him.

Guliyev Javad Rovshan oglu, questioned in court as a victim, stated that on **19 September 2023**, at around **18:00**, while preventing a provocation by Armenian armed formations, he was wounded in the left knee area as a result of firearm shots fired by Armenian armed formations. He received treatment for **18 days** at **Aghdam District Central Hospital** and at the **Central Military Clinical Hospital** of the Ministry of Defence. He stated that he had a complaint against the accused and asked the court to impose the most severe punishment on him.

Aghazada Ravan Huseyn oglu, questioned in court as a victim, stated that on **19 September 2023**, while serving in military unit No. "N" of the Ministry of Defence, and while preventing large-scale provocative actions by Armenian armed formations in the direction of **Aghdam district**, he was wounded in the left shoulder area as a result of a shell fired by Armenian armed formations.

He received treatment for **15 days** at **Aghdam District Central Hospital**. He stated that he had a complaint against the accused and asked the court to impose the most severe punishment on him.

Adishli Nariman Jamil oglu, questioned in court as a victim, stated that on **12 September 2022**, while serving as a serviceman of the Armed Forces of the Republic of Azerbaijan in military unit No. "N" of the Ministry of Defence located in **Kalbajar district**, he observed enemy activity and immediately reported it to his commanders. They were then ordered to reinforce the posts.

While they were reinforcing the posts, the enemy's artillery units opened fire on their posts located on a strategic height and attempted to attack in that direction. Of the grenades fired, two fell in front of him, toward the rocky area; one fell to the right, and another to the left. After they had fallen at a distance of **5–6 metres**, Armenian armed formations attempted to attack and opened fire from a **5.45 mm machine gun**.

As a result of the fire opened by Armenian armed formations, he sustained a through-and-through bullet wound to his left leg, and his toe was damaged. He received treatment at the **Central Military Clinical Hospital** and other hospitals for nearly **one year and nine months**. By April–May, doctors advised him to undergo surgery on his leg, as there was a possibility of amputation due to calcium deficiency in the leg bone.

As a result of the fire opened by the Armenian armed forces, the servicemen of the No. "N" military unit of the Ministry of Defense where he served, his comrades-in-arms **Mahammad Mammadov and Erkin Huseynov**, were martyred next to him. Thus, out of the 18 (eighteen) personnel, **6 (six) were martyred and 12 (twelve) were wounded**. While preventing the attack by the Armenian armed forces, he sustained blast trauma, partial paralysis of the left side, and other injuries.

At that time, activity by Armenian armed formations was observed from the height where they were positioned, as formations and military vehicles gathered with their lights switched off.

Azimli Elburus Faday oglu, questioned in court as a victim, stated that in **2022**, while serving in military unit No. "N" of the Ministry of Defence located in the **Komurdagh** direction of **Kalbajar district**, he was wounded as a result of the explosion of an artillery shell belonging to Armenian armed formations. Because he sustained numerous shrapnel wounds from the explosion, he received treatment in hospital for **one month and fifteen days**. He asked the court to impose the most severe punishment on the accused.

Aghayev Elmaddin Farzi oglu, questioned in court as a victim, stated that on **19 September 2023**, while serving in military unit No. "N" of the Ministry of Defence and while preventing large-scale provocative actions by Armenian armed formations in the direction of **Aghdara district**, he was seriously wounded as a result of the explosion of a hand grenade thrown by Armenian armed formations. He received treatment for **three days** at **Barda District Central Hospital**, for **one week** at **Aghjabadi District Central Hospital**, and for **sixteen days** at the **Central Military Clinical Hospital**, and his treatment is currently continuing at a rehabilitation centre.

When the hand grenade was thrown by Armenian armed formations, he sustained numerous shrapnel wounds to his right arm and both legs. He stated that he had a complaint against the accused and asked the court to impose the most severe punishment on him.

Azizov Khalid Ilham oglu, questioned in court as a victim, stated that on **27 September 2020**, while preventing large-scale provocative actions by Armenian armed formations in the **Talish–Suqovushan** direction, he was wounded, sustaining a through-and-through injury to his left elbow and shrapnel wounds to the facial area. In **2022**, while serving in military unit No. "N" of the Ministry of Defence in the direction of **Kalbajar district**, his left elbow was wounded by a blind shrapnel wound as a result of artillery fire by Armenian armed formations. He stated that he had a complaint against the accused and asked the court to impose the most severe punishment on him.

Ismayil Sakhavat Dayanat oglu, questioned in court as a victim, stated that in **2022**, while serving in military unit No. “N” of the Ministry of Defence in the direction of **Kalbajar district**, as a result of artillery fire by Armenian armed formations **Ismayil Sakhavat Dayanat oglu**, questioned in court as a victim, stated that in **2022**, while serving in military unit No. “N” of the Ministry of Defence in the direction of **Kalbajar district**, he was wounded as a result of artillery fire by Armenian armed formations.

Page 197

As a result, he sustained closed craniocerebral trauma and shrapnel wounds to the left leg and the left side of the chest. He received treatment for **one month** at **Bayil Central Hospital**. He asked the court to impose a severe punishment on the accused.

Huseynov Ismayil Boyukkishi oglu, questioned in court as a victim, stated that on **12 July 2022**, while preventing large-scale provocative actions by Armenian armed formations, he sustained shrapnel wounds to his left leg, left cheekbone and head as a result of the explosion of a heavy artillery shell fired by Armenian armed formations. He received treatment for **20 days** at the **Central Military Clinical Hospital**.

During the enemy provocation, **Ibrahim Hamidli**, a warrant officer and serviceman of military unit No. “N” of the Ministry of Defence where he served, was wounded next to him, while **Umid Hasanov**, another serviceman of the same military unit, was martyred next to him. He asked the court to impose a severe punishment on the accused.

Hamidli Ibrahim Sahib oglu, questioned in court as a victim, stated that while serving in military unit No. “N” of the Ministry of Defence of the Armed Forces of the Republic of Azerbaijan, located in the **Komurdag** direction of **Kalbajar district**, and while preventing an attack by Armenian armed formations, he was wounded as a result of the explosion of shells fired from heavy artillery weapons. He was diagnosed with closed craniocerebral trauma and concussion of the brain, and received treatment at the same hospital for **two months**. He asked the court to impose a severe punishment on the accused.

Fataliyev Rahil Mubariz oglu, questioned in court as a victim, stated that on **12–13 September 2022**, on the Azerbaijan–Armenia conditional border, in the territory of **Zangilan district**, while preventing large-scale provocative actions by Armenian armed formations, he sustained various bodily injuries as a result of the explosion of a hand grenade thrown by Armenian armed formations. At that time, he was serving in military unit No. “N” of the State Border Service.

He was wounded during the fighting on the Azerbaijan–Armenia conditional border at post No. **142** located in **Zangilan district**. The injuries were inflicted by Armenian armed formations. At that time, several other servicemen of military unit No. “N” of the State Border Service where he served sustained various bodily injuries together with him. In addition, one serviceman of military unit No. “N” of the State Border Service where he served was martyred. During those battles, he sustained a bullet wound to the body area and

one bullet wound to the left leg. He asked the court to impose a severe punishment on the accused.

Rajabov Sakhavat Togrul oglu, questioned in court as a victim, stated that on **12–13 September 2022**, while preventing the provocation committed by the Armed Forces of the Republic of Armenia against the Republic of Azerbaijan, he was seriously wounded. On **13 September 2022**, **Ulvi Nasirov**, a junior warrant officer and serviceman of military unit No. "N" of the State Border Service, and also, on **15 September 2022**, **Rashad Huseynli**, a senior sergeant and serviceman of the same military unit, were martyred.

Thus, on **15 September 2022**, while they were conducting observation, they were attacked by the Armed Forces of Armenia. At that time, a serviceman who was fighting next to him, whose name he did not remember, was martyred as a result of a bullet wound to the head. The gunshot wound to his arm damaged his humerus and lung, and broke three ribs.

Mammadov Farid Farhad oglu, questioned in court as a victim, stated that he currently serves in the State Border Service. On **12–13 September 2022**, while preventing the provocation committed by the Armed Forces of the Republic of Armenia against the Republic of Azerbaijan, he sustained severe shrapnel wounds to the right side of his throat and to the elbow area of his right arm as a result of the explosion of a grenade thrown by Armenian armed formations.

While preventing that provocation, his comrades-in-arms, servicemen of military unit No. "N" of the State Border Service where he served — warrant officer **Farid Rustamov** and senior warrant officer **Nahid Mammadov** — were martyred. At the same time, other servicemen of that military unit, senior warrant officer **Tabriz Ramazanov** and senior warrant officer **Saleh Hasanov**, were seriously wounded. He asked the court to impose a severe punishment on the accused.

Page 198

Mirzaliyev Sanan Radil oglu, questioned in court as a victim, stated that while preventing large-scale provocative actions by Armenian armed formations, on **13 September 2022**, at around **01:00**, in the territory of **Zangilan district**, he and servicemen of military unit No. "N" of the State Border Service whose names he did not remember sustained various bodily injuries as a result of the explosion of a hand grenade thrown by Armenian armed formations. At the same time, other servicemen of that military unit — warrant officer **Farid Rustamov** and senior warrant officer **Nahid Mammadov**— were martyred from the bullet wounds they sustained.

At the time of the incident, he served as head of the 1st operational department of military unit No. "N" of the State Border Service. As a result of that provocation, he sustained shrapnel wounds to his arms and face. At that time, the opposing side attempted to violate the

state border of the Republic of Azerbaijan using manpower. He asked the court to impose a severe punishment on the accused.

Malikov Samir Ingilab oglu, questioned in court as a victim, stated that while preventing large-scale provocative actions by Armenian armed formations, on **13 September 2022**, during the night hours, in the territory of **Zangilan district**, junior warrant officer **Farid Rustamli**, a serviceman of military unit No. "N" of the State Border Service where he served, was martyred as a result of the explosion of a hand grenade thrown by Armenian armed formations. At the same time, he and several other servicemen of military unit No. "N" of the State Border Service whose names he did not remember sustained various bodily injuries. As a result of that provocation, he sustained shrapnel wounds to his left arm and face. He asked the court to impose a severe punishment on the accused.

Khankishiyev Jeyhun Khansuvar oglu, questioned in court as a victim, stated that while preventing large-scale provocative actions by Armenian armed formations, on **13 September 2022**, at around **06:00–07:00**, in the territory of **Kalbajar district**, servicemen of military unit No. "N" of the Ministry of Defence where he served — soldier **Huseynagha Nabiyev** and soldier **Farid Latifov** — were martyred as a result of the explosion of a mortar shell fired by Armenian armed formations. At the same time, he, senior lieutenant **Murad Humbatov**, senior lieutenant **Samad Samadli**, and several other servicemen of that military unit whose names he did not currently remember sustained various bodily injuries.

Armenian armed formations attacked with military equipment. He currently serves in military unit No. "N" of the Special Forces of the Ministry of Defence, and at the time of the incident he also served in that military unit as an operations officer. He asked the court to impose a severe punishment on the accused.

Jafarov Alasgar Alakbar oglu, questioned in court as a victim, stated that in **September 2022**, while serving at a post in military unit No. "N" of the State Border Service, he sustained severe injuries as a result of the enemy provocation, specifically the firing of an anti-tank grenade. During that battle, servicemen of military unit No. "N" of the State Border Service where he served — warrant officer **Farid Rustamov**, senior warrant officer **Nahid Mammadov** and other comrades-in-arms — were martyred, while some others sustained serious injuries.

He currently serves in **Jabrayil district**. At the time of the provocation by Armenian armed formations, he had been sent on assignment to those areas and served at that post for approximately **one month**. During his period of service, numerous provocations were committed by Armenian armed formations. Thus, during the night from **12 to 13 September 2022**, the enemy committed a provocation with manpower. During his one-month service at that post, the ceasefire was frequently violated by Armenian armed formations. He asked the court to impose a severe punishment on the accused.

Mammadov Safa Farman oglu, questioned in court as a victim, stated that while preventing large-scale provocative actions by Armenian armed formations, on **13 September 2022**, at

around **01:00**, in the territory of **Zangilan district**, warrant officer **Farid Rustamov** and senior warrant officer **Nahid Mammadov**, servicemen of military unit No. “N” of the State Border Service where he served, were martyred as a result of the explosion of a hand grenade thrown by Armenian armed formations. At the same time, he and other servicemen

sustained various bodily injuries. He currently serves in military unit No. “N” of the State Border Service. At the time of the incident, he also served in that military unit, holding the rank of junior warrant officer.

At the time of the incident, Armenian armed formations committed the provocation with the purpose of seizing the posts where they were serving and inflicting injuries on him and his comrades-in-arms. He asked the court to impose a severe punishment on the accused.

Shamiyev Alish Ahmad oglu, questioned in court as a victim, stated that while preventing large-scale provocative actions by Armenian armed formations, on **13 September 2022**, at around **14:30**, in the territory of **Zangilan district**, he and servicemen of that military unit whose names he did not remember sustained various bodily injuries as a result of sniper fire opened by Armenian armed formations. He stated that he had a complaint against the accused and asked the court to impose the most severe punishment on him.

Huseynov Eldar Adil oglu, questioned in court as a victim, stated that while preventing large-scale provocative actions by Armenian armed formations, on **19 September 2023**, at around **18:00**, in the territory of **Khanabad village of Khojaly district**, he sustained injuries as a result of mortar shells fired by Armenian armed formations falling and exploding nearby.

At that time, **four** persons were martyred and around **32** personnel sustained various bodily injuries. Among those persons there were also individuals who lost body parts. That provocation committed by Armenian armed formations took place in the areas from **Farrukh Mountain** toward the **Askeran–Khojaly** direction. During the anti-terrorist operations, he was in those areas. During the battles, the enemy side was not acting in the form of small armed groups, but in the form of a regular army. He stated that he had a complaint against the accused and asked the court to impose the most severe punishment on him.

Taghiyev Elvin Ibad oglu, questioned in court as a victim, stated that while preventing large-scale provocative actions by Armenian armed formations, on **14 September 2022**, at around **06:00–07:00**, as a result of a shell fired at the place where he was serving by Armenian armed formations using anti-tank missile systems, he and one serviceman whose name he did not remember sustained closed craniocerebral trauma and shrapnel wounds on the right side.

At the time of the incident, he served as a platoon commander in military unit No. “N” of the Ministry of Defence, and he currently continues serving in military unit No. “N” of the

Ministry of Defence. He stated that he had a complaint against the accused and asked the court to impose the most severe punishment on him.

Huseynov Mushviq Nizami oglu, questioned in court as a victim, stated that on **13 September 2022**, at around **18:00**, in the territory of **Kalbajar district**, as a result of fire opened by Armenian armed formations, servicemen of military unit No. "N" of the Ministry of Defence whose names he did not remember were martyred, while he and other servicemen of military unit No. "N" of the Ministry of Defence where he served sustained various bodily injuries.

He currently also serves in military unit No. "N" of the Ministry of Defence. Armenian armed formations committed a large-scale provocation in the direction of **Kalbajar district** and attacked in order to seize the heights; as a result, the enemy provocation was prevented. As a result of an artillery shell fired by Armenian armed formations, he sustained craniocerebral trauma. He stated that he had a complaint against the accused and asked the court to impose the most severe punishment on him.

Shahbazov Alihuseyn Iqbal oglu, questioned in court as a victim, stated that on **14 September 2022**, at around **18:00**, in the territory of **Kalbajar district**, he was injured as a result of the explosion of a mortar shell fired by Armenian armed formations. At that time, servicemen of military unit No. "N" of the Ministry of Defence where he served, whose names he did not remember, were martyred; other servicemen of that military unit also sustained various bodily injuries. He currently serves in military unit No. "N" of the Ministry of Defence. On the day of the incident, as a result of the explosion of the mortar shell fired by Armenian armed formations

he sustained closed craniocerebral trauma. He stated that he had a complaint against the accused and asked the court to impose the most severe punishment on him.

Karimov Samir Famil oglu, questioned in court as a victim, stated that on **19 September 2023**, at around **13:00**, while performing his official duties in the direction of **Shahbulag village of Aghdam district**, he was injured as a result of a shell fired by unlawful Armenian armed formations falling and exploding nearby. At the same time, as a result of the incident, his comrades-in-arms **Ali Heydarov**, **Tural Guliyev**, **Alizamin Ismayilov**, **Seymur Abbasov**, **Shamkhal Huseynov** and **Isgandar Huseynov** sustained injuries.

In connection with the injuries he sustained, he received treatment at **Goychay District Central Hospital**, **Aghdam District Central Hospital** and the **Central Military Clinical Hospital** of the Ministry of Defence. At the time he sustained the injuries, he served in military unit No. "N" of the Ministry of Defence as commander of the weapons-repair group of the RAS service of the material and technical support company, holding the rank of senior warrant officer. As a result of the explosion, he sustained craniocerebral trauma and

laceration wounds in the left temporal area. He stated that he had a complaint against the accused and asked the court to impose the most severe punishment on him.

Najafov Orkhan Bashir oglu, questioned in court as a victim, stated that on **19 September 2023**, at around **13:00**, while performing his official duties in the direction of **Aghdam district**, he sustained shrapnel wounds to the right arm and right leg areas, as well as craniocerebral trauma, as a result of a mortar shell fired by unlawful Armenian armed formations falling and exploding nearby. At the time he sustained the injuries, he served as deputy commander of the reconnaissance platoon of military unit No. "N" of the Ministry of Defence, holding the rank of warrant officer. He stated that he had a complaint against the accused and asked the court to impose the most severe punishment on him.

Mammadov Aliyar Zamir oglu, questioned in court as a victim, stated that on **13 September 2022**, in the territory of **Kalbajar district**, he sustained closed craniocerebral trauma as a result of the explosion of a mortar shell fired by Armenian armed formations. He received treatment for **one month** at the **Central Military Clinical Hospital** of the Ministry of Defence.

During that period, such provocations by Armenian armed formations occurred frequently; the enemy side fired from small- and large-calibre weapons. At the time he was injured, Armenian armed formations were carrying out an assault operation and attempted to advance. At that time, apart from him, there were other servicemen injured as a result of the provocation by Armenian armed formations. Thus, the position where they were located was situated in the territory of **Istisu settlement of Kalbajar district**; Armenian armed formations opened fire on them from the territory of **Jermuk district** and advanced from that direction. He stated that he had a complaint against the accused and asked the court to impose the most severe punishment on him.

Garazada Ali Ramil oglu, questioned in court as a victim, stated that on **13 September 2022**, at around **11:00–12:00**, in the territory of **Kalbajar district**, he sustained closed craniocerebral trauma as a result of the explosion of a mortar shell fired by Armenian armed formations. At that time, Armenian armed formations also opened artillery fire from the direction of **Jermuk district**. He stated that he had a complaint against the accused and asked the court to impose the most severe punishment on him.

Gurbanov Gurban Shafi oglu, questioned in court as a victim, stated that on **13 September 2022**, in the territory of **Kalbajar district**, he sustained closed craniocerebral trauma as a result of fire opened by Armenian armed formations. At that time, among his comrades-in-arms there were servicemen who were injured and martyred. Among the servicemen injured at the same time as him were **Umid Imamguliyev**, **Farid Latifov** and several other servicemen. After sustaining the trauma, he received treatment for **45 days** at the **Central Military Clinical Hospital** of the Ministry of Defence. He stated that he had a complaint against the accused and asked the court to impose the most severe punishment on him.

Sayilli Huseynbaba Ildirim oglu, questioned in court as a victim, stated that on **13 September 2022**, at around **14:00–15:00**, in the territory of **Kalbajar district**, he sustained closed

craniocerebral trauma as a result of the explosion of a mortar shell fired by Armenian armed formations. At that time, among his comrades-in-arms there were servicemen who were wounded and martyred. Among his comrades-in-arms, servicemen of military unit No. "N" of the Ministry of Defence where he served — soldier **Turan Maharramov**, **Umid Imamguliyev**, soldier **Farid Latifov**, and soldier **Huseynagha Nabiyev** — were martyred.

At that time, his comrades-in-arms were wounded and martyred both as a result of artillery strikes fired by Armenian armed formations and as a result of fire opened by manpower. During the period when the incident occurred, such provocations by Armenian armed formations frequently took place against the position where he served. Armenian armed formations opened fire from both large- and small-calibre weapons. He stated that he had a complaint against the accused and asked the court to impose the most severe punishment on him.

Gasimov Rahman Alijan oglu, questioned in court as a victim, stated that while serving in military unit No. "N" of the Ministry of Defence in the territory of **Istisu settlement of Kalbajar district**, on **13 September 2022**, at around **18:00–19:00**, while preventing large-scale provocative actions by Armenian armed formations from the direction of **Jermuk district**, he sustained closed craniocerebral trauma as a result of the explosion of a mortar shell. He received treatment for **one month** at the **Central Military Clinical Hospital** of the Ministry of Defence.

At that time, among his comrades-in-arms, servicemen of military unit No. "N" of the Ministry of Defence where he served — soldier **Turan Maharramov**, **Umid Imamguliyev**, soldier **Farid Latifov**, and soldier **Huseynagha Nabiyev**— were martyred. During the period when the incident occurred, Armenian armed formations regularly opened fire from both large- and small-calibre weapons. He stated that he had a complaint against the accused and asked the court to impose the most severe punishment on him.

Musayev Ulvin Khudayar oglu, questioned in court as a victim, stated that on **14 September 2022**, at around **15:00–16:00**, during fighting in the territory of **Kalbajar district**, he sustained closed craniocerebral trauma as a result of the explosion of a mortar shell fired by Armenian armed formations. At that time, the attack by Armenian armed formations continued for **two days**; the enemy forces opened fire using large-calibre weapons with the aim of seizing the positions where they were located. At the time of the incident, he had no information about how much manpower Armenian armed formations used in the attack. At that time, there were no martyred servicemen among his comrades-in-arms, but there were wounded servicemen.

Aliyev Ruslan Rasul oglu, questioned in court as a victim, stated that while preventing large-scale provocative actions by Armenian armed formations, on **12 September 2022**, during the night hours, near **Lachin** and **Kalbajar** districts, he sustained closed craniocerebral trauma as a result of the explosion of an artillery shell fired by Armenian armed formations from the direction of **Jermuk district**.

At that time, he held the rank of senior lieutenant and served as an operations officer for artillery direction in military unit No. "N" of the Ministry of Defence. During the provocation, the main purpose of the Armenian armed formations was, after suppressing the positions by means of artillery, to move inward with manpower. At the time of the incident, there were no martyred servicemen among his comrades-in-arms; only he and another serviceman who served with him as his radio operator sustained injuries. He stated that he had a complaint against the accused and asked the court to impose the most severe punishment on him.

Salmanov Bakhtiyar Gardashkhan oglu, questioned in court as a victim, stated that while preventing large-scale provocative actions by Armenian armed formations, on **12 September 2022**, during the night hours, in the territory of **Kalbajar district**, while performing the duties of senior assistant for radio communications to the chief of communications of military unit No. "N" of the Ministry of Defence, he sustained closed craniocerebral trauma as a result of the explosion of an artillery shell fired by Armenian armed formations from the direction of **Jermuk district**. He received treatment for **one month** at the **Central Military Clinical Hospital** of the Ministry of Defence.

At that time, other servicemen serving together with him also sustained injuries. That day, the enemy provocation continued for two days, that is, from **12 September 2022** until **14 September 2022**. Initially, by Armenian armed formations, Armenian armed formations opened artillery fire and then attacked with manpower. He asked the court to impose on the accused a punishment in accordance with the law.

Page 202

Gahramanov Ariz Mirzakishi oglu, questioned in court as a victim, stated that while preventing large-scale provocative actions by Armenian armed formations, on **19 September 2023**, at around **15:00–16:00**, in the territory of **Aliaghali village of Aghdam district**, a mortar shell fired by Armenian armed formations fell and exploded near him. As a result, he and his fellow officer, **Captain Gismatpasha Abbaszada**, sustained closed craniocerebral trauma and perforation of the left ear.

At that time, Armenian armed formations opened fire on them from the territory of **Khojaly district**, from the direction of **Farrukh Mountain**. The main purpose of the enemy forces was to inflict damage on their supply points, equipment, and manpower located in the rear. When the incident occurred, among his comrades-in-arms who were at the same combat position with him, there were persons who were martyred and wounded. He asked the court to impose on the accused a severe punishment in accordance with the law.

Abdullayev Azar Uzeyir oglu, questioned in court as a victim, stated that on **13 September 2022**, at around **24:00**, in the territory of **Gubadli district**, while preventing a provocation by Armenian armed formations, he, together with two officers and two warrant officers who were his comrades-in-arms, sustained trauma.

The provocation continued for **three days**, and from the course of the provocation it became clear that it had been a specially planned operation. The provocation committed by Armenian armed formations was successfully prevented.

At that time, the shells fired at them were artillery shells, and the fire was opened from the positions of Armenian armed formations located in the direction of **Gorus district**. In that period, such provocations were the first planned operations of Armenian armed formations. Before that provocation was committed by Armenian armed formations, preparations by enemy forces had been observed in the directions of **Gorus** and **Jermuk districts**. He stated that he had a complaint against the accused and asked the court to impose the most severe punishment on him.

Abishov Tofig Yaver oglu, questioned in court as a victim, stated that during the night hours of **14 September 2022**, a large-scale provocation by Armenian armed formations began, and enemy forces started attacking the positions where they were located with weapons of various calibres.

During the defence of the territorial integrity of the Republic of Azerbaijan, on **14 September 2022**, at around **02:00 at night**, as a result of the explosion of a mortar shell fired by Armenian armed formations, he sustained closed craniocerebral trauma. The main purpose of Armenian armed formations in committing that provocation was to seize the advantageous positions where they were located. He stated that he had a complaint against the accused and asked the court to impose the most severe punishment on him.

Mikayilli Asim Rauf oglu, questioned in court as a victim, stated that on **13 September 2022**, in the territory of **Kalbajar district**, he sustained closed craniocerebral trauma as a result of the explosion of a mortar shell fired by Armenian armed formations.

In those battles in the direction of Kalbajar district, artillery fire was the main form of attack, and at that time among his comrades-in-arms there were servicemen who were wounded and martyred. He stated that he had a complaint against the accused and asked the court to impose the most severe punishment on him.

Shukurov Sohbat Ilgar oglu, questioned in court as a victim, stated that on **14 September 2022**, at around **13:00–14:00**, in **Istisu settlement of Kalbajar district**, while preventing large-scale provocative actions by Armenian armed formations from the direction of **Jermuk district**, he sustained blast trauma as a result of the explosion of a mortar shell fired by Armenian armed formations.

When the incident occurred, he was serving in military unit No. “N” of the Ministry of Defence, holding the rank of first lieutenant. At that time, in Istisu settlement of Kalbajar

district, Armenian armed formations first opened artillery fire from the direction of Jermuk district and then attacked with manpower. He stated that he had a complaint against the accused and asked the court to impose the most severe punishment on him.

Page 203

Garibov Gasim Suleyman oglu, questioned in court as a victim, stated that on **13 September 2022**, in the territory of **Kalbajar district**, while preventing an attack by Armenian armed formations, he sustained injuries together with his comrades-in-arms as a result of the explosion of a mortar shell fired by Armenian armed formations. He stated that he had a complaint against the accused and asked the court to impose the most severe punishment on him.

Nabiyev Anar Aydin oglu, questioned in court as a victim, stated that on **13 September 2022**, in the territory of **Kalbajar district**, as a result of fire opened by Armenian armed formations, he sustained closed craniocerebral trauma and bodily injuries classified as serious. He stated that he had a complaint against the accused and asked the court to impose the most severe punishment on him.

Samadov Ehtiram Garib oglu, questioned in court as a victim, stated that on **12 September 2022**, in the territory of **Kalbajar district**, as a result of artillery fire opened by Armenian armed formations, he sustained a shrapnel wound, and, besides him, **four** of his comrades-in-arms were wounded. He stated that he had a complaint against the accused and asked the court to impose the most severe punishment on him.

Hummatov Rashmi Nadir oglu, questioned in court as a victim, stated that while serving in military unit No. "N" of the Ministry of Defence, on **9 September 2022**, in the territory of **Aghdara district**, in the direction of **Aliaghali village of Aghdam district**, he sustained various shrapnel wounds of different degrees to his right arm, right leg and left leg as a result of artillery fire opened by Armenian armed formations.

After sustaining those injuries, he first received treatment at **Aghdam District Central Hospital**, and later at **Agdash District Central Hospital**. He stated that he is currently in military service and asked the court to impose the most severe punishment on the accused.

Rzaguluzada Jeyhun Hakimaga oglu, questioned in court as a victim, stated that on **13 September 2022**, while carrying out a combat mission at the **K-9** combat position, that K-9 position came under artillery and large-calibre fire from positions where Armenian armed formations were located.

At the time of the incident, Armenian armed formations used artillery to keep the supply roads and their positions under intensive fire. At that time, together with him, **five** servicemen were wounded; he sustained closed craniocerebral trauma and a shrapnel wound to the upper

part of his right hand. He stated that he had a complaint against the accused and asked the court to impose the most severe punishment on him.

Yusifov Samir Jahangir oglu, questioned in court as a victim, stated that on **13 September 2022**, in the **Komurdag** area of **Kalbajar district**, as a result of fire opened by Armenian armed formations with a **PK machine gun**, **soldier Umid Hasanov**, a serviceman of military unit No. "N" of the Ministry of Defence where he served, was martyred. At that time, while he was going toward the martyred serviceman Umid Hasanov, he was wounded as a result of the explosion of a mortar shell fired by Armenian armed formations.

At the time of the incident, he was a feldsher at the medical point of military unit No. "N" of the Ministry of Defence where he served. He stated that he had a complaint against the accused and asked the court to impose the most severe punishment on him.

Abdiyev Yunis Elkhan oglu, questioned in court as a victim, stated that on **20 September 2023**, while performing a combat mission in the direction of **Aghdam district**, he sustained bodily injuries — a bullet wound to the leg and shrapnel wounds to the arms — as a result of the explosion of a mortar shell fired by Armenian armed formations. He stated that he had a complaint against the accused and asked the court to impose the most severe punishment on him.

Safarov Dilgam Chingiz oglu, questioned in court as a victim, stated that on **19 September 2023**, while serving in military unit No. "N" of the Ministry of Defence and while preventing an attack by Armenian armed formations, in the direction of **Janyatag village of Aghdara district**, he sustained injuries as a result of fire opened with firearms by unlawful Armenian armed formations.

At that time, servicemen who were his comrades-in-arms were martyred and wounded. For that reason, he asked the court to sentence the accused to the most severe punishment in accordance with the law.

Ahmadzada Ahmad Telman oglu, questioned in court as a victim, stated that on **13 September 2022**, in the territory of **Kalbajar district**, as a result of fire opened by Armenian armed formations, he was wounded together with two servicemen who were his comrades-in-arms, and two other servicemen who were his comrades-in-arms were martyred.

At that time, four servicemen were martyred in the area. Near him, **First Lieutenant Javidan Badalov** and **Warrant Officer Azad Karimov** were martyred, while in another nearby area **Warrant Officer Khayal Hajiyev** and **Junior Sergeant Javidan Salimov** were martyred. In total, including him, **fifteen** servicemen were wounded.

On the date of the incident, Armenian armed formations continued opening fire continuously. At that time, he sustained a bullet wound from an automatic rifle to the right shoulder area. Because of the injuries inflicted on him and on the comrades-in-arms who served together

with him, and because his comrades-in-arms were martyred, he asked the court to impose the most severe punishment on the accused.

Aliyev Zahid Mazahir oglu, questioned in court as a victim, stated that while preventing large-scale provocative actions by Armenian armed formations, on **12 September 2022**, at around **24:00**, in the territory of **Kalbajar district**, as a result of the explosion of an artillery shell fired by Armenian armed formations, servicemen of military unit No. "N" of the Ministry of Defence — **Sakhavat Ismayilov**, **Ariz Huseynov** and he himself — sustained various bodily injuries.

During the explosion of the artillery shell fired by Armenian armed formations, he sustained a shrapnel wound to the leg area and bullet wounds to the abdominal cavity and liver area. He received treatment in a medical hospital for **two months**.

The provocation committed by Armenian armed formations took place in the **Komurdag** direction of Kalbajar district. During that provocation, Armenian armed formations attacked the positions where they were located with manpower. At that time, servicemen of military unit No. "N" of the Ministry of Defence — **Sakhavat Ismayilov** and **Ariz Huseynov** — were martyred. He stated that he had a complaint against the accused and asked the court to impose the most severe punishment on him.

Javadov Anar Allahverdi oglu, questioned in court as a victim, stated that on **19 September 2023**, at around **17:00–18:00**, in **Zoghalbulaq village of Khojavend district**, the command post where they were located was struck by an artillery shell fired by Armenian armed formations. As a result of the explosion of that artillery shell, **Eldar Khammadov**, commander of the artillery division of military unit No. "N" of the Ministry of Defence, **doctor Orkhan Musali**, and he himself, who were at the command post, sustained various injuries.

At that time, he served as chief of staff of military unit No. "N" of the Ministry of Defence. On the stated date, Armenian armed formations used large-calibre guns. At that time, there were three more servicemen next to him. As a result, in the areas close to that place, there were Azerbaijani servicemen who were wounded and martyred.

During that period, Armenian armed formations frequently committed provocations and violated the ceasefire. The ceasefire was mainly violated from the positions of Armenian armed formations opposite **Khojavend district**. At that time, Armenian armed formations used all types of combat weapons. He stated that he had a complaint against the accused and asked the court to impose the most severe punishment on him.

Shahbazov Emin Elshad oglu, questioned in court as a victim, stated that on **19 September 2023**, while advancing in an attack from **Aghdam district** toward **Aghdara**, he was injured. During that period, Armenian armed formations frequently violated the ceasefire regime, and during that provocation **two soldiers** and **one extended active-duty serviceman** were martyred.

During the provocation committed by Armenian armed formations, he himself sustained craniocerebral trauma. At that time, while evacuating the wounded, a tank shell was fired, and he sustained injuries and lost consciousness. He was taken to hospital with the help of his fellow servicemen. He regained consciousness one day after that incident, but when he opened his eyes, he could neither speak nor react in any way. During that period, he could communicate all his wishes to the doctors only by writing on paper.

Page 205

During the provocation, there was an attack on the positions where they were located from the direction of the Armenian armed formations' posts called **A-2** and **A-3**, and they were able to repel the attack by Armenian armed formations. Thereafter, an artillery attack by Armenian armed formations began. During that attack, they struck a vehicle of the material and technical support company of military unit No. "N" of the Ministry of Defence where he served, which was carrying weapons and ammunition.

At that time, they defended themselves with a tank. Thereafter, Armenian armed formations began firing at the tank with which they were defending themselves. At that time, Armenian armed formations cut off the road of the battalion in which he served, severing their connection with other battalions and units, as a result of which they were encircled.

At that time, there was a tank of the **"Dazor"** type ahead, and Armenian armed formations first struck that tank. They were then forced to begin evacuating the personnel from the **"BPM"** type tank. That tank had a crew of three persons, but they were unable to evacuate anyone from that crew.

During the period when the provocations committed by Armenian armed formations occurred, he was not serving at the post; they had gone there on **17 September**. At first, they thought, as usual, that Armenian armed formations were violating the ceasefire, but later they saw that Armenian armed formations were trying to advance toward the positions where they were located. He stated that he had a complaint against the accused and asked the court to impose the most severe punishment on him.

Hasanov Hilal Farman oglu, questioned in court as a victim, stated that on **19 September 2023**, at around **16:00**, as a result of fire opened by Armenian armed formations located in the territory of **Janyatag village of Aghdara district**, his fellow servicemen who were next to him — **Warrant Officer Ali Taghiyev** and **soldier Javad Maharramov**, servicemen of military unit No. "N" of the Ministry of Defence — were martyred. He and his other fellow servicemen — **Warrant Officer Ulvi Karimov**, **soldier Alsab Karimov** and **soldier Nasimi Mahmudov** — sustained injuries.

During that period, provocations by Armenian armed formations in that direction occurred frequently, and they used all kinds of weapons. At that time, Armenian armed formations first opened artillery fire and then attacked with manpower. He stated that he had a complaint against the accused and asked the court to impose the most severe punishment on him.

Hasratov Zamin Zahid oglu, questioned in court as a victim, stated that on **19 September 2023**, at around **13:00**, while participating in combat operations moving from the direction of **Kalbajar district** toward **Vengli village of Aghdara district**, he sustained injuries as a result of a mortar shell fired by Armenian armed formations falling and exploding near him.

At the time when he was wounded, and in that area, his fellow serviceman, platoon commander **Lieutenant Rafail Abdulzada**, also sustained injuries. At the same time, **two** servicemen of military unit No. "N" of the Ministry of Defence where he served were martyred, and **eight** servicemen of that military unit were wounded. He stated that he had a complaint against the accused and asked the court to impose the most severe punishment on him.

Hasanov Elnur Elchin oglu, questioned in court as a victim, stated that during the **44-day Patriotic War**, on **2 October 2020**, he was wounded as a result of a provocation committed by Armenian armed formations in the **Kalbajar** direction, and later, after receiving treatment, returned to combat operations again.

On **6 November 2020**, he was also wounded in the battles for **Shusha**. Later, in **September 2022**, while preventing large-scale provocative actions by Armenian armed formations, he sustained various bodily injuries. Before that, in **August** of the same year, as a result of a provocation committed by Armenian armed formations, one serviceman of military unit No. "N" of the Ministry of Defence where he served was martyred by sniper fire in the direction of **Lachin district**.

During that period, Armenian armed formations continuously committed active provocations in several directions, and this process continued until September 2022. In September of that year, Armenian armed formations attacked their combat positions, conventionally called **C-4**, **C-5** and **C-6**, located ahead of them at an altitude of **3,475 metres**, from the direction of **Great Ishigli Mountain**. On **12–13 September**, as a result of artillery fire opened by Armenian armed formations, he sustained craniocerebral trauma and numerous shrapnel wounds there.

Page 206

He is currently continuing his military service. He stated that he had a complaint against the accused and asked the court to impose the most severe punishment on him.

Manafov Fariz Hafiz oglu, questioned in court as a victim, stated that on **19 September 2023**, from around **13:00**, local anti-terrorist operations began in the territories of **Aghdara**, **Khojavend** and **Khojaly districts**. On that day, at approximately **18:00**, in the territory of **Khojavend district**, as a result of fire opened by Armenian armed formations, he sustained two through-and-through bullet wounds to the left shoulder area.

During that period, until **19 September 2023**, Armenian armed formations frequently committed provocations, and finally, on that date, a large-scale provocation was launched by

them. During the anti-terrorist operation carried out, servicemen of military unit No. “N” of the Ministry of Defence where he served — **Warrant Officer Elmaddin Aliyev**, **soldier Giyas Manafov** and **soldier Nihad Mustafayev** — were martyred. He stated that he had a complaint against the accused and asked the court to impose the most severe punishment on him.

Guluyev Habil Ayaz oglu, questioned in court as a victim, stated that on **19 September 2023**, at around **15:00**, while attacking a combat post belonging to Armenian armed formations located in the territory of **Sirkhavend village of Aghdara district**, he sustained an injury to the knee area of his left leg as a result of an artillery shell fired by Armenian armed formations falling and exploding near him. At that time, servicemen of military unit No. “N” of the Ministry of Defence where he served, **Gulam Mammadov** and **Elnur Hasanov**, were together with him. He stated that he had a complaint against the accused and asked the court to impose the most severe punishment on him.

Babayev Nabi Tofig oglu, questioned in court as a victim, stated that while preventing large-scale provocative actions by Armenian armed formations, on **12 September 2022**, at around **23:30**, in the territory of **Lachin district**, as a result of the explosion of an artillery shell fired by Armenian armed formations, servicemen of military unit No. “N” of the Ministry of Defence where he served, whose names he did not remember, sustained various bodily injuries.

When the incident occurred, he served as deputy chief of the Reconnaissance Department of military unit No. “N” of the Ministry of Defence, holding the rank of lieutenant colonel. Armenian armed formations at that time first attacked with artillery weapons and then attacked with manpower. During that provocation, he sustained closed craniocerebral trauma. He stated that he had a complaint against the accused and asked the court to impose the most severe punishment on him.

Balakishiyev Akshin Hakim oglu, questioned in court as a victim, stated that while preventing large-scale provocative actions by Armenian armed formations, on **13 September 2022**, at around **11:00–12:00**, in the territory of **Kalbajar district**, as a result of the explosion of a mortar shell fired by Armenian armed formations, servicemen of military unit No. **072** — **soldier Turan Maharramov** and **soldier Farid Latifov** — were martyred. At the same time, he, **soldier Ibarat Gasimov**, **Captain Jeyhun Khankishiyev**, and several other servicemen of military unit No. **072**, whose names he does not currently remember, sustained various bodily injuries. He stated that he had a complaint against the accused and asked the court to impose the most severe punishment on him.

Mammadov Vugar Zahid oglu, questioned in court as a victim, stated that while preventing large-scale provocative actions by Armenian armed formations, on **13 September 2022**, at around **16:00**, in the territory of **Kalbajar district**, as a result of the explosion of a mortar shell fired by Armenian armed formations, servicemen of military unit No. “N” of the Ministry of Defence — **soldier Huseynagha Nabiyev** and **soldier Farid Latifov** — were

martyred. At the same time, he, **Lieutenant Ismayil Binnatov**, **Senior Lieutenant Khagani Abdulkarimov**, and several other servicemen sustained various bodily injuries.

On that date, Armenian armed formations first opened fire with heavy artillery and large-calibre weapons, and then attacked with manpower. When he sustained the injury, he was serving in **Aghdam district**. During that period, Armenian armed formations regularly committed provocations.

Page 207

Nabiyev Emil Shaban oglu, questioned in court as a victim, stated that on **20 September 2023**, at around **14:00–15:00**, while preventing large-scale provocative acts by Armenian armed formations, during combat operations conducted in the direction of **Khojaly district**, he, **Warrant Officer Shahriyar Zarbaliyev**, **Senior Lieutenant Namiq Zohrabov** and **Senior Lieutenant Aligismat Nuriyev** sustained various bodily injuries as a result of fire opened by Armenian armed formations.

Like other servicemen, he participated in combat positions. At that time, Armenian armed formations attempted to attack, but they prevented the attacks of the enemy side. During that provocation, he sustained closed craniocerebral trauma, injuries to the spinal column, and blind shrapnel wounds to various parts of his body. He stated that he had a complaint against the accused and asked the court to impose the most severe punishment on him.

Zeynalov Nahid Sahib oglu, questioned in court as a victim, stated that on **19 September 2023**, at around **13:00**, by order of Chief of Staff **Rustamov Vusal Rustam oglu**, he and a group of servicemen were preparing to advance, in accordance with their assigned task, in order to seize a post of Armenian armed formations located on the road of **Sirkhavend village of Aghdara district**. At that moment, a **Fagot-type missile shell** fired by Armenian armed formations in their direction fell and exploded near them. As a result, Chief of Staff **Rustamov Vusal Rustam oglu** was martyred, while he and **Gahraman Ismayilov** sustained injuries.

At the time of the incident, he served in military unit No. “N” of the Ministry of Defence as an extended active-duty serviceman and grenade launcher. Armenian armed formations struck them with a missile, causing them to remain under the collapse. As a result of the explosion of the missile shell fired by Armenian armed formations, he sustained shrapnel wounds to the leg and closed craniocerebral trauma. At present, he has impaired hearing in his left ear and continues serving in the army. He stated that he had a complaint against the accused and asked the court to impose the most severe punishment on him.

Taghiyev Farhad Fikrat oglu, questioned in court as a victim, stated that on **19 September 2023**, during the anti-terrorist operation conducted in the territory of **Sirkhavend village of Aghdam district** to prevent large-scale provocative acts by Armenian armed formations, he was travelling in a military ambulance to provide first aid to wounded servicemen and evacuate them. While they were going to rescue wounded servicemen, the military

ambulance in which they were travelling was struck by a shell fired by Armenian armed formations. As a result, he and **four** servicemen who were in the military ambulance sustained injuries.

His injuries included blast trauma, closed craniocerebral trauma, **1st–2nd–3rd degree thermal burns** to the lumbar area, a closed displaced fracture of the distal phalanx of the 4th–5th fingers of the right hand, numerous shrapnel wounds to various parts of the body, perforation of both ears, and other injuries.

At that time, he was acting as head of the medical point of military unit No. "N" of the Ministry of Defence, where he served. When the incident occurred, he was heading toward the post in a military ambulance to help the wounded. He had advanced approximately **500–700 metres** from the medical point and had not yet reached the post when the military ambulance in which he was travelling was struck by Armenian armed formations.

One of the shells fired at the military ambulance fell **40–50 metres** in front of that ambulance, while the second shell hit the ambulance itself. In that military ambulance there were **five** persons including him: **Farid Zeynalov**, **Sarkhan Rahimov**, a sanitary instructor of the medical point, the driver, one mechanic-crew member, and himself. The military ambulance in which they were going to evacuate wounded servicemen was armoured. On the right, left and upper sides of the ambulance there were large red crescent markings, and it was clearly visible that the vehicle was a medical evacuation ambulance. He stated that he had a complaint against the accused and asked the court to impose the most severe punishment on him.

Alirzayev Subhan Rovshan oglu, questioned in court as a victim, stated that on **19 September 2023**, he was involved in the anti-terrorist operations in the direction of **Aghdam district** together with other servicemen of military unit No. "N" of the Ministry of Defence where he served. As a result of the explosion of a shell called **"Komet"** fired by Armenian armed formations in their direction

which fell and exploded nearby, he sustained injuries. At that time, Armenian armed formations opened fire from the posts where they were located. When the incident occurred, they had gone there to provide assistance. During that incident, among the servicemen of military unit No. "N" of the Ministry of Defence where he served, there were both martyred and wounded servicemen. He stated that he had a complaint against the accused and asked the court to impose the most severe punishment on him.

Kamilov Afgan Hafiz oglu, questioned in court as a victim, stated that on **19 September 2023**, at **13:25**, by order of Chief of Staff **Rustamov Vusal Rustam oglu**, he and a group of servicemen were moving forward in the direction of **Aghdara district** in order to seize posts belonging to Armenian armed formations on the road of **Sirkhavend village**. A shell called

“Fagot” fired by Armenian armed formations in their direction fell and exploded near them, causing him injuries.

At the time of the incident, he served in military unit No. “N” of the Ministry of Defence as a reconnaissance-operator, with the military rank of sergeant. As a result of the explosion, he sustained shrapnel wounds to various parts of the body and closed craniocerebral trauma. He currently continues military service and asks the court to impose the most severe punishment on the accused.

Sultanov Hijran Panah oglu, questioned in court as a victim, stated that on **19 September 2023**, at around **13:00**, while he was in the territory of **Sirkhavend village of Aghdara district**, artillery shells fired by Armenian armed formations fell and exploded near him, causing him injuries. The main shell fired by Armenian armed formations fell **15 metres** away from where they were located. The main purpose of Armenian armed formations was to strike the military medical vehicle that was going to the posts to help the wounded. He stated that he had a complaint against the accused and asked the court to impose the most severe punishment on him.

Zeynalov Farid Zahid oglu, questioned in court as a victim, stated that on **19 September 2023**, at around **13:00**, information was received from the units fighting in the territory of **Aghdam district** that there were wounded servicemen. As head of the medical point of the 1st operational battalion, he went in an armoured ambulance toward the **A-11** post. However, as they approached the post, the armoured vehicle in which they were travelling was struck by Armenian armed formations with a shell. As a result of the explosion, he sustained injuries to various parts of his body.

Together with him, **Farhad Taghiyev**, head of the brigade medical point, was also injured. At the time of the incident, he served as head of the medical point of the 1st operational battalion of military unit No. “N” of the Ministry of Defence, holding the military rank of first lieutenant of the medical service. There were medical-service markings on both sides of that military ambulance. He stated that he had a complaint against the accused and asked the court to impose the most severe punishment on him.

Ahmadov Tabriz Ismayil oglu, questioned in court as a victim, stated that on **19 September 2023**, he began carrying out combat tasks in the direction of **Aghdam district**. At around **13:00**, a missile shell called **“Kornet”** fired by Armenian armed formations at their post fell and exploded nearby, causing him injury. He stated that he had a complaint against the accused and asked the court to impose the most severe punishment on him.

Asgarov Niyamaddin Aladdin oglu, questioned in court as a victim, stated that while he was serving in the material and technical support unit of military unit No. “N” of the Ministry of Defence, and while preventing large-scale provocative acts by Armenian armed formations, he sustained closed craniocerebral trauma as a result of artillery fire opened by Armenian armed formations in the direction of **Allagoller village of Kalbajar district**.

When Armenian armed formations launched an artillery attack against them, he was at the command observation point. During the prevention of the provocation, more than **100** servicemen of the unit in which he served were wounded, and **eight** servicemen were martyred.

Talibli Javidan Alizaman oglu, questioned in court as a victim, stated that while preventing large-scale provocative acts by Armenian armed formations

on **12 September 2022**, in the territory of **Kalbajar district**, during the evacuation of wounded and martyred servicemen, he sustained closed craniocerebral trauma as a result of the explosion of an artillery shell fired by Armenian armed formations.

At that time, Armenian armed formations struck their forward-line positions using large-calibre and artillery weapons, and they in turn took responsive measures against the provocation by Armenian armed formations. During that incident, **15** servicemen from military unit No. "N" of the Ministry of Defence where he served were martyred. He stated that he had a complaint against the accused and asked the court to impose the most severe punishment on him.

Gurbanov Hasan Rufat oglu, questioned in court as a victim, stated that during the anti-terrorist operation on **19 September 2023**, while preventing large-scale provocative acts by Armenian armed formations, he sustained a shrapnel wound to the right arm and burns to various parts of the body. At that time, among his fellow servicemen there were more than **15** martyred and wounded servicemen. During the incident, he served at the **A-11** post in the direction of **Aghdam district** of military unit No. "N" of the Ministry of Defence. He stated that he had a complaint against the accused and asked the court to impose the most severe punishment on him.

Heydarov Ruslan Eldar oglu, questioned in court as a victim, stated that on **20 September 2023**, during the local anti-terrorist operations, while they were advancing from the territory of **Khojavend district** in the direction of **Khankendi city**, on their side of the posts, he sustained an injury to the right shoulder area as a result of sniper fire opened by unlawful Armenian armed formations. At that time, he served in military unit No. "N" of the Ministry of Defence. During that incident, many servicemen were martyred and wounded. He currently continues military service. He stated that he had a complaint against the accused and asked the court to impose the most severe punishment on him.

Orujov Ilgar Rahman oglu, questioned in court as a victim, stated that on **13 September 2022**, in the direction of **Istisu** area of **Kalbajar district**, during an attack by Armenian armed formations, **soldier Said Hasanov** and **soldier Sarkhan Omarov** were martyred as a result of the explosion of a mortar shell fired by Armenian armed formations. At the same time, he, **Lieutenant Colonel Yadulla Abushov**, **Lieutenant Colonel Yahya Aghazada** and others sustained closed craniocerebral trauma, concussion and various bodily injuries.

When the incident occurred, on **13 September 2022**, a provocation by Armenian armed formations was identified in the directions of **Istisu**, **Zar** and **Alagoller** villages of **Kalbajar district**, and during that provocation their units located on the front line were fired upon. Although the command post of the unit he led was located **6–8 kilometres** inside the state border, as a result of artillery fire opened by Armenian armed formations, his fellow servicemen were martyred and wounded, including him.

At that time, Armenian armed formations mainly used **120 mm mortars** and other ground-based rocket-artillery weapons. According to him, after the First Karabakh War and after the ceasefire regime was reached, the ceasefire regime was violated by Armenian armed formations at various times along the entire front line **300–500 times per day**. In total, during both the First and Second Karabakh Wars, there were more than **15,000 martyrs** and more than **30,000 wounded**. During the Second Karabakh War, he first sustained an open bullet wound to the heart area and closed craniocerebral trauma, and for the second time, in the territory of Kalbajar district, he sustained closed craniocerebral trauma as a result of the explosion of a mortar shell fired by Armenian armed formations. He stated that he had a complaint against the accused and asked the court to impose the most severe punishment on him.

Musayev Mardan Urfat oglu, questioned in court as a victim, stated that on **13 September 2022**, in the territory of **Kalbajar district**, while preventing the provocation committed by Armenian armed formations together with the unit he led, **soldier Farid Latifov** and **soldier Turan Maharramov**, servicemen of military unit No. “N” of the Ministry of Defence where he served, were martyred as a result of the explosion of a mortar shell fired by Armenian armed formations. At the same time, he, **Major Tofig Abishov**, **Warrant Officer Anar Nabiyev**

and other comrades-in-arms sustained closed craniocerebral trauma, concussion and various bodily injuries.

When the incident occurred, on **13 September 2022**, during the night hours, they were in readiness up to **10 kilometres behind** the line of contact. After the provocation by Armenian armed formations began, he immediately moved to the command point together with the unit he led. While they were determining the situation concerning the provocation that had occurred, they came under artillery fire by Armenian armed formations.

While preventing that provocation, **five** servicemen from the personnel of the unit he led were martyred, and more than **30** servicemen were wounded. Overall, during that provocation committed by Armenian armed formations, more than **70** servicemen were martyred and more than **500** servicemen were wounded. In general, until the period when Karabakh was liberated from occupation, such provocations by Armenian armed formations occurred frequently. He stated that he had a complaint against the accused and asked the court to impose the most severe punishment on him.

Mammadli Elvin Hafiz oglu, questioned in court as a victim, stated that on **13 September 2022**, he was sent to the military units located in **Kalbajar district** in order to check the health condition of servicemen. On that date, at around **midnight**, heavy artillery fire by Armenian armed formations began.

At around morning time, when they were informed that a medical team was needed, he moved in an ambulance toward the front line in order to provide medical assistance to wounded servicemen in the units located at the forward line. While passing through an open area from one position to another in the territory of **Alagoller village of Kalbajar district**, the ambulance in which they were travelling was targeted by Armenian armed formations. As a result of the fire opened by Armenian armed formations, that ambulance was damaged, and at the same time he and the driver sustained injuries.

At that time, the medical ambulance had a distinctive marking: it was marked with a red crescent on a white background, visible from the air and from a long distance. When the incident occurred, he and the driver were in that medical ambulance. When the ambulance was close to exploding, they threw themselves out of the vehicle; therefore, they did not sustain very serious injuries, but they sustained closed craniocerebral trauma from the blast wave. He stated that he had a complaint against the accused and asked the court to impose the most severe punishment on him.

Aliyev Anar Zakir oglu, questioned in court as a victim, stated that while they were operating at the rear command point of the military unit where he served, he and his comrades-in-arms sustained various bodily injuries as a result of the explosion of a mortar shell fired by Armenian armed formations.

At that time, he was not among the personnel participating in the combat mission; he was in the command staff and located at the rear command point. Therefore, he did not have full information about the front line, but they heard the sounds of artillery fire and other types of fire. On that date, **14 September 2022**, during the provocation committed by Armenian armed formations, **five** servicemen from the unit where he was located were martyred, and more than **30** servicemen were wounded. He stated that he himself sustained closed craniocerebral trauma as a result of artillery fire opened by Armenian armed formations.

Bakhshaliyev Nizami Fizuli oglu, questioned in court as a victim, stated that he was wounded in the territory of **Kalbajar district** as a result of the explosion of a mortar shell fired by Armenian armed formations. As a result of the injury, he sustained closed craniocerebral trauma and a shrapnel wound to the right hand.

When the incident occurred, he and other servicemen of the unit where he served were carrying out daily combat readiness activities. However, he was wounded during the provocation while preventing the attack by Armenian armed formations at the command observation point. At that time, the command observation point was located **5–8 kilometres** behind the front line. The purpose of Armenian armed formations in striking that command observation point was to disrupt the command of their units located on the front line.

At that time, Armenian armed formations struck the command observation point with **120 mm guns**. Armenian armed formations attacked the positions where they were located from the directions of **Jermuk**, **Alagoller** and **Istisu**.

Page 211

When the incident occurred, **five** servicemen of military unit No. "N" of the Ministry of Defence where he served were martyred, and more than **30** servicemen were wounded. He stated that he had a complaint against the accused and asked the court to impose the most severe punishment on him.

Ahmadov Khazri Vagif oglu, questioned in court as a victim, stated that while preventing large-scale provocative acts by Armenian armed formations, on **13 September 2022**, in the territory of **Kalbajar district**, as a result of the explosion of a mortar shell fired by Armenian armed formations, **soldier Huseynagha Nabiyev** and **soldier Turan Maharramov**, servicemen of military unit No. "N" of the Ministry of Defence where he served, were martyred. At the same time, **Junior Warrant Officer Gurban Gurbanov**, **Warrant Officer Rahman Gasimov** and he himself sustained closed craniocerebral trauma. He stated that he had a complaint against the accused and asked the court to impose the most severe punishment on him.

Suleymanov Ulvi Ildirim oglu, questioned in court as a victim, stated that while preventing large-scale provocative acts by Armenian armed formations, on **13 September 2022**, in the territory of **Kalbajar district**, **five** servicemen who were his comrades-in-arms were martyred and **31** servicemen were wounded as a result of the explosion of a mortar shell fired by Armenian armed formations.

Among those servicemen, **Lieutenant Ravil Humbatov**, **Lieutenant Erkin Huseynov**, **soldier Umid Hasanov**, **Warrant Officer Mahammad Mammadov** and **soldier Nail Abbasli** were martyred. In addition, the provocation by Armenian armed formations did not end with that. On **19 September 2023**, while preventing the provocation committed by unlawful Armenian armed formations, in total, **12** servicemen among his comrades-in-arms were martyred, and **62** servicemen were wounded.

When the incident occurred, on **13 September 2022**, he held the military rank of lieutenant and served as commander of a combat group. Since they did not have a permanent place of deployment on that date, information was received that a provocation would be committed by Armenian armed formations, and they went to that position in order to prevent the provocation committed by Armenian armed formations. At the time he sustained injuries, Armenian armed formations attacked, and he was injured while preventing that attack. The direction where they were located was the area of **Yukhari Shorja village of Kalbajar district**. He stated that he had a complaint against the accused and asked the court to impose the most severe punishment on him.

Garayev Azizagha Sanan oglu, questioned in court as a victim, stated that on **13 September 2022**, while protecting the state border in the territory of **Zangilan district**, and while preventing large-scale provocative acts by Armenian armed formations, he was wounded. At that time, his comrade-in-arms, **Captain Farid Mehbalı**, was martyred.

During the incident, they were organising protection of the state border as part of their daily combat duties. At that time, provocative acts by Armenian armed formations occurred in the direction of **Razdara village of Zangilan district**. Armenian armed formations attacked the state borders with large-calibre mortars, as well as with manpower and artillery, with the aim of seizing several areas.

While preventing that attack, as a result of the explosion of a **120 mm artillery shell** fired by Armenian armed formations, he sustained combat trauma and a shrapnel wound that caused damage to the muscular branch of the left brachial artery and the left ulnar nerve. He stated that he had a complaint against the accused and asked the court to impose the most severe punishment on him.

Hasanli Imran Elman oglu, questioned in court as a victim, stated that on **20 September 2023**, while serving in military unit No. "N" of the Ministry of Defence, he was wounded together with his group commander as a result of fire opened by Armenian armed formations in the territory of **Aghdara district**. At that time, the leader of the group in which he served and other comrades-in-arms besides him were wounded. During the provocation, Armenian armed formations used both large- and small-calibre weapons. He stated that he had a complaint against the accused and asked the court to impose the most severe punishment on him.

Page 212

Aliyev Hasan Yarmammad oglu, questioned in court as a victim, stated that on **13 September 2022**, while preventing large-scale provocative acts by Armenian armed formations, in the territory of **Lachin district**, he sustained closed craniocerebral trauma and shrapnel wounds as a result of the explosion of an artillery shell fired by Armenian armed formations.

At that time, among his comrades-in-arms, **Omar Shirinov**, a serviceman who was both the commander of the platoon in which he served and the head of the post where he served, was martyred. The provocation took place on the border of **Lachin district** with **Zangazur**. He asked the court to impose a severe punishment on the accused in accordance with the law.

Mammadzada Tural Shikar oglu, questioned in court as a victim, stated that on **19 September 2023**, while performing his official duties in the direction of **Arcivanli village of Aghdam district**, he sustained injuries as a result of fire opened by unlawful Armenian armed formations. At that time, among his comrades-in-arms, **six** servicemen were wounded and **one** serviceman was martyred.

His injury consisted of a shrapnel wound extending from the wrist of the right arm to the thumb. When the incident occurred, Armenian armed formations opened fire on them using **120 mm D-30 artillery guns**. He stated that he had a complaint against the accused and asked the court to impose the most severe punishment on him.

Tahmazov Elshad Fakhraddin oglu, questioned in court as a victim, stated that on **13 September 2022**, in the direction of **Garagol** in **Lachin district**, Armenian armed formations committed large-scale provocative acts using various large-calibre artillery weapons, with the purpose of seizing strategic heights where Azerbaijani armed units were located. At that time, the position where their armed units were located was approximately **10 kilometres** behind the front line.

On that date, while preventing large-scale provocative acts by Armenian armed formations in that direction, several servicemen among his comrades-in-arms were martyred, and he himself was injured there. As a result of the explosion of an artillery shell fired by Armenian armed formations, he sustained blast trauma and closed craniocerebral trauma. He stated that he had a complaint against the accused and asked the court to impose the most severe punishment on him.

Rahimli Anar Mahammad oglu, questioned in court as a victim, stated that while performing his duties in connection with civilian work in the liberated area of **Aghdam district** known as **"Yeddi Khirman,"** they encountered Armenian armed formations. At that time, Armenian armed formations fired at the vehicle he was driving, and as a result he sustained a bullet wound to the left arm.

When the incident occurred, he had gone to the territory of **Karabakh** in **December 2021** for the purpose of installing **Bakcell** and **Nar** mobile base stations located there. He did not remember the exact date of the incident. In the area to which they had gone, Armenian armed formations had established an unlawful post. At that time, they drove toward the post of the unlawful Armenian armed formations, but when they arrived there, no one was visible at the post.

Later, servicemen belonging to the unlawful Armenian armed formations came out, and when they tried to return in the vehicle, the unlawful Armenian armed formations fired at them. At that time, the unlawful Armenian armed formations did not fire merely to frighten them, because continuous fire was directed at their vehicle. Later, when they inspected the vehicle, they saw that all the bullets had been fired toward the driver and passenger side of the vehicle.

It was clearly visible that their vehicle, together with its registration plate, was a civilian vehicle, and they themselves were wearing civilian work uniforms. When the incident occurred, he sustained a bullet wound to the left arm. Because he was wounded, the vehicle he was driving went off the road into a ravine, and because of this the bones of his right hand were broken. At the time of the incident, he was the only person in the vehicle who sustained injuries.

Ilyaszada Farid Shahin oglu, questioned in court as a victim, stated that on **13 September 2022**, in the territory of **Zangilan district**, while carrying out the protection and defence of the conditional Azerbaijan-Armenia state border and while serving at their combat points in the direction of the **Shukrataz**

and **Bartaz** heights, and while preventing large-scale provocative acts committed by Armenian armed formations, he and the servicemen under his command — his comrades-in-arms **Chief Warrant Officer Tabriz Ramazanov**, **Chief Warrant Officer Saleh Hasanov** and **Farid Mammadov** — sustained various bodily injuries. **Chief Warrant Officer Nahid Mammadov** and **Chief Warrant Officer Farid Rustamov** were martyred. He stated that he had a complaint against the accused and asked the court to impose the most severe punishment on him.

Shukurov Sohbat Ilgar oglu, questioned in court as a victim, stated that while preventing large-scale provocative acts by Armenian armed formations, on **13 September 2022**, during the night hours, he and the servicemen who were his comrades-in-arms — **Farid Mammadov** and **Chief Warrant Officer Saleh Hasanov** — sustained various bodily injuries as a result of the explosion of a hand grenade thrown by Armenian armed formations. At that time, **Chief Warrant Officer Farid Rustamov** and **Chief Warrant Officer Nahid Mammadov** were heroically martyred.

The incident took place at the **Shukrataz** and **Bartaz** heights of **Zangilan district**. At that time, the artillery equipment and manpower of Armenian armed formations went on the attack with the purpose of seizing the important strategic facilities where they were located. When the incident occurred, he sustained shrapnel wounds to the throat, right hand and chest areas. He stated that he had a complaint against the accused and asked the court to impose the most severe punishment on him.

Hasanov Saleh Namiq oglu, questioned in court as a victim, stated that on **13 September 2022**, during the night hours, while carrying out the protection and defence of the conditional Azerbaijan-Armenia state border in the territory of **Zangilan district**, they came under artillery fire by Armenian armed formations. At that time, the artillery used by Armenian armed formations mainly consisted of **120 mm mortars**.

After that, Armenian armed formations attacked with manpower. During that attack, as a result of the explosion of a hand grenade thrown by Armenian armed formations, he was wounded in the right hand area. He stated that he had a complaint against the accused and asked the court to impose the most severe punishment on him.

Mehdizada Javid Mahammadali oglu, questioned in court as a victim, stated that as a result of fire opened by Armenian armed formations during the combat operations carried out on **20 September 2023**, two servicemen among his comrades-in-arms were martyred, and he and other comrades-in-arms were wounded.

At the time of the incident, he sustained blast trauma, closed craniocerebral trauma, a post-concussion condition and bilateral acute cochlear injuries. At that time, he held the military rank of sergeant. The attack by Armenian armed formations took place in the direction of **Agbulaqli village of Khojaly district**. He was at their positions when he sustained the injuries. He stated that he had a complaint against the accused and asked the court to impose the most severe punishment on him.

Nuriyev Aligismat Vahid oglu, questioned in court as a victim, stated that while serving as assistant to the chief of staff of the 1st battalion for personnel matters in military unit No. "N" of the Ministry of Defence, with the military rank of senior lieutenant, was wounded during the anti-terrorist operations that took place on **20 September 2023** in the direction of **Khojaly district**, while preventing large-scale provocative acts by Armenian armed formations.

At that time, as a result of fire opened by Armenian armed formations with small arms, he sustained a bullet wound to the knee area of his left leg. He stated that he had a complaint against the accused and asked the court to impose the most severe punishment on him.

Ibrahimov Nariman Sabir oglu, questioned in court as a victim, stated that while serving as a serviceman of military unit No. "N" of the Ministry of Defence, on **14 September 2022**, while preventing large-scale provocative acts by Armenian armed formations, he and **five** servicemen who were his comrades-in-arms were severely wounded. He stated that he had a complaint against the accused and asked the court to impose the most severe punishment on him.

Page 214

Ibrahimli Elshan Ilgar oglu, questioned in court as a victim, stated that on **19 September 2023**, he sustained a bullet wound as a result of fire opened by Armenian armed formations with a sniper weapon. The incident took place in the territory of **Arjivanli village of Aghdam district**. He stated that he had a complaint against the accused and asked the court to impose the most severe punishment on him.

Aliyev Hasanali Shahin oglu, questioned in court as a victim, stated that on **4 February 2024**, in the territory of **Yukhari Garadaghli village of Tartar district**, while grazing cattle in the yard area, he stepped on an anti-personnel mine planted by Armenian armed formations. As a result, the lower third of his left leg was amputated.

At the time of the incident, he lived in **Yukhari Garadaghli village of Tartar district**. The area where he stepped on the mine was their pasture area, and during that period he regularly took his cattle there to graze. At that time, not only he, but also the residents of the village where he lived, took their animals to that area for grazing. Until the time of the incident, no such event had occurred in their area; he was the first person to step on an anti-personnel mine planted in that area.

There was an opinion of "ANAMA"**,** concerning the history of that mine. As a result of that opinion, it was established that the mine had been planted by the Republic of Armenia and that it had been manufactured by the Republic of Armenia. The mine had been planted during the First Karabakh War. He stated that he had a complaint against the accused and asked the court to impose the most severe punishment on him.

Huseynov Akif Mukhtar oglu, questioned in court as a victim, stated that he lived with his family in **Afatli village of Aghdam district**. After his native village, **Yusifjanli village of Aghdam district**, was occupied by Armenian military formations in **1993**, he settled with his family members in **Afatli village of Aghdam district**.

On **16 March 2021**, on the last Wednesday before Novruz, he returned from the home of his daughter **Leyla** to the house where he lived. When he returned home, he spoke in the yard with his sons **Anar**, **Razi** and **Bayram**. Seeing him, his son **Razi** said that they were going to look at the field in **Hajimammadli village** where they had planted wheat.

At around **15:00**, his sons **Anar**, **Razi**, **Bayram**, and his grandson **Huseyn**, Razi's son, left the house in order to go and return after looking at the land plot intended for cultivation, located in **Hajimammadli village**, because his son Razi had planted onions and wheat on that land. He also stated that the village was located near the liberated **Yusifjanli village**.

Approximately **one hour** later, his fellow villager **Mammadov Shahlar Baylar oglu**, who worked with him, called him and said that his sons had stepped on a mine in **Yusifjanli village**. He said that his son **Razi** had called him and told **Shahlar Mammadov** that they had stepped on a mine, that people should come and take them out of there, and that his father should be informed.

When he arrived there, his son **Anar** and **Behruz**, the son of **Nadir**, were also standing at the boundary of the prohibited area, but because they were afraid, they could not go toward **Razi** and **Bayram**. He immediately searched for his sons and saw that his sons **Razi** and **Bayram** had sustained injuries to both legs. His grandson **Huseyn** had not sustained any injury and at that time was in the arms of his son Razi.

A village resident named **Zohrab**, who had come with him, went down into the trench from the place where Razi was, first took Huseyn from Razi's arms, and he, together with his grandson Huseyn, moved along the same route by which they had come and took him away from there.

After that, seeing that he could not go down into the trench and help his sons Razi and Bayram, he called his other son **Anar** for help. As soon as Anar took Razi in his arms in order to hand him over to them and began moving, a mine under their feet exploded. As a result, they were thrown upward and struck the ground. At that time, his son **Razi** sustained numerous shrapnel wounds to his body and died immediately at the scene.

When the incident occurred, his son **Anar**, himself, and **Behruz Abdulov** also sustained injuries. His other son **Bayram**, because he was farther away at that moment, did not sustain

new injuries; however, he also died from blood loss caused by the injuries he had received earlier.

Huseynov Anar Akif oglu, questioned in court as a victim, stated that the incident took place as described in the statement of his father, **Akif Huseynov**. Thus, his two brothers died as a result of the mine explosion, and at that time he, his father Akif Huseynov and

Page 215

Behruz Abdulov, when they went to help his brothers, sustained various bodily injuries as a result of the explosion of the second mine located in the area. He stated that he had a complaint against the accused and asked the court to impose the most severe punishment on him.

Bayramov Rafail Kochari oglu, questioned in court as a victim, stated that he went to the centre of **Sahlabad village**, to the area where cars stopped, and by chance met his cousin **Nijat Jabbarov**. Then Nijat pointed out a serviceman to him and said that the latter wanted to go from **Giziloba village** by car in the direction of **Aghdara**, to some military point, and could pay **25 manats** as fare.

After that, the serviceman whom he did not know approached him and said that he was in a hurry and asked him to take him there in exchange for **25 manats**. He took that serviceman into his vehicle, together with **Nijat Jabbarov**, drove him to a field area, and while returning, on the road, Nijat Jabbarov asked him to stop the vehicle by the roadside so that he could relieve himself, and to wait for him.

Thus, one to two minutes after Nijat got out of the vehicle and walked toward the field area, he heard an explosion. He immediately got out of the vehicle and went in the direction of the sound. He saw that Nijat was lying on the ground wounded and had sustained injuries as a result of a mine explosion. However, while he was trying to take Nijat out of there, another explosion occurred, and he himself also stepped on a mine and was wounded in the leg. He stated that he had a complaint against the accused and asked the court to impose the most severe punishment on him.

Jabbarov Nijat Novruz oglu, questioned in court as a victim, gave a statement of the same content as that of victim **Bayramov Rafail Kochari oglu**. He stated that, together with Rafail Bayramov, he had taken an unknown serviceman by car along a field road in an unknown direction, and that while returning, both of them stepped on a mine and both sustained injuries. At that time, the incident occurred in **2022** in **Girmizi village of Aghdam district**. He stated that he had a complaint against the accused and asked the court to impose the most severe punishment on him.

Safarov Alishan Sharif oglu, questioned in court as a victim, stated that on **8 April 1993**, Armenian armed formations shot **35 Azerbaijani citizens**, without distinguishing between

elderly persons and children, and then burned them. He stated that at that time Armenian armed formations seized all their property.

In addition, on **18 February 2022**, in the territory of **Chayli village of Tartar district**, at the **12th kilometre** of the **Tartar–Suqovushan** motor road, while he was carrying out repair and restoration work on the roadside reserve area, a river stone rolled from a height of approximately **1.80 metres** and fell onto the land area. An anti-personnel mine planted in the ground by unlawful Armenian armed formations exploded, as a result of which he sustained various bodily injuries.

When the incident occurred, one of his colleagues was next to him. Before that incident, no one had stepped on a mine in that area. He stated that he had a complaint against the accused and asked the court to impose the most severe punishment on him.

Safarov Faig Islam oglu, questioned in court as a victim, stated that he worked together with **Safarov Alishan Sharif oglu** at Road Maintenance Department No. **42** of the Azerbaijan State Agency of Automobile Roads. On **18 February 2022**, at around **11:00**, in the territory of **Chayli village of Tartar district**, at the **12th kilometre** of the **Tartar–Suqovushan** motor road, while they were carrying out repair and restoration work on the roadside reserve area, a river stone rolled down from a height and fell onto the land area. An anti-personnel mine planted in the ground by unlawful Armenian formations exploded, and at that time he and **Alishan Safarov** sustained various bodily injuries. He stated that he had a complaint against the accused and asked the court to impose the most severe punishment on him.

Abdullayev Hikmat Elman oglu, questioned in court as a victim, stated that on **16 November 2021**, in the morning hours, they went up to reinforce a lone post of military unit No. “N” of the Ministry of Defence. On that day, at around **12:00**, the post where they were located was fired upon by members of Armenian armed formations using tracer incendiary bullets, mortars and anti-tank shells. At that time, a shell fell and exploded near him, and fragments injured his right hand. Shortly afterward

as a result of a second shell falling and exploding near him, he sustained injuries to the knee area of his left leg and to the parts below the knee. During the incident, he sustained craniocerebral trauma and various bodily injuries to his right hand and left leg. The incident took place in the direction of **Lachin**, and they had gone there to prevent a counterattack by Armenian armed formations. He stated that he had a complaint against the accused and asked the court to impose the most severe punishment on him.

Mamedov Natig Vali oglu, questioned in court as a victim, stated that in the liberated **Mehdili village of Jabrayil district**, he stepped on one of the anti-personnel mines planted by Armenian military formations during the occupation period and sustained bodily injuries as a result of the explosion. The incident took place on **29 November 2021** in the **Horadiz** area.

At that time, they had gone to the area where they stepped on the mine for the first time, while in previous days they had been working in other areas. The mine they stepped on was an anti-personnel mine. In total, **27 mines** had been planted in that area. **ANAMA** employees determined that those mines had been planted by Armenian armed formations. Armenian armed formations had posts in those areas before the Second Karabakh War, and during that period Armenian armed formations had planted mines in those areas. He stated that he had a complaint against the accused and asked the court to impose the most severe punishment on him.

Asgarov Elnur Asif oglu, questioned in court as a victim, stated that on **18 April 2021**, in a field area of **Borsunlu village of Tartar district**, which had been under the control of Armenian armed formations before the Second Karabakh War, he stepped on one of the mines that had been deliberately planted in advance by Armenian servicemen during the occupation period and sustained injuries as a result of the explosion. He stated that he had a complaint against the accused and asked the court to impose the most severe punishment on him.

Abbaszada Elnur Raftar oglu, questioned in court as a victim, stated that, in connection with his official work, while waiting for his colleagues on the **Horadiz–Zangilan** motor road, in the area of **Amirvarli village of Jabrayil district**, he sustained injuries to the leg area as a result of the explosion of the unexploded fuse of a hand grenade left by Armenian armed formations during the occupation period.

He stated that he did not currently remember the exact date of the incident. When the incident occurred, he was moving on foot and stepped on the mine. He stated that Armenian armed formations had hidden that mine in such a way that they could not have imagined that there would be a mine in that area. At that time, the comrades-in-arms who were with him were standing far away from him. As a result, no other servicemen who were his comrades-in-arms sustained injuries in the mine explosion. He stated that he had a complaint against the accused and asked the court to impose the most severe punishment on him.

Shukurov Yadigar Dilavar oglu, questioned in court as a victim, stated that he was an employee of the private organisation of the Mine Action Agency of the Republic of Azerbaijan — **“Alfa Demining” LLC** — and that he currently also serves there. On **2 August 2022**, in the direction of **Garakhanbayli village of Fuzuli district**, at the **“Ohanyan barrier", while** performing his official duties, he stepped on a mine planted by Armenian armed formations, as a result of which he sustained various bodily injuries.

During that period, there were other complex mine areas as well, and the persons who came from the Cabinet of Ministers postponed mine clearance in those areas. When the incident occurred, they were given an order to dismantle the marked lines, and while he and the group leader were dismantling those lines, they stepped on a mine. As a result of the explosion of that mine, the group leader’s left leg was amputated. He stated that he had a complaint against the accused and asked the court to impose the most severe punishment on him.

Rzayev Gahraman Bilal oglu, questioned in court as a victim, stated that while carrying out demining operations in **Khudafarin village of Jabrayil district**, he stepped on one of the mines planted in advance by Armenian armed formations during the occupation period, and sustained various bodily injuries as a result of the mine explosion. He stated that he had worked in this field for nearly **four years** and, in general, in the liberated territories, the mines encountered were mostly those manufactured in the Republic of Armenia. He stated that he had a complaint against the accused and asked the court to impose the most severe punishment on him.

Page 217

Guliyev Vusal Vugar oglu, questioned in court as a victim, stated that on **27 September 2020**, while walking near the house where he lived, he sustained various bodily injuries as a result of the explosion of an artillery shell fired by Armenian armed formations. During the incident, material damage was also caused to the private residential house where he lived.

He lived in that house together with his family members. At the time of the incident, none of his family members sustained injuries, because he was alone at home at that moment. The said shell fell approximately **20 metres** away from his private residential house. During the incident, **three** of his vertebrae were fractured. He stated that he had a complaint against the accused and asked the court to impose the most severe punishment on him.

Salmanov Ilham Bakhtiyar oglu, questioned in court as a victim, stated that on **26 June 2022**, while in **Ashaghi Seyidahmadli village of Fuzuli district**, liberated from occupation, and while performing his official duties, he stepped on an anti-personnel mine. As a result of the incident, **one-third of his right leg was amputated**. No one other than them could enter that area. He stated that he had a complaint against the accused and asked the court to impose the most severe punishment on him.

Aliyev Ilknur Shahin oglu, questioned in court as a victim, stated that on **13 September 2022**, at around **01:00**, while preventing large-scale provocative acts by Armenian armed formations in the territory of **Kalbajar district**, he sustained various bodily injuries as a result of the explosion of a hand grenade thrown by Armenian armed formations.

During that incident, his comrades-in-arms — servicemen of military unit No. “N” of the Ministry of Defence where he served — **Warrant Officer Kenan Nahmatli**, **soldier Ariz Huseynov** and **Ismayil Sakhavat** also sustained various bodily injuries. He stated that he had a complaint against the accused and asked the court to impose the most severe punishment on him.

Guliyev Alasgar Asif oglu, questioned in court as a victim, stated that he was born on **28 June 1990** in **Fuzuli district** and currently lives there. On **17 June 2022**, during a demining operation in the territory of **Khudafarin village of Jabrayil district**, his colleague stepped on a mine manufactured in the Russian Federation and planted in advance by Armenian

armed formations during the occupation period. Since he and other colleagues were also near the area where the explosion occurred, they sustained various bodily injuries.

He stated that during demining operations the mines they discovered were mostly mines manufactured in the Republic of Armenia and the Russian Federation; among them, **PMN-type mines** were especially numerous. In addition, there were also many **MS anti-personnel mines** and anti-tank mines. The mines they most often neutralised were anti-personnel and anti-tank mines. Among those mines, the most dangerous was the anti-tank mine, because such mines are activated when approximately **100–110 kilograms** of pressure is applied and affect an area of **30 metres**. He stated that he and his family had suffered since **1993**, that is, since the First Karabakh War, and therefore asked the court to impose the most severe punishment on the accused.

Huseynov Najmaddin Abdulla oglu, questioned in court as a victim, stated that the incident occurred on **30 August 2022**, when he, together with employees of the Mine Action Agency of the Republic of Azerbaijan, was carrying out clearance work in mined areas planted by Armenian armed formations during the occupation period in **Teymur Muskanli village of Qubadli district**, liberated from occupation.

At the time of the incident, the heads of the division of the Mine Action Agency of the Republic of Azerbaijan where he served were also near him. He stated that he had a complaint against the accused and asked the court to impose the most severe punishment on him.

Mustafayev Mahir Husamaddin oglu, questioned in court as a victim, stated that on **17 June 2022**, while carrying out demining operations in **Khudafarin village of Jabrayil district**

he and the colleague next to him stepped on one of the mines planted in advance by Armenian armed formations during the occupation period and sustained various bodily injuries as a result of the mine explosion. As a result of the incident, the leg of his colleague, an employee of the Mine Action Agency of the Republic of Azerbaijan, was amputated. He had no information as to whether that mine had been planted in earlier times. He stated that he had a complaint against the accused and asked the court to impose the most severe punishment on him.

Gozalov Samir Arif oglu, questioned in court as a victim, stated that on **6 October 2020**, during the Patriotic War, he was injured as a result of a shell fired by Armenian armed formations. In **2021**, he was discharged from the army and placed in reserve. In **2022**, he was employed by **ANAMA**. On **17 June 2022**, while carrying out demining operations in **Khudafarin village of Jabrayil district**, he sustained various bodily injuries as a result of the explosion of one of the mines planted in advance by Armenian armed formations during the occupation period.

During the incident, one of their employees stepped on a mine, and they sustained injuries because of the blast wave caused by the explosion of that mine. He stated that he had a complaint against the accused and asked the court to impose the most severe punishment on him.

Aghayev Sevindik Dilavar oglu, questioned in court as a victim, stated that on **8 December 2020**, he, together with an unknown serviceman, set out in a **Mitsubishi L200** vehicle driven by him in order to inspect power lines leading to a radio base located on a height **8–9 kilometres** from **Hadrut settlement of Khojavend district**. **Seymur Rzayev**, an energy engineer at **Azercell LLC**, set out in a **VAZ-2121** vehicle.

After travelling **6–7 kilometres**, he saw two persons in military uniform, carrying weapons, walking along the roadside. Because their clothing was untidy, he thought they might be Armenian servicemen and slowed down. When he turned the vehicle around in order to go back, the engine stalled. When **Seymur Rzayev** also stopped and turned around the **VAZ-2121** vehicle he was driving, the person in military uniform who was walking ahead opened fire in their direction.

For that reason, he and the serviceman got out of the vehicle he was driving and ran toward **Hadrut settlement**. When he looked back to make sure that Seymur was also coming, he saw Seymur running after them, and slightly behind him several armed servicemen running in their direction. When they reached the positions of the military unit of the Azerbaijani Army, he saw that **Seymur Rzayev** had sustained a bullet wound to the left shoulder area. He himself did not sustain any injury during the incident. He stated that he had a complaint against the accused and asked the court to impose the most severe punishment on him.

Shukurov Ali Shirali oglu, questioned in court as a victim, stated that he was born on **4 February 1992** in **Boyuk Bahmanli village of Fuzuli district**. On **19 June 2022**, while carrying out demining operations in **Khudafarin village of Jabrayil district**, he stepped on one of the mines planted in advance by Armenian armed formations during the occupation period and sustained bodily injuries as a result of the mine explosion. He stated that he had a complaint against the accused and asked the court to impose the most severe punishment on him.

Jabrayilli Farid Zakir oglu, questioned in court as a victim, stated that on **17 June 2022**, while carrying out demining operations in **Khudafarin village of Jabrayil district**, he sustained various bodily injuries as a result of the explosion of one of the mines planted in advance by Armenian armed formations during the occupation period. During the incident, his colleague stepped on the mine, and as a result he and several employees of the Mine Action Agency of the Republic of Azerbaijan who were with him sustained various bodily injuries from the explosion of that mine. He stated that he had a complaint against the accused and asked the court to impose the most severe punishment on him.

Zeynalov Telman Babir oglu, questioned in court as a victim, stated that on **2 November 2022**, in the territory of **Mehdili village of Jabrayil district**, while performing his official

duties and carrying out clearance operations of mines deliberately planted in advance by Armenian military formations during the occupation period

Page 219

he sustained bodily injuries resulting in the amputation of his left leg as a result of the explosion of one of those anti-personnel mines. No one else sustained injuries during the incident. He stated that he had a complaint against the accused and asked the court to impose the most severe punishment on him.

Nasirov Bahruz Tapdig oglu, questioned in court as a victim, stated that he was an employee of the Mine Action Agency of the Republic of Azerbaijan. On **27 July 2021**, while carrying out demining operations, he was caught in the explosion of a **PMN-type anti-personnel mine** on the **Baku–Nakhchivan railway line**, at the railway bed passing through **Mehdili village of Jabrayil district**, on the left side in the direction of **Nakhchivan**, **1,500 metres** from the **Jabrayil district–Chojuq Marjanli village** main road. As a result, he sustained various bodily injuries.

He had worked in demining for more than **23 years**. Armenian armed formations had placed mines at observation posts and under stairs. Those mines not only injured people but also destroyed many lives. As a result of the explosion of mines planted by Armenian armed formations, the injuries sustained by all employees of the Mine Action Agency of the Republic of Azerbaijan were in the same areas of the body. He stated that he had a complaint against the accused and asked the court to impose the most severe punishment on him.

Abdulov Behruz Nadir oglu, questioned in court as a victim, stated that he lives with his family in **Afatli village of Aghdam district**. On **16 March 2021**, while grazing cattle in a field in the village where he lived, his fellow villager **Anar Huseynov** came to him and said that his brothers **Razi** and **Bayram Huseynov** had stepped on a mine in **Yusifjanli village of Aghdam district**, which had been liberated from occupation. He said that his brothers had gone to visit the graves of their relatives in connection with the Novruz holiday.

He immediately went with **Anar** and Anar's father **Akif** in a **VAZ-2107** vehicle belonging to Akif as far as the military trench, and from there they walked toward the scene. The scene was inside an old military trench located at the entrance to **Yusifjanli village**. When they arrived there, they saw **Razi** and **Bayram** lying in the trench covered in blood, and Razi's seven-year-old son standing beside him; however, they saw no injuries on **Huseyn's** body.

They then entered the trench to help them. While they were lifting Razi, another explosion occurred. Mine fragments struck him, **Anar** and **Akif Huseynov**, and each of them sustained bodily injuries of varying degrees. After that, they again remained motionless in the trench. **Razi** died as a result of the second explosion, while **Bayram** had already died by that time. Half an hour later, deminers arrived and removed them from the trench. As a result of the explosion, the vision in his left eye became impaired. He stated that he had a complaint against the accused and asked the court to impose the most severe punishment on him.

Babayev Ramil Nazim oglu, questioned in court as a victim, stated that while using a tractor belonging to the **Barda Forest and Melioration Department** in the territory of **Tazakend village of Aghdam district**, he was filling in a rampart created by Armenian armed formations during the occupation period in order to open a road when a mine buried in the ground exploded. As a result, he was injured by shrapnel. The incident occurred on **18 November 2020** in the territory of **Tazakend village of Aghdam district**.

At that time, he worked in a fortification-engineering unit of the Ground Forces, and there were other persons next to him during the incident. At the same time, **three** pieces of equipment struck mines and exploded. During the incident, he sustained injuries to the head, mouth and left rib-cage areas. He stated that he had a complaint against the accused and asked the court to impose the most severe punishment on him.

Badalov Zaur Kazim oglu, questioned in court as the legal successor of a victim, stated that he is the father of **First Lieutenant Badalov Javidan Zaur oglu**, a martyred serviceman of military unit No. "N" of the Ministry of Defence. He himself was a participant in the First Karabakh War and had fought in all combat zones during that war. Later, he raised two sons who had higher education and became officers. His elder son, **Javidan**

Badalov, studied for four years at the **Heydar Aliyev Military Lyceum** from **2013 to 2017**. After graduating in 2017 and receiving the military rank of lieutenant, he joined the army. Later, during the **44-day Patriotic War** in **2020**, his son **Javidan Badalov** sustained serious injuries to both legs. At that time, he refused to leave military service as a wounded veteran and continued his military service.

On **12 September 2022**, during the night hours, while preventing large-scale provocative acts by Armenian armed formations, his son **Javidan Badalov** was martyred in the territory of **Lachin district** as a result of fire opened by Armenian armed formations. He asked the court to impose the most severe punishment on the accused.

Khalilov Ilgar Gadim oglu, questioned in court as the legal successor of a victim, stated that his brother was martyred in **1992** during the First Karabakh War, and his son **Khalilov Gadim Ilgar oglu** was martyred in **2022**.

His son **Khalilov Gadim Ilgar oglu** began serving from **April 2022** as an extended active-duty serviceman in military unit No. "N" of the Ministry of Defence. While serving in that military unit, on **12 September 2022**, while preventing large-scale provocative acts by Armenian armed formations, he was martyred in the territory of **Kalbajar district** as a result of fire opened by members of Armenian armed formations. He asked the court to impose the most severe punishment on the accused.

Samadov Sadagat Hidayat oglu, questioned in court as the legal successor of a victim, stated that he is the father of **Lieutenant Samadov Elnur Sadagat oglu**, a martyred serviceman of military unit No. "N" of the Ministry of Defence. His son **Elnur Samadov** was born in **1998** in **Ismayilli district**. After finishing secondary school, he entered **Sumgayit State University**. After completing higher education, he began military service in military unit No. "N" of the Ministry of Defence.

Later, **Elnur Samadov** completed the relevant courses and first received the military rank of warrant officer. From **August 2022**, he continued his military service as an officer in military unit No. "N" of the Ministry of Defence. On **13 September 2022**, while preventing large-scale provocative acts by Armenian armed formations and while defending **Kalbajar district**, his son **Elnur Samadov** was martyred as a result of fire opened by members of Armenian armed formations. He asked the court to impose the most severe punishment on the accused.

Sadigov Niyamaddin Haji oglu, questioned in court as the legal successor of a victim, stated that he is the father of **Sadigov Jeyhun Niyamaddin oglu**, a martyred serviceman of military unit No. "N" of the Ministry of Defence. His son **Jeyhun Sadigov** began serving from **2022** as an extended active-duty serviceman in military unit No. "N" of the Ministry of Defence. While serving in that military unit, on **19 September 2023**, he participated in local anti-terrorist operations conducted against unlawful Armenian armed formations. On **20 September 2023**, at around **04:00 at night**, he was martyred during combat operations in the direction of **Khankendi city**. He asked the court to impose the most severe punishment on the accused.

Azizaliyev Teyyub Gurbankhan oglu, questioned in court as the legal successor of a victim, stated that he is the father of **Azizaliyev Seymur Teyyub oglu**, a martyred serviceman of military unit No. "N" of the Ministry of Defence. His son **Seymur Azizaliyev** was called up for active military service in **2022** and served as a soldier in military unit No. "N" of the Ministry of Defence. While serving in that military unit, on **19 September 2023**, he participated in local anti-terrorist operations conducted against unlawful Armenian armed formations and was martyred during combat operations in the direction of **Khankendi city**.

Eminov Elbrus Saleh oglu, questioned in court as a victim, stated that he had served in military unit No. "N" of the Ministry of Defence

and, while serving in that military unit, on **20 September 2023**, during the local anti-terrorist operations carried out by the Armed Forces of the Republic of Azerbaijan against unlawful Armenian armed formations existing in the territories of **Aghdara, Khojaly and Khojavend districts**, he sustained shrapnel wounds as a result of a mortar shell fired by unlawful Armenian armed formations falling and exploding near him. He asked the court to impose the most severe punishment on the accused.

Feyzullayev Baloghlan Ramiz oglu, questioned in court as a victim, stated that he had served in military unit No. "N" of the Ministry of Defence. While he was serving in that military unit, on **19 September 2023**, local anti-terrorist operations against unlawful Armenian armed formations began in the territories of **Aghdara, Khojavend and Khojaly districts**.

On that date, in the territory of **Khojavend district**, while seizing the combat post of unlawful Armenian armed formations located opposite combat post No. **19**, subordinate to the military unit No. "N" of the Ministry of Defence where he served, he sustained various bodily injuries as a result of the explosion nearby of an **F1-type hand grenade** thrown by illigal Armenian armed formations toward the trench. During that incident, one serviceman next to him, whose name he did not remember, was martyred. He asked the court to impose the most severe punishment on the accused.

Jabiyev Tural Aliniyaz oglu, questioned in court as a victim, stated that he had served with the rank of warrant officer in military unit No. "N" of the Ministry of Defence, located in **Hadrut settlement of Khojavend district**. While serving in that military unit, on **19 September 2023**, during his participation in local anti-terrorist operations, he sustained a bullet wound to the right leg as a result of fire opened from an automatic firearm by unlawful Armenian armed formations during combat operations in a forested area in the direction of **Daghyurd village of Khojaly district**. During that incident, two servicemen who were next to him and whose names he did not remember were martyred. He asked the court to impose the most severe punishment on the accused.

Osmanli Toghrul Ramiz oglu, questioned in court as a victim, stated that he had served in military unit No. "N" of the Ministry of Defence as a scout, with the military rank of sergeant. While serving in that military unit, on **20 September 2023**, during his participation in local anti-terrorist operations, he sustained shrapnel wounds to both legs as a result of a grenade-launcher round fired by unlawful Armenian armed formations falling and exploding near him during combat operations in the direction of **Khojaly district**. He asked the court to impose the most severe punishment on the accused.

Hadiyev Huseyn Ilgar oglu, questioned in court as a victim, stated that he had served in military unit No. "N" of the Ministry of Defence. While serving in that military unit, on **19 September 2023**, during his participation in local anti-terrorist operations, he sustained a shrapnel wound to the right side of the chest as a result of fire opened by unlawful Armenian armed formations in the territory of **Khojavend district**. He asked the court to impose the most severe punishment on the accused.

Najafzada Farzani Yashar oglu, questioned in court as a victim, stated that he had served in military unit No. "N" of the Ministry of Defence as a reconnaissance-operator, with the military rank of junior sergeant. First, in **2022**, he was wounded after stepping on a mine planted by unlawful Armenian armed formations. Later, on **20 September 2023**, while participating in local anti-terrorist operations, during combat operations in the direction of **Khankendi city**, in the area known as the **"Khach post,"** he was fired upon with a sniper

rifle by unlawful Armenian armed formations he sustained a bullet wound as a result of fire opened with a sniper rifle by unlawful Armenian armed formations. He asked the court to impose the most severe punishment on the accused.

Page 222

Mammadov Fikrat Hidayat oglu, questioned in court as a victim, stated that he had served as a soldier in military unit No. "N" of the Ministry of Defence. While serving in that military unit, on **19 September 2023**, while participating in local anti-terrorist operations, he sustained shrapnel wounds to the right arm area as a result of the explosion nearby of a mortar shell fired by unlawful Armenian armed formations in the **Aghdam–Aghdara** direction. He asked the court to impose the most severe punishment on the accused.

Aslanli Elgun Elchin oglu, questioned in court as a victim, stated that in **2021** he went to military service and began serving in military unit No. "N" of the Ministry of Defence. While serving in that military unit, on **16 November 2021**, while preventing large-scale provocative acts by unlawful Armenian armed formations, during combat operations in the territory of **Lachin district**, he sustained various bodily injuries as a result of a shell fired by unlawful Armenian armed formations falling near him and exploding. He asked the court to impose the most severe punishment on the accused.

Ismayilov Elchin Hasan oglu, questioned in court as a victim, stated that he had served in military unit No. "N" of the Ministry of Defence. While serving in that military unit, on **19 September 2023**, during local anti-terrorist operations in the direction of **Shusha**, he sustained a blind shrapnel wound to the right shoulder girdle as a result of fire opened by unlawful Armenian armed formations. At the same time, two servicemen who were his comrades-in-arms also sustained injuries. He asked the court to impose the most severe punishment on the accused.

Guliyev Ceyhun Rafiq oglu, questioned in court as a victim, stated that he had served in military unit No. "N" of the Ministry of Defence. While serving in that military unit, on **19 September 2023**, while participating in local anti-terrorist operations, in the territory of **Janyatag village of Aghdara district**, he sustained various bodily injuries as a result of a **Kornet-type missile shell** fired by unlawful Armenian armed formations falling near him and exploding. He asked the court to impose the most severe punishment provided by law on the accused.

Rzayev Nadir Tahir oglu, questioned in court as a victim, stated that he had served in military unit No. "N" of the Ministry of Defence. While serving in that military unit, during the local anti-terrorist operations that began on **19 September 2023**, while preventing a provocation by unlawful Armenian armed formations in the direction of **Aghdara district**, he

sustained various bodily injuries as a result of fire opened from different weapons by unlawful Armenian armed formations.

At that time, his comrades-in-arms **Elmaddin Hacizada** and **Sarkhan Alekbarov** sustained injuries, while his other comrades-in-arms **Mikayil Hamidli** and **Sarkhan Koklerov** were martyred. He asked the court to impose the most severe punishment on the accused.

Sadigov Panah Sulduz oglu, questioned in court as a victim, stated that he had served as a mine-clearance specialist, with the military rank of soldier, in military unit No. "N" of the Ministry of Defence. While serving in that military unit, on **13 September 2022**, in the territory of **Lachin district**, he sustained various bodily injuries as a result of a mortar shell fired by Armenian armed formations falling near him and exploding. He asked the court to impose the most severe punishment on the accused.

Ismayilov Nurlan Nadir oglu, questioned in court as a victim, stated that he had served as a soldier in military unit No. "N" of the Special Forces of the Ministry of Defence. While serving in that military unit, on **13 September 2022**, while preventing large-scale provocative acts by Armenian armed formations, in the territory of **Lachin district**, as a result of a mortar shell fired by Armenian armed formations falling near him and exploding, servicemen of military unit No. "N" of the Ministry of Defence — **Gafarli Amil** and **Mammadli Namiq** — were martyred. At the same time, **Pashayev Alakbar**, **Aliyev Murad** and several other servicemen of military unit No. "N" whose names he does not remember sustained various bodily injuries.

Page 251

He asked the court to impose the most severe punishment on the accused.

Pashayev Alakbar Zulfugar oglu, questioned in court as a victim, stated that he had served in military unit No. "N" of the Ministry of Defence. While serving in that military unit, on **13 September 2022**, while preventing large-scale provocative acts by Armenian armed formations, in the territory of **Kalbajar district**, as a result of a mortar shell fired by Armenian armed formations falling near him and exploding, servicemen of military unit No. "N" of the Ministry of Defence where he served — soldier **Mammadli Namiq Aghamammad oglu** and soldier **Gafarli Amil** — were martyred. At the same time, **Ismayilov Nurlan Nadir oglu** and several other servicemen of military unit No. "N" whose names he does not remember sustained various bodily injuries. He asked the court to impose the most severe punishment on the accused.

Zeynalzade Elchin Enver oglu, questioned in court as a victim, stated that he had served in military unit No. "N" of the Ministry of Defence. While serving in that military unit, on **24 August 2022**, at combat position No. **3** located in the territory of **Marzili village of Aghdam district**, while observing the opposite side with binoculars marked **BDS111**, No. **57514**, a laser beam was directed at his right eye by members of Armenian armed formations located

on the opposite side, as a result of which he sustained an injury to his eye. He asked the court to impose the most severe punishment on the accused.

Mamizada Tabriz Isa oglu, questioned in court as a victim, stated that he had served in military unit No. "N" of the Ministry of Defence. While serving in that military unit, on **13 September 2022**, in the territory of **Kalbajar district**, he sustained various bodily injuries as a result of a mortar shell fired by Armenian armed formations falling near him and exploding. In general, at different times during combat operations in the territories of **Lachin** and **Kalbajar** districts, he was wounded twice. He asked the court to impose the most severe punishment on the accused.

Guliyev Hacibaba Alaskar oglu, questioned in court as a victim, stated that he had served in military unit No. "N" of the Ministry of Defence. While serving in that military unit, on **19 September 2023**, while participating in local anti-terrorist operations, in the direction of **Aghdara district**, he sustained a shrapnel wound to the right foot area as a result of ammunition fired by unlawful Armenian armed formations from artillery and mortar weapons falling near him and exploding.

At that time, three servicemen who were his comrades-in-arms and whose names he did not remember also sustained injuries. He asked the court to impose the most severe punishment on the accused.

Ramazanov Ziyafaddin Nizamaddin oglu, questioned in court as a victim, stated that he had served in military unit No. "N" of the Ministry of Defence. While serving in that military unit, on **25 March 2022**, while defending positions located at the foot of **Farrukh Mountain** near **Farrukh village of Aghdam district**, he sustained a bullet wound to the right leg as a result of fire opened from an automatic weapon by Armenian armed formations.

At that time, one of his comrades-in-arms serving with the rank of warrant officer, whose name he did not remember, also sustained injuries. During combat operations that took place after that day, another serviceman whose name he did not remember was also wounded. He asked the court to impose the most severe punishment on the accused.

Badalov Elnur Rafik oglu, questioned in court as a victim, stated that he had served in military unit No. "N" of the Ministry of Defence. While serving in that military unit, on **19 September 2023**, during local anti-terrorist operations

in the territory of **Askeran village of Khojaly district**, he sustained numerous shrapnel wounds to the right foot and left hand areas as a result of ammunition fired by unlawful Armenian armed formations from large-calibre artillery and mortar weapons falling near him and exploding. He asked the court to impose the most severe punishment on the accused.

Ganbarov Rayil Pirali oglu, questioned in court as the legal successor of a victim, stated that his son **Elmir** had participated in the **44-day Patriotic War** of **2020**. After the war

ended, in the liberated territories, unlawful Armenian armed formations planted mines near dwellings and other buildings during the daytime and fled from those areas at night.

On **27 December 2020**, during the process of fully clearing the liberated territories of enemy forces, while his son and the servicemen who were with him were carrying out inspections inside those buildings, his son was martyred as a result of fire opened by Armenian armed formations hidden in ownerless buildings, and his comrades-in-arms sustained various bodily injuries. He asked the court to impose the most severe punishment on the accused.

Mammadov Shahriyar Elsan oglu, questioned in court as the legal successor of a victim, stated that his brother **Safyar Mammadov** served in military unit No. **052** of the Ministry of Defence located in **Jalilabad district**. On **12 September 2022**, while preventing large-scale provocative acts by Armenian armed formations during the defence of **Kalbajar district**, his brother was martyred as a result of sniper fire opened by members of Armenian armed formations. He asked the court to impose the most severe punishment on the accused.

Jafarov Muzaffar Eldar oglu stated that on **16 November 2021**, while serving as the commander of the 4th battalion of military unit No. "N" and being in the area near **Kilsadagh**, battalion commander Major **Shahmar Hajiyev** contacted him by communication means and informed him that, in the territory of **Minkand village of Lachin district**, at combat position **L-40**, fighting was taking place between Armenian armed formations and servicemen, and that assistance had to be provided to wounded servicemen.

He went to that area together with a sanitary vehicle and its driver. He indeed witnessed intense fighting in that area. On the slope near post No. **40**, there were four servicemen in wounded condition who needed first medical assistance. He asked the sanitary instructor and the driver who were with him to get into the sanitary vehicle and drive quickly away from the area. While they were on the road, members of Armenian armed formations opened fire on the sanitary vehicle; one of the bullets struck the front right wheel of the vehicle, passed through the cabin and injured his knee area. He asked the court to impose the most severe punishment on the accused.

Alizade Nicat Rahman oglu, questioned in court as a victim, stated that on **19 September 2023**, while participating in anti-terrorist operations, he sustained an injury to the foot area in the supply battalion of the **762nd regiment**. He asked the court to impose the most severe punishment on the accused.

Karimov Fuad Fikrat oglu, questioned in court as a victim, stated that he served as a sanitary instructor in military unit No. **651** of the Ministry of Defence. On **19 September 2023**, while providing first medical assistance in the direction of **Aghdara district** pursuant to an order, he sustained injuries consisting of bruising to the right knee and right heel areas. He asked the court to impose the most severe punishment on the accused.

Mammadli Ruslan Mehman oglu, questioned in court as a victim, stated that while preventing large-scale provocative acts committed by Armenian armed formations in the

direction of **Aghdara district**, he sustained serious injuries to both legs, the head and the arm areas as a result of a mortar shell fired by Armenian armed formations falling near him and exploding.

There were martyred and wounded servicemen among his comrades-in-arms as a result of that incident. He asked the court to impose the most severe punishment on the accused.

Page 253

Abbasli Murad Adalat oglu, questioned in court as a victim, stated that at the time of the incident he had served in the Ground Forces. While preventing large-scale provocative acts by Armenian armed formations, on **12 September 2022**, in the territory of **Kalbajar district**, as a result of fire opened by Armenian armed formations, his comrade-in-arms **Ulvi Mahmudzade** was martyred; at the same time, he, soldier **Rashan Bashirov**, and several other servicemen whose names he did not remember sustained various bodily injuries. He asked the court to impose the most severe punishment on the accused.

Sadigov Elmir Ali oglu, questioned in court as a victim, stated that on **19 September 2023**, while participating as a serviceman of military unit No. "N" in combat operations, he sustained craniocerebral trauma and brain concussion as a result of the explosion of a shell fired by Armenian armed formations. He asked the court to impose the most severe punishment on the accused.

Zeynalov Avaz Alakbar oglu, questioned in court as a victim, stated that on **19 September 2023**, he had served as a company commander in military unit No. "N". He sustained craniocerebral trauma as a result of ammunition launched by Armenian armed formations by means of a drone falling near him and exploding. He asked the court to impose the most severe punishment on the accused.

Rzayev Ravan Gadirgha oglu, questioned in court as a victim, stated that since **2014** he had served with the rank of warrant officer. On **19 September 2023**, while participating in local anti-terrorist operations in the direction of **Shushakend**, he sustained two bullet wounds as a result of fire opened by unlawful Armenian armed formations. During the incident, two of his comrades-in-arms were martyred and seven servicemen under his command were wounded. He asked the court to impose the most severe punishment on the accused.

Nasirov Camaladdin Fakhraddin oglu, questioned in court as a victim, stated that he had served as a soldier in military unit No. "N" of the Ministry of Defence. On **19 September 2023**, while preventing the enemy provocation in the direction of **Shusha**, he sustained one bullet wound to the abdominal cavity as a result of sniper fire opened by unlawful Armenian armed formations. He asked the court to impose the most severe punishment on the accused.

Khankishiyev Mirdamat Latif oglu, questioned in court as a victim, stated that while preventing large-scale provocative acts by Armenian armed formations, on **13 September 2022**, in the territory of **Lachin district**, he sustained various bodily injuries as a result of an

anti-tank missile fired by Armenian armed formations falling near him and exploding. He asked the court to impose the most severe punishment on the accused.

Asgarzade Anar Radim oglu, questioned in court as a victim, stated that on **6 November 2020**, during the **44-day Patriotic War**, and on **14 September 2022**, while preventing large-scale provocative acts by Armenian armed formations, he sustained closed craniocerebral trauma and serious bodily injuries as a result of a mortar shell fired by Armenian armed formations falling near him and exploding. He asked the court to impose the most severe punishment on the accused.

Karimli Ayxan Xaliq oglu, questioned in court as a victim, stated that while preventing provocative acts by unlawful Armenian armed formations during the local anti-terrorist operations conducted in **2023**, in a forested area in the direction of **Khankendi city**, he sustained a shrapnel wound to the one-third area of his right arm as a result of artillery fire opened by Armenian armed formations. He asked the court to impose the most severe punishment on the accused.

Isazade Vusal Ilham oglu, questioned in court as a victim, stated that on **19 September 2023** he participated in anti-terrorist operations as part of military unit No. "N". At that time, as a result of a grenade launched by a drone used by unlawful Armenian armed formations

he sustained multiple injuries to the leg and arm areas and barotrauma. He asked the court to impose the most severe punishment on the accused.

Isganderov Nicat Habil oglu, questioned in court as a victim, stated that, while preventing large-scale provocative acts by unlawful Armenian armed formations, in **2023**, during combat operations conducted in **Khalfali village of Shusha district**, he sustained a through-and-through gunshot wound of the right hand. At that time, a soldier who served with him was martyred. He asked the court to impose the most severe punishment on the accused.

Alizade Mursal Sabuhi oglu, questioned in court as a victim, stated that while preventing large-scale provocative acts by unlawful Armenian armed formations, on **21 September 2023**, during combat operations conducted in the direction of **Khankendi city**, he sustained a shrapnel wound as a result of ammunition launched by unlawful Armenian armed formations by means of a drone falling near him and exploding. He asked the court to impose the most severe punishment on the accused.

Cabbarzada Cabbar Rasim oglu, questioned in court as a victim, stated that on **27 October 2021**, approximately in the direction of **Kalbajar district**, on an uphill and winding section of road in a forested area, numerous shots were opened at the vehicle in which they were travelling, and their vehicles were rendered unusable. He asked the court to impose the most severe punishment on the accused.

Mammadov Galib Habib oglu, questioned in court as a victim, stated that while preventing large-scale provocative acts by Armenian armed formations, on **13 September 2022**, in the territory of **Lachin district**, he was wounded. During the incident, battalion commander First Lieutenant **Aliyev Ali** was martyred as a result of a hand grenade of the **F1** type falling near him and exploding, and he and six comrades-in-arms sustained various bodily injuries. He asked the court to impose the most severe punishment on the accused.

Amirov Fuad Fayaz oglu, questioned in court as a victim, stated that while preventing large-scale provocative acts by unlawful Armenian armed formations, in **2023**, during combat operations conducted in **Khalfali village of Shusha district**, he sustained a through-and-through gunshot wound of the lower third of the right thigh, entering from the rear-inner surface. He asked the court to impose the most severe punishment on the accused.

Ahmadov Gismat Balahmad oglu, questioned in court as a victim, stated that while preventing large-scale provocative acts by Armenian armed formations, during the night from **12 September 2022 to 13 September 2022**, he was wounded. As a result of the incident, he sustained an injury to the one-third area of his left leg. He asked the court to impose the most severe punishment on the accused.

Sayilov Vurghun Aghazar oglu, questioned in court as a victim, stated that he, Sergeant **Sayilov Vurghun Aghazar oglu**, sustained a shrapnel wound and an open gunshot wound as a result of an artillery shell fired by the enemy side during the battles for **Shusha city** in **2020**.

In **2023**, during local anti-terrorist measures, while unlawful Armenian armed formations were carrying out a combat ambush on the road from **Shusha city** to **Khankendi city**, he sustained injuries to the area of both legs as a result of an artillery shell fired by them falling near him and exploding. He asked the court to impose the most severe punishment on the accused.

During that incident, another comrade-in-arms whose name he did not remember was also injured together with him. He asked the court to impose the most severe punishment on the accused.

Suleymanov Afiq Ziyafat oglu, questioned in court as a victim, stated that he had served in military unit No. "N" of the Ministry of Defence. On **14 July 2022**, having been assigned by the Mine Action Agency of the Republic of Azerbaijan, while carrying out demining activities near **Nuzgar village of Jabrayil district**, he was driving a **T-72 M-1** tank marked with number **256**, while the tank commander, Warrant Officer **Aghayev Mirza Intigam oglu**

was indicating the route by communication means. While the tank was moving along the indicated line, the front left side of the tank struck a mine, and the engine stopped. Then the front right side of the tank again struck a mine and exploded. As a result of that incident, he and tank commander **Aghayev Mirza Intigam oglu** sustained bodily injuries of varying degrees. He asked the court to impose the most severe punishment on the accused.

Garayev Suleyman Faiq oglu, questioned in court as a victim, stated that he had served as a soldier in military unit No. "N" of the Ministry of Defence. During his service in that military

unit, on **13 September 2022**, while preventing large-scale destructive acts by Armenian armed formations, in the direction of **Garagyol village of Lachin district**, he sustained closed craniocerebral trauma as a result of a mortar shell fired by Armenian armed formations falling near him and exploding. He asked the court to impose the most severe punishment on the accused.

Ahadov Kanan Bahlul oglu, questioned in court as a victim, stated that he had served as a soldier in military unit No. "N" of the Ministry of Defence. During his service in that military unit, first, on **8 November 2020**, during the **44-day Patriotic War**, he sustained shrapnel wounds in combat operations in the direction of **Khojavend district**.

Later, on **30 September 2021**, while travelling by car on a supply road in the territory of **Aghdam district**, because the weather was rainy, the vehicle left the road and entered an area mined by Armenian armed formations. As a result of the vehicle striking a mine, he sustained injuries to the left arm, left cheek and left shoulder areas. During that incident, besides him, one comrade-in-arms whose name he did not remember sustained a shrapnel wound to the sole of the foot, while another comrade-in-arms whose name he did not remember sustained a broken leg. He asked the court to impose the most severe punishment on the accused.

Haziyev Rashad Rahim oglu, questioned in court as a victim, stated that he had served as a driver in military unit No. "N" of the Ministry of Defence, with the military rank of soldier. During his service in that military unit, on **30 September 2021**, while travelling by car in the territory of **Aghdam district**, on a neutral road, because the weather was rainy, the vehicle lost control and entered a mined area planted by Armenian armed formations, and the vehicle in which he and his comrades-in-arms were travelling struck a mine in that area. As a result, he sustained an open shrapnel wound to the heel bone of the left foot. He asked the court to impose the most severe punishment on the accused.

Zarbaliyev Shahriyar Zahir oglu, questioned in court as a victim, stated that he had served as a group commander in military unit No. "N" within the Ground Forces of the Ministry of Defence, with the military rank of warrant officer. During his service in that military unit, on **19 September 2023**, while participating in local anti-terrorist operations, during combat operations in the **Khojaly–Khankendi** direction, he fell into an ambush by Armenian armed formations and, as a result of fire opened by them, sustained three shrapnel wounds to the right arm and closed craniocerebral trauma.

During that incident, one of his comrade-in-arms whose name he did not remember was martyred as a result of an artillery shell fired by Armenian armed formations. Another soldier whose name he did not remember sustained injuries to the thigh area, and the battalion commander of the unit in which he served sustained various injuries to the shoulder area. He asked the court to impose the most severe punishment on the accused.

Hajiyev Abdulla Sahil oglu, questioned in court as a victim, stated that he had served in military unit No. "N" within the Ground Forces of the Ministry of Defence.

During his service in that military unit, on **20 September 2023**, in the night hours, while participating in local anti-terrorist operations, and while preventing large-scale destructive acts by unlawful Armenian armed formations in the direction of **Aghdara district**, he sustained an injury to the jaw area as a result of fire opened by Armenian armed formations. During that incident, besides him, two other servicemen whose names he did not remember sustained injuries, and another comrade-in-arms, **Nicat Gasimli**, was martyred. He asked the court to impose the most severe punishment on the accused.

Hamidov Sadig Said oglu, questioned in court as a victim, stated that he had served in military unit No. "N" of the Ministry of Defence. During his service in that military unit, on **19 September 2023**, at around **13:00**, while participating in local anti-terrorist operations and defending the post known as **"K5"** in the territory of **Aghdam district**, they came under fire from large-calibre weapons by unlawful Armenian armed formations, and that post was almost destroyed.

At that time, while he was repelling the attack by the unlawful Armenian armed formations, he sustained an injury to the left shoulder area as a result of sniper fire opened by those terrorists. Together with him, two other servicemen whose names he did not remember were also wounded. While he remained there in a wounded state, that is, until approximately **20:00** in the evening, the unlawful Armenian armed formations fired at the positions where they were located with large-calibre weapons. He asked the court to impose the most severe punishment on the accused.

Isgandarov Alisahib Hamid oglu, questioned in court as the legal successor of a victim, stated that his martyred child, **Hamidli Hamid Alisahib oglu**, was appointed in **2020** to the position of battalion commander in military unit No. "N" of the Ministry of Defence, with the military rank of captain. During his service in that military unit, beginning with the **Tovuz battles** of **July 2020**, he took part in a number of combat operations.

His son **Hamid Hamidli** took part in combat operations in the direction of **Hadrut** during the **44-day Patriotic War** of **2020**. At that time, the tank in which he was located was struck by Armenian armed formations; as a result of that incident, **72 percen t** of his body was burned. After that, his son **Hamid Hamidli** received treatment in hospital for several months, then passed the relevant medical commission again and returned to army ranks.

Later, on **19 September 2023**, his son **Hamid Hamidli** participated in local anti-terrorist operations carried out against unlawful Armenian armed formations and was martyred in the direction of **Khojaly district**.

Amanov Shukran Yusif oglu, questioned in court as the legal successor of a victim, stated that his son **Yusifli Shamistan Shukran oglu** had voluntarily served in military unit No. "N" of the Ministry of Defence from **2019**. During his service in that military unit, he participated in the **Tovuz battles** that took place in **July 2020**. In addition, his son **Shamistan Yusifli** also

participated in the **44-day Patriotic War** of **2020** and, after the war, was awarded a number of medals.

On **20 September 2023**, the territorial representative of **Khirmandali village of Masalli district**, where he lived, informed him that his son **Shamistan Yusifli** had been martyred during local anti-terrorist operations in battles against unlawful Armenian armed formations in the direction of **Aghdara district**. He asked the court to impose the most severe punishment on the accused.

Abbasov Amrah Adoghlan oglu, questioned in court as the legal successor of a victim, stated that his son Abbasov Mehdi Amrah oglu went into active military service in 2022 and served in the "N" military unit of the Ministry of Defense during his military service.

Page 269

His son Mehdi Abbasov participated in local anti-terrorist operations against illegal Armenian armed forces on 19.09.2023 and was martyred during the battles in the direction of the Agdere region.

Asgarov Anar Telman oglu, questioned in court as a victim, stated that he was originally from **Aghdam district** and had lived as an internally displaced person because his native lands had been occupied by Armenian armed formations. He had served in military unit No. “N” of the Ministry of Defence and, during his service in that military unit, took part in the **44-day Patriotic War** that began in **2020**.

At that time, while he and three servicemen whose names he did not remember were clearing mines planted by Armenian armed formations in the territory of **Aghdam district**, they stepped on a surprise mine during the clearance work. As a result of the explosion of that mine, he sustained a blind shrapnel wound to the knee area, severe hearing loss in the left ear, and closed craniocerebral trauma.

During the incident, he witnessed that, after **Aghdam district** was liberated from occupation, the Armenian armed formations used the time given to them to leave those territories to plant mines there. He asked the court to impose the most severe punishment on the accused.

Hajizada Ruhid Alim oglu, questioned in court as a victim, stated that he had served as deputy commander of the 1st platoon of the 9th company of the 3rd battalion of military unit No. “N” of the Ministry of Defence, with the military rank of warrant officer, at combat point No. **31**, performing the combat task of confronting the enemy in the territory of **Kuropatkin village of Khojavend district**.

On **20 March 2021**, while he, together with his comrades-in-arms — soldiers **Guliyev Sirac Javid oglu**, **Bandaliyev Hazar Vahid oglu**, **Aslan Rashad Faraj oglu** and one soldier whose name he did not remember — was behind the soldiers’ shelter located behind the combat post, a mine exploded under his left foot. As a result, he and the named soldiers sustained injuries. He asked the court to impose the most severe punishment on the accused.

Gurbanov Ceyhun Ashraf oglu, questioned in court as a victim, stated that he had served in military unit No. “N” of the Ministry of Defence. During his service in that military unit, he participated in the **44-day Patriotic War** of **2020**. On **13 December 2020**, in the territory of **Shikhlar village of Aghdam district**, while he and five comrades-in-arms whose names he did not remember were moving on foot in a trench, they stepped on a mine planted by Armenian armed formations. As a result of the explosion of that mine, he sustained closed craniocerebral trauma and various bodily injuries; the other five comrades-in-arms who were with him also sustained bodily injuries of various kinds. He has continued to receive treatment since the day he sustained the injury, and, to date, certain limitations have arisen in his daily life activities. He asked the court to impose the most severe punishment on the accused.

Mikanayev Ali Ilham oglu, questioned in court as a victim, stated that he had served in military unit No. “N” of the Ministry of Defence. During his service in that military unit, on **29 September 2020**, during the **44-day Patriotic War**, during combat operations in the direction of **Hadrut**, he sustained craniocerebral trauma as a result of a mortar shell fired by Armenian armed formations falling near him and exploding. During that explosion, eight other servicemen whose names he did not remember also sustained bodily injuries of various kinds.

Suleymanov Elman Eldar oglu, questioned in court as a victim, stated that he had served in military unit No. “N” of the Ministry of Defence. During his service in that military unit, on **20 September 2023**, he and his comrades, whose names he did not remember, suffered various types of bodily injuries as a result of the explosion of a mortar shell fired by illegal Armenian armed forces during combat operations in the Khalfali village of Shusha region. During that incident, illegal Armenian armed forces attacked with "Fagot" rockets, snipers and other large-caliber weapons. He asked the court to impose the most severe punishment on the accused.

Page 270

Guliyev Rahman Tofig oglu, questioned in court as a victim, stated that he had served in military unit No. “N” of the Ministry of Defence. During his service in that military unit, while preventing the provocations of the illegal Armenian armed groups that began on 19.09.2023 in the direction of Khojavend region, he suffered a traumatic brain injury as a result of shots fired from various weapons by the illegal Armenian armed groups on 20.09.2023. He asked the court to impose the most severe punishment on the accused.

Aliyev Elmin Ilham oglu, questioned in court as a victim, stated that he had served in military unit No. “N” of the Ministry of Defence. While serving in that military unit, on **19 September 2023**, while participating in local anti-terrorist operations in the territory of **Aghdam district**, an anti-tank missile of the “CORNET” type, fired by unlawful Armenian armed formations, fell near the tank located next to him and exploded. As a result, he sustained closed craniocerebral trauma and minor injuries to the left side. During that incident, his fellow serviceman **Goyushov Nicat Shohrat oglu**, who was beside him, also

sustained injuries. He asked the court to punish the accused with the most severe punishment provided by law.

Gurbanov Abdulali Gurban oglu, questioned in court as a victim, stated that he had served as a tank driver-mechanic in military unit No. "N" within the Ground Forces of the Ministry of Defence. While serving in that military unit, on **19 September 2023**, at around **15:00**, while participating in local anti-terrorist operations in the direction of **Aghdara district**, a rocket shell fired by unlawful Armenian armed formations fell on the **T-72** tank in which he was located and exploded. As a result, he sustained closed craniocerebral trauma and burn injuries to one-third of the right side of his body. He asked the court to impose the most severe punishment on the accused.

Jabrayilov Kamran Mehman oglu, questioned in court as a victim, stated that he had served as a group commander, with the military rank of lieutenant, in military unit No. "N" of the Ministry of Defence. While serving in that military unit, on **19 September 2023**, while participating in anti-terrorist operations as part of the military unit, and while carrying out combat operations in the direction of **Aghdara district**, he and members of the group under his command, whose names he did not remember, sustained closed craniocerebral trauma and various bodily injuries as a result of artillery fire opened by unlawful Armenian armed formations. During that incident, unlawful Armenian armed formations mainly used large-calibre automatic weapons. He asked the court to impose the most severe punishment on the accused.

Guliyev Mehman Abbas oglu, questioned in court as a victim, stated that he had served in military unit No. "N" of the Ministry of Defence. While serving in that military unit, on **20 September 2023**, during local anti-terrorist operations, while carrying out an assignment to seize a support point of unlawful Armenian armed formations located to the left of **Khankendi city**, called the **"Khach post,"** he sustained injuries as a result of sniper fire opened by unlawful Armenian armed formations. During that incident, in addition to him, another officer whose name he did not remember also sustained bodily injuries of various kinds. He asked the court to impose the most severe punishment on the accused.

Mehtiyev Huseynali Ilham oglu, questioned in court as a victim, stated that he had served in military unit No. "N" of the Ministry of Defence. While serving in that military unit, on **19 September 2023**, while participating in local anti-terrorist operations in the territory of **Khojaly district**, he sustained injuries as a result of fire opened by unlawful Armenian armed formations. During that incident, two servicemen who were near him and whose names he did not remember were martyred. He asked the court to impose the most severe punishment on the accused.

Novruzlu Sabuhi Rovshan oglu, questioned in court as a victim, stated that he had served in military unit No. "N" of the Ministry of Defence. While serving in that military unit, on **20 September 2023**, while participating in local anti-terrorist operations in the territory of

Aghdara district, an artillery shell fired by unlawful Armenian armed formations fell on the **Ural** vehicle in which he was located and exploded. As a result, he sustained closed craniocerebral trauma, a second-degree burn to his left foot, and damage to the eardrum of his right ear. During that incident, among the **17** servicemen who were with him, two servicemen whose names he did not remember were martyred, while the others sustained various bodily injuries. He asked the court to impose the most severe punishment on the accused.

Jahangirzada Zamin Javanshir oglu, questioned in court as a victim, stated that he had served as a squad commander in military unit No. "N" within the Ground Forces of the Ministry of Defence. While serving in that military unit, on **20 September 2023**, he participated in local anti-terrorist operations in the territory of **Aghdara district; an** artillery shell fired by unlawful Armenian armed formations fell on the **Ural** vehicle in which he was located and exploded. As a result, he sustained closed craniocerebral trauma and severe hearing impairment in the right ear. During that incident, in addition to him, among the **17** servicemen who were with him, two servicemen whose names he did not remember were martyred, and the others sustained various bodily injuries. He asked the court to impose the most severe punishment on the accused.

Abbasov Ceyhun Anvar oglu, questioned in court as a victim, stated that he had served in military unit No. "N" of the Ministry of Defence. While serving in that military unit, on **19 September 2023**, while participating in local anti-terrorist operations in the territory of **Aghdam district**, he sustained closed craniocerebral trauma as a result of fire opened by unlawful Armenian armed formations. During that incident, seven servicemen who were with him and whose names he did not remember also sustained closed craniocerebral trauma. He asked the court to impose the most severe punishment on the accused.

Goyushov Nicat Shohrat oglu, questioned in court as a victim, stated that he had served in military unit No. "N" of the Ministry of Defence. While serving in that military unit, on **19 September 2023**, he participated in local anti-terrorist operations, in the territory of **Janyatag village of Aghdara district** and sustained injuries as a result of a mortar shell fired by unlawful Armenian armed formations falling near him and exploding. During that incident, one officer who was beside him and whose name he did not remember also sustained injuries. He asked the court to impose the most severe punishment on the accused.

Babazada Eshgin Vagif oglu, questioned in court as a victim, stated that in **August 2020** he began military service in the Armed Forces of the Republic of Azerbaijan with the military rank of lieutenant, and served in military unit No. "N" of the Ministry of Defence. While serving in that military unit, first, during the **44-day Patriotic War** in **2020**, as a supply commander

with the military rank of lieutenant, he participated in combat operations. Later, in **August 2022**, he also participated in the **"Revenge" operation** carried out against unlawful Armenian armed formations. On **19 September 2023**, while participating in local anti-

terrorist operations in the territory of **Aghdara district**, a mortar shell fired by unlawful Armenian armed formations fell near him and exploded. As a result, he sustained closed craniocerebral trauma. He asked the court to impose the most severe punishment on the accused.

Allahverdiyev Niyamaddin Ahliman oglu, questioned in court as a victim, stated that he had served as a squad commander in the administrative platoon of an artillery division in military unit No. "N" of the Ministry of Defence. While serving in that military unit, on **20 September 2023**, he participated in local anti-terrorist operations, during combat operations in the direction of **Fuzuli district**, he sustained injuries as a result of a shell fired by unlawful Armenian armed formations. During that incident, his comrades-in-arms who were beside him also sustained serious bodily injuries. He asked the court to impose the most severe punishment on the accused.

Mammadov Nemat Mirza oglu, questioned in court as a victim, stated that he had served in military unit No. "N" of the Ministry of Defence. After the end of the **44-day Patriotic War** in **November 2020**, he was sent to **Fuzuli district** by the Mine Action Agency of the Republic of Azerbaijan in December of that year.

On **1 June 2021**, while, together with employees of the Mine Action Agency of the Republic of Azerbaijan, he was carrying out demining work in liberated **Sarijali village of Aghdam district**, the **T-72** tank in which he was located, used to clear previously identified areas of unexploded mines, struck a surprise mine planted by Armenian armed formations and exploded. As a result, he sustained closed craniocerebral trauma and hearing damage in the right ear. He asked the court to impose the most severe punishment on the accused.

Mammadov Nurlan Fazil oglu, questioned in court as a victim, stated that he had served as a gunner, with the military rank of soldier, in military unit No. "N" of the Ministry of Defence. While serving in that military unit, on **19 September 2023**, he participated in local anti-terrorist operations in the territory of **Aghdam district**, a mortar shell fired by unlawful Armenian armed formations fell near him in front of the combat position conventionally called **"N1"** and exploded. As a result, he sustained numerous shrapnel wounds to the right thigh. During that incident, in addition to him, four extended active-duty servicemen whose names he did not remember were wounded, and one serviceman whose name he did not remember was martyred. He asked the court to impose the most severe punishment on the accused.

While serving in that military unit, on **19 September 2023**, participating in local anti-terrorist operations, during combat operations in the direction of **Girmizi Bazar settlement of Khojavend district**, he sustained an injury to the left leg as a result of a grenade-launcher round fired by unlawful Armenian armed formations falling near him and exploding. He asked the court to impose the most severe punishment on the accused.

Musayev Asim Isa oglu, questioned in court as a victim, stated that he, as a civilian, at around **03:00** during the night from **12 September 2022 to 13 September 2022**, taking his cattle and animals in the direction of **Kalbajar district**, in the territory of **Seyidli village of Jabrayil district**, approximately **30 artillery shells** fired by Armenian armed formations fell near him and exploded. As a result, his cattle and animals perished, and he himself sustained serious injuries. At the time of the explosion, persons named **Duman** and **Ramin Aliyev** were next to him; those persons were also civilians like him. During the incident, those persons sustained minor injuries. He asked the court to impose the most severe punishment on the accused.

Malikov Atamali Akif oglu, questioned in court as a victim, stated that he had served in military unit No. "N" of the Ministry of Defence. While serving in that military unit, he participated in the local anti-terrorist operations that took place on **19–20 September 2023**. At that time, he was in an evacuation group, and they had advanced **200–300 metres behind** the units. On **20 September 2023**, during the daytime, while he was participating in the local anti-terrorist

operations, during combat operations conducted in the territory of **Malibayli village of Khojaly district**, an artillery shell fired by Armenian armed formations fell near him and exploded. As a result, he sustained injuries to the abdominal cavity and back areas. At that time, when he was wounded, he asked his comrades-in-arms for help. The comrades-in-arms

who were near him provided him with first medical aid, and one of those comrades-in-arms was **Akif Huseynov**. He asked the court to impose the most severe punishment on the accused.

Hashimov Namiq Abdurrahman oglu, questioned in court as a victim, stated that he had served in military unit No. "N" of the Ministry of Defence. During his service in that military unit, first, on **5 October 2020**, during the **44-day Patriotic War**, he was wounded in combat operations in the direction of **Suqovushan settlement of Tartar district**.

Later, on **19 September 2023**, while participating in local anti-terrorist operations, during combat operations in the direction of **Aghdam district**, he moved to that area in order to evacuate **24** servicemen wounded and martyred on the front line. As a result of the military medical aid vehicle in which he was located being struck by an anti-tank missile fired by unlawful Armenian armed formations financed by **Ruben Vardanyan**, he sustained injuries to the foot, head and many other parts of the body. At the same time, five other servicemen who were near him and whose names he did not remember also sustained bodily injuries of varying degrees. When the wounded servicemen were being evacuated during that incident, the military medical aid vehicle had distinctive markings on it. He asked the court to impose the most severe punishment on the accused.

Sabirzada Madat Sabir oglu, questioned in court as a victim, stated that he had served as a squad commander in military unit No. "N" of the Ministry of Defence. While serving in that military unit, on **19 September 2023**, while participating in local anti-terrorist operations, during combat operations in the direction of **Khojaly district**, he sustained a through-and-through bullet wound to the left ankle area as a result of fire opened by unlawful Armenian armed formations. At the same time, five servicemen who were near him and whose names he did not remember were martyred. He asked the court to impose the most severe punishment on the accused.

Asgarov Tehrun Rasul oglu, questioned in court as a victim, stated that he had served as an extended active-duty serviceman, with the military rank of soldier, in military unit No. "N" within the Ground Forces of the Ministry of Defence. While serving in that military unit, on **19 September 2023**, while participating in local anti-terrorist operations, during combat operations in the direction of **Aghdara district**, artillery shells fired by unlawful Armenian armed formations fell near him and exploded. As a result, he sustained closed craniocerebral trauma and injuries to the neck area. At that time, in addition to him, the commander of the group in which he served, **Fuad Gurbanli**, was also injured. He asked the court to impose the most severe punishment on the accused.

Shikhaliyev Nureli Nuri oglu, questioned in court as a victim, stated that he had served in military unit No. "N" of the Ministry of Defence and, during his service in that military unit, had previously participated in the **44-day Patriotic War**, which began in **2020**.

Later, on **16 November 2021**, on the conditional Azerbaijan–Armenia state border located in **Lachin district**, in the direction of **Sisian district** of the Republic of Armenia, while

preventing large-scale destructive acts committed by Armenian armed formations, he sustained an injury to the leg area. He asked the court to impose the most severe punishment on the accused.

Page 277

Mammadli Sadig Saday oglu, questioned in court as a victim, stated that from **2014** to **2024** he was an extended active-duty serviceman and, at the time of the incident, served as platoon commander in military unit No. “N” within the Ground Forces of the Ministry of Defence. While serving in that military unit, on a date in **2023** that he did not remember precisely, while preventing large-scale destructive acts by Armenian armed formations, during combat operations in the direction of **Kalbajar district**, he sustained an injury to the foot area as a result of artillery fire opened by Armenian armed formations. He asked the court to impose the most severe punishment on the accused.

Azizov Aziz Nasimi oglu, questioned in court as a victim, stated that he had served as an extended active-duty serviceman in military unit No. “N” within the Ground Forces of the Ministry of Defence. While serving in that military unit, on **19 September 2023**, while participating in local anti-terrorist operations, during combat operations in the direction of **Khojavend district**, he sustained closed craniocerebral trauma as a result of a mortar shell fired by unlawful Armenian armed formations falling near him and exploding. During that incident, in addition to him, the commander of the squad in which he served, Junior Lieutenant **Orkhan Rahimov**, was also injured; at that time no one else was near them. He asked the court to impose the most severe punishment on the accused.

Aghayev Bahlul Shamsaddin oglu, questioned in court as a victim, stated that from **October 2008** he began extended active military service and remained in such service until **November 2024**. At the time of the incident, he served in military unit No. “N” of the Ministry of Defence. During his service in that military unit, he participated in the **April battles of 2016** and also in the **44-day Patriotic War** that began in **2020**.

In **November 2020**, during the 44-day Patriotic War, he sustained a gunshot wound to the left foot as a result of fire opened by Armenian armed formations. Later, on **19 September 2023**, while participating in local anti-terrorist operations, during combat operations in the direction of **Khojavend district**, he sustained an injury to the left arm as a result of fire opened by unlawful Armenian armed formations. During that incident, his comrades-in-arms — operations group commander First Lieutenant **Javid Mirzayev**, soldier **Igbal Rzayev** and Lieutenant **Nofal Aliyev** — were martyred. He asked the court to impose the most severe punishment on the accused.

Gurbanli Fuad Mansur oglu, questioned in court as a victim, stated that from **2020** he began extended active military service in military unit No. “N” of the Ministry of Defence. During his service in that military unit, he had previously participated in combat operations in the direction of **Kalbajar district** during the **44-day Patriotic War** that began in **2020**.

Later, on **19 September 2023**, while participating in local anti-terrorist operations, in the direction of **Aghdara district**, he sustained an injury as a result of a mine previously planted by unlawful Armenian armed formations exploding, and **one-third of his left foot was amputated**. He asked the court to impose the most severe punishment on the accused.

Masimov Khayal Fazil oglu, questioned in court as a victim, stated that he had served in the sniper platoon of military unit No. "N" within the Ground Forces of the Ministry of Defence. While serving in that military unit, in **September 2023**, participating in local anti-terrorist operations, during combat operations in the direction of **Aghdara district**, a mortar shell fired by unlawful Armenian armed formations fell near him and exploded, as a result of which he sustained closed craniocerebra

trauma. He asked the court to impose the most severe punishment on the accused.

Rafizada Nurlan Rafail oglu, questioned in court as a victim, stated that he had served in military unit No. "N" of the Ministry of Defence. While serving in that military unit, on **19 September 2023**, while participating in local anti-terrorist operations, during combat operations in the direction of **Aghdara district**, he sustained closed craniocerebral trauma and an injury to the right knee area as a result of a mortar shell fired by unlawful Armenian armed formations falling near him and exploding. He asked the court to impose the most severe punishment on the accused.

Maharramov Rasif Barat oglu, questioned in court as a victim, stated that he had served in military unit No. "N" of the Ministry of Defence. During his service in that military unit, first, on **29 September 2020**, during the **44-day Patriotic War**, while participating in combat operations in the direction of **Suqovushan settlement of Tartar district**, he was wounded in the throat area. Later, he returned to military service and again participated in combat operations. On **13 October 2020**, while participating in combat operations, he was wounded again, this time in the eye area.

Later, during **19–20 September 2023**, while participating in local anti-terrorist operations carried out against unlawful Armenian armed formations, he sustained an injury to the knee area. At that time, in addition to him, one soldier beside him also sustained a gunshot wound as a result of fire opened from a sniper rifle by unlawful Armenian armed formations. The victim noted in his statement that during the 44-day Patriotic War that began in 2020, he served as a machine gunner in military unit No. "N" of the Ministry of Defence, and during the local anti-terrorist operations that took place on **19–20 September 2023**, he served as group commander in that military unit. He asked the court to impose the most severe punishment on the accused.

Aliyev Mazahir Karim oglu, questioned in court as a victim, stated that from **2021** to **2023** he had served in military unit No. "N" of the Ministry of Defence located in **Lachin district**. While serving in that military unit, on **12–15 September 2022**, while preventing large-scale

destructive acts by Armenian armed formations, during combat operations in the direction of **Alagoller village of Lachin district**, he sustained an injury to the left thigh as a result of an artillery shell fired by Armenian armed formations falling near him and exploding.

At the same time, one serviceman with the military rank of soldier who was near him and whose name he did not remember sustained an injury to the face area. He asked the court to impose the most severe punishment on the accused and to compensate for the damage caused to the victims and to the state.

Mikayilli Camaladdin Ilyas oglu, questioned in court as a victim, stated that in **2018** he graduated from the Military Medical Faculty of Azerbaijan Medical University as a military doctor. After beginning military service, he served as head of the medical point of military unit No. "N" within the Ground Forces of the Ministry of Defence, with the military rank of captain of the medical service.

He was injured in the calf of his right leg as a result of a sniper rifle shot during an attack by Armenian armed groups in the direction of Khankendi on September 19, 2023. Sergeant Yusif Ahmadov, who was with him, was martyred. He asked the court to punish the accused in accordance with the legislation of the Republic of Azerbaijan.

Hasanov Ramig Faig oglu, who was interrogated in court as a victim, stated in his testimony that he serves in the "N" military unit of the Ministry of Defense. On September 19, 2023, during local anti-terrorist operations in the direction of the village of Dagyurd, Khojaly district, he received a shrapnel wound in his arm as a result of a shell explosion fired by illegal Armenian armed groups. At that time, Junior Sergeant Sergey Heybatov, who was next to him, was martyred as a result of a shell explosion fired by large-caliber weapons fired by Armenian groups. He is a complainant against the accused

and has asked the court to impose the most severe punishment on the latter in accordance with the legislation of the Republic of Azerbaijan.

In his testimony, Sergeant Rustamli Rustam Ayaz oglu, a reconnaissance operator of the 1st group of the 4th platoon of the 5th company of the 2nd battalion of the military unit of the Ministry of Defense, who was interrogated in court as a victim, stated that on September 19, 2023, during an anti-terrorist operation, three toes on his left foot were broken as a result of a mortar shell fired in the direction of the Dagyurd village. When the incident occurred, the enemy tried to commit sabotage in the territory of the Dagyurd village of the Khojaly region. He left the decision to be made regarding the accused to the court's discretion.

Valiyev Fagan Adil oglu, who was interrogated in court as a victim, stated in his testimony that while serving in the “N” military unit of the Ministry of Defense with the rank of warrant officer, on September 19, 2023, at around 14:30, while heading towards the “A-11” post during a local anti-terrorist operation in the direction of Aghdam, he was injured in 4/1 part of his body as a result of a shell fired by the enemy from a weapon called “Komet”. As a result of the incident, his right leg, left thigh, left arm and chest area were damaged. He asked the court to impose a severe punishment on the accused.

Muradov Ahlyar Afgan oglu, who was questioned in court as a victim, stated in his testimony that while serving in the “N” military unit of the Ministry of Defense, he was injured as a result of a shell fired from a 64-mm mortar during battles in the direction of the Aghdam region on September 19, 2023. Several military personnel who were with him were also injured during the incident. He requested the court to fully compensate the state for the damage caused by the accused and to punish him within the framework of the law.

Mammadli Elyas Mammad oglu, who was interrogated in court as a victim, stated in his testimony that while serving in the “N” military unit of the Ministry of Defense, he was injured by a shrapnel from a mortar shell during anti-terrorist operations in the direction of the village of Khanabad, Khojaly district, on September 19, 2023. During the incident, he received a shrapnel wound in the right thigh area and, in addition to himself, Murad Aliyev, Nazim Aghayev and Rashmi Hummatov were also injured. He requested the court to punish the accused before the law.

Nasirov Joshgun Tagi oglu, who was interrogated in court as a victim, stated in his testimony that while serving in the “N” military unit of the Ministry of Defense, he was injured in the

right leg as a result of small arms fire during battles in the direction of the Khojaly district on September 19, 2023. During the incident, some of his fellow servicemen who served with him were martyred and injured. He does not remember the names of the martyrs and wounded now. He asked the court to punish the accused within the framework of the law.

Shukurov Rajib Choydar oglu, who was interrogated in court as a victim, stated in his testimony that while serving in the "N" military unit of the Ministry of Defense, on September 19, 2023, during local anti-terrorist operations, while preventing enemy sabotage, he received a closed head injury as a result of a mortar shell explosion fired by the enemy in the direction of the Khanabad village of the Khojaly region. Turan Hasanli, Khagani Guliyev and other military personnel whose names he did not remember were also injured during the incident. He asked the court to punish the accused within the framework of the laws of the Republic of Azerbaijan for the crimes committed.

Huseynov Eldar Adil oglu, who was questioned in court as a victim, stated in his testimony that he suffered a closed head injury and concussion as a result of a mortar shell fired by illegal Armenian armed forces during anti-terrorist operations in the direction of Farrukh Mountain, Khojaly on September 19, 2023. At the time of the incident, he served as the commander of the Marine Infantry Battalion. During the incident, there were more than 60 wounded and variously injured servicemen in the battalion he led,

Page 320

and 4 servicemen were martyred. He asked the court to punish the accused within the framework of the law.

Badalli Ramal Bahlul oglu, who was interrogated in court as a victim, stated in his testimony that on 19.07.2021, while serving as a company commander in a position facing the enemy in the military unit No. "N" located in the direction of the Sadarak district of the Nakhchivan Autonomous Republic, he was wounded in the left leg with a 62 mm shell as a result of fire from the opposite side. The enemy positions opened fire on our units in the direction of the Heydarabad settlement from the direction of the Arazdeyan settlement, and in one of those ceasefire violations, he received a bullet wound in the left leg. He asked the court to punish the accused in accordance with the law.

Shabanov Beylar Etibar oglu, who was questioned in court as a victim, stated in his testimony that on October 13, 2021, while he was driving from Sugovushan settlement to Kalbajar district on the Aghdara-Kalbajar route, their "Niva" car was suddenly shot at in the area called the Red Bridge, resulting in five bullet marks on the car. At that time, the car was traveling with the Peacekeeping Forces of the Russian Federation, and after an investigation, it was determined that the car was damaged by the Armenian armed forces. The car was shot at with a 5.45 mm sniper rifle. No one was injured at that time, but the car was seriously damaged. He asked the court to punish the accused in accordance with the Criminal Code of the Republic of Azerbaijan.

Rzazadeh Kenan Fayaz oglu, who was questioned in court as a victim, stated in his testimony that he was injured as a result of a mortar shell explosion fired by Armenian armed forces in the Kalbajar region on September 13, 2022. At the time of the incident, he was serving as a military doctor, and when he was evacuating his comrades who were injured as a result of fire opened by Armenian armed forces, he was injured as a result of a mortar shell fired by Armenians. He stated that they evacuated the wounded in an ambulance and that their car had military insignia, and noted that a fellow doctor who was in the same car with him was also injured. At that time, they evacuated two wounded and one martyr. He requested the court to punish the accused in accordance with the Criminal Code of the Republic of Azerbaijan.

Talibov Hasil Matlab oglu, who was interrogated in court as a victim, stated in his testimony that on September 12, 2022, during the defense of the state borders in the Zangilan region, he and some of his servicemen were injured as a result of an attack by illegal Armenian armed formations. The incident occurred at around 01:00 on the night of September 12-13, and Captain Farid Mehballi was killed as a result of shells fired from automatic weapons and grenade launchers, and Elshan Babazadeh was killed as a result of shell fire from an automatic weapon. He asked the court to punish the accused within the framework of the laws of the Republic of Azerbaijan.

Amrali Zamin Zabil oglu, who was interrogated in court as a victim, stated in his testimony that he served in the "N" military unit of the State Border Service as an assistant sniper, with the rank of warrant officer. On the night of September 12-13, 2022, while organizing the defense of the state border on the Bartaz Heights located in the Zangilan direction, an armed provocation was committed by the enemy using large-caliber weapons and 120-mm mortars. Due to the forested area, the enemy's approach could not be observed. The enemy was located at a distance close enough to use hand grenades. When the enemy threw a hand grenade into the trench, Senior Warrant Officer Mammadov Nahid and Warrant officer Farid Rustamov were martyred. Other comrades-in-arms, Senior Warrant Officer Saleh Hasanov and Farid Mammadov, were seriously injured. He himself received shrapnel wounds to his left knee as a result of the hand grenade being thrown into the trench.

Page 321

He asked the court to punish the accused in the most severe way.

Alasgarov Orkhan Javanshir oglu, who was interrogated in court as a victim, stated in his testimony that on September 14, 2022, at around 10:00, during a provocation by Armenian armed forces in the direction of the Kalbajar region, he took action with the "N" military unit of the Special Forces to prevent the provocation and at that time received a head injury as a result of the enemy's artillery and "PK" brand weapons. At that time, Sarkhan Omarov was martyred at one of the posts as a result of the explosion of a hand grenade thrown by the enemy. He asked the court to punish the accused within the framework of the law.

Mayilli Ibrahim Rahim oglu, who was questioned in court as a victim, stated in his testimony that on the night of September 12-13, 2022, while serving in the “N” military unit of the State Border Service in the Zangilan region, he was injured as a result of a mortar shell explosion while preventing an Armenian provocation. As a result of that incident, Lieutenant Seymur Hasanli was seriously injured. He asked the court to give the accused the most severe punishment within the framework of the law.

Maharramov Alim Ilgar oglu, who was interrogated in court as a victim, stated in his testimony that he served as a group commander in the engineering and fortification unit of the “N” military unit of the State Border Service. On 26.02.2021, according to the instructions given to them, they were supposed to take a high post located in the village of Ashagi Khojamsagli, Gubadly district. However, first, the sappers had to go to that area and conduct demining work. At that time, at around 4-5 o'clock, while carrying out demining work, he suddenly heard explosions and observed that warrant officer Elmaddin Alishanov and Nuraddin Azizli had fallen into a mine. At that time, he was two steps ahead of them, and when he approached them, he saw that Elmaddin Alishanov was injured in the eye area and Nuraddin Azizli was injured in the leg area. Then, when he left them to pick up the mine detector, he saw Vagif Nagiyev and Vugar Ibrahimov fall into a mine. The seriously injured were evacuated, and he witnessed Vagif Nagiyev and Nureddin Azizli lose their legs in an instant. **Those areas were mined by the Republic of Armenia during the Second Karabakh War, and these mines belonged to**

the Republic of Armenia. He demanded that the accused be punished by the court within the framework of the law.

Shahbazov Farid Valeh oglu, who was interrogated in court as a victim, testified that on 19.09.2023, he received multiple shrapnel wounds and a head injury as a result of a shell fired by the enemy in the direction of the Aliagali village of the Aghdam region during local anti-terrorist operations. His fellow soldiers, Sadig Shekarov and Murad Aliyev, who were with him at that time, were also injured. At the time of the incident, he served as the commander of the technical observation squad in the “N” military unit of the Ministry of Defense. He asked the court to punish the accused severely under the law.

Shirinov Parviz Nadir oglu, who was interrogated in court as a victim, testified that on 19.09.2023, while serving in the “N” military unit of the Ministry of Defense, he was injured as a result of a grenade explosion thrown by Armenian armed forces in the Janyatag village of the Aghdara region. Lieutenant Elnur Soltanov and warrant officer Sadiq Hamidov were also injured during the incident. He asked the court to punish the accused according to the law.

Namazov Murtuz Farman oglu, who was interrogated in court as a victim, stated in his testimony that while serving in the engineering and fortification unit of the State Border Service, he received a shrapnel wound on July 21, 2021, at around 5-6 pm, while participating in a mine search operation on the "Shotarız" elevation located in the direction of the Vecnali village of the Zangilan district. At that time,

Page 322

Mahammad Gilmizliyev was also with him and he worked as an assistant in mine clearance work. Mahammad Gilmizliyev was initially injured, his leg was amputated, and the right side of his face was damaged by shrapnel wounds. He asked the court to punish the accused according to the law.

Gilmizliyev Mahammad Ilham oglu, who was interrogated in court as a victim, gave a statement consistent with the statement of the victim Namazov Murtuz Farman oglu. He asked the court to give the most severe punishment to the accused.

Hajiyev Khayal Alovsat oglu, who was interrogated in court as a victim, stated in his statement that while he was serving in the "N" military unit of the Ministry of Defense, on 13.09.2022 at around 02:00, while preventing large-scale sabotage actions by the armed forces of the Dashkesan region, the enemy launched fire attacks on an unnamed height. The fire attacks continued unabated until nightfall. In the morning, when he observed the enemy units advancing from their positions, he, together with Senior Lieutenant Ahmad Ahmadzadeh, gathered his group and advanced towards the opposite side in accordance with the relevant task and came into close contact. The close contact lasted for 1112 minutes. During that time, he was injured as a result of an "F-1" hand grenade thrown from the opposite side falling nearby. While he and Asiman Imamverdiyev were trying to evacuate the injured soldier, Asiman Imamverdiyev was shot in the chest and martyred as a result of enemy sniper fire. His other soldier, Javidan Salimov, was shot. During the confrontation, the enemy retreated by throwing 2 "RPG-28" grenades, 1 "RPK-74", "PK" and 4 "AK-74" weapons. He asked the court to give the accused the most severe punishment.

Isgandarov Sarkhan Elshan oglu, who was interrogated in court as a victim, stated in his testimony that on September 20, 2023, at about 03:00, during a local "Anti-terrorist operation" in the Gulyatag village of Aghdara district, he was ambushed and injured by illegal Armenian armed forces. He served as a commander in the ground forces and observed the enemy's use of small arms, including sniper weapons. Junior Sergeant Yusif Turabov, Captain Safar

Huseynguliyev and Private Shahin Talibov were also injured with him. He asked the court to punish the accused within the framework of the laws of the Republic of Azerbaijan.

He asked the court to severely punish the accused in accordance with the law.

Namazaliyev Firuddin Rafael oglu, who was questioned in court as a victim, stated in his testimony that he serves in the "N" military unit of the Ministry of Defense. On September 13, 2022, during the battle in the Dashkesan region, while preventing an enemy provocation, he was wounded in the right thigh as a result of a sniper rifle shot. He requested the court to impose the most severe punishment under the law on the accused.

Talibov Elgun Magsud oglu, who was interrogated in court as a victim, stated in his testimony that he serves in the “N” military unit of the Ministry of Defense. On September 19, 2023, as a result of an ambush by the opposing side in the direction of Agdere, he was wounded in the palm of his right hand as a result of fire opened by the enemy at a distance of approximately 300 meters. The bullet entered the upper part of the right hand and exited through his hand. Mustafayev Rovshan Sahib oglu, who was with him during that ambush, was also wounded in the neck. He requested the court to punish the accused in accordance with the law.

Hasanov Hakim Nusraddin oglu, who was interrogated in court as a victim, testified that he served in the "N" military unit of the Ministry of Defense. On September 13, 2022, while preventing an enemy provocation in the Kalbajar direction, he and Sergeant Aslanov Zargam Ali oglu were injured as a result of an artillery shell. A soldier named Elnur Mammadli who was with him at that time was martyred, and Sergeant Aslanov Zargam Ali oglu was discharged from the army due to being seriously injured. After that trauma, he suffered a sixty percent loss of vision in his right eye and a forty percent loss of hearing in his ears. He asked the court to impose the most severe punishment on the accused.

Habibov Khayal Gabil oglu, who was questioned in court as a victim, stated in his testimony that he serves in the "N" military unit of the Ministry of Defense. On 20.07.2023, at around 10 am, he went to the "N" military unit located in the Bululduz village of the Lachin region with other military personnel in a "Volkswagen Amarok" car with the registration number 99-KU-898. After dropping off other military personnel at the military unit, he drove to the Gorchu village of the Lachin region for a short walk. When he approached the village, the car suddenly hit a mine. As a result of the mine explosion, he was thrown around in the car and suffered various bodily injuries. He asked the court to impose the most severe punishment on the accused.

Hasanov Vugar Shahlar oglu, who was interrogated in court as a victim, stated in his testimony that he serves in the "N" military unit of the Ministry of Defense. On September 19, 2023, during anti-terrorist operations in the direction of the Aghdam region, he and seven other servicemen were injured by a mortar shell fired by the enemy while serving in the intelligence unit. He asked the court to impose the most severe punishment on the accused.

Musayev Omar Binnet oglu, who was interrogated in court as a victim, stated in his testimony that he serves in the "N" military unit of the Ministry of Defense. On September 14, 2022, during anti-terrorist

operations in the direction of Istisu in the Kalbajar region, he was wounded by a sniper bullet and Sabuhi Ahmadov was martyred next to him. He asked the court to impose the most severe punishment on the accused.

Mammadov Samir Mammad oglu, who was interrogated in court as a victim, stated in his testimony that he serves in the "N" military unit of the Ministry of Defense. On 14.11.2021, he went to the so-called "Tanker-5" post in the Kalbajar region to prevent the violation of the ceasefire by illegal Armenian armed forces. On that date, he was wounded in the head as a result of mortar fire from illegal Armenian armed forces in the direction of the Lachin region, and his servicemate Tural Isgandarov was also injured. He requested the court to punish the accused with the most severe punishment in accordance with the laws of the Republic of Azerbaijan.

Abbasov Ruslan Shahban oglu, who was interrogated in court as a victim, stated in his testimony that he serves in the "N" military unit of the Ministry of Defense. On 13.09.2022, while preventing an enemy provocation in the area called the "Uchtepe" post in the Kalbajar region, he and two soldiers with him received gunshot wounds. He asked the court to impose the most severe punishment on the accused.

Huseynov Vugar Ilham oglu, who was questioned in court as a victim, stated in his testimony that he serves in the "N" military unit of the Ministry of Defense. On 19.09.2023, he was injured in the neck as a result of falling near a hand grenade thrown by illegal Armenian armed forces during local anti-terrorist operations in the direction of the Veng village of the Kalbajar

region and exploding. Other military personnel, Togrul Humbatzadeh and Madat Omarov, were also injured during the incident. He asked the court to punish the accused in accordance with the law.

Aliyev Togrul Hasanbala oglu, who was interrogated in court as a victim, stated in his testimony that he serves in the “N” military unit of the Ministry of Defense. On 19.09.2023, while preventing a provocation committed by illegal Armenian armed forces, he and two comrades-in-arms were injured by shrapnel during local anti-terrorist operations carried out in the Aliaga village of the Aghdam region. He asked the court to impose the punishment specified in the Criminal Code of the Republic of Azerbaijan on the accused.

Ibrahimov Samir Abulfaz oglu, who was interrogated in court as a victim, stated in his testimony that he serves in the “N” military unit of the Ministry of Defense. On 19.09.2023, he participated in local anti-terrorist operations in the Askeran settlement of the Khojaly region. On 20.09.2023, at around 15:00, he was injured and wounded in the right arm and right facial area as a result of a shot from an automatic weapon in the Askeran settlement of the Khojaly region. Warrant officer Orkhan Keramli, Warrant officer Kenan Agazade and Private Samir Islamov were also injured with him, while Captain Khazar Jafarov, Warrant officer Ramin Rahimov, Sergeant Akram Kalbiyev and Private Islam Dunyamaliyev were martyred. He asked the court to impose the most severe punishment on the accused.

Bayram Ilyas oglu Agjayev, who was questioned in court as a victim, stated in his testimony that he serves in the "N" military unit of the Ministry of Defense. On September 14, 2022, at around 6-7 p.m., while preventing large-scale provocative actions by Armenian armed forces in the territory of the Kalbajar region, he suffered a head injury as a result of a mortar shell explosion fired by Armenian armed forces. At that time, two fellow officers, Sabuhi Abdullayev and Jeyhun Azizov, also suffered trauma. He asked the court to impose the most severe punishment for the accused in accordance with the law.

Page 329

Guliyev Rashad Murshud oglu, who was interrogated in court as a victim, indicated in his testimony that he serves in the "N" military unit of the Ministry of Defense. While preventing large-scale provocative actions by Armenian armed forces, he suffered closed head trauma and barotrauma as a result of the explosion of a mortar shell fired by Armenian armed forces in the territory of the Kalbajar region on 14.09.2022 at around 15.00-16.00. The enemy was carrying out provocations from the state border at that time, and our army tried to prevent the attack at that time. He asked the court to punish the accused in the most severe way.

Abdullayev Kamal Aladdin oglu, who was interrogated in court as a victim, indicated in his testimony that he serves in the "N" military unit of the Ministry of Defense. On 19.09.2023, he participated in the battle conducted in the direction of the A-11 post located in the Sirkhavand village of the Aghdam region during local anti-terrorist operations. On that day, at around 11:00, in the first moments of the battle, an anti-tank missile fired by illegal Armenian armed forces hit the post where they were positioned, resulting in the death of 11 people. Approximately 10 minutes after the post was hit, the victim and his comrades left the position and continued to advance. When they were moving approximately 500 meters from the post, the victim was injured in the left leg and upper right upper limb as a result of the enemy's use of a sniper weapon, and Lieutenant Colonel Rustamov Rustam, Deputy Commander of the Military Unit Senior Lieutenant Aliyev Valiyulla, Captain Elvin Aliyev and other comrades were martyred. He asked the court to impose the most severe punishment on the accused in accordance with the law.

Musayev Orkhan Ramiz oglu, who was questioned in court as a victim, stated in his testimony that he serves in the “N” military unit of the Ministry of Defense. He was injured in the left eye area during local anti-terrorist operations in the direction of Agdam on September 19, 2023. Also, Nizami Jabbarov, a serviceman who had served beyond his term of active military service, was injured, and 1 comrade-in-arms was martyred. He requested the court to impose the most severe punishment on the accused in accordance with the law.

Hasanov Dilgam Heybat oglu, who was interrogated in court as a victim, stated in his testimony that he serves in the “N” military unit of the Ministry of Defense. On 20.09.2023, at around 11:30, during local anti-terrorist operations in the direction of the Saribaba village of the Lachin district, he and 2 soldiers were injured as a result of the use of artillery weapons, and soldier Mahammad Huseynov and soldier Eltaj Ahadov were martyred. He requested the court to punish the accused in the most severe way in accordance with the law.

Khalilov Samir Nadir oglu, who was interrogated in court as a victim, stated in his testimony that he serves in the “N” military unit of the Ministry of Defense. On September 19, 2023, during local anti-terrorist operations, he suffered a severe head injury as a result of the explosion of a BM-21 rocket fired by the enemy in the direction of the Papravand village of the Aghdara region, and Warrant officer Elnur Ibrahimov, who was with him, was martyred. He asked the court to impose the most severe punishment on the accused in accordance with the law.

Taghiyev Sardar Gunduz oglu, who was interrogated in court as the legal heir of the victim, testified that he is the brother of the martyr Taghiyev Sabuhi Gunduz oglu. On April 11, 2023, in the Digh settlement of the Lachin region, his brother Sabuhi Taghiyev and two military personnel who were with him were martyred as a result of Armenian provocation. He is a complainant against the perpetrators of this crime and demands that the court punish them in the most severe way within the framework of the laws of the Republic of Azerbaijan.

Veliyev Zeka Majnun oglu, who was interrogated as a victim, indicated in his testimony that he serves in the "N" military unit of the Ministry of Defense.

Page 330

While preventing large-scale provocative actions by Armenian armed formations, on September 19, 2023, at about 10 p.m., during combat operations in the Khanabad village of Khojaly region, soldiers Allahverdi Shafiyev and Elnur Karimov were martyred as a result of a mortar shell fired by Armenian armed formations falling nearby and exploding, and at the same time, he and Senior Lieutenant Rasul Aghayev also received various types of bodily injuries. He requested the court to impose the most severe punishment on the accused.

Alganov Vahid Faig oglu, who was interrogated in court as a victim, stated in his testimony that he serves in the "N" military unit of the Ministry of Defense. On September 13, 2022, while serving in the Lachin region, while preventing provocations committed by Armenian armed forces, he and other comrades were injured as a result of a mortar shell explosion, and his servicemate Saddam Huseynov was martyred. As a result of the provocations committed by the Armenian armed forces, there were martyrs and wounded among the personnel of the Azerbaijani Armed Forces. He asked the court to punish the accused within the framework of the relevant legislation of the Republic of Azerbaijan.

Ismayilov Elgun Behbut oglu, who was interrogated in court as a victim, stated in his testimony that he serves in the "N" military unit of the Ministry of Defense. Anti-terrorist operations were launched on September 19, 2023 in order to prevent provocations committed by illegal armed Armenian forces. At that time, he was wounded in the head as a result of enemy fire from a

small weapon in the direction of the Gulyatag village of the Aghdara region. Captain Safar Huseynguliyev, who was next to him, was wounded in the mouth as a result of a bullet fired from an automatic weapon. He asked the court to impose the most severe punishment on the accused.

Huseynov Bakhtiyar Asef oglu, who was interrogated in court as a victim, stated in his statement that he serves in the "N" military unit of the Ministry of Defense. On 29.07.2021, while carrying out a combat mission in the direction of the Zar village of the Kalbajar region, his posts were attacked by Armenian armed forces and he was injured as a result of an explosion of a hand grenade thrown by the enemy. Nusrat Orujov, Elshad Agayev and soldier Roman Dadashov, who were with him at that time, were also wounded as a result of fire from the Armenian armed forces. He asked the court to punish the accused in accordance with the relevant legislation of the Republic of Azerbaijan.

Orujov Nusret Gunduz oglu, who was interrogated in court as a victim, stated in his testimony that he serves in the "N" military unit of the Ministry of Defense. On 29.07.2021, at around 3 o'clock in the Zar village of Kalbajar district, he was wounded in the right shoulder area as a result of large-caliber gunfire and a hand grenade explosion by Armenian armed forces. At the same time, Bakhtiyar Huseynov, a serviceman who had served over the term of active military service, and soldier Roman Dadashov were also wounded as a result of the same fire. At that time, Sarkhan Omarov and Nusret Orujov were martyred at one of the other posts. He asked the court to impose the most severe punishment on the accused.

Khosiyev Javid Hilal oglu, who was interrogated in court as a victim, stated in his testimony that he serves in the "N" military unit of the Ministry of Defense. On 19.09.2023, at around 14:00, while preventing provocations by illegal Armenian armed formations in the Aghdam-Khojaly direction, he lost 60% of his hearing in his left ear and suffered various bodily injuries as a result of a mortar shell explosion. He asked the court to impose the most severe punishment on the accused within the framework of the law.

Seyidzadeh Nihad Javid oglu, who was interrogated in court as a victim, stated in his testimony that he serves in the "N" military unit of the Ministry of Defense. On September 19-20, 2023,

while preventing an Armenian provocation in the Agbulag forest located in the Khojaly region, he and his comrades-in-arms Murad Huseynov and Ravan Agazadeh were injured as a result of fire from the enemy's "PK" machine gun. He asked the court to impose the most severe punishment on the accused in accordance with the relevant legislation of the Republic of Azerbaijan.

In court, Elshan Elshad oglu Babayev, as a victim, stated in his testimony that he serves in the "N" military unit of the Ministry of Defense. On September 20, 2023, at about 11:00, as a result of an anti-tank shell fired by illegal Armenian armed forces in the territory of the Aghdara region, he and Senior Lieutenant Hasanov Yusif Elshan oglu were injured, and soldiers Tural Amirov and Elchin Salmanov were martyred. Elvin Gurban oglu Mammadov, who was interrogated in court as a victim, stated in his testimony that he serves in the "N" military unit of the Ministry of Defense. On 19.09.2023, at around 20:00, a mortar shell fired by Armenian armed forces in the territory of the Sardarkand village of the Khojaly region exploded near him, causing injuries to him and his comrade-in-arms, a soldier Kamran Hasanov, who had served an extended period of active military service. He asked the court to impose the punishment provided for in the legislation of the Republic of Azerbaijan on the accused.

Shukurlu Khalid Alishan oglu, who was questioned in court as a victim, stated in his testimony that he serves in the "N" military unit of the Ministry of Defense. On September 19-20, 2023,

anti-terrorist operations were carried out by illegal Armenian armed forces in the Malibayli direction of the Khankendi region. During that anti-terrorist operation, he and two soldiers were injured by an artillery shell. He asked the court to punish the accused accordingly.

Humbatzade Taleh Khanoglan oglu, who was questioned in court as a victim, stated in his testimony that he serves in the "N" military unit of the Ministry of Defense. He was injured as a result of an explosion when he fell near an artillery shell fired by illegal Armenian armed formations located in the Yenikend village of Khojavend region on 19.09.2023 at around 15:30. In the area where he was injured and at the same time, his fellow soldier Shavgatli Javid Ogtay oglu was also injured.

Amirli Fazil Zafar oglu, who was interrogated in court as a victim, stated in his testimony that he serves in the "N" military unit of the Ministry of Defense. He participated in an anti-terrorist operation against illegal Armenian armed formations in the direction of the Malibeyli village of the Khojaly region on September 20, 2023, at around 03:00 at night. During this operation, he was injured in the calf area of his left leg as a result of a mortar shell explosion. Also, his service colleagues Najafov Kamran Jeyhun oglu and Jabbarov Seyfaddin Giyasaddin oglu also received certain injuries along with him. He stated that he left the sentencing of the accused to the discretion of the court.

Gasimov Ilgar Vugar oglu, who was interrogated in court as a victim, stated in his testimony that he serves in the "N" military unit of the Ministry of Defense. On September 19-20, 2023, during a local anti-terrorist operation against illegal Armenian armed formations in the direction of Ashagi Yemishjanli in the Khojaly region, he fell on an anti-personnel mine planted by Armenians and received a small shrapnel wound in the face. During the incident, Huseynov Huseyn, Mehdiyev Orkhan, Mammadov Gunduz and Gardashkhanov Mahammadali, who were with him, were also injured, and Khankishiyev Elshan Elshad oglu was martyred. He asked the court to punish the accused in the most severe way.

Page 332

Nuran Sabir oglu Gasimov, who was interrogated in court as a victim, indicated in his testimony that he serves in the "N" military unit of the Ministry of Defense. On May 19, 2021, during the restoration of the conditional state border in the Lachin direction, a provocation was committed by about 150200 enemy servicemen and civilians. As a result of that provocation, a hand-to-hand fight began, and during the fight, he was injured by Armenian servicemen with a blunt instrument. As a result of this injury, his right leg was broken at the knee. The incident occurred in the Lachin direction, in an area called Garagol. Although everyone had weapons in order to restore the conditional state border, no weapons were used. Another incident occurred in March 2023. At that time, information was received from the Ministry of Defense that the enemy was arming civilian and sanitary vehicles in its territory through "black roads". Patrol services were organized based on this information. In order to stop a UAZ car driven by Armenians, he and other military personnel signaled to the car with their hands, but the car opened fire. As a result of the fire from the rear, Eshgin Huseynov and Senior Lieutenant Shahriyar Alibayli were martyred. He demands that the court punish the accused within the framework of the law.

Ibrahimov Alimukhtar Gulaga oglu, who was interrogated in court as a victim, stated in his testimony that he serves in the "N" military unit of the Ministry of Defense. On May 19, while restoring the conditional state border in the Garagöllar area of the Lachin region, he and his comrade Nuran Gasimov were subjected to aggression by the Armenian armed forces. At that time, when he and his comrade Nuran Gasimov were talking and moving in the community in order to get Nuran Gasimov out of there, they were injured by the enemy with the rear part of

the weapon, that is, the butt part. As a result, he received a head injury. He demands that the court punish the accused according to the law.

Aliyev Panah Khaleddin oglu, who was interrogated in court as a victim, stated in his testimony that he serves in the “N” military unit of the Ministry of Defense. While he was on duty at the combat positions around Lake “Garagol” in the Lachin region, on the night of 19.05.2021 to 20.05.2021, at around 01:00, military personnel of the Armenian Armed Forces violated the state border of the Republic of Azerbaijan and attempted to enter and seize the positions of the armed forces. At that time, although the military personnel of the Armed Forces of the Republic of Azerbaijan wanted to resolve the issue peacefully, the opposing side, relying on the numerical superiority, ignored the demands to withdraw and used force against the Azerbaijani military personnel there using automatic rifle butts, pieces of wood and other objects. He was hit in the back of the head when his comrade was injured while evacuating him. He asked the court to punish the accused in accordance with the laws.

Beylarov Asgar Ali oglu, who was interrogated in court as a victim, indicated in his testimony that he serves in the “N” military unit of the Ministry of Defense. While a group of military personnel of the military unit were on combat duty at combat positions around Lake “Garagol” located in the Lachin region, on the night of 19.05.2021 to 20.05.2021, at around 01:00, military personnel of the Armenian Armed Forces violated the state border of the Republic of Azerbaijan and attempted to enter and seize the positions of the armed forces. At that time, although the military personnel of the Armed Forces of the Republic of Azerbaijan wanted to resolve the issue peacefully, the opposing side, relying on the numerical superiority, ignored the demands to withdraw and used force against the Azerbaijani military personnel there using automatic rifle butts, pieces of wood and other objects. He suffered a closed head injury as a result of the blow and was admitted to the military hospital of the Ministry of Defense. He asked the court to punish the accused within the framework of the law.

Rahimov Ulvi Elshan oglu, who was questioned in court as a victim, stated in his testimony that he serves in the “N” military unit of the Ministry of Defense.

Page 333

On May19, 2021, during an enemy provocation in the "Garagol" direction of the Lachin district, he was hit with a blunt instrument while evacuating his servicemate Nuran Gasimov and was evacuated to the hospital of the "N" military unit. He asked the court to punish the accused within the framework of the law.

Salimov Elvin Islam oglu, who was questioned in court as a victim, indicated in his testimony that he serves in the "N" military unit of the Ministry of Defense. On May 19, 2021, he participated in the events held in connection with the restoration of state borders in the "Garagol" direction of the Lachin district. During the incident, he was hit in the head with a blunt instrument while trying to free his servicemate Nuran Gasimov from the hands of the other party. He was injured with a blunt instrument, and no firearm was used during the incident. He asked the court to sentence the accused to the most severe punishment in accordance with the legislation.

Mammadov Samir Sanan oglu, who was interrogated in court as a victim, stated in his testimony that he serves in the “N” military unit of the Ministry of Defense. He participated in the events held during the restoration of state borders in the Lachin direction in May 2021. During the incident, he was injured in the head while trying to remove his serviceman Nuran Gasimov from the scene, and as a result, he was hospitalized with a diagnosis of head trauma.

He demands that the court sentence the accused to the most severe punishment in accordance with the legislation.

Manafov Azer Mazahir oglu, who was interrogated in court as a victim, stated in his testimony that he serves in the “N” military unit of the Ministry of Defense. On 17.12.2021, during the removal of illegal Armenian armed formations from the territories, a “Great Wall” car with military license plate J311QQ, carrying Javad Ismayilov and Asef Aghayev, hit a buried mine and was completely unharmed. As a result, Javad Ismayilov and Asaf Aghayev were martyred. The incident took place in the direction of Jabrayil district. He asked the court to punish the accused in accordance with Azerbaijani legislation.

Abushov Yadulla Rahib oglu, who was interrogated in court as a victim, indicated in his testimony that he serves in the "N" military unit of the Ministry of Defense. On September 12, 2022, the units located in the Kalbajar region were exposed to fire from Armenian armed forces. He and his comrades-in-arms received head injuries. The opposing side used all types of small arms, artillery installations and mortars. At that time, there were both martyrs and injured among his comrades-in-arms. He requested the court to hold all persons who caused the violation of the territorial integrity of the Republic of Azerbaijan accountable and punish them in accordance with the legislation.

Salahov Sahil Gadimovich, who was interrogated in court as a victim, indicated in his testimony that he serves in the "N" military unit of the Ministry of Defense. He was injured as a result of a shell fired by Armenian armed forces exploding nearby during local anti-terrorist operations in the Khojavend region on 19.09.2023. Warrant officer Maharram Huseynov, soldier Sabuhi Mammadov, and sergeant Togrul Aliyev, who had served beyond the term of active military service, were martyred during the incident. He requested the court to punish the accused in accordance with the law.

Kerimov Mammadtaghi Yashar oglu, who was interrogated in court as a victim, stated in his testimony that he served in the "N" military unit of the Ministry of Defense, and during his service in that military unit, on September 13, 2022, while preventing large-scale provocative actions by Armenian armed forces, he suffered a closed head injury as a result of a mortar shell fired by Armenian armed forces falling near him and exploding during combat operations in the Alagollar village of the Kalbajar region. He asked the court to impose the most severe punishment on the accused.

Page 334

Mammadli Jeyhun Sadiq oglu, who was questioned in court as a victim, stated in his testimony that he served as the chief of medical service in the "N" military unit of the Ministry of Defense, and during his service in that military unit, on September 13, 2022, while preventing large-scale sabotage actions by Armenian armed forces, several military personnel of the "N" military unit he served in, whose names he does not remember at this time, were martyred, as a result of a mortar shell fired by Armenian armed forces falling near him and exploding during the evacuation of wounded military personnel in the combat operations in the Kalbajar region, and he and several other military personnel of that military unit, whose names he does not remember, received various types of bodily injuries. He asked the court to impose the most severe punishment on the accused.

Teymurov Farhin Mahammad oglu, who was questioned in court as a victim, stated in his testimony that he served in the "N" military unit of the Ministry of Defense, and during his service in that military unit, on September 13, 2022, while preventing large-scale provocative actions by Armenian armed forces, during combat operations in the territory of the Kalbajar

region, an artillery shell fired by Armenian armed forces fell near him and exploded, resulting in the martyrdom of military personnel of the "N" military unit, whose names he does not currently remember, and he and other military personnel of that military unit, whose names he does not remember, receiving various types of bodily injuries. He asked the court to impose the most severe punishment on the accused.

Abdullayev Nemat Rafig oglu, who was interrogated in court as a victim, stated in his testimony that he served in the “N” military unit of the Ministry of Defense, and while serving in that military unit, on September 20, 2023, while participating in local anti-terrorist operations, he suffered blind shrapnel injuries to the soft tissues of his right knee and right hip as a result of mortar shells fired by illegal Armenian armed forces falling near him and exploding during combat operations in the Khalfali village of Shusha region. He asked the court to impose the most severe punishment on the accused.

Kazimov Kamran Eyvaz oglu, who was questioned in court as a victim, stated in his statement that he served in the "N" military unit of the Ministry of Defense, and during his service in that military unit, on November 15, 2021, while preventing large-scale provocative actions by Armenian armed forces, he received a gunshot wound to the abdomen as a result of automatic gunfire by Armenian armed forces during combat operations in the direction of the Kalbajar region. He asked the court to impose the most severe punishment on the accused.

Samadli Bakhtiyar Elkhan oglu, who was questioned in court as a victim, stated in his testimony that he served in the “N” military unit of the Ministry of Defense, and while serving in that military unit, on 20.09.2023, while participating in local anti-terrorist operations, he received a gunshot wound to the left arm as a result of automatic gunfire by illegal Armenian armed forces during combat operations in the direction of the city of Khankendi. He asked the court to impose the most severe punishment on the accused in accordance with the law.

Hajiyev Agahuseyn Haji oglu, who was interrogated in court as a victim, stated in his testimony that he served in the “N” military unit of the Ministry of Defense, and while serving in that military unit, on 19.09.2023, while participating in local anti-terrorist operations, he received various types of bodily injuries as a result of a mortar shell fired by illegal Armenian armed forces falling near him and exploding during combat operations conducted in the direction of the city of Khankendi. During that incident, one of his service colleagues, Ariz Mammadov, was injured, and another service colleague, Raul Verdiyev, was martyred. He asked the court to impose the most severe punishment on the accused.

Page 335

Mahammad Mubariz oglu Huseynov, examined in court as a victim, stated in his testimony that he had served in Military Unit No. “N” of the Ministry of Defense. During his service in that military unit, on 20 September 2023, while participating in local anti-terrorist operations, during combat operations conducted in the direction of Khankendi city, he sustained various bodily injuries as a result of fire opened from firearms by illegal Armenian armed formations. During that incident, among the fellow servicemen who were near him, soldier Vagif Salmanov sustained an injury to the arm area, while another fellow serviceman, Azar Gasimov, was killed. He asked the court to impose the most severe punishment on the accused.

Farid Jabir oglu Imamaliyev, examined in court as a victim, stated in his testimony that he had served in Military Unit No. "N" of the Ministry of Defense. During his service in that military unit, on 11 December 2020, while preventing large-scale provocative actions committed by Armenian armed formations, in the territory of Khojavend District, he sustained injuries to the upper part of his right arm and to his right thigh as a result of fire opened from automatic weapons by Armenian armed formations. During that incident, among the fellow servicemen who were near him, Avaz Abbasov was killed, while six other servicemen whose names he did not remember sustained various bodily injuries. He asked the court to impose the most severe punishment on the accused.

During that incident, among the fellow servicemen who were near him,

Lieutenant Elchin Akif oglu Samadov was killed. He asked the court to impose the most severe punishment on the accused.

Page 339

Kamal Bahruz oglu Musayev, examined in court as a victim, stated in his testimony that he had served in Military Unit No. "N" of the Ministry of Defense. During his service in that military unit, on 19 September 2023, while participating in local anti-terrorist operations, during combat operations conducted in the direction of Vang village, Kalbajar District, he sustained a bullet-wound injury to the right arm area as a result of fire opened from various weapons by illegal Armenian armed formations. During that incident, in addition to him, 5 fellow servicemen who were near him — Rahim Mahammadov, Shukur Zeynalov, Rabil Abishli, and Shahriyar Huseynov — sustained various bodily injuries, while 4 other servicemen of Military Unit No. "N" in which he served — Amid Gadirov, Asim Abdullayev, Mirzali Mirzazade, and Huseyn Mustafayev — became martyrs. He asked the court to impose the most severe punishment on the accused.

Sabuhi Vahid oglu Aliyev, examined in court as a victim, stated in his testimony that he had served in Military Unit No. "N" of the Ministry of Defense. During his service in that military unit, on 12 September 2022, while preventing large-scale provocative actions committed by Armenian armed formations, in the territory of Kalbajar District, he sustained a bullet-wound injury to the thigh area as a result of fire opened from a sniper weapon by Armenian armed formations. He asked the court to impose the most severe punishment on the accused.

Seymur Vali oglu Ibrahimov, examined in court as a victim, stated in his testimony that he had served in Military Unit No. "N" of the Ministry of Defense. During his service in that military unit, on 13 September 2022, while preventing large-scale provocative actions committed by Armenian armed formations, in the territory of Lachin District, he sustained closed craniocerebral trauma as a result of a mortar shell fired by Armenian armed formations falling near him and exploding. He asked the court to impose the most severe punishment on the accused.

Ramiz Ismat oglu Nazarov, examined in court as a victim, stated in his testimony that he had served in Military Unit No. "N" of the Ministry of Defense. During his service in that military unit, on 21 August 2023, as a result of the positions of Military Unit No. "N" of the Ministry of Defense in which he served, located in the direction of Kalbajar District, being fired upon by the Armed Forces of Armenia, he sustained closed craniocerebral trauma. He asked the court to impose the most severe punishment on the accused.

Ulfat Novruz oglu Aliyev, examined in court as a victim, stated in his testimony that he had served in Military Unit No. "N" of the Ministry of Defense. During his service in that military unit, on 1 September 2023, while preventing large-scale provocative actions committed by Armenian armed formations, while he was on combat duty at one of the combat positions of Military Unit No. "N" of the Ministry of Defense in which he served,

located in the territory of Kalbajar District, he sustained an injury diagnosed as “a blind wound of the posterior surface of the chest penetrating into the chest cavity, accompanied by injury to the tissue of the left lung,” as a result of fire opened from heavy artillery installations by Armenian armed formations. During that incident, in addition to him, several servicemen of Military Unit No. “N” in which he served, who were near him and whose names he did not remember, sustained various bodily injuries. He asked the court to impose the most severe punishment on the accused.

Imran Latif oglu Mursalov, examined in court as a victim, stated in his testimony that he had served in Military Unit No. “N” of the Ministry of Defense as a group commander. During his service in that military unit, on 19 September 2023, while participating in local anti-terrorist operations, while serving in the territory of Aghdara District, illegal Armenian armed formations began opening fire from mortar weapons. At that time, when he threw himself to the ground in order to avoid fragments from mortar shells, the tendons of his left heel were injured. He asked the court to impose the most severe punishment on the accused.

Page 340

Seymur Zireddin oglu Aliyev, examined in court as a victim, stated in his testimony that he had served in Military Unit No. “N” of the Ministry of Defense. During his service in that military unit, on 19 September 2023, while participating in local anti-terrorist operations, while he was in the territory of Aghdara District, they came under fire from weapons of various calibres by illegal Armenian armed formations. At that time, in order to protect himself from the shells and take up a position, he jumped from an armoured vehicle onto the asphalt road, as a result of which he sustained a crushing injury to the elbow area of his left arm. He asked the court to impose the most severe punishment on the accused.

Elvin Saleh oglu Ahmadov, examined in court as a victim, stated in his testimony that he had served in Military Unit No. “N” of the Ministry of Defense. During his service in that military unit, on 19 September 2023, while participating in local anti-terrorist operations, during combat operations conducted in the territory of Aghdara District, after a tank belonging to them nearby was struck by illegal Armenian armed formations, he hurriedly crossed to the left side of the road and, while trying to defend himself, fell and sustained a crushing injury to his right kneecap. At that time, his fellow serviceman who was near him, Shikar Huseyn oglu Huseynov, as well as several other servicemen of Military Unit No. “N” in which he served, whose names he did not remember, became martyrs. He asked the court to impose the most severe punishment on the accused.

Togrul Khanoghlan oglu Humbatzade, examined in court as a victim, stated in his testimony that he had served in Military Unit No. “N” of the Ministry of Defense. During his service in that military unit, on 20 September 2023, while participating in local anti-terrorist operations, while he was in the territory of Aghdara District, they came under fire from weapons of various calibres by illegal Armenian armed formations. At that time, illegal Armenian armed formations began opening fire from mortars, and as a result of that incident he, his fellow

serviceman Vugar Huseynov, and several other servicemen of Military Unit No. “N” in which he served, whose names he did not remember, sustained various bodily injuries. He asked the court to impose the most severe punishment on the accused.

Afgan Alihasan oglu Zeynalov, examined in court as a victim, stated in his testimony that he had served in Military Unit No. “N” of the Ministry of Defense. During his service in that military unit, first, on 27 September 2020, while participating in the 44-day Patriotic War that had begun on that date, he sustained injuries during combat operations conducted in the direction of Khojavend District. In addition, in 2022, on a date he did not precisely remember, while preventing large-scale provocative actions committed by Armenian armed formations, he sustained various bodily injuries during combat operations conducted in the direction of Lachin District. Later, on 19–20 September 2023, while participating in local anti-terrorist operations carried out against illegal Armenian armed formations, he sustained injuries during combat operations conducted in the direction of Sirkhavand village, Aghdam District, as a result of fire opened by illegal Armenian armed formations. He asked the court to impose the most severe punishment on the accused.

Rasat Salman oglu Ismayilov, examined in court as a victim, stated in his testimony that he had served in Military Unit No. “N” of the Ministry of Defense. During his service in that military unit, on 13 September 2022, while preventing large-scale provocative actions committed by Armenian armed formations, in the territory of Lachin District, he sustained a shrapnel-wound injury as a result of a mortar shell fired by Armenian armed formations falling near him and exploding. During that incident, among the fellow servicemen who were near him, 4 servicemen of Military Unit No. “N” in which he served, whose names he did not remember, became martyrs, and at the same time 1 other serviceman of that military unit, whose name he did not remember, sustained various bodily injuries. He asked the court to impose the most severe punishment on the accused.

Huseyn Elshad oglu Amirov, examined in court as a victim, stated in his testimony that he had served in Military Unit No. “N” of the Ministry of Defense. During his service in that military unit, on 19 September 2023, while participating in local anti-terrorist operations, during combat operations conducted in the territory of Charakdar village, Aghdara District—

—as a result of an F-1 hand grenade thrown by illegal Armenian armed formations falling near him and exploding, he and 7 servicemen of Military Unit No. “N” in which he served, who were among the fellow servicemen near him and whose names he did not remember, sustained various bodily injuries. He asked the court to impose the most severe punishment on the accused.

Vugar Nofal oglu Abbasov, examined in court as a victim, stated in his testimony that he had served in Military Unit No. “N” of the Ministry of Defense. During his service in that military unit, on 13 September 2022, while preventing large-scale provocative actions committed by Armenian armed formations, in the territory of Lachin District, as a result of

fire opened by Armenian armed formations, servicemen of Military Unit No. “N” in which he served — Rashad Ganbarov and Ismayil Malikov — became martyrs, and he, as well as other servicemen of that military unit, sustained various bodily injuries. He asked the court to impose the most severe punishment on the accused.

Sanan Yagub oglu Rzayev, examined in court as a victim, stated in his testimony that he had served in Military Unit No. “N” of the Ministry of Defense. During his service in that military unit, on 19 September 2023, while participating in local anti-terrorist operations, during combat operations conducted in the direction of Aghdara District, he sustained various bodily injuries as a result of a shell fired from artillery weapons of various calibres by illegal Armenian armed formations falling near him and exploding. He asked the court to impose the most severe punishment on the accused.

Jamal Gazikhan oglu Heydarov, examined in court as the legal successor of a victim, stated in his testimony that his child, Shair Jamal oglu Heydarov, had served in Military Unit No. “N” of the Ministry of Defense as a long-term active-duty serviceman, in the position of reconnaissance sniper. During his service in that military unit, on 13 September 2022, while preventing large-scale provocative actions committed by Armenian armed formations, during combat operations conducted in the territory of Lachin District, he became a martyr as a result of fire opened by Armenian armed formations. He asked the court to impose the most severe punishment on the accused.

Sevinc Mukhtar gizi Jalilova, examined in court as the legal successor of a victim, stated in her testimony that her child, Devid Rauf oglu Jalilov, had served in Military Unit No. “N” of the Ministry of Defense with the military rank of soldier, in the position of aimer. During his service in that military unit, on 20 September 2023, at around 14:00, while participating in local anti-terrorist operations, during combat operations conducted in the territory of Aghdara District, he became a martyr as a result of a shell fired by illegal Armenian armed formations falling near him and exploding.

Javanshir Gulu oglu Zulfigarov, examined in court as the legal successor of a victim, stated in his testimony that his child, Javid Javanshir oglu Zulfigarov, had served in Military Unit No. “N” of the Ministry of Defense. During his service in that military unit, on 19 September 2023, while participating in local anti-terrorist operations, during combat operations conducted in the direction of Khojaly District, he became a martyr as a result of sustaining shrapnel wounds when a shell fired by illegal Armenian armed formations fell near him and exploded.

Tofig Afgan oglu Aliyev, examined in court as the legal successor of a victim, stated in his testimony that his child, Farid Tofig oglu Aliyev, had served in Military Unit No. “N” of the Ministry of Defense in the position of machine gunner, with the military rank of soldier. During his service in that military unit, on 19 September 2023, while participating in local anti-terrorist operations, during combat operations conducted in the direction of Khankendi city, he became a martyr as a result of fire opened from a sniper weapon by illegal Armenian armed formations. He asked the court to impose the most severe punishment on the accused.

Shirzad Abish oglu Samadov, examined in court as the legal successor of a victim, stated in his testimony that his brother, Siraj Abish oglu Abishov, as an employee of Azerbaijan Television and Radio Broadcasting CJSC—

Page 342

—together with other employees of Azerbaijan Television and Radio Broadcasting CJSC and the AZERTAC State Information Agency, was sent to Kalbajar District on 4 June 2021 as a special filming group in connection with the performance of his official duties. The main purpose of that filming group was to convey to the world and domestic public the destruction committed in that region by the Armed Forces of the Republic of Armenia. Thus, on that date, while a military KamAZ vehicle belonging to Military Unit No. "N" of the Ministry of Defense, in which employees of television channels and news agencies were travelling, was moving in the territory of Susuzluq village, Kalbajar District, it struck an anti-tank mine previously planted by Armenian armed formations, and as a result of that mine explosion, Arif Aghalar oglu Aliyev, deputy territorial representative for Susuzluq village, Kalbajar District, Maharram Ali oglu Ibrahimov, an employee of AZERTAC State Information Agency, and his brother Siraj Abish oglu Abishov died, while the other persons inside that vehicle sustained various bodily injuries. He asked the court to impose the most severe punishment on the accused.

Elkin Mutallim oglu Mirzahmadov, examined in court as a victim, stated in his testimony that he had served in Military Unit No. "N" of the Ministry of Defense as a group commander. During his service in that military unit, on 20 September 2023, in the morning hours, while participating in local anti-terrorist operations, during combat operations conducted in the direction of Farrukh Mountain located in the territory of Khojaly District, he sustained shrapnel-wound injuries to the leg and head areas as a result of shells fired from artillery weapons and grenade launchers of various calibres by illegal Armenian armed formations falling near him and exploding. At that time, in addition to him, approximately 2–3 servicemen who were near him and whose names he did not remember also sustained various bodily injuries. He asked the court to impose the most severe punishment on the accused.

Rauf Firuddin oglu Huseynov, examined in court as a victim, stated in his testimony that he had served in Military Unit No. "N" of the Ministry of Defense with the military rank of lieutenant. During his service in that military unit, on 13 September 2023, while preventing large-scale provocative actions committed by Armenian armed formations, during combat operations conducted in the territory of Kalbajar District, he sustained various bodily injuries as a result of an artillery shell fired by Armenian armed formations falling near him and exploding. He asked the court to impose the most severe punishment on the accused.

Orkhan Natiq oglu Baladov, examined in court as a victim, stated in his testimony that he had served in Military Unit No. "N" of the Ministry of Defense. During his service in that military unit, on 20 September 2023, while participating in local anti-terrorist operations, in the territory of Janyatag village, Aghdara District, he sustained injuries as a result of a rocket

projectile fired by illegal Armenian armed formations falling onto the vehicle in which he was and exploding. During that incident, in addition to him, his fellow servicemen Ceyhun Guliyev and Elgiz Nuraddinli also sustained various bodily injuries. He asked the court to impose the most severe punishment on the accused.

Ayyub Valiyaddin oglu Mammadov, examined in court as a victim, stated in his testimony that he had served in Military Unit No. "N" of the Ministry of Defense with the military rank of senior lieutenant, in the position of platoon commander. During his service in that military unit, on 13 September 2022, at night, while preventing large-scale provocative actions committed by Armenian armed formations, during combat operations conducted in the territory of Kalbajar District, he sustained an injury to the right upper-arm area as a result of fire opened by Armenian armed formations. During that incident, the fellow servicemen near him—

—his fellow servicemen, Warrant Officer Sabuhi Ahmadov and Warrant Officer Khayal Ahadzade, became martyrs. He asked the court to impose the most severe punishment on the accused.

Eltun Shadat oglu Mammadov, examined in court as a victim, stated in his testimony that he had served in Military Unit No. "N" of the Ministry of Defense. During his service in that military unit, during the 44-day Patriotic War that began on 27 September 2020, he personally participated voluntarily in combat operations on 29 September 2020. During that period, he first participated in combat operations in the direction of Fuzuli District, and later, in the final days of the 44-day Patriotic War, namely on 4 November 2020, during combat operations in the direction of Shusha city, he sustained closed craniocerebral trauma as a result of fire opened by Armenian armed formations. During that incident, among the fellow servicemen who were near him, there were also other servicemen who became martyrs and others who sustained injuries. He asked the court to sentence the accused to life imprisonment.

Valeh Habil oglu Mammadov, examined in court as a victim, stated in his testimony that he had served in Military Unit No. "N" of the Ministry of Defense with the military rank of junior sergeant. During his service in that military unit, on 20 September 2023, in the night hours, while participating in local anti-terrorist operations, during combat operations conducted in the direction of Khankendi city, he sustained an injury to the arm area as a result of fire opened from a firearm by illegal Armenian armed formations. In addition, in the area where he was wounded and during that same period, he sustained closed craniocerebral trauma as a result of an artillery shell fired by illegal Armenian armed formations falling near him and exploding. During that incident, in addition to him, 19 servicemen who were near him and whose names he did not remember sustained various bodily injuries, while 12 other servicemen whose names he did not remember became martyrs. He asked the court to impose the most severe punishment on the accused.

Aydin Vahid oglu Verdiyev, examined in court as a victim, stated in his testimony that on 26 April 2021, while he, as a civilian, was transporting food supplies together with his brother in the territory of Aghdam District, the vehicle he was driving struck a mine that had been planted in advance by Armenian armed formations. As a result of the explosion of that mine, his brother Shahin Verdiyev, who was with him, died, while he sustained severe injuries and lost one eye. He asked the court to impose the most severe punishment on the accused.

Yunis Panah oglu Ismayilov, examined in court as a victim, stated in his testimony that he had served in Military Unit No. "N" of the Ministry of Defense. During his service in that military unit, on 9 September 2023, while performing a combat task in the direction of Kalbajar District, he stepped on an anti-personnel mine that had been planted in advance by Armenian armed formations and, as a result of the explosion of that mine, sustained serious injuries and lost the part of his right leg below the knee. During that incident, in addition to him, Emin Malikov, sanitary instructor of Military Unit No. "N" of the Ministry of Defense, who was near him, also sustained a shrapnel-wound injury. He asked the court to impose the most severe punishment on the accused.

Mukhtar Namiq oglu Aliyev, examined in court as a victim, stated in his testimony that he had served in Military Unit No. "N" of the Ministry of Defense with the military rank of sergeant, in the position of rifleman. During his service in that military unit, on 19 September 2023, while participating in local anti-terrorist operations, during combat operations conducted in the direction of Gulabli village, Aghdam District, he sustained a bullet-wound injury to the right leg area as a result of fire opened by illegal Armenian armed formations. He asked the court to impose the most severe punishment on the accused.

Nazir Vidadi oglu Jalilov, examined in court as a victim, stated in his testimony that he had served in Military Unit No. "N" of the Ministry of Defense with the military rank of warrant officer. During his service in that military unit, in August 2021, on a date he did not remember precisely, at around 06:00 in the morning, while travelling in the territory of Shusha city in a military cargo vehicle belonging to Military Unit No. "N" in which he served, for the purpose of checking a communication line at the posts, the said vehicle was suddenly fired upon from firearms by Armenian armed formations located in the direction of Khankendi city. As a result, he opened the door of the vehicle in which he was travelling, threw himself out, and sustained various bodily injuries. He asked the court to impose the most severe punishment on the accused.

Parvin Fazil oglu Babayev, examined in court as a victim, stated in his testimony that he had served in Military Unit No. "N" of the Ministry of Defense. During his service in that military unit, on 19 September 2023, while participating in local anti-terrorist operations, during combat operations conducted in the direction of Khankendi city, he sustained various bodily injuries as a result of an artillery shell fired by illegal Armenian armed formations

falling near him and exploding. He asked the court to impose a severe punishment on the accused in accordance with the law.

Orkhan Kheyraddin oglu Mammadov, examined in court as a victim, stated in his testimony that he had served in Military Unit No. “N” of the Ministry of Defense. During his service in that military unit, in July 2021, on a date he did not precisely remember, while carrying out engineering-fortification work with an excavator in the territory of Sadarak District of the Nakhchivan Autonomous Republic, he sustained various bodily injuries as a result of fire opened from firearms by the Armed Forces of Armenia. He asked the court to impose the most severe punishment on the accused.

Anar Ehtiram oglu Aziz-zade, examined in court as a victim, stated in his testimony that he had served in Military Unit No. “N” of the Ministry of Defense. During his service in that military unit, on 19–20 September 2023, while participating in local anti-terrorist operations, during combat operations conducted in the direction of Giziltara village, Kalbajar District, he sustained a shrapnel-wound injury to the right rib area as a result of a mortar shell fired by illegal Armenian armed formations falling near him and exploding. He asked the court to impose the most severe punishment on the accused.

Ali Mazahir oglu Maharramov, examined in court as a victim, stated in his testimony that he had served in Military Unit No. “N” of the Ministry of Defense with the military rank of warrant officer, in the position of group commander. During his service in that military unit, on 19 September 2023, while participating in local anti-terrorist operations, during combat operations conducted in the direction of Aghdara District, he sustained bullet-wound injuries to the chest and left wrist areas as a result of fire opened by illegal Armenian armed formations. He asked the court to impose the most severe punishment on the accused.

Ceyhun Elshan oglu Hasanzade, examined in court as a victim, stated in his testimony that he had served in Military Unit No. “N” of the Ministry of Defense with the military rank of lieutenant, in the position of platoon commander. During his service in that military unit, on 19 September 2023, while participating in local anti-terrorist operations, during combat operations conducted in the direction of Gulabli village, Aghdam District, he sustained an injury to the left leg area as a result of a shell fired from heavy-calibre weapons by illegal Armenian armed formations falling near him and exploding. During that incident, his fellow serviceman Royal Mammadov, who was near him, became a martyr. He asked the court to impose the most severe punishment on the accused.

Nijat Elchin oglu Teymurov, examined in court as a victim, stated in his testimony that he had served in Military Unit No. “N” of the Ministry of Defense—

—during his service in that military unit, on 19 September 2023, while participating in local anti-terrorist operations, during combat operations conducted in the direction of Sirkhavand village, Aghdam District, he sustained closed craniocerebral trauma and numerous shrapnel-

wound injuries to various parts of his body as a result of an anti-tank rocket projectile fired by illegal Armenian armed formations falling near him and exploding. During that incident, 6 servicemen who were near him and whose names he did not remember became martyrs, while 2 other servicemen whose names he did not remember sustained various bodily injuries. He asked the court to impose the most severe punishment on the accused.

Eltakin Alik oglu Hasanov, examined in court as a victim, stated in his testimony that he had served in Military Unit No. "N" of the Ministry of Defense. During his service in that military unit, on 13 September 2022, in the night hours, while preventing large-scale provocative actions committed by Armenian armed formations, in the territory of Kalbajar District, he sustained closed craniocerebral trauma and brain concussion as a result of a hand grenade thrown by Armenian armed formations falling near him and exploding. He asked the court to impose the most severe punishment on the accused.

Emil Ehtiram oglu Aliyev, examined in court as a victim, stated in his testimony that he had served in Military Unit No. "N" of the Ministry of Defense in the position of squad commander. During his service in that military unit, on 13 September 2022, in the night hours, while preventing large-scale provocative actions committed by Armenian armed formations, during combat operations conducted in the direction of Yukhari Zaylik village, Kalbajar District, he sustained an injury to the head area as a result of a shell fired by Armenian armed formations falling near him and exploding. He asked the court to impose the most severe punishment on the accused.

Farhad Nazir oglu Rzayev, examined in court as a victim, stated in his testimony that he had served in Military Unit No. "N" of the Ministry of Defense. During his service in that military unit, on 2 September 2022, while at the combat position located in the territory of Zaylik village, Kalbajar District, digging trenches and carrying out trench-fortification work there, he sustained a bullet-wound injury to the neck area as a result of fire opened from automatic weapons by Armenian armed formations. During that incident, in addition to him, 2 servicemen who were near him and whose names he did not precisely remember also sustained various bodily injuries. He asked the court to impose the most severe punishment on the accused.

Yahya Saleh oglu Guliyev, examined in court as a victim, stated in his testimony that he had served in Military Unit No. "N" of the Ministry of Defense in the position of platoon commander. During his service in that military unit, on 19 September 2023, while participating in local anti-terrorist operations, during combat operations conducted in the territory of Shusha city, while performing his official duty, he sustained a shrapnel-wound injury to the left leg area as a result of a mortar shell fired by illegal Armenian armed formations falling near him and exploding. During that incident, one fellow serviceman who was near him and whose name he did not remember precisely became a martyr. He asked the court to impose the most severe punishment on the accused.

Arif Yanvar oglu Abbasov, examined in court as a victim, stated in his testimony that he had served in Military Unit No. "N" of the Ministry of Defense as a long-term active-duty

serviceman. During his service in that military unit, on 29 July 2021, while preventing large-scale provocative actions committed by Armenian armed formations, during combat operations conducted in the direction of Khankendi city, he sustained a shrapnel-wound injury as a result of a shell fired from heavy-calibre artillery weapons by Armenian armed formations falling near him and exploding. During that incident, among the fellow servicemen who were near him, 5 servicemen whose names he did not remember—

Page 346

—became martyrs, while 14 other servicemen whose names he did not remember sustained various bodily injuries. He asked the court to impose the most severe punishment on the accused.

Vusal Nuraddin oglu Huseynov, examined in court as a victim, stated in his testimony that he had served in Military Unit No. “N” of the Ministry of Defense. During his service in that military unit, on 19 September 2023, while participating in local anti-terrorist operations, during combat operations conducted in the direction of Shusha–Khankendi districts, he sustained a bullet-wound injury as a result of fire opened from a sniper weapon by illegal Armenian armed formations. He asked the court to impose the most severe punishment on the accused.

Abil Vugar oglu Alakbarov, examined in court as a victim, stated in his testimony that he had served in Military Unit No. “N” of the Ministry of Defense with the military rank of senior lieutenant. During his service in that military unit, on 19 September 2023, while participating in local anti-terrorist operations, during combat operations conducted in the territory of Aghdam District, he sustained various bodily injuries as a result of an artillery shell fired by illegal Armenian armed formations falling near him and exploding. He asked the court to impose the most severe punishment on the accused.

Zaur Shahabbas oglu Mammadov, examined in court as a victim, stated in his testimony that he had served in Military Unit No. “N” of the Ministry of Defense. During his service in that military unit, on 19 September 2023, while participating in local anti-terrorist operations, during combat operations conducted in the territory of Sirkhavand village, Aghdara District, he sustained various bodily injuries as a result of a “Fagot”-type artillery projectile fired by illegal Armenian armed formations falling near him and exploding. He asked the court to impose the most severe punishment on the accused.

Vidadi Fariz oglu Mammadov, examined in court as a victim, stated in his testimony that he had served in Military Unit No. “N” of the Ministry of Defense with the military rank of warrant officer. During his service in that military unit, on 13 September 2022, while preventing large-scale provocative actions committed by Armenian armed formations, in the territory of Lachin District, he sustained various bodily injuries as a result of an artillery shell fired by Armenian armed formations falling near him and exploding. He asked the court to impose the most severe punishment on the accused.

Vasif Ramiz oglu Osmanov, examined in court as a victim, stated in his testimony that he had served in Military Unit No. “N” of the Ministry of Defense. During his service in that military unit, on 19 September 2023, while participating in local anti-terrorist operations, during combat operations conducted in the direction of Shusha city, he sustained a multi-fragment fracture of the forearm bone of the left arm and closed craniocerebral trauma as a result of a cannon shell fired by illegal Armenian armed formations falling near him and exploding. During that incident, in addition to him, 3 fellow servicemen who were near him and whose names he did not remember also sustained various bodily injuries. He asked the court to sentence the accused in accordance with the legislation of the Republic of Azerbaijan.

Asgar Nughay oglu Guliyev, examined in court as a victim, stated in his testimony that he had served in Military Unit No. “N” of the Ministry of Defense in the position of group commander. During his service in that military unit, on 19 September 2023, while participating in local anti-terrorist operations, during combat operations conducted in the direction of Khankendi city, he sustained an injury to the right leg area as a result of fire opened from heavy artillery weapons by illegal Armenian armed formations. During that incident, in addition to him, 19 servicemen of Military Unit No. “N” in which he served, whose names he did not remember—

—sustained various types of bodily injuries, and at the same time 4 other servicemen of that military unit, whose names he did not remember, became martyrs. He asked the court to impose the most severe punishment on the accused.

Mehti Movsum oglu Mursalov, examined in court as a victim, stated in his testimony that he had served in Military Unit No. “N” of the Ministry of Defense. During his service in that military unit, on 19 September 2023, while participating in local anti-terrorist operations, during combat operations in the direction of Shusha city, he sustained an injury to the left leg area as a result of an artillery shell fired by illegal Armenian armed formations falling near him and exploding. He asked the court to impose the most severe punishment on the accused.

Ragif Ali oglu Aliyev, examined in court as a victim, stated in his testimony that he had served in Military Unit No. “N” of the Ministry of Defense. During his service in that military unit, on 20 September 2023, while participating in local anti-terrorist operations, during combat operations in the direction of Janyatag village, Aghdara District, he sustained injuries as a result of a mortar shell fired by illegal Armenian armed formations falling near him and exploding. During that incident, among the fellow servicemen who were near him, Tapdig Bayramov became a martyr, while his other fellow servicemen, whose names he did not remember, sustained various types of bodily injuries. He asked the court to impose punishment on the accused as provided by law.

Alizamin Vilyaddin oglu Ismayilov, examined in court as a victim, stated in his testimony that he had served in Military Unit No. “N” of the Ministry of Defense as chief of the

weapons depot. During his service in that military unit, on 19 September 2023, while participating in local anti-terrorist operations, during combat operations in the direction of Aghdam District, he sustained shrapnel-wound injuries to the back and left leg areas as a result of fire opened from a “Grad”-type heavy artillery weapon by illegal Armenian armed formations. During that incident, 8 servicemen among the fellow servicemen who were near him, whose names he did not remember, also sustained various types of bodily injuries. He asked the court to impose a severe punishment on the accused.

Nurlan Vasif oglu Baghirov, examined in court as a victim, stated in his testimony that he had served in Military Unit No. “N” of the Internal Troops of the Ministry of Internal Affairs in Ganja city. During his service in that military unit, on 20 September 2023, during the anti-terrorist operation, at around 03:00–04:00 at night, while moving in the direction of Vangli village, Kalbajar District, as part of a group of approximately 115 persons, Armenian armed formations advanced with manpower and ambushed them. At that time, terrorists of Armenian origin first opened fire and then threw a hand grenade at the vehicle in which they were located; as a result, he and his fellow servicemen sustained injuries. When the incident occurred, in the company consisting of 115 persons, a total of 14 servicemen became martyrs; among the servicemen who became martyrs, 12 were servicemen of the Internal Troops of the Ministry of Internal Affairs, and the remaining 2 were servicemen of the Ministry of Defense. He asked the court to impose the most severe punishment on the accused in accordance with the law.

Vusal Amiraslan oglu Eyyubov, examined in court as a victim, stated in his testimony that he had served in Military Unit No. “N” of the Ministry of Defense with the military rank of soldier. During his service in that military unit, on 12 September 2022, at around 23:00, while preventing large-scale provocative actions committed by Armenian armed formations, in the territory of Kalbajar District, he and other servicemen who were his fellow servicemen were wounded as a result of fire opened by Armenian armed formations—

—and, in addition, among his fellow servicemen there were also servicemen who became martyrs. He asked the court to impose the most severe punishment on the accused in accordance with the law.

Tajaddin Gazanfar oglu Karimov, examined in court as a victim, stated in his testimony that he had served in Military Unit No. “N” of the Ministry of Defense as commander of the 1st squad of the 2nd engineer platoon of the obstacle-clearance company. During his service in that military unit, on 23 November 2021, while carrying out engineering work to lay a supply road from the direction of Talysh village, Tartar District, toward Tapgaragoyunlu village, Goranboy District, after advancing 25 meters he found and neutralized 59 PMN-E anti-personnel mines belonging to Armenian armed formations, and continued the search work. Later, while continuing the work with an “OZAN”-type mine detector in his hand, he stepped on a mine buried deep underground by Armenian armed formations in an area to which the

mine detector had not reacted, and sustained an injury to his left leg. At that time no one else sustained injuries besides him; when the incident occurred, 5 of his fellow servicemen were carrying out engineering work together with him to lay the supply road. He sustained injuries as a result of the explosion of a PMN-E anti-personnel mine belonging to Armenian armed formations. He asked the court to impose a life sentence on the accused in accordance with the law.

Javanshir Azar oglu Sultanov, examined in court as a victim, stated in his testimony that, while preventing large-scale provocative actions committed by Armenian armed formations, on 13 September 2022 he fought in the territory of Kalbajar District and sustained injuries as a result of the explosion of a mortar shell fired by Armenian armed formations when they were ambushed at night. On the date of the incident, he served in Military Unit No. "N" of the Ministry of Defense with the military rank of soldier. During the incident, 35 servicemen were with him in that area; at that time, besides him, there were four wounded servicemen and one serviceman who became a martyr. He asked the court to impose a life sentence on the accused in accordance with the law.

Shamil Kamil oglu Israfilov, examined in court as a victim, stated in his testimony that on 20 September 2023, during the anti-terrorist operation, near Vangli village, Kalbajar District, they were encircled during a provocation by illegal Armenian armed formations. At that time illegal Armenian armed formations opened fire from all types of weapons; at that moment there were 14 servicemen who became martyrs and 24 wounded servicemen. During that incident, he sustained grenade-wound injuries to the arm, back, and heart areas. He asked the court to impose a severe punishment on the accused in accordance with the law.

Seymur Narbala oglu Aghakarimov, examined in court as a victim, stated in his testimony that he had served in Military Unit No. "N" of the Ministry of Defense with the military rank of soldier. During his service in that military unit, on 14 September 2022, in the territory of Kalbajar District, as a result of the explosion of a mortar shell fired by illegal Armenian armed formations, he sustained injuries to the left elbow and to the right and left legs. At the time he was injured, only he was wounded, and no one else sustained injuries. He asked the court to impose a severe punishment on the accused in accordance with the law.

Vagif Alizaab oglu Babayev, examined in court as a victim, stated in his testimony that he was currently a reserve officer and, since 2004, an employee of the Mine Action Agency of the Republic of Azerbaijan. On 19 November 2021, in the territory of Zangilan District, the armored vehicle next to him struck an anti-tank mine, and as a result of the explosion he sustained first- and second-degree shrapnel-wound injuries to both legs, the abdominal cavity, chest, and face areas, as well as craniocerebral trauma—

—At the time of the incident, none of the other employees of the Mine Action Agency of the Republic of Azerbaijan, where he worked, sustained injuries; only the warrant officer of the

State Border Service who was standing ahead at that moment was wounded. He asked the court to impose the most severe punishment on the accused.

Mahir Ilgar oglu Huseynov, examined in court as a victim, stated in his testimony that, while serving in Military Unit No. "N" of the Ministry of Defense as a battalion commander, on 19 September 2023, at around 13:00, during the anti-terrorist operation, in the direction of Sirkhavand village, Aghdara District, he sustained closed craniocerebral trauma and shrapnel-wound injuries of varying degrees as a result of the explosion of a heavy artillery shell fired by illegal Armenian armed formations. During that incident, many of his fellow servicemen, servicemen of the Ministry of Defense of the Republic of Azerbaijan — Valiyulla Elmanovich Aliyev, Vusal Rustamov, and Elvin Aliyev — became martyrs, and at the same time his other fellow servicemen Nusrat Mustafayev and Kamal Abdullayev sustained bodily injuries of varying degrees. Thus, on that date Armenian armed formations opened fire in the direction of Sirkhavand village, Aghdara District, and also from the height on the left bank of the Khachinchay river, and they prevented that attack by Armenian armed formations. In the end, they came under artillery fire by Armenian armed formations. In his opinion, the plan of that attack by Armenian armed formations had existed in advance. Thus, it could be said that illegal Armenian armed formations had planted mines everywhere, and the number of mines had increased considerably. The number of mines had increased so much that even wild animals often stepped on mines, and mine explosions had become an ordinary occurrence. In addition, during that period Armenian armed formations continued to plant mines; at that time they could see the movement of the manpower of Armenian armed formations, but because they could not see the roads by which they came, they did not know on what dates and during what periods they had come. Mines had been planted in the areas between the posts of the Armenian armed formations and their posts, but there were several instances when mines were also found behind their positions. Mines were even found on their supply roads; they had passed along those roads many times, and newly dug places were immediately noticeable. When such a situation was detected, mine-search personnel were called and those mines were found. He asked the court to punish the accused with the most severe punishment within the framework of the legislation of the Republic of Azerbaijan.

Madat Badal oglu Rzayev, examined in court as a victim, stated in his testimony that he had served in Military Unit No. "N" of the Ministry of Defense as deputy battalion commander for work with personnel. During his service in that military unit, on 12 September 2022, while carrying out a combat task in the direction of Minkend village, Lachin District, during a retaliatory operation, he sustained closed craniocerebral trauma, vegetative vascular instability, stuttering, and behavioral-disorder injuries as a result of the explosion of a heavy artillery shell fired by Armenian armed formations. At that time, because they were behind a height, they could not fully see the enemy side, but Armenian armed formations used heavy artillery to strike their supply roads. Also, Armenian armed formations obstructed their engineering equipment during the opening of supply roads and delivered strikes by means of artillery weapons. During that incident, his fellow serviceman Shaiq Heydarov became a martyr, and 5–6 other servicemen whose names he did not remember sustained various types

of bodily injuries. He asked the court to punish the accused with the most severe punishment within the framework of the legislation of the Republic of Azerbaijan.

Mehman Fikrat oglu Hasanov, examined in court as a victim, stated in his testimony that he was born in Bash Garvand village, Aghdam District. From 8 September 2023, for the purpose of road construction by "Korpu-Bina-Tikinti" LLC, they carried out excavation and construction work in the territory of Mollalar village, Aghdam District. On 19 September 2023, while he was at work, standing near an excavator and planning the work, he heard shell sounds, and as a result of a shell that landed approximately 80 meters away—

Page 350

—he sustained a shrapnel-wound injury to the right knee area. Later he was taken to Aghdam District Central Hospital located in Guzanli settlement of Aghdam District, where he was examined. Before that incident occurred, he had not heard any information about an incident similar to this having occurred in that area. When the incident occurred, there were other persons in that area besides him, but no one else sustained injuries. He asked the court to impose the most severe punishment on the accused.

Seymur Ramiq oglu Garayev, examined in court as a victim, stated in his testimony that he had been called up for compulsory active military service on 27 July 2022; initially he began service in the territory of Goranboy District, and later served in Military Unit No. "N" of the Ministry of Defense as a compulsory active-duty serviceman. During his service in that military unit, on 20 September 2023, during the anti-terrorist operation, at around 16:00, while participating in combat operations from the direction of Papravand village, Aghdam District, toward Janyatag village, Aghdara District, he sustained craniocerebral trauma and a superficial blind shrapnel wound of the area above the left eyebrow as a result of a mortar shell fired by Armenian armed formations falling near him and exploding. In the area where he was wounded and during that same period, his fellow servicemen — soldier Mehdi Abbasov, soldier Devid Jalilov, Javad Maharramov, Warrant Officer Ali Taghiyev, and Warrant Officer Rasul Teymurov — became martyrs. As a result of the injuries he sustained, he received treatment for 1 month. He asked the court to impose punishment on the accused in accordance with the law.

Sadiq Alihasan oglu Bakhshiyev, examined in court as a victim, stated in his testimony that he had served in Military Unit No. "N" of the Ministry of Defense with the military rank of chief warrant officer. During the anti-terrorist operations that took place on 19 September 2023, in the direction of Aghdam–Aghdara districts, he sustained an open comminuted fracture injury below the knee of his right leg as a result of being struck by a sniper bullet fired by Armenian armed formations. At that time, the fire opened at them came from the direction of a post from which Armenian armed formations frequently committed provocations. During the incident, his fellow servicemen — soldier Khayal Gurbanov, and other soldiers Sanan Mirzayev and Asgar Gasimli — became martyrs, while soldier Elman Vahabov and one other serviceman whose name he did not remember were severely

wounded. He asked the court to impose the most severe punishment on the accused in accordance with the law.

Jasarat Gulagha oglu Hasanzade, examined in court as a victim, stated in his testimony that he had participated in the anti-terrorist operations held on 19–20 September 2023, and because of the injuries he sustained, some events were not precisely retained in his memory. When the incident occurred, Armenian armed formations had a post opposite the post where they were located. Thus, on 18 September 2023 they had come to that post, and on 19 September 2023 that post was fired upon by Armenian armed formations. He stated that at that time the post where they had taken position was located in the territory of either Khojaly or Aghdara District, and he believed that that post had been fired upon with a 120-mm mortar or a "Fagot"-type anti-tank guided missile. At that time, group commander Warrant Officer Akif Koroghluyev sustained injuries next to him, while among his fellow servicemen soldier Huseyn Novruzzade, as well as the chief of staff of the brigade in which he served, whose name he did not remember, became martyrs. Besides him, most of his other fellow servicemen at that post were wounded. As a result of the incident, he sustained an open craniocerebral trauma injury and stated that he currently had a second-degree disability for that reason. He asked the court to impose the most severe punishment on the accused.

Hasan Ilgar oglu Guliyev, examined in court as a victim, stated in his testimony that on 19 September 2023, during the anti-terrorist operation, while he was in the territory of Sirkhavand village, Aghdara District, he sustained an injury to the right knee area and craniocerebral trauma as a result of a heavy artillery shell fired by Armenian armed formations falling near him and exploding. On 20 September 2023, however, he—

—he was evacuated from that area and later received treatment. During that incident, besides him, among his fellow servicemen there were also servicemen who sustained injuries, as well as servicemen who became martyrs. He asked the court to impose the most severe punishment on the accused.

Emil Emin oglu Mehtiyev, examined in court as a victim, stated in his testimony that he had served as a soldier in the 8th company of the 3rd battalion of Military Unit No. "N" of the Ministry of Defense. During his service in that military unit, on 19 September 2023, at around 17:00, during the anti-terrorist operation, in combat operations conducted in the direction of Sirkhavand village, Aghdara District, as a result of a mortar shell fired by Armenian armed formations falling near him and exploding, he and his fellow servicemen — soldier Ismayil Ganbarov and Lieutenant Amin Maharramov — sustained various types of bodily injuries. Around the time of the incident, they had been stationed in that area and had conducted observation for 15 days. During the 15 days he was in that area, provocations by Armenian armed formations occurred frequently; at times, Armenian armed formations even opened uninterrupted fire on the positions where they were located for one or two hours. When the incident occurred, he received two bullet wounds to the arm and leg areas; in

addition, as a result of a mortar shell falling near him and exploding, he sustained severe shrapnel-wound injuries. He stated that he had no complaint or demand against the accused.

Mayis Aydinbey oglu Koroghluyev, examined in court as a victim, stated in his testimony that he had served as a long-term active-duty serviceman of the 1st operational company of the 1st operational battalion of Military Unit No. “N” of the Ministry of Defense, with the military rank of sergeant. During his service in that military unit, on 19 September 2023, during the anti-terrorist operation, in the territory of Sirkhavand village, Aghdara District, as a result of a “Fagot”-type rocket projectile fired by Armenian armed formations falling near them and exploding, the chief of staff of the battalion in which he served, Vusal Rustam oglu Rustamov, became a martyr, while he and his fellow serviceman Gahraman Ismayilov sustained bodily injuries of varying degrees. They had served for 15 days in the territory of Sirkhavand village, Aghdara District, where the incident occurred; during the 15 days he served in that area, provocations by Armenian armed formations occurred frequently. He asked the court to impose the most severe punishment on the accused in accordance with the law.

Asim Anar oglu Gafarov, examined in court as a victim, stated in his testimony that he had been called up for compulsory active military service in October 2022 and had participated in the anti-terrorist operations that took place on 19 September 2023; at that time, he served in Military Unit No. “N” of the Ministry of Defense with the military rank of soldier. Before the anti-terrorist operation that took place on 19 September 2023, provocations by Armenian armed formations had occurred frequently; at times they even opened uninterrupted fire for one or two hours. On 19 September 2023, at around 15:00, during the anti-terrorist operation, as a result of a mortar shell fired by Armenian armed formations falling near him and exploding, he sustained an injury to his left leg; later, while he continued combat operations in the direction of Janyatag village, Aghdara District, as a result of another mortar shell falling near him and exploding, he sustained closed craniocerebral trauma. At that time, near him were his fellow serviceman Lieutenant Shahriyar Aliyev, who became a martyr, and other fellow servicemen who sustained injuries — Lieutenant Ruzi Shahin oglu Rustamov and soldier Nicat Abuzar oglu Aghayev. He asked the court to impose a severe punishment on the accused in accordance with the law.

Makhfura Agakarim gizi Hasanova, examined in court as the legal successor of a victim, stated in her testimony that her child, Umid Ilgar oglu Hasanov, had begun serving from July 2022 as a long-term active-duty serviceman in a military unit of the Special Forces of the Ministry of Defense. On 13 September 2022, her child Umid Hasanov, while preventing large-scale provocative actions committed by Armenian armed formations—

—in the defense of Kalbajar District, in the direction of Komurdagh, became a martyr as a result of a sniper bullet fired by Armenian armed formations striking him in the head. As a mother, she asked the court to impose the most severe punishment on the accused.

Shadman Samir oglu Mammadaliyev, examined in court as the legal successor of a victim, stated in his testimony that his brother Niyazi Mammadaliyev had, from April 2022, served voluntarily as a long-term serviceman in Military Unit No. “N” of the Naval Forces of the Ministry of Defense; on 20 September 2023, during the anti-terrorist operation, he became a martyr in combat operations conducted in the direction of Aghdam–Aghdara–Sirkhavand village. He asked the court to impose the most severe punishment on the accused.

Bayram Zeynal oglu Bayramov, examined in court as the legal successor of a victim, stated in his testimony that his son Ikhtiyar Bayramov had served voluntarily as a long-term serviceman in Military Unit No. “N” of the Ministry of Defense; on 19 September 2023, he received a call informing him that his son had become a martyr after sustaining a bullet-wound injury during combat operations conducted in the direction of Aghdam–Aghdara–Gulabli districts. He asked the court to impose the most severe punishment on the accused.

Zaur Mubariz oglu Sadigov, examined in court as a victim, stated in his testimony that on 13 September 2022, at around 07:00, while preventing large-scale provocative actions committed by Armenian armed formations, in the territory of Kalbajar District, he and other servicemen of Military Unit No. “N” of the Ministry of Defense in which he served sustained various types of bodily injuries as a result of fire opened by Armenian armed formations. Before that incident, he had served as a serviceman for 1 year and 4 months. He asked the court to impose the most severe punishment on the accused.

Ali Fagan oglu Shikhaliyev, examined in court as a victim, stated in his testimony that on 13 September 2022, during the night hours, while preventing large-scale provocative actions committed by Armenian armed formations, in the territory of Kalbajar District, he and servicemen of Military Unit No. “N” of the Ministry of Defense in which he served sustained various types of bodily injuries as a result of the explosion of a mortar shell fired by Armenian armed formations. At the time of the incident, Armenian armed formations had not advanced with manpower; they had simply opened fire. He asked the court to impose the most severe punishment on the accused.

Ilkin Fizuli oglu Musazade, examined in court as a victim, stated in his testimony that he had begun compulsory active military service on 8 July 2022; during his military service, on 19 September 2023, at around 14:00, while participating in local anti-terrorist operations in the territory of Khojavend District, he sustained a bullet-wound injury as a result of fire opened by illegal Armenian armed formations. At that time, several of his fellow servicemen, whose names he did not remember, also sustained various types of bodily injuries, while some became martyrs. The fellow servicemen who became martyrs died as a result of the explosion of an artillery shell fired by Armenian armed formations. He asked the court to impose the most severe punishment on the accused in accordance with the law.

Salman Aydin oglu Imranzade, examined in court as a victim, stated in his testimony that he had begun military service on 4 April 2023 in Aghjabadi District; during his military service, on 19 September 2023, at around 14:00, while participating in local anti-terrorist operations, during combat operations conducted in the territory of Khojavend District, he sustained a

bullet-wound injury as a result of fire opened from a sniper weapon by illegal Armenian armed formations. During the incident, that sniper bullet entered from the front of his left thigh area, passed through it, and exited from the rear side. At that time, besides him—

Page 353

—other servicemen who were his fellow servicemen also sustained various types of bodily injuries as a result of fire opened by Armenian armed formations. He asked the court to impose the most severe punishment on the accused.

Vusal Yusif oglu Aliyev, examined in court as a victim, stated in his testimony that on 13 September 2022, while preventing large-scale provocative actions committed by Armenian armed formations, in the territory of Lachin District, he sustained various types of bodily injuries as a result of fire opened from a sniper weapon by Armenian armed formations. During that incident, besides him, there were other servicemen who sustained injuries and became martyrs. He asked the court to impose the most severe punishment on the accused.

Farhad Yasar oglu Ismayilli, examined in court as a victim, stated in his testimony that around the time of the incident, together with his fellow servicemen, he had gone from the military unit where they served to Military Unit No. “N” of the Ministry of Defense for assistance. On 16 November 2021, in the afternoon hours, while he was on duty for reinforcement purposes at combat post No. 307 of Military Unit No. “N” of the Ministry of Defense, located in the area called the “4th district” in the territory of Lachin District, the area where they were located was fired upon by Armenian armed formations using tracer incendiary bullets, mortars, and anti-tank projectiles. At that time, Armenian armed formations both advanced with manpower and opened fire from various types of weapons. He asked the court to impose the most severe punishment on the accused.

Mirsadiq Miragha oglu Mirsadiqov, examined in court as a victim, stated in his testimony that on 17 August 2021, while he was performing military service in Shusha city, at around 10:00 at night, they were informed that there would be an attack on post No. 31, where they served; they immediately went to that post, and at that moment everything around was quiet. However, at approximately 04:00–05:00, the post where they served was attacked by Armenian armed formations; at that time, in the lower part of the post where they were located, they saw 4–5 Armenian servicemen. Then an exchange of fire began, and during the firefight he sustained an injury to the forehead area. Before that incident occurred, beginning in January 2021, he had started serving in Shusha city in Military Unit No. “N” of the Ministry of Defense, and he served there from that date until January 2022. Around the time of the incident, Armenian armed formations frequently committed provocations, but such a provocation occurred once during the period of his service.

Suleyman Ehtibar oglu Asadullayev, examined in court as a victim, stated in his testimony that he had gone to Aghdara District, where the incident occurred, on 18 September 2023; on 19 September 2023, as a result of a “Kornet”-type rocket projectile fired by illegal Armenian armed formations located in the territory of Janyatag village, Aghdara District, falling near

him and exploding, he sustained injuries. During that incident, one soldier from the battalion in which he served became a martyr, while he himself sustained an injury to the head area. He asked the court to impose the most severe punishment on the accused.

Ramin Vugar oglu Balakhanli, examined in court as a victim, stated in his testimony that on 19 September 2023, at around 16:00–17:00, while preventing large-scale provocative actions committed by Armenian armed formations, in the territory of Khanabad village, Khojaly District, as a result of a mortar shell fired by Armenian armed formations falling near him and exploding, he and his fellow servicemen, soldier Punhan Kazimov and soldier Babak Ahmadli, sustained various types of bodily injuries. During that incident, he sustained rupture of the soft tissues in the left knee area and a shrapnel-wound injury to the head area, while his other fellow servicemen Sadig Gahramanov and Davud Giyasli became martyrs. He asked the court to impose the most severe punishment on the accused.

Page 354

Peyman Bayram oglu Jabbarov, examined in court as a victim, stated in his testimony that he had first served in one of the military units located in Baku city and later had gone on assignment to Kalbajar District. On 13 September 2022, while preventing large-scale provocative actions committed by Armenian armed formations, in the territory of Kalbajar District, he sustained various types of bodily injuries as a result of artillery fire opened by Armenian armed formations. During that incident, besides him, other servicemen also sustained various types of bodily injuries, and some servicemen became martyrs. He asked the court to impose the most severe punishment on the accused.

Vusal Igrar oglu Mamiyev, examined in court as a victim, stated in his testimony that on 19 September 2023, while preventing large-scale provocative actions committed by Armenian armed formations, during combat operations in the direction of Aghdam District, he sustained various types of bodily injuries as a result of the explosion of a hand grenade thrown by Armenian armed formations. During that incident, 5 servicemen from the company in which he served became martyrs, while several servicemen sustained various types of bodily injuries. He asked the court to punish the accused with the most severe punishment provided for by the Criminal Code of the Republic of Azerbaijan.

Tale Nuraddin oglu Zabitov, examined in court as a victim, stated in his testimony that on 19 September 2023, during the anti-terrorist operation, they went to the territory of Malibeyli village, Khojaly District, where the incident occurred. On 20 September 2023, while preventing large-scale provocative actions committed by Armenian armed formations, during combat operations conducted in the territory of Malibeyli village, Khojaly District, as a result of fire opened by Armenian armed formations, one serviceman whose name he did not remember became a martyr, while he and his fellow servicemen, soldier Gulverdi Mehtiyev and soldier Muslum Aliyev, sustained various types of bodily injuries. At that time, Armenian armed formations attacked with manpower from close range and with artillery from long range. At that time, he sustained a through-and-through firearm bullet wound to the

upper one-third of his left shoulder. He asked the court to impose the most severe punishment on the accused.

Zahid Vilayat oglu Gojayev, examined in court as a victim, stated in his testimony that he had left for active military service on 18 January 2022 and had served as a reconnaissance soldier and assistant grenade launcher in the 1st company of the 1st battalion of Military Unit No. "N" of the Ministry of Defense of the Republic of Azerbaijan. Around the time of the incident, in connection with the liberation of certain villages of Lachin District from Armenian armed formations, they were deployed to that area; later, on the basis of information received from the Ministry of Defense that Armenian armed formations were conducting operations in the direction of Komurdagh in Kalbajar District, they went to reinforce the posts in that area. On 13 September 2022, at around 12:00, while preventing large-scale provocative actions committed by Armenian armed formations, during combat operations conducted in the direction of Komurdagh, Kalbajar District, he sustained serious injuries to both legs as a result of the explosion of a mortar shell fired by Armenian armed formations. During that provocation, Armenian armed formations used various types of weapons, including cannon shells, mortar batteries, small- and large-calibre weapons; at the same time, as a result of being struck by a sniper bullet during the combat operations, his fellow serviceman who was next to him and whose name he did not remember became a martyr. He asked the court to impose the most severe punishment on the accused.

Ceyhun Bahram oglu Bayramov, examined in court as a victim, stated in his testimony that from 2018 he had served in the company of the Rapid Response Service of the State Border Service; on 17 July 2019, while he was on assignment in the Gazakh Border Division located in the territory of Kamarli village, Gazakh District—

—as a result of fire opened by Armenian armed formations, he sustained a shrapnel-wound injury. He asked the court to impose the most severe punishment on the accused.

Samir Telman oglu Bakhishov, examined in court as a victim, stated in his testimony that from January 2023 he had begun serving in Shusha city; during that period, Armenian armed formations had merely opened fire from close range from post to post. On 20 September 2023, during the anti-terrorist operation, during combat operations conducted in the direction of Khankendi city, as a result of fire opened by Armenian armed formations, he sustained a bullet-wound injury to his right leg. At that time, among the fellow servicemen who were near him, there were also other servicemen who sustained injuries. He asked the court to impose the most severe punishment on the accused.

Tahir Mehdi oglu Aliyev, examined in court as the legal successor of a victim, stated in his testimony that he was the father of martyr Sabuhi Aliyev. His son Sabuhi Aliyev became a martyr on 19 September 2023 during the anti-terrorist operation; on 19 September 2023, he received a call informing him that his son Sabuhi Aliyev had become a martyr during combat

operations conducted in the direction of Aghdam District. He asked the court to impose the most severe punishment on the accused in accordance with the law.

Seymur Balayar oglu Teymurov, examined in court as a victim, stated in his testimony that he had been in military service since 2013. On 19 September 2023, during the anti-terrorist operation, he and his fellow servicemen Elchin Ibrahimli and Elmaddin Latifov were involved in the anti-terrorist operations as part of the military unit in which they served. On that date, at around 13:00, while they were carrying out work with an IMR engineering vehicle in the territory of Aghdara District, the vehicle in which he was located was struck by a "Kornet" anti-tank missile fired by illegal Armenian armed formations. As a result of that incident, he was seriously wounded; his fellow serviceman Senior Lieutenant Elchin Ibrahimli, who was with him, became a martyr, and the other fellow serviceman, driver-mechanic Elmaddin Latifov, became a martyr three days after the incident. He asked the court to impose the most severe punishment on the accused in accordance with the law.

Rafiq Vidadi oglu Ahmadov, examined in court as a victim, stated in his testimony that on 19 September 2023, during the anti-terrorist operations, while he was carrying out engineering work in the territory of Aghdara District with the KAT D7R vehicle he was driving, he struck an anti-tank mine buried in the ground by illegal Armenian armed formations and sustained injuries. When the incident occurred, among the fellow servicemen serving together with him there were also other servicemen who became martyrs and sustained injuries. He asked the court to impose the most severe punishment on the accused in accordance with the law.

Ramil Elman oglu Alakbarov, examined in court as a victim, stated in his testimony that he had participated in the anti-terrorist operation on 19 September 2023, and around the time of the incident he had served in Shusha city within the Ground Forces of the Ministry of Defense. On 19 September 2023, during combat operations in the territory of Khankendi city, as a result of a mortar shell fired by Armenian armed formations falling near him and exploding, he sustained injuries to his right arm and right leg. On that date, at around 20:00, he was removed from that area and evacuated. At that time, besides him, one serviceman who served together with him in the same company, whose name he did not remember, also sustained injuries. He asked the court to impose the most severe punishment on the accused in accordance with the law.

Mehman Bahruz oglu Guliyev, examined in court as a victim, stated in his testimony that, while preventing an attack by Armenian armed formations—

—on 13 September 2022, in the direction of Komurdagh in Kalbajar District, as a result of the explosion of a mortar shell fired by Armenian armed formations, he sustained injuries and, due to numerous shrapnel wounds, lost his right eye. On that date, they also had other tasks in the area where the incident occurred, but because Armenian armed formations had committed large-scale provocative actions, they were sent to the detachment there in order to prevent that provocation. When the incident occurred, Armenian armed formations launched

an attack using both manpower and heavy artillery in the directions of Komurdagh, Alagozlar, and Istisu. At that time, besides him, among the fellow servicemen who sustained injuries were Ismayil Budagli, Ravil Humbatov, and many other servicemen whose names he did not remember. He asked the court to impose the most severe punishment on the accused in accordance with the law.

Rashad Sahib oglu Abdullayev, examined in court as a victim, stated in his testimony that he had begun serving as an officer in the Azerbaijani Army in 2017, and during the anti-terrorist operations carried out on 19–20 September 2023, he held the military rank of senior lieutenant. In the recent period, Armenian armed formations had failed to comply with the trilateral statement concluded after the Patriotic War; terrorist acts had been committed in Karabakh at various times; citizens of the Republic of Azerbaijan had sustained injuries as a result of the use of mines and other explosive substances manufactured in the Republic of Armenia; and from the beginning of September 2023, civilian infrastructure and the population had been fired upon. After a group of employees of the Ministry of Internal Affairs struck a mine and became martyrs on those dates, the necessity of conducting anti-terrorist operations in Karabakh was put forward. On 19 September 2023, at around 16:30, during the anti-terrorist operation in the territory of Janyatag village, Aghdara District, as a result of an anti-tank guided missile fired by illegal Armenian armed formations striking and exploding on the combat tank near which he was located, he sustained blast trauma and blunt-trauma injuries to various parts of his body. In addition, during those combat operations, 21 servicemen of Military Unit No. “N” of the Ministry of Defense in which he served became martyrs, and more than 100 servicemen sustained bodily injuries of varying degrees. He stated that he believed in the supremacy of the laws of the Republic of Azerbaijan and asked the court to severely punish the persons who supported and financed terrorism.

Elsevar Bakhtiyar oglu Nazarov, examined in court as a victim, stated in his testimony that he had served as commander of the 1st automatic grenade-launcher squad of the combat-support platoon of the 1st battalion of Military Unit No. “N” of the Ministry of Defense. On 20 September 2023, during the anti-terrorist operation in the territory of Aghdara District, as a result of an artillery shell fired by illegal Armenian armed formations falling onto the Ural vehicle in which he and his fellow servicemen were located and exploding, his fellow serviceman Junior Sergeant Tural Aghajabeyov, who was next to him, became a martyr, while he and another fellow serviceman, Warrant Officer Ilkin Karimli, sustained injuries. He asked the court to impose the most severe punishment on the accused.

Fagan Sahib oglu Hagverdiyev, examined in court as a victim, stated in his testimony that he had served in the Ground Forces of the Ministry of Defense as commander of an engineer-sapper squad, and around the time of the incident they had been conducting mine-clearance operations in the liberated territory of Aghdam District. Thus, on 19 September 2023, during the anti-terrorist operation, as a result of the explosion of a mortar shell fired by Armenian armed formations in the direction of Aghdara District, he sustained injuries to his right leg and left ear. At that time, besides him, his fellow servicemen Huseyn Mammadov and

Joshgun Abbasov also sustained bodily injuries of varying degrees. When he was wounded, he lost consciousness and was evacuated to hospital.

Page 357

He asked the court to impose the most severe punishment on the accused.

Siraj Abil oglu Niftaliyev, examined in court as a victim, stated in his testimony that on 19 September 2023, at around 13:00, during the local anti-terrorist operation, the positions where they were located began to be fired upon by illegal Armenian armed formations using artillery weapons of various calibres and mortars. For approximately two hours, the positions where they were located were fired upon by illegal Armenian armed formations using artillery weapons, and after that, combat operations with manpower continued at the posts until the night hours. During the night hours, Armenian armed formations launched drones into the air; at that time, because the area was forested, they were able to hide. On 20 September 2023, at around 12:00, illegal Armenian armed formations again fired at the positions where they were located, and during that incident he sustained bodily injuries of varying degrees. He asked the court to impose the most severe punishment on the accused.

Nadir Ilgar oglu Balayev, examined in court as a victim, stated in his testimony that he had served in the Ground Forces of the Ministry of Defense, in Military Unit No. “N”, as a squad commander. Up to the date of the incident, he had served in the direction of Fuzuli District, and during the local anti-terrorist operation that took place on 19–20 September 2023, they came to the territory of Khojavend District. Thus, on 19 September 2023, at around 17:00, during the local anti-terrorist operation in the territory of Khojavend District, as a result of fire opened by Armenian armed formations, he sustained bodily injuries of varying degrees. At that time, Armenian armed formations attacked using both manpower and artillery weapons. When the incident occurred, there were also servicemen who became martyrs and servicemen who sustained injuries in that area; at that time, one soldier under his command, whose name he did not remember, sustained injuries. He asked the court to impose a severe punishment on the accused in accordance with the law.

Mirsaleh Mail oglu Heydarzade, examined in court as a victim, stated in his testimony that on 22 September 2021, while he was travelling in an armored vehicle to the post where they served in the direction of Khankendi city, that vehicle, in which he and his fellow servicemen were located, was fired upon by Armenian armed formations; however, despite the vehicle being damaged, the driver did not stop it. During that incident, Warrant Officer Nazir Jalilov sustained injuries. At that time, the vehicle in which they were travelling was not fired upon again by Armenian armed formations on the road. He asked the court to impose the most severe punishment on the accused in accordance with the law.

Rahim Ibrahim oglu Ibrahimov, examined in court as a victim, stated in his testimony that he had served in the engineer-sapper company of Military Unit No. “N” of the Ministry of Defense as a sapper. On 19 September 2023, while participating in local anti-terrorist operations, as they moved with a 25-person group of personnel in the direction of Aghdam

District, they were encircled by illegal Armenian armed formations. At that time, as a result of fire opened by Armenian armed formations, he sustained bodily injuries of varying degrees. He asked the court to impose the most severe punishment on the accused in accordance with the law.

Agil Ramazan oglu Isparzade, examined in court as a victim, stated in his testimony that he had served in the Ground Forces of the Ministry of Defense, in Military Unit No. “N”, with the military rank of junior sergeant, in the position of reconnaissance soldier. On 19 September 2023, during the local anti-terrorist operation in the territory of Khojavend District, as a result of the explosion of a mortar shell fired by Armenian armed formations—

—he sustained shrapnel-wound injuries to his right knee and lower-leg areas. At that time, among his fellow servicemen, two servicemen whose names he did not remember became martyrs; in addition, during that incident, three servicemen who were with him and whose names he did not remember, and who had sustained injuries, were evacuated from the territory of Khojavend District where the incident occurred. He asked the court to impose the most severe punishment on the accused in accordance with the law.

Ramil Namiq oglu Khankishiyev, examined in court as a victim, stated in his testimony that on 19 September 2023, in the territory of Aghdara District, as a result of the explosion of an anti-personnel mine planted by Armenian armed formations behind bushes, he sustained bodily injuries of varying degrees. When the incident occurred, besides him, 6 servicemen whose names he did not remember sustained injuries, and 1 serviceman became a martyr. He asked the court to impose the most severe punishment on the accused.

Nemat Adalat oglu Rustamov, examined in court as a victim, stated in his testimony that he had served in the Ground Forces of the Ministry of Defense, in Military Unit No. “N”, as a long-term active-duty serviceman. On 19 September 2023, during the local anti-terrorist operation in the territory of Khojavend District, as a result of sniper fire opened by Armenian armed formations, he sustained an injury to his left leg. During that incident, the detachment of which he was part consisted of 9 persons in total; from that detachment, 6 servicemen became martyrs, and the other servicemen, including him, sustained injuries. He asked the court to impose the most severe punishment on the accused.

Arzulla Kamran oglu Taghiyev, examined in court as a victim, stated in his testimony that he had served in the Ground Forces of the Ministry of Defense, in Military Unit No. “N”, as a long-term active-duty serviceman in the position of driver. On 19 September 2023, during the anti-terrorist operation, while they were going to the area where the incident occurred in the direction of Khojavend District for evacuation, when they were evacuating the wounded servicemen from that area, a mortar shell fired by Armenian armed formations fell near him and exploded. As a result, he sustained a minor injury. At that time, besides him, 5 servicemen whose names he did not remember also sustained bodily injuries of varying

degrees, while 3 servicemen became martyrs. He asked the court to impose the most severe punishment on the accused.

Rauf Namiq oglu Yusifov, examined in court as a victim, stated in his testimony that before the anti-terrorist operation carried out on 19–20 September 2023, he had been in military service for two years. On 19 September 2023, during the anti-terrorist operation, while carrying out a combat task in the directions of Aghkend and Garakend in Khojavend District, he sustained injuries. He asked the court to impose the most severe punishment on the accused.

Orkhan Gadimali oglu Farzaliyev, examined in court as a victim, stated in his testimony that he had served as a soldier in a commando brigade within the Ground Forces of the Ministry of Defense. On 19 September 2023, at around 19:00, during the anti-terrorist operation, during combat operations conducted in the direction of Yukhari Veysalli village, Khojavend District, as a result of sniper fire opened by Armenian armed formations, he sustained bullet-wound injuries to the left hand and left thigh areas. He asked the court to impose the most severe punishment on the accused.

Abdulla Akif oglu Asgarzade, examined in court as a victim, stated in his testimony that he had served in the Ground Forces of the Ministry of Defense, as chief of the medical station of the 2nd battalion of Military Unit No. “N”, with the military rank of medical service lieutenant. Around the time of the incident, he was constantly engaged in evacuating wounded servicemen by means of a medical-sanitary vehicle and providing first medical assistance to the wounded—

Page 359

—provided medical assistance to wounded servicemen. On 20 September 2023, during the local anti-terrorist operation, while evacuating wounded servicemen in the direction of Yukhari Veysalli village, Khojavend District, a mortar shell fired by Armenian armed formations fell and exploded near him, as a result of which he sustained bodily injuries of varying degrees. At the time he was injured, there was one soldier whose name he did not remember and a driver together with him in the medical-sanitary vehicle. He asked the court to impose a severe punishment on the accused in accordance with the law.

Vagif Murad oglu Kheyrullayev, examined in court as a victim, stated in his testimony that he had served as a long-term active-duty serviceman in Military Unit No. “N” of the Ministry of Defense located in the territory of Lachin District. On 13 September 2022, at around 01:30, while preventing large-scale provocative actions committed by Armenian armed formations in the direction of Garagoz village, Lachin District, he sustained a bullet-wound injury to the shoulder area. At that time, besides him, among the other servicemen, his fellow serviceman Oruc Rzayev was wounded, and at the same time his other fellow serviceman Mirtalib Aghazade became a martyr. He asked the court to impose a severe punishment on the accused in accordance with the law.

Mirhuseyn Gafar oglu Dostiyev, examined in court as a victim, stated in his testimony that on 19 September 2023, while participating in local anti-terrorist operations, he sustained blast trauma and bullet-wound injuries as a result of fire opened by illegal Armenian armed formations in the territory of Khojaly District. He asked the court to impose the most severe punishment on the accused in accordance with the law.

Parviz Rafiq oglu Isgandarli, examined in court as a victim, stated in his testimony that on 19 September 2023, during the local anti-terrorist operation, the Azerbaijani Army advanced while preventing an attack by illegal Armenian armed formations, and at that time, as a result of the explosion of a mortar shell fired by illegal Armenian armed formations, he sustained closed craniocerebral trauma. During that incident, besides him, his fellow servicemen Captain Rajabali Mirzazade, Junior Sergeant Elnur Gasimov, and Sergeant Samir Farzaliyev sustained injuries, while Captain Khalifali Sultanov became a martyr. He asked the court to impose a severe punishment on the accused in accordance with the law.

Samig Hummat oglu Aliyev, examined in court as a victim, stated in his testimony that he had served in the Ground Forces of the Ministry of Defense, in Military Unit No. “N”, as a division commander, with the military rank of lieutenant colonel. On 19 September 2023, during the anti-terrorist operation in the territory of Shusha city, as a result of an artillery shell fired by Armenian armed formations falling and exploding near him, he sustained closed craniocerebral trauma and brain concussion. He asked the court to impose the most severe punishment on the accused in accordance with the law.

Emil Yusif oglu Jafarov, examined in court as a victim, stated in his testimony that he had served in Military Unit No. “N” of the Ministry of Defense with the military rank of junior sergeant. On 19 September 2023, during the local anti-terrorist operation, in the territory of Chanagli village, Khojaly District, as a result of an artillery shell fired by Armenian armed formations falling and exploding near him, the company commander of the unit in which he served became a martyr, while he and two servicemen who were his fellow servicemen and whose names he did not remember sustained injuries. He asked the court to impose the most severe punishment.

Samir Gurban oglu Farzaliyev, examined in court as a victim, stated in his testimony that he had served in the artillery unit of Military Unit No. “N” within the Ground Forces of the Ministry of Defense, in the position of gun commander, with the military rank of sergeant—

—On 19 September 2023, during the local anti-terrorist operation, in the territory of Sighnag village, Khojaly District, as a result of an artillery shell fired by Armenian armed formations falling and exploding near him, he sustained closed craniocerebral trauma. During that incident, besides him, his fellow serviceman Captain Parviz Isgandarli, who was near him, also sustained bodily injuries of varying degrees. He asked the court to impose a severe punishment on the accused in accordance with the law.

Tural Alkhan oglu Dadashov, examined in court as a victim, stated in his testimony that he had served in the Ground Forces of the Ministry of Defense as commander of an infantry battalion detachment of Military Unit No. “N”; at that time there were approximately more than 100 personnel in the battalion where he served. On 4 September 2022, at around 15:00, while preventing large-scale provocative actions committed by Armenian armed formations, in the territory of Kalbajar District, as a result of the explosion of artillery and mortar shells fired by Armenian armed formations, he sustained closed craniocerebral trauma. At that time, besides him, several fellow servicemen whose names he did not remember also sustained bodily injuries of varying degrees, while several more servicemen whose names he did not remember became martyrs. He asked the court to impose a severe punishment on the accused in accordance with the law.

Nusrat Karimov Huseynkhan oglu, examined in court as a victim, stated in his testimony that on 20 September 2023, during the local anti-terrorist operation, he and his fellow servicemen were deliberately encircled by Armenian armed formations in the direction of Khojaly District, in accordance with a previously prepared plan. At that time, as a result of the explosion of a grenade-launcher shell fired by Armenian armed formations, he sustained closed craniocerebral trauma; among his fellow servicemen, long-term active-duty serviceman Rustam Dunyamaliyev became a martyr, while three servicemen whose names he did not remember sustained severe injuries. He asked the court to impose a severe punishment on the accused in accordance with the law.

Aslan Mehti oglu Azizov, examined in court as a victim, stated in his testimony that he had served in the operational brigade of Military Unit No. “N” within the Ground Forces of the Ministry of Defense, with the military rank of senior lieutenant. On 20 September 2023, at around 09:00–10:00, during the local anti-terrorist operation, while preventing large-scale provocative actions committed by Armenian armed formations in the directions of Aghdam and Khojaly districts, Armenian armed formations carried out a number of provocations by conducting reconnaissance flights with unmanned aerial vehicles, by sabotage groups of illegal Armenian armed formations planting anti-personnel and anti-tank mines on the roads they used, and also by opening fire from large-calibre weapons, including light and heavy artillery weapons.

Thus, on that date, while preventing the provocation of illegal Armenian armed formations in the direction of Khojaly District, at the foot of Gulabli Mountain, as a result of the explosion of an “RPG-7” grenade-launcher shell fired by illegal Armenian armed formations, he sustained closed craniocerebral trauma and injuries to his left leg. He asked the court to impose the most severe punishment on the accused in accordance with the law.

Gayyumlu Mahammadali Seyidagha oglu, examined in court as a victim, stated in his testimony that he had participated in the local anti-terrorist operation that took place on 19–20 September 2023, in combat operations in the directions of Aghdam–Aghdara districts. On 20 September 2023, in the territory of Papravand village, Aghdam District, as a result of an artillery shell fired by Armenian armed formations falling onto and exploding on the vehicle in which he and his fellow servicemen were located, he sustained nerve

injury in the vessels as a result of blind shrapnel wounds to both lower limbs, fractures in the leg, burns to the face and eye areas, and other injuries. At the time of the incident, there were approximately 25–30 servicemen in that vehicle, including him; as a result of the artillery shell falling onto that vehicle and exploding, approximately 7–8 servicemen became martyrs, while the other servicemen sustained severe injuries. He asked the court to impose a severe punishment on the accused in accordance with the law.

Huseynov Murad Mubariz oglu, examined in court as a victim, stated in his testimony that he had served in Military Unit No. "N" of the Ministry of Defense as a reconnaissance sapper of an operational company, with the military rank of soldier. On 20 September 2023, during the local anti-terrorist operation, while advancing in the directions of Aghdam–Khojaly districts in order to prevent an attack by Armenian armed formations, he and his fellow servicemen were encircled by illegal Armenian armed formations; at that time, as a result of an "RPG-7" grenade-launcher shell fired by Armenian armed formations falling and exploding near him, he sustained an injury to the thigh area of his right leg. At the time that incident occurred, besides him, his fellow serviceman who was near him and whose name he did not remember also sustained injury, while another fellow serviceman whose name he did not remember became a martyr. He asked the court to impose a severe punishment on the accused in accordance with the law.

Ahmad Ikhtiyar oglu Ahmadov, examined in court as a victim, stated in his testimony that he was born on 18 October 2004 in Murmansk, Russian Federation. On 19 September 2023, while serving in Military Unit No. "N" of the Ministry of Defense located in Shusha city, during combat operations for Khankendi city, he sustained a bullet-wound injury to the left shoulder area as a result of fire opened from a PK-type machine gun by illegal Armenian armed formations. He asked the court to impose the most severe punishment on the accused.

Bahruz Bakhtiyar oglu Bayramli, examined in court as a victim, stated in his testimony that he was born on 21 March 1994 in Tartar District, had served as a gun commander in the artillery division of Military Unit No. "N" of the Ministry of Defense, and currently serves in Military Unit No. "N" of the Ministry of Defense. On 19 September 2023, at around 16:00, during the anti-terrorist operation, in the territory of Janyatag village, Aghdara District, as a result of a cannon shell fired by illegal Armenian armed formations falling and exploding near him, he sustained closed craniocerebral trauma; at that time there were also other servicemen wounded together with him. He asked the court to impose the most severe punishment on the accused.

Oruj Nabi oglu Huseynov, examined in court as a victim, stated in his testimony that he was born in 2002 in Shaki District. On 16 November 2021, while preventing large-scale provocative actions committed by Armenian armed formations, he sustained injury in the territory of Lachin District as a result of fire opened from mortar weapons by Armenian armed formations. At that time, besides him, eight servicemen who were his fellow servicemen and whose names he did not remember also sustained injuries. At the time of the

incident, the approximate distance between the post where they were located and the positions of Armenian armed formations was 50–100 meters. He asked the court to impose the most severe punishment on the accused.

Gulverdi Jalil oglu Mehtiyev, examined in court as a victim, stated in his testimony that he was born on 18 August 2004 in Lerik District, and from 20 October 2022 had served in Military Unit No. "N" of the Ministry of Defense with the military rank of soldier. On 19 September 2023, while participating in local anti-terrorist operations, he sustained a firearm injury near Khankendi city; at the time he sustained the injury, there was no one near him. He asked the court to impose a severe punishment on the accused.

Page 362

Vurghun Abulfaz oglu Oruczada, examined in court as a victim, stated in his testimony that on 26 June 2012 he was admitted to the Armed Forces of the Republic of Azerbaijan as an officer and sent to Military Unit No. "N" of the Ministry of Defense, where he served as assistant to the chief of staff of the 4th battalion for logistics support, with the military rank of captain. The Military Unit No. "N" of the Ministry of Defense where he served was located in the territory of Yellice village, Kalbajar District, while the Armenian armed forces were positioned in the direction of Zod settlement, Basarkechar District; the posts of the 4th battalion of Military Unit No. "N" were located opposite those Armenian posts, and the distance between the posts by air was 30–40 meters.

On 11 May 2023, since the Armed Forces of Armenia provocatively opened fire from large-calibre weapons at the posts where the military units of the Ministry of Defense were located, all units were instructed to be vigilant. On 12 May 2023, while he was in front of the battalion in which he served, the Armed Forces of Armenia began intensive fire from rifle and artillery weapons. On that date, at around 21:00, as a result of one of the shells falling in front of the battalion, he sustained an injury to the right hand area. During that incident, because his fellow serviceman soldier Mahammad Garayev sustained severe injuries, he became a martyr, while several servicemen were wounded. He asked the court to impose the most severe punishment on the accused.

Bayram Asad oglu Mammadov, examined in court as a victim, stated in his testimony that on 16 November 2021, Armenian armed formations began opening fire from mortars, artillery, and other large-calibre weapons from Armenian armed formation posts in the direction of Lachin District toward their posts. Shortly thereafter, Armenian armed formations also began opening fire from large- and small-calibre weapons toward their posts from the Armenian posts located in front of and around his post, conditionally called "Tanker-1." At that time, while preventing provocative actions committed by Armenian armed formations, he sustained bodily injuries of varying degrees; during that incident, he was serving as squad commander in Military Unit No. "N" of the Ministry of Defense. He asked the court to impose the most severe punishment.

Fagan Aghamali oglu Ismayilov, examined in court as a victim, stated in his testimony that on 16 November 2021, Armenian armed formations attempted to commit a provocation in the territory of a village, the name of which he did not remember, bordering the Republic of Armenia in Kalbajar District. At that time, he was sent to the territory of a village, the name of which he did not know, bordering the Republic of Armenia in Kalbajar District, to one of the posts conditionally numbered either 18 or 19 in the right-hand direction of the place called Alagollar. Since the equipment of Armenian armed formations was firing at their posts from small- and large-calibre weapons, they were informed to return fire, and after approximately 1 hour of mutual shooting they reached that position. During that provocation, he and more than approximately 9 fellow servicemen sustained various types of bodily injuries, while some fellow servicemen became martyrs. He asked the court to impose the most severe punishment.

Magsud Valeh oglu Magsudlu, examined in court as a victim, stated in his testimony that he was born on 10 June 1992. On 11 May 2023, Armenian armed formations began provocatively opening fire from large-calibre weapons at the posts of Military Unit No. "N" of the Ministry of Defense where he served, located in the direction of Yellije village, Kalbajar District. On 12 May 2023, while he was in front of the battalion in which he served, the Armenian armed forces began intensive fire from rifle and artillery weapons, and as a result of that incident he sustained severe injuries to the abdominal cavity, lung, and liver areas. During the incident, besides him, eight servicemen of the battalion in which he served were wounded, while his fellow serviceman soldier

Mahammad Garayev became a martyr. He asked the court to impose the most severe punishment on the accused.

Sadiq Vusal oglu Gasimli, examined in court as a victim, stated in his testimony that, while preventing large-scale provocative actions committed by illegal Armenian armed formations, on 20 September 2023, during the local anti-terrorist operation, in combat operations conducted in the territory of Khalfali village, Shusha District, as a result of the explosion of a mortar shell fired by illegal Armenian armed formations, he and several other servicemen whose names he did not remember sustained various types of bodily injuries. During the provocation, Armenian armed formations used heavy artillery and cannons. He asked the court to impose the most severe punishment on the accused.

Khayal Mitalim oglu Abdullayev, examined in court as a victim, stated in his testimony that on 19 September 2023, at around 18:30, in the territory of Khojavend District, as a result of a mortar shell fired by Armenian armed formations falling near him and exploding, he sustained closed craniocerebral trauma and shrapnel-wound injuries. He asked the court to impose the most severe punishment on the accused.

Ikhtiyar Idris oglu Idrisov, examined in court as the legal successor of a victim, stated in his testimony that his son Bakhtiyar Idrisov had, from October 2022, served as a long-term

active-duty serviceman of Military Unit No. “N” of the Ministry of Defense. On 21 September 2023, he received information from the executive representative office of Ashaghi Goynuk village, Shaki District, that his son had become a martyr in the territory of Aghdam District as a result of artillery fire opened by illegal Armenian armed formations. He asked the court to impose the most severe punishment on the accused.

Jafaragha Elshad oglu Ismayilov, examined in court as a victim, stated in his testimony that on 20 September 2023, during the local anti-terrorist operation, while participating in battles in the territory of Aghdara District, as a result of a firearm projectile fired by Armenian armed formations falling near him and exploding, he sustained an injury to the right elbow area. He asked the court to punish the accused with the most severe punishment under the legislation.

Subhan Humbat oglu Abbasov, examined in court as a victim, stated in his testimony that on 19 September 2023, during the local anti-terrorist operation, while advancing with a group of 6 persons from Kalbajar District toward Aghdara District for the purpose of preventing a provocation by illegal Armenian armed formations, he sustained bodily injuries of varying degrees as a result of fire opened from heavy artillery by illegal Armenian armed formations. He asked the court to impose the most severe punishment on the accused.

Sahib Seyfulla oglu Aliyev, examined in court as a victim, stated in his testimony that he was born on 24 April 1999 in the Nakhchivan Autonomous Republic, and on 10 October 2021 began service in Kalbajar District with the military rank of lieutenant, in the position of platoon commander. On 19 September 2023, at around 15:00, during the local anti-terrorist operation in the territory of Aghdara District, as a result of a mortar shell fired by illegal Armenian armed formations exploding near him, he and other servicemen whose names he did not remember sustained injuries. During the incident, the purpose of Armenian armed formations in opening fire was to weaken the pace of their attack and break their resolve. He asked the court to impose the most severe punishment on the accused.

Yusif Mikayil oglu Turabov, examined in court as a victim, stated in his testimony that he had served in Military Unit No. “N” of the Ministry of Defense as a platoon commander and at that time was also temporarily performing the duties of company commander. On 19 September 2023, during the local anti-terrorist operation, in the territory of Gulyatag village, Aghdara District, as a result of being struck by a bullet fired from an automatic weapon by illegal Armenian armed formations.

He sustained bodily injuries of varying degrees. During that incident, three soldiers serving under his command and one serviceman with the rank of warrant officer also sustained injuries together with him. He asked the court to impose the most severe punishment on the accused.

Rail Asim oglu Nazirov, examined in court as a victim, stated in his testimony that on 11 May 2023, while serving at the K-4 combat position conditionally called "Polad-2," the Armed Forces of Armenia, using rifle and artillery weapons, subjected the positions where they were located to intensive fire. As a result of one of the fired projectiles falling at the edge of the sector, he sustained injuries to the left leg and right hand areas. He asked the court to impose the most severe punishment on the accused.

Ulfat Rahim oglu Humbatov, examined in court as a victim, stated in his testimony that he had served in Military Unit No. "N" within the Ground Forces of the Ministry of Defense as a platoon commander. On 16 November 2021, while serving in the direction of Kalbajar District, as a result of large-scale provocative actions committed by Armenian armed formations, he sustained closed craniocerebral trauma and spinal displacement injuries. He asked the court to impose the most severe punishment on the accused.

Arshad Zabit oglu Huseynov, examined in court as a victim, stated in his testimony that, while serving as company commander in Military Unit No. "N" of the Ministry of Defense, on 19 September 2023, during the local anti-terrorist operation in the direction of Aghdam–Aghdara districts, as a result of artillery fire opened by Armenian armed formations, he sustained blind shrapnel wounds to both legs and closed craniocerebral trauma. He asked the court to impose the most severe punishment on the accused.

Parviz Adibey oglu Aghali, examined in court as a victim, stated in his testimony that at the time of the incident he had served in Military Unit No. "N" of the Ministry of Defense as a platoon commander, with the military rank of lieutenant. On 19 September 2023, during the local anti-terrorist operation, while in the territory of Aghdara District, he sustained bodily injuries of varying degrees as a result of being struck by an automatic-weapon bullet fired by Armenian armed formations, and also as a result of a mortar shell fired by illegal Armenian armed formations exploding near him on 20 September 2023. During that incident, his fellow serviceman who was near him, Warrant Officer Taghiyev, became a martyr. He asked the court to impose the most severe punishment on the accused.

Keram Agha oglu Keramli, examined in court as a victim, stated in his testimony that he had served in Military Unit No. "N" of the Ministry of Defense as a group commander. On 19 September 2023, during the local anti-terrorist operation in the territory of Aghdara District, as a result of a mortar shell fired by illegal Armenian armed formations exploding near him, he sustained a shrapnel-wound injury to the right shoulder area; at the same time, his fellow serviceman Warrant Officer Rasul Teymurov became a martyr.

Hajikamil Vali oglu Rzayev, examined in court as a victim, stated in his testimony that, while preventing a provocation by illegal Armenian armed formations, on 19 September 2023, during the local anti-terrorist operation in the territory of Aghdara District, as a result of a hand grenade thrown by Armenian armed formations exploding near him, he sustained a shrapnel-wound injury. At that time, his fellow serviceman Lieutenant Elchin Damadov, who was near him, became a martyr. He asked the court to impose the most severe punishment on the accused.

Arif Ilkin oglu Gubadov, examined in court as a victim, stated in his testimony that on 19 September 2023, during the local anti-terrorist operation, in the territory of Khojavend District, as a result of fire opened by illegal Armenian armed formations located there—

Page 365

—among the servicemen who were his fellow servicemen and were near him at that time, there were both servicemen who sustained injuries and servicemen who became martyrs; and he also sustained bodily injuries of varying degrees as a result of a hand grenade thrown by illegal Armenian armed formations falling near him and exploding. He asked the court to impose the most severe punishment on the accused.

Rahman Vahid oglu Mammadli, examined in court as a victim, stated in his testimony that he was born on 11 February 2003 in Sabirabad District, and served in the reconnaissance battalion of Military Unit No. "N" of the Ministry of Defense. On 19 September 2023, during the local anti-terrorist operation, while they were taking over the post conditionally called 2-16 in the direction of Khojavend District, he sustained a shrapnel-wound injury as a result of the explosion of a firearm projectile fired by Armenian armed formations at the post where they were located. At the time of the incident, his fellow serviceman, Chief Sergeant Elshad Jafarov, who was near him, became a martyr, while other servicemen from the personnel of the company in which he served, whose names he did not remember, sustained bodily injuries of varying degrees. He asked the court to impose the most severe punishment on the accused.

Fariz Galib oglu Fatullayev, examined in court as a victim, stated in his testimony that he had served in Military Unit No. "N" of the Ministry of Defense as a group commander. While preventing large-scale provocative actions committed by illegal Armenian armed formations, on 19 September 2023, during combat operations conducted in the territory of Vangli village, Kalbajar District, he sustained a severe shrapnel-wound injury to his right eye as a result of the explosion of a hand grenade thrown by illegal Armenian armed formations, and as a result lost vision in his right eye. He asked the court to impose the most severe punishment on the accused.

Mehman Mammadtaghi oglu Mammadov, examined in court as a victim, stated in his testimony that he had served as commander of Military Unit No. "N" of the Ministry of Defense, with the military rank of lieutenant colonel. On 19 December 2020, together with his fellow servicemen, he left the military unit where they served to perform the task of clearing the territory of Mehdili village, Jabrayil District, of mines buried by illegal Armenian armed formations, and of detonating discovered mines and ammunition. In the territory of that village, a mine exploded under the front left wheel of the vehicle; as a result, the KAMAZ-43114 vehicle with military registration plate E-727-QQ became unusable, and at the same time the driver of that vehicle, Junior Sergeant Mahabbat Maharram oglu Gurbanli, a long-term active-duty serviceman serving as driver of the 1st obstacle-clearing squad of the 1st obstacle-clearing platoon of the obstacle-clearing company of Military Unit

No. “N” of the Ministry of Defense, had both legs amputated. He asked the court to impose the most severe punishment on the accused.

Ayaz Gorkhmaz oglu Jafarli, examined in court as a victim, stated in his testimony that he had served as deputy battalion commander in Military Unit No. “N” of the Ministry of Defense, with the military rank of captain. On 19 September 2023, during the local anti-terrorist operation, while he was in the territory of Aghdara District, as a result of the tank near him being struck by illegal Armenian armed formations with a TAIR anti-tank missile, he sustained closed craniocerebral trauma. At that time, one serviceman whose name he did not remember and who was near him became a martyr, while another serviceman whose name he did not remember sustained injury. He asked the court to impose the most severe punishment on the accused.

Tamerlan Elchin oglu Rashidli, examined in court as a victim, stated in his testimony that he was born on 5 May 1993 in Gakh District. On 19 September 2023, during the local anti-terrorist operation, while preventing a provocation by illegal Armenian armed formations in the territory of Kalbajar District, as a result of fire opened from a sniper weapon by illegal Armenian armed formations, he sustained a shrapnel-fracture injury to the left arm—

—area, and as a result of artillery fire, he also sustained closed craniocerebral trauma. He asked the court to impose the most severe punishment on the accused.

Tarlan Ismat oglu Jabbarov, examined in court as a victim, stated in his testimony that on 20 September 2023, during the local anti-terrorist operation, while preventing large-scale provocative actions committed by illegal Armenian armed formations, in combat operations conducted in the territory of Khalfali village, Shusha District, as a result of an unmanned aerial vehicle belonging to illegal Armenian armed formations falling onto them, he sustained various types of bodily injuries. During that incident, his fellow serviceman named Royal, who was near him, became a martyr. He asked the court to impose the most severe punishment on the accused.

Aslan Arif oglu Hajihasanov, examined in court as a victim, stated in his testimony that he had served in Military Unit No. “N” of the Ministry of Defense as a communications operator, with the military rank of soldier. On 20 September 2023, during the local anti-terrorist operation in the territory of Aghdara District, as a result of a mortar shell fired by illegal Armenian armed formations exploding near him, he sustained an injury to the right leg. He asked the court to impose the most severe punishment on the accused.

Elvin Eyvaz oglu Bayramov, examined in court as a victim, stated in his testimony that on 19 September 2023, while participating in local anti-terrorist operations in the territory of Aghdara District, as a result of a projectile fired by illegal Armenian armed formations from artillery weapons and mortars of various calibres falling near him and exploding, he sustained

an injury to the left arm area. He asked the court to impose the most severe punishment on the accused.

Elchin Khazar oglu Nasibov, examined in court as a victim, stated in his testimony that, while preventing large-scale provocative actions committed by illegal Armenian armed formations, on 19 September 2023, at around 21:00–22:00, during the local anti-terrorist operation, in combat operations conducted in the direction of Khojaly District, as a result of a mortar shell fired by illegal Armenian armed formations falling near him and exploding, he sustained a shrapnel-wound injury. During that incident, his fellow serviceman Warrant Officer Rashid Zeynalli was near him. He asked the court to impose the most severe punishment on the accused.

Latif Kazim oglu Hajili, examined in court as a victim, stated in his testimony that he had served in Military Unit No. "N" of the Ministry of Defense as a reconnaissance grenade launcher. On 19 September 2023, during the local anti-terrorist operation, in the territory of Janyatag village, Aghdara District, an artillery shell fired from a post belonging to illegal Armenian armed formations fell onto the "Ural" vehicle in which he and his fellow servicemen were located, causing a powerful explosion; at that time, he was seriously injured, lost his right eye, and his leg was fitted with a prosthesis. During that incident, apart from him, two servicemen who were his fellow servicemen and whose names he did not remember became martyrs, while several other servicemen sustained serious injuries. He asked the court to impose the most severe punishment on the accused.

Gabil Habil oglu Yusifov, examined in court as a victim, stated in his testimony that on 16 November 2021, while preventing large-scale provocative actions committed by Armenian armed formations, in the direction of Lachin District, as a result of fire opened by Armenian armed formations, he sustained a bullet-wound injury to the waist area. During that incident, 8 servicemen whose names he did not remember became martyrs, while numerous servicemen sustained bodily injuries of varying degrees. He asked the court to impose the most severe punishment on the accused.

Page 367

Murad Tahir oglu Naghiyev, examined in court as a victim, stated in his testimony that he had been called up for active military service in January 2021 and, at the time of the incident, served as a compulsory active-duty serviceman of Military Unit No. "N" of the Ministry of Defense. On 16 November 2021, while preventing large-scale provocative actions committed by Armenian armed formations, in the direction of Lachin District, he sustained a shrapnel-wound injury as a result of the explosion of a mortar shell fired by Armenian armed formations. He asked the court to impose the most severe punishment on the accused.

Zahid Ilgar oglu Najafov, examined in court as a victim, stated in his testimony that he had served in Military Unit No. "N" of the Ministry of Defense as a long-term active-duty serviceman, with the military rank of chief sergeant. On 20 September 2023, during the local anti-terrorist operation, in the direction of Aghdam–Aghdara districts, as a result of a rocket

projectile fired by illegal Armenian armed formations falling onto the “Ural” vehicle near which he was located and exploding, he sustained closed craniocerebral trauma. During that incident, two servicemen whose names he did not remember sustained injuries, while seven other servicemen whose names he did not remember became martyrs. He asked the court to impose the most severe punishment on the accused.

Sahil Seyran oglu Zamanov, examined in court as a victim, stated in his testimony that on 19 September 2023, during the local anti-terrorist operation, he participated in combat operations in the territory of Khankendi city; at that time, as a result of a mortar shell fired by illegal Armenian armed formations falling near him and exploding, he sustained a shrapnel-wound injury. At that time, in addition to him, his fellow servicemen also sustained bodily injuries of varying degrees. He asked the court to impose the most severe punishment on the accused.

Rafat Hilal oglu Ganbarov, examined in court as a victim, stated in his testimony that on 19 September 2023, during the local anti-terrorist operation, while advancing from Kalbajar District toward Aghdara District with a group of 10–15 persons in order to prevent a provocation by illegal Armenian armed formations, he sustained a shrapnel-wound injury to the right leg area as a result of fire opened by illegal Armenian armed formations using mortars. He asked the court to impose the most severe punishment on the accused.

Kamo Eduardovich Hayrapetyan, examined in court as a witness, stated in his testimony that after the 44-day Patriotic War, the Armenian population of Karabakh had become tired and wanted to return and for everyone to live together. During the two years when Ruben Vardanyan was in Karabakh, they heard that military detachments had been created in 2–3 places, and that mainly Armenian youths living in Karabakh had been gathered into those detachments. Persons recruited into those formations were given money by Ruben Vardanyan. The reason why the world-famous businessman Ruben Vardanyan left his business and came to Karabakh was that he wanted to create the ideas of Shirvan Karabakh, Mughan Karabakh, Aran Karabakh, and Mountainous Karabakh. Ruben Vardanyan wanted to create discord between the Azerbaijani nation and the Armenian nation and to earn money by way of blood. But the close people around Ruben Vardanyan abandoned him and fled. He had twice applied with a petition to be given a house, but because he and his family had come from Azerbaijan, they considered them refugees and did not give them a house. However, the Republic of Azerbaijan regards them not as refugees, but as its own citizens.

When witness Kamo Eduardovich Hayrapetyan answered the questions of the participants in the proceedings in court, he stated that no one was allowed into the training camps created by Ruben Vardanyan; they saw the military trainings only through telephones, and Ruben Vardanyan himself had also personally participated in conducting training there. The reason unemployed people took part in the mercenary detachments created by Ruben Vardanyan was that they were paid 700–800 US dollars per month there; when those persons learned that they were engaged in terrorist activity there—

—some of them fled from there. In addition, after Ruben Vardanyan came to Karabakh, work began in Karabakh to mine the territories. A propaganda campaign was conducted in Ruben Vardanyan's office, and the propaganda campaign he conducted was aimed only at bringing the persons in the training camps under his influence. Two of the camps where those trainings were held were located in the territory of Khankendi city, while one was in the territory of Askeran District. As far as he knew, there was an age restriction among the persons recruited into the mercenary detachments created by Ruben Vardanyan; persons up to 40–45 years of age were recruited into those mercenary detachments. He moved from Shusha city to Khankendi city in 2020 because of the war, but during the 44-day Patriotic War he had lived in Shusha city. Most of the Armenians living in Karabakh wanted to live together with Azerbaijanis as before. Meetings with the population were held in Ruben Vardanyan's office; because he was not allowed into those meetings, he had no information about the meetings. The preparation of the mercenary detachments organized by Ruben Vardanyan was directed against Azerbaijanis; there was no forced recruitment into those detachments. At the training held for those mercenary detachments, propaganda was carried out by Ruben Vardanyan's assistants; those training lasted 2–3 days. The guards of the training camps held for the mercenary detachments organized by Ruben Vardanyan did not allow anyone into them. Military trainings were held in those camps, but the persons undergoing training were not soldiers, but civilians. The civilians undergoing those trainings had automatic weapons on them. All propaganda conducted by Ruben Vardanyan was against Azerbaijan.

Since there was a contradiction between the testimony given by witness Kamo Eduardovich Hayrapetyan in court and the testimony he had given during the preliminary investigation, his testimony from the preliminary investigation was read out in court. In that testimony, he stated that he had been born in 1960 in Baku city. He lived in Baku city until 1988. In 1974, he completed the 8th grade of school No. 37 in Narimanov District, Baku city. In 1975, he enrolled in Technical-Vocational School No. 3 located in Baku city, and completed it in 1978. He received his education in the Azerbaijani language. In 1988, because of Azerbaijani-Armenian relations, he moved to Armenia. He returned again to Shusha city of Azerbaijan in 2000. From that time until 2020, he lived in Shusha city, and then moved to Khankendi because of the war.

Witness Kamo Hayrapetyan stated that he knew the accused Ruben Vardanyan very well. Ruben Vardanyan came to Karabakh after the 44-day Patriotic War. Before Ruben Vardanyan came to Karabakh, the issue of integration with Azerbaijan had spread seriously among the Karabakh Armenians. Many were seriously thinking about living within Azerbaijan and obtaining citizenship. In 2022–2023, Ruben Vardanyan came to Khankendi city and began propaganda against Azerbaijan there. After Ruben Vardanyan's arrival, hostile tendencies against Azerbaijan intensified among the Karabakh Armenians. Ruben Vardanyan tried to make the Karabakh Armenians hate Azerbaijanis. In addition, among the Karabakh Armenians, under the guise of assistance, Ruben Vardanyan gathered around himself women who were family members of Armenian fighters who had died in the 44-day Patriotic War,

drew those women to himself, and forced them in various ways to have sexual relations with him.

After Ruben Vardanyan was appointed to a position in the so-called regime in Karabakh, he began gathering detachments consisting of mercenary fighters. Ruben Vardanyan also called officers from Armenia to serve in the army of the so-called regime for money. He paid those persons a salary of at least 700–2,000 US dollars. In addition to gathering mercenaries, Ruben Vardanyan formed local armed detachments in Karabakh consisting of volunteers. He personally organized weapons and financial assistance for those detachments. He studied the military specialties of persons who had recently returned from military service and recruited into the detachments those who were useful for his purposes. He mainly recruited into his voluntary mercenary detachments soldiers with military experience in the radio-technical field. Thus, Ruben Vardanyan created military detachments in two forms and supplied them with weapons and money: first, detachments consisting of mercenary professional soldiers; second, mercenary non-professional local self-defense detachments consisting of volunteers. In addition, Ruben Vardanyan personally participated in conducting trainings for detachments made up of youths, and military trainings were conducted for them, including fire training and physical training, connected with Armenian nationalism and instilling hatred toward Azerbaijan

Page 369

In addition, after Ruben Vardanyan came to Khankendi, as a result of his financing, mining works began to be carried out along the borders of the territories returned by Azerbaijan during the 44-day Patriotic War, that is, in the territory of Karabakh. Those mines were brought from Armenia to Karabakh through the Lachin corridor. Armenians living in Khankendi also knew that mining work in the territory of Karabakh had expanded significantly after Ruben Vardanyan came. Posters concerning those mines were placed in schools, around buildings, in forests, and near vacant areas; before the 44-day Patriotic War, no posters concerning mines had been placed.

In addition, as a result of Ruben Vardanyan's financing, 3 military warehouses were organized around Khankendi. In those warehouses, servicemen who had come from Armenia and were kept by him for payment, and servicemen selected from Karabakh, operated. A large quantity of weapons and combat ammunition, as well as unmanned quadcopters and other unmanned aerial vehicles brought to Karabakh by Ruben, were gathered in the warehouses. Many people in Khankendi knew about this, and Ruben Vardanyan promoted that all Karabakh residents should arm themselves and fight against Azerbaijanis. The purpose of Ruben in creating these armed detachments was to fight against Azerbaijan.

Regarding the contradictions in his testimony, witness Kamo Eduardovich Hayrapetyan stated that he confirmed the testimony he had given during the preliminary investigation. There were weapons in the military warehouses organized as a result of Ruben Vardanyan's financing.

Mushegh Gurgenovich Grigoryan, examined in court as a witness, stated in his testimony that the Karabakh Armenians once asked him to look into Ruben Vardanyan's eyes and say, "we are pleased with you," and he looked at him and said those words. Not understanding Ruben Vardanyan, he asked him: "If you are doing good for your people, why are you buying weapons? Why are you burying mines? Why are you creating camps for holding military trainings of armed detachments?" He had not only seen Ruben Vardanyan on television; besides him, he had also seen Bako Sahakyan, Arayik Harutyunyan, and others, and stated that Zori Balayan, Arayik Harutyunyan, and others organized rallies, that now that Armenian nation was dying of hunger in Yerevan, and that the Armenian people were not important to Ruben Vardanyan, Arayik Harutyunyan, and others. He learned that Ruben Vardanyan had everything — petrol stations, pawnshops, and other commercial facilities — and, addressing Ruben Vardanyan, stated: "Mr. Vardanyan, we do not need your money. What business do you have with these two people? We will live hungry on our own lands. I have much more to say."

He paid 1,000–2,000 US dollars to those who went to battles, and the vehicles going to the battles passed in front of his shop. He had been once in the training camp; there was a bathhouse, a sports ground, and a canteen there. As far as he knew, mercenary detachments went and stood at posts, and for that reason they were paid money. He had heard about mining of territories in Karabakh, but had not seen it.

Since there was a contradiction between the testimony given by witness **Mushegh Gurgenovich Grigoryan** in court and the testimony he had given during the preliminary investigation, his testimony from the preliminary investigation was read out in court. In that testimony, he stated that he had been born in 1961 in Khankendi city. In 1979, he completed the secondary school of Ballica village, Khojaly District. In 1982, he completed the agricultural technical school located in Khankendi city. In 1986, he completed the Pedagogical Institute located in Khankendi city.

In the testimony he gave to the investigation concerning the circumstances of the case, witness Mushegh Grigoryan noted that, like many Karabakh residents, he knew the accused Ruben Vardanyan well. He stated that Ruben Vardanyan came to Karabakh after the end of the 44-day Patriotic War. Before Ruben came to Karabakh, the issue of integration with Azerbaijan had spread among the Karabakh Armenians, and everyone was trying to establish relations with Azerbaijan. Many voiced thoughts about living within Azerbaijan and obtaining citizenship. In September 2022, Ruben Vardanyan came to Khankendi. In November, he was appointed state minister. After that, everything began to take on a hostile position. Ruben Vardanyan began propaganda against Azerbaijan in Khankendi. After Ruben Vardanyan's arrival, hostile tendencies against Azerbaijan

intensified among the Karabakh Armenians. Ruben Vardanyan tried to make the Karabakh Armenians hate Azerbaijanis, to increase their desire to kill Azerbaijanis, and to make

Armenians arm themselves again and fight against Azerbaijanis. In addition, among the Karabakh Armenians, under the guise of assistance, Ruben Vardanyan gathered around himself women who were family members of Armenian fighters who had died in the 44-day Patriotic War. He then drew those women to himself and forced them in various ways to have sexual relations with him.

After Ruben Vardanyan was appointed to a position in the so-called regime in Karabakh, he began gathering detachments consisting of mercenary fighters. Ruben Vardanyan called officers from Armenia as well to serve in the army of the so-called regime for money. Armenians living in Khankendi learned that the main purpose of sending Ruben Vardanyan there was to gather in one place the money sent from various parts of the world to Karabakh for Armenians and direct it toward the purchase of weapons and ammunition. Ruben Vardanyan paid the servicemen he hired a salary of at least 700–2,000 US dollars. In addition to gathering mercenaries, Ruben Vardanyan formed local armed detachments in Karabakh consisting of young volunteers. He personally organized weapons and financial assistance for those detachments. He studied the military specialties of persons who had recently returned from military service and recruited into the detachments those who were useful for his purposes. He mainly recruited into his voluntary mercenary detachments soldiers with military experience in the radio-technical field.

For that purpose, Ruben Vardanyan had a military training camp organized in the territory of a former camp affiliated with the Sports Tourism Federation, near Badara village, Khojaly District, in a mountainous and forested area by a river, and mainly organized military trainings for youths who had recently returned from military service, students, and senior school pupils. Video footage reflecting those trainings was even spread among the population. Entry of outsiders into the area where military training was held was prohibited.

Thus, Ruben Vardanyan created military detachments in two forms and supplied them with weapons and money: first, detachments consisting of mercenary professional soldiers; second, mercenary non-professional local self-defense detachments consisting of volunteers. In addition, Ruben Vardanyan personally participated in conducting trainings for detachments made up of youths, and military trainings were conducted for them, including fire training and physical training, connected with Armenian nationalism and instilling hatred toward Azerbaijan.

In addition, after Ruben Vardanyan came to Khankendi, as a result of Ruben's financing, mining work began to be carried out along the borders of the territories returned by Azerbaijan during the 44-day Patriotic War, that is, in the territory of Karabakh. Those mines were brought from Armenia to Karabakh through the Lachin corridor. Armenians living in Khankendi knew that mining work in the territory of Karabakh had expanded significantly after Ruben Vardanyan came.

In addition, as a result of Ruben Vardanyan's financing, 2 or 3 military warehouses were organized around Khankendi. In those warehouses, servicemen who had come from Armenia and were kept by him for payment, and servicemen selected from Karabakh, operated. A

large quantity of weapons and combat ammunition, as well as unmanned quadcopters and other unmanned aerial vehicles brought to Karabakh by Ruben, were placed in the warehouses. Many people in Khankendi knew about this, and Ruben Vardanyan promoted that all Karabakh residents should arm themselves and fight against Azerbaijanis. One of the military warehouses was at that time located near the Karabakh security agency. The other was located near the area that had previously been a lamp factory. The purpose of Ruben Vardanyan in creating these armed detachments was to fight against Azerbaijan.

Page 371

The expert opinions obtained during the preliminary investigation were examined in court.

In the concluding part of expert opinion No. 3-16-16/2-4/4-4/35-4/36, issued on 15 March 2024 by experts of the Forensic Examination Center of the Ministry of Justice of the Republic of Azerbaijan, the following was stated:

1. "The content of the disputed video-phonogram conversations contained on the 2 CD discs submitted for expert examination consists of the written texts given in the research section.
2. The voice and speech of the speaker marked as "K1" in the written texts, given in the research section, of the disputed phonograms contained on the 8 white CD discs submitted for expert examination belong to Vardanyan Ruben Karlenovich.

3. The disputed video-phonograms contained on the 8 submitted CDs are identical to the video-phonograms of the same name on internet resources in terms of the images in the frames, the content of the speech, and duration. That is, no signs were identified in the disputed video-phonograms of any intra-frame or inter-frame montage, or synthesis of the audio stream, after they had been obtained from internet resources.

4. In the content of the Russian-language speeches by Vardanyan Ruben Karlenovich submitted for expert examination, namely:

the video titled 'Zayavlenie Rubena Vardanyana o pereezde v Artsax i o sozdanii fronta bezopasnosti i razvitiya', lasting 06 minutes 04 seconds, published on 1 September 2022 on the Ruben Vardanyan channel on the YouTube portal;

4.1. the video titled 'Kommentarii qosministra Artsaxa po tekusjey situatsii', presented as the 'RTVI' programme, lasting 06 minutes 30 seconds, published on 14 December 2022 on the Ruben Vardanyan channel on the YouTube portal;

4.2. the video titled 'Vazhno vozrozhdat uvazhenie k svoim kornyam, traditsiyam | osobenno k obetam kak k svyatoy obyazannosti', lasting 04 minutes 50 seconds, published on 15 April 2023 on the Ruben Vardanyan channel on the YouTube portal;

4.3. the video titled ‘Ni v kakom formate ne vizhu Artsax v sostave Azerbaydzhana’, presented as ‘Noyan Tapan na russkom’, lasting 28 minutes 47 seconds, published on 15 June 2023 on the Ruben Vardanyan channel on the YouTube portal;

4.4. the video titled ‘Jit’ ryadom, no ne vmeste’, presented as ‘The Bell’, lasting 25 minutes 52 seconds, published on 28 June 2023 on the Ruben Vardanyan channel on the YouTube portal;

4.5. the video titled ‘Ruben Vardanyan o problemax v Artsaxe, o borbe | o vyskazyvaniyax vlastey Armenii’, presented as ‘24 News’, lasting 34 minutes 52 seconds, published on 11 August 2023 on the Ruben Vardanyan channel on the YouTube portal;

4.6. the video titled ‘Ruben Vardanyan dlya RTVI ob otstavke prezidenta Artsaxa | tekushchey situatsii (01.09.2023) (ARM, ENG sub)’, presented as ‘RTVI’, lasting 09 minutes 01 seconds, published on 2 September 2023 on the Ruben Vardanyan channel on the YouTube portal;

4.7. and the video titled ‘Ruben Vardanyan o nachatoy Azerbaydzhanom voyne v Nagornom-Karabakhe’, lasting 08 minutes 22 seconds, published on 19 September 2023 on the Ruben Vardanyan channel on the YouTube portal —

there are, in the content of those speeches, as well as in the writings displayed in the video posts and in the titles of the video posts, signs of making open calls directed at violating public security, creating panic among the population, forcibly seizing power, forcibly retaining power, forcibly changing the constitutional order of the Republic of Azerbaijan, or dividing its territorial integrity, as well as—

Page 372

—making open calls directed at committing mass riots accompanied by active disobedience to the lawful demands of representatives of authority and by violence; disseminating materials of such content; and committing acts aimed at inciting national and social hatred and enmity, degrading national dignity, and restricting citizens’ rights or establishing privileges depending on national and social affiliation.”

In the concluding part of expert opinion No. 3-16-16/2-3/1695, 3/1696, dated 6 November 2023, issued by experts of the Forensic Examination Center of the Ministry of Justice of the Republic of Azerbaijan, it was stated that the 7 grenade bodies submitted for examination were factory-made body parts of fragmentation F-1 hand grenades, and that the 7 fuzes submitted were UZRGM and UZRGM-2 grenade fuzes, assembled on different dates and factory-made, intended for use in detonating F-1, RGD-5, and RG-42 fragmentation hand grenades. When those UZRGM and UZRGM-2 fuzes, which constitute component parts, are attached to the said grenade bodies, they form F-1 fragmentation hand grenades, which are considered ammunition.

The 1,257 cartridges submitted for examination were factory-produced, centerfire-primer cartridges of 7.62 mm caliber, model 1943, intended for use in rifled combat firearms of the same caliber, including Kalashnikov AK-type automatic weapons — AKM, AKS, AKMS — RPK and RPKS light machine guns, SKS carbines, and other such weapons; they are ammunition and are suitable for firing. Of these, 40 were tracer bullets.

The 3 magazines submitted for examination were factory-made magazines for Kalashnikov AK-type automatic weapons — AKM, AKS, AKMS — forming non-functional component parts, with a capacity of 30 cartridges of 7.62x39 mm caliber, and they were suitable for use according to their intended purpose.

The 448 cartridges submitted for examination were factory-produced, centerfire-primer cartridges of 5.45x39 mm caliber, intended for use in rifled combat firearms of the same caliber, including Kalashnikov AK-74-type automatic weapons — AKS-74, AKS-74U — RPK-74 and RPKS-74 light machine guns, and other such weapons; they are ammunition and are suitable for firing.

In the concluding part of expert opinion No. 4/1858, issued on 23 January 2023 by experts of the Forensic Examination Center of the Ministry of Justice of the Republic of Azerbaijan, the following was stated:

"1. In the articles, interviews, documents, and speeches contained in video posts submitted for expert examination, as well as in the writings displayed in the video posts and in the titles of the video posts, there are signs of open calls directed at inciting national enmity between the Azerbaijani and Armenian peoples, terrorism, violating public security, creating panic among the population, forcibly seizing power, forcibly retaining power, forcibly changing the constitutional order of the Republic of Azerbaijan, dividing the territorial integrity of the Republic of Azerbaijan, and also presenting the so-called entity called 'Artsakh' in the Karabakh region of the Republic of Azerbaijan as an independent state and creating there armed formations and groups not provided for by the legislation of the Republic of Azerbaijan, as well as signs of disseminating materials of such content.

The open calls and dissemination of materials of such content were expressed by such units as: 'we must begin to act decisively; our neighbours are taking an aggressive position toward us,' 'our neighbour has not been satisfied with its victory and sooner or later will continue aggression,'—

Page 373

—'after this we must simply begin to act decisively so that the prospect of losing Artsakh and, together with it, Armenia does not become reality,' 'we will make the aggression that may occur against us as difficult as possible, even impossible,' 'Artsakh's right to self-determination, the right of Artsakh Armenians to make decisions in their own interests, is not only a matter for Armenia and Artsakh, it is a matter for the entire nation,' 'We must be strong and closely united so that they cannot resolve issues unacceptable to us,' 'Artsakh

needs many people who can act as soldiers in the squares…,' 'it is better to be in one's homeland and fight for the homeland than to live as an internally displaced person…,' and so on.

- The indicated open calls and dissemination of materials of such content were carried out by Vardanyan Ruben Karlenovich, born on 25 May 1968 in Yerevan, Republic of Armenia, and a citizen of both the Republic of Armenia and the Russian Federation."

In the concluding part of expert opinion No. 3-16-16/2-4/717-4/730, issued on 26 November 2024 by experts of the Forensic Examination Center of the Ministry of Justice of the Republic of Azerbaijan, the following was stated:

"1a. The content of the conversations in the disputed video-phonograms contained on the 2 white CD-R discs submitted for expert examination consists of the written texts given in the research section.

1b. The voice and speech of the speaker marked as "K1" in the written texts, given in the research section, of the disputed video-phonograms contained on the 2 white CD-R discs submitted for expert examination belong to one and the same person — Vardanyan Ruben Karlenovich.

- In the speeches made by Ruben Vardanyan in posts on the YouTube video-hosting platform, open calls to terrorism were identified.

- In the speeches contained in those video files, there are threats to commit explosions, arson, or other such acts creating a danger of death of people, harm to their health, significant property damage, or other socially dangerous consequences, for the purpose of violating public security, creating panic among the population, or influencing decision-making by state authorities or international organizations.

- In the indicated video files, there are calls for active disobedience to the lawful demands of a representative of authority and for mass riots, as well as for violence against citizens.

- In those video files, there are open calls directed at forcibly seizing power, forcibly retaining power, forcibly changing the constitutional order of the Republic of Azerbaijan, or dividing its territorial integrity. Thus, in his speeches, R. Vardanyan expressed that he would never recognize Nagorno-Karabakh, which he called 'Artsakh,' as the territory of Azerbaijan; that there was no 'Armenia without Artsakh, Artsakh without Armenia'; that he would do everything for 'Artsakh' to be safe, happy, Armenian, and free; that 'Artsakh' was an Armenian root; that it was necessary to prepare for a new war; that nothing was over; and that it was necessary to

go to the end.

- In the indicated video files, acts were committed that were openly aimed at inciting national hatred and enmity, degrading national dignity, and restricting citizens' rights or establishing privileges depending on their national affiliation."

In the concluding part of expert opinion No. 3-16-16/2-3/1742, issued on 22 November 2024 by experts of the Forensic Examination Center of the Ministry of Justice of the Republic of Azerbaijan, the following was stated: in the photographs taken from images titled "TXXS0831" submitted for examination, and in the photographs taken from the video image titled "WhatsApp Video 2024-10-30 at 16.07.55" submitted as comparative material—

Page 374

—the same person was reflected. That is, according to the expert opinion, that person is the accused Ruben Vardanyan.

In the concluding part of expert opinion No. 3-16-16/2-4/703-4/712, issued on 26 November 2024 by experts of the Forensic Examination Center of the Ministry of Justice of the Republic of Azerbaijan, the following was stated:

"1a. The content of the conversations in the disputed video-phonograms contained on the 2 white CD-R discs submitted for expert examination consists of the written texts given in the research section.

1b. The voice and speech of the speaker marked as "K1" in the written texts, given in the research section, of the disputed video-phonograms contained on the 2 white CD-R discs submitted for expert examination belong to one and the same person — Vardanyan Ruben Karlenovich.

2. In the speeches made by Ruben Vardanyan in posts on the YouTube video-hosting platform, open calls to terrorism were identified.

3. In the speeches contained in those video files, there are threats to commit explosions, arson, or other such acts creating a danger of death of people, harm to their health, significant property damage, or other socially dangerous consequences, for the purpose of violating public security, creating panic among the population, or influencing decision-making by state authorities or international organizations.

4. In the indicated video files, there are calls for active disobedience to the lawful demands of a representative of authority and for mass riots, as well as for violence against citizens.

5. In those video files, there are open calls directed at forcibly seizing power, forcibly retaining power, forcibly changing the constitutional order of the Republic of Azerbaijan, or dividing its territorial integrity. Thus, in his speeches, R. Vardanyan expressed that he would never recognize Nagorno-Karabakh, which he called ‘Artsakh,’ as the territory of Azerbaijan; that there was no ‘Armenia without Artsakh, Artsakh without Armenia’; that he would do everything for ‘Artsakh’ to be safe, happy, Armenian, and free; that ‘Artsakh’ was an Armenian root; that it was necessary to prepare for a new war; that nothing was over; and that it was necessary to go to the end.

6. In the indicated video files, acts were committed that were openly aimed at inciting national hatred and enmity, degrading national dignity, and restricting citizens’ rights or establishing privileges depending on their national affiliation.”

According to forensic medical expert report No. 01/21 dated 1 January 2021, the injuries found on the body of **Zabil Gabil oglu Babayev** — combined blunt trauma of the head, torso, and limbs; numerous contused-lacerated wounds and abrasions of the forehead, chest, both upper and lower limbs, and testicles, accompanied by tissue defects; traumatic amputation of both lower legs at the lower one-third; and venous congestion of the internal organs — were identified. The cause of his death was acute blood loss and severe traumatic shock. The indicated injuries were caused by the impact of metal fragments scattered as a result of a mine explosion and are classified as serious harm to health and dangerous to life.

According to forensic medical expert report No. 02/21 dated 2 February 2021, the injuries found on the body of **Bahruz Telman oglu Imanov** — combined blunt trauma of the head, torso, and limbs; contused-lacerated wounds of the cheek, neck, posterior surface of the right elbow joint, anterior abdominal wall, and both lower limbs; crushing and destruction of the left eyeball; traumatic amputation of the left lower leg at the upper one-third; closed fracture with displacement of fragments of the middle one-third of the right lower-leg bones; numerous abrasions of the left and right thigh areas; and anemia of the internal organs — were identified. The cause of his death was acute blood loss and severe traumatic shock. The indicated injuries were caused as a result of a mine explosion—

—as a result of a mine explosion and the impact of metal fragments scattered around, and, by degree, are classified as serious harm to health and dangerous to life.

According to forensic medical expert report No. 303/22 dated 23 August 2022, **Azad Aydin oglu Mukhtarov** was found to have multiple fractures of the left orbital bones — the projections of the maxillary, zygomatic, and frontal bones forming the eye socket — multiple shrapnel wounds of the face and left auricle, loss of vision in the left eye — visual acuity 0.02 — and reduced vision in the right eye — visual acuity 0.3. The indicated injuries could have been caused by the impact of metal fragments scattered during a mine explosion and, by

degree, because they resulted in loss of vision in the left eye, are classified as serious harm to health.

According to forensic medical expert report No. 304/22 dated 23 August 2022, **Rafis Mahaddin oglu Mamishov** was found to have multiple fractures of the left orbital bones and multiple shrapnel wounds of the face and head. The indicated injuries could have been caused by the impact of metal fragments scattered during a mine explosion and, by degree, are classified as less serious harm to health, causing long-term impairment of health.

According to forensic medical expert report No. 14/21 dated 8 July 2021, the injuries found on the body of **Nuru Aslan oglu Nuruyev** were traumatic amputation of the lower one-third of the left lower leg, numerous contusions and abrasions of the body surface, and venous anemia of the internal organs. The cause of his death was acute blood loss and severe traumatic shock. The indicated injuries were caused by the impact of numerous metal fragments scattered as a result of a mine explosion and, by degree, are classified as serious harm to health and dangerous to life.

According to forensic medical expert report No. 240/21 dated 3 August 2021, **Elnur Aydin oglu Hashimov** was found to have traumatic amputation of the lower one-third of the left lower leg, and abrasion wounds of the left upper limb and right lower leg. The indicated injuries were caused by the impact of metal fragments scattered as a result of a mine explosion and, by degree, because they resulted in permanent loss of more than one-third of general working capacity, are classified as serious harm to health.

According to forensic medical expert report No. 23/22 dated 30 September 2022, the injuries found on the body of **Amid Fatulla oglu Asadov** were combined blunt trauma of the head, chest, abdomen, and limbs incompatible with life; brain contusion; hemorrhage into the cerebral membranes and ventricles; traumatic loss of the frontal and facial skeletal bones and both eyeballs; amputation of the left lower limb at the hip joint level; contused-lacerated wounds of the cheek, chest, groin areas, and external genital organs; lung ruptures; bilateral hemothorax — accumulation of blood in the pleural cavities, 2,000–2,500 ml — and venous anemia of the internal organs. The cause of his death was severe traumatic shock and acute blood loss caused by multiple injuries incompatible with life — to the head, chest, abdomen, and limbs. The injuries were caused by the impact of numerous metal fragments scattered as a result of a mine explosion and, by degree, are classified as serious harm to health and dangerous to life.

According to forensic medical expert report No. 24/22 dated 30 September 2022, the injuries found on the body of **Cherkaz Bahadir oglu Guliyev** were combined blunt trauma of the head, chest, abdomen, and limbs incompatible with life; multiple open fractures of the cranial vault and base bones, comminuted and with displaced fragments; crushing and destruction of brain tissue; open fractures of the facial skeletal bones and of both upper and lower limbs, comminuted and with displaced fragments; numerous contused wounds of the body surface; and venous anemia of the internal organs. The cause of his death was severe

traumatic shock and crushing and destruction of brain tissue caused by multiple injuries of the body incompatible with life — to the head, chest, abdomen, and limbs.

Page 376

The indicated injuries were caused by the impact of metal fragments scattered as a result of blast trauma and, by degree, are classified as serious harm to health, dangerous to life and resulting in death.

According to forensic medical expert report No. 13/23 dated 1 May 2023, the injuries found on the body of **Ogtay Bayram oglu Alishov** were traumatic amputation of the upper one-third of the right thigh and of the left lower limb at the level of the ankle joint; multiple open comminuted fractures of the right thigh and left lower-leg bones; numerous contused wounds of the face; abrasion of the left thigh area; and venous anemia of the internal organs. The cause of his death was acute blood loss and severe traumatic shock. The indicated injuries were caused by the impact of numerous metal fragments scattered as a result of blast trauma and, by degree, have the signs of serious harm to health dangerous to life and resulting in death.

According to forensic medical expert report No. 249/21 dated 9 August 2021, **Elshan Eyvaz oglu Khalilov** was found to have numerous shrapnel wounds of the body surface, including numerous shrapnel wounds of the left side of the chest penetrating into the pleural cavity and complicated by hemopneumothorax — accumulation of blood and air in the chest cavity. The indicated injuries were caused by the impact of numerous fragments scattered during an explosion and, by degree, are classified as serious harm to health dangerous to life.

According to forensic medical expert report No. 91/22 dated 4 April 2022, **Vugar Natiq oglu Zulfigarli** was found to have a comminuted, displaced fracture of the left calcaneus; closed displaced fractures of the navicular and cuboid bones; an anteriorly displaced compression fracture of the body of the 1.2, the second lumbar vertebra; and a displaced fracture of the sacral bone extending to the coccygeal vertebra. The indicated injuries could have been caused by the impact of fragments scattered during a mine explosion and, by degree, are classified as serious harm to health and dangerous to life.

According to forensic medical expert report No. 215/22 dated 20 June 2022, **Khayal Bakhtiyar oglu Abdullayev** was found to have an open comminuted fracture of the distal phalanx of the 5th finger of the left hand, rupture of the dorsal artery of the right foot, and multiple wounds of the lower limbs. The indicated injuries could have been caused by the impact of metal fragments scattered during a mine explosion and, by degree, are classified as less serious harm to health, causing long-term impairment of health.

According to forensic medical expert report No. 305/22 dated 24 August 2022, **Ilham Bakhtiyar oglu Salmanov** was found to have an open wound along the medial surface of the left thigh and lower leg, and traumatic amputation of the right lower leg at the level of the middle one-third. The indicated injuries could have been caused by the impact of metal

fragments scattered during a mine explosion and, by degree, because they resulted in permanent loss of more than one-third of general working capacity, are classified as serious harm to health.

According to forensic medical expert report No. 838 dated 19 August 2022, the injury found on **Gilman Nidayat oglu Huseynov** — traumatic amputation of the right lower leg at the level of the lower one-third — was caused by the impact of the blast wave and fragments resulting from the explosion of a substance with explosive properties. By degree, it is classified as serious harm to health, causing significant permanent loss of general working capacity by less than one-half — 50%.

According to forensic medical expert report No. 820 dated 15 August 2022, the injuries found on **Yadigar Dilavar oglu Shukurov** — sensorineural severe hearing impairment accompanied by neurotic reaction to severe stress, moderate-severe on the right, total deafness in the left ear, and a chopped wound of the left half of the chest — were caused by the impact of a blast wave resulting from the explosion of a substance with explosive properties.

Page 377

By degree, they are classified as less serious harm to health, causing loss of less than one-third of general working capacity.

According to forensic medical expert report No. 821 dated 15 August 2022, the injuries found on **Rovshan Ruslan oglu Alizade** — chopped wounds of the right upper limb and right half of the abdomen, neurotic reaction to severe stress, and traumatic erosion of the cornea of the right eye — were caused by the impact of fragments and the blast wave resulting from the explosion of a substance with explosive properties. By degree, taken together, they are classified as minor harm to health, causing short-term impairment of health.

According to forensic medical expert report No. 917 dated 27 December 2023, the injuries found on **Zamin Zahir oglu Hatamli** — a wound in the area of the medial malleolus of the left foot, wounds on the posterior surface of the elbow joint accompanied by damage to the left ulnar nerve, and displaced, multi-fragment open fractures of the left calcaneus — were caused under various circumstances, including by the impact of metal fragments scattered as a result of a mine explosion, and, by degree, are classified as less serious harm to health, causing long-term impairment of health.

According to forensic medical expert report No. 07/21 dated 7 February 2021, during examination of the body of **Mehman Allahverdi oglu Guliyev**, the following injuries were found: combined blunt trauma of the head, torso, and limbs; contused-lacerated wounds of the cheek, neck, torso, and upper limbs; multiple open fractures of the facial skeletal bones, with displaced fragments; traumatic amputation of the right forearm at the level of the middle one-third; open fracture of the lower one-third of the left humerus, with displaced fragments; traumatic amputation of the 2nd finger of the left hand at the level of the proximal phalanx;

multiple open fractures of the pelvic bones, comminuted and with displaced fragments; numerous abrasions of the neck and chest areas; and anemia of the internal organs. The cause of death of Mehman Allahverdi oglu Guliyev was acute blood loss and severe traumatic shock.

Because the bodies of the victims had been fragmented by the blast wave and numerous fragments, with only certain fragments remaining, they were in an unrecognizable condition. For that reason, samples from human body fragments were taken from the scene for genetic expert examination, as well as samples from the blood relatives of the victims for comparative research.

According to the concluding part of genetic expert report No. 21/202R dated 14 March 2021 of the Criminalistics Research Department of the Ministry of Internal Affairs, the 2 thigh-bone fragments taken from the scene belonged to the biological father of Mobil Ilgar oglu Huseynov and Samad Ilgar oglu Ahmadov.

The 1 other thigh-bone fragment and 1 radius-bone fragment taken from the scene belonged to the biological child of Allahverdi Gurban oglu Guliyev.

The 1 humerus-bone fragment taken from the scene belonged to the biological father of Zeynab Mustagim gizi Alasgarova.

According to forensic medical expert report No. 256/MESh dated 17 November 2020, Telman Babir oglu Zeynalov was found to have traumatic amputation of the left lower leg at the level of the upper one-third, minimally displaced fracture of the typical site of the right radius bone, superficial wounds of the posterior surface of the right thigh and lower leg, and abrasions of the forehead and right cheek. The indicated injuries were caused by the impact of fragments during a mine explosion and, by degree, are classified as serious harm to health dangerous to life.

According to forensic medical expert report No. 103/21 dated 17 March 2021, **Guloghlan Imran oglu Mirzaliyev** was found to have a closed intra-articular fracture of the distal end of the left tibia, with displaced fragments. The indicated injury could have been caused by falling as a result of the impact of the blast wave during a mine explosion—

Page 378

—and, by degree, is classified as less serious harm to health, causing long-term impairment of health.

According to forensic medical expert report No. 521/21 dated 27 July 2021, it was established that **Bahruz Tapdiq oglu Nasirov** had numerous contused wounds in the cheek and right lower-leg areas, and barotrauma. The indicated injuries could have been caused by the impact of fragments scattered during a mine explosion. By degree, they are classified as minor harm to health, causing short-term impairment of health.

According to forensic medical expert report No. 579 dated 14 August 2021, it was established that Elnur Raftar oglu Abbaszade had a through-and-through wound on the anterior-medial surface of the upper one-third of the right lower leg, and an abrasion on the inner surface of the heel area of the right foot, caused by the impact of fragments during blast trauma. The indicated injuries, by degree, are classified as minor harm to health, causing short-term impairment of health.

According to forensic medical expert report No. 769/21 dated 8 November 2021, it was established that **Khanlar Fazil oglu Aslanov** had traumatic amputation of the lower one-third of the left thigh, accompanied by traumatic-hemorrhagic shock, and abrasions of the left forearm and right hand. The injuries could have occurred as a result of a mine explosion. The indicated injuries resulted in permanent loss of more than one-third of general working capacity — 60% — and are classified as serious harm to health.

According to forensic medical expert report No. 812/21 dated 29 November 2021, **Natiq Vali oglu Mamedov** had traumatic amputation of the lower one-third of the right lower leg, accompanied by traumatic-hemorrhagic shock. The indicated injury could have been caused by the impact of metal fragments scattered as a result of the mine explosion that occurred and, because it resulted in permanent loss of more than one-third of general working capacity, is classified as serious harm to health.

According to forensic medical expert report No. 360 dated 28 March 2022, the injuries found on the body of Safar Ahliman oglu Aliyev — mine-blast trauma, a contused-torn-lacerated wound resulting in amputation of the right lower limb from the lower one-third of the lower leg, accompanied by fractures of the lower-leg and foot bones and an extensive skin-muscle defect; numerous thermal and contused-torn-lacerated shrapnel wounds of the left upper arm, left elbow-joint area, both forearms, both hands, the anterior surface of the chest, both thighs, and the left lower leg — were caused by the blunt and thermal impact of fragments as a result of a mine explosion. The indicated injuries, by degree, are classified as serious harm to health, causing permanent loss of not less than one-third of general working capacity — 50%.

According to forensic medical expert report No. 230/22 dated 3 July 2022, Mahir Husamaddin oglu Mustafayev was found to have closed craniocerebral trauma in the form of brain concussion; first- and second-degree thermal burns and numerous shrapnel wounds of the face, left upper limb, left half of the chest, and left scapular area; barotrauma; and erosion of the cornea of the left eye. The indicated injuries were caused by the impact of numerous metal fragments scattered during a mine explosion and by flame arising from the explosion, and, by degree, are classified as minor harm to health, causing short-term impairment of health.

According to forensic medical expert report No. 450 dated 28 July 2022, the closed craniocerebral trauma in the form of brain concussion found on Samir Arif oglu Gozalov was caused by the impact of the blast wave as a result of a mine explosion and, by degree, is classified as minor harm to health, causing short-term impairment of health.

According to forensic medical expert report No. 448 dated 15 July 2022, Gahraman Bilal oglu Rzayev was found to have closed—

Page 379

—closed craniocerebral trauma found on **Gahraman Bilal oglu Rzayev** was caused by the impact of the blast wave as a result of a mine explosion and, by degree, is classified as minor harm to health, causing short-term impairment of health.

According to forensic medical expert report No. 449 dated 15 July 2022, the injuries found on **Alasgar Asif oglu Guliyev** — closed craniocerebral trauma in the form of brain concussion, closed blunt trauma of the chest and abdomen, and contusion of the soft tissues — were caused by the impact of the blast wave as a result of a mine explosion and, by degree, are classified as minor harm to health, causing short-term impairment of health.

According to forensic medical expert report No. 451 dated 15 July 2022, the injuries found on **Gismet Rasim oglu Nasirov** — closed craniocerebral trauma in the form of brain concussion and contusion of the soft tissues — were caused by the impact of the blast wave as a result of a mine explosion and, by degree, are classified as minor harm to health, causing short-term impairment of health.

According to forensic medical expert report No. 452 dated 15 July 2022, the injuries found on **Farid Zakir oglu Jabrayilli** — closed craniocerebral trauma in the form of brain concussion and contusion of the soft tissues — were caused by the impact of the blast wave as a result of a mine explosion and, by degree, are classified as minor harm to health, causing short-term impairment of health.

According to forensic medical expert report No. 336/MESh dated 28 July 2022, **Ruhin Sultan oglu Valiyev** was found to have numerous shrapnel wounds on the inner surface of the right thigh and lower leg, the anterior-inner surface of the left lower leg, and a shrapnel wound accompanied by post-traumatic amputation of the lower one-third of the left lower leg and formation of a stump. The indicated injuries were caused by the impact of fragments formed as a result of a mine explosion and, by degree, because they resulted in permanent loss of not more than one-third of general working capacity — 50% — are classified as serious harm to health.

According to forensic medical expert report No. 453 dated 30 June 2022, the wounds found on **Ali Shirali oglu Shukurov** — on the outer surface of the middle one-third and the outer and anterior surfaces of the upper one-third of the left lower leg, on the anterior surface of the middle-upper one-third of the right lower leg, and on the posterior surface of the middle one-third of the left thigh, as well as a bruise in the outer ankle area of the left foot — could have been caused by the impact of metal fragments scattered during a mine explosion and, by degree, are classified as minor harm to health, causing short-term impairment of health.

According to forensic medical expert report No. 351/MESh dated 29 July 2022, Shamil Farahim oglu Mammadov was found to have traumatic amputation of the lower one-third of the left lower leg, a closed displaced intra-articular fracture of the lower one-third of the bones of the right lower leg, and numerous wounds of the foot. The indicated injuries could have occurred as a result of a mine explosion. By degree, because the stump after amputation of the left lower limb at the level of the lower one-third of the lower leg resulted in permanent loss of more than one-third of general working capacity — 50% — they are classified as serious harm to health.

According to forensic medical expert report No. 860 dated 23 November 2022, it was established that the traumatic separation of the 1st, 2nd, and 3rd fingers of the left hand found on Ilgar **Heybat oglu Ahmadov** was caused by the impact of metal fragments separated as a result of a mine explosion; it resulted in permanent loss of more than one-third of general working capacity — 45% — and, on that basis, is classified as serious harm to health.

According to forensic medical expert report No. 798 dated 25 October 2023, **Habib Teymur oglu Gasimov** was found to have wounds on the palmar surface of the left hand and the right eye, a wound on the upper eyelid of the right eye, burn wounds in the forehead area, on the left half of the face, and on the palmar surface of the left hand, and traumatic rupture of the tympanic membrane in the left ear. These could have occurred under various circumstances, including as a result of a projectile explosion, and, by degree, are classified as less serious harm to health, causing long-term impairment of health.

Page 380

According to forensic medical expert report No. 428 dated 23 April 2022, it was established that the injuries found on **Beybala Jabrayil oglu Nasibov** — traumatic amputation of the left lower limb at the level of the ankle joint, blind shrapnel wounds of various areas of the left lower leg, right upper limb, and right thigh — were caused by the impact of the blast wave and primary fragments as a result of the explosion of some explosive device and, by degree, are classified as serious harm to health, connected with permanent loss of not less than one-third of general working capacity.

According to forensic medical expert report No. 810 dated 2 August 2022, the injuries found on the body of **Surat Musakhan oglu Aghamaliyev** — burn wounds of the posterior surface of the middle and upper one-thirds of the right forearm, abrasion wounds of the anterior surfaces of both knee joints and both lower legs, and wounds of the sole of the right foot — were caused by the combined local and impact effect of high temperature and a hard blunt object or objects arising from the explosion of a substance with explosive properties. Since the indicated injuries, both separately and together, were injuries not causing harm to health, their degree was not determined.

According to forensic medical expert report No. 903 dated 30 August 2022, the injuries found on **Najmaddin Abdulla oglu Huseynov** — abrasion wounds of both facial areas and closed craniocerebral trauma — were caused by the combined impact of the blast wave and a hard

blunt object arising from the explosion of some substance with explosive properties, and, by degree, are classified overall as minor harm to health, causing short-term impairment of health.

According to forensic medical expert report No. 44/h dated 1 December 2020, the body of **Fakhraddin Yagub oglu Yagubov** had injuries consisting of open multi-fragment fractures of the cranial vault and facial skeletal bones; wounds on the anterior surface of the chest, right upper arm, right elbow joint, and right forearm accompanied by fragmentary fractures of the bones; traumatic amputation of the left upper limb at the elbow-joint level; traumatic amputation of the left lower limb at the thigh level and the right lower limb at the thigh level; and rupture of the right half of the scrotum. Those injuries were caused by the impact of a blast wave and fragments as a result of mine-blast trauma and, by degree, in living persons, are classified as serious harm to health and dangerous to life. The absence of the left auricle, with the site being smooth, gives grounds to state that the said auricle was cut off with an instrument or object with sharp properties; its timing corresponds to 22 November 2020 and it is considered disfiguring. The cause of his death was acute blood loss and traumatic shock resulting from the injuries.

According to forensic medical expert report No. 45/h dated 1 December 2020, the body of **Uzeyir Khalil oglu Gahramanov** had injuries consisting of mine-blast trauma, fragmentary fractures of the cranial vault and facial skeletal bones, destruction of brain tissue, numerous wounds and injuries of the torso and both upper and lower limbs, damage to internal organs, anemia of internal organs, and acute blood loss. Those injuries were caused by the impact of a blast wave and fragments as a result of mine-blast trauma. By degree, the injuries are classified as serious harm to health dangerous to life in living persons. The cause of his death was acute blood loss and traumatic shock resulting from the injuries.

According to forensic medical expert report No. 1088 dated 4 December 2020, the contused wounds in the occipital, parietal, and right-eye areas, and the bruises of the chest and left knee joint of **Vusal Zeyni oglu Suleymanov**, were caused by the impact of a hard blunt object on 22 November 2020. The indicated injuries are classified as minor harm to health, causing short-term impairment of health.

According to forensic medical expert report No. 1097 dated 9 December 2020, the firearm-shrapnel wound of the right upper eyelid accompanied by ptosis, and the firearm-shrapnel wounds of the right half of the face, right ear, both thighs, and right lower-leg area of Ramil Karam oglu Karamov—

—were inflicted by the impact of firearm fragments on 22 November 2020. The indicated injuries are classified as less serious harm to health, causing long-term impairment of health.

According to forensic medical expert report No. 09/22 dated 30 April 2022, the injuries found on the body of **Parvin Famil oglu Salahov** were traumatic amputation of the left foot;

numerous shrapnel wounds of various shapes and sizes, accompanied by extensive tissue defect, on the anterior-outer surface of the left lower leg and thigh, the left testicle, the abdomen, and the left upper limb; an open fragmented fracture of the left patella; and venous anemia of internal organs. The cause of his death was acute blood loss and severe traumatic shock. The indicated injuries were caused by the impact of numerous metal fragments scattered as a result of blast trauma and have the signs of serious harm to health dangerous to life and resulting in his death.

According to forensic medical expert report No. 396/22 dated 3 November 2022, the injuries found on **Sabuhi Telman oglu Hasanov** — a closed fracture, with displaced fragments, of the II, III, IV, and V metatarsal bones of the left foot, and contused wounds of the parietal area and left lower-leg area — were caused by the impact of a hard blunt object or objects and could have occurred as a result of the impact of metal fragments scattered during a mine explosion; by degree, they are classified as less serious harm to health, causing long-term impairment of health.

According to forensic medical expert report No. 26/22 dated 22 September 2022, the injuries found on the body of **Elsevar Sovet oglu Hamidov** — numerous contused wounds of the head, chest, abdomen, and limbs; numerous open fractures of the phalanges and metacarpal bones of both hands and of the right foot, comminuted and with displaced fragments; traumatic amputation of the left foot at the level of the metatarsal bones; and venous anemia of the internal organs — were caused by the impact of numerous metal fragments scattered as a result of blast trauma and, by degree, have the signs of serious harm to health dangerous to life and resulting in his death. The cause of his death was severe traumatic shock and massive blood loss caused by multiple injuries to the body — the head, chest, abdomen, and limbs.

According to forensic medical expert report No. 1097 dated 9 December 2020, the blast trauma found on **Mahir Ramiz oglu Abilov** — loss of the right foot as a result of amputation at the level of the ankle-calcaneal joint — was caused by the effect of an explosive firearm, namely by the impact of fragments as a result of an anti-personnel mine explosion. The timing of those injuries corresponds to 21 November 2021, and, by degree, they resulted in permanent loss of more than one-third of general working capacity — 40% — and, on that basis, are classified as serious harm to health.

According to forensic medical expert report No. 1089 dated 17 July 2023, the injuries found on **Sahib Isa oglu Aliyev** — traumatic amputation of the lower one-third of the right lower leg, and numerous shrapnel wounds of the left lower limb and face — were caused by the explosion of an explosive device. By degree of severity, the indicated injuries, taken together, are classified as serious harm to health, both dangerous to life and causing permanent loss of more than one-third of general working capacity.

According to forensic medical expert report No. 1601 dated 13 November 2023, the injuries found on **Gasim Sardar oglu Asgarov** — wounds of the left thigh and left lower-leg areas — were caused by the impact of a blunt object and could have occurred as a result of a mine

explosion. Since the indicated injuries did not cause harm to health, their degree was not determined.

According to forensic medical expert report No. 5 dated 15 July 2021, the injuries on the body of **Ramal Kamal oglu Ojagguliyev** — blast trauma, complete amputation from the area of the lower one-third of the left lower leg—

Page 382

—open fracture of the bones of the right lower leg, wound of the left thigh, numerous small wounds, bruising, and hematoma of the lower limbs, external bleeding, and traumatic shock — were caused by a mine explosion at close range. Of the injuries, complete amputation of the left lower leg, being life-threatening, is classified as serious harm to health; open fractures of the bones of the right lower leg, by degree, are classified as less serious harm to health, causing long-term impairment of health; the wound of the left thigh, by degree, is classified as minor harm to health, causing short-term impairment of health. Since the superficial wounds, bruise, and hematomas were injuries not causing harm to health, their degree was not determined. The cause of his death was external bleeding and traumatic shock resulting from complete amputation of the left lower leg due to a mine explosion.

According to report No. 3/1592 dated 14 October 2021 of the Forensic Examination Center of the Ministry of Justice, the clothing worn by **victim Ramal Kamal oglu Ojagguliyev** at the time of the incident, submitted for examination, had damage of the number and dimensions indicated in the descriptive part of the report. According to their shape, dimensions, morphological structure, and the discovery on their surface of explosive substance — trotyl — and unburned smokeless powder particles, those damages are characteristic of being caused by the impact of fragments as a result of an explosion, in a direction from bottom to top from the centre of the explosion. According to the forensic medical expert report, those injuries correspond to the locations of the injuries on the body.

According to forensic medical expert report No. 759 dated 30 December 2021, the injury found on the body of **Shahin Gadir oglu Garayev** — traumatic amputation of the left lower limb up to the lower one-third of the thigh — could have occurred during a mine explosion; the time of its occurrence corresponds to 20 November 2021 and, by degree, it is classified as serious harm to health dangerous to life.

According to forensic medical expert report No. 61 dated 27 January 2022, the injuries found on **Vugar Magsud oglu Mammadov** — amputation of the left lower limb after a mine explosion, numerous shrapnel wounds of the right lower limb and right hand, and traumatic shock — occurred as a result of a mine explosion and, by degree, are classified as serious harm to health dangerous to life.

According to forensic medical expert report No. 70 dated 9 December 2021, the injuries found during examination of the body of **Orkhan Nazim oglu Khanatov** — crushing and destruction of the head at neck level, accompanied by evisceration of the brain and injuries to

the tongue as well as the neck organs, namely the larynx, trachea, esophagus, and thyroid gland; traumatic amputation of the right lower limb at the level of the knee joint, traumatic amputation of the left lower limb at the level of the upper one-third of the thigh, incomplete traumatic amputation of the penis from the bulb, open fracture of the first metacarpal bone of the left hand, and a large wound of the scrotum accompanied by damage to the testicles — were vital injuries, caused by the impact of the blast wave and primary and secondary fragments as a result of the explosion of some explosive device; taken together, they are classified as serious harm to health dangerous to life and resulted in death. The direct cause of death was injuries incompatible with life caused by the impact of the blast wave and primary and secondary fragments as a result of a mine explosion — crushing and destruction of the head at neck level, accompanied by evisceration of the brain and injuries to the tongue as well as the neck organs, namely the larynx, trachea, esophagus, and thyroid gland.

According to forensic medical expert report No. 71 dated 9 December 2021, the injuries found during examination of the body of **Vusal Firidun oglu Gandiyev** were multiple amputations of the body. The indicated injuries, both separately and collectively, are classified as serious harm to health dangerous to life and resulted in death.

Page 383

According to forensic medical expert report No. 348/23 dated 23 September 2023, **Gormez Ibrahim Ali oglu**, born in 1965, was found to have contused wounds in the forehead and nose areas, and a bruise in the area below the right eye. The indicated injuries were caused by the impact of a hard blunt object; they could have occurred during the period and under the circumstances indicated by the examined person, namely as a result of the impact of metal fragments scattered during a mine explosion, and, by degree, are classified as minor harm to health, causing short-term impairment of health.

According to forensic commodity expert report No. 9/9078 dated 5 December 2023, the damage caused to the CAT D8T vehicle, manufactured in 2011, with state registration plate 90H435, was determined by theoretical calculation to amount approximately to 128,651.41 manats.

According to forensic ballistic expert report No. 3-16-16/2-3/1531 dated 4 October 2023, the 2 metal pieces submitted for examination were parts of a projectile, manufactured by factory method and fragmented as a result of firing and explosion, intended for use as ammunition in mortars, which are considered combat firearms — that is, they were fragments of the metal body of a mine. The mines of which they had formed parts were intended, according to their purpose, to be placed in mortars of the appropriate design and caliber and fired, in order to destroy a target at a certain distance, including a live target, by inflicting injury. However, because they were small in size, because no marking remained on them that could indicate their purpose or other tactical and technical characteristics, and because no single separation lines remained on their damaged edges, it was not possible to determine precisely from which

mortar, of what caliber and other characteristics, they had been used before fragmentation, or whether they were fragments of the same mine.

According to forensic medical expert report No. 106/2023 dated 26 December 2023, the injuries found on **Rahim Shirmammad oglu Habibov** — injuries caused by firearm trauma, specifically a mine explosion, accompanied by II–III degree hemorrhagic and traumatic shock; complete post-traumatic stump of the right lower leg at the level of the upper one-third; a large open shrapnel wound in the popliteal area of the left leg; numerous shrapnel wounds of the right upper limb from the level of the upper one-third of the right upper-arm area down to the fingers of the right hand; numerous shrapnel wounds of the left lower limb from the inner surface of the lower one-third of the left thigh to the level of the middle one-third of the left lower leg; against that background, a shrapnel wound of the upper part of the left lower-leg area with surgical sutures applied, and shrapnel wounds of the left buttock area — were caused by a firearm, namely a mine explosion. They resulted in permanent loss of more than one-third of general working capacity — 60% — and, on that basis, are classified as serious harm to health.

According to forensic medical expert report No. 05 dated 2 February 2022, the injuries found on the body of **Ismayil Vidadi oglu Mikayilov** — open craniocerebral trauma, blind penetrating firearm wounds of the head, chest, and abdominal cavities, and through-and-through firearm wounds of the right upper and lower limbs — were caused by the impact of fragments formed as a result of a projectile explosion; they were vital, directly causally connected with death, and had the signs characteristic of injuries causing serious harm to health. The cause of death was injuries incompatible with life — firearm wounds resulting in injury to the brain, lungs, and liver, complicated by acute blood loss.

According to forensic medical expert report No. 236/21 dated 2 August 2021, the injuries found on Yasin Mehdi oglu Mehraliyev — numerous contused wounds on the posterior surfaces of the right lower limb — were caused by the impact of a hard blunt object; they could have occurred as a result of the impact of fragments scattered during the mine explosion that occurred on 21 July 2021, and, by degree, are classified as minor harm to health, causing short-term impairment of health.

Page 384

According to forensic medical expert report No. 237/21 dated 2 August 2021, the injuries found on **Tahir Polad oglu Mahmudov** — traumatic amputation of the right lower leg from the lower one-third, open fractures of the bones of the left lower leg, and numerous abrasion wounds of the left lower limb and left forearm areas — were caused by the impact of a hard blunt object; they could have occurred as a result of the impact of fragments scattered during the mine explosion that occurred on 21 July 2021, and, by degree, because they resulted in permanent loss of more than one-third of general working capacity — 50% — are classified as serious harm to health.

According to forensic medical expert report No. 301/23 dated 25 August 2023, it was established that the injuries found on **Afgan Sayyaf oglu Alakbarli** — numerous abrasions in the face, neck, and left forearm areas, and hemorrhage in the sclera of the right eye — were caused by the impact of a hard blunt object or objects; they could have occurred as a result of the impact of fragments scattered during the mine explosion that occurred on 24 August 2023, and, because they were injuries not causing harm to health, their degree was not determined.

According to forensic medical expert report No. 51/23 dated 13 October 2023, the injuries found on the body of **Famil Ilyas oglu Abilov** — traumatic amputation of the left lower leg at the lower one-third; an open comminuted fracture, with displaced fragments, of the lower one-third of the left femur; multiple open fractures, with displaced fragments, of the right metatarsal and phalangeal bones; multiple open fractures, with displaced fragments, of the body surface; multiple contused wounds, bruises, and abrasions of the body surface; and venous anemia of internal organs — were identified. The cause of his death was severe traumatic shock and acute blood loss. The indicated injuries were caused by the impact of metal fragments scattered as a result of blast trauma, specifically a mine explosion, and, by degree, are classified as serious harm to health, dangerous to life and resulting in death.

According to forensic medical expert report No. 841/23 dated 18 November 2023, Namaz **Nabadi oglu Bayramov** was found to have open comminuted fractures, with displaced fragments, of the bones of the left lower leg at the middle one-third; a contused wound in the parietal area; and a closed fracture of the left calcaneus. The indicated injuries were caused by the impact of a hard blunt object or objects; they could have occurred as a result of the impact of metal fragments scattered during a mine explosion, and, by degree, are classified as serious harm to health and dangerous to life.

According to forensic medical expert report No. 348/MESh dated 22 July 2022, the injuries found on **Yildyray Juma oglu Yalpiri** — shrapnel wounds of the left auricle, left cheek, dorsal surface of the left hand, palmar surface of the right hand, anterior surface of the chest, left forearm, left upper arm, and anterior-inner surface of the right upper arm; a shrapnel wound of the right subclavian area surrounded by a burn area and accompanied by tissue defect; multiple shrapnel wounds at the level of the right knee joint; an open shrapnel wound on the anterior-inner surface of the middle one-third of the left knee-lower-leg area; shrapnel wounds of the right third intercostal area of the chest along the midclavicular line, surrounded by a burn area, penetrating into the chest cavity and accompanied by injury to the anterior surface of the lung and hemopneumothorax — were firearm-shrapnel wounds and could have occurred from the impact of fragments as a result of the explosion of an anti-tank mine. The time of their occurrence corresponds to 14 July 2022, as indicated in the descriptive part of the decision, and, by degree, taken together, they are classified as serious harm to health and dangerous to life.

According to forensic medical expert report No. 2 dated 13 April 2021, the following injuries were present on the body of **Razi Akif oglu Huseynov:** blast trauma; contused-lacerated wounds of the intestines penetrating into the abdominal cavity; injury to the femoral artery;

traumatic amputation of both thigh areas; fractures of the facial skeletal bones; contused wound of the left hand area; and shrapnel wounds of the body accompanied by acute blood loss. These were caused by the impact of a fragment or fragments during blast trauma. The cause of his—

Page 385

—death was acute blood loss resulting from shrapnel wounds of the body with injury to the intestines and femoral artery.

According to forensic medical expert report No. 3 dated 13 April 2021, the following injuries were present on the body of B**ayram Akif oglu Huseynov**: blast trauma; fragmentation and destruction of the left knee-lower-leg area together with soft tissues; comminuted fractures of the left femur; injury to the femoral artery and vein; and multiple shrapnel wounds of the body accompanied by acute blood loss. These were caused by the impact of fragments during blast trauma. The cause of his death was acute blood loss resulting from shrapnel wounds of the body with injury to the femoral artery and vein.

According to forensic medical expert report No. 211 dated 24 June 2021, A. M. Huseynov was found to have multi-fragment fractures of the bones of the right lower leg, closed displaced fractures of the phalanges of the I–V toes of the right foot and of both malleoli on the left, open displaced fractures of the navicular, cuboid, medial cuneiform, and I–II–III–IV metatarsal bones, and dislocation of the talus. These injuries were caused by the impact of a blunt object and are classified as less serious harm to health.

According to forensic criminalistic medical expert report No. 164 dated 27 August 2021, numerous intermittently located damages with tissue defects were found on the trousers and shirt belonging to **Bayram Akif oglu Huseynov**. These damages were caused by objects of some limited size, and it cannot be excluded that those damages were caused under the circumstances described in the descriptive part of the decision by the impact of fragments separated from the explosion of a projectile.

The numerous damages found on the trousers and shirt belonging to Bayram Akif oglu Huseynov relatively coincide, by location, with the injuries on his body — blast trauma; fragmentation and destruction of the left knee-lower-leg area together with soft tissues; comminuted fractures of the left femur; injury to the femoral artery and vein; and shrapnel wounds of the body accompanied by acute blood loss.

Numerous intermittently located damages with tissue defects were found on the undershirt, shirt, and trouser fragment belonging to **Razi Akif oglu Huseynov**. These damages were caused by objects of some limited size, and it cannot be excluded that they were caused under the circumstances described in the descriptive part of the decision by the impact of fragments separated from the explosion of a projectile.

The numerous damages found on the undershirt, shirt, and trouser fragment belonging to **Razi Akif oglu Huseynov** relatively coincide, by location, with the injuries on his body — blast trauma; contused-lacerated wounds of the intestines penetrating into the abdominal cavity; injury to the femoral artery; traumatic amputation of both thigh areas; fractures of the facial skeletal bones; contused wound of the left hand area; and shrapnel wounds of the body accompanied by acute blood loss.

According to forensic medical expert report No. 06 dated 26 April 2021, the following injuries were present on the body of **Shahin Vahid oglu Verdiyev**: blast trauma; crushing and destruction of the left eyeball and brain tissue; and numerous shrapnel wounds of the body surface. These injuries were caused by the impact of a fragment or fragments as a result of the explosion of a firearm projectile. The cause of his death was crushing and destruction of brain tissue.

According to forensic medical expert report No. 137 dated 13 July 2021, the injuries identified on the body of **Firdovsif Idris oglu Guliyev** — destruction of the right eyeball; extensive through-and-through rupture and injury of the sclera in the left eye; prolapse of the inner membranes from the wound opening; corneal burn; numerous foreign bodies; severe contusion of the eyeball; and perforating corneal wound — were caused by the impact of fragments as a result of the explosion of a firearm projectile. They resulted in complete loss of vision in both eyes and, on that basis, are classified as serious harm to health.

Page 386

According to forensic medical expert report No. 138 dated 13 July 2021, the injury identified on the body of **Aydin Vahid oglu Verdiyev** — through-and-through wounds of the left eyeball, an intraocular foreign body, and endophthalmitis — was caused by the impact of a fragment or fragments as a result of the explosion of a firearm projectile and, by degree, because the shrapnel wound resulted in complete loss of vision in one eye, is classified as serious harm to health.

According to forensic ballistic expert report No. 3/825 dated 3 June 2021, 1 object marked with the number “1” was a part separated as a result of the explosion of a factory-produced PMN blast-type anti-personnel mine. Since there was no inscription or marking on the object indicating the country or factory of manufacture, it was not possible to determine this. The total mass of PMN blast-type mines is 550 grams, and the mass of the explosive substance inside them, namely trotyl, is 200 grams. The detonator of the PMN is installed together with an igniter. It is buried in the ground manually. A weight of 8–25 kilograms is sufficient to activate it. As soon as a weight of the indicated mass falls onto the mine, the striker touches the igniter and an explosion occurs instantly. When a PMN mine explodes, as a result of the pressure and high temperature generated, it breaks into pieces and creates a crater approximately 30 centimeters deep on the surface of the ground. In addition, the body part and uniform of a person exposed to the explosion of a PMN mine are fragmented into small pieces, and the particles are scattered away from the epicenter. Because there is no relevant

scientific methodology, it is not possible to determine on what date the mine explosion occurred.

The mine, namely the explosive device, used during the explosion belonged to the plastic, fabric, and caseless type of anti-tank mines; it was of the blast type, intended against tank and armored-vehicle tracks, and was designed to be installed in tank-dangerous directions, on roads, and in places where equipment may move.

It is presumed that the said explosion was caused by an anti-tank mine of the TM-62P2, TM-62P3, TM-62T, or TM-62B type. The bodies of these types of anti-tank mines are made of polyethylene, plastic, and kapron fabric material.

Taking the above into account, it cannot be excluded that the objects marked with the number “2” and submitted for examination were parts of the above-mentioned mines.

The mine activation mechanism is pressure-operated; it can also be detonated by a control method. A force of 150–200 kilograms is required to activate the indicated anti-tank mines. Since there is no relevant scientific methodology, it is not possible to determine on what date the mine explosion occurred. Since there was no inscription or marking on the object indicating the country or factory of manufacture, it was not possible to determine this.

The working part of the shovel submitted for examination was in a fragmented and deformed condition at its lower part. Based on the shape, dimensions, and morphological structure of the damages on the working part of the shovel, and the discovery on their surface of explosive substance — trotyl — and incompletely burned smokeless-powder particles, the lower part of the working part of the shovel had been fragmented by the effect of an explosion.

The substance submitted for examination, weighing 960 grams, was factory-produced trotyl — trinitrotoluene — used for explosive purposes in the military; it is considered an explosive substance, belongs to the brisant group of high explosives, and is suitable for use. Trotyl by itself is considered an explosive substance.

According to forensic medical expert report No. 99 dated 11 June 2021, during the forensic medical examination of **Ali Bakir oglu Rustamov**, no injury or trace of injury was found on his body.

According to forensic medical expert report No. 100 dated 11 June 2021, during the medical examination of Anar Khudayar oglu Aliyev, the injuries found on his body—

—the injury found on his body — an abrasion of the inner side of the middle one-third of the left lower leg — was caused by the impact of a hard blunt object; since it was an injury not causing harm to health, its degree was not determined.

According to forensic medical expert report No. 10 dated 29 June 2021, the body of Jasarat Siyafat oglu Hatamkhanov had undergone advanced putrefactive changes. The following injuries were present on the body of **Jasarat Siyafat oglu Hatamkhanov**: blast trauma; amputation of the right lower leg from the upper one-third; multiple-fragment fractures; and injury to the tibial artery. These were vital injuries, caused shortly before death by the impact of a fragment or fragments during the explosion of a firearm projectile. The cause of his death was acute blood loss resulting from injury to the tibial artery.

According to forensic medical expert report No. 169/21 dated 10 May 2021, **Elmaddin Tofig oglu Mirzayev** was found to have traumatic amputation of the left lower leg at the level of the lower one-third, complete loss of vision in both eyes, and numerous abrasion wounds in the left lower-leg area. The indicated injuries were caused by the impact of a hard blunt object or objects and, by degree, because they resulted in permanent loss of more than one-third — 35–50% — of general working capacity, are classified as serious harm to health.

According to explosive-technical expert report No. 3/360 dated 4 March 2021, the uneven surfaces and jagged edges of the metal fragments indicate that they separated and broke off, as a result of an explosion, from the object of which they had formed part. Since the bodies of the metal fragments were in a fragmented and splintered condition, it was not possible to determine whether those metal fragments constituted parts of any explosive device, namely a mine.

According to forensic medical expert report No. 300 dated 27 February 2021, the injuries identified on the body of **Orkhan Kamil oglu Ahmadov** — a contused-lacerated wound of the soft tissues of the outer corner of the right eye socket; burns of the right parotid area and the posterior right side of the neck; thermal flame burns of the right thigh and the upper one-third of the lower leg; and numerous abrasion wounds of the abdomen and right upper limbs — were caused by the impact of fragments during an explosion and are classified as minor harm to health.

According to forensic medical expert report No. 29 dated 2 December 2021, the injuries identified on the body of **Togrul Vilayat oglu Ahmadov** — air bubbles in the subcutaneous fatty tissue in the left thigh area; a cut-lacerated wound on the left half of the anterior abdominal wall, not penetrating inward; and a displaced transverse fracture of the distal one-third of the left radius bone — were caused by the impact of fragments during the explosion of a firearm projectile and are classified as less serious harm to health.

According to forensic medical expert report No. 59 dated 4 February 2021, the injuries on the body of **Natiq Nuraddin oglu Mamedov** — traumatic amputation of the left lower leg from the middle one-third, and shrapnel wounds of the right forearm and right lower leg — were caused by the impact of an explosive firearm, namely by the impact of fragments as a result of a mine explosion, and, because they resulted in permanent loss of more than one-third — 50% — of general working capacity, are classified as serious harm to health.

According to forensic medical expert report No. 171 dated 18 March 2021, the injuries found on **Elgiz Malik oglu Mammadov** — depressed fracture of the frontal bone and shrapnel wound of the glabellar area of the forehead — were caused by the impact of fragments as a result of a mine explosion and, by degree, are classified overall as serious harm to health dangerous to life.

According to forensic medical expert report No. 270 dated 12 April 2021, **Hafis Salim oglu Azimzade** was found to have the following injuries: superficial shrapnel wounds of both upper limbs and shrapnel wounds of the right foot-lower-leg area complicated by amputation of the right lower limb at the level of the upper one-third of the lower leg. Since the superficial shrapnel wounds of both upper limbs were injuries not causing harm to health, their degree was not determined; the shrapnel wounds of the right—

Page 388

—foot-lower-leg area complicated by amputation of the right lower limb at the level of the upper one-third of the lower leg, by degree, is classified as serious harm to health, having caused permanent loss of more than one-third — 50% — of general working capacity.

According to forensic medical expert report No. 287/21 dated 16 April 2021, **Iman Eyvaz oglu Bakhshaliyev** was found to have traumatic separation of the right lower leg from the lower one-third, an open fracture with displaced fragments of the distal phalanx of the 1st finger of the right hand, and numerous contused wounds of the body surface. The indicated injuries could have been caused by the impact of fragments resulting from blast trauma and, by degree, because they resulted in permanent loss of more than one-third — 50% — of general working capacity, are classified as serious harm to health.

According to forensic medical expert report No. 295 dated 26 February 2021, the injuries found on **Ramil Nazim oglu Babayev** — contusion of the soft tissues of the left half of the chest, the left elbow and left wrist, both knee areas, and the forehead area — were caused by the impact of a hard blunt object and, taken together, are classified as minor harm to health, causing short-term impairment of health.

According to forensic medical expert report No. 66 dated 24 April 2021, the injuries found on the body of **Alovsat Mursal oglu Shukurov** during medical examination — superficial contused wounds of the posterior surface of the II–III–IV–V fingers of the left hand — were caused by the impact of fragments as a result of a firearm, namely a mine explosion; since they were injuries not causing harm to health, their degree was not determined.

According to forensic medical expert report No. 395 dated 13 July 2021, the injuries on the body of **Arif Sabir oglu Guliyev** — traumatic amputation of the lower one-third of the left lower leg and hyperemia of the upper one-third of the left lower leg — were caused by the impact of an explosive firearm and, because they resulted in permanent loss of more than one-third — 50% — of general working capacity, are classified as serious harm to health.

According to forensic medical expert report No. 208 dated 6 October 2021, the injuries found during the medical examination of **Zafar Yunus oglu Aghayev** — abrasions of the forehead area, the right half of the face, the anterior surface of the chest, and the anterior surfaces of the middle and lower one-thirds of both lower legs — could have been caused by the impact of firearm fragments during an explosion; since they were injuries not causing harm to health, their degree was not determined.

According to forensic medical expert report No. 04 dated 16 March 2023, the injuries found on the body of Israel Ibrahim oglu Hasanov — blast trauma and shrapnel wounds of the body accompanied by acute blood loss resulting from injury to the fibular and tibial arteries and veins — were caused by the impact of a fragment or fragments during blast trauma and, by degree, in living persons, are classified as serious harm to health dangerous to life. The cause of his death was acute blood loss resulting from shrapnel injury to the fibular and tibial arteries and veins.

According to forensic medical expert report No. 05 dated 16 March 2023, the injuries found on the body of **Amid Huseyn oglu Hasanov** — blast trauma, open fracture of the right lower-leg bones, and shrapnel wounds of the body accompanied by acute blood loss resulting from injury to the left femoral artery — were caused by the impact of a fragment or fragments during blast trauma and, by degree, in living persons, are classified as serious harm to health dangerous to life. The cause of his death was acute blood loss resulting from injury to the left femoral artery.

According to report Nos. 3/644 and 3/662 dated 15 May 2023 of the Forensic Examination Center of the Ministry of Justice, the object taken from the scene and conditionally marked with the number “1”, by its shape, manufacturing features, traces on it, and other characteristics, is a part separated as a result of the explosion of a factory-made PMN blast-type anti-personnel mine—

—namely its striker together with the combat spring.

The total mass of PMN blast-type anti-personnel mines is 550 grams, and the mass of the explosive substance inside them, namely trotyl, is 200 grams. The PMN is equipped with a detonator igniter. A weight of 8–25 kilograms is sufficient to activate it. As soon as a weight of the indicated mass falls onto the mine, the striker touches the igniter and an explosion occurs instantly. When a PMN mine explodes, as a result of the pressure and high temperature generated, it breaks into pieces and creates a crater approximately 30 centimeters deep on the surface of the ground. In addition, the body part and uniform of a person exposed to the explosion of a PMN mine are fragmented into small pieces, and the particles are scattered away from the epicenter.

The objects conditionally marked with the numbers “2” and “3”, by their shape, manufacturing features, traces on them, and other characteristics, are parts of a factory-made

explosive device, separated and broken off as a result of an explosion. However, since the bodies of the objects were in a fragmented and splintered condition, and no features indicating factory markings remained on them, it was not possible to determine exactly which explosive device those objects constituted parts of.

The clothing belonging to **Amid Huseyn oglu Hasanov and Israel Ibrahim oglu Hasanov** had damages of the number and dimensions indicated in the descriptive part of the report. Based on the discovery on the clothing items of traces of explosive substance — trotyl — and of gunpowder as an additional factor, and on the shape, dimensions, and morphological structure of the damages, the indicated damages are characteristic of having been caused as a result of explosions of explosive devices, from a distance close to the center of the explosion, by the impact of fragments from the blast.

Since there were no exit damages on the submitted clothing items, it was not possible to determine the direction of the explosion.

According to forensic medical expert report No. 728 dated 2 November 2022, the injuries found on Parviz Sozali oglu Najafov — numerous open shrapnel wounds of both lower legs, open displaced shrapnel fractures of the lower one-third of the bones of the right lower leg, a through-and-through wound of the right eye socket, and visual acuity of 0 in the right eye — were caused by the impact of a blunt object, could have occurred as a result of a mine explosion, and are classified as serious harm to health dangerous to life.

According to forensic medical expert report No. 1335 dated 3 November 2022, the injuries found on Ramin Amir oglu Aliyev — traumatic amputation of the phalanges and metatarsal bones of the 3rd, 4th, and 5th toes of the left foot, accompanied by traumatic and hemorrhagic shock; a multi-fragment fracture of the bones of the left foot; contused-lacerated wounds of the soft tissues; and numerous shrapnel wounds of the posterior surface of the left upper arm, left thigh, and left lower leg — were caused by the impact of the blast wave and fragments resulting from the explosion of military ordnance with explosive properties. By degree, these injuries are classified as serious harm to health dangerous to life.

According to forensic medical expert report No. 650 dated 10 November 2022, the injuries found on **Sakhavat Aladdin oglu Abdulkhaliqov** — intra-articular fracture of the upper end of the proximal phalanx of the 5th finger of the right hand, metal foreign bodies, namely fragments, in the soft tissues of the right hand and right lower leg, and injuries to the right hand, right forearm, right foot, right lower leg, right thigh, abdomen, and chest caused by the impact of numerous metal fragments — correspond to injuries caused by the impact of unevenly shaped metal fragments scattered around as a result of the explosion of an explosive device. Those injuries are classified as less serious harm to health, causing long-term impairment of health.

According to forensic medical expert report No. 81 dated 12 April 2023, the injury found on Elmir Islam oglu Yusibov — scar tissue in the posterior parietal area—

—namely the scar of a chopped-contused wound — was caused by the impact of a hard blunt object and, by degree, is classified as minor harm to health, causing short-term impairment of health.

According to forensic medical expert report No. 63 dated 29 February 2024, the injuries found on Vagif Sabir oglu Akparov — a wound on the amputation stump of the right lower limb — were caused by the impact of a fragment during blast trauma and, by degree, are classified as serious harm to health due to permanent loss of not less than one-third of general working capacity.

According to forensic medical expert report No. 67 dated 4 March 2024, the injuries found on Zaur Eldar oglu Mahmudov — open displaced shrapnel fracture of the tarsal bones of the left foot; swelling of the lower one-third of the left lower leg; infected shrapnel wounds of the lower one-third of the lower leg and heel area, and of the ankle and plantar areas of the left foot; and mild bilateral sensorineural hearing impairment — were caused by the impact of fragments during blast trauma and are classified as less serious harm to health, causing long-term impairment of health.

According to forensic medical expert report No. 92 dated 16 March 2024, the injuries found on Bakhtiyar Yagub oglu Abbasov — traumatic amputation of the right thigh at the level of the middle one-third and of the left lower leg at the level of the middle one-third — were caused by the impact of fragments as a result of the explosion of a firearm projectile and, by degree, because they resulted in permanent loss of more than one-third of general working capacity, are classified as serious harm to health.

According to forensic medical expert report No. 111 dated 8 April 2024, the injuries found on Anar Murshud oglu Piriyev — a contused wound of the palmar surface of the proximal phalanx of the 1st finger of the right hand; numerous abrasions of the palmar surface of the proximal phalanx of the 1st finger and the palmar surface of the second phalanx of the 2nd finger of the right hand, the right knee joint, and the anterior and outer surfaces of the upper-middle one-third of the right lower leg — were caused by the explosion of a firearm projectile and, taken together, because they were injuries not causing harm to health, their degree was not determined.

According to forensic medical expert report No. 278 dated 8 February 2024, the injuries found on Faig Sayyab oglu Abishov — open shrapnel fractures of the left lower leg, traumatic amputation of the 1st and 2nd toes of the left foot, and shrapnel wounds of the left upper arm, both lower legs, right thigh, and abdomen — were caused by the impact of fragments as a result of the explosion of an explosive substance and, by degree, taken together, are classified as serious harm to health dangerous to life.

According to forensic medical expert report No. 106 dated 4 April 2024, during the medical examination of Khayyam Gambar oglu Aliyev, no objective signs of any injury were found on the surface of his body.

According to genetic forensic expert report No. 21/216R dated 18 March 2021 of the Criminalistics Research Department of the Ministry of Internal Affairs, the blood samples taken from the body belonged to the male biological child of Asli Mammadvali gizi Bakhshaliyeva.

That is, the fact that the body discovered during the inspection of the scene on 19 February 2021 was the body of Bakhtiyar Mahmud oglu Mahmudov was once again confirmed by the genetic expert report.

According to forensic medical expert report No. 04 dated 19 February 2021, the injuries found on the body of Bakhtiyar Mahmud oglu Mahmudov — blast trauma; the head, face, and neck areas remaining in residual form; fragmentation and destruction of the organs of the chest and abdominal cavities; traumatic amputation of the upper and lower limbs; multiple-fragment fractures; and numerous shrapnel wounds of the body — were vital injuries, caused shortly before death by the impact of a fragment or fragments during the explosion of a firearm projectile and, by degree, are classified as serious harm to health resulting in death. His—

Page 391

—the cause of his death was injuries incompatible with life resulting from fragmentation and destruction of the organs of the head, chest, and abdominal cavities.

According to report No. 23/509R dated 7 July 2023 of the Criminalistics Research Department of the Ministry of Internal Affairs, the male body conditionally marked “No. 1” was the body of the biological brother of Rovshan Ismayil oglu Gozalov. The male body conditionally marked “No. 2” was the body of the male biological child of Panah Aghaverdi oglu Yusifov. The male body conditionally marked “No. 3” was the body of the male biological child of Mehman Aladdin oglu Sadiyev.

According to forensic medical expert report No. 10 dated 29 April 2023, the body of Sakhavat Ismayil oglu Gozalov had been charred as a result of burning by flame. That injury was caused by the effect of burning by flame as a result of a mine explosion. The cause of his death was carbon monoxide poisoning. Since the body had burned and become charred, it was not possible to state the exact time of death. It is not excluded that death occurred on 28 April 2023, as indicated in the decision.

According to forensic medical expert report No. 11 dated 29 April 2023, the body of Nadir Panah oglu Yusifov had been charred as a result of burning by flame. That injury was caused by the effect of burning by flame as a result of a mine explosion. The cause of his death was carbon monoxide poisoning. Since the body had burned and become charred, it was not

possible to state the exact time of death. It is not excluded that death occurred on 28 April 2023, as indicated in the decision.

According to forensic medical expert report No. 12 dated 29 April 2023, the body of Farid Mehman oglu Sadiyev had been relatively charred as a result of burning by flame. That injury was caused by the effect of burning by flame as a result of a mine explosion. The cause of his death was carbon monoxide poisoning. Since the body had burned and become charred, it was not possible to state the exact time of death. It is not excluded that death occurred on 28 April 2023, as indicated in the decision.

According to forensic medical expert report No. 26 dated 6 January 2023, the injuries found on the body of Yaguar Aliheydar oglu Hadiyev — shrapnel wounds of the left shoulder girdle, abdomen, and left forearm, penetrating into the chest cavity and accompanied by injury to the heart and lung, with acute blood loss — were caused by the impact of a fragment or fragments during blast trauma. The cause of his death was acute blood loss resulting from injury to the lung and heart.

According to forensic medical expert report No. 56 dated 1 March 2021, the injury found during the forensic medical examination of Aliyar Hidayat oglu Ojagverdiyev — “an abrasion in the anterior area of the right lower leg and an abrasion on the bridge of the nose” — could have been caused by the effect of the blast wave as a result of the explosion of an anti-tank mine; the time of occurrence corresponds to 13 January 2021, and since it was an injury not causing harm to health, its degree was not determined.

According to forensic medical expert report No. 29 dated 1 February 2021, the injuries found during the forensic medical examination of Elgun Mahmud oglu Alakbarov — “numerous shrapnel wounds of the forehead, face, nose, abdomen, chest, and upper limb; foreign bodies in the deep layers of the cornea of both eyes; and a non-penetrating injury to the cornea of the left eye” — were caused by the impact of a fragment or fragments during the explosion of a firearm projectile. The time of occurrence corresponds to 28 January 2021, as indicated in the decision, and, by degree, they are classified as less serious harm to health, causing long-term impairment of health.

According to forensic medical expert report No. 112 dated 10 May 2022, the injuries found during the examination of Elnur Tofig oglu Hasanov — blast trauma, traumatic amputation of both lower limbs below the knee, scar tissues of the anterior-outer surface of the upper one-third of the left forearm and of the palmar surface of the left hand—

Page 392

—could have been caused by the impact of a fragment or fragments during the explosion of a firearm projectile, namely a mine; the time of occurrence corresponds to 9 April 2022, and, by degree, they are classified as serious harm to health, causing long-term impairment of health.

According to forensic medical expert report No. 338 dated 20 October 2022, the injuries found on Nicat Novruz oglu Jabbarov — traumatic amputation of the left lower leg with numerous shrapnel wounds of both lower limbs — were caused by the impact of a fragment or fragments as a result of the explosion of a firearm projectile and, by degree, resulted in permanent loss of more than one-third of general working capacity; on that basis, they are classified as serious harm to health.

According to forensic medical expert report No. 339 dated 20 October 2022, the injuries found on Rafail Kochari oglu Bayramov — traumatic amputation of the middle one-third of the left thigh with numerous shrapnel wounds of both lower limbs — were caused by the impact of a fragment or fragments as a result of the explosion of a firearm projectile and, by degree, resulted in permanent loss of more than one-third of general working capacity; on that basis, they are classified as serious harm to health.

According to forensic medical expert report No. 409 dated 23 December 2022, the injuries found on Samir Buruz oglu Alizade — blast trauma; traumatic amputation of both lower limbs at the level of the middle one-third of the lower legs; traumatic disarticulation of the II finger of the right hand at the level of the metacarpophalangeal joint and of the IV finger at the level of the nail-phalanx joint; destruction of the right eyeball; contusion of the left eyeball; numerous shrapnel wounds of both sides of the face, both eyelids, the upper lip, and both hands; traumatic shock; and II degree hemorrhagic shock — were caused by the impact of a fragment or fragments as a result of the explosion of a firearm projectile and, by degree, are classified as serious harm to health dangerous to life at the time of infliction.

According to forensic medical expert report No. 164 dated 22 June 2022, the injuries found on Elnur Asif oglu Asgarov — traumatic amputation at the level of the left ankle joint, II degree traumatic shock, and blind shrapnel wounds of the entire anterior surface of the right lower leg and the inner lateral surface of the left lower leg — were caused by the impact of a fragment or fragments as a result of the explosion of a firearm projectile and, by degree, resulted in permanent loss of more than one-third of general working capacity; on that basis, they are classified as serious harm to health.

According to forensic medical expert report No. 572A dated 3 May 2023, the injuries found on Khazar Taryel oglu Babashov — mine-blast trauma; traumatic fragmentation and separation of the right lower limb at the level of the ankle joint, accompanied by traumatic shock and resulting in amputation of the right lower limb at the level of the upper one-third of the lower leg; numerous thermal and contused-torn-lacerated shrapnel wounds of both forearms, the right hand and fingers, the left thigh, both knee-joint areas, and the left lower leg — were caused by the blunt and thermal impact of fragments as a result of a mine explosion. The indicated injuries, by degree, are classified as serious harm to health, causing permanent loss of not less than one-third of general working capacity — 60%.

According to forensic medical expert report No. 764 dated 7 June 2023, the injuries found on Masim Hasan oglu Asgarov — traumatic amputation of the I, II, III, and IV fingers of the left hand, amputation of the I finger at the metacarpophalangeal joint and of the II, III, and IV

metacarpal bones at the level of the middle one-third, resulting in complete loss of function of the left hand; fractures of the II, III, IV, and V metacarpal bones; dislocation of the I metacarpal bone; soft-tissue defect of the left hand and numerous thermal and contused-torn-lacerated wounds; abrasions of the anterior surface of the chest and abdominal area — were caused by the blunt and thermal impact of fragments as a result of an explosion. The indicated injuries, taken together, by degree, are classified as serious harm to health, causing permanent loss of not less than one-third of general working capacity — 50%.

Page 393

According to forensic medical expert report No. 366 dated 22 November 2023, the injuries found on Zamaddin Galandar oglu Hasanov — traumatic amputation of both lower limbs, and shrapnel wounds of the III finger of the right hand, the right elbow, right knee, left thigh, and scrotal areas — were caused by the impact of fragments as a result of the explosion of a firearm projectile. The time of occurrence corresponds to 6 October 2023, and, by degree, they resulted in permanent loss of more than one-third — 60% — of general working capacity; on that basis, they are classified as serious harm to health.

According to forensic medical expert report No. 340 dated 6 October 2023, the injuries found on Elchin Khanbala oglu Nuraliyev — amputation of the lower one-third of the right upper arm; contused-abrasion wounds of the left and right halves of the anterior surface of the chest; and abrasions of the entire anterior and outer surfaces of the right lower leg — were caused by the impact of fragments as a result of a projectile explosion; the time of occurrence corresponds to 26 October 2023. They resulted in permanent loss of more than one-third of general working capacity and are classified as serious harm to health.

According to forensic medical expert report No. 337 dated 27 October 2023, the injuries found on Ayaz Yusif oglu Azimov — numerous abrasions of the area covering the face and forehead, and hemorrhage in the sclera at the inner corners of the right and left eyes — were caused by the impact of fragments as a result of a projectile explosion; the time of occurrence corresponds to 26 October 2023. Since they were injuries not causing harm to health, their degree was not determined.

According to forensic medical expert report No. 360 dated 18 November 2023, the injuries found on Ali Alibaba oglu Aghalarov — amputation of the lower one-third of the right lower leg, and contused wounds of the anterior-inner surface of the right knee area, the inner surface of the left lower-leg area, and the palmar surface of the right hand — were caused by the impact of fragments as a result of the explosion of a firearm projectile; the time of occurrence corresponds to 3 November 2023. They resulted in permanent loss of more than one-third of general working capacity and are classified as serious harm to health.

According to forensic medical expert report No. 381 dated 12 December 2023, the injury found on Asif Novruz oglu Huseynov — blast trauma, traumatic amputation of the upper one-third of the right lower leg — was caused by the impact of fragments as a result of the explosion of a firearm projectile; the time of occurrence corresponds to 5 November 2023,

and, by degree, it resulted in permanent loss of more than one-third of general working capacity; on that basis, it is classified as serious harm to health.

According to forensic medical expert report No. 39 dated 26 February 2024, the injury found on the body of Azar Ahmad oglu Mammadov — traumatic amputation of the left lower limb at the level of the ankle joint — was caused by the impact of fragments as a result of the explosion of a firearm projectile and, by degree, resulted in permanent loss of more than one-third of general working capacity; it is classified as serious harm to health.

According to forensic medical expert report No. 51 dated 1 March 2024, the injury found on Hasanali Shahin oglu Aliyev — traumatic amputation of the left lower leg at the level of the lower one-third, and numerous shrapnel wounds of the right foot — was caused by the impact of fragments as a result of the explosion of a firearm projectile and resulted in permanent loss of more than one-third — 50% — of general working capacity; it is classified as serious harm to health.

According to forensic medical expert report No. 114 dated 2 May 2024, the injuries found on the body of Elmin Elnur oglu Baghirov — blast trauma, numerous shrapnel wounds of the body, traumatic amputation of the lower one-third of the right thigh, traumatic amputation of the upper one-third of the left lower leg, and dry eye syndrome of both eyes — were caused by the impact of fragments as a result of the explosion of a firearm projectile and, by degree—

Page 394

—resulted in permanent loss of more than one-third of general working capacity; they are classified as serious harm to health.

According to forensic medical expert report No. 98 dated 19 April 2024, the injuries found on the body of Arzuman Ahliman oglu Taghizade — blast trauma, numerous shrapnel wounds of the body, and an open fracture of the right humerus — were caused by the impact of fragments as a result of the explosion of a firearm projectile and, by degree, are classified as serious harm to health dangerous to life.

According to forensic medical expert report No. 93 dated 17 April 2024, the injuries found on the body of Polad Abish oglu Ismayilov — superficial shrapnel wounds of the fronto-parietal area, the right half of the forehead in the supraorbital area, the right lateral surface of the bridge of the nose, the right nasal wing, the right zygomatic area, the right temporal area, and the entire posterior surface of the chest and abdomen; abrasions of the anterior surface of the left forearm and the outer surface of the middle one-third of the right upper arm; severe contusion of the right eyeball; and subconjunctival foreign bodies — were caused by the impact of fragments as a result of the explosion of a firearm projectile and, by degree, are classified as minor harm to health, causing short-term impairment of health.

According to forensic medical expert report No. 474 dated 29 April 2024, the injuries found on the body of Khagani Allahverdi oglu Teymurov — traumatic amputation of the left lower limb, namely the lower leg, at the level of the middle one-third, accompanied by life-threatening signs — were caused by the impact of a hard blunt object, could have occurred as a result of a mine explosion, and, by degree, are classified as serious harm to health, causing permanent loss of general working capacity — up to 50%.

According to forensic medical expert report No. 473 dated 29 April 2024, the injuries found during the examination of the body of Mirfattah Bagir oglu Baghirov — traumatic amputation of the left lower limb, namely the thigh, at the level of the lower one-third, accompanied by life-threatening signs — were caused by the impact of a hard blunt object, could have been caused by the impact of a fragment formed as a result of a mine explosion, and, by degree, are classified as serious harm to health, causing permanent loss of general working capacity — up to 60%.

According to forensic criminalistic expert report No. 106/ikb dated 14 December 2020, taking into account the locations, nature, shape, and dimensions of the damages on the clothing belonging to Mammad Vahid oglu Salimov, as well as the information about the case in the decision, it may be stated that those damages correspond to having been caused by the impact of fragments formed as a result of an explosion at close range, including fragments formed as a result of a mine explosion. On the trousers belonging to Mammad Vahid oglu Salimov, incompletely burned gunpowder and soot particles, which are additional factors of an explosion, were found.

According to the forensic medical-biological expert report No. B4/MTB-2020 dated 21 December 2020, human blood was found on the wool sweater, military trousers, under-trousers, underpants belonging to Mammad Salimov, and on the stone and soil particles taken from the scene. During ABO determination of the group of that blood, “A” and “B” antigens were obtained, while “H” antigen and agglutinin were not obtained. Thus, the indicated blood could belong to a person with AB beta (IV) blood group, including Mammad Salimov, who had that blood group.

According to forensic medical expert report No. 1621 dated 15 December 2020, the injuries sustained by Mammad Salimov — traumatic separation of the left lower leg at the level of the lower one-third, and shrapnel wounds of both lower limbs and the right upper eyelid — were caused by the impact of the blast wave resulting from the explosion of a projectile possessing explosive properties and are classified as serious harm to health.

According to forensic medical expert report No. 173/MESh dated 29 March 2021, Murad Vugar oglu Ahmadov had mine-blast trauma, traumatic separation of the right lower limb at the ankle-joint area, and numerous—

—numerous shrapnel wounds were found. Taken together, they are classified as serious harm to health dangerous to life.

According to forensic medical expert report No. 174/MESh dated 29 March 2021, Vusal Taghi oglu Rahimli was found to have a mine-blast injury, numerous shrapnel wounds of the right hand and lower limb, and traumatic separation of the right foot. Taken together, they are classified as serious harm to health dangerous to life.

According to forensic medical expert report No. 1920 dated 9 February 2020, it was established that the following injuries were found on the body of Elchin Rasim oglu Ahmadov: one firearm bullet wound with the entry hole in the area of the left jaw joint and the exit hole in the right temporo-occipital area, accompanied along the wound channel by open fracture of the cranial-vault bones and crushing and destruction of brain tissue; one firearm bullet wound with the entry hole in the upper eyelid of the right eye and the exit hole in the occipital area, accompanied along the wound channel by crushing and destruction of the eyeball, fracture of the occipital bone, and crushing and destruction of brain tissue; one firearm bullet wound penetrating through the right half of the chest, with the entry hole in the right subclavian area and the exit hole on the right half of the posterior surface of the chest; a firearm bullet wound penetrating through the chest, with the entry hole in the middle of the anterior surface of the chest and the exit hole on the left lateral surface of the chest along the mid-axillary line at the level of the 10th rib; a firearm bullet wound with the entry hole in the right lumbar area; an abrasion covered with a reddish scab on a bruise on the anterior surface of the middle one-third of the right lower leg; and a bruise with a purple center and greenish periphery on the anterior surface of the upper one-third of the right lower leg.

Of the indicated injuries, the firearm wounds were caused by shots fired from a firearm; they were vital injuries; the time of their infliction corresponds to 8 December 2020; and they are classified as serious harm to health, dangerous to life and resulting in death. The abrasion on the bruise on the anterior surface of the middle one-third of the right lower leg, and the bruise on the anterior surface of the upper one-third of the right lower leg, were caused by the impact of a hard blunt object; they correspond to having been inflicted not more than 1–3 days earlier; they were vital injuries; in living persons, they are classified as injuries not causing harm to health; and they have no causal connection with death. The cause of R. V. Azizov’s death was diffuse destruction of the brain accompanied by open multi-fragment fractures of the cranial-vault bones as a result of multiple firearm bullet wounds to the body. According to the dynamics of development of post-mortem signs, the date of R. V. Azizov’s death corresponds to 8 December 2020.

According to forensic medical expert report No. 108/MESh dated 17 February 2020, the firearm injury of the left upper-arm area found on the body of Seymur Aghajan oglu Rzayev was caused by the impact of fragments as a result of a shot fired from a firearm and, by degree, is classified as less serious harm to health.

According to forensic-ballistic expert report Nos. 3/2161 and 3/2162 dated 3 May 2021, the 7.62-mm cartridge casesubmitted for examination was a factory-made cartridge case,

separated by firing from a cartridge intended for use as ammunition in rifled combat firearms of the same caliber — Kalashnikov AK automatic weapons, RPK light machine guns, SKS carbines, and other such rifled firearms — and was suitable for use.

The 7 cartridge cases of 5.45-mm caliber submitted were factory-made cartridge cases, separated by firing from cartridges intended for use as ammunition in Kalashnikov AK-74 automatic weapons and other automatic weapons of similar design, RPK-74 and other rifled combat firearms, and were suitable for use.

The military bush jacket, military sweater, sleeveless undershirt, and scarf indicated as belonging to Ragib Vidadi oglu Azizov had damages of the number and dimensions stated in the research part of the report. Although no copper-metal trace was found around the damages, based on their shape, dimensions, morphological structure, and the discovery around the damages of incompletely burned smokeless-powder particles, which are an additional factor of firing, the damages on the front, upper, rear, and lower parts of the military bush jacket, military sweater, and sleeveless undershirt, and on one scarf—

Page 396

—were entry damages; and the damages on the collar and rear upper parts of the military bush jacket, military sweater, and sleeveless undershirt were exit damages. They are characteristic of having been caused by the impact of bullets from shots fired from a rifled firearm, in different directions — from front to back and from back to front — from a distance of more than 1 meter. By their locations and by the bodily injuries indicated in the forensic medical expert report, those damages correspond to each other. However, it is not possible to determine specifically by bullets fired from which type and caliber of firearm those damages were caused.

The damages on the submitted clothing items could have arisen under the circumstances indicated in the descriptive part of the decision. On the military trousers, warm under-trousers, one pair of soldier’s boots, and one pair of socks belonging to Ragib Vidadi oglu Azizov, no damage characteristic of being caused by the impact of a bullet fired from a firearm was found. On the military trousers, warm under-trousers, one pair of soldier’s boots, and one pair of socks belonging to Ragib Vidadi oglu Azizov, incompletely burned smokeless-powder particles, which are an additional factor of firing, were found.

According to forensic medical expert report No. 1923 dated 22 December 2020, during the examination of the body of Avaz Mayis oglu Abbasov, the following injuries were found: one through-and-through firearm bullet wound of the 5th finger of the right hand, with the entry hole on the posterior surface of the proximal phalanx and the exit hole on the palmar surface of the distal phalanx, accompanied by fractures of the phalanges; and one blind firearm bullet wound of the chest, with the entry hole on the anterior surface of the chest, with the direction, according to X-ray examination, from left to right, from top to bottom, and from front to back, accompanied along its course by injuries to the left lung and heart, fracture of the sternum and left 1st rib, massive bleeding into the chest cavity — 2,500 ml —

and left-sided hemopneumothorax, ending blindly among the soft tissues at the level of the posterior processes of the lumbar vertebrae. The indicated injuries were vital injuries and were caused shortly before death by 2 shots fired from a firearm loaded with a bullet. The cause of Avaz Mayis oglu Abbasov's death was traumatic-hemorrhagic shock that developed in connection with acute blood loss resulting from a bullet wound of the organs of the chest cavity.

According to forensic medical expert report No. 1924 dated 22 December 2020, during the examination of the body of Azar Mahal oglu Huseynov, the following injury was found: one combined through-and-through blind firearm bullet wound of the chest and abdominal cavities, with the entry hole on the left lateral wall of the anterior surface of the chest and the exit hole in the upper outer quadrant of the right buttock, directed from left to right, from top to bottom, and from front to back, accompanied along its course by injuries to the left lung, diaphragm, stomach, intestines, and abdominal aorta, and by fracture of the right pelvic bone, resulting in massive bleeding into the chest and abdominal cavities — 3,000 ml — left-sided hemopneumothorax, and hemoperitoneum. The indicated injury was a vital injury, caused by 1 shotfired from a firearm. The cause of death was traumatic-hemorrhagic shock that developed in connection with acute internal blood loss resulting from a bullet wound of the organs of the chest and abdominal cavities.

According to forensic medical expert report No. 1649 dated 14 January 2021, during the examination of Khayyam Zafar oglu Javadov, the following injuries were found: a penetrating injury of the left eye and disruption of the integrity of the left eyeball. They were caused by one shot fired from a firearm and, by degree, are classified as serious harm to health.

According to forensic medical expert report No. 1657 dated 6 January 2021, during the examination of Rashad Gudrat oglu Baghiyev, the following injuries were found: a through-and-through firearm bullet wound of the soft tissues of the middle one-third of the right lower leg and a grazing firearm bullet wound of the left lower leg. They were caused by a shot fired from a firearm and are classified as less serious harm to health.

Page 397

According to forensic medical expert report No. 1648 dated 14 January 2021, during the examination of Farid Jabir oglu Imamaliyev, the following injuries were found: through-and-through bullet wounds of the right thigh and right upper-arm areas. They were caused by one shot fired from a firearm and are classified as minor harm to health.

According to forensic medical expert report No. 1647 dated 14 January 2021, during the examination of Nicat Mahir oglu Habibov, the following injuries were found: a through-and-through bullet wound of the left foot, and an open slightly displaced fracture of the proximal end of the medial and middle cuneiform bones and the 2nd metatarsal bone. They were caused by one shot fired from a firearm and are classified as less serious harm to health.

According to forensic medical expert report No. 12 dated 2 February 2021, during the examination of Abbas Yadulla oglu Babayev, the following injury was found: one blind shrapnel wound of the left groin area not penetrating into the abdominal cavity. It was caused by the impact of a fragment separated from a projectile as a result of blast trauma and is classified as minor harm to health.

According to forensic medical expert report No. 13 dated 2 February 2021, during the examination of Eljan Elburus oglu Mammadov, the following injury was found: brain concussion. It was caused by the impact of a blast wave as a result of blast trauma and is classified as minor harm to health.

According to report No. 3/2155 dated 19 February 2021 of the Forensic Examination Center, the long-sleeved shirt, military sweater, long-sleeved undershirt, and the right glove indicated as belonging to Avaz Mayis oglu Abbasov had damages of the number and dimensions stated in the research part of the report. Although no copper-metal trace was found around the damages, based on their shape, dimensions, morphological structure, and the discovery around the damages of incompletely burned smokeless-powder particles, which are an additional factor of firing, the damages on the front part of the long-sleeved shirt, military sweater, and long-sleeved undershirt, and on the upper part of the right glove, were entry damages; the damage on the inner part of the right glove was an exit damage. They are characteristic of having been caused by the impact of bullets as a result of two shots fired from a rifled firearm, with the damages on the military long-sleeved shirt, military sweater, and long-sleeved undershirt being inflicted in a front-to-back direction, and the damages on the right glove being inflicted from top to bottom and from right to left, from a distance of more than 1 meter. However, it is not possible to determine specifically by bullets fired from which type and caliber of firearm those damages were caused. Those damages correspond to each other.

The damages on the clothing items could have arisen under the circumstances indicated in the descriptive part of the decision. On the sleeveless undershirt, waist warmer, mask-cap, military trousers, warm under-trousers, one pair of soldier’s boots, one pair of socks, and the left glove indicated as belonging to Avaz Mayis oglu Abbasov, incompletely burned smokeless-powder particles, which are an additional factor of firing, were found.

According to report No. 3/2156 dated 19 February 2021 of the Forensic Examination Center, the military sweater, 2 long-sleeved undershirts, short-sleeved undershirt, military trousers, warm under-trousers, and underpants indicated as belonging to Azar Mahal oglu Huseynov had damages of the number and dimensions stated in the research part of the report. Although no metal trace was found around the damages, based on their shape, dimensions, morphological structure, and the discovery around the damages of incompletely burned smokeless-powder particles, which are an additional factor of firing, the damages on the front part of the military sweater, 2 long-sleeved undershirts, and short-sleeved undershirt were entry damages; and the damages on the rear part of the sweater, 2 long-sleeved undershirts, short-sleeved undershirt, military trousers, one pair of warm under-trousers, and underpants were exit damages. They are characteristic of having been caused by the impact of a bullet

fired from a rifled firearm in one shot, in a direction from front to back and from left to right, from a distance of more than 1 meter. However, it is not possible to determine specifically by bullets fired from which type and caliber of firearm those damages were caused. Those damages correspond to each other. The damages on the clothing items—

Page 398

—could have arisen under the circumstances indicated in the descriptive part of the decision. On one pair of soldier's boots and one pair of socks belonging to Azar Mahal oglu Huseynov, incompletely burned smokeless-powder particles, which are an additional factor of firing, were found.

According to forensic medical expert report No. 01 dated 11 January 2021, among the injuries sustained by Sh. F. Safarov, the barotrauma was caused by pressure differences arising in the middle ear from the impact of a blast wave, and the scraped wound of the middle one-third of the right lower leg was caused by the impact of a blunt object. Since they were injuries not causing harm to health, their degree was not determined.

According to forensic medical expert report No. 02 dated 11 January 2021, no injuries or traces of injury were found on R. B. Kovalski.

According to forensic medical expert report No. 03 dated 11 January 2021, the injury sustained by U. N. Abbasov — barotrauma — was caused by pressure differences arising in the middle ear from the impact of a blast wave; since it was an injury not causing harm to health, its degree was not determined.

According to forensic medical expert report No. 04 dated 11 January 2021, the barotrauma sustained by R. Y. Abbasovwas caused by pressure differences arising in the middle ear from the impact of a blast wave; since it was an injury not causing harm to health, its degree was not determined.

According to forensic-ballistic and forensic-trace expert report Nos. 3/295 and 3/305 dated 30 April 2021, based on the shape and morphological structure of the damages on the KamAZ-43114 vehicle with military registration plate D588QQ, the damages on that vehicle are characteristic of having been caused as a result of the explosion of an explosive device, by the effect of the explosion, from a distance close to the center of the explosion, in a direction from rear to front.

According to forensic medical expert report No. 107 dated 8 February 2021, the injuries sustained by Samir Safar oglu Akbarov — closed craniocerebral trauma, brain concussion, foreign bodies in the sclera of both eyes, and numerous blind shrapnel wounds of the forehead and right temple areas — were caused by the impact of fragments formed as a result of the explosion of firearm projectiles and are classified as minor harm to health.

According to forensic medical expert report No. 1691 dated 15 January 2021, the injuries sustained by Vugar Ayaz oglu Ibrahimov — amputation at the level of the middle one-third of both lower legs and III–IV degree traumatic-hemorrhagic shock — were caused by the impact of fragments formed as a result of the explosion of firearm projectiles and are classified as serious harm to health.

According to forensic medical expert report No. 1692 dated 26 January 2021, the injuries sustained by Shamistan Sabir oglu Huseynov — extensive soft-tissue defect wounds of the left lower leg and foot, traumatic separation of the 1st toe of the left foot, open multi-fragment fractures of the middle and upper one-thirds of the shaft of the left tibia and the lower one-third of the fibula, open displaced shrapnel fractures of the I–IV metatarsal bones of the left foot, numerous blind shrapnel wounds of the left hand and right lower leg, and II degree traumatic-hemorrhagic shock — were caused by the impact of fragments formed as a result of the explosion of firearm projectiles and are classified as serious harm to health.

According to forensic medical expert report No. 1693 dated 26 January 2021, the injuries sustained by Ayaz Hasrat oglu Hasanli — lacerated-torn wounds of the left foot; closed multi-fragment fractures of the lower one-third of the lower-leg bones; shrapnel, displaced fractures of the I–V metatarsal bones, both phalanges of the 1st toe, the distal phalanges of the II and IV toes, and the proximal and distal phalanges of the III toe; thermal wounds and hematoma of the left lower-leg area; numerous shrapnel wounds of the left forearm area; and II degree traumatic-hemorrhagic shock — were caused by the impact of fragments formed as a result of the explosion of firearm projectiles and are classified as serious harm to health.

Page 399

According to forensic medical expert report No. 351 dated 9 March 2021, the injury sustained by Anar Telman oglu Asgarov — closed craniocerebral trauma, brain concussion, and barotrauma, namely bilateral cochlear neuritis and bilateral sensorineural hearing impairment resulting from barotrauma — was caused by the impact of a blast wave and is classified as serious harm to health.

According to forensic medical expert report No. 319 dated 1 March 2021, the injuries sustained by Ceyhun Ashraf oglu Gurbanov — barotrauma, resulting in bilateral chronic neuritis and bilateral sensorineural hearing impairment, with whisper speech heard from a distance of 4 meters in the right ear and 2 meters in the left ear; closed craniocerebral trauma; and brain concussion — were caused by the impact of a blast wave and a blunt object, and are classified as less serious harm to health.

According to forensic medical expert report No. 379 dated 29 March 2021, the injury sustained by Jamil Gadimali oglu Hasanov — closed craniocerebral trauma, brain concussion, and barotrauma, namely bilateral cochlear neuritis and bilateral sensorineural hearing impairment resulting from barotrauma — was caused by the impact of a blast wave and is classified as less serious harm to health.

According to expert report No. 88MTB-2-20 dated 28 December 2020 on forensic medical-biological examination of the submitted material evidence, Asif Soltanagha oglu Talibli's blood group is O(I). Human blood was found on the sweater, trousers, under-trousers, one pair of socks, and part of a soldier's boot. When the group affiliation of that blood was examined, only "H" antigen was obtained. Thus, the indicated blood stains could belong to a person with O(I) blood group, including Asif Soltanagha oglu Talibli, who had that blood group.

According to forensic medical expert report No. 1695 dated 26 January 2021, the injuries sustained by Asif Soltanagha oglu Talibli — amputation of the left lower leg at the level of the lower one-third, shrapnel wounds of both lower limbs, superficial scraped shrapnel wounds of the right lower leg, and II degree traumatic-hemorrhagic shock — were caused by the impact of fragments formed as a result of the explosion of a firearm projectile and are classified as serious harm to health, causing permanent loss of more than one-third of general working capacity.

According to forensic medical expert report No. 124 dated 4 February 2021, the injuries sustained by Mahammad Shahruddin oglu Ibadov — foreign bodies in the subcutaneous soft tissues of the posterior area of the right auricle, and abrasions of the right half of the face and neck — were caused by the impact of numerous fragments formed during an explosion and are classified overall as minor harm to health.

According to forensic-ballistic expert report No. 3/13 dated 5 February 2021, the military tunic, military sweater, long-sleeved undershirt, sleeveless undershirt, warm under-trousers, underpants, and cap belonging to A. Aghayev had damage of the dimensions and number indicated in the research part of the report. Based on the shape, dimensions, and morphological structure of the damage on the military clothing items, and the discovery on their surface of explosive substance — trotyl — and incompletely burned smokeless-powder particles, the indicated damage is characteristic of having been caused by the impact of fragments as a result of an explosion, at the center of the explosion, in various directions. That damage could also have occurred as a result of the explosion of an anti-tank mine. On the military clothing items belonging to J. Ismayilov, and on some of the military clothing items belonging to A. Aghayev, there was damage characteristic of being caused by thermal exposure, and it is presumed that such damage was caused by the thermal effect of an explosion.

According to forensic-ballistic expert report Nos. 3/326 and 3/329 dated 16 March 2021, based on the discovery on the surfaces of the front right and left wheel-disc parts from the remains of a Great Wall vehicle with military registration plate J311QQ of traces of explosive substance — trotyl, nitro compounds, sulfides, and active chlorine ions — and based on the shape and morphological structure of the damage, as well as the presence of soot stains around them, the indicated damage is characteristic of having been caused by the impact of fragments from the force of an explosion, at the center of the explosion, as a result of the explosion of an explosive device, including an anti-tank mine.

According to forensic medical expert report No. 17 dated 6 January 2021, the injuries sustained by Elmdar Hasan oglu Eminov — closed craniocerebral trauma, brain concussion, I–II degree thermal burns from flame on the posterior surface of the fingers of both hands, the lower one-third of the right forearm, and the forehead area, and contusion of the soft tissues of both shoulder girdles — were caused by the effects of the blast wave and flame resulting from an explosion and, overall, are classified as minor harm to health, causing short-term impairment of health.

According to forensic medical expert report No. 1929 dated 17 December 2020, during examination of the body of Asaf Abid oglu Aghayev, the injuries found on the body surface — numerous wounds of the body; wounds accompanied by injury to the major vessels of the soft tissues of the left thigh and left lower leg, and by open multi-fragment fractures of the left thigh and left lower-leg bones, resulting in massive external bleeding — were vital injuries, caused shortly before death by the impact of primary fragments as a result of an explosion. The direct cause of death was traumatic-hemorrhagic shock that developed in connection with massive external bleeding resulting from open fragmentary fractures of the left thigh and left lower-leg bones and injury to major vessels caused by the impact of primary fragments as a result of the explosion.

According to forensic medical expert report No. 1928 dated 17 December 2020, the injuries found on the body of Javad Asif oglu Ismayilov — II–III degree thermal burns of the head, neck, left upper limb, and the posterior surface of the chest, accompanied by intratissue hemorrhages into the brain, lungs, intestines, mesentery, and both kidneys — were vital injuries caused shortly before death by the local and general effect of high temperature. The rupture of the spleen was also a vital injury and was caused shortly before death by the impact of the blast wave. The cause of death was burn shock that developed in connection with II–III degree thermal burns of various areas of the body, and massive internal bleeding — traumatic-hemorrhagic shock — that developed as a result of rupture of the spleen.

According to forensic medical expert report No. 61 dated 18 January 2021, the injuries sustained by Mahabbat Maharram oglu Gurbanli — traumatic separation of the right lower leg at the level of the lower one-third, open displaced fractures of the left lower-leg bones, a wound with extensive tissue defect, through-and-through shrapnel wounds of the soft tissues of the left thigh, II–III degree traumatic-hemorrhagic shock, and Morel-Lavallée syndrome of the left lower leg — were caused by the impact of fragments formed as a result of the explosion of a firearm projectile and are classified as serious harm to health.

According to forensic medical expert report No. 120 dated 9 March 2021, the injuries sustained by Etibar Javid oglu Huseynli — abrasions of the right eyelid and right knee — were caused by the impact of a hard blunt object, could have occurred under various circumstances, and, since they were injuries not causing harm to health, their degree was not determined.

According to forensic medical expert report No. 121 dated 9 March 2021, the injuries sustained by Tarlan Tajaddin oglu Gurbanov — abrasions of the anterior surfaces of both lower legs and the right hand, and subungual hematoma of the 1st toe of the left foot — were caused by the impact of a hard blunt object, could have occurred under various circumstances, and, since they were injuries not causing harm to health, their degree was not determined.

According to forensic-ballistic expert report No. 3/387 dated 30 April 2021, based on the shape and morphological structure of the damage on the KamAZ-43114 vehicle with military registration plate E-727-QQ, the damage on the vehicle is characteristic of having been caused as a result of the explosion of an explosive device, by the effect of the explosion, from a distance close to the center of the explosion, in a direction from left to right. That damage could have occurred under the circumstances indicated in the descriptive part of the decision.

Page 401

According to forensic medical expert opinion No. 38 dated 28 January 2021, the injuries sustained by I.B. Orujaliyev — fractures with displacement of the distal metaphyses of both tibiae, the distal metaphysis of the right fibula, both calcaneal bones, the fifth metatarsal bone of the right foot, the bases of the third, fourth and fifth metatarsal bones of the left foot, and the left cuboid bone; closed displaced fractures of the posterior arches of the right sixth, seventh and eighth ribs and the left sixth, seventh, eighth and ninth ribs; blunt trauma to the chest; and contusion of the lungs — were caused by the impact of a hard blunt object and are classified as causing less serious harm to health.

According to forensic medical expert opinion No. 39 dated 12 January 2021, the injuries sustained by E.I. Mammadov — comminuted, displaced, intra-articular fractures of the calcaneus, talus, cuneiform bones, the bases of the first, second, third and fourth metatarsal bones of the right foot, and the lower third of the second metatarsal bone; fractures of the upper and lower thirds of the right fibula; closed displaced fractures of the distal phalanges of the third and fourth fingers of the right hand and the middle phalanx of the fourth finger; an open dislocation of the first finger; compartment syndrome of the right foot; wounds of the left eyebrow and the second, third and fourth fingers of the right hand; and wounds of the right thigh, lower leg and knee regions — were caused by the impact of fragments formed as a result of the explosion of a firearm projectile and are classified as causing less serious harm to health.

According to forensic medical expert opinion No. 119 dated 10 February 2021, the injuries sustained by I.E. Hashimov — abrasions of the forehead, neck, chest and right lower-leg areas, dry perforation of the tympanic membrane of the right ear, and acute left-sided

cochlear neuritis — were caused by the combined impact of fragments and the blast wave of an explosion and are classified as causing minor harm to health.

According to forensic medical expert opinion No. 1935 dated 27 December 2020, during the examination of the body of Elmir Rayil oglu Ganbarov, the following injuries were identified: a through-and-through gunshot wound with the entry wound on the left half of the anterior surface of the chest at the level of the fourth to fifth intercostal space, and the exit wound on the posterior surface of the chest in the right scapular region, with the wound track running from left to right, from front to back and from bottom to top, accompanied by injury to both lungs and the aorta; a through-and-through gunshot wound with the entry wound on the left half of the anterior surface of the chest in the second intercostal space, and the exit wound on the right lateral abdominal wall, two centimetres from the right iliac crest, with the wound track running from left to right, from front to back and from top to bottom, accompanied by injury to the liver; a through-and-through wound with the entry wound on the anterior abdominal wall, one centimetre to the left of the midline, and the exit wound on the posterior surface of the chest along the spinal line, with the wound track running from left to right, from front to back and from bottom to top, accompanied by injury to the stomach and diaphragm; and one blind gunshot wound with the entry wound on the right lateral abdominal wall in the subcostal area, ending blindly with the projectile lodged in the wound channel. In total, three through-and-through gunshot wounds and one blind gunshot wound were identified. The cause of death of Elmir Rayil oglu Ganbarov was traumatic-haemorrhagic shock resulting from acute internal blood loss caused by gunshot wounds to the organs of the thoracic and abdominal cavities.

According to forensic medical expert opinion No. 129 dated 2 April 2021, the injuries sustained by Emin Suleyman oglu Aliyev — a through-and-through gunshot wound of the soft tissues of the right scapular region and the anterior surface of the upper third of the right upper arm, a blind gunshot wound of the right knee region, an open avulsion fracture of the distal metaphysis of the left humerus, and a small-fragment open fracture of the medial condyle of the right femur, with the condition following primary and secondary surgical treatment of the wounds, removal of a foreign body/bullet and plaster immobilisation — are classified, by degree, as causing serious harm to health.

According to forensic medical expert opinion No. 130 dated 2 April 2021, the injuries sustained by Ramil Ali oglu Rahimov — a blind shrapnel wound of the anterior surface of the right wrist and the fifth finger of the left hand, and an avulsion fracture of the phalanx of the fifth finger of the left hand — were caused by the impact of primary fragments as a result of an explosion and are classified as causing serious harm to health.

Page 402

According to forensic ballistic and traceological expert opinions Nos. 3/59, 3/60 and 3/61 dated 12 February 2021, one item marked with the number “1” is a 5.45 mm calibre rifled automatic combat firearm of the “AK-74” model, of the Kalashnikov design, serial No. 4337283, manufactured in the former USSR by industrial method at the Izhevsk Mechanical

Plant in 1986. It is in working order and suitable for firing; it does not discharge on its own without being brought into firing position and without the trigger being pulled. One weapon marked with the number “2” is also a rifled automatic combat firearm of the “AK-74” model, of the Kalashnikov design, manufactured in the former USSR by industrial method at the Izhevsk Mechanical Plant in 1981. It is in working order and suitable for firing; it does not discharge on its own without being brought into firing position and without the trigger being pulled.

According to forensic medical expert opinion No. 40 dated 15 February 2021, the injuries sustained by V.Z. Shabanov — traumatic amputation of the left lower limb at the level of the Chopart joint, compartment syndrome of the muscles of the left lower leg, and fasciotomy of the muscles of the left lower leg — were caused by the impact of fragments formed as a result of the explosion of a firearm projectile and are classified as causing serious harm to health, resulting in a permanent loss of general working capacity of more than one-third.

According to forensic criminalistic expert opinion No. 01/tkb dated 19 January 2021, multiple torn and lacerated-ragged injuries with a blunt formation mechanism were found on the right half of the front surface and the right sleeve of the jacket belonging to Giyas Fariz oglu Taghiyev; on the right sleeve of each of the tunic, sweater and long-sleeved undershirt; on the lower part of the right leg of each of the trousers and under-trousers; and on the cut fragment of the trousers and the cap. Taking into account the location, nature, shape and dimensions of the damage on the clothing, as well as the information about the case stated in the decision, it may be said that these injuries are consistent with having been caused by fragments formed as a result of an explosion at close range, including fragments formed as a result of a mine explosion. Particles of incompletely burned gunpowder and soot, which are additional factors of an explosion, were detected on the trousers and the cut fragment of the trousers belonging to Giyas Fariz oglu Taghiyev.

According to forensic medical expert opinion No. 60 dated 28 January 2021, the injuries sustained by Q.F. Taghiyev — amputation of the right lower limb at the level of the ankle joint, wounds of the forehead and right temporal regions, a chopped-lacerated wound of the right supraorbital region, multiple shrapnel wounds of the right hand and right forearm, and traumatic-haemorrhagic shock of the second degree — were caused by the impact of fragments formed as a result of the explosion of a firearm projectile and, by degree, are classified as causing serious harm to health, resulting in a permanent loss of general working capacity of more than one-third.

According to forensic medical expert opinion No. 01 dated 1 February 2021, during the examination of the body of Vasif Uzeyir oglu Maharramov, the following injuries were identified on the body surface: complete traumatic amputations of the left lower limb at the lower third of the lower leg and incomplete traumatic amputations of the right lower limb at the lower third of the lower leg, attached by a skin flap, as well as acute external blood loss. The noted injuries were sustained during life, were caused by the impact of multiple fragments formed as a result of the explosion of an explosive device, and are classified in their totality as serious harm to health posing a danger to life.

According to forensic ballistic expert opinions Nos. 3/184 and 3/185 dated 26 February 2021, there were no injuries characteristic of violence against Vasif Uzeyir oglu Maharramov on his clothing. Based on the detection of explosive substance on the surfaces of the jacket, field-type trousers, under-trousers and underpants belonging to Vasif Uzeyir oglu Maharramov, as well as the shape and morphological structure of the injuries and the surrounding traces, the noted injuries are characteristic of having been caused by the impact of fragments from the explosion of an explosive device, including the explosion of a mine, at a close distance from the centre of the explosion. No injuries characteristic of the explosion of an explosive device were found on the submitted jacket and undershirt.

Page 403

According to forensic medical expert opinion No. 15 dated 12 January 2021, during the examination of the body of Sarkhan Ilgar oglu Mukhtarov, the following injuries were identified: partial traumatic amputation of the anterior half of the head, accompanied by open comminuted fractures of the facial skeleton, both temporal bones, frontal bone and anterior parietal bones, resulting in crushing and destruction of brain tissue; abrasions on the anterior surface of the lower third of the neck, anterior surface of the chest, anterior surface of the right shoulder joint, posterior surface of the lower third of the right forearm, dorsal surfaces of both hands, anterior surfaces of both lower legs, and the left lateral surface of the chest; chopped wounds on the dorsal surfaces of both hands, the posterior surface of the lower third of the right lower leg, the outer surface of the right ankle joint, the plantar surface of the right foot, and the posterior surface of the middle third of the left lower leg; open fragmentary fractures of the proximal phalanx of the fourth finger of the right hand, the distal phalanx of the third finger, the bones of the right lower leg, the tarsal bones of the right foot, and the bones of the left lower leg. The direct cause of death was partial traumatic amputation of the anterior half of the head, accompanied by open comminuted fractures of the facial skeleton, both temporal bones, frontal bone and anterior parietal bones, resulting in crushing and destruction of brain tissue.

According to forensic ballistic expert opinions Nos. 3/386 and 3/387 dated 26 February 2021, traces of explosive substance were detected on the surface of the jacket, military field-type trousers, one pair of boots and two pairs of black socks belonging to Sarkhan Ilgar oglu Mukhtarov. The shape and morphological structure of the injuries are characteristic of having been caused by fragments from the impact of an explosion, including the explosion of an anti-tank mine, at a close distance from the centre of the explosion and in the right-side direction. Due to the absence of an appropriate scientific methodology, it was not possible to determine the type or calibre of the weapon or explosive device that caused the injuries on the military clothing items belonging to Sarkhan Ilgar oglu Mukhtarov, nor the time when the injuries were inflicted. The injuries on the military clothing items attributed to Sarkhan Ilgar oglu Mukhtarov correspond to the injuries on S. Mukhtarov’s body. Traces of explosive substance were detected on the clothing items belonging to Sarkhan Ilgar oglu Mukhtarov.

According to forensic medical expert opinion No. 22 dated 4 February 2020, the injuries identified on the body of Rashad Farzali oglu Javadov — complete traumatic amputation of the head, right upper limb and both lower limbs from the torso, complete traumatic amputation of the left hand at the level of the wrist joint, extensive wounds incompatible with life involving the right half and posterior surface of the chest, the anterior and both lateral surfaces of the abdominal and pelvic cavities, accompanied by eventration of the organs of the thoracic, abdominal and pelvic cavities, multiple injuries to internal organs, and acute massive external bleeding — were caused by the impact of primary fragments as a result of an explosion. The direct cause of death was complete traumatic amputation of the head, right upper limb and both lower limbs from the torso, and extensive wounds of various parts of the body with eventration of cavity organs, namely injuries incompatible with life.

According to forensic ballistic expert opinion No. 3/473 dated 9 April 2021, the military clothing items contained injuries of the size and number indicated in the research part of the expert opinion. Based on the shape, size and morphological structure of the injuries on the military clothing items, as well as the detection on their surface of explosive substance, namely TNT, and particles of incompletely burned smokeless powder, the noted injuries are characteristic of having been caused by fragments as a result of an explosion, in different directions from the centre of the explosion. However, it was not possible to determine specifically what type of projectile or projectiles caused these injuries.

According to forensic genetic expert opinion No. 21/31/68 dated 17 May 2021, the blood samples present on items belonging to Rashad Farzali oglu Javadov belonged to a male biological child of Farzali Novruzali oglu Javadov.

Page 404

According to forensic medical expert opinion No. 05 dated 1 March 2021, during the examination of the body of Gubad Islam oglu Zeynalov, the following injuries were identified: multiple superficial wounds on the face and the anterior surface of the neck; a wound on the left anterior part of the chest penetrating into the thoracic cavity; multiple wounds in the anterior part of the left axillary fossa; multiple wounds on the left upper limb; isolated wounds on the left scrotum and the glans of the external genital organ, on both lower legs and on the right upper limb; injury to the left lung, intestinal loops and right femoral artery; haemopneumothorax; and acute blood loss. The noted injuries were caused by the impact of multiple fragments formed during an explosion. The cause of death was multiple blind shrapnel wounds of the body penetrating into the abdominal and thoracic cavities, accompanied by injury to internal organs and major vessels and by acute blood loss.

According to forensic medical expert opinion No. 194 dated 16 March 2021, the injuries sustained by Balagardash Mubariz oglu Malikmammadov — a firearm wound penetrating into the pleural cavity on the left half of the chest, haemopneumothorax, fracture of the nasal bones, wounds of the nasal bridge, the right half of the forehead, the upper third of the right forearm, the left half of the neck and the right knee region, and traumatic-haemorrhagic shock

of the second degree — were caused by the impact of fragments formed as a result of the explosion of a firearm projectile and are classified as causing serious harm to health.

According to forensic medical expert opinion No. 195 dated 31 March 2021, the injuries sustained by Nemat Novruz oglu Babayev — a blind shrapnel wound of the right half of the chest penetrating into the pleural cavity and complicated by pneumothorax; open, displaced, fragmentary fractures with soft-tissue defects of the middle third of the diaphysis of the right fibula and the upper and middle thirds of the diaphysis of the left tibia; traumatic-haemorrhagic shock of the third to fourth degree; and wounds of the nasal bridge and the third and fourth fingers of the right hand — were caused by the impact of fragments formed as a result of the explosion of a firearm projectile and are classified as causing serious harm to health.

According to forensic ballistic expert opinion No. 3/454 dated 17 March 2021, the two items submitted for examination consisted of fragments detached from the body and the ribbon of a 9M55K rocket with a 300 mm cluster-type warhead and fragmentation combat elements used in the Russian-manufactured Smerch multiple-launch rocket system. The 9N235 combat element contains 96 ready-made fragments weighing 4.5 grams each and 360 ready-made fragments weighing 0.75 grams each. The weight of the combat element is 1.75 kilograms, including 0.32 kilograms of explosive substance, and its dimensions are 69 by 263 millimetres. The armour-piercing capacity of fragments detached from the combat element is 5–7 millimetres at a distance of 10 metres and 1–3 millimetres at a distance of 100 metres.

According to forensic ballistic expert opinion No. 3/455 dated 31 March 2021, the four submitted items were made by industrial method, using appropriate equipment, of a special design similar to those used in devices such as rocket projectiles. They were carefully made of typical material and, by their shape, manufacturing features, traces on their surfaces and other characteristics, indicate that they formed part of an industrially manufactured explosive device or devices, or artillery projectiles. However, due to the small size of the metal fragments and the absence of corresponding factory markings on them, it was not possible to determine the device or projectile of which they formed part, or the type and weight of the explosive substance they contained.

According to forensic medical expert opinion No. 341 dated 15 March 2021, the injuries sustained by Alihasan Tumar oglu Hasanov — traumatic detachment of the right lower limb at the level of the ankle joint, abrasions on the anterior surface of the left lower leg, and traumatic-haemorrhagic shock of the second degree —

were caused by the impact of fragments formed as a result of the explosion of a firearm projectile and are classified as causing serious harm to health, resulting in a permanent loss of general working capacity of more than one-third.

According to forensic medical expert opinion No. 540 dated 5 April 2021, the injuries sustained by Nuraddin Gurbaddin oglu Azizli — post-traumatic amputation of the right lower limb at the level of the upper third of the lower leg, an open displaced fracture of the middle third of the bones of the left lower leg, and a fracture of the proximal phalanx of a toe of the left foot — were caused by the impact of fragments and the blast wave generated as a result of the explosion of a projectile with explosive properties and are classified as causing serious harm to health.

According to forensic medical expert opinion No. 541 dated 5 April 2021, the injuries sustained by Vaqif Shamil oglu Naghiyev — post-traumatic amputation of the left lower limb at the level of the lower third of the lower leg, multiple shrapnel wounds of the right lower leg, face and right hand, and post-traumatic perforation of the left tympanic membrane — were caused by the impact of fragments and the blast wave generated as a result of the explosion of a projectile with explosive properties and are classified as causing serious harm to health.

According to forensic medical expert opinion No. 546 dated 5 April 2021, the injuries sustained by Elmaddin Chingiz oglu Alishanov — multiple shrapnel wounds of the face, neck and right hand, contusion of the right eyeball, and a through-and-through wound resulting in the loss of the left eyeball — were caused by the impact of fragments generated as a result of the explosion of a projectile with explosive properties and are classified as causing serious harm to health, resulting in a permanent loss of more than one-third of general working capacity.

According to forensic medical expert opinion No. 143 dated 19 April 2021, no visible injury or trace of injury related to the incident in question was found on the body surface of Alim Ilgar oglu Maharramov.

According to forensic medical expert opinion No. 636 dated 19 April 2021, the injuries sustained by Vugar Elkhan oglu Ibrahimov — a small number of wounds on the face, multiple wounds on the dorsal surface of the left hand, and shrapnel wounds of the left thigh — were caused by the impact of fragments generated as a result of the explosion of a projectile with explosive properties and are classified as causing minor harm to health, resulting in a short-term impairment of health.

According to forensic medical expert opinion No. 139 dated 6 May 2021, no visible injury or trace of injury related to the incident in question was found on the body surface of Hajinazar Eldaniz oglu Nazarov.

According to forensic medical expert opinion No. 615 dated 12 April 2021, the injuries sustained by Ruhid Alim oglu Hajizade — traumatic detachment of the left lower limb at the level of the ankle joint, superficial abrasions on the anterior surface of the left lower leg and the anterior surface of the knee joint, abrasions on the anterior surface of the left forearm and on the anterior and posterior surfaces of the left hand, and traumatic-haemorrhagic shock of the third degree — were caused by the impact of fragments formed as a result of the

explosion of a firearm projectile and, by degree, are classified as causing serious harm to health, resulting in a permanent loss of more than one-third of working capacity.

According to forensic medical expert opinion No. 200 dated 8 May 2021, the injuries sustained by Khazar Vahid oglu Bandaliyev — non-penetrating blind shrapnel wounds of the right half of the face, the lower third of the left forearm, the dorsum of the left hand, and the left half of the abdomen — were caused by the impact of primary fragments resulting from the explosion of a substance with explosive properties and are classified as causing minor harm to health, resulting in a short-term impairment of health.

According to forensic medical expert opinion No. 201 dated 8 May 2021, the injuries sustained by Rashad Faraj oglu Aslanov — multiple blind shrapnel wounds of both upper limbs and the right half of the abdomen — were caused by the impact of primary fragments resulting from the explosion of a substance with explosive properties and are generally classified as causing minor harm to health, resulting in a short-term impairment of health.

Page 406

According to forensic medical expert opinion No. 148 dated 23 April 2021, the injuries sustained by Siraj Javid oglu Guliyev — multiple blind shrapnel wounds of the left half of the face, the left forearm, the dorsum of the left hand and the left lateral abdominal wall, accompanied by acute left-sided cochlear neuritis — were caused by the impact of primary fragments as a result of an explosion and are generally classified as causing minor harm to health, resulting in a short-term impairment of health.

According to the complex forensic ballistic, traceological and explosive-technical expert opinion of the Forensic Examination Centre, Nos. 3/678 and 3/679, dated 4 May 2021, one submitted item consisted of fragments of the body of an industrially manufactured high-explosive PMN-type anti-personnel mine, broken apart as a result of an explosion. Three submitted items made of a plastic-like material were in a fragmented and deformed condition as a result of the explosion.

The item recovered from the scene, which was presumed to be part of the left slipper from a set of three slippers, was also in a fragmented and deformed condition as a result of the explosion. Based on the shape, size and morphological structure of the injuries on the item, as well as the detection on its surface of explosive substance, namely TNT, and particles of incompletely burned smokeless powder, the noted injuries are characteristic of having been caused by fragments as a result of an explosion, in different directions from the centre of the explosion.

Such injuries could have been caused, under the circumstances described in the descriptive part of the decision, by the explosion of the three submitted black plastic-like items. However, since it was not possible to determine whether the three submitted black-red items were specifically parts of the left slipper, it was not possible to determine whether those injuries corresponded to the injuries on the body of R.A. Hajizade described in the descriptive

part of the decision. If those items were parts of the left slipper, then the injuries would correspond to the injuries on the body of R.A. Hajizade described in the descriptive part of the decision. The epicenter of the explosion was the three black-red items presumed to be parts of the left slipper.

Explosive substances, namely TNT and nitro-compounds, were detected in the soil mass taken from the scene and on the three black plastic-like items. These particles correspond to one another in terms of their composition. Based on the discovery of a black plastic-like item within the soil mass, as well as the identity of the explosive substances detected in the submitted soil mass and on the three black plastic-like items, the explosive substances detected in the soil mass could have resulted from the explosion of the three submitted plastic-like items.

According to forensic medical expert opinion No. 720 dated 7 May 2021, the injuries sustained by Sahil Dilsuz oglu Alakbarov — compression fracture of the body of the seventh thoracic vertebra, displaced fractures of the bones of the left thigh and right lower leg, displaced fractures of the third and fifth metatarsal bones, crushing of the soft tissues of the upper arm region of the left upper limb, and left-sided post-traumatic brachial plexopathy — were caused by the impact of hard blunt objects and are generally classified as serious harm to health posing a danger to life.

According to forensic medical expert opinion No. 185 dated 19 May 2021, the injury sustained by Rustam Ali oglu Ziyadov — a lacerated wound of the right parietal region — was caused by the impact of primary fragments resulting from the explosion of a substance with explosive properties and is classified as causing minor harm to health, resulting in a short-term impairment of health.

According to forensic explosive-technical expert opinion No. 3/896 dated 27 May 2021, the trousers said to belong to Sahil Dilsuz oglu Alakbarov contained

damage in the area indicated in the research part of the opinion. Such damage could have occurred under the circumstances described in the descriptive part of the decision, as a result of a mine explosion. No damage characteristic of having been caused by the impact of a bullet fired from a firearm or by the impact of fragments resulting from an explosion was found on the military trousers and other military clothing said to belong to Sahil Dilsuz oglu Alakbarov.

According to forensic medical expert opinion No. 721 dated 7 May 2021, the injuries sustained by G.N. Hajiyev — numerous blind shrapnel wounds of the face, anterior surface of the chest, both lower limbs, the left upper limb and the left lumbar region; a through-and-through wound of the cornea of the left eye; and post-traumatic amputation of the middle third of the right lower leg — were caused by the impact of fragments formed as a result of the explosion of an object with explosive properties and are generally classified as causing

serious harm to health, resulting in a permanent loss of more than one-third of working capacity.

According to forensic criminalistic and traceological expert opinion No. 3/893 dated 27 May 2021, the submitted military clothing items contained damage. The damage on the military clothing items could have been caused as a result of a mine explosion.

According to forensic medical expert opinion No. 1089 dated 10 May 2021, when Anar Ali oglu Suleymanov was admitted to hospital, two wounds with irregular edges were found on the left half of his chest. The noted injuries were caused by one shot fired from a firearm; they could have been inflicted on the date and under the circumstances indicated in the decision, namely when a bullet struck a concrete pillar, changed its direction and injured the chest. By degree, they are classified as causing minor harm to health.

According to forensic medical expert opinion No. 699 dated 17 May 2021, the injuries sustained by P.Sh. Aliyev — traumatic detachment of the right lower limb at the level of the ankle joint, chopped-lacerated wounds of the left eyebrow, subconjunctival haemorrhage of the left eye, penetrating injury of the left eye, and a chopped-incised wound of the left half of the chin — were caused by the impact of fragments generated as a result of the explosion of a projectile with explosive properties and are classified as causing serious harm to health, resulting in a permanent loss of more than one-third of general working capacity.

According to the opinion No. 688 of the forensic medical expert dated 17.05.2021, the injuries sustained by Bakhtiyar Ilgaroglu include a traumatic fracture of the right leg at the level of the metatarsal bones, superficial wounds on the back of the right hand caused by the impact of shrapnel resulting from the explosion of a projectile with explosive properties, which are serious injuries to health, resulting in a permanent loss of more than 1/3 of the total motor function,

According to the opinion No. 574 of the forensic medical expert dated 17.05.2021, the injuries sustained by A.I. Dunyumalizada include a hematoma of the right periorbital region, traumatic corneal opacification of the right eye, abrasions on the palmar surface of the face, right hand, lacerations on the right half of the waist, and right thigh caused by the impact of numerous shrapnel that hit the motor function during the explosion of an explosive substance. It is caused by a minor injury to health.

During the autopsy of the body of Bayramov Ilkin Bayram oglu, dated 27.04.2021, no. 23, no other injuries or wounds were found, except for open fractures of the right tibia bones, large necrotic wounds of the right thigh and gluteal intercostal space, and wounds of the right thigh and right earlobe. The cause of his death was a traumatic rupture of the lower 1/3 of the left lower limb from the lower 1/3 of the calf with non-colonization of the left lower limb with a background of anaerobic clostridiol phenocryst and myelonecrosis, severe sepsis and shock, developed polyorgan failure, deep-seated wounds of the posterior surfaces of the left gluteal, upper and lower 1/3 of the thigh, deep-seated wounds of the inner surfaces of the gluteal and upper 1/3 of the thigh in the right lower limb, open fractures of the proximal and distal parts

of the middle 1/3 of the right fibula and the fibula, open fractures of the clavicle and the fibula, two-way cranial nerve, deep wounds of the right auricle, traumatic-hemorrhagic shock IV degree.

Page 408

According to forensic medical expert opinion No. 630 dated 7 May 2021, the injuries sustained by Eldaniz Rustam oglu Rustamov — an incised wound of the conjunctiva of the left eyeball penetrating as far as the sclera, an incised-chopped wound of the lower eyelid, and wounds of the forehead and the left half of the face — were caused by the impact of fragments generated as a result of the explosion of a projectile with explosive properties and are generally classified as causing less serious harm to health.

According to forensic medical expert opinion No. 642 dated 4 May 2021, the injuries sustained by Khayal Farman oglu Babayev — crushing of the soft tissues of both lower limbs, subcutaneous bruising, and superficial wounds and abrasions of both lower limbs and the perineal region — were caused by the impact of multiple fragments formed during the explosion of an explosive substance and are classified as causing minor harm to health.

According to forensic medical expert opinion No. 500 dated 5 May 2021, the injuries sustained by Abil Ayaz oglu Isayev — multiple blind shrapnel wounds of both thighs — were caused by the impact of multiple fragments formed during the explosion of an explosive substance and are generally classified as causing minor harm to health.

According to forensic medical expert opinion No. 655 dated 20 April 2021, the injuries identified in Namiq Alicavad oglu Mamedov — traumatic amputation of the left lower limb at the level of the lower third of the lower leg; an extensive wound with a tissue defect in the middle and upper thirds; multiple lacerated wounds of the posterior surface of the left thigh and left gluteal region; a large third- to fourth-degree thermal burn and lacerated-ragged wounds on the anterior surface of the right lower leg; traumatic amputation of the right testicle and partial detachment of the glans penis; multiple wounds of both forearms and hands; lacerated-ragged wounds and second-degree thermal burns of the face; accompanied by traumatic-haemorrhagic shock of the second degree — were caused by the impact of fragments and high temperature generated as a result of the explosion of a projectile with explosive properties and are classified as causing serious harm to health, resulting in a permanent loss of not less than one-third of general working capacity.

According to forensic ballistic expert opinion No. 3/826 dated 1 June 2021, based on the size and morphological structure of the damage on military field-type trousers and underpants, as well as the detection on their surface of explosive substance, namely TNT, and particles of

incompletely burned smokeless powder, the noted damage is characteristic of having been caused by fragments as a result of an explosion, in different directions from the centre of the explosion. Such damage could also have occurred under the circumstances described in the descriptive part of the decision as a result of a mine explosion.

According to forensic medical expert opinion No. 769 dated 18 June 2021, when I.S. Yagublu was admitted to hospital, he had traumatic detachment of the left lower limb at the level of the ankle joint, as a result of which the left lower limb was amputated at the level of the lower third of the lower leg; multiple shrapnel wounds of both lower and upper limbs; a closed displaced fragmentary fracture of the middle phalanx of the second finger of the left hand; and closed craniocerebral trauma with concussion of the brain. The noted injuries were caused by the impact of multiple fragments and the blast wave formed during an explosion, could have been inflicted on the date and under the circumstances indicated in the decision, and, by degree of severity, are generally classified as causing serious harm to health, resulting in a permanent loss of more than one-third of general working capacity, namely 50%.

According to forensic ballistic and traceological expert opinion No. 3/1054 dated 23 June 2021, traces of explosive substance, namely TNT, were detected on the surfaces of the military field-type trousers, under-trousers and socks belonging to Ibadat Salman oglu Yagublu. Based on the shape and morphological structure of the damage and the presence of soot stains around it, the noted damage is characteristic of having been caused by fragments from the explosion of an explosive device, including an anti-personnel mine, at a close distance from the centre of the explosion, in the left-side

direction, as a result of the impact of the explosion. The said damage is characteristic of having occurred in the position described in the descriptive part of the decision.

According to forensic biological expert opinion No. 41/MTB-21 dated 16 July 2021, the blood group of Ibadat Salman oglu Yagublu is A (II), Rh positive. Human blood was detected in stains on the tunic, dark-green long-sleeved undershirt, T-shirt, military trousers, under-trousers, sock fragment and military boot, namely the right boot. When the blood group was determined under the ABO system, antigen “A” was obtained, while antigens “B” and “H” and agglutinins were not obtained. Thus, the noted blood may belong to a person with blood group A beta (II), including Ibadat Salman oglu Yagublu, who has that blood group.

According to forensic medical expert opinion No. 226 dated 29 May 2021, the injuries sustained by E.C. Huseynli — blunt trauma of the right eye, abrasions of the cornea and conjunctiva, a lacerated wound of the plantar region of the left foot accompanied by myopia of the left eye, a displaced intra-articular fracture of the distal metaphysis of the left tibia, and open displaced fragmentary fractures of the second and third metatarsal bones of the left foot — were caused by the impact of the blast wave and primary fragments resulting from the explosion of a substance with explosive properties. They could have been caused under various circumstances and, by degree, are classified as causing serious harm to health.

According to forensic medical expert opinion No. 1565 dated 3 December 2020, the injuries identified in Mustafa Yashar oglu Salifov — haematoma of the upper eyelid of the left eye, subconjunctival haemorrhage, haematoma of the subcutaneous tissues of the scrotum, traumatic detachment of the left foot at the level of the intertarsal joints, and post-haemorrhagic anaemia of moderate severity — were caused by the impact of fragments and/or the blast wave generated as a result of the explosion of a projectile with explosive properties and are classified as causing serious harm to health, resulting in a permanent loss of 50% of general working capacity.

According to forensic medical expert opinion No. 1566 dated 3 December 2020, the injuries identified in Elvin Yusif oglu Khankuliyev — traumatic detachment of the right foot at the level of the intertarsal joints — were caused by the impact of fragments and/or the blast wave generated as a result of the explosion of a projectile with explosive properties and are classified as causing serious harm to health, resulting in a permanent loss of 50% of general working capacity.

According to forensic medical expert opinion No. 110 dated 24 February 2021, the injury identified in Samir Jahid oglu Imanov — abrasions of the left infraorbital region — is characteristic of having been caused by a blunt mechanism, namely the impact of a hard blunt object, and it cannot be ruled out that it was caused by secondary fragments formed during an explosion. Since the injuries do not constitute harm to health, their degree was not determined.

According to forensic medical expert opinion No. 07 dated 11 January 2021, the injuries identified in Safa Adilkhan oglu Huseynli — pigmentation of the nasal bridge and the right half of the face — are traces of healed wounds caused by the impact of primary fragments as a result of an explosion. Since the injuries do not constitute harm to health, their degree was not determined.

According to forensic medical expert opinion No. 24 dated 20 January 2021, the injuries identified in Miragha Aghamir oglu Mammadov — traumatic amputation at the level of the middle third of the right lower leg, accompanied by multiple shrapnel wounds of the left heel region and left hand — were caused by the impact of primary fragments as a result of an explosion and are classified as causing serious harm to health, resulting in a permanent loss of 50% of general working capacity.

According to forensic medical expert opinion No. 37 dated 27 January 2021, the injury identified in Taleh Shakir oglu Rajili — a wound on the anterior surface of the right auricle — was caused by the impact of a hard blunt object.

Page 410

Since the injury does not constitute harm to health, its degree was not determined.

According to forensic medical expert opinion No. 13 dated 8 January 2021, the injuries identified in Ramil Mammad oglu Ibrahimov — a closed, uncomplicated compression

fracture of the body of the third lumbar vertebra, bruising of the left thigh region, and abrasions of the left hand and right lower leg — are characteristic of having been caused by a blunt mechanism. It cannot be ruled out that they were caused when the injured areas struck hard blunt objects under the impact of a blast wave formed during an explosion. In their totality, they are classified as causing serious harm to health.

According to forensic medical expert opinion No. 267 dated 16 April 2021, the injuries identified in Yusif Murad oglu Ahmadov — displaced fractures of the lower third of the diaphysis of the left humerus, the scaphoid bone, the heads of the first to third metatarsal bones of the left foot, the base of the fifth metatarsal bone, and the proximal phalanx of the first toe; a comminuted, displaced, closed fracture of the left calcaneus; open fragmentary displaced fractures of the lower third of the diaphyses of the bones of the left lower leg; and complete posterior dislocation of the talus — are characteristic of having been caused by a blunt mechanism. It cannot be ruled out that they were caused when the injured areas struck hard blunt objects under the impact of a blast wave formed during the explosion of military ammunition. They are classified as causing serious harm to health.

According to forensic medical expert opinion No. 31 dated 4 June 2021, the injuries on the body of Siraj Abish oglu Abishov — acute blood loss; a blind wound of the right lumbar region penetrating into the abdominal cavity, accompanied by injury to the inferior vena cava and the right kidney; incomplete traumatic detachment of the right lower limb at the level of the lower third of the thigh, hanging on a flap of skin; a blind wound of the left medial ankle region accompanied by open, displaced, fragmentary fractures of the bones of the lower leg; multiple blind wounds of the soft tissues of the right gluteal region, left thigh and lower leg; second- to third-degree thermal burn wounds of the forehead, face, right shoulder, right upper arm and thigh regions; and multiple abrasions of the left lateral abdominal wall and right upper-arm region — are characteristic of having been caused by the flame, blast wave, primary fragments and secondary fragments with a blunt mechanism formed during the explosion of military ammunition with explosive properties. The cause of death was traumatic-haemorrhagic shock that developed in connection with the injuries sustained.

According to forensic medical expert opinion No. 32 dated 4 June 2021, the injuries on the body of Maharram Ali oglu Ibrahimov — open craniocerebral trauma accompanied by multiple open comminuted fractures of the bones of the skull and facial skeleton, diffuse crushing and destruction of brain tissue, and destruction of the left eyeball; traumatic fractures at root level of the first tooth on the left and the first and second teeth on the right in the upper jaw; an open displaced fracture of the mandible; multiple injuries to the organs of the abdominal and pelvic cavities; traumatic separation of the torso at the level of the ninth thoracic vertebra, hanging on a flap of skin, accompanied by multiple open comminuted fractures of the tenth, eleventh and twelfth thoracic vertebrae, the lumbar vertebrae, the pelvic bones and the sacrum; incomplete traumatic amputations of the right upper limb at the level of the middle third of the forearm, the left hand at the level of the wrist joint, and the right lower limb at the level of the hip joint; complete traumatic amputation of the left lower limb at the level of the hip joint; and second- to third-degree thermal burn wounds of various parts

of the body — are characteristic of having been caused by the flame, blast wave, primary fragments and secondary fragments with a blunt mechanism formed during the explosion of military ammunition with explosive properties. The cause of death was trauma incompatible with life, accompanied by the above-mentioned injuries.

According to forensic medical expert opinion No. 33 dated 4 June 2021, the injuries on the body of Arif Aghalar oglu Aliyev — open craniocerebral trauma accompanied by open displaced fragmentary fractures of the cranial vault, skull base and facial skeleton, diffuse injury to brain tissue, and injury to the left eyeball; a wound of the right cheek region extending into the oral cavity;

two wounds of the scrotum accompanied by destruction of both testicles; open displaced fragmentary fractures of the bones of the left forearm; a blind wound of the dorsum of the left hand accompanied by open fragmentary fractures of the second, third and fourth metacarpal bones; incomplete traumatic amputations of the left hand at the level of the wrist joint and of the right foot at the level of the ankle joint, hanging on a flap of skin; an open wound of the left foot accompanied by open comminuted fractures of the third, fourth and fifth metatarsal bones and the calcaneus; multiple blind wounds of the soft tissues of the right upper arm, left forearm, first finger of the left hand, both thighs and lower legs, and the left knee region — are characteristic of having been caused by the flame, blast wave, primary fragments and secondary fragments with a blunt mechanism formed during the explosion of military ammunition with explosive properties. The cause of death was craniocerebral trauma accompanied by open displaced fragmentary fractures of the cranial vault, skull base and facial skeleton, and diffuse injury to brain tissue as a result of the explosion.

According to forensic medical expert opinion No. 880 dated 11 June 2021, the injuries identified in Emin Hasan oglu Mammadov — multiple wounds of the left parietal-temporal region, the right forearm, right hand region, left upper arm, forearm and dorsum of the hand, and the left cheek region; blunt trauma accompanied by bruising of the left half of the chest; and thermal burn wounds on the dorsal surfaces of the fingers of both hands — were caused by the local impact of high temperature and the impact of a hard blunt object and, by degree, are classified as causing minor harm to health.

According to forensic medical expert opinion No. 349 dated 20 May 2021, the injuries identified in Niyamaddin Jamaladdin oglu Mammadov — intra-articular displaced fractures of the left tibia accompanied by rupture of the syndesmosis and outward dislocation of the foot, fragmentary displaced closed fractures of the distal metaphysis of the fibula, and abrasions of both lower-leg regions — are characteristic of having been caused by the impact of a blunt object and are classified as causing less serious harm to health, resulting in long-term impairment of health.

According to forensic medical expert opinion No. 351 dated 20 May 2021, the injuries identified in Keram Ilham oglu Aliyev — fragmentary displaced fractures of the bones of the

right lower leg, the right talus and both calcaneal bones; compression, uncomplicated, stable closed fractures of the body of the twelfth thoracic vertebra and the bodies of the second and fifth lumbar vertebrae with wedge-shaped deformity; closed blunt trauma of the chest complicated by injury to the upper lobe of the right lung; superficial crushed wounds of the forehead, the right wrist joint and the right hand; and a crushed-lacerated wound of the nasal region — are characteristic of having been caused by the impact of a blunt object and are generally classified as causing less serious harm to health, resulting in long-term impairment of health.

According to forensic medical expert opinion No. 387 dated 14 June 2021, the injuries identified in Shohrat Elshan oglu Jalilov — bilateral acute cochlear neuritis resulting from barotrauma; a wound of the right elbow region resulting in post-traumatic neuropathy of the ulnar nerve; wounds of the soft tissues of the chest, right lumbar region and left lateral abdominal wall; multiple abrasions of the right scapular and forearm regions, the dorsal surfaces of both hands, the right thigh, left knee and both lower-leg regions; and bruises of the right gluteal and right thigh regions — are characteristic of having been caused by the impact of hard blunt objects and secondary fragments formed as a result of an explosion, and are generally classified as causing less serious harm to health, resulting in long-term impairment of health.

According to forensic medical expert opinion No. 350 dated 20 May 2021, the injuries identified in Inqilab Taji oglu Nazarov — abrasions of the parietal region; craniocerebral trauma accompanied by concussion of the brain; bilateral acute cochlear neuritis resulting from barotrauma; and consolidation of the lower lobe of the right lung as a result of barotrauma complicated by acute focal pneumonia — are characteristic of having been caused by the impact of a blunt object and are generally classified as causing less serious harm to health, resulting in long-term impairment of health.

Page 412

According to forensic medical expert opinion No. 388 dated 15 June 2021, the injuries identified in Kamil Salim oglu Abdullayev — right-sided acute cochlear neuritis resulting from barotrauma and accompanied by sensorineural hearing loss — are characteristic of having been caused when the injured areas struck hard blunt objects under the impact of the blast wave formed during the explosion of military ammunition with explosive properties, and are classified as causing less serious harm to health.

According to forensic medical expert opinion No. 385 dated 7 June 2021, the injuries identified in Etibar Imamverdi oglu Aliyev — an abrasion of the left parietal region accompanied by concussion of the brain, bruises of the right upper-arm and forearm regions, and abrasions of the left forearm and dorsum of the hand — are characteristic of having been caused when the injured areas struck hard blunt objects under the impact of the blast wave formed during the explosion of military ammunition with explosive properties, and are classified as causing minor harm to health.

According to forensic medical expert opinion No. 266 dated 16 April 2021, the injury identified in Javid Gahraman oglu Ahmadov, based on the records in the medical documents — an abrasion of the lumbar region — is characteristic of having been caused when the injured area struck a hard blunt object under the impact of the blast wave formed during the explosion of military ammunition with explosive properties. Since the injury does not constitute harm to health, its degree was not determined.

According to the forensic medical expert opinion, the injuries sustained by Orkhan Ilyas oglu Heydarli — a wound of the left half of the chest penetrating into the pleural cavity and accompanied by left-sided haemopneumothorax; open displaced fractures of the proximal phalanx of the first finger of the left hand and the third metacarpal bone; blind shrapnel wounds of the face, both eyes, the right forearm and the left lower limb; and traumatic detachment of the left lower limb at the level of the intermetatarsal joints — were caused by the impact of fragments generated as a result of the explosion of a projectile with explosive properties, correspond to the date of 20 April 2021, and, by degree, are classified as causing serious harm to health.

According to the complex forensic criminalistic, traceological and biological expert opinion, human blood was detected on the tunic, wool-blend sweater, two long-sleeved undershirts, trousers, two pairs of under-trousers, the right boot, one sock, a roll of bandage, rubber, and stone and soil particles taken from the scene, all belonging or attributed to Orkhan Ilyas oglu Heydarli. The blood could belong to Orkhan Ilyas oglu Heydarli.

On the tunic, sweater, each of the two long-sleeved undershirts, on both sleeves, the right and left parts of the front surface and the left middle part of the back surface; on the front surface of both legs of the trousers and both pairs of under-trousers; and on the upper part of the back surface of the trousers and under-trousers, multiple through-and-through and non-through injuries were found. A through-and-through injury was also found on the front surface of the camouflage fabric sewn onto the upper part of the rubber boot. These injuries are consistent with having been caused by fragments formed as a result of an explosion at close range, including fragments formed as a result of a mine explosion.

According to forensic medical expert opinion No. 1042 dated 22 July 2021, the injury sustained by S.A. Dadashov — a firearm gunshot wound penetrating into the abdominal cavity from the left iliac fossa, resulting in the loss of the descending colon, sigmoid colon, upper ampullary part of the rectum and spleen, and accompanied by injury to a loop of the small intestine and the sacrococcygeal venous plexus — was caused by a shot fired from a firearm and is classified as causing serious harm to health.

According to forensic ballistic expert opinions Nos. 1/3263 and 1/3264 dated 6 August 2021, the belt of the trousers, short-sleeved military shirt and grey T-shirt belonging to S. Dadashov contained injuries of the number and size indicated in the research part of the expert opinion. Based on the shape, size and morphological structure of the injuries, the absence around the injuries of incompletely burned gunpowder particles as an additional factor of firing, and the detection of a copper-metal trace,

the injuries on the left side of the belt of the trousers, on the front part of the short-sleeved military shirt and on the grey T-shirt are characteristic of entry injuries caused by one shot from a distance of more than one metre, by the impact of a bullet with a diameter of approximately seven millimetres. Such injuries could have occurred under the specific circumstances described in the descriptive part of the decision. Since there was no exit injury, it was not possible to determine the direction of the shot.

According to forensic medical expert opinion No. 153 dated 17 July 2021, the injury sustained by E.S. Ahmadli — one through-and-through firearm gunshot wound of the right shoulder and right scapular region, with the entry wound in the right shoulder region and the exit wound in the right scapular region, accompanied by injury to the soft tissues along the wound channel, running from right to left and slightly from top to bottom — is characteristic of having been caused by one shot fired from a firearm and is classified as causing less serious harm to health.

According to forensic medical expert opinion No. 154 dated 17 July 2021, the injury sustained by Ibadulla Mahsud oglu Mardanli — a combined firearm gunshot wound of the head and right shoulder girdle, running from front to back, from left to right and from top to bottom, with an entry wound on the right half of the upper lip and an exit wound in the right submandibular neck region, together with a tangential wound of the right shoulder, accompanied by injury to the soft tissues along the wound channel and fractures of the jaw and right scapular bones — is characteristic of having been caused by one shot fired from a firearm and is classified as causing less serious harm to health.

According to forensic ballistic expert opinion No. 196 dated 18 August 2021, based on the shape, size, morphological structure and characteristics of the damage on the submitted tunic, and taking into account the absence at the edges of the damage of incompletely burned gunpowder particles, soot and traces of copper metal particles as additional factors of firing, as well as the possibility that the tunic had been interfered with, namely washed, it was established that damage “a” on the said clothing item could be an exit injury caused by the direct impact of a bullet fired from a firearm, while the group of damages marked “b” could be entry injuries caused not by direct impact, but by fragments of a projectile, namely a bullet, which had broken apart after colliding with a hard object that served as an initial obstacle following a shot fired from a firearm. Since there was no initial obstacle and no entry injury caused by direct impact, it was not possible to determine the firing distance; since the injuries did not possess the necessary characteristics, it was not possible to determine the diameter, namely the calibre, of the projectile or bullet that caused them; since the exit injury, namely damage “a”, had no corresponding entry injury, and the entry injuries, namely the group of damages “b”, had no corresponding exit injuries, it was not possible to determine the direction of fire; and since the group of damages “b” had not been caused by direct impact, it was not possible to determine how many shots were characteristic of causing those injuries, although it could not be ruled out that they had been caused by one shot. The

absence of additional firing factors on the tunic was considered possible as a result of interference with the said clothing item, namely washing.

According to forensic expert opinion No. 197 dated 20 August 2021, the damages marked “a” on the military armoured vest and short-sleeved T-shirt worn by Ibadulla Mahsud oglu Mardanli, and the damage marked “c” on the military armoured vest, are tangential injuries; the damage marked “b” on the military armoured vest is an entry injury; and the damage marked “d” is an exit injury. They are characteristic of having been caused from front to back, from left to right and from top to bottom, by one shot fired from a rifled firearm, by the impact of a copper-containing projectile, namely a bullet. Since the damages did not possess the necessary characteristics, it was not possible to determine the diameter, namely the calibre, of the projectile or bullet that caused them. Since the military armoured vest was not an initial obstacle, it was not possible to determine the firing distance; however, it was not ruled out that the shot was fired from a distance of more than one metre, outside the range within which additional firing factors are deposited on the target. No damage characteristic of having been caused by a shot fired from a firearm was found on the military trousers worn by Ibadulla Mahsud oglu Mardanli.

On the tunic belonging to Emin Hagverdi oglu Eyvazov, which before the incident had been hung on the entrance door of the observation position, the damages marked “a”, “c” and “e”

are entry injuries caused by the direct impact of a bullet fired from a rifled firearm; the damages marked “b”, “d” and “h” are exit injuries; the damages marked “f” and “g” are tangential injuries; and the damage marked “i” is an entry injury caused not by direct impact, but by a fragment of a projectile, namely a bullet, which had broken apart after colliding with a hard object serving as an initial obstacle following a shot fired from a firearm.

The above-mentioned damages on the tunic belonging to Emin Hagverdi oglu Eyvazov are characteristic of having been caused from left to right, from top to bottom and from back to front, by the impact of a copper-containing projectile, namely a bullet, from a distance of more than one metre, outside the range within which additional firing factors are deposited on the target. Since the damages did not possess the necessary characteristics, it was not possible to determine the diameter of the projectile or bullet that caused them. Since damage “i” had not been caused by direct impact, it was not possible to determine how many shots were characteristic of causing the damages, although it could not be ruled out that they had been caused by two shots.

According to forensic medical expert opinion No. 291 dated 3 August 2021, the injuries sustained by Murtuz Farman oglu Namazov — post-traumatic stress disorder reactions, mild contusion of both eyeballs, corneal erosion, and foreign bodies in the cornea and upper eyelid of the right eye — were caused by the impact of primary fragments and the blast wave as a result of an explosion and, by degree, are classified as causing less serious harm to health.

According to forensic medical expert opinion No. 1139 dated 13 August 2021, the injuries sustained by Mahammad Ilham oglu Gilmizliyev — traumatic amputation of the lower third of the right lower leg, resulting in amputation of the right lower leg below the knee, and multiple shrapnel wounds of the left lower limb — were caused by the impact of primary and secondary fragments formed as a result of the explosion of an object with explosive properties and are classified as causing serious harm to health, resulting in a permanent, stable loss of more than one-third of general working capacity.

According to forensic ballistic expert opinion No. 3/1398 dated 10 September 2021, no damage characteristic of having been caused by a shot fired from a firearm or by the explosion of a projectile or bullet was found on the tunic of the field-uniform set. Traces of explosive substance, namely TNT, were detected on the tunic.

According to forensic medical expert opinion No. 165 dated 31 July 2021, the injury sustained by M.R. Aghayev — multiple blind shrapnel wounds of the face, neck and dorsal surface of the left hand, accompanied by partial fractures of the crowns of the upper left first and second teeth and the lower left second tooth — is characteristic of having been caused during an explosion, including by fragments formed as a result of the fragmentation of a bullet, and is classified as causing minor harm to health.

According to forensic medical expert opinion No. 164 dated 4 August 2021, the injuries sustained by Orkhan Kheyraddin oglu Mammadov — one firearm gunshot wound of the lower third of the left lower leg, with the entry wound on the inner surface of the lower third of the left lower leg and the exit wound on the posterior surface of the lower third of the left lower leg, accompanied by partial injury to the soft tissues and the Achilles tendon along the wound channel, running from right to left and from front to back — are characteristic of having been caused by one shot fired from a firearm and, by degree, are classified as causing less serious harm to health.

According to forensic medical expert opinion No. 163 dated 31 July 2021, the injuries sustained by Senior Lieutenant Ramal Bahlul oglu Badalli — one through-and-through firearm gunshot wound of the middle third of the left lower leg, with the entry wound on the outer surface of the middle third of the left lower leg and the exit wound on the inner surface of the middle third of the left lower leg, accompanied by injury to the soft tissues along the wound channel and running from left to right — are characteristic of having been caused by one shot fired from a firearm loaded with a cartridge containing a projectile, namely a bullet. It cannot be ruled out that they were sustained on the date and under the circumstances described in the decision and, by degree, they are classified as causing less serious harm to health.

According to forensic ballistic expert opinion Nos. 193–194 dated 18 August 2021, one submitted item is part of a 7.62 mm calibre cartridge used as ammunition in automatic firearms of the “AK-47”, “AKS-47”, “AKM” and “AKMS” designs, in “RPK” and “RPKS” light machine guns, “SKS” carbines and other weapons. It is a tracer bullet that was partially deformed as a result of colliding with a hard object during the firing process.

According to forensic ballistic expert opinion No. 1/3359 dated 3 September 2021, one military field-type jacket, one unarmoured vest, one military field-type short-sleeved shirt and one grey T-shirt said to belong to Ferman Telman oglu Yagublu contained damage of the number and size indicated in the research part of the expert opinion. Based on the shape, size and morphological structure of the damage, the absence around the damage of incompletely burned gunpowder particles as an additional factor of firing, and the detection of traces of copper metal, the damage on the front part of the military field-type jacket and military field-type short-sleeved shirt is characteristic of an entry injury, while the damage on the back part of the military field-type jacket, unarmoured vest, military field-type short-sleeved shirt and grey T-shirt is characteristic of an exit injury. These injuries are characteristic of having been caused by one shot fired from a rifled firearm, by the impact of a copper-containing bullet approximately seven millimetres in diameter, from a distance of more than one metre, in a front-to-back direction.

According to forensic medical expert opinion No. 40 dated 6 September 2021, during the examination of F.T. Yagublu, the injury found on his body was one through-and-through wound of the chest, with the entry wound located on the anterior surface of the left half of the chest and the exit wound located on the posterior surface of the chest in the projection of the third thoracic vertebra. The wound track was accompanied by injury to the left lung and the aorta, open fragmentary fractures of the third thoracic vertebra, and acute internal blood loss. The cause of death was acute internal blood loss resulting from injury to the lung and aorta caused by a through-and-through firearm gunshot wound of the chest.

According to forensic medical expert opinion No. 606 dated 6 September 2021, the injury sustained by S.N. Aliyev — a blind wound of the left thigh region, with the entry wound located on the outer surface of the upper third of the thigh — is characteristic of having been caused by one shot fired from a firearm from left to right, from a distance at which additional firing factors did not affect the target, and, by degree, is classified as causing less serious harm to health.

According to forensic ballistic expert opinion Nos. 3/1365–1366 dated 1 September 2021, one submitted item was part of a 7.62 × 39 mm calibre cartridge intended for use as ammunition in rifled combat firearms, namely “AKM”, “AKS” and “AKMS” automatic firearms of the Kalashnikov design, “RPK” and “RPKS” light machine guns, “SKS” carbines and other weapons. It was the core of a bullet separated by firing and was unsuitable for use, namely for firing. It could not be ruled out that the bending and deformation marks on the submitted metal item were caused by friction against a rock or stone fragment.

The military field-type trousers belonging to Sadiq Nizami oglu Aliyev contained damage of the number and size indicated in the research part of the expert opinion. Based on the shape, size and morphological structure of the damage, as well as the absence around the damage of incompletely burned gunpowder particles as an additional factor of firing and of traces of copper metal, the damage on the rear part of the left leg of the trousers is characteristic of an

entry injury caused by one shot fired from a rifled firearm, by the impact of a bullet approximately seven millimetres in diameter, from a distance of more than one metre. Since there was no exit injury, it was not possible to determine the direction of the shot. The said damage could have been caused by the submitted metal item.

According to forensic ballistic expert opinion No. 3/1360 dated 2 September 2021, the military field-type trousers said to belong to Israil Alikram oglu Babayev contained damage of the number and size indicated in the research part of the expert opinion. Based on the shape, size and morphological structure of the damage, and despite the absence around the damage of traces of copper metal and incompletely burned gunpowder particles as an additional factor of firing, the damage on the front part of the left leg of the trousers is characteristic of an entry injury caused by one shot fired from a firearm, from a distance of more than one metre, by the impact of a fragmented part of a bullet. Since there was no exit injury, it was not possible to determine the direction.

Page 416

According to forensic ballistic expert opinion No. 1364 dated 30 August 2021, the right sleeve of the military sweater said to belong to Imran Dilgam oglu Imranli contained damage of the number and size indicated in the research part of the expert opinion. Based on the shape, size and morphological structure of the damage, and despite the absence around the damage of incompletely burned gunpowder particles as an additional factor of firing and of traces of copper metal, the damage on the front part of the right sleeve is characteristic of an entry injury, while the damage on the back part of the right sleeve is characteristic of an exit injury. The injuries are characteristic of having been caused in a direction from the front part of the right sleeve to the back part, by one shot fired from a rifled firearm, from a distance of more than one metre, by the impact of a bullet approximately five millimetres in diameter.

According to forensic ballistic expert opinion No. 3/1361 dated 2 September 2021, the military field-type trousers said to belong to Telman Arzu oglu Farhadli contained damage of the number and size indicated in the research part of the expert opinion. Based on the shape, size and morphological structure of the damage, and despite the absence around the damage of traces of copper metal and incompletely burned gunpowder particles as an additional factor of firing, the damage on the rear part of the left leg of the trousers is characteristic of an entry injury caused by one shot fired from a firearm, from a distance of more than one metre, by the impact of a fragmented part of a bullet. Since there was no exit injury, it was not possible to determine the direction.

According to forensic medical expert opinion No. 640 dated 17 September 2021, the injury sustained by Akshin Mehman oglu Musayev — closed craniocerebral trauma accompanied by concussion of the brain — could have been caused by the impact of a blast wave formed during the explosion of a firearm projectile and is classified as causing minor harm to health.

According to forensic medical expert opinion No. 604 dated 18 September 2021, the injury sustained by Israil Alikram oglu Babayev — a blind wound of the soft tissues of the lower

third of the left thigh — was caused by the impact, from right to left, of fragments formed when a bullet or projectile struck a hard obstacle and broke apart during a shot fired from a firearm. It is classified as causing minor harm to health.

According to forensic medical expert opinion No. 687 dated 18 September 2021, the injury sustained by Muzamil Mehman oglu Orujov — a through-and-through wound of the soft tissues of the right upper-arm region — could have been caused by fragments detached when a projectile, namely a bullet, struck a hard obstacle during a shot fired from a firearm. It is classified as causing minor harm to health.

According to forensic medical expert opinion No. 603 dated 15 September 2021, the injuries sustained by Imran Dilgam oglu Imranli were as follows: a through-and-through wound of the lower third of the right forearm, accompanied by an open, fragmentary displaced fracture of the distal end of the ulna; and one combined wound involving through-and-through wounds of the second and third fingers of the left hand, accompanied by open fragmentary displaced fractures of the proximal phalanges of the second and third fingers, and a tangential wound of the soft tissues of the fourth finger. The noted injuries are characteristic of having been caused by at least two shots fired from a firearm from a distance at which additional firing factors did not affect the target. They are classified as causing less serious harm to health.

According to forensic medical expert opinion No. 605 dated 15 September 2021, the injury sustained by Telman Arzu oglu Farhadli — a blind wound of the soft tissues of the left lower-leg region — was caused by the impact of fragments formed when a bullet struck a hard obstacle and broke apart during a shot fired from a firearm. It is classified as causing minor harm to health.

According to forensic ballistic expert opinion Nos. 3/1521–3/1522 dated 28 October 2021, one submitted item is part of a 12.7 mm calibre cartridge considered to be ammunition intended for use in “DShK”-design heavy machine guns, “UB”-design aircraft machine guns and other combat firearms. It is the core of a bullet and is unsuitable for use.

Page 417

No signs of bending or deformation were found on the submitted bullet core. The submitted military overcoat and military tunic contained damage of the size and number indicated in the research part of the expert opinion. Based on the shape and morphological structure of the damage, as well as the detection around the damage of incompletely burned smokeless powder particles and traces of copper metal as additional factors of firing, the said damage is characteristic of entry injuries caused by shots fired from a rifled firearm, by the impact of a copper-containing bullet, from a distance of more than one metre, in a back-to-front direction. Such damage could also have been caused by the submitted metal item. However, it was not possible to determine specifically what caliber bullet caused the damage, or whether the damage was caused by the submitted metal item.

According to forensic medical expert opinion No. 617 dated 4 August 2021, the injuries sustained by R.R. Aghayev — a through-and-through wound of the fifth finger of the left hand, accompanied by an open fragmentary displaced fracture of the proximal phalanx, and blind wounds of the soft tissues of the lower jaw, left forearm and wrist-joint regions — are characteristic of having been caused by primary fragments and secondary fragments with a blunt mechanism formed during the explosion of a firearm projectile. By degree, they are classified as causing less serious harm to health.

According to forensic medical expert opinion No. 615 dated 4 August 2021, the injury sustained by Roman Ramil oglu Dadashov — a blind wound of the soft tissues of the left upper-arm region — was caused by the impact of fragments formed during the explosion of military ammunition with explosive properties and is classified as causing minor harm to health, resulting in a short-term impairment of health.

According to forensic medical expert opinion No. 616 dated 4 August 2021, the injuries sustained by Bakhtiyar Asaf oglu Huseynov — a blind wound of the soft tissues of the left scapular region not penetrating into a cavity, and a tangential wound of the left upper-arm region — are characteristic of having been caused by primary fragments and secondary fragments with a blunt mechanism formed during the explosion of a firearm projectile, and are classified as causing minor harm to health.

According to forensic medical expert opinion No. 620 dated 4 August 2021, the injuries sustained by Nusrat Gunduz oglu Orujov — a tangential wound of the soft tissues of the right upper-arm region caused by the impact of a bullet or projectile as a result of one shot fired from a firearm, and small blind wounds of the soft tissues of the second, third and fourth fingers of the right hand, which could have been caused by fragments formed when a bullet or projectile struck a hard obstacle during a shot fired from a firearm — are classified as causing minor harm to health.

According to forensic medical expert opinion No. 684 dated 9 September 2021, the injury sustained by A.H. Gafarov — an abrasion of the left cheek region — is characteristic of having been caused by a blunt mechanism, namely the impact of a hard blunt object. Since the injury does not constitute harm to health, its degree was not determined.

According to forensic medical expert opinion No. 685 dated 9 September 2021, the injury sustained by H.N. Pira — perforation of both tympanic membranes accompanied by conductive hearing loss as a result of barotrauma — was caused by the impact of the blast wave formed during the explosion of military ammunition with explosive properties and, by degree, is classified as causing minor harm to health.

According to forensic medical expert opinion No. 689 dated 9 September 2021, no injury was found in Kh.M. Allahverdiyev.

According to forensic medical expert opinion No. 691 dated 31 August 2021, no injury or trace of injury was found on the body surface of F.M. Musayev during the forensic medical examination conducted on 31 August 2021.

Page 418

According to forensic medical expert opinion No. 722 dated 17 September 2021, during the medical examination of A.A. Tamchidi, no injury or trace of injury related to the incident described in the descriptive part of the decision was found on the body surface.

According to forensic medical expert opinion No. 682 dated 27 August 2021, the injuries sustained by Khayal Mikayil oglu Muradov — a blind wound of the dorsal surface of the left hand and a foreign body in the soft tissues — could have been caused by fragments formed when a projectile, namely a bullet, struck a hard obstacle during a shot fired from a firearm and, by degree, are classified as causing minor harm to health.

According to forensic medical expert opinion No. 683 dated 27 August 2021, the injuries sustained by Abdulaziz Elshad oglu Abdullayev — blind wounds of the soft tissues of the right temporal region and the right half of the chest, as well as blind wounds with foreign bodies in the soft tissues of the upper third of the right upper arm — could have been caused by fragments formed when a bullet or projectile struck a hard obstacle during a shot fired from a firearm and are classified as causing minor harm to health.

According to forensic medical expert opinion No. 1204 dated 1 September 2021, apart from incised wounds on the left anterior surface of the chest, not penetrating into the cavity and damaging the pectoralis major muscle, and on the anterior surface of the right forearm, damaging only the superficial layers of the skin, no other injury or trace of injury was found on R.N. Shiraliyev. The noted injuries were caused by the impact of a cutting object and are classified as causing minor harm to health.

According to forensic medical expert opinion No. 336 dated 10 March 2021, the injuries sustained by N.Y. Khalilov — traumatic detachment of the left lower limb at the level of the lower third of the lower leg, extensive destruction of the muscles with tissue defects, extensive wounds with tissue defects on the anterior surface of the right lower limb, wounds with soft-tissue defects on the palmar surface of the first finger of the right hand and other fingers, and traumatic-haemorrhagic shock of the third degree — were caused by the impact of primary fragments and the blast wave generated as a result of the explosion of substances with explosive properties and, by degree, are classified as causing serious harm to health.

According to forensic ballistic expert opinion No. 1/3678 dated 20 October 2021, the military tunic and military trousers contained the damage indicated in the research part of the expert opinion. Based on the shape, size and morphological structure of the damage on the military clothing items, as well as the detection on their surface of explosive substance, namely TNT, and particles of incompletely burned smokeless powder, the said damage is characteristic of having been caused by fragments as a result of an explosion, from the centre of the explosion

in an upward direction. The damage corresponds to one another in terms of location. Such damage could also have been caused by fragments from the explosion of an anti-personnel mine.

According to the opinion No. 706 of the forensic medical expert dated 18.09.2021, the injuries sustained by V.F.Namazov - traumatic amputation of the right lower limb at the level of the middle 1/3 of the calf, accompanied by traumatic-hemorrhagic shock of the 11th-12th degree, multiple blind wounds of the right eyebrow and nose area, right cheek, right intercostal area, both knees and calf areas - are characteristic of the effects of the blast wave formed during the explosion of explosive ammunition, secondary shrapnel from the primary and blunt mechanism, and generally refer to serious harm to health.

According to the opinion No. 1/1598 of the forensic ballistics expert dated 21.10.2021, traces of explosive substance (TNT) were found on the surfaces of the trousers, socks and the remains of the sock, and the remains of the right boot, which were noted to belong to Namazov Vasif Faig oglu Based on the type of injury, the shape, the morphological structure of the injuries, and the presence of soot stains around them, the injuries mentioned are characteristic of being caused by the impact of shrapnel from a distance close to the center of the explosion, as a result of the explosion of an explosive device, as well as an anti-personnel mine.

Page 419

According to the opinion of the forensic medical expert No. 215 dated 21.09.2021, the injuries sustained by V. M. Hasanov - the entrance hole in the soft tissues on the left half of the forehead - are of the nature of primary and secondary damage caused by a shot fired from a firearm, and their degree refers to minor harm to health.

According to the opinion of the forensic medical expert No. 1094 dated 29.09.2021, the injuries sustained by N. V. Jalilov - the sprain of the ligaments of the left wrist joint, the bruise of the soft palate and the abrasion of the right knee area - are injuries that did not cause harm to health, and their degrees are not determined.

According to the opinion of the forensic medical expert No. 16 dated 14.10.2021 during the examination of the body of A.O. Hamzayev, the following injuries were identified: one wound on the right anterior surface of the forehead, being the entry wound of a firearm injury; and one wound in the left temporal region, being the exit wound of a firearm injury. Both wounds were caused by a firearm loaded with a copper-containing projectile, from a distance at which additional firing factors did not affect the target.

According to forensic ballistic expert opinion No. 3/1789 dated 24 November 2021, no damage characteristic of injury caused by the impact of a bullet fired from a firearm was found on the submitted military clothing items. Particles of incompletely burned smokeless powder, which are an additional factor of firing, were detected on the surface of the military sweater and the military trousers with a belt submitted for examination. No particles of

incompletely burned smokeless powder, as an additional factor of firing, were detected on the surface of the submitted sleeveless T-shirt, underpants, one pair of soldier's boots and one pair of socks.

According to forensic ballistic expert opinion No. 1/3863 dated 23 December 2021, the "NIVA-21214" vehicle with state registration plate M 839 QQ contained damage of the number and size indicated in the research part of the expert opinion. Although no incompletely burned smokeless powder particles or traces of copper metal, as additional firing factors, were detected around the damage, based on their shape, size and morphological structure, the damages marked "a", "c", "d", "g", "h", "i" and "j" on the vehicle are entry injuries, while the damages marked "b", "e" and "f" are exit injuries. They are characteristic of having been caused by the impact of bullets and bullet fragments as a result of three shots fired from a firearm, from a distance of more than two metres, in a left-to-right direction.

According to forensic medical expert opinion No. 1108 dated 2 October 2021, the injuries sustained by A.N. Aliyev — abrasions of the nose and the left infraorbital region — were caused by the impact of a blunt object. Since the injury does not constitute harm to health, its degree was not determined.

According to forensic medical expert opinion No. 1109 dated 2 October 2021, the injuries sustained by K.B. Ahadov — scratches of the left wrist, left scapular and right shoulder regions; crushed wounds of the left heel, left sole and parietal region; and bruising of the soft tissues of the right and left shoulder girdles and the left half of the chest — were caused by the impact of a blunt object. Since they do not constitute harm to health, their degree was not determined.

According to forensic medical expert opinion No. 1110 dated 2 October 2021, the injuries sustained by Y.Sh. Abdullayev — superficial scratches of the parietal region and forehead — were caused by the impact of a blunt object. Since they do not constitute harm to health, their degree was not determined.

According to forensic medical expert opinion No. 396 dated 3 November 2021, the injuries sustained by R.R. Haziyev — superficial scratches of the parietal region and forehead — were caused by the impact of a blunt object. It is not ruled out that they were sustained on the date and under the circumstances indicated by the examined person. Since they do not constitute harm to health, their degree was not determined.

Page 420

According to forensic medical expert opinion No. 397 dated 3 November 2021, the injury sustained by A.M. Huseynov — a closed displaced fracture of the left calcaneus — was caused by the impact of primary fragments and the blast wave generated as a result of the explosion of substances with explosive properties and, by degree, is classified as causing less serious harm to health.

According to forensic traceological expert opinion No. 3/120 dated 28 February 2022, it cannot be ruled out that the visible deformation damage and trace marks on the KAMAZ-43114 truck with military registration plate D-553-QQ were caused by the explosion of an anti-tank mine.

According to forensic commodity expert opinion No. 9/9242 dated 4 February 2022, the repair and restoration cost of the KAMAZ-43114 truck with registration plate D-553-QQ was determined as follows:

1. Calculated on the basis of the cost of replacement parts as new parts, the amount is 28,188.00 manats, including 24,188 manats for replacement parts and 4,000 manats for repair and restoration work.
2. Applying depreciation to the cost of replacement parts, the amount is 12,182 manats, including 8,182 manats for replacement parts and 4,000 manats for repair and restoration work.

According to forensic medical expert opinion No. 930 dated 23 June 2021, the injuries identified in Elvin Vaqif oglu Muradov — a chopped wound of the left frontal half of the head, closed craniocerebral trauma accompanied by concussion of the brain, a crushed wound of the scapular region accompanied by bruising, and crushed wounds of the first and second fingers of the left hand resulting in scarring — were caused by the impact of a hard blunt object. It is not ruled out that they occurred on 20 May 2021 and under the circumstances described above. They are classified as causing minor harm to health, resulting in a short-term impairment of health.

According to forensic medical expert opinion No. 931 dated 23 June 2021, the injuries identified in Samir Elshan oglu Ahmadov — a crushed wound of the scapular region, crushing of the soft tissues of the occipital part of the head, and a crushed wound of the fifth finger of the right hand resulting in scarring — were caused by the impact of a hard blunt object. It is not ruled out that they occurred on 20 May 2021 and under the circumstances described above. Since they do not constitute harm to health, their degree was not determined.

According to forensic medical expert opinion No. 932 dated 23 June 2021, the injuries identified in Abdulla Ramazan oglu Ankbazov — crushing of the soft tissues of the right and posterior regions of the head, accompanied by an abrasion of the right cheek resulting in pigmentation — were caused by the impact of a hard blunt object. It is not ruled out that they occurred on 20 May 2021. Since they do not constitute harm to health, their degree was not determined.

According to forensic medical expert opinion No. 947 dated 29 June 2021, the injuries identified in Umud Gachay oglu Hasanli — crushing of the soft tissues of the occipital part of the head, an abrasion of the left infraorbital region resulting in pigmentation, and a crushed wound of the third finger of the right hand — were caused by the impact of a hard blunt

object. It is not ruled out that they occurred on 20 May 2021. Since they do not constitute harm to health, their degree was not determined.

According to forensic medical expert opinion No. 949 dated 29 June 2021, the injury identified in Hasrat Elshan oglu Abdulazade — crushing of the soft tissues of the parietal part of the head — was caused by the impact of a hard blunt object. It is not ruled out that it occurred on 20 May 2021. Since the injury does not constitute harm to health, its degree was not determined.

According to forensic medical expert opinion No. 950 dated 29 June 2021, the injury identified in Asgar Ali oglu Beytarov — crushing of the soft tissues of the parietal part of the head — was caused by the impact of a hard blunt object. It is not ruled out that it occurred on 20 May 2021. Since the injury does not constitute harm to health, its degree was not determined.

According to forensic medical expert opinion No. 952 dated 29 June 2021, the injuries identified in Tural Javanshir oglu Korogluyev — a haematoma of the middle third of the left upper arm,

Page 421

accompanied by an abrasion resulting in pigmentation, and a crushed wound of the left scapular region resulting in scarring — were caused by the impact of a hard blunt object. It is not ruled out that they occurred on 20 May 2021. Since they do not constitute harm to health, their degree was not determined.

According to forensic medical expert opinion No. 1014 dated 9 July 2021, the injury identified in Elmin Tahir oglu Allahverdiyev — crushing of the soft tissues of the occipital part of the head — was caused by the impact of a hard blunt object. It is not ruled out that it occurred in 2021 under the circumstances described above. Since the injury does not constitute harm to health, its degree was not determined.

According to forensic medical expert opinion No. 1015 dated 9 July 2021, the injury identified in Panah Khaladdin oglu Aliyev — crushing of the soft tissues of the occipital part of the head — was caused by the impact of a hard blunt object. It is not ruled out that it occurred on 20 May 2021. Since the injury does not constitute harm to health, its degree was not determined.

According to forensic medical expert opinion No. 1016 dated 9 July 2021, the injuries identified in Elvin Islam oglu Salimov — crushing of the soft tissues of the occipital part of the head and a haematoma of the thigh region of the left leg — were caused by the impact of a hard blunt object. It is not ruled out that they occurred on 20 May 2021. Since they do not constitute harm to health, their degree was not determined.

According to forensic medical expert opinion No. 1017 dated 9 July 2021, the injuries identified in Zakariyya Akif oglu Huseynzade — crushing of the soft tissues of the occipital

part of the head and a haematoma of the right shoulder region — were caused by the impact of a hard blunt object. It is not ruled out that they occurred on 20 May 2021. Since they do not constitute harm to health, their degree was not determined.

According to forensic medical expert opinion No. 1018 dated 9 July 2021, the injury identified in Samir Sanan oglu Mammadov — crushing of the soft tissues of the occipital part of the head — was caused by the impact of a hard blunt object. It is not ruled out that it occurred on 20 May 2021. Since the injury does not constitute harm to health, its degree was not determined.

According to forensic medical expert opinion No. 1019 dated 9 July 2021, the injuries identified in Mustafa Imran oglu Mammadov — crushing of the soft tissues of the occipital part of the head and a crushed wound of the scapular region — were caused by the impact of a hard blunt object. It is not ruled out that they occurred on 20 May 2021. Since they do not constitute harm to health, their degree was not determined.

According to forensic medical expert opinion No. 1020 dated 9 July 2021, the injuries identified in Kenan Araz oglu Sariyev — crushing of the soft tissues of the occipital part of the head and a crushed wound of the left upper limb — were caused by the impact of a hard blunt object. It is not ruled out that they occurred on 20 May 2021. Since they do not constitute harm to health, their degree was not determined.

According to forensic medical expert opinion No. 1023 dated 12 July 2021, the injuries identified in Vusal Musa oglu Taghiyev — crushing of the soft tissues of the occipital part of the head, and haematomas of the upper arm of the left arm and the elbow region of the right arm — were caused by the impact of a hard blunt object. It is not ruled out that they occurred on 20 May 2021. Since they do not constitute harm to health, their degree was not determined.

According to forensic medical expert opinion No. 1041 dated 16 July 2021, the injuries identified in Nuran Sabir oglu Gasimov — closed craniocerebral trauma, an intra-articular displaced fracture of the tibia, and closed blunt trauma of the right knee joint accompanied by haemarthrosis of the knee joint — were caused by the impact of a hard blunt object. It is not ruled out that they occurred on 20 May 2021. They are classified as causing less serious harm to health.

According to forensic medical expert opinion No. 970 dated 1 July 2021, the injury identified in Abdulla Abutalib oglu Abdullazade — closed craniocerebral trauma accompanied by concussion of the brain and crushing of the soft tissues of the occipital part of the head — was caused by the impact of a hard blunt object. It is not ruled out that it occurred on 20 May 2021. It is classified as causing minor harm to health.

Page 422

According to forensic medical expert opinion No. 1468 dated 3 November 2021, the injury identified in Asif Oktay oglu Babirli — crushing of the soft tissues of the occipital part of the

head — was caused by the impact of a hard blunt object. It is not ruled out that it occurred on 20 May 2021. Since the injury does not constitute harm to health, its degree was not determined.

According to forensic medical expert opinion No. 1519 dated 16 November 2021, the injuries identified in Hidayat Farhad oglu Jahangirov — crushing of the soft tissues of the occipital part of the head, haematoma of the right knee region, and a crushed wound of the scapular region — were caused by the impact of a hard blunt object. It is not ruled out that they occurred on 20 May 2021. They are classified as causing minor harm to health.

According to forensic medical expert opinion No. 1520 dated 16 November 2021, the injuries identified in Anar Elshad oglu Shahpalangov — crushing of the soft tissues of the occipital part of the head and a haematoma of the lower third of the left leg — were caused by the impact of a hard blunt object. It is not ruled out that they occurred on 20 May 2021 and under the circumstances described above. They are classified as causing minor harm to health.

According to forensic medical expert opinion No. 1512 dated 15 November 2021, the injury identified in Shamsi Khalid oglu Kazimli — crushing of the soft tissues of the occipital part of the head — was caused by the impact of a hard blunt object. It is not ruled out that it occurred on 20 May 2021. Since the injury does not constitute harm to health, its degree was not determined.

According to forensic medical expert opinion No. 1511 dated 15 November 2021, the injury identified in Zahid Abdulla oglu Najafov — crushing of the soft tissues of the occipital part of the head — was caused by the impact of a hard blunt object. It is not ruled out that it occurred on 20 May 2021. Since the injury does not constitute harm to health, its degree was not determined.

According to forensic medical expert opinion No. 1523 dated 16 November 2021, the injury identified in Royal Bakhtiyar oglu Karimov — crushing of the soft tissues of the occipital part of the head — was caused by the impact of a hard blunt object. It is not ruled out that it occurred on 20 May 2021 and under the circumstances described above. Since the injury does not constitute harm to health, its degree was not determined.

According to forensic medical expert opinion No. 1522 dated 16 November 2021, the injuries identified in Alimukhtar Gulagha oglu Ibrahimov — closed craniocerebral trauma and concussion of the brain — were caused by the impact of a hard blunt object. It is not ruled out that they occurred on 20 May 2021 and under the circumstances described above. They are classified as causing minor harm to health.

According to forensic medical expert opinion No. 1516 dated 15 November 2021, the injuries identified in Shirkhan Shohrat oglu Hajimammadov — a crushed wound of the scapular region and crushing of the soft tissues of the occipital part of the head — were caused by the impact of a hard blunt object. It is not ruled out that they occurred on 20 May 2021 and under

the circumstances described above. Since they do not constitute harm to health, their degree was not determined.

According to forensic medical expert opinion No. 1515 dated 15 November 2021, the injury identified in Sardar Shukur oglu Chalabiyev — crushing of the soft tissues of the occipital part of the head — was caused by the impact of a hard blunt object. It is not ruled out that it occurred on 20 May 2021 and under the circumstances described above. Since the injury does not constitute harm to health, its degree was not determined.

According to forensic medical expert opinion No. 1514 dated 15 November 2021, the injury identified in Azad Azar oglu Akhundov — crushing of the soft tissues of the occipital part of the head — was caused by the impact of a hard blunt object. It is not ruled out that it occurred on 20 May 2021 and under the circumstances described above. Since the injury does not constitute harm to health, its degree was not determined.

According to forensic medical expert opinion No. 1513 dated 15 November 2021, the injuries identified in Kamran Namiz oglu Huseynov — a haematoma of the right knee region, and crushing of the soft tissues of the right ear and the occipital part of the head — were caused by the impact of a hard blunt object. It is not ruled out that they occurred on 20 May 2021 and under the circumstances described above. They are classified as causing minor harm to health.

According to forensic medical expert opinion No. 1525 dated 16 November 2021, the injuries identified in Vusal Vugar oglu Guliyev — a crushed wound of the back and crushing of the soft tissues of the occipital part of the head — were caused by the impact of a hard blunt object. It is not ruled out that

they occurred on 20 May 2021 and under the circumstances described above.

Since they do not constitute harm to health, their degree was not determined.

According to forensic medical expert opinion No. 1524 dated 16 November 2021, the injury identified in Orkhan Zeynal oglu Heydarov — haematoma of the thigh and lower-leg regions of the left leg — was caused by the impact of a hard blunt object. It is not ruled out that it occurred on 20 May 2021 and under the circumstances described above. It is classified as causing minor harm to health.

According to forensic medical expert opinion No. 123 dated 27 January 2022, the injuries identified in Warrant Officer Kamandar Sarkhan oglu Orujzade — closed craniocerebral trauma, brain trauma and concussion of the brain — were caused by the impact of a hard blunt object. It is not ruled out that they occurred on 20 May 2021 and under the circumstances described above. They are classified as causing less serious harm to health.

According to forensic medical expert opinion No. 864 dated 17 November 2021, the injury sustained by Samir Rasil oglu Taharov — a blind wound of the soft tissues of the left shoulder girdle, accompanied by temporary impairment of the function of the left upper limb — was caused by the impact of fragments formed during the explosion of a projectile and, by degree, is classified as causing less serious harm to health.

According to forensic medical expert opinion No. 49 dated 17 November 2021, the injuries on the body of Umud Oruj oglu Niftaliyev were as follows: three blind wounds penetrating into the cranial cavity, accompanied by open comminuted fractures of the cranial vault, skull base and facial skeleton, diffuse crushing and destruction of brain tissue, and destruction of both eyeballs; a blind wound of the posterior surface of the left shoulder girdle, accompanied by open comminuted fractures of the scapula; incomplete traumatic detachment of the left upper limb at the level of the upper third of the upper arm, hanging on a flap of skin; blind wounds on the dorsal surfaces of the third, fourth and fifth fingers of the left hand and the fifth finger of the right hand, accompanied by open fragmentary fractures of the proximal phalanges; complete traumatic amputation of the third finger of the left hand at the level of the distal phalanx; multiple blind wounds of the soft tissues of the nose, both cheekbone regions, lower and upper lip regions, anterior surface of the chest, right shoulder region, left half of the anterior abdominal wall, left upper arm, anterior surfaces of both thighs, outer surface of the left thigh, both knees and right lower-leg region, and the palmar surfaces of both hands; and thermal burn wounds of the face, left scapular region and lumbar region. These injuries are characteristic of having been caused by the flame, blast wave, primary fragments and secondary fragments with a blunt mechanism formed during the explosion of a firearm projectile. In their totality, by degree, they correspond to signs of injuries causing serious harm to health and resulted in death. The immediate cause of death was diffuse crushing and destruction of brain tissue.

According to forensic medical expert opinion No. 51 dated 17 November 2021, the injuries on the body of Elchin Marifat oglu Aghayev were as follows: a through-and-through wound of the head, accompanied by open fragmentary fractures of the cranial vault and skull base and diffuse injury to brain tissue; a blind wound of the posterior surface of the neck,

accompanied by an open fragmentary fracture of the body of the third cervical vertebra; a blind wound of the anterior surface of the right half of the chest penetrating into the thoracic cavity, accompanied by injury to the right lung and open fragmentary fractures of the clavicle and the first, second, third and fourth ribs; and a blind wound of the soft tissues of the left scapular region not penetrating into a cavity. These injuries are characteristic of having been caused by the blast wave, primary fragments and secondary fragments with a blunt mechanism formed during the explosion of a firearm projectile. In their totality, by degree, they correspond to signs of injuries that would cause serious harm to health in living persons and result in death. The immediate cause of death was diffuse injury to brain tissue as a result of a through-and-through shrapnel wound of the head.

According to forensic medical expert opinion No. 52 dated 17 November 2021, the injuries on the body of Orkhan Hatam oglu Jabbarov were as follows: three blind wounds penetrating

into the cranial cavity, accompanied by open fragmentary fractures of the skull and facial skeleton and diffuse injury to brain tissue; a blind wound of the right scapular region penetrating into the thoracic cavity;

Page 424

multiple blind wounds of the soft tissues of the right scapular region, right shoulder region, left thigh, left knee and right lower-leg region; and a thermal burn wound of the left scapular region. These injuries are characteristic of having been caused by the flame, blast wave, primary fragments and secondary fragments with a blunt mechanism formed during the explosion of a firearm projectile. In their totality, by degree, they correspond to signs of injuries causing serious harm to health and resulting in death. The cause of death was diffuse injury to brain tissue as a result of shrapnel wounds penetrating into the cranial cavity.

According to forensic medical expert opinion No. 53 dated 17 November 2021, the injury on the body of Elmin Samir oglu Alizade — a through-and-through wound of the head, with the entry wound in the occipital region and the exit wound in the right cheekbone region, accompanied along the wound channel by open fragmentary fractures of the skull and facial skeleton and diffuse injury to brain tissue — is characteristic of having been caused by the impact of a bullet or projectile as a result of a shot fired from a firearm. It was sustained during life and, by degree, corresponds to signs of injury causing serious harm to health, and resulted in death. During the examination of the body, superficial wounds measuring 1.5 × 1 cm on the anterior surface of the right knee joint and 2 × 0.4 cm on the anterior surface of the upper third of the left lower leg were found, with irregular edges and moist reddish-pink surfaces. The noted injuries were caused by the impact of a hard blunt object, were sustained during life, and are characteristic of having been caused shortly before death; since they would not have caused impairment of health in a living person, their degree was not determined, and they have no causal connection with death. The cause of death was diffuse injury to brain tissue resulting from a through-and-through firearm gunshot wound of the head.

According to forensic medical expert opinion No. 54 dated 17 November 2021, the injuries on the body of Murad Galib oglu Khalilov were as follows: two blind wounds of the left lateral wall of the chest penetrating into the cavity, accompanied by open comminuted fractures of the left scapula and the ninth rib, injuries to the organs of the thoracic and abdominal cavities, and acute blood loss; one through-and-through wound of the soft tissues of the anterior surface of the chest; a blind wound of the right subscapular region not penetrating into the thoracic cavity; a through-and-through wound of the left thigh region accompanied by open comminuted fractures of the femur; a blind wound of the right thigh region accompanied by open comminuted fractures of the femur; and multiple blind wounds of the soft tissues of the nose and upper lip region, left thigh, right thigh and lower-leg regions. These injuries are characteristic of having been caused by the blast wave, primary fragments and secondary fragments with a blunt mechanism formed during the explosion of a firearm projectile. In their totality, by degree, they correspond to signs of injuries that would

cause serious harm to health in living persons and resulted in death. The cause of death was traumatic-haemorrhagic shock that developed in connection with the injuries sustained.

According to forensic medical expert opinion No. 50 dated 17 November 2021, the injuries on the body of Elchin Ramil oglu Aliyev were as follows: acute blood loss; a through-and-through wound of the neck region, accompanied by multiple injuries to major blood vessels and open fragmentary fractures of the cervical vertebrae; two blind wounds of the right lumbar region penetrating into the abdominal cavity; and blind wounds of the soft tissues of the scapular and lumbar regions. These injuries are characteristic of having been caused by the blast wave, primary fragments and secondary fragments with a blunt mechanism formed during the explosion of a firearm projectile. In their totality, they correspond to signs of injuries causing serious harm to health and resulting in death. The cause of death was traumatic-haemorrhagic shock that developed in connection with the injuries sustained.

According to forensic medical expert opinion No. 869 dated 17 November 2021, the injuries sustained by Oruj Nabi oglu Huseynov — a blind wound of the soft tissues of the right half of the chest not penetrating into a cavity, with a foreign body in the soft tissues; and a through-and-through wound of the first toe of the right foot, accompanied by an open fragmentary displaced fracture of the distal phalanx — were caused by the impact of fragments formed during the explosion of a firearm projectile and, by degree,

are classified as causing less serious harm to health. The diagnoses established during specialist examinations in Military Unit No. 230, namely “superficial sycosis of the face” and “chickenpox, mild course”, are independent nosological disease entities and have no causal connection with the injuries.

According to forensic medical expert opinion No. 873 dated 17 November 2021, the injuries sustained by Elchin Rovshan oglu Aliyev — a through-and-through wound of the right thigh region and multiple blind wounds of the soft tissues of both scapular regions and the right upper-arm region — were caused by the impact of fragments formed during the explosion of a firearm projectile and, by degree, are generally classified as causing minor harm to health.

According to forensic medical expert opinion No. 879 dated 17 November 2021, the injury sustained by Eljan Elman oglu Taghiyev — a through-and-through wound of the soft tissues of the posterior surface of the lower third of the left thigh, resulting in temporary impairment of movement in the left knee joint — is characteristic of having been caused by the impact of a projectile as a result of a shot fired from a firearm and, by degree, is classified as causing less serious harm to health.

According to forensic medical expert opinion No. 871 dated 17 November 2021, the injuries sustained by Sanan Famil oglu Farzaliyev — closed craniocerebral trauma accompanied by concussion of the brain; and a blind wound of the soft tissues of the occipital region with foreign bodies — are characteristic of having been caused by the blast wave, primary

fragments and secondary fragments with a blunt mechanism formed during the explosion of a firearm projectile and, by degree, are classified as causing minor harm to health.

According to forensic medical expert opinion No. 872 dated 17 November 2021, the injuries sustained by Sakhavat Rizvan oglu Aliyev — a blind wound of the soft tissues of the outer surface of the left shoulder girdle, and traumatic detachment of the second finger of the left hand at the level of the body of the middle phalanx — were caused by the blast wave, primary fragments and secondary fragments with a blunt mechanism formed during the explosion of a firearm projectile. They are classified as causing less serious harm to health, resulting in a significant permanent loss of general working capacity of less than one-third, namely 10%.

According to forensic medical expert opinion No. 870 dated 17 November 2021, the injury sustained by Huseyn Rovshan oglu Mehdizade — barotrauma of both ears complicated by bilateral acute cochlear neuritis — is characteristic of having been caused by the impact of the blast wave formed during the explosion of a firearm projectile and is classified as causing minor harm to health.

According to forensic medical expert opinion No. 875 dated 17 November 2021, the injury sustained by Muzaffar Eldar oglu Jafarov — a through-and-through wound of the right knee region, accompanied by an open transverse displaced fracture of the base of the patella — could have been caused by the impact of a bullet as a result of a shot fired from a firearm or by fragments formed during the explosion of a projectile. It is classified as causing less serious harm to health.

According to forensic medical expert opinion No. 874 dated 17 November 2021, the injuries sustained by Etibar Yasin oglu Aliguliyev — blind wounds of the soft tissues of the right lower leg, right lateral ankle and heel regions — were caused by the impact of primary fragments or secondary fragments with a blunt mechanism formed during the explosion of a firearm projectile and are classified as causing minor harm to health.

According to forensic medical expert opinion No. 868 dated 17 November 2021, the injuries sustained by Eltaj Bayram oglu Hasanov — acute blood loss; multiple blind wounds of both lower limbs, accompanied by an oblique open displaced fracture of the upper third of the diaphysis of the right femur, an open fragmentary displaced fracture of the lower third of the diaphysis of the left femur, an extensive skin defect on the anterior surface of the lower third of the left thigh and the outer surface of the ankle-joint region, and neuropathy of the right tibial nerve; a blind wound of the soft tissues of the posterior surface of the right half of the chest not penetrating into a cavity; and multiple blind wounds of both upper arms, the perineal region and the gluteal region-

are characteristic of having been caused by the blast wave, primary fragments and secondary fragments with a blunt mechanism formed during the explosion of a firearm projectile and are classified as causing serious harm to health.

According to forensic medical expert opinion No. 880 dated 18 November 2021, the injuries sustained by Murad Bakhtiyar oglu Gulaliyev — a blind wound penetrating into the cranial cavity, accompanied by severe crushing of the left frontal lobe of the brain resulting in right-sided hemiplegia, subarachnoid haemorrhage and an open comminuted fracture of the frontal bone; traumatic-haemorrhagic shock; a blind wound of the left half of the chest penetrating into the thoracic and abdominal cavities, accompanied by left-sided haemopneumothorax, contusion of both lungs, haemoperitoneum and injury to the stomach; and a blind wound of the soft tissues of the anterior surface of the upper third of the left thigh — are characteristic of having been caused by the blast wave, primary fragments and secondary fragments with a blunt mechanism formed during the explosion of a firearm projectile and, by degree, are generally classified as causing serious harm to health.

According to forensic medical expert opinion No. 887 dated 19 November 2021, it would be possible to provide an opinion as to the specific injury or injuries sustained by Sahil Eldaniz oglu Bakdamirov, their mechanism and time of formation, and the degree of harm caused to health, only by appointing an additional forensic medical examination upon submission of the results of the neurologist's examinations at the Main Clinical Hospital of the Ministry of Defence.

According to forensic medical expert opinion No. 888 dated 19 November 2021, no injury or trace of injury was found on the body surface of Mazahir Alim oglu Akhundov. The diagnoses established during specialist medical examinations in Military Unit No. 230 — namely "cyst of the coccygeal region/coccygeal canal formation?" and "bilateral external auditory canal blockage" — are independent nosological pathologies and have no direct causal connection with any injury.

According to forensic medical expert opinion No. 883 dated 19 November 2021, it would be possible to provide an opinion as to the specific injury or injuries sustained by Tural Nariman oglu Khalilov, their mechanism and time of formation, and the degree of harm caused to health, only by appointing an additional forensic medical examination upon submission of medical documents issued in his name, namely his medical booklet and an extract from the injury registration book.

According to forensic medical expert opinion No. 884 dated 19 November 2021, during the forensic medical examination of Elsevar Elkhan oglu Gadirov conducted on 19 November 2021, no injury or trace of injury related to the incident in question was found on the body surface. The diagnoses established during E.E. Gadirov's specialist medical examinations — "OU = complex myopic astigmatism" and "vertebrogenic lumbalgia, incomplete remission stage" — are independent nosological pathologies and have no direct causal connection with any injury. The diagnosis of "shrapnel wound of the foot" established at the Sanatorium-Resort Rehabilitation Centre of the Ministry of Health of the Republic of Azerbaijan was not

taken into account in determining the degree of harm to health, since it was not confirmed by the presence of objective signs of any injury or by any clinical-instrumental examination results and was based only on the person's subjective complaints. E.E. Gadirov was diagnosed with "closed craniocerebral trauma" at the Sanatorium-Resort Rehabilitation Centre of the Ministry of Health of the Republic of Azerbaijan; however, since its clinical classification was not indicated, namely concussion of the brain, cerebral contusion, etc., it is currently not possible to provide a forensic medical opinion on that matter.

According to forensic medical expert opinion No. 885 dated 19 November 2021, it would be possible to provide an opinion as to the specific injury or injuries sustained by Elgun Nazim oglu Mammadli, their mechanism and time of formation, and the degree of harm caused to health, only

by appointing an additional forensic medical examination upon submission of medical documents issued in his name, namely his medical booklet and trauma certificate.

According to forensic medical expert opinion No. 876 dated 17 November 2021, it would be possible to provide an opinion as to the specific injury or injuries sustained by Vugar Jahangir oglu Jahangirov, their mechanism and time of formation, and the degree of harm caused to health, only by appointing an additional forensic medical examination upon submission of medical documents issued in his name, namely the medical history prepared in his name at the Main Clinical Hospital of the Ministry of Defence.

According to forensic medical expert opinion No. 865 dated 17 November 2021, it would be possible to provide an opinion as to the specific injury or injuries sustained by Ravan Vilayat oglu Tahmazov, their mechanism and time of formation, and the degree of harm caused to health, only by appointing an additional forensic medical examination upon submission of medical documents issued in his name, namely the medical history prepared in his name at the Main Clinical Hospital of the Ministry of Defence.

According to forensic medical expert opinion No. 866 dated 17 November 2021, it would be possible to provide an opinion as to the specific injury or injuries sustained by Tabriz Yusif oglu Novruzov, their mechanism and time of formation, and the degree of harm caused to health, only by appointing an additional forensic medical examination upon submission of the results of the neurologist's examinations.

According to forensic medical expert opinion No. 867 dated 17 November 2021, it would be possible to provide an opinion as to the specific injury or injuries sustained by Rahim Sadraddin oglu Shahverdiyev, their mechanism and time of formation, and the degree of harm caused to health, only by appointing an additional forensic medical examination upon submission of medical documents issued in his name, namely the discharge epicrisis prepared in his name at the Main Clinical Hospital of the Ministry of Defence and the certificate of the Military Medical Commission.

According to forensic medical expert opinion No. 878 dated 18 November 2021, it would be possible to provide an opinion as to the specific injury or injuries sustained by Isgandar Nizami oglu Adigozalov, their mechanism and time of formation, and the degree of harm caused to health, only by appointing an additional forensic medical examination upon submission of medical documents issued in his name, namely the medical history prepared in his name at the Main Clinical Hospital of the Ministry of Defence.

According to forensic medical expert opinion No. 889 dated 19 November 2021, it would be possible to provide an opinion as to the specific injury or injuries sustained by Orkhan Ganbar oglu Aghayev, their mechanism and time of formation, and the degree of harm caused to health, only by appointing an additional forensic medical examination upon submission of medical documents issued in his name, namely his medical booklet and the certificate of the Military Medical Commission.

According to forensic medical expert opinion No. 886 dated 19 November 2021, it would be possible to provide an opinion as to the specific injury or injuries sustained by Namiq Natiq oglu Alizade, their mechanism and time of formation, and the degree of harm caused to health, only by appointing an additional forensic medical examination upon submission of medical documents issued in his name, namely his medical booklet and the certificate of the Military Medical Commission.

According to forensic medical expert opinion No. 193 dated 1 March 2022, since deeper examinations and highly qualified specialists were needed in order to assess the injuries sustained by Eldaniz Abil oglu Mahmudov, and since the examination conducted was classified as a complex examination, it was recommended that a commission forensic medical examination be appointed.

According to forensic medical expert opinion No. 196 dated 1 March 2022, since there were inconsistencies in the diagnoses contained in the submitted medical documents, highly qualified specialists were needed in order to assess the injuries sustained by Tural Nariman oglu Khalilov, and since the examination conducted was classified as a complex examination,

it was recommended that a commission forensic medical examination be appointed.

According to forensic medical expert opinion No. 191 dated 1 March 2022, since deeper examinations and highly qualified specialists were needed in order to assess the injuries sustained by Asabali Khanlar oglu Mammadov, and since the examination conducted was classified as a complex examination, it was recommended that a commission forensic medical examination be appointed.

According to forensic medical expert opinion No. 195 dated 1 March 2022, it was not ruled out that the injuries sustained by Hikmat Elman oglu Abdullayev had been inflicted on the date and under the circumstances indicated in the decision. However, since deeper examinations and highly qualified specialists were needed in order to assess the injuries, and

since the examination conducted was classified as a complex examination, it was recommended that a commission forensic medical examination be appointed.

According to forensic medical expert opinion No. 197 dated 1 March 2022, since there was an inconsistency in the diagnosis in the submitted medical document, highly qualified specialists were needed in order to assess the injuries sustained by Tabriz Isa oglu Mamizade, and since the examination conducted was classified as a complex examination, it was recommended that a commission forensic medical examination be appointed.

According to forensic medical expert opinion No. 192 dated 1 March 2022, the injuries sustained by Maharram Sakit oglu Karimli — an abrasion of the right cheekbone region and a haematoma of the parietal region — were caused by the impact of a blunt object. It is not ruled out that they were inflicted on the date and under the circumstances indicated by the examined person. Since they do not constitute harm to health, their degree was not determined.

According to forensic medical expert opinion No. 194 dated 1 March 2022, the injuries sustained by Elvin Sehran oglu Huseynov — vegetative vascular dystonia and left-sided acute cochlear neuritis — were caused by the blast wave formed during an explosion and the impact of a blunt object. It is not ruled out that they were inflicted on the date and under the circumstances indicated by the examined person. By degree of severity, they are classified as causing minor harm to health.

According to forensic medical expert opinion No. 240 dated 22 February 2022, during the forensic medical examination of Hamid Zahir oglu Shabanli conducted on 22 February 2022, old scar tissues were found on the right earlobe, on the right side at the border between the neck and the back, and in both scapular regions. However, since there was no record of these injuries in the initial medical documents, which had been registered after 16 November 2021, and since the morphological signs of injury were not sufficiently manifested in those scar tissues, it was not possible at that time to provide a precise opinion as to their mechanism and time of formation.

As follows from the medical documents, on 17 November 2021, in Military Unit No. 524, H.Z. Shabanli was diagnosed with “blast injury? barotrauma? blunt trauma of the fifth finger of the right hand, bruising of the soft tissues” and was referred to the Main Clinical Hospital of the Armed Forces for specialist examination. On 19 November 2021, he underwent cranial and lumbosacral MRI examinations there. An ENT doctor diagnosed him with “right-sided acute cochlear neuritis resulting from barotrauma (16 November 2021)”, and on 20 November 2021 a neurologist diagnosed him with “lumbalgia of vertebrogenic origin”. From 25 November 2021 to 16 December 2021, he received inpatient treatment with the diagnosis “protrusion of the L5-S1 intervertebral disc; non-toxic single-nodule goitre; right-sided acute cochlear neuritis; hepatosteatosis”. Thus, the injury sustained by H.Z. Shabanli — right-sided acute cochlear neuritis resulting from barotrauma — could have been caused by the impact of the blast wave generated as a result of the explosion of a device or projectile with explosive properties and, by degree, is classified as causing minor harm to health.

According to the forensic medical expert opinion No. K/66-Ə dated 14 March 2022, no injuries or traces of injuries characteristic of blast trauma, and no pathology characteristic of "barotrauma", were found on the body of soldier Sahil Eldaniz oglu Baktamirov.

According to forensic medical expert opinion No. 259 dated 5 May 2022, during the forensic medical examination of Zamiq Namiq oglu Hasanov conducted on 5 May 2022, no injury or trace of injury related to the incident in question was found on the body surface. The diagnoses established in respect of Z.N. Hasanov at the Main Clinical Hospital of the Ministry of Defence — namely "exacerbation of left-sided chronic maxillary sinusitis", "reactive non-specific cervical lymphadenitis" and "subcutaneous formation/atheroma of the right half of the face" — are independent nosological pathologies and have no direct causal connection with any injury.

According to forensic medical expert opinion No. 472 dated 15 April 2022, the injury sustained by Muzaffar Eldar oglu Jafarov — a through-and-through gunshot wound of the right knee region, accompanied by an open displaced fracture of the patella — was caused by a shot fired from a firearm and, by degree, is classified as causing less serious harm to health.

According to forensic medical expert opinion No. 322 dated 26 April 2022, the examination appointed in respect of Nurlan Nabil oglu Almasov related to the determination of his state of health and, at the same time, was classified as a complex examination; such examinations, due to their particular complexity, are conducted by a commission. Therefore, in accordance with the requirements of the relevant instruction, it was considered more appropriate to conduct a commission forensic medical examination in the present case, together with the relevant medical documents, in order to resolve the questions put before the examination.

According to forensic medical expert opinion No. 323 dated 26 April 2022, the examination appointed in respect of Elmaddin Nariman oglu Nasibov related to the determination of his state of health and, at the same time, was classified as a complex examination; such examinations, due to their particular complexity, are conducted by a commission. Therefore, in accordance with the requirements of the relevant instruction, it was considered more appropriate to conduct a commission forensic medical examination in the present case, together with the relevant medical documents, in order to resolve the questions put before the examination.

According to forensic medical expert opinion No. 324 dated 26 April 2022, the examination appointed in respect of Rasim Oruj oglu Jafarli related to the determination of his state of health and, at the same time, was classified as a complex examination; such examinations, due to their particular complexity, are conducted by a commission. Therefore, in accordance with the requirements of the relevant instruction, it was considered more appropriate to conduct a commission forensic medical examination in the present case, together with the relevant medical documents, in order to resolve the questions put before the examination.

According to forensic medical expert opinion No. 325 dated 26 April 2022, the examination appointed in respect of Parviz Ikhtiyar oglu Rustamli related to the determination of his state of health and, at the same time, was classified as a complex examination; such examinations, due to their particular complexity, are conducted by a commission. Therefore, in accordance with the requirements of the relevant instruction, it was considered more appropriate to conduct a commission forensic medical examination in the present case, together with the relevant medical documents, in order to resolve the questions put before the examination.

According to forensic medical expert opinion No. 327 dated 26 April 2022, the examination appointed in respect of Mazahir Alim oglu Akhundov related to the determination of his state of health and, at the same time, was classified as a complex examination; such examinations, due to their particular complexity, are conducted by a commission. Therefore, in accordance with the requirements of the relevant instruction, it was considered more appropriate to conduct a commission forensic medical examination in the present case, together with the relevant medical documents, in order to resolve the questions put before the examination.

According to forensic medical expert opinion No. 331 dated 26 April 2022, the examination appointed in respect of Royal Heydar oglu Nuruyev related to the determination of his state of health and,

at the same time, was classified as a complex examination; such examinations, due to their particular complexity, are conducted by a commission. Therefore, in accordance with the requirements of the relevant instruction, it was considered more appropriate to conduct a commission forensic medical examination in the present case, together with the relevant medical documents, in order to resolve the questions put before the examination.

According to forensic medical expert opinion No. 332 dated 26 April 2022, the examination appointed in respect of Nurali Nuh oglu Shikhaliyev related to the determination of his state of health and, at the same time, was classified as a complex examination; such examinations, due to their particular complexity, are conducted by a commission. Therefore, in accordance with the requirements of the relevant instruction, it was considered more appropriate to conduct a commission forensic medical examination in the present case, together with the relevant medical documents, in order to resolve the questions put before the examination.

According to forensic medical expert opinion No. 326 dated 26 April 2022, the examination appointed in respect of Namik Natiq oglu Alizade related to the determination of his state of health and, at the same time, was classified as a complex examination; such examinations, due to their particular complexity, are conducted by a commission. Therefore, in accordance with the requirements of the relevant instruction, it was considered more appropriate to conduct a commission forensic medical examination in the present case in order to resolve the questions put before the examination.

According to forensic medical expert opinion No. 328 dated 26 April 2022, the examination appointed in respect of Madat Elbrus oglu Manafli related to the determination of his state of health and, at the same time, was classified as a complex examination; such examinations, due to their particular complexity, are conducted by a commission. Therefore, in accordance with the requirements of the relevant instruction, it was considered more appropriate to conduct a commission forensic medical examination in the present case in order to resolve the questions put before the examination.

According to forensic medical expert opinion No. 329 dated 26 April 2022, the examination appointed in respect of Vugar Eldar oglu Aliyev related to the determination of his state of health and, at the same time, was classified as a complex examination; such examinations, due to their particular complexity, are conducted by a commission. Therefore, in accordance with the requirements of the relevant instruction, it was considered more appropriate to conduct a commission forensic medical examination in the present case in order to resolve the questions put before the examination.

According to forensic medical expert opinion No. 330 dated 26 April 2022, the examination appointed in respect of Elsevar Elkhan oglu Gadirov related to the determination of his state of health and, at the same time, was classified as a complex examination; such examinations, due to their particular complexity, are conducted by a commission. Therefore, in accordance with the requirements of the relevant instruction, it was considered more appropriate to conduct a commission forensic medical examination in the present case in order to resolve the questions put before the examination.

According to forensic medical expert opinion No. 727 dated 14 June 2022, the injuries sustained by Gulu Isakhan oglu Guliyev — blind shrapnel wounds of the soft tissues of the anterior wall of the chest not penetrating into the thoracic cavity, and of the second finger of the left hand — were caused by the impact of fragments formed as a result of the explosion of a device or projectile with explosive properties and, by degree, are classified as causing minor harm to health.

According to forensic medical expert opinion No. 728 dated 14 June 2022, the injury sustained by Huseyn Rovshan oglu Mehdizade — bilateral acute cochlear neuritis resulting from barotrauma — could have been caused by the impact of the blast wave formed as a result of the explosion of a device or projectile with explosive properties, as indicated by the person during the examination, and, by degree, is classified as causing minor harm to health.

Page 431

According to forensic medical expert opinion No. 729 dated 14 June 2022, the injury sustained by Hasan Ibrahim oglu Aliyev — an abrasion of the right wrist region — could have been caused by the impact of hard blunt secondary fragments formed as a result of the explosion of a device or projectile with explosive properties, as indicated by the person during the examination. Since the injury does not constitute harm to health, its degree was not determined. The final diagnosis established in respect of H.I. Aliyev at the Main Clinical

Hospital of the Ministry of Defence, namely “dissociative reaction resulting in recovery”, is an independent nosological psychiatric illness.

According to forensic medical expert opinion No. 764 dated 21 June 2022, the injuries sustained by Jafar Gurban oglu Malikov — blind shrapnel wounds of the nasal bridge and the left temporal region — were caused by the impact of fragments formed as a result of the explosion of a device or projectile with explosive properties and, by degree, are classified as causing minor harm to health.

According to forensic medical expert opinion No. 765 dated 21 June 2022, the injury sustained by Rahim Sadraddin oglu Shahverdiyev — traumatic detachment of the distal phalanx of the fourth finger of the right hand at the level of the middle third — was caused by the impact of fragments formed as a result of the explosion of a device or projectile with explosive properties and, by degree, is classified as causing minor harm to health, resulting in a slight permanent loss of general working capacity of 5%.

According to forensic medical expert opinion No. 766 dated 21 June 2022, the injuries sustained by Sanan Famil oglu Farzaliyev — closed craniocerebral trauma accompanied by concussion of the brain, resulting in vegetative vascular dystonia and astheno-neurotic manifestations, and blind shrapnel wounds of the soft tissues of the occipital region of the head with glass fragments in the wound cavity — could have been caused by the impact of the blast wave and secondary fragments formed as a result of the explosion of a device or projectile with explosive properties, and are classified as causing less serious harm to health.

According to forensic medical expert opinion No. 720 dated 14 June 2022, the injuries sustained by Kamran Eyvaz oglu Kazimov — wounds of the soft tissues of the anterior abdominal wall not penetrating into the abdominal cavity — were caused by the secondary impact of fragments formed as a result of a shot fired from a firearm and are classified as causing minor harm to health.

According to forensic medical expert opinion No. 443 dated 8 June 2022, the examination appointed in respect of Isgandar Nizami oglu Adigozalov related to the determination of his state of health and, at the same time, was classified as a complex examination; such examinations, due to their particular complexity, are conducted by a commission. Therefore, in accordance with the requirements of the relevant instruction, it was considered more appropriate to conduct a commission forensic medical examination in the present case in order to resolve the questions put before the examination.

According to forensic medical expert opinion No. 444 dated 8 June 2022, the examination appointed in respect of Sakhavat Rizvan oglu Aliyev related to the determination of his state of health and, at the same time, was classified as a complex examination; such examinations, due to their particular complexity, are conducted by a commission. Therefore, in accordance with the requirements of the relevant instruction, it was considered more appropriate to conduct a commission forensic medical examination in the present case, together with the relevant medical documents, in order to resolve the questions put before the examination.

According to forensic medical expert opinion No. 445 dated 8 June 2022, the examination appointed in respect of Roman Ramiz oglu Teyyubzade related to the determination of his state of health and, at the same time, was classified as a complex examination; such examinations, due to their particular complexity, are conducted by a commission. Therefore, in accordance with the requirements of the relevant instruction, it was considered more appropriate to conduct a commission forensic medical examination in the present case, together with the relevant medical documents, in order to resolve the questions put before the examination.

Page 432

According to forensic medical expert opinion No. 446 dated 8 June 2022, the examination appointed in respect of Asiman Ganimat oglu Khuduzade related to the determination of his state of health and, at the same time, was classified as a complex examination; such examinations, due to their particular complexity, are conducted by a commission. Therefore, in accordance with the requirements of the relevant instruction, it was considered more appropriate to conduct a commission forensic medical examination in the present case, together with the relevant medical documents, in order to resolve the questions put before the examination.

According to the opinion of the forensic medical expert dated 05.07.2022, No. K/188, the following injuries were found on the body of Tahmazov Ravan Vilayat oglu: “The condition after the primary surgical treatment of the wounds caused by blast trauma, removal of the left eyeball and corneal penetrating object, C3F8 gas tamponade, and the surgical treatment of the wounds caused by the blind shrapnel wound of the right lower limb. The visual acuity of the left eye is 0.1, uncorrected; the visual acuity of the right eye is 1. Secondary recovery after traumatic perforation of both eardrums as a result of barotrauma, bilateral conductive hearing loss, with the ability to hear whispered speech from a distance of up to 5 meters in the right ear and up to 5.5 meters in the left ear. Weak skin scar after the primary surgical treatment of the wound caused by the shrapnel wound of the right vertex as a result of blast trauma.” The injuries were caused by the impact of multiple firearm shells that fragmented upon explosion and by the shock wave of the detonation, and are classified as less severe injuries in terms of degree, as they caused a significant permanent loss of less than one-third (25 percent) of total working capacity due to impairment in one eye (loss of visual acuity to 0.1).

According to the forensic medical expert opinion No. K/189 dated 5 July 2022, the following injuries were present on the body of Vugar Jahangir oglu Jahangirov as a whole: “blast trauma dated 16 November 2021; condition following surgical embolectomy of the left axillary artery performed in connection with ischaemia of the left upper limb; penetrating injury of the right side of the face, full-thickness laceration, corneal oedema, foreign body, intravitreal haemorrhage, condition following surgery for primary surgical treatment of wounds, vitrectomy and removal of a foreign body in connection with an intraocular foreign body, corneal opacity after surgery, and a paramacular scar resulting in a reduction of visual acuity to 0.04, not correctable, with visual acuity of the left eye being 1.0; blast trauma dated 16 November 2021; blunt trauma of the left hand, soft-tissue contusion; blast trauma;

shrapnel wounds of the soft tissues of the right anterior upper surface of the chest; hardened skin scar following primary surgical treatment of wounds in connection with blind shrapnel wounds of the left cheekbone, cheek and right cheekbone regions as a result of blast trauma, small foreign bodies of the soft tissues, namely metal fragments, without impairment of chewing function; incised and chopped wound of the left auricle; and astheno-neurotic manifestations of somatogenic origin."

The noted injuries were caused by the impact of a multiple-fragmenting firearm projectile and the blast detonation wave. Since they resulted in permanent loss of general working capacity of not less than one-third in one eye, due to the loss of visual acuity down to 0.04, they are classified as causing serious harm to health.

According to the forensic medical expert opinion No. K/190 dated 5 July 2022, the following injuries were present on the body of Tabriz Isa oglu Mamizade as a whole: "blast trauma dated 16 November 2021; condition following primary surgical treatment of wounds in connection with a blind shrapnel wound of the soft tissues of the upper third of the right thigh, accompanied by a non-displaced fracture of the sixth right rib and penetrating into the pleural cavity through the right lateral wall of the chest; foreign body, namely metal fragment, in the right lung and in the soft tissues of the upper third of the right thigh."

The noted injuries were caused by the impact of a multiple-fragmenting firearm projectile and the blast detonation wave.

Page 433

The time of infliction of the injuries corresponds to 16 November 2021 and, by degree, they are classified as causing less serious harm to health.

According to the forensic medical expert opinion No. K/191 dated 5 July 2022, Tural Nariman oglu Khalilov was diagnosed as follows: "barotrauma, right-sided chronic cochlear neuritis, persistent right-sided sensorineural hearing loss, with whispered speech heard at a distance of five metres in the right ear and six metres in the left ear; astheno-neurotic manifestations and vegetative vascular instability following closed craniocerebral trauma and concussion of the brain." The noted pathology could have been caused by the impact of the blast detonation wave during blast trauma and, by degree, is classified as causing less serious harm to health.

According to the forensic medical expert opinion No. K/192 dated 5 July 2022, the following injuries were present on the body of Hikmat Elman oglu Abdullayev as a whole: "blast trauma dated 16 November 2021; primary surgical treatment of wounds dated 17 November 2021 in connection with blind shrapnel wounds of the left patellar region, left lower leg and fifth finger of the right hand, open fragmentary fracture with bone defect of the middle and distal phalanges of the fifth finger of the right hand, open fragmentary displaced fracture of the left patella, and rupture of the extensor tendon of the fifth finger of the right hand; foreign bodies of the soft tissues, namely metal fragments; lateral fasciotomy, necrectomy and

ligation of the left anterior tibial artery dated 19 November 2021 in connection with ischaemic necrosis of the lateral muscle group of the left lower leg and thrombosis and injury of the left anterior tibial artery; open reduction of the left patella, fixation using the cerclage method, and osteosynthesis of the fifth finger of the right hand using the Suzuki method dated 30 November 2021; condition following secondary surgical treatment of wounds dated 22 December 2021; blast trauma dated 16 November 2021; condition following post-traumatic neuropathy of the left peroneal nerve."

The noted injuries were caused by the impact of a multiple-fragmenting firearm projectile and, by degree, are classified as causing serious harm to health.

According to the forensic medical expert opinion No. K/193 dated 5 July 2022, the following injuries were present on the body of Rahim Sadraddin oglu Shahverdiyev as a whole: "blast trauma dated 16 November 2021; condition following primary surgical treatment of the wound in connection with traumatic detachment of the distal phalanx of the fourth finger of the right hand, performed on 16 November 2021." The noted injuries were caused by the impact of a fragmenting firearm projectile and, by degree, are classified as causing less serious harm to health.

According to the forensic medical expert opinion No. K/194 dated 5 July 2022, the following injuries were present on the body of Isgandar Nizami oglu Adigozalov as a whole: "blast trauma dated 16 November 2021; condition following primary surgical treatment of wounds in connection with a perforating fracture of the body of the right scapula, and blind shrapnel wounds of the right popliteal region and right scapular region not penetrating into cavities; condition following closed craniocerebral trauma and concussion of the brain; condition following bilateral acute cochlear neuritis as a result of barotrauma dated 16 November 2021." The noted injuries were caused by the impact of a multiple-fragmenting firearm projectile and the blast detonation wave and, by degree, are classified as causing less serious harm to health.

According to forensic medical expert opinion No. K/195 dated 5 July 2022, upon admission to the Main Clinical Hospital of the Ministry of Defence, Vugar Eldar oglu Aliyev was diagnosed as follows: "bilateral acute cochlear neuritis; right-sided acute exudative otitis media; deviation of the nasal septum causing a slight impairment of nasal breathing; secondary partial adentia, with absence of teeth 3, 15, 16 and 17 in the upper jaw and teeth 35, 36 and 37 in the lower jaw; allergic dermatitis of both hands; myopic astigmatism of both eyes, with refraction Em and M 3.5 D in both eyes,

resulting in reduced visual acuity to 0.1, corrected to 0.6; chronic autoimmune thyroiditis; liver fermentopathy."

The pathology diagnosed as "bilateral acute cochlear neuritis; right-sided acute exudative otitis media" may have been caused by the impact of the blast detonation wave during blast

trauma and is classified as causing minor harm to health. The other illnesses indicated in the diagnosis have no causal connection with the blast trauma.

According to forensic medical expert opinion No. K/196 dated 5 July 2022, upon admission to the Main Clinical Hospital of the Ministry of Defence, Madat Elbrus oglu Manafli was diagnosed as follows: “closed blunt trauma of the spinal column as a result of blast trauma dated 16 November 2021; condition following an uncomplicated stable compression fracture of the body of the L2 vertebra; simple myopic astigmatism of both eyes, with refraction Em and M 1.5 D, resulting in reduced visual acuity of both eyes to 0.7, corrected to 1; solitary cyst of the left kidney; reactive hepatitis.” The pathology diagnosed as “closed blunt trauma of the spinal column as a result of blast trauma dated 16 November 2021; condition following an uncomplicated stable compression fracture of the body of the L2 vertebra” could have been caused by the impact of the blast detonation wave during blast trauma. The time of infliction of the injuries corresponds to 16 November 2021 and they are classified as causing less serious harm to health. The other illnesses indicated in the diagnosis have no causal connection with the blast trauma.

According to forensic medical expert opinion No. K/197 dated 5 July 2022, upon admission to the Main Clinical Hospital of the Ministry of Defence, Namik Natiq oglu Alizade was diagnosed as follows: “ulcer disease, in the stage of incomplete remission; temporary impairment of digestive function following a scarred gastric ulcer; retrocerebellar arachnoid cyst; blast trauma dated 16 November 2021; left-sided acute cochlear neuritis; left-sided sensorineural hearing loss, with whispered speech heard at a distance of four metres in the left ear and six metres in the right ear.” The pathology diagnosed as “blast trauma dated 16 November 2021; left-sided acute cochlear neuritis; left-sided sensorineural hearing loss, with whispered speech heard at a distance of four metres in the left ear and six metres in the right ear” could have been caused by the impact of the blast detonation wave during blast trauma and is classified as causing minor harm to health. The other illnesses indicated in the diagnosis have no causal connection with the blast trauma.

According to forensic medical expert opinion No. K/256 dated 1 September 2022, on the basis of the submitted medical documents, Roman Ramiz oglu Teyyubzade was diagnosed as follows: “condition following primary surgical treatment of wounds, osteosynthesis of fracture fragments using the G.A. Ilizarov method, drainage of the right pleural cavity using the Bulau method, and removal of the drainage tube dated 23 November 2021, in connection with a through-and-through wound of the left forearm, a blind shrapnel wound passing through the left cheek region and resting against the C1 vertebra, a fracture of the left ascending ramus of the mandible, an open multifragmentary wound of the bones of the left forearm with bone and extensive soft-tissue defects, contusion of the right lung and pneumothorax, all as a result of blast injury dated 16 November 2021; condition following revision of the wounds of the left forearm and necrectomy dated 26 November 2021; condition following mild post-haemorrhagic anaemia; detachment of the retina of the left eye; initial cataract of the left eye; reduction of visual acuity to 0.1 as a result of vitreous haemorrhage; and visual acuity of the right eye equal to 1.”

The injuries indicated in the diagnosis and the other pathologies, namely complications, that developed in connection with those injuries were caused by the impact of a fragmenting firearm projectile and the blast detonation wave during blast trauma. The time of infliction of the injuries corresponds to 16 November 2021 and, by degree, they are classified as causing serious harm to health.

According to forensic medical expert opinion No. 1218 dated 15 September 2022, the injuries sustained by Murad Bakhtiyar oglu Gulaliyev — a blind shrapnel wound of the cranial cavity, accompanied by severe haemorrhagic contusion of the frontal lobes of the brain, subarachnoid haemorrhage, cerebral oedema, intracerebral foreign bodies, namely metal and bone fragments, and a fragmentary fracture of the frontal bone; a blind shrapnel wound of the left half of the chest penetrating into the thoracic and abdominal cavities, accompanied by injury to the stomach,

Page 435

left-sided haemopneumothorax, haemoperitoneum, a metal foreign body in the abdominal cavity, atelectasis of the lower lobes of both lungs, and pulmonitis of the left lung; and a blind shrapnel wound of the anterior surface of the upper third of the left thigh — were caused by the impact of fragments formed as a result of the explosion of a device or projectile with explosive properties. It is not ruled out that they were sustained on the date and under the circumstances indicated by the person during the examination, namely 16 November 2021, and, by degree, they are classified as causing serious harm to health.

According to forensic medical expert opinion No. 1153 dated 5 September 2022, during the forensic medical examination of Oruj Nabi oglu Huseynov conducted on 5 September 2022, no visible injury or trace of injury was found, except for scar tissues representing healed traces of shrapnel wounds in the region of the right scapular angle and on the big toe of the right foot.

As appears from the medical documents, O.N. Huseynov was treated as an inpatient at the Republican Psychiatric Hospital of the Ministry of Health from 28 February 2022 to 11 March 2022 with the diagnosis “moderately pronounced prolonged post-traumatic stress disorder; dissociative-conversion disorder; functional seizures in the anamnesis, four to five times per month,” and at the Shaki District Psychiatric Hospital of the Ministry of Health from 11 August 2022 to 31 August 2022 with the diagnosis “post-traumatic stress disorder, with behavioural disorders and depressive symptoms.” On 21 January 2022, he was examined by the Military Medical Commission of the Central Military Polyclinic of the Ministry of Defence, approved by the Central Military Medical Commission of the Ministry of Defence, with the diagnosis “moderately pronounced prolonged post-traumatic stress disorder; through-and-through shrapnel wound of the first toe of the right foot as a result of blast trauma dated 16 November 2021; consolidated fragmentary fracture of the first phalanx of the right foot; hardened skin scar; foreign body, namely metal fragment, in the soft tissues of the chest; condition following left-sided acute cochlear neuritis as a result of blast trauma

dated 16 November 2021, with whispered speech heard at a distance of three metres in the left ear and six metres in the right ear.”

According to forensic medical expert opinion No. 1217 dated 15 September 2022, the injury sustained by Murad Tahir oglu Naghiyev — a blind shrapnel wound of the left parietal region of the head — was caused by the impact of fragments formed as a result of the explosion of a device or projectile with explosive properties. Since the injury does not constitute harm to health, its degree was not determined.

According to forensic medical expert opinion No. 1152 dated 5 September 2022, the injury sustained by Gabil Habil oglu Yusifov — one combined blind firearm gunshot wound of the abdominal and thoracic cavities, entering from the right lumbar region and penetrating into the abdominal and thoracic cavities, resulting in injury to the liver and right kidney, right-sided haemopneumothorax, fractures of the ninth and twelfth right ribs, traumatic-haemorrhagic shock of the second to third degree, and the presence of a foreign body, namely a bullet, in the ninth to tenth right intercostal space —

caused as a result of a shot fired from a firearm and, by degree, is classified as grievous bodily injury.

According to forensic medical expert opinion No. K/255 dated 1 September 2022, no injuries characteristic of explosion trauma, nor any pathology related to such trauma, were found on the body of **Khuduzade Asiman Ganimat oglu**.

According to forensic medical expert opinion No. K/257 dated 1 September 2022, **Aliyev Sakhavat Rizvan oglu** was given the following final diagnosis:

“Explosion trauma sustained on 16 November 2021. Shrapnel wound to the posterior surface of the left shoulder girdle; shrapnel wound to the second finger of the right hand; traumatic amputation of the middle one-third of the middle phalanx of the second finger of the right hand. Moderately expressed prolonged post-traumatic stress disorder. As a result of explosion trauma sustained on 16 November 2021: left-sided cochlear neuritis; left-sided sensorineural hearing loss; perception of whispered speech at a distance of five metres in the left ear and six metres in the right ear.”

The stated injuries and the other pathological conditions that developed in connection with them arose during the explosion from the effects of fragments of an explosive munition and the blast wave generated by detonation. The time at which the injuries were sustained corresponds to 16 November 2021. By degree, they are classified as bodily injuries causing minor harm to health.

According to forensic medical expert opinion No. 1214 dated 14 September 2022, in order to determine precisely what injury or injuries **Khasmatov Sabir Seymur oglu** had sustained, the mechanism, time and circumstances of their occurrence, as well as the degree of harm

caused to health, it is possible to recommend the appointment of an additional forensic medical examination after the originals of the medical documents prepared in relation to him at Military Hospital No. 157, as well as at Kalbajar Hospital No. 524 and Ganja Hospital No. 230—including the medical booklet, extracts from the register of injuries, medical histories and other documents—are submitted for examination.

According to ballistic and chemical expert opinion Nos. 3/1937 and 3/1938 dated 14 December 2021:

The firearm bearing serial number **“963565”** was factory-manufactured in 1975, has a calibre of 7.62 millimetres, is a Kalashnikov-design AKM military rifled automatic weapon, is in working order, is suitable for use and firing, and cannot fire without the trigger being pulled.

The firearm bearing serial number **“715636”** was factory-manufactured in 1975, has a calibre of 7.62 millimetres, is a Kalashnikov-design AKM military rifled automatic weapon, is in working order, is suitable for use and firing, and cannot fire without the trigger being pulled.

The firearm bearing serial number **“MS 2214”** was factory-manufactured in 1968, has a calibre of 7.62 millimetres, is a Kalashnikov-design AKM military rifled automatic weapon, is in working order, is suitable for use and firing, and cannot fire without the trigger being pulled.

The firearm bearing serial number **“KP 5805”** was factory-manufactured in 1966, has a calibre of 7.62 millimetres, is a Kalashnikov-design AKM military rifled automatic weapon, is in working order, is suitable for use and firing, and cannot fire without the trigger being pulled.

The firearm bearing serial number **“LD 1186”** was factory-manufactured in 1967, has a calibre of 7.62 millimetres, is a Kalashnikov-design AKM military rifled automatic weapon, is in working order, is suitable for use and firing, and cannot fire without the trigger being pulled.

The firearm bearing serial number **“82901”** was factory-manufactured in 1989, has a calibre of 7.62 millimetres, is an SVD military rifled sniper rifle, is in working order, is suitable for use and firing, and cannot fire without the trigger being pulled.

The firearm bearing serial number **“CB 383”** was factory-manufactured in 1973, has a calibre of 7.62 millimetres, is a PKM-design military rifled automatic machine gun, is in working order, is suitable for use and firing, and cannot fire without the trigger being pulled.

The firearm bearing serial number **“670149”** has a calibre of 12.7 × 108 millimetres and is a factory-manufactured large-calibre Kord military rifled automatic machine gun. It is in working order, is suitable for use and firing, and cannot fire without the trigger being pulled.

The firearm bearing serial number **“771739”** is a factory-manufactured 40-millimetre RPG-7V2 anti-tank hand grenade launcher. It is a military firearm, is in working order, is suitable for firing, and cannot fire without the trigger being pulled.

Six magazines are factory-manufactured standard component parts of Kalashnikov-design AKM and AKMS automatic weapons, do not possess independent functional significance, and each has a capacity of thirty 7.62 × 39-millimetre cartridges. They are suitable for use.

A total of **188 cartridges**, each of 7.62 × 39-millimetre calibre, are factory-manufactured cartridges intended for use in AKM, AKMS and AK-47 automatic weapons, as well as SKS carbines of the corresponding calibre. They constitute military ammunition and are suitable for use.

A total of **99 cartridges**, each of 7.62 × 54-millimetre calibre, are factory-manufactured cartridges intended for use in SVD and Mosin rifles, PK and PKM machine guns and other military rifled firearms of the appropriate calibre. They constitute military ammunition and are suitable for use.

One ammunition belt, being a standard component part having no independent functional significance in PK, PKM and PKMN machine guns, is factory-manufactured, is designed to hold one hundred 7.62 × 54-millimetre cartridges, and is suitable for use.

A total of **50 cartridges**, each of 12.7 × 108-millimetre calibre, are factory-manufactured cartridges intended for use in Kord, DShK and DShKM large-calibre machine guns and other military rifled firearms of the appropriate calibre. They constitute military ammunition and are suitable for use.

One ammunition belt, being a standard component part having no independent functional significance in a Kord machine gun, is factory-manufactured, is designed to hold fifty 12.7 × 108-millimetre cartridges, and is suitable for use.

One factory-manufactured optical sight, of the **PSO-1** type and bearing serial number **TB09001**, is intended for use on sniper rifles, carbines and other corresponding firearms. It is a standard component part having functional significance for a firearm and is suitable for use.

Two metal objects submitted for examination, one of which was removed from the wound opening located on the neck portion and left posterolateral surface of the neck of **Aliyev Elchin Ramal oglu**, and the other from the upper lip region and upper part of the right shoulder of **Khalilov Murad Qalib oglu**, are fragments of projectiles used as military ammunition in firearms. Such projectiles are placed inside the body of the corresponding type and calibre of munition and are intended, upon firing, to strike and destroy a target at a certain distance, including a living target.

These objects are parts or fragments of mines that disintegrated as a result of an explosion and were factory-manufactured for use as military ammunition in munitions of corresponding design and calibre. However, due to their small size and the absence of any additional distinguishing features, it is impossible to determine the precise purpose, type, make, calibre or other characteristics of the mines of which they formed part, or to establish the specific make, calibre or intended use of the munition from which they originated.

Based on the discovery in the barrel channels of **five automatic weapons, two machine guns, one sniper rifle and one grenade launcher** of incompletely burned, smokeless powder particles constituting an additional factor of firing, and based on the discovery in the barrel channel of one grenade launcher of an explosive substance, namely TNT, it was established that shots had been fired from those weapons.

Page 438

However, due to the absence of an appropriate scientific and methodological means, it is impossible to determine the time or number of shots fired.

On the following military clothing belonging to **Khalilov Murad Qalib oglu**—a military jacket, military sweater, two long-sleeved undershirts, one sleeveless undershirt, military trousers with a belt, two pairs of warm underpants and the left leg of a soldier's boot—damage of the type and in the quantity specified in the examination section of the expert opinion was found.

On the following military clothing belonging to **Aliyev Elchin Ramil oglu**—a military jacket, military cap and one military sweater—damage of the type and in the quantity specified in the examination section of the expert opinion was found.

On the following military clothing belonging to **Niftaliyev Umud Oruc oglu**—a military jacket, military cap, military sweater, long-sleeved undershirt, sleeveless undershirt, military trousers with a belt, warm underpants, undershirt, military shoulder strap, one military identification tag and one pair of gloves—damage of the type and in the quantity specified in the examination section of the expert opinion was found.

On the following military clothing belonging to **Jabbarov Orkhan Hatam oglu**—one military cap, military sweater, long-sleeved undershirt and sleeveless undershirt—and on the following military clothing belonging to **Aghayev Elchin Marifat oglu**—a military jacket, military sweater, short-sleeved undershirt and balaclava-type cap—damage of the type and in the quantity specified in the examination section of the expert opinion was found.

Based on the form, dimensions and morphological structure of the damage to the military clothing, and on the discovery on its surface of soot, explosive substance in the form of TNT, and incompletely burned smokeless powder particles, the said damage is characteristic of being caused by fragments during an explosion, at close range to the centre of the explosion and in various directions.

Such damage may be caused by fragments of a mine that disintegrated as a result of an explosive event involving ammunition. However, due to the absence of an appropriate scientific and methodological means, it is impossible to determine the specific type and calibre of the fragments that caused the damage or the time at which the damage was sustained.

On one military cap belonging to **Alizade Elmin Samir oglu**, there is a through-and-through defect measuring 15 × 10 millimetres. Based on the form, dimensions and morphological structure of the defect and on the discovery around it of incompletely burned smokeless powder particles, the defect constitutes an entrance wound and is characteristic of having been caused, in a direction from back to front, by a bullet fired from a firearm.

However, because there is no defect of any corresponding type or calibre on the military cap, and due to the absence of an appropriate scientific and methodological means, it is impossible to determine the specific type and calibre of the firearm from which the shot was fired, the type and calibre of the bullet that caused the defect, or the time at which the defect was sustained.

Since the cap was heavily soaked with blood and moisture, it was impossible to conduct a chemical examination to determine whether a copper-metal trace, constituting an additional factor of firing, was present around the defect. For that reason, it was also impossible to determine the firing distance.

On the following items belonging to **Khalilov Murad Qalib oglu**—underpants, cap, right leg of a soldier's boot and two pairs of socks; on the following items belonging to **Aliyev Elchin Ramil oglu**—military trousers with a belt, warm underpants, undershirt, one pair of gloves, one pair of soldier's boots and one pair of socks; on the following items belonging to **Niftaliyev Umud Oruc oglu**—one pair of soldier's boots and one pair of socks; on the following items belonging to **Jabbarov Orkhan Hatam oglu**—military trousers with a belt, warm underpants, undershirt, one pair of soldier's boots and one pair of socks; on the following items belonging to **Aghayev Elchin Marifat oglu**—military trousers with a belt, warm underpants, one pair of soldier's boots and one pair of socks; and on the following items belonging to **Alizade Elmin Samir oglu**—a military jacket, military sweater, long-sleeved undershirt, military trousers with a belt, warm underpants, scarf, one pair of soldier's boots and three pairs of socks—damage characteristic of having been caused by fragments as a result of an explosion and by bullets as a result of shots fired from firearms was found.

On the following items belonging to **Khalilov Murad Qalib oglu**—underpants, cap and the right leg of a soldier's boot; on the following items belonging to **Aliyev Elchin Ramil oglu**—military trousers with a belt, warm underpants, undershirt, gloves, one pair of soldier's boots and one pair of socks; on the following items belonging to **Niftaliyev Umud Oruc oglu**—one pair of soldier's boots and one pair of socks; on the following items belonging to **Jabbarov Orkhan Hatam oglu**—military trousers with a belt, warm underpants, undershirt, one pair of soldier's boots and one pair of socks; on the following items belonging to **Aghayev Elchin Marifat oglu**—military trousers with a belt, warm underpants, one pair of

soldier’s boots and one pair of socks; and on the following items belonging to **Alizade Elmin Samir oglu**—a military jacket, military sweater, long-sleeved undershirt, one pair of military trousers with a belt,

Page 439

one pair of warm underpants, a scarf, one pair of soldier’s boots and three pairs of socks—particles of explosive substance, namely TNT, and incompletely burned smokeless powder particles constituting an additional factor of firing were found.

According to forensic medical expert opinion No. 877 dated 17 December 2021, the injury sustained by **Aslanov Aslan Shahhuseyn oglu**—a blind wound of the soft tissues of the right thigh accompanied by temporary impairment of the function of the right lower limb—was caused by fragments produced by the explosion of a firearm projectile. By degree, it is classified as bodily injury causing minor harm to health.

The diagnosis of “small solitary cysts of the right kidney,” established during the specialised medical examinations of **A. Sh. Aslanov** at Military Unit No. 230, constitutes an independent nosological pathology and has no causal connection with the injury.

According to comprehensive forensic ballistic and traceological expert opinion Nos. 3/1939 and 3/1940 dated 15 December 2021, the firearm bearing the inscription **“CL 1794”** was manufactured in 1962 at the Izhevsk Mechanical Plant. It is a Kalashnikov-design, 7.62-millimetre-calibre AKM automatic firearm bearing serial number CL 1794, namely a military rifled automatic weapon. It is in working order, is suitable for firing and, when placed in firing condition, does not discharge spontaneously without the trigger being pulled.

The firearm bearing the inscription **“MC 404”** was manufactured in 1965 at the Izhevsk Mechanical Plant. It is a Kalashnikov-design, 7.62-millimetre-calibre AKM automatic firearm bearing serial number MC 404, namely a military rifled automatic weapon. It is in working order, is suitable for firing and, when placed in firing condition, does not discharge spontaneously without the trigger being pulled.

The firearm bearing the inscription **“KB 265”** was manufactured in 1966 at the Izhevsk Mechanical Plant. It is a Kalashnikov-design, 7.62-millimetre-calibre AKM automatic firearm bearing serial number KB 265, namely a military rifled automatic weapon. It is in working order, is suitable for firing and, when placed in firing condition, does not discharge spontaneously without the trigger being pulled.

The firearm bearing the inscription **“BE 7909”** was manufactured in 1974 at the Izhevsk Mechanical Plant. It is a Kalashnikov-design, 7.62-millimetre-calibre AKM automatic firearm bearing serial number BE 7909, namely a military rifled automatic weapon. It is in working order, is suitable for firing and, when placed in firing condition, does not discharge spontaneously without the trigger being pulled.

One bullet of 7.62-millimetre calibre is a projectile component used during the firing of a factory-manufactured Model 1943 7.62-millimetre cartridge intended for use as military ammunition in Kalashnikov-design AK-series automatic weapons, including AKM, AKS and AKMS models, RPK and RPKS light machine guns, SKS carbines and other rifled military firearms.

In terms of its calibre and intended use, the bullet may have been fired from any of the submitted 7.62-millimetre-calibre AKM automatic firearms bearing serial numbers MC 404, KB 265, SL 1794 and BE 7909, when using Model 1943 cartridges loaded with a 7.62-millimetre bullet together with the other firing components.

However, because the marks left by the barrel of the firearm from which the bullet was fired were unsuitable for comparative identification examination, it is impossible to determine whether that bullet was fired from any of the submitted AKM automatic firearms bearing serial numbers MC 404, KB 265, SL 1794 and BE 7909, or from another specific firearm.

Two metal objects resembling bullet cores are factory-manufactured fragments separated as a result of bullets striking a solid object or target during firing. They were intended for use as military ammunition in Kalashnikov-design AK-series automatic weapons, including AKM, AKS and AKMS models, RPK and RPKS light machine guns, SKS carbines and other rifled military firearms, and formed parts of Model 1943 7.62-millimetre-calibre cartridges.

Page 440

The metal objects are bullet cores.

In terms of their calibre and intended use, the bullets of which those cores formed part may have been fired from any of the submitted 7.62-millimetre-calibre AKM automatic firearms bearing serial numbers MC 404, KV 265, SL 1794 and BE 7909, when using Model 1943 cartridges loaded with 7.62-millimetre bullets together with the other firing components.

However, because the cores were located inside the bullet jacket and therefore did not retain friction marks formed by contact with the barrel channel of the firearm from which they were fired, it is impossible to determine whether the bullets of which those cores formed part were fired from any of the submitted 7.62-millimetre-calibre AKM automatic firearms bearing serial numbers MC 404, KV 265, SL 1794 and BE 7909, or from another specific firearm.

One metal object resembling a fragment of a bullet jacket is a part of the jacket of a factory-manufactured Model 1943 7.62-millimetre-calibre bullet with a centred core, separated as a result of the bullet striking a solid object or target during firing. Such ammunition is intended for use as military ammunition in Kalashnikov-design AK-series automatic firearms, including AKM, AKS and AKMC models, RPK and RPKS light machine guns, SKS carbines and other rifled military firearms.

In terms of its calibre and intended use, the bullet of which the submitted fragment of a bullet jacket formed part may have been fired from any of the submitted 7.62-millimetre-calibre

AKM automatic firearms bearing serial numbers MC 404, KV 265, SL 1794 and BE 7909, when using Model 1943 cartridges loaded with 7.62-millimetre bullets together with the other firing components.

However, because the marks left by the barrel channel of the firearm from which the bullet was fired were unsuitable for comparative identification examination, it is impossible to determine whether the bullet of which the submitted fragment formed part was fired from any of the submitted 7.62-millimetre-calibre AKM automatic firearms bearing serial numbers MC 404, KV 265, SL 1794 and BE 7909, or from another specific firearm.

Based on the presence in the barrel channels of four automatic firearms of incompletely burned smokeless powder particles constituting an additional factor of firing, it was established that shots had been fired from those weapons. However, due to the absence of an appropriate scientific and methodological means, it is impossible to determine the time or number of shots fired.

On the following items belonging to **Aliyev Natiq Yusif oglu**—a military jacket, military sweater, long-sleeved undershirt, sleeveless undershirt, military trousers, warm underpants and underpants—damage of the type and in the quantity specified in the examination section of the expert opinion was found.

Based on the absence around the damage of copper-metal traces constituting an additional factor of firing, and based on the form and morphological structure of the damage, as well as on the presence around it of incompletely burned smokeless powder particles constituting an additional factor of firing, the damage located on the rear lower part of the left sleeve of the military jacket, military sweater and long-sleeved undershirt; on the left sleeve and on the left, lower and rear portions of the military jacket, military sweater, long-sleeved undershirt and sleeveless undershirt; and on the left side of the military trousers and underpants, constitutes entrance damage.

The damage located on the front part of the left sleeve of the military jacket, military sweater and long-sleeved undershirt, and on the front right portions of the warm underpants and underpants, constitutes exit damage. It is characteristic of having been caused by bullets fired from rifled firearms, travelling from a distance greater than one metre in a direction from left to right.

However, due to the absence of an appropriate scientific and methodological means, it is impossible to determine the specific type and calibre of the rifled firearm from which the shots were fired, the specific type and calibre of the bullets that caused the damage, or the time at which the damage was sustained.

Page 441

On one pair of gloves, one pair of soldier’s boots and one pair of socks belonging to **Aliyev Natiq Yusif oglu**, incompletely burned smokeless powder particles constituting an additional factor of firing were found.

According to forensic medical expert opinion No. 218 dated 17 February 2022, an opinion concerning the location, mechanism, time and circumstances of the injury sustained by **Alishanov Elmar Eldar oglu**, and its degree, could be expressed after the original medical history prepared in his name was submitted by the Main Medical Directorate of the Ministry of Defence and the Central Archives of the Ministry of Defence for an additional examination.

According to forensic medical expert opinion No. 317/e dated 18 May 2022, it would be possible to express an opinion as to what specific injury or injuries **Mammadov Bayram Asad oglu** sustained, the mechanism and time of their occurrence, and the degree of harm caused to health, after the medical documents prepared in his name, including his medical booklet, were submitted and an additional forensic medical examination was appointed.

According to forensic medical expert opinion No. 318 dated 18 May 2022, the injury sustained by **Isgandarov Tural Gahraman oglu**—a through-and-through wound of the soft tissues of the posterior surface of the upper one-third of the right upper arm and of the right scapular region—was caused by the impact of a bullet or projectile fired from a firearm and, by degree, is classified as bodily injury causing minor harm to health.

Because scar tissue had developed at the site of the wound by the time **T. G. Isgandarov** was presented for examination, it was not then possible, by forensic medical means, to determine the entrance and exit openings of the projectile, the firing distance or whether additional firing factors were present at the wound margins. Other matters of importance to the investigation, including the determination of the bullet's direction of travel while in the body, require a special forensic examination.

According to forensic medical expert opinion No. 310 dated 19 May 2022, the injuries sustained by **Mammadov Samir Mammad oglu**—a superficial wound of the right lower-leg region and a metal foreign body in the soft tissues of the right upper arm—are, by degree, classified as bodily injuries causing minor harm to health.

The superficial wound of the right lower-leg region was caused by a blunt mechanism, namely the impact of a hard blunt object. The other injury was caused by fragments formed during the explosion of a firearm projectile.

According to commission forensic medical expert opinion No. K/254-2022 dated 1 September 2022, the following diagnoses were established on the body of **Alishanov Elmar Eldar oglu**:

"Explosion trauma sustained on 16 November 2021. Shrapnel wound to the left elbow joint; condition following a second surgical intervention in connection with a fracture causing restricted range of motion of the left elbow joint, after surgery performed on 16 November 2020. Barotrauma sustained on 16 November 2021, resulting in bilateral acute cochlear neuritis. Closed craniocerebral trauma sustained on 16 November 2021; concussion of the

brain. Residual asthenoneurotic manifestations following the closed craniocerebral trauma and concussion."

These injuries and the pathological conditions that subsequently developed in connection with them arose from the impact of fragments of an explosive firearm projectile and from the blast wave generated during the explosion. The time at which they were sustained corresponds to 16 November 2021. By degree, they are classified as bodily injuries causing minor harm to health.

According to forensic medical expert opinion No. 547 dated 7 September 2022, no injuries or traces of injuries connected with the incident in question on 16 November 2021 were found on the body of **Humbatov Ulfat Rahim oglu**.

As is evident from the medical documents, during the medical examination of **U. R. Humbatov** at Military Unit No. 524 on 16 November 2021, he was diagnosed with:

"Explosion trauma. Barotrauma. Closed craniocerebral trauma?"

However, during his specialised medical examination by a neurosurgeon at Military Unit No. 230, that diagnosis was not confirmed.

According to forensic medical expert opinion No. 546 dated 7 September 2022, on the body of **Mirzaliyev Valeh Ali oglu**, in connection with the incident in question on 16 November 2021…

Page 442

…no injuries or traces of injuries were found.

As is evident from the medical documents, during the medical examination of **R. A. Karimli** at a medical station on 22 November 2021, he was diagnosed with "barotrauma." However, because that diagnosis was not confirmed by any clinical or instrumental examination method, it is currently impossible to express a definitive opinion as to whether that injury existed after the incident.

According to forensic medical expert opinion No. 545 dated 7 September 2022, no injuries or traces of injuries connected with the incident in question on 16 November 2021 were found on the body of **Karimli Rahib Abdulla oglu**.

As is evident from the medical documents, during the medical examination of **R. A. Karimli** at a medical station on 22 November 2021, he was diagnosed with "barotrauma." However, because that diagnosis was not confirmed by any clinical or instrumental examination method, it is currently impossible to express a definitive opinion as to whether that injury existed after the incident.

According to forensic medical expert opinion No. 1222 dated 15 September 2022, the injuries sustained by **Hasanov Kamran Elshad oglu**—loss of vision in the left eye at the level of "light perception," a post-traumatic cataract, a foreign body and retinal detachment; a blind shrapnel wound of the left eye caused by fragments formed during the explosion of a projectile possessing explosive properties; and a through-and-through bullet wound of the soft tissues of the right thigh caused by a shot fired from a firearm—are not inconsistent with having been sustained on the date and under the circumstances stated by the person during the examination, namely on 16 November 2022.

The injuries to the left eye are classified as grievous bodily injuries because they caused permanent loss of more than one-third of general working capacity. Separately, the blind shrapnel wound of the left eye is classified as grievous bodily injury because it caused permanent loss of more than one-third of general working capacity, while the through-and-through bullet wound of the soft tissues of the right thigh is classified as bodily injury causing minor harm to health.

According to forensic medical expert opinion No. 1297 dated 28 September 2022, during the forensic medical examination of **Musali Sahil Shahibkhan oglu** on 28 September 2022, no other visible injuries or traces of injuries were found apart from scar tissue constituting healed traces of incised wounds on the anterior surfaces of both forearms and on the posterior surface of the right hand.

The said injuries were caused by the impact of a sharp-edged object. It is not excluded that they arose on 25 April 2022 and in February 2022, respectively. Since they did not cause harm to health, their degree was not determined.

Taking into account the location, form and other morphological features of the injuries, it can be stated that they could also have been self-inflicted.

According to forensic medical expert opinion No. 677 dated 30 November 2022, it would be possible to express an opinion regarding what specific injury or injuries **Aliyev Elgun Elshan oglu** sustained, the mechanism and time of their occurrence, and the degree of harm caused to health, after the medical documents prepared in his name, including his medical booklet and trauma report, were submitted and an additional forensic medical examination was appointed.

According to forensic medical expert opinion No. 446 dated 2 December 2021, during the examination of **Seyidov Nadir Babir oglu** on 2 December 2021, no injuries or traces of injuries connected with the incident in question were found on his body.

According to forensic medical expert opinion No. 434 dated 29 November 2021, the injuries sustained by **Babayev Vagif Alizaab oglu**—closed craniocerebral trauma; concussion of the brain; and multiple shrapnel wounds to the right and left thighs at the level of the middle and lower one-thirds—were caused by primary fragments formed during the explosion of a

substance possessing explosive properties and by the blast wave. By degree, they are classified as bodily injuries causing minor harm to health.

Page 443

According to forensic biological expert opinion No. 75/MTB dated 13 December 2021, the blood group of **Babayev Vagif Alizaab oglu** is O (I).

Human blood was found on the submitted woollen sweater and underpants. When the group affiliation of the blood was examined, only the **"H" antigen** was detected. Therefore, the identified human bloodstains may belong to a person with blood group O (I), including **Babayev Vagif Alizaab oglu**, who has that blood group.

According to comprehensive forensic ballistic and traceological expert opinion Nos. 3/1961 and 3/2036 dated 23 December 2021, four submitted objects, having regard to their form, manufacturing characteristics, the traces present on them and their other features, are factory-manufactured fragments of an explosive munition, namely a mine.

However, due to the small size of the objects and the absence of any corresponding markings or inscriptions on them, it is impossible to determine the specific mine of which they formed part, its intended purpose, make, technical characteristics, place of manufacture or date of manufacture.

The lower glass panel of the excavator was found to be broken and fragmented. Based on the discovery on the surface of the glass of explosive substance in the form of TNT and particles of incompletely burned smokeless powder, the glass could have broken and fragmented as a result of an explosion.

Damage of the type and in the quantity specified in the examination section of the expert opinion was found on the sweater and warm underpants.

Based on the form, dimensions and morphological structure of the damage to the clothing, as well as on the discovery on its surface of explosive substance in the form of TNT and particles of incompletely burned smokeless powder, the said damage is characteristic of having been caused by fragments during an explosion, close to the centre of the explosion, travelling from below upward and from front to back. The locations of the damage overlap one another.

Such damage may also have been caused by the impact of fragments produced by the explosion of a mine.

According to forensic medical expert opinion No. 372 dated 13 October 2021, the injuries sustained by **E. E. Nazarkhan**—fragmentation of the bones and soft tissues of the right lower leg, traumatic dislocation of the left ankle joint, fragmentation of the soft tissues of the lower leg, and traumatic-hemorrhagic shock of the fourth degree—were caused by the combined effects of primary fragments and the blast wave produced by the explosion of a

substance possessing explosive properties. Taken together, they are classified as grievous bodily injuries.

According to forensic ballistic expert opinion No. 3/1769 dated 16 November 2021, damage of the type and in the quantity specified in the examination section of the expert opinion was found on military trousers, athletic trousers, the upper portion of a soldier's boot and a sock.

Based on the form, dimensions and morphological structure of the damage and on the discovery around it of explosive substance in the form of TNT and particles of gunpowder, the damage is characteristic of having been caused by fragments during an explosion, close to the centre of the explosion and travelling from below upward. The damage overlaps according to its location.

Such damage may also have been caused by fragments resulting from a mine explosion.

Explosive substance in the form of TNT and particles of gunpowder were found on the submitted underpants.

According to explosion-technical expert opinion Nos. 3/2001 and 3/2006 dated 23 December 2021, the damage present on the striking mechanism of a **PMN-3-type mine** is characteristic of having been caused by fragments during an explosion.

The damage found on the left soldier's boot and the left sock is characteristic of having been caused by fragments during the said explosion.

No damage characteristic of having been caused by fragments as a result of the explosion was found on the submitted detonating device, military jacket, military short-sleeved undershirt or one detonator component.

At the same time, on all of the above-listed military equipment and clothing items…

Page 444

…particles of incompletely burned smokeless powder were found.

According to forensic medical expert opinion No. 1708 dated 21 December 2021, the injuries sustained by **Karimov Tajaddin Gazanfar oglu**—an oblique fracture of the lower one-third of the diaphysis of the left tibia; closed, comminuted and displaced fractures of the left calcaneus, cuboid bone and the first, second and fourth metatarsal bones; a hematoma of the subcutaneous soft tissues of the left foot; and traumatic shock of the first to second degree—were caused by fragments formed during the explosion of a firearm projectile. By degree, they are classified as bodily injuries causing minor harm to health.

According to forensic medical expert opinion No. 01/a dated 8 January 2022, the injuries found on the body of **Aliyev Asif Adil oglu** were:

- an entrance wound located on the posterior surface of the thorax;
- an exit wound located on the anterior surface of the neck;
- acute blood loss;
- left-sided hemothorax;
- injury to the left lung;
- one through-and-through wound of the thoracic cavity, accompanied by a comminuted open fracture of the second thoracic vertebra.

The stated injury was life-threatening. It is characteristic of having been caused before death by a single shot fired from a firearm, travelling from back to front, from below upward and from right to left, from a distance at which additional firing factors had no effect. The immediate cause of death was acute internal blood loss resulting from injury to the left lung caused by the firearm bullet wound.

According to forensic ballistic expert opinion No. 3/143 dated 22 March 2022, damage of the type and in the quantity specified in the examination section of the expert opinion was found on a military jacket, military sweater, long-sleeved undershirt, short-sleeved undershirt and sleeveless undershirt.

Notwithstanding the absence around the damage of incompletely burned smokeless powder particles and copper-metal traces constituting additional factors of firing, having regard to the form, dimensions and morphological structure of the damage, the damage on the rear part of the military jacket, military sweater, long-sleeved undershirt, short-sleeved undershirt and sleeveless undershirt constitutes entrance damage, while the damage on the front part of the military jacket constitutes exit damage.

The damage is characteristic of having been caused by a bullet with an estimated diameter of 5.45 millimetres, fired from a rifled firearm from a distance exceeding two metres, travelling from back to front and from below upward.

According to forensic medical expert opinion No. 475 dated 29 December 2021, the injuries sustained by **Rustamov Elshan Yaqub oglu**—hematomas of the left thigh and left heel and a closed craniocerebral trauma accompanied by concussion of the brain—were caused, respectively, by the impact of a hard blunt object and by the effect of the blast wave generated during an explosion. By degree, they are classified as bodily injuries causing minor harm to health.

According to forensic ballistic and traceological expert opinion No. 3/70 dated 8 February 2022, three metal fragments separated from the object of which they had formed part as a result of fragmentation caused by a firing and explosive event.

It is not excluded that those metal fragments separated from the device of which they had formed part as a result of the explosion of an anti-tank mine.

According to forensic medical expert opinion No. 1287 dated 24 September 2021, the injury sustained by **S. Z. Rahimov**—a through-and-through firearm bullet wound to the anterior

surface of the lower one-third of the right lower leg, accompanied by a displaced fracture of the right tibia—was caused by a shot fired from a firearm and, by degree, is classified as bodily injury causing minor harm to health.

According to forensic medical expert opinion No. 64 dated 25 January 2022, the injury sustained by **Y. S. Eyniyev**—traumatic amputation of the left lower leg at the level of the lower one-third, accompanied by traumatic-hemorrhagic shock of the first degree and post-traumatic anemia—was caused by fragments formed during the explosion of a firearm projectile.

Because it resulted in permanent loss of more than one-third of general working capacity, the injury is classified as grievous bodily injury.

Page 445

According to forensic traceological and ballistic expert opinion No. 3/67 dated 17 February 2022, damage of the type described in the examination section of the expert opinion was found on the submitted military trousers, the cut-off portion of their left leg and an item presumed to be the left sock.

Based on the form, dimensions and morphological structure of the damage to the clothing, and on the discovery on its surface of explosive substance in the form of TNT and incompletely burned smokeless powder particles, the damage is characteristic of having been caused by fragments as a result of an explosion, at the centre of the explosion and travelling from below upward.

On a military cap, military sweater, two long-sleeved undershirts, a sleeveless undershirt, a military waist belt, two pairs of warm underpants, the right soldier’s boot and the right sock, incompletely burned smokeless powder particles constituting an additional factor of firing, as well as explosive substance in the form of TNT, were found.

According to forensic medical expert opinion No. 951 dated 13 August 2021, the injuries sustained by **N. M. Mammadov**—bruising of the soft tissues of the crown, back and lumbar region—were caused by the impact of a blunt object. It is not excluded that they were sustained on the date and under the circumstances stated by the person examined. Since the injuries did not cause harm to health, their degree was not determined.

According to forensic medical expert opinion No. 952 dated 12 September 2021, the injuries sustained by **A. Aslanov**—bruising of the soft tissues of the forehead and crown—were caused by the impact of a blunt object. Since the injuries did not cause harm to health, their degree was not determined.

According to forensic medical expert opinion No. 89 dated 24 January 2022, no visible injuries or traces of injuries connected with the incident in question were found on the body of **M. M. Mustafayev**.

According to forensic medical expert opinion No. 90 dated 24 January 2022, no visible injuries or traces of injuries connected with the incident in question were found on the body of **T. A. Huseynov**.

According to forensic medical expert opinion No. 02 dated 12 January 2022, the following injuries were found during the examination of the body of **Nazarov Ayaz Azer oglu**:

1. One through-and-through wound of the head, with the entrance opening located on the right side of the frontal region and the exit opening located in the occipital region, accompanied by comminuted open fractures of the bones of the cranial vault and base and diffuse crushing and destruction of the brain tissue. The injury is characteristic of having been caused by a shot fired from a firearm, travelling from above downward and from front to back, from a distance at which additional firing factors had no effect.
2. An incomplete traumatic amputation of the second finger of the left hand at the level of the metacarpophalangeal joint, with the finger remaining suspended on a flap of skin, and one through-and-through wound of the second finger and the palmar surface of the left hand, accompanied by comminuted displaced fractures of the third metacarpal bone and of the proximal and middle phalanges. The injury is characteristic of having been caused by a shot fired from a firearm.
3. Multiple blind shrapnel wounds of the forehead, nose, the regions surrounding both cheeks and the upper lip. These injuries could have been caused both by fragments generated during the explosion of military ammunition possessing explosive properties and by fragments separated when a bullet fired from a firearm struck a solid obstacle.

The immediate cause of death was diffuse crushing and destruction of the brain tissue resulting from the through-and-through firearm bullet wound of the head.

According to forensic ballistic expert opinion Nos. 3/92 and 3/107 dated 24 February 2022, one submitted object is a fragment of military ammunition separated during the firing process. However, because of the loss of material from its surface, its deformation, the loss of its original form and its small size, it is impossible to determine the calibre of the ammunition of which it formed part or the calibre of the military firearm from which it was fired.

Damage of the type and in the quantity specified in the examination section of the expert opinion was found on the military jacket. Notwithstanding the absence around the damage of incompletely burned smokeless powder particles and copper-metal traces constituting additional factors of firing, based on its form and morphological structure…

Page 446

…the damage constitutes an exit defect caused by the impact of a bullet fired from a firearm.

According to forensic medical expert opinion No. 18/1624 dated 8 April 2022, the injuries sustained by Ziyafaddin Nizamaddin oglu Ramazanov — through-and-through and blind

wounds of the right upper limb — are characteristic of having been caused by a shot fired from a firearm and are classified as causing less serious harm to health.

According to forensic medical expert opinion No. 18/1625 dated 8 April 2022, the injury sustained by C.R. Shirvanov — a through-and-through wound of the soft tissues of the scapular region — is characteristic of having been caused by a shot fired from a firearm and is classified as causing less serious harm to health.

According to forensic medical-biological and forensic chemical expert opinion No. MTB/1141-K dated 8 April 2022, the blood group of Ziyafaddin Nizamaddin oglu Ramazanov is O(I). Human blood was detected on the jacket, tunic, civilian jacket, military trousers, under-trousers and one pair of boots. When the group affiliation of the blood was examined, only the "H" antigen was obtained. Thus, the said blood stains could belong to a person with blood group O(I) under the ABO system, including Ziyafaddin Nizamaddin oglu Ramazanov, who has that blood group. No stain suspected of being blood was detected on the submitted neck covering. No narcotic drugs or psychotropic substances were detected in the blood-like stains taken from the physical evidence.

According to forensic medical-biological and forensic chemical expert opinion No. MTB/1142-K dated 8 April 2022, the blood group of Javid Rasul oglu Shirvanov under the ABO system is A(II). Human blood was detected on the submitted jacket, namely the military overcoat, tunic, woollen jacket, undershirt, military trousers and underpants. When the group affiliation of the blood was examined, only the "A" antigen was obtained. Thus, the said blood stains could belong to a person with blood group A(II) under the ABO system, including Javid Rasul oglu Shirvanov, who has that blood group. No narcotic drugs or psychotropic substances were detected in the blood stains taken from the physical evidence.

According to forensic ballistic expert opinion No. 3/492 dated 11 May 2022, the submitted item is a bullet, being a part of a 7.62 × 54 mm calibre cartridge with a cupronickel coating, intended for use as ammunition in 1891/1930 model "Mosin" system rifles, "SKS" carbines and other rifled firearms of the corresponding calibre. In its submitted condition, it is not considered ammunition and is unsuitable for use for its intended purpose.

According to forensic ballistic expert opinion No. 3/487 dated 13 May 2022, the military field-type jacket, military field-type tunic and civilian jacket said to belong to Ziyafaddin Nizamaddin oglu Ramazanov contained damage of the size and number indicated in the research part of the expert opinion. Based on the shape and morphological structure of the damage, the detection around the damage on the clothing items of incompletely burned smokeless powder particles as an additional factor of firing, and the absence of metal traces, the said damage is characteristic of having been caused by the impact of a bullet approximately five millimetres in diameter, as a result of one shot fired from a rifled firearm of combat purpose, from a distance of more than 1.5 metres.

According to forensic ballistic expert opinion No. 3/489 dated 13 May 2022, the military field-type jacket, military tunic, military jacket and underwear shirt said to belong to Javid

Rasul oglu Shirvanov contained damage of the size and number indicated in the research part of the expert opinion. Based on the shape and morphological structure of the damage, the detection around the damage on the clothing items of incompletely burned smokeless powder particles as an additional factor of firing, and the absence of metal traces, the said damage is characteristic of having been caused by the impact of bullets approximately seven millimetres in diameter, as a result of two shots fired from a rifled firearm of combat purpose, from a distance of more than 1.5 metres.

Page 447

According to forensic medical expert opinion No. 670 dated 1 June 2022, the injuries identified in Amid Aliverdi oglu Guliyev — through-and-through firearm wounds of the upper thirds of both lower legs, accompanied by an open fracture of the upper third of the diaphysis of the right tibia, open fragmentary slightly displaced fractures of the head of the left fibula, and resulting neuropathy of the left fibular nerve — were caused by a shot fired from a firearm and are classified as causing less serious harm to health.

According to complex forensic medical-criminalistic and biological expert opinion No. 23/mtb-1140/K dated 2 May 2022, the blood group of Amid Aliverdi oglu Guliyev is A(II). Human blood was detected on the submitted military trousers and under-trousers. When the group affiliation of the blood was examined, only the “A” antigen was obtained. Thus, the said blood stains could belong to a person with blood group A(II) under the ABO system, including Amid Aliverdi oglu Guliyev, who has that blood group.

According to forensic medical expert opinion No. 254 dated 24 April 2022, the injuries sustained by Aykhan Jamalzade — traumatic amputation of the right lower limb at the level of the middle third of the lower leg, accompanied by grade I–II traumatic-haemorrhagic shock, and blind wounds of the soft tissues of the left lower leg — were caused as a result of the explosion of a substance with explosive properties. It cannot be ruled out that they occurred on 19 April 2022, on the date and under the circumstances indicated. They are classified as causing serious harm to health, resulting in a permanent loss of more than one-third of general working capacity.

According to forensic ballistic expert opinion No. 3/548 dated 25 May 2022, the military trousers, black sock and left boot belonging to Aykhan Jamalzade contained damage of the number and size indicated. Such damage is characteristic of having been caused by the explosion of an anti-personnel mine, from a distance close to the centre of the explosion.

According to forensic medical expert opinion No. 424 dated 25 April 2022, the injuries sustained by V.I. Abilov — traumatic amputation of the right lower leg at the level of the middle third, and multiple shrapnel wounds of the left lower leg and foot — were caused by the impact of the blast wave and primary fragments as a result of the sudden explosion of an explosive device. They are classified as causing serious harm to health, resulting in permanent loss of general working capacity of not less than one-third, namely 50%.

According to forensic ballistic expert opinion No. 3/576 dated 1 July 2022, the military trousers, left boot and one pair of socks belonging to V.I. Abilov contained damage of the number and size indicated in the research part of the expert opinion. Based on the detection of traces of explosive substance, namely TNT, on the military clothing items, and on the shape, size and morphological structure of the damage, the said damage is characteristic of having been caused by fragments under the impact of an explosion, as a result of the explosion of an explosive device or devices, from a distance close to the centre of the explosion.

According to the forensic medical expert opinion, the wound of the glabellar region sustained by Mirsadiq Miragha oglu Mirsadiqov was caused by at least one shot fired from a firearm. Since it did not constitute harm to health, its degree was not determined.

According to forensic medical expert opinion No. 436 dated 26 July 2022, the injuries sustained by Vugar Isbandiyarov — traumatic amputation of the left lower limb at the level of the middle third of the lower leg, accompanied by grade III–IV traumatic-haemorrhagic shock; open multifragmentary displaced fractures of the lower third of the right lower-leg bones; a lacerated and torn wound of the medial ankle and dorsum of the foot with an extensive tissue defect; closed craniocerebral trauma accompanied by concussion of the brain; and bilateral acute cochlear neuritis resulting from barotrauma — are characteristic of having been caused by the impact of the blast wave, primary fragments and secondary fragments with a blunt mechanism, formed during the explosion of military ammunition with explosive properties. By degree, they are classified as causing serious harm to health.

Page 448

According to forensic traceological expert opinion No. 3/1387 dated 4 November 2022, explosive substance, namely TNT, and incompletely burned smokeless powder particles were detected on the military clothing items belonging to Vugar Isbandiyarov.

According to forensic medical expert opinion No. 09 dated 4 August 2022, during the examination of the body of Anar Rustam oglu Kazimov, the following injuries were identified:

1. one through-and-through wound of the left thigh, with the entry opening located on the outer surface of the upper third of the left thigh and the exit opening on the inner surface, accompanied by acute blood loss, open multifragmentary fractures of the left femur and injury to the femoral artery. The said injury was sustained during life and is characteristic of having been caused shortly before death by one shot fired from a firearm, from left to right, from a distance at which additional firing factors did not affect the target. It corresponds to signs of injuries causing serious harm to health.

2. One through-and-through wound of the soft tissues of the right lateral wall of the chest was also identified, with the entry opening located on the right lateral wall of the chest at the projection of the fifth rib along the posterior axillary line, and the exit opening located 3.5

centimetres behind that wound. It was sustained during life and is characteristic of having been caused shortly before death by one shot fired from a firearm, from front to back, from a distance at which additional firing factors did not affect the target. It corresponds to signs of injuries causing less serious harm to health.

3. One through-and-through wound of the soft tissues of the posterior surface of the left half of the chest was identified, with both entry and exit openings located in the left subscapular region. It was sustained during life and is characteristic of having been caused shortly before death by one shot fired from a firearm, from a distance at which additional firing factors did not affect the target. It corresponds to signs of injuries causing less serious harm to health.

4. A tangential wound of the left suprascapular region was also identified. It was sustained during life, is characteristic of having been caused shortly before death by one shot, and corresponds to signs of injuries causing minor harm to health.

5. In addition, blunt trauma of the chest was identified, accompanied by left-sided haemopneumothorax, injury to the left lung, linear fractures of the second left rib, displaced fractures of the fourth, fifth, sixth and seventh ribs, a fracture of the left transverse process of the sixth thoracic vertebra, a fracture of the body of the seventh thoracic vertebra, injury to the thoracic spinal cord, and multiple crushed-lacerated wounds on the posterior surface of the chest. 6. Multiple crushed-lacerated wounds were also found in the left temporal and right zygomatic regions, the left lumbar region, the right elbow-joint region and the dorsal surface of the right hand, as well as in the regions of both knee joints. Abrasions were present in the forehead region, right temporal region, right zygomatic region, right cheek, nose, left zygomatic region, chin and submandibular region. These injuries were caused by a blunt mechanism, namely the impact of a hard blunt object, were sustained during life and are characteristic of having been caused shortly before death. They correspond to signs of injuries causing serious harm to health.

During the examination of the body, abrasions were also found in the projection of the lumbar part of the spinal column, measuring 7 × 4.3 cm; in the anterior gluteal region, measuring 11 × 4.5 cm, 6 × 2 cm, 9.5 × 0.5 cm and 8 × 0.4 cm; on the outer surface of the left elbow region; on the posterior surface of the left forearm; in the projection of the left iliac crest; on the inner surface of the lower third of the right thigh; on the outer surface of the upper third of the left lower leg; on the outer surface of the lower third of the left thigh; and on the anterior surface of the upper third of the right lower leg. The largest measured 7 × 4 cm and the smallest 2 × 1 cm; their surfaces were dry, brownish-yellow and yellowish-reddish, with uneven edges. The said abrasions are characteristic of having been caused by a blunt mechanism, as a result of friction of the injured areas against a hard blunt object. They were not sustained during life and correspond to having been caused after death.

The cause of death was acute blood loss resulting from the through-and-through firearm gunshot wound of the left thigh accompanied by multifragmentary open fractures of the femur and injury to the femoral artery.

According to forensic medical expert opinion No. 1138 dated 1 September 2022, no injury or trace of injury was found in Huseyn Fazil oglu Aghayev other than one combined through-and-through firearm gunshot wound of the right gluteal region and the anterior surface of the upper third of the right thigh, accompanied by post-traumatic neuropathy of the right femoral nerve and a perforating fracture of the neck of the right femur. The said injuries were caused by a shot fired from a firearm and are classified as causing serious harm to health.

According to forensic medical expert opinion No. 1499 dated 2 November 2022, the tangential gunshot wound of the soft tissues of the outer surface of the upper third of the right upper arm sustained by Yusif Arastun oglu Hasanov was caused by a shot fired from a firearm. Since it does not constitute harm to health, its degree was not determined.

According to forensic criminalistic expert opinion No. 44-tkb dated 13 August 2022, the mechanism of formation of the blood stains detected on the physical evidence was as follows: the stains on the entire surface of the tunic, trousers, underpants and one pair of socks are absorption-type stains formed as a result of superficial static and slight dynamic contact with a source of blood, namely a bloody surface. The stains on the entire surface of the short-sleeved shirt are absorption-type stains formed through static contact with a source of blood and by the physical-capillary factor. The stains on the entire surface of one pair of boots are smear-type stains formed as a result of dynamic contact with a source of blood.

According to forensic criminalistic expert opinion No. 51-tkb dated 13 October 2022, the mechanism of formation of the blood stains detected on the physical evidence was as follows: the stains on the lower part of the right and left halves of the front surface of the tunic, on the lower part of the back surface and on both sleeves, and on the entire surface of the trousers, are absorption-type stains formed as a result of superficial static and slight dynamic contact with a source of blood, namely a bloody surface. The stains on the entire surface of the underpants are absorption-type stains formed through static contact with a source of blood and by the physical-capillary factor. The stains on one surface of the belt and on the entire surface of one pair of boots are smear-type stains formed as a result of dynamic contact with a source of blood.

According to forensic medical-biological expert opinion No. 50-mtb dated 13 October 2022, the blood group of Anar Rustam oglu Kazimov under the ABO system is O(I). Human blood was detected on the military tunic, short-sleeved undershirt, military trousers with a belt, underpants, one pair of socks and one pair of boots belonging to Anar Rustam oglu Kazimov. When the group affiliation of the blood was examined, the “H” antigen was obtained. Thus, the said blood stains could belong to a person with blood group O(I) under the ABO system, including Anar Rustam oglu Kazimov, who has that blood group.

According to forensic medical-biological expert opinion No. 54-mtb dated 13 October 2022, the blood group of Huseyn Fazil oglu Aghayev is AB(IV). Human blood was detected on his military tunic, military trousers, underpants, belt and one pair of boots. When the group affiliation of the blood was examined, only the “A” and “B” antigens were obtained. The said blood stains could belong to a person with blood group AB(IV) under the ABO system, including Huseyn Fazil oglu Aghayev, who has that blood group. No stain suspected of being blood was detected on the cap, neck covering or scarf.

According to complex forensic ballistic and traceological expert opinion Nos. 3/1154 and 3/1155 dated 21 October 2022, the one bullet submitted for examination is a part of a factory-made cartridge, considered ammunition, intended for use in 7.62 mm calibre “AK-47”, “AKM” and “AKMS” automatic firearms of the Kalashnikov design.

Page 450

Such bullets form part of 7.62 × 39 mm calibre cartridges; when fired from a weapon, the range at which the bullet has lethal force is 1,350 metres, and the maximum flight range of the fired bullet is up to 3,000 metres.

According to forensic ballistic and firearm-trace expert opinion No. 3/1214 dated 30 September 2022, the military field trousers, long-sleeved shirt, T-shirt, sock and right soldier’s boot contained damage of the size indicated in the research part of the expert opinion. It is possible that the said damage was caused by a mine explosion.

According to forensic medical expert opinion No. 12 dated 6 August 2022, the injuries found on the body of Babek Aliyev were as follows: a blind wound of the left lateral abdominal wall penetrating into the cavity, accompanied by injury to the left kidney and internal bleeding; a blind wound of the left elbow-joint region, accompanied by injury to the major vessels of the left upper limb, acute blood loss, and multifragmentary open fractures of the radius, ulna and humerus; a blind wound of the right lower-leg region, accompanied by fragmentary open fractures of the tibia and fibula; a blind wound of the right foot, accompanied by fragmentary open fractures of the first metatarsal and calcaneal bones; and multiple perforated-lacerated wounds of the soft tissues of the left lumbar region, the left lateral abdominal wall, the wall of the scrotum, the left upper arm, the fourth finger of the left hand, both thighs, both knee-joint regions, both lower legs and the right foot. These injuries are characteristic of having been caused by the impact of flame, the blast wave and fragments formed as a result of the explosion of military ammunition with explosive properties. It is not ruled out that they were sustained during a mine explosion on 5 August 2022. They correspond to signs of injuries causing serious harm to health and resulted in death.

According to forensic medical expert opinion No. 10 dated 24 September 2022, the injuries identified during the examination of the body of Samir Samad oglu Khudiyev — closed craniocerebral trauma accompanied by subaponeurotic haematoma of the parietal region, injury to the aponeurosis, subarachnoid haemorrhage in both parieto-occipital lobes of the brain, crushed-lacerated wounds of the left parietal and both temporal regions, and bruising

of both periorbital regions; closed blunt trauma of the chest and abdomen accompanied by injury to the right lung, haemorrhage into the tissue of the left lung, right-sided closed haemopneumothorax, namely the accumulation of free blood and air in the thoracic cavity, closed fracture of the seventh right rib, subcapsular haematomas of the liver and spleen, and haemorrhage into the pancreatic tissue; and multiple abrasions of the forehead, left zygomatic region, right and left periorbital regions, nasal region, both auricles, posterior surface of the neck, posterior surface of the torso, both shoulder girdles, both upper limbs, left thigh and left knee-joint region — are characteristic of having been caused by a blunt mechanism, namely the impact of a hard blunt object. The cause of death was closed blunt trauma of the chest accompanied by injury to the right lung, haemorrhage into the tissue of the left lung, right-sided closed haemopneumothorax and closed fracture of the seventh right rib.

According to forensic medical expert opinion No. 11 dated 24 September 2022, the injuries identified during the examination of the body of T.Ch. Aliyev were as follows: closed craniocerebral trauma accompanied by haematoma of both parietal lobes and the right frontal lobe of the brain; crushed-lacerated wounds of both parietal, left temporal and forehead regions and of the right eyebrow region; bruising of the right periorbital region and the left upper eyelid; haemorrhage into the sclera of the right eyeball; abrasions of the parietal region, forehead, both zygomatic regions, nose and submandibular region; closed blunt trauma of the chest accompanied by injury to the left lung and left-sided closed haemopneumothorax, namely the accumulation of free blood and air in the thoracic cavity; subcapsular haemorrhage of the left kidney; closed fragmentary displaced fractures of the lower third of the left humerus, dislocation of the left elbow joint; abrasions of both lumbar regions, the right forearm region and both knee-joint regions; and multiple abrasions of the neck region, right scapular and right lumbar regions, both upper-arm and forearm regions, the dorsal surfaces of both hands, the right gluteal region, both lower-leg regions and the left foot. These injuries are characteristic of having been caused by a blunt mechanism, namely the impact of a hard blunt object.

Page 451

The cause of death was closed blunt trauma of the chest accompanied by injury to the left lung and left-sided closed haemopneumothorax. Based on the dynamics of development of cadaveric signs, death occurred four to eight hours before the examination of the body in the morgue.

According to forensic medical expert opinion No. 480 dated 24 September 2022, the injuries sustained by E.E. Israfilov — a crushed-abrasion wound of the left lower-leg region and a subcutaneous haematoma — are characteristic of having been caused by a blunt mechanism, namely the impact of a hard blunt object, and, by degree, are generally classified as causing minor harm to health, resulting in short-term impairment of health.

According to forensic traceological expert opinion No. 1/3308 dated 11 November 2022, the surfaces of three military trousers, a military helmet, a T-shirt and underpants contained a large number of injuries of different shapes and sizes described in the research part of the

expert opinion. These injuries are characteristic of catching-and-tearing and friction damage caused by the impact of a hard object. The injuries on the surfaces of the three military trousers, military helmet, T-shirt and underpants could have been inflicted under the circumstances described in the descriptive part of the decision. At the moment when the injuries on the surfaces of the three military trousers, military helmet, T-shirt and underpants were formed as a result of the impact of a hard object, the victims could have been in different mutual positions. No damage caused by hand-to-hand fighting was found on the clothing items submitted for examination.

According to forensic medical expert opinion No. 1230 dated 1 December 2022, the injuries sustained by Ilkin Rustamov — a through-and-through firearm gunshot wound of the right half of the chest, accompanied by right-sided haemopneumothorax — were caused by at least one shot fired from a firearm and are classified as causing serious harm to health.

According to forensic biological expert opinion No. 59 MTB dated 27 September 2022, the blood group of Vugar Nizam oglu Suleymanov is O(I). Human blood was detected on the submitted tunic, short-sleeved shirt, T-shirt, trousers, belt, scarf and one pair of boots. When the group affiliation of the blood was examined, only the “H” antigen was obtained. Thus, the said blood stains could belong to a person with blood group O(I) under the ABO system, including Vugar Nizam oglu Suleymanov, who has that blood group.

According to complex forensic ballistic and traceological expert opinion No. 3/1334 dated 25 November 2022, the left soldier’s boot contained the damage indicated in the research part of the expert opinion. Based on the shape, size and morphological structure of the damage on the left soldier’s boot, and on the detection on its surface of explosive substance, namely TNT, and incompletely burned smokeless powder particles, the said damage is characteristic of having been caused by fragments as a result of an explosion, from the centre of the explosion, in a bottom-to-top and left-to-right direction. Such damage could also have been caused by the explosion of an anti-personnel mine.

No damage characteristic of having been caused by fragments as a result of an explosion was found on the military tunic, military short-sleeved undershirt, sleeveless T-shirt, military scarf, military belt, military trousers or right soldier’s boot. Incompletely burned smokeless powder particles, which are an additional factor of firing, and explosive substance, namely TNT, were detected on the military tunic, military short-sleeved undershirt, sleeveless T-shirt, military scarf, military belt, military trousers and right soldier’s boot.

According to forensic medical expert opinion No. 1714 dated 6 December 2022, the injury sustained by Vugar Nizam oglu Suleymanov — traumatic amputation, namely detachment, of the left lower limb at the level of the lower third of the lower leg — was caused by the impact of fragments formed as a result of the explosion of military ammunition with explosive properties, including a mine explosion. It is classified as causing serious harm to health, resulting in a permanent and stable loss of more than one-third of general working capacity.

According to forensic medical expert opinion on the examination of physical evidence No. 57-mtb dated 27 September 2022, the blood group of Heydar Elman oglu Gulmaliyev is O(I). Human blood was detected on the short-sleeved shirt, T-shirt, trousers and underpants. When the group affiliation of the blood was examined, only the “H” antigen was obtained. The said blood stains could belong to a person with blood group O(I) under the ABO system, including Heydar Elman oglu Gulmaliyev, who has that blood group.

According to forensic medical expert opinion No. 1233 dated 1 December 2022, the injuries sustained by H.E. Gulmaliyev — amputation of the left lower limb at the level of the middle third of the lower leg, grade II traumatic-haemorrhagic shock, and acute post-haemorrhagic anaemia — were caused by the combined impact of primary fragments and the blast wave formed as a result of the explosion of a substance with explosive properties. They are classified as causing serious harm to health dangerous to life.

According to expert opinion No. K/69 dated 15 March 2023, concerning a living person and the case materials, the following was established.

1. According to the opinion of the head of the Ophthalmology Department of the Main Clinical Hospital of the Ministry of Defence, Elchin Anvar oglu Zeynalzade has a pathology diagnosed as “reduction of visual acuity in the right eye to hand-motion level as a result of radiation maculopathy, not correctable; visual acuity of the left eye 1.0”. Since there are no special forensic-medical criteria for determining the duration of the said disease, it is not possible to express a specific and precise opinion as to the time of its development.

2. The disease present in Elchin Zeynalzade is caused by the effect of various types of radiation, primarily ultraviolet and violet-blue rays of the light spectrum that have a phototoxic effect. Light injury to the retina may be caused by the effect of light rays at sunset, by direct and prolonged observation of sunlight, or, in a technogenic manner, by the effect of technical optical devices and military-purpose laser beams. However, since the medical literature contains no information on the possibility of a pathology resulting in complete loss of visual acuity in one eye after only a single exposure of the eye to phototoxic light rays, and since the circumstances of the incident are based on assumptions and subjective information, it is not possible to express a precise opinion that the present pathology was sustained under the stated circumstances. In order to clarify the matter, if information is submitted concerning the specific circumstances of the incident and the technical characteristics of the device considered to be a military-purpose radiation source, it may be possible to express a precise opinion as to the circumstances under which the said pathology could have been sustained.

The pathology diagnosed as “reduction of visual acuity in the right eye to hand-motion level as a result of radiation maculopathy, not correctable; visual acuity of the left eye 1.0” is considered, according to the ophthalmologist’s opinion, to be of radiation origin and, since it resulted in complete loss of vision in one eye and permanent loss of more than one-third of general working capacity, is assessed as a severe bodily injury.

3. Apart from the indicated pathology, Elchin Anvar oglu Zeynalzade also has a disease diagnosed as “neurocirculatory asthenia, cardiac type, persistent cardiac rhythm disorder in the form of isolated ventricular extrasystoles”, and that disease corresponds to the entries in the medical documents prepared in his name.

4. Since the conscript’s registration card belonging to Elchin Anvar oglu Zeynalzade was not submitted for examination, it is not possible to express an opinion as to what diseases he had when he was called up for military service on 27 April 2021, or as to his fitness category for military service.

5. When Elchin Anvar oglu Zeynalzade was examined by the Military Medical Commission, the diagnosis given to him was correct, and there was no need to refer him for additional examinations in order to establish the diagnosis.

Page 453

6. The examination methods used when Elchin Zeynalzade was examined by the Military Medical Commission, and the diagnosis given to him, correspond to the entries in the documents prepared in his name.

7. At present, Elchin Anvar oglu Zeynalzade has pathologies diagnosed as “reduction of visual acuity in the right eye to hand-motion level as a result of radiation maculopathy, not correctable; visual acuity of the left eye 1.0; neurocirculatory asthenia, cardiac type; persistent cardiac rhythm disorder in the form of isolated ventricular extrasystoles”. With these diagnosed illnesses, under column II of Articles 30(b) and 35(b) of the “Schedule of Diseases” of the “Regulations on Military Medical Examination”, approved by Decision No. 59 of the Cabinet of Ministers of the Republic of Azerbaijan dated 29 February 2008, he is “unfit for military service in peacetime and limitedly fit in wartime”.

8. Elchin Zeynalzade could not have simulated the disease.

According to forensic traceological expert opinion No. 3/1002 dated 18 July 2023, it is not ruled out that the mark on the glass of the right eyepiece of binoculars model BDS111, No. 57514, was caused by the impact of a laser beam.

According to forensic medical expert opinion No. 541 dated 4 September 2022, the injury sustained by Musa Azar oglu Ahmadov — blind wounds of the left upper-arm region and small metal foreign bodies in the soft tissues of the left shoulder girdle — was caused by the impact of fragments separated when a projectile, namely a bullet, struck a hard obstacle during a shot fired from a firearm. By degree, these injuries are classified as causing minor harm to health.

According to forensic medical expert opinion No. 552 dated 8 September 2022, the injuries sustained by Anar Ilham oglu Isgandarov — a superficial tangential wound of the left mandibular angle region and abrasions of the left auricle — are respectively characteristic of having been caused by the impact of a bullet, namely projectile, as a result of a shot fired

from a firearm, and by a blunt mechanism, namely the impact of a hard blunt object. Since they are injuries that do not constitute harm to health, their degree was not determined.

According to forensic medical expert opinion No. 562 dated 19 September 2022, it is not ruled out that the injuries sustained by Farhad Nazir oglu Rzayev — two superficial tangential wounds of the neck region — were caused by the impact of a projectile, namely a bullet, as a result of a shot fired from a firearm.

According to forensic traceological expert opinion No. 3/1412 dated 11 November 2022, there were injuries on the right side of the collar of the tunic and on the helmet belonging to Farhad Nazir oglu Rzayev, and on the left sleeve of the military sweater belonging to Musa Azar oglu Ahmadov. Based on the shape, size and morphological structure of the injuries on the right side of the collar of the tunic belonging to Farhad Nazir oglu Rzayev and on the left sleeve of the military sweater belonging to Musa Azar oglu Ahmadov, on the absence around the injuries of incompletely burned gunpowder particles as an additional firing factor, and on the weakly detected trace of copper metal, the said injuries are characteristic of having been caused by the impact of a fragmented bullet. On the basis of those injuries, it was not possible to determine the direction or distance of fire, or the calibre of the firearm from which the shot was fired.

The injury on the crown part of the helmet belonging to Farhad Nazir oglu Rzayev is an entry injury, and the injury on the rear part is an exit injury. It is characteristic of having been caused by one shot fired from a rifled firearm, from a distance of more than one metre, by the impact of a copper-containing bullet approximately seven millimetres in diameter.

According to forensic medical expert opinion No. 1204 dated 13 September 2022, the injuries identified in Omar Vagif oglu Nasirov — multiple blind shrapnel wounds of the right temporal region, neck, right upper limb, both lower limbs and the left half of the scrotum, resulting in a foreign body of the soft tissues, namely a metal fragment — were caused by the impact of fragments formed as a result of the explosion of an explosive device. These injuries are classified as causing less serious harm to health.

Page 454

According to forensic medical expert opinion No. 1203 dated 13 September 2022, the injuries identified in Nariman Adalat oglu Huseynov — barotrauma resulting in left-sided acute cochlear neuritis; multiple shrapnel wounds of the lower third of both thighs and the lower third of the left lower leg; multiple foreign bodies of the soft tissues; an open displaced fracture of the left fibula; and a foreign body of the soft tissues — were caused by the impact of fragments formed as a result of the explosion of an explosive device. These injuries are classified as causing less serious harm to health.

According to forensic medical expert opinion No. 1202 dated 13 September 2022, the injuries identified in Shahin Oktay oglu Muradli — barotrauma resulting in left-sided acute cochlear neuritis; multiple shrapnel wounds of the left half of the anterior abdominal wall not

penetrating into the abdominal cavity, of the dorsal surfaces of the left hand and left forearm, of the anterior surface of the left lower leg with a defect of the skin and subcutaneous tissue, of the second, third and fourth toes of the left foot, and of the right lower limb — were caused by the impact of fragments formed as a result of the explosion of an explosive device. These injuries are classified as causing less serious harm to health.

According to forensic medical expert opinion No. 1205 dated 13 September 2022, the injuries identified in Khayal Gadir oglu Mammadov — traumatic detachment of the second finger of the left hand; an extensive shrapnel wound of the left hand with a large soft-tissue defect, accompanied by open fragmentary fractures of the first, second, third, fourth and fifth metacarpal bones; blind shrapnel wounds of the left upper-arm and left forearm regions; and post-traumatic neuropathy of the left median nerve — were caused by the impact of fragments formed as a result of the explosion of an explosive device. These injuries are classified as causing less serious harm to health.

According to forensic medical expert opinion No. 1040 dated 29 September 2022, the injuries identified in Anar Maharram oglu Muradov — multiple shrapnel wounds of the right foot and multiple foreign bodies of the soft tissues, namely metal fragments — were caused by the impact of fragments formed as a result of the explosion of an explosive device. These injuries are classified as causing minor harm to health.

According to forensic medical expert opinion No. 1041 dated 29 September 2022, the injuries identified in Yunus Arif oglu Bakhishov — multiple blind shrapnel wounds of the left upper arm and the left half of the chest not penetrating into a cavity, and foreign bodies of the soft tissues, namely metal fragments — were caused by the impact of fragments formed as a result of the explosion of an explosive device and are classified as causing minor harm to health.

According to forensic medical expert opinion No. 1056 dated 29 September 2022, the injuries identified in Shahruz Matlab oglu Rustamli — blind shrapnel wounds of the right forearm and the surface of the chest — were caused by the impact of fragments formed as a result of the explosion of an explosive device and are classified as causing minor harm to health.

According to forensic medical expert opinion No. 1059 dated 29 September 2022, the injuries identified in Gabil Valeh oglu Suleymanov — tangential shrapnel wounds of the soft tissues of the right lateral ankle — were caused by the impact of fragments formed as a result of the explosion of an explosive device and are classified as causing minor harm to health.

According to forensic ballistic expert opinion Nos. 3/1248, 3/1249 and 3/1250 dated 13 October 2022, the twelve items submitted for examination indicate that they were torn off and separated as a result of an explosion from the device of which the examined metal fragments formed parts. These items were manufactured neatly from typical material, in a special design similar to devices manufactured industrially using appropriate equipment, which indicates that the metal fragments formed part of an industrially manufactured device or devices, namely projectiles. Since no relevant factory markings, production-date marks or

inscriptions remained on the metal fragments, it was not possible to determine the device or projectile of which they formed part, or when it had been manufactured.

Page 455

The short-sleeved undershirt said to belong to Shahruz Rustamli; the military trousers with a belt said to belong to Nariman Huseynov; the underpants said to belong to Omar Nasirov; the item presumed to be the right sock belonging to Gabil Suleymanov; the military trousers with a belt and the right soldier's boot said to belong to Anar Muradov; and the short-sleeved undershirt and military trousers with a belt said to belong to Shahin Muradli contained damage. Based on the shape, size and morphological structure of the damage on the military clothing items, and on the detection on their surface of explosive substance, namely TNT, and incompletely burned smokeless powder particles, the said damage is characteristic of having been caused by fragments as a result of an explosion.

Incompletely burned smokeless powder particles, which are an additional firing factor, and explosive substance, namely TNT, were detected on the military trousers said to belong to Shahruz Rustamli; on the military clothing items said to belong to Khayal Mammadov; on the military trousers and one pair of socks said to belong to Omar Nasirov; on the short-sleeved undershirt, military trousers and one pair of soldier's boots said to belong to Gabil Suleymanov; on one pair of socks said to belong to Anar Muradov; on the military tunic and one pair of soldier's boots said to belong to Shahin Muradli; and on the military clothing items said to belong to Yunus Bakhishov.

The clothing items belonging to military servicemen, referred to in forensic ballistic expert opinion Nos. 3/1248, 3/1249 and 3/1250 dated 13 October 2022, were recognised as physical evidence in the case.

According to forensic medical expert opinion No. 1140 dated 1 September 2022, Ali Chingiz oglu Rahimov had a shrapnel wound of the anterior surface of the chest penetrating into the cavity and accompanied by open haemopneumothorax, as well as shrapnel wounds of the right thigh, the dorsal surface of the right hand and the right auricle. These injuries were caused by the impact of fragments formed as a result of the explosion of an explosive device and are classified as causing serious harm to health.

According to forensic medical expert opinion No. 1185 dated 9 September 2022, Ibrahim Ilham oglu Ganbarov had barotrauma resulting in bilateral acute cochlear neuritis, closed craniocerebral trauma accompanied by concussion of the brain, a blind shrapnel wound of the soft tissues of the right temporal region, and fracture of the nasal bones. These injuries were caused by the impact of fragments formed as a result of the explosion of an explosive device and are classified as causing less serious harm to health.

According to forensic medical expert opinion No. 1139 dated 1 September 2022, Farzani Yashar oglu Najafzade had a blind shrapnel wound of the anterior abdominal wall penetrating into the abdominal cavity, accompanied by rupture of the transverse colon. The injury was

caused by the impact of fragments formed as a result of the explosion of an explosive device and is classified as causing serious harm to health.

According to forensic medical expert opinion No. 1142 dated 1 September 2022, Mahammad Adil oglu Naghizade had barotrauma resulting in left-sided acute cochlear neuritis, a blind shrapnel wound of the occipital lobe of the brain, contusion of the occipital lobe, and open craniocerebral trauma accompanied by a fragmentary fracture of the occipital bone. These injuries were caused by the impact of fragments formed as a result of the explosion of an explosive device and are classified as causing serious harm to health.

According to forensic medical expert opinion No. 924 dated 5 September 2022, Anar Safar oglu Dadashzade had shrapnel wounds of the left temporal-occipital region, left zygomatic region, left scapular region, outer surface of the left upper arm, outer surface of the right upper arm, left shoulder girdle and the region of the left iliac crest. These injuries were caused by the impact of fragments formed as a result of the explosion of an explosive device and are classified as injuries that do not constitute harm to health.

According to forensic medical expert opinion No. 923 dated 5 September 2022, Mahabbat Tabriz oglu Guliyev had injuries of the right posterior axillary region, the posterior surface of the chest, the projection of the left iliac crest, the posterior surface of the left forearm, and bruising of the soft tissues of the wrist region.

Page 456

These injuries were caused by the impact of fragments formed as a result of the explosion of an explosive device and are classified as injuries that do not constitute harm to health.

According to forensic ballistic expert opinion Nos. 3/1220 and 3/1228 dated 5 October 2022, based on the traces of TNT detected on the military field-type trousers, tunic and short-sleeved shirt belonging to Ali Chingiz oglu Rahimov, the said injuries were caused by fragments formed as a result of the explosion of an explosive device.

According to forensic medical expert opinion No. 04 dated 13 September 2022, the injuries sustained by Said Sanbala oglu Hasanov — one blind gunshot wound of the posterior wall of the chest penetrating into the abdominal cavity, accompanied by a perforating open fracture of the ninth thoracic vertebra, diffuse injury to the spinal cord and injury to the abdominal organs — were sustained during life and, by degree, were classified as causing serious harm to health, and at present resulted in death.

According to forensic ballistic expert opinion No. **3/189 dated 4 April 2024**, damage of the type described in the examination section of the expert opinion was found on one military tunic, one warm undershirt and one short-sleeved undershirt belonging to **Hasanov Said Saribala oglu**.

The damage is characteristic of having been caused by a bullet fired from a firearm or by fragments resulting from an explosion.

According to forensic medical expert opinion No. **05 dated 13 September 2022**, it was established that the injuries sustained by **Huseynov Ziyarat Mail oglu** were:

- a fracture of the right ninth rib;
- injuries to the abdominal organs;
- hemoperitoneum, namely the accumulation of free blood in the abdominal cavity;
- acute blood loss;
- a blind firearm bullet wound to the right half of the anterior wall of the thorax penetrating the abdominal cavity.

The injury was life-threatening and, by degree, is classified as grievous harm to health. It subsequently resulted in death.

According to forensic ballistic expert opinion No. **3/192 dated 4 April 2024**, damage of the type described in the examination section of the expert opinion was found on one undershirt belonging to **Huseynov Ziyarat Mail oglu**.

The damage is characteristic of having been caused by a bullet fired from a firearm or by fragments resulting from an explosion.

According to forensic medical expert opinion No. **06 dated 13 September 2022**, it was established that the injuries sustained by **Qurbanov Saleh Mohubbat oglu** were:

- multiple injuries to the organs of the thoracic and abdominal cavities;
- acute blood loss;
- numerous blind shrapnel wounds of the posterior and lateral walls of the thorax and of the lumbar region, penetrating the thoracic and abdominal cavities;
- a blind shrapnel wound of the right lower-leg region, accompanied by a defect-producing, comminuted open fracture of the right tibia.

The injuries were life-threatening and, by degree, are classified as grievous harm to health. They subsequently resulted in death.

According to forensic ballistic expert opinion No. **3/223 dated 4 April 2024**, damage of the type described in the examination section of the expert opinion was found on the following military clothing belonging to **Qurbanov Saleh Mohubbat oglu**:

- one warm jacket;
- one military tunic;
- one pair of military field trousers;
- one sweater;
- one military field-type long-sleeved shirt;
- one pair of warm underpants;
- one pair of underpants;
- one sleeveless undershirt;
- one assault vest;

- one piece of a belt;
- one right boot;
- one right sock.

The damage is characteristic of having been caused by bullets fired from a firearm or by fragments resulting from an explosion.

According to forensic medical expert opinion No. **07 dated 13 September 2022**, it was established that the injuries sustained by **Samadov Elmin Mirzali oglu** included a detached fracture of the outer plate of the left temporal bone and a blind wound of the left temporoparietal region penetrating the cranial cavity…

According to the opinion of the forensic medical expert No. 07 dated 13.09.2022, it was determined that the injuries sustained by Samadov Elmin Mirzali oglu - a blind wound of the left parietal-temporal region that did not penetrate the cranial cavity accompanied by a detached fracture of the outer surface of the left temporal bone, a displaced,

Page 457

open fracture of the IV rib on the left, damage to the left lung, multiple shrapnel wounds penetrating the thoracic cavity of the left shoulder and left lateral wall of the chest accompanied by traumatic hemopneumothorax, multiple shrapnel open fractures of the left humerus, left shaft and left ulna, a shrapnel wound of the left elbow joint accompanied by acute hemorrhage - were classified as serious harm to health due to the degree of life-threatening, and have now resulted in death.

According to forensic ballistic expert opinion No. **3/222 dated 4 April 2024**, damage of the type described in the examination section of the expert opinion was found on the following military clothing belonging to **Samadov Elmin Mirzali oglu**:

- one pair of military field trousers;
- one military field-type turtleneck;
- one pair of briefs;
- one pair of warm underpants;
- one boot;
- one sock;
- one knee pad.

The damage is characteristic of having been caused by a bullet fired from a firearm or by fragments resulting from an explosion.

According to forensic medical expert opinion No. **08 dated 13 September 2022**, it was established that the injuries sustained by **Aliyev Ali Javad oglu** were:

- a blind wound of the right half of the anterior surface of the neck penetrating the thoracic cavity, accompanied by acute blood loss and injuries to the major blood vessels of the neck and the organs of the thoracic cavity;
- multiple blind wounds of the right upper arm, right elbow and right forearm, accompanied by comminuted open fractures of the right humerus, radius and ulna;
- traumatic amputation of the second finger of the right hand at the level of the distal phalanx;
- multiple shrapnel wounds of the right temporal region, the right half of the anterior wall of the thorax, the left forearm region and the soft tissues of the right hand.

The injuries were life-threatening and, by degree, are classified as grievous harm to health. They subsequently resulted in death.

According to forensic ballistic expert opinion No. **3/242 dated 7 April 2024**, damage of the type described in the examination section of the expert opinion was found on the following military clothing belonging to **Aliyev Ali Javad oglu**:

- one hooded military field jacket;
- one tunic;
- one short-sleeved undershirt;
- one black civilian undershirt;
- one jacket.

The damage is characteristic of having been caused by a bullet fired from a firearm or by fragments resulting from an explosion.

According to forensic medical expert opinion No. **10 dated 13 September 2022**, it was established that the injuries sustained by **Fatullayev Rafail Rufat oglu** were:

- acute blood loss;
- fractures of the right second and third ribs;
- a wound of the right half of the anterior wall of the thorax penetrating the thoracic cavity, accompanied by injuries to the organs of the thoracic cavity;
- through-and-through and blind shrapnel wounds of the right thigh, accompanied by a comminuted open fracture of the right femur;
- a wound of the right elbow region accompanied by fractures of the right humerus, ulna and radius;
- an abraded wound of the left scapular region;
- superficial wounds of the left zygomatic region, neck, both upper arms, right forearm, right hand, right thigh and right foot.

The injuries were life-threatening and, by degree, are classified as grievous harm to health. They subsequently resulted in death.

According to forensic ballistic expert opinion No. **3/201 dated 7 April 2023**, damage of the type described in the examination section of the expert opinion was found on one pair of

military trousers, one military sweater and one undershirt belonging to **Fatullayev Rafail Rufat oglu**.

The damage is characteristic of having been caused by a bullet fired from a firearm or by fragments resulting from an explosion.

According to forensic medical expert opinion No. **11 dated 13 September 2022**, it was established that the injuries sustained by **Farzaliyev Emin Elnur oglu** were:

- a blind wound of the frontal region penetrating the cranial cavity, accompanied by comminuted open fractures of the frontal and parietal bones and diffuse injury to the brain tissue;
- multiple blind shrapnel wounds of the soft tissues of the right lumbar region, left thigh and right lower leg;
- contusions of the right thigh region.

The injuries were life-threatening and, by degree, are classified as grievous harm to health. They subsequently resulted in death.

Page 458

According to forensic ballistic expert opinion No. **3/243 dated 7 April 2024**, damage of the type described in the examination section of the expert opinion was found on the following military clothing belonging to **Farzaliyev Emin Elnur oglu**:

- one pair of trousers;
- one military jacket;
- one tunic;
- one short-sleeved undershirt;
- one pair of underpants.

The damage is characteristic of having been caused by a bullet fired from a firearm or by fragments resulting from an explosion.

According to forensic medical expert opinion No. **09 dated 13 September 2022**, it was established that the injuries sustained by **Hasanov Ibrahim Shohrat oglu** were:

- a blind wound of the right temporal region, accompanied by a fracture of the right temporal bone and injury to the brain;
- acute blood loss;
- a fracture of the twelfth rib;
- a blind wound of the anterior and right lateral walls of the thorax penetrating the thoracic and abdominal cavities, accompanied by injuries to the organs of the thoracic cavity and the liver;
- traumatic amputation of the right upper limb at the level of the middle one-third of the forearm, accompanied by a fracture of the right ulna;

- traumatic amputation of the third finger of the right hand at the level of the metacarpophalangeal joint;
- multiple blind wounds of the soft tissues of the right temporal region, anterior wall of the thorax, right upper arm and right thigh.

The injuries were life-threatening and, by degree, are classified as grievous harm to health. They subsequently resulted in death.

According to forensic ballistic expert opinion No. **3/190 dated 4 April 2024**, damage of the type described in the examination section of the expert opinion was found on the following military clothing belonging to **Hasanov Ibrahim Shohrat oglu**:

- one military jacket;
- one military tunic;
- one sweater;
- one long-sleeved undershirt;
- one pair of military trousers.

The damage is characteristic of having been caused by a bullet fired from a firearm or by fragments resulting from an explosion.

According to forensic medical expert opinion No. **13 dated 13 September 2022**, it was established that the injuries sustained by **Qasimov Nihat Mehman oglu** were:

- traumatic hemopneumothorax;
- multiple injuries to the organs of the thoracic cavity;
- acute blood loss;
- a blind wound of the right half of the anterior wall of the thorax penetrating the thoracic cavity;
- multiple blind wounds of the soft tissues of the right frontoparietal region, right frontal region, right lateral surface of the neck, both upper arms, both forearms, right hand, left thigh and left lower leg.

The injuries were life-threatening and, by degree, are classified as grievous harm to health. They subsequently resulted in death.

According to forensic ballistic expert opinion No. **3/200 dated 7 April 2023**, damage of the type described in the examination section of the expert opinion was found on one military tunic, one pair of military trousers, one short-sleeved undershirt and one glove belonging to **Qasimov Nihat Mehman oglu**.

The damage is characteristic of having been caused by a bullet fired from a firearm or by fragments resulting from an explosion.

According to forensic medical expert opinion No. **12 dated 13 September 2022**, it was established that the injuries sustained by **Muradov Bakhtiyar Guloghlan oglu** were:

- acute blood loss;
- injury to the right lung;
- hemopneumothorax, namely the accumulation of free blood and air in the thoracic cavity;
- a blind wound of the right lateral wall of the thorax penetrating the thoracic cavity;
- multiple blind wounds of the right half of the thorax, right upper arm, both thighs and the right knee-joint region;
- a blind wound of the left lower leg and a through-and-through wound of the right lower leg, accompanied by comminuted open fractures of the tibia and fibula;
- superficial wounds of the right temporal region and right lower-leg region.

The injuries were life-threatening and, by degree, are classified as grievous harm to health. They subsequently resulted in death.

Page 459

According to forensic ballistic expert opinion No. **3/227 dated 3 April 2024**, damage of the type described in the examination section of the expert opinion was found on the following military clothing belonging to **Muradov Bakhtiyar Guloghlan oglu**:

- one military field-type tunic;
- one woollen sweater;
- one pair of military field-type trousers;
- one undershirt.

The damage is characteristic of having been caused by a bullet fired from a firearm or by fragments resulting from an explosion.

According to forensic medical expert opinion No. **14 dated 13 September 2022**, it was established that the injuries sustained by **Aliyev Uzeyir Sabir oglu** were:

- acute blood loss;
- extensive injury to the left lung;
- comminuted, defect-producing open fractures of the left fourth, fifth, sixth and seventh ribs;
- hemopneumothorax, namely the accumulation of free blood and air in the thoracic cavity;
- a blind wound of the posterior wall of the thorax penetrating the thoracic cavity;
- a blind wound of the right lower-leg region accompanied by shrapnel-type open fractures of the tibia and fibula;
- multiple blind wounds of the soft tissues of the temporal and occipital regions, the chin region, the left upper arm, the left gluteal region and the left knee-joint region.

The injuries were life-threatening and, by degree, are classified as grievous harm to health. They subsequently resulted in death.

According to forensic ballistic expert opinion No. **3/212 dated 10 April 2024**, damage of the type described in the examination section of the expert opinion was found on the following clothing belonging to **Aliyev Uzeyir Sabir oglu**:

- one military field-type tunic;
- one pair of military field-type trousers;
- one civilian hooded sports jacket;
- one pair of military field-type underpants;
- one military undershirt;
- one pair of civilian underpants.

The damage is characteristic of having been caused by a bullet fired from a firearm or by fragments resulting from an explosion.

According to forensic medical expert opinion No. **15 dated 13 September 2022**, it was established that the injuries sustained by **Rzayev Tarlan Parviz oglu** were:

- a comminuted open fracture of the parietal bone;
- a blind wound of the left parietal region penetrating the cranial cavity and accompanied by crushing and destruction of the brain tissue;
- acute blood loss;
- a blind wound of the left half of the neck accompanied by injury to the left carotid artery;
- acute blood loss;
- fractures of the nasal bones, the bones of the facial skeleton and teeth Nos. 41, 42, 43 and 44;
- multiple blind wounds of the face, left eyelid, left half of the neck, both thighs, the anterior surface of the left knee joint and the left lower-leg region.

The injuries were life-threatening and, by degree, are classified as grievous harm to health. They subsequently resulted in death.

According to forensic ballistic expert opinion No. **3/188 dated 4 April 2024**, damage of the type described in the examination section of the expert opinion was found on the following military clothing belonging to **Rzayev Tarlan Parviz oglu**:

- one tunic;
- one pair of military trousers;
- one woollen jacket;
- one scarf;
- one pair of underpants;
- one undershirt.

The damage is characteristic of having been caused by a bullet fired from a firearm or by fragments resulting from an explosion.

According to forensic medical expert opinion No. **16 dated 13 September 2022**, it was established that the injuries sustained by **Azizli Sadiq Zaur oglu** were:

- diffuse injury to the brain tissue;
- multiple comminuted open fractures of the skull bones;
- a blind wound of the frontal region penetrating the cranial cavity;
- a comminuted, displaced open fracture of the femur;
- a blind wound of the left gluteal and thigh regions accompanied by an extensive soft-tissue defect;
- multiple blind shrapnel wounds of the soft tissues of the chin region, the right and left lateral walls of the thorax and the left lower-leg region.

The injuries were life-threatening and, by degree, are classified as grievous harm to health. They subsequently resulted in death.

Page 460

According to forensic ballistic expert opinion No. **3/241 dated 7 April 2024**, damage of the type described in the examination section of the expert opinion was found on the following military clothing belonging to **Azizli Sadiq Zaur oglu**:

- one tunic;
- one pair of military trousers;
- one woollen short-sleeved undershirt;
- one pair of warm underpants;
- one pair of underpants;
- one pair of boots;
- one pair of socks.

The damage is characteristic of having been caused by a bullet fired from a firearm or by fragments resulting from an explosion.

According to forensic medical expert opinion No. **17 dated 13 September 2022**, it was established that the injuries sustained by **Qasimov Rashad Anvar oglu** were:

- diffuse crushing and destruction of the brain tissue;
- multiple comminuted open fractures of the skull and facial bones;
- a blind wound of the left half of the face penetrating the cranial and oral cavities, accompanied by traumatic destruction of the left eyeball;
- two blind wounds of the lower-jaw region accompanied by open fractures of the mandible;
- one through-and-through wound of the right hand accompanied by a comminuted fracture of the fourth metacarpal bone;
- blind wounds of the left lower-leg region accompanied by a comminuted open fracture of the tibia;

- complete traumatic amputation of the third finger of the left hand at the level of the distal phalanx;
- multiple blind wounds of the soft tissues of the left parietal region and the right thigh and lower-leg regions.

The injuries were life-threatening and, by degree, are classified as grievous harm to health. They subsequently resulted in death.

According to forensic ballistic expert opinion No. **3/187 dated 4 April 2024**, damage of the type described in the examination section of the expert opinion was found on the following military clothing belonging to **Qasimov Rashad Anvar oglu**:

- one military jacket;
- one pair of military trousers;
- one pair of warm underpants;
- one pair of underpants.

The damage is characteristic of having been caused by a bullet fired from a firearm or by fragments resulting from an explosion.

According to forensic medical expert opinion No. **18 dated 13 September 2022**, it was established that the injuries sustained by **Azizov Nazar Aghajali oglu** were:

- injuries to the abdominal organs;
- a blind wound of the right lumbar region penetrating the abdominal cavity and accompanied by acute blood loss.

The injuries were life-threatening and, by degree, are classified as grievous harm to health. They subsequently resulted in death.

According to forensic ballistic expert opinion No. **3/202 dated 5 April 2024**, damage of the type described in the examination section of the expert opinion was found on the following military clothing belonging to **Azizov Nazar Aghajali oglu**:

- one warm jacket;
- one pair of military trousers;
- one pair of underpants;
- one cap.

The damage is characteristic of having been caused by a bullet fired from a firearm or by fragments resulting from an explosion.

According to forensic medical expert opinion No. **19 dated 13 September 2022**, it was established that the injuries sustained by **Kazimov Yunis Qasim oglu** were:

- a blind wound with its entrance opening located on the right lateral wall of the abdomen, penetrating the thoracic and abdominal cavities and accompanied by acute

blood loss and injuries to the organs of the thoracic and abdominal cavities along the wound channel.

The injuries were life-threatening and, by degree, are classified as grievous harm to health. They subsequently resulted in death.

According to forensic ballistic expert opinion No. **3/199 dated 7 April 2024**, damage of the type described in the examination section of the expert opinion was found on the following military clothing belonging to **Kazimov Yunis Qasim oglu**:

- one military shirt;
- one long-sleeved undershirt;
- one military scarf.

The damage is characteristic of having been caused by a bullet fired from a firearm or by fragments resulting from an explosion.

According to forensic medical expert opinion No. **20 dated 13 September 2022**, it was established that the injuries sustained by **Rustamov Elnur Faid oglu** included:

- multiple comminuted open fractures of the bones of the cranial vault;
- a blind wound of the left frontoparietal region penetrating the cranial cavity and accompanied by diffuse injury to the brain tissue;
- wounds penetrating the thoracic and abdominal cavities and accompanied by injuries to the organs of the abdominal cavity;
- multiple blind wounds of the right lower-leg region accompanied by comminuted open fractures of the tibia.

Page 461

The injuries were life-threatening and, by degree, are classified as grievous harm to health. They subsequently resulted in death.

According to forensic ballistic expert opinion No. **3/191 dated 3 April 2024**, damage of the type described in the examination section of the expert opinion was found on the following military clothing belonging to **Rustamov Elnur Faid oglu**:

- one military jacket;
- one military tunic;
- one pair of military trousers;
- one short-sleeved undershirt;
- one pair of athletic trousers;
- one No. 2 mask;
- one pair of underpants;
- one sock from a pair;
- one pair of boots.

The damage is characteristic of having been caused by a bullet fired from a firearm or by fragments resulting from an explosion.

According to forensic medical expert opinion No. **22 dated 13 September 2022**, it was established that the injuries sustained by **Omarov Sarkhan Mubariz oglu** were:

- acute blood loss;
- comminuted open fractures of the third and fourth cervical vertebrae;
- a through-and-through wound of the left cheek penetrating the oral cavity, with the entrance opening located in the left cheek region and the exit opening located on the right half of the posterior surface of the neck, accompanied by injury to the major blood vessels of the neck;
- superficial wounds of the neck and submandibular regions.

The injuries were life-threatening and, by degree, are classified as grievous harm to health. They subsequently resulted in death.

According to forensic ballistic expert opinion No. **3/203 dated 5 April 2023**, damage of the type described in the examination section of the expert opinion was found on one military tunic belonging to **Omarov Sarkhan Mubariz oglu**.

The damage is characteristic of having been caused by a bullet fired from a firearm or by fragments resulting from an explosion.

According to forensic medical expert opinion No. **21 dated 13 September 2022**, it was established that the injuries sustained by **Abbasli Nail Adil oglu** were:

- acute blood loss;
- left-sided traumatic hemopneumothorax;
- injury to the left lung;
- a blind wound of the left half of the posterior wall of the thorax penetrating the thoracic cavity;
- closed blunt trauma to the head accompanied by subcutaneous hematomas of the frontal and right temporal regions.

The injuries were life-threatening and, by degree, are classified as grievous harm to health. They subsequently resulted in death.

According to forensic ballistic expert opinion No. **3/196 dated 4 April 2024**, damage of the type described in the examination section of the expert opinion was found on one short-sleeved undershirt belonging to **Abbasli Nail Adil oglu**.

The damage is characteristic of having been caused by a bullet fired from a firearm or by fragments resulting from an explosion.

According to forensic medical expert opinion No. **23 dated 13 September 2022**, it was established that the injuries sustained by **Hasanov Umid Ilgar oglu** were:

- one through-and-through bullet wound of the head, with the entrance opening located in the left frontal region and the exit opening located in the right occipital region;
- defect-producing, comminuted open fractures of the frontal, parietal, occipital and both temporal bones;
- diffuse crushing and destruction of the brain tissue.

The injuries were life-threatening and, by degree, are classified as grievous harm to health. They subsequently resulted in death.

According to forensic ballistic expert opinion No. **3/224 dated 4 April 2024**, damage of the type described in the examination section of the expert opinion was found on the following military clothing belonging to **Hasanov Umid Ilgar oglu**:

- one warm jacket;
- one military field-type tunic;
- one undershirt;
- one pair of military field-type trousers;
- one pair of underpants;
- one pair of gloves;
- one pair of fingerless gloves.

Page 462

The damage is characteristic of having been caused by a bullet fired from a firearm or by fragments resulting from an explosion.

According to forensic medical expert opinion No. **25 dated 13 September 2022**, it was established that the injuries sustained by **Ahadzada Khayal Alovsat oglu** were:

- one through-and-through wound of the head, with the entrance opening located in the right supraorbital region and the exit opening located in the right occipital region;
- defect-producing, comminuted open fractures of the skull and facial bones;
- diffuse crushing and destruction of the brain tissue and the right eyeball;
- superficial wounds of both lower-leg regions.

The injuries were life-threatening and, by degree, are classified as grievous harm to health. They subsequently resulted in death.

According to forensic ballistic expert opinion No. **3/226 dated 10 April 2024**, damage of the type described in the examination section of the expert opinion was found on one warm jacket and one mask belonging to **Ahadzada Khayal Alovsat oglu**.

The damage is characteristic of having been caused by a bullet fired from a firearm or by fragments resulting from an explosion.

According to forensic medical expert opinion No. **24 dated 13 September 2022**, it was established that the injuries sustained by **Qocayev Vadim Alik oglu** were:

- one through-and-through wound of the head, with the entrance opening located in the right supraorbital region and the exit opening located in the right occipital region;
- defect-producing, comminuted open fractures of the bones of the cranial vault;
- diffuse crushing and destruction of the brain tissue;
- an abrasion of the left lower-leg region;
- superficial wounds of the right thigh region and the anterior surface of the right knee joint.

The injuries were life-threatening and, by degree, are classified as grievous harm to health. They subsequently resulted in death.

According to forensic ballistic expert opinion No. **3/249 dated 7 April 2024**, damage of the type described in the examination section of the expert opinion was found on one pair of military underpants and one military undershirt belonging to **Qojayev Vadim Alik oglu**.

The damage is characteristic of having been caused by a bullet fired from a firearm or by fragments resulting from an explosion.

According to forensic medical expert opinion No. **26 dated 13 September 2022**, it was established that the injuries sustained by **Ahmadov Firuz Mazahir oglu** were:

- acute blood loss;
- a blind wound of the right half of the neck penetrating the thoracic cavity, accompanied by injuries to the organs of the thoracic cavity;
- acute blood loss;
- a through-and-through wound involving both lumbar regions and penetrating the abdominal cavity, accompanied by injuries to the abdominal organs;
- a comminuted open fracture of the left eighth rib;
- acute blood loss;
- a blind wound of the left lateral wall of the thorax penetrating the thoracic cavity, accompanied by injuries to the organs of the thoracic cavity;
- a through-and-through wound of the left hand accompanied by a comminuted open fracture of the first metacarpal bone;
- a through-and-through wound of the soft tissues of the right thigh;
- acute blood loss;
- a blind wound of the left thigh accompanied by a comminuted open fracture of the femur;
- tangential wounds of the soft tissues of the right upper-arm region.

The injuries were life-threatening and, by degree, are classified as grievous harm to health. They subsequently resulted in death.

According to forensic ballistic expert opinion No. **3/195 dated 3 April 2024**, damage of the type described in the examination section of the expert opinion was found on the following clothing belonging to **Ahmadov Firuz Mazahir oglu**:

- one shirt;
- one pair of trousers;
- one short-sleeved military undershirt;
- one pair of military underpants;
- one glove.

The damage is characteristic of having been caused by a bullet fired from a firearm or by fragments resulting from an explosion.

According to forensic medical expert opinion No. **27 dated 13 September 2022**, it was established that the injuries sustained by **Ahmadov Sabuhi Fuad oglu** included:

- a wound with the entrance opening located in the left temporal region and the exit opening located in the left occipital region;
- defect-producing, comminuted open fractures of the frontal, parietal, occipital, basilar and left temporal bones;
- diffuse crushing and destruction of the brain tissue…

Page 463

…one through-and-through wound of the head accompanied by diffuse crushing and destruction of the brain tissue, as well as superficial wounds of the upper lip.

The injuries were life-threatening and, by degree, were classified as grievous harm to health. They subsequently resulted in death.

According to forensic ballistic expert opinion No. **3/213 dated 10 April 2024**, damage of the type described in the examination section of the expert opinion was found on the following military clothing belonging to **Ahmadov Sabuhi Fuad oglu**:

- one tunic;
- one pair of trousers;
- one sweater;
- one short-sleeved undershirt;
- one pair of underpants;
- one pair of boots;
- one pair of socks.

The damage is characteristic of having been caused by a bullet fired from a firearm or by fragments resulting from an explosion.

According to forensic medical expert opinion No. **28 dated 13 September 2022**, it was established that the injuries sustained by **Imamverdiyev Asiman Mehman oglu** were:

- a comminuted open fracture of the right third rib;
- acute blood loss;
- blind wounds of the right half of the anterior wall of the thorax penetrating the thoracic cavity and accompanied by injuries to the organs of the thoracic cavity.

The injuries were life-threatening and, by degree, were classified as grievous harm to health. They subsequently resulted in death.

According to forensic ballistic expert opinion No. **3/204 dated 5 April 2024**, damage of the type described in the examination section of the expert opinion was found on one warm jacket and one short-sleeved shirt belonging to **Imamverdiyev Asiman Mehman oglu**.

The damage is characteristic of having been caused by a bullet fired from a firearm or by fragments resulting from an explosion.

According to forensic medical expert opinion No. **29 dated 13 September 2022**, it was established that the injuries sustained by **Karimov Azad Zakir oglu** were:

- a blind wound of the right upper-arm region accompanied by acute blood loss;
- a defect-producing, comminuted open fracture of the right scapula;
- a blind wound of the right scapular region penetrating the thoracic cavity and accompanied by acute blood loss and injuries to the organs of the thoracic cavity;
- a blind wound of the left thigh region accompanied by acute blood loss;
- an open shrapnel fracture of the radius;
- through-and-through wounds of the left forearm region accompanied by acute blood loss;
- multiple superficial wounds of the right thigh and both knee-joint regions.

The injuries were life-threatening and, by degree, were classified as grievous harm to health. They subsequently resulted in death.

According to forensic ballistic expert opinion No. 3/197 dated 5 April 2024, it was established that among the military clothing items belonging to Azad Zakir oglu Karimov and submitted for examination, one military tunic, one pair of military trousers and one long-sleeved shirt contained the damage indicated in the research part of the expert opinion. The said damage is characteristic of having been caused by the impact of a bullet as a result of a shot fired from a firearm, or by fragments as a result of an explosion.

According to forensic medical expert opinion No. 30 dated 13 September 2022, it was established that the injuries sustained by Khayal Elkhan oglu Suleymanov — one through-

and-through gunshot wound of the head penetrating into the cranial cavity, with the entry opening located in the occipital region and the exit opening in the left temporal region, accompanied by defective, multifragmentary open fractures of the cranial vault and skull base and injury to brain tissue — were sustained during life and, by degree, were classified as causing serious harm to health, and at present resulted in death.

According to the opinion of the forensic ballistics examination dated 05 April 2024, No. 3/186, it was determined that one military uniform, one pair of military trousers, one short-sleeved T-shirt, one neckerchief, one pair of trousers, one pair of brown boots, and one pair of socks belonging to Suleymanov Khayal Elkhan oglu, among the military clothing items submitted for examination, had the injuries indicated in the examination part of the opinion. These injuries were determined to have been caused by a firearm.

Page 464

The damage is characteristic of having been caused by a bullet fired from a firearm or by fragments resulting from an explosion.

According to forensic medical expert opinion No. **31 dated 13 September 2022**, it was established that the injuries sustained by **Badalov Javidan Zaur oglu** were:

- a through-and-through wound of the head penetrating the cranial cavity, with the entrance opening located in the left temporal region and the exit opening located in the occipital region, accompanied by defect-producing, comminuted open fractures of the left temporal and occipital bones and injury to the brain tissue;
- a through-and-through wound of the mandibular region penetrating the oral cavity, with the entrance opening located in the mandibular region and the exit opening located on the right half of the posterior surface of the neck, accompanied by comminuted open fractures of the mandible and the second and third cervical vertebrae, injury to the major blood vessels of the neck and acute blood loss;
- a through-and-through wound of the right axillary region penetrating the thoracic cavity, with the entrance opening located in the right axillary region and the exit opening located in the right scapular region, accompanied by a perforating open fracture of the scapula, injuries to the organs of the thoracic cavity and acute blood loss;
- superficial wounds of the right thigh region.

The injuries were life-threatening and, by degree, were classified as grievous harm to health. They subsequently resulted in death.

According to forensic ballistic expert opinion No. **3/225 dated 10 April 2024**, damage of the type described in the examination section of the expert opinion was found on one jacket, one woollen sweater and one long-sleeved undershirt belonging to **Badalov Javidan Zaur oglu**.

The damage is characteristic of having been caused by a bullet fired from a firearm or by fragments resulting from an explosion.

According to forensic medical expert opinion No. **32 dated 14 September 2022**, it was established that the injuries sustained by **Rasulov Murad Ilgar oglu** were:

- acute blood loss;
- hemoperitoneum, namely the accumulation of free blood in the abdominal cavity;
- a blind wound of the right half of the thorax penetrating the abdominal cavity and accompanied by injuries to the abdominal organs;
- through-and-through bullet wounds of the upper-arm region accompanied by a comminuted open fracture of the right humerus.

The injuries were life-threatening and, by degree, were classified as grievous harm to health. They subsequently resulted in death.

According to forensic ballistic expert opinion No. **3/235 dated 7 April 2024**, damage of the type described in the examination section of the expert opinion was found on an undershirt, a civilian undershirt and a pair of trousers belonging to **Rasulov Murad Ilgar oglu**.

The damage is characteristic of having been caused by a bullet fired from a firearm or by fragments resulting from an explosion.

According to forensic medical expert opinion No. **33 dated 14 September 2022**, it was established that the injuries sustained by **Mahmudzada Ulvi Mazahir oglu** were:

- an open wound of the scalp accompanied by defect-producing, comminuted open fractures of the frontal, left temporal, left parietal and occipital bones and diffuse crushing and destruction of the brain tissue;
- abrasions of the right knee region.

The injuries were life-threatening and, by degree, were classified as grievous harm to health. They subsequently resulted in death.

According to forensic ballistic expert opinion No. **3/194 dated 3 April 2023**, damage of the type described in the examination section of the expert opinion was found on the following clothing belonging to **Mahmudzada Ulvi Mazahir oglu**:

- one military field jacket;
- one military field-type jacket;
- one athletic outer garment;
- one pair of military field-type trousers;
- one pair of athletic trousers;
- one pair of military field-type warm underpants;
- one military field-type short-sleeved undershirt;
- one pair of underpants;

- one pair of boots;
- one pair of socks.

The damage is characteristic of having been caused by a bullet fired from a firearm or by fragments resulting from an explosion.

According to forensic medical expert opinion No. **34 dated 14 September 2022**, it was established that the injuries sustained by **Shirinov Omar Mughan oglu** included multiple injuries to the bones of the cranial vault

Page 465

defect-producing, comminuted open fractures of the bones of the cranial vault, accompanied by diffuse trauma to the brain tissue; blind wounds of the right temporal region and left eyebrow region penetrating the cranial cavity; multiple defect-producing, comminuted open fractures of the facial bones and teeth; a blind wound of the right half of the face penetrating the oral cavity and accompanied by crushing and destruction of the tongue; a wound of the nasal region accompanied by a comminuted open fracture of the nasal bone; a blind wound of the right upper-arm region accompanied by a comminuted open fracture of the humerus and acute blood loss; multiple blind wounds of the soft tissues of the right half of the anterior wall of the thorax, the right forearm, right lumbar region, right and left thighs and right gluteal region, accompanied by acute blood loss. The injuries were life-threatening and, by degree, were classified as grievous harm to health. They subsequently resulted in death.

According to forensic ballistic expert opinion No. 3/239 dated 7 April 2023, it was established that, among the military clothing items belonging to Omar Mughan oglu Shirinov and submitted for examination, one tunic, one pair of military field-type trousers, one military field-type sweater, one military field-type short-sleeved T-shirt, one pair of sports trousers and one military field-type cap contained the damage indicated in the research part of the expert opinion. The said damage is characteristic of having been caused by the impact of a bullet as a result of a shot fired from a firearm, or by fragments as a result of an explosion.

According to forensic medical expert opinion No. 35 dated 14 September 2022, it was established that the injuries sustained by Mirtalib Heydar oglu Aghazade — through-and-through wounds of the right lateral wall of the chest penetrating into the thoracic cavity, with the entry opening located on the right lateral wall of the chest and the exit opening in the left axillary region, accompanied by acute blood loss and injury to the thoracic-cavity organs — were sustained during life and, by degree, were classified as causing serious harm to health, and at present resulted in death.

According to forensic ballistic expert opinion No. 3/238 dated 7 April 2023, it was established that, among the military clothing items belonging to Mirtalib Heydar oglu Aghazade and submitted for examination, one military field-type tunic, one pair of military field-type trousers, one military field-type shirt, one black civilian warm long-sleeved undershirt and one pair of black civilian warm under-trousers contained the damage indicated

in the research part of the expert opinion. The said damage is characteristic of having been caused by the impact of a bullet as a result of a shot fired from a firearm, or by fragments as a result of an explosion.

According to forensic medical expert opinion No. 36 dated 14 September 2022, it was established that the injuries sustained by Joshgun Adail oglu Zulfizade — acute blood loss; haemoperitoneum, namely the accumulation of free blood in the abdominal cavity; a blind wound of the left half of the anterior abdominal wall penetrating into the abdominal cavity and accompanied by injury to the abdominal-cavity organs; a through-and-through wound of the left forearm region, with the entry opening located on the anterior surface of the upper third of the left forearm and the exit opening on the posterior surface of the middle third of the left forearm, accompanied by acute blood loss; and through-and-through wounds of the right thigh region, with the entry opening located on the anterior-inner surface of the middle third of the right thigh and the exit opening on the posterior surface of the middle third of the right thigh, accompanied by acute blood loss — were sustained during life and, by degree, were classified as causing serious harm to health, and at present resulted in death.

According to forensic ballistic expert opinion No. 3/198 dated 5 April 2023, it was established that, among the military clothing items belonging to Joshgun Adail oglu Zulfizade and submitted for examination, one pair of military trousers, three shirts and one pair of warm under-trousers contained the damage indicated in the research part of the expert opinion. The said damage is characteristic of having been caused by the impact of a bullet as a result of a shot fired from a firearm, or by fragments as a result of an explosion.

According to forensic medical expert opinion No. 37 dated 14 September 2022, it was established that the injuries sustained by Mahammad Bilal oglu Mammadov — blind wounds of the soft tissues of the anterior and right lateral walls of the chest, right scapular region, both upper arms, right forearm, right hand and right lower-leg regions, accompanied by acute blood loss;

multiple blind wounds of the anterior and right lateral walls of the chest penetrating into the thoracic cavity, accompanied by acute blood loss and multiple injuries to the thoracic-cavity organs; and third- to fourth-degree burns of the head, torso and limbs — were sustained during life and, by degree, were classified as causing serious harm to health, and at present resulted in death.
