On **17 July 1996**, he was called up for military service by the **Gyumri Military Commissariat** and began serving as a signaller in **Military Unit No. 31549**, located

in **Yerevan**. On **17 July 1998**, he was discharged from military service, returned home to Gyumri and began working as a driver-forwarder at a shop in Gyumri.

His father, **Nalbandyan Mamiko Vazaganovich**, was born in **1953** and for the past **7 months** has been working as a construction worker in **Moscow, Russian Federation**. He did not participate in the fighting in **Karabakh and the adjacent districts in 1988–1994**, nor in the fighting in **Karabakh in April 2016**. In April 2016, his father was in the city of Gyumri.

His mother, **Evigine Namushyan**, was born in **1956 in Georgia**. She is Armenian by nationality, and her relatives live in Georgia. His mother Evigine lived in Gyumri and did not work anywhere. He has one sister, born in **1987**, who is married and has two young children. She lived in Gyumri and did not work anywhere.

He himself has never been in the territory of the Azerbaijani state, including **Karabakh**. For the past month, he has been serving as an **RPK machine gunner in the 1st battalion of the 1st division of Regiment No. 63853**, located in the city of **Vanadzor**, as a career serviceman holding the military rank of **private**.

On **08 November 2021**, he arrived in the city of **Sisian** together with personnel of the military unit located in Vanadzor and stayed overnight at the military unit located there. The following day, he left Sisian and reached the border with Azerbaijan. There, they replaced soldiers who had arrived from the city of **Noyemberyan** and began serving at their posts. He had an **RPK machine gun** and served with that weapon.

They had **two combat posts**, each of which was manned by **10–13 servicemen**, while Azerbaijani servicemen were serving at posts located next to them. At approximately **15:00–16:00 on 16.11.2021**, the battalion commander, whose first and last name he does not know, ordered them to attack Azerbaijani servicemen. They then began attacking the Azerbaijani posts and, during the attack, opened fire on the Azerbaijani servicemen with their weapons.

Page 491

However, since the Azerbaijani servicemen had a numerical superiority, they surrounded and disarmed them and also captured the servicemen of the post where he was serving and of another post.

Volume 157, case file pages 85–88

In the criminal case, **Shahinyan Marat Dzhoraevich** and **Akopyan Gevorg Araikovich** gave identical testimony, confirming the testimony of **Nalbadyan Robert Mamikonovich**.

Volume 157, case file pages 117–121, 153–157

Questioned as a witness, **Nalbadyan Robert Mamikonovich** stated in his testimony that he lived and was registered at the following address: **Republic of Armenia, Lori Region, city of Vanadzor, village [REDACTED], [REDACTED] Street, house [REDACTED]**. His mother is **Anik Pavlovna Petrosyan**, and his father was **Stepanyan Rubik Agasievich**. Both are ethnic Armenians. At present, his mother lives with him at his registered address, while his father died of lung cancer in 2016.

On **12.10.2021**, he submitted an application to the military commissariat of the city of Vanadzor to perform military service as a serviceman and, on the basis of that application, entered military service in **Military Unit No. 63853 of the Ground Forces**, stationed in the city of Vanadzor. By order of the higher command, he was appointed **gunner of the 3rd squad of the 2nd platoon of the 1st company of the 1st battalion of Military Unit No. 63853**, and continued serving in that military unit as a contract serviceman with the military rank of **private**.

The commander of the military unit where he served was **Colonel Simon Nazaryan**, the battalion commander was **Lieutenant Colonel Daron Kocharyan**, the company commander was **Lieutenant Serdzhо Amirkhanyan**, and the platoon commander was **Sergeant Suren**. There were **13 servicemen** in the unit where he served. He named the servicemen who served with him in that unit: **Private David Amiran, Private Stepanyan Karen, Private Levon Chomiryan and Private Arut Sarkisyan**, but he did not remember the names of the other servicemen. Some of these servicemen were his peers, while others were younger.

The military unit in which he served consisted of **3 battalions**, each battalion had **3 companies**, and the total number of servicemen in the military unit was approximately **500 persons**. He did not observe any tanks or other large-caliber equipment in their military units, while the military unit in which he served was located in the city of Vanadzor, in an area called **Duts in the Taron District**.

He continued serving in that district for two months, until **07 November 2021**. By order of the commander of the military unit, the personnel of the 1st battalion of the military unit in which he served were transferred to the area of the village of **Noravan, Sisian District**. While in that district, their personnel were divided among **3–4 posts**. Approximately **20 servicemen** served at each post, and the post itself was located on elevated mountainous terrain near the village of Noravan. The distance between those posts was approximately **50 meters or more**, while the distance between them and the combat posts of the Republic of Azerbaijan was approximately **50 meters**, although he did not know in which territory of the Republic of Azerbaijan the combat posts opposite him were located.

As of **16.11.2021**, there had been no conflicts between their personnel and the military units, and firearms had not been used. He stood guard at his post for **2 hours** and rested for **6 hours** in the dormitory. He served as a sentry at the position together with soldier **David Amiran**; in that area they were accommodated in tents. While serving in that district, his duties consisted of observing the movements of the Armed Forces of the Republic of Azerbaijan and collecting information about them.

The senior lieutenant at the post where he served was **Serdzhо Amirkhanyan**, who gave them orders on all matters. Among those who served with him in that district, he recalled **Suren Khachatryan, Arut Sarkisyan, Serdzhо Amirkhanyan and David Amiran**, but could not remember the others.

During the daytime on **16 November 2021**, **Serdzhо Amirkhanyan** ordered them to attack and seize the posts in front of them, where the commander of a military unit of the Republic of Azerbaijan was serving. At that time, in addition to the persons whose names he had given, other servicemen were also nearby.

At that time, they were ordered to use **combat grenade launchers and automatic weapons, with reinforcements**. Serdzhо showed them the direction in which they were to attack, and at approximately **12:00–13:00 on 16.11.2021** they launched the attack, using grenade launchers and automatic weapons against the servicemen at the Azerbaijani post.

The servicemen of the Republic of Azerbaijan opened fire with their weapons, which they used in self-defense. They advanced somewhat toward the post of the Armed Forces of the Republic of Azerbaijan, where they were surrounded by Azerbaijani servicemen. At that time, the servicemen of the Republic of Azerbaijan fired warning shots and ordered them to lay down their weapons and surrender. Seeing that they were surrounded, they laid down their weapons and surrendered.

Volume 157, case file pages 68–75

In the criminal case, **Khachatryan Suren Leva oglu** and **Manasyan Artem Suren oglu** gave testimony of the same substance, confirming the testimony of **Stepanyan Garlen Rubikovich**.

Volume 157, case file pages 101–107, 122–128

Questioned as a **witness**, **Sarkisyan Arut Aramaisovich** stated in his testimony that he was born in the **Vanadzor District of the Republic of Armenia**, was married and had a son and three daughters. His wife, **Akopyan Anus Yurikovna**, is a housewife and does not work anywhere. His father, **Sarkisyan Aramais Grantikovich**, works at a railway station in the Vanadzor area, while his mother, **Virabyan Ovsanna Dzhakhangirovna**, does not work anywhere and lives with them at the following address: **Vanadzor District, [REDACTED] Street, house [REDACTED], apartment [REDACTED]**.

In 2017, for a period of **6 months**, he worked as an **asphalt-paver driver** on road construction in the **Gustanin District of the Republic of Kazakhstan**. He was called up for military service by the **Vanadzor District Military Commissariat in January 2020**, and from that date served under contract as a **grenadier of the 2nd platoon of the 1st company of the 1st battalion of Military Unit No. 63853**, stationed in the Vanadzor District, with the military rank of **private**.

The commander of **Military Unit No. 63853** was **Colonel Simon**, the commander of the 1st battalion was **Lieutenant Colonel Daron Kocharyan**, the commander of the 1st company was **Captain Artyom**, and the platoon commander was **Lieutenant Serdzhо**.

He did not participate in the fighting in **Karabakh in 2020**; during the war he served in the military unit in Vanadzor, and none of his relatives or close friends participated in the fighting in Karabakh. He did not participate in the fighting in the directions of the **Aghdam, Tartar, Goranboy and Fuzuli districts in 2016**, or in the direction of the **Tovuz District in 2020**.

On **07.11.2021**, together with the personnel of the battalion, he was sent to the **Sisian District**, and on **08.11.2021** he began performing his duties. At approximately **15:00 on 16.11.2021**, on the instructions of the commander of the military unit, battalion commander **Lieutenant Colonel Daron Kocharyan**, the personnel of the post located on **Mount Ishkhanasari**, where they were serving in the Sisian District, opened fire and

attacked the combat post opposite them, where Azerbaijani servicemen were on duty. Each of them was armed with weapons of various calibers, namely **automatic rifles and grenade launchers**.

Having advanced some distance toward the Azerbaijani post, attacking and opening fire, Azerbaijani servicemen approached them and demanded that they lay down their weapons and disarm. They likewise laid down their weapons and surrendered.

During the fighting, **Sergeant Gurgen Sargsyan** blew himself up with a grenade, but he neither killed nor wounded any Azerbaijani serviceman. When disarming them, the Azerbaijani servicemen used neither physical nor psychological force against them and did not fire at them. During the attack, he did not know which of them sustained a gunshot wound or to what part of the body.

When he was captured, he had an automatic weapon and body armor, and the number **171008412** was engraved on the weapon. The Azerbaijani servicemen then blindfolded them and took them away. In Azerbaijan, normal conditions were provided for them, and they were not subjected to any pressure or coercion.

Volume 157, case file pages 76–79

Page 493

In the criminal case, **Akopyan Tigran Armenovich, Avetyan Aram Artemovich and Khachatryan Arman Vachaganovich** gave testimony of the same substance, confirming the testimony of **Sarkisyan Arut Aramaisovich**.

Volume 157, case file pages 80–84, 129–133, 148–152

Questioned as a **witness**, **Tarzyan Sarkis Ovanesi** stated in his testimony that he was born on **17 March 1983 in Gyumri, Shirak Region, Republic of Armenia**. He is a citizen of the Republic of Armenia and Armenian by nationality. He resided and was registered at the following address: **Republic of Armenia, city of Gyumri, ■■■■■ Street**.

In 2016, he married **Zakaryan Lilit Paruyr**, and they have a four-year-old daughter named **Tarzyan Nairi Sarkis** and a son named **Tarzyan Ovanes Sarkis**, aged 10 years and 6 months. He has a father, mother, sister and brother. All members of the family resided at **■■■■■ Street, Gyumri**.

After finishing school, in 2009 he entered the **Mikayel Nalbandyan Pedagogical Institute in Gyumri** and graduated from it in 2016. On **16.06.2011**, he was called up for active military service by the Gyumri Military Commissariat and served as a senior rifleman in the **10th and 11th companies of the 4th battalion of the 2nd military unit in Martuni (Khojavend District)**. At that time, the commander of the military unit was **Colonel Artak Budagyan**, the battalion commander was **Lieutenant Colonel Karen Ayrapetyan**, the commander of the 10th company was **Armen**, and the commander of the 11th company was **Ambartsyum**. He served his entire term of military service in only one military unit. He was discharged on **16 June 2013**, after completing his military service.

After his discharge, he continued his education by correspondence and also travelled to **Orenburg, Russian Federation**, to work in construction. He then spent approximately one year repairing technical gas-supply problems in houses where he lived in the city of Gyumri.

Approximately a year and a half earlier, at the end of 2019 or beginning of 2020, he applied to **Anti-Tank Military Unit No. 55035**, located in the city of Gyumri, and signed a three-year contract. He served as the head of a warehouse in that military unit, whose commander was **Colonel Maksis Ovsepyan**.

Approximately six months earlier, he was appointed commander of the **2nd squad of the 2nd platoon of the 1st company of the 1st battalion of Military Unit No. 63853**, and he currently serves in that position with the military rank of **sergeant**. The commander of the military unit where he served was **Colonel Simon Nazaryan**, the battalion commander was **Lieutenant Colonel Daron Kocharyan**, the company commander was an officer named **Arman** holding the military rank of captain, and the platoon commander was **Lieutenant Serzhik Amirkhanyan**.

The military unit was stationed in the city of **Vanadzor** and, during his extended service, was armed with **AK-74 assault rifles**. He remembers only the last three digits of his personnel number — **939**.

On **07.11.2021**, ten persons, together with the head of the post, were sent to **Post No. 101/2 in the Sisian direction** as reinforcements, and they arrived at that post on **08.11.2021**. The head of the post was a serviceman named **Sergeant Aren**, while the contract servicemen serving at the post in addition to him were: **Artur Martirosyan, Marat, Radik, Artur, Tigran, Sevak and Aranik**.

Approximately **800–1,000 meters** from the post where they were serving there was another post headed by a sergeant named **Gurgen**, while positions of the **Army of the Republic of Azerbaijan** were also located not far from their post.

At approximately **12:00 on 16.11.2021**, post commander **Aren** informed the personnel at the post that the higher command had ordered them to seize the positions of the **Army of the Republic of Azerbaijan**, since those positions were located above them and in a more advantageous position. **Armen** ordered the personnel at the post to take their weapons and attack.

On Armen's instructions, he and the other personnel of the post, under his leadership, launched an attack with the aim of seizing the positions of the Army of the Republic of Azerbaijan. When they went on the attack, each of their fighters had an **AK-74 assault rifle**; in total, they had **1 RPG-7 hand-held grenade launcher, 3 PK machine guns and 1 RPK assault rifle**.

They began firing at the positions of the Army of the Republic of Azerbaijan with the aim of seizing the posts, while the latter began returning fire in self-defense. A firefight ensued between them and lasted approximately **1–1.5 hours**. They did not know who had been wounded or killed at the post during the firing, nor did they know whether servicemen of the Army of the Republic of Azerbaijan had been killed or...

...wounded. They told the servicemen of the **Army of the Republic of Azerbaijan** not to shoot because they had run out of ammunition. They surrendered, laying down their weapons, and were taken prisoner.

After they surrendered, the servicemen did not use force against them. They were then taken somewhere by vehicle, and, as far as he knows, they are currently in prison. They were treated well, were kept separately from other people, and no one used force against them. Food was provided on time, the conditions were good, and there were no complaints.

Volume 157, case file pages 112–116

In the criminal case, **Balayan Vargtes Samveli, Petrosyan Sevak Agvani, Pogosyan Radik Razmikovich, Petrosyan Armen Garniki and Galstyan Grachik Aramovich** gave testimony of the same substance, confirming the testimony of **Tarzyan Sarkis Ovannesi**.

Volume 157, case file pages 64–67, 89–94, 95–100, 138–142, 143–147

On **18.11.2021**, on the instructions of **Deputy Prosecutor General of the Republic of Azerbaijan — Military Prosecutor of the Republic of Azerbaijan Khanlar Veliyev**, an investigative group was formed comprising: **Senior Prosecutor of the Department for Particularly Important Investigations of the Military Prosecutor’s Office of the Republic of Azerbaijan, Major of Justice Aliyev Vusal Rafig oglu; Senior Investigator for Particularly Important Cases of that department, Lieutenant Colonel of Justice Agayev Emil Jangibey oglu; Investigator for Particularly Important Cases, Major of Justice Abbasov Natig Novruz oglu; Senior Investigator for Particularly Important Cases of the Investigation Directorate of the Military Prosecutor’s Office of the Republic, Major of Justice Babayev Khanlar Chingiz oglu; Senior Investigator for Particularly Important Cases, Major of Justice Rustamov Khayyam Yagub oglu; Captain of Justice Gasimov Emin Salim oglu; Captain of Justice Musayev Gadir Hakim oglu; Captain of Justice Novruzade Elnur Elman oglu; and Investigator of the Kalbajar Military Prosecutor’s Office Abdurahimli Togrul Natig oglu.**

They were assigned to conduct proceedings in the criminal case, while leadership of the group was entrusted to the **Head of the Special Investigation Directorate, Chief Counsellor of Justice Tagiyev Emil Zulfugar oglu**, and the assignment was accepted for execution that same day.

On **19.11.2021 at 14:15**, **Seyidov Nadir Badir oglu**, a driver working under contract at **Road Transport Directorate No. 1 of the Open Joint-Stock Company “Azeravtoyol,”** while opening a supply road from the **4th border combat post to the 5th border combat post of the 30th border outpost of the 8th border commandant’s office of Military Unit No. 2051 of the State Border Service**, located in the **Zangilan District**, drove the tractor he was operating — a **“Tracked Excavator EK-230-06”**, state registration No. **10901** — over an anti-tank mine that had been placed on the road by unidentified servicemen of the **Armed Forces of Armenia**.

As a result, **Junior Warrant Officer Agabalayev Renad Murad oglu**, commander of the engineering-support group of the security and support platoon of the combat-support

detachment of the 8th Border Directorate of nearby **Military Unit No. 2051 of the State Border Service**, sustained “a **puncture wound of undetermined severity, measuring in millimeters, in the occipital region behind the ear,**” while **Babayev Vagif Alizaab oglu**, an operator of the unexploded ordnance disposal group of the **Mine Action Agency of the Republic of Azerbaijan**, sustained bodily injuries constituting minor harm to health, including “**closed craniocerebral injury, concussion, shrapnel wounds to the anterior part of the body, the middle thirds of the right and left thighs, and multiple shrapnel wounds to the face.**” They were evacuated to **Military Hospital No. 214**.

During the inspection conducted on **19.11.2021**, it was established that the scene of the incident was the right-hand section of the newly constructed road running from the **4th border combat post of the 25th border outpost of the 8th border commandant’s office of Military Unit No. 2051 of the State Border Service**, near the village of **Bartar, Zangilan District**, to the **5th border combat position of that border commandant’s office**. The said...

Page 495

...area is located on the **Bartar Heights**, 7–8 kilometers from the village of **Bartar, Zangilan District**. The distance between the right and left shoulders of this road is 4 meters. Since it is situated at a high elevation, it is mostly surrounded by mountainous terrain, with a relatively steep slope on the right-hand side. It was found that part of the metal component attached to the front of the “**Crawler Excavator EK-230-06**”, namely two iron teeth, had become unusable. It was established that the windshield of the vehicle was damaged and that the lower front window of the cab was missing. During the inspection, **1 piece of broken glass, 4 plasma particles and 1 metal object** were seized from the scene and duly packaged.

Volume 269, case file pages 9–22

Questioned as a **victim**, **Agababayev Renad Murad oglu** stated in his testimony that on **19.11.2021 at 14:15**, while a supply road was being opened from the **4th border combat post to the 5th border combat post of the 30th border outpost of the 8th Border Directorate of Military Unit No. 2051 of the State Border Service**, stationed in the **Zangilan District**, the “**Crawler Excavator EK-230-06**”, state registration No. **10X901**, driven by **Seyidov Nadir Badir oglu**, struck an anti-tank mine placed on the road by servicemen of the Armenian armed forces unidentified by the investigation.

As a result, he and an employee of the **Mine Action Agency of the Republic of Azerbaijan**, whose name he did not know, sustained shrapnel wounds to the front part of the body and the middle thirds of the right and left thighs, as well as multiple shrapnel wounds to the face. At that time, while he was walking in front of the excavator together with that employee, an explosion suddenly occurred behind them, and the blast wave threw him aside. When he stood up, he felt blood flowing from the right rear part of his neck, while the face of the employee of the Mine Action Agency of the Republic of Azerbaijan was also completely covered in blood at that moment. A military ambulance then arrived at the scene, provided them with first aid and evacuated them from the scene.

Volume 269, case file pages 114–117, 122–124

Questioned as a **victim**, **Hasanov Samir Budag oglu** stated in his testimony that, on the basis of a power of attorney issued by **Aliyeva Tarlala Isa gyzy**, he had all rights to the excavator of the State Border Service, state registration No. **10X901**, model “**Excavator Tyrtylly EK-230-06**,” which was driven by **Seyidov Nadir Badir oglu**, a driver working under contract at **Road Transport Directorate No. 1 of the Open Joint-Stock Company “Azeryol,”** and which struck an anti-tank mine laid by servicemen of the Armenian armed forces in the territory of the **Zangilan District**. By oral agreement, he sold the excavator to **N.B. Seyidov** for **30,000 manats**. The **EK-230-06 excavator**, state registration No. **10X901**, is his property. As a result of the incident, the hood, windshield and other parts of the vehicle were damaged. **Road Transport Directorate No. 1 of the Open Joint-Stock Company “Azeryol”** undertook to compensate for the damage caused to the vehicle.

Volume 269, case file pages 149–151, 156–157

The driver **Seyidov Nadir Badir oglu**, working under contract at **Road Transport Directorate No. 1 of OJSC “Azeryol”** and recognized as a victim, stated in his testimony that since **March 2021** he had been working as a driver under contract at Road Transport Directorate No. 1 of OJSC “Azeryol.” On **19 November 2021 at approximately 10:00**, employees of the **Mine Action Agency of the Republic of Azerbaijan** arrived at the **4th border combat post of the 8th commandant’s office of the State Border Service**, located in the **Zangilan District**, in order to open supply routes, and until approximately **14:00**, four employees of the...

Page 496

...**Mine Action Agency of the Republic of Azerbaijan** inspected the designated safe route using a device to a depth of 3 meters and 2 meters to the right and left, after which he began working. At that time, one employee of the Mine Action Agency of the Republic of Azerbaijan and **Agababayev Renad**, deputy head of the **8th commandant’s office of the State Border Service**, were walking in front of the excavator he was operating.

After he had dug into the road approximately twice with the excavator bucket in an area that employees of the Mine Action Agency of the Republic of Azerbaijan had declared clear, an explosion occurred when the bucket struck the road again. **Babayev Vagif** and **Agababayev Renad**, deputy secretary of the **8th commandant’s office of the State Border Service**, were injured. While inside the excavator, he injured his right arm by striking it against part of the excavator during the explosion.

Volume 269, case file pages 105–108, 213–215

Questioned as a **victim**, **Babayev Vagif Alizaab oglu**, an operator of the **Mine Action Agency of the Republic of Azerbaijan**, confirmed in his statement the facts set out by the other victims and stated that he sustained injuries to his leg and various parts of his body as a result of the explosion.

Volume 269, case file pages 158–161, 166–168

According to **Forensic Medical Expert Report No. 446 dated 02.12.2021**, during the examination of **Seyidov Nadir Babir oglu** on **02.12.2012**, no visible bodily injuries or traces

of bodily injuries associated with the incident under consideration were found on the surface of his body.

Volume 269, case file page 128

According to **Forensic Medical Expert Report No. 434 dated 29.11.2021**, the bodily injuries sustained by **Babayev Vagif Alizaab oglu** — a closed craniocerebral injury, brain contusion, shrapnel wounds to the front part of the body, the middle thirds of the right and left thighs, and multiple shrapnel wounds to the face — resulted from the impact of primary fragments and the blast wave generated by the explosion of an explosive substance and constitute **minor harm to health**.

Volume 269, case file pages 131–132

According to **Forensic Biological Examination Report No. 75/MTB dated 13.12.2021**, the blood group of **Babayev Vagif Alizaab oglu** is **O (I)**. Human blood was detected on the submitted woolen sweater and underwear, and only antigen “**H**” was detected during blood-group testing. Thus, the indicated human blood stains may belong to a person with blood group **O(I) under the ABO system**, including **Babayev Vagif Alizaab oglu**, who belongs to that group.

Volume 269, case file pages 174–176

According to **Comprehensive Forensic Ballistic and Trace Examination Report Nos. 3/1961 and 3/2036 dated 23.12.2021**, the shape, manufacturing characteristics, traces on the four objects and other characteristics indicate that they were parts of a factory-manufactured explosive device (**mine**). However, since the objects are small and bear no corresponding markings or inscriptions indicating their date of manufacture, it is impossible to determine what device (mine) they formed part of, their intended purpose, model, technical characteristics, place of manufacture or when they were manufactured.

The glass, which is said to be the lower window of the excavator, is broken and fragmented. Judging by the discovery on the surface of the glass of the explosive substance (**TNT**) and incompletely burned smokeless fragments, the glass may have broken and shattered as a result of the explosion.

There are injuries to the sweater and thermal underwear, as noted in the examination section. Based on the shape, dimensions and morphological structure of the damage to the items of clothing, as well as the discovery on their surfaces of explosive substances (**TNT**) and incompletely burned particles of smokeless powder,...

Page 497

The above-mentioned injuries are characterized by the fact that they were caused by the impact of fragments resulting from an explosion, are located close to the center of the explosion, extend from bottom to top and from front to back, and overlap one another in their location. Similar injuries may also be caused by fragments from the explosion of a mine.

Volume 269, case file pages 220–223

According to the **decision dated 23.02.2022 on recognition as physical evidence**, the following were recognized as physical evidence in the case: the woolen sweater and underwear worn by **Babayev Vagif Alizaab oglu** at the time of the incident, as well as the lower part of the excavator windshield and **4 pieces of plastic material** seized from the scene.

Volume 269, case file pages 225–226

On **30.09.2021 at 14:50**, the commander of the group of the **4th border combat post of the 30th border outpost of the 9th border commandant's office of Military Unit No. 2051 of the State Border Service**, Junior Warrant Officer **Nazarkhanli Elgun Elkhani oglu**, together with servicemen of that combat unit **Murad Musayev, Rashad Mammadov and Javidan Khidatov**, arrived in the area of a mined section near the **1st firing position**, located 80 meters away, in order to look for firewood for use at the station. There, Junior Warrant Officer **E. Nazarkhanli** entered the mined territory alone. After walking approximately **30 meters**, he stepped on an anti-personnel mine planted by servicemen of Armenian armed formations unidentified by the investigation and sustained injuries described as **“complete fragmentation of the bones and soft tissues in the region of the right tibia, traumatic rupture of the left talotibial joint, fragmentation of the soft tissues of the lower third of the tibia, traumatic hemorrhagic shock, Grade IV,”** constituting serious harm to health, and was evacuated to **Military Hospital No. 214**.

On **01.10.2021**, the scene was inspected by trainee investigator of the **Qubadli Military Prosecutor's Office Kazimov Mirasim Abbas oglu**, during which it was established that the scene was the designated area near the 1st firing position on the territory of the **4th border combat point of the 30th border outpost of the 9th border commandant's office of Military Unit No. 2051 of the State Border Service**, in the village of **Aghband, Zangilan District**. Since the area where the explosion occurred was located within mined territory, it was not possible to inspect the scene directly. During the inspection, the surroundings of the scene and signs indicating mined areas were described in detail.

Volume 268, case file pages 16–25

Questioned as a **victim**, the commander of the **2nd group of the 4th border combat post of the 30th border outpost of the 9th border commandant's office of Military Unit No. 2051 of the State Border Service**, Junior Warrant Officer **Nazarkhanli Elgun Elkhani oglu**, stated in his testimony that on **30.09.2021**, while off duty, he went together with servicemen of the station **Javidan Khidatov, Murad Musayev and Rashad Mammadov** to the 1st firing position, situated on relatively elevated terrain approximately **80 meters from the communications tent on the left side of the station**, in order to gather firewood. They first moved toward the road to the left of the sandbags located on the left side of the firing position and began cutting trees there with axes. He then saw a solitary tree approximately **30 meters from the sandbags**, assuming that it was dry, headed toward it. Suddenly, there was a powerful explosion, and he was wounded.

Volume 268, case file pages 90–91

Questioned as witnesses, **Babayev Rashad Beyler oglu, Khidatov Javidan Mardan oglu, Musayev Murad Farman oglu, Garayev Knyaz Murad oglu, Mammadov Rashad**

Dadash oglu and Bayramli Elshan Bulud oglu confirmed the circumstances stated in the testimony of Junior Warrant Officer **Nazarkhanli Elgun Elkhan oglu**.

Page 498

Volume 268, case file pages 105–108, 109–112, 113–116, 117–119, 120–123, 124–126

According to **Forensic Medical Expert Report No. 372 dated 13.10.2021**, the bodily injuries sustained by **E.E. Nazarkhanli** — complete rupture of the right tibia and fibula, traumatic rupture of the left talofibular joint, rupture of the soft tissues of the lower leg, and traumatic hemorrhagic shock, Grade IV — resulted from the impact of primary fragments and the blast wave generated by the explosion of explosive substances and, as a rule, are classified as **severe injuries**.

Volume 268, case file pages 73–74

According to **Forensic Ballistic Expert Report No. 3/1769 dated 16.11.2021**, there are injuries on the military-style trousers, sports trousers, the collar of the soldier's boot and the toe section, the number and dimensions of which are specified in the examination section of the report. Based on the shape, dimensions and morphological structure of these injuries, as well as the discovery of explosive substances (**TNT**) and powder particles around them, the characteristic feature of the examined injuries is that they were caused by the impact of fragments from an explosion at its center, directed downward. The injuries overlap in their location. Similar injuries may also be caused by the explosion of a mine. Explosive substances (**TNT**) and powder particles were detected in the soil sample submitted for examination.

Volume 268, case file pages 94–98

It follows from the **receipt for acceptance of physical evidence dated 28.12.2021** that the trousers, sports trousers, underwear, socks and collar of the soldier's boot recognized as physical evidence were being stored in the physical-evidence storage facility of the **Directorate for Particularly Important Investigations**.

Volume 268, case file page 104

On **23.11.2021 at 08:00**, **Private Kerimov Tajeddin Gazanfar oglu**, commander of the 1st squad of the 2nd fortification platoon of the obstacle-clearing detachment of **Military Unit No. 341 of the Ministry of Defense**, together with four other servicemen under the command of **Senior Lieutenant Mammadov Taleh Dashdamir oglu**, began searching for mines within strips **1.5–2 meters wide in three directions** in the area for the purpose of constructing an access road from the village of **Talysh in the liberated Tartar District** toward the village of **Tapgaragoyunlu, Goranboy District**. During the search and rescue operations, after engineering work had been carried out and they had advanced **25 meters**, **59 PMN-E anti-personnel mines** belonging to the Armed Forces of Armenia were discovered and rendered safe.

During the search operations, at **12:30**, **Private Tajeddin Kerimov** sustained minor injuries as a result of the explosion of an anti-personnel mine planted by servicemen of the Armenian

armed forces unidentified by the investigation. He was evacuated to **Military Hospital No. 230**.

The **scene inspection protocol** was drawn up by investigator of the **Tartar Military Prosecutor's Office Tarverdiyev Aziz Hashim oglu** on **23.11.2021**. The scene is located in the direction between the village of **Talysh, Tartar District**, and the village of **Tapgaragoyunlu, Goranboy District**, and is conditionally called "**Agachug**." This territory was liberated from the occupation of the Armenian armed forces during the **44-day Patriotic War**. The terrain at the scene is mountainous and hilly, and the landscape consists of grass, low shrubs and trees. Numerous pieces of iron wire and scrap metal, cordoned-off mine holes and their markings, as well as neutralized **PMN-E mines** piled at the roadside, can be seen at the scene. A hole in the ground formed as a result of a mine explosion, as well as a black sock, the left part of a black boot and a deformed piece of metal, were discovered at the scene, duly packaged and attached to the report.

Volume 270, case file pages 8–23

Questioned as a **victim**, the commander of the **1st squad of the 2nd fortification platoon of the obstacle-clearing detachment of Military Unit No. 341...**

Page 499

Private Karimov Tajeddin Gazanfar oglu stated in his testimony that at **08:00 on 23.11.2021**, together with five servicemen, he went to a position in the village of **Talysh, Tartar District**. Upon arriving there, on the instructions of **Senior Lieutenant Mammadov Talekh Dashdamir oglu**, they carried out engineering works for the construction of an access road from the village of **Talysh, Tartar District**, to the village of **Tapgaragoyunlu, Goranboy District**. They began searching for mines in three directions in that area. After advancing **25 meters**, they discovered and rendered safe **59 PMN-E anti-personnel mines** belonging to Armenian armed formations and continued the search. Later, while continuing the work with an **OZAN-type mine detector** in his hands, he stepped on a mine buried deep in an area where the mine detector had not reacted and sustained an injury.

Volume 270, case file pages 87–89

Questioned as witnesses, **Mammadov Talekh Dashdamir oglu, Alekperli Rashad Rasim oglu, Sharifli Sharif Ershad oglu and Jafarli Elchin Akif oglu** gave testimony of similar substance, confirming the circumstances described by **Tajeddin Karimov**.

Volume 270, case file pages 45–48, 50–53, 72–75, 77–80

On **03.12.2021**, investigator of the **Tartar Military Prosecutor's Office Tarverdiyev Aziz Hashim oglu** inspected all the clothing of **Karimov Tajeddin Gazanfar oglu** and the **OZAN-type mine detector** that he had been using at the time of the incident.

Volume 270, case file pages 111–128, 129–132

According to the conclusion of **explosive-technical examination Nos. 3/2001 and 3/2006 dated 23.12.2021**, the damage to the striking mechanism of the **PMN-3 mine** is characteristic of the impact of fragments from an explosion. The scratches found on the **left boot and sock**

of the Thai soldier are characteristic of fragments from the above-mentioned explosion. No characteristic damage resulting from the impact of fragments from the explosion was found on the **protective suit, pea coat, military short-sleeved shirt or one protective helmet** submitted for examination. At the same time, incompletely burned smokeless powder particles were detected on all of the above-mentioned items of military equipment and clothing submitted for examination.

Volume 270, case file pages 165–169

According to **Forensic Medical Expert Report No. 1708 dated 21.12.2021**, the injuries sustained by **Karimov Tajeddin Gazanfar oglu** — an oblique fracture, injuries to the left calcaneus and cuboid bone, a closed comminuted displaced fracture of the lower third of the diaphysis of the left tibia and of the **I, II and IV metatarsal bones**, a subcutaneous intermuscular hematoma of the left lower leg, and **traumatic shock of Grade I–II** — resulted from the impact of fragments during the explosion of a firearm projectile and are classified as **minor injuries causing harm to health**.

Volume 270, case file pages 175–177

According to the **decision dated 07.01.2022 recognizing items as physical evidence**, the protective suit, trousers, belt, tunic, short-sleeved shirt, black boots, black socks, goggles and helmet that were on **Karimov Tajeddin Gazanfar oglu**, as well as the item seized from the scene, were recognized as physical evidence and are stored in the evidence storage facility of the **Special Investigation Directorate**.

Volume 270, case file pages 170–171

Private Aliyev Asif Adil oglu, who served as a machine gunner in the **1st company of the 3rd platoon of the 2nd company of the 1st battalion of Military Unit No. 172 of the Ministry of Defense**, while performing combat duty at **Combat Position No. KCh-15**, code-named “**Zirve-4**,” located in the village of **Zeylik, Kalbajar District**, at approximately **21:50 on 08.12.2021**, was subjected, together with that combat position, to intensive fire from automatic weapons and machine guns by representatives of the **Armed Forces of Armenia unidentified by the investigation**, firing from positions located in the settlement of **Yukhary Shorja, Basarkechar District**. At that time, one of the bullets fired by the Armenians struck serviceman **A.A. Aliyev** in the back...

Page 500

...and as a result of the wounds sustained, he died at the scene.

According to the **report dated 08.12.2021**, it was not possible to inspect the scene because it was under intensive fire. An external examination of the body was conducted.

Volume 273, case file pages 13, 26–35

On **05.03.2022**, **Aliyev Adil Zahid oglu** was questioned as the **legal heir of the victim**.

Volume 273, case file pages 87–90

Questioned as a witness, the **head of the medical service of Military Unit No. 172 of the Ministry of Defense of the Republic of Azerbaijan, Senior Lieutenant Huseynov Asif Mehman oglu**, stated in his testimony that at approximately **23:00 on 08.12.2021**, the body was brought by a battalion ambulance from the combat position provisionally designated **“Zirve-4,”** near the location of the **1st battalion of Military Unit No. 172**. After the body of the deceased was transferred from the vehicle by the battalion medical orderly to the medical-aid vehicle of the medical unit at **Combat Position Zirve-2**, he was taken to **Military Hospital No. 524**. After placing him in the vehicle, he pulled back the blanket and looked at him, whereupon he saw a bleeding wound on the lower third of the anterior surface of the neck and a pool of blood on the back of the neck.

Volume 96, case file pages 48–51

Volume 273, case file pages 48–51

Questioned as a witness, **Abbasov Babakishi Bakhman oglu** stated in his testimony that at approximately **20:00 on 08.12.2021**, the shelling from the Armenian side intensified. At 20:00, soldiers **Asif Aliyev** and **Rashad Novruzov**, who were on combat duty, were replaced by other soldiers of the detachment — **Bekhbud Gambarov** and **Talekh Aliyev**, who had been resting. At 20:00, **Rashad Novruzov** took up guard duty **5 meters from the post**, while **Asif Aliyev** was inside the post. At **21:40**, Asif Aliyev went to the post and continued performing duty there when the fire opened by the Armenians intensified. Approximately one minute after he reached the combat position, he heard a scream from the post and immediately rushed there. Upon arriving at the location where duty was organized in front of the post, he saw that soldier **Aliyev Asif Adil oglu**, who had been on duty there, had been shot and was lying on the ground face up.

He ordered another soldier of the detachment, **Ekrem Safarov**, to immediately bring the pain-relieving injection **“Pramidol.”** After giving Asif Aliyev an injection in the side with that needle, he attempted to provide him with other first aid and saw that soldier **Asif Aliyev had died**. After that, they lifted the deceased in their arms, placed him on a soldier’s bed at the post, covered him with a blanket and evacuated the **shahid**.

Volume 273, case file pages 52–55

According to **Forensic Medical Expert Report No. 01/a dated 08.01.2022**, the bodily injuries sustained by **Aliyev Asif Adil oglu** consisted of **one penetrating wound of the thoracic cavity**, accompanied by acute bleeding, **left-sided hemothorax, injury to the left lung and an open fracture of the second thoracic vertebra**, with the entrance wound located on the posterior surface of the chest and the exit wound on the anterior surface of the neck. The indicated trauma was life-threatening and is characteristic of a shot fired shortly before death, **from back to front, from bottom to top and from right to left**, from a distance at which additional factors of the shot have no effect. The immediate cause of death was **acute internal bleeding caused by injury to the left lung as a result of the gunshot wound**.

Volume 273, case file pages 69–73

According to **Forensic Ballistic Expert Report No. 3/143 dated 22.03.2022**, the military jacket, military sweater, long-sleeved shirt, short-sleeved shirt and sleeveless T-shirt have the

number and dimensions of damage specified in the examination section. Despite the absence around the damage of...

Page 501

... incompletely burned smokeless powder particles and traces of copper metal, which are additional factors of a gunshot, based on their shape, size and morphological structure, the damage to the back of the military jacket, military sweater, long-sleeved shirt, short-sleeved shirt and sleeveless T-shirt constitutes an entrance defect, while the damage to the front of the military jacket constitutes an exit defect; these injuries are characteristic of the impact of a bullet approximately 5.45 mm in diameter, fired from a firearm from a distance of more than 2 meters, from back to front and from below upward.

Volume 273, case file sheets 96–100

Pursuant to the decision dated **17.03.2022**, the military jacket, military sweater, long-sleeved shirt, short-sleeved shirt, sleeveless T-shirt, military belt, military trousers, warm trousers, warm underpants, a pair of socks and one additional pair of socks were recognized as physical evidence and attached to the criminal case.

Volume 273, case file sheets 104–105

Rustamov Elshan Yagub oglu, who was performing extended compulsory military service with the rank of junior sergeant and served as driver-mechanic of the 2nd tank of the 2nd tank division of the 1st tank battalion of Military Unit No. 702 of the Ministry of Defense, stated that at approximately 12:00 on **15.12.2021**, while conducting a search and demining operation on the **Horadiz–Jabrayil highway** using a **T-72 M-1** tank, state number 256, within the framework of the Mine Action Agency of the Republic of Azerbaijan, the tank struck an anti-tank mine placed by unidentified representatives of the Armenian armed forces on the left shoulder of the Horadiz–Jabrayil highway in the **Jabrayil District**. As a result, he sustained minor injuries, including “a hematoma of the left thigh and left heel and a closed craniocerebral injury resulting from concussion,” and was evacuated to Military Hospital No. 214.

On **16.12.2021**, the scene where the tank had been blown up was inspected. The tank had **256 bullet impact marks** and belonged to Military Unit No. 702 assigned to the Mine Action Agency of the Republic of Azerbaijan. Since no fragments of the exploded anti-tank mine were found in that area, it was presumed that it had been a plastic anti-tank mine bearing the marking “**TM-62P3**.” As a result of the explosion of this mine, a breach formed in the bottom of the tank. The crater was 2.5 meters wide, 3.6 meters long and 45 centimeters deep. Three metal objects that had broken apart as a result of the anti-tank mine explosion were seized from the scene as physical evidence.

Volume 267, case file sheets 9–21

Witness Mekhtiyev Elchin Nariman oglu stated that on **15.12.2021**, while he was together with Rustamov Allahyar at a medical personnel station of the 1st field group in the area of the **Lalatapa heights in the Jabrayil District**, Allahyar received a call on his mobile phone informing him that a tank conducting demining nearby had struck a mine previously placed by Armenian servicemen and that its driver had been injured.

An ambulance immediately arrived at the scene. Rustamov provided first aid to the injured Elshan and administered a painkiller. There was no bleeding on his body. However, based on his behavior, it was apparent that his body was in pain. Paramedic Rustamov, together with Allahyar, placed Rustamov Elshan on a stretcher and put him in the ambulance. He was then evacuated to **Military Hospital No. 214 of the Ministry of Defense in the Fuzuli District.**

Volume 267, case file sheets 42–44

Witness Rustamov Allahyar Soltan oğlu confirmed the circumstances set out by Elchin Mekhtiyev in his statement dated **30.12.2021** and gave testimony of similar content.

Volume 267, case file sheets 46–48

Page 502

Victim Rustamov Elshan Yagub oğlu stated that at approximately 12:00 on **15.12.2021**, on the forward section of the **Horadiz–Jabrayil highway**, within the **Jabrayil District**, approximately 150 meters from the entrance sign to the district, he was carrying out search and demining work on the left side of the road using a **T-72 M1** tank bearing the number 256 and belonging to Military Unit No. 702. A **KMT-7** mine-clearing device was attached to the front of the tank.

He was inside the tank, while Warrant Officer **Shahin Mammadov** was approximately 30 meters away from him and was giving him various instructions by radio to perform different maneuvers. While maneuvering his tank, he drove onto an anti-tank mine, and there was suddenly an explosion which threw him upward inside the tank. At that moment he began experiencing pain in his legs, back and head, but there was no bleeding.

Warrant Officer Shahin Mammadov pulled him out of the tank, and several minutes later medical personnel from the Mine Action Agency of the Republic of Azerbaijan arrived and provided first aid. After he was given a painkiller, he was immediately taken from the scene and transported to an emergency medical aid facility. He was then evacuated to **Military Hospital No. 214 of the Ministry of Defense.**

Volume 267, case file sheets 54–55, 61–62

Representative of Military Unit No. 702 Omanov Sanan Khydyr oğlu, recognized as a victim as a result of material damage caused to the **T-72 M1** tank bearing turret marking “256” after it struck an anti-tank mine previously placed by servicemen of the Armenian armed forces, stated that at approximately 12:00 on **15.12.2021**, Warrant Officer Shahin Mammadov informed the command of the military unit that when serviceman of Military Unit No. 702 Senior Sergeant **Rustamov Elshan Yagub oğlu** was carrying out demining and mine-search operations on a section of the Horadiz–Jabrayil highway in the Jabrayil District using a **T-72 M1** tank with turret marking “256,” belonging to Military Unit No. 702, the tank struck an anti-tank mine previously placed by servicemen of the Armenian armed formations. As a result, the side armor and road wheels of the tank were damaged, and E. Y. Rustamov was injured.

Volume 267, case file sheets 73–75

According to **forensic medical expert conclusion No. 475 dated 29.12.2021**, the injuries sustained by **Rustamov Elshan Yagub oglu** consisted of a hematoma of the left thigh and left heel, as well as a closed craniocerebral injury resulting from concussion. Of the injuries noted, the hematomas of the left thigh and left heel were caused by impact with a hard blunt object, while the closed craniocerebral injury resulting from concussion was caused by the effect of a blast wave resulting from an explosion and is classified as **minor bodily injury**.

Volume 267, case file sheet 64

According to **forensic ballistic and trace evidence examination conclusion No. 3/70 dated 08.02.2022**, as a result of the explosion, the three pieces of metal had fractured and separated from the object of which they had formed part. It cannot be ruled out that the metal parts broke off and separated from the device of which they formed part as a result of the explosion of an anti-tank mine.

Volume 267, case file sheets 96–97

By a **decision on recognition as physical evidence dated 23.02.2022**, the three metal objects seized from the scene were recognized as physical evidence and transferred for storage to the evidence storage chamber of the Office for Investigation of Particularly Serious Crimes of the Military Prosecutor's Office of the Republic of Azerbaijan.

Volume 267, case file sheets 98–99

At approximately 16:00 on **13.12.2020**, serviceman of the 181st Military Unit of the Ministry of Defense **Rahimov Sabukhi Zahid oglu**, who was loading firewood into the bed of a vehicle...

Page 503

... **MAZ** vehicle belonging to the military unit in the village of **Qarabulaq, Khojaly District**, sustained minor injuries as a result of fire from the Armenian armed forces directed toward the place where he was located, with the intent to kill him.

According to the service record book attached to the case materials, Private **Rahimov Sabuhi Zahid oglu** is characterized positively.

Volume 162, case file sheet 8

According to an extract from **Order No. 10 of the commander of Military Unit No. 181 dated 10.01.2021**, Private **Rahimov Sabuhi Zahid oglu** was appointed to the position of senior scout of the reconnaissance squad of the command platoon of the 1st battery of the artillery battalion of Military Unit No. 181.

Volume 162, case file sheet 24

According to **forensic medical expert conclusion No. 1287 dated 24.09.2021**, the injury sustained by S. Z. Rahimov — a penetrating gunshot wound to the anterior surface of the lower third of the right lower leg, resulting in a displaced fracture of the right fibula — was caused by a gunshot wound from a firearm and was classified as **minor harm to health**.

Volume 162, case file sheets 51–82

Questioned as a victim, **Rahimov Sabuhi Rovshan oglu** stated in his testimony that at about midday on **13.12.2020**, while serving in the artillery battalion of Military Unit No. 181, he was in the village of **Chanagchi, Khojaly District**. Together with several active-duty servicemen, approximately 6–7 persons, traveling in a **MAZ** vehicle under the command of platoon commander Lieutenant **Rovshan Aliyev**, they went to collect firewood in a forest near the village of **Qarabulaq, Khojaly District**, 3–4 kilometers below the village of Chanagchi.

Upon arriving at the village, the personnel got out of the vehicle, dispersed around the area and began collecting firewood. After their arrival in the village, shots were heard from time to time from Armenian military positions near the village, and in some instances the sound of the shots became louder. Although the Armenian military positions were approximately 700–800 meters from the village, the Armenian servicemen could not see them clearly because of the foggy weather.

After loading the firewood and local produce into the truck, he climbed into the truck bed and began moving the load around and stacking it there one piece at a time. At approximately **16:00**, while sorting the firewood in the rear part of the vehicle and standing facing the opposite side of the vehicle, he noticed blood flowing from the heel of his right foot and immediately fell to the ground. After falling, he realized that he had sustained a gunshot wound to his leg, although at that moment he did not feel any pain.

Servicemen who were nearby provided assistance and transported him to the settlement of **Hadrut, Khojavend District**, for first aid, after which he was evacuated to **Military Hospital No. 214**.

Volume 162, case file sheets 112–116

Questioned as a witness, **Asadov Ramil Rahim oglu** stated in his testimony that since **09.09.2020** he had served as senior driver of the 1st platoon of the 1st battery of the artillery battalion of Military Unit No. 181 of the Ministry of Defense. He knew Private **Rahimov Sabuhi Zahid oglu** from their service, their relationship was official in nature, and there was no hostility or enmity between them.

On **13.12.2020**, he was in the village of **Chanagchi, Khojaly District**, and on that day he heard that at approximately 16:00 serviceman Sabuhi Rahimov had sustained a wound to the ankle of his right leg as a result of being fired upon by Armenian soldiers while he was in the village of Qarabulaq, Khojaly District. After being wounded, he was evacuated to the settlement of Hadrut, Khojavend District, for first aid and from there to **Military Hospital No. 214**.

Volume 162, case file sheets 117–121

Questioned as a witness, **Aliyev Rovshan Elshan oglu** stated in his testimony that on **13.12.2020** he was transporting firewood in a MAZ vehicle for heating purposes to the village of Qarabulaq, Khojaly District. At that time, the following servicemen were there:

Private **Rahimov Sabuhi Zahid oğlu**, active-duty servicemen **Aliyev Surkhay Safa oğlu**, **Tabriz Maharramov**, and other servicemen whose names he did not remember. Armenian positions were located approximately 700–800 meters from the village where they were.

While collecting firewood from a forest near the village of Qarabulaq, Khojaly District, he heard shots fired by Armenian soldiers. After that, upon hearing the cries of former serviceman Sabuhi Rahimov, he immediately ran toward the vehicle. Before he managed to reach his vehicle, the soldiers who were present pulled Rahimov out of the vehicle. After getting out of the vehicle, he saw that there was a bullet hole in his right boot slightly above the ankle.

As first aid, the upper part of his ankle was bandaged with an old piece of cloth, and together with driver **Surkhay Aliyev** he was taken to **Military Unit No. 214 in the village of Ahmadbayli, Fuzuli District**. After that, Private S. Rahimov was examined at the hospital in Ahmadbayli and then sent to the **Main Clinical Hospital of the Armed Forces**, where he was demobilized from service.

Volume 162, case file sheets 122–126

Questioned as a witness, **Aliyev Surkhay Safa oğlu** gave testimony of the same content as **Aliyev Rovshan Elshan oğlu**, confirming the circumstances stated by the latter.

Volume 162, case file sheets 127–132

According to the **protocol of inspection of the scene and the vehicle dated 10.02.2022**, the scene of the incident was the area of the village of **Qarabulaq, Khojaly District**. Aliyev Surkhay, who participated in the inspection, stated that the incident occurred 6 meters from the road, on an area 10 meters long and 6 meters wide; the roof was partially destroyed. During the inspection of the crime scene, no objects or items relevant to the case were found.

In addition, a **MAZ 531605** vehicle with military registration number **D164QQ** was inspected. During the inspection, no broken or cracked windows were found in the passenger compartment, and the vehicle had two tires at the front and two at the rear. S. Aliyev, who participated in the inspection, stated that Sabuhi Rahimov had sustained his injury as a result of fire opened by the Armenian armed forces at approximately 16:00 on **13.12.2020** in the village of Qarabulaq, Khojaly District, while collecting firewood in the cargo bed of that vehicle.

He also noted that S. Rahimov had been standing on firewood stacked in the cargo bed and rearranging it, and that the cargo bed of the vehicle was not covered with a tarpaulin at the time. During the inspection of the vehicle, no traces of firearm damage or bullet fragments were found. Nothing of significance was found in the passenger compartment or cargo bed of the vehicle. No other circumstances relevant to the case were identified during the inspection.

Volume 162, case file sheets 133–145, 146–151

Questioned as witnesses, **Zulfuqarli Khayal Ibrahim oğlu**, **Aliyev Elvin Tofiq oğlu**, and **Nuriyev Nurmammad Gurban oğlu** gave testimony similar to that of **Asadov Ramil Rahim oğlu**, confirming the circumstances stated by the latter.

Volume 162, case file sheets 155–158, 159–163, 164–168

On the basis of information received by the battery that an unmanned aerial vehicle of the Armed Forces of the Republic of Azerbaijan had been shot down by Armenian armed formations in the **Kalbajar District**, the battery was instructed to search for and locate the unmanned aerial vehicle in that area.

Pursuant to the instruction received, at **12:00 on 02.01.2022**, groups consisting of personnel of the mortar battery were organized to search for the unmanned aerial vehicle, and search operations commenced.

At approximately **14:00** that day, when serviceman **Eyniyev Yusif Suleyman oglu** left the search group and proceeded into a forested mountainous area, an anti-personnel mine planted in that area by servicemen of the Armenian armed formations whose identities were unknown to the investigation exploded, as a result of which he sustained bodily injuries constituting...

Page 505

...grievous bodily harm: **“traumatic amputation of one-third of the left lower leg, accompanied by Grade I traumatic-hemorrhagic shock and post-traumatic anemia.”**

On **02.01.2022**, it was not possible to inspect the scene where serviceman of Military Unit No. 707 **Eyniyev Yusif Suleyman oglu** had been wounded as a result of a mine explosion in the village of **Balli, Kalbajar District**, due to the area being mined and the danger to life.

Volume 221, case file sheet 4

Questioned as a victim, **Eyniyev Yusif Suleyman oglu** stated that on **02.01.2022 at 12:00**, groups consisting of personnel of the mortar battery were organized to search for an unmanned aerial vehicle, and search operations commenced. At approximately 14:00 that same day, after moving away from the search group and proceeding through a forested mountainous area, he stepped on an anti-personnel mine that had previously been planted in that area by servicemen of the Armenian armed formations whose identities were unknown to the investigation.

Approximately 10–15 seconds later, he felt severe pain in his heel, and when he looked at the site of the injury, he saw that his left leg had been seriously damaged as a result of the mine explosion. There was no one near him at the time. Exhausted, he crawled downward, lay on the ground, and approximately an hour later heard someone calling to him from a distance. Later, soldiers **Hasanov Imamat Aghaverdi oglu** and **Shafiyev Samir Ramin oglu** came to his aid and carried him down from the mountainous area into the forest zone. There, servicemen provided him with first aid and evacuated him to a hospital.

Volume 221, case file sheets 64–68

Questioned as a witness, **Mikayilov Ravan Zaur oglu** stated that on **02.01.2022**, a group of 26 battery personnel was formed, which left the battery area at 12:00 and began searching in two groups in the area where the unmanned aerial vehicle was believed to have fallen. The terrain consisted of dense forest and valleys. They searched by drone, in a 12-man team, an

indicated area of forest and ravine at a distance of 10 meters, but were unable to locate it and left the area, heading toward the highway.

When the personnel were checked, it was established that Private **Eyniyev Yusif Suleyman oglu** was absent. Upon returning to the battery at approximately 14:15, they learned that Private Y. S. Eyniyev had not returned to the battery at all. After this, E. S. **Narimanzade** immediately formed two groups again, placing Senior Lieutenant E. S. **Narimanzade** in charge of the first group and Junior Sergeant **Habil Abdullayev** in charge of the second, and they began searching for soldier Y. S. Eyniyev.

The search for Private Eyniyev continued for more than an hour. **Habil Abdullayev** informed the group leader, Senior Lieutenant **Elnur Narimanzade**, that Private **Eyniyev Yusif Suleyman oglu** had been injured as a result of stepping on a mine.

Volume 221, case file sheets 86–90

Questioned as witnesses, **Abdullayev Habil Misir oglu**, **Gurbanov Parviz Gurban oglu**, **Narimanzade Elnur Salman oglu**, **Mirzoyev Nazim Yildirim oglu**, **Hasanov Imamat Aghaverdi oglu**, and **Safiyev Samir Ramin oglu** gave statements of the same content.

Volume 221, case file sheets 92–96, 98–102, 104–108, 110–114, 116–120, 122–127

According to **forensic medical expert conclusion No. 64 dated 25.01.2022**, the injury sustained by **Y. S. Eyniyev** — traumatic amputation of the lower third of the left lower leg, accompanied by Grade I traumatic-hemorrhagic shock and post-traumatic anemia, caused by the impact of fragments during the explosion of a munition — resulted in a permanent and lasting loss of more than one-third of his overall capacity to work and is classified as **grievous bodily harm**.

Volume 221, case file sheets 132–133

According to **forensic trace and ballistic examination conclusion No. 3/67 dated 17.02.2022**, the submitted military trousers, the severed portion of their left trouser leg, and a piece of what is presumed to be the left portion of a sock have damage described in the examination section of the report.

Page 506

Based on the shape, dimensions and morphological structure of the damage to the items of clothing, as well as the presence on their surfaces of explosive substances (TNT) and incompletely burned particles of smokeless powder, the damage is characteristic of that caused by fragments as a result of an explosion, from the center of the explosion upward.

Particles of incompletely burned smokeless powder and explosive substance (TNT), which constituted an additional factor of the discharge, were found on the **military cap, military sweater, two long-sleeved undershirts, sleeveless T-shirt, military belt, two pairs of warm underpants, the right soldier's boot and the right sock**.

Volume 221, case file sheets 142–146

By a **decision dated 04.05.2022 of Acting Senior Investigator of the Kalbajar Military Prosecutor's Office Mirzoyev Elvin Mushfig oglu on recognition as physical evidence**, the military cap, military sweater, two warm long-sleeved undershirts, black T-shirt, military belt, military trousers, two pairs of warm underpants, the right soldier's boot, and the remains of one pair of socks were recognized as physical evidence and transferred for storage to the **Kalbajar Military Prosecutor's Office**.

Volume 221, case file sheets 147–148

At approximately **13:00 on 01.06.2021**, when servicemen of Military Unit No. 708, Warrant Officer **Mammadov Nemat Mirza oglu** and Private **Aslanov Shokhrat Arif oglu**, were conducting demining operations in the village of **Sarijali, Aghdam District**, using a **T-72 tank bearing turret number "239,"** the **KMT-7 mine trawl** attached to the tank struck two anti-tank mines planted by servicemen of the Armenian armed forces whose identities were unknown to the investigation.

As a result, tank commander Warrant Officer **N. M. Mammadov** sustained non-life-threatening **"contusions of the tissues of the head, back and lower back,"** while tank driver-mechanic Private **Sh. A. Aslanov** sustained non-life-threatening **"contusions of the soft tissues of the forehead and head,"** and they were evacuated to **Military Hospital No. 056**.

According to the **inspection protocol dated 30.11.2021**, the site of the incident is located **5.6 meters from the road**, parallel to it, on the left side of the carriageway of the road passing through the formerly occupied territory of the village of **Sarijali, Aghdam District**. The road passing the scene is 6 meters wide and is asphalt-paved.

During the verification, participant **Shokhrat Aslanov**, a serviceman of Military Unit No. 708, stated that on **01.06.2021**, while serving as the driver-mechanic of tank No. 239, he struck an anti-tank mine planted by Armenian soldiers in that area.

Volume 165, case file sheets 73–79

On **04.12.2021**, Assistant Aghdam Military Prosecutor **Gudarli Nihad Adalat oglu** inspected and photographed the scene and prepared a table attached to the **T-72 tank inspection protocol**.

Volume 165, case file sheets 80–90

Questioned as a victim, **Aslanov Shokhrat Arif oglu**, driver-mechanic of the 1st tank platoon of the 5th company of the 2nd battalion of Military Unit No. 708, stated that, pursuant to the relevant order of the command of **Military Unit No. 051**, on **01.06.2021**, together with Warrant Officer **N. Mammadov**, he participated in demining operations in the liberated village of **Sarijali, Aghdam District**, jointly with employees of the Mine Action Agency of the Republic of Azerbaijan.

They cleared predetermined areas of unexploded mines using a **T-72 tank** with a mine trawl attached to it. The tank they were using, **T-72 bearing turret number 239**, was equipped with a **KMT-7 mine trawl** to prevent the blast wave that might arise during demining and to reduce the force of an explosion so that it would not affect the surrounding environment.

That day, at approximately **13:00**, about **5–6 meters from the edge of the road**, the tank struck a mine planted by Armenian soldiers, as a result of which...

Page 507

... he and Warrant Officer **N. Mammadov** sustained injuries of varying severity from the effects of the blast wave. The tank in which they were travelling struck **two mines simultaneously**.

Volume 165, case file sheets 114–117

Questioned as victims, Warrant Officer **Mammadov Nemat Mirza oglu** and Captain **Mammadov Kamal Alimammad oglu** gave statements similar to those set out in the statement of **Shokhrat Aslanov**.

Volume 165, case file sheets 107–110, 137–140

According to **forensic medical expert conclusion No. 951 dated 13.08.2021**, the bodily injuries sustained by **N. M. Mammadov** — injuries to the soft tissues of the head, back and lower back caused by blunt trauma — correspond to the date indicated in the circumstances of the examination. Since these bodily injuries did not pose a danger to health, their degree of severity was not determined.

Volume 165, case file sheet 46

According to **forensic medical expert conclusion No. 952 dated 12.09.2021**, the bodily injuries sustained by **A. Aslanov** — contusions of the soft tissues of the forehead and crown of the head — were caused by impact with a hard blunt object. Since they constitute bodily injuries that did not cause harm to health, their degree of severity was not determined.

Volume 165, case file sheet 47

According to an **extract from Order No. 289 of the commander of Military Unit No. 069 dated 27.06.2021**, the commander of **T-72 tank No. 239**, belonging to the 3rd tank division, was Warrant Officer **Mammadov Nemat Mirza oglu**, and its driver-mechanic was **Aslanov Shokhrat Arif oglu**.

Volume 165, case file sheet 39

At approximately **11:00 on 18.12.2021**, pursuant to an order from higher command, it was planned to transfer communications equipment from the posts of the 4th battalion of Military Unit No. 157, located in the **4th sector of the Lachin District**, to Post No. 25.

For this purpose, to meet two servicemen on the way — Private **Gulmaliyev Kenan Ganbar oglu** and Private **Akperov Musa Asim oglu**, who were moving from Post No. 27 to Post No. 25 carrying communications equipment — two servicemen, Private **Huseynov Teymur Aladdin oglu** and Private **Mustafayev Murad Mikail oglu**, moved from Post No. 25 toward Post No. 27.

The latter were attacked and taken prisoner by servicemen of the **Armed Forces of Armenia**, who had unlawfully crossed the state border of the Republic of Azerbaijan, while moving from Post No. 25 to Post No. 27 near the unused Post No. 26.

At that time, the Armenian forces seized an **AKM assault rifle**, military registration number **139922**, belonging to Private **Huseynov Teymur Aladdin oglu**, and attached to Private **Azimov Namid Namig oglu**, as well as one magazine containing **30 cartridges**.

The said servicemen were handed over to the Ministry of Defense on **20.12.2021** in connection with a prisoner exchange.

Thus, servicemen of the Armed Forces of Armenia unlawfully crossed the state border of the Republic of Azerbaijan in the territory of the 4th sector of the Lachin District, used firearms, and abducted former servicemen of Military Unit No. 157 of the Ministry of Defense — Private **Huseynov Teymur Aladdin oglu** and Private **Mustafayev Murad Mikail oglu**.

In addition, the Armenian servicemen seized the **AKM assault rifle bearing registration number 139922**, which was in the possession of Private Huseynov Teymur Aladdin oglu and assigned to Private Azimov Namid Namig oglu, as well as a magazine containing 30 cartridges.

According to the **scene inspection protocol dated 19.12.2021**, there are two roads between the positions of the 12th company of the 4th battalion of Military Unit No. 157 of the Ministry of Defense, located in an area conventionally referred to as the **4th sector of the Lachin District**, including the road from Post No. 25 to Post No. 27. From Post No. 25 to Post No. 27...

Page 508

...there are two routes. The first road is long, with a length of **3 kilometres**, and is mainly used as a highway, while the second road is shorter, with a length of **1.6 kilometres**, but is dangerous because of its proximity to units of the Armenian armed forces.

Volume 223, case file sheets 6–13

Questioned as a victim, **Huseynov Teymur Aladdin oglu** stated that, since soldier **Mustafayev Murad Mikail oglu** knew the road well, they set out together from Post No. 25 toward Post No. 27.

After travelling for some time, they came across the unused Post No. 26 and an Armenian armed-forces post located nearby. As they were passing the Armenian armed formations, three Armenian servicemen emerged from behind a hill and loudly shouted at them in Russian, demanding that they lay down their weapons, after which they fired approximately three shots beneath their feet in order to force them to put down their weapons.

He put down his pistol; they picked it up, pointed the pistol at him, forced him to move toward their positions, and took him to their post. There, servicemen of the Armenian armed forces tied their hands and put them into a **KAMAZ vehicle**.

He closed his eyes, after which they changed vehicles several times and eventually arrived at a building. He was then taken to another building, placed in a cell and held there for two days.

During that period, he was questioned about the posts and the number of servicemen stationed at those posts. He deliberately provided false information.

As a result of a prisoner exchange, on **20.12.2021**, he and soldier **Murad Mustafayev** were taken to the city of **Shusha** and handed over.

Volume 223, case file sheets 75–79, 84–87

Questioned as a victim, **Mustafayev Murad Mikail oğlu**, and questioned as witnesses **K. G. Gulmaliyev**, **Kh. N. Askerov**, and others gave statements similar to that of **Huseynov Teymur Aladdin oğlu**, confirming the facts stated by him.

Volume 223, case file sheets 71–74, 92–95, 102–105, 106–108

According to **forensic medical expert conclusion No. 89 dated 24.01.2022**, no visible bodily injuries or traces of injuries connected with the incident under consideration were found on the body of **M. M. Mustafayev**.

Volume 223, case file sheet 97

According to **forensic medical expert conclusion No. 90 dated 24.01.2022**, no visible bodily injuries or traces of injuries connected with the incident under consideration were found on the body of **T. A. Huseynov**.

Volume 223, case file sheet 98

Contract serviceman **Private Nazarov Ayaz Azer oğlu**, who served as a medical instructor of the 2nd company of the 1st battalion of Military Unit No. 172 of the Ministry of Defense, was at combat position No. **KCh-14**, conventionally called “**Zirve-1**,” located in the village of **Zeylik, Kalbajar District**, when at approximately **13:15 on 11.01.2022** he sustained serious injuries as a result of intense automatic-rifle and machine-gun fire from positions located in the village of **Yukhary Shorja, Basarkechar District**, from unidentified servicemen of the Armed Forces of Armenia, and died at the scene.

According to a **certificate dated 11.01.2022**, it was not possible to inspect the scene because it was under intense fire. An external examination of the body was conducted.

Volume 222, case file sheets 5, 29–43

On **26.04.2022**, **Tanyrverdiyeva Sima Maharram gyzy** was recognized as the victim’s legal successor and questioned.

Volume 222, case file sheets 96–98

Questioned as a witness, **Shikhaliyev Aykhan Fazamir oğlu** stated that at **08:00 on 11.01.2022**, the personnel of the squadron in which he served began work to reinforce

combat position **KCh-14**, conventionally called “**Zirve-1**.” Near the combat position where they were serving...

Page 509

... there are a total of **five combat positions belonging to the Armenian armed forces**. In front of the “**Zirve-1**” combat position there are three Armenian positions, one of which is located approximately **60–70 meters** away, another at a distance of **300–400 meters**, and another at a distance of **1 kilometer**.

At approximately **12:00 that same day**, they heard Armenian servicemen shouting and saying in Russian, “**Do not work**,” after which they began intensively firing at the “**Zirve-1**” combat position with small arms.

He stated that at approximately **13:00**, when the incident occurred, the unit’s medical instructor, Private **Nazarov Ayaz Azer oglu**, who had come to check the health condition of the battalion personnel, changed position and climbed onto a long earthen elevation approximately **20–30 meters in front of the soldiers’ quarters**, from where he continued firing toward the Armenian side.

While firing at the Armenian positions with a **PK-type weapon**, he repeatedly asked A. Nazarov, who was approximately 10 meters away from him: “**Commander, are you all right?**” The latter replied: “**Yes, everything is fine, keep firing, let’s make them fall silent.**”

A short while later, after hearing a rustling sound and turning around to look at A. Nazarov, he saw that Nazarov had been struck in the head and had fallen face-up. When they reached A. Nazarov, they saw that he had no pulse and was already dead. They then placed A. Nazarov’s body on a stretcher and carried it from the place where he had been shot to the quarters.

Volume 222, case file sheets 57–60

Questioned as a witness, **Yolchuyev Emin Tariyel oglu** gave testimony similar to that contained in the statement of **Shikhaliyev Aykhan Fazamir oglu**.

Volume 200, case file sheets 87–90

Volume 222, case file sheets 47–50

According to **forensic medical expert conclusion No. 02 dated 12.01.2022**, the bodily injuries found during the examination of the body of **Nazarov Ayaz Azer oglu** — a single penetrating gunshot wound to the head, with the wound track running from top to bottom and from front to back, with an entrance wound on the right side of the forehead and an exit wound in the occipital region, accompanied by open comminuted fractures of the cranial vault and bones of the skull base, as well as diffuse crushing and destruction of brain tissue — are characteristic of a shot fired from a distance and not affected by additional factors of the shot.

An incomplete traumatic amputation of the **second finger** at the level of the metacarpophalangeal joint, with the finger remaining attached by a skin flap, accompanied by

multiple displaced fractures of the **third metacarpal bone**, the proximal and middle phalanges, as well as one penetrating wound to the second finger and the palmar surface of the left hand, are characteristic of a gunshot injury.

Multiple blind wounds to the forehead, nose, both cheeks and cheekbones, as well as the upper lip, could have been caused by fragments from the explosion of an explosive munition or by a bullet striking a hard obstacle during firing from a firearm.

The immediate cause of death was **diffuse contusion of the brain tissue resulting from the penetrating gunshot wound to the head.**

Volume 222, case file sheets 63–67

According to **forensic ballistic examination conclusion No. 3/92, 3/107 dated 24.02.2022**, one item is a part of ammunition that separated during the process of firing. However, due to the absence of material on its surface, because it is deformed, has lost its original shape and was fired from a small-caliber weapon, it is impossible to determine the caliber of the ammunition of which it formed part, as well as the caliber of the weapon from which it was fired.

The military jacket has damage, the size and number of which are specified in the **“Inspection”** section. Despite the absence around the damage of incompletely burned particles of smokeless powder and traces of copper metal, which constitute additional factors of a shot, based on their shape and morphological structure, they constitute an **exit hole formed as a result of the impact of a bullet fired from a firearm.**

Volume 222, case file sheets 80–84

Page 510

According to the **decision dated 25.04.2022**, the military winter jacket (jacket), sweater, long-sleeved undershirt, short-sleeved undershirt, scarf, waist belt, military trousers, warm trousers, undershirt, one pair of socks, one pair of military boots belonging to **Nazarov Ayaz Azer oglu**, and the metal particle removed from the wound during the examination of A. A. Nazarov’s body were recognized as physical evidence and attached to the criminal case materials, since they were relevant to the case.

Volume 222, case file sheets 87–88

The commander of the 3rd group of the 1st platoon of the 1st company of the 1st battalion of **Military Unit No. 701 of the Ministry of Defense**, Warrant Officer **Shirvanov Javid Rasul oglu**, and extended-service serviceman **Ramazanov Ziyafaddin Nizamaddin oglu**, who held the position of reconnaissance sergeant of the 1st company of the 1st battalion and had the military rank of sergeant, were defending their positions at the foot of **Mount Farrukh, near the village of Farrukh, Aghdam District**, at approximately **03:00 on 25.03.2022**, when the combat position where they were serving came under fire from Armenian armed formations.

As a result, Warrant Officer **Shirvanov Javid Rasul oglu** sustained a **“penetrating gunshot wound to the soft tissues of the shoulder region,”** while **Ramazanov Ziyafaddin**

Nizamaddin oglu sustained bodily injuries of varying severity. They were subsequently evacuated to **Military Unit No. 056**.

Questioned as a victim, **Ramazanov Ziyafaddin Nizamaddin oglu** stated that at approximately **03:00 on 25.03.2022**, they came under automatic-weapons fire from Armenian armed formations. At that time, **Shirvanov Javid** was standing beside him together with other servicemen, while the Armenian armed forces continuously fired automatic weapons in their direction.

During the exchange of fire, Javid Shirvanov, who was moving ahead, opened fire on the positions of members of the Armenian armed group with his **5.45 mm AK-74 assault rifle**. Approximately **20–25 minutes later**, Warrant Officer **Shirvanov Javid Rasul oglu** was wounded. He was wounded in the right arm while standing in position and firing toward the Armenians with the AK-74 assault rifle issued to him. They were later evacuated to **Military Unit No. 056**.

Volume 171, case file sheets 29–32

Questioned as a victim, **Shirvanov Javid Rasul oglu** gave testimony similar in content to the testimony of victim **Ramazanov Ziyafaddin Nizamaddin oglu**.

Volume 171, case file sheets 40–43

Questioned as a witness, Private **Najafov Gudrat Sahib oglu** stated that during the night of **25.03.2022**, at approximately **02:00–03:00**, while performing their official duties in accordance with the relevant instructions on the **Farrukh heights in the Aghdam District**, they came under automatic-weapons fire from illegal armed formations.

At that time, **Ramazanov Ziyafaddin** and **Javid Shirvanov** were wounded. Thereafter, J. Shirvanov and Ziyafaddin Ramazanov, together with other servicemen, were assisted in leaving the area, and both servicemen were evacuated to **Military Hospital No. 056**.

Volume 171, case file sheets 76–79

Questioned as a witness, **Gahramanov Rashid Ibrahim oglu** gave testimony similar to that provided by **Najafov Gudrat Sahib oglu**.

Volume 171, case file sheets 81–84

According to **forensic medical expert conclusion No. 18/1624 dated 08.04.2022**, the bodily injuries sustained by **Ramazanov Ziyafaddin Nizamaddin oglu** — penetrating and blind wounds of the right upper extremity — are characteristic of injuries sustained as a result of gunshot wounds and are classified as **minor harm to health**.

Volume 327, case file sheets 1–253.

According to **forensic medical expert conclusion No. 18/1625 dated 08.04.2022**, the bodily injury sustained by **J. R. Shirvanov** — a penetrating wound to the soft tissues of the back — is characteristic of a gunshot wound and is classified as **minor harm to health**.

Volume 327, case file sheets 1–253

According to **forensic medical and forensic chemical expert conclusion No. MTB/1141-K dated 08.04.2022**, **Ramazanov Ziyafaddin Nizamaddin oglu** has blood group **O(I)**. Human blood was found on the jacket, tunic, civilian jacket, trousers and pair of boots. During determination of the blood group, only antigen **“H”** was detected. Thus, the indicated bloodstains may belong to a person with blood group O(I) under the ABO system, including **Ramazanov Ziyafaddin Nizamaddin oglu**, who also has this blood group. No suspicious bloodstains were found in the submitted throat swab. No narcotic or psychotropic substances were detected in the bloodstains taken from the physical evidence.

Volume 171, case file sheets 126–128

According to **forensic medical and forensic chemical expert conclusion No. MTB/1142-K dated 08.04.2022**, **Shirvanov Javid Rasul oglu** has blood group **A(II)** under the ABO system. Human blood was found on the submitted jacket, field coat, woolen jacket, undershirt, military trousers and T-shirt. During determination of the blood group, only antigen **“A”** was detected. Thus, the indicated bloodstains may belong to a person with blood group A(II) under the ABO system, including **Shirvanov Javid Rasul oglu**, who also has this blood group. No narcotic or psychotropic substances were detected in the bloodstains taken from the physical evidence.

Volume 171, case file sheets 137–140

According to **forensic ballistic expert conclusion No. 3/492 dated 11.05.2022**, the item constitutes a component involved in the firing of a **7.62×54 mm cartridge bullet**, intended for use as ammunition in **Mosin-system rifles, model 1891/1930, SKS carbines, and other rifled firearms of the same caliber**, with a nickel-plated coating. In its submitted condition, it is not considered ammunition and is unsuitable for its intended use.

Volume 171, case file sheets 102–103

According to **forensic ballistic expert conclusion No. 3/487 dated 13.05.2022**, the military field jacket, military field jacket and civilian jacket which, as stated, belong to **Ramazanov Ziyafaddin Nizamaddin oglu**, have damage, the dimensions and number of which are specified in the examination section of the report. Based on the shape and morphological structure of the damage, and taking into account the absence around the damage on the clothing of incompletely burned particles of smokeless powder, which constitute an additional factor of a shot, as well as the absence of metallic traces, the damage is characteristic of being struck by a bullet approximately **5 mm in diameter**, fired from a rifled firearm from a distance of more than **1.5 meters**.

Volume 171, case file sheets 104–107

According to **forensic ballistic expert conclusion No. 3/489 dated 13.05.2022**, the military winter field jacket, military tunic, military jacket and undershirt which, as stated, belong

to **Shirvanov Javid Rasul oğlu**, have damage, the dimensions and number of which are specified in the expert report. Based on the shape and morphological structure of the damage, and taking into account the absence around the damage on the clothing of incompletely burned particles of smokeless powder, which constitute an additional factor of a shot, as well as the absence of metallic traces, the damage is characteristic of a **military rifled firearm fired from a distance of more than 1.5 meters**, and was caused by the impact of bullets approximately...

Page 512

...7 millimeters in diameter as a result of two shots fired from a rifled firearm.

Volume 171, case file sheets 111–115

According to the **decision dated 24.06.2022**, the military winter jacket, military tunic, sweater, warm undershirt, trousers, warm underpants and neck scarf that were on **Shirvanov Javid Rasul oğlu** at the time of the incident; the military winter jacket, military tunic, jacket, trousers, warm underpants, neck scarf and one pair of soldier's boots that were found on **Ramazanov Ziyafaddin Nizamaddin oğlu** at the time of the incident; and the metal particle removed from the body of **Z. N. Ramazanov** during surgery were, due to their significance to the case, recognized as physical evidence and retained in the criminal case.

Volume 171, case file sheets 141–143

By **Order No. 250 dated 03.09.2021 of the commander of Military Unit No. 701 of the Ministry of Defense**, extended-service serviceman **Ramazanov Ziyafaddin Nizamaddin oğlu** was appointed as an operations engineer of the 1st group of the 3rd operational battalion of the 1st operational division of Military Unit No. 701.

Volume 171, case file sheet 250

By **Order No. 261 dated 13.09.2021 of the commander of Military Unit No. 701 of the Ministry of Defense**, Warrant Officer **Shirvanov Javid Rasul oğlu** was appointed commander of the mortar group of the 1st operational detachment of the 1st operational platoon of Military Unit No. 701.

Volume 171, case file sheet 11

Reconnaissance serviceman of the 1st group of the 4th operational platoon of the 4th operational detachment of the 2nd operational battalion of **Military Unit No. 701 of the Ministry of Defense of the Republic of Azerbaijan**, extended-service serviceman, Private **Guliyev Amid Aliverdi oğlu**, while organizing combat duty at a combat position located in the territory of the village of **Farrukh, Khojaly District**, at approximately **15:00 on 26.03.2022**, as a result of intense fire from automatic weapons and machine guns opened by unidentified servicemen of Armenian armed formations located at opposing positions, with the intent to deliberately deprive him of his life for the purpose of inciting national enmity and hostility, sustained serious, life-threatening injuries, but was not killed.

Due to the provision of medical assistance to the serviceman of Military Unit No. 701 of the Ministry of Defense and his evacuation to **Military Unit No. 056**, the criminal act could not be completed for reasons beyond the perpetrator's control.

According to a certificate received from **Military Unit No. 701**, it is not possible to inspect the scene, since the place where extended-service serviceman **Guliyev Amid Aliverdi oglu** sustained his injuries is under continuous fire from the Armenian armed forces.

Volume 224, case file sheet 11

According to the **inspection protocol dated 07.04.2022**, the military trousers of **Guliyev Amid Aliverdi oglu**, which had been sent from Military Unit No. 056 on 27.03.2022, were torn and had stains resembling blood. His underpants also had stains resembling blood; however, no traces or damage resembling blood were found on the camouflage uniform, jacket, T-shirt, sweater, football shirt or undershirt.

Volume 224, case file sheets 22–28

Questioned as a victim, **Guliyev Amid Aliverdi oglu** stated in his application that on **25.03.2022**, pursuant to the instruction of the commander of the military unit and under the leadership of the deputy commander of the military unit, together with the personnel of the **6th company of the 2nd battalion**, they advanced to positions opposite the village of **Farrukh, Khojaly District**, and remained there overnight.

At approximately **15:00 on 26.03.2022**, as a result of continuous fire from Armenian armed formations located in a wooded area on an elevation, he sustained **gunshot wounds to both legs below the knees**. He was evacuated to **Military Unit No. 056**, where he received medical assistance.

Page 513

Volume 224, case file sheets 37–39

Questioned as witnesses, **Lieutenant Alekserov Veli Hikmet oglu**, Deputy Commander of the 6th Company of the 2nd Battalion of Military Unit No. 701 for Personnel Affairs, and **Senior Sergeant Gasimov Dashgin Tofiq oglu**, a paramedic of the same company, confirmed the fact stated by the victim **Amid Guliyev**, giving statements of similar content.

Volume 224, case file sheets 49–52, 54–57

According to **forensic medical expert conclusion No. 670 dated 01.06.2022**, the bodily injuries sustained by **Guliyev Amid Aliverdi oglu** — open fractures of the upper third of the shaft of the right fibula; open, comminuted, displaced fracture of the head of the left fibula; and injuries accompanied by neuropathy of the left sciatic nerve, penetrating the upper third of both lower legs — were caused by a gunshot wound and are classified as **minor harm to health**.

Volume 224, case file sheets 75–76

According to **conclusion No. 23/MTB-1140/K dated 02.05.2022 of the comprehensive forensic medical, criminalistic and biological examination**, the blood group of **Guliyev Amid Aliverdi oglu** is **A(II)**. Human blood was found on the submitted military trousers and underpants. In determining the blood group, only antigen “A” was detected. Thus, the indicated bloodstains may belong to a person with blood group A(II) under the ABO system, including **Amid Aliverdi oglu**, who belongs to this group.

Volume 224, case file sheets 78–80

According to the **decision dated 24.06.2022**, the military trousers, underpants, tunic, jacket, undershirt, T-shirt, undershirt and socks that **Amid Guliyev** was wearing were recognized as physical evidence and are stored in the evidence room of the **Special Investigations Directorate**. The department of the Special Investigations Directorate.

Volume 224, case file sheets 83–84

The commander of the 2nd squad of the 2nd platoon of the engineering and fortification subunit of **Military Unit No. 707**, contract serviceman Private **Jamalzade Aykhan Mobil oglu**, at approximately **13:30 on 19.04.2022**, while on duty in the area of combat position **31A**, conventionally called “**Arif**,” located in the village of **Yenikend, Kalbajar District**, stepped on an anti-personnel mine planted by servicemen of the Armenian armed forces whose identities were unknown to the investigation and sustained “**traumatic amputation of the right lower extremity at the level of the middle third of the lower leg, accompanied by Grade I–II traumatic-hemorrhagic shock, grievous harm to health, and blind wounds to the soft tissues of the left lower leg**,” and was evacuated to **Military Hospital No. 524**.

According to the **inspection protocol dated 14.05.2022**, the military uniform of **Jamalzade Aykhan Mobil oglu** was inspected, photographed, and the photographs were attached.

Volume 173, case file sheets 27–34

It follows from the **certificate dated 19.04.2022** that, because the location where the incident occurred was a mined area and demining had not been carried out there, it was not possible to inspect it.

Volume 173, case file sheet 5

Questioned as a victim, the commander of the 2nd squad of the 2nd platoon of the engineering and fortification subunit of Military Unit No. 707, contract serviceman Private **Jamalzade Aykhan Mobil oglu**, stated in his testimony that at approximately **13:30 on 19.04.2022**, he moved away from the other soldiers in order to find a convenient route for movement and detected and marked **two mines using a mine detector**. As soon as he moved forward, there was an explosion and the blast threw him aside. He then went into shock for approximately 15 seconds, and when he regained consciousness, he saw that his right leg below the knee had been torn off. Servicemen who later arrived at the scene evacuated him from the scene to **Military Hospital No. 524**.

Volume 173, case file sheets 94–96

Questioned as witnesses, **Nuriyev Ramin Shahrza oglu, Bayramov Ramin Akif oglu, and Alizade Farid Anar oglu** stated in their testimony that on **19.04.2022 at approximately 12:30**, they conducted reconnaissance of the terrain approximately **800 meters from combat position 31A**, conventionally called “**Arif**,” located in the village of **Yenikend, Kalbajar District**, which had been liberated from occupation by Armenian military units after the Patriotic War.

At that time, alongside them were the commander of the 2nd squad of the 2nd platoon of the engineering and fortification subunit of Military Unit No. 707, **retired serviceman Private Jamalzade Aykhan Mobil oglu**, and other servicemen.

At approximately **13:30**, soldier **Alizade Farid Anar oglu**, who was on duty in mountainous, forested and rocky terrain, received a strong signal from the mine detector, and an explosion occurred **2–3 seconds later**. Since the sound of the explosion was very weak, they understood that it was an anti-personnel mine.

Later, they witnessed that Private **Jamalzade Aykhan Mobil oglu** had been seriously wounded in the right leg and that his leg was covered in blood. They then provided first aid to soldier Jamalzade Aykhan and evacuated him from the scene to **Military Hospital No. 524**.

Volume 173, case file sheets 70–73, 74–78, 81–85

According to **forensic medical expert conclusion No. 254 dated 24.04.2022**, the bodily injuries sustained by **Jamalzade Aykhan** — traumatic amputation of the right lower extremity at the level of the middle third of the lower leg, accompanied by Grade I–II traumatic-hemorrhagic shock, and blind wounds to the soft tissues of the left lower leg — were caused by the explosion of a substance possessing explosive properties; it cannot be ruled out that they occurred on **19.04.2022** under the circumstances described, and they are classified as **grievous harm to health resulting in the irreversible loss of more than one-third of total working capacity**.

Volume 173, case file sheets 65–66

According to **forensic ballistic examination conclusion No. 3/548 dated 25.05.2022**, the military trousers, black socks and left boot of **Jamalzade Aykhan** have damage of the quantity and dimensions specified in the report. Such damage is characteristic of the explosion of an anti-personnel mine and occurs at a distance close to the center of the explosion.

Volume 173, case file sheets 101–105

According to the **decision dated 06.07.2022 on recognition as physical evidence**, the military trousers, cut military jacket, sweater, scarf, cap, socks, soldier’s boot, part of a soldier’s boot and belt belonging to soldier **Jamalzade Aykhan Mobil oglu** were recognized as physical evidence and are stored in the storage facility of the **Special Investigations Directorate**.

Volume 173, case file sheets 107–108

According to an **extract from Order No. 91 of the commander of Military Unit No. 707 dated 30.03.2021**, Private **Jamalzade Aykhan Mobil oglu** commenced performing the duties of commander of the 2nd squad of the 2nd platoon of the engineering and fortification subunit of Military Unit No. 707.

Volume 173, case file sheet 15

The Chief of Staff of the 9th Border Commandant's Office of **Military Unit No. 2051 of the State Border Service**, Major **Abilov Vurgun Idris oglu**, at **10:20 on 18.04.2022**, while moving around the area in the course of establishing a new firing position at the **2nd combat border post**, located in the village of **Vejnali, Zangilan District**, sustained injuries as a result of stepping on an anti-personnel mine planted by servicemen of the Armenian armed forces whose identities were unknown to the investigation.

On **18 April 2022**, the scene of the incident was inspected by Assistant Qubadli Military Prosecutor **Seyfulla Bagirov**. The scene is located in the territory of the village of **Vejnali, Zangilan District**, at the **2nd combat border post of the 28th border outpost of the 9th Border Commandant's Office of Military Unit No. 2051...**

Page 515

...of the **Qubadli Separate Border Division**. The area is located at an altitude of **1,370 meters above sea level**. The **2nd border combat post** faces the Armenian positions and has a total of **five firing positions**.

Volume 225, case file sheets 4–25

Questioned as a victim, **Major Abilov Vurgun Idris oglu**, Chief of Staff of the 9th Border Commandant's Office of Military Unit No. 2051 of the State Border Service, stated in his testimony that at approximately **10:00 on 18.04.2022**, together with the commandant of the 9th Border Commandant's Office, where he served, **Captain Bayram Mammadov**, the commander of the support platoon, **Warrant Officer Mustafa Hasanov**, and soldiers of the combat support unit of the 9th Border Commandant's Office, he went to equip the firing position allocated to the **2nd border combat post**.

Having arrived at the border combat post at approximately **10:25**, Captain B. Mammadov, Warrant Officer M. Hasanov and a group of soldiers from the combat support unit proceeded toward the rock where the firing position was to be established. Suddenly, they heard an explosion and thought that it was mortar fire opened by Armenian soldiers. When he looked at his leg, he saw that his **right leg was missing below the knee and that the bone of his right foot was visible**.

Volume 225, case file sheets 84–87

Questioned as witnesses, **Mammadov Bayram Aydin oglu**, **Masiyev Sahil Maharram oglu**, and **Mehdizade Sahavat Ismayil oglu** gave similar testimony.

Volume 225, case file sheets 64–67, 68–70, 71–74

According to **forensic medical expert conclusion No. 424 dated 25.04.2022**, the bodily injuries sustained by **V. I. Abilov** — traumatic amputation of the middle third of the right lower leg and multiple shrapnel wounds of the left lower leg and foot — were caused by the effects of a blast wave and primary fragments formed as a result of the sudden detonation of any explosive substance, and constitute **grievous harm to health entailing a permanent loss of not less than one-third (50%) of total working capacity**.

Volume 225, case file sheets 62–63

According to **forensic ballistic expert conclusion No. 3/576 dated 01.07.2022**, the military-type trousers, left boots and pair of socks belonging to **V. I. Abilov** had damage, the quantity and dimensions of which are specified in the “Inspection” section. Based on the detection of traces of explosive substances (TNT) on the items of military clothing, as well as the shape, dimensions and morphological structure of the damage, the injuries in question are characteristic of injuries sustained as a result of the explosion of an explosive device (or devices) at a distance close to the center of the explosion, as well as as a result of the impact of fragments from the explosion.

Volume 225, case file sheets 107–110

According to the **decision dated 06.07.2022 on recognition as physical evidence**, the military field uniform trousers, warm undershirt, **left Thai military boot**, undershirt and two colored military socks were recognized as physical evidence and are stored in the **Special Investigations Department**.

Volume 225, case file sheets 111–112

At approximately **22:00 on 17.08.2021**, as a result of a violation of the ceasefire regime by the Armed Forces of Armenia in the direction of **Combat Position No. 31 of Military Unit No. 181**, located in the territory of the city of **Shusha**, Private **MirSadygov MirSadyg Miraga oglu**, a rifleman in the 1st company of the 2nd platoon of the 6th company of the 2nd battalion of the military unit, sustained a bodily injury accompanied by a “**wound to the intercostal region**,” the degree of severity of which was not established because it did not result in harm to health.

According to the **inspection protocol dated 16.06.2022**, the incident occurred at a place previously known as **Combat Post No. 31**, where the 3rd squad of the 3rd platoon of the 4th company of the 2nd battalion of Military Unit No. 181 was stationed, in the direction of the village of **Qaybali**, Shusha.

Page 516

The area serviced by the unit is now referred to as **Combat Position No. 20**. To reach this area, it is necessary to travel along the **Lachin–Khankendi road**.

Senior Lieutenant **Turan Huseynov**, who participated in the inspection, stated that although no large-scale construction or fortification works were being carried out at the location at the time of the incident, construction and fortification works are currently underway at the position, and metal baskets filled with earth and stones have been installed on the section facing the Armenians, with automobile tires placed on top of them.

Turan Huseynov showed them the valley from which the shots had been fired and the place where they had been standing. This distance was determined to be **26 meters**. Looking into the valley from the indicated position, it can be seen that the Armenian positions are located approximately **1,000 meters away in a straight line**.

Volume 175, case file sheets 57–65

Questioned as a victim, **MirSadygov MirSadyg Miraga oglu** stated in his testimony that on **17.08.2021 at approximately 4:00–5:00**, they heard footsteps coming from the ravine below their post. When **Turan Huseynov** illuminated that direction with a flashlight, he saw a person dressed in a black uniform and immediately gave the order to open fire.

At that time, **Eliyer Aydarov**, personal assistant to the commander of the 4th company, threw approximately **2–3 F-1 grenades** toward the valley, after which shots began to be fired from that location in the direction of where they were positioned. After the grenades had been thrown, groans and screams were heard from the valley.

Seeing that the bullets he was firing were going into the air, he moved **1–2 meters forward toward the valley** in order to fire more accurately. At that time, because of his agitation, his helmet slipped off his head and fell to the ground, but he continued firing without paying attention to it.

Although he felt heat on his forehead while firing, he thought that it was sweat. Shortly thereafter, when he put his hand to his forehead and looked at it in the moonlight, he saw blood. Several minutes later, the shooting stopped, and when he reported that he had been wounded, the **battalion chief of staff** approached him and examined his wound. After some time, in a condition described as a **“severe injury,”** he was transported to a hospital in the city of **Shusha** in a **UAZ** vehicle that had arrived at the scene.

Volume 175, case file sheets 69–72

Questioned as witnesses, **Huseynov Turan Firuddin oglu, Mekhtiyev Anvar Ansar oglu, and Abdullayev Namig Gahraman oglu** gave testimony of the same content as victim **MirSadygov MirSadyg Miraga oglu**, confirming the circumstances stated by the latter.

Volume 175, case file sheets 45–48, 49–52, 53–56

According to the **forensic medical expert conclusion**, the injury to the groin region sustained by **MirSadygov MirSadyg Miraga oglu** was caused by at least one gunshot wound and, since it did not cause harm to health, the degree of harm to health was not established.

Volume 175, case file sheets 32–33

On **26.07.2022 at approximately 17:00**, the commander of **Military Unit No. 707, Colonel Isbandiyarov Vugar Tofiq oglu**, while conducting observation within the service area of the **“KS-1” combat position, code-named “Kontur,”** of the 1st battalion, located in the village of **Jamilli, Kalbajar District**, sustained injuries as a result of the explosion of a mine previously planted by unidentified servicemen of the Armed Forces of Armenia for the

purpose of inciting national discord or enmity. The English spelling *Jamilli* is also used by Azerbaijan's state news agency for this village.

The injuries, taken as a whole, constituted **grievous bodily harm dangerous to life: “traumatic amputation of the left lower extremity at the level of the lower third of the lower leg, accompanied by Grade III–IV traumatic-hemorrhagic shock; open, comminuted, displaced fractures of the lower third of the right tibia; a laceration with an extensive tissue defect of the medial ankle and the dorsum of the foot; closed craniocerebral trauma accompanied by concussion; and bilateral acute cochlear neuritis resulting from barotrauma.”** He was evacuated to a military hospital.

Questioned as a victim, **Isbandiyarov Vugar Tofiq oğlu** stated in his testimony that at **07:00 on 26.07.2022**, information was received that...

Page 517

...that **Deputy Minister of Defense and Commander of the Ground Forces Enver Efendiyev** would inspect combat position “**KS-1**,” code-named “**Kontur**.” That day, while sitting in his official vehicle, meeting with members of the senior command and jointly inspecting the combat position designated “**KS-1**,” battalion commander **Major Mahir Javadov**, who was moving ahead, reported that he had seen a mine, whereupon the people at the scene immediately stopped and remained motionless.

He attempted to use his telephone to determine the coordinates of the place where the mine had been planted, and suddenly his foot shifted by **1–2 centimeters**, which caused the anti-personnel mine to explode and inflicted serious bodily injuries on him.

Volume 177, case file sheets 68–72

Questioned as a witness, **Gurbanov Ravan Yadullahovich**, Assistant Chief of the Operational-Combat Department of Military Unit No. 707 for Combat Training, stated in his testimony that at approximately **16:00 on 26.07.2022**, the commander of Military Unit No. 707, **Colonel Vugar Isbandiyarov**, departed in an official vehicle to meet with the senior command and take them to the combat positions for inspection.

Because the vehicle in which the command had arrived broke down on the road, he and Warrant Officer **Hafiz Valiyev** remained beside the disabled vehicle, while the members of the senior command got into Vugar Isbandiyarov's vehicle and departed.

At approximately **17:00**, they learned that a mine had exploded and that Vugar Isbandiyarov had been wounded. They met the vehicle in which he was being transported and evacuated him by ambulance to a hospital.

Volume 177, case file sheets 21–24

Questioned as a witness, serviceman **Javadov Mahir Amirkhan oğlu** gave testimony similar to that of the victim **Vugar Isbandiyarov**.

Volume 177, case file sheets 26–29

According to **forensic medical expert conclusion No. 436 dated 26.07.2022**, the bodily injuries sustained by **Vugar Isbandiyarov** — “traumatic amputation of the left lower extremity at the level of the middle third of the lower leg, accompanied by Grade III–IV traumatic-hemorrhagic shock; open, comminuted, displaced fractures of the lower third of the right tibia; a lacerated wound with an extensive tissue defect of the medial ankle and dorsum of the foot; closed craniocerebral trauma accompanied by concussion; and bilateral acute cochlear neuritis resulting from barotrauma” — are characteristic of the effects of a blast wave generated by the explosion of explosive ordnance, both primary and secondary, as well as of a blunt mechanism, and by degree of severity are classified as **grievous harm to health**.

Volume 177, case file sheets 83–84

According to **forensic medical examination conclusion No. 3/1387 dated 04.11.2022**, particles of explosive substance (TNT) and incompletely burned smokeless powder were found on **Vugar Isbandiyarov’s military clothing**.

Volume 177, case file sheets 88–91

According to the **decision dated 14.11.2022 on recognition as physical evidence**, the military field jacket, military field trousers, short-sleeved shirt and black waist belt were recognized as physical evidence and are stored in the evidence room of the **Department for Particularly Important Investigations**.

Volume 177, case file sheets 92–93

According to **forensic medical expert conclusion No. 09 dated 04.08.2022**, examination of the body of **Kazimov Anar Rustam oglu** revealed the following bodily injuries:

1. Acute blood loss; multiple open fractures of the left femur; one penetrating wound of the left thigh, with an entrance wound located on the outer surface of the upper third of the left thigh and an exit wound located on the inner surface, accompanied by damage to the femoral artery. The injury is life-threatening, is characteristic of a firearm injury inflicted from a long distance, from left to right, shortly before death, without the influence of additional factors of the shot, and constitutes an injury causing **grievous harm to health**.

Page 518

2. A single penetrating wound of the soft tissues of the right lateral wall of the chest; the entrance wound is located on the right lateral wall of the chest, in the projection of the **fifth rib along the posterior axillary line**, and the exit wound is an opening located **3.5 centimeters** from that wound. It is of vital significance. It is characteristic of a long-range gunshot wound, without regard to additional factors, produced by a firearm in a front-to-back direction shortly before death, and constitutes an injury causing **less serious harm to health**.

3. An entrance-and-exit gunshot wound located in the left subscapular region, constituting a single penetrating wound of the soft tissues of the posterior surface of the left half of the chest. It is of vital significance. It is characteristic of a gunshot wound that arose **shortly before the moment of the shot**, was not affected by additional factors of the firearm, and constitutes an injury causing **less serious harm to health**.

4. One penetrating wound to the upper left side of the back. It is of vital significance. It is characteristic of a gunshot wound sustained shortly before death and constitutes an injury causing **minor harm to health**.

5. One penetrating wound of the **left foot**, accompanied by multiple open fractures of the **second metatarsal bone**, with an entrance wound on the upper surface of the left foot and an exit wound on the lower surface. It is of vital significance. It is characteristic of a gunshot wound caused by a firearm from front to back shortly before death, from a distance at which the additional factors of the shot had no effect, and constitutes an injury causing **less serious harm to health**.

The Russian original uses the word «пана» (“paw”) in this paragraph; “foot” is used here because the same passage refers to the metatarsal bone.

6. Left-sided hemopneumothorax (accumulation of free blood and air in the thoracic cavity), injury to the left lung, on the left along the first rib line. Blunt trauma to the chest accompanied by displaced fractures of the **fourth, fifth, sixth and seventh ribs**, the left lateral projection of the **sixth thoracic vertebra**, the body of the **seventh thoracic vertebra**, injury to the thoracic spinal cord, and multiple contusions and lacerations of the posterior surface of the chest; multiple contused and lacerated wounds of the left temple and right cheekbone, left lumbar region, region of the right elbow joint, dorsum of the right hand and both knee joints; abrasions on the forehead, right temple, right cheekbone, right cheek, nose, left cheekbone, chin and submandibular region were caused by a blunt mechanism or impact with a hard blunt object. They are of vital significance. The injuries are described as “**characteristic of birth shortly before death**” in the Russian text and constitute signs of injuries causing **serious harm to health**.

During examination of the body, the following were found: brownish-yellow and yellowish-reddish abrasions with a dried surface and irregular edges, measuring **7 × 4.3 cm** in the lumbar projection of the spine; **11 × 4.5 cm** in the anterior gluteal region; **6 × 2 cm**, **9.5 × 0.5 cm** and **8 × 0.4 cm** on the lateral surface of the left elbow region and in the projection of the left iliac crest; on the posterior surface of the left thigh; on the inner surface of the lower third of the right thigh; on the outer surface of the upper third of the left lower leg; on the outer surface of the lower third of the left thigh; and on the anterior surface of the upper third of the right lower leg, the largest measuring **7 × 4 cm** and the smallest **2 × 1 cm**.

The noted abrasions are characteristic of a blunt mechanism resulting from friction of the injured area against a hard blunt object. They were **not vital injuries** and correspond to **post-mortem trauma**.

The cause of death was **acute blood loss resulting from a penetrating gunshot wound of the left...**

Page 519

...thigh, accompanied by multiple open fractures of the femur and damage to the femoral artery.

Volume 229, case file sheets 140–147

According to **forensic medical expert conclusion No. 1138 dated 01.09.2022**, apart from a combined penetrating gunshot wound to the anterior surface of the right buttock and the upper third of the right thigh, accompanied by post-traumatic neuropathy of the right femoral nerve and a through fracture of the neck of the right femur, **Agaev Huseyn Fazil oglu** had no other injuries or signs of trauma. These injuries were caused by a firearm and constitute **serious harm to health**.

Volume 229, case file sheets 96–97

According to **forensic medical expert conclusion No. 1499 dated 02.11.2022**, the gunshot wound penetrating the soft tissues of the upper third of the outer surface of the right arm of **Hasanov Yusif Arastun oglu** was caused by a firearm injury. Since the injury did not cause harm to health, its degree of severity was not determined.

Volume 240, case file sheets 55–56

According to **forensic medical examination conclusion No. 44-tkb dated 13.08.2022**, the mechanism of formation of the bloodstains found on the physical evidence was as follows: the stains over the entire surface of each item of camouflage trousers, underwear and the pair of socks are absorption stains formed as a result of superficial static and low-intensity dynamic contact with a source of blood (a blood-stained surface). The stains over the entire surface of the short-sleeved shirt are absorption stains formed as a result of static contact with a source of blood (a blood-stained surface) and physical-capillary factors. The stains over the entire surface of the pair of boots are smear stains formed as a result of dynamic contact with a source of blood (a blood-stained surface).

Volume 240, case file sheets 35–36

According to **forensic medical examination conclusion No. 51-tkb dated 13.10.2022**, the mechanism of formation of the bloodstains found on the physical evidence was as follows: the stains on the lower right and left halves of the front surface of the tunic, on the lower surface of the back and on both sleeves, as well as over the entire surface of the trousers, were caused by the surface being static and slightly **[the sentence is incomplete in the original]**. These are absorption stains formed as a result of dynamic contact.

The stains over the entire surface of the lower undershirt are absorption stains formed as a result of static contact with a source of blood (a blood-stained surface) and physical-capillary factors. The stains on one surface of the belt and over the entire surface of the pair of boots are smear stains formed as a result of dynamic contact with a source of blood (a blood-stained surface).

Volume 240, case file sheets 32–33

According to **forensic biological examination conclusion No. 50-mtb dated 13.10.2022**, the blood group of **Kazimov Anar Rustam oglu** under the ABO system is **O(I)**. Human blood was found on the military uniform, short-sleeved shirt, military trousers with a waist belt, pair of socks and pair of boots belonging to Anar Rustam oglu Kazimov. When the blood group was determined, antigen “**H**” was detected. Thus, the indicated bloodstains may belong to a person with blood group O(I) under the ABO system, including **Kazimov Anar Rustam oglu**, who belongs to this blood group.

Volume 240, case file sheets 38–40

According to **forensic biological examination conclusion No. 54-mtb dated 13.10.2022**, the blood group of **Agaev Huseyn Fazil oglu** is **AB(IV)**. Human blood was found on his military uniform, military trousers, underwear, belt and pair of boots. When the blood group was determined, only antigens “A” and “B” were detected. The indicated bloodstains may belong to a person with blood group **AB(IV)**...

Page 520

...under the ABO system, including **Agaev Huseyn Fazil oglu**, who belongs to this blood group. No suspicious bloodstains were found on the cap, neckerchief or scarf.

Volume 240, case file sheets 42–44

According to **comprehensive forensic ballistic and trace examination conclusion No. 3/1154; 3/1155 dated 21.10.2022**, bullet No. 1 submitted for examination is part of a cartridge used in firing and is a factory-manufactured military cartridge bullet intended for use in **Kalashnikov AK-47, AKM and AKMS assault rifles** of the same caliber, **7.62 millimeters**. Bullets of this type form part of a **7.62×39 mm cartridge**; when fired from a weapon, the distance at which the bullet retains lethal force is **1,350 meters**, while the maximum range of the bullet is **3,000 meters**.

Volume 240, case file sheets 20–25

Questioned as the **legal successor of the victim**, **Kazimov Eynur Rustam oglu** stated in his testimony that at approximately **15:00 on 03.08.2022**, while he was at home in the village of **Garajamirli, Shamkir District**, representatives of the village executive authority informed him that his brother **Anar Kazimov** had died as a result of fire opened by members of illegal Armenian armed formations on the territory of Azerbaijan, where the **temporary Russian peacekeeping contingent** was deployed, while he was performing official duties in the **Lachin District**.

Later, on **04.08.2022**, together with family members and relatives, they went to the **Ganja Department of Forensic Medical Examination and Pathological Anatomy of the Ministry of Health** and received the body of his brother **Anar Kazimov**. After that, his brother **Anar Kazimov** was buried in the cemetery of the village of **Garajamirli, Shamkir District**.

Volume 229, case file sheets 77–81

Questioned as a victim, **Agaev Huseyn Fazil oglu** stated in his testimony that at approximately **18:00–20:00 on 02.08.2022**, under the command of Lieutenant **Mammadyarov Sanan Sharbala oglu**, who served as platoon commander in the 6th company in which he served, a group of **eight persons** moved toward a presumed combat position in the direction of the **Sarybaba height in the Lachin District**.

While moving in the direction of the temporary location of the **peacekeeping contingent of the Russian Federation**, he was wounded in the right shoulder by members of illegal Armenian armed formations. The bullet entered the right shoulder and exited from the front.

A doctor who arrived at the scene provided him with first aid. He was initially evacuated by a military ambulance to the medical station of the military unit, from there to **Military Hospital No. 524 of the Ministry of Defense in the city of Kalbajar**, then to **Military Hospital No. 230 of the Ministry of Defense in the city of Ganja**, and finally to the **Main Clinical Hospital of the Ministry of Defense in Baku**.

Volume 229, case file sheets 53–59

Questioned as a victim, **Hasanov Yusif Arazdun oglu** stated in his testimony that they began moving toward that height at noon on **02.08.2021** and moved toward it for approximately **40 minutes**. [The year 2021 is stated in the original.]

Meanwhile, Armenian separatist forces positioned on another height in that area prevented them from advancing toward that height, firing machine guns and automatic weapons from the combat positions of **Armenian armed units Nos. 174 and 175** and preventing them from advancing toward the height.

A firefight then broke out, during which a bullet fired by the Armenian armed forces grazed the upper part of his arm. Lieutenant **Israil Badalov**, who arrived at the scene, provided him with first aid and bandaged his arm, after which they returned to **combat position LM-13** and remained there.

On **03.08.2022**, they saw that the **Russian peacekeeping forces** had positioned armored personnel carriers at the position they had intended to fortify and that a Russian flag was flying above the vehicles. Therefore,...

Page 521

...no further fire was opened in that direction, and he was later taken to the battalion's location, where he received medical assistance.

Volume 229, case file sheets 2–4, 9–11

Questioned as a witness on **07.10.2022**, **Mammadyarov Sanan Sharbala oglu** stated that at approximately **18:00–20:00 on 02.08.2022**, while moving toward the combat position designated **LM-21**, in the direction of the **Sarybaba heights in the Lachin District**, members of illegal Armenian armed formations located in the territory of Azerbaijan, where the **peacekeeping contingent of the Russian Federation** was temporarily stationed, began firing in their direction.

As a result of the fire opened by members of illegal Armenian armed formations in the territory of Azerbaijan, where the Russian peacekeeping contingent was temporarily stationed, soldier **Agaev Huseyn Fazil oglu** sustained a gunshot wound to the right side of his body. The bullet entered the right side of his body and exited from the front.

He immediately provided first aid to soldier Huseyn Agaev at the scene so that he would not lose a large amount of blood and applied a tourniquet to his right leg. After the incident, he immediately reported it to the higher command, and after medical personnel who arrived at the scene provided first aid to soldier Huseyn Agaev, he was evacuated to the medical station of the military unit by military ambulance.

The remaining **seven persons** continued on their way. That same day they reached the combat position conventionally designated **LM-21**, in the direction of the Sarybaba heights in the Lachin District.

At approximately **08:00 on 03.08.2022**, while they were performing combat duty at combat position LM-21, members of illegal Armenian armed formations located in the territory of Azerbaijan, where the Russian peacekeeping contingent was temporarily stationed, again opened fire in their direction.

As a result of the fire, soldier **Kazimov Anar Rustam oglu** fell to the ground after sustaining a gunshot wound to the lower abdomen. Blood was flowing heavily from the gunshot wound. At that time, they were under intense fire from members of the Armenian armed formations and therefore had no opportunity to reach the wounded soldier Anar Kazimov.

Anar Kazimov rolled approximately **5–6 meters** and stopped. At that moment, he quickly came out of cover and moved three steps to the right, attempting to catch Anar Kazimov. As a result of fire from members of the Armenian armed formations, Anar Kazimov sustained a second gunshot wound to his **right side, in the hypochondriac region**.

After sustaining the second gunshot wound, he rolled down approximately **2–3 meters** from the place where he had been and stopped again. After receiving the second gunshot wound, he completely lost consciousness, his arms became numb, his eyes closed, and he died approximately one minute later.

After his death, his lifeless body rolled approximately **20 meters** and fell onto rocks approximately **60–70 meters below the cliff**. Following the incident, the higher command was immediately informed through official channels, and Anar Kazimov's body was removed from the scene and evacuated by representatives of the military unit who arrived there.

Mekhtiyev Kenan Nabi oglu, Mammadov Elgun Firat oglu, and Rashidov Anar Alik oglu gave statements of the same content and confirmed the testimony of **Mammadyarov Sanan Sharbala oglu**.

Volume 229, case file sheets 98–102, 108–112, 113–117, 118–122

Pursuant to the **decision dated 24.11.2022**, the black belt, belt, underwear, long-sleeved shirt, undershirt, pair of socks, pair of soldier's boots that had been on **Kazimov Anar Rustam oglu**, and the bullet, together with the other items found on him, as well as the coveralls, trousers, waist belt, scarf, cap, neckerchief, undershirt and pair of soldier's boots that had been on serviceman **Agaev Huseyn Fazil oglu** at the time of the incident, were recognized as physical evidence and transferred for storage to the evidence room of the **Special Investigations Directorate**.

Volume 240, case file sheets 45–46

Page 522

The commander of the **7th company of the 3rd battalion of Military Unit No. 707**, stationed in the **Kalbajar District, Aliyev Babek Asker oglu**, at approximately **16:00 on 05.08.2022**, while moving within the service area of the newly occupied combat position

code-named **3M-3**, in the eastern part of the Kalbajar District, detonated two anti-personnel mines previously planted by representatives of the Armed Forces of Armenia whose identities were unknown to the investigation, sustained various **life-threatening injuries constituting grievous harm to health**, and died on the way to the military hospital.

It follows from the **protocol dated 05.08.2022**, drawn up by investigator of the Kalbajar Military Prosecutor's Office **Abdurahimli Togrul Natig oglu**, that it was not possible to conduct an inspection because the scene of the incident was a mined area.

Volume 178, case file sheet 5

Questioned as a witness and the legal successor of the victim, **Aliyev Asker Bayram oglu** stated that his son **Babek Aliyev** served as a company commander in a military unit located in the Kalbajar District. He learned of his son's death as a result of a mine explosion from a representative of the command who came to his home on **05.08.2022**.

His son's body was handed over to him on **06.08.2022**, and he was subsequently buried in the cemetery of the village of **Leketag, Julfa District, Nakhchivan Autonomous Republic**.

Volume 178, case file sheets 95–97

Questioned as a witness, **Major Samedov Ruslan Vahid oglu**, Assistant Chief of the Engineering Support Department of **Military Unit No. 193**, stated that at approximately **16:00 on 05.08.2022**, when he wanted to go to meet equipment that was to be used in the construction of a supply road while moving from combat position **3M2** toward combat position **3M3**, Babek Aliyev wanted to accompany him in order to become better acquainted with the area where the division was located.

After approaching the equipment, which was approximately **600 meters away**, he stopped when he heard the sound of a mine detector, and at that moment **two explosions occurred one after another**, as a result of which he was knocked to the ground by the blast wave.

When he called out to Babek Aliyev, the latter said that he had been wounded and could not move. After neutralizing **three mines** in the direction in which they were moving, he provided first aid to him and assisted in evacuating him from the scene. The mines on which Babek Aliyev was killed had been planted by **Armenian armed formations**.

Volume 178, case file sheets 54–58

Questioned as a witness, **Mamiev Vusal Gulhuseyn oglu** gave testimony similar to that of witness **Ruslan Samedov**.

Volume 178, case file sheets 46–49

According to **forensic ballistic and firearms examination conclusion No. 3/1214 dated 30.09.2022**, the field trousers, long-sleeved shirt, T-shirt, socks and the right side of the military boot have damage, the dimensions of which are specified in the inspection section. It is possible that these injuries were caused by a **mine explosion**.

Volume 178, case file sheets 71–75

According to **forensic medical expert conclusion No. 12 dated 06.08.2022, Babek Aliyev** had the following injuries: injury to the left kidney; a blind wound penetrating the cavity of the left lateral abdominal wall, accompanied by internal bleeding; a blind wound in the region of the left elbow joint accompanied by damage to the major arteries of the left upper extremity, acute bleeding and multiple open fractures of the diaphysis, ulna and humerus; a blind wound of the right lower leg accompanied by a shrapnel wound and open fractures of the tibia and fibula; a blind wound of the right foot accompanied by a shrapnel wound and open fractures of the first metatarsal bone and calcaneus; multiple puncture wounds of the soft tissues of the left side of the waist, left lateral wall of the abdomen, scrotal wall, left arm and ring finger...

Page 523

...of the left arm, both thighs, both knee joints, both calves and the right foot. These injuries are characteristic of the consequences of exposure to flame, a blast wave and fragments formed during the explosion of explosive military munitions. It is indisputable that this occurred during the mine explosion on **05.08.2022** and constituted injuries causing **grievous harm to health and ultimately resulting in death.**

Volume 178, case file sheets 82–86

By a **decision dated 14.10.2022 of Emil Agayev, Senior Investigator for Particularly Important Cases of the Department for Particularly Important Cases**, the military field trousers, long-sleeved shirt, T-shirt, civilian trousers, socks, a pair of military boots and a green belt were recognized as physical evidence and transferred to the evidence room.

Volume 178, case file sheet 76

At approximately **11:00 on 05.08.2022**, personnel of the 2nd battalion of **Military Unit No. 769 of the Ministry of Defense — Khudiyev Samir Samed oglu, Aliyev Tahir Chingiz oglu and Warrant Officer Israfilov Elkhaz Eldar oglu** — while moving toward the **Sarybaba heights** in the area of the village of **Khyrmanlar, Lachin District**, to carry out a combat mission under the command of the battalion commander, **Major Hasanov Elnur Elchin oglu**, were struck when servicemen of the Armenian armed formations holding a position there, whose identities were unknown to the investigation, deliberately pushed a large piece of rock onto the servicemen moving along the foot of the hill.

Private **S. S. Khudiyev** died at the scene from injuries that caused grievous harm to health — **“a subaponeurotic hematoma of the parietal region, damage to the aponeurosis, subarachnoid hemorrhage in both parieto-occipital lobes of the brain, contusions of the left crown of the head and both temporal regions, closed craniocerebral trauma accompanied by contusions of both periorbital regions, damage to the right lung, hemorrhage into the tissue of the left lung, right-sided closed hemopneumothorax, a closed fracture of the 7th rib on the right, subcapsular hematomas of the liver and spleen, closed blunt trauma to the chest and abdomen with hemorrhage into the pancreatic tissue, multiple abrasions on the forehead, left cheekbone, right and left infraorbital regions, nasal region, both earlobes, back of the neck, back of the torso, both shoulder girdles, both upper extremities, left thigh and the region of the right knee joint.”**

Private **T. Ch. Aliyev** sustained grievous bodily injuries dangerous to life — “**hematomas of both parietal lobes and the right frontal lobe of the brain, contusions and lacerations of both parietal lobes, the left temple and occipital region, contusions of the right periorbital region and the left upper eyelid, hemorrhage into the sclera of the right eyeball, closed craniocerebral trauma accompanied by lacerated wounds of the crown of the head, both temples, both cheekbones, the nose, submandibular region and forehead, as well as damage to the left lung, closed blunt trauma to the chest with left-sided closed hemopneumothorax, subcapsular renal hemorrhage, a comminuted, displaced, closed fracture of the lower third of the left humerus, dislocation of the left elbow joint, abrasions in both lumbar regions, the right thigh and both knee joints, multiple abrasions on the neck, right shoulder, lower back, both arms and thighs, the dorsal surfaces of both hands, right buttock, lower leg and left foot,**” and died from the injuries sustained while being evacuated to hospital.

Warrant Officer **E. E. Israfilov** sustained a **contused-incised wound and subcutaneous hematoma of the left lower leg**, which resulted in a short-term health disorder.

On **05.08.2022**, Deputy Military Prosecutor of Qubadli **Tofiqi Fuad Valeh oglu** inspected the body and clothing of serviceman of Military Unit No. 769 of the Ministry of Defense, Private **Khudiyev Samir Samed oglu**, who had died while performing his official duties at the **Sanbaba height in the Lachin District** at approximately 11:00 on 05 August 2022.

Volume 230, case file sheets 7–33

Page 524

Questioned as a victim, commander of the 2nd operational group of the 3rd platoon of the 3rd company of the 2nd battalion of Military Unit No. 769 of the Ministry of Defense, Warrant Officer **Israfilov Elkhas Eldar oglu**, stated in his testimony that at approximately **11:00 on 05.08.2022**, in the morning, they were moving along a steep rocky mountain where combat position **L-21** was located.

However, approximately **150–200 meters** before reaching their combat position, servicemen of the Armenian armed formations threw from their combat position a piece of rock approximately **1 meter wide and 1.5 meters long** toward them. The stone fragment split into three large pieces immediately before reaching them, and although they tried to avoid them, these pieces struck two servicemen from the operational group who had come to assist them — **Samir Khudiyev and Tahir Aliyev** — in the abdomen and head and knocked them off the steep cliff.

Another piece of rock struck him in the left leg, and although he nearly fell from the cliff, he managed to grab onto the rocks and remain there with difficulty. At that time, soldier **Samir Khudiyev** died, while soldier **Tahir Aliyev** died on the way during evacuation.

Volume 230, case file sheets 80–83, 88–90

Questioned as the legal successor of the victim, **Khudiyev Samed Jamil oglu**, stated in his testimony that at approximately **01:30 on 06.08.2022**, the body of his son **Samir Khudiyev** was delivered to the **Ramana Sudchulug-Sovkhoz settlement of the Sabunchu District of Baku**, where he resided.

Volume 230, case file sheets 114–116

Questioned as the legal successor of the victim, **Aliyev Chingiz Tahir oğlu**, stated in his testimony that his son **Tahir** died at approximately **11:00 on 05.08.2022** as a result of a provocation committed by Armenian armed formations in the **Lachin District**.

Volume 230, case file sheets 124–126

Questioned as witnesses, commander of the 2nd operational group of the 3rd platoon of the 3rd company of the 2nd battalion of Military Unit No. 769 of the Ministry of Defense, Warrant Officer **Israfilov Elkhass Eldar oğlu**; commander of the 2nd operational battalion of Military Unit No. 769, Major **Hasanov Elnur Elchin oğlu**; scout of the 2nd group of the 3rd platoon of the 1st operational detachment of the 2nd operational battalion of Military Unit No. 769, Private **Huseynov Namig Samir oğlu**; reconnaissance sniper of the 1st group of the 2nd platoon of the 1st operational detachment of the 2nd operational battalion of Military Unit No. 769, Private **Abdullayev Sadyg Aladdin oğlu**; and scout of the 1st group of the 4th platoon of the 1st operational unit of the 2nd operational battalion of Military Unit No. 769, Private **Manafov Mirzakhan Shukur oğlu**, gave testimony similar to that of Warrant Officer **Israfilov Elkhass Eldar oğlu**.

Volume 230, case file sheets 91–93, 94–96, 103–105, 106–108

According to **forensic medical expert conclusion No. 10 dated 24.09.2022**, the bodily injuries identified during examination of the body of **Khudiyev Samir Samed oğlu** — **a subaponeurotic hematoma of the parietal region, damage to the aponeurosis, subarachnoid hemorrhage in both parieto-occipital lobes of the brain, crushed wounds of the left parietal and both temporal regions, closed craniocerebral trauma accompanied by contusions of both periorbital regions, damage to the right lung, hemorrhage into the tissue of the left lung, right-sided closed hemopneumothorax (accumulation of free blood and air in the thoracic cavity), a closed fracture of the 7th rib on the right, subcapsular hematomas of the liver and spleen, closed blunt trauma to the chest and abdomen with hemorrhage into the pancreatic tissue, multiple abrasions on the forehead, left cheekbone, right and left periorbital regions, nasal region, both earlobes, back of the neck, back of the torso, both shoulder girdles, both upper extremities, left thigh and left knee joint** — are characteristic of injuries sustained as a result of blunt mechanisms or impact with a hard blunt object.

The cause of death was **closed blunt trauma to the chest combined with damage to the right lung, hemorrhage into the tissue of the left lung, right-sided closed hemopneumothorax and a closed fracture of the 7th rib on the right**.

Page 525

Volume 230, case file sheets 148–152

According to **forensic medical expert conclusion No. 11 dated 24.09.2022**, the bodily injuries identified during the examination of the body of **T. Ch. Aliyev** — **hematoma of both parietal regions and the right frontal lobe of the brain; contusions and lacerations of both ears, the left occipital and maxillary regions, as well as the right eyebrow region; contusion of the right periorbital region and the left upper eyelid; hemorrhage into the sclera of the right**

eyeball; contusions of the parietal region, forehead, both cheekbones, nose and submandibular region; as well as injury to the left lung resulting from closed craniocerebral trauma; closed blunt trauma to the chest accompanied by left-sided closed hemopneumothorax (accumulation of free blood and air in the thoracic cavity); subcapsular hemorrhage into the left kidney; closed displaced fractures of the lower third of the left humerus; dislocation of the left elbow joint; abrasions of both lumbar regions and both knee joints on the right side; multiple abrasions on the neck, right shoulder, right lumbar region, both arms and the left thigh, the dorsal surfaces of both hands, the right buttock, both calves and the left foot — are characteristic of injuries sustained as a result of blunt mechanisms or impact with a hard blunt object.

The cause of death was **closed blunt trauma to the chest accompanied by left-sided closed hemopneumothorax (accumulation of free blood and air in the thoracic cavity) and injury to the left lung**. Based on the dynamics of the development of the signs of death, death occurred **4–8 hours before examination of the body in the morgue**.

Volume 230, case file sheets 157–162

According to **forensic medical expert conclusion No. 480 dated 24.09.2022**, the bodily injuries sustained by **E. E. Israfilov** — a contused laceration of the left lower leg and a subcutaneous hematoma — are characteristic of trauma caused by a blunt object or impact with a hard blunt object and, by degree of severity, are generally classified as **minor harm to health causing a short-term health disorder**.

Volume 230, case file sheets 154–155

According to **forensic medical examination report No. 1/3308 dated 11.11.2022**, the surfaces of three pairs of military trousers, a military helmet, a T-shirt and a scarf bear numerous areas of damage of various shapes and sizes, as described in the examination section. These injuries are typical of lacerations and abrasions caused by impact with any hard object.

The damage to the surfaces of the three pairs of military trousers, military helmet, T-shirt and scarf could have been caused under the circumstances specified in the descriptive part of the decision. The injured persons could have been in different positions at the moment of impact involving the three pairs of military trousers, military helmet, vest and the “surface of the fog,” as well as any hard object. No damage resulting from hand-to-hand combat was found on the items of clothing submitted for examination.

Volume 230, case file sheets 164–168

According to the **decision dated 16.11.2022 on recognition as physical evidence**, the helmet, short-sleeved shirt, trousers, jacket, one pair of socks and one pair of boots belonging to **Khudiyev Samir Samed oglu**; the trousers and jacket belonging to **Aliyev Tahir Chingiz oglu**; and the trousers belonging to **Israfilov Elkhass Eldar oglu** were recognized as physical evidence and are stored in the evidence storage chamber of the **Special Investigations Department**.

Volume 230, case file sheets 169–170

At approximately **06:00–08:00 on 25.05.2021**, about **140 servicemen of the Armed Forces of Armenia** launched an offensive with the aim of seizing the combat position conventionally called “**Tanker-5**,” located in the village of **Zar, Kalbajar District**, crossed the state border of the Republic of Azerbaijan from the direction of that village, and attacked **17 servicemen of the 1st Company of the 1st Mountain Battalion of Military Unit No. 191** and **10 servicemen of Military Unit No. 196** serving at that position.

At that time, servicemen of Military Unit No. 191, **Captain Ilkin Yusifov** and **Private Ali Imanov**, and servicemen of Military Unit No. 196, **Senior Lieutenant Orkhan Jabbarli**, **Warrant Officer Eshgin Rahimov**, and others who attempted to prevent the attack on the servicemen, were slapped, kicked and struck with helmets on various parts of their bodies, and force was used against them.

Page 526

Questioned as a victim, **Huseynov Jamal Bahram oglu** stated in his testimony that at approximately **08:00 on 25.05.2021**, the soldier on duty, **Ali Imanov**, informed them that Armenian servicemen were rapidly advancing toward the combat position.

He saw **two KamAZ trucks, two Ural trucks, one UAZ ambulance and one GAZ-3308 truck** parked on the road approximately **70 meters from the position**, as well as approximately **150 Armenian servicemen**, who, judging by their uniforms, appeared ready to perform various tasks and were rapidly moving toward their combat positions.

When they approached the Armenian servicemen and told them not to enter the position, the latter ignored them and continued moving, whereupon they attempted to resist them by punching and kicking them.

When **Captain Ilkin Yusifov** punched an Armenian serviceman and knocked him to the ground, several Armenian servicemen punched and kicked Captain Ilkin Yusifov and knocked him to the ground. When Ilkin attempted to lift Yusifov from the ground, one of the Armenian soldiers attempted to strike him with the butt of his own weapon but failed. Another Armenian serviceman struck him on the left arm with the butt of an assault rifle.

He saw **Adil Gumbatov shoot an Armenian**, after which that Armenian shot Adil. Negotiations then took place, following which the Armenian servicemen left the area.

Volume 179, case file sheets 52–56, 66–70

Questioned as victims, **Gumbatov Adil Nadir oglu, Yusifov Ilkin Salim oglu, Suleymanov Kamil Aslan oglu, Gasimov Arif Samandar oglu, and Imanov Ali Shair oglu** confirmed the circumstances set out in the testimony of **Huseynov Jamal Bahram oglu**.

Volume 179, case file sheets 85–91, 101–107, 122–126, 134–138, 139–143, 151–155, 156–160, 168–172, 180–184, 190–194

Questioned as witnesses, **Tapdygly Nurlan Mazakhir oglu, Rahimov Eshgin Faramaz oglu, Abbasov Asef Valeh oglu, and Jabbarli Orkhan Mohubbat oglu** gave testimony of the same content and confirmed the testimony of **Huseynov Jamal Bahram oglu**.

Volume 179, case file sheets 74–78, 111–115, 117–121, 196–199

According to **forensic medical expert conclusion No. 1230 dated 01.12.2022**, the bodily injury sustained by **Ilkin Rustamov** — a penetrating gunshot wound to the right half of the chest accompanied by right-sided hemopneumothorax, resulting from at least one shot fired from a firearm — constitutes **grievous harm to health**.

Volume 231, case file sheets 55–56

Questioned as a victim, **Rustamov Ilkin Namig oglu** stated in his testimony that on **28.10.2021** he was appointed gunner of the 1st machine-gun squad of the combat-support platoon of the 1st battalion of **Military Unit No. 769**, stationed in the **Lachin District**, and was assigned the military rank of private.

By **Order No. 245 dated 17.08.2022 of the commander of Military Unit No. 769**, he departed for the area where **Military Unit No. 157** was stationed in order to perform combat missions.

At approximately **18:00 that same day**, while digging a trench at a distance of up to **500–600 meters from the target** in order to protect against fire from Armenian armed formations and other possible provocations, he sustained a wound to the **right shoulder** as a result of fire opened by the above-mentioned armed groups. With the assistance of his fellow servicemen, he was evacuated from the area and taken to a medical facility.

Volume 231, case file sheets 33–35

Page 527

Questioned as a witness, **Guliyev Murad Agagul oglu** stated in his testimony that on **17.08.2022**, while serving in the 1st machine-gun platoon of the combat support platoon of the 1st battalion of **Military Unit No. 769 of the Ministry of Defense**, during the digging of a trench together with fellow servicemen to provide protection from fire by the Armenian armed forces in the **Lachin District**, at approximately **18:00** the Armenian armed forces opened fire twice. He immediately shouted to his fellow servicemen to get down into the trench, but the second bullet struck soldier **Ilkin Rustamov** in the shoulder, injuring him.

Volume 231, case file sheets 13–16

In the criminal case, **Amanov Shahin Kerem oglu** and **Alili Khagan Rabil oglu** gave statements of identical content, confirming the testimony of **Guliyev Murad Agagul oglu**.

Volume 231, case file sheets 17–20, 21–24

While serving with the rank of senior lieutenant as commander of the telephone platoon of the communications company of the main command post of **Military Unit No. 061 of the Ministry of Defense**, **Suleymanov Vugar Nizam oglu**, at **13:42 on 20.08.2022**, while laying a communications line in the area of the **Sarybaba heights in the Lachin District**, sustained an injury diagnosed as a **“lacerated, contused wound of the left toe”** after being blown up by an anti-personnel mine previously planted by servicemen of Armenian armed formations in the territory of Azerbaijan where the peacekeeping contingent of the Russian Federation

was temporarily stationed. He was initially evacuated to the medical station of Military Unit No. 769 and then to **Military Hospital No. 524**.

According to **Certificate No. 957 of Military Unit No. 061 of the Ministry of Defense dated 31.08.2022**, it was not possible to inspect the scene in the area of the Sarybaba heights in the Lachin District where **Suleymanov Vugar Nizam oglu** had been injured after stepping on a previously planted anti-personnel mine, because the area was mined and posed a threat to human life and health.

Volume 232, case file sheet 18

According to **forensic biological examination conclusion No. 59 MTB dated 27.09.2022**, the blood group of **Suleymanov Vugar Nizam oglu** is **O(I)**. Human blood was found on the submitted field jacket, short-sleeved shirt, T-shirt, trousers, belt, scarf and pair of boots. During determination of the blood group, only antigen “**H**” was detected. Thus, the indicated bloodstains may belong to a person with blood group O(I) under the ABO system, including **Suleymanov Vugar Nizam oglu**, who belongs to this group.

Volume 232, case file sheets 39–41

According to **comprehensive forensic ballistic and trace examination conclusion No. 3/1334 dated 25.11.2022**, bodily damage is present on the outer part of the heel of the serviceman’s left boot. Based on the shape, dimensions and morphological structure of the damage on the left heel of the soldier’s boot, as well as the detection on its surface of explosive substance (**TNT**) and incompletely burned particles of smokeless powder, the damage is characteristic of the impact of fragments resulting from an explosion, from the center of the explosion, from bottom to top and from left to right. Similar injuries may also be caused by the explosion of an anti-personnel mine.

No damage characteristic of the impact of fragments from an explosion was found on the right side of the field jacket, the military shirt with short sleeves, sleeveless shirt, military scarf, military belt, military trousers or soldier’s boot. Particles of incompletely burned smokeless powder and explosive substance (**TNT**), which constituted an additional factor of the discharge, were found on the military tunic, military short-sleeved undershirt, sleeveless shirt, military scarf, military belt, military trousers and the right side of the soldier’s boot.

Volume 232, case file sheets 72–75

Page 528

According to **forensic medical expert conclusion No. 1714 dated 06.12.2022**, the bodily injury sustained by **Suleymanov Vugar Nizam oglu** — **traumatic amputation (avulsion) of the left lower extremity at the level of the lower third of the lower leg**, caused by the effects of explosive ordnance, including fragments from a mine explosion — constitutes **grievous harm to health resulting in a permanent loss of more than one-third of total working capacity**.

Volume 232, case file sheets 84–85

Questioned as a victim, **Suleymanov Vugar Nizam oglu** stated in his testimony that at **13:42 on 20.08.2022**, while serving with the rank of senior lieutenant as commander of the telephone platoon of the communications company of the main command post of Military Unit No. 061 of the Ministry of Defense, while laying a communications line in a depression on the shoulder of the highway in the area of combat position **LM17**, on the section between the newly cleared combat positions **LM17 and LM18**, in the direction of the Sarybaba heights in the Lachin District, he sustained an injury to his left leg as a result of the explosion of an anti-personnel mine previously planted by servicemen of Armenian armed formations in the territory of Azerbaijan where the peacekeeping contingent of the Russian Federation was temporarily stationed.

At that time, the only person with him was serviceman of Military Unit No. 061, Sergeant **Shakhmar Tagiyev**. Doctors from the medical station of Military Unit No. 769 who arrived at the scene provided him with first aid. He was initially evacuated by ambulance to the medical station of Military Unit No. 769, from there to **Military Hospital No. 524 in the city of Kalbajar**, and subsequently to **Military Hospital No. 230**.

Volume 232, case file sheets 33–36

Questioned as a witness, **Tagiyev Shakhmar Saftar oglu** stated in his testimony that on **20.08.2022 at approximately 09:00–10:00**, while serving as commander of the radio communications section of the stationary communications node of Military Unit No. 061 of the Ministry of Defense, pursuant to the instruction of a superior officer to connect communications lines to combat positions **LM17, LM18, LM19 and LM20** in the direction of the Sarybaba heights in the Lachin District, he went there together with the commander of the telephone platoon of the communications company of the main command post of the military unit, Senior Lieutenant **Suleymanov Vugar Nizam oglu**, extended-service serviceman **Madat Nurmammadov**, and the duty officer of the stationary communications node of the military unit, Senior Lieutenant **Mammadov Araz Vagif oglu**.

At **13:42 that same day**, while laying a communications line in a depression on the shoulder of the highway in the area of combat position **LM17**, on the section between the combat positions code-named **LM17 and LM18**, **Vugar Suleymanov** sustained an injury to his left leg as a result of the explosion of an anti-personnel mine previously planted by servicemen of Armenian armed formations in the territory of Azerbaijan where the peacekeeping contingent of the Russian Federation was temporarily stationed. After the incident, doctors from the medical station of Military Unit No. 769 who arrived at the scene provided him with first aid and evacuated him.

Volume 232, case file sheets 42–45

Nurmammadov Madat Mahir oglu and **Mammadov Araz Vagif oglu** gave statements of the same content and confirmed the testimony of **Tagiyev Shakhmar Saftar oglu**.

Volume 232, case file sheets 46–49, 50–53

According to the **decision dated 09.12.2022**, the pair of boots, tunic, trousers, military short-sleeved shirt, short-sleeved T-shirt, scarf and waist belt worn by **Suleymanov Vugar Nizam oglu** are stored in the evidence storage chamber of the **Special Investigations Directorate** as physical evidence.

Volume 232, case file sheets 76–77

Engineer of the 1st company of the 2nd platoon of the engineering and fortification subunit of **Military Unit No. 888 of the Ministry of Defense**, extended-service serviceman Private **Gulmaliyev Heydar Elman oglu**, at approximately **16:00 on 21.08.2022**, while conducting demining operations in the area of the **Sarybaba heights in the Lachin District**, was blown up on...

Page 529

...an **anti-personnel mine planted by servicemen of Armenian armed formations whose identities were unknown to the investigation.**

According to the **certificate attached to the criminal case**, since the area where serviceman of the engineering and fortification unit of **Military Unit No. 888**, Private **Gulmaliyev Heydar Elman oglu**, was blown up by an anti-personnel mine on **21.08.2022** is mined and poses a danger to life, it is not possible to inspect that area.

Volume 233, case file sheet 4

Victim **Gulmaliyev Heydar Elman oglu** stated that on the morning of **21.08.2022**, pursuant to an instruction from the command of Military Unit No. 888 of the Ministry of Defense, a group approximately the size of a squad arrived in the area of the **Sarybaba heights in the Lachin District** to clear mines from the area around Mount Sarybaba.

They had previously been deployed several times to demine the area around that mountain. By lunchtime that day, they had cleared the area around the Sarybaba heights of **73 mines**, and after lunch they resumed searching for mines.

At approximately **16:00**, he suddenly saw an explosion and realized that he had stepped on a mine. At that moment, he lost consciousness and fell to the ground, landing on his right elbow. At that time, he saw that there was a mine near his right hand, and his fellow platoon members told him: **“Don’t move, we’ll remove the mine next to you.”** His fellow servicemen immediately removed the mine from there.

Volume 233, case file sheets 40–41

Questioned as a witness, **Mammadov Fariz Goshgar oglu** stated that on **21.08.2022**, together with four servicemen of the engineering and fortification unit of **Military Unit No. 88**, five persons in total, they were engaged in clearing the area near combat position **LM-18 of Military Unit No. 888**, located in the area of the Sarybaba heights in the Lachin District.

In addition to him, the group included extended-service serviceman Private **Vahid Yuzbashiyeu**, extended-service serviceman Private **Kenan Aslanov**, acting serviceman Private **Sahavat Mammadov**, and acting serviceman Private **Gulmaliyev Heydar Elman oglu**.

Each of them was issued an **OZAN mine detector**, protective clothing and a **KR-i kit**, and the search began that same morning. After lunch, at approximately **13:00**, the search

resumed. The search area was mountainous, and for safety purposes they maintained a distance of **40–50 meters** from one another during the search.

At approximately **16:00** that day, a loud explosion occurred. When they looked toward the place from which the explosion had come, they saw that soldier **Heydar Gulmaliyev** had been blown up by an anti-personnel mine.

Volume 233, case file sheets 26–28

Questioned as witnesses, **Vahid Yuzbashiye**v, **Kenan Aslanov Yuzbashiye**v, and **Sahavat Mammadov** gave testimony consistent with the statements of victim **Heydar Gulmaliyev** and witness **Fariz Mammadov**.

Volume 103, case file sheets 49–51

Volume 233, case file sheets 29–31, 32–34, 35–37

According to **forensic medical expert conclusion No. 57-mtb dated 27.09.2022**, issued following examination of the physical evidence, the blood group of **Gulmaliyev Heydar Elman oğlu** is **O(I)**. Human blood was found on the short-sleeved shirt, T-shirt, trousers and underwear. When it was tested for blood-group affiliation, only antigen **“H”** was detected. The noted bloodstains may belong to a person with blood group **O(I)** under the ABO system, including **Gulmaliyev Heydar Elman oğlu**, who belongs to this group.

Volume 103, case file sheets 44–46

According to **forensic medical expert conclusion No. 1233 dated 01.12.2022**, the bodily injuries sustained by **G. E. Gulmaliyev** — **amputation of the left lower extremity at the level of the middle third of the lower leg...**

Page 530

...**Grade II traumatic-hemorrhagic shock and acute post-hemorrhagic anemia**, which arose as a result of the combined effects of a primary shrapnel injury and the blast wave generated by the explosion of an explosive substance, are dangerous to the body and cause **serious harm to health**.

Volume 233, case file sheets 64, 99

According to the **decision dated 18.11.2022 on recognition as physical evidence**, the military field trousers, short-sleeved shirt, undershirt and T-shirt that were on **G. E. Gulmaliyev** are stored in the evidence storage chamber of the **Special Investigations Directorate**.

Volume 233, case file sheet 53

While serving as a rifleman of the **3rd squad of the 2nd platoon of the 7th company of the 3rd battalion of the 7th Military Unit No. 706 of the Ministry of Defense**, active-duty serviceman Private **Zeynalzade Elchin Enver oğlu**, at approximately **13:00 on 24.08.2022**, while observing through **BDS111 binoculars** at combat position No. 3 of the same battalion, located in the village of **Marzili, Aghdam District**, sustained an injury to his right eye as a

result of a laser beam being directed at it from Armenian armed formations positioned on the opposite side, with the intent to deliberately kill him on the grounds of national hatred and hostility.

He sustained **grievous harm to health**, accompanied by the diagnoses “**decrease in visual acuity to the level of hand-motion perception due to radiation maculopathy of the right eye, uncorrectable; visual acuity of the left eye 1.0,**”resulting in a permanent loss of more than **one-third of his working capacity**.

According to the **inspection protocol dated 26.01.2023**, physical evidence relevant to the case was found at the place where **Zeynalzade Elchin Enver oglu** sustained his injury while serving at Post No. 3 of Military Unit No. 706.

Volume 93, case file sheets 27–35

Victim **Zeynalzade Elchin Enver oglu** stated that at approximately **13:00 on 24.08.2022**, while observing through **BDS111 binoculars, No. 57514**, from combat position No. 3 of the battalion located in the village of Marzili, Aghdam District, he sustained an injury to his right eye as a result of a laser beam directed from the Armenian armed forces positioned on the opposite side.

Volume 93, case file sheets 117–121, 145–149

Questioned as witnesses, **Bannayev Nurlan Agif oglu, Mammadov Eldar Tapdig oglu, Atakishiyev Sarkhan Gubad oglu, Zeynalov Envar Rza oglu, Guliyev Eldar Nuraddin oglu, Makhmudov Kenan Sokhlan oglu, Azizov Murad Elchin oglu, and Ramazanov Famil Vidadi oglu** confirmed the fact stated by victim **Zeynalzade Elchin Enver oglu**.

Volume 93, case file sheets 97–99, 101–103, 104–107, 109–112, 135–138, 139–141, 142–144, 176–178, 180–183, 190–193

According to **expert conclusion concerning a living person and the case materials No. K/69 dated 15.03.2023**:

1. According to the conclusion of the head of the ophthalmology department of the **Baku Clinical Hospital of the Ministry of Defense**, **Zeynalzade Elchin Enver oglu** was diagnosed with: “**decrease in visual acuity to the level of hand-motion perception due to radiation maculopathy of the right eye, uncorrectable; visual acuity of the left eye 1.0.**” Since there are no specific forensic medical criteria for determining the duration of the illness, it is impossible to provide a specific and precise assessment of the duration of the illness.

2. Elchin Zeynalzade’s condition was caused by exposure to various types of radiation, primarily ultraviolet and violet-blue rays of the light spectrum, which have a phototoxic effect. Light-induced retinal damage may be caused by exposure to sunlight, prolonged...

Page 531

...exposure to **direct sunlight**, as well as artificial exposure to technical optical devices and military laser beams. However, since the medical literature contains no information

concerning the possibility of developing a pathology leading to the complete loss of visual acuity shortly after a single exposure to phototoxic light rays, and since the circumstances of the incident are based on probabilistic and subjective information, it is impossible to form an exact opinion as to whether the present pathology was acquired under the circumstances described. If information is provided concerning the specific circumstances of the incident and the technical characteristics of the device considered to be a military source of radiation, it may be possible to form a clear understanding of the conditions under which the above-mentioned pathology could have been acquired.

The pathology diagnosed as **“reduction in visual acuity to hand-motion perception as a result of radiation maculopathy of the right eye, uncorrectable; visual acuity of the left eye 1.0”** is considered by the ophthalmologist to be radiation-induced and constitutes **grievous bodily injury**, since it resulted in complete loss of vision in one eye and a permanent loss of more than **one-third of overall working capacity**.

3. In addition to the pathology listed above, **Zeynalzade Elchin Enver oglu** also has a condition diagnosed as **“neurocirculatory asthenia, cardiac type, persistent cardiac rhythm disorder in the form of isolated ventricular extrasystole,”** and the entries in the medical records prepared in connection with these conditions are consistent.

4. Since the conscript medical record of **Zeynalzade Elchin Enver oglu** was not submitted for examination, it is impossible to give an opinion as to what illnesses he had and what category of fitness for military service he had at the time of his conscription on **27.04.2021**.

5. During the examination of **Zeynalzade Elchin Enver oglu** by the military medical commission, the final diagnosis issued to him was correct, and there was no need for him to undergo additional examinations to clarify the diagnosis.

6. The examination methods used when **Elchin Zeynalzade** gave his complaints to the military medical commission, and the diagnosis made on the basis of those methods, correspond to the entries in the documents prepared in his name.

7. At present, **Zeynalzade Elchin Enver oglu** has been diagnosed with the following pathologies: **“reduction in visual acuity to hand-motion perception as a result of radiation maculopathy of the right eye, uncorrectable; visual acuity of the left eye 1.0; neurocirculatory asthenia of the cardiac type; persistent cardiac rhythm disorder in the form of isolated ventricular extrasystole,”** and, in accordance with column I of Articles 30(b), 35(b) of the **“Schedule of Diseases”** of the **“Regulations on Military Medical Examination,”** approved by Resolution No. 59 of the Cabinet of Ministers of the Republic of Azerbaijan dated **29.02.2008**, taking into account the diagnosed illnesses, he is **“unfit for military service in peacetime and fit with restrictions in wartime.”**

8. **Elchin Zeynalzade** is unable to feign the illness.

Volume 93, case file sheets 77–90

According to **forensic medical examination conclusion No. 3/1002 dated 18.07.2023**, it cannot be ruled out that the mark on the right lens of **BDS111 binoculars No. 57514** was formed as a result of exposure to a laser beam.

Volume 93, case file sheets 211–214

According to the **decision dated 19.08.2023 on recognition as physical evidence, BDS111 binoculars No. 57514**, submitted by Military Unit No. 706 of the Ministry of Defense, were recognized as physical evidence and placed in storage.

Volume 93, case file sheets 217–218

At approximately **17:00 on 02.09.2022**, as a result of fire opened by servicemen of the Armed Forces of Armenia from the direction of the settlement of **Yukhan Shorja, Basarkechar District**, servicemen of **Military Unit No. 172 of the Ministry of Defense**, who were serving at combat position **KS-15** in the village of **Zaylik, Kalbajar District**, and who had completed their term of active military service — Junior Sergeant **Rzayev Farhad Nazir oğlu** sustained injuries in the form of **cuts to the neck**, Sergeant **Iskenderov Anar Ilham oğlu** sustained **scratches to the left ear**, and Private **Ahmedov Musa Azer oğlu** sustained **scratches to the left arm**. In addition, one **KAMAZ vehicle bearing military registration number C897-QQ** and one **UAZ vehicle bearing registration number C916 QQ** were damaged.

Page 532

According to a certificate issued by the commander of **Military Unit No. 172**, at approximately **17:00 on 02.09.2022**, an incident occurred at the combat position conventionally designated “**KS-16**,” located near the village of **Zaylik, Kalbajar District**. Since this area is situated on the line of contact with personnel of the Armed Forces of Armenia, is under visual observation by the opposing side, hostilities are ongoing, and the area is mined, an inspection of the scene was considered inadvisable.

Volume 180, case file sheet 9

According to the **vehicle inspection protocol dated 10.09.2022**, the vehicle is a **KAMAZ bearing military registration number C897-QQ**. The vehicle belongs to **Military Unit No. 341**. The KAMAZ bearing military registration number **C897-QQ** belongs to the cargo transport class and is intended for the transportation of personnel, ammunition, military-technical equipment and other military cargo.

The cab and the tarpaulin of the platform of the vehicle under inspection are khaki-colored. The vehicle has **three axles and a 6×6 wheel arrangement**. The length of the vehicle without a trailer is **7,366 millimeters**, its width **2,500 millimeters**, and its height **2,870 millimeters**. The width of each wheel is **30 cm**, and the distance between the right and left wheels is **2 meters 50 centimeters**.

The vehicle consists of two parts — the cab and the body — and the rear platform can accommodate **24 persons**. The cab is metal, three-seater and two-door, and is equipped with enhanced thermal and sound insulation, a ventilation and heating system, and an adjustable driver’s seat.

At the time of the incident, the vehicle was located near combat position **KS-15**, situated in the village of Zaylik. The windshield, front portion of the vehicle and left door bear traces of damage caused by bullets fired by Armenians. In addition, bullet marks of various sizes

resulting from gunfire were found on the **left side door, cab and rear cargo platform** of the KAMAZ bearing military registration number C897-QQ. Overall, the vehicle is in working condition, its engine operates, and it is currently being used for its intended purpose in the military unit.

The vehicle in question is a **UAZ bearing military registration number C916QQ**. This vehicle belongs to **Military Unit No. 341**. The UAZ bearing military registration number **C916QQ** belongs to the cargo transport class and is intended for the transportation of personnel, ammunition, military-technical equipment and other military cargo.

The cab and the tarpaulin of the platform of the vehicle under inspection are khaki-colored. The vehicle has **two axles and a 4×4 wheel arrangement**. The vehicle consists of two parts — the cab and the body — and the rear platform can accommodate **10 persons**. The cab is metal, three-seater and two-door, and is equipped with enhanced thermal and sound insulation, a ventilation and heating system, and an adjustable driver's seat.

At the time of the incident, the vehicle was located near combat position **KS-15**, situated in the village of Zaylik. The front part of the vehicle and the left door bear traces of damage caused by bullets fired by Armenians. In addition, bullet marks of various sizes resulting from gunfire were found on the **left side door, cab, rear cargo platform and rear cover** of the UAZ bearing military registration number C916QQ.

Overall, the vehicle is in working condition, its engine operates, and it is currently being used for its intended purpose in the military unit.

Page 533

During the inspection, no items or samples of evidentiary significance were found and, therefore, none were seized.

Volume 180, case file sheets 47–56

According to the **inspection protocol dated 27.09.2022**, on **02.09.2022** the steel helmet and military tunic of Junior Sergeant **Rzayev Farhad Nazir oglu**, as well as the woolen jacket of **Ahmedov Musa Azer oglu**, were inspected, and the following was established:

1. The tunic is khaki-colored; its length along the back is **87 cm**, and the sleeve length is **52 cm**. There is damage measuring **0.1 × 0.1 cm** on the rear collar area of the tunic. Name tags are affixed to the front of the tunic. The military rank **“Junior Sergeant”** is displayed on both sleeves. The left sleeve also bears a chevron inscribed **“Azerbaijani Army.”** The surface of the tunic is clean; no other visible damage was found.

The woolen sweater measures **64 cm** in length at the back and **46 cm** at the front from the collar. A wound measuring **1 × 0.5 cm** was found on the upper part of the patient's left arm. The surface of the sweater is clean. No other visible damage was found on the sweater.

Khaki-colored military fabric is sewn onto one steel helmet; the internal dimensions of the helmet are **28 × 25 cm**. The steel helmet has traces of damage measuring **3 × 2 cm** and **2 ×**

1.5 cm, which are presumed to be the bullet's entrance and exit points. No other visible damage was found on the steel helmet.

Volume 180, case file sheets 61–66

According to **forensic medical expert conclusion No. 541 dated 04.09.2022**, the bodily injuries sustained by **Ahmedov Musa Azer oglu** — blind wounds of the left arm and small metallic foreign bodies in the soft tissues of the left shoulder girdle, caused by a bullet fragment after the bullet struck a hard obstacle when fired from a firearm — are classified by degree of severity as **minor bodily injuries**.

Volume 180, case file sheets 86–87

According to **forensic medical expert conclusion No. 552 dated 08.09.2022**, the bodily injuries sustained by **Iskenderov Anar Ilham oglu** — a penetrating superficial wound of the left angle of the lower jaw, characteristic of an injury caused by a bullet (projectile) fired from a firearm, and abrasions of the left ear, characteristic of injuries caused by a blunt object or impact against a hard blunt object — did not cause harm to health and, therefore, their degree of severity was not determined.

Volume 180, case file sheets 72–73

According to **forensic medical expert conclusion No. 562 dated 19.09.2022**, it cannot be ruled out that the bodily injuries sustained by **Rzayev Farhad Nazir oglu** — **two penetrating superficial wounds in the neck area** — were caused by the impact of a projectile (bullet) as a result of a gunshot.

Volume 180, case file sheet 104

According to **forensic medical-criminalistic examination conclusion No. 3/1412 dated 11.11.2022**, there is damage on the right side of the collar of **Rzayev Farhad Nazir oglu's** tunic, as well as on the helmet and the left sleeve of **Ahmedov Musa Azer oglu's** military sweater. Based on the shape, dimensions and morphological structure of the damage to the right side of the collar of **Rzayev Farhad Nazir oglu's** tunic and to the left sleeve of **Ahmedov Musa Azer oglu's** military sweater, the absence of incompletely burned powder particles constituting an additional factor of the shot, as well as the presence of weak traces of copper metal around the damage, the injuries are characteristic of damage caused by a fragmented bullet. It is impossible to determine the direction or distance of the shot or the caliber of the firearm used to inflict these injuries.

Page 534

The wound on the upper part of the helmet belonging to **Rzayev Farhad Nazir oglu** is an **entrance wound**, while the wound on the rear is an **exit wound**. It is characteristic of a bullet approximately **7 mm in diameter**, containing copper metal, fired from a distance of **more than 1 meter**.

Volume 180, case file sheets 97–100

Questioned as a victim, **Ahmedov Musa Azer oglu** stated that at approximately **17:00 on 02.09.2022**, while serving as a machine gunner of the 1st platoon of the 3rd company of the 3rd battalion of **Military Unit No. 172 of the Ministry of Defense**, with the rank of private, the 3rd division was digging trenches and carrying out work to reinforce the trenches at combat position **KS-15** in the village of **Zaylik, Kalbajar District**.

At that time, servicemen of the Armed Forces of Armenia opened fire on them with automatic weapons and machine guns from the direction of the settlement of **Yukhary Shorja, Basarkechar District**. At that moment, Sergeant **Iskenderov Anar Ilham oglu**, an extended-service serviceman standing together with him, was struck on the upper part of his head by a bullet fragment; the bullet grazed his left ear and the left side of his neck, and then another bullet struck Musa Ahmedov's left arm. At that time, Junior Sergeant **Rzayev Farhad Nazir oglu**, an extended-service serviceman standing away from them, also sustained a scratch to the back of his head as a result of the gunfire.

Volume 180, case file sheets 32–36

Questioned as a victim, **Iskenderov Anar Ilham oglu** stated that at approximately **17:00 on 02.09.2022**, while serving as commander of the 3rd squad of the 3rd platoon of the 3rd company of the 1st battalion of **Military Unit No. 172 of the Ministry of Defense**, with the rank of sergeant as an extended-service serviceman, the 3rd company was digging trenches and carrying out work to reinforce the trenches at combat position **KS-15**, code-named **KS-15**, in the village of **Zaylik, Kalbajar District**.

At that time, servicemen of the Armed Forces of Armenia opened fire on them with automatic weapons and machine guns from the direction of the settlement of **Yukhan Shorja, Basarkechar District**. The gunfire struck his left ear and the left side of his neck; then Private **Ahmedov Musa Azer oglu**, who was standing next to him, was also struck in the left arm. At the same time, Junior Sergeant **Rzayev Farhad Nazir oglu**, an extended-service serviceman standing away from them, also sustained a scratch to the back of his head as a result of the gunfire.

Volume 180, case file sheets 42–46

Questioned as a victim, **Rzayev Farhad Nazir oglu** stated that at approximately **17:00 on 02.09.2022**, while serving as driver of the 2nd platoon of the 3rd company of the 1st battalion of **Military Unit No. 172 of the Ministry of Defense**, with the rank of Junior Sergeant as an extended-service serviceman, the 3rd company was digging trenches and carrying out work to reinforce the trenches at combat position **KS-15**, code-named **KS-15**, in the village of **Zaylik, Kalbajar District**.

At that time, servicemen of the Armed Forces of Armenia opened fire on them with automatic weapons and machine guns from the direction of the settlement of **Yukhary Shorja, Basarkechar District**. A bullet struck the steel helmet on his head, passed through the helmet and exited. Since he was wearing the helmet, he was not seriously wounded; only his neck was injured when the bullet exited. At the same time, the left ear and the left side of the neck of Sergeant **Iskenderov Anar Ilham oglu** were also struck by the gunfire, and Private **Ahmedov Musa Azer oglu**, who was standing next to him, was also struck in the left arm.

Volume 180, case file sheets 78–82

Questioned as a witness, **Yolchuyev Emin Tariyel oglu** stated that at approximately **17:00 on 11.09.2022**, while serving as Chief of Staff and Deputy Commander of the 1st Battalion of **Military Unit No. 172 of the Ministry of Defense**, with the rank of Captain, the 3rd division was digging trenches and carrying out work to reinforce the trenches at combat position **KS-15** in the village of **Zaylik, Kalbajar District**. At that time...

Page 535

At that time, servicemen of the **Armed Forces of Armenia** opened fire on them with automatic weapons and machine guns from the direction of the settlement of **Yukhan Shorja, Basarkechar District**. As a result, Junior Sergeant **Rzayev Farhad Nazir oglu**, Sergeant **Iskenderov Anar Ilham oglu**, and Private **Ahmedov Musa Azer oglu** sustained injuries of varying severity.

Volume 180, case file sheets 57–60

According to the **decision dated 20.12.2022**, the tunic and steel helmet worn by **Rzayev Farhad Nazir oglu**, as well as the sweater worn by **Ahmedov Musa Azer oglu** at the time of the incident, were recognized as physical evidence and are stored in the evidence storage chamber of the **Special Investigations Directorate of the Military Prosecutor's Office of the Republic of Azerbaijan**.

Volume 180, case file sheets 135–136

Extended-service servicemen of **Military Unit No. 181 of the Ministry of Defense** — Junior Sergeant **Muradli Shahin Oktay oglu**, Private **Nasirov Omar Vagif oglu**, active-duty servicemen Privates **Mammadov Khayal Gadir oglu**, **Bakhyshov Yunus Arif oglu**, **Huseynov Nariman Adalat oglu**, **Suleymanov Habil Valeh oglu**, **Muradov Anar Maharram oglu**, and **Rustamli Shahrulz Matlab oglu** — pursuant to the relevant order of the commander of the military unit, at approximately **13:00 on 02.09.2022**, while carrying out work to inspect unexploded ordnance and clear minefields used by Armenian servicemen during the Patriotic War, which lasted from **27.09.2020 to 10.11.2020**, in the territory of the village of **Mukhtarkend, Khojaly District**, sustained injuries of varying severity as a result of the explosion of a cluster munition used for the purpose of deliberately destroying members of illegal armed formations created by Armenian separatists with the aim of inciting national enmity and discord, the identities and exact number of whom were unknown to the investigation.

On **02.09.2022**, investigator of the Aghdam Military Prosecutor's Office **Faig Azimov** inspected the scene in the village of Mukhtarkend, Khojaly District.

Volume 234, case file sheets 4–14

Questioned as a victim, serviceman of **Military Unit No. 181 Muradov Anar Maharram oglu** stated that on **02.09.2022**, mine-clearance and other ordnance-disposal work was being carried out in the territory of the village of Mukhtarkend, Khojaly District, pursuant to an order. He and the other servicemen — Junior Sergeant **Muradli Shahin Oktay oglu**, Private **Nasirov Omar Vagif oglu**, active-duty servicemen Privates **Mammadov Khayal**

Gadir oglu, Bakhyshov Yunus Arif oglu, Huseynov Nariman Adalat oglu, Suleymanov Habil Valeh oglu, and Rustamli Shahruz Matlab oglu — were carrying out that order.

At approximately **12:55**, while attempting to pick up a **MON-200 mine** left by Armenian armed formations and take it to headquarters, a cluster munition located on it fell to the ground and struck his right leg. An explosion then occurred, as a result of which he and the other servicemen sustained injuries of varying severity. Immediately after the incident, they were evacuated to a military hospital.

Volume 234, case file sheets 133–135

The victims — Junior Sergeant **Muradli Shahin Oktay oglu**, Private **Nasirov Omar Vagif oglu**, active-duty servicemen Privates **Mammadov Khayal Gadir oglu, Bakhyshov Yunus Arif oglu, Huseynov Nariman Adalat oglu, Suleymanov Habil Valeh oglu, and Rustamli Shahruz Matlab oglu** — confirmed the testimony given by soldier **Muradov Anar Maharram oglu**.

Volume 234, case file sheets 127–129, 139–141, 145–147, 184–186, 190–192, 196–198, 202–204

According to **forensic medical expert conclusion No. 1204 dated 13.09.2022, Nasirov Omar Vagif oglu** sustained multiple blunt wounds of the right temporal region, neck, right upper extremity, both lower extremities and the left half of the scrotum, as a result of which a foreign body — a metal fragment — entered the soft tissues.

Page 536

These injuries were caused by fragments resulting from the explosion of an explosive device. The injuries are classified as **minor bodily injuries**.

Volume 234, case file sheets 249–251

According to **forensic medical expert conclusion No. 1203 dated 13.09.2022, Huseynov Nariman Adalat oglu** was found to have barotrauma resulting in acute left-sided cochlear neuritis; multiple shrapnel wounds of the lower thirds of both thighs and the lower third of the left lower leg; multiple foreign bodies in the soft tissues; an open displaced fracture of the left tibia; and injuries to the soft tissues caused by a foreign body. These injuries were caused by fragments resulting from the explosion of an explosive device. The injuries are classified as **minor bodily injuries**.

Volume 234, case file sheets 253–254

According to **forensic medical expert conclusion No. 1202 dated 13.09.2022, Muradli Shahin Oktay oglu** was found to have barotrauma resulting in acute left-sided cochlear neuritis; injury to the left half of the anterior abdominal wall not penetrating the abdominal cavity; multiple shrapnel wounds of the dorsal surface of the left hand and left wrist; injury to the anterior surface of the left lower leg involving the skin and subcutaneous tissue; and injuries to the 2nd, 3rd and 4th toes of the left foot and the right lower extremity. These injuries were caused by fragments resulting from the explosion of an explosive device. The injuries are classified as **minor bodily injuries**.

Volume 234, case file sheets 255–256

According to **forensic medical expert conclusion No. 1205 dated 13.09.2022, Mammadov Khayal Gadir oğlu** was found to have traumatic avulsion of the 2nd finger of the left hand, an extensive soft-tissue defect, and a shrapnel wound of the left hand accompanied by open comminuted fractures of the 1st, 2nd, 3rd, 4th and 5th metacarpal bones; blind shrapnel wounds of the left humerus and left elbow region; and post-traumatic neuropathy of the left median nerve. These injuries were caused by fragments resulting from the explosion of an explosive device. The injuries are classified as **minor bodily injuries**.

Volume 234, case file sheets 282–289

According to **forensic medical expert conclusion No. 1040 dated 29.09.2022, Muradov Anar Maharram oğlu** sustained multiple shrapnel wounds of the right leg and multiple soft-tissue injuries caused by a foreign body and metal fragments. These injuries were caused by fragments resulting from the explosion of an explosive device. Such injuries are classified as **minor bodily injuries**.

Volume 234, case file sheets 292–293

According to **forensic medical expert conclusion No. 1041 dated 29.09.2022, Bakhyshov Yunus Arif oğlu** sustained multiple non-penetrating blind shrapnel wounds of the left arm and the left half of the chest, as well as soft-tissue injuries caused by fragments of a foreign body and metal. These injuries were caused by fragments resulting from the explosion of an explosive device. They constitute **minor harm to health**.

Volume 234, case file sheets 294–295

According to **forensic medical expert conclusion No. 1056 dated 29.09.2022**, superficial blind shrapnel wounds were found on the right side of the chest of **Rustamli Shahruz Matlab oğlu**. These injuries were caused by fragments resulting from the explosion of an explosive device. They constitute **minor harm to health**.

Volume 234, case file sheets 296–297

According to **forensic medical expert conclusion No. 1059 dated 29.09.2022, Suleymanov Habil Valeh oğlu** was found to have superficial shrapnel wounds penetrating the soft tissues of the right lateral malleolus. These injuries were caused by fragments resulting from the explosion of an explosive device. They constitute **minor harm to health**.

Volume 234, case file sheets 298–299

Page 537

According to **forensic ballistic examination conclusion Nos. 3/1248, 3/1249, 3/1250 dated 13.10.2022**, it follows from the examination of the 12 items submitted for expert examination that the examined metal fragments had broken apart and separated from the device of which they had formed part as a result of an explosion. These items had been carefully manufactured from standard materials and had a special design characteristic of devices manufactured at a factory using appropriate equipment, which indicates that these metal parts

had formed part of a device (or devices) or projectile manufactured industrially. Since the metal parts bear no factory markings, designations or inscriptions, it is impossible to determine what device or projectile they formed part of or when they were manufactured.

The short-sleeved undershirt said to belong to **Rustamli Shahruz**, the military trousers with a belt said to belong to **Huseynov Nariman**, the undershirt said to belong to **Nasirov Omar**, the right sock said to belong to **Suleymanov Habil**, the military trousers with a waist belt, the right leg of a soldier's boot, as well as the short-sleeved shirt and military trousers with a waist belt said to belong to **Muradov Anar**, have damage. Based on the shape, dimensions and morphological structure of the damage to the military clothing, as well as the presence on its surface of particles of explosive substance (TNT) and incompletely burned smokeless powder, the indicated damage is characteristic of the effects of fragments from an explosion.

On the military trousers said to belong to **Rustamli Shahruz**; the military clothing said to belong to **Mammadov Khayal**; the military trousers and pair of socks said to belong to **Nasirov Omar**; the short-sleeved shirt, military trousers and pair of military boots said to belong to **Suleymanov Habil**; the pair of socks said to belong to **Muradov Anar**; and the military uniform, soldier's boots and other items of military clothing belonging to **Bakhyshov Yunus**, incompletely burned particles of smokeless powder and explosive substance (TNT), which constitute additional factors of an explosion, were detected.

Volume 234, case file sheets 303–310

The items of clothing of the servicemen referred to in **forensic ballistic examination conclusion Nos. 3/1248, 3/1249, 3/1250 dated 13.10.2022** were recognized as physical evidence in the case.

Volume 234, case file sheets 311–312

On **13.08.2022**, as a result of the explosion of the high-explosive fragmentation warhead of a **9M55K “Smerch” rocket projectile with a 300-mm cluster warhead**, which had been used during the hostilities that continued from **27.09.2020 to 10.11.2020** by representatives of the Armed Forces of Armenia whose identities and exact number were unknown to the investigation, with the intent to deliberately kill them, but which had remained unexploded until that time, the following injuries were sustained:

serviceman of the military unit Lieutenant **Rahimov Ali Chingiz oglu** sustained “**blind shrapnel wounds of the anterior surface of the chest, the dorsal surface of the right hand, the right thigh and the dorsal surface of the right hand, penetrating into a cavity; a lacerated wound of the right earlobe; and right-sided pneumothorax**”;

extended-service serviceman Private **Ibrahimov Sahib Soltan oglu** sustained “**barotrauma**”;

Private **Nagizade Magomed Adil oglu** sustained “**a fracture of the occipital bone and a penetrating shrapnel wound of the occipital region**”;

Private **Ganbarov Ibrahim Ilham oglu** sustained “**a blind shrapnel wound to the right temporal region**”;

Private **Najafzade Farzani Yashar oglu** sustained “a blind shrapnel wound penetrating into the abdominal cavity”;

Private **Guliyev Mahabbat Tabriz oglu** sustained “crushing of the soft tissues in the area of the dressing”;

and active-duty serviceman Private **Dadashzade Anar Safar oglu** sustained “minor shrapnel wounds of the face and body.”

They were immediately evacuated to **Hospital No. 214**, as well as to the **Fuzuli District Central Hospital**.

Page 538

According to the **scene inspection protocol**, the site of the explosion is located on a hill near the settlement of **Hadrut, Khojavend District**, at a straight-line distance of **1,310 meters** from the headquarters of **Military Unit No. 218 of the Ministry of Defense**.

Remnants of charcoal were found at the site of the explosion, as well as red ribbons around the epicenter of the explosion which, presumably, had been tied to the warheads of the cluster bombs.

Volume 236, case file sheets 9–28

Questioned as a victim, Private **Dadashzade Anar Safar oglu** stated in his testimony that on **13.08.2022**, while preparing food and taking it off the fire, an explosion accompanied by a loud sound occurred in the immediate vicinity. As a result of the explosion, he sustained minor shrapnel wounds to the face and various parts of his body, as he was approximately **2–3 meters from the stove**. Other servicemen who were present there were also injured in the explosion. Servicemen who arrived to assist them provided first aid in connection with the injuries sustained in the explosion and evacuated them to **Military Hospital No. 214**.

Volume 236, case file sheets 78–82

The victims **Guliyev Mahabbat Tabriz oglu, Rahimov Ali Chingiz oglu, Najafzade Farzani Yashar oglu, Nagizade Muhammad Adil oglu, Ganbarov Ibrahim Ilham oglu, and Ibrahimov Sahib Soltan oglu** confirmed in their statements the testimony given by Private **Dadashzade Anar Safar oglu**.

Volume 236, case file sheets 69–73, 172–177, 182–187, 192–196, 201–205, 210–214

According to **forensic medical expert conclusion No. 1140 dated 01.09.2022**, **Rahimov Ali Chingiz oglu** had a penetrating shrapnel wound of the anterior surface of the chest accompanied by an open hemopneumothorax, shrapnel wounds of the right thigh, the dorsal surface of the right hand and the right earlobe, caused by the impact of fragments resulting from the explosion of an explosive device and constituting **grievous harm to health**.

Volume 236, case file sheets 255–256

According to **forensic medical expert conclusion No. 1185 dated 09.09.2022**, **Ganbarov Ibrahim Ilham oglu** was diagnosed with barotrauma resulting in bilateral acute cochlear

neuritis, a closed craniocerebral injury accompanied by concussion, blunt trauma to the soft tissues of the right temporal region, and a fracture of the nasal bones. These injuries were caused by the impact of fragments resulting from the explosion of an explosive device and are considered to constitute **minor harm to health**.

Volume 236, case file sheets 258–259

According to **forensic medical expert conclusion No. 1139 dated 01.09.2022, Najafzade Farzani Yashar oğlu** had a blind shrapnel wound of the anterior abdominal wall penetrating into the abdominal cavity and accompanied by rupture of the transverse colon. It was caused by the impact of fragments formed as a result of the explosion of an explosive device and constitutes **grievous harm to health**.

Volume 236, case file sheets 261–262

According to **forensic medical expert conclusion No. 1142 dated 01.09.2022, Nagizade Magomed Adil oğlu** was diagnosed with barotrauma resulting in left-sided acute cochlear neuritis, blunt contusion of the occipital lobe of the brain, crushing of the occipital lobe, and an open craniocerebral injury accompanied by a comminuted fracture of the occipital bone. These injuries were caused by the impact of fragments formed as a result of the explosion of an explosive device and constitute **grievous harm to health**.

Volume 236, case file sheets 265–266

According to **forensic medical expert conclusion No. 924 dated 05.09.2022, Dadashzade Anar Safar oğlu** was found to have shrapnel wounds of the **left temporo-**

Page 539

...occipital region, left cheekbone, left shoulder, outer surface of the left arm, outer surface of the right arm, left shoulder girdle and crest of the left iliac bone were caused by the impact of fragments during the explosion of an explosive device and are classified as injuries **not causing harm to health**.

Volume 236, case file sheets 218–219

According to **forensic medical expert conclusion No. 923 dated 05.09.2022, Guliyev Mahabbat Tabriz oğlu** was found to have bruising in the area of the right posterior axilla, the posterior surface of the chest, the projection of the crest of the left iliac bone, the posterior surface of the left thigh, and the soft tissues in the area of the dressing. These injuries were caused by fragments resulting from the explosion of an explosive device and are classified as injuries **not dangerous to life**.

Volume 236, case file sheets 220–221

According to **forensic ballistic examination conclusion Nos. 3/1220 and 3/1228 dated 05.10.2022**, based on traces of TNT detected on the military field trousers, tunic and short-sleeved shirt belonging to **Rahimov Ali Chingiz oğlu**, it was established that the injuries were caused by fragments resulting from the explosion of an explosive device.

Volume 236, case file sheets 271–273

The military field trousers, tunic and short-sleeved shirt belonging to **Rahimov Ali Chingiz oglu** were recognized as physical evidence in the case.

Volume 236, case file sheets 274–275

According to the **protocol dated 13.09.2022 on the inspection of the body of deceased serviceman of a military unit of the Ministry of Defense Hasanov Said Sarybala oglu**, numerous bodily injuries were found on the body. During the inspection, the following items were duly packaged and seized: one pair of black fingerless gloves, a white bandage, one long-sleeved military field shirt, one warm undershirt, one metal identification tag on a chain, one pair of brown boots, one pair of black-and-gray socks, one pair of military field trousers with a belt, one sack, one pair of gray warm trousers, and one pair of gray underpants.

Volume 184, case file sheets 183–184

According to **forensic medical expert conclusion No. 04 dated 13.09.2022**, the bodily injury sustained by **Hasanov Said Sarybala oglu** — one through-and-through gunshot wound penetrating through the posterior wall of the chest into the abdominal cavity, accompanied by an open through fracture of the **9th thoracic vertebra**, crushing of the spinal cord and damage to the abdominal organs — was life-threatening, was classified as causing **serious harm to health**, and resulted in death.

Volume 183, case file sheets 72–75

According to **forensic ballistic examination conclusion No. 3/189 dated 04.04.2024**, it was established that one military uniform, one warm undershirt and one short-sleeved T-shirt belonging to **Hasanov Said Sarybala oglu**, submitted for examination, had damage described in the examination section of the report. Such damage usually occurs as a result of the impact of a bullet fired from a firearm or fragments from an explosion.

Volume 73, case file sheets 225–228

Questioned as the **legal successor of victim Hasanov Said Sarybala oglu**, **Hasanov Sarybala Mammadali oglu** stated in his testimony that his son, **S. S. Hasanov**, began serving as an active-duty serviceman in **August 2013**. On **13.09.2022**, he died as a result of a gunshot wound inflicted by servicemen of the Armed Forces of Armenia while defending the **Kalbajar District** and preventing large-scale provocative actions by the Armed Forces of Armenia.

Volume 36, case file sheets 125–128

Page 540

According to the **protocol dated 13.09.2022 on the inspection of the body of serviceman of Military Unit No. 071 of the Ministry of Defense Huseynov Ziyarat Mail oglu**, numerous bodily injuries were found on the body. During the inspection, the following items were seized and duly packaged: one short-sleeved shirt, one patch, five tablets, one pair of desert-style trousers, one pair of brown boots, one pair of black socks, and one tourniquet.

Volume 184, case file sheets 148–149

According to **forensic medical expert conclusion No. 05 dated 13.09.2022**, the bodily injuries sustained by **Huseynov Ziyarat Mail oğlu** — fracture of the **9th rib on the right**, damage to the abdominal organs, hemoperitoneum (accumulation of free blood in the abdominal cavity), and a through-and-through gunshot wound of the right half of the anterior chest wall penetrating into the abdominal cavity and accompanied by acute bleeding — were life-threatening, were classified as causing **serious harm to health**, and resulted in death.

Volume 183, case file sheets 88–91

According to **forensic ballistic examination conclusion No. 3/192 dated 04.04.2024**, it was established that one of the items of military clothing belonging to **Huseynov Ziyarat Mail oğlu** and submitted for examination had damage described in the examination section of the report. Such damage usually occurs as a result of the impact of a bullet fired from a firearm or a fragment from an explosion.

Volume 37, case file sheets 39–42

Questioned as the **legal successor of victim Huseynov Ziyarat Mail oğlu**, **Huseynov Mail Shokur oğlu** stated in his testimony that his son, **Z. M. Huseynov**, began serving as an active-duty serviceman in **January 2014**. On **13.09.2022**, while defending the **Kalbajar District** and preventing large-scale provocative actions by Armenian armed formations, he died as a result of a sniper bullet fired by servicemen of the Armenian armed forces striking the right half of the anterior wall of his chest.

Volume 109, case file sheets 60–63

According to the **protocol dated 13.09.2022 on the inspection of the body of serviceman of Military Unit No. 769 of the Ministry of Defense Gurbanov Salekh Mohubbat oğlu**, numerous bodily injuries were found on the body. During the inspection, the following items were duly packaged and seized: a military field uniform, one assault vest, one smartphone, one long-sleeved jacket, one identity card, one khaki scarf, one long-sleeved military field jacket, one long-sleeved khaki football shirt, one khaki multicolored cap, one gray T-shirt, one pair of black military boots, one pair of socks, one pair of field trousers, one towel, and one undershirt.

Volume 184, case file sheets 86–87, 92–93

According to **forensic medical expert conclusion No. 06 dated 13.09.2022**, the bodily injuries sustained by **Gurbanov Salekh Mohubbat oğlu** — injuries to the organs of the chest and abdominal cavity; multiple blind shrapnel wounds penetrating the thoracic and abdominal cavities, the posterior and left lateral wall of the chest and the left lumbar region, accompanied by acute bleeding; a blind shrapnel wound of the right tibia accompanied by a tissue defect; and a comminuted open fracture of the right tibia — were classified as causing **serious harm to health** because they were life-threatening and resulted in death.

Volume 183, case file sheets 84–87

According to **forensic ballistic examination conclusion No. 3/223 dated 04.04.2024**, it was established that on the items submitted for examination...

Page 541

...of the military clothing belonging to **Gurbanov Saleh Mohubbat oglu** — **1 warm jacket, 1 tunic, 1 pair of military field trousers, 1 sweater, 1 military field shirt with long sleeves, 1 warm jacket, 1 jacket, 1 sleeveless shirt, 1 assault vest, 1 piece of a belt, 1 pair of right ankle boots and 1 pair of socks for the right lower leg** — have the damage described in the examination section. Such injuries are characteristically caused by the impact of a bullet fired from a firearm or by fragments resulting from an explosion.

Volume 38, case file sheets 65–68

Questioned as the legal successor of victim **Gurbanov Saleh Mohubbat oglu, Gurbanov Mohubbat Agabala oglu** stated in his testimony that his son, S. M. Gurbanov, had served as an officer in a military unit of the Ministry of Defense since **2012**. He died on **13.09.2022** while preventing large-scale provocative actions by the Armed Forces of Armenia, as a result of the explosion of a mortar shell fired by the Armenian armed forces during the defense of the **Lachin District**.

Volume 108, case file sheets 159–161

According to the **protocol dated 13.09.2022 on the inspection of the body of serviceman of Military Unit No. 157 of the Ministry of Defense Samedov Elmin Mirzali oglu**, numerous bodily injuries were found on the body. During the examination, the following items were duly packaged and seized: **1 pair of black military field boots, 1 pair of black socks, 1 pair of military field trousers with a belt, 1 khaki undershirt with long sleeves and 1 pair of gray underpants**.

Volume 184, case file sheets 74–75

According to **forensic medical expert conclusion No. 07 dated 13.09.2022**, the bodily injuries sustained by **Samedov Elmin Mirzali oglu** — **a blind wound of the left temporoparietal region not penetrating the cranial cavity, accompanied by a comminuted fracture of the outer surface of the left temporal bone with displacement; an open fracture of the fourth rib on the left; injury to the left lung; multiple penetrating shrapnel wounds of the left shoulder and left lateral wall of the chest accompanied by traumatic hemopneumothorax; multiple open fractures of the left humerus, left diaphysis and left ulna; and a shrapnel wound of the left elbow joint accompanied by acute bleeding** — by virtue of their life-threatening nature were classified as **grievous harm to health** and resulted in death.

Volume 73, case file sheets 4–7

According to **forensic ballistic examination report No. 3/222 dated 04.04.2024**, it was established that among the items of military clothing belonging to **Samedov Elmin Mirzali oglu** submitted for examination — **1 pair of military field trousers, 1 military field neck scarf, 1 pair of underpants, 1 warm undershirt, 1 boot, 1 sock and 1 fragment of a kneecap** — there was damage described in the examination section of the report. Such

injuries are characteristically caused by the impact of a bullet fired from a firearm or by fragments resulting from an explosion.

Volume 38, case file sheets 69–72

Questioned as the legal successor of victim **Isayev Elmin Mirzali oglu, Samadova Shola Novruz gyzy** stated in her testimony that her son, E. M. Samedov, had served as an extended-service serviceman in a military unit of the Ministry of Defense since **October 2021**.

On **13.09.2022**, he died as a result of the explosion of a mortar shell fired by servicemen of the Armed Forces of Armenia during the defense of the **Lachin District**, while preventing large-scale provocative actions by the Armed Forces of Armenia.

Volume 70, case file sheets 41–43

According to the **protocol dated 13.09.2022 on the inspection of the body of serviceman of Military Unit No. 701 of the Ministry of Defense Aliyev Ali Javad oglu**, it was established that...

Page 542

...numerous bodily injuries were found on the body. During the inspection of the body, the following items were duly packaged and seized: **1 military field tunic with long sleeves, 1 military field shirt with long sleeves, 1 black T-shirt with short sleeves, 1 pair of black sports trousers and 1 warm sweater.**

Volume 182, case file sheets 207–208

According to **forensic medical expert conclusion No. 08 dated 13.09.2022**, the bodily injuries sustained by **Aliyev Ali Javad oglu** — **a blind penetrating wound to the thoracic cavity through the right half of the anterior surface of the neck, accompanied by acute bleeding and damage to the major vessels of the neck and thoracic organs; multiple blind wounds of the right humerus, right elbow and right scapula, accompanied by multiple open fractures of the right humerus, right diaphysis and ulna, as well as traumatic amputation of the distal phalanx of the first finger of the right hand; multiple shrapnel wounds of the right temple, right half of the anterior chest wall, left scapula and soft tissues of the right arm** — were classified as causing **grievous harm to health** because the injuries were life-threatening and resulted in death.

Volume 183, case file sheets 80–83

According to **forensic ballistic examination report No. 3/242 dated 07.04.2024**, it was established that the items of military clothing belonging to **Aliyev Ali Javad oglu** submitted for examination — **1 military field jacket with cap, 1 tunic, 1 short-sleeved football shirt, 1 black short-sleeved football shirt and 1 jacket** — have the damage specified in the examination section of the report, which is characteristic of injuries caused by bullets fired from a firearm or by fragments resulting from an explosion.

Volume 37, case file sheets 226–229

Questioned as the legal successor of victim **Aliyev Ali Javad oglu, Aliyev Javad Hajji oglu** stated in his testimony that his son, A. J. Aliyev, began serving as an officer in a military unit of the Ministry of Defense in **June 2019**. On **13.09.2022**, he received a call from the **Sharur District Department of the State Service for Mobilization and Conscription**, where he was informed that his son, A. J. Aliyev, had been struck by a mortar shell fired by servicemen of the Armenian armed forces during the defense of the Lachin District while preventing large-scale provocative actions by the Armed Forces of Armenia, and had died as a result of the shell explosion.

Volume 71, case file sheets 11–13

According to the **protocol dated 13.09.2022 on the inspection of the body of serviceman of Military Unit No. 172 of the Ministry of Defense Fatullayev Rafail Rufat oglu**, it was established that numerous bodily injuries were found on the body. During the inspection, the following items were duly packaged and seized: **1 khaki jacket with long sleeves, 1 short-sleeved khaki football shirt, 1 khaki military field trousers with a belt, 1 undershirt, 1 pair of black military boots, black socks, 2 cartridges, and 1 khaki short-sleeved jacket.**

Volume 184, case file sheets 38–39

According to **forensic medical expert conclusion No. 10 dated 13.09.2022**, it was established that the bodily injuries sustained by **Fatullayev Rafail Rufat oglu** — **a penetrating wound of the right half of the anterior chest wall into the thoracic cavity, accompanied by acute bleeding, fractures of the 2nd and 3rd ribs on the right and injury to the thoracic organs; penetrating and blind shrapnel wounds of the right thigh accompanied by a multiple open fracture of the right femur; injury to the right elbow accompanied by fractures of the right humerus, ulna and diaphysis; a lacerated wound of the left shoulder; superficial wounds of the left cheekbone, neck, both arms, right cheek, right hand, right thigh and...**

Page 543

...right thigh and right foot — were classified by degree of severity as causing **grievous harm to health** and resulted in death.

Volume 183, case file sheets 92–95

According to **forensic ballistic examination conclusion No. 3/201 dated 07.04.2023**, it was established that the items of military clothing submitted for examination — **1 pair of military trousers, 1 military sweater and 1 T-shirt** belonging to **Fatullayev Rafail Rufat oglu** — have the damage specified in the examination section of the report. Such damage is characteristic of injuries caused by a bullet fired from a firearm or by fragments resulting from an explosion.

Volume 37, case file sheets 15–18

Questioned as the legal successor of victim **Fatullayev Rafail Rufat oglu, Fatullayev Rufat Rafig oglu** stated that his son, **R. R. Fatullayev**, began compulsory military service in a military unit of the Ministry of Defense in **April 2021**. On **13.09.2022**, he received a call from the **Neftchala District Department of the State Service for Mobilization and**

Conscription, informing him that his son, R. R. Fatullayev, had died as a result of the explosion of a mortar shell fired by servicemen of the Armenian armed forces while defending the **Kalbajar District** and preventing large-scale provocative actions by the Armenian armed forces.

Volume 70, case file sheets 77–79

According to the **protocol dated 13.09.2022 on the inspection of the body of serviceman of Military Unit No. 172 of the Ministry of Defense Farzaliyev Emin Elnur oglu**, numerous bodily injuries were found on the body. During the inspection, the following items were duly packaged and seized: **1 winter field jacket, 1 buttoned shirt, 1 yellow jacket, 1 yellow short-sleeved shirt, 1 field wristwatch, 1 pair of black boots, 1 pair of yellow underpants and 1 pair of socks.**

Volume 182, case file sheets 195–196

According to **forensic medical expert conclusion No. 11 dated 13.09.2022**, the bodily injuries sustained by **Farzaliyev Emin Elnur oglu** — **multiple open fractures of the frontal and parietal bones; a blind wound of the frontal region penetrating the cranial cavity, accompanied by diffuse damage to brain tissue; multiple blunt shrapnel wounds of the soft tissues of the right side of the waist, left thigh and right lower leg; as well as contusions of the right thigh**— were classified as causing **grievous harm to health** due to being life-threatening and resulted in death.

Volume 183, case file sheets 96–98

According to **forensic ballistic examination conclusion No. 3/243 dated 07.04.2024**, it was established that the items of military clothing submitted for examination — **1 pair of trousers, 1 jacket, 1 tunic, 1 short-sleeved T-shirt and 1 undershirt** belonging to **Farzaliyev Emin Elnur oglu** — have the damage specified in the examination section of the report. Such injuries are caused by the impact of a bullet fired from a firearm or by fragments resulting from an explosion.

Volume 37, case file sheets 230–233

Questioned as the legal successor of victim **Farzaliyev Emin Elnur oglu, Farzaliyeva Khayala Arif gyzy** stated that her son, **E. E. Farzaliyev**, began active military service in **January 2022**. On **13.09.2022**, she received a call from the **Aghjabadi District Department of the State Service for Mobilization and Conscription**, informing her that her son, **E. E. Farzaliyev**, had died on **12 September 2022** as a result of the explosion of a mortar shell fired by servicemen of the Armed Forces of Armenia while defending the **Kalbajar District** and

Page 544

preventing large-scale provocative actions by the Armed Forces of Armenia.

Volume 36, case file sheets 188–189

According to the **protocol dated 13.09.2022 on the inspection of the body of serviceman of Military Unit No. 769 of the Ministry of Defense Hasanov Ibrahim Shokhrat oglu**, numerous bodily injuries were found on the body. During the inspection, the following items were duly packaged and seized: **1 military field jacket, 1 military field uniform, 1 military woolen field jacket, 1 yellow T-shirt, 1 pair of black socks, 1 military field jacket with a belt, 1 watch and 1 pair of military field trousers.**

Volume 184, case file sheets 171–172

According to **forensic medical expert conclusion No. 09 dated 13.09.2022**, the bodily injuries sustained by **Hasanov Ibrahim Shokhrat oglu** — **a fracture of the right temporal bone; a blind wound of the right temporal region accompanied by damage to the brain; acute hemorrhage; a fracture of the 12th rib; a blind wound penetrating the thoracic and abdominal cavities through the anterior and right lateral wall of the chest, accompanied by damage to the thoracic organs and liver; traumatic amputation of the right upper extremity at the level of the middle third of the elbow and at the level of the metacarpophalangeal joint of the third finger of the right hand, accompanied by a fracture of the right ulna; multiple blind wounds of the soft tissues of the right earlobe, anterior chest wall, right arm and right thigh** — were classified as causing **grievous harm to health** due to being life-threatening and resulted in death.

Volume 183, case file sheets 76–79

According to **forensic ballistic examination conclusion No. 3/190 dated 04.04.2024**, it was established that the items of military clothing submitted for examination — **1 military jacket, 1 military tunic, 1 sweater, 1 long-sleeved T-shirt and 1 pair of military trousers** belonging to **Hasanov Ibrahim Shokhrat oglu** — have the damage specified in the examination section of the report. Such injuries are caused by the impact of a bullet fired from a firearm or by fragments resulting from an explosion.

Volume 73, case file sheets 229–232

Questioned as the legal successor of victim **Hasanov Ibrahim Shokhrat oglu, Hasanov Shokhrat Ibrahim oglu** stated that his son, **I. Sh. Hasanov**, began military service in **January 2022**. On **13.09.2022**, he died as a result of the explosion of a mortar shell fired by servicemen of the Armed Forces of Armenia while defending the **Kalbajar District** and preventing large-scale provocative actions by the Armed Forces of Armenia.

Volume 186, case file sheets 223–225

According to the **protocol dated 13.09.2022 on the inspection of the body of serviceman of Military Unit No. 172 of the Ministry of Defense Gasimov Nihat Mehman oglu**, numerous bodily injuries were found on the body. During the inspection, the following items were duly packaged and seized: **1 military field jacket, 1 black glove, a dark-blue sweater, a short-sleeved T-shirt, 1 pair of brown boots, 1 pair of black socks, 1 pair of military field trousers and 1 pair of gray underpants.**

Volume 184, case file sheets 50–51

According to **forensic medical expert conclusion No. 13 dated 13.09.2022**, the bodily injuries sustained by **Gasimov Nihat Mehman oglu** — **traumatic hemopneumothorax; multiple injuries to the organs of the thoracic cavity; a blind wound of the right half of the anterior chest wall penetrating the thoracic cavity and accompanied by acute bleeding; multiple blind wounds of the soft tissues of the right upper forehead, right forehead, right side...**

Page 545

...of the neck, both forearms, both sides of the body, right hand, left thigh, and left lower leg — are classified as **grievous harm to health due to their life-threatening nature** and resulted in death.

Volume 73, case file sheets 8–11

According to **forensic ballistic examination conclusion No. 3/200 dated 07.04.2023**, it was established that the items of military clothing submitted for examination — **1 military tunic, 1 pair of military trousers, 1 short-sleeved T-shirt, and 1 glove** belonging to **Gasimov Nihat Mehman oglu** — have the damage specified in the examination section of the report. Such damage is characteristic of the impact of a bullet fired from a firearm or of a fragment from an explosion.

Volume 37, case file sheets 11–14

Questioned as the legal successor of victim **Gasimov Nihat Mehman oglu**, **Gasimov Mehman Yashar oglu** stated in his testimony that his son, **N. M. Gasimov**, began serving as a serviceman in a military unit of the Ministry of Defense in **April 2021**. On **13.09.2022**, he died as a result of the explosion of a mortar shell fired by servicemen of the Armed Forces of Armenia while defending the **Kalbajar District** and preventing large-scale provocative actions by Armenian armed formations.

Volume 70, case file sheets 66–69

According to the **protocol dated 13.09.2022 on the inspection of the body of serviceman of Military Unit No. 172 of the Ministry of Defense Muradov Bakhtiyar Gyuloglan oglu**, numerous bodily injuries were found on the body. During the inspection, the following items were duly packaged and seized: **1 tunic, 1 yellow woolen sweater, 1 T-shirt, 1 pair of trousers, 1 pair of black military boots, and 1 pair of black socks.**

Volume 184, case file sheets 62–63

According to **forensic medical expert conclusion No. 12 dated 13.09.2022**, the bodily injuries sustained by **Muradov Bakhtiyar Gyuloglan oglu** — **a blind wound penetrating the cavity through the right lateral wall of the chest, accompanied by acute bleeding, injury to the right lung, hemopneumothorax (accumulation of free blood and air in the thoracic cavity); multiple blind wounds of the soft tissues of the right half of the chest, right hand, both thighs and right knee joint; a blind wound of the left lower leg; a penetrating wound of the right lower leg accompanied by multiple open fractures of the fibula and tibia; and superficial wounds of the right temple and right lower leg** — were

classified as causing **grievous harm to health** due to their life-threatening nature and resulted in death.

Volume 183, case file sheets 99–102

According to **forensic ballistic examination conclusion No. 3/227 dated 03.04.2024**, it was established that the items of military clothing submitted for examination — **1 military field tunic, 1 woolen sweater, 1 pair of military field trousers, and 1 T-shirt** belonging to **Muradov Bakhtiyar Guloglan oglu** — have the damage specified in the examination section of the report. Such damage is characteristic of the impact of a bullet fired from a firearm or of a fragment from an explosion.

Volume 38, case file sheets 49–52

Questioned as the legal successor of victim **Muradov Bakhtiyar Gyuloglan oglu, Muradova Yegana Abbas gyzy** stated in her testimony that her son, **B. G. Muradov**, began serving as a serviceman in a military unit of the Ministry of Defense in **November 2021**. On **13.09.2022**, he died as a result of mortar fire conducted by servicemen of Armenian armed formations while defending the **Kalbajar District** and

Page 546

preventing large-scale provocative actions by Armenian armed formations.

Volume 70, case file sheets 197–199

According to the **protocol dated 13.09.2022 on the inspection of the body of serviceman of Military Unit No. 172 of the Ministry of Defense Aliyev Uzeyir Sabir oglu**, numerous bodily injuries were found on the body. During the inspection, the following items were duly packaged and seized: **1 long-sleeved sports garment, 1 military field tunic, 1 military field T-shirt, 1 ordinary T-shirt, 1 pair of black military boots, 1 pair of black socks, and 1 pair of field trousers**.

Volume 184, case file sheets 13–14

According to **forensic medical expert conclusion No. 14 dated 13.09.2022**, the bodily injuries sustained by **Aliyev Uzeyir Sabir oglu** — **acute blood loss; extensive damage to the left lung; multiple defective open fractures of the IV, V, VI and VII ribs on the left, from the posterior wall of the chest; a penetrating wound accompanied by hemopneumothorax (accumulation of free blood and air in the thoracic cavity); a blind wound of the right lower leg accompanied by open fractures of the fibula and tibia; and multiple blind wounds of the soft tissues of the temporo-occipital region, jaw region, left hand, left buttock and left knee joint** — were classified as causing **grievous harm to health** due to their life-threatening nature and resulted in death.

Questioned as the legal successor of victim **Aghazade Mirtalib Heydar oglu**, **Aghazade Ulviya Shakir gizi** stated in her testimony that her late husband, **M. Kh. Aghazade**, began extended military service in a military unit of the Ministry of Defense in **July 2021**. **M. Kh. Aghazade** died on **13.09.2022** as a result of fire opened by servicemen of the Armed Forces of Armenia while defending the **Lachin District** and preventing large-scale provocative actions by the Armed Forces of Armenia.

Volume 70, case file sheets 213–215

According to the **protocol dated 14.09.2022 on the inspection of the body of serviceman of Military Unit No. 769 of the Ministry of Defense Zulfizade Joshgun Adail oglu**, numerous bodily injuries were found on the body. During the inspection of the body, the following items were duly packaged and seized: **1 bag, 1 green long-sleeved shirt, 1 black warm undershirt, a circular bandage, 1 pair of yellow military boots, 1 pair of yellow socks, 1 pair of black socks, 1 pair of military field trousers, 1 pair of gray warm trousers and 1 pair of black civilian underpants**.

Volume 184, case file sheets 246–247

According to **forensic medical expert conclusion No. 36 dated 14.09.2022**, the bodily injuries sustained by **Zulfizade Joshgun Adail oglu** — **acute bleeding; hemoperitoneum (accumulation of free blood in the abdominal cavity); a blind wound penetrating through the left half of the anterior abdominal wall into the abdominal cavity, accompanied by damage to the abdominal organs; a penetrating wound of the left scapular region accompanied by acute bleeding, with an entrance wound located on the anterior surface of the upper third of the left scapular region and an exit wound located on the posterior surface of the middle third of the left scapular region; and a penetrating wound in the region of the right thigh accompanied by severe bleeding, with an entrance wound located on the anteromedial surface of the middle third of the right thigh and an exit wound located on the posterior surface of the middle third of the right thigh** — were life-threatening, classified as causing **grievous harm to health**, and resulted in death.

Volume 36, case file sheets 241–244

According to **forensic ballistic examination conclusion No. 3/198 dated 05.04.2023**, it was established that among the items of military clothing submitted for examination and belonging to **Zulfizade Joshgun Adail oglu**, **1 pair of military trousers, 3 shirts and 1 warm undershirt** have the damage specified in the examination section of the report. Such damage may have been caused by the impact of a bullet fired from a firearm or by a fragment resulting from an explosion.

Page 561

Volume 37, case file sheets 3–6

Questioned as the **legal heir of the victim Zulfizade Joshgun Adail oglu**, **Zulfizade Adail Mirzaaga oglu** stated in his testimony that his son, **J. A. Zulfizade**, began active military service in **April 2021**. **J. A. Zulfizade** died on **13 September 2022** as a result of the explosion of a mortar shell fired by servicemen of the Armed Forces of Armenia while defending the **Lachin District** and preventing large-scale provocative actions by the Armed Forces of Armenia.

Volume 186, case file sheets 233–235

According to the **protocol dated 14.09.2022 on the inspection of the body of serviceman of Military Unit No. 430 of the Ministry of Defense Mammadov Magomed Bilal oglu**, numerous bodily injuries were found on the body. During the inspection of the body, the following items were duly packaged and seized: **1 military field winter jacket, field boots, 1 pair of military field trousers, 1 black civilian jacket and 1 military field T-shirt**.

Volume 187, case file sheets 48–49

According to **forensic medical expert conclusion No. 37 dated 14.09.2022**, the bodily injuries sustained by **Mammadov Magomed Bilal oglu** — blind wounds of the soft tissues of the anterior and right lateral walls of the chest, right shoulder, both arms, right wrist, right hand and right lower leg, accompanied by acute bleeding; multiple blind penetrating wounds of the thoracic cavity through the anterior and right lateral walls of the chest, accompanied by acute bleeding and multiple injuries to the organs of the thoracic cavity — were classified as **grievous harm to health due to third- to fourth-degree burns of the head, torso and extremities, posing a danger to life and having resulted in death**.

Volume 73, case file sheets 24–27

According to **forensic ballistic examination conclusion No. 3/237 dated 07.04.2023**, among the items of military clothing belonging to **Mammadov Magomed Bilal oglu** submitted for examination — **1 military field tunic, 1 military field warm jacket, 1 pair of military field trousers, 1 military field belt, 1 pair of field-type trousers, 1 pair of field-type T-shirts, 1 pair of boots, 1 pair of socks and 1 neckerchief** — there is damage specified in the examination section of the report. Such injuries are characteristic of the impact of a bullet fired from a firearm or of a fragment resulting from an explosion.

Volume 38, case file sheets 5–8

According to **forensic genetic examination conclusion No. 22/598P dated 21.09.2022**, the biological samples taken from the unidentified body conventionally designated “**Unknown-1**” belong with a probability of **99.99%** to **Mammadov Magomed Bilal oglu**.

Volume 187, case file sheets 62–66

Questioned as the **legal heir of the victim Mammadov Magomed Bilal oglu**, **Mammadov Bilal Allahverdi oglu** stated in his testimony that his son, **M. B. Mammadov**, began serving as an active-duty serviceman in a military unit of the Ministry of Defense in **June 2020**. **M. Kh. Agazade** died on **13 September 2022** as a result of the explosion of a mortar shell fired by servicemen of the Armed Forces of Armenia while defending the **Kalbajar District** and preventing large-scale provocative actions by the Armed Forces of Armenia.

Volume 109, case file sheets 86–89

According to the **protocol dated 14.09.2022 on the inspection of the body of serviceman of Military Unit No. 430 of the Ministry of Defense Huseynov Erkin Adalat oglu**, numerous bodily injuries were found on the body. During the inspection of the body, the following items were duly packaged and seized: **1 white circular bandage**,

Page 562

1 military field tunic, a mobile phone, 1 yellow warm undershirt, 1 military field short-sleeved T-shirt, 1 pair of black military boots and 1 pair of dark-blue socks.

Volume 187, case file sheets 94–96

According to **forensic medical expert conclusion No. 38 dated 14.09.2022**, the bodily injuries sustained by **Huseynov Erkin Adalat oglu** — acute hemoperitoneum (accumulation of free blood in the abdominal cavity), a blind wound penetrating through the right side of the chest into the abdominal cavity, accompanied by damage to the abdominal organs, and penetrating wounds in the arm accompanied by a comminuted open fracture of the right humerus — are classified as **grievous harm to health due to being life-threatening and having resulted in death**.

Volume 36, case file sheets 245–248

According to **forensic ballistic examination conclusion No. 3/214 dated 10.04.2023**, among the **13 items of military clothing** submitted for examination, **1 military tunic, 1 pair of military trousers, 1 warm T-shirt, 1 warm T-shirt and 1 T-shirt** belonging to **Huseynov Erkin Adalat oglu** have the damage specified in the examination section of the report, and this damage was caused by a firearm. It is characteristic of damage resulting from the impact of a bullet fired from a firearm or of a fragment from an explosion.

Volume 38, case file sheets 101–104

Questioned as the **legal heir of the victim Huseynov Erkin Adalat oglu**, **Huseynov Adalat Firuz oglu** stated in his testimony that his son, **E. A. Huseynov**, began serving as an officer in a military unit of the Ministry of Defense in **December 2021**. **M. Kh. Agazade** died on **13 September 2022** as a result of fire opened by servicemen of the Armed Forces of Armenia

while defending the **Kalbajar District** and preventing large-scale provocative actions by the Armed Forces of Armenia.

Volume 187, case file sheets 107–109

According to the **protocol dated 14.09.2022 on the inspection of the body of serviceman of Military Unit No. 430 of the Ministry of Defense Budagly Ismail Magerram oglu**, numerous bodily injuries were found on the body. During the inspection of the body, the following items were duly packaged and seized: **1 bulletproof vest, 1 military field tunic, 1 black neckerchief, 1 jacket, 1 dark-green short-sleeved T-shirt, 1 gray soldier's boot, 1 pair of black socks, 1 pair of military field trousers and 1 pair of black underpants.**

Volume 187, case file sheets 153–154

According to **forensic medical expert conclusion No. 39 dated 14.09.2022**, the bodily injuries sustained by **Budagly Ismail Magerram oglu** — a defective, comminuted, open and closed fracture of the nasal bone and skull base with displacement; an extensive open wound of the scalp accompanied by diffuse crushing and destruction of brain tissue; multiple open fractures of the right humerus, right diaphysis and ulna; multiple blind wounds accompanied by severe bleeding; and multiple blind wounds of the soft tissues of the right buttock, right thigh and right lower leg accompanied by severe bleeding — were classified as causing **grievous harm to health due to being life-threatening and resulted in death.**

Volume 183, case file sheets 1–4

According to **forensic ballistic examination conclusion No. 3/193 dated 03.04.2023**, among the items of military clothing belonging to **Budagly Ismail Magerram oglu** submitted for examination — **1 bulletproof vest, 1 military tunic, 1 pair of military trousers, 1 woolen jacket, 1 undershirt, 1 T-shirt and 1 boot** — there is damage specified in the examination section of the report...

Page 563

...the damage was caused by a bullet or is characteristic of damage caused by fragments as a result of an explosion.

Volume 73, case file sheets 237–240

Questioned as the legal heir of the victim **Budagly Ismail Maharram oglu, Budagov Maharram Musa oglu** stated in his testimony that his son, **I. M. Budarly**, began serving as an officer in a military unit of the Ministry of Defense in **August 2020**. **I. M. Budarly** died on **13.09.2022** as a result of the explosion of a mortar shell fired by servicemen of the Armed Forces of Armenia while defending the **Kalbajar District** and preventing large-scale provocative actions by the Armed Forces of Armenia.

Volume 108, case file sheets 137–139

According to the **protocol dated 14.09.2022 on the inspection of the body of serviceman of Military Unit No. 430 of the Ministry of Defense Gumbatov Ravil Mubariz oglu**, numerous bodily injuries were found on the body. During the inspection of the body, the

following items were duly packaged and seized: **1 military field tunic, 1 military field long-sleeved shirt, 1 pair of yellow military boots, 2 pairs of black socks, 1 pair of field trousers, 1 pair of gray sports trousers and 1 pair of dark-gray civilian underpants.**

Volume 187, case file sheets 71–72

According to **forensic medical expert conclusion No. 40 dated 13.09.2022**, the bodily injuries sustained by **Gumbatov Ravil Mubariz oglu** — **traumatic amputation of the head, neck and left upper extremity, accompanied by acute blood loss and crushing and destruction of brain tissue; traumatic amputation of the right upper extremity at the level of the radiocarpal joint, accompanied by acute blood loss; multiple blind wounds of the soft tissues of the right arm, anterior chest wall and left thigh** — were classified as causing **grievous harm to health due to their life-threatening nature** and resulted in death.

Volume 183, case file sheets 5–8

According to **forensic ballistic examination conclusion No. 3/236 dated 07.04.2023**, it was established that the items of military clothing belonging to **Gumbatov Ravil Mubariz oglu** submitted for examination — **1 pea coat, 1 pair of trousers, 1 woolen jacket, 1 pair of civilian sports trousers, 1 T-shirt, 1 pair of civilian field trousers with a Turkish pattern, 1 pair of gray sports trousers and 1 pair of dark-gray civilian underpants** — have the damage specified in the examination section of the report. Such damage is characteristic of injuries caused by the impact of a bullet fired from a firearm or by fragments resulting from an explosion.

Volume 38, case file sheets 1–4

According to **forensic genetic examination conclusion No. 22/597P dated 21.09.2022**, the biological samples taken from the unidentified body conventionally designated “**Unknown-1**” belong, with a probability of **99.99%**, to **Gumbatov Ravil Mubariz oglu**.

Volume 187, case file sheets 82–87

Questioned as the legal heir of the victim **Gumbatov Ravil Mubariz oglu, Gumbatova Leyla Jamal gizi** stated in her testimony that her late husband, **R. M. Gumbatov**, began serving as an officer in a military unit of the Ministry of Defense in **December 2020**. **R. M. Gumbatov** died on **13.09.2022** as a result of the explosion of a mortar shell fired by servicemen of the Armed Forces of Armenia while defending the **Kalbajar District** and preventing large-scale provocative actions by the Armed Forces of Armenia.

Volume 70, case file sheets 112–114

Page 564

According to the **protocol dated 15.09.2022 on the inspection of the body of serviceman of Military Unit No. 073 of the Ministry of Defense Gurbanov Khagan Dashgin oglu**, numerous bodily injuries were found on the body. During the inspection of the body, the following items were duly packaged and seized: **1 military field long-sleeved T-shirt, 1 pair of military field trousers with a belt and 1 undershirt.**

Volume 185, case file sheets 73–74

According to **forensic medical expert conclusion No. 41 dated 14.09.2022**, the bodily injuries sustained by **Gurbanov Khagan Dashgin oglu** — **a defective, comminuted open fracture of the frontal bone; a blind wound penetrating the cranial cavity in the right frontal region, accompanied by diffuse damage to brain tissue; blind wounds of the soft tissues of the left frontal region and the outer surface of the right hip joint; and contusion of the left lumbar region**— were classified as causing **grievous harm to health due to their life-threatening nature** and resulted in death.

Volume 183, case file sheets 9–12

According to **forensic ballistic examination conclusion No. 3/218 dated 10.04.2023**, it was established that, among the items of military clothing belonging to **Gurbanov Khagan Dashgin oglu** submitted for examination — **1 military field tunic, 1 pair of military field trousers, 1 field shirt, 1 undershirt, 1 pair of socks and 1 pair of boots** — there is damage specified in the examination section of the report. This damage was caused by a bullet or by fragments resulting from an explosion.

Volume 38, case file sheets 85–88

Questioned as the legal heir of the victim **Gurbanov Khagan Dashgin oglu**, **Gurbanov Dashgin Ismail oglu** stated in his testimony that his son, **G. D. Gurbanov**, began active military service in **October 2020**. **G. D. Gurbanov** died on **13.09.2022** as a result of the explosion of a mortar shell fired by servicemen of the Armed Forces of Armenia while defending the **Kalbajar District** and preventing large-scale provocative actions by the Armed Forces of Armenia.

Volume 109, case file sheets 143–146

According to the **protocol dated 15.09.2022 on the inspection of the body of serviceman of Military Unit No. 769 of the Ministry of Defense Huseynov Saddam Rafig oglu**, numerous bodily injuries were found on the body. During the inspection of the body, the following items were duly packaged and seized: **1 military field tunic, 1 black long-sleeved shirt, 1 metal shin guard, 1 blue sports trousers and 1 black pair of underpants**.

Volume 185, case file sheets 180–181

According to **forensic medical expert conclusion No. 42 dated 15.09.2022**, the bodily injuries sustained by **Huseynov Saddam Rafig oglu** — **a defective, comminuted open fracture of the frontal bone; a blind wound penetrating the cranial cavity in the left frontal region, accompanied by diffuse injury to brain tissue; a multiple open fracture of the fourth lumbar vertebra; a blind wound penetrating the lumbar region into the abdominal cavity, accompanied by acute blood loss and damage to the abdominal organs; a multiple open fracture of the humerus; a blind wound of the left humerus accompanied by severe bleeding; multiple blind wounds of the soft tissues of the left shoulder girdle, left arm, both thighs and both lower legs, accompanied by severe bleeding; and multiple lacerated wounds on both sides of the body, in the lower left part of the back and on both calves, accompanied by subcutaneous hemorrhages...**

...were classified as **grievous harm to health due to the severity of the life-threatening injuries** and resulted in death.

Volume 183, case file sheets 13–16

According to **forensic ballistic examination conclusion No. 3/247 dated 10.04.2023**, it was established that the items of military clothing submitted for examination and belonging to **Huseynov Saddam Rafig oglu — 1 tunic, 1 pair of trousers, 1 military long-sleeved shirt, 1 civilian long-sleeved sports shirt, 1 civilian sports vest, 1 civilian jacket, 1 pair of socks, 1 pair of gloves and 1 pair of boots** — have the damage described in the examination section of the report. Such damage is characteristic of damage caused by a bullet fired from a firearm or by fragments resulting from an explosion.

Volume 37, case file sheets 218–221

Questioned as the legal heir of victim **Huseynov Saddam Rafig oglu, Huseynov Rafig Ismail oglu** stated in his testimony that his son, **S. R. Huseynov**, had served as a conscript serviceman in a military unit of the Ministry of Defense since **April 2021**. **S. R. Huseynov** died on **13.09.2022** as a result of the explosion of a mortar shell fired by servicemen of the Armed Forces of Armenia while defending the **Lachin District** and preventing large-scale provocative actions by the Armed Forces of Armenia.

Volume 71, case file sheets 148–150

According to the **protocol dated 15.09.2022 on the inspection of the body of serviceman of Military Unit No. 073 of the Ministry of Defense Maharramov Turan Tarlan oglu**, numerous bodily injuries were found on the body. During the inspection, the following items were duly packaged and seized: **1 pair of field trousers, 1 black jacket and other items**.

Volume 185, case file sheets 37–38

According to **forensic medical expert conclusion No. 44 dated 15.09.2022**, the bodily injuries sustained by **Maharramov Turan Tarlan oglu — a defective, comminuted open fracture of the occipital bone; a blind wound of the right occipital region penetrating the cranial cavity and accompanied by diffuse damage to brain tissue; and a hematoma of the left cheek** — were classified as **grievous harm to health due to their severity, including life-threatening injuries**, and resulted in death.

Volume 183, case file sheets 21–23

According to **forensic ballistic examination conclusion No. 3/221 dated 10.04.2023**, it was established that, among the items of military clothing submitted for examination and belonging to **Maharramov Turan Tarlan oglu, 1 military field tunic, 1 pair of military field trousers, 1 military field shirt, 1 jacket, 1 pair of civilian sports trousers, 1 shirt, 1 pair of socks, 1 pair of gloves and 1 pair of boots** have the damage described in the examination section of the report. Such damage is characteristic of damage caused by a bullet fired from a firearm or by fragments resulting from an explosion.

Volume 38, case file sheets 73–76

Questioned as the legal heir of victim **Maharramov Turan Tarlan oglu, Maharramov Tarlan Mukhtar oglu** stated in his testimony that his son, **T. T. Maharramov**, had served as a conscript serviceman in a military unit of the Ministry of Defense since **April 2021**. **T. T. Maharramov** died on **13.09.2022** as a result of fire opened by servicemen of the Armed Forces of Armenia while defending the **Kalbajar District** and preventing large-scale provocative actions by the Armed Forces of Armenia.

Volume 70, case file sheets 142–144

According to the **protocol dated 15.09.2022 on the inspection of the body of serviceman of Military Unit No. 073 of the Ministry of Defense Huseynov Elmir Abdul oglu**, it was established that numerous bodily injuries were found on the body.

Page 566

During the inspection of the body, the following items were duly packaged and seized: **1 military field coverall, 1 yellow T-shirt, 1 pair of military field trousers, 1 undershirt, 1 pair of black military boots and 1 pair of yellow socks.**

Volume 185, case file sheets 146–147

According to **forensic medical expert conclusion No. 43 dated 15.09.2022**, the bodily injuries sustained by **Huseynov Elmir Abdul oglu** — **defective, comminuted open fractures of the occipital and parietal bones; a blind wound of the right occipital region penetrating the cranial cavity and accompanied by diffuse damage to brain tissue; a blind wound of the soft tissues of the left occipital region; and injuries including multiple abrasions of the left eyebrow, nose and chin** — were classified as **grievous harm to health due to their severity** and resulted in death.

Volume 183, case file sheets 17–20

According to **forensic ballistic examination conclusion No. 3/231 dated 07.04.2023**, it was established that among the items of military clothing submitted for examination and belonging to **Kalbiyev Isa Rahim oglu**, a **hooded mask** has the damage specified in the examination section of the report, characteristic of damage caused by a bullet fired from a firearm or by a fragment resulting from an explosion.

Volume 38, case file sheets 33–36

Questioned as the **legal heir of victim Kalbiyev Isa Rahim oglu**, **Kalbiyev Rahim Payizkhan oglu** stated in his testimony that his son, **I. R. Kalbiyev**, began serving as an active-duty serviceman in a military unit of the Ministry of Defense in **October 2020**. **I. R. Kalbiyev** died on **13.09.2022** as a result of fire opened by servicemen of the Armed Forces...

Page 579

...of Armenia while defending the **Kalbajar District** and preventing large-scale provocative actions by the Armed Forces of Armenia.

Volume 36, case file sheets 156–158

According to the **protocol dated 16.09.2022 on the inspection of the body of serviceman of Military Unit No. 073 of the Ministry of Defense Guliyev Farid Vahid oglu**, numerous bodily injuries were found on the body. During the inspection, the following items were duly packaged and seized: **1 long-sleeved shirt, 1 short-sleeved field-type shirt, 1 pair of military field trousers with a waist belt, 1 pair of black military boots, 1 pair of black socks, a package of sweets, and 1 identification tag.**

Volume 188, case file sheets 178–179

According to **forensic medical expert conclusion No. 65 dated 16.09.2022**, the bodily injuries sustained by **Guliyev Farid Vahid oglu** — **multiple open fractures of the II and III ribs; a blind wound of the right half of the anterior chest wall penetrating into the thoracic cavity, accompanied by acute bleeding and damage to the organs of the thoracic cavity; multiple open fractures of the I and II ribs; a blind wound of the right half of the anterior chest wall penetrating into the thoracic cavity, accompanied by acute bleeding and damage to the organs of the thoracic cavity; multiple blind wounds of the right eye socket, lower lip, and soft tissues of the right half of the face** — were classified as causing **grievous harm to health due to their life-threatening nature** and resulted in death.

Volume 183, case file sheets 64–67

According to **forensic ballistic examination conclusion No. 3/232 dated 07.04.2023**, it was established that among the items of military clothing belonging to **Guliyev Farid Vahid oglu** submitted for examination, the **long-sleeved and short-sleeved shirts** have the damage specified in the examination section of the report, characteristic of damage caused by a bullet fired from a firearm or by fragments resulting from an explosion.

Volume 37, case file sheets 246–249

Questioned as the **legal heir of victim Guliyev Farid Vahid oglu, Guliyev Vahid Mahir oglu** stated in his testimony that his son, **F. V. Guliyev**, began serving as a serviceman in a military unit of the Ministry of Defense in **January 2022**. **F. V. Guliyev** died on **14.09.2022** as a result of fire opened by servicemen of the Armed Forces of Armenia while defending the **Kalbajar District** and preventing large-scale provocative actions by the Armed Forces of Armenia.

Volume 70, case file sheets 119–121

According to the **protocol dated 16.09.2022 on the inspection of the body of serviceman of Military Unit No. 172 of the Ministry of Defense Iskenderov Gorkhmaz Iskender oglu**, numerous bodily injuries were found on the body. During the inspection, the following items were duly packaged and seized: **1 military field woolen cap, 1 military field tunic, 1 black warm long-sleeved shirt, 1 long-sleeved military-style T-shirt, 1 pair of military-style trousers, 1 military-style short-sleeved T-shirt, black sports trousers, a black sweatshirt, black military boots, and 1 pair of black socks.**

Volume 188, case file sheets 89–90

According to **forensic medical expert conclusion No. 64 dated 16.09.2022**, the bodily injuries sustained by **Iskenderov Gorkhmaz Iskender oglu** — **a penetrating wound of the neck with an entrance wound on the anterior surface of the right half of the neck and an exit wound on the anterior surface of the left half of the neck, accompanied by damage to the major vessels of the neck and the trachea; a penetrating wound of the left shoulder accompanied by severe bleeding, with the entrance wound located on the outer surface of the left shoulder and the exit wound on the inner surface of the left shoulder; acute bleeding; an open displaced fracture of the third rib on the right; blind wounds penetrating into the thoracic cavity through the right upper portion of the back and the right lateral wall of the chest, accompanied by multiple injuries to the organs of the thoracic cavity** — were classified as causing **grievous harm to health due to their life-threatening nature** and resulted in death.

Volume 73, case file sheets 64–67

Page 580

According to **forensic ballistic examination conclusion No. 3/209 dated 10.04.2023**, it was established that among the items of military clothing belonging to **Iskenderov Gorkhmaz Iskender oglu** submitted for examination — **1 tunic, 1 short-sleeved military shirt, 1 undershirt, 1 warm undershirt, 1 left sock and 1 left boot** — there is damage specified in the examination section of the report, characteristic of damage caused by a bullet fired from a firearm or by fragments resulting from an explosion.

Volume 37, case file sheets 186–189

Questioned as the **legal heir of victim Iskenderov Gorkhmaz Iskender oglu, Iskenderov Iskender Oktay oglu** stated in his testimony that his son, **G. I. Iskenderov**, began serving as an officer in a military unit of the Ministry of Defense in **2021**. **G. I. Iskenderov** died on **12.09.2022** as a result of fire opened by servicemen of the Armed Forces of Armenia

while defending the **Kalbajar District** and preventing large-scale provocative actions by the Armed Forces of Armenia.

Volume 36, case file sheets 112–114

According to the **protocol dated 16.09.2022 on the inspection of the body of serviceman of Military Unit No. 769 of the Ministry of Defense Gurban-zade Jamil Anar oglu**, numerous bodily injuries were found on the body. During the inspection, the following items were duly packaged and seized: **a military field tunic, jacket, gray short-sleeved shirt, 1 pair of khaki gloves, and 1 bandage sheet.**

Volume 188, case file sheets 202–203

According to **forensic medical expert conclusion No. 66 dated 17.09.2022**, the bodily injuries sustained by **Gurban-zade Jamil Anar oglu** — **a blind wound in the neck region accompanied by acute blood loss, multiple injuries to the major vessels of the neck and the organs of the thoracic cavity; superficial wounds of both lower legs and the anterior surfaces of both knee joints** — were classified as causing **grievous harm to health due to their life-threatening nature** and resulted in death.

Volume 73, case file sheets 68–71

According to **forensic ballistic examination conclusion No. 3/230 dated 10.04.2023**, it was established that among the **13 items of military clothing** belonging to **Gurban-zade Jamil Anar oglu** submitted for examination — **1 military field tunic, 1 military field sweater and 1 military neckerchief** — there is damage specified in the examination section of the report, characteristic of damage caused by a bullet fired from a firearm or by a projectile fragment.

Volume 38, case file sheets 37–40

Questioned as the **legal heir of victim Gurban-zade Jamil Anar oglu, Gurbanov Anar Saadat oglu** stated in his testimony that his son, **J. A. Gurban-zade**, began serving as a serviceman in a military unit of the Ministry of Defense in **April 2021**. **J. A. Gurban-zade** died on **13.09.2022** as a result of fire opened by servicemen of the Armed Forces...

Page 581

...of Armenia while defending the **Lachin District** and preventing large-scale provocative actions by the Armed Forces of Armenia.

Volume 186, case file sheets 253–254

According to the **protocol dated 16.09.2022 on the inspection of the body of serviceman of Military Unit No. 769 of the Ministry of Defense Ganbarli Rashad Alizamin oglu**, numerous bodily injuries were found on the body. During the inspection, the following items were duly packaged and seized: **1 summer field shirt with long sleeves, 1 military field T-shirt, 1 pair of black boots, 1 pair of black socks, military field trousers, and 1 pair of blue boots.**

Volume 188, case file sheets 129–130

According to **forensic medical expert conclusion No. 67 dated 17.09.2022**, the bodily injuries sustained by **Ganbarli Rashad Alizamin oglu** — **acute bleeding; multiple open fractures of the right fibula and right tibia; a blind wound of the right lower leg accompanied by injury to the right popliteal artery and vein; acute bleeding; a blind wound of the right foot accompanied by multiple open fractures of the second and third metatarsal bones of the right foot; multiple blind wounds of the soft tissues of the lower back, both buttocks, right thigh, right lower leg and right foot**— were classified as causing **grievous harm to health due to their life-threatening nature** and resulted in death.

Volume 73, case file sheets 72–75

According to **forensic ballistic examination conclusion No. 3/207 dated 06.04.2023**, it was established that the items of military clothing submitted for examination and belonging to **Ganbarli Rashad Alizamin oglu** — **1 pair of military trousers, 1 long-sleeved undershirt, 1 short-sleeved undershirt, 1 pair of sports trousers, 1 sports jacket, 1 undershirt and 1 boot** — have the damage specified in the examination section of the report, characteristic of damage caused by a bullet fired from a firearm or by fragments resulting from an explosion.

Volume 37, case file sheets 43–46

Questioned as the **legal heir of victim Ganbarli Rashad Alizamin oglu, Ganbarov Alizamin Gushat oglu** stated in his testimony that his son, **R. A. Ganbarli**, began serving as an extended-service serviceman in a military unit of the Ministry of Defense in **March 2022**. **R. A. Ganbarli** died on **16.09.2022** as a result of fire opened by servicemen of the Armed Forces of Armenia while defending the **Lachin District** and preventing large-scale provocative actions by the Armed Forces of Armenia on **12.09.2022**.

Volume 36, case file sheets 136–138

According to the **protocol dated 13.09.2022 on the inspection of the body of serviceman of Military Unit No. 3100 of the State Border Service Mekhbalı Farid Kamaladdin oglu**, numerous bodily injuries were found on the body. During the inspection, the following items were duly packaged and seized: **a summer field jacket and trousers, a black long-sleeved shirt, a white short-sleeved T-shirt, 1 pair of gray socks and black underpants**.

Volume 182, case file sheets 84–92

According to **forensic medical expert conclusion No. 18 dated 15.09.2022**, the bodily injuries sustained by **Mekhbalı Farid Kamaladdin oglu** — **incomplete traumatic amputation of the left lower extremity at the level of the lower third, with the limb retained by a skin flap** — were classified as a **life-threatening injury and, by degree, as grievous harm to health**, and resulted in death.

Volume 182, case file sheets 104–105

Page 582

According to **forensic ballistic examination conclusion No. 3/1289 dated 24.11.2022**, it was established that the items of military clothing submitted for examination and belonging

to **Mekhbali Farid Kamaladdin oglu — 1 military uniform with a cap and 1 long-sleeved undershirt** — have damage of the quantity and dimensions specified in the examination section of the report. Based on the shape, dimensions and morphological structure of the damage, as well as the presence around the damage of explosive substance (TNT) and powder particles, the examined damage is characteristic of that caused by fragments from an explosion, spreading from the center of the explosion in different directions.

Volume 182, case file sheets 100–103

Questioned as the **legal heir of victim Mekhbali Farid Kamaladdin oglu, Mekhbali Farmin Kamaladdin oglu** stated in his testimony that his late brother, **F. K. Mekhbali**, began serving as an officer in a military unit of the State Border Service in **2015**. **F. K. Mekhbali** died on **12.09.2022** as a result of the explosion of a mortar shell fired by servicemen of the Armed Forces of Armenia while defending the **Zangilan District** and preventing large-scale provocative actions by the Armed Forces of Armenia.

Volume 108, case file sheets 178–180

According to the **protocol dated 13.09.2022 on the inspection of the body of serviceman of Military Unit No. 2021 of the State Border Service Mammadov Azer Mustafa oglu**, numerous bodily injuries were found on the body. During the inspection, the following items found on the body were duly packaged and seized: **1 pair of black leather fingerless gloves, a black short-sleeved shirt, military field trousers, 1 pair of black military boots, 1 pair of black socks, 1 black undershirt with a purple pattern, 1 purple lighter and 1 wallet from the right trouser pocket.**

Volume 182, case file sheets 28–36

According to **forensic medical expert conclusion No. 15 dated 13.09.2022**, the bodily injuries sustained by **Mammadov Azer Mustafa oglu — incomplete traumatic amputation of the lower third of the left foot, retained by a soft-tissue flap; shrapnel wounds of the left upper extremity and the left half of the chest, resulting in damage to the lower lobe of the left lung and left-sided hemopneumothorax** — were classified as causing **grievous harm to health due to their life-threatening nature** and resulted in death.

Volume 182, case file sheets 45–46

According to **forensic ballistic examination report Nos. 3/1296 and 3/1297 dated 24.11.2022**, cartridge No. 1 submitted for examination is a **factory-manufactured 7.62×54 mm cartridge**, intended for use in weapons of this caliber (**SVD, Mosin rifle, PK, PKM**) and other rifled firearms of the corresponding caliber, and is considered **ammunition suitable for its intended use (firing).**

Volume 182, case file sheets 48–52

Questioned as the **legal heir of victim Mammadov Azer Mustafa oglu, Neymatov Mustafa Veli oglu** stated in his testimony that his son, **A. M. Mammadov**, began active military service in a military unit of the State Border Service in **January 1999**. In **2020**, upon completion of his term of service, **A. M. Mammadov** died on **13 September 2022** as a result

of the explosion of a mortar shell fired by servicemen of the Armed Forces of Armenia while defending the **Zangilan District** and preventing large-scale provocative actions by the Armed Forces of Armenia.

Volume 109, case file sheets 112–115

Page 583

Volume 182, case file sheets 57–59

According to the **protocol dated 27.09.2022 on the inspection of the body of serviceman of Military Unit No. 769 of the Ministry of Defense Abdullayev Elvin Elchin oglu**, it was established that numerous bodily injuries were found on the body. During the inspection, the following items were duly packaged and seized: **1 military field tunic, 1 yellow woolen sweater, 1 yellow short-sleeved T-shirt, 1 pair of military field trousers with a military belt, 1 yellow undershirt, 1 pair of black military boots, and 1 pair of black socks.**

Volume 185, case file sheets 247–249

According to **forensic medical expert conclusion No. 70 dated 27.09.2022**, it was established that the bodily injuries sustained by **Abdullayev Elvin Elchin oglu** — a **penetrating wound of the head with fractures of the bones of the skull and facial skeleton and diffuse injury to brain tissue, with an entrance wound in the right half of the upper third of the neck and an exit wound in the left fronto-occipital region; multiple fractures and displacement of the humerus and ulna, with an entrance wound located on the posterior surface of the right elbow joint and an exit wound on the outer surface of the middle third of the right humerus; a penetrating wound of the posterior surface of the right elbow joint accompanied by open fractures; a penetrating wound of the right scapula accompanied by acute bleeding, with an entrance wound located on the posterior surface of the middle third of the right scapula and an exit wound located on the anteromedial surface of the middle third of the right scapula; a penetrating wound of the right scapula accompanied by acute bleeding, with an entrance wound located on the posterior surface of the middle third of the right scapula and an exit wound located on the anteromedial surface of the middle third of the right scapula; a penetrating wound of the soft tissues of the outer surface of the lower third of the left arm; acute bleeding, with an entrance wound located on the dorsal surface of the left hand in the projection of the first symphysis and an exit wound located on the dorsal surface of the left hand in the projection of the third-fourth symphysis; a penetrating wound of the left hand accompanied by multiple open fractures of the III and IV metacarpal bones; a penetrating wound of the epigastric region with an entrance wound in the supraclavicular region and an exit wound in the right lumbar region, accompanied by severe bleeding and multiple injuries to the abdominal organs; acute bleeding, with an entrance wound on the posterior surface of the right half of the chest in the projection of the X rib and an exit wound on the right lateral surface of the chest in the projection of the IX rib; fractures of the IX and X ribs; a penetrating wound of the right half of the chest accompanied by multiple injuries to the thoracic organs; acute bleeding, with an entrance wound on the posterior surface of the chest at the level of the first thoracic vertebra, 1.5 cm to the right of the midline, and an exit wound on the left lateral wall of the abdomen, 0.2 cm from the lower edge of the costal arch; a penetrating wound of the posterior surface of the chest accompanied by multiple injuries to the**

organs of the thoracic and abdominal cavities; a penetrating wound of the right thigh accompanied by severe bleeding; 4 penetrating wounds of the left thigh accompanied by acute bleeding and multiple open fractures of the femur; and a penetrating wound of the left lower leg accompanied by severe bleeding — were classified as grievous harm to health due to their life-threatening nature and resulted in death.

Volume 37, case file sheets 104–108

According to **forensic ballistic examination conclusion No. 3/240 dated 07.04.2023**, it was established that the items of military clothing submitted for examination and belonging to **Abdullayev Elvin Elchin oglu** — **1 military field tunic, 1 yellow woolen sweater, 1 yellow short-sleeved T-shirt, 1...**

Page 584

...pair of military field trousers, and 1 item of yellow thermal underwear — have the bodily damage specified in the examination section of the report, characteristic of damage caused by a bullet fired from a firearm or by fragments resulting from an explosion.

Volume 38, case file sheets 17–20

Questioned as the **legal heir of victim Abdullayev Elvin Elchin oglu, Abdullayeva Lala Mikail gizi** stated in her testimony that her son, **E. E. Abdullayev**, began military service in a military unit of the Ministry of Defense in **January 2022**. **E. E. Abdullayev** died on **13 September 2022** as a result of the explosion of a mortar shell fired by servicemen of the Armed Forces of Armenia while defending the **Lachin District** and preventing large-scale provocative actions by the Armed Forces of Armenia.

Volume 70, case file sheets 85–87

According to the **protocol dated 14.09.2022 on the inspection of the body of serviceman of Military Unit No. 2021 of the State Border Service Mammadov Nakhid Huseynaga oglu**, it was established that numerous bodily injuries were found on the body. During the inspection, the following items were duly packaged and seized: **field trousers, a field tunic, a black short-sleeved T-shirt, and blue underpants.**

Volume 187, case file sheets 240–251

According to **forensic medical expert conclusion No. 21 dated 14.09.2022**, it was established that the bodily injuries sustained by **Mammadov Nakhid Huseynaga oglu** — **1 penetrating gunshot wound to the head, penetrating through the middle of the forehead and exiting through the right posterior temporal margin, accompanied by crushing and disintegration of brain tissue and multiple fractures of the bones of the cranial vault along the wound track** — were **life-threatening, caused grievous harm to health and resulted in death.**

Volume 187, case file sheets 262–263

According to **forensic ballistic examination conclusion No. 3/1291 dated 24.11.2022**, it was established that the items submitted for examination — **1 coat with a hood, 1 short-**

sleeved T-shirt, 1 pair of military-style trousers, and 1 undershirt, belonging to **Mammadov Nakhid Huseynaga oglu** — have damage of the quantity and dimensions specified in the examination section of the report. Based on the shape, dimensions and morphological structure of this damage, as well as the presence of explosive substances (**TNT**) and powder particles around the damage, the examined damage is characteristic of that caused by fragments resulting from an explosion, spreading from the center of the explosion in different directions.

Volume 187, case file sheets 265–268

Questioned as the **legal heir of victim Mammadov Nakhid Huseynaga oglu**, **Mammadov Huseynagha Mammad oglu** stated in his testimony that his son, **N. H. Mammadov**, began serving as an extended-service serviceman in a military unit of the State Border Service in **2014**. **N. H. Mammadov** died on **13 September 2022** as a result of fire opened by servicemen of the Armed Forces of Armenia while defending the **Zangilan District** and preventing large-scale provocative actions by the Armed Forces of Armenia.

Volume 36, case file sheets 176–178

According to **forensic medical expert conclusion No. 14 dated 17.09.2022**, it was established that the bodily injuries sustained by **Omarov Eshgin Nasib oglu** — **incomplete traumatic amputation of the torso at the level of the V lumbar vertebra, with the body remaining attached by a skin flap; open comminuted fractures of the IV and V lumbar vertebrae; multiple injuries to the organs of the abdominal and pelvic cavities; complete traumatic avulsion of the right...**

Page 585

...lower extremity at the level of the hip joint and incomplete traumatic avulsion of the left lower extremity at the level of the hip joint, with the limb hanging by fragments of soft tissue; multiple superficial wounds of the nose, anterior abdominal wall, left upper arm, anterior surface of the left wrist joint and anterior surfaces of both thighs— were classified as causing **grievous harm to health due to the severity of the life-threatening injuries** and resulted in death.

Volume 204, case file sheets 189–192

Questioned as the **legal heir of victim Omarov Eshgin Nasib oglu**, **Omarov Nasib Magomed oglu** stated in his testimony that his son, **E. N. Omarov**, began serving as an extended-service serviceman in a military unit of the Ministry of Defense in **June 2021**. **E. N. Omarov** died on **13 September 2022** as a result of the explosion of a mortar shell fired by servicemen of the Armed Forces of Armenia while defending the **Kalbajar District** and preventing large-scale provocative actions by the Armed Forces of Armenia.

Volume 71, case file sheets 205–208

According to the **protocol dated 17.09.2022 on the inspection of the body of serviceman of Military Unit No. 073 of the Ministry of Defense Garazade Nijat Malik oglu**, numerous bodily injuries were found on the body. During the inspection, the following items were duly packaged and seized: **1 black military boot, right heel, 1 pair of black fingerless**

gloves, a long-sleeved shirt, 1 pair of field-pattern trousers with a military belt, and 1 pair of blue civilian underpants.

Volume 188, case file sheets 224–225

According to **forensic medical expert conclusion No. 69 dated 17.09.2022**, the bodily injuries sustained by **Garazade Nijat Malik oglu** — **comminuted open fractures of the left temporal bone, left occipital bone, sphenoid bone and third cervical vertebra, with an entrance wound in the left temporo-occipital region and an exit wound on the outer surface of the right half of the upper third of the neck; a penetrating wound of the left temporo-occipital region extending into the cranial and oral cavities and accompanied by damage to the brain and spinal cord; a comminuted open fracture of the left fibula, with the entrance wound located on the posterior surface of the upper third of the left tibia and the exit wound on the anterior surface of the upper third of the left tibia; and penetrating wounds of the left lower leg accompanied by severe bleeding** — were classified as causing **grievous harm to health due to the life-threatening severity of the injuries** and resulted in death.

Volume 183, case file sheets 68–71

According to **forensic ballistic examination conclusion No. 3/228 dated 10.04.2023**, it was established that **1 pair of military field-type trousers belonging to Garazade Nijat Malik oglu**, submitted for examination, has the damage specified in the examination section of the report. Such damage is characteristic of damage caused by a bullet fired from a firearm or by a fragment resulting from an explosion.

Volume 38, case file sheets 45–48

Questioned as the **legal heir of victim Garazade Nijat Malik oglu, Garayev Malik Garakhan oglu** stated in his testimony that his son, **N. M. Garazade**, began serving as a conscript serviceman in a military unit of the Ministry of Defense in **April 2021**. **N. M. Garaazade** died on **13 September 2022** as a result of the explosion of a mortar shell fired by servicemen of the Armed Forces of Armenia while defending the...

Page 586

...**Kalbajar District** and preventing large-scale provocative actions by the Armed Forces of Armenia.

Volume 36, case file sheets 212–214

According to the **protocol dated 13.09.2022 on the inspection of the body of serviceman of Military Unit No. 2021 of the State Border Service Nasirov Ulvi Asadulla oglu**, numerous bodily injuries were found on the body. During the inspection, the following items were duly packaged and seized: **a military field long-sleeved shirt, military field trousers, 1 pair of gray socks, and blue underpants.**

Volume 182, case file sheets 106–114

According to **forensic medical expert conclusion No. 17 dated 13.09.2022**, the bodily injuries sustained by **Nasirov Ulvi Asadulla oglu** — **penetrating gunshot wounds of the outer surface of the right ankle joint, accompanied by one penetrating wound of the chest and an open comminuted fracture of the calcaneus, accompanied by damage to both lungs, with an entrance wound in the right half of the posterior surface of the chest along the scapular line at the level of the fourth rib and an exit wound in the left supraclavicular region** — were classified as causing **grievous harm to health due to their severity** and resulted in death.

Volume 182, case file sheets 131–132

According to **forensic ballistic examination conclusion Nos. 3/1294 and 3/1295 dated 24.11.2022**, it was established that **cartridge case No. 1** submitted for examination is a **factory-manufactured 7.62 mm caliber cartridge case**, which is considered ammunition intended for use in **AKM and AKMS assault rifles and SKS carbines** of the same caliber, and is suitable for identification examinations.

Volume 182, case file sheets 134–138

Questioned as the **legal heir of victim Nasirov Ulvi Asadulla oglu, Nasirov Asadulla Mansur oglu** stated in his testimony that his son, **U. A. Nasirov**, began serving as an extended-service serviceman in a military unit of the State Border Service in **June 2020**. **U. A. Nasirov** died on **13 September 2022** as a result of fire opened by servicemen of the Armed Forces of Armenia while defending the **Kalbajar District** and preventing large-scale provocative actions by the Armed Forces of Armenia.

Volume 182, case file sheets 127–129

According to the **protocol dated 13.09.2022 on the inspection of the body of serviceman of Military Unit No. 2021 of the State Border Service Babazade Elshan Sahib oglu**, numerous bodily injuries were found on the body. During the inspection, the following items were duly packaged and seized: **a summer field jacket and trousers, a black short-sleeved undershirt, 1 pair of black socks, and black underpants.**

Volume 182, case file sheets 62–69

According to **forensic medical expert conclusion No. 19 dated 15.09.2022**, the bodily injuries sustained by **Babazade Elshan Sahib oglu** — **1 penetrating gunshot wound of the chest, entering through the left half of the posterior surface of the chest at the level of the seventh rib along the mid-scapular line and exiting through the subclavian region on the left half of the anterior surface of the chest, accompanied by a fracture of the first left rib and damage to the organs of the thoracic cavity** — were classified as causing **grievous harm to health due to their life-threatening nature** and resulted in death.

Volume 182, case file sheets 76–77

According to **forensic ballistic examination conclusion No. 3/1288 dated 24.11.2022**, among the items of military uniform submitted for examination,

...belonging to **Babazade Elshan Sahib oglu — 1 military uniform with a cap and 1 short-sleeved shirt** — have damage of the quantity and dimensions specified in the examination section of the report. Despite the absence around the damage of incompletely burned gunpowder particles and traces of copper metal, which are additional factors associated with firing, based on the shape, dimensions and morphological structure of the damage, the damage on the back of the **military uniform with a cap** and the **short-sleeved undershirt** was classified as **entrance damage**, while the damage on the front of the **military uniform with a cap** and the **short-sleeved T-shirt** was considered **exit damage**. The damage was caused by a shot from a rifled firearm and is characteristic of the passage of a **5.45 mm bullet from back to front from a distance of more than 1 meter**.

Volume 182, case file sheets 79–83

According to the **protocol dated 17.09.2022 on the inspection of the body of serviceman of Military Unit No. 073 of the Ministry of Defense Balashzade Royal Atdukhan oglu**, numerous bodily injuries were found on the body. During the inspection, the following items were duly packaged and seized: **a black balaclava, black fingerless gloves, 1 khaki military field tunic, 1 khaki short-sleeved shirt, 1 pair of black boots reaching the middle of the lower leg, and 1 pair of military-style field trousers with a military belt**.

Volume 188, case file sheets 214–215

According to **forensic medical expert conclusion No. 68 dated 17.09.2022**, the bodily injuries sustained by **Balashzade Royal Atdukhan oglu — a penetrating gunshot wound to the head with comminuted open fractures of the bones of the skull, with an entrance wound in the area of the right eyebrow and an exit wound behind the right ear, accompanied by diffuse injury to brain tissue** — were classified as **life-threatening and as causing grievous harm to health**, and resulted in death.

Volume 186, case file sheets 239–242

According to **forensic ballistic examination conclusion No. 3/229 dated 10.04.2023**, it was established that one of the items submitted for examination — **1 mask belonging to Balashzade Royal Atdukhan oglu** — has the damage specified in the examination section of the report, characteristic of damage caused by a bullet fired from a firearm or by fragments resulting from an explosion.

Volume 38, case file sheets 41–44

Questioned as the **legal heir of victim Balashzade Royal Atdukhan oglu, Balashzade Turan Atdukhan oglu** stated in his testimony that his brother, **R. A. Balashzade**, began serving as a serviceman in a military unit of the Ministry of Defense in **January 2022**. **R. A. Balashzade** died on **13 September 2022** as a result of fire opened by servicemen of the Armed Forces of Armenia while defending the **Kalbajar District** and preventing large-scale provocative actions by the Armed Forces of Armenia.

Volume 70, case file sheets 126–129

According to the **protocol dated 13.09.2022 on the inspection of the body of serviceman of Military Unit No. 2050 of the State Border Service Sadikhov Shamistan Abdullaga**

oglu, numerous bodily injuries were found on the body. During the inspection, the following items were duly packaged and seized: **a black short-sleeved shirt, a gray short-sleeved undershirt, camouflage military field trousers with a black leather belt at the waist, 1 pair of black military boots, 1 pair of black socks, and 1 pair of gray underpants.**

Volume 182, case file sheets 139–141

According to **forensic medical expert conclusion No. 16 dated 13.09.2022**, the bodily injuries sustained by **Sadikhov Shamistan Abdullaga oglu — an open comminuted fracture of the femur extending from the acetabular region...**

Page 588

...beginning on the inner surface of the upper third of the left thigh, extending to the outer third of the lower leg and involving the outer quadrant of the left buttock; an extensive two-dimensional shrapnel wound with damage to the deep veins and femoral artery; incomplete amputation of various portions of the second, third, fourth and fifth fingers of the left hand, retained by a soft-tissue flap; damage to the tendons and metacarpal bones of the left hand; and multiple blind shrapnel wounds of the face, both upper extremities and abdomen — were classified as causing grievous harm to health due to their life-threatening nature and resulted in death.

Volume 182, case file sheets 163–164

According to **forensic ballistic examination conclusion No. 3/1290 dated 24.11.2022**, it was established that among the items belonging to **Sadikhov Shamistan Abdullaga oglu** submitted for examination — **1 short-sleeved undershirt, 1 sleeveless T-shirt, 1 pair of military trousers with a waist belt, and 1 lower undershirt** — there is damage of the quantity and dimensions specified in the examination section of the report. Based on the shape, dimensions and morphological structure of this damage, as well as the presence of explosive substances (**TNT**) and powder particles around the damage, a characteristic feature of the examined damage is that it was caused by the action of fragments from an explosion travelling in different directions from the center of the explosion. The injuries described could have arisen under the circumstances set out in the descriptive part of the conclusion. No characteristic damage caused by fragments from an explosion was found on the **pair of military boots or pair of socks** submitted for examination.

Volume 182, case file sheets 166–170

Questioned as the **legal heir of victim Sadikhov Shamistan Abdullaga oglu**, **Sadikhov Abdullaga Shirzaid oglu** stated in his testimony that his son, **Sh. A. Sadikhov**, began serving as an active-duty serviceman in a military unit of the State Border Service in **2016**. **Sh. A. Sadikhov** died on **13 September 2022** as a result of fire opened by servicemen of the Armed Forces of Armenia while defending the **Zangilan District** and preventing large-scale provocative actions by the Armed Forces of Armenia.

Volume 70, case file sheets 232–234

Volume 182, case file sheets 160–161

According to the **protocol dated 14.09.2022 on the inspection of the body of serviceman of Military Unit No. 2021 of the State Border Service Rustamov Farid Nofal oğlu**, numerous bodily injuries were found on the body. During the inspection, the following items were duly packaged and seized: **a summer desert-style tunic, trousers, a khaki short-sleeved shirt, 1 pair of black socks, green thermal underwear, and gray underpants.**

Volume 187, case file sheets 197–211

According to **forensic medical expert conclusion No. 20 dated 14.09.2022**, the bodily injuries sustained by **Rustamov Farid Nofal oğlu** — **one penetrating bullet wound to the head, entering through the caudal region of the left eyebrow and exiting through the right temporal region, accompanied by crushing and disintegration of brain tissue and multiple fractures of the skull bones** — were classified as causing **grievous bodily injury due to their life-threatening nature** and resulted in death.

Volume 187, case file sheets 233–234

According to **forensic ballistic examination conclusion No. 3/1292 dated 24.11.2022**, it was established that the items submitted for examination and belonging to **Rustamov Farid Nofal oğlu** — **a tunic with a cap, 1 short-sleeved shirt, 1 pair of military-style trousers, 1 T-shirt, and 1 pair of socks** — have damage in...

Page 589

...the quantity and dimensions specified in the examination section of the report. Based on the shape, dimensions and morphological structure of this damage, as well as the presence of explosive substances (TNT) and powder particles around the damage, the examined damage is characteristic of damage caused by fragments resulting from an explosion, spreading from the center of the explosion in different directions.

Volume 187, case file sheets 236–239

Questioned as the **legal heir of victim Rustamov Farid Nofal oğlu, Rustamov Nofal Surajeddin oğlu** stated in his testimony that his son, **F. N. Rustamov**, began serving as an extended-service serviceman in a military unit of the State Border Service in **August 2020**. **F. N. Rustamov** died on **13 September 2022** as a result of the explosion of a mortar shell fired by servicemen of the Armed Forces of Armenia while defending the **Lachin District** and preventing large-scale provocative actions by the Armed Forces of Armenia.

Volume 187, case file sheets 229–231

According to the **protocol dated 14.09.2022 on the inspection of the body of serviceman of Military Unit No. 3100 of the State Border Service Rahimov Tabriz Rahim oğlu**, numerous bodily injuries were found on the body. During the inspection, the following items were duly packaged and seized: **a gray sleeveless undershirt, a black T-shirt, and military field trousers.**

Volume 185, case file sheets 1–7

According to **forensic medical expert conclusion No. 22 dated 14.09.2022**, it was established that the bodily injuries sustained by **Rahimov Tabriz Rahim oglu — 1 penetrating gunshot wound of the abdominal cavity, entering the left lumbar region at the level of the III lumbar vertebra and exiting through the anterior abdominal wall in the groin region along the linea alba, accompanied by damage to the abdominal organs — were life-threatening, classified as causing grievous harm to health, and resulted in death.**

Volume 185, case file sheets 30–31

According to **forensic ballistic examination report No. 3/1293 dated 24.11.2022**, it was established that the items submitted for examination and belonging to **Rahimov Tabriz Rahim oglu — 1 sleeveless shirt, 1 pair of military trousers, and 1 pair of underpants —** have damage of the quantity and dimensions specified in the examination section of the report. Despite the absence around the damage of incompletely burned powder particles and traces of copper metal, which are additional factors associated with firing, based on the shape, dimensions and morphological structure of the damage, the damage on the back of the sleeveless shirt is an **entrance opening**, while the damage on the front of the military trousers and underpants constitutes **exit openings**. Such damage is characteristic of that caused from a distance of more than **1 meter** by a **5.45 mm bullet** fired from a rifled firearm.

Volume 185, case file sheets 33–36

Questioned as the **legal heir of victim Rahimov Tabriz Rahim oglu, Rahimov Rahim Isa oglu** stated in his testimony that his son, **T. R. Rahimov**, began serving as an extended-service serviceman in a military unit of the State Border Service in **December 2021**. **T. R. Rahimov** died on **13 September 2022** as a result of fire opened by servicemen of the Armed Forces of Armenia while defending the **Lachin District** and preventing large-scale provocative actions by the Armed Forces of Armenia.

Volume 185, case file sheets 27–29

According to the **protocol dated 17.09.2022 on the inspection of the body of serviceman of Military Unit No. 071 of the Ministry of Defense Gurbanov Yusif Asif oglu**, numerous bodily injuries were found on the body.

Volume 191, case file sheets 179–194

Page 590

According to **forensic medical expert conclusion No. 20 dated 17.09.2022**, it was established that the bodily injuries sustained by **Gurbanov Yusif Asif oglu — traumatic avulsion of the right lower extremity at the level of the upper third of the thigh, which resulted in acute multiple-organ failure (cardiovascular, pulmonary, renal and hepatic) accompanied by grade IV traumatic hemorrhagic shock; extensive soft-tissue defects of the right arm, left thigh and left lower leg; and multiple shrapnel wounds to the right side, the border of the chest and abdomen on the anterior surface of the body, the scrotum and external genitalia —** were classified as causing **grievous harm to health due to their life-threatening nature** and resulted in death.

Volume 191, case file sheets 200–204

Questioned as the **legal heir of victim Gurbanov Yusif Asif oglu, Gurbanov Asif Yusif oglu** stated in his testimony that his son, **Y. A. Gurbanov**, had served as an extended-service serviceman in a military unit of the Ministry of Defense since **2019**. **Y. A. Gurbanov** died on **17.09.2022** as a result of fire opened by servicemen of the Armed Forces of Armenia while defending the **Kalbajar District** and preventing large-scale provocative actions by the Armed Forces of Armenia on **12.09.2022**.

Volume 109, case file sheets 178–180

According to **forensic medical expert conclusion No. 56 dated 26.04.2024**, it was established that the bodily injuries sustained by **Allahverdiyev Rahim Gashgay oglu — secondary surgical treatment of a wound performed in connection with an intra-articular open fracture of the head of the medial phalanx and crush-lacerated wounds of the third finger of the right hand; immobilization of the hand —** were associated with **less serious harm to health due to the degree of the postoperative condition**.

Volume 327, case file sheets 1–253

Questioned as a victim, **Private Allahverdiyev Rahim Gashgay oglu**, a rifleman of the **NSVP detachment of the 10th Company, 4th Battalion, Military Unit No. 157 of the Ministry of Defense**, stated in his testimony that at approximately **01:00 on 13.09.2022**, while preventing large-scale provocative actions by Armenian armed formations, he and other servicemen of the military unit in which he served sustained bodily injuries of varying severity as a result of fire opened by the Armed Forces of Armenia in the territory of the **Lachin District**.

Volume 192, case file sheets 84–88

According to **forensic medical expert conclusion No. 1011 dated 26.04.2024**, it was established that the bodily injuries sustained by **Mammadli Nahid Alik oglu — coarse skin scars remaining after primary surgical treatment of wounds caused by blast trauma; multiple blind shrapnel wounds of both lower extremities; and a foreign body in the soft tissues (a metal fragment) —** are generally classified as causing **minor harm to health**, based on the degree of primary or secondary shrapnel injury caused by the explosion of any substance possessing explosive properties.

Volume 327, case file sheets 1–253

Questioned as a victim, **Private Mammadli Nahid Alik oglu**, assistant gunner-grenade launcher of the **3rd Squad, 1st Platoon, 12th Company, 4th Battalion, Military Unit No. 157 of the Ministry of Defense**, stated in his testimony that at approximately **11:00 on 14 September 2022**, while preventing large-scale provocative actions by Armenian armed formations, he and servicemen of the military unit in which he served sustained bodily injuries of varying severity as a result of the explosion of a **hand grenade thrown by Armenian armed formations in the Lachin District**.

Volume 109, case file sheets 101–105

According to **forensic medical expert conclusion No. 1016 dated 26.04.2024**, it was established that the bodily injuries sustained by **Nurmammadov Adem Elchin oglu — blast trauma; coarse skin scars remaining after primary surgical treatment of wounds caused by blind shrapnel wounds of the soft tissues of the left hand, right knee and upper third of the lower leg** — resulted from the impact of primary or secondary fragments produced by the explosion of any explosive substance and, in terms of severity, are generally classified as causing **minor harm to health**.

Volume 327, case file sheets 1–253

Questioned as a victim, **Private Nurmammadov Adem Elchin oglu**, rifleman of the **1st Squad, 2nd Platoon, 7th Company, 3rd Battalion, Military Unit No. 157 of the Ministry of Defense**, stated in his testimony that at approximately **13:00 on 13.09.2022**, while preventing large-scale provocative actions by Armenian armed formations, he and other servicemen of the military unit in which he served sustained bodily injuries of varying severity as a result of the explosion of an **artillery shell fired by the armed formations of Armenia in the territory of the Lachin District**.

Volume 192, case file sheets 35–40

According to **forensic medical expert conclusion No. 870 dated 26.04.2024**, it was established that the bodily injuries sustained by **Abbasov Nurlan Ruslan oglu — a gunshot wound; a hardened skin scar following right-sided orchiectomy due to a bullet wound of the right testicle; secondary left-sided varicocele; and a small cyst of the left testicle** — were caused by a gunshot wound and are classified as causing **minor harm to health**.

Volume 327, case file sheets 1–253

According to **forensic medical expert conclusion No. 53 dated 26.04.2024**, it was established that the bodily injuries sustained by **Aliyev Novruz Murvat oglu — blast trauma; an incised wound in the region of the left eyebrow; condition following secondary surgical treatment of the wound in connection with subconjunctival hemorrhage of the left eye** — were caused by the impact of a primary or secondary fragment produced by the explosion of any explosive substance and, in terms of severity, are classified as causing **minor harm to health**.

Volume 327, case file sheets 1–253

Questioned as a victim, **Private Aliyev Novruz Murvat oglu**, rifleman of the **1st Squad, 2nd Platoon, 10th Company, 4th Battalion, Military Unit No. 172 of the Ministry of Defense**, stated in his testimony that at approximately **01:00 on 13.09.2022**, while preventing large-scale provocative actions by Armenian armed formations, he and several servicemen of that military unit sustained bodily injuries of varying severity as a result of the explosion of a **mortar shell fired by Armenian armed formations in the Kalbajar District**.

Volume 192, case file sheets 159–163

According to **forensic medical expert conclusion No. 129 dated 01.03.2024**, it was established that the bodily injuries sustained by **Budagov Salman Marifat oglu — an open shrapnel fracture of the right humerus with subsequent defects of the soft tissues and bones —** are considered to constitute **serious harm to health due to the degree of damage to the right ulnar nerve.**

Volume 337, case file sheets 185–188

Questioned as a victim, **Private Budagov Salman Marifat oglu**, machine gunner of **Military Unit No. 191 of the Ministry of Defense**, stated in his testimony that at approximately **11:00 on 13.09.2022**, while preventing large-scale provocative actions by Armenian armed formations, he and several servicemen of that military unit sustained...

Page 592

...bodily injuries of varying severity as a result of the explosion of a hand grenade thrown by Armenian armed formations in the territory of the Kalbajar District.

Volume 337, case file sheets 94–98

According to **forensic medical expert conclusion No. 50 dated 26.04.2024**, it was established that the bodily injuries sustained by **Aliyev Emil Ehtiram oglu — an unhealed skin scar following a penetrating gunshot wound to the forehead —** were caused by the impact of a primary or secondary fragment resulting from the explosion of any explosive substance and are classified as causing **minor harm to health.**

Volume 327, case file sheets 1–253

Questioned as a victim, **Sergeant Aliyev Emil Ehtiram oglu**, commander of the **2nd Motorized Rifle Squad, 2nd Platoon, 2nd Company, 1st Battalion, Military Unit No. 172 of the Ministry of Defense**, stated in his testimony that at approximately **01:00–02:00 on 13.09.2022**, while preventing large-scale provocative actions by Armenian armed formations, as a result of fire opened by Armenian armed formations in the territory of the **Kalbajar District**, servicemen of that military unit **Lieutenant Gorkhmaz Iskenderov** and **Private Sadyg Isayev** were killed, while he and **Private Salman Budagov** sustained bodily injuries of varying severity.

Volume 192, case file sheets 93–98

According to **forensic medical expert conclusion No. 51 dated 26.04.2024**, it was established that the bodily injuries sustained by **Hasanov Eltekin Alik oglu — a closed craniocerebral injury resulting from blast trauma; a post-concussion condition; and a condition resulting from blunt shrapnel injuries to the right half of the forehead and the left cheek region caused by a primary or secondary fragment produced by the explosion of any explosive substance —** are classified as causing **minor harm to health.**

Volume 327, case file sheets 1–253

Questioned as a victim, **Senior Warrant Officer Hasanov Eltekin Alik oglu**, Senior Sergeant of the **2nd Company, 1st Battalion, Military Unit No. 172 of the Ministry of**

Defense, stated in his testimony that at approximately **00:20 on 13.09.2022**, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of a **hand grenade thrown by Armenian armed formations in the territory of the Kalbajar District**, serviceman of that military unit **Private Kanan Nasibov** was killed, while he and **Private Khalay Tahirli** sustained various bodily injuries.

Volume 192, case file sheets 121–126

According to **forensic medical expert conclusion No. 851 dated 26.04.2024**, it was established that the bodily injuries sustained by **Alyarov Mahir Fazil oglu** — **barotrauma; condition following acute left-sided cochlear neuritis; post-traumatic secondary regeneration of the left tympanic membrane; left-sided mixed-type hearing loss; ability to hear whispered speech at a distance of 1 meter with the left ear and 6 meters with the right ear** — were caused by the impact of a blast wave produced by the explosion of any explosive substance and are classified as causing **less serious harm to health due to their degree**.

Volume 327, case file sheets 1–253

Questioned as a victim, **Warrant Officer Alyarov Mahir Fazil oglu**, gun commander of the **12th Battery, Military Unit No. 949 of the Ministry of Defense**, stated in his testimony that at approximately **10:00 on 13.09.2022**, while preventing large-scale provocative actions by Armenian armed formations, he and several other servicemen sustained bodily injuries of varying severity as a result of the explosion of a **shell fired by Armenian armed formations in the Kalbajar District**.

Volume 192, case file sheets 140–145

Page 593

According to **forensic medical expert conclusion No. 1009 dated 26.04.2024**, it was established that the bodily injuries sustained by **Sofiyev Kanan Vidadi oglu** — **a closed craniocerebral injury, asthenoneurotic manifestations following concussion, a closed craniocerebral injury resulting from blast trauma, residual manifestations in the form of vegetative-vascular instability following concussion, blast trauma, bilateral chronic cochlear neuritis, bilateral sensorineural hearing loss, with the ability to hear whispered speech with both ears at a distance of 4.5 meters** — were caused by the impact of a blast wave resulting from the explosion of any explosive substance and, in terms of severity, are generally classified as causing **minor harm to health**.

Volume 327, case file sheets 1–253

Questioned as a victim, **Captain Sofiyev Kenan Vidadi oglu**, commander of the **2nd Company, 1st Battalion, Military Unit No. 190 of the Ministry of Defense**, stated in his testimony that on **13.09.2022**, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of an **artillery shell fired by Armenian armed formations in the Kalbajar District**, serviceman of that military unit **Private Turan Maharramov** was killed, while he and several other servicemen sustained bodily injuries of varying severity.

Volume 339, case file sheets 53–54

According to **forensic medical expert conclusion No. 70 dated 26.04.2024**, it was established that the bodily injuries sustained by **Javadli Kamran Khaleddin oglu — blast trauma, closed craniocerebral injury, post-concussion condition** — resulted from the impact of a blast wave produced by the explosion of any explosive substance and, in terms of severity, are classified as causing **minor harm to health**.

Volume 327, case file sheets 1–253

Questioned as a victim, **Senior Lieutenant Javadli Kamran Khaleddin oglu**, commander of the **5th Company, 2nd Battalion, Military Unit No. 191 of the Ministry of Defense**, stated in his testimony that on **13.09.2022**, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of a **mortar shell fired by Armenian armed formations in the Dashkasan District**, he and servicemen of the military unit in which he served sustained various bodily injuries.

Volume 190, case file sheets 92–96

According to **forensic medical expert conclusion No. 72 dated 26.04.2024**, it was established that the bodily injuries sustained by **Hajizade Emrah Talekh oglu — blast trauma, a non-healing skin scar and a retained foreign body (metal fragment) following primary surgical treatment of a wound caused by a blind shrapnel injury to the soft tissues of the inner surface of the left knee** — resulted from the impact of a blast wave caused by the explosion of any explosive substance and, depending on the degree of its impact, are classified as causing **minor harm to health**.

Volume 327, case file sheets 1–253

Questioned as a victim, **Warrant Officer Hajizade Amrah Talekh oglu**, commander of the **2nd Squad, 2nd Platoon, 5th Company, 2nd Battalion, Military Unit No. 191 of the Ministry of Defense**, stated in his testimony that at approximately **07:00 on 13.09.2022**, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of a **mortar shell fired by Armenian armed formations in the Dashkasan District**, servicemen of **Military Unit No. 171**, Warrant Officer **Azad Kerimov** and Private **Khayal Suleymanov**, were killed, while he and several other servicemen sustained bodily injuries of varying severity.

Page 594

Volume 109, case file sheets 155–160

According to **forensic medical expert conclusion No. 26 dated 11.01.2024**, it was established that the bodily injuries sustained by **Aliyev Ilknur Shahin oglu — a closed craniocerebral injury with concussion; post-traumatic neuropathy of the left median and ulnar nerves and the left sural nerve; projections on the outer surface of the upper third of the left side at the base of the neck, the left side of the lower jaw in the projection of the body, the posterior surface of the middle third of the left iliac crest, the lower outer quadrant of the left sacral region, the posterior surface of the middle and lower thirds of the left thigh, the anteromedial surface of the lower third of the right**

thigh, the outer surfaces of the upper and lower thirds of the left lower leg, the posterior surface of the lower third of the left lower leg, the upper surface of the left foot, the fourth metatarsal bone, and a blind shrapnel wound to the posterior and outer surfaces of the middle third of the right lower leg and the sole of the right foot — are generally classified as causing less serious harm to health.

Volume 337, case file sheets 166–168

Questioned as a victim, **Private Aliyev Ilknur Shahin oglu**, a former scout of the **2nd Company, 1st Battalion, Military Unit No. 460 of the Ministry of Defense**, stated in his testimony that at approximately **01:00 on 13.09.2022**, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of a **hand grenade thrown by Armenian armed formations in the Kalbajar District**, he and servicemen of that military unit — Warrant Officer **Kanan Nekhmetli**, Privates **Ariz Huseynov** and **Ismail Sakhavat** — sustained bodily injuries of varying severity.

Volume 337, case file sheets 155–159

According to **forensic medical expert conclusion No. 117 dated 20.04.2024**, it was established that the bodily injuries sustained by **Zokhrabov Namig Asker oglu — a shrapnel wound penetrating the soft tissues of the right inguinal region** — resulted from the impact of a blast wave caused by the explosion of an explosive substance and are classified as causing **minor harm to health**.

Volume 327, case file sheets 1–253

Questioned as a victim, **Senior Lieutenant Zokhrabov Namig Asker oglu**, commander of the **2nd Platoon, 5th Company, 2nd Battalion, Military Unit No. 430 of the Ministry of Defense**, stated in his testimony that at approximately **00:40 on 13.09.2022**, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of a **hand grenade thrown by Armenian armed formations in the Kalbajar District**, he and other servicemen of the military unit in which he served sustained various bodily injuries.

Volume 192, case file sheets 45–50

According to **forensic medical expert conclusion No. 64 dated 26.04.2024**, it was established that the bodily injuries sustained by **Abbasov Sekhran Maharram oglu — blast trauma and a non-healing skin scar following primary and secondary surgical treatment of a wound caused by a blunt shrapnel injury to the right shoulder resulting from the impact of a blast wave produced by the explosion of any explosive substance** — are classified as causing **minor harm to health**.

Volume 327, case file sheets 1–253

Questioned as a victim, **Private Abbasov Sekhran Maharram oglu**, scout of the **1st Squad, 3rd Platoon, 1st Company, 1st Battalion, Military Unit No. 651 of the Ministry of Defense**, stated in his testimony that at approximately **07:00 on 13.09.2022**, while preventing large-scale provocative actions by Armenian armed formations, he and other servicemen of the military unit in which he served sustained bodily injuries of varying severity as a result of...

...the explosion of a mortar shell fired by Armenian armed formations in the Lachin District.

Volume 36, case file sheets 85–86

Volume 192, case file sheets 74–79

According to **forensic medical expert conclusion No. 1693 dated 05.12.2022**, it was established that the bodily injuries sustained by **Manafov Ravan Aziz oglu — shrapnel wounds of the soft tissues of the right thigh, left lower leg and right lower leg** — are generally classified as causing **minor harm to health**.

Volume 327, case file sheets 1–253

Questioned as a victim, **Private Manafov Ravan Aziz oglu**, commander of the **3rd Machine-Gun Squad of the Combat Support Platoon, 2nd Battalion, Military Unit No. 651 of the Ministry of Defense**, stated in his testimony that during the night of **13.09.2022**, while preventing large-scale provocative actions by Armenian armed formations, he and several other servicemen sustained injuries of varying severity as a result of the explosion of a **mortar shell fired by Armenian armed formations in the Lachin District**.

Volume 192, case file sheets 103–106

According to **forensic medical expert conclusion No. 814 dated 26.04.2024**, it was established that the bodily injuries sustained by **Osmanov Shokhrat Nasib oglu — traumatic neuropathy of the head and neck region** — result from the impact of primary or secondary fragments produced by the explosion of any explosive substance and, in terms of severity, are generally classified as causing **minor harm to health**.

Volume 327, case file sheets 1–253

Questioned as a victim, **Private Osmanov Shokhrat Nasib oglu**, radio operator of the **1st airborne command-and-staff vehicle of the communications section of Military Unit No. 651 of the Ministry of Defense**, stated in his testimony that at approximately **13:00 on 13.09.2022**, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of a **mortar shell fired by Armenian armed formations in the Lachin District**, he and servicemen of the military unit in which he served — **Rakhib Shikhiyev, Elvin Eyvazov and Mammad Gaibov** — sustained injuries of varying severity.

Volume 109, case file sheets 234–238

According to **forensic medical expert conclusion No. 57 dated 26.04.2024**, it was established that the bodily injuries sustained by **Abdullayev Ramin Etibar oglu — a condition following primary surgical treatment of a wound caused by a penetrating bullet wound to the soft tissues of the lower third of the right lower leg, and a lacerated wound of the anterior surface of the thumb and index finger of the right hand** — result from the impact of a blast wave generated by the explosion of any explosive substance and, as a rule, are classified in terms of severity as causing **minor harm to health**.

Volume 327, case file sheets 1–253

Questioned as a victim, **Junior Sergeant Abdullayev Ramin Etibar oglu**, assistant grenade launcher of the **2nd Squad, 1st Platoon, 2nd Company, 1st Battalion, Military Unit No. 701 of the Ministry of Defense**, stated in his testimony that at approximately **20:00 on 15.09.2022**, while preventing large-scale provocative actions by Armenian armed formations, as a result of fire opened by Armenian armed formations in the **Kalbajar District**, he and other servicemen of the military unit in which he served sustained various bodily injuries.

Volume 192, case file sheets 55–60

According to **forensic medical expert conclusion No. 980 dated 26.04.2024**, it was established that the bodily injuries sustained by **Ibrahimov Narman...**

Page 596

...Sabir oglu — blast trauma; surgical treatment of wounds caused by a blind shrapnel wound of the left thigh; hardened skin scars remaining after surgery to remove a foreign body — result from the impact of primary or secondary fragments produced by the explosion of any explosive substance and, as a rule, are classified as causing minor harm to health due to their severity.

Volume 327, case file sheets 1–253

Questioned as a victim, **Sergeant Ibrahimov Narman Sabir oglu**, scout-medic of the **3rd Platoon, 4th Company, 2nd Battalion, Military Unit No. 701 of the Ministry of Defense**, stated in his testimony that on **14.09.2022**, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of a **mortar shell fired by Armenian armed formations in the Kalbajar District**, he and servicemen of that military unit — Senior Lieutenant **Muraz Mammadov**, Junior Sergeant **Yaver Garibov**, Junior Sergeant **Nabi Aliyev**, and Junior Sergeant **Zamig Latifzade** — sustained various bodily injuries.

Volume 339, case file sheets 99–102

According to **forensic medical expert conclusion No. 115 dated 26.04.2024**, it was established that the bodily injuries sustained by **Mamizade Tabriz Isa oglu — a shrapnel wound penetrating the posterior part of the nose — constitute minor harm to health, caused by the impact of a primary or secondary fragment, including a blast wave arising from the discharge of a firearm, as well as from the explosion of any explosive substance.**

Volume 327, case file sheets 1–253

Questioned as a victim, **Warrant Officer Mamizade Tabriz Isa oglu**, commander of the **1st Group, 2nd Platoon, 6th Company, 2nd Battalion, Military Unit No. 701 of the Ministry of Defense**, stated in his testimony that at approximately **18:00 on 13.09.2022**, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of a **mortar shell fired by Armenian armed formations in the Kalbajar District**, servicemen of Military Unit No. 701, whose names he does not remember, **were**

killed, while he and several other servicemen of Military Unit No. 701, whose names he also does not presently remember, sustained various bodily injuries.

Volume 339, case file sheets 105–108

According to **forensic medical expert conclusion No. 114 dated 26.04.2024**, it was established that the bodily injuries sustained by **Mammadov Razil Ragil oglu — a sprain of the ligaments of the left ankle joint, an abrasion on the outer surface of the upper third of the right lower leg, and post-traumatic headache** — were caused by the impact of a blast wave resulting from the explosion of an explosive substance and, based on their severity, are classified as causing **minor harm to health**.

Volume 327, case file sheets 1–253

Questioned as a victim, **Private Mammadov Razil Ragil oglu**, assistant personnel officer of the **1st Machine-Gun Squad of the Combat Support Platoon, 1st Battalion, Military Unit No. 701 of the Ministry of Defense**, stated in his testimony that at approximately **12:00 on 13.09.2022**, while preventing large-scale provocative actions by Armenian armed formations, he and servicemen of the military unit in which he served sustained various bodily injuries as a result of the explosion of a **mortar shell fired by Armenian armed formations in the Lachin District**.

Volume 190, case file sheets 74–78

According to **forensic medical expert conclusion No. 423 dated 29 February 2022**, it was established that the bodily injuries sustained by **Nabiyev Nadir Igor oglu — blast trauma, traumatic amputation of the first finger of the left...**

Page 597

...foot at the level of the metatarsophalangeal joint; closed, comminuted, non-displaced intra-articular fractures of the distal metaphyses of the left tibia; open, comminuted, displaced fractures of the heads of the II and III metatarsal bones of the left foot; open, comminuted, perforating fractures of the head of the IV metatarsal bone of the left hand; closed, slightly displaced fractures of the right metatarsal bone; a laceration of the medial surface of the right foot; punctured and lacerated wounds of the dorsal and medial surfaces of the left hand and finger; a laceration of the plantar surface of the II and III toes of the left foot; multiple shrapnel wounds resulting in lacerations of the medial surface of the left thigh, the lower third of the right thigh and the right half of the testicle, and perforation of the left eyebrow region — are classified as causing **grievous harm to health** and result in a **permanent loss of at least one-third of working capacity**.

Volume 337, case file sheets 63–65

Questioned as a victim, **Senior Lieutenant Nabiyev Nadir Igor oglu**, a serviceman of **Military Unit No. 701 of the Ministry of Defense**, stated in his testimony that on **13.09.2022**, while preventing large-scale provocative actions by Armenian armed formations, he and several other servicemen of that military unit sustained bodily injuries of

varying severity as a result of the explosion of a **mine planted by Armenian armed formations in the Kalbajar District.**

Volume 337, case file sheets 50–51

According to **forensic medical expert conclusion No. 1176 dated 26.04.2024**, it was established that the bodily injuries sustained by **Abbasov Nijat Abulfat oglu — blind shrapnel wounds of the jaw region** — resulted from the impact of primary or secondary fragments produced by the explosion of any explosive substance and, in terms of severity, are classified as **minor bodily injuries.**

Volume 327, case file sheets 1–253

Questioned as a victim, **Private Abbasov Nijat Abulfat oglu**, scout of the **1st Company, 2nd Platoon, 1st Company, 1st Battalion, Military Unit No. 703 of the Ministry of Defense**, stated in his testimony that on **13.09.2022**, while preventing large-scale provocative actions by Armenian armed formations, he and serviceman of the military unit in which he served, **Eyub Mammadov**, sustained bodily injuries of varying severity as a result of the explosion of a **mortar shell fired by Armenian armed forces in the Kalbajar District.**

Volume 190, case file sheets 83–87

According to **forensic medical expert conclusion No. 896 dated 26.04.2024**, it was established that the bodily injuries sustained by **Aliyev Ujal Habil oglu — primary surgical treatment of a wound (I) caused by a mine-blast injury, with a soft-tissue defect of the left foot; open comminuted fractures of the calcaneus, cuboid and cuneiform bones; secondary surgical treatment of the wounds (II); fixation of the calcaneus with Kirschner wires; application of a VAC device with sufficiently consolidated fractures following surgery; post-traumatic deformity of the calcaneus; osteoarthritis of the metatarsophalangeal joints; contracture of the ankle joint; post-traumatic clubfoot of the left foot, making it impossible to use standard military footwear; and residual manifestations of post-traumatic neuropathy of the left common fibular and tibial nerves as a result of blast trauma, with mild impairment of peripheral function** — resulted from the impact of primary or secondary fragments, including a blast wave produced by the explosion of any explosive substance, and in terms of severity are classified as causing **less serious harm to health.**

Volume 327, case file sheets 1–253

Questioned as a victim, **Junior Sergeant Aliyev Ujal Habil oglu**, commander of a subgroup of the **1st Group, 2nd Company, 1st Battalion, Military Unit No. 703 of the Ministry of Defense**, stated in his testimony that...

Page 598

...on **13.09.2022 at approximately 06:30**, while preventing large-scale provocative actions by Armenian armed formations, he and several other servicemen of that military unit sustained bodily injuries of varying severity as a result of the explosion of a **mine planted by Armenian armed formations in the Kalbajar District.**

Volume 339, case file sheets 64–65

According to **forensic medical expert conclusion No. 66/MES dated 26.04.2024**, it was established that the bodily injuries sustained by **Jamalov Shukur Agaverdi oglu — blast trauma; a condition following primary surgical treatment of the soft tissues of the anterior surface of the left ear due to a blunt shrapnel wound caused by a blast wave resulting from the explosion of any explosive substance** — are classified as causing **minor or moderate harm to health**.

Volume 347, case file sheets 246–249

Questioned as a victim, **Senior Lieutenant Jamalov Shukur Agaverdi oglu**, commander of the **120-mm mortar battery of Military Unit No. 703 of the Ministry of Defense**, stated in his testimony that on **13.09.2022 at approximately 11:00**, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of an **artillery shell fired by the Armed Forces of Armenia in the Kalbajar District**, he and other servicemen of the military unit in which he served sustained various bodily injuries.

Volume 192, case file sheets 5–10

According to **forensic medical expert conclusion No. 126 dated 26.04.2024**, it was established that the bodily injuries sustained by **Shafiyev Muslim Ramil oglu — post-traumatic headache, tension headache, and an acute respiratory illness of mild to moderate severity resulting from the impact of a blast wave caused by the explosion of any explosive substance possessing explosive properties** — are classified as causing **minor harm to health**.

Volume 327, case file sheets 1–253

Questioned as a victim, **Private Shafiyev Muslim Ramil oglu**, operator of the **1st Squad, 1st Platoon, Anti-Tank Unit of Military Unit No. 703 of the Ministry of Defense**, stated in his testimony that on **13.09.2022 at approximately 11:00**, while preventing large-scale provocative actions by Armenian armed formations, he and several other servicemen of that military unit sustained bodily injuries of varying severity as a result of the explosion of a **mortar shell fired by Armenian armed formations in the Kalbajar District**.

Volume 109, case file sheets 146–150

According to **forensic medical expert conclusion No. 55 dated 26.04.2024**, it was established that the bodily injuries sustained by **Huseynov Panah Surkhay oglu — blast trauma; condition following barotrauma of the left ear; ability to hear whispered speech at a distance of 3 meters with the left ear and 6 meters with the right ear** — were caused by the impact of a blast wave resulting from the explosion of any explosive substance and, in terms of severity, are classified as causing **less serious harm to health**.

Volume 327, case file sheets 1–253

Questioned as a victim, **Private Huseynov Panah Surkhay oglu**, commander of the **3rd Squad, 1st Platoon, 1st Company, 1st Battalion, Military Unit No. 707 of the Ministry of Defense**, stated in his testimony that on **13.09.2022 at approximately 02:00**, while

preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of a **mortar shell fired by Armenian armed formations in the territory...**

Page 599

...of the Kalbajar District, he and other servicemen of the military unit in which he served sustained various types of bodily injuries.

Volume 192, case file sheets 15–20

According to **forensic medical expert conclusion No. 54 dated 26.04.2024**, it was established that the bodily injuries sustained by **Abdullayev Orkhan Ulvi oglu** — **blast trauma, a non-healing skin scar and a retained fragment following a blunt shrapnel wound of the soft tissues of both arms, the right wrist and right elbow, the left arm, left groin and left thigh** — resulted from the impact of primary or secondary fragments produced by the explosion of any explosive substance and are classified as presenting a **moderate degree of harm to health**.

Volume 327, case file sheets 1–253

Questioned as a victim, **Private Abdullayev Orkhan Ulvi oglu**, operator of the **2nd Squad, 1st Platoon of the Anti-Tank Unit, Military Unit No. 769 of the Ministry of Defense**, stated in his testimony that at approximately **10:00 on 13.09.2022**, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of a **mortar shell fired by Armenian armed formations in the Lachin District**, an unnamed serviceman of that military unit was killed, while he and serviceman of the same military unit **Shahlar Mammadov** sustained various types of bodily injuries.

Volume 109, case file sheets 243–247

According to **forensic medical expert conclusion No. 1177 dated 26.04.2024**, it was established that the bodily injuries sustained by **Huseynov Bakhman Bakhtiyar oglu** — **blunt trauma to the knee and head and a closed head injury** — were caused by the impact of a primary or secondary fragment resulting from the explosion of any explosive substance and, in terms of severity, are generally classified as causing **minor harm to health**.

Volume 327, case file sheets 1–253

Questioned as a victim, **Private Huseynov Bakhman Bakhtiyar oglu**, serviceman of the **2nd Machine-Gun Squad of the Combat Support Platoon, 1st Battalion, Military Unit No. 769 of the Ministry of Defense**, stated in his testimony that at approximately **15:00 on 14.09.2022**, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of a **mortar shell fired by Armenian armed formations in the Lachin District**, servicemen of Military Unit No. 769 **Mirtalib Agazade** and **Joshgun Zulfugazade** were killed, while he and serviceman **Vusal Aliyev** sustained various types of injuries.

Volume 190, case file sheets 25–30

According to **forensic medical expert conclusion No. 59 dated 26.04.2024**, it was established that the bodily injuries sustained by **Mammadzade Murad Rahim oglu — blast trauma, an abrasion on the left cheek, and a non-healing skin scar following primary surgical treatment of a wound caused by a blunt shrapnel injury to the left half of the neck**— were caused by the impact of a blast wave resulting from the explosion of any explosive substance and, in terms of severity, are generally classified as causing **minor harm to health**.

Volume 327, case file sheets 1–253

Questioned as a victim, **Private Mammadzade Murad Rahim oglu**, scout of the **1st Company, 3rd Platoon, 3rd Company, 2nd Battalion, Military Unit No. 769 of the Ministry of Defense**, stated in his testimony that at approximately **01:30 on 13.09.2022**, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of a **mortar shell fired by Armenian armed formations in the Lachin District**, he and soldiers **Alesker Hasiyev** and **Sanan Sultanov** sustained injuries of varying severity.

Page 600

Volume 109, case file sheets 138–141

According to **forensic medical expert conclusion No. 58 dated 26.04.2024**, it was established that the bodily injuries sustained by **Mirzayev Rustam Vagif oglu — blast trauma and a non-healing skin scar following primary surgical treatment of a wound sustained as a result of a blunt shrapnel injury to the left hand** — were caused by the impact of a blast wave resulting from the explosion of any explosive substance and, in terms of severity, are generally classified as causing **minor harm to health**.

Volume 327, case file sheets 1–253

Questioned as a victim, **Private Mirzayev Rustam Vagif oglu**, scout-sniper of the **1st Squad, 2nd Platoon, 1st Company, 1st Battalion, Military Unit No. 769 of the Ministry of Defense**, stated in his testimony that at approximately **06:00 on 13.09.2022**, while preventing large-scale provocative actions by Armenian armed formations, he and several other servicemen of that military unit sustained injuries of varying severity as a result of the explosion of a **mortar shell fired by Armenian armed formations in the Lachin District**.

Volume 109, case file sheets 128–132

According to **forensic medical expert conclusion No. 52 dated 26.04.2024**, it was established that the bodily injuries sustained by **Sheydayev Elshad Saleh oglu — a condition following a through-and-through bullet wound in the region of the right elbow** — were caused by the explosion of an explosive substance and/or secondary fragments, which, according to the degree of their effect, are considered capable of causing **minor harm to health**.

Volume 327, case file sheets 1–253

Questioned as a victim, **Junior Sergeant Sheydayev Elshad Saleh oglu**, scout-sentry of the **1st Company, 2nd Platoon, 2nd Company, 1st Battalion, Military Unit No. 769 of the Ministry of Defense**, stated in his testimony that at approximately **01:00 on 13.09.2022**, while preventing large-scale provocative actions by Armenian armed formations, as a result of fire opened by Armenian armed formations in the **Kalbajar District**, he and several servicemen of that military unit sustained various types of bodily injuries.

Volume 192, case file sheets 150–154

Volume 342, case file sheets 121–123, 129–130

According to **forensic medical expert conclusion No. 48 dated 26.04.2024**, it was established that the bodily injuries sustained by **Hasiyev Alesker Hasan oglu — blast trauma, primary surgical treatment of a wound resulting from a blind shrapnel injury to the soft tissues of the left shoulder, and a non-healing skin scar following surgery to remove a foreign body (fragment)** — were caused by the impact of a primary or secondary fragment resulting from the explosion of any substance possessing explosive properties and, depending on the degree of its effect, are considered to cause **minor harm to health**.

Volume 327, case file sheets 1–253

Questioned as a victim, **Private Hasiyev Alesker Hasan oglu**, scout-sentry of the **2nd Group, 2nd Platoon, 3rd Company, 2nd Battalion, Military Unit No. 769 of the Ministry of Defense**, stated in his testimony that at approximately **01:00 on 13.09.2022**, while preventing large-scale provocative actions by Armenian armed formations, he and several other servicemen sustained injuries of varying severity as a result of **shelling carried out by Armenian armed forces in the Lachin District**.

Volume 109, case file sheets 165–170

According to **forensic medical expert conclusion No. 833 dated 26.04.2024**, it was established that the bodily injuries sustained by **Tahirli Khalay Malik oglu —**

[Page 601]

blast trauma, a shrapnel wound penetrating into the lower third of the right thigh, was caused by the impact of a primary or secondary fragment formed during the explosion of any explosive substance and, depending on the degree of severity, is classified as minor harm to health.

Volume 327, case-file pages 1-253

When questioned as a victim, Private Tahirli Khalay Malik oglu, senior gunner of the 1st squad of the 3rd platoon of the 2nd company of the 1st battalion of military unit No. 172 of the Ministry of Defence, stated in his testimony that on 13.09.2022 at around 13:00, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of a hand grenade thrown by Armenian armed formations in the territory of Kalbajar District, Private Kenan Nasibov, a serviceman of that military unit, died, while he and Senior Warrant Officer Eltekin Hasanov sustained injuries of varying degrees of severity.

Volume 192, case-file pages 131-136

According to forensic medical expert opinion No. 890 dated 26.04.2024, it was established that the bodily injuries sustained by Javadov Natig Shahin oglu - F06.3 F07.2, a closed craniocerebral injury resulting from blast trauma, secondary to brain concussion, with moderate organic affective (depressive) disorder, post-concussion syndrome and behavioural disorders; F43.1 moderate (mild) prolonged post-traumatic stress disorder; a closed craniocerebral injury caused by blast trauma; post-traumatic encephalopathy manifested by persistent vegetative-vascular instability, chronic cephalgic and insomnia syndromes, cognitive deficit, mild (moderate) impairment of central nervous system function; barotrauma; right-sided chronic cochlear neuritis; persistent right-sided sensorineural hearing loss; whispered speech audible at a distance of 4 metres with the right ear and 6 metres with the left ear; hardened skin scars after bullet wounds penetrating the vertex of the head, penetrating the first finger of the left hand, penetrating the lower third of the left upper arm and penetrating the soft tissues of the back - arose as a result of the impact of primary or secondary fragments, including the blast wave arising upon discharge from a firearm, as well as upon the explosion of any explosive substance, and are classified as less serious harm to health.

Volume 327, case-file pages 1-253

When questioned as a victim, Senior Sergeant Javadov Natig Shahin oglu, Senior Warrant Officer of the special-purpose battalion of military unit No. 071 of the Ministry of Defence, stated in his testimony that on the morning of 13.09.2022, while preventing large-scale provocative actions by Armenian armed formations, as a result of fire opened by Armenian armed formations in the territory of Kalbajar District, Elnur Rustamov died, while he, Nurlan Abdullayev and Haji Hajiyeve sustained injuries of varying degrees of severity.

Volume 337, case-file pages 75-78

On the basis of forensic medical expert opinion No. 99 dated 26.04.2024, it was established that the bodily injuries sustained by Shukurlu Ugur Vasif oglu - combat blast trauma; barotrauma; left-sided post-traumatic perforative otitis media; OS post-traumatic corneal scar; visual acuity of 1 unit; a foreign body in the distal part of the left thigh - arose as a result of the impact of primary or secondary fragments formed during the explosion of any explosive substance and, in terms of severity, are classified as causing less serious harm to health.

Volume 327, case-file pages 1-253

[Page 602]

When questioned as a victim, Warrant Officer Shukurlu Ugur Vasif oglu, commander of the 2nd rapid-operations group of the 2nd rapid-operations division of the 1st rapid-operations battalion of military unit No. 2028 of the State Border Service, stated in his testimony that on 13.09.2022 at around 01:30, while preventing large-scale provocative actions by Armenian armed formations, he and several other servicemen of that military unit sustained injuries of varying degrees of severity as a result of the explosion of a hand grenade thrown by Armenian armed formations in the territory of Zangilan District.

Volume 337, case-file pages 107-111

According to forensic medical expert opinion No. 1181 dated 26.04.2024, it was established that the bodily injuries sustained by Mammadli Elvin Hafiz oglu - blast trauma, barotrauma, closed craniocerebral injury, brain concussion - arise as a result of the impact of primary or secondary fragments formed as a result of the explosion of any explosive substance and are classified as minor or moderate harm to health.

Volume 327, case-file pages 1-253

When questioned as a victim, Major of the Medical Service Mammadli Elvin Hafiz oglu, Chief Resident Physician of the Medical Rehabilitation Department of the Main Clinical Hospital of the Ministry of Defence, stated in his testimony that on 13.09.2022 at around 09:00, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of an artillery shell fired by Armenian armed formations in Lachin District, he and several other servicemen of that military unit sustained injuries of varying degrees of severity.

Volume 339, case-file pages 84-88

According to forensic medical expert opinion No. 235 dated 14.03.2024, it was established that the bodily injuries sustained by Mekhtiyev Sanan Sadraddin oglu - blast trauma; acute left-sided cochlear neuritis; blunt trauma to the left side of the neck; blunt trauma to the right and left parapharyngeal regions; a minor blunt trauma to the left wrist; a foreign body; simple myopic astigmatism of the left eye; minor harm to health due to the degree.

Volume 337, case-file pages 146-147

When questioned as a victim, Private Mekhtiyev Sanan Sadraddin oglu, driver of the 4th battalion of military unit No. 172 of the Ministry of Defence, stated in his testimony that on 13.09.2022 at around 23:00, while preventing large-scale provocative actions by Armenian armed formations, he and several other servicemen of that military unit sustained injuries of varying degrees of severity as a result of the explosion of a mortar shell fired by Armenian armed formations in Kalbajar District.

Volume 337, case-file pages 141-145

On the basis of forensic medical expert opinion No. 90 dated 26.04.2024, it was established that the bodily injury sustained by Yusifov Mehdi Fuzuli oglu - a penetrating firearm wound of the soft tissues of the right hand - was caused by the impact of a primary or secondary fragment formed as a result of the explosion of any explosive substance and is classified as causing minor harm to health.

Volume 327, case-file pages 1-253

When questioned as a victim, Warrant Officer Yusifov Mehdi Fuzuli oglu, fortification assistant of the 2nd group of the 2nd Operations Department of the 2nd Operations Directorate of military unit No. 2021 of the State Border Service, stated in his testimony that

on 12.09.2022 at around 23:55, while preventing large-scale provocative actions by Armenian armed formations, as a result of fire by Armenian armed formations

[Page 603]

on the territory of Zangilan District, he and servicemen of that military unit whose names he does not remember sustained bodily injuries of varying degrees of severity.

Volume 339, case-file pages 5-8

On the basis of forensic medical expert opinion No. 104 dated 26.04.2024, it was established that the bodily injuries sustained by Huseynov Jeyhun Faramaz oglu - a closed craniocerebral injury, brain concussion, barotrauma - right-sided tuboarthritis - of blast origin, caused by the impact of primary or secondary fragments formed as a result of the explosion of a substance, and, as a rule, considered to cause minor harm to health by reason of their degree.

Volume 327, case-file pages 1-253

When questioned as a victim, Senior Warrant Officer Huseynov Jeyhun Faramaz oglu, driver of the transport platoon of the headquarters section of the logistics department of military unit No. 2021 of the State Border Service, stated in his testimony that on the night of 12.09.2022, while preventing large-scale provocative actions by Armenian armed formations, Farid Rustamov died as a result of the explosion of a grenade thrown by Armenian armed formations in Zangilan District, while he, Tabriz Ramazanov, Farid Mammadov and Saleh Hasanov sustained injuries of varying degrees of severity.

Volume 339, case-file pages 132-135

On the basis of forensic medical expert opinion No. 100 dated 26.04.2024, it was established that the bodily injuries sustained by Rajabov Sakhavat Togrul oglu - fracture of the upper third of the right humerus, the right third rib and the right scapula; rupture of the acromioclavicular ligament as a result of a firearm wound; rupture of the upper lobe of the right lung; right-sided haemopneumothorax; contusion of the right lung; foreign bodies in the soft tissues of the right shoulder region - caused by the impact of a primary or secondary fragment as a result of the explosion of any explosive substance, are generally classified as causing serious harm to health.

Volume 327, case-file pages 1-253

When questioned as a victim, Lieutenant Rajabov Sakhavat Togrul oglu, Deputy Commander of the 2nd group of the 2nd department of the 1st directorate of military unit No. 2021 of the State Border Service, stated in his testimony that on the night of 15.09.2022, while preventing large-scale provocative actions by Armenian armed formations, as a result of fire opened by Armenian armed formations in the territory of Zangilan District, Rashad Huseynli, a serviceman of that military unit, died, while he and several other servicemen sustained injuries of varying degrees of severity.

Volume 339, case-file pages 141-144

On the basis of forensic medical expert opinion No. 101 dated 26.04.2024, it was established that the bodily injuries sustained by Zeynalov Tural Nail oglu - an open comminuted displaced fracture of the proximal metaphysis of the left fibula; an extensive subcutaneous haematoma resulting from a penetrating firearm wound of the upper third of the left lower leg; traumatic shock; post-haemorrhagic anaemia; a mild neurotic reaction; deviation of the nasal septum with mild impairment of breathing - caused by the impact of a primary or secondary fragment formed as a result of the explosion of any explosive substance, as a rule, constitute serious harm to health in terms of their degree.

Volume 327, case-file pages 1-253

When questioned as a victim, Senior Warrant Officer Zeynalov Tural Nail oglu, radio operator/signaller of the 1st group of the 3rd department of the 2nd directorate of military unit No. 2021 of the State Border Service,

[Page 604]

stated in his testimony that on the night of 13.09.2022, while preventing large-scale provocative actions by Armenian armed formations, as a result of fire opened by Armenian armed formations in the territory of Zangilan District, Junior Warrant Officer Elshan Babazade, a serviceman of that military unit, died, while he and several other servicemen sustained injuries of varying degrees of severity.

Volume 339, case-file pages 150-153

According to forensic medical expert opinion No. 78 dated 26.04.2024, it was established that the bodily injuries sustained by Shukurov Mahmud Sabir oglu - firearm wounds, right-sided degree I and left-sided degree III, with severe sensorineural hearing loss, sustained as a result of the impact of primary or secondary fragments formed as a result of the explosion of any explosive substance - are classified as less serious harm to health depending on the degree.

Volume 327, case-file pages 1-253

When questioned as a victim, Major Shukurov Mahmud Sabir oglu, Chief of Staff of military unit No. 2021 of the State Border Service, stated in his testimony that on the night of 13.09.2022, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of a hand grenade thrown by Armenian armed formations in the territory of Zangilan District, Junior Lieutenant Farid Rustamov, a serviceman of that military unit, died, while he, Farid Mammadov, Saleh Hasanov and Tabriz Ramazanov sustained various types of bodily injuries.

Volume 339, case-file pages 170-173

On the basis of forensic medical expert opinion No. 102 dated 26.01.2023, it was established that the bodily injuries sustained by Rzazade Kenan Fayaz oglu - right-sided chronic cochlear neuritis and right-sided sensorineural hearing loss - constitute a minor impairment of health

by reason of the degree of audibility of whispered speech at a distance of 5 metres with the right ear and 6 metres with the left ear.

Volume 71, case-file pages 104-105

When questioned as a victim, Warrant Officer Rzazade Kanan Fayaz oglu, feldsher-physician of military unit No. 054 of the Ministry of Defence, stated in his testimony that on 13.09.2022 at around 23:00, while preventing large-scale provocative actions by Armenian armed formations, he and Warrant Officer Elvin Suleymanov, a serviceman of military unit No. 157, sustained injuries of varying degrees of severity as a result of the explosion of a mortar shell fired by Armenian armed formations in the territory of Kalbajar District.

Volume 337, case-file pages 7-8

On the basis of forensic medical expert opinion No. 905 dated 26.04.2024, it was established that the bodily injuries sustained by Bayramov Azad Ziyaddin oglu - F43.1 mild (moderate) prolonged post-traumatic stress disorder; a hardened skin scar after a penetrating firearm wound of the head caused by a firearm - are classified as minor harm to health.

Volume 327, case-file pages 1-253

When questioned as a victim, Private Bayramov Azad Ziyaddin oglu, assistant grenade-launcher operator of the 1st platoon of the 2nd company of the 1st battalion of military unit No. 703 of the Ministry of Defence, stated in his testimony that on 15.09.2022 at around 05:00, while preventing large-scale provocative actions by Armenian armed formations, as a result of fire opened

[Page 605]

by Armenian armed formations in the territory of Kalbajar District, he and other servicemen of the military unit in which he served - Mustafa Novruzlu, Ujal Aliyev, Shamkhal Shamkhalli and Roman Hajiyeu - sustained various types of bodily injuries.

Volume 192, case-file pages 25-30

According to forensic medical expert opinion No. 494 dated 06.03.2024, it was established that the bodily injuries sustained by Guliyev Sakhavat Rahil oglu - blast trauma; blunt shrapnel wounds of the soft tissues of the third finger of the right hand and both lower limbs; a closed craniocerebral injury; the condition after brain concussion - are classified, in terms of severity, as less serious harm to health.

Volume 337, case-file pages 240-241

When questioned as a victim, Major Guliyev Sakhavat Rahil oglu, commander of the 3rd battalion of military unit No. 157 of the Ministry of Defence, stated in his testimony that on 14.09.2022 at around 10:00, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of a mortar shell fired by Armenian armed formations in Lachin District, Omar Shirinov, a serviceman of that military unit, died as a martyr, while he and servicemen of the military unit in which he served - Elmir Shikhaliyev,

Private Mustafayev and Private Gasimov - sustained bodily injuries of varying degrees of severity.

Volume 191, case-file pages 5-10

Volume 342, case-file pages 59-62, 68-70

According to forensic medical expert opinion No. 63 dated 26.04.2024, it was established that the bodily injuries sustained by Yusifov Yusif Subhi oglu - blast trauma; primary surgical treatment of wounds caused by blind shrapnel wounds of the soft tissues of the left half of the chest and both lower limbs; a post-operative condition resulting from the impact of primary or secondary fragments formed during the explosion of any explosive substance - depending on the degree of harm to general health, constitute minor harm.

Volume 73, case-file pages 60-63

When questioned as a victim, Private Yusifov Yusif Subhi oglu, senior gunner of the 1st squad of the 3rd platoon of the 12th company of the 4th battalion of military unit No. 157 of the Ministry of Defence, stated in his testimony that on 14.09.2022 at around 13:00, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of a hand grenade thrown by Armenian armed formations in Lachin District, he and other servicemen of the military unit in which he served, Nahid Mammadli and Jeyhun Hasanov, sustained various types of bodily injuries.

Volume 191, case-file pages 73-78

According to forensic medical expert opinion No. 875 dated 26.04.2024, it was established that the bodily injuries sustained by Hajiyevev Ruzi Dayanat oglu - blast trauma; a hardened skin scar after a blind shrapnel wound of the right shoulder and lumbar region; a foreign body (metal fragment) in the soft tissues of the chest, arising as a result of the impact of a primary or secondary fragment formed during the explosion of an explosive substance - as a rule, constitute minor harm to health by their degree of severity.

Volume 327, case-file pages 1-253

When questioned as a victim, Private Hajiyevev Ruzi Dayanat oglu, rifleman of the 3rd squad of the 2nd platoon of the 10th company of the 4th battalion of military unit No. 172 of the Ministry of Defence, stated in his testimony that on 13.09.2022 at around 08:00, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of a mortar shell

[Page 606]

fired by Armenian armed formations in the territory of Kalbajar District, he and other servicemen of the military unit in which he served sustained various types of bodily injuries.

Volume 192, case-file pages 168-172

According to forensic medical expert opinion No. 73 dated 26.04.2024, it was established that the bodily injuries sustained by Shikhaliyev Ali Fagan oglu - blast trauma; blind shrapnel

wounds of the right hand, both thighs and calves, and the right shoulder - were caused by the impact of primary or secondary fragments formed as a result of the explosion of any explosive substance and are classified as less serious harm to health by reason of their degree.

Volume 327, case-file pages 1-253

When questioned as a victim, Private Shikhaliyev Ali Fagan oglu, rifleman-medic of the 1st squad of the 2nd platoon of the 10th company of the 4th battalion of military unit No. 172 of the Ministry of Defence, stated in his testimony that on the night of 13.09.2022, while preventing large-scale provocative actions by Armenian armed formations, he and servicemen of the military unit in which he served sustained injuries of varying degrees of severity as a result of the explosion of a mortar shell fired by Armenian armed formations in Kalbajar District.

Volume 192, case-file pages 195-199

On the basis of forensic medical expert opinion No. 841 dated 26.04.2024, it was established that the bodily injuries sustained by Guliyev Sayad Kamal oglu - blast trauma; primary surgical treatment of wounds caused by a blind shrapnel wound of the left thigh; secondary surgical treatment of wounds; hardened skin scars after partial removal of foreign bodies; foreign bodies in the soft tissues not causing functional impairment - arise as a result of the impact of primary or secondary fragments formed during the explosion of any explosive substance and, in terms of severity, as a rule, are classified as minor harm to health.

Volume 327, case-file pages 1-253

When questioned as a victim, Private Guliyev Sayad Kamal oglu, scout of the 1st squad of the 2nd platoon of the 6th company of the 2nd battalion of military unit No. 430 of the Ministry of Defence, stated in his testimony that on the night of 13.09.2022, while preventing large-scale provocative actions by Armenian armed formations, he and other servicemen sustained injuries of varying degrees of severity as a result of the explosion of a mortar shell fired by Armenian armed formations in Kalbajar District.

Volume 192, case-file pages 222-226

According to forensic medical expert opinion No. 997 dated 26.04.2024, it was established that the bodily injury sustained by Khankishiyev Arzuman Fakhraddin oglu - a grade 3a tear of the medial surface of the posterior horn of the left knee joint - was caused by the impact of a primary or secondary fragment as a result of the explosion of any explosive substance and is generally classified as minor harm to health.

Volume 327, case-file pages 1-253

When questioned as a victim, Sergeant Khankishiyev Arzuman Fakhraddin oglu, scout-sniper of the 1st squad of the 4th platoon of the 4th company of the 2nd battalion of military unit No. 430 of the Ministry of Defence, stated in his testimony that on the night of 13.09.2022, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of a mortar shell fired by Armenian armed formations in the territory of

Kalbajar District, servicemen of that military unit Ravil Humbatov and Ismayil Budagli died, while he and other servicemen sustained injuries of varying degrees of severity.

[Page 607]

Volume 192, case-file pages 213-217

According to forensic medical expert opinion No. 119 dated 26.04.2024, it was established that the bodily injuries sustained by Eyvazov Elvin Dashdemir oglu are post-traumatic headaches. The injury was sustained as a result of blunt mechanical impact and is classified as minor harm to health.

Volume 327, case-file pages 1-253

When questioned as a victim, Private Eyvazov Elvin Dashdemir oglu, commander of the 2nd command-and-staff communications vehicle of military unit No. 651 of the Ministry of Defence, stated in his testimony that on 13.09.2022 at around 13:00, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of a mortar shell fired by Armenian armed formations in Lachin District, he and other servicemen of the military unit in which he served, Rahib Shikhiyev, Mammad Gaibov and Shakhrat Osmanov, sustained injuries of varying degrees of severity.

Volume 191, case-file pages 55-59

According to forensic medical expert opinion No. 122 dated 26.04.2024, it was established that the bodily injuries sustained by Gaibov Mammad Valeh oglu - a diagnosis of post-traumatic ligament pain was made. The injury was sustained as a result of blunt mechanical impact, the date of occurrence corresponds to 13.09.2022, it could have arisen as a result of a road traffic accident, and its degree of severity constitutes minor harm to health.

Volume 327, case-file pages 1-253

When questioned as a victim, Sergeant Gaibov Mammad Valeh oglu, commander of the 1st command-and-staff vehicle of the radio platoon of the communications section of military unit No. 651 of the Ministry of Defence, stated in his testimony that on 13.09.2022 at around 13:00, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of a mortar shell fired by Armenian armed formations in Lachin District, he and other servicemen of the military unit in which he served, Rahib Shikhiyev, Elmin Eyvazov and Shakhrat Osmanov, sustained injuries of varying degrees of severity.

Volume 191, case-file pages 64-68

According to forensic medical expert opinion No. 968 dated 26.04.2024, it was established that the bodily injuries sustained by Aliyev Nabi Akif oglu - primary surgical treatment of wounds caused by blast trauma, including an open, multi-fragmented, displaced fracture of the left humerus; wounds with soft-tissue defects; blind shrapnel wounds of various parts of the body; dismantling of the left humerus using an Ilizarov apparatus; closed repositioning of fracture fragments; acute shortening as a result of an open defective fracture of the humerus; fractures fixed by means of an external fixation plate after surgical intervention and arising as

a result of the impact of primary or secondary fragments formed during the explosion of any explosive substance - are classified as causing serious harm to health depending on the degree of severity.

Volume 327, case-file pages 1-253

When questioned as a victim, Junior Sergeant Aliyev Nabi Akif oglu, scout-observer of the 1st squad of the 2nd platoon of the 4th company of the 2nd battalion of military unit No. 701 of the Ministry of Defence, stated in his testimony that on 13.09.2022 at around 17:00, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of a mortar shell fired by Armenian armed formations in the territory of Kalbajar District, he and servicemen of the military unit in which he served, Yaver Garibov, Nariman Ibrahimov and Zamig Latifzade, sustained various types of bodily injuries.

[Page 608]

Volume 192, case-file pages 231-236

According to forensic medical expert opinion No. 701 dated 26.04.2024, it was established that the bodily injuries sustained by Latifzade Zamig Rzagul oglu - primary surgical treatment of a wound in connection with blast trauma, a blind shrapnel wound of the upper third of the left tibia, an extensive soft-tissue defect, an open, multi-fragmented, deficient intra-articular displaced fracture of the metaphyses of the left tibia, osteosynthesis by the G.A. Ilizarov method, secondary surgical treatment of wounds, necrectomy, removal of foreign bodies, application of gentamicin-containing cement, installation of a VAC device, open repositioning of fragments, restoration of the Ilizarov apparatus, insufficiently united fractures after surgical bone grafting using allografts, a narrow osteogenesis defect of the proximal metaphysis of the tibia, osteoarthritis of the left knee joint, arthromyogenic contractures - arise as a result of the impact of primary or secondary fragments formed during the explosion of any explosive substance and are classified as causing serious harm to health depending on the degree of severity.

Volume 327, case-file pages 1-253

When questioned as a victim, Junior Sergeant Latifzade Zamig Rzagul oglu, scout of the 1st group of the 4th company of the 2nd battalion of military unit No. 701 of the Ministry of Defence, stated in his testimony that on 13.09.2022 at around 17:00, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of a mortar shell fired by Armenian armed formations in the territory of Kalbajar District, he and servicemen of the military unit in which he served, Muraz Mammadov, Nabi Aliyev and Yaver Garibov, sustained various types of bodily injuries.

Volume 192, case-file pages 241-246

According to forensic medical expert opinion No. 60 dated 26.04.2024, it was established that the bodily injuries sustained by Mammadov Muraz Shahniyar oglu - the condition after primary surgical treatment of a wound resulting from a penetrating firearm wound of the soft tissues of the lower third of the right thigh, caused by the impact of a primary or secondary

fragment formed as a result of the explosion of an explosive substance - and by its degree this concerns minor harm to health.

Volume 327, case-file pages 1-253

When questioned as a victim, Senior Lieutenant Mammadov Muraz Shahniyar oglu, commander of the 4th company of the 2nd battalion of military unit No. 701 of the Ministry of Defence, stated in his testimony that on 14.09.2022 at around 18:00, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of a mortar shell fired by Armenian armed formations in the territory of Kalbajar District, he and servicemen of the military unit in which he served, Zamig Latifzade and Nabi Aliyev, sustained various types of bodily injuries.

Volume 192, case-file pages 251-256

According to forensic medical expert opinion No. 62 dated 26.04.2024, it was established that the bodily injuries sustained by Garibov Yavar Firuz oglu - the condition after surgical treatment of a wound resulting from a blind shrapnel wound of the left shoulder - were caused by the impact of a primary or secondary fragment formed as a result of the explosion of any explosive substance and are classified as causing minor harm to health depending on the degree.

Volume 327, case-file pages 1-253

When questioned as a victim, Junior Sergeant Garibov Yavar Firuz oglu, scout of the 1st squad of the 3rd platoon of the 4th company of the 2nd battalion of military unit No. 701 of the Ministry of Defence, stated in his testimony that on 13.09.2022

[Page 609]

at around 06:00, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of a mortar shell fired by Armenian armed formations in the territory of Kalbajar District, he and servicemen of the military unit in which he served, Muraz Mammadov, Zamig Latifzade, Nariman Ibrahimov and Nabi Aliyev, sustained bodily injuries of varying degrees of severity. bodily injuries.

Volume 192, case-file pages 177-181

According to forensic medical expert opinion No. 67/MES dated 26.04.2024, it was established that the bodily injuries sustained by Aljanov Vahid Faig oglu - blast trauma, the condition after surgery to remove a fragment due to a blind shrapnel wound of the left knee - were caused by the impact of a primary or secondary fragment arising as a result of the explosion of any explosive substance and are classified as mild or moderate in degree of severity.

Volume 347, case-file pages 241-244

When questioned as a victim, Junior Sergeant Aljanov Vahid Faig oglu, scout of the 2nd group of the 2nd platoon of the 3rd company of the 1st battalion of military unit No. 769 of

the Ministry of Defence, stated in his testimony that on the night of 13.09.2022, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of a mortar shell fired by Armenian armed formations in Lachin District, Saddam Huseynov, a serviceman of that military unit, died, while he and other servicemen sustained injuries of varying degrees of severity.

Volume 192, case-file pages 204-208

Volume 342, case-file pages 161-163, 169-170

According to forensic medical expert opinion No. 828 dated 26.04.2024, it was established that the bodily injuries sustained by Shikhaliyev Elmir Rovshan oglu - primary surgical treatment of the perineum and inguinal region in connection with extensive soft-tissue defects of the left lower leg, lower leg and thigh resulting from blast trauma; multiple blind shrapnel wounds of the anterior and posterior surfaces of the right lower leg; open shrapnel defects of the navicular bone and the I, II, III, IV and V metatarsal bones of the left lower leg; surgical treatment of wounds; removal of necrotic fragments of the first metatarsal bone; secondary surgical treatment of wounds; a defect of the first metatarsal bone after autodermpoplasty surgery; combined fractures of the I-IV metatarsal bones; scar-tendon contracture of the I-V toes; post-traumatic deformity of the left foot, as a result of which it became impossible to use the adopted military-pattern footwear; keloid scars on the easily traumatised left thigh, lower leg and foot, which prevent him from wearing the standard military uniform and footwear; as well as contracture of the left ankle joint; multiple foreign bodies of various sizes in the soft tissues (metal fragments); blast trauma resulting in post-traumatic neuropathy of the left peroneal, tibial and sural nerves, profound distal paresis of the limb and sensory disturbances; astheno-neurotic manifestations after a closed craniocerebral injury and brain concussion with moderate impairment of peripheral functions - arose as a result of the impact of primary or secondary fragments formed during the explosion of any explosive substance and, in terms of severity, are classified as causing less serious harm to health.

Volume 327, case-file pages 1-253

When questioned as a victim, Captain Shikhaliyev Elmir Rovshan oglu, commander of the 1st battery of military unit No. 949 of the Ministry of Defence, stated in his testimony that on 14.09.2022 at around 11:00, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of a mortar shell fired by Armenian armed formations in Lachin District, serviceman of military unit No. 157 Omar Shirinov died

[Page 610]

as a martyr, while he and other servicemen of the military unit in which he served, Murad Orujov and Kenan Mustafayev, sustained various bodily injuries.

Volume 191, case-file pages 103-108

On the basis of forensic medical expert opinion No. 836 dated 26.04.2024, it was established that the bodily injuries sustained by Abdullazade Nurlan Elkhon oglu - moderately expressed organic affective disorder with depressive symptoms and a history of suicide attempts;

moderately expressed prolonged post-traumatic stress disorder with functional seizures; blast trauma; a closed craniocerebral injury; brain concussion in the form of post-traumatic encephalopathy manifested by persistent vegetative-vascular instability, cephalgic and insomnia syndromes; blast trauma; right-sided chronic cochlear neuritis; right-sided sensorineural hearing loss; whispered speech audible at a distance of 4 metres with the right ear and 6 metres with the left ear; primary surgical treatment of wounds caused by a blind foreign body in the soft tissues of the right occipital region as a result of blast trauma; a hardened skin scar after surgery to remove the foreign body - arose as a result of the impact of primary or secondary fragments, including the shock wave formed during the explosion of any explosive substance, and, in terms of severity, are classified as causing less serious harm to health.

Volume 327, case-file pages 1-253

When questioned as a victim, Warrant Officer Abdullazade Nurlan Elkhan oglu, intelligence and fortification officer of the 2nd battalion of military unit No. 071 of the Ministry of Defence, stated in his testimony that on 13.09.2022 at around 08:00, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of a mortar shell fired by Armenian armed formations in the territory of Kalbajar District, Elnur Rustamov, a serviceman of the military unit in which he served, died, while he and other servicemen sustained injuries of varying degrees of severity.

Volume 191, case-file pages 45-50

According to forensic medical expert opinion No. 859 dated 26.04.2024, it was established that the bodily injuries sustained by Anarajabov Ramazan Elshad oglu - blast trauma; a skin scar after a shrapnel wound of the lower third of the left thigh; a foreign body (metal fragment) in the soft tissues, caused by the impact of a primary or secondary fragment formed during the explosion of any explosive substance - overall minor harm to health due to the degree relates to multiplication.

Volume 327, case-file pages 1-253

When questioned as a victim, Private Anarajabov Ramazan Elshad oglu, rifleman of the 1st squad of the 1st platoon of the headquarters subunit of military unit No. 071 of the Ministry of Defence, stated in his testimony that on 13.09.2022 at around 10:00, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of a mortar shell fired by Armenian armed formations in the territory of Kalbajar District, he and servicemen of the military unit in which he served, Tural Aliyev and Ali Mammadov, sustained bodily injuries of varying degrees of severity.

Volume 191, case-file pages 25-30

According to forensic medical expert opinion No. 2317 dated 15.12.2023, it was established that the bodily injuries sustained by Musayev Ravan Shafakhat oglu - a bullet wound affecting the second finger of the right hand and penetrating the soft tissues of the third finger - are considered minor harm to health in terms of severity.

Volume 88, case-file pages 164-165

[Page 611]

When questioned as a victim, Private Musayev Ravan Shafakhat oglu, sniper-grenade-launcher operator of the 3rd squad of the 4th platoon of subunit “J” of military unit No. 072 of the Ministry of Defence, stated in his testimony that on 13.09.2022 at around 06:00, while preventing large-scale provocative actions by Armenian armed formations, as a result of fire opened by Armenian armed formations in the territory of Kalbajar District, Elmir Huseynov, Huseynali Nabiyeu and Farid Latifov died, while he and servicemen of the military unit in which he served sustained various types of bodily injuries.

Volume 88, case-file pages 83-84, 88-90

Volume 192, case-file pages 186-190

According to forensic medical examination opinion No. 449 dated 25.12.2023, it was established that the bodily injuries sustained by Ananyev Nazim Roman oglu - scar tissue after a non-penetrating shrapnel wound of the right half of the spine and the posterior surface of the chest - are classified, in terms of severity, as minor harm to health.

Volume 275, case-file pages 32-34

When questioned as a victim, Private Ananyev Nazim Roman oglu, sapper-scout of the 1st group of detachment “M” of military unit No. 073 of the Ministry of Defence, stated in his testimony that on 13.09.2022 at around 09:00, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of a hand grenade thrown by Armenian armed formations in the territory of Kalbajar District, he and other servicemen of the military unit in which he served sustained various types of bodily injuries.

Volume 191, case-file pages 83-88

Volume 275, case-file pages 23-26

According to forensic medical examination opinion No. 123 dated 26.04.2024, it was established that the bodily injuries sustained by Feyzullayev Kenan Mahmud oglu are post-traumatic headaches. The injury was sustained as a result of the impact of the shock wave formed upon the explosion of a bullet fired from a firearm and, in terms of severity, is classified as minor harm to health.

Volume 327, case-file pages 1-253

When questioned as a victim, Feyzullayev Kenan Mahmud oglu, sapper-scout of the 1st company of the 2nd platoon of the engineering subunit of military unit No. 073 of the Ministry of Defence, stated in his testimony that on 14.09.2022 at around 06:00, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of a mortar shell fired by Armenian armed formations in the territory of Kalbajar District, he and other servicemen of the military unit in which he served sustained various types of bodily injuries.

Volume 88, case-file pages 38-39, 43-45

Volume 191, case-file pages 93-98

According to forensic medical examination opinion No. 974 dated 26.04.2024, it was established that the bodily injury sustained by Jafarov Teymur Mahammadrasul oglu - a skin scar after a shrapnel wound in the region of the left shoulder - arose as a result of the impact of a primary or secondary fragment formed during the explosion of any explosive substance and is generally classified as minor harm to health.

Volume 327, case-file pages 1-253

When questioned as a victim, Private Jafarov Teymur Mahammadrasul oglu, grenade-launcher operator of the 1st squad of the 1st platoon of the 9th company of the 3rd battalion of military unit No. 157 of the Ministry of Defence, stated in his testimony that

[Page 612]

on 13.09.2022 at around 09:00, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of a mortar shell fired by Armenian armed formations in the territory of Lachin District, servicemen of military unit No. 157, whose names he does not presently remember, became martyrs, while at the same time he and several other servicemen of military unit No. 157, whose names he does not presently remember, sustained various types of bodily injuries.

Volume 189, case-file pages 221-225

According to forensic medical expert opinion No. 397 dated 16.02.2024, the bodily injuries sustained by Hasanov Jeyhun Ramiz oglu - multiple injuries to the mesentery of the small intestine penetrating the left lateral wall of the abdomen, as well as pronounced injuries to the soft tissues of the left side of the left thigh and the left inguinal region - are considered serious dangers to health.

Volume 337, case-file pages 124-125

When questioned as a victim, Private Hasanov Jeyhun Ramiz oglu, rifleman of the 4th battalion of military unit No. 157 of the Ministry of Defence, stated in his testimony that on 14.09.2022 at around 11:00, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of a grenade thrown by Armenian armed formations in the territory of Kalbajar District, servicemen of military unit No. 157, whose names he does not presently remember, died, while at the same time he, Mammadli Nahid Alik oglu, Yusifov Yusif and several other servicemen of military unit No. 157, whose names he does not presently remember, whose names he does not remember, sustained various types of bodily injuries.

Volume 89, case-file pages 230-231, 235-237

According to forensic medical expert opinion No. 805 dated 26.04.2024, it was established that the bodily injuries sustained by Ibrahimli Umid Mikail oglu - moderate (mild) post-traumatic stress disorder; blast trauma ending in compensation; a hardened skin scar after a

blunt shrapnel wound of the soft tissues of the left upper limb, left knee joint and right hand; foreign bodies in the soft tissues; blast trauma; a foreign body in the soft tissues of the left maxillary sinus; blast trauma; a foreign body in the soft tissues of the external nose - arose as a result of the impact of primary or secondary fragments, including the shock wave arising during the explosion of any explosive substance, and, as a rule, cause minor harm to health by reason of their degree.

Volume 327, case-file pages 1-253

When questioned as a victim, Private Ibrahimli Umid Mikail oglu, former sniper-observer of the 1st battalion, 3rd company, 2nd platoon of military unit No. 157 of the Ministry of Defence, stated in his testimony that on 13.09.2022 at around 01:00, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of a mortar shell fired by Armenian armed formations in the territory of Kalbajar District, serviceman of military unit No. 157 Samadov Elvin Mirzali oglu died, while he, Murad Guliyev and several other servicemen of military unit No. 157, whose names he does not remember, sustained various types of bodily injuries.

Volume 80, case-file pages 193-194, 198-200

According to forensic medical expert opinion No. 913 dated 26.04.2024, it was established that the bodily injuries sustained by Karimov Allahverdi Ilyas oglu - moderately expressed prolonged post-traumatic stress disorder with depressive episodes and suicidal thoughts; post-traumatic neuropathy of the right tibial nerve and the superficial branch of the peroneal nerve with sensory and motor disturbances,

[Page 613]

leading to mild impairment of limb function; closed displaced fractures of the distal metaphysis of the right tibia; reduction of a dislocation due to external dislocation of the foot; insufficiently united fractures after plaster immobilisation; myogenic contracture of the talipes joint; hardened skin scars from incised wounds in both victims - arose as a result of the impact of primary or secondary fragments, including the blast wave arising during the explosion of any explosive substance, and are classified as less serious harm to health.

Volume 327, case-file pages 1-253

When questioned as a victim, Junior Sergeant Karimov Allahverdi Ilyas oglu, former - serving serviceman of military unit No. 157 of the Ministry of Defence, stated in his testimony that on 13.09.2022 at around 01:00, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of an artillery shell fired by Armenian armed formations in Lachin District, servicemen of military unit No. 157, whose names he does not presently remember, became martyrs, while he and several other servicemen, whose names he does not presently remember, sustained various types of bodily injuries.

Volume 331, case-file pages 112-115

On the basis of forensic medical expert opinion No. 29 dated 26.04.2024, it was established that the bodily injuries sustained by Mammadov Alkham Kalandar oglu - on 26.10.2022 the Central Military Polyclinic of the Ministry of Defence military-medical commission diagnosed blast trauma, a blind shrapnel wound of the left upper limb, left thigh and external nose, astheno-neurotic manifestations of somatogenic origin, deviation of the nasal septum moderately impeding nasal breathing - primary or secondary shrapnel wounds sustained as a result of the explosion of any explosive substance, including as a result of the impact of the blast wave, as a rule, by their degree cause minor harm to health.

Volume 327, case-file pages 1-253

When questioned as a victim, Sergeant Mammadov Alkham Kalandar oglu, commander of the 2nd grenadier platoon of the 2nd anti-tank subunit of military unit No. 157 of the Ministry of Defence, stated in his testimony that on 13.09.2022 at around 08:30, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of an artillery shell fired by Armenian armed formations in the territory of Lachin District, Lieutenant Omar Shirinov, a serviceman of military unit No. 157, died, while he, Warrant Officer Faig Jafarov and several other servicemen of military unit No. 157, whose names he does not remember, sustained various types of bodily injuries.

Volume 45, case-file pages 11-14, 20-22

According to forensic medical expert opinion No. 808 dated 26.04.2024, it was established that the bodily injuries sustained by Musayev Nurlan Hafiz oglu - blast trauma; a closed craniocerebral injury; brain concussion in the form of persistent vegetative-vascular instability and diffuse organic neurological manifestations, with mild impairment of central nervous system function; astheno-neurotic manifestations after a closed craniocerebral injury and brain concussion; barotrauma; right-sided chronic cochlear neuritis; right-sided sensorineural hearing loss; whispered speech audible at a distance of 4 metres with the right ear and 6 metres with the left ear; a foreign body (metal fragment) in the right eyebrow and right upper eyelid; visual acuity 1; a hardened skin scar after a blind shrapnel wound of the external surface of the upper third of the right lower leg - were caused by the impact of a primary or secondary fragment, including

[Page 614]

the blast wave caused by the explosion of any explosive substance, and, by reason of their degree, constitute less serious harm to health.

Volume 327, case-file pages 1-253

When questioned as a victim, Senior Lieutenant Musayev Nurlan Hafiz oglu, head of the communications section of the 3rd battalion of military unit No. 157 of the Ministry of Defence, stated in his testimony that on 13.09.2022 at around 08:00, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of a mortar shell fired by Armenian armed formations in the territory of Lachin District, Omar

Shirinov, a serviceman of military unit No. 157, died, while he and other servicemen of the military unit in which he served sustained various types of bodily injuries.

Volume 338, case-file pages 141-144

On the basis of forensic medical expert opinion No. 42 dated 26.04.2024, it was established that the bodily injuries sustained by Garayev Suleyman Faig oglu - a closed craniocerebral injury and brain concussion resulting from blast trauma; left-sided acute cochlear neuritis resulting from barotrauma, caused by the impact of the blast wave of a firearm - by their degree are generally classified as less serious harm to health.

Volume 327, case-file pages 1-253

When questioned as a victim, Private Garayev Suleyman Faig oglu, serviceman of military unit No. 157 of the Ministry of Defence, stated in his testimony that on 13.09.2022 at around 02:00, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of a mortar shell fired by Armenian armed formations in Lachin District, servicemen of military unit No. 157, whose names he does not remember, became martyrs, while he and other servicemen of the military unit in which he served sustained various types of bodily injuries.

Volume 338, case-file pages 156-159

According to forensic medical expert opinion No. 104 dated 29.03.2024, it was established that the bodily injuries sustained by Safarov Etibar Sahib oglu - explosion of a tram; a blind shrapnel wound penetrating the cranial cavity through the left part of the forehead; crushing of both frontal lobes and the left temporal lobe of the brain; intraparenchymatosis and haematoma - are considered to constitute serious harm to health by reason of the severity of the injury.

Volume 337, case-file pages 221-223

When questioned as a victim, Private Safarov Etibar Sahib oglu, rifleman of the 1st squad of the 2nd platoon of the 9th company of the 3rd battalion of military unit No. 157 of the Ministry of Defence, stated in his testimony that on 13.09.2022 at around 01:00, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of a mortar shell fired by Armenian armed formations in the territory of Kalbajar District, Lieutenant Omar Shirinov, a serviceman of military unit No. 157, became martyrs, while he and several other servicemen of military unit No. 157, whose names he does not remember, sustained various bodily injuries.

Volume 189, case-file pages 191-196

Volume 337, case-file pages 198-201

On the basis of forensic medical expert opinion No. 869 dated 26.04.2024, it was established that the bodily injuries sustained by Abbasli Vusal Fazil oglu - blast trauma; blind shrapnel wounds of the head, face, right shoulder and left arm - caused by the impact of a primary or secondary fragment

[Page 615]

as a result of the explosion of any explosive substance, are generally classified as minor harm to health in terms of severity.

Volume 327, case-file pages 1-253

When questioned as a victim, Warrant Officer Abbasli Vusal Fazil oglu, Deputy Commander of the 3rd platoon of the anti-tank division of military unit No. 888 of the Ministry of Defence, stated in his testimony that on 13.09.2022 at around 08:00, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of a mortar shell fired by Armenian armed formations in the territory of Kalbajar District, Lieutenant Shirinov Omar, a serviceman of military unit No. 888, died, while he, Jafarov Faig, Mammadov Alkham and several other servicemen of military unit No. 888, whose names he does not remember, sustained various types of bodily injuries.

Volume 80, case-file pages 231-232, 236-239

On the basis of forensic medical expert opinion No. 829 dated 26.04.2024, it was established that the bodily injuries sustained by Shykhyev Ruslan Zakhir oglu - blast trauma; left-sided chronic cochlear neuritis; persistent left-sided sensorineural hearing loss; whispered speech audible at a distance of 5 metres with the left ear and 6 metres with the right ear; a hardened skin scar after a blunt shrapnel wound of the right elbow region; soft-tissue injuries - arise as a result of the impact of primary or secondary fragments, including the blast wave arising upon the explosion of any foreign body - explosive substance, and, in terms of severity, are generally classified as minor harm to health.

Volume 327, case-file pages 1-253

When questioned as a victim, Private Shykhyev Ruslan Zakhir oglu, former serviceman of military unit No. 877 of the Ministry of Defence, stated in his testimony that on 14.09.2022, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of an artillery shell fired by Armenian armed formations in Lachin District, Omar Shirinov, a serviceman of military unit No. 157, died, while he and other servicemen of the military unit in which he served sustained injuries of varying degrees of severity.

Volume 344, case-file pages 100-103

On the basis of forensic medical expert opinion No. 120 dated 26.04.2024, it was established that the bodily injury sustained by Soltanov Tural Rahil oglu - "a blind shrapnel wound of the left earlobe". The injury was caused by a fragment from the rupture of a bullet fired from a firearm and is classified as minor harm to health.

Volume 327, case-file pages 1-253

When questioned as a victim, Private Soltanov Tural Rahil oglu, scout of the fire-support group of the mortar battery of the 3rd division of military unit No. 157 of the Ministry of Defence, stated in his testimony that on 14.09.2022 at around 15:00, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of a

mortar shell fired by Armenian armed formations in the territory of Lachin District, servicemen of military unit No. 157, whose names he presently does not remember, died, while at the same time he and several other servicemen of military unit No. 157, whose names he presently does not remember, sustained various types of bodily injuries.

Volume 190, case-file pages 35-40

According to forensic medical expert opinion No. 47 dated 26.04.2024, it was established that the bodily injuries sustained by Tagiyev Elvin Ibad oglu - primary surgical treatment of wounds sustained as a result of a closed cranio-

[Page 616]

cerebral injury, brain concussion and blunt shrapnel wounds of the right upper limb, right buttock and left thigh as a result of blast trauma; secondary surgical treatment - the condition after surgery to remove a foreign body - were caused by the impact of primary or secondary fragments formed as a result of the explosion of any explosive substance and are classified as a minor danger to health depending on its degree.

Volume 327, case-file pages 1-253

On the basis of forensic medical expert opinion No. 125 dated 26.04.2024, it was established that the bodily injuries sustained by Abdullayev Yuksel Basret oglu are blast-related. Crushing of the soft tissues of the right half of the lower back was detected. The injury was sustained as a result of the impact of the shock wave formed upon the explosion of a bullet fired from a firearm and, in terms of severity, is classified as minor harm to health.

Volume 327, case-file pages 1-253

When questioned as a victim, Private Abdullayev Yuksel Basret oglu, commander of the 4th battalion of the 11th company of military unit No. 172 of the Ministry of Defence, stated in his testimony that on 12.09.2022 at around 23:30, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of a mortar shell fired by Armenian armed formations in the territory of Kalbajar District, servicemen of military unit No. 172, whose names he does not remember, died, while he, Private Rasim Mammadov, Private Afrayil Huseynov and several other servicemen of military unit No. 172, whose names he does not remember, sustained various types of bodily injuries.

Volume 189, case-file pages 85-89

According to forensic medical expert opinion No. 894 dated 26.04.2024, it was established that the bodily injuries sustained by Agja Hamid Isa oglu - primary surgical treatment of a wound caused by an open displaced fracture of the distal metaphysis of the left tibia, dislocation of the foot and an incised wound of the inner and outer surface of the talar joint; reduction of the dislocation; immobilisation with a plaster cast; closed repositioning of fracture fragments; osteosynthesis with Kirschner wires for sufficient union of the fractures after surgical interventions; scarring and myogenic contracture of the ankle joint; mild impairment of function; post-traumatic neuropathy of the left peroneal and tibial nerves with

sensory and motor disturbances and moderate functional impairment - arose as a result of the impact of a primary or secondary fragment formed as a result of the explosion of any explosive substance, which, depending on the degree of injury, is considered to have caused serious harm to health.

Volume 327, case-file pages 1-253

When questioned as a victim, Senior Lieutenant Agja Hamid Isa oglu, former commander of the 1st motorised-rifle platoon of the 8th company of the 3rd battalion of military unit No. 171 of the Ministry of Defence, stated in his testimony that on 13.09.2022 at around 09:00, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of an artillery shell fired by Armenian armed formations in the territory of Kalbajar District, he and several other servicemen of military unit No. 171, whose names he does not presently remember, sustained bodily injuries of varying degrees of trauma.

Volume 330, case-file pages 102-105

According to forensic medical expert opinion No. 866 dated 26.04.2024, it was established that the bodily injuries sustained by Abbasli Murad Adalat oglu - blast trauma; left-sided hemopneumothorax penetrating into

[Page 617]

the thoracic cavity of the left half of the chest; primary surgical treatment of injuries caused by a blind shrapnel wound accompanied by open fractures of the lateral process of the T12 vertebra, dislocation of the left lung, left II and III ribs, and left scapula; skin scars after surgical interventions such as left-sided thoracocentesis, drainage of the left pleural cavity by the Bulau method, removal of a foreign body from the neck and left shoulder region; foreign bodies in the left scapula (metal fragments); simple myopic astigmatism of both eyes Em and M 0.750; visual acuity 1 - arose as a result of the impact of primary or secondary fragments formed during the explosion of any explosive substance, and depending on the degree of severity.

Volume 327, case-file pages 1-253

When questioned as a victim, Private Abbasli Murad Adalat oglu, serviceman of the 122nd separate detachment of military unit No. 172 of the Ministry of Defence, stated in his testimony that on 14.09.2022 at around 05:00, while preventing large-scale provocative actions by Armenian armed formations, as a result of fire opened by Armenian armed formations in the territory of Kalbajar District, Ulvi Mahmudzzade, a serviceman of military unit No. 172, died, while he, Private Rashan Bashirov and several other servicemen of military unit No. 172, whose names he does not remember, sustained various types of bodily injuries.

Volume 189, case-file pages 151-156

According to forensic medical expert opinion No. 1006 dated 26.04.2024, it was established that the bodily injuries sustained by Abdulgashimli Ibrahim Habil oglu - barotrauma; acute

right-sided cochlear neuritis; right-sided sensorineural hearing loss; whispered speech audible at a distance of 3 metres with the right ear and 6 metres with the left ear - caused by the impact of the blast wave caused by the explosion of any explosive substance, are generally classified as minor harm to health by reason of their degree.

Volume 327, case-file pages 1-253

When questioned as a victim, Private Abdulgashimli Ibrahim Habil oglu, grenade-launcher operator of the 2nd squad of the 4th battalion, 12th company, 2nd platoon of military unit No. 172 of the Ministry of Defence, stated in his testimony that on 12.09.2022 at around 24:00, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of a mortar shell fired by Armenian armed formations in the territory of Kalbajar District, servicemen of military unit No. 172, whose names he does not remember, died, while he, Private Oruj Nabiyeu, Private Yuksel Abdullayev and several other servicemen of military unit No. 172, whose names he does not remember, sustained various types of bodily injuries.

Volume 189, case-file pages 45-50

According to forensic medical expert opinion No. 27 dated 13.02.2024, it was established that the bodily injuries sustained by Aslanov Ali Zargam oglu - blast trauma; a closed craniocerebral injury; the condition after contusion; blunt shrapnel wounds of both lower limbs; shrapnel wounds of the soft tissues of the right thigh, left thigh, right lower leg and left lower leg; organic personality disorder; dissociative inclusions and functional seizures - are associated with less serious harm to health by reason of their degree.

Volume 342, case-file pages 53-56

When questioned as a victim, Sergeant Aslanov Ali Zargam oglu, former serviceman of military unit No. 172 of the Ministry of Defence, stated in his testimony that on 14.09.2022, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of a mortar shell fired by Armenian armed formations in Lachin District, servicemen of military unit No. 701, whose surname

[Page 618]

he does not remember, died, while he and other servicemen of that military unit sustained various types of bodily injuries.

Volume 342, case-file pages 45-49

According to forensic medical expert opinion No. 824 dated 26.04.2024, it was established that the bodily injuries sustained by Bashirov Rashan Zafar oglu - blast trauma; a blunt shrapnel wound penetrating the cranial cavity of the occipital region; intraparenchymal haematoma resulting from crushing of the left occipital lobe of the brain; decompressive trepanation of the left occipital region due to foreign bodies (bone and metal fragments); a defect of the cranial vault measuring 153 square centimetres, not replaced with plastic materials due to the presence of a foreign body (metal fragment) in the cranial cavity after

surgery for drainage of an intraparenchymal haematoma and removal of bone fragments; blast trauma; left-sided haemopneumothorax penetrating the thoracic cavity; thoracocentesis performed for a blind pleural wound accompanied by a fracture of the left third rib; drainage of the left pleural cavity by the Bulau method; primary surgical treatment of wounds; a hardened skin scar after surgery; moderate ventilatory impairment of external respiratory function of the lungs of a restrictive type; a foreign body in the tissues of the left half of the chest (metal fragment); blast trauma; a blind shrapnel wound of the left hand; ankylosis after primary surgical treatment of wounds due to an open fracture of the proximal interphalangeal joint of the II finger; interosseous foreign bodies (metal fragments); residual symptoms arising as a result of blast trauma, open craniocerebral injury, crushing of the left occipital lobe, cephalgic syndrome, insomnia and persistent vegetative-vascular instability leading to post-traumatic encephalopathy; residual symptoms of post-traumatic neuropathy of the left long thoracic nerve; mild impairment of function - arose as a result of the impact of primary or secondary fragments, including the shock wave arising upon the explosion of any explosive substance, and, depending on the degree of severity, are classified as causing serious harm to health.

Volume 327, case-file pages 1-253

When questioned as a victim, Private Bashirov Rashan Zafar oglu, chief rifleman of the 122nd separate detachment of military unit No. 172 of the Ministry of Defence, stated in his testimony that on 14.09.2022 at around 05:00, while preventing large-scale provocative actions by Armenian armed formations, as a result of fire opened by Armenian armed formations in the territory of Kalbajar District, servicemen of military unit No. 172, whose names he does not remember, died, while at the same time he, Murad Abbasli and several other servicemen of military unit No. 172, whose names he does not remember, sustained various types of bodily injuries.

Volume 189, case-file pages 161-166

On the basis of forensic medical expert opinion No. 58 dated 26.02.2024, it was established that the bodily injuries sustained by Ismayilov Rabil Nayub oglu - a closed craniocerebral injury with brain concussion - constitute minor injuries causing short-term impairment of general health as a result of acute right-sided cochlear neuritis resulting from barotrauma.

Volume 337, case-file pages 232-233

When questioned as a victim, Senior Sergeant Ismayilov Rabil Nayub oglu, commander of the 1st squad of the repair platoon of the logistics subunit of military unit No. 172 of the Ministry of Defence, stated in his testimony that on 13.09.2022 at around 12:00, while preventing

[Page 619]

large-scale provocative actions by Armenian armed formations, as a result of the explosion of a mortar shell fired by Armenian armed formations in the territory of Kalbajar District,

servicemen of military unit No. 172, whose names he does not remember, died, while they other servicemen of that military unit sustained various types of bodily injuries.

Volume 338, case-file pages 129-133

According to forensic medical expert opinion No. 910 dated 26.04.2024, it was established that the bodily injuries sustained by Muradli Mahammad Fikret oglu - blast trauma; a blunt shrapnel wound of the external surface of the lower third of the left humerus and the right hand; primary surgical treatment and plaster immobilisation in connection with an open, comminuted, displaced, defective fracture of the lower third of the diaphysis of the left fibula; installation of an external fixation apparatus on the left scapula; incomplete union of the fracture after surgery to restore the external fixation apparatus; a foreign body in the soft tissues (metal fragments); an unremoved metal structure; supination contracture of the elbow joint; arthrogenic contracture of the left wrist joint; moderate (mild) organic affective disorder; depressive episodes with dissociative inclusions; foreign bodies (metal fragments) after a blind shrapnel wound of the left half of the face; blast trauma; a previous closed craniocerebral injury; vegetative-vascular instability and astheno-neurotic manifestations after brain concussion; barotrauma; dry perforation of the left tympanic membrane; left-sided conductive hearing loss; whispered speech audible at a distance of 6 metres with the right ear and 4.5 metres with the left ear - were caused by the impact of a primary or secondary fragment, including the blast wave formed during the explosion of any explosive substance, and are classified as causing less serious harm to health depending on the degree.

Volume 327, case-file pages 1-253

When questioned as a victim, Private Muradli Mahammad Fikret oglu, former assistant grenade-launcher operator of the 2nd squad of the 2nd platoon of the 6th company of the 2nd battalion of military unit No. 172 of the Ministry of Defence, stated in his testimony that on 13.09.2022 at around 08:00, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of a mortar shell fired by Armenian armed formations in the territory of Kalbajar District, servicemen of military unit No. 172 - Rafael Fatullayev, Bakhtiyar Muradov, Rashad Nagiyev and Sadyg Azizli - died, while he and several other servicemen of military unit No. 172, whose names he cannot presently recall, sustained various types of injuries.

Volume 347, case-file pages 160-163

According to forensic medical expert opinion No. 72 dated 02.03.2024, the bodily injuries sustained by Nasirov Talat Habib oglu - a closed craniocerebral injury accompanied by brain concussion; bilateral cochlear neuritis resulting in a reduction in the audibility of whispered speech to a distance of 5 metres; right thigh; blind shrapnel wounds of both thighs and calves resulting in post-traumatic neuropathy of the right calf and left sciatic nerve; the degree of the blunt shrapnel wound of the soft tissues of the right shoulder region - overall constitute less serious harm to health.

Volume 337, case-file pages 228-230

When questioned as a victim, Sergeant Nasirov Talat Habib oglu, serviceman of the 3rd squad of the 3rd platoon of the 11th company of the 4th battalion of military unit No. 172 of the Ministry of Defence, stated in his testimony that on 13.09.2022 at around 07:00, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of a mortar

[Page 620]

shell fired by Armenian armed formations in the territory of Kalbajar District, servicemen of military unit No. 172, whose names he does not remember, died, while he and other servicemen of that military unit sustained various types of bodily injuries.

Volume 338, case-file pages 118-122

According to forensic medical expert opinion No. 1170 dated 26.04.2024, it was established that the bodily injuries sustained by Safarli Sanan Elshad oglu - blast trauma; a closed craniocerebral injury; brain concussion - arise as a result of the impact of primary or secondary fragments formed as a result of the explosion of any explosive substance and, as a rule, constitute minor harm to health depending on the degree of severity.

Volume 327, case-file pages 1-253

When questioned as a victim, Private Safarli Sanan Elshad oglu, rifleman of the 2nd squad of the 1st platoon of the 4th company of the 2nd battalion of military unit No. 172 of the Ministry of Defence, stated in his testimony that on 12.09.2022 at around 19:00, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of a mortar shell fired by Armenian armed formations in the territory of Kalbajar District, servicemen of military unit No. 172, whose names he does not remember, died, while he and several other servicemen of military unit No. 172, whose names he does not remember, sustained various types of bodily injuries.

Volume 190, case-file pages 15-20

On the basis of forensic medical expert opinion No. 838 dated 26.04.2024, it was established that the bodily injuries sustained by Nuraliyev Ruslan Yalchin oglu - an old ununited fracture of the middle phalanx of the V finger of the left hand; onycholysis of the interphalangeal joint; simple myopic astigmatism of both eyes Em and M 1 0, which resulted in reduction of visual acuity to 0.8, corrected to 1; secondary alimentary-constitutional obesity, BMI 31.5 - arise as a result of the impact of primary or secondary fragments formed during the explosion of any explosive substance and, in terms of severity, constitute less pronounced harm to health.

Volume 327, case-file pages 1-253

When questioned as a victim, Private Nuraliyev Ruslan Yalchin oglu, serviceman of the 2nd squad of the 1st battalion, 2nd company, 1st platoon of military unit No. 172 of the Ministry of Defence, stated in his testimony that on 12.09.2022 at around 24:00, while preventing large-scale provocative actions by Armenian armed formations, as a result of fire opened by

Armenian armed formations in the territory of Kalbajar District, servicemen of military unit No. 172, whose names he presently does not remember, died, while he and several other servicemen of military unit No. 172, whose names he does not remember, sustained various types of bodily injuries.

Volume 189, case-file pages 35-40

According to forensic medical expert opinion No. 895 dated 26.04.2024, it was established that the bodily injury sustained by Abbasov Ruslan Shahban oglu - a hardened skin scar after a shrapnel wound of the inner surface of the middle upper third of both thighs - arises as a result of the impact of a primary or secondary fragment formed during the explosion of any explosive substance and is classified as minor harm to health.

Volume 327, case-file pages 1-253

When questioned as a victim, Private Abbasov Ruslan Shahban oglu, driver of the combat-support platoon of the 2nd battalion of military unit No. 191 of the Ministry of Defence, stated in his testimony that on 13.09.2022 at around 10:00, while preventing large-scale provocative actions by

[Page 621]

Armenian armed formations, as a result of fire opened by Armenian armed formations in the territory of Kalbajar District, servicemen of military unit No. 191, whose names he does not remember, died, while he and several other servicemen, whose names he does not remember, sustained various types of bodily injuries.

Volume 330, case-file pages 48-52

According to forensic medical expert opinion No. 110 dated 26.04.2024, it was established that the bodily injuries sustained by Hasanov Hakim Nusraddin oglu - blast trauma; a previous closed craniocerebral injury; post-contusion vegetative-vascular instability; barotrauma; bilateral chronic cochlear neuritis; bilateral persistent sensorineural hearing loss - arise as a result of the impact of a primary or secondary fragment as a result of the explosion of any explosive substance and are classified as a minor danger to health.

Volume 327, case-file pages 1-253

When questioned as a victim, Captain Hasanov Hakim Nusraddin oglu, head of the engineering service of military unit No. 172 of the Ministry of Defence, stated in his testimony that on 13.09.2022 at around 17:00, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of a mortar shell fired by Armenian armed formations in the territory of Kalbajar District, servicemen of military unit No. 172, whose names he presently does not remember, died, while he, Aslanov Ali Zargam oglu and several other servicemen of military unit No. 172, whose names he presently does not remember, sustained various types of bodily injuries.

Volume 330, case-file pages 70-73

According to forensic medical expert opinion No. 1172 dated 26.04.2024, it was established that the injuries sustained by Orujov Shahin Azizkhan oglu - a closed craniocerebral injury and brain concussion - arise as a result of the impact of primary or secondary fragments as a result of the explosion of any explosive substance and are classified as minor or moderate harm to health.

Volume 327, case-file pages 1-253

When questioned as a victim, Captain Orujov Shahin Azizkhan oglu, commander of the 1st mortar battery of military unit No. 172 of the Ministry of Defence, stated in his testimony that on 13.09.2022 at around 01:00, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of a mortar shell fired by Armenian armed formations in the territory of Kalbajar District, servicemen of military unit No. 172, whose names he presently does not remember, died, while at the same time he and several other servicemen, whose names he presently does not remember, sustained various types of injuries.

Volume 330, case-file pages 38-41

On the basis of forensic medical expert opinion No. 877 dated 26.04.2024, it was established that the bodily injuries sustained by Bagirov Neymat Seymur oglu - primary surgical treatment of a bullet wound penetrating the right leg and resulting in an open non-displaced fracture of the right cuboid bone; a hardened skin scar and a sufficiently healed fracture after immobilisation with a plaster splint, arising as a result of a firearm wound without functional impairment - are classified as less serious harm to health.

Volume 327, case-file pages 1-253

When questioned as a victim, Senior Private Bagirov Nemat Seymur oglu, radio operator of the 5th company of the 2nd battalion of military unit No. 191 of the Ministry of Defence, stated in his testimony that on 13.09.2022 at around 02:00, while preventing large-scale provocative actions by Armenian

[Page 622]

armed formations, as a result of the explosion of a mortar shell fired by Armenian armed formations in Dashkasan District, Private Khayal Suleymanov and Senior Lieutenant Javidan Badalov, servicemen of military unit No. 191, died, while he and other servicemen of that military unit also sustained various types of injuries.

Volume 343, case-file pages 186-189

On the basis of forensic medical expert opinion No. 912 dated 26.04.2024, it was established that the bodily injuries sustained by Ahmadzade Ahmad Telman oglu - a firearm wound; post-traumatic neuropathy of the right axillary nerve resulting in mild impairment of limb function; a penetrating bullet wound of the right shoulder girdle; combined fractures of the anatomical neck of the right humerus and the articular process of the scapula after immobilisation with a plaster splint as a result of an intra-articular non-displaced fracture of

the head of the humerus; arthrosis of the shoulder joint caused by firearm wounds - are classified, in terms of severity, as a minor degree of severity.

Volume 327, case-file pages 1-253

When questioned as a victim, Senior Lieutenant Ahmadzade Ahmad Telman oglu, commander of the 4th company of the 2nd operational battalion of military unit No. 430 of the Ministry of Defence, stated in his testimony that on 13.09.2022 at around 08-09, while preventing large-scale provocative actions by Armenian armed formations, as a result of fire opened by Armenian armed formations in the territory of Kalbajar District, Senior Lieutenant Javdian Badalov and Warrant Officer Azad Karimov, servicemen of military unit No. 191, died, while he, Warrant Officer Khayal Hajiyeu, Junior Sergeant Javidan Salimov and several other servicemen of military unit No. 191, whose names he presently does not remember, sustained various types of bodily injuries.

Volume 333, case-file pages 217-220

According to forensic medical expert opinion No. 39 dated 26.04.2024, it was established that the bodily injury sustained by Aliyev Amrakh Sabir oglu - a penetrating firearm wound of the soft tissues of the left thigh - arose as a result of the impact of a bullet fired from a firearm, corresponds to the date and circumstances indicated in the medical document dated 13.09.2022, and is classified as minor harm to health.

Volume 327, case-file pages 1-253

According to forensic medical expert opinion No. 69 dated 26.04.2024, it was established that the bodily injuries sustained by Askerli Kamil Hasangulu oglu - blast trauma, a closed craniocerebral injury and post-contusion conditions - are caused by the impact of primary or secondary fragments formed as a result of the explosion of any explosive substance and are classified as minor bodily injuries depending on their severity.

Volume 327, case-file pages 1-253

When questioned as a victim, Captain Askerli Kamil Hasangulu oglu, assistant chief of staff for logistics of the 2nd battalion of military unit No. 191 of the Ministry of Defence, stated in his testimony that on 13.09.2022 at around 01:00, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of a mortar shell fired by Armenian armed formations in Dashkasan District, servicemen of military unit No. 191, whose names he presently does not remember, died, while he and several other servicemen sustained various types of bodily injuries.

Volume 330, case-file pages 7-11

On the basis of forensic medical expert opinion No. 990 dated 26.04.2024, it was established that the bodily injuries sustained by Hajiyeu

[Page 623]

Khayal Alovzat oglu - blast trauma; unhealed skin scars after blind shrapnel wounds of the right wrist joint, right thigh and right lower leg; foreign bodies in the soft tissues (metal fragments) - arise as a result of the impact of primary or secondary fragments formed during the explosion of a substance possessing explosive properties and, in terms of severity, are classified as causing less serious harm to health.

Volume 327, case-file pages 1-253

When questioned as a victim, Warrant Officer Hajiyevev Khayal Alovzat oglu, commander of the security platoon of the headquarters and supply department of military unit No. 567 of the Ministry of Defence, stated in his testimony that on 13.09.2022 at around 02:00, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of a mortar shell fired by Armenian armed formations in Dashkasan District, servicemen of military unit No. 191, whose surname he does not remember, died, while he and servicemen of the same military unit, Private Javidan Salimov and Senior Lieutenant Ahmad Ahmadzade, sustained various types of bodily injuries.

Volume 343, case-file pages 224-227

According to forensic medical expert opinion No. 822 dated 26.04.2024, it was established that the bodily injuries sustained by Huseynov Nijat Ramiz oglu - blast trauma resulting in a closed craniocerebral injury; acutely expressed organic affective disorder after brain concussion; mild long-term post-traumatic stress disorder with suicidal thoughts; a closed craniocerebral injury as a result of blast trauma; brain concussion leading to post-traumatic encephalopathy manifested by persistent vegetative-vascular instability, chronic cephalgic and insomnia syndromes, as well as cognitive impairment, with a mild degree of impairment of central nervous system function - as a result of the impact of primary or secondary fragments formed during the explosion of any explosive substance, depending on the degree, constitute less serious harm to health.

Volume 327, case-file pages 1-253

When questioned as a victim, Sergeant Huseynov Nijat Ramiz oglu, driver-radio operator of the 2nd group of the combat-support platoon of the 2nd battalion of military unit No. 191 of the Ministry of Defence, stated in his testimony that on 13.09.2022 at around 01:00, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of an artillery shell fired by Armenian armed formations in Dashkasan District, servicemen of military unit No. 191, whose surname he does not remember, died, while he and servicemen of the same military unit, Gunduz Gasimov and Anar Mammadov, sustained various types of bodily injuries.

Volume 342, case-file pages 6-8

On the basis of forensic medical expert opinion No. 1015 dated 26.04.2024, it was established that the bodily injuries sustained by Gasimov Gunduz Intizam oglu - a closed craniocerebral injury; astheno-neurotic manifestations after brain concussion; blast trauma; a closed craniocerebral injury; vegetative-vascular instability after brain concussion; blast

trauma; acute right-sided cochlear neuritis; right-sided sensorineural hearing loss; whispered speech audible at a distance of 5 metres with the right ear and 6 metres with the left ear - arise as a result of the impact of the blast wave formed during the explosion of any explosive substance and, as a rule, cause minor harm to health by reason of their degree.

Volume 327, case-file pages 1-253

When questioned as a victim, Warrant Officer Gasimov Gunduz Intizam

[Page 624]

oglu, commander of the 2nd technical-observation group of the combat-support platoon of the 2nd battalion of military unit No. 191 of the Ministry of Defence, stated in his testimony that on the night of 13.09.2022, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of an artillery shell fired by Armenian armed formations in Dashkasan District, servicemen of military unit No. 191, whose surname he does not remember, died, while he and servicemen of the same military unit sustained various types of bodily injuries.

Volume 205, case-file pages 210-214

Volume 343, case-file pages 239-241

According to forensic medical expert opinion No. 943 dated 26.04.2024, the bodily injuries sustained by Gasimov Safar Sakhavat oglu - a hardened skin scar after primary surgical treatment of a wound caused by a penetrating bullet wound of the soft tissues of the middle third of the left thigh; residual effects of post-traumatic neuropathy of the sensory branch of the left femoral nerve, arising as a result of a firearm wound without functional impairment - are classified as causing minor harm to health.

Volume 327, case-file pages 1-253

When questioned as a victim, Captain Gasimov Safar Sakhavat oglu oglu, commander of the 2nd group of the 3rd platoon of the 5th company of the 2nd battalion of military unit No. 191 of the Ministry of Defence, stated in his testimony that on 13.09.2022 at around 01:00, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of an artillery shell fired by Armenian armed formations in Dashkasan District, servicemen of military unit No. 191, whose surname he does not remember, died, while at the same time he, Captain Kamal Javadli, Private Nemat Bagirov, Warrant Officer Emrakh Hajizade and several other servicemen sustained various types of injuries.

Volume 330, case-file pages 17-21

On the basis of forensic medical expert opinion No. 25 dated 26.04.2024, it was established that the bodily injuries sustained by Salimov Javidan Nadir oglu - on 05.10.2022 he was examined by the military-medical commission of the Central Military Polyclinic of the Ministry of Defence and diagnosed with “blast trauma, blind shrapnel wounds of the soft tissues of the right thigh, left knee and left lower leg”. It is reported that the injuries were caused by blast trauma and fragments, and their severity is assessed as minor harm to health.

Volume 327, case-file pages 1-253

When questioned as a victim, Senior Soldier Salimov Javidan Nadir oglu, scout-radio operator on board the 2nd platoon of the 1st battalion of the 1st company of military unit No. 191 of the Ministry of Defence, stated in his testimony that on 13.09.2022 at around 11:00, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of a grenade thrown by Armenian armed formations in the territory of Kalbajar District, servicemen of military unit No. 191, whose names he presently does not remember, died, while he and several other servicemen of military unit No. 191, whose names he does not remember, sustained various types of bodily injuries.

Volume 190, case-file pages 252-257

According to forensic medical expert opinion No. 969 dated 26.04.2024, it was established that the bodily injuries sustained by Adishli Nariman Jamil oglu - a penetrating firearm wound of the left lower leg; open fractures of the II-V metatarsal bones; a combined fracture of the II and V metatarsal bones; a bone defect along the edge of the IV metatarsal bone; barotrauma; left-sided chronic cochlear neuritis; left-sided sensorineural [hearing loss], with whispered speech audible

[Page 625]

at a distance of 5 metres with the left ear and 6 metres with the right ear; hypermetropia of both eyes Hm 1.00, resulting in reduction of visual acuity to 0.38, corrected to 1; secondary partial adentia (absence of teeth 14, 36, 46) - arose as a result of the impact of primary or secondary fragments, including the blast wave arising upon discharge from a firearm, as well as upon the explosion of any explosive substance, and are classified as less serious harm to health.

Volume 327, case-file pages 1-253

When questioned as a victim, Warrant Officer Adishli Nariman Jamil oglu, commander of the 1st group of the 4th platoon of the 1st company of the 1st operational battalion of military unit No. 430 of the Ministry of Defence, stated in his testimony that on 13.09.2022 at around 04-05, while preventing large-scale provocative actions by Armenian armed formations, as a result of fire opened by Armenian armed formations in the territory of Kalbajar District, Private Umid Hasanov and Warrant Officer Makhakhammed Mammadov, servicemen of military unit No. 430, died, while he, Sergeant Elbrus Azimli, Private Ismayil Huseynov and several other servicemen sustained injuries of varying degrees of severity.

Volume 333, case-file pages 177-180

On the basis of forensic medical expert opinion No. 826 dated 26.04.2024, it was established that the bodily injuries sustained by Agayev Ramiz Ehtimad oglu - a firearm wound; post-traumatic neuropathy of the right peroneal and tibial nerves with distal paresis of the limb and mild functional impairment; primary surgical treatment of wounds caused by a penetrating firearm wound of the right tarsometatarsal-cuneiform joint; open, multi-fragmented, displaced fractures of the metaepiphysis of the right fibula, calcaneus, tarsus, cuboid, lateral

cuneiform and navicular bones; fixation of bone fragments with a Kirschner wire; secondary surgical treatment of wounds; hardened skin scars after surgical operations; insufficiently healed fractures; osteoporosis; contracture of the talar joint; Sudeck atrophy; pain syndrome; a firearm wound; post-traumatic neuropathy of the peroneal and sural branches of the sciatic nerve; sensory and motor disturbances and their consequences manifested by persistent pain syndrome; primary surgical treatment of wounds caused by mild impairment of limb function, firearm wounds and blind bullet wounds of the posterior surface of the right knee joint; hardened skin scars after removal of a foreign body (firearm wound, foreign body of the soft tissues (metal fragment)); a small ganglion cyst in the proximal tibial joint of the right knee joint; instability and contracture of the knee joint with a mild degree of functional impairment - arose as a result of the impact of primary or secondary fragments formed as a result of the explosion of any explosive substance and, in terms of severity, are classified as less serious harm to health.

Volume 327, case-file pages 1-253

When questioned as a victim, Junior Sergeant Agayev Ramiz Etimad oglu, scout-engineer of the 1st group of the 4th platoon of the 5th company of the 2nd battalion of military unit No. 430 of the Ministry of Defence, stated in his testimony that on 13.09.2022 at around 04:00, while preventing large-scale provocative actions by Armenian armed formations, as a result of fire opened by Armenian armed formations in the territory of Kalbajar District, Nail Aslanov, a serviceman of military unit No. 430, died, while he, Lieutenant Fikret Sharifov and several other servicemen sustained injuries of varying degrees of severity.

Volume 275, case-file pages 141-143

[Page 626]

On the basis of forensic medical expert opinion No. 844 dated 26.04.2024, it was established that the bodily injuries sustained by Aliyev Kenan Shahin oglu - a closed craniocerebral injury caused by blast trauma, resulting in vegetative-vascular instability after brain concussion; hardened skin scars after incised wounds on the palmar surface of the left hand, left wrist and anterior surface of the middle and lower thirds of the left thumb - arose as a result of the impact of primary or secondary fragments, including the shock wave formed during the explosion of any explosive substance, and, as a rule, by their degree cause minor harm to health.

Volume 327, case-file pages 1-253

When questioned as a victim, Soldier Aliyev Kenan Shahin oglu, serviceman of military unit No. 430 of the Ministry of Defence, stated in his testimony that on 14.09.2022, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of a mortar shell fired by Armenian armed formations in the territory of Kalbajar District, servicemen of military unit No. 430 Erkin Huseynov and Ramin Humbatov died, while he and other servicemen of that military unit sustained various types of injuries.

Volume 343, case-file pages 213-215

According to forensic medical expert opinion No. 1174 dated 26.04.2024, it was established that the bodily injuries sustained by Jabbarov Peyman Bayram oglu - shrapnel wounds of the right hand, wrist and right leg, knee, as well as a closed head injury - caused by the impact of a primary or secondary fragment as a result of the explosion of any explosive substance, are generally classified as minor harm to health by reason of their degree.

Volume 327, case-file pages 1-253

When questioned as a victim, Private Jabbarov Peyman Bayram oglu, serviceman of military unit No. 430 of the Ministry of Defence, stated in his testimony that on 13.09.2022, while preventing large-scale provocative actions by Armenian armed formations, as a result of fire opened by Armenian armed formations in the territory of Kalbajar District, Hasanov Umud Ilgar oglu, a serviceman of military unit No. 430, died, while he, Junior Lieutenant Aliyev Zahid MaZakhir oglu and several other servicemen of military unit No. 430, whose names he does not remember, sustained various bodily injuries.

Volume 344, case-file pages 121-123

On the basis of forensic medical expert opinion No. 2437 dated 27.01.2023, it was established that the bodily injuries sustained by Jafarov Ravan Namizad oglu - penetrating firearm wounds resulting in a fracture of the proximal phalanx of the right great toe; penetrating wounds of the soft tissues of the left knee joint resulting in myogenic contracture and instability of the same knee joint - arose as a result of shots; injuries to the soft tissues of the right lower leg and left arm from impact by a blunt object, as well as a closed craniocerebral injury accompanied by vegetative-vascular instability and astheno-neurotic manifestations as a result of brain concussion - as a result of the impact of a primary or secondary fragment as a result of the explosion of any explosive substance, by degree, constitute less serious harm to health.

Volume 275, case-file pages 7-8

When questioned as a victim, Senior Sergeant Jafarov Ravan Namizad oglu oglu, scout of the 1st battalion of military unit No. 430 of the Ministry of Defence, stated in his testimony that on 13.09.2022 at around 05:00, while preventing large-scale provocative actions by

[Page 627]

Armenian armed formations, as a result of fire opened by Armenian armed formations in the territory of Kalbajar District, servicemen of military unit No. 172, whose names he presently does not remember, died, while he, Lieutenant Aliyev Jahid, Huseynov Ariz and several other servicemen of military unit No. 172, whose names he does not remember, sustained various types of bodily injuries.

Volume 88, case-file pages 188-189, 193-195

According to forensic medical expert opinion No. 863 dated 26.04.2024, it was established that the bodily injuries sustained by Aliyev Zahid MaZakhir oglu - a closed craniocerebral injury as a result of blast trauma; vegetative-vascular instability after brain concussion;

barotrauma; right-sided chronic cochlear neuritis; right-sided sensorineural hearing loss; whispered speech audible at a distance of 5 metres with the right ear and 6 metres with the left ear; blast trauma; a hardened skin scar after primary surgical treatment of wounds caused by a non-penetrating, penetrating firearm wound of the left half of the chest and anterior abdominal wall - arose as a result of the impact of the blast wave arising upon discharge from a firearm, as well as upon the explosion of any explosive substance, and, in terms of severity, are classified as causing less serious harm to health.

Volume 327, case-file pages 1-253

When questioned as a victim, Lieutenant Aliyev Zahid MaZakhir oglu, platoon commander of military unit No. 430 of the Ministry of Defence, stated in his testimony that on 12.09.2022 at around 24:00, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of an artillery shell fired by Armenian armed formations in the territory of Kalbajar District, Sakhavat Ismayilov and Ariz Huseynov, servicemen of military unit No. 930, sustained various types of bodily injuries.

Volume 331, case-file pages 62-65

According to forensic medical expert opinion No. 35 dated 26.04.2024, it was established that the bodily injuries sustained by Azimli Elburus Faday oglu - acute right-sided cochlear neuritis as a result of barotrauma; crushing of the soft tissues of the right knee joint as a result of blast trauma - are characteristic of the consequences of primary or secondary shrapnel injury arising from firearm wounds, as well as from the explosion of any explosive substance, and mainly depending on by degree constitute minor harm to health.

Volume 327, case-file pages 1-253

When questioned as a victim, Lieutenant Aliyev Zahid MaZakhir oglu, platoon commander of military unit No. 430 of the Ministry of Defence, stated in his testimony that on 13.09.2022 at around 14-15, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of a mortar shell fired by Armenian armed formations in the territory of Kalbajar District, Private Umid Hasanov and Warrant Officer Makhakhammed Mammadov, soldiers of military unit No. 430, died, while he, Private Ismayil Huseynov, Private Mehman Guliyev and several other servicemen sustained various types of injuries.

Volume 333, case-file pages 187-190

According to forensic medical expert opinion No. 986 dated 26.04.2024, it was established that the bodily injuries sustained by Hamidli Ibrahim Sabir oglu - primary surgical treatment of injuries caused by blast trauma, a closed craniocerebral injury, vegetative-vascular instability after brain concussion, blast trauma, multiple blind wounds of both lower limbs, and a shrapnel wound with a soft-tissue defect of the anterior

[Page 628]

surface of the lower third of the right leg thigh; a hardened skin scar after surgical closure of a subcutaneous wound with a flap; barotrauma; the condition after acute left-sided cochlear neuritis - are caused by the impact of primary or secondary fragments, including the shock wave arising during the explosion of any explosive substance, and are classified as a less serious danger to health.

Volume 327, case-file pages 1-253

When questioned as a victim, Warrant Officer Hamidli Ibrahim Sahib oglu, commander of the 1st group of the 3rd platoon of the 6th company of the 2nd operational battalion of military unit No. 430 of the Ministry of Defence, stated in his testimony that on 13.09.2022 at around 06-07, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of a mortar shell fired by Armenian armed formations in the territory of Kalbajar District, servicemen of military unit No. 430 Umid Hasanov, Lieutenant Erkin Huseynov and Lieutenant Ravil Humbatov died, while he, Private Nariman Adishli, Private Ehtiram Mammadov and several other servicemen of military unit No. 430, whose names he presently does not remember, sustained various types of bodily injuries.

Volume 333, case-file pages 137-140

According to forensic medical expert opinion No. 150 dated 25.01.2024, it was established that the bodily injuries sustained by Huseynov Ariz Arif oglu - barotrauma; acute right-sided cochlear neuritis; right-sided sensorineural hearing loss; post-traumatic stress disorder; dissociative disorder of the limbs; a closed craniocerebral injury accompanied by vegetative-vascular instability, brain concussion and blunt trauma of the left arm - as a rule, constitute less serious injuries by reason of the degree of injury.

Volume 327, case-file pages 1-253

When questioned as a victim, Private Huseynov Ariz Arif oglu, scout of the 1st battalion of military unit No. 430 of the Ministry of Defence, stated in his testimony that on 13.09.2022 at around 01:00, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of a grenade thrown by Armenian armed formations in the territory of Kalbajar District, servicemen of military unit No. 172, whose names he presently does not remember, died, while he, Aliyev Ilknur, Nakhmetli Kenan and several other servicemen of military unit No. 172, whose names he does not remember, sustained various types of bodily injuries.

Volume 89, case-file pages 64-65, 69-71

According to forensic medical expert opinion No. 31 dated 10.01.2023, it was established that the bodily injuries sustained by Huseynov Afrail Jabrayil oglu - an open fracture of the distal phalanx of the 3rd finger of the left hand; fractures of the anterior surface of the chest, neck and left upper limb; multiple shrapnel wounds of the left thigh, left lower leg and right foot - are classified as causing less serious harm to health.

Volume 342, case-file pages 33-34

When questioned as a victim, Private Huseynov Afrail Jabrayil oglu, intelligence and fortification officer of the 1st group of the 3rd platoon of the 4th company of the 2nd battalion of military unit No. 430 of the Ministry of Defence, stated in his testimony that on 13.09.2022 at around 01:00, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of a grenade thrown by Armenian armed formations in the territory of Kalbajar District, servicemen of military unit No. 430, whose names he presently does not remember, died, while at the same time

[Page 629]

he and several other servicemen of military unit No. 430, whose names he presently does not remember, sustained various types of bodily injuries.

Volume 189, case-file pages 101-105

On the basis of forensic medical expert opinion No. 985 dated 26.04.2024, it was established that the bodily injuries sustained by Huseynov Ismayil Beyukkishi oglu - unhealed skin scars after primary and secondary surgical treatment of both lower limbs as a result of blast trauma, blunt and penetrating shrapnel wounds; foreign bodies in the soft tissues (metal fragments); the condition after bilateral acute cochlear neuritis as a result of barotrauma; bilateral sensorineural hearing loss; whispered speech audible at a distance of 6 metres with the right ear and 5.5 metres with the left ear; hardened elastic skin scars after a blind shrapnel wound of the soft tissues of the left cheekbone region - arise as a result of the impact of a primary or secondary fragment, including the blast wave formed during the explosion of any explosive substance, and are classified as less serious harm to health.

Volume 327, case-file pages 1-253

When questioned as a victim, Private Huseynov Ismayil Beyukkishi oglu, serviceman of the reconnaissance platoon of the 4th company of the 2nd operational battalion of military unit No. 430 of the Ministry of Defence, stated in his testimony that on 13.09.2022 at around 06-07, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of a mortar shell fired by Armenian armed formations in the territory of Kalbajar District, Private Umid Hasanov and Warrant Officer Makhakhammed Mammadov, soldiers of military unit No. 430, died, while he, Private Mehman Guliyev, Lieutenant Sanan Mammadov and several other servicemen sustained various types of injuries.

Volume 333, case-file pages 197-200

Volume 345, case-file pages 107-109

According to forensic medical expert opinion No. 37 dated 26.04.2024, it was established that the bodily injuries sustained by Ismayil Sakhavat Dayanat oglu - blast trauma; a closed craniocerebral injury; brain concussion; small shrapnel wounds of the soft tissues of the left axillary region and left thigh - were caused by the impact of primary or secondary fragments as a result of the explosion of any explosive substance and are generally classified as minor harm to health.

Volume 327, case-file pages 1-253

When questioned as a victim, Private Ismayil Sakhavat Dayanat oglu, scout of the 2nd group of the 4th platoon of the 3rd company of the 1st operational battalion of military unit No. 430 of the Ministry of Defence, stated in his testimony that on 13.09.2022 at around 01-02, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of a grenade thrown by Armenian armed formations in the territory of Kalbajar District, Private Umid Hasanov and Warrant Officer Makhakhammed Mammadov, soldiers of military unit No. 430, died, while he, Private Ilknur Aliyev, Senior Sergeant Ravan Jafarov and several other servicemen sustained various types of injuries.

Volume 333, case-file pages 167-170

According to forensic medical expert opinion No. 991 dated 26.04.2024, it was established that the bodily injuries sustained by Mammadov Ehtiram Hasan oglu - barotrauma; right-sided chronic cochlear neuritis; right-sided sensorineural hearing loss with the ability to hear whispered speech at a distance of 5 metres with the right ear and 6 metres with the left ear; a closed craniocerebral injury caused by blast trauma; vegetative-vascular dystonia after brain concussion - arise as a result of the impact of the blast wave caused by

[Page 630]

the explosion of any explosive substance and, in terms of severity, are classified as minor harm to health.

Volume 327, case-file pages 1-253

When questioned as a victim, Private Mammadov Ehtiram Hasan oglu, commander of the 1st machine-gun squad of the combat-support platoon of the 2nd operational battalion of military unit No. 430 of the Ministry of Defence, stated in his testimony that on 13.09.2022 at around 07-08, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of a mortar shell fired by Armenian armed formations in the territory of Kalbajar District, Private Magomed Mammadov, Lieutenant Erkin Huseynov and Lieutenant Ravil Humbatov, soldiers of military unit No. 430, died, while he, Warrant Officer Adishli Nariman, Warrant Officer Gazakhov Azer and several other servicemen of military unit No. 430, whose names he presently does not remember, sustained various types of bodily injuries.

Volume 333, case-file pages 147-150

According to forensic medical expert opinion No. 837 dated 26.04.2024, the bodily injuries sustained by Nakhmetli Kenan Elman oglu - left-sided thoracocentesis performed for a blind wound of the spleen in blast trauma, left-sided haemopneumothorax penetrating the pleural cavity of the left half of the chest; a hardened skin scar after surgical drainage of the pleural cavity by the Bulau method; moderate impairment of pulmonary ventilation of a mixed type with restrictive predominance of external respiratory function; a shrapnel wound of the left hand and shoulder; a small edge of the proximal phalanx of the fourth finger of the left hand torn off; scapular fractures without displacement, sufficiently healed; hardened skin scars;

foreign bodies in the soft tissues (metal fragments); foreign bodies in the soft tissues (metal fragments) of the left half of the abdominal cavity; barotrauma; bilateral cochlear neuritis; bilateral sensorineural hearing loss; residual signs of post-traumatic neuropathy of the severed left median nerve, with whispered speech audible at a distance of 3 metres with the left ear and 4 metres with the right ear; blast trauma; mild impairment of function; blast trauma; a previous closed craniocerebral injury; post-contusion vegetative-vascular instability; blast trauma; a blind shrapnel wound of the soft tissues of the left cheekbone and upper lip (with a metal fragment) - were caused by the impact of a primary or secondary fragment, including the blast wave formed during the explosion of any explosive substance, and are classified as causing serious harm to health in terms of severity.

Volume 327, case-file pages 1-253

When questioned as a victim, Private Nakhmetli Kenan Elman oglu, intelligence officer of military unit No. 701 of the Ministry of Defence, stated in his testimony that on 13.09.2022, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of a hand grenade thrown by Armenian armed formations in the territory of Kalbajar District, servicemen of military unit No. 701, whose names he presently does not remember, died, while he, Junior Sergeant Ariz Huseynov and Ilknur Aliyev also sustained various types of bodily injuries.

Volume 275, case-file pages 90-93

According to forensic medical expert opinion No. 2451 dated 27.12.2023, the bodily injuries sustained by Pirverdiyev Garib Hafiz oglu - a blunt shrapnel wound of the soft tissues of the lower third of the left half of the neck, arising as a result of the impact of a primary or secondary fragment on the soft tissues of the left

[Page 631]

supraclavicular region, caused by the explosion of a foreign body - an explosive substance, which, depending on the degree, constitutes minor harm to health.

Volume 275, case-file pages 3-4

When questioned as a victim, Private Pirverdiyev Garib Hafiz oglu, intelligence officer of the 2nd battalion of military unit No. 430 of the Ministry of Defence, stated in his testimony that on 13.09.2022 at around 03:00, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of a hand grenade thrown by Armenian armed formations in the territory of Kalbajar District, servicemen of military unit No. 701, whose names he presently does not remember, died, while he and several other servants also sustained injuries of varying degrees of severity.

Volume 88, case-file pages 177-178, 182-184

On the basis of forensic medical expert opinion No. 27 dated 26.04.2024, it was established that the bodily injuries sustained by Gazakhov Azer Elman oglu - on 23.09.2022 he was examined by the military-medical commission of the Central Military Polyclinic of the

Ministry of Defence and diagnosed with “a penetrating firearm wound of the soft tissues of the right lower leg”. The injury was sustained as a result of a firearm wound and, in terms of severity, is classified as minor harm to health.

Volume 327, case-file pages 1-253

When questioned as a victim, Private Gazakhov Azer Elman oglu, scout of the 2nd group, soldier, 1st platoon, 6th company, 2nd battalion, military unit No. 430 of the Ministry of Defence, stated in his testimony that on 13.09.2022 at around 02:00, while preventing large-scale provocative actions by Armenian armed formations, as a result of fire opened by Armenian armed formations in the territory of Kalbajar District, servicemen of military unit No. 430, whose names he presently does not remember, died, while at the same time he and several other servicemen of military unit No. 430, whose names he presently does not remember, sustained various types of bodily injuries.

Volume 189, case-file pages 112-116

According to forensic medical expert opinion No. 886 dated 26.04.2024, it was established that the bodily injuries sustained by Gojayeov Zahid Vilayat oglu - primary surgical treatment of injuries caused by blast trauma, blind shrapnel wounds of various parts of the body, open, comminuted, displaced fractures of the lower third of the diaphysis of the right fibula; osteosynthesis of the tibia by the G.A. Ilizarov method; an insufficiently united fracture after removal of the apparatus; a hardened skin scar; foreign bodies in the soft tissues (metal fragments); cicatricial contracture of the ankle tendons; vegetative-vascular dystonia - arise as a result of the impact of primary or secondary fragments, including the blast wave formed during the explosion of any explosive substance, and are associated with serious harm to health by degree.

Volume 327, case-file pages 1-253

When questioned as a victim, Private Gojayeov Zahid Vilayat oglu, former assistant scout-grenade-launcher operator of the 1st platoon of the 1st company of the 1st battalion of military unit No. 430 of the Ministry of Defence, stated in his testimony that on 13.09.2022 at around 06:00, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of a mortar shell fired by Armenian armed formations in the territory of Kalbajar District, servicemen of military unit No. 430, whose names he presently does not remember, died, while he, Senior Sergeant Ravan Jafarov, Junior Lieutenant Zahid Aliyev and Private Zaur Sadygov sustained various types of injuries.

[Page 632]

Volume 329, case-file pages 62-66

According to forensic medical expert opinion No. 295 dated 2 February 2024, it was established that the bodily injuries sustained by Guliyev Mehman Bahruz oglu - a blind shrapnel wound of the right cheek, complete loss of vision in the right eye accompanied by the presence of a small foreign body in the soft tissues - constitute serious harm to health

which, depending on the degree of severity, results in permanent loss of more than one-third of general working capacity.

Volume 337, case-file pages 14-15

When questioned as a victim, Private Guliyev Mehman Bahruz oglu, intelligence and duty-unit officer of the 2nd battalion of military unit No. 430 of the Ministry of Defence, stated in his testimony that on 13.09.2022 at around 06:00, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of a mortar shell fired by Armenian armed formations in the territory of Kalbajar District, servicemen of military unit No. 172, whose names he presently does not remember, died, while at the same time he and several other servicemen of military unit No. 172, whose names he presently does not remember, sustained various types of bodily injuries.

Volume 89, case-file pages 194-195, 199-201

According to forensic medical expert opinion No. 30 dated 16.01.2024, it was established that the bodily injuries sustained by Sadygov Zaur Mubariz oglu - a closed craniocerebral injury; vegetative-vascular instability and astheno-neurotic manifestations after brain contusion; hardened skin scars after blunt shrapnel wounds of the soft tissues of the left thigh, left knee, proximal phalanx of the index finger of the left hand and left half of the chest; a foreign body (metal fragment) in the soft tissues of the left half of the chest; blast trauma; a foreign body (metal fragment) in the right periorbital region; a scar at the outer corner of the left eyebrow; a fracture of the lower pelvic bone - arose as a result of the impact of a primary or secondary fragment formed as a result of the explosion of an explosive substance and, in terms of severity, constitute less serious harm to health.

Volume 344, case-file pages 29-32

When questioned as a victim, Soldier Sadygov Zaur Mubariz oglu, intelligence officer of military unit No. 430 of the Ministry of Defence, stated in his testimony that on 13.09.2022 at around 07:00, while preventing large-scale provocative actions by Armenian armed formations, as a result of fire opened by Armenian armed formations in the territory of Kalbajar District, servicemen of military unit No. 430, whose names he presently does not remember, died, while at the same time he and several other servicemen of military unit No. 430, whose names he presently does not remember, sustained various types of bodily injuries.

Volume 344, case-file pages 21-24

On the basis of forensic medical expert opinion No. 803 dated 26.04.2024, it was established that the bodily injuries sustained by Seyidov Anar Javanshir oglu - moderately expressed persistent personality change after a catastrophe; dissociative symptoms; blast trauma; post-traumatic neuropathy of the left musculocutaneous nerve resulting in sensory and motor disorders with mild functional impairment; encephalopathy manifested by intracranial hypertension accompanied by tension headaches; simple myopic astigmatism of the right eye Em and M 1 0, resulting in reduction of visual acuity to 0.8, corrected to 1; blast trauma; a hardened skin scar after a blind shrapnel wound of the soft tissues of the anterior surface of

the left half of the chest not penetrating the thoracic cavity; a foreign body (metal fragment) in the soft tissues of the left axillary region - arose

[Page 633]

as a result of the impact of a primary or secondary fragment formed as a result of the explosion of any explosive substance and are classified as minor harm to health.

Volume 327, case-file pages 1-253

When questioned as a victim, Private Seyidov Anar Javanshir oglu, scout-mortar operator of military unit No. 430 of the Ministry of Defence, stated in his testimony that on 14.09.2022 at around 01:00, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of a grenade thrown by Armenian armed formations in the territory of Kalbajar District, Warrant Officer Mammadov Muhammad Bilal, a serviceman of military unit No. 430, died, while he, Private Garib Pirverdiyev and several other servicemen of military unit No. 430, whose names he does not remember, sustained various types of bodily injuries.

Volume 189, case-file pages 141-146

According to forensic medical expert opinion No. 804 dated 26.04.2024, the bodily injuries sustained by Shirinov Rasim Habil oglu - a closed craniocerebral injury as a result of blast trauma; moderate (mild) organic dissociative disorder after brain concussion; moderate (mild) prolonged post-traumatic stress disorder; a closed craniocerebral injury caused by blast trauma; post-contusion vegetative-vascular instability; blast trauma; a hardened skin scar after a blind shrapnel wound of the middle third of the left lower leg; a foreign body in the soft tissues (metal fragment); blast trauma; a hardened skin scar after a lacerated wound in the jaw region - arise as a result of the impact of a primary or secondary shrapnel weapon, including the shock wave formed during the explosion of any explosive substance, and are classified as less serious harm to health.

Volume 327, case-file pages 1-253

When questioned as a victim, Warrant Officer Shirinov Rasim Habil oglu, commander of the 2nd group of the 1st platoon of the 5th company of the 2nd battalion of military unit No. 430 of the Ministry of Defence, stated in his testimony that on 13.09.2022 at around 01:00, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of a grenade thrown by Armenian armed formations in the territory of Lachin District, Lieutenant Erkin Huseynov, a serviceman of military unit No. 430, died, while he, Private Anar Seyidov and several other servicemen of military unit No. 430, whose names he does not remember, sustained various types of bodily injuries.

Volume 189, case-file pages 131-136

According to forensic medical expert opinion No. 967 dated 26.04.2024, it was established that the bodily injuries sustained by Balakishiyev Balakishi Samed oglu - primary surgical treatment of wounds caused by blast trauma, a penetrating shrapnel wound of the right lower

leg, open displaced shrapnel fractures of the bodies of the III, IV and V metatarsal bones, a wound with a soft-tissue defect of the posterior surface of the lower leg; sufficiently healed fractures and hardened skin scars after secondary surgical treatment and immobilisation with a plaster cast - arose as a result of the impact of primary or secondary fragments formed as a result of the explosion of any explosive substance, which, depending on the degree, is considered to cause less serious harm to health.

Volume 327, case-file pages 1-253

When questioned as a victim, Private Balakishiyev Balakishi Samad oglu, former serviceman of the combat-support platoon of the 3rd battalion of military unit No. 701 of the Ministry of Defence, stated in his testimony that on 12.09.2022 at around 24:00, while preventing large-scale

[Page 634]

provocative actions by Armenian armed formations, as a result of the explosion of an artillery shell fired by Armenian armed formations in the territory of Kalbajar District, he and several other servicemen of military unit No. 701, whose names he presently does not remember, sustained various types of injuries.

Volume 329, case-file pages 119-122

According to forensic medical expert opinion No. 831 dated 26.04.2024, it was established that the bodily injuries sustained by Jafarov Elmir Shamshir oglu - F06.3 F07.2, a closed craniocerebral injury arising as a result of blast trauma; moderate (mild) organic affective (depressive) disorder following brain concussion; post-concussion syndrome; vegetative-vascular instability and behavioural disorders; F43.1 moderate (mild) prolonged post-traumatic stress disorder; a closed craniocerebral injury caused by blast trauma; persistent vegetative-vascular instability following brain concussion; chronic cephalgic and insomnia syndromes; its consequences in the form of post-traumatic encephalopathy manifested by cognitive deficit and mild (moderate) impairment of central nervous system function; blast trauma; hardened skin scars after abrasions and sutured wounds on the dorsal surface of the right hand, left thigh and anterior surface of the left lower leg - arose as a result of the impact of primary or secondary fragments, including the shock wave formed during the explosion of any explosive substance, and, in terms of severity, are classified as causing less serious harm to health.

Volume 327, case-file pages 1-253

When questioned as a victim, Junior Sergeant Jafarov Elmir Shamshir oglu, scout-sniper of the 1st group of the 1st battalion of the 1st battalion of military unit No. 701 of the Ministry of Defence, stated in his testimony that on 13.09.2022 at around 09:00, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of a mortar shell fired by Armenian armed formations in Lachin District, Ali Aliyev, a serviceman of military unit No. 701, died, while he and servicemen of the same military unit, Tural Agjabekov and Magsud Aliyev, sustained bodily injuries of varying degrees of severity.

Volume 342, case-file pages 259-261

According to forensic medical expert opinion No. 818 dated 26.04.2024, it was established that the bodily injuries sustained by Alizade Shamkhal Shakir oglu - blast trauma; traumatic avulsion of the lower third of the left thigh; blunt shrapnel wounds of various parts of the body; amputation of the middle third of the left thigh due to an open displaced fracture of the right patella; primary surgical treatment of wounds of the right lower limb; oedema after plaster immobilisation; combined fracture of the right patella; foreign bodies in the soft tissues; contracture of the right knee joint; mild functional impairment; blast trauma; a previous closed craniocerebral injury; post-contusion vegetative-vascular instability; corneal opacity as a result of multiple shrapnel wounds of the periorbital region of the left eye and the cornea of the left eye; blast trauma; a shrapnel wound of the right half of the lower lip with a soft-tissue defect; primary and secondary surgical treatment of wounds caused by blind and penetrating shrapnel wounds of the right half of the upper lip; a subsequent hardened skin scar arising as a result of the explosion of any explosive substance, including the blast wave - constitute serious harm to health depending on the degree of excision of the fragments.

Volume 327, case-file pages 1-253

When questioned as a victim, Lieutenant Alizade

[Page 635]

Shamkhal Shakir oglu, commander of the communications platoon of the 1st battalion of military unit No. 701 of the Ministry of Defence, stated in his testimony that on 13.09.2022 at around 12:00, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of a mortar shell fired by Armenian armed formations in the territory of Lachin District, servicemen of military unit No. 701, whose names he presently does not remember, died, while at the same time he and several other servicemen of military unit No. 701, whose names he presently does not remember, sustained various types of bodily injuries.

Volume 189, case-file pages 211-216

According to forensic medical expert opinion No. 116 dated 26.04.2024, it was established that the bodily injuries sustained by Mammadov Emin Ahmad oglu - “blast trauma: an unhealed skin scar and an unremoved foreign body (fragment) after a blind shrapnel wound of the soft tissues of the middle third of the right arm and posterior surface of the right lower leg” - arose as a result of impact by fragments from the explosion of a hand grenade and, in terms of severity, constitute minor harm to health.

Volume 327, case-file pages 1-253

When questioned as a victim, Warrant Officer Mammadov Emin Ahmad oglu, commander of the 2nd group of the 1st battalion, 1st company, 1st platoon of the 1st company of military unit No. 701 of the Ministry of Defence, stated in his testimony that on 12.09.2022 at around 24:00, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of a grenade thrown by Armenian armed formations in the territory of

Lachin District, Senior Lieutenant Ali Aliyev, a serviceman of military unit No. 701, died, while he, Junior Sergeant Tural Agjabekov, Private Habil Mammadov and several other employees of military unit No. 701, whose names he does not remember, sustained various types of bodily injuries.

Volume 189, case-file pages 75-80

On the basis of forensic medical expert opinion No. 68 dated 26.04.2024, it was established that the bodily injuries sustained by Mammadov Galib Habib oglu - on 30.09.2022 the military-medical commission of military hospital No. 230 diagnosed: "Blast trauma. An unhealed skin scar and an unremoved foreign body after a blind shrapnel wound of the soft tissues of the posterior surface of the chest, not passed does not penetrate into the pleural cavity, in the region of the left thigh and left inguinal region ('fragment')." The said injuries had a blunt mechanism of origin and could have been caused by fragments from an explosion; their severity is considered less serious.

Volume 327, case-file pages 1-253

When questioned as a victim, Junior Sergeant Mammadov Galib Habib oglu, scout-radio operator of the 1st battalion, 1st company of military unit No. 701 of the Ministry of Defence, stated in his testimony that on 13.09.2022 at around 00:45, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of a grenade thrown by Armenian armed formations in the territory of Lachin District, Senior Lieutenant Ali Aliyev, a serviceman of military unit No. 701, whose surname he presently does not remember, died, while he, Junior Sergeant Magsud Aliyev, Junior Sergeant Yusif Rahimov and several other servicemen of military unit No. 701, whose names he does not remember, sustained various types of bodily injuries.

Volume 189, case-file pages 55-60

According to forensic medical expert opinion No. 887 dated 26.04.2024, it was established that the bodily injuries sustained by Rahimov Yusif Mehman oglu - primary surgical treatment of wounds caused by multiple fractures of the lower orbital wall associated with blast trauma, a penetrating wound of the right eye, leakage of intraocular contents, hyphema, haemophthalmos, traumatic aphakia, an extensive scleral defect and blind fragile trauma of the right infraorbital region, subatrophy after

[Page 636]

fixation with a metal plate (tuberculosis of the right eye), a metal plate; mixed astigmatism of the left eye Hm 0.50D and M 1.00D, as a result of which visual acuity of the left eye decreased to 0.6, corrected to 1.0; visual acuity of the right eye 0 (zero); including blast trauma, a closed craniocerebral injury, vegetative-vascular insufficiency and astheno-neurotic manifestations after brain concussion; blast trauma; a foreign body (metal fragment) in the soft tissues of the right clavicle; blast trauma; open repositioning of fragments and internal fixation with a mini-plate for a fracture of the lower wall of the right orbit; a small foreign body (metal fragment) in the soft tissues of the upper lip; a foreign body at the lower edge of

the right orbit; a metal plate; impairment of masticatory function - were caused by the impact of primary or secondary fragments, including the shock wave arising as a result of the explosion of any explosive substance, and, in terms of severity, constitute serious harm to health causing significant, permanent and stable loss of not less than one-third (35%) of general working capacity.

Volume 327, case-file pages 1-253

When questioned as a victim, Soldier Rahimov Yusif Mehman oglu, former scout-medical of the 2nd platoon of the 1st company of the 1st battalion of military unit No. 701 of the Ministry of Defence, stated in his testimony that on 13.09.2022 at around 12:00, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of a mortar shell fired by Armenian armed formations in Lachin District, servicemen of military unit No. 701, whose names he presently does not remember, died, while at the same time he, Private Magsud Aliyev and several other servicemen sustained various types of injuries.

Volume 330, case-file pages 80-84

On the basis of forensic medical expert opinion No. 857 dated 26.04.2024, it was established that the bodily injuries sustained by Badalov Asadulla Rovshan oglu - a closed craniocerebral injury as a result of blast trauma; astheno-neurotic manifestations after brain concussion; blast trauma; a closed craniocerebral injury; vegetative-vascular instability after brain concussion; barotrauma; the condition after acute left-sided cochlear neuritis; left-sided sensorineural hearing loss; whispered speech audible at a distance of 3 metres with the left ear and 6 metres with the right ear - arose as a result of the impact of primary or secondary fragments, including the shock wave formed during the explosion of any explosive substance, and, depending on their degree, are classified as causing minor harm to health.

Volume 327, case-file pages 1-253

When questioned as a victim, Junior Sergeant Badalov Asadulla Rovshan oglu, former assistant scout-grenade-launcher operator of the 3rd company of the 1st battalion of military unit No. 701 of the Ministry of Defence, stated in his testimony that on 13.09.2022, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of a mortar shell fired by Armenian armed formations in Lachin District, Ali Aliyev, a serviceman of military unit No. 701, died, and together with him Ruslan Musayev, while several other servicemen also sustained various types of injuries.

Volume 347, case-file pages 60-63

According to forensic medical expert opinion No. 127 dated 26.04.2024, it was established that the bodily injuries sustained by Bayramov Huseyn Vugar oglu - post-traumatic headache - a mild form of acute respiratory infection caused by a firearm, as well as by the impact of the blast wave caused by the explosion of any explosive substance, are classified as a minor danger to health.

Volume 327, case-file pages 1-253

When questioned as a victim, Soldier Bayramov Huseyn Vugar oglu, operator of the 1st platoon of the 1st squad of the anti-tank subunit of military unit No. 703 of the Ministry of Defence, stated in his testimony that on 13.09.2022 at around 11:00, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of a mortar shell fired by Armenian armed formations in the territory of Kalbajar District, servicemen of military unit No. 703, whose names he presently does not remember, died, while he, Private Muslim Shafiyev and several other servicemen of military unit No. 703, whose names he does not remember, sustained various types of bodily injuries.

Volume 190, case-file pages 65-69

On the basis of forensic medical expert opinion No. 909 dated 26.04.2024, it was established that the bodily injuries sustained by Ahmadov Sadyg Asker oglu - mine-blast trauma; traumatic avulsion of the lower third of the left lower leg; primary surgical treatment of wounds caused by blind shrapnel wounds of various parts of the body; re-amputation of the left leg - caused by the impact of the blast wave caused by the explosion of any explosive substance, depending on the degree, cause serious harm to health.

Volume 327, case-file pages 1-253

When questioned as a victim, Private Ahmadov Sadyg Asker oglu, serviceman of the NSVT platoon of the 2nd battalion of military unit No. 703 of the Ministry of Defence, stated in his testimony that on the night of 13.09.2022, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of a mine laid by Armenian armed formations in the territory of Kalbajar District, servicemen of military unit No. 703, whose surname he does not remember, died, while they other servicemen of the military unit in which he served sustained various types of bodily injuries.

Volume 338, case-file pages 165-168

On the basis of forensic medical expert opinion No. 880 dated 26.04.2024, it was established that the bodily injury sustained by Amanullayev Rashad Agajan oglu - a hardened skin scar after a firearm (bullet) wound on the inner surface of the middle part of 1/3 of the left arm - was inflicted by a firearm. This firearm wound is assessed, in terms of severity, as minor harm to health.

Volume 327, case-file pages 1-253

When questioned as a victim, Captain Amanullayev Rashad Agajan oglu, commander of the 1st platoon of the 9th company of the 3rd battalion of military unit No. 703 of the Ministry of Defence, stated in his testimony that, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of an artillery shell fired by Armenian armed formations in the territory of Kalbajar District, he and servicemen of military unit No. 701 Rahimzade Ruhid Oktay oglu and Javadov Ravan Shamsaddin oglu sustained various types of bodily injuries.

Volume 193, case-file pages 68-70, 136-139

Volume 330, case-file pages 91-94

Volume 344, case-file pages 46-49

According to forensic medical expert opinion No. 883 dated 26.04.2024, it was established that the bodily injuries sustained by Isgandarov Nijat Hidayat oglu - a non-penetrating wound of the forehead as a result of a firearm wound; an open craniocerebral injury; minor brain contusion, right frontal lobe; ablation of the frontal pocket with fatty tissue; 14.9 square centimetres of open bone defect of the frontal pocket; as a result of a penetrating

[Page 638]

firearm wound of the right half of the face, right eyeball and forehead not penetrating into the cranial cavity, all walls of the right orbit, the anterior and posterior walls of the right occipital and frontal sinuses were damaged, with a shrapnel bone defect; reconstruction of the orbital margins and lower wall with a minator plate in connection with comminuted fractures of the right zygomatic bone and comminuted fractures of the right coronoid process of the mandible; fractures of bone defects after open internal fixation of fragments with minitor plates; post-traumatic injury to the lower edge of the right parotid salivary gland; hardened skin scars after primary and secondary surgical treatment of wounds; mild impairment of masticatory function; an open craniocerebral injury caused by a firearm wound, crushing of the brain and right frontal lobe, as a result of which post-traumatic encephalopathy developed, manifested by persistent vegetative-vascular instability, cephalgia and insomnia syndrome; post-traumatic neuropathy of the right facial nerve with residual manifestations leading to paralysis of the general musculature; astheno-neurotic manifestations after an open craniocerebral injury caused by a firearm wound, crushing of the brain and right frontal lobe; a penetrating firearm wound of the right eyeball and forehead not penetrating into the cranial cavity; evisceration of the right eye; the condition after implantation of a silicone ball; C VisOS-0.8; bilateral chronic cochlear neuritis as a result of blast trauma; bilateral sensorineural hearing loss; inability to hear whispered speech with the right ear - characterised by hearing loss in the left ear at a distance of 4 metres - arise as a result of the impact of primary or secondary fragments formed as a result of the explosion of any explosive substance and, in terms of severity, are classified as causing serious harm to health.

Volume 327, case-file pages 1-253

When questioned as a victim, Junior Sergeant Isgandarov Nijat Hidayat oglu, former commander of the 4th squad of the 2nd battalion of military unit No. 703 of the Ministry of Defence, stated in his testimony that, while preventing large-scale provocative actions by Armenian armed formations, he sustained various injuries as a result of sniper fire opened by Armenian armed forces in Kalbajar District.

Volume 329, case-file pages 73-76

Volume 342, case-file pages 248-251

According to forensic medical expert opinion No. 36 dated 26.04.2024, it was established that the bodily injuries sustained by Mammadov Eyyub Valiaddin oglu - a penetrating wound

of the soft tissues of the upper third of the right arm; a blind bullet wound of the lower third - arose as a result of the impact of primary or secondary fragments formed during the explosion of any explosive substance and, depending on their degree, as a rule, cause less serious harm to health.

Volume 327, case-file pages 1-253

When questioned as a victim, Lieutenant Mammadov Eyyub Valiaddin oglu, commander of the 2nd platoon of the 1st company of the 1st battalion of military unit No. 703 of the Ministry of Defence, stated in his testimony that on 13.09.2022 at around 08:00, while preventing large-scale provocative actions by Armenian armed formations, as a result of fire opened by Armenian armed formations in the territory of Kalbajar District, Warrant Officer Ahmadov Sabuhi died, while he, Private Abbasov Nijat and several other servicemen of military unit No. 172 sustained injuries of varying degrees of severity.

Volume 275, case-file pages 51-55

According to forensic medical expert opinion No. 937 dated 26.04.2024, it was established that the bodily injuries sustained by Musayev Omar Binnet

[Page 639]

oglu - a hardened skin scar after primary surgical treatment of wounds caused by a firearm wound of the left buttock arising as a result of a bullet fired from a firearm - are generally classified as minor harm to health.

Volume 327, case-file pages 1-253

When questioned as a victim, Private Musayev Omar Binnet oglu, head of reconnaissance of the 3rd group of the 1st company of the 1st battalion of military unit No. 703 of the Ministry of Defence, stated in his testimony that on 14.09.2022 at around 01:00, while preventing large-scale provocative actions by Armenian armed formations, as a result of fire opened by Armenian armed formations in the territory of Kalbajar District, servicemen of military unit No. 703, whose names he presently does not remember, died, while he and several other servicemen of military unit No. 703, whose names he does not remember, sustained various types of bodily injuries.

Volume 189, case-file pages 121-126

According to forensic medical expert opinion No. 31 dated 02.02.2022, it was established that the bodily injuries sustained by Novruzlu Mustafa Namig oglu - traumatic amputation of the left foot at the tarsometatarsal joint; the condition after open, displaced, intra-articular, navicular fractures of the distal metaphysis of the left tibia - by reason of their degree cause permanent loss of not less than one-third of general working capacity, which is considered serious harm to health.

Volume 337, case-file pages 245-247

When questioned as a victim, Warrant Officer Novruzlu Mustafa Namig oglu, commander of the 2nd group of the 1st platoon of the 2nd company of the 1st battalion of military unit No. 703 of the Ministry of Defence, stated in his testimony that on 13.09.2022 at around 06:00, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of a mortar shell fired by Armenian armed formations in Lachin District, servicemen of military unit No. 703, whose names he does not remember, died, while he and serviceman of the same military unit Shamkhal Shamkhalli sustained various types of bodily injuries.

Volume 342, case-file pages 237-240

On the basis of forensic medical expert opinion No. 801 dated 26.04.2024, it was established that the bodily injuries sustained by Rahimzade Ruhid Oktay oglu - primary surgical treatment of wounds caused by a penetrating shrapnel wound of the right lower leg and an open displaced shrapnel fracture of the V metatarsal bone; a hardened skin scar and sufficiently healed fracture after immobilisation with a plaster splint, arising as a result of the impact of a primary or secondary fragment caused by the explosion of any explosive substance, without functional impairment - are classified as less serious harm to health.

Volume 327, case-file pages 1-253

When questioned as a victim, Private Rahimzade Ruhid Oktay oglu, former assistant scout-grenade-launcher operator of the 9th company of the 3rd battalion of military unit No. 703 of the Ministry of Defence, stated in his testimony that on 23.09.2022 at around 18:30, while preventing large-scale provocative actions by Armenian armed formations, as a result of fire opened by Armenian armed formations in the territory of Kalbajar District, servicemen of military unit No. 701, whose names he does not remember, died, while he and several other servicemen sustained various types of injuries.

Volume 193, case-file pages 159-162

[Page 640]

According to forensic medical expert opinion No. 843 dated 26.04.2024, it was established that the bodily injuries sustained by Shamkhalli Shamkhal Fakhraddin oglu - left-sided thoracocentesis performed in connection with a firearm wound, a penetrating wound of the left half of the chest, injury to the left lung and left-sided haemopneumothorax; drainage of the pleural cavity by the Bulau method; primary surgical treatment of wounds; a hardened skin scar after surgical intervention; fibrosis of the lower lobe of the left lung; left-sided pleural adhesion; a mixed type of moderate ventilatory impairment of external respiratory function of the lungs, arising as a result of a firearm wound - in terms of severity constitute serious harm to health.

Volume 327, case-file pages 1-253

When questioned as a victim, Junior Sergeant Shamkhalli Shamkhal Fakhraddin oglu, chief gunner of the 1st battalion of military unit No. 703 of the Ministry of Defence, stated in his testimony that on 13.09.2022 at around 06:00, while preventing large-scale provocative

actions by Armenian armed formations, as a result of fire opened by Armenian armed formations in the territory of Kalbajar District, servicemen of military unit No. 172, whose names he presently does not remember, became martyrs, while he and several other servicemen of military unit No. 172, whose names he does not remember, sustained various types of bodily injuries.

Volume 89, case-file pages 75-76, 80-82

According to forensic medical expert opinion No. 1018 dated 26.04.2024, it was established that the bodily injuries sustained by Novruzov Samir Mubariz oglu - a closed craniocerebral injury as a result of blast trauma; vegetative-vascular instability after brain concussion; barotrauma; the condition after left-sided chronic cochlear neuritis; whispered speech audible at a distance of 4 metres with the left ear and 6 metres with the right ear - caused by the impact of the blast wave caused by the explosion of any explosive substance, are generally classified as minor harm to health by reason of their degree.

Volume 327, case-file pages 1-253

According to forensic medical expert opinion No. 1003 dated 26.04.2024, it was established that the bodily injuries sustained by Rustamov Asker Elman oglu - a hardened skin scar after primary surgical treatment of wounds caused by blunt trauma to the soft tissues of the right shoulder; penetration of a foreign body (metal fragment) into the soft tissues - arise as a result of the impact of a primary or secondary fragment arising as a result of the explosion of any explosive substance and, by degree, generally constitute minor harm to health.

Volume 327, case-file pages 1-253

When questioned as a victim, Senior Lieutenant Rustamov Asker Elman oglu, commander of the 1st platoon of the 1st company of the 1st battalion of military unit No. 707 of the Ministry of Defence, stated in his testimony that on 13.09.2022 at around 02:15, while preventing large-scale provocative actions by Armenian armed formations, as a result of fire opened by Armenian armed formations in the territory of Kalbajar District, servicemen of military unit No. 769, whose names he presently does not remember, died, while at the same time he and several other servicemen of military unit No. 769, whose names he presently does not remember, sustained various types of bodily injuries.

Volume 189, case-file pages 25-30

On the basis of forensic medical expert opinion No. 827 dated 26.04.2024, it was established that the bodily injuries sustained by Abbasov Vugar Nofal oglu - a firearm wound; post-traumatic neuropathy

[Page 641]

of the right ulnar nerve, causing mild peripheral dysfunction; primary surgical treatment of wounds caused by a penetrating firearm wound of the lower third of the right humerus; an open fracture of the distal third of the diaphysis of the right humerus; sufficiently healed fractures after immobilisation with a plaster splint, sustained as a result of the impact of

primary or secondary fragments upon the discharge of a firearm, as well as upon the explosion of explosive substances, are classified as less serious harm to health.

Volume 327, case-file pages 1-253

When questioned as a victim, Warrant Officer Abbasov Vugar Nofal oglu, deputy commander of the 1st platoon of the 1st company of the 2nd battalion of military unit No. 769 of the Ministry of Defence, stated in his testimony that on 13.09.2022 at around 06:00, while preventing large-scale provocative actions by Armenian armed formations, as a result of fire opened by Armenian armed formations in the territory of Lachin District, Rashad Gambarov and Ismayil Malikov, servicemen of military unit No. 769, died, while he and other servicemen of that military unit sustained various types of injuries.

Volume 342, case-file pages 101-103, 109-110

On the basis of forensic medical expert opinion No. 823 dated 26.04.2024, it was established that the bodily injuries sustained by Aliyev Vusal Yusif oglu - a firearm wound; post-traumatic neuropathy of the right axillary nerve, resulting in mild impairment of limb function; a satisfactorily united fracture after primary surgical treatment of wounds caused by a penetrating firearm wound of the right shoulder and right upper arm; an open, comminuted, displaced fracture of the glenoid cavity of the right scapula; a non-displaced fracture of the right IV rib - arise as a result of the impact of primary or secondary fragments formed upon the discharge of a firearm, as well as the explosion of explosive substances, and in terms of severity are classified as less serious harm to health.

Volume 327, case-file pages 1-253

When questioned as a victim, Junior Sergeant Aliyev Vusal Yusif oglu, assistant scout-grenade-launcher operator of the 2nd group of the 4th platoon of the 1st company of the 1st battalion of military unit No. 769 of the Ministry of Defence, stated in his testimony that on 13.09.2022 at around 05:00, while preventing large-scale provocative actions by Armenian armed formations, as a result of fire opened by the Armed Forces of Armenia in the territory of Lachin District, Joshgun Zulfuzade and Mirtalib Agazade, servicemen of military unit No. 769, died, while he and other servicemen of that military unit sustained various types of injuries.

Volume 342, case-file pages 131-133, 139-140

According to forensic medical expert opinion No. 891 dated 26.04.2024, it was established that the bodily injuries sustained by Bashirov Rashad Joshgun oglu - blast trauma; pars plana vitrectomy; laser photocoagulation; removal of a foreign body; gas SF6 tamponade; surgical retinopathy; subcapsular cataract; intraorbital and periorbital foreign bodies of the left eye, resulting in an uncorrected decrease in visual acuity to 0.08 in the right eye and 0.8 in the left eye; a closed craniocerebral injury caused by blast trauma; post-concussion vegetative-vascular instability; a closed craniocerebral injury caused by blast trauma; astheno-neurotic manifestations after brain concussion; foreign bodies (metal fragments) in the soft tissues of the left half of the head as a result of blast trauma; a hardened skin scar after rupture of the

left supraspinatus muscle; a foreign body (metal fragment) after a blunt shrapnel wound of the

[Page 642]

soft tissues of the left cheek as a result of blast trauma - arise as a result of the impact of primary or secondary fragments, including the blast wave formed upon the explosion of any explosive substance, and in terms of severity are classified as less serious harm to health.

Volume 327, case-file pages 1-253

When questioned as a victim, Senior Lieutenant Bashirov Rashid Joshgun oglu, a former serviceman of military unit No. 769 of the Ministry of Defence, stated in his testimony that on 12.09.2022 at around 24:00, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of an artillery shell fired by Armenian armed formations in the territory of Lachin District, Saddam Huseynov, a soldier of military unit No. 769, died, while he, Javid Suleymanov and several other servicemen of military unit No. 769, whose names he is currently unable to recall, sustained various types of bodily injuries.

Volume 331, case-file pages 92-95

According to forensic medical expert opinion No. 825 dated 26.04.2024, it was established that the bodily injuries sustained by Damirov Isag Faig oglu - blast trauma; traumatic avulsion of the left hand at the level of the middle third of the V metacarpal bone; extensive wound defect of the soft tissues of the palmar surface after primary surgical treatment of the wound; scars on the fourth finger; persistent contracture of the flexors of tendinous origin; mild impairment of hand function - were caused by the impact of a primary or secondary fragment formed as a result of the explosion of any explosive substance and, depending on the degree of severity, are classified as causing a less serious form of harm to health.

Volume 327, case-file pages 1-253

When questioned as a victim, Soldier Damirov Isag Faig oglu, rifleman of the 3rd platoon of the 9th company of the 3rd battalion of military unit No. 888 of the Ministry of Defence, stated in his testimony that on 13.09.2022 at around 09:00, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of a mortar shell fired by Armenian armed formations in Lachin District, servicemen of military unit No. 888 died, while he and other servicemen sustained various types of injuries.

Volume 338, case-file pages 45-48

According to forensic medical expert opinion No. 815 dated 26.04.2024, it was established that the bodily injuries sustained by Aliyev Kenan Arif oglu - a closed craniocerebral injury as a result of blast trauma; a mild organic dissociative disorder following brain concussion; post-concussion syndrome and its consequences, accompanied by behavioural disorders; mild prolonged post-traumatic stress disorder - were caused by the impact of a primary or secondary fragment formed as a result of the explosion of any explosive substance and, by degree, relate to less pronounced harm to health.

Volume 327, case-file pages 1-253

When questioned as a victim, Junior Sergeant Aliyev Kenan Arif oglu, scout of the 1st squad of the 1st platoon of the 3rd company of the 1st operational battalion of military unit No. 769 of the Ministry of Defence, stated in his testimony that on 13.09.2022 at around 24:00, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of a hand grenade thrown by Armenian armed formations in Lachin District, servicemen of military unit No. 769, whose names he presently does not remember,

[Page 643]

died, while he and several other servicemen of military unit No. 769, whose names he does not remember, sustained various types of bodily injuries.

Volume 109, case-file pages 110-114

On the basis of forensic medical expert opinion No. 874 dated 26.04.2024, it was established that the bodily injuries sustained by Fatullazade Suleyman Alijan oglu - the edge of the base of the proximal phalanx of the left foot was torn from the adjacent fracture; foreign bodies in the soft tissues (metal fragments) - were caused by the impact of primary or secondary fragments formed as a result of the explosion of any explosive substance and, in terms of severity, constitute minor harm to health.

Volume 327, case-file pages 1-253

When questioned as a victim, Junior Lieutenant Fatullazade Suleyman Alijan oglu, commander of the 4th platoon of the 2nd company of the 2nd battalion of military unit No. 769 of the Ministry of Defence, stated in his testimony that on 14.09.2022 at around 04:00, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of a hand grenade thrown by Armenian armed formations in Lachin District, Mirtalib Agazade and Joshgun Zulfuzade, servicemen of military unit No. 769, died, while he and other servicemen of that military unit sustained various types of injuries.

Volume 342, case-file pages 81-83, 89-90

On the basis of forensic medical expert opinion No. 43 dated 26.04.2024, it was established that the bodily injuries sustained by Hasanov Elnur Elchin oglu - a closed craniocerebral injury and brain concussion resulting in astheno-neurotic manifestations and vegetative-vascular instability as a consequence of blast trauma; right-sided acute cochlear neuritis as a consequence of barotrauma; blind shrapnel wounds of both lower limbs - were caused by the impact of primary or secondary fragments, including the blast wave arising upon the explosion of any explosive substance, and overall are classified as less serious harm to health by reason of their degree.

Volume 327, case-file pages 1-253

When questioned as a victim, Major Hasanov Elnur Elchin oglu, battalion commander of military unit No. 190 of the Ministry of Defence, stated in his testimony that on 12.09.2022 at around 23:30, while preventing large-scale provocative actions by Armenian armed

formations, as a result of the explosion of an artillery shell fired by Armenian armed formations in the territory of Lachin District, servicemen of military unit No. 769, whose names he does not remember, died, while he and several other servicemen of military unit No. 769, whose names he is currently unable to recall, sustained bodily injuries of varying degrees of severity.

Volume 331, case-file pages 72-75

On the basis of forensic medical expert opinion No. 46 dated 26.04.2024, it was established that the bodily injuries sustained by Ismayilov Rasat Salman oglu - primary surgical treatment of wounds sustained as a result of multiple blind shrapnel wounds to various parts of the body as a result of blast trauma, as well as avulsion fractures of the navicular and middle cuneiform bones of the left lower leg; condition after surgical removal of part of a foreign body (metal fragment) and immobilisation with a plaster splint, caused by the impact of primary or secondary fragments formed as a result of the explosion of any explosive substance - cause, depending on the degree, less serious harm to health.

Volume 327, case-file pages 1-253

[Page 644]

When questioned as a victim, Private Ismayilov Rasat Salman oglu, assistant scout-grenade-launcher operator of the 2nd group of the 1st platoon of the 2nd company of the 3rd battalion of military unit No. 769 of the Ministry of Defence, stated in his testimony that on 13.09.2022 at around 17:00, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of a mortar shell fired by Armenian armed formations in Lachin District, servicemen of military unit No. 769, whose surname he does not remember, died, while he and other servicemen of that military unit sustained various types of bodily injuries.

Volume 342, case-file pages 111-113, 119-120

On the basis of forensic medical expert opinion No. 845 dated 26.04.2024, it was established that the bodily injuries sustained by Mustafayev Iskender Osman oglu - primary surgical treatment of wounds caused by a closed craniocerebral injury; astheno-neurotic manifestations after brain concussion; blast trauma; a blind shrapnel wound of the left hand, left lower leg and right thigh; injury to the extensor tendon of the fourth finger of the left hand; hardened skin scars after secondary surgical treatment of wounds, fasciotomy and tenorrhaphy of the dorsal surface of the left hand and left foot; foreign bodies in the soft tissues (metal fragments); initial-stage osteoarthritis of both knee joints; degeneration of the posterior horn of the medial meniscus of the right knee joint; right-sided grade 1 chondromalacia of the patella; a previous closed craniocerebral injury; post-concussion vegetative-vascular instability; barotrauma; left-sided chronic cochlear neuritis; dry perforation of the left tympanic membrane; left-sided mixed hearing loss; whispered speech audible at a distance of 6 metres with the right ear and at a distance of 3 metres with the left ear; a hardened skin scar after primary surgical treatment of a blind shrapnel wound of the submandibular region; a blind shrapnel wound of both periorbital regions as a result of blast

trauma; a hardened skin scar of the left upper eyelid; a foreign body (metal fragment) in the left periorbital region; post-traumatic keratopathy of the left eye; decrease in visual acuity to 0.9 in the right eye and 0.8 in the left eye as a result of anterior stasis of the optic disc, uncorrected - primary or secondary shrapnel, arising as a result of the explosion of any explosive substance, including those arising as a result of the impact of the blast wave, in terms of severity are classified as causing less serious harm to health.

Volume 327, case-file pages 1-253

When questioned as a victim, Lieutenant Colonel Mustafayev Iskender Osmanov oglu, Head of the Artillery Division of military unit No. 769 of the Ministry of Defence, stated in his testimony that on 13.09.2022 at around 01-02, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of a mortar shell fired by Armenian armed formations in Lachin District, Captain Saleh Gurbanov and Private Ibrahim Hasanov, servicemen of military unit No. 191, died, while several other servicemen of military unit No. 191, whose names are presently not remembered, sustained various types of bodily injuries.

Volume 347, case-file pages 49-53

On the basis of forensic medical expert opinion No. 830 dated 26.04.2024, it was established that the bodily injuries sustained by Nasibov Vusal Alimusa oglu - moderate (mild) organic affective (depressive) disorder after a closed craniocerebral injury caused by blast trauma; moderate (mild) prolonged post-traumatic stress disorder; a closed craniocerebral injury as a result of blast trauma;

[Page 645]

vegetative-vascular instability after brain concussion; right-sided chronic cochlear neuritis as a result of barotrauma; tinnitus; whispered speech audible at a distance of 5 metres with the right ear and 6 metres with the left ear; hardened skin scars after shrapnel wounds of the left arm and left shoulder - arise as a result of the impact of a primary or secondary fragment, including the blast wave arising upon the explosion of any explosive substance, and are classified as less serious harm to health.

Volume 327, case-file pages 1-253

When questioned as a victim, Senior Soldier Nasibov Vusal Alimusa oglu, assistant commander of the 2nd squad of the 2nd platoon of the 01st company of the 2nd operational battalion of military unit No. 769 of the Ministry of Defence, stated in his testimony that on 13.09.2022 at around 24:00, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of a mortar shell fired by Armenian armed formations in the territory of Kalbajar District, servicemen of military unit No. 769, whose names he presently does not remember, died, while at the same time he and several other servicemen of military unit No. 769, whose names he presently does not remember, sustained various types of bodily injuries.

Volume 109, case-file pages 119-123

According to forensic medical expert opinion No. 28 dated 26.04.2024, it was established that the bodily injuries sustained by Nazarov Allahshukur Seydamir oglu - on 23.09.2022, the Military Medical Commission of the Central Military Polyclinic of the Ministry of Defence diagnosed: Blast trauma. "Condition after a blind shrapnel wound of the right buttock." These injuries were caused by blast trauma and fragments, and their severity is assessed as minor harm to health:

Volume 327, case-file pages 1-253

When questioned as a victim, Private Nazarov Allahshukur Seydamir oglu, scout-observer of the 2nd group of the 1st platoon of the 3rd company of the 1st battalion of military unit No. 769 of the Ministry of Defence, stated in his testimony that on 13.09.2022 at around 01:00, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of a mortar shell fired by Armenian armed formations in Lachin District, Mirtalib Agazade and Saddam Huseynov, servicemen of military unit No. 769, died, while he and other servicemen of that military unit sustained various types of injuries.

Volume 342, case-file pages 191-193, 199-200

According to forensic medical expert opinion No. 2064 dated 03.11.2023, it was established that the bodily injuries sustained by Orujov Murad Shamil oglu - injury and subcapsular haematoma of the small intestine and the lower pole of the right kidney, penetrating into the abdominal cavity from the left half of the lumbar region; a shrapnel wound accompanied by the presence of a foreign body (fragment); a shrapnel wound extending from the lumbar region and both buttocks to the lower limbs; multiple penetrating shrapnel wounds resulting in displaced comminuted fractures of the 2nd and 3rd metacarpal bones and the proximal phalanx of the 1st toe of the right foot - arose as a result of the impact of primary or secondary fragments formed upon the explosion of any explosive substance and, depending on the degree of severity, are classified as serious harm to health.

Volume 45, case-file pages 168-170

When questioned as a victim, Soldier Orujov Murad Shamil oglu, signaller of the PBZ section of the 1st battery of the division of military unit No. 949 of the Ministry of Defence, stated in his testimony that on 14.09.2022 at around 11:00, while

[Page 646]

preventing large-scale provocative actions by Armenian armed formations, as a result of fire opened by Armenian armed formations in Lachin District, servicemen of military unit No. 949, whose names he presently does not remember, died, while he, Captain Elmir Shikhaliyev, Private Kenan Mustafayev and several other servicemen of military unit No. 949, whose names he does not remember, sustained various types of bodily injuries.

Volume 189, case-file pages 171-176

On the basis of forensic medical expert opinion No. 65/MChS dated 26.04.2024, it was established that the bodily injuries sustained by Pirverdiyev Seyran Rashad oglu - on

30.09.2022 the Military Medical Commission of Military Hospital No. 230 diagnosed him with “Condition after primary surgical treatment of a wound due to a penetrating firearm wound of the soft tissues of the left lower leg.” The injury in question had a blunt mechanism of injury, could have been caused by a firearm bullet wound during the period and in the circumstances specified in the decision, namely on 15.09.2022, and in terms of severity is classified as minor harm to health.

Volume 347, case-file pages 251-254

When questioned as a victim, Private Pirverdiyev Seyran Rashad oglu, scout-sapper of the 2nd company of the 1st platoon of the 1st company of the 1st battalion of military unit No. 769 of the Ministry of Defence, stated in his testimony that on 14.09.2022 at around 13:00, while preventing large-scale provocative actions by Armenian armed formations, as a result of fire opened by Armenian armed formations in Lachin District, servicemen of military unit No. 769, whose names he presently does not remember, died, while at the same time he and several other servicemen of military unit No. 769, whose names he presently does not remember, sustained various types of bodily injuries.

Volume 189, case-file pages 15-20

On the basis of forensic medical expert opinion No. 33 dated 26.04.2024, it was established that the bodily injuries sustained by Rahimov Osman Yashar oglu - on 26.09.2022 the Military Medical Commission of the Central Military Polyclinic diagnosed him with: “Penetrating firearm bullet wound of the soft tissues of the inner surface of the middle third of the right thigh.” The injury was sustained as a result of a firearm wound and in terms of severity is classified as minor harm to health.

Volume 327, case-file pages 1-253

When questioned as a victim, Private Rahimov Osman Yashar oglu, scout of the 1st group of the 1st platoon of the 1st battalion of the 2nd division of the 1st battalion of military unit No. 769 of the Ministry of Defence, stated in his testimony that on 13.09.2022 at around 02:00, while preventing large-scale provocative actions by Armenian armed formations, as a result of fire opened by Armenian armed formations in Lachin District, servicemen of military unit No. 191, whose surname he does not remember, died, while he and other servicemen of that military unit sustained injuries of varying degrees of severity.

Volume 342, case-file pages 171-173, 179-180

On the basis of forensic medical expert opinion No. 17 dated 24.01.2024, it was established that the bodily injuries sustained by Rzayev Oruj Anvar oglu - a penetrating, open, displaced fracture of the lower third of the right humerus - caused by the impact of a primary or secondary fragment arising upon the explosion of any explosive substance, which depending on its degree is considered to have caused serious harm to health.

Volume 89, case-file pages 227-229

When questioned as a victim, Soldier Rzayev Oruj Anvar oglu, an employee of the reconnaissance headquarters of military unit No. 769 of the Ministry of Defence,

[Page 647]

stated in his testimony that on 13.09.2022 at around 15:00, while preventing large-scale provocative actions by Armenian armed formations, as a result of fire opened by Armenian armed formations in Lachin District, Joshgun Zulfuzade, a soldier of military unit No. 769, died, while he, Jabir Mammadov, Vagif Kheyrullayev and several other servicemen of military unit No. 769, whose names he does not remember, sustained various types of bodily injuries.

Volume 89, case-file pages 215-218

According to forensic medical expert opinion No. 1178 dated 26.04.2024, it was established that the bodily injuries sustained by Sadikhov Panah Sulduz oglu - a closed craniocerebral injury; blind shrapnel wounds of both limbs - arise as a result of the impact of primary or secondary fragments formed as a result of the explosion of any explosive substance and, as a rule, are classified as minor harm to health depending on the degree of severity.

Volume 327, case-file pages 1-253

When questioned as a victim, Private Sadikhov Panah Sulduz oglu, former mortar gunner of the 4th platoon of the 1st company of the 2nd operational battalion of military unit No. 769 of the Ministry of Defence, stated in his testimony that on 13.09.2022 at around 15-16, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of a mortar shell fired by Armenian armed formations in Lachin District, Private Nihat Verdiyev and Private Rashad Ganbarli, soldiers of military unit No. 769, died, while he, Private Iman Jafarov and several other servicemen of military unit No. 769, whose names he is currently unable to recall, sustained various types of bodily injuries.

Volume 329, case-file pages 230-233

According to forensic medical expert opinion No. 96 dated 19.01.2024, it was established that the bodily injuries sustained by Safarov Iman Kamaladdin oglu - a blind shrapnel wound of the right lateral wall of the chest with right-sided pneumothorax, penetrating into the chest cavity; mild impairment of blood circulation and function of the right brachial artery; a shrapnel wound (metal fragment) of the soft tissues of the right half of the chest, right abdominal wall, right shoulder girdle and right thigh; a closed craniocerebral injury resulting in vegetative-vascular instability after brain concussion; right-sided chronic cochlear neuritis; post-traumatic secondary reconstruction of the right tympanic membrane; right-sided mixed hearing loss; barotrauma resulting in whispered speech being audible at a distance of 4 metres with the right ear and 6 metres with the left ear - arise as a result of the impact of primary or secondary fragments formed upon the explosion of any explosive substance and, depending on the degree, are classified as causing serious harm to health.

Volume 89, case-file pages 150-151

When questioned as a victim, Private Safarov Iman Kamaladdin oglu, scout-sniper of the 2nd battalion of military unit No. 769 of the Ministry of Defence, stated in his testimony that on 13.09.2022 at around 17:00, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of a mortar shell fired by Armenian armed formations in the territory of Lachin District, servicemen of military unit No. 769, whose names he presently does not remember, died, while he and several other servicemen sustained various types of bodily injuries.

Volume 275, case-file pages 182-183, 187-189

On the basis of forensic medical expert opinion No. 26 dated 26.04.2024, it was established that the bodily injuries sustained by Suleymanov

[Page 648]

Javid Farhad oglu - on 28.09.2022 the Military Medical Commission of the Central Military Polyclinic of the Ministry of Defence diagnosed: "Blast trauma. Shrapnel wound of the left cheek, region of the left mastoid process, tangential and penetrating." These injuries were caused by blast trauma and fragments, and their severity is assessed as minor harm to health.

Volume 327, case-file pages 1-253

When questioned as a victim, Warrant Officer Suleymanov Javid Farhad oglu, commander of the 1st group of the 2nd platoon of the 3rd company of the 1st battalion of military unit No. 769 of the Ministry of Defence, stated in his testimony that on 13.09.2022 at around 01:00, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of a mortar shell fired by Armenian armed formations in Lachin District, Omar Shirinov, a serviceman of military unit No. 157, died, while he and other servicemen of that military unit sustained various types of injuries.

Volume 342, case-file pages 151-153, 159-160

On the basis of forensic medical expert opinion No. 1001 dated 26.04.2024, it was established that the bodily injuries sustained by Suleymanov Garib Elzamin oglu - skin scars after a firearm wound of the lower third of the left thigh - were formed as a result of the impact of a bullet fired from a firearm and, in terms of severity, are classified as minor harm to health.

Volume 327, case-file pages 1-253

When questioned as a victim, Warrant Officer Suleymanov Garib Elzamin oglu, commander of the 2nd group of the 1st platoon of the 2nd company of the 1st battalion of military unit No. 769 of the Ministry of Defence, stated in his testimony that on 13.09.2022 at around 05:00, while preventing large-scale provocative actions by Armenian armed formations, as a result of fire opened by Armenian armed formations in the territory of Kalbajar District, servicemen of military unit No. 769, whose names he presently does not remember, became martyrs, while at the same time he and several other servicemen of military unit No. 769, whose names he presently does not remember, sustained various types of bodily injuries.

Volume 189, case-file pages 250-255

On the basis of forensic medical expert opinion No. 832 dated 26.04.2024, it was established that the bodily injuries sustained by Sultanov Sanan Islam oglu - metal fragments measuring 3-4 millimetres in the soft tissues of the right thigh; an unhealed transverse skin scar 10 cm long on the anterior surface of the lower third of the outer surface of the right thigh; simple myopic astigmatism of the right eye Em and M 1 D, with visual acuity reduced to 0.6 with correction to 1, and visual acuity of the left eye 1 - caused by the impact of a primary or secondary fragment formed upon the explosion of any explosive substance, depending on the degree of its danger, constitute minor harm to health.

Volume 327, case-file pages 1-253

When questioned as a victim, Private Sultanov Sanan Islam oglu, member of the mortar crew of the 3rd group of the 2nd battalion, 3rd company, 4th platoon of military unit No. 769 of the Ministry of Defence, stated in his testimony that on 12.09.2022 at around 24:00, while preventing large-scale provocative actions by Armenian armed formations, as a result of fire opened by Armenian armed formations in Lachin District, servicemen of military unit No. 769, whose names he presently does not remember, became martyrs, while at the same time he and several other servicemen of military unit No. 769, whose names he presently does not remember, sustained various types of bodily injuries.

Volume 189, case-file pages 65-70**[Page 649]**

On the basis of forensic medical expert opinion No. 124 dated 26.04.2024, it was established that the bodily injuries sustained by Tagizade Mahammad Elman oglu - "Post-traumatic headache." This injury was sustained as a result of the impact of the shock wave formed upon the explosion of a bullet fired from a firearm and, in terms of severity, is classified as minor harm to health.

Volume 327, case-file pages 1-253

When questioned as a victim, Private Tagizade Muhammad Elman oglu, scout-rifleman of the 2nd group of the 1st platoon of the 1st company of the 2nd battalion of military unit No. 769 of the Ministry of Defence, stated in his testimony that on 13.09.2022 at around 01:00, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of a mortar shell fired by Armenian armed formations in the territory of Lachin District, servicemen of military unit No. 769, whose names he presently does not remember, became martyrs, while at the same time he and several other servicemen of military unit No. 769, whose names he presently does not remember, sustained various types of bodily injuries.

Volume 190, case-file pages 55-60

On the basis of forensic medical expert opinion No. 885 dated 26.04.2024, it was established that the bodily injuries sustained by Takhmazov Elshad Fakhraddin oglu - blast trauma; a closed craniocerebral injury; mild organic emotionally labile disorder after brain concussion;

mild prolonged post-traumatic stress disorder. The consequence of blast trauma, closed craniocerebral injury and brain concussion is post-traumatic encephalopathy manifested by diffuse neurological symptoms, persistent vegetative-vascular dystonia, cephalgic and insomnia syndromes. As a result of blind corneal trauma in both eyes, punctate opacities developed; simple myopic astigmatism of the right eye Et and M 1.00, as a result of which visual acuity was 1.0, and visual acuity of the left eye 1 - arise as a result of the impact of primary or secondary fragments, including the shock wave formed upon the explosion of any explosive substance, and in terms of severity are classified as causing less serious harm to health.

Volume 327, case-file pages 1-253

When questioned as a victim, Major Takhmazov Elshad Fakhraddin oglu, former Chief of Staff of the 2nd battalion of military unit No. 769 of the Ministry of Defence, stated in his testimony that on 13.09.2022 at around 01:00, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of an artillery shell fired by Armenian armed formations in the territory of Lachin District, servicemen of military unit No. 769, whose names he presently does not remember, became martyrs, while at the same time he and several other servicemen of military unit No. 769, whose names he presently does not remember, sustained various types of bodily injuries.

Volume 331, case-file pages 122-125

According to forensic medical expert opinion No. 40 dated 26.04.2024, it was established that the bodily injuries sustained by Khankishiyev Mirdamat Latif oglu - bilateral acute cochlear neuritis due to barotrauma; sprain of the ligaments of the right knee joint resulting in secondary degeneration of the posterior horn of the medial meniscus, caused by the impact of a blast wave from the discharge of a firearm - are overall classified as less serious harm to health.

Volume 327, case-file pages 1-253

When questioned as a victim, Private

[Page 650]

Khankishiyev Mirdamat Latif oglu, scout-sniper of the 2nd platoon of the sniper subunit of military unit No. 769 of the Ministry of Defence, stated in his testimony that on 13.09.2022 at around 06:00, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of a mortar shell fired by Armenian armed formations in Lachin District, servicemen of military unit No. 769, whose names he presently does not remember, became martyrs, while at the same time he and several other servicemen of military unit No. 769, whose names he presently does not remember, sustained various types of bodily injuries.

Volume 342, case-file pages 211-213, 219-220

According to forensic medical expert opinion No. 48 dated 23.01.2024, the bodily injuries sustained by Kheyrollayev Vagif Murad oglu - a penetrating wound resulting in an open comminuted fracture of the humerus of the upper third of the right humerus (upper 1/3 of the right humerus); a firearm wound of the anterior inner surface of the right hand; a firearm wound of the posterior outer surface of the upper 1/3 of the right hand) firearm wound - were caused by the impact of primary or secondary fragments formed as a result of the explosion of any explosive substance and, depending on the degree of their injury, constitute serious harm to health.

Volume 344, case-file pages 89-90

When questioned as a victim, Private Kheyrollayev Vagif Murad oglu, assistant military scout-grenadier No. 161 of the Ministry of Defence, stated in his testimony that on 13.09.2022 at around 01:30, while preventing large-scale provocative actions by Armenian armed formations, as a result of fire opened by Armenian armed formations in Lachin District, Mirtalib Agazade, a serviceman of military unit No. 161, died, while he, Oruj Rzayev and several other servicemen of military unit No. 161 persons, whose names he does not remember, sustained various types of bodily injuries.

Volume 344, case-file pages 79-83

On the basis of forensic medical expert opinion No. 38 dated 26.04.2024, it was established that the bodily injuries sustained by Zakaryayev Sayyad Ulfat oglu - a firearm penetrating wound of the soft tissues of the left shoulder girdle - arose as a result of the impact of a bullet fired from a firearm, correspond to the date and circumstances specified in the medical document dated 13.09.2022, and are classified as minor harm to health.

Volume 327, case-file pages 1-253

When questioned as a victim, Junior Sergeant Zakaryayev Sayyad Ulfat oglu, engineer-scout of the 1st group of the 1st platoon of the 2nd company of the 1st battalion of military unit No. 769 of the Ministry of Defence, stated in his testimony that on 13.09.2022 at around 07:30, while preventing large-scale provocative actions by Armenian armed formations, as a result of fire opened by Armenian armed formations in Lachin District, Mirtalib Agazade, a serviceman of military unit No. 769, died, while he and other servicemen of that military unit sustained injuries of varying degrees of severity.

Volume 342, case-file pages 141-143, 149-150

According to forensic medical expert opinion No. 975 dated 26.04.2024, it was established that the bodily injuries sustained by Aleskerov Orkhan Javanshir oglu - a closed craniocerebral injury; vegetative-vascular dystonia, arising as a consequence of a firearm wound, as well as as a consequence of the impact of the blast wave caused by the explosion of any explosive substance - in terms of severity are, as a rule, classified as minor harm to health.

Volume 327, case-file pages 1-253

Questioned as a victim, the platoon commander of the artillery battery of Military Unit No. 930 of the Ministry of Defence, Senior Lieutenant Aleskerov Orkhan Javanshir oglu, stated in his testimony that on 14.09.2022 at approximately 01:30, while large-scale provocative actions by Armenian armed formations were being prevented, as a result of the explosion of an artillery shell fired by Armenian armed formations in the territory of the Kalbajar District, a serviceman of Military Unit No. 073, Lieutenant Omarov Sarkhan, was killed, while he and several other servicemen of Military Unit No. 073 sustained various types of bodily injuries.

Volume 347, case file sheets 215-218

According to forensic medical expert opinion No. 76 dated 05.02.2024, it was established that the bodily injuries sustained by Mustafaev Kenan Etibar oglu — a firearm wound causing blindness as a result of collapse of the right eyeball, shrapnel wounds in two places on the right side of the forehead, and shrapnel wounds on the left side of the soft tissues — were caused by the impact of a primary or secondary fragment resulting from the explosion of any explosive substance and, in terms of severity, constitute serious harm to health.

Volume 344, case file sheets 67-68

Questioned as a victim, a former scout of the 949th Military Unit of the Ministry of Defence, Private Mustafaev Kenan Etibar oglu, stated in his testimony that on 14.09.2022 at approximately 10:00, while large-scale provocative actions by Armenian armed formations were being prevented, as a result of the explosion of an artillery shell fired by Armenian armed formations in the Lachin District, servicemen of Military Unit No. 949, whose names he does not remember, became martyrs, and at the same time he and servicemen of Military Unit No. 949, Private Murad Orudzhev and Captain Elmir Shikhaliev, sustained various types of bodily injuries.

Volume 344, case file sheets 59-62

According to forensic medical expert opinion No. 821 dated 26.04.2024, it was established that the bodily injuries sustained by Huseynaliev Elvin Fazil oglu — a penetrating firearm wound of the palmar surface of the left hand, resulting in oblique, open, displaced trapezoid and trapezoidal fractures of the bases of the II, III and IV metacarpal bones of the left hand and the body of the middle phalanx of the IV finger, as well as extensive damage to the tissues of the palmar surface. Primary surgical treatment of wounds caused by defects of tendons and nerves, secondary surgical treatment of wounds, fixation of fracture fragments with metal rods, restoration of the common digital nerves using an autograft of the sural nerve, infected wounds after surgical interventions such as placement of a Hunter prosthesis in the flexor tendons and canalisation of the tendon beds of fingers I, II, III and IV with silicone tubes. Removal of the silicone prosthesis in the presence of a foreign body (metal fragment) in the soft tissues, surgical treatment of wounds, inadequately united fractures of the middle phalanx and of the III, IV and V metacarpal bones after surgical operations, defects of the flexor tendons of fingers I-V, extensor contracture of fingers I-V, cicatricial contracture of the wrist joints. A firearm wound of the left median nerve, traumatic injury to

the palmar surface of the hand with moderate functional impairment and residual effects manifested by motor and trophic disorders. Blast trauma, previously sustained closed craniocerebral injury, post-concussion vegetative-vascular instability. Astheno-neurotic manifestations after blast trauma, closed craniocerebral injury and concussion. Blast trauma, right-sided chronic cochlear neuritis, right-sided sensorineural hearing loss, perception of whispered speech at a distance of 5 metres with the right ear and at a distance of 6 metres with the left ear — a primary or secondary fragment resulting from a shot from a firearm

[Page 652]

and also from the explosion of any explosive substance, including those arising as a result of the impact of a blast wave, in terms of severity fall within the category of injuries causing less serious harm to health.

Volume 327, case file sheets 1-253

Questioned as a victim, the deputy commander of the special-purpose group of Military Unit No. 071 of the Ministry of Defence, Senior Lieutenant Huseynaliev Elvin Fazil oglu, stated in his testimony that during the night of 13.09.2022, while large-scale provocative actions by Armenian armed formations were being prevented, as a result of the explosion of a mortar shell fired by Armenian armed formations in the territory of the Kalbajar District, he and other servicemen of Military Unit No. 071 sustained injuries of varying severity.

Volume 338, case file sheets 11-16

According to forensic medical expert opinion No. 2287 dated 11.12.2023, the bodily injuries sustained by Gasimov Ibarat Magerram oglu — a penetrating bullet wound of the soft tissues of the posterior surface of the left shoulder girdle and a penetrating firearm wound of the soft tissues of the left hand, resulting in complete rupture of the branch of the left ulnar nerve running to the IV and V fingers — were caused by the impact of a primary or secondary fragment formed as a result of the explosion of any explosive substance and, in terms of severity, constitute less serious harm to health.

Volume 88, case file sheets 150-151

On the basis of forensic medical expert opinion No. 984 dated 26.04.2024, it was established that the bodily injuries sustained by Huseynov Mushvig Nizami oglu — astheno-neurotic manifestations after a closed craniocerebral injury and concussion; a closed craniocerebral injury and post-concussion vegetative-vascular dystonia caused by the impact of a blast wave formed during the explosion of any explosive substance — constitute minor harm to health.

Volume 327, case file sheets 1-253

Questioned as a victim, the head of the materiel and technical service of the rear administration of Military Unit No. 073 of the Ministry of Defence, Major Huseynov Mushvig Nizami oglu, stated in his testimony that on 13.09.2022 at approximately 18:00, while large-scale provocative actions by Armenian armed formations were being prevented, as a result of shelling opened by Armenian armed formations in the territory of the Kalbajar

District, servicemen of Military Unit No. 073, whose names he does not remember, were killed, while he and other servicemen of the military unit in which he served sustained various types of bodily injuries.

Volume 338, case file sheets 185-189

According to forensic medical expert opinion No. 983 dated 26.04.2024, it was established that the bodily injuries sustained by Huseynov Rauf Firudin oglu — blunt injuries to various parts of the body, abrasions and haematomas — are primary and secondary injuries caused by the explosion of any explosive substance or by secondary fragments, which, in terms of severity, are regarded as causing minor harm to health.

Volume 327, case file sheets 1-253

Questioned as a victim, the head of the reconnaissance detachment “M” of Military Unit No. 073 of the Ministry of Defence, Major Huseynov Rauf Firudin oglu, stated in his testimony that on 13.09.2022 at approximately 10:00, while large-scale provocative actions by Armenian armed formations were being prevented, as a result of shelling opened by Armenian armed formations in the territory of the Kalbajar District, servicemen of Military Unit

[Page 653]

No. 073, whose names he does not remember, were killed, while he and other servicemen of the military unit in which he served sustained various types of bodily injuries.

Volume 338, case file sheets 245-249

According to forensic medical expert opinion No. 1025 dated 26.04.2024, it was established that the bodily injuries sustained by Abbasov Ilham Fikret oglu — a first-degree sprain of the anterior cruciate ligament of the right knee and shin. Second-degree degeneration of the posterior horn of the medial meniscus and first-degree degeneration of the posterior horn of the lateral meniscus, post-traumatic synovitis — were caused by a blunt mechanism, by the impact of a hard blunt object, and, as a rule, constitute less serious harm to health.

Volume 327, case file sheets 1-253

Questioned as a victim, the deputy head of the department of communications systems and information technologies of Military Unit No. 052 of the Ministry of Defence, Lieutenant Colonel Abbasov Ilham Fikret oglu, stated in his testimony that on 13.09.2022 at approximately 03:00-04:00, while large-scale provocative actions by Armenian armed formations were being prevented, as a result of the explosion of a mortar shell fired by Armenian armed formations in the territory of the Kalbajar District, he, Lieutenant Colonel Jeyhun Azizov, Major Rashad Guliyev and several other servicemen of Military Unit No. 052, whose names he cannot presently recall, sustained bodily injuries of varying severity.

Volume 330, case file sheets 163-166

According to forensic medical expert opinion No. 1024 dated 26.04.2024, it was established that the bodily injuries sustained by Aghjaev Bayram Ilyas oglu — blast trauma, a closed craniocerebral injury and vegetative-vascular instability resulting from concussion — arise as a result of the impact of a blast wave caused by the explosion of any explosive substance and, in terms of severity, usually constitute minor harm to health.

Volume 327, case file sheets 1-253

Questioned as a victim, the head of artillery and head of the administration of Military Unit No. 052 of the Ministry of Defence, Lieutenant Colonel Aghjaev Bayram Ilyas oglu, stated in his testimony that on 13.09.2022 at approximately 18:00-19:00, while large-scale provocative actions by Armenian armed formations were being prevented, as a result of the explosion of a mortar shell fired by Armenian armed formations in the territory of the Kalbajar District, servicemen of Military Unit No. 052 Lieutenant Colonel Jeyhun Azizov, Colonel Sabukhi Abdullaev and several other servicemen sustained various types of injuries.

Volume 330, case file sheets 203-206

On the basis of forensic medical expert opinion No. 1032 dated 26.04.2024, it was established that the bodily injuries sustained by Karimov Umid Ramazan oglu — vegetative-vascular instability after a closed craniocerebral injury and concussion. Barotrauma. Bilateral cochlear neuritis. Bilateral sensorineural hearing loss. Perception of whispered speech by both ears at a distance of 5 metres — were caused by the impact of a blast wave formed during the explosion of any explosive substance and, by their degree, usually constitute minor harm to health.

Volume 327, case file sheets 1-253

Questioned as a victim, the former senior assistant to the head of the operations department of Military Unit No. 052 of the Ministry of Defence, Lieutenant Colonel Karimov Umid Ramazan oglu, stated in his testimony that on 13.09.2022 at approximately 06:00-07:00, while large-scale provocative actions by Armenian armed formations were being prevented, as a result of the explosion

[Page 654]

of a mortar shell fired by Armenian armed formations in the territory of the Kalbajar District, servicemen of Military Unit No. 052 Lieutenant Colonel Jeyhun Azizov, Major Rashad Guliyev and several other servicemen of Military Unit No. 052, whose names he cannot presently recall, sustained various types of bodily injuries.

Volume 330, case file sheets 193-196

According to forensic medical expert opinion No. 918 dated 26.04.2024, it was established that the bodily injuries sustained by Aliyev Tural Asker oglu — blast trauma, injury of the small intestine and transverse colon penetrating through the anterior abdominal wall into the abdominal cavity, laparotomy for a blind shrapnel wound accompanied by internal bleeding, examination of the abdominal cavity, resection of the affected portion of the small and large

intestines (13 cm of large intestine, 6 cm of small intestine), side-to-side entero-entero anastomosis, removal of the terminal colostomy, relaparotomy, termination of the terminal colostomy, 10-centimetre resection of the large intestine, placement of a colo-colo anastomosis and a healed scar on the skin after sanitation and drainage of the abdominal cavity, without impairment of the evacuation function of the intestine. Blast trauma, closed craniocerebral injury, post-concussion vegetative-vascular instability. Astheno-neurotic manifestations after blast trauma, closed craniocerebral injury and concussion. Blast trauma, bilateral chronic cochlear neuritis, bilateral persistent sensorineural hearing loss, perception of whispered speech with both ears at a distance of 5.5 metres, caused by the impact of primary or secondary fragments, including a blast wave arising from the explosion of any explosive substance — are considered a serious danger to health depending on their degree.

Volume 327, case file sheets 1-253

Questioned as a victim, a reconnaissance officer of the 2nd group of the 1st battalion of Military Unit No. 071 of the Ministry of Defence, Warrant Officer Aliyev Tural Asker oglu, stated in his testimony that on 13.09.2022 at approximately 01:00, while large-scale provocative actions by Armenian armed formations were being prevented, as a result of the explosion of a grenade-launcher round fired by Armenian armed formations in the territory of the Kalbajar District, servicemen of Military Unit No. 071, whose names he does not now remember, were killed, while he, Senior Lieutenant Abdulla Ismayilov, Private Niyaz Niyazaliev, Private Kamran Idrisov and several other servicemen of Military Unit No. 071, whose names he cannot presently recall, sustained various types of bodily injuries.

Volume 329, case file sheets 84, 88

On the basis of forensic medical expert opinion No. 06 dated 26.04.2024, it was established that the bodily injuries sustained by Askerov Zaman Elman oglu — a blunt craniocerebral injury accompanied by post-traumatic headache, bruising of the skin and subcutaneous tissue of the left shin, caused by the impact of a hard blunt object and corresponding to the date of the incident, 15.09.2022, and to the circumstances indicated in the medical document — also, in terms of degree, constitute minor harm to health.

Volume 327, case file sheets 1-253

Questioned as a victim, a medical orderly of the 2nd battalion of Military Unit No. 071 of the Ministry of Defence, Sergeant Askerov Zaman Elman oglu, stated in his testimony that on 13.09.2022 at approximately 24:00, while large-scale provocative actions by Armenian armed formations were being prevented, as a result of shelling by Armenian armed formations in the territory of the Kalbajar District, servicemen of Military Unit No. 071, whose names he does not presently remember, were killed, and he and several other

[Page 655]

servicemen of Military Unit No. 071, whose names he does not presently remember, sustained various types of bodily injuries.

Volume 190, case file sheets 45-50

On the basis of forensic medical expert opinion No. 889 dated 26.04.2024, it was established that the bodily injuries sustained by Imranzade Nazir Suleyman oglu — blast trauma. Post-traumatic encephalopathy manifested by chronic cephalalgic and insomniac syndrome, persistent vegetative-vascular instability, partial recurrent convulsive syndrome as a result of a previously sustained closed craniocerebral injury and concussion. A firearm wound. Mild impairment of peripheral functions as a result of post-traumatic neuropathy of the right median and ulnar nerves. Acute (severe) organic personality disorder with frequent decompensations, depressive episodes and reduced cognitive functions. Primary and secondary surgical treatment of wounds in the event of a firearm wound of the soft tissues of the middle third of the right thigh and a penetrating wound of the middle third of the right shin, a rough skin scar after surgical intervention — arise as a result of the impact of a blast wave formed by a shot from a firearm, as well as by the explosion of any explosive substance, and fall within the category of injuries causing less serious harm to health.

Volume 327, case file sheets 1-253

Questioned as a victim, a combat engineer-scout of Military Unit No. 071 of the Ministry of Defence, Private Imranzade Nazir Suleyman oglu, stated in his testimony that on 13.09.2022 at approximately 01:00, while large-scale provocative actions by Armenian armed formations were being prevented, as a result of shelling by Armenian armed formations in the territory of the Kalbajar District, servicemen of Military Unit No. 071, whose names he does not presently remember, were killed, while he and several other servicemen of Military Unit No. 071, whose names he does not presently remember, sustained various types of bodily injuries.

Volume 338, case file sheets 56-60

On the basis of forensic medical expert opinion No. 1834 dated 13.10.2022, it was established that the bodily injuries sustained by Ismayilov Abdulla Rafig oglu — a moderately pronounced organic affective (depressive) disorder, vegetative-vascular disturbance, closed craniocerebral injury with concussion resulting in mild (moderate) prolonged post-traumatic stress disorder, and blunt shrapnel wounds of the right side of the back, right shoulder, right half of the face, right upper extremity, right shin and foot, as well as the inner surface of the left ankle — in terms of degree constitute less serious harm to health.

Volume 80, case file sheets 206-207

Questioned as a victim, a heavy-equipment specialist of the 1st battalion of the 071st Military Unit of the Ministry of Defence, Private Ismayilov Abdulla Rafig oglu, stated in his testimony that on 13.09.2022 at approximately 01:00, while large-scale provocative actions by Armenian armed formations were being prevented, as a result of shelling by Armenian armed formations in the territory of the Kalbajar District, servicemen of Military Unit No. 071, whose names he does not presently remember, were killed, while he and several other servicemen of Military Unit No. 071, whose names he does not presently remember, sustained various types of bodily injuries.

Volume 80, case file sheets 43-44, 48-50

According to forensic medical expert opinion No. 939 dated 26.04.2024, it was established that the bodily injuries sustained by Mammadov Ali Habil oglu — blast trauma, skin scars after shrapnel wounds of the right shin and right knee, foreign bodies in the soft tissues (metal fragments) — were caused by

[Page 656]

the impact of primary or secondary fragments as a result of the explosion of any explosive substance and, as a rule, by their severity fall within the category of injuries causing minor harm to health.

Volume 327, case file sheets 1-253

Questioned as a victim, a rifleman of the 2nd section of the 3rd platoon of the headquarters unit of Military Unit No. 071 of the Ministry of Defence, Private Mammadov Ali Habil oglu, stated in his testimony that on 13.09.2022 at approximately 07:00, while large-scale provocative actions by Armenian armed formations were being prevented, as a result of the explosion of a mortar shell fired by Armenian armed formations in the territory of the Kalbajar District, servicemen of Military Unit No. 071, whose names he does not presently remember, were killed, while he and several other servicemen of Military Unit No. 071, whose names he does not presently remember, sustained various types of bodily injuries.

Volume 189, case file sheets 240-245

According to forensic medical expert opinion No. 812 dated 26.04.2024, the bodily injuries sustained by Niyazaliev Niyaz Asker oglu — a closed craniocerebral injury caused by blast trauma, a moderate (mild) organic affective (depressive) disorder as a result of concussion and its consequences, accompanied by post-concussion syndrome. Moderate (mild) prolonged post-traumatic stress disorder. A closed craniocerebral injury resulting from blast trauma, vegetative-vascular instability due to concussion. Blast trauma. Rough skin scars after primary surgical treatment of wounds caused by blunt trauma to the anterior surface of the middle third of both thighs, foreign bodies in the soft tissues (metal fragments) — arise as a result of the impact of primary or secondary fragments, including a blast wave arising from the explosion of any explosive substance, and fall within the category of injuries causing less serious harm to health.

Volume 327, case file sheets 1-253

Questioned as a victim, a serviceman performing fixed-term service in the position of scout-engineer of the 2nd group of the 1st battalion of Military Unit No. 071 of the Ministry of Defence, Private Niyazaliev Niyaz Asker oglu, stated in his testimony that on 13.09.2022 at approximately 05:00, while large-scale provocative actions by Armenian armed formations were being prevented, as a result of shelling opened by Armenian armed formations in the territory of the Kalbajar District, servicemen of Military Unit No. 071, whose names he does not presently remember, were killed, while he and several other servicemen of Military Unit No. 071, whose names he does not presently remember, sustained various types of bodily injuries.

Volume 189, case file sheets 5-10

According to forensic medical expert opinion No. 2091 dated 06.11.2023, it was established that the bodily injuries sustained by Gadirli Khazar Elman oglu — a closed craniocerebral injury accompanied by concussion, resulting in a moderate (mild) organic affective (depressive) disorder and post-traumatic stress disorder; post-traumatic neuropathy of the left peroneal nerve; shrapnel wounds of the face, left arm, left shin and left foot; fractures of the II, III and V metatarsal bones of the left shin; barotrauma of the left ear accompanied by left-sided chronic cochlear neuritis, resulting in left-sided persistent sensorineural hearing loss (perception of whispered speech at a distance of 4.5 metres with the left ear) — constitute a less serious degree of impairment of health.

Volume 45, case file sheets 173-174

[Page 657]

Questioned as a victim, the former scout and medical specialist of Battalion Z of Military Unit No. 071 of the Ministry of Defence, Warrant Officer Gadirli Khazar Elman oglu, stated in his testimony that on 13.09.2022 at approximately 05:00, while large-scale provocative actions by Armenian armed formations were being prevented, as a result of the explosion of a mine laid by Armenian armed formations in the territory of the Kalbajar District, servicemen of Military Unit No. 172, whose names he does not presently remember, were killed, while he and several other servicemen of Military Unit No. 172, whose names he does not presently remember, sustained various types of bodily injuries.

Volume 45, case file sheets 76-77, 81-83

According to forensic medical expert opinion No. 835 dated 26.04.2024, it was established that the bodily injuries sustained by Yunsurov Yusif Vidadi oglu — corneal opacity after removal of conjunctiva from the corneas of both eyes and multiple foreign bodies (metal fragments) of the upper eyelid as a result of blast trauma, slight scarring of the skin of the upper eyelid; as a result of traumatic retinopathy, visual acuity of the right eye decreased to 0.7 and visual acuity of the left eye decreased to 0.6, without correction in either eye. Rough skin scars after surgical treatment of wounds of the right upper and right lower extremities as a result of a shrapnel wound following blast trauma. Condition after primary surgical treatment of wounds resulting from blunt shrapnel injuries to the left and right cheeks, the left half of the lower lip and the tip of the tongue as a result of blast trauma; small foreign bodies in the soft tissues — arise as a result of the impact of primary or secondary fragments formed during the explosion of any explosive substance and, in terms of severity, fall within the category of injuries causing less serious harm to health.

Volume 327, case file sheets 1-253

Questioned as a victim, a former serviceman of Military Unit No. 071 of the Ministry of Defence, Warrant Officer Yunsurov Yusif Vidadi oglu, stated in his testimony that on 12.09.2022 at approximately 12:00, while large-scale provocative actions by Armenian armed formations were being prevented, as a result of the explosion of a grenade thrown by

Armenian armed formations in the territory of the Kalbajar District, a serviceman of Military Unit No. 071, Senior Warrant Officer Elnur Rustamov, was killed, while he, Gadjhi Hajiev, Warrant Officer Nurlan Abdullazade and several other servicemen sustained injuries of varying severity.

Volume 347, case file sheets 17-20

According to forensic medical expert opinion No. 01 dated 26.04.2024, it was established that the bodily injuries sustained by Allahyarov Rasim Shainali oglu — blast trauma, a closed craniocerebral injury, condition after concussion, barotrauma — a condition arising as a result of chronic cochlear neuritis of the left auditory nerve arising from the impact of primary or secondary fragments, including a blast wave formed during the explosion of any explosive substance, and is classified as a less serious danger to health.

Volume 327, case file sheets 1-253

Questioned as a victim, the senior assistant for operational training to the head of the operational and combat training department of Military Unit No. 082 of the Ministry of Defence, Major Allahyarov Rasim Shainali oglu, stated in his testimony that on 13.09.2022 at approximately 12:00-13:00, while large-scale provocative actions by Armenian armed formations were being prevented, as a result of the explosion of a mortar shell fired by Armenian armed formations in the territory of the Kalbajar District, a serviceman of Military Unit No. 071, Junior Sergeant Yusif Gurbanov,

[Page 658]

Warrant Officer Vadim Godzhaev and Warrant Officer Firus Ahmedov were killed, while he, Warrant Officer Tural Aliyev, Senior Lieutenant Hidayat Najafov and Private Niyaz Niyazaliev sustained injuries of varying severity.

Volume 330, case file sheets 133-136

On the basis of forensic medical expert opinion No. 2069 dated 03.11.2023, it was established that the bodily injuries sustained by Hasanov Rustam Mahir oglu — post-traumatic encephalopathy accompanied by partial epileptiform seizures, a mild organic affective disorder, post-concussion syndrome, a closed craniocerebral injury with concussion resulting in mild post-traumatic stress disorder, and multiple shrapnel wounds of the soft tissues of both lower extremities; an abrasion on the lower third of the right side of the body — are classified as minor harm to health.

Volume 327, case file sheets 1-253

Questioned as a victim, the head of reconnaissance of Military Unit No. 071 of the Ministry of Defence, Senior Lieutenant Hasanov Rustam Mahir oglu, stated in his testimony that on 12.09.2022 at approximately 08:00, while large-scale provocative actions by Armenian armed formations were being prevented, as a result of the explosion of a mortar shell fired by Armenian armed formations in the territory of the Kalbajar District, servicemen of Military Unit No. 172, whose names he does not presently remember, were killed, while he and

several other servicemen of Military Unit No. 172, whose names he does not presently remember, sustained various types of bodily injuries.

Volume 80, case file sheets 115-116, 120-122

According to forensic medical expert opinion No. 1180 dated 26.04.2024, it was established that the bodily injuries sustained by Shukurov Umud Alimammad oglu — blast trauma, barotrauma, a closed craniocerebral injury and concussion — arise as a result of the impact of primary or secondary fragments formed by the explosion of any explosive substance and are classified as minor or less serious harm to health.

Volume 327, case file sheets 1-253

Questioned as a victim, the commander of an automatic-grenade-launcher section of the 1st battalion of the 703rd Military Unit of the Ministry of Defence, Junior Sergeant Shukurov Umud Alimamad oglu, stated in his testimony that on 13.09.2022 at approximately 13:00, while large-scale provocative actions by Armenian armed formations were being prevented, as a result of the explosion of a mortar shell fired by Armenian armed formations in the territory of the Kalbajar District, servicemen of Military Unit No. 172, whose names he does not presently remember, were killed, while he and several other servicemen of Military Unit No. 172, whose names he does not presently remember, sustained various types of bodily injuries.

Volume 275, case file sheets 41-45

According to forensic medical expert opinion No. 1030 dated 26.04.2024, it was established that the bodily injuries sustained by Magerramov Sadyg Akhliman oglu — a closed craniocerebral injury caused by blast trauma and post-traumatic encephalopathy after concussion — arise as a result of the impact of a blast wave formed during the explosion of any explosive substance and fall within the category of injuries causing less serious harm to health.

Volume 327, case file sheets 1-253

Questioned as a victim, the former machine-gunner/scout of the 2nd company of the 3rd battalion of the 071st Military Unit of the Ministry of Defence, Warrant Officer Magerramov Sadyg Akhliman oglu, stated in his testimony that on 14.09.2022

[Page 659]

at approximately 09:00, while large-scale provocative actions by Armenian armed formations were being prevented, as a result of the explosion of an artillery shell fired by Armenian armed formations in the territory of the Kalbajar District, servicemen of Military Unit No. 071 Warrant Officer Vadim Godzhaev, Senior Warrant Officer Firus Ahmedov and Warrant Officer Hayal Akhadzade were killed, while he and several other servicemen of Military Unit No. 071, whose names he cannot presently recall, sustained various types of bodily injuries.

Volume 329, case file sheets 29-32

On the basis of forensic medical expert opinion No. 805 dated 12.10.2023, it was established that the bodily injuries sustained by Agaev Agshin Kamran oglu — a penetrating wound of the soft tissues of the left gluteal region — constitute a firearm bullet injury; the bodily injuries caused minor harm to health.

Volume 45, case file sheets 40-41

Questioned as a victim, a grenadier of Military Unit No. 072 of the Ministry of Defence, Private Agaev Agshin Kamran oglu, stated in his testimony that on 14.09.2022 at approximately 13:00, while large-scale provocative actions by Armenian armed formations were being prevented, as a result of shelling opened by Armenian armed formations in the territory of the Kalbajar District, servicemen of Military Unit No. 072, whose names he does not now remember, Junior Warrant Officer Farid Latifov and Junior Warrant Officer Nabiev Huseynali were killed, while he, Private Akhlyar Mustafaev and several other servicemen of Military Unit No. 072, whose names he does not remember, sustained various types of bodily injuries.

Volume 45, case file sheets 32-36

On the basis of forensic medical expert opinion No. 963 dated 26.04.2024, it was established that the bodily injuries sustained by Imanov Zeynal Ramiz oglu — blast trauma. A condition after primary surgical treatment of wounds caused by blind shrapnel wounds of the soft tissues of the posterior chest wall, not penetrating into the cavity — arise as a result of the impact of primary or secondary fragments formed as a result of the explosion of any explosive substance and, depending on degree, constitute less serious harm to health.

Volume 327, case file sheets 1-253

Questioned as a victim, a mortar operator of the 4th section of the 3rd platoon of the “Dzh” unit of Military Unit No. 072 of the Ministry of Defence, Private Imanov Zeynal Ramiz oglu, stated in his testimony that on 13.09.2022 at approximately 13:00, while large-scale provocative actions by Armenian armed formations were being prevented, as a result of shelling opened by Armenian armed formations in the territory of the Kalbajar District, servicemen of Military Unit No. 072, whose names he does not now remember, were killed, while he, Yusif Mekhtiev and several other servicemen of Military Unit No. 072, whose names he does not remember, sustained various types of bodily injuries.

Volume 190, case file sheets 5-10

On the basis of forensic medical expert opinion No. 1909 dated 19.10.2023, it was established that the bodily injuries sustained by Mekhtiev Yusif Kamal oglu, in terms of severity, namely a blunt shrapnel wound of the soft tissues of the right shin, fall within the category of minor harm to health.

Volume 45, case file sheets 89-90

Questioned as a victim, a former senior rifleman of the “Dzh” detachment of Military Unit No. 072 of the Ministry of Defence, Private Mekhtiev Yusif Kamal oglu, stated in his testimony that on 13.09.2022 at approximately 13:00, while

[Page 660]

large-scale provocative actions by Armenian armed formations were being prevented, as a result of the explosion of a mortar shell fired by Armenian armed formations in the territory of the Kalbajar District, servicemen of Military Unit No. 172, whose names he does not presently remember, were killed, while he and several other servicemen sustained various types of bodily injuries.

Volume 80, case file sheets 77-78, 82-84

On the basis of forensic medical expert opinion No. 961 dated 26.04.2024, it was established that the bodily injuries sustained by Mustafaev Akhlyar Eldeniz oglu — a firearm wound of the right arm caused by a bullet fired from a firearm — are classified as less serious harm to health.

Volume 327, case file sheets 1-253

Questioned as a victim, a former rifleman of the 3rd section of the 4th platoon of the “Dzh” unit of Military Unit No. 072 of the Ministry of Defence, Private Mustafaev Akhlyar Eldeniz oglu, stated in his testimony that on 13.09.2022 at approximately 19:00, while large-scale provocative actions by Armenian armed formations were being prevented, as a result of the explosion of a mortar shell fired by Armenian armed formations in the territory of the Kalbajar District, servicemen of Military Unit No. 073, whose names he does not remember, were killed, while he, Private Tale Zabitov, Private Muslim Aliyev and several other servicemen of Military Unit No. 073, whose names he does not remember, sustained various types of bodily injuries.

According to forensic medical expert opinion No. 235 dated 29.07.2023, it was established that the bodily injuries sustained by Guliyev Ulvi Babek oglu — amputation of the distal part of the right leg at the level of the metatarsal bones and a split wound of the anterior surface of the right shin — constitute less serious harm to health.

Volume 77, case file sheets 171-173

Questioned as a victim, a serviceman of Military Unit No. 072 of the Ministry of Defence, Private Guliyev Ulvi Babek oglu, stated in his testimony that during the night of 12.09.2022, while large-scale provocative actions by Armenian armed formations were being prevented, as a result of the explosion of a mortar shell fired by Armenian armed formations in the territory of the Kalbajar District, servicemen of Military Unit No. 072 were killed, while he, Private Elsavar Binnetov and several other servicemen of Military Unit No. 072, whose names he does not remember, sustained various types of bodily injuries.

Volume 77, case file sheets 35-39

On the basis of forensic medical expert opinion No. 408 dated 02.08.2023, it was established that the bodily injuries sustained by Hajibalaev Magomed Vagif oglu — barotrauma and bilateral acute cochlear neuritis — constitute minor harm to health.

Volume 77, case file sheet 128

Questioned as a victim, the former mortar operator of the 4th platoon of the “Dzh” unit of Military Unit No. 072 of the Ministry of Defence, Private Hajibalaev Magomed Vagif oglu, stated in his testimony that on 12.09.2022 at approximately 23:30, while large-scale provocative actions by Armenian armed formations were being prevented, as a result of the explosion of a mortar shell fired by Armenian armed formations in the territory of the Kalbajar District, soldiers of Military Unit No. 072 — Farid Latifov, Huseynali Nabiev and Elmir Huseynov — were killed, while he, Agshin Agaev, Akhlyar

[Page 661]

Mustafaev and several other servicemen of Military Unit No. 072, whose names he does not remember, sustained various types of bodily injuries.

Volume 77, case file sheets 122-126

According to forensic medical expert opinion No. 236 dated 29.07.2023, it was established that the bodily injuries sustained by Lezgiev Javid Nazim oglu — a closed craniocerebral injury accompanied by concussion and bilateral cochlear neuritis, in view of the degree of rupture of the meniscus of the right knee joint — constitute less serious harm to health.

Volume 77, case file sheets 168-170

Questioned as a victim, a serviceman of Military Unit No. 072 of the Ministry of Defence, Private Lezgiev Javid Nazim oglu, stated in his testimony that during the night of 12.09.2022, while large-scale provocative actions by Armenian armed formations were being prevented, as a result of the explosion of a mortar shell fired by Armenian armed formations in the territory of the Kalbajar District, soldiers of Military Unit No. 072 — Farid Latifov, Huseynali Nabiev and Elmir Huseynov — were killed, while he, Ibarat Gasimov, Private Agshin Agaev and Private Akhlyaru Mustafaev sustained various types of bodily injuries.

Volume 77, case file sheets 47-50

On the basis of forensic medical expert opinion No. 772 dated 05.08.2023, it was established that the bodily injuries sustained by Ismayilov Ulvi Samir oglu — a closed craniocerebral injury and a shrapnel wound in the area of the left temple — constitute minor harm to health.

Volume 77, case file sheets 74-75

Questioned as a victim, a mortar armoured personnel carrier serviceman of Military Unit No. 072 of the Ministry of Defence, Soldier Ismayilov Ulvi Samir oglu, stated in his testimony that on 14.09.2022 at approximately 01:00, while large-scale provocative actions by Armenian armed formations were being prevented, as a result of shelling opened by Armenian armed formations in the territory of the Kalbajar District, servicemen of Military

Unit No. 072 — Imamgulyev Umid Vugar oglu, Huseynov Elmir Abdul oglu, Magerramov Tural Tarlan oglu and Latifov Farid Giyas oglu — were killed, while he, Yusif Mekhtiev, Zeynal Imanov, Akhlyaru Mustafaev and several other servicemen of Military Unit No. 072, whose names he does not remember, sustained various types of bodily injuries.

Volume 77, case file sheets 65-69

On the basis of forensic medical expert opinion No. 1710 dated 09.10.2023, it was established that the bodily injuries sustained by Geydarov Alekper Adil oglu — barotrauma of both ears accompanied by bilateral acute cochlear neuritis — fall within the category of minor harm to health.

Volume 80, case file sheets 90-91

Questioned as a victim, the former sniper-observer of the 1st battalion of Military Unit No. 072 of the Ministry of Defence, Private Geydarov Alekper Adil oglu, stated in his testimony that on 13.09.2022 at approximately 15:00, while large-scale provocative actions by Armenian armed formations were being prevented, as a result of shelling opened by Armenian armed formations in the territory of the Kalbajar District, servicemen of Military Unit No. 072 — Latifov Farid Giyas oglu, Huseynov Elmir Abdul oglu and Nabiev Huseynali Hikmet oglu — were killed, while he, Javid Lezgiev, Magomed Gadhibalaev, Akhlyaru Mustafaev, Ibarat Gasimov, Ravanu Musaev, Agshinu Agaev and several other servicemen of Military Unit No. 072, whose names he does not remember, sustained various types of bodily injuries.

Volume 77, case file sheets 199-200, 204-206

[Page 662]

On the basis of forensic medical expert opinion No. 1794 dated 12.10.2023, it was established that the bodily injuries sustained by Sultanov Javanshir Azer oglu — barotrauma of both ears accompanied by bilateral acute cochlear neuritis as a result of the impact of a shock wave from the explosion caused by the explosion of an explosive shell (munition), and a horizontal tear of the posterior horn of the medial meniscus of the left knee joint — constitute minor harm to health in terms of degree.

Volume 80, case file sheets 179-180

Questioned as a victim, the former assistant grenadier of the “Dzh” unit of Military Unit No. 072 of the Ministry of Defence, Private Sultanov Javanshir Azer oglu, stated in his testimony that on 13.09.2022 at approximately 13:00, while large-scale provocative actions by Armenian armed formations were being prevented, as a result of the explosion of a mortar shell fired by Armenian armed formations in the territory of the Kalbajar District, servicemen of Military Unit No. 172, whose names he does not remember, were killed, while he and several other servicemen of Military Unit No. 172 sustained various types of injuries.

Volume 77, case file sheets 210-211, 215-217

According to forensic medical expert opinion No. 865 dated 26.04.2024, it was established that the bodily injuries sustained by Abdulazizov Elnur Abdulaziz oglu — a previously sustained closed craniocerebral injury, astheno-neurotic manifestations after concussion, blast trauma, a previously sustained closed craniocerebral injury, vegetative-vascular instability after concussion, barotrauma, acute right-sided cochlear neuritis, right-sided sensorineural hearing loss, perception of whispered speech at a distance of 3 metres with the right ear and 6 metres with the left ear — were caused by the impact of a blast wave formed during the explosion of any explosive substance and are classified as causing less serious harm to health.

Volume 327, case file sheets 1-253

Questioned as a victim, the senior assistant in the direction of the head of the operations administration of Military Unit No. 052 of the Ministry of Defence, Lieutenant Colonel Abdulazizov Elnur Abdulaziz oglu, stated in his testimony that on 13.09.2022 at approximately 13:00-14:00, while large-scale provocative actions by Armenian armed formations were being prevented, as a result of the explosion of a mortar shell fired by Armenian armed formations in the territory of the Kalbajar District, servicemen of Military Unit No. 072 Private Farid Latifov and Private Tural Magerramov were killed, while he, Major Tofiq Abyshov, Warrant Officer Anar Nabiev and several other servicemen sustained injuries of varying severity.

Volume 330, case file sheets 153-156

According to forensic medical expert opinion No. 941 dated 26.04.2024, it was established that the bodily injuries sustained by Musaev Mardan Urfat oglu — blast trauma and chronic right-sided hearing loss — arise as a result of the impact of a primary or secondary fragment from the explosion of any explosive substance and, in terms of severity, usually constitute minor harm to health.

Volume 327, case file sheets 1-253

Questioned as a victim, the commander of Military Unit No. 072 of the Ministry of Defence, Colonel Musaev Mardan Ulfat oglu, stated in his testimony that on 13.09.2022 at approximately 16:00-17:00, while large-scale provocative actions by Armenian armed formations were being prevented, as a result of the explosion of a mortar shell fired by Armenian armed formations in the territory of the Kalbajar District, servicemen of Military Unit No. 072 Private Farid Latifov and Private Tural

[Page 663]

Magerramov were killed, while he, Major Tofiq Abyshov, Warrant Officer Anar Nabiev and several other servicemen sustained injuries of varying severity.

Volume 331, case file sheets 152-156

According to forensic medical expert opinion No. 936 dated 26.04.2024, it was established that the bodily injuries sustained by Mammadov Vugar Zahid oglu — a closed craniocerebral injury and post-concussion vegetative-vascular instability caused by the impact of a blast

wave formed during the explosion of any explosive substance — in terms of severity, as a rule, constitute minor harm to health.

Volume 327, case file sheets 1-253

Questioned as a victim, the commander of the “Dzh” detachment of the 072nd Military Unit of the Ministry of Defence, Major Mammadov Vugar Zahid oglu, stated in his testimony that on 13.09.2022 at approximately 16:00, while large-scale provocative actions by Armenian armed formations were being prevented, as a result of the explosion of a mortar shell fired by Armenian armed formations in the territory of the Kalbajar District, servicemen of Military Unit No. 072 Private Huseynaga Nabiev and Private Farid Latifov were killed, while he, Lieutenant Ismayil Binnetov, Senior Lieutenant Khagani Abdulkerimov and several other servicemen sustained injuries of varying severity.

Volume 333, case file sheets 37-40

According to forensic medical expert opinion No. 945 dated 26.04.2024, it was established that the bodily injuries sustained by Bakhshaliev Nizami Fuzuli oglu — blast trauma, a closed craniocerebral injury and a condition after contusion — are a condition arising as a result of the impact of a primary or secondary fragment, including a blast wave formed by a shot from a firearm, as well as during the explosion of any explosive substance, and are classified as minor or moderate harm to health.

Volume 327, case file sheets 1-253

Questioned as a victim, the senior assistant for operational training to the head of the operational and combat training department of Military Unit No. 072 of the Ministry of Defence, Major Bakhshaliev Nizami Fuzuli oglu, stated in his testimony that on 13.09.2022 at approximately 21:00, while large-scale provocative actions by Armenian armed formations were being prevented, as a result of the explosion of a mortar shell fired by Armenian armed formations in the territory of the Kalbajar District, servicemen of Military Unit No. 072 Gadim Khalilov and Umid Imamgulyev were killed, while he, Captain Jeyhun Khankishiev, Major Vugar Mammadov and several other servicemen sustained injuries of varying severity.

Volume 333, case file sheets 17-20

According to forensic medical expert opinion No. 907 dated 26.04.2024, it was established that the bodily injuries sustained by Abyshov Tofig Yavar oglu — a closed craniocerebral injury and concussion — were formed as a result of the explosion of some explosive substance or a secondary shrapnel wound, which, depending on degree, are regarded as causing minor harm to health.

Volume 327, case file sheets 1-253

Questioned as a victim, the head of the communications department of the 072nd Military Unit of the Ministry of Defence, Major Abyshov Tofig Yavar oglu, stated in his testimony that on 14.09.2022 at approximately 02:00-03:00, while large-scale provocative actions by Armenian armed formations were being prevented, as a result of the explosion of a mortar

shell fired by Armenian armed formations in the territory of the Kalbajar District, servicemen of Military Unit No. 072 Private Huseynaga Nabiev and Private Farid

[Page 664]

Latifov were killed, while he, Captain Bakhtiyar Salmaov, Lieutenant Colonel Rashad Mammadov and several other servicemen of Military Unit No. 072 sustained injuries of varying severity.

Volume 331, case file sheets 182-185

According to forensic medical expert opinion No. 957 dated 26.04.2024, it was established that the bodily injuries sustained by Gurbanov Elman Khanlar oglu — blast trauma. A closed craniocerebral injury — a condition after concussion caused by the impact of a blast wave resulting from the explosion of any explosive substance — are classified as minor or moderate harm to health.

Volume 327, case file sheets 1-253

According to forensic medical expert opinion No. 927 dated 26.04.2024, it was established that the bodily injuries sustained by Aliyev Anar Zakir oglu — a closed craniocerebral injury, vegetative-vascular instability after concussion and astheno-neurotic manifestations caused by the impact of primary or secondary fragments formed as a result of the explosion of any explosive substance — in terms of severity constitute minor harm to health.

Volume 327, case file sheets 1-253

Questioned as a victim, the head of the personnel accounting department of the 072nd Military Unit of the Ministry of Defence, Captain 3rd Rank Aliyev Anar Zakir oglu, stated in his testimony that on 14.09.2022 at approximately 02:00-03:00, while large-scale provocative actions by Armenian armed formations were being prevented, as a result of the explosion of a mortar shell fired by Armenian armed formations in the territory of the Kalbajar District, servicemen of Military Unit No. 073 Private Tural Magerramov and Private Farid Latifov were killed, while he, Lieutenant Colonel Anar Ahmedli, Major Bakhrus Abdurahmanov and several other servicemen of Military Unit No. 073 sustained injuries of varying severity.

Volume 331, case file sheets 162-165

According to forensic medical expert opinion No. 995 dated 26.04.2024, it was established that the bodily injuries sustained by Khankishiev Jeyhun Khansuvar oglu — blast trauma, a closed craniocerebral injury and post-concussion vegetative-vascular instability — arise as a result of the impact of a blast wave caused by the explosion of any explosive substance and, in terms of severity, constitute minor harm to health.

Volume 327, case file sheets 1-253

Questioned as a victim, the acting chief of staff of the “Dzh” detachment of Military Unit No. 072 of the Ministry of Defence, Captain Khankishiev Jeyhun Khansuvar oglu, stated in his testimony that on 14.09.2022 at approximately 06:00-07:00, while large-scale provocative

actions by Armenian armed formations were being prevented, as a result of the explosion of a mortar shell fired by Armenian armed formations in the territory of the Kalbajar District, servicemen of Military Unit No. 072 Private Huseynaga Nabiev and Private Farid Latifov were killed, while he, Senior Lieutenant Murad Gumbatov, Senior Lieutenant Samed Samedli and several other servicemen of Military Unit No. 072 sustained injuries of varying severity.

Volume 333, case file sheets 67-70

On the basis of forensic medical expert opinion No. 958 dated 26.04.2024, it was established that the bodily injuries sustained by Salmanov Bakhtiyar Gardashkhan oglu — blast trauma. A closed craniocerebral injury — a condition after concussion caused by the impact of a blast wave resulting from the explosion of any explosive substance — are classified as minor or moderate harm to health.

Volume 327, case file sheets 1-253

[Page 665]

Questioned as a victim, the senior radio communications assistant to the head of communications of Military Unit No. 072 of the Ministry of Defence, Captain Salmanov Bakhtiyar Gardashkhan oglu, stated in his testimony that on 13.09.2022 at approximately 18:00-19:00, while large-scale provocative actions by Armenian armed formations were being prevented, as a result of the explosion of a mortar shell fired by Armenian armed formations in the territory of the Kalbajar District, servicemen of Military Unit No. 072 Private Tural Magerramov and Private Elmir Huseynov were killed, while he, Captain Jeyhun Khankishiev, Major Tofiq Abyshov and several other servicemen of Military Unit No. 072 sustained injuries of varying severity.

Volume 333, case file sheets 27-30

According to forensic medical expert opinion No. 962 dated 26.04.2024, it was established that the bodily injuries sustained by Shukurov Sokhbat Ilgar oglu — blast trauma, a closed craniocerebral injury and acute cochlear neuritis — arise as a result of the impact of a blast wave formed by a shot from a firearm, as well as during the explosion of any explosive substance, and, depending on the degree of severity, constitute minor harm to health.

Volume 327, case file sheets 1-253

Questioned as a victim, the head of the service for rocket and artillery armament of the materiel and technical support unit of Military Unit No. 072 of the Ministry of Defence, Senior Lieutenant Shukurov Sokhbat Ilgar oglu, stated in his testimony that on 14.09.2022 at approximately 13:00-14:00, while large-scale provocative actions by Armenian armed formations were being prevented, as a result of the explosion of a mortar shell fired by Armenian armed formations in the territory of the Kalbajar District, servicemen of Military Unit No. 072 Private Tural Magerramov were killed, while he, Warrant Officer Alihuseyn Shakhbazov, Warrant Officer Ulvi Musaev and several other servicemen of Military Unit No. 072 sustained injuries of varying severity.

Volume 333, case file sheets 97-100

According to forensic medical expert opinion No. 13 dated 26.04.2024, it was established that the bodily injuries sustained by Guliyev Ramil Fazil oglu — on 07.10.2022 the Military Medical Commission of the Central Military Polyclinic of the Ministry of Defence confirmed the diagnosis “Blast trauma. Closed craniocerebral injury, condition after concussion. Barotrauma. Bilateral acute cochlear neuritis”. These injuries were caused by blast trauma and, depending on their severity, are regarded as minor injuries to health.

Volume 327, case file sheets 1-253

Questioned as a victim, an investigator of the 075th Military Unit of the Ministry of Defence, Captain of Justice Guliyev Ramil Fazil oglu, stated in his testimony that on 13.09.2022 at approximately 14:00-15:00, while large-scale provocative actions by Armenian armed formations were being prevented, as a result of the explosion of a mortar shell fired by Armenian armed formations in the territory of the Kalbajar District, servicemen of Military Unit No. 072 Gadim Khalilov and Umid Imamgulyev were killed, while he, Captain Jeyhun Shekarov, Major Vugar Mammadov and several other servicemen of Military Unit No. 072 sustained injuries of varying severity.

Volume 347, case file sheets 27-31

According to forensic medical expert opinion No. 938 dated 26.04.2024, it was established that the bodily injuries sustained by Mammadov Aliyar Zamir oglu — blast trauma, a closed craniocerebral injury and post-concussion vegetative-vascular instability — arise as a result of the impact of a blast wave caused by the explosion of any explosive substance and, in terms of severity, constitute minor harm to health.

Volume 327, case file sheets 1-253**[Page 666]**

Questioned as a victim, the deputy platoon commander of the “D” platoon of the “Dzh” unit of Military Unit No. 072 of the Ministry of Defence, Lieutenant Mammadov Aliyar Zamir oglu, stated in his testimony that on 13.09.2022 at approximately 11:00-12:00, while large-scale provocative actions by Armenian armed formations were being prevented, as a result of the explosion of a mortar shell fired by Armenian armed formations in the territory of the Kalbajar District, servicemen of Military Unit No. 072 Junior Sergeant Huseynali Nabiev, Private Tural Magerramov and Private Farid Latifov were killed, while he, Ibarat Gasimov, Junior Sergeant Khazri Ahmedov and several other servicemen of Military Unit No. 072 sustained injuries of varying severity.

Volume 331, case file sheets 242-245

According to forensic medical expert opinion No. 952 dated 26.04.2024, it was established that the bodily injuries sustained by Aliyev Sanan Tahir oglu were caused by the impact of a blast wave arising from the explosion of an explosive substance and, in terms of their severity, constitute minor harm to health.

Volume 327, case file sheets 1-253

Questioned as a victim, the commander of the 5th platoon of the 1st detachment of the 072nd Military Unit of the Ministry of Defence, military rank Lieutenant, Lieutenant Aliyev Sanan Tahir oglu, stated in his testimony that on 13.09.2022 at approximately 12:00, while large-scale provocative actions by Armenian armed formations were being prevented, as a result of the explosion of a mortar shell fired by Armenian armed formations in the territory of the Kalbajar District, servicemen of Military Unit No. 072, whose names he does not remember, were killed, while he and several other servicemen of Military Unit No. 072, whose names he does not remember, sustained various types of bodily injuries.

Volume 330, case file sheets 59-62

On the basis of forensic medical expert opinion No. 977 dated 26.04.2024, it was established that the bodily injuries sustained by Balakishiev Agshin Hakim oglu — astheno-neurotic manifestations after a closed craniocerebral injury and concussion. A closed craniocerebral injury and vegetative-vascular instability after concussion caused by the impact of a blast wave formed during the explosion of any explosive substance — fall within the category of minor bodily injuries.

Questioned as a victim, the head of the medical unit of the 072nd Military Unit of the Ministry of Defence, Lieutenant of the Medical Service Balakishiev Akshin Hakim oglu, stated in his testimony that on 13.09.2022 at approximately 11:00-12:00, while large-scale provocative actions by Armenian armed formations were being prevented, as a result of the explosion of a mortar shell fired by Armenian armed formations in the territory of the Kalbajar District, servicemen of Military Unit No. 072 Private Tural Magerramov and Private Farid Latifov were killed, while at the same time he, Private Ibarat Gasimov, Captain Jeyhun Khankishiev and several other servicemen of Military Unit No. 072, whose names he does not remember, sustained various types of bodily injuries.

Volume 333, case file sheets 47-50

According to forensic medical expert opinion No. 993 dated 26.04.2024, it was established that the bodily injuries sustained by Yusupov Vasif Akif oglu — blast trauma, a closed craniocerebral injury and post-concussion vegetative-vascular instability — arise as a result of the impact of a blast wave caused by the explosion of any explosive substance and, in terms of severity, as a rule, constitute minor injuries to health.

Questioned as a victim, the head of the communications section of the 1st detachment of Military Unit No. 072 of the Ministry of Defence, military rank — Warrant Officer,

[Page 667]

Warrant Officer Yusupov Vasif Akif oglu, stated in his testimony that on 13.09.2022 at approximately 14:00, while large-scale provocative actions by Armenian armed formations were being prevented, as a result of the explosion of a mortar shell fired by Armenian armed formations in the territory of the Kalbajar District, servicemen of Military Unit No. 072, whose names he does not remember, were killed, while at the same time he and several other

servicemen of Military Unit No. 072, whose names he does not remember, sustained various types of bodily injuries.

Volume 329, case file sheets 51-54

According to forensic medical expert opinion No. 944 dated 26.04.2024, it was established that the bodily injuries sustained by Gasimov Rahman Alijan oglu — blast trauma, a closed craniocerebral injury and post-concussion vegetative-vascular instability — arise as a result of the impact of a blast wave caused by the explosion of any explosive substance and, in terms of severity, constitute minor harm to health.

Volume 327, case file sheets 1-253

Questioned as a victim, the head of the medical unit of the “Dzh” detachment of the 072nd Military Unit of the Ministry of Defence, Warrant Officer Gasimov Rahman Alijan oglu, stated in his testimony that on 13.09.2022 at approximately 18:00-19:00, while large-scale provocative actions by Armenian armed formations were being prevented, as a result of the explosion of a mortar shell fired by Armenian armed formations in the territory of the Kalbajar District, servicemen of Military Unit No. 072 Private Elmir Huseynov, Private Huseynaga Nabiev, Private Tural Magerramov and Private Farid Latifov were killed, while at the same time he, Private Ibarat Gasimov, Junior Sergeant Khazri Ahmedov and several other servicemen of Military Unit No. 072, whose names he does not remember, sustained various types of bodily injuries.

Volume 331, case file sheets 232-235

According to forensic medical expert opinion No. 942 dated 26.04.2024, it was established that the bodily injuries sustained by Garibov Gasim Suleyman oglu — a closed craniocerebral injury and vegetative-vascular instability after concussion — in general constitute minor harm to health, determined by the degree of the injury caused by the impact of a blast wave from the explosion of any explosive substance.

Volume 327, case file sheets 1-253

Questioned as a victim, a senior sergeant of the “Dzh” platoon of Military Unit No. 072 of the Ministry of Defence, Warrant Officer Garibov Gasim Suleyman oglu, stated in his testimony that on 13.09.2022 at approximately 14:00-15:00, while large-scale provocative actions by Armenian armed formations were being prevented, as a result of the explosion of a mortar shell fired by Armenian armed formations in the territory of the Kalbajar District, servicemen of Military Unit No. 072 Private Huseynali Nabiev, Private Tural Magerramov and Private Farid Latifov were killed, while at the same time he, Warrant Officer Rahman Gasimov, Senior Lieutenant Khagani Abdulkirimov and several other servicemen of Military Unit No. 072, whose names he does not remember, sustained various types of bodily injuries.

Volume 333, case file sheets 57-60

On the basis of forensic medical expert opinion No. 1017 dated 26.04.2024, it was established that the bodily injuries sustained by Nabiev Anar Aydin oglu — vegetative-

vascular instability after a closed craniocerebral injury and concussion. Laparotomy-cholecystectomy performed in connection with a firearm wound, a blind bullet wound of the anterior abdominal wall penetrating into the abdominal cavity, a hardened skin scar after suturing of intestinal wounds, removal of a foreign body (bullet) from the abdominal cavity, as a result of

[Page 668]

a firearm wound, as well as the impact of a blast wave caused by the explosion of any explosive substance — are classified, by their degree, as causing serious harm to health.

Volume 327, case file sheets 1-253

Questioned as a victim, an operator of the personnel accounting department of the 072nd Military Unit of the Ministry of Defence, Warrant Officer Nabiev Anar Aydin oglu, stated in his testimony that on 13.09.2022 at approximately 16:00-17:00, while large-scale provocative actions by Armenian armed formations were being prevented, as a result of shelling opened by Armenian armed formations in the territory of the Kalbajar District, servicemen of Military Unit No. 072 — Private Huseynaga Nabiev and Private Tural Magerramov, Private Farid Latifov — were killed, while at the same time he, Captain Asim Mikayilli, Major Anar Aliyev and several other servicemen of Military Unit No. 072, whose names he does not remember, sustained various types of bodily injuries.

Volume 331, case file sheets 192-195

On the basis of forensic medical expert opinion No. 842 dated 26.04.2024, it was established that the bodily injuries sustained by Musaev Ulvin Khudayar oglu — blast trauma, a closed craniocerebral injury, post-concussion vegetative-vascular instability. Barotrauma, right-sided acute cochlear neuritis. Right-sided sensorineural hearing loss with the ability to hear whispered speech at a distance of 5 metres with the right ear and 6 metres with the left ear — arise as a result of the impact of a blast wave formed during the explosion of any explosive substance and, in terms of degree, are usually considered to cause minor harm to health.

Volume 327, case file sheets 1-253

Questioned as a victim, the head of the secret section of the 072nd Military Unit of the Ministry of Defence, Warrant Officer Musaev Ulvin Khudayar oglu, stated in his testimony that on 14.09.2022 at approximately 15:00-16:00, while large-scale provocative actions by Armenian armed formations were being prevented, as a result of the explosion of a mortar shell fired by Armenian armed formations in the territory of the Kalbajar District, servicemen of Military Unit No. 072 — Private Tural Magerramov and Private Farid Latifov — were killed, while at the same time he, Captain Bakhtiyar Salmanov, Captain Asim Mikayilli and several other servicemen of Military Unit No. 072, whose names he does not remember, sustained various types of bodily injuries.

Volume 333, case file sheets 77-80

On the basis of forensic medical expert opinion No. 954 dated 26.04.2024, it was established that the bodily injuries sustained by Talibly Javidan Alizamin oglu — blast trauma. A closed craniocerebral injury — a condition after concussion caused by the impact of a blast wave resulting from the explosion of any explosive substance — are classified as minor or moderate harm to health.

Volume 327, case file sheets 1-253

Questioned as a victim, the head of the control and technical point of the 072nd Military Unit of the Ministry of Defence, Warrant Officer Talibly Javidan Alizaman oglu, stated in his testimony that on 13.09.2022 at approximately 16:00-17:00, while large-scale provocative actions by Armenian armed formations were being prevented, as a result of the explosion of a mortar shell fired by Armenian armed formations in the territory of the Kalbajar District, servicemen of Military Unit No. 072 — Private Huseynaga Nabiev and Private Farid Latifov — were killed, while at the same time he, Captain Asim Mikayilli, Warrant Officer Alihuseyn Shakhbazov and several other servicemen of Military Unit No. 072, whose names he does not remember, sustained various types of bodily injuries.

[Page 669]

Volume 331, case file sheets 252-255

According to forensic medical expert opinion No. 998 dated 26.04.2024, it was established that the bodily injuries sustained by Shakhbazov Alihuseyn Igbal oglu — blast trauma, a closed craniocerebral injury and post-concussion vegetative-vascular instability — arise as a result of the impact of a blast wave caused by the explosion of any explosive substance and, in terms of severity, constitute minor harm to health.

Volume 327, case file sheets 1-253

Questioned as a victim, the head of the personnel department of the personnel accounting section of Military Unit No. 072 of the Ministry of Defence, Warrant Officer Shakhbazov Alihuseyn Igbal oglu, stated in his testimony that on 14.09.2022 at approximately 15:00-16:00, while large-scale provocative actions by Armenian armed formations were being prevented, as a result of the explosion of a mortar shell fired by Armenian armed formations in the territory of the Kalbajar District, servicemen of Military Unit No. 072 — Private Farid Latifov, Private Huseynaga Nabiev and Private Tural Magerramov — were killed, while at the same time he, Major Anar Aliyev, Warrant Officer Javidan Talibly and several other servicemen of Military Unit No. 072, whose names he does not remember, sustained various types of bodily injuries.

Volume 333, case file sheets 87-90

On the basis of forensic medical expert opinion No. 948 dated 26.04.2024, it was established that the bodily injuries sustained by Sayilly Huseynbala Yildirim oglu — blast trauma. A closed craniocerebral injury — a condition after concussion caused by the impact of a blast wave resulting from the explosion of any explosive substance — are classified as minor or moderate harm to health.

Volume 327, case file sheets 1-253

Questioned as a victim, the commander of the engineer-reconnaissance detachment of the “Dzh” unit of the 072nd Military Unit of the Ministry of Defence, Senior Sergeant Sayilly Khoseynbaba Yildirim oglu, stated in his testimony that on 13.09.2022 at approximately 14:00-15:00, while large-scale provocative actions by Armenian armed formations were being prevented, as a result of the explosion of a mortar shell fired by Armenian armed formations in the territory of the Kalbajar District, servicemen of Military Unit No. 072 — Umud Imamgulyev, Private Farid Latifov, Private Huseynaga Nabiev and Private Tural Magerramov — were killed, while at the same time he, Private Ibarat Gasimov, Private Elmin Babaev and several other servicemen of Military Unit No. 072, whose names he does not remember, sustained various types of bodily injuries.

Volume 331, case file sheets 212-215

On the basis of forensic medical expert opinion No. 1004 dated 26.04.2024, it was established that the bodily injuries sustained by Gurbanov Gurban Shafi oglu — asthenoneurotic manifestations after a closed craniocerebral injury and concussion. Blast trauma, a closed craniocerebral injury and post-concussion vegetative-vascular instability — arise as a result of the impact of a blast wave caused by the explosion of any explosive substance and, by their degree, as a rule, constitute minor harm to health.

Questioned as a victim, the commander of the fire-support section of Group “B” of the “Dzh” detachment of Military Unit No. 072 of the Ministry of Defence, Junior Lieutenant Gurbanov Gurban Shafi oglu, stated in his testimony that on 13.09.2022 at approximately 14:00-15:00, while large-scale provocative actions by Armenian armed formations were being prevented, as a result of the explosion of a mortar shell fired by Armenian armed formations in the territory of the Kalbajar District, servicemen of Military

[Page 670]

Unit No. 072 — Private Huseynaga Nabiev and Private Tural Magerramov — were killed, while at the same time he, Junior Sergeant Khazri Akhmadov, Warrant Officer Rahman Gasimov and several other servicemen of Military Unit No. 072, whose names he does not remember, sustained various types of bodily injuries.

Volume 333, case file sheets 117-120

On the basis of forensic medical expert opinion No. 947 dated 26.04.2024, it was established that the bodily injuries sustained by Garazade Ali Ramil oglu — blast trauma. A closed craniocerebral injury — concussion caused by the impact of a blast wave resulting from the explosion of any explosive substance — are classified as minor or moderate harm to health.

Volume 334, case file sheets 1-246

Questioned as a victim, the commander of the fire-support section of Platoon “S” of Unit “J” of the 072nd Military Unit of the Ministry of Defence, Junior Sergeant Garazade Ali Ramil oglu, stated in his testimony that on 13.09.2022 at approximately 11:00-12:00, while large-

scale provocative actions by Armenian armed formations were being prevented, as a result of the explosion of a mortar shell fired by Armenian armed formations in the territory of the Kalbajar District, servicemen of Military Unit No. 072 — Umud Imamgulyev, Private Farid Latifov, Private Huseynaga Nabiev and Private Turan Magerramov — were killed, while at the same time he, Private Zeynal Imanov, Private Javanshir Sultanov and several other servicemen of Military Unit No. 072, whose names he does not remember, sustained various types of bodily injuries.

Volume 331, case file sheets 202-205

According to forensic medical expert opinion No. 852 dated 26.04.2024, it was established that the bodily injuries sustained by Ahmedov Khazri Vagif oglu — blast trauma, a closed craniocerebral injury and post-concussion vegetative-vascular instability — arise as a result of the impact of a blast wave formed during the explosion of any explosive substance and constitute minor harm to health.

Volume 334, case file sheets 1-246

Questioned as a victim, the commander of the 2nd section of Group “D” of the “Dzh” detachment of the 072nd Military Unit of the Ministry of Defence, Junior Sergeant Akhmadov Khazri Vagif oglu, stated in his testimony that on 13.09.2022 at approximately 13:00-14:00, while large-scale provocative actions by Armenian armed formations were being prevented, as a result of the explosion of a mortar shell fired by Armenian armed formations in the territory of the Kalbajar District, servicemen of Military Unit No. 072 — Private Huseynaga Nabiev and Private Turan Magerramov — were killed, while at the same time he, Junior Sergeant Gurban Gurbanov, Sergeant Rahman Gasimov and several other servicemen of Military Unit No. 072, whose names he does not remember, sustained various types of bodily injuries.

Volume 333, case file sheets 107-110

On the basis of forensic medical expert opinion No. 950 dated 26.04.2024, it was established that the bodily injuries sustained by Kesemenli Magsud Shahin oglu — blast trauma. A closed craniocerebral injury — a condition after concussion caused by the impact of a blast wave resulting from the explosion of any explosive substance — are classified as minor or moderate harm to health.

Volume 334, case file sheets 1-246

Questioned as a victim, a former active serviceman of the 072nd Military Unit of the Ministry of Defence who had completed his term of service, Junior Sergeant Kesemenli Magsud Shahin oglu, stated in his testimony that on 12.09.2022 at approximately 01:00, while large-scale

[Page 671]

provocative actions by Armenian armed formations were being prevented, as a result of the explosion of an artillery shell fired by Armenian armed formations in the territory of the

Kalbajar District, servicemen of Military Unit No. 072, Umid Imamguliyev, were killed, and at the same time he and several other servicemen of Military Unit No. 072, whose names he does not remember, sustained various types of bodily injuries.

Volume 331, case file sheets 142-145

On the basis of forensic medical expert opinion No. 2292 dated 12.12.2023, it was established that the bodily injuries sustained by Karimov Anar Mehman oglu — a closed craniocerebral injury accompanied by concussion — constitute minor harm to health.

Volume 89, case file sheet 92

Questioned as a victim, the commander of a group of the 1st battalion of Military Unit No. 072 of the Ministry of Defence, Private Karimov Anar Mehman oglu, stated in his testimony that on 13.09.2022 at approximately 13:00, while large-scale provocative actions by Armenian armed formations were being prevented, as a result of the explosion of a mortar shell fired by Armenian armed formations in the territory of the Kalbajar District, servicemen of Military Unit No. 072, whose names he does not remember, were killed, while at the same time he and several other servicemen of Military Unit No. 072, whose names he does not remember, sustained various types of bodily injuries.

Volume 88, case file sheets 13-14, 18-20

On the basis of forensic medical expert opinion No. 982 dated 26.04.2024, it was established that the bodily injuries sustained by Ibrahimov Ahmed Akif oglu — rough skin scars after shrapnel wounds of the lower third of the right thigh and the upper third of the left shin, foreign bodies in the soft tissues (metal fragments) — result from the impact of primary or secondary fragments caused by the explosion of any explosive substance and, as a rule, cause minor harm to health by reason of their degree.

Volume 334, case file sheets 1-246

Volume 89, case file sheet 92

Questioned as a victim, a mortar operator of the 4th platoon of Platoon “A” of Unit “R” of Military Unit No. 073 of the Ministry of Defence, Private Ibrahimov Ahmed Akif oglu, stated in his testimony that during the night of 13.09.2022, while large-scale provocative actions by Armenian armed formations were being prevented, as a result of the explosion of an artillery shell fired by Armenian armed formations in the territory of the Kalbajar District, servicemen of Military Unit No. 073, whose names he does not remember, were killed, while at the same time he and several other servicemen of Military Unit No. 073, whose names he does not remember, sustained various types of bodily injuries.

Volume 192, case file sheets 111-116

Volume 344, case file sheets 153-155

On the basis of forensic medical expert opinion No. 849 dated 26.04.2024, it was established that the bodily injuries sustained by Abdullaev Akif Davud oglu — S84.7. A firearm wound, post-traumatic neuropathy of the left common peroneal and tibial nerves with residual effects

manifested by sensorimotor disorders and distal paresis of the limb, with mild impairment of limb function. Primary surgical treatment of firearm wounds and wound defects of the soft tissues of the left lower extremity, secondary surgical treatment of wounds, a skin scar after autodermplasty — arise as a result of the impact of primary or secondary fragments formed as a result of the explosion of any explosive substance and, depending on degree, fall within the category of less serious harm to health.

[Page 672]

Volume 334, case file sheets 1-246

Questioned as a victim, the former senior rifleman of the “Dzh” detachment of Military Unit No. 777 of the Ministry of Defence, Private Abdullaev Akif Davud oglu, stated in his testimony that on 13.09.2022, while large-scale provocative actions by Armenian armed formations were being prevented, as a result of shelling opened by Armenian armed formations in the territory of the Kalbajar District, servicemen of Military Unit No. 072, whose names he does not remember, were killed, while at the same time he and several other servicemen of Military Unit No. 072, whose names he does not remember, sustained various types of bodily injuries.

Volume 45, case file sheets 49-53

According to forensic medical expert opinion No. 585 dated 26.09.2023, it was established that the bodily injuries sustained by Abdullaev Samir Aladdin oglu — blast trauma, blind shrapnel wounds of both eyeballs, traumatic cataract, visual acuity of the right eye 0.01, visual acuity of the left eye 0.5 — caused minor harm to health.

Volume 80, case file sheet 38

Questioned as a victim, a serviceman of Military Unit No. 777 of the Ministry of Defence undergoing active military service, Private Abdullaev Samir Aladdin oglu, stated in his testimony that on 12.09.2022 at approximately 23:00, while large-scale provocative actions by Armenian armed formations were being prevented, as a result of the explosion of a grenade thrown by Armenian armed formations in the territory of the Kalbajar District, a serviceman of Military Unit No. 052, Samedov Elvin Mirzali oglu, was killed, while at the same time he, Guliyev Murad and several other servicemen of Military Unit No. 052, whose names he does not remember, sustained various types of bodily injuries.

Volume 80, case file sheets 23-25, 30-34

On the basis of forensic medical expert opinion No. 544 dated 25.09.2023, it was established that the bodily injuries sustained by Agakerimov Seymur Narbala oglu — foreign bodies (fragments) between the soft tissues of the left arm and the right shin, and scar tissue formed after multiple puncture wounds on the lower part of the posterior surface of the left arm near the elbow, the upper anterior part and middle anterior part of the left shin, and the lower inner third of the right shin — constitute minor injury to health.

Volume 80, case file sheets 156-158

Questioned as a victim, a member of the rifle detachment of Military Unit No. 073 of the Ministry of Defence, Private Agakerimov Seymur Narbala oglu, stated in his testimony that on 14.09.2022, while large-scale provocative actions by Armenian armed formations were being prevented, as a result of the explosion of a mortar shell fired by Armenian armed formations in the territory of the Kalbajar District, servicemen of Military Unit No. 073 were killed, while at the same time he and several other servicemen of Military Unit No. 073, whose names he does not remember, sustained various types of bodily injuries.

Volume 80, case file sheets 150-153

On the basis of forensic medical expert opinion No. 2293 dated 12.12.2023, it was established that the bodily injuries sustained by Allakhmanov Ulvi Suleyman oglu — blunt shrapnel wounds of the soft tissues of the left thigh and right knee; multiple blunt injuries of the soft tissues of the left lower extremity resulting in myogenic-arthrogenic contracture of the knee joint; a closed craniocerebral injury accompanied by concussion, resulting in vegetative-vascular instability and barotrauma of the right

[Page 673]

ear accompanied by right-sided chronic cochlear neuritis — in terms of severity constitute less serious harm to health.

Volume 88, case file sheets 168-169

Questioned as a victim, an officer of reconnaissance and medical service of the 1st battalion of Military Unit No. 073 of the Ministry of Defence, Private Allakhmanov Ulvi Suleyman oglu, stated in his testimony that on 13.09.2022 at approximately 01:00, while large-scale provocative actions by Armenian armed formations were being prevented, as a result of the explosion of a mortar shell fired by Armenian armed formations in the territory of the Kalbajar District, servicemen of Military Unit No. 172 were killed, while at the same time he and several other servicemen of Military Unit No. 172, whose names he does not remember, sustained various types of bodily injuries.

Volume 88, case file sheets 24-25, 29-31

On the basis of forensic medical expert opinion No. 2321 dated 18.12.2023, it was established that the bodily injuries sustained by Arzumanov Nariman Murad oglu — barotrauma of the right ear accompanied by right-sided acute cochlear neuritis and a closed craniocerebral injury accompanied by concussion — in terms of severity constitute minor harm to health.

Volume 67, case file sheets 130-131

Volume 91, case file sheets 130-131

Questioned as a victim, a sapper-scout of the 1st battalion of Military Unit No. 073 of the Ministry of Defence, Private Arzumanov Nariman Murad oglu, stated in his testimony that on 13.09.2022 at approximately 20:00, while large-scale provocative actions by Armenian armed formations were being prevented, as a result of the explosion of a mortar shell fired by

Armenian armed formations in the territory of the Kalbajar District, servicemen of Military Unit No. 172 were killed, while at the same time he and several other servicemen of Military Unit No. 172, whose names he does not remember, sustained various types of bodily injuries.

Volume 88, case file sheets 94-95, 99-101

According to forensic medical expert opinion No. 878 dated 26.04.2024, it was established that the bodily injuries sustained by Bayramov Firuddin Ibadat oglu — primary surgical treatment of wounds in connection with an open, comminuted, displaced fracture of the middle third of the diaphysis of the left tibia, repositioning of fragments by the G.A. Ilizarov method, secondary surgical treatment of wounds. Myogenic contracture of the talocrural joint, a fracture that failed to heal after removal of the Ilizarov apparatus. A simple liver cyst. Astheno-neurotic manifestations of somatogenic origin caused by a shot from a firearm — fall within the category of injuries causing serious harm to health.

Volume 334, case file sheets 1-246

Questioned as a victim, a communications officer of the postal section of the communications unit of the 073rd Military Unit of the Ministry of Defence, Private Bayramov Firuddin Ibadat oglu, stated in his testimony that during the night of 13.09.2022, while large-scale provocative actions by Armenian armed formations were being prevented, as a result of the explosion of a mortar shell fired by Armenian armed formations in the territory of the Kalbajar District, servicemen of Military Unit No. 073 were killed, while at the same time he and a serviceman of that military unit, Narmaddin Guliyev, sustained various types of bodily injuries.

Volume 343, case file sheets 6-8

On the basis of forensic medical expert opinion No. 11 dated 26.04.2024, it was established that the bodily injuries sustained by Jabbarov Tarlan Ismet oglu — on 14.09.2022 the Military Medical Commission of the Central

[Page 674]

Military Polyclinic of the Ministry of Defence confirmed the diagnosis “Penetrating firearm wound of the soft tissues of the left upper part of the back”. This injury was sustained as a result of a firearm wound and is classified as minor harm to health.

Volume 334, case file sheets 1-246

Questioned as a victim, the commander of the 1st platoon of the 3rd section of Detachment “M” of Military Unit No. 073 of the Ministry of Defence, Junior Sergeant Jabbarov Tarlan Ismet oglu, stated in his testimony that on 13.09.2022 at approximately 09:00, while large-scale provocative actions by Armenian armed formations were being prevented, as a result of shelling opened by Armenian armed formations in the territory of the Kalbajar District, servicemen of Military Unit No. 073 were killed, while at the same time he and several other servicemen of Military Unit No. 073, whose names he does not remember, sustained various types of bodily injuries.

Volume 191, case file sheets 15-20

Volume 289, case file sheets 225-228

Volume 343, case file sheets 26-28

On the basis of forensic medical expert opinion No. 347 dated 28.09.2023, it was established that the bodily injuries sustained by Aliyev Elnur Bayram oglu — a post-traumatic haematoma accompanied by a sprain of the ligaments of the right shin — are classified as a less serious danger to health due to the pronounced infiltrative-inflammatory changes.

Volume 45, case file sheets 161-165

Questioned as a victim, an assistant grenadier of Military Unit No. 073 of the Ministry of Defence, Private Aliyev Elnur Bayram oglu, stated in his testimony that on 14.09.2022 at approximately 18:00-19:00, while large-scale provocative actions by Armenian armed formations were being prevented, as a result of shelling opened by Armenian armed formations in the territory of the Kalbajar District, servicemen of Military Unit No. 073 were killed, while at the same time he and several other servicemen of Military Unit No. 073, whose names he does not remember, sustained various types of bodily injuries.

Volume 45, case file sheets 118-124

On the basis of forensic medical expert opinion No. 102 dated 21.12.2023, it was established that the bodily injuries sustained by Aliyev Mirad Elchin oglu — a closed craniocerebral injury, burns of the right paw, scar tissue on the right shin — in terms of severity constitute minor harm to health.

Volume 275, case file sheets 112-114

Questioned as a victim, a serviceman of Military Unit No. 073 of the Ministry of Defence, Private Aliyev Mirad Elchin oglu, stated in his testimony that on 13.09.2022 at approximately 18:00, while large-scale provocative actions by Armenian armed formations were being prevented, as a result of the explosion of a mortar shell fired by Armenian armed formations in the territory of the Kalbajar District, servicemen of Military Unit No. 073 were killed, while at the same time he and several other servicemen of Military Unit No. 073, whose names he does not remember, sustained various types of bodily injuries.

Volume 275, case file sheets 101-104

On the basis of forensic medical expert opinion No. 2311 dated 14.12.2023, it was established that the bodily injuries sustained by Askerov Farid Mehman oglu — a closed craniocerebral injury with a penetrating shrapnel wound of the soft tissues of the right shoulder and concussion; a blind injury of the soft tissues of the posterior surface of the lower third on the right side and

[Page 675]

a moderately (mildly) pronounced dissociative disorder of organic origin, concussion resulting in prolonged post-traumatic stress disorder, persistent vegetative-vascular instability,

chronic cephalalgic and insomniac syndrome, post-traumatic encephalopathy manifested by cognitive deficit — in terms of severity constitute less pronounced harm to health.

Volume 88, case file sheets 160-161

Questioned as a victim, the head of reconnaissance of the 4th battalion of Military Unit No. 073 of the Ministry of Defence, Warrant Officer Askerov Farid Mehman oglu, stated in his testimony that on 13.09.2022 at approximately 03:00, while large-scale provocative actions by Armenian armed formations were being prevented, as a result of the explosion of a mortar shell fired by Armenian armed formations in the territory of the Kalbajar District, servicemen of Military Unit No. 172 were killed, while at the same time he and several other servicemen of Military Unit No. 172, whose names he does not remember, sustained various types of bodily injuries.

Volume 88, case file sheets 60-61, 65-67

On the basis of forensic medical expert opinion No. 810 dated 12.10.2023, it was established that the bodily injuries sustained by Eyubov Vusal Amiraslan oglu — a blind firearm wound of the outer surface of the upper third of the left thigh — in terms of severity constitute less serious harm to health.

Volume 45, case file sheets 74-75

Questioned as a victim, a chemist in Military Unit No. 073 of the Ministry of Defence, Private Eyubov Vusal Amiraslan oglu, stated in his testimony that on 12.09.2022 at approximately 23:30, while large-scale provocative actions by Armenian armed formations were being prevented, as a result of shelling opened by Armenian armed formations in the territory of the Kalbajar District, servicemen of Military Unit No. 073 were killed, while at the same time he and several other servicemen of Military Unit No. 073, whose names he does not remember, sustained various types of bodily injuries.

Volume 45, case file sheets 66-70

On the basis of forensic medical expert opinion No. 1020 dated 26.04.2024, it was established that the bodily injuries sustained by Hamidli Sabir Samid oglu — a condition after primary surgical treatment of a laceration of the posterior surface of the left shin resulting from blast trauma — were caused by the impact of a blast wave caused by the explosion of any explosive substance and, in terms of degree, constitute minor harm to health.

Volume 334, case file sheets 1-246

Questioned as a victim, a former active serviceman of Military Unit No. 073 of the Ministry of Defence, Private Khamidli Sabir Samir oglu, stated in his testimony that on 12.09.2022 at approximately 01:00, while large-scale provocative actions by Armenian armed formations were being prevented, as a result of the explosion of an artillery shell fired by Armenian armed formations in the territory of the Kalbajar District, servicemen of Military Unit No. 073 — Private Namig Mammadli and Amil Gafarov — were killed, while at the same time he

and several other servicemen of Military Unit No. 073, whose names he does not remember, sustained various types of bodily injuries.

Volume 331, case file sheets 102-105

On the basis of forensic medical expert opinion No. 689 dated 12.10.2023, it was established that the bodily injuries sustained by Hamidzade Afik Shamyly oglu — fractures of the left fibula, the II metatarsal bone of the left

[Page 676]

foot and the proximal phalanx of the I toe of the left foot with displacement — in terms of severity constitute less serious harm to health.

Volume 77, case file sheets 110-112

Questioned as a victim, a rifleman of Military Unit No. 073 of the Ministry of Defence, Private Khamidzade Afig Shamil oglu, stated in his testimony that on 13.09.2022 at approximately 03:00, while large-scale provocative actions by Armenian armed formations were being prevented, as a result of the explosion of a mine laid by Armenian armed formations in the territory of the Kalbajar District, servicemen of Military Unit No. 073 — Polad Shirinov, Nijat Garazade and Private Royal Balashzade — were killed, while at the same time he, Elsavar Binnetov, Kenan Yoldashly and several other servicemen of Military Unit No. 073, whose names he does not remember, sustained various types of bodily injuries.

Volume 77, case file sheets 105-107

According to forensic medical expert opinion No. 899 dated 26.04.2024, it was established that the bodily injuries sustained by Gumbatov Rufat Bakhtiyar oglu — a closed craniocerebral injury resulting from blast trauma, a moderate (mild) organic dissociative disorder after concussion. Moderate (mild) prolonged post-traumatic stress disorder. A closed craniocerebral injury resulting from blast trauma and concussion, leading to the development of post-traumatic encephalopathy manifested by persistent vegetative-vascular instability and chronic cephalalgic and insomniac syndrome. Post-traumatic neuropathy of the right radial nerve resulting from blast trauma with residual effects leading to distal paresis of the limb, with mild functional impairment. As a result of blast trauma there was a penetrating shrapnel wound of the right side and a large defect of the soft tissues of the wound of the middle third of the right side, primary surgical treatment of wounds caused by open comminuted fractures with a defect of the bone tissue of the middle third of the diaphysis of the ulna, immobilisation of the right upper extremity with a plaster cast, primary surgical treatment of wounds, open repositioning of the indicated bones, removal of the external fixation apparatus due to non-union of fractures after osteosynthesis with an external fixation apparatus, ununited fractures after osteosynthesis with metal plates and screws, atrophy of the right lateral muscles, anatomical shortening of the right upper extremity by 3 cm, a removed structure, pronation-supination contracture of the radiocarpal and elbow joints — arise as a result of the impact of primary or secondary fragments, including a blast wave formed during

the explosion of any explosive substance and, in terms of degree and severity, are classified as causing less serious harm to health.

Volume 334, case file sheets 1-246

Questioned as a victim, the commander of the 1st platoon of the 2nd detachment of Military Unit No. 073 of the Ministry of Defence, Senior Lieutenant Gumbataliyev Rufat Bakhtiyar oglu, stated in his testimony that on 13.09.2022 at approximately 16:00, while large-scale provocative actions by Armenian armed formations were being prevented, as a result of the explosion of a mortar shell fired by Armenian armed formations in the territory of the Kalbajar District, servicemen of Military Unit No. 073, whose names he does not remember, were killed, while at the same time he and several other servicemen of Military Unit No. 073, whose names he does not remember, sustained various types of bodily injuries.

Volume 338, case file sheets 197-201

On the basis of forensic medical expert opinion No. 44 dated 26.04.2024, it was established that the bodily injuries sustained by Ismayilov Elman Abbas oglu — a closed craniocerebral injury and concussion, resulting in astheno-neurotic manifestations associated with injury from

[Page 677]

an explosion, a blunt injury of the left kneecap, acute right-sided cochlear neuritis following barotrauma — caused by the impact of a blast wave from a shot from a firearm, are usually classified as less serious harm to health in view of their severity.

Volume 334, case file sheets 1-246

Questioned as a victim, a scout of the 2nd group of Battalion N of Military Unit No. 073 of the Ministry of Defence, Senior Sergeant Ismayilov Elman Abbas oglu, stated in his testimony that on 13.09.2022 at approximately 02:00, while large-scale provocative actions by Armenian armed formations were being prevented, as a result of the explosion of a grenade thrown by Armenian armed formations in the territory of the Kalbajar District, servicemen of Military Unit No. 073, whose names he does not remember, were killed, while at the same time he and several other servicemen of Military Unit No. 073, whose names he does not remember, sustained various types of bodily injuries.

Volume 289, case file sheets 95-98

On the basis of forensic medical expert opinion No. 2310 dated 14.12.2023, it was established that the bodily injuries sustained by Kerimov Kamran Ruslan oglu — a blind bullet wound of the soft tissues of the left thigh — fall within the category of minor harm to health.

Volume 88, case file sheet 176

Questioned as a victim, a grenadier of the 1st section of the 4th platoon of Detachment “F” of Military Unit No. 073 of the Ministry of Defence, Private Kerimov Kamran Ruslan oglu,

stated in his testimony that on 13.09.2022 at approximately 09:00, while large-scale provocative actions by Armenian armed formations were being prevented, as a result of shelling opened by Armenian armed formations in the territory of the Kalbajar District, servicemen of Military Unit No. 769, whose names he does not remember, were killed, while at the same time he and several other servicemen of Military Unit No. 769, whose names he does not remember, sustained various types of bodily injuries.

Volume 189, case file sheets 230-235

According to forensic medical expert opinion No. 2394 dated 22.12.2023, it was established that the bodily injuries sustained by Mammadov Elgun Mahir oglu — a firearm wound of the left arm resulting in an open fracture of the left humerus and post-traumatic neuropathy of the left ulnar nerve — in terms of penetration constitute serious harm to health.

Volume 275, case file sheet 15

Questioned as a victim, a submachine-gunner/grenadier of the 3rd section of the 2nd platoon of Unit “M” of Military Unit No. 073 of the Ministry of Defence, Private Mammadov Elgun Mahir oglu, stated in his testimony that on 13.09.2022 at approximately 02:00, while large-scale provocative actions by Armenian armed formations were being prevented, as a result of shelling opened by Armenian armed formations in the territory of the Kalbajar District, servicemen of Military Unit No. 073, whose names he does not remember, were killed, while at the same time he and several other servicemen of Military Unit No. 073, whose names he does not remember, sustained various types of bodily injuries.

Volume 189, case file sheets 181-186

According to forensic medical expert opinion No. 536 dated 25.09.2023, it was established that the bodily injuries sustained by Mammadkhanov Ilgar Khanlar oglu — a firearm wound of the chest and left arm accompanied by injury to the left lung, left-sided pneumothorax and a comminuted fracture of ribs IV-VII on the left — fall within the category of injuries causing serious harm to health in terms of severity.

Volume 80, case file sheets 174-176

[Page 678]

Questioned as a victim, a rifleman of Military Unit No. 073 of the Ministry of Defence, Private Mammadkhanov Ilgar Khanlar oglu, stated in his testimony that on 14.09.2022, while large-scale provocative actions by Armenian armed formations were being prevented, as a result of shelling opened by Armenian armed formations in the territory of the Kalbajar District, servicemen of Military Unit No. 073, whose names he does not remember, were killed, while at the same time he, Lieutenant Huseyn Mammadov, Elgun Mammadov and several other servicemen of Military Unit No. 073, whose names he does not remember, sustained various types of bodily injuries.

Volume 80, case file sheets 168-171

According to forensic medical expert opinion No. 671 dated 03.10.2023, it was established that the bodily injuries sustained by Musaev Elshad Ajdar oglu — a closed craniocerebral injury caused by blast trauma, post-traumatic encephalopathy caused by concussion, a persistent vegetative state, cephalalgic and insomniac syndrome, barotrauma with left-sided chronic cochlear neuritis, left-sided sensorineural hearing loss, perception of whispered speech at a distance of 4 metres with the left ear and 6 metres with the right ear. Blast trauma, an elastic skin scar after a first-degree thermal flame burn of the right half of the face, chronic discogenic lumbar radiculitis, protrusion of the intervertebral disc L4-L5 at the remission stage, and myopia of the left eye — are considered serious health problems because of their degree.

Volume 80, case file sheets 74-76

Questioned as a victim, a section commander of Military Unit No. 073 of the Ministry of Defence, Junior Warrant Officer Musaev Elshad Ajdar oglu, stated in his testimony that on 12.09.2022, while large-scale provocative actions by Armenian armed formations were being prevented, as a result of shelling opened by Armenian armed formations in the territory of the Kalbajar District, servicemen of Military Unit No. 073, whose names he does not remember, were killed, while at the same time he and several other servicemen of Military Unit No. 073, whose names he does not remember, sustained various types of bodily injuries.

Volume 80, case file sheets 68-70

According to forensic medical expert opinion No. 2313 dated 15.12.2023, it was established that the bodily injuries sustained by Pashaev Alekper Zulfugar oglu — a closed craniocerebral injury accompanied by concussion, resulting in vegetative-vascular instability, crushing of the soft tissues of the lumbar region, abrasions of the right shin and right half of the abdomen — in terms of severity, as a rule, constitute minor harm to health.

Volume 88, case file sheets 172-173

Questioned as a victim, a rifleman of the 1st battalion of Military Unit No. 073 of the Ministry of Defence, Private Pashaev Alekper Zulfugar oglu, stated in his testimony that on 15.09.2022 at approximately 17:00, while large-scale provocative actions by Armenian armed formations were being prevented, as a result of the explosion of a mortar shell fired by Armenian armed formations in the territory of the Kalbajar District, servicemen of Military Unit No. 172, Private Mammadli Namig Agamammad and Private Gafarli Amil, were killed, while at the same time he, Ismayilov Nurlan Nadir oglu and several other servicemen of Military Unit No. 172, whose names he does not remember, sustained various types of bodily injuries.

Volume 88, case file sheets 49-50, 54-56

According to forensic medical expert opinion No. 1033 dated 26.04.2024, it was established that the bodily injuries sustained by Guliyev Narmaddin Azer oglu — a condition after primary treatment of wounds caused by a penetrating

firearm wound of the soft tissues of the left shoulder girdle — were caused by a shot from a firearm and, in terms of severity, constitute minor harm to health.

Volume 334, case file sheets 1-246

Questioned as a victim, the senior engineer of the 2nd group of the R-detachment of Military Unit No. 073 of the Ministry of Defence, Private Guliyev Narmaddin Azer oglu oglu, stated in his testimony that during the night of 13.09.2022, while large-scale provocative actions by Armenian armed formations were being prevented, as a result of the explosion of an artillery shell fired by Armenian armed formations in the territory of the Kalbajar District, servicemen of Military Unit No. 073, whose names he does not remember, were killed, while at the same time he and several other servicemen of Military Unit No. 073, whose names he does not remember, sustained various types of bodily injuries.

Volume 344, case file sheets 206-208

On the basis of forensic medical expert opinion No. 203 dated 29.09.2023, it was established that the bodily injuries sustained by Guliyev Shirkhan Ibrahim oglu — scar tissue on the posterior surface of the neck, left elbow bend and middle third of the left arm — constitute a less serious injury which, by its degree, entails a prolonged impairment of health.

Volume 80, case file sheets 112-114

Questioned as a victim, a scout-rifleman of Platoon “A” of Military Unit No. 073 of the Ministry of Defence, Private Guliyev Shirkhan Ibrahim oglu oglu, stated in his testimony that on 12.09.2022 at approximately 23:00, while large-scale provocative actions by Armenian armed formations were being prevented, as a result of the explosion of an artillery shell fired by Armenian armed formations in the territory of the Kalbajar District, servicemen of Military Unit No. 073, whose names he does not remember, were killed, while at the same time he and several other servicemen of Military Unit No. 073, whose names he does not remember, sustained various types of bodily injuries.

Volume 80, case file sheets 94-97, 105-108

On the basis of forensic medical expert opinion No. 1007 dated 26.04.2024, it was established that the bodily injuries sustained by Rahimov Ulvi Elshan oglu — a condition after surgical treatment of wounds caused by a penetrating firearm wound of the inner surface of the middle third of the right arm resulting from the impact of a bullet fired from a firearm — are generally classified as minor harm to health.

Volume 334, case file sheets 1-246

Questioned as a victim, a heavy-weapons specialist of Group “P” of Battalion “A” of Military Unit No. 082 of the Ministry of Defence, Private Rahimov Ulvi Elshan oglu, stated in his testimony that on 13.09.2022 at approximately 09:00-10:00, while large-scale provocative actions by Armenian armed formations were being prevented, as a result of shelling opened by Armenian armed formations in the territory of the Kalbajar District, servicemen of Military Unit No. 073 Private Nijat Garazade, Private Gadim Khalilov and Private Khagan

Gurbanov were killed, while at the same time he, Junior Sergeant Ibrahim Guliyev, Private Elsavar Binnetov and several other servicemen of Military Unit No. 073, whose names he does not remember, sustained various types of bodily injuries.

Volume 330, case file sheets 143-146

According to forensic medical expert opinion No. 1008 dated 26.04.2024, it was established that the bodily injuries sustained by Rustamov Ali Arif oglu — blast trauma, rough skin scars after a blind shrapnel wound of the right heel — were caused by the impact of a primary or secondary fragment

[Page 680]

formed during the explosion of any explosive substance and are usually classified as minor harm to health.

Volume 334, case file sheets 1-246

Questioned as a victim, a member of the mortar crew of the 4th platoon of the 4th platoon of Company “R” of Military Unit No. 073 of the Ministry of Defence, Private Rustamov Ali Arif oglu, stated in his testimony that during the night of 13.09.2022, while large-scale provocative actions by Armenian armed formations were being prevented, as a result of the explosion of an artillery shell fired by Armenian armed formations in the territory of the Kalbajar District, servicemen of Military Unit No. 073, whose names he does not remember, were killed, while at the same time he and several other servicemen of Military Unit No. 073, whose names he does not remember, sustained various types of bodily injuries.

Volume 334, case file sheets 216-218

On the basis of forensic medical expert opinion No. 1183 dated 26.04.2024, it was established that the bodily injuries sustained by Shakhverdiev Rahim Sadraddin oglu — barotrauma, a closed craniocerebral injury and concussion — arise as a result of the impact of primary or secondary fragments formed as a result of the explosion of any explosive substance and are classified as minor harm to health depending on the degree of severity.

Volume 334, case file sheets 1-246

Questioned as a victim, a medical scout of the 3rd group of Battalion “N” of Military Unit No. 073 of the Ministry of Defence, Senior Sergeant Shakhverdiev Rahim Sadraddin oglu, stated in his testimony that on 13.09.2022 at approximately 15:00, while large-scale provocative actions by Armenian armed formations were being prevented, as a result of the explosion of an artillery shell fired by Armenian armed formations in the territory of the Kalbajar District, servicemen of Military Unit No. 073, whose names he does not remember, were killed, while at the same time he and several other servicemen of Military Unit No. 073, whose names he does not remember, sustained various types of bodily injuries.

Volume 289, case file sheets 45-48

According to forensic medical expert opinion No. 966 dated 26.04.2024, it was established that the bodily injuries sustained by Salahov Mirhuseyn Feyzulla oglu — firearm bullet wounds penetrating the soft tissues of the left arm and elbow joint — arise as a result of the impact of a bullet fired from a firearm and fall within the category of less serious harm to health.

Volume 334, case file sheets 1-246

Questioned as a victim, the platoon commander of Battalion M of the 073rd brigade of the 052nd Military Unit of the Ministry of Defence, Warrant Officer Salahov Mirhuseyn Feyzulla oglu, stated in his testimony that on 13.09.2022 at approximately 01:00, while large-scale provocative actions by Armenian armed formations were being prevented, as a result of the explosion of an artillery shell fired by Armenian armed formations in the territory of the Kalbajar District, servicemen of Military Unit No. 052, whose names he does not remember, were killed, while at the same time he, Lieutenant Huseyn Mammadov and several other servicemen of Military Unit No. 052, whose names he does not remember, sustained various types of bodily injuries.

Volume 189, case file sheets 94-98

According to forensic medical expert opinion No. 1184 dated 26.04.2024, it was established that the bodily injuries sustained by Shikhiev Elnur Ali oglu — a closed craniocerebral injury and concussion — arise as a result of the impact of primary or secondary fragments resulting from the explosion of any explosive substance and are classified as minor or moderate harm to health.

[Page 681]

Volume 334, case file sheets 1-246

Questioned as a victim, the medical driver of the medical aid post of Detachment “M” of Military Unit No. 073 of the Ministry of Defence, Private Shikhiev Elnur Ali oglu, stated in his testimony that on 13.09.2022 at approximately 08:00, while large-scale provocative actions by Armenian armed formations were being prevented, as a result of the explosion of a mortar shell fired by Armenian armed formations in the territory of the Kalbajar District, servicemen of Military Unit No. 073, whose names he does not remember, were killed, while at the same time he and several other servicemen of Military Unit No. 073, whose names he does not remember, sustained various types of bodily injuries.

Volume 89, case file sheets 33-36

Volume 192, case file sheets 65-69

Volume 344, case file sheets 246-248

According to forensic medical expert opinion No. 15 dated 26.04.2024, it was established that the bodily injuries sustained by Tagiev Zamin Nizami oglu — a penetrating firearm wound of the right side and a slightly displaced fracture of the middle third of the diaphysis of the right ulna. The injury was caused by a bullet fired from a firearm and is classified as minor harm to health.

Volume 334, case file sheets 1-246

Questioned as a victim, a mortar operator of the 2nd platoon of the 4th section of Company “R” of Military Unit No. 073 of the Ministry of Defence, Private Tagiev Zamin Nizami oglu, stated in his testimony that on 13.09.2022 at approximately 13:00, while large-scale provocative actions by Armenian armed formations were being prevented, as a result of shelling opened by Armenian armed formations in the territory of the Kalbajar District, servicemen of Military Unit No. 073, whose names he does not remember, were killed, while at the same time he and several other servicemen of Military Unit No. 073, whose names he does not remember, sustained various types of bodily injuries.

Volume 289, case file sheets 235-238

According to forensic medical expert opinion No. 964 dated 26.04.2024, it was established that the bodily injuries sustained by Khalilov Tural Shirkhan oglu — firearm wounds to the posterior part of the chest sustained as a result of a shell fired from a firearm — by their severity usually fall within the category of minor injuries to health.

Volume 334, case file sheets 1-246

Questioned as a victim, the head of the 1st medical aid post of Battalion N of Military Unit No. 073 of the Ministry of Defence, Warrant Officer Khalilov Tural Shirkhan oglu, stated in his testimony that on 13.09.2022 at approximately 15:00, while large-scale provocative actions by Armenian armed formations were being prevented, as a result of the explosion of an artillery shell fired by Armenian armed formations in the territory of the Kalbajar District, servicemen of Military Unit No. 073, whose names he does not remember, were killed, while at the same time he and several other servicemen of Military Unit No. 073, whose names he does not remember, sustained various types of bodily injuries.

Volume 289, case file sheets 245-248**Volume 343, case file sheets 16-18**

According to forensic medical expert opinion No. 965 dated 26.04.2024, it was established that the bodily injuries sustained by Yagubov Ali Elkhan oglu arise as a result of the impact of primary or secondary fragments formed during the explosion of any explosive substance and, in terms of severity, fall within the category of injuries causing less serious harm to health.

Volume 334, case file sheets 1-246**[Page 682]**

Questioned as a victim, the senior sniper of the 2nd section of the sniper platoon of Military Unit No. 073 of the Ministry of Defence, Private Yagub Ali Elkhan oglu, stated in his testimony that on 13.09.2022 at approximately 16:00, while large-scale provocative actions by Armenian armed formations were being prevented, as a result of the explosion of a mortar shell fired by Armenian armed formations in the territory of the Kalbajar District, servicemen of Military Unit No. 073, whose names he does not remember, were killed, while at the same

time he and several other servicemen of Military Unit No. 073, whose names he does not remember, sustained various types of bodily injuries.

Volume 88, case file sheets 23-26

Volume 191, case file sheets 35-40

On the basis of forensic medical expert opinion No. 953 dated 26.04.2024, it was established that the bodily injuries sustained by Jabbiev Elturan Rufat oglu — blast trauma. A closed craniocerebral injury — arise as a result of the impact of a blast wave formed during the explosion of any explosive substance and are classified as minor or moderate harm to health.

Volume 334, case file sheets 1-246

Questioned as a victim, the commander of the 3rd platoon of the 1st section of the 4th detachment of Military Unit No. 073 of the Ministry of Defence, Warrant Officer Jabbiev Elturan Rufat oglu, stated in his testimony that on 13.09.2022 at approximately 15:00, while large-scale provocative actions by Armenian armed formations were being prevented, as a result of the explosion of a mortar shell fired by Armenian armed formations in the territory of the Kalbajar District, servicemen of Military Unit No. 073, whose names he does not remember, were killed, while at the same time he and several other servicemen of Military Unit No. 073, whose names he does not remember, sustained various types of bodily injuries.

Volume 289, case file sheets 105-108

On the basis of forensic medical expert opinion No. 1685 dated 05.10.2023, it was established that the bodily injuries sustained by Bagirov Nijat Bakhtiyar oglu — barotrauma of the right ear accompanied by right-sided acute cochlear neuritis — constitute minor harm to health.

Volume 80, case file sheets 58-59

Questioned as a victim, the former senior sniper of the 1st battalion of Military Unit No. 073 of the Ministry of Defence, Private Bagirov Nijat Bakhtiyar oglu, stated in his testimony that on 12.09.2022 at approximately 23:00, while large-scale provocative actions by Armenian armed formations were being prevented, as a result of the explosion of a mortar shell fired by Armenian armed formations in the territory of the Kalbajar District, a serviceman of Military Unit No. 172, Sergeant Magerramov Tural, was killed, while at the same time he, Private Ismayilov Ulvi and several other servicemen of Military Unit No. 172, whose names he does not remember, sustained various types of bodily injuries.

Volume 77, case file sheets 188-189, 193-195

On the basis of forensic medical expert opinion No. 194 dated 29.01.2023, it was established that the bodily injuries sustained by Dadashov Tural Aykhan oglu — a closed craniocerebral injury accompanied by vegetative-vascular instability resulting from concussion — constitute minor harm to health in terms of the severity of the injury.

Volume 344, case file sheets 34-35

Questioned as a victim, the commander of a detachment of the 1st battalion of Military Unit No. 072 of the Ministry of Defence, Major Dadashov Tural Alkhan oglu, stated in his testimony that on 14.09.2022 at approximately 15:00, while large-scale

[Page 683]

provocative actions by Armenian armed formations were being prevented, as a result of the explosion of a mortar shell fired by Armenian armed formations in the territory of the Kalbajar District, servicemen of Military Unit No. 172, whose names he does not remember, were killed, while at the same time he and several other servicemen of Military Unit No. 172, whose names he does not remember, sustained various types of bodily injuries.

Volume 89, case file sheets 93-94, 98-100

On the basis of forensic medical expert opinion No. 873 dated 26.04.2024, it was established that the bodily injuries sustained by Askerov Niyameddin Aladdin oglu — blast trauma, a closed craniocerebral injury and post-concussion condition — were caused by the impact of primary or secondary fragments formed as a result of the explosion of any explosive substance and are classified as minor harm to health depending on degree.

Volume 334, case file sheets 1-246

Questioned as a victim, the head of the materiel and technical support department of Military Unit No. 072 of the Ministry of Defence, Lieutenant Colonel Askerov Niyameddin Aladdin oglu, stated in his testimony that on 14.09.2022 at approximately 10:00, while large-scale provocative actions by Armenian armed formations were being prevented, as a result of the explosion of a mortar shell fired by Armenian armed formations in the territory of the Kalbajar District, servicemen of Military Unit No. 072 Private Tural Magerramov and Private Farid Latifov were killed, while at the same time he, Private Ibarat Gasimov, Captain Jeyhun Khankishiev and several other servicemen of Military Unit No. 072, whose names he does not remember, sustained various types of bodily injuries.

Volume 331, case file sheets 222-225

On the basis of forensic medical expert opinion No. 858 dated 26.04.2024, it was established that the bodily injuries sustained by Babazade Ilyas Akhmadaga oglu — blast trauma, a closed craniocerebral injury and post-concussion vegetative-vascular instability — arise as a result of the impact of a blast wave formed during the explosion of any explosive substance and constitute minor harm to health.

Volume 334, case file sheets 1-246

Questioned as a victim, the commander of Detachment “R” of the 073rd Military Unit of the Ministry of Defence, Major Babazade Ilyas Akhmadaga oglu, stated in his testimony that during the night of 13.09.2022, while large-scale provocative actions by Armenian armed formations were being prevented, as a result of the explosion of an artillery shell fired by Armenian armed formations in the territory of the Kalbajar District, servicemen of Military Unit No. 073, whose names he does not remember, were killed, while at the same time he and

several other servicemen of Military Unit No. 073, whose names he does not remember, sustained various types of bodily injuries.

Volume 344, case file sheets 143-145

According to forensic medical expert opinion No. 992 dated 26.04.2024, it was established that the bodily injuries sustained by Zeynally Natig Gurban oglu arise as a result of the impact of a blast wave formed during the explosion of any explosive substance and fall within the category of causing minor harm to health.

Volume 334, case file sheets 1-246

Questioned as a victim, a rifleman of Detachment “R” of Military Unit No. 073 of the Ministry of Defence, Private Zeynally Natig Gurban oglu, stated in his testimony that on 13.09.2022 at approximately 12:00, while large-scale provocative actions by Armenian armed formations were being prevented, as a result of the explosion of an artillery shell fired by

[Page 684]

Armenian armed formations in the territory of the Kalbajar District, servicemen of Military Unit No. 073, whose names he does not remember, were killed, while at the same time he and several other servicemen of Military Unit No. 073, whose names he does not remember, sustained various types of bodily injuries.

Volume 289, case file sheets 185-188

On the basis of forensic medical expert opinion No. 850 dated 26.04.2024, it was established that the bodily injuries sustained by Aliyev Farid Etibar oglu — astheno-neurotic manifestations after a closed craniocerebral injury and concussion. A closed craniocerebral injury and vegetative-vascular instability after concussion caused by the impact of a blast wave formed during the explosion of any explosive substance — in terms of severity constitute minor harm to health.

Volume 334, case file sheets 1-246

Questioned as a victim, the operational officer-head of artillery fire of Unit “F” of Military Unit No. 073 of the Ministry of Defence, Captain Aliyev Farid Etibar oglu, stated in his testimony that during the night of 13.09.2022, while large-scale provocative actions by Armenian armed formations were being prevented, as a result of the explosion of an artillery shell fired by Armenian armed formations in the territory of the Kalbajar District, servicemen of Military Unit No. 073, whose names he does not remember, were killed, while at the same time he and several other servicemen of Military Unit No. 073, whose names he does not remember, sustained various types of bodily injuries.

Volume 344, case file sheets 167-168

On the basis of forensic medical expert opinion No. 989 dated 26.04.2024, it was established that the bodily injuries sustained by Mammadov Sadlam Radjab oglu — blast trauma. A closed craniocerebral injury and a condition after concussion. Barotrauma. A condition after

bilateral acute cochlear neuritis arising as a result of the impact of a blast wave caused by the explosion of any explosive substance — by degree usually constitute minor harm to health.

Volume 334, case file sheets 1-246

Questioned as a victim, an operational officer of Detachment “R” of the 073rd Military Unit of the Ministry of Defence, head of artillery fire, Senior Lieutenant Mammadov Saddam Radjab oglu, stated in his testimony that on 13.09.2022 at approximately 12:00, while large-scale provocative actions by Armenian armed formations were being prevented, as a result of the explosion of an artillery shell fired by Armenian armed formations in the territory of the Kalbajar District, servicemen of Military Unit No. 073, whose names he does not remember, were killed, while at the same time he and several other servicemen of Military Unit No. 073, whose names he does not remember, sustained various types of bodily injuries.

Volume 289, case file sheets 145-148

According to forensic medical expert opinion No. 1185 dated 26.04.2024, it was established that the bodily injuries sustained by Eminov Seyran Magomed oglu — a closed craniocerebral injury and concussion — arise as a result of the impact of primary or secondary fragments resulting from the explosion of any explosive substance and are classified as minor or moderate harm to health.

Volume 334, case file sheets 1-246

Questioned as a victim, the commander of the 3rd platoon of Detachment “R” of Military Unit No. 073 of the Ministry of Defence, Senior Lieutenant Eminov Seyran Magomed oglu, stated in his testimony that during the night of 13.09.2022, while large-scale provocative actions by Armenian armed formations were being prevented, as a result of the explosion of an artillery shell

[Page 685]

fired by Armenian armed formations in the territory of the Kalbajar District, servicemen of Military Unit No. 073, whose names he does not remember, were killed, while at the same time he and several other servicemen of Military Unit No. 073, whose names he does not remember, sustained various types of bodily injuries.

Volume 344, case file sheets 196-198

On the basis of forensic medical expert opinion No. 238 dated 30.01.2023, it was established that the bodily injuries sustained by Nagiev Eldeniz Umidvar oglu — concussion leading to post-traumatic encephalopathy manifested by persistent vegetative-vascular instability, isolated persistent neurological symptoms, chronic cephalalgic and insomniac syndrome and cognitive deficit, a closed craniocerebral injury with moderate impairment of central nervous system function, blind shrapnel wounds of the left half of the face, palmar surface of the left hand, dorsal surface of the I finger and III and III fingers of the right hand — in terms of severity constitute less serious harm to health.

Volume 334, case file sheets 1-246

Questioned as a victim, the platoon commander of the 888th Military Unit of the Ministry of Defence, Lieutenant Nagiev Eldeniz Umudvar oglu, stated in his testimony that on 14.09.2022 at approximately 15:00, while large-scale provocative actions by Armenian armed formations were being prevented, as a result of the explosion of a mortar shell fired by Armenian armed forces in the territory of the Kalbajar District, servicemen of Military Unit No. 888, whose names he does not remember, Sergeant Mammadli Namig were killed, while at the same time he, Warrant Officer Gudratzade Hidayat Tahir oglu and several other servicemen of Military Unit No. 888, whose names he does not remember, sustained various types of bodily injuries.

Volume 89, case file sheets 105-106, 120-122

Volume 337, case file sheets 17-18

On the basis of forensic medical expert opinion No. 2338 dated 19.12.2023, it was established that the bodily injuries sustained by Ashrafov Mekhradzh Gadir oglu — a closed craniocerebral injury accompanied by concussion, resulting in a moderate (mild) organic affective (depressive) disorder, post-concussion syndrome, vegetative-vascular instability, behavioural disorders and prolonged post-traumatic stress disorder — by their nature and degree constitute less pronounced harm to health.

Volume 67, case file sheets 126-127

Volume 91, case file sheets 126-127

Questioned as a victim, the platoon commander of the 4th battalion of Military Unit No. 073 of the Ministry of Defence, Sergeant Ashrafov Mekhradzh Gadir oglu, stated in his testimony that on 13.09.2022 at approximately 15:00, while large-scale provocative actions by Armenian armed formations were being prevented, as a result of the explosion of a mortar shell fired by Armenian armed forces in the territory of the Kalbajar District, servicemen of Military Unit No. 073, whose names he does not remember, were killed, while at the same time he and several other servicemen of Military Unit No. 073, whose names he does not remember, sustained various types of bodily injuries.

Volume 88, case file sheets 125-126, 130-133

On the basis of forensic medical expert opinion No. 1005 dated 26.04.2024, it was established that the bodily injuries sustained by Guliyev Musannif Mehman oglu — asthenoneurotic manifestations after a closed craniocerebral injury and concussion. Vegetative-vascular instability after a closed craniocerebral injury and concussion. A skin scar after

[Page 686]

a blind shrapnel wound of the left shoulder, a foreign body in the soft tissues (metal fragment) — were caused by the impact of a primary or secondary fragment, including a blast wave formed during the explosion of any explosive substance, and depending on degree constitute minor harm to health.

Volume 334, case file sheets 1-246

Volume 91, case file sheets 126-127

Questioned as a victim, the head of the communications section of the 4th special-purpose detachment of the 072nd Military Unit of the Ministry of Defence, Warrant Officer Guliyev Musannif Mehman oglu, stated in his testimony that on 13.09.2022 at approximately 12:00, while large-scale provocative actions by Armenian armed formations were being prevented, as a result of the explosion of an artillery shell fired by Armenian armed formations in the territory of the Kalbajar District, servicemen of Military Unit No. 072, whose names he does not remember, were killed, while at the same time he and several other servicemen of Military Unit No. 072, whose names he does not remember, sustained various types of bodily injuries.

Volume 289, case file sheets 125-128

On the basis of forensic medical expert opinion No. 2337 dated 19.12.2023, it was established that the bodily injuries sustained by Abdullaev Elkhon Elchin oglu — tenderness of the soft tissues of the dorsal surface of the third finger of the right hand; blind shrapnel wounds of the soft tissues of the inner surface of the left knee joint; a closed craniocerebral injury accompanied by concussion; a blind bullet wound of the soft tissues of the left inguinal region; acute (severe) organic affective (depressive) disorder after concussion, mild (moderate) prolonged post-traumatic stress disorder, consequences in the form of post-traumatic encephalopathy manifested by vegetative-vascular instability, chronic cephalalgic and insomniac syndrome, cognitive deficit, a closed craniocerebral injury accompanied by a moderate degree of central nervous system impairment — in terms of the severity of the injury constitute less serious harm to health.

Volume 275, case file sheets 11-12

Questioned as a victim, the commander of a section of the 4th battalion of the 073rd Military Unit of the Ministry of Defence, Warrant Officer Abdullaev Elkhon Elchin oglu, stated in his testimony that on 13.09.2022 at approximately 17:00, while large-scale provocative actions by Armenian armed formations were being prevented, as a result of the explosion of a mortar shell fired by Armenian armed formations in the territory of the Kalbajar District, servicemen of Military Unit No. 172, whose names he does not remember, were killed, while at the same time he and several other servicemen of Military Unit No. 172, whose names he does not remember, sustained various types of bodily injuries.

Volume 88, case file sheets 137-138, 142-144

According to forensic medical expert opinion No. 882 dated 26.04.2024, it was established that the bodily injuries sustained by Mammadov Vugar Ilgar oglu — blast trauma, a closed craniocerebral injury, a mild organic personality disorder after concussion and its consequences manifested by behavioural disorders. Mild prolonged post-traumatic stress disorder. Blast trauma, a closed craniocerebral injury, a mild organic affective disorder after concussion with suicidal thoughts. Blast trauma, a closed craniocerebral injury and concussion resulting in post-traumatic encephalopathy manifested by vegetative-vascular paroxysms, cephalalgic syndrome and insomnia, post-traumatic cervical myelopathy resulting in mild

[Page 687]

impairment of the function of the right upper extremity. Blast trauma, arthrosis of the right temporomandibular joint and dislocation of both articular heads — were caused by the impact of a primary or secondary fragment formed as a result of the explosion of any explosive substance and, in terms of severity, constitute less serious harm to health.

Volume 334, case file sheets 1-246

Questioned as a victim, the head of the medical aid post of Detachment “R” of Military Unit No. 073 of the Ministry of Defence, Warrant Officer Mammadov Vugar Ilgar oglu, stated in his testimony that on 13.09.2022 at approximately 15:00, while large-scale provocative actions by Armenian armed formations were being prevented, as a result of the explosion of an artillery shell fired by Armenian armed formations in the territory of the Kalbajar District, servicemen of Military Unit No. 073, whose names he does not remember, were killed, while at the same time he and several other servicemen of Military Unit No. 073, whose names he does not remember, sustained various types of bodily injuries.

Volume 89, case file sheets 13-16

Volume 344, case file sheets 186-188

On the basis of forensic medical expert opinion No. 956 dated 26.04.2024, it was established that the bodily injuries sustained by Gudratzade Hidayat Tahir oglu — blast trauma. A closed craniocerebral injury and a condition after concussion with neurotic manifestations — were caused by the impact of a blast wave resulting from the explosion of any explosive substance and, in terms of severity, constitute minor harm to health.

Volume 334, case file sheets 1-246

Questioned as a victim, the commander of the 1st platoon of the 4th section of Unit E of Military Unit No. 073 of the Ministry of Defence, Warrant Officer Gudratzade Hidayat Tahir oglu, stated in his testimony that on 13.09.2022 at approximately 12:00, while large-scale provocative actions by Armenian armed formations were being prevented, as a result of the explosion of an artillery shell fired by Armenian armed formations in the territory of the Kalbajar District, servicemen of Military Unit No. 073, whose names he does not remember, were killed, while at the same time he and several other servicemen of Military Unit No. 073, whose names he does not remember, sustained various types of bodily injuries.

Volume 289, case file sheets 75-78

On the basis of forensic medical expert opinion No. 861 dated 26.04.2024, it was established that the bodily injuries sustained by Aliyev Rustam Mahir oglu — blast trauma, a closed craniocerebral injury and vegetative-vascular instability after concussion — arose as a result of the impact of a blast wave formed during the explosion of any substance possessing explosive properties and, in terms of severity, constitute minor injuries to health.

Volume 334, case file sheets 1-246

Questioned as a victim, the commander of the engineer-reconnaissance section of Detachment “F” of the 073rd Military Unit of the Ministry of Defence, Warrant Officer Aliyev Rustam Mahir oglu, stated in his testimony that during the night of 13.09.2022, while large-scale provocative actions by Armenian armed formations were being prevented, as a result of the explosion of a mortar shell fired by Armenian armed formations in the territory of the Kalbajar District, servicemen of Military Unit No. 073, whose names he does not remember, were killed, while at the same time he and several other servicemen of Military Unit No. 073, whose names he does not remember, sustained various types of bodily injuries.

[Page 688]

Volume 343, case file sheets 76-78

On the basis of forensic medical expert opinion No. 955 dated 26.04.2024, it was established that the bodily injuries sustained by Abdullaev Famil Sahib oglu — blast trauma. A closed craniocerebral injury and a condition after concussion with neurotic manifestations — arose as a result of the impact of a blast wave caused by the explosion of any explosive substance and, in terms of severity, constitute minor harm to health.

Volume 334, case file sheets 1-246

Questioned as a victim, the head of the medical aid post of Detachment “F” of Military Unit No. 073 of the Ministry of Defence, Warrant Officer Abdullaev Famil Sahib oglu, stated in his testimony that on 13.09.2022 at approximately 12:00, while large-scale provocative actions by Armenian armed formations were being prevented, as a result of the explosion of an artillery shell fired by Armenian armed formations in the territory of the Kalbajar District, servicemen of Military Unit No. 073, whose names he does not remember, were killed, while at the same time he and several other servicemen of Military Unit No. 073, whose names he does not remember, sustained various types of bodily injuries.

Volume 289, case file sheets 175-178

According to forensic medical expert opinion No. 1186 dated 26.04.2024, it was established that the bodily injuries sustained by Faridli Fariz Eldar oglu — a closed craniocerebral injury and concussion — arose as a result of the impact of primary or secondary fragments resulting from the explosion of any explosive substance and are classified as minor or moderate harm to health.

Volume 334, case file sheets 1-246

Questioned as a victim, the deputy commander of the fire-support platoon of Detachment “R” of the 073rd Military Unit of the Ministry of Defence, Warrant Officer Fardili Fariz Eldar oglu, stated in his testimony that during the night of 13.09.2022, while large-scale provocative actions by Armenian armed formations were being prevented, as a result of the explosion of an artillery shell fired by Armenian armed formations in the territory of the Kalbajar District, servicemen of Military Unit No. 073, whose names he does not remember, were killed, while at the same time he and several other servicemen of Military Unit No. 073, whose names he does not remember, sustained various types of bodily injuries.

Volume 343, case file sheets 66-68

According to forensic medical expert opinion No. 979 dated 26.04.2024, it was established that the bodily injuries sustained by Huseynov Ali Rashid oglu — blast trauma, a closed craniocerebral injury and post-concussion vegetative-vascular instability — arise as a result of the impact of a blast wave caused by the explosion of any explosive substance and, in terms of severity, constitute minor harm to health.

Volume 334, case file sheets 1-246

Questioned as a victim, the former commander of the 1st motorised-rifle platoon of the 8th company of the 3rd battalion of the 171st Military Unit of the Ministry of Defence, Senior Lieutenant Huseynov Ali Rashid oglu, stated in his testimony that on 13.09.2022 at approximately 09:00, while large-scale provocative actions by Armenian armed formations were being prevented, as a result of the explosion of an artillery shell fired by Armenian armed formations in the territory of the Kalbajar District, he and several other servicemen of Military Unit No. 171, whose names he does not remember, sustained various types of bodily injuries.

Volume 343, case file sheets 106-108**[Page 689]**

According to forensic medical expert opinion No. 02 dated 26.04.2024, it was established that the bodily injuries sustained by Agaev Nagil Zakhid oglu — a firearm wound of the left hand, a fracture of the nail phalanx of the left hand, a fracture of the 4th metacarpal bone, foreign bodies in the soft tissues of the chest and fingers of the left hand — caused by the impact of a blast wave resulting from the explosion of any explosive substance, separately in terms of degree and also overall constitute less serious harm to health.

Volume 334, case file sheets 1-246

Questioned as a victim, the former commander of the 4th platoon of the 1st section of Detachment “R” of Military Unit No. 073 of the Ministry of Defence, Warrant Officer Agaev Nagil Zakhid oglu, stated in his testimony that on 13.09.2022 at approximately 08:30, while large-scale provocative actions by Armenian armed formations were being prevented, as a result of the explosion of a mortar shell fired by Armenian armed formations in the territory of the Kalbajar District, servicemen of Military Unit No. 073, whose names he does not remember, were killed, while at the same time he and several other servicemen of Military Unit No. 073, whose names he does not remember, sustained various types of bodily injuries.

Volume 89, case file sheets 5-8

Questioned as a victim, the senior sniper of the 4th section of the 1st platoon of Detachment “F” of Military Unit No. 073 of the Ministry of Defence, Sergeant Fataliyev Shakir Zakir oglu, stated in his testimony that during the night of 13.09.2022, while large-scale provocative actions by Armenian armed formations were being prevented, as a result of the explosion of an artillery shell fired by Armenian armed formations in the territory of the

Kalbajar District, servicemen of Military Unit No. 073, whose names he does not remember, were killed, while at the same time he and several other servicemen of Military Unit No. 073, whose names he does not remember, sustained various types of bodily injuries.

Volume 344, case file sheets 226-228

According to forensic medical expert opinion No. 1187 dated 26.04.2024, it was established that the bodily injuries sustained by Abdiev Amrakh Shahin oglu — a closed craniocerebral injury and concussion — arose as a result of the impact of primary or secondary fragments as a result of the explosion of any explosive substance and are classified as minor or moderate harm to health.

Volume 334, case file sheets 1-246

Questioned as a victim, the commander of the sniper section of Detachment “R” of the 073rd Military Unit of the Ministry of Defence, Junior Warrant Officer Abdiev Amrakh Shahin oglu, stated in his testimony that during the night of 13.09.2022, while large-scale provocative actions by Armenian armed formations were being prevented, as a result of the explosion of an artillery shell fired by Armenian armed formations in the territory of the Kalbajar District, servicemen of Military Unit No. 073, whose names he does not remember, were killed, while at the same time he and several other servicemen of Military Unit No. 073, whose names he does not remember, sustained various types of bodily injuries.

Volume 344, case file sheets 116-118

On the basis of forensic medical expert opinion No. 960 dated 26.04.2024, it was established that the bodily injuries sustained by Gasimov Zulf Sadreddin oglu — blast trauma. A closed craniocerebral injury and concussion — arose as a result of the impact of primary or secondary fragments formed as a result of the explosion of any explosive substance and are classified as minor harm to health.

Volume 334, case file sheets 1-246

[Page 690]

Questioned as a victim, a technician of Detachment “R” of the 073rd Military Unit of the Ministry of Defence, Sergeant Gasimov Zulf Sadreddin oglu, stated in his testimony that during the night of 13.09.2022, while large-scale provocative actions by Armenian armed formations were being prevented, as a result of the explosion of a mortar shell fired by Armenian armed formations in the territory of the Kalbajar District, servicemen of Military Unit No. 073, whose names he does not remember, were killed, while at the same time he and several other servicemen of Military Unit No. 073, whose names he does not remember, sustained various types of bodily injuries.

Volume 344, case file sheets 46-48

On the basis of forensic medical expert opinion No. 452 dated 23.12.2023, it was established that the bodily injuries sustained by Gardashov Umud Ahmed oglu — concussion — in terms of severity constitute minor harm to health.

Volume 67, case file sheets 249-252**Volume 91, case file sheets 249-252**

Questioned as a victim, the commander of the engineer group of Detachment “F” of Military Unit No. 073 of the Ministry of Defence, Private Gardashov Umid Ahmed oglu, stated in his testimony that during the night of 13.09.2022, while large-scale provocative actions by Armenian armed formations were being prevented, as a result of the explosion of a mortar shell fired by Armenian armed formations in the territory of the Kalbajar District, servicemen of Military Unit No. 073, whose names he does not remember, were killed, while at the same time he, the commander of a section Eldzhan Abdullaev, chief of staff Ilyas Babazade and several other servicemen of Military Unit No. 073, whose names he does not remember, sustained various types of bodily injuries.

Volume 67, case file sheets 216-219**Volume 91, case file sheets 216-219**

On the basis of forensic medical expert opinion No. 953/1 dated 26.04.2024, it was established that the bodily injuries sustained by Teymurov Farkhin Magomed oglu — blast trauma. A closed craniocerebral injury — a condition after concussion caused by the impact of a blast wave resulting from the explosion of any explosive substance — are classified as minor or moderate harm to health.

Volume 334, case file sheets 1-246

Questioned as a victim, the senior radio operator of the communications section of Detachment “F” of the 073rd Military Unit of the Ministry of Defence, Junior Sergeant Teymurov Farkhin Magomed oglu, stated in his testimony that during the night of 13.09.2022, while large-scale provocative actions by Armenian armed formations were being prevented, as a result of the explosion of an artillery shell fired by Armenian armed formations in the territory of the Kalbajar District, servicemen of Military Unit No. 073, whose names he does not remember, were killed, while at the same time he and several other servicemen of Military Unit No. 073, whose names he does not remember, sustained various types of bodily injuries.

Volume 343, case file sheets 86-88

According to forensic medical expert opinion No. 934 dated 26.04.2024, it was established that the bodily injuries sustained by Veliyev Izzat Vusal oglu — a condition after primary surgical treatment of wounds caused by a penetrating firearm wound of the soft tissues of the outer surface of the upper third of the left arm — constitute a firearm wound which, in terms of severity, constitutes minor harm to health.

Volume 334, case file sheets 1-246

According to forensic medical expert opinion No. 05 dated 26.04.2024, it was established that the bodily injuries sustained by Aliyev Orkhan Sary oglu —

[Page 691]

blast trauma, a closed craniocerebral injury resulting in vegetative-vascular instability and concussion — were caused by the impact of a blast wave as a result of a shot from a firearm, correspond to the date and circumstances specified in the medical document, 14.09.2022, and, in terms of severity, constitute minor harm to health.

Volume 334, case file sheets 1-246

Questioned as a victim, the medical orderly of the special-purpose detachment of Military Unit No. 073 of the Ministry of Defence, Private Aliyev Orkhan Sary oglu, stated in his testimony that on 13.09.2022 at approximately 15:00, while large-scale provocative actions by Armenian armed formations were being prevented, as a result of the explosion of an artillery shell fired by Armenian armed formations in the territory of the Kalbajar District, servicemen of Military Unit No. 073, whose names he does not remember, were killed, while at the same time he and several other servicemen of Military Unit No. 073 sustained various types of bodily injuries.

Volume 289, case file sheets 195-198

According to forensic medical expert opinion No. 04 dated 26.04.2024, it was established that the bodily injuries sustained by Ahmedov Gismet Balahmed oglu — a penetrating firearm wound accompanied by a shrapnel wound of the upper third of the left shin and a fracture of the edge of the 1st metatarsal bone of the left foot. The injury was caused by bullets and fragments of a firearm and is classified as less serious injury to health.

Volume 334, case file sheets 1-246

Questioned as a victim, the commander of the 1st mortar fire group of the 4th platoon of Unit “R” of Military Unit No. 073 of the Ministry of Defence, Private Ahmedov Gismet Balakhmad oglu, stated in his testimony that on 14.09.2022 at approximately 17:00-18:00, while large-scale provocative actions by Armenian armed formations were being prevented, as a result of the explosion of a mortar shell fired by Armenian armed formations in the territory of the Kalbajar District, Private Isa Kalbiev and Private Turkhan Suleymanov were killed, while at the same time he, Private Elsavar Binnetov, Private Firuddin Bayramov and several other servicemen of Military Unit No. 073, whose names he does not remember, sustained various types of bodily injuries.

Volume 329, case file sheets 190-193

According to forensic medical expert opinion No. 23 dated 26.04.2024, it was established that the bodily injuries sustained by Rahmanov Polad Adalat oglu — diagnosis: “Blast trauma. Closed craniocerebral injury, post-concussion condition, foreign body in the soft tissues of the left temporal and left buccal regions.” The injury arose as a result of the impact of a blast wave formed during the explosion of any explosive substance and is classified as minor trauma.

Volume 334, case file sheets 1-246

Questioned as a victim, the commander of the 2nd platoon of the 3rd section of Detachment “R” of Military Unit No. 073 of the Ministry of Defence, Junior Sergeant Rahmanov Polad Adalat oglu, stated in his testimony that on 13.09.2022 at approximately 15:00, while large-scale provocative actions by Armenian armed formations were being prevented, as a result of the explosion of an artillery shell fired by Armenian armed formations in the territory of the Kalbajar District, servicemen of Military Unit No. 073, whose names he does not remember, were killed, while at the same time he and several other servicemen of Military Unit No. 073, whose names he does not remember, sustained various types of bodily injuries.

Volume 289, case file sheets 35-38

[Page 692]

According to forensic medical expert opinion No. 834 dated 26.04.2024, it was established that the bodily injuries sustained by Khasmammadov Khalil Abbas oglu — a closed craniocerebral injury, post-concussion vegetative-vascular instability. A sufficiently closed fracture of the head and middle third of the second metacarpal bone of the right hand — arose as a result of the impact of a blast wave caused by the explosion of any explosive substance and, in terms of severity, constitute minor harm to health.

Volume 334, case file sheets 1-246

Questioned as a victim, the head of the communications department of Military Unit No. 073 of the Ministry of Defence, Lieutenant Colonel Khasmammadov Khalil Abbas oglu, stated in his testimony that on 13.09.2022 at approximately 11:00, while large-scale provocative actions by Armenian armed formations were being prevented, as a result of the explosion of an artillery shell fired by Armenian armed formations in the territory of the Kalbajar District, servicemen of Military Unit No. 073, whose names he does not remember, were killed, while at the same time he and several other servicemen of Military Unit No. 073, whose names he does not remember, sustained various types of bodily injuries.

Volume 289, case file sheets 115-118

According to forensic medical expert opinion No. 972 dated 26.04.2024, it was established that the bodily injuries sustained by Badalov Mukhammed Nuraddin oglu — blast trauma, closed craniocerebral injury, post-concussion vegetative-vascular instability — arose as a result of the impact of a blast wave caused by the explosion of any explosive substance and, in terms of severity, constitute minor harm to health.

Volume 334, case file sheets 1-246

Questioned as a victim, the sniper of Detachment “R” of Military Unit No. 073 of the Ministry of Defence, Private Badalov Mukhammad Nuraddin oglu, stated in his testimony that on 13.09.2022 at approximately 11:00, while large-scale provocative actions by Armenian armed formations were being prevented, as a result of the explosion of an artillery shell fired by Armenian armed formations in the territory of the Kalbajar District, servicemen of Military Unit No. 073, whose names he does not remember, were killed, while at the same

time he and several other servicemen of Military Unit No. 073, whose names he does not remember, sustained various types of bodily injuries.

Volume 289, case file sheets 155-158

According to forensic medical expert opinion No. 871 dated 26.04.2024, it was established that the bodily injuries sustained by Amirov Farid Talekh oglu — blast trauma, closed craniocerebral injury, post-concussion vegetative-vascular instability — arose as a result of the impact of a blast wave caused by the explosion of any explosive substance and, as a rule, in terms of severity constitute minor harm to health.

Volume 334, case file sheets 1-246

Questioned as a victim, the senior scout of the 3rd section of the 1st platoon of Unit “R” of Military Unit No. 073 of the Ministry of Defence, Private Amirov Farid Talekh oglu, stated in his testimony that during the night of 13.09.2022, while large-scale provocative actions by Armenian armed formations were being prevented, as a result of the explosion of a mortar shell fired by Armenian armed formations in the territory of the Kalbajar District, servicemen of Military Unit No. 073, whose names he does not remember, were killed, while at the same time he and several other servicemen of Military Unit No. 073, whose names he does not remember, sustained various types of bodily injuries.

Volume 343, case file sheets 36-38

[Page 693]

According to forensic medical expert opinion No. 994 dated 26.04.2024, it was established that the bodily injuries sustained by Yusifov Amir Suleyman oglu — blast trauma, closed craniocerebral injury, post-concussion vegetative-vascular instability — arose as a result of the impact of a blast wave caused by the explosion of any explosive substance and, as a rule, in terms of severity constitute minor harm to health.

Volume 334, case file sheets 1-246

Questioned as a victim, the commander of the 3rd section of the 5th platoon of Detachment “R” of Military Unit No. 073 of the Ministry of Defence, Senior Sergeant Yusifov Amir Suleyman oglu, stated in his testimony that on 13.09.2022 at approximately 16:00-17:00, while large-scale provocative actions by Armenian armed formations were being prevented, as a result of the explosion of a mortar shell fired by Armenian armed formations in the territory of the Kalbajar District, Private Jeyhun Sadygov and Private Isa Kalbiev were killed, while at the same time he, Junior Sergeant Amrakh Abdiev, Major of Justice Kamran Iskenderli and several other servicemen of Military Unit No. 073, whose names he does not remember, sustained various types of bodily injuries.

Volume 329, case file sheets 200-203

According to forensic medical expert opinion No. 2357 dated 20.12.2023, it was established that the bodily injuries sustained by Ismayilov Nurlan Nadir oglu — a closed craniocerebral injury accompanied by concussion — constitute minor harm to health.

Volume 67, case file sheet 134**Volume 91, case file sheet 134**

Questioned as a victim, a serviceman of the 1st battalion of Military Unit No. 073 of the Ministry of Defence, Private Ismayilov Nurlan Nadir oglu, stated in his testimony that on 13.09.2022 at approximately 17:00, while large-scale provocative actions by Armenian armed formations were being prevented, as a result of the explosion of a mortar shell fired by Armenian armed formations in the territory of the Kalbajar District, servicemen of Military Unit No. 172, Gafarli Amil and Mammadli Namig, were killed, while at the same time he, Pashaev Alekper, Aliyev Mirad and several other servicemen of Military Unit No. 172 sustained various types of bodily injuries.

Volume 80, case file sheets 126-127, 131-133

According to forensic medical expert opinion No. 864 dated 26.04.2024, it was established that the bodily injuries sustained by Abushov Yadulla Rakhib oglu — blast trauma, a previously sustained closed craniocerebral injury, post-concussion vegetative-vascular instability. Barotrauma, bilateral acute cochlear neuritis, bilateral sensorineural hearing loss, perception of whispered speech at a distance of 5 metres with both ears — arose as a result of the impact of a blast wave caused by the explosion of any explosive substance and, overall, in terms of severity constitute minor harm to health.

Volume 334, case file sheets 1-246

Questioned as a victim, the head of the ideological work and moral-psychological support department of Military Unit No. 073 of the Ministry of Defence, Major Abushov Yadulla Rakhib oglu, stated in his testimony that on 13.09.2022 at approximately 05:00, while large-scale provocative actions by Armenian armed formations were being prevented, as a result of the explosion of a mortar shell fired by Armenian armed formations in the territory of the Kalbajar District, servicemen of Military Unit No. 073, whose names he does not remember,

[Page 694]

were killed, while several servicemen of Military Unit No. 073, whose names he does not remember, sustained various types of bodily injuries.

Volume 289, case file sheets 165-168

According to forensic medical expert opinion No. 08 dated 26.04.2024, it was established that the bodily injuries sustained by Isaev Idris Suleyman oglu — blast trauma, closed craniocerebral injury resulting in vegetative-vascular instability and concussion — were caused by the impact of a blast wave as a result of a shot from a firearm, correspond to the date and circumstances specified in the medical document, 13.09.2022, and, in terms of severity, constitute minor harm to health.

Volume 334, case file sheets 1-246

Questioned as a victim, the head of the air defence department of Military Unit No. 073 of the Ministry of Defence, Lieutenant Colonel Isaev Idris Suleyman oglu, stated in his

testimony that during the night of 13.09.2022, while large-scale provocative actions by Armenian armed formations were being prevented, as a result of the explosion of an artillery shell fired by Armenian armed formations in the territory of the Kalbajar District, servicemen of Military Unit No. 430, whose names he does not remember, were killed, while at the same time he and several servicemen of the military unit sustained various types of bodily injuries.

Volume 343, case file sheets 56-58

According to forensic medical expert opinion No. 56 dated 26.04.2024, it was established that the bodily injuries sustained by Glinchev Anar Mirzali oglu — blast trauma, closed craniocerebral injury, post-concussion vegetative-vascular instability, bilateral chronic cochlear neuritis, bilateral sensorineural hearing loss, perception of whispered speech at a distance of 4 metres with the right ear and 5 metres with the left ear, a shrapnel wound of the middle third of the anterior surface of the left shin — arose as a result of the impact of a blast wave caused by the explosion of any explosive substance and, overall, in terms of severity constitute minor harm to health.

Volume 334, case file sheets 1-246

Questioned as a victim, the commander of Military Unit No. 073 of the Ministry of Defence, Lieutenant Colonel Glinchev Anar Mirzali oglu, stated in his testimony that during the night of 13.09.2022, while large-scale provocative actions by Armenian armed formations were being prevented, as a result of the explosion of a mortar shell fired by Armenian armed formations in the territory of the Kalbajar District, servicemen of Military Unit No. 073, whose names he does not remember, were killed, while at the same time he and servicemen Elvin Gashimov and Ilham Shakarov sustained various types of bodily injuries.

Volume 343, case file sheets 96-98

According to forensic medical expert opinion No. 18 dated 26.04.2024, it was established that the bodily injuries sustained by Mammadli Jeyhun Sadyg oglu — diagnosis: “Blast trauma. Closed craniocerebral injury, post-concussion vegetative-vascular instability. Post-acute bilateral cochlear neuritis. Bilateral sensorineural hearing loss. Whispered speech is heard at a distance of 4 metres in the right ear and 5 metres in the left ear.” These injuries were caused as a result of the impact of a blast wave and, in terms of severity, are considered less serious.

Volume 334, case file sheets 1-246

Questioned as a victim, the head of the medical service of Military Unit No. 073, Captain of the Medical Service Mammadli Jeyhun Sadyg oglu, stated in his testimony that during the night of 13.09.2022, while large-scale provocative actions by Armenian armed formations were being prevented, as a result of the explosion of a mortar shell,

[Page 695]

fired by Armenian armed formations in the territory of the Kalbajar District, servicemen of Military Unit No. 073, whose names he does not remember, were killed, while at the same

time he and several other servicemen of the military unit sustained various types of bodily injuries.

Volume 343, case file sheets 126-128

On the basis of forensic medical expert opinion No. 22 dated 26.04.2024, it was established that the bodily injuries sustained by Orudzhev Ilgar Rahman oglu — diagnosis: “Blast trauma. Closed craniocerebral injury, post-concussion condition, blind non-penetrating bullet wound of the left shoulder girdle.” This injury was caused by blast trauma and the impact of a bullet from a firearm and is classified as minor harm to health.

Volume 334, case file sheets 1-246

Questioned as a victim, the chief of staff of Military Unit No. 072 of the Ministry of Defence, Lieutenant Colonel Orudzhev Ilgar Rahman oglu, stated in his testimony that on 13.09.2022 at approximately 17:00-18:00, while large-scale provocative actions by Armenian armed formations were being prevented, as a result of the explosion of a mortar shell fired by Armenian armed formations in the territory of the Kalbajar District, servicemen of Military Unit No. 073, Private Hasanov Said Saribala oglu and Private Omarov Sarkhan Mubariz oglu, were killed, while at the same time he, Lieutenant Colonel Yadulla Abushov, Lieutenant Colonel Yahya Agazade and several other servicemen of Military Unit No. 073, whose names he does not remember, sustained various types of bodily injuries.

Volume 331, case file sheets 172-175

According to forensic medical expert opinion No. 1189 dated 26.04.2024, it was established that the bodily injuries sustained by Shakarov Misir Mehman oglu — a closed craniocerebral injury and concussion — arise as a result of the impact of primary or secondary fragments resulting from the explosion of any explosive substance and are classified as minor or moderate harm to health.

Volume 334, case file sheets 1-246

Questioned as a victim, the assistant sanitary instructor of a doctor of the 1st group of Battalion N of Military Unit No. 073 of the Ministry of Defence, Private Shakarov Misir Mehman oglu, stated in his testimony that on 13.09.2022 at approximately 15:00, while large-scale provocative actions by Armenian armed formations were being prevented, as a result of the explosion of an artillery shell fired by Armenian armed formations in the territory of the Kalbajar District, servicemen of Military Unit No. 073, whose names he does not remember, were killed, while at the same time he and several other servicemen of Military Unit No. 073, whose names he does not remember, sustained various types of bodily injuries.

Volume 289, case file sheets 65-68

On the basis of forensic medical expert opinion No. 848 dated 26.04.2024, it was established that the bodily injuries sustained by Agazade Yahya Alesker oglu — blast trauma, closed craniocerebral injury, post-concussion vegetative-vascular instability — arose as a result of

the impact of a blast wave formed during the explosion of any explosive substance and constitute minor harm to health.

Volume 334, case file sheets 1-246

Questioned as a victim, the head of the personnel accounting department of Military Unit No. 073 of the Ministry of Defence, Major Agazade Yahya Alesker oglu, stated in his testimony that on 13.09.2022 at approximately 16:00, while large-scale provocative actions by Armenian armed formations were being prevented, as a result of the explosion of a mortar shell fired by Armenian armed formations in the territory of the Kalbajar District,

[Page 696]

servicemen of Military Unit No. 073, whose names he does not remember, were killed, while at the same time he and several other servicemen of Military Unit No. 073, whose names he does not remember, sustained various types of bodily injuries.

Volume 289, case file sheets 215-218

According to forensic medical expert opinion No. 1190 dated 26.04.2024, it was established that the bodily injuries sustained by Bagirov Tural Kamaladdin oglu — a closed craniocerebral injury, post-concussion condition — were caused by the impact of a primary or secondary fragment as a result of the explosion of any explosive substance and, depending on degree, usually constitute minor harm to health.

Volume 334, case file sheets 1-246

Questioned as a victim, the senior scout of the 1st group of Battalion M of Military Unit No. 073 of the Ministry of Defence, Junior Warrant Officer Bagirov Tural Kamaladdin oglu, stated in his testimony that during the night of 13.09.2022, while large-scale provocative actions by Armenian armed formations were being prevented, as a result of the explosion of an artillery shell fired by Armenian armed formations in the territory of the Kalbajar District, servicemen of Military Unit No. 073, whose names he does not remember, were killed, while at the same time he and several other servicemen of Military Unit No. 073, whose names he does not remember, sustained various types of bodily injuries.

Volume 344, case file sheets 236-238

On the basis of forensic medical expert opinion No. 881 dated 26.04.2024, it was established that the bodily injuries sustained by Jamalov Jeyhun Fikret oglu — astheno-neurotic manifestations after craniocerebral injury and concussion. A closed craniocerebral injury caused by an explosion, vegetative-vascular instability resulting from concussion — arose as a result of the impact of a blast wave formed during the explosion of any explosive substance and, in terms of severity, constitute minor harm to health.

Volume 334, case file sheets 1-246

Questioned as a victim, the deputy commander of Military Unit No. 073 of the Ministry of Defence, Lieutenant Colonel Jamalov Jeyhun Fikret oglu, stated in his testimony that on

13.09.2022 at approximately 14:00, while large-scale provocative actions by Armenian armed formations were being prevented, as a result of the explosion of an artillery shell fired by Armenian armed formations in the territory of the Kalbajar District, servicemen of Military Unit No. 073, whose names he does not remember, were killed, while at the same time he and several other servicemen of Military Unit No. 073, whose names he does not remember, sustained various types of bodily injuries.

Volume 289, case file sheets 85-88

According to forensic medical expert opinion No. 876 dated 26.04.2024, it was established that the bodily injuries sustained by Khalilzade Akhad Chingiz oglu — blast trauma, closed craniocerebral injury, post-concussion vegetative-vascular instability — arise as a result of the impact of a blast wave formed during the explosion of any explosive substance and, in terms of severity, constitute minor harm to health.

Volume 334, case file sheets 1-246

Questioned as a victim, the head of the rocket and artillery armament service of Military Unit No. 075 of the Ministry of Defence, Captain Khalilzade Akhad Chingiz oglu, stated in his testimony that on 13.09.2022 at approximately 12:00-13:00, while large-scale provocative actions by Armenian armed formations were being prevented, as a result of the explosion of a mortar shell fired by Armenian armed formations in the territory of the Kalbajar District, servicemen of Military Unit No. 073, Private Safiyar

[Page 697]

Mammadov and Private Amin Guliyev, were killed, while at the same time he, Major Mushvig Huseynov, Warrant Officer Parviz Guliyev and several other servicemen of Military Unit No. 073, whose names he does not remember, sustained various types of bodily injuries.

Volume 329, case file sheets 251-255

According to forensic medical expert opinion No. 09 dated 26.04.2024, it was established that the bodily injuries sustained by Iskenderli Kyamran Suleyman oglu — blast trauma, closed craniocerebral injury and concussion resulting in vegetative-vascular instability, sprain of the ligaments of the left ankle joint — were caused by the impact of a blast wave as a result of a shot from a firearm, correspond to the date and circumstances specified in the medical document, 14.09.2022, and, in terms of severity, constitute minor harm to health.

Volume 334, case file sheets 1-246

Questioned as a victim, the assistant commander of the 073rd Military Unit of the Ministry of Defence for legal matters, Major Iskenderli Kyamran Suleyman oglu, stated in his testimony that on 14.09.2022 at approximately 11:00-12:00, while large-scale provocative actions by Armenian armed formations were being prevented, as a result of the explosion of a mortar shell fired by Armenian armed formations in the territory of the Kalbajar District, Private Nidzhat Garazade and Private Royal Balasazade were killed, while at the same time he,

Major Ilham Shakarov, Major Elvin Gashimov and several other servicemen of Military Unit No. 073, whose names he does not remember, sustained various types of bodily injuries.

Volume 329, case file sheets 220-223

According to forensic medical expert opinion No. 932 dated 26.04.2024, it was established that the bodily injuries sustained by Masiev Islam Magerram oglu — a closed craniocerebral injury and concussion — arise as a result of the impact of primary or secondary fragments resulting from the explosion of any explosive substance and are classified as minor or moderate harm to health.

Volume 334, case file sheets 1-246

Questioned as a victim, the paramedic of the medical aid post of Military Unit No. 073 of the Ministry of Defence, Warrant Officer Masiev Islam Magerram oglu, stated in his testimony that on 13.09.2022 at approximately 16:00, while large-scale provocative actions by Armenian armed formations were being prevented, as a result of the explosion of a mortar shell fired by Armenian armed formations in the territory of the Kalbajar District, servicemen of Military Unit No. 073, whose names he does not remember, were killed, while at the same time he and several other servicemen of Military Unit No. 073, whose names he does not remember, sustained various types of bodily injuries.

Volume 289, case file sheets 135-138

On the basis of forensic medical expert opinion No. 1031 dated 23.12.2023, it was established that the bodily injuries sustained by Nuraliyev Rovshan Eyvaz oglu — a closed craniocerebral injury — usually constitute minor harm to health because of the degree of vegetative-vascular instability following concussion.

Volume 275, case file sheets 163-164

Questioned as a victim, the head of the engineering service of Military Unit No. 073 of the Ministry of Defence, Private Nuraliyev Rovshan Eyvaz oglu, stated in his testimony that on 14.09.2022 at approximately 13:00, while large-scale provocative actions by Armenian armed formations were being prevented, as a result of the explosion of an artillery shell fired by Armenian armed formations in the territory of the Kalbajar District, servicemen of Military Unit No. 073, whose names he does not remember, were killed, while at the

[Page 698]

same time he and several other servicemen of Military Unit No. 073, whose names he does not remember, sustained various types of bodily injuries.

Volume 275, case file sheets 154-157

On the basis of forensic medical expert opinion No. 1000 dated 26.04.2024, it was established that the bodily injuries sustained by Safiev Jalal Nazim oglu — astheno-neurotic manifestations after a closed craniocerebral injury and concussion. Blast trauma, closed craniocerebral injury, post-concussion vegetative-vascular instability — arose as a result of

the impact of a blast wave caused by the explosion of any explosive substance and constitute minor harm to health.

Volume 334, case file sheets 1-246

Questioned as a victim, the senior operations assistant to the head of the operational and combat training department of Military Unit No. 073 of the Ministry of Defence, Major Safiev Jalal Nazim oglu, stated in his testimony that on 13.09.2022 at approximately 14:00, while large-scale provocative actions by Armenian armed formations were being prevented, as a result of the explosion of an artillery shell fired by Armenian armed formations in the territory of the Kalbajar District, servicemen of Military Unit No. 073, whose names he does not remember, were killed, while at the same time he and several other servicemen of Military Unit No. 073, whose names he does not remember, sustained various types of bodily injuries.

Volume 289, case file sheets 55-58

On the basis of forensic medical expert opinion No. 20 dated 26.04.2024, it was established that the bodily injuries sustained by Sultanov Yagir Shakhmardan oglu — blast trauma, closed craniocerebral injury, astheno-neurotic manifestations following concussion — arose as a result of the impact of a blast wave caused by the explosion of any explosive substance and constitute minor harm to health.

Volume 334, case file sheets 1-246

Questioned as a victim, the head of the radiation, chemical and biological protection service of Military Unit No. 073 of the Ministry of Defence, Captain Sultanov Yagir Shakhmardan oglu, stated in his testimony that on 13.09.2022 at approximately 14:00, while large-scale provocative actions by Armenian armed formations were being prevented, as a result of the explosion of a mortar shell fired by Armenian armed formations in the territory of the Kalbajar District, servicemen of Military Unit No. 073, whose names he does not remember, were killed, while at the same time he and several other servicemen of Military Unit No. 073, whose names he does not remember, sustained various types of bodily injuries.

Volume 289, case file sheets 25-28

According to forensic medical expert opinion No. 1002 dated 26.04.2024, it was established that the bodily injuries sustained by Suleymanov Bahruz Akif oglu — blast trauma, closed craniocerebral injury, post-concussion vegetative-vascular dystonia — arose as a result of the impact of a blast wave caused by the explosion of any explosive substance and, in terms of severity, constitute minor harm to health.

Volume 334, case file sheets 1-246

Questioned as a victim, the head of the communications department of Military Unit No. 073 of the Ministry of Defence, Lieutenant Colonel Suleymanov Bahruz Akif oglu, stated in his testimony that on 13.09.2022 at approximately 11:00, while large-scale provocative actions by Armenian armed formations were being prevented, as a result of the explosion of an

artillery shell fired by Armenian armed formations in the territory of the Kalbajar District, servicemen of Military Unit No. 073, whose names he does not remember, were killed, while at the

[Page 699]

same time he and several other servicemen of Military Unit No. 073, whose names he does not remember, sustained various types of bodily injuries.

Volume 289, case file sheets 15-18

According to forensic medical expert opinion No. 1013 dated 26.04.2024, it was established that the bodily injuries sustained by Pashaev Elnur Khavasat oglu — blast trauma, a previous closed craniocerebral injury, post-concussion vegetative-vascular instability. Barotrauma, bilateral chronic cochlear neuritis. Ringing in the ears — were caused by the impact of a blast wave resulting from the explosion of any explosive substance and, by reason of their degree, usually constitute minor harm to health.

Volume 334, case file sheets 1-246

Questioned as a victim, the commander of Detachment “M” of the 073rd Military Unit of the Ministry of Defence, Captain Pashaev Elnur Khavasat oglu, stated in his testimony that on 13.09.2022 at approximately 12:00, while large-scale provocative actions by Armenian armed formations were being prevented, as a result of the explosion of an artillery shell fired by Armenian armed formations in the territory of the Kalbajar District, servicemen of Military Unit No. 073, whose names he does not remember, were killed, while at the same time he and several other servicemen of Military Unit No. 073, whose names he does not remember, sustained various types of bodily injuries.

Volume 289, case file sheets 205-208

On the basis of forensic medical expert opinion No. 19 dated 26.04.2024, it was established that the bodily injuries sustained by Guliyev Parviz Aydemir oglu — a closed craniocerebral injury, astheno-neurotic manifestations and vegetative-vascular instability following concussion, a penetrating firearm wound of the lower third of the left arm and the left half of the lumbar region, an open fracture of the distal metaphysis of the left humerus with an uneven edge and rupture of the skin — arose as a result of the impact of a blast wave formed during the explosion of any explosive substance and, in terms of severity, fall within the category of serious harm to health.

Volume 334, case file sheets 1-246

Questioned as a victim, an operator of the personnel accounting department of Military Unit No. 075 of the Ministry of Defence, Warrant Officer Guliyev Parviz Aydemir oglu, stated in his testimony that on 13.09.2022 at approximately 11:00-12:00, while large-scale provocative actions by Armenian armed formations were being prevented, as a result of the explosion of a mortar shell fired by Armenian armed formations in the territory of the Kalbajar District, servicemen of Military Unit No. 073, Warrant Officer Said Hasanov, Lieutenant Sarkhan

Omarov, Lieutenant Colonel Idris Isaev, Warrant Officer Talekh Huseynov and several other servicemen of Military Unit No. 073, whose names he does not remember, sustained various types of bodily injuries.

Volume 329, case file sheets 240-244

On the basis of forensic medical expert opinion No. 1021 dated 26.04.2024, it was established that the bodily injuries sustained by Askerzade Anar Radim oglu — a closed craniocerebral injury, vegetative-vascular instability following concussion — arose as a result of the impact of a blast wave formed during the explosion of any explosive substance and, in terms of severity, constitute minor harm to health.

Volume 334, case file sheets 1-246

Questioned as a victim, the paramedic of the medical unit of the 2nd operational battalion of the 430th Military Unit of the Ministry of Defence, Warrant Officer Askerzade Anar Radim oglu, stated in his testimony that on 13.09.2022 at approximately 06:00-07:00, while large-scale provocative actions by Armenian armed formations were being prevented, as a result of the explosion of

[Page 700]

a mortar shell fired by Armenian armed formations in the territory of the Kalbajar District, servicemen of Military Unit No. 430, Private Umid Hasanov, Lieutenant Erkin Huseynov and Lieutenant Ravily Gumbatov, were killed, while at the same time he, Captain Private Nariman Adishli, Private Ehtiram Mammadov and several other servicemen of Military Unit No. 430, whose names he does not remember, sustained various types of bodily injuries.

Volume 330, case file sheets 113-116

On the basis of forensic medical expert opinion No. 1480 dated 28.10.2022, it was established that the bodily injuries sustained by Aliyev Ruslan Rasul oglu — a closed craniocerebral injury accompanied by concussion — in terms of severity constitute minor harm to health.

Volume 202, case file sheets 252-253

Questioned as a victim, the head of the training ground of the headquarters and support battalion of the 052nd Military Unit of the Ministry of Defence, Senior Lieutenant Aliyev Ruslan Rasul oglu, stated in his testimony that during the night of 12.09.2022, while large-scale provocative actions by Armenian armed formations were being prevented, as a result of the explosion of an artillery shell fired by Armenian armed formations in the territory of the Lachin District, servicemen of Military Unit No. 930, whose names he does not remember, sustained various types of bodily injuries.

Volume 331, case file sheets 82-85

According to forensic medical expert opinion No. 1199 dated 26.04.2024, it was established that the bodily injuries sustained by Eldarov Elchin Aslan oglu — a closed craniocerebral

injury and concussion — were caused by the impact of a primary or secondary fragment resulting from the explosion of any explosive substance and, by reason of their severity, usually constitute minor harm to health.

Volume 334, case file sheets 1-246

Questioned as a victim, the deputy commander of Military Unit No. 082 of the Ministry of Defence, Lieutenant Colonel Eldarov Elchin Aslan oglu, stated in his testimony that on 13.09.2022 at approximately 06:00-07:00, while large-scale provocative actions by Armenian armed formations were being prevented, as a result of the explosion of a mortar shell fired by Armenian armed formations in the territory of the Kalbajar District, servicemen of Military Unit No. 072, Private Huseynali Nabiev and Private Tural Magerramov, were killed, while at the same time he, Captain-Major Tofiq Abyshov, Major Elman Gurbanov and several other servicemen of Military Unit No. 072, whose names he does not remember, sustained various types of bodily injuries.

Volume 330, case file sheets 123-126

On the basis of forensic medical expert opinion No. 195 dated 29.01.2024, it was established that the bodily injuries sustained by Mansurov Nabi Mehman oglu — a closed craniocerebral injury accompanied by vegetative-vascular instability resulting from concussion — constitute minor harm to health by reason of the severity of the injury.

Volume 344, case file sheet 38

Questioned as a victim, the head of the medical unit of the 124th Military Unit of the Ministry of Defence, Warrant Officer Mansurov Nabi Mehman oglu, stated in his testimony that on 13.09.2022 at approximately 01:00, while large-scale provocative actions by Armenian armed formations were being prevented, as a result of the explosion of a mine laid by Armenian armed formations in the territory of the Kalbajar District, servicemen of Military Unit No. 172, whose names he does not remember, were killed, while at the same time he, Guliyev Ulvi and several other servicemen of Military Unit No. 172, whose names he does not remember, sustained various types of bodily injuries.

Volume 89, case file sheets 104-105, 109-111

[Page 701]

According to forensic medical expert opinion No. 1036 dated 26.04.2024, it was established that the bodily injuries sustained by Mikailly Jamaladdin Ilyas oglu — a closed craniocerebral injury, concussion — arose as a result of the impact of primary or secondary fragments resulting from the explosion of any explosive substance and are classified as minor or moderate harm to health.

Volume 334, case file sheets 1-246

When questioned as the injured chief of the medical unit of the 157th military unit of the Ministry of Defence, Senior Lieutenant of the Medical Service Mikailly Jamaladdin Ilyas oglu stated in his testimony that on 14.09.2022 at approximately 13-14 hours, while

preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of a mortar shell fired by Armenian armed formations on the territory of the Lachin District, servicemen of military unit No. 157, whose names he does not remember, were killed, while he and several other servicemen of military unit No. 157, whose names he does not remember, sustained various types of bodily injuries.

Volume 80, case file sheets 218-221, 227-229

According to forensic medical expert opinion No. 1026 dated 26.04.2024, the bodily injuries sustained by Hasanov Beyukaga Abdulla oglu — a closed craniocerebral injury caused by blast trauma, post-contusional condition. Right-sided cervical radiculitis of discogenic origin accompanied by sensory, motor and trophic disturbances. Barotrauma — arose as a result of bilateral acute cochlear neuritis caused by the impact of a blast wave generated by the explosion of any explosive substance and, according to severity, are classified as minor harm to health.

Volume 334, case file sheets 1-246

When questioned as the injured head of the housing and maintenance service of the 922nd military unit of the Ministry of Defence, serviceman Hasanov Beyukaga Abdulla oglu stated in his testimony that on 12.09.2022 at approximately 12:00, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of a mortar shell fired by Armenian armed formations on the territory of the Lachin District, servicemen of military unit No. 157, whose names he does not remember, were killed, while he and several other servicemen of military unit No. 157, whose names he does not remember, sustained various types of bodily injuries.

Volume 347, case file sheets 104-108

On the basis of forensic medical expert opinion No. 1031 dated 26.04.2024, it was established that the bodily injuries sustained by Ibrahimov Seymur Veli oglu — blast trauma. Vegetative-vascular instability after a closed craniocerebral injury, concussion. Asthenoneurotic manifestations after a closed craniocerebral injury — concussion — were caused by the impact of a blast wave generated by the explosion of any explosive substance and, according to severity, are classified as minor harm to health.

Volume 334, case file sheets 1-246

When questioned as the injured former commander of the mortar-battery section of the 1st division of the 172nd military unit of the Ministry of Defence, Private Ibrahimov Seymur Veli oglu stated in his testimony that on 13.09.2022 at approximately 04:00, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of a mortar shell fired by Armenian armed formations on the territory of the Lachin District, servicemen of military unit No. 172, whose names he does not remember, were killed, while he and several other servicemen

[Page 702]

of military unit No. 172, whose names he does not remember, sustained various types of bodily injuries.

Volume 329, case file sheets 107-111

According to forensic medical expert opinion No. 807 dated 26.04.2024, it was established that the bodily injuries sustained by Mammadov Amin Eldar oglu — blunt trauma to the upper part of the head and the left knee joint, bruising of the soft tissues, an abrasion of the upper surface of the back and of the left hand, post-traumatic swelling of the left knee joint — arose as a result of the impact of primary or secondary fragments formed during the explosion of any explosive substance and, according to their degree, cause insignificant harm to health.

Volume 334, case file sheets 1-246

When questioned as the injured assistant chief of staff for personnel matters of the 2nd Battalion of the 191st military unit of the Ministry of Defence, Captain Mammadov Amin Eldar oglu stated in his testimony that on 13.09.2022 at approximately 01:00, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of a mortar shell fired by Armenian armed formations in the Dashkesan District, servicemen of military unit No. 191, whose names he does not remember, were killed, while he and several other servicemen of the military unit — Private Nemat Bagirov, Warrant Officer Emrah Hajizade and Sergeant Subkhan Jafarov — sustained various types of bodily injuries.

Volume 343, case file sheet 167-167

According to forensic medical expert opinion No. 971 dated 26.04.2024, it was established that the bodily injuries sustained by Bakirov Rafig Salim oglu — blast trauma, a closed craniocerebral injury, post-contusional vegetative-vascular instability — arose as a result of the impact of a blast wave generated by the explosion of any explosive substance and, according to severity, are classified as minor harm to health.

Volume 334, case file sheets 1-246

When questioned as the injured commander of the 1st platoon of the 7th company of the 3rd Battalion of the 191st military unit of the Ministry of Defence, Warrant Officer Bakirov Rafig Salim oglu stated in his testimony that on 13.09.2022 at approximately 04:00, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of a mortar shell fired by Armenian armed formations in the Lachin District, servicemen of military unit No. 157, whose names he does not remember, were killed, while he and several other servicemen of the military unit sustained various types of bodily injuries.

Volume 343, case file sheets 174-177

According to forensic medical expert opinion No. 1037 dated 26.04.2024, it was established that the bodily injuries sustained by Kerimov Mammadtagi Yashar oglu — a closed craniocerebral injury, concussion — arose as a result of the impact of primary or secondary

fragments resulting from the explosion of any explosive substance and are classified as minor or moderate harm to health.

Volume 334, case file sheets 1-246

When questioned as the injured former rifleman of the material-support platoon of the 2nd Battalion of the 707th military unit of the Ministry of Defence, Private Kerimov Mammadtagi Yashar oglu stated in his testimony that on 13.09.2022 at approximately 02:00, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of a mortar shell fired by Armenian armed formations on the territory of the Kalbajar District, servicemen of military unit No. 707, whose names he does not remember, were killed, while he and several other servicemen

[Page 703]

of military unit No. 707, whose names he does not remember, sustained various types of bodily injuries.

Volume 329, case file sheets 40-44

On the basis of forensic medical expert opinion No. 24 dated 10.01.2024, it was established that the bodily injuries sustained by Vasalov Ilkin Mammad oglu — post-operative scars on the left shin and left paw, scars on the left heel, open displaced fractures of the left fibula, left calcaneus and fifth metatarsal bone — are regarded as dangerous to life.

Volume 343, case file sheets 153-156

When questioned as the injured former medical orderly-gunner of the 2021st military unit of the State Border Service, Senior Sergeant Vasalov Ilkin Mammad oglu stated in his testimony that on 13.09.2022 at approximately 02:00, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of a mortar shell fired by Armenian armed formations on the territory of the Zangilan District, he and serviceman Mehdi Yusifov sustained various types of bodily injuries.

Volume 343, case file sheets 139-144

On the basis of forensic medical expert opinion No. 74 dated 26.04.2024, it was established that the bodily injuries sustained by Ilhyaszade Farid Shahin oglu arose as a result of the impact of primary or secondary fragments formed during the explosion of any explosive substance and, according to severity, fall within the category of causing less serious harm to health.

Volume 334, case file sheets 1-246

When questioned as the injured head of the 1st group of the 1st section of the 1st operational directorate of military unit No. 2021 of the State Border Service, Captain Ilhyaszade Farid Shahin oglu stated in his testimony that on 13.09.2022 at approximately 01:00, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of an anti-tank grenade-launcher projectile fired by the Armed Forces of Armenia

on the territory of the Zangilan District, he and several other servicemen of military unit No. 2021, whose names he does not remember, sustained various types of bodily injuries.

Volume 338, case file sheets 218-221

According to forensic medical expert opinion No. 76 dated 26.04.2024, it was established that the bodily injuries sustained by Mammadov Safa Farman oglu — bilateral tubo-otitis — arose as a result of the impact of primary or secondary fragments formed during the explosion of any substance possessing explosive properties and, according to severity, are classified as causing less serious harm to health.

Volume 334, case file sheets 1-246

When questioned as the injured assistant medical orderly-grenade-launcher operator of the 1st group of the 1st section of the 1st operational department of military unit No. 2021 of the State Border Service, Warrant Officer Mammadov Safa Farman oglu stated in his testimony that on 13.09.2022 at approximately 01:00, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of a hand grenade thrown by Armenian armed formations on the territory of the Zangilan District, serviceman Farid Rustamov of military unit No. 2021 was killed, while he and several other servicemen of the military unit sustained various types of bodily injuries.

Volume 338, case file sheets 236-239

On the basis of forensic medical expert opinion No. 91 dated 26.04.2024, it was established that the bodily injuries sustained by Shamiliev

[Page 704]

Alish Ahmed oglu — a firearm penetrating wound to the soft tissues of the right hand — were caused by the impact of a primary or secondary fragment formed as a result of the explosion of any explosive substance and are classified as causing minor harm to health.

Volume 334, case file sheets 1-246

When questioned as the injured operator-sniper of the 1st group of the operational sniper subdivision of military unit No. 2021 of the State Border Service, Junior Sergeant Shamiev Alish Ahmed oglu stated in his testimony that on 13.09.2022 at approximately 14:30, while preventing large-scale provocative actions by Armenian armed formations, as a result of firing opened by Armenian armed formations on the territory of the Zangilan District, he and several other servicemen of the military unit, whose names he does not remember, sustained various types of bodily injuries.

Volume 339, case file sheets 16-19

On the basis of forensic medical expert opinion No. 95 dated 26.04.2024, it was established that the bodily injuries sustained by Hasanov Salekh Namig oglu — blast trauma, incised shrapnel wounds of a large area of the upper third of the posterior surface of the right side — were caused by the impact of primary or secondary fragments formed as a result of the

explosion of any explosive substance and, by their degree, are classified as minor harm to health.

Volume 334, case file sheets 1-246

When questioned as the injured tactical-training instructor of the combat-training department of the 2021st military unit of the State Border Service, Senior Warrant Officer Hasanov Salekh Namig oglu stated in his testimony that on 13.09.2022 at approximately 00-01 hours, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of a mortar shell fired by Armenian armed formations on the territory of the Zangilan District, servicemen of military unit No. 2021, Warrant Officer Farid Rustamov and Senior Warrant Officer Nahid Mammadov, were killed, while he, Senior Warrant Officer Tabriz Ramazanov, Senior Warrant Officer Farid Mammadov and several other servicemen of military unit No. 2021, whose names he does not remember, sustained various types of bodily injuries.

Volume 330, case file sheets 243-246; Volume 338, case file sheets 227-230

On the basis of forensic medical expert opinion No. 96 dated 26.04.2024, it was established that the bodily injuries sustained by Mammadov Farid Farhad oglu — military trauma which led to a blind fracture of the right elbow joint, an incomplete fracture of the lateral condyle of the humerus and a wound to the right side of the neck. An arachnoid cyst of the right temporal lobe of the brain. A condition that arose as a result of mild neurotic reactions associated with the situation — arose as a result of the impact of primary or secondary fragments formed as a result of the explosion of any explosive substance and are classified as less pronounced harm to health.

Volume 334, case file sheets 1-246

When questioned as the injured operator-sergeant of the 1st group of the 1st section of the 1st operational department of military unit No. 2021 of the State Border Service, Senior Warrant Officer Mammadov Farid Farhad oglu stated in his testimony that on the night of 13.09.2022, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of a hand grenade by armed formations of Armenia on the territory of the Zangilan District, servicemen of military unit No. 2021 were killed

[Page 705]

while he and several other servicemen of military unit No. 2021, whose names he does not remember, sustained various types of bodily injuries.

Volume 339, case file sheets 114-117

According to forensic medical expert opinion No. 103 dated 26.04.2024, it was established that the bodily injuries sustained by Ramazanov Tabriz Gudrat oglu — a shrapnel wound to the dorsal surface of the right hand, the second finger of the left hand, with areas of burns, multiple shrapnel wounds of the neck, face and chest — arose as a result of the impact of

primary or secondary fragments formed as a result of the explosion of any explosive substance and are classified as less serious injuries to health.

Volume 334, case file sheets 1-246

When questioned as the injured operator-scout of the 1st group of the 1st section of the 1st operational directorate of military unit No. 2021 of the State Border Service, Senior Warrant Officer Ramazanov Tabriz Gudrat oglu stated in his testimony that on the night of 13.09.2022, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of a hand grenade by armed formations of Armenia on the territory of the Zangilan District, serviceman Farid Rustamov of military unit No. 2021 was killed, while he, and servicemen Farid Mammadov and Salekh Hasanov, sustained various types of bodily injuries.

Volume 339, case file sheets 123-126

According to forensic medical expert opinion No. 79 dated 26.04.2024, it was established that the bodily injuries sustained by Mirzaliyev Sanan Radil oglu — blind shrapnel wounds of the wrist and hand — arose as a result of the impact of primary or secondary fragments formed as a result of the explosion of any explosive substance and are classified as less serious bodily injuries.

Volume 334, case file sheets 1-246

When questioned as the injured chief of the 1st operational department of military unit No. 2021 of the State Border Service, Captain Mirzaliyev Sanan Radil oglu stated in his testimony that on 13.09.2022 at approximately 01:00, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of a hand grenade by armed formations of Armenia on the territory of the Zangilan District, servicemen of military unit No. 2021, whose names he does not remember, were killed, while he and several other servicemen sustained various types of bodily injuries.

Volume 338, case file sheets 209-212

According to forensic medical expert opinion No. 80 dated 26.04.2024, it was established that the bodily injuries sustained by Gurbanov Gurban Fazil oglu — an infected shrapnel wound of the right knee, a wound of the left thigh — were caused by the impact of a blast wave generated by the explosion of any explosive substance and, according to severity, are classified as minor harm to health.

Volume 334, case file sheets 1-246

When questioned as the injured chief of the operational department of military unit No. 2021 of the State Border Service, Captain Gurbanov Gurban Fazil oglu stated in his testimony that on 13.09.2022 at approximately 01:00, while preventing large-scale provocative actions by Armenian armed formations, as a result of firing opened by Armenian armed formations on the territory of the Zangilan District, Junior Warrant Officer Elshan Babazade and Senior Warrant Officer Azer Mammadov of military unit No. 2021 were killed, while he, Lieutenant

Agshin Zamanov, Senior Warrant Officer Tural Zeynalov and several other servicemen of the military unit

[Page 706]

whose names he does not remember, sustained various types of bodily injuries.

Volume 330, case file sheets 213-216

On the basis of forensic medical expert opinion No. 1200 dated 26.04.2024, it was established that the bodily injuries sustained by Zamanov Agshin Rahim oglu — a blind shrapnel wound in the region of the left eye — were caused by the impact of a primary or secondary fragment resulting from the explosion of any explosive substance and are classified as minor harm to health.

Volume 334, case file sheets 1-246

When questioned as the injured commander of the 1st group of the 3rd section of the 2nd department of military unit No. 2021 of the State Border Service, Lieutenant Zamanov Agshin Rahim oglu stated in his testimony that on 13.09.2022 at approximately 10-11 hours, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of a mortar shell fired by Armenian armed formations on the territory of the Zangilan District, Senior Warrant Officer Nahid Mammadov and Senior Warrant Officer Azer Mammadov of military unit No. 2021 were killed, while he, Captain Gurban Gurbanov, Senior Warrant Officer Salekh Hasanov and several other servicemen of military unit No. 2021, whose names he does not remember, sustained various types of bodily injuries.

Volume 330, case file sheets 223-226

On the basis of forensic medical expert opinion No. 1038 dated 26.04.2024, it was established that the bodily injuries sustained by Talibov Khasil Matlab oglu — right-sided tubo-otitis — arose as a result of the impact of a primary or secondary fragment formed as a result of the explosion of any explosive substance and are classified as causing minor harm to health.

Volume 334, case file sheets 1-246

When questioned as the injured assistant operator-grenade-launcher operator of the 2nd group of the 2nd section of the 2nd operational department of military unit No. 2021 of the State Border Service, Senior Warrant Officer Talibov Khasil Matlab oglu stated in his testimony that on 13.09.2022 at approximately 01:00, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of a mortar shell fired by Armenian armed formations on the territory of the Zangilan District, Captain Farid Mehballi and Lieutenant Elshan Babazade of military unit No. 2021 were killed, while he, Junior Sergeant Ilkin Vasalov, Sergeant Mehdi Yusifov and several other servicemen of military unit No. 2021, whose names he does not remember, sustained various types of bodily injuries.

Volume 330, case file sheets 253-256

On the basis of forensic medical expert opinion No. 83 dated 26.04.2024, it was established that the injuries sustained by Amrali Zamin Zabil oglu — a horizontal rupture of the lateral meniscus of the left knee joint — were caused by the impact of a primary or secondary fragment as a result of the explosion of any explosive substance and are classified as minor harm to health.

Volume 334, case file sheets 1-246

When questioned as the injured assistant operator-sniper of the 1st group of the 1st section of the 1st directorate of military unit No. 2021 of the State Border Service, Warrant Officer Amrali Zamin Zabil oglu stated in his testimony that on 13.09.2022 at approximately 10-11 hours, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of a mortar shell fired by Armenian armed formations on the territory of the Zangilan District, Senior Warrant Officer Farid Rustamov and Senior Warrant Officer Nahid

[Page 707]

Mammadov were killed, while he, Senior Warrant Officer Farid Mammadov, Senior Warrant Officer Salekh Hasanov and several other servicemen of military unit No. 2021, whose names he does not remember, sustained various types of bodily injuries.

Volume 330, case file sheets 233-236

On the basis of forensic medical expert opinion No. 97 dated 26.04.2024, it was established that the bodily injuries sustained by Nazarov Bahruz Sattar oglu — a closed craniocerebral injury caused by blast trauma, post-contusional condition. OU — mild hypermetropia with refraction of 0.5 D. OU — visual acuity 1 unit. OS — condition after peripheral chorioretinal degeneration — arose as a result of the impact of primary or secondary fragments formed during the explosion of any explosive substance and are classified as minor harm to health.

Volume 334, case file sheets 1-246

When questioned as the injured former commander of a section of military unit No. 2028 of the State Border Service, Senior Lieutenant Nazarov Bahruz Sattar oglu stated in his testimony that on 14.09.2022 at approximately 16:00, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of a mortar shell fired by Armenian armed formations on the territory of the Zangilan District, servicemen of military unit No. 2028, whose names he does not remember, were killed, while he, Lieutenant Sakhavat Radjabov and several other servicemen of military unit No. 2028, whose names he does not remember, sustained various types of bodily injuries.

Volume 347, case file sheets 171-174

According to forensic medical expert opinion No. 108 dated 26.04.2024, it was established that the bodily injuries sustained by Zulfegarov Israfil Alizamin oglu — combat trauma, blind shrapnel wounds of various parts of the body, an incomplete fracture of the acromial process of the right scapula, right-sided aurotitis — arose as a result of the impact of a primary or

secondary fragment formed as a result of the explosion of any explosive substance and are classified as less serious danger to health.

Volume 334, case file sheets 1-246

When questioned as the injured commander of the communications section of the support platoon of the rapid-response Battalion of military unit No. 2050 of the State Border Service, Warrant Officer Zulfegarov Israfil Alizamin oglu stated in his testimony that on 13.09.2022 at approximately 10:00, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of a mortar shell fired by Armenian armed formations on the territory of the Zangilan District, servicemen of military unit No. 2050, whose names he does not remember, were killed, while he and several other servicemen of military unit No. 2050, whose names he does not remember, sustained various types of bodily injuries.

Volume 80, case file sheets 208-210, 216-217

On the basis of forensic medical expert opinion No. 109 dated 26.04.2024, it was established that the bodily injuries sustained by Farzullaev Emrakh Yashar oglu — combat trauma, a blind shrapnel wound of the left shin, an open fracture of the distal end of the fibula without displacement, chronic urticaria — arose as a result of the impact of primary or secondary fragments formed during the explosion of any explosive substance and, according to severity, are classified as causing less serious harm to health.

Volume 334, case file sheets 1-246

When questioned as the injured commander of the 1st group of the 1st guard platoon of the staff section of military unit No. 2051 of the State Border Service, Warrant Officer Farzullaev Amrakh Yashar

[Page 708]

oglu stated in his testimony that on 13.09.2022 at approximately 11:00, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of a mortar shell fired by Armenian armed formations on the territory of the Zangilan District, servicemen of military unit No. 2051, whose names he does not remember, were killed, while he and several other servicemen of military unit No. 2051, whose names he does not remember, sustained various types of bodily injuries.

Volume 45, case file sheets 1-3, 9-10

According to forensic medical expert opinion No. 87 dated 26.04.2024, it was established that the bodily injuries sustained by Ahmedov Shahin Mahir oglu — combat trauma, a lacerated wound of the knee of the right lower limb, a large haematoma of the soft tissues of the thigh, an incomplete fracture of the anterior wall of the right patella — were caused by the impact of a primary or secondary fragment as a result of the explosion of any explosive substance and are classified as less serious harm to health.

Volume 334, case file sheets 1-246

When questioned as the injured rifleman of the reconnaissance aviation of the 1st group of the 1st company of the rapid-response Battalion of the 3100th military unit of the State Border Service, Warrant Officer Ahmedov Shahin Mahir oglu stated in his testimony that on 13.09.2022 at approximately 05-06 hours, while preventing large-scale provocative actions by Armenian armed formations, as a result of firing opened by Armenian armed formations on the territory of the Zangilan District, Captain Farid Mehballi, Senior Sergeant Tabriz Rahimov and Senior Warrant Officer Nahid Mammadov of military unit No. 3100 were killed, while he, Junior Sergeant Togrul Nadjafli, Senior Sergeant Rasul Feyzullaev and several other servicemen of military unit No. 3100, whose names he does not remember, sustained various types of bodily injuries.

Volume 329, case file sheets 160-163

According to forensic medical expert opinion No. 86 dated 26.04.2024, it was established that the bodily injuries sustained by Djabrailov Zeynal Eldeniz oglu — military combat trauma, a blind bullet wound to the right thigh — were caused by a firearm wound, as well as by the impact of a blast wave generated by the explosion of any explosive substance, and are classified as causing less serious harm to health.

Volume 334, case file sheets 1-246

When questioned as the injured assistant grenade-launcher operator of the 2nd group of the 3rd company of the rapid-response Battalion of the 3100th military unit of the State Border Service, Junior Warrant Officer Djabrailov Zeynal Eldeniz oglu stated in his testimony that on 13.09.2022 at approximately 02-03 hours, while preventing large-scale provocative actions by Armenian armed formations, as a result of firing opened by Armenian armed formations on the territory of the Zangilan District, Captain Farid Mehballi and Senior Sergeant Tabriz Rahimov of military unit No. 071 were killed, while he, Warrant Officer Azizaga Garaev, Junior Sergeant Togrul Nadjafli and several other servicemen of military unit No. 071, whose names he does not remember, sustained various types of bodily injuries.

Volume 329, case file sheets 140-143

According to forensic medical expert opinion No. 88 dated 26.04.2024, it was established that the bodily injuries sustained by Gasinly Seymour Faday oglu — multiple blind shrapnel wounds of the anterior surface of the left shin, a blind shrapnel wound of the posterior upper third of the right thigh, condition after primary surgical treatment of multiple shrapnel wounds of the torso, post-traumatic orchitis, multiple foreign bodies —

[Page 709]

arose as a result of the impact of primary or secondary fragments as a result of the explosion of any explosive substance and, by their degree of impact, fall within the category of causing less serious harm to health.

Volume 334, case file sheets 1-246

When questioned as the injured officer of the material-support department of the 3100th military unit of the State Border Service, Lieutenant Hasanly Seymur Faday oglu stated in his testimony that on 13.09.2022 at approximately 04-05 hours, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of a grenade thrown by Armenian armed formations on the territory of the Zangilan District, Senior Warrant Officer Azer Mammadov and Senior Sergeant Shamistan Sadygov of military unit No. 071 were killed, while he, Junior Warrant Officer Zeynal Djabrailov, Junior Warrant Officer Elmin Huseynli and several other servicemen of military unit No. 071, whose names he does not remember, sustained various types of bodily injuries.

Volume 329, case file sheets 150-153

According to forensic medical expert opinion No. 89 dated 26.04.2024, it was established that the bodily injuries sustained by Feyzullaev Rasul Rufat oglu — a penetrating bullet wound of the right shin, a comminuted fracture of the first metatarsal bone of the right shin — were caused by the impact of a primary or secondary fragment formed as a result of the explosion of any explosive substance and, according to severity, are classified as less serious injuries to health.

Volume 334, case file sheets 1-246

When questioned as the injured former deputy commander of the reconnaissance group of the rapid-response unit of the 3100th military unit of the Rapid Response Forces of the State Border Service, Senior Sergeant Feyzullaev Rasul Rufat oglu stated in his testimony that on 13.09.2022 at approximately 02:00, while preventing large-scale provocative actions by Armenian armed formations, as a result of firing opened by Armenian armed formations on the territory of the Zangilan District, servicemen of military unit No. 3100, whose names he does not remember, were killed, while he and several other servicemen of military unit No. 3100, whose names he does not remember, sustained various types of bodily injuries.

Volume 347, case file sheets 236-239

According to forensic medical expert opinion No. 94 dated 26.04.2024, it was established that the bodily injuries sustained by Nadjaflı Togrul Mehdi oglu — a penetrating firearm wound of the right arm, a rupture of the soft tissues and of the biceps muscle of the arm, mild neurotic reactions — were caused by the impact of a primary or secondary fragment formed as a result of the explosion of any explosive substance and are classified as less serious injuries to health.

Volume 334, case file sheets 1-246

When questioned as the injured former commander of the 1st group of the 1st company of the rapid-response Battalion of the 3100th military unit of the State Border Service, Junior Warrant Officer Nadjaflı Togrul Mehdi oglu stated in his testimony that on 13.09.2022 at approximately 05-06 hours, while preventing large-scale provocative actions by Armenian armed formations, as a result of firing opened by Armenian armed formations on the territory of the Zangilan District, Senior Warrant Officer Farid Rustamov, Captain Farid Mehbali and

Senior Sergeant Tabriz Rahimov of military unit No. 3100 were killed, while he, Warrant Officer Shahin Ahmedov, Junior Sergeant Bahram Garaev and several other servicemen of military unit No. 3100, whose names he does not remember, sustained various types of bodily injuries.

Volume 329, case file sheets 170-173

[Page 710]

On the basis of forensic medical expert opinion No. 93 dated 26.04.2024, it was established that the bodily injuries sustained by Mammadov Rahib Rovshan oglu — a blind shrapnel wound of the left side — arose as a result of the impact of a primary or secondary fragment formed as a result of the explosion of any explosive substance and are classified as causing minor harm to health depending on severity.

Volume 334, case file sheets 1-246

When questioned as the injured scout-rifleman of the 1st group of the 2nd company of the rapid-response Battalion of the 3100th military unit of the State Border Service, Senior Sergeant Mammadov Rahib Rovshan oglu stated in his testimony that on 13.09.2022 at approximately 04-05 hours, while preventing large-scale provocative actions by Armenian armed formations, as a result of firing opened by Armenian armed formations on the territory of the Zangilan District, Senior Warrant Officer Farid Rustamov, Captain Farid Mehballi and Senior Sergeant Tabriz Rahimov of military unit No. 3100 were killed, while he, Warrant Officer Ibrahim Maylly, Lieutenant Seymour Hasanly and several other servicemen of military unit No. 3100, whose names he does not remember, sustained various types of bodily injuries.

Volume 329, case file sheets 180-183

According to forensic medical expert opinion No. 84 dated 26.04.2024, it was established that the bodily injuries sustained by Maylly Ibrahim Rahim oglu — barotrauma, left-sided tubo-otitis, a mashed-lacerated wound of the inner surface of the left hand — arose as a result of the impact of primary or secondary fragments formed as a result of the explosion of any explosive substance and, by severity, are classified as less serious harm to health.

Volume 334, case file sheets 1-246

When questioned as the injured scout-gunner of the 1st group of the 2nd division of the rapid-response Battalion of military unit No. 3100 of the State Border Service, Warrant Officer Maylly Ibrahim Rahim oglu stated in his testimony that on 13.09.2022 at approximately 02-03 hours, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of a mortar shell fired by Armenian armed formations on the territory of the Zangilan District, Captain Farid Mehballi and Senior Sergeant Tabriz Rahimov of military unit No. 3100 were killed, while he, Senior Sergeant Rahib Mammadov, Lieutenant Seymour Hasanly and several other servicemen of military unit No. 3100, whose names he does not remember, sustained various types of bodily injuries.

Volume 329, case file sheets 130-133

On the basis of forensic medical expert opinion No. 819 dated 26.04.2024, it was established that the bodily injuries sustained by Azizov Khalid Ilham oglu — blast trauma, residual manifestations of post-traumatic neuropathy of the right ulnar nerve with mild impairment of limb function. Blast trauma, a hardened skin scar after a shrapnel wound of both elbows and the right elbow, a foreign body (metal fragment) in the right elbow. A hardened skin scar after a small shrapnel wound of the left half of the face — arose as a result of the impact of a primary or secondary fragment formed as a result of the explosion of any explosive substance and, according to severity, are classified as less serious harm to health.

Volume 334, case file sheets 1-246

When questioned as the injured commander of the 1st group of the 2nd platoon of the 3rd company of the 1st operational Battalion of the 430th military unit of the Ministry of Defence, Warrant Officer Azizov Khalid Ilham oglu stated in his testimony that on 13.09.2022 at approximately 05-06 hours, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion

[Page 711]

of a mortar shell fired by Armenian armed formations on the territory of the Kalbajar District, servicemen of military unit No. 072, Private Umid Hasanov, Lieutenant Erkin Huseynov and Warrant Officer Ismail Budagly, were killed, while he, Private Sakhavat Ismail, Private Ismail Huseynov and several servicemen of military unit No. 430, whose names he does not remember, sustained various types of bodily injuries.

Volume 333, case file sheets 157-160

According to forensic medical expert opinion No. 978 dated 26.04.2024, it was established that the bodily injuries sustained by Nazarli Vugar Asim oglu — lacerated wounds to the dorsal surface of the right hand in the area of the proximal phalanges of the IV and V fingers, skin scars at those sites — were caused by the impact of primary or secondary fragments, as well as a blast wave, generated by the explosion of any explosive substance, and are classified as causing insignificant harm to health.

Volume 334, case file sheets 1-246

When questioned as the injured serviceman of military unit No. 430 of the Ministry of Defence, Private Nazarli Vugar Asim oglu stated in his testimony that on 13.09.2022, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of a mortar shell fired by Armenian armed formations on the territory of the Kalbajar District, servicemen of military unit No. 430, whose names he does not remember, were killed, while he and servicemen of military unit No. 430, whose names he does not remember, sustained various types of bodily injuries.

Volume 334, case file sheets 132-134

According to forensic medical expert opinion No. 973 dated 26.04.2024, it was established that the bodily injuries sustained by Rzaguliyev Jeyhun Hakimaga oglu — follicular angina, barotrauma, bilateral chronic cochlear neuritis, whispered speech heard by both ears at a distance of 6 metres. Blast trauma, a previous closed craniocerebral injury, post-contusional vegetative-vascular instability, microliths of the left kidney — were caused by the impact of a blast wave generated by the explosion of any explosive substance and, according to severity, are classified as injuries presenting minor danger to health.

Volume 334, case file sheets 1-246

According to forensic medical expert opinion No. 996 dated 26.04.2024, it was established that the bodily injuries sustained by Samedov Ehtiram Garib oglu — barotrauma, bilateral acute cochlear neuritis, bilateral sensorineural hearing loss, whispered speech heard at a distance of 3.5 metres by the left ear and 4 metres by the right ear. Blast trauma, scars after shrapnel wounds of the first, second and third fingers of the left hand — were caused by the impact of a blast wave generated by the explosion of any explosive substance and, according to severity, are classified as injuries presenting minor danger to health.

Volume 334, case file sheets 1-246

According to forensic medical expert opinion No. 854 dated 26.04.2024, it was established that the bodily injuries sustained by Bashirov Rashad Elkhan oglu — blast trauma, bilateral chronic cochlear neuritis, persistent bilateral sensorineural hearing loss, with whispered speech heard at a distance of 5 metres by both ears. Blast trauma, hardened skin scars after a blind shrapnel wound to the right knee joint, foreign bodies in the soft tissues (metal fragments) — were caused by the impact of primary or secondary fragments, including the blast wave, generated by the explosion of any explosive substance and, according to severity, are classified as causing less serious harm to health.

Volume 334, case file sheets 1-246

[Page 712]

When questioned as the injured commander of the 1st platoon of the 2nd Battalion of the 1st company of military unit No. 769 of the Ministry of Defence, Lieutenant Bashirov Rashad Elkhan oglu stated in his testimony that on 13.09.2022 at approximately 10:00, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of an artillery shell fired by Armenian armed formations on the territory of the Lachin District, servicemen Junior Sergeant Maftun Akhmadzade, Private Jamil Gurbanzade and Private Aykhan Agaev were killed.

Volume 329, case file sheets 7-10

On the basis of forensic medical expert opinion No. 817 dated 26.04.2024, it was established that the bodily injuries sustained by Alizade Kamran Joshgun oglu — a closed craniocerebral injury as a result of blast trauma; moderate (mild) organic affective (depressive) disorder after concussion; moderate (mild) prolonged post-traumatic stress disorder. A closed craniocerebral injury resulting from blast trauma, post-traumatic encephalopathy with persistent vegetative-

vascular instability, chronic cephalgic and insomnia syndrome, cognitive deficit. Hardened skin scars on the dorsal surfaces of both hands and the dorsal surface of the left shin after the impact of a blunt object, a foreign body in the soft tissues (metal fragment) — were caused by the impact of primary or secondary fragments, including the blast wave, generated by the explosion of any explosive substance and, according to severity, are classified as causing less serious harm to health.

Volume 334, case file sheets 1-246

When questioned as the injured former commander of the anti-tank division of military unit No. 769 of the Ministry of Defence, Senior Lieutenant Alizade Kamran Joshgun oglu stated in his testimony that on 13.09.2022 at approximately 13:00, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of a mortar shell fired by Armenian armed formations on the territory of the Lachin District, a serviceman of military unit No. 769, over-term serviceman Shahlar Mammadov, and other servicemen of military unit No. 769, whose names he does not remember, sustained various types of bodily injuries.

Volume 329, case file sheets 95-99

According to forensic medical expert opinion No. 1191 dated 26.04.2024, it was established that the bodily injuries sustained by Djabrailov Yasin Eldeniz oglu — blast trauma, a closed craniocerebral injury, concussion — were caused by the impact of primary or secondary fragments generated by the explosion of any explosive substance and, according to severity, are classified as causing minor harm to health.

Volume 334, case file sheets 1-246

When questioned as the injured former scout-sentry of the 2nd group of the 1st platoon of the 2nd company of the 3rd Battalion of military unit No. 769 of the Ministry of Defence, Private Djabrailov Yasin Eldeniz oglu stated in his testimony that on 13.09.2022 at approximately 02:00, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of a mortar shell fired by Armenian armed formations on the territory of the Lachin District, servicemen of military unit No. 769, whose names he does not remember, were killed, while he and servicemen of military unit No. 769, whose names he does not remember, sustained various types of bodily injuries.

Volume 342, case file sheets 91-93, 99-100

According to forensic medical expert opinion No. 987 dated 26.04.2024, it was established that the bodily injuries sustained by Hamidov Jamal Kamal oglu — blast trauma, a closed craniocerebral injury, post-contusional

[Page 713]

vegetative-vascular instability — were caused by the impact of a blast wave generated by the explosion of any explosive substance and, according to severity, are classified as causing minor harm to health.

Volume 334, case file sheets 1-246

When questioned as the injured former scout-sniper of the 2nd section of the 2nd platoon of the sniper subdivision of military unit No. 769 of the Ministry of Defence, Private Hamidov Jamal Kamal oglu stated in his testimony that on 13.09.2022 at approximately 01:00, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of a mortar shell fired by Armenian armed formations on the territory of the Lachin District, servicemen of military unit No. 706, whose names he does not remember, were killed, while he and servicemen of military unit No. 706, whose names he does not remember, sustained various types of bodily injuries.

Volume 347, case file sheets 225-228

According to forensic medical expert opinion No. 1119 dated 26.04.2024, it was established that the bodily injuries sustained by Takhmazov Samir Teymur oglu — a firearm wound to the thigh of the left leg — were caused by the impact of a primary or secondary fragment generated by the explosion of any explosive substance and, as a rule, are classified as causing minor harm to health.

Volume 334, case file sheets 1-246

When questioned as the injured officer of reconnaissance and fortification of the 2nd group of the 2nd platoon of the 2nd company of the 1st Battalion of military unit No. 769 of the Ministry of Defence, Private Takhmazov Samir Teymur oglu stated in his testimony that on 13.09.2022 at approximately 04:00, while preventing large-scale provocative actions by Armenian armed formations, as a result of firing by the Armed Forces of Armenia on the territory of the Lachin District, serviceman Mirtalib Agazade was killed, while he and several other servicemen, whose names he does not remember, sustained various types of bodily injuries.

Volume 342, case file sheets 181-183, 189-190

According to forensic medical expert opinion No. 855 dated 26.04.2024, it was established that the bodily injuries sustained by Aliyev Mazakhir Kerim oglu — blast trauma, barotrauma, blunt trauma to the chest — were caused by the impact of primary or secondary fragments generated by the explosion of any explosive substance and, according to severity, are classified as minor bodily injuries.

Volume 334, case file sheets 1-246

When questioned as the injured deputy commander of military unit No. 888 of the Ministry of Defence, Lieutenant-Colonel Aliyev Mazakhir Kerim oglu stated in his testimony that on 13.09.2022 at approximately 13:00, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of an artillery shell on the territory of the Kalbajar District, serviceman of military unit No. 888 Samedov Elvin Mirzali oglu was killed, while he, Guliyev Murad and several servicemen of military unit No. 888, whose names he does not remember, sustained various types of bodily injuries.

Volume 80, case file sheets 243-244, 248-250

According to forensic medical expert opinion No. 1193 dated 26.04.2024, it was established that the bodily injuries sustained by Avazov Seymur Gojaahmed oglu — burns to the face and hands — were caused by the impact of primary or secondary fragments generated by the explosion of any explosive substance and are classified as minor bodily injuries.

Volume 334, case file sheets 1-246**[Page 714]**

When questioned as the injured mechanic-driver of the 2nd platoon of military unit No. 949 of the Ministry of Defence, Private Avazov Seymur Gojaahmed oglu stated in his testimony that on 13.09.2022 at approximately 13:00, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of an artillery gun/projectile fired by Armenian armed formations on the territory of the Kalbajar District, servicemen of military unit No. 949, whose names he does not remember, were killed, while he and servicemen of military unit No. 949, whose names he does not remember, sustained various types of bodily injuries.

Volume 80, case file sheets 180-181, 186-188

According to forensic medical expert opinion No. 1194 dated 26.04.2024, it was established that the bodily injuries sustained by Shakarov Jeyhun Talekh oglu — a closed craniocerebral injury, a condition after concussion — were caused by the impact of primary or secondary fragments during the explosion of any explosive substance and, depending on the degree, are classified as causing minor harm to health.

Volume 334, case file sheets 1-246

When questioned as the injured chief of the technical-support service of military unit No. 037 of the Ministry of Defence, Captain Shakarov Jeyhun Talekh oglu stated in his testimony that on 15.09.2022 at approximately 21:00, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of a mortar shell fired by Armenian armed formations on the territory of the Kalbajar District, servicemen of military unit No. 072 Gadim Khalilov and Umid Imamgulyev were killed, while he, Justice Captain Ramil Gulyev, Lieutenant-Colonel Niyameddin Askerov and several servicemen of military unit No. 072 sustained various types of bodily injuries.

Volume 347, case file sheets 38-42

According to forensic medical expert opinion No. 1195 dated 26.04.2024, it was established that the bodily injuries sustained by Babayev Nabi Tofiq oglu — a closed craniocerebral injury, concussion — were caused by the impact of primary or secondary fragments during the explosion of any explosive substance and are classified as causing minor or moderate harm to health.

Volume 334, case file sheets 1-246

When questioned as the injured former senior assistant to the head of the reconnaissance department of military unit No. 052 of the Ministry of Defence, Lieutenant-Colonel Babayev Nabi Tofiq oğlu stated in his testimony that on 12.09.2022 at approximately 23:30, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of an artillery shell fired by Armenian armed formations on the territory of the Lachin District, servicemen of military unit No. 052, whose names he does not remember, sustained various types of bodily injuries.

Volume 331, case file sheets 133-135

According to forensic medical expert opinion No. 1196 dated 26.04.2024, it was established that the bodily injuries sustained by Guliyev Rashad Murshud oğlu — a closed craniocerebral injury, post-contusional vegetative-vascular instability — were caused by the impact of primary or secondary fragments during the explosion of any explosive substance and, depending on the degree, are classified as causing minor harm to health.

Volume 334, case file sheets 1-246

When questioned as the injured investigator of military unit No. 052 of the Ministry of Defence, Justice Major Guliyev Rashad Murshud oğlu stated in his testimony that on 14.09.2022 at approximately 15-16 hours, while preventing

[Page 715]

large-scale provocative actions by Armenian armed formations, as a result of the explosion of a mortar shell fired by Armenian armed formations on the territory of the Kalbajar District, servicemen of military unit No. 052 Lieutenant-Colonel Jeyhun Azizov and Lieutenant-Colonel İlham Abbasov, as well as several servicemen of military unit No. 052, whose names he does not remember, sustained various types of bodily injuries.

Volume 330, case file sheets 183-186

According to forensic medical expert opinion No. 1198 dated 26.04.2024, it was established that the bodily injuries sustained by Mikailly Asim Rauf oğlu — a closed craniocerebral injury, post-contusional vegetative-vascular instability — were caused by the impact of primary or secondary fragments generated by the explosion of any explosive substance and, according to severity, are classified as causing minor harm to health.

Volume 334, case file sheets 1-246

When questioned as the injured head of the material service of military unit No. 072 of the Ministry of Defence, Captain Mikailly Asim Rauf oğlu stated in his testimony that on 13.09.2022 at approximately 15-16 hours, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of a mortar shell on the territory of the Kalbajar District, servicemen of military unit No. 072, Private Turan Magerramov and Private Farid Latifov, were killed, while he, Justice Major Niyameddin Askerov, Private Ulvin Musaev and several servicemen of military unit No. 072, whose names he does not remember, sustained various types of bodily injuries.

Volume 333, case file sheets 7-10

According to forensic medical expert opinion No. 32 dated 26.04.2024, it was established that the bodily injuries sustained by Djafarov Faig Javanshir oglu — wounds to the spleen, head, left shoulder, right lower limb and left half of the chest penetrating into the pleural cavity, accompanied by left-sided haemopneumothorax, right-sided acute cochlear neuritis as a result of barotrauma, a closed craniocerebral injury sustained as a result of blast trauma, astheno-neurotic manifestations after concussion — were caused by the impact of primary or secondary fragments, including a blast wave, generated by the explosion of any explosive substance and, according to severity, are classified as causing serious harm to health.

Volume 334, case file sheets 1-246

When questioned as the injured deputy commander of the 1st platoon of the anti-tank division of military unit No. 157 of the Ministry of Defence, Warrant Officer Djafarov Faig Javanshir oglu stated in his testimony that on 13.09.2022 at approximately 01:00, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of a mortar shell fired by Armenian armed formations on the territory of the Lachin District, servicemen of military unit No. 072, whose names he does not remember, were killed, while he and servicemen of military unit No. 072, whose names he does not remember, sustained various types of bodily injuries.

Volume 347, case file sheets 192-196

According to forensic medical expert opinion No. 911 dated 26.04.2024, it was established that the bodily injuries sustained by Mammadov Shakhlar Azay oglu — a slight impairment of limb function as a result of blast trauma, post-traumatic neuropathy of the left sciatic nerve. A previous closed craniocerebral injury, post-contusional vegetative-vascular dystonia; a previous closed craniocerebral injury, post-contusional astheno-neurotic manifestations. Blast trauma: an open, slightly displaced fracture of the middle third of the right fibula,

[Page 716]

blind shrapnel wounds of the right fibula, left thigh, left elbow and left scapula; primary surgical treatment of the wounds; satisfactory healing following osteosynthesis using the G.A. Ilizarov method; fractures and foreign bodies in the soft tissues (metal fragments). Barotrauma caused right-sided chronic cochlear neuritis, right-sided persistent sensorineural hearing loss, with whispered speech heard at a distance of 5 metres by the right ear and 6 metres by the left ear — were caused by the impact of primary or secondary fragments, including the blast wave, generated by the explosion of any explosive substance, and, according to degree, are classified as causing serious harm to health.

Volume 334, case file sheets 1-246

When questioned as the injured commander of the 1st section of the 4th platoon of the anti-tank subdivision of military unit No. 769 of the Ministry of Defence, Junior Sergeant Mammadov Shakhlar Azay oglu stated in his testimony that on 13.09.2022 at approximately 09:00, while preventing large-scale provocative actions by Armenian armed formations, as a

result of the explosion of a mortar shell fired by Armenian armed formations on the territory of the Lachin District, servicemen of military unit No. 769, whose names he does not remember, were killed, while he, Kamran Alizade, Orkhan Abdullaev and several servicemen of military unit No. 769, whose names he does not remember, sustained various types of bodily injuries.

Volume 347, case file sheets 181-185

On the basis of forensic medical expert opinion No. 946 dated 26.04.2024, it was established that the bodily injuries sustained by Safarov Zakir Javanshir oglu — blast trauma, a closed craniocerebral injury, post-contusional condition — were caused by the impact of primary or secondary fragments, including a blast wave, generated by the explosion of any explosive substance and, according to severity, are classified as causing minor harm to health.

Volume 334, case file sheets 1-246

When questioned as the injured head of the pharmacy of the medical post of military unit No. 072 of the Ministry of Defence, Warrant Officer Safarov Zakir Javanshir oglu stated in his testimony that on 13.09.2022 at approximately 16:00, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of a mortar shell fired by Armenian armed formations on the territory of the Kalbajar District, servicemen of military unit No. 072, whose names he does not remember, were killed, while he and servicemen of military unit No. 072, whose names he does not remember, sustained various types of bodily injuries.

Volume 347, case file sheets 70-74

According to forensic medical expert opinion No. 949 dated 26.04.2024, it was established that the bodily injuries sustained by Babazada Huseyn Rahim oglu — blast trauma, a closed craniocerebral injury, post-contusional condition — were caused by the impact of a blast wave generated by the explosion of any explosive substance and, according to severity, are classified as causing minor harm to health.

Volume 334, case file sheets 1-246

When questioned as the injured commander of the unmanned-aerial-vehicle group of military unit No. 072 of the Ministry of Defence, Junior Warrant Officer Babazada Huseyn Rahim oglu stated in his testimony that on 13.09.2022 at approximately 12:00, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of a mortar shell fired by Armenian armed formations on the territory of the Kalbajar District, servicemen of military unit No. 072,

[Page 717]

whose names he does not remember, were killed, while he and servicemen of military unit No. 072, whose names he does not remember, sustained various types of bodily injuries.

Volume 347, case file sheets 92-96

According to forensic medical expert opinion No. 919 dated 26.04.2024, it was established that the bodily injuries sustained by Yoldashli Kenan Bakhtiyar oglu — a closed craniocerebral injury as a result of blast trauma, severe (acute) organic personality disorder after concussion, depressive episodes with significant behavioural disorders, moderate (mild) prolonged post-traumatic stress disorder with suicidal thoughts and reduced cognitive functions, a penetrating firearm wound of the right hand, a penetrating wound of the left arm and the right half of the pelvis, traumatic avulsion of the middle third of the proximal phalanx of the first finger of the right hand, primary surgical treatment of wounds caused by defects of the bones and soft tissues of the proximal phalanx of the third finger, tears of the lateral surface of the second finger, callus formation, fracture of the proximal phalanx of the third finger with a bone defect and non-functional deformity in an unfavourable position, following surgical fixation of the third finger with Kirschner wires, cicatricial-tendinous contracture of the II, III and IV fingers of the hand, foreign bodies in the soft tissues (metal fragments), a closed craniocerebral injury resulting from blast trauma; concussion leading to post-traumatic encephalopathy manifested by persistent vegetative-vascular instability, chronic cephalgic and insomnia syndrome, post-traumatic neuropathy of the right spinal and median nerves leading to paresis of the extensor muscles of the limb, with mild functional impairments; blast trauma, bilateral chronic tubo-otitis, bilateral conductive hearing loss with the ability to hear whispered speech with both ears at a distance of 4 metres — were caused by the impact of primary or secondary fragments, including a blast wave, generated by the explosion of any explosive substance and are classified as causing less serious harm to health by reason of their degree.

Volume 334, case file sheets 1-246

When questioned as the injured gunner-radio operator of the 4th platoon of detachment “R” of military unit No. 073 of the Ministry of Defence, a serviceman serving beyond the regular term, Private Yoldashli Kenan Bakhtiyar oglu stated in his testimony that on 13.09.2022 at approximately 22:00, while preventing large-scale provocative actions by Armenian armed formations, as a result of fire opened by Armenian armed formations on the territory of the Kalbajar District, servicemen of military unit No. 073, whose names he does not remember, were killed, while he and servicemen of military unit No. 073, whose names he does not remember, sustained various types of bodily injuries.

Volume 347, case file sheets 115-119

According to forensic medical expert opinion No. 951 dated 26.04.2024, it was established that the bodily injuries sustained by Abdulkarimov Khagani Atfar oglu — blast trauma, a closed craniocerebral injury, post-contusional condition — were caused by the impact of primary or secondary fragments, including the blast wave, generated by the explosion of any explosive substance and are classified as causing minor harm to health depending on the degree.

Volume 334, case file sheets 1-246

On the basis of forensic medical expert opinion No. 908 dated 26.04.2024, it was established that the bodily injuries sustained by Dadashov Elmir Idris oglu — F06.5 mild (moderate) organic dissociative disorder after a closed craniocerebral injury or concussion as a result of blast trauma; F43.1 mild (moderate) prolonged post-traumatic stress disorder caused by blast trauma,

[Page 718]

preceded by a closed craniocerebral injury, post-contusional vegetative-vascular instability, choreic cephalgic and insomnia syndrome, post-traumatic encephalopathy manifested by cognitive deficit, with mild impairment of central nervous system function, chronic cochlear neuritis of the right cochlear nerve as a result of blast trauma, persistent sensorineural hearing loss of the right cochlear nerve, whispered speech heard at a distance of 5 metres on the right and 6 metres on the left, primary surgical treatment of a wound caused by a penetrating bullet wound of the middle third of the shin leading to a soft-tissue defect, a hardened skin scar after an autodermoplasty operation — arose as a result of the impact of a primary or secondary fragment, including the blast wave generated by a shot from a firearm, as well as by the explosion of any explosive substance, and are classified as causing minor harm to health.

Volume 334, case file sheets 1-246

When questioned as the injured former operational officer of detachment “R” of military unit No. 073 of the Ministry of Defence, Senior Lieutenant Dadashov Elmir Idris oglu stated in his testimony that on 14.09.2022 at approximately 15:00, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of an artillery shell fired by Armenian armed formations on the territory of the Kalbajar District, servicemen of military unit No. 073, whose names he does not remember, were killed, while he and servicemen of military unit No. 073, whose names he does not remember, sustained various types of bodily injuries.

Volume 347, case file sheets 126-130

According to forensic medical expert opinion No. 923 dated 26.04.2024, the bodily injuries sustained by Zeynalov Sahib Huseyngulu oglu — a closed craniocerebral injury caused by blast trauma, moderate (mild) organic affective (depressive) disorder after concussion with behavioural disorders, moderate (mild) prolonged post-traumatic stress disorder, a closed craniocerebral injury caused by blast trauma, post-contusional vegetative-vascular instability — were caused by the impact of a primary or secondary fragment, including the blast wave generated as a result of a shot from a firearm, as well as the explosion of any explosive substance, and, according to severity, are classified as causing minor harm to health.

Volume 334, case file sheets 1-246

When questioned as the injured assistant chief of staff of the 3rd Battalion of military unit No. 157 of the Ministry of Defence for personnel matters, Major Zeynalov Sahib Huseyngulu oglu stated in his testimony that on 13.09.2022 at approximately 15:30, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of

a mortar shell fired by Armenian armed formations on the territory of the Lachin District, servicemen of military unit No. 157, whose names he does not remember, were killed, while he and servicemen of military unit No. 157, whose names he does not remember, sustained various types of bodily injuries.

According to forensic medical expert opinion No. 1027 dated 26.04.2024, it was established that the bodily injuries sustained by Yasinov Elmaddin Ibrahim oglu — blast trauma, left-sided acute cochlear neuritis, left-sided sensorineural hearing loss, with whispered speech heard at a distance of 4 metres by the left ear and 6 metres by the right ear — were caused by the impact of a blast wave generated by the explosion of any explosive substance and are usually classified as causing minor harm to health by reason of their degree.

Volume 334, case file sheets 1-246

When questioned as the injured commander of the 1st group of the 4th platoon of the 3rd division of the 2nd Battalion of military unit No. 769 of the Ministry of Defence, Warrant Officer Yasinov Elmaddin

[Page 719]

Ibrahim oglu stated in his testimony that on 13.09.2022 at approximately 01:00, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of a mortar shell fired by Armenian armed formations on the territory of the Lachin District, servicemen of military unit No. 769, whose names he does not remember, were killed, while he and servicemen of military unit No. 769, whose names he does not remember, sustained various types of bodily injuries.

Volume 347, case file sheets 81-85

According to forensic medical expert opinion No. 1192 dated 26.04.2024, it was established that the bodily injuries sustained by Namazov Eldeniz Furuddin oglu — a closed craniocerebral injury, concussion — arose as a result of the impact of primary or secondary fragments, including a blast wave, generated by the explosion of any explosive substance and, according to severity, are classified as causing minor harm to health.

Volume 320, case file sheets 1-234

According to forensic medical expert opinion No. 384 dated 23.02.2024, the bodily injuries sustained by Aliyev Hasan Yarmammad oglu — a closed craniocerebral injury, asthenoneurotic manifestations after concussion, vegetative-vascular instability, barotrauma, bilateral cochlear neuritis, bilateral persistent sensorineural hearing loss, blast trauma, blind shrapnel wounds to the face, right and left cheeks — were caused by the impact of primary or secondary fragments resulting from the explosion of any explosive substance and are usually classified as causing minor harm to health by reason of their degree.

Volume 337, case file sheets 105-106

When questioned as the injured commander of the NSVP section of the 9th company of the 3rd “tabun” of military unit No. 157 of the Ministry of Defence, Private Aliyev Hasan

Yarmammad oglu stated in his testimony that on 13.09.2022 at approximately 00:05, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of an artillery shell fired by Armenian armed formations on the territory of the Lachin District, servicemen of military unit No. 157, whose names he does not remember, were killed, while he and servicemen of military unit No. 157, whose names he does not remember, sustained various types of bodily injuries.

Volume 339, case file sheets 216-220

According to forensic medical expert opinion No. 900 dated 26.04.2024, it was established that the bodily injuries sustained by Gabibov Matlab Fuzuli oglu — blast trauma, traumatic avulsion of the lower third of the left shin, multiple contusions of the soft tissues of the face, the anterior surface of the neck and the left half of the chest, primary surgical treatment of wounds caused by small-focal blind wounds, formation of a stump, formation of a re-amputation stump, stump from the level of the middle third of the shin after the operation. Blast trauma, a closed craniocerebral injury, post-contusional vegetative-vascular instability — arose as a result of the impact of primary or secondary fragments, including the blast wave generated by the explosion of any explosive substance, and, according to severity, are classified as causing serious harm to health.

Volume 320, case file sheets 1-234

When questioned as the injured serviceman of military unit No. 191 of the Ministry of Defence, Private Gabibov Matlab Fuzuli oglu stated in his testimony that on 13.09.2022 at approximately 01:00, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of a grenade fired by Armenian armed formations in the Dashkesan District, servicemen of military unit No. 191, whose names he does not remember, were killed, while he and servicemen of military unit

[Page 720]

No. 191, whose names he does not remember, sustained various types of bodily injuries.

According to forensic medical expert opinion No. 61 dated 26.04.2024, it was established that the bodily injuries sustained by Yusifov Vugar Jalal oglu — a condition after surgical treatment of a wound resulting from a penetrating firearm injury to the soft tissues of the right half of the spine, not penetrating into a cavity — arose as a result of the impact of primary or secondary fragments, including the blast wave generated by the explosion of any explosive substance, and are classified as causing minor harm to health.

Volume 320, case file sheets 1-234

When questioned as the injured commander of the 1st group of the 2nd platoon of the 3rd company of the 1st Battalion of military unit No. 191 of the Ministry of Defence, Warrant Officer Yusifov Vugar Jalal oglu stated in his testimony that on 13.09.2022 at approximately 11:00, while preventing large-scale provocative actions by Armenian armed formations, as a result of fire opened by Armenian armed formations in the Dashkesan District, servicemen of military unit No. 191, whose names he does not remember, were killed, while he and

servicemen of military unit No. 191, whose names he does not remember, sustained various types of bodily injuries.

Volume 188, case file sheets 248-253

On the basis of forensic medical expert opinion No. 41 dated 26.04.2024, it was established that the bodily injuries sustained by Yusifov Samir Jahangir oglu — blast trauma, a closed craniocerebral injury and concussion resulting in astheno-neurotic manifestations, sprain of the ligaments of the left wrist, crushing of the soft tissues of the left knee joint — were caused by the impact of a blast wave as a result of a shot from a firearm and are usually classified as causing less serious harm to health.

Volume 320, case file sheets 1-234

When questioned as the injured feldsher of the medical post of the 2nd operational battalion of military unit No. 430 of the Ministry of Defence, Warrant Officer Yusifov Samir Jahangir oglu stated in his testimony that on 13.09.2022 at approximately 06-07 hours, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of a mortar shell fired by Armenian armed formations on the territory of the Kalbajar District, servicemen of military unit No. 430, Private Umid Hasanov and Lieutenant Erkin Huseynov, were killed, while he, Private Nariman Adishly and servicemen of military unit No. 430, whose names he does not remember, sustained various types of bodily injuries.

Volume 333, case file sheets 127-130

According to forensic medical expert opinion No. 893 dated 26.04.2024, it was established that the bodily injuries sustained by Javadov Ravan Shamsaddin oglu — a penetrating bullet wound with a wide soft-tissue defect of the upper third of the left thigh, an open multifragmentary bone defect, fracture of the upper third of the femoral diaphysis, complete rupture of the sciatic nerve with a defect, a lacerated wound on the left heel — were caused by a firearm injury and also by the impact of a blast wave generated by the explosion of any explosive substance and, according to severity, are classified as causing serious harm to health.

Volume 320, case file sheets 1-234

When questioned as the injured serviceman of military unit No. 701 of the Ministry of Defence, Private Javadov Ravan Shamsaddin oglu stated in his testimony that on 13.09.2022 at approximately 17:30, while preventing large-scale provocative actions by Armenian armed formations, as a result of fire opened by Armenian armed formations on the territory of the Kalbajar District, servicemen of military unit

[Page 721]

No. 701, whose names he does not remember, were killed, while he and servicemen of military unit No. 701, whose names he does not remember, sustained various types of bodily injuries.

Volume 193, case file sheets 22-24, 164-166

On the basis of forensic medical expert opinion No. 816 dated 26.04.2024, it was established that the bodily injuries sustained by Aliyev Magsud Yulet oglu — primary surgical treatment of a wound resulting from blast trauma, a penetrating wound of the left eyeball, traumatic mydriasis, traumatic cataract, haemophthalmos, an intraocular foreign body, aspiration of the lens, PPV, removal of a foreign body, implantation of an IOL, LFK, gas tamponade C3F8, as a result of which keratopathy and artemphakia developed, which led to a reduction in the visual acuity of the left eye to the level of hand movement, which is not corrected. Blast trauma, two small metal fragments in the body and angle of the left jaw, one small metal fragment in the left upper lip. Blast trauma, chronic cochlear neuritis on the left, left-sided sensorineural hearing loss, whispered speech heard at a distance of 4 metres by the left ear and 6 metres by the right ear. Blast trauma, a previous closed craniocerebral injury, post-contusional vegetative-vascular dystonia. Astheno-neurotic manifestations after blast trauma, a closed craniocerebral injury, concussion. Blast trauma, hardened skin scars after a blind shrapnel wound of the right hand, foreign bodies in the soft tissues (metal fragments). Chronic paraproctitis. Visual acuity of the right eye decreased to 0.3 and is not corrected as a result of multiple contusional injuries to the cornea of the right eye after viral keratoconjunctivitis — were caused by the impact of primary or secondary fragments, including the blast wave generated by the explosion of any explosive substance and, according to severity, are classified as serious harm to health causing a significant, permanent and lasting loss of not less than one third (35%) of general capacity for work.

Volume 320, case file sheets 1-234

According to forensic medical expert opinion No. 898 dated 26.04.2024, it was established that the bodily injuries sustained by Akbarov Namig Shahsaddin oglu — evisceration of the right eye as a result of a penetrating wound of the right eye, through-and-through rupture of the cornea and sclera, removal of intraocular contents, an intraocular foreign body and a lower-eyelid defect, postoperative swelling after surgery to eliminate the lower-eyelid defect, a hardened skin scar on the lower eyelid; visual acuity of the right eye decreased to zero (0), visual acuity of the left eye to 1. A hardened skin scar after primary surgical treatment of wounds resulting from blast trauma, a shrapnel wound of the soft tissues of the right zygomatic bone. A small foreign body (metal fragment) in the area of both cheeks, blast trauma, right-sided chronic cochlear neuritis, right-sided persistent sensorineural hearing loss, inability to hear whispered speech with the right ear, with hearing by the left ear at a distance of 6 metres. A hardened skin scar after the surgical operation “Resection-autoplasty of the upper half of the right auditory canal”, performed in connection with a lacerated wound of the right auditory canal. Vegetative-vascular instability after a closed craniocerebral injury, concussion. A skin suture from a firearm wound of the right earlobe — were caused by the impact of primary or secondary fragments, including the blast wave generated by the explosion of any substance possessing explosive properties and, according to severity, are classified as serious harm to health causing a significant, permanent and lasting loss of not less than one third (35%) of general capacity for work.

Volume 320, case file sheets 1-234

When questioned as the injured serving serviceman of military unit No. 888 of the Ministry of Defence, Private Akbarov Namig

[Page 722]

Shahsaddin oglu stated in his testimony that on 13.09.2022 at approximately 15:00, while preventing large-scale provocative actions by Armenian armed formations, as a result of fire from Armenian armed formations in the Lachin District, servicemen of military unit No. 888, whose names he does not remember, were killed, while he and servicemen of military unit No. 888, whose names he does not remember, sustained various types of bodily injuries.

Volume 333, case file sheets 247-250

On the basis of forensic medical expert opinion No. 1034 dated 26.04.2024, it was established that the bodily injuries sustained by Rahimov Kanan Alkhaddin oglu — blast trauma, a previous closed craniocerebral injury, post-contusional vegetative-vascular instability, blast trauma. Bilateral cochlear neuritis, bilateral sensorineural hearing loss, with which whispered speech cannot be heard by either ear at a distance of 5 metres — were caused by the impact of a blast wave generated by the explosion of any explosive substance and, according to severity, are classified as causing minor harm to health.

Volume 320, case file sheets 1-234

When questioned as the injured senior assistant to the head of the reconnaissance directorate of military unit No. 052 of the Ministry of Defence, Lieutenant-Colonel Rahimov Kanan Alkhaddin oglu stated in his testimony that on 14.09.2022 at approximately 05:00, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of a mortar shell fired by Armenian armed formations on the territory of the Kalbajar District, servicemen of military unit No. 052, whose names he does not remember, were killed, while he and servicemen of military unit No. 052, whose names he does not remember, sustained various types of bodily injuries.

Volume 333, case file sheets 237-240

According to forensic medical expert opinion No. 118 dated 26.04.2024, it was established that the bodily injuries sustained by Veliyev Togrul Zekara oglu — right-sided chronic cochlear neuritis, right-sided sensorineural hearing loss, with whispered speech heard at a distance of 5 metres by the right ear and 6 metres by the left ear — arose as a result of the impact of a blast wave generated by the explosion of any explosive substance and, depending on the degree of injury, are classified as causing serious harm to health.

Volume 320, case file sheets 1-234

When questioned as the injured scout-machine gunner of military unit No. 052 of the Ministry of Defence, Warrant Officer Valiyev Togrul Zekara oglu stated in his testimony that on 13.09.2022 at approximately 07:00, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of a mortar shell fired by Armenian armed formations on the territory of the Kalbajar District, servicemen of military unit No.

052, whose names he does not remember, were killed, while he and servicemen of military unit No. 052, whose names he does not remember, sustained various types of bodily injuries.

Volume 333, case file sheets 227-230

According to forensic medical expert opinion No. 860 dated 26.04.2024, it was established that the bodily injuries sustained by Allahverdiyev Baba Yasar oglu — a penetrating firearm wound of the right leg, a sufficiently closed fracture of the second metacarpal and the middle cuneiform bone — were caused by the impact of a blast wave generated by the explosion of any explosive substance and, according to severity, are classified as causing less serious harm to health.

Volume 320, case file sheets 1-234

When questioned as the injured serving serviceman of military unit No. 073 of the Ministry of Defence, Private Allahverdiyev Baba Yasar oglu stated in his

[Page 723]

testimony that on 13.09.2022 at approximately 18:00, while preventing large-scale provocative actions by Armenian armed formations, as a result of fire opened by Armenian armed formations on the territory of the Kalbajar District, servicemen of military unit No. 073, whose names he does not remember, were killed, while he and servicemen of military unit No. 073, whose names he does not remember, sustained various types of bodily injuries.

Volume 331, case file sheets 40-43

According to forensic medical expert opinion No. 102 dated 26.04.2024, it was established that the bodily injuries sustained by Malikov Samir Ingilab oglu — a blind shrapnel wound of the upper third of the left hand, resulting in post-traumatic neuropathy of the left nerve, a foreign body — were caused by the impact of a blast wave generated by the explosion of any explosive substance and are generally classified as causing less serious harm to health.

Volume 320, case file sheets 1-234

When questioned as the injured scout-sniper of the 3rd rapid-response group of the 1st rapid-response division of the rapid-response battalion of military unit No. 2028 of the State Border Service, Senior Sergeant Malikov Samir Ingilab oglu stated in his testimony that on the night of 13.09.2022, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of a hand grenade thrown by Armenian armed formations on the territory of the Zangilan District, serviceman of military unit No. 2028 Junior Warrant Officer Farid Rustamli was killed, while he and servicemen of military unit No. 2028, whose names he does not remember, sustained various types of bodily injuries.

Volume 185, case file sheets 233-238

Volume 339, case file sheets 186-190

According to forensic medical expert opinion No. 107 dated 26.04.2024, it was established that the bodily injuries sustained by Djafarov Alesker Alekper oglu — barotrauma, mild

concussion (S06), simple hypermetropic astigmatism of 0.5 D, visual acuity 0.9, corrected to 1.0 (H52.2) — arose as a result of the impact of primary or secondary fragments generated by the explosion of any explosive substance and, depending on the degree of severity, are classified as causing minor harm to health.

Volume 320, case file sheets 1-234

When questioned as the injured scout-sniper of the 1st rapid-response group of the 3rd rapid-response division of the rapid-response battalion of military unit No. 2028 of the State Border Service, Junior Warrant Officer Djafarov Alesker Alekper oglu stated in his testimony that on 12.09.2022 at approximately 23:30, while preventing large-scale provocative actions by Armenian armed formations, as a result of fire opened by Armenian armed formations on the territory of the Zangilan District, serviceman of military unit No. 2028 Senior Warrant Officer Mammadov Nakhid Huseynaga oglu was killed, while he and servicemen of military unit No. 2028, whose names he does not remember, sustained various types of bodily injuries.

Volume 185, case file sheets 243-246

Volume 339, case file sheets 235-238

On the basis of forensic medical expert opinion No. 105 dated 26.04.2024, it was established that the bodily injuries sustained by Garaev Azizaga Sanan oglu — primary surgical treatment of an injury caused by military combat trauma, a shrapnel wound with damage to the muscular branch of the left brachial artery and the left ulnar nerve, and removal of a fragment — arose as

[Page 724]

a result of the impact of primary or secondary fragments generated by the explosion of any explosive substance and, according to severity, are classified as causing serious harm to health.

Volume 320, case file sheets 1-234

When questioned as the injured serviceman of military unit No. 3100 of the State Border Service, Warrant Officer Garaev Azizaga Sanan oglu stated in his testimony that on 13.09.2022 at approximately 05:00, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of a mortar shell fired by Armenian armed formations on the territory of the Zangilan District, servicemen of military unit No. 3100, whose names he does not remember, were killed, while he, Zeynal Djabrailov, Ilkin Vasalov and servicemen of military unit No. 3100, whose names he does not remember, sustained various types of bodily injuries.

Volume 331, case file sheets 8-12

According to forensic medical expert opinion No. 1022 dated 26.04.2024, it was established that the bodily injuries sustained by Abdullaev Azer Uzeyir oglu — post-traumatic vertebrogenic lumbalgia in remission, blunt trauma of the spine, sprain of the ligaments of the

left knee — were caused by a blunt mechanism, by an impact with a hard blunt object, and, according to severity, are classified as causing minor harm to health.

Volume 320, case file sheets 1-234

When questioned as the injured commander of military unit No. 929 of the Ministry of Defence, Lieutenant-Colonel Abdullaev Azer Uzeyir oglu stated in his testimony that on 13.09.2022 at approximately 24:00, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of a mortar shell fired by Armenian armed formations on the territory of the Qubadli District, servicemen of military unit No. 929, whose names he does not remember, were killed, while he and servicemen of military unit No. 929, whose names he does not remember, sustained various types of bodily injuries.

Volume 331, case file sheets 50-53

According to forensic medical expert opinion No. 45 dated 26.04.2024, it was established that the bodily injuries sustained by Murtuzlu Elmin Nazim oglu — a condition after acute left-sided cochlear neuritis as a result of barotrauma, a closed craniocerebral injury resulting from blast trauma, a condition after concussion — arose as a result of the impact of primary or secondary fragments generated by the explosion of any explosive substance and, according to severity, are classified as causing less serious harm to health.

Volume 320, case file sheets 1-234

When questioned as the injured former commander of the 1st machine-gun section of the 1st platoon of the 1st operational battalion of military unit No. 430 of the Ministry of Defence, Private Murtuzlu Elmin Nazim oglu stated in his testimony that on 13.09.2022 at approximately 04:00, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of a mortar shell fired by Armenian armed formations on the territory of the Kalbajar District, servicemen of military unit No. 430, whose names he does not remember, were killed, while he, Private Huseynov Ariz and servicemen of military unit No. 430, whose names he does not remember, sustained various types of bodily injuries.

Volume 329, case file sheets 19-22

According to forensic medical expert opinion No. 892 dated 26.04.2024, the bodily injuries sustained by Batiyev Jeyhun Jamal oglu — a non-penetrating bullet wound of the right parietal part of the skull from a firearm, an open craniocerebral injury, severe haemorrhagic contusion of the right

[Page 725]

parietal part of the brain. Craniectomy of the right occipital bone, secondary surgical treatment of the wound performed in connection with a compression-comminuted fracture of the right occipital bone and hemiparesis of the left upper limb, an undisplaced bone defect in the parietal area measuring 4 cm after surgery for removal of foreign bodies (bone fragments). A firearm wound, an open craniocerebral injury, severe crushing of the right parietal lobe of the brain with central paresis of the left upper limb, mild impairment of

central nervous system function. Astheno-neurotic manifestations after a closed craniocerebral injury, concussion — arose as a result of the impact of primary or secondary fragments, including the blast wave generated by the explosion of any explosive substance and, depending on severity, are classified as causing serious harm to health.

Volume 320, case file sheets 1-234

According to forensic medical expert opinion No. 1029 dated 26.04.2024, it was established that the bodily injuries sustained by Azizov Jeyhun Azer oglu — blast trauma, a closed craniocerebral injury, post-contusional vegetative-vascular instability — arose as a result of the impact of a blast wave generated by the explosion of any explosive substance and are classified as causing minor harm to health.

Volume 320, case file sheets 1-234

When questioned as the injured chief of staff of the artillery directorate of military unit No. 052 of the Ministry of Defence, Lieutenant-Colonel Azizov Jeyhun Azer oglu stated in his testimony that on 13.09.2022 at approximately 15:00, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of a mortar shell fired by Armenian armed formations on the territory of the Kalbajar District, servicemen of military unit No. 052, whose names he does not remember, were killed, while he, Major Rashad Guliyev, Lieutenant-Colonel Ilham Abbasov and servicemen of military unit No. 052, whose names he does not remember, sustained various types of bodily injuries.

Volume 330, case file sheets 173-176

According to forensic medical expert opinion No. 922 dated 26.04.2024, the bodily injuries sustained by Samedli Samed Bakhtiyar oglu — a closed craniocerebral injury as a result of blast trauma, moderate (mild) organic personality disorder after concussion. Moderate (mild) prolonged post-traumatic stress disorder. Post-traumatic encephalopathy manifested by a closed craniocerebral injury resulting from blast trauma, persistent vegetative-vascular instability after concussion, as well as chronic cephalgic and insomnia syndrome. Blast trauma caused bilateral chronic cochlear neuritis and bilateral sensorineural hearing loss, with whispered speech heard at a distance of 3.5 metres by the left ear and 4.5 metres by the right ear. A small scar on the skin after blast trauma of the first finger of the left hand and a lacerated wound to the occiput. Satisfactory healing after osteosynthesis with Kirschner screws for rupture of the right acromioclavicular joint without loss of function. Slight displacement of the anterior and lateral walls of the right maxillary sinus and of the right zygomatic arch, fracture of the greater wing of the right sphenoid bone without displacement — arose as a result of the impact of primary or secondary fragments, including the blast wave generated by the explosion of any explosive substance and, according to severity, are classified as causing serious harm to health.

Volume 320, case file sheets 1-234

When questioned as the injured commander of platoon B of subdivision “J” of military unit No. 072 of the Ministry of Defence, Senior Lieutenant Samedli Samed Bakhtiyar oglu stated in his testimony that on 13.09.2022 at approximately 9-

[Page 726]

10 hours, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of a mortar shell fired by Armenian armed formations on the territory of the Kalbajar District, servicemen of military unit No. 072, whose names he does not remember, were killed, while he and servicemen of military unit No. 072, whose names he does not remember, sustained various types of bodily injuries.

Volume 330, case file sheets 28-32

According to forensic medical expert opinion No. 925 dated 26.04.2024, it was established that the bodily injuries sustained by Askerov Gara Yashar oglu — severely pronounced personality changes of organic origin with frequent decompensations, gross behavioural impairments and reduced cognitive functions. Blast trauma. A closed craniocerebral injury, concussion and persistent vegetative-vascular instability caused by the impact of a blast wave generated by the explosion of any explosive substance — are classified as less serious harm to health according to severity.

Volume 320, case file sheets 1-234

According to forensic medical expert opinion No. 98 dated 26.04.2024, the bodily injuries sustained by Fataliyev Rakhil Mubariz oglu — a condition after a penetrating bullet wound of the I-II interdigital space of the left foot caused by a firearm injury — were caused by the impact of a primary or secondary fragment generated as a result of the explosion of any explosive substance and, according to severity, are classified as causing less serious harm to health.

Volume 320, case file sheets 1-234

When questioned as the injured machine gunner of the 2nd group of the 2nd rapid-response detachment of the rapid-response battalion of military unit No. 2028 of the State Border Service, Senior Sergeant Fataliyev Rahil Mubariz oglu stated in his testimony that on 13.09.2022 at approximately 24:00, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of an artillery shell fired by Armenian armed formations on the territory of the Zangilan District, servicemen of military unit No. 2028, whose names he does not remember, were killed, while he and servicemen of military unit No. 2028, whose names he does not remember, sustained various types of bodily injuries.

Volume 339, case file sheets 201-205

According to forensic medical expert opinion No. 75 dated 26.04.2024, it was established that the bodily injuries sustained by Mammadov Asif Ahmed oglu — an open wound of the right eyelid and eye socket — arose as a result of the impact of a primary or secondary

fragment generated by the explosion of an explosive substance and are classified as causing minor harm to health.

Volume 320, case file sheets 1-234

When questioned as the injured driver of the 1st company of the rapid-response battalion of military unit No. 2028 of the State Border Service, Senior Warrant Officer Mammadov Asif Ahmed oglu stated in his testimony that on 14.09.2022 at approximately 06:00, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of a mortar shell fired by Armenian armed formations on the territory of the Zangilan District, servicemen of military unit No. 2028, whose names he does not remember, were killed, while he and servicemen of military unit No. 2028, whose names he does not remember, sustained various types of bodily injuries.

Volume 347, case file sheets 148-152

On the basis of forensic medical expert opinion No. 914 dated 26.04.2024, it was established that the bodily injuries sustained by Mammadov Vidadi Fariz oglu — blast trauma, a closed craniocerebral injury and

[Page 727]

concussion in the form of diffuse organic signs. Astheno-neurotic manifestations after a closed craniocerebral injury, concussion. As a result of barotrauma, left-sided chronic cochlear neuritis and left-sided persistent sensorineural hearing loss developed; he cannot hear whispered speech at a distance of 4 metres with the left ear and 6 metres with the right ear — arose as a result of the impact of primary or secondary fragments generated by the explosion of any explosive substance and, according to severity, are classified as causing serious harm to health.

Volume 320, case file sheets 1-234

When questioned as the injured head of the secret department of military unit No. 651 of the Ministry of Defence, Warrant Officer Mammadov Vidadi Fariz oglu stated in his testimony that on the morning of 13.09.2022, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of an artillery shell fired by Armenian armed formations on the territory of the Lachin District, servicemen of military unit No. 651, whose names he does not remember, were killed, while he, Mammad Gaibov, Rasim Parvaneev and servicemen of military unit No. 651, whose names he does not remember, sustained various types of bodily injuries.

Volume 347, case file sheets 7-10

According to forensic medical expert opinion No. 30 dated 16.01.2024, it was established that the bodily injuries sustained by Mammadrzaev Asiman Ismikhhan oglu — barotrauma, a condition after right-sided cochlear neuritis, a closed craniocerebral injury resulting from blast trauma, a condition after concussion, blast trauma, keratopathy of both eyes, as a result of blepharospasm the visual acuity of the right eye decreased to 0.4 without correction and

visual acuity of the left eye decreased to 1.0 — arose as a result of the impact of primary or secondary fragments generated by the explosion of any explosive substance and are classified as insignificant bodily injuries causing a prolonged health disorder.

Volume 89, case file sheets 62-63

When questioned as the injured assistant scout-grenade launcher operator of military unit No. 430 of the Ministry of Defence, Private Mammadrzaev Asiman Ismikhon oglu stated in his testimony that on the night of 13.09.2022, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of a mortar shell fired by Armenian armed formations on the territory of the Kalbajar District, servicemen of military unit No. 430 Lieutenant Erkin Huseynov and Lieutenant Ravil Gumbatov were killed, while he, Godjaev Zahid Vilayat oglu and servicemen of military unit No. 430, whose names he does not remember, sustained various types of bodily injuries.

Volume 89, case file sheets 48-52

On the basis of forensic medical expert opinion No. 888 dated 26.04.2024, it was established that the bodily injuries sustained by Rzaev Madat Badal oglu — F43.1 severe prolonged post-traumatic stress disorder with a depressive episode with psychotic features. F06.3, F07.2 a closed craniocerebral injury as a result of blast trauma, secondary to concussion, with moderate (mild) organic dissociative disorder, post-contusional syndrome, vegetative-vascular instability, stuttering and behavioural impairments. Right-sided chronic cochlear neuritis, right-sided persistent sensorineural hearing loss as a result of blast trauma, whispered speech heard at a distance of 5 metres by the right ear and 6 metres by the left ear — arose as a result of the impact of a blast wave generated by the explosion of any explosive substance and are classified as causing less serious harm to health.

Volume 320, case file sheets 1-234

[Page 728]

On the basis of forensic medical expert opinion No. 86 dated 28.01.2023, it was established that the bodily injuries sustained by Suleymanov Elvin Elchin oglu — bilateral chronic cochlear neuritis. Bilateral sensorineural hearing loss is considered a mild form of hearing loss in which the degree of hearing loss in both ears is limited to whispered speech at a distance of 5 metres.

Volume 71, case file sheets 102-103

When questioned as the injured technician of the Main Clinical Hospital of the Ministry of Defence, Warrant Officer Suleymanov Elvin Elchin oglu stated in his testimony that on 13.09.2022 at approximately 23:00, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of an artillery shell fired by Armenian armed formations on the territory of the Kalbajar District, servicemen of military unit No. 172, whose names he does not remember, were killed, while he and servicemen of military unit No. 172, whose names he does not remember, sustained various types of bodily injuries.

Volume 89, case file sheets 126-127, 131-133

According to forensic medical expert opinion No. 732 dated 15.12.2023, it was established that the bodily injuries sustained by Ahmedov Mushfig Gulbala oglu — a penetrating wound into the abdominal cavity damaging the first, second, third, fourth and fifth vertebrae, accompanied by paraplegia of the lower limbs and injury to the abdominal cavity — are classified as causing serious harm to health by reason of the degree of the firearm injury.

Volume 275, case file sheets 133-134

When questioned as the injured engineer-scout of the 6th group of battalion “N” of military unit No. 073 of the Ministry of Defence, Junior Warrant Officer Ahmedov Mushfig Gulbala oglu stated in his testimony that on 13.09.2022 at approximately 02:00, while preventing large-scale provocative actions by Armenian armed formations, as a result of fire opened by Armenian armed formations on the territory of the Kalbajar District, serviceman of military unit No. 073 Warrant Officer Said Hasanov was killed, while he, Junior Warrant Officer Tural Khalilov and servicemen of military unit No. 073, whose names he does not remember, sustained various types of bodily injuries.

Volume 189, case file sheets 201-206**Volume 275, case file sheets 124-128**

On the basis of forensic medical expert opinion No. 218 dated 29.09.2023, it was established that the bodily injuries sustained by Muradov Ravan Rovshan oglu — one lacerated-crushed wound of the upper eyelid of the right eye and the right supraorbital arch — are classified as causing minor harm to health.

Volume 77, case file sheets 239-241

When questioned as the injured machine gunner of the 1st platoon of the 4th platoon of detachment “P” of military unit No. 073 of the Ministry of Defence, Private Muradov Ravan Rovshan oglu stated in his testimony that on 15.09.2022 at approximately 24:00, while preventing large-scale provocative actions by Armenian armed formations, as a result of fire opened by Armenian armed formations on the territory of the Kalbajar District, serviceman of military unit No. 073 Lieutenant Sarkhan Omarov was killed, while he and servicemen of military unit No. 073, whose names he does not remember, sustained various types of bodily injuries.

Volume 77, case file sheets 230-236

On the basis of forensic medical expert opinion No. 1039 dated 15.12.2023, it was established that the bodily injuries sustained by Agazade Asif Agshin oglu, namely a lacerated-crushed wound of the upper part of the left arm, generally constitute minor harm to health.

Volume 320, case file sheets 1-234

[Page 729]

When questioned as the injured scout of the 1st Battalion, 2nd company, 3rd platoon, 2nd group of military unit No. 769 of the Ministry of Defence, Private Agazade Asif Agshin oglu stated in his testimony that on 13.09.2022 at approximately 02:00, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of an artillery shell fired by Armenian armed formations on the territory of the Lachin District, servicemen of military unit No. 769 Sergeant Mirtalib Agazade and Private Saddam Huseynov were killed, while he, Private Yuksel Abdullaev, Private Ibrahim Abdulgashimli and servicemen of military unit No. 769, whose names he does not remember, sustained various types of bodily injuries.

Volume 342, case file sheets 201-203, 209-210

On the basis of forensic medical expert opinion No. 1169 dated 15.12.2023, it was established that the bodily injuries sustained by Nabiyeu Oruj Mahmud oglu — blunt trauma, crushing injury of the head, chest and left leg — are generally classified as insignificant harm to health by reason of severity.

Volume 320, case file sheets 1-234

When questioned as the injured commander of the 2nd section of the 2nd platoon of the 12th company of the 4th Battalion of military unit No. 172 of the Ministry of Defence, Private Nabiyeu Oruj Mahmud oglu stated in his testimony that on 13.09.2022 at approximately 01:00, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of a mortar shell fired by Armenian armed formations on the territory of the Kalbajar District, he, Private Yuksel Abdullaev and Private Ibrahim Abdulgashimli sustained various types of bodily injuries.

Volume 109, case file sheets 175-180

On the basis of forensic medical expert opinion No. 807/1 dated 26.04.2024, it was established that the bodily injuries sustained by Suleymanov Ulvi Ildirim oglu — post-traumatic contusion of the right hand — were caused by the impact of a primary or secondary fragment as a result of the explosion of any explosive substance and, according to degree, are usually classified as causing minor harm to health.

Volume 320, case file sheets 1-234

When questioned as the injured commander of the 1st platoon of the 6th division of the 2nd operational battalion of military unit No. 430 of the Ministry of Defence, Lieutenant Suleymanov Ulvi Ildirim oglu stated in his testimony that on 13.09.2022 at approximately 10-11 hours, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of a mortar shell fired by Armenian armed formations on the territory of the Kalbajar District, servicemen of military unit No. 430 Private Umid Hasanov, Lieutenant Erkin Huseynov, Lieutenant Ravil Gumbatov, Warrant Officer Mammadov Magomed and Private Nail Abbasly were killed, while he, Warrant Officer Azer Gazakhov, Private Mehman Guliyev and servicemen of military unit No. 430, whose names he does not remember, sustained various types of bodily injuries.

Volume 333, case file sheets 207-210

On the basis of forensic medical expert opinion No. 808/1 dated 26.04.2024, it was established that the bodily injuries sustained by Huseynov Elmir Shakir oglu — blast trauma, a shrapnel wound of the right eye — were caused by the impact of a primary or secondary fragment resulting from the explosion of any explosive substance and, according to severity, are classified as causing minor harm to health.

Volume 320, case file sheets 1-234

When questioned as the injured serviceman of military unit No. 3100 of the State Border Service, Senior Sergeant Huseynov Elmir Shakir oglu stated in his testimony that on 13.09.2022 at approximately 01:00, while preventing large-scale provocative actions by Armenian

[Page 730]

armed formations, as a result of the explosion of a hand grenade thrown by Armenian armed formations on the territory of the Zangilan District, servicemen of military unit No. 3100, whose names he does not remember, were killed, while he, Lieutenant Seymur Hasanly and servicemen of military unit No. 3100, whose names he does not remember, sustained various types of bodily injuries.

Volume 89, case file sheets 190-192

According to forensic medical expert opinion No. 1173 dated 26.04.2024, it was established that the bodily injuries sustained by Alekperov Nasib Telman oglu — blunt trauma of the right foot and ankle — were caused by the impact of a primary or secondary fragment as a result of the explosion of any explosive substance and are classified as causing minor harm to health.

Volume 320, case file sheets 1-234

When questioned as the injured commander of the 3rd group of the 3rd platoon of the 3rd division of the 1st Battalion of military unit No. 191 of the Ministry of Defence, Warrant Officer Alekperov Nasib Telman oglu stated in his testimony that on 13.09.2022 at approximately 16:00, while preventing large-scale provocative actions by Armenian armed formations, as a result of the explosion of an artillery shell fired by Armenian armed formations in the Dashkesan District, servicemen of military unit No. 191, whose names he does not remember, were killed, while he and servicemen of military unit No. 191, whose names he does not remember, sustained various types of bodily injuries.

Volume 188, case file sheets 238-243

On the basis of forensic medical expert opinion No. 853 dated 26.04.2024, it was established that the bodily injuries sustained by Buniyatov Ismail Gahraman oglu — astheno-neurotic manifestations after a closed craniocerebral injury, concussion. Vegetative-vascular dystonia after a previous closed craniocerebral injury or concussion — arose as a result of the impact

of a blast wave generated by the explosion of any explosive substance and cause insignificant harm to health by reason of their degree.

Volume 320, case file sheets 1-234

According to forensic medical expert opinion No. 34 dated 26.04.2024, the bodily injuries sustained by Gendjiev Parviz Khanbala oglu — blast trauma, a minor shrapnel wound of the soft tissues of the right hand and the right thigh, deviation of the nasal septum moderately impeding nasal breathing — arose as a result of the impact of primary or secondary fragments, including a blast wave, generated by the explosion of any explosive substance and, according to degree, are classified as causing minor harm to health.

Volume 320, case file sheets 1-234

According to forensic medical expert opinion No. 111 dated 26.04.2024, it was established that the bodily injuries sustained by Ashurov Ilham Aminaga oglu — a blind firearm wound of the left thigh, a foreign body (bullet) on the medial-posterior surface of the upper third of the left thigh — arose as a result of the impact of primary or secondary fragments, including the blast wave generated by the explosion of any substance possessing explosive properties and, according to severity, are classified as causing less serious harm to health.

Volume 320, case file sheets 1-234

According to forensic medical expert opinion No. 917 dated 26.04.2024, it was established that the bodily injuries sustained by Mammadov Rasim Nijat oglu — barotrauma, bilateral chronic cochlear neuritis, bilateral sensorineural hearing loss, with whispered speech heard at a distance of 5 metres by both ears, hardened skin scars after multiple incised wounds of the anterior and posterior surfaces of the left ear — arose as a result of the impact of primary or secondary fragments, including the blast wave generated by

[Page 731]

the explosion of any explosive substance and, according to degree, cause insignificant harm to health.

Volume 320, case file sheets 1-234

On the basis of forensic medical expert opinion No. 31 dated 26.04.2024, it was established that the bodily injuries sustained by Agjabekov Tural Tabriz oglu — blast trauma, multiple blunt shrapnel wounds of the lower third of the right thigh not penetrating into the chest cavity in the right subclavian area, left-sided acute cochlear neuritis as a result of barotrauma, deviation of the nasal septum slightly impeding nasal breathing — arose as a result of the impact of primary or secondary fragments, including the blast wave generated by the explosion of any substance possessing explosive properties and, according to severity, are classified as causing less serious harm to health.

Volume 320, case file sheets 1-234

On the basis of forensic medical expert opinion No. 30 dated 26.04.2024, it was established that the bodily injuries sustained by Hajiyeve Roman Khabib oglu — a closed, comminuted, displaced fracture of the V metatarsal bone of the right shin — arose as a result of the impact of primary or secondary fragments, including the blast wave generated as a result of the explosion of any explosive substance, and are classified as causing less serious harm to health.

Volume 320, case file sheets 1-234

On the basis of forensic medical expert opinion No. 915 dated 26.04.2024, it was established that the bodily injuries sustained by Gurban-zade Kamran Musafir oglu — moderately pronounced affective disorder of organic origin, depressive symptoms, suicidal thoughts; blast trauma, a previous closed craniocerebral injury, vegetative-vascular instability after concussion, chronic cochlear neuritis of the left cochlear nerve, tinnitus, left-sided sensorineural hearing loss, with the ability to hear whispered speech at a distance of 4 metres with the left ear and 6 metres with the right ear, simple myopic astigmatism of the left eye Em and M 0.75 D, leading to a reduction in visual acuity to 0.5 with correction 1, and visual acuity of the right eye 1.0, metal fragments in the soft tissues of the face — arose as a result of the impact of a blast wave generated by the explosion of any explosive substance and are classified as causing less serious harm to health.

Volume 320, case file sheets 1-234

According to forensic medical expert opinion No. 903 dated 26.04.2024, it was established that the bodily injuries sustained by Mammadov Jabir Dunyamali oglu — a firearm wound, traumatic injury to the base of the middle and ulnar nerves, as well as the sensory branch of the left radial nerve at the level of the first crest, resulting in sensory and motor impairments; a firearm wound of the left hand with mild impairment of function; correction of a pseudoaneurysm was performed in connection with a bleeding pseudoaneurysm of the left brachial artery; hardened skin scars after autovenoplasty surgery arising as a result of a firearm wound with insignificant impairment of circulation and function — according to severity, are classified as causing serious harm to health.

Volume 320, case file sheets 1-234

According to forensic medical expert opinion No. 113 dated 26.04.2024, it was established that the bodily injuries sustained by Huseynov Huseyn Mazakhir oglu — lacerated wounds to the forehead, chin, both hands and right shin, bruises of the soft tissues, headache of tension — were caused by the impact of primary or secondary fragments, including the blast wave generated by the explosion of any explosive substance and, depending on their degree, cause insignificant harm to health.

[Page 732]

Volume 320, case file sheets 1-234

According to forensic medical expert opinion No. 112 dated 26.04.2024, it was established that the bodily injuries sustained by Rzaev Kenan Asker oglu — blunt trauma of the lumbar

region, crushing of the soft tissues — were caused by the impact of a primary or secondary fragment, including the blast wave generated by the explosion of any substance with evident explosive properties, and are classified as causing minor harm to health depending on their degree.

Volume 320, case file sheets 1-234

On the basis of forensic medical expert opinion No. 1023 dated 26.04.2024, it was established that the bodily injuries sustained by Akbarov Nijat Zakir oglu — blast trauma, a closed craniocerebral injury, sensorineural hearing loss as a result of bilateral cochlear neuritis. Whispered speech is heard at a distance of 3 metres by the right ear and 4 metres by the left ear — arose as a result of the impact of a blast wave generated by the explosion of any explosive substance and, as a rule, are classified as insignificant harm to health by reason of their degree.

Volume 320, case file sheets 1-234

According to forensic medical expert opinion No. 862 dated 26.04.2024, it was established that the bodily injuries sustained by Agalarov Orman Nazir oglu — a condition after right-sided acute cochlear neuritis resulting from barotrauma, with whispered speech heard at a distance of 6 metres by both ears, blast trauma, a closed craniocerebral injury, vegetative-vascular instability after concussion, a hardened skin scar after a penetrating shrapnel wound of the soft tissues of the occipital region, a horizontal tear of the lateral meniscus of the right knee joint, a parameniscal cyst — arose as a result of the impact of a primary or secondary fragment, including the blast wave generated by the explosion of any explosive substance, and are classified as causing less serious harm to health.

Volume 320, case file sheets 1-234

On the basis of forensic medical expert opinion No. 24 dated 26.04.2024, it was established that the bodily injuries sustained by Hajiyev Haji Firidun oglu — blast trauma. Multiple small blind shrapnel wounds of both buttocks, both thighs and the posterior surface of the shin, barotrauma, right-sided chronic cochlear neuritis, right-sided sensorineural hearing loss, astheno-neurotic manifestations — were caused by the impact of primary or secondary fragments, including the blast wave generated by the explosion of any explosive substance, and are classified as causing minor harm to health.

Volume 320, case file sheets 1-234

According to forensic medical expert opinion No. 988 dated 26.04.2024, the bodily injuries sustained by Hasanaliyev Surat Sabir oglu — blast trauma, a scar on the skin after a shrapnel wound of the inner surface of the lower third of the left shin, a foreign body in the soft tissues (metal fragment) — were caused by the impact of a primary or secondary fragment generated by the explosion of any explosive substance and, according to severity, are classified as causing insignificant harm to health.

Volume 320, case file sheets 1-234

On the basis of forensic medical expert opinion No. 901 dated 26.04.2024, it was established that the bodily injuries sustained by Idrisov Kamran Malik oglu — blast trauma, post-traumatic neuropathy of the right femoral and peroneal nerves resulting in sensory and motor impairments with mild functional impairments, as well as a closed craniocerebral injury, vegetative-vascular instability and astheno-neurotic manifestations after concussion, barotrauma, right-sided acute cochlear neuritis, a skin scar after a blind shrapnel wound of

[Page 733]

the right side of the neck, right cheek, right thigh and posterior surface of the shin, with the ability to hear whispered speech at a distance of 5 metres by the right ear and 6 metres by the left ear, foreign bodies in the soft tissues (metal fragments) — arose as a result of the impact of primary or secondary fragments, including the blast wave generated by the explosion of any substance possessing explosive properties, and, according to degree, are classified as causing less serious harm to health.

Volume 320, case file sheets 1-234

According to forensic medical expert opinion No. 811 dated 26.04.2024, it was established that the bodily injuries sustained by Nadjafov Khidayat Ramiz oglu — as a result of firearm and blast injuries, the lower third of the right hand, the middle third of the right thigh and shin have a penetrating defect of the skin; the upper part of the left thigh and the lower third of the left shin; a blind bullet, left knee; a left blind shrapnel wound of the shin, the upper third of the right thigh, right hand and right shoulder; a lacerated wound of the inner surface of the lower third of the left thigh, the right half of the buttock; open, multiple, displaced wounds with bone defects of the middle third of the right scapula and diaphysis; primary surgical treatment of the wound following an open, multifragmentary, intra-articular, displaced fracture of the distal metaphysis of the left tibia with a bone-tissue defect, removal of the bullet, osteosynthesis of fragments by the G.A. Ilizarov method, removal of the G.A. Ilizarov apparatus on the right, open reposition of fragments, osteosynthesis with a metal plate and screw, removal of the G.A. Ilizarov apparatus on the left shin, open reposition of fragments; an insufficiently fused fracture after fixation with metal plates and screws; supination-pronation contracture of the right elbow joint as a result of radio-ulnar synostosis; a defect of the articular surface of the fibula in the talocalcaneal joint. Valgus deformity, arthrogenic and cicatricial contracture, significant functional impairments. An unremoved metal structure, a foreign body in the soft tissues (metal fragment). Post-traumatic encephalopathy manifested by a closed craniocerebral injury caused by blast trauma, persistent vegetative-vascular instability after concussion and cephalgic syndrome. Residual signs of post-traumatic neuropathy of the severed left sciatic nerve with mild functional impairments. Residual signs of post-traumatic neuropathy of the right median, ulnar and radial nerves as a result of a firearm wound with significant functional impairments. Moderate organic affective (depressive) disorder after a closed craniocerebral injury caused by blast trauma, concussion. Barotrauma, bilateral chronic cochlear neuritis, bilateral sensorineural hearing loss, whispered speech heard at a distance of 5 metres by the right ear and 4 metres by the left ear. A hardened skin scar after a firearm wound of the external part of the nose. A hardened skin

scar after a firearm wound of the soft tissues of the right cheek — were caused by the impact of primary or secondary fragments, including the blast wave generated by a shot from a firearm, as well as by the explosion of any explosive substance and, according to severity, are classified as serious harm to health.

Volume 320, case file sheets 1-234

On the basis of forensic medical expert opinion No. 868 dated 26.04.2024, it was established that the bodily injuries sustained by Abasov Jeyhun Vidadi oglu — a closed craniocerebral injury, concussion — were caused by the impact of a primary or secondary fragment as a result of the explosion of any explosive substance and, according to degree, are usually classified as causing minor harm to health.

Volume 320, case file sheets 1-234

[Page 734]

On the basis of forensic medical expert opinion No. 970 dated 26.04.2024, it was established that the bodily injuries sustained by Huseynov Parvin Mohubbat oglu — a closed craniocerebral injury as a result of blast trauma, moderate (mild) organic affective (depressive) disorder after concussion, post-contusional syndrome, moderate (mild) persistent personality change after a catastrophe (war), manifested by behavioural disorders; a closed craniocerebral injury as a result of blast trauma, concussion leading to post-traumatic encephalopathy manifested by persistent vegetative-vascular instability, chronic cephalgic and insomnia syndrome, as well as cognitive impairments, with a mild degree of impairment of central nervous system function; military trauma sustained during the defence of the Republic of Azerbaijan. A hardened skin scar after primary surgical treatment of a wound caused by a shrapnel wound of the inner surface of the upper third of the left arm — arose as a result of the impact of primary or secondary fragments generated by the explosion of any explosive substance and, according to severity, are classified as causing less serious harm to health.

Volume 320, case file sheets 1-234

According to forensic medical expert opinion No. 999 dated 26.04.2024, it was established that the bodily injuries sustained by Safarov Elgun Elmar oglu — a closed craniocerebral injury, astheno-neurotic manifestations after concussion, a closed craniocerebral injury as a result of blast trauma, concussion with vegetative-vascular instability, barotrauma, bilateral chronic cochlear neuritis, bilateral persistent sensorineural hearing loss, whispered speech heard by both ears at a distance of 4 metres — were caused by the impact of a blast wave generated by the explosion of any explosive substance and, according to degree, are usually classified as causing minor harm to health.

Volume 320, case file sheets 1-234

On the basis of forensic medical expert opinion No. 867 dated 26.04.2024, it was established that the bodily injuries sustained by Alizade Ramil Elshan oglu — a closed craniocerebral injury, concussion — were caused by the impact of a primary or secondary fragment as a

result of the explosion of any explosive substance and, according to degree, are usually classified as causing minor harm to health.

Volume 320, case file sheets 1-234

On the basis of forensic medical expert opinion No. 856 dated 26.04.2024, it was established that the bodily injuries sustained by Bashirli Sanan Nazim oglu — blast trauma, a previous closed craniocerebral injury, post-contusional vegetative-vascular instability. Hardened skin scars after primary surgical treatment of wounds caused by blast trauma and a shrapnel wound of the right occipital region — arose as a result of the impact of primary or secondary fragments, including the blast wave generated by the explosion of any explosive substance and, according to degree, cause insignificant harm to health.

Volume 320, case file sheets 1-234

According to forensic medical expert opinion No. 1179 dated 26.04.2024, it was established that the bodily injuries sustained by Sultanov Ibrahim Sahib oglu — blast trauma, multiple small blind foreign bodies of both shins, shrapnel wounds — were caused by the impact of primary or secondary fragments generated as a result of the explosion of any explosive substance and, according to severity, are usually classified as causing minor harm to health.

Volume 320, case file sheets 1-234

According to forensic medical expert opinion No. 935 dated 26.04.2024, it was established that the bodily injuries sustained by Nagiyev Anar Fazail oglu — blast trauma, hardened skin scars after a wound by a blunt foreign body (metal fragment) of fingers II, III and IV of the right hand, finger III

[Page 735]

of the left hand and the lower third of the left shin — arose as a result of the impact of primary or secondary fragments, including the blast wave generated by a shot from a firearm, as well as by the explosion of any explosive substance, and are classified as minor bodily injuries.

Volume 320, case file sheets 1-234

On the basis of forensic medical expert opinion No. 847 dated 26.04.2024, it was established that the bodily injuries sustained by Abduljalilov Elvusal Natig oglu — a closed craniocerebral injury, concussion — caused by the impact of a primary or secondary fragment as a result of the explosion of any explosive substance are, according to degree, usually classified as causing minor harm to health.

Volume 320, case file sheets 1-234

According to forensic medical expert opinion No. 846 dated 26.04.2024, it was established that the bodily injuries sustained by Abdulkirimov Lankaran Rafig oglu — a closed craniocerebral injury, concussion — arose as a result of the impact of primary or secondary

fragments as a result of the explosion of any explosive substance and are classified as causing minor or moderate harm to health.

Volume 320, case file sheets 1-234

On the basis of forensic medical expert opinion No. 981 dated 26.04.2024, it was established that the bodily injuries sustained by Huseynov Ayaz Avaz oglu — a skin scar on the left shoulder — formed as a result of the impact of a primary or secondary fragment as a result of the explosion of any explosive substance and are classified as causing minor harm to health.

Volume 320, case file sheets 1-234

By forensic medical expert opinion No. 03 dated 26.04.2024, it was established that the bodily injuries sustained by Alekperov Ibrahim Sakhavat oglu — acute exudative otitis media on the right, vegetative-vascular dystonia after a closed craniocerebral injury accompanied by concussion — were caused by the impact of primary or secondary fragments, including the blast wave generated by the explosion of any explosive substance and, depending on the degree of health impairment, are classified as insignificant injuries.

Volume 320, case file sheets 1-234

According to forensic medical expert opinion No. 1019 dated 26.04.2024, it was established that the bodily injuries sustained by Gochuev Firdovsi Davud oglu — blast trauma, a closed craniocerebral injury, bilateral cochlear neuritis — arise as a result of the impact of a blast wave generated by the explosion of any explosive substance and are classified as causing minor harm to health.

Volume 320, case file sheets 1-234

According to forensic medical expert opinion No. 916 dated 26.04.2024, it was established that the bodily injuries sustained by Mammadov Rashad Bayram oglu — F06.5 a closed craniocerebral injury caused by blast trauma, mild (moderate) organic dissociative disorder after concussion; F43.1 mild (moderate) prolonged post-traumatic stress disorder caused by blast trauma preceded by a closed craniocerebral injury; autonomic dysfunction after concussion; bilateral chronic cochlear neuritis as a result of blast trauma, bilateral sensorineural hearing loss, whispered speech heard by both ears at a distance of 4.5 metres — were caused by the impact of a blast wave generated by the explosion of any explosive substance and, according to severity, are classified as causing less serious harm to health.

Volume 320, case file sheets 1-234

[Page 736]

According to forensic medical expert opinion No. 1028 dated 26.04.2024, it was established that the bodily injuries sustained by Aliyev Emin Magerram oglu — blast trauma, a closed craniocerebral injury, vegetative-vascular instability after concussion, barotrauma, a condition after acute left-sided cochlear neuritis, left-sided sensorineural hearing loss, whispered speech heard at a distance of 4 metres by the left ear and 6 metres by the right ear

— were caused by the impact of a blast wave generated by the explosion of any explosive substance and, according to severity, are classified as causing minor harm to health.

Volume 320, case file sheets 1-234

On the basis of forensic medical expert opinion No. 879 dated 26.04.2024, it was established that the bodily injuries sustained by Binnetov Elsever Emil oglu — blast trauma, neuropathy of the femoral nerve, blast trauma; closed, intra-articular, non-displaced wounds of the right femur extending through the muscles to the diaphysis; open, multiple, non-displaced wounds of the right suprapatellar region; closed, intra-articular, shrapnel, slightly displaced wounds of the proximal metaphysis of the right fibula; there was a large skin defect on the anterior surface of the right knee joint, a lacerated wound on the distal 1/3 of the anterior surface of the left thigh, as well as lacerated wounds on the inner surfaces of the left knee joint and the middle 1/3 of the left thigh; a sufficiently fused fracture of the soft tissues of the left wrist and ankle joint as a result of the impact of foreign bodies (metal fragments); secondary surgical treatment of wounds following compartment syndrome of the right shin — arose as a result of the impact of primary or secondary fragments, including the blast wave generated by a shot from a firearm, as well as by the explosion of any explosive substance and, according to severity, are classified as causing less serious harm to health.

Volume 320, case file sheets 1-234

On the basis of forensic medical expert opinion No. 902 dated 26.04.2024, it was established that the bodily injuries sustained by Mammadov Huseyn Elbrus oglu — mild impairment of limb function as a result of a firearm wound, post-traumatic neuropathy of the right and left sciatic nerves. Hardened skin scars from a bullet wound penetrating the upper third of both thighs — were caused by a firearm wound and, according to degree of severity, are classified as minor bodily injuries.

Volume 320, case file sheets 1-234

On the basis of forensic medical expert opinion No. 886 dated 26.04.2024, it was established that the bodily injuries sustained by Tanyrverdiyev Kenan Suleyman oglu — a firearm wound, post-traumatic neuropathy of the left suprascapular and axillary nerves, residual manifestations expressed in peripheral paresis of the proximal muscle group of the limb, non-healed fractures after primary and secondary surgical treatment of wounds caused by a blunt firearm (bullet) injury accompanied by an open comminuted fracture of the left shoulder girdle and scapula, a foreign body in the soft tissues (metal fragments), arthrogenic contracture of the shoulder joint with mild functional impairments, astheno-neurotic manifestations — arose as a result of the impact of primary or secondary fragments, including the blast wave generated by a shot from a firearm, as well as by the explosion of any explosive substance and are classified as causing less serious harm to health.

Volume 320, case file sheets 1-234

According to forensic medical expert opinion No. 906 dated 26.04.2024, it was established that the bodily injuries sustained by Huseynov Talekh Valekh oglu — blast trauma, a wound

of the left lung penetrating into the left half of the chest, avulsion fracture of the V and VI ribs on the left, left-sided

[Page 737]

haemopneumothorax, left-sided thoracotomy performed in connection with a blind shrapnel wound with damage to the soft tissues of the anterior abdominal wall, sanitation of the thoracic cavity, drainage by the Bulau method, primary surgical treatment of wounds, fibrosis of the upper and lower lobes of the left lung after surgery for removal of a foreign body, left-sided pleural adhesion, splenic hernia after partial resection of the body of the V and VI ribs on the left, mixed type of moderate ventilatory impairment of external respiratory function of the lungs. Barotrauma, chronic cochlear neuritis on the left, persistent sensorineural hearing loss on the left, whispered speech heard at a distance of 5 metres by the left ear and 6 metres by the right ear — arose as a result of the impact of primary or secondary fragments generated by the explosion of any explosive substance and, as a rule, are considered to cause serious harm to health depending on their degree.

Volume 320, case file sheets 1-234

According to forensic medical expert opinion No. 976 dated 26.04.2024, it was established that the bodily injuries sustained by Aliyev Imanbakhish Ali oglu — a closed craniocerebral injury, post-contusional vegetative-vascular instability — arose as a result of the impact of a blast wave generated by the explosion of any explosive substance and are usually considered to cause insignificant harm to health by reason of their degree.

Volume 320, case file sheets 1-234

According to forensic medical expert opinion No. 17 dated 26.04.2024, it was established that the bodily injuries sustained by Musaev Ramik Rafail oglu — blast trauma, a closed craniocerebral injury, post-contusional vegetative-vascular instability — arose as a result of the impact of primary or secondary fragments, including the blast wave generated by the explosion of any explosive substance and, according to degree, are classified as causing minor harm to health.

Volume 320, case file sheets 1-234

According to forensic medical expert opinion No. 904 dated 26.04.2024, it was established that the bodily injuries sustained by Mammadov Ilkin Elchin oglu — a closed craniocerebral injury as a result of blast trauma, acute organic delusional disorder (schizophrenia-like) after concussion, post-contusional syndrome, mild prolonged post-traumatic stress disorder leading to behavioural and memory impairments, a previous closed craniocerebral injury, residual manifestations of concussion leading to post-traumatic encephalopathy manifested by persistent vegetative-vascular instability, cephalgic and insomnia syndrome; bilateral chronic cochlear neuritis as a result of barotrauma, bilateral persistent sensorineural hearing loss, whispered speech heard at a distance of 3.5 metres by both ears; blast trauma, a hardened skin scar after primary surgical treatment of a penetrating firearm wound of the occiput on the left; non-healed skin scars after abrasions on the anterior surfaces of both hands, the upper third of

the right side — arose as a result of the impact of primary or secondary fragments, including the blast wave generated by the explosion of any substance possessing explosive properties and, according to severity, are classified as causing less serious harm to health.

Volume 320, case file sheets 1-234

According to forensic medical expert opinion No. 77 dated 26.04.2024, it was established that the bodily injuries sustained by Zeyniyev Royal Mubariz oglu — ringing in the ears (tinnitus) — arise as a result of the impact of primary or secondary fragments, including the blast wave generated by the explosion of any explosive substance, and are considered moderately dangerous to health.

Volume 320, case file sheets 1-234

[Page 738]

According to forensic medical expert opinion No. 106 dated 26.04.2024, it was established that the bodily injuries sustained by Namazov Khayal Elman oglu — military trauma. A bullet wound penetrating the back of the head. Acute respiratory illness in the recovery phase — are classified as less serious danger to health caused by the impact of primary or secondary fragments generated by the explosion of any explosive substance.

Volume 320, case file sheets 1-234

According to forensic medical expert opinion No. 86 dated 26.04.2024, it was established that the bodily injuries sustained by Garaev Bahram Yashar oglu — combat trauma, a blind bullet wound of the right thigh, removal of the bullet because of an incomplete fracture of the right femur, primary surgical treatment of the wound — were caused by the impact of a primary or secondary fragment generated by the explosion of any explosive substance and are classified as causing less serious harm to health according to severity.

Volume 320, case file sheets 1-234

According to forensic medical expert opinion No. 92 dated 26.04.2024, it was established that the bodily injuries sustained by Mammadli Novruz Ilgar oglu — a blind firearm wound of the lateral surface of the left thigh — were caused by the impact of a primary or secondary fragment as a result of the explosion of any explosive substance and are classified as causing minor harm to health.

Volume 320, case file sheets 1-234

According to forensic medical expert opinion No. 198 dated 05.04.2023, it was established that the bodily injuries sustained by Musaev Asim Isa oglu — open wounds of the lower third of the left thigh with damage to the left inguinal artery and vein, as well as nerves — as a rule, indicate serious injury by reason of the degree of trauma.

Volume 37, case file sheets 79-82

On 15 September 2022, an examination of the body of soldier Magerramov Elnur Narbala oglu was conducted.

Volume 237, case file sheets 9-18

When questioned as the legal heir of the victim Magerramov Elnur Narbala oglu, Magerramov Elmir Narbala oglu stated in his testimony that Magerramov Elnur Narbala oglu was his biological brother. Elnur Magerramov was called up for military service in October 2021 and served in military unit No. 172 located in the Kalbajar District. On 15 September 2022 at approximately 10:00 in the morning, he was informed by the village administration that his brother Elnur Magerramov had died as a result of the explosion of a mine laid by Armenian armed formations. On that day, his brother's body was brought to the village of Shekar in the Goychay District, where he lived, and was buried with the participation of the public of the district.

Volume 183, case file sheets 188-191

On 14.09.2022 at approximately 20:00, during the clearance of mines installed by Armenian armed formations in front of a combat position under the code name "KA-3" in the locality "Alagellar" of the Kalbajar District, suddenly one of those mines exploded, and soldier Magerramov Elnur Narbala oglu sustained a serious injury, his leg was torn off, and at the same time both of his legs were injured by fragments of the mine.

Private Magerramov Elnur Narbala oglu was provided first medical aid, and he and soldier Elnur Magerramov were evacuated to a military hospital. He later learned that soldier Magerramov Elnur Narbala oglu died on the way to the military hospital from shrapnel wounds.

Volume 237, case file sheets 85-88

The witnesses questioned, Private Bakhshiev Elmaddin Huseyn, Sergeant Hasanov Elgun Gurshad, Private Akhundov Geydar Khalid and Captain Alekperov

[Page 739]

Nemat Yasar confirmed what Sergeant Aslanov Ali Zargam oglu had stated in his testimony.

Volume 237, case file sheets 34-38, 39-43, 44-48, 50-53, 59-63

According to forensic medical expert opinion No. 13 dated 29.09.2022, the bodily injuries found during the examination of the body of Magerramov Elnur Narbala oglu — incomplete, complete traumatic amputation of the right lower limb at the level of the upper third of the shin, hanging on a skin flap, accompanied by severe bleeding; injuries to external genital organs; multiple blind shrapnel wounds of the soft tissues of the perineum, dorsal surface of the left hand, left thigh, both knee joints, left shin and the area of the left ankle joint — are characteristic of the impact of a blast wave and fragments generated by the explosion of explosive munitions. The cause of his death was acute bleeding as a result of the injuries sustained.

Volume 237, case file sheets 92-94

According to forensic medical expert opinion No. 743 dated 22.12.2022, the bodily injuries sustained by Aslanov Ali Zargam oglu — a closed craniocerebral injury with concussion, multiple blind wounds of the soft tissues of the thighs and shins, as well as a metal foreign body in the soft tissues — are characteristically attributable to the impact of a blast wave and fragments generated by the explosion of explosive munitions. Their occurrence on 14.09.2022 under the stated circumstances is indisputable, and by reason of their seriousness they constitute insignificant harm to health requiring prolonged treatment.

Volume 237, case file sheets 113-114

On 23 September 2022, Lieutenant of Justice Ramazanov Sanan Aslan oglu, acting as senior investigator of the Qubadli Military Prosecutor's Office, conducted an examination of items of clothing which were on R.R. Huseynli at the time of the incident.

Volume 238, case file sheets 17-32

On 16 September 2022, an examination of the body of the deceased Rashad Huseynli was conducted.

Volume 238, case file sheets 61-78

When questioned as the injured deputy head of the 2nd group of the 1st operational section of the rapid-response battalion of military unit No. 2021 of the State Border Service, Lieutenant Radjabov Sakhavat Togrul oglu stated in his testimony that he began carrying out a combat task at approximately 16:30 on 15.09.2022. According to his instructions, he and the first subgroup consisting of servicemen of military unit No. 2028, Senior Sergeant Huseynli Rashad Ramiz oglu and Senior Sergeant Nazarov Bahruz Sattar oglu, went ahead, while the half-group consisting of servicemen of military unit No. 2028 Djeyhun Razgulyev and servicemen of the military unit in which he served, Senior Warrant Officers Ravan Guliyev and Parviz Abdullaev, were forced to move 45-50 metres behind us. At approximately 17:00, when they stopped to observe the direction of movement along the pre-designated route toward a rise in order to perform the combat task, Armenian servicemen suddenly began firing at him and R. Huseynli from a wooded area adjacent to the planned route. Since he and Sergeant R. Huseynli were moving ahead at that time, they were unable to protect themselves from the sudden attack by Armenian partisans and sustained injuries.

Volume 238, case file sheets 149-152

The witnesses questioned, Nazarov Bahruz Sattar oglu and Rzagulyev Djeyhun Djavad oglu, gave testimony analogous to that of Radjabov Sakhavat Togrul oglu.

Volume 238, case file sheets 7-11, 12-16

According to forensic ballistic expert opinion dated 23.11.2022 No. 1/3492, 1/3493, on the military clothing belonging to Huseynli Rashad Ramiz oglu,

[Page 740]

there are injuries in the quantity and dimensions indicated in the analytical part of the opinion. On the basis of the shape, dimensions, morphology and structure of the injuries, the absence around the injuries of incompletely burnt powder particles, which constitute an additional factor of the shot, as well as the detection of traces of copper metal, the injuries on the rear part of these items of clothing are entry wounds and the injuries on the front part are exit wounds, sustained as a result of multiple shots from a rifled firearm in a direction from back to front from a distance of more than 1 metre, from a bullet approximately 7 millimetres in diameter. No firearm injuries were found on the submitted right sock and right boot.

Volume 238, case file sheets 166-169

According to forensic medical expert opinion No. 24 dated 16.10.2022, during examination of the body of Huseynli Rashad Ramiz oglu the following bodily injuries were found on the surface of the body: fractures of the bones of the facial skeleton of the left III and IV clavicle, right scapula and left III, IV and V ribs. Multiple firearm wounds on the surface of the body resulting in damage to the organs of the chest and abdominal cavity, as well as massive internal and external bleeding. The cause of death was traumatic-haemorrhagic shock that developed as a result of injuries to the organs of the chest and abdominal cavity as a consequence of firearm wounds sustained by him on 15.09.2022.

Volume 238, case file sheets 188-191, 198-200

According to forensic medical expert opinion No. 1679 dated 14.12.2022, the bodily injuries sustained by S.T. Radjabov — a penetrating firearm wound of the shoulder-scapular region, resulting in rupture of the upper lobe of the right lung, right-sided haemopneumothorax and contusion of the right lung leading to a fracture of the upper third of the right humerus, the right third rib, the right scapula and rupture of the acromioclavicular joint. The specified injuries, taken together, are classified as serious harm to health.

Volume 238, case file sheets 208-209

According to the decision dated 23.12.2022 on recognition as physical evidence, a jacket with long sleeves of military field uniform for criminal cases, a black short-sleeved T-shirt, military field trousers, grey underpants, one pair of military socks, one pair of military boots and one bullet fragment were recognised as physical evidence and are kept in the physical-evidence storage facility of the Department of Special Investigations.

Volume 238, case file sheets 170-171

According to certificate No. 4025 dated 23.09.2022 obtained from military unit No. 172, because the area served by combat position No. “K2” of the 2nd Battalion, located in the locality of Alagellar in the Kalbajar District, is mined territory, it is not possible to inspect the scene of the incident.

Volume 244, case file sheet 16

According to the record of examination dated 26.09.2022, the heel and right part of a pair of boots belonging to Aydinli Alizade and submitted by military unit No. 230 are in a torn

condition. There is no damage on the left side of the military trousers, military jacket, military shirt, military waist belt and pair of boots.

Volume 244, case file sheets 19-25

When questioned as the injured person, Alizade Aydin Agamoglan oglu stated in his testimony that on 23.09.2022 at approximately 15:30 he sustained an injury to his right leg after being blown up by a mine while carrying out mine-search work in the area served by combat position No. “K2”, located in the locality called Alagellar in the Kalbajar District, of the 2nd Battalion of the 172nd military unit of the Ministry of Defence of the Republic of Azerbaijan. After first aid was provided, he was evacuated to Military Hospital No. 524.

[Page 741]

Volume 244, case file sheets 67-71

Servicemen of military unit No. 343, Rahmanzade Ali Rovshan oglu and Huseynov Magomed Tahir oglu, questioned as witnesses, gave testimony analogous to the testimony of the injured Aydinli Alizade, confirming the facts stated by him.

Volume 244, case file sheets 52-56, 57-61

According to forensic medical expert opinion No. 571 dated 23.09.2022, the bodily injuries found in Alizade Aydin Agamoglan oglu — “traumatic-haemorrhagic shock of degree II, open multifragmentary bone defect, displaced fractures of the calcaneal, navicular, navicular, lateral cuneiform, cuboid bones, base of the second metatarsal bone, base and head of the fourth metatarsal bone, body of the fifth metatarsal bone, open displaced fractures” — are characteristic of the consequences of the impact of a blast wave formed during the explosion of combat munitions possessing explosive properties, and secondary fragments from the primary and blunt mechanism, and, according to severity, fall within the category of causing serious harm to health.

Volume 244, case file sheets 89-90

According to forensic ballistic expert opinion No. 3/1413 dated 02.11.2022, on the basis of the discovery on the surface of the right heel of a pair of boots of traces of soot, traces of explosives, TNT and incompletely burnt particles of smokeless powder, which constituted an additional factor of the fire, depending on whether the boot is torn or patched, on the basis of its shape, location, dimensions, morphological structure and characteristic features, this injury is considered to have been caused by the impact of a component of an explosive device, from a distance close to the centre of the explosion, in a direction from above downwards-upwards. The causing of injury is possible under the circumstances stated in the descriptive part of the decision. This injury may have been caused by the explosion of an anti-personnel mine.

Volume 244, case file sheets 79-82

According to the decision dated 15.11.2022, the military trousers, military jacket, military shirt, military belt and one pair of boots which were worn by Aydinli Alizade were recognised

as physical evidence and are kept in the physical-evidence storage facility of the Department of Special Investigations of the Military Prosecutor's Office of the Republic of Azerbaijan.

Volume 244, case file sheets 83-84

On 23.09.2022, from 19:30 to 23:40, the Armed Forces of Armenia, from their positions in the direction of the settlements of Verkhnyaya Shordzha and Jermuk in the Basarkechar District, opened intensive fire from small arms of various calibres with the aim of deliberately striking personnel of the Azerbaijani Army serving at positions in the direction of the settlements of Istisu and Zaylik in the Kalbajar District; Amanullaev Rashad Agajan oglu, Rahimzade Rukhif Oktay oglu and Javadov Ravan Shamsaddin oglu sustained injuries of varying severity.

According to a certificate obtained from the Kalbajar Military Prosecutor's Office and military unit No. 172, it was not possible to inspect the scene because the position where the servicemen were injured was located on the line of contact with the Armed Forces of Armenia, was visually observed by the latter and constituted mined terrain.

When questioned as the injured person, Javadov Ravan Shamsaddin oglu stated in his testimony that he served in military unit No. 701, and from 01.08.2022 was temporarily stationed in the village of Kamyshly in the Kalbajar District together with other servicemen of the military unit. On 23.09.2022 at approximately 18:00, in two KAMAZ vehicles belonging to the military unit, he and the other servicemen were taken to five trenches at a combat position in the settlement of Jermuk, the name of which he does not remember. Several minutes after their arrival, the Armenian armed forces fired warning shots into the air, after which all personnel bent down, and soon thereafter.

[Page 742]

the position where they were located was shelled by Armenian armed forces. As a result, he and other servicemen were wounded and subsequently taken to Military Hospital No. 524.

The injured Rahimzade Rukhid Oktay oglu, Amanullaev Rashad Agajan oglu and others gave testimony analogous to that of Javadov Ravan Shamsaddin oglu, confirming the fact stated by him.

Volume 193, case file sheets 29-31

According to forensic medical expert opinion No. 666 dated 24.11.2022, the injuries sustained by Amanullaev Rashad Agajan oglu — a penetrating wound to the soft tissues of the left hand, accompanied by temporary impairment of the function of the elbow joint — are characteristic of the impact of a bullet (projectile) fired from a charged firearm. It is not excluded that they could have occurred at the time and under the circumstances specified in the descriptive part of the decision, and according to severity they are classified as less serious harm to health.

Volume 193, case file sheets 110-111

According to forensic medical expert opinion No. 658 dated 24.11.2022, the injuries sustained by Rahimzade Rukhid Oktay oglu — a penetrating wound to the right foot accompanied by a comminuted, displaced, open fracture of the body of the fifth metatarsal bone — are characteristic of the impact of a bullet (projectile) from a firearm and are classified as minor harm to health.

Volume 193, case file sheets 114-115

According to forensic medical expert opinion No. 616 dated 28.10.2022, the injuries sustained by Javadov Ravan Shamsaddin oglu — traumatic haemorrhagic shock of degree II-III, an open, multifragmentary, displaced, defective fracture of the diaphysis of the femur, injury to the sciatic nerve, a penetrating wound of the left thigh with an extensive soft-tissue defect; a penetrating wound to the soft tissues of the lower third of the left shin — are characteristic of the impact of a bullet (projectile) as a result of a shot from a firearm and are classified as serious harm to health.

Volume 193, case file sheets 118-119

According to forensic medical examination opinion No. 3/1507 dated 24.11.2022, no characteristic bodily injuries that could have been caused by the impact of a bullet fired from a firearm were found on the military clothing of Amanullaev Rashad Agajan oglu.

Volume 193, case file sheets 95-97

According to expert opinion of the forensic medical examination No. 3/1509 dated 24.11.2022, the field-type trousers and field-type jacket belonging to Javadov Ravan Shamsaddin oglu bear damage, the number and dimensions of which are specified in the examination part of the report. On the basis of the shape, dimensions and morphological structure of the lesions and the weak detection of traces of copper metal around the lesions, the damage on the back of these items of clothing is characteristic of penetrating wounds caused by a bullet approximately 7 millimetres in diameter, fired from a rifled firearm and directed from back to front from a distance of more than 1 metre.

No characteristic bullet injuries were found on the pair of military boots, pair of socks, military cap, military sweater, military undershirt, lower shirt, khaki-coloured fabric bearing the inscription “Commando”, and khaki-coloured fabric submitted for examination.

Volume 193, case file sheets 99-102

According to expert opinion No. 3/1508 of the forensic medical examination dated 24.11.2022, no characteristic bodily injuries sustained as a result of a firearm wound were found on the tunic, padded jacket, undershirt, sweater, padded jacket and left boot of Rahimzade Rukhid Oktay oglu.

[Page 743]

The right boot belonging to Rahimzade Rukhid Oktay oglu bears damage in the quantity and dimensions indicated in the examination part of the opinion. On the basis of the shape, dimensions and morphological structure of the wound and the detection of a faint trace of

copper metal around the wound, the wound in the lower part of the boot was an entry wound caused by a bullet approximately 5 millimetres in diameter, fired from a rifled firearm, from below upwards.

Volume 193, case file sheets 104-107

According to the document submitted on the basis of forensic biological expert opinion No. 71-mt6 dated 24.11.2022, the blood group of Rahimzade Rukhid Oktay oglu is B(III). Human blood was found on the jacket and boots. In determining the blood group, only antigen “B” was detected. Thus, the specified blood stains may belong to a person with blood group B(III) under the ABO system, including Rahimzade Rukhid Oktay oglu, who belongs to that group.

Volume 193, case file sheets 128-130

According to supplementary forensic biological expert opinion No. 73-mt6 dated 25.11.2022, the blood group of Rahimzade Rukhid Oktay oglu is B(III). Human blood was found on the coat submitted for examination. In determining the blood group, only antigen “A” was detected. Thus, the indicated blood stains may belong to a person with blood group A(II) under the ABO system. Since the blood group of Rahimzade Rukhid Oktay oglu is B-alpha (III), the presence of his blood in the human-blood stain detected on coat No. 1 is excluded.

Volume 193, case file sheets 133-135

According to the decision dated 23.12.2022, since the military tunic, military sweater and military turtleneck belonging to Amanullaev Rashad Agajan oglu; military trousers, a long-sleeved shirt, military woollen sweater, military underpants, one pair of military boots, one pair of military socks, waist belt and military cap belonging to Javadov Ravan Shamsaddin oglu; military winter jacket, two military overalls, military woollen sweater, military long-sleeved shirt and one pair of military boots belonging to Rahimzade Rukhid Oktay oglu are important for the work, they were recognised as physical evidence and are currently located in the Department of Special Investigations.

Volume 193, case file sheets 185-186

On 25.09.2022 at approximately 11:00, as a result of intensive fire from small arms from various directions at the combat position of military unit No. 171, conventionally designated “GCh-4”, located in the Dashkesan District, by servicemen of Armenian military formations unidentified by the investigation, the commander of the grenade-launcher section of the anti-tank division of that military unit, retired serviceman Private Namazaliev Firuddin Rafael oglu, having sustained minor injuries, was evacuated to Military Hospital No. 230.

In addition, on 25.09.2022 at approximately 11:00, as a result of intensive fire from small arms from various directions at the combat position of military unit No. 171, conventionally designated “GCh-4”, located in the Dashkesan District, by servicemen of Armenian military formations unidentified by the investigation, the scout of the 1st group of the 2nd company of the 1st Battalion of military unit No. 191, a serviceman acting beyond the regular term, Junior Sergeant Aliev Sabukhi Vahid oglu, was evacuated to Military Hospital No. 230 with minor injuries.

When questioned as the injured person, Aliev Sabukhi Vahid oglu stated in his testimony that on 25.09.2022 at approximately 11:00, while carrying out engineering and fortification works, including digging trenches, for protection from fire and attack by Armenian military formations, as a scout-medical of the 1st group of the 2nd company of the 1st Battalion of military unit No. 191, he sustained a bullet wound to the thigh as a result of intensive fire from small and medium-calibre weapons by armed formations stationed in the area of Lake Geycha, approximately 800 metres away.

[Page 744]

Volume 194, case file sheets 51-55

When questioned as witnesses, scout-rifleman of the 1st group of the 2nd company of the 1st Battalion of military unit No. 191, Junior Sergeant Velizade Kenan Nariman oglu, and reconnaissance operator of the 1st group of the 2nd company of the 1st Battalion of the 1st military unit No. 191 of the Land Forces, Private Shakhgulyev Vusal MaZakhir oglu, stated in their testimony that on 25.09.2022 at approximately 11:00, when they were serving as part of the 1st group of the 2nd company of the 1st Battalion of military unit No. 171, as a result of intensive fire from small and medium-calibre weapons by armed formations located in the area of Lake Geycha, approximately 800 metres from them, the scout-medical of the 1st group of the 2nd company of the 1st Battalion of military unit No. 191, Aliev Sabukhi Vahid oglu, sustained a gunshot wound to the thigh.

Volume 194, case file sheets 57-60

When questioned as the injured person, Namazaliev Firuddin Rafael oglu stated in his testimony that on 25.09.2022 at approximately 11:00, while carrying out engineering and fortification works, including digging trenches, for protection from fire and attack by Armenian military formations, as commander of the grenade-launcher section of the anti-tank division of the 2nd platoon of the 1st section of military unit No. 171, he sustained a bullet wound to the right thigh as a result of intensive fire from small and medium-calibre weapons by armed formations stationed in the area of Lake Geycha, approximately 1,000 metres away.

Volume 194, case file sheets 79-84

When questioned as witnesses, Guliyev Elvin Yaver oglu and Huseynov Ilkin Namig oglu stated in their testimony that on 25 September 2022 at approximately 11:00, while serving at the 1st post of the 2nd platoon of the anti-tank division of military unit No. 171, as a result of intensive fire from small and medium-calibre weapons by armed formations located in the area of Lake Geycha, approximately 1,300 metres from them, the commander of the grenade-launcher section of the anti-tank subunit of military unit No. 171, a serviceman acting beyond the regular term, Private Firuddin Rafael Namazaliev, sustained a gunshot wound to the thigh.

Volume 194, case file sheets 67-71

According to forensic medical expert opinion No. 596 dated 24.10.2022, the injury sustained by Aliev Sabukhi Vahid oglu — a penetrating wound to the soft tissues of the inner surface of

the middle third of the left thigh — is characteristic of the impact of a bullet as a result of a firearm wound, causing minor harm to health, and relates to multiplication.

Volume 194, case file sheet 102

According to forensic medical expert opinion No. 619 dated 10.11.2022, the injury sustained by Namazaliev Firuddin Rafael oglu — a penetrating wound to the soft tissues of the upper third of the right thigh characteristic of a bullet (projectile) fired from a firearm, the entry opening of which is located on the anteromedial surface of the upper third of the right thigh, and the exit opening in the inferomedial quadrant of the right groin, with a direction from front to back and slightly from below upwards — is classified as minor harm to health.

Volume 194, case file sheets 103-104

According to forensic ballistic expert opinion No. 1/3405, 1/3415 dated 10.11.2022, the military trousers and underwear belonging to Sabukhi Aliev, as well as the military trousers belonging to Firuddin Namazaliev, bear the number and dimensions of damage specified in the examination section of the report. The wound located on the left rear side of the left trouser leg of the military trousers and the lower shirt of Sabukhi Aliev constituted a penetrating wound typical of a firearm injury caused by a 7-millimetre bullet containing copper metal.

Volume 194, case file sheets 125-129

[Page 745]

According to the decision dated 15.12.2022 recognising physical evidence, the tunic, trousers, jacket, one pair of boots and one pair of socks which were on Firuddin Namazaliev during the incident; one bullet lodged in the trousers of Sabukhi Aliev; as well as the trousers, long-sleeved shirt and undershirt which were on S. Aliev during the incident are kept in the storage facility of the Department of Special Investigations.

Volume 194, case file sheets 130-132

On 28.09.2022 at approximately 18:00, as a result of intensive fire from small arms by personnel of Armenian military units unidentified by the investigation against a subunit of the Azerbaijani Army located in the direction of the locality known as Alagollar in the Kalbajar District, with the aim of inciting national hostility and hatred, a member of mortar crew No. 4 of the 5th company of the 2nd operational Battalion of the 703rd military unit of the Ministry of Defence, a serviceman acting beyond the regular term, Junior Sergeant Iskenderov Nijat Hidayat oglu, after sustaining severe injuries — “traumatic-haemorrhagic shock of degree 1-2, open craniocerebral injury, the entry opening located at the upper right corner and the exit opening in the middle of the forehead, collapse of the eyeball resulting in loss of vision in the right eye and contusion of the frontal lobe of the brain, comminuted open fractures of the lower wall of the ethmoid recess, frontal bone, upper wall of the frontal recess, anterior and posterior walls, as well as the internal, external, upper and lower walls of the right orbit, the right ethmoid bone, anterior and posterior walls of the right ethmoid floor and the right coronoid process of the lower jaw, a penetrating firearm wound to the head with damage to

the lower pole of the right parotid salivary gland” — was evacuated to Military Hospital No. 524.

On 28.09.2022 at approximately 19:00, on the basis of information received about the wounding of Junior Sergeant Iskenderov Nijat Hidayat oglu, a serviceman acting beyond the regular term of military unit No. 703, as a result of shelling by Armenian military subunits from the territory of military unit No. 703, the relevant documents were collected by travelling to the military unit through the Kalbajar Military Prosecutor’s Office and necessary measures were taken; however, since the scene of the incident was on the line of direct contact with Armenian combatants and the territory was mined, it was not possible to conduct an inspection.

Volume 195, case file sheet 6

The military winter jacket, military field trousers, military T-shirt, civilian T-shirt, civilian trousers, one pair of civilian gloves and one pair of socks which were worn by Iskenderov Nijat Hidayat oglu during the incident were examined on 12.10.2022.

Volume 195, case file sheets 21-27

When questioned as the injured person, Iskenderov Nijat Hidayat oglu stated in his testimony that on 28.09.2022 at approximately 17:00, when he saw an Armenian excavator digging a trench and moving towards them in the direction of a breach of the gorge towards combat position K-82-3, he reported this to platoon commander Lieutenant Novruzzade Khayal Bakhmen oglu and battalion commander Captain Vusal Nadjafbeyli. When the latter reported this to the superior command, they were ordered to fire warning shots. Thereafter Lieutenant Novruzade opened fire at the positions of the Armenian armed forces in the direction of the tractor, and in response the Armenian armed forces shelled the tent in which their personnel were located. In addition to him, servicemen Dilgam Valiyev, Vusal Almuradzade and Agil Islamzade were in the tent. While he was lying on the ground, a 5.45 mm bullet fired by the Armenians entered his lower right jaw and exited through the forehead. His fellow servicemen immediately came to his assistance, provided first aid and bandaged his eye. Battalion medical orderly Lieutenant Orkhan Mammadov, who arrived at the combat position, took him in a KAMAZ vehicle to the battalion medical post, from where he was evacuated to hospital.

[Page 746]

Volume 195, case file sheets 56-58

When questioned as witnesses, Valiyev Dilgam Adigezel oglu, Almuradzade Vusal Vahid oglu and Islamzade Agil Ramil oglu confirmed the circumstances set out in Nijat Iskenderov’s testimony and gave testimony of analogous content.

Volume 195, case file sheets 31-34, 37-40, 42-45

According to forensic medical expert opinion No. 588 dated 03.11.2022, the bodily injuries sustained by N.K. Iskandarov — the entry opening is located in the right corner of the jaw

and the exit opening is in the middle of the forehead, resulting in traumatic-haemorrhagic shock of degree I-XI, an open craniocerebral injury, collapse of the eyeball. With loss of vision in the right eye, crushing of the brain in the frontal lobe, comminuted open fractures of the lower wall of the ethmoid sinus, frontal bone, anterior and posterior walls of the frontal sinus, internal, external, upper and lower walls of the right orbit, right ethmoid bone, anterior and posterior walls of the right ethmoid floor and the right coronoid process of the lower jaw, a penetrating wound to the head with damage to the lower edge of the right parotid salivary gland — arose as a result of a shot from a firearm from below upwards, from right to left; the contusion of the right scapula accompanied by haemorrhage is characteristic of a blunt mechanism, impact with a hard blunt object, and is classified as serious harm to health causing permanent loss of more than one-third of total working capacity.

Volume 195, case file sheets 77-79

By a decision of the investigator for particularly important cases of the Department for Particularly Important Investigations, Ibrahimov Azer Vagif oglu, dated 15.12.2022 on recognition as physical evidence, the military winter jacket, field trousers, military T-shirt, civilian T-shirt, civilian trousers, one pair of civilian gloves and one pair of socks were recognised as physical evidence and transferred for storage to the storage chamber of the Department of Special Investigations.

Volume 195, case file sheets 72-73

According to Order No. 254 of the commander of military unit No. 703 dated 31.08.2022 and subparagraph “a” of Article 81 of the Regulation “On Military Service”, in connection with organisational and personnel changes, Junior Sergeant Iskenderov Nijat Hidayat oglu, a serviceman acting beyond the regular term, was relieved of his occupied position and appointed to the position of commander of the 2nd mortar of the 1st mortar platoon of the mortar battery of the 3rd motorised rifle Battalion, to the staff position of the mortar group of the 4th operational platoon of the 5th operational company of the 2nd operational Battalion.

Volume 195, case file sheet 8

In the territories liberated from occupation after the tripartite statement dated 10.11.2020, as of 22.04.2024, the Ministry of Defence of the Republic of Azerbaijan, the Mine Action Agency of the Republic of Azerbaijan, the Ministry of Emergency Situations, the State Border Service, as well as the demining companies “Alphademining”, “Azerbaijan demining”, “Qaya Safety Solutions” and “Safe Point” discovered and removed a total of 31,964 anti-personnel mines, 19,110 anti-tank mines of Russian manufacture of the types “TM-62M”, “TM-62P2”, “TM-57”, “TM-62P” and 67,204 unexploded munitions: in the Aghdam District, 9,222 anti-personnel mines, 6,112 anti-tank mines and 10,053 unexploded munitions were found; in the Agdere District, 4 anti-personnel mines, 38 anti-tank mines and 932 unexploded munitions were found; in the Jabrayil District, 4,887 anti-personnel mines, 2,856 anti-tank mines and 10,259 unexploded munitions were found; in the Fuzuli District, 8,911 anti-personnel mines, 5,723 anti-tank mines and 21,234 unexploded munitions were found; in the Qubadli District, 835 anti-personnel mines and 1,504 anti-tank mines.

and 1,304 unexploded munitions; in the Tartar District, 2,409 anti-personnel mines, 1,507 anti-tank mines and 2,525 unexploded munitions were found; in the Khankendi District, 4,859 anti-personnel mines, 112 anti-tank mines and 172 unexploded munitions were found; in the Khojaly District, 72 anti-personnel mines, 1 anti-tank mine and 1,886 unexploded munitions; in the Khojavend District, 77 anti-personnel mines, 196 anti-tank mines and 7,528 unexploded munitions; in the Zangilan District, 925 anti-personnel mines, 510 anti-tank mines and 1,161 unexploded munition; in the Tovuz District, 2 anti-personnel mines; in the Kalbajar District, 1,434 anti-personnel mines of the PMN-2 and PMN-E types, 50 units of Armenian manufacture from 2018, 312 units of Armenian manufacture from 2019, 740 units of Armenian manufacture from 2021, 322 anti-tank mines of the TM-57, TM-62P2 and TM-62M types of Russian manufacture, date of manufacture unknown, and 2,131 unexploded munitions; in the Lachin District, 1 anti-personnel mine of Armenian manufacture from 2012, 2,113 units of high-explosive fragmentation anti-personnel mines PMN-2 and PMN-E of Armenian manufacture from 2021, 43 anti-tank mines of Russian manufacture of the TM-62P2 and TM-62M types of unknown date of manufacture, and 162 unexploded munitions; in the Shusha District, 20 units of high-explosive anti-personnel mines PMN-E of Armenian manufacture from 2021 and 13 units of anti-tank mines TM-62P2 of Russian manufacture of unknown date of manufacture, and 2,445 unexploded munitions; in the Dashkesan District, 613 units of high-explosive projectiles PMN-E and PMN-2 of Armenian manufacture from 2016, 5 anti-personnel mortars OZM-72E of Armenian manufacture of unknown date of manufacture, including 4 anti-tank mines TM-62M of Russian manufacture of unknown date of manufacture.

According to the record dated 27.09.2022, on that day the site where 543 anti-personnel mines PMN-E and 8 anti-tank mines TM-62M, laid by Armenian servicemen and subsequently rendered safe and removed by servicemen of the Republic of Azerbaijan, had been found was inspected in the territory of Alagollar in the Kalbajar District.

Volume 198, case file sheets 109-122

According to the record dated 27.09.2022, on that day, with the participation of specialist Lieutenant-Colonel Azizov Vugar Ahyaddin oglu, 543 anti-personnel mines of the PMN-E type of Armenian manufacture and 8 anti-tank mines of the TM-62M type, laid by Armenian servicemen and subsequently rendered safe and removed by servicemen of the Republic of Azerbaijan, were inspected in the territory of Alagollar in the Kalbajar District.

According to the record dated 28.09.2022, on that day the site where 52 anti-personnel mines PMN-E and 22 anti-tank mines TM-62M, laid by Armenian servicemen and subsequently rendered safe and removed by servicemen of the Republic of Azerbaijan, had been found was inspected at the foot of Mount Kongur in the village of Keshishkend in the Kalbajar District.

Volume 198, case file sheets 127-133

According to the record dated 28.09.2022, on that day, with the participation of specialist Lieutenant-Colonel Azizov Vugar Ahyaddin oglu, 51 anti-personnel mines of the PMN-E

type and 22 anti-tank mines of the TM-62M type, laid by Armenian servicemen and subsequently rendered safe and removed by servicemen of the Republic of Azerbaijan, were inspected at the foot of Mount Kongur in the village of Keshishkend in the Kalbajar District.

Volume 198, case file sheets 134-148

[Page 748]

According to the record dated 28.09.2022, on that day the burial site of 72 anti-personnel mines PMN-E, which had been buried by Armenian servicemen at the foot of a mountain, 2 km south of the Zod field in the Kalbajar District, on the eastern part of a combat position and which were rendered safe, removed and destroyed by servicemen of the Republic of Azerbaijan, was inspected.

Volume 198, case file sheets 149-155

According to the record dated 28.09.2022, on that day the emplacement site of 50 anti-personnel mines PMN-E, laid by Armenian servicemen at the foot of a mountain, 2 km south-east of the Zod deposit in the Kalbajar District, to the right of the road leading to the combat positions, which were rendered safe, removed and destroyed by servicemen of the Republic of Azerbaijan, was inspected.

Volume 198, case file sheets 157-163

According to the record dated 28.09.2022, on that day, with the participation of specialist Kazimov Murad Mirkazim oglu, 148 of 168 anti-personnel mines of the E-001M type, buried by Armenian servicemen on the lower side of a supply road leading to a combat position designated "LM-17", located south-east of the settlement of Finge in the territory of the village of Ikinji Ipek in the Lachin District, and rendered safe and removed by servicemen of the Republic of Azerbaijan, were inspected.

Volume 198, case file sheets 170-183

According to the record dated 28.09.2022, on that day, with the participation of specialist Kazimov Murad Mirkazim oglu, in the area of the village of Ikinji Ipek in the Lachin District, in a valley on the left side of the supply road leading to the combat position designated "LM-17", located in the north-western direction of the Sarybaba mountain ridge, an inspection was conducted of the terrain where 991 anti-personnel mines "001M", buried by Armenian servicemen and rendered safe and removed by servicemen of the Republic of Azerbaijan, had been found.

Volume 198, case file sheets 184-194

According to the inspection record dated 28.09.2022, on that day, with the participation of specialist Kazimov Murad Mirkazim oglu, in the valley on the left side of the supply road leading to the combat position designated "LM-17", located south-east of the settlement of Finge in the area of the village of Ikinji Ipek in the Lachin District, the terrain where 168 anti-personnel mines of the E-001M type had been buried by Armenian servicemen and rendered safe and removed by servicemen of the Republic of Azerbaijan was inspected.

Volume 198, case file sheets 196-205

According to the inspection record dated 28.09.2022, on that day, with the participation of specialist Kazimov Murad Mirkazim oglu, in the area of the village of Ikinji Ipek in the Lachin District, in the valley on the left side of the supply road leading to the combat position designated “LM-17”, located in the north-western direction of the Sarybaba mountain ridge, an inspection was carried out of 28 out of 100 high-explosive fragmentation anti-personnel mines “E-001M”, buried by Armenian servicemen and rendered safe and removed by servicemen of the Republic of Azerbaijan, as well as the territory where those mines had been installed.

Volume 198, case file sheets 206-215

According to the inspection record dated 29.09.2022, on that day an inspection was carried out of the locality where 8 anti-personnel mines PMN-2 and 4 anti-tank mines TM62-M had been laid on the plateau by Armenian servicemen and rendered safe and removed by servicemen of the Republic of Azerbaijan at the foot of Mount Bugdadag in the Dashkesan District.

Volume 198, case file sheets 224-227

According to the inspection record dated 29.09.2022, on that day, with the participation of specialist Lieutenant-Colonel Azizov Vugar Ahyaddin oglu, 3 anti-personnel mines PMN-2 and 4 anti-tank mines TM62-M, laid by Armenian.

[Page 749]

servicemen, as well as rendered safe and removed by servicemen of the Republic of Azerbaijan at the foot of Mount Bugdadag in the Dashkesan District, were inspected.

Volume 196, case file sheets 1-10

According to the inspection record dated 29.09.2022, on that day the site where 6 anti-tank mines TM62-M, laid by Armenian servicemen and rendered safe and removed by servicemen of the Republic of Azerbaijan, had been found near Mount Bugdadag, at the foot of an unnamed hill in the Dashkesan District, was inspected.

Volume 196, case file sheets 11-15

According to the inspection record dated 29.09.2022, on that day, with the participation of specialist Lieutenant-Colonel Azizov Vugar Ahyaddin oglu, an inspection was carried out of 70 anti-tank mines TM62-M, which had been laid by Armenian servicemen in the Dashkesan District, near Mount Bugdadag, at the foot of an unnamed hill, on a dirt road and 500 metres from that location, on the right and left sides of the road as well as on the road, and which were rendered safe and removed by servicemen of the Republic of Azerbaijan.

Volume 196, case file sheets 16-23

According to the inspection record dated 29.09.2022, on that day an inspection was carried out of the dirt road, on the right and left sides of the road, at the foot of an unnamed hill near

Mount Bugdadag in the Dashkesan District, where Armenian servicemen had laid 64 anti-tank mines TM62-M, which were rendered safe and removed by servicemen of the Republic of Azerbaijan.

Volume 196, case file sheets 24-36

According to the inspection record dated 29.09.2022, on that day, with the participation of specialist Kazimov Murad Mirkazim oglu, in the Lachin District, at the northern foot of Mount Beyuk Ishigli, in a gap on the right side of the supply road leading to the combat position, the locality was inspected and 122 high-explosive fragmentation anti-personnel mines “E-001M”, laid by Armenian servicemen and subsequently rendered safe and removed by servicemen of the Republic of Azerbaijan, were identified.

Volume 196, case file sheets 43-56

According to the inspection record dated 29.09.2022, on that day, with the participation of specialist Kazimov Murad Mirkazim oglu, in the Lachin District, at the northern foot of Mount Beyuk Ishigli, in a gap on the right side of the supply road leading to the combat position, an inspection was carried out of 99 out of 100 high-explosive fragmentation anti-personnel mines “E-001M”, buried by Armenian servicemen, as well as rendered safe and removed by servicemen of the Republic of Azerbaijan, together with the territory where those mines had been found.

Volume 196, case file sheets 57-70

According to the inspection record dated 29.09.2022, on that day, with the participation of specialist Kazimov Murad Mirkazim oglu, in the Lachin District, at the northern foot of Mount Beyuk Ishigli, in rocky terrain on the right and left sides of the supply road leading to the combat position, an inspection of the locality was carried out and 90 high-explosive fragmentation anti-personnel mines “E-001M”, laid by Armenian servicemen and subsequently rendered safe and removed by servicemen of the Republic of Azerbaijan, were identified.

Volume 196, case file sheets 71-83

According to the inspection record dated 29.09.2022, on that day, with the participation of specialist Kazimov Murad Mirkazim oglu, in the Lachin District, on rocky terrain to the left of the supply road leading to the combat position, located in the Beyuk Ishigli mountain range, at the south-western foot of Mount Kichik Ishigli, an inspection was carried out of 89 out of 100 high-explosive fragmentation anti-personnel mines “E-001M” and the adjoining territory, which had been buried by Armenian servicemen and rendered safe and removed by servicemen of the Republic of Azerbaijan.

[Page 750]

Volume 196, case file sheets 84-94

According to the inspection record dated 29.09.2022, on that day, in the Lachin District, at the 3rd kilometre of the Lachin-Qubadli motorway, on the left side of the road, on territory

that had previously been used as a motorway but is not currently in use, an inspection was conducted of 3 anti-tank mines TM-62P2, laid by Armenian servicemen and rendered safe and removed by servicemen of the Republic of Azerbaijan, as well as the territory where those mines had been found.

Volume 196, case file sheets 102-116

When questioned as a witness, the chief of the engineering support department of the military unit, Lieutenant-Colonel Mamiyev Gorkhmaz Mazarim oglu, stated in his testimony that on 13.09.2022 at approximately 12:00, during the construction of access roads at the foot of Mount Bugdadag in the Dashkesan District, an engineering reconnaissance group under his leadership consisting of the commander of the 1st engineering and fortification section of the engineering and fortification platoon of the engineering and fortification division of the military unit, serviceman acting beyond the regular term Junior Sergeant Alekperov Elsever Malik oglu, Private Khudiyev Vugar Mahir oglu and Abbasov Gadir Habil oglu carried out work to detect mines using “Ozan” mine detectors. During search operations at an altitude of 2,312 metres at the foot of Mount Bugdadag, at the point with coordinates X-4464787, Y-8573289 in the SK-42 coordinate system, 60 metres from a section of the road, four anti-tank mines TM-62M and eight anti-personnel mines PMN-2, installed by servicemen of the Republic of Armenia, were detected. Five anti-personnel mines were destroyed on site, since their removal by the demolition method was too dangerous, and the remaining mines were rendered safe, extracted from the ground and placed somewhere on the roadside. In connection with this, the road itself and its left and right sides were also surveyed by the engineering reconnaissance group using “Ozan” mine-detection devices, but no more mines were found than the number listed. In addition, on the same day, i.e. 13.09.2022, at approximately 15:00, in the area of Mount Bugdadag, at the foot of unnamed heights, at an altitude of 2,491 metres, at the point with coordinates X-4463899, Y-8572557 according to the SK-42 coordinate system, approximately 1,500 metres above the place indicated above, a group of engineering reconnaissance under his leadership detected 6 anti-tank mines TM62-M, installed by servicemen of the Republic of Armenia, using “Ozan” mine detectors. Five of them were located on the road that they were constructing and one was on the right side of the road. The six detected mines were rendered safe by the engineering reconnaissance group, extracted from the ground and placed on the right side of the road, slightly higher. During inspection of the adjoining territory with an area of approximately 1.2 hectares by the engineering reconnaissance group using “Ozan” mine detectors, no anti-personnel mines were found, except for the anti-personnel mines and 6 anti-tank mines detected there. The adjoining territory was completely cleared. In addition, on 14.09.2022, approximately 500 metres from the place where the 6 anti-tank mines had been found, at the foot of unnamed heights, at an altitude of 2,520 metres, access roads were being constructed at coordinates X-4463743, Y-8572278 according to the SK-42 coordinate system, and at a distance of approximately 60-80 metres, in the course of a search by the engineering reconnaissance group using “Ozan” mine detectors, anti-tank mines TM62-M installed by servicemen of the Republic of Armenia were found. In this connection, the supply road, the right and left sides of the road, as well as an area of 0.5 hectares, were surveyed by the engineering

reconnaissance group using “Ozan” mine detectors, and a total of 64 anti-tank mines TM62-M were found there. The detected mines were rendered safe, extracted from the ground, brought and placed next to 6 anti-tank mines found 500 metres behind and left on the roadside. The adjoining territory was also completely cleared of mines. At present, along the above-mentioned supply route, there are a total of 70 anti-tank mines TM62-M. All three territories on the map are territories of the Republic of Azerbaijan.

[Page 751]

Republic. However, notwithstanding this, in the days following the signing of the trilateral statement of 10.11.2020, numerous mines were laid on our territory by servicemen of the Republic of Armenia. At all three locations indicated by him, no cases were recorded of servicemen or civilians stepping on mines laid by Armenian servicemen and subsequently discovered.

Volume 196, case file sheets 125-129

When questioned as a witness, the commander of the 1st engineering-fortification section of the engineering-fortification platoon of the engineering-fortification division of the military unit, over-term active serviceman Junior Sergeant Alekperov Elsever Malik oglu, in his statement confirmed the facts indicated by Mamiyev Gorkhmaz Mezakhim oglu.

Volume 196, case file sheets 130-134

When questioned as a witness, the commander of the engineering-fortification section of the military unit, Captain Novruzov Panah Yusif oglu, stated in his testimony that on 23.09.2022 the commander of the military unit, Captain Babekh Agayev, informed him of the possibility that Armenian servicemen had laid mines in the Alagellar area of the Kalbajar District and instructed him to inspect the area. He and the personnel of the unit subordinate to him carried out search operations in an area located 5.6 km due north of Kichik-Alagol, using Ozan mine detectors. There, on the summit of a hill, there was a combat position of Armenian military units. On 24 September 2022, during an inspection in the same area, soldier-sapper Alizade Aydin Agamoglan oglu stepped on an anti-personnel mine and sustained an injury to his right heel. Approximately 20 hectares of land were inspected in that area and, there, on an area of 0.14 ha below, parallel to the combat position abandoned by the Armenians (X: 4432854-4432944, Y: 8567180-8567239 in the SK-42 coordinate system), 543 PMN-E anti-personnel mines and 8 TM-62M anti-tank mines were discovered. All discovered mines were removed from the ground and transported to a nearby ammunition collection point, where they were stored. The area around the combat position referred to by him was completely cleared. He stated that, notwithstanding the fact that on the map this territory is sovereign territory of the Republic of Azerbaijan, servicemen of the Armed Forces of Armenia laid at least 544 PMN-E anti-personnel mines and 8 TM-62M anti-tank mines there after the trilateral statement signed on 10.11.2020.

Volume 78, case file sheets 35-36

Volume 196, case file sheets 135-138

When questioned as a witness, over-term active serviceman Junior Sergeant Valiyev Turan Demir oglu gave testimony similar to that of Novruzov Panah Yusif oglu, confirming the facts indicated by him.

Volume 196, case file sheets 139-142

When questioned as a witness, the head of the engineering service of the military unit, Captain Aliyev Ulvi Ismail oglu, stated in his testimony that he had been tasked with detecting and rendering safe mines in the area of the combat positions of Armenian military units on the summit of Mount Kongur, and for that purpose, on 27.07.2022, he went to the specified area with a mine-search group. According to the coordinates on the maps, this area is territory of the Republic of Azerbaijan, and its coordinates in the SK-42 coordinate system are X-4460007, Y-8582642. On that dirt road, on its right and left sides, during a search carried out by the group over an area of approximately 0.07 ha, or 7 acres, using Ozan mine detectors on 27-28 July 2022, they discovered and rendered safe 51 PMN-E anti-personnel mines and 22 TM62-M anti-tank mines, after which they transported them approximately 150 metres along the dirt road and placed them on the right-hand roadside. Three of the PMN-E anti-personnel mines bore the serial numbers “G-001M 45 20”, while 48 bore the serial numbers

[Page 752]

“G-001M 36 19”. The TM62-M anti-tank mines have the serial numbers TM-62M-79-75, TM-62M-6-120-75 and TM-62M-30-75. Although the dirt road in that area had been cleared of mines, the right and left sides of the road had not been fully cleared. In the coming days, an inspection of approximately 10 hectares of land in that area would begin. In addition, on 8-9 September 2022, on the territory of the Republic of Azerbaijan, 2 km south of the Zod deposit in the Kalbajar District, on an area of 2 acres, 72 PMN-E anti-personnel mines laid by Armenian servicemen were discovered, neutralised and destroyed on site. The coordinates of this area in the SK-42 coordinate system are X-4453505, Y-8583482. The territory has not been fully cleared of mines, and there is a possibility that mines may remain there. In addition, on 9-10 September 2022 in the Kalbajar District, 2 kilometres due south-east of the Zod deposit, on the territory of the Republic of Azerbaijan, approximately 100 metres from the combat positions, while soil was being removed from the dirt road by an excavator and dumped to the right, 50 PMN-E anti-personnel mines installed by servicemen of the Republic of Armenia were detonated and destroyed. The coordinates of this area in the SK-42 coordinate system are X-4453613, Y-8583642. Notwithstanding the fact that on the map all three territories are territory of the Republic of Azerbaijan, Armenian servicemen laid numerous mines after the signing of the trilateral statement of 10.11.2020.

Volume 196, case file sheets 143-146

When questioned as a witness, over-term active serviceman Junior Sergeant Hasanov Afghan Kerem oglu, in a statement similar to that of Ulvi Ismail oglu Aliyev, confirmed the facts indicated by him.

Volume 196, case file sheets 147-151

According to the inspection record dated 06.10.2022, on that day an inspection was carried out of the area where, in the valley on the right slope of Mount Bugdadag in the Dashkesan District, 213 PMN G001-M anti-personnel mines manufactured in 2016 had been buried; those mines had been buried by Armenian servicemen, rendered safe and removed by Azerbaijani servicemen.

Volume 196, case file sheets 154-157

According to the inspection record dated 06.10.2022, on that day an inspection was carried out of 213 PMN G001-M anti-personnel mines manufactured in 2016, buried by Armenian servicemen in the gorge on the right slope of Mount Bugdadag in the Dashkesan District and rendered safe and removed by Azerbaijani servicemen.

Volume 196, case file sheets 158-161

According to the inspection record dated 06.10.2022, on that day an inspection was carried out of the area where, in the valley to the right of Mount Bugdadag in the Dashkesan District, 400 PMN G001-M anti-personnel mines manufactured in 2016 had been buried; those mines had been buried by Armenian servicemen and all but three of them had been neutralised and removed by servicemen of the Republic of Azerbaijan.

Volume 196, case file sheets 162-165

According to the inspection record dated 06.10.2022, on that day an inspection was carried out of 400 PMN G001-M anti-personnel mines manufactured in 2016, buried by servicemen of the Armed Forces of Armenia in the gorge on the right slope of Mount Bugdadag in the Dashkesan District and rendered safe and seized by servicemen of military unit No. H.

Volume 196, case file sheets 166-170

When questioned as a witness, the head of the engineering service of the military unit, Captain Bakhseyishzade Namig Isakh oglu, stated in his testimony that from 29.09.2022 to 06.10.2022, in the Dashkesan District, an engineering reconnaissance group conducted mine-search operations using mine-detection devices; in the valley to the right of Mount Bugdadag, at coordinates X-

[Page 753]

8569267, Y-4466118 in the SK-42 coordinate system, 213 PMN G001-M anti-personnel mines installed by servicemen of the Armed Forces of the Republic of Armenia were discovered. The anti-personnel mines were rendered safe, removed from the ground and placed on the grass. In addition, approximately 700 metres from the specified location, in the valley to the right of Mount Bugdadag, at the point with coordinates X-8571350, Y-4464786 in the SK-42 coordinate system, under his direction the engineering reconnaissance group discovered and rendered safe 400 PMN G001-M anti-personnel mines installed by Armenian servicemen on those dates, removed them from the ground and placed them on the grass. Since it was impossible to neutralise three of them, they were placed on a stone separately

from the others. On the map, both territories are sovereign territories of the Republic of Azerbaijan.

Volume 196, case file sheets 171-174

When questioned as a witness, Novruzlu Adem Aftandil oglu stated in his testimony that on 13.09.2022 at approximately 10:00 the engineering-fortification group commenced engineering reconnaissance work at the 2nd and 3rd kilometres of the Lachin-Qubadli road. On the same day at approximately 11:00, at the 3rd kilometre of the Lachin-Qubadli road, in a low-lying area on the left side of the road, in territory that had previously been mined, 2 TM-62P2 anti-tank mines were discovered. [The road] had been used as a motorway but is not currently in use. At the time of discovery, the mines, whose bodies were made of plastic, with a total mass of 7 kilograms, manufactured by the Russian Federation (former USSR) since 1962, filled with molten TNT, mechanically initiated, requiring a mass of 25 to 30 kilograms for detonation, and capable of exploding at temperatures from -20°C to +50°C, were in combat-ready condition. After discovery, the mines were transported to a temporary ammunition collection point and secured in accordance with safety rules. On 17.09.2022, the engineering-fortification group discovered a ravine on the left side of the road, at the 3rd kilometre of the Lachin-Qubadli road, which had previously been used as a paved road. However, approximately 70 metres from the section no longer in use, i.e. the section where the mines had been discovered on 13.09.2022, 1 TM-62P2 anti-tank mine was discovered. At the time of discovery, the mine, whose body was made of plastic, with a total mass of 7 kilograms, manufactured by the Russian Federation (former USSR) since 1962, filled with molten TNT, mechanically initiated, requiring a mass of 25 to 30 kilograms for detonation, and capable of exploding at temperatures from -20°C to +50°C, was in combat-ready condition. After discovery, the mine was transported to a temporary ammunition collection point and secured in accordance with safety rules. The absence of any changes in the camouflage layer and external appearance of these mines, as well as the absence of any signs of deformation or corrosion on them, indicates that these mines had been buried shortly before their discovery. During the general survey of the area before the commencement of engineering reconnaissance work, it was assumed that an arms depot had previously been located in that territory. For that reason, that territory received the conditional name “Lachin Reservoir”. However, as a result of the engineering reconnaissance measures carried out, it was established that there was no depot in that territory. In addition to the foregoing, no other weapons, ammunition or explosive substances were discovered during engineering reconnaissance in those territories.

Volume 196, case file sheets 185-189

When questioned as a witness, the commander of the 2nd engineering-fortification section of the 1st engineering-fortification platoon of the engineering-fortification division of the military unit, Junior Sergeant Gasimov Adilkhan Tahir oglu, stated in his testimony that on 19.09.2022 engineering reconnaissance measures continued, during which, in the valley on the right side of the supply road leading to combat positions located at the northern foot of Mount Beyuk Ishigli in the Lachin District, 122

E-001M anti-personnel mines were discovered. At the time of discovery, the mines, whose bodies were made of plastic, with a total mass of 400 grams, the mass of the explosive substance placed inside varying from 40 grams to 100 grams, requiring a mass of 8 to 25 kilograms for detonation, and capable of exploding at temperatures from -20°C to +50°C, were in combat-ready condition. Upon examination of the markings on the mines indicating the year and week of manufacture, it was established that 91 of these mines had been manufactured in the second week of 2021, and 31 in the forty-seventh week of 2016. Thereafter, after the detonator caps and explosive substance had been removed from the mines, they were transported to a temporary ammunition collection point and secured in compliance with safety rules. On 21.09.2022, while engineering-fortification measures continued in the specified territories for the purpose of constructing access roads connecting the combat positions of the military unit with water bodies, 90 E-001M anti-personnel mines were discovered in a valley on the northern slope of Mount Beyuk Ishigli in the Lachin District, over a section 100 metres long and 10 metres deep. At the time of discovery, the mines, whose bodies were made of plastic, with a total mass of 400 grams, the mass of the explosive substance placed inside varying from 40 grams to 100 grams, overall dimensions of 160x120x55 millimetres, with a mechanically activated explosive mechanism, requiring a mass of 8 to 25 kilograms for detonation, and capable of exploding at temperatures from -20°C to +50°C, were in combat-ready condition. Upon examination of the markings on the mines indicating the year and week of manufacture, it was established that 80 of those mines had been manufactured in the second and ninth weeks of 2021, and 10 in the forty-seventh week of 2016. Of the mines discovered at that time, two mines manufactured in 2021 were destroyed by detonation at the place of discovery because of their explosive danger. The remaining 88 mines were transported to a temporary ammunition collection point, in compliance with safety rules, after the detonator caps had been removed from them. The fact that these mines were manufactured in 2021, that there were no changes in their camouflage layer and external appearance, that there were no traces of deformation or corrosion on them, and that the warheads were not rusted indicates that these mines had been installed by Armenian military units shortly before their discovery.

Volume 196, case file sheets 190-193

When questioned as a witness, the commander of the engineering-fortification section of the military unit, Captain Agayev Rustam Elshan oglu, gave testimony similar to that of Gasimov Adil Khan Tahir oglu, confirming the facts indicated by him.

Volume 196, case file sheets 194-198

When questioned as a witness, the commander of the engineering-fortification section of the military unit, Lieutenant Hajiyev Murad Elshan oglu, stated in his testimony that at the beginning of August 2022 new combat positions were established for the military unit serving in the area of the Sarybaba mountain range in the Lachin District and in the area of the village of Ikinji Ipek in the Lachin District. In accordance with the relevant instructions of the Main Command, a decision was taken to carry out engineering reconnaissance measures in those

areas. For that purpose, on 15.08.2022, an engineering-fortification group commenced engineering reconnaissance of the area around Mount Sarybaba and the village of Ikinji Ipek. On that day, at approximately 12:00, a total of 991 “E-” shells were buried in the valley on the left and right sides of the supply road leading to the recently established combat position in the north-western direction of Mount Sarybaba, approximately 450 metres long and 5 metres deep, and, in three rows at intervals of approximately 0.5 metres from one another, “001M” anti-personnel mines were discovered. At the time of discovery, the mines, whose bodies were made of plastic, with a total mass of 400 grams, the mass of the explosive substance placed inside varying from 40 grams to 100 grams, overall dimensions of 160x120x55 millimetres, with a mechanically activated explosive mechanism, requiring a mass of 8 to 25 kilograms for detonation, and

[Page 755]

capable of exploding at temperatures from -20°C to +50°C, were in combat-ready condition. Upon examination of the markings on the mines indicating the year and week of manufacture, it was established that the mines had been manufactured in the first week of 2021. After the explosive substance and detonator cap had been removed from the discovered mines, they were transported in compliance with safety rules to an ammunition collection point and destroyed by burning on the same day, i.e. on the evening of 15.08.2022. On 17.08.2022 at approximately 10:00, engineering reconnaissance of the area continued. In addition, on the same day, a total of 168 E-001M anti-personnel mines were discovered in the valley on the left side of the supply road of the combat position conditionally designated “LM-17”, located south-east of the settlement of Finge in the territory of the village of Ikinji Ipek. At the time of discovery, the mines, whose bodies were made of plastic, with a total mass of 400 grams, the mass of the explosive substance placed inside varying from 40 grams to 100 grams, overall dimensions of 160x120x55 millimetres, with a mechanically activated explosive mechanism, requiring a mass of 8 to 25 kilograms for detonation, and capable of exploding at temperatures from -20°C to +50°C, were in combat-ready condition. Upon examination of the markings on the mines indicating the year and week of manufacture, it was established that 21 of those mines had been manufactured in the forty-ninth week of 2020, and 147 in the first week of 2021. Upon discovery of the mines, 20 mines manufactured in 2020 were destroyed by detonation at the place of discovery because they were considered explosive hazards. The remaining 148 mines were delivered to the ammunition collection point and rendered safe, after removal of the detonator caps from them, in compliance with safety rules. On 21.08.2022, engineering-fortification measures were continued for the purpose of constructing supply routes in those areas; in the area of the village of Ikinji Ipek in the Lachin District, in the north-eastern direction of the Sarybaba mountain range, on the left side of the supply road leading to the combat position currently conditionally designated “LM-19”, a total of 100 E-001M anti-personnel mines were discovered. At the time of discovery, the mines, whose bodies were made of plastic, with a total mass of 400 grams, the mass of the explosive substance placed inside varying from 40 grams to 100 grams, overall dimensions of 160x120x55 millimetres, with a mechanically activated explosive mechanism, requiring a mass of 8 to 25 kilograms for detonation, and

capable of exploding at temperatures from -20°C to +50°C, were in combat-ready condition. At that time, as a result of the explosion of one of the mines, a sapper of the 1st engineering-fortification section of the 2nd engineering-fortification platoon, conscript serviceman Private Gulmaliyev Heydar Elman oglu, was wounded; of the 100 mines discovered, 28 were collected in the area where they were found, while the remaining 72 mines were stored in the same area. Upon examination of the markings indicating the year and week of manufacture on the 28 mines taken from that territory, it was established that 7 of those mines had been manufactured in the forty-ninth week of 2020 - the beginning of 2021, while the remaining 21 mines had been manufactured in the first week of 2021. It is assumed that the remaining 78 mines in that area would be put into operation in 2021. It is assumed that these mines were installed by members of unlawful Armenian armed formations on the territory of Azerbaijan where the peacekeeping contingent of the Russian Federation is temporarily located. The fact that the mines were manufactured in 2021, that there had been no changes in their camouflage layer and external appearance, that they bore no traces of deformation or corrosion, and that the warheads had not corroded, indicates that those mines had been buried shortly before their discovery.

Volume 196, case file sheets 272-277

When questioned as witnesses, the commander of the 1st platoon of the engineering-fortification section of the military unit, Lieutenant Ahmedov Sadraddin Jabbar oglu, and Private Hashimov Samir Maarif oglu gave testimony similar to that of Hajiyeve Murad Elshan oglu, confirming the facts set out.

Volume 196, case file sheets 279-282, 283-287

[Page 756]

During engineering reconnaissance at combat position K1, located in the direction of Alagellar in the Kalbajar District, on 09.10.2022 at approximately 12:00, as a result of the explosion of a mine previously laid by servicemen of Armenian military formations not identified by the investigation for the purpose of inciting national discord or hostility, engineer of the 1st company, 1st platoon, 1st engineering-fortification company of the 343rd military unit of the Ministry of Defence, Private Namig Abishov, sustained bodily injuries causing serious harm to health - "traumatic-haemorrhagic shock of degree I-II, lacerated wounds of the right plantar region accompanied by open, comminuted displaced fractures of the bases of the III-IV metatarsal bones, the body of the V metatarsal bone and the body of the ulna, the distal metaphysis of the fibula, the navicular and cuboid bones, and abrasions on the right hand".

According to the report dated 09.10.2022, it was not possible to inspect the scene because the territory was mined.

Volume 241, case file sheet 6

When questioned as the victim, Abyshov Namig Afrail oglu stated in his statement that since 28.06.2022 he had been serving as a sapper of the 1st section of the 1st platoon of the 1st

engineering-suppression detachment of the 343rd military unit of the Ministry of Defence. On 09.10.2022, mines discovered by the company commander Panah Novruzov at post “K1”, located in the direction of Alagellar in the Kalbajar District, had been collected at the specified place. At approximately 12:00, while returning from the shaft to the specified place, he stepped on a mine on the road and sustained various injuries to his right leg. Namig Abyshov also stated in his testimony that the safety rules had been communicated to him before the incident.

Volume 241, case file sheets 67-71

When questioned as witnesses, Sabir Tale oglu Mastaliyev, Ali Rovshan oglu Rahmanzade and Ramin Vagif oglu Ismailov confirmed the victim’s account concerning the mechanism of the incident and gave similar testimony.

Volume 241, case file sheets 48-51, 52-55, 56-59

According to forensic medical expert opinion No. 600 dated 09.10.2022, the bodily injuries sustained by Abyshov N.A. - traumatic-haemorrhagic shock of degree I-II, lacerated wounds of the right plantar region accompanied by open, comminuted displaced fractures of the bases of the III-IV metatarsal bones, the body of the V metatarsal bone and the body of the ulna, the distal metaphysis of the fibula, the navicular and cuboid bones, and abrasions on the right hand - are characteristic of the effects of a blast wave generated by the explosion of explosive military ammunition and the effects of secondary fragments from a primary and blunt mechanism and are classified as serious harm to health.

Volume 241, case file sheets 98-99

According to forensic explosive-technical expert opinion No. 3/1505 dated 24.11.2022, the right pair of boots and sock have damage. Although no traces of the explosive substance trinitrotoluene (TNT) were found on the boots and socks, on the basis of its shape, location, size and morphological structure, the specified injury could have been caused by the explosion of an explosive device or mine indicated in the descriptive part of the decision. A characteristic feature of this injury is that it was caused by the impact of an explosion from a distance close to the centre of the explosion, directed downwards. However, due to the absence of the relevant scientific and methodological instruments, it is impossible to determine the duration of the explosion, or whether the injuries were caused by a particular make of mine or type of fragment. Particles of incompletely burned smokeless powder (nitro compounds) were found on the boots and socks, which constituted an additional factor of a shot.

Volume 241, case file sheets 90-93

[Page 757]

One pair of military boots and one black sock, recognised as physical evidence, are stored in the evidence storage facility of the Special Investigations Directorate.

Volume 241, case file sheets 94-95

On 27 December 2022, investigator of the Qubadli Military Prosecutor's Office Vural Agaly inspected the items of clothing that had been on soldier Nurullayev Nurali Yusif oglu at the time of the incident.

Volume 242, case file sheets 32-43

When questioned as the victim, Nurullayev Nurali Yusif oglu stated in his statement dated 18.12.2022 that, while laying a communications line to the combat position conditionally designated "LQ-18", located in the village of Finge in the Lachin District of the military unit, on 09.12.2022 at approximately 12:20 a mine suddenly exploded beneath his feet and he fell to the ground. His fellow servicemen came to his aid, provided first aid, and he was taken to a military hospital.

Volume 242, case file sheets 29-31

When questioned as witnesses, platoon commander Guluzade Rovshan Eyvaz oglu, Private Musayev Akper Alik oglu and Private Mammadov Sarkhan Namig oglu confirmed in their testimony what Nurullayev Nurali Yusif oglu had stated in his statement.

Volume 242, case file sheets 13-16, 17-20, 21-24

According to forensic medical expert opinion No. 01 dated 19.01.2023, examination of Nurullayev Nurali Yusif oglu revealed on the surface of the body a traumatic fracture of the lower third of the right shin. These injuries were caused by fragments from the explosion of explosive military ammunition. It is indisputable that it occurred on 09.12.2022 and is classified as serious harm to health causing permanent (sustained) loss of more than one third of general capacity for work depending on its degree.

Volume 242, case file sheets 71-72

According to forensic ballistic expert opinion No. 3/72 dated 13.02.2023, the military trousers, warm undertrousers, right trouser leg of a soldier's boot and, as believed, right pair of sock submitted for examination bear damage. On the basis of the shape, size and morphological structure of that damage, as well as the detection on their surface of explosive substances (TNT) and incompletely burned particles of smokeless powder, the said injuries are characterised as having been caused by the effects of fragments from an explosion, from the centre of the explosion, from below upwards. The said injuries may also have been caused by the explosion of an anti-personnel mine under the circumstances indicated in the descriptive part of the decision.

Volume 242, case file sheets 76-81

The items of clothing that were on Nurullayev Nurali Yusif oglu at the time of the incident were recognised as physical evidence.

Volume 242, case file sheets 82-83

Rifleman of the 3rd section of the 2nd platoon of the 1st company of the 1st Battalion of the 172nd military unit of the Ministry of Defence, Private Malikov Ismail Shikhi oglu, while

serving in the military unit in which he served, conditionally designated “KCh-24”, located in the village of Zar in the Kalbajar District, on 10.10.2022 at approximately 18:40, as a result of the explosion of an anti-personnel mine deliberately laid by servicemen of the Armed Forces of Armenia for the purpose of killing, sustained serious injuries: “traumatic amputation of the right lower limb at the level of the lower third of the shin, resulting in loss of the right lower limb at the level of the middle third of the shin, accompanied by traumatic-haemorrhagic shock of degree I-II, contusion of the soft tissues of the middle third of the left shin, crushing of tissues and abrasions”.

[Page 758]

On 24 October 2022, investigator of the Kalbajar Military Prosecutor’s Office Fuad Gasimzade inspected the items of clothing that had been on soldier Malikov Ismail Shikhi oglu during the incident.

Volume 200, case file sheets 50-58

When questioned as the victim, Malikov Ismail Shikhi oglu stated in his statement dated 29.10.2022 that on 10.10.2022, at approximately 18:00, while proceeding with other servicemen towards a post abandoned by the Armenian armed forces, he sustained an injury to his right leg as a result of the explosion of a mine previously laid by the Armenian armed forces.

Volume 200, case file sheets 72-77

When questioned as a witness, Lieutenant Kerimli Mahir Najaf oglu stated in his statement dated 10.01.2023 that on 10.10.2022, at approximately 18:00, when he was walking towards a post abandoned by the Armenian armed forces, an explosion occurred behind him. When he turned around, he saw that soldier Ismail Malikov, who was walking behind him, had stepped on a mine previously planted by the Armenian armed forces and had sustained an injury to his right leg.

Volume 200, case file sheets 39-43, 91-94

According to forensic medical expert opinion No. 604 dated 10.10.2022, examination of Malikov Ismail Shikhi oglu revealed on the surface of the body a traumatic amputation of the right lower limb at the level of the lower third of the shin, resulting in loss of the right lower limb at the level of the middle third of the shin, accompanied by traumatic-haemorrhagic shock of degree II-III, damage to the soft tissues of the middle third of the left shin, bruises and abrasions. These injuries are characteristic of the blast wave generated by the explosion of explosive military ammunition and of the effects of secondary fragments from a primary and blunt mechanism. It is indisputable that they occurred on 10.10.2022 and, according to severity, constitute serious harm to health. Of the listed injuries, “loss of the right lower limb at the level of the middle third of the shin” is also classified as serious harm to health causing permanent (sustained) loss of more than one third (50%) of general capacity for work.

Volume 200, case file sheets 64-65

According to forensic ballistic expert opinion No. 3/1559 dated 01.12.2022, on the basis of the detection of traces of explosive substances on the surface of the clothing belonging to Malikov Ismail Shikhi oglu, the shape and morphological structure of the bodily injuries, as well as the presence of soot stains around them, the said injuries are characteristic of fragments sustained as a result of the impact of an explosive device from a distance close to the centre of the explosion, from the left, and also as a result of the effects of the explosion.

Volume 200, case file sheets 115-120

Gunner of the 2nd mortar battery of the mortar division of military unit No. 2025 of the State Border Service, over-term active serviceman Private Seyfullayev Ziyafat Farrukh oglu, on 12.10.2022 at approximately 14:00, while participating in engineering-fortification works in the area of combat position No. 129 of the 7th border commandant's office, located in the village of Razdara in the Zangilan District, was evacuated to the medical post of military unit No. 2051 after sustaining the minor injury "open fracture of the left calcaneus" as a result of stepping on an anti-personnel mine laid by unknown servicemen of Armenian military units.

According to the certificate submitted by the Qubadli Separate Border Detachment to the Qubadli Military Prosecutor's Office, on 12.10.2022 at 14:00, since there is a high probability that the area of the anti-personnel mine explosion, located within the territory of the 7th border commandant's office of military unit No. 2051 of the Qubadli Separate Border Division, conditionally designated border

[Page 759]

combat post No. 129, had been mined by the Armenian armed forces, it was not appropriate for employees of the military prosecutor's office to conduct a direct inspection of the area.

Volume 239, case file sheet 35

As a result of an inspection of the scene carried out on 12.10.2022, it was established that the scene was the area of combat position No. 129 of the 7th border commandant's office, located in the village of Razdara in the Zangilan District. The area conditionally designated as the 129th border combat position is situated at an altitude of 11,256 metres above sea level. The distance to the 129th border combat position of the 2nd border command located in that area is 5 kilometres. The distance between the 127th border combat position and the 129th border combat position located in that area is 700 metres. The incident occurred on the left side of the road leading to the 129th border combat position, in a ravine 8 metres deep from the road, in a wooded area.

Volume 239, case file sheets 8-17

When questioned as the victim, Seyfullayev Ziyafet Farrukh oglu testified that on 12.10.2022, at approximately 14:00, while the working group was carrying out fortification work at the firing position, the head of the working group, Vugar Mammadov, and serviceman of military unit No. 2025, Warrant Officer Hasanly Sabukhi Rauf oglu, seconded to military unit No. 2051, were instructed to cut and bring the necessary wooden materials for covering the firing position. Having inspected the area, Warrant Officer Sabukhi Hasanly

ordered him to cut down trees in a ravine approximately 8 metres deep on the left side of the road leading to the combat position. Pursuant to that order, he descended into the ravine and began cutting down trees. While he was sawing wood in the valley, there was a sudden powerful explosion and he fell onto his back on the ground. At that time he saw that he had been wounded as a result of the explosion of a mine installed in that area by the Armenian armed forces and that his leg was bleeding, and he shouted loudly: “My leg”. Lieutenant Pashayev Elvin Natig oglu and Sabukhi Hasanly descended into the ravine together and, together with other servicemen, removed him from the area and laid him on the left side of the road leading to the combat position. After first aid had been provided to him, he was placed in a military medical vehicle and evacuated from the area.

Volume 239, case file sheets 65-69

When questioned as a witness, Mammadov Vugar Ali oglu stated in his testimony that on 12.10.2022, during preparation of a firing position in the area, while trees were being cut with a saw to cover the firing position in a ravine approximately 8 metres deep on the left side of the road leading to the combat position, Private Seyfullayev Ziyafat Farrukh oglu sustained injuries as a result of the explosion of a mine allegedly laid in that area by the Armenian armed forces.

Volume 239, case file sheets 48-51

When questioned as witnesses, Mastaliyev Magerram Abbas oglu, Agrakhov Yusif Rahim oglu, Pashayev Elvin Natig oglu and Hasanly Sabukhi Rauf oglu gave similar testimony.

Volume 239, case file sheets 41-44, 45-47, 52-55, 57-60

According to forensic medical expert opinion No. 1155 dated 28.11.2022, the bodily injuries sustained by Z.F. Seyfullayev - an open fracture of the left calcaneus - caused by the effects of fragments and a blast wave generated by the explosion of any explosive substance, are classified as minor harm to health causing a long-term health disorder.

Volume 239, case file sheets 143-144, 179-180

[Page 760]

During an assignment to the liberated territories, Senior Sergeant Nabiyeu Talekh Zakir oglu, a serviceman of military unit No. 99713 of the Internal Troops of the Ministry of Internal Affairs, and Captain Alikhanov Aydin Ashrafovich, an officer of the Presidential Security Service, on 07.11.2022 at approximately 07:20, while Senior Sergeant T.Z. Nabiyeu together with Captain A.A. Alikhanov was inspecting the area at communications facilities (a node) on the road to military unit No. 706 of the Ministry of Defence in the village of Ashaghi Veysalli in the Fuzuli District using a mine detector called “Vallon”, as a result of the detonation of an anti-personnel mine installed by servicemen of the Armenian armed forces unknown to the investigation, Senior Sergeant T.Z. Nabiyeu sustained “serious harm to health” in the form of “craniocerebral injury, traumatic amputation of the left foot at the level of the metatarsal joint, multiple shrapnel wounds of both lower limbs”; Captain A.A. Alikhanov sustained less serious harm to health: “a lacerated wound of the upper eyelid, haematoma, contusion of the

eyeball, non-penetrating corneal wound, subconjunctival haemorrhage resulting in a reduction in visual acuity of the left eye to 0.2-0.3, as well as multiple wounds of the lobe of the right ear, face, right hand and both calves”, and both were evacuated from the scene.

When questioned as the victim, Nabiyeu Talekh Zakir oglu stated in his statement that on 07.11.2022 he had been assigned to the liberated territory due to service requirements; at that time, Senior Sergeant Muradov Azer, a serviceman of military unit “M” of the Internal Troops, and another serviceman of the Troops, the name of which he does not remember, Alikhanov Aydin Ashrafovich, and other officers whose names he does not remember were also there. At approximately 07:20, he descended to the communications node located beneath the road, approached the entrance to the trench and, while attempting to enter it, stepped with his left foot on an explosive device buried in the ground in front of the entrance, causing an explosion. As a result of the explosion, he fell backwards into the channel, and the front part of his left foot was damaged by the explosion. Other parts of his body sustained shrapnel wounds of various sizes. Captain Aydin, who was following him, was wounded in the eye area, while Sergeant Azer, who was on the other side of the trench, was knocked down by the blast wave.

Volume 113, case file sheets 42-46

When questioned as the victim, Alikhanov Aydin Ashrafovich oglu stated in his statement that on 07.11.2022, at approximately 07:20, while inspecting a culvert passing beneath the road leading to the military unit, he and Nabiyeu Talekh Zakir oglu descended to the culvert from the left side of the road in the direction of the military unit, while Azer Muradov descended to the culvert from the right side of the road. Bogdan Kavalenko was in the service vehicle because he was drawing up a handover and acceptance record. Ahead of them walked Senior Sergeant Talekh Nabiyeu of the Internal Troops, heading towards the culvert. While attempting to enter the shaft, Talekh Nabiyeu stepped with his left foot on an explosive device buried there, as a result of which the explosive device detonated. As a result of the explosion, a particle of the explosive device struck the eye area, while other particles of stone and soil struck other parts of the body. The impact threw him backwards and he fell face down onto the ground. The same wave threw serviceman Azer Muradov, who was on the other side of the channel, out of the channel. Looking up, he saw Talekh lying on his back in the channel, with the front part of his left foot torn off.

Volume 113, case file sheets 49-53

When questioned as witnesses, Muradov Azer Kamal oglu and Kovalenko Bogdan Grigoryevich confirmed the facts indicated in the victims’ statements.

Volume 113, case file sheets 54-57, 58-61

According to forensic ballistic expert opinion Nos. 3/1696 and 3/1702 dated 27.12.2022, of the 19 items submitted, 4 are stone fragments, 14 are carefully manufactured from typical materials and have a special construction like devices manufactured industrially, with

use of appropriate equipment, which indicates that these metal fragments form part of an industrially manufactured device(s), projectile(s). Since there are no factory markings or inscriptions on the parts, it is impossible to determine precisely to which device or projectile they belong and when they were manufactured. However, in view of the degree of fragmentation, design features and external appearance of the items, it cannot be ruled out that they are fragments of a TIMZ model pressure-operated anti-personnel mine intended to injure personnel. On the basis of the detection of traces of explosive substances on the surface of the field-pattern trousers of Alikhanov Aydin Ashrafovich, the shape and morphological structure of the damage, as well as the presence of soot stains around it, the said damage is characteristic of the effects of fragments from the explosion of an explosive device, at the centre of the explosion, from the left, and of the impact of the explosion. Traces of explosive substances (TNT, nitro compounds, sulphides, active chlorine ions) were detected on the surfaces of the 19 objects submitted for expert examination.

Volume 113, case file sheets 107-112

According to forensic medical expert opinion No. 1587 dated 20.11.2022, the bodily injuries sustained by T.Z. Nabiyeu - a closed craniocerebral injury, traumatic amputation of the left foot at the level of the metatarsal joint, multiple shrapnel wounds of both lower limbs - were caused by the effects of a high-frequency sound wave and fragments formed during the explosion of an explosive device. The time and circumstances correspond to those indicated in the descriptive part of the decision. According to severity, this constitutes serious harm to health causing irreversible loss of more than one third of general capacity for work (40%).

Volume 113, case file sheets 123-124

According to forensic medical expert opinion No. 1588 dated 29.12.2022, the bodily injuries sustained by A.A. Alikhanov - a laceration of the upper eyelid, haematoma, contusion of the eyeball and non-penetrating corneal wound, as a result of which visual acuity of the left eye decreased to 0.2-0.3, subconjunctival haemorrhage and multiple wounds to the crown of the head, lobe of the right ear, face, right hand and both calves - arose as a result of the effects of numerous fragments formed by the explosion of an explosive device (projectile); according to severity, this constitutes less serious harm to health causing a long-term deterioration in health overall.

Volume 113, case file sheets 129-130

By the decision dated 16.01.2023 on recognition as physical evidence of Ibrahimov Azer Vagif oglu, investigator for particularly important cases of the Directorate for Investigation of Particularly Important Cases of the Military Prosecutor's Office of the Republic of Azerbaijan, the camouflage field trousers that had been on T.Z. Nabiyeu, insulated undertrousers, 1 pair of boots, 1 pair of socks and the trousers that had been on Captain A.A. Alikhanov, as well as a metal object, 13 plastic objects and 4 stones, were recognised as physical evidence and transferred for storage to the evidence storage facility of the Special Investigations Directorate.

Volume 113, case file sheets 113-114

By order No. A635-387-22 of the commander of military unit No. 99713 dated 16.09.2022, Sergeant Nabiyeu Talekh Zakir oglu was relieved of the post of sapper of the sapper half-group of the special-purpose detachment and appointed to the post of commander-senior sapper of the sapper half-group of the special-purpose detachment.

Volume 113, case file sheets 72-73

When driver-operator of LLC “Telecommunications Service”, engaged in the construction of optical communications lines in the Kalbajar District, Allahverdiyev Siyasat Ziyadkhan oglu was driving a tractor bearing State registration number 10 AC 864 along a dirt road in the village of Chiragly in the Kalbajar District on 14.12.2022 at approximately 17:00, as a result of the tractor detonating an anti-tank mine, S.Z. Allahverdiyev and cable installer of the same enterprise Panahov Rodik Shamsaddin oglu, who was walking behind the tractor, sustained injuries. Thereafter, servicemen of the Ministry of Defence and other employees of the company placed them in the cargo compartment of the company’s GAZ flatbed vehicle bearing State registration number 99 JY 396 and, after travelling approximately 15-20 metres in the direction of the Kalbajar District, the right front wheel of the vehicle drove onto another anti-tank mine, causing an explosion. As a result of both explosions, Warrant Officer Gummatov Zokhrab Mammad oglu, a serviceman of the 191st military unit of the Ministry of Defence, sustained serious injuries and died at the scene; over-term active servicemen Junior Sergeant Akhundov Rza Yusif oglu, Private Shirinov Murad Isa oglu, Private Ibishli Habil Adalat oglu, and company employees Panahov Rodik Shamsaddin oglu, Allahverdiyev Siyasat Ziyadkhan oglu, Aliyarov Sadir Heydar oglu and Balakishiyev Tofiq Hajimirza oglu sustained injuries of varying severity. On 15.12.2022, the scenes of the incidents were inspected by forensic prosecutor Sabukhi Zamanly of the Directorate of Criminalistics and Information Technologies of the Military Prosecutor’s Office of the Republic of Azerbaijan, and the items discovered at the scenes were packaged and removed.

[Page 762]

Volume 206, case file sheets 73-89

On 15.12.2022, the body of Warrant Officer Gummatov Zokhrab Mammad oglu was examined by investigator of the Kalbajar Military Prosecutor’s Office, Lieutenant of Justice Elgun Ilyasov.

Volume 206, case file sheets 90-101

When questioned as the lawful heir of the victim, Gummatov Mammad Mirza oglu stated in his statement dated 16.02.2023 that the late Zokhrab Gummatov was his biological son. He had served in the army for a long time and had always been satisfied with his service. He was married and had three children. On 14.12.2022, he received a telephone call from the mobilisation department of the Tovuz District and was informed that his son Zokhrab had died after stepping on a mine laid by Armenian armed formations.

Volume 206, case file sheets 317-320

When questioned as the victim, Khasiyev Vidadi Aziz oglu stated in his statement dated 17.12.2022 that since October 2022 he had been working as a cable installer at LLC “Telecommunications Service”. On 14.12.2022 at approximately 17:00, Allahverdi Hajiyeu, Sadir Aliyarov and Tofiq Balakishiyev loaded cables and pipes from the city of Kalbajar to the village of Chiragly in the Kalbajar District into a GAZ vehicle bearing State registration number 99 JY 396, which was driven by Tofiq, and set off. Before that, Siyasat Allahverdiyev had gone to the village of Chiragly, where they were to lay cables, using a Hidromik backhoe loader bearing State registration number 10-AC-854 belonging to LLC “Telecommunications Service”. While they were in the village of Vang in the Kalbajar District, Rodik Panahov, who was travelling with Siyasat Allahverdiyev, telephoned Sadir and said that the tractor had detonated a mine on a dirt road in the village of Chiragly and that he and Siyasat had been injured. After 5-10 minutes they reached the village of Chiragly and saw both of them lying wounded on the ground next to the tractor, while servicemen were already there and were assisting the wounded. They then loaded the wounded Siyasat and Rodik into the cargo bed of the lorry driven by Tofiq. Sadir and Senior Warrant Officer Zokhrab Gummatov sat in the cab next to Tofiq. He, Allahverdi and several servicemen sat in the cargo bed of the vehicle. Tofiq started the vehicle and drove back along the same route by which they had arrived. After travelling approximately 20-25 metres from the place where Rodik had detonated the mine, the right front part of the vehicle drove onto another mine and a powerful explosion occurred. After the explosion, when he climbed down from the cargo area of the vehicle, he saw that the front part of the vehicle, that is, its cab, had been destroyed by the explosion, that Senior Warrant Officer Zokhrab Gummatov and Sadir Aliyarov had sustained injuries to their legs, and that both of Zokhrab’s legs had been crushed. Thereafter,

[Page 763]

servicemen and they took Zokhrab and Sadir down approximately 20-30 metres; a military medical vehicle arrived and took Sadir and serviceman Zokhrab Gummatov away by ambulance. At that time Zokhrab’s condition was very serious. Thereafter, they helped Siyasat and Rodik travel 400-500 metres along the road; a military Kamaz vehicle arrived and took them to the city of Kalbajar.

Volume 206, case file sheets 111-115

When questioned as victims, Balakishiyev Tofiq Hajimirza oglu, Aliyarov Sadir Heydar oglu, Hajiyeu Allahverdi Niyazi oglu, Panahov Rodik Shamsaddin oglu, Shirinov Murad Isa oglu, Allahverdiyev Siyasat Ziyadkhan oglu, Akhundov Rza Yusif oglu and Ibishli Habil Adalat oglu, in their statements confirmed the statements of the victim Khasiyev Vidadi Aziz oglu.

Volume 206, case file sheets 122-126, 133-137, 143-147, 154-158, 218-222, 229-234, 303-307, 327-332

The General Director of LLC “Telecommunications Service”, Balayev Samir Elman oglu, questioned as the lawful heir of the victim, stated in his testimony dated 27.03.2023 that since the end of October 2022 the company had been laying optical communications lines in the Kalbajar District and, since then, company employees Panahov Rodik Shamsaddin oglu,

Allahverdiyev Siyasat Ziyadkhan oglu, Aliyarov Sadir Heydar oglu, Balakishiyev Tofiq Hajimirza oglu and Khasiyev Vidadi Aziz oglu had participated in that work in the territory of the Kalbajar District. On 14.12.2022, he learned that as a result of the enterprise's excavator and the vehicle that arrived to assist it detonating mines, employees and servicemen sustained bodily injuries of varying severity, while Warrant Officer Zokhrab Gummatov was killed.

Volume 206, case file sheets 351-353

According to forensic medical expert opinion No. 18 dated 15.12.2022, Gummatov Zokhrab Mammad oglu sustained the following bodily injuries classified as serious harm to health: "incomplete traumatic amputation of the left lower limb at the level of the knee joint, and of the right lower limb at the level of the lower third of the shin, with damage to the major arteries and acute bleeding, suspended on a flap-like skin flap; closed displaced fractures of the V-VII ribs on the left; multiple blind wounds of the right eyebrow, the left part of the forehead, face, anterior surface of the right half of the chest and anterior abdominal wall, soft tissues of the right hand, area of the right elbow joint, both elbows, fingers I and II of the left hand, palm of the right hand and area of the right knee joint; thermal burns of both cheekbones and the right shin". These injuries arose as a result of impact by a hard blunt object. Their occurrence on 14.12.2022 and under the circumstances stated above is indisputable and constitutes serious harm to health.

Volume 206, case file sheets 270-275

According to forensic medical expert opinion No. 772 dated 15.12.2022, Akhundov Rza Yusif oglu sustained the injury "scratched forehead". It arose as a result of impact by a hard blunt object. Its occurrence on 14.12.2022 and under the circumstances stated above is not denied. The degree was not determined.

Volume 206, case file sheet 261

According to forensic medical expert opinion No. 766 dated 15.12.2022, Shirinov Murad Isa oglu sustained "mine-blast trauma, crushing of the soft tissues of the right knee joint, barotrauma". It arose as a result of impact by a hard blunt object. Its occurrence on 14.12.2022 and under the circumstances stated above is not denied.

Volume 206, case file sheet 281

According to forensic medical expert opinion No. 768 dated 15.12.2022, Panahov Rodik Shamsaddin oglu sustained "comminuted, displaced open fractures of the right fibula and tibia, multiple

[Page 764]

superficial wounds of the right temple and zygomatic bone, and the right half of the face". They arose as a result of impact by a hard blunt object. Their occurrence on 14.12.2022 and under the circumstances stated above is indisputable and constitutes serious harm to health.

Volume 206, case file sheets 284-285

According to forensic medical expert opinion No. 770 dated 15.12.2022, Allahverdiyev Siyasat Ziyadkhan oglu was found to have “closed displaced fractures of both calcanei, a non-displaced fracture of the V metatarsal bone of the right foot, and a wound of the right frontotemporal region”. They arose as a result of impact by a hard blunt object. Their occurrence on 14.12.2022 and under the circumstances stated above is not denied. They are classified as causing minor harm to health.

Volume 206, case file sheets 288-289

According to forensic medical expert opinion No. 769 dated 15.12.2022, Balakishiyev Tofiq Hajimirza oglu was found to have “a scratch on the lobe of the right ear and a metallic foreign body on the cornea of the right eye”. They arose as a result of impact by a hard blunt object. Their occurrence on 14.12.2022 and under the circumstances stated above is not denied. They are classified as causing minor harm to health.

Volume 206, case file sheets 292-293

According to forensic medical expert opinion No. 771 dated 15.12.2022, Aliyarov Sadir Heydar oglu sustained “wounds in the area of the right shin and heel, accompanied by non-displaced fractures of the right tibia and comminuted displaced fractures of the right calcaneus”. They arose as a result of impact by a hard blunt object. Their occurrence on 14.12.2022 and under the circumstances stated above is not denied. They are classified as causing less serious harm resulting in long-term deterioration of health.

Volume 206, case file sheets 296-297

According to forensic medical expert opinion No. 708 dated 19.12.2022, no bodily injuries were found on Khasiyev Vidadi Aziz oglu.

Volume 206, case file sheet 264

According to forensic medical expert opinion No. 767 dated 15.12.2022, no bodily injuries were found on Ibishov Habil Adalat oglu.

Volume 206, case file sheet 278

According to forensic medical expert opinion No. 709 dated 19.12.2022, no bodily injuries were found on Hajiyeve Allahverdi Niyazi oglu.

Volume 206, case file sheet 267

According to forensic explosive-technical expert opinion Nos. 3/157 and 3/158 dated 24.02.2023, traces of TNT were found on clothing belonging to Gummatov Zokhrab Mammad oglu, employees of LLC “Telecommunications Service” Panahov Rodik Shamsaddin oglu, Allahverdiyev Siyasat Ziyadkhan oglu and Aliyarov Sadir Heydar oglu, as well as on metal objects seized from the scene and in the soil mass taken from the explosion crater.

Volume 206, case file sheets 360-369

The clothing belonging to Gummatov Zokhrab Mammad oglu and to employees of LLC “Telecommunications Service” Panahov Rodik Shamsaddin oglu, Allahverdiyev Siyasat Ziyadkhan oglu and Aliyarov Sadir Heydar oglu, metal objects seized from the scene and from the body, as well as soil removed from the explosion crater, were recognised as physical evidence in the case.

Volume 206, case file sheets 370-371

According to certificate No. 10 of LLC “Telecommunications Service” dated 15.03.2023, as a result of damage to the vehicle and excavator during the incident, the enterprise sustained damage in the amount of 160,000 manats.

Volume 206, case file sheet 341

[Page 765]

According to forensic medical expert opinion No. 512 dated 26.08.2022, the bodily injuries found on the body of Ibayev Kamiz Mubariz oglu - multiple small superficial wounds on the posterior surface of the neck, anterior surface of the left half of the chest, left arm and both elbows, right wrist joint and dorsum of the right hand - are typical of local exposure to high temperature. It cannot be ruled out that they arose during the period and under the circumstances indicated by the person himself during the forensic medical examination, and since they are injuries that do not cause harm to health, their degree is not determined.

Volume 243, case file sheets 23-25

When questioned as the victim, Ibayev Kamiz Mubariz oglu stated in his statement that, while in captivity in the territory of Armenia from 23.07.2022 to 03.08.2022, he was subjected to torture by servicemen of the Armed Forces of Armenia, including beatings, insults using obscene language, and burns caused by cigarettes to various parts of his body. After 13 days of captivity, servicemen of the Armed Forces of Armenia handed him over to Russian peacekeepers, who in turn handed him over to Azerbaijani servicemen, and on 03.08.2022 he was taken to Baku.

Volume 243, case file sheets 26-31, 58-63

When questioned as a witness, Dugi Sabukhi Kamaladdin oglu stated in his testimony that at the end of July 2022 he drove soldier Kamiz Ibayev from the headquarters of the military unit to the headquarters of the 4th Battalion in the rear seat of his vehicle. He then commenced performance of his official duties, after which he looked for Kamiz Ibayev in the camp area but could not find him. In the evening he learned that, having left the camp and moved in some direction from the village of Narimanly in the Kalbajar District, because of foggy and overcast weather he had lost his way and gone towards the place where the Armenians were located, and had been taken prisoner there by the Armenians.

Volume 243, case file sheets 65-67

When questioned as the victim, Suleymanov Afig Ziyafat oglu stated in his statement that on 14.07.2022 he was engaged in demining the area near the village of Nuzgar in the Jabrayil

District, driving a T-72 M-1 tank with turret number 256. While he was moving in the tank along the line indicated by the tank commander, Warrant Officer Agayev Mirza Intigam oglu, over communications, at approximately 08:00 the front left part of the tank drove onto a mine, the engine stalled, and then the front right part of the tank again drove onto a mine, as a result of which he sustained injuries from the explosion.

Volume 245, case file sheets 47-48

When questioned as the victim, Agayev Mirza Intigam oglu stated in his statement that on 14.07.2022 he was engaged in demining near the village of Nuzgar in the Jabrayil District. Afig Suleymanov, who was driving the T-72 M-1 tank with turret number 256, moved alongside the tank and gave instructions to the communications vehicle, and at approximately 08:00 the front left side of the tank drove onto a mine, its engine stalled, the front right part then again drove onto a mine, and he sustained injuries.

Volume 245, case file sheets 53-54

When questioned as a witness, Aliyev Shahin Magomed oglu gave testimony similar to that of the victims Afig Suleymanov and Mirza Agayev.

Volume 245, case file sheets 55-57

Pirdzhanov Mehdi Pirdzhan oglu, as representative of military unit No. 702, as the victim legal entity, stated in his statement that on 14.07.2022 a T-72 tank with turret marking 256 belonging to the military unit detonated an anti-tank mine previously installed by the armed forces of Armenia while search and demining operations were being carried out in the territory of the village of Nuzgar in the Jabrayil District.

Volume 245, case file sheets 78-79, 94-95

[Page 766]

According to a certificate submitted by military unit No. 702, on 14.07.2022, 14.07.2022, a T-72 tank with turret marking "256" belonging to the military unit, while mine-search and demining operations were being conducted in the area of the village of Nuzgar in the Jabrayil District, detonated a previously laid anti-tank mine. As a result, material damage in the amount of 723 manats was caused to the military unit.

Volume 245, case file sheet 80

According to forensic medical expert opinion No. 1005 dated 22.09.2022, the bodily injuries sustained by Agayev Mirza Intigam oglu - a closed craniocerebral injury as a result of concussion - arose from the effects of a blast wave generated by the explosion of any explosive substance and are classified as minor injuries causing a short-term health disorder.

Volume 245, case file sheet 23

According to forensic medical expert opinion No. 1006 dated 22.09.2022, the bodily injuries sustained by Suleymanov Afig Ziyafat oglu - a closed craniocerebral injury as a result of

concussion - arose from the effects of a blast wave generated by the explosion of any explosive substance and are classified as minor injuries causing a short-term health disorder.

Volume 245, case file sheet 24

Senior Lieutenant Alibeyli Shahriyar Ramiz oglu, a serviceman of Group “C” of Battalion “H” of military unit No. 082 of the Ministry of Defence, and Private Huseynov Eshgin Jamil oglu, an over-term active serviceman of Group “E” of Battalion “H” of the same military unit, on 05.03.2023 at approximately 11:00, while preventing a provocation by Armenian armed formations in the territory of the Shusha District, as a result of shots fired by representatives of the Armenian armed forces unknown to the investigation, Sh.R. Alibeyli sustained serious bodily injuries in the form of “1 life-threatening firearm wound to the head accompanied by the ‘raccoon-eye sign’”, while E.J. Huseynov sustained serious bodily injuries in the form of “1 life-threatening firearm wound to the head”. They died at the scene.

When questioned as a witness, Nuran Sabir oglu Gasimov stated in his testimony that on 05.03.2023 at approximately 11:00 he saw a suspicious UAZ vehicle moving and ordered it to stop. After the vehicle stopped, they approached it to inspect the cargo, and several shots were fired towards them from the rear of the vehicle’s passenger compartment, after which the vehicle began moving backwards. During the exchange of fire, first over-term active serviceman Private Huseynov Eshgin Jamil oglu, who was standing at the front right part of the vehicle, was shot in the head, and then Senior Lieutenant Alibeyli Shahriyar Ramiz oglu, who was standing in front of the door on the right side of the vehicle, was killed by a shot to the head. Lieutenant Alibeyli Shahriyar Ramiz oglu and Eshgin Huseynov died at the scene from firearm wounds to the head. They immediately returned fire, suppressing the Armenians’ fire, and then evacuated the deceased servicemen from that area.

Volume 208, case file sheets 105-107

When questioned as witnesses, Mammadov Orkhan Ilyas oglu and Salimov Elvin Islam oglu gave similar testimony.

Volume 208, case file sheets 108-110, 111-113

When questioned as the lawful heir of the victim, Aliyev Ramiz Abdulali oglu stated in his testimony that on the evening of 05.03.2023 a call was received on his mobile telephone number from the military unit informing him that his son had sustained an injury and died as a result of shelling by Armenian armed

[Page 767]

formations in the Shusha District. The following day, his son’s body was buried in the Martyrs’ Alley in the Gabala District.

Volume 208, case file sheets 123-124

When questioned as the lawful heir of the victim, Huseynov Jamil Mustafa oglu gave a similar statement.

Volume 208, case file sheets 134-135

According to forensic medical expert opinion No. 08 dated 06.03.2023, examination of the body of Huseynov Eshgin Jamil oglu revealed 1 bullet wound in the head area. The wound was inflicted by a single shot from a firearm. The cause of E.J. Huseynov's death was a skull fracture and severe cerebral contusion.

Volume 208, case file sheets 91-94

According to forensic medical expert opinion No. 07 dated 06.03.2023, examination of the body of Alibeyli Shahriyar Ramiz oglu revealed a firearm wound to the head accompanied by bruising around both eyes - the "raccoon-eye sign". The cause of Sh.R. Alibeyli's death was a skull fracture and severe cerebral contusion resulting from a firearm wound.

Volume 208, case file sheets 95-98

According to forensic ballistic expert opinion Nos. 3/634 and 3/641 dated 11.05.2023, the 1 metal object submitted is part of a cartridge, a cartridge case of a bullet which is considered ammunition intended for use in a factory-manufactured weapon. Since the cartridge case was deformed, losing its original shape and dimensions, and the characteristic traces left by the barrel of the weapon from which it was fired are unusable, it is impossible to determine the calibre of the cartridge or bullet.

Volume 208, case file sheets 151-154

By the decision dated 01.06.2023 of Ibrahimov Azer Vagif oglu, investigator for particularly important cases of the Directorate for Investigation of Particularly Important Cases of the Military Prosecutor's Office of the Republic of Azerbaijan, on recognition as physical evidence, military field trousers, a military field long-sleeved shirt, warm undertrousers, 1 pair of socks, a belt, trousers and 2 belt accessories belonging to Alibeyli Shahriyar Ramiz oglu; a jacket (greatcoat), military field trousers, black sports trousers, a military field long-sleeved shirt, a military field short-sleeved shirt, underpants, a hat, a neckerchief, 1 pair of socks, 1 pair of yellow gloves, 1 pair of black half-gloves and 1 pair of boots belonging to Huseynov Eshgin Jamil oglu; as well as the bullet part of a cartridge were recognised as physical evidence, and the items recognised as physical evidence belonging to Alibeyli Shahriyar Ramiz oglu and Huseynov Eshgin Jamil oglu, as well as the bullet part of the cartridge, were transferred to the evidence storage facility of the Special Investigations Directorate for safekeeping.

Volume 208, case file sheets 169-170

Deputy commander of Group "E" of Battalion "H" of military unit No. 082, Senior Lieutenant Huseynov Kamran Namiz oglu, and scout-medical orderly of the same group, Warrant Officer Kerimov Royal Bakhtiyar oglu, on 04.03.2023 at approximately 01:15, while preventing an Armenian provocation in the territory of the Shusha District, as a result of detonating anti-personnel mines installed by servicemen of the Armenian armed forces unknown to the investigation, K.N. Huseynov died on the road during evacuation to the city of Shusha, while R.B. Kerimov sustained various injuries.

According to an extract from order No. 295 of the commander of military unit No. 082 dated 18.10.2017, Huseynov Kamran Namiz oglu was included in the personnel lists of the military unit and all benefits, but was released from all types of benefits in connection with his death in hostilities after the hostilities of 04.03.2023 by order No. 65 dated 04.03.2023.

Volume 209, case file sheet 41

[Page 768]

It follows from the service character reference dated 07.03.2023 issued by Salman Huseynov, commander of military unit No. 082, that during his service Senior Lieutenant Huseynov Kamran Namiz oglu, who served in military unit No. 052, was positively characterised as a disciplined officer who endeavoured to perform the tasks assigned to him in a timely and accurate manner.

Volume 209, case file sheet 44

According to forensic medical expert opinion No. 06 dated 04.03.2023, the bodily injuries discovered during examination of the body of K.N. Huseynov - traumatic incomplete amputation of the right lower limb from the lower third of the thigh, accompanied by multiple open comminuted fractures of the right femur and tibia, complete rupture of the neurovascular bundle; superficial shrapnel wounds of the right cheek and dorsum of the right hand, bruises on the left thigh and shin - arose as a result of the effects of fragments and a blast wave generated by the explosion of an explosive device (projectile).

The cause of death was multiple open fractures of the right femur and tibia, acute and massive blood loss as a result of traumatic incomplete amputation of the lower third of the right lower limb from the thigh, accompanied by complete rupture of the vascular and nerve bundles.

Volume 209, case file sheets 54-57

When questioned as a witness, Salimov Elvin Islam oglu stated in his testimony that on 04.03.2023, for the purpose of preventing provocations by Armenian separatists in the territory of the city of Shusha, pursuant to instructions received from the command, the group began moving along the section of the Khankendi-Khalfali-Turshsu road passing through the city of Shusha. Having determined that it was impossible to cross the rocky section of the river in the direction of travel, Senior Lieutenant Huseynov Kamran Namiz oglu together with Warrant Officer Royal Kerimov moved towards the left bank of the river, to the west, in order to find a suitable crossing point. Since they were unable to find a suitable crossing point, while returning to the place, Warrant Officer Royal Kerimov's left foot struck a mine and an explosion occurred. He also fell to the ground from the impact of the explosion and, while lying there, saw that Royal Kerimov was holding his leg and that Kamran Huseynov was lying down. He then stood up, approached the other members of the group, informed them of this, and with the use of mine detectors they found and rendered safe mines in the direction of Royal Kerimov's head and then pulled him out of the mined area. At that moment he heard an explosion and, turning around, saw Senior Lieutenant Kamran Huseynov

detonate a mine and sustain a knee injury. They were then removed from the territory and handed over to the evacuation group.

In addition, he stated that while clearing the area of mines, 3 PMN-E mines manufactured in the Republic of Armenia were discovered. The mined area was located 2,000 metres in front of the combat positions of military units of the Ministry of Defence, in the area where the positions of Armenian servicemen were located.

Volume 209, case file sheets 76-79

When questioned as witnesses, Mammadov Orkhan Ilyas oglu, Rzayev Huseynaga Ilham oglu, Gasimov Nuran Sabir oglu and Salimov Elvin Islam oglu gave testimony of the same content and confirmed the characteristics indicated by the latter.

Volume 209, case file sheets 80-82, 83-85, 87-89

When questioned as the lawful heir of the victim, Namiz Aslan oglu Huseynov stated in his testimony that Kamran Huseynov was his son. On 04.03.2023, they learned that their son had become a martyr after detonating a mine laid by unlawful armed formations of Armenian nationality on the section of the Khankendi-Khalfali-Turshsu road passing through the city of Shusha, and they buried his body in the Martyrs' Alley of the Neftchala District.

Volume 209, case file sheets 101-103

[Page 769]

When questioned as the victim, Kerimov Royal Zaur oglu stated in his statement that on 04.03.2023, for the purpose of preventing provocations by Armenian separatists in the territory of the city of Shusha, pursuant to instructions received from the command, the group began moving along the section of the Khankendi-Khalfali-Turshsu road passing through the city of Shusha. Having determined that it was impossible to cross the rocky section of the river in the direction of travel, he and Senior Lieutenant Huseynov Kamran Namiz oglu moved towards the left bank of the river to find a suitable crossing point. Since they were unable to find a suitable place to proceed, while returning to the place his left foot struck a mine and an explosion occurred. Kamran Huseynov, who was with him at that moment, provided him first aid, after which other members of the group approached him, placed him on a stretcher and carried him out of the area. When Kamran Huseynov knelt down to pick up his bag, an explosion occurred, as a result of which the latter sustained injuries and died on the way to evacuation. The mined area was located in the area of Armenian military positions.

Volume 209, case file sheets 114-117

According to forensic ballistic expert opinion Nos. 3/632 and 3/633 dated 12.05.2023, the two items submitted bear no factory marks, inscriptions or notations that could indicate their purpose, make, or the precise characteristics of the part of which they formed part before they were broken. In addition, because they were heavily deformed and broken into small pieces (fragments), no fragments of marks or inscriptions remained on their surfaces. It cannot be ruled out that the items are parts of mines; however, because of their small dimensions, it was

not possible to determine to which particular make of mine they belong. Since the model and type of the two objects could not be determined, it was not possible to determine the mechanism by which they were activated, or the distance from the point of explosion at which they posed a real threat to human life and health.

The jacket, military field tunic, military field trousers, shirt, warm undershirt and warm underpants worn by Huseynov Kamran Namiz oglu bear damage, the quantity and dimensions of which are indicated in the investigative section of the report. On the basis of the detection on the clothing of soot, traces of explosive substances (TNT) and incompletely burned particles of powder, as well as the shape, dimensions and morphological structure of the damage, the said injuries are typical of injuries sustained as a result of the explosion of an explosive device, at a distance close to the centre of the explosion, as well as as a result of the effects of fragments from the impact of the explosion.

Volume 209, case file sheets 131-139

According to forensic medical expert opinion No. 24-MTB dated 31.05.2023, the blood group of Huseynov Kamran Namiz oglu under the ABO system is O alpha beta (I). Human blood was detected on the jacket, tunic, long-sleeved shirt, undershirt, military trousers, underpants, undershirt, pair of socks and pair of boots. Examination of the group characteristics of this blood revealed only antigen “H”; the noted blood stains may belong to a person with blood group O alpha beta (I) under the ABO system, including Huseynov Kamran Namiz oglu, who belongs to that group.

Volume 209, case file sheets 143-146

According to forensic medical expert opinion No. 673 dated 25.05.2023, the bodily injuries sustained by Karimov Royal Bakhtiyar oglu - closed displaced fractures of the left tibia and fibula, open displaced fractures of metatarsal bones I, II, III, IV and V of the left foot; rupture of the left deltoid ligament, dislocation of the left distal tibiofibular joint, ruptures of the soft tissues of the left shin; bilateral acute cochlear neuritis; concussion resulting in vegetative-vascular instability - arose through the combined effects of fragments and the blast wave from the explosion of an explosive projectile (munition) and,

[Page 770]

as a rule, are classified as less serious injuries causing a long-term health disorder.

Volume 209, case file sheets 150-151

By decision dated 05.06.2023 on recognition as physical evidence, a jacket (greatcoat), military field trousers, military field tunic, shirt, undershirt, underpants, 1 pair of socks and 1 pair of boots, as well as 2 metal objects, were recognised as physical evidence and transferred for storage to the evidence storage facility of the Special Investigations Directorate.

Volume 209, case file sheets 152-153

During an assignment to military unit No. 2051, Sergeant Manafov Ramil Subhi oglu, a serviceman of the combat-support platoon of the rapid-response battalion of military unit No.

2028 of the State Border Service, on 20.03.2023 at approximately 03:00, while on combat duty at the 1st border combat point located on the Agbashyurd heights in the Zangilan District of the same military unit, while preventing a provocation committed by Armenian servicemen, sustained bodily injuries classified as serious harm to health: “left-sided haemopneumothorax, haemorrhagic shock of degree III-IV, penetrating bullet wound to the left half of the chest”, and was evacuated to hospital with the diagnosed injuries.

According to the scene inspection record dated 20.03.2023, the scene is located on the Agbashyurd ridge in the Zangilan District. Border combat posts of the 23rd and 24th border outposts of the 9th and 8th border commands are located in the area of the station. The nearest distance from that point to the positions of the Armenian armed forces is 750 metres, and the farthest is 1,500 metres. Armenian positions 151, 152, 153, 154, 155 and 156 are located in that direction.

Volume 207, case file sheets 8-38

When questioned as the victim, Manafov Ramil Subhi oglu stated in his testimony that on the night of 20.03.2023, at approximately 01:00, approximately half an hour after commencing duty, he heard isolated shots from a distance in the direction of the positions of the Armenian armed forces. After several minutes the sounds ceased. At approximately 01:00 at night, various sounds began to come from the wooded area below the firing position and lights began to appear. At the same time continuous firing began from that area. At approximately 03:00, while approximately 5-7 metres from the firing position in the lower left part of the position, he heard a series of shots and, after being wounded in the left side of the chest, he suddenly lay down on the ground and shouted to Magomed Targuliyev: “I have been shot”. Hearing this, Mukhammad approached him, took him by the hand and dragged him to the firing position.

Volume 207, case file sheets 97-101

When questioned as witnesses, Bezhanov Mammadaga Vagif oglu, Bagirov Rasul Rovshan oglu and Salmanzade Chingiz Sadyg oglu gave testimony similar to that of the victim Manafov Ramil Subhi oglu.

Volume 207, case file sheets 74-78, 79-82, 83-87

According to forensic medical expert opinion No. 371 dated 31.05.2023, the injuries sustained by Manafov R.S. - left-sided haemopneumothorax, haemorrhagic shock of degree I, penetrating firearm wound to the left half of the chest - were sustained as a result of a shot from a firearm and are classified as serious harm to health.

Volume 207, case file sheets 172-174

[Page 771]

According to forensic ballistic expert opinion Nos. 3/614 and 3/618 dated 01.05.2023, 32 factory-manufactured cartridges measuring 7.62x39 millimetres are detachable parts resulting from firing - cartridge cases of cartridges used as ammunition in AKM and AKMS assault

rifles of the same calibre, SKS carbines and rifled firearms of the corresponding calibre. One factory-manufactured bullet of calibre 5.45x39 mm, for use in AK-74, AK-74M, AKS-74, AKS-74U assault rifles of the same calibre, RPK-74 and RPK-74M light machine guns and other suitable firearms, is a part - a bullet separated during the firing process - of a cartridge used as ammunition. The military jacket, zip-fastened jacket and military assault vest submitted bear damage. The damage is characteristic of having been caused by a bullet approximately 5.45 millimetres in diameter as a result of a shot from a rifled firearm from a distance of more than 1 metre, from front to back.

Volume 207, case file sheets 132-136

By decision dated 17.05.2023 on recognition as physical evidence, an army greatcoat, jacket, assault vest, 32 cartridge cases and 1 bullet part of a cartridge were recognised as physical evidence and transferred to the evidence storage facility of the investigative department.

Volume 207, case file sheets 161-162

On 31.03.2023 at approximately 14:50, over-term serviceman Junior Sergeant Ahmedov Yusif Alesger oglu, serving as a scout-medical orderly of the 4th platoon of the 1st division of the 1st Battalion of military unit No. 218, while organising combat duty at the combat position conditionally numbered “7”, located in the village of Imamgulular in the Shusha District, as a result of firing from a firearm by servicemen of the Armed Forces of Armenia unknown to the investigation, sustained an injury in the form of “a firearm wound entering the posterolateral surface of the lower third of the left thigh and exiting from the anterolateral surface of the knee joint”, and was evacuated to military hospital No. 214.

Identified as the victim and questioned, Ahmedov Yusif Alesger oglu testified that on 25.03.2023, by the relevant order of the commander of the military unit, he was sent to military unit No. 181 located in the city of Shusha to perform a combat mission together with the personnel of the unit in which he served; there they performed combat duty, organising security and observation in the forest. On 31.03.2023 at approximately 14:50, while organising combat duty

[Page 772]

at the combat position conditionally numbered “7”, located in the territory of the village of Imamgulular in the Shusha District, as a result of firing from a firearm by servicemen of the Armed Forces of Armenia unknown to the investigation, he was evacuated to hospital with “a bullet wound entering the posterolateral surface of the lower 1/3 of the left thigh and exiting from the anterolateral surface of the knee-joint region”, classified as causing minor harm to health. Since the area where the incident occurred was covered by dense forest, it was impossible to see precisely where the Armenian soldiers were located, but from the sound, looking towards the gorge, it was possible to determine that the distance between him and four people and the person was 10 metres.

Volume 115, case file sheets 52-55

Lieutenant Jafarov Samir Jeyhun oglu, who served as commander of the 1st platoon of the unit, questioned as a witness, and Junior Sergeant, over-term serviceman Alyyev Magomed Aly oglu, having given testimony similar to that of the victim Ahmedov Yusif Alesger oglu, confirmed the fact indicated by him.

Volume 115, case file sheets 39-42

According to forensic ballistic expert opinion No. 3/631 dated 12.05.2023, there is damage to the military trousers with a waist belt and to the warm long underpants. Judging from the shape, dimensions and morphological structure of the damage, the presence around it of unburned particles of smokeless powder and traces of metallic copper, which constitute additional factors of a shot, was established; the damage to the military trousers with the waist belt, on the rear part of the left trouser leg of the warm long underpants, was an entrance wound, while the wound to the anterior part of the left shin was an exit wound; it is characteristic of having been inflicted as a result of a shot from a rifled firearm, by the effect of a bullet approximately 7 millimetres in diameter, from the rear part of the left trouser leg forwards, from a distance of more than 1 metre.

Volume 115, case file sheets 79-83

According to forensic medical expert opinion No. 288 dated 19.04.2023, the injury sustained by Yu.A. Ahmedov - a firearm (bullet) wound entering from the posterolateral surface of the lower 1/3 of the left thigh and exiting from the anterolateral surface of the knee-joint region - was caused as a result of a shot from a firearm and, according to severity, is classified as causing minor harm to health.

[Page 773]

Volume 115, case file sheet 87

According to the decision dated 13.04.2023 on recognition as physical evidence, the military field trousers and warm underwear of Ahmedov Yusif Alesger oglu recognised as physical evidence, after being returned from expert examination, were transferred for storage to military unit No. 218. One pair of boots and one pair of black socks that Ahmedov Yusif Alesger oglu had been wearing during the incident were returned to him because no traces of damage or blood stains were found.

Volume 115, case file sheets 56-57

According to an extract from order No. 88 of the commander of military unit No. 218 dated 25.03.2023, Ahmedov Yusif Alesger oglu was sent to military unit No. 181 on 25.03.2023 to perform a combat mission.

Volume 115, case file sheet 21

On 11.04.2023 at approximately 17:00, at the combat position of the 1st Battalion of military unit No. 888 of the Ministry of Defence, located in the recently liberated-from-Armenians village of Zabukh in the Lachin District, while the personnel of that military unit were carrying out engineering-fortification work, as a result of sniper and automatic-weapon fire

from the positions of Armenian military units located opposite, in the territory of the village of Tekh (Dyg) in the Goris District, servicemen of military unit No. 888 Warrant Officer Hasanov Elshad Habil oglu, Warrant Officer Zalov Vidadi Nizami oglu and soldier Tagiyev Sabukhi Gunduz oglu died at the scene after sustaining various wounds; servicemen of the same military unit Captain Safarov Shahin Elsevar oglu, Lieutenant Hajiyev Murad Elshan oglu, soldier Aliyev Bashareddin Kamil oglu, soldier Rustamov Elmir Bashir oglu, soldier Guliyev Magomed Shafi oglu, soldier Ibrahimov Nurlan Ibrahim oglu, soldier Najafov Renat Zaur oglu and soldier Zamanov Ramish Yolchu oglu sustained injuries of varying severity.

During the investigation it was also established that, during the armed attack on 11.04.2023, as a result of damage to UAZ vehicles bearing military registration number 0-400-QQ belonging to military unit No. 888 and UAZ vehicles bearing State registration number 0-400-QQ belonging to the Gartal construction company, damage in the amount of

[Page 774]

350 manats was caused to military unit No. 888, and damage in the amount of 2,119.46 manats was caused to the Gartal construction company.

During the inspection on 12.04.2023, it was established that the scene was an expanded area located in front of the combat position conditionally designated “H 5” of the 1st Battalion of the 888th military unit of the Ministry of Defence in the village of Zabukh in the recently liberated Lachin District, situated on the line of direct contact with Armenian servicemen. The nearest settlement to that area is the village of Zabukh in the Lachin District. In that area there is a combat position conditionally designated “H 5”, situated on the line of direct contact with Armenian servicemen. After proceeding 100 metres along the dirt road to that position, the Armenian combat positions can be seen in both the right and left directions. To the north of the scene is the city of Lachin; to the north-east, the village of Zabukh in the Lachin District; to the south, the village of Tekh (Dyg) in the Goris District of the Republic of Armenia; and to the west, the village of Jagazur in the Lachin District. The scene is situated at an altitude of 1,300 metres above sea level. The terrain at the scene is predominantly mountainous and valley-like, while part of it is relatively level. Opposite the scene, in the territory of the village of Tekh (Dyg) in the Goris District, combat positions of Armenian military units are also located. The combat position conditionally designated “H 5” is surrounded on three sides by combat positions of Armenian soldiers. A tricolour State flag of the Republic of Azerbaijan flies from an iron pole embedded in the earthen rampart surrounding the position. The immediate scene is the expanded territory located in front of the combat position conditionally designated “H 5”. The present territory is territory of the Republic of Azerbaijan. Part of that territory is surrounded by an earthen wall. The dimensions of the expanded area surrounded by the earthen rampart are 35x20 metres. Subsequently, the official vehicle of the commander of the military unit bearing military registration number O 40000 was inspected in that area. The inspection established the presence of damage characteristic of firearm shots: 1 at the upper right of the vehicle’s front windscreen, 1 in the middle part of the opening and closing window of the rear passenger door on the right side of the vehicle, 1 in the upper left part of the window located to the left

of that door, a total of four instances of damage, including 2 on the roof of the vehicle above the rear passenger door, a total of 2 instances of damage, including 1 on the rear of the vehicle on the boot door next to the handle intended for opening the door, and 1 on the door, at the upper part of the right side of the window of the boot door, a total of 4

[Page 775]

instances of damage, including 1 on the roof of the vehicle at the upper right part of the front door on the left side of the vehicle, 1 in the left middle part of the glass located to the right of the rear passenger-door window, and 2 on the roof of the vehicle at the upper left part of the same window. As a result of firearm shots, the window of the rear passenger door on the left side of the vehicle was completely shattered and its fragments were scattered on the ground. The windows at which fire had been opened also bore traces of cracks characteristic of bullet impact.

On 14.06.2023, a silver Mitsubishi L200 vehicle bearing State registration number 50-AA-743 and belonging to the Gartal construction company was inspected and photographed.

Volume 94, case file sheets 185-187

Recognised as the lawful heir of the victim and questioned, Zalov Nizami Gurban oglu, registered at: Saray settlement, Absheron District, K. Akhundov Street, house 16, and residing in a rented apartment at: Saray settlement, Absheron District, Teze Mahalle, stated in his testimony that on 12.04.2023 the body of his son Vidadi Zalov was brought to his place of residence and he was buried in the cemetery in Saray settlement of the Absheron District.

Volume 92, case file sheets 232-235

Recognised as the victim and questioned, commander of the engineering-fortification unit of military unit No. 888 of the Ministry of Defence, Lieutenant Hajiyeu Murad Elshan oglu, stated in his testimony that on 11.04.2023 at approximately 16:00, at the combat position conditionally designated “H 5”, which is opposite the combat positions of Armenian military units located in the territory of the village of Tekh (Dyg) in the Goris District, on the direct line of contact with Armenian servicemen, where the 1st Battalion of military unit No. 888 of the Ministry of Defence was deployed in the recently liberated-from-Armenians village of Zabukh in the Lachin District, while the engineering-fortification division of that military unit, together with its personnel consisting of approximately 11-12 servicemen, was carrying out engineering-fortification work, they saw that the Armenians were carrying out sabotage by conducting engineering-fortification work at a distance of approximately 150 metres, violating the State border of the Republic of Azerbaijan in the expanded area located in front of the combat position conditionally designated “H 5”. This was reported, and shortly thereafter, at the combat position conditionally designated “H 5”,

[Page 776]

commanders arrived in an official vehicle bearing military registration number O 40000. In that territory, the commander of the military unit asked an Armenian serviceman holding the rank of colonel, who stated that he was the commander of a special-purpose corps of

Armenian servicemen and introduced himself in Russian as Armen, what they were doing in that territory. At that time approximately 40-50 Armenian servicemen, fully prepared for combat, were standing there. Thereafter, taking the situation into account, the commander of the military unit, Colonel Mirsamir Seyidov, requested the arrival of a group of servicemen of operational-purpose military unit No. 769 of the Ministry of Defence, which had established a base position near our positions located on the line of direct contact with Armenian troops, where the 1st Battalion was deployed, in the recently liberated-from-Armenians village of Zabukh in the Lachin District. A conflict then broke out between them and the Armenian servicemen and, on the instruction of the Armenian commander, 40-50 persons armed with assault rifles attacked them. Mutual hand-to-hand combat occurred, during which the Armenians opened fire, as a result of which serviceman of military unit No. 888 Warrant Officer Hasanov Elshad Habil oglu fell to the ground after sustaining a bullet wound to the right thigh and died. As a result, hand-to-hand hostilities began and all servicemen began withdrawing to take up positions. They sustained various injuries.

Volume 92, case file sheets 244-249

When questioned as victims, soldier Ibrahimov Nurlan Ibrahim oglu, soldier Aliyev Basharaddin Kamil oglu and Captain Safarov Akbar Farhad oglu gave testimony similar to that of Lieutenant Hajiyeu Murad Elshan oglu.

Volume 94, case file sheets 6-11, 18-23, 30-36

The driver of the 1st section of the motor platoon of the material and technical support company of military unit No. 500 of the Ministry of Defence, recognised as the lawful heir of the victim and questioned as a witness, over-term serviceman soldier Tagiyev Sardar Gunduz oglu, stated in his testimony that on 11.04.2023 at approximately 17:00, while the personnel of military unit No. 888 of the Ministry of Defence were carrying out engineering-fortification work at the recently liberated-from-Armenians combat positions of the same military unit located in the village of Zabukh in the Lachin District, from the side of servicemen of Armenian military units located opposite, deployed at positions in the territory of the village of Tekh (Dyg) in the Goris District, as a result of sniper and

[Page 777]

automatic-weapon fire, his brother Sabukhi Tagiyev and two other servicemen of the military unit in which he served, Warrant Officer Hasanov Elshad Habil oglu and Warrant Officer Zalov Vidadi Nizami oglu, were killed. On 12.04.2023, the body of his brother Sabukhi Tagiyev was brought to his place of residence and he was buried in the cemetery of Badamly settlement in the Shahbuz District.

Volume 94, case file sheets 55-58

Recognised as victims and questioned, Captain Safarov Shahin Elsevar oglu, soldier Zamanov Ramish Yolchu oglu, soldier Najafov Renat Zaur oglu, soldier Rustamov Elmir Bashir oglu, and the deputy commander of military unit No. 888 of the Ministry of Defence, chief of staff of the military unit Major Eminov Javid Oktay oglu, questioned as a witness,

and the head of the vehicle service of military unit No. 888 of the Ministry of Defence, Captain Mustafayev Kanan Nemat oglu, recognised as representative of the victim and questioned as a witness, gave testimony similar to that of Lieutenant Hajiyeve Murad Elshan oglu.

Volume 94, case file sheets 139-144, 169-171, 178-184, 193-199, 205-211, 217-222

According to forensic medical expert opinion No. 634 dated 30.05.2023, the wound sustained by Aliyev Basharaddin Kamil oglu was a through-and-through bullet wound to the head from a firearm, entering in the region of the right temple and exiting from the occipital region, resulting in comminuted fractures of the bones of the cranial vault and severe craniocerebral injury, causing serious harm to health.

Volume 94, case file sheets 112-113

According to forensic medical expert opinion No. 570 dated 30.05.2023, the bullet wounds sustained by Ibrahimov Nurlan Ibrahim oglu, penetrating from the anterior left half of the neck into the thoracic cavity, with damage to the trachea and right lung, accompanied by fractures of the right VII-VIII-IX ribs and right scapula, were sustained as a result of a shot fired from a firearm and caused serious harm to health.

Volume 94, case file sheets 116-118

According to forensic medical expert opinion No. 07 dated 12.05.2023, the following bodily injuries were found on the body of Zalov Vidadi Nizami oglu: damage to the right lung, entering from the submandibular region and extending from front to back, from top to bottom, from left to right, to the right half of

[Page 778]

the posterior surface of the chest, at the level of the IV and V ribs along the scapular line; 1 penetrating firearm wound to the chest resulting in right-sided haemopneumothorax (blood and air in the pleural cavity); a blind shrapnel wound of the left thigh. Of the injuries listed, 1 firearm wound to the chest corresponds to one shot fired from a firearm from a distance at which additional factors of the shot had no effect. The immediate cause of death was traumatic-haemorrhagic shock that developed as a result of right-sided haemopneumothorax caused by the firearm wound to the chest.

Volume 94, case file sheets 121-124

According to forensic medical expert opinion No. 06 dated 12.05.2023, the following bodily injuries were found on the body of Tagiyev Sabukhi Gunduz oglu: 1 firearm wound entering the left half of the bridge of the nose and passing from front to back, relatively from below upwards, from left to right, exiting on the right side of the occiput and passing through the cranial cavity, accompanied by crushing and destruction of the brain, multi-fragment fractures of the facial skeleton, bones of the cranial vault and base of the skull; 1 penetrating firearm wound of the left thigh entering through the anterolateral surface of the left thigh and exiting from the scarred surface of the left thigh, with damage only to the soft tissues. The

immediate cause of death was crushing of brain tissue, accompanied by multiple fractures of the facial skeleton, cranial vault and bones of the skull base as a result of the firearm wound to the cranial cavity.

Volume 94, case file sheets 127-130

According to forensic medical expert opinion No. 08 dated 05.12.2023, the following bodily injuries were found on the body of Hasanov Elshad Habil oglu: 1 penetrating firearm wound to the head, entering from the left occipital region and exiting from the right occipital region from left to right, with crushing and disintegration of brain tissue along the wound channel, multi-fragment fractures of the bones of the cranial vault, and a haematoma around the left eye - corresponding to the result of firing from a firearm at a long distance at which additional factors of the shot had no effect; the immediate cause of death was crushing of brain tissue accompanied by a haematoma of the left eye and

[Page 779]

multi-fragment fractures of the skull bones as a result of a firearm wound to the cranial cavity.

Volume 94, case file sheets 133-136

According to forensic medical expert opinion No. 569 dated 01.06.2023, no bodily injuries or traces of injuries associated with the specified incident were found on the surface of the body of Safarov Akbar Farhad oglu. Determination of the diagnosis “moderately expressed dissociative reaction leading to mild asthenia” of traumatic origin falls within the competence of forensic psychiatric examination.

Volume 94, case file sheets 225-226

According to forensic medical expert opinion No. 7480T dated 14.06.2023, the injuries sustained by Hajiyeve Murad Elshan oglu - damage to the prostatic part of the urinary bladder and urethra, with entry from the right scrotum and exit from the left groin, and a penetrating firearm bullet wound of the pelvis accompanied by an open fracture of the branches of the pubic bones - were sustained as a result of a shot from a firearm and, according to severity, are classified as causing serious harm to health.

Volume 99, case file sheets 32-33

According to forensic medical expert opinion on examination of physical evidence No. 26-MTB dated 21.07.2023, human blood was found on the submitted undershirt, T-shirt, military trousers, underwear, pair of boots and socks. Examination of the blood group yielded only antigens “A” and “B”. Thus, the noted blood stains may belong to a person with blood group AB(IV) under the ABO system, including Zalov Vidadi Nizami oglu, whose blood is of the same group.

Volume 99, case file sheets 41-43

According to forensic medical expert opinion No. 27-MTB dated 21.07.2023 on examination of physical evidence, human blood was found in stains on his tunic, sweater, undershirt, military trousers, underwear, pair of socks and boots. When the blood group was determined under the ABO system, only H-antigen was obtained. Thus, the specified blood may

[Page 780]

belong to a person with blood group O alpha-beta (I), including Tagiyev Sabukhi Gunduz oglu, who has that blood group.

Volume 99, case file sheets 46-48

According to forensic medical expert opinion No. 28-MTB dated 25.07.2023 on examination of physical evidence, human blood was found on his tunic, sweater, undershirt, T-shirt, scarf, military trousers, underwear and pair of boots. Examination of the group characteristics of the blood yielded only antigen A2. Thus, the said blood stains may belong to a person with blood group A beta (II) under the ABO system, including Hasanov Elshad Habil oglu, whose blood is of the same group.

Volume 99, case file sheets 51-54

According to forensic medical expert opinion on examination of physical evidence No. 29-MTB dated 25.07.2023, the blood group of Hajiyeve Murad Elshan oglu is B(III). Human blood was found on the tunic, undershirt, T-shirt, military trousers and right boot. Examination of the blood group yielded only antigen "B". Thus, the said blood stains may belong to a person with blood group B(III) under the ABO system, including the son Hajiyeve Murad Elshan oglu, whose blood is of the same group.

Volume 99, case file sheets 57-59

According to forensic medical expert opinion No. 30-MTB dated 25.07.2023 on examination of physical evidence, human blood was found on the military trousers, long underpants, helmet and cap. Examination of the blood group yielded only antigen "B". Thus, the said blood stains may relate to blood group B(III) under the ABO system, including Aliyev Basharaddin Kamil oglu, whose blood is of the same group.

Volume 99, case file sheets 62-64

According to forensic medical expert opinion No. 31-MTB dated 25.07.2023 on examination of physical evidence, human blood was found in stains on the tunic, sweater, T-shirt and pair of boots. Examination of the blood group yielded only antigen "A". Thus, the said blood stains may belong to a person with blood group A(II) under the ABO system, including Ibrahimov Nurlan Ibrahim oglu, whose blood is of the same group.

[Page 781]

Volume 99, case file sheets 67-69

According to forensic medical expert opinion No. 577 dated 11.06.2023, the injury sustained by Najafov Renat Zaur oglu, a shrapnel wound of the left half of the face caused by primary

fragment injury to the soft tissues resulting from the explosion of a foreign body - an explosive substance, is classified as causing minor harm to health.

Volume 99, case file sheets 120-121

According to forensic medical expert opinion No. 580 dated 11.06.2023, no visible bodily injuries or traces of bodily injuries associated with the specified incident were found on the surface of the body of Safarov Akbar Farhad oglu.

Volume 99, case file sheets 122-123

According to forensic medical expert opinion No. 579 dated 11.06.2023, the injury sustained by Zamanov Ramish Yolchu oglu - a bullet wound of the lower lip - was sustained as a result of a shot from a firearm and is classified as causing minor harm to health.

Volume 99, case file sheets 126-127

According to forensic medical expert opinion No. 578 dated 11.06.2023, the wound sustained by Rustamov Elmir Bashir oglu - a penetrating firearm (bullet) wound of the soft tissues in the area of the left hip joint - arose as a result of a shot from a firearm and is classified as causing minor harm to health.

Volume 99, case file sheets 128-129

According to forensic medical expert opinion No. 722 dated 08.07.2023, the wound sustained by Captain Safarov Shahin Elsever oglu - a lacerated wound of the left shoulder girdle - arose as a result of a shot from a firearm; the degree of severity was not established because the injury caused no harm to health.

Volume 99, case file sheets 130-131

According to the decision dated 03.08.2021 on recognition as physical evidence in the criminal case, a greatcoat from a military field clothing set, a tunic from a military field clothing set,

[Page 782]

trousers from a military field clothing set, a sweater from a military field clothing set, military scarf, military short-sleeved undershirt, T-shirt, underwear, pair of socks and pair of military boots belonging to E.G. Hasanov; a tunic, trousers, sweater, long-sleeved undershirt from a military field clothing set, underwear, pair of socks and pair of military boots belonging to Tagiyev S.G.; trousers, long-sleeved undershirt, underwear, T-shirt, pair of socks and pair of military boots belonging to Zalov V.N.; a tunic, trousers, short-sleeved undershirt, underwear and pair of military boots, wallet, identity card in the wallet, 2 bank cards, business card and 1 packet of LD cigarettes belonging to Hajiyev M.E.; trousers, warm long underpants, cap, pair of military boots and combat helmet belonging to Aliyev B.K.; a tunic, sweater, long-sleeved undershirt and pair of military boots belonging to Ibrahimov N.I.; as well as 37 cartridge cases seized from the scene, are to be stored as physical evidence in the physical evidence storage facility of the Special Investigative Directorate.

Volume 99, case file sheets 9-19

The driver of the 1st motor section of the motor platoon of the rear-services unit of military unit No. 218, over-term serviceman soldier Rahimli Elchin Rahim oglu, in connection with the need to perform an official duty, by order No. 116 of the commander of the military unit dated 20.04.2023 was assigned to military unit No. 181 of the Ministry of Defence, located in the city of Shusha; while on assignment, on 22.04.2023 during the delivery of provisions, travelling in a GAZ-3308 vehicle bearing military registration number E-062-QQ belonging to military unit No. 181, to the 7th machine-gun section of the 10th division of the 4th Battalion of the military unit located in the territory of the village of Allahgulular in the Shusha District, at 17:03 on the same day, while travelling 353 metres north-east of the 8th combat position, the right front wheel of the vehicle struck an anti-tank mine laid in that area by servicemen of Armenian armed forces unknown to the investigation; he sustained the following injuries: “blast trauma, closed craniocerebral injury, concussion, puncture wound of the left occipital region, contusion of the soft tissues of the chest”, classified as causing minor harm to health; the senior person in the vehicle, who was in the same vehicle and had been assigned to military unit No. 181 by an order of the commander of military unit No. 218 of the same date, the commandant of the headquarters and supply department and commander of the security platoon of military unit No. 218, Warrant Officer Mammadov Vusal Firad oglu, sustained the following injuries: “compression of the body of the 15th

[Page 783]

vertebra, multi-fragment displaced fracture of the right calcaneus” and “puncture wound of the parietal and temporal region”; and soldier Aliyev Nihad Orujali oglu, commandant of the headquarters and supply department of military unit No. 218 and rifleman of the security detachment of the security platoon, who came to their aid after the explosion, at 17:12, as a result of stepping on an anti-personnel mine laid by members of those armed formations, sustained the following injuries: “mine-blast trauma, separation of the calcaneus of the right foot, multiple open fractures of the I-II comb bones of the femoral neck, partial dislocation of the fibular joint, displaced fracture of the medial malleolus, multiple shrapnel wounds of both calves, right hand and face, traumatic haemorrhagic shock of degree II”. After the incident, as a result of a search using mine-detection equipment, 19 Armenian-manufactured PMN-E anti-personnel mines, 2 “TM-62P2” anti-personnel mines and 2 Armenian-manufactured “TM-62P2” anti-tank mines were discovered and rendered safe.

According to the inspection record dated 22.04.2023, the scene is a dirt road from the 8th combat position of the 1st division of the machine-gun section of the 4th Battalion to the 7th combat position of the same section of military unit No. 181 of the Ministry of Defence, located 2,300 metres south-east of the settlement of Imamgulular in the Shusha District, relatively surrounded by a forested area on the left and right sides. This road forms part of the territory of the village of Allahgulular in the Shusha District. When proceeding from the 8th combat position of the machine-gun unit north-east towards the 7th combat position along a dirt road 4.6 m wide, at a distance of 353 metres a GAZ-3308 vehicle bearing military registration number E-062-QQ was observed standing on the roadside with its left side facing

towards the 8th position. The right front wheel of the vehicle was not in place, while the left wheel was in place and undamaged. The bonnet was not in place and black liquid had leaked from the engine compartment; the windscreen was not in place; the steering wheel was in place and undamaged; on the front part of the steering wheel and on the speed panel there were large red stains resembling blood stains. On the exterior of both doors there were large red stains resembling blood stains; on the ground beneath the cab lay 1 damaged Varta battery; the vehicle's fuel tank was in place and undamaged; the cover closing the cargo compartment of the vehicle was torn on the right side and intact on the left side; both rear wheels of the vehicle were in place and undamaged; the tailgate and rear lights were in place and undamaged; on the left rear side of the vehicle, below the cargo compartment, military registration plate E-062-QQ was attached and undamaged. In addition, 2.4 metres from the right front wheel

[Page 784]

of the vehicle and 1.8 metres from the left edge of the road there was 1 crater 2.4 metres in diameter and 65 centimetres deep. In addition, in front of this crater it was observed that the vehicle's windscreen had been shattered and rendered unusable and, 70 centimetres from the glass, the cover of the vehicle's engine compartment, made of iron material, had been twisted and rendered unusable.

Volume 105, case file sheets 7-17

Volume 196, case file sheets 244-253

Mammadov Vusal Firad oglu, recognised as the victim and questioned, stated that on 22.04.2023 at approximately 17:00, while travelling in the village of Allahgulular in the Shusha District, an anti-tank mine exploded at the front right part of the vehicle, as a result of which he sustained injuries. With the assistance of servicemen nearby who came towards the sound of the explosion, he was removed from the vehicle, after which he was taken to a military hospital. Elchin Rahimov, who was in the vehicle, was also injured. Since the explosion occurred on the side where he was seated, soldier Elchin Rahimov's injuries were less severe than his. Also, serviceman Aliyev Nihad Orujali oglu of the 218th detachment, who came to their aid after hearing the explosion, was injured as a result of stepping on an anti-personnel mine. All three were taken to military hospital No. 214.

Volume 105, case file sheets 87-90

Recognised as victims and questioned, Rahimli Elchin Rahim oglu, Aliyev Nihad Orujali oglu, Rahimli Elchin Rahim oglu, and Ibrahimli Mahmud Shirkhan oglu, and Nabiye Rakhib Musa oglu, questioned as a witness, having given testimony of similar content, confirmed that fact.

Volume 105, case file sheets 73-76, 80-83, 95-98, 106-109

According to forensic medical expert opinion No. 380 dated 22.05.2023, the injuries sustained by E.R. Rahimli - blast trauma, closed head injury, concussion, lacerated wound of the left occipital region, contusion of the soft tissues of the chest - arose as a result of the

explosion of an explosive substance, caused by the effects of the blast wave and fragments, and are classified as causing minor harm to health.

Volume 105, case file sheets 151-152

According to forensic medical expert opinion No. 381 dated 22.05.2023, the injuries sustained by N.O. Aliyev were as follows: mine-blast trauma, multiple open fractures of the II-III comb bones of the neck of the metatarsal bone of the right calcaneus, partial dislocation of the metatarsal joint, displaced fracture of the medial malleolus, both calves, right hand, multiple blind shrapnel

[Page 785]

wounds, traumatic haemorrhagic shock of degree II. According to severity, they are classified as causing moderate harm to health.

Volume 105, case file sheets 155-156

According to forensic medical expert opinion No. 379 dated 22.05.2023, the injuries sustained by V.F. Mammadov - compression of the body of the 15th vertebra, multi-fragment displaced fracture of the right calcaneus, lacerated wound of the parietal and temporal region - were sustained as a result of the effects of primary fragments formed by the explosion of an explosive substance and are classified as causing minor harm to health.

Volume 105, case file sheets 159-160

According to forensic ballistic expert opinion No. 3-16-16/2-3/939 dated 11.07.2023, on the basis of the detection of traces of explosive substances (TNT, nitro compounds, sulphides and active chlorine ions) on the surface of the military jacket belonging to Aliyev Nihad Orujali oglu, the shape of the damage, its morphological appearance and the presence of soot stains around it were established; it was established that the said damage is characteristic of the result of the explosion of an explosive device, from a distance close to the centre of the explosion, in the correct direction, as a result of the effects of fragments from the blast wave. It cannot be ruled out that this occurred as a result of an explosion under the circumstances indicated in the descriptive part of the decision.

Volume 105, case file sheets 181-184

According to forensic ballistic expert opinion No. 3-16-16/2-3/943 dated 28.07.2023, the GAZ-3308 vehicle bearing military registration number E-Q62-QQ has damage in the quantity and dimensions indicated in the examination section of the opinion. On the basis of the detection of traces of soot on the ground, traces of explosive substances (TNT), damage to the vehicle, and the shape, location, dimensions and morphological structure of the damage, it was established that the said damage is characteristic of the explosion of an explosive device, from a distance close to the centre of the explosion, from the effects of the explosion in an upward direction.

Volume 105, case file sheets 188-191

According to the decision dated 08.04.2023 on recognition as physical evidence, samples of the military field jacket and soil were recognised as

[Page 786]

physical evidence and transferred for storage to the storage facility of the Special Investigative Directorate.

Volume 105, case file sheets 192-193

When soldier Abbasgulyev Etibar Hasankhan oglu was an excavator operator of the 1st section of the 5th platoon of the engineering-fortification division of the 888th military unit of the Ministry of Defence, while being an over-term military serviceman, on 08.05.2023 at approximately 10:00, when he was operating a Doosan excavator bearing military registration number O428QQ in the area of the village of Zabukh in the Lachin District, as a result of firearm shots fired by members of Armenian military units unknown to the investigation, the windscreen of the excavator was shattered; E. Abbasgulyev immediately climbed down from the excavator and fled the area, so that the servicemen of the Armenian military units were unable to achieve their intentions.

On 08.05.2023, an inspection was carried out of an orange DoosanDX225LCA excavator bearing military number O428QQ, and it was established that, as a result of firing by the Armenians from firearms, the windscreen of the excavator cab had been completely shattered and had fallen to the ground. During inspection of the excavator, visible bullet traces were noted on the front and rear parts of the machine.

Volume 95, case file sheets 9-17

Abbasgulyev Etibar Hasankhan oglu, recognised as the victim and questioned, stated in his testimony that on 08.05.2023, while carrying out drilling works in the direction of the post conditionally designated "H4A" using a Doosan DX225 LCA excavator bearing assigned military registration number O428QQ, when he was approximately 200-250 metres from the post conditionally designated "H3B", the equipment he was operating was fired upon from an Armenian position, and he suddenly saw that the windscreen of the cab of the excavator he was operating had been shattered. He stopped the excavator he was operating, immediately climbed down and moved away from there.

Volume 95, case file sheets 23-25

When questioned as a witness, Magerramov Sarkhan Agalar oglu confirmed in his testimony the fact stated by Etibar Abbasgulyev.

Volume 95, case file sheets 26-28

Volume 103, case file sheets 41-44

[Page 787]

By decision dated 19.06.2023, military unit No. 888 was recognised as the victim and, pursuant to a power of attorney from the commander of the military unit dated 19.06.2023,

the assistant commander of the military unit for legal matters, Captain Hasanov Jamil Gadimali oglu, stated in his testimony that on 08.05.2023 at approximately 10:00, while carrying out instructions and assignments of the command staff concerning engineering work in the area of the village of Zabukh in the Lachin District on a Doosan excavator bearing military registration number 042890, when Abbasgulyev Etibar Hasankhan oglu was approximately 60 metres from post “H4A” and approximately 200-250 metres from post “H3B”, fire was opened on the equipment he was operating from the position where Armenian armed formations were located, and the windscreen of the excavator cab was shattered. At that time Etibar Abbasgulyev immediately stopped the excavator, climbed down and moved away from there.

Volume 95, case file sheets 34-35

Huseynov Asif Mehman, questioned as a witness, testified that the armed provocation commenced by Armenian military units from 10.05.2023 continued on 12.05.2023 and, as a result of shelling of the combat positions of the 4th Battalion of the 172nd military unit by servicemen of the Armed Forces of Armenia on 12.05.2023, soldier Garayev Magomed Mahir oglu was killed, Lieutenant Magsudlu Magsud Valekh oglu sustained serious injuries, while soldier Asgerov Sokhrab Sardar oglu and soldier Mekhraliyev Togrul Fariz oglu sustained minor injuries. He was informed of what had happened by Senior Sergeant Nijat Gulyev by mobile telephone and immediately began moving in a medical vehicle for evacuation; midway along the road he encountered a vehicle of the 4th Battalion and, when he saw that the wounded were in serious condition, he ordered them to continue moving without losing time.

He further testified that the first vehicle he encountered contained soldier Garayev Magomed Mahir oglu and Lieutenant Magsudlu Magsud Valekh oglu; the first vehicle that had departed from the medical post proceeded directly to the base post of the 4th Battalion, picked up Asgerov Sokhrab Sardar oglu and serviceman Mekhraliyev Togrul Fariz oglu and evacuated them to military unit No. 524.

Volume 96, case file sheets 48-51

Aliyev Nilgun Dayanat oglu, questioned as a witness, testified that the armed provocation commenced by Armenian military units from 10.05.2023 continued on 12.05.2023, and on 12.05.2023 members of the armed formations of Armenia continued shelling the combat positions of the 4th Battalion of military unit No. 172. On 12.05.2023 at approximately 19:00, after Captain of the Medical Service Asif Huseynov of military unit No. 172 was informed that there were wounded persons in the 4th Battalion, they began moving together in the direction of that battalion. Ahead of them, one vehicle was moving towards that battalion for evacuation; notwithstanding that they encountered a vehicle midway along the road in which Garayev Magomed Mahir oglu and Lieutenant Magsudlu Magsud Valekh oglu were located, that same vehicle evacuated those persons to military unit No. 524, while they collected the two other wounded persons, Asgerov Sokhrab Sardar oglu and soldier Mekhraliyev Togrul Fariz oglu, and evacuated them to military unit No. 524. After evacuating the wounded, they returned to military unit No. 172.

Volume 96, case file sheets 52-56

[Page 788]

Gurbanov Vugar Shakir oglu, questioned as a witness, stated that he had served in military unit No. 049 since 30.03.2022. While monitoring the digging of trenches for tanks and construction of embankments in the direction of the Zod gold mine in the Kalbajar District, units of the Republic of Armenia committed sabotage against the units located opposite. At approximately 19:30 on 10.05.2023, the commander of military unit No. 049, Lieutenant Colonel Ramil Kerimov, telephoned him and stated that a total of four tanks of the 1st Battalion of the military unit located in the village of Kamyshly were to take up positions in the direction of Zod. Soldier Novruzalizade Orkhan Elkhon oglu was ordered to move the T-72M1K tank he operated, with turret number 400, to a combat position on the left bank of the gold mine. Vugar G. together with Senior Warrant Officer R. Khalilov, E. Gushchiyev and soldier O. Novruzalizade prepared the firing sector until 03:30 on 11.05.2023. At approximately 09:00, because of the presence of strike drones in the air, notwithstanding that the persons indicated by him had been ordered to move the tank into the trench and take cover in order to protect the personnel, O. Novruzalizade was wounded by a Fagot anti-tank missile fired by Armenian soldiers at the left side of the tank turret while the tank was moving from the rear on the instruction of Chief Warrant Officer R. Khalilov.

Volume 96, case file sheets 57-60

Gushchiyev Emin Huseyn oglu, recognised as the victim and questioned, testified that on 10.05.2023 at approximately 20:30 the chief of staff of the military unit, Lieutenant Colonel Vugar Gurbanov, informed the personnel of the T-72M1K with turret number 400 and the T-72M1 with turret number 405 to move

[Page 789]

those tanks towards Zod and wait for him at the concentration point. Having taken up a combat position and opened a firing sector at approximately 04:00, at approximately 06:10, on the instruction of Lieutenant Colonel V. Gurbanov, they fired a total of 7 shells from the tank, 4 times at one post of the Armenian military and 3 times at another post. At approximately 06:45, battalion commander Captain Emin Mammadov ordered them over communications to cease fire. They ceased fire, stood behind the embankment and waited inside the tank for the next command. Lieutenant Colonel V. Gurbanov informed Chief Warrant Officer R. Khalilov over communications that “there is a drone of the Armenian military in the air; they must move the tank to the trench located 35-40 metres behind and cover it with a masset, and themselves go into shelter!”. Senior Warrant Officer R. Khalilov got out of the tank to indicate the route to the tank driver, soldier O. Novruzalizade, and to retrieve a night-vision device from the embankment. He took the night-vision device and began moving towards the trench on the left side of the tank, while the senior warrant officer, soldier O. Novruzalizade, began slowly reversing the tank with his head protruding from the hatch. After the tank had moved approximately 4-5 metres backwards, an anti-tank missile fired by Armenian servicemen struck it from the left. The blast wave from the projectile

knocked him to the ground and, when he got up, he saw that Warrant Officer R. Khalilov, seeing the tank moving backwards, ran and ordered soldier O. Novruzalizade to stop the tank, and saw that the latter was unconscious. Chief Warrant Officer R. Khalilov then climbed onto the roof of the tank and attempted to pull O. Novruzalizade out of the hatch, but was unable to do so; he entered the driver's compartment of the tank from the rear, applied the brake and switched off the engine. Thereafter, together with V. Gurbanov, he saw that O. Novruzalizade had died while exiting the hatch. He additionally stated that, although he had not been injured, he had been affected by the blast wave from the explosion and was diagnosed in hospital with "blast trauma".

Volume 96, case file sheets 106-110

Recognised as the victim and questioned, Khalilov Rafael Gadim oglu stated in his statement that since September 2014 he had continued serving as chief technician of the 1st Tank Battalion of military unit No. 049, with the rank of warrant officer.

In substance, having given testimony of the same content as Gushchiyev Emin Huseyn oglu, whose testimony had been obtained, he confirmed the characteristics indicated by the latter.

Volume 96, case file sheets 116-120

[Page 790]

Salahly Togrul Sabir oglu, who was recognised as the victim and questioned, stated in his testimony that on 12.04.2020 he was conscripted for military service and sent to military unit No. 343. Subsequently, from the time the military unit was transferred to the Kalbajar District, he continued serving as a bulldozer operator in the 1st section of the 2nd platoon of the 1st engineering-road regiment. At the beginning of February 2023 he was sent to the 172nd military unit to clear roads leading to the post office of snow and mud and was engaged in work as part of the 4th Battalion located in the village of Yellija in the Kalbajar District. The Armed Forces of Armenia were located in the direction of the settlement of Zod in the Basarkechar District; the posts of the 4th Battalion of military unit No. 172 were located opposite those Armenian posts, and the distance between the posts by air was 30-40 metres. In connection with the fact that on 11.05.2023 the Armed Forces of Armenia subjected the posts of military units Nos. 707 and 172 to provocative shelling from large-calibre weapons, all units were ordered to remain vigilant. On 12.05.2023, when he was in front of the battalion, the Armed Forces of Armenia began intensive fire from small-arms artillery weapons; one of the projectiles fell in front of the battalion and wounded his right leg, while one of the soldiers of military unit No. 172 was killed.

Volume 114, case file sheets 40-44

Mekhraliyev Togrul Fariz oglu, recognised as the victim and questioned, testified that on 19.07.2022 he was conscripted for compulsory active military service and initially sent to military unit No. 777. After completing the young-soldier training course, he continued serving as a serviceman in the material and technical support unit of the 4th Battalion of military unit No. 172 as a soldier. Military unit No. 172, where he served, was located in the

village of Yellija in the Kalbajar District, while the Armed Forces of Armenia were located in the direction of the settlement of Zod in the Basarkechar District; the posts of the 4th Battalion of military unit No. 172 were located opposite those Armenian posts, and the distance between the posts by air was 30-40 metres. In connection with the fact that on 11.05.2023 the Armed Forces of Armenia subjected the posts of military units Nos. 707 and 172 to provocative shelling from large-calibre weapons, all units were ordered to remain vigilant. On 12.05.2023, when he was standing in front of the battalion, the Armed Forces of Armenia began intensive fire from small-arms artillery weapons, and one of the projectiles fell in front of the battalion, injuring his right arm, shoulder-blade region and shoulder. During the incident, from serious injuries

[Page 791]

serviceman Mukhammad Garayev died from serious injuries, and several servicemen sustained injuries.

Volume 96, case file sheets 44-47

Volume 114, case file sheets 51-55

Javadzade Absalam Nazim oglu, recognised as the victim and questioned, stated in his testimony that on 07.07.2022 he was conscripted for compulsory active military service and initially sent to military unit No. 777. After completing the young-soldier training course, he continued serving as a soldier in the post of cook in the material and technical support division of the 4th Battalion of military unit No. 172. Military unit No. 172, where he served, was located in the village of Yellija in the Kalbajar District, while the Armed Forces of Armenia were located in the direction of the settlement of Zod in the Basarkechar District; the posts of the 4th Battalion of military unit No. 172 were located opposite those Armenian posts, and the distance between the posts by air was 30-40 metres. In connection with the fact that on 11.05.2023 the Armed Forces of Armenia subjected the posts of military units Nos. 707 and 172 to provocative shelling from large-calibre weapons, all units were ordered to remain vigilant. On 12.05.2023, when he was standing in front of the battalion, at approximately 21:00 the Armed Forces of Armenia began intensive fire from small-arms artillery weapons, and one of the projectiles fell in front of the battalion; he was wounded in the left leg. During the incident serviceman Mukhammad Garayev died from serious injuries, and several servicemen sustained injuries.

Volume 114, case file sheets 61-65

Nazirov Rail Asim oglu, recognised as the victim and questioned, stated that on 20.05.2014 he was conscripted for military service and from that time began service in military unit No. 651, and on 23.03.2022 continued service in military unit No. 707; his duty post was combat position K-4 of the 3rd division of the 1st Battalion, conditionally designated "Polad-2". The 1st Battalion, in which he served, was located opposite Armenian posts in the village of Demirchidam in the Kalbajar District, in a position opposite the Armenian posts. In connection with the fact that at combat position K-7 of military unit No. 707, conditionally designated "Ertogrul", Armenian servicemen wounded Mahmudlu Muslim Vidadi oglu, from

10 May 2023 the units were ordered to remain vigilant. On 11.05.2023, when “Polad-2” was armed at combat position K-4, the Armed Forces of Armenia began intensive shelling of their positions from small-arms artillery weapons; one of the fired

[Page 792]

projectiles fell outside the sector, as a result of which he sustained injuries to his left leg and right arm.

Volume 114, case file sheets 71-75

Aliyev Asad Elman oglu, recognised as the victim and questioned, stated that on 21.06.2018 he was accepted into the Armed Forces with the rank of officer and sent to unit No. 172, where he held the post of deputy commander of the 10th section of the 4th Battalion of that military unit. Military unit No. 172, where he served, was located in the village of Yellija in the Kalbajar District, while the Armed Forces of Armenia were located in the direction of the settlement of Zod in the Basarkechar District; the posts of the 4th Battalion of military unit No. 172 were located opposite those Armenian posts, and the distance between the posts by air was 30-40 metres. In connection with the fact that on 11.05.2023 the Armed Forces of Armenia subjected the posts of military units Nos. 707 and 172 to provocative shelling from large-calibre weapons, all units were ordered to remain vigilant. On 12.05.2023, when he was standing in front of the battalion, at approximately 21:00 the Armed Forces of Armenia began intensive fire from small-arms artillery weapons, and one of the projectiles fell in front of the battalion; he was wounded in the right arm. During the incident serviceman Mukhammad Garayev died from serious injuries, and several servicemen sustained injuries.

Volume 114, case file sheets 81-85

Mammadov Idris Nariman oglu, recognised as the victim and questioned, stated in his statement that on 30.04.2022 he was conscripted for early active military service; after initially completing young-soldier courses in military unit No. 777, he was sent to military unit No. 172 and continued service with the military rank of soldier as a radio-telephone operator of the communications platoon of the 4th Battalion. Military unit No. 172, where he served, was located in the village of Yellija in the Kalbajar District, while the Armed Forces of Armenia were located in the direction of the settlement of Zod in the Basarkechar District; the posts of the 4th Battalion of military unit No. 172 were located opposite those Armenian posts, and the distance between the posts by air was 30-40 metres. In connection with the fact that on 11.05.2023 the Armed Forces of Armenia subjected the posts of military units Nos. 707 and 172 to provocative shelling from large-calibre weapons, all units were ordered to remain vigilant. On 12.05.2023, when he was standing in front of the battalion, at approximately 21:00 the Armed Forces of Armenia began intensive fire from small-arms artillery weapons; when one of the projectiles fell in front of the battalion, although he was

[Page 793]

inside a covered roof, he fell to the ground due to the blast wave. During the incident serviceman Mukhammad Garayev died from serious injuries, and several servicemen sustained injuries.

Volume 114, case file sheets 91-95

Mahmudlu Muslim Vidadi oglu, who was recognised as the victim and questioned, stated in his testimony that after being conscripted for military service he continued serving in military unit No. 707. The 1st Battalion of the military unit in which he served was located in the territory of Demirchidam in the Kalbajar District; during his service, units of the Republic of Armenia fired provocative shots in the direction of the villages of Demirchidam and Zod, situated opposite the settlement of Yukhary Shorzha in the Basarkechar District. On 10 May 2023 at approximately 19:00, while at combat position K-7, conditionally designated “Ertogrul”, during provocative firing one of the projectiles fell near the post; he sustained a head injury and lost consciousness. Thereafter he had no information as to what had happened.

Volume 114, case file sheets 100-104

Magsudlu Magsud Valekh oglu, who was identified as the victim and questioned, stated in his testimony that on 09.06.2021 he was accepted into the Armed Forces with the rank of officer and sent to the 172nd unit, where he held the post of deputy commander for personnel work of the 10th section of the 4th Battalion of that military unit. Military unit No. 172, where he served, was located in the village of Yellija in the Kalbajar District, while the Armed Forces of Armenia were located in the direction of the settlement of Zod in the Basarkechar District; the posts of the 4th Battalion of military unit No. 172 were located opposite those Armenian posts, and the distance between the posts by air was 30-40 metres. In connection with the fact that on 11.05.2023 the Armed Forces of Armenia subjected the posts of military units Nos. 707 and 172 to provocative shelling from large-calibre weapons, all units were ordered to remain vigilant. On 12.05.2023, when he was standing in front of the battalion, at approximately 21:00 the Armed Forces of Armenia began intensive fire from small-arms artillery weapons; as a result of one of the projectiles falling in front of the battalion, he sustained injuries to the abdomen and various parts of the body. During the incident serviceman Mukhammad Garayev died from serious injuries, and several servicemen sustained injuries.

Volume 114, case file sheets 110-114

[Page 794]

Ismailzade Tural Zafar oglu, recognised as the victim and questioned, stated in his testimony that after being conscripted for compulsory military service he first served in military unit No. 706, then, after serving in various military units, was sent to military unit No. 172 and continued serving as a medical instructor in the 12th division of the 4th Battalion. Military unit No. 172, where he served, was located in the village of Yellija in the Kalbajar District, while the Armed Forces of Armenia were located in the direction of the settlement of Zod in the Basarkechar District; the posts of the 4th Battalion of military unit No. 172 were located

opposite those Armenian posts, and the distance between the posts by air was 30-40 metres. In connection with the fact that on 11.05.2023 the Armed Forces of Armenia subjected the posts of military units Nos. 707 and 172 to provocative shelling from large-calibre weapons, all units were ordered to remain vigilant. On 12.05.2023, when he was standing in front of the battalion, at approximately 21:00 the Armed Forces of Armenia began intensive fire from small-arms artillery weapons; as a result of one of the projectiles falling in front of the battalion, he sustained injuries to the right arm. During the incident serviceman Mukhammad Garayev died from serious injuries, and several servicemen sustained injuries.

Volume 114, case file sheets 120-124

Orujzade Vurgun Abilfaz oglu, recognised as the victim and questioned, stated in his testimony that on 26.06.2012 he was accepted into the Armed Forces with the rank of officer and sent to unit No. 172, where he served as assistant chief of staff of the 4th Battalion of that military unit for material and technical support, with the military rank of captain. Military unit No. 172, where he served, was located in the village of Yellija in the Kalbajar District, while the Armed Forces of Armenia were located in the direction of the settlement of Zod in the Basarkechar District; the posts of the 4th Battalion of military unit No. 172 were located opposite those Armenian posts, and the distance between the posts by air was 30-40 metres. In connection with the fact that on 11.05.2023 the Armed Forces of Armenia subjected the posts of military units Nos. 707 and 172 to provocative shelling from large-calibre weapons, all units were ordered to remain vigilant. On 12.05.2023, when he was standing in front of the battalion, at approximately 21:00 the Armed Forces of Armenia began intensive fire from small-arms artillery weapons; as a result of one of the projectiles falling in front of the battalion, he sustained injuries to the right arm. During the incident, from serious injuries

[Page 795]

serviceman Mukhammad Garayev died, and several servicemen sustained injuries.

Volume 114, case file sheets 130-134

Novruzaliyev Elkhan Farman oglu, recognised as the lawful heir of Novruzalizade Orkhan Elkhan oglu, stated in his testimony that his son had been conscripted into the army in 2020 and served in military unit No. 049. During his military service there had never been any complaints against him; for excellent service he had been awarded medals by the superior command. On 11.05.2023 he was informed that his son had died as a result of the explosion of a projectile fired while preventing a provocation by the Armed Forces of Armenia, and on 12.05.2023 his body was brought to the village of Vurgun in the Agstafa District and buried in the village cemetery.

Volume 114, case file sheets 229-232

Sadygov Zamir Adalat oglu, recognised as the victim and questioned, stated in his testimony that he began his military service with an officer rank on 12.08.2006 and, after serving in various military units, on 25.06.2018 was sent to military unit No. 707 and continued serving in the 1st Battalion. In connection with sabotage by Armenian military units against units in

the direction of the villages of Demirchidam and Zod, located opposite the settlement of Yukhary Shorzha in the Basarkechar District, the 3rd section of the 1st Battalion occupied combat position K-8, conditionally designated “Sangyar-49”. On 11.05.2023 at approximately 19:00, the Armed Forces of Armenia began intensive fire from small-arms and artillery weapons and, as a result of the explosion of one of the projectiles fired, he fell at the edge of the sector and sustained an injury to the face; after first aid was provided, he continued his service.

Volume 114, case file sheets 238-242

Asgerov Sokhrab Sardar oglu, recognised as the victim and questioned, stated that on 05.04.2014 he was conscripted for military service and sent to unit No. 172, where he served as a driver of the motor detachment of the material and technical support platoon of the 4th Battalion of that military unit. Military unit No. 172, where he served, was located in the village of Yellija in the Kalbajar District, while the Armed Forces of Armenia were located in the direction of the settlement of Zod in the Basarkechar District; the posts of the 4th Battalion of military unit No. 172 were located opposite those Armenian posts, and the distance between the posts by air was 30-40 metres. In connection with the fact that on 11.05.2023 the Armed Forces of Armenia

[Page 796]

subjected the posts of military units Nos. 707 and 172 to provocative shelling from large-calibre weapons, all units were ordered to remain vigilant. On 12.05.2023, when he was standing in front of the battalion, at approximately 21:00 the Armed Forces of Armenia began intensive fire from small-arms artillery weapons; as a result of one of the projectiles falling in front of the battalion, he sustained injuries to the head area. During the incident serviceman Mukhammad Garayev died from serious injuries, and several servicemen sustained injuries.

Volume 114, case file sheets 250-254

According to forensic medical expert opinion No. 02 dated 13.05.2023, the injuries on the body of M.M. Garayev - damage to the right lung, main bronchus and pulmonary artery, acute blood loss, right-sided haemopneumothorax (accumulation of free blood and air mass in the thoracic cavity), penetrating blind wound of the right lateral wall of the chest; penetrating wound of the left knee joint accompanied by an extensive tissue defect, multiple injuries to neurovascular bundles, rupture of muscle tissue, comminuted open fracture of the upper 1/3 of the fibula; multiple blind wounds of the soft tissues of the right side of the forehead, chin, right ear lobe and right cheek region, neck region, anterior surface of the right half of the chest, right lateral abdominal wall, right side, right sacral region, both thighs and knee-joint regions, right calf region; a lacerated wound of the right shoulder - are characteristic of the effects of a blast wave generated by the explosion of a firearm projectile and secondary fragments from a primary and blunt mechanism. The cause of M.M. Garayev's death was acute loss of blood from the body caused by damage to the right lung and pulmonary artery in a blind shrapnel wound of the right half of the chest.

Volume 107, case file sheets 22-26

According to forensic medical expert opinion No. 01 dated 11.05.2023, the bodily injuries on the body of O.E. Novruzalizade are as follows: shrapnel fractures of the right occipital, parietal and occipital bone; a compression open fracture of the periosteum of the left parietal bone; extensive subdural and subarachnoid haemorrhages in both parietal, frontal, both occipital and right temporal lobes of the cerebral hemispheres; severe contusion of the right parietal lobe; multiple contused-lacerated wounds in both parietal, the left temporal and occipital regions; a blind wound of the right parieto-occipital region; a contused-

[Page 797]

lacerated wound of the right supraorbital region; open craniocerebral injury accompanied by a subcutaneous haematoma of the left parietotemporal region and haematomas of both periocular regions; open shrapnel fractures of the nasal bones; marginal open fracture of the right ilium; contusions of the mucous membrane of the lower and upper lips, contused wound of the mucous membrane of the upper lip; thermal burn wounds of the posterior surface of the neck and right shoulder region; numerous superficial wounds of the left half of the face and submandibular region; multiple haematomas in the area of the left shoulder, anterior surface of the chest, left lateral part of the abdomen, left thigh area, right hip joint and right thigh area; a contused wound in the area of the right knee joint accompanied by haemorrhage; multiple abrasions of the left side of the back. The specified injuries are characteristic of the effects of flame, fragments formed during the explosion of a firearm projectile, as well as the impact of a hard object on the injured areas as a result of the blast wave. The cause of O.E. Novruzalizade's death was an open craniocerebral injury resulting from the explosion, shrapnel and open fractures of the skull bones, severe crushing of the right parietal part of the brain and haemorrhage into the brain tissue.

Volume 107, case file sheets 29-34

According to forensic medical expert opinion No. 343 dated 11.05.2023, the injuries sustained by M.V. Mahmudlu are as follows: shrapnel open fracture of the left parietal bone, damage to the left parietal lobe and dura mater, left-sided acute epidural haematoma, severe craniocerebral injury, a wound of the left parietal region penetrating into the cranial cavity, accompanied by deep coma and traumatic-haemorrhagic shock of degree III; these are characteristic of the effects of a bullet (projectile) fired from a firearm. According to severity, they are classified as causing serious harm to health.

Volume 107, case file sheets 37-38

According to forensic medical expert opinion No. 333 dated 15.05.2023, the injuries sustained by A.E. Aliyev - 2 wounds on the right forearm and 1 wound on the palmar surface of the right hand - are characteristic of having arisen from a blunt mechanism, a hard blunt object; it cannot be ruled out that they were sustained as a result of the effects of secondary fragments formed by the explosion of

[Page 798]

an explosive device. Since these are injuries that do not cause harm to health overall, they are not classified.

Volume 107, case file sheet 41

According to forensic medical expert opinion No. 332 dated 15.05.2023, the bodily injury sustained by A.N. Javadzade - a superficial wound of the left thigh - is characteristic of having arisen from a blunt mechanism, a hard blunt object; it cannot be ruled out that it was sustained as a result of the effects of secondary fragments formed by the detonation of explosive ammunition. Since this is an injury that does not cause harm to health, its degree is not determined.

Volume 107, case file sheet 44

According to forensic medical expert opinion No. 326 dated 12.05.2023, the bodily injury sustained by Z.S. Asgerov, a blind wound of the soft tissues of the right temporal region, is characteristic of having arisen from a blunt mechanism, a hard blunt object; it cannot be ruled out that it was sustained as a result of the effects of secondary fragments formed by the detonation of explosive ammunition. It is classified as causing minor harm to health resulting in short-term deterioration of health.

Volume 107, case file sheets 47-48

According to forensic medical expert opinion No. 328 dated 15.05.2023, the bodily injury of Gushchiyev E.G. - concussion arising as a result of a closed craniocerebral injury - cannot be ruled out as having arisen from the effect of a blast wave during the explosion of an explosive weapon and, according to severity, is classified as causing minor harm to health.

Volume 107, case file sheets 51-52

According to forensic medical expert opinion No. 329 dated 15.05.2023, the bodily injury of R.G. Khalilov - concussion arising as a result of a closed craniocerebral injury - cannot be ruled out as having arisen from the effect of a blast wave during the explosion of an explosive weapon and, according to severity, is classified as causing minor harm to health.

Volume 107, case file sheets 55-56

[Page 799]

Garayev Mahir Kamal oglu, recognised as the lawful heir of the victim and questioned, stated in his testimony that his younger son Magomed Garayev, born on 16.11.2001, was born and raised in the city of Gabala. From 2007-2018 he attended secondary school No. 4 in the city of Gabala, from 2018-2022 he graduated from the Faculty of Business Administration at the University of Economics in the city of Baku, and commenced military service on 02.06.2022. He served in military unit No. 172 in Kalbajar. On 12.05.2022 he heard from his relatives that Magomed had died. His body was handed over by the military unit on 13.05.2022 and was buried the same day in the city of Gabala. Magomed G. had a calm and gentle character and, during his military service, bore no hostility or dislike towards anyone. He has no information concerning the circumstances in which his son died or who was with him.

Volume 107, case file sheets 63-67

According to forensic medical expert opinion No. 359 dated 08.02.2023, during a qualified medical examination of S.E. Mustafayev at hospital he was diagnosed with “blast wound, primary surgical treatment of wounds after shrapnel wounds of the left shin and right arm, closed fracture of the right ulna with avulsion of the edge of the ulna, hardened scars on the skin after removal of a foreign body, ununited fracture of the styloid process; blast trauma, previous closed craniocerebral injury, vegetative vascular insufficiency after concussion, closed head injury, previous closed craniocerebral injury, astheno-neurotic manifestations after concussion, bilateral acute cochlear neuritis resulting from barotrauma”. Since he did not undergo a qualified medical examination in the days immediately following the incident, and because the expert was not provided with medical documents confirming the specified diagnoses by clinical-instrumental examination methods, it was not possible to express an unequivocal opinion concerning the mechanism, circumstances, duration and degree of severity of those injuries.

Volume 107, case file sheets 70-71

According to forensic ballistic expert opinion No. 3-16-16/2-3/967;3/983 dated 31.07.2023, the military helmet belonging to Muslim Mahmudlu bore damage in the quantity and dimensions indicated in the examination section of the opinion. On the basis of the detection around the damage of unburned,

[Page 800]

smokeless powder particles and traces of metallic copper, which constitute an additional factor of ignition, and the shape, dimensions and morphological structure thereof, the damage to the front and left side of the military helmet is an entrance damage and the damage at the rear is an exit damage, characteristic of having been sustained as a result of a shot fired from a firearm from a distance of more than 1 metre, from front to back.

On the items of military clothing submitted for examination, consisting of a tunic, sweater, trousers with a waist belt, pair of boots and pair of socks, no damage typical of the effects of fragments from an explosion and the impact of a bullet from a firearm, nor particles of explosive substance (TNT) on their surfaces, were found. Particles of unburned smokeless powder, which constitute an additional factor of ignition, were found on those items of clothing.

The black jacket and military sweater belonging to Orkhan Novruzalizade bore the damage referred to in the opinion. On the basis of the shape, dimensions and morphological structure of the damage to the clothing and the detection of the presence of smokeless powder particles on its surface, the said damage is characteristic of having been sustained from the effects of fragments as a result of an explosion, from close range, from rear to front. It was assumed that this damage had been caused by the effects of the submitted fragment part and fragments as a result of a shot.

Volume 107, case file sheets 91-100

By decision dated 29.08.2023 on recognition as physical evidence, sports trousers, underpants, woollen sweater, T-shirt, black jacket, black trousers, long-sleeved shirt, pair of boots and pair of socks belonging to Novruzalizade Orkhan Elkhan oglu; woollen sweater, trousers, warm undershirt, short-sleeved T-shirt, black T-shirt, underpants and pair of socks belonging to Garayev Magomed Mahir oglu; jacket, trousers, short-sleeved shirt, grey T-shirt and pair of socks belonging to the son Magsudlu Magsud Valekh oglu; trousers, tunic, woollen sweater, pair of boots, iron helmet and pair of socks belonging to Mahmudlu Muslim Vidadi oglu; woollen sweater, trousers, warm underpants, warm undershirt, black T-shirt, warm underwear and metal object belonging to Mekhraliyev Togrul Fariz oglu, were recognised as physical evidence and transferred for storage to the storage facility of the Special Investigative Department.

Volume 96, case file sheets 11-14

Volume 107, case file sheets 102-105

[Page 801]

When questioned as a witness, Tagiyev Burkhan Ahmed oglu stated in his testimony that from 04.04.2020 he held the position of head of communications of the artillery division of the military unit - platoon commander of military unit No. 191. On 12 May 2023, for the purpose of preventing a provocation by Armenian servicemen in the direction of the Kalbajar District, he went up to the “Commando” observation post at the combat position conditionally designated “K-9”, located in the settlement of Zod, and, as head of communications of the division, he was responsible for organising communications between the “Commando” observation post and the firing positions. On 12.05.2023, at approximately 20:30, a shell fired by the Armenians exploded near division commander Sanan Mustafayev, who was conducting fire while destroying objects of the Armenian military; from the blast impact Major Sanan Mustafayev struck a concrete shelter and fell to the ground. When he approached to assist him, he saw that his left leg was injured in the shin area and that his left temple was swollen. Together with Senior Lieutenant Parvin Mammadov, they assisted him, bandaged his leg and head and, using ammonia, brought Burkhan Tagiyev, who was unconscious, to consciousness. On 04.05.2023, Major Sanan Mustafayev was unable to attend the medical centre because of fire opened by Armenian servicemen and snow and ice on the road to the positions. During that time they assisted him with the medical supplies they had with them. On 04.05.2023 at approximately 13:00, he was evacuated to the division medical post with the assistance of the assistant chief of staff of the division, Major Heydar Jafarov.

Volume 107, case file sheets 108-112.

When questioned as a witness, Mammadov Parvin Galib oglu stated in his testimony that on 12.05.2023, while carrying out a combat mission to destroy objects of the Armenian military, at approximately 20:30, a shell fired by the Armenians exploded near the position occupied by division commander Major Mustafayev Sanan, as a result of which Major Mustafayev struck the wall of a stone-concrete shelter from the blast impact. When they approached to

assist him, they saw that his left leg was injured in the shin area and that his left temple was swollen. Together with Senior Lieutenant Burkhan Tagiyev, commander of the division command platoon, they assisted him, bandaged his leg and head and, using ammonia, brought Burkhan Tagiyev, who was unconscious, to consciousness. In view of the intensive artillery shelling by Armenian servicemen until 14.05.2023, the danger of the use of strike unmanned aerial vehicles by Armenian servicemen, and the fact that the road leading to combat position “K-9” was snow-covered and icy, Major Sanan Mustafayev was unable to attend the medical centre and they assisted him with the medical supplies available to them

[Page 802]

On 14.05.2023 he was delivered to the division medical centre by Major Heydar Jafarov, assistant chief of staff of the division for material and technical support.

Volume 107, case file sheets 114-118.

Mustafayev Sanan Elchin oglu, who was recognised as the victim and questioned, stated in his testimony that on 12.05.2023 he received an assignment to establish an observation post for conducting artillery reconnaissance and directing artillery fire at the combat position conditionally designated “K-9”, located in the settlement of Zod in the Kalbajar District. On 12.05.2023 at approximately 20:30, while conducting artillery fire against the forward combat positions of Armenian servicemen and adjusting artillery fire for the purpose of preventing an Armenian provocation, the location where they were situated was fired upon by Armenian servicemen using small arms, anti-tank guided missiles and large-calibre artillery shells; as a result of the explosion of a thrown cannon shell he sustained an injury to the anterior one-third of the left shin and a shrapnel wound to the right arm with a fracture of the right ulna; from the effect of the explosion, his left temporal region struck an engineering-type concrete shelter and he lost consciousness. He regained consciousness after Senior Lieutenant Parvin Mammadov and Senior Lieutenant Burkhan Tagiyev, who were nearby, provided him with first aid. Because of the threat posed by artillery fire and strike unmanned aerial vehicles of Armenian servicemen, as well as the snow-covered and icy road to the combat position, until 14.05.2023 he used the medical supplies available to him for assistance. As a result of the injury and shrapnel wound sustained on 14.05.2023, he developed acute pain, dizziness and vomiting. Major Jafarov Heydar Akram oglu, assistant chief of staff of the artillery division for material and technical support, delivered him at 13:00 on 14.05.2023 to the medical post of the artillery division, where he was provided with first aid.

Volume 107, case file sheets 122-126.

According to forensic medical expert opinion No. 325 dated 12.05.2023, the injuries sustained by M.V. Magsudlu were: traumatic-haemorrhagic shock of degree III-IV; bilateral haemopneumothorax (accumulation of free air and blood mass in the thoracic cavity); internal bleeding into the abdominal cavity; blind penetrating wounds of the chest and

abdominal cavity, accompanied by injuries to the liver, small intestine and diaphragm; penetrating wound of the soft

[Page 803]

tissues of the left half of the chest;

superficial wound of the left parietal region; bilateral chronic cochlear neuritis, right-sided sensorineural and left-sided mixed-type hearing loss, resulting from traumatic dry perforation of the left tympanic membrane accompanied by barotrauma, characteristic of injuries sustained as a result of the blast wave formed upon the explosion of a firearm projectile, due to the effects of secondary fragments from a primary and blunt mechanism, and is classified as causing serious harm to health.

Volume 107, case file sheets 149-150.

According to forensic medical expert opinion No. 430 dated 29.06.2023, the injuries sustained by V.A. Orujzade - multiple abrasions of the right lateral region and a superficial wound of the second finger of the right hand - are characteristic of injuries arising from the effect of a blunt mechanism, a hard blunt object; it is not excluded that they were sustained as a result of the effect of secondary fragments formed upon the explosion of an explosive device. Since these injuries do not cause harm to health as a whole, they are not classified.

Volume 107, case file sheets 152-153.

According to forensic medical expert opinion No. 327 dated 12.05.2023, the injuries sustained by T.F. Mehraliyev - blind wounds of the right shoulder and lumbar region, a foreign body in the soft tissues, superficial wounds of the right axilla and the region of the left shoulder joint - are characteristic of injuries formed upon the explosion of a firearm projectile by secondary fragments from a primary and blunt mechanism. According to their degree of severity, they are ordinarily classified as causing harm to health of moderate severity.

Volume 107, case file sheet 154.

According to forensic medical expert opinion No. 546 dated 10.08.2023, the injuries sustained by Z.A. Sadygov were: closed craniocerebral injury accompanied by concussion of the brain; left-sided acute cochlear neuritis, sensorineural hearing loss, barotrauma resulting in reduced perception of whispered speech in the left ear at a distance of up to 3 metres; blunt injury of the left eye accompanied by contusion of the lower and upper eyelids. It is not excluded that they were sustained as a result of the effect of a blast wave and a blunt mechanism, and secondary

[Page 804]

fragments formed upon the explosion of a firearm projectile. In general, they are classified as causing minor harm to health.

Volume 107, case file sheets 155-156.

According to forensic medical expert opinion No. 335 dated 15.05.2023, the injuries sustained by T.Z. Ismailov were: blind wounds of the occipital region, the IV finger of the right hand and the soft tissues of the right knee joint, a blind wound of the left knee joint, and a foreign body in the soft tissues. It is not excluded that they were caused by secondary fragments formed upon the explosion of a firearm projectile, from a primary and blunt mechanism. In general, they are classified as causing minor harm to health.

Volume 107, case file sheet 158.

According to forensic medical examination opinion No. 331 dated 15.05.2023, the bodily injuries sustained by R.A. Nazirov were: bilateral chronic cochlear neuritis, persistent sensorineural hearing loss, barotrauma resulting in loss of hearing of whispered speech at up to 4 metres in the right ear and 3 metres in the left ear; a blind wound of the soft tissues of the left thigh; contusion of the soft tissues of the lumbar region; superficial wounds of the second finger of the right hand. It is not excluded that they were sustained as a result of a blast wave formed upon the explosion of explosive military ammunition and by secondary fragments from a primary and blunt mechanism and, in general, they are classified as causing minor harm to health.

Volume 107, case file sheets 160-161.

According to forensic medical expert opinion No. 334 dated 15.05.2023, the bodily injury sustained by T.S. Salahly - a contused-lacerated wound of the right thigh accompanied by haemorrhage around the wound - may have been sustained as a result of the effect of a blast wave and a blunt mechanism, and secondary fragments formed upon the explosion of a firearm projectile. In general, it is classified as causing minor harm to health.

Volume 107, case file sheets 163-164.

According to forensic medical expert opinion No. 330 dated 15.05.2023, examination of I.N. Mammadov revealed visible bodily injuries or traces of injuries associated with the stated incident on the surface of his body

[Page 805]

not to have been present.

As is apparent from the medical documents (the “Register of Outpatients” of military unit No. 524), during a qualified medical examination of I.N. Mammadov on 15 May 2023 at military unit No. 524, no bodily injuries were identified and the diagnosis “Practically healthy” was established.

Volume 107, case file sheet 166.

Omarov Sanan Khydyr oglu, questioned as a representative of the victim, stated in his testimony that on 11.05.2023 at approximately 09:00, as a result of an anti-tank missile striking the T-72 M-1K armoured tank bearing turret number “400”, belonging to military unit No. 049, and thrown by the Armenian armed forces, the driver-mechanic of the tank platoon of the tank division of the 1st tank battalion of military unit No. 049, soldier

Novruzelizade Orkhan Elkhan oglu, was killed, while servicemen of that battalion Warrant Officer Gushchiyev Emin Huseyn oglu and Khalilov Rafael Gadim oglu sustained bodily injuries of varying severity.

Volume 107, case file sheets 183-184.

He additionally testified that, as a result of the strike on the T-72 M-1K armoured tank bearing turret number “400”, appropriate requests were sent to the Main Directorate of Material and Technical Support of the Ministry of Defence concerning the amount of material damage caused to military unit No. 049, but no official response to the request was received.

According to forensic medical expert opinion No. K/362 dated 12.10.2023, on the basis of the medical documents submitted and the examination results, Mustafayev Sanan Elchin oglu had pathologies with the diagnoses: “indurated skin scars after primary surgical treatment of wounds caused by blast injuries, shrapnel wounds of the left shin and right arm, closed fracture of the right ulna with a marginal fragment, operation for removal of a foreign body, non-united fracture of the styloid process, closed craniocerebral injury with a previous blast injury, vegetative vascular insufficiency after concussion of the brain, previous closed craniocerebral injury, astheno-neurotic manifestations after concussion of the brain, condition after bilateral acute cochlear neuritis due to barotrauma”. The said pathologies (injuries) were caused by the effects of a firearm projectile in a blast injury and by the effect of the shock wave of detonation during an explosion. According to severity, they were classified as causing minor harm to health, which overall resulted in a prolonged health disorder. And “closed fracture of the right ulna with

[Page 806]

a marginal avulsion of the styloid process”. It is presumed that the injuries were caused by impact against some blunt object during the shock wave.

Volume 107, case file sheets 178-181.

According to a certificate of the chief of staff of military unit No. 172 - deputy commander of the military unit, it is not possible to inspect the scene of the incident where, on 17.05.2023, on the territory of the 4th battalion of military unit No. 172, the commander of the 1st section of the 1st platoon of the 10th division of the 4th battalion of the military unit, Junior Sergeant and over-term active serviceman Aliyev Novruz Hagverdi oglu, was injured, because the combat position conditionally designated “K-22” is located on the line of contact with Armenian servicemen, is under visual observation by Armenian servicemen, and because combat and intensive fire from strike unmanned aerial vehicles and small-arms artillery weapons from the Armenian side were continuing.

Volume 97, case file sheet 9.

Aliyev Novruz Hagverdi oglu, who was recognised as the victim and questioned, stated in his testimony that on 17.05.2023, when he was at his post at the combat position conditionally designated “K-22” of the 10th division of the 4th battalion, located in the territory of the village of Yellija the Armenian armed forces opened fire from large-calibre weapons. They

then resorted to a provocation by using a strike unmanned aerial vehicle belonging to the Armenian armed forces. They intended to cause harm to the posts and personnel by attaching an explosive device to the said drones. On that day, at approximately 19:00, one of the strike drones belonging to Armenian servicemen fell onto the combat position of the 10th division conditionally designated “K-22”. At that time an explosion occurred in the combat sector where Novruz Aliyev was located; the stone platform at the top of the sector broke and struck his right arm. As a result of the fall and explosion of the strike unmanned aerial vehicle belonging to the Armenian armed forces, no other servicemen were injured. At that time a piece of stone struck his arm, and therefore his clothing was not damaged.

Volume 97, case file sheets 32-36.

When questioned as a witness, Iskenderov Bakhtiyar Mashallah oglu stated that on 17.05.2023 reinforcements were sent to each unit; several days earlier the Armenian armed forces had carried out a sabotage operation against the posts, opening fire from large-calibre artillery weapons. On 17.05.2023, against the 10th division of the 4th battalion, located in the territory of the village of Yellija

[Page 807]

in the Kalbajar District, conditionally designated “K-22”, the Armenian armed forces, without any reason, carried out a sabotage operation using a strike unmanned aerial vehicle and intended to cause damage to the posts and personnel by attaching explosive devices to the said drones. At that time several strike unmanned aerial vehicles of the Armenian armed forces were neutralised in the air; however, one strike drone belonging to the Armed Forces of Armenia fell onto the combat position of the 10th division conditionally designated “K-22”. Over-term active serviceman Junior Sergeant Aliyev Novruz Hagverdi oglu, who was at the post at that time, sustained an injury to the right elbow area.

Volume 97, case file sheets 24-27.

When questioned as a witness, Gozalov Galib Ahad oglu also confirmed the facts set out by Novruz Aliyev and Bakhtiyar Iskenderov.

Volume 97, case file sheets 38-41.

According to forensic medical examination opinion No. 486 dated 21.07.2023, examination of Aliyev Novruz Hagverdi oglu revealed no bodily injuries or traces of bodily injuries associated with the incident in question on the surface of his body. However, as follows from the medical documents (an extract from the “Register of Injuries (Wounds)” of military unit No. 172), during a medical examination dated 10.06.2023, N.H. Aliyev was diagnosed with “blunt injury of the right elbow joint”. The concept of “blunt injury” is a general medical concept and, in the absence of objective signs during clinical and instrumental examination, it is not regarded as an injury from a forensic medical standpoint.

Volume 97, case file sheet 63.

By Order No. 122 of the commander of military unit No. 172 dated 29.04.2023, over-term active serviceman Junior Sergeant Aliyev Novruz Hagverdi oglu, pursuant to paragraph “b” of Article 78 of the Regulations “On Military Service”, was appointed commander of the 1st platoon of the 1st section of the 10th motor-rifle division of the 4th motor-rifle battalion of military unit No. 172.

Volume 97, case file sheet 10.

According to the inspection record dated 11.07.2023, the clothing that was on Bakirov Ali Shukur oglu at the time of the incident was inspected by Captain of Justice

[Page 808]

Bakshaliyev Hasan Akif oglu, acting senior investigator of the Aghdam Military Prosecutor’s Office. As a result of the inspection, traces of blood were found on the trousers he had been wearing during the incident.

Volume 98, case file sheet 50.

According to forensic ballistic and chemical expert opinion No. 3-16-16/2-3/1161 dated 22.08.2023, the military trousers have the dimensions and number of defects indicated in the examination section of the opinion. Although incompletely burned particles of smokeless powder, which constitute an additional ignition factor, and traces of metallic copper were found around the defects, by their shape, size and morphological structure, the defects on the rear, lower, left (outer) part of the military trousers are entry defects, while the defects on the rear, lower, right (inner) part of the military trousers are exit defects characteristic of damage formed as a result of a shot from a rifled firearm, from a distance of more than 2 metres, by a bullet 5 millimetres in diameter travelling from left to right. No defects characteristic of the effect of a bullet or of an additional fire factor, namely incompletely burned smokeless powder particles, were found on the military waist belt or the soldier’s boots.

Volume 98, case file sheets 130-133, 135-140.

According to forensic biological expert opinion No. 47-MTB dated 09.05.2023, the blood group of Bekirov Ali Shukur oglu is A (II). Human blood was found on the trousers and the right boot. Examination of the group of that blood yielded only antigen “A”. Accordingly, the stated blood stains may belong to a person with blood group A (II) under the ABO system, including Bekirov Ali Shukur oglu, who had the same blood group.

Volume 98, case file sheets 170-172.

According to the decision dated 05.10.2023 recognising items as physical evidence, the military trouser belt and the right boot worn by Bekirov Ali Shukur oglu were recognised as physical evidence.

Volume 98, case file sheets 173-174.

On 11.07.2023, as a result of shelling by servicemen of Armenian military units unknown to the investigation, the operator of the anti-tank missile range of the 2nd anti-tank platoon of the anti-tank division of military unit No. 157

[Page 809]

of the Ministry of Defence, soldier Abdullayev Huseyn Arif oglu,

sustained a firearm wound penetrating the soft tissues of the right scapular region and the middle one-third of the right shoulder.

A certificate in the criminal case states that the territory where the incident occurred was under direct observation from several Armenian posts and under intensive shelling and, because it posed a direct danger to the life and health of military prosecutor's office employees, it was impossible to travel to that territory and inspect what had occurred there.

Volume 106, case file sheet 5.

Abdullayev Huseyn Arif oglu, who was recognised as the victim and questioned, stated in his testimony that on 11.07.2023, at approximately 14:00, KUNG vehicles were brought to that territory and one tractor drove behind the KUNG vehicles. Because the tractor was visible, servicemen of Armenian military units began firing towards the tractor. Thereafter the position was ordered to prepare for Combat Readiness No. 1, and at that time something fell behind the trench against which he was leaning from the enemy positions and exploded. A few seconds later he saw that his right arm was bleeding, informed Major Sahib Zeynalov of this and was evacuated to the medical centre.

Volume 106, case file sheets 10-11.

When questioned as witnesses, Bazayev Vusal Bayram oglu, Guliyev Alizamin Ali oglu and Dadashov Aykhan Atesh oglu gave testimony of the same content, confirming the characteristic features indicated by the victim concerning the mechanism by which the incident occurred.

Volume 106, case file sheets 27-29, 30-32, 33-35.

According to forensic medical examination opinion No. 856 dated 15.09.2023, the bodily injuries sustained by Abdullayev H.A. - a firearm wound of the soft tissues of the right scapular region and the middle third of the right forearm - arose as a result of fire from a firearm and are classified as causing minor harm to health.

Volume 106, case file sheet 57.

According to forensic traceological expert opinion No. 3-16-16/2-3/1147 dated 18.08.2023, the submitted military tunic and undershirt with

[Page 810]

short sleeves have the dimensions and number of defects indicated in the examination section of the opinion. Although no traces of unburned smokeless powder constituting an additional

ignition factor, or traces of metallic copper, were found around the wounds, by their shape, size and morphological structure, the defects on the front part of the right sleeve of the military tunic and on the front lower part of the right sleeve of the short-sleeved undershirt are entry defects, while the defects on the rear part of the right sleeve of the military tunic and the front upper right part of the short-sleeved undershirt are exit defects, resulting from a shot fired from a rifled firearm, characteristic of impact by a bullet 5.45 millimetres in diameter travelling from right to left.

Volume 106, case file sheets 45-48.

The said military tunic and beige short-sleeved shirt are stored as physical evidence in the storage premises of the Special Investigative Department.

Volume 106, case file sheets 49-50.

According to an extract from Order No. 102 of the commander of military unit No. 157, Private Abdullayev Huseyn Arif oglu was appointed to the position of operator of the anti-tank guided missile section of the 2nd anti-tank platoon of the anti-tank division.

Volume 106, case file sheet 22.

While Sergeant Habibov Khayal Habil oglu held the position of commander of the motor-vehicle section of the commandant platoon of the headquarters unit of military unit No. 212 of the Ministry of Defence, on 20.07.2023 at approximately 11:00, while travelling near the village of Gorchu in the Lachin District in a Volkswagen Amarok bearing registration number 99-KY-898, he sustained injuries when the vehicle struck an anti-tank mine previously laid in that area by servicemen of Armenian military units unknown to the investigation.

According to the scene inspection record dated 20.07.2023, the location where the Volkswagen Amarok bearing registration number 99-KY-898, driven by Sergeant Habibov Khayal Habil oglu, struck the mine is situated in the territory of the village of Gorchu in the Lachin District. The diameter of the site where the mine exploded is approximately 3 metres and its depth is 70 centimetres. Looking into the explosion area, one can see that iron fragments formed as a result of

[Page 811]

the mine explosion are scattered around.

Looking north from the scene of the incident, on the right-hand side facing the valley, three information boards bearing the inscription “Hamza bulagy” can be seen. If one looks at the ravine from the lower right-hand corner of the scene of the incident, a white vehicle can be seen which rolled into the ravine as a result of the explosion. During the scene inspection, two pieces of iron scattered within the explosion area were packaged and removed for expert examination. During the scene inspection, in the lower part of the front seat of the vehicle, the vehicle registration certificate bearing number AD-██████ and a power of attorney for use of the vehicle bearing number ON-██████ were found and seized.

Volume 103, case file sheets 4-104.

Khabibov Khayal Habil oglu, who was recognised as the victim and questioned, stated in his testimony that on 20.07.2023 at approximately 10:00 in the morning, he travelled in a Volkswagen Amarok bearing registration number 99-KY-898 together with other servicemen to military unit No. 888, located in the village of Bululduz in the Lachin District, to meet a soldier. After dropping off the other servicemen at military unit No. 888, he drove towards the village of Gorchu in the Lachin District in order to take a short drive. As he approached the village, the vehicle suddenly struck a mine; as a result of the explosion, he was thrown up and down inside the vehicle and sustained various bodily injuries.

Volume 103, case file sheets 74-76, 81-82.

Barkhudarov Niyameddin Shukur oglu, who was recognised as the victim and questioned, stated in his statement/testimony that on 20.07.2023 at approximately 09:00-10:00, servicemen of military unit No. 212, located in the Lachin District, together with Warrant Officer Eltun Khudiyev, Major Rufat Abbasguliyev and Sergeant Khayal Habibov, travelled to the military unit to meet a soldier. Upon reaching military unit No. 888, they got out of the vehicle, while Khayal Habibov drove the vehicle towards the village of Gorchu in the Lachin District. Approximately one hour later they were informed that Kh. Habibov had struck a mine in his vehicle and sustained injuries. He later repaired the vehicle, which had been damaged as a result of striking the mine.

Volume 103, case file sheets 98-100, 105-106.

According to forensic medical expert opinion No. 827 dated 09.06.2023, the bodily injuries sustained by Kh.G. Khabibov were: condition following surgical treatment of wounds and a surgical operation performed as a result of

[Page 812]

a blast injury; an incised and crushed wound of the outer surface of the upper one-third of the right forearm; abrasions at the base of the nose, the right temporal and parietal region of the forehead, the right hand, the anterior abdominal wall and the lower one-third of the right thigh; haemorrhage on both thighs; post-traumatic keratitis of the right eye; compound myopic astigmatism, reduction in visual acuity to 0.4 with refraction axes M 0.75 D and M 0.50 D, with correction to 0.7; acute right-sided cochlear neuritis after blast injury. These were caused by the effect of the blast wave and primary fragments formed as a result of the mine explosion and, in general, are classified as causing minor harm to health.

Volume 103, case file sheets 70-71.

According to combined forensic ballistic, traceological and chemical expert opinion No. 3-16-16/2-3/1469;3/1477 dated 19.10.2023, because the three examined metal pieces were broken into fragments as a result of being torn from the object of which they formed part after the explosion, no factory markings remained on them, and it is impossible to determine whether those metal pieces are parts of an explosive device (mine) or not. It is considered that the mine (explosive device) used in the explosion was an anti-tank mine with a metal casing, used against tank tracks and armoured vehicles and against trucks, and intended for

placement in dangerous directions, on roads and in places where vehicles may travel. Judging by the metal objects found at the explosion site, it is quite probable that the explosion occurred on an anti-tank mine of the TM-62M, TM-62P2, TM-62P3, TM-62T or TM-62B type.

Volume 103, case file sheets 118-122.

Three metal objects recognised as physical evidence are stored in the storage facility of the Special Investigative Department.

Volume 103, case file sheets 123-124.

On 21.08.2023 at approximately 10:00, as a result of shelling by servicemen of the Armenian armed forces unknown to the investigation from combat positions located in the settlement of Ashaghi Shorja in the Basarkechar District, directed at the combat position of the Azerbaijani Army conditionally designated “K-48” of the 3rd unit of the 1st battalion of military unit No. 172 of the Ministry of Defence, in the direction of the conditional Azerbaijan-Armenia state border, located in the territory of the village of Zar

[Page 813]

in the Kalbajar District, from combat positions located in the settlement of Ashaghi Shorja in the Basarkechar District, Warrant Officer Nazarov Ramiz Ismet oglu, commander of the 2nd sniper platoon of the sniper division of military unit No. 191, who was serving at that position, sustained the following injuries: “blind wounds of the right cheek region with damage to the right part of the jaw bone, penetrating into the oral cavity, with multiple metallic foreign bodies in the soft tissues; blind wound of the left forearm region; superficial wound of the nasal region”, classified as causing minor harm to health.

According to a certificate included in the criminal case, because on 21.08.2023 at combat position “K-48”, belonging to the 1st unit of the 1st battalion of military unit No. 172, where Warrant Officer Nazarov Ramiz Ismet oglu of military unit No. 191 was wounded as a result of shelling by Armenian soldiers, firing continued throughout that day, it was not possible to travel to that area.

Volume 100, case file sheet 5.

Nazarov Ramiz Ismet oglu, who was recognised as the victim and questioned, stated in his testimony that on 21.08.2023 at approximately 09:00 in the morning, the positions of military unit No. 172 were shelled by the Armed Forces of Armenia. While the firing continued, together with Junior Sergeant Abbasov Kamran Shukur oglu, he detected and destroyed an observation camera of Armenian soldiers. At approximately 10:00, while they continued to serve together with Junior Sergeant Kamran Abbasov and observed the movement of Armenian military units, several bullets fired automatically from a weapon of relatively larger calibre struck the Truvello 3432 sniper rifle through which he was carrying out observation and a boulder next to him. Because, as a result of the fire, he could not change his position, bullet fragments injured his face, jaw, right shoulder and left forearm. Nazarov Ramiz Ismet

oglu also stated in his testimony that during his service he had been provided with a bulletproof vest, combat helmet and other necessary equipment.

Volume 100, case file sheets 73-77.

When questioned as witnesses, Abbasov Kamran Shukur oglu, Novruzov Nuraddin Safayat oglu, Tanryverdiyev Ramin Andriyas oglu and Huseynov Asif Mehman oglu confirmed the circumstances stated by the victim and gave testimony of the same content.

Volume 100, case file sheets 28-31, 33-36, 50-53, 58-61.

[Page 814]

According to forensic medical expert opinion No. 777 dated 16.11.2023, the bodily injuries sustained by R.I. Nazarov were: penetrating and blind wounds of the right cheek region penetrating into the oral cavity, accompanied by injury to the right jaw bone and multiple metallic foreign bodies in the soft tissues; blind wound of the left forearm region; superficial ulcer of the nasal region. These are characteristic of injuries formed by firing from a firearm; it is not excluded that they were formed as a result of the effects of secondary fragments generated when a projectile (bullet) struck a hard obstacle, and this is classified as causing harm to health of moderate severity.

Volume 100, case file sheets 111-114, 121-122.

According to combined forensic ballistic, traceological and chemical expert opinion No. 3-16-16/2-3/1525;3/2528 dated 27.10.2023, the trousers, short-sleeved undershirt, pair of military boots and Truvello sniper rifle No. 3432 belonging to Nazarov Ramiz Ismet oglu do not bear typical defects caused by bullet impact. Particles of unburned powder, which constitute an additional ignition factor, were found on Nazarov Ramiz Ismet oglu's trousers, short-sleeved undershirt, pair of military boots and Truvelo sniper rifle No. 3432.

Volume 100, case file sheets 92-95.

According to forensic biological expert opinion No. 69/MTB dated 14.11.2023, the blood group of Nazarov Ramiz Ismet oglu is A (II). Human blood was found on the submitted short-sleeved undershirt, military trousers and pair of boots. Examination of the blood group yielded only antigen "A". Accordingly, the stated blood stains may belong to blood group A (II) under the ABO system, including Nazarov Ramiz Ismet oglu, who had the same blood group. No suspicious blood stains were found on Truvelo sniper rifle No. 3432.

Volume 100, case file sheets 99-101.

The said trousers and undershirt with short

[Page 815]

sleeves, and one pair of military boots are stored as physical evidence in the evidence storage facility of the Special Investigative Department.

One Truvelo sniper rifle No. 3432 was returned to military unit No. 191 of the Ministry of Defence.

Volume 100, case file sheets 102-103, 125-126.

On 31.08.2023 at approximately 07:00, a rifleman, as a result of small-arms and artillery fire, for the purpose of inciting national hatred and enmity, by servicemen of Armenian military units unknown to the investigation towards combat position conditionally designated “K-8” of the Azerbaijani Army, located on the conditional Azerbaijan-Armenia state border in the territory of the village of Demirchidam in the Kalbajar District, servicemen of military unit No. 707 of the Ministry of Defence of the Republic of Azerbaijan, Warrant Officer Tagiyev Magomed Ramiz oglu and Junior Sergeant Mammadli Sadyg Saday oglu, sustained injuries.

In addition, on 01.09.2023, from approximately 07:00, as a result of shelling with small-arms and artillery weapons by servicemen of Armenian military units unknown to the investigation, for the purpose of inciting national hatred and enmity, of Azerbaijani Army combat positions conditionally designated “K-7” and “K-8”, located in the territory of the village of Demirchidam in the Kalbajar District on the Azerbaijan-Armenia state border, at approximately 09:00 servicemen of military unit No. 707 of the Ministry of Defence, Sergeant Aliyev Ulfat Novruz oglu, Eyvazov Maharram Jeyhun oglu and Alisoy Mammad Chapay oglu, sustained injuries.

In addition, on 01.09.2023 at approximately 12:00, as a result of shelling with small-arms and artillery weapons by servicemen of Armenian military units unknown to the investigation, for the purpose of inciting national hatred and enmity, of the Azerbaijani Army combat position conditionally designated “K-20”, located in the territory of the village of Yellija in the Kalbajar District on the conditional Azerbaijan-Armenia state border, servicemen of military unit No. 172, Senior Lieutenant Ahmedov Mehdi Huseyn oglu, and serviceman of military unit No. 191, soldier Gasimov Gunduz Intizam oglu, sustained injuries.

Senior Lieutenant Ahmedov Mehdi Huseyn oglu, a serviceman of military unit No. 172 of the Ministry of Defence, who was recognised as the victim and questioned, stated in his testimony/statement that on 01.09.2023 at approximately 12:00, from the territory of the village of Azizli in the Basarkechar District of Armenia, the Armenian armed forces began artillery shelling of the combat position conditionally designated “K-20”, and the positions were dispersed; as a result of this continuous fire, while he

[Page 816]

was observing Armenian soldiers, a shell fragment struck him; in addition, the blast wave of the shell threw him approximately 1-2 metres to the side and against the basket of the fortification. As a result of the incident he sustained injuries.

Volume 205, case file sheets 53-57.

The following persons, recognised as victims and questioned - Lieutenant Alisoy Mammad Chapay oglu, Warrant Officer Tagiyev Magomed Ramiz oglu, Sergeant Aliyev Ulfat Novruz oglu, Junior Sergeant Mammadli Sadyg Saday oglu, soldier Gasimov Gunduz Intizam oglu

and soldier Eyvazov Maharram Jeyhun oglu - as well as Senior Lieutenant Novruzov Nuraddin Safayat oglu and Senior Sergeant Mammadov Habil Iskender oglu, questioned as witnesses, gave testimony similar in content to that of Senior Lieutenant Ahmedov Mehdi Huseyn oglu.

Volume 205, case file sheets 99-101, 102-105, 116-120, 126-130, 136-140, 220-224, 257-259.

According to forensic medical expert opinion No. 594 dated 27.09.2023, the bodily injuries sustained by Alisoy Mammad Chapay oglu - multiple blind wounds of the occiput, left temporal region, left cheek, neck region, right thigh and both calves, foreign bodies in the soft tissues, haemorrhages of the right periorbital region accompanied by haemorrhages in the sclera of the eyeball, and a superficial wound of the left forearm region - were caused by the effect of a blast wave formed upon the explosion of a firearm, primary and secondary fragments from a blunt mechanism, and, as a rule, are classified as causing minor harm to health resulting in a short-term deterioration of health.

Volume 205, case file sheets 190-191.

According to forensic medical expert opinion No. 593 dated 18.09.2023, the bodily injuries sustained by Aliyev Ulfat Novruz oglu were: mild left-sided haemothorax (accumulation of free blood in the thoracic cavity), blind wound of the posterior surface of the chest penetrating into the thoracic cavity accompanied by injury to the tissue of the left lung, and a metallic foreign body in the tissue of the left lung. These were caused by the effects of fragments formed upon the explosion of an explosive weapon and, according to severity, are classified as causing serious harm to health.

Volume 205, case file sheets 194-195.

[Page 817]

According to forensic medical expert opinion No. 595 dated 27.09.2023, the bodily injuries sustained by Eyvazov Maharram Jeyhun oglu - blind wounds of the soft tissues of the left arm, thigh and shin caused by fragments formed upon the explosion of an explosive weapon - are classified as causing harm to health of moderate severity.

Volume 205, case file sheets 198-199.

According to forensic medical examination opinion No. 596 dated 04.10.2023, the bodily injuries sustained by Tagiyev Magomed Ramiz oglu were: through-and-through wound of the soft tissues of the left temporal and parotid regions, accompanied by a comminuted, displaced, open fracture of the left ascending branch of the upper jaw, causing neuropathy of the left facial nerve, with the entry opening located on the left temple and the exit opening in the region of the left cheek; metallic foreign bodies in the soft tissues. These are characteristic of injuries caused by fire from a firearm and are classified as causing harm to health of moderate severity.

Volume 205, case file sheets 265-266.

According to forensic medical expert opinion No. 764 dated 15.11.2023, Gasimov Gunduz Intizam oglu sustained bodily injuries which did not cause harm to his health.

Volume 205, case file sheets 273-274, 312.

According to the decision dated 31.10.2023 recognising items as physical evidence, a long-sleeved shirt and jacket belonging to U.N. Aliyev and trousers belonging to M.R. Tagiyev were recognised as physical evidence and are stored in the evidence storage facility of the Special Investigative Department.

Volume 205, case file sheets 244-246.

On 07.09.2023 at approximately 07:20, scout-sapper of the 1st group of the 4th platoon of the 1st unit of the 1st battalion of military unit No. 191, over-term active serviceman Sergeant Ismailov Yunis Panah oglu, while carrying out engineering-fortification works at the combat position of the 2nd battalion of military unit No. 707 conditionally designated “KO-13”, located in the direction of the village of Merjimek in the Kalbajar District, while rendering safe mines buried in the ground by servicemen of Armenian military units unknown to the investigation for the purpose of

[Page 818]

inciting national hatred and enmity in that area, sustained the following injuries as a result of the explosion of one of the mines: “traumatic disruption of the right lower limb at the level of the middle one-third of the calf, accompanied by traumatic-haemorrhagic shock of degree 2-3, resulting in loss of the right lower limb at the level of the upper one-third of the calf, complicated by moderately severe post-haemorrhagic anaemia, right-sided pneumothorax, abrasions of the 1st and 4th fingers of the right hand, abrasions of the left knee joint, subcutaneous haemorrhage”, and was evacuated to hospital.

In his “Assessment” dated 07.09.2023, investigator of the Kalbajar Military Prosecutor’s Office, Lieutenant of Justice Fuad Gasimzade, stated that, on the basis of information that serviceman and officer of military unit No. 191 Sergeant Ismailov Yunis Panah oglu had been injured as a result of the explosion of a mine previously laid by the Armenian armed forces and had been hospitalised at military hospital No. 524, he went to the military unit, collected the relevant documents and took the necessary measures, but it was not possible to conduct an inspection because the scene of the incident was a mined area.

Volume 101, case file sheet 6.

Ismailov Yunis Panah oglu, who was recognised as the victim and questioned, stated in his testimony that on 07.09.2023 at approximately 07:00, while he and Sergeant Abbasov Vugar were clearing the area around the position of mines laid by the Armenian armed forces, a piece of dry wood slipped from beneath his feet because the ground was wet and sloped; he slipped and, as one of his legs slipped, one of the mines deliberately laid in that area exploded beneath his feet. The blast wave threw him upwards and he fell to the ground. After he fell, Sergeant Abbasov came to his aid, began applying a tourniquet in order to stop the bleeding and injected a painkiller; he could not move his leg and, when he looked, he saw that the

lower third of his right shin had been torn off. Later, a scout-medical orderly of military unit No. 191 serving in the nearby area provided him with first aid, while his fellow servicemen removed him from the scene and transported him to a strongpoint. There the doctors of the military unit examined him, cleaned the wound and re-banded it. Later, accompanied by a doctor, he travelled to military unit No. 524, where he was admitted for inpatient treatment and his leg was operated on. He is now in good

[Page 819]

condition. He also stated that no one else was injured or killed as a result of the incident.

Volume 101, case file sheets 27-31.

When questioned as a witness, Masmaliyev Farid Alhuseyn oglu stated that since 26.03.2022 he had held the position of head of the medical service of military unit No. 191 and held the military rank of senior lieutenant of the medical service; at approximately 07:20 at the combat position of military unit No. 707 conditionally designated “KO-13”, during engineering-fortification works, namely during mine clearance of the area, over-term active serviceman of military unit No. 191 Sergeant Ismailov Yunis Panah oglu struck a mine laid by unlawful Armenian formations and sustained injuries, as a result of which he was injured with the diagnosis “traumatic disruption of the lower third of the right shin, operation, mine-blast injury”.

Volume 101, case file sheets 18-20.

When questioned as a witness, Ganbarov Abulfat Azer oglu confirmed Farid Masmaliyev’s testimony and gave the same testimony.

Volume 101, case file sheets 21-23.

According to forensic medical examination opinion No. 608 dated 29.09.2023, the bodily injuries sustained by Ismailov Yunis Panah oglu were: traumatic disruption of the right lower limb at the middle 1 level of the calf, complicated by moderately severe post-haemorrhagic anaemia and accompanied by traumatic-haemorrhagic shock of the first degree, which resulted in loss of the right lower limb at the level of the upper one-third of the calf; right-sided pneumothorax; abrasions of the I and V fingers of the right hand; rupture of the left knee joint and subcutaneous haemorrhage. They are characterised as having been caused by the effect of a blast wave formed upon the explosion of an explosive weapon and secondary fragments from the principal and blunt mechanism. They are characterised as serious harm to health causing irreversible loss of more than one third of general capacity for work (60%).

Volume 101, case file sheets 69-70.

According to forensic medical-biological expert opinion No. 67-MTB dated 19.10.2023, the blood group of Ismailov Yunis Panah oglu is A (II). Human blood was found on the jacket,

[Page 820]

woollen jacket, shirt, military trousers, long underwear and left boot. Examination of the blood group yielded only antigen “A”. The stated blood stains may belong to a person with blood group A (II) under the ABO system, including Ismailov Yunis Panah oglu, whose blood was of the same group.

Volume 101, case file sheets 78-80.

According to the decision dated 31.10.2023 recognising items as physical evidence, the long-sleeved shirt, jacket, warm coat, underwear, trousers and left boot belonging to Ismailov Yu.P. were recognised as physical evidence and stored in the evidence storage facility of the Special Investigative Department.

Volume 101, case file sheets 81-82.

Lieutenant Colonel Eminov Khayyam Mahal oglu, chief of staff - deputy commander of military unit No. 651 of the Ministry of Defence, while on assignment at military unit No. 190 for the purpose of carrying out a combat mission, on 10.09.2023 at 13:14 was observing the area between combat position conditionally designated “A-11” of the 5th division of the 2nd unit, located in the territory of the village of Garalar in the Aghdam District, and the positions of the Armenian armed forces located in that territory; as a result of stepping on a mine buried in the ground by servicemen of those same formations unknown to the investigation with the intent deliberately to kill people and to incite national hatred and enmity, he sustained the following injuries: “subtotal disruption of the left shin with a large soft-tissue defect at the level of the tibial joint, lacerated wound of the right sole, displaced open fractures of the lower third of the shin and metatarsal bones, displaced closed fractures of the I and V toes of the right foot, multiple blind shrapnel wounds of various parts of the body, blind shrapnel wounds of both periorbital regions, traumatic keratopathy of the left eye, traumatic-haemorrhagic shock of degree 2, 3”, and was hospitalised at military hospital No. 056.

A certificate of military unit No. 190 submitted to the Aghdam Military Prosecutor’s Office states that because the place of the incident, which occurred on the right flank of the combat position of the 2nd unit of the 3rd platoon of the 5th division of the 2nd battalion of military unit No. 190, was fully observable from the positions of the Armenian armed forces, inspection of the area posed a danger to life and health, as the area was mined. For this reason, it was not possible to inspect the scene of the incident.

[Page 821]

Volume 102, case file sheet 12.

Eminov Khayyam Mahal oglu, who was recognised as the victim and questioned, stated in his testimony that on 09.10.2023 at approximately 13:00, while conducting reconnaissance of the area, he stepped with his left foot on an anti-personnel mine; after the mine exploded he fell to the ground and, when falling, his right leg also struck an anti-personnel mine, causing a second explosion. As a result of the first mine explosion, one-third of his left leg was

amputated. In addition, as a result of the second mine explosion he sustained multiple shrapnel wounds to the right leg.

Volume 102, case file sheets 52-54.

Qubadli Ilgar Saday oglu, questioned as a witness, stated in his testimony that on 10.09.2023 servicemen of military unit No. 651 conducted reconnaissance of the territory in the direction of the village of Dovshanly in the Khojaly District from the territory of the village of Garalar in the Aghdam District for the purpose of preventing an attack by Armenian armed formations. Later that same day, at approximately 13:00, he heard the sound of an explosion followed by screams and, realising that an anti-personnel mine had exploded, immediately ordered Junior Sergeant Asgerov Ilkin Hafiz oglu to take a stretcher intended for transporting the wounded and carry it to the place where the explosion had occurred. Within two minutes he saw Eminov Khayyam Mahal oglu, who was performing the duties of chief of staff - deputy commander of military unit No. 651 and held the military rank of lieutenant colonel, being brought on the stretcher with injured legs. At that time, in order to prevent bleeding in the left leg, he immediately bandaged his left leg.

Volume 102, case file sheets 69-72.

According to forensic medical examination opinion No. 1350 dated 27.09.2023, the bodily injuries sustained by Eminov Kh.M. were: subtotal disruption of the left shin from the level of the hip joint with a wide soft-tissue defect; lacerated wound of the right sole; displaced open fractures of the lower third of the shin and metatarsal bones; displaced closed fractures of the I and V toes of the right foot; multiple blind shrapnel wounds of various parts of the body; blind shrapnel wounds of both periorbital regions; traumatic keratopathy of the left eye; traumatic-haemorrhagic shock of degree 2 and 3, caused by the combined effect of fragments and the blast wave arising as a result of

[Page 822]

the explosion of an explosive projectile (device), and are ordinarily classified as causing serious harm to health.

Volume 102, case file sheets 81-85.

According to ballistic and traceological expert opinion No. 3-16-16/2-3/1514 dated 27.10.2023, a mine is an explosive device concealed underground and intended to explode when infantry, vehicles or tanks pass over it, in order to kill, disable or destroy them. Anti-personnel mines are a type of mine intended for use against people, unlike anti-tank mines, which are intended for use against vehicles. An anti-personnel mine may be classified as blast or fragmentation. With respect to the explosion of 10.09.2023, the explosion of a factory-manufactured PMN anti-personnel mine is not excluded. The total mass of a PMN blast-type mine is 550 grams and the mass of the explosive substance (TNT) in it is 200 grams. The PMN detonator is installed with a detonator. It is buried manually. A weight of 8-25 kilograms is sufficient for its detonation. As soon as the specified weight bears upon the mine, the pin touches the igniter and an explosion suddenly occurs. As a result of the pressure

and high temperature generated by the explosion of a PMN mine, it breaks into pieces and forms a hole in the ground approximately 30 centimetres deep. Parts of the body and clothing of a person subjected to the explosion of a PMN mine are also broken into small pieces and particles and scattered beyond the epicentre. The explosive device poses a real threat to human life and health at a distance (radius) of approximately 25 metres from the place of detonation.

The T-shirt, military field trousers, black socks and left boot belonging to Eminov Khayyam Mahal oglu and submitted for examination bear the number and dimensions of defects indicated in the examination section of the opinion. On the basis of the detection of traces of explosive substance (TNT) and particles of smokeless powder constituting an additional ignition factor on the short-sleeved T-shirt, military field trousers, black socks and left boot belonging to Eminov Khayyam Mahal oglu, and the shape, dimensions and morphological structure of the defects, the said defects are characteristic of the result of an explosion of an explosive device, from a distance close to the centre of the explosion, from the effects of fragments and from the effects of the explosion; the said defects could have been caused under the circumstances stated in the descriptive part of the decision. On the submitted

[Page 823]

rope and right boot there are no defects characteristic of the explosion of a bullet or projectile as a result of a shot from a firearm.

Volume 102, case file sheets 92-96.

According to the decision dated 14.11.2023 recognising items as physical evidence, the T-shirt, trousers, one pair of socks, rope and one pair of boots belonging to Eminov Khayyam Mahal oglu were recognised as physical evidence and are stored in the evidence storage facility of the detention facility of the Special Investigative Department.

Volume 102, case file sheets 97-98.

On 19.09.2023, beginning at 13:02, terrorist acts of unlawful Armenian armed formations for the purpose of terrorism against the Republic of Azerbaijan, that is, violation of public security and creation of panic among the population for the purpose of carrying out an explosion, arson or other acts (a terrorist act) threatening loss of life, harm to health or other socially dangerous consequences, once again violated the ceasefire regime and large-scale provocative actions began. For this purpose, positions of various military units of the Ministry of Defence of the Republic of Azerbaijan were attacked in the directions of the Kalbajar, Qubadli, Aghdam, Fuzuli, Khojavend, Khojaly and Shusha districts, and those districts were subjected to intensive shelling with large-calibre weapons, mortars and artillery of various calibres. As a result, in connection with terrorism, national hatred and enmity, 205 servicemen of the Armed Forces of the Republic of Azerbaijan were intentionally killed, 1,004 servicemen sustained injuries of varying severity, and substantial material damage was also caused.

During the pre-trial investigation, the bodies of 205 deceased servicemen were examined, their close relatives were recognised and questioned as lawful heirs of the victims, and 1,004 wounded servicemen were recognised as victims; forensic medical and other necessary expert examinations were ordered in respect of the deceased and wounded, and possible witnesses were identified and questioned.

According to the record dated 19.09.2023 of the examination of the body of serviceman of a military unit of the Ministry of Defence Isayev Ismail Cherkez oglu, the body bore numerous bodily injuries of various sizes and forms.

[Page 824]

Volume 12, case file sheets 5-6.

Isayev Cherkez Agabek oglu, who was recognised as the lawful heir of the victim Isayev Ismail Cherkez oglu and questioned, stated in his testimony that his son Ismail Isayev had served as an officer in a military unit of the Ministry of Defence since 2022; on 19.09.2023 he received a telephone call and was informed that his son Ismail had been killed in the Aghdara direction.

Volume 33, case file sheets 223-225.

According to forensic medical examination opinion No. 05 dated 20.09.2023, the following bodily injuries were found on the body of Isayev Ismail Cherkez oglu: open haemopneumothorax; injuries to the lungs and soft tissues; blind wounds of the right humerus penetrating into the thoracic cavity, accompanied by comminuted, open, defective fractures of the left clavicle, left I and II ribs, and right III and IX ribs, accompanied by comminuted, open, defective fractures of the right humerus. The stated injuries were caused by projectiles (bullets) as a result of at least two shots from a firearm. The cause of death was open haemopneumothorax, injuries to the lungs and soft tissues, multiple open defective fractures of the left clavicle, left I and II ribs and right III and IX ribs penetrating into the thoracic cavity, and a comminuted open defective fracture of the right humerus; traumatic-haemorrhagic shock arose as a result of a blind wound of the right shoulder accompanied by defective fractures.

Volume 307, case file sheets 2-4.

According to the record dated 19.09.2023 of the examination of the body of officer of a military unit of the Ministry of Defence Zamanly Ahmed Azad oglu, numerous bodily injuries of various sizes and forms were found on the body.

Volume 12, case file sheets 13-14.

Zamanly Murad Azad oglu, questioned as the lawful heir of the victim Zamanly Ahmed Azad oglu, stated in his testimony that his brother Ahmed Zamanly had been serving a term in a military unit of the Ministry of Defence since June 2022 and was killed on 19.09.2023 as a result of a sniper bullet fired by the Armed Forces of Armenia striking him in the head in the Aghdara direction.

Volume 356, case file sheets 79-82.

[Page 825]

According to forensic medical examination opinion No. 06 dated 20.09.2023, the following bodily injuries were found on the body of Zamanly Ahmed Azad oglu: craniocerebral injuries; penetrating wound of the cranial cavity accompanied by multifragmentary, open, defective fractures of the skull bones; abrasions on the palmar surface of the first finger of the right hand and on the dorsal surface of the third metatarsophalangeal joint on the dorsal surface of the right hand. The wound penetrating the cranial cavity was caused by a projectile (bullet) fired from a firearm, while the other injuries were caused by fragments arising from the explosion of ammunition possessing explosive properties. The cause of death was trauma to the skull, a wound penetrating the cranial cavity accompanied by multifragmentary, open, defective fractures of the skull bones.

Volume 307, case file sheets 6-8.

According to the record dated 19.09.2023 of the examination of the body of Janbakhyshov Khayal Kheyrolla oglu, an officer of a military unit of the Ministry of Defence, numerous bodily injuries were found on the body.

Volume 12, case file sheets 22-23.

Janbakhyshov Kheyrolla Bakhtiyar oglu, who was recognised as the lawful heir of the victim Janbakhyshov Khayal Kheyrolla oglu and questioned, stated in his testimony that his son had been serving on an over-term basis in a military unit of the Ministry of Defence since February 2023 and was killed as a result of the fall and explosion of a mortar shell fired by the Armed Forces of Armenia on 19.09.2023.

Volume 356, case file sheets 8-10.

According to forensic medical examination opinion No. 07 dated 20.09.2023, the following bodily injuries were found on the body of Janbakhyshov Khayal Kheyrolla oglu: multiple extensive wounds with tissue defects of the head, torso and both upper and lower extremities, penetrating the cranial and thoracic cavities; injury to the brain; complete destruction of the left eyeball; multifragmentary, open, defective fractures of the ribs and left femur extending to the base of the skull and the bones of the facial skeleton. The stated wounds were caused by fragments and the blast wave arising from the explosion of explosive ammunition. The cause of his death was traumatic-haemorrhagic shock

[Page 826]

arising as a result of the injuries sustained (multiple extensive wounds with tissue defects of the head, torso and both upper and lower extremities, penetrating the cranial and thoracic cavities; injury to the brain; complete destruction of the left eyeball; multifragmentary, open, defective fractures of the ribs and left femur extending to the base of the skull and the bones of the facial skeleton).

Volume 307, case file sheets 9-12.

According to the record dated 19.09.2023 of the examination of the body of serviceman of a military unit of the Ministry of Defence Iskenderov Murad Alaga oglu, numerous bodily injuries were found on the body.

Volume 12, case file sheets 30-31.

Iskenderov Alaga Mukhubali oglu, questioned as the lawful heir of the victim Iskenderov Murad Alaga oglu, stated in his testimony that his son Murad Iskenderov had served temporarily in a military unit of the Ministry of Defence since April 2022; on 19.09.2023 he was killed as a result of shrapnel wounds to the abdomen and leg caused by the explosion of a shell fired by the Armed Forces of Armenia during the fighting in the Aghdam-Aghdara-Khojavend direction.

Volume 57, case file sheets 177-180.

According to forensic medical examination opinion No. 08 dated 20.09.2023, the following bodily injuries were found on the body of Iskenderov Murad Alaga oglu: injuries to the pelvic organs penetrating into the pelvic cavity; wounds with extensive tissue defects of the right pelvic bone, left gluteal region, right inguinal region, right shin and right thigh region, accompanied by an open fracture of the right pelvic bone. The stated wounds were caused by fragments and the blast wave arising from the explosion of explosive ammunition. The cause of his death was acute haemorrhage arising as a result of the injuries sustained (multiple extensive wounds with tissue defects of the head, torso and both upper and lower extremities, penetrating the cranial and thoracic cavities; injury to the brain; complete destruction of the left eyeball; multifragmentary, open, defective fractures of the ribs and left femur extending to the base of the skull and the bones of the facial skeleton).

Volume 307, case file sheets 13-16.

[Page 827]

According to the record dated 19.09.2023 of the examination of the body of serviceman of a military unit of the Ministry of Defence Khanaliyev Ismail Ziyad oglu, bodily injuries of various sizes and forms were found on the body.

Volume 12, case file sheets 39-40.

Khanaliyev Ziyad Safar oglu, questioned as the lawful heir of the victim Khanaliyev Ismail Ziyad oglu, stated in his testimony that his son Ismail Khanaliyev had served on an over-term basis in a military unit of the Ministry of Defence and was killed on 20.09.2023 as a result of the explosion of a mine thrown by the Armed Forces of Armenia, sustaining shrapnel wounds.

Volume 58, case file sheets 106-108.

According to forensic medical examination opinion No. 39 dated 20.09.2023, the following bodily injuries were found on the body of Khanaliyev Ismail Ziyad oglu: crushing of the brain; open shrapnel fractures of the skull bones penetrating into the cranial cavity; traumatic amputations of both lower extremities from the shins; multiple contused and lacerated

wounds of the body; thermal burns of both hands of degree I-II. The through-and-through wound of the cranial cavity was sustained as a result of fire from the first zone of close-range firing (within 5 centimetres in an abutting position), affected by additional factors of discharge from a firearm, while the remaining injuries were caused by fragments, fire and the blast wave arising from the explosion of an explosive device. The immediate cause of his death was crushing and destruction of the skull as a result of a firearm wound penetrating into the cranial cavity, accompanied by shrapnel and open fractures of the skull bones.

Volume 307, case file sheets 131-134.

According to the record dated 19.09.2023 of the examination of the body of officer of a military unit of the Ministry of Defence Hamidli Mikail Vugar oglu, numerous bodily injuries were found on the face of the body.

Volume 12, case file sheets 47-48.

Hamidov Vugar Yadulla oglu, who was recognised as the lawful heir of the victim Hamidli Mikail Vugar oglu and questioned, stated in his testimony that his son

[Page 828]

Hamidli Mikail Vugar oglu served as an officer in a military unit of the Ministry of Defence, and on 20.09.2023 he received a telephone call and was first informed that his son had been injured and then that he had been killed.

Volume 33, case file sheets 230-233.

According to forensic medical examination opinion No. 10 dated 20.09.2023, the following bodily injuries were found on the body of Hamidli Mikail Vugar oglu: multiple extensive wounds with tissue defects of the forehead, lower jaw, lower lip, right lateral and right posterior surfaces of the chest, anterior-inner surface of the upper one-third of the left forearm, both forearms, the region around the hand, anterior-inner surface of the lower one-third of the left thigh, the inner surface encompassing the anterior, outer and posterior surfaces of the right thigh, posterior surface of the right calf, and anterior surfaces of both lower extremities; shrapnel open fractures of the bones forming the left elbow joint, right femur and shin bone; traumatic loss of the upper front incisors. The stated wounds were caused by fragments and the blast wave arising from the explosion of explosive ammunition. The cause of his death was acute haemorrhage arising as a result of the injuries sustained (multiple extensive wounds with tissue defects of the forehead, lower jaw, lower lip, right lateral and right posterior surfaces of the chest, anterior-inner surface of the upper one-third of the left forearm, both forearms, the region around the hand, anterior-inner surface of the lower one-third of the left thigh, the inner surface encompassing the anterior, outer and posterior surfaces of the right thigh, posterior surface of the right calf, and anterior surfaces of both lower extremities; shrapnel open fractures of the bones forming the left elbow joint, right femur and shin bone; traumatic loss of the upper front incisors).

Volume 307, case file sheets 22-25.

According to the record dated 19.09.2023 of the examination of the body of officer of a military unit of the Ministry of Defence Abbasov Ruslan Abulfat oglu, numerous bodily injuries were found on the body.

Volume 12, case file sheets 56-57.

Abbasov Nariman Abulfat oglu, who was recognised as the lawful heir of the victim Abbasov Ruslan Abulfat oglu and questioned, stated in his testimony that his brother Ruslan Abbasov had most recently served in

[Page 829]

a military unit of the Ministry of Defence with the rank of lieutenant since the end of 2022. On 19.09.2023 he received from his brother's fellow servicemen information that his brother had been killed as a result of shelling carried out by unlawful armed formations of Armenia in the fighting taking place in the territory of the Aghdam District.

Volume 51, case file sheets 248-250.

According to forensic medical examination opinion No. 12 dated 20.09.2023, the following bodily injuries were present on the body of Abbasov Ruslan Abulfat oglu: wounds with tissue defects on the left lateral surface of the chest, left posterior surface, right posterior surface, and left lateral surface of the chest and abdomen, penetrating into the thoracic and abdominal cavities and accompanied by injury to the organs of the cavities; comminuted open fractures of the right V, IV, X and XI ribs and the X thoracic vertebra. The stated wounds were caused by fragments and the blast wave arising from the explosion of explosive ammunition. The cause of his death was acute haemorrhage arising as a result of the injuries sustained (wounds with tissue defects on the left lateral surface of the chest, left posterior surface, right posterior surface, and left lateral surface of the chest and abdomen, penetrating into the thoracic and abdominal cavities and accompanied by injury to the organs of the cavities; comminuted open fractures of the right V, IV, X and XI ribs and the X thoracic vertebra).

Volume 307, case file sheets 30-33.

According to the record dated 19.09.2023 of the examination of the body of officer of a military unit of the Ministry of Defence Khanmammadov Huseyn Mais oglu, numerous bodily injuries were found on the body.

Volume 12, case file sheets 64-65.

Khanmammadov Mais Huseyn oglu, who was recognised as the lawful heir of the victim Khanmammadov Huseyn Mais oglu and questioned, stated in his testimony that his son Huseyn had been an over-term active serviceman of a military unit of the Ministry of Defence since 2017. On 19.09.2023 he received information that his son had been killed by shrapnel wounds as a result of shelling by unlawful Armenian armed formations.

Volume 48, case file sheets 225-228.

[Page 830]

According to forensic medical examination opinion No. 14 dated 20.09.2023, the following bodily injuries were found on the body of Khanmammadov Huseyn Mais oglu: crushing of the brain; multiple extensive wounds with tissue defects on the forehead, accompanied by a comminuted open fracture of the frontal bone, encompassing the left part of the face, left side of the neck, posterior part of the upper one-third of the right forearm, anterior-inner surface of the right palm, anterior-inner surfaces of both thighs, anterior part of the right calf and inner surface of the left calf. The stated wounds were caused by fragments and the blast wave arising from the explosion of explosive ammunition. The cause of death was crushing of the brain and a wound in the forehead region accompanied by a comminuted open fracture of the frontal bone.

Volume 307, case file sheets 38-41.

According to the record dated 19.09.2023 of the examination of the body of serviceman of a military unit of the Ministry of Defence Mirzoyev Sanan Vugar oglu, numerous bodily injuries were found on the body.

Volume 12, case file sheets 72-73.

Mirzayeva Parvin Zakhir gizi, who was recognised as the lawful heir of the victim Mirzoyev Sanan Vugar oglu and questioned, stated in her testimony that her son Sanan Mirzoyev had been performing compulsory active military service in a military unit of the Ministry of Defence since January 2023, and on 19.09.2023 she received a telephone call and was informed that her son had been killed.

Volume 33, case file sheets 198-200.

According to forensic medical examination opinion No. 13 dated 20.09.2023, the bodily injuries on the body of Mirzoyev Sanan Vugar oglu were: acute blood loss; fracture of the left IX rib; left-sided haemopneumothorax (accumulation of blood and free fluid in the thoracic cavity); penetrating wound of the chest penetrating into the thoracic cavity, with an entry opening located on the posterolateral surface of the left half of the chest in the projection of the XI rib along the posterior axillary line, and an exit opening located in the left half of the lower one-third of the neck, accompanied by injury to the organs of the thoracic cavity and neck; penetrating wound of the soft tissues of the left axilla, with entry and exit openings located on the outer surface of the lower one-third of the left forearm, accompanied by acute blood loss, characteristic of a shot from

[Page 831]

a firearm. The cause of death was traumatic-haemorrhagic shock which developed as a result of firearm bullet wounds.

Volume 307, case file sheets 34-37.

According to the record dated 19.09.2023 of the examination of the body of serviceman of a military unit of the Ministry of Defence Garayev Elmin Rafat oglu, numerous bodily injuries were found on the body.

Volume 12, case file sheets 81-82.

Garayeva Imarat Jumshud gizi, questioned as the lawful heir of the victim Garayev Elmin Rafat oglu, stated in her testimony that her son Emin Garayev had been an over-term active serviceman of a military unit of the Ministry of Defence since 2014. On 21.09.2023 she received information that her son had been killed as a result of shelling carried out by unlawful armed formations of Armenia during combat operations in the direction of the Aghdam District.

Volume 50, case file sheets 153-155.

According to forensic medical examination opinion No. 09 dated 20.09.2023, the bodily injuries on the body of Garayev Elmin Rafat oglu were: acute blood loss; left-sided haemopneumothorax (accumulation of blood and free air mass in the thoracic cavity); multiple injuries to the organs of the thoracic cavity and a blind wound of the left axillary region penetrating into the thoracic cavity, accompanied by subcutaneous haemorrhage of the left half of the chest; blind wound of the facial region accompanied by acute blood loss, multiple fractures of the teeth of the lower jaw and crushing of the lower lip; blind wound of the submandibular region penetrating into the oral cavity and accompanied by acute blood loss; blind wounds of the outer surface of the left forearm joint region, outer surface of the middle one-third of the left forearm, posterior surface of the left forearm, left axillary region, left buttock, outer surface of the upper one-third of the left thigh, left popliteal region and soft tissues of the posterolateral surface of the left calf; abrasion on the dorsal surface of the left hand. These are characterised by the effect of a blast wave formed upon the explosion of a firearm projectile and secondary fragments from a primary and blunt mechanism. The cause of his death was traumatic-haemorrhagic shock which developed as a result of the injuries sustained by him from the explosion of a firearm projectile.

Volume 307, case file sheets 17-21.**[Page 832]**

According to the record dated 19.09.2023 of the examination of the body of serviceman of a military unit of the Ministry of Defence Huseynzade Mirmusa Vugar oglu, numerous bodily injuries were found on the body.

Volume 12, case file sheets 89-90.

Huseynov Vugar Mirverdi oglu, who was recognised as the lawful heir of the victim Huseynzade Mirmusa Vugar oglu and questioned, stated in his testimony that his son Mirmusa Huseynzade had continued military service on an over-term basis in a military unit of the Ministry of Defence and was killed on 20.09.2023 in fighting in the Aghdam direction.

Volume 58, case file sheets 120-122.

According to forensic medical examination opinion No. 11 dated 20.09.2023, the bodily injuries on the body of Huseynzade Mirmusa Vugar oglu were: multiple displaced open fractures of the left femur, left patella and left tibia, causing acute blood loss; traumatic

disruption of the left lower limb at the level of the upper one-third of the calf, accompanied by injury to the major vessels of the left lower limb at the level of the upper one-third of the calf; multiple superficial wounds of the anterior surface of the middle one-third of the right forearm and the anterior-inner surface of the right thigh. These are characterised by the effect of a blast wave formed upon the explosion of a firearm projectile and secondary fragments from a primary and blunt mechanism. The cause of his death was traumatic-haemorrhagic shock which developed as a result of the injuries sustained by him from the explosion of a firearm projectile.

Volume 307, case file sheets 26-29.

According to the record dated 19.09.2023 of the examination of the body of serviceman of a military unit of the Ministry of Defence Mammadov Royal Asif oglu, bodily injuries were found on the body.

Volume 12, case file sheets 98-99.

Mammadov Khyal Asif oglu, who was recognised as the lawful heir of the victim Mammadov Royal Asif oglu and questioned, stated in his testimony that his brother Royal Mammadov had served on an over-term basis in a military unit of the Ministry of Defence in August 2020, and on 19.09.2023 he learned that his brother had been killed.

Volume 46, case file sheets 55-58.

[Page 833]

According to forensic medical examination opinion No. 16 dated 20.09.2023, the following injuries were found on the body of Mammadov Royal Asif oglu: crushing of the brain and left eyeball; injuries to the cranial cavity and soft tissues accompanied by comminuted, open, defective fractures of the skull bones; penetrating wounds of the right femur with comminuted open defective fractures of the femur; penetrating wounds of the right forearm with injuries to the soft tissues. The stated injuries were caused by projectiles (bullets) as a result of no fewer than three shots from a firearm. The cause of death was crushing of the brain and a wound penetrating into the cranial cavity accompanied by comminuted, open, defective fractures of the skull bones.

Volume 307, case file sheets 46-49.

According to the record dated 19.09.2023 of the examination of the body of serviceman of a military unit of the Ministry of Defence Khalilli Magomed Ilgar oglu, bodily injuries were found on the body.

Volume 12, case file sheets 106-107.

Khalilov Ilgar Veli oglu, who was recognised as the lawful heir of the victim Khalilli Magomed Ilgar oglu and questioned, stated in his testimony that since October 2022 his son Magomed Khalilli had been performing compulsory active military service in a military unit of the Ministry; on 20.09.2023 he received a telephone call and was informed that his son had been killed in the Aghdara direction.

Volume 33, case file sheets 215-217.

Volume 36, case file sheets 27-30.

According to forensic medical examination opinion No. 15 dated 20.09.2023, the bodily injuries on the body of Khalilli Muhammed Ilgar oglu were as follows: comminuted, displaced, open fractures of the frontal, parietal and occipital bones; penetrating wound of the head penetrating into the cranial cavity, with an entry opening in the right occipital region and an exit opening in the left forehead, accompanied by diffuse injury to the brain tissue. This is characteristic of a shot from a firearm and, according to severity, relates to signs of injuries seriously impairing the health of living persons and resulting in death. The cause of death was

[Page 834]

diffuse injury to the brain tissue as a result of a penetrating firearm wound of the head.

Volume 307, case file sheets 42-45.

According to the record dated 19.09.2023, examination of the body of serviceman of a military unit of the Ministry of Defence Mammadov Tural Suleyman oglu revealed bodily injuries on the body.

Volume 12, case file sheets 116-117.

Mammadov Abbas Suleyman oglu, who was recognised as the lawful heir of the victim Mammadov Tural Suleyman oglu and questioned, stated in his testimony that his brother Tural Mammadov had served on an over-term basis in a military unit of the Ministry of Defence and was killed in fighting in the Aghdam direction on 19-20 September 2023.

Volume 58, case file sheets 166-168.

Volume 60, case file sheets 154-156.

According to forensic medical examination opinion No. 17 dated 20.09.2023, the following bodily injuries were found on the body of Mammadov Tural Suleyman oglu: injury to the organs of the thoracic cavity on the outer surface of the right shoulder joint; penetrating wound of the thoracic cavity accompanied by open haemopneumothorax. The stated wound arose as a result of impact by a projectile (bullet) fired from a firearm. The cause of death was injury to the organs of the thoracic cavity on the outer surface of the right shoulder joint and acute blood loss as a result of the wound piercing the thoracic cavity, accompanied by open haemopneumothorax.

Volume 307, case file sheets 50-53.

According to the record dated 20.09.2023 of the examination of an unidentified body conditionally designated by the number “1”, in the occipital region of the body there were confluent wounds measuring 3 x 0.7 centimetres and 5 x 0.7 centimetres, with a distance of 2 centimetres between them; at the base there was a single bleeding puncture wound with fragments of the occipital bone broken off and scattered brain tissue, as well as other injuries.

Volume 12, case file sheets 124-125.

[Page 835]

Since it was presumed that the unidentified body designated by the number “1” belonged to Gafarov Savalan Isfandiyar oglu, a serviceman of military unit No. 130 of the Ministry of Defence, on the basis of the record dated 20.09.2023 the body was handed over to his father, Gafarov Isfandiyar Nuraddin oglu, for identification, and he confirmed that it belonged to Savalan Gafarov.

Volume 12, case file sheets 130-131.

Gafarov Isfandiyar Nuraddin oglu, who was recognised as the lawful heir of the victim Gafarov Savalan Isfandiyar oglu and questioned, stated in his testimony that since July 2022 his son Savalan Gafarov had been performing compulsory active military service in a military unit of the Ministry of Defence. On 20.09.2023 he received a telephone call and was informed that his son had been killed in the Askeran direction.

Volume 33, case file sheets 239-241.

According to forensic medical examination opinion No. 19 dated 20.09.2023, the following bodily injuries were found on the body of Gafarov Savalan Isfandiyar oglu: crushing of the head and brain in the occipital region; penetrating wound of the cranial cavity accompanied by a shrapnel, defective, open fracture of the occipital bone; multiple linear scratches on the left half of the face. The through-and-through wound of the cranial cavity arose as a result of impact by a projectile (bullet) fired from a firearm. The cause of death was crushing of the brain as a result of a wound piercing the cranial cavity.

Volume 307, case file sheets 58-61.

According to the record dated 20.09.2023, examination of the body of serviceman of a military unit of the Ministry of Defence Aliyev Sarkhan Rabil oglu revealed numerous bodily injuries on the lower extremities of the body.

Volume 12, case file sheets 132-133.

Aliyev Rabil Alif oglu, who was recognised as the lawful heir of the victim Aliyev Sarkhan Rabil oglu and questioned, stated in his testimony that his son Sarkhan Aliyev had continued serving on an over-term basis in a military unit of the Ministry of Defence. On 19.09.2023 he was wounded and killed as a result of a sniper bullet fired by the Armed Forces of Armenia during combat operations in the direction of the village of Abdal.

Volume 58, case file sheets 81-83.

[Page 836]

According to forensic medical examination opinion No. 18 dated 20.09.2023, the following bodily injuries were found on the body of Aliyev Sarkhan Rabil oglu: injuries to the soft tissues; penetrating wounds of both thighs with multiple open defective fractures of the right and left femurs. The stated injuries arose as a result of impact by projectiles (bullets) from two shots fired from a firearm. The cause of death was traumatic-haemorrhagic shock

resulting from injury to the soft tissues and multiple open defective fractures of the right and left femurs.

Volume 307, case file sheets 54-55.

According to the record dated 20.09.2023, examination of the body of serviceman of a military unit of the Ministry of Defence Balabeyli Eljan Vasif oglu revealed numerous bodily injuries on his body.

Volume 12, case file sheets 140-141.

Balayev Vasif Ayyub oglu, who was recognised as the lawful heir of the victim Balabeyli Eljan Vasif oglu and questioned, stated in his testimony that his son Eljan Balabeyli had served on an over-term basis in a military unit of the Ministry of Defence and was killed on 19-20 September 2023 in fighting in the Aghdara direction.

Volume 58, case file sheets 156-158.

Volume 60, case file sheets 144-146.

According to forensic medical examination opinion No. 20 dated 20.09.2023, the following bodily injuries were found on the body of Balabeyli Eljan Vasif oglu: crushing of the brain; blind wound penetrating into the cranial cavity accompanied by comminuted, open, defective fractures of the skull and bones of its base; haemorrhage of the left upper eyelid and abrasion on the anterior-inner surface of the right thigh. The blind wound penetrating into the cranial cavity was caused by a projectile (bullet) fired from a firearm, while the other injuries were caused by the effect of hard blunt objects. The blind wound penetrating into the cranial cavity is classified as serious harm to health because it results in death. The cause of death was crushing of the brain and a blind wound penetrating into the cranial cavity accompanied by comminuted open defective fractures of the skull and bones of its base.

Volume 307, case file sheets 62-65.

[Page 837]

According to the record dated 20.09.2023 of the examination of the body of serviceman of a military unit of the Ministry of Defence Nasibov Agshin Vasif oglu, numerous bodily injuries were found on his body.

Volume 12, case file sheets 148-149.

Nasibov Vasif Javanshir oglu, who was recognised as the lawful heir of the victim Nasibov Agshin Vasif oglu and questioned, stated in his testimony that his son had served in a military unit of the Ministry of Defence since 2022 and was killed on 19-20 September 2023 in fighting in the Aghdara direction.

Volume 356, case file sheets 117-120.

According to forensic medical examination opinion No. 21 dated 20.09.2023, the bodily injuries on the body of Nasibov Agshin Vasif oglu were as follows: displaced closed fractures of the left IV, V and VI ribs; haemorrhage at the base of the lung; injury to the left lung; left-

sided closed haemopneumothorax (accumulation of free blood mass and air in the thoracic cavity); closed blunt injury of the chest and abdomen accompanied by diffuse haemorrhage of the soft tissues on the posterior surface of the chest; abrasions of the temporoparietal region, left scapula and posterior surface of the chest. These are characteristic of injuries arising from a blunt mechanism and the effect of a hard blunt object. The cause of his death was asphyxia as a result of compression of the chest due to the injuries sustained - displaced closed fractures of the left IV, V and VI ribs, haemorrhage at the base of the lung, injury to the left lung, left-sided closed haemopneumothorax (accumulation of free blood mass and air in the thoracic cavity), and closed blunt injury of the chest and abdomen accompanied by diffuse haemorrhage of the soft tissues on the posterior surface of the chest.

Volume 307, case file sheets 66-70.

According to the record dated 20.09.2023 of the examination of the body of serviceman of a military unit of the Ministry of Defence Teymurov Rasul Yusif oglu, numerous bodily injuries were found on his body.

Volume 12, case file sheets 169-170.

Teymurov Yusif Velish oglu, who was recognised as the lawful heir of the victim Teymurov Rasul Yusif oglu and questioned, stated in his testimony that his son

[Page 838]

Rasul Teymurov had voluntarily served on an over-term basis in a military unit of the Ministry of Defence and was killed on 19.09.2023 by a bullet fired by Armenian armed formations during fighting in the direction of the Aghdam District.

Volume 58, case file sheets 45-47.

According to forensic medical examination opinion No. 22 dated 20.09.2023, the bodily injuries on the body of Teymurov Rasul Yusif oglu were: acute blood loss; comminuted, displaced, open fractures of the jaw bones and the III cervical vertebra; through-and-through wound of the head and neck penetrating into the oral cavity and spinal canal, with an entry opening in the region of the left cheek and an exit opening in the upper one-third of the posterior surface of the neck, in the projection of the III cervical vertebra along the midline, accompanied by injury to the cervical spinal cord and organs of the neck; multiple abrasions of the root of the nose, dorsal surface of the distal phalanx of the I finger of the left hand and the region of the left knee. They are life-threatening and, according to their degree, relate to signs of injuries causing serious harm to the health of living persons as a whole and resulting in death. Among the stated injuries, the multiple abrasions of the root of the nose, dorsal surface of the distal phalanx of the I finger of the left hand and region of the left knee were caused by a blunt mechanism, namely impact by a hard blunt object, while the other injuries are characteristic of injuries caused by a firearm. Yellowish abrasions resembling parchment paper were found in both gluteal regions, the largest measuring 3 x 1.7 cm, of indeterminate shape and irregular contours, with a dry surface situated somewhat below the level of the surrounding skin. The said abrasion is characteristic of formation by a blunt mechanism as a

result of friction of the injured area against a hard blunt object. The cause of death was injury to the cervical spinal cord as a result of a penetrating wound of the head and neck.

Volume 307, case file sheets 71-74.

According to the record dated 20.09.2023 of the examination of the body of serviceman of a military unit of the Ministry of Defence Aliyev Shahriyar Bakhtiyar oglu, numerous bodily injuries were found on his body.

Volume 12, case file sheets 177-178.

Aliyev Bakhtiyar Gurbanali oglu, who was recognised as the lawful heir of the victim Aliyev Shahriyar Bakhtiyar oglu, was questioned and stated in his testimony

[Page 839]

that his son Shahriyar Aliyev had served on an over-term basis in a military unit of the Ministry of Defence since July 2022, and on 20.09.2023 he received a telephone call and was told that his son had been killed in the Aghdara direction.

Volume 33, case file sheets 191-193.

According to forensic medical examination opinion No. 25 dated 20.09.2023, the following bodily injuries were found on the body of Aliyev Shahriyar Bakhtiyar oglu: multiple wounds with extensive tissue defects penetrating into the abdominal cavity and accompanied by injuries to the organs of the right side of the back, face, neck, right-anterior part of the chest, right anterior abdominal region, right posterior right-lateral surface of the chest, projection of the right elbow joint, anterior part of the right thigh, outer anterior part of the left thigh and anterior outer surface of the right calf. The stated wounds were caused by fragments and the blast wave arising from the explosion of explosive ammunition. The cause of his death was acute blood loss caused as a result of the wounds sustained by him (multiple wounds with extensive tissue defects penetrating into the abdominal cavity and accompanied by injuries to the organs of the right side of the back, face, neck, right-anterior part of the chest, right anterior abdominal region, right posterior right-lateral surface of the chest, projection of the right elbow joint, anterior part of the right thigh, outer anterior part of the left thigh and anterior outer surface of the right calf).

Volume 307, case file sheets 83-86.

According to the record dated 20.09.2023, examination of the body of serviceman of a military unit of the Ministry of Defence Gasimly Nijat Elshan oglu revealed bodily injuries of various degrees of severity.

Volume 12, case file sheets 185-186.

Gasimov Elshan Ismail oglu, who was recognised as the lawful heir of the victim Gasimly Nijat Elshan oglu and questioned, stated in his testimony that since June 2022 his son had been performing compulsory military service in a military unit of the Ministry of Defence

and on 19.09.2023 he was killed in the direction of the Aghdara District as a result of a sniper bullet fired by the Armed Forces of Armenia striking him in the head.

Volume 356, case file sheets 93-96.

[Page 840]

According to forensic medical examination opinion No. 23 dated 20.09.2023, the bodily injuries on the body of Gasimly Nijat Elshan oglu were as follows: acute blood loss; blind wound of the posterior surface of the upper one-third of the left shin accompanied by multiple displaced open fractures of the tibia and fibula and injury to the major vessels of the left calf at the level of the upper one-third of the shin; abrasions on the right cheekbone, left shoulder and both lumbar regions. These are characterised by the effect of a blast wave formed upon the explosion of a firearm projectile and secondary fragments from a primary and blunt mechanism. The cause of death was traumatic-haemorrhagic shock which developed as a result of the blind wound of the posterior surface of the upper third of the left calf sustained by him as a result of the explosion of a firearm projectile.

Volume 307, case file sheets 75-78.

According to the record dated 20.09.2023, examination of the body of serviceman of a military unit of the Ministry of Defence Samedov Elchin Akif oglu revealed bodily injuries of varying severity on his body.

Volume 12, case file sheets 193-194.

Samedov Akif Amirshah oglu, who was recognised as the lawful heir of the victim Samedov Elchin Akif oglu and questioned, stated in his testimony that his son Elchin Samedov had continued military service on an over-term basis in a military unit of the Ministry of Defence and was killed as a result of shelling by the Armed Forces of Armenia on 19.09.2023 during fighting in the direction of the Aghdara District.

Volume 58, case file sheets 226-230.

According to forensic medical examination opinion No. 24 dated 20.09.2023, the following bodily injuries were found on the body of Samedov Elchin Akif oglu: multiple wounds with large tissue defects on the parietal part of the head, upper lip, face, neck, chest, abdomen, anterior surface of the left arm, anterior and posterior surfaces of the left arm, posterior surface of the left arm, outer surface of the right arm, right hand, and inner surface of the lower one-third of the right thigh; crushing of the brain; multiple open fractures of the skull, facial skeleton and left femur; traumatic amputations of the IV and V fingers of the left hand together with the metacarpal bones, distal phalanges of the I, II and III fingers, and II, III and IV fingers of the right hand at the level of the metacarpal bones. The stated wounds were caused by fragments and the blast wave arising from the explosion of explosive

[Page 841]

ammunition. The cause of his death was acute blood loss caused as a result of the injuries sustained by him (multiple wounds with large tissue defects on the parietal part of the head,

upper lip, face, neck, chest, abdomen, anterior surface of the left arm, anterior and posterior surfaces of the left arm, posterior surface of the left arm, outer surface of the right arm, right hand, inner surface of the lower one-third of the right thigh, crushing of the brain, multiple open fractures of the skull, facial skeleton and left femur, traumatic amputations of the IV and V fingers of the left hand together with the metacarpal bones, distal phalanges of the I, II and III fingers, and II, III and IV fingers of the right hand at the level of the metacarpal bones).

Volume 307, case file sheets 79-82.

According to the record dated 20.09.2023 of the examination of the body of serviceman of a military unit of the Ministry of Defence Agjabekov Tural Tabriz oglu, the lower one-third of the left shin of the body was deformed, pathological movement and crepitation of bone fragments upon movement were present, and numerous injuries were found on the body.

Volume 12, case file sheets 201-202.

Aghjabekov Oktay Tabriz oglu, who was recognised as the lawful heir of the victim Agjabekov Tural Tabriz oglu, was questioned and stated in his testimony that his son Tural Agjabekov had continued military service on an over-term basis in a military unit of the Ministry of Defence and was killed on 20.09.2023 in fighting in the Aghdam-Aghdara-Papravand direction.

Volume 58, case file sheets 239-243.

According to forensic medical examination opinion No. 26 dated 20.09.2023, the following bodily injuries were found on the body of Agjabekov Tural Tabriz oglu: wounds accompanied by a wide defect of the subcutaneous soft and muscular tissue covering the posterior and inner surface of the right calf; wounds in the left axillary region, on the posterior surface of the left hand joint, in the left scapular region, on the inner surface of the left upper arm and forearm, on the outer surface of the left hip joint, and on the anterior and inner surfaces of the left calf region; comminuted, defective, open fractures of the left thigh and shin; thermal burn wounds of degree I-II on areas encompassing the forehead and face, the palm of the right hand, the left upper extremity and the anterior surface of the right calf. The stated injuries were caused by fragments, fire and the blast wave caused by the explosion of explosive ammunition.

[Page 842]

The cause of his death was traumatic-haemorrhagic shock arising as a result of the injuries sustained (shrapnel wounds accompanied by an extensive defect of numerous subcutaneous soft and muscular tissues of the body, comminuted, defective, open fractures of the left shin and shin of degree I-II in areas encompassing the forehead and face, thermal burns on the right of the paw of the hand, the left upper extremity and the anterior surface of the right calf).

Volume 307, case file sheets 87-90.

According to the record dated 20.09.2023, examination of the body of serviceman of a military unit of the Ministry of Defence Kerimov Elnur Adil oglu revealed numerous lacerated wounds accompanied by large defects of the subcutaneous soft and muscular tissue with visible fragments of broken bones.

Volume 12, case file sheets 209-210.

According to forensic medical examination opinion No. 27 dated 20.09.2023, the following bodily injuries were found on the body of Kerimov Elnur Adil oglu: abrasions covering the anterior and lateral surfaces of the forehead, face and neck; multiple lacerated and contused wounds accompanied by large defects of the subcutaneous soft and muscular tissue on the posterior outer-inner surface of the middle one-third of the left forearm, on the posterior surface of the left wrist joint, on the anterior and outer surfaces of the left thigh, on the inner surface of the right thigh, in the region of the right knee and on the posterior surface of the right calf; shrapnel open fractures of the left femur and right tibia. The stated wounds were caused by fragments and the blast wave arising from the explosion of explosive ammunition. The cause of his death was traumatic-haemorrhagic shock caused as a result of the injuries sustained by him (multiple shrapnel wounds; shrapnel, open fractures of the left femur and right shin, accompanied by large defects of numerous subcutaneous soft and muscular tissues of the body).

Volume 50, case file sheets 8-10.

Volume 307, case file sheets 91-94.

According to the record dated 20.09.2023, examination of the body of officer of a military unit of the Ministry of Defence Mehdizade Mirpasha Yagub oglu revealed numerous bodily injuries on his body.

Volume 12, case file sheets 217-218.

[Page 843]

Mehdiyev Yagub Hasan oglu, who was recognised as the lawful heir of the victim Mehdizade Mirpasha Yagub oglu, was questioned and stated in his testimony that his son Mirpasha Mehdizade had served on an over-term basis in a military unit of the Ministry of Defence, and on 20.09.2023 a serviceman telephoned him and informed him that his son had been killed.

Volume 46, case file sheets 32-34.

According to forensic medical expert opinion No. 32 dated 20.09.2023, the following bodily injuries were found on the body of Mehdizade Mirpasha Yagub oglu: comminuted open fracture of the right femur; crushed lacerated wounds with large tissue defects on the posterior surfaces of both thighs, the right gluteal region and the left calf region; superficial wounds of the forehead, left upper eyelid, anterior projection of the nasal septum and left ala of the nose. The stated wounds were caused by fragments and the blast wave arising from the explosion of explosive ammunition. The cause of death was acute blood loss in connection

with the injuries sustained (multiple open fracture of the right femur, lacerated wounds with large tissue defects on the posterior surfaces of both thighs, right and left shin).

Volume 307, case file sheets 108-111.

According to the record dated 20.09.2023 of the examination of the body of serviceman of a military unit of the Ministry of Defence Mammadaliyev Niyazi Samir oglu, numerous bodily injuries were found on his body.

Volume 12, case file sheets 226-227.

Mammadaliyev Shadman Samir oglu, who was recognised as the lawful heir of the victim Mammadaliyev Niyazi Samir oglu, was questioned and stated in his testimony that since April 2022 his brother Niyazi Mammadaliyev had voluntarily served on an over-term basis in a military unit of the Navy of the Ministry of Defence and was killed on 20.09.2023 in fighting in the direction of the Aghdam-Aghdara-Syrkhavand districts.

Volume 57, case file sheets 127-131.

According to forensic medical examination opinion No. 28 dated 20.09.2023, the following bodily injuries were present on the body of Mammadaliyev Niyazi Samir oglu: crushing of the brain; injury to the organs of the thoracic cavity;

[Page 844]

open haemopneumothorax; defective fracture of the frontal bone extending to the base of the skull; wounds accompanied by multiple defects of the subcutaneous soft and muscular tissue on the posterior inner surface of the lower one-third of the right shin, in the region of the right thigh, on the outer surface of the middle one-third of the right thigh, on the anterior surface of the lower one-third of the left calf and in the right gluteal region. The wounds of the forehead and posterior surface of the right half of the chest were caused by two shots from a firearm, while the other injuries were caused by fragments and the effect of the blast wave caused by the explosion of an explosive weapon. The cause of his death was traumatic-haemorrhagic shock arising as a result of the injuries sustained (blind firearm wounds penetrating into the cranial cavity and chest, crushing of the brain, injuries to the organs of the thoracic cavity, open haemopneumothorax, defective fracture of the frontal bone extending to the base of the skull, shrapnel wounds accompanied by multiple defects of the subcutaneous soft and muscular tissue of the body).

Volume 307, case file sheets 95-98.

According to the record dated 20.09.2023 of the examination of the body of serviceman of a military unit of the Ministry of Defence Ibrahimli Elchin Sadyg oglu, his body was deformed, the upper part of the body was connected to the lower part by multiple flaps, and there were numerous injuries on the body.

Volume 12, case file sheets 234-235.

Ibrahimov Fakhreddin Maharram oglu, who was recognised as the lawful heir of the victim Ibrahimli Elchin Sadyg oglu, was questioned and stated in his testimony that his grandson Elchin Ibrahimli had served on an over-term basis in a military unit of the Ministry of Defence and was killed on 19.09.2023 in fighting in the direction of the Aghdara District.

Volume 58, case file sheets 195-197.

Volume 60, case file sheets 183-185.

According to forensic medical examination opinion No. 29 dated 20.09.2023, the following bodily injuries were found on the body of Ibrahimli Elchin Sadyg oglu: open injuries to the organs of the thoracic and abdominal cavities incompatible with life; crushed-lacerated wounds with tissue defects over a wide area from the lower one-third of the left forearm to the hand, the chest region and anterior surface of the abdomen, accompanied by multiple shrapnel, defective,

[Page 845]

open fractures of the ribs; multiple superficial wounds of the anterior surfaces of both the lower and upper extremities; abrasions in the region of the left cheekbone and left upper eyelid; shrapnel open fractures of the left forearm and metatarsal bone. The stated wounds were caused by fragments and the blast wave arising from the explosion of explosive ammunition. The immediate cause of death was traumatic-haemorrhagic shock due to open injuries to the organs of the thoracic and abdominal cavities incompatible with life.

Volume 307, case file sheets 99-102.

According to the record dated 20.09.2023 of the examination of the body of serviceman of a military unit of the Ministry of Defence Bilalov Sarkhan Ismat oglu, the body, consisting of three parts, was deformed and charred.

Volume 12, case file sheets 242-243.

According to forensic medical examination opinion No. 30 dated 20.09.2023, the following bodily injuries were found on the body of Bilalov Sarkhan Ismat oglu: complete charring of more than 90 per cent of the parts of the body marked with the numbers 1, 2 and 3, in one hand bag and separately in an opened condition, as well as inside a white polyethylene bag. The stated injuries are classified as serious harm to health, characteristic of prolonged exposure to the secondary fire zone due to the effect of the high temperature of general damaging factors and, most importantly, explosive gases upon the explosion of a firearm with an explosive substance; according to severity, they are classified as causing serious harm to health resulting in death. The cause of death was burn shock which developed as a result of fourth-degree thermal burns to more than 90 per cent of the body.

Volume 48, case file sheets 237-240.

Volume 325, case file sheets 49-52.

According to the record dated 20.09.2023 of the examination of the body of officer of a military unit of the Ministry of Defence Agayev Jeyhun Etibar oglu, his body was burned and charred and had become unrecognisable.

Volume 16, case file sheets 1-4.

According to the record dated 22.09.2023 of the examination of the remains of the body of Agayev Jeyhun Etibar oglu, all bone parts contained

[Page 846]

in the bag were taken for DNA examination, since the parts of the body consisted of bone parts subjected to high-temperature pressure.

Volume 16, case file sheets 9-11.

Agayev Etibar Magomed oglu, recognised as the lawful heir of the questioned victim Agayev Jeyhun Etibar oglu, was questioned and stated in his testimony that his son Jeyhun Agayev had served on an over-term basis in a military unit of the Ministry of Defence. On 19.09.2023 he was killed as a result of the explosion of a shell fired by the Armed Forces of Armenia using unmanned aerial vehicles.

Volume 58, case file sheets 113-115.

According to forensic medical examination opinion No. 31 dated 20.09.2023, the bodily injuries on the body of Agayev Jeyhun Etibar oglu were: acute blood loss; multiple fractures of the ribs on the right and left; multiple injuries to the organs of the thoracic cavity; blind wounds of the left anterior and right anterior chest wall penetrating into the thoracic cavity and accompanied by traumatic haemopneumothorax (accumulation of blood and free fluid in the thoracic cavity); traumatic disruption of both upper extremities at the level of the upper one-third of the forearm; traumatic disruption of both lower extremities at the level of the middle one-third of the thigh; thermal burns over the entire surface of the body. These are characteristic of the effects of flame, blast wave, and primary and secondary fragments of a blunt mechanism formed upon the explosion of a firearm projectile. In general, depending on severity, they relate to signs of injuries causing serious harm to the health of living persons and resulting in death. The cause of death was traumatic-haemorrhagic shock which developed as a result of injuries sustained from the explosion of a firearm projectile.

Volume 307, case file sheets 103-107.

According to the record dated 20.09.2023 of the examination of the body of serviceman of a military unit of the Ministry of Defence Shahriyarov Vusal Tabiyat oglu, numerous bodily injuries were found on his body.

Volume 16, case file sheets 12-13.

Shahriyarov Tabiyat Hamza oglu, who was recognised as the lawful heir of the victim Shahriyarov Vusal Tabiyat oglu, was questioned and stated in his testimony that his son Vusal

Shahriyarov had served voluntarily on an over-term basis in a military unit of the Ministry of Defence,

[Page 847]

and on 20.09.2023 his son was wounded during combat operations in the Khojaly direction and died.

Volume 57, case file sheets 24-28.

According to forensic medical examination opinion No. 34 dated 20.09.2023, the following bodily injuries were found on the body of Shahriyarov Vusal Tabiyat oglu: acute blood loss; left-sided haemopneumothorax (accumulation of free blood and air ash in the thoracic cavity); and a blind wound of the anterior surface of the left humerus penetrating into the thoracic cavity and accompanied by injury to the organs of the thoracic cavity; multiple abrasions on the right forehead, right cheekbone, posterior surfaces of both elbow joints, anterior surface of the left knee joint, posterior surfaces of the right and left halves of the chest, and the back region. Of the stated injuries, the multiple abrasions on the right side of the forehead, right cheekbone, posterior surfaces of both elbow joints, anterior surface of the left knee joint, posterior surfaces of the right and left halves of the chest and lumbar region are characteristic of injuries sustained as a result of a blunt mechanism and a hard blunt object, while the remaining injuries (blind wound of the anterior surface of the left shoulder joint penetrating into the thoracic cavity) are characteristic of the effect of projectiles (bullets) from a firearm. The cause of death was traumatic-haemorrhagic shock which developed as a result of the blind wound of the anterior surface of the left shoulder joint penetrating into the thoracic cavity.

Volume 307, case file sheets 116-119.

According to the record dated 20.09.2023, examination of the body of Alekperov Ramal Elnur oglu, an officer of a military unit of the Ministry of Defence, revealed in the occipital region of the body one wound measuring 1.8 x 0.5 cm, with relatively even margins and blunt angles, penetrating into the cranial cavity, at the bottom of which a broken fragment of the occipital bone and crushed brain tissue were visible.

Volume 16, case file sheets 20-21.

Alekberova Leyla Zahid gizi, who was recognised as the lawful heir of the victim Alekperov Ramal Elnur oglu and questioned, stated in her testimony that her son Alekberov Ramal Elnur oglu had been on active military service, and on 20.09.2023 she received a telephone call and was told that her son had been killed in the direction of the Aghdara District.

Volume 33, case file sheets 164-166.

[Page 848]

According to forensic medical examination opinion No. 33 dated 20.09.2023, the following bodily injuries were present on the body of Alekberov Ramal Elnur oglu: penetrating wound of the occipital region, crushing of the brain, open shrapnel fracture of the occipital bone. The

stated wound was caused by fragments and the blast wave arising as a result of the explosion of an explosive device and is classified as causing serious harm to health because it results in death. The cause of his death was crushing of the brain as a result of a shrapnel wound penetrating into the occipital region of the cranial cavity.

Volume 307, case file sheets 112-115.

According to the record dated 20.09.2023 of the examination of a body conditionally designated as “Unknown 2”, the surface of the body was burned and charred, and the right upper extremity of the body was traumatically amputated at the level of the upper one-third of the upper arm.

Volume 16, case file sheets 28-29.

Seidova Sahila Namig gizi, who was recognised as the lawful heir of the victim Bayramov Tapdyg Namig oglu and questioned, stated in her testimony that her brother Tapdyg Bayramov had served voluntarily on an over-term basis in a military unit of the Ministry of Defence; on 19.09.2023 he was wounded during combat operations in the direction of the Aghdam-Aghdara-Paprayand districts and later died after the vehicle struck a mine and exploded while he was being evacuated by a medical assistance vehicle.

Volume 57, case file sheets 140-144.

According to forensic medical examination opinion No. 36 dated 20.09.2023, the following bodily injuries were found on the body of Bayramov Tapdyg Namig oglu: traumatic amputations of the right upper extremity at the level of the shoulder joint, of the left upper extremity at the level of the hip joint, of the right lower extremity at the level of the hip joint, and of the left lower extremity at the level of the knee joint; fourth-degree thermal burns of the head, neck, shoulder and left upper extremity; wounds on the anterior abdominal wall opening into the abdominal cavity; and crushed wounds on the glans of the genital organ and the testicles. The stated injuries were caused by fragments, fire and the blast wave caused by the explosion of explosive ammunition. The cause of his death was traumatic-

[Page 849]

haemorrhagic shock arising as a result of the injuries sustained (traumatic amputations of both the upper and lower extremities, fourth-degree thermal burn of the head, neck, shoulder and left upper extremity, wounds on the anterior abdominal wall opening into the abdominal cavity, and crushed wounds on the glans of the genital organ and the testicles).

Volume 307, case file sheets 124-126.

According to the record dated 20.09.2023 of the examination of a body provisionally designated as “Unknown 3”, the right upper extremity of the body was amputated at the level of the shoulder joint, the left upper extremity at the level of the wrist joint, the right lower extremity at the level of the hip joint and the left lower extremity at the level of the knee joint. The region of the head, neck, shoulder and left upper extremity of the body sustained fourth-degree thermal burns.

Volume 16, case file sheets 34-35.

Ahmedov Ilgar Mirza oglu, who was recognised as the lawful heir of the victim Ahmedov Vusal Ilgar oglu, was questioned and stated in his testimony that his son Vusal Ahmedov had been an over-term active serviceman of a military unit of the Ministry of Defence since 2021. On 19.09.2023 he received information from his son's fellow servicemen that his son had been killed by multiple shrapnel wounds as a result of fire opened by unlawful Armenian armed formations during fighting in the territory of the Aghdam District.

Volume 51, case file sheets 183-185.

According to forensic medical examination opinion No. 35 dated 20.09.2023, the bodily injuries on the body of Ahmedov Vusal Ilgar oglu were: acute blood loss; fractures of the left V-XI ribs; an open wound of the left anterior surface of the chest accompanied by injury to the left lung; acute blood loss; fractures of the right VIII-X ribs; an open wound of the right side of the chest accompanied by injury to the right lung and liver; an open wound of the left anterior abdominal wall accompanied by multiple injuries to the organs of the abdominal cavity; a blind wound of the lower third of the left calf accompanied by open fractures of the tibia and fibula; traumatic amputation of the upper one-third of the right forearm of the upper extremity; fourth-degree thermal burns of more than 90% of the body surface. These are characterised by the effect of flame formed upon the explosion of a firearm projectile, the blast wave, and secondary fragments from

[Page 850]

the principal and blunt mechanism. In general, they relate to signs of injuries causing serious harm to the health of living persons and resulting in death. The cause of his death was traumatic-haemorrhagic shock which developed as a result of injuries sustained by him from the explosion of a firearm projectile.

Volume 307, case file sheets 120-123.

According to the record dated 20.09.2023, examination of the body of officer of a military unit of the Ministry of Defence Jalilov David Raufovich established that the body was deformed and bore numerous bodily injuries.

Volume 16, case file sheets 43-44.

According to forensic medical examination opinion No. 37 dated 20.09.2023, examination of the body of Jalilov David Raufovich revealed the following bodily injuries: fractures of the bones of the cranial vault at a height of 5 centimetres above the forehead; open multifragmentary defective fractures of the base of the skull; absence of brain tissue in the cranial cavity; complete disintegration of the soft tissues of the chest, abdomen, right lateral surface, right thigh and thigh region, including the axillary region of the right upper extremity; amputation of the right upper extremity slightly above the elbow; amputation and absence of the palm of the right hand at the wrist joint, with only the first finger hanging from a section of skin; opening of the thoracic, abdominal and pelvic cavities and evisceration of organs as a result of large lacerated wounds of the right lateral surface of the chest and

abdominal cavity; complete disintegration of the right gluteal region, thigh region and lower third of the calf; presence of a skin-muscle defect; contamination of wounds with pieces of grass; a wound with fragments of broken bone scattered over the inner surface of the left foot slightly below the medial malleolus, with uneven margins and a metallic fragment measuring 1.2 x 0.8 centimetres inside the wound; presence of crushed-disintegrated and structureless-haemorrhagic brain tissue presented separately from the body. The stated injuries were caused by the combined effect of the general damaging factors of an exploding firearm, that is, multiple primary and additional fragments, the blast wave during the explosion, as well as explosive gases, and according to severity are classified as causing serious harm to health resulting in death. The cause of death was haemorrhagic-traumatic shock which developed as a result of a wound penetrating into the head, chest, abdomen and pelvic cavity and injury to the organs of those cavities.

Volume 325, case file sheets 60-63.

Page 851

According to the protocol dated 21.09.2023 on the examination of the body of serviceman of a military unit of the Ministry of Defense Salmanov Elchin Habil oglu, numerous bodily injuries were found on his body.

Volume 16, working sheet: 51-52.

Salmanov Habil Farman oglu, recognized as the legal heir of the victim Salmanov Elchin Habil oglu, was questioned and stated in his testimony that his son Elchin Salmanov had been serving on extended-term military service in a military unit of the Ministry of Defense since the spring of 2022. On 20.09.2023, he received a phone call and was informed that his son had died in the direction of the village of Malikli, Aghdam District.

Volume 33, working document: 182-185.

According to **forensic medical examination conclusion No. 38 dated 20.09.2023**, the following bodily injuries were found on the body of Salmanov Elchin Habil oglu: multiple comminuted, displaced, open fractures of the frontal bone, right temporal bone and occipital bone; a blind wound of the right frontotemporal region penetrating into the cranial cavity, accompanied by diffuse trauma to the brain tissue; a wound of the right auricle; an abrasion on the outer surface of the middle 1/3 of the left calf — characterized as resulting from the effects of a blast wave generated by the explosion of a firearm projectile, secondary fragments from the primary projectile, and a blunt mechanism; in terms of severity, they are classified as injuries causing serious harm to the health of living persons as a whole and leading to death. The cause of his death was diffuse trauma to the brain tissue as a result of a blind wound of the right frontal region penetrating into the cranial cavity, sustained in the explosion of a firearm projectile.

Volume 307, working sheet: 127-130.

According to the protocol dated 21.09.2023, during the examination of the body provisionally designated as “Unknown No. 4,” the skull of the body was deformed, and numerous bodily injuries were found on the body.

Volume 16, working sheet: 69-70.

Since it is presumed that the unknown body marked with the number “4” belongs to officer of military unit No. 701 of the Ministry of Defense Abbasov Mehdi Amrakh oglu, this body was presented for identification to his father Abbasov Amrakh Adoglan

Page 852

oglu on the basis of the protocol dated 21.09.2023, and he confirmed that the body belonged to Mehdi Abbasov.

Volume 16, working sheet: 75-76.

According to **forensic medical examination conclusion No. 41 dated 21.09.2023**, the following bodily injuries were found on the body of Abbasov Mehdi Amrakh oglu: deformation of the skull opening into the cranial cavity posteriorly; lacerated-crushed wounds with extensive tissue defects in the right scapular region, in the left scapular region, on the posterior surface of the right half of the chest, in the back region, in the right buttock region, extending from the right axillary region to the elbow joint and shoulder joint, on the right lateral surface of the abdomen, in the right inguinal region, extending from the upper 1/3 of the right thigh to the upper 1/3 of the right calf, in the right heel region, on the inner surface of the lower 1/3 of the left calf, on the left foot, on the outer surface of the palm of the right hand, and on the dorsal surfaces of the III and IV fingers of the left hand; traumatic amputation of the I finger of the left hand from the terminal phalanx; an extensive defective fracture of the bones of the skull and the right humerus, and a large defect of bone tissue extending from the upper 1/3 of the right thigh to the upper 1/3 of the lower leg; a large defect of the right calcaneus; pathological mobility of the lower third of the left calf bone. The said injuries were caused by fragments and a blast wave resulting from the explosion of an explosive device. The cause of death was traumatic-hemorrhagic shock associated with the injuries sustained (deformation of the skull, numerous shrapnel wounds with large defects of body tissues, numerous large defective, comminuted fractures of the skull and peripheral bones).

Volume 307, working sheet: 139-142.

According to the protocol dated 21.09.2023 on the examination of the body of serviceman of a military unit of the Ministry of Defense Guluzade Nihat Gasim oglu, both legs and calves of the body were deformed, and numerous bodily injuries were found.

Volume 16, working sheet: 77-78.

Guliyev Gasim Khudaverdi oglu, recognized as the legal heir of the victim Guluzade Nihat Gasim oglu, was questioned and stated in his testimony that his son Nihat Guluzade had been serving on extended-term military service in a military unit of the Ministry of Defense and had died on 19-20 September 2023 in fighting in the direction of Aghdara District.

Page 853

Volume 58, working sheet: 185-187.

Volume 60, working document: 173-175.

According to **forensic medical examination conclusion No. 42 dated 21.09.2023**, the following bodily injuries were found on the body of Guluzade Nihat Gasim oglu: multiple defective fractures of the ribs, accompanied by injuries to the organs of the thoracic and abdominal cavities; defects of bones and soft tissues on the right lateral surface of the chest, on the anterior surface of the right half of the abdomen, encompassing the area from the upper 1/3 of the right upper arm to the lower 1/3 of the right forearm; large wounds with tissue defects on the left arm, in the forearm region, on the right and left thighs, as well as on both calves; defective, comminuted, open fractures of both bones of the lower limbs. The said injuries were caused by fragments and a blast wave resulting from the explosion of explosive ammunition. The cause of his death was traumatic-hemorrhagic shock resulting from the injuries sustained (multiple defective fractures of the ribs, accompanied by injuries to the organs of the thoracic and abdominal cavities; defects of bones and soft tissues on the right lateral surface of the chest, on the anterior surface of the right half of the abdomen, encompassing the area from the upper 1/3 of the right upper arm to the lower 1/3 of the right forearm; large wounds with tissue defects on the left arm, in the forearm region, on the right and left thighs, as well as on both calves; defective, comminuted, open fractures of both bones of the lower limbs).

Volume 307, working sheet: 143-146.

According to the protocol dated 21.09.2023 on the examination of the body of serviceman of a military unit of the Ministry of Defense Amirov Tural Matlab oglu, numerous bodily injuries were found on his body.

Volume 16, working sheet: 85-86.

Amirova Valida Hamdan gizi, recognized as the legal heir of the victim Amirov Tural Matlab oglu, was questioned and stated in her testimony that her son Tural Amirov had been serving on extended-term military service in a military unit of the Ministry of Defense since March 2023, and that on 21.09.2023 she received a phone call and was told that her son had died on 20.09.2023.

Volume 46, working sheet: 64-66.

Page 854

According to **forensic medical examination conclusion No. 40 dated 21.09.2023**, the following bodily injuries were found on the body of Amirov Tural Matlab oglu: acute blood loss; left-sided hemopneumothorax (accumulation of free blood and air masses in the thoracic cavity) and a blind wound of the left anterior surface of the chest penetrating into the thoracic cavity, accompanied by injury to the organs of the thoracic cavity; acute blood loss; injury to the major arteries of the right lower leg; a penetrating wound of the right calf with an entry wound located on the anterior surface of the lower 1/3 of the right calf and an exit wound located on the posterior surface of the lower 1/3 of the right calf, accompanied by fractures of

the bones of the lower leg; a penetrating wound of the soft tissues of the right thigh, with entry and exit wounds located on the outer surface of the upper 1/3 of the right thigh; multiple abrasions on the dorsal surface of both hands, the anterior surface of the lower 1/3 of the left thigh, the anterior surface of the upper 1/3 of the left lower leg, the anterior surface of the right knee joint, and the right calf region. Of the listed injuries, the multiple abrasions on the dorsal surface of both hands, the anterior surface of the lower 1/3 of the left thigh, the anterior surface of the upper 1/3 of the left lower leg, the anterior surface of the right knee joint, and the right calf region are characteristic of the impact of a hard blunt object, while the other injuries (a blind wound of the left anterior surface of the chest penetrating into the thoracic cavity, through-and-through wounds of the right calf and right thigh) are characteristic of the effect of a shot from a firearm. The cause of his death was traumatic-hemorrhagic shock that developed as a result of the injuries sustained.

Volume 307, working sheet: 135-138.

According to the protocol dated 21.09.2023, during the examination of the body of serviceman of a military unit of the Ministry of Defense **Khalafov Tapdyg Vidadi ogly**, it was established that the left lower limb of the body was incompletely severed at the level of the femorotibial joint, and numerous injuries were found on the body.

Volume 16, working sheet: 93-94.

Khalafov Ilgar Vidadi ogly, recognized as the legal heir of the victim **Khalafov Tapdyg Vidadi ogly** and questioned, stated in his testimony that his brother **Tapdyg Khalafov** had been serving in a military unit of the Ministry of Defense on a temporary basis since 2022. On 19.09.2023, he was blown up by an anti-personnel mine and died in fighting in the Aghdam direction.

Page 855

Volume 57, working document: 202-205.

According to **forensic medical examination conclusion No. 43 dated 21.09.2023**, the following bodily injuries were found on the body of Khalafov Tapdyg Vidadi ogly: traumatic amputation of the left lower limb at the level of the ankle joint; crushed-lacerated wounds with extensive tissue defects of the right thigh, knee joint and lower leg; abrasions on the left temple, right temple, right supraorbital region, outer edge of the right orbit and left lateral side of the neck. The said injuries resulted from the impact of multiple fragments and a blast wave caused by the explosion of a combat weapon (projectile). The cause of his death was acute blood loss resulting from the injuries sustained (traumatic amputation of the left lower limb at the level of the ankle joint; crushed-lacerated wounds of the right thigh, knee joint and lower leg with extensive tissue defects).

Volume 307, working sheet: 147-150.

According to the protocol dated 21.09.2023 on the examination of the body of serviceman of a military unit of the Ministry of Defense Rustamov Vusal Rustam ogly, numerous bodily injuries were found on his body.

Volume 16, working sheet: 101-102.

Rustamov Rustam Ramazan oglu, who was recognized as the legal heir of the victim Rustamov Vusal Rustam oglu and was questioned, stated in his testimony that his son Vusal Rustamov had continued his military service on an extended-term basis in a military unit of the Ministry of Defense, and that on 19.09.2023 he died as a result of shelling opened by the Armed Forces of Armenia during hostilities in the direction of Khojaly District.

Volume 58, working document: 252-256.

According to **forensic medical examination conclusion No. 44 dated 21.09.2023**, the following bodily injuries were found on the body of Rustamov Vusal Rustam oglu: multiple wounds penetrating into the cranial cavity in the right frontal region of the head; crushing of the brain; multiple open fractures of the skull bones; first-degree thermal burn of the face; wounds on the left cheek, nose and chin; fracture of the mandible; complete amputation of the lower lip; broken teeth; amputation of the 5th finger of the left hand; on the posterior surface of the right elbow, accompanied by open multiple comminuted fractures of the bones involving

Page 856

the projections of the 3rd, 4th and 5th metacarpal bones of the lower 1/3 of the right forearm; multiple wounds on the inner surface of the right thigh, encompassing the inner surface of the lower 1/3 of the thigh and indicating a fracture of the femur; a thermally induced parchment-like area on the lower part of the left foot; thermal injury to the skin of the head. The said injuries were caused by multiple fragments and the effects of a blast wave resulting from the explosion of an explosive substance (projectile). The cause of death was crushing and disintegration of the brain tissue, accompanied by open multiple comminuted fractures of the cranial vault and skull-base bones as a result of a firearm injury penetrating into multiple body cavities, including the cranial cavity.

Volume 325, working sheet: 56-59.

According to the protocol dated 21.09.2023 on the examination of the body of serviceman of a military unit of the Ministry of Defense Jafarov Oleg Glych oglu, wounds and other multiple injuries were found in the right temporal and occipital regions, from which hemorrhagic brain tissue and broken bone fragments protruded, having a canal-like connection with the wound.

Volume 16, working sheet: 109-110.

Jafarov Glych Jafar oglu, questioned as the legal heir of the victim Jafarov Oleg Glych oglu, stated in his testimony that his son Oleg Jafarov had been serving voluntarily on an extended-term basis in a military unit of the Ministry of Defense since 2021, and on 19.09.2023 died in fighting in the direction of the Aghdam-Aghdara-Sirkhavend districts.

Volume 57, working document: 114-118.

According to **forensic medical examination conclusion No. 45 dated 21.09.2023**, the following bodily injuries were found on the body of Jafarov Oleg Glych oglu: crushing of the brain; open, defective, comminuted fractures of the skull, right humerus and fibula; incomplete traumatic rupture of the right upper limb at the level of the shoulder joint;

multiple stab-lacerated wounds with extensive tissue defects in the right temporal region, occipital region, nose, right lateral surface of the chest, anterior surface of the right thigh, outer surface of the right thigh, inner surface of the left thigh, and anterior surface of the middle 1/3 of the right calf. The said injuries resulted from the impact of multiple fragments and a blast wave

Page 857

caused by the explosion of an explosive device (projectile). The cause of death was crushing of the brain with fracture of the skull bones, incomplete traumatic rupture of the right humerus and multiple shrapnel wounds of the body accompanied by acute blood loss.

Volume 307, working sheet: 151-154.

According to the protocol dated 21.09.2023 on the examination of the body of serviceman of a military unit of the Ministry of Defense Aliyev Valiulla Elmanovich, numerous bodily injuries were found on the body.

Volume 16, working sheet: 117-118.

Aliyev Elman Valievich, recognized as the legal heir of the victim Aliyev Valiulla Elmanovich, was questioned and stated in his testimony that his son Valiulla lived in Gusar and served as a platoon commander in a military unit of the Ministry of Defense. On 20.09.2023, employees of the Ministry of Defense of the Republic of Azerbaijan called him and informed him that his son Valiulla Aliyev had died in the village of Sirkhavend, Aghdam District, as a result of a provocation by illegal Armenian armed formations.

Volume 90, working sheet: 42-44.

According to **forensic medical examination conclusion No. 46 dated 21.09.2023**, the bodily injuries found during the examination of the body of Aliyev Valiulla Elmanovich were as follows: acute blood loss; multiple comminuted, displaced, open fractures of the tibia and fibula; a blind wound of the upper 1/3 of the right calf accompanied by injury to the tibial and fibular arteries; blind wounds of the soft tissues of the posterior surface of the upper 1/3 of the left thigh, the posterior surface of the right thigh, the left buttock region, the posterior surface of the right calf and the inner posterior surface of the upper 1/3 of the right calf; multiple superficial wounds of the right shoulder region, right buttock region and left thigh — characterized as resulting from the effect of a blast wave generated by the explosion of a firearm projectile, secondary fragments from the primary projectile, and a blunt mechanism. The cause of his death was acute blood loss resulting from the explosion of a firearm projectile, multiple comminuted, displaced, open fractures of the tibia and fibula, and a blind wound of the outer-posterior surface of the upper 1/3 of the right lower leg accompanied by injury to the tibial and fibular arteries.

Volume 307, working sheet: 155-158.

Page 858

According to the protocol dated 21.09.2023, during the examination of the body of officer of a military unit of the Ministry of Defense Safarov Gokhan Ilgar oglu, numerous bodily injuries of varying severity were found on the body.

Volume 16, working sheet: 125-126.

In his testimony, Safarov Valeh Ilgar oglu, recognized as the legal heir of the victim Safarov Gokhan Ilgar oglu, stated that his brother Gokhan Safarov began active military service in July 2023 in a military unit located in Gusar District. On 20.09.2023, he received information that his brother had died as a result of the explosion of a projectile fired by illegal Armenian armed formations in Aghdam District.

Volume 48, working sheet: 125-128.

According to **forensic medical examination conclusion No. 47 dated 21.09.2023**, the following bodily injuries were found on the body of Safarov Gokhan Ilgar oglu: crushing of the brain; open fractures of the bones of the base and vault of the skull; multiple contused and lacerated wounds on the crown of the head, the outer corner of the left eye and the left cheek, accompanied by hematomas around both eyes (“spectacle sign”); wounds on the left shoulder, forearm, left thigh and anterior surface of the left lower leg. The said injuries were caused by fragments and a blast wave resulting from the explosion of explosive ammunition. The immediate cause of his death was crushing of the brain.

Volume 307, working sheet: 159-162.

According to the protocol dated 21.09.2023, during the examination of the body of Nurmagomedov Ramazan Nurahmedovich, an officer of a military unit of the Ministry of Defense, numerous bodily injuries of varying severity were found on the body.

Volume 16, working sheet: 133-134.

Nurmagomedov Murad Nurahmedovich, recognized as the legal heir of the victim Nurmagomedov Ramazan Nurahmedovich and questioned, stated in his testimony that his brother Ramazan Nurmagomedov had been voluntarily serving on an extended-term basis in a military unit of the Ministry of Defense, and that on 20.09.2023 he died as a result of shrapnel wounds to his arm and leg caused by the explosion of a projectile fired by the Armed Forces of Armenia during hostilities in the direction of Aghdam-Aghdara-Sirkhavend.

Page 859

Volume 57, working sheet: 165-168.

According to **forensic medical examination conclusion No. 48 dated 21.09.2023**, the following bodily injuries were found on the body of Nurmagomedov Ramazan Nurahmedovich: the right foot was torn apart and crushed up to the 3rd metatarsal bone and amputated; deformation of the lower 1/3 of the right calf and a complete fracture of the lower 1/3 of both bones of the lower leg; four wounds on the anterior surface of the middle 1/3 of the calf; overall, the anterior surface of the right calf was covered with dark blackish soot and a reddish parchment-like area. The said injuries are characterized as having been caused by the conventional damaging factors of a firearm fragmenting upon explosion, that is, multiple

primary and secondary fragments. The cause of his death was hemorrhagic-traumatic shock that developed as a result of the dismemberment of the right lower limb and amputation of the foot due to the impact of a firearm projectile that fragmented upon explosion.

Volume 325, working sheet: 53-55.

According to the protocol dated 21.09.2023 on the examination of the body of serviceman of a military unit of the Ministry of Defense Aliyev Sabuhi Tahir oglu, numerous bodily injuries were found on his body.

Volume 16, working sheet: 141-142.

Aliyev Tahir Mehdi oglu, recognized as the legal heir of the victim Aliyev Sabuhi Tahir oglu, was questioned and stated in his testimony that his son Sabuhi Aliyev had been voluntarily serving on an extended-term basis in a military unit of the Ministry of Defense. On 19.09.2023, he received a phone call and was informed that his son had died in fighting in the direction of the Aghdam-Aghdara-Papiravand districts.

Volume 57, working sheet: 63-67.

According to **forensic medical examination conclusion No. 49 dated 21.09.2023**, the following bodily injuries were found on the body of Aliyev Sabuhi Tahir oglu: open injury of the right lung; open, displaced, comminuted fractures of the laryngeal cartilages, hyoid bone, occipital bone, right IV, V, VI, VII and VIII ribs, and the V metacarpal bone of the left hand; incomplete traumatic amputations at the level of the middle 1/3 of the base of the right upper limb and at the level of the distal phalanx of the II finger of the right hand, extending from the submandibular region to the lower 1/3

Page 860

of the anterior surface of the neck; multiple crushed-lacerated wounds on the occiput, on the right anterolateral surface of the chest, on the anterior surface of the middle 1/3 of the right forearm, on the inner and palmar surfaces of the left hand, with extensive tissue defects on the outer surface of the upper third of the right thigh. The said injuries resulted from the impact of multiple fragments and a blast wave caused by the explosion of an explosive device (projectile). The cause of his death was traumatic-hemorrhagic shock resulting from the injuries sustained (multiple crushed-lacerated shrapnel wounds of the body with extensive tissue defects; open injury of the right lung; open, displaced, comminuted fractures of the laryngeal cartilages, hyoid bone, occipital bone, right IV, V, VI, VII and VIII ribs, and the V metacarpal bone of the left hand; incomplete traumatic amputations at the level of the middle 1/3 of the base of the right upper limb and at the level of the distal phalanx of the II finger of the right hand).

Volume 307, working sheet: 163-166.

According to the protocol dated 21.09.2023 on the examination of the body of serviceman of a military unit of the Ministry of Defense Gardashzade Elsever Rakif oglu, numerous bodily injuries were found on his body.

Volume 16, working sheet: 149-150.

Gardashov Rakif Demir oglu, recognized as the legal heir of the victim Gardashzade Elsever Rakif oglu, was questioned and stated in his testimony that his son Elsevar Gardashzade had been serving compulsory military service in a military unit of the Ministry of Defense since 06.04.2022, and that on 20.09.2023 he proceeded in the direction of Aghdam District and died in fighting.

Volume 60, working document: 215-217.

According to **forensic medical examination conclusion No. 50 dated 21.09.2023**, the following bodily injuries were found on the body of Gardashzade Elsever Rakif oglu: acute blood loss; hemoperitoneum (accumulation of blood in the abdominal cavity) and a blind penetrating wound of the abdominal cavity through the left lateral wall of the abdomen, accompanied by multiple injuries to the abdominal organs; acute blood loss; a blind wound of the inner anterior surface of the left forearm, accompanied by multiple comminuted, open displaced fractures of the radius and ulna; a blind wound of the anterior surface of the left hand, accompanied by multiple, open

Page 861

displaced fractures of the IV and V metacarpal bones; traumatic rupture of the V finger of the left hand; multiple blind wounds of the soft tissues of the posterolateral surface of the left shoulder, posteromedial surface of the right shoulder, anteromedial surface of the right forearm, both buttock regions, posterior surface of the right thigh, outer surface of the left calf, left heel region and posterior surface of the left ankle joint — characterized as resulting from the effects of a blast wave generated by the explosion of a firearm projectile, secondary fragments from the primary projectile, and a blunt mechanism; in terms of severity, they are classified as injuries causing serious harm to the health of living persons and leading to death. On the right lateral surface of the body, in the right forehead region, on the right auricle and in the nose area, yellowish scratches resembling parchment paper, of indeterminate shape and irregular contours, with a dry surface and located slightly below the level of the surrounding skin, were found. The cause of his death was traumatic-hemorrhagic shock that developed as a result of injuries sustained in the explosion of a firearm projectile.

Volume 307, working sheet: 167-170.

According to the protocol dated 21.09.2023 on the examination of the body of officer of a military unit of the Ministry of Defense Mustafazade Veli Jeyhun oglu, numerous bodily injuries were found on his body.

Volume 16, working sheet: 157-158.

Mustafazade Jeyhun Veli oglu was recognized as the legal heir of the victim Mustafazade Veli Jeyhun oglu, was questioned, and stated in his testimony that since October 2022 his son had been serving in a military unit of the Ministry of Defense, and that on 19.09.2023 he died as a result of a mortar thrown by Armenian armed formations in the village of Sirkhavend, Aghdam District, falling and exploding next to him.

Volume 356, working sheet: 66-69.

According to **forensic medical examination conclusion No. 51 dated 21.09.2023**, the following bodily injuries were found on the body of Mustafazade Veli Jeyhun oglu: wounds with large tissue defects on the right lateral and anterior surfaces of the nose, around the eyes, in the cheekbone region, in the right shoulder region, on the anterolateral surface of the right shoulder, on the anterior part of the right forearm, on the posterior side of the right hand, on the outer surfaces of the upper 1/3

Page 862

of the left thigh; multiple open fractures of the right humerus, right radius and ulna. The said injuries were caused by fragments and a blast wave resulting from the explosion of explosive ammunition. The cause of his death was the injuries sustained (wounds with large tissue defects on the right lateral and anterior surfaces of the nose, around the eyes, in the cheekbone region, in the right shoulder region, on the anterolateral surface of the right shoulder, on the anterior part of the right forearm, on the posterior side of the right hand, on the outer surfaces of the upper 1/3 of the left thigh; multiple open fractures of the right humerus, right radius and ulna).

Volume 307, working sheet: 171-174.

According to the protocol dated 21.09.2023 on the examination of the body of Zeynalli Rashid Madat oglu, serviceman of a military unit of the Ministry of Defense, on the right anterior surface of the chest of the body, exactly at the level of the middle 1/3 of the right clavicle along the nipple line, a penetrating wound of the chest measuring 2.5×2 cm with uneven edges was found, with a ring 0.5 cm in diameter on the right side and a ring 1.3 cm in diameter at the upper edge.

Volume 16, working sheet: 165-166.

Zeynalov Madat Ali oglu, recognized as the legal heir of the victim Zeynalli Rashid Madat oglu and questioned, stated in his testimony that his son Rashid Zeynalli had been voluntarily serving on an extended-term basis in a military unit of the Ministry of Defense since 2021, and that on 19.09.2023 he was wounded and died as a result of a bullet fired by the Armed Forces of Armenia.

Volume 58, working sheet: 37-39.

According to **forensic medical examination conclusion No. 52 dated 21.09.2023**, the following bodily injuries were found on the body of Zeynalli Rashid Madat oglu: on the right anterior surface of the chest of the body, exactly at the level of the middle 1/3 of the right clavicle along the nipple line, a penetrating wound of the chest measuring 2.5×2 cm with uneven edges was found, with a ring 0.5 cm in diameter on the right side and a ring 1.3 cm in diameter at the upper edge. The said injuries were caused by the impact of a firearm projectile that fragments upon explosion. The cause of death was traumatic-hemorrhagic shock that developed as a result of a firearm shrapnel wound penetrating into the thoracic cavity with injury to the organs of the chest.

Page 863

Volume 325, working sheet: 30-32.

According to the protocol dated 21.09.2023, during the examination of the body of officer of a military unit of the Ministry of Defense Akberov Shahid Natig oglu, the following were found on the body: a wound with a defect of soft tissues and bone in the parietal region; an open wound at the outer corner of the left eye; a wound in the area of the left cheek with an open exit penetrating into the oral cavity, with a tissue defect; and multiple lacerated wounds of various sizes on the left shoulder, forearm, thigh and lower leg.

Volume 16, working sheet: 173-174.

Akberov Natig Dedegulu oglu, recognized as the legal heir of the deceased victim Akberov Shahid Natig oglu, stated in his testimony that since January 2019 his son Shahid Akberov had been serving on an extended-term basis in a military unit of the Ministry of Defense of the Armed Forces of the Republic of Azerbaijan. On 21.09.2023, his son's fellow servicemen called him and informed him that Shahid Akberov had died on 19.09.2023 as a result of the explosion of a projectile fired by illegal Armenian armed formations during fighting for the village of Dakhraz, Khojavend District.

Volume 51, working document: 127-129.

According to **forensic medical examination conclusion No. 53 dated 21.09.2023**, the following bodily injuries were found on the body of Akberov Shahid Natig oglu: crushing and destruction of the brain and the right eyeball; wounds penetrating into the cranial cavity on the forehead and right lower eyelid, accompanied by defective, comminuted, open fractures of the skull bones. The said injuries were caused by fragments formed as a result of the explosion of explosive ammunition. The immediate cause of his death was crushing of the brain.

Volume 307, working sheet: 175-177.

According to the protocol dated 21.09.2023 on the examination of the body of serviceman of a military unit of the Ministry of Defense Velizade Rashad Elshan oglu, numerous bodily injuries were found on the body.

Volume 9, working sheet: 72-83.

Volume 16, working sheet: 181-182.

Page 864

Veliyev Elshan Muzaffar oglu, who was recognized as the legal heir of the victim Velizade Rashad Elshan oglu and was questioned, stated that his son Rashad Velizade had been an extended-term serviceman of a military unit of the Ministry of Defense since the beginning of 2023. On 20.09.2023, he received information from another of his sons, Farid, who was serving in the military, that his son had died as a result of shelling opened by illegal armed formations of Armenia during hostilities in the direction of Khojavend District.

Volume 51, working sheet: 39-41.

According to **forensic medical examination conclusion No. 54 dated 21.09.2023**, the following bodily injuries were found on the body of Velizade Rashad Elshan oglu: blind

wounds penetrating into the cranial cavity, the right leg and the abdominal cavity; crushing of the brain; open comminuted fractures of the skull; fractures of the I and II metatarsal bones of the right lower leg; injuries to the abdominal organs. The said injuries resulted from the effects of fire from a firearm, causing serious harm to health. The immediate cause of death was a wound penetrating into the cranial cavity, accompanied by fractures of the skull bones and crushing of the brain.

Volume 307, working sheet: 178-181.

According to the protocol dated 21.09.2023, during the examination of the body of serviceman of a military unit of the Ministry of Defense Guliyev Najmeddin Natig oglu, numerous bodily injuries of varying severity were found on the body.

Volume 16, working sheet: 189-191.

Guliyev Natig Ahmedaga oglu, recognized as the legal heir of the victim Guliyev Najmeddin Natig oglu and questioned, stated in his testimony that his son Natig Guliyev had been voluntarily serving on an extended-term basis in a military unit of the Ministry of Defense, and that on 19.09.2023 he died as a result of the explosion of a projectile fired by the Armed Forces of Armenia during hostilities in the direction of Aghdam District.

Volume 16, working sheet: 200-202.

Volume 58, working sheet: 22-24.

Page 865

According to **forensic medical examination conclusion No. 57 dated 21.09.2023**, the following bodily injuries were found on the body of Guliyev Najmeddin Natig oglu: complete amputation of the part of the head above the lower lip, 11 cm from the right earlobe and from the upper 1/3 of the neck on the left; defects of the facial bones and bones of the cranial vault; other bones were shattered into various fragments and hanging from an area of skin; multiple wounds penetrating into the left shoulder, left forearm and chest, and scattered in the area of the left lower leg. The skin on the anterolateral part of the left thigh was dark black; the skin had been subjected to thermal effects and was peeling. The said injuries are classified as causing serious harm to health and are characterized by the effects of the general damaging factors of an exploding firearm, that is, multiple primary and secondary projectiles, which, depending on their severity, lead to a fatal outcome. The cause of his death was partial amputation of the head, accompanied by crushing and disintegration of the brain tissue, crushing and disintegration of the cranial vault and skull-base bones as a result of the impact of a firearm projectile which, after crushing the head, exploded.

Volume 325, working sheet: 45-48.

Hasanova Matanat Nemat gizi, who was recognized as the legal heir of the victim Hasanov Emral Vugar oglu and was questioned, stated in her testimony that her son Emral Hasanov had been voluntarily serving on an extended-term basis in military unit No. 651 of the Ministry of Defense. On 19.09.2023, she received a phone call and was informed that her son had died during hostilities in the direction of the Aghdam-Aghdara-Paprayand districts.

Volume 57, working sheet: 37-41.

According to **forensic medical examination conclusion No. 56 dated 21.09.2023**, the bodily injuries found on the body of Hasanov Emral Vugar oglu were as follows: acute blood loss; comminuted, displaced, open fractures of the VIII, IX and X ribs on the left; a blind wound penetrating into the thoracic cavity through the left half of the anterior chest wall, accompanied by injury to the left lung; injury to the cervical spine; a blind wound penetrating into the spinal canal in the area of the left scapula, accompanied by a comminuted, open displaced fracture of the VII cervical vertebra; a penetrating wound of the right hand, accompanied by comminuted, displaced, open fractures of the II, III and IV metacarpal bones; a blind wound of the soft tissues of the left half of the anterior chest wall, not penetrating into the thoracic cavity; a superficial wound of the antero-

Page 866

lateral surface of the lower 1/3 of the left thigh; multiple abrasions on the right hand, right lower leg and right thigh — characterized as resulting from the effects of a blast wave generated by the explosion of a firearm projectile, secondary fragments from the primary projectile, and a blunt mechanism. The cause of his death was traumatic-hemorrhagic shock that developed as a result of the injuries sustained in the explosion of a firearm projectile.

Volume 307, working sheet: 186-189.

According to the protocol dated 21.09.2023 on the examination of the body of officer of a military unit of the Ministry of Defense Ziyadov Jasarat Zaur oglu, the bones of the skull of the body were completely fractured and scattered, and numerous other injuries were found on the body.

Volume 16, working sheet: 214-215.

Ziyadov Zaur Jamshid oglu, recognized as the legal heir of the victim Ziyadov Jasarat Zaur oglu and questioned, stated in his testimony that his son Jasarat Ziyadov had been serving on an extended-term basis in a military unit of the Ministry of Defense since 11.01.2023 and died on 19.09.2023 as a result of a bullet fired by the Armed Forces of Armenia during hostilities in the direction of Aghdam District.

Volume 58, working sheet: 53-55.

According to **forensic medical examination conclusion No. 55 dated 21.09.2023**, the following bodily injuries were found on the body of Ziyadov Jasarat Zaur oglu: traumatic destruction (rupture) of the brain and bones of the cranial vault; multiple extensive wounds with tissue defects in the left and right shoulder regions, on the anterior surface of the chest, on the right shoulder and forearm, on the dorsal side of the right hand, in the middle and lower 1/3 of the left arm, on the anterior surfaces of the upper 1/3 of the left forearm, on the dorsal surface of the left hand, on the right anterior part of the abdomen, on the right lateral surfaces from the right buttock region to the lower 1/3 of the right calf, on the inner surface of the left thigh and on the posterior surface of the left lower leg; defective, comminuted, open fractures of the right forearm, right hand, I, II and III phalanges of the right hand, left elbow, left wrist, right femur and right metatarsal bones. The said injuries were caused by fragments and a blast wave resulting from

Page 867

the explosion of explosive ammunition. The immediate cause of his death was traumatic collapse (rupture) of the skull and skull bones.

Volume 307, working sheet: 182-185.

According to the protocol dated 21.09.2023 on the examination of the body of serviceman of a military unit of the Ministry of Defense Aslanov Sahil Akhliman oglu, other numerous bodily injuries were found on the body.

Volume 9, working sheet: 223-224.

Aslanov Akhliman Lazim oglu, recognized as the legal heir of the victim Aslanov Sahil Akhliman oglu and questioned, stated in his testimony that his son Sahil Aslanov had continued his military service on an extended-term basis in a military unit of the Ministry of Defense, and on 19.09.2023 he died as a result of shelling by the Armed Forces of Armenia during hostilities in the direction of Khojaly District.

Volume 58, working document: 213-217.

According to **forensic medical examination conclusion No. 59 dated 21.09.2023**, the following bodily injuries were found on the body of Aslanov Sahil Akhliman oglu: acute blood loss; a blind penetrating wound of the abdominal cavity in the left lumbar region, accompanied by injuries to the abdominal organs; acute blood loss; a blind wound of the left buttock region penetrating into the abdominal and pelvic cavities, accompanied by injuries to the abdominal and pelvic organs; a penetrating wound of the left lower leg, accompanied by multiple open displaced fractures of the tibia and fibula, with an entry wound on the anteromedial surface of the upper 1/3 of the left lower leg and an exit wound on the posterolateral surface of the middle 1/3 of the left lower leg; multiple blind wounds of the soft tissues of the middle 1/3 of the left lower leg, the left shoulder region, and the anterior surface of the right calf; a blind wound of the dorsal surface of the third finger of the right hand, accompanied by a comminuted open displaced fracture of the distal phalanx; overall, in terms of severity, they are classified as injuries causing serious harm to the health of living persons and leading to death. Of the listed injuries, the multiple blind wounds of the soft tissues of the middle 1/3 of the left lower leg, the left shoulder region and the anterior surface of the right calf, and the blind wound of the dorsal surface of the third finger of the right hand accompanied by a comminuted open fracture of the

Page 868

distal phalanx with displacement resulted from the effects of a blast wave generated by the explosion of a weapon, secondary shrapnel from the primary projectile and a blunt mechanism, while the other injuries are characteristic of gunfire from a firearm. The cause of his death was traumatic-hemorrhagic shock that developed as a result of the injuries sustained.

Volume 307, working sheet: 194-197.

According to the protocol dated 21.09.2023 on the examination of the body of serviceman of a military unit of the Ministry of Defense Mammadov Fuzuli Bahruz oglu, bodily injuries were found on the body.

Volume 16, working sheet: 231-232.

Mammadov Bahruz Jabbar oglu, recognized as the legal heir of the victim Mammadov Fuzuli Bahruz oglu and questioned, stated in his testimony that his son had been serving on an extended-term basis in a military unit of the Ministry of Defense since 2021 and died in fighting in the direction of Aghdam District on 20.09.2023.

Volume 66, working sheet: 27-30.

According to **forensic medical examination conclusion No. 58 dated 21.09.2023**, the following bodily injuries were found on the body of Mammadov Fuzuli Bahruz oglu: injury to the organs of the thoracic cavity; open hemopneumothorax; wounds penetrating into the thoracic cavity, accompanied by an open comminuted fracture of the left clavicle; blind wounds in the head region. The wounds penetrating into the thoracic cavity were sustained as a result of the impact of a bullet from a firearm, while the wound in the parietal region was caused by a fragment torn from a wooden barrier that had previously been struck by a projectile (bullet). The cause of death was acute blood loss resulting from injury to the organs of the thoracic cavity, open hemopneumothorax and an open comminuted fracture of the left clavicle.

Volume 307, working sheet: 190-193.

According to the protocol dated 21.09.2023 on the examination of the body of serviceman of a military unit of the Ministry of Defense Abbaszade Emin Faig oglu, the body was dismembered and numerous bodily injuries were present on his body.

Volume 9, working sheet: 239-240.

Page 869

Abbasov Faig Yagub oglu, who was recognized as the legal heir of the victim Abbaszade Emin Faig oglu, was questioned and stated in his testimony that his son Emin Abbaszade had been an extended-term serviceman of a military unit of the Ministry of Defense since the end of 2020. On 19.09.2023, he received information from his son's fellow servicemen that his son had died from numerous shrapnel wounds as a result of fire opened by illegal Armenian armed formations during fighting in the direction of Tartar District.

Volume 51, working sheet: 50-52.

According to **forensic medical examination conclusion No. 60 dated 21.09.2023**, the following bodily injuries were found on the body of Abbaszade Emin Faig oglu: 1 wound directly on the anterior surface of the neck at the level of the thyroid cartilage, penetrating into the trachea; on the left anterior surface of the chest in the III-IV intercostal space along the sternal line; 1 wound on the left anterior surface of the abdomen penetrating into the abdominal cavity; 1 wound in the left buttock; 1 wound on the anterior surface of the left humerus; 1 wound on the outer surface of the lower 1/3 of the left lower leg with visible

fragments of a broken humerus, inside which there was a piece of metallic fragment measuring 4.0×3.0 centimeters; one wound at the level of the elbow joint; two wounds on the posterior surface of the left forearm; penetration of the chest wounds into the thoracic cavity; amputation of the left lower limb at the level of the knee joint; complete amputation of the left thigh from the proximal part with involvement of the distal flap of the left lower limb; a wound beginning from the inner 1/3 of the right thigh, encompassing the knee region, accompanied by extensive defects of the skin, muscles and bones; crushed fractures of the bones forming the knee joint; the presence of a not very intense soot-like deposit around the wounds. The said injuries were caused by the general damaging factors of a firearm exploding upon detonation, that is, multiple primary and secondary fragments, the blast wave during the explosion and the thermal effects of explosive gases. The cause of death was hemorrhagic-traumatic shock resulting from a wound penetrating into the chest, abdomen and pelvic cavity and developing as a consequence of multiple gunshot wounds of the body, accompanied by injuries to the organs of these cavities and amputation of the left lower limb.

Volume 325, working sheet: 41-44.

Page 870

According to the protocol dated 21.09.2023, during the examination of the body of serviceman of a military unit of the Ministry of Defense Magerramov Javad Sadyg oglu, bodily injuries were found on the body.

Volume 16, working sheet: 247-248.

Magerramov Sadyg Yadulla oglu, recognized as the legal heir of the victim Magerramov Javad Sadyg oglu and questioned, stated in his testimony that his son Javad Magerramov had been serving on an extended-term basis in a military unit of the Ministry of Defense, and on 19.09.2023 he was shot dead during hostilities in the direction of Aghdara District.

Volume 60, working sheet: 236-238.

According to **forensic medical examination conclusion No. 62 dated 21.09.2023**, the following bodily injuries were found on the body of Magerramov Javad Sadyg oglu: injuries to the organs of the thoracic cavity; wounds on the anterior surface of the left half of the chest penetrating into the thoracic cavity, accompanied by open hemopneumothorax; through-and-through wounds of the left forearm, accompanied by a comminuted displaced fracture of the ulna. The said injuries resulted from the impact of projectiles (bullets) as a result of two shots from a firearm. The injuries that caused his death — injury to the organs of the cavity (wounds on the anterior surface of the left half of the chest penetrating into the thoracic cavity, accompanied by open hemopneumothorax; through-and-through wounds of the left forearm, accompanied by a comminuted displaced fracture of the ulna) — acute blood loss as a result of open hemopneumothorax.

Volume 307, working sheet: 202-205.

According to the protocol dated 21.09.2023 on the examination of the body of officer of a military unit of the Ministry of Defense Nazarli Nijat Mubariz oglu, the head of the body was crushed and destroyed, and numerous bodily injuries were found on the body.

Volume 17, working sheets 1-5.

Nazarov Mubariz Fazil oglu, recognized as the legal heir of the victim Nazarli Nijat Mubariz oglu and questioned, stated in his testimony that since 04.10.2022 his son Nijat Nazarli had been performing compulsory military service, and

Page 871

on 19.09.2023 died as a result of the explosion of a mortar projectile fired by the Armed Forces of Armenia in the direction of Aghdara District.

Volume 60, working sheet: 200-202.

According to **forensic medical examination conclusion No. 63 dated 21.09.2023**, the following bodily injuries were found on the body of Nazarli Nijat Mubariz oglu: traumatic destruction (rupture) of the brain and skull bones; multiple extensive wounds with tissue defects on the right posterior surface of the neck, in the right subscapular region penetrating into the chest, on the right lateral surface of the chest, on the anterior surface of the left lower leg, in the area of the left forearm, on the posterior surface of the lower 1/3 of the right lower leg, on the anterior surface of the lower 1/3 of the right thigh, on the upper and lower thirds of the right lower leg, on the left thigh, lower leg and right leg; defective, comminuted, open fractures of the cervical vertebrae, left elbow, right lower leg, and bones of the upper and lower jaw. The said injuries were caused by fragments and a blast wave resulting from the explosion of explosive ammunition. The immediate cause of his death was traumatic collapse (rupture) of the skull and skull bones.

Volume 307, working sheet: 206-209.

According to the protocol dated 21.09.2023 on the examination of the body of serviceman of a military unit of the Ministry of Defense Tagiyev Ali Azad oglu, numerous bodily injuries were found on his body.

Volume 17, working sheets: 12-13.

Tagizade Said Azad oglu, recognized as the legal heir of the victim Tagiyev Ali Azad oglu and questioned, stated in his testimony that his brother Ali had voluntarily been serving on an extended-term basis in a military unit of the Ministry of Defense, and on 19.09.2023 he was wounded and died as a result of a sniper shot fired by the Armed Forces of Armenia during hostilities in the direction of the Aghdam-Aghdara districts.

Volume 58, working sheet: 60-62.

According to **forensic medical examination conclusion No. 61 dated 21.09.2023**, the following bodily injuries were found on the body of Tagiyev Ali Azad oglu: crushing of the brain; penetrating wounds of the cranial cavity and the right humerus, accompanied by multiple open fractures of the

Page 872

jaw, base and vault of the skull, and the right humerus. The said injuries resulted from the impact of projectiles (bullets) as a result of two shots from a firearm. The cause of his death was trauma to the head and brain resulting from the injuries sustained.

Volume 307, working sheet: 198-201.

According to the protocol dated 21.09.2023 on the examination of the body of officer of a military unit of the Ministry of Defense Mikailov Ulvi Bahruz oglu, the body was divided into three parts in the abdominal and pelvic regions.

Volume 17, working sheet: 20-21.

Mikailov Bahruz Zakir oglu, who was recognized as the legal heir of the victim Mikailov Ulvi Bahruz oglu and was questioned, stated in his testimony that his son Ulvi Mikailov was performing compulsory military service, and that on 20.09.2023 he received a phone call and was informed that his son had died in the direction of Aghdara District.

Volume 33, working document: 172-174.

According to **forensic medical examination conclusion No. 64 dated 21.09.2023**, the following bodily injuries were found on the body of Mikailov Ulvi Bahruz oglu: traumatic separation of the body with internal organs in the abdominal and pelvic regions; multiple wounds on the outer surface of the upper 1/3 of the left lower leg and on the anterior and posterior surfaces of the left forearm; multiple large comminuted fractures of the left humerus, pelvis and right femur. The said injuries were caused by fragments and a blast wave resulting from the explosion of an explosive device. The cause of his death was traumatic-hemorrhagic shock resulting from the injuries sustained (traumatic separation of the body with internal organs in the abdominal and pelvic regions; multiple wounds on the outer surface of the upper 1/3 of the left lower leg and on the anterior and posterior surfaces of the left forearm; multiple large comminuted fractures of the left humerus, pelvis and right femur).

Volume 307, working sheet: 210-213.

According to the protocol dated 21.09.2023, during the examination of the body of serviceman of a military unit of the Ministry of Defense Gasimov Ibrahim Malikajdar oglu, numerous bodily injuries were found on the body.

Page 873

Volume 17, working sheet: 28-29.

Gasimov Allahverdi Malikajdar oglu, recognized as the legal heir of the deceased Gasimov Ibrahim Malikajdar oglu and questioned, stated in his testimony that his brother Ibrahim had been serving on an extended-term basis in a military unit and died in fighting in the direction of Aghdara District on 19-20 September 2023.

Volume 58, working sheet: 176-178.

Volume 60, working sheet: 164-166.

According to **forensic medical examination conclusion No. 65 dated 21.09.2023**, the following bodily injuries were found on the body of Gasimov Ibrahim Malikajdar oglu: injuries to the pelvic organs; blind wounds penetrating into the pelvic cavity in the left buttock region; through-and-through wounds of the right lower leg; lacerated wounds of the left shoulder and left lower leg, accompanied by comminuted fractures of the left femur and the bone of the right lower leg. The blind wounds penetrating into the pelvic cavity in the left buttock region and the through-and-through wounds of the right lower leg were sustained as a result of two shots fired from a firearm, while the other wounds were caused by fragments from the explosion of explosive ammunition. The cause of death was injuries to the organs penetrating into the pelvic cavity, fractures of the left femur and right lower leg, as well as multiple bullet and shrapnel wounds of the body accompanied by acute blood loss.

Volume 307, working sheet: 214-217.

According to the protocol dated 21.09.2023 on the examination of the body presented by officer of a military unit of the Ministry of Defense Altun Aliyev, numerous bodily injuries were found on the body.

Volume 17, working sheets: 36-38.

Aliyev Tagi Huseynbala oglu, recognized as the legal heir of the victim Aliyev Altun Tagi oglu, was questioned and stated in his testimony that his son Altun Aliyev had voluntarily been serving on an extended-term basis in a military unit of the Ministry of Defense, and on 19.09.2023 he died as a result of rocket fire by the Armed Forces of Armenia during fighting in the direction of Aghdam-Aghdara-Sirkhavend.

Volume 57, working document: 153-156.

Page 874

According to **forensic medical examination conclusion No. 66 dated 21.09.2023**, the bodily injuries found on the body of Aliyev Altun Tagi oglu were as follows: crushing of the brain tissue and both eyeballs; blind wounds penetrating into the cranial cavity in the right and left halves of the head, accompanied by multiple open displaced fractures of the bones of the skull and facial skeleton; multiple blind shrapnel wounds of the soft tissues of the tongue, right auricle, right and left anterior surfaces of the neck, the area of both lips, the anterior surface of the left half of the chest, the right subclavian region, the anterior surface of the upper third of the right upper arm, the anterolateral surface of the left upper arm, the left shoulder region, the outer posterior surface of the left forearm, the II finger of the left hand, the right lateral wall of the chest, the left buttock region, the left thigh and the left lower leg; multiple abrasions on the right shoulder, left forearm and anterior surface of the left knee joint — characterized as resulting from the effects of a blast wave generated by the explosion of a firearm projectile, secondary fragments from the primary projectile and a blunt mechanism. The cause of death was crushing of the brain tissue as a result of blind shrapnel wounds of the right and left halves of the head.

Volume 307, working sheet: 218-221.

According to the protocol dated 21.09.2023 on the examination of the body of serviceman of a military unit of the Ministry of Defense Badalov Orudj Arif oglu, the skull bones of the

body were completely fractured, and numerous bodily injuries were found on other parts of the body.

Volume 17, working sheet: 46-47.

Badalov Arif Vagif oglu, recognized as the legal heir of the victim Badalov Orudj Arif oglu and questioned, stated in his testimony that since 07.01.2023 his son Orudj had been performing compulsory military service in a military unit of the Ministry of Defense, and on 19.09.2023 he died in fighting in the Aghdara direction after sustaining wounds to the head and abdomen.

Volume 66, working sheet: 60-63.

According to **forensic medical examination conclusion No. 67 dated 21.09.2023**, the following bodily injuries were found on the body of Badalov Orudj Arif oglu: crushing and disintegration of the brain, accompanied by a large-volume defect of the brain, soft tissues and bones, encompassing

Page 875

the middle parieto-occipital region of the head; open multiple comminuted fractures of the skull bones and its base; absence and brittleness of hair in the anterior and two lateral parts in comparison with the remaining areas due to thermal exposure; wounds with torn muscles on the dorsal surface of the left hand, on the scrotum, and extending from the upper 1/3 of the right thigh to the middle 1/3 of the thigh; contamination of the wound area with dark-black deposits and particles of soil; open multiple comminuted fractures of the middle 1/3 of the right femur and the lower 1/3 of the right lower leg; scattered parchment-like abrasions in the right shoulder region, on the posterior part of the torso and in the chest region. The said injuries are characterized by the thermal effects of the conventional damaging factors of a firearm fragmenting upon explosion, that is, multiple primary and secondary projectiles, a blast wave, as well as explosive gases. The cause of his death was extensive crushing of the brain tissue, accompanied by an open fracture of the cranial vault and skull-base bones as a result of blast trauma.

Volume 325, working sheet: 37-40.

According to the protocol dated 21.09.2023, during the examination of the body of officer of a military unit of the Ministry of Defense Alizade Tunjay Nijad oglu, numerous bodily injuries were found on the body.

Volume 17, working sheet: 53-54.

Aliyev Nijad Bekhbud oglu, recognized as the legal heir of the victim Alizade Tunjay Nijad oglu, was questioned and stated that his son had been serving in a military unit of the Ministry of Defense since January 2023, and that on 22.09.2023 he received a phone call from the executive authority and was informed that his son had died.

Volume 17, working sheet: 63-64.

Volume 46, working sheet: 68-70.

According to **forensic medical examination conclusion No. 68 dated 21.09.2023**, the following bodily injuries were found on the body of Alizade Tunjay Nijad oglu: multiple wounds with large tissue defects in the right nasolabial region, penetrating into the cranial cavity and accompanied by crushing and disintegration of the brain; on the inner surface of the left forearm; extending from the right buttock region to the lower third of the right lower leg; in the left buttock region; on the posterior surface of the left lower leg; on the outer side of the right

Page 876

ankle and in the area of the right foot; defective, comminuted, open fractures of the base of the skull and the bones of the right lower leg. The said injuries were caused by fragments and a blast wave resulting from the explosion of explosive ammunition. The immediate cause of his death was crushing of the brain.

Volume 307, working sheet: 222-225.

According to the protocol dated 21.09.2023, during the examination of the body of officer of a military unit of the Ministry of Defense Hasanov Amin Ilgar oglu, scattered brain tissue and fragments of broken bones were found in the right temporal region of the body.

Volume 17, working sheet: 71-72.

Hasanov Ilgar Gazakh oglu, who was recognized as the legal heir of the victim Hasanov Amin Ilgar oglu and was questioned, stated in his testimony that his son had been serving on an extended-term basis in a military unit of the Ministry of Defense since 27 October 2022 and died in fighting in the Aghdara direction on 19 September 2023.

Volume 66, working sheet: 38-41.

According to **forensic medical examination conclusion No. 69 dated 21.09.2023**, the following bodily injuries were found on the body of Hasanov Amin Ilgar oglu: crushing and maceration of the brain with penetration into the cranial cavity; multiple stab-lacerated wounds with tissue defects on the outer surfaces of the right temple, accompanied by an open comminuted fracture of the right temporal bone; wounds of the forehead, left wing of the nose, left cheek, right scapula, back, right side of the chest, posterior surface of the right lower leg, and upper third of the right thigh. The said injuries resulted from the effects of multiple fragments and a blast wave caused by the explosion of a combat weapon (projectile). The cause of death was disintegration and maceration of the brain with penetration into the cranial cavity, as well as a stab wound of the right temporal region accompanied by an open fracture of the right temporal bone.

Volume 307, working sheet: 226-229.

According to the protocol dated 21.09.2023 on the examination of the body of serviceman of a military unit of the Ministry of Defense Hamidov Shamkhal Musa oglu, numerous bodily injuries were found on the body.

Page 877

Volume 18, working sheet: 79-80.

Shukurov Asif Arykh oglu, the stepfather of the victim Hamidov Shamkhal Musa oglu, was recognized as the legal heir and questioned. In his testimony, he stated that his son had been serving as a serviceman in a military unit of the Ministry of Defense since 24.10.2022, and that he learned from servicemen that his son had died in fighting in the Sirkhavend direction.

Volume 46, working document: 109-111.

According to **forensic medical examination conclusion No. 70 dated 21.09.2023**, the following bodily injuries were found on the body of Hamidov Shamkhal Musa oglu: on the right anterolateral surface of the neck, 5.0 cm below the auricle, in the projection of the carotid artery and vein, a wound with liquid blood oozing from it and a thin layer of metallic shrapnel at its opening; injury to the carotid artery and vein and the trachea; the presence of an additional metallic fragment at the bottom of the wound; a wound beginning at the upper 1/3 of the right lower leg and continuing to the inner surface of the lower 1/3, with a wound and skin defect of charred consistency, with visibly swollen and hardened muscle tissue, complete charring of the edges and bottom of the wound and disintegration upon contact by hand; in the areas surrounding the outer anterior surface of the chest, abdomen, right iliac region and right thigh, dark-black coloration of the skin and hardening as a result of thermal exposure; ruptures of the skin due to thermal exposure in the right inguinal region and peeling of the epidermal layer of the skin in areas extending from these regions toward the periphery; a wound accompanied by an extensive defect of the skin, muscles and fascia, beginning on the outer surface of the upper 1/3 of the left thigh, crossing the knee joint and ending on the outer surface of the upper 1/3 of the lower leg; an open comminuted fracture of the lower third of the right femur. The said injuries are characterized by the thermal effects of the conventional damaging factors of a firearm fragmenting upon explosion, that is, multiple primary and secondary projectiles, a blast wave, as well as explosive gases. The cause of his death was acute hemorrhagic shock that developed as a result of multiple gunshot wounds of the body.

Volume 325, working sheet: 33-36.

According to the protocol dated 21.09.2023 on the examination of the body provisionally designated as "Unknown No. 5," the entire surface of this body was

Page 878

charred; the body consisted of a fragment of the upper part of the torso and head, a fragment of the lower pelvic part of the torso, and a fragment of the middle third of the left forearm.

Volume 17, working sheet: 87-88.

Aliyev Gulmammad Rza oglu, recognized as the legal heir of the victim Aliyev Elvin Gulmammad oglu, was questioned and stated in his testimony that his son had been serving as an officer in a military unit of the Ministry of Defense since 2020 and died in fighting in the Aghdam direction on 19.09.2023.

Volume 356, working sheet: 105-108.

According to **forensic medical examination conclusion No. 71 dated 21.09.2023**, the bodily injuries found on the body of Aliyev Elvin Gulmammad oglu were as follows: acute blood loss; multiple comminuted, displaced, open fractures of the ribs and lumbar vertebrae; traumatic amputation of the body at the level of the waist, accompanied by multiple injuries to the chest, abdomen and pelvic organs; acute blood loss; multiple comminuted, displaced, open fractures of the forearm; traumatic amputation of the left upper limb at the level of the upper 1/3 of the left forearm, accompanied by injury to the major vessels of the left forearm; thermal burns over the entire surface of the body — characterized as resulting from the effects of flame, a blast wave, secondary fragments from the primary projectile and a blunt mechanism generated by the explosion of a firearm projectile; in terms of severity, as a whole, they are classified as injuries causing serious harm to the health of living persons and leading to death. The cause of his death was traumatic-hemorrhagic shock that developed as a result of the injuries sustained in the explosion of a firearm projectile.

Volume 307, working sheet: 230-233.

According to the protocol dated 21.09.2023 on the examination of the body of serviceman of a military unit of the Ministry of Defense Alibekov Alibek Mirkerim oglu, the body was completely charred; only the surface of the skin of both legs, the lower third of both lower legs and the left knee remained, while the remaining parts were charred.

Volume 17, working sheet: 96-97.

Alibekov Mirkerim Alibek oglu, recognized as the legal heir of the victim Alibek Alibek Mirkerim oglu, was questioned and stated in his testimony that his son Alibek Alibekov had been serving on an extended-term basis in a military unit

Page 879

of the Ministry of Defense voluntarily, and on 19.09.2023 died in fighting in the Aghdam-Aghdara direction.

Volume 57, working document: 101-105.

According to **forensic medical examination conclusion No. 72 dated 21.09.2023**, the following bodily injuries were found on the body of Alibekov Alibek Mirkerim oglu: complete charring of the body; multiple wounds with large defects of body tissues; defective, comminuted, open fractures of the frontal and parietal regions and the left lower leg. The said injuries were caused by fragments, fire and a blast wave resulting from the explosion of explosive ammunition. The immediate cause of his death was complete charring of the body.

Volume 307, working sheet: 234-236.

According to the protocol dated 21.09.2023 on the examination of an unknown body identified by the name Imanov Royal Araz oglu, acute deformation of the face of the body, the left and right upper limbs at the level of the middle 1/3, incomplete traumatic severance of the right lower limb in the knee region, complete traumatic severance of the left lower limb from the middle 1/3 of the calf, as well as numerous other injuries were found.

Volume 17, working sheet: 105-106.

Gambarov Yusif Musa oglu, recognized as the legal heir of the victim Garayev Ilkin Yusif oglu, stated in his testimony that his son had been called up for military service in January 2023 and continued his service in a military unit of the Ministry of Defense. On 19.09.2023, he died as a result of rocket fire by the Armed Forces of Armenia during fighting in the direction of Aghdam District.

Volume 66, working sheet: 71-74.

According to **forensic medical examination conclusion No. 73 dated 21.09.2023**, the following bodily injuries were found on the body of Garayev Ilkin Yusif oglu: contused-lacerated thermal burn wounds of the body with multiple extensive tissue defects; open injuries to the organs of the pelvic cavity; incomplete traumatic amputations of both upper limbs; complete traumatic amputation of the left lower limb; multiple comminuted, defective, open fractures of the left temporal bone, mandible and right hip bone. The said injuries resulted from the effects of

Page 880

multiple fragments, fire and a blast wave caused by the explosion of explosive combat ammunition, which are classified as causing serious harm to health. The cause of his death was traumatic-hemorrhagic shock resulting from the injuries sustained (contused-lacerated thermal burn wounds of the body with multiple extensive tissue defects; open injuries to the organs of the pelvic cavity; incomplete traumatic amputations of both upper limbs; complete traumatic amputation of the left lower limb; multiple comminuted, defective, open fractures of the left temporal bone, mandible and right hip bone).

Volume 307, working sheet: 237-240.

According to the protocol dated 21.09.2023, during the examination of the body of officer of a military unit of the Ministry of Defense Gakhramanov Sadyg Sakit oglu, star-shaped wounds measuring 2×1 cm were found in the forehead region of the body, as well as similar wounds measuring 0.8×0.6 cm in the left cheek region, penetrating into the cranial cavity; blood was flowing from the opening, and broken fragments of the skull bones were visible below.

Volume 10, working sheet: 233.

Volume 17, working sheet: 114-115.

Gakhramanov Sakit Balabek oglu, recognized as the legal heir of the victim Gakhramanov Sadyg Sakit oglu, was questioned and stated in his testimony that his son Sadir Gakhramanov had been serving on an extended-term basis in a military unit of the Ministry of Defense, and on 19.09.2023 died after sustaining a bullet wound as a result of shelling by the Armed Forces of Armenia.

Volume 58, working sheet: 98-100.

According to **forensic medical examination conclusion No. 74 dated 21.09.2023**, the following bodily injuries were found on the body of Gakhramanov Sadyg Sakit oglu: crushing of the brain; a through-and-through wound of the cranial cavity with a comminuted

displaced fracture of the skull bones. The said injury resulted from the impact of a projectile (bullet) as a result of two shots from a firearm. The cause of his death was crushing of the brain as a result of a gunshot wound penetrating into the cranial cavity.

Volume 307, working sheet: 241-244.

Page 881

According to the protocol dated 21.09.2023 on the examination of the body of serviceman of a military unit of the Ministry of Defense Idrisov Bakhtiyar Ikhtiyar oglu, numerous bodily injuries were found on his body.

Volume 17, working sheet: 122-123.

Idrisov Ikhtiyar Idris oglu, recognized as the legal heir of the victim Idrisov Bakhtiyar Idris oglu, was questioned and stated in his testimony that his son Bakhtiyar Idrisov had been an extended-term serviceman of a military unit of the Ministry of Defense since October 2022. On 21.09.2023, information was received in Shaki District from the executive representative of the village of Ashaghi Goynuk that his son had died in Aghdam District as a result of shelling by illegal Armenian armed formations.

Volume 50, working sheet: 22-24.

Page 882

According to **forensic medical examination conclusion No. 75 dated 21.09.2023**, the following bodily injuries were found on the body of Idrisov Bakhtiyar Ikhtiyar oglu: a penetrating wound of the abdominal cavity with an entry wound on the left anterior surface of the chest, in the projection of the IX rib along the anterior axillary line, and an exit wound located on the right lateral wall of the abdomen, accompanied by acute blood loss, a fracture of the IX rib and injury to the abdominal organs; injuries accompanied by blind wounds of the soft tissues of the outer surface of the upper 1/3 of the right thigh, the outer surface of the lower 1/3 of the right thigh, the outer surface of the lower 1/3 of the right lower leg, the right buttock region, the inner surface of the lower 1/3 of the right forearm and the dorsal surface of the right hand. Of the said bodily injuries, the penetrating wound of the abdominal cavity with an entry wound on the left anterior surface of the chest, in the projection of the IX rib along the anterior axillary line, and an exit wound located on the right lateral wall of the abdomen, accompanied by acute blood loss, a fracture of the IX rib and injury to the abdominal organs, resulted from a firearm injury; the remaining injuries are characteristic of the effects of a blast wave generated by the explosion of a firearm projectile, secondary fragments from the primary projectile and a blunt mechanism. The cause of death was traumatic-hemorrhagic shock that developed as a result of the injuries sustained.

Volume 307, case sheet: 245-248.

According to the protocol dated 21.09.2023 on the examination of the body of serviceman of a military unit of the Ministry of Defense Gayibov Elvin Ikram oglu, bodily injuries were found on the body.

Volume 10, case sheet: 227.

Volume 17, case sheet: 130-131.

Gayibov Ikram Yagub oglu, recognized as the legal successor of the victim Gayibov Elvin Ikram oglu and questioned, stated in his testimony that his son Elvin Gayibov had voluntarily been serving on an extended-term basis in a military unit of the Ministry of Defense. On 19.09.2023, he received a phone call and was informed that his son had died a martyr's death in fighting in the direction of the Aghdam-Aghdara districts.

Page 883

Volume 57, case sheet: 76-79.

According to **forensic medical examination conclusion No. 76 dated 21.09.2023**, the following bodily injuries were found on the body of Gayibov Elvin Ikram oglu: injuries to the organs of the thoracic cavity; multiple lacerated wounds on the anterior surface of the chest, the anterior surface of the neck, the anterolateral surface of the left arm, the outer surfaces of the right arm and right hand, and the posterior surface of the right hand, accompanied by open hemopneumothorax; comminuted fractures of the right radius and the bones of the II and III fingers of the right hand. The said injuries were caused by fragments and a blast wave resulting from the explosion of explosive ammunition. The cause of death was acute blood loss resulting from the injuries sustained (multiple shrapnel wounds of the body, injuries to the organs of the thoracic cavity, open hemopneumothorax, comminuted fractures of the right radius and the bones of the II and III fingers of the right hand).

Volume 307, case sheet: 249-252.

According to the protocol dated 21.09.2023 on the examination of the body of serviceman of a military unit of the Ministry of Defense Alishanov Agami Mehman oglu, bodily injuries were found on the body.

Volume 17, case sheet: 138-139.

Ahmedova Dilbar Vahid gizi, recognized as the legal successor of the victim Alishanov Agami Mehman oglu and questioned, stated in her testimony that her son Agami Alishanov had voluntarily been serving on an extended-term basis in a military unit of the Ministry of Defense. On 19.09.2023, he was wounded and died as a result of the explosion of a projectile launched from a drone by the Armed Forces of Armenia during hostilities in the direction of Aghdam District.

Volume 57, case sheet: 214-217.

According to **forensic medical examination conclusion No. 78 dated 21.09.2023**, the following bodily injuries were found on the body of Alishanov Agami Mehman oglu: displaced fracture of the distal end of the right humerus, proximal end of the right ulna; a through-and-through gunshot wound of the upper-

Page 884

inner surface of the right buttock, pelvic bone; a through-and-through wound of the rectum; injuries accompanied by wounds to various parts of the body. The said injuries were caused

by multiple fragments and the effects of a blast wave resulting from the explosion of an explosive substance (projectile) and are classified as causing serious harm to health. The cause of death was septic shock that developed as a result of pelvic peritonitis caused by the injuries sustained (displaced fracture of the distal end of the right humerus, proximal end of the right ulna, through-and-through gunshot wound of the upper-inner surface of the right buttock, pelvic bone, through-and-through wound of the rectum, injuries to various parts of the body).

Volume 325, case sheet: 3-6.

According to the protocol dated 21.09.2023 on the examination of the body of serviceman of a military unit of the Ministry of Defense Mammadov Ramil Habil oglu, the following bodily injuries were found on the body: a reddish wound penetrating into the cranial cavity in the right zygomatic region; a blind wound with a fragment of the zygomatic bone broken off and visible scattered brain tissue; a bluish-purple bruise measuring 5×1 cm in the right paraorbital region; a blind wound with hemorrhage on the outer surface of the lower 1/3 of the right thigh.

Volume 17, case sheet: 146-147.

Mammadov Habil Bahram oglu, recognized as the legal successor of the victim Mammadov Ramil Habil oglu and questioned, stated in his testimony that his son Ramil Mammadov had been performing compulsory military service in a military unit of the Ministry of Defense since January 2023. On 19.09.2023, he died from a shrapnel wound to the head during fighting in the direction of Khankendi.

Volume 60, case sheet: 223-225.

According to **forensic medical examination conclusion No. 79 dated 21.09.2023**, the following bodily injuries were found on the body of Mammadov Ramil Habil oglu: a stab wound of the right temporal bone; linear fractures of the skull-base bones; a blood suffusion in the right paraorbital region; a blind wound of the right temporal region penetrating into the cranial cavity and accompanied by diffuse

Page 885

injury to the brain tissue; fracture of the femur of the right thigh with a wound on the right, accompanied by acute blood loss; a blind wound of the outer surface of the lower 1/3 of the right femoral artery, characteristic of injuries resulting from a shot from a firearm. The cause of death was diffuse injury to the brain tissue resulting from a blind gunshot wound of the right temporal region penetrating into the cranial cavity.

Volume 21, case sheet: 5-8.

According to the protocol dated 21.09.2023 on the examination of the body provisionally designated as "Unknown No. 6," it was established that numerous bodily injuries were present on the body.

Volume 17, case sheet: 154-155.

Since the unidentified body provisionally designated by the number “6” was believed to belong to Mekhtiyev Shahriyar Mubariz oglu, serviceman of military unit No. 877 of the Ministry of Defense, on the basis of the protocol dated 22.09.2023 the body was presented for identification to his father Mekhtiyev Mubariz Ali oglu, and Mubariz Mekhtiyev confirmed that the body belonged to his son Shahriyar Mekhtiyev.

Volume 17, case sheet: 160-161.

Mekhtiyev Mubariz Ali oglu, recognized as the legal successor of the victim Mekhtiyev Shahriyar Mubariz oglu and questioned, stated in his testimony that his son Shahriyar Mekhtiyev had been performing compulsory military service in a military unit of the Ministry of Defense since January 2023. On 19.09.2023, he died a martyr's death during fighting in the direction of Aghdam District.

Volume 66, case sheet: 49-52.

According to **forensic medical examination conclusion No. 77 dated 21.09.2023**, the following bodily injuries were found on the body of Mekhtiyev Shahriyar Mubariz oglu: multiple extensive wounds with tissue defects in the right temporal region, posterior part of the neck, posterior part of the chest, right side of the back, on the posterior surface of the right forearm, on the anterior and posterior surfaces of the right

Page 886

arm, on the right buttock, on the left buttock, on the right thigh, and on the left lower leg; wounds penetrating into the cranial cavity and accompanied by contusion and disintegration of the brain; defective, comminuted, open fractures of the cranial vault and the right scapula. The said injuries were caused by shrapnel and a blast wave resulting from the explosion of explosive ammunition. The immediate cause of death was contusion and disintegration of the brain.

Volume 21, case sheet: 1-4.

According to the protocol dated 21.09.2023 on the examination of the body of serviceman of a military unit of the Ministry of Defense, warrant officer Hasanov Shamil Shiraslan oglu, the following bodily injuries were found on the body: on the anterior surface of the left half of the chest in the II-III intercostal projection along the midclavicular line, a relative oval-shaped tissue defect measuring 3.5×2.5 cm, penetrating into the thoracic cavity.

Volume 17, case sheet: 162-163.

Hasanov Shiraslan Ali oglu, recognized as the legal successor of the victim Hasanov Shamil Shiraslan oglu and questioned, stated in his testimony that his son Bakhtiyar Idrisov had voluntarily been serving on an extended-term basis in a military unit of the Ministry of Defense since 2014. On 21.09.2023, he was informed that his son had died a martyr's death during hostilities in the direction of Aghdam District as a result of shelling opened by illegal Armenian armed formations.

Volume 50, case sheet: 76-78.

According to **forensic medical examination conclusion No. 80 dated 21.09.2023**, the following bodily injuries were found on the body of Hasanov Shamil Shiraslan oglu: injuries to the organs of the thoracic cavity; a blind wound penetrating into the thoracic cavity, accompanied by open hemopneumothorax. The said injury resulted from the impact of a projectile (bullet) as a result of two shots from a firearm. The cause of death was acute blood loss resulting from injury to the organs of the thoracic cavity and a blind penetrating wound of the thoracic cavity accompanied by open hemopneumothorax.

Page 887

Volume 21, case sheet: 9-11.

According to the protocol dated 21.09.2023 on the examination of the body provisionally designated as "Unknown No. 8," it was established that numerous bodily injuries were found on the body.

Volume 17, case sheet: 170-171.

Since the unidentified body provisionally designated by the number "8" was believed to belong to Tagizade Jahangir Gurban oglu, serviceman of military unit No. 661 of the Ministry of Defense, on the basis of the protocol dated 22.09.2023 the body was presented for identification to his father Tagiyev Gurban Jahangir oglu, and Gurban Tagiyev confirmed that the body belonged to his son Jahangir Tagizade.

Volume 17, case sheet: 176-178.

According to **forensic medical examination conclusion No. 81 dated 21.09.2023**, the following bodily injuries were found on the body of Tagizade Jahangir Gurban oglu: injuries to the organs of the thoracic and abdominal cavities; open hemopneumothorax; one blind wound penetrating into the thoracic and abdominal cavities, accompanied by an open fragmented fracture of the left IX rib; multiple stab-lacerated wounds with tissue defects in the lumbar region, right buttock, on the posterior surface of the middle 1/3 of the right forearm, on the outer surface of the right hip joint, on the outer surface of the middle 1/3 of the left thigh, on the upper surface of the left foot, in the heel region; multi-fragment displaced fractures of the V lumbar vertebra, coccyx, femur, II, III, IV and V metacarpal bones and the carpal bones on the left. One blind wound penetrating into the chest and abdomen was sustained as a result of a gunshot wound; the remaining wounds resulted from fragments and a blast wave caused by the explosion of an explosive device. The cause of death was acute blood loss resulting from the injuries sustained (injuries to the organs of the thoracic and abdominal cavities, open hemopneumothorax, one blind wound penetrating into the thoracic and abdominal cavities, accompanied by an open fragmented fracture of the left IX rib, multiple stab-lacerated wounds with tissue defects in the lumbar region, right buttock, on the posterior surface of the middle 1/3 of the right forearm, on the outer surface of the right hip joint, on the

Page 888

outer surface of the middle 1/3 of the left thigh, on the upper surface of the left foot, in the heel region; multi-fragment displaced fractures of the V lumbar vertebra, coccyx, femur, II, III, IV and V metacarpal bones and the carpal bones on the left).

Volume 21, case sheet: 12-15.

According to the protocol dated 21.09.2023 on the examination of the body of serviceman of a military unit of the Ministry of Defense Bayramov Ikhtiyar Bayram oglu, bodily injuries were found on the body.

Volume 17, case sheet: 179-181.

Bayramov Bayram Zeynal oglu, recognized as the legal successor of the victim Bayramov Ikhtiyar Bayram oglu and questioned, stated in his testimony that his son Ikhtiyar Bayramov had voluntarily been serving on an extended-term basis in military unit No. 702 of the Ministry of Defense. On 19.09.2023, he received a phone call and was informed that his son had died a martyr's death from a gunshot wound sustained in fighting in the direction of the Aghdam-Aghdara-Gyulabinsky districts.

Volume 57, case sheet: 50-54.

According to **forensic medical examination conclusion No. 82 dated 21.09.2023**, the following bodily injuries were found on the body of Bayramov Ikhtiyar Bayram oglu: diffuse injury to the brain tissue; a blind wound of the right temporal region penetrating into the cranial cavity, accompanied by fractures of the skull bones; blind wounds of the soft tissues of the right cheekbone, right earlobe, left frontotemporal region and right frontal lobe; injuries accompanied by multiple abrasions on the posterior surface of the middle 1/3 of the right arm, outer surface of the middle 1/3 of the right forearm, anterolateral surface of the right knee joint, and both lower legs. Of the said injuries, the injuries accompanied by multiple abrasions on the posterior surface of the middle 1/3 of the right arm, outer surface of the middle 1/3 of the right forearm, anterolateral surface of the right knee joint, and both lower legs resulted from the impact of a blunt mechanism, a hard blunt object; the other injuries are characterized by

Page 889

formation under the effects of a blast wave generated by the explosion of a firearm projectile, secondary shrapnel from the primary projectile and a blunt mechanism.

Volume 21, case sheet: 16-20.

According to the protocol dated 21.09.2023 on the examination of the body of an extended-term serviceman of a military unit of the Ministry of Defense Huseynzade Ramazan Hamdullah oglu, numerous bodily injuries were found on the body.

Volume 17, case sheet: 187-188.

Huseynov Hamdullah Dovlat oglu, recognized as the legal successor of the victim Huseynzade Ramazan Hamdullah oglu and questioned, stated in his testimony that his son Ramazan Huseynzade had voluntarily been serving on an extended-term basis in a military unit of the Ministry of Defense. On 20.09.2023, he was informed that his son had died a martyr's death from a gunshot wound sustained in fighting in the direction of Khojaly District.

Volume 58, case sheet: 6-8.

According to **forensic medical examination conclusion No. 83 dated 21.09.2023**, the following bodily injuries were found on the body of Huseynzade Ramazan Hamdullah oglu: a marginal wound on the upper lip and a wound channel passing through the front incisors and the projection of the left upper 3rd, 4th and 5th teeth and the hard palate region and penetrating into the cranial cavity; fractures of the left upper 3rd, 4th and 5th teeth; on the left anterior surface of the neck, a wound with an irregular tissue defect on the lateral surface, on the right over the carotid artery, similar to the wound described above; one wound with a somewhat wider ring in the lower part at the level of the upper edge of the right shoulder joint; one wound at the level of the upper edge of the left axillary fossa; one wound on the posterior surface of the right shoulder joint; one wound connecting the middle and posterior axillary lines in the left axillary fossa; one wound on the left posterior surface of the chest, 2.0 centimeters to the left of the midline; a penetrating wound of the neck into the thoracic cavity; injury to the left axillary artery and vein; an open comminuted fracture of the articular head of the right scapula. The said injuries were caused by several projectiles from a firearm that fragmented upon impact. The cause of death was acute

Page 890

hemorrhagic and traumatic shock resulting from wounds penetrating into the thoracic and abdominal cavities, accompanied by injury to the internal organs, the left carotid artery and vein, and the left axillary artery and vein.

Volume 325, case sheet: 26-29.

According to the protocol dated 21.09.2023 on the examination of the body of serviceman of a military unit of the Ministry of Defense Giyasli Davud Telman oglu, numerous bodily injuries were found on the body.

Volume 17, case sheet: 195-196.

Giyasov Telman Feyruz oglu, recognized as the legal successor of the victim Giyasli Davud Telman oglu and questioned, stated in his testimony that his son Davud Giyasli had been performing compulsory military service in a military unit of the Ministry of Defense since 23.01.2023. On 19.09.2023, he was wounded and died from a bullet fired by the Armenian Armed Forces during hostilities in the direction of Aghdam District.

Volume 58, case sheet: 30-32.

According to **forensic medical examination conclusion No. 84 dated 21.09.2023**, the following bodily injuries were found on the body of Giyasli Davud Telman oglu: injuries to the organs of the thoracic cavity; through-and-through wounds of the thoracic cavity and soft tissues of the right shoulder, accompanied by open hemopneumothorax, resulting from the impact of projectiles (bullets) as a result of two shots from a firearm. The cause of death was acute blood loss resulting from through-and-through wounds of the thoracic cavity and soft tissues of the right shoulder, accompanied by open hemopneumothorax.

Volume 21, case sheet: 21-24.

According to the protocol dated 21.09.2023 on the examination of the body of serviceman of a military unit of the Ministry of Defense Shikhaliyev Jeyhun Oktay oglu, numerous bodily injuries were found on the body.

Page 891

Volume 17, case sheet: 203-204.

Shikhaliyev Oktay Eynulla oglu, recognized as the legal successor of the victim Shikhaliyev Jeyhun Oktay oglu and questioned, stated in his testimony that his son Jeyhun had voluntarily been serving on an extended-term basis in a military unit of the Ministry of Defense. On 19.09.2023, his son died a martyr's death during fighting in the direction of Aghdara District.

Volume 57, case sheet: 88-92.

According to **forensic medical examination conclusion No. 85 dated 21.09.2023**, the following bodily injuries were found on the body of Shikhaliyev Jeyhun Oktay oglu: injury to the left lung; left-sided open hemopneumothorax; contused-lacerated wounds on the left side of the back penetrating into the thoracic cavity, on the left side of the back, in the right supraspinous region, on the outer surface of the upper 1/3 of the left upper arm, on the outer surface of the lower 1/3 of the left upper arm, and on the outer surface of the lower 1/3 of the right thigh, accompanied by open comminuted fractures of the left scapula, the left V rib, and open comminuted fractures of the left humerus. The wound penetrating into the thoracic cavity resulted from a shot from a firearm, while the other injuries resulted from multiple fragments caused by the explosion of an explosive device (projectile). The cause of death was acute blood loss resulting from the injuries sustained (injury to the left lung, left-sided open hemopneumothorax, open comminuted fractures of the left scapula and left V rib, multiple shrapnel wounds of the body, open comminuted fractures of the left humerus).

Volume 21, case sheet: 25-28.

According to the protocol dated 21.09.2023 on the examination of the body of serviceman of a military unit of the Ministry of Defense Babashov Ujal Narbala oglu, deformation and numerous bodily injuries were found on the body.

Volume 17, case sheet: 211-213.

Page 892

Babashov Narbala Beybala oglu, recognized as the legal successor of the victim Babashov Ujal Narbala oglu and questioned, stated in his testimony that his son Ujal Babashov had voluntarily been serving on an extended-term basis in a military unit of the Ministry of Defense. On 20.09.2023, his son died a martyr's death during fighting in the direction of Khojavend District.

Volume 60, case sheet: 112-114.

According to **forensic medical examination conclusion No. 86 dated 21.09.2023**, the following bodily injuries were found on the body of Babashov Ujal Narbala oglu: diffuse injury to the brain tissue; a blind wound of the parietal part of the head penetrating into the

cranial cavity, accompanied by fractures of the skull bones; blind wounds penetrating into the thoracic cavity of the left half of the chest and the anterior chest wall, accompanied by acute blood loss, multiple open displaced fractures of the left VIII, IX and X ribs, and injury to the left lung and heart; acute blood loss; an open multi-fragment displaced fracture of the femur; a penetrating wound of the right thigh with an entry wound on the inner surface of the lower 3/1 of the right thigh and an exit wound on the outer surface of the upper 3/1 of the right thigh, accompanied by injury to the femoral artery; traumatic amputation of the left upper limb at the upper 1/3-1 level, accompanied by multi-fragment open displaced fractures of the left humerus and radius; multiple blind wounds of the soft tissues of the right axillary region, the anterior and inner surface of the right wrist joint, the II, III, IV and V fingers of the right hand, and the soft tissues of the palmar surface of the right hand, which as a whole, in terms of severity, are classified as injuries causing serious harm to the health of living persons and entailing their death. Of the said injuries, the through-and-through wound of the right thigh resulted from a shot from a firearm; the remaining injuries are characteristic of formation under the effects of a blast wave generated by the explosion of a firearm projectile, secondary fragments from the primary projectile and a blunt mechanism. The cause of death was traumatic-hemorrhagic shock that developed as a result of the injuries sustained. The cause of death was diffuse injury to the brain tissue resulting from a blind shrapnel wound of the parietal part of the head penetrating into the cranial cavity.

Volume 21, case sheet: 29-33.

Page 893

According to the protocol dated 21.09.2023 on the examination of the body of serviceman of a military unit of the Ministry of Defense Novruzzade Huseyn Faig oglu, the body was burned and numerous bodily injuries were found on the body.

Volume 17, case sheet: 221-222.

Novruzov Faig Ajdar oglu, recognized as the legal successor of the victim Novruzzade Huseyn Faig oglu and questioned, stated in his testimony that his son Novruzzade Huseyn Faig oglu had been performing compulsory military service in a military unit of the Ministry of Defense since April 2022. On 20.09.2023, he received a phone call and was informed that his son had died a martyr's death during fighting in the direction of Aghdara District.

Volume 33, case sheet: 207-209.

According to **forensic medical examination conclusion No. 87 dated 21.09.2023**, the following bodily injuries were found on the body of Novruzzade Huseyn Faig oglu: a wound in the right parietal region of the head with visible fractures of the skull bones; one wound in the right upper occipital region and one in the left lower occipital region penetrating into the cranial cavity; an extensive wound in the right shoulder region, large in size, extending to the middle 1/3 of the neck and with a tissue defect; wounds penetrating into the thoracic cavity in the projection of the right shoulder joint, on the outer surface of the middle 1/3 of the right upper arm, in the right axillary region, on the right lateral surface of the chest; a wound in the projection of the right femur; one penetrating wound of the chest at the level of the V-VI thoracic vertebrae on the posterior surface of the chest; one wound on the right posterior surface of the chest in the VII-VIII intercostal space along the spinal line; one wound slightly above the upper outer quadrant of the right buttock; amputation of the lower 1/3 of the radial

part of the left arm; amputation of the lower 1/3 of the radial part of the right arm, hanging on a skin-muscle flap; the edges of the wounds were stripped and bleeding. The formation of the said injuries is characteristic of the effects of the general damaging factors of a firearm fragmenting upon explosion, that is, multiple primary and secondary projectiles. The cause of death was contusion and rupture of the brain tissue resulting from multiple gunshot wounds penetrating into the cranial and thoracic cavities.

Page 894

Volume 325, case sheet: 22-25.

According to the protocol dated 21.09.2023 on the examination of the body of serviceman of a military unit of the Ministry of Defense Dunyamaliyev Rustam Narman oglu, numerous bodily injuries were found on the body.

Volume 17, case sheet: 229-230.

Dunyamaliyeva Aytan Haji gizi, recognized as the legal successor of the victim Dunyamaliyev Rustam Narman oglu and questioned, stated in her testimony that her husband Rustam Dunyamaliyev had voluntarily been serving on an extended-term basis in a military unit of the Ministry of Defense in the military rank of soldier since February 2022. On 20.09.2023, he died from a bullet wound to the chest as a result of shelling by illegal armed formations of Armenia during hostilities in the direction of Khojaly District.

Volume 340, case sheet: 81-83.

According to **forensic medical examination conclusion No. 88 dated 21.09.2023**, the following bodily injuries were found on the body of Dunyamaliyev Rustam Narman oglu: injuries to the organs of the thoracic cavity accompanied by hemopneumothorax; through-and-through wounds of the left shoulder accompanied by a blind fracture of the thoracic cavity and an open comminuted fracture of the humerus; abrasions encompassing the lower part of the back and buttocks. The abrasions on the back and buttocks were caused by the impact of a hard blunt object; the other injuries were caused by the impact of a projectile (bullet) fired from a firearm. The cause of death was acute blood loss resulting from through-and-through wounds of the thoracic cavity and soft tissues of the right shoulder, accompanied by injury to the organs of the thoracic cavity and acute hemopneumothorax.

Volume 21, case sheet: 34-37.

According to the protocol dated 22.09.2023 on the examination of the body of serviceman of a military unit of the Ministry of Defense Aliyev Talib Elman oglu, numerous bodily injuries were found on the body.

Page 895

Volume 10, case sheet: 1-3.

Aliyev Elman Talib oglu, recognized as the legal successor of the victim Aliyev Talib Elman oglu and questioned, stated in his testimony that in July 2022 his son was called up for compulsory military service and continued his service in a military unit of the Ministry of

Defense. On 20.09.2023, he died a martyr's death after sustaining a bullet wound to the abdominal cavity during fighting in the direction of Khojavend District.

Volume 66, case sheet: 93-96.

According to **forensic medical examination conclusion No. 90 dated 22.09.2023**, the following bodily injuries were found on the body of Aliyev Talib Elman oglu: a blind penetrating wound of the right lateral wall of the chest, accompanied by acute bleeding, fractures of the right VIII, IX and X ribs and injuries to the organs of the thoracic cavity; a blind wound of the left buttock region penetrating into the pelvic bone, accompanied by acute bleeding, injury to the organs of the pelvic cavity and fracture of the pelvic bone; a through-and-through wound of the soft tissues of the outer posterior surface of the upper 1/3 of the right lower leg; blind wounds of the soft tissues of the right lumbar region, right femoral surface, outer surface of the right thigh and right foot; abrasions on the left half of the face and the left earlobe — the formation of which is characteristic of the effects of a blast wave generated by the explosion of a firearm projectile, secondary fragments from the primary projectile and a blunt mechanism. The cause of death was traumatic-hemorrhagic shock resulting from wounds sustained in the explosion of a firearm projectile.

Volume 21, case sheet: 42-45.

According to the protocol dated 22.09.2023 on the examination of the body of serviceman of a military unit of the Ministry of Defense Huseynov Magerram Alashraf oglu, multiple wounds with tissue damage and other bodily injuries were found on the body.

Volume 10, case sheet: 11-12.

Page 896

Huseynov Gurban Alashraf oglu, recognized as the legal successor of the victim Huseynov Magerram Alashraf oglu and questioned, stated in his testimony that his brother Magerram Huseynov had voluntarily been serving on an extended-term basis in a military unit of the Ministry of Defense. On 20.09.2023, he died a martyr's death after sustaining numerous wounds as a result of the explosion of a projectile fired by Armenian armed formations during fighting in the direction of Aghdara District.

Volume 58, case sheet: 12-14.

According to **forensic medical examination conclusion No. 89 dated 22.09.2023**, the following bodily injuries were found on the body of Huseynov Magerram Alashraf oglu: open injuries to the thoracic and abdominal cavities; contused-abraded-lacerated wounds of both scapulae, the neck, posterior surface of the right upper arm, left subclavian region, left axillary region, anterior surface of the middle third of the left upper arm, anterior abdominal wall, left lumbar region, encompassing the middle and upper 1/3 of the right lower leg, on the anterior surface of the left knee joint, extending from the lower 1/3 of the right lower leg to the lower part of the foot, accompanied by open multiple comminuted fractures of the ribs, scapulae and calcaneus of the right foot. The said injuries were caused by multiple fragments and a blast wave resulting from the explosion of explosive combat ammunition. The cause of death was traumatic-hemorrhagic shock associated with the injuries sustained (open injuries to the thoracic and abdominal cavities; contused-abraded-lacerated wounds of both scapulae,

the neck, posterior surface of the right upper arm, left subclavian region, left axillary region, anterior surface of the middle third of the left upper arm, anterior abdominal wall, left lumbar region, encompassing the middle and upper 1/3 of the right lower leg, on the anterior surface of the left knee joint, extending from the lower 1/3 of the right lower leg to the lower part of the foot, accompanied by open multiple comminuted fractures of the ribs, scapulae and calcaneus of the right foot).

Volume 21, case sheet: 38-41.

Page 897

According to the protocol dated 22.09.2023 on the examination of the body of serviceman of a military unit of the Ministry of Defense Aliyev Togrul Ilyas oglu, the head and face of the body were severely deformed, and numerous injuries were found on the body.

Volume 10, case sheet: 19-20.

Aliyeva Gyzylgul Agamusa gizi, recognized as the legal successor of the victim Aliyev Togrul Ilyas oglu and questioned, stated in her testimony that her son Togrul Aliyev had been serving on an extended-term basis in a military unit of the Ministry of Defense since March 2021. On 22.09.2023, she was informed that on 22.09.2023 her son had died as a result of shelling opened by illegal Armenian armed formations during fighting in the direction of Khojavend District.

Volume 51, case sheet: 161-163.

According to **forensic medical examination conclusion No. 91 dated 22.09.2023**, the following bodily injuries were found on the body of Aliyev Togrul Ilyas oglu: injury to the organs of the thoracic cavity; open hemopneumothorax; incomplete traumatic amputation of the left upper limb at the level of the shoulder girdle, of the II finger of the left hand at the level of the metacarpophalangeal joint, of the III finger at the level of the proximal interphalangeal joint, and of the right lower limb at the level of the upper 1/3 of the lower leg; displaced fractures of the left II and III ribs and the right I and II ribs; multiple stab-lacerated wounds with extensive tissue defects extending from the left corner of the jaw to the right half of the upper lip, in the area of the left scapula, on the anterior surface of the chest, on the anterior abdominal wall, on the anterolateral surface of the upper 1/3 of the right upper arm, on the posterior surface of the right arm, on the anterior surface of the right thigh, on the anterior surface of the left arm, on the inner surface of the left thigh, on the anterolateral surface of the left knee, and on the inner surface of the left lower leg. The said injuries were caused by multiple fragments and a blast wave generated by the explosion of explosive combat ammunition (projectile). The cause of death was traumatic-hemorrhagic shock associated with the injuries sustained (injury to the organs of the thoracic cavity, open hemopneumothorax, incomplete traumatic amputation of the left upper limb at the level of the shoulder girdle, of the II finger of the left hand at the level of the metacarpophalangeal joint, of the III finger at the level of the proximal interphalangeal joint, and of the right lower limb at the level of the

Page 898

upper 1/3 of the lower leg; displaced fractures of the left II and III ribs and the right I and II ribs; multiple stab-lacerated wounds with extensive tissue defects extending from the left corner of the jaw to the right half of the upper lip, in the area of the left scapula, on the anterior surface of the chest, on the anterior abdominal wall, on the anterolateral surface of the upper 1/3 of the right upper arm, on the posterior surface of the right arm, on the anterior surface of the right thigh, on the anterior surface of the left arm, on the inner surface of the left thigh, on the anterolateral surface of the left knee, and on the inner surface of the left lower leg).

Volume 21, case sheet: 46-49.

According to the protocol dated 22.09.2023 on the examination of the body of serviceman of a military unit of the Ministry of Defense Mammadov Eltun Vugar oglu, numerous injuries were found on the body.

Volume 10, case sheet: 29-30.

Mammadov Vugar Jamal oglu, recognized as the legal successor of the victim Mammadov Eltun Vugar oglu and questioned, stated in his testimony that in July 2023 his son was called up for compulsory military service and continued his service in a military unit of the Ministry of Defense. On 20.09.2023, he died a martyr's death after sustaining a bullet wound during fighting in the direction of Khojavend District.

Volume 66, case sheet: 82-85.

According to **forensic medical examination conclusion No. 92 dated 22.09.2023**, the following bodily injuries were found on the body of Mammadov Eltun Vugar oglu: a blind wound of the left lateral surface of the middle 1/3 of the neck penetrating into the thoracic cavity, accompanied by acute bleeding, injury to the major vessels of the neck, the clavicular artery and the organs of the thoracic cavity; a blind wound of the lower third of the outer surface of the left lower leg, accompanied by acute bleeding and comminuted, displaced, open fractures of the fibula and tibia; a wound touching and penetrating into the large fold of the left earlobe. The said wounds are characteristic of injuries resulting from a shot from a firearm. The cause of death

Page 899

was traumatic-hemorrhagic shock that developed as a result of the injuries sustained.

Volume 21, case sheet: 50-53.

According to the protocol dated 22.09.2023, based on the results of the examination of body parts presumed to belong to servicemen of a military unit of the Ministry of Defense **Khalilov Yusif Mammadrza oglu, Suleymanov Elshad Mammad oglu and Mammadov Samir Agil oglu**, the body parts were contaminated with soil and lubricating oil. The following were taken for forensic genetic examination: 1) the articular head of the left femur, 2) the proximal articular head of the left humerus, 3) the distal articular head of the left femur, 4) the nail phalanx of the second toe of the left foot, 5) two bone fragments taken from tissues inside a bag presented together with the body.

According to the protocol dated 29.09.2023 on the examination of the place of death of servicemen of a military unit of the Ministry of Defense **Khalilov Yusif Mammadrza oglu, Suleymanov Elshad Mammad oglu and Mammadov Samir Agil oglu** (the village of Papravand, Aghdam District), it was established that **T-72 tank No. 139** had been completely destroyed and its metal parts were scattered. During the examination of the scene, numerous small bone fragments, as well as samples of teeth and palate, presumably belonging to Khalilov Yusif Mammadrza oglu, were collected and duly packaged for use in genetic examination.

Volume 32, case sheet: 255-259.

Mammadov Agil Hasay oglu, recognized as the legal successor of the victim Mammadov Samir Agil oglu and questioned, stated in his testimony that his son Samir Mammadov had voluntarily been serving on an extended-term basis in a military unit of the Ministry of Defense. On 19.09.2023, he received a phone call and was informed that his son had died a martyr's death during fighting in the direction of the Aghdam-Aghdara districts. On 19.09.2023, he received information from his son's fellow servicemen that his son had died from multiple shrapnel wounds as a result of fire opened by illegal Armenian armed formations during fighting in Karabakh.

Volume 51, case sheet: 83-85.

Page 900

Suleymanli Mammad Tahmaz oglu, recognized as the legal successor of the victim Suleymanov Elshad Mammad oglu and questioned, stated in his testimony that his son Elshad had voluntarily been serving on an extended-term basis in a military unit of the Ministry of Defense. On 19.09.2023, he received a phone call and was informed that his son had died a martyr's death during fighting in the direction of the Aghdam-Aghdara districts. On 19.09.2023, he received information from his son's fellow servicemen that his son had died from multiple shrapnel wounds as a result of fire opened by illegal Armenian armed formations during fighting in Karabakh.

Volume 51, case sheet: 72-74.

Khalilova Gulnar Mahabbat gizi, recognized as the legal successor of the victim Khalilov Yusif Mammadrza oglu and questioned, stated in her testimony that her husband Yusif Khalilov had been serving on an extended-term basis in a military unit of the Ministry of Defense. On 19.09.2023, he died a martyr's death during fighting in the direction of Aghdara District.

Volume 60, case sheet: 207-209.

According to **forensic medical expert conclusion No. 93 dated 22.09.2023**, the traumatic dismemberment of the body of Khalilov Yusif Mammadrza oglu into small parts, incompatible with life, occurred as a result of the effects of multiple fragments, a blast wave and flame generated by the explosion of an explosive substance (projectile). The cause of death was traumatic dismemberment of the body into small parts incompatible with life.

Volume 325, case sheet: 7-11.

According to **forensic medical expert conclusion No. 95 dated 22.09.2023**, the traumatic dismemberment of the body of Mammadov Samir Agil oglu into small parts, incompatible with life, occurred as a result of the effects of multiple fragments, a blast wave and flame generated by the explosion of an explosive substance (projectile). The cause of death was traumatic dismemberment of the body into small parts incompatible with life.

Page 901

Volume 325, case file pages: 17–21.

According to forensic medical expert opinion No. 94 dated 22 September 2023, the traumatic dismemberment of the body of **Suleymanov Elshad Mammad oglu** into small parts incompatible with life occurred as a result of the impact of numerous fragments, a blast wave and flames generated by the explosion of an explosive substance (projectile). The cause of death was the traumatic dismemberment of the body into small parts incompatible with life.

Volume 325, case file pages: 12–16.

According to the protocol dated 22 September 2023 on the examination of the body of **Museyibli Iskandar Ganbar oglu**, a serviceman of a military unit of the Ministry of Defence, multiple bodily injuries were found on the body.

Volume 10, case file pages: 60–61.

Museyibli Elnur Ganbar oglu, recognized as the legal successor of the victim **Museyibli Iskandar Ganbar oglu** and questioned, stated in his testimony that his brother had served in a military unit of the Ministry of Defence since 2013, and that on 20 September 2023 he received a telephone call informing him that his brother had been killed in fighting in the direction of **Khojavend District**.

Volume 46, case file pages: 100–103.

According to forensic medical expert opinion No. 96 dated 22 September 2023, the following bodily injuries were found on the body of **Museyibli Iskandar Ganbar oglu**: a single blind wound to the right thigh with damage to the femoral artery and soft tissues; superficial wounds to the earlobe, the large fold of the right ear, the posterior surface of the earlobe, in the area behind the right ear, as well as a scratch on the inner surface of the upper third of the left lower leg. The wound to the right thigh was caused by a bullet fired from a firearm and is classified as a serious injury resulting in death, while the remaining injuries were caused by the impact of a hard blunt object. The cause of death was acute blood loss resulting from damage to the femoral artery and the soft tissues of the right thigh.

Page 902

Volume 21, case file pages: 54–57.

According to the protocol dated 22 September 2023 on the examination of the body of **Ahmadov Vilayat Dilafat oglu**, a serviceman of a military unit of the Ministry of Defence, multiple bodily injuries were found in the chest and abdominal areas.

Volume 10, case file pages: 69–70.

Ahmadov Dilafat Nasir oglu, recognized as the legal successor of the victim **Ahmadov Vilayat Dilafat oglu** and questioned, stated in his testimony that his son Vilayat had served in a military unit of the Ministry of Defence since September 2023. On 21 September 2023, he received a telephone call from the rural executive authority of **Minakhorlu, Aghjabadi District**, informing him that his son had been killed as a result of the explosion of a projectile fired by illegal Armenian armed formations in **Aghdam District**.

Volume 48, case file pages: 9–11.

According to forensic medical expert opinion No. 97 dated 22 September 2023, the following bodily injuries were found on the body of **Ahmadov Vilayat Dilafat oglu**: a penetrating wound to the chest with an entrance wound in the area of the right shoulder and an exit wound on the right lateral surface of the chest, in the second intercostal space along the anterior axillary line, accompanied by acute blood loss, right-sided hemopneumothorax (accumulation of free blood and air in the thoracic cavity) and damage to the thoracic cavity; multiple superficial wounds to the posterior and lateral surfaces of the left half of the chest, the right lumbar region and the right half of the anterior abdominal wall, which, in terms of severity, were recognized as signs of serious harm to the health of a living person and resulted in death. Of the specified injuries: the penetrating wound to the chest with an entrance wound in the area of the right shoulder and an exit wound on the right lateral surface of the chest, in the second intercostal space along the anterior axillary line, accompanied by acute blood loss, right-sided hemopneumothorax (accumulation of free blood and air in the thoracic cavity) and damage to the thoracic cavity; multiple superficial wounds to the posterior and lateral surfaces of the left half of the chest, the right lumbar region and the right half of the anterior

Page 903

abdominal wall — were caused by shots from a firearm, while the other injuries were caused by the blast wave generated by the explosion of a firearm, as well as by secondary fragments from the primary and blunt mechanism. The cause of death was traumatic-haemorrhagic shock that developed as a result of the injuries sustained.

Volume 21, case file pages: 58–61.

According to the protocol dated 22 September 2023 on the examination of the body of **Dunyamaliyev Islam Teymur oglu**, a serviceman of a military unit of the Ministry of Defence, the following injuries were found on the body: on the outer surface of the left hip joint, a wound measuring 0.6×0.6 cm with a crescent-shaped scar along the lower edge and tissue defects; on the right side of the abdomen, a wound measuring 2.5×1.5 cm with uneven edges, with a characteristic peeling appearance, accompanied by continuous bleeding from the opening.

Volume 10, case file pages: 80–81.

Dunyamaliyeva Gulshan Agalar gizi, recognized as the legal successor of the victim **Dunyamaliyev Islam Teymur oglu** and questioned, stated in her testimony that her son Islam Dunyamaliyev had been performing extended military service in a military unit of

the Ministry of Defence since July 2022. She was informed that on 20 September 2023 her son had been killed as a result of fire opened by illegal Armenian armed formations.

Volume 51, case file pages: 138–140.

According to forensic medical expert opinion No. 100 dated 22 September 2023, the following bodily injuries were found on the body of **Dunyamaliyev Islam Teymur oglu**: damage to the pelvic organs, a through-and-through wound of the pelvis accompanied by a fracture of the left femur. The specified injury was caused by the impact of a projectile (bullet) as a result of two shots fired from a firearm. The cause of death was acute blood loss resulting from damage to the pelvic organs and a through-and-through wound of the pelvis accompanied by a fracture of the left femur.

Volume 21, case file pages: 70–74.

Page 904

According to the protocol dated 22 September 2023 on the examination of the body of **Jafarov Hazar Galib oglu**, a serviceman of a military unit of the Ministry of Defence, multiple bodily injuries were found on the body.

Volume 10, case file pages: 89–90.

Jafarova Sakhira Teymur gizi, recognized as the legal successor of the victim **Jafarov Hazar Galib oglu** and questioned, stated in her testimony that her brother Hazar Jafarov was performing extended military service in a military unit of the Ministry of Defence. On 19 September 2023, he was killed after sustaining shrapnel wounds as a result of the explosion of a projectile fired by Armenian armed formations during fighting in the direction of **Aghdara District**.

Volume 58, case file pages: 67–69.

According to forensic medical expert opinion No. 101 dated 22 September 2023, the following bodily injuries were found on the body of **Jafarov Hazar Galib oglu**: a blind wound to the upper third of the outer surface of the neck, accompanied by acute bleeding, damage to the left carotid artery and the organs of the neck; a blind wound in the right subscapular region, accompanied by severe bleeding and damage to the organs of the thoracic cavity; injuries accompanied by multiple superficial wounds to the neck, the upper third of the left arm, the anterior surface of the right knee joint and both lower legs. Of the specified injuries: the blind wound to the upper third of the outer surface of the neck, accompanied by acute bleeding, damage to the left carotid artery and the organs of the neck, and the blind wound in the right subscapular region, accompanied by severe bleeding and damage to the organs of the thoracic cavity, were caused by a shot from a firearm; the other injuries were characteristic of the effects of a blast wave generated by the explosion of a firearm, as well as the effects of secondary fragments from the primary and blunt mechanism. The cause of death was diffuse injury to the brain tissue resulting from a blind shrapnel wound to the right temporal region of the head penetrating the cranial cavity.

Volume 21, case file pages: 74–77.

Page 905

According to the protocol dated 22 September 2023 on the examination of the body of **Rahimov Ramil Sudjeddin oglu**, a serviceman of a military unit of the Ministry of Defence, multiple bodily injuries were found on the body.

Volume 10, case file pages: 99–101.

Rahimov Sudzhaddin Imamali oglu, recognized as the legal successor of the victim **Rahimov Ramil Sudjeddin oglu** and questioned, stated in his testimony that his son Ramil Rahimov was voluntarily performing extended military service in a military unit of the Ministry of Defence. On 20 September 2023, he received a telephone call informing him that his son had died a martyr's death from a bullet wound during fighting in the direction of **Aghdam District**.

Volume 57, case file pages: 10–13.

According to forensic medical expert opinion No. 102 dated 22 September 2023, the following bodily injuries were found on the body of **Rahimov Ramil Sudjeddin oglu**: injuries to the cervical spine and the left lung, left-sided open hemopneumothorax, multiple open fractures of the cervical vertebrae and the left scapula, through-and-through wounds of the neck and thoracic cavity, and abrasions on the anterior surface of the chest. The through-and-through wounds of the neck and thoracic cavity were caused by projectiles (bullets) as a result of two shots fired from a firearm. The immediate cause of death was injury to the cervical spine resulting from a through-and-through wound of the neck.

Volume 21, case file pages: 78–81.

According to the protocol dated 22 September 2023 on the examination of the body of **Kyalbiyev Akram Faig oglu**, a serviceman of a military unit of the Ministry of Defence, multiple bodily injuries were found on the body.

Volume 10, case file pages: 108–109.

Kyalbiyev Faig Tahir oglu, recognized as the legal successor of the victim **Kyalbiyev Akram Faig oglu** and questioned, stated in his testimony that his son Akram was performing extended military service in a military unit of the Ministry of Defence.

Page 906

On 20 September 2023, he died from a bullet wound to the heart during fighting in the course of the anti-terrorist operation.

Volume 60, case file pages: 246–248.

According to forensic medical expert opinion No. 107 dated 22 September 2023, the following bodily injuries were found on the body of **Kyalbiyev Akram Faig oglu**: damage to the organs of the thoracic cavity along the anterior surface of the left shoulder joint, open hemopneumothorax, a through-and-through wound of the thoracic cavity accompanied by a comminuted open fracture of the fifth thoracic vertebra. The injury was caused by a projectile

(bullet) fired from a firearm. The cause of death was acute blood loss resulting from a through-and-through wound of the thoracic cavity accompanied by damage to the organs of the thoracic cavity, open hemopneumothorax, and a comminuted open fracture of the fifth thoracic vertebra.

Volume 21, case file pages: 90–93.

According to the protocol dated 22 September 2023 on the examination of the body of **Alammadov Khanbaba Jeyhun oğlu**, a serviceman of a military unit of the Ministry of Defence, comminuted fractures of the right and left femurs, as well as a lacerated wound of the left knee joint, were found on the body.

Volume 10, case file pages: 117–118.

Alammadov Jeyhun Zulfugar oğlu, recognized as the legal successor of the victim **Alammadov Khanbaba Jeyhun oğlu** and questioned, stated in his testimony that his son Khanbaba Alammadov had been performing compulsory military service in a military unit of the Ministry of Defence since 2022. On 19 September 2023, he was killed during fighting in the direction of the **Aghdam-Aghdara districts**.

Volume 57, case file pages: 189–192.

According to forensic medical expert opinion No. 105 dated 22 September 2023, the following bodily injuries were found on the body of **Alammadov Khanbaba Jeyhun oğlu**: damage to the right popliteal artery, damage to soft tissues,

Page 907

multiple open fractures of the femoral bones, through-and-through wounds of both thighs, and abrasions on the anterior surface of the left knee joint. The through-and-through wounds of both thighs were caused by projectiles (bullets) as a result of two shots fired from a firearm. The cause of death was acute blood loss resulting from damage to the right popliteal artery, damage to soft tissues, multiple open fractures of the femoral bones, through-and-through wounds of both thighs, and abrasions on the anterior surface of the left knee joint.

Volume 21, case file pages: 82–85.

According to the protocol dated 22 September 2023 on the examination of the body of **Eyyubov Murad Bakhtiyar oğlu**, a serviceman of a military unit of the Ministry of Defence, a wound was found on the right lateral surface of the neck, penetrating into the thoracic cavity, accompanied by multiple fractures of the cervical vertebrae, damage to the major vessels of the neck, and multiple superficial wounds to the right elbow joint, the left and right lower legs, the right medial ankle and the right foot.

Volume 10, case file pages: 126–127.

Eyyubov Bakhtiyar Bayram oğlu, recognized as the legal successor of the victim **Eyyubov Murad Bakhtiyar oğlu** and questioned, stated in his testimony that his son Murad Eyyubov had been performing extended military service in a military unit of the Ministry of Defence since 14 January 2023. On 19 September 2023, he received information that his son had been

killed as a result of fire opened by illegal Armenian armed formations during fighting in the direction of **Khojavend District**.

Volume 51, case file pages: 172–174.

According to forensic medical expert opinion No. 106 dated 22 September 2023, the following bodily injuries were found on the body of **Eyyubov Murad Bakhtiyar oglu**: a single blind wound in the neck area penetrating into the thoracic cavity, accompanied by damage to the cervical spine and the organs of the thoracic cavity, and comminuted fractures of the third and fourth cervical vertebrae. The specified wound was caused by a projectile (bullet) fired from a firearm. The cause of death was direct trauma to the cervical spine in connection with a single blind wound in the neck area penetrating into the thoracic cavity,

Page 908

accompanied by damage to the cervical spine and the organs of the thoracic cavity, and comminuted fractures of the third and fourth cervical vertebrae.

Volume 21, case file pages: 86–89.

According to the protocol dated 22 September 2023 on the examination of the body of **Safiyev Allahverdi Safi oglu**, a serviceman of the Naval Forces of the Ministry of Defence, the body was decomposed and had multiple bodily injuries.

Volume 10, case file pages: 200–201.

Safmeva Rafiga Eyyub gizi, recognized as the legal successor of the victim **Safiyev Allahverdi Safi oglu** and questioned, stated in her testimony that her son Allahverd Safiyev had been serving in the Naval Forces since July 2023. On 20 September 2023, she was informed that her son had been killed by multiple shrapnel wounds as a result of fire opened by illegal Armenian armed formations during fighting in the **Aghdara-Khojaly area**.

Volume 51, case file pages: 194–196.

According to forensic medical expert opinion No. 108 dated 22 September 2023, the following bodily injuries were found on the body of **Safiyev Allahverdi Safi oglu**: multiple extensive wounds with tissue defects in both gluteal regions, on the outer surface of the upper third of the right shoulder, on the right hand and on the inner surface of the lower third of the left lower leg, extending from the left lateral surface of the neck to the anterior surface of the chest, accompanied by open injuries to the organs of the neck and thoracic cavity. The injuries were caused by fragments and the blast wave from the explosion of explosive munitions. The cause of death was acute blood loss resulting from the injuries sustained (multiple shrapnel wounds with extensive defects of body tissues, open injuries to the neck and the organs of the thoracic cavity).

Volume 21, case file pages: 94–97.

Page 909

According to the protocol dated 22 September 2023 on the examination of the body of **Bayramov Davud Shamil oğlu**, a serviceman of a military unit of the Ministry of Defence, bodily injuries were found on the body.

Volume 22, case file pages: 1–2.

Bayramov Shamil Shakhlar oğlu, recognized as the legal successor of the victim **Bayramov Davud Shamil oğlu** and questioned, stated in his testimony that his son Davud Bayramov was performing extended military service in a military unit of the Ministry of Defence. On 20 September 2023, he died a martyr's death after sustaining a bullet wound as a result of fire opened by Armenian armed formations during fighting in the **Khankendi-Khojavend direction**.

Volume 58, case file pages: 90–92.

According to forensic medical expert opinion No. 98 dated 22 September 2023, the following bodily injuries were found on the body of **Bayramov Davud Shamil oğlu**: damage to the organs of the thoracic cavity, open hemopneumothorax, a wound accompanied by displacement and comminuted fractures of the left fifth rib and the first thoracic vertebra, a wound of the thoracic cavity accompanied by damage to the soft tissues, a through-and-through wound of the right foot accompanied by damage to the organs of the abdominal cavity, a blind wound of the left thigh penetrating into the abdominal cavity and accompanied by a displaced comminuted fracture of the femur, and a tangential wound of the right heel. The injuries were caused by projectiles (bullets) as a result of five shots fired from a firearm. The cause of death was acute bleeding resulting from the injuries sustained (multiple penetrating, tangential and blind gunshot wounds of the body, damage to the organs of the thoracic and abdominal cavities, open hemopneumothorax, displaced comminuted fractures of the left fifth rib, the first thoracic vertebra and the left femur).

Volume 21, case file pages: 62–64.

Abushov Gulam Habil oğlu, recognized as the legal successor of the victim **Abushov Habil Gulam oğlu** and questioned, stated in his testimony that his son Habil Abushov had been called up for compulsory military service in June 2022, which he continued in a military unit of the Ministry of Defence. On 20 September 2023, during

Page 910

fighting in the direction of **Khojavend District**, he was wounded and died as a result of a sniper shot fired by Armenian armed formations.

Volume 58, case file pages: 74–76.

According to forensic medical expert opinion No. 99 dated 22 September 2023, the following bodily injuries were found on the body of **Abushov Habil Gulam oğlu**: wounds to the organs of the thoracic cavity, blind and penetrating wounds of the right foot accompanied by open hemopneumothorax. The injuries were caused by two projectiles (bullets) fired from a firearm. The immediate cause of death was acute bleeding resulting from injury to the organs of the thoracic cavity, blind and through-and-through wounds of the right foot accompanied by open hemopneumothorax.

Volume 21, case file pages: 66–69.

According to the protocol dated 1 October 2023 on the examination of the body of **Gasimov Jahan Khagani oğlu**, a serviceman of a military unit of the Ministry of Defence, injuries of various sizes and shapes were found on the body.

Volume 34, case file pages: 82–99.

Gasimov Khagani Jahan oğlu, recognized as the legal successor of the victim **Gasimov Jahan Khagani oğlu** and questioned, stated in his testimony that his son Jahan Gasimov had been performing extended military service in the 1st battalion of a military unit of the Ministry of Defence, with the military rank of soldier, since April 2022. On 20 September 2023, during fighting in the direction of **Khojavend District**, as a result of fire opened by illegal Armenian armed formations, Jahan sustained wounds to both thighs and, despite the necessary medical assistance provided to him, died on 1 October 2023.

Volume 345, case file pages: 7–9.

According to forensic medical expert opinion No. 23 dated 1 October 2023, the following bodily injuries were found on the body of **Gasimov Jahan Khagani oğlu**: multiple shrapnel wounds to the posterior surface of the right lower leg with defects of

Page 911

the bones and soft tissues, the inner surface of the middle third of the left thigh, the right outer surface of the chest, the right shoulder and the right buttock; open, multiple, comminuted, defective, displaced fractures of the second, third and fourth metatarsal and tarsal bones of the right foot; post-traumatic perforation of the posterior part of the urethra; injuries such as a hematoma extending to the pelvis and torso, as well as hepatorenal syndrome leading to multiple organ failure, second-degree cerebral coma, secondary kidney damage, acute renal failure, ischemic hepatitis resulting from hypovolemic shock, acute hepatic failure, acute pancreatitis, severe post-hemorrhagic anemia, and post-traumatic syndromes such as secondary thrombocytopenia, which arose as a result of the impact of fragments and a blast wave caused by the explosion of an explosive device (projectile). The cause of his death was multiple organ failure that developed as a result of the aforementioned blast injury sustained by him (cardiovascular, hepatic, respiratory, renal).

Volume 46, case file pages: 199–209.

According to the protocol dated 24 September 2023 on the examination of the body of **Koklarov Sarkhan Eyvaz oğlu**, a soldier performing compulsory military service in a military unit of the Ministry of Defence, burns covering two-thirds of the body surface were found on the body.

Volume 28, case file pages: 71–84.

Koklarov Absaladdin Eyvaz oğlu, recognized as the legal successor of the victim **Koklarov Sarkhan Eyvaz oğlu** and questioned, stated in his testimony that his brother Sarkhan Koklarov had been performing extended military service in a military unit of the Ministry of Defence since 2008. On 19 September 2023, he was informed that his brother had sustained

burns as a result of fire opened by illegal Armenian armed formations. He was hospitalized in a military hospital and died in the hospital from the injuries sustained on 24 September 2023.

Volume 48, case file pages: 204–206.

According to forensic medical expert opinion No. 21 dated 24 September 2023, the following bodily injuries were found on the body of **Koklarov Sarkhan Eyvaz oğlu**: thermal burns of the first, second, IIIA and IIIB degrees, 75% (25%)+15%)) of the face, both earlobes,

Page 912

the scalp, neck, upper respiratory tract, anterior and posterior surfaces of the torso, both upper and lower extremities, perineum and external genitalia, caused by flames, resulting in third-degree burn shock and multiple organ failure caused by exposure to high temperatures, including fire, classified as causing serious harm to the health of a living person incompatible with life. The cause of death was multiple organ failure (cardiovascular, respiratory, renal) that developed as a result of the above-described burn injury sustained by him.

Volume 46, case file pages: 185–193.

Latifov Sabir Habil oğlu, recognized as the legal successor of the victim **Latifov Elmaddin Habil oğlu** and questioned, stated in his testimony that his brother Elmaddin Latifov had been performing extended military service in a military unit of the Ministry of Defence since 2019. On 19 September 2023, he was informed by mobile phone that his brother had been wounded. Although his brother was treated in a military hospital, he nevertheless died from the injuries sustained.

Volume 46, case file pages: 91–93.

According to forensic medical expert opinion No. 22 dated 25 September 2023, the following bodily injuries were found on the body of **Latifov Elmaddin Habil oğlu**: second- to third-degree thermal burns covering 70–75% of the head, face, earlobes, neck, posterior and lateral surfaces of the torso, upper and lower extremities, resulting in severe burn shock and burn disease caused by exposure to high temperatures, including fire. The cause of death was multiple organ failure (cardiovascular, respiratory, renal) that developed as a result of the above-described burn injury sustained by him.

Volume 46, case file pages: 116–159.

According to the protocol dated 25 September 2023 on the examination of the body of **Ibrahimov Elnur Sakhavat oğlu**, a soldier performing compulsory military service in a military unit of the Ministry of Defence, injuries of various sizes were found on the body, particularly in the head area.

Page 913

Volume 48, case file pages: 138–144.

Ibrahimov Sakhavat Sahib oğlu, recognized as the legal successor of the victim **Ibrahimov Elnur Sakhavat oğlu** and questioned, stated in his testimony that his son Elnur Ibrahimov

had been performing extended military service in a military unit of the Ministry of Defence since 2014. On 20 September 2023, he received information from his son's fellow servicemen that his son had sustained injuries as a result of fire opened by illegal Armenian armed formations during fighting in the direction of **Khojaly District**, had been taken to **Ganja City Hospital**, where he died on 25 September 2023.

Volume 51, case file pages: 28–30.

According to forensic medical expert opinion No. 08 dated 25 September 2023, the following bodily injuries were found on the body of **Ibrahimov Elnur Sakhavat oğlu**: open fractures of the bones of the cranial vault, diffuse injury to the brain tissue, a blind wound penetrating into the cranial cavity accompanied by subdural, epidural and nitroparenchymatous hematoma; closed blunt trauma to the chest with contusion of the lung; superficial wounds to the soft tissues of the nose and upper lip, back, abrasions to the right side of the back and lower back, and a hematoma on the right shoulder — characteristic of injuries caused by the impact of a blast wave resulting from the explosion of high-explosive munitions and by primary and secondary fragments of a blunt mechanism. The cause of death was diffuse injury to the brain tissue resulting from a blind shrapnel wound penetrating into the cranial cavity as a result of an explosion.

Volume 60, case file pages: 102–106.

According to the protocol dated 19 September 2023 on the examination of the body of **Arzullayev Murad Tavakkul oğlu**, a soldier performing compulsory military service in a military unit of the Ministry of Defence, bodily injuries were found on the body.

Volume 20, case file pages: 1–3.

Arzullayev Tavakkul Nusrat oğlu, recognized as the legal successor of the victim **Arzullayev Murad Tavakkul oğlu** and questioned, stated in his testimony

Page 914

that on 25 April 2022 his son Murad left for military service. On 19 September 2023, at around 23:00, he received a telephone call informing him that his son Murad had sustained a serious wound and subsequently died as a result of a bullet fired by Armenian armed formations during fighting in the direction of **Khojavend District**.

Volume 82, case file pages: 133–135.

According to forensic medical expert opinion No. 18 dated 19 September 2023, the following bodily injuries were found on the body of **Arzullayev Murad Tavakkul oğlu**: crushing of the head, fractures of the bones of the skull and the base of the skull, a blind shrapnel wound penetrating into the cranial cavity from the right temporal region accompanied by amputation of the upper third of the right earlobe, a blind shrapnel wound penetrating into the thoracic cavity from the right half of the posterior surface of the chest, a shrapnel wound to the right lower leg accompanied by multiple open fractures of the right fibula and tibia, and shrapnel wounds to the left lower leg and right forearm with damage only to the soft tissues, which resulted from the impact of primary and secondary fragments formed as a result of the explosion of an explosive substance. The cause of death was crushing of the head, fractures

of the bones of the skull and the base of the skull accompanied by amputation of the upper third of the right earlobe, as a result of multiple shrapnel injuries to the body.

Volume 20, case file pages: 11–14.

According to forensic ballistic expert opinion No. 3-16-16/2-3/1751 dated 1 December 2023, among the items of military clothing belonging to **Arzullayev Murad Tavakkul oglu**, one pair of military trousers, one military tunic and one short-sleeved shirt were found to have the damage specified in the examination section of the expert opinion. A characteristic feature of these damages was that they were caused by fragments from an explosion travelling from a distance close to the centre of the explosion and in different directions.

Volume 276, case file pages: 171–173.

Page 915

According to the protocol dated 19 September 2023 on the examination of the body of **Hamidli Hamid Alisahib oglu**, a serviceman of a military unit of the Ministry of Defence, bodily injuries were found on the body.

Volume 20, case file pages: 18–19.

Iskenderov Alisahib Hamid oglu, recognized as the legal successor of the victim **Hamidli Hamid Alisahib oglu** and questioned, stated in his testimony that his son **Hamidli Hamid Alisahib oglu** had been appointed commander of a battalion of a military unit in 2020, held the military rank of captain, took part on 19 September 2023 in local anti-terrorist operations against illegal Armenian armed formations and was killed during fighting in the direction of **Khojaly**.

Volume 44, case file pages: 232–234.

According to forensic medical expert opinion No. 19 dated 19 September 2023, the following bodily injuries were found on the body of **Hamidli Hamid Alisahib oglu**: open multiple comminuted fractures of the right thigh and femur and extensive shrapnel wounds to the right thigh and right side of the chest with damage to major blood vessels, caused by the impact of primary and secondary fragments formed as a result of the explosion of an explosive substance. The cause of death was traumatic-haemorrhagic shock that developed as a result of open multiple fractures of the right thigh and femur and damage to major blood vessels.

Volume 20, case file pages: 27–29.

According to forensic ballistic expert opinion No. 3-16-16/2-3/1755 dated 1 December 2023, the submitted military clothing belonging to **Hamidli Hamid Alisahib oglu** had damage to the military trousers which had presumably been caused by fragments as a result of an explosion. A characteristic feature of this damage was that it had been caused by fragments from an explosion travelling from a distance close to the centre of the explosion and in different directions.

Page 916

Volume 276, case file pages: 96–99.

According to the protocol dated 19 September 2023 on the examination of the body of **Adilzade Adil Rovshan oglu**, a senior lieutenant and serviceman of a military unit of the Ministry of Defence, bodily injuries were found on the body.

Volume 20, case file pages: 33–34.

Mammadov Rovshan Adil oglu, recognized as the legal successor of the victim **Adilzade Adil Rovshan oglu** and questioned, stated in his testimony that his son, Senior Lieutenant Adil Adilzade, had served as an officer in the Armed Forces of the Republic of Azerbaijan since 1 January 2020. On the night of 19 September 2023, they were informed that their son Adil had been killed during fighting in the direction of the settlement of **Girmizi Bazar, Khojavend District**.

Volume 44, case file pages: 145–147.

According to forensic medical expert opinion No. 20 dated 19 September 2023, the following bodily injuries were found on the body of **Adilzade Adil Rovshan oglu**: damage to the organs of the thoracic cavity, shrapnel wounds to the neck, right buttock, chest, right foot, right thigh and right shoulder, accompanied by fractures of the first cervical vertebra and the right femur, caused by the impact of primary and secondary fragments formed as a result of the explosion of an explosive substance, classified as serious harm to the health of a living person and resulting in death. The cause of death of **Adilzade Adil Rovshan oglu** was a fracture of the first cervical vertebra resulting from multiple shrapnel wounds to the body.

Volume 20, case file pages: 42–44.

According to forensic ballistic expert opinion No. 3-16-16/2-3/1744 dated 30 November 2023, damage was found on the submitted items of military clothing belonging to **Adilzade Adil Rovshan oglu**: one pair of military trousers, one military tunic, one short-sleeved shirt and the right boot. A characteristic feature of this damage was that it had been caused by fragments from an explosion travelling from a distance close to the centre of the explosion and in different directions.

Page 917

Volume 276, case file pages: 73–75.

According to the protocol dated 19 September 2023 on the examination of the body of **Aliyev Javid Jeyhun oglu**, a soldier and serviceman of a military unit of the Ministry of Defence, bodily injuries were found on the body.

Volume 20, case file pages: 48–49.

Aliyev Jeyhun Magerram oglu, recognized as the legal successor of the victim **Aliyev Javid Jeyhun oglu** and questioned, stated in his testimony that his son **Aliyev Javid Jeyhun oglu** had been called up for military service in April 2022 and began military service with the rank of soldier. At around 14:00 on 20 September 2023, he received information that his son Javid Aliyev had been killed as a result of shelling opened by Armenian armed forces in the

direction of the village of **Garakend, Khojavend District**, on the evening of 19 September 2023.

Volume 44, case file pages: 84–88.

According to forensic medical expert opinion No. 21 dated 19 September 2023, the following bodily injuries were found on the body of **Aliyev Javid Jeyhun oğlu**: an extensive shrapnel wound to the skull accompanied by crushing and disintegration of the brain tissue and multiple open fractures of the bones of the cranial vault, facial skeleton and skull base. These were caused by the impact of primary and secondary fragments formed as a result of the explosion of an explosive substance. The cause of death was crushing and disintegration of the brain accompanied by open fractures of the bones of the cranial vault, facial skeleton and skull base as a result of a shrapnel wound to the skull.

Volume 20, case file pages: 58–60.

According to the protocol dated 20 September 2023 on the examination of the body of **Ahmedov Yusif Alesker oğlu**, a junior sergeant and extended-service serviceman of a military unit of the Ministry of Defence, bodily injuries were found on the body.

Volume 20, case file pages: 64–65.

Page 918

Ahmedov Alesker Aziz oğlu, recognized as the legal successor of the victim **Ahmedov Yusif Alesker oğlu** and questioned, stated in his testimony that his son **Ahmedov Yusif Alesker oğlu** had begun serving in an assault battalion of the Ministry of Defence in 2016 as an extended-service serviceman with the military rank of soldier. On 19 September 2023, he participated in local anti-terrorist operations against illegal Armenian armed formations and was killed during fighting in the direction of **Khankendi District**.

Volume 82, case file pages: 68–70.

According to forensic medical expert opinion No. 22 dated 20 September 2023, the following bodily injuries were found on the body of **Ahmedov Yusif Alesker oğlu**: a gunshot wound entering the right hip joint and exiting into the pelvis in a direction from bottom to top and from right to left, ending blindly in the pelvis. It was caused by one shot from a firearm, the cartridge of which was loaded with a projectile. The cause of death was traumatic-haemorrhagic shock that developed as a result of damage to the pelvic organs due to a blind bullet wound to the right hip joint.

Volume 20, case file pages: 72–74.

According to the protocol dated 20 September 2023 on the examination of the body of **Aliyev Ramil Shakir oğlu**, a junior sergeant and extended-service serviceman of a military unit of the Ministry of Defence, bodily injuries were found on the body.

Volume 20, case file pages: 75–76.

Aliyev Shakir Gudrat oğlu, recognized as the legal successor of the victim **Aliyev Ramil Shakir oğlu** and questioned, stated in his testimony that his son Ramil had begun active military service as a serviceman with the rank of junior sergeant in a military unit of the Ministry of Defence, and on 19 September 2023 participated in local anti-terrorist operations against illegal Armenian armed formations and was killed in the direction of the village of **Shushakend, Khojaly District**.

Page 919

Volume 82, case file pages: 18–20.

According to forensic medical expert opinion No. 23 dated 20 September 2023, the following bodily injuries were found on the body of **Aliyev Ramil Shakir oğlu**: fractures of the bones of the skull and skull base, entering from the left half of the forehead, running from top to bottom and from left to right, and exiting from the right temporo-occipital region; a gunshot wound penetrating into the cranial cavity and causing collapse of the brain. These were caused by one shot from a firearm, the cartridge of which was loaded with a projectile. The cause of death was traumatic-haemorrhagic shock that developed as a result of damage to the pelvic organs due to a blind bullet wound to the right hip joint. The cause of death was a gunshot wound to the skull resulting in crushing and disintegration of the brain, as well as fractures of the bones of the skull and skull base.

Volume 20, case file pages: 84–86.

According to the protocol dated 20 September 2023 on the examination of the body of **Babazade Ali Rustam oğlu**, a junior lieutenant and extended-service serviceman of a military unit of the Ministry of Defence, bodily injuries were found on the body.

Volume 20, case file pages: 90–91.

Babaev Rustam Azhdar oğlu, recognized as the legal successor of the victim **Babazade Ali Rustam oğlu** and questioned, stated in his testimony that on 17 July 2008 his son had begun active military service in a military unit of the Ministry of Defence, and on 19 September 2023 he was informed that his son had been wounded in the heart and killed by a sniper shot during an anti-terrorist operation in the direction of **Aghdara**.

Volume 61, case file pages: 40–42.

According to forensic medical expert opinion No. 24 dated 20 September 2023, the following bodily injuries were found on the body of **Babazade Ali Rustam oğlu**: fractures of the facial skeleton and the bones of the cranial vault and skull base, entering through the area of the left eye and directed from top to bottom and from left to right, and exiting from the right temporo-occipital region; a gunshot wound penetrating into the cavity

Page 920

of the skull and causing crushing of the head. These were caused by one shot from a firearm, the cartridge of which was loaded with a projectile. The cause of death was crushing of the head accompanied by fractures of the bones of the cranial vault and skull base as a result of a gunshot wound penetrating into the cranial cavity.

Volume 20, case file pages: 100–102.

According to the protocol dated 20 September 2023 on the examination of the body of **Nasibov Huseyn Afghan oglu**, a soldier and extended-service serviceman of a military unit of the Ministry of Defence, bodily injuries were found on the body.

Volume 20, case file pages: 106–107.

Nasibov Afghan Jalal oglu, recognized as the legal successor of the victim **Nasibov Huseyn Afghan oglu** and questioned, stated in his testimony that on 25 April 2023 his son Huseyn Nasibov had begun active military service in a military unit of the Ministry of Defence. At around 04:00–05:00 on 20 September 2023, he received a telephone call informing him that his son Huseyn had been killed during local anti-terrorist measures in the **Shusha–Khankendi direction**, conducted in **Shusha District** on 19 September 2023.

Volume 44, case file pages: 123–125.

According to forensic medical expert opinion No. 25 dated 20 September 2023, the following bodily injuries were found on the body of **Nasibov Huseyn Afghan oglu**: multiple fractures of the facial skeleton and the right temporal bone, entering in the projection of the right temporomandibular joint and exiting from the left angle of the jaw, in a direction from right to left and from top to bottom; one through-and-through gunshot wound to the head accompanied by crushing and disintegration of the brain tissue. These were caused by one shot from a firearm, the cartridge of which was loaded with a projectile. The cause of death was multiple fractures of the facial skeleton and the right temporal bone, as well as crushing and disintegration of the brain as a result of a gunshot wound penetrating into the skull.

Volume 20, case file pages: 116–118.

Page 921

According to the protocol dated 20 September 2023 on the examination of the body of **Yusibli Nofal Yusib oglu**, a lieutenant and serviceman of a military unit of the Ministry of Defence, bodily injuries were found on the body.

Volume 20, case file pages: 122–123.

Yusibov Yusib Gadir oglu, recognized as the legal successor of the victim **Yusibli Nofal Yusib oglu** and questioned, stated in his testimony that after completing active military service in early 2022, his son **Yusibli Nofal Yusib oglu** completed officer training courses, resumed military service and was assigned to a military unit. On 19 September 2023, his son Nofal participated in local anti-terrorist operations against illegal Armenian armed formations and was killed in **Khojavend District**.

Volume 82, case file pages: 114–116.

According to forensic medical expert opinion No. 26 dated 20 September 2023, the following bodily injuries were found on the body of **Yusibli Nofal Yusib oglu**: a gunshot wound entering the left half of the anterior surface of the chest and exiting the thoracic cavity at the level of the seventh vertebra, extending from left to right and from top to bottom. It was

caused by one shot from a firearm, the cartridge of which was loaded with a projectile. The cause of death was traumatic-haemorrhagic shock that developed against the background of left-sided hemopneumothorax as a result of a blunt gunshot wound to the chest.

Volume 20, case file pages: 131–133.

According to forensic ballistic expert opinion No. 3-16-16/2-3/1799 dated 1 December 2023, among the items of clothing belonging to **Yusibli Nofal Yusib oglu**, damage was found on the military uniform trousers resulting from the impact of one bullet fired from a firearm, characteristic of damage occurring at a distance of more than 1 metre in different directions.

Volume 276, case file pages: 104–111.

Page 922

According to the protocol dated 20 September 2023 on the examination of the body of **Magerramov Mais Fuzuli oglu**, a junior sergeant and serviceman of a military unit of the Ministry of Defence, bodily injuries were found on the body.

Volume 20, case file pages: 137–138.

According to forensic medical expert opinion No. 27 dated 20 September 2023, the following bodily injuries were found on the body of **Magerramov Mais Fuzuli oglu**: crushing of the head from the lower third, damage to the organs of the abdominal cavity, traumatic amputation of the right lower extremity at the middle third of the lower leg, and shrapnel wounds to various parts of the body. The cause of death was crushing of the head accompanied by fractures of the facial skeleton, skull and bones of the skull base as a result of multiple shrapnel wounds to the body.

Volume 20, case file pages: 145–148.

According to forensic ballistic expert opinion No. 3-16-16/2-3/1782 dated 1 December 2023, among the items of military uniform belonging to **Magerramov Mais Fuzuli oglu**, damage was found on the trousers, T-shirt and tunic. A characteristic feature of these injuries was that they had been caused by fragments from an explosion travelling from a distance close to the centre of the explosion and in different directions.

Volume 276, case file pages: 116–119.

According to the protocol dated 20 September 2023 on the examination of the body of **Rzayev Igbal Ilham oglu**, a soldier and serviceman of a military unit of the Ministry of Defence, bodily injuries were found on the body.

Volume 20, case file pages: 152–153.

Rzayev Ilham Telman oglu, recognized as the legal successor of the victim **Rzayev Igbal Ilham oglu** and questioned, stated in his testimony that his son Igbal Rzayev left for compulsory military service in April 2022. On 19 September 2023, he was informed that his son Igbal had been killed during fighting in the direction of the village of **Girmizi Bazar, Khojavend District**.

Volume 44, case file pages: 101–103.

According to forensic medical expert opinion No. 28 dated 20 September 2023, the following bodily injuries were found on the body of **Rzayev Igbal Ilham oğlu**: a through-and-through gunshot wound to the left shoulder, entering through the upper third of the left shoulder and exiting through the upper third of the posterior surface of the lateral part of the left shoulder, accompanied only by damage to the soft tissues; a through-and-through gunshot wound to the chest, entering from the left lateral surface of the middle third of the neck, directed from top to bottom, from left to right and from front to back, and exiting from the right half of the posterior surface of the chest at the level of the fourth rib along the posterior axillary line, accompanied along its course by damage to the right lung and right-sided hemopneumothorax. The specified injuries were caused by one shot from a firearm, the cartridge of which was loaded with a projectile. The cause of death was traumatic-haemorrhagic shock that developed as a result of injury to the right lung and right-sided hemopneumothorax due to a penetrating gunshot wound to the chest.

Volume 20, case file pages: 162–165.

According to forensic ballistic expert opinion No. 3-16-16/2-3/1775 dated 1 December 2023, among the items of military uniform belonging to **Rzayev Igbal Ilham oğlu**, damage was found on the sweater, trousers, tunic and shirt. A characteristic feature of these injuries was the impact of at least two bullets fired from a firearm from a distance of more than 1 metre in different directions.

Volume 276, case file pages: 202–205.

According to the protocol dated 20 September 2023 on the examination of the body of **Mirzayev Javid Azer oğlu**, a lieutenant and serviceman of a military unit of the Ministry of Defence, bodily injuries were found on the body.

Volume 20, case file pages: 169–170.

Mirzayev Azer Ali oğlu, recognized as the legal successor of the victim **Mirzayev Javid Azer oğlu** and questioned, stated in his testimony that his son Javid was performing compulsory military service. On 19 September 2023, he was informed that

his son had been wounded in the head and killed during the anti-terrorist operation in the direction of **Khojavend**.

Volume 61, case file pages: 87–91.

According to forensic medical expert opinion No. 28 dated 20 September 2023, the following bodily injuries were found on the body of **Mirzayev Javid Azer oğlu**: fractures of the skull and the bones of the skull base, entering slightly to the right of the forehead and extending from front to back and from right to left, ending blindly in the occipital region; a blind gunshot wound penetrating into the cranial cavity and resulting in crushing of the brain. The

specified injuries were caused by one shot from a firearm, the cartridge of which was loaded with a projectile. The cause of death was crushing of the brain accompanied by fractures of the skull and the bones of the skull base as a result of a gunshot wound penetrating into the cranial cavity.

Volume 20, case file pages: 169–181.

According to the protocol dated 20 September 2023 on the examination of the body of **Aliyev Farid Tofig oğlu**, a soldier and serviceman of a military unit of the Ministry of Defence, bodily injuries were found on the body.

Volume 20, case file pages: 185–186.

Aliyev Tofig Afghan oğlu, recognized as the legal successor of the victim **Aliyev Farid Tofig oğlu** and questioned, stated in his testimony that Farid was performing compulsory military service in a military unit. On 19 September 2023, he was informed that his son had been wounded and killed during the anti-terrorist operation in the direction of **Khojaly**.

Volume 61, case file pages: 136–139.

According to forensic medical expert opinion No. 30 dated 20 September 2023, the following bodily injuries were found on the body of **Aliyev Farid Tofig oğlu**: one through-and-through gunshot wound penetrating into the cranial cavity, with an entrance wound in the area of the right temple, extending from right to left, with an exit wound in the area of the left ear,

Page 925

resulting along its course in fractures of the bones of the cranial vault and skull base, as well as crushing of the brain. The specified injuries were caused by one shot from a firearm, the cartridge of which was loaded with a projectile. The cause of death was concussion of the brain accompanied by fractures of the bones of the cranial vault and skull base as a result of a gunshot wound penetrating into the cranial cavity.

Volume 20, case file pages: 195–197.

According to the protocol dated 20 September 2023 on the examination of the body of **Sultanov Khalfali Beyukaga oğlu**, a captain and serviceman of a military unit of the Ministry of Defence, bodily injuries were found on the body.

Volume 20, case file pages: 201–202.

Sultanov Beyukaga Arziman oğlu, recognized as the legal successor of the victim **Sultanov Khalfali Beyukaga oğlu** and questioned, stated in his testimony that on 18 September 2023 his son Khalfali Sultanov was serving in a military unit of the Ministry of Defence. On 20 September 2023, he was informed that Sultanov Khalfali had been killed by illegal Armenian armed formations in the territory of the city of **Shusha**, having sustained gunshot wounds.

Volume 62, case file pages: 127–130.

According to forensic medical expert opinion No. 31 dated 20 September 2023, the following bodily injuries were found on the body of **Sultanov Khalfali Beyukaga oglu**: complete traumatic amputation of the upper third of both extremities, a comminuted fracture of the fourth and fifth metacarpal bones of the left leg and damage to the major arteries of the lower extremities, including both upper extremities, the abdomen, the left iliac crest, the left half of the face, both shrapnel wounds of the anterior surface of the thigh, the anterior surface of the right lower leg and the outer surface of the left foot. The cause of their occurrence was the impact of primary and secondary fragments formed as a result of the explosion of an explosive substance. The cause of death was traumatic-haemorrhagic shock that developed as a result of complete traumatic amputation of the upper third of both extremities due to multiple shrapnel wounds to the body.

Page 926

Volume 20, case file pages: 214–216.

According to the protocol dated 20 September 2023 on the examination of the body of **Agayev Kenan Vahid oglu**, a soldier and serviceman of a military unit of the Ministry of Defence, bodily injuries were found on the body.

Volume 79, case file pages: 1–2.

Agayev Vahid Gasim oglu, recognized as the legal successor of the victim **Agayev Kenan Vahid oglu** and questioned, stated in his testimony that on 13 February 2023 his son **Agayev Kenan Vahid oglu** began extended military service in a military unit of the Ministry of Defence with the rank of soldier. At around 15:00 on 20 September 2023, a state official telephoned him and informed him that Kenan Agayev had been killed as a result of a sniper shot fired by Armenian armed forces during fighting in the direction of **Khojaly District**.

Volume 44, case file pages: 62–64.

According to forensic medical expert opinion No. 32 dated 20 September 2023, the following bodily injuries were found on the body of **Agayev Kenan Vahid oglu**: a through-and-through gunshot wound of the left lower extremity, with an entrance wound on the side of the upper third of the left thigh, directed from right to left and from bottom to top, and with an exit wound in the projection of the left iliac crest, accompanied along its course by damage to the iliac artery. It was caused by one shot from a firearm, the cartridge of which was loaded with a projectile. The cause of death was traumatic-haemorrhagic shock that developed as a result of a penetrating gunshot wound of the left lower extremity and damage to the iliac artery.

Volume 79, case file pages: 10–13.

According to forensic ballistic expert opinion No. 3-16-16/2-3/1764 dated 1 December 2023, damage was found on the items of military uniform belonging to **Agayev Kenan Vahid oglu**. A characteristic feature of this damage was the impact of one bullet fired from a firearm from a distance of more than 1 metre in a direction from left to right.

Page 927

Volume 285, case file pages: 124–127.

According to the protocol dated 20 September 2023 on the examination of the body of **Sadygov Neman Bahram oglu**, a soldier and extended-service serviceman of a military unit of the Ministry of Defence, bodily injuries were found on the body.

Volume 79, case file pages: 17–18.

Sadygov Bahram Ibrahim oglu, recognized as the legal successor of the victim **Sadygov Neman Bahram oglu** and questioned, stated in his testimony that on 13 February 2023 his son Neman was serving in a military unit of the Ministry of Defence. On 20 September 2023, he was informed that his son had been killed after sustaining a shrapnel wound to the heart during an anti-terrorist operation in the direction of **Shushakend**.

Volume 61, case file pages: 76–78.

According to forensic medical expert opinion No. 33 dated 20 September 2023, the following bodily injuries were found on the body of **Sadygov Neman Bahram oglu**: multiple shrapnel wounds to the body accompanied by damage to the organs of the thoracic cavity and an open fracture of the left humerus. The aforementioned injuries were life-threatening and were caused by the impact of primary and secondary fragments formed as a result of the explosion of an explosive substance. The cause of death was traumatic-haemorrhagic shock that developed as a result of damage to the organs of the thoracic cavity and an open fracture of the left humerus due to multiple shrapnel wounds.

Volume 79, case file pages: 27–29.

According to forensic ballistic expert opinion No. 3-16-16/2-3/1771 dated 1 December 2023, damage specified in the examination section of the opinion was found on the items of military uniform belonging to **Sadygov Neman Bahram oglu**: military trousers, military tunic, military jacket, short-sleeved shirt and underwear. A characteristic feature of this damage was that it had been caused by fragments from an explosion travelling from a distance close to the centre of the explosion and in different directions.

Page 928

Volume 276, case file pages: 147–150.

According to the protocol dated 20 September 2023 on the examination of the body of **Ahmedov Rizvan Niyazi oglu**, a junior warrant officer and serviceman of a military unit of the Ministry of Defence, bodily injuries were found on the body.

Volume 79, case file pages: 33–34.

Ahmedova Mekka Siraj, recognized as the legal successor of the victim **Ahmedov Rizvan Niyazi oglu** and questioned, stated in her testimony that her son **Ahmedov Rizvan Niyazi oglu**, after completing warrant officer training courses in April 2023, began serving in a military unit of the Ministry of Defence with the military rank of junior warrant officer. On 20 September 2023, she was informed by the executive representative office that Rizvan Ahmedov had died a martyr's death. Her son Rizvan Ahmedov had stepped on a mine on 19

September 2023 in the direction of **Khojaly District**, as a result of which his leg was torn off. He later died from severe blood loss.

Volume 44, case file pages: 73–76.

According to forensic medical expert opinion No. 34 dated 20 September 2023, the following bodily injuries were found on the body of **Ahmedov Rizvan Niyazi oglu**: traumatic amputation of the left lower extremity at the level of the ankle joint. The cause of the injury was the impact of primary and secondary fragments formed as a result of the explosion of an explosive substance. The cause of death was traumatic-haemorrhagic shock that developed as a result of traumatic amputation of the ankle joint of the left lower extremity due to multiple shrapnel wounds.

Volume 79, case file pages: 42–44.

According to the protocol dated 20 September 2023 on the examination of the body of **Shabiyev Seymur Sabir oglu**, a warrant officer and serviceman of a military unit of the Ministry of Defence, bodily injuries were found on the body.

Volume 79, case file pages: 45–46.

Page 929

Shablyev Sabir Talyb oglu, recognized as the legal successor of the victim **Shablyev Seymur Sabir oglu** and questioned, stated in his testimony that in September 2017 his son Seymour Shablyev began active military service in a military unit stationed in **Fuzuli District**. On 20 September 2023, information was received that Seymour Shablyev had been killed as a result of the explosion of a projectile fired by illegal Armenian armed formations in the city of **Khankendi**.

Volume 62, case file pages: 93–95.

According to forensic medical expert opinion No. 35 dated 20 September 2023, the following bodily injuries were found on the body of **Shablyev Seymur Sabir oglu**: multiple shrapnel wounds to the left humerus, left side and chest, accompanied by damage to the organs of the thoracic cavity. The aforementioned injuries were life-threatening and were caused by the impact of primary and secondary fragments formed as a result of the explosion of an explosive substance. The cause of death was traumatic-haemorrhagic shock that developed as a result of damage to the organs of the thoracic cavity due to multiple shrapnel wounds.

Volume 79, case file pages: 55–57.

According to forensic ballistic expert opinion No. 3-16-16/2-3/1773 dated 1 December 2023, damage was found on the items of military uniform belonging to **Shablyev Seymur Sabir oglu**: a military tunic and a pea coat. A characteristic feature of this damage was that it had been caused by fragments from an explosion travelling from a distance close to the centre of the explosion and in different directions.

Volume 276, case file pages: 194–197.

According to the protocol dated 20 September 2023 on the examination of the body of **Azizaliyev Seymur Teyub oğlu**, a soldier and serviceman of a military unit of the Ministry of Defence, bodily injuries were found on the body.

Volume 79, case file pages: 61–62.

Page 930

Azizaliyev Teyub Gurbanhan oğlu, recognized as the legal successor of the victim **Azizaliyev Seymur Teyub oğlu** and questioned, stated in his testimony that his son Seymur had been called up for active compulsory military service in 2022 and served in a military unit of the Ministry of Defence with the rank of soldier. On 19 September 2023, he participated in local anti-terrorist operations against illegal Armenian armed formations and was killed in the direction of the city of **Khankendi**.

Volume 82, case file pages: 82–84.

According to forensic medical expert opinion No. 36 dated 20 September 2023, the following bodily injuries were found on the body of **Azizaliyev Seymur Teyub oğlu**: a shrapnel wound to the left thigh accompanied by an open comminuted fracture of the left femur and damage to the major arteries. These injuries resulted from the impact of primary and secondary fragments formed as a result of the explosion of an explosive substance. The cause of death was traumatic-haemorrhagic shock that developed as a result of an open comminuted fracture of the femur and damage to the major arteries due to a shrapnel wound to the left thigh.

Volume 79, case file pages: 70–72.

According to forensic ballistic expert opinion No. 3-16-16/2-3/1757 dated 1 December 2023, damage specified in the examination section of the opinion was found on a pair of military trousers belonging to **Azizaliyev Seymur Teyub oğlu**. This damage was caused by fragments from an explosion travelling from a distance close to the centre of the explosion and in different directions.

Volume 276, case file pages: 93–95.

According to the protocol dated 20 September 2023 on the examination of the body of **Ismiyev Zeynal Mustafa oğlu**, a soldier and serviceman of a military unit of the Ministry of Defence, bodily injuries were found on the body.

Volume 79, case file pages: 76–77.

Page 931

Ismiyev Mustafa Jalal oğlu, recognized as the legal successor of the victim **Ismiyev Zeynal Mustafa oğlu** and questioned, stated in his testimony that on 12 July 2023 his son Zeynal began active military service in a military unit of the Ministry of Defence. On 19 September 2023, Zeynal Ismiyev was killed as a result of the explosion of a projectile fired by illegal Armenian armed formations in **Khojavend District**.

Volume 62, case file pages: 67–69.

According to forensic medical expert opinion No. 37 dated 20 September 2023, the following bodily injuries were found on the body of **Ismiyev Zeynal Mustafa oglu**: multiple shrapnel wounds to the body accompanied by amputation of the first finger of the right hand, damage to the organs of the thoracic and abdominal cavities, and fractures of the IV–I thoracic vertebrae. The injuries resulted from the impact of primary and secondary fragments formed as a result of the explosion of an explosive substance. The cause of death was traumatic-haemorrhagic shock that developed as a result of damage to the organs of the thoracic and abdominal cavities due to multiple shrapnel wounds to the body.

Volume 79, case file pages: 86–88.

According to forensic ballistic expert opinion No. 3-16-16/2-3/1762 dated 1 December 2023, damage was found on the items of military uniform belonging to **Ismiyev Zeynal Mustafa oglu**: a long-sleeved shirt, military tunic, short-sleeved shirt and sweater. A characteristic feature of this damage was that it had been caused by fragments from an explosion travelling from a distance close to the centre of the explosion and in different directions.

Volume 276, case file pages: 186–189.

According to the protocol dated 21 September 2023 on the examination of the body of **Orudzhov Dagbeyi Sabay oglu**, a soldier and serviceman of a military unit of the Ministry of Defence, bodily injuries were found on the body.

Volume 79, case file pages: 92–93.

Page 932

Orudzhov Sabay Rasim oglu, recognized as the legal successor of the victim **Orudzhov Dagbey Sabay oglu** and questioned, stated in his testimony that on 8 October 2022 his son Dagbey Orudzhov began military service. On 20 September 2023, he was informed by telephone that his son Dagbeyi had died a martyr's death.

Volume 44, case file pages: 169–171.

According to forensic medical expert opinion No. 40 dated 21 September 2023, the following bodily injuries were found on the body of **Orudzhov Dagbey Sabay oglu**: open fractures of the facial skeleton, right femur and pelvis; traumatic amputation of the upper third of the right thigh, hanging by a skin flap; shrapnel wounds to the right eye and both lower extremities accompanied by crushing of the right eye and damage to the organs of the abdominal cavity and pelvis. The specified injuries resulted from the impact of primary and secondary fragments formed as a result of the explosion of an explosive substance. The cause of death was traumatic-haemorrhagic shock that developed as a result of open fractures of the bones of the right thigh and pelvis due to multiple shrapnel wounds to the torso, traumatic amputation of the upper third of the right thigh with a skin flap, and injuries to the organs of the abdominal cavity and pelvis.

Volume 79, case file pages: 101–103.

According to the protocol dated 20 September 2023 on the examination of the body of **Beydiyev Royal Nasib oğlu**, a soldier and serviceman of a military unit of the Ministry of Defence, bodily injuries were found on the body.

Volume 79, case file pages: 104–105.

Beydiyev Nasib Nofal oğlu, recognized as the legal successor of the victim **Beydiyev Royal Nasib oğlu** and questioned, stated in his testimony that on 1 April 2023 **Beydiyev Royal Nasib oğlu** had been called up for active military service. On the night of 20 September 2023, he received a telephone call and was informed that Royal had died a martyr's death.

Volume 44, case file pages: 34–36.

Page 933

According to forensic medical expert opinion No. 41 dated 21 September 2023, the following bodily injuries were found on the body of **Beydiyev Royal Nasib oğlu**: multiple shrapnel wounds to the body accompanied by damage to the organs of the abdominal cavity and pelvis, resulting from the impact of primary and secondary fragments formed as a result of the explosion of an explosive substance. The cause of death was traumatic-haemorrhagic shock that developed as a result of multiple shrapnel wounds to the body accompanied by damage to the organs of the abdominal cavity and pelvis.

Volume 79, case file pages: 113–115.

According to forensic ballistic expert opinion No. 3-16-16/2-3/1748 dated 30 November 2023, damage was found on the items of military uniform belonging to **Beydiyev Royal Nasib oğlu**: military trousers, a short-sleeved T-shirt, a long-sleeved shirt and underwear. A characteristic feature of this damage was that it had been caused by fragments from an explosion travelling from a distance close to the centre of the explosion and in different directions.

Volume 276, case file pages: 155–158.

According to the protocol dated 20 September 2023 on the examination of the body of **Rustamli Bahruz Malik oğlu**, a soldier and serviceman of a military unit of the Ministry of Defence, bodily injuries were found on the body.

Volume 79, case file pages: 119–120.

Rustamli Movlam Malik oğlu, recognized as the legal successor of the victim **Rustamli Bahruz Malik oğlu** and questioned, stated in his testimony that his brother Bahruz, having already completed active military service, was sent at the end of 2020 to a military unit of the Ministry of Defence, where he continued his service. On 19 September 2023, he participated in local anti-terrorist operations against illegal Armenian armed formations and was killed in the direction of **Khojaly District**.

Volume 82, case file pages: 28–30.

Page 934

According to forensic medical expert opinion No. 42 dated 21 September 2023, the following bodily injuries were found on the body of **Rustamli Bahruz Malik oğlu**: multiple shrapnel wounds to the body, including damage to the left carotid artery, damage to the left brachial artery, a multiple comminuted open fracture of the left humerus, and fractures of the left knee and femur, resulting from the impact of primary and secondary fragments formed during the explosion of an explosive substance. The cause of death was traumatic-haemorrhagic shock that developed as a result of multiple shrapnel wounds to the body, including a multiple open fracture of the left humerus due to damage to the left carotid artery, and fractures of the left knee and femur.

Volume 79, case file pages: 128–130.

According to forensic ballistic expert opinion No. 3-16-16/2-3/1776 dated 1 December 2023, damage was found on the items of military uniform belonging to **Rustamli Bahruz Malik oğlu**: the military uniform, military trousers with a belt at the waist, a short-sleeved shirt and the left soldier's boot. A characteristic feature of this damage was that it had been caused by fragments from an explosion travelling from a distance close to the centre of the explosion and in different directions.

Volume 276, case file pages: 206–209.

According to the protocol dated 21 September 2023 on the examination of the body of **Aliyev Elmaddin Dovlat oğlu**, a warrant officer and serviceman of a military unit of the Ministry of Defence, bodily injuries were found on the body.

Volume 79, case file pages: 134–135.

Aliyev Elvin Dovlat oğlu, recognized as the legal successor of the victim **Aliyev Elmaddin Dovlat oğlu** and questioned, stated in his testimony that his brother Elmaddin Aliyev was performing active military service in a military unit. On 19 September 2023, he was informed that his brother had been wounded in the heart by a sniper shot during an anti-terrorist operation in the **Shusha–Khojavend direction** and had died a martyr's death.

Page 935

Volume 61, case file pages: 69–71.

According to forensic medical expert opinion No. 46 dated 21 September 2023, the following bodily injuries were found on the body of **Aliyev Elmaddin Dovlat oğlu**: a through-and-through gunshot wound to the chest, entering the left half of the anterior surface of the chest at the level of the fifth rib along the left sternal line, passing from bottom to top and exiting from the left half of the posterior surface of the chest at the level of the third rib along the posterior axillary line, accompanied by damage to the left lung, caused by one shot from a firearm, the cartridge of which was loaded with a projectile, causing serious harm to the health of a living person. The cause of death was traumatic-haemorrhagic shock resulting from a gunshot wound to the chest that caused damage to the left lung and left-sided hemopneumothorax.

Volume 79, case file pages: 143–145.

According to forensic ballistic expert opinion No. 3-16-16/2-3/1742 dated 30 November 2023, damage was found on the items of military uniform belonging to **Aliyev Elmaddin Dovlat oğlu**: a military tunic, sweater, long-sleeved shirt and short-sleeved T-shirt. A characteristic feature of this damage was that it had been caused by a bullet fired from a firearm from a distance of more than 1 metre, in a direction from front to back.

Volume 276, case file pages: 85–87.

According to the protocol dated 21 September 2023 on the examination of the body of **Khankishiyev Elshan Elshad oğlu**, a soldier and serviceman of a military unit of the Ministry of Defence, bodily injuries were found on the body.

Volume 79, case file pages: 149–150.

Khankishiyeva Aida Mammadhuseyn gizi, recognized as the legal successor of the victim **Khankishiyev Elshan Elshad oğlu** and questioned, stated in her testimony that her son Elshan was performing active military service in a military unit. On 19 September 2023, she was informed that her son had been killed after stepping on an

Page 936

anti-personnel mine during an anti-terrorist operation in the direction of **Aghdara**.

Volume 61, case file pages: 61–63.

According to forensic medical expert opinion No. 43 dated 21 September 2023, the following bodily injuries were found on the body of **Khankishiyev Elshan Elshad oğlu**: a shrapnel wound to the left thigh and right arm, accompanied by traumatic amputation of the left thigh and right arm, resulting from the impact of primary and secondary fragments formed as a result of the explosion of an explosive substance. The cause of death was traumatic-haemorrhagic shock resulting from shrapnel wounds to the left thigh and right leg, accompanied by traumatic amputation of the left thigh and right leg.

Volume 79, case file pages: 158–160.

According to the protocol dated 21 September 2023 on the examination of the body of **Nadirli Elvin Yurik oğlu**, a junior sergeant and extended-service serviceman of a military unit of the Ministry of Defence, bodily injuries were found on the body.

Volume 79, case file pages: 161–162.

Guliyev Yurik Nadir oğlu, recognized as the legal successor of the victim **Nadirli Elvin Yurik oğlu** and questioned, stated in his testimony that in 2016, after completing a course for servicemen who had completed active compulsory military service, his son began serving in a military unit of the Ministry of Defence. On 19 September 2023, he participated in local anti-terrorist operations against illegal Armenian armed formations and was killed in the direction of **Khojavend District**.

Volume 82, case file pages: 50–52.

According to forensic medical expert opinion No. 45 dated 21 September 2023, the following bodily injuries were found on the body of **Nadirli Elvin Yurik oglu**: multiple comminuted fractures at the level of the middle third of the right humerus, entering from the outer surface of the right shoulder joint and exiting from

Page 937

the anterior surface of the right shoulder joint, entering from the right subclavian region and exiting from the right half of the posterior surface of the chest, accompanied by right-sided hemopneumothorax; gunshot bullet wounds caused as a result of two shots from a firearm, the cartridges of which were loaded with projectiles. The cause of death was traumatic-haemorrhagic shock resulting from a gunshot wound to the chest, which caused damage to the left lung and left-sided hemopneumothorax.

Volume 79, case file pages: 171–173.

According to forensic ballistic expert opinion No. 3-16-16/2-3/1790 dated 1 December 2023, damage was found on the items of military uniform belonging to **Nadirli Elvin Yurik oglu**: a tunic, a short-sleeved shirt, a warm long-sleeved shirt and a long-sleeved shirt. A characteristic feature of this damage was that it had been caused by bullets fired from at least two types of firearms from a distance of more than 1 metre and in different directions.

Volume 276, case file pages: 113–115.

According to the protocol dated 21 September 2023 on the examination of the body of **Yunusov Eltun Javanshir oglu**, an extended-service soldier and serviceman of a military unit of the Ministry of Defence, bodily injuries were found on the body.

Volume 79, case file pages: 177–178.

Yunusov Javanshir Gardashkhan oglu, recognized as the legal successor of the victim **Yunusov Eltun Javanshir oglu** and questioned, stated in his testimony that his son Eltun began active military service in July 2022. At around 16:00 on 21 September 2023, information was received that Eltun had been killed on 19 September 2023 in fighting for the “**Uchtepe**” height in the village of **Garakend, Khojavend District**.

Volume 44, case file pages: 134–136.

According to forensic medical expert opinion No. 74 dated 21 September 2023, the following bodily

Page 938

injuries were found on the body of **Yunusov Eltun Javanshir oglu**: a through-and-through gunshot wound to the chest, entering the left lateral surface of the chest through the fifth intercostal space and passing through the fifth intercostal space to the right half of the posterior surface of the chest, accompanied along its course by damage to both lungs, caused by one shot from a firearm, the cartridge of which was loaded with a projectile. The cause of death was traumatic-haemorrhagic shock that developed as a result of bilateral lung damage due to a penetrating gunshot wound to the thoracic cavity.

Volume 79, case file pages: 187–189.

According to forensic ballistic expert opinion No. 3-16-16/2-3/1800 dated 1 December 2023, on the items of military uniform belonging to **Yunusov Eltun Javanshir oglu** — one shirt and one tunic — damage specified in the examination section of the expert opinion was found. A characteristic feature of this damage was that it had been caused by bullets fired from a firearm from a distance of more than 1 metre and in different directions.

Volume 276, case file pages: 174–177.

According to the protocol dated 21 September 2023 on the examination of the body of **Manafov Giyas Ramil oglu**, a soldier and serviceman of a military unit of the Ministry of Defence, bodily injuries were found on the body.

Volume 79, case file pages: 193–194.

Manafov Ramil Vahid oglu, recognized as the legal successor of the victim **Manafov Giyas Ramil oglu** and questioned, stated in his testimony that his son Giyas began active military service in July 2022. During the daytime on 21 September 2023, he learned that Giyas had died from wounds sustained as a result of the explosion of a mortar projectile fired by Armenian armed formations nearby on the night of 20 September, while he was at a combat position in **Khojavend District**, which had been liberated from occupation.

Volume 82, case file pages: 149–151.

Page 939

According to forensic medical expert opinion No. 63 dated 21 September 2023, the following bodily injuries were found on the body of **Manafov Giyas Ramil oglu**: an open fracture of the left humerus and multiple shrapnel wounds to the body with damage to the left brachial artery. The aforementioned injuries were life-threatening and were caused by the impact of primary and secondary fragments formed as a result of the explosion of an explosive substance. The cause of death was an open fracture of the left humerus resulting from multiple shrapnel wounds and traumatic-haemorrhagic shock that developed as a result of damage to the left brachial artery.

Volume 79, case file pages: 203–205.

According to forensic ballistic expert opinion No. 3-16-16/2-3/1783 dated 1 December 2023, damage was found on the items of military uniform belonging to **Manafov Giyas Ramil oglu**. A characteristic feature of this damage was that it had been caused by fragments from an explosion travelling from a distance close to the centre of the explosion and in different directions.

Volume 285, case file pages: 88–91.

According to the protocol dated 21 September 2023 on the examination of the body of **Mustafayev Nikhat Asaf oglu**, a soldier and serviceman of a military unit of the Ministry of Defence, bodily injuries were found on the body.

Volume 30, case file pages: 1–2.

Mustafayev Asaf Safar oğlu, recognized as the legal successor of the victim **Mustafayev Nikhat Asaf oğlu** and questioned, stated in his testimony that his son Nikhat Mustafayev was performing active military service in a military unit of the Ministry of Defence. On 19 September 2023, he was informed that his son had been wounded and killed during an anti-terrorist operation in the direction of **Khojavend**.

Volume 61, case file pages: 99–103.

According to forensic medical expert opinion No. 65 dated 21 September 2023, the following bodily injuries were found on the body of **Mustafayev Nikhat Asaf oğlu**:

Page 940

multiple shrapnel wounds to the body accompanied by a multiple comminuted open fracture of the left femur. The aforementioned injuries were life-threatening and were caused by the impact of primary and secondary fragments formed as a result of the explosion of an explosive substance. The cause of death was traumatic-haemorrhagic shock that developed as a result of multiple shrapnel wounds to the body accompanied by a multiple comminuted open fracture of the left femur.

Volume 30, case file pages: 11–13.

According to forensic ballistic expert opinion No. 3-16-16/2-3/1791 dated 1 December 2023, damage was found on the items of military uniform belonging to **Mustafayev Nikhat Asaf oğlu**. This damage was caused by fragments from an explosion travelling from a distance close to the centre of the explosion and in different directions.

Volume 285, case file pages: 96–99.

According to the protocol dated 21 September 2023 on the examination of the body of **Mammadli Elkhan Alekber oğlu**, a lieutenant and serviceman of a military unit of the Ministry of Defence, bodily injuries were found on the body.

Volume 30, case file pages: 17–18.

Mammadov Alekber Telman oğlu, recognized as the legal successor of the victim **Mammadli Elkhan Alekber oğlu** and questioned, stated in his testimony that his son Elkhan Mammadli began serving in a military unit of the Ministry of Defence with the military rank of lieutenant in May 2021. On 19 September 2023, Elkhan fought heroically in fighting against Armenian armed formations in the direction of **Khojavend District** and was killed that same day after sustaining a bullet wound to the chest.

Volume 82, case file pages: 211–213.

According to forensic medical expert opinion No. 66 dated 21 September 2023, the following bodily injuries were found on the body of **Mammadli Elkhan Alekber oğlu**: a through-and-through gunshot wound to the chest entering through the right clavicle,

extending from front to back and from right to left, and exiting through the left half of the posterior surface of the chest, resulting in damage to both lungs. These injuries were caused by one shot from a firearm, the cartridge of which was loaded with a projectile. The cause of death was traumatic-haemorrhagic shock that developed as a result of damage to both lungs due to a through-and-through gunshot wound to the chest.

Volume 30, case file pages: 27–29.

According to the protocol dated 21 September 2023 on the examination of the body of **Fatizade Fati Agamoglan oglu**, a soldier and serviceman of a military unit of the Ministry of Defence, bodily injuries were found on the body.

Volume 30, case file pages: 33–34.

Aliyeva Nushaba Khusan gizi, recognized as the legal successor of the victim **Fatizade Fati Agamoglan oglu** and questioned, stated in her testimony that her son Fati began serving in a military unit of the Ministry of Defence in August 2022 as a serviceman who had completed active military service. On 19 September 2023, he participated in local anti-terrorist operations against Armenian armed formations and was killed in the direction of **Khojavend District**.

Volume 82, case file pages: 8–10.

According to forensic medical expert opinion No. 66 dated 21 September 2023, the following bodily injuries were found on the body of **Mammadli Elkhan Alekber oglu**: a through-and-through gunshot wound entering the left lateral surface of the middle third of the neck, extending from left to right and exiting from the lateral surface of the middle third of the neck, damaging along its course the right common carotid artery and the organs of the neck. It was caused by one shot from a firearm, the cartridge of which was loaded with a projectile. The cause of death was traumatic-haemorrhagic shock that developed as a result of damage to the right common carotid artery due to a penetrating gunshot wound to the neck.

Volume 30, case file pages: 43–45.

According to the protocol dated 21 September 2023 on the examination of the body of **Abbasov Zamin Khagani oglu**, a senior lieutenant and serviceman of a military unit of the Ministry of Defence, bodily injuries were found on the body.

Volume 30, case file pages: 49–50.

Abbasova Sevda Nurali gizi, recognized as the legal successor of the victim **Abbasov Zamin Khagani oglu** and questioned, stated in her testimony that her son **Abbasov Zamin Khagani oglu** began military service as an officer, participated in the April battles of 2016, in the Patriotic War that began on 27 September 2020, and in the anti-terrorist operation conducted on 19 September 2023. Zamin Abbasov fought heroically in battles in the direction of **Khojavend District** on 19 September 2023 and was killed that same day as a result of

severe bodily injuries sustained from gunshot wounds inflicted by Armenian armed formations.

Volume 82, case file pages: 185–187.

According to forensic medical expert opinion No. 60 dated 21 September 2023, the following bodily injuries were found on the body of **Abbasov Zamin Khagani oglu**: a bullet wound penetrating the left thigh, entering through the posterior surface of the left third of the thigh, passing from back to front and exiting through the anterior surface of the upper third of the left thigh, resulting in a fracture of the left femur and damage to its artery. It was caused by one shot from a firearm, the cartridge of which was loaded with a projectile, and was classified as causing serious harm to the health of a living person and resulting in death. The cause of death was traumatic-haemorrhagic shock that developed as a result of a fracture of the left femur and damage to its artery due to a penetrating gunshot wound to the left thigh.

Volume 30, case file pages: 57–59.

According to forensic ballistic expert opinion No. 3-16-16/2-3/1765 dated 1 December 2023, damage was found on the items of military uniform belonging to **Abbasov Zamin Khagani oglu**. A characteristic feature of this damage was the impact of a

Page 943

bullet fired from a firearm from a distance of more than 1 metre in a direction from back to front.

Volume 285, case file pages: 120–123.

According to the protocol dated 21 September 2023 on the examination of the body of **Hasanli Arzulla Mubariz oglu**, a soldier and serviceman of a military unit of the Ministry of Defence, bodily injuries were found on the body.

Volume 30, case file pages: 63–64.

Hasanov Mubariz Feyzulla oglu, recognized as the legal successor of the victim **Hasanli Arzulla Mubariz oglu** and questioned, stated in his testimony that his son Hasanli Arzulla was called up for military service in October 2022, fought heroically in battles in the direction of **Khojavend District** on 19 September 2023 and was killed that same day as a result of severe injuries sustained from fragments of a projectile fired by Armenian armed forces.

Volume 82, case file pages: 199–201.

According to forensic medical expert opinion No. 67 dated 21 September 2023, the following bodily injuries were found on the body of **Hasanli Arzulla Mubariz oglu**: an open fracture of the left humerus, damage to the left brachial artery, and multiple shrapnel wounds to the torso with damage to the organs of the thoracic cavity. These were caused by the impact of primary and secondary fragments formed as a result of the explosion of an explosive substance. The cause of death was traumatic-haemorrhagic shock that developed as a result of

an open fracture of the left humerus, injury to the left brachial artery and damage to the organs of the thoracic cavity due to multiple shrapnel wounds to the body.

Volume 30, case file pages: 73–75.

According to forensic ballistic expert opinion No. 3-16-16/2-3/1754 dated 1 December 2023, damage was found on the items of military uniform belonging to **Hasanli Arzulla Mubariz oğlu**: military trousers, a military tunic and a short-sleeved shirt. A characteristic feature of this damage was that it had been caused by

Page 944

fragments from an explosion travelling from a distance close to the centre of the explosion and in different directions.

Volume 276, case file pages: 104–107.

According to the protocol dated 21 September 2023 on the examination of the body of **Eyvazov Vugar Eyvaz oğlu**, a captain and serviceman of a military unit of the Ministry of Defence, bodily injuries were found on the body.

Volume 30, case file pages: 79–80.

Eyvazova Vusal Eyvaz oğlu, recognized as the legal successor of the victim **Eyvazov Vugar Eyvaz oğlu** and questioned, stated in his testimony that his brother Vugar began active military service in 2011 in a military unit located in **Dashkesan**, and then, in September 2022, in a military unit located in **Qubadli District**. On 21 September 2023, the Ministry of Defence informed him that Vugar had been killed as a result of fire opened by illegal Armenian armed formations in **Khojavend District**.

Volume 62, case file pages: 60–62.

According to forensic medical expert opinion No. 70 dated 21 September 2023, the following bodily injuries were found on the body of **Eyvazov Vugar Eyvaz oğlu**: a shrapnel wound to the occipital region accompanied by fractures of the bones of the cranial vault and crushing and disintegration of the brain tissue. The aforementioned injuries were life-threatening and were caused by the impact of primary and secondary fragments formed as a result of the explosion of an explosive substance. The cause of death was fractures of the bones of the cranial vault, as well as crushing and disintegration of the brain tissue.

Volume 30, case file pages: 90–92.

According to forensic ballistic expert opinion No. 3-16-16/2-3/1758 dated 5 October 2023, damage was found on the items of military uniform belonging to **Eyvazov Vugar Eyvaz oğlu**: a military tunic and short-sleeved T-shirt, a military tunic and short-sleeved shirt. A characteristic feature of this damage

Page 945

was that they had been caused by fragments from an explosion travelling from a distance close to the centre of the explosion and in different directions.

Volume 276, case file pages: 178–181.

According to the protocol dated 21 September 2023 on the examination of the body of **Mirzayev Almirza Agamirza oglu**, a soldier and serviceman of a military unit of the Ministry of Defence, bodily injuries were found on the body.

Volume 30, case file pages: 96–97.

Mirzayev Agamirza Alimirza oglu, recognized as the legal successor of the victim **Mirzayev Almirza Agamirza oglu** and questioned, stated in his testimony that his son served in a military unit of the Ministry of Defence. On 21 September 2023, he was informed that his son had been wounded and killed during an anti-terrorist operation in the **Shusha–Khankendi direction**.

Volume 61, case file pages: 54–56.

According to forensic medical expert opinion No. 62 dated 21 September 2023, the following bodily injuries were found on the body of **Mirzayev Almirza Agamirza oglu**: a through-and-through wound in the parietal region accompanied by multiple comminuted fractures of the bones of the cranial vault and damage to the brain; a through-and-through wound originating from the right half of the anterior surface of the posterior third of the neck, accompanied by closed comminuted fractures of the left upper extremity; through-and-through gunshot wounds penetrating through the anterior surface of the lower third and exiting through the left posterolateral surface of the chest, penetrating through the left lateral surface of the chest and exiting through the left half of the anterior surface of the chest, accompanied by damage to the genital organs. They were caused by at least seven shots from a firearm, the cartridges of which were loaded with projectiles, and were classified as causing serious harm to the health of a living person and resulting in death. The cause of death was a gunshot wound to the skull resulting in crushing and disintegration of the brain, as well as fractures of the bones of the cranial vault and skull base.

Page 946

Volume 30, case file pages: 105–108.

According to forensic ballistic expert opinion No. 3-16-16/2-3/1741 dated 30 November 2023, damage was found on the items of military uniform belonging to **Mirzayev Almirza Agamirza oglu**: a military tunic and underwear. A characteristic feature of this damage was that it had been caused by bullets fired from at least two types of firearms from a distance of more than 1 metre and in different directions.

Volume 276, case file pages: 80–83.

According to the protocol dated 21 September 2023 on the examination of the body of **Jafarov Elshad Malik oglu**, a soldier and serviceman of a military unit of the Ministry of Defence, bodily injuries were found on the body.

Volume 30, case file pages: 112–113.

Jafarov Malik Aydin oglu, recognized as the legal successor of the victim **Jafarov Elshad Malik oglu** and questioned, stated in his testimony that his son Elshad, who had performed active military service beyond the prescribed term in 2019, participated on 19 September 2023 in local anti-terrorist operations against illegal Armenian armed formations and was killed in the direction of **Khojavend District**.

Volume 82, case file pages: 61–63.

According to forensic medical expert opinion No. 47 dated 21 September 2023, the following bodily injuries were found on the body of **Jafarov Elshad Malik oglu**: shrapnel wounds penetrating into the cranial cavity, with damage to the frontal bone of the right half of the forehead, accompanied by crushing of the brain, fracture of the zygomatic bone of the right infraorbital region and damage to the right eye socket. The aforementioned injuries were life-threatening and were caused by the impact of primary and secondary flame resulting from the explosion of an explosive substance. Gunshot wounds penetrating through the posterior surface of the right elbow joint and exiting through the middle third of the right humerus, accompanied by a closed fracture at the level of the middle third

Page 947

of the right humerus; entering from the right lateral surface of the chest and exiting from the right half of the posterior surface of the chest, accompanied by right-sided hemopneumothorax; through-and-through gunshot wounds penetrating through the right half of the anterior surface of the chest and exiting through the right half of the posterior surface of the chest in the suprascapular region. They were caused by at least three shots from a firearm. The immediate cause of death was severe and disfiguring craniocerebral trauma accompanied by fractures of the bones of the cranial vault and skull base as a result of multiple shrapnel wounds to the head.

Volume 30, case file pages: 122–125.

According to forensic ballistic expert opinion No. 3-16-16/2-3/1747 dated 30 November 2023, damage specified in the examination section of the expert opinion was found on the items of military uniform belonging to **Jafarov Elshad Malik oglu**: a military tunic and a short-sleeved T-shirt. A characteristic feature of this damage was that it had been caused by three bullets fired from a firearm from a distance of more than 1 metre and in different directions.

Volume 276, case file pages: 151–154.

According to the protocol dated 21 September 2023 on the examination of the body of **Agakhanov Osman Gadim oglu**, a soldier and serviceman of a military unit of the Ministry of Defence, bodily injuries were found on the body.

Volume 30, case file pages: 129–130.

Agakhanov Gadim Dunyamaddin oglu, recognized as the legal successor of the victim **Agakhanov Osman Gadim oglu** and questioned, stated in his testimony that his son

Osman began active military service on 8 April 2022 in a military unit of the Ministry of Defence located in **Qubadli District**. On 21 September 2023, he received information that Osman had been killed in the city of **Khojavend** as a result of the explosion of a projectile fired by Armenian armed forces.

Page 948

Volume 62, case file pages: 37–40.

According to forensic medical expert opinion No. 71 dated 21 September 2023, the following bodily injuries were found on the body of **Agakhanov Osman Gadim oğlu**: multiple shrapnel wounds to the torso at the level of the left upper extremity, accompanied by traumatic amputation of the torso from the level of the abdomen. The aforementioned injuries were caused by the impact of primary and secondary fragments formed as a result of the explosion of an explosive substance. The cause of death was traumatic-haemorrhagic shock that developed as a result of traumatic amputation of the torso at the level of the abdomen, at the level of the left upper extremity, due to multiple shrapnel wounds to the body.

Volume 30, case file pages: 138–140.

According to the protocol dated 21 September 2023 on the examination of the body of **Hasanov Kerem Akif oğlu**, a senior lieutenant and serviceman of a military unit of the Ministry of Defence, bodily injuries were found on the body.

Volume 30, case file pages: 141–142.

According to forensic medical expert opinion No. 61 dated 21 September 2023, the following bodily injuries were found on the body of **Hasanov Kerem Akif oğlu**: a through-and-through gunshot wound to the thoracic cavity accompanied by damage to the left lung, entering from the outer surface of the upper third of the left arm and extending from front to back, exiting from the left half of the posterior surface of the chest along the spinal line at the level of the second thoracic vertebra. The aforementioned injuries were caused by at least one shot from a firearm, the cartridge of which was loaded with a projectile. The cause of death was traumatic-haemorrhagic shock that developed as a result of a through-and-through gunshot wound to the thoracic cavity, damage to the left lung and left-sided hemopneumothorax.

Volume 30, case file pages: 151–153.

According to forensic ballistic expert opinion No. 3-16-16/2-3/1753 dated 1 December 2023, damage specified in the examination section of the expert opinion was found on the items of military uniform belonging to **Hasanov Kerem Akif oğlu**.

Page 949

A characteristic feature of these injuries was that they had been caused by a bullet fired from a firearm from a distance of more than 1 metre, in a direction from front to back.

Volume 285, case file pages: 100–103.

According to the protocol dated 21 September 2023 on the examination of the body of **Sadygov Jeyhun Niyameddin oğlu**, a soldier and serviceman of a military unit of the Ministry of Defence, bodily injuries were found on the body.

Volume 30, case file pages: 157–158.

Sadygov Niyameddin Haji oğlu, recognized as the legal successor of the victim **Sadygov Jeyhun Niyameddin oğlu** and questioned, stated in his testimony that his son Jeyhun began serving in a military unit of the Ministry of Defence as an extended-service active serviceman in 2022, participated in anti-terrorist operations against Armenian armed forces on 19 September 2023, and was killed in the direction of the city of **Khankendi**.

Volume 82, case file pages: 103–105.

According to forensic medical expert opinion No. 44 dated 21 September 2023, the following bodily injuries were found on the body of **Sadygov Jeyhun Niyameddin oğlu**: a through-and-through gunshot wound to the left thigh, entering from the left inguinal region, passing from front to back and exiting through the posterior surface of the upper third of the left thigh, damaging the left femoral artery; a blind gunshot wound accompanied by damage only to the soft tissues of the left thigh. The aforementioned injuries were caused by at least two shots from a firearm, the cartridges of which were loaded with projectiles. In living persons, the severity of the blunt gunshot wound to the left thigh was not determined because it caused no harm to health, whereas the penetrating bullet wound to the left thigh was regarded as an injury causing serious harm to health and resulting in death. The cause of death was traumatic-haemorrhagic shock that developed as a result of damage to the left femoral artery due to a through-and-through gunshot wound to the left thigh.

Page 950

Volume 30, case file pages: 166–168.

According to the protocol dated 21 September 2023 on the examination of the body of **Gasimov Garib Shahbaz oğlu**, a junior lieutenant and serviceman of a military unit of the Ministry of Defence, bodily injuries were found on the body.

Volume 30, case file pages: 172–173.

Gasimov Shahbaz Shamshad oğlu, recognized as the legal successor of the victim **Gasimov Garib Shahbaz oğlu** and questioned, stated in his testimony that his son Garib had begun extended military service in 2017. At around 17:00 on 19 September 2023, while setting out to assist other fellow servicemen who had fallen into an ambush in neutral territory during fighting in the direction of **Khojavend District**, he sustained a gunshot wound to the right shoulder as a result of a shot from a sniper weapon fired by Armenian armed forces and died a martyr's death.

Volume 44, case file pages: 190–193.

According to forensic medical expert opinion No. 48 dated 21 September 2023, the following bodily injuries were found on the body of **Gasimov Garib Shahbaz oğlu**: a through-and-through gunshot wound to the shoulder, penetrating through the outer surface of the upper

third of the left shoulder and exiting through the posterior surface of the left shoulder joint, accompanied by damage only to the soft tissues; a blind gunshot wound to the right thigh, penetrating through the medial-posterior surface of the upper third of the right thigh and penetrating into the abdominal cavity. The aforementioned injuries were caused by two shots from a firearm. The cause of death was traumatic-haemorrhagic shock that developed as a result of damage to the organs of the abdominal cavity due to a blind gunshot wound to the right thigh.

Volume 30, case file pages: 182–184.

According to the protocol dated 21 September 2023 on the examination of the body of **Geybaliyev Elvin Agalar oğlu**, a captain and serviceman of a military unit of the Ministry of Defence, bodily injuries were found on the body.

Page 951

Volume 30, case file pages: 188–189.

Zeynalova Zanura Azhdar gizi, recognized as the legal successor of the victim **Geybaliyev Elvin Agalar oğlu** and questioned, stated in her testimony that her husband Elvin Geybaliyev, after graduating from the Higher Military School, began active military service in a military unit of the Ministry of Defence. On 20 September 2023, Elvin was killed as a result of the explosion of a projectile fired by Armenian armed forces in **Khojavend District**.

Volume 62, case file pages: 53–55.

According to forensic medical expert opinion No. 72 dated 21 September 2023, the following bodily injuries were found on the body of **Geybaliyev Elvin Agalar oğlu**: multiple shrapnel wounds to the body accompanied by crushing of the brain, fractures of the skull, the bones of the cranial vault and skull base, and the facial skeleton. The aforementioned injuries were caused by the impact of primary and secondary fragments formed as a result of the explosion of an explosive substance. The cause of death was multiple shrapnel wounds to the body, as well as fractures of the cranial vault, skull base and facial bones, resulting in crushing of the brain.

Volume 30, case file pages: 199–200.

According to the protocol dated 21 September 2023 on the examination of the body of **Eynaliyev Samrad Ikram oğlu**, a soldier and serviceman of a military unit of the Ministry of Defence, bodily injuries were found on the body.

Volume 18, case file pages: 1–2.

Eynullayev Ikram Gurban oğlu, recognized as the legal successor of the victim **Eynaliyev Samrad Ikram oğlu** and questioned, stated in his testimony that his son began active military service on 16 January 2023 in a military unit of the Ministry of Defence located in the city of **Ganja**, and on 21 September 2023 learned that his son had been killed by a shrapnel wound as a result of the explosion of a projectile fired by Armenian armed persons during an anti-terrorist operation in the **Shusha–Khankendi direction**.

Page 952

Volume 61, case file pages: 33–35.

According to forensic medical expert opinion No. 68 dated 21 September 2023, the following bodily injuries were found on the body of **Eynaliyev Samrad Ikram oglu**: a through-and-through gunshot wound to the neck, entering the middle third of the left half of the neck, extending from left to right and exiting from the middle third of the right half of the neck, accompanied by damage to the carotid artery. It was caused by one shot from a firearm, was classified in terms of severity as causing serious harm to the health of a living person, and resulted in death. Multiple blind shrapnel wounds to the body were caused by the impact of primary and secondary fragments formed during the explosion of an explosive substance. The immediate cause of death was traumatic-haemorrhagic shock that developed as a result of damage to the carotid artery due to a through-and-through gunshot wound to the neck.

Volume 18, case file pages: 10–12.

According to forensic ballistic expert opinion No. 3-16-16/2-3/1759 dated 1 December 2023, damage specified in the examination section of the expert opinion was found on the items of military uniform belonging to **Eynaliyev Samrad Ikram oglu**: a military tunic and a short-sleeved T-shirt. A characteristic feature of this damage was that it had been caused by fragments from an explosion travelling from a distance close to the centre of the explosion and in different directions.

Volume 276, case file pages: 100–103.

According to the protocol dated 21 September 2023 on the examination of the body of **Tanyrverdiyev Amil Elshan oglu**, a soldier and serviceman of a military unit of the Ministry of Defence, bodily injuries were found on the body.

Volume 18, case file pages: 16–17.

Tanyrverdiyev Elshan Aly oglu, recognized as the legal successor of the victim **Tanyrverdiyev Amil Elshan oglu** and questioned, stated in his testimony that his son Amil had been sent for active military service in July

Page 953

2022 and was killed as a result of a powerful artillery strike by Armenian armed forces on neutral territory during fighting in the direction of **Khojavend District** on 19–20 September 2023.

Volume 44, case file pages: 209–212.

According to forensic medical expert opinion No. 69 dated 21 September 2023, the following bodily injuries were found on the body of **Eynaliyev Samrad Ikram oglu**: a through-and-through gunshot wound of the cranial cavity, penetrating through the left angle of the jaw and extending from bottom to top through the head, with an exit wound in the occipital region, accompanied by fractures of the facial skeleton, the bones of the cranial vault and skull base, and crushing and disintegration of the brain tissue; a blind shrapnel wound to the groin

accompanied by damage to the organs of the abdominal cavity. Of these injuries, the through-and-through gunshot wound of the cranial cavity was caused by a single shot from a firearm; the blind shrapnel wound to the groin, accompanied by damage to the organs of the abdominal cavity, resulted from the impact of primary and secondary fragments formed as a result of the explosion of an explosive substance. The immediate cause of death was the gunshot wound to the skull, resulting in crushing of the brain, as well as fractures of the facial skeleton, cranial vault and skull base.

Volume 18, case file pages: 25–27.

According to the protocol dated 21 September 2023 on the examination of the body of **Suleymanov Elmat Rafig oglu**, a soldier and serviceman of a military unit of the Ministry of Defence, bodily injuries were found on the body.

Volume 18, case file pages: 28–29.

Suleymanov Rafig Guvvat oglu, recognized as the legal successor of the victim **Suleymanov Elmat Rafig oglu** and questioned, stated in his testimony that his son Elmat was a serviceman in a military unit of the Ministry of Defence. His son Elmat Suleymanov died a martyr's death at around 17:00 on 20 September 2023 during fighting in the direction of **Khojavend District**, while on neutral territory, after sustaining shrapnel wounds to the right side of the chest and right leg as a result of the explosion of a hand grenade thrown by Armenian armed forces.

Page 954

Volume 44, case file pages: 180–183.

According to forensic medical expert opinion No. 54 dated 21 September 2023, the following bodily injuries were found on the body of **Suleymanov Elmat Rafig oglu**: multiple shrapnel wounds to the body accompanied by open multiple fractures of the right tibia and fibula. They were caused by primary and secondary shrapnel formed as a result of the explosion of an explosive substance and, as a rule, are life-threatening and result in death. The death of **Suleymanov Elmat Rafig oglu** occurred as a result of multiple shrapnel wounds to the body.

Volume 18, case file pages: 37–39.

According to forensic ballistic expert opinion No. 3-16-16/2-3/1767 dated 1 December 2023, damage was found on the items of military uniform belonging to **Suleymanov Elmat Rafig oglu**. A characteristic feature of this damage was that it had been caused by fragments from an explosion travelling from a distance close to the centre of the explosion and in different directions.

Volume 285, case file pages: 112–115.

According to the protocol dated 21 September 2023 on the examination of the body of **Jafarov Ravan Magomedali oglu**, a soldier and serviceman of a military unit of the Ministry of Defence, bodily injuries were found on the body.

Volume 18, case file pages: 43–44.

Jafarov Magomedali Ali oglu, recognized as the legal successor of the victim **Jafarov Ravan Magomedali oglu** and questioned, stated in his testimony that his son Ravan began active military service on 23 April 2022 and was killed as a result of a powerful artillery strike by Armenian armed formations during fighting in the direction of **Khojavend District** on 20 September 2023.

Volume 44, case file pages: 199–202.

Page 955

According to forensic medical expert opinion No. 53 dated 21 September 2023, the following bodily injuries were found on the body of **Jafarov Ravan Magomedali oglu**: fractures of the facial skeleton, skull and bones of the skull base along the course of a wound that entered the right infraorbital region, passed from front to back and from right to left, and exited from the left occipital region; a gunshot wound penetrating into the cranial cavity, accompanied by crushing and disintegration of the brain tissue; open fractures of the left iliac bones; multiple shrapnel wounds to the body accompanied by traumatic amputation of one-third of both legs. Among these injuries, the penetrating gunshot wound of the cranial cavity from a gunshot injury and the open fractures of the left femur resulted from one shot; the multiple shrapnel wounds to the torso with traumatic amputation of one-third of both lower legs, as well as the primary blast injury, were caused by the explosion of an explosive substance and the impact of secondary fragments. The cause of death was a penetrating gunshot wound of the cranial cavity resulting in fractures of the facial skeleton, skull base and cranial vault, as well as crushing and disintegration of the brain tissue.

Volume 18, case file pages: 53–56.

According to forensic ballistic expert opinion No. 3-16-16/2-3/1745 dated 30 November 2023, damage specified in the examination section of the expert opinion was found on the items of military uniform belonging to **Jafarov Ravan Magomedali oglu**: one military tunic and one long-sleeved undershirt. A characteristic feature of this damage was that it had been caused by fragments from an explosion travelling from a distance close to the centre of the explosion and in different directions.

Volume 276, case file pages: 77–79.

According to the protocol dated 21 September 2023 on the examination of the body of **Akhundov Murad Khidir oglu**, a soldier and serviceman of a military unit of the Ministry of Defence, bodily injuries were found on the body.

Volume 18, case file pages: 60–61.

Page 956

Akhundov Khidir Gabib oglu, recognized as the legal successor of the victim **Akhundov Murad Khidir oglu** and questioned, stated in his testimony that his son Murad left for military service on 4 October 2022. On 20 September 2023, he received a telephone call

informing him that his son Murad had been killed during an anti-terrorist operation in **Khojavend District**.

Volume 44, case file pages: 158–161.

According to forensic medical expert opinion No. 55 dated 21 September 2023, the following bodily injuries were found on the body of **Akhundov Murad Khidir oğlu**: multiple shrapnel wounds to the body with damage to the organs of the abdominal cavity, resulting from the impact of primary and secondary fragments formed as a result of the explosion of an explosive substance. The cause of death was traumatic-haemorrhagic shock that developed as a result of multiple shrapnel wounds to the body accompanied by damage to the organs of the abdominal cavity.

Volume 18, case file pages: 70–72.

According to forensic ballistic expert opinion No. 3-16-16/2-3/1750 dated 1 December 2023, damage was found on the items of military uniform belonging to **Akhundov Murad Khidir oğlu**: military trousers, a military tunic, an undershirt and a short-sleeved shirt. A characteristic feature of this damage was that it had been caused by fragments from an explosion travelling from a distance close to the centre of the explosion and in different directions.

Volume 276, case file pages: 88–91.

According to the protocol dated 21 September 2023 on the examination of the body of **Safarov Javid Rovshan oğlu**, a soldier and serviceman of a military unit of the Ministry of Defence, bodily injuries were found on the body.

Volume 18, case file pages: 76–77.

Bayramly Gunel Shahveled gizi, recognized as the legal successor of the victim **Safarov Javid Rovshan oğlu** and questioned, stated in her testimony that her son Javid left for active military service in January 2023,

Page 957

and at around 15:00–16:00 on 21 September 2023, her brother Tural received a telephone call from the municipality and was informed that her son Javid had been killed on 20 September 2023 during local anti-terrorist measures in **Khojaly District**.

Volume 44, case file pages: 112–114.

According to forensic medical expert opinion No. 56 dated 21 September 2023, the following bodily injuries were found on the body of **Safarov Javid Rovshan oğlu**: an open fracture of the left eyeball and the bones of the cranial vault, as well as disintegration of the soft tissues of the brain; a wound entering through the area of the left eye and exiting through the left parietal region, accompanied by damage to the hollow organs, entering through the right half of the anterior surface of the chest and exiting through the right lateral surface of the abdomen; a through-and-through gunshot wound entering through the posterior surface of the right wrist joint and exiting through the palmar surface of the right hand, resulting from at

least three shots from a firearm. The cause of death was a gunshot wound to the skull resulting in crushing and disintegration of the brain, as well as fractures of the bones of the cranial vault and skull base.

Volume 18, case file pages: 86–88.

According to forensic ballistic expert opinion No. 3-16-16/2-3/1770 dated 1 December 2023, damage was found on the submitted items of military uniform belonging to **Safarov Javid Rovshan oğlu**: military trousers, a sweater, a long-sleeved shirt, a tunic and underwear. A characteristic feature of these injuries was that they had been caused by two bullets fired from a firearm from a distance of more than 1 metre and in different directions.

Volume 276, case file pages: 182–185.

According to the protocol dated 21 September 2023 on the examination of the body of **Gakhramanov Sanan Nasimi oğlu**, a soldier and serviceman of a military unit of the Ministry of Defence, bodily injuries were found on the body.

Volume 18, case file pages: 92–93.

Page 958

Gakhramanov Nasimi Tofiq oğlu, recognized as the legal successor of the victim **Gakhramanov Sanan Nasimi oğlu** and questioned, stated in his testimony that his son Sanan began active military service on 19 July 2022 in a military unit of the Ministry of Defence located in **Jalilabad District**. On 20 September 2023, he received information that Sanan had died as a result of fire opened by Armenian armed forces in the city of **Khankendi**.

Volume 62, case file pages: 25–28.

According to forensic medical expert opinion No. 57 dated 21 September 2023, the following bodily injuries were found on the body of **Gakhramanov Sanan Nasimi oğlu**: through-and-through gunshot wounds to the chest penetrating the anterior surface of the left shoulder joint and compressing the left half of the posterior surface of the torso, resulting in damage to the left lung and left-sided hemopneumothorax, caused by at least one shot from a firearm, causing serious harm to the health of living persons depending on the degree of severity and resulting in death. The cause of death was left-sided hemopneumothorax resulting from a gunshot wound penetrating into the thoracic cavity.

Volume 18, case file pages: 102–104.

According to the protocol dated 21 September 2023 on the examination of the body of **Asadov Alibala Ali oğlu**, a soldier and serviceman of a military unit of the Ministry of Defence, bodily injuries were found on the body.

Volume 18, case file pages: 108–109.

Asadov Ali Amir oğlu, recognized as the legal successor of the victim **Asadov Alibala Ali oğlu** and questioned, stated in his testimony that his son Alibala was performing active

military service in a military unit of the Ministry of Defence located in the city of **Ganja**. On 20 September 2023, he was informed by the executive representative office that Alibala had been killed as a result of the explosion of a projectile fired by illegal Armenian armed formations in **Khojavend District**.

Page 959

Volume 62, case file pages: 45–47.

According to forensic medical expert opinion No. 49 dated 21 September 2023, the following bodily injuries were found on the body of **Asadov Alibala Ali oğlu**: a blind gunshot wound to the chest penetrating into the thoracic cavity from the level of the third rib along the clavicular line on the right half of the anterior surface of the chest, accompanied by damage to the right lung, caused by at least one shot from a firearm, causing serious harm to the health of living persons depending on the degree of severity and resulting in death. The cause of death was traumatic-haemorrhagic shock that developed against the background of damage to the right lung and right-sided hemopneumothorax as a result of a blunt gunshot wound to the chest.

Volume 18, case file pages: 118–120.

According to the protocol dated 21 September 2023 on the examination of the body of **Suleymanli Nail Safar oğlu**, a soldier and serviceman of a military unit of the Ministry of Defence, bodily injuries were found on the body.

Volume 18, case file pages: 124–125.

Suleymanov Safar Pasha oğlu, recognized as the legal successor of the victim **Suleymanli Nail Safar oğlu** and questioned, stated in his testimony that his son Nail had been performing active military service with the rank of private in a military unit of the Ministry of Defence since January 2023. On 21 September 2023, he was informed by the executive authority that his son Nail had died a martyr's death.

Volume 44, case file pages: 18–21.

According to forensic medical expert opinion No. 58 dated 21 September 2023, the following bodily injuries were found on the body of **Suleymanli Nail Safar oğlu**: fractures of the bones of the skull and skull base extending from the lower right part of the occipital region of the head from top to bottom; through-and-through gunshot wounds to the skull accompanied by crushing of the brain, caused by at least one shot from a firearm, causing serious harm to the health of living persons depending on the degree of severity and resulting in death.

Page 960

The cause of death was a gunshot wound penetrating into the cranial cavity, resulting in fractures of the bones of the skull and skull base, accompanied by crushing and disintegration of the brain.

Volume 18, case file pages: 133–135.

According to the protocol dated 21 September 2023 on the examination of the body of **Soltanbeyli Tamerlan Imran oğlu**, a junior sergeant and serviceman of a military unit of the Ministry of Defence, bodily injuries were found on the body.

Volume 18, case file pages: 139–140.

Soltanbeyli Kamran Imran oğlu, recognized as the legal successor of the victim **Soltanbeyli Tamerlan Imran oğlu** and questioned, stated in his testimony that his brother Tamerlan had been performing extended military service with the rank of junior sergeant in a military unit of the Ministry of Defence since January 2020. On 19 September 2023, Tamerlan was wounded in the knee and died as a result of a bullet wound fired by Armenian armed formations in the direction of the settlement of **Girmizi Bazar, Khojaly District**.

Volume 44, case file pages: 51–54.

According to forensic medical expert opinion No. 51 dated 21 September 2023, the following bodily injuries were found on the body of **Soltanbeyli Tamerlan Imran oğlu**: through-and-through gunshot wounds penetrating through the outer surface of the lower third of the right thigh and exiting through the inner surface of the right knee, accompanied by damage to the major arteries of both lower extremities; as a continuation, a wound entering the inner surface of the left knee and exiting through the outer surface of the upper third of the left lower leg, caused by at least one shot from a firearm, causing serious harm to the health of living persons depending on the degree of severity and resulting in death. The cause of death was traumatic-haemorrhagic shock that developed as a result of damage to the major arteries due to penetrating gunshot wounds to both lower extremities.

Volume 18, case file pages: 149–151.

Page 961

According to forensic ballistic expert opinion No. 3-16-16/2-3/1769 dated 1 December 2023, damage was found on the submitted items of military uniform belonging to **Soltanbeyli Tamerlan Imran oğlu**. A characteristic feature of this damage was that it had been caused by bullets fired from firearms in different directions.

Volume 285, case file pages: 108–111.

According to the protocol dated 21 September 2023 on the examination of the body of **Mammadhasanov Gasim Bilal oğlu**, a soldier and serviceman of a military unit of the Ministry of Defence, bodily injuries were found on the body.

Volume 18, case file pages: 155–156.

Mammadhasanov Bilal Fatali oğlu, recognized as the legal successor of the victim **Mammadhasanov Gasim Bilal oğlu** and questioned, stated in his testimony that his son Gasim began active military service in July 2022 in a military unit of the Ministry of Defence stationed in **Shusha**. On 21 September 2023, the Sabirabad District Department of the State Service for Mobilization and Conscription informed him that his son Gasim had

been killed during fighting with illegal Armenian armed formations in the territory of the village of **Mukhtar, Khojaly District**.

Volume 68, case file pages: 37–39.

According to forensic medical expert opinion No. 59 dated 21 September 2023, the following bodily injuries were found on the body of **Mammadhasanov Gasim Bilal oglu**: a through-and-through gunshot wound to the cranial cavity, entering the submandibular region and exiting from the middle of the occipital region, causing along its course fractures of the bones of the skull and skull base, as well as crushing and disintegration of the brain; multiple shrapnel wounds to the body accompanied by damage to the organs of the abdominal cavity and pelvis, constituting a threat to life. Of these injuries, the gunshot wound penetrating into the cranial cavity was caused by a single shot from a firearm. The multiple shrapnel wounds to the body accompanied by damage to the organs of the abdominal cavity and pelvis resulted from the impact of primary and

Page 962

secondary fragments formed during the explosion of an explosive substance, causing serious harm to the health of living persons both collectively and individually and resulting in death. The immediate cause of death was the gunshot wound to the skull, resulting in crushing and disintegration of the brain, as well as fractures of the bones of the skull and skull base.

Volume 18, case file pages: 163–165.

According to the protocol dated 21 September 2023 on the examination of the body of **Geybatov Sergey Ramin oglu**, an extended-service soldier and serviceman of a military unit of the Ministry of Defence, bodily injuries were found on the body.

Volume 18, case file pages: 166–167.

Geybatov Ramin Isahmed oglu, recognized as the legal successor of the victim **Geybatov Sergey Ramin oglu** and questioned, stated in his testimony that his son Sergey began active military service in 2023 in a military unit of the Ministry of Defence stationed in the city of **Hadrut**. On 20 September 2023, information was received that Sergey had been killed as a result of the explosion of a projectile fired by illegal Armenian armed formations in **Khojaly District**.

Volume 62, case file pages: 14–17.

According to forensic medical expert opinion No. 73 dated 21 September 2023, the following bodily injuries were found on the body of **Geybatov Sergey Ramin oglu**: a shrapnel wound to the head and neck accompanied by crushing of the brain and fractures of the bones of the skull, skull base and facial skeleton, resulting from the impact of primary and secondary fragments formed as a result of the explosion of an explosive substance, causing serious harm to the health of living persons both collectively and individually and resulting in death. The immediate cause of death was a gunshot wound to the skull resulting in crushing and disintegration of the brain, as well as fractures of the bones of the skull and skull base. The cause of death was a brain contusion accompanied by fractures of the bones of the cranial vault and skull base and the facial skeleton as a result of injuries to the head and neck.

Page 963

Volume 18, case file pages: 176–178.

According to forensic ballistic expert opinion No. 3-16-16/2-3/1752 dated 1 December 2023, damage was found on the submitted items of military uniform belonging to **Geybatov Sergey Ramin oglu**. A characteristic feature of this damage was that it had been caused by bullets fired from firearms in different directions.

Volume 285, case file pages: 104–107.

According to the protocol dated 22 September 2023 on the examination of the body of **Gasimzade Ingilab Fuzuli oglu**, a soldier performing compulsory military service in a military unit of the Ministry of Defence, bodily injuries were found on the body.

Volume 18, case file pages: 182–183.

Gasimzade Fuzuli Ingilab oglu, recognized as the legal successor of the victim **Gasimzade Ingilab Fuzuli oglu** and questioned, stated in his testimony that his son Ingilab began active military service in April 2022 in a military unit of the Ministry of Defence located in the city of **Ganja**. On 20 September 2023, information was received that Ingilab had been killed in the city of **Khankendi** after sustaining gunshot wounds from a bullet fired by illegal Armenian armed formations.

Volume 62, case file pages: 74–76.

According to forensic medical expert opinion No. 80 dated 22 September 2023, the following bodily injuries were found on the body of **Gasimzade Ingilab Fuzuli oglu**: a shrapnel through-and-through gunshot bullet wound of the cranial cavity, entering through the left cheekbone, passing from left to right and from front to back, and exiting through the right temple and occipital region, accompanied along its course by fractures of the skull, the bones of the skull base and cranial vault, and the facial skeleton, as well as crushing of the brain. The cause of death was a through-and-through gunshot wound to the skull resulting in fractures of the bones of the skull, skull base and cranial vault and facial skeleton, as well as crushing of the brain.

Page 964

Volume 18, case file pages: 192–194.

According to forensic ballistic expert opinion No. 3-16-16/2-3/1786 dated 1 December 2023, damage was found on the collar liner among the submitted items of military uniform belonging to **Gasimzade Ingilab Fuzuli oglu**. A characteristic feature of this damage was that it had been caused by a bullet fired from a firearm from a distance of more than 1 metre in different directions.

Volume 276, case file pages: 124–127.

According to the protocol dated 22 September 2023 on the examination of the body of **Rzayev Ramil Elchin oğlu**, a soldier performing compulsory military service in a military unit of the Ministry of Defence, bodily injuries were found on the body.

Volume 18, case file pages: 198–199.

Rzayeva Elena Gennadyevna, recognized as the legal successor of the victim **Rzayev Ramil Elchin oğlu** and questioned, stated in her testimony that her son Ramil had been sent for military service on 1 April 2022, and on 22 September 2023 a representative of the executive authority informed her that his her Ramil had been killed during an anti-terrorist operation in **Khojaly District**.

Volume 82, case file pages: 175–177.

According to forensic medical expert opinion No. 78 dated 22 September 2023, the following bodily injuries were found on the body of **Rzayev Ramil Elchin oğlu**: fractures of the skull, skull base and facial bones; an extensive shrapnel wound to the head accompanied by crushing and disintegration of the brain tissue, resulting from the impact of primary and secondary fragments formed as a result of the explosion of an explosive substance and classified as serious harm to the health of living persons, generally life-threatening and resulting in death. The cause of death was a through-and-through gunshot wound to the skull resulting in fractures of the bones of the skull, skull base and cranial vault and facial skeleton, as well as crushing of the brain.

Volume 18, case file pages: 209–211.

Page 965

According to forensic ballistic expert opinion No. 3-16-16/2-3/1774 dated 1 December 2023, damage was found on the submitted items of military uniform belonging to **Rzayev Ramil Elchin oğlu**: military trousers and underwear. A characteristic feature of this damage was that it had been caused by fragments from an explosion travelling from a distance close to the centre of the explosion and in different directions.

Volume 276, case file pages: 198–201.

According to the protocol dated 22 September 2023 on the examination of the body of **Imamaliyev Etibar Hijran oğlu**, an extended-service soldier and serviceman of a military unit of the Ministry of Defence, bodily injuries were found on the body.

Volume 23, case file pages: 1–2.

Imamaliyev Hijran Etibar oğlu, recognized as the legal successor of the victim **Imamaliyev Etibar Hijran oğlu** and questioned, stated in his testimony that his son Etibar began military service as a conscript in a military unit of the Ministry of Defence in 2012. On 19 September 2023, Etibar was killed in **Khojaly District** after sustaining gunshot wounds as a result of a bullet fired by Armenian armed forces.

Volume 62, case file pages: 147–150.

According to forensic medical expert opinion No. 79 dated 3 October 2023, the following bodily injuries were found on the body of **Imamaliyev Etibar Hijran oğlu**: a through-and-through gunshot wound of the cranial cavity accompanied by fractures of the bones of the cranial vault and skull base and crushing and disintegration of the brain along its course, entering from the caudal area of the left eyebrow and exiting in the projection of the temporal bone in the area of the right ear; a through-and-through gunshot wound of the right lower leg entering through the posterior surface of the middle third of the right lower leg, damaging the soft tissues and exiting through the inner surface of the middle third of the right lower leg. The wounds resulted from two shots fired from a firearm. The immediate cause of death was a gunshot wound to the skull resulting in crushing and disintegration of the brain, as well as fractures of the bones of the skull and skull base.

Page 966

Volume 23, case file pages: 12–15.

According to the protocol dated 22 September 2023 on the examination of the body of **Jafarov Mahir Asif oğlu**, a junior sergeant and extended-service serviceman of a military unit of the Ministry of Defence, bodily injuries of various shapes and sizes were found on the body.

Volume 23, case file pages: 19–20.

Jafarov Asif Gudrat oğlu, recognized as the legal successor of the victim **Jafarov Mahir Asif oğlu** and questioned, stated in his testimony that his son Mahir Jafarov began serving as a serviceman in a military unit of the Ministry of Defence in 2011, participated in local anti-terrorist operations against illegal Armenian armed formations on 19 September 2023, and was killed in the direction of **Khojavend District**.

Volume 82, case file pages: 124–126.

According to forensic medical expert opinion No. 76 dated 3 October 2023, the following bodily injuries were found on the body of **Jafarov Mahir Asif oğlu**: a penetrating gunshot wound to the chest, penetrating the right lateral surface of the chest from the fifth intercostal space along the mid-axillary line, extending from back to front, exiting from the right subclavian region on the anterior surface of the chest, accompanied by damage to the organs of the thoracic cavity along its course; a blind gunshot wound to the abdomen accompanied by damage to the organs of the abdominal cavity along the course of the bullet, which penetrated through the anterior abdominal wall and the right upper outer quadrant of the buttock. They were caused by two shots from a firearm, as a result of which serious harm to the health of the victim was caused, depending on the degree of severity, and death occurred. The immediate cause of death was traumatic-haemorrhagic shock that developed as a result of damage to the organs of the thoracic and abdominal cavities due to gunshot wounds to the chest and abdomen.

Volume 23, case file pages: 30–32.

According to forensic ballistic expert opinion No. 3-16-16/2-3/1746 dated 30 November 2023, on the submitted items of military uniform belonging to **Jafarov Mahir Asif**

Page 967

oglu — a military tunic, sweater and long-sleeved shirt — damage was found. A characteristic feature of this damage was that it had been caused by two bullets fired from a firearm from a distance of more than 1 metre and in different directions.

According to the protocol dated 22 September 2023 on the examination of the body of **Gasimov Kamal Huseyn oglu**, a soldier performing compulsory military service in a military unit of the Ministry of Defence, bodily injuries of various shapes and sizes were found on the body.

Volume 23, case file pages: 36–37.

Gasimova Sevindj Valekh gizi, recognized as the legal successor of the victim **Gasimov Kamal Huseyn oglu** and questioned, stated in her testimony that her son Kamal was called up for active military service in 2022 and was sent to a military unit of the Ministry of Defence, and subsequently to another military unit. On 19 September 2023, he participated in local anti-terrorist operations against Armenian armed formations and was killed in the area of the city of **Khankendi**.

Volume 44, case file pages: 220–222.

Volume 82, case file pages: 161–163.

According to forensic medical expert opinion No. 75 dated 3 October 2023, the following bodily injuries were found on the body of **Gasimov Kamal Huseyn oglu**: a blind gunshot wound to the thoracic cavity accompanied by damage to both lungs, entering from the left half of the posterior surface of the chest along the posterior axillary line at the level of the third rib and extending from left to right, ending in the right half of the posterior surface of the chest along the posterior axillary line at the level of the second rib; a metallic bullet — a foreign body — was located in the cavity. The injury resulted from a single shot from a firearm, as a result of which serious harm to the health of a living person was caused, depending on the degree of severity, resulting in death. The immediate cause of death was traumatic-haemorrhagic shock that developed as a result of damage to both lungs due to a blind gunshot wound to the chest.

Volume 23, case file pages: 46–48.

Page 968

According to forensic ballistic expert opinion No. 3-16-16/2-3/1788 dated 1 December 2023, damage was found on the submitted items of military uniform belonging to **Gasimov Kamal Huseyn oglu**: a military tunic and a long-sleeved shirt. A characteristic feature of this damage was that it had been caused by a bullet fired from a firearm from a distance of more than 1 metre in different directions.

Volume 276, case file pages: 132–135.

According to the protocol dated 22 September 2023 on the examination of the body of **Huseynov Sabukhi Makhbub oğlu**, a serviceman of a military unit of the Ministry of Defence, bodily injuries of various shapes and sizes were found on the body.

Volume 23, case file pages: 52–53.

Huseynov Makhbub Uzeyir oğlu, recognized as the legal successor of the victim **Huseynov Sabukhi Makhbub oğlu** and questioned, stated in his testimony that his son Sabukhi served in a military unit of the Ministry of Defence. On 20 September 2023, he was informed that his son had been wounded and killed during an anti-terrorist operation in the direction of **Khojavend**.

Volume 61, case file pages: 123–127.

According to forensic medical expert opinion No. 77 dated 3 October 2023, the following bodily injuries were found on the body of **Huseynov Sabukhi Makhbub oğlu**: complete traumatic amputation of the left lower extremity from the lower third of the lower leg; shrapnel wounds to both lower extremities with complete traumatic amputation of the right lower extremity from the upper third of the lower leg, caused by the impact of primary and secondary fragments formed as a result of the explosion of an explosive substance, which were classified as causing serious harm to health resulting in death. The immediate cause of death was traumatic-haemorrhagic shock that developed as a result of traumatic amputation of the left lower extremity from the lower third of the lower leg and complete traumatic amputation of the right lower extremity from the upper third of the lower leg due to shrapnel wounds to both lower extremities.

Page 969

Volume 23, case file pages: 63–65.

According to forensic ballistic expert opinion No. 3-16-16/2-3/1797 dated 1 December 2023, damage was found on the submitted items of military uniform belonging to **Huseynov Sabukhi Makhbub oğlu**: a military tunic and underwear. A characteristic feature of this damage was that it had been caused by fragments from an explosion travelling from a distance close to the centre of the explosion and in different directions.

Volume 276, case file pages: 120–123.

According to the protocol dated 23 September 2023, based on the examination of the body of **Rasulov Nuraddin Akif oğlu**, a soldier of a military unit of the Ministry of Defence who had completed his term of active military service, a large shrapnel wound measuring 12.5×5 cm, penetrating into the abdominal cavity, was found on the anterior abdominal wall in the umbilical region.

Volume 23, case file pages: 69–70.

Rasulov Akif Latif oğlu, recognized as the legal successor of the victim **Rasulov Nuraddin Akif oğlu** and questioned, stated in his testimony that his son Nuraddin began serving in a military unit of the Ministry of Defence with the rank of sergeant in 2011 after completing a

course for extended-service servicemen. On 19 September 2023, his son participated in local anti-terrorist operations against Armenian armed forces and was killed in **Khojaly District**.

Volume 82, case file pages: 38–40.

According to forensic medical expert opinion No. 81 dated 3 October 2023, the following bodily injuries were found on the body of **Rasulov Nuraddin Akif oğlu**: a shrapnel wound to the abdomen with damage to the organs of the abdominal cavity, caused by fragments resulting from the explosion of an explosive substance, which resulted in death. The immediate cause of death was traumatic-haemorrhagic shock that developed as a result of damage to the organs of the abdominal cavity due to the shrapnel wound to the abdomen.

Page 970

Volume 23, case file pages: 79–81.

According to forensic ballistic expert opinion No. 3-16-16/2-3/1777 dated 1 December 2023, damage was found on the submitted items of military uniform belonging to **Rasulov Nuraddin Akif oğlu**: a short-sleeved T-shirt. A characteristic feature of this damage was that it had been caused by fragments from an explosion travelling from a distance close to the centre of the explosion and in different directions.

Volume 276, case file pages: 210–213.

According to the protocol dated 23 September 2023 on the examination of the body of **Ismailov Vugar Mammadgasim oğlu**, a lieutenant and serviceman of a military unit of the Ministry of Defence, bodily injuries of various shapes and sizes were found on the body.

Volume 23, case file pages: 85–86.

Ismailov Mammadgasim Isa oğlu, recognized as the legal successor of the victim **Ismailov Vugar Mammadgasim oğlu** and questioned, stated in his testimony that his son Vugar served in a military unit of the Ministry of Defence. On 19 September 2023, he was informed that his son had been wounded and killed during an anti-terrorist operation in the direction of **Khojavend**.

Volume 61, case file pages: 111–115.

According to forensic medical expert opinion No. 85 dated 3 October 2023, the following bodily injuries were found on the body of **Ismailov Vugar Mammadgasim oğlu**: fractures of the bones of the skull and skull base along the course of the fracture, which entered from the edge of the right side of the forehead, passed from right to left and from top to bottom, and exited from the left temporal region; a bullet wound penetrating into the cranial cavity, accompanied by crushing and disintegration of the brain tissue; a gunshot wound to the chest and abdomen penetrating into the chest and abdomen from the posterior surface of the torso in the right lumbar region, directed from back to front and from top to bottom, with an exit wound in the right subclavian region, accompanied by damage to the organs of the thoracic and abdominal cavities, caused by two shots from a firearm, as well as serious bodily injuries resulting in death. The immediate

Page 971

cause of death was a gunshot wound to the skull resulting in crushing and disintegration of the brain, as well as fractures of the bones of the skull and skull base.

Volume 23, case file pages: 96–98.

According to forensic ballistic expert opinion No. 3-16-16/2-3/1761 dated 1 December 2023, damage was found on the submitted items of military uniform belonging to **Ismailov Vugar Mammadgasim oglu**: military trousers, a thermal shirt and a short-sleeved T-shirt. A characteristic feature of this damage was that it had been caused by bullets fired from a firearm from a distance of more than 1 metre, in a direction from back to front.

Volume 276, case file pages: 143–146.

According to the protocol dated 23 September 2023 on the examination of the body of **Sumbatzade Vusal Barat oglu**, an extended-service serviceman of a military unit of the Ministry of Defence, bodily injuries of various shapes and sizes were found on the body.

Volume 23, case file pages: 102–103.

Abbasov Barat Sunbat oglu, recognized as the legal successor of the victim **Sumbatzade Vusal Barat oglu** and questioned, stated in his testimony that Vusal began serving in a military unit of the Ministry of Defence with the rank of junior sergeant in 2017 after completing a course intended for extended-service servicemen. He participated in combat operations against Armenian armed formations on 19 September 2023 and was killed in **Khojavend District**.

Volume 44, case file pages: 243–245.

According to forensic medical expert opinion No. 83 dated 3 October 2023, the following bodily injuries were found on the body of **Sumbatzade Vusal Barat oglu**: traumatic amputation of the left upper extremity at the level of the elbow, damage to the organs of the abdominal cavity, shrapnel wounds to the left upper extremity and the posterior surface of the torso, accompanied by open fractures of the pelvic bones. The aforementioned injuries were life-threatening and were sustained as a result of

Page 972

the impact of primary and secondary fragments formed as a result of the explosion of an explosive substance and resulted in death. The immediate cause of death was traumatic-haemorrhagic shock that developed as a result of traumatic amputation of the left upper extremity at the level of the elbow due to shrapnel wounds to the left upper extremity and the posterior surface of the torso, damage to the organs of the abdominal cavity and open fractures of the pelvic bones.

Volume 23, case file pages: 113–115.

According to forensic ballistic expert opinion No. 3-16-16/2-3/1766 dated 1 December 2023, damage was found on the submitted items of military uniform belonging to **Sumbatzade**

Vusal Barat oglu. A characteristic feature of this damage was that it had been caused by fragments from an explosion travelling from a distance close to the centre of the explosion and in different directions.

Volume 285, case file pages: 116–119.

According to the protocol dated 23 September 2023 on the examination of the body of **Gakhramanov Alimardan Samed oglu**, a serviceman of a military unit of the Ministry of Defence performing extended active military service, an entrance bullet wound measuring 1.2×2 cm with a central tissue defect was found on the outer surface of the upper third of the left thigh, as well as an exit bullet wound measuring 3.5×2 cm, penetrating into the abdominal cavity, in the middle part of the lumbar region.

Volume 23, case file pages: 119–120.

Gakhramanov Samed Saday oglu, recognized as the legal successor of the victim **Gakhramanov Alimardan Samed oglu** and questioned, stated in his testimony that his son Alimardan had most recently served in the Ministry of Defence's "**Commando**" **military unit** in November 2020. On 21 September 2023, he received information that his son Alimardan had been killed as a result of fire opened by illegal Armenian armed formations in the city of **Khankendi**.

Volume 285, case file pages: 181–183.

Page 973

According to forensic medical expert opinion No. 82 dated 3 October 2023, the following bodily injuries were found on the body of **Gakhramanov Alimardan Samed oglu**: a through-and-through gunshot wound to the abdominal cavity, accompanied by damage to the organs of the abdominal cavity, entering from the outer surface of the upper third of the left thigh, extending from bottom to top, from left to right and from front to back, and exiting from the lumbar region, caused by a single shot from a firearm. The immediate cause of death was traumatic-haemorrhagic shock that developed as a result of damage to the organs of the abdominal cavity due to a penetrating gunshot wound to the abdominal cavity.

Volume 23, case file pages: 130–132.

According to forensic ballistic expert opinion No. 3-16-16/2-3/1785 dated 1 December 2023, damage was found on the submitted items of military uniform belonging to **Gakhramanov Alimardan Samed oglu**. A characteristic feature of this damage was that it had been caused by a bullet fired from a firearm from a distance of more than 1 metre in different directions.

Volume 285, case file pages: 165–168.

According to the protocol dated 23 September 2023 on the examination of the body of **Mirzayev Farid Namig oglu**, a serviceman of a military unit of the Ministry of Defence, two gunshot wounds were found on the body.

Volume 23, case file pages: 137–138.

Mirzayev Namig Khalil oglu, recognized as the legal successor of the victim **Mirzayev Farid Namig oglu** and questioned, stated in his testimony that his son Farid began serving in a military unit of the Ministry of Defence in September 2022 with the military rank of junior lieutenant. On 20 September 2023, he was informed of the death of **Mirzayev Farid Namig oglu**. His son Farid was killed on 19 September 2023 after sustaining multiple shrapnel wounds as a result of the explosion of a projectile fired by Armenian armed persons in the direction of **Khojaly District**.

Volume 44, case file pages: 30–32.

Page 974

According to forensic medical expert opinion No. 86 dated 3 October 2023, the following bodily injuries were found on the body of **Mirzayev Farid Namig oglu**: a through-and-through gunshot wound to the thoracic cavity, entering from the outer surface of the left shoulder, extending from left to right, from front to back and from top to bottom, and exiting from the right half of the posterior surface of the chest at the level of the fourth rib along the shoulder line, damaging both lungs along its course, caused by a single shot from a firearm. The immediate cause of death was traumatic-haemorrhagic shock that developed as a result of damage to both lungs and bilateral hemopneumothorax due to a through-and-through gunshot wound to the thoracic cavity.

Volume 23, case file pages: 148–150.

According to the protocol dated 23 September 2023 on the examination of the body of **Zulfugarov Javid Javanshir oglu**, a soldier of a military unit of the Ministry of Defence who was performing compulsory military service, bodily injuries of various shapes and sizes were found on the body.

Volume 23, case file pages: 154–155.

Zulfugarov Javanshir Gulu oglu, recognized as the legal successor of the victim **Zulfugarov Javid Javanshir oglu** and questioned, stated in his testimony that his son Javid served in a military unit of the Ministry of Defence. On 19 September 2023, he was informed that his son had been killed after sustaining shrapnel wounds during an anti-terrorist operation in the direction of **Khojaly**.

Volume 61, case file pages: 147–150.

According to forensic medical expert opinion No. 84 dated 3 October 2023, the following bodily injuries were found on the body of **Zulfugarov Javid Javanshir oglu**: multiple fractures of the skull, skull base and facial bones; multiple penetrating gunshot wounds to the cranial cavity accompanied by crushing and disintegration of the brain tissue, caused by shots fired from a firearm. The immediate cause of death was a gunshot wound to the skull, resulting in

Page 975

crushing and disintegration of the brain, as well as fractures of the bones of the cranial vault, skull base and face.

Volume 23, case file pages: 162–164.

According to the protocol dated 23 September 2023 on the examination of the body of **Mammadov Samir Mammad oglu**, a junior sergeant and extended-service serviceman of Military Unit No. 218 of the Ministry of Defence, bodily injuries of various shapes and sizes were found on the body.

Volume 23, case file pages: 168–169.

Mammadov Mammad Vilayat oglu, recognized as the legal successor of the victim **Mammadov Samir Mammad oglu** and questioned, stated in his testimony that his son Samir had served as a serviceman in a military unit of the Ministry of Defence since 2014, participated on 19 September 2023 in local anti-terrorist operations against Armenian armed formations, and was killed in the direction of **Khojaly District**.

Volume 82, case file pages: 93–95.

According to forensic medical expert opinion No. 87 dated 3 October 2023, the following bodily injuries were found on the body of **Mammadov Samir Mammad oglu**: a through-and-through gunshot wound to the cranial cavity, entering from the left side of the occipital region, extending from back to front and from bottom to top, and exiting from the left side of the upper part of the head, accompanied by fractures of the bones of the skull and skull base and, along its course, destroying and crushing the brain, caused by one shot from a firearm. The immediate cause of death was a gunshot wound to the skull resulting in crushing and disintegration of the brain, as well as fractures of the bones of the skull and skull base.

Volume 23, case file pages: 178–180.

According to the protocol dated 20 September 2023 on the examination of the body of **Shamsiyev Ilham Shakir oglu**, a serviceman of a military unit of the Ministry of Defence, bodily injuries were found on the body.

Page 976

Volume 13, case file pages: 54–70.

Shamsiyev Shahmar Shakir oglu, recognized as the legal successor of the victim **Shamsiyev Ilham Shakir oglu** and questioned, stated in his testimony that his brother Ilham had served in a military unit of the Ministry of Defence since 2023. On 20 September 2023, an unknown person telephoned him and informed him that his brother Ilham had been killed in fighting with illegal Armenian armed formations in the direction of **Aghdara District**.

Volume 53, case file pages: 119–121.

According to forensic medical expert opinion No. 09 dated 20 October 2023, the following bodily injuries were found on the body of **Shamsiyev Ilham Shakir oglu**: multiple comminuted, defective, open fractures of the bones of the cranial vault; a blind wound penetrating into the cranial cavity in the right parietal region, accompanied by diffuse crushing and disintegration of the brain tissue; a blind wound with an extensive tissue defect

in the left iliac region; a blind wound to the first finger of the right hand, caused by the blast wave generated by the explosion of a firearm projectile and by primary and secondary fragments of a blunt mechanism. The immediate cause of death was diffuse injury to the brain tissue as a result of a blind blunt shrapnel wound penetrating into the cranial cavity.

Volume 42, case file pages: 61–64.

According to forensic ballistic expert opinion No. 3-16-16/2-3/1556 dated 7 January 2023, damage was found on the left sleeve and the lower part of the front of the military-style tunic and sweater bearing the inscription “**belongs to deceased Warrant Officer Ilham Shamsiyev.**” Taking into account the shape, dimensions and morphological structure of the damage, as well as the absence of traces of copper metal on its surface, the detection of explosives (TNT) and incompletely burned particles of smokeless powder, which constituted an additional factor in the occurrence of fire, makes it possible to assume that a characteristic feature of this injury was that it had been caused from front to back, from a distance close to the centre of the explosion, as a result of the impact of fragments.

Volume 297, case file pages: 75–79.

Page 977

According to the protocol dated 20 September 2023 on the examination of the body of **Hasanov Hasan Zabit oğlu**, a serviceman of a military unit of the Ministry of Defence, bodily injuries were found on the body.

Volume 13, case file pages: 72–85.

Hasanov Nakhid Zabit oğlu, recognized as the legal successor of the victim **Hasanov Hasan Zabit oğlu** and questioned, stated in his testimony that his brother Hasan served in a military unit of the Ministry of Defence, and that on 20 September 2023 he received a telephone call informing him that his brother Hasan had been killed in fighting with illegal Armenian armed formations in **Kalbajar District**.

Volume 53, case file pages: 151–153.

According to forensic medical expert opinion No. 07 dated 6 October 2023, the following bodily injuries were found on the body of **Hasanov Hasan Zabit oğlu**: two blind wounds to the abdominal cavity, one penetrating wound accompanied by severe bleeding, open fractures of the pelvic bones and multiple injuries to the organs of the abdominal cavity; a tangential wound to the soft tissues of the left axillary fossa, resulting from the impact of a bullet fired from a firearm, which, due to its severity, ordinarily causes serious harm to living persons and results in death. In addition to the above, during the forensic medical examination of the body of **Hasanov Hasan Zabit oğlu**, superficial abrasions were found on the neck, left elbow joint and third finger of the right hand. The injuries were caused by a blunt mechanism, by the impact of a hard blunt object. The immediate cause of death was traumatic-haemorrhagic shock that developed as a result of acute blood loss due to one penetrating and two blind gunshot wounds to the abdominal cavity, which resulted in open fractures of the pelvic bones, multiple injuries to the organs of the abdominal cavity and acute bleeding.

Volume 42, case file pages: 51–54.

According to forensic ballistic expert opinion No. 3-16-16/2-3/1553 dated 7 January 2023, there was a penetrating wound in the anterior upper part of the left lower leg on the body of **Hasanov Hasan**. Although no traces of copper metal or explosive

Page 978

substance (TNT) were found around the aforementioned wound, the detection of incompletely burned particles of smokeless powder constituted an additional factor indicating the discharge, and, on the basis of the shape, dimensions and morphological structure of the injury, it was considered that the injury was an entrance wound caused by a shot from a rifled firearm. It was characteristic that it had been caused by a bullet approximately 5 millimetres in diameter, fired from a distance of more than 1 metre.

Volume 297, case file pages: 95–98.

According to the protocol dated 20 September 2023 on the examination of the body of **Gasimov Sanan Farman oglu**, a serviceman of a military unit of the Ministry of Defence, bodily injuries were found on the body.

Volume 13, case file pages: 87–114.

Gasimov Farman Nariman oglu, recognized as the legal successor of the victim **Gasimov Sanan Farman oglu** and questioned, stated in his testimony that his son Sanan graduated from the Higher Military School in 2012 and began military service. From 2022, he continued his military service in a military unit of the Ministry of Defence. On 20 September 2023, an unknown serviceman telephoned him and informed him that his son Sana had been killed in fighting with Armenian armed formations in **Kalbajar District**.

Volume 53, case file pages: 175–177.

According to forensic medical expert opinion No. 11 dated 20 September 2023, the following bodily injuries were found on the body of **Gasimov Sanan Farman oglu**: multiple defective open fractures of the bones of the cranial vault, skull base and nose; penetrating wounds to the head accompanied by diffuse crushing and disintegration of the brain tissue; three penetrating wounds to the left half of the chest and three penetrating wounds to the right half of the chest, accompanied by multiple injuries to the organs of the thoracic cavity; incomplete traumatic separation of the right upper extremity at the level of the upper third of its base, hanging by a skin flap; a penetrating wound to the left hand accompanied by multiple open fractures of the carpal bones; multiple blind wounds to the left lower leg accompanied by multiple open fractures of the

Page 979

tibial bones; three blind wounds to the soft tissues of the left arm and one to the soft tissues of the right lower leg; abrasions on the left arm. The cause of these injuries was the impact of a blast wave generated by the explosion of a weapon or projectile, as well as secondary fragments of the primary and blunt mechanism. The immediate cause of death was a penetrating shrapnel wound to the head accompanied by multiple open fractures of the skull and skull base, as well as diffuse injury to the brain tissue as a result of the explosion.

Volume 42, case file pages: 71–74.

According to forensic ballistic expert opinion Nos. 3-16-16/2-3/1541 and 3/1585 dated 7 January 2023, the shape, manufacturing characteristics and traces on the four metal objects submitted for examination indicate that they are parts of factory-manufactured ammunition (projectiles). Item No. 1 submitted for examination is a factory-manufactured 7.62×39 mm cartridge intended for use as ammunition in **Kalashnikov-type automatic weapons, RPK light machine guns, SKS carbines** and other rifled firearms of the corresponding calibre. The cartridge case is a part of the cartridge that separates during firing. In its submitted condition, it is not considered ammunition and is unsuitable for its intended use. Damage of the size and quantity specified in the examination section was found on one military jacket, one military tunic, one military sweater, one long-sleeved military shirt, one short-sleeved military shirt, one pair of military trousers with a waistband, one pair of warm trousers and underpants. Taking into account the shape, dimensions and morphological structure of the damage, the absence of traces of copper metal on its surface, the detection of explosive substances (TNT) and incompletely burned particles of smokeless powder, which constituted an additional factor in the occurrence of fire, it is presumed that this damage was caused by an explosion and the impact of fragments from a distance close to the centre of the explosion. It is characteristic that the damage was caused in different directions.

Volume 297, case file pages: 99–106.

According to the protocol dated 20 September 2023, based on the examination of the body of the serviceman of a military unit of the Ministry of Defence **Yusifli Shamistan Shukran**

Page 980

oglu, the head of the body was deformed, and bodily injuries of varying degrees of severity were found on the body.

Volume 13, case file pages: 116–137.

Gasimov Farman Nariman oglu, recognized as the legal successor of the victim **Gasimov Sanan Farman oglu** and questioned, stated in his testimony that his son Sanan graduated from the Higher Military School in 2012 and began military service. From 2022, he continued his military service in a military unit of the Ministry of Defence. On 20 September 2023, an unknown serviceman telephoned him and informed him that his son Sana had been killed in fighting with Armenian armed formations in **Kalbajar District**.

Volume 53, case file pages: 30–32.

According to forensic medical expert opinion No. 10 dated 29 October 2023, the following bodily injuries were found on the body of **Yusifli Shamistan Shukran oglu**: multiple defective open fractures of the skull, the bones of the skull base and facial skeleton; diffuse crushing and disintegration of the brain, tissues and fracture of the cervical spine; a single penetrating wound to the head and neck accompanied by multiple vascular injuries; a penetrating wound to the left half of the chest with damage to the left lung, left-sided hemopneumothorax (accumulation of free blood and air in the thoracic cavity), and displaced open fractures of the sixth and seventh left ribs; two blind wounds to the right lower leg accompanied by multiple displaced open fractures of the tibia; a blind wound to the right foot

accompanied by a comminuted displaced open fracture of the fifth metatarsal bone; a penetrating shrapnel wound to the right earlobe; blind shrapnel wounds to the soft tissues of the right shoulder, right lateral wall of the chest and right thigh, caused by the blast wave generated by the explosion of a firearm projectile and by secondary fragments of the primary and blunt mechanism. The immediate cause of death was diffuse injury to the brain tissue as a result of a combined penetrating shrapnel wound to the head and neck.

Volume 42, case file pages: 66–69.

Page 981

According to forensic ballistic expert opinion Nos. 3-16-16/2-3/1564; 3/1578 dated 7 January 2023, the following were found on the body: a military jacket, a military tunic, a short-sleeved military shirt and military trousers with a belt at the waist belonging to **Yusifli Shamistan Shukran oglu**; damage was found on the right lower leg and sock. Taking into account the shape, dimensions and morphological structure of the damage, the absence of traces of copper metal on its surface, the detection of explosive substances (TNT) and incompletely burned particles of smokeless powder, which constituted an additional factor in the occurrence of fire, it is presumed that this damage was caused by an explosion and the impact of fragments from a distance close to the centre of the explosion. It is characteristic that the damage was caused from bottom to top. Unburned particles of smokeless powder (nitro compounds) and explosive substances (TNT) were found on the clothing, which constituted an additional factor in the occurrence of fire. Based on the shape, manufacturing characteristics, traces present on it and other characteristics of the metal object examined, it was part of factory-manufactured ammunition (projectile).

Volume 297, case file pages: 28–33.

According to the protocol dated 20 September 2023 on the examination of the body of **Jahangirov Tural Galamhuseyn oglu**, a serviceman of a military unit of the Ministry of Defence, bodily injuries of varying degrees of severity were found on the body.

Volume 13, case file pages: 139–156.

Eyvazova Ilakha Telman gizi, questioned as the legal successor of the victim **Jahangirov Tural Galamhuseyn oglu**, stated in her testimony that her husband Tural began active military service in a military unit of the Ministry of Defence in February 2021. On 19 September 2023, his wife Tural was killed during fighting with Armenian armed forces in **Kalbajar District**.

Volume 42, case file pages: 41–43.

According to forensic medical expert opinion No. 06 dated 6 October 2023, the following bodily injuries were found on the body of **Jahangirov Tural Galamhuseyn oglu**: acute bleeding, an open fracture of the left scapula, injuries to the organs of

Page 982

the thoracic cavity, a left-sided open wound, hemopneumothorax (free penetration into the thoracic cavity), a blind wound of the left shoulder penetrating into the thoracic cavity and

accompanied by an accumulation of blood and air masses; numerous abrasions and bruises on the back and lower back. Abrasions on both knee joints were caused by the blast wave generated by the explosion of explosive munitions, as well as by secondary fragments of the primary and blunt mechanism. The cause of death was traumatic-haemorrhagic shock that developed as a result of acute bleeding due to a blind shrapnel wound penetrating into the thoracic cavity as a result of an explosion, an open fracture of the left scapula and damage to the organs of the thoracic cavity.

Volume 42, case file pages: 47–49.

According to forensic ballistic expert opinion Nos. 3-16-16/2-3/1543; 3/1583 dated 7 January 2023, the shape, manufacturing characteristics, traces on it and other characteristics of the metal object examined indicate that it was manufactured. It formed part of ammunition (projectiles) manufactured in this manner. Bodily injuries, the size and number of which are specified in the examination section of the expert opinion, were found on the military uniform, a warm long-sleeved shirt and a short-sleeved shirt marked as belonging to “**the martyr Junior Lieutenant Tural Jahangirov.**” Taking into account the shape, dimensions and morphological structure of the damage, the fact that no traces of copper metal or explosive substance (TNT) were found on its surface, and the detection of incompletely burned particles of smokeless powder, which constituted an additional factor in the occurrence of fire, it is characteristic that in this case the explosion was caused by the impact of fragments travelling from a great distance towards the centre of the explosion in a direction from back to front.

Volume 297, case file pages: 107–111.

According to the protocol dated 20 September 2023 on the examination of the body of **Huseynov Shikar Huseyn oglu**, a serviceman of a military unit of the Ministry of Defence, bodily injuries of varying degrees of severity were found on the body.

Volume 13, case file pages: 158–177.

Page 983

Huseynov Firudin Huseyn oglu, questioned as the legal successor of the victim **Huseynov Shikar Huseyn oglu**, stated in his testimony that his brother Shikar began serving in a military unit of the Ministry of Defence in 2021. On 20 September 2023, an unknown serviceman telephoned him and informed him that his brother Shikar had been killed in fighting with Armenian armed formations in the direction of **Aghdara District**.

Volume 53, case file pages: 167–169.

According to forensic medical expert opinion No. 08 dated 20 October 2023, the following bodily injuries were found on the body of **Huseynov Shikar Huseyn oglu**: multiple defective open fractures of the left temporal, parietal and occipital bones, as well as craniocerebral trauma accompanied by diffuse crushing and disintegration of the brain tissue; a blind wound. Abrasions on the right temple, right supraspinatus muscle, lower jaw, posterior side of the left hand and right lower leg were caused by the blast wave generated by the explosion of a firearm, as well as by fragments of the primary and blunt mechanism. These injuries, depending on their severity, were generally considered serious injuries to the health of living

persons. This was associated with signs of injuries that caused harm and resulted in death. Wounds to the chest, an open fracture of the left scapula with fragments, left-sided open hemopneumothorax (accumulation of free blood and air in the thoracic cavity), one penetrating and one blind wound to the chest accompanied by acute bleeding — gunshot wounds resulting from shots fired from a firearm (as a result of the impact of a projectile). The cause of death was diffuse injury to the brain tissue due to a blind shrapnel wound penetrating into the cranial cavity as a result of an explosion.

Volume 42, case file pages: 56–59.

According to forensic ballistic examination report Nos. 3-16-16/2-3/1562; 3/1576 dated 7 January 2023, it was established that item 1 is a Kalashnikov-design automatic weapon, model AK, a PPK submachine gun. A pistol-type item, part of a factory-manufactured 7.62 × 39 calibre cartridge used as ammunition in machine guns, **SKS carbines** and other rifled firearms of the corresponding calibre, which separates during firing — a bullet. In its present form, it is not considered ammunition. It is in defective condition and unsuitable for

Page 984

its intended use. Damage specified in the examination section of the expert opinion was found on the military uniform, military sweater, long-sleeved shirt, short-sleeved shirt, sleeveless shirt and right boot. This damage was caused by bullets fired from a firearm from a distance of more than 1 metre and in different directions.

Volume 297, case file pages: 41–45.

According to the protocol dated 21 September 2023 on the examination of the body of **Radjabov Vagif Yagub oglu**, a serviceman of a military unit of the Internal Troops of the Ministry of Internal Affairs, bodily injuries of varying degrees of severity were found on the body.

Volume 13, case file pages: 236–248.

Orudzhev Emil Yagub oglu, questioned as the legal successor of the victim **Radjabov Vagif Yagub oglu**, stated in his testimony that his brother Vagif began active military service in a military unit of the Internal Troops in 2009. On 20 September 2023, a man named Ilkin, a fellow serviceman of his brother Vagif and a native of the village of **Goran, Goranboy District**, telephoned him and informed him that his brother Vagif Radjabov had been killed in fighting with illegal Armenian armed formations in the direction of the village of **Vang, Kalbajar District**.

Volume 54, case file pages: 12–14, 152–154.

According to forensic medical expert opinion No. 15 dated 21 September 2023, the following bodily injuries were found on the body of **Radjabov Vagif Yagub oglu**: multiple defective open fractures of the skull bones; a blind wound to the head accompanied by diffuse crushing and disintegration of the skull bones and brain tissue; a penetrating wound to the chest accompanied by acute bleeding, damage to the organs of the thoracic cavity and bilateral hemopneumothorax (accumulation of free blood and air in the thoracic cavity); a penetrating wound to the chest accompanied by comminuted displaced open fractures of the bones of the

lower leg, resulting from the impact of a bullet (projectile) fired from a firearm, as well as a blind wound to the soft tissues of the right lower leg. The thigh is secondary in relation to the primary or blunt mechanism caused by the explosion of explosive military munitions. It was caused by the impact of

Page 985

shrapnel. The immediate cause of death was diffuse injury to the brain tissue as a result of a blunt gunshot wound to the head.

Volume 42, case file pages: 90–93.

According to forensic ballistic expert opinion No. 3-16-16/2-3/1551 dated 7 January 2023, **Vagif Radjabov** had with him a military jacket, military tunic, warm undershirt, sleeveless woollen shirt, military trousers and insulated underpants. No bodily injuries with bullet holes were found. Although no traces of copper metal were found around the wounds, the damage to the items of military clothing, which, based on the shape, dimensions and morphological structure of the wounds, was identified as entrance and exit wounds, was accompanied by additional factors of firing, including incompletely burned particles of smokeless powder and explosive substances (TNT). The injuries were caused by at least two shots from a rifled firearm from a distance of more than 1 metre and in different directions, as well as by fragments from an explosion travelling from a distance close to the centre of the explosion and in different directions. Incompletely burned particles of smokeless powder and the explosive substance TNT were found on the surface of the military clothing, which constituted additional factors of firing.

Volume 297, case file pages: 147–152.

According to the protocol dated 21 September 2023 on the examination of the body of **Samedov Jamal Vugar oglu**, a serviceman of a military unit of the Internal Troops of the Ministry of Internal Affairs, bodily injuries were found on the body.

Volume 9, case file pages: 1–14.

Samedov Vugar Seyfaddin oglu, recognized as the legal successor of the victim **Samedov Jamal Vugar oglu**, stated in his testimony that his son Jamal Samedov had been sent for military service in 2010 and, after completing compulsory military service, began serving as a soldier in a military unit, a subdivision of the Internal Troops. On the evening of 19 September 2023, an officer whose name he did not remember telephoned him and informed him that his son Jamal Samedov had been killed in fighting with illegal Armenian armed formations in the direction of **Kalbajar District**.

Page 986

Volume 53, case file pages: 44–47.

According to forensic medical expert opinion No. 14 dated 21 September 2023, the following bodily injuries were found on the body of **Samedov Jamal Vugar oglu**: acute bleeding; damage to the organs of the thoracic cavity; bilateral open hemopneumothorax (accumulation of free blood and air in the thoracic cavity); a single penetrating wound to the thoracic cavity

on the right and to the right arm, accompanied by a comminuted open fracture of the humerus; two blind penetrating wounds to the abdominal cavity in the right lumbar region, accompanied by severe bleeding and damage to the organs of the abdominal cavity; a single blind wound to the soft tissues of the right lumbar region; a single penetrating wound to the soft tissues of the left inguinal region resulting from the impact of a bullet (projectile) fired from a firearm. In terms of severity, these injuries are classified as injuries ordinarily causing serious harm to the health of a living person and resulting in death. The cause of death was acute bleeding due to injuries to the organs of the thoracic and abdominal cavities as a result of multiple gunshot wounds.

Volume 42, case file pages: 85–88.

According to forensic ballistic expert report Nos. 3-16-16/2-3/1565; 3/1579 dated 7 January 2023, a military jacket, military tunic, military sweater, short-sleeved shirt, T-shirt and military trousers belonging to **Samedov Jamal** were examined. Damage was found on the sweatpants, underwear, right boot and right sock. Although no traces of copper metal or explosive substances (TNT) were found around the injuries, the detection around them of incompletely burned particles of smokeless powder, which constituted an additional factor of firing, makes it possible to conclude, based on the shape, dimensions and morphological structure of the damage, that these were multiple wounds caused by a rifled firearm, including entrance and exit wounds. As a result of the shots, bullets approximately 8 millimetres in diameter were fired from a distance of more than 1 metre, and the damage was also caused by fragments from an explosion travelling in different directions from a distance close to the centre of the explosion.

Volume 297, case file pages: 21–27.

Page 987

According to the protocol dated 21 September 2023 on the examination of the body of **Nabiyev Farid Kamran oglu**, a serviceman of the Internal Troops of the Ministry of Internal Affairs, bodily injuries were found on the body.

Volume 9, case file pages: 15–28.

Nabiyev Kamran Imran oglu, recognized as the legal successor of the victim **Nabiyev Farid Kamran oglu**, stated in his testimony that his son Farid Nabiyev had begun serving in a military unit of the Internal Troops two years earlier. On 20 September 2023, an unknown person telephoned him and informed him that his son Farid Nabiyev had been killed in fighting with illegal Armenian armed formations in **Kalbajar District**.

Volume 53, case file pages: 135–137.

According to forensic medical expert opinion No. 16 dated 21 September 2023, the following bodily injuries were found on the body of **Nabiyev Farid Kamran oglu**: acute bleeding; bilateral open hemopneumothorax (accumulation of free blood and air in the thoracic cavity); damage to the organs of the thoracic cavity; fractures of the ribs on the right; a single penetrating wound to the chest accompanied by displaced lateral fractures; penetrating wounds to the soft tissues of the right shoulder and left knee joint; a penetrating wound to the right thigh accompanied by comminuted, open, displaced fractures of the femur; multiple

blind wounds to the soft tissues of the left arm, right hip joint and both thighs resulting from the impact of a bullet (projectile) fired from a firearm. The wound to the right thigh resulted from the blast wave generated by the explosion of a weapon, as well as from the impact of primary and secondary fragments of a blunt mechanism. The immediate cause of death was traumatic-haemorrhagic shock that developed as a result of a penetrating gunshot wound to the chest, acute blood loss, bilateral open hemopneumothorax (accumulation of free blood and air in the thoracic cavity), and injury to the organs of the thoracic cavity.

Volume 42, case file pages: 95–99.

Page 988

According to the protocol dated 21 September 2023 on the examination of the body of **Ahmedov Elvin Galandar oglu**, a serviceman of a military unit of the Internal Troops of the Ministry of Internal Affairs, bodily injuries were found on the body.

Volume 9, case file pages: 30–42.

Ahmedov Ahmed Galandar oglu, recognized as the legal successor of the victim **Ahmedov Elvin Galandar oglu**, stated in his testimony that his son Elvin had served in a military unit of the Internal Troops since 2014. On 20 September 2023, an unknown person telephoned him and informed him that his son Elvin Ahmedov had been killed in fighting with illegal Armenian armed formations in **Kalbajar District**.

Volume 53, case file pages: 1274–129.

According to forensic medical expert opinion No. 22 dated 21 September 2023, the following bodily injuries were found on the body of **Ahmedov Elvin Galandar oglu**: contusions of the organs of the thoracic cavity; left-sided rib fractures; bilateral open hemopneumothorax (accumulation of free blood and air in the thoracic cavity); two acute penetrating wounds to the left arm and chest accompanied by bleeding; damage to the carotid arteries; penetrating wounds to the neck accompanied by severe bleeding; a blind penetrating wound to the abdominal cavity accompanied by damage to the organs of the abdominal cavity; a single blind wound to the soft tissues of the left buttock; multiple displaced open fractures of the bones of the left thigh and lower leg; one penetrating wound to the left lower leg and one penetrating wound to the left knee joint, caused by the impact of bullets (projectiles) as a result of shots fired from a firearm. The cause of death was acute bleeding resulting from damage to the major arteries of the neck, thoracic cavity and organs of the abdominal cavity as a result of multiple gunshot wounds.

Volume 42, case file pages: 126–129.

According to the protocol dated 21 September 2023 on the examination of the body of **Babayev Sahil Sarybala oglu**, a serviceman of a military unit of the Internal Troops of the Ministry of Internal Affairs, bodily injuries were found on the body.

Page 989

Volume 9, case file pages: 44–56.

Babayev Sarybala Salman oglu, recognized as the legal successor of the victim **Babayev Sahil Sarybala oglu** and questioned, stated in his testimony that his son Sahil Babayev had served in a military unit of the Internal Troops since 2014. On the morning of 21 September 2023, his son's fellow servicemen informed him that his son Sahil Babayev had been killed during fighting with illegal Armenian armed formations in the direction of **Aghdara District**.

Volume 53, case file pages: 21–23.

According to forensic medical expert opinion No. 23 dated 21 September 2023, the following bodily injuries were found on the body of **Babayev Sahil Sarybala oglu**: acute bleeding; bilateral hemopneumothorax (infection of the thoracic cavity), with the entrance wound located on the right half of the chest, on the anterior surface of the chest, and the exit wound located on the left lateral wall of the chest; accumulation of free blood and air; injuries to the organs of the thoracic cavity; a penetrating wound to the thoracic cavity accompanied by displaced open fractures of the first and second ribs on the right and the fourth, fifth, sixth and seventh ribs on the left; a penetrating wound to the soft tissues of the right cheek resulting from the impact of a bullet (projectile) fired from a firearm. In terms of severity, these injuries as a whole are classified as bodily injuries causing serious harm to the health of living persons and resulting in death. In addition, during the forensic medical examination of the body of **Babayev S.S.**, bruises measuring 9.5×7 centimetres on the forehead and 2×1.5 centimetres at the outer corner of the right eye, with uneven edges and dark crimson-red colouring, were found. They were caused by a blunt mechanism, by the impact of a hard blunt object. The immediate cause of death was traumatic-haemorrhagic shock that developed as a result of injury to the organs of the thoracic cavity, bilateral hemopneumothorax and acute bleeding due to a penetrating gunshot wound to the thoracic cavity.

Volume 42, case file pages: 131–134.

According to the protocol dated 21 September 2023 on the examination of the body of **Aliyev Zakhir Sadi oglu**, a serviceman of a military unit of the Internal Troops of the Ministry of Internal Affairs, bodily injuries were found on the body.

Page 990

Volume 9, case file pages: 58–70.

Mursalova Aynur Mardali gizi, recognized and questioned as the legal successor of the victim **Aliyev Zakhir Sadi oglu**, stated in her testimony that her husband Zakhir Aliyev began active military service in a military unit in 2012. On the evening of 20 September 2023, she learned that her husband Zakhir Aliyev had been killed in fighting with illegal Armenian armed formations in **Kalbajar District**.

Volume 42, case file pages: 180–182.

According to forensic medical expert opinion No. 21 dated 21 September 2023, the bodily injuries found on the body of **Aliyev Zakhir Sadi oglu** consisted of multiple wounds to the organs of the abdominal cavity and pelvis accompanied by severe bleeding, with the entrance wound located in the projection of the left iliac crest and the exit wound in the left lumbar region; three blind wounds, one of them penetrating into the abdominal cavity, located in the left gluteal region, with entrance wounds located in the left gluteal region and penetrating

into the pelvic cavity; a single penetrating wound in the area of the left elbow joint accompanied by multiple displaced open fractures of the humerus and ulna; a penetrating wound to the soft tissues of the right buttock; two penetrating wounds to the right thigh accompanied by multiple comminuted displaced open fractures of the femur; a single penetrating wound to the soft tissues of the left thigh. The penetrating wound to the soft tissues of the left lower leg resulted from the impact of a bullet (projectile) as a result of 10 shots fired from a firearm. Multiple blind shrapnel wounds to the soft tissues of the left earlobe, left knee joint, left thigh and lower-leg region were caused by secondary fragments from the primary and blunt mechanism during the explosion of explosive munitions; in terms of severity, they ordinarily cause long-term impairment of health in living persons but are not serious and are classified as injuries causing harm. The cause of death was traumatic-haemorrhagic shock that developed as a result of multiple gunshot wounds, damage to the organs of the abdominal cavity and pelvis, multiple open fractures of the left humerus and iliac bones, a displaced fracture of the right femur, as well as acute bleeding.

Page 991

Volume 42, case file pages: 121–124.

According to forensic ballistic expert opinion No. 3-16-16/2-3/1558 dated 7 January 2023, damage was found on the military tunic, sweater, T-shirt and trousers of **Zakhir Aliyev**. Although no traces of copper metal were found around the wounds, the wounds on the military clothing, identified on the basis of their shape, dimensions and morphological structure, were groove-like, including entrance and exit wounds, and were caused by incompletely burned particles of powder and explosive substances (TNT), which constituted an additional factor of fire around them. It is characteristic that bullets approximately 6 millimetres in diameter struck from a distance of more than 1 metre and in different directions, and that fragments from an explosion struck from a great distance near the centre of the explosion and in different directions.

Volume 297, case file pages: 63–68.

According to the protocol dated 21 September 2023 on the examination of the body of **Velizade Rashad Rasim oğlu**, a serviceman of the Internal Troops of the Ministry of Internal Affairs, bodily injuries were found on the body.

Veliyev Rahib Rasim oğlu, questioned as the legal successor of the victim **Velizade Rashad Rasim oğlu**, stated in his testimony that his brother Rashad began active military service in July 2019. On 20 September 2023, an unknown serviceman telephoned him and informed him that his brother Rashad had been killed in fighting with Armenian armed formations in the **Kalbajar direction**.

Volume 42, case file pages: 194–196.

According to forensic medical expert opinion No. 13 dated 21 September 2023, the following bodily injuries were found on the body of **Velizade Rashad Rasim oğlu**: multiple defective open fractures of the bones of the cranial vault, the entrance wound of which was located on the left crown of the head and the exit wound in the area of the right temple, as well as diffuse crushing and disintegration of the brain tissue, accompanying the penetrating wound to the head; a blind wound to the right shoulder accompanied by a comminuted defective

open fracture of the head of the humerus; a penetrating wound to the soft tissues of the posterior chest wall; multiple blind and penetrating wounds to both arms; two bruises on the left half of the chest. Bruises and injuries of the

Page 992

forehead. Of the above, the penetrating wound to the head was caused by the impact of a bullet (projectile) fired from a firearm loaded with a cartridge (bullet), travelling from left to right, and in terms of severity is generally regarded as an injury causing serious harm to the health of living persons and resulting in death. The other injuries were caused by the blast wave generated by the explosion of explosive military munitions, as well as by secondary fragments from the primary and blunt mechanisms. The immediate cause of death was diffuse injury to the brain tissue as a result of a penetrating gunshot wound to the head.

Volume 42, case file pages: 80–83.

According to forensic ballistic expert opinion No. 3-16-16/2-3/1559 dated 7 January 2023, damage was found on the military uniform, military jacket, insulated T-shirt, mask and T-shirt of **Velizade Rashad Rasim oglu**. Although no traces of copper metal were found around the injuries, the detection around them of incompletely burned smokeless particles of barium, an additional factor in the ignition of the explosive substance (TNT), as well as the shape, dimensions and morphological structure of the injuries, indicates that the identified injuries were entrance and exit wounds and were caused by shots from a rifled firearm. It is characteristic that bullets approximately 6 millimetres in diameter struck from a distance of more than 1 metre and in different directions. The other damage to the items of clothing was characteristically caused by fragments from an explosion travelling in different directions from a distance close to the centre of the explosion.

Volume 297, case file pages: 57–62.

According to the protocol dated 21 September 2023 on the examination of the body of **Sadygov Samir Jabrayil oglu**, a serviceman of the Internal Troops of the Ministry of Internal Affairs, bodily injuries were found on the body.

Volume 9, case file pages: 85–97.

Sadygov Jabrayil Mustafa oglu, recognized as the legal successor of the victim **Sadygov Samir Jabrayil oglu** and questioned, stated in his testimony that his son Samir had served in a military unit of the Internal Troops since 2022. On 20 September 2023, an unknown person telephoned his other son, Mehman, and informed him that his son Samir

Page 993

was killed during fighting with Armenian armed formations in **Kalbajar District**.

Volume 53, case file pages: 143–145.

According to forensic medical expert opinion No. 12 dated 21 September 2023, the bodily injuries found on the body of **Sadygov Samir Jabrayil oglu** consisted of multiple defective open fractures of the bones of the cranial vault, with an entrance wound located in the right

occipital region and an exit wound located in the right opening situated in the left parietal region, and diffuse injury to the brain tissue; a single penetrating wound to the head accompanied by crushing; multiple defective open fractures of the bones of the cranial vault and skull base, with an entrance wound in the neck and an exit wound in the occipital region; a single penetrating wound to the neck and cranial cavity accompanied by diffuse crushing and disintegration of the brain, napkin; a single penetrating wound to the soft tissues of the neck and right arm resulting from the impact of a bullet (projectile) fired from a firearm. The immediate cause of death was diffuse injury to the brain tissue as a result of two penetrating gunshot wounds to the cranial cavity.

Volume 42, case file pages: 76–78.

According to forensic ballistic expert opinion No. 3-16-16/2-3/1552 dated 7 January 2023, damage was found on the military uniform, military sweater, warm T-shirt and neck scarf of **Samir Sadygov**. Although no traces of copper metal were found around the aforementioned damage, the detection around it of incompletely burned particles of smokeless barium constituted an additional factor of firing, and, based on the shape, dimensions and morphological structure of the damage, these injuries constituted entrance wounds resulting from at least two shots fired from a rifled firearm with bullets approximately 7 millimetres in diameter. It is characteristic that the bullets were fired in different directions from a distance of more than 1 metre.

Volume 297, case file pages: 90–94.

Page 994

According to the protocol dated 21 September 2023 on the examination of the body of **Mammadov Azer Sulduz oğlu**, a serviceman of a military unit of the Internal Troops of the Ministry of Internal Affairs, bodily injuries were found on the body.

Volume 9, case file pages: 99–111.

Mammadov Sulduz Shukur oğlu, questioned as the legal successor of the victim **Mammadov Azer Sulduz oğlu**, stated in his testimony that his son Azer began active military service in a military unit of the Internal Troops in 2014. On 20 September 2023, an unidentified serviceman of the Internal Troops telephoned him and informed him that his son Azer Mammadov had been killed during fighting with illegal Armenian armed formations in **Kalbajar District**.

Volume 42, case file pages: 187–189.

According to forensic medical expert opinion No. 17 dated 21 September 2023, the bodily injuries found on the body of **Mammadov Azer Sulduz oğlu** consisted of a penetrating wound to the chest accompanied by acute bleeding, damage to the organs of the thoracic cavity, and open displaced fractures of the eighth and ninth ribs; number of wounds: a single penetrating wound to the pelvic cavity with damage to the pelvic organs resulting from the impact of a bullet (projectile) fired from a firearm. In addition to the above, numerous abrasions and bruises were found on the forehead, upper part of the left thigh, both knees and the anterior surface of the lower leg during examination of the body. The injuries were caused by a blunt mechanism and the impact of a hard blunt object. The cause of death was

traumatic-haemorrhagic shock that developed as a result of injuries to the organs of the thoracic and abdominal cavities and acute bleeding due to two gunshot wounds to the chest and pelvic cavity.

Volume 42, case file pages: 101–104.

According to the protocol dated 21 September 2023 on the examination of the body of **Huseynov Ramin Rovshan oglu**, a serviceman of a military unit of the Internal Troops of the Ministry of Internal Affairs, the surface of the body above the waist was completely charred to ashes.

Volume 9, case file pages: 113–120.

Page 995

Amiraslanova Gulbeniz Mail gizi, questioned as the legal successor of the victim **Huseynov Ramin Rovshan oglu**, stated in her testimony that her son Ramin had served in a military unit of the Internal Troops of the Ministry of Internal Affairs since 2012. On 19 September 2023, an unknown person telephoned her daughter's husband, Elshan Salekhov, and informed him that her son Ramin Huseynov had been killed during fighting with illegal Armenian armed formations in **Kalbajar District**.

Volume 53, case file pages: 159–161.

According to forensic medical expert opinion No. 20 dated 21 September 2023, the following bodily injuries were found on the body of **Huseynov Ramin Rovshan oglu**: fourth-degree thermal burns of the head, neck, chest and abdomen, both upper extremities and both legs, covering 90% of the total body surface; a fourth-degree thermal burn of the surface of the upper third of the thigh; incomplete traumatic amputation of the right lower extremity at the level of the lower third of the thigh, hanging by a flap of skin; a blind wound to the left lower leg caused by the impact of a blast wave, flames and fragments formed during the explosion of a firearm. The cause of death was a fourth-degree thermal burn of the head, neck, chest and abdomen, both upper extremities, the upper third of both thighs and the lower third of the right lower extremity and thigh, covering 90% of the total body surface as a result of an explosion. An injury incompatible with life, accompanied by incomplete traumatic amputation, with the limb suspended on a flap-like piece of skin at the level of the third.

Volume 42, case file pages: 117–119.

According to forensic ballistic expert opinion No. 3-16-16/2-3/1555 dated 7 January 2023, damage was found on two items of military uniform belonging to **Ramin Huseynov**. Based on the shape, dimensions and morphological structure of the damage, as well as the detection on the surfaces of the two items of military equipment of soot, thermal traces, explosive substances (TNT) and incompletely burned particles of smokeless powder, which constituted additional factors of firing, it is presumed that this damage was caused by an explosion, by the impact of fragments and by the centre of the explosion. It is characteristic. In the waist belt, a pair of military boots and a pair of socks, incompletely burned

Page 996

particles of smokeless powder (nitro compounds) and the explosive substance (TNT) were found, which constituted additional factors in firing.

Volume 297, case file pages: 80–83.

According to the protocol dated 21 September 2023 on the examination of the body of **Mekhtiyev Suleyman Mansur oglu**, a serviceman of a military unit of the Internal Troops of the Ministry of Internal Affairs, bodily injuries were found on the body.

Volume 9, case file pages: 122–134.

Mekhtiyeva Gunay Aliman gizi, questioned as the legal successor of the victim **Mekhtiyev Suleyman Mansur oglu**, stated in her testimony that her husband Suleyman had served since 2013, and that his last place of service was a military unit of the Internal Troops. She was informed that her husband Suleyman had been killed during fighting with Armenian armed formations in the direction of **Aghdara District** on the night of 20 September 2023.

Volume 53, case file pages: 13–15.

According to forensic medical expert opinion No. 19 dated 21 September 2023, the following bodily injuries were found on the body of **Mekhtiyev Suleyman Mansur oglu**: acute bleeding; comminuted open fractures of the right scapula and the left seventh and eighth ribs; contusions of the thoracic cavity and internal organs; bilateral open hemopneumothorax (one penetrating and one blind wound to the thoracic cavity accompanied by accumulation of free blood and air in the thoracic cavity); a single penetrating blind wound to the right lumbar region accompanied by damage to the organs of the abdominal cavity; one penetrating wound to the right and left buttocks; one penetrating wound to the soft tissues of the right thigh and lower leg and one penetrating wound to the left lower leg accompanied by multiple open fractures of the tibia, filled with a bullet (projectile), resulting from the impact of a bullet (projectile) fired from a firearm and, in terms of severity, generally classified as signs of injuries causing serious harm to the health of living persons and resulting in death. In addition to the above, during the forensic medical examination of the body of **Mekhtiyev S.M.**, abrasions were found in the area of the right eyebrow, nose and left lower leg. The injuries

Page 997

The injuries were caused by a blunt mechanism, by the impact of a hard blunt object. The cause of death was multiple gunshot wounds to the chest and abdominal organs, open fractures of the right scapula, the seventh and eighth left ribs and the left tibia, as well as traumatic-haemorrhagic shock that developed as a result of acute blood loss.

Volume 42, case file pages: 112–115.

According to forensic ballistic expert opinion No. 3-16-16/2-3/1557 dated 7 January 2023, a military uniform, military sweater, short-sleeved military shirt, lower insulated long-sleeved shirt and military jacket with a belt at the waist belonging to **Mekhtiyev Suleyman** were found. Damage was found on the trousers, warm underwear and underwear. Although no traces of copper metal or explosive substances (TNT) were found around the specified damage, incompletely burned particles of smokeless powder were found around it, constituting an additional factor of firing, and, on the basis of the shape, dimensions and

morphological structure of the damage, these injuries were entrance wounds resulting from multiple shots fired from a rifled firearm. It is characteristic that the shots were fired in different directions from a distance of more than 1 metre, by bullets approximately 6 millimetres in diameter. Incompletely burned particles of smokeless powder were found on the surface of the items of military clothing, constituting an additional factor of firing.

Volume 297, case file pages: 69–74.

According to the protocol dated 21 September 2023 on the examination of the body of **Gadirov Amid Gurban oğlu**, a serviceman of a military unit of the Internal Troops of the Ministry of Internal Affairs, bodily injuries were found on the body.

Volume 9, case file pages: 136–151.

Gadirova Zulfira Asadulla gizi, questioned as the legal successor of the victim **Gadirov Amid Gurban oğlu**, stated in her testimony that her son Amid had served in a military unit of the Ministry of Defence since 2020. It was reported that on 19 September 2023 his neighbour Sayad oğlu Amid Gadirov was killed in

Page 998

fighting with illegal Armenian armed formations in the direction of **Kalbajar District**.

Volume 53, case file pages: 188–190.

According to forensic medical expert opinion No. 24 dated 21 September 2023, during the forensic medical examination of the body of **Gadirov Amid Gurban oğlu**, multiple open fractures of the bones of the cranial vault and diffuse crushing of the brain tissue were found, with an entrance wound. The following were found: a penetrating wound to the head accompanied by laceration; a through-and-through penetrating wound to the head located in the left occipital region; an exit wound located in the left parietal region; damage to the organs of the thoracic cavity; a blind wound penetrating into the cavity from the posterior surface of the chest, accompanied by severe bleeding. Blind wounds to the soft tissues of the anterior surface of the chest, left lumbar region, left shoulder joint and left iliac region were found; contusions and injuries in the area of the left humerus and left elbow joint were found. Of the above-listed injuries, the penetrating wound to the head was caused by the impact of a bullet (projectile) fired from a firearm and, in terms of severity, was regarded as a sign of serious harm to the health of a living person and resulted in death. The other injuries were caused by the blast wave generated by the explosion of explosive military munitions, as well as by secondary fragments from the primary and blunt mechanisms. The immediate cause of death was diffuse injury to the brain tissue as a result of a penetrating gunshot wound to the head.

Volume 42, case file pages: 136–138.

According to forensic ballistic expert opinion No. 3-16-16/2-3/1560 dated 7 January 2023, damage was found on the military tunic, long-sleeved shirt with the front and left sleeves cut off, and trousers with a belt at the waist belonging to **Amid Gadirov**. Although no traces of copper metal were found around the wounds, the detection around them of incompletely burned particles of powder and explosive substances (TNT), which constituted additional

factors of firing, as well as the shape, dimensions and morphological structure of the wounds, indicated that the specified injuries had been caused by fragments from an explosion, both near the centre of the explosion and in different directions from a great distance. This is characteristic of their occurrence. On

Page 999

the underpants, gloves, boots and socks, particles of incompletely burned smokeless powder and the explosive substance TNT were found, which constituted an additional factor of firing.

Volume 297, case file pages: 52–56.

According to the protocol dated 21 September 2023 on the examination of the body of **Samedov Khayyam Mirazim oğlu**, a serviceman of a military unit of the Ministry of Defence, bodily injuries were found on the body.

Volume 9, case file pages: 153–173.

Samedov Mirazim Khanad oğlu, recognized as the legal successor of the victim **Samedov Khayyam Mirazim oğlu**, stated in his testimony that his son Khayyam began active military service in a military unit of the Ministry of Defence in 2008. On 20 September 2023, his relative Shaig Seidov oğlu Khayyam informed him that he had been killed during fighting with illegal Armenian armed formations in the direction of the village of **Vang, Kalbajar District**.

Volume 54, case file pages: 168–170.

According to forensic medical expert opinion No. 25 dated 21 September 2023, the following bodily injuries were found on the body of **Samedov Khayyam Mirazim oğlu**: multiple open fractures of the bones of the cranial vault; a blind wound penetrating into the cranial cavity in the right parietal region, accompanied by diffuse injury to the brain tissue; damage to the organs of the abdominal cavity; a blind wound penetrating into the diaphragmatic cavity from the right lumbar region, accompanied by severe bleeding; a penetrating wound to the left thigh accompanied by a comminuted displaced open fracture of the femur; a large wound with a defect of the soft tissues of the chest and left lateral wall of the abdomen; penetrating wounds to the soft tissues of the right thigh, right thigh, right lower leg and blind wounds to the soft tissues of both buttocks; a superficial wound to the left hand resulted from the impact of fragments of the primary and blunt mechanism, secondary to the explosion of explosive military munitions. In terms of severity, they are regarded as signs of injuries causing serious harm to the health of living persons and resulted in death. Multiple injuries to the organs of the abdominal cavity, one penetrating and one

Page 1000

blind wound to the abdominal cavity accompanied by severe bleeding; one wound to the right arm, one to the left knee joint, one to the soft tissues of the left foot and one to the right knee joint — all of them were caused by bullets fired from a firearm. The immediate cause of death was diffuse injury to the brain tissue as a result of a blind shrapnel wound penetrating into the cranial cavity due to an explosion.

Volume 42, case file pages: 140–143.

According to forensic ballistic expert opinion Nos. 3-16-16/2-3/1563; 3/1577 dated 7 January 2023, the metal object marked with the number “1” was found in a **Mosin-system rifle** with a chamber. The central-piston “**Dragunov**” cartridge is a part (bullet) separated during firing from a factory-manufactured 7.62 × 54 mm cartridge used as ammunition in **Simonov-design sniper rifles, Kalashnikov-system automatic weapons** and other rifled firearms of the corresponding calibre; in the condition submitted, it is not regarded as ammunition and is unsuitable for its intended use. The metal object marked with the number “2” is a factory-manufactured item of the **Kalashnikov, AK-74, AKS-74, AK-74M, AKS-74U, RPK-74** design; the bullet core is a part of the bullet separated during the firing of a 7.62 × 39 mm cartridge, intended for use as test ammunition in **RPKS-74 light machine guns** and other rifled firearms, and is not regarded as ammunition in the present Resolution, in the condition submitted, and is unsuitable for its intended use. The objects marked with the numbers “3” and “4” are parts of a cartridge separated during firing, parts of the bullet cartridge case. The items were factory-manufactured and are intended for use as ammunition in **Kalashnikov automatic weapons, AK, RPK light machine guns, SKS carbines** and other rifled firearms of the corresponding calibre; 7.62* it cannot be ruled out that there are cartridge cases from a .39-calibre cartridge. On the submitted military long-sleeved shirt, one T-shirt, one pair of military trousers with a belt, one pair of underpants and one pair of socks, which, as stated, belonged to “**martyr Major Khayyam Samedov,**” damage of the number and dimensions specified in the examination section of the expert opinion was found. Although no traces of copper metal were found around the wounds, the wounds on the military clothing, identified on the basis of their shape, dimensions and morphological

Page 1001

structure of the wounds, were groove-like, including entrance and exit wounds, and were caused by incompletely burned particles of powder and explosive substances (TNT), which constituted an additional factor of firing around them. As a result of multiple shots fired from a firearm, it is characteristic that bullets approximately 7 millimetres in diameter travelled from a distance of more than 1 metre in different directions, as well as that fragments from an explosion travelled in different directions from a distance close to the centre of the explosion. Incompletely burned particles of smokeless powder (nitro compounds) and the explosive substance TNT were found on the surface of the vehicle seat belt and a pair of socks, constituting an additional factor of firing.

Volume 297, case file pages: 34–40.

According to the protocol dated 21 September 2023 on the examination of the body of **Abdullayev Asim Javanshir oğlu**, a serviceman of a military unit of the Ministry of Defence, bodily injuries were found on the body.

Volume 9, case file pages: 175–191.

Abdullayeva Aynur Javanshir gizi, recognized as the legal successor of the victim **Abdullayev Asim Javanshir oğlu** and questioned, stated in her testimony that her brother Asim had served in a military unit of the Ministry of Defence since 2012. On 19 September 2023, an unknown person telephoned his brother Khayal and informed him that

Asim had been killed in fighting with Armenian armed formations in the direction of **Aghdara District**.

Volume 53, case file pages: 111–113.

According to forensic medical expert opinion No. 32 dated 21 September 2023, the following bodily injuries were found on the body of **Abdullayev Asim Javanshir oglu**: acute bleeding; an open fracture of the lower jaw; the bullet entrance wound was located on the right half of the face, in the projection of the angle of the jaw, while the exit wound was located in the dorsal region; fractures; a single penetrating wound to the right half of the face and neck with damage to the major arteries of the neck — caused by the impact of a bullet (projectile) fired from a firearm, which, in terms of severity, is classified as a bodily injury causing serious harm to the health of a living person and resulting in death.

Page 1002

In addition to the above, during the forensic medical examination of the body of **Abdullayev A.J.**, a bruise on the left upper eyelid and a superficial wound on the right thigh were found. The injuries were caused by a blunt mechanism, by the impact of a hard blunt object. The immediate cause of death was acute bleeding resulting from damage to the major arteries of the neck due to a single penetrating gunshot wound to the right side of the face and neck.

Volume 42, case file pages: 161–163.

According to forensic ballistic expert opinion No. 3-16-16/2-3/1547 dated 7 January 2023, the following were found: one military jacket, one military tunic, one short-sleeved military shirt, as well as damage to a pair of military trousers with a belt at the waist. Based on the additional factor of firing around these injuries, the shape, dimensions and morphological structure of the injuries, the injuries on the back and upper part of one military jacket, one military tunic and one short-sleeved military shirt were exit wounds and were caused by a rifled firearm. This is characteristic of a bullet approximately 7 millimetres in diameter striking as a result of a shot. A single wound on the front of the military trousers with a belt at the waist is regarded as the entrance wound.

Volume 297, case file pages: 133–137.

According to the protocol dated 21 September 2023 on the examination of the body of **Mustafayev Huseyn Ali oglu**, a serviceman of Military Unit No. 191 of the Ministry of Defence, bodily injuries were found on the body.

Volume 9, case file pages: 193–210.

Mustafayeva Zenfura Ilyas gizi, questioned as the legal successor of the victim **Mustafayev Huseyn Ali oglu**, stated in her testimony that her son Huseyn had served in the Armed Forces of the Republic of Azerbaijan since 2015, and that his last place of service was a military unit of the Ministry of Defence. On the evening of 19 September 2023, her son Huseyn's fellow servicemen informed her that he had been killed during fighting with Armenian armed formations in the direction of **Aghdara**.

Volume 53, case file pages: 5–7.

Page 1003

According to forensic medical expert opinion No. 27 dated 21 September 2023, the following bodily injuries were found on the body of **Mustafayev Huseyn Ali oglu**: entrance and exit wounds located in the left frontotemporal region; multiple defective open fractures of the bones of the cranial vault; diffuse injury to the brain tissue. A penetrating wound to the head accompanied by crushing and disintegration, caused by the impact of a bullet (projectile) fired from a firearm, which, in terms of severity, is classified as an injury causing serious harm to the health of a living person and resulting in death. In addition, during the forensic medical examination of the body of **Mustafayev G.A.**, a scratch measuring 2.0×0.3 cm, with uneven edges, reddish in colour and with a dried surface, was found on the anterior surface of the left knee joint. The injury was caused by a blunt mechanism, by the impact of a hard blunt object. Since the injury posed no danger to the health of a living person, its severity was not determined, and there was no direct causal connection with death. The immediate cause of death was diffuse injury to the brain tissue as a result of a penetrating gunshot wound to the head.

Volume 42, case file pages: 149–151.

According to forensic ballistic expert opinion No. 3-16-16/2-3/1566 dated 7 January 2023, “**damage was found on a snow mask presumably belonging to martyr Huseyn Mustafayev.**” Although no traces of copper metal or explosive substances (TNT) were found around this damage, the detection of incompletely burned particles of smokeless powder, constituting an additional factor of firing, as well as the shape, dimensions and morphological structure of the damage, indicate that these injuries were entrance and exit wounds and were caused by a shot from a rifled firearm. It is characteristic that a bullet approximately 7 millimetres in diameter struck from the front and from the left, from a distance of more than 1 metre.

Volume 297, case file pages: 16–20.

According to the protocol dated 21 September 2023 on the examination of the body of **Orudzhev Niftali Gafar oglu**, a serviceman of a military unit of the Ministry of Defence, bodily injuries were found on the body.

Page 1004

Volume 9, case file pages: 212–227.

Orudzhev Parviz Gafar oglu, recognized as the legal successor of the victim **Orudzhev Niftali Gafar oglu** and questioned, stated in his testimony that his brother Niftali began active military service in a military unit of the Ministry of Defence in 2016. On 20 September 2023, his brother Niftali, together with servicemen of a military unit of the Internal Troops, during fighting with illegal Armenian armed formations in the direction of the village of **Vang, Kalbajar District**, fell into an ambush by Armenian armed formations and was killed.

Volume 42, case file pages: 219–221.

According to forensic medical expert opinion No. 26 dated 21 September 2023, the following bodily injuries were found on the body of **Orudzhev Niftali Gafar oğlu**: displaced open fractures of the right scapula and the right fourth and fifth ribs; damage to the organs of the thoracic cavity; right-sided open hemopneumothorax (infection of the thoracic cavity). Multiple blind wounds penetrating into the thoracic cavity in the area of the right shoulder, accompanied by accumulation of free blood and air; multiple blind wounds to the right thigh accompanied by a comminuted displaced open fracture of the femur; blind wounds to the soft tissues of the right eyebrow, back of the right hand and right lower leg; an abrasion in the area of the right radiocarpal joint caused by the blast wave generated by the explosion of a firearm projectile and by primary and secondary fragments of a blunt object. The cause of death was traumatic-haemorrhagic shock that developed as a result of injuries sustained in the explosion.

Volume 42, case file pages: 145–147.

According to forensic ballistic expert opinion No. 3-16-16/2-3/1550 dated 7 January 2023, one military jacket, one short-sleeved military shirt and one [item unclear in the source] were found. Damage, the dimensions and quantity of which are specified in the examination section of the expert report, was found on military trousers with two belts at the waist. Based on the shape, dimensions and morphological structure of the specified damage, the detection on the surface of the explosive substance (TNT) and incompletely burned particles of smokeless powder, which constituted an additional factor of firing, it is characteristic that the injuries were caused by an explosion and fragments and were inflicted in different

Page 1005

directions from a distance close to the centre of the explosion. A belt, a pair [of items] on the body of the deceased, trousers, a pair of military boots and a pair of socks were found, which constituted an additional factor of firing, as well as incompletely burned particles of smokeless powder (nitro compounds) and the explosive substance (TNT).

Volume 297, case file pages: 142–146.

According to the protocol dated 21 September 2023 on the examination of the body of **Mirzazade Mirzaali Kamran oğlu**, a serviceman of a military unit of the Ministry of Defence, bodily injuries were found on the body.

Volume 9, case file pages: 229–240.

Mirzayev Kamran Baba oğlu, questioned as the legal successor of the victim **Mirzazade Mirzaali Kamran oğlu**, stated in his testimony that his son Mirzali Mirzazade began active military service in a military unit of the Ministry of Defence in early September 2023. On 22 September 2023, the district executive authority informed him that his son Mirzali Mirzazade had been killed in fighting with illegal Armenian armed formations.

Volume 54, case file pages: 179–181.

According to forensic medical expert opinion No. 28 dated 21 September 2023, the bodily injuries found on the body of **Mirzazade Mirzaali Kamran oğlu** — damage to the organs of the abdominal cavity and a blind penetrating wound to the abdominal cavity in the right

gluteal region accompanied by severe bleeding — resulted from a gunshot wound from a firearm. They resulted from the impact of a bullet (projectile) and constitute signs of bodily injuries which, in terms of severity, cause serious harm to the health of living persons and result in death. In addition to the above, during the forensic medical examination of the body of **M.K. Mirzazade**, scratches measuring 4×1.5 centimetres in the middle of the left shoulder and 3×0.3 centimetres in a transverse direction in the right lumbar region, with uneven edges, were found. The specified injuries were caused by a blunt mechanism, by the impact of a hard blunt object, are vitally significant, arose shortly before the death of the deceased, and, since they are injuries that do not cause harm to the health of living persons, their degree of severity was not established. It was determined that they

Page 1006

had no direct causal connection with death. The immediate cause of death was traumatic-haemorrhagic shock that developed as a result of injury to the organs of the abdominal cavity and acute bleeding due to a penetrating wound to the abdominal cavity from a blunt firearm.

Volume 42, case file pages: 153–155.

According to forensic ballistic expert report No. 3-16-16/2-3/1549 dated 7 January 2023, damage of the number and dimensions specified in the analytical section of the report was found on one pair of military trousers which, as stated, belonged to “**the deceased Mirzaali Mirzazade.**” Although no traces of copper metal or explosive substance (TNT) were found around the wound, an additional factor of firing, namely incompletely burned particles of smokeless powder, was found around the wound on the item of military clothing, and, based on the shape, dimensions and morphological structure of the injury, the wound was a penetrating wound caused by a rifled firearm. It is characterized as having been inflicted from back to front from a distance of more than 1 metre as a result of a shot from a firearm by a bullet approximately 6 millimetres in diameter. Incompletely burned particles of smokeless powder were found on the items of clothing, which constituted an additional factor of firing from the combat surface.

Volume 297, case file pages: 138–141.

According to the protocol dated 21 September 2023 on the examination of the body of **Lalayev Ruslan Akif oglu**, a serviceman of a military unit of the Ministry of Defence, bodily injuries were found on the body.

Volume 9, case file pages: 242–258.

Lalayev Akif Hasan oglu, recognized as the legal successor of the victim **Lalayev Ruslan Akif oglu**, stated in his testimony that his son Ruslan Lalayev had served in the Ministry of Defence since 2017, and that his last place of service was a military unit of the Ministry of Defence. At around 10:00 on 19 September 2023, he received a telephone call from the Karabakh Society of Disabled Persons and was informed that his son Ruslan Lalayev had been killed in fighting with illegal Armenian armed formations in the direction of the village of **Tazakend, Kalbajar District.**

Page 1007

Volume 52, case file pages: 252–254.

According to forensic medical expert opinion No. 29 dated 21 September 2023, the following bodily injuries were found on the body of **Lalayev Ruslan Akif oğlu**: acute bleeding, shrapnel wounds, open fractures of the left seventh and eighth ribs, damage to the organs of the thoracic cavity, left-sided open hemopneumothorax (free penetration into the thoracic cavity). A single-barrel penetrating wound to the thoracic cavity accompanied by an accumulation of blood and air resulted from the impact of a bullet (projectile) fired from a firearm, which, as a consequence, in terms of its severity constitutes a sign of bodily injuries causing serious harm to the health of a living person and resulting in death. A blind wound to the left thigh resulted from a fragment from the explosion of high-explosive military ammunition. The immediate cause of death was acute bleeding resulting from damage to the organs of the thoracic cavity due to a penetrating gunshot wound to the chest.

Volume 42, case file pages: 157–159.

According to forensic ballistic expert opinion Nos. 3-16-16/2-3/1561; 3/1575 dated 7 January 2023, based on the shape, manufacturing characteristics, traces on it and other characteristics of one metal object, it was established that it had been factory-manufactured and indicates that it formed part of ammunition (a projectile). Damage was found on one long-sleeved military shirt, one short-sleeved military shirt, one pair of military trousers and one pair of warm underwear, all of which, as stated, belonged to “**martyr Ruslan Lalayev.**” Although no traces of copper metal or the explosive substance TNT were found around the specified damage, the detection of incompletely burned particles of smokeless powder, which constituted an additional factor of firing, as well as the shape, dimensions and morphological structure of the damage, indicated that one long [item unclear in the source] on the body was found, a short-sleeved shirt and one short-sleeved shirt. The wounds constitute entrance and exit wounds, ordinarily caused by a bullet approximately 7 millimetres in diameter fired from a rifled firearm and travelling from a great distance of more than 1 metre in a direction from front to back. In addition, the damage to the rear part of the military trousers and warm underwear is characterized

Page 1008

by the fact that it was caused by fragments travelling from a great distance from the centre of the explosion in a direction from back to front. One military jacket, one pair of military trousers with a belt at the waist, one pair of warm underpants, one undershirt, a pair of gloves, a pair of military boots and a pair of socks contained incompletely burned particles of smokeless powder (nitro compounds), which constituted an additional factor of firing.

Volume 297, case file pages: 46–51.

According to the protocol dated 21 September 2023 on the examination of the body of **Huseynov Rashad Rahim oğlu**, a serviceman of the Internal Troops of the Ministry of Internal Affairs, bodily injuries were found on the body.

Volume 19, case file pages: 1–8.

Huseynov Rahim Mansim oğlu, questioned and recognized as the legal successor of the victim **Huseynov Rashad Rahim oğlu**, stated in his testimony that his son Rashad had

served in the Internal Troops since 2003 and, until his death, had been a battalion commander. On the evening of 19 September 2023, an officer from **Ganja** telephoned him and informed him that his son Rashad had been killed during fighting with Armenian armed formations in the direction of **Kalbajar District**.

Volume 53, case file pages: 36–38.

According to forensic medical expert opinion No. 18 dated 22 September 2023, the following bodily injuries were found on the body of **Huseynov Rashad Rahim oglu**: acute bleeding; damage to the large intestine, the capsule of the left kidney and major adipose tissue; contusion and parenchymal haemorrhage of the left kidney, accompanied by a paranephric hematoma; a penetrating wound to the abdominal cavity; one penetrating wound to the left thigh, one blind wound to the left knee joint, one blind wound to the left lower leg, one penetrating wound to the left foot with a fragment, an open fracture of the proximal phalanx — resulting from gunshot wounds caused by shots fired from a firearm (projectile); multiple blind wounds to the soft tissues of the back and right arm, left buttock, left thigh, both knee joints, left lower leg and left foot, as well as abrasions on the right lower leg — injuries caused by the explosion of explosive military munitions. They arose as a result of the impact of the blast wave and primary and secondary fragments of a blunt

Page 1009

mechanism. The cause of death was acute hemorrhage, which resulted in multiple organ failure (acute vascular, respiratory and renal failure), damage to the ileum, the capsule of the left kidney and the greater adipose tissue, contusion and hemorrhage in the parenchymal region of the left kidney, and a paranephric hematoma, accompanied by grade III traumatic-haemorrhagic shock. The cause of death was a penetrating gunshot wound to the abdominal cavity.

Volume 42, case file pages: 106–110.

According to forensic ballistic expert opinion No. 3-16-16/2-3/1542 dated 27 November 2023, the metal object extracted from the body of the martyr **Huseynov Rashad Rahim oglu** was identified as a factory-manufactured centre-fire item for a **Mosin rifle**; it is a part of a bullet — the bullet core — which separates during the firing of a 7.62 × 54 mm cartridge intended for use as ammunition in **Dragunov sniper rifles**, **Simonov rifles**, **Kalashnikov machine guns**, and other rifled firearms of the corresponding calibre.

Volume 276, case file pages: 159–161.

According to the protocol dated 21 September 2023 on the examination of the body of **Akhadov Eltaj Ajdar oglu**, a serviceman of a military unit of the Ministry of Defence, the body was severely deformed and dismembered.

Volume 15, case file pages: 32–42.

Askerov Ajdar Abulhasan oglu, recognized as the legal successor of the victim **Akhadov Eltaj Ajdar oglu** and questioned, stated in his testimony that his son Eltaj Akhadov began active military service in a military unit of the Ministry of Defence located in the city of **Ganja** on 5 October 2022. On 21 September 2023, an officer whose name he did not

remember spoke with his brother Fariz and informed him that his son Eltaj Akhadov had been killed during fighting with illegal Armenian armed formations in **Lachin District**.

Volume 15, case file pages: 148–149.

Page 1010

According to forensic medical expert opinion No. 31 dated 20 September 2023, the following bodily injuries were found on the body of **Akhadov Eltaj Ajdar oglu**: partial traumatic amputation of the head; incomplete traumatic amputation of the right upper extremity at the level of the shoulder girdle and of both lower extremities, hanging by skin flaps at the level of the middle third of the lower legs; third- to fourth-degree thermal burns of both thighs and the upper third of the lower legs, caused by a blast wave, flames, and primary and secondary fragments of a blunt mechanism formed as a result of the explosion of a firearm projectile. The immediate cause of death was an injury incompatible with life, including partial traumatic amputation of the head as a result of an explosion, incomplete traumatic amputation of the right upper extremity at the level of the shoulder girdle, and incomplete traumatic amputation of both lower extremities at the level of the middle third of the lower legs, hanging by skin flaps.

Volume 15, case file pages: 178–180.

According to the protocol dated 21 September 2023 on the examination of the body of **Huseynov Magomed Shafakhat oglu**, a conscript serviceman of a military unit of the Ministry of Defence, the body was severely deformed and dismembered.

Volume 15, case file pages: 15–28.

Huseynov Shafakhat Sevdim oglu, recognized as the legal successor of the victim **Huseynov Magomed Shafakhat oglu**, stated in his testimony that his son Magomed began active military service in a military unit of the Ministry of Defence on 4 April 2022. On 20 September 2023, his brother Hikmet Huseynov informed him that Magomed Huseynov had been killed during fighting with illegal Armenian armed formations in **Lachin District**.

Volume 15, case file pages: 159–160.

According to forensic medical expert opinion No. 30 dated 21 September 2023, the bodily injuries found on the body of **Huseynov Magomed Shafakhat oglu** were as follows: the seventh thoracic vertebra of the torso as a result of an explosion; complete traumatic amputation at the level of the middle third of the base of both upper extremities; on the left,

Page 1011

traumatic rupture of the axillary nerve at the level of 1–3 of the middle of the lower leg; displaced fractures of the nasal bone and lower jaw; multiple abrasions of the right superciliary arch, the right infraorbital and submandibular regions, as well as both supraclavicular regions, resulting from the impact of a blast wave generated by the explosion of a firearm projectile and the impact of primary and secondary fragments of a blunt object. The cause of death was an explosive injury incompatible with life, accompanied by complete

traumatic amputation at the level of the seventh thoracic vertebra of the torso and the middle third of the base of both upper extremities.

Volume 15, case file pages: 173–175.

According to forensic ballistic expert opinion No. 3-16-16/2-3/1548 dated 24 November 2023, one field-type military jacket, one camouflage-pattern head covering and one military uniform were seized in the name of **Huseynov Magomed Shafakhat oglu**. Damage specified in the examination section of the report was found on a camouflage-coloured coverall, a camouflage-coloured storage bag and a yellow short-sleeved military shirt. This damage is characteristic of damage caused by fragments from an explosion travelling in different directions at the centre of the explosion.

Volume 276, case file pages: 167–169.

According to the protocol dated 20 September 2023 on the examination of the body of **Akperov Agil Fayeddin oglu**, a major and serviceman of a military unit of the Ministry of Defence, bodily injuries were found on the body.

Volume 8, case file pages: 7–8.

According to forensic medical expert opinion No. 38 dated 20 September 2023, the following bodily injuries were found on the body of **Akperov Agil Fayeddin oglu**: a penetrating gunshot wound to the left thigh, entering from the inner surface of the upper third of the left thigh and exiting from the anterior surface of the left hip joint, accompanied by injury to the left femoral artery along its course; a blind gunshot wound to the right thigh, penetrating through the inner surface of the upper third of the right thigh and

Page 1012

accompanied by the presence of a metallic foreign body in the wound at the border of the upper and middle thirds of the right thigh and damage to the right femoral artery, sustained as a result of two shots fired from a firearm. In living persons, depending on the degree of severity, these injuries were classified as causing serious harm both to general and individual health and resulted in death. The immediate cause of death was traumatic-haemorrhagic shock that developed as a result of damage to both femoral arteries due to gunshot wounds to both thighs.

Volume 8, case file pages: 59–61.

According to forensic ballistic examination report No. 3-16-16/2-3/1794 dated 1 December 2023, the damage specified in the expert section of the report was found on one pair of military uniform trousers belonging to **Akbarov Agil Fayeddin oglu**, which was submitted for examination. This damage was caused by a firearm. It is characteristic that it was caused by bullets fired in at least two shots from a distance of more than 1 metre and in different directions.

Volume 276, case file pages: 190–193.

According to the protocol dated 21 September 2023 on the examination of the body of **Takhmazov Mirali Mirfattakh oğlu**, a conscript serviceman of a military unit of the Ministry of Defence, bodily injuries were found on the body.

Volume 8, case file pages: 13–14.

Takhmazov Mirfattakh Mirjafar oğlu, recognized as the legal successor of the victim **Takhmazov Mirali Mirfattakh oğlu** and questioned, stated in his testimony that his son Mirali served in a military unit of the Ministry of Defence. On 20 September 2023, he was informed that his son had been wounded and killed during an anti-terrorist operation in the direction of **Khojavend**.

Volume 61, case file pages: 47–49.

According to forensic medical expert opinion No. 64 dated 21 September 2023, the bodily injuries found on the body of **Takhmazov Mirali Mirfattakh oğlu**, namely

Page 1013

namely, multiple shrapnel wounds to the body accompanied by damage to the thoracic cavity and pelvic organs. The specified bodily injuries were life-threatening, resulting from the explosion of an explosive substance. They resulted from the impact of primary and secondary fragments and, depending on their severity, were classified as causing serious harm to the health of a living person and resulted in death. The immediate cause of death was traumatic-haemorrhagic shock that developed as a result of damage to the organs of the abdominal cavity and pelvis due to multiple shrapnel wounds to the body.

Volume 8, case file pages: 70–72.

According to forensic ballistic expert opinion No. 3-16-16/2-3/1793 dated 1 December 2023, damage was found on the military uniform of **Takhmazov Mirali Mirfattakh oğlu**, caused by the impact of projectile fragments as a result of an explosion, from a distance close to the centre of the explosion and in different directions. This is characteristic of the formation [unclear in the source.]

Volume 285, case file pages: 161–164.

According to the protocol dated 21 September 2023 on the examination of the body of **Nadjafi Elkhan Shukur oğlu**, a major and serviceman of a military unit of the Ministry of Defence, bodily injuries were found on the body.

Volume 8, case file pages: 18–19.

Nadjafi Afet Yusif gizi, recognized as the legal successor of the victim **Nadjafi Elkhan Shukur oğlu** and questioned, stated in her testimony that her son Elkhan began active military service in a military unit of the Ministry of Defence located in **Gazakh District** in 2009 and most recently served in a military unit located in **Qubadli District**. On 20 September 2023, his relatives informed her that Elkhan had died a martyr's death after sustaining gunshot wounds from Armenian armed forces in **Khojavend District**.

Volume 62, case file pages: 105–107.

Page 1014

According to forensic medical expert opinion No. 50 dated 21 September 2023, the bodily injuries found on the body of **Nadjafi Elkhhan Shukur oglu**, namely injuries on the left half of the posterior surface of the chest penetrating into the area between the 5th and 6th fingers, were serious; the 6th rib along the posterior axillary line penetrated into the thoracic cavity and damaged the left lung. The blunt gunshot wound to the chest accompanied by injury was caused by a single shot from a firearm and, depending on the degree of severity, was classified as causing serious harm to the health of a living person and resulted in death. The immediate cause of death was traumatic-haemorrhagic shock that developed as a result of a blunt gunshot wound to the chest, which caused damage to the left lung and left-sided hemopneumothorax.

Volume 8, case file pages: 65–67.

According to the protocol dated 20 September 2023 on the examination of the body of **Dashdemirov Sahib Natig oglu**, a senior lieutenant and serviceman of a military unit of the Ministry of Defence, bodily injuries were found on the body.

Volume 8, case file pages: 75–76.

The victim **Dashdemirov Namig Natig oglu**, recognized as the legal successor of **Dashdemirov Sahib Natig oglu** and questioned, stated in his testimony that his brother Sahib Dashdemirov began serving as an officer in a military unit of the Ministry of Defence in July 2016, and on 20 September 2023 he learned that his brother Sahib had been killed during fighting with illegal Armenian armed formations in the village of **Chartaz, Khojavend District**.

Volume 8, case file pages: 113–115.

According to forensic medical expert opinion No. 39 dated 20 September 2023, the following bodily injuries were found on the body of **Dashdemirov Sahib Natig oglu**: injuries entering from the left frontal-upper region of the head, travelling from front to back, from top to bottom and from left to right, and exiting from the middle of the occipital region; a gunshot wound penetrating into the cranial cavity accompanied by fractures of the bones of the skull and skull base and crushing and disintegration of the brain

Page 1015

as a result of one shot fired from a firearm, which, depending on the degree of severity, is classified as causing serious harm to the health of a living person and resulted in death. The immediate cause of death was the gunshot wound to the skull, which resulted in crushing and disintegration of the brain, as well as fractures of the bones of the skull and skull base.

Volume 8, case file pages: 103–105.

According to the protocol dated 28 January 2024 on the examination of the body of **Gasimov Hajiali Tahir oglu**, a senior lieutenant and serviceman of a military unit of the Ministry of

Defence, it was established that purulent trophic wounds of the skin, as well as surgical wounds, were present on the body. Other wounds were also found on the surface of the body.

Volume 340, case file pages: 14–33.

The victim **Gasimov Tahir Hasan oğlu**, recognized as the legal successor of **Gasimov Hajiali Tahir oğlu** and questioned, stated in his testimony that his son Hajiali had served for a long time as a company commander in a military unit of the Ministry of Defence. On 21 September 2023, employees of the Ministry of Defence telephoned him and informed him that his son Hajiali Gasimov, as a result of a provocation by illegal Armenian armed formations, had been shot in the head by a sniper bullet during fighting in the area of the city of **Khankendi** and was in a coma at the Republican Neurosurgical Hospital. Despite all treatment provided, his son Hajiali did not recover from the comatose state and died in the hospital on 27 January 2024.

According to forensic medical expert opinion No. 01 dated 12 February 2024, **Gasimov Hajiali Tahir oğlu** died on 27 January 2024 at approximately 23:05. The cause of death of Hajiali Gasimov was a penetrating gunshot wound to the head resulting in central multiple organ failure (heart, lungs, kidneys, liver), fractures of the skull bones and severe crushing of the brain, caused by a shot from a firearm and resulting in serious harm to the health of a living person.

Volume 340, case file pages: 69–74.

Page 1016

According to the protocol dated 7 April 2024 on the examination of the body of **Bagirov Ulvi Khanifa oğlu**, a senior lieutenant and serviceman of a military unit of the Ministry of Defence, bodily injuries were found in the right occipital region as well as in other areas of the body.

Volume 353, case file pages: 223–240.

Bagirov Khanifa Rza oğlu, recognized as the legal successor of the victim **Bagirov Ulvi Khanifa oğlu**, stated in his testimony that his son Ulvi had served for a long time as a platoon commander in a military unit of the Ministry of Defence. On 20 September 2023, they learned that their son Ulvi Bagirov had sustained a gunshot wound and a shrapnel wound to the head as a result of the explosion of a projectile fired by illegal Armenian armed formations during fighting around **Khojavend District**, and that he was undergoing treatment at the Military Hospital. Despite all treatment provided, his son Ulvi did not recover from the comatose state and died in the hospital on 7 April 2024.

Volume 361, case file pages: 51–53.

According to forensic medical expert opinion No. 05 dated 24 April 2024, it was established that the bodily injuries sustained by **Bagirov Ulvi Khanifa oğlu** included severe contusion of the head and brain, haemorrhage into the brain tissue, ventricles and subarachnoid spaces, as well as a fracture of the left temporal bone. A blind penetrating wound to the cranial cavity and a closed contusion of the lung caused by fragments and the blast wave generated by the explosion of high-explosive military ammunition (projectile) were regarded as serious

injuries resulting in death. The causes of death were severe craniocerebral trauma, haemorrhage into the brain tissue, ventricles and subarachnoid spaces, as well as a blind penetrating wound to the cranial cavity with a fracture of the left temporal bone, which subsequently progressed to multiple organ failure. According to medical history No. 6203 prepared in his name, the death of the deceased was recorded. It occurred on 7 April 2024 at approximately 15:00.

Volume 353, case file pages: 143–146.

Page 1017

In case No. **232006179**, evidence was collected concerning the criminal acts of illegal Armenian armed formations, as a result of which servicemen were injured:

Military engineer of a military unit of the Ministry of Defence, soldier **Atayev Nihad Rovshan oglu**, questioned as a victim, stated in his testimony that at approximately 13:10 on 19 September 2023, illegal Armenian armed formations began shelling his positions located in the direction of **Aghdam**, after which, pursuant to an order received, he entered a nearby forest, where a 30-kilogram **POMNIS-2** fell on his right leg, causing an injury. At that time, Captain **Eljan Babayev** was killed, and Private **Abbas Abbaszade** was wounded.

Volume 22, case file pages: 90–93.

According to forensic medical expert opinion No. 1619 dated 20 October 2023, the injury sustained by **Atayev Nihad Rovshan oglu** — a closed displaced fracture of the lateral ankle caused by the impact of a heavy blunt object — was classified as minor harm to health.

Volume 327, case file pages: 1–253.

Former commander of the 1st section of the 2nd engineer-sapper platoon of a military unit of the Ministry of Defence, **Agajev Elmedin Farzi oglu**, questioned as a victim, stated in his testimony that at approximately 13:00 on 19 September 2023, while participating in combat operations in the direction of **Aghdara**, he sustained shrapnel wounds as a result of the explosion of a mine fired by Armenian armed formations.

Volume 22, case file pages: 100–103.

According to forensic medical expert opinion No. 1371 dated 29 September 2023, the injuries sustained by **Agajev Elmedin Farzi oglu**, namely multiple shrapnel wounds accompanied by damage to the soft tissues of both upper extremities, were classified as minor harm to health.

Volume 327, case file pages: 1–253.

Page 1018

Commander of the 2nd section of the demining platoon of the clearance detachment of the clearance battalion of a military unit of the Ministry of Defence, **Mammadli Elshad Namaz oglu**, recognized as a victim and questioned, stated in his testimony that at approximately 13:00 on 19 September 2023, while performing his official duties in the direction

of **Aghdara District**, he unlawfully sustained shrapnel wounds as a result of a mortar projectile fired by the Armed Forces of Armenia exploding nearby.

Volume 22, case file pages: 110–113.

According to forensic medical expert opinion No. 224 dated 22 January 2024, the bodily injuries found on **Mammadli Elshad Namaz oglu**, namely a fracture of the outer surface of the lower third of the left thigh with the presence of a foreign body in the middle third of the left femur; injuries to the left side of the posterior part of the tongue, the dorsal surfaces of the second, third, fourth and fifth fingers of the left hand, the cheek in the right buccal region; a foreign body in both eyes; bilateral hearing loss and the principal diagnosis concerning both ears, both collectively and individually, were classified as minor harm to health.

Volume 319, case file page: 228.

Private **Abdiyev Yunis Elkhhan oglu**, reconnaissance operator of the 1st battalion, 1st company, 4th platoon, 2nd group of a military unit of the Ministry of Defence, recognized as a victim and questioned, stated that at approximately 13:00 on **19.09.2019 2023**, he was performing his official duties. While performing his official duties in the direction of **Aghdam District**, he sustained an injury from the blast wave caused when his comrade Ramazan stepped on a mine planted by illegal Armenian armed formations, as well as as a result of shelling at later stages of the fighting that day.

Volume 22, case file pages: 158–161.

According to forensic medical expert opinion No. 425 dated 1 March 2024, the bodily injuries sustained by **Abdiyev Yunis Elkhhan oglu** consisted of a granulating wound from a penetrating bullet wound to the first toe of the right foot and, in terms of severity, were classified as minor harm to health.

Page 1019

Volume 140, case file page: 78.

Artilleryman and medic of the 3rd battalion, 8th company, 1st platoon, 1st section of a military unit of the Ministry of Defence, **Gambarov Ismail Azer oglu**, identified as a victim and questioned, stated that at approximately 13:00 on **19.09.2019 2023**, he was performing his official duties in **Aghdam**. While performing his official duties in the direction of the region, he sustained an injury when a grenade thrown by illegal Armenian armed formations landed nearby and exploded. At the same time, as a result of the incident, **Dunyamaliyev Islam Teymur oglu** was killed, while **Emil Mekhtiyev, Huseyn Mammadov, Amil Magerramov and Samir Islamov** were wounded.

Volume 22, case file pages: 167–170.

According to forensic medical expert opinion No. 1643 dated 20 October 2023, the bodily injuries sustained by **Gambarov Ismail Azer oglu** — shrapnel wounds to the right thigh, left lower leg and both feet — were caused by fragments formed as a result of the explosion of a bursting projectile and were classified as minor bodily injuries.

Volume 327, case file pages: 1–253.

Deputy commander of the reconnaissance platoon of a military unit of the Ministry of Defence, **Najafov Orkhan Bashir oğlu**, identified as a victim and questioned, stated that at approximately 13:00 on 19 September 2023, while performing his official duties in the direction of **Aghdam District**, he came within the impact zone of a mortar projectile fired by illegal Armenian armed formations, which exploded. **Isa Isayev, Warrant Officer Ismail Khanaliyev, Lieutenant Mikail Hamidli and Sakit Aslanov**, who were with him at the scene, were wounded.

Volume 22, case file pages: 176–179.

According to forensic medical expert opinion No. 1590 dated 20 October 2023, the bodily injuries sustained by **Najafov Orkhan Bashir oğlu**

Page 1020

consisted of multiple wounds to the right upper and right lower extremities and “**concussion, post-contusion,**” established at the Central District Hospital of **Goychay District** on **20.03.2023 20.09.2023**, syndrome,” which, as a rule, is classified as minor harm to health in terms of severity.

Volume 350, case file pages: 214–215.

Commander of the 1st section of the 2nd platoon of the 6th company of the 2nd battalion of a military unit of the Ministry of Defence, **Mammadzade Tural Shikara oğlu**, identified as a victim and questioned, stated that at approximately 13:00 on 19 September 2023, he was performing his official duties in the direction of **Aghdam District**. As a result of shelling by illegal Armenian armed formations during the operation, he sustained injuries, as did servicemen **Nurlan Mammadov, Sagif Mikailov and Islam Islamzade**.

Volume 22, case file pages: 185–188.

According to forensic medical expert opinion No. 1599 dated 20 October 2023, the bodily injuries sustained by **Mammadzade Tural Shikara oğlu** — blunt shrapnel wounds to the right hand and the first finger of the right hand, accompanied by a fracture of the proximal end of the proximal phalanx of the first finger of the right hand — were not classified as causing minor harm to health in terms of severity.

Volume 350, case file pages: 230–231.

Senior driver of the 1st motor-vehicle section of the motor-vehicle platoon of the MTT subdivision of a military unit of the Ministry of Defence, **Tural Fada oğlu Guliyev**, identified and questioned as a victim, stated in his testimony that at approximately 13:00 on 19 September 2023, while performing his official duties in the direction of **Aghdam District**, he was attacked by illegal Armenian armed formations and sustained injuries as a result of a projectile falling nearby and exploding; Captain **Ali Geydarov** and **Samir Kerimov** were also wounded. **Alizamin Ismailov, Seymour Abbasov and Shamkhal Gasimov** also sustained injuries.

Volume 22, case file pages: 194–197.

Page 1021

According to forensic medical expert opinion No. 1642 dated 20 October 2023, on 21 September 2023 **Guliyev Tural Fada oğlu** was diagnosed at the Goychay District Central Hospital with: “**Post-contusion syndrome. Barotrauma. Tinnitus, left-sided sensorineural hearing loss**” of an explosive nature. It was caused by the impact of a blast wave resulting from the explosion of a projectile and is classified as minor harm to health.

Volume 327, case file pages: 1–253.

Samir Famil oğlu Kerimov, commander of the RAN weapons repair group of the MTT subdivision of a military unit of the Ministry of Defence, identified and questioned as a victim, stated in his testimony that at approximately 13:00 on 19 September 2023, while performing his duties in the direction of **Aghdam District**, he approached a projectile fired by illegal Armenian armed formations. As a result of the shelling, **Ali Geydarov, Tural Guliyev, Alizamin Ismailov, Seymur Abbasov, Shamkhal Huseynov and Iskender Huseynov** were also wounded.

Volume 22, case file pages: 203–206.

According to forensic medical expert opinion No. 1630 dated 20 October 2023, the bodily injuries sustained by **Kerimov Samir Famil oğlu** — a wound in the area of the left temple accompanied by contusion of the left axillary fossa, and a wound in the area of the left half of the neck — were caused by fragments formed as a result of the explosion of an explosive projectile and, in terms of severity, were classified as causing minor harm to health.

Volume 327, case file pages: 1–253.

Safarov Dilgam Chingiz oğlu, intelligence officer of the 1st battalion, 1st company, 1st group of a military unit of the Ministry of Defence, identified as a victim and questioned, stated in his testimony that at approximately 13:00 on 19 September 2023, he was performing his official duties in the direction of the village of **Janyatag, Aghdara District**. As a result of shelling by illegal Armenian armed formations while performing his official duties, he sustained an injury.

Volume 22, case file pages: 213–216.

Page 1022

According to forensic medical expert opinion No. 1391 dated 29 September 2023, the bodily injuries sustained by **Safarov Dilgam Chingiz oğlu** — a gunshot wound to the right leg and the anterior surface of the right ankle — were classified as minor harm to health.

Volume 60, case file pages: 81–82.

Vugar Tariel oğlu Musayev, chief gunner of the 1st section of the 4th battalion, 11th company, 3rd platoon of a military unit of the Ministry of Defence, identified as a victim and questioned, stated in his testimony that at approximately 13:00 on 19 September 2023, he was

performing his official duties in **Aghdara**. He was wounded as a result of shelling by illegal Armenian armed formations while performing his official duties in the direction of the village of **Syrkhavend**.

Volume 22, case file pages: 223–226.

According to forensic medical expert opinion No. 1395 dated 29 September 2023, the bodily injuries sustained by **Musayev Vugar Tariel oğlu** — a shrapnel fracture of the upper third of the left ulna and wounds in the area of the left elbow with foreign bodies (metal fragments) — were considered hazardous to health due to their severity and were classified as minor injuries.

Volume 60, case file pages: 90–91.

Kerimov Afig Faik oğlu, intelligence officer of the 2nd battalion, 5th company, 4th platoon, 1st group of a military unit of the Ministry of Defence, identified as a victim and questioned, stated in his testimony that at approximately 14:00 on 19 September 2023, he was performing his official duties in **Aghdam District**. While carrying out the assignment, he was wounded when a mortar projectile fired by illegal Armenian armed formations struck and exploded.

Volume 22, case file pages: 233–236.

According to forensic medical expert opinion No. 1407 dated 29 September 2023, the bodily injuries sustained by **Kerimov Afig Faik oğlu** — a shrapnel

Page 1023

wound of the left paw with a foreign body in the soft tissues of the medial surface of the first metatarsal bone — were classified as minor harm to health.

Volume 60, case file page: 46.

Aliyev Tamerlan Rahim oğlu, a serviceman of the machine-gun section of the 4th division of the 2nd battalion of a military unit of the Ministry of Defence, identified as a victim and questioned, stated in his testimony that at approximately 19:00 on 19 September 2023, while performing his official duties in the direction of **Aghdam District**, he was attacked by illegal Armenian armed formations. He sustained injuries when a mortar projectile fell nearby and exploded.

Volume 22, case file pages: 243–246.

According to forensic medical expert opinion No. 1406 dated 29 September 2023, the bodily injuries sustained by **Aliyev Tamerlan Rahim oğlu** — a shrapnel wound in the parietal region, surgically sutured — were classified as minor harm to health.

Volume 60, case file pages: 77–78.

Sergeant **Makhizade Nidjat Mehman oğlu**, reconnaissance officer of the 2nd section of the 1st platoon of the 3rd company of the 1st battalion of a military unit of the Ministry of Defence, identified as a victim and questioned, stated in his testimony that at approximately

14:00 on 19 September 2023, while participating in local anti-terrorist operations in **Aghdam District**, he sustained a shrapnel wound to the left arm as a result of the explosion nearby of a hand grenade thrown by an illegal Armenian armed formation. At that time, soldier **Rashad Velizade** was killed, while soldiers **Ismail Hashimov** and **Huseyn Umudov** were wounded.

Volume 27, case file pages: 6–9.

According to forensic medical expert opinion No. 1596 dated 20 October 2023, the bodily injuries sustained by **Makhizade Nidjat Mehman oglu** — a blind shrapnel wound

Page 1024

to the upper third of the right side and a wound to the left half of the chest — were classified as less serious harm to health.

Volume 350, case file pages: 224–225.

Junior Sergeant **Hasanov Ulvi Farhad oglu**, intelligence and fortification officer of the 1st company, 3rd platoon, 6th company, 2nd battalion of a military unit of the Ministry of Defence, identified as a victim and questioned, stated in his testimony that at approximately 14:00 on 19 September 2023, while participating in local anti-terrorist operations in the direction of the district in **Aghdam**, he sustained a bullet wound to the left side of the abdominal cavity as a result of fire from automatic weapons by illegal Armenian armed formations. At that time, soldiers **Royal Mammadov** and **Murad Eyubov** were killed, while **Anar Ahmedov** and **Ramazan Eyvazly** were wounded.

Volume 27, case file pages: 15–18.

According to forensic medical expert opinion No. 1650 dated 20 October 2023, the injury sustained by **Hasanov Ulvi Farhad oglu** — a penetrating wound to the soft tissues of the left side of the abdomen, not penetrating into the cavity — was caused by the impact of a bullet (projectile) as a result of a shot fired from a firearm and, in terms of severity, was classified as minor harm to health.

Volume 327, case file pages: 1–253.

Nurlan Farrukh oglu Asadov, intelligence officer of the 1st group of the 2nd platoon of the 6th company of the 2nd battalion of a military unit of the Ministry of Defence, identified as a victim and questioned, stated in his testimony that at approximately 14:00 on 19 September 2023, while participating in anti-terrorist operations, he was wounded in the right thigh by militants of illegal Armenian armed formations as a result of fire from automatic weapons. At that time, soldiers **Royal Mammadov** and **Murad Eyubov** were killed, while **Farid Aydemirov**, **Parvin Imanov**, **Valekh Ismailov**, **Ulvi Hasanov** and **Ramazan Eyvazly** were wounded.

Volume 27, case file pages: 24–27.

Page 1025

According to forensic medical expert opinion No. 1566 dated 20 October 2023, the bodily injury sustained by **Asadov Nurlan Farrukh oglu** — [unclear in the source] — a penetrating gunshot (bullet) wound to the upper third of the right thigh — is classified, in terms of severity, as minor harm to health.

Volume 327, case file pages: 1–253.

Lieutenant **Hajiyev Khayal Nizami oglu**, commander of the 2nd platoon of the engineering and road unit of a military unit of the Ministry of Defence, identified as a victim and questioned, stated in his testimony that at approximately 11:00 on 20 September 2023, while participating in local anti-terrorist operations in the direction of the city of **Khankendi**, he was shot by an illegal Armenian armed person. As a result of sniper fire opened by the armed formations, Private **Ingilab Gasimzade** was killed, having sustained three bullet wounds to his left arm, right buttock and left ankle.

Volume 27, case file pages: 34–37.

According to forensic medical expert opinion No. 1388 dated 29 September 2023, the bodily injuries found on **Hajiyev Khayal Nizami oglu** — penetrating bullet wounds to the lower third of the left lower leg, left arm and left gluteal region, accompanied by a fracture of the left tibia — both collectively and individually were classified as minor harm to health.

Volume 327, case file pages: 1–253.

Private **Kalantarov Elnur Abuzar oglu**, commander of the telephone team of the communications platoon of the 2nd battalion of a military unit of the Ministry of Defence, identified and questioned as a victim, stated in his testimony that at approximately 14:00 on 19 September 2023, while participating in local anti-terrorist operations in the territory of **Aghdam District**, he sustained shrapnel wounds to the right and left legs, left shoulder, left buttock and face as a result of a projectile fired from various artillery pieces and mortars by illegal Armenian armed formations exploding nearby.

Volume 27, case file pages: 44–47.

Page 1026

According to forensic medical expert opinion No. 1399 dated 29 September 2023, **Kalantarov Elnur Abuzar oglu** sustained a fracture of the upper third of the right knee, the left thigh and the left arm with foreign bodies present in the soft tissues, as well as fractures of the forehead, face and left eyebrow. Multiple shrapnel wounds to the left side of the chest, left shoulder girdle, left upper extremity, left buttock and left foot, bilateral hearing loss and tinnitus in both ears, depending on the severity of the injuries, were classified as minor harm to health.

Volume 60, case file pages: 60–61.

Private **Ibrahimov Rahim Ibrahim oglu** of the engineering and fortification detachment of a military unit of the Ministry of Defence, identified and questioned as a victim, stated in his testimony that at approximately 17:00 on 19 September 2023, while participating in local anti-terrorist operations in the direction of **Aghdam District**, he came under automatic-

weapons fire from militants of illegal Armenian armed formations. As a result of the shelling, he sustained a gunshot wound to the left buttock.

Volume 27, case file pages: 54–57.

According to forensic medical expert opinion No. 1363 dated 29 September 2023, the bodily injuries found on **Ibrahimov Rahim Ibrahim oglu**, namely wounds on the outer surface of the upper third of the left thigh, both collectively and individually, constituted minor bodily injuries causing minor harm to health.

Volume 327, case file pages: 1–253.

Private **Huseynov Sanan Telman oglu**, a member of the reconnaissance group of the 2nd group of the 3rd platoon of the 5th company of the 2nd battalion of a military unit of the Ministry of Defence, identified as a victim and questioned, stated in his testimony that at approximately 14:00 on 19 September 2023, while participating in local anti-terrorist operations in **Aghdam District**, he sustained an injury as a result of being struck by a projectile fired from artillery pieces and mortars of various calibres by illegal Armenian armed formations, which exploded.

Volume 27, case file pages: 64–67.

Page 1027

According to forensic medical expert opinion No. 1405 dated 29 September 2023, the bodily injuries sustained by **Huseynov Sanan Telman oglu** — a contusion accompanied by swelling of the left thigh — constituted minor harm to health.

Volume 60, case file pages: 75–76.

Private **Gashimov Mirtalekh Elchin oglu**, reconnaissance observer of the 2nd group of the 1st platoon of the 7th company of the 3rd battalion of a military unit of the Ministry of Defence, identified as a victim and questioned, stated in his testimony that at approximately 04:00 on 20 September 2023, while participating in local anti-terrorist operations in the territory of Azerbaijan in **Aghdara District**, he was wounded in the left shoulder by militants of illegal Armenian armed formations firing automatic weapons. At that time, soldiers **Royal Mammadov** and **Murad Eyubov** were killed. **Farid Aydemirov**, **Parvin Imanov**, **Valekh Ismailov**, **Ulvi Hasanov** and **Ramazan Eyvazly** were wounded.

Volume 27, case file pages: 74–77.

According to forensic medical expert opinion No. 1372 dated 29 September 2023, the bodily injuries found on **Gashimov Mirtalekh Elchin oglu** consisted of a fracture of the left scapula and penetration of one bullet into the left arm and left half of the chest, which resulted in hemopneumothorax, as well as a wound to the upper third of the left thigh. Three persons were wounded, and one sustained a gunshot wound causing serious harm to health.

Volume 327, case file pages: 1–253.

Private **Bagirov Sahib Sadyg oglu**, reconnaissance officer of the 2nd group of the 1st platoon of the 1st company of the 1st battalion of a military unit of the Ministry of Defence, identified as a victim and questioned, stated in his testimony that at approximately 08:00 on 20 September 2023, while participating in local anti-terrorist operations in the village of **Agbulat, Khojaly District**, he sustained multiple shrapnel wounds to the left leg below the knee as a result of a projectile fired by illegal Armenian armed formations from artillery pieces of various calibres and grenade launchers exploding nearby.

Page 1028

Volume 27, case file pages: 84–87.

According to forensic medical expert opinion No. 1414 dated 29 September 2023, the multiple shrapnel wounds to the lower leg, accompanied by a fracture of the tibia of the left lower leg, found on the body of **Bagirov Sahib Sadyg oglu**, collectively constituted less serious harm to health.

Volume 60, case file page: 57.

Warrant Officer **Mirzahmedov Elkin Mutallim oglu**, commander of the 2nd group of the 3rd platoon of the 3rd company of the 1st battalion of a military unit of the Ministry of Defence, identified as a victim and questioned, stated in his testimony that at approximately 10:00 on **20.09.2017 2023**, while participating in local anti-terrorist operations on **Mount Farrukh, Khojaly District**, he sustained multiple shrapnel wounds to the left upper and lower extremities as a result of a projectile fired from various artillery pieces and grenade launchers by illegal Armenian armed formations exploding nearby.

Volume 27, case file pages: 94–97.

According to forensic medical expert opinion No. 1385 dated 29 September 2023, the following bodily injuries were found on **Mirzahmedov Elkin Mutallim oglu**: fractures of the right upper extremity, right thigh, right knee, chest and abdomen, accompanied by a fracture of one-third of the right ulna; multiple shrapnel wounds to the anterior wall and multiple foreign bodies in the soft tissues; hearing loss in both ears, traumatic perforation and bilateral barotrauma. Both collectively and individually, these were classified as minor harm to health.

Volume 327, case file pages: 1–253.

Private **Rzayev Sanan Yagub oglu**, commander of the 2nd automatic grenade-launcher section of the combat-support platoon of the 2nd battalion of a military unit of the Ministry of Defence, identified as a victim and questioned, stated in his testimony that at approximately 18:00 on **19.09.2019 2023**, during local anti-terrorist operations in the direction of **Khojavend District**. While participating in

Page 1029

the operations, he came within the impact zone of a projectile fired from artillery pieces of various calibres by illegal Armenian armed formations, and it exploded, as a result of which several people were injured. Shrapnel wounds to the arms, abdomen and testicles.

Volume 27, case file pages: 104–107.

According to forensic medical expert opinion No. 1375 dated 29 September 2023, the following bodily injuries were found on **Rzayev Sanan Yagub oğlu**: injuries to both arms, the right elbow joint, the soft tissues of both pelvic regions, the right half of the face and the right hand, accompanied by metallic foreign bodies. Shrapnel wounds to the posterior surface, the right testicle, both legs and the anterior abdominal wall, both collectively and individually, were classified as minor bodily injuries.

Volume 327, case file pages: 1–253.

Private **Shavgatli Javid Ogtay oğlu**, cook of the “M13” combat position of the 11th company of the 4th battalion of the MTT company of a military unit of the Ministry of Defence, identified as a victim and questioned, stated in his testimony that at approximately 16:00 on 19 September 2023, in the direction of **Aghdam District**, local anti-aircraft artillery opened fire. While participating in terrorist operations, he sustained a shrapnel wound to the left leg as a result of a projectile fired from artillery weapons of various calibres by illegal Armenian armed formations falling nearby and exploding.

Volume 27, case file pages: 114–117.

According to forensic medical expert opinion No. 1404 dated 29 September 2023, the bodily injury sustained by **Shavgatli Javid Ogtay oğlu** — a shrapnel wound with a foreign body in the soft tissues of the left lower leg — constituted minor harm to health.

Volume 60, case file pages: 73–74.

Page 1030

Private **Ahmedli Parvin Gulmammad oğlu**, rifleman of the 3rd platoon, 2nd group, 4th company, 2nd battalion of the MTT subdivision of a military unit of the Ministry of Defence, identified as a victim and questioned, stated in his testimony that at approximately 16:00 on **19.09.2019, 2023**, while participating in local anti-terrorist operations in the **Aghdam** region, he sustained a shrapnel wound to the left arm as a result of the explosion of an unmanned aerial vehicle belonging to illegal Armenian armed formations.

Volume 27, case file pages: 124–129.

According to forensic medical expert opinion No. 1403 dated 29 September 2023, the bodily injuries sustained by **Ahmedli Parvin Gulmammad oğlu** — shrapnel wounds to the left elbow and the dorsal surface of the left arm — were classified as minor harm to health.

Volume 60, case file pages: 71–72.

Private **Hasanov Atesh Bakhtiyar oğlu**, machine gunner of the 4th company of the 2nd battalion of a military unit of the Ministry of Defence, identified and questioned as a victim, stated in his testimony that at approximately 19:00 on 19 September 2023, while participating in local anti-terrorist operations in the territory of **Aghdam District**, he sustained a shrapnel wound to the knee of the right leg as a result of a projectile fired from artillery and mortar

weapons of various calibres by illegal Armenian armed formations falling nearby and exploding.

Volume 27, case file pages: 134–137.

According to forensic medical expert opinion No. 1384 dated 29 September 2023, the bodily injury found on **Hasanov Atesh Bakhtiyar oglu** — a shrapnel wound to the upper third of the right cheek — both collectively and individually was classified as minor bodily injury.

Commander of the 3rd section of the 1st platoon of the 12th company of the 2nd battalion of a military unit of the Ministry of Defence, Private **Guliyev Hajibaba Alesker oglu**, identified and questioned as a victim, stated in his testimony that at approximately 14:00 on **19.09.2019, 2023**, while participating in

Page 1031

an anti-terrorist operation, he sustained multiple shrapnel wounds to the right buttock as a result of being near a projectile fired from artillery and mortar weapons of various calibres by illegal Armenian armed formations when it exploded.

Volume 27, case file pages: 144–147.

According to forensic medical expert opinion No. 1364 dated 29 September 2023, the bodily injuries found on **Guliyev Hajibaba Alesker oglu**, including wounds to the left buttock, both collectively and individually, constituted minor harm to health.

Volume 327, case file pages: 1–253.

Soldier **Babayev Huseyn Habil oglu**, a serviceman of the 1st group of the 1st platoon of the 5th company of the 2nd battalion of a military unit of the Ministry of Defence, identified as a victim and questioned, stated in his testimony that at approximately 15:00 on 19 September 2023, while participating in local anti-terrorist operations in **Aghdam District** on the territory of the **Republic of Armenia**, he fell near a projectile fired by illegal Armenian armed formations and sustained injuries to the left ear and neck.

Volume 27, case file pages: 154–157.

According to forensic medical expert opinion No. 1419 dated 29 September 2023, **Babayev Huseyn Habil oglu** sustained the following bodily injuries: perforation of the right side of the face, the right ear and the right tympanic membrane; hearing loss in the right ear; tinnitus in both ears; the middle third of the right arm. Shrapnel wounds to the anterior surface of the skull and the outer surface of the upper third of the left base, taken as a whole, indicated minor harm to health.

Volume 276, case file pages: 275–277.

Soldier **Mammadov Huseyn Elkhan oglu**, a serviceman of the 2nd section of the 2nd platoon of the 8th company of the 3rd battalion of a military unit of the Ministry of Defence, identified as a victim and questioned, stated in his testimony that at approximately 14:00 on 19 September 2023, while participating in local anti-terrorist operations in

Page 1032

the territory of the **Republic of Armenia** in the **Aghdara** area, he was injured as a result of a projectile fired from artillery and mortar weapons of various calibres by illegal Armenian armed formations falling nearby and exploding.

Volume 27, case file pages: 164–167.

According to forensic medical expert opinion No. 1369 dated 29 September 2023, the bodily injuries found on **Mammadov Huseyn Elkhan oglu** — shrapnel wounds to the right lower leg with a fracture of the right tibia and blind shrapnel wounds accompanied by damage to the soft tissues of the right arm — both collectively and individually were classified as causing minor harm to health.

Volume 327, case file pages: 1–253.

Private **Abbasov Ravan Rizvan oglu**, radio operator of the communications platoon of the 1st operational battalion of a military unit of the Ministry of Defence, identified and questioned as a victim, stated in his testimony that at approximately 07:00 on 20 September 2023, he participated in local anti-terrorist operations in the village of **Askeran, Khojaly District**. He sustained multiple shrapnel wounds to the right leg and the right and left arms as a result of the explosion of a hand grenade thrown by illegal Armenian armed formations during

Volume 27, case file pages: 174–177.

According to forensic medical expert opinion No. 1366 dated 29 September 2023, the following bodily injuries were found on **Abbasov Ravan Rizvan oglu**: injuries to the outer part of the right ankle, the anterolateral surface of the upper third of the right humerus, and the posterior surface of the fourth finger of the left hand; wounds and injuries in the area of the right wrist, with a diagnosis of closed craniocerebral trauma, concussion, hearing loss in both ears and tinnitus in both ears. Both collectively and individually, they were referred to **Aghjabadi District Hospital** on 22 September 2023 and are considered minor injuries.

Volume 327, case file pages: 1–253.

Page 1033

Private **Guliyev Nihad Adalat oglu**, soldier-inspector of the 1st group of the 1st platoon of the 5th company of the 2nd battalion of a military unit of the Ministry of Defence, identified as a victim and questioned, stated in his testimony that at approximately 15:00 on 19 September 2023, while participating in local anti-terrorist operations in **Khojaly**, in the village of **Askeran** of the district, he sustained multiple shrapnel wounds to the neck and other parts of the body as a result of a projectile fired from large-calibre artillery and mortar weapons by illegal armed formations of Armenia falling nearby and exploding.

Volume 27, case file pages: 184–187.

According to forensic medical expert opinion No. 1410 dated 29 September 2023, a foreign body (metal fragment) was found in the soft tissues of the lower third of the left arm and the

left lateral surface of the thigh of **Guliyev Nihad Adalat oglu**. Shrapnel wounds to the neck, left shoulder girdle and both lower extremities are considered minor bodily injuries.

Volume 60, case file page: 53.

Private **Badalov Elnur Rafik oglu**, reconnaissance telephone operator of the 4th company of the 1st platoon of the 2nd battalion of a military unit of the Ministry of Defence, identified and questioned as a victim, stated in his testimony that at approximately 15:00–16:00 on 19 September 2023, while participating in local anti-terrorist operations in the village of **Askeran, Khojaly District**, he was wounded by a large-calibre artillery and mortar projectile fired by illegal Armenian armed formations, which exploded, as a result of which he sustained multiple shrapnel wounds to the right leg and left elbow.

Volume 27, case file pages: 194–197.

According to forensic medical expert opinion No. 1368 dated 29 September 2023, the following bodily injuries were found on **Badalov Elnur Rafik oglu**: injuries to the anteromedial surface of the upper third of the left thigh, the upper third of the left thigh, the posterior surface of the thigh and the right lower leg. Shrapnel wounds to the anterior, medial and outer surfaces, both collectively and individually, are considered minor harm to health.

Page 1034

Volume 327, case file pages: 1–253.

Lieutenant **Soltanov Elnur Khudaverdi oglu**, commander of the 1st platoon of the 1st company of the 2nd battalion of a military unit of the Ministry of Defence, identified as a victim and questioned, stated in his testimony that at approximately 15:00 on 19 September 2023, during local anti-terrorist operations in the direction of **Aghdam District**, he sustained a bullet wound to the lower part of the left lower leg as a result of sniper fire opened by militants of illegal armed formations of Armenia.

Volume 27, case file pages: 204–207.

According to forensic medical expert opinion No. 1362 dated 29 September 2023, the bodily injuries found on **Soltanov Elnur Khudaverdi oglu**, namely wounds to the lower third of the right lower leg, the anterior surface of the upper third of both legs, the arm and the upper third of the shoulder; contusion of the anterior surface of the joint; as well as wounds to the anterior surface of the upper third of the left lower leg accompanied by a fracture of the left fibula, are classified as serious bodily injuries.

Volume 327, case file pages: 1–253.

Private **Abyshev Yusif Mahir oglu**, sniper-rangefinder of the 3rd platoon of the 3rd company of the 1st battalion of a military unit of the Ministry of Defence, identified as a victim and questioned, stated in his testimony that at approximately 17:00 on 19 September 2023, while participating in local anti-terrorist operations in the area of the village of **Askeran, Khojaly District**, he sustained bullet wounds to both legs as a result of fire opened by illegal Armenian armed formations.

Volume 27, case file pages: 214–217.

According to forensic medical expert opinion No. 1398 dated 29 September 2023, the bodily injuries sustained by **Abushov Yusif Mahir oglu** — a penetrating gunshot wound to the middle third of the left lower leg and the right ankle — are classified as minor bodily injuries.

Page 1035

Volume 60, case file pages: 97–98.

Private **Chobanov Elshan Mammad oglu**, assistant grenade launcher operator of the 4th platoon of the 3rd company of the 1st battalion of a military unit of the Ministry of Defence, identified as a victim and questioned, stated in his testimony that at approximately 18:00 on 20 September 2023, while participating in the operation in the direction of **Aghdam District**, he sustained an abdominal wound from a bullet fired from an automatic weapon as a result of fire opened by illegal Armenian armed formations.

Volume 27, case file pages: 224–227.

According to forensic medical expert opinion No. 1381 dated 29 September 2023, the bodily injuries found on **Chobanov Elshan Mammad oglu** consisted of internal bleeding and damage to the vascular elements of the small intestine and abdominal wall, accompanied by a stab wound to the middle part of the body penetrating into the abdominal cavity; an injury to the phalanx of the second finger of the left hand. A shrapnel wound to the left hand accompanied by amputation and metallic foreign bodies of the second finger of the left hand, as well as crushing of the left shoulder girdle, as a rule, is classified as serious harm to health due to its severity.

Volume 327, case file pages: 1–253.

Private **Niftaliyev Siraj Abil oglu**, a serviceman of the anti-aircraft missile battery of a military unit of the Ministry of Defence, identified and questioned as a victim, stated in his testimony that at approximately 12:00 on 20 September 2023, while participating in local anti-terrorist operations in **Khojaly District**, he was shot by an Armenian. He sustained a head injury and lost consciousness as a result of falling near a projectile fired from artillery pieces and mortars of various calibres by armed forces and exploding.

Volume 28, case file pages: 133–136.

According to forensic medical expert opinion No. 1622 dated 20 October 2023, on 22 September 2023 **Niftaliyev Siraj Abil oglu**, at the Central District Hospital of

Page 1036

Goychay District, was diagnosed with “**closed craniocerebral trauma.**” “**Concussion**” constitutes minor harm to health caused by the impact of the blast wave generated as a result of the explosion of an explosive projectile.

Volume 327, case file pages: 1–253.

Private **Mammadov Shakhlar Shakhmar oglu**, reconnaissance observer of the 1st group of the 1st platoon of the 6th company of the 2nd battalion of a military unit of the Ministry of Defence, identified as a victim and questioned, stated in his testimony that at approximately 15:00 on 19 September 2023, while participating in local anti-terrorist operations in **Aghdam District** in the direction of the city of **Khankendi** from the territory of the Republic of Azerbaijan, he sustained shrapnel wounds to both legs as a result of falling near the site of an explosion of a projectile fired from artillery pieces and mortars of various calibres by illegal Armenian armed formations.

Volume 28, case file pages: 143–146.

According to forensic medical expert opinion No. 1639 dated 20 October 2023, the bodily injuries sustained by **Mammadov Shakhlar Shakhmar oglu** consisted of multiple blind shrapnel wounds to the lower surface of the right foot and the anterior surface of the upper and middle thirds of the left lower leg; on 27 September 2023, “**closed craniocerebral trauma, concussion**” was diagnosed at the Goychay District Central Hospital, caused both by the impact of a blast wave and by fragments formed as a result of the explosion of an explosive projectile, and, as a rule, is classified as minor harm to health.

Volume 327, case file pages: 1–253.

Private **Islamov Samir Elshan oglu**, rifleman of the 3rd section of the 1st platoon of the 8th company of the 3rd battalion of a military unit of the Ministry of Defence, identified and questioned as a victim, stated in his testimony that at approximately 14:00 on 20 September 2023, while participating in local anti-terrorist operations on the **Aghdam–Khojaly highway**, he sustained a gunshot wound to the right leg as a result of fire opened by illegal Armenian armed formations.

Volume 28, working sheets: 153–156.

Page 1037

According to forensic medical expert opinion No. 1649 dated 20 October 2023, the bodily injuries sustained by **Islamov Samir Elshan oglu** — a penetrating wound to the soft tissues of the right thigh — were caused by the impact of a bullet (projectile) as a result of shots fired from a firearm and, in terms of severity, are classified as less serious harm to health. A blind wound to the soft tissues of the fifth finger of the right hand was caused by the impact of a fragment formed during the explosion of a firearm projectile and is classified as minor harm to health.

Volume 327, case file pages: 1–253.

Private **Bayramov Elvin Eyvaz oglu**, rifleman of the 4th platoon of the 5th company of the 2nd battalion of a military unit of the Ministry of Defence, identified as a victim and questioned, stated in his testimony that at approximately 13:00 on 19 September 2023, during local anti-terrorist operations in the territory of **Aghdara District**, while participating in them, he was wounded in the left arm as a result of a projectile fired from artillery pieces and mortars of various calibres by illegal Armenian armed formations landing in his immediate vicinity.

Volume 28, case file pages: 163–166.

According to forensic medical expert opinion No. 406 dated 1 March 2024, **Bayramov Elvin Eyvaz oğlu** sustained the following bodily injuries: contusion of the edge of the distal metaphysis of the left radius, displaced prominence of the ulna, closed fracture of the radius after immobilization with a plaster splint; the ulna had sufficiently healed. An uncompensated fracture of the humerus is ordinarily considered to cause less serious harm to health, depending on the severity of the injury.

Volume 327, case file pages: 1–253.

Lieutenant **Hajizade Elmaddin Bahram oğlu**, commander of the anti-tank platoon of the 3rd battalion of a military unit of the Ministry of Defence, identified as a victim and questioned, stated in his testimony that at approximately 16:00 on 19 September 2023, while participating in local anti-terrorist operations in the territory of **Aghdara District**, the illegal Armenian armed formation sustained burns to both hands,

Page 1038

the right leg and abdomen as a result of being near a projectile fired from artillery pieces of various calibres and mortars of Turkish military units.

Volume 28, case file pages: 192–197.

According to forensic medical expert opinion No. 1571 dated 20 October 2023, the bodily injuries sustained by **Hajizade Elmaddin Bahram oğlu** were as follows: first-degree injuries to the right cheek and nose, the thumb of the right hand, the second, third, fourth and fifth fingers of the right hand, the dorsal surface of the left hand and the right thigh; localized first- to second-degree thermal burns of the right lower leg; barotrauma resulting in hearing loss, caused by the impact of flames and the blast wave formed during the explosion of a firearm projectile, which is ordinarily classified as minor harm to health due to its severity.

Volume 327, case file pages: 1–253.

Warrant Officer **Agazade Kenan Aslan oğlu**, deputy commander of the 1st platoon of the 8th company of the 3rd battalion of a military unit of the Ministry of Defence, identified as a victim and questioned, stated in his testimony that for the first time on 19 September 2023 at approximately 14:00, local anti-terrorist — while participating in terrorist operations, he sustained a shrapnel wound as a result of a hand grenade thrown by illegal Armenian armed formations falling nearby and exploding, and for the second time, on 20 September 2023 at approximately 18:00, he sustained a bullet wound to the back of the head in the area of the village of **Syrkhavend, Aghdam District**.

Volume 28, case file pages: 204–208.

According to forensic medical expert opinion No. 1618 dated 20 October 2023, the bodily injuries sustained by **Agazade Kenan Aslan oğlu** — a wound to the neck — were formed as a result of a gunshot wound; injuries to the dorsal side of the right arm and a fracture of the skull were caused by a gunshot wound. He was hospitalized at the **Goychay District Central Hospital** on 22 September 2023. The diagnosis of “**concussion**” made in his case was caused

both by a blast wave and by fragments formed during the explosion of an explosive projectile and is ordinarily classified as minor harm to health.

Page 1039

Volume 369, case file pages: 1–276.

Private **Mammadzade Mahammadali Ashraf oglu**, reconnaissance serviceman of the 9th battery of the 3rd division of a military unit of the Ministry of Defence, identified and questioned as a victim, stated in his testimony that at approximately 2 o'clock at night pm on 19 September 2023, while participating in local anti-terrorist operations in the territory of **Aghdara District**, he was shelled by an illegal Armenian. He sustained shrapnel wounds to the left leg and left arm as a result of a "**Kornet**" missile fired by the armed forces striking near a tank and exploding.

Volume 28, case file pages: 214–217.

According to forensic medical expert opinion No. 1582 dated 20 October 2023, the bodily injuries sustained by **Mammadzade Mahammadali Ashraf oglu** were as follows: blind wounds to the soft tissues of the left elbow joint, left lumbar region, both thighs and the left calf region, accompanied by a cut to the left Achilles tendon — a gunshot wound. It was caused by the impact of fragments formed during the explosion of a projectile and, in terms of severity, is ordinarily classified as less serious harm to health.

Volume 369, case file pages: 1–276.

Private **Huseynov Iskender Garakhan oglu**, driver of the MTT subdivision of a military unit of the Ministry of Defence, identified as a victim and questioned, stated in his testimony that at approximately 14:00 on 19 September 2023, while participating in local anti-terrorist operations in the direction of **Aghdam District**, he was struck by artillery fire of various calibres from illegal Armenian armed formations. As a result of a projectile from a machine gun and mortar exploding nearby, he sustained shrapnel wounds. Both thighs and ankles were also wounded, as were his fellow servicemen **Samir Kerimov** and **Ali Geydarov**, who were with him at that time.

Volume 28, case file pages: 223–226.

According to forensic medical expert opinion No. 1592 dated 20 October 2023, the bodily injuries sustained by **Huseynov Iskender Garakhan oglu** —

Page 1040

multiple blind wounds to the soft tissues of the upper and lower extremities; barotrauma resulting in sensorineural hearing loss — is a general term denoting minor harm to health caused by a blast wave formed during the explosion of an explosive projectile, by the impact of fragments of a primary and blunt weapon, as well as by the secondary effects of the explosion.

Volume 369, case file pages: 1–276.

Private **Jabiyev Hikmet Huseyn oglu**, medic of the medical station of a military unit of the Ministry of Defence, identified as a victim and questioned, stated in his testimony that at approximately 14:00 on 19 September 2023, while participating in local anti-terrorist operations in the direction of **Aghdam District**, he was struck by artillery fire of various calibres from illegal Armenian armed formations. He sustained a shrapnel wound to the right leg as a result of a projectile from his weapon and mortars exploding nearby.

Volume 28, case file pages: 232–235.

According to forensic medical expert opinion No. 1635 dated 20 October 2023, **Jabiyev Hikmet Huseyn oglu** sustained the following bodily injuries: traumatic neuropathy of the right sural nerve and swelling of the middle and lower thirds of the right lower leg, accompanied by [unclear in the source]. He had several wounds; the wound on the inner side of the left ankle was caused by a fragment from the explosion of a high-explosive projectile, and his general state of health was assessed as being of moderate severity.

Volume 369, case file pages: 1–276.

Private **Huseynov Huseyn Habil oglu**, anti-aircraft gunner of the anti-aircraft missile platoon of a military unit of the Ministry of Defence, identified as a victim and questioned, stated in his testimony that at approximately 14:00 on 19 September 2023, while participating in local anti-terrorist operations in the direction of **Aghdam District**, illegal Armenian armed formations, as a result of shelling from artillery pieces and mortars of various calibres from the Azerbaijani army, which exploded near the said area, caused him a fracture of the fifth finger of the left hand and shrapnel wounds. At that time, Lieutenant Colonel **Vusal Rustamov** and **Amin Hasanov** were killed.

Page 1041

Volume 28, case file pages: 241–244.

According to forensic medical expert opinion No. 399 dated 1 March 2024, the bodily injuries sustained by **Huseynov Huseyn Habil oglu** — a shrapnel wound to the dorsal surface of the fifth finger of the left hand as a result of an explosive injury, as well as an open shrapnel wound and a displaced fracture of the middle phalanx of the fifth finger, status after surgery and immobilization of the fifth finger with a plaster splint — are, in terms of severity, classified overall as causing less serious harm to health.

Volume 369, working sheet: 1–276.

Chief gunner of the 1st battery, 1st platoon, 1st gun of the artillery division of a military unit of the Ministry of Defence, **Namig Zavur oglu Atakishiyev**, whose identity was established and who was questioned as a victim, stated that at approximately 13:10 on 19 September 2023, he was wounded as a result of a projectile fired by illegal Armenian armed formations in the direction of **Aghdam District** exploding nearby.

Volume 34, working sheet: 6–9.

According to forensic medical expert opinion No. 1589 dated 20 October 2023, the injury sustained by **Atakishiyev Namig Zavur oğlu** to the outer part of the left ankle caused minor harm to health.

Volume 350, working sheet: 212–213.

Safaraliyev Mirzakhasan Mazakhir oğlu, commander of the 2nd battalion, 5th division, 3rd platoon of a military unit of the Ministry of Defence, recognized as a victim and questioned, stated that at approximately 13:10 on 19 September 2023, he was wounded as a result of a bullet fired by illegal armed formations of Armenia in the direction of **Aghdam District**.

Volume 34, working sheet: 15–18.

According to forensic medical expert opinion No. 1570 dated 20 October 2023, **Safaraliyev Mirzakhasan Mazakhir oğlu** sustained a gunshot wound to the left elbow with a fracture of the upper end of the left ulna, which, in terms of severity, is classified as less serious harm to health causing long-term impairment of health.

Volume 369, working sheet: 1–276.

Reconnaissance serviceman of the 4th battalion, 12th division, 2nd platoon, 2nd group of a military unit of the Ministry of Defence, **Kardashkhanov Subkhan Sahib oğlu**, recognized as a victim and questioned, stated that at approximately 13:10 on 19 September 2023, he was wounded as a result of a projectile fired by illegal armed formations

Page 1042

of Armenia in the direction of **Aghdam District**. As a result of the incident, **Mekhti Abbasov, David Jalilov, Rasul Teymurov, Ali Tagiyev and Javad Magerramov** were killed.

Volume 34, working sheet: 24–27.

Based on forensic medical expert opinion No. 1609 dated 20 October 2023, it was established that the injuries sustained by **Kardashkhanov Subkhan Sahib oğlu** — shrapnel wounds to the anterior and lateral surfaces of the left half of the chest, the anterior and posterior surfaces of the left shoulder, the lateral surface of the upper third of the left lower leg, the right calf, the first finger of the left hand, the left thigh and knee region, and the right calf — were blind shrapnel wounds resulting from the explosion of an explosive projectile and, in terms of severity, are classified as minor harm to health.

Volume 369, working sheet: 1–276.

Suleymanov Ulvi Ildirim oğlu, commander of the 2nd battalion, 6th division, 1st platoon of a military unit of the Ministry of Defence, recognized as a victim and questioned, stated that at approximately 13:10 on 19 September 2023, he sustained injuries as a result of a projectile fired by illegal armed formations of Armenia in the direction of **Khojaly District** exploding. As a result of the incident, **Vusal Shakhriyarov** was killed, while **Beylar Kerimov** and **Shakhlar Mammadov** were wounded together with him.

Volume 34, working sheet: 33–36.

According to forensic medical expert opinion No. 1604 dated 20 October 2023, the injuries sustained by **Suleymanov Ulvi Ildirim oglu** — to the middle third of the left side, the middle third of the right thigh, the inner surface of the left lower leg, the inner surface of the left heel region and the right half of the inguinal region — resulted from the explosion of an explosive projectile and the impact of fragments and, in terms of severity, constituted short-term minor harm to health.

Volume 369, working sheet: 1–276.

Grenade launcher operator of the 4th battalion, 11th block, 1st platoon, 2nd group of a military unit of the Ministry of Defence, **Ahmedov Shakhvaled Sattar oglu**, recognized as a victim and questioned, stated that at approximately 13:10 on 19 September 2023, he sustained injuries as a result of the explosion of a projectile fired by illegal armed formations of Armenia in the direction of **Aghdam District**. As a result of the incident, **Sakit Aslanov** was also injured.

Volume 34, working sheet: 42–45.

According to forensic medical expert opinion No. 1640 dated 20 October 2023, the injuries sustained by **Ahmedov Shakhvaled Sattar oglu** — wounds to the neck and the right half of the jaw — were caused by fragments formed as a result of the explosion of an explosive projectile and, in terms of severity, are classified as minor harm to health.

Page 1043

Volume 369, working sheet: 1–276.

Kerimli Magerram Sakit oglu, medic of the 2nd battalion, 5th section, 2nd platoon of a military unit of the Ministry of Defence, recognized as a victim and questioned, stated that at approximately 13:10 on 19 September 2023, he was wounded as a result of a bullet fired by illegal armed formations of Armenia in the direction of **Aghdam District**. As a result of the incident, **Ilkin Salmanov, Tural Amirov and Ilkin Salmanov** were injured together with him.

Volume 34, working sheet: 51–54.

According to forensic medical expert opinion No. 1648 dated 20 October 2023, the injury sustained by **Kerimli Mukharam Sakit oglu** — a bullet wound to the lower third of the right side, observed together with a multiple shrapnel fracture of the lower third of the right ulna with displacement — was caused by a shot from a firearm and, in terms of severity, is classified as less serious harm to health.

Volume 369, working sheet: 1–276.

Soldier **Ahmedzade Nidjat Nizam oglu**, engineer of the 1st section of the 6th platoon of detachment “D” of a military unit of the Ministry of Defence, recognized as a victim and questioned, stated that on 19 September 2023, shortly after the beginning of the anti-terrorist operation, at approximately 14:00–15:00, while crossing an open field in **Khojavend**

District, Armenian armed formations opened fire at his location; a mortar projectile fell to his left and exploded, as a result of which a fragment struck him in the area of the left eye and he was wounded. As a result of the incident, serviceman **Mammadov Sadik Samir oglu** was also wounded.

Volume 47, working sheet: 5–8.

According to forensic medical expert opinion No. 1852 dated 6 December 2023, the injuries sustained by **Ahmedzade Nidjat Nazim oglu** — a shrapnel fracture of the upper and outer wall of the left orbit accompanied by a periorbital hematoma of the left eye, closed head trauma with laceration of the eyebrow accompanied by a blind shrapnel wound, and concussion in the area of the left eyebrow — are classified as serious harm to health.

Volume 64, working sheet: 39–40.

Mammadov Sadik Samir oglu, a member of the crew of a 60-mm mortar, loader, serviceman of detachment “D”, 1st platoon, 4th section of a military unit of the Ministry of Defence, recognized as a victim and questioned, confirmed the testimony of his fellow serviceman **Ahmedzade Nidjat Nizam oglu** and stated that he sustained a shrapnel wound to the left eye.

Page 1044

Volume 47, working sheet: 13–16.

According to forensic medical expert opinion No. 1755 dated 11 October 2023, **Mammadov Sadik Samir oglu** was found to have penetrating injuries of the left eyeball accompanied by a scratched-incised wound of the left upper eyelid, hyphema, keratopathy, traumatic iridectomy, cataract, hemophthalmos, rhegmatogenous retinal detachment, open craniocerebral trauma, a fracture of the skull base accompanied by concussion, and a foreign body in the ethmoid bone; collectively, these were classified as serious harm to health.

Volume 49, working sheet: 224–225.

Mammadzade Vugar Nasimi oglu, serviceman of the 2nd battalion, 6th division, 1st platoon, 2nd group of a military unit of the Ministry of Defence, recognized as a victim and questioned, stated that on 19 September 2023, shortly after the beginning of the anti-terrorist operation in **Khojavend District**, one of the servicemen of the Armed Forces of Armenia fired an automatic weapon and struck him in the area of the left shoulder, as a result of which he lost consciousness. As a result of the fire opened by the Armed Forces of Armenia, Sergeant **MAHHXHQ Mammadov Samir Mammad oglu**, who served together with him, was killed, while Sergeant **Mammadov**, soldier **Parviz Shikhlyev** and Sergeant **Osman Azaev** were wounded.

Volume 47, working sheet: 21–24.

According to forensic medical expert opinion No. 1738 dated 11 October 2023, the bodily injuries found on **Mammadzade Vugar Nasimi oglu** — fractures of the right scapula and the third, fourth and fifth ribs; a wound penetrating from the area of the right shoulder into the thoracic cavity; post-traumatic neuropathy of the right axillary nerve; and a blind gunshot

wound to the chest accompanied by right-sided open hemopneumothorax — were associated with serious harm to health.

Volume 49, working sheet: 150–151.

Soldier **Aliyev Rashad Shamil oglu**, mortar operator of the 1st platoon of the 4th section of detachment “R” of a military unit of the Ministry of Defence, recognized as a victim and questioned, stated that at approximately 04:00 on 20 September 2023, while they were moving in columns toward the city of **Khankendi** together with the personnel of the unit they served, approximately 4–5 Armenian separatists suddenly appeared in front of them and opened automatic fire on them. At that time, a bullet struck him in the area of the bandage, while he himself, his extended-service fellow serviceman, soldier **Farid Amirov**, and serviceman **Nasirov Rahim**, who had experience of active military service, were wounded, while **Sadygov Jeyhun**, an active extended-service serviceman, was killed.

Page 1045

Volume 47, working sheet: 29–32.

According to forensic medical expert opinion No. 1850 dated 13 October 2023, the following bodily injuries were found on **Aliyev Rashad Shamil oglu**: an open displaced fracture of the left ischial bone with displacement; a gunshot wound penetrating into the buttock and accompanied by extensive tissue damage. The defect and injury to the anal sphincter are classified as serious harm to health.

Volume 369, working sheet: 1–276.

Soldier **Najafzade Farzani Yashar oglu**, intelligence operative of the 1st battalion, 1st battalion, 3rd platoon, 2nd detachment of a military unit of the Ministry of Defence, recognized as a victim and questioned, stated that at approximately 03:00–04:00 on 20 September 2023, he sustained an injury as a result of a shot from a sniper rifle fired by illegal armed formations of Armenia during combat operations against separatist formations in an area known as “**Krestovy Post**” in **Khojaly District**. Thereafter, while his fellow servicemen were bandaging his wound, illegal armed forces of Armenia dropped a grenade on their position using a drone; as a result of the grenade explosion, he sustained shrapnel wounds to his left arm and the left side of his face.

Volume 47, working sheet: 37–40.

According to forensic medical expert opinion No. 1739 dated 11 October 2023, **Najafzade Farzani Yashar oglu** was found to have the following bodily injuries: fractures of the left first rib, the left clavicle and the seventh cervical, first and second thoracic vertebrae; a penetrating gunshot wound to the left half of the chest penetrating into the thoracic cavity and accompanied by left-sided hemopneumothorax and post-traumatic brachial plexopathy; as well as blind shrapnel wounds to the upper third of the left thigh, the left arm and the palmar surface of the soft tissues of the left half of the face. These were associated with serious harm to health overall; separately, the shrapnel wound was classified as minor harm to health causing short-term impairment of health, while the gunshot wound constituted serious harm to health.

Volume 49, working sheet: 208–209.

Senior Sergeant **Gasimov Elmir Eyvaz oğlu**, medical instructor of the medical station of the 2nd section of a military unit of the Ministry of Defence, recognized as a victim and questioned, stated that at approximately noon on 19 September 2023, in **Khojavend District**, he was carrying out a combat assignment in the command trench of the 5th battery of the 2nd division of a military unit in accordance with instructions previously given to him as a medical instructor. As a result of the fall and explosion of a mortar

Page 1046

projectile fired by the Armed Forces of Armenia, he sustained multiple shrapnel wounds to the right shoulder, left leg, head and various parts of the body.

Volume 47, working sheet: 45–48.

According to forensic medical expert opinion No. 1760 dated 11 October 2023, **Gasimov Elnur Eyvaz oğlu** was found to have bodily injuries: removal of pseudopterygium of both eyes as a consequence of pseudopterygium; foreign bodies in the soft tissues of the left forehead; open craniocerebral trauma resulting in comminuted fractures of the frontal bones and crushing of the brain; opening of the third and third and fourth fingers of the right hand, exposing the lower third of the diaphysis of the right diaphysis, accompanied by complete tendon rupture and a displaced comminuted fracture; multiple shrapnel wounds to the left lower and upper extremities; blind shrapnel wounds to the surrounding soft tissues of both orbits, the face, forehead and external nose with foreign bodies in the soft tissues; post-traumatic fractures of the crowns of teeth 11, 12, 21 and 22. Small foreign bodies and dry perforation of both tympanic membranes were associated overall with serious harm to health.

Volume 49, working sheet: 236–237.

Soldier **Mazanov Samir Ayaz oğlu**, gunner of the 3rd division of the 3rd battalion of the 1st division of a military unit of the Ministry of Defence, recognized as a victim and questioned, stated that at approximately 12:00–13:00 on 20 September 2023, in the territory of **Khojavend District**, a mortar projectile fired by illegal Armenian armed formations struck their shelter and exploded, causing shrapnel wounds to his left arm, the left side of his body and his left leg. As a result of the incident, soldier **Ismayev Zeynal** was killed.

Volume 47, working sheet: 53–56.

According to forensic medical expert opinion No. 1740 dated 11 October 2023, the son of **Mazanov Samir Ayaz oğlu** was found to have bodily injuries: shrapnel wounds to the left half of the chest not penetrating into the cavity, to the soft tissues of the left side, the left lumbar region and the upper third of the left thigh with a tissue defect, and perforation of the left tympanic membrane accompanied by acute left-sided cochlear neuritis and barotrauma of the left ear, which, as a rule, are classified as serious harm to health.

Volume 49, working sheet: 212–213.

Serviceman **Aslanov Amin Shakhruz oğlu**, machine gunner of the 3rd section of the 3rd platoon of the 5th division of the 2nd battalion of a military unit of the Ministry of Defence,

recognized as a victim and questioned, stated that at approximately 15:00–16:00 on 19 September 2023, he sustained a gunshot wound to the left shoulder as a result of a shot from

Page 1047

a sniper rifle fired by servicemen of illegal armed formations of Armenia during fighting to capture a position of illegal armed formations of Armenia. During the fighting, platoon commander Junior Lieutenant **Ali Babazade**, soldier **Farid Aliyev** and Private **Huseyn Nasibov** were killed. Active serviceman soldier **Firdovsi Hasanov** and soldier **Subkhan Lachinov** sustained gunshot wounds.

Volume 47, working document: 61–65.

According to forensic medical expert opinion No. 1843 dated 8 December 2023, the injuries sustained by **Aslanov Amin Shakhruz oglu** — injury to the small intestine and sigmoid colon and a comminuted open fracture of the left femur, accompanied by a bullet wound penetrating into the abdominal cavity from the left buttock — were collectively classified as serious harm to health.

Volume 64, working sheet: 111–112.

Serviceman **Lachinov Subkhan Mekhti oglu**, grenade launcher operator of the 3rd section of the 3rd platoon of the 5th division of the 2nd battalion of a military unit of the Ministry of Defence, recognized as a victim and questioned, gave testimony of the same substance as his fellow serviceman **Aslanov Amin Shakhruz oglu**, stating that he sustained a bullet wound to the left shoulder as a result of fire from a sniper rifle.

Volume 47, working sheet: 70–73.

According to forensic medical expert opinion No. 1737 dated 11 October 2023, the bodily injuries found on **Lachinov Subkhan Mekhti oglu** — left-sided hemopneumothorax and injury to the left shoulder sheath resulting in fractures of the eighth and ninth ribs, as well as a bullet wound penetrating into the left half of the thoracic cavity — were associated with serious harm to health.

Volume 49, working sheet: 134–135.

Soldier **Aliyev Ziya Vugar oglu**, grenade launcher operator of the 1st section of the 1st platoon of the 6th division of the 2nd battalion of a military unit of the Ministry of Defence, recognized as a victim and questioned, stated that at approximately 10:00 on 21 September 2023, while digging the ground to take up a position in the area of their concentration in **Khojavend District** in order to establish road protection, he sustained a gunshot wound to the left knee as a result of fire opened by illegal armed formations of Armenia.

Volume 47, working sheet: 78–81.

According to forensic medical expert opinions Nos. 874 and 1849 dated 25 September 2023, the bodily injuries sustained by **Aliyev Ziya Vugar oglu** constituted serious harm to health due to the severity of a blind bullet wound,

Page 1048

accompanied by a metallic foreign body, as a result of which a puncture fracture of the left knee joint and the left femur was caused.

Volume 21, working sheet: 203–204.

Volume 64, working sheet: 43–44.

Serviceman **Salmanov Vagif Ruslan oglu**, the 2nd soldier of the 4th section of the 5th platoon of detachment “F” of a military unit of the Ministry of Defence, recognized as a victim and questioned, stated that at approximately 01:00 on 20 September 2023, while moving through a wooded area near the city of **Khankendi**, he sustained shrapnel wounds to the right arm, left arm and abdomen as a result of the explosion of a mortar projectile fired by the Armed Forces of Armenia.

Volume 47, working sheet: 86–89.

According to forensic medical expert opinion No. 65 dated 25 January 2024, the bodily injuries found on **Salmanov Vagif Ruslan oglu** — an open non-displaced fracture of the olecranon of the right ulna, partial traumatic injury to the right ulnar nerve, explosive trauma with shrapnel wounds to both upper extremities, as well as a contusion of the left upper-arm region — were collectively classified as less serious harm to health.

Volume 319, working sheet: 82–83.

Serviceman **Velibek Namik Rayk oglu**, gunner-mortar operator of the 3rd platoon of the 4th section of detachment “M” of a military unit of the Ministry of Defence, recognized as a victim and questioned, stated that at approximately 01:00 on 20 September 2023, together with the servicemen of the 3rd platoon in which he served, they carried out an attack with the objective of capturing a position of illegal armed formations of Armenia located near the city of **Khankendi**. During the fighting to capture the position, he sustained a bullet wound to the right leg as a result of a shot from a sniper rifle fired by servicemen of illegal armed formations of Armenia. Servicemen of the platoon **Yusif Nuriyev** and **Elchin Ismailov** also sustained bullet wounds.

Volume 47, working document: 94–97.

According to forensic medical expert opinion No. 699 dated 24 April 2024, the bodily injuries sustained by **Velibek Namik Rayk oglu** — a blind bullet wound to the anterolateral surface of the upper third of the right thigh, an open comminuted displaced fracture of the right femur, and a foreign body (bullet) in the soft tissues of the right iliac region — were caused by a firearm loaded with a bullet, the cartridge of which was loaded with a bullet, and, in terms of severity, collectively constitute serious harm to health.

Page 1049

Volume 369, working sheet: 1–276.

Soldier **Bayramov Sadyk Elim oğlu**, intelligence officer of the 1st group of the 3rd platoon of the 6th section of the 2nd battalion of a military unit of the Ministry of Defence, recognized as a victim and questioned, stated that at approximately 16:00–17:00 on 19 September 2023, while moving as part of a group between combat positions organized by illegal Armenian armed formations, he fell into an ambush organized by illegal Armenian armed formations and sustained a bullet wound to the pelvis during the ensuing fire. During the incident, division commander Senior Lieutenant **Zamin Abbasov** and group commander Junior Lieutenant **Garib Gasimov** were killed.

Volume 47, working document: 102–105.

According to forensic medical expert opinion No. 1842 dated 6 December 2023, the bodily injuries sustained by **Bayramov Sadyk Elim oğlu** — a wound penetrating into the abdominal cavity from the left buttock, injury to the small intestine, an intra-abdominal hematoma, and injury to the cecum accompanied by fecal peritonitis — collectively constitute serious harm to health.

Volume 64, working sheet: 67–68.

Warrant Officer **Jabiyev Tural Aliniyaz oğlu**, commander of the 1st group of the 1st platoon of the 5th division of the 2nd battalion of a military unit of the Ministry of Defence, recognized as a victim and questioned, stated that at approximately 16:00–17:00 on 19 September 2023, in a wooded area in the direction of **Dagyurd, Khojaly District**, servicemen of illegal armed formations of Armenia opened automatic-weapons fire on them. He sustained a bullet wound to the right leg.

Volume 47, working document: 110–113.

According to forensic medical expert opinion No. 1766 dated 11 October 2023, the injuries found on **Jabiyev Tural Aliniyaz oğlu** — a lacerated bite wound to the third and fourth toes of the right foot and a penetrating gunshot wound to the right foot accompanied by open multifragmentary displaced fractures of the right metatarsal bone and the distal phalanges of the third and fourth toes — are classified as less serious harm to health causing long-term impairment of health.

Volume 369, working sheet: 1–276.

Junior Sergeant **Ismailov Elsever Khudaverdi oğlu**, reconnaissance officer of the 2nd section of the 1st battalion, 1st battalion, 1st section, 2nd platoon, 2nd platoon of a military unit of the Ministry of Defence, recognized as a victim and questioned, stated that at approximately 10:00 on 20 September 2023, in the city of **Khojavend**, the blast wave caused by the explosion of a projectile fired by illegal armed

Page 1050

formations of Armenia threw him aside, and he sustained injuries to the head and left side. Warrant Officer **Iskender Museyibli**, who was with him at that time, was killed, while **Elmaddin Piriye** and **Muhammad Piriye** were wounded.

Volume 47, working sheet: 118–121.

According to forensic medical expert opinion No. 1761 dated 11 October 2023, the son of **Ismailov Elsever Khudaverdi oğlu** was found to have bodily injuries: a gunshot wound penetrating into the left buttock and passing through the right thigh, accompanied by open, slightly displaced fractures of both wings of the ilium and the humerus, which collectively are associated with less serious harm to health.

Volume 369, working sheet: 1–276.

Private **Gasimov Adil Matlab oğlu**, commander of the 3rd platoon of the 3rd platoon of the 10th division of the 4th battalion of a military unit of the Ministry of Defence, recognized as a victim and questioned, stated that at approximately 17:00–18:00 on 19 September 2023, during the operation to liberate the city of **Khojavend** from illegal armed formations of Armenia, servicemen of illegal armed formations of Armenia opened automatic-weapons fire on them; at that time, a bullet entered the left pelvic region and exited from the right upper part of the abdomen. At that time, Warrant Officer **Aliyev Elmaddin Dovlat oğlu**, who was near him, was killed, while **Verdiyev Orkhan Niyameddin oğlu** was wounded.

Volume 47, working document: 126–129.

According to forensic medical expert opinion No. 1874 dated 16 October 2023, the injuries found on **Gasimov Adil Matlab oğlu** constitute serious harm to health due to the severity of a bullet wound penetrating into the left gluteal region and passing through the area of the right thigh, accompanied by open fractures with slight displacement of both wings of the hip and the femur.

Volume 369, working sheet: 1–276.

Serviceman performing extended military service, soldier **Kardashkhanov Mahammadali Niyameddin oğlu**, sniper-reconnaissance serviceman of the 2nd squad of the 3rd platoon of the 10th division of the 4th battalion of a military unit of the Ministry of Defence, recognized as a victim and questioned, stated that on 19 September 2023, at approximately 14:00–15:00, several kilometres before the entrance to the city of **Khojavend**, in a wooded area, serviceman **Elshan Khankishiyev** stepped on a mine and was killed; while he and Junior Sergeant **Ilgar Gasimov** attempted to help him, his left leg detonated a mine, and he sustained serious injuries to both the left and right legs.

Volume 47, working document: 134–137.

[Page 1051]

According to forensic medical examination opinion No. 1764 dated 11.10.2023, **Kardashkhanov Mahammadali Niyameddin oğlu** was found to have bodily injuries: a wound with an extensive defect of the soft tissues and bones of the left lower leg, traumatic rupture of the first and second toes of the left lower leg, the third, fourth and fifth metacarpal and metatarsal bones with an open capsule, closed fractures of the lower 1/3 of the shaft of the left fibula, the left shin anteriorly, on the right, puncture-incised wounds of the inner surface of the upper 1/3 of the thigh, a first- to second-degree thermal burn, an incised-lacerated wound of the dorsal surface of the left hand, avulsion of the first and second metatarsal bones of the left lower leg at the level of the metatarsal joint, and a closed craniocerebral injury

accompanied by concussion, which are ordinarily classified as less serious impairment of health causing a significant irreversible loss of less than 1/3 of general capacity for work.

Volume 369, working sheet: 1-276.

The commander of the 4th platoon of the 10th division of the 4th battalion of a military unit of the Ministry of Defence, Junior Lieutenant Huseynov Huseyn Afig oglu, who was recognised as a victim and questioned, stated in his statement that at approximately 14:00-15:00 on 19.09.2023 he sustained serious injuries as a result of stepping on a mine with his right foot and being blown up in a forested area several kilometres from the city of Khojavend. During the fighting, soldier Orkhan Mekhtiyev and Junior Sergeant Ilgar Gasimov, who was with him, were wounded, and Junior Sergeant Elshan Khankishiyev was killed.

Volume 47, working document: 142-145.

According to forensic medical examination opinion No. 1763 dated 11.10.2023, Huseynov Huseyn Afig oglu was found to have bodily injuries: an open fracture of the left lower limb, the calcaneus and tibia, disarticulation of a toe above the level of the Chopart joint with a gunshot wound, and a closed head injury with concussion, which in terms of severity are classified as causing serious harm to health as a whole.

Volume 369, working sheet: 1-276.

Soldier Makhmudov Hasan Natig oglu, a scout of the 1st section of the 1st platoon of the 12th division of the 4th battalion of a military unit of the Ministry of Defence, who was recognised as a victim and questioned, stated in his statement that on 20.09.2023, during the counter-terrorism operation carried out by the Armed Forces of the Republic of Azerbaijan against terrorist groups of Armenian origin existing in the territories of the Aghdara, Khojaly and Khojavend districts, he stepped on a mine previously planted by Armenian armed forces and, as a result of the mine explosion, sustained injuries to his right and left legs.

Volume 47, working document: 150-153.

[Page 1052]

According to forensic medical examination opinion No. 1768 dated 11.10.2023, the bodily injuries found on Makhmudov Hasan Natig oglu - traumatic rupture of the left lower leg at the level of the ankle joint, a soft-tissue defect, a wound of the inner ankle region of the right lower leg, and a mine-blast injury with a fracture of the calcaneus caused by the impact of fragments generated by the explosion of an explosive projectile (device) - in terms of severity, as a whole, caused irreversible losses exceeding 1/3 of general capacity for work (40%) and were classified as severe injuries to health; separately, the traumatic rupture of the left lower leg at the level of the metatarsus, which resulted in a permanent loss of more than

1/3 of general capacity for work (40%), was classified as serious harm to health, while the remaining injuries were classified as less serious harm to health.

Volume 369, working sheet: 1-276.

Serviceman Guliyev Muhammad Ziyad oglu, a grenade launcher operator of the 3rd platoon of the 3rd platoon of the 7th division of the 3rd battalion of a military unit of the Ministry of Defence, who was recognised as a victim and questioned, stated in his testimony that on 19.09.2023 an order was issued to conduct a counter-terrorism operation against terrorist actions by unlawful Armenian armed formations, which began at 13:30, and their detachment was stationed at post No. 6 on flat terrain near the city of Khojavend, and that post was guarded by terrorists. On that day, at approximately 13:00-14:00, the unlawful Armenian armed formations opened mortar fire, and at that time fragments of a mine scattered around and those fragments struck his left thigh. Soldier Murad Iskenderov then died a мученической death.

Volume 47, working document: 158-161.

According to forensic medical examination opinion No. 1871 dated 16.10.2023, the bodily injuries found on Guliyev Muhammad Ziyad oglu - a shrapnel wound accompanied by an open displaced fracture of the lower third of the left femur, a lacerated wound of the inner surface of the left hand, and barotrauma of the left ear accompanied by acute left-sided cochlear neuritis, arising as a result of the impact of the blast wave formed by the explosion of an explosive projectile - in terms of severity are classified as serious harm to health as a whole, while the other bodily injuries are classified as minor damage to health.

Volume 369, working sheet: 1-276.

Soldier Jabbarli Osman Amil oglu, who was recognised as a victim and questioned in the position of medical instructor of the 2nd platoon of the 7th division of the 3rd battalion of a military unit of the Ministry of Defence, a serviceman serving beyond the compulsory term, stated in his testimony that on 19.09.2023, during the counter-terrorism operation,

[Page 1053]

carried out by the Armed Forces of the Republic of Azerbaijan against terrorist groups of Armenian origin existing in the territories of the Aghdara, Khojaly and Khojavend districts, he sustained a bullet wound as a result of Armenian armed formations opening fire in the direction of the Khojaly district.

Volume 47, working document: 166-169.

According to forensic medical examination opinion No. 1838 dated 06.12.2023, the bodily injury sustained by Jabbarli Osman Amil oglu - a penetrating gunshot wound penetrating the soft tissues of the posterior surface of the upper 1/3 of the right thigh through the groin area -

arose as a result of fire from a firearm and, in terms of severity, is classified as less serious harm to health.

Volume 64, working sheet: 59-60.

Private Muftaliyev Arazdun Akif oglu, an active-duty serviceman and grenade launcher operator of the 1st section of the 1st platoon of the 10th company of the 4th battalion of a military unit of the Ministry of Defence, who was recognised and questioned as a victim, stated the following in his testimony: on 19.09.2023, during the counter-terrorism operations conducted by the Armed Forces of the Republic of Azerbaijan against terrorist groups of Armenian origin in the territories of the Aghdara, Khojaly and Khojavend districts, as a result of the explosion of a projectile fired by Armenian armed formations, he sustained shrapnel wounds to his left hand, left shoulder and left thigh.

Volume 25, sheet: 8-11.

Volume 47, sheet: 174-177.

According to forensic medical expert opinion No. 892 dated 28.09.2023, the injury sustained by Private Niftaliyev Arazdun Akif oglu, a serviceman of Military Unit 181 - a blind shrapnel wound of the middle third of the left arm - was formed as a result of the impact of a primary or secondary fragment generated by the explosion of some explosive substance and is classified as minor harm to health.

Volume 276, sheet: 258-259.

Soldier Eminov Elbrus Saleh oglu of the 3rd battalion of the 3rd artillery division of the 1st artillery division of a military unit of the Ministry of Defence, who was recognised and questioned as a victim, stated in his statement that on 20.09.2023, during the counter-terrorism operations conducted by the Armed Forces of the Republic of Azerbaijan against terrorist groups of Armenian

[Page 1054]

origin in the territories of the Aghdara, Khojaly and Khojavend districts, he sustained shrapnel wounds as a result of a mortar projectile fired by Armenian armed formations falling nearby and exploding.

Volume 47, sheet: 182-185.

According to forensic medical expert opinion No. 1840 dated 13.10.2023, the bodily injuries found on Eminov Elbrus Saleh oglu consist of shrapnel wounds of the anterior surface of the middle and lower thirds of the right thigh, the outer surface of the upper and middle thirds of the left shoulder and left forearm, and the left buttock with an extensive soft-tissue defect, accompanied by mild post-haemorrhagic anaemia, as well as blind shrapnel wounds of various parts of the body and a foreign body (metal fragment) in the soft tissues; the

fragments were formed as a result of the explosion of an explosive device and, in terms of severity, are classified as causing less serious harm to health.

Volume 369, sheet: 1-276.

Private Tanryverdiyev Aydin Eldeniz oglu, a rifleman of the 1st section of the 2nd platoon of the 10th company of the 4th battalion of a military unit of the Ministry of Defence, who was established as a victim and questioned, stated in his testimony that on 19.09.2023, during the counter-terrorism operations conducted by the Armed Forces of the Republic of Azerbaijan against terrorist groups of Armenian origin in the territories of the Aghdara, Khojaly and Khojavend districts, he sustained a gunshot wound as a result of fire opened by Armenian armed formations in the direction of the Khojavend district.

Volume 81, working sheet: 7-10.

According to forensic medical expert opinion No. 1370 dated 29.09.2023, the bodily injuries found on Tanryverdiyev Aydin Eldeniz oglu, namely blind shrapnel wounds accompanied by damage to the soft tissues of the right hand, were formed as a result of the impact of the blast wave generated by the explosion of an explosive projectile and, both collectively and separately, constitute minor harm to health.

Volume 369, working sheet: 1-276.

Private Aliyev Azad Parviz oglu of the 3rd section of the 4th battalion of the 10th division of the 3rd platoon of a military unit of the Ministry of Defence, who was established and questioned as a victim, stated in his statement that on 19 September 2023, during the counter-terrorism operations conducted by the Armed Forces of the Republic of Azerbaijan against terrorist groups of Armenian origin in the territories of the Aghdara, Khojaly and Khojavend districts, he sustained shrapnel wounds as a result of the explosion of a projectile nearby,

[Page 1055]

fired by Armenian armed formations in the direction of the Khojavend district.

Volume 81, working sheet: 17-20.

According to forensic medical expert opinion No. 1373 dated 29.09.2023, the bodily injuries found on Aliyev Azad Parviz oglu, including shrapnel wounds of the left shoulder girdle, right shoulder, upper 1/3 of the left forearm, soft tissues of the right thigh, right gluteal and lumbar muscles, and anterior surface of the middle 1/3 of the left lower leg, were formed as a result of the impact of a blast wave generated by the explosion of an explosive projectile and, both collectively and separately, are classified as minor harm to health.

Volume 369, sheet: 1-276.

Warrant Officer Mammadov Sanan Niyazi oglu, commander of the 2nd section of the 1st platoon of the 11th section of the 4th battalion of a military unit of the Ministry of Defence, who was recognised and questioned as a victim, stated in his statement that on 19.09.2023, during the counter-terrorism operations conducted by the Armed Forces of the Republic of Azerbaijan against terrorist groups of Armenian origin in the territories of the Aghdara, Khojaly and Khojavend districts, he sustained a gunshot wound as a result of fire opened by Armenian armed formations in the direction of the Aghdam district.

Volume 81, sheet: 26-29.

According to forensic medical expert opinion No. 1602 dated 20.10.2023, the bodily injuries sustained by Mammadov Sanan Niyazi oglu - a single bullet wound penetrating the lobe of the left ear and affecting the soft tissues of the posterior surface of the neck - were caused by a firearm, while the haematoma in the area of the left knee resulted from a blow with a hard blunt object and, in terms of severity, are classified as minor harm to health.

Volume 369, working sheet: 1-276.

Private Feyzullayev Baloglan Ramiz oglu, a scout-sniper of the 1st group of the 4th platoon of the 1st battalion of the 1st company of a military unit of the Ministry of Defence, who was recognised and questioned as a victim, stated in his statement that at approximately 13:00 on 19.09.2023 local counter-terrorism operations began in the territories of the Aghdara, Khojavend and Khojaly districts. During the capture of combat post “2.16” of Armenian terrorists, located opposite combat post No. 19 of the military unit in the territory of the Khojavend district, a hand grenade “F-1” was thrown from the side of the Armenian armed forces towards the trench, which exploded next to

[Page 1056]

him. As a result, he sustained multiple shrapnel wounds to the left leg, back and both lower legs.

Volume 81, working sheet: 36-39.

According to forensic medical expert opinion No. 1400 dated 29.09.2023, the bodily injuries sustained by Feyzullayev Baloglan Ramiz, accompanied by foreign bodies in the soft tissues of the pelvis, both thighs and the left foot, wounds of both upper and lower extremities, as well as the right gluteal region, were caused by fragments formed as a result of the explosion of an explosive projectile and are classified as minor harm to health.

Volume 60, sheet: 62-64.

Private Abbasov Alekper Fuad oglu, a scout-sniper of the 1st group of the 3rd platoon of the 5th company of the 2nd battalion of a military unit of the Ministry of Defence, who was recognised and questioned as a victim, stated in his testimony that at approximately 13:00 on 19.09.2023 local counter-terrorism operations began in the territories of the Aghdara,

Khojavend and Khojaly districts, and that he sustained a gunshot wound as a result of fire opened by Armenian armed formations when Armenian terrorists, while positioned in the opposite direction from the 19th combat post of the military unit, captured combat post “2.16” of Armenian origin in the Khojavend district.

Volume 81, sheet: 46-49.

According to forensic medical expert opinion No. 1374 dated 29.09.2023, the bodily injuries found on Abbasov Alekper Fuad oglu, a bullet wound in the area of the right buttock accompanied by a contusion, not penetrating into the cavity of the through opening of the right buttock and the right half of the chest, were caused by a shot from a firearm, both collectively and separately, and are classified as minor harm to health.

Volume 369, sheet: 1-276.

Sergeant Bahramov Shahin Vagif oglu, commander of the 2nd artillery of the 3rd battery of the 1st division of a military unit of the Ministry of Defence, who was recognised and questioned as a victim, stated in his statement that at approximately 13:00 on 19.09.2023 local counter-terrorism operations began in the territories of the Aghdara, Khojavend and Khojaly districts, and during the hostilities he and his military unit conducted artillery fire in the direction of the village of Zogalbulag in the Khojavend district. At approximately 12:00 on 20.09.2023, while in a shelter dug by them near an artillery shelter in the village of Zogalbulag, he sustained multiple

[Page 1057]

shrapnel wounds to the right lower part of the body as a result of a projectile fired by Armenian armed formations striking the shelter and exploding.

Volume 81, sheet: 66-69.

According to forensic medical expert opinion No. 1394 dated 29.09.2023, the bodily injuries sustained by Bahramov Shahin Vagif oglu - a fracture of the right femur, wounds of the right thigh, right buttock, right lower leg, left thigh and left lower leg with foreign bodies present - were formed as a result of the impact of fragments generated by the explosion of an explosive projectile and, depending on their degree of severity, are classified as serious harm to health.

Volume 60, sheet: 87-89.

Junior Sergeant Nagiyev Eljan Sarvan oglu, a scout-sapper of the 1st group of the 2nd platoon of the 7th company of the 3rd battalion of a military unit of the Ministry of Defence, who was recognised as a victim and questioned, stated the following in his testimony: at approximately 13:00 on 19.09.2023 local counter-terrorism operations began in the territories of the Aghdara, Khojavend and Khojaly districts. During the capture of a post of the unlawful Armenian armed formations located opposite combat post No. “Sh1” of the military unit in the territory of the village of Jagaduz, Khojaly district, the unlawful Armenian armed

formations threw both red “F-1” grenades at them and opened fire at them with various automatic weapons. A fragment of one of the thrown grenades struck him in the back of the head, and he also sustained a bullet wound to the back.

Volume 81, sheet: 76-79.

According to forensic medical expert opinion No. 85 dated 15.02.2024, the bodily injuries sustained by Nagiyev Eljan Sarvan oglu - wounds to the left parietal part of the head - were caused by fragments formed as a result of the explosion of an explosive projectile, while the wounds to the anterior right lateral surface of the chest and the posterior right lateral surface of the chest were caused by a firearm and, as a whole, are classified as less serious harm to health.

Volume 326, sheet: 197-200.

Captain Mirzazade Rajabali Ikhtiyar oglu, assistant chief of staff of the 2nd howitzer artillery division of a military unit of the Ministry of Defence, who was recognised as a victim and questioned, stated in his testimony that at approximately 13:00 on 19.09.2023 local counter-terrorism operations began in the territories of the Aghdara, Khojavend and Khojaly districts. From that day, the battery deployed D-30 howitzers at a firing position in the village of Chanagchi in the Khojaly district. At that time, their position was subjected to artillery

[Page 1058]

fire from unlawful Armenian armed formations located in that area, and as a result of one of the projectiles striking the trench in which they were located and exploding, battery commander Captain Sultanov Khalfali was killed. As a result of the incident, he himself sustained second-degree chemical burns and multiple shrapnel wounds to the legs and back.

Volume 81, working sheet: 86-89.

According to forensic medical expert opinion No. 1401 dated 29.09.2023, the bodily injuries sustained by Mirzazade Rajabali Ikhtiyar oglu - second-degree thermal burns affecting 18% of both lower extremities, caused by the local effect of high temperature, including flame, as well as wounds of the posterior surface of the chest and both scapular projections caused by fragments resulting from the explosion of an explosive projectile - as a whole are classified as less serious harm to health.

Volume 60, sheet: 65-67.

Lieutenant Najafov Tural Mekhti oglu, commander of the 1st platoon of the 11th company of the 4th battalion of a military unit of the Ministry of Defence, who was recognised as a victim and questioned, stated in his testimony that at approximately 13:00 on 19.09.2023 local counter-terrorism operations began in the territories of the Aghdara, Khojavend and Khojaly districts, and that they were at a combat post bearing a conventional number in the territory of the Khojavend district. The following day, at approximately 11:00 on 20.09.2023, when they

entered the post of the Armenian armed forces and took up their positions, a projectile fired by the Armenian armed forces fell and exploded next to them, as a result of which they sustained multiple shrapnel wounds to the head, face, shoulders and ear.

Volume 81, sheet: 96-99.

According to forensic medical expert opinion No. 1397 dated 29.09.2023, during the forensic medical examination of Najafov Tural Mekhti oglu, wounds were found on the surface of the right half of the forehead, left cheekbone, right shoulder joint and dorsal surface of both hands, haemorrhages in the projection of the right cheekbone and on the anteromedial surface of the middle 1/3 of the left thigh, as well as a foreign body in the upper jaw. The injuries diagnosed at the Aghjabadi Regional Medical Centre as “barotrauma, bilateral tinnitus, perforation of the right tympanic membrane” were caused both by the impact of a blast wave and by fragments resulting from the explosion of an explosive projectile and, in terms of severity, are classified as minor harm to health.

Volume 60, working sheet: 94-96.

[Page 1059]

Private Pichakhov Elchin Ilham oglu, a rifleman of the 1st platoon of the 11th company of the 4th battalion of Military Unit 706 of the Ministry of Defence, who was recognised and questioned as a victim, stated in his statement that at approximately 13:00 on 19.09.2023 local counter-terrorism operations began in the territories of the Aghdara, Khojavend and Khojaly districts, and during the operations, as a result of shelling by unlawful Armenian armed formations, he sustained a shrapnel wound to the leg.

Volume 81, sheet: 106-109.

According to forensic medical expert opinion No. 1402 dated 29.09.2023, the bodily injuries sustained by Pichakhov Elchin Ilham oglu - barotrauma, acute otitis media, hearing loss, tinnitus in both ears, and a shrapnel wound of the right lower leg - were caused both by the impact of a blast wave and by fragments formed as a result of the explosion of an explosive projectile and, in terms of severity, are classified as minor harm to health.

Volume 60, sheet: 68-70.

Private Mekhtiyev Gulverdi Jalil oglu, a rifleman of the 3rd group of the engineer-reconnaissance section of detachment “Dzh” (J) of a military unit of the Ministry of Defence, who was recognised and questioned as an injured party, stated in his testimony that at approximately 13:00 on 19.09.2023 local counter-terrorism operations began in the territories of the Aghdara, Khojavend and Khojaly districts and, as a result of fire opened by Armenian armed formations during the operations, he sustained a shrapnel wound.

Volume 81, sheet: 116-119.

According to forensic medical expert opinion No. 1409 dated 29.09.2023, the bodily injury sustained by Mekhtiyev Gulverdi Jalil oglu - a penetrating gunshot bullet wound of the first toe of the right foot - was caused by a gunshot wound inflicted by a firearm and, in terms of severity, is classified as minor harm to health.

Volume 60, sheet: 50-52.

Private Jafarov Samir Jeyhun oglu, gunner of the 2nd group of the 2nd platoon of the 6th company of the 2nd battalion of a military unit of the Ministry of Defence, whose identity was established and who was questioned as a victim, stated in his statement that at approximately 13:00 on 19.09.2023 local counter-terrorism operations began in the territories of the Aghdara, Khojavend and Khojaly districts and that on the same day at approximately 13:00 they attacked the “Khach” position of the unlawful Armenian armed formations located in the territory of the Khojavend district. After some time, he was wounded as a result of the explosion of a projectile fired by Armenian armed formations.

Volume 81, working sheet: 126-129.

[Page 1060]

Volume 115, working sheet: 44-47.

According to forensic medical expert opinion No. 1420 dated 29.09.2023, the bodily injuries sustained by Jafarov Samir Jeyhun oglu - shrapnel wounds of the left testicle and left pelvic region, with a foreign body (metal shrapnel) in the testicle - were formed as a result of the impact of fragments generated by the explosion of an explosive projectile and, in terms of severity, are classified as minor harm to health as a whole.

Volume 276, sheet: 279-280.

Junior Lieutenant Mammadov Imran Nasir oglu, commander of the 2nd operational platoon of the 2nd operational unit of the 1st operational battalion of a military unit of the Ministry of Defence, who was recognised and questioned as a victim, stated in his testimony that at approximately 13:00 on 19 September 2023 local counter-terrorism operations began in the territories of the Aghdara, Khojavend and Khojaly districts. He and his fellow servicemen proceeded into battle from the territory of the Shusha district in the direction of Khojavend-Khankendi. At approximately 17:00 on 19 September, he sustained a 7.62 mm bullet wound to the right leg as a result of sniper fire by unlawful Armenian armed formations at the foot of the Bogurkhan Heights.

Volume 81, sheet: 136-139.

According to forensic medical expert opinion No. 1378 dated 29.09.2023, the bodily injury found on Mammadov Imran Nasir oglu, a gunshot wound of the right knee joint, was caused by a shot from a firearm and, both collectively and separately, is classified as minor harm to health.

Volume 369, sheet: 1-276.

Lieutenant Amoev Gunduz Intigam oglu, commander of the 3rd platoon of the 4th division of the 2nd battalion of a military unit of the Ministry of Defence, who was recognised as a victim and questioned, stated in his testimony that at approximately 13:00 on 19 September 2023 local counter-terrorism operations began in the territories of the Aghdara, Khojavend and Khojaly districts. At approximately 09:30 on 20 September 2023, when the unlawful Armenian armed formations were at combat position “2.16” in the territory of the Khojavend district, a kamikaze unmanned aerial vehicle directed by those terrorists fell and exploded next to them, as a result of which he sustained shrapnel wounds to the right side of the neck.

Volume 81, working document: 146-149.

According to forensic medical expert opinion No. 1418 dated 29.09.2023, the wounds on the right side of the neck of Amoev Gunduz Intigam oglu, accompanied by a foreign body in the soft tissues, were caused by fragments formed as a result of

[Page 1061]

the explosion of an explosive projectile and, in terms of severity, are classified as minor harm to health.

Volume 276, sheet: 272-274.

Junior Sergeant Hammadli Samir Farhad oglu, scout-operator of the 2nd group of the 4th platoon of the 5th company of the 2nd battalion of a military unit of the Ministry of Defence, who was recognised and questioned as a victim, stated the following in his testimony: at approximately 13:00 on 19.09.2023, local counter-terrorism operations began in the territories of the Aghdara, Khojavend and Khojaly districts. On that day, they attacked the combat positions of unlawful Armenian formations opposite the conventional combat position of the military unit in the village of Chagaduz. On that day, at approximately 17:00, they came under fire from weapons of various calibres from Armenian armed persons, as a result of which he sustained an injury to his left wrist.

Volume 81, sheet: 156-159.

According to forensic medical expert opinion No. 1421 dated 29.09.2023, the injury sustained by Hammadli Samir Farhad oglu - a shrapnel wound of the left radiocarpal joint - was caused by fragments formed as a result of the explosion of an explosive projectile and, in terms of severity, is classified as minor harm to health.

Volume 276, sheet: 281-282.

Private Bahram Khamis oglu Suleymanov, an operator of the 3rd section of detachment “F” of a military unit of the Ministry of Defence, who was recognised as a victim and questioned, stated in his testimony that at approximately 13:00 on 19.09.2023 local counter-terrorism

operations began in the territories of the Aghdara, Khojavend and Khojaly districts. He was in the territory of the Khojavend district with the fire-support platoon of detachment “F”, in which he served, and launched an advance in the direction of Khankendi. While in mountainous terrain, at approximately 20:00 on the same day, he sustained an injury as a result of a mortar projectile fired by unlawful Armenian armed formations striking and exploding.

Volume 81, working document: 166-169.

According to forensic medical expert opinion No. 64 dated 25.01.2024, the bodily injuries sustained by Bahram Khamis oglu Suleymanov constitute “sprain of the ligaments of the left ankle joint, multiple abrasions” - “as a result of the impact of a hard blunt object” - and “barotrauma. Astheno-neurotic disorder” - as a result of the impact of the blast wave from the explosion of an explosive projectile; in terms of severity, as a whole, they are classified as minor harm to health.

[Page 1062]

Volume 319, sheet: 186-187.

Private Nurullayev Huseyn Dashgyn oglu, scout-operator of the 2nd group of the 1st platoon of the 5th company of the 2nd battalion of a military unit of the Ministry of Defence, MANHXXHQ, who was recognised and questioned as a victim, stated in his testimony that,

Private Nurullayev Hüseyin Daşqın oglu, scout-operator of the 2nd group of the 1st platoon of the 5th company of the 2nd battalion of a military unit of the Ministry of Defence, MANHXXHQ, who was recognised and questioned as a victim, stated in his testimony that, on 19 September 2023 at approximately 13:00, local counter-terrorism operations began in the territories of the Aghdara, Khojavend and Khojaly districts. On 20 September 2023 at approximately 14:00, he sustained injuries as a result of a projectile fired by unlawful Armenian formations falling nearby and exploding.

Volume 81, working document: 176-179.

According to forensic medical expert opinion No. 1365 dated 29.09.2023, the bodily injuries found on Nurullayev Huseyn Dashgyn oglu, including wounds of the posterior surface of the upper third of the left arm, the posterior surface of the middle third of the right arm and even the metacarpal bones of both hands, were caused by the impact of the blast wave generated by the explosion of an explosive projectile and, both collectively and separately, are classified as minor harm to health.

Volume 369, working sheet: 1-276.

Warrant Officer Abdullayev Aykhan Fakhreddin oglu, commander of the 1st subgroup of the 2nd special-purpose detachment of the 2nd special-means deployment detachment (XVTQ) of the 1st special-means deployment detachment of a military unit of the Internal Troops of

the Ministry of Internal Affairs, who was recognised as a victim and questioned, stated in his statement that at approximately 13:00 on 19.09.2023 local counter-terrorism operations began in the territories of the Aghdara, Khojavend and Khojaly districts. From that day, the relevant brigade of the Internal Troops in which he served began moving in the direction of the city of Shusha, Isa Bulagi (Spring). Approximately 40 minutes later, his brigade was subjected to mortar, artillery and other fire from unlawful Armenian armed formations.

Volume 81, sheet: 186-189.

According to forensic medical expert opinion No. 1376 dated 29.09.2023, the bodily injuries found on Abdullayev Aykhan Fakhreddin oglu constituted a gunshot wound of the right lower leg accompanied by a fracture of the fibula of the right lower leg, barotrauma, as well as the impact of

[Page 1063]

a blast wave generated as a result of the explosion of an explosive projectile, and were classified as causing minor harm to health, both collectively and separately.

Volume 369, sheet: 1-276.

Private Hasanov Ravan Gulbaba oglu, scout-sniper of the 1st group of the 4th platoon of the 5th company of the 2nd battalion of a military unit of the Ministry of Defence, who was recognised and questioned as a victim, stated in his testimony that at approximately 13:00 on 19.09.2023 local counter-terrorism operations began in the territories of the Aghdara, Khojavend and Khojaly districts; from that day, as part of the unit, they were deployed in the territory of the village of Chagaduz in the Khojavend district and began moving from that village towards the road leading to the settlement of Krasny Bazar in that district. At approximately 15:00, as a result of fire opened by unlawful Armenian formations, he sustained injuries to both legs.

Volume 81, working document: 196-199.

According to forensic medical expert opinion No. 1383 dated 29.09.2023, the bodily injuries found on Hasanov Ravan Gulbaba oglu, namely a bullet wound of the right knee joint penetrating into the middle third of the left lower leg, were caused by a shot from a firearm and, both collectively and separately, constitute minor harm to health.

Volume 369, working sheet: 1-276.

Private Aghil Gurban oglu Magerramov, sniper of the 4th group of the 1st platoon of the 4th company of the 2nd battalion of a military unit of the Ministry of Defence, who was recognised as a victim and questioned, stated the following in his testimony: at approximately 13:00 on 19.09.2023 local counter-terrorism operations began in the territories of the Aghdara, Khojavend and Khojaly districts. On the same day at approximately 14:00, position No. 228, belonging to Armenian unlawful formations and located in the territory of the

Khojaly district, was attacked, and after the position was liberated, he sustained an injury to the inner part of the left thigh as a result of fire from Armenian unlawful armed formations from the wooded area to the left of the position.

Volume 81, sheet: 206-209.

According to forensic medical expert opinion No. 1377 dated 29.09.2023, the bodily injuries found on Magerramov Aghil Gurban oglu, namely a gunshot wound of the anterior-inner and posterior surface of the upper third of the left thigh, were caused by a shot from a firearm and, both collectively and separately, are classified as minor harm to health.

Volume 369, sheet: 1-276.

[Page 1064]

Private Gurdaev Ramazan Samir oglu, chief gunner of the 2nd section of the 4th battalion, 2nd company, 2nd platoon of a military unit of the Ministry of Defence, who was recognised and questioned as a victim, stated in his testimony that at approximately 13:00 on 19.09.2023 local counter-terrorism operations began in the territories of the Aghdara, Khojavend and Khojaly districts. He sustained a gunshot wound as a result of fire opened by Armenian armed formations during an attempt to liberate strategic heights located in the territory of the Khojavend district.

Volume 81, sheet: 216-219.

According to forensic medical examination opinion No. 1380 dated 29.09.2023, the bodily injuries sustained by Gurdaev Ramazan Samir oglu - gunshot (bullet) wounds of the chest accompanied by a fracture of the sternum and caused by shots from a firearm - in terms of severity are classified as less serious harm to health.

Volume 276, working sheet: 287.

Serviceman Ahmedov Ravan Javanshir oglu, intelligence operative of the 4th platoon of the 5th company of the 2nd battalion of a military unit of the Ministry of Defence, who was recognised as a victim and questioned, stated in his testimony that at approximately 13:00 on 19.09.2023 local counter-terrorism operations began in the territories of the Aghdara, Khojavend and Khojaly districts. From that day, a group of persons began moving from conventional combat post "19" in the territory of the Khojavend district towards conventional combat post "2-16" of the unlawful Armenian armed formations. At approximately 15:00, he sustained a gunshot wound as a result of fire opened by Armenian armed formations.

Volume 81, sheet: 226-229.

According to forensic medical expert opinion No. 1411 dated 29.09.2023, Ahmedov Ravan Javanshir oglu was found to have wounds on the upper third of the left thigh, the right knee with foreign bodies, the anterior right lateral surface of the chest, the left half of the posterior

surface of the chest, and the anterior surface of the upper third of the right lower leg. A penetrating (non-penetrating) gunshot wound of the right abdominal wall, a shrapnel wound of the upper third of the right lower leg and the left buttock, a penetrating (non-penetrating) gunshot wound of the right abdominal wall, wounds of the anterior right lateral surface of the chest and the left half of the posterior surface of the chest from barotraumatic injuries - wounds of the upper third of the left thigh and anterior surface of the upper third of the right lower leg accompanied by foreign bodies of the right knee, as well as barotrauma - wounds of the upper third of the right lower leg accompanied by foreign

[Page 1065]

bodies, as a result of the explosion of an explosive projectile, as well as barotrauma - wounds of the upper third of the right lower leg accompanied by foreign bodies, as a result of the explosion of an explosive projectile, are, as a rule, classified as less serious harm to health.

Volume 276, working sheet: 267-268.

Junior Sergeant Abushov Tebriz Sarkhad oglu, commander of the mortar group of the 4th platoon of the 5th company of the 2nd battalion of a military unit of the Ministry of Defence, who was recognised and questioned as a victim, stated in his testimony that at approximately 13:00 on 19.09.2023 local counter-terrorism operations began in the territories of the Aghdara, Khojavend and Khojaly districts and, from that time, while moving as part of a group towards the Khojavend district, he sustained a gunshot wound as a result of fire opened by Armenian armed formations.

Volume 81, sheet: 236-239.

According to forensic medical expert opinion No. 1379 dated 29.09.2023, the bodily injuries found on Abushov Tebriz Sarkhad oglu, namely a gunshot wound penetrating into the abdominal cavity with rupture of the left lobe of the liver and accompanied by a gunshot wound, were caused by a firearm and, in terms of severity, are classified as minor harm to health.

Volume 369, sheet: 1-276.

Soldier Usubov Araz Afis oglu, excavator operator of the engineering and road unit of a military unit of the Ministry of Defence, who was recognised as a victim and questioned, stated in his testimony that at approximately 13:00 on 19 September 2023 local counter-terrorism operations began in the territories of the Aghdara, Khojavend and Khojaly districts. At approximately 17:00 on 19 September 2023, as a result of the explosion of a projectile fired by unlawful Armenian armed formations in the territory of the Khojavend district, two servicemen were killed and other servicemen sustained injuries. He sustained multiple shrapnel wounds to the legs and neck.

Volume 81, working document: 246-249.

According to forensic medical expert opinion No. 1645 dated 20.10.2023, the bodily injuries sustained by Usubov Araz Afis oglu - shrapnel wounds of the parietal region, the lobe of the left ear, the left half of the neck, the lateral surface of the projection of the left elbow joint, the right gluteal region and the upper third of both thighs, as well as the diagnosis made at Goychay District Central Hospital on 28.09.2023, "Tension, headaches, post-traumatic encephalopathy" - were caused both by the impact of a blast wave and by fragments formed as a

[Page 1066]

result of the explosion of an explosive projectile, while the incised wound of the anterior surface of the right knee joint was caused by the impact of a hard blunt object and, in terms of severity, as a whole, is classified as minor harm to health.

Volume 369, working sheet: 1-276.

Junior Sergeant Aliyev Arzu Jafar oglu, scout-officer of the 2nd group of the 3rd operational platoon of the 2nd operational section of the 1st operational battalion of a military unit of the Ministry of Defence, who was recognised as a victim and questioned, stated in his testimony that at approximately 13:00 on 19.09.2023 local counter-terrorism operations began in the territories of the Aghdara, Khojavend and Khojaly districts. While carrying out a task to clear strategic heights in the Khojavend district of terrorists at approximately 18:00 on the same day, he sustained a penetrating bullet wound of the left arm as a result of fire opened by Armenian armed formations.

Volume 81, working sheet: 256-259.

According to forensic medical expert opinion No. 1610 dated 20.10.2023, the bodily injury sustained by Aliyev Arzu Jafar oglu - a grazing wound in the area of the left forearm - was caused by the impact of a bullet (projectile) fired from a firearm and, in terms of severity, is classified as minor harm to health.

Volume 369, working sheet: 1-276.

Warrant Officer Manafov Fariz Hafiz oglu, deputy commander of the 1st platoon of the 10th company of the 4th battalion of a military unit of the Ministry of Defence, who was recognised as a victim and questioned, stated in his testimony that at approximately 13:00 on 19.09.2023 local counter-terrorism operations began in the territories of the Aghdara, Khojavend and Khojaly districts. On the same day at approximately 18:00, he sustained two penetrating bullet wounds in the area of the left shoulder as a result of shots fired by Armenian armed formations in the territory of the Khojavend district.

Volume 81, working document: 266-269.

According to forensic medical expert opinion No. 1587 dated 20.10.2023, the bodily injuries sustained by Manafov Fariz Hafiz oglu - penetrating wounds of the upper third of the left arm

- were caused by fragments formed as a result of the explosion of an explosive projectile and, in terms of severity, are classified as minor harm to health.

Volume 350, sheet: 208-209.

[Page 1067]

Lieutenant Khalilov Haji Elkhanoğlu, commander of the 2nd operational platoon of the 5th operational unit of the 2nd operational battalion of a military unit of the Ministry of Defence, who was recognised as a victim and questioned, stated in his testimony that at approximately 13:00 on 19.09.2023 local counter-terrorism operations began in the territories of the Aghdara, Khojavend and Khojaly districts. On the same day at approximately 15:00, he sustained a penetrating gunshot wound of the right arm as a result of shots fired by Armenian armed formations in the territory of the Khojavend district.

Volume 81, sheet: 277-280.

According to forensic medical expert opinion No. 1569 dated 20.10.2023, the bodily injuries sustained by Khalilov Haji Elkhanoğlu - a penetrating bullet wound of the left arm accompanied by a haematoma of the right arm and right side - were caused by a gunshot wound from a firearm and, in terms of severity, are classified as less serious harm to health.

Volume 369, sheet: 1-276.

Soldier Sadyg Murad Rashid oğlu, scout-sniper of the 1st group of the 1st platoon of the 6th operational unit of the 2nd operational battalion of a military unit of the Ministry of Defence, who was recognised as a victim and questioned, stated in his statement that at approximately 21:00 on 19.09.2023, while participating in local counter-terrorism operations in the village of Garabulag in the Khojaly district, a hand grenade thrown by unlawful Armenian armed formations fell and exploded near him, as a result of which he sustained shrapnel wounds to the right arm.

Volume 31, working sheet: 7-10.

According to forensic medical examination opinion No. 1629 dated 20.10.2023, the bodily injuries sustained by Sadyg Murad Rashid oğlu - two blind wounds of the soft tissues of the right arm and a small first- to second-degree thermal burn wound in the area of the left arm - were caused by the explosion of a firearm projectile, caused by the impact of the flame present and the blast wave, and according to their degrees are ordinarily classified as minor harm to health.

Volume 369, working sheet: 1-276.

Private Nabiyev Amir Abdul oğlu, scout of the 3rd group of the 5th company of the 2nd operational battalion of a military unit of the Ministry of Defence, who was recognised as a victim and questioned, stated in his testimony that at approximately 16:00 on 19.09.2023,

while participating in local counter-terrorism operations in the Khojavend district, one of the bullets fired by unlawful armed formations of Armenia struck him in

[Page 1068]

the left leg below the knee, another struck his left leg above the knee, and another grazed his right shoulder.

Volume 31, working sheet: 17-20.

According to forensic medical examination opinion No. 1579 dated 20.10.2023, the bodily injuries of Nabiyeu Amir Abdul oglu - a penetrating wound of the soft tissues of the left lower leg - resulted from a bullet (projectile) fired from a firearm which, due to its degree, caused a prolonged deterioration of health, and was classified as less serious harm to health.

Volume 369, working sheet: 1-276.

Serviceman Azizov Fagan Tayyub oglu, medical orderly-machine gunner of the 1st section of the 2nd platoon of the 5th company of the 2nd operational battalion of a military unit of the Ministry of Defence, who was recognised as an injured party and questioned, stated in his testimony that at approximately 18:00 on 19.09.2023, while participating in local counter-terrorism operations, he was wounded in the right arm by a bullet fired by unlawful Armenian armed formations from the territory of the Khach post on the Shusha-Khankendi road.

Volume 31, sheet: 27-30.

According to forensic medical expert opinion No. 1578 dated 20.10.2023, the bodily injury sustained by Azizov Fagan Tayyub oglu - a penetrating gunshot wound of the upper middle third of the right arm accompanied by haemorrhage in the region of the forearm, elbow and shoulder joints of the right upper extremity - was caused by a gunshot wound from a firearm and, in terms of severity, is classified as less serious harm to health.

Volume 369, working sheet: 1-276.

Private Huseynov Ibrahim Asadullah oglu, scout-grenade launcher of the 2nd platoon of the 5th company of the 2nd operational battalion of a military unit of the Ministry of Defence, whose identity was established and who was questioned as an injured party, stated in his testimony that at approximately 14:00 on 19 September 2023, while participating in local counter-terrorism operations in the Khojavend district, he sustained a shrapnel wound of the left arm as a result of a projectile fired from artillery pieces and mortars of various calibres by unlawful Armenian armed formations exploding nearby.

Volume 31, working sheet: 36-39.

According to forensic medical expert opinion No. 1606 dated 20.10.2023, it was established that the injury sustained by Huseynov Ibrahim Asadullah oglu - a wound of the middle 1/3 of the left side - was formed as a result of the impact of fragments in

[Page 1069]

the explosion of an explosive projectile and, in terms of severity, is classified as minor harm to health.

Volume 369, sheet: 1-276.

Private Mahmudov Magomed Bahruz oglu, grenade launcher operator of the 1st section of the 4th company of the 2nd operational battalion of a military unit of the Ministry of Defence, whose identity was established and who was questioned as a victim, stated in his statement that at approximately 14:00 on 19 September 2023, while participating in local counter-terrorism operations in the Khojavend district, as a result of shots fired by unlawful Armenian armed formations, he was struck in the back by one of the bullets.

Volume 31, working sheet: 45-48.

According to forensic medical expert opinion No. 1595 dated 20.10.2023, the injury sustained by Mahmudov Magomed Bahruz oglu - a penetrating wound of the left shoulder - was caused by a gunshot wound and, in terms of severity, is classified as less serious harm to health.

Volume 350, sheet: 222-223.

Private Geydarov Ruslan Eldar oglu, scout of the 20th company of the 1st battalion of the 1st company of the 1st battalion of a military unit of the Ministry of Defence, who was recognised and questioned as a victim, stated in his statement that at approximately 04:00 on 20.09.2023, during local counter-terrorism operations, as a result of sniper fire opened by unlawful Armenian armed formations while liberating combat positions occupied by terrorists in the direction of the city of Khankendi from the territory of the Khojavend district, he sustained an injury to the right shoulder.

Volume 31, working sheet: 55-58.

According to forensic medical expert opinion No. 1623 dated 20.10.2023, the injury sustained by Geydarov Ruslan Eldar oglu - a penetrating bullet wound of the upper third of the shoulder - was caused by a gunshot wound from a firearm and, in terms of severity, is classified as minor harm to health.

Volume 369, working sheet: 1-276.

Junior Sergeant Isparzade Agil Ramazan oglu, scout of the 1st company of the 3rd platoon of the 1st company of the 1st battalion of a military unit of the Ministry of Defence, who was

recognised and questioned as a victim, stated in his statement that at approximately 04:00 on 19 September 2023, during local counter-terrorism operations, he was wounded as a result of sniper fire opened by unlawful Armenian armed formations while liberating combat positions

[Page 1070]

occupied by terrorists in the direction of the city of Khankendi from the territory of the Khojavend district.

Volume 31, working sheet: 75-78.

According to forensic medical expert opinion No. 1614 dated 20.10.2023, the bodily injuries sustained by Ispazade Agil Ramazan oglu - multiple wounds in the area of the left knee and lower leg, as well as "Closed craniocerebral injury. Concussion. Barotrauma", diagnosed at Goychay Central District Hospital on 21.09.2023 - were caused by the impact of fragments and a blast wave formed upon the explosion of an explosive projectile and firing from a firearm and, in terms of severity, are classified as minor harm to health.

Volume 369, working sheet: 1-276.

Warrant Officer Dostiyev Mirhuseyn Gafar oglu, commander of the 3rd technical-observation group of a military unit of the Ministry of Defence, who was recognised and questioned as a victim, stated in his testimony that at approximately 18:00 on 19 September 2023, while participating in local counter-terrorism operations, as a result of sniper fire opened by unlawful Armenian armed formations while liberating combat positions occupied by terrorists from the territory of the Khojavend district in the direction of the city of Khankendi, he sustained a bullet wound to the right leg.

Volume 31, working sheet: 65-68.

According to forensic medical expert opinion No. 1620 dated 20.10.2023, the bodily injury sustained by Dostiyev Mirhuseyn Gafar oglu - a penetrating bullet wound of the right humeral bone - was caused by a gunshot wound from a firearm and, in terms of severity, is classified as less serious harm to health.

Volume 369, working sheet: 1-276.

Warrant Officer Ismailov Ibad Gubad oglu, commander of the support platoon of a military unit of the Ministry of Defence, whose identity was established and who was questioned as an injured party, stated in his testimony that at approximately 04:00 on 20.09.2023, during local counter-terrorism operations, he sustained a bullet wound to the right leg as a result of sniper fire opened by unlawful Armenian armed formations when they were liberating combat positions occupied by terrorists in the direction of the city of Khankendi from the territory of the Khojavend district.

[Page 1071]

Volume 31, working sheet: 85-88.

According to forensic medical examination opinion No. 1651 dated 20.10.2023, the injury sustained by Ismailov Ibad Gubad oglu — a penetrating wound of the soft tissues of the right thigh — resulted from the impact of a bullet (projectile) fired from a firearm and, in terms of severity, is classified as less serious harm to health.

Volume 369, working sheet: 1-276.

Private Rahimov Geydar Nasraddin oglu, grenade launcher operator of the 1st group of the 1st platoon of the 4th company of the 2nd battalion of a military unit of the Ministry of Defence, who was recognised as a victim and questioned, stated in his testimony that on 19 September 2023, at approximately 14:00, while participating in local counter-terrorism operations in the Khojavend district, as a result of fire opened by unlawful Armenian armed formations, Private Suleymanli Huseyn was wounded, and while evacuating him from the battlefield, he himself sustained injuries to the right shoulder and right rib.

Volume 31, working sheet: 95-98.

According to forensic medical examination opinion No. 1628 dated 20.10.2023, the injury sustained by Rahimov Geydar Nasraddin oglu — a blind bullet wound in the area of the right shoulder, accompanied by an extensive haematoma covering the posterior-inner surface of the right shoulder, the right half of the chest and the right half of the abdomen — was sustained as a result of a gunshot wound from a firearm and, in terms of severity, is classified as less serious harm to health.

Volume 369, working sheet: 1-276.

Serviceman Nabiyeu Shamsi Magomed oglu, a medic of the 3rd section of the 3rd platoon of detachment “F” of a military unit of the Ministry of Defence, who was recognised as a victim and questioned, stated in his statement that on 19.09.2023, at approximately 23:30, while participating in local counter-terrorism operations in the territory of the settlement of Gyrgyzy-Bazar in the Khojavend district, as a result of the explosion of a projectile fired by unlawful Armenian armed formations, he sustained shrapnel wounds to the right leg and a craniocerebral injury.

Volume 31, working sheet: 105-108.

According to forensic medical expert opinion No. 61 dated 25.01.2024, the injury sustained by Nabiyeu Shamsi Magomed oglu — barotrauma — was caused by

[Page 1072]

the impact of a blast wave generated by the explosion of any explosive substance and, in terms of severity, is classified as minor harm to health.

Volume 319, working sheet: 198-199.

Sergeant Abbasov Jeyhun Enver oglu, commander of the 1st section of the 1st platoon of the MTT of the 1st platoon of a military unit of the Ministry of Defence, who was recognised as a victim and questioned, stated in his testimony that on 19.09.2023, while participating in local counter-terrorism operations, at approximately 14:00, while travelling as part of a convoy of trucks delivering cargo in the direction of the village of Shakhbulag in the Aghdam district, one of the projectiles fired by unlawful Armenian armed formations from “Grad” installations and other weapons of various calibres struck and exploded on a “MAZ” vehicle, as a result of which he sustained a shrapnel wound to the chest and was thrown a distance of 3 metres.

Volume 31, working sheet: 114-117.

According to forensic medical examination opinion No. 1572 dated 20.10.2023, the bodily injuries sustained by Abbasov Jeyhun Anvar oglu — a blind shrapnel wound of the left half of the chest and “closed craniocerebral injury”, diagnosed at the Aghjabadi District Central Hospital on 22.09.2023 — were caused both by the impact of a blast wave and by fragments formed as a result of the explosion of an explosive projectile and, in terms of severity, are classified overall as less serious harm to health.

Volume 369, working sheet: 1-276.

Junior Sergeant Suleymanov Samir Alesker oglu, scout-inspector of the 2nd group of the 1st platoon of the 5th company of the 2nd battalion of a military unit of the Ministry of Defence, who was recognised and questioned as an injured party, stated in his statement that on 20.09.2023 at approximately 14:00, while participating in local counter-terrorism operations, he sustained an injury as a result of shelling opened by unlawful Armenian armed formations from positions in the Khojaly district.

Volume 31, working sheet: 123-126.

According to forensic medical examination opinion No. 1613 dated 20.10.2023, the bodily injuries sustained by Suleymanov Samir Alesker oglu — blind shrapnel wounds of the upper-lateral quadrant of the left gluteal region and the lower-lateral quadrant of the right gluteal region, accompanied by a haematoma involving the lower-lateral quadrant of the left gluteal region and the posterior-lateral surface of the upper third of the left thigh — resulted from the impact of fragments formed as a result of the explosion of an explosive projectile and are ordinarily classified as minor harm to health.

[Page 1073]

Volume 369, working sheet: 1-276.

Junior Sergeant Khudulov Jeyhun Shabanovich, scout of the 1st group of the 3rd platoon of the 3rd company of the 1st battalion of a military unit of the Ministry of Defence, who was

recognised as a victim and questioned, stated in his testimony that on 19.09.2023, at approximately 14:00, while participating in local counter-terrorism operations, as a result of sniper fire opened by unlawful Armenian armed formations during fighting at positions in the village of Chanagchi in the Khojaly district, soldiers Aliyev Ramin Shakir oglu and Rizvan Ahmedov were wounded in the right ear. At the same time, soldiers Aliyev Ramin Shakir oglu and Rizvan Ahmedov were killed.

Volume 31, working sheet: 132-135.

According to forensic medical expert opinion No. 1603 dated 20.10.2023, the injury sustained by Khudulov Jeyhun Shabanovich — a penetrating bullet wound of the lobe of the left ear — was caused by a gunshot wound inflicted from a firearm and, in terms of severity, is classified as minor harm to health.

Volume 369, working sheet: 1-276.

Junior Sergeant Aslanov Farid Rafik oglu Aslanov, a scout-grenade launcher of a military unit of the Ministry of Defence, whose identity was established and who was questioned as an injured party, stated in his testimony that on 19 September 2023, at approximately 14:00, during local counter-terrorism operations, he sustained an injury as a result of shots fired by unlawful Armenian armed formations during fighting at positions in the Khojaly district.

Volume 31, working sheet: 141-144.

According to forensic medical examination opinion No. 1612 dated 20.10.2023, it was established that the bodily injuries sustained by Aslanov Farid Rafik oglu — a penetrating shrapnel wound of the middle third of the right lower leg, accompanied by traumatic neuropathy of the right ulnar nerve, caused by fragment(s) from the explosion of an explosive projectile, and a lacerated wound of the middle third of the left lower leg, caused by a hard blunt object — are classified as minor harm to health.

Volume 369, working sheet: 1-276.

Soldier Abbasov Elvin Elchin oglu, senior gunner of the 1st section of the 3rd platoon of the 4th company of the 2nd battalion of a military unit of the Ministry of Defence, who was recognised as a victim and questioned, stated in his testimony that on 19.09.2023, at approximately 14:00, while participating in local counter-terrorism operations in the Khojavend district, he was wounded in the left lower leg by a shot from a “PK” fired by unlawful Armenian armed formations.

[Page 1074]

Volume 31, working sheet: 150-153.

On the basis of forensic medical expert opinion No. 1607 dated 20.10.2023, it was established that the injury sustained by Abbasov Elvin Elchin oglu — a bullet wound

affecting the soft tissues of the upper third of the left lower leg — was caused by a gunshot wound and, in terms of severity, is classified as minor harm to health.

Volume 369, working sheet: 1-276.

Private Musazade Ilkin Fuzuli oglu, commander of the 1st platoon of the 4th company of the 2nd battalion of a military unit of the Ministry of Defence, who was recognised as a victim and questioned, stated in his testimony that on 19.09.2023, at approximately 14:00, while participating in local counter-terrorism operations in the Khojavend district, he was wounded as a result of shelling by unlawful armed formations of Armenia.

Volume 31, working sheet: 15-162.

According to forensic medical expert opinion No. 1598 dated 20.10.2023, the bodily injuries sustained by Musazade Ilkin Fuzuli oglu — a penetrating wound of the left hand accompanied by an open fracture of the first metacarpal bone of the right hand — were caused by a gunshot wound and are classified as minor harm to health.

Volume 350, working sheet: 228-229.

Junior Sergeant Zulfugarov Beyrak Fuzuli oglu, scout-radio operator of the 3rd platoon of the 2nd company of the 1st battalion of a military unit of the Ministry of Defence, who was recognised as a victim and questioned, stated in his testimony that on 19.09.2023, at approximately 14:00, while participating in local counter-terrorism operations, during fighting at the 6th positional sector of the Khojavend district, he was wounded in the left arm as a result of shots from an automatic weapon fired by unlawful Armenian armed formations.

Volume 31, working sheet: 168-171.

According to forensic medical examination opinion No. 1593 dated 20.10.2023, the bodily injuries sustained by Zulfugarov Beyrak Fuzuli oglu — a blind bullet wound of the lower third of the right shoulder — resulted from a gunshot wound, while the diagnosis of “post-traumatic post-concussion syndrome”, made at the Goychay District Central Hospital on 26.09.2023, was caused by the impact of a blast wave resulting from the explosion of an explosive projectile and, in terms of severity, is classified as less serious harm to health.

Volume 350, working sheet: 218-219.

[Page 1075]

Private Imranzade Salman Aydin oglu of the engineering-fortification unit of a military unit of the Ministry of Defence, whose identity was established and who was questioned as a victim, stated in his testimony that on 19 September 2023, at approximately 14:00, while participating in local counter-terrorism operations, as a result of shots fired by unlawful Armenian armed formations during fighting in the Khojavend district, a bullet entered the anterior part of his left thigh, passed through it and exited from the rear, wounding him.

Volume 31, working sheet: 177-180.

According to forensic medical expert opinion No. 1576 dated 20.10.2023, the bodily injuries sustained by Imranzade Salman Aydin oglu — a penetrating gunshot wound in the area of the left buttock — were caused by a gunshot wound from a firearm. The diagnosis of “barotrauma” was made at the Goychay Central District Hospital on 21.09.2023. It was caused by the impact of a blast wave resulting from the explosion of an explosive projectile and, as a whole, is classified as less serious harm to health.

Volume 369, working sheet: 1-276.

Private Isaev Alim Natig oglu, the 3rd grenade launcher operator of the 3rd platoon of the 12th company of the 4th battalion of a military unit of the Ministry of Defence, who was established as a victim and questioned, stated in his testimony that on 19.09.2023, while participating in local counter-terrorism operations, at approximately 14:00, he came under mortar fire from unlawful Armenian armed formations during hostilities in the locality of Gelingaya in the Aghdam district and sustained a shrapnel wound to the left armpit.

Volume 31, working sheet: 186-189.

According to forensic medical expert opinion No. 1588 dated 20.10.2023, the injury sustained by Isaev Alim Natig oglu — a wound of the lower third of the left lower leg — was caused by a shrapnel wound resulting from the explosion of an explosive projectile and, in terms of severity, is classified as minor harm to health.

Volume 350, working sheet: 210-211.

Lieutenant Almadedov Kenan Azer oglu, commander of the 1st platoon of the 6th company of the 2nd battalion of a military unit of the Ministry of Defence, who was recognised as a victim and questioned, stated in his testimony that on 19.09.2023, at approximately 14:00, while participating in local counter-terrorism operations in the Khojavend district, he sustained a shrapnel wound of the lower leg of the left leg as a result of one of the projectiles fired from a mortar by unlawful Armenian armed formations falling approximately 10 metres from him and exploding.

Volume 31, working sheet: 195-198.

[Page 1076]

According to forensic medical examination opinion No. 1617 dated 20.10.2023, the injuries sustained by Almadedov Kenan Azer oglu — a blind shrapnel wound of the middle third of the left lower leg and the diagnosis of “closed craniocerebral injury, concussion”, made at the Central District Hospital of the Goychay district on 21.09.2023 — were caused both by the impact of a blast wave and by fragments formed as a result of the explosion of an explosive projectile and, as a whole, are classified as minor harm to health.

Volume 369, working sheet: 1-276.

Private Gummetzade Ahmed Sherkhan oglu, rifleman of the 1st platoon of the 4th company of the 2nd battalion of a military unit of the Ministry of Defence, whose identity was established and who was questioned as an injured party, stated in his statement that on 19 September 2023, at approximately 14:00, while participating in local counter-terrorism operations in the Khojavend district, as a result of fire from automatic weapons by unlawful Armenian armed formations, he sustained gunshot wounds to the right arm and right leg.

Volume 31, working sheet: 204-207.

According to forensic medical examination opinion No. 1594 dated 20.10.2023, the bodily injuries sustained by Gummetzade Ahmed Sekhran oglu — penetrating gunshot wounds of the lower third of the right thigh with a partially avulsed fracture of the outer surface of the upper third of the right phalanx and the distal third of the right femur — were caused by a firearm and, depending on their degree, are considered serious harm to overall health.

Volume 350, working sheet: 220-221.

Private Jabbarov Seyfaddin Giasaddin oglu, commander of the machine-gun section of the 5th platoon of the 2nd detachment of a military unit of the Ministry of Defence, who was recognised as a victim and questioned, stated in his testimony that on 19.09.2023, at approximately 14:00, while participating in local counter-terrorism operations in the village of Chanagchi in the Khojaly district, one of the projectiles fired from a mortar by unlawful Armenian armed formations fell 2 metres from him and exploded. The blast wave threw him 3 metres, and he also sustained a shrapnel wound to the right leg.

Volume 31, working sheet: 213-216.

According to forensic medical examination opinion No. 711 dated 24.04.2024, it was established that the bodily injuries sustained by Jabbarov Seyfaddin Giasaddin oglu — condition after primary surgical treatment of a wound

[Page 1077]

caused by a shrapnel wound of the middle third of the anterior surface of the right lower leg. Blast injury. Condition after acute left-sided cochlear neuritis — were caused by the impact of a primary or secondary fragment, including the blast wave formed upon the explosion of any explosive substance, and, in terms of severity, are classified as minor harm to health.

Volume 369, working sheet: 1-276.

Private Verdiyev Orkhan Niyameddin oglu, rifleman of the 3rd section of the 3rd platoon of the 10th company of the 4th battalion of a military unit of the Ministry of Defence, who was recognised and questioned as a victim, stated in his testimony that on 19.09.2023, at approximately 14:00, while participating in local counter-terrorism operations, during

fighting at positions in the Khojavend district, one of the projectiles fired from a mortar by unlawful Armenian armed formations exploded 20 metres from him, as a result of which he sustained shrapnel wounds to the left and right arms, right leg and head.

Volume 31, working sheet: 231-234.

According to forensic medical examination opinion No. 1626 dated 20.10.2023, the bodily injuries sustained by Verdiyev Orkhan Niyameddin oglu — wounds of the right temple, the right half of the neck, the tip of the nose, the anterior surface of the right shoulder, the upper third of both cheeks and the lower third of the left thigh — were caused by fragments from the explosion of an explosive projectile and are classified as minor bodily injuries.

Volume 369, working sheet: 1-276.

Private Veisov Yusif Ziyareddin oglu, a serviceman of the reconnaissance detachment of the 3rd platoon of detachment “F” of a military unit of the Ministry of Defence, who was recognised as a victim and questioned, stated in his testimony that on 19.09.2023, at approximately 14:00, while participating in local counter-terrorism operations, he sustained a shrapnel wound of the kneecap as a result of one of the projectiles fired from a mortar by unlawful Armenian armed formations during fighting at positions in the village of Chanagchi in the Khojaly district falling 20 metres from him and exploding.

Volume 31, working sheet: 240-243.

According to forensic medical examination opinion No. 67 dated 25.01.2024, the bodily injuries sustained by Veisov Yusif Ziyareddin oglu — condition after primary surgical treatment of a wound following a shrapnel injury to the anterior surface of the left knee, foreign body in the soft tissues (metal fragment) — arise as a result of the impact of primary or secondary fragments

[Page 1078]

formed during the explosion of any explosive substance and, in terms of their danger to health, are classified as insignificant.

Volume 319, working sheet: 174-175.

Soldier Shukurov Gismet Shukur oglu, grenade launcher operator of the 3rd section of the 2nd platoon of the 5th company of the 2nd battalion of a military unit of the Ministry of Defence, who was recognised as a victim and questioned, stated in his testimony that on 19.09.2023, at approximately 14:00, while participating in local counter-terrorism operations, he sustained a shrapnel wound to the right leg as a result of one of the projectiles fired from a mortar by unlawful Armenian armed formations during fighting at positions located in the Shusha direction falling 10 metres from him and exploding.

Volume 31, working sheet: 249-252.

According to forensic medical expert opinion No. 1624 dated 20.10.2023, Shukurov Kismet Shukur oglu was diagnosed at the Goychay District Central Hospital on 21.09.2023 with “Shrapnel wound of the lower third of the right lower leg. Closed craniocerebral injury, concussion”, sustained both as a result of the impact of a blast wave and as a result of fragments formed following the explosion of an explosive projectile. Multiple abrasions on both lower legs were caused by a hard blunt object, and their severity as a whole indicates insignificant harm to health.

Soldier Rustamov Mammadtagi Mubariz oglu, rifleman of the 3rd platoon of the 11th company of the 4th battalion of a military unit of the Ministry of Defence, who was recognised as a victim and questioned, stated in his testimony that on 20.09.2023, at approximately 08:00-09:00, while participating in local counter-terrorism operations, during fighting at positions located in the direction of the Fuzuli district, one of the projectiles fired by unlawful Armenian armed formations exploded 3-4 metres from them, as a result of which he sustained shrapnel wounds to the left arm and the hand of the left arm.

Volume 25, working sheet: 16-19.

According to forensic medical expert opinion No. 890 dated 28.09.2023, the bodily injuries sustained by Rustamov Mammadtagi Mubariz oglu — blind shrapnel wounds of the lower third of the left palm, the dorsal side of the hand and the base of the nose — were formed as a result of the impact of primary or secondary fragments generated by the explosion of some explosive substance and, in terms of severity, are classified overall as minor harm to health.

Volume 276, working sheet: 264-265.

[Page 1079]

Soldier Sattarov Mirgaribaga Mirazim oglu, a member of the 1st machine-gun section of the combat-support platoon, ammunition carrier, of the 1st battalion of a military unit of the Ministry of Defence, who was recognised as a victim and questioned, stated in his statement that on 19.09.2023, at approximately 14:00, while participating in local counter-terrorism operations during fighting in the direction of the village of Mutarkend in the Khojavend district, he was wounded in the back as a result of sniper fire from unlawful Armenian armed formations.

Volume 25, working sheet: 24-27.

According to forensic medical expert opinion No. 891 dated 28.09.2023, the injury sustained by Sattarov Mirgaribaga Mirazim oglu — a penetrating gunshot bullet wound entering the right buttock and exiting in the lumbar region — was caused by at least one shot from a firearm and, in terms of severity, is classified as minor harm to health.

Volume 276, working sheet: 261-262.

Junior Sergeant Allakhverdiyev Asaf Arzuman oglu, medical reconnaissance officer of the 2nd platoon of the 6th company of the 2nd battalion of a military unit of the Ministry of Defence, who was recognised as a victim and questioned, stated in his testimony that on 20.09.2023, at approximately 10:00, while participating in local counter-terrorism operations, he sustained multiple shrapnel wounds to the right arm, right thigh and left lower leg as a result of the explosion of a mortar projectile fired by unlawful Armenian armed formations nearby during fighting in the direction of the village of Garadaghly in the Khojavend district.

Volume 25, working sheet: 32-35.

According to forensic medical examination opinion No. 893 dated 28.09.2023, the bodily injuries sustained by Allakhverdiyev Asaf Arzuman oglu — blind shrapnel wounds of the right arm, elbow, buttocks and lower leg — arose as a result of the impact of primary or secondary fragments formed upon the explosion of any explosive substance and, in terms of their degree, as a rule, are classified as insignificant harm to health.

Volume 276, working sheet: 227-229.

Soldier Alekperov Nasimi Mekhti oglu, machine gunner of the 1st platoon of the 5th company of the 2nd battalion of a military unit of the Ministry of Defence, who was recognised as a victim and questioned, stated in his testimony that on 20.09.2023, at approximately 11:00-12:00, while participating in local counter-terrorism operations, he sustained an injury as a result of the explosion of a hand grenade thrown by unlawful Armenian armed

[Page 1080]

formations during fighting in the direction of Khankendi from positions located in the city of Shusha.

Volume 25, working sheet: 48-52.

According to forensic medical expert opinion No. 889 dated 28.09.2023, the injury sustained by Alekperov Nasimi Mekhti oglu — a penetrating bullet wound of the left lower leg — was caused as a result of at least one shot from a firearm and, in terms of severity, is classified as minor harm to health.

Volume 276, working sheet: 239-240.

Soldier Javadov Mehman Alamdar oglu, scout and fortification engineer of the 3rd group of the 4th company of the 2nd battalion of a military unit of the Ministry of Defence, who was recognised as a victim and questioned, stated in his testimony that on 19.09.2023, at approximately 15:00, during an attack on terrorist positions named “Tekereh” (Wheel) in the direction of the Khojavend district, he sustained a contusion as a result of the explosion of a “Fagot” anti-tank guided missile fired by unlawful Armenian armed formations at a distance of approximately 3 metres.

Volume 25, working sheet: 57-61.

According to forensic medical expert opinion No. 899 dated 28.09.2023, the injury sustained by Javadov Mehman Alamdar oglu — a penetrating bullet wound of the outer surface of the lower third of the right thigh — was caused by at least one shot from a firearm and, in terms of severity, is classified as minor harm to health.

Volume 276, working sheet: 249-250.

Soldier Bayramov Javid Agil oglu, scout-gunner of the 1st group of the 2nd company of the 1st battalion of a military unit of the Ministry of Defence, who was recognised as a victim and questioned, stated the following in his testimony: on 19.09.2023, at approximately 18:00, during an attack on terrorist positions named “Teker” in the direction of the Khojavend district, he sustained a bullet wound to the left arm as a result of sniper fire by unlawful Armenian armed formations.

Volume 25, working sheet: 66-69.

According to forensic medical expert opinion No. 896 dated 28.09.2023, the bodily injury sustained by Bayramov Javid Agil oglu — a penetrating gunshot bullet wound of the left hand — was caused by a shot from a firearm loaded with a live bullet and, in terms of severity, is classified as minor harm to health.

Volume 297, working sheet: 8-9.

[Page 1081]

Private Ibrahimov Ali Ilgar oglu, sniper of the 2nd section of the 1st platoon of the 10th company of the 4th battalion of a military unit of the Ministry of Defence, who was recognised as a victim and questioned, stated the following in his testimony: on 19.09.2023, at approximately 16:00, during local counter-terrorism operations in the Khojavend district, as a result of automatic weapons fire by unlawful Armenian armed formations during an attack on a terrorist position referred to as “Landmark 1”, he sustained a gunshot wound in the area of the elbow of his right arm.

Volume 25, working sheet: 74-78.

According to forensic medical expert opinion No. 897 dated 28.09.2023, the injury sustained by Ibrahimov Ali Ilgar oglu — a penetrating gunshot (bullet) wound in the area of the right elbow — was caused by at least one shot from a firearm and, in terms of severity, is classified as minor harm to health.

Volume 276, working sheet: 246-247.

Private , scout-grenade launcher of the 1st company of the 3rd platoon of the 4th company of the 2nd battalion of a military unit of the Ministry of Defence, who was recognised as a

victim and questioned, stated in his testimony that on 20.09.2023, at approximately 07:00, during local counter-terrorism operations in the direction of the Khojavend district, terrorists attacked the positions “Bayrag” and “Teker”, and as a result of the explosion near them of a “Fagot” anti-tank guided missile fired by unlawful Armenian armed formations, he sustained shrapnel wounds to the right and left legs.

Volume 25, working sheet: 83-87.

According to forensic medical expert opinion No. 894 dated 28.09.2023, the bodily injuries sustained by Amiraslanov Gyulyuoghlan Murad oglu — multiple blind shrapnel wounds of both lower extremities — were formed as a result of the impact of primary or secondary fragments generated by the explosion of some explosive substance and, in terms of severity, are classified as minor harm to health.

Volume 276, working sheet: 252-253.

Private Veisov Parviz Rasul oglu, commander of the mortar group of the 2nd platoon of the 2nd company of the 1st battalion of a military unit of the Ministry of Defence, who was recognised as a victim and questioned, stated in his testimony that on 19 September 2023, at approximately 18:00, during local counter-terrorism operations in the direction of the Khojavend district, he sustained a shrapnel wound to the right leg as a result of

[Page 1082]

fire opened by unlawful armed formations of Armenia during an attack on terrorist positions named “Bayrag” and “Teker”.

Volume 25, working sheet: 100-103.

According to forensic medical expert opinion No. 895 dated 28.09.2023, the injury sustained by Veisov Parviz Rasul oglu — a penetrating bullet gunshot wound of the left leg — was caused by a shot from a firearm loaded with a bullet cartridge and is classified as minor harm to health.

Volume 297, working sheet: 11-12.

Soldier Malikov Nikhat Etibar oglu, scout-grenade launcher of the 3rd group of the 2nd division of the 1st battalion of a military unit of the Ministry of Defence, who was recognised as a victim and questioned, stated in his testimony that on 19.09.2023, at approximately 18:00, during local counter-terrorism operations in the direction of the Khojavend district, he sustained a shrapnel wound to the left arm as a result of fire opened by unlawful armed formations of Armenia during an attack on terrorist positions named “Bayrag” and “Teker”.

Volume 25, working sheet: 108-112.

According to forensic medical examination opinion No. 888 dated 28.09.2023, the bodily injury sustained by Malikov Nikhat Etibar oglu — a penetrating gunshot (bullet) wound of the middle third of the left lower leg with a soft-tissue defect, caused by at least one shot from a firearm — had no degree of severity determined, since the injury did not result in harm to health.

Volume 276, working sheet: 215-216.

Soldier Aliyev Sadi Salekh oglu, an intelligence officer of the 1st group of the 6th division of the 2nd battalion of a military unit of the Ministry of Defence, who was recognised as a victim and questioned, stated in his testimony that in the morning of 20 September 2023, during local counter-terrorism operations in the direction of the Khojavend district, he sustained a shrapnel wound to the left elbow as a result of the explosion of a hand grenade thrown by unlawful Armenian armed formations during an attack on terrorist positions named “Teker”.

Volume 25, working sheet: 189-193.

According to forensic medical examination opinion No. 885 dated 28.09.2023, the bodily injuries sustained by Aliyev Sadi Salekh oglu — a shrapnel wound of the left elbow joint; a blind shrapnel wound of the left elbow with a foreign body in the soft tissues — arose as a result of the impact of a primary or

[Page 1083]

secondary fragment formed upon the explosion of some explosive substance and, in terms of severity, are classified as minor harm to health.

Volume 276, working sheet: 230-231.

Private Farziyev Alifandi Mehman oglu, scout-gunner of the 3rd platoon of the 6th company of the 2nd battalion of a military unit of the Ministry of Defence, who was recognised as a victim and questioned, stated in his testimony that in the morning of 20 September 2023, during local counter-terrorism operations in the direction of the Khojavend district, while terrorist positions named “Teker” were being attacked, a “Fagot” anti-tank guided missile fired by unlawful Armenian armed formations exploded nearby. The blast wave threw him into the air and knocked him off his feet, as a result of which he sustained shrapnel wounds in the area of the foot of his right leg.

Volume 25, working sheet: 198-202.

According to forensic medical examination opinion No. 879 dated 28.09.2023, the bodily injuries sustained by Farziyev Alifandi Mehman oglu — multiple shrapnel wounds of the left foot accompanied by barotrauma — the blast wave arising from the explosion of any explosive substance, as well as the combined impact of primary or secondary fragments, are classified as causing minor harm to health.

Volume 276, working sheet: 255-256.

Soldier Ibrahimov Valekh Iramil oglu, scout-radio telephone operator of the 1st platoon of the 4th division of the 2nd battalion of a military unit of the Ministry of Defence, who was recognised as a victim and questioned, stated in his testimony that on 20.09.2023, at approximately 10:00, during local counter-terrorism operations in the direction of the Khojavend district, while terrorists were attacking the positions “Bayrag” and “Teker”, a “Fagot” anti-tank guided missile fired by unlawful Armenian armed formations exploded at a distance of approximately 2 metres, as a result of which he sustained shrapnel wounds to the heel and toe of the right foot.

Volume 25, working sheet: 207-211.

According to forensic medical expert opinion No. 315 dated 22.02.2024, the injury sustained by Ibrahimov Valekh Iramil oglu — a granulating wound following primary surgical treatment of a wound from a shrapnel injury to the right toe — was formed as a result of the impact of a primary or secondary fragment generated by the explosion of some explosive substance and, in terms of severity, is classified as minor harm to health.

Volume 369, working sheet: 1-276.

[Page 1084]

Mirzayev Allakhverdi Asker oglu, scout-fortification engineer of the 2nd group of the 6th company of the 2nd battalion of a military unit of the Ministry of Defence, who was recognised as a victim and questioned, stated in his testimony that in the morning of 20 September 2023, during local counter-terrorism operations in the direction of the Khojavend district, he sustained a shrapnel wound to the 5th finger of the left hand as a result of the explosion of a hand grenade thrown by unlawful Armenian armed formations during an attack on terrorist positions named “Teker”.

Volume 25, working sheet: 216-220.

According to forensic medical expert opinion No. 877 dated 28.09.2023, the injury sustained by Mirzayev Allakhverdi Asker oglu — a blind shrapnel wound of the inner surface of the left hand and finger — was formed as a result of the impact of a single or secondary fragment generated by the explosion of an explosive substance. Since this injury did not cause harm to health, its degree of severity was not determined.

Volume 276, working sheet: 244.

Private Khadiyev Huseyn Ilgar oglu, an intelligence officer of the 2nd battery of a military unit of the Ministry of Defence, who was recognised and questioned as an injured party, stated in his testimony that on 19 September 2023, at approximately 16:00, while participating in local counter-terrorism operations in the Khojavend district, as a result of fire

opened by unlawful Armenian armed formations, he sustained a shrapnel wound to the lower part of the chest.

Volume 25, working sheet: 225-228.

According to forensic medical expert opinion No. 884 dated 28.09.2023, the injury sustained by Khadiyev Huseyn Ilgar oglu — a penetrating shrapnel wound of the soft tissues of the right half of the chest — was formed as a result of the impact of a primary or secondary fragment generated by the explosion of an explosive substance and, in terms of severity, is classified as minor harm to health.

Volume 276, working sheet: 233-234.

Lieutenant Mammadzade Sardar Zakir oglu, commander of the 1st platoon of the 5th division of the 2nd battalion of a military unit of the Ministry of Defence, who was recognised as a victim and questioned, stated in his testimony that on 20.09.2023, at approximately 15:00, during local counter-terrorism operations in the direction of the Khojavend district, he sustained a gunshot wound to the left side of the chest as a result of shots from

[Page 1085]

automatic weapons fired by unlawful Armenian armed formations during an attack on terrorist positions named “Bayrag” and “Teker”.

Volume 25, working sheet: 233-237.

According to forensic medical expert opinion No. 887 dated 28.09.2023, the bodily injuries sustained by Mammadzade Sardar Zakir oglu — a lacerated wound in the area of the left side of the chest, a bullet wound in the abdominal region, and an infected wound of the inner surface of the third finger of the left hand — were caused by a gunshot wound and, in terms of severity, are classified as minor harm to health.

Volume 297, working sheet: 14-15.

Private Sadygov Magomed Rasim oglu, sniper of the 1st group of the 1st section of the 2nd platoon of the 2nd company of the 1st battalion of a military unit of the Ministry of Defence, who was recognised as a victim and questioned, stated in his testimony that on 20.09.2023, at approximately 10:00, during local counter-terrorism operations in the direction of the Khojavend district, as a result of automatic weapons fire by unlawful Armenian armed formations during an attack on terrorist positions named “Bayrag” and “Teker”, he sustained an injury to the right arm.

Volume 25, working sheet: 242-246.

According to forensic medical expert opinion No. 878 dated 28.09.2023, the bodily injury sustained by Sadygov Magomed Rasim oglu — a penetrating bullet wound of the left arm,

accompanied by damage only to the soft tissues — was caused by at least one shot from a firearm and, in terms of severity, is classified as minor harm to health.

Volume 276, working sheet: 218-219.

Private Aliyev Javid Famil oglu, gunner of the 2nd group of the 2nd platoon of the 6th company of the 2nd battalion of a military unit of the Ministry of Defence, who was recognised and questioned as a victim, stated in his statement that on 20.09.2023, at approximately 10:00, during local counter-terrorism operations in the direction of the Khojavend district, he sustained shrapnel wounds to the left shoulder and left arm as a result of the explosion of a hand grenade thrown by unlawful Armenian armed formations during an attack on terrorist positions named “Teker”.

Volume 25, working sheet: 251-255.

According to forensic medical expert opinion No. 880 dated 28.09.2023, the bodily injuries sustained by Aliyev Javid Famil oglu — multiple blind shrapnel wounds of various parts of the body accompanied by barotrauma — were caused by the explosion of any explosive substance, as well as by the combined impact of

[Page 1086]

primary or secondary fragments, while the degree of short-term impairment of health is classified as minor harm to health.

Volume 276, working sheet: 221-222.

Soldier Dadashov Maarif Alim oglu, chief gunner of the 2nd artillery battery of the 3rd battery of the 1st division of a military unit of the Ministry of Defence, who was recognised as an injured party and questioned, stated in his testimony that on 20.09.2023, at approximately 13:00-14:00, during local counter-terrorism operations in the direction of the village of Gyrgyzbazar in the Khojavend district, while terrorist positions were being shelled, a heavy artillery projectile fired by unlawful Armenian armed formations exploded 3-4 metres from their location, as a result of which his right arm and left leg were injured.

Volume 29, working sheet: 5-8.

According to forensic medical expert opinion No. 886 dated 28.09.2023, the bodily injuries sustained by Dadashov Maarif Alim oglu — barotrauma and blunt injuries of the right arm, left leg and left knee — were formed as a result of the impact of a blast wave caused by the explosion of an explosive substance, as well as the combined impact of primary or secondary fragments and, in terms of severity, are classified as minor harm to health.

Volume 276, working sheet: 236-237.

Soldier Gulmammadov Ilham Gias oglu of the 3rd platoon of the 4th company of the 2nd battalion of a military unit of the Ministry of Defence, who was recognised as a victim and questioned, stated in his testimony that on 20.09.2023, at approximately 17:00-18:00, during local counter-terrorism operations in the Fuzuli district, while terrorists were attacking the so-called “Post of the Cross” and other positions, one of the artillery projectiles fired by unlawful Armenian armed formations fell 10-15 metres from him and exploded. As a result of the blast wave, he was thrown 7-8 metres and sustained injuries to his right knee and the right side of his back.

Volume 29, working sheet: 13-16.

According to forensic medical expert opinion No. 883 dated 28.09.2023, the bodily injury sustained by Gulmammadov Ilham Gias oglu — a contusion of the soft tissues of the anterior surface of the right knee — was formed as a result of impact with a hard blunt object. Since the bodily injury does not cause harm to health, its degree of severity is not established.

Volume 276, working sheet: 242.

[Page 1087]

Private Garazade Farid Vahid oglu, grenade launcher operator of the 2nd section of the 1st platoon of the 5th company of the 2nd battalion of a military unit of the Ministry of Defence, who was recognised as a victim and questioned, stated in his testimony that on 20.09.2023, at approximately 09:00-10:00 in the morning, while participating in local counter-terrorism operations, he sustained injuries to the inner part of the left arm and the left leg as a result of falling and the explosion of a grenade thrown by unlawful Armenian armed formations during an attack on his positions in the direction of the city of Khankendi.

Volume 29, working sheet: 21-24.

According to forensic medical expert opinion No. 882 dated 28.09.2023, the injury sustained by Garazade Farid Vahid oglu — a blind shrapnel wound of the middle third of the anterior surface of the right flank — was formed as a result of the impact of a primary or secondary fragment generated by the explosion of some explosive substance. Since this injury did not cause harm to health, its degree of severity was not determined.

Volume 276, working sheet: 222-225.

Private Sadygov Farid Anar oglu, scout-operator of the 1st section of the 3rd platoon of the 6th company of the 2nd battalion of a military unit of the Ministry of Defence, who was recognised and questioned as an injured party, stated in his testimony that on 20 September 2023, at approximately 12:00, during an attack on terrorist positions in the course of local counter-terrorism operations in the Khojavend district, a mortar mine fired by unlawful Armenian armed formations struck and exploded to his left, as a result of which he sustained shrapnel wounds to both legs.

Volume 41, working sheet: 207-210.

According to forensic medical examination opinion No. 1847 dated 06.12.2023, the bodily injuries sustained by Sadygov Farid Anar oglu — injuries to the soft tissues of the left hand and both lower extremities accompanied by mild post-haemorrhagic anaemia, barotrauma, traumatic perforation of the tympanic membrane on both sides, and bilateral mixed hearing loss — are caused by the difference in pressure between the fragments and the strong air wave generated by the explosion of an explosive device. In terms of their degree, as a whole, they cause less serious harm to health.

Volume 64, working sheet: 51-52.

Private Hasanov Suliddin Rafi oglu, scout of the 1st group of the 1st platoon of the 2nd company of the 1st battalion of a military unit of the Ministry of Defence, who was recognised as a victim and questioned, stated in his testimony that on 19.09.2023, at approximately 15:00-16:00, as a result of automatic weapons fire by militants of unlawful

[Page 1088]

armed formations of Armenia during an attack on terrorist positions in the course of local counter-terrorism operations in the Khojavend district, he sustained an injury to the left thigh.

Volume 41, working sheet: 215-218.

On the basis of forensic medical expert opinion No. 866-A dated 01.05.2024, it was established that the bodily injuries sustained by Hasanov Suliddin Rafi oglu — a penetrating gunshot wound of the soft tissues of the scrotum and the upper third of the left thigh, resulting in the absence of the left testicle — were caused by a gunshot wound and, in terms of severity, as a whole, are classified as less serious harm to health.

Volume 369, working sheet: 1-276.

Private Rzayev Riyad Javad oglu, rifleman of the 3rd section of the 1st platoon of the security unit of the staff-supply battalion of a military unit of the Ministry of Defence, who was recognised as a victim and questioned, stated in his testimony that on 19 September 2023, at approximately 16:00-17:00, while participating in local counter-terrorism operations in the city of Shusha, he sustained multiple shrapnel wounds to both legs as a result of a mortar projectile fired by unlawful Armenian armed formations exploding next to him.

Volume 41, working sheet: 223-226.

On the basis of forensic medical expert opinion No. 703 dated 24.04.2024, it was established that the bodily injuries sustained by Rzayev Riyad Javad oglu — primary surgical treatment of wounds caused by blind shrapnel injuries with a skin defect on the dorsal surface of the left hand, the posterior surface of the left lower leg, the inner surface of the lower third of the right thigh, the posterior surface of the lower third and the outer surface of the upper third of

the left thigh, and the middle third of the left lower leg as a result of blast trauma; secondary surgical treatment, removal of a foreign body, closure of the wound with a skin defect using a Keystone flap, and the condition following surgical treatment — arise as a result of the impact of primary or secondary fragments formed during the explosion of any explosive substance and, in terms of their degree, as a rule, are classified as less serious harm to health.

Volume 369, working sheet: 1-276.

Warrant Officer Rzayev Ravan Gadiraga oglu, commander of the 1st group of the 4th platoon of the 1st battalion of the 1st company of the 1st battalion of Military Unit No. 1 of the Ministry of Defence, who was recognised as a victim and questioned, stated in his testimony that on 19.09.2023, at approximately 16:00-17:00, while participating in local counter-terrorism

[Page 1089]

operations, he sustained a gunshot wound to the left thigh as a result of sniper fire opened by militants of unlawful armed formations of Armenia during an attack on combat positions occupied by terrorists in the direction of the Khojavend district.

Volume 41, working sheet: 231-234.

According to forensic medical expert opinion No. 1746 dated 08.12.2023, the bodily injuries sustained by Rzayev Ravan Gadiraga oglu — penetrating bullet wounds of the left thigh and left lower leg — were caused by a gunshot wound inflicted from a firearm and, in terms of severity, are classified as less serious harm to health.

Volume 64, working sheet: 99-100.

Private Nuraliev Nazir Gazanfar oglu, scout-grenade launcher of the 2nd group of the 1st platoon of the 1st battalion of a military unit of the Ministry of Defence, who was recognised and questioned as an injured party, stated in his testimony that on 19 September 2023, at approximately 15:00-16:00, while participating in local counter-terrorism operations and liberating combat positions occupied by terrorists in the direction of the Khojavend district, he sustained a shrapnel wound to the lower leg of the right leg as a result of a heavy artillery projectile fired by unlawful Armenian armed formations exploding near him.

Volume 41, working sheet: 239-242.

According to forensic medical expert opinion No. 1745 dated 11.10.2023, the bodily injuries found on Nuraliev Nazir Gazanfar oglu constitute a blind shrapnel wound of the outer surface of the middle third of the right lower leg, sustained as a result of the impact of fragments during the explosion of an explosive device and, in terms of severity, as a whole, are classified as minor harm to health.

Volume 369, working sheet: 1-276.

Captain Allakhverdiyev Parvin Rafik oglu, commander of the 10th company of the 4th battalion of a military unit of the Ministry of Defence, who was recognised as a victim and questioned, stated in his testimony that on 19.09.2023, at approximately 17:00, while participating in local counter-terrorism operations in the Khojavend district, he sustained a bullet wound in the area of the left pelvis as a result of sniper fire opened by unlawful Armenian armed formations. Later, during the operation, he also sustained a shrapnel wound as a result of a projectile fired by Armenian armed formations falling and exploding next to him.

Volume 41, working sheet: 247-250.

[Page 1090]

According to forensic medical expert opinion No. 1747 dated 08.12.2023, the bodily injuries sustained by Allakhverdiyev Parvin Rafik oglu — a blind shrapnel wound of the left shoulder, as well as the impact of fragments resulting from the explosion of an explosive device, and a blind bullet wound of the outer edge of the crest of the left ilium accompanied by a displaced open shrapnel fracture of the wing of the left ilium — were caused by a firearm and, in terms of severity, as a whole, are classified as less serious harm to health.

Volume 64, working sheet: 95-96.

Private Abilov Kenan Sanan oglu, senior sniper of the 3rd platoon of the special forces of the 1st special-purpose detachment of a military unit of the Ministry of Defence, who was recognised as a victim and questioned, stated in his testimony that on 21.09.2023, at approximately 09:00-10:00 in the morning, while moving from an unnamed height in the Khankendi area to another height together with other servicemen of the military unit, as a result of shots from firearms fired by unlawful Armenian armed formations, he sustained a gunshot wound to the left arm.

Volume 358, working sheet: 5-8.

According to forensic medical expert opinion No. 57 dated 25.01.2024, the bodily injuries found on Abilov Kenan Sanan oglu constitute a penetrating gunshot wound of the middle third of the left side of the body, caused by a shot from a firearm loaded with a bullet, and are classified as causing minor harm to health.

Volume 319, working sheet: 214-215.

Warrant Officer Nasirov Jamaledin Fakhraddin oglu, commander of the 1st group of the 2nd platoon of the 1st company of the 1st battalion of a military unit of the Ministry of Defence, who was recognised as a victim and questioned, stated in his testimony that on 20.09.2023, at approximately 15:00, while travelling along the Shusha-Khankendi route, as a result of sniper fire opened by militants of unlawful Armenian armed formations who were concealed in a nearby forest, he sustained a gunshot wound to the right side of the chest.

Volume 358, working sheet: 13-16.

According to forensic medical expert opinion No. 1756 dated 11.10.2023, the bodily injuries found on Nasirov Jamaledin Fakhraddin oglu, namely a penetrating bullet wound of the anterior abdominal wall without penetration into the abdominal cavity, accompanied by fractures of the right 10th rib, were caused by a shot from a firearm loaded with a bullet and are classified as minor harm to health.

[Page 1091]

Volume 49, working sheet: 228-229.

Private Azizov Aziz Nasimi oglu, radio operator of the 2nd operational platoon of the 6th company of the 2nd battalion of a military unit of the Ministry of Defence, whose identity was established and who was questioned as an injured party, stated in his testimony that on 19 September 2023, at approximately 13:00, during fighting in the direction of height “628” in the Khojavend district, he sustained an injury as a result of a projectile fired by unlawful Armenian armed formations falling in his immediate vicinity and exploding.

Volume 358, working sheet: 21-24.

According to forensic medical expert opinion No. 1809 dated 06.12.2023, Azizov Aziz Nasimi oglu was diagnosed at the Medical Centre of the Ministry of Health (MN BKH) with: “Post-traumatic stress disorder. Stuttering. Mild degree of acute stress reaction, entailing mild asthenia.” At present, the investigation assesses this as an injury of undetermined severity.

Volume 64, working sheet: 23-24.

Private Zeynalov Tahir Elshad oglu, officer of the reconnaissance and medical service of the 3rd platoon of the 7th company of the 3rd battalion of a military unit of the Ministry of Defence, who was recognised and questioned as a victim, stated in his testimony that on 19.09.2023, at approximately 17:00, he sustained injuries as a result of being ambushed and fired upon by Armenian separatists in a forested area near the city of Khankendi.

Volume 358, working sheet: 29-32.

According to forensic medical expert opinion No. 1799 dated 11.12.2023, during the forensic medical examination of Zeynalov Tahir Elshad oglu, an abrasion was found on the first finger of the right hand, which was formed as a result of impact with a hard blunt object. Since the injury did not cause harm to health, its degree of severity was not established.

Volume 64, working sheet: 91-92.

Lieutenant Garibov Ismet Ashraf oglu, commander of the 2nd operational platoon of the 3rd company of the 1st battalion of a military unit of the Ministry of Defence, who was recognised and questioned as a victim, stated in his testimony that on 19 September 2023, at

approximately 18:00, as a result of a projectile fired by unlawful Armenian armed formations during hostilities near the city of Khankendi falling and exploding, he sustained an injury.

Volume 358, working sheet: 37-40.

[Page 1092]

According to forensic medical expert opinion No. 1800 dated 08.12.2023, Garibov Ismet Ashraf oglu was diagnosed in a medical document with: “Asthenoneurotic manifestations following blast trauma, closed craniocerebral injury, concussion. Multiple abrasions and lacerated wounds of various parts of the body. Condition following acute left-sided cochlear neuritis.” The bodily injuries noted in the diagnosis — multiple abrasions and lacerated wounds of various parts of the body — were formed as a result of the impact of a hard blunt object, as well as impact of the injured area against such an object; the remaining injuries resulted from the impact of a strong air wave formed during the explosion of an explosive device and, in terms of severity, are classified as less serious harm to health.

Volume 64, working sheet: 115-116.

Private Hajiev Ramazan Allahveren oglu, rifleman-machine gunner of the 3rd section of the 1st platoon of the 5th company of the 12th battalion of a military unit of the Ministry of Defence, whose identity was established and who was questioned as a victim, stated in his testimony that on 19.09.2023, at approximately 16:00, during hostilities near the city of Khankendi, he sustained an injury in the pelvic region as a result of shelling by unlawful Armenian armed formations.

Volume 358, working sheet: 45-48.

According to forensic medical expert opinion No. 1757 dated 11.10.2023, the bodily injuries found on Hajiev Ramazan Allahveren oglu constitute a penetrating gunshot bullet wound entering through the anterior surface of the upper third of the left thigh and exiting in the area of the left buttock, sustained as a result of a shot from a firearm, and are classified as minor harm to health both collectively and separately.

Volume 369, working sheet: 1-276.

Junior Sergeant Rahimov Agil Khanbala oglu, commander of the 2nd automatic grenade launcher section of the combat-support platoon of the 2nd battalion of a military unit of the Ministry of Defence, who was recognised as a victim and questioned, stated in his testimony that on 19.09.2023, at approximately 17:00, he sustained injuries as a result of the explosion of a projectile fired by unlawful armed formations of Armenia during hostilities in the Khojavend district.

Volume 358, working sheet: 53-56.

According to forensic medical expert opinion No. 1807 dated 05.12.2023, Rahimov Agil Khanbala oglu was diagnosed with: “Mild (moderate) prolonged dissociative conversion disorder. Gastroesophageal

[Page 1093]

reflux disease. Protrusion of the L5-S1 intervertebral disc. Vertebrogenic lumbalgia. Coarse skin scar following an abrasion wound of the lower third of the right side. Blunt trauma of the right knee joint, crushing of soft tissues.” The injury noted in the diagnosis was sustained as a result of impact with a hard blunt object, as well as impact of the injured area against such an object. Since the injury did not cause harm to health, its severity was not determined.

Volume 64, working sheet: 11-12.

Junior Lieutenant Garaev Javid Maarif oglu, commander of the 3rd platoon of the 8th company of the 3rd battalion of a military unit of the Ministry of Defence, who was recognised and questioned as an injured party, stated in his testimony that on 19 September 2023, at approximately 17:00, he sustained an injury as a result of a projectile fired by unlawful Armenian armed formations during hostilities in the Khojavend district falling and exploding.

Volume 358, working sheet: 62-65.

According to forensic medical examination opinion No. 1810 dated 06.12.2023, Garaev Javid Maarif oglu was diagnosed at the emergency department of the Ministry of Health (MR BKH) with: “Acute stress reaction of moderate severity, entailing mild asthenia. Tension headache.” At present, the investigation assesses this as an injury of undetermined severity.

Volume 64, working sheet: 27-28.

Soldier Najafli Ismail Nasib oglu, rifleman of the 4th battalion (MANHXXHQ), 10th company, 3rd platoon, 3rd section of a military unit of the Ministry of Defence, who was recognised as a victim and questioned, stated in his testimony that on 19 September 2023, at approximately 16:00, a projectile fired by unlawful Armenian armed formations during hostilities in the Khojavend district fell and exploded next to him, as a result of which he sustained injuries.

Volume 358, working sheet: 71-74.

According to forensic medical expert opinion No. 1808 dated 05.12.2023, Najafli Ismail Nasib oglu was diagnosed at the Medical Centre of the Ministry of Defence (MR BKH) with: “Closed craniocerebral injury as a result of blast trauma, astheno-neurotic manifestations following concussion.” The injury noted in the diagnosis was sustained as a result of the impact of a strong air wave generated by the explosion of an explosive device and, in terms of severity, is classified as minor harm to health.

Volume 64, working sheet: 35-36.

[Page 1094]

The wounded person, recognised as a victim — a member of the machine-gun crew (MANHXXHQ) of the 11th company of the 4th battalion of a military unit of the Ministry of Defence, Private Mammadzade Fakhri Teymur oglu, who was questioned and recognised as a victim, stated in his statement that on 20.09.2023, at approximately 09:00 in the morning, he sustained an injury as a result of a projectile fired by unlawful Armenian armed formations exploding near him during hostilities in the Khojavend district.

Volume 358, working sheet: 79-82.

According to forensic medical examination opinion No. 1812 dated 12.12.2023, the bodily injuries sustained by Mammadzade Fakhri Teymur oglu as a result of blast trauma were found to include a closed craniocerebral injury, concussion, traumatic perforation of both tympanic membranes accompanied by bilateral acute cochlear neuritis, shrapnel wounds of the forehead, right eyebrow, both hands, both lower legs and the left thigh, as well as penetrating shrapnel wounds of the right knee joint. These injuries were caused by the impact of a strong air wave and fragments generated during the explosion of an explosive device and, as a whole, are classified as less serious harm to health.

Volume 64, working sheet: 131-132.

Lieutenant Colonel Mirzoev Fuad Sakhavat oglu, Deputy Commander of a military unit of the Ministry of Defence, who was recognised and questioned as an injured party, stated in his testimony that on 20 September 2023, at approximately 11:00, he sustained an injury as a result of a projectile fired by unlawful Armenian armed formations exploding near him during hostilities in the direction of the village of Yukhary Veyselli-Emishjab in the Fuzuli district.

Volume 358, working sheet: 87-90.

According to forensic medical examination opinion No. 704 dated 24.04.2024, it was established that the bodily injuries sustained by Mirzoev Fuad Sakhavat oglu were: closed craniocerebral injury as a result of blast trauma, condition following concussion; astheno-neurotic manifestations following closed craniocerebral injury and concussion; condition following bilateral acute cochlear neuritis as a result of blast trauma; injury sustained during military service; gunshot wound; post-traumatic lumbar plexopathy; skin scars following a blind bullet wound of the left thigh, entry into the soft tissues of a foreign body (bullet) — from a cartridge loaded with a bullet — arising as a result of the impact of a blast wave formed as a result of

[Page 1095]

a shot from a firearm, as well as from the explosion of any explosive substance, and, in terms of severity, is classified as minor harm to health.

Volume 369, working sheet: 1-276.

Private Mansimli Shahin Yadigar oglu, sergeant major of the engineering and fortification section of a military unit of the Ministry of Defence (MANHXHQ), who was recognised and questioned as a victim, stated in his testimony that on 19 September 2023, at approximately 18:00, during hostilities in the Khojavend district, he sustained an injury when a projectile fired by unlawful Armenian armed formations fell nearby and exploded.

Volume 358, working sheet: 95-98.

According to forensic medical expert opinion No. 705 dated 24.04.2024, it was established that the bodily injuries sustained by Mansimli Shahin Yadigar oglu are a consequence of compression-ischaemic neuropathy of the right spinal nerve as a result of a gunshot wound. The condition following a penetrating gunshot wound to the middle 1/3 of the right side was caused by a gunshot wound inflicted from a firearm, the cartridge of which was loaded with a bullet, and, in terms of severity, is classified as minor harm to health.

Volume 369, working sheet: 1-276.

Lieutenant Abdullaev Magomed Farhad oglu, commander of the 3rd platoon of the mechanised division of a military unit of the Ministry of Defence, who was recognised and questioned as an injured party, stated in his testimony that he sustained an injury as a result of fire opened by unlawful Armenian armed formations during hostilities in the Shushakend-Dashkend direction on 20.09.2023 at approximately 16:00.

Volume 358, working sheet: 103-106.

According to forensic medical expert opinion No. 1892 dated 17.10.2023, the bodily injuries found on Abdullaev Magomed Farhad oglu, namely a penetrating bullet wound of the middle third of the right arm, entailing thrombosis of the right brachial artery and rupture of the musculocutaneous nerve, were caused by a shot from a firearm loaded with a bullet and are classified as serious harm to health resulting in a prolonged deterioration of health.

Volume 49, working sheet: 197.

The injured party, whose identity was established and who was questioned, Private Orudzhev Musa Elmar oglu, automatic grenade launcher operator of the 3rd platoon of the 3rd platoon of unit "F" of a military unit of the Ministry of Defence, stated in his statement that he sustained an injury as a result of fire opened by unlawful Armenian

[Page 1096]

armed formations during hostilities in the direction of the city of Khankendi on 20.09.2023 at approximately 01:00.

Volume 358, working sheet: 111-114.

According to forensic medical examination opinion No. 62 dated 25.01.2024, the bodily injuries sustained by Orudzhev Musa Elmar oglu — primary surgical treatment of wounds caused by a blind shrapnel wound of the inner surface of the middle third of the right thigh as a result of blast trauma, a coarse skin scar following surgery to remove a foreign body, a foreign body in the soft tissues (metal fragment) — arise as a result of the impact of primary or secondary fragments formed during the explosion of any explosive substance and, in terms of severity, are classified as minor harm to health.

Volume 319, working sheet: 194-195.

Lieutenant Tanryverdiyev Anar Rovshan oglu, commander of the 1st platoon of the 4th company of the 2nd battalion of a military unit of the Ministry of Defence, who was recognised as a victim and questioned, stated in his testimony that on 19.09.2023, at approximately 14:00, he sustained injuries as a result of shelling opened by unlawful armed formations of Armenia during hostilities in the direction of the Khojaly district.

Volume 358, working sheet: 119-122.

According to forensic medical expert opinion No. 1733 dated 11.10.2023, the bodily injuries found on Tanryverdiyev Anar Rovshan oglu — a blind shrapnel wound of the right thigh and lower leg; barotrauma of the left ear accompanied by acute left-sided cochlear neuritis as a result of a blast wave caused by the explosion of a high-explosive projectile; a closed craniocerebral injury accompanied by concussion as a result of the impact of a blast wave caused by the explosion of an explosive projectile; abrasions of the right thigh, left knee and right hand, as well as a crushed abrasion of the right half of the forehead caused by the impact of a hard blunt object — are, as a rule, classified as minor harm to health.

Volume 49, working sheet: 154-155.

Senior Lieutenant Agaev Elshan Agabala oglu, commander of the 7th company of the 3rd battalion of a military unit of the Ministry of Defence, who was recognised as an injured party and questioned, stated in his testimony that on 19.09.2023, at approximately 15:00, he sustained an injury as a result of fire opened by unlawful Armenian armed formations during hostilities in the direction of the Khojavend district.

Volume 358, working sheet: 127-130.

[Page 1097]

According to forensic medical examination opinion No. 1735 dated 11.10.2023, the bodily injuries found on Agaev Elshan Agabala oglu — a blind shrapnel wound of the first finger of the right hand; barotrauma of both ears accompanied by bilateral acute cochlear neuritis as a result of the impact of fragments during the explosion of an explosive projectile; a closed craniocerebral injury accompanied by concussion caused by fragments from the explosion of an explosive projectile; a bullet wound of the soft tissues of the left lower leg caused by a

shot from a firearm loaded with a bullet; as well as abrasions of the tip of the nose and the anterior surfaces of both lower legs caused by impact with a hard blunt object — are, as a whole, classified as minor harm to health.

Volume 49, working sheet: 142-143.

Sergeant (MANHXXHQ) Allakhverdiyev Niyameddin Akhliman oglu, commander of the 1st platoon of the 1st artillery battery of the 1st artillery division of a military unit of the Ministry of Defence, who was recognised as a victim and questioned, stated in his testimony that on 20.09.2023, at approximately 11:00, he sustained injuries as a result of shelling opened by unlawful armed formations of Armenia during hostilities in the direction of the Fuzuli district.

Volume 358, working sheet: 135-138.

According to forensic medical examination opinion No. 1734 dated 11.10.2023, the bodily injuries found on Allakhverdiyev Niyameddin Akhliman oglu — a blind shrapnel wound of the right thigh; barotrauma of the right ear accompanied by right-sided acute cochlear neuritis caused by a fragment from the explosion of an explosive projectile; and a closed craniocerebral injury accompanied by concussion resulting from the impact of a blast wave formed during the explosion of an explosive projectile — are, as a rule, classified as minor harm to health.

Volume 49, working sheet: 146-147.

The injured party, recognised as an injured party, was questioned by grenade launcher operator Musa Rafik oglu Mammadov of the 1st section of the 2nd platoon of the 11th company of the 4th battalion of a military unit of the Ministry of Defence. In his statement, he stated that on 20.09.2023, at approximately 11:00, he sustained an injury as a result of a projectile fired by Armenian armed forces using unmanned aerial vehicles falling nearby during hostilities in the direction of the Khojavend district.

Volume 358, working sheet: 143-146.

[Page 1098]

According to forensic medical expert opinion No. 1813 dated 06.12.2023, the bodily injuries sustained by Mammadov Musa Rafik oglu — blind shrapnel wounds of both buttocks, the right thigh and the right side — were caused by fragments formed as a result of the explosion of an explosive device and, in terms of severity, are classified as minor and serious harm to health.

Volume 64, working sheet: 31-32.

Lieutenant Colonel Osmanov Vasif Ramiz oglu, commander of a military unit of the Ministry of Defence, whose identity was established and who was questioned as an injured party, stated in his testimony that on 19 September 2023, at approximately 15:00, during hostilities

in the direction of the city of Shusha, he sustained an injury as a result of an artillery projectile fired by unlawful Armenian armed formations falling nearby and exploding.

Volume 358, working sheet: 151-154.

According to forensic medical examination opinion No. 1891 dated 17.10.2023, the bodily injuries found on Osmanov Vasif Ramiz oglu — open capsular fractures of the bones on the left side, a penetrating shrapnel wound of the side with a soft-tissue defect and concussion, a closed craniocerebral injury accompanied by a lacerated wound of the parietal region caused by the impact of a blast wave generated by the explosion of an explosive projectile — are ordinarily classified as serious harm to health causing a prolonged deterioration of health.

Volume 49, working sheet: 200-201.

Junior Sergeant Suleymanov Fuad Huseyn oglu, scout-inspector of the 1st platoon of the 2nd company of the 1st battalion of a military unit of the Ministry of Defence, who was recognised and questioned as a victim, stated in his testimony that on 20.09.2023, at approximately 11:00, he sustained an injury as a result of fire opened by unlawful Armenian armed formations during hostilities in the direction of the city of Khankendi.

Volume 358, working sheet: 159-162.

According to forensic medical examination opinion No. 1751 dated 11.10.2023, the bodily injuries found on Suleymanov Fuad Huseyn oglu — a penetrating bullet wound of the soft tissues of the left thigh caused by a gunshot wound from a firearm — both collectively and separately, are classified as minor harm to health resulting in prolonged impairment of health. A blind shrapnel wound of the soft tissues of both lower extremities and barotrauma of the left ear accompanied by acute left-sided

[Page 1099]

cochlear neuritis, caused by the impact of a blast wave formed during the explosion of an explosive projectile, both collectively and separately, are classified as minor harm to health.

Volume 369, working sheet: 1-276.

Lieutenant Magerramov Vugar Fikret oglu, commander of the 1st platoon of the 9th company of the 3rd battalion of a military unit of the Ministry of Defence, whose identity was established and who was questioned as a victim, stated in his testimony that on 19.09.2023, at approximately 18:00, he sustained an injury as a result of fire opened by unlawful Armenian armed formations during hostilities in the direction of the Khojaly district.

Volume 358, working sheet: 167-170.

According to forensic medical examination opinion No. 1758 dated 11.10.2023, the bodily injuries found on Magerramov Vugar Fikret oglu — a penetrating gunshot wound of the left

buttock and the upper third of the left thigh caused by a shot from a firearm loaded with a bullet — are classified as minor harm to health.

Volume 49, working sheet: 244-245.

Soldier Garazade Ravan Suleyman oglu, scout-sniper of the 1st section of the 2nd platoon of the 4th company of the 2nd battalion of a military unit of the Ministry of Defence, who was recognised as a victim and questioned, stated in his testimony that on 19.09.2023, at approximately 16:00, he sustained an injury as a result of shelling by unlawful armed formations of Armenia during hostilities in the direction of the Khojavend district.

Volume 358, working sheet: 175-178.

According to forensic medical examination opinion No. 706 dated 24.04.2024, it was established that the bodily injuries sustained by Garazade Ravan Suleyman oglu — condition following primary surgical treatment of wounds caused by penetrating gunshot wounds of the middle third of the right lower leg — were caused by a shot from a firearm with a cartridge loaded with a bullet, and their degree is ordinarily classified as minor bodily injuries.

Volume 369, working sheet: 1-276.

Junior Sergeant Nasirli Eynulla Aman oglu, scout-grenade launcher of the 2nd group of the 4th platoon of the 5th company of the 2nd battalion of a military unit of the Ministry of Defence, who was recognised as a victim and questioned, stated in his testimony that on 19.09.2023, at approximately 17:00, he sustained an injury as a result of shelling opened by

[Page 1100]

unlawful armed formations of Armenia during hostilities in the direction of the Khojaly district.

Volume 358, working sheet: 183-186.

According to forensic medical examination opinion No. 1759 dated 11.10.2023, the bodily injuries found on Nasirli Eynulla Aman oglu — a penetrating gunshot wound of the upper third of the right thigh accompanied by partial damage to the right sciatic nerve — were caused by a shot from a firearm loaded with a bullet and are classified as causing minor harm to health.

Volume 49, working sheet: 232-233.

Soldier Rakhmetzade Amin Ismail oglu, machine gunner of the 3rd platoon of the 2nd section of the 10th company of the 4th battalion of a military unit of the Ministry of Defence, who was recognised as a victim and questioned, stated in his testimony that on 19.09.2023, at approximately 20:00, he sustained injuries as a result of a projectile fired by an unmanned

aerial vehicle of unlawful Armenian armed formations falling and exploding during hostilities in the Khojavend district.

Volume 358, working sheet: 191-194.

According to forensic medical examination opinion No. 1853 dated 12.12.2023, the bodily injuries sustained by Rakhmetzade Amin Ismail oglu — subconjunctival haemorrhage of the right eye accompanied by rupture of the upper eyelid of the right eye, a foreign body located near the optic nerve, optic nerve atrophy, loss of visual acuity to the perception of hand movements, subconjunctival haemorrhage of the left eye accompanied by a lacerated wound of the infraorbital region of the left eyebrow, destruction of the vitreous body, extraocular foreign bodies located in the retrobulbar region, a slightly displaced fracture of the lower wall of the left orbit, haematoma of both periorbital regions, small blind shrapnel wounds of various areas of the face, closed craniocerebral injury, concussion, blunt shrapnel wound of the soft tissues of the anterior surface of the neck, injury of the 5th cervical vertebra by a foreign body, caused by a fragment and a blast wave arising during the explosion of an explosive device — were classified as serious harm to health causing an irreversible loss of more than 1/3 of general capacity for work.

Volume 64, working sheet: 135-136.

Private Safarli Ali Sabukhi oglu, assistant scout-grenade launcher of the 2nd section of the 2nd platoon of the 6th company of the 2nd battalion of a military unit of the Ministry of Defence, who was recognised as a victim and questioned, stated in his testimony that,

[Page 1101]

On 20.09.2023 at approximately 12:00, during hostilities in the direction of the Khojavend district, he sustained an injury as a result of the impact and explosion of a tank shell fired by unlawful Armenian armed formations.

Volume 358, case file sheets: 199–202.

According to forensic medical expert opinion No. 1854 dated 06.12.2023, the bodily injuries sustained by Safarli Ali Sabukhi oglu — a closed craniocerebral injury accompanied by perforation of both tympanic membranes and bilateral acute cochlear neuritis, concussion of the brain and multiple shrapnel wounds to both lower extremities, caused by fragments and a strong blast wave generated by the explosion of an explosive device — are generally classified as less serious harm to health.

Volume 64, case file sheets: 19–20.

The commander of the operational group of the 1st section of the 3rd platoon of the 10th company of the 4th battalion of the military unit of the Ministry of Defence, Warrant Officer Mehtiyev Orkhan Vidadi oglu, who was identified as a victim and questioned, stated in his testimony that on 19.09.2023 at approximately 14:00, during hostilities in the direction of the

Khojavend district, he sustained an injury as a result of the explosion of a mine previously planted by unlawful Armenian armed formations.

Volume 358, case file sheets: 207–210.

According to forensic medical expert opinion No. 1872 dated 16.10.2023, the bodily injuries identified in Mehtiyev Orkhan Vidadi oglu — a traumatic fracture of the lower third of the left tibia, a closed comminuted displaced fracture of the middle third of the diaphysis of the left femur, an open comminuted displaced fracture of the middle and lower thirds of the diaphysis of the olecranon process of the right ulna, a lacerated-sutural fracture of the upper third of the right sagittal plane, multiple abrasions on the body, a closed craniocerebral injury accompanied by concussion of the brain and right-sided haemotympanum (haematoma of the tympanic membrane), a shrapnel injury arising as a result of the explosion of an explosive shell (high-explosive shell) and the combined effect of the blast wave, generally referred to as serious harm to health causing permanent loss of more than 1/3 of general working capacity; separately, the traumatic rupture of the right lower leg constitutes serious harm to health causing permanent loss of more than 1/3 of general working capacity; the fractures constitute less serious harm to health causing prolonged impairment of health; and the wounds and haematomas constitute minor harm to health causing short-term impairment of health.

[Page 1102]

Volume 369, case file sheets: 1–276.

The commander of the 1st special-purpose detachment of platoon “A” of detachment “P” of the military unit of the Ministry of Defence, Junior Sergeant (extended active-duty serviceman) Hasanov Agagyuseyn Nasimi oglu, who was identified as a victim and questioned, stated in his testimony that on 20.09.2023 at approximately 08:00 he sustained injuries as a result of fire opened by unlawful armed formations of Armenia during hostilities conducted in the direction of the city of Khankendi.

Volume 358, case file sheets: 215–218.

According to forensic medical expert opinion No. 707 dated 24.04.2024, it was established that the bodily injuries sustained by Hasanov Agagyuseyn Nasimi oglu — primary surgical treatment of wounds caused by a penetrating gunshot wound with a soft-tissue defect in the lower third of the right humerus, an open displaced comminuted fracture of the lower third of the diaphysis of the right humerus with damage to the radial nerve, open repositioning of the fracture fragments, osteosynthesis with metal plates and screws, opening and sanitation of the abscess cavity due to an abscess-forming wound in the area of the right arm following an operation for revision of the right ulnar nerve, status following surgery for installation of a VAC device, status following post-traumatic neuropathy of the right ulnar nerve — were caused by a shot from a firearm using a cartridge loaded with a bullet and, according to the degree of severity, were classified as causing serious harm to health.

Volume 369, case file sheets: 1–276.

Private Babaev Said Ramilovich, a sniper of the 2nd section of the 3rd platoon of the 10th company of the 4th battalion of the military unit of the Ministry of Defence, who was identified as a victim and questioned, stated in his testimony that on 19.09.2023 at approximately 22:00 he sustained an injury as a result of fire opened by unlawful armed formations of Armenia during hostilities in the direction of the Khojavend district.

Volume 358, case file sheets: 223–226.

According to forensic medical expert opinion No. 1844 dated 12.12.2023, the bodily injuries sustained by Babaev Said Ramilovich — post-traumatic neuropathy of the right ulnar, left median and ulnar nerves penetrating into the abdominal cavity from the right lateral wall of the abdomen, accompanied by intra-abdominal bleeding and damage to the 4th segment of the liver; fracture-shrapnel injury to both upper extremities accompanied by traumatic rupture of the right ulnar nerve at the level of the ulnar groove and the lower third of the base of the left median and ulnar nerves —

[Page 1103]

caused by the impact of fragments formed as a result of the explosion of an explosive device — according to the degree of severity, generally constitutes serious harm to health.

Volume 64, case file sheets: 127–128.

Soldier Agazade Hamid Mahir oglu, a sapper of the 1st group of the engineering reconnaissance detachment of the 3rd battalion of the military unit of the Ministry of Defence, who was identified as a victim and questioned, stated in his testimony that on 20.09.2023 at approximately 14:00 he sustained injuries as a result of fire opened by unlawful armed formations of Armenia during hostilities conducted in the direction of the city of Khankendi.

Volume 358, case file sheets: 231–234.

According to forensic medical expert opinion No. 1752 dated 11.10.2023, the bodily injuries identified in Agazade Hamid Mahir oglu — a blind shrapnel wound accompanied by a wound with a soft-tissue defect of both buttocks — arose as a result of the effect of a blast wave generated by the explosion of a shell, with a foreign body in the soft tissues, and according to the degree of severity constitute less serious harm to health resulting in prolonged impairment of health.

Volume 49, case file sheets: 216–217.

The commander of the 2nd section of the 3rd platoon of the 5th company of the 2nd battalion of the military unit of the Ministry of Defence, Warrant Officer Zeynally Elvin Eldar oglu, who was identified as a victim and questioned, stated in his testimony that on 19.09.2023 at

approximately 17:00, during hostilities in the direction of the village of Daghbordu in the Khojaly district, he sustained an injury as a result of the explosion nearby of a shell fired by unlawful Armenian armed formations.

Volume 358, case file sheets: 239–242.

According to forensic medical expert opinion No. 1806 dated 12.12.2023, the bodily injuries sustained by Zeynally Elvin Eldar oglu, manifested in post-traumatic neuropathy of the right ulnar nerve accompanied by an open displaced comminuted fracture of the right ulna, as well as shrapnel wounds to the right shoulder and right thigh, were caused by the impact of fragments resulting from the explosion of an explosive device and, according to the degree of severity, generally fall within the category of less serious harm to health.

Volume 64, case file sheets: 123–124.

Azaev Osman Babaverdi oglu, a scout-operator of the 2nd group of the 4th platoon of the 1st company of the 1st battalion of the military unit of the Ministry of Defence, Senior Sergeant (extended active-duty serviceman), who was identified and questioned as a victim, stated in his testimony that on 20.09.2023, at approximately 04:00–05:00 in the morning, during hostilities in the direction of the

[Page 1104]

Khojavend district, he sustained a gunshot wound as a result of fire opened by unlawful Armenian armed formations.

Volume 358, case file sheets: 247–250.

According to forensic medical expert opinion No. 1805 dated 12.12.2023, the bodily injuries sustained by Azaev Osman Babaverdi oglu — a bullet wound to the anterior surface of the right shoulder girdle not penetrating the thoracic cavity, and a penetrating wound to the right side — were caused by a gunshot injury and, according to the degree of severity, generally constitute minor harm to health.

Volume 64, case file sheets: 119–120.

The head of the intelligence department of the military unit of the Ministry of Defence, Major Rashidli Tamerlan Elchin oglu, who was identified as a victim and questioned, stated in his testimony that on 19.09.2023 at approximately 16:00, while carrying out an attack as part of a group of 6 persons from the territory of the Kalbajar district in the direction of Aghdere for the purpose of preventing a provocation by unlawful Armenian armed formations, he and the servicemen who were with him, Bayram Huseynov and Ravan Mammadov, sustained injuries as a result of fire opened by those armed formations.

Volume 24, case file sheets: 87–90.

According to forensic medical expert opinion No. 653 dated 26.12.2023, the bodily injuries sustained by Rashidli Tamerlan Elchin oglu — a shrapnel, displaced, open fracture of the spindle, a penetrating wound of the left side accompanied by damage to the flexor muscle tendon — were caused by the impact of a bullet (projectile) as a result of a shot from a firearm and, according to their degree, constitute less serious harm to health. A closed craniocerebral injury with concussion of the brain was caused by the effect of a blast wave generated by the explosion of a weapon possessing explosive properties and, according to the degree of severity, was classified as causing minor harm to health.

Volume 369, case file sheets: 1–276.

The commander of the 1st group of the 4th platoon of the 3rd battalion of the 3rd company of the military unit of the Ministry of Defence, Warrant Officer Rafat Hilal oglu Ganbarov, who was identified as a victim and questioned, stated in his testimony that on 19.09.2023 at approximately 16:30, while carrying out an attack as part of a group of 10–15 persons from the Kalbajar district in the direction of Aghdere for the purpose of suppressing a provocation by unlawful Armenian terrorist armed formations, as a result of fire opened by Armenian armed formations using mortars, he sustained injuries and bodily injuries.

[Page 1105]

Volume 24, case file sheets: 95–98.

According to forensic medical expert opinion No. 634 dated 26.12.2023, the injuries sustained by Rafat Hilal oglu Ganbarov — a blind wound in the area of the right thigh — were inflicted by fragments formed during the explosion of an artillery shell and, according to their degree, constitute minor harm to health.

Volume 369, case file sheets: 1–276.

The commander of the 2nd group of the 3rd platoon of the 1st battalion of the 1st company of the military unit of the Ministry of Defence, Warrant Officer Isaev Tural Khaladdin oglu, who was identified as a victim and questioned, stated in his testimony that on 19.09.2023, while preventing a provocation by unlawful Armenian armed formations, as a result of small-arms fire from Armenian armed formations located near the village of Vangli in the Kalbajar district, he and the servicemen with him, Nemat Askerov, Fariz Fatullaev, Avazaga Abdullazade and Sultanali Atali, sustained injuries.

Volume 24, case file sheets: 103–106.

According to forensic medical expert opinion No. 620 dated 23.09.2023, a blind wound in the area of the right thigh, metallic foreign bodies in the soft tissues, as well as a superficial wound of the left thigh on the body of Isaev Tural Khaladdin oglu arose as a result of the impact of fragments formed during the explosion of an artillery shell and, according to their degree, caused minor harm to health.

Volume 285, case file sheets: 195–196.

Private Askerov Rahman Mubariz oglu, assistant scout-grenade launcher operator of the 2nd group of the 3rd platoon of the 1st company of the 1st battalion of the military unit of the Ministry of Defence, who was identified as a victim and questioned, stated in his testimony that on 19 September 2023, at approximately 13:00, during an advance by a group of 50–60 persons towards the village of Veng in the Kalbajar district for the purpose of preventing a provocation by unlawful Armenian armed formations, as a result of the explosion of an F-1 grenade thrown by those armed forces of Armenia, he and the servicemen who were with him, Fariz Fatullaev, Avazaga Abdullazade and Tural Isaev, sustained injuries.

Volume 24, case file sheets: 111–114.

According to forensic medical expert opinion No. 660 dated 26.12.2023, the injury sustained by Askerov Rahman Mubariz oglu — a blind wound of the soft tissues of the right shoulder — arose as a result of the impact of fragments

[Page 1106]

formed during the explosion of explosive combat munitions and, according to the degree of severity, constitutes minor harm to health.

Volume 369, case file sheets: 1–276.

The chief of staff of the military unit of the Ministry of Defence, Major Huseynov Bayram Habil oglu, who was identified as a victim and questioned, stated in his testimony that on 19.09.2023 at approximately 13:00, while carrying out an attack as part of a group of 6 persons from the territory of the Kalbajar district in the direction of Aghdere for the purpose of preventing a provocation by unlawful Armenian armed formations, he and the servicemen who were with him, Tamerlan Rashidli, Subkhan Abbasov and Ravan Mammadov, sustained injuries as a result of fire opened by Armenian armed formations.

Volume 24, case file sheets: 119–122.

According to forensic medical expert opinion No. 657 dated 26.12.2023, the bodily injuries sustained by Huseynov Bayram Habil oglu — a penetrating wound of the left elbow accompanied by an open comminuted fracture of the lower third of the diaphysis of the ulna, resulting in post-traumatic neuropathy of the radial and ulnar nerves; a penetrating wound of the soft tissues of the right buttock and right foot — caused by the impact of a bullet (projectile) as a result of a shot from a firearm, as a rule, constitute less serious harm to health.

Volume 369, case file sheets: 1–276.

The commander of the UAV platoon of the communications unit of the military unit of the Ministry of Defence, Warrant Officer Abbasov Subkhan Khumbat oglu, who was identified as

a victim and questioned, stated in his testimony that on 19.09.2023 at approximately 13:00, while carrying out an attack as part of a group of 6 persons from the Kalbajar district in the direction of Aghdere for the purpose of preventing a provocation by unlawful Armenian armed formations, he and the servicemen who were with him, Tamerlan Rashidli, Bayram Huseynov and Ravan Mammadov, sustained injuries as a result of fire opened by Armenian terrorists.

Volume 24, case file sheets: 127–130.

According to forensic medical expert opinion No. 661 dated 26.12.2023, the injury sustained by Abbasov Subkhan Khumbat oglu — a blind wound of the right thigh — arose as a result of the impact of a fragment formed during the explosion of an artillery shell and, according to the degree of severity, constitutes minor harm to health.

Volume 369, case file sheets: 1–276.

[Page 1107]

The commander of the 4th section of the 1st platoon of the engineering unit of the military unit of the Ministry of Defence, Private (extended active-duty serviceman) Gasimzade Natig Habil oglu, who was identified and questioned as a victim, stated in his testimony that on 19 September 2023, at approximately 13:00, during an advance by 50–60 persons in the direction of the village of Vangli in the Kalbajar district for the purpose of preventing a provocation by unlawful Armenian armed formations, as a result of the explosion of an F-1 grenade thrown by Armenian armed forces, he and the servicemen who were with him, Fariz Fatullaev and Sahil Zamanov, sustained injuries.

Volume 24, case file sheets: 135–138.

According to forensic medical expert opinion No. 624 dated 26.12.2023, the bodily injury sustained by Gasimzade Natig Habil oglu — a blind wound of the right thigh, with a metallic foreign body in the soft tissues — arose as a result of the impact of fragments formed during the explosion of explosive combat munitions and, according to the degree of severity, constitutes minor harm to health.

Volume 369, case file sheets: 1–276.

Safarov Khandan Fariz oglu, driver-mechanic of the road section of the engineering battalion of the military unit of the Ministry of Defence, Junior Sergeant (extended active-duty serviceman) of the Military Police of the Republic of Azerbaijan, who was identified as a victim and questioned, stated in his testimony that on 19.09.2023 at approximately 13:00 he sustained an injury as a result of artillery fire by armed formations of Armenia while clearing a road with a military bulldozer, registration mark SD 22 U 161 QQ, which he was operating for the purpose of preventing acts of sabotage by unlawful armed formations of Armenia.

Volume 24, case file sheets: 143–146.

According to forensic medical expert opinion No. 652 dated 26.12.2023, the bodily injuries sustained by Safarov Khandan Fariz oglu — an injury to the lower lip — arose as a result of the effect of a blast wave generated by the explosion of an artillery shell and the impact of secondary fragments of the primary and blunt mechanisms and are classified as minor harm to health.

Soldier Rzazade Ravan Baba oglu, a scout-medic of the 4th platoon of the 1st company of the 1st operational battalion of the military unit of the Ministry of Defence, who was identified as a victim and questioned, stated in his testimony that on 19.09.2023 at approximately 13:00, while carrying out an advance as part of a group of 50–60 persons towards the village of Vangli in the Kalbajar district for the purpose of suppressing a provocation by terrorists of Armenian nationality, he and the servicemen who were with him, Kamran

[Page 1108]

Muradov and Kalandar Abbasov, sustained injuries, while Tural Jahangirov and Ruslan Lalaev were killed as a result of artillery fire opened by unlawful Armenian armed formations.

Volume 24, case file sheets: 151–154.

According to forensic medical expert opinion No. 618 dated 23.09.2023, the bodily injuries sustained by Rzazade Ravan Baba oglu — a blind wound of the right buttock and right foot — arose as a result of the impact of a fragment, a metallic foreign body, on soft tissues from a firearm during the explosion of a shell and, according to the degree of severity, constitute minor harm to health.

Volume 53, case file sheets: 75–76.

Private Rustamov Rustam Raudin oglu, senior radio operator of the 1st platoon of the 12th battery of the 4th division of the military unit of the Ministry of Defence, who was identified as a victim and questioned, stated in his testimony that on 19.09.2023 at approximately 21:00, when a strike was being carried out against positions of unlawful armed formations of Armenia in the direction of the village of Vangli in the Kalbajar district for the purpose of preventing a provocation by terrorists of Armenian nationality, as a result of artillery fire by the armed forces of Armenia, he and the servicemen who were with him, Iftikhar Abdullaev, Ragib Allakhyarov and Ragib Khalilov, sustained injuries, while Sanan Gasimov and Shamistyan Yusifli were killed.

Volume 24, case file sheets: 159–162.

According to forensic medical expert opinion No. 617 dated 23.09.2023, the bodily injuries sustained by Rustamov Rustam Raudin oglu — a blind wound to the right shoulder and right lower leg, with a foreign body in the soft tissues — were caused by the impact of fragments

formed during the explosion of a firearm projectile and, according to the degree of severity, constitute minor harm to health.

Volume 53, case file sheets: 71–72.

Serviceman Zamanov Sahil Seyran oglu, a scout-medical of the 3rd platoon of the 1st company of the 1st operational battalion of the military unit of the Ministry of Defence, who was identified as a victim and questioned, stated in his statement that on 19.09.2023 at approximately 13:00, while carrying out an advance as part of a group of 50–60 persons towards the village of Vangli in the Kalbajar district for the purpose of suppressing a provocation by terrorists of Armenian nationality, as a result of artillery fire by unlawful Armenian armed formations, he and the servicemen who were with him, Fariz Fatullaev, Avazaga Abdullazade, Tural Isaev and Rahman Askerov, sustained injuries.

Volume 24, case file sheets: 167–170.

[Page 1109]

According to forensic medical expert opinion No. 621 dated 26.12.2023, the bodily injuries sustained by Zamanov Sahil Seyran oglu — blind wounds of the soft tissues of the left shoulder girdle, the fifth finger of the right hand, the right thigh and the left knee joint — were caused by the impact of secondary fragments of a primary and blunt mechanism formed during the explosion of an artillery shell and, according to their degree, are generally classified as minor harm to health.

Volume 369, case file sheets: 1–276.

The commander of the 1st section of the security platoon of the headquarters section of the military unit of the Ministry of Defence, soldier of the Military Police of the Republic of Azerbaijan (extended active-duty serviceman) Mammadov Ravan Rovshan oglu, who was identified as a victim and questioned, stated in his testimony that on 19.09.2023 at approximately 13:00, while carrying out an advance as part of a group of 6 persons for the purpose of suppressing a provocation by unlawful armed formations of Armenia, he and the servicemen who were with him, Bayram Huseynov and Subkhan Abbasov, sustained injuries as a result of small-arms fire from armed formations of Armenia.

Volume 24, case file sheets: 175–178.

According to forensic medical expert opinion No. 625 dated 26.12.2023, the bodily injuries sustained by Mammadov Ravan Rovshan oglu were:

1. Penetrating wounds of the right thigh and inguinal region arose as a result of the impact of a bullet (projectile) fired from a firearm loaded with a bullet (projectile) and, according to the degree of severity, constitute minor bodily injuries resulting in short-term impairment of health.

2. A limited-area thermal burn wound of the fourth finger of the left hand arose as a result of the local effect of high temperature; its degree is not determined because the injury does not cause harm to health.

Volume 369, case file sheets: 1–276.

Private Guliyev Elchin Bakhtiyar oglu, scout-operator of the 1st group of the 4th platoon of the 1st company of the 3rd operational battalion of the military unit of the Ministry of Defence, who was identified as a victim and questioned, stated in his testimony that on 19.09.2023 at approximately 13:00, while carrying out an advance as part of a group of 50–60 persons towards the village of Vangli in the Kalbajar district for the purpose of preventing a provocation by unlawful Armenian armed formations, he and the servicemen who were with him, Ravan Rzazade and Emin Jafarov, sustained injuries, while Tural Jahangirov and Ruslan Lalaev were killed as a result of small-arms and artillery fire from terrorists of Armenian origin.

Volume 24, case file sheets: 183–186.

[Page 1110]

According to forensic medical expert opinion No. 623 dated 26.12.2023, the bodily injuries sustained by Guliyev Elchin Bakhtiyar oglu were:

1. Blunt trauma to the area of the right hip joint, accompanied by swelling and crushing of soft tissues, was caused by a blunt mechanism, by the impact of a hard blunt object, and according to the degree constitutes minor harm to health.
2. A secondary infected superficial wound of the outer area of the right ankle, arising through a blunt mechanism as a result of the impact of a hard blunt object, the degree of which has not been determined because this is an injury not causing harm to health.

Volume 369, case file sheets: 1–276.

The commander of the combat-support platoon of the 4th operational battalion of the military unit of the Ministry of Defence, Junior Lieutenant Khalilov Murad Aydin oglu, who was identified and questioned as a victim, stated in his testimony that on 19.09.2023 at approximately 13:00, while carrying out an advance as part of a group numbering approximately 30 persons near the village of Vyangli in the Kalbajar district for the purpose of suppressing a provocation by unlawful Armenian armed formations, he sustained an injury as a result of the explosion of a grenade thrown by terrorists of Armenian origin.

Volume 24, case file sheets: 191–194.

According to forensic medical expert opinion No. 615 dated 23.09.2023, there are blind wounds of both thighs, the right knee joint and the left heel on the body of Khalilov Murad Aydin oglu, as well as metallic foreign bodies in the soft tissues, caused by fragments from

the explosion of explosive combat munitions. According to the degree of severity, they are classified as minor harm to health resulting in short-term impairment of health.

Volume 285, case file sheets: 188–190.

The commander of the 2nd group of the 2nd platoon of the 8th company of the 3rd battalion of the military unit of the Ministry of Defence, Warrant Officer Alekperov Nasib Telman oglu, who was identified as a victim and questioned, stated in his testimony that on 19.09.2023 at approximately 13:00, while carrying out an attack as part of a group of 24 persons from the Kalbajar district in the direction of Aghdere for the purpose of preventing a provocation by unlawful Armenian armed formations, he was wounded as a result of small-arms fire by terrorists of Armenian origin; serviceman Ilham Shamshiev, who was with him, was killed.

Volume 24, case file sheets: 199–202.

[Page 1111]

According to forensic medical expert opinion No. 629 dated 23.09.2023, a non-penetrating, penetrating wound of the soft tissues of the left half of the chest on the body of Alekperov Nasib Telman oglu arose as a result of the impact of a bullet fired from a firearm. This is usually classified as less serious harm to health, which, by virtue of its degree, causes prolonged impairment.

Volume 285, case file sheets: 216–217.

The commander of the 1st motor-vehicle section of the motor-vehicle platoon of the logistics support unit of the military unit of the Ministry of Defence, Junior Sergeant Aliyev Parviz Agali oglu, who was recognised as a victim and questioned, stated in his testimony that on the evening of 19 September 2023, while moving with a group of personnel of the Internal Troops of the Ministry of Internal Affairs after passing the “KG 24” combat position located in the Kalbajar district, for the purpose of suppressing provocations by unlawful Armenian armed formations, he was ambushed and fired upon by terrorists of Armenian nationality. As a result, serviceman Parviz Shukuroglu sustained an injury, and serviceman Niftali Orujev was killed.

Volume 24, case file sheets: 207–210.

According to forensic medical expert opinion No. 664 dated 21.11.2023, the bodily injuries sustained by Aliyev Parviz Agali oglu — a penetrating wound of the left lower leg accompanied by multiple displaced open fractures of the fibula and tibia (fibula and tibia bones) — arose as a result of the impact of a bullet (projectile) fired from a loaded weapon and, according to the degree of severity, constitute serious harm to health.

Volume 53, case file sheets: 79–80.

The commander of the 2nd group of the 2nd platoon of the 7th company of the 3rd battalion of the military unit of the Ministry of Defence, Warrant Officer Zeynalov Shukur Dilgam oglu, who was recognised and questioned as a victim, stated in his testimony that on 19.09.2023 at approximately 15:30, while carrying out an advance as part of a group of 27 persons from the territory of the Kalbajar district in the direction of Aghdere for the purpose of preventing a provocation by unlawful Armenian armed formations, he and the servicemen who were with him, Kamal Musaev and Shakhriyar Huseynov, sustained injuries as a result of fire opened by terrorists of Armenian origin, while Amid Gadirov, Huseyn Mustafayev, Asim Abdullayev and Mirza Mirzaliyev were killed.

Volume 24, case file sheets: 215–218.

[Page 1112]

According to forensic medical expert opinion No. 632 dated 23.09.2023, the function of the left upper limb of Zeynalov Shukur Dilgam oglu was temporarily impaired; a penetrating wound of the left side with a displaced comminuted open fracture of the scapula — a non-penetrating penetrating wound of the soft tissues of the left half of the chest — was caused by a bullet fired from a firearm. It falls within the category of less serious harm to health, causing prolonged harm overall.

Volume 285, case file sheets: 228–229.

Soldier Atali Soltanali Ismail oglu, a serviceman of the 2nd group of the 3rd platoon of the 1st company of the 1st battalion of the military unit of the Ministry of Defence, who was recognised as a victim and questioned, stated in his testimony that on 19.09.2023 at approximately 13:00, while carrying out an advance as part of a group of 14 persons towards the village of Vangli in the Kalbajar district for the purpose of suppressing a provocation by unlawful Armenian armed formations, he and the servicemen who were with him, Fariz Fatullaev, Nemat Askerov and Tural Isaev, sustained injuries as a result of the explosion of a mortar shell fired by terrorists of Armenian origin.

Volume 24, case file sheets: 223–226.

According to forensic medical expert opinion No. 630 dated 23.09.2023, a blind wound of the anterior surface of the lower third of the right lower leg was identified on the body of Atali Soltanali Ismail oglu, accompanied by a somewhat displaced open fracture of the distal metaphysis of the right fibula, which resulted in temporary impairment of the function of the lower limb; a blind wound of the soft tissues of the right thigh — a gunshot wound — caused by fragments from the explosion of a shell, according to its degree, usually constitutes less serious harm to health.

Volume 285, case file sheets: 249–250.

Junior Sergeant Aliyev Nijat Arzuman oglu, a rifleman of the 2nd group of the 4th platoon of the 7th company of the 3rd battalion of the military unit of the Ministry of Defence, who was recognised and questioned as a victim, stated in his testimony that on 19 September 2023 at approximately 13:00, while carrying out an advance as part of a group of 22 persons in the direction of Aghdere from the territory of the Kalbajar district for the purpose of preventing a provocation by unlawful Armenian armed formations, he and serviceman Ali Magerramov, who was with him, sustained injuries as a result of fire opened by terrorists of Armenian origin.

Volume 24, case file sheets: 231–234.

[Page 1113]

According to forensic medical expert opinion No. 627 dated 26.12.2023, the bodily injuries sustained by Aliyev Nijat Arzuman oglu — a blind wound of the right thigh, with a metallic foreign body in the soft tissues — were caused by a fragment from the explosion of a firearm, while the wound of the soft tissues of the right lower leg was caused by a firearm. According to the degree of severity, they, as a rule, constitute less serious harm to health.

Volume 369, case file sheets: 1–276.

The commander of the 1st group of the 1st platoon of the 8th company of the 3rd operational battalion of the military unit of the Ministry of Defence, Warrant Officer Mammadov Famil Elkhan oglu, who was recognised as a victim and questioned, stated in his testimony that on 19 September 2023 at approximately 13:00, while carrying out an advance as part of a group of 27 persons in the village of Vangli in the Kalbajar district for the purpose of preventing a provocation by unlawful Armenian armed formations, he and the servicemen who were with him were fired upon by terrorists of Armenian origin. Nasib Alekperov sustained an injury, while Ilham Shamshiev was killed.

Volume 24, case file sheets: 239–242.

According to forensic medical expert opinion No. 616 dated 23.09.2023, there were two tangential through-and-through wounds in the area of the right lower leg on the body of Mammadov Famil Elkhan oglu, caused by the impact of fragments formed during the explosion of a firearm projectile; according to their degree, they constitute minor harm to health causing short-term impairment of health overall.

Volume 285, case file sheets: 192–193.

The commander of the 2nd group of the 3rd platoon of the 3rd company of the 1st operational battalion of the military unit of the Ministry of Defence, Warrant Officer Budagov Bakhtiyar Mushvig oglu, who was recognised as a victim and questioned, stated in his testimony that on 19.09.2023 at approximately 13:00, while carrying out an advance as part of a group of 12 persons in the village of Vangli in the Kalbajar district for the purpose of suppressing a

provocation by unlawful Armenian armed formations, he and servicemen Surat Miriev, Elvin Mammadov, Vusal Shakhgulyev and Imran Bayramov sustained injuries as a result of small-arms fire by terrorists of Armenian origin.

Volume 24, case file sheets: 247–250.

According to forensic medical expert opinion No. 614 dated 23.09.2023, a blind wound on the posterior surface of the right half of the chest, not penetrating into the cavity, and metallic foreign bodies in the soft tissues identified on the body of Budagov Bakhtiyar Mushvig oglu were caused by the impact of fragments formed during the explosion of a

[Page 1114]

firearm projectile and, according to their degree, are usually classified as minor harm to health causing short-term harm to health.

Volume 285, case file sheets: 204–205.

Shirinov Murad Isa oglu, a scout-grenade launcher operator of the 2nd group of the 4th platoon of the 7th company of the 3rd battalion of the military unit of the Ministry of Defence, a serviceman of the Military Police of the Republic of Azerbaijan (MANNXNQ), who was recognised as a victim and questioned, stated in his testimony that on 19 September 2023 at approximately 13:00, while carrying out an advance as part of a group of 14 persons near the village of Vangli in the Kalbajar district for the purpose of suppressing a provocation by unlawful Armenian armed formations, he and servicemen Ali Magerramov and Nijat Aliyev, who were with him, sustained injuries as a result of fire from various types of weapons opened by terrorists of Armenian origin.

Volume 26, case file sheets: 5–8.

According to forensic medical expert opinion No. 642 dated 26.12.2023, the bodily injuries sustained by Shirinov Murad Isa oglu — a penetrating wound of the soft tissues of the right foot — arose as a result of the impact of a bullet (projectile) fired from a firearm. According to the degree of severity, it was classified as minor harm to health resulting in short-term impairment of health. A thermal burn wound of limited dimensions on the dorsal surface of the right hand arose as a result of the local effect of high temperature, the degree of which has not been determined because it is an injury of a non-dangerous nature.

Volume 369, case file sheets: 1–276.

Junior Sergeant Muradov Kamran Heydar oglu, a scout-sniper of the 1st group of the 4th platoon of the 1st company of the 1st battalion of the military unit of the Ministry of Defence, who was recognised as a victim and questioned, stated in his testimony that on 19 September 2023 at approximately 14:00, while carrying out an advance as part of a group of 20 persons in the direction of the village of Vangli in the Kalbajar district for the purpose of suppressing a provocation by unlawful Armenian armed formations, he and servicemen Emin Jafarov and

Kalandar Abbasov, who were with him, sustained injuries, while Ruslan Lalaev and Tural Jahangirov were killed as a result of fire from various types of weapons opened by terrorists of Armenian origin.

Volume 26, case file sheets: 13–17.

According to forensic medical expert opinion No. 1997 dated 13.11.2023, the bodily injuries sustained by Muradov Kamran Heydar oglu —

[Page 1115]

barotrauma accompanied by a blind shrapnel wound of the soft tissues of the right thigh and acute right-sided tubo-otitis, arising as a result of the combined effect of fragments and the shock wave generated by the explosion of an explosive shell (high-explosive shell), both together and separately, constitute minor harm to health causing short-term deterioration of health.

Volume 52, case file sheets: 201–202.

The commander of the 1st group of the 2nd platoon of the 1st company of the 3rd battalion of the military unit of the Ministry of Defence, Warrant Officer Jafarov Emin Inam oglu, who was recognised as a victim and questioned, stated in his testimony that on 19.09.2023 at approximately 14:00, while carrying out an advance as part of a group of 20 persons in the direction of the village of Vangli in the Kalbajar district for the purpose of suppressing a provocation by unlawful Armenian armed formations, he and serviceman Kamran Muradov, who was with him, sustained injuries, while Ruslan Lalaev and Tural Jahangirov were killed as a result of fire from various types of weapons opened by terrorists of Armenian origin.

Volume 26, case file sheets: 20–23.

According to forensic medical expert opinion No. 1999 dated 18.11.2023, the bodily injuries sustained by Jafarov Emin Inam oglu — a blind bullet wound of the soft tissues of the left shoulder caused by a shot from a firearm; a blind shrapnel wound of the soft tissues of the upper third of the base and barotrauma of the left ear, accompanied by acute left-sided cochlear neuritis, arising as a result of the combined effect of fragments and the shock wave generated by the explosion of an explosive shell (high-explosive shell) — both together and separately constitute minor harm to health causing short-term deterioration of health.

Volume 52, case file sheets: 241–242.

Junior Sergeant Askerov Nemat Akper oglu, a scout-fortification specialist of the 1st group of the 3rd platoon of the 1st company of the 1st battalion of the military unit of the Ministry of Defence, who was recognised as a victim and questioned, stated in his testimony that on 19.09.2023 at approximately 14:30, while carrying out an advance as part of a group of 18–20 persons in the direction of the village of Vangli in the Kalbajar district for the purpose of suppressing a provocation by unlawful Armenian armed formations, as a result of fire from

various weapons opened by terrorists of Armenian origin, he and servicemen Tural Isaev and Fariz Fatullaev, who were with him, sustained injuries, while Ruslan Lalaev and Tural Jahangirov were killed.

Volume 26, case file sheets: 30–33.

[Page 1116]

According to forensic medical expert opinion No. 1998 dated 14.11.2023, the injury sustained by Askerov Nemat Akper oglu — a penetrating gunshot wound resulting in damage to the soft tissues of 1/3 of the left side and the left median nerve — was sustained as a result of a shot from a firearm and is classified as minor harm to health.

Volume 52, case file sheets: 207–208.

Senior Sergeant (MANNXNQ) Shafizade Ravan Agarahim oglu, a medic-instructor of the medical unit of the 3rd operational battalion of the military unit of the Ministry of Defence, who was recognised and questioned as a victim, stated in his testimony that on 19.09.2023 at approximately 13:00 he sustained injuries as a result of fire from various types of weapons by terrorists of Armenian origin, while carrying out an advance as part of a group numbering approximately 90–100 persons in the area of the village of Vangli in the Kalbajar district for the purpose of preventing a provocation by unlawful Armenian armed formations.

Volume 26, case file sheets: 38–41.

According to forensic medical expert opinion No. 651 dated 23.09.2023, an impact was inflicted on the soft tissues in the area of the right ankle joint of Shafizade Ravan Agarahim oglu, accompanied by swelling and bruising, by a blunt mechanism, a hard blunt object, and according to the degree of severity it constitutes minor harm to health resulting in short-term impairment of health.

Volume 285, case file sheets: 225–226.

Imamguliyev Tural Kamaladdin oglu, a rifleman of the 1st search group of the post-patrol section of the 2nd special-purpose detachment of the military unit of the Internal Troops of the Ministry of Internal Affairs, Senior Sergeant (MANNXNQ), who was recognised as a victim and questioned, stated in his testimony that on 19.09.2023 at approximately 13:00, while carrying out an advance as part of a group numbering approximately 40–45 persons near the village of Vangli in the Kalbajar district for the purpose of preventing a provocation by unlawful Armenian armed formations, terrorists of Armenian origin organised an ambush and opened fire from various types of weapons, as a result of which injuries were sustained.

Volume 26, case file sheets: 46–49.

According to forensic medical expert opinion No. 673 dated 26.12.2023, the bodily injuries sustained by Imamguliyev Tural Kamaladdin oglu — blind wounds of the left periorbital

region and the area of the left lower leg, accompanied by bruising — arose as a result of the impact of metallic foreign bodies, namely fragments formed during the explosion of explosive

[Page 1117]

combat munitions, and overall, according to the degree of severity, constitute minor harm to health.

Volume 369, case file sheets: 1–276.

Officer scout-fortification specialist of the 1st operational group of the 3rd operational platoon of the 3rd operational division of the 1st operational battalion of the military unit of the Ministry of Defence, Private (MANNXNQ) Bayramov Imran Rahman oglu, who was recognised as a victim and questioned, stated in his statement that on 19.09.2023 at approximately 13:00, while carrying out an advance as part of a group numbering approximately 12 persons near the village of Vangli in the Kalbajar district for the purpose of suppressing a provocation by unlawful Armenian armed formations, he and the servicemen who were with him — Huseyn Amirov, Surat Miriev, Bakhtiyar Budagov, Elvin Mammadov and Vusal Shakhguliyeu — sustained injuries as a result of fire from various types of weapons opened by terrorists of Armenian origin.

Volume 26, case file sheets: 54–57.

According to forensic medical expert opinion No. 660 dated 26.12.2023, the bodily injuries sustained by Bayramov Imran Rahman oglu — blind wounds of the right cheek and the left corner of the mouth, multiple metallic foreign bodies in the soft tissues of the right cheek — were caused by the impact of fragments formed during the explosion of explosive combat munitions and, according to the degree of severity, are usually classified as minor harm to health.

Volume 369, case file sheets: 1–276.

Junior Sergeant (MANNXNQ) Khalilov Rakhil Vagif oglu, a topographic surveyor of the fire-control section of the 12th self-propelled artillery battery of the 4th self-propelled artillery division of the military unit of the Ministry of Defence, who was recognised as a victim and questioned, stated in his testimony that on 19.09.2023 at approximately 13:00, while carrying out an advance as part of a group numbering approximately 25 persons near the village of Vangli in the Kalbajar district for the purpose of preventing a provocation by unlawful Armenian armed formations, as a result of the explosion of an artillery shell fired by terrorists of Armenian origin, he and the servicemen who were with him, Ifikhar Abdullaev, Ramil Allakhyarov and Rustam Rustamov, sustained injuries, while Sanan Gasimov and Shamistyan Yusifli were killed.

Volume 26, case file sheets: 62–65.

According to forensic medical expert opinion No. 649 dated 26.12.2023, the bodily injuries sustained by Khalilov Rakhil Vagif oglu — a haematoma of both upper eyelids accompanied by subconjunctival haemorrhage of the sclera of the

[Page 1118]

eyeballs; multiple superficial wounds of the forehead, the right eye and both cheekbones caused by the blast wave generated by the explosion of a firearm projectile and by secondary fragments from a blunt object — are generally classified as minor harm to health.

Volume 369, case file sheets: 1–276.

Intelligence officer of the 1st operational group of the 1st operational platoon of the 7th operational division of the 3rd operational battalion of the military unit of the Ministry of Defence, Private of the Military Police of the Republic of Azerbaijan (MANNXNQ) Ediyarov Shaig Khanbaba oglu, who was recognised as a victim and questioned, stated in his statement that on 19.09.2023 at approximately 13:00, while carrying out an attack as part of a group numbering approximately 25 persons near the village of Vangli in the Kalbajar district for the purpose of suppressing a provocation by unlawful Armenian armed formations, he and serviceman Ramal Rustamov, who was with him, sustained injuries, while Hasan Hasanov was killed as a result of fire from various types of weapons opened by Armenian terrorists.

Volume 26, case file sheets: 78–81.

According to forensic medical expert opinion No. 628 dated 23.09.2023, a non-penetrating penetrating wound of the right frontotemporal region on the body of Ediyarov Shaig Khanbaba oglu, accompanied by subcutaneous haemorrhage in the right periorbital region, arose as a result of the impact of a bullet fired from a firearm loaded with a bullet (cartridge case), and falls within the category of minor harm to health.

Volume 285, case file sheets: 246–247.

Binyatov Orkhan Elkhan oglu, a scout-grenade launcher operator of the 2nd operational group of the 1st operational platoon of the 3rd operational section of the 1st operational battalion of the military unit of the Ministry of Defence, Private (MANNXNQ), who was recognised as a victim and questioned, stated in his testimony that on 19.09.2023 at approximately 14:00, while carrying out an advance as part of a group of 60–70 persons in the direction of the village of Vangli in the Kalbajar district for the purpose of suppressing a provocation by unlawful Armenian armed formations, he sustained an injury as a result of fire from various types of weapons by terrorists of Armenian origin.

Volume 26, case file sheets: 86–89.

According to forensic medical expert opinion No. 622 dated 26.12.2023, the bodily injuries sustained by Binyatov Orkhan Elkhan oglu — blind wounds in the area of the right lower leg

and metallic foreign bodies in the soft tissues — arose as a result of the impact of fragments formed during the explosion of a

[Page 1119]

firearm projectile and, according to the degree of severity, are generally classified as minor harm to health.

Volume 369, case file sheets: 1–276.

Mustafayev Shirkhan Sadiyar oglu, a radiotelephone operator of the 4th operational section of the 2nd operational battalion of the military unit of the Ministry of Defence, Private (MANNXNQ), who was recognised and questioned as a victim, stated in his testimony that on 19 September 2023 at approximately 13:00, while carrying out an advance as part of a group numbering approximately 68 persons near the village of Vangli in the Kalbajar district for the purpose of preventing a provocation by unlawful Armenian armed formations, he and servicemen Elgun Namazov and Rovshan Mustafayev, who were with him, sustained injuries as a result of fire from various types of weapons opened by terrorists of Armenian origin.

Volume 26, case file sheets: 94–97.

On the basis of forensic medical expert opinion No. 709 dated 24.04.2024, it was established that the bodily injuries sustained by Mustafayev Shirkhan Sadiyar oglu — a condition following primary surgical treatment of a wound (20.09.2023) due to a penetrating gunshot (bullet) wound in the area between the second and third toes of the right foot — were caused by a shot from a firearm loaded with a bullet and, according to the degree of severity, are generally classified as minor harm to health causing short-term impairment of health.

Volume 369, case file sheets: 1–276.

Mammadov Elvin Oktay oglu, a scout-operator of the 2nd operational group of the 3rd operational platoon of the 3rd operational unit of the 1st operational battalion of the military unit of the Ministry of Defence, Sergeant (MANNXNQ), who was recognised as a victim and questioned, stated in his testimony that on 19.09.2023 at approximately 13:00, while carrying out an advance as part of a group numbering approximately 12 persons near the village of Vangli in the Kalbajar district for the purpose of suppressing a provocation by unlawful Armenian armed formations, he and servicemen Surat Miriev and Vusal Shakhgulyev, who were with him, sustained injuries as a result of fire from various types of weapons opened by Armenian terrorists.

Volume 26, case file sheets: 102–105.

According to forensic medical expert opinion No. 655 dated 23.09.2023, multiple blind wounds of the left eyeball and both eyeballs were identified on the body of Mammadov Elvin Oktay oglu, resulting in a reduction of visual acuity to 0.8 in the right eye and to 0.3 in the

left eye; a haematoma of the left periorbital region, subconjunctival haemorrhage of the sclera of the left eyeball, and the presence of

[Page 1120]

metallic foreign bodies in both eyeballs; multiple blind wounds of the forehead, with metallic foreign bodies in the soft tissues; multiple blind wounds of the dorsal surfaces of both hands caused by fragments from the explosion of a firearm, which, by their severity, usually result in prolonged impairment of health and are classified as less serious harm to health.

Volume 285, case file sheets: 237–238.

Huseynov Vugar Ilham oglu, a scout-radiotelephone operator of the 1st operational platoon of the 1st operational section of the 1st operational battalion of the military unit of the Ministry of Defence, Private (MANNXNQ), who was recognised as a victim and questioned, stated in his testimony that on 19 September 2023 at approximately 13:00, while carrying out an advance as part of a group numbering approximately 12 persons near the village of Vangli in the Kalbajar district for the purpose of preventing a provocation by unlawful Armenian armed formations, he and servicemen Madat Omarov and Togrul Gumbatzade, who were with him, sustained injuries as a result of fire from various types of weapons opened by terrorists of Armenian origin.

Volume 26, case file sheets: 110–113.

According to forensic medical expert opinion No. 656 dated 26.12.2023, the bodily injuries sustained by Huseynov Vugar Ilham oglu — tangential wounds of the right forearm and right hand — were caused by primary or secondary shrapnel of a blunt mechanism formed during the explosion of explosive munitions and, according to the degree of severity, are usually classified as minor harm to health.

Volume 369, case file sheets: 1–276.

Samedov Tural Farhad oglu, driver-mechanic of the 4th gun of the 2nd fire platoon of the 12th self-propelled artillery battery of the 4th self-propelled artillery division of the military unit of the Ministry of Defence, Private (MANNXNQ), whose identity was established and who was questioned as a victim, stated in his testimony that on 19 September 2023 at approximately 13:00, while carrying out an advance as part of a group numbering approximately 27 persons near the village of Vangli in the Kalbajar district for the purpose of preventing a provocation by unlawful Armenian armed formations, he and the servicemen who were with him — Iftikhar Abdullaev, Ramil Allakhyarov, Rustam Rustamov and Rakhil Khalilov — sustained injuries, while Sanan Gasimov and Shamistyan Yusifli were killed.

Volume 26, case file sheets: 118–121.

[Page 1121]

On the basis of forensic medical expert opinion No. 636 dated 26.12.2023, it was established that the bodily injuries sustained by Samedov Tural Farhad oglu — post-traumatic cataract resulting in a reduction of the visual acuity of the right eye to 0.5; damage to the cornea of the right eyeball, accompanied by hyphema (haemorrhage into the anterior chamber of the eyeball), clouding of the lens and subconjunctival haemorrhage; a wound to the lateral angle of the palpebral fissure of the right upper eyelid, accompanied by oedema and a haematoma of the periorbital region; a blind wound of the nasal region caused by the blast wave generated by the explosion of explosive combat munitions and by secondary fragments from a primary and blunt mechanism — according to the degree of severity constitute less serious harm to health causing a significant (10%) permanent loss of general working capacity, overall amounting to less than one third.

Volume 369, case file sheets: 1–276.

The head of intelligence of the 1st group of the 2nd operational platoon of the 7th company of the 3rd battalion of the military unit of the Ministry of Defence, Junior Sergeant Magomedov Farid Faig oglu, whose identity was established and who was questioned as an injured person, stated in his testimony that on 19 September 2023 at approximately 13:00, while carrying out an attack as part of a group numbering approximately 25–27 persons near the village of Charakdar in the Aghdere district for the purpose of preventing a provocation by unlawful Armenian armed formations, a mine planted by Armenian terrorists exploded, as a result of which serviceman Shakhriyar Huseynov, who was with him, was injured. During the evacuation, servicemen Shukur Zeynalov, Kamal Musaev and Rafik Adishli sustained injuries.

Volume 26, case file sheets: 130–133.

According to forensic medical expert opinion No. 639 dated 23.09.2023, Magomedov Farid Faig oglu had a traumatic avulsion of the left lower limb at the level of the lower third of the lower leg, complicated by moderate post-haemorrhagic anaemia and accompanied by traumatic-haemorrhagic shock of grade III–IV; a closed craniocerebral injury resulting in concussion of the brain; blind wounds of the soft tissues of the right hand caused by the blast wave generated by the explosion of a firearm projectile, by a primary and blunt mechanism, and by a secondary fragment, which, according to the degree of severity, constitute serious harm to health. Of the injuries specified, “loss of the left lower limb at the level of the middle third of the lower leg” is also classified as serious harm to health resulting in a permanent (sustained) loss of more than 1/3 (50%) of general working capacity.

[Page 1122]

Volume 285, case file sheets: 231–232.

Junior Sergeant Huseynov Shakhriyar Shakir oglu, a member of the reconnaissance group of the 1st group of the 2nd platoon of the 7th company of the 3rd battalion of the military unit of the Ministry of Defence, who was recognised and questioned as a victim, stated in his

testimony that on 19 September 2023 at approximately 13:00, while carrying out an advance as part of a group numbering approximately 25–27 persons near the village of Charakdar in the Aghdere district for the purpose of preventing a provocation by unlawful Armenian armed formations, he and serviceman Farid Magomedov, who was with him, sustained injuries as a result of the explosion of a mine planted by terrorists of Armenian origin.

Volume 26, case file sheets: 136–139.

According to forensic medical expert opinion No. 640 dated 23.09.2023, Huseynov Shakhriyar Shakir oglu had a traumatic amputation of the left lower limb at the level of 1/3 of the lower leg, complicated by post-haemorrhagic anaemia, as a result of which there was loss of the left lower limb at the level of 1/3 of the lower leg, accompanied by traumatic-haemorrhagic shock of grade III–IV. The injury is classified as serious harm to health caused by the impact of fragments generated by the explosion of a projectile (munition) possessing explosive properties and, according to the degree of severity, is generally classified as serious harm to health. The injury is also classified as serious harm to health resulting in a permanent (sustained) loss of more than 1/3 (50%) of general working capacity.

Volume 285, case file sheets: 198–199.

Private (MANNXHQ) Musaev Kamal Bakhrus oglu, a serviceman of the reconnaissance personnel of the 2nd operational group of the 2nd operational platoon of the 7th operational division of the 3rd operational battalion of the military unit of the Ministry of Defence, who was recognised and questioned as a victim, stated in his statement that on 19.09.2023 at approximately 13:00, while carrying out an advance as part of a group numbering approximately 20–25 persons near the village of Charakdar in the Aghdere district for the purpose of preventing a provocation by unlawful Armenian armed formations, he sustained an injury as a result of fire from various types of weapons by unlawful Armenian armed formations.

Volume 26, case file sheets: 144–147.

According to forensic medical expert opinion No. 1996 dated 13.11.2023, the bodily injury sustained by Musaev Kamal Bakhrus oglu — a penetrating gunshot wound of the soft tissues of the middle 1/3 of the outer surface of the right

[Page 1123]

forearm — constitutes minor harm to health caused by a firearm and resulting in short-term impairment of health.

Volume 52, case file sheets: 204–205.

ShakhguliyeV Vusal Mazakhir oglu, a scout-operator of the 2nd operational group of the 1st operational platoon of the 3rd company of the 1st battalion of the military unit of the Ministry of Defence, a serviceman of the Military Intelligence Service of the Republic of Azerbaijan

(MANNXHQ), who was recognised and questioned as a victim, stated in his statement that on 19 September 2023 at approximately 13:00, while carrying out an advance as part of a group numbering approximately 15 persons near the village of Charakdar in the Aghdere district for the purpose of preventing a provocation by unlawful Armenian armed formations, he sustained an injury as a result of fire from various types of weapons by terrorists of Armenian origin.

Volume 26, case file sheets: 154–157.

Volume 194, case file sheets: 62–66.

According to forensic medical expert opinion No. 689 dated 26.12.2023, the bodily injuries sustained by Shakhgulyev Vusal Mazakhir oglu were: a penetrating wound of the second finger of the right hand, accompanied by a comminuted, displaced, open fracture of the distal phalanx; acute right-sided cochlear neuritis as a consequence of barotrauma; multiple blind wounds of the left upper limb as a consequence of compression-ischaemic neuropathy of the median and ulnar nerves, with metallic foreign bodies in the soft tissues; multiple blind wounds of the left paraorbital region, the right temple, the right upper and both lower extremities, both buttocks, with metallic foreign bodies in the soft tissues; crushing of the soft tissues of the inner surface of the left thigh with a subcutaneous haematoma. Of the injuries listed, the penetrating wound of the second finger of the right hand, accompanied by a comminuted, displaced, open fracture of the distal phalanx, was caused by the impact of a bullet (projectile) fired from a firearm, while the remaining injuries were caused by the blast wave generated by the explosion of explosive combat munitions and by secondary fragments from a primary and blunt weapon and, according to the degree of severity, constitute less serious harm to health overall and separately.

Volume 369, case file sheets: 1–276.

Private Abbasov Kalandar Shaadat oglu, a serviceman of the 1st section of the 4th platoon of the 1st company of the 1st battalion of the military unit of the Ministry of Defence, whose identity was established and who was questioned as a victim, stated in his statement that on 19.09.2023 at approximately 14:00, while carrying out an advance as part of a group of 14 persons in the direction of

[Page 1124]

the village of Vang in the Kalbajar district for the purpose of preventing a provocation by unlawful Armenian armed formations, he sustained injuries as a result of fire from various types of weapons by terrorists of Armenian origin.

Volume 26, case file sheets: 164–167.

According to forensic medical expert opinion No. 684 dated 30.11.2023, the blind wounds on the body of Abbasov Kalandar Shaadat oglu, both in the area of the dressing and in the soft

tissues, arose as a result of the impact of metallic foreign bodies — fragments generated by the explosion of a firearm projectile — which constitutes minor harm to health.

Volume 285, case file sheets: 252–253.

Private (MANNXHQ) Musaev Elgun Zakir oglu, a rifleman of the 2nd subgroup of the 1st special means deployment group of the post-patrol detachment of the 2nd special means deployment group of the military unit of the Internal Troops of the Ministry of Internal Affairs, who was recognised as a victim and questioned, stated the following in his statement:

[The following passage appears in Azerbaijani in the source:] Having been recognised as a victim and questioned, Musaev Elgun Zakir oglu, a MANNXHQ soldier, rifleman of the 2nd subgroup of the 1st special means deployment group of the post-patrol section of the 2nd special means deployment detachment of the military unit of the Internal Troops of the Ministry of Internal Affairs, stated in his testimony that on 19.09.2023 at approximately 13:00, while carrying out an advance as part of a group numbering approximately 100 persons near the village of Vangli in the Kalbajar district for the purpose of preventing a provocation by unlawful Armenian armed formations, he was ambushed by Armenian terrorists and sustained injuries as a result of fire from various types of weapons.

Volume 26, case file sheets: 172–175.

According to forensic medical expert opinion No. 670 dated 21.11.2023, the bodily injuries sustained by Musaev Elgun Zakir oglu constitute a penetrating wound of the left lower leg accompanied by a multi-comminuted, open, displaced fracture of the ulna; a penetrating wound of the soft tissues in the area of the right knee joint arose as a result of the impact of a bullet (projectile) fired from a loaded weapon, and numerous blind wounds around both legs arose as a result of the impact of fragments generated by the explosion of an explosive weapon.

Volume 53, case file sheets: 83–84.

Warrant Officer Abdullaev Iftikhar Nasib oglu, deputy commander of the 12th self-propelled artillery battery of the 2nd fire platoon of the 4th self-propelled artillery division of the military unit of the Ministry of Defence, who was recognised and questioned as a victim, stated in his testimony that on 19 September 2023 at approximately 13:00, while carrying out an advance as part of a group numbering approximately 25 persons near the village of Vangli in the Kalbajar district for the purpose of preventing a provocation by

[Page 1125]

unlawful Armenian armed formations, he and the servicemen who were with him, Rakhil Khalilov, Ramil Allakhyarov and Rustam Rustamov, sustained injuries, while Sanan Gasimov and Shamistyan Yusifli were killed as a result of an artillery shell fired by terrorists of Armenian origin.

Volume 26, case file sheets: 180–183.

According to forensic medical expert opinion No. 637 dated 23.09.2023, Abdullaev Iftikhar Nasib oglu had the following bodily injuries: a blind wound of the soft tissues of the forehead; a penetrating wound in the area of the right knee joint with damage to the patellar ligament, a multiple displaced fracture of the patella, and an open fracture of the patella; multiple blind wounds of the dorsal surface of the left hand, sustained as a result of the impact of the blast wave generated by the explosion of a firearm projectile, primary and blunt mechanisms, as well as secondary fragments, which, according to the degree of severity, as a rule, require prolonged treatment and constitute less serious harm to health.

Volume 285, case file sheets: 201–202.

Private Khalfayev Simurg Nurali oglu, a serviceman of the reconnaissance-combat group of the 1st operational platoon of the 8th operational unit of the 3rd operational battalion of the military unit of the Ministry of Defence, who was recognised and questioned as a victim, stated in his statement that on 19.09.2023 at approximately 13:00, while carrying out an advance as part of a group numbering approximately 18 persons near the village of Vangli in the Kalbajar district for the purpose of suppressing a provocation by unlawful Armenian armed formations, he sustained injuries as a result of fire from various types of weapons by terrorists of Armenian origin.

Volume 26, case file sheets: 188–191.

According to forensic medical expert opinion No. 650 dated 26.12.2023, the bodily injuries sustained by Khalfayev Simurg Nurali oglu — a penetrating wound of the right hand accompanied by a multiple open fracture of the body of the third metacarpal bone caused by the impact of a bullet (projectile) fired from a firearm; damage to the ulnar artery, a slightly displaced open fracture of the distal epiphysis of the ulna, as well as a blind wound in the area of the left radiocarpal joint accompanied by the presence of a metallic foreign body in the soft tissues, caused by the impact of fragments generated by the explosion of a firearm projectile — according to the degree of severity constitute less serious harm to health overall and separately.

Volume 369, case file sheets: 1–276.

[Page 1126]

Mammadov Asif Bakhtiyar oglu, a rifleman (MANNXHQ) of the 2nd subgroup of the 2nd group of the post-patrol section of the 2nd special means deployment detachment of the military unit of the Internal Troops of the Ministry of Internal Affairs, whose identity was established as a victim and who was questioned, stated in his statement that on 20.09.2023 at approximately 3–4 p.m., while carrying out an attack as part of a group numbering approximately 115 persons near the village of Vangli in the Kalbajar district for the purpose of preventing a provocation by unlawful Armenian armed formations, they were ambushed

by terrorists of Armenian nationality and fired upon with various types of weapons; he and servicemen Samir Mirzaev, Ramin Aliev, Shamil Israfilov, Balahasan Kerimov, Vidadi Khaniev, Rashad Huseynov, Ariz Gashimov, Nijat Mammadov, Elgun Musaev, Bakir Pashaev and others who were with him sustained injuries. During the incident, Niftali Orujev, Sahil Babaev, Elvin Akhmedov, Zakhir Aliev, Ramin Huseynov, Suleyman Mekhtiyev, Azer Mammadov, Farid Nabiyeu, Vagif Radzhabov, Samir Sadygov, Jamal Samadov, Rashad Velizade and Khayyam Samadov were killed.

Volume 26, case file sheets: 204–208.

According to forensic medical expert opinion No. 672 dated 26.12.2023, the bodily injuries sustained by Mammadov Asif Bakhtiyar oglu — a blunt wound in the shoulder area accompanied by a fragment, an open fracture of the left clavicle; multiple blunt wounds of the left hand and both buttocks, with metallic foreign bodies in the soft tissues, caused by fragments generated by the explosion of explosive combat munitions — overall constitute less serious harm to health.

Volume 369, case file sheets: 1–276.

Soldier Rasulov Samit Namig oglu, a rifleman (MANNXHQ) of the 1st subgroup of the 1st group of the post-patrol section of the 2nd special means deployment detachment of the military unit of the Internal Troops of the Ministry of Internal Affairs, who was recognised as a victim and questioned, stated in his statement that on 20.09.2023 at approximately 3–4 a.m., while carrying out an advance as part of a group numbering approximately 115 persons near the village of Vangli in the Kalbajar district for the purpose of suppressing a provocation by unlawful Armenian armed formations, he was ambushed by terrorists of Armenian nationality and sustained injuries as a result of fire from various types of weapons.

Volume 26, case file sheets: 213–217.

According to forensic medical expert opinion No. 57 dated 20.02.2024, the bodily injuries sustained by Rasulov Samit Namig oglu — a closed craniocerebral injury accompanied by concussion of the brain, blunt trauma to the area of the left knee joint, and crushing of the soft tissues — were caused by a blunt

[Page 1127]

mechanism, by the impact of a hard blunt object and, according to the degree of severity, generally constitute minor harm to health.

Volume 369, case file sheets: 1–276.

Private (MANNXHQ) Gashimov Ariz Anar oglu, a rifleman of the 2nd subgroup of the 2nd group of the post-patrol detachment of the 2nd special means deployment detachment of the military unit of the Internal Troops of the Ministry of Internal Affairs, who was recognised as a victim and questioned, stated in his statement that on 20.09.2023 at approximately 3–4 a.m.,

while carrying out an advance as part of a group numbering approximately 115 persons near the village of Vangli in the Kalbajar district for the purpose of suppressing a provocation by unlawful Armenian armed formations, he was ambushed by Armenian terrorists and sustained injuries as a result of fire from various types of weapons.

Volume 26, case file sheets: 222–226.

According to forensic medical expert opinion No. 674 dated 20.11.2023, the injury sustained by Gashimov Ariz Anar oglu — a blind wound of the right thigh — arose as a result of metallic foreign bodies, namely fragments generated by the explosion of a firearm projectile, entering the soft tissues and, overall, constitutes minor harm to health.

Volume 53, case file sheets: 67–68.

Private Gyulaliyev Nazir Khalai oglu, a rifleman of the 2nd subgroup of the 2nd group of the post-patrol detachment of the 2nd special means deployment detachment of the military unit of the Internal Troops of the Ministry of Internal Affairs, who was recognised as a victim and questioned, stated in his statement that on 20.09.2023 at approximately 3–4 a.m., while carrying out an advance as part of a group numbering approximately 115 persons near the village of Vangli in the Kalbajar district for the purpose of suppressing a provocation by unlawful Armenian armed formations, he was ambushed by Armenian terrorists and sustained injuries as a result of fire from various types of weapons.

Volume 26, case file sheets: 231–234.

According to forensic medical expert opinion No. 675 dated 26.12.2023, the bodily injuries sustained by Gyulaliyev Nazir Khalai oglu — right-sided pneumothorax (accumulation of free air in the thoracic cavity), a blind wound of the posterior surface of the chest penetrating into the cavity and accompanied by contusion and damage to the right lung; multiple blind wounds of the right supraspinatus muscle, the right lumbar region, the posterior surface of the chest, the left upper limb, the right thigh and the left knee joint, with metallic foreign bodies in the soft tissues — [were caused by] a blast wave generated

[Page 1128]

by the explosion of a firearm projectile, arising as a result of the impact of secondary fragments from a primary and blunt mechanism, and constitute serious harm to health.

Volume 369, case file sheets: 1–276.

Sergeant (MANNXHQ) Israfilov Shamil Kamil oglu, a rifleman of the 2nd subgroup of the 2nd group of the post-patrol section of the 2nd special means deployment detachment of the military unit of the Internal Troops of the Ministry of Internal Affairs, whose identity was established as a victim and who was questioned, stated in his testimony that on 20.09.2023 at approximately 3–4 a.m., while carrying out an advance as part of a group numbering approximately 115 persons near the village of Vangli in the Kalbajar district for the purpose

of suppressing a provocation by unlawful Armenian armed formations, he was ambushed by Armenian terrorists and sustained injuries as a result of fire from various types of weapons.

Volume 26, case file sheets: 239–242.

According to forensic medical expert opinion No. 646 dated 26.12.2023, the bodily injuries sustained by Israfilov Shamil Kamil oglu — a penetrating wound of the right scapula, blind wounds of the right axilla and shoulder, metallic foreign bodies in the soft tissues, and a blind penetrating wound of the precordial region accompanied by a small metallic foreign body in the anterior-lower region of the heart — were caused by fragments from the explosion of explosive combat munitions and are considered serious harm to health.

Volume 369, case file sheets: 1–276.

Bagirov Nurlan Vasif oglu, a rifleman (MANNXHQ) of the 2nd subgroup of the 1st group of the post-patrol detachment of the 2nd special means deployment detachment of the military unit of the Internal Troops of the Ministry of Internal Affairs, whose identity was established as a victim and who was questioned, stated in his statement that on 20.09.2023 at approximately 3–4 a.m., while carrying out an advance as part of a group numbering approximately 115 persons near the village of Vangli in the Kalbajar district for the purpose of suppressing a provocation by unlawful Armenian armed formations, he was ambushed by Armenian terrorists and sustained injuries as a result of fire from various types of weapons.

Volume 26, case file sheets: 247–251.

According to forensic medical expert opinion No. 327 dated 22.02.2024, the bodily injuries identified on the body of Bagirov Nurlan Vasif oglu — superficial contused wounds and abrasions of both lower legs — were caused by the impact of a blunt object; their degree of severity was not established because they are bodily injuries that did not cause harm to health.

Volume 369, case file sheets: 1–276.

[Page 1129]

Senior Sergeant (MANNXHQ) Khaniev Vidadi Salman oglu, commander of the 2nd subgroup of the 2nd group of the post-patrol section of the 2nd special means deployment detachment of the military unit of the Internal Troops of the Ministry of Internal Affairs, who was recognised as a victim and questioned, stated in his testimony that on 20.09.2023 at approximately 3–4 a.m., while carrying out an advance as part of a group numbering approximately 115 persons near the village of Vangli in the Kalbajar district for the purpose of suppressing a provocation by unlawful Armenian armed formations, he was ambushed by Armenian terrorists and sustained injuries as a result of fire from various types of weapons.

Volume 42, case file sheets: 5–9.

According to forensic medical expert opinion No. 329 dated 19.03.2024, the bodily injuries sustained by Khaniev Vidadi Salman oglu — blunt trauma to the left knee joint, crushing of the soft tissues and haemarthrosis — were caused by the impact of a hard blunt object and fall within the category of minor harm to health resulting in prolonged impairment of health.

Volume 369, case file sheets: 1–276.

Private (MANNXHQ) Mammadov Nijat Azai oglu, a rifleman of the 1st subgroup of the 2nd group of the post-patrol detachment of the 2nd special means deployment detachment of the military unit of the Internal Troops of the Ministry of Internal Affairs, who was recognised as a victim and questioned, stated in his statement that on 20.09.2023 at approximately 3–4 a.m., while carrying out an advance as part of a group numbering approximately 115 persons near the village of Vangli in the Kalbajar district for the purpose of suppressing a provocation by unlawful Armenian armed formations, he was ambushed by Armenian terrorists and sustained injuries as a result of fire from various types of weapons.

Volume 42, case file sheets: 14–18.

According to forensic medical expert opinion No. 330 dated 19.03.2024, the bodily injuries identified on the body of Mammadov Nijat Azai oglu — wounds of the upper eyelid of the left eye and the area of the left hand — were caused by the impact of fragments generated as a result of the explosion of an explosive device and constitute minor harm to health.

Volume 369, case file sheets: 1–276.

Lieutenant Colonel Shukurlu Parviz Mahir oglu, head of the organisational and mobilisation department of the personnel records directorate of the military unit of the Ministry of Defence, who was recognised as a victim and questioned, stated in his testimony that on 20.09.2023 at approximately 05:00 a.m., having passed the “KG 24” combat position located in the direction of the village of Vangli in the Kalbajar district for the purpose of

[Page 1130]

suppressing a provocation by unlawful Armenian armed formations, he was ambushed by terrorists of Armenian nationality and sustained injuries as a result of fire from various types of weapons.

Volume 24, case file sheets: 77–82.

Volume 42, case file sheets: 203–206.

According to forensic medical expert opinion No. 2000 dated 18.11.2023, of the bodily injuries sustained by Shukurlu Parviz Mahir oglu, the blind shrapnel wounds of the soft tissues of the right thigh were caused by fragments generated by the explosion of a high-explosive projectile (high-explosive shell); the bruise in the area of the right eye was caused by the impact of a hard blunt object; taken together, they were classified as minor bodily

injuries resulting in short-term impairment of health; separately, the bruise was not classified as belonging to the category of non-dangerous bodily injuries, while the shrapnel wound was classified as a minor bodily injury.

Volume 52, case file sheets: 244–245.

Private Ismailov Abdulmatin Ershad oglu, senior rifleman of the 1st section of the 2nd platoon of the 4th company of the 2nd battalion of the military unit of the Ministry of Defence, who was recognised and questioned as a victim, stated in his testimony that on 20.09.2023 at approximately 11:30 in the village of Arsdashabil in the Lachin district, when he and other servicemen of the military unit were loading 12 boxes containing 60 mortar shells onto the “LQ-17” combat position, artillery shells fired by unlawful Armenian armed formations fell on serviceman Magomed Huseynov and the adjacent territory and exploded, as a result of which Muhammed Huseynov and his fellow serviceman Eltaj Akhadov were killed, while he and soldiers Kamal Bahramov, Javid Gurbanov, Akhad Asadullaev, Senior Warrant Officer Dilgam Hasanov and Junior Sergeant Nijat Shukurov sustained injuries.

Volume 15, case file sheets: 81–84.

According to forensic medical expert opinion No. 681 dated 23.09.2023, the wound of the left auditory canal arising as a result of perichondritis and the abrasion on the palmar surface of the left hand identified on the body of Ismailov Abdulmatin Ershad oglu were caused by a blunt mechanism, by the impact of a hard blunt object, and constitute minor harm to health.

Volume 285, case file sheets: 240–241.

Soldier Bahramov Kamal Shukur oglu, a rifleman-medic of the 2nd section of the 3rd platoon of the 4th company of the 2nd battalion of the military unit of the Ministry of Defence, who was recognised as a victim and questioned, stated in his statement that,

[Page 1131]

On 20.09.2023 at approximately 11:30, while 8 boxes containing 60-charge mortar shells “LQ-17” and “LQ-18” were being carried to a combat position together with other servicemen of the military unit in the direction of the village of Sarybaba in the Lachin district, artillery shells fired by unlawful Armenian armed formations fell on serviceman Magomed Huseynov and the adjacent territories and exploded, as a result of which Magomed Huseynov and another of his fellow servicemen, Eltaj Akhadov, were killed, while he and servicemen Abdulmatin Ismailov, Javid Gurbanov, Akhad Asadullaev, Dilgam Hasanov and Nijat Shukurov sustained injuries.

Volume 15, case file sheets: 89–92.

According to forensic medical expert opinion No. 536 dated 23.09.2023, Bahramov Kamal Shukur oglu had multiple blind wounds in the area of the right shoulder and both lower extremities, metallic foreign bodies in the soft tissues, thermal burns of degrees I–II to the

head, the right half of the face, the lobe of the right ear, the right lateral surface of the neck and the dorsal surface of each hand, constituting 4% of the total body surface area — caused by a blast wave, flame, a primary and blunt mechanism, as well as secondary fragments generated during the explosion of a firearm or projectile. This usually requires prolonged treatment and is classified as less serious harm to health.

Volume 285, case file sheets: 185–186.

Private Gurbanov Javid Zakir oglu, rifleman of the 2nd section of the 1st platoon of the 4th company of the 2nd battalion of the military unit of the Ministry of Defence, who was recognised as a victim and questioned, stated in his statement that on 20.09.2023 at approximately 11:30, while 8 boxes containing 60-charge mortar shells “LQ-17” and “LQ-18” were being carried to a combat position together with other servicemen of the military unit in the direction of the village of Sarybaba in the Lachin district, artillery shells fired by unlawful Armenian armed formations fell on serviceman Magomed Huseynov and the territories adjacent to him and exploded. Magomed Huseynov and another serviceman who was with him, Eltaj Akhadov, were killed, while he and the other servicemen Kamal Bahramov, Abdulmatin Ismailov, Akhad Asadullaev, Warrant Officer Dilgam Hasanov and Nijat Shukurov sustained injuries.

Volume 15, case file sheets: 97–100.

According to forensic medical expert opinion No. 683 dated 23.09.2023, a dry perforation of the natural tympanic membrane on the body of Gurbanov Javid Zakir oglu, resulting in a reduction in the ability to hear whispered speech with the right ear at a distance of up to 1 m; superficial wounds in the area of the right cheek and hand, as well as both lower legs — were caused by a blast wave and secondary

[Page 1132]

fragments generated during the explosion of a firearm projectile and, according to the degree of severity, are usually classified as minor harm to health causing a slight (5%) permanent loss of general working capacity.

Volume 285, case file sheets: 222–223.

Private Asadullaev Akhad Ajdar oglu, chief rifleman of the 3rd section of the 1st platoon of the 4th company of the 2nd battalion of the military unit of the Ministry of Defence, who was recognised as a victim and questioned, stated in his testimony that on 20.09.2023 at approximately 11:30, while 8 boxes containing 60-charge mortar shells “LQ-17” and “LQ-18” were being carried to a combat position together with other servicemen of the military unit in the direction of the village of Sarybaba in the Lachin district, artillery shells fired by unlawful Armenian armed formations fell on serviceman Magomed Huseynov and the territories adjacent to him and exploded. Magomed Huseynov and another serviceman who was with him, Eltaj Akhadov, were killed, while he and the other servicemen Kamal

Bahramov, Javid Gurbanov, Abdulmatin Ismailov, Dilgam Hasanov and Nijat Shukurov sustained injuries.

Volume 15, case file sheets: 105–108.

According to forensic medical expert opinion No. 682 dated 23.09.2023, Asadullaev Akhad Ajdar oglu was found to have dry damage to the natural tympanic membrane of the right ear, resulting in a reduction in the ability to hear whispered speech at a distance of up to 1 metre; crushing of the soft tissues with bruising and a superficial wound in the area of the left lower leg, caused by a blast wave and secondary fragments generated during the explosion of a firearm projectile; according to the degree of severity, this constitutes minor harm to health causing a permanent loss of general working capacity (5%).

Volume 285, case file sheets: 219–220.

Senior Sergeant, Senior Warrant Officer Hasanov Dilgam Eybat oglu, of the 4th company of the 2nd battalion of the military unit of the Ministry of Defence, who was recognised as a victim and questioned, stated in his testimony that on 20.09.2023 at approximately 11:30, while servicemen of the military unit — Magomed Huseynov, Eltaj Akhadov, Kamal Bahramov, Javid Gurbanov, Abdulmatin Ismailov, Akhad Asadullaev and Nijat Shukurov — were carrying 8 boxes containing 60-charge mortar shells “LQ-17” and “LQ-18” to a combat position in the direction of the village of Sarybaba in the Lachin district, artillery shells fired by unlawful Armenian armed formations fell towards serviceman Magomed Huseynov and the adjacent territories and exploded, as a result of which he sustained injuries to various parts of his body.

[Page 1133]

Volume 15, case file sheets: 115–118.

According to forensic medical expert opinion No. 1954 dated 01.12.2023, the bodily injuries sustained by Hasanov Dilgam Eybat oglu — a shrapnel wound with a soft-tissue defect of the posterior surface of the right thigh and lower leg; partial damage to the right popliteal tendon; thermal flame burns affecting 30% of the posterior surface of both thighs and lower legs, both buttocks, the dorsal surface of both hands, the forehead, the lobes of both ears, the scalp and the right half of the neck, of degrees I, II and IIIA; post-traumatic perforation of the left tympanic membrane accompanied by acute left-sided cochlear neuritis — were caused by the combined effect of fragments, flame and the shock wave from the explosion of an explosive shell (high-explosive shell). According to the degree of severity, they are classified as minor harm to health. Separately, the soft-tissue defect of the posterior surface of the right thigh and lower leg and partial damage to the right popliteal tendon are classified as minor harm to health; thermal flame burns of degrees I, II and IIIA affecting 30% of the posterior surface of both thighs and lower legs, both buttocks, the dorsal surface of both hands, the forehead, the lobes of both ears, the scalp and the right half of the neck cause minor harm to health resulting in prolonged impairment of health; post-traumatic perforation of the left tympanic

membrane accompanied by acute left-sided cochlear neuritis is classified as minor harm to health causing short-term impairment of health.

Volume 15, case file sheets: 183–185.

Soldier Aliyev Hamzali Rza oglu, rifleman-medic (MANNXNQ) of the 1st subgroup of the 1st inspection group of the post-patrol service section of the 2nd special equipment deployment detachment of the military unit of the Internal Troops, who was recognised as a victim and questioned, stated in his statement that on 20.09.2023 at approximately 3–4 a.m., while carrying out an advance near the village of Vangli in the Kalbajar district for the purpose of preventing a provocation by unlawful Armenian armed formations, he was ambushed by Armenian terrorists and sustained injuries as a result of fire from various types of weapons.

Volume 65, case file sheets: 7–10.

According to forensic medical expert opinion No. 676 dated 26.12.2023, the bodily injuries sustained by Aliyev Hamzali Rza oglu — blind wounds of the left hand, thigh and the first toe of the left foot, metallic foreign bodies in the soft tissues — arose as a result of the impact of fragments generated during the explosion of a

[Page 1134]

firearm projectile and, according to the degree of severity, generally constitute minor harm to health.

Volume 369, case file sheets: 1–276.

Warrant Officer Zeynalov Sakhavat Fuzuli oglu, commander of the 2nd subgroup of the 1st special means deployment group of the post-patrol service detachment of the 2nd special means deployment group of the military unit of the Internal Troops, who was recognised as a victim and questioned, stated in his testimony that on 20.09.2023 at approximately 3–4 a.m., while carrying out an advance near the village of Vangli in the Kalbajar district for the purpose of preventing a provocation by unlawful Armenian armed formations, he was ambushed by Armenian terrorists and sustained injuries as a result of fire from various types of weapons.

Volume 65, case file sheets: 15–18.

On the basis of forensic medical expert opinion No. 875/a dated 01.05.2024, it was established that the bodily injuries sustained by Zeynalov Sakhavat Fuzuli oglu — a closed craniocerebral injury accompanied by concussion of the brain; a penetrating wound of the soft tissues of the right shoulder caused by the impact of a bullet (projectile) fired from a firearm; sensorineural hearing loss with a reduction in the ability to hear whispered speech at a distance of 1.5 m with the right ear and 3 m with the left ear as a result of barotrauma; post-traumatic neuropathy of the right posterior tibial nerve; a blind wound in the area of the right

ankle joint resulting in flexion-extension contracture of the ankle joint, with metallic foreign bodies in its soft tissues; multiple blind wounds of the right upper limb, the right lumbar region, both buttocks, and the area of the right thigh and lower leg, with metallic foreign bodies in the soft tissues — [were caused by] a blast wave generated by the explosion of a firearm projectile, arising as a result of the impact of secondary fragments from a primary and blunt mechanism, and are usually classified as less serious injuries to health.

Volume 369, case file sheets: 1–276.

Private (MANNXNQ) Mirzaev Samir Gurban oglu, rifleman of the 1st subgroup of the 1st special means deployment group of the post-patrol service detachment of the 2nd special means deployment group of the military unit of the Internal Troops, who was recognised as a victim and questioned, stated the following in his statement: on 20.09.2023 at approximately 3–4 a.m., while carrying out an advance near the village of Vangli in the Kalbajar district for the purpose of preventing a provocation by unlawful Armenian armed formations, he was ambushed by Armenian terrorists and sustained injuries as a result of fire from various types of weapons.

[Page 1135]

Volume 65, case file sheets: 23–26.

According to forensic medical expert opinion No. 671 dated 23.09.2023, Mirzaev Samir Gurban oglu sustained a penetrating wound of the right arm, complicated by post-haemorrhagic anaemia, post-traumatic neuropathy of the right musculocutaneous nerve, sensorimotor disturbances in the right upper limb, as well as an intra-articular multi-comminuted displaced fracture of the distal metaepiphysis of the humerus accompanied by an open fracture. The wound was caused by a bullet fired from a firearm loaded with a bullet (projectile) and, according to the degree of severity, constitutes serious harm to health.

Volume 285, case file sheets: 255–256.

Sergeant Kerimov Babahasan Ibrahim oglu, rifleman of the 2nd subgroup of the 1st group of the post-patrol service detachment of the 2nd special means deployment detachment of the military unit of the Internal Troops, whose identity was established and who was questioned as an injured person, stated in his statement that on 20 September 2023 at approximately 3–4 a.m., while conducting counter-terrorism operations near the village of Vangli in the Kalbajar district for the purpose of preventing a provocation by unlawful Armenian armed formations, he was ambushed by terrorists of Armenian nationality and sustained injuries as a result of fire from various types of weapons.

Volume 65, case file sheets: 35–38.

According to forensic medical expert opinion No. 86 dated 01.03.2024, the injuries sustained by Kerimov Babahasan Ibrahim oglu — a penetrating wound of the left hip joint

accompanied by an open fracture of the distal end of the left fibula with slight displacement, resulting in post-traumatic neuropathy of the fibular and tibial nerves, pain on the left side; blind wounds of the left thigh and left ankle joint, with metallic foreign bodies in the soft tissues, caused by the blast wave, flame and secondary fragments from a primary and blunt mechanism during the explosion of a firearm projectile — generally constitute minor harm to health.

Volume 369, case file sheets: 1–276.

Private (MANNXNQ) Aliyev Ramin Rasim oglu, rifleman of the 1st subgroup of the 2nd group of the post-patrol service section of the 2nd special means deployment detachment of the military unit of the Internal Troops, who was recognised as a victim and questioned, stated in his statement that on 20.09.2023 at approximately 3–4 a.m., while carrying out an advance near the village of Vangli in the Kalbajar district for the purpose of preventing a provocation by unlawful Armenian armed

[Page 1136]

formations, he was ambushed by Armenian terrorists and sustained injuries as a result of fire from various types of weapons.

Volume 65, case file sheets: 43–46.

According to forensic medical expert opinion No. 677 dated 26.12.2023, the bodily injuries sustained by Aliyev Ramin Rasim oglu — a blind wound of the left shoulder girdle; a blind wound of the left thigh resulting in post-traumatic neuropathy of the femoral nerve; a closed craniocerebral injury resulting in concussion of the brain; sensorineural hearing loss resulting from acute acoustic trauma. Of the above-mentioned injuries, the blind wounds of the left shoulder and thigh were caused by a firearm, while the remaining injuries were caused by the shock wave generated by the explosion of a firearm projectile. Depending on the degree of severity, both collectively and separately, they constitute less serious harm to health.

Volume 369, case file sheets: 1–276.

Private (MANNXNQ) Gardashov Rahim Adil oglu, rifleman of the 1st subgroup of the 1st capture group of the post-patrol service detachment of the 2nd special means deployment detachment of the military unit of the Internal Troops, who was recognised as a victim and questioned, stated in his statement that on 20.09.2023 at approximately 3–4 a.m., while carrying out an advance near the village of Vangli in the Kalbajar district for the purpose of preventing a provocation by unlawful Armenian armed formations, he was ambushed by Armenian terrorists and sustained injuries as a result of fire from various types of weapons.

Volume 65, case file sheets: 51–54.

According to forensic medical expert opinion No. 668 dated 21.11.2023, the bodily injuries sustained by Gardashov Rahim Adil oglu — a blind wound of the right lower leg

accompanied by multiple displaced open fractures of the tibia and fibula; multiple blind wounds of the soft tissues of the left upper limb accompanied by post-traumatic neuropathy of the brachial and elbow muscles and impairment of the extension function of the I–II–III fingers of the left hand; multiple blind wounds of the soft tissues of the right elbow joint, interdigital region and both lower extremities — were caused by a blast wave generated during the explosion of explosive combat munitions and by secondary fragments from primary and blunt mechanisms and, according to the degree of severity, generally constitute serious harm to health.

Volume 53, case file sheets: 87–88.

[Page 1137]

Senior Sergeant (MANNXNQ) Ismailov Salekh Valekh oglu, driver-rifleman of the 2nd subgroup of the 1st group of the post-patrol service detachment of the 2nd special means deployment detachment of the military unit of the Internal Troops, who was recognised as a victim and questioned, stated in his statement that on 20.09.2023 at approximately 3–4 a.m., while carrying out an advance near the village of Vangli in the Kalbajar district for the purpose of preventing a provocation by unlawful Armenian armed formations, he was ambushed by Armenian terrorists and sustained injuries as a result of fire from various types of weapons.

Volume 65, case file sheets: 59–62.

According to forensic medical expert opinion No. 85 dated 01.03.2024, the bodily injuries sustained by Ismailov Salekh Valekh oglu — blind wounds of the left half of the head, the second finger of the right hand, the thigh and lower leg of both lower extremities, as well as metallic foreign bodies in the soft tissues — arose as a result of the impact of primary and secondary fragments generated during the explosion of explosive combat munitions and, according to the degree of severity, generally constitute minor harm to health.

Volume 369, case file sheets: 1–276.

Warrant Officer Eyvazov Abulfaz Gulara oglu, chief of staff of the post-patrol service section of the 2nd special means deployment detachment of the military unit of the Internal Troops, who was recognised as a victim and questioned, stated in his statement that on 20.09.2023 at approximately 3–4 a.m., while carrying out an advance near the village of Vangli in the Kalbajar district for the purpose of preventing a provocation by unlawful Armenian armed formations, he was ambushed by Armenian terrorists and sustained injuries as a result of fire from various types of weapons.

Volume 65, case file sheets: 67–70.

According to forensic medical expert opinion No. 647 dated 26.12.2023, the bodily injuries sustained by Eyvazov Abulfaz Gulara oglu — a closed craniocerebral injury accompanied by

concussion of the brain; a superficial contused wound of the palmar surface of the right hand; bruising of the anterior surface of both calves — were caused by a blunt mechanism, by the impact of a hard blunt object and, according to the degree of severity, generally constitute minor harm to health.

Volume 369, case file sheets: 1–276.

Junior Sergeant Chobanov Gulu Nasir oglu, sniper of the 2nd group of the 2nd platoon of the 2nd company of the 1st battalion of the military unit of the Ministry of Defence, who was recognised as a victim and questioned, stated in his testimony that on 19.09.2023 at 14:30 he sustained

[Page 1138]

an injury as a result of fire from an 82-mm mortar shell fired by Armenian terrorists at the village of Mollalar in the Aghdam district, which exploded nearby.

Volume 90, case file sheets: 56–59.

According to forensic medical expert opinion No. 32 dated 16.01.2024, Chobanov Gulu Nasir oglu sustained bodily injuries — barotrauma, a closed craniocerebral injury, concussion of the brain (resulting in vegetative-vascular dystonia), a blast wave from an explosion and trauma from the impact of a blunt object — which are usually classified as minor harm to health.

Volume 319, case file sheets: 233–234.

Junior Sergeant Abyshov Nurlan Masud oglu, scout-operator of the 1st group of the 1st platoon of the 1st company of the 1st battalion of the military unit of the Ministry of Defence, who was recognised as a victim and questioned, stated in his testimony that on 19.09.2023 at approximately 14:00 in the village of Janyatag in the Aghdam district, he, Junior Sergeant Javanshir Khalilov and Junior Sergeant Parviz Shirinov sustained injuries as a result of the explosion of an F-1 hand grenade thrown by terrorists of Armenian origin.

Volume 90, case file sheets: 69–72.

According to forensic medical expert opinion No. 168 dated 13.02.2024, the injury sustained by Abyshov Nurlan Masud oglu — a blind shrapnel wound of the right thigh — arose as a result of the impact of one of the numerous fragments generated during the explosion. Since this injury does not cause harm to health, its degree of severity is not determined.

Volume 369, case file sheets: 1–276.

Soldier Hasanov Vugar Shakhlar oglu, a member of the reconnaissance group of the 1st group of the 1st platoon of the 1st company of the 1st battalion of the military unit of the Ministry of Defence, who was recognised as a victim and questioned, stated in his testimony that on 19

September 2023 at approximately 14:00 in the village of Janyatag in the Aghdere district, a mortar shell fired by Armenian terrorists exploded. Lieutenant Elnur Soltanov and Warrant Officer Sadir Gamidov were also injured at that time.

Volume 90, case file sheets: 82–85.

According to forensic medical expert opinion No. 33 dated 16.01.2024, the injury sustained by Hasanov Vugar Shakhlar oglu — a blind shrapnel wound in the area of the right buttock — arose as a result of the impact of one of the numerous fragments generated during the explosion and, according to the degree of severity,

[Page 1139]

constitutes minor harm to health causing short-term impairment of health.

Volume 319, case file sheets: 235–236.

Sergeant Iskenderov Sarkhan Elshan oglu, commander of the 60-mm mortar group of the 3rd platoon of the 6th company of the 2nd battalion of the military unit of the Ministry of Defence, who was recognised as a victim and questioned, stated in his testimony that on 20.09.2023 at approximately 03:00 in the village of Gyulyatag in the Aghdere district, he was wounded as a result of shots fired from an automatic weapon by unlawful Armenian armed formations.

Volume 90, case file sheets: 95–98.

According to forensic medical expert opinion No. 34 dated 16.01.2024, the bodily injuries sustained by Iskenderov Sarkhan Elshan oglu — a gunshot penetrating wound of the right lower leg and a shrapnel open fracture of the body of the 4th metatarsal bone — were caused by a shot from a firearm, inflicted on the date and under the circumstances specified in the decision, and according to the degree of severity constitute minor harm to health.

Volume 369, case file sheets: 1–276.

Private Bagirov Nofal Salim oglu, a member of the reconnaissance group of the 2nd group of the 2nd platoon of the 7th company of the 3rd battalion of the military unit of the Ministry of Defence, who was recognised and questioned as a victim, stated in his testimony that on 20.09.2023 at approximately 14:00, he and Private Elchin Isaev sustained injuries as a result of the explosion of shrapnel shells fired by unlawful Armenian armed formations on the territory of the Aghdere district.

Volume 90, case file sheets: 108–111.

According to forensic medical expert opinion No. 36 dated 22.01.2024, the bodily injuries sustained by Bagirov Nofal Salim oglu consist of barotrauma, blunt trauma to the forehead

and right supraorbital region caused by the impact of a blast wave and a blunt object and, according to the degree of severity, constitute minor harm to health.

Volume 319, case file sheet: 222.

Junior Sergeant Akhmedov Tural Aflatun oglu, assistant grenade launcher operator of the 2nd group of the 2nd platoon of the 2nd company of the 1st battalion of the military unit of the Ministry of Defence, who was recognised as a victim and questioned, stated in his testimony that on 19.09.2023 at approximately 14:00 he sustained injuries as a result of the explosion nearby of an 82-mm mortar shell fired by unlawful Armenian armed formations in the Aghdere district.

[Page 1140]

Volume 90, case file sheets: 121–124.

According to forensic medical expert opinion No. 1640 dated 20.10.2023, the bodily injuries sustained by Tural Aflatun oglu Akhmedov — wounds of the posterior surface of the upper third of the left thigh, the anteromedial surface of the lower third of the left thigh and the left gluteal region — were caused by the impact of fragments generated as a result of the explosion of an explosive shell and constitute minor harm to health.

Volume 369, case file sheets: 1–276.

Ismailov Elyoun Bekhbut oglu, assistant chief of staff of the 2nd battalion of the military unit of the Ministry of Defence, who was recognised as a victim and questioned, stated in his testimony that on 19.09.2023 at approximately 19:00 he was wounded together with Captain Safar Huseynguliyev as a result of shots fired from an automatic weapon by unlawful Armenian armed formations in the village of Gyulyatag in the Aghdere district.

Volume 90, case file sheets: 132–135.

According to forensic medical expert opinion No. 35 dated 16.01.2024, the bodily injuries sustained by Ismailov Elyoun Bekhbut oglu consist of barotrauma, blunt trauma to the forehead and right supraorbital region caused by the impact of a blast wave and a blunt object and, according to the degree of severity, constitute minor harm to health.

Volume 319, case file sheet: 239.

Private Garibli Elnur Nasimi oglu, reconnaissance grenade launcher operator of the 2nd group of the 4th platoon of the 1st company of the 1st battalion of the military unit of the Ministry of Defence, a serviceman who had served active military service beyond the prescribed term, who was recognised and questioned as a victim, stated in his testimony that on 19.09.2023 at approximately 14:00 he sustained an injury as a result of the explosion of a mortar shell fired by unlawful Armenian armed formations located in the village of Vangli in the Aghdere district. In the area where he sustained the injury, his fellow servicemen Junior

Lieutenant Tural Jahangirov and serviceman Ruslan Lalaev, who was serving beyond the prescribed term, were also killed, while serviceman Kamran Muradov, who was serving beyond the prescribed term, and Privates Kalandar Abbasov and Ravan Rzazade sustained injuries.

Volume 90, case file sheets: 145–149.

According to forensic medical expert opinion No. 321 dated 22.02.2024, the bodily injuries sustained by Garibli Elnur Nasimi oglu, namely a blast injury, blunt trauma to the right sacroiliac joint and

[Page 1141]

crushing of the soft tissues, were caused by the effect of the blast wave generated by the explosion of an explosive substance. Since the bodily injuries did not pose a danger to health, their degree of severity was not determined.

Volume 369, case file sheets: 1–276.

The Head of the Operational and Combat Training Department of the military unit of the Ministry of Defence, Lieutenant Colonel Abdul Malik oglu Malikov, who was recognised as a victim and questioned, stated in his testimony that on 19.09.2023 at approximately 18:00, as a result of the explosion of an artillery shell fired by unlawful Armenian armed formations located in the village of Vangli in the Aghdere district, he sustained an injury. In the area where he was injured, at the same time his fellow servicemen were also injured: Junior Sergeant Zamin Khasratov, Major Bayram Huseynov, Major Tamerlan Rashidli, Warrant Officer Subkhan Abbasov and Private Ravan Mammadov, performing compulsory military service by conscription.

Volume 90, case file sheets: 162–166.

According to forensic medical expert opinion No. 329 dated 22.02.2024, the injuries sustained by Malikov Abdul Malik oglu, namely a granulating wound following primary surgical treatment of wounds caused by a blind shrapnel wound of the upper third of the right thigh, with a foreign body in the soft tissues (metallic fragment), blast injury, closed craniocerebral injury, condition following concussion of the brain, blast injury, condition following bilateral acute cochlear neuritis, injuries sustained as a result of the impact of primary or secondary fragments, including the blast wave generated as a result of the explosion of any explosive substance, according to their degree of severity, are generally classified as minor harm to health.

Volume 369, case file sheets: 1–276.

Sahil Shamsi oglu Rasulov, a grenade launcher operator of the reconnaissance group of the 2nd group of the 3rd platoon of the 1st company of the 3rd battalion of the military unit of the Ministry of Defence, a serviceman performing compulsory active military service, whose

identity was established and who was questioned as a victim, stated in his testimony that on 19.09.2023 at approximately 15:00 he sustained an injury as a result of a hand grenade thrown by unlawful Armenian armed formations located in the village of Vangli in the Aghdere district falling nearby and exploding.

Volume 90, case file sheets: 178–182.

[Page 1142]

According to forensic medical expert opinion No. 2001 dated 25.11.2023, the bodily injuries sustained by Rasulov Sahil Shamsi oglu — a blind shrapnel wound of the left cheek, the left half of the tongue and the upper lip, accompanied by a fracture of the anterior wall of the left maxillary sinus and of the crowns of teeth 36, 35 and 34 — were caused by fragments generated as a result of the explosion of an explosive shell (munition) and, overall, constitute minor harm to health.

Volume 53, case file sheets: 50–51.

The commander of the 2nd group of the 1st platoon of the 1st company of the 3rd battalion of the military unit of the Ministry of Defence, Warrant Officer Allakhverdiyev Mardan Yashar oglu, who was recognised as a victim and questioned, stated in his testimony that on 19.09.2023 at approximately 16:25 he sustained injuries as a result of the explosion of a mortar shell fired by unlawful Armenian armed formations located on the territory of the village of Vangli in the Aghdere district. In the same area and at the same time, his fellow serviceman, Warrant Officer Emin Jafarov, was also injured.

Volume 90, case file sheets: 192–196.

According to forensic medical expert opinion No. 665 dated 26.12.2023, the bodily injuries sustained by Allakhverdiyev Mardan Yashar oglu, namely a slightly displaced, comminuted, intra-articular open fracture of the anterior edge of the proximal metaphysis of the [unclear anatomical term in the source] bone; a blind wound of the right lower leg accompanied by penetration of a metallic foreign body-fragment into the tibia; a closed craniocerebral injury accompanied by concussion of the brain; superficial wounds of the soft tissues of the chest and left thigh — injuries sustained as a result of the impact of the blast wave generated during the explosion of a firearm projectile and secondary fragments from a primary and blunt weapon — depending on the degree of severity, constitute serious harm to health.

Volume 369, case file sheets: 1–276.

The Chief of Staff of the 1st battalion of the military unit of the Ministry of Defence, Senior Lieutenant Jalilov Shakhmar Ilgar oglu, who was recognised and questioned as a victim, stated in his testimony that:

On 20.09.2023 at approximately 12:00, the “Ural” vehicle in which they were travelling was struck by a guided “Kornet” missile fired by unlawful Armenian armed formations in the

direction of the village of Heyvali in the Aghdere district. He and Private Talekh Zeynalov sustained injuries, while Junior Sergeant Tural Aghjabekov was killed at the same time.

Volume 90, case file sheets: 206–209.

[Page 1143]

According to forensic medical expert opinion No. 31 dated 16.01.2024, the bodily injuries sustained by Jalilov Shakhmar Ilgar oglu — as a result of barotrauma, right-sided acute cochlear neuritis, right-sided sensorineural hearing loss, loss of hearing of whispered speech at a distance of 3 metres with the right ear and 6 metres with the left ear, caused by the blast wave generated during the explosion and by the impact of a blunt object — are generally classified, according to their degree of severity, as minor harm to health.

Volume 319, case file sheets: 231–232.

The commander of the 5th operational detachment of the 2nd battalion of the military unit of the Ministry of Defence, Captain Babaev Elshan Elshad oglu, who was recognised as a victim and questioned, stated in his testimony that on 20.09.2023 at approximately 11:00, as a result of the explosion nearby of an anti-tank projectile fired by unlawful Armenian armed formations on the territory of the Aghdere district, Senior Lieutenant Hasanov Yusif Elshan oglu was injured, while Privates Tural Amirov and Elchin Salmanov were also killed.

Volume 90, case file sheets: 219–222.

According to forensic medical expert opinion No. 113 dated 02.02.2024, the bodily injuries sustained by Babaev Elshan Elshad oglu — barotrauma leading to bilateral chronic cochlear neuritis, bilateral permanent sensorineural hearing loss, with whispered speech heard by both ears at a distance of 4 metres; a closed craniocerebral injury and concussion of the brain leading to astheno-neurotic manifestations — caused by the blast wave and blunt impact of the explosion, are generally classified, according to their degree of severity, as minor harm to health.

Volume 369, case file sheets: 1–276.

Junior Sergeant Khanlaev Faraj Akif oglu, scout-fortification specialist of the 2nd group of the 3rd platoon of the 3rd company of the 1st battalion of the military unit of the Ministry of Defence, who was recognised as a victim and questioned, stated in his testimony that on 20.09.2023 at approximately 15:00 he sustained an injury as a result of the explosion of a mortar shell fired by unlawful armed formations of Armenia near the territory of the Aghdam district.

Volume 90, case file sheets: 232–235.

According to forensic medical expert opinion No. 111 dated 02.02.2024, the bodily injuries sustained by Khanlaev Faraj Akif oglu — a closed craniocerebral injury — arose as a result of the impact of the blast wave

[Page 1144]

generated during the explosion and the impact of a blunt object and, according to the degree of severity, constitute minor harm to health.

Volume 369, case file sheets: 1–276.

Junior Sergeant Gashimov Khayal Sahib oglu, scout-fortification specialist of the 2nd group of the 3rd platoon of the 3rd company of the 1st battalion of the military unit of the Ministry of Defence, who was recognised and questioned as a victim, stated in his testimony that on 20.09.2023 at approximately 11:00 in the morning he sustained an injury as a result of the explosion nearby of a mortar shell fired by unlawful Armenian armed formations on the territory of the Aghdam district.

Volume 90, case file sheets: 245–248.

According to forensic medical expert opinion No. 112 dated 02.02.2024, the bodily injuries sustained by Gashimov Khayal Sahib oglu constitute a closed craniocerebral injury and concussion of the brain caused by the effect of the blast wave generated during the explosion and, according to the degree of severity, fall within the category of minor harm to health.

Volume 369, case file sheets: 1–276.

Junior Sergeant Mammadov Tural Zeynal oglu, radio-telephone operator (radioman) of the 2nd platoon of the 2nd company of the 1st battalion of the military unit of the Ministry of Defence, who was recognised as a victim and questioned, stated in his testimony that on 20.09.2023 at approximately 11:00 he sustained an injury as a result of the explosion of a mortar shell fired by Armenian terrorists in the Aghdam district, which exploded near him.

Volume 278, case file sheets: 21–24.

According to forensic medical expert opinion No. 255 dated 06.03.2024, the bodily injury sustained by Mammadov Tural Zeynal oglu — a lacerated wound of the right palm — arose as a result of the impact of a blunt object. Since the injury did not cause harm to health, its degree of severity is not established.

Volume 369, case file sheets: 1–276.

Sergeant Khalilov Javanshir Tofir oglu, scout-fortification specialist of the 1st group of the 3rd platoon of the 1st company of the 1st battalion of the military unit of the Ministry of Defence, who was recognised and questioned as a victim, stated in his testimony that on

19.09.2023 at approximately 23:00 he sustained an injury as a result of the close explosion of a hand grenade thrown by Armenian terrorists on the territory of the Aghdam district.

Volume 278, case file sheets: 34–37.

According to forensic medical expert opinion No. 1647 dated 20.10.2023, the bodily injuries sustained by Khalilov Javanshir Tofir oglu —

[Page 1145]

a blind shrapnel wound of the upper third of the right shoulder caused by fragment(s) from the explosion of an explosive shell — are classified as minor harm to health.

Volume 369, case file sheets: 1–276.

The commander of the 2nd group of the 3rd platoon of the 2nd company of the 1st battalion of the military unit of the Ministry of Defence, Warrant Officer Abdullaev Nurlan Rafik oglu, who was recognised as a victim and questioned, stated in his testimony that on 19.09.2023 at approximately 14:00 Armenian terrorists shelled their positions with mortars in the direction of the Aghdere district. As a result of mortar shells exploding nearby, he and his fellow serviceman Tural Akhmedov sustained injuries.

Volume 278, case file sheets: 45–48.

According to forensic medical expert opinion No. 166 dated 13.02.2024, the bodily injuries sustained by Abdullaev Nurlan Rafik oglu — blind shrapnel wounds of the anterior surface of the upper third of the right lower leg — arose as a result of the impact of numerous fragments generated during the explosion and, according to the degree of severity, generally constitute minor harm to health.

Volume 369, case file sheets: 1–276.

The head of reconnaissance of the fire-support section of the 3rd artillery battery of the artillery division of the military unit of the Ministry of Defence, Private Mammadov Hasankhan Murad oglu, who was recognised as a victim and questioned, stated in his testimony that on 20.09.2023 at approximately 13:00, on the territory of the village of Janyatag in the Aghdam district, he sustained injuries as a result of fire from automatic weapons opened by Armenian terrorists; the platoon commander, Senior Lieutenant Ibrahim Gasimov, was killed.

Volume 278, case file sheets: 58–61.

According to forensic medical expert opinion No. 1543 dated 13.11.2023, the bodily injuries sustained by Mammadov Hasankhan Murad oglu — post-traumatic neuropathy of the left ulnar and left sciatic nerves; a marginal fracture of the C4 vertebra; blind bullet wounds of the left half of the neck and penetrating bullet wounds of the middle third of the left thigh,

caused by shots from a firearm loaded with a bullet cartridge; and shrapnel wounds of the right thigh, right shoulder and right foot caused by fragments from the explosion of an explosive shell (munition) — generally constitute less serious harm to health.

Volume 369, case file sheets: 1–276.

The deputy commander of the 3rd platoon of the 11th company of the 4th battalion of the military unit of the Ministry of Defence, Warrant Officer Gumbatzade Talekh Khanoglan oglu, who was

[Page 1146]

recognised as a victim and questioned, stated in his testimony that on 19.09.2023 at approximately 15:30 he sustained injuries as a result of the explosion of an artillery shell fired by unlawful Armenian armed formations located in the village of Yenikend in the Khojavend district. In the same area and at the same time, his fellow serviceman Shavgatli Javid Ogtay oglu was also injured.

Volume 278, case file sheets: 69–73.

According to forensic medical expert opinion No. 63 dated 01.02.2024, the bodily injuries sustained by Gumbatzade Talekh Khanoglan oglu, namely shrapnel wounds of the right arm and shoulder region, arose as a result of the impact of numerous fragments generated during the explosion and, according to the degree of severity, generally constitute minor harm to health.

Volume 369, case file sheets: 1–276.

Private Akhmedli Royal Nizami oglu, assistant rifleman-grenade launcher operator of the 3rd section of the 2nd platoon of the 5th company of the 2nd battalion of the military unit of the Ministry of Defence, who was recognised as a victim and questioned, stated in his testimony that on 20.09.2023 at approximately 12:00 he and his fellow serviceman Rustamov Murad Igbal oglu sustained injuries as a result of the explosion of an artillery shell fired by unlawful Armenian armed formations located in the area of the village of Syrkhavand in the Aghdere district, which exploded nearby.

Volume 278, case file sheets: 85–89.

According to forensic medical expert opinion No. 1447 dated 13.03.2024, the injury sustained by Akhmedli Royal Nizami oglu — a blind wound of the tissues — arose as a result of the impact of fragments generated during the explosion of a firearm projectile and, according to its degree, constitutes minor harm to health.

Volume 369, case file sheets: 1–276.

The chief gunner of the 1st gun of the 2nd platoon of the 2nd battery of the artillery division of the military unit of the Ministry of Defence, Junior Sergeant Gashimov Shirin Shiraslan oglu, a serviceman who had served active military service beyond the prescribed term, who was recognised and questioned as a victim, stated in his testimony that on 19.09.2023 at approximately 22:30 he sustained injuries as a result of the explosion of an artillery shell fired by unlawful Armenian armed formations located on the territory of the village of Heyvali in the Aghdere district.

Volume 278, case file sheets: 101–105.

[Page 1147]

According to forensic medical expert opinion No. 891 dated 01.12.2023, the injury sustained by Gashimov Shirin Shiraslan oglu, namely a closed fracture of the left medial malleolus with displacement, arose as a result of the impact of a blunt object and, according to its degree, constitutes insignificant harm to health causing long-term harm to health.

Volume 369, case file sheets: 1–276.

The scout-gunner of the 2nd group of the 2nd platoon of the 11th company of the 4th battalion of the military unit of the Ministry of Defence, who was recognised as a victim and questioned, stated in his testimony that on 19 September 2023 at approximately 15:00, a mortar shell fired by unlawful Armenian armed formations located in the village of Janyatag in the Aghdere district exploded nearby, as a result of which his fellow servicemen, Warrant Officer Emin Abbaszade and Private Ulvi Mikailov, were killed, while he and another serviceman, Warrant Officer Vusal Latifov, sustained injuries.

Volume 278, case file sheets: 118–122.

According to forensic medical expert opinion No. 1435 dated 25 March 2024, the bodily injuries sustained by Khalilov Samir Nadir oglu — wounds of the crown of the head and the palmar surface of the right hand — were caused by a blunt mechanism, by the impact of a hard blunt object, and their degree is not determined because, whether collectively or separately, they do not result in deterioration of health.

Volume 350, case file sheets: 238–239.

The commander of the 1st platoon of anti-tank missile systems of the 1st battery of anti-tank missile systems of the military unit of the Ministry of Defence, Senior Lieutenant Alizade Elton Vugar oglu, who was recognised as a victim and questioned, stated in his testimony that on 20.09.2023 at approximately 08:00 in the morning, as a result of an artillery explosion fired by unlawful Armenian armed formations located in the village of Janyatag in the Aghdere district, his fellow serviceman, Senior Warrant Officer Ibrahimov Elnur Sakhavat oglu, who was next to him, was killed, as a result of which he and another fellow serviceman, Warrant Officer Khalilov Samir Nadir oglu, sustained injuries.

Volume 278, case file sheets: 136–140.

According to forensic medical expert opinion No. 65 dated 01.02.2024, the injury sustained by Alizade Eltun Vugar oglu, namely a shrapnel wound of the left anterior surface of the forehead, arose as a result of the impact of one of

[Page 1148]

the numerous fragments generated during the explosion and, according to the degree of severity, constitutes minor harm to health.

Volume 369, case file sheets: 1–276.

Private Guliyev Bakhadur Tayar oglu, machine gunner of the 2nd section of the 2nd platoon of the 2nd battery of anti-tank missile systems of the military unit of the Ministry of Defence, whose identity was established as a victim and who was questioned, stated in his testimony that on 20.09.2023 at approximately 11:00, an artillery shell fired by unlawful Armenian armed formations in the village of Janyatag in the Aghdere district struck the “Ural” vehicle in which he was travelling and exploded. As a result, his fellow serviceman, Private Mekhdizade Mirpasha Yagub oglu, a serviceman who had served beyond the term of active military service and who was travelling with him, was killed, while he himself and another fellow serviceman, Junior Lieutenant Ali Jafarli, and Private Amin Javadov sustained injuries.

Volume 278, case file sheets: 153–157.

According to forensic medical expert opinion No. 1513 dated 13.11.2023, the bodily injuries sustained by Guliyev Bakhadur Tair oglu — blind shrapnel wounds of the upper third of the outer surface of the right thigh — arose as a result of the impact of numerous fragments generated during the explosion of an explosive shell (munition) and, whether separately or collectively, constitute minor harm to health.

Volume 369, case file sheets: 1–276.

Private Nuriyev Yusif Abdullai oglu, sniper of the 1st section of the 3rd platoon of detachment “M” of the military unit of the Ministry of Defence, who was recognised as a victim and questioned, stated in his testimony that, while preventing large-scale provocative actions by unlawful Armenian armed formations, on 20.09.2023 at approximately 12:00–13:00, during hostilities in the village of Halfali in the Shusha district, as a result of fire opened by unlawful Armenian armed formations, he, Private Elchin Ismailov and Junior Sergeant Jeyhun Shakhnamazli sustained various types of bodily injuries.

Volume 278, case file sheets: 170–173.

According to forensic medical expert opinion No. 27 dated 16.01.2024, the bodily injuries sustained by Nuriyev Yusif Abdulla oglu — granulating wounds following primary surgical

treatment of wounds caused by a penetrating gunshot (bullet) wound to the area of the right buttock —

[Page 1149]

arose as a result of a gunshot injury and, according to the degree of severity, constitute minor harm to health.

Volume 21, case file sheets: 140–141.

Soldier Samedli Bakhtiyar Elkhani oğlu, headquarters rifleman of the 2nd section of the 4th platoon of battalion “M” of the military unit of the Ministry of Defence, who was recognised as a victim and questioned, stated in his statement that, while preventing large-scale provocative actions by unlawful Armenian armed formations, on 21.09.2023 at approximately 14:00–15:00, during hostilities in the village of Halfali in the Shusha district, he, Private Kenan Abilov and Private Azad Mammadov sustained various types of bodily injuries as a result of the explosion of a mortar shell fired by unlawful Armenian armed formations.

Volume 278, case file sheets: 183–186.

According to forensic medical expert opinion No. 26 dated 16.01.2024, the bodily injury sustained by Samedli Bakhtiyar Elkhani oğlu — a condition following surgical removal of a fragment in connection with a blind shrapnel wound of the upper third of the left humerus — was caused by the impact of a primary or secondary fragment generated by the explosion of any explosive substance and, according to the degree of severity, is generally classified as minor harm to health.

Volume 21, case file sheets: 136–137.

Soldier Mammadzade Adil Tebriz oğlu, acting commander of the sniper platoon of the military unit of the Ministry of Defence, who was recognised as a victim and questioned, stated in his testimony that, while preventing large-scale provocative actions by unlawful Armenian armed formations, he, Lieutenant Nemat Abdullaev and Private Sadik Gasimli sustained various types of bodily injuries as a result of fire opened by unlawful Armenian armed formations during hostilities conducted in the village of Halfali in the Shusha district on 20.09.2023 at approximately 12:00–13:00.

Volume 278, case file sheets: 196–199.

According to forensic medical expert opinion No. 25 dated 16.01.2024, the bodily injuries sustained by Mammadzade Adil Tebriz oğlu — a granulating wound following primary surgical treatment of wounds caused by a blind bullet wound of the lower third of the outer surface of the left thigh, with a foreign body (bullet) in the soft tissues — arose as a result of a gunshot injury and, according to the degree of severity, constitute minor harm to health.

[Page 1150]

Volume 369, case file sheets: 1–276.

Private Kerimli Aykhan Khalig oglu, assistant grenade launcher operator of the 1st section of the 3rd platoon of detachment “R” of the military unit of the Ministry of Defence, who was recognised as a victim and questioned, stated in his testimony that, while preventing large-scale provocative actions by unlawful Armenian armed formations, he, serviceman Azad Mammadov and serviceman Asker Dovlatov sustained various injuries as a result of the explosion of a mortar shell fired by unlawful armed formations of Armenia during hostilities conducted on 20.09.2023 in the village of Halfali in the Shusha district.

Volume 278, case file sheets: 209–212.

According to forensic medical expert opinion No. 1785 dated 11.10.2023, the bodily injuries identified in Kerimli Aykhan Khalig oglu — a blind shrapnel wound of the middle third of the right shoulder, lacerated wounds of both lower legs and barotrauma of the left ear accompanied by acute left-sided cochlear neuritis, arising as a result of the combined effect of fragments, hard blunt objects and the blast wave from the explosion of an explosive shell (munition) — the shrapnel wounds and barotrauma were classified as minor injuries to health, while the abrasions were not classified because they did not constitute injuries causing harm to health.

Volume 49, case file sheets: 58–59.

The deputy commander of the fire-support platoon of the military unit of the Ministry of Defence, unit “F”, Junior Warrant Officer Huseynov Magomed Mubariz oglu, who was recognised as a victim and questioned, stated in his testimony that, while preventing large-scale provocative actions by unlawful Armenian armed formations, on 20.09.2023 at approximately 00:00–01:00 in the village of Halfali in the Shusha district, as a result of fire opened by unlawful Armenian armed formations, he, Private Vagif Salmanov and Private Ali Mustafayev sustained bodily injuries of varying degrees of severity.

Volume 278, case file sheets: 220–223.

According to forensic medical expert opinion No. 1977 dated 25.10.2023, Huseynov Muhammed Mubariz oglu was found to have bodily injuries — a penetrating gunshot wound with a soft-tissue defect of the middle third of the right shoulder, accompanied by post-traumatic compression-ischaemic neuropathy of the right spinal nerve — caused by a gunshot injury, which, according to the degree of severity, is considered to constitute serious harm to health.

[Page 1151]

Volume 370, case file sheets: 1–274.

Recognised as a victim and questioned by the commander of the 3rd platoon of platoon “A” of unit “P” of the military unit of the Ministry of Defence, Private Iskenderov Nijat Habil oglu, in his testimony stated that:

The senior rifleman of the 3rd section of platoon “A” of detachment “P” of the military unit of the Ministry of Defence, recognised as a victim and questioned, soldier Iskenderov Nijat Habil oglu, stated in his statement that, while preventing large-scale provocative actions by unlawful Armenian armed formations, he and Junior Sergeant Asim Hasanov sustained various types of bodily injuries as a result of fire opened by unlawful Armenian armed formations during hostilities conducted in the village of Halfali in the Shusha district on 20.09.2023 at approximately 07:00–08:00.

Volume 278, case file sheets: 231–234.

According to forensic medical expert opinion No. 20 dated 16.01.2024, the bodily injuries sustained by Nijat Habil oglu Iskandarov — a condition following primary surgical treatment of a wound caused by a penetrating bullet wound of the dorsal surface of the right hand — were caused by a gunshot injury and, according to the degree of severity, constitute minor harm to health.

Volume 21, case file sheets: 112–113.

Private Nasirov Rahim Kerim oglu, machine gunner of the 4th section of the 1st platoon of detachment “R” of the military unit of the Ministry of Defence, who was recognised as a victim and questioned, stated in his testimony that, while preventing large-scale provocative actions by unlawful Armenian armed formations, on 20.09.2023 at approximately 03:00–04:00 in the morning, during hostilities in the village of Halfali in the Shusha district, Private Jeyhun Sadygov was killed as a result of fire opened by unlawful Armenian armed formations, while he and Private Rashad Aliyev sustained various types of bodily injuries.

Volume 278, case file sheets: 244–247.

According to forensic medical expert opinion No. 1754 dated 11.10.2023, Nasirov Rahim Kerim oglu was found to have bodily injuries: a gunshot wound to the anterior right half of the neck resulting in traumatic paralysis of the right vocal cord; open displaced fractures of the III–IV metacarpal bones of the left hand and the base of the proximal phalanx of the fifth finger; as well as a penetrating gunshot wound of the left hand with damage to the flexor tendons

[Page 1152]

of the III–IV fingers. The injuries were caused by a shot from a firearm loaded with a bullet and are considered to constitute minor harm to health.

Volume 49, case file sheets: 220–221.

Lieutenant Abdullaev Nemat Rafik oglu, deputy commander of the 4th platoon of detachment “M” of the military unit of the Ministry of Defence, who was recognised as a victim and questioned, stated in his testimony that, while preventing large-scale provocative actions by unlawful Armenian armed formations, on 20.09.2023 at approximately 11:00–12:00, during hostilities in the village of Halfali in the Shusha district, he, Private Ariz Mammadov and Private Izzet Bagiev sustained various types of bodily injuries as a result of the explosion of mortar shells fired by unlawful Armenian armed formations.

Volume 278, case file sheets: 255–258.

According to forensic medical expert opinion No. 1887 dated 17.10.2023, Abdullaev Nemat Rafik oglu was found to have bodily injuries: blind shrapnel wounds of the soft tissues of the right knee and right thigh; shrapnel wounds sustained as a result of the explosion of a fragmentation projectile; a closed craniocerebral injury accompanied by concussion of the brain; as well as barotrauma of the right ear accompanied by acute right-sided cochlear neuritis, caused by the impact of the blast wave. Both collectively and separately, these constitute minor harm to health.

Volume 49, case file sheet: 183.

Junior Sergeant Amirov Fuad Fayaz oglu, mortar gunner of the 3rd group of the 4th platoon of the 4th section of detachment “R” of the military unit of the Ministry of Defence, who was recognised as a victim and questioned, stated in his testimony that, while preventing large-scale provocative actions by unlawful Armenian armed formations, on 20.09.2023 at approximately 04:00, during hostilities in the village of Halfali in the Shusha district, as a result of shots fired by unlawful Armenian armed formations, Private O and Private Rahim Nasirov sustained various types of bodily injuries.

Volume 280, case file sheets: 8–11.

According to forensic medical expert opinion No. 1728 dated 10.10.2023, the bodily injuries identified in Amirov Fuad Fayaz oglu — a gunshot wound penetrating the soft tissues of the anterior surface of the upper third of the right thigh, and barotrauma of both ears accompanied by bilateral acute cochlear neuritis — arose as a result of the effect of the blast wave

[Page 1153]

generated by the explosion of an explosive projectile and, both collectively and separately, constitute minor harm to health.

Volume 49, case file sheets: 97–98.

Warrant Officer Gurbanov Gyunduz Huseyn oglu, intelligence officer of the 3rd group of battalion “N” of the military unit of the Ministry of Defence, who was recognised as a victim and questioned, stated in his testimony that, while preventing large-scale provocative actions

by unlawful Armenian armed formations, on 20.09.2023 at approximately 16:00–17:00, he, Private Kenan Imanzade and Senior Warrant Officer Farid Agaev sustained various types of bodily injuries as a result of the explosion of a mortar shell fired by unlawful Armenian armed formations during hostilities in the village of Halfali in the Shusha district.

Volume 280, case file sheets: 19–22.

According to forensic medical expert opinion No. 17 dated 16.01.2024, the bodily injuries sustained by Gurbanov Gyunduz Huseyn oglu were: blast injury; closed craniocerebral injury; astheno-neurotic manifestations following concussion of the brain. Blast injury; closed craniocerebral injury; vegetative-vascular instability following concussion of the brain. Blast injury with an indurated skin scar following removal of a foreign body as a consequence of a blind gunshot wound of the upper third of the posterior surface of the right thigh, with pain syndrome. Blast injury; bilateral chronic cochlear neuritis; bilateral sensorineural hearing loss, with whispered speech perceived at a distance of 5 metres by both ears; astheno-neurotic manifestations following the above injuries — blast injury, closed craniocerebral injury, concussion of the brain. Blast injury, closed craniocerebral injury, vegetative-vascular instability following concussion of the brain. Blast injury, bilateral chronic cochlear neuritis, bilateral sensorineural hearing loss, with whispered speech audible by both ears at a distance of 5 metres — were caused by the effect of the blast wave generated by the explosion of any explosive substance. The indurated skin scar following removal of a foreign body as a consequence of a blind bullet wound of the upper third of the posterior surface of the right thigh, with pain syndrome, was caused by a gunshot injury and, according to the degree of severity, constitutes minor harm to health.

Volume 21, case file sheets: 100–102.

Private Mammadov Ariz Gurban oglu, machine gunner of the 1st section of the 1st platoon of detachment “M” of the military unit of the Ministry of Defence, who was recognised and questioned as a victim, stated in his testimony that, while suppressing large-scale

[Page 1154]

provocative actions by unlawful Armenian armed formations, on 20 September 2023 at approximately 11:00–12:00, he, Lieutenant Nemat Abdullaev and Private Sadyg Gasimly sustained various types of bodily injuries as a result of the explosion of a mortar shell fired by unlawful Armenian armed formations during hostilities in the village of Halfali in the Shusha district.

Volume 280, case file sheets: 32–35.

According to forensic medical expert opinion No. 18 dated 16.01.2024, the bodily injuries sustained by Mammadov Ariz Gurban oglu — a slightly granulating wound of the left shoulder following a blunt injury by a projectile to the left shoulder and right forearm — arose as a result of the impact of primary or secondary fragments generated during the

explosion of any explosive substance and, according to their degree, as a rule, constitute insignificant harm to health.

Volume 21, case file sheets: 104–106.

Junior Warrant Officer Jabbarov Tarlan Ismet oglu, commander of the 3rd section of the 1st platoon of detachment “M” of the military unit of the Ministry of Defence, who was recognised as a victim and questioned, stated in his testimony that, while preventing large-scale provocative actions by unlawful Armenian armed formations, on 20.09.2023 at approximately 09:00, he, Junior Sergeant Jeyhun Shakhnamazli, Junior Sergeant Aydin Garibov and Private Aykhan Akhmedzade sustained various types of bodily injuries as a result of the explosion of a grenade thrown by unlawful Armenian armed formations during hostilities in the village of Halfali in the Shusha district.

Volume 280, case file sheets: 45–48.

According to forensic medical expert opinion No. 19 dated 16.01.2024, the bodily injuries sustained by Jabbarov Tarlan Ismet oglu — a condition following primary surgical treatment of wounds caused by blind shrapnel wounds of the left lower leg and left buttock; blast injury; a condition following acute left-sided cochlear neuritis — were caused by the impact of a primary or secondary fragment generated as a result of the explosion of any explosive substance and, according to the degree of severity, constitute minor harm to health.

Volume 21, case file sheets: 108–110.

Mammadov Azad Khanbaba oglu, mortar operator of the 4th section of the 3rd platoon of unit “R” of the military unit of the Ministry of Defence, who was recognised as a victim and questioned, stated in his testimony that, while preventing

[Page 1155]

large-scale provocative actions by unlawful Armenian armed formations, on 20.09.2023 at approximately 02:00, he, Private Sanan Abbasaliev, Private Ali Mustafayev and Private Asker Dovlatov sustained various types of bodily injuries as a result of the explosion of a mortar shell fired by unlawful Armenian armed formations during hostilities in the village of Halfali in the Shusha district.

Volume 280, case file sheets: 58–61.

According to forensic medical expert opinion No. 21 dated 16.01.2024, the bodily injuries sustained by Mammadov Azad Khanbaba oglu — blast injury; primary surgical treatment of wounds caused by shrapnel wounds of the right thigh and knee, constituting a post-operative condition — were caused by the impact of a primary or secondary fragment generated during the explosion of any explosive substance and, according to the degree of severity, as a rule, constitute minor harm to health.

Volume 21, case file sheets: 116–117.

Soldier Safarov Yagubali Vagif oglu, grenade launcher operator of the 4th section of the 1st platoon of unit “R” of the military unit of the Ministry of Defence, who was recognised as a victim and questioned, stated in his statement that, while preventing large-scale provocative actions by unlawful Armenian armed formations, on 20.09.2023 at approximately 01:00–02:00 at night in the village of Halfali in the Shusha district, as a result of the explosion of a mortar shell fired by unlawful Armenian armed formations, he, Private Kenan Abilov and Private Azad Mammadov sustained various types of bodily injuries.

Volume 280, case file sheets: 71–74.

According to forensic medical expert opinion No. 22 dated 16.01.2024, the bodily injuries sustained by Safarov Yagubali Vagif oglu — a condition following primary surgical treatment of wounds caused by blind shrapnel wounds of the left lower leg and the right lateral malleolus — arose as a result of the impact of primary or secondary fragments generated during the explosion of any explosive substance and, according to the degree of severity, generally constitute minor harm to health.

Volume 21, case file sheets: 120–121.

Soldier Ismailov Elchin Hasan oglu, headquarters rifleman of the 1st section of the 2nd platoon of battalion “M” of the military unit of the Ministry of Defence, whose identity was established and who was questioned as a victim, stated in his statement that, while suppressing large-scale provocative actions by unlawful Armenian

[Page 1156]

armed formations, on 19.09.2023 at approximately 15:00, during hostilities in the village of Halfali in the Shusha district, he sustained an injury as a result of fire opened by unlawful Armenian armed formations; he was diagnosed with a blind bullet wound of the right shoulder girdle.

Volume 280, case file sheets: 84–87.

According to forensic medical expert opinion No. 24 dated 16.01.2024, the injury sustained by Ismailov Elchin Hasan oglu — a condition following primary surgical treatment of a wound caused by a blind bullet wound of the right shoulder girdle — was caused by a gunshot injury and, according to the degree of severity, constitutes minor harm to health.

Volume 21, case file sheets: 128–129.

Private Gasimly Sadyg Vusal oglu, sniper of the 3rd section of the 1st platoon of unit “M” of the military unit of the Ministry of Defence, who was recognised as a victim and questioned, stated in his testimony that, while preventing large-scale provocative actions by unlawful Armenian armed formations, on 20.09.2023 at approximately 11:00–12:00, during hostilities

in the village of Halfali in the Shusha district, as a result of the explosion of a mortar shell fired by unlawful Armenian armed formations, he, Private Ariz Mammadov, Private Izzet Bagiev and several other servicemen, whose names he could not recall at that moment, sustained various types of bodily injuries.

Volume 280, case file sheets: 97–100.

According to forensic medical expert opinion No. 23 dated 16.01.2024, the bodily injuries sustained by Gasimly Sadyg Vusal oglu — bilateral acute cochlear neuritis as a result of blast injury; traumatic perforation of the right tympanic membrane; a condition following primary surgical treatment of shrapnel wounds of the right hand and both thighs — were caused by the impact of a primary or secondary fragment, as well as by the blast wave generated during the explosion of any explosive substance and, according to the degree of severity, as a rule, constitute minor harm to health.

Volume 21, case file sheets: 124–126.

Senior Warrant Officer Abbasov Khagani Suleyman oglu, Senior Sergeant of the 9th company of the 3rd battalion of the military unit of the Ministry of Defence, who was recognised and questioned as a victim, stated in his testimony that on 19 September 2023 at approximately 14:30 he and his fellow serviceman Lieutenant Rzaev Hajikamil Veli oglu sustained injuries as a result of the explosion of a hand grenade thrown by militants of

[Page 1157]

unlawful Armenian armed formations located in the village of Janyatag in the Aghdere district.

Volume 280, case file sheets: 110–114.

According to forensic medical expert opinion No. 1584 dated 20.10.2023, the bodily injuries sustained by Abbasov Khagani Suleyman oglu — wounds of the middle third of the right forearm and the left lateral wall of the abdomen — were caused by fragments generated as a result of the explosion of an explosive projectile, while the crushed wounds of the middle third of the right lower leg were caused by the impact of a hard blunt object and, according to the degree of severity, constitute minor harm to health.

Volume 370, case file sheets: 1–274.

Akhmedov Vusal Baloglan oglu, first-rank sniper-scout of the 1st platoon of the sniper unit of the military unit of the Ministry of Defence, who was recognised and questioned as a victim, stated in his testimony that on 19 September 2023 at approximately 15:00 he and his fellow serviceman Huseynbaba Allahveren oglu Gahramanli sustained injuries as a result of the explosion of a mortar shell fired by unlawful Armenian armed formations located in the village of Janyatag in the Aghdere district.

Volume 280, case file sheets: 122–126.

According to forensic medical expert opinion No. 83 dated 01.02.2024, the bodily injuries sustained by Akhmedov Vusal Baloglan oglu, namely a penetrating defect of the soft tissues of the right shoulder and right forearm and blind shrapnel wounds of the first and second fingers of the right hand, arose as a result of the impact of numerous fragments generated during the explosion and, according to the degree of severity, generally constitute minor harm to health.

Volume 370, case file sheets: 1–274.

Senior Lieutenant Guliyev Jeyhun Rafik oglu, commander of the special-purpose sniper group of the sniper unit of the military unit of the Ministry of Defence, whose identity was established and who was questioned as a victim, stated in his testimony that on 19 September 2023 at approximately 15:30 he and Junior Sergeant Nuraddinli Elgiz Mirami oglu sustained injuries as a result of the explosion of a “Kornet”-type rocket projectile fired by unlawful Armenian armed formations located in the village of Janyatag in the Aghdere district.

Volume 280, case file sheets: 138–142.

According to forensic medical expert opinion No. 85 dated 01.02.2024, the bodily injuries sustained by Guliyev Jeyhun Rafig oglu, namely

[Page 1158]

a closed craniocerebral injury, concussion of the brain, perforation of the left tympanic membrane, blind shrapnel wounds of the left elbow joint, left forearm and hand, right hand, both thighs and lower legs, laceration of the left lower eyelid, traumatic iridodialysis, and reduction in visual acuity to 0.7 as a result of retinopathy, were caused by the impact of numerous fragments and the blast wave generated during the explosion and, according to the degree of severity, generally constitute minor harm to health.

Volume 370, case file sheets: 1–274.

Private Isazade Vusal Ilham oglu, commander and radio-station chief of the 2nd section of the command-staff communications vehicle of the military unit of the Ministry of Defence, who was recognised and questioned as a victim, stated in his testimony that, while suppressing large-scale provocative actions by unlawful Armenian armed formations, he, Private Alizade Mursel and Junior Sergeant Elman Suleymanov sustained various types of bodily injuries as a result of fire opened by unlawful Armenian armed formations during hostilities in the village of Halfali in the Shusha district on 21.09.2023 at approximately 09:00–10:00 in the morning.

Volume 280, case file sheets: 167–170.

According to forensic medical expert opinion No. 1413 dated 29.09.2023, metallic fragments were identified in the middle third of the left lower leg and the middle third of the left

shoulder of Isazade Vusal Ilham oglu. The said injuries were caused both by the impact of the blast wave and by fragments generated as a result of the explosion of an explosive projectile and, according to the degree of severity, constitute minor harm to health.

Volume 60, case file sheets: 54–56.

Private Badalov Magomed Miraddin oglu, gunner-rifleman of the 2nd section of the 2nd platoon of detachment “R” of military unit No. 073 of the Ministry of Defence, whose identity was established and who was questioned as an injured person, stated in his statement that, while suppressing large-scale provocative actions by unlawful Armenian armed formations, on 19.09.2023 at approximately 18:00–19:00 he sustained blunt trauma to the right ankle as a result of the explosion of mortar shells fired by unlawful Armenian armed formations during hostilities in the village of Halfali in the Shusha district.

Volume 280, case file sheets: 177–180.

According to forensic medical expert opinion No. 32 dated 16.01.2024, the injury sustained by Badalov Magomed Miraddin oglu — blunt trauma to the right ankle — was caused by a blunt mechanism, that is, by the impact of a hard blunt object, and according to the degree of severity constitutes minor harm to health.

[Page 1159]

Volume 21, case file sheets: 160–161.

Private Fatullaev Mirseid Seid oglu, rifleman-serviceman of the 1st section of the 3rd platoon of detachment “R” of the military unit of the Ministry of Defence, who was recognised and questioned as a victim, stated in his testimony that, while suppressing large-scale provocative actions by unlawful Armenian armed formations, he, Private Aykhan Kerimli, Private Azad Mammadov and several other servicemen, whose names he could not recall at that moment, sustained various types of bodily injuries as a result of the explosion of a mortar shell fired by unlawful Armenian armed formations during hostilities in the village of Halfali in the Shusha district on 20.09.2023 at approximately 03:00–04:00.

Volume 280, case file sheets: 190–193.

According to forensic medical expert opinion No. 28 dated 16.01.2024, the bodily injuries sustained by Fatullaev Mirseid Seid oglu — blast injury and a typical fracture of the right spindle-shaped bone — arose as a result of the impact of the blast wave generated by the explosion of any explosive substance and, according to the degree of severity, constitute minor harm to health.

Volume 370, case file sheets: 1–274.

Private Hajiev Agahuseyn Haji oglu, fortification specialist of the engineering-reconnaissance detachment of unit “P” of the military unit of the Ministry of Defence, whose identity was

established and who was questioned as a victim, stated in his testimony that, while suppressing large-scale provocative actions by unlawful Armenian armed formations, he, Junior Sergeant Jabbarov Tarlan and Sergeant Sadyg Gasimly sustained various types of bodily injuries as a result of the explosion of a mortar shell fired by unlawful Armenian armed formations during hostilities in the village of Halfali in the Shusha district on 20.09.2023 at approximately 13:00–14:00.

Volume 280, case file sheets: 203–206.

According to forensic medical expert opinion No. 30 dated 16.01.2024, the bodily injuries sustained by Hajiev Agahuseyn Haji oglu — blast injury; a condition following primary surgical treatment of wounds caused by shrapnel wounds of the right shoulder and the fourth finger of the right hand — arose as a result of the impact of a primary or secondary fragment generated during the explosion of any explosive substance and, according to the degree of severity, constitute minor harm to health.

Volume 370, case file sheets: 1–274.

[Page 1160]

Private Alizade Mursel Sabukhi oglu, head of the radio station of the 5th command headquarters communications unit of the military unit of the Ministry of Defence, who was recognised and questioned as a victim, stated in his testimony that, while suppressing large-scale provocative actions by unlawful Armenian armed formations, on 20 September 2023 at approximately 12:00–13:00, during hostilities in the village of Halfali in the Shusha district, as a result of the explosion of a grenade launcher projectile thrown by unlawful Armenian armed formations, Private Alizade, Junior Sergeant Vusal Isazade and several other servicemen, whose names he could not recall at that moment, sustained various types of bodily injuries.

Volume 280, case file sheets: 216–219.

According to forensic medical expert opinion No. 31 dated 16.01.2024, the bodily injuries sustained by Alizade Mursel Sabukhi oglu were: a gunshot injury; a blind shrapnel wound of the left half of the neck; a foreign body at the level of the C6 cervical vertebra; post-traumatic encephalopathy, OSSD, insomnia and amnesia — caused by gunshot injuries and, according to the degree of severity, generally constitute minor harm to health.

Volume 370, case file sheets: 1–274.

Private Garibov Aydin Agamirza oglu, commander of the 2nd section of the 1st platoon of detachment “M” of the military unit of the Ministry of Defence, who was recognised and questioned as a victim, stated in his testimony that, while suppressing large-scale provocative actions by unlawful Armenian armed formations, he, Junior Sergeant Jeyhun Shakhnamazli and Junior Sergeant Tarlan Jabbarov sustained various types of bodily injuries as a result of

the explosion of a mortar shell fired by unlawful Armenian armed formations during hostilities in the village of Halfali in the Shusha district on 20.09.2023 at approximately 12:00–13:00.

Volume 280, case file sheets: 229–232.

According to forensic medical expert opinion No. 29 dated 16.01.2024, the bodily injuries sustained by Garibov Aydin Agamirza oglu — blast injury; a condition following primary surgical treatment of wounds caused by a shrapnel wound to the area of the right shoulder — arose as a result of the impact of a primary or secondary fragment caused by the explosion of any explosive substance and, according to the degree of severity, constitute minor harm to health.

Volume 370, case file sheets: 1–274.

[Page 1161]

Private Babazade Murad Malik oglu, loader-battery technician of the communications section of the military unit of the Ministry of Defence, whose identity was established and who was questioned as a victim, stated in his testimony that, while suppressing large-scale provocative actions by unlawful Armenian armed formations, on 20 September 2023 at approximately 06:00, during hostilities in the village of Halfali in the Shusha district, as a result of the explosion of mortar shells fired by unlawful Armenian armed formations, Private Elchin Ismailov was killed, while he and Private Nail Suleymanli sustained various types of bodily injuries.

Volume 280, case file sheets: 242–245.

According to forensic medical expert opinion No. 68 dated 25.01.2024, the injury sustained by Babazade Murad Malik oglu — a lacerated shrapnel wound of the lower third of the right lower leg — arose as a result of the impact of a primary or secondary fragment generated by the explosion of an explosive substance. Since the injury did not cause harm to health, its degree of severity was not established.

Volume 319, case file sheet: 171.

Junior Lieutenant Aliyev Ragif Ali oglu, commander of the combat-support platoon of the 1st battalion of the military unit of the Ministry of Defence, who was recognised and questioned as an injured person, stated in his testimony that on 20 September 2023 at approximately 12:00 he sustained an injury as a result of a mortar shell fired by unlawful Armenian armed formations located in the village of Janyatag in the Aghdere district striking a “Ural” vehicle located near him and exploding.

Volume 280, case file sheets: 257–261.

According to forensic medical expert opinion No. 74 dated 01.02.2024, the bodily injuries sustained by Aliyev Ragif Ali oglu, namely a closed craniocerebral injury, concussion of the brain (resulting in vegetative-vascular instability and astheno-neurotic manifestations), and barotrauma (resulting in acute cochlear neuritis), were caused by the blast wave and a blunt object generated during the explosion and, according to the degree of severity, constitute minor harm to health.

Volume 370, case file sheets: 1–274.

Warrant Officer Ataev Barzani Masud oglu, paramedic of the medical station of the 1st battalion of the military unit of the Ministry of Defence, who was recognised and questioned as an injured person, stated in his testimony that on 19 September 2023 at approximately 14:30 he,

[Page 1162]

Senior Sergeant Umud Aliyev and Private Yildirim Hajiev sustained injuries as a result of the explosion nearby of a mortar shell fired by unlawful Armenian armed formations located in the village of Janyatag in the Aghdere district.

Volume 282, case file sheets: 8–11.

According to forensic medical expert opinion No. 86 dated 01.02.2024, the bodily injuries sustained by Ataev Barzani Masud oglu, namely a closed craniocerebral injury and concussion of the brain, arose as a result of the impact of a blast wave and a blunt object generated during the explosion and, according to the degree of severity, constitute minor harm to health.

Volume 370, case file sheets: 1–274.

Junior Sergeant Aliyev Samir Mushfig oglu, scout-operator of the 1st group of the 2nd platoon of the 1st company of the 1st battalion of the military unit of the Ministry of Defence, who was recognised and questioned as a victim, stated in his testimony that on 20.09.2023 at approximately 11:30 in the morning he sustained an injury as a result of the explosion of a mortar shell fired by unlawful Armenian armed formations located in the village of Janyatag in the Aghdere district.

Volume 282, case file sheets: 38–42.

According to forensic medical expert opinion No. 1390 dated 29.09.2023, the bodily injuries identified in Aliyev Samir Mushfig oglu were diagnosed as a closed craniocerebral injury, concussion of the brain and crushing of the left shoulder girdle. The injuries were sustained as a result of the effect of the blast wave generated by the explosion of an explosive shell, while the crushing of the left shoulder girdle was caused by the impact of a hard blunt object; both collectively and separately, they constitute minor harm to health.

Volume 370, case file sheets: 1–274.

Warrant Officer Aliyev Jeyhun Fazil oglu, commander of the 1st group of the 4th platoon of the 3rd company of the 1st battalion of the military unit of the Ministry of Defence, who was recognised and questioned as an injured person, stated in his testimony that on 20.09.2023 at approximately 12:00, a suicide drone fired by unlawful Armenian armed formations located in the village of Janyatag in the Aghdere district fell onto and exploded on the “Ural” vehicle in which he was travelling. In the area where he was injured, his fellow serviceman Junior Sergeant Tural Aghjabekov was also killed, while Private Latif Hajily was injured.

[Page 1163]

Volume 282, case file sheets: 51–55.

According to forensic medical expert opinion No. 81 dated 01.02.2024, the bodily injuries sustained by Aliyev Jeyhun Fazil oglu, namely a closed craniocerebral injury and concussion of the brain, were caused by the blast wave and a blunt object generated during the explosion and, according to the degree of severity, constitute minor harm to health.

Volume 370, case file sheets: 1–274.

Junior Sergeant Jafarov Rakhid Rashid oglu, scout-grenade launcher operator of the 2nd group of the 2nd platoon of the 2nd company of the 1st battalion of the military unit of the Ministry of Defence, a serviceman serving beyond the prescribed term, whose identity was established and who was questioned as a victim, stated in his statement that on 20.09.2023 at approximately 05:30 in the morning he sustained an injury as a result of sniper fire opened by unlawful Armenian armed formations located in the village of Janyatag in the Aghdere district.

Volume 282, case file sheets: 66–70.

According to forensic medical expert opinion No. 76 dated 01.02.2024, the bodily injury sustained by Jafarov Rakhid Rashid oglu, namely a bullet wound penetrating the soft tissues of the right forearm, is a gunshot injury and, according to the degree of severity, constitutes minor harm to health.

Volume 370, case file sheets: 1–274.

Junior Sergeant Rashad Abulfat oglu Guliyev, scout-medical of the 1st platoon of the 1st company of the 1st battalion of the military unit of the Ministry of Defence, a serviceman who had served active military service beyond the prescribed term, testified that on 20 September 2023 at approximately 12:00 he sustained an injury as a result of a rocket projectile fired by unlawful Armenian armed formations located in the village of Janyatag in the Aghdere district falling beside the “Ural” vehicle in which he was travelling and exploding. In the area where he sustained the injury, and at the same time, his fellow serviceman Junior Sergeant Tural Aghjabekov was killed.

Volume 282, case file sheets: 82–86.

According to forensic medical expert opinion No. 157 dated 09.02.2024, the bodily injuries sustained by Guliyev Rashad Abulfat oglu, namely barotrauma and crushing of the soft tissues of the left shoulder and left knee joint, were caused by the blast wave and blunt impact arising during the explosion and, since they constitute bodily injuries that do not cause harm to health, their degree of severity was not established.

[Page 1164]

Volume 370, case file sheets: 1–274.

Private Guliyev Huseyn Mahir oglu, scout-gunner of the 2nd group of the 2nd platoon of the 1st battalion of the 1st company of the military unit of the Ministry of Defence, a serviceman who had served active military service beyond the prescribed term, who was recognised and questioned as a victim, stated in his testimony that on 19.09.2023 at approximately 17:30 he sustained an injury as a result of the explosion nearby of an artillery shell fired by unlawful Armenian armed formations located in the village of Janyatag in the Aghdere district.

Volume 282, case file sheets: 97–101.

According to forensic medical expert opinion No. 82 dated 01.02.2024, the bodily injuries sustained by Guliyev Huseyn Mahir oglu, namely a closed craniocerebral injury and concussion of the brain, were caused by the blast wave and a blunt object generated during the explosion and, according to the degree of severity, constitute minor harm to health.

Volume 370, case file sheets: 1–274.

Warrant Officer Mammadli Safiyar Sardar oglu, commander of the 1st group of the 3rd platoon of the 2nd company of the 1st battalion of the military unit of the Ministry of Defence, whose identity was established and who was questioned as an injured person, stated in his statement that on 20.09.2023 at approximately 04:00 in the morning he sustained an injury as a result of the explosion of an artillery shell fired by unlawful Armenian armed formations located in the village of Janyatag in the Aghdere district.

Volume 282, case file sheets: 112–116.

According to forensic medical expert opinion No. 152 dated 09.02.2024, the injury sustained by Mammadli Safiyar Sardar oglu, namely damage to the soft tissues in the area of the right hip joint, was caused by blunt impact and, according to the degree of severity, constitutes minor harm to health.

Volume 370, case file sheets: 1–274.

Private Sadygly Orkhan Gunduz oglu, commander of the telephone section of the communications platoon of the 1st battalion of the military unit of the Ministry of Defence, a

retired serviceman, an active serviceman performing overtime service, who was recognised as a victim and questioned, stated in his testimony that on 19.09.2023 at approximately 16:00, a “Kornet”-type missile fired by unlawful Armenian armed formations located in the village of Janyatag in the Aghdere district fell near his fellow serviceman, Lieutenant Samedov Elchin Akif oglu, as a result of which the latter was killed and he himself sustained an injury. In addition, on 20.09.2023 at approximately 11:30, a long-range missile struck the “Ural” vehicle in which he was travelling,

[Page 1165]

having been fired by unlawful Armenian armed formations located in the village of Janyatag in the Aghdere district, and exploded, as a result of which he was injured again.

Volume 282, case file sheets: 127–131.

According to forensic medical expert opinion No. 97 dated 01.02.2024, the bodily injuries sustained by Sadygly Orkhan Gunduz oglu, namely crushing of the soft tissues of the back and both knees, were caused by the blast wave and blunt impact arising during the explosion and, according to the degree of severity, constitute minor harm to health.

Volume 370, case file sheets: 1–274.

Junior Sergeant Mammadov Magomed Vagif oglu, sniper of the 1st group of the 2nd platoon of the 3rd company of the 1st battalion of the military unit of the Ministry of Defence, who was recognised as a victim and questioned, stated in his testimony that on 19.09.2023 at approximately 23:30 he sustained an injury as a result of the explosion of a mortar shell fired by unlawful Armenian armed formations located in the village of Janyatag in the Aghdere district.

Volume 282, case file sheets: 142–146.

According to forensic medical expert opinion No. 1526 dated 17.10.2023, Mammadov Magomed Vagif oglu sustained the following bodily injuries: a closed blunt injury of the right ankle (oedema, restriction of mobility and pain in the right ankle), which was caused by a blunt object, whereas the closed craniocerebral injury and concussion of the brain were caused by the blast wave generated by the explosion of an explosive shell (munition); separately or collectively, they constitute minor harm to health.

Volume 370, case file sheets: 1–274.

Junior Sergeant Hamzaev Azer Aydin oglu, scout-fortification specialist of the 1st group of the 2nd platoon of the 6th company of the 2nd battalion of the military unit of the Ministry of Defence, who was recognised and questioned as a victim, stated in his statement that on 19.09.2023 at approximately 17:30 he sustained an injury as a result of the explosion of a mortar shell fired by unlawful Armenian armed formations located in the village of Janyatag in the Aghdere district.

Volume 282, case file sheets: 155–159.

According to forensic medical expert opinion No. 84 dated 01.02.2024, the bodily injuries sustained by Hamzaev Azer Aydin oglu, namely a closed craniocerebral injury and concussion of the brain, were caused by the blast wave and

[Page 1166]

a blunt object generated during the explosion and, according to the degree of severity, constitute minor harm to health.

Volume 370, case file sheets: 1–274.

Junior Sergeant Gadirli Kenan Sanan oglu, a serviceman of the 2nd group of the 3rd platoon of the 4th company of the 2nd battalion of the military unit of the Ministry of Defence, who was recognised as a victim and questioned, stated in his testimony that on 20.09.2023 at approximately 01:00 in the morning he fell and sustained an injury while evacuating our wounded servicemen during an attack on a combat post of unlawful Armenian armed formations located in the village of Janyatag in the Aghdere district. In the area where he sustained the injury, his fellow servicemen serving beyond the prescribed term, Junior Sergeant Eyvazov Valekh Asim oglu and Private Gyulmaliev Alim Rahim oglu, also sustained injuries.

Volume 282, case file sheets: 171–175.

According to forensic medical expert opinion No. 158 dated 20.02.2024, the injury sustained by Gadirli Kenan Sanan oglu, namely a sprain of the anterior cruciate ligament of the right knee joint, was caused by a blunt object and is not considered harmful to health; therefore, its degree of severity was not established.

Volume 370, case file sheets: 1–274.

Major Akhundov Elsever Elshan oglu, Head of the Logistics Support Department of the military unit of the Ministry of Defence, who was recognised as an injured person and questioned, stated in his testimony that on 19 September 2023 at approximately 15:00 he sustained an injury as a result of the explosion of a mortar shell fired by unlawful Armenian armed formations in the Aghdere area and exploding nearby.

Volume 282, case file sheets: 197–200.

According to forensic medical expert opinion No. 120 dated 02.02.2024, the bodily injuries sustained by Akhundov Elsever Elshan oglu — lacerated wounds of the left hand (shrapnel wounds) — arose as a result of the impact of numerous fragments generated during the explosion and, according to the degree of severity, constitute minor harm to health.

Volume 370, case file sheets: 1–274.

Captain Muradov Elvin Elchin oglu, commander of the 4th operational battalion of the military unit of the Ministry of Defence, who was recognised as a victim and questioned, stated in his testimony that on 19 September 2023 at approximately 13:00 he and Lieutenant Parviz Agali sustained injuries as a result of the explosion of a mortar shell

[Page 1167]

fired by Armenian terrorists in the Aghdere area, while at the same time Warrant Officer Rasul Teymurov, Private David Jalilov and Private Javad Magerramov were killed.

Volume 282, case file sheets: 210–213.

According to forensic medical expert opinion No. 119 dated 02.02.2024, the injury sustained by Muradov Elvin Elchin oglu — a shrapnel wound of the posterior surface of the neck — arose as a result of the impact of numerous fragments generated during the explosion. Since this is an injury not causing harm to health, its degree of severity was not determined.

Volume 370, case file sheets: 1–274.

Senior Lieutenant of the Medical Service Hajiev Elnur Gurban oglu, Head of the Medical Unit of the 4th operational battalion of the military unit of the Ministry of Defence, who was recognised as a victim and questioned, stated in his testimony that on 19 September 2023 at approximately 15:00, as a result of an anti-tank “Fagot” missile fired by unlawful Armenian armed formations in the Aghdere district, Private Sarkhan Koklerov, Medical Service Sergeant Elmin Garaev, Talgyr Bayramov and Mikail Gamidli were killed, while he himself and Intigam Jumaev sustained injuries.

Volume 282, case file sheets: 223–226.

According to forensic medical expert opinion No. 91 dated 01.02.2024, the bodily injuries sustained by Hajiev Elnur Gurban oglu — rupture of the upper eyelid of the left eye, multiple blunt shrapnel wounds of the face and right hand, a closed craniocerebral injury accompanied by concussion of the brain, bilateral acute cochlear neuritis, traumatic central perforation of both tympanic membranes — caused by the impact of numerous fragments and the blast wave generated during the explosion, are generally classified as minor harm to health.

Volume 370, case file sheets: 1–274.

Lieutenant Kerimov Shamil Kheiraddin oglu, commander of the 2nd platoon of the 12th company of the 4th operational battalion of the military unit of the Ministry of Defence, who was recognised as a victim and questioned, stated in his testimony that on 19 September 2023 at approximately 13:00 he and Captain Elvin Muradov sustained injuries as a result of the explosion of a projectile fired by unlawful armed formations of Armenia using a drone on the territory of the Aghdam district, while at the same time Warrant Officer Rasul Teymurov, Warrant Officer Ali Tagiev and soldier Javad Magerramov were killed.

Volume 282, case file sheets: 236–239.

[Page 1168]

According to forensic medical expert opinion No. 110 dated 02.02.2024, the bodily injuries sustained by Kerimov Shamil Kheiraddin oglu — a fracture of the left angle and the mental bone of the jaw without displacement, accompanied by a penetrating shrapnel wound of the left cheek; post-traumatic fracture of the crowns of teeth 36 and 37; post-traumatic neuropathy of the maxillary branch of the left trigeminal nerve — were caused by the impact of numerous fragments generated during the explosion and, according to the degree of severity, constitute minor harm to health.

Volume 370, case file sheets: 1–274.

Private Magomedov Akhmed Bahram oglu, scout-radiotelephone operator (radio operator) of the 1st platoon of the 8th company of the 3rd operational battalion of the military unit of the Ministry of Defence, who was recognised and questioned as a victim, stated in his testimony that on 19.09.2023 at approximately 17:00 he sustained an injury as a result of the explosion nearby of a mortar shell fired by unlawful Armenian armed formations.

Volume 282, case file sheets: 249–252.

According to forensic medical expert opinion No. 153 dated 09.02.2024, the bodily injuries sustained by Magomedov Akhmed Bahram oglu — lacerated wounds of the left hand (shrapnel wounds) — arose as a result of the impact of numerous fragments generated during the explosion and, according to the degree of severity, constitute minor harm to health.

Volume 370, case file sheets: 1–274.

Private Hajikhasanov Aslan Arif oglu, commander of the cable communications line of the communications platoon of the 3rd operational battalion of the military unit of the Ministry of Defence, who was recognised and questioned as a victim, stated in his testimony that on 20.09.2023 at approximately 01:00 he and Private Khayal Jahanbakhishov sustained injuries as a result of the explosion nearby, on the territory of the Aghdere district, of a mortar shell fired by unlawful Armenian armed formations.

Volume 282, case file sheets: 262–265.

According to forensic medical expert opinion No. 107 dated 02.02.2024, the bodily injuries sustained by Hajikhasanov Aslan Arif oglu — a penetrating gunshot wound of the second and third fingers of the right hand and a foreign body in the soft tissues, caused by the penetrating effect of a bullet fired from a firearm, as well as by the impact of secondary fragments — generally constitute minor harm to health according to the degree of severity.

Volume 370, case file sheets: 1–274.

[Page 1169]

Warrant Officer Keremli Kerem Aga oglu, commander of the 1st group of the 2nd platoon of the 12th company of the 4th battalion of the military unit of the Ministry of Defence, whose identity was established and who was questioned as a victim, stated in his testimony that on 19 September 2023 at approximately 13:00 he sustained an injury as a result of the explosion nearby of a mortar shell fired by unlawful Armenian armed formations on the territory of the Aghdere district, while Warrant Officer Rasul Teymurov was killed.

Volume 283, case file sheets: 21–24.

According to forensic medical expert opinion No. 1629 dated 20.10.2023, the bodily injuries sustained by Keremli Kerem Aga oglu — wounds of the right half of the parietal region, the left half of the neck, the right shoulder, the right shoulder, a first-degree thermal burn of the right shoulder, and first-degree neurosensory trauma — were caused both by the impact of the blast wave and by the impact of fragments generated as a result of the explosion of a projectile possessing strong acoustic-explosive properties. According to the degree of severity, they constitute minor harm to health.

Volume 370, case file sheets: 1–274.

Soldier-scout-grenade launcher operator Safarli Minuri Ramin oglu of the 2nd group of the 2nd platoon of the 11th company of the 4th operational battalion of the military unit of the Ministry of Defence, who was recognised as a victim and questioned, stated in his testimony that on 19.09.2023 at approximately 13:00 he and Warrant Officer Vusal Latifov sustained injuries as a result of the explosion of a mortar shell carried out by unlawful Armenian armed formations on the territory of the Aghdam district.

Volume 283, case file sheets: 32–35.

According to forensic medical expert opinion No. 1310 dated 20.10.2023, a second-degree thermal burn on the posterior surface of the lower third of the right lower leg of Safarli Minuri Ramin oglu arose as a result of exposure to flame generated by the explosion of an explosive combat munition (projectile) and constitutes minor harm to health.

Volume 370, case file sheets: 1–274.

Private Mammadov Fikret Hidayat oglu, gunner of the 2nd machine-gun section of the combat-support platoon of the 4th operational battalion of the military unit of the Ministry of Defence, whose identity was established and who was questioned as a victim, stated in his testimony that on 19 September 2023 at approximately 17:00 he and Private Nasimi Mammadov sustained injuries as a result of the explosion nearby, on the territory of the Aghdam district, of a mortar shell fired by unlawful Armenian armed formations.

[Page 1170]

Volume 283, case file sheets: 43–46.

According to forensic medical expert opinion No. 1605 dated 20.10.2023, it was established that the bodily injuries sustained by Mammadov Fikret Hidayat oglu — wounds of the lower third of the right shoulder, the upper third of the right forearm, the dorsal surface of the right hand and the lower third of the left lower leg, as well as “post-traumatic headaches”, diagnosed in the Central District Hospital of the Goychay district on 21.09.2023 — were caused by the impact both of the blast wave and of fragments generated as a result of the explosion of an explosive projectile and, according to the degree of severity, constitute minor harm to health.

Volume 370, case file sheets: 1–274.

Private Kerimov Elsal Matlab oglu, scout-operator of the 1st group of the 2nd platoon of the 12th company of the 4th operational battalion of the military unit of the Ministry of Defence, who was recognised and questioned as a victim, stated in his testimony that on 19 September 2023 at approximately 14:00, as a result of bullets fired from an automatic weapon and by snipers of unlawful Armenian armed formations on the territory of the Aghdam district, he and Private Nasimi Mahmudov sustained injuries, while at the same time Warrant Officer Ali Tagiev was killed.

Volume 283, case file sheets: 54–57.

According to forensic medical expert opinion No. 37 dated 14.02.2024, the bodily injury sustained by Karimov Elsal Matlab oglu — a blind bullet wound of the left lateral surface of the neck — was inflicted on 20.09.2023 as a result of a shot from a firearm from a long distance, from left to right. The injury sustained by Elsal Kerimov was classified as minor harm to health causing prolonged impairment of health (more than 3 weeks).

Volume 370, case file sheets: 1–274.

Sergeant Gurbanly Samran Aslan oglu, scout-sniper of the 1st group of the 1st platoon of the 9th company of the 3rd operational battalion of the military unit of the Ministry of Defence, who was recognised and questioned as a victim, stated in his testimony that on 20.09.2023 at approximately 05:00 in the morning he sustained an injury as a result of falling while attempting to leave an ambush set by unlawful Armenian armed formations on the territory of the Aghdere district, while at the same time Private Khayal Jhanbakhshov was killed as a result of the explosion nearby of a mortar shell fired by unlawful Armenian armed formations.

Volume 283, case file sheets: 65–68.

[Page 1171]

According to forensic medical expert opinion No. 1600 dated 20.10.2023, the bodily injuries sustained by the victim Gurbanly Samran Aslan oglu — a contusion of the left thigh and left

arm, accompanied by swelling of the left thigh — arose as a result of the impact of a hard blunt object and, according to the degree of severity, constitute a minor injury causing short-term impairment of health.

Volume 370, case file sheets: 1–274.

Private Dayanov Amin Vusal oglu, a member of the reconnaissance group of the 1st group of the 2nd platoon of the 7th company of the 3rd operational battalion of the military unit of the Ministry of Defence, who was recognised as a victim and questioned, stated in his testimony that on 19 September 2023 at approximately 14:00 he sustained injuries as a result of the explosion nearby of a grenade thrown by unlawful Armenian armed formations on the territory of the Aghdere district. At the same time, Private Vurgun Gulmammadov and Privates Mirtalekh Gashimov and Abdulla Hajiev also sustained gunshot injuries, while Private Nijat Gasimov was killed.

Volume 283, case file sheets: 76–79.

According to forensic medical expert opinion No. 1323 dated 20.10.2023, superficial wounds of the upper third of the right forearm and the anterolateral surface of the middle third of the right thigh of Dayanov Amin Vusal oglu arose as a result of the impact of fragments generated during the explosion of an explosive combat munition (projectile). Since they did not result in impairment of health, their degree of severity was not determined.

Volume 370, case file sheets: 1–274.

The injured person, recognised as a victim, Private Hajiev Abdulla Sahil oglu, assistant grenade launcher operator of the 2nd group of the 2nd platoon of the 7th company of the 3rd operational battalion of the military unit of the Ministry of Defence, stated in his statement that on 20.09.2023 at approximately 05:00 in the morning a bullet fired by unlawful Armenian armed formations on the territory of the Aghdere district struck him in the pelvic region and wounded him.

Volume 283, case file sheets: 87–90.

According to forensic medical expert opinion No. 1509 dated 29.02.2024, the bodily injury sustained by Hajiev Abdulla Sahil oglu — a shrapnel wound of the lumbar region — constitutes minor harm to health caused by the impact of one of the numerous fragments generated during the explosion of an explosive shell (munition).

Volume 350, case file sheets: 196–197.

[Page 1172]

Senior radio operator of the fire-support group of the 1st battery of the artillery division of the military unit of the Ministry of Defence, Sergeant Makhyaddinli Hasan Sadeddin oglu, who was recognised as a victim and questioned, stated in his testimony that:

On 20.09.2023 at approximately 11:00, two rocket projectiles fired by unlawful Armenian armed formations located in the village of Janyatag in the Aghdere district struck the “Ural” vehicle in which he was travelling and exploded beside him when he fell out of the vehicle, as a result of which he and his fellow servicemen, Senior Lieutenant Muhammad Bagiev, Senior Lieutenant Khazrat Ismailov and soldier Amin Javadov, sustained injuries.

Volume 283, case file sheets: 98–102.

According to forensic medical expert opinion No. 64 dated 01.02.2024, the bodily injuries sustained by Makhyaddinli Hasan Sadeddin oglu, namely multiple shrapnel wounds of the left knee, both lower legs and the right leg, foreign bodies in the soft tissues (metallic fragments), perforation of the right tympanic membrane, a closed craniocerebral injury and concussion of the brain, were caused by the impact of multiple fragments and the blast wave generated during the explosion and, according to the degree of severity, generally constitute minor harm to health.

Volume 370, case file sheets: 1–274.

Junior Sergeant Bayramly Bahruz Bakhtiyar oglu, commander of the 4th artillery gun of the 2nd platoon of the 1st battery of the artillery division of the military unit of the Ministry of Defence, whose identity was established and who was questioned as a victim, stated in his statement that on 19.09.2023 at approximately 16:00 he sustained an injury as a result of the explosion of an artillery shell fired by unlawful Armenian armed formations located in the village of Janyatag in the Aghdere district.

Volume 283, case file sheets: 113–117.

According to forensic medical expert opinion No. 88 dated 01.02.2024, the bodily injuries sustained by Bayramly Bahruz Bakhtiyar oglu, namely a closed craniocerebral injury and concussion of the brain, were caused by the blast wave and a blunt object generated during the explosion and, according to the degree of severity, are classified as minor harm to health.

Volume 370, case file sheets: 1–274.

Senior Lieutenant Bagiev Magomed Fakhraddin oglu, commander of the fire-support group of the 3rd battery of the artillery division of the military unit of the Ministry of Defence, who was recognised as a victim and questioned, in his

[Page 1173]

testimony stated that on 20.09.2023 at approximately 11:00 an artillery shell fired by unlawful Armenian armed formations located in the village of Janyatag in the Aghdere district struck the “Ural” vehicle in which he was travelling and exploded, as a result of which he and his fellow servicemen — Sergeant Makhyaddinli Hasan Sadeddin oglu, Senior Lieutenant Khazrat Ismailov and Private Amin Javadov — sustained injuries.

Volume 283, case file sheets: 128–132.

According to forensic medical expert opinion No. 1471 dated 08.04.2024, the bodily injuries sustained by Bagiev Muhammad Fakhreddin oglu — multiple blind wounds of the soft tissues of the right frontal region, the posterior surfaces of both thighs, the posterior surfaces of both calves and the posterior surface of the upper 1/3 of the right forearm; a second-degree thermal burn wound of the posterior surface of the lower third of the right lower leg — were caused by the impact of flame generated during the explosion of explosive munitions and by primary and secondary fragments of a blunt mechanism and, depending on the degree of severity, are usually classified as minor harm to health.

Volume 370, case file sheets: 1–274.

Senior Lieutenant Ismailov Khazrat Vahid oglu, commander of the fire-support group of the 1st battery of the artillery division of the military unit of the Ministry of Defence, who was recognised as a victim and questioned, stated in his testimony that on 20.09.2023 at approximately 11:00 an artillery shell fired by unlawful Armenian armed formations located in the village of Janyatag in the Aghdere district struck the “Ural” vehicle in which he was travelling and exploded, as a result of which his fellow servicemen, Junior Sergeant Tural Aghjabekov and Private Mekhdizade Mirpasha Yagub oglu, were killed, while he and other servicemen — Sergeant Makhayaddinli Hasan Sadeddin oglu, Senior Lieutenant Magomed Bagiev, Private Amin Javadov and Private Bakhadur Guliyev, a serviceman of a military unit of the Ministry of Defence — sustained injuries.

Volume 283, case file sheets: 140–144.

According to forensic medical expert opinion No. 1491 dated 11.04.2024, the bodily injuries sustained by Ismailov Khazrat Vahid oglu — multiple blind wounds of the soft tissues of the left thigh and left lower leg — arose as a result of the impact of fragments generated during the explosion of explosive munitions and, according to the degree of severity, generally constitute minor harm to health.

Volume 370, case file sheets: 1–274.

[Page 1174]

Sergeant Najafov Zakhid Ilgar oglu, commander of the combat vehicle of a mechanised unit of the military unit of the Ministry of Defence, who was recognised and questioned as a victim, stated in his testimony that on 20 September 2023 at approximately 12:00 a rocket projectile fired by unlawful Armenian armed formations located in the village of Janyatag in the Aghdere district struck a “Ural” vehicle located near him and exploded, as a result of which he and his fellow serviceman Orkhan Baladov sustained injuries.

Volume 283, case file sheets: 153–157.

According to forensic medical expert opinion No. 77 dated 01.02.2024, the bodily injuries sustained by Najafov Zakhid Ilgar oglu, namely a closed craniocerebral injury and concussion of the brain, arose as a result of the impact of the blast wave and a blunt object generated during the explosion and, according to the degree of severity, constitute minor harm to health.

Volume 370, case file sheets: 1–274.

Soldier Javadov Amin Javad oglu, a scout of the fire-support group of the 1st battery of the artillery division of the military unit of the Ministry of Defence, who was recognised as a victim and questioned, stated in his testimony that on 20.09.2023 at approximately 11:00 an artillery shell fired by unlawful Armenian armed formations in the village of Janyatag in the Aghdere district struck the “Ural” vehicle in which he was travelling and exploded, as a result of which his fellow servicemen, Junior Sergeant Tural Aghjabekov and Private Mekhdizade Mirpasha Yagub oglu, were killed, while he and his fellow servicemen — Sergeant Makhyaddinli Hasan Sadeddin oglu, Senior Lieutenant Magomed Bagiev, Senior Lieutenant Khazrat Ismailov and Private Bakhadur Guliyev, a serviceman of military unit No. 059 of the Ministry of Defence — sustained injuries.

Volume 283, case file sheets: 168–172.

According to forensic medical expert opinion No. 1472 dated 08.04.2024, the bodily injuries sustained by Javadov Amin Javad oglu — multiple blind wounds of the soft tissues of the right eyebrow, the left buttock and both lower legs — arose as a result of the impact of fragments of a primary and secondary blunt mechanism arising during the explosion of explosive munitions and, according to the degree of severity, generally constitute minor harm to health.

Volume 370, case file sheets: 1–274.

Lieutenant Agaly Parviz Adibey oglu, commander of the 1st platoon of the 12th company of the 4th operational battalion of the military unit of the Ministry of Defence, whose identity was

[Page 1175]

established and who was questioned as an injured person, stated in his testimony that on 19.09.2023 at approximately 13:00 he sustained injuries as a result of being struck by an automatic-weapon bullet fired by Armenian terrorists on the territory of the Aghdere district, and also as a result of the explosion nearby, on 20.09.2023 at approximately 14:00, of a mortar shell fired by unlawful Armenian armed formations.

Volume 283, case file sheets: 181–184.

According to forensic medical expert opinion No. 117 dated 02.02.2024, the bodily injuries sustained by Agaly Parviz Adibey oglu — a lacerated wound of the left hand arose as a result

of the penetrating effect of a bullet fired from a firearm, while a blind shrapnel wound of the right hand arose as a result of the impact of one of the numerous fragments generated during the explosion. Since the injuries did not pose a danger to health, their degree of severity was not determined.

Volume 370, case file sheets: 1–274.

Captain Jafarli Ayaz Gorkhmaz oglu, Chief of Staff and Deputy Commander of the 3rd operational battalion of the Ministry of Defence, who was recognised as a victim and questioned, stated in his testimony that on 19.09.2023 at approximately 17:00 on the territory of the Aghdere district he and Warrant Officer Nijat Goyushov sustained injuries as a result of a tank being fired upon by unlawful armed formations of Armenia using an anti-tank missile “TAIR”.

Volume 283, case file sheets: 194–197.
