“I APPROVE”

Prosecutor General of the Republic of Azerbaijan
State Counsellor of Justice, 1st Class

[signature] **Kamran Aliyev**

“28” December 2024

INDICTMENT

in criminal case No. 232990101 concerning the charge against the citizen of the Republic of Armenia, **Vardanyan Ruben Karlenovich**, under Articles 100.1, 100.2, 107, 109, 110, 112, 113, 114.1, 115.2, 116.0.1, 116.0.2, 116.0.10, 116.0.11, 116.0.16, 116.0.18, 120.2.1, 120.2.3, 120.2.4, 120.2.7, 120.2.11, 120.2.12, 29, 120.2.1, 29, 120.2.3, 29, 120.2.4, 29, 120.2.7, 29, 120.2.11, 29, 120.2.12, 192.3.1, 214.2.1, 214.2.3, 214.2.4, 214-1, 218.1, 218.2, 228.3, 270-1.2, 270-1.4, 278.1, 279.1, 279.2, 279.3 and 318.2 of the Criminal Code of the Republic of Azerbaijan.

At approximately 14:30 on 22 December 2024, pursuant to Article 289 of the Code of Criminal Procedure of the Republic of Azerbaijan, **Huseynov Rovshan Sovet oglu**, Lieutenant Colonel and Head of a Department of the Main Investigation Department of the State Security Service of the Republic of Azerbaijan, began drawing up this indictment at the Main Investigation Department of the State Security Service in the city of Baku.

The Head of a Department of the Main Investigation Department of the State Security Service of the Republic of Azerbaijan, Lieutenant Colonel **Rovshan Huseynov**, having examined the materials of criminal case No. 232990101 concerning the charge against the citizen of the Republic of Armenia, **Vardanyan Ruben Karlenovich**, under Articles 100.1, 100.2, 107, 109, 110, 112, 113, 114.1, 115.2, 116.0.1, 116.0.2, 116.0.10, 116.0.11, 116.0.16, 116.0.18, 120.2.1, 120.2.3, 120.2.4, 120.2.7, 120.2.11, 120.2.12, 29, 120.2.1, 29, 120.2.3, 29, 120.2.4, 29, 120.2.7, 29, 120.2.11, 29, 120.2.12, 192.3.1, 214.2.1, 214.2.3, 214.2.4, 214-1, 214-3.2, 218.1, 218.2, 228.3, 270-1.2, 270-1.4, 278.1, 279.1, 279.2, 279.3 and 318.2 of the Criminal Code of the Republic of Azerbaijan, and acting in accordance with the requirements of Article 289 of the Code of Criminal Procedure of the Republic of Azerbaijan, established that, on 28 October 2023, the present criminal case had been severed by **Abdullayev Saleh Ahmed oglu**, Lieutenant Colonel of Justice and Deputy Head of the Third Directorate of the Main Investigation Department of the State Security Service, from criminal case No. 232990085 concerning the participation of citizens of the Republic of Armenia, **Ghukasyan Arkadi Arshavirovich**, **Sahakyan Bako Sahakovich**, **Harutyunyan Arayik Vladimirovich**, **Ishkhanyan Davit Rubenovich**, **Babayan Davit Klimovich**, **Manukyan Davit Azatovich**, and others in the formation and organization of the activities of armed formations not provided for by the legislation of the Republic of Azerbaijan, as well as in supplying the said illegal armed formations with weapons, ammunition, explosives, military equipment and military supplies, those formations organizing attacks on institutions, organizations and individuals which contributed to deaths and other grave consequences, and also concerning other facts, together with other circumstances relating to the charge against the citizen of the Republic of Armenia, **Vardanyan Ruben Karlenovich**, under

Page 2

Articles 214-1, 279.3 and 318.1 of the Criminal Code of the Republic of Azerbaijan and with respect to him; the case was accepted for proceedings by **Guliyev Vugar Farhad oglu**, Colonel of Justice and Head of a Department of the Main Investigation Department of the State Security Service.

On 03 February 2024, criminal case No. 232990101 concerning the citizen of the Republic of Armenia, **Vardanyan Ruben Karlenovich**, was accepted by me for proceedings.

Volume 1, case-file sheets: 1–16, 21–23.

Volume 5, case-file sheet: 79.

On 25 September 2023, the Main Investigation Department of the State Security Service of the Republic of Azerbaijan issued a decision to charge the citizen of the Republic of Armenia, **Vardanyan Ruben Karlenovich**, as an accused person under Articles 214-1, 279.3 and 318.1 of the Criminal Code of the Republic of Azerbaijan; however, because he evaded and concealed himself from the investigation, the Main Investigation Department declared him wanted on the same date.

On 27 September 2023, **Vardanyan Ruben Karlenovich** was detained by officers of the State Security Service of the Republic of Azerbaijan on the territory of Lachin District and was handed over to the Main Investigation Department of the State Security Service of the Republic of Azerbaijan. On the same date, he was charged under Articles 214-1, 279.3 and 318.1 of the Criminal Code of the Republic of Azerbaijan. On the same date, **Shukurova Ulviya Sahib gizi**, a judge of the Sabail District Court of the city of Baku, ordered the preventive measure of detention in respect of **Vardanyan Ruben Karlenovich** for a period of 4 (four) months.

On 16 January 2024, the preventive measure of detention imposed in respect of **Ruben Vardanyan** was extended by **Samedova Gunel Kamil gizi**, a judge of the Sabail District Court, for 4 (four) months, that is, until 19 May 2024; on 16 May 2024, it was extended by **Shukurova Ulviya Sahib gizi**, a judge of the Sabail District Court, for 5 (five) months, that is, until 19 October 2024; and on 17 October 2024, it was extended by **Tagiyev Azer Ramiz oglu**, a judge of the Sabail District Court of the city of Baku, Republic of Azerbaijan, for 6 (six) months, that is, until 19 April 2025.

Volume 1, case-file sheets: 145–146, 149, 167–180.

Volume 5, case-file sheets: 29–33, 125–128, 84–90.

On 05 December 2024, **Ruben Vardanyan** was charged in the case as an accused person under Articles 100.1, 100.2, 107, 109, 110, 112, 113, 114.1, 115.2, 116.0.1, 116.0.2, 116.0.10, 116.0.11, 116.0.16, 116.0.18, 120.2.1, 120.2.3, 120.2.4, 120.2.7, 120.2.11, 120.2.12, 29, 120.2.1, 29, 120.2.3, 29, 120.2.4, 29, 120.2.7, 29, 120.2.11, 29, 120.2.12, 192.3.1, 214.2.1, 214.2.3, 214.2.4, 214-1, 218.1, 218.2, 228.3, 270-1.2, 270-1.4, 278.1, 279.1, 279.2, 279.3 and 318.2 of the Criminal Code of the Republic of Azerbaijan, and I re-presented the charges against him under the same Articles.

Volume 421, case-file sheets: 1–174.

On 16 January 2024, the period of the preliminary investigation in the present case was extended by **Elmar Jamalov**, Deputy Prosecutor General of the Republic of Azerbaijan and State Counsellor of Justice, 2nd Class, for 4 (four) months, that is, until 28 June 2024; on 14 May 2024, it was extended for 5 (five) months, that is, until 28 November 2024. On **14 October 2024**, the period of the preliminary investigation in the criminal case was extended by **Kamran Aliyev**, Prosecutor General of the Republic of Azerbaijan and State Counsellor of Justice, 1st Class, for 6 (six) months, that is, until 28 May 2025.

On 09 December 2024, **Kamran Aliyev**, Prosecutor General of the Republic of Azerbaijan and State Counsellor of Justice, 1st Class, assigned the continuation of the preliminary investigation in the present criminal case to the Main Investigation Department of the State Security Service.

Volume 6, case-file sheets: 120–121.

Volume 7, case-file sheets: 72–73.

Volume 422, case-file sheets: 341–342.

On 06 December 2024, the criminal case under Articles 100.1, 100.2, 107, 109, 110, 112, 113, 114.1, 115.2, 116.0.1, 116.0.2, 116.0.10, 116.0.11, 116.0.16, 116.0.18, 120.2.1, 120.2.3, 120.2.4, 120.2.7, 120.2.11, 120.2.12, 29, 120.2.1, 29, 120.2.3, 29, 120.2.4, 29, 120.2.7, 29, 120.2.11, 29, 120.2.12, 192.3.1, 214.2.1, 214.2.3, 214.2.4, 214-1, 218.1, 218.2, 228.3, 270-1.2, 270-1.4, 278.1, 279.1, 279.2, 279.3 and 318.2 of the Criminal Code of the Republic of Azerbaijan in respect of the citizen of the Russian Federation, **Jilavyan Arman Gagikovich**, and others, as well as in connection with other circumstances, was severed from the materials of the present criminal case into separate proceedings.

Volume 422, case-file sheets: 325–337.

The investigation in the case established the following:

The preliminary investigation established that, from the beginning of December 2020, he joined a criminal formation (organization) created for the purpose of committing serious and especially serious crimes; headed that criminal formation (organization) and the structural subdivisions forming part of it until the end of September 2023; carried out activities as part of the said criminal formation and organization, encompassed by its common criminal purposes and intent; participated in planning the aggressive war that had been initiated, preparing plans for new attacks, continuing to pursue the said purposes and intent, waging an aggressive war, forcibly expelling the population from places lawfully inhabited by them without grounds established by the norms of international law and the laws of the Republic of Azerbaijan, persecuting a group on national, ethnic, cultural and religious grounds, that is, grossly depriving persons of their rights on account of their membership in a particular group, detaining, arresting and abducting persons for the purpose of removing them from the protection of the law for a prolonged period, acting upon instructions and with the support and consent of the state and political organizations, subsequently denying the deprivation of those persons' liberty and refusing to provide information concerning their subsequent fate and whereabouts, arresting persons and otherwise depriving them of liberty in contravention of the norms of international law, inflicting physical pain and mental suffering upon detained

persons and persons whose liberty had otherwise been restricted, recruiting mercenaries, conducting training for them, financing them and otherwise providing them with material support, as well as using them in armed conflicts and military operations, torturing prisoners and other persons protected by international humanitarian law, treating them cruelly and inhumanely, holding them hostage, employing methods of warfare capable of causing extensive destruction during the war, intentionally causing widespread, long-term and serious damage to the environment, attacking the civilian population and individual civilians not taking part in hostilities, committing violence against the population in areas of military operations, destroying property, attacking structures whose destruction could result in major losses among the civilian population and cause significant damage to civilian objects, using in armed conflicts weapons, means and methods of warfare prohibited by interstate treaties to which the Republic of Azerbaijan is a party, detaining and otherwise depriving prisoners and other persons protected by international humanitarian law of liberty in contravention of international law, as well as depriving them of their procedural rights, intentionally killing, with particular cruelty and by a method dangerous to the public, more than two persons in connection with the performance by the victims of their official duties and

Page 4

the fulfilment of their public duty, in connection with terrorism and with the intent of national enmity and hostility, that is, intentionally depriving them of life; attempting to intentionally kill, with particular cruelty and by a method dangerous to the public, more than two persons in connection with the performance by the victims of their official duties and the fulfilment of their public duty, in connection with terrorism and with the intent of national enmity and hostility, that is, attempting to intentionally deprive them of life; carrying out unlawful entrepreneurial activity causing damage on an especially large scale to the Republic of Azerbaijan and its natural and legal persons, that is, carrying out entrepreneurial activity without undergoing state registration (tax registration) in the manner prescribed by the legislation of the Republic of Azerbaijan and without obtaining special permission (a special licence), despite the requirement to obtain such permission (licence); committing smuggling as part of an organized group forming part of the criminal formation (organization), that is, transporting explosives and explosive devices, military weapons and equipment, firearms and ammunition across the customs border of the Republic of Azerbaijan outside customs control; for the purpose of carrying out explosions, arson and other acts (terrorist acts) creating a danger of loss of life, harm to health, major damage to property and other consequences dangerous to the public, contributing to loss of life and other grave consequences, with the aim of disrupting public security, with the repeated use of firearms, creating panic among the population, influencing the adoption of decisions by state authorities, and threatening to commit similar acts; intentionally collecting and providing funds and other property, regardless of the source from which they were acquired, while knowingly being aware that they would be used, in whole or in part, directly or indirectly, in the preparation, organization and commission by a criminal organization of the acts provided for by Article 214 (terrorism), Article 270-1 (acts creating a threat to aviation security), Article 278 (forcible seizure of power or forcible retention of power, forcible alteration of the constitutional order of the state) and Article 279 (creation of armed formations or groups not provided for by law) of the Criminal Code, as well as for financing a terrorist organization; for the purpose of committing the acts provided for by Article 214 (terrorism) of the Criminal Code, organizing and conducting training in methods of committing those acts, preparing for the use of firearms, explosives and explosive devices, other methods dangerous to the public and technical means; unlawfully acquiring, transferring, storing, transporting and carrying

firearms, their component parts, ammunition, explosives and explosive devices; transmitting knowingly false information to aircraft during flights or intentionally interfering with the operation of aircraft air-navigation equipment, creating a threat to the safety of aircraft during flight, causing damage creating a threat to the safety of flights by aircraft in operation; committing acts aimed at forcibly altering the constitutional order of the state in the territory of the Republic of Azerbaijan in contravention of the Constitution of the Republic of Azerbaijan; creating and participating in the activities of armed formations and groups not provided for by the legislation of the Republic of Azerbaijan, supplying them with weapons, ammunition, explosives, military equipment and military supplies, and organizing, as part of those formations and groups, attacks on enterprises, institutions, organizations and individuals which contributed to loss of life and other grave consequences; and also, as part of an organized group forming part of the criminal formation (organization), crossing the guarded state border of the Republic of Azerbaijan without the required documents or outside state-border checkpoints.

Page 5

Thus, for the purpose of committing serious and especially serious crimes, with the support of the military-political leadership, including the Armed Forces and other armed formations of the Republic of Armenia, as well as with their direct material and technical support and support in the form of personnel, on the basis of their centralized command, oral and written orders, assignments and instructions, and under their strict control, he joined, between 1987 and 1994, the criminal formation created in the second half of the 1980s and its structural subdivisions, headed the formation and its structural subdivisions and, having served with the same purposes and intentions, held various senior positions; as did persons who held various positions in the unrecognized entity they called “Artsakh,” which formed part of the criminal formation, including **Sarkisyan Vazgen Zavenovich**, who served as Minister of Defence of the Republic of Armenia from 05 December 1991 to 20 October 1992 and held various other military posts in 1992–1994; **Manukyan Vazgen Mikaelovich**, who was a co-founder and coordinator of the Organizing Committee of the “Karabakh Unification” organization, created in February 1988, served as Prime Minister of Armenia in 1990–1991 and as Minister of Defence of the Republic of Armenia, exercising leadership over the military-industrial complex, from 20 October 1992 to 21 August 1993, and was later elected as a deputy to the National Assembly of Armenia in 1995, 1999 and 2003; **Dalibaltayan Gurgen Arutyunovich**, who served as Chief of Staff of the Armenian Army from 1991 to 1993 and as First Deputy Minister of Defence; **Martirosov Leonid Armenakovich**, who served as Deputy Head of the Operations Directorate of the General Staff of the Armed Forces of the Republic of Armenia in 1992–1993; **Andresyan Grach Amayakovich**, who served as First Deputy Minister of Defence of the Republic of Armenia and Chief of the General Staff of the Armed Forces from April 1992 to 1994; **Yesayan Oleg Yesayevich**, who served as Prime Minister of the unrecognized “Nagorno-Karabakh Republic (Artsakh),” unlawfully created by them at the expense of the occupied territories of the Republic of Azerbaijan, from 08 January 1992 to 15 August 1992; **Petrosyan Georgy Mikaelovich**, who was a deputy of the Supreme Council of Armenia in 1990–1995; **Kocharyan Robert Sedrakovich**, who was a deputy of the supreme council of the unrecognized entity from 1991 to August 1992, a member of the “Krun” (“Crane”) Committee and head of the “Miatsum” (“Reunification”) organization, served as Prime Minister of the unrecognized “Nagorno-Karabakh Republic (Artsakh),” unlawfully created by them at the expense of the occupied territories of the Republic of Azerbaijan, from August 1992 to 29 December 1994, and acted as the first “president” of the said unrecognized entity, which was not recognized by any state in the

world, including the Republic of Armenia, or by international organizations, from 29 December 1994 to 20 March 1997 *(also on the basis of unlawful elections held on 24 November 1996 in the territories of Azerbaijan occupied or controlled by them)*; **Manucharov Arkady Manvelovich**, who was the head of the Khankendi Municipal Building Materials Plant and head of the “Krunk” Committee; **Safaryan Eduard Movsesovich**, who served as chairman of the Telman Collective Farm in the Shusha District; **Babayan Semyon Amayakovich**, who served as chairman of the Executive Committee of the Council of People’s Deputies of the Nagorno-Karabakh Autonomous Region; **Mirzoyan Maksim Mikhailovich**, who served as chairman of the Executive Committee of the Council of People’s Deputies of Khankendi; **Aghajanyan Rolis Grigoryevich**, who served as head of the Khankendi Road Construction Directorate; **Chaturyan Armo Mardiyeovich**, who served as director of the Khankendi Oil Plant; **Dadamyan Boris Vartanovich**, who served as head of the Khankendi Municipal Motor Depot; and **Baghdasaryan Yervant Khambarsumovich**, who was Rector of the Khankendi Pedagogical

Page 6

Institute; members of the “Karabakh Movement,” whose objective was aggression against Azerbaijan, including the formulation and dissemination of ideas concerning the occupation of the Karabakh region belonging to Azerbaijan and its annexation to Armenia, among them **Sarkisyan Serzh Azatovich**, who, from 1989 to August 1992, was commander of an illegal armed organized group which they called the “self-defence forces” or the “committee” of the unrecognized entity they declared to be “Artsakh”; Minister of the Army within an illegal armed organized group which they called the “Self-Defence Committee,” from August 1992 to 20 August 1993; Minister of Defence of the Republic of Armenia from 21 August 1993 to 17 May 1995; initially Head of the State Department of Security of the Republic of Armenia and later Minister of National Security of the Republic of Armenia in 1995–1996; Minister of Internal Affairs and National Security of the Republic of Armenia in 1996–2000; Minister of Defence of the Republic of Armenia in 2000–2007; Prime Minister of the Republic of Armenia from 04 April 2007 to 19 February 2008; the third President of the Republic of Armenia from 09 April 2008 to 09 April 2018; and Prime Minister of the Republic of Armenia from 17 April 2018 to 23 April 2018; Lieutenant Colonel **Gzogyan Rafael Hovhannesovich**, nicknamed “Felix,” who served as Chief of Staff of the illegal armed organized group which they called the self-defence forces of the unrecognized entity from February to October 1992, and his son **Gzogyan Arsen Rafaelovich**; **Babayan Samvel Andranikovich**, who was Deputy Chairman of the illegal armed organized group which they called the “Self-Defence Committee” of the unrecognized entity—Deputy Commander of the group from January to August 1992, First Deputy of the armed organized group from August 1992 to April 1993, Chairman of the illegal armed organized group from April to November 1993, and Minister of Defence of the unrecognized entity in 1995–1999; **Ghukasyan Arkadi Arshavirovich**, who served as Deputy Editor-in-Chief of the newspaper *Soviet Karabakh*, which promoted national hatred and discrimination against Azerbaijanis, in 1980–1992; was a “member of parliament” of the unrecognized regime in 1992–1993; served as “Adviser to the Chairman of the State Defence Committee on Political Affairs” of the unrecognized entity from September 1992 to 23 July 1993; and as “Minister of Foreign Affairs” of the unrecognized entity from 23 July 1993 to 08 September 1997; **Balasanyan Vitaly Mikaelovich**, who served as the head of an illegal armed organized group which they called the Askeran “self-defence” formation from 1988 to 1990, and as commander of an illegal armed group which they called the “self-defence” formation from 1990 to 1996, while also

being elected as a deputy to the unrecognized “National Council of Artsakh” in 1991; the writer **Balayan Zori Aikiyevich**, who was a deputy of the Supreme Soviet of the USSR in 1989–1992 and a “deputy” of the unrecognized regime in 1992–1994; **Karapetyan Arkady Muradovich**, who was a member of the illegal armed organized group which they called the “Self-Defence Committee under the Council of Ministers” from March 1992 to 1993 and also led the Second Eastern Offensive Detachment in the direction of the Shusha District in May 1992; **Sahakyan Bako Sahakovich**, born on 30 August 1960, who served as a supply officer in the “Material and Technical Support Department” of the illegal armed organized group which they called the “Self-Defence Forces Committee,” created to pursue the criminal purposes of the criminal formation (organization) located in the city of Khankendi, in 1990–1992; as Deputy Head of the same department from June 1992 to the beginning of 1993; as Chief of Staff for the material and technical support of the same illegal armed formation from the beginning of 1993 until the second half of that year; and as Head of Material and Technical Support of the illegal armed formation which they called the “Defence Army,” created by the unrecognized regime in connection with

Page 7

the pursuit of the same objectives, from the second half of 1993 to 1995; Deputy Commander for External Relations in the illegal armed formation which they called the “Defence Army” in 1995–1996; Deputy Commander of the 10th Mountain Motorised Rifle Division of the illegal armed formation known as the “Defence Army” in 1996–1997; Assistant to the Minister of National Security and Internal Affairs of the Republic of Armenia in 1997–1999; “Minister of Internal Affairs” of the unrecognized entity in 1999–2001; “Director of the National Security Service” of the unrecognized entity in 2001–2007; and “President” of the unrecognized entity from 07 September 2007 to 07 September 2017; who, at meetings of the “Security Council,” regarded as one of the governing bodies of the criminal organization, directly participated in the adoption of decisions relating to the preparation and direct commission of crimes against the Republic of Azerbaijan and its natural and legal persons, as well as in the adoption of other significant decisions, at the invitation of the “senior officials” of the unrecognized entity, during the period from that same date until 20 September 2023, and thereby, in practice, possessed decision-making authority within the criminal formation and performed the functions of a leader even without holding an official position; **Ter-Tadevosyan Arkady Ivanovich**, nicknamed “Komandos,” who served as Head of the Non-Military Training Department of the Defence Committee, which was the first state military institution under the Government of the Republic of Armenia; who was commander of an illegal armed organized formation of the so-called and unrecognized entity “Artsakh,” unlawfully created in the city of Khankendi, which they called the “Self-Defence Forces,” in 1991–1992; and who served as Deputy Chief of the General Staff of the Armed Forces of the Republic of Armenia in 1992–1993; **Gulyan Ashot Vladimirovich**, who was a company commander in the armed forces in the city of Khankendi and field commander of an organized group which they called the “Defence Army” of the unrecognized entity in 1991–1992, and “Minister of Foreign Affairs” of the unrecognized entity in 2002–2004; **Oganyan Seyran Mushegovich**, who, from 1989 to March 1992, was commander of a camp of the 366th Motorised Rifle Regiment of the Armed Forces of the former USSR and subsequently of the Russian Federation in the city of Khankendi; commander of an illegal armed organized formation which they called the “self-defence detachments” of the Askeran and Aghdara districts of the “Defence Army” of the unrecognized entity “Artsakh” from March 1992 to March 1993; “Chief of the General Staff of the Defence Army” of the unrecognized entity from March 1993 to February 1994; “First Deputy” of the illegal armed organized formation

known as the “Defence Army” of the unrecognized entity in 1994–1997; commander of the 5th Corps of the Armed Forces of the Republic of Armenia in 1997–1999; commander of the illegal armed organized formation known as the “Defence Army” in 1999–2007; Chief of the General Staff of the Ministry of Defence of the Republic of Armenia and First Deputy Minister in 2007–2008; Minister of Defence of the Republic of Armenia, holding the senior military rank of Colonel General, in 2008–2016; who took an active part, as a leader of the centrally controlled criminal formation, during the most active stage of the aggressive war initiated by them on 27 September 2020; and who subsequently held the position of “Adviser to the President” of the unrecognized entity; **Harutyunyan Arayik Vladimirovich**, born on 14 December 1973, who served as a soldier in the 8th Company of the 3rd Battalion of the Central Defence District of the illegal armed organized formation which they called the “Self-Defence Forces” of the unrecognized entity “Artsakh” from December 1991 to 01 September 1992; as an officer of the 3rd Battalion of the illegal formation known as the “Defence Army,” located in the city of Khankendi; as Deputy Head and Head of the Missile and Artillery Armament Service from 10 October 1992 to 1995; as “Assistant Minister of Economy and Finance” of the unrecognized entity from July 1995 to 21 May 1997; and as manager of the bank “ARM Agro Bank”

Page 8

of the unrecognized entity in 1997–2003; Director of the “Cognac Plant” in Karabakh in 2003–2005; a “member of parliament” of the unrecognized entity in 2005–2007; “Prime Minister” of the unrecognized entity from 14 September 2007 to 25 September 2017; “State Minister” of the unrecognized entity from 25 September 2017 to 06 June 2018; and “President” of the unrecognized entity from 21 May 2020 to 01 September 2023; who directly participated in the adoption of decisions relating to the planning and implementation of crimes against the Republic of Azerbaijan and its natural and legal persons at meetings of the “Security Council,” on the basis of invitations from the senior officials of the unrecognized entity, during the period from that same date until 20 September 2023, and thereby, in practice, possessed the authority to make decisions within the criminal formation and performed the functions of a leader even without holding an official position; **Mnatsakanyan Lyova Genrikovich**, born on 14 September 1965, who served as Deputy Commander of a defence camp of the illegal armed organized formation known as the “Self-Defence Forces” of the unrecognized entity “Artsakh” from September 1992 to February 1993; commander of the artillery battalion of military unit No. 46492 of the illegal armed formations of the unrecognized entity from February to August 1993; Chief of Artillery of the same military unit of the illegal armed formations of the unrecognized entity from August 1993 to March 1994; commander of artillery military unit No. 39138 of the illegal armed formations of the unrecognized entity from March 1994 to January 1998; commander of the 10th Mountain Rifle Division of the illegal armed formations of the unrecognized entity, located in the territory of the former Aghdara District, from January 1998 to December 1999; commander of an artillery military unit located in the Republic of Armenia from July 2000 to October 2001; commander of the 18th Mountain Rifle Division of the unrecognized entity “Artsakh,” located in the city of Hadrut, Khojavend District, from October 2001 to June 2004; who attended the Higher Officers’ Course at the Academy of the General Staff of the Armed Forces of the Russian Federation, located in the city of Moscow, specializing in “National Security,” from September 2004 to August 2005; “Deputy Commander of the Defence Army” from August 2005 to May 2007; “Chief of Staff of the Defence Army” of the unrecognized entity from May 2007 to November 2012; Deputy Chief of the General Staff of the Armed Forces of the Republic of Armenia from November 2012 to

Ghazaryan, Vazgen Gabrielyan, Samvel Hakobyan, Garik Dadayan, Kamo Melkumyan, Artur Stepanyan, Gamlet Stepanyan, Mger Aarumyan, Avedik Hayrapetyan, Suren Avanesyan, Karen Arzumanyan, Soma Ayryan, Albert Sarkisyan, Samvel Vartanyan, Karmen Avetisyan, Avetisyan Samvel Surenovich, Vartanyan Alyosha Yerevanovich, Grigoryan Gago Zeynalovich, Vartanyan Ashot Andranikovich, Kasparyan Ashot Mikhailovich, Harutyunyan Zorik Nikolaevich, Abramyan Alexander Solomonovich, Arakelyan Artur Komulovich, Harutyunyan Vagan Beybudovich and Gulyan Ashot Amayakovich, nicknamed “Begor (Fragment),” who was commander of the 1st Company within the illegal armed organized formation which they called the “Self-Defence Forces” of the unrecognized entity in 1991–1992; **Agram Harutyunyan**, nicknamed “Shoshsky Ago,” who was a company commander within the illegal armed organized formation which they called the “Self-Defence Forces” in 1991–1992; **Garnik Avanesyan**, who served as Head of the Cultural and Educational Section of the Personnel Department of the illegal armed organized formation which they called the “Defence Army” of the unrecognized entity; **Sefilyan Zhirayr Simonovich**, who was commander of the Shusha Special Military Company in 1992–1994; **Martirosyan Guren Khachaturovich**, who was a religious leader of the Armenian Apostolic Church in the diocese of the unrecognized entity in 1989–1999; **Ghukasyan Mavrik Araratovich**, Head of the Internal Affairs Department of the Askeran District of the Ministry of Internal Affairs of the Republic of Azerbaijan; **Barseghyan Tsagen Semenovich**, who served as Deputy Head of the said department; **Petrosyan Karo Vanoevich**, who served as Head of the Fire Protection Department of the same department; **Ayriyan Samvel Samurkaevich**, who served as a police officer in the same department; **Abramyan Armo Aramovich**, who served as Head of the Khankendi City Internal Affairs Department of the Ministry of Internal Affairs of the Republic of Azerbaijan; **Kocharyan Serzhik Sumbatovich**, who served as Head of the Khankendi City Prison of the Ministry of Internal Affairs of the Republic of Azerbaijan; **Aghajanyan Karlen Levonovich**, who served as an officer in the internal affairs bodies of the former Nagorno-Karabakh Autonomous Region from 05 April 1963 to 04 September 1990; **Mirzoyan Maksim Mikhailovich**, who served as Head of Motor Depot No. 2718 in the city of Khankendi; **Grigoryan Valerik Sergeevich**, who held a position in the personnel department of the state farm in the village of Hasanabad, Khojaly District; **Babayan Georgy Ginikorovich**, who worked as a driver at the same state farm; **Hakobyan Oleg Nikolaevich**, who was a member of the said state farm; and **Tumasyan Seyran Aprakovich**, who worked as a driver; the creators of the so-called “Regional Headquarters”

Page 13

of the “Self-Defence Forces,” created to direct the movement in the city of Khankendi in 1988, which was in fact an organization under the organized and coordinated control of an armed criminal formation: **Akopjanyan Marat Armenovich, Aghajanyan Rolis Grigoryevich, Petrosyan Razmik Arshakovich, Mkrtchyan Artur Aslanovich, Valery Balayan, Vigen Shirinyan, Rudik Usnutyunyan, Volodya Khachatryan, Emil Abrahamyan, Slavik Arushanyan**, and others, having begun a systematic and large-scale aggressive war against Azerbaijan as part of the criminal formation which they had joined, grossly violated the requirements of the Charter of the United Nations, which entered into force on 24 October 1945, for the period until 12 May 1994, in which a ceasefire was declared and agreed upon by a protocol signed by the participants in the meeting held in the city of Bishkek, Kyrgyz Republic, on 04 and 05 May 1994, at the initiative of the Interparliamentary Assembly of the Commonwealth of Independent States, the Parliament of the Kyrgyz Republic, the Ministry

of Foreign Affairs and the Federal Assembly of the Russian Federation, and which entered into force on 12 May 1994; the Universal Declaration of Human Rights, adopted by the General Assembly of the United Nations on 10 December 1948; the Fourth Geneva Convention of 12 August 1949 “relative to the Protection of Civilian Persons in Time of War”; Additional Protocol I of 08 June 1977 “relating to the Protection of Victims of International Armed Conflicts,” annexed to the Geneva Conventions; the Convention for the Protection of Human Rights and Fundamental Freedoms, adopted by the Council of Europe on 04 November 1950; Resolution No. 3314 (XXIX) of 14 December 1974 “on the Definition of Aggression,” adopted by the General Assembly of the United Nations; the International Covenant on Civil and Political Rights, adopted by the General Assembly of the United Nations on 16 December 1966 and entering into force on 23 March 1976; the “Final Act of the Conference on Security and Co-operation in Europe” (the Helsinki Final Act), adopted in 1975; the European Convention on the Suppression of Terrorism of 27 January 1977; United Nations Security Council resolutions—hereinafter, the Security Council—No. 822 of 30 April 1993, No. 853 of 29 July 1993, No. 874 of 14 October 1993 and No. 884 of 12 November 1993; as well as numerous other international conventions and other documents, that is, without observing the principles of the inviolability of state borders, the territorial integrity of states and the “non-use of force” for the purpose of acquiring territories, by which international law calls upon states not to use force against the territorial integrity or political independence of other states; and, during the period from 1988 to 1994, occupied, destroyed, burned, looted and used other methods of treatment against the city of Khankendi; the Kalbajar, Shusha, Lachin, Khojaly, Khojavend, Zangilan, Jabrayil and Qubadli districts of the Republic of Azerbaijan; the village of Karki in the Sadarak District of the Nakhchivan Autonomous Republic; the villages of Baganis-Ayrum, Ashaghi Askipara, Kheyrimli, Barkhudarli, Sofulu, Gizilhajili and Yukhary Askipara in the Gazakh District; the district centres and a number of villages of the Aghdam and Fuzuli Districts; and a number of villages of the Tartar District, thereby causing material damage in the total amount of **20,200,779,975 manats**, and more specifically: material damage in the amount of **8,163,534,807 manats** to 98,294 units of real property classified as private property; material damage in the amount of **11,130,422,682 manats** to 37,168 units of real property classified as state property of Azerbaijan; material damage in the total amount of **906,822,486 manats** to 434 historical and cultural monuments suitable for valuation, as well as to 263 registered and valued mosques, churches, museums, historical buildings and fortresses; occupied 924 populated localities, of which 12 were cities, 17 were settlements and 895 were villages; and secured the expulsion of 442,841 persons through the use of violent acts.

Page 14

In accordance with the common criminal intent of each member of the criminal organization, as well as of the military-political leadership of Armenia forming part of that formation, the following territories were under occupation by the Republic of Armenia during the period from the beginning of 1998 until 25 October 2020:

the village of **Karki** in the Sadarak District of the Nakhchivan Autonomous Republic—on the eve of the occupation, Ilich; subsequently, Sharur; and currently the village of Karki in the Sadarak District—**occupied from 15 to 19 January 1990**, from which a total of 461 Azerbaijanis belonging to 95 families were forcibly expelled, and where material damage in the total amount of **7,719,543 manats** was caused to 54 units of state and private property;

the villages of **Baganis-Ayrum, Ashaghi Askipara, Kheyrimli, Barkhudarli, Sofulu, Gizilhajili and Yukhary Askipara** in the Gazakh District, **occupied during the period from 24 March 1990 to 08 June 1992**, from which 3,159 Azerbaijanis were forcibly expelled, and where material damage in the total amount of **137,551,603 manats** was caused to 896 units of state and private property;

the city of **Khankendi**, including the village of **Kerkijahan**, **occupied during the period from September 1988 to 28 December 1991** by the members and leaders of the criminal formation, as well as by the Armed Forces of Armenia, which provided them with material, political, military and other support, from which 2,944 Azerbaijanis were forcibly expelled, and where material damage in the total amount of **636,180,697 manats** was caused to 4,579 units of state and private property;

the city of **Khojaly**, the settlement of **Askeran**, and the villages of **Khanabad, Badara, Shushakend, Khanyurdu, Pirjamal, Ballyja, Dakhraz, Dashbulag, Kharov, Gyshlag, Pirlar, Sardarehand, Garabulag, Almaly, Garakotuk, Mehdibeyli, Chanakhchi, Sygnag, Dayyurd, Khanyeri, Gabyabshi, Sunjinka, Dagdagan, Aggedik, Ashaghi Gylychbag, Bashkend, Janhasan, Javadlar, Yalobakend, Demirchilar, Gushchubaba, Medetkend, Gyzyloba, Yukhary Yemishjan, Ashaghi Yemishjan, Khachmach, Nakhchivanly, Agbulag, Aranzamin, Dashbashi, Farrukh, Seyidbeyli, Ulubaba, Dashkend, Mukhtar, Tazabina, Shalva and Kosalar**, **occupied during the period from the beginning of 1998 until 20 September 2023, from 28 December 1991 to 09 March 1992**, from which a total of 7,161 Azerbaijanis were forcibly expelled, and where material damage in the total amount of **103,790,186 manats** was caused to 1,067 units of state and private property;

the city of **Shusha** and the villages of **Dashalty, Yukhary Gushchular, Ashaghi Gushchular, Malibeyli, Geytala, Khanaly, Hasanabad, Imamgulular, Khalfali, Armudlu, Dyukanlar, Garabulag, Lachinlar, Mirzalar, Shushulu, Zamanpayasi, Boyuk Galadarasi, Kichik Galadarasi, Gaybaly, Khudaverdiler, Nagilar, Zarysly, Nabilar, Sarybaba, Onverst, Safikhanlar, Allahgulular, Hasangulular, Khanlygpaya, Shyrlan, Agbulag, Jamillar, Chaykend, Imanlar, Mamishlar, Pashalar and Turabkhan**, and the settlement of **Turshsu** in the Shusha District, **occupied during the period from the beginning of 1998 until 10 November 2020 and until 20 September 2023, from 26 January 1991 to 15 May 1992**, from which a total of 16,299 Azerbaijanis were forcibly expelled, and where material damage in the total amount of **391,715,248 manats** was caused to 2,769 units of state and private property;

46 populated localities of the **Khojavend District**, with its district centre, consisting of one city, one settlement and 80 villages, including the villages of **Tug, Azykh, Khunarli, Mammaddere, Chiraguz, Aghdam, Atagut, Susanlyg, Bina, Zogalbulag, Salaketin, Dudukchu, Edilli, Agbulag, Akhullu, Boyuk Taglar, Guneshli, Chayly, Dagdoslu, Chinarli, Edisha, Girmizigaya, Shahyeri, Derekend, Shekher, Khyrmanjyg, Bulutan, Melikjanly, Binederesi, Arakol, Jilan, Aghjakend, Kohne Taglar, Dashbashi, Chaylaggala, Arpagedik, Mulkudere, Sur, Gushchular, Dolanlar, Bunyadly, Zardanashen, Tagaverd, Chagadyuz and Tagaser**, and the settlement of **Hadrut**, **occupied during the period from the beginning of 1998 until 08 November 2020, until 25 March 2023 and until 20 September 2023, from the beginning of October 1991 to 20 August 1993**, from which a total of 7,451 Azerbaijanis were forcibly expelled, and where material damage in the total amount of **340,077,816 manats** was caused to 2,607 units of state and private property;

the city of **Lachin**, the settlement of **Gaygi**, and

Page 15

the other 125 villages, including **Garykyakha**, **Agbulag**, **Aghjakend**, **Ashaghy Farajan**, **Jagazur**, **Naryshlar**, **Gyulyabird**, **Budagdere**, **Khochaz**, **Chiragly**, **Garabeyli**, **Malkhelef**, and other villages of the Lachin District, **occupied during the period from the beginning of 1998 until 09 November 2020 and until 20 September 2023, from 17 May 1992 to 18 May 1992**, from which a total of 57,047 Azerbaijanis were forcibly expelled, and where material damage in the total amount of **2,731,172,258 manats** was caused to 15,459 units of state and private property;

the city of **Kalbajar**, the settlement of **Istisu**, and the villages of **Abdullaushaghy**, **Agbulag**, **Aghjakend**, **Aghdaban**, **Agdash**, **Aggaya**, **Aghyatag**, **Alagaya**, **Alchaly**, **Alybeyli**, **Alyrzalar**, **Allykkend**, **Almalyg**, **Alolar**, **Armudlu**, **Ashaghi Ayrim**, **Ashaghi Garachanly**, **Ashaghi Shurtan**, **Babyshlar**, **Bagyrly**, **Bagyrsag**, **Baglypaya**, **Barmagbine**, **Bash Garachanly**, **Bashkend**, **Bashlybel**, **Bazirkhana**, **Birinji Milli**, **Boyagly**, **Bozlu**, **Beyukduz**, **Beyurbine**, **Jamilli**, **Jomerd**, **Chaykend**, **Chaygovushan**, **Chapli**, **Chirag**, **Chobangerekhmezh**, **Chopurlu**, **Chorman**, **Chovdar**, **Dalgylinjly**, **Dashbulag**, **Demirchidam**, **Deregyslag**, **Esrik**, **Fetallar**, **Goydere**, **Guneypaya**, **Guneshgaya**, **Guneshli**, **Hajidunyamalilar**, **Hajikend**, **Hasanlar**, **Gopurlu**, **Hallanly**, **Kholazay**, **Ikinji Milli**, **Ilyaslar**, **Imanbinasi**, **Istibulag**, **Kyakha**, **Kechiligaya**, **Keshdak**, **Kendyeri**, **Kilsa**, **Kilsali**, **Galaboyun**, **Gamyshly**, **Ganlikend**, **Garaguney**, **Garakhanchally**, **Gasimbinasi**, **Gasimlyar**, **Gazykhanly**, **Gylynjly**, **Guzeychirkin**, **Lachin**, **Lev**, **Mammadsafi**, **Mammadushagy**, **Merjimek**, **Mishni**, **Mollabayramly**, **Moz**, **Mozgarachanly**, **Nadirkhanly**, **Nabilyar**, **Najaflaly**, **Orta Garachanly**, **Orta Shurtan**, **Orujlu**, **Otagly**, **Otgyshlag**, **Pirilar**, **Rahimli**, **Sarydash**, **Seyidlar**, **Soyugbulag**, **Susuzlug**, **Shahkerem**, **Shaplar**, **Sheyinli**, **Taghylyar**, **Takhtabashy**, **Tatlar**, **Takdam**, **Tekegaya**, **Tazakend**, **Tirkeshavand**, **Tovledere**, **Uchunju Milli**, **Veng**, **Yanshag**, **Yanshaghina**, **Yellije**, **Yenikend**, **Yukhary Ayrim**, **Yukhary Shurtan**, **Zagalar**, **Zallar**, **Zar**, **Zergulu**, **Zeylik**, **Zivel** and **Zulfugarly** in the Kalbajar District;

as well as the villages of **Cherektar**, **Gozlu**, **Gozlukorpu**, **Yukhary Oratag**, **Gyzylgaya**, **Yayiji**, **Devedashy**, **Heyvaly**, **Chyldyran**, **Mehmana**, **Dovshanly**, **Hayad**, **Bazarkend**, **Shahmansurlu**, **Vangli**, **Chormanly**, **Imaret Gervend**, **Zardakhach**, **Chapar**, **Hasanriz**, **Narynjlar**, **Damgaly** and **Kolatag**, which, as a result of the abolition of the Aghdara District, were transferred to the administrative territory of the Kalbajar District, **occupied during the period from the beginning of 1998 until 01 December 2020, from 08 April 1992 to 03 April 1993**, from which a total of 48,847 Azerbaijanis were forcibly expelled, and where material damage in the total amount of **2,299,195,889 manats** was caused to 17,489 units of state and private property;

the city of **Sugovushan**, **Talysh**, **Chayly**, **Aghdara**, and the villages of **Janyatag**, **Gulyatag**, **Chardakhly**, **Lulesaz**, **Megrelalay**, **Tepekend**, **Kichik Garabey**, **Ashaghi Oratag**, **Gasapet**, **Demirli**, **Ulu Garabey**, **Umudlu**, **Zeylik**, **Chayly**, **Chilyaburt**, **Seysulan**, **Goyarkh**, **Yarymja**, **Aghabayaly** and **Maralyansarov** in the Tartar District, **occupied during the period from the beginning of 1998 until 20 September 2023, from March 1992 to 25 April 1994**, from which a total of 899 Azerbaijanis were forcibly expelled, and where material damage in the total amount of **155,815,898 manats** was caused to 1,127 units of state and private property;

the city of **Aghdam**, the settlement of **Ajarly**, and the villages of **Seyidli**, **Saryhajily**, **Bozpapaglar**, **Bagbanlar**, **Ismayilbeyli**, **Mughanly**, **Pirzadly**, **Saybaly**, **Bash Guneypayaya**, **Orta Guneypayaya**, **Boyahmadli**, **Gyzyly Kengerli**, **Mollalar**, **Sofulu**, **Salahly Kengerli**, **Alimededli**, **Jinli**, **Alagaly**, **Khachyndarbend**, **Kurdlar**, **Galaychilar**, **Mollalar**, **Geytepe**, **Abdunlu**, **Javakhirli**, **Kosalar**, **Gyulably**, **Abdal**, **Gulluja**, **Ilkhychi**, **Suma**, **Tagybeyli**, **Khydyrly**, **Chukhurmekhle**, **Ahmadavar**, **Kengerli**, **Garagashly**, **Shirvanly**, **Gasimly**, **Garadagly**, **Gurdlar**, **Poladly**, **Shelli**, **Khatynbeyli**, **Giyasly**, **Etimezli**, **Keshdazly**, **Magsudlu**, **Chullu**, **Eyvazkhanbeyli**, **Shahbulag**, **Shishpapagly**, **Talyshlar**, **Tepemekhle**, **Tarneft (Tarnoyut)**, **Tukezbanly**, **Salahsamadlyar**, **Melikli**, **Gazanchy**, **Merzili**, **Novruzlu**, **Yusifjanly**, **Papravend**, **Garapirim**, **Saryjaly**, **Garazeynally**, **Gullar**, **Syrkhavend**, **Ballygaya**, **Bashirlyar**, **Garashlar**, **Shikhababaly**, **Mughanly**, **Muradbeyli**, **Yeni Garalar**, **Bash Gervend**, **Shikhlyar**, **Nemirli**, **Shotlanly**, **Shurabad** and **Umudlu** in the Aghdam District, **occupied during**

Page 16

the period from the beginning of 1998 until 03 October 2020, 09 October 2020 and 20 September 2023, from 12 March 1992 to 26 April 1994, from which a total of 100,574 Azerbaijanis were forcibly expelled, and where material damage in the total amount of **3,728,975,815 manats** was caused to 31,736 units of state and private property;

the city of **Fuzuli** and the villages of **Uchbular**, **Gajar**, **Govshatly**, **Garadaghly**, **Yukhary Guzelek**, **Khatynbulag**, **Gorazilly**, **Sarajik**, **Yukhary Rafadinli**, **Garakollu**, **Gochahmadli**, **Arysh**, **Sardarli**, **Juvarly**, **Mollaveli**, **Yukhary Veysalli**, **Ashaghi Veysalli**, **Divanalylar**, **Garamammadli**, **Yaglyvend**, **Gobu Dilagarda**, **Dilagarda**, **Dordlar**, **Chimen**, **Khalafsha**, **Dovletyarli**, **Shekarjik**, **Gargabazar**, **Shikhly**, **Ishigly**, **Zargar**, **Gervend**, **Mandyly**, **Ashaghi Guzelek**, **Ashaghi Rafadinli**, **Pirahmedli**, **Musabeyli**, **Yal Pirahmedli**, **Dordchinar**, **Khungutlu**, **Kurdlyar**, **Garakhanbeyli**, **Mirzajamally**, **Seyidmahmudlu**, **Merdinli**, **Huseynbeyli**, **Aleskerli**, **Aybasanly**, **Dedeli**, **Gejegozlu**, **Yukhary Abdurrahmanly**, **Yukhary Seyidahmedli**, **Gorgan**, **Ashaghi Abdurrahmanly**, **Uchunju Mahmudlu**, **Ashaghi Seyidahmedli** and **Horadiz** in the Fuzuli District, **occupied during the period from the beginning of 1998 until 20 November 2020, from 31 March 1992 to 23 August 1993**, from which a total of 83,544 Azerbaijanis were forcibly expelled, and where material damage in the total amount of **3,414,627,671 manats** was caused to 22,635 units of state and private property;

the city of **Jabrayil**, the settlements of **Khalafli**, **Khudafarin**, **Gumlag** and **Mahmudlu**, and 92 villages, including the villages of **Dash Veysalli**, **Minbashlyly**, **Huseynalylar**, **Hajily**, **Khorovlu**, **Gurbantepe**, **Tulus**, **Sadi**, **Hasangaydy**, **Shahvaladli**, **Guyjak**, **Sheybey**, **Nyuzgyar**, **Boyuk Marjanly**, **Jojug Marjanly**, **Chakhyrly**, **Mezre**, **Shukurbeyli** and **Karkhulu**, and other villages of the Jabrayil District, **occupied during the period from the beginning of 1998 until 17 October 2020, from 23 August 1993 to 23 October 1993**, from which a total of 52,141 Azerbaijanis were forcibly expelled, and where material damage in the total amount of **2,168,440,343 manats** was caused to 15,206 units of state and private property;

the city of **Zangilan**, the settlements of **Aghbend**, **Minjivan** and **Bartaz**, and the villages of **Aghkend**, **Gazanchy**, **Gungishlag**, **Janbar**, **Dereli**, **Byurunlyu**, **Yukhary Gayali**, **Ashaghi Gayali**, **Yusiflyar**, **Garagol**, **Najaflyar**, **Seyidlyar**, **Sherikhan**, **Shayifli**, **Kollugishlag**, **Razdere**, **Meshedi Ismayilli**, **Vejneli**, **Emirkhanli**, **Chopedere**, **Dellekli**,

Bakharli, Veligulubeyli, Birinji Aghaly, Ikinji Aghaly, Uchunju Aghaly, Babayli, Mammadbeyli, Zerneli, Khavaly, Mughanli, Khurama, Hakari, Chopadere and Dellekli in the Zangilan District, **occupied during the period from the beginning of 1998 until 04 October 2020, from the beginning of 1992 to 29 October 1993**, from which a total of 32,775 Azerbaijanis were forcibly expelled, and where material damage in the total amount of **1,336,035,575 manats** was caused to 9,679 units of state and private property;

the villages of **Hamzali, Efendili, Yusifbeyli, Chaytumas, Aligulushaghi, Yukhary Khojamsakhly, Ashaghi Khojamsakhly, Mehrili, Goyerdjik, Jilfir, Seytas, Goyarabas, Bakhtiyarli, Demirchiler, Poladly, Sariyatag, Balasoltanli, Padar, Garaimanli, Muradkhanli, Hakari, Ishigly, Khendek, Gayaly, Abdabanly, Lepeheyanli, Garalar, Kyavdadyg, Huseynushaghy, Novlu, Davudlu, Gorjuglu, Eyvazli, Gedili, Mazira, Mahmudlu, Chereli, Boyuneker, Saldash, Mahruzlu, Balligaya, Mollali, Memer, Gazyan, Khal, Ashaghi Jibikli, Khallavar, Yukhary Jibikli, Melikahmedli, Gundanli, Khojik, Mardanli, Teymurmuskyanli, Khidirli, Balahasanli, Dondarli, Daliali Myuskanli, Mirlar, Saray, Seleli, Basharat, Khat, Deshdakhat, Armudlu, Ferjan, Geyyal, Khartiz, Zor, Chardagly, Tarovlu, Kheledj, Eyin, Garajally, Garagadj, Garakishilar, Yukhary Mollu, Ashaghi Mollu, Mollaburkhan, Tatar, Garagoyunlu, Giyasli, Ulashli, Abilja, Altinja, Khojakhan, Gilijan and Tinli** in the Qubadli District, **occupied during the period from the beginning of 1998 until 20 October 2020, from 23 August 1993 to 28 October 1993**, from which a total of 29,539 Azerbaijanis were forcibly expelled, and where material damage in the total amount of **1,842,658,947 manats** was caused to 10,159 units of state and private property.

Page 17

The aforementioned persons, as well as other leaders and members, unknown to the investigation, of the criminal formation created by the military-political leadership, the Armed Forces and other armed formations of the Republic of Armenia, acting with common criminal intent and objectives, from 1987 onwards employed methods of warfare that caused extensive destruction in contravention of the norms of international humanitarian law during the aggressive war which they had prepared, planned and waged against the Republic of Azerbaijan; carried out large-scale destruction not justified by military necessity; attacked undefended territories, populated localities and demilitarized zones; destroyed the means available to the population in areas of hostilities; violated the agreement on the suspension of combat operations; and attacked structures, causing significant damage to civilian objects.

During the period up to April 1994, they occupied the Karabakh region and the adjacent territories, namely the city of Khankendi; the Shusha, Lachin, Khojaly, Khojavend, Aghdara, Aghdam, Fuzuli, Jabrayil, Zangilan, Qubadli and Kalbajar districts; seven villages of the Gazakh District; and the village of Karki in the Sadarak District of the Nakhchivan Autonomous Republic, and forcibly expelled a total of **442,841 persons from 114,184 families**, more specifically:

100,574 persons from 27,922 families in the Aghdam District;
52,141 persons from 13,183 families in the Jabrayil District;
83,544 persons from 22,699 families in the Fuzuli District;
48,847 persons from 12,050 families in the Kalbajar District;
57,047 persons from 13,282 families in the Lachin District;

29,539 persons from 7,176 families in the Qubadli District;
899 persons from 202 families in the Tartar (Aghdara) District;
7,161 persons in the Khojaly District;
2,944 persons in the city of Khankendi, including Kerkijahan;
7,451 persons from 1,359 families in the Khojavend District;
32,775 persons from 8,210 families in the Zangilan District;
16,299 persons from 5,544 families in the Shusha District;
3,159 persons from 726 families from seven villages of the Gazakh District; and
461 persons from 94 families from the village of Karki in the Sadarak District of the Nakhchivan Autonomous Republic,

from the places of their lawful residence without grounds established by the norms of international law and the laws of the Republic of Azerbaijan.

Thereafter, in gross violation of the requirements of the Geneva Convention of 12 August 1949 relative to the Protection of Civilian Persons in Time of War, for the purposes of bringing about the collapse of the economy of the Republic of Azerbaijan, depriving it of the ability to resist Armenia's aggression, creating tense socio-economic and political conditions within the country, and compelling the country to leave the occupied sovereign territories of the Republic of Azerbaijan under Armenian jurisdiction, they caused the Republic of Azerbaijan, using state-budget funds—including through 2023—as well as loans obtained from foreign international companies and banks, to spend **8,816,009,937 manats** to improve the social provision and material living conditions of internally displaced persons, and **15,993,000 manats** to improve and ensure their water supply.

Thus, funds totalling **8,832,002,937 manats** were spent to meet the minimum needs of internally displaced persons who, after being forcibly expelled from various parts of the country, had taken refuge in unfinished buildings, dormitories, medical and educational institutions, tent camps, railway carriages and other administrative buildings where living conditions were effectively absent; to improve their material living conditions; to set up tents and construct Finnish-style settlements; and, in subsequent years, to build houses and other buildings there, thereby ensuring a standard of living for the forcibly expelled citizens of the Republic of Azerbaijan. In this manner, they caused the state material damage on an especially large scale in the amount of **8,832,002,937 manats**.

The members of the criminal organization and of the armed formations constituting its structural subdivisions carried out unlawful activities in the territory of the Republic of Azerbaijan in contravention of domestic and international

Page 18

legal norms, with the support of the military-political leadership, including the Armed Forces and other armed formations of the Republic of Armenia, as well as with their direct material and technical support and support in the form of personnel, on the basis of their centralized command, oral and written directions, assignments and instructions, and under their strict control; they were supplied with various types of weapons, ammunition, military equipment and other armaments for the purpose of implementing the criminal plan encompassed by the common criminal intent of each member of the criminal organization.

With the support and consent of the Republic of Armenia at the state level, and in contravention of the requirements of the norms and principles of international humanitarian law, including Article 17 of the First Geneva Convention of 12 August 1949 for the Amelioration of the Condition of the Wounded in Armed Forces in the Field; Article 120 of the Third Geneva Convention of 12 August 1949 relative to the Treatment of Prisoners of War; Articles 34, 130 and 147 of the Fourth Geneva Convention of 12 August 1949 relative to the Protection of Civilian Persons in Time of War; Article 34 of Protocol I of 08 June 1977 Additional to the Geneva Conventions of 12 August 1949; Rules 96, 113, 115 and 116 of customary international law; the UN International Convention for the Protection of All Persons from Enforced Disappearance of 20 December 2006; the UN Universal Declaration of Human Rights of 10 December 1948; the European Convention for the Protection of Human Rights and Fundamental Freedoms of 04 November 1950; Protocol No. 1 to that Convention; the UN International Covenant on Civil and Political Rights of 16 December 1966; the UN Convention against Torture and Other Cruel, Inhuman or Degrading Treatment or Punishment of 10 December 1984; the Geneva Convention of 12 August 1949 relative to the Treatment of Prisoners of War; and Annex I to the Protocol of 08 June 1977 Additional to the Geneva Conventions of 12 August 1949 relating to the Protection of Victims of International Armed Conflicts;

and notwithstanding that, pursuant to Rules 96, 113, 115 and 116 of customary international law, established by Article 38 of the Statute of the International Court of Justice, as soon as circumstances permit and, at the latest, immediately after the end of active hostilities, each party to a conflict must search for persons reported missing by the adverse Party; facilitate the search for such persons; and record all necessary information concerning them, including information concerning persons detained as a result of hostilities or occupation who were held in custody or otherwise deprived of liberty for more than two weeks, or who died while detained—their surname, given name, place and date of birth, nationality, last place of residence, distinguishing features, patronymic and mother's maiden name, the date, place and nature of the measures taken in respect of that person, the address to which correspondence should be sent and the address of the person who must be informed;

and that, where such persons died in other circumstances as a result of hostilities or occupation, each party must provide the greatest possible assistance in searching for them and recording information concerning them and, where necessary, conduct such searches and registration independently; transmit information concerning persons reported missing and requests for such information either directly or through a Protecting Power, the Central Information Agency of the International Committee of the Red Cross, or the national Red Cross societies—the Red Crescent or the Red Lion and Sun;

during the aggressive war which they waged against the Republic of Azerbaijan from 10 November 1989 to 08 November 2020, they refused to provide any information concerning the fate and whereabouts of a total of **3,980 persons** in the Karabakh region and the adjacent territories of the Republic of Azerbaijan, of whom:

in 1989, two persons in the Khojaly District;

in 1990, five persons in the Gadabay District, three persons in the Gazakh District, one person in the Shusha District and one person in the Shahbuz District of the Nakhchivan Autonomous Republic, making a total of ten persons;

in 1991, four persons in the city of Khankendi, three persons in the Khojaly District, three persons in the Goranboy District, and two persons in

Page 19

the Aghdam District, two persons in the Karabakh region, one person in the Shusha District and one person in the Khojavend District, making a total of 16 persons;

in 1992, 235 persons in the Khojaly District, 213 persons in the Aghdam District, 198 persons in the Shusha District, 190 persons in the Aghdara District, 142 persons in the Lachin District, 76 persons in the Khojavend District, 40 persons in the Fuzuli District, 29 persons in the Zangilan District, seven persons in the Qubadli District, four persons in the Kalbajar District, three persons in the city of Khankendi, two persons in the Jabrayil District, two persons in the Goranboy District, two persons in the Gazakh District, one person in the Gadabay District, one person in the Tartar District, one person in the Tovuz District and one person in the Karabakh region, making a total of 1,147 persons;

in 1993, 417 persons in the Aghdam District, 336 persons in the Kalbajar District, 286 persons in the Aghdara District, 199 persons in the Fuzuli District, 114 persons in the Qubadli District, 97 persons in the Jabrayil District, 24 persons in the Lachin District, 19 persons in the Zangilan District, eight persons in the Karabakh region, six persons in the Tartar District, five persons in the Beylagan District, one person in the Gazakh District, four persons in the Khojavend District, one person in the Gadabay District, one person in the Aghjabadi District, one person in the Goranboy District, one person in the Tovuz District and one person in the city of Khankendi, making a total of 1,521 persons;

in 1994, 335 persons in the Kalbajar District, 290 persons in the Aghdam District, 243 persons in the Fuzuli District, 150 persons in the Tartar District, 149 persons in the Aghdara District, 51 persons in the Khojavend District, 14 persons in the Goranboy District, 11 persons in the Beylagan District, 11 persons in the Jabrayil District, four persons in the Aghjabadi District, one person in the Karabakh region, one person in the Gazakh District and one person in the Qubadli District, making a total of 1,261 persons;

in 1995, two persons in the Tartar District, one person in the Aghdara District, one person in the Tovuz District and one person in the Fuzuli District, making a total of five persons;

in 1996, one person in the Tartar District;

in 1997, one person in the Nakhchivan Autonomous Republic, one person in the Gazakh District and one person in the Aghjabadi District, making a total of three persons;

in 1999, one person in the Gadabay District, one person in the Kalbajar District and one person in the Aghdam District, making a total of three persons;

in 2000, one person in the Gadabay District;

in 2002, one person in the Kalbajar District and one person in the Aghjabadi District, making a total of two persons;

in 2003, one person in the Ordubad District of the Nakhchivan Autonomous Republic;

in 2013, one person in the Gazakh District;

in 2020, two persons in the Tartar District, two persons in the Fuzuli District, one person in the Khojavend District and one person in the Goygol District, making a total of six persons.

In total, 773 of those persons were civilians, of whom 490 were men—including 20 minors—and 283 were women—including 18 minors. A total of 3,207 persons were servicemen, of whom 3,206 were men and one was a woman.

Furthermore, without handing over their remains, for the purpose of evading future liability under international legal norms and concealing the traces of the crime they had committed, they excavated large pits using machinery in the territories occupied by them, threw the clothed bodies into those pits one on top of another en masse and in a degrading manner—which is unacceptable from the religious and moral perspective of either Armenian or Azerbaijani society—and buried them there. They refused to provide information concerning their whereabouts and fate, thereby subjecting them to enforced disappearance. Accordingly, the said persons had until then been considered missing.

Pursuant to the Statement of 10 November 2020 by the President of the Republic of Azerbaijan, the Prime Minister of the Republic of Armenia and the President of the Russian Federation concerning the declaration of a ceasefire and the cessation of all hostilities, as a result of the countermeasures taken by the Armed Forces of the Republic of Azerbaijan to prevent the aggressive attacks which, beginning on 27 September 2020, had started to intensify further, as well as as a result of the relevant measures taken by the law-enforcement

Page 20

authorities following the liberation from occupation of the sovereign territories of the Republic of Azerbaijan, which had remained under their occupation for more than 30 years, as a result of the anti-terrorist operations carried out on 20 September 2023, Azerbaijani Army servicemen and civilians from Azerbaijan were discovered who had been intentionally killed by members of the criminal formation. During the aggressive war against Azerbaijan waged by them between 1987 and 1994, those members, at dates and under circumstances unknown to the investigation, inflicted upon the victims multiple bullet and shrapnel wounds using models of assault rifles, machine guns, grenade launchers and other firearms unknown to the investigation. The victims had been buried in cemeteries in the territory of the Republic of Azerbaijan and in other cemeteries and had until then been considered missing.

Thus, it was established that the following Ministry of Defence servicemen, intentionally killed by members of the criminal formation, were buried in 11 of the 23 graves of unidentified martyrs in the First Alley of Martyrs in the city of Baku:

Mailov Garabala Aghabala oglu, Javadov Elman Khurshud oglu, Aliyev Imammaddin Aliagha oglu, Abdurahmanov Yasin Shakir oglu, Aghayev Shakhlar Huseynagha oglu and Zeynalov Ujar Fidail oglu, intentionally killed on 19 July 1992 in the village of Hasanriz (Aterk), Aghdara District;

serviceman **Aliyev Rauf Ismail oglu**, intentionally killed on 18 August 1992 in the village of Chyldyran, Aghdara District;

serviceman **Yagubov Fagan Misir oglu**, intentionally killed on 07 August 1992;

serviceman **Askerov Akhliman Vahid oglu**, intentionally killed on 29 September 1992;

serviceman **Gasimov Adygozal Amirsoltan oglu**, intentionally killed on 15 August 1993 in the territory of the city of Lachin;

serviceman **Sarkhanyan Akber Bayramali oglu**, intentionally killed on 26 September 1992 in the territory of the Aghdara District;

and another 12 persons whose identities have still not been established.

It was also established that the following persons were buried in two of the nine graves of unidentified martyrs in the Second Alley of Martyrs in the city of Baku:

serviceman **Aliyev Natig Suleyman oglu**, intentionally killed by members of the criminal formation on 03 January 1994 in the territory of the village of Ashaghi Abdurrahmanli, Fuzuli District;

serviceman **Bayramov Hormat Beytulla oglu**, intentionally killed on 18 April 1994 in the territory of the village of Gulluja, Aghdam District;

and another seven persons whose identities have still not been established.

In addition, it was established that the following persons were buried in 13 of the 26 graves of unidentified martyrs at the cemetery in the city of Tartar:

serviceman **Abbasov Adalat Vilayat oglu**, intentionally killed by members of the criminal formation on 15 November 1992 in the village of Chyldyran, Aghdara District;

serviceman **Jabbarov Rufat Mammadhuseyn oglu**, intentionally killed on 04 October 1992;

serviceman **Isagov Zakir Nusrat oglu**, intentionally killed on 24 September 1992;

serviceman **Chiragov Elman Almaz oglu**, intentionally killed on 21 August 1992;

serviceman **Suleymanov Sabukhi Yamen oglu**, intentionally killed on 25 December 1992 in the village of Gozlu, Aghdara District;

serviceman **Rustamov Jalal Abdulkhakim oglu**, intentionally killed on 20 September 1992;

serviceman **Rajabov Osman Khalifa oglu**, intentionally killed on 17 November 1992;

serviceman **Khalilov Ismail Anatoly oglu**, intentionally killed on 20 November 1992 in the territory of the village of Syrkhavend, Aghdara District;

serviceman **Aliyev Rovshan Majid oglu**, intentionally killed on 09 November 1992 in the territory of the village of Tazakend, Lachin District;

serviceman **Novruzov Niyaz Ilyas oğlu**, intentionally killed on 17 November 1992 in the territory of the village of Dovshanly (Veng), Aghdara District;

serviceman **Akberov Ikhtiyar Huseyn oğlu**, intentionally killed on 13 October 1993 in the territory of the village of Kheyvaly (Drmbon), Aghdara District;

serviceman **Muradov Zakir Minadi oğlu**, intentionally killed on 09 November 1992 in the territory of the Aghdara District;

serviceman **Jafarov Namig Balakhan oğlu**, intentionally killed on 30 September 1992;

and another 13 persons whose identities have still not been established.

Page 21

In addition, it was established that the following persons were buried in ten of the 23 graves of unidentified martyrs at the cemetery in Beylagan District known as “**Peyghambarlig**”:

serviceman **Aliyev Rasul Arif oğlu**, intentionally killed by members of the criminal formation on 28 October 1993 in the village of Kurdmakhmudlu, Fuzuli District;

serviceman **Narimanov Siraj Feyruz oğlu**, intentionally killed on 11 January 1994 in the territory of the village of Abdurrahmanly, Fuzuli District;

servicemen **Aghayev Ayaz Habibulla oğlu**, **Musayev Ibad Musarza oğlu**, **Ismayilov Siyavush Eldar oğlu**, **Safarov Asim Nadir oğlu**, **Dadashov Gyulaly Mahammad oğlu** and **Jafarov Mushfig Ilyas oğlu**, intentionally killed on 26 January 1994 in the territory of the village of Ashaghi Abdurrahmanly, Fuzuli District;

serviceman **Ismayilov Habil Oruj oğlu**, intentionally killed on 27 January 1994 in the vicinity of the Shishgaya height in the territory of Khojavend District;

serviceman **Gammov Elshad Shirin oğlu**, intentionally killed on 16 February 1994 in the territory of the village of Kerimbeyli, Fuzuli District;

and another 13 persons whose identities have still not been established.

In addition, it was established that serviceman **Ibrahimov Veliyaddin Sakhrab oğlu**, intentionally killed by members of the criminal formation on 19 January 1994 in the territory of the village of Shukurbeyli, Fuzuli District, and another 11 persons whose identities have still not been established were buried in one of the 12 graves of unidentified martyrs at the Shammadli cemetery in Imishli District.

In addition, it was established that the following persons were buried in five of the 11 graves of unidentified martyrs at the cemetery in the village of Bala Bahmanli, Fuzuli District:

serviceman **Mahammadov Abysh Asger oğlu**, intentionally killed by members of the criminal formation on 31 August 1993 in the territory of the village of Balasoltanly, Qubadli District;

civilians **Guliyev Mehdigulu Medet oglu**, a resident of the village of Niyazgular, Jabrayil District, and **Rahimov Musaddin Sadri oglu** and **Rahimova Safiya Myulazim gizi**, residents of the village of Garavakend, Saatli District, intentionally killed on 23 October 1993 in the territory of the settlement of Horadiz, Fuzuli District;

police officer **Shirinov Nazim Shirin oglu**, intentionally killed on 23 October 1993 in the territory of the settlement of Shukurbeyli, Fuzuli District;

and another six persons whose identities have still not been established.

In addition, it was established that serviceman **Eldarov Rasim Safar oglu**, intentionally killed by members of the criminal formation on 23 August 1993 in the territory of the village of Kurdmakhmudlu, Fuzuli District, was buried in one grave of an unidentified martyr at the cemetery of Mahmudlu-2, Fuzuli District.

In addition, it was established that the following persons were buried in 22 of the 49 graves of unidentified martyrs in the Alley of Martyrs in the city of Ganja:

serviceman **Abbasov Zahid Ziyad oglu**, intentionally killed by members of the criminal formation on 16 April 1993;

serviceman **Soltanov Sabukhi Sabir oglu**, intentionally killed on 22 January 1994;

serviceman **Khasiyev Elshan Nazarali oglu**, intentionally killed on 10 February 1994;

servicemen **Isagov Elbrus Isag oglu**, **Shakhayev Jalil Isa oglu**, **Mirzayev Rahib Aghaseyid oglu** and **Mammadov Siyavush Ali oglu**, intentionally killed on 11 February 1994;

serviceman **Abbasov Elmaddin Shirkhan oglu**, intentionally killed on 12 February 1994;

servicemen **Gumbatov Bakhtiyar Alysh oglu**, **Rahimov Ilgar Shair oglu** and **Seyidov Vurgun Alamat oglu**, intentionally killed on 14 February 1994;

servicemen **Alekberov Aliyar Adalat oglu** and **Imamaliyev Arif Alekber oglu**, intentionally killed on 15 February 1994;

serviceman **Alekberov Javid Fazil oglu**, intentionally killed on 17 February 1994;

servicemen **Hajiyev Firudin Nadir oglu** and **Nuriyev Shokhrat Telman oglu**, intentionally killed on 14 April 1994;

serviceman **Mammadov Hafiz Gedim oglu**, intentionally killed on 03 April 1993 near Mount Murov in Kalbajar District;

serviceman **Aliyev Adalat Veysal oglu**, intentionally killed on 27 January 1994 in the territory of the village of Bozlu, Kalbajar District;

serviceman **Nezafeti Arif Hamidulla oglu**, intentionally killed on 12 February 1994 in the territory of the village of Gamyshly, Kalbajar

District;

serviceman **Mustafayev Nuhu Mustafa oglu**, intentionally killed on 14 February 1994 in the territory of the village of Tekegaya, Kalbajar District;

serviceman **Amrullayev Rza Gazanfar oglu**, intentionally killed on 18 February 1994 in the territory of the village of Togana, Kalbajar District;

serviceman **Abbasov Zulfugar Kamil oglu**, intentionally killed on 30 March 1994 in the territory of the village of Chaparli, Kalbajar District;

and another 27 persons whose identities have still not been established.

In addition, it was established that a total of 27 persons whose identities have still not been established and who were intentionally killed, under circumstances unknown to the investigation, by members of the criminal formation were buried in:

one grave of an unidentified martyr in the territory of the village of Efetli, Aghdam District;

three graves of unidentified martyrs at the cemetery of the village of Khydyrly, Aghdam District;

one grave of an unidentified martyr in the Alley of Martyrs in the city of Aghjabadi;

six graves of unidentified martyrs in the Alley of Martyrs in the city of Barda;

three graves of unidentified martyrs in the Alley of Martyrs in the city of Gazakh;

one grave of an unidentified martyr in the courtyard of the secondary school in the village of Kurdmakhmudlu, Fuzuli District;

two graves of unidentified martyrs in the Alley of Martyrs in the city of Shirvan;

three graves of unidentified martyrs in the Alley of Martyrs in the city of Sumgayit;

two graves of unidentified martyrs at the cemetery of the village of Yellidli, Yevlakh District;

one grave of an unidentified martyr in the Alley of Martyrs in the city of Yevlakh;

one grave of an unidentified martyr in the Alley of Martyrs in the city of Ismayilli; and

three graves of unidentified martyrs at the cemetery of the village of Gusanli, Tartar District.

Subsequently, as a result of the relevant measures taken by the law-enforcement authorities and other bodies of the Republic of Azerbaijan following the liberation from occupation of the sovereign territories of the Republic of Azerbaijan, which had remained under their occupation for more than 30 years, representatives of Armenia transferred to Azerbaijan the remains of at least **128 persons**, presumed to be Azerbaijani Army servicemen and civilians

originating from Azerbaijan whose identities have still not been established and who had been intentionally killed by members of the criminal formation.

During the aggressive war against Azerbaijan waged by them between 1987 and 1994, those members, at dates and under circumstances unknown to the investigation, inflicted upon the victims multiple bullet and shrapnel wounds using models of assault rifles, machine guns, grenade launchers and other firearms unknown to the investigation; thereby intentionally killed them; concealed and destroyed their bodies by other means; and thus subjected them to enforced disappearance. More specifically, the remains were transferred:

in seven body bags on 12 February 2021 near the city of Shusha;

in eight body bags on 20 February 2021;

in 13 body bags on 17 February 2021, discovered in the territory of the village of Dashkhesen, Khojaly District (16.608);

in five body bags on 23 May 2021, discovered in the territory of the village of Garadagly, Khojavend District;

in three body bags on 10 July 2021, discovered in the territory of Khojavend District;

in three body bags on 16 August 2021, discovered in the territory of Khojavend District;

in five body bags on 20 October 2021, discovered in the territory of the village of Garadagly, Khojavend District;

in one body bag on 26 January 2022, discovered in the territory of the village of Syrkhavend, Aghdara District;

in five body bags on 28 January 2022;

in three body bags on 25 February 2022;

in 14 body bags on 28 April 2022, discovered in the territory of Armenia;

on 01 December 2022, in seven body bags discovered in the territory of the village of Syrkhavend, Aghdara District, and in three body bags discovered in the territory of Askeran District;

on 30 March 2023, in three white body bags discovered between the Khojavend and Aghdam districts;

and on 28 September 2023, in two body bags, one sack and three polyethylene bags discovered in the territories of the Aghdara and Khojavend districts.

In addition, on 17 February 2021, as a result of the relevant measures carried out in the said territories by the law-enforcement authorities and other

bodies and other entities, natural and legal persons of the Republic of Azerbaijan carrying out improvement and construction work following the liberation from occupation of the sovereign territories of the Republic of Azerbaijan, which had remained under their occupation for more than 30 years, the remains of a total of **17 persons** were discovered at one location in the territory of the village of **Dashalty, Shusha District**. The bodies had been overturned, piled on top of one another and buried clothed, with their legs bound with wire, in a manner inconsistent with Islam. They belonged to servicemen of an unspecified military unit of the Ministry of Defence: **Abbasov Maharram Abbas oglu, Huseynov Gulverdi Aghahuseyn oglu, Niftaliyev Adil Kamal oglu, Gurbanov Nofal Nariman oglu, Rustamov Araz Baghy oglu, Aghayev Yusif Balasef oglu, Abdullayev Nurali Hajibaba oglu** and **Mikayilov Baba Balakishi oglu**, as well as at least nine other persons whose identities have still not been established.

At another location in the territory of the village of **Dashalty, Shusha District**, situated 20 metres from the first burial site, the remains of a total of **11 persons** were discovered. The bodies had been overturned, piled on top of one another and buried clothed, with their legs bound with wire, in a manner inconsistent with Islam. They belonged to servicemen of an unspecified military unit of the Ministry of Defence: **Ahmədov Riyad Fikret oglu, Gasimov Veysan Gasim oglu, Mammadov Elmar Ingilab oglu** and **Mustafayev Sabir Islam oglu**, as well as at least seven other persons whose identities have still not been established.

In pursuit of the objective of restoring the territorial integrity and public security of the Republic of Azerbaijan, those persons, while performing their official duties, began an operation in the direction of the city of Shusha on **26 January 1992**, with the intention of disarming and neutralizing members of the criminal formation. However, they were intentionally killed by members of the criminal formation, who set up an ambush and inflicted numerous bullet and shrapnel wounds upon them from their occupied positions, using models of assault rifles, machine guns, grenade launchers and other firearms unknown to the investigation. They thereby intentionally killed them, concealed and destroyed their bodies by other means and thus subjected them to enforced disappearance.

In addition, on **19 June 2023**, the remains of a total of **six persons** were discovered at one location in the territory of the village of **Saryjaly, Aghdam District**. The bodies had been overturned, piled on top of one another and buried clothed, in a manner inconsistent with Islam. They belonged to serviceman of an unspecified military unit of the Ministry of Defence, Private **Najafov Seyfaddin Eldar oglu**; civilian **Azizov Maharram Ismail oglu**, a resident of the city of Aghdam who had been captured in the same city on 23 July 1993; serviceman of an unspecified military unit of the Ministry of Defence, Private **Aliyev Hikmet Zili oglu**; and at least three other persons whose identities have still not been established.

Those persons were intentionally killed on **24 July 1993** in the territory of the village of Saryjaly, Aghdam District, by members of the criminal formation, who set up an ambush and, from their occupied positions, inflicted numerous bullet and shrapnel wounds upon them using models of assault rifles, machine guns, grenade launchers and other firearms unknown to the investigation. They thereby intentionally killed them, concealed and destroyed their bodies by other means and thus subjected them to enforced disappearance.

In addition, on **06 March 2023**, the remains of a total of **four persons** were discovered at one location in the territory of the village of **Yeni Kend, Kalbajar District**. The bodies had been overturned, piled on top of one another and buried clothed, in a manner inconsistent with

Islam. They belonged to residents of the village of Takhtabashy, Kalbajar District and members of the village self-defence group: **Garayev Gafar Gambar oglu, Musayev Mehman Jamal oglu** and **Azizov Yusif Ismail oglu**, as well as at least one other person whose identity has still not been established.

On **27 March 1993**, they were intentionally killed in the territory of the village of Yeni Kend, Kalbajar District, by members of the criminal formation, who set up an ambush and, from their occupied

Page 24

positions, inflicted numerous bullet and shrapnel wounds upon them using models of assault rifles, machine guns, grenade launchers and other firearms unknown to the investigation. They thereby intentionally killed them, concealed and destroyed their bodies by other means and thus subjected them to enforced disappearance.

In addition, on **21 February 2024**, the remains of a total of **18 persons** were discovered at one location in the territory of the city of **Khojaly**. The bodies had been overturned, piled on top of one another and buried clothed, with their legs bound with rope, in a manner inconsistent with Islam. They belonged to residents of the city of Khojaly: **Maharramova Basira (Nazly) Veli gizi, Mahmudov (Azimov) Akif Seydulla oglu, Ismayilov Ismayil Bakhman oglu, Aliyev Aghali Naib oglu, Aliyeva Sureyya Behbud gizi, Salimova Tamila Aghamirza gizi, Salimov Khazar Sayavush oglu, Javadov Ali Musul oglu, Najafov Shiraslan Mamish oglu** and **Maharramov Vagif Jamil oglu**, as well as at least eight other persons whose identities have still not been established.

On **26 February 1992**, they were intentionally killed in the territory of the city of Khojaly by members of the criminal formation, who set up an ambush and, from their occupied positions, inflicted numerous bullet and shrapnel wounds upon them using models of assault rifles, machine guns, grenade launchers and other firearms unknown to the investigation. They thereby intentionally killed them, concealed and destroyed their bodies by other means and thus subjected them to enforced disappearance.

In addition, on **28 March 2024**, the remains of at least **two persons** whose identities have still not been established were discovered at one location in the territory of the **Gala Deresi quarter of the city of Khojaly**. The bodies had been overturned, piled on top of one another and buried clothed, in a manner inconsistent with Islam.

During the aggressive war against Azerbaijan between 1987 and 1994, those persons were intentionally killed by members of the criminal formation, at dates and under circumstances unknown to the investigation. The members concealed and destroyed their bodies by other means and thus subjected them to enforced disappearance.

In addition, on **24 April 2024**, the remains of at least **ten persons** whose identities have still not been established were discovered at one location in the territory of the village of **Malibeyli, city of Khojaly**. The bodies had been overturned, piled on top of one another and buried clothed, in a manner inconsistent with Islam.

During the aggressive war against Azerbaijan between 1987 and 1994, those persons were intentionally killed by members of the criminal formation, at dates and under circumstances

unknown to the investigation. The members concealed and destroyed their bodies by other means and thus subjected them to enforced disappearance.

In addition, on **02 December 2023**, the remains of at least **five persons** whose identities have still not been established were discovered at one location **inside a mosque in the territory of the village of Chol Gala, city of Shusha**. The bodies had been overturned, piled on top of one another and buried clothed, in a manner inconsistent with Islam.

During the aggressive war against Azerbaijan between 1987 and 1994, those persons were intentionally killed by members of the criminal formation, at dates and under circumstances unknown to the investigation. The members concealed and destroyed their bodies by other means and thus subjected them to enforced disappearance.

In addition, in **April 1993**, members of the criminal formation fired from their occupied positions, using models of assault rifles and other firearms unknown to the investigation, upon **Mustafayev Eyvaz Yusif oğlu**, a resident of the settlement of Istisu, Kalbajar District, in the territory of the village of Chirag, Kalbajar District. They took him hostage and released him in August 1993.

On **01 August 2022**, at a location known as “**Tovle Deresi**” in the territory of the village of Chirag, Kalbajar District, the remains of his wife, **Isayeva Senem Hasan gizi**, a resident of the settlement of Istisu, Kalbajar District, were discovered beneath the hood of a vehicle. She had been shot in the back at the same location, thereby being intentionally killed and subjected to enforced disappearance.

Page 25

In addition, during large-scale construction and improvement works in the territories liberated from occupation, from **06 January 2021 to the present day**, the remains of at least **127 persons** were discovered in the territories of the Aghdam, Shusha, Goygol, Tartar, Fuzuli, Khojavend and Zangilan districts. They presumably belonged to Azerbaijani Army servicemen who had been taken prisoner and civilians who had been taken hostage, whose identities have still not been established and who, during the aggressive war against Azerbaijan between 1987 and 1994, were intentionally killed by members of the criminal formation at dates and under circumstances unknown to the investigation. Those members concealed and destroyed their bodies by other means and thus subjected them to enforced disappearance.

Subsequently, on **23–26 February and 15–21 September 2022**, as a result of the relevant measures carried out in the said territories by law-enforcement authorities, other bodies, and individuals and legal entities of the Republic of Azerbaijan engaged in improvement and construction work following the liberation from occupation of the sovereign territories of the Republic of Azerbaijan, which had remained under their occupation for more than 30 years, the remains of a total of **eight persons** were discovered at one location in the territory of the village of **Edilli, Khojavend District**, 50 metres north of the last house in the village.

The bodies had been overturned, piled on top of one another and buried clothed, with their legs bound with wire, wrapped in cellophane bags, in a manner inconsistent with Islam. They belonged to:

serviceman Private **Allahverdiyev Shamsaddin Avez oglu**, who had been taken prisoner in the territory of the village of Juvarly, Fuzuli District, on 23 July 1993;

serviceman Private **Nagiyev Jahid Shafa oglu**, who had been taken prisoner near Mount Murguzlu in the Fuzuli District on 05 August 1993;

serviceman Sergeant **Hasanov Vugar Telman oglu**, who had been taken prisoner in the vicinity of the Uchtepe elevation in the Fuzuli District on 06 August 1993;

serviceman Junior Lieutenant **Jafarov Vugar Habil oglu**, who had been taken prisoner in the territory of the village of Kurdmakhmudlu, Fuzuli District, on 31 August 1993;

and at least three other persons whose identities have still not been established.

They were intentionally killed by members of the criminal formation, who shot them using 7.62-mm firearms and killed them by other means.

In addition, on **22–28 September and 26–27 October 2022**, the remains of a total of **15 persons** were discovered at another location in the territory of the village of Edilli, Khojavend District, 20 metres from the first burial site.

The bodies had been overturned, piled on top of one another and buried clothed, with their legs bound with wire, in a manner inconsistent with Islam. They belonged to servicemen:

Warrant Officer **Atamoglanov Abulfat Sabir oglu**;

Private **Mammadov Asad Mammad oglu**;

Private **Tahirov Seyfulla Beytulla oglu**;

Private **Hajiyev Tahsin Fikran oglu**; and

Private **Babashov Ahmad Tahir oglu**,

who were intentionally killed by members of the criminal formation on 31 August 1993. Those members intentionally killed them by firing at them with 5.45-mm firearms.

The remains also belonged to civilians **Khalafov Jahangir Mami oglu**, a resident of the village of Dondarlar, Fuzuli District, and **Ibishov Jumshud Mehrali oglu**, a resident of the settlement of Horadiz, Fuzuli District, who had been taken prisoner on 03 September 1993 and subjected to various forms of torture, thereby being intentionally killed, as well as at least eight other persons whose identities have still not been established.

In addition, on **26–27 October 2022**, the remains of a total of **four persons** were discovered at another location in the territory of the village of Edilli, Khojavend District, 300 metres north of the first burial site, in the direction of the cemetery from the last house in the village.

The bodies had been overturned, piled on top of one another and buried clothed, with their legs bound with wire, wrapped in cellophane, in a manner inconsistent with Islam. They belonged to the civilian resident of the village of

Chimen, Fuzuli District, Guliyev Novruz Mahmud oğlu, who had been taken hostage in the territory of the same village on 14 April 1992; civilian **Tagiyev Anver Jumshud oğlu**, a resident of the village of Dedeli, Fuzuli District, who had been taken prisoner on 16 August 1993, had his limbs bound with wire and was subjected to various forms of torture, as a result of which he was intentionally killed by members of the criminal formation; and at least two other persons whose identities have still not been established.

Subsequently, on **31 March 2022**, as a result of the relevant measures carried out in the said territories by law-enforcement authorities, other bodies, and individuals and legal entities of the Republic of Azerbaijan engaged in improvement and construction work following the liberation from occupation of the sovereign territories of the Republic of Azerbaijan, which had remained under their occupation for more than 30 years, the remains of at least **12 persons**, namely five men, five women and two children, were discovered at one location in the territory of the village of **Farrukh, Khojaly District**.

The bodies had been overturned, piled on top of one another and buried clothed, in a manner inconsistent with Islam. Their identities have still not been established. During the aggressive war against Azerbaijan between 1987 and 1994, they were intentionally killed by members of the criminal formation at dates and under circumstances unknown to the investigation. Those members concealed and destroyed their bodies by other means and thus subjected them to enforced disappearance.

On **22–25 November 2022 and 05–08 May 2023**, as a result of the relevant measures carried out in the said territories by law-enforcement authorities, other bodies, and individuals and legal entities of the Republic of Azerbaijan engaged in improvement and construction work following the liberation from occupation of the sovereign territories of the Republic of Azerbaijan, which had remained under their occupation for more than 30 years, the remains of at least **11 persons** were discovered at two sites in the territory of the village of **Yukhary Seyidahmedli, Fuzuli District**, to the right and left of the asphalt road leading to the village: six persons at one site and five persons at the other.

The bodies had been overturned and buried in a manner inconsistent with Islam, and their bones had been scattered. Their identities have still not been established. During the aggressive war against Azerbaijan between 1987 and 1994, they were intentionally killed by members of the criminal formation at dates and under circumstances unknown to the investigation. Those members inflicted numerous bullet and shrapnel wounds upon them using models of assault rifles, machine guns, grenade launchers and other firearms unknown to the investigation, thereby intentionally killing them, concealing and destroying their bodies by other means and thus subjecting them to enforced disappearance.

On **31 May, 03 June, 22–23 June and in August 2023**, as a result of the relevant measures carried out in the said territories by law-enforcement authorities, other bodies, and individuals and legal entities of the Republic of Azerbaijan engaged in improvement and construction work following the liberation from occupation of the sovereign territories of the Republic of Azerbaijan, which had remained under their occupation for more than 30 years, the remains of at least **31 persons** were discovered in the territory of the old prison in the city of **Shusha**: 14 persons at one location and another 17 persons at a second location 10 metres from the first.

They were presumed to be Azerbaijani Army servicemen who had been taken prisoner and civilians who had been taken hostage. The bodies had been overturned, piled on top of one another and buried beside one another, in a manner inconsistent with Islam. Their identities have still not been established. During the aggressive war against Azerbaijan between 1987 and 1994, they were intentionally killed by members of the criminal formation at dates and under circumstances unknown to the investigation. Those members concealed and destroyed their bodies by other means and thus subjected them to enforced disappearance.

Page 27

Thus, at 20 cemeteries located in 14 cities and districts of the Republic of Azerbaijan, the remains of **181 persons** buried as unidentified martyrs were discovered; the remains of at least **166 persons** were discovered at mass-burial sites in the territories liberated from occupation; the remains of at least **127 persons** were discovered during large-scale construction and improvement works in the territories liberated from occupation; and the remains of at least **128 persons** were transferred by representatives of the Republic of Armenia in body bags in the cities of Shusha and Khankendi. Accordingly, as of the present date, the remains of a total of at least **602 persons** have been discovered, of whom 120 have been identified.

The members of the armed formations of the criminal organization and of the armed formations constituting its structural subdivisions, who carried out unlawful activities in the territory of the Republic of Azerbaijan in contravention of domestic and international legal norms, with the support of the military-political leadership, including the Armed Forces and other armed formations of the Republic of Armenia, as well as with their direct material and technical support and support in the form of personnel, on the basis of their centralized command, oral and written directions, assignments and instructions, and under their strict control, and who were supplied with various types of weapons, ammunition, military equipment and other armaments, included:

Kocharyan Robert Sedrakovich, one of the leaders of the criminal organization, who directly led the aggressive war against the Republic of Azerbaijan in 1987–1994; who served as Prime Minister of the so-called “Nagorno-Karabakh Republic,” or “Artsakh,” created on 10 December 1991, from August 1992 to 29 December 1994, and as “President” of that unrecognized entity, which was not recognized by any state in the world, including the Republic of Armenia, or by international organizations, from 29 December 1994 (*also on the basis of unlawful elections held on 24 November 1996, at which he was allegedly elected President*); and who was among the leaders of the criminal organization and the leaders of the “Karabakh Movement,” which promoted and fostered national and ethnic hatred and hostility against Azerbaijanis within Armenian society, as well as ideas concerning the preparation and planning of an aggressive war against Azerbaijan;

Sarkisyan Serzh Azatovich, who directly led the aggressive war against the Republic of Azerbaijan in 1987–1994; who, from January to August 1992, was commander of the illegal armed organized formation which they called the “Self-Defence Committee” of the unrecognized entity which they declared to be the “Nagorno-Karabakh Republic” (“Artsakh”), created on 10 December 1991; who served as Minister of Defence of the unrecognized entity from August 1992 to 20 August 1993, Minister of Defence of the Republic of Armenia from 21 August 1993 to 17 May 1995, Minister of National Security and Internal Affairs from 04 November 1996 to 11 June 1999, Head of the Presidential

Administration from 11 June 1999 to 20 May 2000, again Minister of Defence from 20 May 2000 to 26 March 2007, Prime Minister from 04 April 2007 to 09 April 2008, and President from 09 April 2008 to 09 April 2018;

Grigoryan Manvel Sedrakovich, who fought in 1989–1991 as part of an armed formation known as “Echmiadzin,” created for attacks on villages populated by Azerbaijanis; who was commander of the 83rd Brigade of the Armed Forces of Armenia in 1993–1996 and commander of the First Corps of the Ministry of Defence of Armenia in 1996–2000; and who served as Deputy Minister of Defence of Armenia in 2000–2008;

Stepanyan Levon Vladimirovich, who played a significant role in the formation of the armed forces in the border districts of Armenia, their armament, military-diplomatic work and the training of military personnel; who served as Military Commissar of Armenia in 1991–1993, First Deputy Chief of the General Staff of the Ministry of Defence of Armenia, and Head of the Main Organizational and Mobilization Directorate of the Ministry of

Page 28

Defence of Armenia; and who, in 1993–2003, served as Head of the Main Directorate for the Protection of the State Border of Armenia—Commander of the Border Troops of the National Security Service of the Republic of Armenia;

Garamyan Arshavir Surenovich, founder of the illegal armed formation known as the “Arsho Battalion,” created in 1990 in the village of Garabulag, Khojaly District, for the purpose of attacking villages populated by Azerbaijanis; who took part in the fighting for the occupation of the Khojavend, Shusha, Lachin, Khojaly—formerly Askeran—Aghdara, Aghdam, Kalbajar and Fuzuli districts in 1991–1994; and who was commander of the 35th Motorised Rifle Camp of the “Defence Army” of the unrecognized entity in 1992–1996;

Voskanyan Albert Zavenovich, who served as Deputy Chairman of the State Commission for Prisoners of War and Missing Citizens of Armenia from June 1993 to July 1997;

Petrosyan Karo Vanoevich, who served in 1991–1992 as Head of the Fire Protection Department of the Internal Affairs Department of the Khojaly—formerly Askeran—District;

Babayan Samvel Andranikovich, who headed the illegal armed formation known as the Khankendi “Second Self-Defence Camp” in 1989–1991, created for the purpose of attacking villages populated by Azerbaijanis; who, from August 1992 to April 1993, was First Deputy Chairman of the illegal armed formation known as the “Self-Defence Committee” of the unrecognized entity; who, from November 1993 to December 1999, commanded the illegal armed formation known as the “Defence Army” of the unrecognized entity; who served as “Minister of Defence” of the unrecognized entity in 1995–1999 and as a “member of the Government and of the Security Council under the President” of the unrecognized entity; and who served as “Secretary of the Security Council” of the unrecognized entity from May to November 2020;

Mnatsakanyan Lyova Genrikovich, who served as Deputy Commander of a camp, division commander and Chief of Artillery in the “Defence Army” of the unrecognized entity from September 1992 to 1994; commander of Artillery Military Unit No. 39138 in 1994–1998; commander of the 10th Mountain Rifle Division located in the Aghdara District in 1998–

1999; commander of the 18th Rifle Division located in the settlement of Hadrut, Khojavend District, in 2001–2004; Deputy Commander—Seyran Oganian—of the “Defence Army” of the unrecognized entity in 2005–2007; “Chief of Staff of the Defence Army” of the unrecognized entity in 2007–2012; Deputy Chief of the General Staff of the Armed Forces of the Republic of Armenia in 2012–2015; “Minister of Defence” of the unrecognized entity from 15 June 2015 to 14 December 2018; “Head of the Emergency Service” from 2018 to 2019; and “Chief of Police” from June 2019;

Ghukasyan Arkadi Arshavirovich, who served as Deputy Editor-in-Chief of the newspaper *Soviet Karabakh*, which promoted national hatred and discrimination against Azerbaijanis, in 1980–1992; as a “member of parliament” of the unrecognized regime in 1992–1993; as “Adviser to the Chairman of the State Defence Committee on Political Affairs” of the unrecognized entity from September 1992 to 23 July 1993; as “Minister of Foreign Affairs” from 23 July 1993 to 08 September 1997; and as “President” of the unrecognized entity from 08 September 1997 to 07 September 2007; and who served as Ambassador-at-Large at the Ministry of Foreign Affairs of the Republic of Armenia in 2008–2018;

Sahakyan Bako Sahakovich, who served as a supply officer in the support unit of the illegal armed organized formation known as the “Self-Defence Forces” of the unrecognized entity from 1990 to June 1992; as Deputy Head for Material and Technical Support of the same unit from June 1992 to the beginning of 1993; as Chief of Staff for Material and Technical Support of the “Defence Army” of the unrecognized entity from the beginning of 1993 until the second half of that year; as Head of Material and Technical Support of the “Defence Army” of the unrecognized entity from the second half of 1993 to 1995; as Head of Material and Technical Support of the “Defence Army” of the unrecognized entity from 1999 to 2001; as “Minister of Internal Affairs” from 1999 to 2001; as “Head of the National Security Service” from 2001 to 2007; and as “President” of the unrecognized entity from 07 September 2007 to 19 May 2020;

Ishkhanyan Davit Rubenovich, who, from 1989, was the most active

Page 29

member of the “**Dashnaktsutyun**” party, which promoted national hostility against Azerbaijanis among persons of Armenian nationality; an armed member of the illegal armed organized formation which they called the “Self-Defence Forces” of the unrecognized entity “Artsakh” in 1990–1992; commander of the 28th “Martuni” Battalion from 10 September 1992 to February 1994; Deputy Chief of Staff and Chief of Staff of the 27th “Martuni” Battalion from February 1994 to March 1995; Director of the secondary school in the village of Kheshan, Khojavend District, for the purpose of promoting national hatred against Azerbaijanis among schoolchildren of Armenian nationality, in 1995–2000; head of the rural community of Kheshan in 2000–2005; representative of the “Artsakh Central Committee” of the “Armenian Revolutionary Federation” from 2007, including, from 2022, chairman of the bureau for the unrecognized entity, which was the executive body of that organization throughout the world; from 03 May 2015, a deputy from the Eighth Electoral District of the sixth convocation of the “parliament” of the unrecognized entity and a “member of the Parliament’s Standing Commission on Financial, Budgetary and Economic Administration”; head of the “Dashnaktsutyun” faction of the National Assembly of the unrecognized entity

from May 2015 to March 2017; and again a deputy of the “parliament” of the unrecognized entity from March 2020;

Harutyunyan Arayik Vladimirovich, born on 27 December 1968, who held the “positions” of “President of the National Assembly” of the unrecognized entity from 07 August 2023 to 01 September 2023 and acting “President” of the unrecognized entity from 01 to 09 September 2023; who was a soldier in the “Defence Army” of the unrecognized entity from December 1991 to 01 September 1992; and, from 10 October 1992 to 1995, an officer, Deputy Head and Head of the Missile and Artillery Armament Service in the armed organized group located in Khankendi which they called the Third Camp of the “Defence Army”; “Adviser to the Minister of Economy and Finance” of the unrecognized regime in 1995–1997; head of **ARM Agri Bank** in 1997–2003; Director of the cognac plant located in the city of Khankendi in 2003–2005; a deputy of the “parliament” in 2005–2007; “Prime Minister” from 14 September 2007 to 25 September 2017; “State Minister” from 25 September 2017 to 06 June 2018; and “President” of the unrecognized entity from 21 May 2020 to 01 September 2023;

Manukyan Davit Azatovich, who was a soldier in the so-called camp of the “Shusha Special-Purpose Battalion” of the “Defence Army” of the unrecognized entity from January 1993 to May 1994; and, from the latter date until September 2001, an officer—respectively, platoon commander, company commander and Chief of Staff—in the same camp, subsequently military unit No. 37043; Chief of Staff of the Fifth Defence Line of the “Defence Army” of the unrecognized entity, that is, military unit No. 49971, from September 2001 to 2005; commander of the Seventh Defence Line of the “Defence Army” of the unrecognized entity, that is, military unit No. 38862, in 2005–2010; Chief of Staff of the 10th Aghdara Division of the “Defence Army” of the unrecognized entity, that is, military unit No. 32964, in 2010–2015; Head of the Personnel Department of the General Staff of the Ministry of Defence of the Republic of Armenia from March 2015 to July 2016; commander of the Second Army Corps of the Ministry of Defence of the Republic of Armenia—military unit No. 282233—from July 2016 to 26 December 2019; “First Deputy Commander of the Defence Army—Deputy for Combat Training” of the unrecognized entity from 26 December 2019 to January 2022; who, from that date until 20 September 2023, directly participated in the adoption of decisions at meetings of the “Security Council” and in the adoption of other significant decisions, at the invitation of the senior officials of the unrecognized entity, and thereby, in practice, possessed the authority to make decisions within the criminal formation and performed the functions of a leader even without holding an official position;

Babayan Davit Klimovich, who served as Second Secretary in the “Ministry of Foreign Affairs” of the unrecognized regime in 1998–1999; “Head of the Ministry’s Political Programming Department” in 1999–2000; “Head of the Political Administration Department of the Ministry” from May to December 2001; and, from December 2001 to 2005, as an “employee of the President’s Political

Page 30

Planning Group” of the unrecognized regime; “Assistant to the President for Political Affairs” in 2005–2007; “Head of the Main Information Directorate of the Presidential Administration” of the unrecognized regime in 2007–2013; and, in 2013–2020, while continuing to perform the latter duties, “Deputy Head of the Administration”; “Assistant to the President for Foreign Policy Affairs” from May 2020 to 04 January 2021; “Minister of

Foreign Affairs” from 04 January 2021 to 15 January 2023; and “Assistant to the President for Special Assignments” from 17 January 2023 to 19 September 2023;

Balasanyan Vitaly Mikaelovich, who headed the illegal armed formation known as the “Self-Defence Detachments” of the Askeran District from 1988 to 1990; was commander of the illegal armed formation known as the “Askeran District Self-Defence Detachments” from 1990 to 1996 and, at the same time, was “elected” a deputy of the unrecognized “National Council of Artsakh” in 1991; was a division commander in 1996–1998; Deputy Commander of the “Defence Army” of the unrecognized entity in 1998–1999; commander of an illegal armed formation from September 1999 to 2005; a “deputy of the National Council of Artsakh” in 2010 under the proportional list of the “Dashnaktsutyun—Armenian Revolutionary Federation” party; “Adviser to the President” of the unrecognized entity in 2007–2010; and Secretary of the “Security Council” of the unrecognized entity from 02 December 2020 to 29 May 2020;

Oganyan Seyran Mushegovich, who, from 1989 to March 1992, was commander of a camp of the 366th Motorised Rifle Regiment of the former USSR and subsequently of the Russian Federation, stationed in the city of Khankendi; commander of an illegal armed organized group which they called the “self-defence detachments” of the Askeran and Aghdara districts of the “Defence Army” of the unrecognized entity from March 1992 to March 1993; “Chief of the General Staff of the Defence Army” of the unrecognized entity from March 1993 to February 1994; First Deputy Commander of the illegal armed organized group which they called the “Defence Army” of the unrecognized entity in 1994–1997; commander of the Fifth Corps of the Armed Forces of the Republic of Armenia in 1997–1999; commander of the illegal armed organized formation which they called the “Defence Army” in 1999–2007; Chief of the General Staff of the Ministry of Defence of the Republic of Armenia and First Deputy Minister of Defence in 2007–2008; Minister of Defence of the Republic of Armenia, holding the senior military rank of Colonel General, in 2008–2016; who took an active part, as a member of the centrally controlled criminal formation, during the active phase of the aggressive war initiated on 27 September 2020; and who subsequently held the position of Adviser to the President of the unrecognized entity;

Melkonyan Monte Charles, who, until October 1992, was commander of the illegal armed organized formation which they called the “self-defence detachments” of the Khojavend District, and, from 10 October 1992 to 12 June 1993, commander of the Second Region of the “Defence Army” of the unrecognized entity; a native of Lebanon and the founder and head of the “ASALA-RM” (“Revolutionary Movement”) branch of the terrorist organization “ASALA” (*Armenian Secret Army for the Liberation of Armenia*); who was posthumously decorated specifically for having played an active role in the aggressive war and battles of the Republic of Armenia against Azerbaijan, including being awarded the title of “National Hero” of the Republic of Armenia and the title of “Hero of Artsakh” by the unrecognized entity; and who was nicknamed “Avo”;

as well as other persons who held various positions in accordance with the distribution of roles: **Kocharyan Viktor Mikhailovich, Mkrtchyan Ohanes Simonovich, Aghabekyan Artur Alexandrovich, Hambartsumyan Maksim Amirovich, Babayan Karen Andranikovich, Aghayan Elmira Alexandrovna, Tangamyanyan Gamlet Alexandrovich, Manasyan Khachik Serzhikovich, Azoyan Basensi Bagdasarovich, Movsesyan Genrikh Grigoryevich, Abrahamyan Kanno Vladimirovich, Petrosyan Samvel Robertovich, Tumanyants Robert Sergeevich, Gasparyan Yuri Shagenovich, Aghamalyan Karen**

Grigoryevich, Sarumyan Alexander Arutyunovich, Azoyan Hovik Bazensovich, Harutyunyan Sergey Gavrushovich, Khachatryan Ashot Vachaganovich, Melkonyan

Page 31

Gurgen Razmikovich, Poghosyan Melikset Abramovich, Abrahamyan Poghos Garnushevich, Karapetyan Martin Nazarovich, Amiryan Arzuman Aramaisovich, Sarkisyan Levon Grishovich, Sarkisyan Ashot Grishovich, Grigoryan Bela Setrakovna, Grigoryan Karen Gervoldovich, Tantamyan Gamlet Alexandrovich;

Pashayan Melikset Vladimirovich, born on 28 January 1971, who, from the end of 1992 to 31 December 1995, was a soldier in the illegal armed organized formation known as the Askeran “Self-Defence Forces” of the unrecognized regime which they declared to be “Artsakh”; and who, from 27 September 2020 to 10 November 2020, as well as from May to 20 September 2023, was a soldier in the “Self-Defence Forces” created by them in the village of Ashaghi Yemishjan, Khojaly District;

Martirosyan Garik Grigorievich, born on 27 March 1972, who, from the beginning of 1993 to 31 December 1994, was a soldier in the illegal armed organized formation known as the Askeran “Self-Defence Forces” of the unrecognized regime which they declared to be “Artsakh”; and who, from 27 September 2020 to 10 November 2020, as well as from January 2023 to 20 September 2023, was a soldier in the “Self-Defence Forces” created by them in the village of Ashaghi Yemishjan, Khojaly District;

Babayan Madat Arakelovich, born on 15 September 1952, who, from January 1990 until the end of 1994, was a soldier in the illegal armed organized formation known as the Aghdara “Self-Defence Forces”; and who, from 18 September 2023 to 20 September 2023, was a soldier in the “Self-Defence Forces” created in the village of Gozlu Korpu, Aghdara District;

and others, for the purpose of implementing the plan encompassed by the common criminal intent of each member of the criminal formation under the ideology of “Greater Armenia,” that is, for the purpose of further strengthening the ideas of national and ethnic hostility which they had already succeeded in fostering within Armenian society against Azerbaijanis; promoting, against that background, discrimination against Azerbaijanis within Armenian society; creating confrontations; expelling persons of Azerbaijani nationality from the Caucasus region, adjacent territories and other parts of Azerbaijan; ensuring the occupation of the sovereign territories of the Republic of Azerbaijan occupied in the course of the aggressive war initiated by them against Azerbaijan; killing Azerbaijanis on grounds of national and ethnic hatred; taking them prisoner or hostage and subjecting them to torture; subjecting them to enforced disappearance; thereby creating constant fear and panic among the Azerbaijani population; preventing their return to the territories from which they had been expelled; and pursuing other criminal objectives;

in gross violation of the requirements of the Fourth Hague Convention of 18 October 1907 respecting the Laws and Customs of War on Land and the Regulations annexed thereto; the Geneva Conventions of 1949 for the Amelioration of the Condition of the Wounded and Sick in Armed Forces in the Field, relative to the Treatment of Prisoners of War, and relative to the Protection of Civilian Persons in Time of War; Protocols I and II of 08 June 1977 relating to the Protection of Victims of International Armed Conflicts and relating to the Protection of Victims of Non-International Armed Conflicts; the International Convention against the

Taking of Hostages, adopted in New York on 17 December 1979; the Charter of the United Nations; the Universal Declaration of Human Rights, adopted by the General Assembly of the United Nations on 10 December 1948; the European Convention for the Protection of Human Rights and Fundamental Freedoms of 04 November 1950; the UN Convention against Torture and Other Cruel, Inhuman or Degrading Treatment or Punishment of 10 December 1984; the International Covenant on Civil and Political Rights of 16 December 1966; and other norms of international law;

during the period from **01 January 1988 to 03 October 2023**, when he was detained by the law-enforcement authorities of the Republic of Azerbaijan, and during the period from **1992 to 03 October 2023**, throughout which he participated in the criminal formation, they unlawfully took prisoner and hostage a total of **1,698 persons** in the territories situated within the boundaries of the cities and districts of Khankendi, Khojaly, Shusha, Lachin, Khojavend, Kalbajar, Aghdam, Aghdara, Jabrayil, Qubadli, Fuzuli and Zangilan, as well as the Gazakh, Tovuz, Gadabay and Goygol districts

Page 32

and the Nakhchivan Autonomous Republic, which had been occupied in the course of the aggressive war initiated by them.

Of those persons, a total of **1,425 persons** were taken hostage, of whom **1,085 were subjected to physical pain and mental suffering**, and **341 were subjected to torture causing mental suffering**. They included:

660 men, including 101 minor boys and 120 elderly men;

376 women, including 68 minor girls and 82 elderly women.

A total of **1,036 persons**—of whom 729 were subjected to physical pain and mental suffering and 307 were subjected to torture causing mental suffering—were taken hostage.

A total of **389 men**—of whom 356 were subjected to physical pain and mental suffering and 33 were subjected to torture causing mental suffering—were taken prisoner as prisoners of war.

More specifically, in the territory of the Karabakh region and the adjacent territories of Azerbaijan:

in 1992, 647 hostages and 72 prisoners of war;

in 1993, 325 hostages and 134 prisoners of war;

in 1994, 15 hostages and 83 prisoners of war;

in 1995, nine hostages and 15 prisoners of war;

in 1996, five hostages and 11 prisoners of war;

in 1997, one hostage and eight prisoners of war;

in 1998, seven hostages and nine prisoners of war;
in 1999, one hostage and three prisoners of war;
in 2000, three hostages and five prisoners of war;
in 2001, three hostages and two prisoners of war;
in 2002, one hostage and two prisoners of war;
in 2003, three hostages and three prisoners of war;
in 2004, four prisoners of war;
in 2005, one prisoner of war;
in 2006, one prisoner of war;
in 2007, three hostages;
in 2008, one hostage and two prisoners of war;
in 2009, one hostage and two prisoners of war;
in 2012, one hostage;
in 2014, four hostages;
in 2016, one hostage and one prisoner of war;
in 2019, one hostage;
in 2020, three hostages and 23 prisoners of war;
in 2021, one hostage and five prisoners of war; and
in 2022, two prisoners of war.

Thereafter, on the basis of the assignments and instructions of the military-political leadership of Armenia, they held those prisoners of war and hostages in special-regime detention facilities, militarized camps, the basements of the administrative buildings of district police departments, military units, hospitals, kindergartens and farms; in prisons together with convicted persons who had committed serious crimes; in the military basements of houses belonging to individual field commanders and other authorized persons; in various private premises; in exposed sections of buildings located in various cities and districts of Azerbaijan occupied by them; as well as in various regions of Armenia, including Yerevan, Goris, Masis, Meghri, Sisian, Vardenis, Noyemberyan, Berd, Vayk, Leninakan, Ijevan, Krasnoselsk, Artashat, Echmiadzin and other cities and districts.

They kept them outside in snowy and freezing weather, without clothing and in intolerable conditions, regardless of their age, sex, whether any of them were ill or wounded, and subjected them to various forms of torture with particular cruelty, including torture of children in the presence of their parents and torture of parents in the presence of their children.

At the places where they were held, they regularly struck them with rifle butts, rubber and iron batons, and metal and wooden objects, as well as various hard and blunt objects, using merciless physical force and causing them to lose consciousness; passed electric current through their bodies while holding them by the arms and breaking their resistance through the use of physical force; forced a glass bottle—a narrow-necked bottle intended for liquids—into their rectums; forcibly extracted healthy teeth and gold dental prostheses from their mouths with pliers; tore out the nails on their hands and feet; squeezed and broke their fingers between doors; inflicted bodily wounds upon them using stabbing and cutting instruments and poured sulphuric acid, salt and molten asphalt over those wounds; extinguished burning cigarettes on various parts of their bodies; tortured and humiliated them by carving heated knives into their bodies in the form of a cross; forced them to swallow broken glass and tore the scabs of their wounds; struck them on the head with nails;

Page 33

branded their bodies with heated objects, and threw young children head-first onto concrete, thereby causing them to become mentally ill.

In addition, using physical force and threatening to use physical force, as well as taking advantage of their helpless condition, they raped underage girls and women and compelled them to perform acts of a sexual nature, engaging in natural and unnatural sexual contact with them; forcibly engaged in unnatural sexual intercourse with men in an unnatural manner; and, at the same time, committed violent acts of sexual violence, compelling both women and men to satisfy their sexual desires in a perverted form and forcing men to engage in unnatural sexual intercourse with one another.

Using force, they raped women, who became pregnant as a result; removed their organs for transplantation, together with a layer of muscle tissue from the humerus; knowingly and deliberately conducted unlawful medical and other experiments upon them for the purpose of rendering them disabled in the future; forcibly tested various medicinal substances on their bodies; injected substances of unknown composition into their veins, including diesel fuel and petrol; subjected them to various forms of irradiation; conducted biological research upon them; and left them among rabid and stray dogs, as well as specially trained dogs, causing the animals to bite and tear various parts of their bodies.

They spat in their faces and subjected them to continuous insults; threatened to kill them; forced them to imitate the sounds and movements of various animals, eat from the same bowl as animals, and perform physical, immoral, degrading and insulting acts toward one another; exerted psychological pressure upon them; excessively humiliated their person and honour; kept them hungry under conditions of cruel torture for prolonged periods; gave them a piece of unfit dry bread and a very small quantity of water in an iron container that had not been washed for months, so that they would not die; watched the time and required them to eat within one minute; took food away from those who failed to eat within the allotted time and then used physical force against them.

They exploited their labour, forcing them to work as slaves under unsanitary conditions and at jobs requiring heavy physical labour, particularly at industrial sites harmful to human life and health, namely at copper and gold mines at the Vezhnali deposit in the Zangilan District, the Soyudlu-Zod deposit in the Kalbajar District, the Gyzybulag deposit in the Aghdara District and other deposits; at stone quarries in the Fuzuli and Khojavend districts; at lime pits in the Aghdam District; in the demolition of houses, buildings, structures and facilities looted by them in populated localities situated in the districts occupied by them; in acts of vandalism against historical and cultural monuments; in the construction and repair of military units, farms and residential and non-residential buildings; in private homes as domestic servants; and as farm labourers on individual sections of farms.

They thereby subjected them to forced labour and cruelly exploited them, while knowingly creating conditions for infecting them with various infections.

For the purpose of turning prisoners of war into a means of anti-Azerbaijani ideological propaganda, that is, national hostility, they displayed them in a humiliated and insulted condition in Armenian populated localities, particularly in secondary schools, saying: **“Look, this is a Turk; this is your enemy.”**

For the purpose of intensifying feelings of hatred toward the Azerbaijani people, they promoted the demonstrative beating of prisoners of war and hostages by individual representatives of the civilian population, thereby fostering extreme hatred and hostility toward the Azerbaijani people within Armenian society.

For the purpose of obtaining information concerning state defence, security, the economy, politics and other spheres, they subjected them to unlawful interrogations accompanied by torture.

Page 34

Furthermore, for the purpose of concealing from the international delegation that had arrived in the zone of hostilities at that time, and from the international community, the traces of the crimes committed by them against Azerbaijanis, during the large-scale attack by the Armenian Armed Forces on the Kalbajar District of the Republic of Azerbaijan, on 01 April 1993, an order was transmitted from the **“GSM-7”** headquarters radio station in the Vardenis District of Armenia to the principal **“Uragan”** radio station in the Kalbajar zone of hostilities, for communication to all mobile radio stations in the region, to urgently kill and bury Azerbaijani citizens who had been taken prisoner or hostage, including elderly persons, women and children.

They slaughtered citizens of the Republic of Azerbaijan who had been captured or taken hostage as sacrificial offerings at the graves of members of the illegal armed formation of Armenian nationality and Armenian soldiers killed in combat, and on days commemorating the **“Armenian genocide”**; using cutting instruments, they severed their heads and various organs, particularly women’s mammary glands, men’s genital organs, their ears and noses; carved cross-shaped wounds on their chests; gouged out their eyes; removed their internal organs—the heart, liver, spleen and others; shot them at close range with firearms; strangled them; and burned them alive.

Among other things, they suspended them from trees, bound their hands behind their backs with wire and lit fires beneath their feet; hanged them with ropes from the ceilings of houses, trees and other places; crushed them by running over them with armoured combat vehicles, infantry fighting vehicles and other heavy armoured military equipment and vehicles.

They forced them to lie naked, face down, in the snow and poured cold water over them; held them for prolonged periods in rivers and sewage water to which corrosive chemicals had been added, in freezing weather and low-temperature conditions, as well as in large-capacity refrigeration units, thereby causing frostbite and erosion of their skin; tied them to the rear of moving vehicles and dragged them behind; deliberately denied them medical assistance and failed to care for the sick and wounded; infected them with tuberculosis, anthrax and various other diseases; and thereby caused dystrophy, that is, a condition arising from metabolic disorders in organs and tissues.

In this manner, they intentionally killed them; drove many prisoners of war and hostages to suicide; and, through regular beatings, torture and degradation of their dignity, caused them to commit suicide.

Thus, through torture and inhuman treatment at the places where they were held, they intentionally killed a total of **13 prisoners of war and hostages**, namely one of the 34 civilians taken hostage and 12 of the 65 prisoners of war taken captive, using more than one hundred methods of torture known to the investigation.

The remaining **86 persons**, including 33 hostages and 53 prisoners of war, were released in exchange for material benefits provided, as a result of measures taken by Azerbaijan through international organizations, as well as through the personal initiatives and connections of close relatives of the prisoners of war and hostages.

In connection with the implementation of collective decisions adopted and discussed with the participation of persons who were leaders of the armed formations of the criminal organization and of the armed formations constituting its structural subdivisions, which carried out unlawful activities in the territory of the Republic of Azerbaijan in contravention of domestic and international legal norms, with the support of the military-political leadership, including the Armed Forces and other armed formations of the Republic of Armenia, as well as with their direct material and technical support and support in the form of personnel, on the basis of their centralized command, oral and written directions, assignments and instructions, and under their strict control, and which were supplied with various types of weapons, ammunition, military equipment and other armaments, namely:

Harutyunyan Arayik Vladimirovich, born on 14 December 1973,

Page 35

born on 14 December 1973, who represented himself as the “President” of the unrecognized entity “Artsakh”;

Babayan Davit Klimovich, born on 05 April 1973, who represented himself as his “adviser”;

Ishkhanyan Davit Rubenovich, born on 27 December 1958, who had been a member of the “Dashnaktsutyun” party since 1989, including representing himself as a “member of parliament” and heading the “Dashnaktsutyun” faction of the unrecognized “National Assembly of Artsakh”;

Manukyan Davit Azatovich, born on 15 October 1971, who represented himself as “Deputy Commander of the Defence Army”;

Ghukasyan Arkadi Arshavirovich, born on 21 June 1957, who represented himself as the second “President” of the said criminal entity from 08 September 1997 to 07 September 2007;

Sahakyan Bako Sahakovich, born on 30 August 1960, who represented himself as the third “President” from 19 July 2007 to 21 May 2020;

Mnatsakanyan Lyova Genrikovich, born on 14 September 1965, who represented himself as “Minister of Defence” from 15 June 2015 to 14 December 2018;

and other leaders, as well as their direct criminal orders and instructions, knowingly violating the requirements of the ceasefire regime and the norms of international law along the notional line of contact between the troops of the Republic of Azerbaijan and Armenia agreed upon by the protocol signed on 08 May 1994, including the United Nations Convention of 04 December 1970 “against the Recruitment, Use, Financing and Training of Mercenaries,” the 2005 Warsaw Convention “on the Prevention of Terrorism,” and the Additional Protocol to that Convention adopted in 2015;

for the purpose of implementing the criminal plan encompassed by the common criminal intent of each member of the criminal organization, whose identities are unknown to the investigation, namely: continuing the national hatred and hostility fostered by them within Armenian society against Azerbaijanis; ensuring that the sovereign territories of the Republic of Azerbaijan occupied during the aggressive war initiated by them against Azerbaijan remained under occupation; keeping the Azerbaijani population in a permanent state of fear and panic and thereby preventing by all possible means its return to the places where it had previously lawfully resided; compelling the Republic of Azerbaijan to adopt a decision renouncing its sovereign territories in favour of Armenia; and, for that purpose, continuously subjecting to fire from various types of weapons the places of residence of the peaceful civilian population of Azerbaijan lawfully residing in its sovereign territories, along the line of contact with the territories occupied by them and also at considerable distances from it;

using methods of warfare capable of causing extensive destruction during an armed conflict through explosions and fires in the areas where they resided; causing widespread, long-term and serious damage to the environment; carrying out large-scale destruction not justified by military necessity; attacking undefended territories, populated localities and demilitarized zones; indiscriminately laying numerous mines and other explosive devices without any military necessity; depriving the Azerbaijani population of the rights to freedom of movement, and to healthy and safe residence in the territory of the country of which they were citizens, as well as of other fundamental rights;

thereby intentionally killing them with particular cruelty; committing genocide, terrorism and banditry on grounds of national and ethnic hatred and hostility, as well as in connection with

the performance of official duties and the fulfilment of public duty; persecuting them in contravention of the norms of international law; taking them prisoner and hostage; subjecting them to enforced disappearance; torturing them specifically because they were Azerbaijanis; recruiting for that purpose an even greater number of specially trained servicemen, including paid militants in return for specified remuneration; and pursuing other criminal purposes;

on **27 September 2020**, they initiated a new, large-scale phase of the aggressive war against the Republic of Azerbaijan.

Page 36

For the purpose of preparing for the war planned in advance, on **11 January 2013**, **Vartanov Vladimir (Vova) Levanovich** formed an illegal armed group within an organization called **VoMa** (“Voghj Mnalu Arvest” — “the art of staying alive”), namely a “reserve mountain-rifle battalion” not provided for by the legislation of the Republic of Azerbaijan.

Using internet resources, including the websites “www.voma.am,” “www.vk.com/voma-official,” “www.facebook.com/vomacenter/,” “www.voma.center,” “www.youtube.com/channel/UCDtZm9GdMGeDt3C5n-1UX.w,” and “www.instagram.com/voma.center,” as well as his other connections, he began recruiting into that group citizens of the United States of America, France, the Kingdom of Sweden, the Kingdom of Belgium, the Kingdom of Spain, Israel, the United Arab Emirates, Lebanon, the Syrian Arab Republic, the Russian Federation, the Republic of Belarus, Georgia, Greece, Canada and other countries, who were natives of Armenia, as well as other persons and members of various terrorist organizations.

He arranged for them to arrive, as part of the criminal formation, during the period from 2013 to 2020, from the territory of the Republic of Armenia to the city of Khankendi, the Kalbajar District and other territories of the Republic of Azerbaijan.

Thereafter, through that organization, which for many years formed part of the criminal formation, and on the direct instructions and with the consent of the said officials of the unrecognized entity, territory was allocated for participation in exercises in the occupied territories of the cities of Shusha, Khankendi and Jabrayil and of the Fuzuli, Zangilan, Qubadli, Lachin, Kalbajar, Khojavend, Khojaly and Aghdam districts. They were also supplied with weapons and ammunition available in the military arsenal, and unlawful exercises were thereby conducted.

In addition, for the purpose of bringing more experienced fighters into the new phase of the aggressive war against the Republic of Azerbaijan—planned, prepared, initiated and conducted since the second half of the 1980s—which began at approximately 06:00 on **27 September 2020**, in late September and early October of that year they arranged for the following persons to arrive from the territory of the Republic of Armenia, through the Lachin corridor under their occupation, in the cities of Khankendi and Shusha, the Kalbajar and Khojavend districts and other populated localities:

Vartanov Vladimir (Vova) Levanovich, born on 10 December 1965, a citizen of the Republic of Armenia, a native of Yerevan, and head of the paramilitary organization “VoMa”;

as well as, pursuant to invitations from the leaders and members of the criminal formation:

Chakhalyan Vagan Rubenovich, a citizen of Georgia;

Artur Oganisyan, a citizen of the French Republic;

Zhilber Minas Minasyan, a member of the terrorist organization ASALA and a citizen of the French Republic;

Sipan Muradyan, a native of the city of Aleppo in the Syrian Arab Republic, residing in the city of Bordeaux in the French Republic, and a citizen of the French Republic;

Martoyan Armen Gamletovich, nicknamed “Samvel,” a citizen of the Russian Federation and head of the organization “Union of Veterans of the Consolidated Regiment of the People’s Militia of the Republic of Crimea”;

Ardash Oksuzyan, a citizen of the Russian Federation residing in the city of Sochi, Russian Federation;

Eduard Sahakyan, a citizen of the Russian Federation residing in the Gali District of Abkhazia, Georgia;

citizens of the Russian Federation residing in Abkhazia: **Eksuzyan Andrey**

Epromovich and **Tarezonyan Galust Parnakovich**, who had served as scouts in the Abkhaz reconnaissance unit “Ibris” and resided in the city of Sukhumi in the same region;

Garegin Khalajyan, nicknamed “Garik”;

Garo Karapetyan;

Ruslan Peklivanyan;

Kodzhamanyan Seyran Ardashevich;

Rastorguev Viktor Alexandrovich, a former reserve officer of the Ministry of Internal Affairs of the Russian Federation and head of the legal department of the Cossack association known as “Stanitsa Admiralteyskaya,” a citizen of the Russian Federation;

Alexander Anakhasan, a citizen of the Russian Federation residing in the city of Sochi, Russian Federation;

Page 37

Tonoyan Davit Samvelovich, a citizen of the Russian Federation and Chairman of the “Armenian Museum and Culture of the Peoples” and the “Union of Russian Armenians”;

Akhmetvaleyev Rustem Zigfridovich, a former officer of the Ministry of Internal Affairs of the Russian Federation, a member of the “Black Panther” military group, a citizen of the Russian Federation residing in the city of Ufa, Russian Federation;

Biryukov Roman Andreyevich, a citizen of the Russian Federation residing in the city of Donetsk, Ukraine, and a member of the “Black Panther” military group;

Zuldzhekiyan Viken Abraham, a citizen of the Lebanese Republic residing in the city of Beirut, Lebanon;

Armen Knyazyan, a citizen of the Kingdom of Spain who maintained friendly relations with Harutyunyan Arayik Vladimirovich;

Sipan Kerogluyan, a citizen of the French Republic residing in Paris, France;

Herve Hrayr Keoroghlian, a citizen of the French Republic, a native of the city of Aleppo in the Syrian Arab Republic, residing in the city of Paris, French Republic;

Aren Osipov, a citizen of Greece;

Artur Oganisyan, a citizen of the French Republic;

Kristofer Artin, a citizen of Canada;

Gevorg Hajjyan, a citizen of the Lebanese Republic;

Stepan Keshishyan, a citizen of the Syrian Arab Republic;

Marc de Cacqueray-Valmenier, leader of the “Zouaves Paris” group (ZVP) of the French Republic, a native of Nanterre, France, and a citizen of the French Republic;

Artur Panoyan, a member of the “Dashnaktsutyun” party residing in the city of Aleppo in the Syrian Arab Republic and a citizen of the Syrian Arab Republic;

Akop Astardzhyan, a member of the “Dashnaktsutyun” party residing in the city of Aleppo in the Syrian Arab Republic and a citizen of the Syrian Arab Republic;

Mosik Seklemyan, a member of the “Dashnaktsutyun” party residing in the city of Aleppo in the Syrian Arab Republic and a citizen of the Syrian Arab Republic;

and, at the same time, members of the terrorist organization “**PKK-PYD-YPG**,” citizens of the Syrian Arab Republic and the Republic of Iraq:

Ali Abdulkerim Mahbuba—commander;

Rustam Faiz Gasim Atiya—commander;

Nuraddin Ahmed Banaz—commander;

Abdulsalam Abdulgaffur Fatima—commander;

Sardar Abdulvahid Nahliya—commander;

Ayman Barkad Amina—commander;

Imad Ali Bahar—commander;

Mahir Muhammad Zeynab—assistant commander;

Muhammadali Sheikho Amina, Huseyn Al-Ahmed Zahra, Shirzad Shamo Hajjar, Sadullah Kerim Jamila, Shahin Kerimi Sumeyya, Jalal Joudat Maryam, Mishel Butrus Maria, Azad Izettin Sara, Ibrahim Al-Huseyn Khadija, Abdulkерim Adil Fatima, Abas Adil Masuma, Muhammad Faraj Shahla, Ahmed Adnan Leyla, Burhan Shukur Hajjar, Akram Jalal Gulnaz, Alya Omar Shukriya, Anver Amin Basima, Latif Asad Roushan, Abdulaziz Rustam Nur, Azad Abas Amina, Jabbar Abdulsattar Aisha, Loman Burzo Manal, Abdo Kalo Rena, Alan Rasho Maryam, Basil Hami Nada, Huseyn Gencho Nazira, Labo Bavi Hajjar, Metin Hambarosh Hala, Mustafa Yusif Khayriya, Osman Darvish Ali, Haunaz Riyaz Risho, Yasmin Salah Sabir Asma, Shero Omar Vaffat, Arman Ahmed Kalsum, Yasmin Ismail Haifa and Ozel Alyaz Farahi;

as well as at least **2,000 citizens of foreign states** whose identities are unknown to the investigation.

Thereafter, they ensured the participation of those persons, whom they had recruited as mercenaries for the aggressive activities of the Armed Forces of the Republic of Armenia, as members of organized groups formed from stable armed formations, in military operations against Azerbaijan in the territory of the occupied Karabakh region and the adjacent territories, including the cities of Shusha, Khankendi, Aghdam and Jabrayil, and the Fuzuli, Zangilan, Qubadli, Lachin, Kalbajar, Khojavend, Khojaly and Aghdam districts.

Among the mercenaries, during military operations against the Republic of Azerbaijan, members of the terrorist organization “PKK-PYD-YPG” were deployed in the direction of the cities of Shusha and Khankendi; members of the paramilitary organization “VoMa” were deployed at strategic combat positions constructed in various villages of the Kalbajar District and in the village of Taghaverd and the settlement of Girmizi Bazar in the Khojavend District; and the remaining persons were deployed in directions unknown to the investigation.

They were armed with firearms—Kalashnikov-pattern assault rifles of 7.62-mm and 5.45-mm calibre—as well as other types of assault rifles of various calibres, grenade launchers and their components, various types of ammunition, explosives, explosive devices and other weapons,

Page 38

after which they took an active part during the period from September 2020 to 10 November 2020 and in the subsequent period.

In accordance with the criminal plan of the criminal formation, prepared pursuant to their common criminal intent and objectives, they grossly violated the requirements of the Convention of 04 December 1970 against the Recruitment, Use, Financing and Training of Mercenaries; the United Nations International Convention of 09 December 1999 for the Suppression of the Financing of Terrorism; the Warsaw Convention of 16 May 2005 on the Prevention of Terrorism; the Geneva Convention of 12 August 1949 relative to the Protection of Civilian Persons in Time of War; the Fourth Hague Convention of 18 October 1907 respecting the Laws and Customs of War on Land and the Regulations annexed thereto; the provisions of other international conventions; and the requirements of the Constitution and laws of the Republic of Azerbaijan.

They also created mined areas and lines of contact, accompanied by violations of the property rights of the state, municipalities and the Azerbaijani population forcibly displaced from the region as a result of the occupation, and contributing to the obstruction of their return to their native lands.

They established sectors of activity whose principal lines of activity were agriculture, the extraction of mineral raw materials, the production of energy—hydropower—and so forth, through the plundering of natural resources belonging to the Republic of Azerbaijan.

Furthermore, without obtaining any consent from the competent authorities of the Republic of Azerbaijan and without state registration, they organized the involvement in the territories occupied by them both of companies belonging to the Republic of Armenia and maintaining constant contact with the governing structures of the unrecognized entity, and of “companies of various companies” [sic], as well as the unlawful plundering and exploitation of movable and immovable property belonging to Azerbaijan and to its individuals and legal entities.

Thus, in accordance with their common criminal objective and common criminal intent, during the period from **2009 to 2017**, the aforementioned leaders of the criminal organization and other persons, together with:

Vartan Sirmakes, co-founder and General Executive Director of **Franck Muller Group**, financial investor in **Vallex Group**, and head of the closed joint-stock company **Gold Star**, registered in the city of Minusinsk, Republic of Khakassia, Russian Federation;

Valery Mezhlumyan, a citizen of the Republic of Armenia and head of the **Vallex Group** group of companies established in the Republic of Armenia;

Artur Ashotovich Mkrtumyan, a citizen of the Republic of Armenia and Executive Director of **Base Metals**, established as part of the Vallex Group group of companies;

and others, entered into a criminal association in the form of an organized group constituting part of the criminal formation.

During the specified period, they jointly visited the territories of the Republic of Azerbaijan occupied by them, including the territories of Khankendi and the Lachin, Kalbajar, Zangilan and other districts.

In those territories, in violation of Article 2 of Law No. 405 of 15 December 1992 “On Entrepreneurial Activity” and Article 4 of Law No. 560-IIQ of 12 December 2003 of the Republic of Azerbaijan “On State Registration and the State Register of Legal Entities,” without completing state registration in the manner prescribed by law and without registering for tax purposes as taxpayers, they carried out unlawful excavation of mineral resources from gold-pyrite and gold-sulphide-quartz deposits situated in the aforementioned territories under their occupation, including by performing unlawful extraction work using geochemical, drilling and mining methods, which was carried out...

Page 39

by the closed joint-stock company **Gold Star**, which was managed and financed by **Vartan Sirmakes**. During the period from 2009 to 2016, they carried out unlawful entrepreneurial

activity and caused material damage in the amount of **139,597,040.9 manats** through the extraction of 1,405 kilograms of gold; **2,400,771.5 manats** through the unlawful extraction of 1,553.8 tonnes of white silver; and **7,776,184.3 manats** through the unlawful extraction of 489.4 tonnes of copper.

Accordingly, material damage in the total amount of **149,773,996.7 manats** was caused in respect of the **Vezhnali deposit**.

Furthermore, through the activities of **Base Metals**, a company forming part of the **Vallex Group** group of companies, involving the unlawful extraction at the **Gyzylbulag** gold-copper-pyrite deposit situated in the village of Heyvali, Kalbajar District, using the aforementioned methods, during the period from 2009 to 2011, they carried out unlawful entrepreneurial activity and caused material damage in the amount of:

761,083,100 manats through the extraction of 47,900 tonnes of copper;

4,898,000 manats through the extraction of 274,400 tonnes of sulphur;

1,103,400 manats through the extraction of 18.03 tonnes of selenium;

79,500 manats through the extraction of 0.85 tonnes of tellurium;

1,361,005,900 manats through the extraction of 13.7 tonnes of gold; and

29,166,500 manats through the extraction of 18.9 tonnes of silver,

thereby causing material damage in the total amount of **2,157,336,501 manats**.

Furthermore, after the exploitation and depletion of the Gyzybulag deposit, through unlawful extraction operations at the deposit of the same name situated on an area of 740 hectares in the village of Demirli, Tartar District—the said village having formed part of the Aghdara District from 13 October 1992 to 05 December 2023—using the aforementioned methods, during the period from 2011 to 2017, they carried out unlawful entrepreneurial activity and caused material damage in the amount of:

69,540,450 manats through the extraction of 700 kilograms of gold;

24,691,200 manats through the extraction of 16 tonnes of silver;

1,954,347,000 manats through the extraction of 123,000 tonnes of copper; and

136,000,000 manats through the extraction of 2.5 tonnes of molybdenum,

thereby causing material damage in the total amount of **2,184,578,650 manats**.

Accordingly, the total amount in respect of the Vezhnali, Gyzybulag and Demirli deposits was **6,499,251,652 manats**.

In addition, acting in accordance with the same criminal objectives and intent, the said leaders of the criminal organization and other persons, through **Franck Muller Group**, of

which Vartan Sirmakes was co-founder and General Executive Director, used gold jewellery during the period from 2009 to 2017 as raw material for the preparation of gold jewellery obtained as a result of the aforementioned unlawful extraction carried out on the lands occupied by them and owned by the Republic of Azerbaijan.

They thereby unlawfully obtained and caused material damage in the amount of **6,602,059.4 manats** in the sphere of the production and sale of watches without state registration in the occupied territories of the Republic of Azerbaijan, thereby carrying out unlawful entrepreneurial activity.

In addition, acting in accordance with the same criminal objectives and intent, the said leaders of the criminal organization and other persons, under the direction of Vartan Sirmakes and other aforementioned persons, carried out the unlawful production of caviar in aquatic pools situated near the village of

Page 40

Sugovushan, Tartar District—the said village having formed part of the Aghdara District from 13 October 1992 to 05 December 2023—during the period from 2009 to 2016, thereby causing material damage in the amount of **236,904.1 manats** and carrying out unlawful entrepreneurial activity.

In addition, acting in accordance with the same criminal objectives and intent, during the period from 1996 to 2020, the said leaders of the criminal organization and other persons carried out financial operations on the lands occupied by them and owned by the Republic of Azerbaijan on behalf of the closed joint-stock company **Artsakhbank**, a common shareholder of which was Vartan Sirmakes.

The company had been established on 12 February 1996 and operated through 11 branches without state registration in the settlement of Hadrut, the city of Shusha and other occupied territories.

They thereby obtained unlawful profit and caused material damage in the amount of **116,972,785.4 manats**, thus carrying out unlawful entrepreneurial activity.

In addition, acting in accordance with the same criminal objectives and intent, during the period from 2009 to 2016, the said leaders of the criminal organization and other persons, on the lands occupied by them and owned by the Republic of Azerbaijan, engaged in the unlawful generation of electricity from the reservoir belonging to the closed joint-stock company **Artsakh HPP**—the Artsakh Hydro-Electric Power Company—established on 01 November 2007, whose financial investor was Vartan Sirmakes.

The reservoir was situated at the confluence of the rivers Hakari and Zabukhchay in the Lachin District, had a capacity of 12 million cubic metres, and had a hydroelectric power station constructed upon it with a generating capacity of 830 million kWh of electricity.

The shares of that company and of several smaller hydroelectric power stations constructed on rivers flowing through the territories of the Lachin, Qubadli, Zangilan and Tartar districts under their occupation belonged to the criminal formation.

They thereby obtained unlawful profit on an especially large scale in the amount of **1,997,681.53 manats**.

Thus, the criminal formation carried out unlawful entrepreneurial activity:

in the total amount of **6,499,251,652 manats** in respect of the Vezhnali, Gyzybulag and Demirli deposits;

in the amount of **6,602,059.4 manats** in the sphere of the sale of gold jewellery using the raw material—gold—obtained;

in the amount of **236,904.1 manats** through the production of caviar;

in the amount of **116,972,785.4 manats** through financial operations on behalf of the closed joint-stock company Artsakhbank; and

in the amount of **1,997,681.53 manats** through the unlawful generation of electricity by the closed joint-stock company Artsakh HPP;

that is, in the total amount of **6,625,061,082.43 manats**.

They thereby caused the Republic of Azerbaijan material damage on an especially large scale and distributed the said unlawfully obtained profit among the criminal formation. They also spent part of that profit on the formation, maintenance and socio-economic strengthening of the criminal formation; the acquisition of weapons and ammunition; the maintenance of mercenaries; the unlawful resettlement of persons of Armenian origin residing in foreign states to the Karabakh region; and the implementation of other similar criminal plans, while financing the aforementioned consequences of terrorism and the aggressive war.

In addition, acting in accordance with the same criminal objectives and intent, during the period of occupation, on the lands occupied by them and owned by the Republic of Azerbaijan, the said leaders of the criminal organization and other persons also caused damage in the sphere of agriculture, including crop cultivation, animal husbandry, agricultural livestock and bee colonies.

Thus, they caused material damage in the amount of **7,318,240,000 manats** to crop-cultivation and animal-husbandry products during the period...

Page 41

from 1991 to 1993, during the occupation of the territories of Karabakh and the adjacent regions, as well as territories situated along the notional border with Armenia.

More specifically, the economic damage relating to the production of crop products, calculated in accordance with the overall growth rate of crop production—including grain and leguminous crops, cotton, tobacco, potatoes, vegetables, melons and gourds, fruits and berries, as well as grapes—and livestock products, including meat, dairy products and eggs, that is, in accordance with the overall growth rate of production during the period of occupation, amounted to:

707,220,000 manats in the Aghdam District;
548,770,000 manats in the Fuzuli District;
235,820,000 manats in the Jabrayil District;
6,950,000 manats in the Kalbajar District;
84,130,000 manats in the Qubadli District;
31,320,000 manats in the Lachin District;
97,020,000 manats in the Zangilan District; and
2,276,700,000 manats in other territories of the Karabakh region of Azerbaijan;
for a total of **3,987,934,000 manats**.

The economic damage relating to the production of livestock products amounted to:

483,400,000 manats in the Aghdam District;
292,200,000 manats in the Jabrayil District;
371,400,000 manats in the Fuzuli District;
302,800,000 manats in the Kalbajar District;
180,500,000 manats in the Qubadli District;
303,700,000 manats in the Lachin District;
159,900,000 manats in the Zangilan District; and
1,236,400,000 manats in other territories of the Karabakh region of Azerbaijan;
for a total of **3,330,306,000 manats**.

In addition, during the period of occupation, they caused the Republic of Azerbaijan material damage in the sphere of agriculture in an amount of at least **7,637,757,920 manats**, including **319,517,920 manats** in respect of agricultural livestock and beekeeping, by unlawfully seizing, as a result of the aggressive war:

24,330 head in the Aghdam District, 22,441 in the Jabrayil District, 24,518 in the Fuzuli District, 24,770 in the Kalbajar District, 16,298 in the Qubadli District, 25,863 in the Lachin District and 15,856 in the Zangilan District, for a total of **154,076 head of cattle**;

44,223 head in the Aghdam District, 93,505 in the Jabrayil District, 67,701 in the Fuzuli District, 70,995 in the Kalbajar District, 24,061 in the Qubadli District, 109,292 in the Lachin District and 33,777 in the Zangilan District, for a total of **443,554 head of small livestock**;

328 horses in the Aghdam District, 494 in the Jabrayil District, 559 in the Fuzuli District, 1,070 in the Kalbajar District, 256 in the Qubadli District, 1,122 in the Lachin District and 283 in the Zangilan District, for a total of **4,112 horses**; and

85 bee colonies in the Aghdam District, 2,453 in the Kalbajar District, 4,039 in the Lachin District and 120 in the Zangilan District, for a total of **6,697 bee colonies**.

Alongside the activities of the aforementioned group of companies—**Base Metals, Franck Muller Group and Vallex Group**—having ensured unlawful economic activity in the sovereign territories of the Republic of Azerbaijan and achieved the objective serving their common criminal intent, they unlawfully exploited above-ground and underground resources.

These included a total of **167 deposits of mineral raw materials** registered in the state and local balance sheets, of which 128 consisted of non-ore minerals and construction materials, 13 were ore deposits, and 26 consisted of underground drinking, mineral and thermal-mineral waters.

They also exploited exhaustible but non-renewable ores of ferrous, non-ferrous and precious metals; rare metals and trace elements; ores used as raw materials for the chemical industry; refractory raw materials for metallurgy; construction materials; thermal-mineral waters; and other natural resources at a total of 46 deposits, of which seven were ore deposits and 39 were non-ore deposits.

During the period from 1993 to 2020, while they kept the territories of the Karabakh region and the adjacent territories, as well as territories situated along the notional border with Armenia, under occupation, they unlawfully extracted non-ore mineral resources, including:

from one deposit in the Shusha District, in the amount of **70,000 manats**; and

from two deposits in the Zangilan District, in the amount of **345,590 manats**;

Page 42

from six deposits in the Aghdam District, in the amount of **20,384,934 manats**;

from one deposit in the Qubadli District, in the amount of **3,010,000 manats**;

from three deposits in the Tartar (Aghdara) District, in the amount of **22,036,000 manats**;

from six deposits in the Jabrayil District, in the amount of **7,916,100 manats**;

from two deposits in the Fuzuli District, in the amount of **2,087,500 manats**;

from four deposits in the Kalbajar District, in the amount of **18,454,400 manats**;

from two deposits in the Lachin District, in the amount of **1,640,900 manats**; and

from 10 deposits in the Khojavend, Khojaly and Aghdara districts, in the amount of **16,831,278 manats**;

for a total of **92,776,702 manats**.

They unlawfully extracted ore mineral resources:

from one deposit in the Zangilan District, in the amount of **149,773,996 manats**;

from one deposit in the Tartar (Aghdara) District, in the amount of **2,184,578,650 manats**;
and

from five deposits in the Kalbajar District, in the amount of **6,718,079,210 manats**;

for a total of **9,052,431,856 manats**.

In respect of thermal-mineral waters, the damage amounted to:

5,518,800 manats for one deposit in the Shusha District;

432,862,853 manats for two deposits in the Kalbajar District; and

1,671,840 manats for one deposit in the Lachin District;

for a total of **440,053,493 manats**.

When recalculated on the basis of minimum figures using international coefficients, this means that they caused the Republic of Azerbaijan material damage in an amount of at least **9,585,262,051 manats** in respect of non-ore and ore mineral resources and thermal-mineral waters.

As economic damage caused during the period from 1993 to 2023 at hydroelectric power stations operating in the sovereign territories of the Republic of Azerbaijan which had remained under their occupation during the aggressive war, the damage in the energy—hydropower—sector amounted to:

111,023,400 manats in respect of the **Sarsang Hydroelectric Power Station**, constructed on the Tartar River, including **1,997,681.53 manats**; and

397,325,000 manats in respect of the **Khudafarin** and **Giz Galasi** hydroelectric power stations, constructed on the Araz River.

Thus, by carrying out unlawful economic activity in the sphere of hydroelectric-power generation, they caused the Republic of Azerbaijan material damage in this sphere in an amount of at least **508,348,400 manats**.

In addition to the foregoing, acting in accordance with the same criminal objectives and intent, during the period of occupation, on the lands occupied by them and owned by the Republic of Azerbaijan, the said leaders of the criminal organization and other persons engaged individual companies and carried out unlawful economic activity in retail trade, public-catering turnover, the volume of industrial production and other spheres.

They thereby caused the Republic of Azerbaijan material damage in those spheres during the period from 1993 to 2023 in an amount of at least **3,140,642,270 manats**.

Thus, the members of the armed formations of the criminal organization and of the armed formations constituting its structural subdivision, which carried out unlawful activities in the territory of the Republic of Azerbaijan in contravention of domestic and international legal norms, with the support of the military-political leadership, including the Armed Forces and other armed formations of the Republic of Armenia, as well as with their direct material and technical support and support in the form of personnel, on the basis of their centralized command, oral and written directions, assignments and instructions, and under their strict control, and which were supplied with various types of weapons, ammunition, military equipment and other armaments;

through the aforementioned individuals and legal entities, as well as other individuals and legal entities whose names and designations are unknown to the investigation and which belonged to the criminal organization;

during the period from 1992 to 2023, as a result of unlawful economic activity carried out in the city of Khankendi and in the Shusha, Aghdam, Qubadli, Zangilan, Jabrayil, Fuzuli, Kalbajar, Lachin, Khojavend, Khojaly and Tartar districts...

Page 43

and Tartar (Aghdara) and Aghdara districts, which are sovereign territories of the Republic of Azerbaijan, including the profit obtained through the unlawful exploitation of resources belonging to the Republic of Azerbaijan, they caused material damage in the total amount of **20,995,822,389.9 manats**, namely:

7,637,757,920 manats in the sphere of agriculture during the period from 1992 to 2022;

9,585,262,051 manats through the extraction of mineral raw materials during the period from 1993 to 2020;

508,348,400 manats through the generation of energy—electricity—during the period from 1993 to 2023;

3,140,642,270 manats in retail trade, public-catering turnover, the volume of industrial production and other spheres of activity during the period from 1993 to 2023;

6,602,059.4 manats through the unlawful activities of **Franck Muller Group** during the period from 2009 to 2017;

236,904.1 manats through activities involving the unlawful production of caviar during the period from 2009 to 2016; and

116,972,785.4 manats through unlawful financial operations carried out by the closed joint-stock company **Artsakhbank** during the period from 1996 to 2020.

They used the profit obtained to cover expenses connected with the aggressive war planned and initiated during the said period against Azerbaijan in the territory of the Karabakh region

and the adjacent territories of the Republic of Azerbaijan; terrorist and other criminal activities; the payment of wages to members of illegal criminal formations and servicemen serving under contract; the financing of armed formations formed by them from criminal armed groups; mercenaries whom they recruited from foreign countries in exchange for material and other benefits; their assembly and training; the formation of the Armed Forces of the Republic of Armenia; the acquisition of military and various types of firearms, their components, ammunition, explosives and explosive devices with which they supplied those armed forces and criminal formations; participation in military operations forming part of the aggressive war against Azerbaijan; and thereby the improvement of the combat skills of Armenian formations constituting part of the criminal formation.

They also used those funds for the unlawful resettlement of civilians and servicemen from Lebanon, Syria and other states, as well as from Armenia, to the sovereign territories of the Republic of Azerbaijan occupied by them; the financing of terrorism; and other personal interests.

The members of the armed formations of the criminal organization and of the armed formations constituting its structural subdivision, which carried out unlawful activities in the territory of the Republic of Azerbaijan in contravention of domestic and international legal norms, with the support of the military-political leadership, including the Armed Forces and other armed formations of the Republic of Armenia, as well as with their direct material and technical support and support in the form of personnel, on the basis of their centralized command, oral and written directions, assignments and instructions, and under their strict control, and which were supplied with various types of weapons, ammunition, military equipment and other armaments;

together with other persons whose identities have not been precisely established by the investigation, and under the direct leadership of the aforementioned leaders of the criminal organization, implemented the criminal plan encompassed by the common criminal intent of each member of the criminal organization.

For the purpose of perpetuating within Armenian society the national hatred and hostility against Azerbaijanis, they knowingly caused long-term damage on an especially large scale to the forest fund, which is regarded as essential to the livelihood of the population in the sovereign territories of the Republic of Azerbaijan occupied by them; vegetation not forming part of the forest fund; rare plants regarded as natural monuments and especially valuable forest areas; agricultural land; water basins and reservoirs; mineral springs; and the environment in other ways during the aggressive war against Azerbaijan.

In doing so, they violated the requirements of internal norms and rules and of international law, including the requirement set out in Principle 5 of the annex to the

Page 44

United Nations **World Charter for Nature**, according to which “Nature shall be secured against degradation caused by warfare or other hostile activities”; Article 1 of the United Nations Convention of 10 December 1976 on the Prohibition of Military or Any Other Hostile Use of Environmental Modification Techniques, according to which “Each State Party undertakes not to engage in military or any other hostile use of environmental modification techniques having widespread, long-lasting or severe effects. States Parties

undertake not to assist, encourage or induce any other subject of international law to engage in such activities”; Article 35 of Additional Protocol I of 08 June 1977 to the Geneva Convention of 12 August 1949 relative to the Protection of Victims of War, according to which “In any armed conflict, the right of the parties to the conflict to choose methods or means of warfare is not unlimited. It is prohibited to employ weapons, projectiles and material and methods of warfare of a nature to cause superfluous injury or unnecessary suffering. It is prohibited to employ methods or means of warfare which are intended, or may be expected, to cause widespread, long-term and severe damage to the natural environment”; and Article 55 of that Protocol, according to which “Care shall be taken in warfare to protect the natural environment against widespread, long-term and severe damage. Such protection includes a prohibition of the use of methods or means of warfare which are intended, or may be expected, to cause such damage to the natural environment and thereby to prejudice the health or survival of the population.”

They caused damage on an especially large scale during the period from the beginning of 1990 to 20 September 2023, in the course of the aggressive war against Azerbaijan.

Thus, during the period from the beginning of 1990 to 20 September 2023, while they kept the territories of the Republic of Azerbaijan under occupation, they unlawfully cut down or deliberately burned and destroyed perennial trees, shrubs of various types and diameters, and other vegetation rooted in the forest fund in the territories of the Republic of Azerbaijan.

In the **Aghdam District**, they destroyed a portion of **1,248 hectares** of a total area of **4,743 hectares**, including **4,733 hectares of dense forest**, namely:

52,948.4 cubic metres of timber, valued at **2,773,560.33 manats**; and

42,872.8 cubic metres of firewood, valued at **120,855.81 manats**.

Accordingly, at the tariff price established for goods that meet the principal consumer requirements set by government authorities in accordance with the previous and current periods, the total volume of timber was **95,821.1 cubic metres**, with a total value of **2,894,416.13 manats**.

They also unlawfully cut down rooted perennial trees and shrubs of various types and diameters valued at **3,829,411 manats**, and destroyed natural regeneration valued at **6,022,280 manats**, thereby causing the said district corresponding material damage in the total amount of **12,746,107.13 manats**.

In the **Jabrayil District**, they destroyed a portion of **2,319.7 hectares** of a total area of **4,629 hectares**, including **2,497 hectares of dense forest**, namely:

73,503.2 cubic metres of timber, valued at **3,057,019.63 manats**; and

66,152.2 cubic metres of firewood, valued at **211,436.92 manats**.

Accordingly, at the tariff price, the total volume of timber was **139,655.4 cubic metres**, with a total value of **3,268,456.54 manats**.

They also unlawfully cut down rooted perennial trees and shrubs of various types and diameters valued at **5,556,671 manats**, and destroyed natural regeneration valued at **10,250,680 manats**, thereby causing the said district corresponding material damage in the total amount of **19,075,807.54 manats**.

In the **Khojaly District**, they destroyed a portion of **4,661 hectares** of a total area of **47,043 hectares**, including **41,769 hectares of dense forest**, namely:

347,402.9 cubic metres of timber, valued at **15,859,996.45 manats**; and

288,593.6 cubic metres of firewood, valued at **951,216.94 manats**.

Accordingly, at the tariff price, the total volume of timber was **635,996.5 cubic metres**, with a total value of **16,811,213.39 manats**.

They also unlawfully cut down perennial trees...

Page 45

and rooted shrubs of various species and diameters, valued at **20,522,201 manats**, and destroyed natural regeneration valued at **18,242,400 manats**.

In particular, on **31 August 2022**, by issuing oral instructions to persons of Armenian origin resettled in the Khojaly District, they unlawfully cut down and destroyed by arson:

24 oak trees;

10 apple trees;

six cherry-plum trees;

10 pear trees;

one blackthorn tree; and

51 blackberry bushes;

that is, a total of **102 trees, shrubs and other plants of various species and diameters** forming part of the said forest fund in the territory of the village of Chanagchi, Khojaly District, which was under their occupation.

They thereby caused corresponding material damage to that district in the total amount of **55,575,814.39 manats**
(**16,811,213.39 + 20,522,201 + 18,242,400**).

In the **Khojavend District**, they destroyed a portion of **3,537.4 hectares** of a total area of **22,428 hectares**, including **20,403 hectares of dense forest**, namely:

208,811.7 cubic metres of timber, valued at **8,777,276.06 manats**; and

188,647.2 cubic metres of firewood, valued at 604,671.28 manats.

Accordingly, at the tariff price, the total volume of wood was **397,458.9 cubic metres**, with a total value of **9,381,947.34 manats** (**8,777,276.06 + 604,671.28**).

They also unlawfully cut down rooted perennial trees and shrubs of various species and diameters valued at **15,228,110 manats**, and destroyed natural regeneration valued at **15,756,400 manats**, thereby causing corresponding material damage to that district in the total amount of **40,366,457.34 manats** (**9,381,947.34 + 15,228,110 + 15,756,400**).

In the **Kalbajar District**, they destroyed a portion of **16,524 hectares** of a total area of **80,019 hectares**, including **73,468 hectares of dense forest**, namely:

1,090,177.1 cubic metres of timber, valued at **48,144,060.23 manats**; and

873,676.4 cubic metres of firewood, valued at **2,841,154.03 manats**.

Accordingly, at the tariff price, the total volume of wood was **1,963,853.4 cubic metres**, with a total value of **50,985,214.26 manats** (**48,144,060.23 + 2,841,154.03**).

They also unlawfully cut down rooted perennial trees and shrubs of various species and diameters valued at **44,628,775 manats**, and destroyed natural regeneration valued at **72,045,600 manats**, thereby causing corresponding material damage to that district in the total amount of **167,659,589.26 manats** (**50,985,214.26 + 44,628,775 + 72,045,600**).

In the **Lachin District**, they destroyed a portion of **9,565.3 hectares** of a total area of **32,096 hectares**, including **26,793 hectares of dense forest**, namely:

671,650.4 cubic metres of timber, valued at **29,845,204.27 manats**; and

582,585.4 cubic metres of firewood, valued at **1,886,118.19 manats**.

Accordingly, at the tariff price, the total volume of wood was **1,254,235.8 cubic metres**, with a total value of **31,731,322.47 manats** (**29,845,204.27 + 1,886,118.19**).

They also unlawfully cut down rooted perennial trees and shrubs of various species and diameters valued at **38,261,808 manats**, and destroyed natural regeneration valued at **42,069,720 manats**.

In particular, during the period allocated for the complete, unconditional and unhindered withdrawal of the Armenian Armed Forces from the territories of the Republic of Azerbaijan liberated from occupation, as stipulated in paragraph 4 of the Statement of 10 November 2020 by the President of the Republic of Azerbaijan, the Prime Minister of the Republic of Armenia and the President of the Russian Federation—including the territory of the Lachin District, which, pursuant to paragraph 6 of the same Statement, was to be returned by 01

December 2020—and for the transfer of the said territories to the Republic of Azerbaijan, that is, during the period from **10 November 2020 to 26 August 2022**, they intentionally obstructed or otherwise delayed the transfer of the territories that were to be transferred to the Republic of Azerbaijan.

Continuing thereby to commit criminal acts in the sovereign territory of the Republic of Azerbaijan, with the intention of causing serious harm to the country's economic security, they issued oral instructions to persons of Armenian origin unlawfully resettled in the Lachin District.

In the first half of August 2022, those persons unlawfully cut down and destroyed by arson:

212 acacia trees of various diameters forming part of the said forest fund in the territory of the city of Lachin;

12 mulberry trees;

15 walnut trees;

three willow trees; and

Page 46

Five poplar trees of various diameters forming part of the said forest fund in the territory of the village of Sus, Lachin District;

5,055 acacia trees;

40 walnut trees;

585 juniper trees;

35 oak trees;

55 willow trees;

65 maple trees;

1,305 hornbeam trees;

120 smoke-tree shrubs; and

220 blackberry bushes of various diameters,

which formed part of the said forest fund on the right and left sides of the road leading from the city of Lachin to the corridor.

They thereby caused corresponding material damage to the Lachin District in the total amount of **112,062,850.47 manats** (**31,731,322.47 + 38,261,808 + 42,069,720**).

In the **Shusha District**, they destroyed a portion of **2,972.8 hectares** of a total area of **8,526 hectares**, including **8,250 hectares of dense forest**, namely:

65,541.6 cubic metres of timber, valued at **2,843,396.81 manats**; and

56,390.5 cubic metres of firewood, valued at **184,137.47 manats**.

Accordingly, at the tariff price, the total volume of wood was **121,932 cubic metres**, with a total value of **3,027,534.28 manats**
(**2,843,396.81 + 184,137.47**).

They also unlawfully cut down rooted perennial trees and shrubs of various species and diameters valued at **4,370,974 manats**, and destroyed natural regeneration valued at **12,909,600 manats**, thereby causing corresponding material damage to that district in the total amount of **20,308,108.28 manats**
(**3,027,534.28 + 4,370,974 + 12,909,600**).

In the territory of the city of **Aghdara** and 22 villages of the Aghdara District occupied by them—the district having been abolished by Resolution No. 327 of the Milli Majlis of the Republic of Azerbaijan dated 13 October 1992 and incorporated into the Tartar District—they destroyed a portion of **1,799 hectares** of a total area of **33,224 hectares**, including **28,459 hectares of dense forest**, namely:

171,115 cubic metres of timber, valued at **6,652,366.06 manats**; and

145,941 cubic metres of firewood, valued at **482,221.61 manats**.

Accordingly, at the tariff price, the total volume of wood was **317,056 cubic metres**, with a total value of **7,134,587.68 manats**
(**6,652,366.06 + 482,221.61**).

They also unlawfully cut down rooted perennial trees and shrubs of various species and diameters valued at **9,143,266 manats**, and destroyed natural regeneration valued at **11,088,000 manats**, thereby causing corresponding material damage to that district in the total amount of **27,365,853.68 manats**
(**7,134,587.68 + 9,143,266 + 11,088,000**).

In the **Zangilan District**, they destroyed a portion of **5,458.7 hectares** of a total area of **13,485 hectares**, including **11,690 hectares of dense forest**, namely:

238,017.5 cubic metres of timber, valued at **9,773,560.79 manats**; and

215,950.8 cubic metres of firewood, valued at **693,664.3 manats**.

Accordingly, at the tariff price, the total volume of wood was **453,968.3 cubic metres**, with a total value of **10,467,225.09 manats**
(**9,773,560.79 + 693,664.3**).

They also unlawfully cut down rooted perennial trees and shrubs of various species and diameters valued at **16,155,197 manats**, and destroyed natural regeneration valued

at **23,953,600 manats**, thereby causing corresponding material damage to that district in the total amount of **50,576,022.09 manats**
(**10,467,225.09 + 16,155,197 + 23,953,600**).

In the **Fuzuli District**, they destroyed a portion of **two hectares** of a total area of **124 hectares**, including **108 hectares of dense forest**, namely:

96 cubic metres of timber, valued at **4,705.51 manats**; and

78.52 cubic metres of firewood, valued at **237.34 manats**.

Accordingly, at the tariff price, the total volume of wood was **174.52 cubic metres**, with a total value of **4,942.85 manats**
(**4,705.51 + 237.34**).

They also unlawfully cut down rooted perennial trees and shrubs of various species and diameters valued at **6,114 manats**, and destroyed natural regeneration valued at **8,800 manats**, thereby causing corresponding material damage to that district in the total amount of **19,856.85 manats**
(**4,942.85 + 6,114 + 8,800**).

In the **Qubadli District**, they destroyed a portion of **6,240 hectares** of a total area of **13,994 hectares**, including **10,624 hectares of dense forest**, namely:

258,036.9 cubic metres of timber, valued at **10,608,936.6 manats**; and

234,138.9 cubic metres of firewood, valued at **752,292.02 manats**.

Accordingly, at the tariff price, the total volume of wood was **492,175.8 cubic metres**, with a total value of **11,361,228.6 manats**
(**10,608,936.6 + 752,292.02**).

They also unlawfully cut down rooted perennial trees and shrubs of various species and diameters valued at **17,466,528 manats**, and destroyed natural regeneration valued at **27,422,560 manats**...

Page 47

manats, thereby causing corresponding material damage to that district in the total amount of **56,250,316.6 manats**
(**11,361,228.6 + 17,466,528 + 27,422,560**).

Furthermore, as a result of the impact and explosion of shells fired deliberately by them from heavy artillery weapons from territories under their occupation, on **26 October 2020 at approximately 00:30**, in Patrol Area No. 6 of the Dastafur Forestry, and on **02 November 2020 at approximately 19:30**, in Patrol Area No. 8 of the Emirvar Forestry of the Shamkir Regional Forestry Centre of the Forest Development Service under the Ministry of Ecology and Natural Resources of the Republic of Azerbaijan, which was under the control of the Republic of Azerbaijan, they caused fires in Sections 55 and 38 on dense-forest land forming

part of the forest fund, covering a total area of **seven hectares**, namely four hectares and three hectares respectively.

As a result, by destroying rooted perennial trees and shrubs of various species and diameters, they caused material damage in the amount of **1,131.52 manats** in Section 55 and **941.88 manats** in Section 38, for a total of **2,073.4 manats**.

Thus, in the districts occupied by them, they destroyed a portion of **54,327.9 hectares** of a total area of **260,311 hectares**, including **228,794 hectares of dense forest**, namely:

3,177,300.7 cubic metres of timber, valued at **138,340,083 manats**; and

2,695,027 cubic metres of firewood, valued at **8,728,005.9 manats**.

Accordingly, at the tariff price, the total volume of wood was **5,872,328 cubic metres**, with a total value of **147,068,088.6 manats** (**138,340,083 + 8,728,005.9**).

They also unlawfully cut down rooted perennial trees and shrubs of various species and diameters valued at **175,169,055 manats**; deliberately destroyed natural regeneration valued at **239,769,640 manats**; and, by deliberately firing heavy artillery shells at territories under the control of the Republic of Azerbaijan and thereby causing fires, deliberately destroyed rooted perennial trees and shrubs of various species and diameters on seven hectares of dense forest, valued at **2,073.4 manats**.

They thereby caused the ecology and natural environment of the Republic of Azerbaijan, in respect of vegetation forming part of the forest fund, material damage in the total amount of **562,008,857 manats** (**147,068,088.6 + 175,169,055 + 239,769,640 + 2,073.4**), that is, material damage on a large scale.

In addition, acting with the same criminal objectives and intent, during the period from the beginning of 1990 to 20 September 2023, the aforementioned leaders and other members of the criminal organization, as well as leaders unknown to the investigation, intentionally and unlawfully cut down and deliberately destroyed by arson rooted perennial oak, oriental plane, elm, pine, fir, cypress, acacia and maple trees, as well as shrubs and other vegetation of various species and diameters not forming part of the forest fund, in the territories of the Republic of Azerbaijan occupied by them.

In the **Aghdam District**, they deliberately and unlawfully cut down and destroyed by arson:

3,297 perennial oak, oriental plane, elm, pine, fir, cypress, acacia and maple trees of various diameters, valued at **836,460 manats**; and

647 shrubs, valued at **51,760 manats**.

In the city of **Aghdara** and 22 villages of the Aghdara District occupied by them—the district having been abolished by Resolution No. 327 of the Milli Majlis of the Republic of Azerbaijan dated 13 October 1992 and incorporated into the Tartar District—they destroyed:

eight perennial oak, oriental plane, elm, pine, fir, cypress, acacia and maple trees of various diameters, valued at 11,950 manats.

In the **Fuzuli District**, they destroyed:

5,688 perennial oak, oriental plane, elm, pine, fir, cypress, acacia and maple trees of various diameters, valued at 1,321,270 manats.

In the **Khojavend District**, they destroyed:

117 perennial oak, oriental plane, elm, pine, fir, cypress, acacia and maple trees of various diameters, valued at 71,030 manats.

In the **Jabrayil District**, they destroyed:

170,080 perennial oak, oriental plane, elm, pine, fir, cypress, acacia and maple trees of various diameters, valued at 39,524,980 manats; and

235,024 shrubs, valued at 18,801,920 manats.

In the **Zangilan District**, they destroyed:

67,354 perennial oak, oriental plane, elm, pine, fir, cypress, acacia and

Page 48

maple trees of various diameters, valued at 105,425,130 manats; and

21,004 shrubs, valued at 1,680,320 manats.

In the **Qubadli District**, they destroyed:

231,404 perennial oak, oriental plane, elm, pine, fir, cypress, acacia and maple trees of various diameters, valued at 50,099,840 manats; and

102,461 shrubs, valued at 8,196,880 manats.

In the **Kalbajar District**, they destroyed:

1,857 perennial oak, oriental plane, elm, pine, fir, cypress, acacia and maple trees of various diameters, valued at 434,050 manats.

In the **Lachin District**, they destroyed:

2,879 perennial oak, oriental plane, elm, pine, fir, cypress, acacia and maple trees of various diameters, valued at 1,916,710 manats.

Thus, by deliberately and unlawfully cutting down and deliberately destroying by arson in the nine districts under their occupation:

482,684 perennial oak, oriental plane, elm, pine, fir, cypress, acacia and maple trees of various diameters, valued at **199,641,420 manats**; and

359,136 shrubs, valued at **28,730,880 manats**,

they caused the ecology and natural environment of the Republic of Azerbaijan, in respect of vegetation not forming part of the forest fund, material damage through the destruction of a total of **841,820 trees and shrubs**, in the total amount of **228,372,300 manats** (**199,641,420 + 28,730,880**), that is, material damage on a large scale.

In addition, acting with the same criminal objectives and intent, during the specified period, on the territories of the Republic of Azerbaijan under their occupation, the aforementioned leaders and other members of the criminal organization, as well as leaders unknown to the investigation, deliberately and unlawfully cut down and deliberately destroyed by arson rooted perennial trees of various diameters having the status of natural monuments, namely:

in the **Aghdam District**:

two oriental plane trees, each 80 cm in diameter and 25 metres in height, aged 188 years, with a total value of **96,000 manats**, located at Lenin Street, city of Aghdam;

three oriental plane trees, each 90 cm in diameter and 25 metres in height, aged 238 years, with a total value of **174,000 manats**, located at 28 April Avenue, city of Aghdam;

three oriental plane trees, each 100 cm in diameter and 25 metres in height, aged 238 years, with a total value of **204,000 manats**, located in the village of Seyidli;

two oriental plane trees, each 120 cm in diameter and 28 metres in height, aged 238 years, with a total value of **176,000 manats**, located in the village of Sarijaly;

one oriental plane tree, 110 cm in diameter and 26 metres in height, aged 238 years, valued at **78,000 manats**, located in the village of Aliagaly;

71 oriental plane trees, each 250 cm in diameter and 25 metres in height, aged 438 years, with a total value of **15,478,000 manats**, located in the village of Boyahmadli;

in the **Jabrayil District**:

one oriental plane tree, 250 cm in diameter and 30 metres in height, aged 538 years, valued at **218,000 manats**, located in the city of Jabrayil;

one oriental plane tree, 350 cm in diameter and 30 metres in height, aged 738 years, valued at **318,000 manats**, and six oriental plane trees, each 800 cm in diameter and 45 metres in height, aged 1,638 years and growing from a single root, with a total value of **768,000 manats**, located in the village of Hajily;

one oriental plane tree, 90 cm in diameter and 25 metres in height, aged 238 years, valued at **58,000 manats**, located in the village of Karkhulu;

one oriental plane tree, 450 cm in diameter and 30 metres in height, aged 938 years, valued at **418,000 manats**, and one oriental plane tree, 370 cm in diameter and 30 metres in height, aged 758 years, valued at **338,000 manats**, located in the village of Furuganly;

one oriental plane tree, 400 cm in diameter and 30 metres in height, aged 838 years, valued at **368,000 manats**, located in the village of Khorovlu;

one oriental plane tree, 400 cm in diameter and 25 metres in height, aged 838 years, valued at **368,000 manats**, located in the locality known as “Shirin Bulag” in the village of Isagly;

one pear tree, 60 cm in diameter and nine metres in height, aged 338 years, valued at **28,000 manats**, located in the village of Chelefirli;

in the **Zangilan District**:

two hackberry trees, each 80 cm in diameter and 12 metres in height, aged 298...

age 49

years, with a total value of **96,000 manats**, located in the village of Muganly;

one oriental plane tree, 60 cm in diameter and 20 metres in height, aged 120 years, valued at **28,000 manats**, and one oriental plane tree, 100 cm in diameter and 30 metres in height, aged 338 years, valued at **68,000 manats**, located in the village of Minjivan;

one oak tree, 80 cm in diameter and 12 metres in height, aged 198 years, valued at **48,000 manats**, located in the locality known as Zemiyeri;

in the **Qubadli District**:

two oriental plane trees, each 80 cm in diameter and 35 metres in height, aged 198 years, with a total value of **96,000 manats**, located in the city of Qubadli;

one oriental plane tree, 150 cm in diameter and 20 metres in height, aged 338 years, valued at **118,000 manats**, and two oriental plane trees, each 90 cm in diameter and 30 metres in height, aged 218 years, with a total value of **116,000 manats**, located in the city of Qubadli;

one mastic tree, 80 cm in diameter and eight metres in height, aged 188 years, valued at **48,000 manats**, located in the village of Godekler;

three oriental plane trees, each 800 cm in diameter and 40 metres in height, aged 1,638 years and growing from a single root, with a total value of **768,000 manats**, located in the village of Khanlyg;

one oriental plane tree, 150 cm in diameter and 35 metres in height, aged 338 years, valued at **118,000 manats**, located in the locality known as Dashly;

in the **Fuzuli District**:

one oriental plane tree, 250 cm in diameter and 25 metres in height, aged 538 years, valued at **218,000 manats**, and one oriental plane tree, 450 cm in diameter and 25 metres in height, aged 938 years, valued at **418,000 manats**, located in the village of Ishigly, beside the Arched Bridge;

five oriental plane trees, each 150 cm in diameter and 40 metres in height, aged 338 years, with a total value of **590,000 manats**, located in the village of Mandily, in the locality known as “Mustafa”;

one oriental plane tree, 100 cm in diameter and 20 metres in height, aged 238 years, valued at **68,000 manats**;

one oriental plane tree, 520 cm in diameter and 30 metres in height, aged 1,438 years, valued at **488,000 manats**; and

one oriental plane tree, 250 cm in diameter and 25 metres in height, aged 588 years, valued at **218,000 manats**,

located in the locality known as “Ibe Piri” in the same district;

one oriental plane tree, 180 cm in diameter and 45 metres in height, aged 438 years, valued at **148,000 manats**;

in the **Lachin District**:

one oriental plane tree, 210 cm in diameter and 26 metres in height, aged 438 years, valued at **178,000 manats**; and

eight oriental plane trees, each 220 cm in diameter and 22 metres in height, aged 288 years, with a total value of **1,504,000 manats**, located in the village of Malkhelef, beside the bridge of the same name.

Thus, in the territories of six districts under their occupation, by deliberately and unlawfully cutting down and deliberately destroying ancient trees having the status of natural monuments—more specifically, **131 perennial oriental plane trees, a pear tree, a hackberry tree, a mastic tree and an oak tree of various diameters**—they caused the ecology and natural environment of the Republic of Azerbaijan, in respect of ancient trees having the status of natural monuments, material damage in the total amount of **24,422,000 manats**, that is, material damage on a large scale.

Furthermore, acting with the same criminal objectives and intent, the aforementioned leaders and other members of the criminal organization, as well as leaders unknown to the investigation, during the specified period, in the territory of the Zangilan District under their occupation, deliberately and unlawfully cut down and deliberately destroyed **351,325 perennial Araz oak trees**, rooted and measuring 10–14 cm in diameter, situated on a portion of **287.5 hectares** of a forest of especially valuable Araz oaks having the status of a natural monument and covering a total area of **10,000 hectares**.

They thereby caused the ecology and natural environment of the Republic of Azerbaijan, in respect of especially valuable forest areas having the status of natural monuments, material damage in the total amount of **843,180,000 manats**, that is, material damage on a large scale.

Furthermore, members of the criminal organization whose identities are unknown to the investigation, acting with the same criminal objectives encompassed by the common criminal intent of each member of the

Page 50

criminal organization, during the specified period, in the territories of the Republic of Azerbaijan under their occupation, deliberately and unlawfully cut down and deliberately destroyed by arson perennial trees and shrubs of various species and diameters growing in specially protected nature reserves and sanctuaries.

By unlawfully cutting down and destroying by arson the forest cover, including rooted perennial trees and shrubs of various species and diameters:

on a portion of **42.8 hectares** of the total area of **107 hectares** of the **Basitchay State Nature Reserve**, situated in the Zangilan District, they caused material damage in the amount of **106,724,811 manats**;

on a portion of **1,565 hectares** of the total area of **2,200 hectares** of the **Arazboyu State Nature Sanctuary**, situated in the Zangilan District, they caused material damage in the amount of **24,565,080 manats**;

on a portion of **2,137 hectares** of the total area of **20,000 hectares** of the **Qubadli State Nature Sanctuary**, situated in the Qubadli District, they caused material damage in the amount of **9,271,726 manats**;

on a portion of **3,041 hectares** of the total area of **20,000 hectares** of the **Lachin State Nature Sanctuary**, situated in the Lachin District, they caused material damage in the amount of **20,004,734 manats**; and

on a portion of **50 hectares** of the total area of **450 hectares** of the **Dashalti State Nature Sanctuary**, situated in the Shusha District, they caused material damage in the amount of **128,266 manats**.

Thus, by unlawfully cutting down and destroying by arson forest cover, including rooted perennial trees and shrubs of various species and diameters, over a total area of **6,835 hectares** in the territories of five specially protected nature reserves and sanctuaries under their occupation, they caused the ecology and natural environment of the Republic of Azerbaijan, in respect of specially protected natural territories, material damage in the total amount of **160,694,617 manats**, that is, material damage on a large scale.

They thereby caused material damage in the total amount of **1,818,677,774 manats**.

In addition, through the non-supply of water, although funds in the total amount of **102,831,600 manats** had been allocated from the state budget of the Republic of Azerbaijan for the drilling, during the period from 2005 to 2020, of **1,279 subartesian**

wells in the territories of the Goranboy, Tartar, Barda, Aghdam, Aghjabadi, Beylagan and Bilasuvar districts, which were supplied with water through the Tartarçay, Gargarçay and Khachinchay irrigation systems situated in territories of the Republic of Azerbaijan under their occupation during the specified period, they reduced the water supply to irrigated crop areas covering **56,200 hectares** in those districts and caused material damage in the same amount.

Furthermore, as a result of the expenditure from the state budget of the Republic of Azerbaijan of funds in the total amount of **6,090,000 manats** for the implementation, during the period from 1993 to 2020, of special bank-protection measures on the Tartar River to protect populated localities in the Tartar and Barda districts, situated downstream of the Sarsang Reservoir, from the danger of flooding arising as a result of the intentional improper regulation of that reservoir—that is, the release of excessive volumes of water from the reservoir during the autumn and winter months—they caused material damage in the same amount.

As a result of the expenditure from the state budget of the Republic of Azerbaijan of funds in the total...

Page 51

amount of **91,861,000 manats** for the implementation, during the period from 2006 to 2020, of construction and installation work such as the construction and installation of iron or concrete canals, closed drainage systems, open collectors, metal pipes and other facilities in the Aghjabadi and Fuzuli districts, arising from the need to supply crop areas with irrigation water and improve the ameliorative condition of winter pastures in territories temporarily settled by the population forcibly expelled from the occupied territories, they caused material damage in the same amount.

Thus, by deliberately making it impossible to use water resources and knowingly mismanaging the reservoirs, they caused damage in the total amount of **200,782,600 manats (102,831,600 + 6,090,000 + 91,861,000)**.

In addition, through the improper operation of the **Sarsang Reservoir**, situated in territories of the Republic of Azerbaijan which were under their occupation during the specified period—that is, by operating it without observing any rules, including by failing to ensure the timely cleaning of the reservoir, failing to carry out reinforcement work and improperly regulating the water level—they caused material damage in the amount of **12,000,000 manats**.

Through the improper operation of the **Sugovushan Reservoir**, that is, by operating it without observing any rules, including by failing to ensure the timely cleaning of the reservoir, failing to carry out reinforcement work and improperly regulating the water level, they caused material damage in the amount of **20,708,000 manats**.

Through the improper operation of the **Khachinchay Reservoir**, that is, by operating it without observing any rules, including by failing to ensure its timely cleaning, failing to carry out reinforcement work and improperly regulating the water level, they caused material damage in the amount of **20,824,000 manats**.

Through the improper operation of the **Aghdamkend Reservoir**, that is, by operating it without observing any rules, including by failing to ensure its timely cleaning, failing to carry out reinforcement work and improperly regulating the water level, they caused material damage in the amount of **1,156,000 manats**.

Through the improper operation of the **Kendelenchay-1 Reservoir**, that is, by operating it without observing any rules, including by failing to ensure its timely cleaning, failing to carry out reinforcement work and improperly regulating the water level, they caused material damage in the amount of **2,066,000 manats**.

Through the improper operation of the **Kendelenchay-2 Reservoir**, that is, by operating it without observing any rules, including by failing to ensure its timely cleaning, failing to carry out reinforcement work and improperly regulating the water level, they caused material damage in the amount of **3,442,000 manats**.

Through the improper operation of the **Ashaghi Kendelenchay Reservoir**, that is, by operating it without observing any rules, including by failing to ensure its timely cleaning, failing to carry out reinforcement work and improperly regulating the water level, they caused material damage in the amount of **9,344,000 manats**.

Thus, through the operation of seven reservoirs constructed in the territories occupied by them during the period prior to the occupation, without observing any rules—that is, by failing to ensure the timely cleaning of the reservoirs, failing to carry out reinforcement work and improperly regulating the water level—they caused material damage in the amount of **69,540,000 manats**.

Accordingly, by deliberately making the use of water resources impossible and knowingly mismanaging the reservoirs in the territories of the Republic of Azerbaijan occupied by them, as well as by operating reservoirs constructed in the territories occupied by them prior to the occupation without observing any rules—that is, by failing to ensure their timely cleaning, failing to carry out reinforcement work and improperly regulating the water level—they caused the ecology and natural environment of the Republic of Azerbaijan material damage in the total amount of **270,322,600 manats** (**200,782,600 + 69,540,000**), which constitutes material damage on a large scale.

Page 52

In addition, acting with the same criminal objectives and intent, as a result of large-scale military operations in the territories of the Zangilan, Jabrayil, Qubadli, Fuzuli, Lachin, Kalbajar, Shusha, Khojaly, Khojavend, Aghdam and Tartar districts of the Republic of Azerbaijan, which remained under their occupation during the aggressive war against Azerbaijan from the beginning of the 1990s until 2023, the aforementioned leaders and other members of the criminal organization, as well as leaders unknown to the investigation, deliberately destroyed a portion of **5,210 hectares** of the total agricultural land in those territories.

They also caused military erosion through the explosion of heavy artillery shells and rockets and the placement of mines and explosive devices on those land plots during the course of the military aggression, thereby contributing to deformation of the landscape, destruction and disruption of the soil structure, and degradation of the vegetation cover.

As a result, there is currently a need for the following funds in respect of each hectare to carry out initial simple measures involving the removal from those land plots of fragments of military equipment and elements of rockets and shells:

34,000 manats per hectare, for a total of **177,140,000 manats**;

68,000 manats per hectare for measures involving the application of biological agents to protect cultivated plants, taking account of their biological characteristics, for a total of **354,280,000 manats**;

3,400 manats per hectare for phytoremediation measures, for a total of **17,714,000 manats**;

361,250 manats per hectare for measures involving the addition of synthetic geopolymers, for a total of **1,882,112,500 manats**;

850,000 manats per hectare for measures involving the application of spores of beneficial bacteria and fungi, for a total of **4,428,500,000 manats**;

701,250 manats per hectare for chemical washing, for a total of **3,653,512,500 manats**; and

170,000 manats per hectare for the removal of adsorbents and adsorbates from the soil, for a total of **885,700,000 manats**.

Thus, for the implementation of the seven aforementioned measures required to restore **5,210 hectares** of agricultural land to a condition suitable for use, funds in the amount of **11,398,959,000 manats** are required.

Accordingly, by rendering agricultural land situated in territories occupied by them as a result of the aggressive war conducted by them unsuitable for use, they caused the ecology and natural environment of the Republic of Azerbaijan material damage in the total amount of **11,398,959,000 manats**, which constitutes material damage on a large scale.

Thus, during the period from the end of 1980 until 20 September 2023, the aforementioned leaders and other members of the criminal organization, as well as leaders unknown to the investigation, deliberately and unlawfully cut down and deliberately destroyed trees, shrubs and other vegetation by arson in the territories of the Republic of Azerbaijan under their occupation; deliberately polluted water sources, water basins and reservoirs; made the use of water resources impossible and knowingly mismanaged water resources; and deliberately destroyed and deliberately subjected agricultural land to military erosion.

They thereby caused the ecology and natural environment of the Republic of Azerbaijan material damage on a large scale in the total amount of **13,487,959,374 manats (thirteen billion four hundred eighty-seven million nine hundred fifty-nine thousand three hundred seventy-four manats)**.

The members—whose identities are unknown to the investigation—of the armed formations of the criminal organization and of the armed formations constituting its structural subdivision, which carried out unlawful activities in the territory of the Republic of Azerbaijan in contravention of domestic and international legal norms, with the support of the military-political leadership, including the Armed Forces and other armed formations of the

Republic of Armenia, as well as with their direct material and technical support and support in the form of personnel, on the basis of their centralized command, oral and written directions, assignments and instructions, and under their strict control,

Page 53

which were supplied with various types of weapons, ammunition, military equipment and other armaments, for the purpose of carrying out the criminal plan encompassed by the common criminal intent of each member of the criminal organization, namely: continuing the national hatred and hostility fostered by them within Armenian society against Azerbaijanis; ensuring that the sovereign territories of the Republic of Azerbaijan occupied during the aggressive war initiated by them against Azerbaijan remained under occupation; keeping the Azerbaijani population in a permanent state of fear and panic and thereby preventing by all possible means its return to the places where it had previously lawfully resided; compelling the Republic of Azerbaijan to adopt a decision renouncing its sovereign territories in favour of Armenia;

continuously subjecting to fire from weapons of various calibres the places of residence of the peaceful civilian population of Azerbaijan lawfully residing in the sovereign territories of Azerbaijan, along the line of contact with the territories occupied by them and also at considerable distances from it; causing explosions and fires in the areas where they resided, that is, using methods of warfare capable of causing significant destruction during an armed conflict; causing widespread, long-term and serious damage to the environment; carrying out large-scale destruction not justified by military necessity; attacking undefended territories, populated localities and demilitarized zones; indiscriminately laying numerous mines and other explosive devices without any military necessity; depriving the Azerbaijani population of the rights to freedom of movement and to healthy and safe residence in the territory of the country of which they were citizens, as well as of other fundamental rights;

thereby intentionally killing them with particular cruelty; committing genocide, terrorism and banditry on grounds of national and ethnic hatred and hostility, as well as in connection with the performance of official duties and the fulfilment of public duty; persecuting them in contravention of the norms of international law; taking them prisoner and hostage; subjecting them to enforced disappearance; torturing them specifically because they were Azerbaijanis; and pursuing other criminal purposes;

in gross violation of the requirements of the Charter of the United Nations, which entered into force on 24 October 1945; the Universal Declaration of Human Rights of 10 December 1948; the Fourth Geneva Convention of 12 August 1949 relative to the Protection of Civilian Persons in Time of War; Additional Protocol I of 08 June 1977 relating to the Protection of Victims of International Armed Conflicts, annexed to the Geneva Conventions; the Convention of 04 November 1950 for the Protection of Human Rights and Fundamental Freedoms; United Nations General Assembly Resolution No. 3314 (XXIX) of 14 December 1974 on the Definition of Aggression; the International Covenant on Civil and Political Rights of 16 December 1966; the Final Act of the Conference on Security and Co-operation in Europe—the Helsinki Final Act—adopted in 1975; the European Convention of 27 January 1977 on the Suppression of Terrorism; the Ottawa Convention of 03 December 1997 on the Prohibition of the Use, Stockpiling, Production and Transfer of Anti-Personnel Mines and on Their Destruction; the Convention of 10 October 1980 on Prohibitions or Restrictions on the Use of Certain Conventional Weapons Which May Be Deemed to Be Excessively

Injurious or to Have Indiscriminate Effects, and the Protocol annexed thereto on Prohibitions or Restrictions on the Use of Mines, Booby-Traps and Other Devices; the Warsaw Convention of 16 May 2005 on the Prevention of Terrorism; and the Convention on Cluster Munitions of 03 December 2008, adopted in Oslo;

as well as the Bishkek Protocol declaring a ceasefire along the notional line of contact between the armies of the Republic of Azerbaijan and Armenia, concluded between the Republic of Azerbaijan and the Republic of Armenia on 08 May 1994 and entering into force on 12 May 1994; and, contrary to the principles of the inviolability of state borders, the territorial integrity of states and the “non-use of force” for the purpose of seizing territories, through which international law

Page 54

calls upon states not to use force against the territorial integrity or political independence of other states, as well as contrary to other norms of international law;

with the intention of carrying out large-scale destruction not justified by military necessity, deliberately destroying or damaging another’s property in state and private ownership through explosions and arson on an especially large scale, and with the intention of destroying property, businesses and infrastructure in populated localities and pursuing other similar criminal objectives;

from all directions along the notional border between Azerbaijan and Armenia, and, not limiting themselves to that, recruiting persons residing in the Karabakh region of Azerbaijan and other territories populated by persons of Armenian origin for their criminal activities; creating armed groups; supplying members of the terrorist organization, as well as persons of Armenian origin residing in foreign states and other persons recruited by them as mercenaries, with weapons and ammunition; providing them with other forms of material and technical support; and, during the aggressive war initiated against Azerbaijan, using assault-rifle-type firearms, artillery systems, multiple-launch rocket systems and weapons of various calibres, the makes and types of which are unknown to the investigation;

by arranging ambushes and creating minefields, organizing armed attacks on populated localities, causing fires and explosions, subjecting the population to torture and torment, they intentionally killed with particular cruelty and by other means numerous persons, including the persons listed in the present decision, namely:

in **1988**, at least **24 persons**, all male civilians;

in **1989**, 28 men and five women, including 10 children, namely 32 civilians and one serviceman, for a total of at least **33 persons**;

in **1990**, 108 men and 10 women, including eight children, namely 112 civilians and six servicemen, for a total of at least **118 persons**;

in **1991**, 281 men and 43 women, including 13 children, namely 272 civilians and 52 servicemen, for a total of at least **324 persons**;

in **1992**, 4,286 men and 346 women, including 199 children, namely 1,331 civilians and 3,301 servicemen, for a total of at least **4,632 persons**;

in **1993**, 3,768 men and 323 women, including 129 children, namely 1,079 civilians and 3,012 servicemen, for a total of at least **4,091 persons**;

in **1994**, 4,762 men and 27 women, including 32 children, namely 284 civilians and 4,505 servicemen, for a total of at least **4,789 persons**—4,104 persons before 12 May 1994 and 685 persons after 12 May 1994;

in **1995**, 288 men and one woman, including five children, namely 39 civilians and 250 servicemen, for a total of at least **289 persons**;

in **1996**, 181 men and one woman, including four children, namely 28 civilians and 154 servicemen, for a total of at least **182 persons**;

in **1997**, male persons, including three children, namely 27 civilians and 136 servicemen, for a total of at least **163 persons**;

in **1998**, 113 men and one woman, including one child, namely 11 civilians and 103 servicemen, for a total of at least **114 persons**;

in **1999**, 87 men and one woman, including one child, namely seven civilians and 81 servicemen, for a total of at least **88 persons**;

in **2000**, 40 men and one woman, including one child, namely nine civilians and 32 servicemen, for a total of at least **41 persons**;

in **2001**, 43 men and one woman, including one child, namely 11 civilians and 33 servicemen, for a total of at least **44 persons**;

in **2002**, male persons, including three children, namely six civilians and 47 servicemen, for a total of at least **53 persons**;

in **2003**, 56 men and one woman, including one child, namely six civilians and 51 servicemen, for a total of at least **57 persons**;

in **2004**, male persons, including one child, namely 13 civilians and 21 servicemen, for a total of at least **34 persons**;

in **2005**, male persons, including one child, namely eight civilians and 36 servicemen, for a total of at least **44 persons**;

in **2006**, 20 men and one woman, namely four civilians and 17 servicemen, for a total of at least **21 persons**;

in **2007**, male persons, including one child, namely seven civilians and 29 servicemen, for a total of at least **36 persons**;

in **2008**, male persons, namely eight civilians and 19 servicemen, for a total of at least **27 persons**;

in **2009**, 10 men and one woman, namely two civilians and nine servicemen, for a total of at least **11 persons**;

in **2010**, male persons, namely two civilians and 18 servicemen, for a total of at least **20 persons**;

in **2011**, 15 men and one woman, including two children, namely four civilians and 12 servicemen, for a total of at least **16 persons**;

in **2012**, male persons, namely one civilian and 13 servicemen, for a total of at least **14 persons**;

in **2013**, male persons, namely one civilian and nine servicemen, for a total of at least **10 persons**;

in **2014**, male persons, namely three civilians and 33 servicemen, for a total of at least **36 persons**;

in **2015**, male persons, namely three civilians and 29 servicemen, for a total of at least **32 persons**;

in **2016**, 111 men and one woman, including one child, namely six civilians and 106 servicemen, for a total of at least **112 persons**;

in **2017**, 19 men and two women, including one child, namely four civilians and 17 servicemen, for a total of at least **21 persons**;

in **2018**, at least **seven male servicemen**;

in **2019**, male persons, namely one civilian and four servicemen, for a total of at least **five persons**;

in **2020**, 2,956 men and 35 women, including 12 children, namely 105 civilians and 2,886 servicemen, for a total of at least **2,991 persons**, of whom 2,866 were killed during the Patriotic War from 27 September 2020 to 10 November 2020;

in **2021**, male persons, including one child, namely 20 civilians and 27 servicemen, for a total of at least **47 persons**;

in **2022**, male persons, including one child, namely seven civilians and 84 servicemen, for a total of at least **91 persons**;

in **2023**, male persons, namely 16 civilians and 216 servicemen, for a total of at least **232 persons**; and

in **2024**, at least **one male serviceman**.

Accordingly, they intentionally killed a total of **18,351 persons**, namely 3,053 civilians and 15,298 servicemen, comprising 17,607 men and 744 women, including 401 children.

In addition, they inflicted bodily injuries of varying degrees of severity upon numerous persons, namely:

in **1988**, 40 men and two women, namely 19 civilians and 23 servicemen, for a total of at least **42 persons**;

in **1989**, 122 men and six women, including four children, namely 95 civilians and 33 servicemen, for a total of at least **128 persons**;

in **1990**, 245 men and 22 women, including 10 children, namely 199 civilians and 68 servicemen, for a total of at least **267 persons**;

in **1991**, 587 men and 67 women, including 15 children, namely 437 civilians and 217 servicemen, for a total of at least **654 persons**;

in **1992**, 8,706 men and 578 women, including 265 children, namely **19,413 civilians [sic]** and 7,343 servicemen, for a total of at least **9,284 persons**;

in **1993**, 6,628 men and 150 women, including 57 children, namely 489 civilians and 6,289 servicemen, for a total of at least **6,778 persons**;

in **1994**, 9,046 men and 56 women, including 23 children, namely 228 civilians and 8,874 servicemen, for a total of at least **9,102 persons**;

in **1995**, 1,521 men and 16 women, including 13 children, namely 90 civilians and 1,447 servicemen, for a total of at least **1,537 persons**;

in **1996**, 1,130 men and 14 women, including five children, namely 44 civilians and 1,100 servicemen, for a total of at least **1,144 persons**;

in **1997**, 990 men and 13 women, including three children, namely 24 civilians and 979 servicemen, for a total of at least **1,003 persons**;

in **1998**, 555 men and two women, including four children, namely 16 civilians and 541 servicemen, for a total of at least **557 persons**;

in **1999**, 386 men and one woman, for a total of at least **1,003 persons**;

in, including three children, namely 17 civilians and 370 servicemen, for a total of at least **387 persons**;

in **2000**, 325 men and one woman, including five children, namely 11 civilians and 315 servicemen, for a total of at least **326 persons**;

in **2001**, 285 men and one woman, including two children, namely 14 civilians and 272 servicemen, for a total of at least **286 persons**;

in **2002**, 266 men and three women, namely eight civilians and 261 servicemen, for a total of at least **269 persons**;

in **2003**, 259 men and two women, including one child, namely 10 civilians and 251 servicemen, for a total of at least 261 persons, in **2004**,

Page 56

257 men and one woman, namely 17 civilians and 241 servicemen, for a total of at least **258 persons**;

in **2005**, 281 men and five women, namely six civilians and 280 servicemen, for a total of at least **286 persons**;

in **2006**, at least **232 male servicemen**;

in **2007**, 309 men and two women, including one child, namely five civilians and 306 servicemen, for a total of at least **311 persons**;

in **2008**, 265 men and three women, namely five civilians and 263 servicemen, for a total of at least **268 persons**;

in **2009**, 296 men and five women, including one child, namely 11 civilians and 290 servicemen, for a total of at least **301 persons**;

in **2010**, 321 men and five women, including one child, namely three civilians and 323 servicemen, for a total of at least **326 persons**;

in **2011**, 274 men and seven women, including one child, namely eight civilians and 273 servicemen, for a total of at least **281 persons**;

in **2012**, 251 men and two women, namely seven civilians and 246 servicemen, for a total of at least **253 persons**;

in **2013**, 205 men and one female servicemember, for a total of at least **206 persons**;

in **2014**, 305 men and four female servicemembers, for a total of at least **309 persons**;

in **2015**, 350 men and seven women, including two children, namely eight civilians and 349 servicemen, for a total of at least **357 persons**;

in **2016**, 618 men and eight women, including two children, namely 29 civilians and 597 servicemen, for a total of at least **626 persons**;

in **2017**, 294 men and seven women, namely one civilian and 300 servicemen, for a total of at least **301 persons**;

in **2018**, 225 men and five women, namely four civilians and 226 servicemen, for a total of at least **230 persons**;

in **2019**, 192 men and seven women, namely one civilian and 198 servicemen, for a total of at least **199 persons**;

in **2020**, 16,705 men and 155 women, including 66 children, namely 520 civilians and 16,340 servicemen, for a total of at least **16,860 persons**, of whom 15,382 sustained injuries during the Patriotic War from 27 September 2020 to 10 November 2020;

in **2021**, 672 men and four women, namely 65 civilians and 611 servicemen, for a total of at least **676 persons**;

in **2022**, 722 men and eight women, including one child, namely 49 civilians and 681 servicemen, for a total of at least **730 persons**;

in **2023**, 1,227 men and one woman, including one child, namely 74 civilians and 1,154 servicemen, for a total of at least **1,228 persons**; and

in **2024**, at least **five male civilians**.

Accordingly, they inflicted bodily injuries upon a total of **55,177 persons**, namely 3,710 civilians and 51,467 servicemen, comprising 54,103 men and 1,074 women, including 457 children.

Nevertheless, they were unable to kill those persons because the latter managed to evade the armed attack and survived as a result of receiving timely specialized medical assistance, the intervention of international organizations in relation to persons taken prisoner and hostage, a combination of circumstances, and other reasons beyond their control.

In addition, during the aggressive war prepared, planned and conducted against Azerbaijan beginning in 1987, for the purpose of aggravating the consequences of the aggressive war for the Republic of Azerbaijan, causing the collapse of its economy and pursuing other criminal objectives, by opening fire from engineer and sapper positions established in the course of military operations conducted for the occupation of the sovereign territories of the Republic of Azerbaijan, and, following the period of occupation, by mining the territories under their occupation, they caused funds in the total amount of **6,623,679,275 manats** to be allocated and expended from the state budget of the Republic of Azerbaijan, namely:

2,540,657,321 manats for the families of persons intentionally killed during the period from 1994 to 2023 and granted the status of martyrs, as well as for persons who acquired disability categories as a result of bodily injuries of varying degrees of severity sustained during the aggressive war;

2,903,826,722 manats for the pension provision of the families of martyrs and persons disabled as a result of the war;

1,027,040,000 manats for their housing provision;

83,970,000 manats for the provision of motor vehicles to them; and

44,208,057 manats for the support of persons whom they rendered...

disabled, with prosthetic and orthopaedic products, wheelchairs, wheelchair-bicycles, and technical and other rehabilitation devices;

8,695,675 manats for social and psychological support and rehabilitation services; and

a total of **15,281,500 manats** paid in 2020 to members of the population who had suffered damage to their property—household equipment and domestic belongings—in the districts along the line of contact during the 44-day Patriotic War.

They thereby caused the Republic of Azerbaijan material damage on an especially large scale in connection with the elimination of the consequences of the aggressive war in the aforementioned areas.

In implementing the criminal plan encompassed by the common criminal intent of the criminal organization, during the aggressive war prepared, planned and conducted against Azerbaijan beginning in 1987, for the purpose of weakening the military strength and defence capability of the Republic of Azerbaijan, as well as causing it the maximum possible material damage, destroying and demolishing military property, rendering it unusable, and damaging weapons and ammunition, military equipment, military vehicles and the other material and technical resources of the Armed Forces of the Republic of Azerbaijan, and for other criminal purposes, during the period up to 20 September 2023, as a result of armed attacks carried out by them and the opening of fire from various large- and small-calibre weapons, ammunition, artillery systems and rockets—including those obtained from the material and technical resources of the Armed Forces of the Republic of Armenia, as well as those unlawfully acquired from the 366th Regiment and other armed formations located in the Karabakh region of Azerbaijan and belonging first to the former USSR and subsequently to the Russian Federation—they:

destroyed or seized missile and artillery weapons, service weapons, ammunition, military-optical devices and other military and technical property of the Ministry of Defence of the Republic of Azerbaijan in the Lachin, Kalbajar, Qubadli, Aghdam, Jabrayil, Fuzuli, Zangilan and Tartar districts, as well as in the Gazakh, Tovuz and Gadabay districts situated along the border with Armenia and in other territories, thereby deliberately causing material damage in the amount of **87,307,831.65 manats**;

destroyed or seized tanks and other armoured combat vehicles, their components, and other property recorded on the balance sheet of the armoured-vehicle services of various branches of the armed forces, armed formations, military units and their subdivisions in the Lachin, Kalbajar, Qubadli, Aghdam, Jabrayil, Fuzuli, Zangilan and Tartar districts, as well as in the Gazakh, Tovuz and Gadabay districts situated along the border with Armenia and in other territories, thereby causing material damage in the amount of **394,459,761.18 manats**;

destroyed or seized motor vehicles recorded on the balance sheet of the motor-vehicle services of various branches of the armed forces, armed formations, military units and their subdivisions, as well as other military property belonging to the same service, in the Lachin, Kalbajar, Qubadli, Aghdam, Jabrayil, Fuzuli, Zangilan and Tartar districts, as well as in the Gazakh, Tovuz and Gadabay districts situated along the border with Armenia and in other territories, thereby causing material damage in the amount of **25,906,621.64 manats**;

destroyed or seized fuel and lubricants stored in fuel and lubricant depots, vehicles used to transport fuel, fuel tanks recorded on the balance sheet of the fuel services of various branches of the armed forces, armed formations, military units and their subdivisions, and other military property belonging to the same service, in the Tartar, Kalbajar, Fuzuli, Jabrayil, Zangilan, Qubadli and Khojavend districts, the city of Shusha, as well as in the Gazakh, Tovuz and Gadabay districts situated along the border with Armenia and in other territories, thereby causing material damage in the amount of **236,499.42 manats**;

destroyed food products stored in food warehouses, mess halls and vehicles used for transporting food products belonging to military

Page 58

units and their subdivisions and recorded on the balance sheet of the food services of various branches of the armed forces, armed formations, military units and their subdivisions, as well as other military property belonging to the same service, in the Tartar, Kalbajar, Fuzuli, Jabrayil, Lachin, Zangilan, Qubadli and Khojavend districts, the city of Shusha, as well as in the Gazakh, Tovuz and Gadabay districts situated along the border with Armenia and in other territories, thereby causing material damage in the amount of **2,138,501.48 manats**;

destroyed clothing items and sets of bed linen kept in barracks, clothing depots, laundries, headquarters and other buildings and recorded on the balance sheet of the clothing services of various branches of the armed forces, armed formations, military units and their subdivisions, as well as military equipment and other military property belonging to the same service, in the Tartar, Kalbajar, Fuzuli, Jabrayil, Lachin, Zangilan, Qubadli and Khojavend districts, the city of Shusha, as well as in the Gazakh, Tovuz and Gadabay districts situated along the border with Armenia and in other territories, thereby causing material damage in the amount of **12,780,406.07 manats**;

destroyed or rendered unusable engineering armaments, including devices and other equipment used to inspect mined territories and clear territories of mines, recorded on the balance sheet of various branches of the armed forces, armed formations, military units and their subdivisions in the Lachin, Kalbajar, Qubadli, Aghdam, Jabrayil, Fuzuli, Zangilan and Tartar districts, as well as in the Gazakh, Tovuz and Gadabay districts situated along the border with Armenia and in other territories, thereby causing material damage in the amount of **3,275,499.87 manats**;

destroyed or seized communications equipment and spare parts for it, recorded on the balance sheet of the communications services of various branches of the armed forces, armed formations, military units and their subdivisions, as well as other military property belonging to the same service, in the Lachin, Kalbajar, Qubadli, Aghdam, Jabrayil, Fuzuli, Zangilan and Tartar districts, as well as in the Gazakh, Tovuz and Gadabay districts situated along the border with Armenia and in other territories, thereby causing material damage in the amount of **24,793,996.83 manats**;

destroyed or rendered unusable military property recorded on the balance sheet of the radiation, chemical and biological protection services of various branches of the armed forces, armed formations, military units and their subdivisions in the Lachin, Kalbajar, Qubadli, Aghdam, Jabrayil, Fuzuli, Zangilan and Tartar districts, as well as in the Gazakh,

Tovuz and Gadabay districts situated along the border with Armenia and in other territories, thereby causing material damage in the amount of **1,380,442.36 manats**;

destroyed and rendered unusable the buildings of headquarters, barracks, residential buildings, warehouses, mess halls and other structures recorded on the balance sheet of the housing and utilities services of various branches of the armed forces, armed formations, military units and their subdivisions in the Khankendi, Aghdam, Fuzuli, Tartar and Aghjabadi districts, as well as in the Gazakh, Tovuz and Gadabay districts situated along the border with Armenia and in other territories, thereby causing material damage in the amount of **4,719,445.53 manats**;

destroyed or seized military property recorded on the balance sheet of the Naval Special Forces involved in combat operations in the direction of the defence and liberation from occupation of the Jabrayil and Khojavend districts, thereby causing material damage in the amount of **33,600 manats**;

destroyed or rendered unusable military aircraft, helicopters, unmanned aerial vehicles, air-defence systems, radar equipment and other military property recorded on the balance sheet of the Air Force in the Aghdam, Aghdara, Khojaly, Tartar, Lachin, Kalbajar, Fuzuli, Khojavend, Jabrayil and Qubadli districts and the city of Shusha, thereby causing material damage in the amount of...

Page 59

345,074,397.44 manats;

destroyed or rendered unusable military medical property, namely medical equipment and other military medical property in military hospitals and medical stations, as well as equipment carried by military medical personnel and medical vehicles that entered the territories where combat operations were being conducted for the purpose of providing medical assistance to Azerbaijani servicemen who had participated in and been wounded during combat operations, which was recorded on the balance sheets of various branches of the armed forces, armed formations, military units and their subdivisions in the Tartar, Kalbajar, Jabrayil, Zangilan and Qubadli districts, the city of Shusha, as well as the Gazakh, Tovuz and Gadabay districts situated along the border with Armenia and in other territories, thereby causing material damage in the amount of **57,909.87 manats**.

As a result, they caused the Ministry of Defence material damage in the total amount of **902,164,913 manats**.

Furthermore, by using the aforementioned methods and means during the specified period to destroy or render unusable military equipment, armaments, ammunition and other military supplies recorded on the balance sheet of the State Border Service of the Republic of Azerbaijan, they caused material damage in the amount of **3,216,058 manats**.

By destroying or rendering unusable military equipment, armaments, ammunition and other military supplies recorded on the balance sheet of the Ministry of Internal Affairs of the Republic of Azerbaijan, they caused material damage in the amount of **3,023,854 manats**.

Thus, by waging an aggressive war against the Republic of Azerbaijan, they deliberately caused the defence arsenal of the Azerbaijani Army material damage in the amount of **908,404,826 manats** (**nine hundred eight million four hundred four thousand eight hundred twenty-six manats**), having destroyed, rendered unusable and seized military property.

For the purpose of keeping the sovereign territories of the Republic of Azerbaijan under occupation and participating in the commission, by a criminal association (organization) operating under the control of the military-political leadership of Armenia, of the offences provided for in Articles **100.1, 100.2, 107, 109, 110, 112, 113, 114.1, 115.2, 116.0.1, 116.0.2, 116.0.10, 116.0.11, 116.0.16, 116.0.18, 120.2.1, 120.2.3, 120.2.4, 120.2.7, 120.2.11, 120.2.12, 29, 120.2.1, 29, 120.2.3, 29, 120.2.4, 29, 120.2.7, 29, 120.2.11, 29, 120.2.12, 192.3.1, 214.2.1, 214.2.3, 214.2.4, 214-1, 218.1, 218.2, 228.3, 270-1.2, 270-1.4, 278.1, 279.1, 279.2, 279.3 and 318.2** of the Criminal Code of the Republic of Azerbaijan, **Vardanyan Ruben Karlenovich**, having joined the said criminal association (organization) in early December 2020, intentionally collected and transferred funds and other property as part of it, knowing that they would be used, in whole or in part, directly or indirectly, for terrorism, threats to aviation security, acts aimed at the forcible alteration of the constitutional order of the Republic of Azerbaijan, and the creation and organization of armed formations and groups not provided for by law, as well as for financing a terrorist organization.

Acting in accordance with the common criminal objective and intent, as part of the criminal association (organization), he unlawfully acquired, stored, transported and transferred firearms, their component parts, ammunition, explosives and explosive devices.

As part of that criminal association (organization), acting as an organized group, he crossed the protected State Border of the Republic of Azerbaijan outside an official border-crossing point and, being a citizen of a foreign state, unlawfully entered the territory of the Republic of Azerbaijan.

Within the unrecognized entity and administrative regime known as “Artsakh,” created by the criminal association (organization) in the occupied territories of the Republic of Azerbaijan, he held the position of “State Minister” from **04 November 2022 to 23 February 2023**.

During the subsequent period, until the end of September 2023, acting in accordance with the common criminal intentions and objectives of the criminal association (organization) and its members, and directly participating in the adoption of decisions connected with the preparation and commission of offences against

Page 60

the Republic of Azerbaijan and its individuals and legal entities, as part of an organized group belonging to that criminal association (organization), he smuggled explosives and explosive devices, combat weapons and equipment, firearms and ammunition for them from the Republic of Armenia into the territory of the Republic of Azerbaijan, outside the customs control of the Republic of Azerbaijan.

He organized and conducted training in methods for carrying out those acts, preparation for the use of firearms, explosives and explosive devices, as well as technical equipment, for the purpose of committing terrorism.

Within the criminal association (organization), he created armed formations and groups not provided for by the legislation of the Republic of Azerbaijan, supplied them with weapons, ammunition, explosives, military equipment and military supplies, and participated in the organization by those formations and groups of attacks on enterprises, institutions, organizations and individuals which resulted in deaths and other grave consequences.

In addition, **Ruben Vardanyan** joined a criminal formation (organization) created for the purpose of committing serious and especially serious offences; directed that criminal formation (organization) and its structural subdivisions; and carried out activities as part of the said criminal formation (organization), encompassed by its common criminal objectives and intent.

He participated in the planning and initiation of the aggressive war and in the preparation of plans for new attacks, continuing to pursue the aforementioned objectives and intent through:

the conduct of an aggressive war;

the forcible expulsion of the population from places in which they lawfully resided, in the absence of grounds established by the norms of international law and the laws of the Republic of Azerbaijan;

the persecution of a group on national, ethnic, cultural and religious grounds, namely the gross deprivation of persons of their rights because of their membership in a particular group;

the detention, arrest and abduction of persons for the purpose of removing them from the protection of the law for a prolonged period, upon the instructions, with the support and with the consent of the state and political organizations;

the denial that persons had been deprived of their liberty and the refusal to provide information concerning their subsequent fate and whereabouts;

the arrest of persons and deprivation of their liberty by other means in contravention of international law;

the infliction of physical pain and mental suffering upon detained persons and persons whose liberty had been restricted by other means;

the recruitment of mercenaries, the conduct of training for them, their financing and the provision of material support to them by other means, as well as their use in armed conflicts and military operations;

the torture of prisoners and other persons protected by international humanitarian law, cruel and inhuman treatment of them, and holding them hostage;

the use of methods of warfare capable of causing significant destruction during war;

the intentional infliction of widespread, long-term and serious damage upon the environment;

attacks upon the civilian population and individual civilians not taking part in hostilities;

violence against the population in areas of military operations;

the destruction of property;

attacks upon structures whose destruction could cause extensive losses among the civilian population and significant damage to civilian objects;

the use in armed conflicts of weapons and means and methods of warfare prohibited by international treaties to which the Republic of Azerbaijan is a party;

the detention and deprivation of liberty by other means of prisoners and other persons protected by international humanitarian law, in contravention of international law, as well as the deprivation of their procedural rights;

the intentional killing, with particular cruelty and by a method dangerous to the public, of more than two persons in connection with the victims' performance of official and public duties, in connection with terrorism and with the intent of national hatred and hostility, namely the intentional deprivation of their lives; and

the attempted intentional killing with particular cruelty and...

Page 61

by a method dangerous to the public, of more than two persons in connection with the victims' performance of official and public duties, in connection with terrorism and with the intent of national hatred and hostility, namely the intentional deprivation of their lives;

the conduct of unlawful entrepreneurial activity causing damage on an especially large scale to the Republic of Azerbaijan and its individuals and legal entities, namely entrepreneurial activity without state registration for tax purposes in the manner prescribed by the legislation of the Republic of Azerbaijan and without obtaining special authorization—a special licence—despite the requirement to obtain such authorization;

smuggling as part of an organized group constituting part of the criminal formation (organization), namely the movement across the customs border of the Republic of Azerbaijan, outside customs control, of explosives and explosive devices, military weapons and equipment, firearms and ammunition;

the commission of explosions and arson or other acts of terrorism creating a danger of death, harm to health, major damage to property or other socially dangerous consequences capable of causing death and other grave consequences, for the purpose of undermining public security, through the repeated use of firearms and the creation of panic among the population, influencing the adoption of decisions by state authorities, and threatening to commit such acts;

the transmission during flights of knowingly false information to aircraft, or deliberate interference with the operation of the aircraft's aeronautical equipment, creating a threat to aircraft safety during flight; causing damage that created a threat to the safety of aircraft in operation; and

the commission of acts aimed at forcibly changing the constitutional order of the state in the territory of the Republic of Azerbaijan, contrary to the Constitution of the Republic of Azerbaijan.

Thus, in the course of the activities of the criminal formation (organization) and the structural subdivisions forming part of it, while participating in the planning of the continuation of the aggressive war against the Republic of Azerbaijan, the preparation of new plans of attack and the organization of an aggressive war in pursuit of the aforementioned objectives and intent, **Ruben Vardanyan**, beginning in December 2020, deliberately organized the collection of funds and other property at his disposal, as well as funds and other property belonging to citizens of various foreign states, for the **Aurora Fund**, of which he was a co-founder and whose Executive Director was **Jilavyan Arman Gagikovich**.

The collections were conducted under the pretext of humanitarian purposes and aid campaigns, while he knowingly understood that the collected funds and property would be used, in whole or in part, directly or indirectly, for the preparation, organization and commission by the criminal organization of the acts provided for in Articles **214, 270-1, 278 and 279** of the Criminal Code, as well as for financing a terrorist organization.

On **09 December 2020**, **Mirza Dinnayi**, a citizen of the Republic of Iraq, a public activist presented as a laureate of the “**Aurora Prize for Awakening Humanity**,” established by the Aurora Fund, arrived in the city of Khankendi on Ruben Vardanyan’s instructions.

There, he transferred funds allocated at different times and in various amounts to **150 mercenaries of Kurdish origin** who were members of armed formations not provided for by law and who operated, in the form of organized groups forming part of the criminal formation (organization), in territories of the Republic of Azerbaijan where the Russian peacekeeping contingent had been temporarily deployed.

These funds included **USD 2,370 (two thousand three hundred seventy United States dollars)** directly allocated by the Aurora Fund on 09 December 2020.

He also transferred field military uniforms regarded as military equipment, under the pretext of their “acquisition by particularly proactive groups consisting of volunteers,” thereby providing material support and supplying

Page 62

the armed formations and groups not provided for by the legislation of the Republic of Azerbaijan with military equipment, and thereby financing terrorism.

In addition, acting in accordance with the common criminal objective and intent of the criminal formation (organization), on **22 May 2022**, through written correspondence and voice messages using the WhatsApp mobile application, from the mobile number [REDACTED] to the mobile number [REDACTED], belonging to **Vartanov Vladimir (Vova) Levanovich**, Ruben Vardanyan concluded the corresponding transaction with him.

Vartanov was the founder of the terrorist organization known as **VoMa**, which was not provided for by law and had been established on 11 January 2013. It had begun operating as

an organized group constituting a structural subdivision of the criminal formation (organization) in the Republic of Armenia and in the territories of the Republic of Azerbaijan under occupation.

At the relevant time, it had branches in Armenia in **Yerevan, Goris, Kapan, Sisian, Gavar, Echmiadzin and Yeghegnadzor**.

Vartanov had participated in military operations against the Armed Forces of the Republic of Azerbaijan in the territory of the Republic of Azerbaijan during the First Karabakh War in the early 1990s, the hostilities of April 2016 and the Second Karabakh War of 2020.

On the basis of a list subsequently sent to him, which contained the names of:

Akopyan Armen Volodyevich;

Oganyan Arut Araikovich;

Dallakyan Khachik Sevadayeich;

Akopyan Mikael Arturovich;

Isaan Ovanes Sasunovich;

Bakhshyan Albert Artakovich; and

Ovanisyan Ovanes Mikaelovich,

who were instructors of the VoMa terrorist organization and had participated as members of an armed formation not provided for by law in military operations against the Armed Forces of the Republic of Azerbaijan in the territory of the Republic of Azerbaijan during the Second Karabakh War, Ruben Vardanyan concluded the corresponding transaction with Vartanov.

For the purpose of having the aforementioned instructors commit terrorist acts against citizens of the Republic of Azerbaijan, and organizing their training in methods for committing those acts and in the use of firearms, explosives, explosive devices, other publicly dangerous methods and technical equipment, Ruben Vardanyan deliberately transferred funds and other property at his disposal, knowing in advance that they would be used in the preparation, organization and commission by the criminal formation—of which those persons were members—of the acts provided for in Articles **214, 270-1, 278 and 279** of the Criminal Code, thereby financing terrorism.

In addition, continuing his criminal acts in accordance with the common criminal objective and intent of the criminal formation (organization), and contrary to the provisions of the **Warsaw Convention of 16 May 2005 on the Prevention of Terrorism**, Ruben Vardanyan acted for the purpose of supplying the said criminal formation (organization), and armed formations not provided for by law which operated as an organized group constituting its structural subdivision, with weapons, ammunition, explosives, military equipment and military supplies.

Those formations carried out unlawful activities in the territory of the Republic of Azerbaijan in contravention of domestic norms and the norms of international law, under the control of the military-political leadership of Armenia in the Karabakh region of the Republic of Azerbaijan. The purpose was also to maintain the occupation of the territories of the Republic of Azerbaijan by those illegal armed formations and to commit terrorist acts and other serious and especially serious offences against citizens of the Republic of Azerbaijan.

During **June 2022**, Ruben Vardanyan held negotiations with responsible officials of the company **AKBA**, which operated in the territory of the Russian Federation, concluded a transaction with them and prepared a set of documents entitled “**Terms of the Agreement**” concerning...

Page 63

the commencement of mass production, for transfer to the criminal formation and use against civilian and military targets, of surface-to-air guided missiles, transport-and-launch containers, container-type transport-and-launch units, target-detection stations, battery units and radio transmitters, power-supply and testing stations, as well as surface-to-air missile systems consisting of other devices; and the establishment of a joint venture in connection therewith.

For those purposes, he deliberately collected and transferred, in part, directly and indirectly, personal and other funds, thereby financing terrorism.

In addition, acting in accordance with the common criminal objective and intent of the criminal formation (organization), and for terrorist and subversive purposes, in **September 2022**, Ruben Vardanyan, as part of an organized group constituting part of the criminal formation (organization), being a citizen of a foreign state, unlawfully crossed the protected State Border of the Republic of Azerbaijan from the territory of the Republic of Armenia in the direction of the Lachin District, outside an official state border-crossing point.

He entered the territory of the Republic of Azerbaijan and took refuge in the Karabakh economic region, in the territory where the Russian peacekeeping contingent had been temporarily deployed.

Thereafter, contrary to the requirements of the **Agreement on the Limitation of Conventional Armed Forces in Europe of 19 November 1990**, the **Ottawa Convention of 03 December 1997 on the Prohibition of the Use, Stockpiling, Production and Transfer of Anti-Personnel Mines and on Their Destruction**, the **Council of Europe Convention on the Prevention of Terrorism**, signed in Warsaw on 16 May 2005, and numerous other norms of international law, and acting in accordance with the common criminal objective and intent of the criminal formation (organization), he deliberately collected funds in various amounts and other property, in whole and in part, directly and indirectly, which were at his disposal and at the disposal of individual citizens of foreign states.

He did so under the pretext of collections for funds allegedly established for humanitarian purposes, for the organization “**We Are Our Mountains**,” and under the pretext of carrying out other aid campaigns, while knowing in advance that the funds and property would be used in the preparation, organization and commission by the criminal organization of the acts

provided for in Articles **214, 270-1, 278 and 279** of the Criminal Code, and for financing a terrorist organization.

For the purpose of implementing the plan prepared by the leadership of the said formation to continue the aggressive war in the sovereign territories of the Republic of Azerbaijan, in accordance with the objectives of the criminal formation (organization), and to commit terrorist acts using those funds, he unlawfully acquired, as part of an organized group constituting part of the criminal formation, during the period from the beginning of September 2022 until the end of September 2023:

firearms;

their component parts;

ammunition;

explosives and explosive devices;

artillery weapons; and

military equipment.

He transported them from the Republic of Armenia into the Republic of Azerbaijan in the direction of the Lachin District, thereby smuggling them into the territory of the Republic of Azerbaijan.

He then organized their unlawful transportation to specially prepared military warehouses situated near the village of **Kolatag, Aghdara District**, and in the city of **Khankendi**, at the coordinates:

x4410740/y8650423;

x4412768/y8650179; and

x4411833/y8651149;

as well as to a building in the city of Khankendi which he had arbitrarily taken for his own use under the pretext of using it as a personal office, at the coordinates **x4410849/y8650297**, where he stored them.

Continuing his criminal acts in accordance with the common criminal objective and intent of the criminal formation (organization), for the purpose of directly participating in the planning, organization and commission of offences, Ruben Vardanyan, by prior agreement with others, under the pretext of his appointment on **04**

Page 64

November 2022 by **Harutyunyan Arayik Vladimirovich**, who operated as part of the criminal formation (organization) as the “President” of the unrecognized “Republic of Artsakh,” to the position of “State Minister” of the said unrecognized entity, assumed duties

and functions connected with the leadership of the criminal formation and its structural subdivisions.

Having effectively become a person authorized to adopt decisions and perform the functions of a leader within the criminal formation, he, together with others, directed the continuation by the criminal formation of the criminal acts provided for in Articles **100.1, 100.2, 107, 109, 110, 112, 113, 114.1, 115.2, 116.0.1, 116.0.2, 116.0.10, 116.0.11, 116.0.16, 116.0.18, 120.2.1, 120.2.3, 120.2.4, 120.2.7, 120.2.11, 120.2.12, 29, 120.2.1, 29, 120.2.3, 29, 120.2.4, 29, 120.2.7, 29, 120.2.11, 29, 120.2.12, 192.3.1, 214.2.1, 214.2.3, 214.2.4, 214-1, 218.1, 218.2, 228.3, 270-1.2, 270-1.4, 278.1, 279.1, 279.2, 279.3 and 318.2** of the Criminal Code of the Republic of Azerbaijan, thereby directly participating in the commission of those criminal acts by the criminal formation.

In particular, beginning from that time, under the pretext of performing activities in the said “position,” and acting in accordance with the common criminal objective and intent of the criminal formation (organization), Ruben Vardanyan, in gross violation of the requirements of the **Council of Europe Convention on the Prevention of Terrorism of 16 May 2005** and other norms of international law, created in the occupied territories of the Republic of Azerbaijan a military group not provided for by the legislation of the Republic of Azerbaijan, under the designation “**local self-defence groups**,” as well as other organized armed groups consisting mainly of professional military personnel.

He participated in their creation and activities; supplied their members with firearms, ammunition, explosives, military equipment and military supplies organized using funds in various amounts and other property which were at his disposal and at the disposal of individual citizens of foreign states; and deliberately collected those funds and property, in whole and in part, directly and indirectly, under the pretext of collections for funds allegedly established for humanitarian purposes, for the organization “**We Are Our Mountains**,” and under the pretext of conducting other aid campaigns.

He did so knowing in advance that they would be used in the preparation, organization and commission by the criminal organization of the acts provided for in Articles **214, 270-1, 278 and 279** of the Criminal Code, and for financing a terrorist organization.

The weapons, ammunition, explosives, military equipment and military supplies were unlawfully stored in specially prepared warehouses situated near the village of Kolatag, Aghdara District, and in the city of Khankendi, at the coordinates **x4410740/y8650423, x4412768/y8650179 and x4411833/y8651149**, as well as in the building in the city of Khankendi which he had arbitrarily taken for his own use under the pretext of using it as a personal office, at the coordinates **x4410849/y8650297**.

At the same time, acting in accordance with the common criminal objective and intent of the criminal formation (organization), Ruben Vardanyan compiled a list of the leaders and members of the military group known as the “local self-defence groups,” which was not provided for by the legislation of the Republic of Azerbaijan, as well as of other organized armed groups consisting mainly of professional military personnel.

He allocated and paid each of the persons named in that list, depending on the unlawful activities performed by them, between **USD 700 and USD 2,000**.

In doing so, he transferred funds, in part, directly and indirectly, knowing in advance that they would be used for the terrorist activities of the said illegal armed formations and groups, namely for organizing and carrying out explosions, fires and other acts—terrorist acts—creating a danger of death, harm to health, significant damage to property and other socially dangerous consequences, for the purpose of undermining public security,...

Page 65

creating panic among the population and influencing decisions adopted by state authorities and international organizations, thereby financing terrorism.

In addition, contrary to the requirements of the **Council of Europe Convention on the Prevention of Terrorism**, signed in Warsaw on 16 May 2005, and other norms of international law, and acting in accordance with the common criminal objective and intent of the criminal formation (organization), Ruben Vardanyan acted for the purpose of supplying organized illegal armed groups constituting part of the said criminal formation (organization).

Beginning in **September 2022**, he unlawfully acquired from a source not established by the investigation:

seven factory-produced **F-1 hand fragmentation grenades**;

seven explosive fuzes of the **UZRGM** and **UZRGM-2** types;

1,257 factory-produced 7.62-mm cartridges, including 40 tracer cartridges;

448 factory-produced 5.45×39-mm cartridges; and

three factory-produced magazines for **AK-series Kalashnikov assault rifles**—AKM, AKS and AKMS—each having a capacity of 30 cartridges of 7.62×39-mm calibre.

Those items were fit for their intended use, constituted ammunition and were suitable for use.

Together with other weapons and ammunition, he unlawfully transported them from the Republic of Armenia into the Republic of Azerbaijan and arranged for their storage.

During an inspection conducted on **03 October 2023** of a building in the city of Khankendi which he had arbitrarily taken for his own use under the pretext of using it as a personal office, the aforementioned ammunition and magazines were discovered and seized, together with:

five tactical helmets;

five bulletproof vests;

26 field sleeping sets regarded as military equipment; and

one radio station regarded as a special communications device.

Furthermore, during an inspection conducted on **04 October 2023** of a country house and yard in the village of Kolatag, Aghdara District, where Ruben Vardanyan had previously resided, **14 field sleeping sets** were discovered and seized.

In addition, while carrying out activities in the “position” of “State Minister” of the unrecognized entity as part of the criminal formation (organization), acting in accordance with its common criminal objective and intent and with the support and under the control of the military-political leadership of Armenia, Ruben Vardanyan acted for the purpose of supplying military equipment to a military formation not provided for by law which operated as organized groups constituting a structural subdivision of the said criminal formation and carried out unlawful activities in contravention of the norms of international law.

On **11 November 2022**, through correspondence using the WhatsApp mobile application, from the mobile number [REDACTED], which was in his use, to the mobile number [REDACTED], used by full member of the Russian Engineering Academy **Arustamyan Ernest Sanaturovich**, he held negotiations with the Czech company **Liaz** concerning the purchase of a helicopter-type unmanned aerial vehicle—UAV—intended for use by illegal armed formations in the unrecognized entity known as “Artsakh,” created in the occupied territories of the Republic of Azerbaijan.

Ruben Vardanyan agreed with Ernest Arustamyan’s proposal concerning the acquisition of technical documentation for the said UAV and the construction of a plant for its production.

Using the mobile number [REDACTED], he then contacted, through the WhatsApp mobile application, **Arman Jilavyan**, General Director of the organization operating under the name of the **Aurora humanitarian initiative group**, at the latter’s mobile number [REDACTED]

After sending him the text of the aforementioned correspondence, he instructed him to acquire the technical documentation for the purchase of the UAV and the construction of a plant for its production, and

Page 66

deliberately transferred funds and other property at his disposal, knowing that they would be used in the preparation, organization and commission by the criminal formation of the acts provided for in Articles **214, 270-1, 278 and 279** of the Criminal Code, and for financing a terrorist organization, thereby financing terrorism.

Under the pretext of carrying out activities in the “position” of “State Minister” of the unrecognized entity known as “Artsakh,” created by the criminal formation (organization), and, after ceasing those activities on **23 February 2023**, continuing the criminal acts in accordance with the common criminal objective and intent of the criminal formation (organization), Ruben Vardanyan, together with other persons and independently of them, effectively participated in directing the criminal formation (organization) and its structural subdivisions.

Together with others, he directed the continuation by the criminal formation of the criminal acts provided for in Articles **100.1, 100.2, 107, 109, 110, 112, 113, 114.1, 115.2, 116.0.1, 116.0.2, 116.0.10, 116.0.11, 116.0.16, 116.0.18, 120.2.1, 120.2.3, 120.2.4, 120.2.7, 120.2.11, 120.2.12, 29, 120.2.1, 29, 120.2.3, 29, 120.2.4, 29, 120.2.7, 29, 120.2.11, 29, 120.2.12,**

192.3.1, 214.2.1, 214.2.3, 214.2.4, 214-1, 218.1, 218.2, 228.3, 270-1.2, 270-1.4, 278.1, 279.1, 279.2, 279.3 and 318.2 of the Criminal Code, and directly participated in the organization by the criminal formation of those criminal acts.

In addition, continuing his criminal acts in accordance with the common criminal objective and intent of the criminal formation (organization) of which he was a member, and contrary to the requirements of the **Council of Europe Convention on the Prevention of Terrorism of 16 May 2005** and other norms of international law, in **March–April 2023**, Ruben Vardanyan sent to a number of persons a plan of action personally prepared by him entitled:

“The Political Parties Initiative Group and Artsakh Must Undertake the Measures Set Out Below.”

With reference to a number of terrorist acts committed in the previous century by members of Armenian terrorist organizations against officials of various states—“Nemesis”—he proposed extending or commencing the terrorist operation **“Nemesis-2.”**

The operation was to involve terrorism against representatives of the diplomatic corps of the Republic of Azerbaijan in foreign states and citizens of the Republic of Azerbaijan performing their official duties and fulfilling their public duty, namely explosions and other terrorist acts creating a danger of death and other socially dangerous consequences, for the purpose of undermining public security, creating panic among the population and influencing decisions adopted by state authorities, using firearms and objects capable of being used as weapons.

He thereby prepared the commission of the aforementioned terrorist acts.

In addition, contrary to the provisions of the **Warsaw Convention on the Prevention of Terrorism of 16 May 2005** and numerous other norms of international law, and acting in accordance with the common criminal objective and intent of the criminal formation (organization), on **18 May 2023**, Ruben Vardanyan prepared a written plan concerning the conduct of training for persons aged between **20 and 55** in territories of the Republic of Azerbaijan where the Russian peacekeeping contingent was temporarily deployed.

The training was to be organized under the direction of the group known as the **“Artsakh Security and Development Front,”** which formed part of the criminal formation (organization) and had effectively been established by him personally.

For those purposes, the plan provided for the creation of military camps and the simultaneous conduct of military exercises for **30 persons**, under the direction of two instructors in each camp.

In accordance with that plan, during the period from **May to August 2023**, he deliberately collected funds at various times from:

the **Ruben Vardanyan Foundation**;

the **Dilijan Community Center**;

the **Aznavour Foundation**;

the **IDEA Charitable Foundation**;

other organizations and funds; and

individuals,

for the organization established by him under the name “**We Are Our...**”

Page 67

Mountains” in various amounts, including, in **May 2023**, funds in the amount of **USD 212,000** (**two hundred twelve thousand United States dollars**, equivalent to **360,400 manats**).

Those funds were collected in full for the financing and organization of exercises directly connected with terrorism. Using the said funds through the organization known as “**We Are Our Mountains**,” and disguising the activity as information published on internet resources concerning allegedly sporting competitions in **airsoft** under the title “**David Bek Military Sport**,” and concerning the “**ability to survive in extreme conditions**” under the direction of the **Artsakh Security and Development Front**, during the period from May to August 2023, he directly organized and conducted military exercises in a special camp on the bank of the Badara River, flowing near the village of Badara, Khojaly District, at the coordinates **x39.906947, y46.655509**.

The exercises were conducted for groups bearing designations corresponding to the names of the terrorist organizations **ASALA**—the *Armenian Secret Army for the Liberation of Armenia*—and **Nemesis**—“Revenge”—and consisting mainly of young persons.

The military exercises concerned methods for carrying out terrorist acts; preparation for the use of firearms, explosives and explosive devices; other publicly dangerous methods and technical means; and the subsequent informing of other members of the criminal formation (organization) about those exercises, including **Ovakimyan Aik Armenovich**, with whom Ruben Vardanyan maintained close relations.

In addition, acting in accordance with the common criminal objective and intent of the criminal formation (organization), during the period from **02 July 2023 to 20 September 2023**, using the mobile number [REDACTED], Ruben Vardanyan held negotiations and exchanged correspondence with **Poghosyan Vladimir Sergeevich**.

Poghosyan was a citizen of the Republic of Armenia who had served in the National Security Service of the Republic of Armenia and as assistant to the Chief Adviser to the President of the Republic of Armenia on national-security matters; was the founder and chairman of the movement known as “**Committee 27**”; and carried out activities as a security expert.

Ruben Vardanyan contacted him through the **Signal** mobile application at the latter’s mobile number [REDACTED], as well as through other mobile applications and social networks.

They concluded an agreement concerning a new special-purpose armed formation not provided for by the legislation of the Republic of Azerbaijan, which was to be financed by

Ruben Vardanyan and deployed in territories where the Russian peacekeeping contingent had been temporarily stationed.

They also agreed that the said military formation would be supplied with special-purpose weapons, ammunition, explosives, military equipment and military supplies for the purpose of keeping the sovereign territories of the Republic of Azerbaijan under occupation; maintaining the Azerbaijani population in a state of fear and panic; and thereby preventing displaced persons from returning to the territories remaining under occupation.

They further agreed that Ruben Vardanyan was to acquire and deliver to the illegal armed formation a special-purpose **electronic-warfare system** capable of destroying aircraft, equipped with a 12-channel control system operating at frequencies between **300 MHz and 8 GHz** at a distance of **50 kilometres**.

In fulfilment of the foregoing, Ruben Vardanyan deliberately collected and transferred, in part, directly and indirectly, funds and thereby financed terrorism.

In addition, acting in accordance with the common criminal objective and intent of the criminal formation (organization), and with the support and under the control of the military-political leadership of Armenia, Ruben Vardanyan acted for the purpose of supplying military equipment to armed formations forming part of the said criminal formation (organization), which carried out unlawful activities in contravention of international law in the occupied territories

Page 68

of the Republic of Azerbaijan.

During **September 2023**, he took steps to purchase a **Malloy-type unmanned aerial vehicle**, manufactured in the United Kingdom of Great Britain and Northern Ireland, with a payload capacity of **180 kilograms** and an operating range of **70 kilometres**.

Using the Telegram application, he contacted **Artur Alaverdyan**, with whom he maintained close relations, through the mobile number [REDACTED]

At the latter's mobile number [REDACTED] Ruben Vardanyan instructed him to purchase a Malloy-type unmanned aerial vehicle abroad.

On **14 September 2023**, he shared video files depicting the unmanned aerial vehicle in a Telegram group entitled "**ATP 'We Are Our Mountains'**," thereby informing the members of the group about it.

He deliberately collected funds and other property from citizens of various foreign states, knowing in advance that they would be used, in whole or in part, directly or indirectly, in the preparation, organization and commission by the criminal formation (organization) of the acts provided for in Articles **214, 270-1, 278 and 279** of the Criminal Code, thereby financing terrorism.

The leaders of the criminal formation (organization), and of the armed formations constituting its structural subdivision, which carried out unlawful activities in the territory of

the Republic of Azerbaijan in contravention of domestic and international legal norms, with the support of the military-political leadership, including the Armed Forces and other armed formations of the Republic of Armenia, as well as with their direct material and technical support and support in the form of personnel, on the basis of their centralized command, oral and written directions, assignments and instructions, and under their strict control;

as well as other persons acting in accordance with the common criminal objective and intent of the criminal formation (organization), for the purpose of continuing the national hatred and hostility fostered by them within Armenian society against Azerbaijanis; ensuring that the sovereign territories of the Republic of Azerbaijan occupied during the aggressive war initiated by them against Azerbaijan remained under occupation; keeping the Azerbaijani population in a permanent state of fear and panic and thereby preventing by all possible means its return to the places where it had previously lawfully resided; compelling the Republic of Azerbaijan to renounce its sovereign territories in favour of Armenia;

continuously subjecting to fire from various types of weapons the places of residence of the peaceful civilian population of Azerbaijan lawfully residing in the sovereign territories of Azerbaijan, along the line of contact with the territories occupied by them and also at considerable distances from it; causing explosions and fires in the areas where they resided, that is, using methods of warfare capable of causing significant destruction during an armed conflict; causing widespread, long-term and serious damage to the environment; carrying out large-scale destruction not justified by military necessity; attacking undefended territories, populated localities and demilitarized zones; indiscriminately laying numerous mines and other explosive devices without any military necessity; depriving the Azerbaijani population of the rights to freedom of movement and to healthy and safe residence in the territory of the country of which they were citizens, as well as of other fundamental rights;

thereby intentionally killing them with particular cruelty; committing terrorism on grounds of national and ethnic hatred and hostility, as well as in connection with the performance of official duties and the fulfilment of public duty; persecuting them in contravention of the norms of international law; taking them prisoner and hostage; subjecting them to enforced disappearance; and torturing them specifically because they were Azerbaijanis, as well as for other criminal purposes;

in gross violation of the provisions of international law concerning the unconditional and immediate liberation of the Karabakh region and the adjacent occupied districts, which were...

Page 69

forming an integral part of the Republic of Azerbaijan, which had been occupied by the Armed Forces of the Republic of Armenia and other military formations as a result of the aggressive war initiated against the Republic of Azerbaijan beginning in 1987 and liberated from occupation during the military operations conducted from 27 September 2020 to 10 November 2020;

including United Nations Security Council Resolutions No. 822 of 30 April 1993, No. 853 of 29 July 1993, No. 874 of 14 October 1993 and No. 884 of 12 November 1993; the principles of Article 2 of the Charter of the United Nations of 26 June 1945, according to which “all Members shall refrain in their international relations from the threat or use of force against

the territorial integrity or political independence of any state, or in any other manner inconsistent with the Purposes of the United Nations”; the Protocol against the Illicit Manufacturing of and Trafficking in Firearms, Their Parts and Components and Ammunition, supplementing the United Nations Convention; and the Warsaw Convention on the Prevention of Terrorism of 16 May 2005;

they recruited persons of Armenian origin engaged in entrepreneurial activity in the territory of the Russian Federation who possessed substantial financial resources, as well as other extensive and stable connections and capabilities, with whom they reached prior agreements and prepared a plan for supplying members of the criminal formation (organization) and the groups forming part of it with weapons, ammunition, explosives, military equipment and military supplies.

For the purpose of implementing that plan, Ruben Vardanyan and other members of the criminal formation (organization), during the period up to the end of May 2021, contrary to the requirements of the Customs Convention on the International Transport of Goods of 14 November 1975, ratified by the Republic of Armenia on 08 December 1993, and the Treaty on Conventional Armed Forces in Europe of 19 November 1990, unlawfully acquired and, by 29 December 2020, transported through Russian-Armenian airspace, aboard passenger aircraft operating various routes, as well as aboard:

an **Il-76TD cargo aircraft**, bearing registration number **76310**, which had been recorded on the balance sheet of the Armenian Air Force since 2006 and, from 2015, on the balance sheet of the Armenian civil-aviation company **Atlantis Armenian Airlines** under registration number **EK76345**, but which, in August and September 2020, again operated flights for the Armenian Air Force under registration number **76310**; and

another **Il-76TD cargo aircraft** acquired by them,

the following weapons:

an **Iskander-M operational-tactical ballistic missile**, manufactured at the Votkinsk Plant in the Russian Federation, possessing powerful destructive capabilities and having a maximum firing range of 500 kilometres;

a **Tochka-U tactical missile system**, manufactured by the Machine-Building Design Bureau in Kolomna, Russian Federation;

a self-propelled **9K33 Osa surface-to-air missile system**;

an **S-8 unguided aircraft rocket**;

the **Smerch** and **TOS-1A Solntsepyok** systems;

an **Igla-S surface-to-air missile system**;

Konkurs and **Kornet guided anti-tank missiles**;

RPG-26 grenade launchers; and

various types of large-calibre military firearms, their component parts, ammunition, explosives and explosive devices.

They secretly transported those weapons through the Russian Federation into the Republic of Armenia and, from there, to engineer and sapper positions unlawfully constructed by them in the Karabakh region and the surrounding districts under the occupation of the Republic of Armenia.

They subsequently used those weapons in the aggressive war against Azerbaijan and in the commission of other serious and especially serious criminal acts.

In addition, during his participation in and direction of the said criminal formation (organization), acting in accordance with its common criminal objective and intent, Ruben Vardanyan acted for the purpose of continuing the aggressive war against the Republic of Azerbaijan; thereby keeping the occupied territories under his control; maintaining the Azerbaijani population in a permanent state of fear and panic; and thus preventing its return to the territories liberated from

Page 70

occupation; subjecting the peaceful civilian population in the sovereign territories of the Republic of Azerbaijan to explosions; restricting their freedom of movement; using methods of warfare capable of causing significant destruction; and deliberately causing widespread, long-term and serious damage to the environment.

Contrary to the requirements of international law, namely the Charter of the United Nations of 26 June 1945; United Nations General Assembly Resolution of 14 December 1974 on the Definition of Aggression; Articles 34, 130 and 147 and other articles of the Fourth Geneva Convention of 12 August 1949 relative to the Protection of Civilian Persons in Time of War; Article 34 of Additional Protocol I of 08 June 1977 relating to the Protection of Victims of International Armed Conflicts; the European Convention of 04 November 1950 for the Protection of Human Rights and Fundamental Freedoms; Protocol No. 1 thereto; the International Covenant on Civil and Political Rights of 16 December 1966; the Ottawa Convention of 03 December 1997 on the Prohibition of the Use, Stockpiling, Production and Transfer of Anti-Personnel Mines and on Their Destruction; the Protocol on Prohibitions or Restrictions on the Use of Mines, Booby-Traps and Other Devices, annexed to the Convention of 10 October 1980 on Prohibitions or Restrictions on the Use of Certain Conventional Weapons Which May Be Deemed to Be Excessively Injurious or to Have Indiscriminate Effects; and the Warsaw Convention of 16 May 2005 on the Prevention of Terrorism;

during the period from the beginning of December 2020 until the end of September 2023, he participated in organizing the unlawful acquisition and transportation of anti-personnel and anti-tank mines of various types by members of the armed formations, their unlawful transportation from the Republic of Armenia into the Republic of Azerbaijan, their unlawful storage in locations specially designated for that purpose, and the indiscriminate mining of territories of the Republic of Azerbaijan with numerous mines and other explosive devices without any military necessity.

In addition, acting in accordance with the common criminal intent and objective of the formation and each of its members, members of the criminal formation (organization), in the territory of the village of **Gulebird, Lachin District**, shortly before its liberation from occupation—that is, during the period from 27 September to 01 December 2020—created minefields at various times by burying **PMN anti-personnel mines**.

On the morning of **01 December 2020**, servicemen of an unidentified military unit of the Ministry of Defence, while performing their official duties in the territory of the village of Gulebird, Lachin District—which had served as a combat position of Armenian armed formations during the occupation—triggered a previously buried **PMN blast-type anti-personnel mine** whose date of manufacture and place of origin were unknown.

As a result of the explosion:

Mammadov Miraga Agamir oglu, who served with the rank of private as a medical orderly at the medical station of the unidentified military unit of the Ministry of Defence, sustained a traumatic amputation of the middle third of his right lower leg, classified as less serious bodily injury causing a prolonged health disorder;

Huseyni Safa Adilkhan oglu, who served with the rank of junior sergeant as commander of the second team of the first engineer-sapper platoon of the engineer-sapper company, sustained pigmentation of the right half of his face, classified as an injury causing no harm to health; and

Rajivli Taleh Shakir oglu, who served with the rank of private as a sapper, sustained a wound to the anterior surface of his right auricle, classified as an injury causing no harm to health.

They received timely specialized medical assistance. In addition, at the time of the incident, they lay down on the ground and managed to avoid numerous fragments, as a result of which their lives were saved.

In addition, acting in accordance with the common criminal intent and objective of the formation and each of its members, members of the criminal formation (organization), in the territory of the village of **Hasangaya, Tartar District**, during the occupation, in the part of that village occupied by them, on dates not precisely established by the investigation...

Page 71

in a planned manner, buried numerous anti-tank and anti-personnel mines close to one another, the models and places of manufacture of which are unknown to the investigation, and organized ambushes, thereby creating minefields for the purpose of achieving the objectives of the said criminal formation.

On **04 December 2020**, at approximately **11:00**, **Selimov Mammad Vahid oglu**, a soldier of an unidentified military unit of the Ministry of Defence stationed in the territory of the village of Hasangaya, Tartar District, triggered an anti-personnel mine while at Combat Position No. 12 of the said military unit.

He sustained:

a traumatic avulsion of the left lower leg at the level of its middle third;
shrapnel wounds to both lower extremities and the right upper kneecap; and
multiple blind shrapnel wounds,

which were classified as serious bodily injuries dangerous to life.

He received timely specialized medical assistance, as a result of which his life was saved and they were unable intentionally to kill him.

In addition, acting in accordance with the common criminal intent and objective of the formation and each of its members, shortly before the liberation of the **Kalbajar District** from occupation—that is, during the period from **27 September 2020 to 05 December 2020**—members of the criminal formation created minefields in the territory of the village of **Zar, Kalbajar District**, on dates not precisely established by the investigation.

They buried numerous anti-tank and anti-personnel mines of the following types:

TM-62;

TM-57;

TMK-2;

TM-72;

TM-73; and

TM-83.

On the morning of **05 December 2020**, servicemen of an unidentified military unit of the Ministry of Defence, travelling in a **KamAZ-4314** vehicle bearing military registration plate **H 256 QQ**, triggered one of the previously buried anti-tank blast mines of the TM-62, TM-57, TMK-2, TM-72, TM-73 and TM-83 types, the dates and places of manufacture of which were unknown.

As a result of the explosion, the KamAZ-4314 vehicle was rendered completely unusable.

Velizade Vusal Rahim oglu, who served with the rank of conscript soldier as driver of the first section of the second platoon of the third battery of the artillery battalion of the unidentified military unit of the Ministry of Defence, sustained various bodily injuries that caused no harm to his health.

He survived because the vehicle's metal structure partially retained the fragments. The vehicle belonging to the military unit sustained significant damage.

In addition, acting in accordance with the common criminal intent and objective of the formation and each of its members, as a result of the large-scale aggressive war initiated by them against Azerbaijan, in the territory of the **Jabrayil District**, which they had occupied on

23 August 1993, and in nearby villages, shortly before those territories were liberated from occupation—that is, during the period from **27 September 2020 to 05 December 2020**—on dates not precisely established by the investigation, they created minefields for the purpose of achieving the objectives of the said criminal organization.

By installing explosive devices and organizing ambushes in a planned manner inside structures remaining undestroyed in the territories abandoned by them, following countermeasures undertaken by the Armed Forces of the Republic of Azerbaijan to prevent the large-scale aggressive attacks that had acquired an increasingly active character beginning on 27 September 2020, and following the liberation of the Jabrayil District and the surrounding villages on 03 October 2020, they created minefields.

On **05 December 2020**, at approximately **10:00**, **Abasov Idrak Nizameddin oglu**, who served with the rank of senior lieutenant as commander of the first company of the first rapid-response battalion of an unidentified military unit of the State Border Service, was on duty at a military unit situated in the territory of the Jabrayil District liberated from occupation.

He sustained:

minor lacerations to the third, fourth and fifth fingers of his right hand, classified as less serious bodily injuries causing a prolonged health disorder; and

an avulsion fracture of the proximal end of the fifth metacarpal bone.

The injuries resulted from the explosion of one of the **M-DN 11, M-DN 21, M-DN 31 and M-DN 61** fragmentation hand-grenade models manufactured by the German company **Diehl**, the date of manufacture of which was unknown, which had been installed as a booby trap opposite a window inside the guardhouse building situated in the military unit.

Page 72

He received timely specialized medical assistance, as a result of which his life was saved.

In addition, acting in accordance with the common criminal intent and objective of the formation and each of its members, shortly before the liberation of the area from occupation—that is, during the period from **27 September 2020 to 05 December 2020**—members of the criminal formation created minefields in the territory of the village of **Zar, Kalbajar District**.

They buried on the road numerous blast-type anti-tank mines of the **TM-62, TM-57, TMK-2, TM-72, TM-73 and TM-83** types.

On the morning of **06 December 2020**, at approximately **15:00**, servicemen of an unidentified military unit of the Ministry of Defence were travelling in a **KamAZ-4314** vehicle bearing military registration plate **H 692 QQ**, driven by **Ahmedov Yusif Murad oglu**, who served with the rank of junior sergeant as a driver in the logistics section of that military unit.

The vehicle triggered one of the mines of the TM-62, TM-57, TMK-2, TM-72, TM-73 and TM-83 types that had previously been buried in the territory, the dates and places of manufacture of which were unknown.

As a result of the explosion, the KamAZ-4314 vehicle was rendered completely unusable.

Ahmedov Javid Gahraman oglu, who served with the rank of warrant officer as commander of the first platoon of the logistics section of the unidentified military unit of the Ministry of Defence, sustained bruising of the gluteal region, classified as an injury causing no harm to health.

Ibrahimov Ramil Mammad oglu, who served with the rank of soldier as chief operator of a bulldozer in the road-engineering section of the engineer-sapper company, sustained a closed compression fracture of the third lumbar vertebra without complications or displacement, classified as serious bodily injury dangerous to life.

Ahmedov Yusif Murad oglu, who served with the rank of junior sergeant as a driver in the logistics section, sustained open comminuted fractures with displacement of the lower third of the shafts of both bones of the left lower leg, classified as serious bodily injury dangerous to life.

They survived because they received timely specialized medical assistance and because the vehicle's metal structure partially retained the fragments. The vehicle belonging to the military unit sustained significant damage.

In addition, acting in accordance with the common criminal intent and objective of the formation and each of its members, in the territory of the **Khojavend District**, which they had occupied on 02 October 1992 as a result of the large-scale aggressive war initiated by them against Azerbaijan, shortly before its liberation from occupation—that is, during the period from **27 September 2020 to 06 December 2020**—on dates not precisely established by the investigation, they buried numerous anti-tank and anti-personnel mines close to one another in a planned manner.

The types, models and places of manufacture of those mines are unknown to the investigation.

They organized ambushes, thereby creating minefields for the purpose of achieving the objectives of the criminal organization.

Following the liberation of the Khojavend District and many surrounding villages from occupation on **09 October 2020**, and pursuant to the trilateral Statement of **10 November 2020**, on **06 December 2020**, at approximately **13:30**, servicemen of the fifth battalion of an unidentified military unit of the Ministry of Defence, soldiers **Rahimli Vusal Tagi oglu** and **Ahmedov Murad Vugar oglu**, while travelling on foot in the territory of the settlement of **Shekher, Khojavend District**, triggered an anti-tank mine of an unknown date and place of manufacture that had previously been buried in that territory.

As a result, **Vusal Rahimov** sustained:

multiple shrapnel wounds to the right arm and lower extremities;

a traumatic avulsion of the right leg; and

bodily injuries which, in their totality, were classified as serious and dangerous to life;

while **Murad...**

Page 73

Ahmedov sustained:

a traumatic avulsion—amputation—in the region of the ankle joint of the right lower extremity; and

multiple shrapnel wounds to the soft tissues of the left lower extremity,

which, taken together, were classified as serious bodily injuries dangerous to life.

The lives of both servicemen were saved because they were evacuated in a timely manner and received specialized medical assistance.

In addition, acting in accordance with the common criminal intent and objective of the formation and each of its members, members of the criminal formation (organization), in the territory of the village of **Marzili, Aghdam District**, which they had occupied on **11 June 1993**, shortly before that territory was liberated from occupation—that is, during the period from November to December 2020—on dates not precisely established by the investigation, buried numerous anti-tank and anti-personnel mines close to one another in a planned manner.

The types, models and places of manufacture of those mines are unknown to the investigation.

They organized ambushes, thereby creating minefields for the purpose of achieving the objectives of the criminal organization.

Following the liberation of those territories from occupation on **20 November 2020**, on **09 December 2020**, at approximately **17:10**, servicemen of an unidentified military unit of the Ministry of Defence were travelling through the territory of the village of Marzili, Aghdam District, along the village road, in a **KamAZ-43114** vehicle bearing military registration plate **D 588 QQ**, toward their military unit.

The left rear wheel of the vehicle triggered an anti-tank mine that had previously been buried beneath the said road.

As a result, fragments from the exploding mine caused significant material damage to the vehicle.

At the same time, the following persons travelling in the vehicle:

platoon commander **Abbasov Rashad Yaver oglu**;

soldier **Abbasov Ulfat Namaz oglu**; and

soldier **Safarov Shakhveran Fazail oglu**

sustained barotrauma of undetermined severity, accompanied by pressure in the middle ear caused by the blast wave.

The three servicemen were not killed because the vehicle stopped the fragments. The vehicle belonging to the military unit sustained significant damage.

In addition, acting in accordance with the common criminal intent and objective of the formation and each of its members, members of the criminal formation (organization), in the territory of the village of **Shikhlar, Aghdam District**, which they had occupied on **26 April 1994**, during the period of occupation, on dates not precisely established by the investigation, buried numerous anti-tank and anti-personnel mines close to one another in a planned manner.

The types, models and places of manufacture of those mines are unknown to the investigation.

They organized ambushes, thereby creating minefields for the purpose of achieving the objectives of the criminal organization.

Following the liberation of those territories from occupation on **20 November 2020**, on **13 December 2020**, at approximately **14:00**, servicemen of an unidentified military unit of the Ministry of Defence were passing along a road through a trench near a combat position in the territory of the village of Shikhlar, Aghdam District, when they triggered mines.

As a result:

soldier **Hasanli Ayaz Gasrat oglu** sustained crush-lacerated wounds to the left leg, fractures of the bones of the lower leg and multiple shrapnel wounds in the region of the left forearm, classified as serious bodily injuries dangerous to life;

another soldier serving at the same position, **Huseynov Shamistan Sabir oglu**, sustained open comminuted fractures of the left leg with displacement, multiple blind shrapnel wounds to the left arm and right lower leg, classified as serious bodily injuries dangerous to life;

another soldier serving at the same position, **Ibrahimov Vugar Ayaz oglu**, sustained amputations of both lower legs at the level of the upper third, classified as serious bodily injuries dangerous to life; and

the company commander serving at the same position, Senior Lieutenant **Askerov Anar Telman oglu**, sustained a closed craniocerebral injury, concussion and barotrauma—which resulted in bilateral cochlear neuritis and bilateral sensorineural hearing loss—

Page 74

classified as serious bodily injuries dangerous to life.

Their lives were nevertheless saved because they received timely specialized medical assistance.

The assistant commander of the military unit for legal affairs, Captain **Hasanov Jamil Gadimali oğlu**, who served at the same position, sustained a closed craniocerebral injury, concussion and barotrauma, classified as less serious bodily injury causing a prolonged health disorder.

Another soldier serving at the same position, **Gurbanov Jeyhun Ashraf oğlu**, sustained bilateral chronic neuritis, bilateral sensorineural hearing loss, a closed craniocerebral injury and concussion, classified as less serious bodily injuries causing a prolonged health disorder.

The head of the medical station serving at the same position, Medical Service Lieutenant **Akperov Samir Safar oğlu**, sustained a closed craniocerebral injury, concussion, a foreign body in the sclera of both eyes, and multiple blind shrapnel wounds to the right frontal and right temporal regions, classified as minor bodily injuries causing a short-term health disorder.

They were nevertheless unable to kill the seven servicemen because the latter promptly lay down in the trench and received medical assistance.

In addition, acting in accordance with the common criminal intent and objective of the formation and each of its members, members of the criminal formation (organization), near the village of **Seyidli, Aghdam District**, which they had occupied in July 1993 as a result of the large-scale aggressive war initiated by them against Azerbaijan, shortly before its liberation from occupation—that is, during the period from **27 September 2020 to 20 November 2020**—buried numerous anti-tank and anti-personnel mines close to one another in a planned manner.

The types, models and places of manufacture of those mines are unknown to the investigation.

They organized ambushes, thereby creating minefields for the purpose of achieving the objectives of the criminal organization.

After the territories concerned were fully liberated from occupation on **20 November 2020** as a result of the countermeasures carried out by the Armed Forces of the Republic of Azerbaijan to prevent the large-scale aggressive attacks which had acquired an increasingly active character beginning on 27 September 2020, residents of the village of Zangishali, Aghdam District:

Mammadov Elchin Ganboy oğlu, born on 17 July 1990;

Rahimli Shamistan Yunis oğlu, born on 30 October 1993;

Ahmedov Orkhan Kamil oğlu, born on 06 February 1994;

Guliyev Parviz Rahbar oğlu, born on 16 October 1987; and

Ahmedov Togrul Vilayat oğlu, born on 05 June 1989,

visited those locations at approximately **15:00 on 13 December 2020** in order to see their native lands.

They were moving back through trenches forming part of the criminal organization's engineer-sapper installations—that is, in the direction of the village of Zangishali, Aghdam District—when one of the mines exploded.

As a result, **Elchin Mammadov** sustained:

crush-lacerated wounds to the intestines penetrating the abdominal cavity;

a wound to the mesenteric artery;

traumatic amputations of the right lower leg and left forearm;

fractures of the left femur and pelvis;

multiple shrapnel wounds to the body; and

acute blood loss,

as a result of which he was intentionally killed.

Orkhan Ahmedov, who was beside him at the time, sustained:

crush-lacerated wounds to the soft tissues of the outer corner of the right eye socket;

burns to the right parotid region [sic] and the right occipital region;

a thermal burn caused by fire to the upper third of the lower leg and the right thigh; and

multiple abrasions to the abdomen and right upper extremity,

classified as minor bodily injuries.

Togrul Ahmedov sustained:

a non-penetrating incised-lacerated wound to the left half of the anterior abdominal wall; and

a transverse fracture with displacement of the distal third of the left radius,

classified as less serious bodily injuries, as well as other injuries.

With the assistance of **Shamistan Rahimli** and...

Page 75

Parviz Guliyev, who were nearby, they were evacuated from the scene and taken to a hospital, where they received timely specialized medical assistance, as a result of which their lives were saved.

In addition, acting in accordance with the common criminal intent and objective of the formation and each of its members, members of the criminal formation (organization), in the territory of the **Aghdam District** and the surrounding villages, which they had occupied on **23 July 1993** as a result of the large-scale aggressive war initiated by them against Azerbaijan, on dates not precisely established by the investigation, buried numerous anti-tank and anti-personnel mines close to one another in a planned manner.

The types, models and places of manufacture of those mines are unknown to the investigation.

They organized ambushes, thereby creating minefields for the purpose of achieving the objectives of the criminal organization.

Following the liberation from occupation of the Aghdam District and many surrounding villages on **20 November 2020**, pursuant to the trilateral Statement of 10 November 2020, servicemen of an unidentified military unit of the Ministry of Defence:

soldier **Talybly Asif Soltangara oglu**, chief sapper of the second engineer-sapper platoon of the engineer-sapper company; and

soldier **Ibadov Mahammad Shakhyuddin oglu**, sapper of the first obstacle-clearing section of the obstacle-clearing platoon of the same company,

acting pursuant to an order of **10 December 2020** as part of a team from the unidentified military unit, were carrying out mine-clearance work near the village of **Mirzali, Aghdam District**, at approximately **13:10 on 14 December 2020**, when they triggered an anti-personnel mine that had previously been buried in that territory.

As a result of the explosion, soldier Asif Talybly sustained a traumatic amputation of the left lower leg from the lower third, classified as serious bodily injury dangerous to life.

Soldier Mahammad Ibadov, who was nearby, sustained shrapnel wounds classified as minor bodily injuries causing a short-term health disorder.

The lives of both soldiers were saved because they were evacuated in a timely manner and received specialized medical assistance.

In addition, acting in accordance with the common criminal intent and objective of the formation and each of its members, members of the criminal formation (organization), in the territory of the village of **Tazakend, Aghdam District**, which they had occupied in April 1994 as a result of the large-scale aggressive war initiated by them against Azerbaijan, shortly before its liberation from occupation—that is, during the period from **27 September 2020 to 20 November 2020**—buried numerous anti-tank and anti-personnel mines close to one another in a planned manner.

The types, models and places of manufacture of those mines are unknown to the investigation.

They organized ambushes, thereby creating minefields for the purpose of achieving the objectives of the criminal organization.

After that territory was fully liberated from occupation on **20 November 2020**, as a result of the countermeasures carried out by the Armed Forces of the Republic of Azerbaijan to prevent the large-scale aggressive attacks which had acquired an increasingly active character beginning on 27 September 2020, **Mammadov Natig Nuraddin oglu**, a resident of the city of Sumgait, born on 10 October 1989, travelled with his neighbour **Khayal Verdiyev** in his own **VAZ-21074** vehicle bearing state registration plate **10-HS-115** on a search trip at approximately **13:00–14:00 on 14 December 2020**.

They travelled to the village of **Ergi, Aghdam District**, which had been liberated from occupation. Mammadov got out of the vehicle, moved away from Khayal Verdiyev and, while walking through the said territory, triggered a buried mine.

As a result of the fragments, he sustained:

a traumatic amputation of the middle third of the left lower leg;

shrapnel wounds to the right forearm and right lower leg; and

bodily injuries classified as serious and dangerous to the lives of living persons.

With the assistance of persons who were

Page 76

nearby at the time, including Khayal Verdiyev, he was evacuated to a hospital, where his life was saved because he received specialized medical assistance.

In addition, acting in accordance with the common criminal intent and objective of the formation and each of its members, members of the criminal formation (organization), in the territory of the **Khojavend District**, which they had occupied on **02 October 1992** as a result of the large-scale aggressive war initiated by them against Azerbaijan, shortly before its liberation from occupation—that is, during the period from September to December 2020—on dates not precisely established by the investigation, buried numerous anti-tank and anti-personnel mines close to one another in a planned manner.

The types, models and places of manufacture of those mines are unknown to the investigation.

They organized ambushes, thereby creating minefields for the purpose of achieving the objectives of the criminal organization.

Following the liberation from occupation of the Khojavend District and many surrounding villages by the Armed Forces of the Republic of Azerbaijan pursuant to the trilateral Statement of 10 November 2020, at approximately **11:10 on 17 December 2020**, **Ismayilov Javad Asif oglu**, a driver of an unidentified military unit of the Ministry of Defence of the Republic of Azerbaijan, was driving a **Great Wall** vehicle belonging to the military unit in the territory of the Khojavend District, approximately 500 metres before the main command post.

The vehicle triggered a previously buried anti-tank mine.

As a result, driver Javad Ismayilov sustained:

burn shock resulting from second- and third-degree thermal burns to various parts of the body; and

massive internal bleeding caused by a ruptured spleen,

classified as serious bodily injuries dangerous to life.

Senior Lieutenant **Agayev Asaf Abid oğlu**, commander of the radio-communications platoon, who was in the vehicle, sustained:

open comminuted fractures of the bones of the left thigh and left lower leg; and

traumatic haemorrhagic shock caused by massive external bleeding resulting from damage to major blood vessels,

classified as serious bodily injuries dangerous to life.

As a result, both men were intentionally killed.

Major **Eminov Elmar Hasan oğlu**, assistant chief of the Operations Planning Department, sustained a closed craniocerebral injury and other injuries classified as minor bodily injuries causing a short-term health disorder.

Thus, two persons were intentionally killed and one sustained injuries. His life was nevertheless saved because he was not thrown aside by the blast wave. The vehicle was rendered completely unusable, thereby causing significant damage.

In addition, acting in accordance with the common criminal intent and objective of the formation and each of its members, members of the criminal formation (organization), in the territory of the village of **Mehdili, Jabrayil District**, which they had occupied in August 1993, shortly before its liberation from occupation—that is, during the period from September to December 2020—on dates not precisely established by the investigation, buried numerous anti-tank and anti-personnel mines close to one another in a planned manner.

The types, models and places of manufacture of those mines are unknown to the investigation.

They organized ambushes, thereby creating minefields for the purpose of achieving the objectives of the criminal organization.

At approximately **08:00 on 19 December 2020**, servicemen of an unidentified military unit of the Ministry of Defence were carrying out mine-clearance work in the territory of the village of Mehdi, Jabrayil District, when the left wheel of a **MAZ** vehicle belonging to the military unit and bearing military registration plate **B 202 QQ** triggered an anti-tank mine that had previously been buried in the middle of the road.

As a result, the vehicle sustained material damage, while Junior Sergeant **Gurbanly Mahabbat Magerram oglu** sustained shrapnel wounds classified as serious bodily injuries dangerous...

Page 77

to life, accompanied by a traumatic avulsion of the lower third of the right lower leg and open displaced fractures of the left lower leg. His life was saved because he received timely specialized medical assistance.

Lieutenant **Huseynli Etibar Javid oglu** sustained shrapnel wounds of undetermined severity, accompanied by abrasions to the right eyelid and right knee.

Junior Sergeant **Gurbanov Tarlan Tajeddin oglu** sustained shrapnel wounds of undetermined severity, accompanied by abrasions to the anterior surfaces of both lower legs and the right hand.

The three servicemen were not killed because they received timely specialized medical assistance.

In addition, acting in accordance with the common criminal intent and objective of the formation and each of its members, members of the criminal formation (organization), in the territory of the village of **Kechikli, Zangilan District**, which they had occupied on **29 October 1993**, shortly before its liberation from occupation—that is, during the period from September to December 2020—on dates not precisely established by the investigation, buried numerous anti-tank and anti-personnel mines close to one another in a planned manner.

The types, models and places of manufacture of those mines are unknown to the investigation.

They organized ambushes, thereby creating minefields for the purpose of achieving the objectives of the criminal organization.

Following the liberation of the area from occupation on **09 November 2020**, on **21 December 2020**, at approximately **16:30**, servicemen of an unidentified military unit of the Ministry of Defence were transporting the necessary equipment to positions that were to be established on strategic elevations situated in the village of Kechikli, Zangilan District.

The left front wheel of a **Ural** vehicle belonging to the military unit and bearing military registration plate **F 552 QQ** triggered an anti-tank mine that had previously been buried in the middle of the road.

As a result, the vehicle sustained material damage.

Deputy battalion commander Lieutenant Colonel **Orujzaliyev Ibrahim Burjali oglu** sustained fractures of both legs and ribs, blunt trauma to the chest and pulmonary contusion, classified as less serious bodily injuries causing a prolonged health disorder.

Junior Sergeant **Mammadov Elvin Islam oğlu** sustained fractures of the calcaneus, talus, navicular and right fibula, as well as a fracture of the right arm, classified as less serious bodily injuries causing a prolonged health disorder.

Soldier **Hashimov İlgar Etibar oğlu**, who was travelling in the same vehicle, sustained abrasions to the frontal and cervical regions, the chest and the right lower leg, classified as less serious bodily injuries causing a prolonged health disorder.

The three servicemen were not killed because they received timely specialized medical assistance.

In addition, acting in accordance with the common criminal intent and objective of the formation and each of its members, members of the criminal formation (organization), in the village of **Talysh, Tartar District**, which they had occupied on **22 April 1994** as a result of the aggressive war initiated against Azerbaijan, during the period of occupation, on dates not precisely established by the investigation, buried numerous anti-tank and anti-personnel mines close to one another in a planned manner.

The types, models and places of manufacture of those mines are unknown to the investigation.

They organized ambushes, thereby creating minefields for the purpose of achieving the objectives of the criminal organization.

On **25 December 2020**, at approximately **15:30**, near Combat Position No. 24 of an unidentified military unit of the Ministry of Defence, situated on the elevation known as “**1353**” in the territory of the village of Talysh, Tartar District—which had been liberated from occupation on 03 October 2020 as a result of countermeasures conducted by the Armed Forces of the Republic of Azerbaijan—the driver of the logistics-support platoon of the fourth battalion of the unidentified military unit of the Ministry of Defence, while performing his official

Page 78

duties in protecting the territorial integrity and public security of the Republic of Azerbaijan, extended-service soldier **Tagiyev Gıyas Fariz oğlu**, while driving a **MAZ** vehicle assigned to him and bearing military registration plate **C 159 QQ**, triggered one of the said mines.

An explosion occurred, as a result of which the serviceman sustained shrapnel wounds, namely injuries classified as serious bodily harm dangerous to life, accompanied by traumatic amputation at the level of the ankle joint of the right lower extremity and injuries to the right lower leg and the frontal and temporal regions.

He was evacuated to a mobile medical team of Hospital No. N of the Ministry of Defence, where he received timely medical assistance, as a result of which his life was saved.

In addition, members of the criminal formation (organization), in the part of the village of **Hasangaya, Tartar District**, which they had occupied as a result of the aggressive war initiated against Azerbaijan and which remained under their control, on dates not precisely

established by the investigation, buried numerous mines close to one another in a planned manner.

The types, models and places of manufacture of those mines are unknown to the investigation.

They organized ambushes, thereby creating minefields for the purpose of achieving the objectives of the criminal organization.

On **29 December 2020**, at approximately **11:15**, in the said territory, serviceman **Shabanov Vusal Zabit oğlu**, who served with the rank of captain as commander of the first sapper platoon of the obstacle-clearing company of an unidentified military unit of the Ministry of Defence and was performing his official duties in protecting the territorial integrity and public security of the Republic of Azerbaijan, triggered one of the said mines while conducting a mine-clearance operation.

An explosion occurred, as a result of which he sustained shrapnel wounds classified as serious bodily injuries, accompanied by traumatic amputation at the level of the Chopart joint of the left lower extremity, in the region of the left foot and left lower leg.

He was evacuated to Military Hospital No. N of the Ministry of Defence and subsequently to the Main Clinical Hospital of the Armed Forces, where he received timely medical assistance, as a result of which his life was saved.

In addition, acting in accordance with the common criminal intent and objective of the formation and each of its members, members of the criminal formation (organization), in the territory of the **Jabrayil District** and the surrounding villages, which they had occupied on **23 August 1993** as a result of the large-scale aggressive war initiated by them against Azerbaijan, shortly before its liberation from occupation—that is, during the period from September to December 2020—on dates not precisely established by the investigation, installed explosive devices as booby traps.

Following the liberation from occupation of the Jabrayil District and the surrounding villages on **03 October 2020**, as a result of the countermeasures conducted by the Armed Forces of the Republic of Azerbaijan to prevent the large-scale aggressive attacks which had acquired an increasingly active character beginning on 27 September 2020, on **30 December 2020**, at approximately **16:00**, serviceman of an unidentified military unit of the State Border Service, Junior Warrant Officer **Kerimli Sarkhan Kerim oğlu**, was performing his duties at a military unit situated in the liberated territory of the Jabrayil District.

A fragmentation hand grenade of the **M-DN 11, M-DN 21, M-DN 31 or M-DN 61** type, manufactured by the German company **Diehl**, whose date of manufacture was unknown and which had previously been installed as a booby trap beside a window inside the guardhouse building situated in the military unit, exploded.

He sustained wounds to the upper eyelid, the anterior surfaces of both thighs and the groin, classified as minor bodily injuries.

He nevertheless survived because, at the time of the explosion, he lay down on the floor and managed to avoid numerous fragments.

In addition, acting in accordance with the common criminal intent and objective of the formation and each of its members, members of the criminal formation (organization)...

Page 79

in the territory of the village of **Gorgan, Fuzuli District**, which they had occupied in August 1993 as a result of the large-scale aggressive war initiated by them against Azerbaijan, on dates not precisely established by the investigation, buried numerous anti-tank and anti-personnel mines close to one another in a planned manner.

The types, models and places of manufacture of those mines are unknown to the investigation.

They organized ambushes, thereby creating minefields for the purpose of achieving the objectives of the criminal organization.

Following the countermeasures conducted by the Armed Forces of the Republic of Azerbaijan to prevent the large-scale aggressive attacks which had acquired an increasingly active character beginning on 27 September 2020, **Babayev Zabil Habil oglu**, a civilian resident of the village of Shukurbeyli, Fuzuli District, arrived at approximately **11:00 on 01 January 2021** in the said territory, which had been fully liberated from occupation on 07 November 2020.

While grazing small livestock, he triggered one of the said mines, causing an explosion.

He sustained:

combined blunt-force injuries to the head, body and extremities;

multiple contused and crushed wounds and abrasions to the forehead, chest, both upper and lower extremities and groin, accompanied by tissue defects;

traumatic amputations of the lower thirds of both lower legs;

acute blood loss; and

severe traumatic shock.

Those injuries were classified as serious bodily injuries dangerous to life and contributed to his death. He was thereby killed.

In addition, acting in accordance with the common criminal intent and objective of the formation and each of its members, members of the criminal formation (organization), in the territory of the **Qubadli District**, which they had occupied on 31 August 1993 as a result of the large-scale aggressive war initiated by them against Azerbaijan, shortly before its liberation from occupation—that is, during the period from September 2020 to January 2021—on dates not precisely established by the investigation, buried numerous anti-tank and anti-personnel mines close to one another in a planned manner.

The types, models and places of manufacture of those mines are unknown to the investigation.

They organized ambushes, thereby creating minefields for the purpose of achieving the objectives of the criminal organization.

Following the liberation of the Qubadli District from occupation on **25 October 2020**, as a result of the countermeasures conducted by the Armed Forces of the Republic of Azerbaijan to prevent the large-scale aggressive attacks which had acquired an increasingly active character beginning on 27 September 2020, at approximately **18:00 on 01 January 2021**, Warrant Officer **Maharramov Vasif Uzeyir oglu**, a reconnaissance medic of the second reconnaissance group of the special-purpose reconnaissance company of an unidentified military unit of the Ministry of Defence, was performing his official duties at Elevation No. **1226**, situated on the state border with the Republic of Armenia.

He triggered an anti-personnel mine whose type and model were unknown to the investigation.

An explosion occurred, as a result of which he sustained:

a complete traumatic amputation of the left lower extremity at the level of the lower third of the lower leg; and

an incomplete traumatic amputation of the right lower extremity at the level of the lower third of the lower leg, with the limb remaining attached by a tissue flap.

Those injuries were classified as serious bodily injuries dangerous to life, and he was intentionally killed.

In addition, acting in accordance with the common criminal intent and objective of the formation and each of its members, members of the criminal formation (organization), near the village of **Marzili, Aghdam District**, which they had occupied in June 1993, shortly before its liberation from occupation—that is, during the period from **27 September 2020 to 20 November 2020**—buried numerous anti-tank and anti-personnel mines close to one another in a planned manner.

The types, models and places of manufacture of those mines are unknown to the investigation.

They organized ambushes, thereby creating minefields for the purpose of achieving the objectives of the criminal organization.

On **08 January 2021**, at approximately **12:00–13:00**, resident of the Goychay District **Mammadov Elgiz Malik oglu**, born on 15 February 1984, was carrying out road-construction work in the village of Marzili, Aghdam District,

Page 80

while driving a **Hovo** truck carrying construction materials, bearing state registration plate **23-AC-523** and belonging to **Göyçay ATF LLC**.

The vehicle triggered a buried mine, causing an explosion which overturned it.

As a result of the fragments, he sustained:

a fracture of the frontal bone; and

a shrapnel wound to the interbrow region of the forehead,

classified as serious bodily injuries dangerous to life.

With the assistance of employees of the Azerbaijan National Agency for Mine Action, he was evacuated and taken to a hospital, where he promptly received medical assistance, as a result of which his life was saved.

In addition, acting in accordance with the common criminal intent and objective of the formation and each of its members, members of the criminal formation (organization), in the territory of the **Zangilan District**, which they had occupied on 29 October 1993 as a result of the large-scale aggressive war initiated by them against Azerbaijan, during the period from September 2020 to January 2021, on dates not precisely established by the investigation, buried numerous anti-tank and anti-personnel mines close to one another in a planned manner.

The types, models and places of manufacture of those mines are unknown to the investigation.

They organized ambushes, thereby creating minefields for the purpose of achieving the objectives of the criminal organization.

Following the liberation from occupation of the territory of the Zangilan District and the surrounding villages by the Armed Forces of the Republic of Azerbaijan on **20 October 2020**, at approximately **13:00 on 12 January 2021**, Captain **Mukhtarov Sarkhan Ilgar oglu**, commander of the first battalion of an unidentified military unit of the State Border Service, was travelling towards the village of **Yukhary Yemazli, Zangilan District**.

He was accompanied by soldier **Safarov Majid Jalil oglu**, a communications-platoon line controller of the same battalion, who was driving a **Mitsubishi** vehicle bearing military registration plate **F 449 QQ**.

They were travelling for the purpose of distributing fuel among the combat posts of the first battalion situated in the Zangilan District.

The vehicle triggered an anti-tank mine that had previously been buried in the territory, the date and place of manufacture of which were unknown to the investigation.

As a result, Captain Mukhtarov Sarkhan Ilgar oglu sustained:

a partial traumatic amputation of the frontal half of the head, resulting in the loss and destruction of brain tissue;

multiple comminuted open fractures of the skull and facial bones and of both temporal, frontal and anterior parts of the parietal bones; and

shrapnel injuries to various parts of the body.

Those injuries were classified as serious bodily injuries dangerous to life and contributed to his death. He was thereby killed.

Soldier Safarov Majid Jalil oglu sustained shrapnel injuries to various parts of the body, classified as less serious bodily injuries causing a prolonged health disorder.

His life was saved because the principal blast wave and fragments struck Sarkhan Mukhtarov.

The Mitsubishi vehicle belonging to the unidentified military unit and bearing military registration plate **F 449 QQ** was rendered completely unusable, thereby causing significant damage to the military unit.

In addition, acting in accordance with the common criminal intent and objective of the formation and each of its members, members of the criminal formation (organization), in the territory of the present-day **Aghdara District** of the Republic of Azerbaijan, which they had occupied as a result of the aggressive war initiated by them against Azerbaijan, during the period of occupation, on dates not precisely established by the investigation, buried numerous anti-tank and anti-personnel mines close to one another in a planned manner.

The types, models and places of manufacture of those mines are unknown to the investigation.

They also placed other explosive devices, organized ambushes, and thereby created minefields and areas containing explosive devices in an unidentified part of the territory.

Following the complete liberation from occupation of the present-day Aghdara District of the Republic of Azerbaijan on **03 October 2020**, as a result of the countermeasures conducted by the Armed Forces of the Republic of Azerbaijan to prevent the large-scale aggressive attacks which...

Page 81

which, beginning on 27 September 2020, had acquired an increasingly active character, on **13 January 2021**, at approximately **11:00**, **Ojagverdiyev Alyar Hidayat oglu**, born on 01 April 1960, a civilian resident of the city of Barda and tractor operator employed by **Road Maintenance No. 54 LLC** of the State Agency of Azerbaijan Automobile Roads, was carrying out road-construction work under a project involving the section of the **Tartar–Sugovushan–Talysh highway** passing through the village of Talysh.

While carrying out soil-reinforcement work in a **LiuGong CLG B160 bulldozer** bearing state registration plate **10 A 867**, a track of the bulldozer ran over a buried and concealed anti-tank mine.

An explosion occurred, as a result of which he sustained:

an abrasion to the anterior surface of the right lower leg; and

an abrasion to the nose,

that is, injuries of undetermined severity.

The members of the criminal formation (organization) were thus unable intentionally to kill him because, at the time of the explosion, Alyar Ojagverdiyev was inside the bulldozer and was situated away from the area struck by most of the fragments.

The explosion also deliberately caused significant material damage in the amount of **13,419 manats**

(thirteen thousand four hundred nineteen manats) to the LiuGong CLG B160 bulldozer bearing state registration plate 10 A 867 and belonging to Road Maintenance No. 54 LLC of the State Agency of Azerbaijan Automobile Roads.

In addition, acting in accordance with the common criminal intent and objective of the formation and each of its members, members of the criminal formation (organization), in the territory of the village of **Ashaghi Veysalli, Fuzuli District**, which they had occupied in August 1993, during the period of occupation, on dates not precisely established by the investigation, buried numerous anti-tank and anti-personnel mines close to one another in a planned manner.

The types, models and places of manufacture of those mines are unknown to the investigation.

They organized ambushes, thereby creating minefields for the purpose of achieving the objectives of the criminal organization.

Following the complete liberation from occupation of the village of Ashaghi Veysalli, Fuzuli District, on **20 October 2020**, on **21 January 2021**, at approximately **08:00**, soldier **Javadov Rashad Farzali oglu**, a serviceman of an unidentified military unit of the Ministry of Defence, was moving through a communication trench in the territory of the village when he triggered a mine that had been buried in the trench.

As a result of the explosion, he sustained injuries classified as serious bodily injuries dangerous to life, involving the complete traumatic severance from the torso of:

the head;

the right upper extremity; and

both lower extremities,

as a result of the impact of the primary fragments. He was thereby intentionally killed.

In addition, acting in accordance with the common criminal intent and objective of the formation and each of its members, members of the criminal formation (organization), in the village of **Mehdili, Jabrayil District**, which they had occupied on 23 August 1993 as a result of the large-scale aggressive war initiated by them against Azerbaijan, during the period of

occupation, on dates not precisely established by the investigation, buried numerous anti-tank and anti-personnel mines close to one another in a planned manner.

The types, models and places of manufacture of those mines are unknown to the investigation.

They organized ambushes, thereby creating minefields for the purpose of achieving the objectives of the criminal organization.

Following the complete liberation of that territory from occupation on **03 October 2020**, as a result of the countermeasures conducted by the Armed Forces of the Republic of Azerbaijan to prevent the large-scale aggressive attacks which had acquired an increasingly active character beginning on 27 September 2020, on **22 January 2021**, at approximately **10:00**, **Sultanov Azer Ali oğlu**, born on 26 October 1974, a resident of the city of Horadiz, Fuzuli District, and a sapper of a mine-search team of the Azerbaijan National Agency for Mine Action, was carrying out his official duties in a mine-clearance operation.

He triggered a **PMN-type anti-personnel mine** that had been buried in the section of the railway line in the Jabrayil District passing through

Page 82

the said village.

As a result, he sustained bodily injuries accompanied by:

multiple shrapnel wounds to the face and head;

brain injuries;

injuries to the face, both eyes and nose; and

cerebral coma.

He was taken to the Fuzuli Diagnostic Centre and received timely specialized medical assistance, as a result of which his life was saved.

In addition, acting in accordance with the common criminal intent and objective of the formation and each of its members, members of the criminal formation (organization), shortly before the liberation from occupation on **03 October 2020** of the village of **Sugovushan, Aghdara District**, and the surrounding territories—that is, during the period from 27 September to 03 October 2020—buried numerous anti-tank and anti-personnel mines close to one another in a planned manner.

The types, models and places of manufacture of those mines are unknown to the investigation.

They organized ambushes, thereby creating minefields for the purpose of achieving the objectives of the criminal organization.

On **28 January 2021**, at approximately **13:00**, **Alekperov Elgun Mahmud oğlu**, born on 21 December 1987, a civilian resident of the village of Seydimli, Tartar District, and tractor operator of the Tartar branch of **MTK IK LLC**, was ploughing a crop field in the said territory.

He was driving a **John Deere tractor** bearing state registration plate **90-775** when its right front wheel ran over an anti-tank mine buried on the boundary between the villages of **Chilaburt and Gyzyloba, Aghdara District**, which were under their occupation.

An explosion occurred, as a result of which he sustained:

multiple shrapnel wounds to the forehead, face, nose, chest and upper extremities;

foreign bodies in the deep layers of the corneas of both eyes; and

a non-penetrating wound to the left eye,

classified as the intentional infliction of less serious bodily injury.

Elgun Alekperov's life was saved because he received timely specialized medical assistance, and they were therefore unable intentionally to kill him.

The John Deere tractor bearing state registration plate 90-775 and belonging to MTK IK LLC also sustained damage, thereby causing significant damage to the said legal entity.

In addition, acting in accordance with the common criminal intent and objective of the formation and each of its members, members of the criminal formation (organization), in the village of **Shuraabad, Aghdam District**, which they had occupied in April 1994 as a result of the large-scale aggressive war initiated by them against Azerbaijan, during the period of occupation, on dates not precisely established by the investigation, buried numerous anti-tank and anti-personnel mines close to one another in a planned manner.

The types, models and places of manufacture of those mines are unknown to the investigation.

They organized ambushes, thereby creating minefields for the purpose of achieving the objectives of the criminal organization.

Following the complete liberation of the said territory from occupation on **20 November 2020**, as a result of the countermeasures conducted by the Armed Forces of the Republic of Azerbaijan to prevent the large-scale aggressive attacks which had acquired an increasingly active character beginning on 27 September 2020, on **29 January 2021**, at approximately **11:00**, **Mirzayev Elmaddin Tofiq oğlu**, born on 04 July 1983, a resident of the village of Yukhary Giyamaddin, Aghjabadi District, and a sapper of a mine-search team of the Azerbaijan National Agency for Mine Action, was performing his official duties in a mine-clearance operation on the right side of the road passing through the village of Shuraabad, Aghdam District.

He triggered a buried **PMN-type blast anti-personnel mine**.

As a result, he sustained:

a traumatic amputation of the left lower leg at the level of its lower third;

complete loss of sight in both eyes; and

multiple abrasions in the region of the left lower leg,

classified as serious bodily injuries dangerous to life as a result of the impact of the fragments.

He was evacuated from the scene and received timely specialized medical assistance, as a result of which his life was saved.

In addition, acting in accordance with the common criminal intent and objective of the formation and each of its members, members of the criminal formation (organization)...

Page 83

in the village of **Yukhary Yaglyvend, Fuzuli District**, which they had occupied on **15 August 1993** as a result of the large-scale aggressive war initiated by them against Azerbaijan, shortly before the liberation of that territory from occupation—that is, during the period from September to November 2020—on dates not precisely established by the investigation, buried numerous anti-tank and anti-personnel mines close to one another in a planned manner.

The types, models and places of manufacture of those mines are unknown to the investigation.

They organized ambushes, thereby creating minefields for the purpose of achieving the objectives of the criminal organization.

Residents of the village of **Birinci Shahsevan, Beylagan District**:

Mukhtarov Azad Aydin oglu;

Memishov Rafis Maheddin oglu; and

Imanov Bahruz Telman oglu

visited the said territory at approximately **17:00 on 02 February 2021**. The territory had been fully liberated from occupation on 09 November 2020 as a result of the countermeasures conducted by the Armed Forces of the Republic of Azerbaijan to prevent the large-scale aggressive attacks which, beginning on 27 September 2020, had acquired an increasingly active character.

While travelling in a **GAZ-53 truck** bearing state registration plate **11-BF-263** and driven by Imanov Bahruz Telman oglu, they triggered one of the said mines.

An explosion occurred, as a result of which **Imanov Bahruz Telman oğlu** sustained shrapnel injuries in the form of:

combined blunt trauma to the head, body and extremities;

contused and crushed wounds to the posterior surface of the right elbow joint, cheeks, neck, anterior abdominal wall and both lower extremities;

a contusion and rupture of the left eyeball;

a traumatic amputation of the left lower leg at the level of its upper third;

a closed displaced fracture of fragments of the middle third of the bones of the right lower leg;

acute blood loss; and

severe traumatic shock.

Those injuries were classified as serious bodily injuries dangerous to life and contributed to his death. He was thereby killed.

Mukhtarov Azad Aydin oğlu sustained injuries classified as serious bodily injuries and resulting in the loss of sight in his left eye.

Memishov Rafis Maheddin oğlu sustained:

multiple fractures of the bones of the left orbit; and

multiple shrapnel wounds to the face and head,

classified as shrapnel injuries causing less serious bodily harm and a prolonged health disorder.

They were taken to a hospital in a timely manner and received specialized medical assistance, as a result of which their lives were saved.

The GAZ-53 truck bearing state registration plate 11-BF-263 and driven by the deceased Imanov Bahruz Telman oğlu was rendered completely unusable, thereby causing significant material damage.

In addition, acting in accordance with the common criminal intent and objective of the formation and each of its members, members of the criminal formation (organization), shortly before the liberation of the village of **Nuzgar, Jabrayil District**, which they had occupied on **23 August 1993** as a result of the aggressive war initiated by them against Azerbaijan—that is, during the period from **27 September 2020 to 10 November 2020**—on dates not precisely established by the investigation, buried numerous anti-tank and anti-personnel mines close to one another in a planned manner.

The types, models and places of manufacture of those mines are unknown to the investigation.

They organized ambushes, thereby creating minefields for the purpose of achieving the objectives of the criminal organization.

At approximately **19:00 on 03 February 2021**, civilian resident of the city of Horadiz, Fuzuli District, **Ahmedov Ilgar Nabi oglu**, born on 18 December 1969, visited the said territory in a **VAZ-2106** vehicle bearing state registration plate **99-NH-623**, which he was driving.

He was accompanied by fellow villagers:

Alaskarov Mustagim Allahveran oglu, born on 11 October 1971; and

Guliyev Mehman Allahverdi oglu, born on 06 December 1988.

The vehicle triggered a **TM-62P2 anti-tank mine** on the road passing through the village of Nuzgar, Jabrayil District,

Page 84

causing an explosion.

Mehman Guliyev, who was inside the vehicle, sustained:

multiple shrapnel wounds to the head, body and extremities;

severe traumatic shock;

a traumatic amputation of the second finger of the left hand at the level of the proximal phalanx; and

multiple open comminuted fractures with displacement of bone fragments.

Mustagim Alaskarov and **Ilgar Ahmedov** sustained other serious bodily injuries dangerous to life and were intentionally killed.

The VAZ-2106 vehicle bearing state registration plate **99-NH-623**, which belonged to Ilgar Ahmedov, was rendered completely unusable and destroyed.

The members of the criminal formation (organization) and of the armed formations constituting its structural subdivision, which carried out unlawful activities in the territory of the Republic of Azerbaijan in contravention of domestic and international legal norms, with the support of the military-political leadership, including the Armed Forces and other armed formations of the Republic of Armenia, as well as with their direct material and technical support and support in the form of personnel, on the basis of their centralized command, oral and written directions, assignments and instructions, under their strict control, and supplied with various types of firearms, ammunition, military equipment and other armaments;

acting in accordance with the common criminal objective and intent, for the purpose of implementing the criminal plan, namely ensuring that the territories of the Republic of Azerbaijan occupied by them remained under occupation; continuing the aggressive war initiated by them against Azerbaijan; killing Azerbaijanis on the grounds of the national hatred and hostility fostered by them within Armenian society; and pursuing other criminal objectives;

on **04 February 2021**, at approximately **13:05**, while servicemen of an unidentified military unit of the Ministry of Defence were moving towards their place of deployment in the territory of the village of **Shelli, Aghdam District**, soldier **Zeynalov Gubad Islam oglu** picked up a combat element containing explosive submunitions and fitted with a **300-mm cluster-type warhead**.

It had been used in the **Smerch multiple-launch rocket system** by military formations during combat operations between 27 September 2020 and 10 November 2020, in gross violation of the provisions of the **Convention on Cluster Munitions of 03 December 2008**, adopted in Oslo, Norway.

The item, which they had found at the roadside, fell from the serviceman's hands and exploded.

As a result, soldier Zeynalov Gubad Islam oglu, who was performing his official duties in protecting the territorial integrity and public security of the Republic of Azerbaijan, sustained serious bodily injuries dangerous to life, including:

wounds penetrating the abdominal and thoracic cavities;

injuries to internal organs and major blood vessels; and

acute blood loss.

He was thereby intentionally killed.

Soldier **Melikmammadov Balagardash Mubariz oglu**, who served at the same position, sustained a shrapnel wound classified as serious bodily injury dangerous to life, accompanied by:

a wound penetrating the pleural cavity of the left half of the chest;

fractures of the nasal bones;

wounds to the left half of the neck; and

a wound to the region of the right knee.

Babayev Nemat Novruz oglu sustained serious bodily injuries dangerous to life, accompanied by:

a wound penetrating the pleural cavity of the right half of the chest;

complicated haemopneumothorax;

a fracture of the right fibula; and

a fracture of the left tibia.

His life was nevertheless saved because he received timely specialized medical assistance.

Mammadov Aykhan Kerimkhan oglu sustained injuries classified as minor bodily harm causing a short-term health disorder, accompanied by multiple blind shrapnel wounds to both lower extremities and injuries to the soft tissues.

Zeynalov Ali Afghan oglu sustained injuries classified as minor bodily harm...

Page 85

causing a short-term health disorder, accompanied by blast trauma and a blind shrapnel wound to the upper third of the left thigh.

They were nevertheless unable to kill the four servicemen because the latter promptly lay down in a trench and received timely medical assistance.

In addition, acting in accordance with the common criminal intent and objective of the formation and each of its members, members of the criminal formation (organization), in the territory of the village of **Sugovushan, Tartar District**, which they had occupied in April 1994 as a result of the large-scale aggressive war initiated by them against Azerbaijan, shortly before the liberation of those territories from occupation—that is, during the period from September to November 2020—on dates not precisely established by the investigation, buried numerous anti-personnel mines close to one another in a planned manner.

The types, models and places of manufacture of those mines are unknown to the investigation.

They organized ambushes, thereby creating minefields for the purpose of achieving the objectives of the criminal organization.

On **13 February 2021**, at **12:45**, in a forested area within the territory of Combat Position No. 27, situated approximately 500 metres to the right of Elevation No. **1047** in the territory of the village of Sugovushan, Tartar District—which had been liberated from occupation as a result of the countermeasures carried out by the Armed Forces of the Republic of Azerbaijan to prevent the large-scale aggressive attacks which, beginning on 27 September 2020, had acquired an increasingly active character—soldier **Hasanov Alikhasan Tumar oglu**, rifleman of the first section of the second platoon of the third company of the first battalion of an unidentified military unit of the Ministry of Defence, was performing his official duties when he triggered one of the said mines.

An explosion occurred, as a result of which he sustained shrapnel wounds accompanied by traumatic amputation in the region of the right lower leg and left thigh, at the level of the ankle joint of the right lower extremity.

Those injuries were classified as serious bodily injuries dangerous to life.

His life was nevertheless saved because he received timely specialized medical assistance.

In addition, acting in accordance with the common criminal intent and objective of the formation and each of its members, members of the criminal formation (organization), in the territory of the **Jabrayil District** and the surrounding areas, which they had occupied on 23 August 1993 as a result of the large-scale aggressive war initiated by them against Azerbaijan, shortly before the liberation of those territories from occupation—that is, during the period from September to October 2020—on dates not precisely established by the investigation, buried numerous anti-tank and anti-personnel mines close to one another in a planned manner.

The types and places of manufacture of those mines are unknown to the investigation.

They organized ambushes, thereby creating minefields for the purpose of achieving the objectives of the criminal organization.

Following the liberation from occupation of the Jabrayil District and the surrounding territories on **04 October 2020**, as a result of the countermeasures carried out by the Armed Forces of the Republic of Azerbaijan to prevent the large-scale aggressive attacks which, beginning on 27 September 2020, had acquired an increasingly active character, on **16 February 2021**, at **12:00**, Lieutenant **Huseynli Etibar Javid oglu**, a serviceman of an unidentified military unit of the Ministry of Defence, was performing his official duties in protecting the territorial integrity and public security of the Republic of Azerbaijan.

While carrying out mine-clearance work in areas situated in the territory of the village of **Amirvarli, Jabrayil District**, which had served as combat positions of illegal Armenian armed formations, he triggered a **PMN-type blast anti-personnel mine** that had previously been buried by them under unknown circumstances and whose date and place of manufacture were unknown.

As a result, he sustained:

a lacerated wound to the sole of the left foot;

blunt trauma to the right eye;

abrasions to the cornea and conjunctiva; and

hyphema of the left eye.

Those injuries were classified as serious bodily injuries dangerous to life.

His life was nevertheless saved because he received timely specialized medical assistance.

Page 86

In addition, acting in accordance with the common criminal intent and objective of the formation and each of its members, members of the criminal formation (organization), in the

territory of the village of **Talysh, Aghdara District**, which they had occupied in April 1994 as a result of the large-scale aggressive war initiated by them against Azerbaijan, during the period of occupation, on dates not precisely established by the investigation, buried numerous mines close to one another in a planned manner.

The types, models and places of manufacture of those mines are unknown to the investigation.

They organized ambushes, thereby creating minefields for the purpose of achieving the objectives of the criminal organization.

Following the complete liberation of the village of Talysh from occupation on **03 October 2020**, as a result of the countermeasures carried out by the Armed Forces of the Republic of Azerbaijan to prevent the large-scale aggressive attacks which, beginning on 27 September 2020, had acquired an increasingly active character, on **18 February 2021**, at approximately **18:00**, **Makhmudov Bakhtiyar Mahmud oglu**, born on 15 June 1988, a civilian resident of the village of Chayli, Aghdara District, arrived in the said village.

He was driving his own **Niva** vehicle bearing state registration plate **01 BC 845**, for the purpose of collecting ownerless scrap metal remaining in the empty fields.

He stopped the vehicle in an empty field, got out, picked up a piece of iron approximately five metres away and began walking back toward the vehicle.

At that moment, he triggered a correspondingly concealed anti-tank mine.

An explosion occurred, as a result of which he sustained blast trauma involving:

partial preservation of the regions of the head, face and neck;

rupture and destruction of the abdominal organs;

traumatic amputations of the upper and lower extremities;

multiple comminuted fractures; and

multiple shrapnel wounds to the body.

He was thereby intentionally killed at the scene.

The explosion also damaged the Niva vehicle bearing state registration plate **01 BC 845**, thereby deliberately causing Bakhtiyar Makhmudov significant material damage.

In addition, acting in accordance with the common criminal intent and objective of the formation and each of its members, members of the criminal formation (organization), in the territory of the village of **Mehdili, Jabrayil District**, which they had occupied on 23 August 1993, having understood in the course of the military operations conducted by the Armed Forces of the Republic of Azerbaijan beginning on 27 September 2020 that the village would be liberated from the occupation of the Republic of Armenia, buried numerous mines of types

and models unknown to the investigation during the period from **27 September 2020 to 03 October 2020**.

They thereby created minefields.

On **25 February 2021**, at approximately **14:00**, **Mirzaliyev Guloglan Imran oglu**, born on 10 October 1964, a civilian resident of the village of Jojug Marjanli, Jabrayil District, was grazing small livestock on an elevation situated at a distance of 452 metres.

While travelling along a dirt road toward the village of Mehdili, to the south-west of the administrative building of **Azerbaijan Amelioration and Water Management OJSC** in the village of Jojug Marjanli, in the territory of the liberated village of Mehdili, he triggered one of the **PMN-type anti-personnel mines** in the pasture.

An explosion occurred, as a result of which he sustained a closed intra-articular fracture of the distal end of the left femur with displacement of the fragments.

The injury was classified as less serious bodily harm causing a prolonged health disorder.

With the assistance of fellow villagers who were nearby, he was taken to the Fuzuli Treatment and Diagnostic Centre, where his life was saved because he received timely specialized medical assistance.

In addition, acting in accordance with the common criminal intent and objective of the formation and each of its members, members of the criminal formation (organization), in the village of **Ashaghi Khojamsagli, Qubadli District**, which they had occupied on 31 August 1993 as a result of the large-scale aggressive war initiated by them against Azerbaijan, shortly before the liberation of the said territory from occupation, that is...

Page 87

during the period from September to November 2020, on dates not precisely established by the investigation, buried numerous anti-tank and anti-personnel mines close to one another in a planned manner.

The types, models and places of manufacture of those mines are unknown to the investigation.

They organized ambushes, thereby creating minefields in the said territories for the purpose of achieving the objectives of the criminal organization.

Following the liberation of those territories from occupation on **25 October 2020**, as a result of the countermeasures carried out by the Armed Forces of the Republic of Azerbaijan to prevent the large-scale aggressive attacks which, beginning on 27 September 2020, had acquired an increasingly active character, on **26 February 2021**, at approximately **17:00**, servicemen of the engineer-sapper company of the Qubadli Separate Border Division of the State Border Service were performing their official duties in protecting the territorial integrity and public security of the Republic of Azerbaijan and carrying out mine-clearance work when they triggered one of the said mines.

An explosion occurred, as a result of which Junior Warrant Officer **Azizli Nuraddin Gurbeddin oglu** sustained a shrapnel wound accompanied by:

a post-traumatic amputation of the right lower extremity at the level of the upper third of the lower leg; and

injuries to both lower legs and the left foot,

classified as serious bodily injuries.

Junior Warrant Officer **Alishanov Elmaddin Chingiz oglu** sustained shrapnel wounds to the face, neck, right hand and both eyes, classified as serious bodily injuries.

Junior Warrant Officer **Nagiyev Vagif Shamil oglu** sustained a shrapnel wound accompanied by:

a post-traumatic amputation of the left lower extremity at the level of the lower third of the lower leg; and

injuries to both lower legs, the face and the right hand,

classified as serious bodily injuries.

The lives of the three servicemen were nevertheless saved because they were evacuated to the military hospital of the State Border Service, where they received timely specialized medical assistance.

Junior Warrant Officer **Ibrahimov Vugar Elkhan oglu** sustained a shrapnel wound to the left thigh, classified as minor bodily injury causing a short-term health disorder.

His life was saved because he managed to avoid the other fragments.

In addition, acting in accordance with the common criminal intent and objective of the formation and each of its members, members of the criminal formation (organization), in the village of **Novruzlu, Aghdam District**, which they had occupied in July 1993, shortly before that territory was liberated from occupation by the Armed Forces of the Republic of Azerbaijan—that is, during the period from **27 September 2020 to 20 November 2020**—buried numerous anti-tank and anti-personnel mines close to one another in a planned manner.

The types, models and places of manufacture of those mines are unknown to the investigation.

They organized ambushes, thereby creating minefields for the purpose of achieving the objectives of the criminal organization.

On **03 March 2021**, at approximately **15:00**, **Azimzade Hafiz Salim oglu**, born on 02 April 1967, a resident of the Barda District and head of the Aghdam Mechanical Irrigation Department of **Azerbaijan Amelioration and Water Management OJSC**, was performing his official duties together with his colleagues:

Gasimov Nuraddin Sabir oğlu; and

Sadygov Igbal İlgar oğlu.

They were determining the locations and condition of water sources—subartesian wells—and whether they were suitable for use in the villages of Yusifjanly and Novruzlu, Aghdam District, which had been liberated from occupation.

While walking slightly ahead of his colleagues, Azimzade Hafiz Salim oğlu triggered a **PMN-E-type blast anti-personnel mine** near the village of Novruzlu, Aghdam District.

An explosion occurred, as a result of which he sustained:

superficial shrapnel wounds to both upper extremities; and

shrapnel injuries to the right leg and lower leg, complicated by amputation of the right lower extremity at the level of the upper third of the lower leg.

Those injuries were classified as serious bodily injuries dangerous to life.

With the assistance of his

Page 88

colleagues, he was evacuated from the scene and taken to a hospital, where his life was saved because he received timely specialized medical assistance.

In addition, acting in accordance with the common criminal intent and objective of the formation and each of its members, members of the criminal formation (organization), near the village of **Marzili, Aghdam District**, which they had occupied in June 1993, shortly before that village was liberated from occupation by the Armed Forces of the Republic of Azerbaijan—that is, during the period from **27 September 2020 to 20 November 2020**—buried numerous anti-tank and anti-personnel mines close to one another in a planned manner.

The types, models and places of manufacture of those mines are unknown to the investigation.

They organized ambushes, thereby creating minefields for the purpose of achieving the objectives of the criminal organization.

On **13 March 2021**, at approximately **09:00**, **Bakhshaliyev Iman Eyvaz oğlu**, born on 24 July 1980, a resident of the village of Galagan, Ismayilli District, travelled to a green area near the village of Marzili, Aghdam District, where he regularly grazed sheep.

At approximately **15:00**, having noticed that the sheep had entered a minefield opposite an old trench dug in the said territory, he attempted to lead them out but triggered a buried mine.

An explosion occurred, as a result of which he sustained:

a complete traumatic avulsion of the lower third of the right lower leg;

an open displaced fracture of the distal phalanx of the first finger of the right hand; and

multiple contused wounds to the surface of the body.

Those injuries, caused by the fragments, were classified as serious bodily injuries dangerous to life.

With the assistance of servicemen who were nearby, he was evacuated from the scene and taken to a hospital, where his life was saved because he received timely specialized medical assistance.

In addition, acting in accordance with the common criminal intent and objective of the formation and each of its members, members of the criminal formation (organization), in the village of **Yusifjanly, Aghdam District**, which they had occupied in July 1993 as a result of the large-scale aggressive war initiated by them against Azerbaijan, shortly before the liberation of the said territory near the village of Yusifjanly—that is, during the period from **27 September 2020 to 20 November 2020**—buried numerous anti-tank and anti-personnel mines close to one another in a planned manner.

The types, models and places of manufacture of those mines are unknown to the investigation.

They organized ambushes, thereby creating minefields for the purpose of achieving the objectives of the criminal organization.

Following the complete liberation of the said territories from occupation on **20 November 2020**, as a result of the countermeasures carried out by the Armed Forces of the Republic of Azerbaijan to prevent the large-scale aggressive attacks which, beginning on 27 September 2020, had acquired an increasingly active character, on **16 March 2021**, at approximately **15:00**, the following residents of the village of Aftali, Aghdam District, travelled to the said territories to see their native lands:

Huseynov Bayram Akif oglu, born on 12 March 1987;

Huseynov Anar Akif oglu, born on 29 September 1982; and

Huseynov Razi Akif oglu, born on 28 December 1979.

They were travelling in a **VAZ-2107** vehicle belonging to them toward the village of Yusifjanly, Aghdam District.

After stopping the vehicle near the village of Yusifjanly, Anar Huseynov remained beside it, while Razi and Bayram Huseynov walked toward the village, which had been liberated from occupation, and triggered a buried mine.

An explosion occurred, as a result of which **Razi Huseynov** sustained:

traumatic amputations in the region of both thighs; and

multiple shrapnel wounds to the body.

Bayram Huseynov sustained blast trauma accompanied by:

rupture and destruction of the left knee and lower leg together with the soft tissues;

comminuted fractures of the left femur;

injuries to the femoral artery and vein;

multiple shrapnel wounds; and

acute blood loss.

Those injuries were classified as serious bodily injuries dangerous to life.

Some time later...

Page 89

their brother **Anar Huseynov**, their father **Huseynov Akif Mukhtar oglu**, born on 10 October 1957, and their fellow villager **Abdulov Bahruz Nadir oglu**, born on 20 November 1985, arrived there to rescue them.

When they reached the scene, Anar Huseynov picked up his brother Razi Huseynov and attempted to carry him away. At that moment, he triggered another mine, causing a further explosion.

As a result, **Razi Huseynov** sustained blast trauma accompanied by:

contused-lacerated wounds to the intestines penetrating the abdominal cavity;

an injury to the femoral artery;

traumatic amputations in the region of both thighs;

fractures of the bones of the upper skeleton;

a contused wound to the left arm; and

multiple shrapnel wounds to the body accompanied by acute blood loss.

Those injuries were classified as serious bodily injuries dangerous to life.

Anar Huseynov sustained:

an amputation of the upper third of the left lower leg;

cicatricial injuries to the posterior surfaces of both arms; and

numerous other injuries,
classified as serious bodily injuries dangerous to life.

Bahrüz Abdulov sustained cicatricial injuries to:

the right side of the forehead extending into the hairline;
the region of the nose;
the left lateral surface;
the entire anterior surface of the left lower leg; and
the anterior surfaces of the middle and lower thirds of the right lower leg.

Akif Huseynov sustained:

a multi-fragmentary fracture of the bones of the right lower leg;
closed fractures of the first through fifth phalanges of the toes of the right foot;
displaced fractures of both ankles of the left leg;
open displaced fractures of the first, second, third and fourth metacarpal bones; and
dislocation of the talus.

Those injuries were classified as less serious bodily injuries.

As a result of their numerous injuries, **Bayram Huseynov and Razi Huseynov were intentionally killed.**

With the assistance of other persons, Anar Huseynov, Akif Huseynov and Bahrüz Abdulov were evacuated from the scene and taken to a hospital, where their lives were saved because they received timely specialized medical assistance.

In addition, acting in accordance with the common criminal intent and objective of the formation and each of its members, members of the criminal formation (organization), in the territory of the village of **Kuropatkino, Khojavend District**, which they had occupied on **02 October 1992** as a result of the large-scale aggressive war initiated by them against Azerbaijan, during the period of occupation, on dates not precisely established by the investigation, buried numerous anti-tank and anti-personnel mines close to one another in a planned manner.

The types, models and places of manufacture of those mines are unknown to the investigation.

They organized ambushes, thereby creating minefields for the purpose of achieving the objectives of the criminal organization.

On **20 March 2021**, at approximately **11:00**, servicemen of Observation Post No. 31 of the ninth company of the third battalion of an unidentified military unit of the Ministry of Defence situated in the territory of the village of Kuropatkino, Khojavend District:

Guliyev Siraj Javid oglu;

Bandaliyev Hazar Vahid oglu;

Aslanov Rashad Faraj oglu; and

Warrant Officer **Hajizade Rukhid Alim oglu**

were performing their official duties while situated in a trench behind the barracks.

They triggered a buried **PMN-type blast anti-personnel mine**, which exploded beneath Rukhid Hajizade's foot.

As a result:

Siraj Guliyev sustained injuries to the left half of the face, the left forearm, the posterior surface of the left hand and the left lateral abdominal wall;

Hazar Bandaliyev sustained injuries to the right half of the face, the upper third of the left forearm, the posterior surface of the left hand and the left half of the abdomen; and

Rashad Aslanov sustained injuries to both upper extremities and the right half of the abdomen.

The injuries sustained by those three persons were classified as minor bodily injuries causing a short-term health disorder.

Warrant Officer **Rukhid Hajizade** sustained shrapnel wounds accompanied by a traumatic avulsion of the left lower extremity at the level of the ankle joint, classified as serious bodily injury causing a prolonged health disorder.

The lives of the four servicemen were saved because they were

Page 90

promptly evacuated from the scene and received specialized medical assistance.

In addition, acting in accordance with the common criminal intent and objective of the formation and each of its members, members of the criminal formation (organization), in the territory of the village of **Sugovushan, Tartar District**, which they had occupied in April 1994 as a result of the large-scale aggressive war initiated by them against Azerbaijan, shortly before the liberation of that territory from occupation—that is, during the period from **27 September 2020 to 03 October 2020**—buried numerous anti-tank and anti-personnel mines close to one another in a planned manner.

The types, models and places of manufacture of those mines are unknown to the investigation.

They organized ambushes, thereby creating minefields for the purpose of achieving the objectives of the criminal organization.

Following the liberation of the village of Sugovushan, Tartar District, from occupation by the Armed Forces of the Republic of Azerbaijan on **03 October 2020**, on **03 April 2021**, at approximately **12:00**, the following servicemen were moving near a path leading to Combat Position No. 5 of the third battalion situated in the village:

Junior Sergeant **Babayev Khayal Farman oglu**, commander of the third section of the first platoon of the engineer-sapper company of an unidentified military unit of the Ministry of Defence and sapper of that section;

soldier **Bayramov Ilkin Bayram oglu**, assistant rifleman-grenade launcher of the first section of the second platoon of the tenth company of the fourth battalion;

soldier **Rustamov Eldeniz Rustam oglu**, assistant rifleman-grenade launcher of the second section of the same platoon; and

soldier **Isayev Abil Ayaz oglu**.

When soldier Ilkin Bayramov attempted to neutralize an anti-personnel mine previously buried by Armenian armed formations and discovered at the edge of the path, he triggered it.

An explosion occurred, as a result of which he sustained:

a traumatic avulsion of the left lower extremity at the level of the lower third of the lower leg, against the background of complete traumatic-haemorrhagic shock; and

numerous other shrapnel wounds.

Those injuries were classified as serious bodily injuries dangerous to life.

He subsequently died on **16 April 2021** in the hospital where he had been receiving treatment.

Junior Sergeant **Khayal Babayev** and soldier **Abil Isayev** sustained injuries to the thigh, classified as minor bodily injuries.

Soldier **Eldeniz Rustamov** sustained injuries to various parts of the body, classified as less serious bodily injuries.

The lives of the three other servicemen—Khayal Babayev, Abil Isayev and Eldeniz Rustamov—were saved because the principal blast wave was absorbed by the body of **Ilkin Babayev [sic]**.

In addition, acting in accordance with the common criminal intent and objective of the formation and each of its members, members of the criminal formation (organization), in the

territory of the village of **Bash Gervend, Aghdam District**, which they had occupied in April 1994, shortly before the liberation of the said village by the Armed Forces of the Republic of Azerbaijan—that is, during the period from **27 September 2020 to 20 November 2020**—buried numerous anti-tank and anti-personnel mines close to one another in a planned manner.

The types, models and places of manufacture of those mines are unknown to the investigation.

They organized ambushes, thereby creating minefields for the purpose of achieving the objectives of the criminal organization.

On **03 April 2021**, at approximately **11:00**, **Shukurov Alovzat Mursal oglu**, born on 08 March 1985, a resident of the village of Palchigoba, Khachmaz District, and employee of **Körpü-Bina Tikinti LLC**, was performing his official duties.

While travelling through the territory of the village of Bash Gervend, Aghdam District, at the **Khachinchay deposit**, in a **Hovo truck** bearing state registration plate **99-JT-474**, he triggered a buried **TM-62M-type anti-tank mine**.

An explosion occurred, as a result of which he sustained superficial contused wounds to the posterior surfaces of the second, third, fourth and fifth fingers of the left hand caused by fragments.

The severity of those injuries could not be determined because they caused no harm to health.

With the assistance of persons who were nearby, he was evacuated from the scene and taken...

Page 91

to a hospital, where his life was saved because he received timely specialized medical assistance.

The **Hovo truck** bearing state registration plate **99-JT-474** and belonging to **Körpü-Bina Tikinti LLC** was also damaged, thereby causing significant damage to that legal entity.

In addition, acting in accordance with the common criminal intent and objective of the formation and each of its members, members of the criminal formation (organization), in the territory of the village of **Bartaz, Qubadli District**, which they had occupied on **31 August 1993** as a result of the large-scale aggressive war initiated by them against Azerbaijan, shortly before the liberation of the said village from occupation or on subsequent dates—that is, during the period from **27 September 2020 to 04 April 2021**—buried numerous anti-tank and anti-personnel mines close to one another in a planned manner.

The types, models and places of manufacture of those mines are unknown to the investigation.

They organized ambushes, thereby creating minefields for the purpose of achieving the objectives of the criminal organization.

On **04 April 2021**, at approximately **13:20**, in the village of **Bartaz, Zangilan District [sic]**, which had been liberated from occupation on 22 October 2020 as a result of the countermeasures carried out by the Armed Forces of the Republic of Azerbaijan to prevent the large-scale aggressive attacks which, beginning on 27 September 2020, had acquired an increasingly active character, Warrant Officer **Alekperov Sahil Dilguz oglu**, commander of the second section of the third platoon of the third rapid-response battalion of the Qubadli Separate Border Division of the State Border Service, was travelling in a **KamAZ vehicle** bearing military registration plate **Q-341-SQ** and belonging to the said company.

The vehicle triggered an anti-tank mine whose precise type and model were unknown.

An explosion occurred, as a result of which Warrant Officer Sahil Alekperov, while performing his official duties, sustained injuries to:

the chest;

the left thigh; and

the right lower leg,

classified as serious bodily injuries dangerous to life.

Captain **Ziyadov Rustam Ali oglu**, Deputy Chief of the Eighth Border Commandant's Office for Logistics, sustained injuries to various parts of the body, classified as minor bodily injuries causing a short-term health disorder.

Both servicemen were evacuated to an unidentified military hospital of the State Border Service, where their lives were saved because they received timely specialized medical assistance.

In addition, acting in accordance with the common criminal intent and objective of the formation and each of its members, members of the criminal formation (organization), in the territory of the **Qubadli District** and the surrounding areas, which they had occupied on 31 August 1993 as a result of the large-scale aggressive war initiated by them against Azerbaijan, shortly before the liberation of the said territories from occupation or on subsequent dates—that is, during the period from **27 September 2020 to 05 April 2021**—buried numerous anti-tank and anti-personnel mines close to one another in a planned manner.

The types, models and places of manufacture of those mines are unknown to the investigation.

They organized ambushes, thereby creating minefields for the purpose of achieving the objectives of the criminal organization.

On **05 April 2021**, following the liberation of the Qubadli District and the surrounding territories from occupation on 25 October 2020 as a result of the countermeasures carried out by the Armed Forces of the Republic of Azerbaijan to prevent the large-scale aggressive attacks which, beginning on 27 September 2020, had acquired an increasingly active character, Junior Warrant Officer **Hajiyeve Javanshir Nadir oglu**, a serviceman of the

Qubadli Separate Border Division of the State Border Service, was acting pursuant to an order from the leadership of the military unit.

While participating in a mine-clearance operation in the territory of the first border combat position of the eleventh

Page 92

border outpost of the fourth border commandant's office, situated in the liberated village of **Ashaghi Khojamsagli, Qubadli District**, at approximately **18:00** that day, he triggered a previously buried anti-personnel mine.

An explosion occurred, as a result of which he sustained shrapnel injuries to various parts of the body, classified as serious bodily injuries dangerous to life.

His life was nevertheless saved because he was promptly evacuated and received specialized medical assistance.

In addition, acting in accordance with the common criminal intent and objective of the formation and each of its members, members of the criminal formation (organization), in the village of **Sugovushan, Tartar District**, which they had occupied in April 1994 as a result of the large-scale aggressive war initiated by them against Azerbaijan, shortly before the liberation of the said village from occupation—that is, during the period from **27 September 2020 to 03 October 2020**—buried numerous anti-personnel mines close to one another in a planned manner.

The types, models and places of manufacture of those mines are unknown to the investigation.

They organized ambushes, thereby creating minefields in the territory of the said populated locality for the purpose of achieving the objectives of the criminal organization.

Following the liberation of the village from occupation on **03 October 2020**, as a result of the countermeasures carried out by the Armed Forces of the Republic of Azerbaijan to prevent the large-scale aggressive attacks which, beginning on 27 September 2020, had acquired an increasingly active character, on **06 April 2021**, at approximately **14:00**, servicemen entered an area below the elevation bearing the conventional designation “**951**” in order to search for servicemen reported missing.

One of the anti-personnel mines exploded.

Extended-service soldier **Aliyev Punhan Shaban oglu**, commander of the first section of the second platoon of the obstacle-laying company of an unidentified military unit of the Ministry of Defence, sustained a shrapnel wound accompanied by:

a traumatic amputation of the right lower extremity at the level of the ankle joint; and

injuries to the left eye and right leg,

classified as serious bodily injuries dangerous to life.

Extended-service soldier **Bakhtiyar Ilgar oğlu**, commander of the second section of the reconnaissance-observation platoon of the same military unit, sustained shrapnel injuries accompanied by:

a traumatic amputation at the level of the metatarsal and tarsal bones of the right foot; and injuries to the right leg and right hand, classified as serious bodily injuries dangerous to life.

The lives of both servicemen were saved because they were evacuated to an unidentified military hospital of the Ministry of Defence, where they received timely specialized medical assistance.

Extended-service serviceman Sergeant **Dunyamalizade Azer Imkan oğlu**, commander of the first section of the fourth platoon of the said company, sustained a shrapnel wound to the right eye, classified as minor bodily injury causing a short-term health disorder.

He nevertheless survived because he managed to avoid the other fragments.

In addition, acting in accordance with the common criminal intent and objective of the formation and each of its members, members of the criminal formation (organization), in the territory of the **Khojaly District** and the surrounding areas, which they had occupied on **26 February 1992** as a result of the large-scale aggressive war initiated by them against Azerbaijan, shortly before the liberation of the said territories from occupation and on subsequent dates—that is, during the period from **27 September 2020 to 09 April 2021**—buried numerous anti-tank and anti-personnel mines close to one another in a planned manner.

The types, models and places of manufacture of those mines are unknown to the investigation.

They organized ambushes, thereby creating minefields for the purpose of achieving the objectives of the criminal organization.

On **09 April 2021**, at approximately **10:00**, following the liberation from occupation on 09 November 2020 of the village of **Chanagchi, Khojaly District**, and the surrounding villages, as a result of the countermeasures carried out by the Armed Forces of the Republic of Azerbaijan...

Page 93

to prevent the large-scale aggressive attacks which, beginning on 27 September 2020, had acquired an increasingly active character, soldier **Mammadov Namir Alijavad oğlu**, who served as the second driver-mechanic of a gun in the first platoon of the third battery of the artillery division of an unidentified military unit of the Ministry of Defence, was performing his duties in the territory of the village of **Chanagchi, Khojaly District**, when he triggered a previously buried **PMN-type blast anti-personnel mine**, whose date and place of manufacture were unknown.

An explosion occurred, as a result of which he sustained:

a traumatic amputation of the left lower extremity at the level of the lower third of the lower leg; and

other injuries,

classified as serious bodily injuries dangerous to life.

His life was nevertheless saved because he received timely specialized medical assistance.

In addition, continuing their criminal acts and acting in accordance with the common criminal intent and objectives of the criminal formation, members of the criminal organization and of the armed formations constituting its structural subdivisions, on **21 April 2011**, at approximately **17:45**, opened fire from opposing positions situated in the territory of the said village, which was under their occupation, upon the command observation post of Combat Post No. 2 of an unidentified military unit of the Ministry of Defence, situated in the village of **Shurabad, Aghdam District**, Republic of Azerbaijan.

They used **5.45-mm AK-type automatic firearms**.

As a result, Warrant Officer **Suleymanov Anar Aly oglu**, who served as Deputy Commander of the second platoon of the second company of the first battalion of the unidentified military unit of the Ministry of Defence and was performing his official duties at the command observation post of the combat position in protecting the territorial integrity and public security of the Republic of Azerbaijan, sustained two penetrating gunshot wounds to the left half of the chest.

Those injuries were classified as minor bodily injuries.

He nevertheless survived because he lay down in the trench.

In addition, acting in accordance with the common criminal intent and objective of the formation and each of its members, members of the criminal formation (organization), in the territory of the **Aghdam District** and the surrounding areas, which they had occupied on 23 July 1993 as a result of the large-scale aggressive war initiated by them against Azerbaijan, shortly before the liberation of those territories from occupation—that is, during the period from **27 September 2020 to 20 November 2020**—buried numerous anti-tank and anti-personnel mines close to one another in a planned manner.

The models and places of manufacture of those mines are unknown to the investigation.

They organized ambushes, thereby creating minefields for the purpose of achieving the objectives of the criminal organization.

Following the liberation from occupation on **20 November 2020** of the Aghdam District and the surrounding territories pursuant to the trilateral Statement signed on 10 November 2020, and as a result of the countermeasures carried out by the Armed Forces of the Republic of Azerbaijan to prevent the large-scale aggressive attacks which, beginning on 27 September 2020, had acquired an increasingly active character, on **15 April 2021**, at

approximately **10:45**, Senior Lieutenant **Yagublu Ibadat Salman oglu**, commander of the first sapper platoon of the engineer-sapper company of an unidentified military unit of the Ministry of Defence, was carrying out mine-clearance work in areas situated in the territory of the village of **Orta Gervend, Aghdam District**.

He triggered a previously buried **PMN-type blast anti-personnel mine**, which had been laid under unknown circumstances and whose date and place of manufacture were unknown.

An explosion occurred, as a result of which he sustained:

a traumatic avulsion of the left lower extremity at the level of the ankle joint; and

other injuries,

classified as serious bodily injuries dangerous to life.

His life was nevertheless saved because he received timely specialized medical assistance.

Page 94

In addition, acting in accordance with the common criminal intent and objective of the formation and each of its members, members of the criminal formation (organization), near the village of **Marzili, Aghdam District**, which they had occupied in June 1993, shortly before the liberation of those territories from occupation by the Armed Forces of the Republic of Azerbaijan—that is, during the period from **27 September 2020 to 20 November 2020**—buried numerous anti-tank and anti-personnel mines close to one another in a planned manner.

The types, models and places of manufacture of those mines are unknown to the investigation.

They organized ambushes, thereby creating minefields for the purpose of achieving the objectives of the criminal organization.

On **17 April 2021**, at approximately **20:00**, **Guliyev Arif Sabir oglu**, born on 22 November 1983, a resident of the village of **Yukhary Giyamaddinli, Aghjabadi District**, was grazing livestock on the **Ergi plain** in the village of Marzili, Aghdam District.

Having noticed that several animals were missing, he began searching for them and triggered a mine buried in the territory of the Ergi plain in the Aghdam District.

An explosion occurred, as a result of which he sustained:

a traumatic amputation of the lower third of the left lower leg; and

hyperaemia of the upper third of the left lower leg.

Those fragment-related injuries were classified as minor bodily injuries.

With the assistance of persons who were nearby, he was evacuated from the scene and taken to a hospital, where his life was saved because he received timely specialized medical assistance.

In addition, acting in accordance with the common criminal intent and objective of the formation and each of its members, members of the criminal formation (organization), in the territory of the **Aghdara District** and the surrounding areas, which they had occupied on **07 July 1993** as a result of the large-scale aggressive war initiated by them against Azerbaijan, buried numerous anti-tank and anti-personnel mines close to one another in a planned manner.

The models and places of manufacture of those mines are unknown to the investigation.

They organized ambushes, thereby creating minefields for the purpose of achieving the objectives of the criminal organization.

Following the liberation from occupation on **03 October 2020** of the village of **Talysh, Aghdara District**, and the surrounding territories, as a result of the countermeasures carried out by the Armed Forces of the Republic of Azerbaijan to prevent the large-scale aggressive attacks which, beginning on 27 September 2020, had acquired an increasingly active character, on **20 April 2021**, at approximately **08:00**, soldier **Heydarli Orkhan Ilyas oglu**, a rifleman and member of the third section of the second platoon of the first company of the first battalion of an unidentified military unit of the Ministry of Defence, was carrying out mine-clearance work in areas situated in the territory of the village of Talysh, Aghdara District, which had served as combat positions of illegal Armenian armed formations during the occupation.

He triggered a previously buried **PMN-type blast anti-personnel mine**, whose date and place of manufacture were unknown.

An explosion occurred, as a result of which he sustained:

injuries to various parts of the body;

an injury to the left half of the chest accompanied by a left-sided haemopneumothorax penetrating the pleural cavity; and

other injuries,

classified as serious bodily injuries causing a prolonged health disorder.

His life was nevertheless saved because he received timely specialized medical assistance.

In addition, acting in accordance with the common criminal intent and objective of the formation and each of its members, members of the criminal formation (organization), near the village of **Marzili, Aghdam District**, which they had occupied in June 1993, shortly before the liberation of the village of Marzili from occupation—that is, during the period from **27 September 2020 to 20 November 2020**—buried numerous anti-tank and anti-personnel mines close to one another in a planned manner.

The types, models and places of manufacture of those mines are unknown to the investigation.

They organized ambushes, thereby creating minefields for the purpose of achieving the objectives of the criminal organization, following...

Page 95

the complete liberation of the said village from occupation on **20 November 2020**, as a result of the countermeasures carried out by the Armed Forces of the Republic of Azerbaijan to prevent the large-scale aggressive attacks which, beginning on 27 September 2020, had acquired an increasingly active character, on **26 April 2021**, at approximately **17:00**, the following residents of the city of Aghjabadi visited the said village for the purpose of collecting metal:

Verdiyev Shahin Vahid oğlu, born on 01 January 1977;

his brother **Verdiyev Aydin Vahid oğlu**, born on 28 December 1983; and

their neighbour **Guliyev Firdovsi Idris oğlu**, born on 25 March 1974.

Near the village of Marzili, Aghdam District, they triggered a buried **PMN-E-type blast anti-personnel mine**.

An explosion occurred, as a result of which **Shahin Verdiyev** sustained:

blast trauma;

contusion and destruction of brain tissue and of the left eyeball; and

multiple shrapnel wounds to the surface of the body.

Those injuries were classified as serious bodily injuries dangerous to life.

Aydin Verdiyev sustained a penetrating wound to the left eyeball, classified as serious bodily injury dangerous to life.

Firdovsi Guliyev sustained:

destruction of the right eyeball;

an extensive penetrating rupture;

a wound to the sclera of the left eye;

prolapse of the internal membranes through the wound;

a corneal burn;

multiple foreign bodies;

severe contusion of the eyeball; and

a non-penetrating corneal wound.

Those injuries were classified as serious bodily injuries dangerous to life.

As a result, **Shahin Verdiyev was intentionally killed** by the injuries he sustained.

With the assistance of persons who were nearby, Aydin Verdiyev and Firdovsi Guliyev were evacuated from the scene and taken to a hospital, where their lives were saved because they received timely specialized medical assistance. They were therefore unable intentionally to kill them.

In addition, acting in accordance with the common criminal intent and objective of the formation and each of its members, during the period from **20 to 27 May 2018**, on elevations surrounding the village of **Gunnut, Sharur District, Nakhchivan Autonomous Republic**, which had been occupied by Armenia in 1992, members of the criminal formation (organization) buried numerous mines before those territories were liberated by the Armed Forces of the Republic of Azerbaijan.

They thereby created minefields.

On **05 May 2021**, at approximately **09:00**, **Huseynov Elchin Ali oglu**, born on 15 August 1980, a civilian resident of the village of **Ashaghi Yayji, Sharur District**, was gathering bracken on a plot known as “**Paya Dere**,” situated near the boundary of the village of Gunnut, Sharur District, which had been liberated from occupation during the **Gunnut operation** conducted by the Separate Combined-Arms Army in May 2018.

He triggered a **PMN-type anti-personnel mine**.

An explosion occurred, as a result of which he sustained bodily injuries classified as serious and dangerous to life, accompanied by a traumatic amputation of the middle third of the left lower leg.

His fellow villager took him to the Sharur District Central Hospital, where his life was saved because he received timely specialized medical assistance.

In addition, acting in accordance with the common criminal intent and objective of the formation and each of its members, members of the criminal formation (organization), in the border area of the village of **Goyalli, Gadabay District**, Republic of Azerbaijan, situated on the border with Armenia, buried numerous anti-tank and anti-personnel mines close to one another in a planned manner.

The types, models and places of manufacture of those mines are unknown to the investigation.

They organized ambushes, thereby creating minefields for the purpose of achieving the objectives of the criminal organization.

On **11 May 2021**, at approximately **17:00**, residents of the village of **Sonalar, Gadabay District**:

Namazov Kamran Aydin oglu, born on 01 February 1995; and

Nasibov Saddam Ilyas oglu, born on 26 December 1994,

were grazing cattle in a pasture situated approximately **1,300 metres from the combat post known as “Chenlibel”** and **1,500 metres from the combat post known as “Kendelen,”**

Page 96

which were situated in the territory of the village of Goyalli, Gadabay District, when they triggered an anti-personnel mine whose make was unknown to the investigation.

An explosion occurred, as a result of which **Kamran Namazov** sustained:

a traumatic avulsion of the left foot;

blast trauma;

traumatic shock;

open multi-fragmentary displaced fractures of the bones of both lower legs; and

shrapnel wounds to the nose, the upper eyelid of the left eye, the lower lip, the right corner of the mouth, the right shoulder, the right elbow joint, the right forearm, the right hand and the anterior surface of the chest.

Those injuries were classified as serious bodily injuries dangerous to life.

Saddam Nasibov sustained:

contused-lacerated wounds to the upper surface of the right hand and the left thigh; and

superficial contused-lacerated wounds to the upper eyelid of the right eye, the interbrow region, the right lower leg and the right knee.

Those injuries were classified as minor bodily injuries causing a short-term health disorder.

With the assistance of servicemen who were nearby, they were taken to the Shamkir District Central Hospital, where their lives were saved because they received timely specialized medical assistance.

In addition, acting in accordance with the common criminal intent and objective of the formation and each of its members, shortly before the liberation of the village of **Zar, Kalbajar District**—during the period from **27 September 2020 to December of that year**—on dates not precisely established by the investigation, members of the criminal formation buried beneath a road numerous blast-type anti-tank mines of the following models:

TM-62;

TM-57;

TMK-2;

TM-72;

TM-73; and

TM-83.

The dates and places of manufacture of those mines were unknown.

They thereby created minefields for the purpose of achieving the objectives of the criminal organization.

On **17 May 2021**, at approximately **18:45**, serviceman **Aliyev Kerem Ilham oglu**, who served with the rank of soldier as driver of the first vehicle section of the first motor-vehicle platoon of the logistics-support company of an unidentified military unit of the Ministry of Defence, was driving a **KamAZ-43114** vehicle bearing military registration plate **J-084-QQ** and belonging to that military unit in the territory of the village of Zar, Kalbajar District.

The vehicle triggered one of the previously buried blast-type anti-tank mines of the **TM-62, TM-57, TMK-2, TM-72, TM-73 and TM-83** types, whose dates and places of manufacture were unknown.

An explosion occurred, as a result of which the KamAZ-43114 vehicle was rendered completely unusable.

Mammadov Niyameddin Jamaledin oglu, who served with the rank of senior warrant officer as senior sergeant of the first battalion of the unidentified military unit of the Ministry of Defence, sustained a closed comminuted displaced fracture of the first metatarsal bone.

The injury was classified as less serious bodily harm causing a prolonged health disorder.

Nazarov Ingilab Taji oglu, who served with the rank of senior warrant officer as radio-telephone operator of the first battalion, sustained abrasions to the temporal region.

Those injuries were classified as less serious bodily harm causing a prolonged health disorder.

Aliyev Kerem Ilham oglu, who served with the rank of soldier as driver of the first vehicle section of the first motor-vehicle platoon of the logistics-support company, sustained:

shrapnel fractures of the bones of the right lower leg;

a fracture of the right talus;

displaced fractures of both calcanei; and

other injuries.

Those injuries were classified as less serious bodily harm causing a prolonged health disorder.

Their lives were nevertheless saved because they received timely specialized medical assistance and because the vehicle's metal structure partially prevented the fragments from spreading.

The vehicle belonging to the military unit also sustained significant damage.

Page 97

In addition, acting in accordance with the common criminal intent and objective of the formation and each of its members, members of the criminal formation (organization), in the territories of the present-day **Aghdara, Kalbajar, Khojaly, Jabrayil and Lachin districts** of the Republic of Azerbaijan, which they had occupied as a result of the aggressive war initiated by them against Azerbaijan, shortly before the liberation of the said populated localities from occupation—that is, during the period from **27 September 2020 until the dates on which the mines exploded**—buried numerous anti-tank and anti-personnel mines close to one another.

The types, models and places of manufacture of those mines are unknown to the investigation.

They also placed other explosive devices, organized ambushes, and thereby created minefields and areas containing explosive devices in unidentified parts of those territories for the purpose of achieving the objectives of the criminal organization.

On **27 May 2021**, at approximately **15:00**, **Askerov Masim Hasan oglu**, born on 25 December 1986, a civilian resident of the village of Ashaghi Surra, Neftchala District, and an employee of **MUGANSUTIKINTI LLC**, had been instructed to restore a section of the **Garagar water canal** passing through the village of Chayli, Aghdara District.

While clearing stones and rubble from the edge of the said canal in the territory of the village of Chayli, he triggered a mine.

An explosion occurred, as a result of which he sustained:

an amputation at the level of the middle third of the metacarpophalangeal joint of the first finger of the left hand and of the second, third and fourth metacarpal bones;

fractures of the second, third, fourth and fifth metacarpal bones;

dislocation of the first metacarpal bone;

traumatic amputations of the first, second, third and fourth fingers of the left hand, resulting in the complete loss of function of the left hand;

a soft-tissue defect of the left hand;

multiple thermal, contused, lacerated and crushed wounds; and abrasions to the anterior surface of the chest and the abdominal region.

Those injuries were classified as the intentional infliction of serious bodily injury dangerous to life.

They were nevertheless unable intentionally to kill Masim Askerov because he received timely specialized medical assistance and his life was saved.

In addition, acting in accordance with the common criminal intent and objective of the formation and each of its members, members of the criminal formation (organization), in the territory of the village of **Saryjaly, Aghdam District**, which they had occupied on **23 July 1993** as a result of the large-scale aggressive war initiated by them against Azerbaijan, during the period of occupation and shortly before its liberation from occupation—that is, during the period from **27 September 2020 to 20 November 2020**—on dates not precisely established by the investigation, buried numerous anti-tank and anti-personnel mines close to one another in a planned manner.

The types, models and places of manufacture of those mines are unknown to the investigation.

They organized ambushes, thereby creating minefields for the purpose of achieving the objectives of the criminal organization.

Following the return of the territory of the village of Saryjaly, Aghdam District, to the Republic of Azerbaijan on **20 November 2020**, pursuant to the trilateral Statement, after the completion of military operations resulting from the countermeasures carried out by the Armed Forces of the Republic of Azerbaijan to prevent the large-scale aggressive attacks which, beginning on 27 September 2020, had acquired an increasingly active character, on **01 June 2021**, at approximately **13:00**, the following servicemen of an unidentified military unit of the Ministry of Defence were performing their official duties in protecting the territorial integrity and public security of the Republic of Azerbaijan:

Warrant Officer **Mammadov Nemat Mirza oglu**; and
soldier **Aslanov Shokhrat Arif oglu**.

While carrying out a mine-clearance operation in a **T-72 tank** belonging to the unidentified military unit and bearing turret number **239**, they triggered a mine.

The tank then ran over two of the said anti-tank mines, causing an explosion.

As a result, Nemat Mammadov sustained injuries to the head, back and lower back, the severity of which could not be determined because they caused no harm to health.

Shokhrat Aslanov sustained injuries to the head,

the severity of which could not be determined because they caused no harm to health.

They were subsequently evacuated to a military hospital and were not killed because they had been inside the tank and its armour protected them.

The equipment of the unidentified military unit was nevertheless damaged, thereby causing significant material damage to the military unit.

In addition, acting in accordance with the common criminal intent and objective of the formation and each of its members, shortly before the liberation of the village of **Zar, Kalbajar District**, from occupation—that is, during the period from **27 September 2020 to 04 June 2021**—on dates not precisely established by the investigation, members of the criminal formation buried beneath the road numerous blast-type anti-tank mines of the following models:

TM-62;

TM-57;

TMK-2;

TM-72;

TM-73; and

TM-83.

The dates and places of manufacture of those mines were unknown.

They thereby created minefields.

On **04 June 2021**, at approximately **11:00**, in the territory of the village of **Susuzlug, Kalbajar District**, extended-service soldier **Aliyev Etibar Imamverdi oğlu**, who served as senior driver of the motor-vehicle section of the commandant platoon of the headquarters company of an unidentified military unit of the Ministry of Defence, was driving a **KamAZ bus-type truck** bearing military registration plate **G-698-QQ** and belonging to the said military unit.

The vehicle triggered one of the previously buried blast-type anti-tank mines of the **TM-62, TM-57, TMK-2, TM-72, TM-73 and TM-83** types, whose dates and places of manufacture were unknown.

An explosion occurred, as a result of which the KamAZ vehicle was rendered completely unusable.

Ibrahimov Maharram Ali oğlu, a correspondent of the State Information Agency **AZERTAC**, who was inside the vehicle, sustained:

an open craniocerebral injury accompanied by destruction of the left eyeball,

classified as serious bodily injury dangerous to life.

Abyshov Siraj Abysh oglu, a camera operator of **Azerbaijan Television and Radio Broadcasting OJSC**, sustained:

an incomplete traumatic avulsion of the right lower extremity at the level of its lower third, with the limb remaining suspended by a flap-like piece of skin,

classified as serious bodily injury dangerous to life.

Aliyev Arif Agalar oglu, Deputy Representative of the Head of the Kalbajar District Executive Authority for the village of Susuzlug, sustained:

open comminuted fractures of the cranial vault and base and of the facial skeleton, with displacement; and

other injuries,

classified as serious bodily injuries dangerous to life.

He died at the scene.

Abdullayev Kamil Selim oglu, Representative of the Head of the Kalbajar District Executive Authority for the village of Susuzlug and a resident of the Kalbajar District, sustained:

barotrauma accompanied by sensorineural hearing loss,

classified as less serious bodily injury causing a prolonged health disorder.

Extended-service soldier **Aliyev Etibar Imamverdi oglu**, senior driver of the motor-vehicle section of the commandant platoon of the headquarters company of the unidentified military unit of the Ministry of Defence, sustained:

an abrasion to the left temporal region accompanied by concussion,

classified as minor bodily injury causing a short-term health disorder.

Jafarov Shokhrat Elkhan oglu, Representative of the Kalbajar District Executive Authority for the village of Yanshag and a resident of the Kalbajar District, sustained:

a shrapnel wound to the soft tissues of the right lumbar region and the left lateral abdominal wall,

classified as less serious bodily injury causing a prolonged health disorder.

Mammadov Emin Hasan oglu, a director at Azerbaijan Television and Radio Broadcasting OJSC and a resident of the Nizami District of Baku, sustained:

blunt trauma accompanied by an abrasion to the left half of the chest; and

other injuries,

classified as minor bodily injuries causing a short-term health disorder.

Their lives were nevertheless saved because they were...

Page 99

because they received timely specialized medical assistance and because some of the fragments were blocked by the vehicle's metal body.

In addition, acting in accordance with the common criminal intent and objective of the formation and each of its members, members of the criminal formation (organization), in the territories of the villages of **Mahrizli and Saryjaly, Aghdam District**, which they had occupied in July 1993 as a result of the large-scale aggressive war initiated by them against Azerbaijan, shortly before their liberation from occupation—that is, during the period from **27 September 2020 to 20 November 2020**—buried numerous anti-tank and anti-personnel mines close to one another in a planned manner.

The types, models and places of manufacture of those mines are unknown to the investigation.

They organized ambushes, thereby creating minefields for the purpose of achieving the objectives of the criminal organization.

Following the complete liberation of those territories from occupation on **20 November 2020**, as a result of the countermeasures carried out by the Armed Forces of the Republic of Azerbaijan to prevent the large-scale aggressive attacks which, beginning on 27 September 2020, had acquired an increasingly active character, on **07 June 2021**, at approximately **17:00–18:00**, **Khatamanov Jagsarat Siyafat oglu**, born on 22 February 1978, a resident of the settlement of Guzanli, Aghdam District, travelled with his colleagues to deliver gravestones to a cemetery situated in the village of Mahrizli, Aghdam District.

He then left them in order to visit the village of Saryjaly, Aghdam District, which had been liberated from occupation.

While walking through the said village, he triggered a **PMN-type blast anti-personnel mine**.

An explosion occurred, as a result of which he sustained:

blast trauma caused by the fragments;

an amputation of the upper third of the right lower leg;

multiple comminuted fractures;

an injury to the popliteal artery; and

numerous other injuries.

Those injuries were classified as serious bodily injuries and resulted in his death. He was thereby intentionally killed.

In addition, acting in accordance with the common criminal intent and objective of the formation and each of its members, members of the criminal formation (organization), in the territory of the village of **Ashaghi Abdurrahmanli, Fuzuli District**, which they had occupied in August 1993 as a result of the large-scale aggressive war initiated by them against Azerbaijan, during the period of occupation, on dates not precisely established by the investigation, buried numerous anti-tank and anti-personnel mines close to one another in a planned manner.

The types, models and places of manufacture of those mines are unknown to the investigation.

They organized ambushes, thereby creating minefields for the purpose of achieving the objectives of the criminal organization.

On **08 July 2021**, at approximately **13:00**, in the said territory, which had been fully liberated from occupation on 03 October 2020 as a result of the countermeasures carried out by the Armed Forces of the Republic of Azerbaijan to prevent the large-scale aggressive attacks which, beginning on 27 September 2020, had acquired an increasingly active character, the following civilians were supervising a pasture used for grazing small livestock:

Nuriyev Nuru Aslan oğlu, a resident of the settlement of Zobujug-2, Fuzuli District; and

Gashimov Elnur Aydin oğlu, a resident of the city of Horadiz.

Nuru Nuriyev triggered one of the said mines.

An explosion occurred, as a result of which he sustained a shrapnel wound accompanied by:

a traumatic amputation of the lower third of the left lower leg;

acute blood loss; and

severe traumatic shock.

Those injuries were classified as serious bodily injuries dangerous to life, and he was killed as a result.

Having seen that Nuru Nuriyev had been injured and remained in the minefield, his friend Elnur Gashimov attempted to pull him out but triggered another mine.

A further explosion occurred, as a result of which he sustained:

a traumatic amputation of the lower third of the left lower leg; and

other shrapnel wounds,

classified as serious bodily injuries dangerous to life.

His life was nevertheless saved because he was

Page 100

taken to a hospital, where he received timely specialized medical assistance.

In addition, acting in accordance with the common criminal intent and objective of the formation and each of its members, members of the criminal formation (organization), in the territory of the **Fuzuli District**, which they had occupied on 23 August 1993 as a result of the large-scale aggressive war initiated by them against Azerbaijan, during the period of occupation, on dates not precisely established by the investigation, buried numerous anti-tank and anti-personnel mines close to one another in a planned manner.

The types, models and places of manufacture of those mines are unknown to the investigation.

They organized ambushes, thereby creating minefields for the purpose of achieving the objectives of the criminal organization.

On **10 July 2021**, at approximately **09:00**, at the combat post known as “**Goyarchin**” in the territory of the village of **Alkhanly, Fuzuli District**, Senior Sergeant **Khalilov Nijdat Yagshin oglu**, a serviceman of an unidentified military unit of the Ministry of Defence, was performing his official duties in protecting the territorial integrity and public security of the Republic of Azerbaijan when he triggered one of the said anti-personnel mines, whose make and model were unknown to the investigation.

An explosion occurred, as a result of which he sustained bodily injuries classified as serious and dangerous to life, accompanied by traumatic amputations of the lower thirds of both lower legs.

He was evacuated to an unidentified military hospital of the Ministry of Defence, where his life was saved because he received timely specialized medical assistance.

In addition, acting in accordance with the common criminal intent and objective of the formation and each of its members, members of the criminal formation (organization) opened fire upon the village of **Garakhanbeyli, Fuzuli District**, from positions situated in other territories of the Republic of Azerbaijan under their occupation.

They used combat elements fitted with cluster warheads, the types, models and places of manufacture of which are unknown to the investigation.

On **12 July 2021**, at approximately **11:00**, in the said territory, which had been fully liberated from occupation on 27 September 2020, civilian **Khalilov Elshan Eyvaz oglu**, who worked as a tractor driver for **Körpü-Bina Tikinti LLC**, which was carrying out construction and installation work in the liberated territories, was travelling on foot when he accidentally touched an unexploded part of a cluster munition.

An explosion occurred, as a result of which he sustained:

multiple shrapnel wounds penetrating the left pleural cavity; and

haemopneumothorax, involving an accumulation of blood and air in the thoracic cavity.

Those injuries were classified as serious bodily injuries dangerous to life.

His life was nevertheless saved because he was promptly taken to a hospital and received specialized medical assistance.

In addition, acting in accordance with the common criminal intent and objective of the formation and each of its members, members of the criminal formation (organization), in the territory known as the “**Violet Pasture**,” situated on the boundary of the Kalbajar District—which they had occupied on 03 April 1993 as a result of the large-scale aggressive war initiated by them against Azerbaijan—and the Goygol District, during the period of occupation, on dates not precisely established by the investigation, buried numerous anti-tank and anti-personnel mines close to one another in a planned manner.

The types, models and places of manufacture of those mines are unknown to the investigation.

They organized ambushes, thereby creating minefields for the purpose of achieving the objectives of the criminal organization.

Following the liberation on **25 November 2020**, pursuant to the trilateral Statement of 10 November 2020, of the Kalbajar District and numerous surrounding villages, as a result of the countermeasures carried out by the Armed Forces of the Republic of Azerbaijan...

Page 101

to prevent the large-scale aggressive attacks which, beginning on 27 September 2020, had acquired an increasingly active character, on **14 July 2021**, at approximately **20:00**, **Ojagguliyev Raman Kamal oglu**, a civilian resident of the village of **Mollajallilli, Goygol District**, who had visited the said territory, was grazing small livestock in a pasture when he triggered one of the mines.

An explosion occurred, as a result of which he sustained:

a complete amputation of the lower third of the left lower leg; and

other injuries,

classified as serious bodily injuries.

He subsequently died from shrapnel wounds accompanied by acute blood loss and traumatic shock.

The members of the criminal organization and of the armed formations constituting its structural subdivision, which carried out unlawful activities in the territory of the Republic of Azerbaijan in contravention of domestic and international legal norms, with the support of the military-political leadership, including the Armed Forces and other armed formations of the Republic of Armenia, as well as with their direct material and technical support and support in the form of personnel, on the basis of their centralized command, oral and written

directions, assignments and instructions, under their strict control, and supplied with various types of firearms, ammunition, military equipment and other armaments;

acting for the purpose of implementing the criminal plan encompassed by the common criminal intent of each member of the criminal organization, in contravention of the norms of international humanitarian law, killing Azerbaijani civilians and servicemen in the territory of the **Zangilan District**, which they had occupied on **30 October 1993** as a result of the large-scale aggressive war initiated by them against Azerbaijan; preventing their return to the said territory; creating panic among the population through explosions; and pursuing other criminal objectives;

in gross violation of the provisions of the **Ottawa Convention of 03 December 1997 on the Prohibition of the Use, Stockpiling, Production and Transfer of Anti-Personnel Mines and on Their Destruction**, and the **Protocol on Prohibitions or Restrictions on the Use of Mines, Booby-Traps and Other Devices**, annexed to the Convention of 10 October 1980 on Prohibitions or Restrictions on the Use of Certain Conventional Weapons Which May Be Deemed to Be Excessively Injurious or to Have Indiscriminate Effects;

on dates not precisely established by the investigation, buried numerous anti-tank and anti-personnel mines close to one another in a planned manner.

The types, models and places of manufacture of those mines are unknown to the investigation.

They organized ambushes, thereby creating minefields for the purpose of achieving the objectives of the said criminal organization.

Following the liberation from occupation by the Armed Forces of the Republic of Azerbaijan of the Zangilan District and many surrounding villages, on **14 July 2021**, at approximately **16:50**, Junior Warrant Officers **Gilmyazliyev Mahammad Ilham oglu** and **Namazov Murtuz Farman oglu**, drivers of an unidentified military unit of the State Border Service, were participating in a mine-search operation on a forest path leading from the village of **Najaflar** toward the village of **Shotariz, Zangilan District**, when they triggered a previously buried anti-personnel mine.

As a result, **Mahammad Gilmyazliyev** sustained:

a traumatic amputation of the lower third of the right lower leg, resulting in a prolonged and permanent loss of more than one-third of his capacity for work;

an amputation in the popliteal region of the right lower leg; and

multiple shrapnel wounds to the left lower extremity.

Those injuries were classified as serious bodily injuries.

Murtuz Namazov sustained:

a reactive post-traumatic stress disorder;

mild contusions of both eyeballs;

corneal erosions; and

foreign bodies in the upper eyelid and cornea of the right eye.

Those injuries were classified as less serious bodily injuries causing a prolonged health disorder.

The lives of both men

Page 102

were saved because they received timely specialized medical assistance, and they were therefore not intentionally killed.

In addition, acting in accordance with the common criminal intent and objective of the formation and each of its members, members of the criminal formation (organization), in the village of **Syngar, Khojaly District**, which they had occupied in 1992, shortly before the liberation of the said territory from the occupation of the Republic of Armenia—that is, during the period from **27 September 2020 to 09 November 2020**—buried numerous mines, thereby creating minefields.

On **21 July 2021**, at approximately **12:00**, employees of **Kolin İnşaat Sanayi ve Ticaret Anonim**, which was carrying out road-construction work in the territories liberated from occupation:

Makhmudov Tahir Polad oğlu, born on 20 September 1998, a resident of the village of **Gumlag, Jabrayil District**; and

Mehraliyev Yasin Mehdi oğlu, born on 12 October 1996, a resident of the village of **Gizilkend, Imishli District**,

were approximately **300 metres from a tunnel above the highway** constructed in the territory of the village of Syngar, Khojaly District, which had been liberated from occupation on 09 November 2020, when, while walking, they triggered one of the **PMN-2-type anti-personnel mines**.

An explosion occurred, as a result of which **Yasin Mehraliyev** sustained bodily injuries classified as minor bodily harm causing a short-term health disorder, accompanied by multiple contused wounds to the posterior surface of the right lower extremity.

Tahir Makhmudov sustained bodily injuries classified as serious and dangerous to life, accompanied by:

an amputation of the lower third of the right lower leg;

open fractures of the bones of the right lower leg;

multiple abrasions to the right lower extremity; and

multiple abrasions to the right forearm.

With the assistance of servicemen who were nearby, they were taken to the **Fuzuli Treatment and Diagnostic Centre**, where their lives were saved because they received timely specialized medical assistance.

In addition, acting in accordance with the common criminal intent and objective of the formation and each of its members, members of the criminal formation (organization), in the territory of the same village, during the period of occupation and shortly before its liberation from occupation, on a date not precisely established by the investigation, buried other anti-personnel mines.

On **27 July 2021**, at approximately **07:00**, **Nasirov Bahruz Talyb oglu**, born on 26 August 1979, an employee of the Azerbaijan National Agency for Mine Action and a resident of the city of Horadiz, Fuzuli District, was carrying out mine-clearance operations.

At a point approximately **1,500 metres from the main road of the village of Jojug Marjanli, Jabrayil District**, to the left in the direction of Nakhchivan from the **Baku–Nakhchivan railway line** passing through the territory of the village of Mehdili, Jabrayil District, at the coordinates **39°23'33"N, 47°17'06"E**, he triggered one of the buried **PMN-type anti-personnel mines**.

An explosion occurred, as a result of which he sustained bodily injuries classified as minor bodily harm, accompanied by:

barotrauma; and multiple contused wounds to the cheek and right lower leg.

He was taken to the Fuzuli Treatment and Diagnostic Centre, where his life was saved because he received timely specialized medical assistance.

In addition, acting in accordance with the common criminal intent and objective of the formation and each of its members, members of the criminal formation (organization), on the **Murovdag mountain ridge**, which they had occupied in February 1994, on the opposite side of the engineer-sapper installations of illegal Armenian armed formations in the direction of the **Kalbajar District**, which they had occupied on 03 April 1993 as a result of the aggressive war initiated by them against Azerbaijan, having understood that part of the Murovdag ridge situated in the Kalbajar District would be liberated as a result of the countermeasures carried out by the Armed Forces of the Republic of Azerbaijan to prevent the large-scale aggressive attacks which, beginning on 27 September 2020, had acquired an increasingly active character, during the period from **27 September 2020 to 03 October 2020...**

Page 103

on dates not precisely established by the investigation, buried numerous anti-tank and anti-personnel mines close to one another in a planned manner.

The types, models and places of manufacture of those mines are unknown to the investigation.

They organized ambushes, thereby creating minefields for the purpose of achieving the objectives of the criminal organization.

Following the complete liberation of the said territory from the occupation of the Republic of Armenia on **03 October 2020**, on **29 July 2021**, civilians from the Dashkesan District:

Bayramov Gismet Allahverdi oğlu, born on 20 October 2010; and

Rustamov Ulfat Hikmet oğlu, born on 25 December 2000,

were in the said territory searching for cattle.

While travelling on a horse which they were using as a means of transportation, they triggered one of the anti-personnel mines.

An explosion occurred, as a result of which both men died from multiple shrapnel wounds accompanied by acute blood loss.

Two months after the incident, parts of Gismet Bayramov's body, as well as remnants of clothing belonging to both persons, were discovered and recovered.

In addition, acting in accordance with the common criminal intent and objective of the formation and each of its members, members of the criminal formation (organization), in the territory of the village of **Amirvarli, Jabrayil District**, which they had occupied on **23 August 1993**, buried numerous mines during the period of occupation, thereby creating minefields.

On **31 July 2021**, at approximately **15:00**, **Abbaszade Elnur Raftar oğlu**, born on 16 January 1997, a resident of the village of Mahmudlu-3, Fuzuli District, who worked as a labourer for **Geototul LLC** and was carrying out roadwork on the **Horadiz–Zangilan highway**, was travelling near the village of Amirvarli, which had been liberated from occupation on 03 October 2020.

At the **47th kilometre of the Horadiz–Zangilan highway**, he triggered a **PMN-type mine** on the roadside.

An explosion occurred, as a result of which he sustained bodily injuries classified as minor bodily harm, accompanied by:

a penetrating wound to the anterior inner surface of the lower third of the right lower leg; and
an abrasion to the inner surface of the right heel.

His life was nevertheless saved because he was taken to the Fuzuli Treatment and Diagnostic Centre, where he received timely specialized medical assistance.

In addition, acting in accordance with the common criminal intent and objective of the formation and each of its members, members of the criminal formation (organization), in the territory of the **Kalbajar District** and the surrounding areas, which they had occupied on **03 April 1993** as a result of the large-scale aggressive war initiated by them against Azerbaijan,

during the period from **27 September 2020 to 02 August 2021**, on dates not precisely established by the investigation, buried numerous anti-tank and anti-personnel mines close to one another in a planned manner.

The types, models and places of manufacture of those mines are unknown to the investigation.

They organized ambushes, thereby creating minefields for the purpose of achieving the objectives of the criminal organization.

Following the liberation from occupation on **25 November 2020**, pursuant to the trilateral Statement of 10 November 2020, of the Kalbajar District and the surrounding territories, and as a result of the countermeasures carried out by the Armed Forces of the Republic of Azerbaijan to prevent the large-scale aggressive attacks which, beginning on 27 September 2020, had acquired an increasingly active character, on **02 August 2021**, at approximately **00:20**, extended-service servicemen of an unidentified military unit of the Ministry of Defence:

soldier **Pira Hasan Nizami oğlu**;

Gafarov Abbas Hasan oğlu; and

Allahverdiyev Khosrov Maharram oğlu

were travelling in a **Ural-432006** vehicle belonging to the unidentified military unit and bearing military registration plate **G503QQ**, in an area known as **Alagollar, Kalbajar District**, for the purpose of delivering material supplies to military posts.

The vehicle triggered a previously buried anti-tank mine.

An explosion occurred.

As a result of the blast wave, Khosrov Allahverdiyev jumped out of the vehicle and therefore sustained no injuries. However, the other servicemen who were inside the vehicle—

Page 104

soldier **Pira Hasan Nizami oğlu** sustained an injury classified as minor bodily harm causing a short-term health disorder, accompanied by ruptures of both tympanic membranes in the ear region;

while **Gafarov Abbas Hasan oğlu** sustained:

an abrasion to the left cheek;

blunt trauma to the chest; and

a contusion of the soft tissues of the left side of the chest and left shoulder.

The severity of those injuries was not determined because they caused no harm to health.

They were evacuated in a timely manner and received prompt medical assistance, as a result of which the lives of both men were saved.

The explosion also caused significant damage to the **Ural-432006** vehicle bearing military registration plate **G503QQ**.

In addition, acting in accordance with the common criminal intent and objective of the formation and each of its members, members of the criminal formation (organization), near the village of **Bash Gervend, Aghdam District**, which they had occupied in April 1994 as a result of the large-scale aggressive war initiated by them against Azerbaijan, shortly before the liberation of the said village from occupation by the Armed Forces of the Republic of Azerbaijan—that is, during the period from **27 September 2020 to 20 November 2020**—buried numerous anti-tank and anti-personnel mines close to one another in a planned manner.

The types, models and places of manufacture of those mines are unknown to the investigation.

They organized ambushes, thereby creating minefields for the purpose of achieving the objectives of the criminal organization.

On **06 August 2021**, at approximately **08:00**, **Aliyev Farid Alimusa oglu**, born on 01 February 1990, a resident of the Jalilabad District and employee of the **Mine Action Agency of the Republic of Azerbaijan**, was carrying out mine-search work in the territory of the village of Bash Gervend, Aghdam District.

He triggered a buried, pressure-operated **PMN-model anti-personnel mine manufactured in the Republic of Armenia**.

An explosion occurred, as a result of which fragments caused:

trauma to the left eye and orbit; and

scar tissue—traces of a contused-lacerated wound—on the posterior surface of the region of the first and second metacarpal bones of the right hand.

Those injuries were classified as minor bodily injuries.

With the assistance of persons who were nearby, he was evacuated from the scene and taken to a hospital, where his life was saved because he received timely medical assistance.

In addition, acting in accordance with the common criminal intent and objective of the formation and each of its members, members of the criminal formation (organization), in the territory of the village of **Tekegaya, Kalbajar District**, which they had occupied on **02 April 1993** as a result of the large-scale aggressive war initiated by them against Azerbaijan, during the period from 1993 to 2020, on dates not precisely established by the investigation, buried numerous anti-tank and anti-personnel mines close to one another in a planned manner.

The types, models and places of manufacture of those mines are unknown to the investigation.

They organized ambushes, thereby creating minefields for the purpose of achieving the objectives of the criminal organization.

On **29 August 2021**, at approximately **11:00**, **Tagiyev Shukur Ashraf oglu**, a civilian resident of the village of Alakhanchally, Dashkesan District, arrived in the said territory in search of cattle.

While walking along paths in the territory of the village, he triggered one of the anti-personnel mines.

An explosion occurred, as a result of which he sustained a shrapnel wound accompanied by an amputation of the lower third of the right lower leg.

The injury was classified as serious bodily harm dangerous to life.

His life was nevertheless saved because his relatives transported him to a hospital, where he received timely medical assistance.

In addition, acting in accordance with the common criminal intent and objective of the formation and each of its members, members of the criminal formation (organization), in the territories of the villages of **Chopurlu and Lev, Kalbajar District**, which they had occupied on **02 April 1993** as a result of the large-scale aggressive war initiated by them against Azerbaijan, during the period from **27 September 2020 to 04 September 2021**, on dates not precisely established by the investigation...

Page 105

on dates not precisely established by the investigation, buried numerous anti-tank and anti-personnel mines close to one another in a planned manner.

The types, models and places of manufacture of those mines are unknown to the investigation.

They organized ambushes, thereby creating minefields in the territories of the villages of **Chopurlu and Lev, Kalbajar District**, which had been fully liberated from occupation on **15 November 2020**, for the purpose of achieving the objectives of the criminal organization.

Following the countermeasures carried out by the Armed Forces of the Republic of Azerbaijan to prevent the large-scale aggressive attacks which, beginning on 27 September 2020, had acquired an increasingly active character, on **04 September 2021**, at approximately **17:50**, extended-service serviceman **Namazov Vasif Faig oglu**, driver of the first section of the first platoon of the engineer-sapper company of an unidentified military unit, was carrying out mine-clearance work.

He triggered one of the anti-personnel mines.

An explosion occurred, as a result of which he sustained injuries classified as serious bodily injuries dangerous to life, accompanied by a traumatic amputation of the middle third of the right lower extremity.

He was evacuated to Military Hospital No. N, where his life was saved because he received timely specialized medical assistance.

In addition, acting in accordance with the common criminal intent and objective of the formation and each of its members, members of the criminal formation (organization), near the village of **Bash Gervend, Aghdam District**, which they had occupied in April 1994 as a result of the large-scale aggressive war initiated by them against Azerbaijan, shortly before the liberation of the said village from occupation by the Armed Forces of the Republic of Azerbaijan—that is, during the period from **27 September 2020 to 20 November 2020**—buried numerous anti-tank and anti-personnel mines close to one another in a planned manner.

The types, models and places of manufacture of those mines are unknown to the investigation.

They organized ambushes, thereby creating minefields for the purpose of achieving the objectives of the criminal organization.

On **20 September 2021**, at approximately **01:00**, **Agaev Zafer Yunus oglu**, born on 22 November 1972, a resident of the city of Sumgait and an excavator operator employed by **Körpü-Bina Tikinti LLC**, was performing his official duties in the village of Bash Gervend, Aghdam District.

He noticed that the bucket of the **Liugong CLG 936E tracked excavator** was in an improper position, started the excavator and attempted to correct the position of the bucket.

At that moment, he triggered a mine.

An explosion occurred, as a result of which fragments caused:

an abrasion to the right half of the forehead;

an abrasion to the anterior surface of the chest;

abrasions to the anterior surfaces of the middle and lower thirds of both lower legs.

The severity of those injuries could not be determined because they caused no harm to health.

With the assistance of persons who were nearby, he was evacuated from the scene and taken to a hospital, where his life was saved because he received timely specialized medical assistance.

The explosion also damaged the **Liugong CLG 936E tracked excavator**, bearing state registration plate **110-FY-307** and belonging to **Körpü-Bina Tikinti LLC**, thereby deliberately causing significant material damage to that legal entity.

In addition, acting in accordance with the common criminal intent and objective of the formation and each of its members, members of the criminal formation (organization), on the **Sofulu–Barkhudarli road** leading to the village of Barkhudarli, Gazakh District, which they had occupied on **27 April 1992** as a result of the large-scale aggressive war initiated by

them against Azerbaijan, during the period of occupation, buried numerous anti-tank and anti-personnel mines close to one another in a planned manner.

They organized ambushes, thereby creating minefields for the purpose of achieving the objectives of the criminal organization.

On **22 September 2021**, at **12:30**, **Mardanov Mammad Aladdin oglu**, a resident of the village of Khanliglar, Gazakh District,

Page 106

while clearing bushes from the Sofulu–Barkhudarli road in a **New Holland B90 tractor** bearing state registration plate **35-T-549** and belonging to the **Gazakh District Irrigation Water Department**, triggered one of the **TM-57 anti-tank mines**.

An explosion occurred, as a result of which Mammad Mardanov sustained shrapnel wounds in the form of:

an open craniocerebral injury;

a fracture of the left temporal bone;

a fracture of the bones of the base of the skull; and

haemorrhage into the brain tissue, its ventricles and membranes.

Those injuries resulted in his death.

The blast also rendered the **New Holland B90 tractor**, bearing state registration plate **35-T-549** and belonging to the Gazakh District Irrigation Water Department, completely unusable, thereby causing significant damage to it.

In addition, acting in accordance with the common criminal intent and objective of the formation and each of its members, members of the criminal formation (organization), near the village of **Marzili, Aghdam District**, which they had occupied in 1993, during the period of occupation, on dates not precisely established by the investigation, buried numerous anti-tank and anti-personnel mines close to one another in a planned manner.

The types, models and places of manufacture of those mines are unknown to the investigation.

They organized ambushes, thereby creating minefields for the purpose of achieving the objectives of the criminal organization.

On **30 September 2021**, at approximately **00:30**, in the territory of the village of Marzili, Aghdam District, Warrant Officer **Huseynov Afer Mahir oglu**, a serviceman of an unidentified military unit of the Ministry of Defence of the Republic of Azerbaijan, was travelling along a supply road in a **KamAZ-43114 truck** bearing military registration plate **D 553 QQ**.

Due to rainy weather conditions and the muddy and slippery road surface, he lost control of the vehicle and drove onto the roadside, where the vehicle triggered an anti-tank mine.

An explosion occurred, as a result of which the vehicle sustained material damage.

Afer Huseynov sustained a displaced fracture of the left fifth metatarsal bone, classified as less serious bodily injury causing a prolonged health disorder.

The other servicemen who were inside the vehicle sustained the following injuries:

soldier **Abdullayev Yusif Shakhmaly oglu** — superficial abrasions to the temporal region and forehead;

soldier **Haziyev Rashad Rahim oglu** — superficial abrasions to the temporal region and forehead;

soldier **Aliyev Adem Nail oglu** — an abrasion to the nose and the region beneath the left eye; and

soldier **Ajabov Kanan Bahlul oglu** — abrasions to the left side of the forehead and left shoulder blade, the left heel and sole of the left foot, the temporal region, as well as contusions of the soft tissues of the right and left shoulder girdles and the left half of the chest.

The severity of those injuries could not be determined because they caused no harm to health.

Afer Huseynov's life was saved because he received timely specialized medical assistance, while the others, having exercised vigilance, saved their own lives.

In addition, acting in accordance with the common criminal intent and objective of the formation and each of its members, members of the criminal formation (organization), in the village of **Agbend, Zangilan District**, which they had occupied on **29 October 1993** as a result of the large-scale aggressive war initiated by them against Azerbaijan, shortly before the liberation of the said village from occupation—that is, during the period from **27 September 2020 to 22 October 2020**—on dates not precisely established by the investigation, buried numerous anti-personnel mines close to one another in a planned manner.

The types, models and places of manufacture of those mines are unknown to the investigation.

They organized ambushes, thereby creating minefields for the purpose of achieving the objectives of the criminal organization in the territory of the village of Agbend, Zangilan District, which was liberated from occupation on **22 October 2020** as a result of the countermeasures carried out by the Armed Forces of the Republic of Azerbaijan to prevent the large-scale aggressive...

aggressive attacks which, beginning on 27 September 2020, had acquired an increasingly active character, on **30 September 2021**, at approximately **14:50**, Junior Warrant Officer **Nazarkhanli Elgun Elkhanoğlu**, commander of the fourth group of the 30th border combat post of the 30th border outpost of the ninth border commandant's office of an unidentified military unit of the State Border Service, was performing his official duties near the first firing position of the fourth border combat post of the 30th border outpost of the ninth border commandant's office of the unidentified military unit of the State Border Service.

In the course of his service, he triggered one of the anti-personnel mines.

An explosion occurred, as a result of which he sustained a gunshot wound accompanied by: a traumatic amputation of the left ankle joint in the region of the left and right lower legs, classified as serious bodily injury dangerous to life.

He was evacuated to Military Hospital No. N of the Ministry of Defence, where his life was saved because he received timely specialized medical assistance.

In addition, acting in accordance with the common criminal intent and objective of the formation and each of its members, members of the criminal organization, in the area known as the "**Omarsky Pass**" on the **Kalbajar–Goygol highway** in the territory of the Kalbajar District, which they had occupied in February 1994, during the period of occupation—that is, from **1994 to 2020**—on dates not precisely established by the investigation, buried numerous anti-tank and anti-personnel mines close to one another in a planned manner.

The types, models and places of manufacture of those mines are unknown to the investigation.

They organized ambushes, thereby creating minefields for the purpose of achieving the objectives of the criminal organization.

On **11 October 2021**, at approximately **11:00**, Turkish citizen **Bilal Koca Dursun**, while carrying out road-widening work on the **Toganali–Kalbajar–Goygol road**, was operating a **Caterpillar D8 bulldozer** belonging to **Cengiz İnşaat** when he triggered one of the mines.

An explosion occurred, as a result of which the Caterpillar D8 bulldozer belonging to Cengiz İnşaat was rendered unusable, thereby causing significant damage to it.

No one was injured or killed as a result of the explosion.

In addition, acting in accordance with the common criminal intent and objective of the formation and each of its members, members of the criminal organization, in the territory of the village of **Jojug Marjanli, Jabrayil District**, which the Republic of Armenia had occupied in August 1993 as a result of the large-scale aggressive war initiated by it against Azerbaijan and which was liberated from occupation by the Armed Forces of the Republic of Azerbaijan on **02 April 2016**, during the period from that date until **04 October 2020**, when the said territory was fully liberated from occupation, buried numerous anti-tank and anti-personnel mines close to one another in a planned manner.

They organized ambushes, thereby creating minefields for the purpose of achieving the objectives of the criminal organization.

On **07 November 2021**, at approximately **16:00**, **Aslanov Khanlar Fazil oğlu**, a resident of the village of Jojug Marjanli, Jabrayil District, was grazing small livestock opposite trenches previously dug by Armenian armed formations in a pasture when he triggered one of the mines.

An explosion occurred, as a result of which he sustained a traumatic amputation of the lower third of the left thigh.

The injury was classified as serious bodily harm dangerous to life.

With the assistance of persons who were nearby, he was taken to a hospital, where his life was saved because he received timely specialized medical assistance.

In addition, acting in accordance with the common criminal intent and objective of the formation and each of its members, members of the criminal organization, in the territory of the village of **Tapgaragoyunlu**, situated on the boundary between the village of Talysh, Aghdara District, and the village of Tapgaragoyunlu, Goranboy District—its date of occupation being **11 April 1994**—during the period of occupation, buried numerous mines close to one another in a planned manner.

Page 108

They thereby created extensive minefields for the purpose of achieving the objectives of the criminal organization.

On **11 November 2021**, at approximately **13:00**, **Garayev Shahin Gadir oğlu**, who had visited the said territory after its complete liberation from occupation on 03 October 2020, triggered one of the mines buried in the area known as “**Yanykh Dag.**”

An explosion occurred, as a result of which he sustained serious bodily injuries dangerous to life, namely a traumatic amputation of the lower third of the left lower extremity.

With the assistance of his relatives, he was taken to a hospital, where his life was saved because he received timely specialized medical assistance.

In addition, members of the criminal organization (association) whose identities have not been precisely established by the investigation, acting in accordance with the common criminal intent and objective of the association and each of its members, near the village of **Tagibeyli, Aghdam District**, which they had occupied in April 1994 as a result of the aggressive war initiated against Azerbaijan, shortly before the liberation of the said village from occupation—that is, during the period from **27 September 2020 to 20 November 2020**—deliberately buried numerous anti-tank and anti-personnel mines of types, models and places of manufacture unknown to the investigation close to one another and organized ambushes, thereby creating mined areas for the purpose of achieving the objectives of the said criminal organization.

On **15 November 2021**, at approximately **17:00**, **Agayev Zakhur Isa oglu**, born on 06 June 1980, a resident of the village of Tazakend, Aghdam District, visited the said territory, which had been fully liberated from occupation on 20 November 2020 as a result of the countermeasures carried out by the Armed Forces of the Republic of Azerbaijan to prevent the large-scale aggressive attacks which, beginning on 27 September 2020, had acquired an increasingly active character.

He was intentionally killed as a result of the explosion of a **PMN blast mine**, sustaining injuries dangerous to life, including:

blast trauma;

lacerations of the organs of the thoracic and abdominal cavities;

traumatic amputations of the upper and lower extremities; and

multiple shrapnel fractures,

classified as serious bodily injuries.

In addition, members of the criminal organization (association) whose identities have not been precisely established by the investigation, acting in accordance with the common criminal intent and objective of the association and each of its members, in **June 1993**, near the village of **Marzili, Aghdam District**, which they had occupied, shortly before the liberation of the said village from occupation by the Armed Forces of the Republic of Azerbaijan—that is, during the period from **27 September 2020 to 20 November 2020**—deliberately buried numerous anti-tank and anti-personnel mines of types, models and places of manufacture unknown to the investigation close to one another and organized ambushes, thereby creating mined areas for the purpose of achieving the objectives of the criminal organization.

On **18 November 2021**, at approximately **15:00**, **Babayev Ramil Nazim oglu**, born on 03 August 1976, a resident of the village of Khyndyrystan, Aghdam District, was carrying out roadwork using a tractor bearing state registration plate **09-T-030** and belonging to the **Barda Forest Amelioration Department**, filling in an embankment constructed by the Armed Forces of Armenia in the territory of the village of Tazakend, Aghdam District, during the period of occupation.

As a result of the explosion of a mine buried in the ground, the type and model of which could not be established by the investigation, fragments caused:

contusions to the left half of the chest;

contusions to the left elbow and left wrist;

contusions to both knees; and

contusions to the soft tissues of the frontal region.

Those injuries were classified as minor bodily injuries.

He was evacuated from the scene and taken to Hospital No. N of an unidentified military unit, where his life was saved because he received timely qualified medical assistance.

The explosion also damaged a **DOOSAN-210 excavator** bearing state registration plate **AZ 09-AB-030**, ...

Page 109

belonging to the **Karabakh Forest Amelioration Department**, thereby deliberately causing significant material damage to that legal entity.

In addition, members of the criminal organization (association) whose identities have not been precisely established by the investigation, acting in accordance with the common criminal intent and objective of the association and each of its members, in the territory of the **Zangilan District and the surrounding villages**, which they had occupied on **29 October 1993** as a result of the large-scale aggressive war initiated by them against Azerbaijan, shortly before the liberation of the said territories from occupation and during subsequent periods—that is, during the period from **27 September 2020 to 20 November 2020**—deliberately buried numerous anti-tank and anti-personnel mines of types, models and places of manufacture unknown to the investigation close to one another and organized ambushes, thereby creating mined areas for the purpose of achieving the objectives of the said criminal organization.

Following the liberation from occupation of the Zangilan District and the surrounding villages on **20 October 2020**, as a result of the countermeasures carried out by the Armed Forces of the Republic of Azerbaijan to prevent the large-scale aggressive attacks actively carried out from 27 September 2020, on **19 November 2021**, at approximately **14:15**, civilian **Seyidov Nadir Bedir oglu**, who worked as a driver on a contractual basis for **Road Transport Department No. 1 of Azeravtoyol OJSC**, was excavating a road using the bucket of a **tracked excavator EK-230-06**, bearing state registration plate **10 X 901**, which he was operating.

During work on an access road from the fourth border combat post of the 30th border outpost of the eighth border commandant's office of Military Unit No. N of the State Border Service, situated on an elevation of the same name near the village of **Bartaz, Zangilan District**, an anti-tank mine previously laid in that area by armed units of the criminal organization exploded.

As a result, Junior Warrant Officer **Agababayev Renad Murad oglu**, commander of the engineering-support group of the security and supply platoon of the combat-support unit of the eighth border commandant's office of the nearby Military Unit No. N of the State Border Service, sustained a wound resulting from the presence of a millimetre-sized foreign body in the soft tissues of the left postauricular region.

The severity of that injury was not determined because it caused no harm to health.

Babayev Vagif Alizaab oglu, an operator of the unexploded-ordnance disposal group (**PHS-ƏQ**) of the **Mine Action Agency of the Republic of Azerbaijan (ANAMA)**, sustained shrapnel wounds to various parts of the body, classified as minor bodily injuries causing a short-term health disorder.

The life of the equipment operator, Nadir Seyidov, was saved because the working component of the equipment—the bucket—prevented the blast wave and fragments from spreading in large quantities, and also because, while he was at the controls, he was located sufficiently far from the point of explosion.

As a result of the explosion, the working component—the bucket—the windshields and other parts of the **EK-230-06 excavator** bearing state registration plate **10 X 901** were damaged to the point of being unusable, thereby causing material damage to the owner of the equipment, **Hasanov Samir Budag oglu**.

In addition, members of the criminal organization (association) whose identities have not been precisely established by the investigation, acting in accordance with the common criminal intent and objective of the association and each of its members, shortly before the liberation from occupation on **01 December 2020** by the Armed Forces of the Republic of Azerbaijan of the **Lachin District and the surrounding villages**, which they had occupied on **18 May 1992**, pursuant to the Statement of the President of the Republic of Azerbaijan, the Prime Minister of the Republic of Armenia and the President of the Russian Federation of 10 November 2020—that is, during the period from **27 September 2020 to 20 November 2020**—deliberately buried numerous anti-tank and anti-personnel mines of types, models and places of manufacture unknown to the investigation close to one another and organized ambushes, thereby creating...

Page 110

mined areas for the purpose of achieving the objectives of the said criminal organization.

On **21 November 2021**, at approximately **14:00**, civilian **Abilov Mahir Ramiz oglu**, a resident of the village of **Amankend, Bilasuvar District**, who worked as an electrician for overhead power lines with the Southern Regional Energy Supply and Sales Department and had been seconded to the Karabakh Regional Energy Supply and Sales Department pursuant to Order No. **KE/21-00129 of 15 November 2021** issued by the Deputy Chairman of **Azerishig OJSC**, was carrying out repairs to electrical lines in the territory of the village of **Gulabird, Lachin District**.

While passing over one of the anti-personnel mines, whose date and place of manufacture, as well as make and type, were unknown, an explosion occurred.

As a result, Mahir Abilov sustained bodily injuries classified as serious bodily harm, including:

blast trauma; and

loss of the right foot as a result of amputation at the level of the ankle joint.

His life was saved because he was promptly taken to a hospital and received qualified medical assistance.

In addition, members of the criminal organization (association) whose identities have not been precisely established by the investigation, acting in accordance with the common criminal intent and objective of the association and each of its members, in the territory of the

village of **Talysh, Tartar District**, Republic of Azerbaijan, which they had occupied on **22 April 1994** as a result of the aggressive war initiated against Azerbaijan, during the period in which they kept it under occupation, on dates not precisely established by the investigation, deliberately buried numerous anti-tank and anti-personnel mines of types, models and places of manufacture unknown to the investigation close to one another and organized ambushes, thereby creating mined areas for the purpose of achieving the objectives of the said criminal organization.

On **23 November 2021**, at approximately **08:00**, in the locality conventionally designated “**Aguchu**,” situated in the territory of the village of Talysh, Tartar District, which had been liberated from occupation on 03 October 2020 as a result of the countermeasures carried out by the Armed Forces of the Republic of Azerbaijan to prevent the large-scale aggressive attacks actively carried out from 27 September 2020, soldier **Kerimov Tajeddin Gazanfar oğlu**, commander of the first section of the second fortification platoon of Military Unit No. N of the Ministry of Defence, was performing his official duties in protecting the territorial integrity and public security of the Republic of Azerbaijan.

An explosion occurred when he passed over one of the **PMN-E-type anti-personnel mines**.

As a result, he sustained shrapnel wounds to the left side of the torso and the left leg, classified as less serious bodily injuries causing a prolonged health disorder.

He was evacuated in full consciousness to Hospital No. N of the Ministry of Defence, where his life was saved because he received timely qualified medical assistance.

In addition, members of the criminal organization whose identities have not been precisely established by the investigation, acting in accordance with the common criminal intent and objective of each of its members, in the area of the village of **Mehdili, Jabrayil District**, which they had occupied in August 1993 as a result of the aggressive war initiated against Azerbaijan, shortly before the liberation of the said village from occupation—that is, on a date not precisely established by the investigation during the period from **03 October 2020 to 29 November 2021**—deliberately buried numerous anti-tank and anti-personnel mines of types, models and places of manufacture unknown to the investigation close to one another and organized ambushes, thereby creating mined areas for the purpose of achieving the objectives of the said criminal organization.

On **29 November 2021**, at approximately **15:00**, civilian **Mammadov Natig Veli oğlu**, a resident of the village of **Barmagbin, Kalbajar District**, who worked as a driver for **Mirakl Dent LLC**, while visiting the said territory, which had been fully liberated from occupation on 03 October 2020 as a result of the countermeasures carried out by the Armed Forces of the Republic of Azerbaijan to prevent the large-scale aggressive attacks actively carried out from 27 September 2020, was travelling in a truck belonging...

Page 111

to the company, at the **8th kilometre of the Baku–Nakhchivan railway line** passing through the village of Mehdili, Jabrayil District.

Having stopped the said vehicle and while walking near an unfinished building on the roadside, which had been destroyed by members of the criminal organization during the period of occupation, he triggered one of the mines.

An explosion occurred, as a result of which he sustained a bodily injury in the form of a **traumatic amputation of the lower third of the right lower leg**, classified as serious bodily injury.

He was taken to a nearby hospital, where his life was saved because he received timely qualified medical assistance.

In addition, members of the criminal organization (association) whose identities have not been precisely established by the investigation, acting in accordance with the common criminal intent and objective of the association and each of its members, in the area of the village of **Dashalti, Shusha District**, which they had occupied on **26 January 1992** as a result of the aggressive war initiated against Azerbaijan, on a date not precisely established by the investigation during the period from **27 September 2020 to 09 December 2021**, deliberately buried numerous anti-tank and anti-personnel mines of types, models and places of manufacture unknown to the investigation close to one another and organized ambushes, thereby creating mined areas for the purpose of achieving the objectives of the said criminal organization.

On **09 December 2021**, at approximately **08:00**, the following civilians were carrying out work on the installation of an electrical transmission line in the village of Dashalti, Shusha District:

Khanatov Orkhan Nazim oğlu, a civilian resident of the village of Goydara, Gobustan District, who worked as a labourer for the contractor company **Volta**; and

Gandiyev Vusal Firidun oğlu, a resident of the village of Gurbanefendi, Ismayilli District, who worked as a labourer for **Cengiz İnşaat LLC**.

They triggered one of the said mines and were **intentionally killed** in the resulting explosion.

Orkhan Khanatov sustained injuries dangerous to life and classified as serious bodily injuries, including:

crushing and destruction of the head at the level of the neck;

an incomplete traumatic amputation of the right lower extremity at the level of the knee joint;

an incomplete traumatic amputation of the left lower extremity at the level of the upper third of the thigh;

a complete avulsion of the body from the pelvis; and

other injuries resulting in necrosis of brain tissue.

Vusal Gandiyev sustained shrapnel wounds and multiple amputations of parts of the body, dangerous to life and classified as serious bodily injuries.

In addition, members of the criminal organization (association) whose identities have not been precisely established by the investigation, acting in accordance with the common criminal intent and objective of the association and each of its members, in the territory of the **Jabrayil District and the surrounding villages**, which they had occupied on **23 August 1993** as a result of the large-scale aggressive war initiated by them against Azerbaijan, shortly before their liberation from occupation—that is, during the period from **27 September 2020 to 10 November 2020**—deliberately buried numerous anti-tank and anti-personnel mines of types, models and places of manufacture unknown to the investigation close to one another and organized ambushes, thereby creating mined areas for the purpose of achieving the objectives of the said criminal organization.

Following the liberation from occupation of the Jabrayil District and the surrounding villages by the Armed Forces of the Republic of Azerbaijan on **04 October 2020**, on **15 December 2021**, at **12:00**, extended-service serviceman Junior Sergeant **Rustamov Elshan Yagub oglu**, who served as mechanic-driver of the second tank of the second tank division of the first tank battalion of Military Unit No. N of the Ministry of Defence, was taking part in a mine-clearance and area-clearing operation around the **Horadiz–Jabrayil highway**.

While manoeuvring in a **T-72M-1 tank** bearing turret number **256**, using a **KMT-7 mine-clearing device** attached to the front of the tank and listed on the balance sheet of the Mine Action Agency of the Republic of Azerbaijan (**ANAMA**), an anti-tank mine of unknown date, place of manufacture and make, buried on the left side of the Horadiz–Jabrayil highway in the Jabrayil District, exploded.

As a result of the blast wave, he sustained injuries to various parts of the body, classified as minor bodily injuries

Page 112

causing a short-term health disorder.

His life was nevertheless saved because the force of the blast wave was insufficient to kill him.

The explosion damaged the track and road wheels of the **T-72M-1 tank** bearing turret number **256**, which belonged to Military Unit No. N, thereby causing significant damage to the military unit.

In addition, members of the criminal organization (association) whose identities have not been precisely established by the investigation, acting in accordance with the common criminal intent and objective of the association and each of its members, in the area of the village of **Bash Gervend, Aghdam District**, which they had occupied on **26 April 1994** as a result of the aggressive war initiated against Azerbaijan, shortly before the liberation of the said village from occupation—that is, during the period from **27 September 2020 to 20 November 2020**—deliberately buried numerous anti-tank and anti-personnel mines of types, models and places of manufacture unknown to the investigation close to one another and organized ambushes, thereby creating mined areas for the purpose of achieving the objectives of the said criminal organization.

Following the liberation of the said village from occupation by the Armed Forces of the Republic of Azerbaijan on **20 November 2020**, on **16 December 2021**, at approximately **13:00**, an explosion occurred when civilian **Idrisov Ahmed Shokhrat oglu**, a resident of the village of **Mukhass, Oguz District**, drove over one of the said mines.

He worked as an excavator operator for **Körpü-Bina-Tikinti LLC** and, while carrying out road-construction work on the said section, was operating a **LiuGong CLG 936E tracked excavator** bearing state registration plate **110-FY-439**.

The track of the excavator was damaged and rendered unusable.

However, they were unable intentionally to kill Ahmed Idrisov because the front window of the excavator was protected by an iron mesh.

In addition, members of the criminal organization (association) whose identities have not been precisely established by the investigation, acting in accordance with the common criminal intent and objective of the association and each of its members, in the area of the village of **Bash Gervend, Aghdam District**, which they had occupied on 26 April 1994 as a result of the aggressive war initiated against Azerbaijan, shortly before the liberation of the said village from occupation—that is, during the period from **27 September 2020 to 20 November 2020**—deliberately buried numerous anti-tank and anti-personnel mines of types, models and places of manufacture unknown to the investigation close to one another and organized ambushes, thereby creating mined areas for the purpose of achieving the objectives of the said criminal organization.

Following the liberation of the said village from occupation by the Armed Forces of the Republic of Azerbaijan on **20 November 2020**, on **29 December 2021**, at approximately **15:30**, civilian **Mammadov Vurgun Sulhaddin oglu**, a resident of the city of Shirvan and an excavator operator employed by **Körpü-Bina-Tikinti LLC**, was operating a **LiuGong CLG 936LC tracked excavator** bearing state registration plate **1-K-023** while clearing accumulated river stones from the bed of the **Khachinchay River** passing through the territory of the said village.

As a result of the explosion of one of the said mines, the windshield and side windows of the excavator's cab were completely shattered and scattered on the ground, thereby causing damage to the company.

However, they were unable intentionally to kill **Vurgun Mammadov** because the front window of the excavator was protected by an iron mesh.

In addition, members of the criminal organization (association) whose identities have not been precisely established by the investigation, acting in accordance with the common criminal intent and objective of the association and each of its members, in the territory of the **Kalbajar District**, which they had occupied on **03 April 1993** as a result of the large-scale aggressive war initiated against Azerbaijan, shortly before the liberation of the said district from occupation—that is, on a date not precisely established by the investigation during the period from **27 September 2020 to 25 November 2020**—deliberately buried numerous anti-tank and...

anti-personnel mines of types, models and places of manufacture unknown to the investigation and organized ambushes, thereby creating mined areas for the purpose of achieving the objectives of the said criminal organization.

Following the liberation from occupation of the **Kalbajar District and the surrounding villages** by the Armed Forces of the Republic of Azerbaijan on **25 November 2020**, pursuant to the trilateral Statement of 10 November 2020, on **02 January 2022**, at approximately **14:00**, **Eyniyev Yusif Suleyman oglu**, a serviceman of the mortar battery of Military Unit No. N, stationed in the village of **Baglipaya, Kalbajar District**, triggered a mine while performing his military service in the said district.

As a result, he sustained shrapnel wounds resulting in a **traumatic amputation at the level of the lower third of the left lower leg**, accompanied by first-degree traumatic-haemorrhagic shock and post-traumatic anaemia.

His life was saved as a result of timely evacuation and qualified medical assistance.

In addition, members of the criminal organization (association) whose identities have not been precisely established by the investigation, acting in accordance with the common criminal intent and objective of the association and each of its members, on the boundary between the village of **Talysh, Aghdara District**, and the village of **Tapgaragoyunlu, Goranboy District**, in the territory of the latter village, which they had occupied on **11 April 1994** as a result of the aggressive war initiated against Azerbaijan, during the period in which they kept it under occupation, on dates not precisely established by the investigation, deliberately buried numerous anti-tank and anti-personnel mines of types, models and places of manufacture unknown to the investigation close to one another and organized ambushes, thereby creating mined areas for the purpose of achieving the objectives of the said criminal organization.

On **18 January 2022**, at approximately **12:00**, civilian **Mammadov Vugar Magsud oglu**, a resident of the village of Tapgaragoyunlu, Goranboy District, who was engaged in livestock farming, visited the said territory following its complete liberation from occupation on 03 October 2020.

While on the bank of the **Inja River**, he triggered one of the said mines.

An explosion occurred, as a result of which he sustained a bodily injury in the form of a **traumatic amputation of the lower third of a lower extremity**, classified as serious bodily injury dangerous to life.

He was taken to a hospital by his relatives, where his life was saved because he received timely qualified medical assistance.

In addition, members of the criminal organization whose identities have not been precisely established by the investigation, acting in accordance with the common criminal intent and objective of each of its members, in the territory of the village of **Chiraguz, Khojavend District**, which they had occupied on **02 October 1992** as a result of the aggressive war initiated against Azerbaijan and which was liberated from occupation by the Armed Forces of the Republic of Azerbaijan on **15 October 2020**, on a date not precisely established by the investigation during the period from **27 September 2020 to 15 October 2020**, deliberately

buried numerous anti-tank and anti-personnel mines of types, models and places of manufacture unknown to the investigation close to one another and organized ambushes, thereby creating mined areas for the purpose of achieving the objectives of the said criminal organization.

On **28 January 2022**, at approximately **11:00**, civilian **Demirov Elkhan Yagub oglu**, a resident of the village of Goydara, Gobustan District, was operating a **New Holland tractor** belonging to **Azvirt-Infracon LLC**, which was carrying out construction of the **Ahmadbeyli–Shusha highway** passing through the village of Chiraguz, Khojavend District.

The tractor drove over one of the **TM-62P3 anti-tank mines** manufactured in the Russian Federation.

An explosion occurred, as a result of which the New Holland bulldozer belonging to Azvirt-Infracon exploded, was completely destroyed and rendered unusable, thereby causing significant damage to the company.

No one was injured as a result of the explosion.

With the support of the military-political leadership of the Republic of Armenia, including the Armed Forces and other armed formations, as well as through their direct material and technical support, and also

Page 114

through the provision of personnel, centralized command, oral and written assignments, directions and instructions, and under their strict control, members of the criminal organization and its structural subdivision, whose identities have not been precisely established by the investigation, were armed with various types of firearms, ammunition, military equipment and other armaments and operated unlawfully in the territory of the Republic of Azerbaijan in violation of domestic and international legal norms.

For the purpose of carrying out the criminal plan encompassed by the common criminal intent of each member of the criminal organization—namely, continuing the national hatred and hostility fostered within Armenian society against Azerbaijanis; continuing the occupation of the sovereign territories of the Republic of Azerbaijan occupied by them during the aggressive war initiated against Azerbaijan; keeping the Azerbaijani population in a permanent state of fear and panic and preventing by all possible means its return to the places where it had previously lawfully resided; compelling the Republic of Azerbaijan to adopt a decision renouncing its sovereign territories in favour of Armenia; continuously subjecting to fire from various types of weapons the places of residence of the peaceful Azerbaijani civilian population lawfully residing in the sovereign territories of Azerbaijan; causing explosions and fires in their places of residence, that is, employing methods of warfare capable of causing significant destruction during an armed conflict; intentionally causing large-scale destruction not justified by military necessity; attacking undefended territories, populated localities and demilitarized zones; indiscriminately mining territories with numerous mines and other explosive devices without any military necessity; depriving the Azerbaijani population of freedom of movement, healthy and safe residence and other fundamental rights in the territory of the country of which they were citizens; intentionally

killing them with particular cruelty on grounds of national and ethnic hatred and hostility; committing genocide, terrorism and banditry, as well as killing them in connection with the performance of official duties and the fulfilment of public duty; persecuting them in violation of international law; taking them prisoner and hostage; subjecting them to enforced disappearance; torturing them solely because they were members of the Azerbaijani nation; and pursuing other criminal objectives—

in gross violation of the provisions of the **Bishkek Protocol on the Declaration of a Ceasefire**, concluded between the Republic of Armenia and the Republic of Azerbaijan on **08 May 1994** along the notional line of contact between the troops of the Republic of Azerbaijan and Armenia and entering into force on 12 May 1994, as well as international legal norms, including the **Geneva Convention of 12 August 1949 relative to the Protection of Civilian Persons in Time of War**, the **Council of Europe Convention on the Prevention of Terrorism** (Warsaw, 16 May 2005), and the **Convention on Cluster Munitions** adopted in Oslo on 03 December 2008;

a **9K58 Smerch missile** (BM-30 or M1983), equipped with **9N235 fragmentation (cluster) submunitions**, which had been launched with the same criminal intent on **06 October 2020**, at approximately **17:00**, from engineering and fortification positions brought from the direction of the Republic of Armenia and established in territories of the Republic of Azerbaijan kept under occupation from 1987 to 2020, was neutralized in the air by units of the **Air Force of the Republic of Azerbaijan**.

The unexploded submunitions located inside the missile separated and scattered over various territories.

On **01 February 2022**, at approximately **20:00**, **Mikayilov Ismail Vidadi oglu**, born on 15 May 1996, a resident of the village of **Veysalli, Goranboy District**, was grazing his own cattle in the territory of the **Shirvanbulag massif** in the settlement of **Aran, Yevlakh District**.

He came into contact with one of the submunitions that had fallen in the said territory.

An explosion occurred, as a result of which he was intentionally killed after sustaining bodily injuries in the form of gunshot wounds that caused damage...

Page 115

to the brain, lungs and liver, aggravated by acute blood loss and classified as serious bodily injury.

In addition, members of the criminal organization (association) whose identities have not been precisely established by the investigation, acting in accordance with the common criminal intent and objective of the association and each of its members, on **18 February 2022**, at approximately **11:00**, as a result of a piece of stone falling onto an anti-personnel mine whose type, make and model were not established by the investigation and which had been laid by them through mass mining in the territory of the village of **Chayli, present-day Aghdara District**, during the period of occupation—that is, from its occupation in 1993 until **09 October 2020**, when it was liberated from occupation—

civilian **Safarov Alyshan Sharif oğlu**, born on 22 March 1963, a resident of the village of **Beyimsarov, Tartar District**, who worked as a labourer for **42 sayılı Yol İstimarı LLC** of the State Agency of Azerbaijan Automobile Roads and was at that time carrying out road-construction work under the project for the **12th kilometre of the Tartar–Sugovushan–Talysh highway**, in the section passing through the village of Chayli, sustained:

superficial contused wounds to the dorsal surfaces of the second phalanges of the second and third fingers of the left hand,

the severity of which could not be determined;

while another labourer of the said company, civilian **Safarov Faig İslam oğlu**, born on 01 January 1965, a resident of the Tartar District, sustained bodily injuries of undetermined severity in the form of:

contused and puncture wounds to the frontal region, left temporal region and interbrow region;

abrasions to the upper lip; and

abrasions to the dorsal surfaces of both hands.

However, because Alyshan Safarov and Faig Safarov were outside the area in which most of the fragments were dispersed at the time of the explosion, they were unable intentionally to kill them.

In addition, members of the criminal organization whose identities have not been precisely established by the investigation, acting in accordance with the common criminal intent and objective of each of its members, in the area of the village of **Mehdili, Jabrayil District**, which they had occupied in August 1993 as a result of the aggressive war initiated against Azerbaijan, shortly before the liberation of the said village from occupation, on a date not precisely established by the investigation, deliberately buried numerous anti-tank and anti-personnel mines of types, models and places of manufacture unknown to the investigation close to one another and organized ambushes, thereby creating mined areas for the purpose of achieving the objectives of the said criminal organization.

On **17 March 2022**, at approximately **15:00**, civilian **Aliyev Safar Akhliman oğlu**, a resident of the city of Aghjabadi, visited the village following its complete liberation from occupation on 03 October 2020 for the purpose of collecting useful metal parts.

While walking through the village of Mehdili, Jabrayil District, he triggered one of the mines.

An explosion occurred, as a result of which he sustained bodily injuries in the form of:

an amputation of the right lower extremity from the level of the lower third of the lower leg; and

other bodily injuries,

classified as serious bodily injuries.

He was taken to a hospital by persons who were nearby, where his life was saved because he received timely qualified medical assistance.

In addition, members of the criminal organization (association) whose identities have not been precisely established by the investigation, acting in accordance with the common criminal intent and objective of the association and each of its members, in the territory of the village of **Yusifjanly, Aghdam District**, which they had occupied on **12 April 1994** and kept under occupation from 1994 until 2020, deliberately buried numerous anti-tank and anti-personnel mines of types, models and places of manufacture unknown to the investigation close to one another and organized ambushes, thereby creating mined areas for the purpose of achieving the objectives of the said criminal organization.

Following the liberation from occupation of the said village by the Armed Forces of the Republic of Azerbaijan on **20 November 2020**, on **27 March 2022**, at approximately **15:00**, an explosion occurred when civilian **Mammadov Khalid Asif oglu**, a resident of the village of Khynysli,

Page 116

Kurdamir District, who worked as a bulldozer operator for **Körpü-Bina-Tikinti LLC**, drove over one of the said mines while levelling the road surface at the **9th kilometre of the Aghdam–Fuzuli highway under construction**, passing through the territory of the village of Yusifjanly.

He was operating a **LiuGong CLG B230 bulldozer** bearing state registration plate **1-K-064**.

As a result of the explosion:

the front and side windows of the bulldozer's cab were completely shattered and scattered on the ground; and

the right rear track was rendered unusable,

thereby causing damage to the company.

However, they were unable intentionally to kill Khalid Mammadov because the fragments from the exploding mine did not disperse in the direction of the bulldozer's steering controls.

In addition, members of the criminal organization whose identities have not been precisely established by the investigation, acting in accordance with the common criminal intent and objective of each of its members, in the area of the village of **Ashaghi Seyidahmedli, Fuzuli District**, which they had occupied in August 1993 as a result of the aggressive war initiated against Azerbaijan, during the period in which they kept it under occupation, on dates not precisely established by the investigation, deliberately buried numerous anti-tank and anti-personnel mines of types, models and places of manufacture unknown to the investigation close to one another and organized ambushes, thereby creating mined areas for the purpose of achieving the objectives of the said criminal organization.

Following the liberation from occupation of the said village by the Armed Forces of the Republic of Azerbaijan on **21 October 2020**, on **23 March 2022**, at approximately **09:00**,

civilian **Zulfugarli Vugar Natig oglu**, a resident of the city of Horadiz, Fuzuli District, visited the said territory in his **HOWO vehicle** bearing state registration plate **77-CB-134**.

While travelling through the territory of the village of Ashaghi Seyidahmedli, Fuzuli District, in connection with landscaping and construction works, he drove over a **TM-62M anti-tank mine manufactured in the Russian Federation**.

An explosion occurred, as a result of which he sustained:

a closed displaced fracture of the left calcaneus;

closed displaced fractures of the navicular and cuboid bones; and

other serious injuries to various parts of the body dangerous to life.

He was taken to a hospital by persons who were nearby, where his life was saved because he received timely qualified medical assistance.

The **2012 HOWO vehicle** bearing state registration plate **77-CB-134**, which he had been driving, was destroyed by fragments and rendered completely unusable, thereby causing significant damage.

In addition, members of the criminal organization (association) whose identities have not been precisely established by the investigation, acting in accordance with the common criminal intent and objective of the association and each of its members, in the territory of the village of **Hasangaya, Tartar District**, most of which had been occupied by them in April 1994 as a result of the aggressive war initiated against Azerbaijan—the village having formed part of the Aghdara District until 13 October 1992—during the period in which they kept it under occupation, on dates not precisely established by the investigation, deliberately buried numerous anti-tank and anti-personnel mines of types, models and places of manufacture unknown to the investigation close to one another and organized ambushes, thereby creating mined areas for the purpose of achieving the objectives of the said criminal organization.

Following the liberation of the village from occupation on **09 October 2020**, on **09 April 2022**, at approximately **12:00**, civilian **Hasanov Elnur Tofiq oglu**, a resident of the village of **Khoylu, Goranboy District**, visited the said territory.

While grazing small livestock in a field pasture, he triggered one of the anti-personnel mines.

An explosion occurred, as a result of which he sustained:

a traumatic amputation of both lower extremities; and

other serious bodily injuries to various parts of the body dangerous to life.

He was taken to a hospital by his relatives, where his life was saved because he received timely qualified medical assistance.

In addition, members of the criminal organization (association) whose identities have not been precisely established by the investigation, acting in accordance with the common criminal intent and objective of the association and each of its members, in the territory of the village of **Yusifjanly, Aghdam District**, which they had occupied on **12 April 1994**, during the period in which they kept it under occupation from 1994 until 2020, deliberately buried numerous anti-tank and anti-personnel mines of types, models and places of manufacture unknown to the investigation close to one another and organized ambushes, thereby creating mined areas for the purpose of achieving the objectives of the said criminal organization.

Following the liberation from occupation of the said village by the Armed Forces of the Republic of Azerbaijan on **20 November 2020**, on **17 April 2022**, at approximately **19:00**, an explosion occurred when civilian **Fataliyev Alim Sharafaddin oglu**, a resident of the settlement of **Karrar, Kurdamir District**, drove over one of the said mines.

He worked as a grader operator for **Körpü-Bina-Tikinti LLC** and, while levelling the unpaved surface of the road at the **6th kilometre of the Aghdam–Fuzuli highway under construction**, passing through the territory of the village of Yusifjanly in the bed of the **Gargarçay River**, was operating a **LiuGong CLG B418 grader** bearing state registration plate **1-K-045**.

As a result of the explosion, the said grader was rendered completely unusable.

However, they were unable intentionally to kill Alim Fataliyev because the fragments from the exploding mine dispersed in the direction opposite to where the grader operator was located.

In addition, members of the criminal organization (association) whose identities have not been precisely established by the investigation, acting in accordance with the common criminal intent and objective of the association and each of its members, in the territory of the village of **Vezhnali, Zangilan District**, which they had occupied on **29 October 1993** as a result of the large-scale aggressive war initiated by them against Azerbaijan, shortly before the liberation of the said territories from occupation—that is, during the period from **27 September 2020 to 18 April 2022**—deliberately buried numerous anti-tank and anti-personnel mines of types, models and places of manufacture unknown to the investigation close to one another and organized ambushes, thereby creating mined areas for the purpose of achieving the objectives of the said criminal organization.

Following the liberation from occupation of the village of Vezhnali, Zangilan District, on **30 October 2020**, as a result of the countermeasures carried out by the Armed Forces of the Republic of Azerbaijan to prevent the large-scale aggressive attacks actively carried out from 27 September 2020, on **18 April 2022**, at approximately **10:20**, Major **Abilov Vurgun Idris oglu**, Chief of Staff of the ninth border commandant's office of Military Unit No. N of the State Border Service, was performing his official duties at the second combat post of the 28th border outpost of the ninth border commandant's office of Military Unit No. N of the **Qubadli Separate Border Division of the State Border Service**.

While moving through the said area in the course of establishing a new firing position, he triggered one of the anti-personnel mines, whose make and model were unknown to the investigation.

An explosion occurred, as a result of which he sustained shrapnel wounds to the right lower leg, accompanied by a **traumatic amputation of the right lower leg at the level of its middle third**, classified in their totality as serious bodily injuries dangerous to life.

He was evacuated to Hospital No. N of the Ministry of Defence, where his life was saved because he received timely qualified medical assistance.

In addition, members of the criminal organization (association) whose identities have not been precisely established by the investigation, acting in accordance with the common criminal intent and objective of the association and each of its members, **in the territory of the village of Yenikend, Kalbajar District, Republic of Azerbaijan**, which they had occupied on **02 April 1993** as a result of the large-scale aggressive war initiated against Azerbaijan, during the period from **27 September 2020 to 19 April 2022**, deliberately buried numerous anti-tank and

Page 118

anti-personnel mines of types, models and places of manufacture unknown to the investigation close to one another and organized ambushes, thereby creating mined areas for the purpose of achieving the objectives of the said criminal organization.

Following the liberation from occupation of the Kalbajar District by the Armed Forces of the Republic of Azerbaijan on **25 November 2020**, pursuant to the trilateral Statement of 10 November 2020, on **19 April 2022**, at approximately **13:30**, at the combat position designated **“Z1A,”** conventionally named **“Arif,”** situated in the said district, extended-service soldier **Jamalzade Aykhan Mobil oglu**, commander of the second section of the second platoon of the engineer-fortification division of Military Unit No. N of the Ministry of Defence, was performing his official duties when he triggered one of the anti-personnel mines, whose make and model were unknown to the investigation.

An explosion occurred, as a result of which **Jamalzade Aykhan Mobil oglu** sustained injuries to both legs, accompanied by a **traumatic amputation of the right lower extremity at the level of the middle third of the lower leg**.

Those injuries were classified in their totality as serious bodily injuries dangerous to life.

He was evacuated to Hospital No. N of the Ministry of Defence, where his life was saved because he received timely qualified medical assistance.

In addition, members of the criminal organization (association) whose identities have not been precisely established by the investigation, acting in accordance with the common criminal intent and objective of the association and each of its members, in the area of the village of **Teymur Muskanli, Qubadli District**, which they had occupied on **31 August 1993** as a result of the aggressive war initiated against Azerbaijan, shortly before the liberation of the said village from occupation—that is, during the period from **27 September 2020 to 10 November 2020**—deliberately buried numerous anti-tank and anti-personnel mines of types, models and places of manufacture unknown to the investigation close to one another and organized ambushes, thereby creating mined areas for the purpose of achieving the objectives of the said criminal organization.

On **22 April 2022**, at approximately **18:00**, civilian **Nasibov Beybala Jabrayil oglu**, a resident of the village of **Jyrdakhan, Tovuz District**, who worked as an excavator operator for **Protean Construction OJSC**, visited the said territory, which had been fully liberated from occupation on 09 November 2020.

While travelling in a truck belonging to the company in the direction of the village of Teymur Muskanli, Qubadli District, he stopped the vehicle and walked to the roadside.

An explosion occurred when he triggered one of the mines.

As a result, he sustained bodily injuries in the form of:

a traumatic amputation of the left lower extremity at the level of the ankle joint; and
other bodily injuries,
classified as serious bodily injuries.

He was taken to a nearby hospital by persons who were in the vicinity, where his life was saved because he received timely qualified medical assistance.

In addition, members of the criminal organization (association) whose identities have not been precisely established by the investigation, acting in accordance with the common criminal intent and objective of the association and each of its members, on the boundary between the villages of **Baghanis Ayrim and Gushchu Ayrim, Gazakh District**, which they had occupied on **24 March 1990** as a result of the aggressive war initiated against Azerbaijan and which remain under occupation to this day, deliberately buried, close to one another, **TM-62, TM-62M** and numerous other anti-tank and anti-personnel mines of types, models and places of manufacture unknown to the investigation, as well as other explosive devices, and organized ambushes, thereby creating mined areas for the purpose of achieving the objectives of the said criminal organization.

On **23 April 2022**, at approximately **17:00**, in the locality known as “**Gangalli Dere**” in the said territory, civilian residents of the village of Gushchu Ayrim, Gazakh District:

minor **Nuriyeva Nabat Mikayil gizi**, born on 06 November 2008; and

her brother **Nuriyev Javad Mikayil oglu**, born on 14 June 2010,

were grazing livestock.

Page 119

The latter, not knowing what it was, picked up and threw aside an **MVCh-62 anti-tank mine detonator**, intended for use in detonating **TM-62 and TM-62M anti-tank mines** when attached to the body of such a mine and regarded as mine ammunition.

An explosion occurred when the detonator struck the ground.

As a result, **Javad Nuriyev** sustained bodily injuries including:

first- and second-degree thermal burns to the inner surfaces of both forearms, both thighs, the anterior surface of the chest and abdomen, and the left and right cheeks, covering **20% of the total body surface**,

classified as less serious bodily injuries.

Nabat Nuriyeva sustained bodily injuries including:

first- and second-degree thermal burns to the inner surfaces of both forearms and the left and right cheeks, covering **10% of the total body surface**,

classified as minor bodily injuries.

Javad Nuriyev was promptly taken to a hospital, where his life was saved because he received qualified medical assistance, while Nabat Nuriyeva was able to avoid the flames generated by the explosion because she was relatively far from the place where it occurred.

In addition, members of the criminal organization (association) whose identities have not been precisely established by the investigation, acting in accordance with the common criminal intent and objective of the association and each of its members, shortly before the liberation from occupation on **01 December 2020** by the Armed Forces of the Republic of Azerbaijan of the **Lachin District and the surrounding villages**, which they had occupied, pursuant to the Statement of the President of the Republic of Azerbaijan, the Prime Minister of the Republic of Armenia and the President of the Russian Federation of **10 November 2020**, that is, during the period from **27 September 2020 to 01 December 2020**, deliberately buried numerous anti-tank and anti-personnel mines of types, models and places of manufacture unknown to the investigation close to one another and organized ambushes, thereby creating mined areas for the purpose of achieving the objectives of the said criminal organization.

Civilian **Salahov Parvin Famil oglu**, born on **14 April 1992**, a resident of the village of **Dar Kasaman, Aghstafa District**, who worked as a road-construction worker for the construction company **Amazon** and was carrying out road-repair and construction work in the village of **Safiyan, Lachin District**, which had been fully liberated from occupation on 09 November 2020, was **intentionally killed** on **29 April 2022**, at approximately **14:00**, as a result of the explosion of one of the anti-personnel mines when, during a walk along a road in the territory of the village, he passed over it.

He sustained serious bodily injuries including:

a traumatic amputation of the left foot;

multiple shrapnel wounds to the left testicle, abdomen and left upper extremity, accompanied by an extensive tissue defect of the anterolateral surface of the left lower leg and thigh;

an open comminuted fracture of the left patella; and

acute venous insufficiency of the internal organs accompanied by acute blood loss.

In addition, members of the criminal organization whose identities have not been precisely established by the investigation, acting in accordance with the common criminal intent and objective of each of its members, in the area of the village of **Mehdili, Jabrayil District**, which they had occupied in August 1993 as a result of the aggressive war initiated against Azerbaijan, shortly before the liberation of the said village from occupation as a result of countermeasures carried out by the Armed Forces of the Republic of Azerbaijan to prevent the large-scale aggressive attacks actively carried out from 27 September 2020—that is, on dates not precisely established by the investigation during the period from **27 September 2020 to 03 October 2020**—deliberately buried numerous anti-tank and anti-personnel mines of types, models and places of manufacture unknown to the investigation close to one another and organized ambushes, thereby creating mined areas for the purpose of achieving the objectives of the said criminal organization.

Following the complete liberation of the village from the occupation of the Republic of Armenia on **03 October 2020**, on **05 May 2022**, civilian **Ahmedov Ilgar Eibat oglu**, a resident of the **Garadagh District of Baku**, who worked as a driver for **Improtex Industries LLC**,

Page 120

travelled to the village of **Mehdili** in order to deliver the said company's demining equipment.

At approximately **12:00**, he stopped the **MAN vehicle** he was driving, bearing state registration plate **99-JH-985**, got out of it to rest and sat down on the roadside, supporting himself with his hands.

One of the **PMN anti-personnel mines** exploded as a result of his hands coming into contact with the ground.

As a result, he sustained bodily injuries accompanied by:

a traumatic avulsion of the **first and third fingers of the left hand**,

classified as serious bodily injuries.

He was taken to a nearby hospital by persons who were in the vicinity, where his life was saved because he received timely qualified medical assistance.

In addition, members of the criminal organization (association) whose identities have not been precisely established by the investigation, acting in accordance with the common criminal intent and objective of the association and each of its members, in the territory of the **Aghdam District and the surrounding villages**, which they had occupied on **23 July 1993** as a result of the aggressive war initiated against Azerbaijan, during the period in which they kept those territories under occupation, on dates not precisely established by the investigation, deliberately buried numerous anti-tank and anti-personnel mines of types, models and places of manufacture unknown to the investigation close to one another and organized ambushes, thereby creating mined areas for the purpose of achieving the objectives of the said criminal organization.

Following the liberation from occupation of the Aghdam District and the surrounding villages on **20 November 2020**, as a result of countermeasures carried out by the Armed Forces of the Republic of Azerbaijan to prevent the large-scale aggressive attacks actively carried out from 27 September 2020, pursuant to the trilateral Statement of **10 November 2020**, on **13 May 2022**, at approximately **11:30**, Captain **Heydarov Suleyman Vagif oglu**, Head of the Pyrotechnic and Fortification Training Department of the Combat and Special Training Directorate of Military Unit No. N (**Special Risk Rescue Service**) of the Ministry of Emergency Situations, was carrying out mine-clearance work.

The area being cleared had, during the occupation, served as combat positions of the armed formations of Armenia and was situated in the village of **Abdinli, Aghdam District**.

He was exposed to the explosion of a **PMN blast-type anti-personnel mine**, of unknown type and place of manufacture, which had previously been buried by them in that area under unknown circumstances.

As a result, he sustained bodily injuries classified as serious bodily injuries and, taken together, causing a prolonged health disorder, including:

open wounds to both eyes;

penetrating wounds of the cornea and sclera;

multiple blind shrapnel wounds to the periorbital regions of both eyes;

an open fracture of the upper third of the right forearm;

blind shrapnel wounds to the face, forehead and anterior regions of the lower jaw and neck;

post-traumatic fractures of the crowns of teeth **11, 21 and 22**; and other injuries.

His life was saved because he received timely qualified medical assistance.

In addition, members of the criminal organization whose identities have not been precisely established by the investigation, continuing to act with the same criminal intent and objectives, in the area of the village of **Gerazilli, Fuzuli District**, which they had occupied on **02 July 1993**, shortly before the liberation of the said village from occupation—that is, during the period from **27 September 2020 to 09 October 2020**—deliberately buried numerous anti-tank and anti-personnel mines of types, models and places of manufacture unknown to the investigation close to one another and organized ambushes, thereby creating mined areas for the purpose of achieving the objectives of the said criminal organization.

Civilian **Abdullayev Khayal Bakhtiyar oglu**, born on **04 December 1999**, a resident of the village of **Khojavend, Khojavend District**, had settled in a structure situated in the village of Gerazilli, which had been fully liberated from occupation on **09 October 2020**.

On **28 May 2022**, at approximately **17:00**, while grazing small livestock belonging to **KRAUN CO-R LLC** in a pasture, one of the animals passed over one of the said anti-personnel mines.

An explosion occurred, as a result of which he sustained bodily injuries classified as less serious bodily injuries, including a

Page 121

shrapnel wound;

an open fracture of the distal phalanx of the fifth finger of the left hand;

rupture of the dorsalis pedis artery of the right foot (*dorsalis pedis*); and

multiple wounds to the lower extremities.

He was taken to a hospital, where his life was saved because he received timely qualified medical assistance.

In addition, members of the criminal organization (association) whose identities have not been precisely established by the investigation, continuing to act with the same criminal intent and objectives, in the area of the village of **Khudafarin, Jabrayil District**, which they had occupied on **23 August 1993**, shortly before the liberation of the said village from occupation—that is, during the period from **27 September 2020 to 18 October 2020**—deliberately buried numerous anti-tank and anti-personnel mines of types, models and places of manufacture unknown to the investigation close to one another and organized ambushes, thereby creating mined areas for the purpose of achieving the objectives of the said criminal organization.

Following the liberation of the said territory from occupation on **18 October 2020**, as a result of countermeasures carried out by the Armed Forces of the Republic of Azerbaijan to prevent the large-scale aggressive attacks actively carried out from 27 September 2020, on **07 June 2022**, at approximately **09:00**, the following sappers of a mine-clearance group of the **Mine Action Agency of the Republic of Azerbaijan** were performing their official duties and carrying out operations to neutralize mines deliberately buried by armed formations during the period of occupation:

Mustafayev Mahir Husameddin oğlu, born on 10 December 1988, a civilian resident of the city of Horadiz, Fuzuli District;

Gozalov Samir Arif oğlu, born on 04 September 1995, a civilian resident of the village of Ahmadalilar, Fuzuli District;

Valiyev Rukhin Sultan oğlu, born on 31 March 1991, a civilian resident of the village of Garaagly, Fuzuli District;

Rzayev Gahraman Bilal oğlu, born on 20 February 1991, a civilian resident of the village of Ashaghi Abdurrahmanli, Fuzuli District;

Jabrayilli Farid Zakir oğlu, born on 14 September 2001, a civilian resident of the village of Soltanli, Jabrayil District;

Guliyev Alasgar Asif oglu, born on 28 June 1990, a civilian resident of the village of Ahmadalilar, Fuzuli District; and

Nasirov Gismat Rasim oglu, born on 19 June 1990, a civilian resident of the village of Boyuk Bahmanli, Fuzuli District.

A **PMN-type mine**, situated **103 metres north-east of the second Khudafarin Bridge**, built over the Araz River between the village of Khudafarin and the Islamic Republic of Iran, at the coordinates **39°09'06"N, 46°56'27"E**, exploded.

As a result, **Rukhin Valiyev** sustained:

multiple shrapnel wounds to the inner surface of the right thigh and lower leg;

multiple shrapnel wounds to the anteromedial surface of the left lower leg;

a shrapnel wound with a developing phlegmon; and

a post-traumatic amputation of the lower third of the left lower leg,

classified as serious bodily injuries.

Mahir Mustafayev sustained:

a closed craniocerebral injury with concussion;

first- and second-degree thermal injuries to the face, left upper extremity, left half of the chest and left side of the back;

multiple shrapnel wounds;

barotrauma; and

erosion of the left cornea,

classified as minor bodily injuries.

Samir Gozalov sustained a closed craniocerebral injury accompanied by concussion, classified as minor bodily injury.

Gahraman Rzayev sustained a closed craniocerebral injury accompanied by concussion, classified as minor bodily injury.

Alasgar Guliyev sustained:

a closed craniocerebral injury accompanied by concussion;

closed blunt trauma to the chest and abdomen; and

soft-tissue contusions,

classified as minor bodily injuries.

Gismat Nasirov sustained:

a closed craniocerebral injury accompanied by concussion; and

soft-tissue contusions,

classified as minor bodily injuries.

Farid Jabrayilli sustained:

a closed craniocerebral injury accompanied by concussion; and

soft-tissue contusions,

classified as minor bodily injuries.

Rukhin Valiyev was taken to a hospital in a timely manner, where his life was saved because he received qualified medical assistance, while

Page 122

the other injured persons managed to avoid the blast wave because they were situated at a relative distance from the point of explosion.

In addition, members of the criminal organization whose identities have not been precisely established by the investigation, continuing to act with the same criminal intent and objectives, in the area of the village of **Khudafarin, Jabrayil District**, which they had occupied on **23 August 1993**, shortly before the liberation of the said village from occupation—that is, during the period from **27 September 2020 to 18 October 2020**—deliberately buried numerous anti-tank and anti-personnel mines of types, models and places of manufacture unknown to the investigation close to one another and organized ambushes, thereby creating mined areas for the purpose of achieving the objectives of the said criminal organization.

Following the liberation of the said territory from occupation on **18 October 2020**, as a result of countermeasures carried out by the Armed Forces of the Republic of Azerbaijan to prevent the large-scale aggressive attacks actively carried out from 27 September 2020, on **19 June 2022**, at approximately **11:00**, **Shukurov Ali Shirali oglu**, born on 04 February 1992, a civilian resident of the village of **Boyuk Bahmanli, Fuzuli District**, and a sapper of a mine-clearance group of the Mine Action Agency of the Republic of Azerbaijan, was performing his official duties and carrying out an operation to neutralize mines deliberately buried by armed formations during the period of occupation.

A **PMN-type mine** situated in the territory of the village of Khudafarin, at the coordinates **39°09'06"N, 46°56'27"E**, exploded.

As a result, he sustained:

wounds to the outer and upper surfaces of the lower third of the left lower leg;
a wound to the anterior surface of the middle-to-upper third of the right lower leg;
a wound to the posterior surface of the middle third of the left thigh; and
bleeding from the outer side of the ankle of the left leg,
classified as minor bodily injuries.

He was taken to the Fuzuli Treatment and Diagnostic Centre, where his life was saved because he received timely qualified medical assistance.

In addition, members of the criminal organization whose identities have not been precisely established by the investigation, continuing to act with the same criminal intent and objectives, in the area of the village of **Ashaghi Seyidahmedli, Fuzuli District**, which they had occupied on **23 August 1993**, during the period of occupation, on dates not precisely established by the investigation, deliberately buried numerous anti-tank and anti-personnel mines of types, models and places of manufacture unknown to the investigation close to one another and organized ambushes, thereby creating mined areas for the purpose of achieving the objectives of the said criminal organization.

On **26 June 2022**, at approximately **20:00**, **Salmanov Ilham Bakhtiyar oglu**, born on 07 July 1989, a civilian resident of the village of **Shukurbeyli, Fuzuli District**, a police senior sergeant and officer of the Patrol-Post Service Department of the Fuzuli District Police Department, visited the said territory, which had been fully liberated from occupation on **21 October 2020**.

While passing over one of the anti-personnel mines near an unfinished residential building constructed in the village before the occupation, an explosion occurred.

As a result, he sustained:

an open wound to the medial surface of the left thigh and lower leg; and
a traumatic amputation of the middle third of the right lower leg,
classified as serious bodily injuries.

He was taken to a hospital, where his life was saved because he received timely qualified medical assistance.

In addition, members of the criminal organization whose identities have not been precisely established by the investigation, continuing to act with the same criminal intent and objectives, in the area of the village of **Tagaverd, Khojavend District**, which they had occupied on **02 October 1992**, shortly before the liberation of the said territory from occupation and during subsequent periods—that is, during the period from **27 September 2020 to 14 July 2020 [sic]**—deliberately buried numerous anti-tank and anti-personnel mines of types, models and places of manufacture unknown to the investigation close to one another

and organized ambushes, thereby creating mined areas for the purpose of achieving the objectives...

Page 123

of the said criminal organization.

Following the liberation from occupation of the village of **Tagaverd** on **09 November 2020**, as a result of the countermeasures carried out by the Armed Forces of the Republic of Azerbaijan to prevent the large-scale aggressive attacks actively carried out from 27 September 2020, on **14 July 2022**, at approximately **14:00**, at the **57th kilometre of the Ahmadbeyli–Fuzuli–Shusha highway**, citizen of the Republic of Türkiye **Yalpiri Yildyray Juma oglu**, born on 10 December 1987, who worked as an excavator operator for **Kolin İnşaat Sanayi ve Ticaret Anonim**, was carrying out earthworks in a **CAT D8T excavator** at the exit from Tunnel T-1.

The excavator drove over one of the anti-tank mines, causing an explosion.

As a result, he sustained bodily injuries including:

shrapnel wounds to the left ear, left cheek, dorsal surface of the left hand, palmar surface of the right hand, anterior surface of the chest, left forearm, left shoulder and anteromedial surface of the right shoulder;

a shrapnel wound with a tissue defect in the right subclavian region;

multiple shrapnel wounds at the level of the right knee joint;

an open shrapnel wound to the anteromedial surface of the middle third of the left lower leg;

an injury to the anterior surface of the left lung penetrating the thoracic cavity;

a gunshot wound in the third intercostal space of the right half of the chest along the midclavicular line;

shrapnel wounds accompanied by haemopneumothorax; and

gunshot-shrapnel wounds,

classified as serious bodily injuries.

He was taken to a hospital, where his life was saved because he received timely qualified medical assistance.

The company also sustained significant material damage as a result of the damage to the excavator.

In addition, members of the criminal organization whose identities have not been precisely established by the investigation, continuing to act with the same criminal intent and objectives, in the area of the village of **Dag Tumas, Jabrayil District**, which they had

occupied on **23 August 1993**, shortly before the liberation of the said village from occupation—that is, during the period from **27 September 2020 to 23 October 2020**—deliberately buried numerous anti-tank and anti-personnel mines of types, models and places of manufacture unknown to the investigation close to one another and organized ambushes, thereby creating mined areas for the purpose of achieving the objectives of the said criminal organization.

Following the liberation from occupation of the village of Dag Tumas on **23 October 2020**, as a result of the countermeasures carried out by the Armed Forces of the Republic of Azerbaijan to prevent the large-scale aggressive attacks actively carried out from 27 September 2020, on **14 July 2022**, at approximately **13:00**, at a location situated **1.4 km as the crow flies south-west of the “Bashikesik” tomb** in the territory of the village, at the geographical coordinates **39°21’35”N, 46°45’22”E**, civilian **Mammadov Shamil Farahim oglu**, born on 21 March 1996, a resident of the Imishli District, was driving a **Shacman vehicle** bearing state registration plate **90-VG-134** and belonging to **Mammadov Magomed Sadyg oglu**.

The vehicle drove over one of the said mines, causing an explosion.

As a result, Shamil Mammadov sustained:

a traumatic amputation of the lower third of the left lower leg;

a closed dislocation;

an intra-articular fracture of the lower third of the right lower leg;

multiple wounds to the foot; and

other bodily injuries,

classified as serious bodily injuries.

He was taken to a hospital in a timely manner, where his life was saved because he received qualified medical assistance.

As a result of the explosion, the **Shacman vehicle** bearing state registration plate **90-VG-134** was rendered unusable, thereby causing significant damage to Magomed Mammadov.

In addition, members of the criminal organization (association) whose identities have not been precisely established by the investigation, acting in accordance with the common criminal intent and objective of the association and each of its members, in the territory of the **Jabrayil District and the surrounding villages**, which they had occupied on **23 August 1993** as a result of the large-scale

Page 124

aggressive war initiated against Azerbaijan, shortly before the liberation of those territories from occupation—that is, during the period from **27 September 2020 to 10 November 2020**—deliberately buried numerous anti-tank and anti-personnel mines of types, models and

places of manufacture unknown to the investigation close to one another and organized ambushes, thereby creating mined areas for the purpose of achieving the objectives of the said criminal organization.

Following the liberation from occupation of the village of **Nuzgar, Jabrayil District**, and the surrounding villages by the Armed Forces of the Republic of Azerbaijan, on **14 July 2022**, at **08:00**, Warrant Officer **Agayev Mirza Intigam oğlu**, who served as mechanic-driver of the fourth tank of the first tank division of the third tank battalion of the first camp of Military Unit No. N of the Ministry of Defence, was conducting mine-clearance work in the territory of the village of Nuzgar, Jabrayil District, using a **T-72 heavy battle tank**.

The front left part of the tank was damaged and rendered unusable as a result of the explosion of a buried high-explosive anti-tank mine of unknown date and place of manufacture.

Mirza Agayev sustained a **closed craniocerebral injury**, classified as minor bodily injury causing a short-term health disorder.

Suleymanov Afir Ziyafat oğlu sustained a **closed craniocerebral injury**, classified as minor bodily injury causing a short-term health disorder.

In addition, members of the criminal organization (association) whose identities have not been precisely established by the investigation, acting in accordance with the common criminal intent and objective of the association and each of its members, in the territory of the **Kalbajar District and the surrounding villages, including the village of Jamilli**, which they had occupied on **02 April 1993** as a result of the large-scale aggressive war initiated against Azerbaijan, shortly before the liberation of the said district from occupation—that is, on dates not precisely established by the investigation during the period from **27 September 2020 to 25 November 2020**—deliberately buried numerous anti-tank and anti-personnel mines of types, models and places of manufacture unknown to the investigation close to one another and organized ambushes, thereby creating mined areas for the purpose of achieving the objectives of the said criminal organization.

Following the liberation from occupation of the village of **Jamilli, Kalbajar District**, on **25 November 2020**, on **26 July 2022**, at approximately **17:00**, Colonel **Isbandiyarov Vugar Tofiq oğlu**, commander of Military Unit No. N of the Ministry of Defence stationed in the village of Jamilli, Kalbajar District, was inspecting trenches in the territory of the combat position designated “**KS-1**” of the first battalion, conventionally named “**Kongur**.”

A buried anti-personnel mine exploded.

As a result, he sustained shrapnel wounds dangerous to life and causing serious bodily injury, accompanied by a **traumatic amputation of the left lower extremity at the level of the middle third of the lower leg**.

Vugar Isbandiyarov’s life was saved as a result of timely evacuation and qualified medical assistance.

In addition, members of the criminal organization whose identities have not been precisely established by the investigation, continuing to act with the same criminal intent and objectives, in the area of the village of **Melikahmedli, Qubadli District**, which they had

occupied in **August 1993**, shortly before the liberation of the said village from occupation—that is, during the period from **27 September 2020 to 10 November 2020**—deliberately buried numerous anti-tank and anti-personnel mines of types, models and places of manufacture unknown to the investigation close to one another and organized ambushes, thereby creating mined areas for the purpose of achieving the objectives of the said criminal organization.

Following the liberation from occupation of the village of Melikahmedli as a result of the countermeasures carried out by the Armed Forces of the Republic of Azerbaijan to prevent the large-scale aggressive attacks actively carried out from 27 September 2020, on **01 August 2022**, at approximately **15:00**, in a wheat field in the locality known as “**Yazdydu**” in the territory of the said village, a **Class Dominator 130 combine harvester...**

Page 125

bearing state registration plate **44-T-869**, belonging to **Masalli Servis LLC** and operated by **Agamaliyev Surat Musakhan oglu**, born on 01 January 1994, a resident of the village of **Musaly, Jalilabad District**, who worked as a combine operator for **Crown Ko-R LLC**, engaged in grain harvesting, drove over one of the said anti-tank mines.

An explosion occurred, as a result of which he sustained bodily injuries causing no harm to health, including:

burns to the posterior surface of the middle and upper thirds of the right forearm;

scratched wounds to the anterior surfaces of both knee joints and the anterior surfaces of both lower legs; and

an injury to the right foot.

As a result of the explosion, the **Class Dominator 130 combine harvester** bearing state registration plate **44-T-869** was rendered unusable, thereby causing significant damage to **Masalli Servis LLC**.

In addition, members of the criminal organization whose identities have not been precisely established by the investigation, continuing to act with the same criminal intent and objectives, in the area of the village of **Garakhanbeyli, Fuzuli District**, which they had occupied on **23 August 1993**, during the period of occupation, deliberately buried numerous anti-tank and anti-personnel mines of types, models and places of manufacture unknown to the investigation close to one another and organized ambushes, thereby creating mined areas for the purpose of achieving the objectives of the said criminal organization.

Following the liberation of the said territory from occupation as a result of the countermeasures carried out by the Armed Forces of the Republic of Azerbaijan to prevent the large-scale aggressive attacks actively carried out from 27 September 2020, on **02 August 2022**, at approximately **10:00**, at a distance of **3.5 km from a bridge** situated on the section of the **Ahmadbeyli–Fuzuli–Shusha highway** passing through the territory of the village of Garakhanbeyli, **Huseynov Gilman Nidayat oglu**, born on 01 June 1976, a resident of the village of **Mahmudlu, Imishli District**, head of a demining group and employee of **Alpha Demining LLC**, which was carrying out demining work under a contract with the **Mine**

Action Agency of the Republic of Azerbaijan, was performing his official duties and conducting a mine-clearance operation in respect of mines deliberately buried by armed formations during the period of occupation.

An explosion occurred when he stepped on one of the anti-personnel mines.

As a result, he sustained a **traumatic amputation at the level of the lower third of the right leg**, classified as serious bodily injury.

A deminer of the said company, **Shukurov Yadigar Dilavar oglu**, born on 18 August 1990, a resident of the village of **Ahmadalilar, Fuzuli District**, sustained bodily injuries including:

a severe sensorineural hearing impairment accompanied by a neurotic reaction to severe stress;

moderately severe hearing loss in the right ear;

complete deafness in the left ear; and

physical injuries involving a lacerated wound to the left half of the chest,

associated with minor harm to health.

Alizade Rovshan Ruslan oglu, born on 20 October 1991, a resident of the village of Ahmadalilar, Fuzuli District, sustained bodily injuries associated with minor harm to health, including:

lacerated wounds to the right upper extremity and the right half of the abdomen;

a neurotic reaction to severe stress; and

traumatic erosion of the cornea of the right eye.

Gilman Huseynov and Yadigar Shukurov were promptly taken to a hospital and received qualified medical assistance, as a result of which their lives were saved, while Rovshan Alizade was situated relatively far from the place of the explosion and was therefore able to avoid the fragments dispersing around it.

In addition, members of the criminal organization (association) whose identities have not been precisely established by the investigation, acting in accordance with the common criminal intent and objective of the association and each of its members, in the territory of the **Kalbajar District**, which they had occupied on **02 April 1993** as a result of the large-scale aggressive war initiated against Azerbaijan, shortly before the liberation of the said district from occupation—that is, on dates not precisely established by the investigation during the period from **27 September 2020 to 25 November 2020**—deliberately buried, close to one another,

numerous anti-tank and anti-personnel mines of types, models and places of manufacture unknown to the investigation and organized ambushes, thereby creating mined areas for the purpose of achieving the objectives of the said criminal organization.

In the eastern part of the **Kalbajar District**, which had been liberated from occupation on **25 November 2020**, Lieutenant **Aliyev Babek Asker oglu**, commander of the seventh division of the third battalion of Military Unit No. N of the Ministry of Defence, was performing his official duties in protecting the territorial integrity and public security of the Republic of Azerbaijan.

On **05 August 2022**, at approximately **16:00**, while moving on foot through the service area of the combat position conventionally designated “**ZM-3**,” he stepped on two anti-personnel mines.

He was intentionally killed as a result of the explosion, sustaining shrapnel wounds dangerous to life, accompanied by:

damage to a kidney;

damage to the major blood vessels of the left upper extremity;

acute stab-and-incised, shrapnel and open fractures of the lower leg, elbow and forearm, tibia and fibula; and

multiple other wounds,

which resulted in his death.

In addition, members of the criminal organization (association) whose identities have not been precisely established by the investigation, acting in accordance with the common criminal intent and objective of the association and each of its members, shortly before the liberation from occupation on **01 December 2020** by the Armed Forces of the Republic of Azerbaijan of the village of **Khyrmanlar, Lachin District**, which they had occupied on **18 May 1992**—that is, during the period from **27 September 2020 to 01 December 2020**—deliberately buried numerous anti-tank and anti-personnel mines of types, models and places of manufacture unknown to the investigation close to one another and organized ambushes, thereby creating mined areas for the purpose of achieving the objectives of the said criminal organization.

Following the liberation from occupation of the Lachin District and the surrounding villages on **01 December 2020**, as a result of the countermeasures carried out by the Armed Forces of the Republic of Azerbaijan to prevent the large-scale aggressive attacks actively carried out from 27 September 2020, on **05 August 2022**, at **11:00**, on the **Sarybaba elevation**, servicemen of the second battalion of Military Unit No. N of the Ministry of Defence were performing their official duties in protecting the territorial integrity and public security of the Republic of Azerbaijan.

While moving toward the said elevation in the course of performing their duties, an explosion occurred when they passed over one of the anti-personnel mines, whose make and model were unknown to the investigation.

Soldier **Khudiyev Samir Samed oglu** sustained shrapnel wounds to various parts of the body, which were in their totality dangerous to life.

Soldier **Aliyev Tahir Chingiz oglu** sustained shrapnel wounds to the temporal, frontal and occipital regions, causing serious bodily injury.

Both soldiers were intentionally killed at the scene.

Warrant Officer **Israfilov Elkhan Eldar oglu**, a serviceman of the same military unit, sustained an injury to the left lower leg which, taken as a whole, caused no harm to health and whose severity was not determined.

He managed to save his life by avoiding the other fragments.

In addition, members of the criminal organization (association) whose identities have not been precisely established by the investigation, acting in accordance with the common criminal intent and objective of the association and each of its members, in the territory of the **Khojavend District and the surrounding villages**, which they had occupied on **02 October 1992** as a result of the aggressive war initiated against Azerbaijan and which were liberated from occupation on **15 October 2020** by the Armed Forces of the Republic of Azerbaijan in the course of combat operations conducted during the period from **27 September 2020 to 10 November 2020**, used against the Armed Forces of the Republic of Azerbaijan and the civilian population **9M55K5 Smerch (BM-30) multiple-launch rocket system projectiles of 300-mm calibre**, manufactured in **1987 at the Tula Arms Plant of the Russian Federation**, equipped with cluster munitions consisting of small anti-tank bombs.

Following the liberation from occupation of the settlement of **Hadrut and the surrounding villages** on **15 October 2020**, as a result of countermeasures carried out by the Armed Forces of the Republic of Azerbaijan...

Page 127

to prevent the large-scale aggressive attacks actively carried out from 27 September 2020, the following servicemen:

Lieutenant **Rahimov Ali Chingiz oglu**, commander of the third platoon of the first battalion of the first division of Military Unit No. N of the Ministry of Defence;

Nagizade Magomed Adyl oglu, from the second group of the first platoon of the first battalion;

Ganbarov Ibrahim Ilham oglu, fortification officer of the first group of the third platoon of the seventh division of the third battalion;

soldier **Najafzade Farzani Yashar oglu**, senior reconnaissance officer of the second section of the third platoon of the first section of the first battalion;

Dadashzade Anar Safar oglu, reconnaissance observer of the second-rank sniper team of the first sniper platoon of the sniper division; and

Guliyev Mahabbat Tabriz oglu, reconnaissance sniper of the first group of the third platoon of the first division of the first battalion,

on **13 August 2022**, at approximately **14:00**, while on duty in a mountainous forested area situated near the settlement of **Hadrut, Khojavend District**, were struck by numerous fragments and the blast wave caused by the explosion of unexploded submunitions from a cluster munition consisting of small anti-tank fragmentation bombs belonging to a **9M55K5 Smerch BM-30 multiple-launch rocket system projectile with a 300-mm cluster warhead**, used by the criminal organization.

The said persons sustained the following bodily injuries:

Rahimov Ali Chingiz oglu sustained:

a shrapnel wound to the anterior surface of the chest accompanied by an open haemopneumothorax, classified as serious bodily injury dangerous to life;

shrapnel wounds to the right thigh;

a shrapnel wound to the dorsal surface of the right hand; and

a shrapnel wound to the right earlobe.

Nagizade Magomed Adyl oglu sustained a blind shrapnel wound to the anterior abdominal wall penetrating the abdominal cavity and accompanied by rupture of the transverse colon, classified as serious bodily injury dangerous to life.

Ganbarov Ibrahim Ilham oglu sustained:

barotrauma resulting in acute cochlear neuritis, classified as minor bodily injury causing a prolonged health disorder;

a closed craniocerebral injury accompanied by concussion; and

a blind shrapnel wound to the soft tissues of the right cheek.

Najafzade Farzani Yashar oglu sustained a blind shrapnel wound to the anterior abdominal wall penetrating the abdominal cavity, as well as a fracture of the nasal bones, accompanied by rupture of the ileum, classified as serious bodily injury dangerous to life.

Dadashzade Anar Safar oglu sustained non-dangerous shrapnel wounds to:

the left temporo-occipital region;

the left cheekbone;

the left shoulder;

the palmar surface of the left hand;

the outer surface of the right hand;

the left suprascapular region; and

the left buttock.

Guliyev Mahabbat Tabriz oglu sustained non-dangerous injuries to:

the right posterior axillary fold;

the posterior surface of the chest;

the region of the left iliac crest;

the posterior surface of the left forearm;

the soft tissues of the scrotum; and

other parts of the body.

Their lives were saved because they received timely qualified medical assistance, and they avoided numerous fragments by lying on the ground at the time of the incident.

In addition, members of the criminal organization (association) whose identities have not been precisely established by the investigation, acting in accordance with the common criminal intent and objective of the association and each of its members, shortly before the liberation from occupation of the **Lachin District**, which they had occupied on **18 May 1992**—that is, during the period from **27 September 2020 to 01 December 2020**—deliberately buried numerous anti-tank and anti-personnel mines of types, models and places of manufacture unknown to the investigation close to one another and organized ambushes, thereby creating mined areas for the purpose of achieving the objectives of the said criminal organization.

On **20 August 2022**, at **13:42**, on the **Sarybaba elevation**, Senior Lieutenant **Suleymanov Vugar Nizam oglu**, a serviceman of Military Unit No. N of the Ministry of Defence who was performing his official duties in protecting the territorial integrity and public security of the Republic of Azerbaijan, was moving toward the said elevation in the course of laying a communications line when one of the anti-personnel mines, whose make and model were unknown to the investigation, exploded.

As a result, he sustained shrapnel wounds classified as serious bodily injuries dangerous to life, accompanied by

Page 128

a **traumatic amputation (avulsion) of the lower third of the left lower leg**, resulting in the irreversible loss of more than one-third of his general capacity for work.

His life was saved because he received timely qualified medical assistance.

In addition, members of the criminal organization (association) whose identities have not been precisely established by the investigation, acting in accordance with the common criminal intent and objective of the association and each of its members, shortly before the liberation from occupation of the **Lachin District**, which they had occupied on **18 May 1992**—that is, during the period from **27 September 2020 to 01 December 2020**—deliberately buried numerous anti-tank and anti-personnel mines of types, models and places of manufacture unknown to the investigation close to one another and organized ambushes, thereby creating mined areas for the purpose of achieving the objectives of the said criminal organization.

Following the liberation from occupation of the Lachin District and the surrounding villages on **01 December 2020**, pursuant to the trilateral Statement of 10 November 2020, as a result of the countermeasures carried out by the Armed Forces of the Republic of Azerbaijan to prevent the large-scale aggressive attacks actively carried out from 27 September 2020, on **21 August 2022**, at approximately **10:00**, near the **Sarybaba elevation** in the territory of the Lachin District, soldier **Golmaliyev Heydar Elman oglu**, commander of the first section of the second platoon of the engineer-fortification division of Military Unit No. N of the Ministry of Defence, was performing his official duties in protecting the territorial integrity and public security of the Republic of Azerbaijan and carrying out mine-clearance work.

One of the anti-personnel mines, whose make and model were unknown to the investigation, exploded.

As a result, he sustained bodily injuries classified as serious bodily injuries dangerous to life, accompanied by a **traumatic amputation of the left lower extremity at the level of the middle third of the left lower leg**.

His life was saved because he was evacuated to Military Hospital No. N of the Ministry of Defence and received timely qualified medical assistance.

In addition, members of the criminal organization (association) whose identities have not been precisely established by the investigation, acting in accordance with the common criminal intent and objective of the association and each of its members, in the area of the village of **Teymur Muskanli, Qubadli District**, which they had occupied on **31 August 1993** as a result of the aggressive war initiated against Azerbaijan, shortly before the liberation of the said village from occupation—that is, during the period from **27 September 2020 to 10 November 2020**—deliberately buried numerous anti-tank and anti-personnel mines of types, models and places of manufacture unknown to the investigation close to one another and organized ambushes, thereby creating mined areas for the purpose of achieving the objectives of the said criminal organization.

Following the liberation from occupation of the **Qubadli District** as a result of the countermeasures carried out by the Armed Forces of the Republic of Azerbaijan to prevent the large-scale aggressive attacks actively carried out from 27 September 2020, on **30 August 2022**, at approximately **10:00**, **Huseynov Najmeddin Abdulla oglu**, born on 30 May 1984, a resident of the village of **Karimbeyli, Fuzuli District**, and a dog handler and guide of mine-detection dogs of the **Mine Action Agency of the Republic of Azerbaijan**, was carrying out a mine-clearance operation.

An explosion occurred when the mine-detection dog named “**Dina**”, which was moving approximately **11 metres ahead of him**, passed over one of the anti-personnel mines deliberately buried by servicemen during the period of occupation.

As a result, Huseynov sustained minor bodily injuries in the form of:

lacerated wounds to both cheeks; and

a closed craniocerebral injury.

He managed to avoid the dispersing fragments because he was situated relatively far from the point of explosion.

The mine-detection dog was killed.

In addition, members of the criminal organization (association) whose identities have not been precisely established by the investigation, acting in accordance with the common criminal intent and objective of the association and each of its members, in the territory of the **Khojaly District and...**

Page 129

...and the surrounding villages, which they had occupied on **26 February 1992** as a result of the large-scale aggressive war launched against Azerbaijan, on the eve of the liberation of the said territories from occupation, namely, during the first ten days of November 2020, acting in a planned manner, by burying numerous anti-tank and anti-personnel mines of a make, model and place of manufacture unknown to the investigation in close proximity to one another and by organizing ambushes, created mined zones for the purposes of the said criminal organization.

Following the liberation from occupation of the village of **Mukhtarkend** and the surrounding villages of the **Khojaly District**, as a result of countermeasures carried out by the Armed Forces of the Republic of Azerbaijan on **09 November 2020** to prevent the large-scale aggressive attacks actively carried out since **27 September 2020**, the following extended-service servicemen of Military Unit No. N of the Ministry of Defence: **Muradli Shahin Oktay oğlu**, commander of the 3rd section of the 1st platoon of the engineer-fortification division, holding the military rank of junior sergeant; **Nasirov Omar Vagif oğlu**, commander of the 1st engineer-fortification detachment of the 1st fortification platoon of that division, holding the military rank of private; and the following servicemen of the said unit: **Muradov Anar Magerram oğlu**, fortification specialist of the 1st section of the 4th platoon, holding the military rank of private; **Suleymanov Habil Valeh oğlu**, fortification specialist of the 1st section of the 3rd platoon, holding the military rank of private; **Mammadov Khayal Gadir oğlu**, fortification specialist of the 3rd section of the 1st platoon, holding the military rank of private; **Bakhyshov Yunus Arif oğlu**, fortification specialist of the 1st section of the 1st platoon, holding the military rank of private; **Huseynov Nariman Adalat oğlu**, fortification specialist of the 2nd section of the 4th platoon, holding the military rank of private; and **Rustamli Shahruz Matlab oğlu**, fortification specialist of the 2nd section of the 1st platoon, holding the military rank of private, as a result of the explosion, at approximately **13:00 on 02 September 2022**, of a **MON-200 anti-personnel mine** of an unknown date and place of manufacture, which illegal Armenian armed formations had

buried on the territory of the village of Mukhtarkend, Khojaly District, during the occupation of the district, in an area constituting a combat position, sustained the following injuries:

Muradli Shahin Oktay oğlu sustained multiple shrapnel wounds to the 2nd, 3rd and 4th toes of the left foot and to the right lower limb, resulting in prolonged impairment of health;

Nasirov Omar Vagif oğlu sustained multiple blind shrapnel wounds to the right upper limb, both lower limbs and the left half of the scrotum, causing minor harm to health and resulting in prolonged impairment of health;

Mammadov Khayal Gadir oğlu sustained a traumatic rupture of the 2nd finger of the left hand, causing less serious harm to health and resulting in prolonged impairment of health;

Huseynov Nariman Adalat oğlu sustained multiple shrapnel wounds to the lower thirds of both thighs and one-third of the left lower leg, causing minor harm to health and resulting in prolonged impairment of health;

Suleymanov Habil Valeh oğlu sustained shrapnel wounds to the soft tissues of the right lateral malleolus, causing minor harm to health and resulting in short-term impairment of health;

Muradov Anar Magerram oğlu sustained multiple shrapnel wounds to the right leg, causing minor harm to health and resulting in short-term impairment of health;

Bakhyshov Yunus Arif oğlu sustained multiple blind shrapnel wounds not penetrating the left forearm and the left half of the chest, resulting in short-term impairment of health;

Rustamli Shahruz Matlab oğlu sustained blind shrapnel wounds to the right forearm and the surface of the chest, resulting in short-term impairment of health.

Their lives were saved because qualified medical assistance was provided in a timely manner, while they avoided numerous fragments by lying on the ground during the incident.

In addition, members of the criminal organization (association) whose identities have not been precisely established by the investigation, acting in accordance with the common criminal intent and purpose of the association and of each of its members, in the territory of the **Kalbajar District**, which they had occupied on **03 April 1993** as a result of the large-scale aggressive war launched against Azerbaijan, on the eve of the liberation of the said...

Page 130

...district from occupation, namely, on dates not precisely established by the investigation during the period from **27 September 2020 to 25 November 2020**, acting in a planned manner, by burying numerous anti-tank and anti-personnel mines of a make, model and place of manufacture unknown to the investigation in close proximity to one another and by organizing ambushes, created mined zones for the purposes of the said criminal organization.

Following the liberation from occupation of the **Kalbajar District** and its surrounding villages, at approximately **20:00 on 14 September 2022**, **Maharramov Elnur Nerbala oğlu**, a fortification specialist of Military Unit No. N of the Ministry of Defence, holding the

military rank of private, while on the service territory of the combat position bearing the code name “KA-3” in the **Alagollar** locality of the Kalbajar District, was caught in the explosion of a **PMN anti-personnel mine** of an unknown type and place of manufacture, which they had previously buried in that area under unknown circumstances, and was intentionally killed as a result of the injuries sustained, namely: traumatic amputation of the upper third of the right lower leg, a wound to the external genital organs, multiple blind shrapnel wounds to the soft tissues of the perineum, the dorsum of the left hand, the left thigh, both knee joints, the left lower leg and the left ankle joint, accompanied by acute blood loss, which collectively were life-threatening and classified as grievous bodily harm.

In addition, members of the criminal organization (association) whose identities have not been precisely established by the investigation, acting in accordance with the common criminal intent and purpose of the association and of each of its members, in the territory of the **Kalbajar District and its surrounding villages**, which they had occupied on **02 April 1993** as a result of the large-scale aggressive war launched against Azerbaijan, on the eve of the liberation from occupation of the Kalbajar District and its surrounding villages on **25 November 2020** by the Armed Forces of the Republic of Azerbaijan pursuant to the **Trilateral Statement of 10 November 2020**, during the period from **27 September 2020 to 25 November 2020**, acting in a planned manner, by burying numerous anti-tank and anti-personnel mines of a make, model and place of manufacture unknown to the investigation in close proximity to one another and by organizing ambushes, created mined zones for the purposes of the said criminal organization.

Following the liberation of the said territories, **Abbasov Aydin Huseyn oglu**, acting head of the Communications Department of the headquarters of the command of Military Unit No. N of the Ministry of Defence, serving in the military rank of lieutenant colonel; **Khankishiyev Nazim Hasay oglu**, who held the position of deputy head of the Communications Directorate of Military Unit No. N of the Ministry of Defence and performed the duties of head of the Communications Directorate, holding the military rank of colonel; **Sulkhayev Aslan Alikhan oglu**, deputy head of the Department for Communications Planning and Support and Information Technology Systems of Military Unit No. N of the Ministry of Defence, serving in the military rank of colonel; **Nabiyev Mehman Vagif oglu**, senior assistant for information technology to the head of the Communications Directorate of Military Unit No. N of the Ministry of Defence, holding the military rank of major; and **Mahmudov Sarkhan Rza oglu**, commander of the technical service and repair-maintenance subdivision of Military Unit No. N of the Ministry of Defence, holding the military rank of junior sergeant, at approximately **16:00 on 21 September 2022**, for the purpose of carrying out a combat mission assigned in connection with surveying the area for laying a communications line to new combat positions established on the conditional **Azerbaijan-Armenia border**, and providing communications lines to the military units and subdivision of the Ground Forces serving at those positions, were travelling in a military **UAZ-31512** vehicle bearing registration plate “**B 007 QQ**”, belonging to Military Unit No. N and driven by **Sarkhan Mahmudov** pursuant to travel sheet No. 627 issued for **10 September 2022**, in the **Alagollar** area of the Kalbajar District, while travelling over the heights of **Mount Sercheli**, which had been liberated from the armed forces of Armenia on **12-14 September 2022**, when an explosion occurred after a tire of the vehicle struck an anti-personnel mine, the date and place of manufacture of which,

...as well as the make and type of which were unknown, which had previously been buried in that area, as a result of which the front right wheel of the **UAZ-31512** military vehicle was destroyed, the windshield was shattered and electrical wiring was damaged, while the persons inside the vehicle sustained the following injuries: **Abbasov Aydin Huseyn oglu** sustained a closed craniocerebral injury associated with minor harm to health and a concussion; the driver, **Makhmudov Sarkhan Rza oglu**, sustained one incised-stab wound to the dorsal surface of each of the two phalanges of the 2nd, 3rd and 4th fingers of the left hand, classified as injuries of a non-dangerous nature. Owing to the fact that the fragments were partially prevented from striking them by the metal structures of the vehicle, the lives of **Abbasov Aydin Huseyn oglu**, **Makhmudov Sarkhan Rza oglu**, **Khankishiyev Nazim Hasay oglu**, **Sulkhayev Aslan Alikhan oglu** and **Nabiyev Mehman Vagif oglu** were saved.

In addition, members of the criminal organization whose identities have not been precisely established by the investigation, acting in accordance with the common criminal intent and purpose of the association and of each of its members, in the area of the village of **Yukhary Yaglyvend, Fuzuli District**, which they had occupied in August 1993 as a result of the aggressive war launched against Azerbaijan, on the eve of the liberation of the said village from occupation as a result of countermeasures carried out by the Armed Forces of the Republic of Azerbaijan to prevent the large-scale aggressive attacks actively carried out since **27 September 2020**, namely, during the period from **27 September 2020 to 09 November 2020**, acting in a planned manner, by burying numerous anti-tank and anti-personnel mines of a make, model and place of manufacture unknown to the investigation in close proximity to one another and by organizing ambushes, created mined zones for the purposes of the said criminal organization.

On **09 November 2020**, residents of the village of **Alikhanly, Fuzuli District**, **Asadov Amid Fatulla oglu** and **Guluzade Cherkez Bahadir oglu**, went to territory that had been completely liberated from occupation in order to participate in construction work. At approximately **20:00 on 30 September 2022**, as one of these mines exploded while they were walking along an inter-field path in the territory of the village of **Yukhary Yaglyvend**, they were killed as a result of sustaining the following bodily injuries: **Amid Asadov** — combined blunt injuries to the head, chest, abdomen and limbs, fractures of the facial bones, loss of both eyeballs, traumatic losses and other injuries resulting in death, serious health conditions accompanied by acute blood loss and classified as grievous bodily harm; **Cherkez Guluzade** — shrapnel wounds associated with crushing and disintegration of brain tissue, severe traumatic shock resulting in his death, classified as grievous bodily harm and accompanied by crushing and disintegration of brain tissue.

In addition, members of the criminal organization whose identities have not been precisely established by the investigation, continuing to act with the same criminal intentions and objectives, in the direction of the city of **Aghdara**, opposite the engineering fortifications of the illegal armed formations of Armenia, in the area of the village of **Giziloba, Aghdara District**, which they had occupied as a result of the aggressive war launched against Azerbaijan, on dates not established by the investigation during the period **1992–2020**, when it was under occupation, acting in a planned manner, by burying numerous anti-tank and anti-personnel mines of a make, model and place of manufacture unknown to the investigation in close proximity to one another and by organizing ambushes, created mined zones for the purposes of the said criminal organization.

At approximately **11:00 on 01 October 2022**, **Bayramov Rafail Kochari oğlu**, a civilian resident of the village of **Sakhlabad, Tartar District**, engaged in taxi services, together with his cousin and relative **Jabbarov Nijat Novruz oğlu**, visited that area, and on their return to the Tartar District an explosion occurred when Nijat Jabbarov got out of the vehicle and stepped on one of the anti-personnel mines in the area of the village of Giziloba. As a result, the latter sustained multiple shrapnel wounds to both lower limbs, traumatic amputation of the left lower leg, causing life-threatening...

Page 132

...serious harm to health. When **Rafail Bayramov** approached his cousin to assist him, another explosion occurred when he passed by another anti-personnel mine, as a result of which he sustained traumatic amputation of the middle third of the left thigh and other bodily injuries and shrapnel wounds associated with grievous harm to health and danger to life. They were taken to hospital by acquaintances, where their lives were saved as a result of qualified medical assistance.

In addition, members of the criminal organization whose identities have not been precisely established by the investigation, continuing to act with the same criminal intentions and objectives, in the area of the village of **Tagaverd, Khojavend District**, which they had occupied on **02 October 1992**, on the eve of the liberation of the said territory from occupation and during subsequent periods, namely, during the period from **27 September 2020 to 09 November 2020**, acting in a planned manner, by burying numerous anti-tank and anti-personnel mines of a make, model and place of manufacture unknown to the investigation in close proximity to one another and by organizing ambushes, created mined zones for the purposes of the said criminal organization.

Following the liberation from occupation of the village of **Tagaverd on 09 November 2020** as a result of countermeasures carried out by the Armed Forces of the Republic of Azerbaijan to prevent the large-scale aggressive attacks actively carried out since **27 September 2020**, at approximately **11:00 on 02 October 2022**, at the **68th kilometre of the Ahmadbayli–Fuzuli–Shusha highway, Kerimzade Rasif Nusrat oğlu**, a civilian resident of the village of **Poladtygh, Sabirabad District**, born on **01 April 2002**, employed as a general labourer by **Azərtranss LLC**, while repair and construction works were being carried out, an explosion occurred when he stepped on one of these anti-personnel mines. As a result, he sustained bodily injuries in the form of traumatic amputation of the 1st and 2nd toes in the area of the right foot, shrapnel wounds to the right hand and right leg. His life was saved because he was promptly taken to hospital and qualified medical assistance was provided in time.

In addition, members of the criminal organization whose identities have not been precisely established by the investigation, continuing to act with the same criminal intentions and objectives, in the territory of the village of **Yusifjanly, Aghdam District**, which they had occupied on **12 April 1994**, during the period in which it was held under occupation until the last date, **20 November 2020**, on dates not specified by the investigation, acting in a planned manner, by burying numerous anti-tank and anti-personnel mines of a make, model and place of manufacture unknown to the investigation in close proximity to one another and by organizing ambushes, created mined zones for the purposes of the said criminal organization.

Following the liberation of the village of **Yusifjanly, Aghdam District**, from occupation by the Republic of Armenia on **20 November 2020**, at approximately **15:00 on 27 March 2022**, during an explosion caused when one of these mines was struck by a bulldozer, the civilian engineers-surveyors of **Körpü-Bina Tikinti LLC** who were participating in repair and installation works, civilian **Aliyev Ramin Amir oglu**, a peaceful resident of the village of **Ashaghy Seyfali, Shamkir District**, and civilians **Najafov Parviz Sozaly oglu** and **Abdullayev Sakhavat Aladdin oglu**, citizens and peaceful residents of the village of **Garayazi, Aghstafa District**, sustained injuries.

At approximately **17:00 on 08 October 2022**, **Parviz Najafov**, having marked coordinates from the side of the **Aghdam–Fuzuli highway**, while passing through the territory of the village of Yusifjanly in the direction of a house destroyed by members of the criminal group during the occupation, stepped on a **PMN anti-personnel mine**, causing an explosion. As a result, he lost sight in his right eye and sustained other injuries causing grievous harm to health and posing a danger to life. After the explosion, **Ramin Aliyev** and **Sakhavat Abdullayev**, who came to the assistance of Parviz Najafov, attempted to take him away and return; however, while passing another **PMN anti-personnel mine**, a second explosion occurred, as a result of which **Ramin Aliyev** sustained traumatic amputation of the phalanges and metatarsal bones of the 3rd, 4th and 5th toes of the left foot and other...

Page 133

...injuries associated with grievous harm to health and posing a danger to life; **Sakhavat Abdulkhaligov** sustained an intra-articular fracture of the upper end of the proximal phalanx of the fifth finger of the right hand and shrapnel wounds to various parts of the body, resulting in prolonged impairment of health. The lives of all three persons were saved after they were taken to hospital by people who were nearby and were provided with timely qualified medical assistance.

In addition, members of the criminal organization (association) whose identities have not been precisely established by the investigation, acting in accordance with the common criminal intent and purpose of the association and of each of its members, in the territory of the **Kalbajar District**, which they had occupied on **03 April 1993** as a result of the large-scale aggressive war launched against Azerbaijan, on the eve of the liberation of the said district from occupation, namely, on dates not precisely established by the investigation during the period from **27 September 2020 to 09 October 2020**, acting in a planned manner, by burying numerous anti-tank and anti-personnel mines of a make, model and place of manufacture unknown to the investigation in close proximity to one another and by organizing ambushes, created mined zones for the purposes of the said criminal organization.

Following the liberation from occupation of the Kalbajar District and the surrounding villages on **25 November 2020** by the Armed Forces of the Republic of Azerbaijan, **Abyshev Namig Afrail oglu**, a soldier and fortification specialist of the 1st section of the 1st platoon of the 1st engineer-fortification division of Military Unit No. N of the Ministry of Defence, while at combat position **K1** in the direction of **Alagöller, Kalbajar District**, at approximately **12:00 on 09 October 2022**, during engineering reconnaissance of the area, stepped on an anti-personnel mine buried in that area, as a result of which an explosion occurred and he sustained injuries including traumatic-hemorrhagic shock of the I–II degree, accompanied by open, shrapnel and displaced fractures of the bases of the III–IV crest bones, the V crest bone and the body of the ankle bone, the distal metaphysis of the lingual, navicular and cuboid

bones, lacerations in the area of the right foot, lacerations of the right hand, and shrapnel wounds associated with grievous harm to health and, as a rule, posing a danger to life. His life was saved because he was evacuated in time and provided with qualified medical assistance.

In addition, members of the criminal organization (association) whose identities have not been precisely established by the investigation, acting in accordance with the common criminal intent and purpose of the association and of each of its members, in the territory of the **Kalbajar District**, which they had occupied on **03 April 1993** as a result of the large-scale aggressive war launched against Azerbaijan, during the period from **27 September 2020 to 10 October 2022**, acting in a planned manner, by burying numerous anti-tank and anti-personnel mines of a make, model and place of manufacture unknown to the investigation in close proximity to one another and by organizing ambushes, created mined zones for the purposes of the said criminal organization.

Following the liberation from occupation of the Kalbajar District and the surrounding villages on **25 November 2020** by the Armed Forces of the Republic of Azerbaijan, **Malikov Ismail Shikhi oglu**, a soldier and rifleman of the 3rd section of the 2nd platoon of the 1st division of the 1st battalion of Military Unit No. N of the Ministry of Defence, while on assignment at Military Unit No. N, at approximately **18:00 on 10 October 2022**, while conducting observation at the combat post of the 5th division of the 2nd battalion bearing the code name "**KCh-53**", located in the territory of the village of **Zar, Kalbajar District**, sustained injuries to various parts of his body as a result of the explosion of a **PMN-type blast anti-personnel mine**, the date and place of manufacture of which were unknown and which had previously been buried in that area. These injuries, associated with grievous harm to health and, as a rule, posing a danger to life, included traumatic amputation of the right lower limb at the level of the lower third of the lower leg, resulting in loss of the right lower limb at the level of the middle third of the lower leg, accompanied by traumatic-hemorrhagic shock of the II–III degree and...

Page 134

...other injuries sustained. His life was saved because qualified medical assistance was provided in a timely manner.

In addition, members of the criminal organization (association) whose identities have not been precisely established by the investigation, acting in accordance with the common criminal intent and purpose of the association and of each of its members, in the territory of the **Zangilan District and the surrounding villages**, which they had occupied on **29 October 1993** as a result of the large-scale aggressive war launched against Azerbaijan, on the eve of the liberation of the said territories from occupation and during subsequent periods, namely, during the period from **27 September 2020 to 10 November 2020**, acting in a planned manner, by burying numerous anti-tank and anti-personnel mines of a make, model and place of manufacture unknown to the investigation in close proximity to one another and by organizing ambushes, created mined zones for the purposes of the said criminal organization.

Following the liberation from occupation of the **Zangilan District and the surrounding villages on 20 October 2020** by the Armed Forces of the Republic of Azerbaijan, **Seyfullayev Ziyafat Farrukh oglu**, an extended-service serviceman, soldier and

spotter of the 2nd mortar battery of the mortar division of Military Unit No. N of the State Border Service, at approximately **14:00 on 12 October 2022**, while participating in engineering and fortification works in the area of combat position No. N of the **7th Border Commandant's Office**, located in the village of **Razdara, Zangilan District**, as a result of the explosion of an anti-personnel mine of unknown date of manufacture, place of manufacture and make, which had previously been buried in the territory, sustained a minor shrapnel wound as a consequence of an open fracture of the left calcaneus, resulting in prolonged impairment of health. His life was saved because qualified medical assistance was provided in a timely manner.

In addition, members of the criminal organization (association) whose identities have not been precisely established by the investigation, acting in accordance with the common criminal intent and purpose of the association and of each of its members, on the eve of the liberation from occupation on **01 December 2020** by the Armed Forces of the Republic of Azerbaijan of the **Lachin District and the surrounding villages**, which they had occupied on **18 May 1992**, pursuant to the **Trilateral Statement of 10 November 2020**, namely, on dates not specified by the investigation during the period from **27 September 2020 to 01 December 2020**, acting in a planned manner, by burying numerous anti-tank and anti-personnel mines of a make, model and place of manufacture unknown to the investigation in close proximity to one another and by organizing ambushes, created mined zones for the purposes of the said criminal organization.

Following the liberation of the said territory, peaceful residents of the village of **Suarasy, Lachin District, Hasanov Sabukhi Telman oglu** and **Hamidov Elsevar Sovet oglu**, who visited the village at approximately **18:00 on 21 October 2022** in a **MITSUBISHI L200 passenger vehicle**, state registration plate **77-FE-279**, belonging to **Babayev Fuad Atesh oglu** and driven by the latter, were involved in an explosion at the entrance to the village of Suarasy when the vehicle passed over one of those anti-tank mines, the date and place of manufacture, as well as the make and type of which, were unknown.

As a result of the bodily injuries sustained, **Elsevar Hamidov** was killed. His injuries included multiple lacerations to the head, chest, abdomen and limbs; multiple open displaced fractures of the phalanges and metatarsal bones of both hands and of the right foot; traumatic amputation of the left foot at the level of the metatarsal bones; venous insufficiency of the internal organs; acute blood loss; and severe traumatic shock, which posed a danger to life and resulted in his death.

Sabukhi Hasanov sustained minor injuries, in particular closed displaced fractures of the II, III, IV and V metatarsal bones of the left foot and bruised wounds to the crown of the head and the left lower leg. His life was nevertheless saved because he was taken to hospital in time and provided with qualified medical assistance.

Significant damage was also caused to the **MITSUBISHI L200 passenger vehicle**, state registration plate **77-FE-279**, driven at the time of the incident by the deceased **Elsevar Hamidov**, as it was rendered unusable.

Page 135

In addition, members of the criminal organization whose identities have not been precisely established by the investigation, continuing their actions with the same criminal intentions

and objectives, in the territory of the village of **Chayli, Aghdara District**, which they had occupied in April 1994 as a result of the large-scale aggressive war launched against Azerbaijan, during the period in which it was held under occupation from April 1994 until **09 October 2020**, on dates not specified by the investigation, acting in a planned manner, by burying numerous anti-tank and anti-personnel mines of a make, model and place of manufacture unknown to the investigation in close proximity to one another and by organizing ambushes, created mined zones for the purposes of the said criminal organization.

On **23 October 2022**, at approximately **17:00**, **Alizade Samir Buruz oglu**, a civilian resident of the village of **Seydimli, Tartar District**, after the complete liberation of the village from occupation on **09 October 2020**, visited the territory of the village of Chayli. While walking through the territory of that village in front of engineering fortifications from which the Armenian armed formations had withdrawn, one of the anti-personnel mines exploded. As a result, he sustained traumatic amputation of both lower limbs at the level of the middle third of the lower legs and life-threatening shrapnel wounds associated with grievous harm to health. His life was subsequently saved owing to timely qualified medical assistance after other persons who had arrived in that area transported him to hospital.

In addition, members of the criminal organization (association) whose identities have not been precisely established by the investigation, acting in accordance with the common criminal intent and purpose of the association and of each of its members, within the **Fuzuli District**, which they had occupied on **23 August 1993** as a result of the large-scale aggressive war launched against Azerbaijan, during the period of occupation, acting in a planned manner, by burying numerous anti-tank and anti-personnel mines of a make, model and place of manufacture unknown to the investigation in close proximity to one another and by organizing ambushes, created mined zones for the purposes of the said criminal organization.

Following the liberation from occupation of the Fuzuli District and the surrounding villages on **17 October 2020**, as a result of countermeasures carried out by the Armed Forces of the Republic of Azerbaijan to prevent the large-scale aggressive attacks actively carried out since **27 September 2020**, **Nabiyev Taleh Zakir oglu**, a sergeant major serving in Military Unit No. N of the Internal Troops of the Ministry of Internal Affairs, and **Alikhanov Aydin Ashrafovich**, a captain and employee of the 17th Directorate of the Security Service of the President of the Republic of Azerbaijan, while on assignment in the liberated territories, at approximately **07:20 on 07 November 2022**, during an inspection of the area at communications installations (in a trench) in the territory of the village of **Ashaghi Veysalli, Fuzuli District**, using a **Vallon** mine detector, encountered an anti-personnel mine designated “**PMKh**”, of an unknown location and production date and buried in advance in that area, and stepped on an anti-personnel mine of the “**PMN**” model, of unknown date and place of manufacture, which had previously been buried in that area. As a result of the explosion of the built-in detonator of the “**MD-9**” model, Senior Sergeant **Taleh Nabiyev** sustained shrapnel wounds to various parts of his body, which as a whole were life-threatening and caused serious harm to health, while Captain **Aydin Alikhanov** sustained shrapnel wounds to various parts of his body, resulting in prolonged impairment of health. The lives of both servicemen were nevertheless saved owing to their timely evacuation and the provision of medical assistance.

In addition, members of the criminal organization (association) whose identities have not been precisely established by the investigation, acting in accordance with the common criminal intent and purpose of the association and of each of its members, on the eve of the

liberation from occupation of the **Lachin District**, which had been occupied on **18 May 1992**, namely, during the period from **27 September 2020 to 01 December 2020**, acting in a planned manner, by burying numerous anti-tank and anti-personnel mines of a make, model and place of manufacture unknown to the investigation in close proximity to one another and by organizing ambushes, created...

Page 136

...mined zones for the purposes of the said criminal organization.

Following the liberation from occupation of the **Lachin District and the surrounding villages on 01 December 2020**, pursuant to the **Trilateral Statement of 10 November 2020**, as a result of countermeasures carried out by the Armed Forces of the Republic of Azerbaijan to prevent the large-scale aggressive attacks actively carried out since **27 September 2020**, at approximately **12:30 on 09 December 2022**, **Nurullayev Nural Yusif oglu**, who served as an electrician-charger for the radio station of the communications platoon of the 2nd battalion, holding the military rank of private, as a result of the explosion of a **PMN anti-personnel mine** of unknown date and place of manufacture, which had been planted in that area by illegal Armenian armed formations during the occupation, while laying a communications line in areas where combat positions of the illegal armed formations of Armenia had been located in the territory of the village of **Finga, Lachin District**, sustained serious injuries to various parts of his body, resulting in prolonged impairment of health, including a traumatic rupture of the lower third of the right lower leg. His life was nevertheless saved owing to timely qualified medical assistance.

In addition, members of the criminal organization (association) whose identities have not been precisely established by the investigation, acting in accordance with the common criminal intent and purpose of the association and of each of its members, in the territory of the **Kalbajar District**, which they had occupied on **03 April 1993** as a result of the large-scale aggressive war launched against Azerbaijan, on the eve of the liberation of the said district from occupation, namely, on dates not precisely established by the investigation during the period from **27 September 2020 to 14 December 2020**, acting in a planned manner, by burying numerous anti-tank and anti-personnel mines of a make, model and place of manufacture unknown to the investigation in close proximity to one another and by organizing ambushes, created mined zones for the purposes of the said criminal organization.

Following the liberation from occupation of the **Kalbajar District and the surrounding villages on 25 November 2020**, pursuant to the **Trilateral Statement of 10 November 2020**, as a result of countermeasures carried out by the Armed Forces of the Republic of Azerbaijan to prevent the large-scale aggressive attacks actively carried out since **27 September 2020**, at approximately **17:00 on 14 December 2022**, in the territory of the village of **Chiragli, Kalbajar District**, while employees of **Telekommunikasiya servis LLC** were laying telecommunications lines, a **Hidromek HMK 102 B** tractor, state registration number **10-AC-854**, belonging to **Telekommunikasiya servis LLC**, struck one of the anti-tank blast mines of the types **TM-62, TM-57, TMK-2, TM-72, TM-73 and TM-83**, of unknown date and place of manufacture, which had previously been buried in that area.

As a result of the mine explosion, **Allahverdiyev Siyasat Ziyadkhan oglu**, a resident of the village of **Akhtachi, Hajigabul District**, who worked as a driver-operator for the LLC, sustained a closed non-displaced fracture of the fifth metatarsal bone, resulting in prolonged

impairment of health, as well as a shrapnel wound to the right frontotemporal region. **Panahov Rodik Shamseddin oğlu**, a resident of the village of **Urva, Gusar District**, who worked as a cable installer/general labourer for **Telekommunikasiya servis LLC**, sustained multiple superficial shrapnel wounds and other injuries to the right temporal and zygomatic regions and the right half of the face, which were life-threatening and constituted grievous bodily harm. Their lives were saved owing to timely qualified medical assistance.

Later, servicemen of Military Unit No. N of the Ministry of Defence and other employees of the company arrived at the scene. They placed the injured persons in a **GAZ C-41 A23-20** truck, state registration number **99-JY-396**, belonging to **Telekommunikasiya servis LLC**, and drove approximately **15–20 metres** in the direction of the city of Kalbajar. At that time, the right front wheel of the vehicle struck one of the anti-tank mines of the types **TM-62, TM-57, TMK-2, TM-72, TM-73 and TM-83**, of unknown date and place of manufacture, which had previously been buried in the said area. As a result of the explosion, **Hummetov Zohrab Mammad oğlu**, ...

Page 137

who served as commander of the 1st platoon of the 8th operational division of the 3rd operational battalion of Military Unit No. N of the Ministry of Defence, holding the military rank of senior warrant officer, sustained a serious life-threatening injury to the right lower limb. It consisted of a complete traumatic amputation of the right lower limb at the level of the lower third of the lower leg, hanging on a flap of skin, and was associated with grievous bodily harm dangerous to life.

Aliyarov Sadir Heydar oğlu, who worked as a cable installer for **Telekommunikasiya servis LLC**, sustained a non-displaced injury to the right fibula, a comminuted fracture of the right calcaneus and other injuries resulting in prolonged impairment of health. His life was saved owing to timely qualified medical assistance.

Akhundov Rza Yusif oğlu, who served as a reconnaissance grenade-launcher operator of the 2nd section of the 1st platoon of the 9th division of the 3rd operational battalion, an extended-service serviceman holding the military rank of junior sergeant, sustained an abrasion to the forehead, the degree of which could not be determined.

Shirnov Murad Isa oğlu, who served as part of the reconnaissance staff of the 1st section of the 1st platoon of the 8th division of the 3rd operational battalion, an extended-service serviceman holding the military rank of private, sustained a contusion of the soft tissues of the right knee joint, which was not dangerous to health.

Balakishiyev Tofiq Hajimirza oğlu, a resident of the village of **Urva, Gusar District**, who arrived at the scene and worked as a driver for **Telekommunikasiya servis LLC**, sustained a scratch to the lobe of the right ear and other injuries associated with minor harm to health and resulting in short-term impairment of health. At that time, he himself did not sustain injuries from the numerous fragments.

Ibishov Habil Adalat oğlu, who held the position of head of reconnaissance and telephone operator of the communications platoon of the 3rd operational battalion, holding the military rank of private, as well as **Khasyev Vidadi Aziz oğlu** and **Hajiyev Allahverdi Niyazi oğlu**,

who worked as cable installers for **Telekommunikasiya servis LLC**, were not injured as a result of the incident. Significant damage was caused to the equipment.

In addition, members of the criminal organization (association) whose identities have not been precisely established by the investigation, acting in accordance with the common criminal intent and purpose of the association and of each of its members, in the territory of the **Kalbajar District**, which they had occupied on **03 April 1993** as a result of the large-scale aggressive war launched against Azerbaijan, on the eve of the liberation of the said district from occupation, namely, on dates not precisely established by the investigation during the period from **27 September 2020 to 23 December 2022**, acting in a planned manner, by burying numerous anti-tank and anti-personnel mines of a make, model and place of manufacture unknown to the investigation in close proximity to one another and by organizing ambushes, created mined zones for the purposes of the said criminal organization.

Following the liberation from occupation of the **Kalbajar District and the surrounding villages on 25 November 2020**, as a result of countermeasures carried out by the Armed Forces of the Republic of Azerbaijan to prevent the large-scale aggressive attacks actively carried out since **27 September 2020**, pursuant to the **Trilateral Statement of 10 November 2020**, at approximately **15:30 on 23 December 2022**, **Alizade Aydin Agamoglan oglu**, who served as a fortification specialist of the 1st obstacle section of the 1st obstacle platoon of the 1st engineer-fortification division, holding the military rank of private, while carrying out demining work in the territory known as **Alagöller, Kalbajar District**, was injured as a result of the explosion of a **PMN-type anti-personnel mine** of unknown date and place of manufacture, which had been planted during the occupation by illegal Armenian armed formations.

He sustained bodily injuries including **traumatic-hemorrhagic shock of the II degree**, associated with grievous bodily harm caused to various parts of the body and resulting in prolonged impairment of health overall; open multiple shrapnel injuries of the calcaneal, talar, navicular and lateral cuboid bones, bone defects and other injuries. His...

Page 138

...life was saved because qualified medical assistance was provided in a timely manner.

In addition, members of the criminal organization (association) whose identities have not been precisely established by the investigation, acting in accordance with the common criminal intent and purpose of the association and of each of its members, in the territory of the city of **Shusha**, which they had occupied on **08 May 1992** as a result of the large-scale aggressive war launched against Azerbaijan, during the period from **27 September 2020 to 10 November 2020**, acting in a planned manner, by burying numerous anti-tank and anti-personnel mines of a make, model and place of manufacture unknown to the investigation in close proximity to one another and by organizing ambushes, created mined zones for the purposes of the said criminal organization.

Following the liberation of **Shusha from occupation by the Armed Forces of the Republic of Azerbaijan on 08 November 2020**, **Huseynov Kamran Namiz oglu**, a senior lieutenant and deputy commander of Group "E" of Battalion "N" of Military Unit "N" of the Ministry of Defence, stationed in the territory of the city of Shusha, and **Kerimov Royal Bakhtiyar oglu**, a warrant officer and reconnaissance medic of that detachment, while performing their

duties in the territory of the city of Shusha at **01:15 on 04 March 2023**, stepped on an anti-personnel mine that had previously been buried in the area.

As a result of the mine explosion, **Huseynov Kamran Namiz oğlu** was intentionally killed, having sustained a shrapnel wound causing grievous bodily harm and posing a danger to life as a result of an incomplete traumatic amputation of the right lower limb at the level of the lower third of the thigh.

Kerimov Royal Bakhtiyar oğlu sustained a closed craniocerebral injury, multiple fractures, as well as shrapnel wounds causing minor harm to health and resulting in prolonged impairment of health. His life was saved because he was evacuated in time and provided with qualified medical assistance.

In addition, members of the criminal organization whose identities have not been precisely established by the investigation, continuing their actions with the same criminal intentions and objectives, in the territory of the village of **Chayli, Tartar District** (*the village was part of Aghdara District until 13 October 1992*), which they had occupied in April 1994 as a result of the large-scale aggressive war launched against Azerbaijan, during the period in which it was held under occupation, acting in a planned manner, by burying numerous anti-tank and anti-personnel mines of a make, model and place of manufacture unknown to the investigation in close proximity to one another and by organizing ambushes, created mined zones for the purposes of the said criminal organization.

Gadiyev Yagub Aligeydar oğlu, a civilian and peaceful resident of the village of **Hasanqaya, Tartar District**, who visited the district at approximately **13:00 on 09 March 2023**, after it had been completely liberated from occupation on **09 October 2020**, was caught in an explosion when he passed over one of these anti-personnel mines. As a result, **Yagub Gadiyev** sustained a traumatic amputation at the level of the left hip-knee joint, causing serious harm to health. His life was saved because he was promptly taken to hospital and provided with qualified medical assistance.

In addition, members of the criminal organization (association), **Shakaryan Karen Shagenovich, Gor Ishkhanyan, Sasun Grigoryan**, who in **2010–2020** were commanders, **Shalon Arustamyan**, who was the head of the General Staff of the 37th Motor Rifle Division of the Armed Forces of the Republic of Armenia, and other unidentified members who were not identified during the investigation, acting in accordance with the common criminal intent and purpose of the association and of each of its members, in the territory of the village of **Yusifjanly, Aghdam District**, which they had occupied in April 1994, during the period in which it was held under occupation from 1994 to 2020, acting in a planned manner, by burying numerous anti-tank and anti-personnel mines of a make, model and place of manufacture unknown to the investigation in close proximity to one another and by organizing ambushes, created mined zones for the purposes of the said criminal organization. Following..

Page 139

...the liberation of the said territory from occupation on **20 November 2020**, as a result of countermeasures carried out by the Armed Forces of the Republic of Azerbaijan to prevent the large-scale aggressive attacks actively carried out since **27 September 2020**, at approximately **20:00 on 15 March 2023**, **Hasanov Amid Huseyn oğlu**, born on **05 April**

1987, residing in the settlement of **Safarli, Aghdam District**, together with his relative **Hasanov Israil Ibrahim oglu**, born on **01 July 1999**, for the purpose of finding their lost livestock, were moving along the **Gargar River**, located in the area of the village of **Afatli, Aghdam District**, against the direction of the river's flow, toward the village of **Yusifjanly, Aghdam District**, which had been liberated from occupation on **20 November 2020**. In the territory of the village of Yusifjanly, a **PMN-type anti-personnel mine** buried in the ground exploded.

As a result, **Hasanov Amid Huseyn oglu** sustained shrapnel wounds to the body accompanied by acute pain resulting from the blast injury, an open fracture of the right lower leg and damage to the left femoral artery caused by fragments. **Hasanov Israil Ibrahim oglu** sustained shrapnel wounds to the body accompanied by acute pain resulting from the blast injury, as well as damage to the arteries and veins of the groin caused by fragments, as a result of which they were intentionally killed.

In addition, members of the criminal organization (association), **Shakaryan Karen Shagenovich, Gor Ishkhanyan, Sasun Grigoryan**, who were commanders in **2010–2020**, **Shalon Arustamyan**, who was the head of the General Staff of the 37th Motor Rifle Division of the Armed Forces of the Republic of Armenia, and other unidentified members who were not identified during the investigation, acting in accordance with the common criminal intent and purpose of the association and of each of its members, in the territory of the village of **Yusifjanly, Aghdam District**, which they had occupied in April 1994, during the period in which it was held under occupation from 1994 to 2020, acting in a planned manner, by burying numerous anti-tank and anti-personnel mines of a make, model and place of manufacture unknown to the investigation in close proximity to one another and by organizing ambushes, created mined zones for the purposes of the said criminal organization.

Following the liberation of the said territory from occupation on **20 November 2020**, as a result of countermeasures carried out by the Armed Forces of the Republic of Azerbaijan to prevent the large-scale aggressive attacks actively carried out since **27 September 2020**, at approximately **13:00 on 18 March 2023**, **Yusibov Elmir Islam oglu**, born on **31 August 1976**, a resident of the village of **Afatli, Aghdam District**, while clearing the line of contact between the village of Afatli and the village of Yusifjanly in the Aghdam District, which had been liberated from occupation, was operating a **Volvo excavator-loader**, state registration number **AZ 02 BA 147**, which he was using for demining on the basis of a power of attorney, when a buried mine, the type and make of which are unknown to the investigation, exploded.

As a result of being struck by a fragment, he sustained a scar wound to the tissues of the posterior part of the crown of the head, causing minor harm to health. With the assistance of persons nearby, he was evacuated from the scene and taken to hospital, where his life was saved through timely qualified medical assistance.

During the explosion, the **excavator, state registration number AZ 02 BA 147**, belonging to **Muradov Siyavush Ibrahim oglu**, was also intentionally damaged, causing him significant financial loss.

In addition, members of the criminal organization (association) whose identities have not been precisely established by the investigation, acting in accordance with the common criminal intent and purpose of the association and of each of its members, on the eve of the liberation from occupation on **01 December 2020** by the Armed Forces of the Republic of

Azerbaijan of the **Lachin District and the surrounding villages**, which had been occupied on **18 May 1992**, pursuant to the **Trilateral Statement of 10 November 2020**, namely, on dates not specified by the investigation during the period from **27 September 2020 to 01 December 2020**, acting in a planned manner, by burying...

Page 140

...numerous anti-tank and anti-personnel mines of a make, model and place of manufacture unknown to the investigation in close proximity to one another and by organizing ambushes, created mined zones for the purposes of the said criminal organization.

At approximately **14:50 on 14 April 2023**, **Azizov Ramil Aliaga oglu**, a civilian and peaceful resident of the village of **Azadkend, Saatli District**, while grazing small livestock, entered the basement of an unfinished residential house built before the occupation in the area of the village of **Sus, Lachin District**. An explosion occurred when he passed by one of the anti-personnel mines buried in front of the entrance door to the basement. As a result, **Ramil Azizov** sustained a traumatic amputation injury to the right lower limb at the level of the ankle joint, causing serious harm to health. His life was saved because he was taken to hospital in time and provided with qualified medical assistance.

In addition, members of the criminal organization (association) whose identities have not been precisely established by the investigation, acting in accordance with the common criminal intent and purpose of the association and of each of its members, on the border between the village of **Talysh, Aghdara District**, and the village of **Borsunlu, Tartar District**, within the territory of the latter village, during the period in which it was held under occupation, on dates not precisely established by the investigation, acting in a planned manner, by burying numerous anti-tank and anti-personnel mines of a make, model and place of manufacture unknown to the investigation in close proximity to one another and by organizing ambushes, created mined zones for the purposes of the said criminal organization.

At approximately **17:00 on 18 April 2023**, **Askerov Elnur Asif oglu**, a civilian and peaceful resident of the village of **Borsunlu, Tartar District**, while gathering asparagus plants in that area, was caught in an explosion when he passed by one of these anti-personnel mines. As a result, he sustained injuries including traumatic amputation at the level of the **left femorotibial joint**, traumatic shock of the II degree, and blind shrapnel wounds to the anterior and left inner side of the right lower leg. His life was saved because he was promptly taken to hospital and provided with qualified medical assistance.

In addition, members of the criminal organization (association) whose identities have not been precisely established by the investigation, acting in accordance with the common criminal intent and purpose of the association and of each of its members, in the territory of the city of **Shusha**, which they had occupied on **08 May 1992** as a result of the large-scale aggressive war launched against Azerbaijan, on the eve of the liberation of the said territory, namely, during the period from **27 September 2020 to 22 April 2023**, acting in a planned manner, by burying numerous anti-tank and anti-personnel mines of a make, model and place of manufacture unknown to the investigation in close proximity to one another and by organizing ambushes, created mined zones for the purposes of the said criminal organization.

Following the liberation of **Shusha and the surrounding villages from occupation on 08 November 2020** as a result of countermeasures carried out by the Armed Forces of the

Republic of Azerbaijan to prevent the large-scale aggressive attacks actively carried out since **27 September 2020**, as well as the liberation of the village of **Allahgulular, Shusha District**, as a result of an operation conducted on **25 March 2023**, **Rahimli Elchin Rahim oglu**, an extended-service serviceman and driver of the 1st automobile squad of the automobile platoon of the logistics support unit of Military Unit No. N of the Ministry of Defence, on **22 April 2023**, due to the necessity of performing his service, pursuant to Order No. **116** of the commander of the military unit dated **20 April 2023**, while on assignment at Military Unit No. N of the Ministry of Defence located in the city of Shusha, was travelling to the **7th combat position of the machine-gun section of the 10th division of the 4th battalion** of the military unit, located in the territory of the village of Allahgulular, Shusha District, in a **GAZ-3308** vehicle, military registration number **E-062-QQ**, belonging to the said military unit.

At **17:03** on the same day, the vehicle struck an anti-tank mine that had previously been buried in that area. As a result of the explosion, serviceman **Elchin Rahimli** sustained shrapnel wounds to various parts of...

Page 141

...his body, resulting in short-term impairment of health; **Mammadov Vusal Firad oglu**, warrant officer, commandant of the headquarters and supply department of Military Unit No. N, who had been assigned to Military Unit No. N by the same order of the commander of Military Unit No. N and was in the same vehicle, sustained shrapnel wounds to various parts of the body, resulting in prolonged impairment of health; and, among the members of the unit who came to their assistance after the explosion, **Aliyev Niyad Orujali oglu**, a soldier and rifleman of the security platoon of the headquarters and supply department of Military Unit No. N, at **17:12**, after stepping on another anti-tank mine planted by members of the same criminal organization, sustained shrapnel wounds to various parts of the body, resulting in prolonged impairment of health. Owing to timely evacuation and the provision of medical assistance, the lives of all three servicemen were saved. As a result of the mine explosion, the **GAZ-3308** vehicle bearing military registration number **E-062-QQ** was also substantially damaged.

In addition, members of the criminal organization (association) whose identities have not been precisely established by the investigation, acting in accordance with the common criminal intent and purpose of the association and of each of its members, in the area of the settlement of **Sugovushan** within the administrative-territorial district of the village of **Chayli, Tartar District** (*since 05 December 2023 — Aghdara District*), which they had occupied in April 1994, during the period in which it was held under occupation, acting in a planned manner, by burying numerous anti-tank and anti-personnel mines of a make, model and place of manufacture unknown to the investigation in close proximity to one another and by organizing ambushes, created mined zones for the purposes of the said criminal organization.

Following the liberation of the said territory from occupation on **20 November 2020** as a result of countermeasures carried out by the Armed Forces of the Republic of Azerbaijan to prevent the large-scale aggressive attacks actively carried out since **27 September 2020**, at approximately **09:00 on 26 April 2023**, **Babashov Khazar Tariel oglu**, born on **11 March 1990**, a resident of the village of **Shukurbeyli, Fuzuli District**, who worked as a driver at the Aghdam District center of the public legal entity **Mine Action Agency of the Republic of**

Azerbaijan, while in the territory of the settlement of Sugovushan in the administrative-territorial district of the village of Chayli, Tartar District (*since 05 December 2023 — Aghdara District*), left the highway and proceeded on foot toward a green area. As a result of the explosion of a mine, the type and model of which are unknown to the investigation, he sustained a mine-blast injury to the right lower limb caused by fragments, which caused serious harm to his health and resulted in amputation of the upper third of the lower leg and traumatic rupture of the right lower limb at the level of the ankle joint, accompanied by traumatic shock, as well as multiple thermal and contused-lacerated-abrasion wounds to both forearms, the right hand and fingers, the left thigh, both knee joints and the left lower leg. After he was evacuated from the scene and taken to hospital with the assistance of persons nearby, his life was saved through timely qualified medical assistance.

As a result of counter-offensive operations carried out by the Armed Forces of the Republic of Azerbaijan against the large-scale aggressive attacks that had intensified from **27 September 2020**, following the complete liberation of the village of **Talysh in present-day Aghdara District on 03 October 2020**, at approximately **19:00 on 28 April 2023**, **Sadiyev Farid Mehman oglu**, born on **06 June 1996**, a peaceful resident of the city of Sumgait and head of a group of **RB GROUP OF COMPANIES LLC**, who had been tasked with monitoring mines planted in the liberated territories, together with drone operators and peaceful residents of the village of **Ahmadalilar, Fuzuli District, Yusifov Nadir Panah oglu**, born on **24 September 1982**, and **Gozalov Sakhavat Ismail oglu**, born on **27 September 1981**, for the purpose of monitoring mined areas using unmanned aerial vehicles, the wheels of the vehicle were...

Page 142

...camouflaged and buried on the **Talysh–Tapgaragoyunlu road** in the territory of the village of Talysh, with a **MITSUBISHI L200** vehicle bearing state registration number **90 UH 894**, belonging to the said company, [when] an anti-tank mine, the make, model and place of manufacture of which have not been established by the investigation, exploded and a fire broke out. As a result, **Farid Seyidov** sustained a comparatively charred injury from a burn, which was life-threatening and caused serious harm to health; **Nadir Yusifov** sustained a life-threatening burn and charring; and **Sakhavat Gozalov** sustained burns and charring from flames, which were life-threatening and caused serious harm to health. As a result, all three were intentionally killed at the scene.

During the explosion, the **MITSUBISHI L200** vehicle belonging to **RB GROUP OF COMPANIES LLC**, state registration number **90 UKh 894**, was completely burned, thereby intentionally causing significant damage to the said legal entity.

In addition, members of the criminal organization (association) whose identities have not been precisely established by the investigation, acting in accordance with the common criminal intent and purpose of the association and of each of its members, in the territory of the village of **Horadiz, Fuzuli District of the Republic of Azerbaijan**, which they had occupied on **03 September 1993** as a result of the aggressive war launched against Azerbaijan, during the period in which it was held under occupation, on dates not precisely established by the investigation, acting in a planned manner, by burying numerous anti-tank and anti-personnel mines of a make, model and place of manufacture unknown to the investigation in close proximity to one another and by organizing ambushes, created mined zones for the purposes of the said criminal organization.

Following the liberation from occupation on **27 September 2020** as a result of countermeasures carried out by the Armed Forces of the Republic of Azerbaijan to prevent the large-scale aggressive attacks actively carried out since **27 September 2020**, civilian **Alishov Oktay Bayram oglu**, a resident of the village of **Gazakhlar, Fuzuli District**, who visited that district at approximately **18:00 on 01 May 2023**, while riding a horse that he used as a means of transportation and grazing small livestock on a field pasture, was caught in an explosion while passing by one of the **TM-57 anti-tank mines manufactured in the Russian Federation**.

As a result, **Oktay Alishov** sustained serious harm to health in the form of traumatic amputation of the upper third of the right thigh, the left lower limb at the level of the ankle joint, and other injuries, and died from shrapnel wounds accompanied by acute blood loss and severe traumatic shock. In addition, the horse he had been using as a means of transportation died from a fragment.

In addition, members of the criminal organization (association) whose identities have not been precisely established by the investigation, acting in accordance with the common criminal intent and purpose of the association and of each of its members, at approximately **20:00 on 13 July 2023**, **Aliyev Sahib Isa oglu**, born on **19 July 1964**, a peaceful resident of the village of **Seyidler, Kalbajar District**, was walking through the area in order to tend to bees that he kept in a beehive located in the territory of that village. As a result of a mine explosion, he sustained a life-threatening injury in the form of traumatic amputation of the right lower limb — the lower third of the lower leg — and multiple shrapnel wounds to the left lower limb and face. Since **Sahib Aliyev** was provided with timely qualified medical assistance, his life was saved, and therefore the attempt to intentionally kill him was unsuccessful.

In addition, members of the criminal organization (association) whose identities have not been precisely established by the investigation, acting in accordance with the common criminal intent and purpose of the association and of each of its members, on the eve of the liberation from occupation on **01 December 2020** by the Armed Forces of the Republic of Azerbaijan of the **Lachin District**, which had been occupied on **18 May 1992**, namely, during the period from **27 September 2020 to 01 December 2020**, acting in a planned manner, by burying in close proximity to one another...

Page 143

...numerous anti-tank and anti-personnel mines of a make, model and place of manufacture unknown to the investigation in close proximity to one another and, by organizing ambushes, created mined zones for the purposes of the said criminal organization.

Following the liberation from occupation of the **Lachin District and the surrounding villages on 01 December 2020**, pursuant to the **Trilateral Statement of 10 November 2020**, as a result of countermeasures carried out by the Armed Forces of the Republic of Azerbaijan to prevent the large-scale aggressive attacks actively carried out since **27 September 2020**, **Khabibov Khayal Habil oglu**, a sergeant and commander of the commandant platoon of the headquarters unit of Military Unit No. N of the Ministry of Defence located in the territory of the Lachin District, at approximately **11:00 on 20 July 2023**, while driving near the village of **Gorchu, Lachin District**, in a **Volkswagen Amarok**, registration number **99-KU-898**, belonging to his acquaintance **Barkhudarov Niyameddin Shukur oglu**, as a result

of the vehicle driving over and causing the explosion of one of the previously buried anti-tank mines of the types **TM-62M, TM-62P2, TM-62P3, TM-62T or TM-62B**, sustained cut, abraded and scratched wounds to the face, arms and legs, bodily injuries classified in degree as minor harm to health. His life was saved due to the impact of the explosion occurring on the right side of the vehicle, which had come into direct contact with the mine. The **Volkswagen Amarok**, registration number **99-KU-898**, manufactured in 2014, was rendered unusable, thereby causing significant damage to **Barkhudarov Niyameddin Shukur oglu**.

At approximately **12:00 on 24 August 2023**, **Alekberli Afghan Sayaf oglu**, born on **15 July 1987**, a mechanic of **AQROSERVIS Open Joint-Stock Company** and a peaceful resident of the village of **Bolsulu, Beylagan District**, while operating a **BELARUS 1523** tractor bearing state registration number **04 AB 271**, was ploughing an agricultural field in the territory of the village of **Sygnar, Khojaly District**, and, while turning back, an explosion occurred when a wheel of the moving tractor drove over a mine. As a result, he sustained numerous scratches to the face, neck and left side of the body of undetermined severity, as well as bleeding damage to the sclera of the right eye. At the time of the explosion, **Alekberli Afghan** was inside the tractor, and therefore it was not possible to intentionally kill him, as he was outside the area in which the greater part of the fragments had scattered. The **BELARUS 1523** tractor, manufactured in 2019, chassis number **10459**, state registration number **04 AB 271**, belonging to **AQROSERVIS Open Joint-Stock Company**, was also damaged in the explosion, thereby intentionally causing significant damage to the legal entity.

At approximately **07:00 on 25 August 2023**, **Gasimov Khabib Teymur oglu**, born on **02 January 1999**, a mine detector employed by **AZERBAIJAN DEMINING COMPANY LLC** and a peaceful resident of the village of **Baharli, Aghdam District**, for the purpose of detecting and neutralizing [explosive devices] in the territory of the village of **Khovuslu** in the course of performing his official duties, at approximately **09:00**, while in the cargo compartment of a **FORD TRANSIT** vehicle after being transported to the village of **Huseynalilar, Jabrayil District**, when removing an **OQ-9-type projectile** from the vehicle and placing it in the designated safe area, suddenly sustained injuries as a result of the explosion of the projectile, including injuries to the palmar surface of the left hand, a wound to the right eye, a wound to the upper eyelid of the right eye, burn wounds to the forehead and left half of the face and the palmar surface of the left hand, and traumatic rupture of the eardrum in the left ear. The intentional killing of **Khabib Gasimov** was unsuccessful because his life was saved through timely qualified medical assistance.

In addition, members of the criminal organization (association) whose identities have not been precisely established by the investigation, acting in accordance with the common criminal intent and purpose of the association and of each of its members, in the territory of the **Kalbajar District**, which they had occupied on **03 April 1993** as a result of the large-scale aggressive war launched against Azerbaijan, on the eve of the liberation of the said district from occupation, namely, on dates not precisely established by the investigation during the period from **27 September 2020 to 07 September 2023**, acting in a planned manner, by burying numerous anti-tank and...

...anti-personnel mines of a make, model and place of manufacture unknown to the investigation in close proximity to one another and, by organizing ambushes, created mined zones for the purposes of the said criminal organization.

Following the liberation from occupation of the **Kalbajar District and most of the surrounding villages on 25 November 2020** by the Armed Forces of the Republic of Azerbaijan, pursuant to the **Trilateral Statement of 10 November 2020**, **Ismailov Yunis Panah oğlu**, an extended-service serviceman holding the military rank of sergeant and serving as a reconnaissance-fortification specialist of the 1st group of the 4th platoon of the 1st section of the 1st battalion, while serving at the combat position designated **KQ-13**, located in the village of **Marjimek, Kalbajar District**, at **07:20 on 07 September 2023**, was caught in the explosion of an anti-personnel mine planted in that area. As a result, he sustained a traumatic rupture of the right lower limb at the level of the middle third of the lower leg and other injuries and shrapnel wounds associated with grievous harm to health and, overall, dangerous to life, resulting in the loss of the right lower limb at the level of the upper third of the lower leg, accompanied by traumatic-hemorrhagic shock of the I degree. His life was saved because he was evacuated in time and received qualified medical assistance.

In addition, members of the criminal organization (association) whose identities have not been precisely established by the investigation, acting in accordance with the common criminal intent and purpose of the association and of each of its members, in the territory of the **Aghdam District and the surrounding villages**, which they had occupied on **23 July 1993** as a result of the aggressive war launched against Azerbaijan, during the period in which they held them under occupation, on dates not precisely established by the investigation, acting in a planned manner, by burying numerous anti-tank and anti-personnel mines of a make, model and place of manufacture unknown to the investigation in close proximity to one another and, by organizing ambushes, created mined zones for the purposes of the said criminal organization.

Following the liberation from occupation of the **Aghdam District and the surrounding villages on 20 November 2020** as a result of countermeasures carried out by the Armed Forces of the Republic of Azerbaijan to prevent the large-scale aggressive attacks actively carried out since **27 September 2020**, pursuant to the **Trilateral Statement of 10 November 2020**, **Eminov Khayyam Makhmal oğlu**, lieutenant colonel and chief of staff–deputy commander of Military Unit No. N of the Ministry of Defence, while on assignment at Military Unit No. N for the performance of a combat mission, at **13:14 on 10 September 2023**, while conducting observation in the area between the combat position conditionally designated “**A-11**” of the 5th division of the 2nd battalion, located in the territory of the village of **Garalar, Aghdam District**, and the positions of the illegal armed formations of Armenia located in the said territory, was caught in the explosion of a **PMN anti-personnel mine** of unknown date and place of manufacture, which had previously been buried in that area. He sustained shrapnel wounds to various parts of the body and a subtotal rupture of the left lower leg with a large soft-tissue defect at the level of the hip joint, which was, overall, dangerous to life. His life was saved because he was evacuated in time to a military hospital and provided with qualified medical assistance.

Members of the criminal organization whose identities are unknown to the investigation, encompassed by the common criminal intent of each member of the criminal organization and pursuing the same criminal objectives, on the eve of the liberation from occupation of the

village of **Gazidara, Lachin District, on 01 December 2020**, namely, on dates not known to the investigation during the period from **27 September 2020 to 25 November 2020**, at approximately **16:00 on 13 September 2023**, on the section of road from the village of **Gollabird** to the village of **Gazidara, Lachin District**, where the bridge had collapsed on the section of road crossing the **Hekari River**, [had planted] an anti-tank mine whose type, make and model had not been established during the investigation. **Turgay Bayram Ali oglu**, a citizen of the Republic of Türkiye, born on **19 September 1983**, residing in **Trabzon**, and an operator employed by **CENGİZ İNŞAAT A.Ş.**, a company established in the Republic of Türkiye and engaged in reconstruction, as a result of the explosion involving the bucket of the excavator he was operating, belonging to **CENGİZ İNŞAAT A.Ş.**, the legal...

Page 145

...entity sustained significant damage. At the time of the explosion, **Turgay Bayram** was inside the excavator and was outside the area in which the fragments dispersed; therefore, they were unable to kill him, since he was not injured.

With the support of the military-political leadership of the **Republic of Armenia**, including the Armed Forces and other armed formations, as well as with their direct logistical support, including personnel, under their centralized command, pursuant to oral and written orders, directions and instructions, and under their strict control, members of the criminal organization and of its structural subdivision — armed formations equipped with various types of firearms, ammunition, military equipment and other weapons — whose identities are unknown to the investigation and which were formed in violation of the requirements of domestic and international legal norms applicable in the territory of the Republic of Azerbaijan, namely, the **Charter of the United Nations of 26 June 1945**, the **UN General Assembly Resolution of 14 December 1974 “On the Definition of Aggression”**, Articles **34, 130, 147**, etc. of the **Fourth Geneva Convention of 12 August 1949 relative to the Protection of Civilian Persons in Time of War**, Article 34 of the **First Protocol of 08 June 1977 Additional to the Geneva Conventions of 12 August 1949**, **Rule No. 96 of Customary International Humanitarian Law and Rules Nos. 113, 115 and 116 of customary law concerning the dead**, the **United Nations International Convention for the Protection of All Persons from Enforced Disappearance of 20 December 2006**, the **Universal Declaration of Human Rights of 10 December 1948**, the **Convention for the Protection of Human Rights and Fundamental Freedoms**, adopted by the Council of Europe on **04 November 1950**, Protocol No. 1 to that Convention, the **International Covenant on Civil and Political Rights of 16 December 1966**, the **UN Convention against Torture and Other Cruel, Inhuman or Degrading Treatment or Punishment of 10 December 1984**, **Additional Protocol I of 08 June 1977 relating to the Protection of Victims of International Armed Conflicts to the Geneva Conventions of 12 August 1949**, the **Convention on the Prohibition of the Use, Stockpiling, Production and Transfer of Anti-Personnel Mines and on Their Destruction (Ottawa, 03 December 1997)**, the **Protocol on Prohibitions or Restrictions on the Use of Mines, Booby-Traps and Other Devices**, annexed to the Convention of **10 October 1980** on prohibitions or restrictions on the use of certain conventional weapons which may be deemed to be excessively injurious or to have indiscriminate effects, the **Council of Europe Convention on the Prevention of Terrorism**, signed in Warsaw on **16 May 2005**, and numerous other international legal norms, for the purpose of carrying out the criminal plan united by a common criminal intent, namely, to retain the occupied territories under their control, to continue the aggressive war they had launched against the Republic of Azerbaijan, to kill

Azerbaijanis on the grounds of national and ethnic hatred and hostility which they had fostered against them in Armenian society, and for other criminal purposes, following the liberation of the **Jabrayil, Fuzuli, Zangilan and Qubadli Districts** of the Republic of Azerbaijan, as well as the city of **Shusha**, which had been occupied by them for many years, as a result of countermeasures carried out by the Armed Forces of the Republic of Azerbaijan to prevent the large-scale aggressive attacks actively carried out since **27 September 2020**, once again, in violation of the requirement of **Paragraph 1**, which states that “a complete ceasefire and cessation of all hostilities in the Nagorno-Karabakh conflict zone shall be declared from 00:00 Moscow time on 10 November 2020. The Republic of Azerbaijan and the Republic of Armenia, hereinafter referred to as the Parties, shall remain at the positions they occupy,” **Paragraph 4**, according to which “Armenian armed forces shall withdraw from the occupied territories,” and **Paragraph 7**, according to which “internally displaced persons and refugees shall return to the territory of Nagorno-Karabakh and adjacent districts under the supervision of the Office of the United Nations High Commissioner for Refugees,” of the Statement of the **President of the Republic of Azerbaijan, the Prime Minister of the Republic of Armenia and the President of the Russian Federation of 10 November 2020...**

Page 146

...despite the fact that **three years** had elapsed since the signing of the said legal document, continued during that period the unlawful construction of engineering fortifications for future criminal purposes in the sovereign territories of the Republic of Azerbaijan — in the **Khojaly, Aghdara, Khankendi, Khojavend and Shusha districts** — openly refused to surrender the weapons, ammunition, military equipment and installations remaining in that area, and continued laying mines around fortified positions. Taking advantage of the large-scale restoration and construction works being carried out in all territories liberated from occupation, and consequently of the regular movement of large numbers of workers, as well as police officers responsible for maintaining public order in that area, together with vehicles and special equipment used in road construction, at approximately **17–18 September 2023**, having arranged an ambush in the form of a reconnaissance-and-sabotage group, they arrived in the territory of the village of **Tagaverd, Khojavend District**, and, at the **58th kilometre of the Ahmadbayli–Fuzuli–Shusha road** passing through the territory of that village, created mined zones by burying numerous blast-type anti-tank mines of the types **TM-62, TM-57, TMK-2, TM-72, TM-73 and TM-83**, the dates and places of manufacture of which are unknown.

At approximately **03:45 on 19 September 2023**, employees of Directorate No. 43 of the **State Agency of Azerbaijan Automobile Roads, Guliyev Farhad Huseynaga oğlu** and driver **Sadikhov Samir Sabirovich**, while operating road-construction equipment — **Shacman Howo** trucks bearing state registration number **99-JO-021** and a **Hamm 3516** bearing state registration number **110 FA 409**, belonging to **Colin İnşaat Turizm Sanayi ve Ticaret Anonim** — and carrying out repair works in the area using the equipment provided, were caught in the explosion of one of those anti-tank mines. As a result, **Sadikhov Samir Sabirovich** sustained serious injuries to various parts of the body, including life-threatening injuries to internal organs and multiple shrapnel wounds to the surface of the body; **Guliyev Farhad Huseynaga oğlu** sustained multiple shrapnel wounds to the surface of the body and other injuries associated with serious harm to health and, as a rule, posing a danger to life. As a result, both were intentionally killed at the scene.

Having received information that employees of the State Agency of Azerbaijan Automobile Roads had struck mines, officers of the **Rapid Response Police Regiment of the Ministry of Internal Affairs** arrived at the scene on **19 September 2023**, for the purpose of maintaining public order, ensuring public safety and performing other official duties, in a **KamAZ-43118** vehicle belonging to the Ministry of Internal Affairs of the Republic of Azerbaijan and bearing state registration number **77-JX-224**. Approximately **100 metres** from the site of the first explosion on that road, they struck another of the anti-tank mines buried by members of the criminal organization.

As a result, the driver of the vehicle, **Jamalzade Asim Knyaz oglu**, an officer of the Rapid Response Police Regiment of the Ministry of Internal Affairs holding the rank of police sergeant, sustained injuries to various parts of the body, including crushing and disintegration of brain tissue, which overall posed a danger to life and constituted grievous bodily harm, as well as traumatic amputation of the lower third of the left lower leg.

Zamanov Khazar Azer oglu, an officer of the same regiment holding the rank of police sergeant, sustained multiple injuries to various parts of the body, open and linear fractures of the cranial vault and the bones of the base of the skull, and crushing of brain tissue, which are ordinarily life-threatening.

Makhmudov Seymur Elsever oglu, an officer of the same regiment holding the rank of police lieutenant, sustained multiple injuries to various parts of the body, shrapnel-related open and linear fractures of the cranial vault...

Page 147

...the base of the skull and the bones of the facial skeleton, contusion and disintegration of brain tissue, injuries which are generally life-threatening; **Shirinov Ramil Arif oglu**, an officer of the same police regiment holding the rank of police sergeant, sustained injuries to various parts of the body which were, overall, life-threatening, including contusions of brain tissue, hemorrhage into the cerebral membranes and ventricles, as well as numerous contusions and abrasions on the surface of the body, as a result of which they were intentionally killed.

Thus, as a result of the terrorist act committed by members of the criminal organization in the territory of the Republic of Azerbaijan, **6 persons were intentionally killed, including 2 civilians and 4 police officers, and 3 vehicles were completely destroyed.**

Continuing their acts, at approximately **13:00 on 19 September 2023**, in the territories of the **Khojaly, Aghdara, Khankendi, Khojavend and Shusha Districts** occupied by them, where during **2020–2023** they had attacked military and civilian facilities belonging to the Republic of Azerbaijan by opening more intensive fire from artillery systems, mortars and other large- and small-calibre weapons which they had unlawfully deployed in engineering and fortification structures unlawfully constructed by them, members of the criminal organization, from that same date, proceeding from the requirement of the provision specified in paragraph 2 of Article 7 of the **Council of Europe Convention on the Prevention of Terrorism** (Warsaw, 16 May 2005):

“Each Party shall adopt such measures as may be necessary to establish the training of terrorists, as defined in paragraph 1 of this Article, when committed unlawfully and intentionally, as a criminal offence under its domestic law,”

and guided by the requirements of the **Law of the Republic of Azerbaijan “On Combating Terrorism”**, in accordance with the requirements of the **Fourth Geneva Convention of 12 August 1949 relative to the Protection of Civilian Persons in Time of War**, the Armed Forces of the Republic of Azerbaijan began conducting local anti-terrorist operations to clear these territories of members of the criminal organization, whom they regarded as a serious threat to the public security of the Republic of Azerbaijan, to detect and confiscate illegally stored weapons and ammunition, to ensure human rights and freedoms and the security of society and the state, and to restore state sovereignty.

In violation of the requirements of **Paragraph 1** — “A complete ceasefire and cessation of all hostilities in the Nagorno-Karabakh conflict zone shall be declared from 00:00 Moscow time on 10 November 2020. The Republic of Azerbaijan and the Republic of Armenia, hereinafter referred to as the Parties, shall remain at the positions they occupy”; **Paragraph 4** — “Armenian armed forces shall withdraw from the occupied territories”; and **Paragraph 7** — “Internally displaced persons and refugees shall return to the territory of Nagorno-Karabakh and adjacent districts under the supervision of the Office of the United Nations High Commissioner for Refugees” — of the **Statement of the President of the Republic of Azerbaijan, the Prime Minister of the Republic of Armenia and the President of the Russian Federation of 10 November 2020**, as well as the provisions of the **Charter of the United Nations of 26 June 1945**, the **UN General Assembly Resolution of 14 December 1974 “On the Definition of Aggression”**, Articles **34, 130, 147**, etc. of the **Fourth Geneva Convention of 12 August 1949 relative to the Protection of Civilian Persons in Time of War**, Article 34 of the **First Protocol of 08 June 1977 Additional to the Geneva Conventions of 12 August 1949**, **Rule No. 96 of Customary International Humanitarian Law** and **Rules Nos. 113, 115 and 116 of customary law concerning the dead**, the **United Nations International Convention for the Protection of All Persons from Enforced Disappearance of 20 December 2006**, the **Universal Declaration of Human Rights of 10 December 1948**, the **Convention for the Protection of Human Rights and Fundamental Freedoms**, adopted by the Council of Europe on **04 November 1950**, **Protocol No. 1 to the said Convention**, the **International Covenant on Civil and Political Rights of 16 December 1966**, and the **UN Convention against Torture and Other Cruel, Inhuman or...**

Page 148

...Degrading Treatment or Punishment of 10 December 1984**, **Additional Protocol I of 08 June 1977 relating to the Protection of Victims of International Armed Conflicts** to the Geneva Conventions of **12 August 1949**, the **Geneva Convention relative to the Treatment of Prisoners of War of 12 August 1949**, the **Convention on the Prohibition of the Use, Stockpiling, Production and Transfer of Anti-Personnel Mines and on Their Destruction (Ottawa, 03 December 1997)**, the **Protocol on Prohibitions or Restrictions on the Use of Mines, Booby-Traps and Other Devices**, annexed to the Convention of **10 October 1980** on prohibitions or restrictions on the use of certain conventional weapons which may be deemed to be excessively injurious or to have indiscriminate effects, as well as **Protocol No. 4 on the Prohibition of the Use and Transfer of Blinding Laser Weapons**, annexed to the Convention of **10 October 1980** on prohibitions or restrictions on the use of certain conventional weapons which may be deemed to be excessively injurious or

to have indiscriminate effects, the **Council of Europe Convention on the Prevention of Terrorism**, signed in Warsaw on **16 May 2005**, and numerous other international legal norms, with the support of the military-political leadership of the Republic of Armenia, including the Armed Forces and other armed formations, as well as with their direct logistical support, including personnel, their centralized command, oral and written orders, directions and instructions, and under their strict control, members of the criminal organization and its structural subdivision — armed formations equipped with various types of firearms, ammunition, military equipment and other weapons — continued their unlawful activities while remaining in the sovereign territories of the Republic of Azerbaijan — in the **Khojaly, Aghdara, Khankendi, Khojavend and Shusha Districts** — contrary to domestic and international legal norms, under the leadership of such persons as:

Harutyunyan Arayik Vladimiri (Vladimirovich), Babayan Davit Klimi (Klimovich), Mnatsakanyan Leva Genrikhi, Ishkhanyan Davit Rubeni, Sahakyan Bako Saaki, Ghukasyan (Ghukasyan) Arkadi Arshaviri (Arshavirovich), Manukyan Davit Azati, and others;

members of this criminal organization: **Beglaryan Vasili Ivani, Kazaryan Erik Roberti, Stepanyan Gurgen Homeros, Pashayan Melikset Vladimiri, Martirosyan Garik Grigori, Babayan Madat Arakeli, Balayan Levon Romiki, Allahverdyan David Nelsoni,** and others.

They had at their disposal weapons, including: combat armored vehicles of various types — at least **1 T-90S, 71 T-72, 22 BMP-2** and other types, for a total of **160 combat armored vehicles**; automatic weapons — **3,059 AK-74 rifles of 5.45-mm calibre, 393 AK-74N rifles of the same calibre, 167 AKS-74 rifles of the same calibre, 2,110 AK-103 rifles of 7.62-mm calibre, 2,040 AKM rifles of the same calibre, 422 AKMS rifles of the same calibre, 4,257 bayonet-knives**, as well as a total of **16,805,903 items of firearms of various types**, including various types of cartridges, their component parts and ammunition; a total of **230 mortars of various types**; a total of **137 anti-tank weapons of various types**; a total of **162 artillery shells of various types**; a total of **1,419 optical devices of various types**; a total of **1,540 body armour vests**, as well as plates and liners for body armour; a total of **5,320 magazines for various types of automatic weapons**; tripod-mounted radar systems and other types of military-technical equipment; a total of **35,621 rounds of various types of mortar ammunition**; a total of **3,994 items of various types of artillery ammunition**; a total of **9,353 items of various types of explosive substances**; a total of **41,522 hand grenades of various types**; a total of **221 anti-tank guided missiles of various types**; as well as the **Pole-21 radio interference system**, manufactured in 2016 at the Scientific and Technical Center for Radio-Electronic Warfare of the Russian Federation, used to protect important state and Armed Forces facilities against means of aerial attack (*UAVs, etc.*), guided missiles and artillery shells by creating interference with global navigation satellite systems, as well as for diversion from...

Page 149

...the targets of aircraft and other equipment in flight by creating interference in space at specified frequencies using global satellite navigation systems such as **GPS, GLONASS and BeiDou**, as well as the **Repellent-1 electronic warfare system**, which is used for conducting radio-technical reconnaissance, detecting small-sized UAVs and their ground control stations, and jamming their control channels in order to suppress navigation and telemetry signals;

for the purpose of continuing the national hatred and hostility that had developed against Azerbaijanis in Armenian society, continuing the occupation of the sovereign territories of the Republic of Azerbaijan which they had occupied in the course of the aggressive war launched by them against Azerbaijan, keeping the Azerbaijani population in a constant state of fear and panic and preventing by any means their return to the places where they had lawfully resided, securing a decision by the Republic of Azerbaijan to relinquish its sovereign territories in favor of Armenia, and, for this purpose, continuously subjecting the places of residence of the peaceful civilian Azerbaijani population lawfully settled in the sovereign territories of Azerbaijan to fire from various types of weapons, causing explosions and fires in their places of residence, that is, employing methods of warfare capable of causing significant destruction during an armed conflict, intentionally causing large-scale destruction not necessitated by military necessity, attacking unprotected territories, populated localities and demilitarized zones, indiscriminately mining territories with numerous mines and other explosive devices without any military necessity, thereby depriving the Azerbaijani population of freedom of movement, healthy and safe residence and other fundamental rights in the territory of the country of which they are citizens, intentionally killing them with particular cruelty on the basis of national and ethnic hatred and hostility, genocide, terrorism and banditry, as well as in connection with the performance by them of official duties and public duty, and for other numerous criminal purposes, in the territory of the village of **Khalfali, Shusha District**, liberated from occupation on **20 September 2023** as a result of the anti-terrorist operation conducted by the Ministry of Defence of the Republic of Azerbaijan from **19 September 2023 to 20 September 2023**, during the periods in which it was held under occupation, on dates not precisely established by the investigation, acting in a planned manner, by burying numerous anti-tank and anti-personnel mines of a make, model and place of manufacture unknown to the investigation in close proximity to one another and by organizing ambushes, created mined zones for the purposes of the said criminal organization.

At approximately **12:00 on 22 September 2023**, a **CAT D8T bulldozer**, state registration number **90 H 435**, manufactured in 2011 and belonging to **Kolin Construction Tourism Sanayi ve Ticaret Anonim Şirketi**, operating in the city of Shusha, while carrying out restoration works, was caught in the explosion of an anti-personnel mine of unknown date and place of manufacture which they had previously buried in that area. **Ibrahim Görmez Ali**, a citizen of the Republic of Türkiye who was operating the said equipment, sustained bodily injuries including contused wounds to the forehead and nose caused by metal fragments scattered around him, accompanied by bruising beneath the right eye, classified as minor harm to health. As a result of the damage to the aforementioned bulldozer operated by him, **Kolin Construction Tourism Sanayi ve Ticaret Anonim Şirketi** sustained material damage in the amount of **128,651.41 manats**.

In addition, members of the criminal organization (association) whose identities have not been precisely established by the investigation, acting in accordance with the common criminal intent and purpose of the association and of each of its members, in the **Aghdam District and surrounding districts**, which they had occupied on **23 July 1993** as a result of the aggressive war launched against Azerbaijan, on the eve of the liberation of the said village from occupation...

...by the Armed Forces of the Republic of Azerbaijan, namely, during the period from **27 September 2020 to 20 September 2023**, acting in a planned manner, by burying numerous anti-tank and anti-personnel mines of a make, model and place of manufacture unknown to the investigation in close proximity to one another and by organizing ambushes, created mined zones for the purposes of the said criminal organization.

Following the liberation from occupation of the **Aghdam District and the surrounding villages on 20 November 2020** as a result of countermeasures carried out by the Armed Forces of the Republic of Azerbaijan to prevent the large-scale aggressive attacks actively carried out since **27 September 2020**, pursuant to the **Trilateral Statement of 10 November 2020**, **Shadmanov Ekram Yunus oğlu**, chief of staff of Military Unit No. N of the Ministry of Defence — deputy commander of the military unit, holding the military rank of lieutenant colonel; **Seyidov Tural Islam oğlu**, driver of the logistics platoon of the 2nd battalion, an extended-service serviceman holding the military rank of private; **Aliyev Elvin Taleh oğlu**, chief of staff of the 2nd battalion — deputy battalion commander, holding the military rank of major; **Nasibov Yusif Muraz oğlu**, commander of the 3rd platoon of the 9th division of the 3rd battalion, holding the military rank of lieutenant; **Ahadli Murad Elman oğlu**, reconnaissance grenade-launcher operator of the 2nd group of the 4th platoon of the 1st division of the 1st battalion, an extended-service serviceman holding the military rank of private; **Gasimov Nurlan Jeyhun oğlu**, reconnaissance member of the 2nd group of the 3rd platoon of the 1st division of the 1st battalion, an extended-service serviceman holding the military rank of private; **Guliyev Irshad Hafiz oğlu**, reconnaissance member of the 3rd group of the 4th platoon of the 7th division of the 3rd battalion, holding the military rank of private; **Abdunov Babek Jamshid oğlu**, reconnaissance member of the 1st group of the 3rd platoon of the 1st section of the 1st battalion, holding the military rank of private; **Dovlyatov Rakhil Zeki oğlu**, reconnaissance member of the 2nd group of the 1st platoon of the 7th division of the 3rd battalion, holding the military rank of private; **Novruzov Rukhin Aladdin oğlu**, reconnaissance member of the 2nd group of the 1st platoon of the 9th division of the 3rd battalion, holding the military rank of private; **Rzayev Mashgur Masmud oğlu**, reconnaissance member of the 1st group of the 3rd platoon of the 1st section of the 1st battalion, holding the military rank of private; and **Khanjanov Ulvi Parvin oğlu**, reconnaissance member of the 2nd group of the 2nd platoon of the 8th division of the 3rd battalion, holding the military rank of private, at approximately **17:30 on 24 September 2023**, in front of the combat position conditionally designated “**M-7**” in the territory of the village of **Abdal-Gulably, Aghdam District**, located in the direction of the Khojaly District, while delivering supplies to personnel stationed at the positions of Military Unit No. N of the Ministry of Defence in a **KamAZ-4326** vehicle bearing military registration number **K-445-QQ**, in territory liberated from an armed terrorist group during the anti-terrorist operation that began on **19 September 2023**, as a result of the left front wheel of the said vehicle running over one of the anti-tank mines of the types **TM-62, TM-57, TMK-2, TM-72, TM-73 and TM-83**, of unknown date and place of manufacture, which had previously been buried in that area, the **KamAZ-4326 truck** was completely rendered unusable and destroyed, and the servicemen sustained the following bodily injuries:

Shadmanov Ekram Yunus oğlu — contusion of the right half of the brain, the parietal region and forehead, and contusion of both lungs, associated with grievous harm to health and posing a danger to life;

Seyidov Tural Islam oglu — serious life-threatening injuries: contusion and rupture of the heart, both lungs, liver and spleen, as well as numerous other injuries. **Two servicemen died at the scene;**

Aliyev Elvin Taleh oglu — dislocation of the subtalar joint of the left foot, classified as less serious harm to health and resulting in prolonged impairment of health;

Nasibov Yusif Muraz oglu — shrapnel wound to the soft tissues of the right parietal region, resulting in short-term impairment of health and classified as minor harm to health;

Ahadli Murad Elman oglu — abrasions of the left thigh, not causing harm to health;

Gasimov Nurlan Jeyhun oglu — wound to the right parietal region, resulting in short-term impairment of health and classified as minor harm to health;

Guliyev Irshad Hafiz oglu — abrasions of the left knee, not causing harm to health;

Abdunov Babek Jamshid oglu — a contused-scratched wound...

Page 151

...of the lower back, causing no harm to health;

Dovlyatov Rakhil Zeki oglu — injuries to the left elbow joint and left forearm, causing no harm to health;

Novruzov Rukhin Aladdin oglu — abrasions to both lateral surfaces of the chest, causing no harm to health;

Rzayev Mashgur Masmud oglu — abrasions to the dorsal surfaces of both hands, causing no harm to health;

Khanjanov Ulvi Parvin oglu — abrasions to both lateral surfaces of the chest, causing no harm to health, and other injuries.

Since the latter 10 servicemen were provided with timely qualified medical assistance and, during the incident, they were lying on the ground and thus avoided numerous fragments, their lives were saved; that is, the attempt to intentionally kill them was unsuccessful.

In addition, members of the criminal organization whose identities have not been precisely established by the investigation, continuing their actions with the same criminal intentions and objectives, in the area of the **Fuzuli District and the surrounding villages**, which they had occupied on **23 August 1993** as a result of the large-scale aggressive war launched against Azerbaijan, during the period of occupation, acting in a planned manner, by burying numerous anti-tank and anti-personnel mines of a make, model and place of manufacture unknown to the investigation in close proximity to one another and by organizing ambushes, created mined zones for the purposes of the said criminal organization.

Following the liberation from occupation of the village of **Alikhanly, Fuzuli District**, and the surrounding area on **30 October 2020** by the Armed Forces of the Republic of

Azerbaijan, **Agtezelov Sunay Akber oglu**, who served as a rifleman of the 3rd special-purpose subgroup of the 1st special-purpose group of the 3rd special-purpose department of Military Unit No. N of the Internal Troops, holding the military rank of sergeant, at approximately **16:30 on 05 October 2023**, while performing observation duty at the **5th post of Military Unit No. N of the Internal Troops**, located 9 kilometres from the village of Alikhanly and established to prevent peaceful residents from entering mined areas in the vicinity of the villages of **Alikhanly and Shukurbeyli, Fuzuli District**, was caught in an explosion when his right foot came into contact with an anti-personnel mine of unknown make and type, date and place of manufacture, which had previously been buried in that area.

As a result, he sustained a shrapnel wound resulting in the loss of the middle third of the lower leg of the right lower limb, causing permanent loss of more than one-third of his overall working capacity and constituting grievous harm to health. His life was saved owing to timely qualified medical assistance; that is, the attempt to intentionally kill him was unsuccessful.

In addition, members of the criminal organization (association) whose identities have not been precisely established by the investigation, acting in accordance with the common criminal intent and purpose of the association and of each of its members, in the area of the **Fuzuli District and the surrounding villages**, which they had occupied on **23 August 1993** as a result of the large-scale aggressive war launched against Azerbaijan, during the period of occupation, acting in a planned manner, by burying numerous anti-tank and anti-personnel mines of a make, model and place of manufacture unknown to the investigation in close proximity to one another and by organizing ambushes, created mined zones for the purposes of the said criminal organization.

Following the liberation from occupation of the village of **Yukhary Veysalli, Fuzuli District**, and the surrounding territories as a result of countermeasures carried out by the Armed Forces of the Republic of Azerbaijan to prevent the large-scale aggressive attacks actively carried out since **27 September 2020**, **Niftaliyev Elmadin Mammadgadir oglu**, who served as a senior rifleman of the 2nd platoon of the 1st division of the 1st battalion of Military Unit No. N of the Ministry of Defence, holding the military rank of private, at approximately **19:15 on 05 October 2023**, while carrying out observation duty in the adjacent territory in connection with the organization of security for **combat position No. 18**, located in the territory of the village of Yukhary Veysalli, Fuzuli District, was caught in an explosion when his right foot came into contact with an anti-personnel mine of unknown make and type, date and place of manufacture, which had previously been buried in that area by Armenian armed formations, as a result of which he...

Page 152

...sustained injuries including a traumatic rupture of the lower third of the left lower leg, multiple shrapnel wounds to the anterior surface of the upper third of the left lower leg, and foreign bodies (fragments) in the soft tissues, accompanied by traumatic-hemorrhagic shock of the II–III degree. His life was saved owing to timely qualified medical assistance; that is, the attempt to intentionally kill him was unsuccessful.

In addition, members of the criminal organization whose identities have not been precisely established by the investigation, continuing their actions with the same criminal intentions and objectives, in the territory of the village of **Chayli, Tartar District** (*until 13 October*

1992 the village formed part of the Aghdara District; since 05 December 2023 it has again formed part of the same district), which they had occupied in April 1994 as a result of the large-scale aggressive war launched against Azerbaijan, during the period in which it was held under occupation, acting in a planned manner, by burying numerous anti-tank and anti-personnel mines of a make, model and place of manufacture unknown to the investigation in close proximity to one another and by organizing ambushes, created mined zones for the purposes of the said criminal organization.

At approximately **16:00 on 06 October 2023**, civilian and peaceful resident of the village of **Hasanqaya, Tartar District, Hajiyev Yaguar Aligeydar oğlu**, visited that area and, while walking, was intentionally killed in an explosion that occurred as he passed over one of those mines, having sustained life-threatening severe injuries to the heart, lungs and various parts of the body, accompanied by acute blood loss caused by damage to the lungs and heart.

In addition, members of the criminal organization whose identities have not been precisely established by the investigation, continuing their actions with the same criminal intentions and objectives, in the locality known as **Bazirgan**, in the village of **Yanshag, Kalbajar District**, which they had occupied by **03 April 1993** as a result of the large-scale aggressive war launched against Azerbaijan, on the eve of the liberation of the said district from occupation on **25 November 2020** as a result of countermeasures carried out by the Armed Forces of the Republic of Azerbaijan to prevent the large-scale aggressive attacks actively carried out since **27 September 2020**, namely, on dates not precisely established by the investigation during the period from **27 September 2020 to 25 November 2020**, for the purpose of continuing the aggressive war against Azerbaijan while being expelled from those territories, during the period from **27 September 2020 to 20 September 2023**, acting in a planned manner, by burying numerous anti-tank and anti-personnel mines of a make, model and place of manufacture unknown to the investigation in close proximity to one another and by organizing ambushes, created mined zones for the purposes of the said criminal organization.

Following the complete liberation of the said territories from occupation on **25 November 2020**, civilian **Askerov Gasim Sardar oğlu**, a peaceful resident of the village of **Sarkar, Samukh District**, engaged in animal husbandry, visited those territories at approximately **08:00 on 06 October 2023**, riding a horse. During an explosion caused when the horse passed over one of the mines, he sustained bodily injuries including injuries to the left thigh and left lower leg, the severity of which could not be determined. At the time of the explosion, he was approximately **150 centimetres above the ground**, that is, mounted on the horse, and therefore, because the fragments from the explosion were dispersed into the horse's body and the surrounding area, they were unable to intentionally kill him. The horse belonging to him was killed.

In addition, members of the criminal organization whose identities have not been precisely established by the investigation, continuing their actions with the same criminal intentions and objectives, in the territory of the village of **Hasanqaya, Tartar District**, which they had occupied in April 1994 as a result of the aggressive war launched against Azerbaijan (*until 13 October 1992 the village formed part of the Aghdara District; since 05 December 2023 it has again formed part of the same district*), on dates not precisely established by the investigation, acting in a planned manner, by burying in close proximity to one another...

...numerous anti-tank and anti-personnel mines of a make, model and place of manufacture unknown to the investigation in close proximity to one another and, by organizing ambushes, created mined zones for the purposes of the said criminal organization.

Following the complete liberation of the said territory from occupation on **09 October 2020**, at approximately **19:00 on 06 October 2023**, **Hasanov Zamedin Kalandar oğlu**, a civilian and peaceful resident of the village of **Hasanqaya, Tartar District**, while walking through the said territory, was caught in an explosion after passing over one of those mines and sustained traumatic amputation of both lower limbs and severe injuries to various parts of the body posing a danger to life. His life was nevertheless saved after his relatives took him to hospital and qualified medical assistance was provided in a timely manner.

In addition, members of the criminal organization (association) whose identities have not been precisely established by the investigation, acting in accordance with the common criminal intent and purpose of the association and of each of its members, in the territory of the **Khojavend District and the surrounding villages**, which they had occupied on **02 October 1992** as a result of the aggressive war launched against Azerbaijan, near the **Boyuk Oglu elevation** in the Khojavend District, in the territory of the village of **Kuropatkino**, in an area known as the **Kharamy Plain**, which was used by the Azerbaijani civilian population as pasture, during the period in which the said territories were held under occupation, acting in a planned manner, by burying numerous anti-tank and anti-personnel mines of a make, model and place of manufacture unknown to the investigation in close proximity to one another and by organizing ambushes, created mined zones for the purposes of the said criminal organization.

Following the liberation of the said territory from occupation as a result of countermeasures carried out by the Armed Forces of the Republic of Azerbaijan to prevent the large-scale aggressive attacks actively carried out since **27 September 2020**, at approximately **05:00 on 13 October 2023**, while returning from that area, **Abilov Famil Ilyas oğlu**, a civilian and peaceful resident of the village of **Birindji Shahsevan, Beylagan District**, driving a **GAZ-3302** truck bearing state registration number **59-BF-094**, was caught in an explosion caused when the vehicle drove over one of those anti-tank mines. He sustained bodily injuries including traumatic amputation of the lower third of the left lower leg and severe injuries to various parts of the body posing a danger to life, and was intentionally killed at the scene as a result of severe traumatic shock and acute blood loss. His vehicle was completely destroyed and rendered unusable.

At the same time, his nephew **Bayramov Namaz Nabadi oğlu**, a peaceful resident of the village of **Ikindji Shahsevan, Beylagan District**, who was following **Famil Abilov** along the same road in his own **Mercedes-Benz Atego** truck bearing state registration number **99-EU-321**, drove over another anti-tank mine. His vehicle was rendered unusable and destroyed by the explosion, while he himself sustained serious injuries to various parts of the body posing a danger to life. His life was saved owing to the timely transportation to hospital by his relatives, including **Guliyev Khayal Kamil oğlu**, and the timely provision of qualified medical assistance.

In addition, members of the criminal organization whose identities have not been precisely established by the investigation, acting in accordance with the common criminal intent and purpose of the association and of each of its members, in the area of the village of **Sugovushan, Tartar District** (*until 13 October 1992 the village formed part of the*

*Aghdara District; since 05 December 2023 it has again formed part of the same district), which they had completely occupied in April 1994, during the period in which it was held under occupation, acting in a planned manner, by burying numerous anti-tank and anti-personnel mines of a make, model and place of manufacture unknown to the investigation in close proximity to one another and by organizing ambushes, created mined zones for the purposes of the said criminal organization. On the eve of the liberation of the said village from occupation on **03 October 2020** as a result of countermeasures carried out...*

Page 154

...by the Armed Forces of the Republic of Azerbaijan to prevent the large-scale aggressive attacks actively carried out since **27 September 2020**, namely, on dates not precisely established by the investigation during the period from **27 September 2020 to 20 September 2023**, for the purpose of continuing the aggressive war against Azerbaijan while being expelled from those territories, acting in a planned manner, by burying numerous anti-tank and anti-personnel mines of a make, model and place of manufacture unknown to the investigation in close proximity to one another and by organizing ambushes, created mined zones for the purposes of the said criminal organization.

Following the liberation of that territory on **03 October 2020**, **Azimov Ayaz Yusif oglu**, a civilian and peaceful resident of the village of **Uzuntepe, Jalilabad District**, together with **Nuraliyev Elchin Khanbala oglu**, a resident of the village of **Tazakend** in the same district, while the latter was carrying out ploughing after sowing, at approximately **07:00 on 26 October 2023**, during an explosion caused when a **Clas-820** tractor bearing state registration number **15-BA-027**, driven by the latter, passed over one of those mines, **Nuraliyev Elchin Khanbala oglu** sustained bodily injuries in the form of amputation of the lower third of the right arm and severe injuries to various parts of the body posing a danger to life. He was nevertheless taken to hospital by **Azimov Ayaz Yusif oglu**, who was beside him at the time of the incident and sustained multiple abrasions to various parts of the body that caused no harm to his health, and his life was saved through timely qualified medical assistance.

In addition, members of the criminal organization (association) whose identities have not been precisely established by the investigation, acting in accordance with the common criminal intent and purpose of the association and of each of its members, in the fields of the village of **Borsunlu, Tartar District**, on the border with the village of **Talysh**, which had been completely occupied in April 1994 as a result of the aggressive war launched against Azerbaijan, during the period in which they held the territory under occupation, acting in a planned manner, by burying numerous anti-tank and anti-personnel mines of a make, model and place of manufacture unknown to the investigation in close proximity to one another and by organizing ambushes, created mined zones for the purposes of the said criminal organization.

Following the liberation of the said territory from occupation on **09 October 2020**, at approximately **02:00 on 03 November 2023**, **Agalarov Ali Alibaba oglu**, a private entrepreneur engaged in animal husbandry who visited the said locality, was caught in an explosion after passing over one of those mines and sustained bodily injuries in the form of amputation of the lower third of the right lower leg and severe injuries to various parts of the body posing a danger to life. His life was saved after fellow villagers transported him to hospital and qualified medical assistance was provided in a timely manner.

In addition, members of the criminal organization (association) whose identities have not been precisely established by the investigation, acting in accordance with the common criminal intent and purpose of the association and of each of its members, in the area of the village of **Tepekend, Tartar District** (*until 13 October 1992 the village formed part of the Aghdara District; since 05 December 2023 it has again formed part of the same district*), which they had occupied from **07 July 1993 until April 1994**, on the eve of its liberation from occupation on **20 September 2023** as a result of countermeasures carried out by the Armed Forces of the Republic of Azerbaijan to prevent the large-scale aggressive attacks actively carried out since **27 September 2020**, namely, during the period from **27 September 2020 to 20 September 2023**, the date of liberation, for the purpose of continuing the aggressive war against Azerbaijan while being expelled from those territories, acting in a planned manner, by burying numerous anti-tank and anti-personnel mines of a make, model and place of manufacture unknown to the investigation in close proximity to one another and by organizing ambushes, created mined zones for the purposes of the said criminal organization.

At approximately **11:00 on 05 November 2023**, following the liberation of that district from occupation on **20 September 2023**, **Huseynov Asif...**

Page 155

...**Novruz oglu**, a peaceful resident of the village of **Seydimli, Tartar District**, while visiting that district, sustained a life-threatening traumatic amputation of the upper third of the right lower leg in an explosion that occurred when he stepped on one of these mines while walking. His life was saved owing to his timely transportation to hospital by his children and the timely provision of qualified medical assistance.

In addition, members of the criminal organization (association) whose identities have not been precisely established by the investigation, acting in accordance with the common criminal intent and purpose of the association and of each of its members, in the territory of the village of **Saryjaly, Aghdam District**, which they had occupied on **23 July 1993** as a result of the aggressive war launched against Azerbaijan, during the period in which they held it under occupation, on dates not precisely established by the investigation, acting in a planned manner, by burying numerous anti-tank and anti-personnel mines of a make, model and place of manufacture unknown to the investigation in close proximity to one another and by organizing ambushes, created mined zones for the purposes of the said criminal organization.

Following the liberation of the said territory from occupation on **20 November 2020**, at approximately **12:00 on 05 December 2023**, **Akperov Vagif Sabir oglu**, a mine detector of the 2nd detachment of the 2nd group of the 3rd section of the Mine Action Agency of the Republic of Azerbaijan, who was carrying out demining work in connection with the performance of his official duties, having worked for a prolonged period in a bent position, felt numbness in his legs and, when attempting to stand up and stretch, lost his balance, stepped backward with his right foot and touched one of these mines. As a result of the explosion of a **PMN-type blast anti-personnel mine**, he sustained a serious bodily injury posing a danger to life — traumatic amputation of the upper third of the right lower leg. His colleagues and medical personnel, who heard the explosion and came to his assistance, provided first aid at the scene and, without delay, transported him to hospital; owing to timely qualified medical assistance, his life was saved.

In addition, members of the criminal organization (association) whose identities have not been precisely established by the investigation, acting in accordance with the common criminal intent and purpose of the association and of each of its members, in the village of **Kyurdlar, Fuzuli District**, which they had occupied on **23 August 1993** as a result of the large-scale aggressive war launched against Azerbaijan, during the period of occupation, acting in a planned manner, by burying numerous anti-tank and anti-personnel mines of a make, model and place of manufacture unknown to the investigation in close proximity to one another and by organizing ambushes, created mined zones for the purposes of the said criminal organization.

Following the liberation of that district on **17 October 2020**, **Gatamli Zamin Zakhir oglu**, on a section of the **Horadiz–Hadrut road** passing through the village of Kyurdlar, Fuzuli District, while operating a **New Holland TD 5.110 tractor**, state registration number **30-AB-320, which belongs to the Imishli Service Center of the Ganja Automobile Plant Production Association and is operated under a lease agreement for sowing grain on roadside areas cleared of mines by the Mine Action Agency of the Republic of Azerbaijan**, at approximately **11:00 on 07 December 2023**, while carrying out soil-cultivation works at the geographic coordinates **39°28'51.00" N, 47°13'22.93" E**, as a result of the explosion of an anti-tank mine when the tractor moved toward an area that had not been cleared of mines and drove over one of them, sustained bodily injuries, namely: a wound to the inner ankle of the left lower leg, resulting in minor impairment of health; a wound to the posterior surface of the elbow joint accompanied by damage to the left ulnar nerve; and displaced, multiple comminuted open fractures of the left calcaneus. His colleagues, who heard the sound of the explosion, immediately transported him to hospital, where his life was saved owing to timely qualified medical assistance.

In addition, members of the criminal organization (association) whose identities were not precisely established during the investigation, acting in accordance with the common...

Page 156

...criminal intent and purpose of the association and of each of its members, on the eve of the complete liberation by the Armed Forces of the Republic of Azerbaijan on **09 November 2020** of the city of **Shusha**, which they had occupied on **08 May 1992** as a result of the aggressive war launched by them against Azerbaijan, namely, during the period from **27 September 2020 to 09 November 2020**, while leaving the said territories for the purpose of continuing aggressive activities against Azerbaijan, on dates unknown to the investigation, arranged ambushes by burying numerous anti-tank and anti-personnel mines of a make, model and place of manufacture unknown to the investigation in close proximity to one another, thereby creating large mined territories for the purposes of the criminal organization, where, following the complete liberation of these territories from occupation on **20 September 2023**, **Khabibov Rahim Shirmammad oglu**, head of the Engineering Geodesy Department of **Azerbaijan Scientific Research and Design-Survey Energy Institute LLC**, in connection with the performance of his official duties, at **12:00 on 07 December 2023**, while inspecting the territory for the purpose of planning the construction of the **110 kV Shusha–Khankendi overhead power transmission line** near the workshop producing **“Tar” musical instruments**, located on the northern outskirts of the city of Shusha, while proceeding on foot, stepped on one of these mines and, as a result of the explosion, sustained a **complete post-traumatic adhesion of the upper third of the right lower leg** and serious injuries to various parts of the body posing a danger to life.

Nevertheless, owing to his immediate hospitalization by his colleagues, timely qualified medical assistance was provided and his life was saved.

In addition, members of the criminal organization (association) whose identities were not precisely established during the investigation, acting in accordance with the common criminal intent and purpose of the association and of each of its members, during the occupation of the village of **Saryjaly, Aghdam District**, from **23 July 1993** until its complete liberation, acting in a planned manner, arranged ambushes by burying numerous anti-tank and anti-personnel mines of a make, model and place of manufacture unknown to the investigation in close proximity to one another, thereby creating large mined territories for the purposes of the criminal organization, where, following the complete liberation of the said territory from occupation on **20 November 2020**, at approximately **13:00 on 26 December**

2023, Makhmudov Zaur Eldar oglu, a specialist of the blasting group of the Mine Action Agency of the Republic of Azerbaijan, who performed duties relating to the neutralization of mines, after neutralizing a large number of anti-personnel mines and completing the task assigned to him, while moving outside the designated area stepped on one of these mines, namely, a **PMN-E-type anti-personnel mine**. As a result of the explosion, he sustained multiple injuries in the form of an open comminuted displaced fracture of the bones of the left metatarsus (arch of the foot), swelling of the lower third of the left lower leg, infiltrated shrapnel wounds to the lower third of the calf and the heel area, the ankle joint and the sole of the left foot, as well as bilateral sensorineural hearing impairment, which were classified as causing less serious harm to health. He was taken to hospital by his colleagues, who heard the sound of the explosion and came to his assistance, and owing to timely qualified medical assistance, his life was saved.

In addition, members of the criminal organization (association) whose identities were not precisely established during the investigation, acting in accordance with the common criminal intent and purpose of the association and of each of its members, in the territory known as “**Nargiz Tepe**” in the **Aghdam District**, bordering the villages of **Muganly and Kuropatkino, Khojavend District**, which had been under occupation since **02 October 1992**, until their complete liberation, acting in a planned manner, arranged ambushes by burying numerous anti-tank and anti-personnel mines of a make, model and place of manufacture unknown to the investigation in close proximity to one another, thereby creating large mined territories for the purposes of the criminal organization, where, following...

Page 157

...the complete liberation of these territories from occupation on **20 September 2023**, where, at approximately **12:00 on 24 January 2024**, **Abishov Faig Seyyab oglu**, a resident of the village of **Kyurdlar, Aghjabadi District**, while passing by former combat positions abandoned by Armenian servicemen, stepped on an anti-personnel mine and, as a result of the explosion, sustained life-threatening injuries in the form of open fractures of the bones of the left lower leg, traumatic amputation of the 1st and 2nd toes of the left foot, and other bodily injuries classified as grievous harm to health. He was transported by vehicle to hospital with the assistance of his relative **Sultanov Anar Ali oglu**, who witnessed the incident, and his life was saved owing to timely qualified medical assistance.

In addition, members of the criminal organization (association) whose identities were not precisely established during the investigation, acting in accordance with the common criminal intent and purpose of the association and of each of its members, during the occupation of an

extensive territory in the village of **Kyzyloba**, in the direction of the village of **Chilebyurt, Aghdara District**, from April 1994 until its complete liberation (*the village formed part of the Tartar District from 13 October 1992 to 05 December 2023, and since 05 December 2023 has again formed part of the Aghdara District*), acting in a planned manner, arranged ambushes by burying numerous anti-tank and anti-personnel mines of a make, model and place of manufacture unknown to the investigation in close proximity to one another, thereby creating large mined territories for the purposes of the criminal organization. Following the complete liberation of the said area from occupation on **09 October 2020**, at approximately **11:00 on 04 February 2024**, **Aliyev Hasanali Shahin oglu**, a peaceful resident of the city of **Tartar** who visited the said area, while moving on foot stepped on one of these anti-personnel mines and, as a result of the explosion, sustained life-threatening injuries in the form of traumatic amputation of the lower third of the left lower leg and multiple shrapnel wounds to the right leg, classified as grievous harm to health. After his father was promptly informed, he was immediately transported to hospital, where his life was saved owing to timely qualified medical assistance.

In addition, members of the criminal organization (association) whose identities were not precisely established during the investigation, acting in accordance with the common criminal intent and purpose of the association and of each of its members, during the occupation of an extensive territory in the village of **Goyarkh**, in the direction of the village of **Chilebyurt, Aghdara District**, from April 1994 until its complete liberation (*the village formed part of the Tartar District from 13 October 1992 to 05 December 2023, and since 05 December 2023 has again formed part of the Aghdara District*), acting in a planned manner, arranged ambushes by burying numerous anti-tank and anti-personnel mines of a make, model and place of manufacture unknown to the investigation in close proximity to one another, thereby creating large mined territories for the purposes of the criminal organization. Following the complete liberation of the said area from occupation on **09 October 2020**, at approximately **11:00 on 05 February 2024**, **Mammadov Azer Ahmed oglu**, a peaceful resident of the city of **Tartar** who visited the said area, while moving on foot stepped on one of these anti-personnel mines and, as a result of the explosion, sustained life-threatening injuries in the form of traumatic amputation of the left lower leg, classified as grievous harm to health. His life was saved owing to timely qualified medical assistance.

In addition, members of the criminal organization (association) whose identities were not precisely established during the investigation, acting in accordance with the common criminal intent and purpose of the association and of each of its members, in the village of **Seyidli, Aghdam District**, which had been under occupation from **23 July 1993** until its complete liberation, acting in a planned manner, arranged ambushes by burying numerous anti-tank and anti-personnel mines of a make, model and place of manufacture unknown to the investigation in close proximity to one another, thereby creating large mined territories for the purposes of the criminal organization, where, following...

Page 158

...the complete liberation of these territories from occupation on **20 September 2023**, at approximately **11:00 on 03 March 2024**, **Abbasov Bakhtiyar Yagub oglu**, a peaceful resident of the village of **Ahmedagaly, Aghdam District**, who visited the said village, while walking along a trench abandoned by Armenian servicemen, stepped on an anti-personnel mine and, as a result of the explosion, sustained life-threatening injuries in the form of traumatic amputation of the middle third of the right thigh and the middle third of the left

lower leg, as well as other bodily injuries classified as grievous harm to health. He was transported by vehicle to hospital with the assistance of his acquaintance **Bayramov Namig Nemat oğlu**, who witnessed the incident, and his life was saved owing to timely qualified medical assistance.

In addition, members of the criminal organization (association) whose identities were not precisely established during the investigation, acting in accordance with the common criminal intent and purpose of the association and of each of its members, during the occupation of the village of **Saryjaly, Aghdam District**, from **23 July 1993** until its complete liberation, acting in a planned manner, arranged ambushes by burying numerous anti-tank and anti-personnel mines of a make, model and place of manufacture unknown to the investigation in close proximity to one another, thereby creating large mined territories for the purposes of the criminal organization. Following the complete liberation of these territories from occupation on **20 November 2020**, at approximately **10:00 on 02 April 2024**, **Aliyev Khayyam Gambar oğlu**, an operator of special equipment of the Mechanized Equipment Detachment of the **Mine Action Agency of the Republic of Azerbaijan**, in the course of performing his official duties, namely, while excavating the terrain with a **Lugoing armored excavator**, state registration number **10-AC-827**, which he was operating, drove over one of the anti-tank mines. As a result of the explosion, the front windshields of the armored excavator belonging to the Mine Action Agency of the Republic of Azerbaijan were shattered and the metal track on the left side was torn. Owing to the ricochet of fragments generated by the mine explosion from the metal parts of the excavator, they were unable to intentionally kill **Aliyev Khayyam Gambar oğlu**.

In addition, members of the criminal organization (association) whose identities were not precisely established during the investigation, acting in accordance with the common criminal intent and purpose of the association and of each of its members, during the occupation of an extensive territory in the village of **Chayli**, in the direction of the village of **Sugovushan, Aghdara District**, from April 1994 until its complete liberation (*the village formed part of the Tartar District from 13 October 1992 to 05 December 2023, and since 05 December 2023 has again formed part of the Aghdara District*), acting in a planned manner, arranged ambushes by burying numerous anti-tank and anti-personnel mines of a make, model and place of manufacture unknown to the investigation in close proximity to one another, thereby creating large mined territories for the purposes of the criminal organization. Following the complete liberation of the said area from occupation on **09 October 2020**, on **02 April 2024 at approximately 15:00 in the morning**, peaceful residents of the city of **Tartar**, **Ismailov Polad Alysh oğlu**, **Tagizade Arzuman Akhliman oğlu** and **Bagirov Elmin Elnur oğlu**, visited the said area. While they were moving on foot, the latter stepped on one of these anti-personnel mines.

As a result of the explosion, **Bagirov Elmin Elnur oğlu** sustained life-threatening injuries in the form of traumatic amputation of the lower third of the right thigh and the upper third of the left lower leg, as well as other injuries classified as grievous harm to health.

Tagizade Arzuman Akhliman oğlu sustained life-threatening injuries in the form of an open fracture of the bone of the right forearm, blast injury and multiple shrapnel wounds to the torso, classified as grievous harm to health.

Ismailov Polad Alysh oğlu, who was relatively far from the epicenter of the explosion, sustained injuries in the form of superficial shrapnel wounds to the crown of the head, the

supraorbital region of the right half of the forehead, the right lateral surface of the root of the nose, the right nostril, the right cheekbone, the right temple, the entire...

Page 159

chest and the surface of the abdomen; abrasions to the anterior surface of the left forearm and the middle third of the right forearm; and a severe contusion of the right eye, which are classified as causing minor harm to health. Persons who were carrying out repair and restoration work in the territories liberated from occupation arrived at the scene and informed the police and ambulance service of the incident, after which they were immediately hospitalized, and his life was saved owing to timely qualified medical assistance.

In addition, members of the criminal organization (association) whose identities were not precisely established during the investigation, acting in accordance with the common criminal intent and purpose of the association and of each of its members, during the period of occupation of the village of **Saryjaly, Aghdam District**, from **23 July 1993** until its complete liberation, acting in a planned manner, arranged ambushes by burying numerous anti-tank and anti-personnel mines of a make, model and place of manufacture unknown to the investigation in close proximity to one another, thereby creating extensive mined territories for the purposes of the criminal organization, as well as territories contaminated with mine detonators and other explosive devices capable of exploding and causing harm to human health.

Following the complete liberation of these territories from occupation on **20 November 2020**, at approximately **09:00 on 06 April 2024**, **Piriyev Anar Murshid oğlu**, commander of the 5th section of the 2nd demining group of the Mine Action Agency of the Republic of Azerbaijan, while performing his duties relating to the neutralization of mines, after neutralizing a large number of anti-personnel mines and completing the task assigned to him, bent down and picked up from the ground a mine detonator which he considered to be a foreign object and did not believe could explode; however, the said object detonated. As a result, **Piriyev Anar** sustained injuries in the form of a contused wound to the proximal phalanx of the 1st finger of the right hand and the surface of the palm, the proximal phalanx of the 1st finger of the left hand and the surface of the palm, the proximal phalanx of the 2nd finger of the left hand, and multiple abrasions to the right knee joint and the upper and middle thirds of the right lower leg, which are classified as causing no harm to health.

In addition, members of the criminal organization (association) whose identities were not precisely established during the investigation, acting in accordance with the common criminal intent and purpose of the association and of each of its members, during the occupation of an extensive territory in the village of **Syrkhavend, Aghdara District**, from **12 March 1992** (*the village formed part of the Tartar District from 13 October 1992 to 05 December 2023, and since 05 December 2023 has again formed part of the Aghdara District*) until its complete liberation on **20 September 2023** as a result of countermeasures undertaken by the Armed Forces of the Republic of Azerbaijan against the large-scale aggressive offensive actions launched from **27 September 2020**, namely, during the period from **27 September 2020 until their complete abandonment of the occupied territories on 20 September 2023**, acting in a planned manner, arranged ambushes by burying numerous anti-tank and anti-personnel mines of a make, model and place of manufacture unknown to the investigation in close proximity to one another, thereby creating extensive mined territories for the purposes of the criminal organization.

Following the complete liberation from occupation on **20 September 2023**, at approximately **12:00 on 12 April 2024**, peaceful residents of the Aghdam District **Teymurov Khagani Allahverdi oglu** and **Bagirov Mirfattakh Bagir oglu** visited the said area. While they were walking approximately **50–60 metres from the pasture**, **Bagirov Mirfattakh Bagir oglu** stepped on one of those anti-personnel mines and, as a result of the explosion, sustained life-threatening injuries in the form of traumatic amputation of the lower third of the left thigh. Having heard the explosion, **Teymurov Khagani Allahverdi oglu** rushed to assist him, but also stepped on another of the buried mines and, as a result of the explosion, sustained life-threatening injuries in the form of traumatic amputation of the lower third of the left thigh. They then reported the incident by mobile telephone, and employees of the **Mine Action Agency of the Republic of Azerbaijan...**

Page 160

...the police and ambulance service arrived at the scene, after which they were immediately hospitalized, and their lives were saved owing to timely qualified medical assistance.

The military and political leadership of the **Republic of Armenia**, including the armed forces and other illegal armed formations, as well as unidentified members of the criminal organization unlawfully operating in the territory of the Republic of Azerbaijan and armed groups equipped with various types of firearms, ammunition, military equipment and other weapons, constituting its structural organization, acting unlawfully in violation of domestic legislation and international legal norms, directly supported materially, technically and with personnel, under centralized leadership, pursuant to oral and written orders, directives and instructions, and under their strict control, as a result of the large-scale aggressive war launched against Azerbaijan in violation of international law, for the purpose of implementing the criminal plan encompassed by the common criminal intent of each member of the criminal organization, along the line of contact created in the sovereign territories of the Republic of Azerbaijan which they had occupied in **1987–1994**, as well as as a result of the countermeasures carried out by the Armed Forces of the Republic of Azerbaijan beginning on **27 September 2020**, and also for the purpose of preventing and making impossible the return of the peaceful Azerbaijani population and servicemen to that area by destroying Azerbaijani civilians and servicemen who had left the territories liberated from occupation as a result of the local anti-terrorist operations of **19–20 September 2023**, as well as for the purpose of creating fear among the population by carrying out explosions and causing panic, continuing military aggression by returning those territories under occupation, and for other criminal purposes, in gross violation of the requirements of the **United Nations Convention of 10 October 1980 on Prohibitions or Restrictions on the Use of Certain Conventional Weapons Which May Be Deemed to Be Excessively Injurious or to Have Indiscriminate Effects, Additional Protocols Nos. I, II and III** to that Convention, Article 6 of the **International Covenant on Civil and Political Rights of the United Nations General Assembly of 16 December 1966**, ratified on **07 June 1993**, which provides that “No one shall be arbitrarily deprived of his life,” Article 3 of the **Geneva Convention of 12 August 1949 relative to the Protection of Civilian Persons in Time of War**, which provides that “violence to life and health, in particular all forms of killing and the infliction of bodily injuries upon persons taking no direct part in hostilities, are and shall remain prohibited at any time and in any place,” Article 51 of **Additional Protocol I of 08 June 1977 relating to the Protection of Victims of International Armed Conflicts** to the Geneva Conventions of 12 August 1949, which provides that “neither the civilian population nor individual civilians shall be the object of attack,” the **Convention**

on the Prohibition of the Use, Stockpiling, Production and Transfer of Anti-Personnel Mines and on Their Destruction of 03 December 1997, and the Protocol on Prohibitions or Restrictions on the Use of Mines, Booby-Traps and Other Devices annexed to the Convention of 10 October 1980 on prohibitions or restrictions on the use of certain conventional weapons which may be deemed to be excessively injurious or to have indiscriminate effects, regularly, on dates not precisely established by the investigation, acting in a planned manner, arranged ambushes by burying in the territories of the **Aghdam, Jabrayil, Fuzuli, Aghdara, Goranboy, Kalbajar, Lachin, Qubadli, Khojavend, Zangilan, Tartar, Tovuz and Dashkasan Districts**, and the cities of **Shusha, Khojaly and Khankendi**, numerous anti-tank and anti-personnel mines, including Armenian-manufactured anti-personnel mines of the types **“PMN-E”, “PMN G001-M”, “E-001M”, “PMN-G” and “PMN-2”, “TM-62M”, “TM-62P2”, “TM-...**

Page 161

...TM-57 and TM-62P mines of Russian manufacture, as well as mines of a make, model and place of manufacture unknown to the investigation, in close proximity to one another, thereby creating extensive mined territories for the purposes of the criminal organization; and, at the state level, the Republic of Armenia refused to provide the Republic of Azerbaijan with information and documents concerning the mined territories.

Following the Statement of the **President of the Republic of Azerbaijan, the Prime Minister of the Republic of Armenia and the President of the Russian Federation of 10 November 2020**, civilians and servicemen of the Republic of Azerbaijan who visited the territories liberated from occupation up to **20 April 2024** were involved in explosions of buried mines, as a result of which **271 persons** — including **155 servicemen of the Republic of Azerbaijan and 116 civilians** — sustained injuries of varying severity, and **65 persons were killed**, including **17 servicemen and 48 civilians**.

At the same time, following the Trilateral Statement of **10 November 2020**, by **22 April 2024**, in the territories liberated from occupation, the **Ministry of Defence of the Republic of Azerbaijan, the Azerbaijan National Agency for Mine Action (ANAMA), the Ministry of Emergency Situations, the State Border Service**, as well as the demining companies **Alphademining, Azerbaijan Demining, Gaya Safety Solutions and Safe Point**, had detected and neutralized:

in the territory of the **Aghdam District** — **9,222 anti-personnel mines, 6,112 anti-tank mines and 10,053 unexploded ordnance items** belonging to the Armed Forces of the Republic of Armenia;

in the territory of the **Aghjabadi District** — **4 anti-personnel mines, 38 anti-tank mines and 932 unexploded ordnance items** belonging to the Armed Forces of the Republic of Armenia;

in the territory of the **Jabrayil District** — **4,887 anti-personnel weapons, 2,856 anti-tank mines and 10,259 unexploded ordnance items** belonging to the Armed Forces of the Republic of Armenia;

in the territory of the **Fuzuli District** — **8,911 anti-personnel mines, 5,723 anti-tank mines and 21,234 unexploded ordnance items** belonging to the Armed Forces of the Republic of Armenia;

in the territory of the **Qubadli District** — **835 anti-personnel mines, 1,504 anti-tank mines and 1,304 unexploded ordnance items** belonging to the Armed Forces of the Republic of Armenia;

in the territory of the **Tartar District** — **2,409 anti-personnel mines, 1,507 anti-tank mines and 2,525 unexploded ordnance items** belonging to the Armed Forces of the Republic of Armenia;

in the territory of the **Khankendi District** — **4,859 anti-personnel mines, 112 anti-tank mines and 172 unexploded ordnance items** belonging to the Armed Forces of the Republic of Armenia;

in the territory of the **Khojaly District** — **72 anti-personnel mines, 1 anti-tank mine and 1,886 unexploded ordnance items** belonging to the Armed Forces of the Republic of Armenia;

in the territory of the **Khojavend District** — **77 anti-personnel mines, 196 anti-tank mines and 7,528 unexploded ordnance items** belonging to the Armed Forces of the Republic of Armenia;

in the territory of the **Zangilan District** — **925 anti-personnel munitions, 510 anti-tank mines and 1,161 unexploded ordnance items**;

in the territory of the **Tovuz District** — **2 anti-personnel mines**;

in the territory of the **Kalbajar District** — **50 blast-type anti-personnel mines manufactured in Armenia in 2018, 312 blast-type anti-personnel mines manufactured in Armenia in 2019, 740 blast-type anti-personnel mines manufactured in Armenia in 2021**, for a total of **1,434 PMN-2 and PMN-E blast-type anti-personnel mines, 322 TM-57, TM-62P2 and TM-62M anti-tank mines of Russian manufacture (date of manufacture unknown)**, and **2,131 unexploded ordnance items**;

in the territory of...

Page 162

...the **Lachin District** — **2,113 PMN-2 and PMN-E blast-type anti-personnel mines (1 manufactured in the Republic of Armenia in 2012; 2,021 units manufactured in the Republic of Armenia in 2021), 43 TM-62P2 and TM-62M anti-tank mines of Russian manufacture (date of manufacture unknown), and 162 unexploded ordnance items**;

in the territory of the **Shusha District** — **116 PMN-E blast-type anti-personnel mines (20 of them manufactured in the Republic of Armenia in 2021), 13 TM-62P2 anti-tank mines of Russian manufacture (date of manufacture unknown), and 2,445 unexploded ordnance items**;

in the territory of the **Dashkasan District** — **613 PMN-2 and PMN-E blast-type anti-personnel mines** (613 manufactured in the Republic of Armenia in 2016; 5 units manufactured in the Republic of Armenia, date of manufacture unknown), **796 OZM-72E anti-personnel mines of Russian manufacture** (date of manufacture unknown), including **4 TM-62M anti-tank mines** (date of manufacture unknown);

for a total of **31,964 anti-personnel mines, 19,110 anti-tank mines and 67,204 unexploded ordnance items**.

Thus, the military and political leadership of the **Republic of Armenia**, including the armed forces and other illegal armed formations, as well as unidentified members of the criminal organization unlawfully operating in the territory of the Republic of Azerbaijan, and armed groups equipped with various types of firearms, ammunition, military equipment and other weapons and constituting its structural organization, acting unlawfully in violation of domestic legislation and international legal norms, directly supported with materiel, equipment and personnel, under centralized leadership, pursuant to oral and written orders, directives and instructions, and under their strict control, as a result of the large-scale aggressive war launched against Azerbaijan in violation of international law and for the purpose of implementing the criminal plan encompassed by the common criminal intent of each member of the criminal organization, by their actions in the course of the aggressive war **contaminated 1,166,702 hectares (11,667,020,000 sq. m) of the sovereign territory of the Republic of Azerbaijan**, which they had occupied and kept under their control from **September 1988 to 20 September 2024**, by burying or leaving at least **1,087,226 anti-tank and anti-personnel mines, as well as other unexploded ordnance**, thereby causing the Republic of Azerbaijan damage totaling at least **26,603,033,593 manats**, of which **25,189,096,180 manats** were required for the restoration of movement and at least **1,413,937,413 manats** for clearing those territories of ordnance.

In addition, members of the criminal organization and its structural subdivision whose identities are unknown to the investigation, continuing to commit criminal acts in accordance with the common criminal intentions and objectives of the criminal organization, hid in one of the houses in the territory of the village of **Shahyeri, Khojavend District**, which had been liberated from occupation by the Republic of Armenia on **09 November 2020**.

At approximately **14:00 on 08 December 2020**, warrant officers **Azizov Ragib Vidadi oglu** and **Guliyev Elchin Ziyadkhan oglu** of Military Unit No. N of the Ministry of Defence deployed in that area, who were performing their duties to protect the territorial integrity of the Republic of Azerbaijan and public security, entered the courtyard of a house located in the center of the village, where an ambush had been arranged. They were fired upon with numerous shots from **5.45-mm and 7.62-mm automatic weapons**.

As a result, they intentionally killed **Ragib Azizov** by inflicting injuries in the form of a gunshot wound to the brain with diffuse crushing, accompanied by multiple open fractures of the skull bones, classified as grievous bodily harm. They were unable to intentionally kill **Elchin Guliyev**, because after the death of Ragib Azizov he managed to take cover in time and, using his mobile telephone, called his fellow servicemen for assistance; additional forces were then deployed to the area, and therefore they fled.

In addition, members of the criminal organization and its structural subdivision whose identities are unknown to the investigation, continuing to commit criminal acts in accordance with the common criminal intentions and objectives of the criminal organization, hid at a position located near the height known as **Ziyarettiyakh** in the **Jabrayil District of the Republic of Azerbaijan**. At approximately **01:00 on 12 December 2020**, the Armed Forces of the Republic of Armenia opened intensive fire from those positions using firearms of a make and model unknown to the investigation. As a result, **Huseynov Azer Makhal oğlu**, a junior sergeant of Military Unit No. N of the Ministry of Defence deployed in that area, who was performing his duties to protect the territorial integrity of the Republic of Azerbaijan and public security, sustained grievous bodily injuries dangerous to health in the form of gunshot wounds to the organs of the thoracic and abdominal cavities, accompanied by massive internal blood loss.

Another serviceman, **Abbasov Avaz Mayis oğlu**, sustained severe life-threatening injuries accompanied by acute convulsions caused by gunshot wounds to the chest. Both servicemen died at the scene from the injuries sustained.

Another serviceman who served at the same height, **Javadov Khayyam Zafar oğlu**, sustained grievous bodily injuries dangerous to health in the form of a gunshot wound accompanied by a penetrating wound to the left eye and disruption of the integrity of the left eyeball.

The commander of the assault group, Captain **Bagiyev Rashad Gudrat oğlu**, sustained a gunshot wound penetrating the soft tissues of the middle third of the lower leg and a tangential wound to the soft tissues of the left lower leg.

Another serviceman serving at the same height, **Khabibov Nijat Mahir oğlu**, sustained a penetrating gunshot wound to the left leg and an open displaced fracture of the second metatarsal bone, resulting in prolonged impairment of health.

Private **Babayev Abbas Yadulla oğlu** sustained a blind shrapnel wound to the left groin area without penetration into the abdominal cavity.

Private **Mammadov Elkhan Elbrus oğlu** sustained gunshot wounds accompanied by concussion and resulting in short-term impairment of health, classified as minor harm to health.

Since they took shelter in time and received qualified medical assistance, the members of the criminal organization and its structural subdivision were thus unable to intentionally kill the **six servicemen**.

In addition, members of the criminal organization and its structural subdivision whose identities are unknown to the investigation, continuing to commit criminal acts in accordance with the common criminal intentions and objectives of the criminal organization, at approximately **04:00 on 13 December 2020**, in the area of the village of **Garabular**, when **Rahimov Sabukhi Zahid oğlu**, a serviceman of Military Unit No. N of the Ministry of Defence deployed in that area, was collecting firewood into the cargo compartment of a **MAZ military vehicle**, fired at him from a position unknown to the investigation using a firearm of a make and model unknown to the investigation.

As a result, **Sabukhi Rahimov** sustained grievous bodily injuries in the form of a through-and-through gunshot wound to the anterior surface of the lower third of the right lower leg, resulting in a displaced fracture of the radius, which is classified as minor harm to health with prolonged impairment of health. However, they were unable to intentionally kill him, since his life was saved owing to timely hospitalization and the provision of qualified medical assistance.

In addition, members of the criminal organization and its structural subdivision whose identities are unknown to the investigation, continuing to commit criminal acts in accordance with the common criminal intentions and objectives of the criminal organization, at approximately **00:15 on 23 December 2020**, from the positions occupied by them, using firearms of a make and model unknown to the investigation, shelled **Road Maintenance Facility No. 55 of the State Agency of Azerbaijan Automobile Roads** and the workers present in that building in the territory of the village of **Chapli, Kalbajar District...**

Page 164

...of the **Republic of Azerbaijan**, thereby attempting to intentionally kill the employees of **Road Repair Directorate No. 55 of the State Agency of Azerbaijan Automobile Roads: Najafov Magomed Farman oglu, Kamalov Agil Alasdan oglu, Aliyev Aydin Allahverdi oglu, Jamilov Mubariz Huseyn oglu, Kamalov Oktay Agil oglu, Ugurluyev Parvin Chingiz oglu, Mamishov Nemat Kalandar oglu, Abdullayev Shamo Elbrus oglu, Askerov Azer Azim oglu, Ismailov Gashgay Aydin oglu, Ismayilov Vidadi Huseyn oglu, and Kahramanov Eldost Kochari oglu.**

As a result of the measures taken by servicemen of the **Internal Troops of the Ministry of Internal Affairs** serving in that district and officers of the **Kalbajar District Police Department**, the members of this group were removed from the scene, and the lives of the peaceful civilian workers were thereby saved.

In addition, members of the criminal organization and its structural subdivision whose identities are unknown to the investigation, continuing to commit criminal acts in accordance with the common criminal intentions and objectives of the criminal organization, at approximately **15:00 on 27 December 2020**, hid in a private house located in the village of **Agatut, Khojavend District of the Republic of Azerbaijan**, from where they fired from a **Kalashnikov AK-74 5.45-mm assault rifle, No. 4337283**, and a **Kalashnikov AK-74 5.45-mm assault rifle, No. 1185383**, manufactured in **1986 at the Izhevsk Mechanical Plant by factory production**, at **Gambarov Elmir Rail oglu**, a private serving under contract in the headquarters supply section of Military Unit No. N of the Ministry of Defence, who was performing his official duties to protect the territorial integrity of the Republic of Azerbaijan and public security.

As a result, **Elmir Gambarov** died at the scene after sustaining gunshot wounds penetrating from the chest area and causing damage to the internal organs, classified as grievous bodily harm.

They also opened fire on the evacuation group, as a result of which **Private Aliyev Emin Suleyman oglu**, a serviceman of Military Unit No. N, sustained wounds to the shoulder and right knee, while **Sergeant Rahimov Ramil Ali oglu** sustained gunshot wounds to both hands, classified as less serious harm to health and resulting in prolonged impairment of

health. They were evacuated to **Hospital No. N**, where qualified medical assistance was provided, as a result of which the perpetrators were unable to intentionally kill them.

In addition, members of the criminal organization and its structural subdivision whose identities are unknown to the investigation, continuing to commit criminal acts in accordance with the common criminal intentions and objectives of the criminal organization, at approximately **01:00 on the night of 20 May 2021**, after reconnaissance of combat positions around **Lake Garagel**, located in the **Lachin District of the Republic of Azerbaijan**, under the pretext of settling border disputes, being several times numerically superior to the servicemen guarding the post in the territory of the Republic of Azerbaijan, by means of physical coercion and beating them with iron and wooden stocks of various types of firearms, wooden objects, kicks, punches, knives of various purposes and other objects, demanded that they leave their combat positions, causing bodily injuries of varying severity to servicemen of Military Unit No. N of the Ministry of Defence who were performing their official duties to protect the territorial integrity of the Republic of Azerbaijan and public security, namely:

the head of the tactical-command post of the headquarters company, Senior Lieutenant **Najafov Zahid Abdulla oğlu**, sustained an injury to the soft tissues of the occiput, causing no harm to health;

the rifleman of the 5th group of the 1st battalion, contract serviceman Private **Ahmedov Samir Elshan oğlu**, sustained a contused wound to the back, causing no harm to health;

the rifleman of the security detachment of the 1st battalion, contract serviceman Private **Ankbazov Abdulla Ramazan oğlu**, sustained a scar wound with pigmentation of the right cheek, causing no harm to health;

the rifleman of the security detachment...

Page 165

...of the 1st battalion, **Muradov Elvin Vagif oğlu**, a private serving on extended active military service, sustained a scar wound to the left half of the forehead, resulting in short-term impairment of health;

the head of the medical service, Senior Lieutenant of the Medical Service **Abdullazade Abdulla Abutalib oğlu** — a closed craniocerebral injury with damage to the soft tissues, causing no harm to health;

reconnaissance serviceman of the 5th group of the 1st battalion, Warrant Officer **Orujzade Kamandar Sarkhan oğlu** — a closed craniocerebral injury, causing no harm to health;

commander of the 2nd battalion of the 1st battalion, Warrant Officer **Tagiyev Vusal Musa oğlu** — damage to the soft tissues of the occipital region of the head, causing no harm to health;

senior reconnaissance serviceman of the 6th group of the 1st battalion, Senior Lieutenant **Huseynov Kamran Namiz oğlu** — damage to the soft tissues of the right ear and the occipital region of the head, causing no harm to health;

reconnaissance serviceman of the 5th group of the 1st battalion, Junior Warrant Officer **Allahverdiyev Elmin Tahir oğlu**— damage to the soft tissues of the occipital region of the head, causing no harm to health;

Allahverdiyev Elmin Tahir oğlu, who served as a reconnaissance serviceman of the 5th group of the 1st battalion and held the military rank of junior warrant officer, sustained an injury to the soft tissues of the occiput, causing no harm to health;

Mammadov Samir Sanan oğlu, who served as a reconnaissance serviceman of the 6th group of the 1st battalion and held the military rank of junior warrant officer, sustained damage to the soft tissues of the occipital region of the head, causing no harm to health;

Ibrahimov Alimukhtar Gulaga oğlu, who served as a reconnaissance serviceman of the 2nd group of the 1st battalion and held the military rank of warrant officer, sustained a closed craniocerebral injury and concussion, causing no harm to health;

reconnaissance serviceman of the 6th group of the 1st battalion, Warrant Officer **Kerimli Royal Bakhtiyar oğlu**, sustained a closed craniocerebral injury, causing no harm to health;

reconnaissance serviceman of the 6th group of the 1st battalion, Junior Warrant Officer **Salimov Elvin Islam oğlu**, sustained a closed craniocerebral injury, causing no harm to health;

Kazimli Shamsi Khalid oğlu, who served as deputy commander of the 2nd group of the 3rd battalion and held the military rank of senior lieutenant, sustained damage to the soft tissues of the occipital region of the head, causing no harm to health;

reconnaissance serviceman of the 4th group of the 1st battalion, extended-service Private **Sariyev Kenan Araz oğlu**, sustained a contused wound to the left upper limb, causing no harm to health;

deputy commander of the 2nd group of the 1st battalion, Senior Lieutenant **Korogluyev Tural Javanshir oğlu**, sustained a lacerated wound to the middle third of the left leg, causing no harm to health;

reconnaissance serviceman of the 6th group of the 1st battalion, extended-service Private **Mammadov Mustafa Imran oğlu**, sustained damage to the soft tissues of the occipital region of the head, causing no harm to health;

deputy commander of the 3rd group of the 1st battalion — senior reconnaissance serviceman, Lieutenant **Akhundov Azad Azer oğlu Hasanli Umid Gachay oğlu** — damage to the soft tissues of the occipital region of the head, causing no harm to health;

reconnaissance serviceman of the 5th group of the 1st battalion, **Heydarov Orkhan Zeynal oğlu**, who served in the military rank of junior warrant officer — a hematoma of the thigh and lower leg of the left leg, causing no harm to health;

Beylarov Asker Ali oğlu, who served as a reconnaissance serviceman of the 1st group of the 1st battalion and held the military rank of junior warrant officer, sustained damage to the soft tissues of the parietal region, causing no harm to health;

Abdullazade Khasrat Elshan oglu, who served as a reconnaissance serviceman of the 1st group of the 1st battalion and held the military rank of junior warrant officer — damage to the soft tissues of the crown of the head, causing no harm to health;

reconnaissance serviceman of the 5th detachment of the 1st battalion, Warrant Officer **Aliyev Panah Khaleddin oglu**, sustained damage to the soft tissues of the occipital region of the head, causing no harm to health;

Guliyev Vusal Vugar oglu, who served as a reconnaissance serviceman of the 3rd group of the 1st battalion and held the military rank of warrant officer, sustained a back wound and contusion of the soft tissues of the occipital region of the head, causing no harm to health;

Huseynzade Zakariya Akif oglu, who served as a reconnaissance serviceman of the 6th group of the 1st battalion and held the military rank of junior warrant officer, sustained contusion of the soft tissues of the occipital region of the head, causing no harm to health;

Chalabiyev Sardar Shukur oglu, who served as a reconnaissance serviceman of the 5th detachment of the 1st battalion and held the military rank of junior...

Page 166

...warrant officer, sustained an injury to the soft tissues of the occiput, causing no harm to health;

Jahangirov Hidayat Farhad oglu, who served as deputy commander of the 5th group of the 1st battalion and held the military rank of senior lieutenant, sustained an injury to the soft tissues of the occiput, causing no harm to health;

Hajimammadov Shirkhan Shokhrat oglu, who served as a reconnaissance serviceman of the 5th group of the 1st battalion and held the military rank of warrant officer — a wound to the scapular region, causing no harm to health;

Shakhpelanov Anar Elshad oglu, who served as a reconnaissance serviceman of the 6th group of the 1st battalion and held the military rank of warrant officer, sustained damage to the soft tissues of the occipital region of the head, causing no harm to health;

commander of the 1st battalion, Warrant Officer **Babirli Asif Oktay oglu**, sustained damage to the soft tissues of the occipital region of the head, causing no harm to health;

deputy commander of a group of the 3rd battalion, Senior Lieutenant **Sultanli Kamran Firudin oglu**, sustained no injury.

In total, **32 servicemen survived**, as they were able to protect themselves during the attack, while the servicemen of the Armed Forces of the Republic of Armenia who had attacked the combat position withdrew without succeeding in capturing the position.

In addition, members of the criminal organization and its structural subdivision whose identities are unknown to the investigation, continuing to commit criminal acts in accordance with the common criminal intentions and objectives of the criminal organization, during the period from **06:00 to 08:00 on 25 May 2021**, for the purpose of seizing the combat position

designated “**Tanker-5**” of Military Unit No. N of the Ministry of Defence, located in the territory of the village of **Zar in the liberated Kalbajar District of the Republic of Azerbaijan**, using firearms, violated the state border of the Republic of Azerbaijan from the direction of the aforementioned village, approached the servicemen performing their official duties at the said position, ostensibly under the pretext of peacefully resolving border disputes, and, having ascertained that the number of soldiers at the post was many times smaller than their own, attacked them and used violence against **Captain Yusifov Ilkin Salim oglu**, assistant chief of staff of the logistics support battalion of the aforementioned military unit, as well as servicemen **Imanov Ali Shair oglu, Gumbatov Adil Nadir oglu, Huseynov Jamal Bahram oglu, Suleymanov Kamil Aslan oglu and Gasimov Arif Samandar oglu**, striking various parts of their bodies with their hands and feet, as well as with the metal helmets worn on their heads. They used force against them and immediately left the area because they feared that additional forces might arrive.

In addition, members of the criminal organization and its structural subdivision whose identities are unknown to the investigation, continuing to commit criminal acts in accordance with the common criminal intentions and objectives of the criminal organization, on **11 June 2021**, from a combat position in the territory of the Republic of Armenia whose location is unknown to the investigation, fired with a firearm of an unknown make and model at **Junior Sergeant Musayev Feyruz Magomed oglu**, an extended-service serviceman of the 1st detachment of the 2nd platoon of the engineer-road company of Military Unit No. 1, while he was carrying out engineering work in the area of **elevation 3335 near the village of Zar, Kalbajar District**, using the **Caterpillar D-6R bulldozer**, state registration number **H 830 QQ**, assigned to him.

Although **Feyruz Musayev** managed to evade the fire and take cover in time, thereby saving his life, the **Caterpillar D-6R** equipment under his control, registration number **H 830 QQ**, sustained damage to the rear part of the seat in the cab and other components, and the rear window was pierced by bullets, thereby causing material damage to Military Unit No. N.

In addition, members of the criminal organization and its structural subdivision whose identities are unknown to the investigation, continuing to commit criminal acts in accordance with the common criminal intentions and objectives of the criminal organization, as well as the large-scale aggressive attacks which had become even more intensive beginning on **27 September 2020**, at approximately **16:00–17:00 on 11 June 2021...**

Page 167

using a firearm of a make and model unknown to the investigation, fired upon **Junior Sergeant Tamjidi Asif Azer oglu**, an extended-service serviceman of the 3rd engineering-road platoon of the 1st engineering-road company of Military Unit No. N of the Ministry of Defence, who, while performing his official duties, was digging a trench for protection against an armed attack by the Armed Forces of Armenia in the village of **Yellija, Kalbajar District**, which had been liberated from occupation as a result of countermeasures undertaken by the Armed Forces of the Republic of Azerbaijan, using the **NEW HOLLAND** military bulldozer assigned to him, bearing military registration number **H175QQ**. As a result of fire from a large-caliber machine-gun weapon of a make and model unknown to the investigation from the direction of the **Basarkechar District of the Republic of Armenia**, the **NEW HOLLAND** bulldozer bearing military registration number **H175QQ** was partially disabled,

while **Asif Tamjidi** quickly took cover in a trench during the attack, and therefore they were unable to intentionally kill him.

In addition, members of the criminal organization and its structural subdivision whose identities are unknown to the investigation, continuing to commit criminal acts in accordance with the common criminal intentions and objectives of the criminal organization, at approximately **17:45 on 06 July 2021**, from combat positions held by them under occupation in the territory of the **Aghdara District**, opened fire from a firearm of a make and model unknown to the investigation and shelled the security and evacuation road leading to **combat position No. 24 of the 12th company of the 4th battalion of the Ministry of Defence**, located in the territory of the village of **Aliagaly, Aghdam District**. As a result, **Senior Warrant Officer Dadashev Sakit Akhliman oglu**, chief technician of the engineering-road subdivision of Military Unit No. N of the Armed Forces, who was performing his duties to protect the territorial integrity of the Republic of Azerbaijan and public security, sustained a life-threatening gunshot wound to the intestinal area penetrating the internal organs. However, owing to timely qualified medical assistance, his life was saved, that is, they were unable to intentionally kill him.

In addition, members of the criminal organization and its structural subdivision whose identities are unknown to the investigation, continuing to commit criminal acts in accordance with the common criminal intentions and objectives of the criminal organization, at approximately **10:30 on 14 July 2021**, fired with a weapon of an unknown make and model at an observation post located at the **“Mil-1” position** of Military Unit No. N of the Ministry of Defence, situated in the territory of the **Ararat (Agrinsky) District of the Republic of Armenia**. As a result, **Mardanly Ibadulla Mekhsud oglu**, a serviceman performing his duties at the post to protect the territorial integrity of the Republic of Azerbaijan and public security, sustained bodily injuries of varying severity in the form of a bullet wound with damage to the right half of the upper lip, the right submandibular area of the neck and the right shoulder tangentially, a combined bullet wound to the head and right shoulder girdle accompanied by fractures of the jaw and right scapula, resulting in prolonged impairment of health. However, they were unable to intentionally kill him, since timely qualified medical assistance was provided.

In addition, in accordance with the same intentions and objectives, members of the criminal organization whose identities are unknown to the investigation, carrying out the criminal plan encompassed by the common criminal intent, namely, to ensure that the occupied territories of the country remained under their control, continuing the aggressive war they had launched against the Republic of Azerbaijan and, having formed a national threat against Azerbaijanis in Armenian society, to kill them on the grounds of national hatred and hostility and for other criminal purposes, at approximately **10:30 a.m. on 14 July 2021**, shelled the **“Mil-1” post** of Military Unit No. N of the Ministry of Defence, located in the **Sadarak District of the Nakhchivan Autonomous Republic of the Republic of Azerbaijan**, as a result of which a fire broke out in that area. On **14 July 2021...**

Page 168

...at approximately **15:00**, they opened fire from a weapon of a make and model unknown to the investigation in the direction of the same position, toward **Major of the Internal Service Ahmedli Elvin Sudeyf oglu**, head of the duty fire service of the Sadarak District State Fire Safety Administration of the Ministry of Emergency Situations of the Nakhchivan

Autonomous Republic, who was performing his official duties in extinguishing the fire. As a result, **Elvin Ahmedli** sustained a gunshot wound to the right shoulder and the right side of the back, resulting in prolonged impairment of health; however, they were unable to intentionally kill him because timely qualified medical assistance was provided.

In addition, members of the criminal organization and its structural subdivision whose identities are unknown to the investigation, continuing to commit criminal acts in accordance with the common criminal intentions and objectives of the criminal organization, at approximately **08:00 a.m. on 16 July 2021**, subjected the **“Mil-1” post** of Military Unit No. N of the Ministry of Defence, located in the **Sadarak District of the Nakhchivan Autonomous Republic of the Republic of Azerbaijan**, to fire from opposing combat positions located in the territory of the Republic of Armenia, using automatic weapons of a make and model unknown to the investigation. As a result, **Agayev Mustafa Rasim oglu**, a serviceman of Military Unit No. N of the Ministry of Defence who was present at the post and was performing his duties to protect the territorial integrity of the Republic of Azerbaijan and public security, sustained injuries of varying severity as a result of the fragmentation of a bullet that struck a pipe intended for removing the cladding of an iron observation tower, accompanied by partial fractures of the crowns of the left upper first and second teeth and the lower left second tooth, as well as multiple blind shrapnel wounds to the face, neck and dorsal surface of the left hand, resulting in short-term impairment of health. However, they were unable to intentionally kill him, since he managed to save his life by taking cover in the trench and evading the bullets.

In addition, members of the criminal organization and its structural subdivision whose identities are unknown to the investigation, continuing to commit criminal acts in accordance with the common criminal intentions and objectives of the criminal organization, at approximately **09:00 on 17 July 2021**, subjected the **“Mil-1” post** of Military Unit No. N of the Ministry of Defence, located in the **Sadarak District of the Nakhchivan Autonomous Republic of the Republic of Azerbaijan**, to fire from opposing combat positions located in the territory of the **Ararat (Agrinsky) District of the Republic of Armenia**, using automatic weapons of a make and model unknown to the investigation. As a result, **Mammadov Orkhan Kheyrraddin oglu**, a serviceman of Military Unit No. N of the Ministry of Defence who was present at the post and was performing his duties to protect the territorial integrity of the Republic of Azerbaijan and public security, sustained a bullet wound of varying severity, accompanied by partial damage to the soft tissues and **granular tendon along the wound channel of the left lower leg**, resulting in prolonged impairment of health. However, they were unable to intentionally kill him, since his life was saved owing to timely qualified medical assistance.

In addition, members of the criminal organization and its structural organization whose identities are unknown to the investigation, continuing to commit criminal acts in accordance with the common criminal intentions and objectives of the criminal organization, at approximately **11:30 p.m. on 19 July 2021**, subjected the **“Vagon-2” post** of Military Unit No. N of the Ministry of Defence, located in the **Sadarak District of the Nakhchivan Autonomous Republic of the Republic of Azerbaijan**, to fire from opposing combat positions located in the territory of the **Ararat (Agrinsky) District of the Republic of Armenia**, using automatic weapons of a make and model unknown to the investigation. As a result, **Badalli Ramal Bahlul oglu**, a serviceman of Military Unit No. N of the Ministry of Defence who was present at the post and was performing his duties to protect the territorial integrity and public security of the Azerbaijani...

...Republic, sustained a gunshot wound of varying severity, accompanied by partial damage to the soft tissues of the middle third of the left lower leg, resulting in prolonged impairment of health. However, they were unable to intentionally kill him, since his life was saved owing to timely qualified medical assistance.

In addition, members of the criminal organization and its armed formations whose identities are unknown to the investigation, continuing to commit criminal acts in accordance with the common criminal intentions and objectives of the criminal organization, at approximately **04:00 on 23 July 2021**, subjected the combat post conventionally designated **“Ertogrul”** of the **10th company of the 4th battalion of Military Unit No. N of the Ministry of Defence**, located in the **Kalbajar District of the Republic of Azerbaijan**, to fire from automatic weapons of an unknown make and model. As a result, **Warrant Officer Yagublu Farman Telman oglu**, deputy commander of the 2nd anti-tank platoon of Military Unit No. N of the Ministry of Defence, who was at the post and was performing his duties to protect the territorial integrity and public security of the Republic of Azerbaijan, sustained a life-threatening penetrating gunshot wound to the chest of varying severity, accompanied by acute blood loss, and was intentionally killed at the scene.

In addition, members of the criminal organization and its armed formations whose identities are unknown to the investigation, continuing to commit criminal acts in accordance with the common criminal intentions and objectives of the criminal organization, at approximately **01:00 on 28 July 2021**, subjected the combat posts conventionally designated **“K-1”, “K-3”, “K-4” and “Ertogrul”** of Military Unit No. N of the Ministry of Defence, located in the direction of the villages of **Zod and Narimanli in the Kalbajar District of the Republic of Azerbaijan**, to fire from opposite combat positions located in the **Vardenis (Basarkechar) District of the Republic of Armenia**, using automatic weapons of an unknown make and model. As a result:

Major Aliyev Sadyg Nizami oglu, commander of the 2nd company, who was at the post and was performing his duties to protect the territorial integrity and public security of the Republic of Azerbaijan, sustained a blind gunshot wound of varying severity penetrating the left thigh and accompanied by acute blood loss, classified as causing less serious harm to health;

Lieutenant Imranli Imran Dilgam oglu, platoon commander, sustained an open displaced fracture of the distal end of the ulna, resulting in prolonged impairment of health;

Lieutenant Musayev Akshin Mehman oglu, platoon commander, sustained a closed craniocerebral injury accompanied by concussion;

Private Orudzhov Muzamil Mehman oglu sustained an injury to the soft tissues of the right forearm accompanied by a penetrating wound to the tissues;

Senior Lieutenant Farhadly Telman Arzu oglu, group commander, sustained a blind wound to the soft tissues of the left lower leg;

Private Ibrahimli Tunar Tumar oglu sustained a closed craniocerebral injury associated with minor bodily harm resulting in short-term impairment of health;

Warrant Officer Babayev Israil Alikram oglu, deputy platoon commander, sustained gunshot and shrapnel wounds accompanied by a blind wound to the soft tissues of the lower third of the left thigh, resulting in short-term impairment of health.

However, they were unable to intentionally kill the **seven servicemen**, because they took cover in a dugout and were provided with qualified medical assistance in a timely manner.

In addition, members of the criminal organization and its armed formations whose identities are unknown to the investigation, continuing to commit criminal acts in accordance with the common criminal intentions and objectives of the criminal organization, at approximately **03:00 on 29 July 2021**, subjected the combat posts conventionally designated “**Zirve-2**” of Military Unit No. N of the Ministry of Defence, located in the direction of the villages of **Zod and Narimanli in the Kalbajar District liberated from occupation...**

Page 170

...of the Republic of Azerbaijan, to fire from opposite combat positions located in the territory of the **Republic of Armenia**, using automatic weapons of an unknown make and model. As a result:

Private Orudzhov Nusrat Gondus oglu, who was at the post and was performing his duties to protect the territorial integrity and public security of the Republic of Azerbaijan, sustained a tangential gunshot wound to the right forearm, classified as causing less serious harm to health;

Dadashov Raman Ramil oglu sustained a blind shrapnel wound to the left forearm, resulting in short-term impairment of health;

Private Huseynov Bakhtiyar Asef oglu sustained a blind wound to the left shoulder blade, classified as causing minor harm to health;

Private Agayev Rashad Rafet oglu sustained a penetrating wound to the fifth finger with an open displaced fracture of the proximal phalanx, resulting in short-term impairment of health and classified as causing less serious harm to health.

However, they were unable to intentionally kill the **four servicemen**, because they took cover in the trenches and were provided with qualified medical assistance in a timely manner.

In addition, members of the criminal organization and its armed groups whose identities are unknown to the investigation, continuing to commit criminal acts in accordance with the common criminal intentions and objectives of the criminal organization, at approximately **07:00 on 29 July 2021**, fired from automatic weapons of an unknown make and model at servicemen of Military Unit No. N of the Ministry of Defence of the Armed Forces of the Republic of Azerbaijan — **Warrant Officer Jalilov Nazir Vidadi oglu, Sergeant Abbasov Arif Yanvar oglu, Junior Sergeant Alizade Yusif Arif oglu, and Privates Mikanaev Ali Ilham oglu, Gurbanov Vusal Tahir oglu and Geydarzade Mirsaleh Mail oglu** — who, in a **GAZ-33081 truck** belonging to the 2nd battalion of the military unit and bearing military registration number **D 107 QQ**, were proceeding toward the combat position conventionally designated “**29**”, located approximately **500 metres from**

the 4th division in the territory of the city of **Shusha**, which had been liberated as a result of countermeasures undertaken by the Armed Forces of the Republic of Azerbaijan against the large-scale aggressive attacks that had intensified from **27 September 2020**.

At the moment the firing began, **Warrant Officer Nazir Jalilov** acted quickly and jumped from the moving vehicle, sustaining an injury the severity of which could not be determined, while the driver, **Ali Mikanaev**, remained vigilant and immediately drove the vehicle to a combat position, taking it away from the firing point.

The lives of the servicemen of the unit — **Sergeant Abbasov Arif Yanvar oglu, Junior Sergeant Alizade Yusif Arif oglu, and servicemen Mikanaev Ali Ilham oglu, Gurbanov Vusal Tahir oglu and Geydarzade Mirsaleh Mail oglu**— were saved; that is, they were unable to intentionally kill them. In carrying out their criminal intent, they also caused material damage to the **GAZ-33081 vehicle**, military registration number **D 107 QQ**, belonging to the 2nd battalion of the military unit, by striking various parts of the vehicle with bullets.

In addition, members of the criminal organization and its armed groups whose identities are unknown to the investigation, continuing to commit criminal acts in accordance with the common criminal intentions and objectives of the criminal organization, at approximately **20:50 on 16 August 2021**, subjected the combat post conventionally designated “**Geycha-5**” of Military Unit No. N of the Ministry of Defence, deployed in the territory of the village of **Zar, Kalbajar District of the Republic of Azerbaijan**, to fire from opposite combat positions located in the territory of the village of **Zarkend, Basarkechar District of the Republic of Armenia**, using a large-caliber weapon of an unknown make and model. As a result, **Private Abdullayev Abdulaziz Elshad oglu**, who was at the post and was performing his duties to protect the territorial integrity and public security of the Azerbaijani...

Page 171

...Republic, sustained a tangential blind gunshot wound to the area of the right temple and chest, classified as causing less serious harm to health; **Muradov Khayal Mikail oglu** sustained a foreign body in the left arm, resulting in short-term impairment of health. However, they were unable to intentionally kill servicemen **Abdullayev Abdulaziz** and **Muradov Khayal**, as they took cover in trenches and managed to save their lives.

In addition, members of the criminal organization and its structural organization whose identities are unknown to the investigation, continuing to commit criminal acts in accordance with the common criminal intentions and objectives of the criminal organization, under the pretext of the residence of the Armenian civilian population in the territory of the **Shusha District**, which they held under occupation, dug trenches, erected barricades and obstructed the work of the relevant bodies of state authority in the sovereign territory of the Republic of Azerbaijan. At approximately **22:00 on 17 August 2021**, using **Kalashnikov assault rifles, PK and PKM machine guns, and a 7.62-mm PK-type machine gun**, they attempted to carry out a raid as part of a reconnaissance-sabotage group on **combat position No. 31 of Military Unit No. N of the Ministry of Defence**, located in the territory of the village of **Gaibaly, city of Shusha**. As a result, at an observation post in mountainous terrain, **Mirsadygov Mirsadir Miraga oglu**, who served as a gunner of the 1st section of the

2nd platoon of the 6th company of the 2nd battalion of Military Unit No. N of the Ministry of Defence and was performing his official duties to protect the territorial integrity and public security of the Republic of Azerbaijan, sustained a gunshot wound and managed to save his life by taking cover in a trench and avoiding numerous bullets; thus, they were unable to intentionally kill him.

In addition, members of the criminal organization and its structural organization whose identities are unknown to the investigation, continuing to commit criminal acts in accordance with the common criminal intentions and objectives of the criminal organization, at **15:20 on 25 August 2021**, carried out a raid as part of a reconnaissance-sabotage group, as a result of which they inflicted a stab wound on **Shiraliyev Ruslan Nariman oglu**, a serviceman who was at a combat post of Military Unit No. N of the **State Border Service**, deployed in the territory of the village of **Chayzami, Qubadli District of the Republic of Azerbaijan**, and who was performing his official duties to protect the territorial integrity and public security of the Republic of Azerbaijan during hostilities, and began striking him with a knife on various parts of his body. **Ruslan Shiraliyev** resisted and at the same time called other fellow servicemen for assistance; therefore, for reasons beyond their control, they were unable to kill him and fled the scene, causing the serviceman bodily injuries in the form of incised wounds to the anterior surface of the left side of the chest without penetration into the thoracic cavity and incised wounds affecting only the superficial layers of the skin of the right forearm, which are classified as causing minor harm to health.

In addition, members of the criminal organization and its structural subdivision whose identities are unknown to the investigation, continuing to commit criminal acts in accordance with the common criminal intentions and objectives of the criminal organization, at **18:05 on 18 September 2021**, fired from a weapon of a make and model unknown to the investigation at an observation post located in the territory of the **“Mil-1” position of Military Unit No. N of the Ministry of Defence**, situated in the **Ararat (Agrinsky) District of the Republic of Armenia**. As a result, serviceman **Hasanov Valekh Maly oglu**, who was performing his official duties to protect the territorial integrity and public security of the Republic of Azerbaijan, sustained bodily injuries of varying severity in the form of a shrapnel wound to the left half of the forehead with damage to the soft tissues, resulting in short-term impairment of health. However, they were unable to intentionally kill him, as he managed to take cover in a trench.

Page 172

In addition, members of the criminal organization and its structural subdivision whose identities are unknown to the investigation, continuing to commit criminal acts in accordance with the common criminal intentions and objectives of the criminal organization, at approximately **02:20 on 13 October 2021**, in the forested area from the settlement of **Sugovushan, Tartar District**, along the **Aghdara–Kalbajar highway, 5 km from the village of Aybaly, Kalbajar District of the Republic of Azerbaijan**, fired from the forest strip, using a firearm of a make and model unknown to the investigation, at a motorcade escorted by the **Peacekeeping Forces of the Russian Federation** and moving toward the Kalbajar District. An attempt was made to intentionally kill the persons traveling in a **NIVA-21214 passenger vehicle**, military registration number **“M 839 QQ”**, belonging to the **Military Police Directorate of the Barda Garrison of the Ministry of Defence**, which was driven by the commander of the automobile section of the military police subdivision, Junior Sergeant **Shabanov Beyler Etibar oglu**, who was performing his official duties to

protect the territorial integrity and public security of the Republic of Azerbaijan, as well as **Shabanov Beyler Etibar oğlu** and the chief instructor — military automobile inspector of the 1st military police detachment, Warrant Officer **Jabbarzade Jabbar Rasim oğlu**. However, the servicemen ducked in time and were not wounded, while the vehicle belonging to that subdivision was damaged, causing significant material loss.

In addition, members of the criminal organization and its structural subdivision whose identities are unknown to the investigation, continuing to commit criminal acts in accordance with the common criminal intentions and objectives of the criminal organization, at **18:15 on 14 October 2021**, fired from a firearm of a make and model unknown to the investigation at the combat position of the **2nd battalion, 3rd section, 1st platoon, 5th company, 2nd battalion of Military Unit No. N of the Ministry of Defence**, located in the direction of the village of **Gulably, Aghdam District of the Republic of Azerbaijan**, conventionally designated **No. 15**, from opposing positions in the territory of the **Khojavend District**, which at the time of the incident was under occupation. Present there were servicemen **Hamzayev Afghan Bakhman oğlu, Kerimli Sahib Ahmedkhan oğlu, Kerimli Namig Ramin oğlu, Ibrahimkhalilov Ilkin Elshad oğlu, Gasimov Gyuloglan Rauf oğlu and Namazov Mahireddin Mirza oğlu**, who were performing their official duties to protect the territorial integrity and public security of the Republic of Azerbaijan. As a result, **Private Hamzayev Afghan Bakhman oğlu**, assistant grenadier of the 3rd section of the 1st platoon of the 5th company of the 2nd battalion of Military Unit No. N, was intentionally killed after sustaining a through-and-through gunshot wound to the right side of the forehead, exiting through the area of the left temple, with damage to the brain, acute blood loss and fractures of the skull bones. The other five servicemen — **Sahib Kerimli, Namig Kerimli, Ilkin Ibrahimkhalilov, Gyuloglan Gasimov and Mahireddin Namazov** — managed to save their lives by taking cover at the combat position during the shelling, and they were therefore unable to intentionally kill them.

In addition, members of the criminal organization and its structural subdivision whose identities are unknown to the investigation, continuing to commit criminal acts in accordance with the common criminal intentions and objectives of the criminal organization, at approximately **11:00 on 16 November 2021**, fired from small arms, mortars and artillery pieces of various calibers, the makes and models of which were unknown to the investigation, at **posts Nos. 39 and 40 and the surrounding area of Military Unit No. N of the Ministry of Defence**, located in the territory of the village of **Bozlu, Lachin District of the Republic of Azerbaijan**, from combat positions situated in the settlement of **Khazinavar (Khoznavar), Goris District of the Republic of Armenia**, at a distance of approximately **500–600 metres as the crow flies**. As a result, platoon commander of Military Unit No. N of the Ministry of Defence, Lieutenant **Niftaliyev Umud Oruj oğlu**, who was performing his official duties to protect the territorial integrity and public...

Page 173

...security of the Republic of Azerbaijan, sustained shrapnel injuries, open fractures of the bones of the cranial vault, base of the skull and facial skeleton, through-and-through bullet and shrapnel wounds accompanied by diffuse contusion of the brain tissue and destruction of both eyeballs;

Warrant Officer **Jabbarov Orkhan Khatam oğlu** — shrapnel injuries, open fractures of the bones of the skull and facial skeleton, diffuse damage to brain tissue, penetrating wounds of

the cranial cavity and right scapula extending into the thoracic cavity, blind wounds to the right side of the back, right shoulder and left thigh, penetrating bullet and shrapnel wounds of the left thigh accompanied by multiple blind wounds to the soft tissues of the left knee and right lower leg;

Agayev Elchin Marifat oglu — shrapnel injuries, open fractures of the bones of the cranial vault and base of the skull, diffuse damage to brain tissue, shrapnel injuries and open fractures of the body of the third cervical vertebra;

Khalilov Murad Galib oglu — penetrating bullet and shrapnel wounds accompanied by shrapnel injuries and open fractures, two blind wounds to the left lateral wall of the chest penetrating into the cavity, one penetrating wound of the soft tissues of the anterior surface of the chest, multiple comminuted open fractures of the left scapula and the ninth rib, damage to the organs of the thoracic and abdominal cavities, penetrating bullet and shrapnel wounds accompanied by an acute hematoma, and shrapnel injuries and open fractures of the cervical vertebrae;

serviceman **Aliyev Elchin Ramil oglu** — multiple injuries to major blood vessels, penetrating bullet and shrapnel wounds accompanied by acute bleeding;

Private **Alizade Elmin Samir oglu** — a penetrating wound in the occipital region and in the area of the right cheekbone, with shrapnel injuries and open fractures of the bones of the skull and facial skeleton along the wound channel, open fractures with penetrating bullet and shrapnel wounds accompanied by diffuse damage to brain tissue.

They were intentionally killed at the scene, having sustained injuries amounting to grievous bodily harm dangerous to life.

In addition, Junior Sergeant **Jahangirov Vugar Jahangir oglu** of Military Unit No. N of the Ministry of Defence sustained blunt trauma to the left arm, contusion of the soft tissues, shrapnel wounds to the soft tissues of the right anterior upper surface of the chest, and blind shrapnel wounds to the left cheekbone, cheek and right cheekbone;

Private **Teyubzade Roman Ramiz oglu** — blind shrapnel wounds to the left arm, with penetration through the left cheek and resting against the C1 vertebra, a fracture of the left ascending ramus of the jaw bone, an open comminuted fracture of the left ascending ramus, an extensive soft-tissue defect wound of the bones of the left ligament, contusion of the right lung, blind shrapnel wounds to the left knee valve, left lower leg and the fifth finger of the right hand, an open comminuted bone-defect injury to the middle and distal phalanges of the fifth finger of the right hand, an open comminuted displaced fracture of the left knee valve, rupture of the extensor tendon of the fifth finger of the right hand, and tendon rupture;

soldier **Gyulaliyev Murad Bakhtiyar oglu** sustained severe hemorrhagic contusion of the frontal lobes of the brain, a blind shrapnel wound to the cranial cavity, damage to the stomach, blind shrapnel wounds to the thoracic and abdominal cavities of the left half of the chest and the anterior surface of the upper third of the left thigh, and acute bleeding;

soldier **Hasanov Eltaj Bayram oglu** — shrapnel injuries, displaced open fractures of the lower third of the shaft of the left femur, a blind wound to the soft tissues of the posterior

surface of the right half of the chest not penetrating into the cavity, and multiple blind shrapnel wounds to both shoulder, perineal and right regions;

soldier **Yusifov Habil Abel oglu** — a gunshot wound penetrating the right lumbar region and the abdominal and thoracic cavities, with damage to the liver and right kidney, fractures of the right ninth and twelfth ribs, traumatic-hemorrhagic shock of degree II–III, and one blind gunshot wound to the abdomen and thoracic cavity;

soldier **Huseynov Oruj Nabi oglu** sustained bodily injuries amounting to grievous bodily harm dangerous to life, accompanied by a comminuted fracture of the phalanx of the first toe of the right foot and...

Page 174

...shrapnel wounds to the soft tissues of the chest;

officer **Jafarov Muzaffar Eldar oglu** — a transversely displaced open fracture of the base of the patella and a perforating gunshot wound to the right knee;

officer **Khalilov Tural Nariman oglu** — closed craniocerebral trauma, closed craniocerebral trauma, astheno-neurotic manifestations and vegetative vascular insufficiency, concussion of the brain, and a perforating fracture of the right body of the scapula;

Sergeant **Adygozalov Iskander Nizami oglu** — blind shrapnel wounds to the right popliteal region and right scapula, not penetrating into the cavities;

Junior Warrant Officer **Mamizade Tabriz Isa oglu** — a nondisplaced fracture of the right sixth rib, a penetrating wound into the pleural cavity through the right lateral wall of the chest, blind shrapnel wounds to the soft tissues of the upper third of the right thigh, shrapnel wounds to the soft tissues of the right thigh, a shrapnel wound to the soft tissues of the right lung and upper third of the right thigh, and closed blunt trauma of the spine;

extended-service serviceman **Manafli Madat Elbrus oglu** — an uncomplicated stable compression fracture of the body of the L2 vertebra and concussion of the brain;

soldier **Farzaliyev Sanan Famil oglu** — closed craniocerebral trauma and blind shrapnel wounds with glass fragments in the soft tissues of the occipital region;

Private **Takhmezov Ravan Vilayat oglu** — loss of the left eyeball, a corneal penetrating foreign body, blind shrapnel wounds to the right lower extremity, shrapnel wounds of the right crest on palpation, and barotrauma;

soldier **Shahverdiyev Rahim Sadreddin oglu** — traumatic avulsion of the fourth finger of the right hand at the level of the middle third of the phalanx of the hand;

soldier **Takharov Samir Rasil oglu** — a shrapnel wound to the scapula;

soldier **Aliyev Sahavat Rizvan oglu** — a shrapnel wound to the posterior surface of the left shoulder girdle, to the posterior surface of the left shoulder girdle, shrapnel wounds to the

second finger of the right hand, and traumatic avulsion of the middle third of the middle phalanx of the second finger of the right hand;

soldier **Tagiyev Elkhan Elman oglu** sustained injuries accompanied by devastating gunshot wounds to the soft tissues of the posterior surface of the lower third of the left thigh;

serviceman **Aliguliyev Etibar Yasin oglu** — blind shrapnel wounds to the soft tissues of the right lateral malleolus and heel, a penetrating wound of the right thigh, and multiple blind shrapnel wounds to the soft tissues of both sides of the back and the right shoulder;

extended-service serviceman **Aliyev Elchin Rovshan oglu**;

extended-service serviceman **Aliyev Vugar Eldar oglu**, during the blast injury, suffered bilateral acute cochlear neuritis caused by the impact of the blast detonation shock wave and acute exudative otitis media of the right side;

extended-service serviceman **Malikov Jafar Gurban oglu** sustained injuries to the nose and left temporal region as a result of the explosion;

Warrant Officer **Huseynov Elvin Sekhran oglu** — vegetative vascular dystonia resulting from the impact of the shock wave and a blunt object (objects) formed during the explosion, and left-sided acute cochlear neuritis;

Junior Warrant Officer **Kyazimov Kamran Eyvaz oglu** — gunshot wounds to the anterior abdominal wall involving the soft tissues and not penetrating into the abdominal cavity;

Junior Warrant Officer **Guliyev Gulu Isakhan oglu** — blind shrapnel wounds to the second finger of the left hand and wounds to the soft tissues of the anterior chest wall not penetrating into the thoracic cavity;

Alizade Namig Natig oglu — acute left-sided cochlear neuritis resulting from blast injury and severe left-sided sensorineural hearing loss;

soldier **Mehdizade Huseyn Rovshan oglu** — bilateral acute cochlear neuritis as a result of barotrauma;

officer **Shabanli Hamid Zahid oglu** — blunt trauma to the fifth finger of the right hand, injuries amounting to minor harm to health and accompanied by contusion of the soft tissues;

serviceman **Kerimli Magerram Sakit oglu** — a wound to the right cheekbone region and a hematoma of the crown of the head;

soldier **Nagiyev Murad Tahir oglu** sustained a blind shrapnel wound to the left parietal region of the head;

serviceman **Aliyev Hasan Ibrahim oglu** sustained bodily injuries causing no harm to health, accompanied by an abrasion wound to the right wrist.

However, their lives were saved because, acting vigilantly, they lay down in the trench, evading the central...

...part of the impact force of the blast wave, and because they were provided with qualified medical assistance in a timely manner. Thus, they intentionally killed **6 persons**, but were unable to intentionally kill **31 persons**, and also set fire to two **BTR-82A armored combat vehicles** belonging to the military unit and one **KAMAZ truck**, causing significant material damage, and damaged one **BTR-82A armored combat vehicle** and one **SandCat armored vehicle** with the projectiles they fired.

In addition, members of the criminal organization and its structural subdivision whose identities are unknown to the investigation, continuing to commit criminal acts in accordance with the common criminal intentions and objectives of the criminal organization, at approximately **16:00 in the morning on 16 November 2021**, subjected the combat positions conventionally designated **K-21 and L-42**, as well as the surroundings of Military Unit No. N of the Ministry of Defence, located in the territory of the village of **Minkend, Lachin District**, to fire from small arms, mortars and artillery of various calibers, the makes and models of which were unknown to the investigation, from opposing positions located in the settlement of **Sheki (Shaki), Karakilisa (Sisian) District of the Republic of Armenia**. As a result, **Junior Sergeant Aliyev Natig Yusif oglu**, an extended-service serviceman of Military Unit No. N of the Ministry of Defence, who was performing his official duties to protect the territorial integrity and public security of the Republic of Azerbaijan, was intentionally killed at the scene after sustaining a penetrating gunshot wound and other injuries observed in connection with a multi-fragment fracture of the bones of the left side of the back and damage to the left half of the chest, amounting to grievous bodily harm dangerous to life.

Extended-service servicemen **Gumbatov Ulfat Rahim oglu, Musali Sahib Sahibkhan oglu, Mirzaliyev Valekh Ali oglu, Kerimli Rakhib Abdulla oglu, Ismailov Rashad Alviz oglu, and Ismailov Fagan Agameli oglu** sustained acoustic trauma (barotrauma), amounting to minor harm to health resulting in short-term impairment of health due to the impact of the blast wave during the explosion.

The soldiers sustained the following injuries:

Mammadov Bayram Asad oglu — a contusion of the knee area of the right leg;

Guliyev Farhad Farrukh oglu — a closed craniocerebral injury;

Mammadov Samir Mammad oglu — a superficial shrapnel wound to the right lower leg;

Aliyev Elgyun Elshan oglu — a shrapnel wound to the outer part of the right heel, a minor injury resulting in short-term impairment of health;

Iskenderov Tural Kahraman oglu — a penetrating gunshot wound to the upper third of the right side of the nose and to the soft tissues of the scapular region;

Alishanov Elmar Eldar oglu — an open non-displaced fracture of the olecranon process of the left ulna, an open non-displaced fracture of the elbow joint, and a blind shrapnel wound in the area of the left elbow joint;

Aslanov Aslan Shahhuseyn oğlu sustained injuries amounting to less serious harm, which resulted in prolonged impairment of health due to a blind shrapnel wound to the soft tissues of the right thigh accompanied by temporary impairment of the function of the right lower limb;

soldier **Hasanov Kamran Elshad oğlu** sustained a blind shrapnel wound to the left eyeball and, as a result of the impact of fragments caused by the explosion of an explosive device (projectile), sustained injuries amounting to grievous bodily harm dangerous to life, accompanied by a penetrating gunshot wound to the soft tissues of the right thigh. However, the enemy was unable to intentionally kill them because they acted vigilantly and went into the trench, thereby avoiding the central part of the impact force of the blast wave.

In addition, members of the criminal organization and its armed formations whose identities are unknown to the investigation, continuing to commit criminal acts in accordance with the common criminal intentions and objectives of the criminal organization, at **21:50 on 08 December 2021**, subjected the combat posts conventionally designated “**Zirve-2**” of Military Unit No. N of the Ministry of Defence, located in the direction of the village of **Zeylik in the Kalbajar District of the Republic of Azerbaijan**, to fire from opposing combat positions located in the territory of the settlement of **Yukhary Shorcha, Basarkechar District of the Republic of Armenia**, using a **Dragunov sniper rifle (SVD), caliber 7.62 mm**, manufactured since 1963 in the Russian Federation, as well as their **PK, PKT and PKS machine-gun-type weapons of Kalashnikov design**, as a result of which...

Page 176

...**Aliyev Asif Adil oğlu**, a machine gunner of the 1st section of the 3rd platoon of the 2nd company of the 1st battalion of Military Unit No. N of the Ministry of Defence, who was at the post and was performing his duties to protect the territorial integrity and public security of the Republic of Azerbaijan, was intentionally killed after sustaining a life-threatening penetrating bullet wound to the left lung accompanied by an open fracture of the second thoracic vertebra, amounting to grievous bodily harm.

In addition, members of the criminal organization and its armed formations whose identities are unknown to the investigation, continuing to commit criminal acts in accordance with the common criminal intentions and objectives of the criminal organization, in gross violation of the provisions of international covenants and other norms of international law, namely, the **1949 Geneva Convention “relative to the Protection of Civilian Persons in Time of War,” the International Convention against the Taking of Hostages**, adopted in New York on **17 December 1979**, the **UN Universal Declaration of Human Rights of 10 December 1948**, the **Convention for the Protection of Human Rights and Fundamental Freedoms**, adopted by the Council of Europe on **04 November 1950**, and the **UN General Assembly Covenant “on Civil and Political Rights” of 16 December 1966**, at approximately **11:00 on 18 December 2021**, having unlawfully hidden themselves in other sovereign territories of Azerbaijan which they held under occupation, arranged an ambush beside a road and, using an **AK assault rifle**, a **PK machine gun** and other firearms, attacked **Huseynov Teymur Aladdin oğlu**, an active-duty extended-service serviceman and grenadier of the 1st section of the 2nd platoon of the 12th company of the 4th battalion of Military Unit No. N of the Ministry of Defence, and **Mustafayev Murad Mikail oğlu**, an active-duty extended-service serviceman and machine gunner of the 2nd section of the 2nd platoon of the 12th company of the 4th battalion of Military Unit No. N of the Ministry of

Defence, while they were travelling along the road from **Post No. 25 to Post No. 27**, located in the area of the village of **Minkend, Lachin District**.

They unlawfully took **Murad Mustafayev and Teymur Huseynov** captive and also seized the service weapon carried by the latter — an **AKM-74 automatic firearm**, military registration number **139922**, together with a magazine loaded with **30 cartridges**.

They then blindfolded **Murad Mustafayev and Teymur Huseynov**, forced them to lie on the floor of a **NIVA vehicle**, the registration number of which is unknown to the investigation, and transported them to a dark prison, the location of which has not been established by the investigation, where there was no daylight and there were no objects of any kind. They tied their hands, restricting their movement, and unlawfully held them as hostages for a total of **2 days**.

During this period, members of the criminal organization whose identities are unknown to the investigation questioned them about the locations of the posts, the number of servicemen serving there, their names and surnames, and other information, and threatened to cut off their fingers and kill them if they did not provide the information. On **20 December 2021**, they were released near the city of **Shusha**.

In addition, at **14:45 on 29 December 2021**, civilians employed by **Technocell LLC** — engineer **Pashayev Rashad Asif oğlu**, born in **1991**, and driver **Rahimli Anar Magomed oğlu**, born in **1993**, who were performing their official duties, travelled in a civilian **Mitsubishi L200** vehicle bearing state registration number **AZ 99-JK-820**, belonging to the same company, from the liberated village of **Jinnir, Aghdam District**, toward the village of **Pirlar, Khojaly District**. After replacing the fuel of the generator of a telephone tower belonging to **Bakcell LLC**, located in the area known as “**Yeddi Khyrman**” in the **Aghdam District**, while returning toward the village of **Jinnir**, they came under fire from a firearm, the model and type of which...

Page 177

...were not precisely known to the investigation, as a result of which **Anar Rahimli** suffered traumatic shock associated with less serious harm to health resulting in prolonged impairment of health, having sustained a penetrating gunshot wound to the upper third of the left ligament, accompanied by damage to the spindle and ulnar nerves, multiple comminuted displaced open fractures of the bones of the ligament, an open fracture of the fifth crest bone of the right hand, and a contused wound of the right hand. However, they were unable to intentionally kill him because more precise aiming was impossible. They also damaged the **Mitsubishi L200** vehicle, causing significant material damage in the amount of **7,543 manats**.

In addition, members of the criminal organization and its armed formations whose identities are unknown to the investigation, continuing to commit criminal acts in accordance with the common criminal intentions and objectives of the criminal organization, at **13:15 on 11 January 2022**, subjected the combat posts conventionally designated “**Zirve-2**” of Military Unit No. N of the Ministry of Defence, located in the direction of the village of **Zeylik in the Kalbajar District of the Republic of Azerbaijan**, to fire from opposing combat positions located in the settlement of **Yukhary Shorcha, Basarkechar District of the Republic of Armenia**, using a **Dragunov sniper rifle (SVD)**, caliber **7.62 mm**, produced in the Russian

Federation since 1963, as well as their **PK, PKT and PKS machine-gun-type weapons of Kalashnikov design**. As a result, **Nazarov Ayaz Azer oglu**, a medical instructor of the 2nd company of the 1st battalion of Military Unit No. N of the Ministry of Defence, who was at the post and was performing his duties to protect the territorial integrity and public security of the Republic of Azerbaijan, was intentionally killed after sustaining a life-threatening penetrating bullet wound to the left lung, accompanied by an open fracture of the bones of the cranial vault and diffuse destruction of brain tissue, which is classified as grievous harm to health.

In addition, members of the criminal organization and its structural organization whose identities are unknown to the investigation, continuing to commit criminal acts in accordance with the common criminal intentions and objectives of the criminal organization, under the pretext of the residence of the Armenian civilian population in the territory of the **Khojaly District**, which they held under occupation, dug trenches and erected barricades, obstructing the work of the relevant unlawful bodies of state authority in the sovereign territory of the Republic of Azerbaijan. At approximately **03:00 on 25 March 2022**, using **Kalashnikov assault rifles, PK and PKM automatic weapons**, and firearms — **Mosin and SKS sniper rifles, caliber 7.62 and 54 mm** — they fired from combat positions located in rugged terrain in the territory of the village of **Farrukh** at a combat position of Military Unit No. N of the Ministry of Defence. As a result, **Shirvanov Javid Rasul oglu**, commander of the 3rd group of the 1st platoon of the 1st company of the 1st battalion, who was performing his official duties at an observation post in mountainous terrain to protect the territorial integrity and public security of the Republic of Azerbaijan, sustained a penetrating bullet wound to the soft tissues of the scapular region, classified as less serious harm to health resulting in prolonged impairment of health.

Ramazanov Ziyafeddin Nizameddin oglu, an extended-service serviceman holding the military rank of sergeant and serving as a sapper-operative of the 1st group of the 3rd platoon of the 1st company of the 1st battalion, sustained a through-and-through bullet wound to the right upper limb, classified as less serious harm to health resulting in prolonged impairment of health. Their lives were saved owing to timely qualified medical assistance, and thus they were unable to intentionally kill them.

In addition, members of the criminal organization and its structural organization whose identities are unknown to the investigation, continuing to commit criminal acts in accordance with the common criminal intentions and objectives of the criminal organization...

...under the pretext of the residence of the Armenian civilian population in the territory of the **Khojaly District**, which they held under occupation, dug trenches and erected barricades, obstructing the work of the relevant unlawful bodies of state authority in the sovereign territory of the Republic of Azerbaijan. At approximately **15:00 on 26 March 2022**, using **PK-type machine guns, caliber 7.62**, from opposing combat positions located in rugged terrain in the territory of the village of **Farrukh**, they fired at **combat position No. 18** of Military Unit No. N of the Ministry of Defence. As a result, **Guliyev Amid Aliverdi oglu**, a reconnaissance serviceman of the 1st section of the 2nd platoon of the 6th company of the 2nd battalion, who was performing his official duties at an observation post in mountainous terrain to protect the territorial integrity and public security of the Republic of Azerbaijan, sustained a penetrating bullet wound to the upper third of both lower legs,

classified as less serious harm to health resulting in prolonged impairment of health. His life was saved owing to timely qualified medical assistance, and thus they were unable to intentionally kill him.

In addition, members of the criminal organization and its structural subdivision whose identities are unknown to the investigation, continuing to commit criminal acts in accordance with the common criminal intentions and objectives of the criminal organization, on **02 August 2022**, subjected the combat positions conventionally designated **LM-21** and the vicinity of Military Unit No. N of the Ministry of Defence, located on the territory of the **Sarybaba height in the Lachin District**, to fire from small arms, mortars and artillery of various calibers, the makes and models of which were unknown to the investigation, from opposing positions located in the settlement of **Sheki (Shaki), Karakilisa (Sisian) District of the Republic of Armenia**. As a result, **Private Agayev Huseyn Fazil oglu** of Military Unit No. N of the Ministry of Defence, who was performing his official duties to protect the territorial integrity and public security of the Republic of Azerbaijan, sustained life-threatening injuries amounting to grievous harm to health in the form of **post-traumatic neuropathy of the nerve of the right thigh, a puncture fracture of the bone of the right thigh, and a combined penetrating wound to the anterior surface of the upper third of the right thigh**. His life was saved owing to timely qualified medical assistance, and thus they were unable to intentionally kill him.

On **02 August 2022**, they fired from small arms of various calibers, the makes and models of which were unknown to the investigation, at **combat post No. 147** of Military Unit No. N of the Ministry of Defence, located in the territory of the village of **Kalafalyg, Lachin District of the Republic of Azerbaijan**, from combat positions located in the settlement of **Khazinar (Khoznar), Goris District of the Republic of Armenia**. As a result, **Private Hasanov Yusif Arasdun oglu** of Military Unit No. N of the Ministry of Defence sustained a tangential bullet wound to the soft tissues of the anterior surface of the upper third of the right forearm, the severity of which could not be determined; however, he managed to save his life by taking cover in a shelter in time.

On **02 August 2022**, they fired from small arms of various calibers, the makes and models of which were unknown to the investigation, at **combat post No. 147** of Military Unit No. N of the Ministry of Defence, located in the territory of the village of **Kalafalyg, Lachin District of the Republic of Azerbaijan**, from combat positions located in the settlement of **Sheki (Shaki), Karakilisa (Sisian) District of the Republic of Armenia**. As a result, **Private Kazimov Anar Rustam oglu** of Military Unit No. N of the Ministry of Defence was intentionally killed at the scene after sustaining a life-threatening penetrating bullet wound accompanied by multiple comminuted open fractures of the femur and damage to the femoral artery, which is classified as grievous harm to health.

Page 179

In addition, members of the criminal organization and its structural subdivision whose identities are unknown to the investigation, continuing to commit criminal acts in accordance with the common criminal intentions and objectives of the criminal organization, on **17 August 2022**, subjected the combat positions of Military Unit No. N of the Ministry of Defence, located in the territory of the village of **Minkend, Lachin District**, to fire from small arms, mortars and artillery of various calibers, the makes and models of which were unknown to the investigation, from opposing positions located in the settlement of **Sheki**

(Shaki), Karakilisa (Sisian) District of the Republic of Armenia. As a result, **Private Rustamov Ilkin Namig oğlu** of Military Unit No. N of the Ministry of Defence, who was performing his official duties to protect the territorial integrity and public security of the Republic of Azerbaijan, sustained a life-threatening gunshot wound accompanied by a **right-sided hemopneumothorax of the right half of the chest**, which is classified as causing grievous harm to health. However, his life was saved owing to timely qualified medical assistance, and thus they were unable to intentionally kill him.

In addition, members of the criminal organization and its structural subdivision whose identities are unknown to the investigation, continuing to commit criminal acts in accordance with the common criminal intentions and objectives of the criminal organization, in gross violation of the provisions of the **Convention of 10 October 1980 “on Prohibitions or Restrictions on the Use of Certain Conventional Weapons Which May Be Deemed to Be Excessively Injurious or to Have Indiscriminate Effects”** and the provisions of **Protocol No. 4 “on the prohibition of the provision and use of laser weapons causing permanent blindness”** annexed thereto, at **13:00 on 24 August 2022**, placed at a position occupied by them a device emitting a green beam, the make and type of which were unknown, for the purpose of neutralizing invisible targets by means of the said device, and directed its beams into the eyes of **Private Zeynalzade Elchin Anvar oğlu**, who was performing his official duties to protect the territorial integrity and public security of the Republic of Azerbaijan at **combat post No. 3 of Military Unit No. N of the Ministry of Defence**, located in the territory of the village of **Marzili, Aghdam District of the Republic of Azerbaijan**, while observing the territory with binoculars from a mirror device. As a result, **Elchin Zeynalzade** sustained **radiation maculopathy of the right and left eyes**, which led to a reduction in visual acuity to the point of moving by touch as a result of radiation maculopathy of the right and left eyes and trauma caused by radiation maculopathy of the right and left eyes, thereby using weapons, means and methods of warfare prohibited by international law.

In addition, members of the criminal organization and its armed formations whose identities are unknown to the investigation, continuing to commit criminal acts in accordance with the common criminal intentions and objectives of the criminal organization, at **17:00 on 02 September 2022**, subjected the combat posts conventionally designated “**KS-15**” of Military Unit No. N of the Ministry of Defence, located in the direction of the village of **Zeylik in the Kalbajar District of the Republic of Azerbaijan**, to fire from opposing combat positions located in the settlement of **Yukhary Shorcha, Basarkechar District of the Republic of Armenia**, using small arms of an unknown make and model. As a result, servicemen of Military Unit No. N of the Ministry of Defence — **Junior Sergeant Rzayev Farhad Nazir oğlu**, who was performing his duties to protect the territorial integrity and public security of the Republic of Azerbaijan, sustained a life-threatening penetrating tangential gunshot wound to the jaw, which is classified as causing minor harm to health; **Private Ahmedov Musa Azer oğlu** sustained blind shrapnel wounds to the left forearm and foreign bodies in the soft tissues of the left forearm. However, they were unable to intentionally kill them.

Page 180

In addition, members of the criminal organization and its armed formations whose identities are unknown to the investigation, continuing to commit criminal acts in accordance with the common criminal intentions and objectives of the criminal organization, at **16:00 on 15 September 2022**, subjected the combat posts of the **State Border Service**, located on the territory of **Bartaz height, Zangilan District of the Republic of Azerbaijan**, to fire from

opposing combat positions located in the territory of the **Republic of Armenia**, using automatic small arms of an unknown make and model. As a result, **Junior Sergeant Huseynli Rashad Ramiz oğlu**, an extended-service serviceman and assistant grenadier of the 2nd rapid-response group of the rapid-response company of the rapid-response battalion of Military Unit No. N of the Ministry of Defence, who was performing his duties to protect the territorial integrity and public security of the Republic of Azerbaijan, was killed at the scene after sustaining a life-threatening penetrating gunshot wound to the thoracic and abdominal cavities, which is classified as causing grievous harm to health; while **Lieutenant Radjabov Sakhavat Togrul oğlu**, deputy commander of the 2nd group of the 2nd Operations Department of Military Unit No. N, who had been seconded to the said unit, sustained a penetrating wound with damage to the lung, which is classified as causing grievous harm to health, but they were unable to intentionally kill them owing to timely qualified medical assistance.

In addition, members of the criminal organization and its armed formations whose identities are unknown to the investigation, continuing to commit criminal acts in accordance with the common criminal intentions and objectives of the criminal organization, at **18:00 on 23 September 2022**, subjected the combat posts of Military Unit No. N of the Ministry of Defence, located in the direction of the villages of **Istisu and Zeylik in the Kalbajar District of the Republic of Azerbaijan**, to fire from opposing combat positions located in the settlements of **Yukhary Shorcha and Jermuk, Basarkechar District of the Republic of Armenia**, using a **Dragunov sniper rifle (SVD), caliber 7.62 mm**, manufactured in the Russian Federation since 1963, as well as **PK, PKT and PKS machine-gun-type weapons of Kalashnikov design**. As a result, **Captain Amanullayev Rashad Agajan oğlu**, machine gunner of the 1st platoon of the 9th operational company of the 3rd operational battalion of Military Unit No. N of the Ministry of Defence, who was at the post and was performing his duties to protect the territorial integrity and public security of the Republic of Azerbaijan, sustained a penetrating gunshot wound to the soft tissues of the left forearm, accompanied by temporary loss of function of the elbow joint, which is classified as causing less serious harm to health; **Private Javadov Ravan Shamsaddin oğlu**, assistant grenadier of the 2nd operational group of the 1st operational platoon of the 9th operational company of the 3rd operational battalion of Military Unit No. N of the Ministry of Defence, sustained a penetrating wound to the soft tissues of the left thigh, which is classified as causing grievous harm to health; **Private Rahimzade Rukhid Oktay oğlu**, assistant grenadier of the 2nd operational group of the 1st operational platoon of the 9th operational company of the 3rd operational battalion of Military Unit No. N of the Ministry of Defence, sustained a shrapnel, displaced, exfoliating gunshot wound to the right foot, observed with an open fracture of the body of the calcaneus, which is classified as causing less serious harm to health resulting in prolonged impairment of health, as well as other injuries. However, they were unable to intentionally kill them owing to timely qualified medical assistance.

In addition, members of the criminal organization and its armed formations whose identities are unknown to the investigation, continuing to commit criminal acts in accordance with the common criminal intentions and objectives of the criminal organization, at approximately **11:00 a.m. on 25 September 2022**, subjected the combat position conventionally designated “GC-4” of Military Unit No. N of the Ministry of Defence, located...

...in the territory of the **Dashkasan District of the Republic of Azerbaijan**, from small arms, the make and model of which have not been precisely established by the investigation, from border positions of the **Republic of Armenia**, as a result of which **Namazaliyev Firuddin Rafail oğlu**, commander of the grenade-launcher group of the 1st anti-tank section of the 2nd platoon of that military unit, who was performing his official duties to protect the territorial integrity and public security of the Republic of Azerbaijan, sustained a gunshot wound to the left thigh, resulting in minor harm to health and short-term impairment of health; **Junior Sergeant Aliyev Sabukhi Vahid oğlu**, an active-duty extended-service serviceman and reconnaissance medic of the 1st group of the 2nd platoon of the same military unit, sustained a gunshot wound to the right thigh, resulting in minor harm to health and short-term impairment of health. However, they were unable to intentionally kill the two servicemen because the latter managed to take cover.

In addition, members of the criminal organization and its armed formations whose identities have not been established by the investigation, continuing to commit criminal acts in accordance with the common criminal intentions and objectives of the criminal organization, at approximately **11:00 on 28 September 2022**, fired from small arms, the make and model of which have not been precisely established by the investigation, at combat units of Military Unit No. N of the Ministry of Defence deployed in the direction of the **Alagöller area of the Kalbajar District of the Republic of Azerbaijan**, from the border combat position **No. K-82-Ch** in the territory of the Republic of Armenia. As a result, **Junior Sergeant Iskanderov Nijat Idayat oğlu**, an active-duty extended-service serviceman and member of the mortar group of the 4th platoon of the 5th company of the 2nd operational battalion, who was performing his official duties to protect the territorial integrity and public security of the Republic of Azerbaijan, sustained a gunshot wound causing grievous harm to health, as the bullet entered in the area of the angle of the right jaw and exited through the forehead, causing an open craniocerebral injury and loss of vision in the right eye. However, they were unable to intentionally kill him because he was evacuated to a military hospital in a timely manner and received qualified medical assistance.

In addition, members of the criminal organization and its armed formations whose identities have not been established by the investigation, continuing to commit criminal acts in accordance with the common criminal intentions and objectives of the criminal organization, at approximately **11:00 on 05 March 2023**, fired from small arms, the make and model of which have not been precisely established by the investigation, at **Senior Lieutenant Alibeyli Shahriyar Ramiz oğlu**, a serviceman of group “Ch” of battalion “N” of Military Unit No. N of the Ministry of Defence, and **Soldier Huseynov Eshkin Jamil oğlu**, an active-duty extended-service serviceman of group “E” of battalion “N” of the same military unit, who were performing duties to protect the territorial integrity of the Republic of Azerbaijan and ensure public security in the territory of the **Shusha District**, inflicting gunshot wounds upon them accompanied by fractures of the skull bones and severe contusion and destruction of the brain, which, in living persons, constitute grievous harm to health dangerous to life and which resulted in the deaths of both servicemen.

In addition, members of the criminal organization and its armed formations whose identities have not been established by the investigation, continuing to commit criminal acts in accordance with the common criminal intentions and objectives of the criminal organization, at approximately **03:00 on 20 March 2023**, fired from small arms, the make and model of which have not been precisely established by the investigation, at the **1st border combat post of Military Unit No. N of the State Border Service**, located in the territory of

the **Agbashyurd Heights, Zangilan District of the Republic of Azerbaijan**, from positions located in the direction of the **Kafan...**

Page 182

...District of the Republic of Armenia, as a result of which **Junior Sergeant Manadov Ramil Subkhi oğlu**, of the combat-support platoon of the rapid-response battalion of Military Unit No. N, who was on combat duty at the said combat post and was performing his official duties to protect the territorial integrity and public security of the Republic of Azerbaijan, sustained a gunshot wound causing grievous harm to health dangerous to life as a result of a bullet wound to the left half of the chest. However, they were unable to intentionally kill him because he was evacuated to a military hospital in a timely manner and received qualified medical assistance.

In addition, members of the criminal organization and its armed formations whose identities have not been established by the investigation, continuing to commit criminal acts in accordance with the common criminal intentions and objectives of the criminal organization, at **14:50 on 31 March 2023**, fired from a firearm, the make and model of which have not been precisely established by the investigation, at a combat post of the 1st battalion of Military Unit No. N of the Ministry of Defence located in the territory of the village of **Imamgulular, Shusha District**, liberated as a result of countermeasures undertaken by the Armed Forces of the Republic of Azerbaijan against the large-scale aggressive attacks that had intensified from **27 September 2020**. As a result, **Junior Sergeant Ahmedov Yusuf Alesker oğlu**, an active-duty extended-service serviceman serving as a reconnaissance medic of the 4th platoon of the 1st company, while organizing combat duty at the said combat position, sustained a through-and-through gunshot (bullet) wound with an entrance wound through the posterior surface of the lower third of the left thigh and an exit wound through the anterior surface of the knee joint. However, they were unable to intentionally kill him because he managed to evade the bullets by taking cover in a trench at the combat position.

In addition, members of the criminal organization and its armed formations whose identities have not been established by the investigation, continuing to commit criminal acts in accordance with the common criminal intentions and objectives of the criminal organization, at approximately **17:00 on 11 April 2023**, fired from sniper and automatic weapons, the design, make and model of which have not been precisely established by the investigation, at the combat position of the 1st battalion of Military Unit No. N of the Ministry of Defence located in the village of **Zabukh, Lachin District of the Republic of Azerbaijan**, from positions of the Armed Forces of the Republic of Armenia located in the area of the village of **Tekh, Goris District**. As a result, while engineering and fortification works were being carried out, servicemen of Military Unit No. N of the Ministry of Defence were intentionally killed at the scene: **Warrant Officer Hasanov Elshad Habil oğlu**, who was performing his official duties to protect the territorial integrity and public security of the Republic of Azerbaijan, having sustained a penetrating gunshot wound to the left temple, causing grievous harm to health dangerous to life; **Warrant Officer Zalov Vidadi Nizami oğlu** sustained a penetrating gunshot wound to the jaw, causing grievous harm to health dangerous to life; **Private Tagiyev Sabukhi Gyunduz oğlu** — a penetrating gunshot wound to the nose, causing grievous harm to health dangerous to life; serviceman of the same military unit **Private Aliyev Bashareddin Kamil oğlu** sustained a penetrating gunshot wound to the right temple, causing grievous harm to health dangerous to life; **Private Ibrahimov Nurlan Ibrahim oğlu** — a gunshot wound to the neck, causing grievous harm to

health dangerous to life; **Private Rustamov Elmir Bashir oğlu** — a penetrating gunshot wound to the left ankle joint; serviceman **Najafov Renat Zaur oğlu** — a wound to the face; serviceman **Zamanov Ramish Yolchu oğlu** — a wound to the lower lip; **Captain Safarov Shahin Elsever oğlu** — bodily injuries of varying severity; the commander of the engineering and fortification subdivision of that military...

Page 183

...unit, **Lieutenant Hajiyeve Murad Elshan oğlu**, sustained gunshot wounds to the right section of the spinal column, causing minor harm to health and resulting in short-term impairment of health; serviceman **Guliyev Magomed Shafi oğlu** sustained injuries to the right calf joint which caused no harm to health. However, they were unable to intentionally kill the **8 servicemen**, since the latter managed to save their lives owing to the timely provision of qualified medical assistance, as well as by taking cover in a trench and evading the bullets. At the same time, a **UAZ vehicle**, military registration number **0-400-QQ**, belonging to Military Unit No. N, and a **Mitsubishi L200 vehicle**, state registration number **50-AA-743**, belonging to the **Oryol Construction Company**, sustained various types of damage, causing material damage in the amount of **350 manats** to the military unit and **2,119.46 manats** to the **Oryol Construction Company**.

In addition, members of the criminal organization and its armed formations whose identities are unknown to the investigation, continuing to commit criminal acts in accordance with the common criminal intentions and objectives of the criminal organization, at approximately **10:00 on 08 May 2023**, from positions located in the territory of the **Goris District of the Republic of Armenia**, fired from a firearm of an unknown make and model at a **Doosan excavator**, military registration number **O 428 QQ**, operated by **Abasgulyev Etibar Hasankhan oğlu**, an extended-service serviceman of the 1st section of the 5th platoon of the engineering-fortification unit of Military Unit No. N of the Ministry of Defence, who was performing his official duties involving drilling work in the area of the village of **Zabukh, Lachin District**. However, at the moment the firing began, soldier-driver **Etibar Abasgulyev** acted quickly and managed to save his life by immediately leaving the driver's seat and taking cover in a shelter in the area, and therefore they were unable to intentionally kill him during the incident. However, the windshield of the **Doosan excavator**, military registration number **O 428 QQ**, was shattered, thereby causing material damage to Military Unit No. N.

In addition, members of the criminal organization and its armed formations whose identities are unknown to the investigation, continuing to commit criminal acts in accordance with the common criminal intentions and objectives of the criminal organization, at approximately **19:00 on 10 May 2023**, subjected the combat post conventionally designated "**Ertogrul**" of the 1st battalion of Military Unit No. N of the Ministry of Defence, located in the territory of the village of **Demirchidam, Kalbajar District of the Republic of Azerbaijan**, to fire from an automatic firearm of an unknown make and model. As a result, **Private Mahmudlu Muslim Vidadi oğlu**, a rifleman of the 2nd section of the 3rd platoon of the 1st company of the 1st battalion of Military Unit No. N of the Ministry of Defence, who was present at the post and was performing his official duties to protect the territorial integrity and public security of the Republic of Azerbaijan, sustained a life-threatening penetrating bullet wound to the **left temporal region**, accompanied by damage to the brain. However, they were unable to intentionally kill him because he was evacuated to a military hospital in a timely manner and was provided with qualified medical assistance.

In addition, members of the criminal organization and its armed formations whose identities are unknown to the investigation, continuing to commit criminal acts in accordance with the common criminal intentions and objectives of the criminal organization, at approximately **09:00 on 11 May 2023**, fired an **anti-tank artillery projectile**, the make and model of which are unknown, at positions of Military Unit No. N of the Ministry of Defence located in the area of the village of **Demirchidam, Kalbajar District of the Republic of Azerbaijan**, in the direction of the conditional state border of the Republic of Armenia, from positions located in the territory of the **Basarkechar District of the Republic of Armenia**. As a result, **Novruzali-zade Orkhan Elkhan oglu**, a driver-mechanic of the tank platoon of the tank division of the 1st tank battalion of Military Unit No. N, who was at the combat position at the time and was performing his duties to protect the territorial integrity and...

Page 184

...public security of the Republic of Azerbaijan, and who was operating a **T-72 M-1K armored tank**, turret number **400**, belonging to the military unit, attempted to move it out of the line of fire into a trench. However, the tank was hit, and soldier **Novruzali-zade Orkhan Elkhan oglu** was intentionally killed after sustaining a shrapnel injury to the bones of the cranial vault (*shrapnel, blast burn*) and hemorrhage into the brain tissue, injuries which, in living persons, constitute grievous harm to health.

Warrant Officer Gushchiyev Emin Huseyn oglu, commander of the tank of the communications platoon of the 1st tank battalion of Military Unit No. N, who at that time was showing the latter the route for moving the tank into the trench, and **Senior Warrant Officer Khalilov Rafael Gadim oglu**, chief technician of the 1st tank company of the 1st tank battalion of Military Unit No. N, sustained a closed craniocerebral injury resulting in concussion, associated with minor harm to health and short-term impairment of health caused by the impact of the blast wave. Thus, they were unable to intentionally kill the two servicemen because the latter were located at a distance from the center of the explosion. During the incident, significant damage was caused to Military Unit No. N through the destruction of the **T-72 M-1K armored tank**, turret number **400**.

In addition, members of the criminal organization and its armed formations whose identities are unknown to the investigation, continuing to commit criminal acts in accordance with the common criminal intentions and objectives of the criminal organization, at **20:30 on 12 May 2023**, opened fire on the Azerbaijani army combat position conventionally designated "**K-9**", located in the settlement of **Zod, Kalbajar District of the Republic of Azerbaijan**, from positions located in the territory of the **Basarkechar District of the Republic of Armenia**, shelling it with a **large-caliber artillery projectile**, the make and model of which are unknown. As a result, **Mustafayev Sanan Elchin oglu**, commander of the artillery division of Military Unit No. N, who at that time was performing his official duties to protect the territorial integrity and public security of the Republic of Azerbaijan and was at the combat post, sustained shrapnel wounds causing **less serious harm to health**, which overall resulted in prolonged impairment of health and were accompanied by blast trauma and multiple fractures of the hand and foot. However, they were unable to intentionally kill him because he was evacuated to a military hospital in a timely manner and was provided with qualified medical assistance.

In addition, members of the criminal organization and its armed formations whose identities are unknown to the investigation, continuing to commit criminal acts in accordance with the

common criminal intentions and objectives of the criminal organization, at approximately **21:00 on 12 May 2023**, shelled the strongpoint of the 4th battalion of Military Unit No. N, located in the territory of the village of **Ellidja, Kalbajar District of the Azerbaijani Army**, from positions located in the territory of the **Basarkechar District of the Republic of Armenia**, using a **large-caliber artillery projectile**, the make and model of which are unknown. As a result, **Garaev Magomed Mahir oglu**, a fitter-assembler of the technical maintenance section of the materiel and technical support platoon of the 4th motorized rifle battalion, who at that time was performing his official duties to protect the territorial integrity and public security of the Republic of Azerbaijan, was intentionally killed after sustaining a shrapnel wound causing grievous harm to health dangerous to life, which resulted in his death from acute bleeding caused by damage to the **right lung and pulmonary artery**.

His assistant chief of staff for logistics of the 4th motorized rifle battalion of Military Unit No. N, chief of communications of the 4th battalion and platoon commander **Makhsudlu Magsud Valekh oglu**, sustained blind wounds and other injuries causing grievous harm to health dangerous to life, penetrating into the chest and abdominal cavity and accompanied by damage to the **liver, small intestine and diaphragm**; commander of the technical maintenance section of the materiel and technical support platoon of the 4th motorized rifle battalion **Mehraliyev Togrul Fariz...**

Page 185

...oglu; medical instructor of the 12th division of the 4th battalion **Ismailzade Tural Zafar oglu** sustained injuries to various parts of the body causing minor harm to health, causing prolonged impairment of health, which resulted in short-term impairment of health overall; driver of the automobile section of the materiel and technical support platoon of the 4th battalion **Askerov Sokhrab Sardar oglu** sustained an injury causing minor harm to health and resulting in short-term impairment of health; assistant chief of staff of the 4th motorized rifle battalion for materiel and technical support **Orudzhzade Vurgun Abulfaz oglu**, deputy commander of the 10th company of the 4th battalion for work with personnel **Aliyev Asad Elman oglu**, deputy commander of the 4th battalion, and cook of the household section of the materiel and technical support platoon of the 4th battalion **Dzhavadzade Absalam Nazim oglu** sustained bodily injuries, the severity of which cannot be determined. However, they were unable to intentionally kill **Makhsudlu Magsud Valekh oglu** and **Mekhraliyev Togrul Fariz oglu**, since they were evacuated in time to a military hospital, where they received qualified medical assistance, while **Ismailzade Tural Zafar oglu**, **Askerov Sokhrab Sardar oglu**, **Orudzhzade Vurgun Abulfaz oglu**, **Aliyev Asad Elman oglu**, and **Aliyev Dzhavadzade Absalam Nazim oglu** were at some distance from the epicenter of the explosion, and therefore they were unable to kill them.

In addition, members of the criminal organization and its armed formations whose identities are unknown to the investigation, continuing to commit criminal acts in accordance with the common criminal intentions and objectives of the criminal organization, at **19:00 on 17 May 2023**, organized an attack using a **kamikaze-type attack UAV** from positions located in the settlement of **Zod, Basarkechar District of the Republic of Armenia**, against the combat position conventionally designated “**K-22**” of the 10th company of the 4th battalion of Military Unit No. N of the Ministry of Defence, located in the territory of the village of **Ellidzha, Kalbajar District**. As a result, **Junior Sergeant Aliyev Novruz Khagverdi**, commander of the 1st section of the 1st platoon of the same subdivision, who was performing

his official duties to protect the territorial integrity and public security of the Republic of Azerbaijan, sustained a **“blunt injury to the right elbow”** from being struck by a piece of stone detached as a result of the drone impact. However, they were unable to intentionally kill him because a large piece of stone blocked the blast wave and fragments.

In addition, members of the criminal organization and its armed formations whose identities are unknown to the investigation, continuing to commit criminal acts in accordance with the common criminal intentions and objectives of the criminal organization, at approximately **19:00 on 27 June 2023**, fired from an automatic firearm, the make and model of which are unknown to the investigation, from positions occupied by them at a combat position located in the village of **Galaychilar, Aghdam District of the Republic of Azerbaijan**. As a result, serviceman of Military Unit No. N of the Ministry of Defence **Bakirov Ali Shukur oglu**, who was performing his official duties to protect the territorial integrity and public security of the Republic of Azerbaijan, sustained a gunshot wound penetrating the soft tissues of the left lower leg, associated with minor harm resulting in short-term impairment of health. However, they were unable to intentionally kill him because he evaded the bullets by taking cover in a trench.

In addition, members of the criminal organization and its armed formations whose identities are unknown to the investigation, continuing to commit criminal acts in accordance with the common criminal intentions and objectives of the criminal organization, on **11 July 2023**, opened fire from a combat position located in the indicated direction, using a firearm the make and model of which are unknown to the investigation, at subdivisions of Military Unit No. N of the Ministry of Defence located in the **Lachin District of the Republic of Azerbaijan**. As a result, the operator of the anti-tank guided...

...missile section of the 2nd anti-tank platoon of the anti-tank division of Military Unit No. N, serviceman **Abdullayev Huseyn Arif oglu**, who was performing his official duties to protect the territorial integrity and public security of the Republic of Azerbaijan, sustained a gunshot wound to the soft tissues of the middle third of the right shoulder region and the right scapula, causing minor harm to health and resulting in short-term impairment of health. However, they were unable to intentionally kill him because the bullet struck an obstacle and slightly changed direction.

In addition, members of the criminal organization and its armed formations whose identities are unknown to the investigation, continuing to commit criminal acts in accordance with the common criminal intentions and objectives of the criminal organization, at **19:45 on 09 August 2023**, fired at **long-term observation post No. 1** of the combat position conventionally designated **“K-22-Ch”** of Military Unit No. N of the Ministry of Defence, located in the territory of the village of **Yukhary Ellidzhe, Kalbajar District of the Republic of Azerbaijan**, from positions located approximately **25–30 metres away** in territory under the control of the Republic of Armenia, using **Kalashnikov automatic firearms of the AK and AKS-74 designs, caliber 5.45 mm**. As a result, serviceman of the 2nd section of the 2nd platoon of the 10th company of the 4th battalion of Military Unit No. N of the Ministry of Defence **Agayev Ali Akhliman oglu**, who was at the observation post of the combat position and was performing his official duties to protect the territorial integrity and public security of the Republic of Azerbaijan, sustained multiple bullet wounds to the area of the left eye and upper lip, resulting in short-term impairment of health. However, they

were unable to intentionally kill him because he was lying on the floor in the trench and thereby avoided the numerous bullets.

In addition, members of the criminal organization and its armed formations whose identities are unknown to the investigation, continuing to commit criminal acts in accordance with the common criminal intentions and objectives of the criminal organization, at approximately **10:00 on 21 August 2023**, fired from a firearm, the make and model of which are unknown to the investigation, at the combat position of the 3rd company of the 1st battalion of Military Unit No. N of the Ministry of Defence, conventionally designated “**K-48**”, located in the direction of the village of **Zar, Kalbajar District of the Republic of Azerbaijan**, from combat positions located in the settlement of **Ashaghi Shorcha, Basarkechar District of the Republic of Armenia**. As a result, **Warrant Officer Nazarov Ramiz Ismet oglu**, commander of the 2nd sniper platoon of the sniper division of Military Unit No. N, who was at the said combat position and was performing his official duties to protect the territorial integrity and public security of the Republic of Azerbaijan, sustained a blind bullet wound penetrating into the oral cavity through the right cheek, accompanied by damage to the right zygomatic bone, which resulted in prolonged impairment of health, as a result of the ricochet of a bullet from a solid obstacle, as well as other injuries. However, they were unable to intentionally kill him because he was evacuated in time to a military hospital and provided with qualified medical assistance.

In addition, members of the criminal organization and armed formations constituting its structural subdivision, whose identities are unknown to the investigation, continuing the criminal act in accordance with the common criminal objectives and intent of the criminal formation, at approximately **07:00 on 31 August 2023**, in the territory of the village of **Demirchidam, Kalbajar District**, fired from small arms and artillery pieces, the makes and models of which are unknown to the investigation, at a combat position of the Azerbaijani Army located on the state border between **Azerbaijan and Armenia**, conventionally designated “**K-8**”, from border positions of the Republic of Armenia. As a result, servicemen of Military Unit No. N of the Ministry of Defence of the Republic of Azerbaijan, who were performing their official duties to protect public security and the territorial...

Page 187

...integrity of the Republic of Azerbaijan, **Warrant Officer Tagiyev Mahammad Ramiz oglu** sustained a penetrating gunshot wound to the right temple, classified as causing less serious harm to health resulting in prolonged impairment of health; **Junior Sergeant Mammadli Sadyg Saday oglu** sustained two blind wounds to the area of the left knee joint, accompanied by post-traumatic hemarthrosis resulting in temporary impairment of the function of the knee joint, with foreign metallic bodies in the soft tissues, as well as a blind wound to the soft tissues of the right thigh, that is, injuries which, taken as a whole, are classified as causing less serious harm to health resulting in prolonged impairment of health. However, neither of the said **2 servicemen** was intentionally killed, as they were evacuated to a military hospital of the Ministry of Defence, where they received specialized medical assistance.

In addition, members of the criminal organization whose identities have not been established by the investigation, acting with the same criminal objectives and intent, at approximately **09:00 on 01 September 2023**, in the territory of the village of **Demirchidam**,

Kalbajar District, fired from small arms and artillery pieces, the makes and models of which are unknown to the investigation, at the combat positions of the Azerbaijani Army located on the state border between Azerbaijan and Armenia and conventionally designated “K-7” and “K-8”, from border positions of the Republic of Armenia. As a result, servicemen of Military Unit No. N of the Ministry of Defence of the Republic of Azerbaijan, who were performing their official duties to protect public security and the territorial integrity of the Republic of Azerbaijan, sustained the following injuries: **Sergeant Aliyev Ulfat Novruz oğlu** — a shrapnel gunshot wound to the thoracic cavity, damaging the tissue of the left lung, classified as causing grievous harm to health dangerous to life; **Soldier Eyvazov Magerram Jeyhun oğlu** — shrapnel wounds to the left shoulder, thigh and lower leg, classified as causing less serious harm to health resulting in prolonged impairment of health. However, neither of the said **2 servicemen** was intentionally killed, as they were evacuated to a military hospital of the Ministry of Defence, where they received specialized medical assistance.

In addition, members of the criminal organization whose identities have not been established by the investigation, acting with the same criminal objectives and intent, at approximately **11:30 on 01 September 2023**, in the territory of the village of **Demirchidam, Kalbajar District**, fired from small arms and artillery pieces, the makes and models of which are unknown to the investigation, at the combat positions of the Azerbaijani Army located on the state border between Azerbaijan and Armenia and conventionally designated “K-7” and “K-8”, from border positions of the Republic of Armenia. As a result, **Lieutenant Alisoy Mammad Chapay oğlu**, a serviceman of Military Unit No. N of the Ministry of Defence of the Republic of Azerbaijan, who was performing his official duties to protect public security and the territorial integrity of the Republic of Azerbaijan, sustained shrapnel wounds to the occipital region, left temple, right thigh and left cheek, classified as causing minor harm to health resulting in short-term impairment of health. However, he was not intentionally killed, as he lay down in a trench and took cover from the other fragments.

In addition, members of the criminal organization whose identities have not been established by the investigation, acting with the same criminal objectives and intent, at approximately **12:00 on 01 September 2023**, in the territory of the village of **Yellija, Kalbajar District**, fired from small arms and artillery pieces, the makes and models of which are unknown to the investigation, at the combat positions of the Azerbaijani Army located on the state border between Azerbaijan and Armenia and conventionally designated “K-20”, from border positions of the Republic of Armenia. As a result, a serviceman of Military Unit No. N of the Ministry of Defence of the Republic of Azerbaijan, who was performing his official duties to protect public security and the territorial integrity of the Republic of Azerbaijan, Senior...

Page 188

...Lieutenant **Ahmedov Mehdi Huseyn oğlu** sustained a shrapnel wound to the neck, classified as causing minor harm to health resulting in short-term impairment of health; a serviceman of the same military unit, **Soldier Gasimov Gyunduz Intizam oğlu**, sustained injuries to the right arm, the degree of severity of which could not be determined, as they constituted injuries causing no harm to health. Neither of the **2 servicemen** was intentionally killed, as they took cover from the other fragments.

In addition, members of the criminal organization and the armed formations constituting its structural subdivision, whose identities have not been established by the investigation,

continuing their criminal activities in accordance with the common criminal objectives and intent of the criminal organization, in gross violation of the requirements of the **International Convention against the Taking of Hostages**, adopted in New York on **17 December 1979**, the **Universal Declaration of Human Rights** of the UN General Assembly of **10 December 1948**, the **Convention for the Protection of Human Rights and Fundamental Freedoms**, adopted by the Council of Europe on **04 November 1950**, the **International Covenant on Civil and Political Rights** of the UN General Assembly of **16 December 1966**, as well as other norms of international law, took hostage **Ibayev Kyamiza Mubariz oglu**, a soldier of Military Unit No. N of the Ministry of Defence, who, at approximately **12:00 on 23 July 2022**, left the strongpoint of Military Unit No. N of the Ministry of Defence in which he was serving, located near the village of **Yellija, Kalbajar District**, and, due to foggy weather, lost his way while proceeding on foot to the headquarters of the military unit.

Thereafter, they tied the hands of **Ibayev Kyamiza Mubariz oglu**, thereby restricting his movement, and transported him in that condition to the territory of the **Republic of Armenia**, where members of the criminal organization, in a dark prison whose location has not been established by the investigation, brutally beat him using hard blunt objects and physical violence, as a result of which he became exhausted; subjected him to cruel and inhuman treatment consisting of beatings, insults using obscene language, and extinguishing cigarettes on various parts of his body, thereby inflicting burns upon him; and, contrary to the norms of international law, unlawfully deprived him of his liberty from the time he was taken hostage until **03 August 2022**, that is, for **13 days**, unlawfully holding him in custody.

Kyamiza Ibayev sustained numerous small superficial wounds to the posterior surface of the neck, the anterior surface of the left half of the chest, the left shoulder and both forearms, the right wrist joint and the posterior surface of the right hand, classified as causing minor harm to health resulting in short-term impairment of health and characteristic of injuries caused by the local effect of high temperature. He was beaten and thereby subjected to physical violence, kept without food, insulted and thereby subjected to torture, and on **03 August 2022** was released and returned to the Republic of Azerbaijan.

In addition, on **19 September 2023**, at approximately **18:00–19:00**, members of the criminal organization, having opened fire from artillery pieces on the village of **Mollalar, Aghdam District**, which had been liberated from occupation, committed a terrorist act. At that time, **Hasanov Mehman Fikret oglu**, born on **25 February 1992**, a civilian resident of the village of **Bashgervend, Aghdam District**, who had been seconded on **10 September 2023** by **Körpü-Bina-Tikinti LLC** as an excavator driver to carry out excavation and construction work in the said territory for the purpose of road construction in the village of Mollalar, Aghdam District, was standing beside a **Liugong CLG 930E excavator**, state registration number **AZ 10-FC-054**, assigned to him, recorded on the balance sheet of the said LLC, and was planning the work. On hearing the sounds of explosions, he ran toward nearby trees in order to take cover, and at that moment was injured by the explosion of another artillery projectile which landed at a distance of approximately **80 metres**, as a result of which he sustained a shrapnel wound to the right knee, classified as...

Page 189

...classified as causing minor harm to health as a result of the impact of fragments; however, he was not intentionally killed because he was relatively far from the blast wave.

The leaders and members of the criminal formation, carrying out unlawful activities with the support of the military-political leadership, including the armed forces and other armed formations of the **Republic of Armenia**, as well as with their direct material and technical support and support in the form of personnel, on the basis of their centralized command, oral and written directions, assignments and instructions, and also under their strict control, contrary to the requirements of measures concerning the peaceful settlement of disputes, as well as threats to the peace, breaches of the peace and acts of aggression provided for in Chapters VI and VII of the **Charter of the United Nations of 26 June 1945**, the **Convention on Prohibitions or Restrictions on the Use of Certain Conventional Weapons Which May Be Deemed to Be Excessively Injurious or to Have Indiscriminate Effects of 10 October 1980** and the **Protocol on Prohibitions or Restrictions on the Use of Mines, Booby-Traps and Other Devices** annexed to that Convention, the **UN Convention for the Amelioration of the Condition of the Wounded and Sick in Armed Forces in the Field**, the **Geneva Convention relative to the Protection of Civilian Persons in Time of War of 12 August 1949**, the **Ottawa Convention on the Prohibition of the Use, Stockpiling, Production and Transfer of Anti-Personnel Mines and on Their Destruction of 03 December 1997**, the **UN Universal Declaration of Human Rights of 10 December 1948**, the **European Convention for the Protection of Human Rights and Fundamental Freedoms of 04 November 1950**, the **Warsaw Convention of the Council of Europe on the Suppression of Terrorism of 16 May 2005**, and the **Hague Convention respecting the Laws and Customs of War on Land of 1907**, and failing to comply with the requirements of paragraph 1 (*“A complete ceasefire and cessation of all hostilities in the zone of the Nagorno-Karabakh conflict is hereby declared from 00:00 Moscow time on 10 November 2020.”*), paragraph 4 (*“...with the withdrawal of Armenian armed forces from the occupied territories”*), paragraph 7 (*“Internally displaced persons and refugees shall return to the territory of Nagorno-Karabakh and the adjacent districts under the control of the Office of the United Nations High Commissioner for Refugees.”*) and other requirements of the **Statement of 10 November 2020**, signed by the President of the Republic of Azerbaijan, the Prime Minister of the Republic of Armenia and the President of the Russian Federation, following the liberation from occupation of the **Fuzuli, Jabrayil, Zangilan and Qubadli Districts**, as well as the city of **Shusha** of the Republic of Azerbaijan, which for many years, contrary to the norms of international law, had been under their unlawful occupation, despite the fact that approximately **2 years** had elapsed since the signing of the relevant Statement, did not withdraw the armed forces from the **Khojaly, Aghdara, Khankendi and Khojavend Districts and the city of Khankendi**, which are sovereign territories of the Republic of Azerbaijan and were under their occupation. During that period, they also unlawfully installed engineering and sapper installations for the implementation of future criminal objectives and openly refused to hand over the weapons and ammunition, military equipment and installations which they unlawfully kept in those territories, and continued carrying out work to mine the areas adjoining the positions they were fortifying, reinforce engineering and sapper installations, and increase their armaments.

Obstructing reconstruction and restoration work in the territories of the Republic of Azerbaijan liberated from occupation, at approximately **23:30 on 12 September 2022**, the **Armed Forces of the Republic of Armenia**, with the armed support of members of the illegal armed formations of the said criminal formation in the territories of the **Khojaly, Aghdara, Khankendi and Khojavend Districts and the city of Khankendi of the Republic of Azerbaijan**, which at that time remained under occupation, opened fire on military and civilian facilities from artillery installations, mortars and other small- and large-

caliber weapons in the direction of the **Zangilan, Qubadli, Dashkasan, Kalbajar and Lachin Districts...**

Page 190

...of the **Republic of Azerbaijan**, located on the border with the **Kapan, Goris, Jermuk, Basarkechar and Chambarak Districts of the Republic of Armenia**, thereby launching large-scale aggressive attacks from border positions for the purpose of reoccupying the territories liberated from occupation and bringing them under their control.

During the period from **12 September 2022 to 14 September 2022**, as a result of intensive shelling from large-caliber weapons, mortars and artillery installations of various calibers from combat positions of the Republic of Armenia against guard posts and headquarters of the Armed Forces located in the territories of the **Zangilan, Qubadli, Dashkasan, Kalbajar and Lachin Districts**, encompassed by the common criminal intent of the criminal formations under the direct command of the said leaders of the criminal organization and others, they intentionally killed **5 servicemen of Military Unit No. N of the State Border Service of the Republic of Azerbaijan in the territory of the Zangilan District, 14 servicemen of Military Unit No. N of the Ministry of Defence of the Republic of Azerbaijan, 2 servicemen of Military Unit No. N of the State Border Service in the territory of the Lachin District, 55 servicemen of Military Units Nos. N of the Ministry of Defence of the Republic of Azerbaijan, and 1 serviceman of Military Unit No. N of the State Border Service in the territory of the Kalbajar District**, for a total of **77 servicemen of the Armed Forces of the Republic of Azerbaijan**, namely:

Pursuant to **paragraph 4 of the Joint Statement of 10 November 2020**, signed by the Presidents of the **Republic of Azerbaijan** and the **Russian Federation**, as well as by the Prime Minister of the **Republic of Armenia**, following the armed conflict that took place during the period from September to November 2020, the unconditional withdrawal of Armenian armed formations from the occupied territories of Azerbaijan and the deployment of the Russian peacekeeping contingent in the Karabakh region of Azerbaijan for a specified period of time were envisaged.

However, the criminal organization operating in the said territory and its constituent structural subdivisions — armed formations not provided for by law — in violation of the requirements of the said Statement, during the said period continued unlawfully to install engineering and sapper installations for future criminal purposes in the sovereign territories of the **Republic of Azerbaijan — in the Khojaly, Aghdara, Khankendi, Khojavend and Shusha Districts**— and openly refused to hand over the weapons and ammunition, military equipment and installations remaining in the said territories. In addition, they smuggled weapons, ammunition, explosives and explosive devices, and military equipment into the said territories and continued work on laying mines around the positions fortified by them.

Ruben Vardanyan, Arkadi Ghukasyan, Arayik Harutyunyan, Davit Ishkhanyan, Levon Mnatsakanyan, Davit Manukyan, as well as other leaders of the criminal organization, armed members of the criminal organization with a total of **160 units of armored combat vehicles of various types**, including at least **1 T-90S tank, 71 T-72 tanks, 22 BMP-2 armored combat vehicles and armored combat vehicles of other types**, as well as, in total, **16,805,903 units of...**

Page 195

... small arms of various types, their components and ammunition, including 3,059 AK-74 assault rifles, caliber 5.45 mm; 393 AK-74N assault rifles of the same caliber; 167 AKS-74 assault rifles of the same caliber; 2,110 AK-103 assault rifles, caliber 7.62 mm; 2,040 AKM assault rifles of the same caliber; 422 AKMS assault rifles of the same caliber; 4,257 bayonet-knives, as well as various types of cartridges; 230 mortars of various types in total; 137 anti-tank weapons of various types in total; 162 artillery pieces of various types in total; 1,419 optical devices of various types in total; 1,540 body armor vests, as well as plates and inserts for body armor vests; 5,320 magazines for various types of assault rifles; a tripod radar system and other military-technical equipment; 35,621 mortar munitions of various types in total; 3,994 artillery munitions of various types in total; 9,353 units of explosives of various types in total; 41,522 hand grenades of various types in total; 221 anti-tank guided missiles of various types in total;

as well as the **“Pole-21” electronic warfare system**, manufactured in **2016** at the Scientific and Technical Center for Electronic Warfare of the Russian Federation, used to divert aircraft and other equipment flying with the use of global satellite navigation systems such as **GPS, GLONASS and BeiDou** from their targets by interfering with global satellite navigation systems; to protect important state and Armed Forces facilities against aerial attack systems (*UAVs, etc.*), missiles with radio-homing heads and artillery projectiles; and to create interference in space at specific frequencies;

as well as the **“Repellent-1” electronic warfare system**, used for radio-electronic reconnaissance, detection of small-size UAVs and their ground control stations, and

suppression of navigation and telemetry signals by means of radio interference with their control channels.

Thus, for the purposes of disrupting public security in the territories of the **Republic of Azerbaijan** that were under the temporary control of the **Russian peacekeeping contingent**, as well as in territories liberated from occupation; creating panic among the population or influencing decision-making by state authorities or international organizations, they gave instructions aimed at carrying out explosions, fires and other acts (*terrorist acts*) creating a danger of loss of life, harm to human health, significant property damage or other socially dangerous consequences, i.e. committing terrorism, as well as committing intentional murder in connection with the performance of official duties and fulfillment of public duty, and for many other criminal purposes.

Thereafter, members of the armed formations constituting structural subdivisions of the criminal organization, for the purpose of carrying out the criminal order and instruction, having deployed at combat positions and other engineering and sapper installations unlawfully established by them, continuously reinforced those positions during the period from **10 November 2020 to 19 September 2023**.

During that period, while opening intensive diversionary fire on guard posts and headquarters of the Armed Forces located in the territories of the **Aghdam, Fuzuli, Khojavend, Kalbajar and Lachin Districts**, as well as in the city of **Shusha** of the Republic of Azerbaijan, from the central headquarters unlawfully deployed in the occupied city of **Khankendi**; from the territories of the village of **Dashkend**, the settlement of **Askeran**, the city of **Khojaly** and other settlements of the **Khojaly District**; from the territory of the city of **Aghdara** and other settlements of the **Aghdara District**; from the territory of the city of **Khojavend**, the settlement of **Girmizi Bazar** and other settlements of the **Khojavend District**; and from the territory of the village of **Khelfeli** and the settlement of **Turshsu** in the **Shusha District**, they continued the planned mining of the territories under their occupation, without...

Page 196

...any military necessity, on dates unknown to the investigation, with numerous anti-tank and anti-personnel mines, as well as other explosive devices (*burying them at short distances from one another*), the makes, models and places of manufacture of which have not been precisely established by the investigation, many of which had been manufactured in the **Republic of Armenia** and brought by them into the territories under their occupation during the period before **2020**.

Beginning at approximately **13:00 on 19 September 2023**, they launched attacks on military and civilian facilities belonging to the **Republic of Azerbaijan**, beginning to open more intensive fire from the said artillery installations, mortars, small- and large-caliber weapons unlawfully kept by them, as well as to create new mined areas.

During the period from approximately **13:00 on 19 September 2023 to approximately 13:00 on 20 September 2023**, **local anti-terrorist operations** were conducted. During these operations, the said leaders, members of the criminal organization and others, as a result of offering armed resistance to the Armed Forces of the Republic of Azerbaijan and intensively shelling, from unlawful combat positions constructed in the said territories, guard posts and headquarters of the Armed Forces located in the territories of the **Aghdam, Fuzuli,**

Khojavend, Kalbajar and Lachin Districts, as well as the city of **Shusha** of the Republic of Azerbaijan, using the aforementioned large-caliber weapons, mortars and artillery pieces of various calibers, intentionally killed:

50 servicemen of Military Unit No. N of the Ministry of Defence of the Republic of Azerbaijan in the territories of the villages of **Paravend, Abdal, Golably and Mollalar**, as well as in other territories of the **Aghdam District**;

48 servicemen in the territories of the villages of **Garakend, Sos and Jutju**, as well as in other territories of the **Khojavend District**;

45 servicemen in the territory of the village of **Janyatag, Aghdara District** (*formerly the village of Janyatag, Tartar District*), the village of **Syrkhavend, Aghdara District** (*formerly the village of Syrkhavend, Aghdam District*), and in other territories of the same district;

26 servicemen in the territories of the villages of **Dagdagan and Kharov, Khojaly District**, and in other territories of the same district;

7 servicemen in the territory of the **Shusha District**;

7 servicemen in the territory of the city of **Khankendi**;

2 servicemen in the territory of the village of **Finga, Lachin District**;

1 serviceman in the territory of the **Tartar District**;

as well as **12 servicemen** of Military Unit No. N of the **Internal Troops of the Ministry of Internal Affairs of the Republic of Azerbaijan** in the territory of the village of **Tazakend** and in other territories of the **Kalbajar District**;

and **7 servicemen** of Military Unit No. N of the **Ministry of Defence** —

205 servicemen of the Armed Forces of the Republic of Azerbaijan in total, inflicting bodily injuries characteristic of the effects of bullets and fragments as a result of gunfire and projectile explosions, classified as causing **grievous harm to health dangerous to life**.

In addition, on the same date, the said leaders, members of the criminal organization and others inflicted:

in the territory of the **Aghdara District**, on **35 servicemen** of Military Units Nos. N of the Ministry of Defence — grievous injuries; on **39 servicemen** — less serious injuries; on **119 servicemen** — minor injuries; and on **31 servicemen** — injuries whose degree of severity could not be determined;

in the territory of the **Khojavend District**, on **22 servicemen** of Military Units Nos. N of the Ministry of Defence — grievous injuries; on **55 servicemen** — less serious injuries; on **97 servicemen** — minor injuries; and on **16 servicemen** — injuries whose degree of severity could not be determined;

in the territory of the **Aghdam District**, on **20 servicemen** of Military Units Nos. N of the Ministry of Defence — grievous injuries; on **50 servicemen** — less serious injuries; on **155 servicemen** — minor injuries; and on **21...**

Page 197

...servicemen — injuries the severity of which it was not possible to determine; **in the territory of the Khojaly District**, 15 servicemen of N-designated military units of the Ministry of Defense — serious injuries, 33 servicemen — less serious injuries, 69 servicemen — minor injuries, 7 servicemen — injuries the severity of which it was not possible to determine, as well as 3 servicemen of an N-designated military unit of the Internal Troops of the Ministry of Internal Affairs — minor injuries; **in the territory of the Kalbajar District**, 3 servicemen of N-designated military units of the Ministry of Defense — serious injuries, 14 servicemen — less serious injuries, 34 servicemen — minor injuries, 1 serviceman — injuries the severity of which it was not possible to determine, 5 servicemen of an N-designated military unit of the Internal Troops of the Ministry of Internal Affairs — serious injuries, 6 servicemen — less serious injuries, 8 servicemen — minor injuries, 1 serviceman — injuries the severity of which it was not possible to determine; **in the territory of the Fuzuli District**, 1 serviceman of N-designated military units of the Ministry of Defense — serious injuries, 4 servicemen — less serious injuries, 9 servicemen — minor injuries, 2 servicemen — injuries the severity of which it was not possible to determine; **in the territory of the Lachin District**, 2 servicemen of N-designated military units of the Ministry of Defense — less serious injuries, 3 servicemen — minor injuries; **in the territory of the Shusha District**, 6 servicemen of N-designated military units of the Ministry of Defense — serious injuries, 10 servicemen — less serious injuries, 38 servicemen — minor injuries, 2 servicemen — injuries the severity of which it was not possible to determine, as well as 2 servicemen of an N-designated military unit of the Internal Troops of the Ministry of Internal Affairs — less serious injuries; **in the territory of the city of Khankendi**, 16 servicemen of N-designated military units of the Ministry of Defense — serious injuries, 11 servicemen — less serious injuries, 27 servicemen — minor injuries, 11 servicemen — injuries the severity of which it was not possible to determine; **in the territory of the Tartar District**, 1 serviceman of an N-designated military unit of the Ministry of Defense — minor injuries, thereby causing injuries to a total of **1,004 servicemen of the Armed Forces of the Republic of Azerbaijan**, of whom a total of 123 servicemen sustained serious injuries, 226 servicemen sustained less serious injuries, 563 servicemen sustained minor injuries, and 92 servicemen sustained injuries the severity of which it was not possible to determine, but they were unable to intentionally kill them, since the said persons took cover in trenches, were able in time to evade bullets and shrapnel, were evacuated from the scene, and received specialized medical assistance in a timely manner.

Thus, as a result of the local anti-terrorist operations conducted, on 20 September 2023 the territories of the city of Aghdara and the Aghdara District, as well as the Shusha District; on 24 September 2023 the territories of the city of Khojaly and the Khojaly District; on 26 September 2023 the territories of the city of Khojavend and the Khojavend District; and on 29 September 2023 the territory of the city of Khankendi were completely liberated from occupation. In the course thereof, a total of **205 servicemen of the Armed Forces of the Republic of Azerbaijan were intentionally killed** — Isayev Ismail Cherkez oglu, Zamanly Ahmed Azad oglu, Janbakhshov Khayal Kheyrolla oglu, Iskenderov Murad Alaga oglu, Khanaliyev Ismail Ziyad oglu, Hamidli Mikail Vugar oglu, Abbasov Ruslan Abulfat oglu, Khanmammadov Huseyn Mais oglu, Mirzayev Sanan Vugar oglu, Garayev Elmin Rafat oglu,

On subsequent dates, during inspections of the territories, the above-mentioned weapons and ammunition, military equipment and other installations belonging to members of the criminal formation were discovered and seized.

Under the direct leadership of **Ruben Vardanyan and others**, for the purpose of implementing the criminal plan encompassed by the common criminal intent of the criminal association, contrary to the requirements of the **Montreal Convention for the Suppression of Unlawful Acts against the Safety of Civil Aviation of 23 September 1971**, i.e. destruction of, damage to or interference with the safety and operation of an aircraft, communication of false information endangering the safety of an aircraft in flight, etc., as well as the **Chicago Convention on International Civil Aviation of 1944**, the **Tokyo Convention on Offences and Certain Other Acts of 1963**, and numerous other norms of international law, by directly interfering with the exclusive sovereignty of the Republic of Azerbaijan over its airspace in respect of international and domestic flights, for the purpose of creating a threat to the safety of air traffic and to proper and safe flight, i.e. creating conditions for the loss of real-time and location data in the operation of aircraft and for accidents in conditions of poor visibility due to loss of location data, they acquired a **Pole-21 radio-jamming system**, developed in 2016 at the Scientific and Technical Center for Electronic Warfare of the Russian Federation, with a GPS (Global Navigation System) receiver-jamming zone measuring **150 × 150 km**, a radio-jamming sector of **125° in azimuth and 25° in elevation**,

Page 204

a jammer for **GPS “NAVSTAR”** receiving equipment (satellite navigation system for time and range determination — global positioning system); **GLONASS** (Global Navigation Satellite System), with a QNPS receiver suppression range of at least **25 kilometers**, as well as an output power of **300–1,000 W**, installable both on a vehicle base and on stationary mobile communications equipment and other supports and high-rise buildings, used to divert a flying aircraft or other airborne equipment from its target by creating a barrier against global navigation satellite systems, to protect important facilities from aerial attack means (UAVs, etc.), as well as at precise frequencies in space using global satellite navigation systems such as GPS, GLONASS and BeiDou (satellite positioning system);

the **Repellent-1 electronic warfare system**, manufactured in the Russian Federation, with an operating range of **200–6,000 MHz**, intended for jamming in detection mode, with a radio reconnaissance range for control signals of up to **10 kilometers**, a radio reconnaissance range for telemetry transmission channels from a small UAV of up to **30 kilometers**, a range of electronic interference from a small-sized UAV to control-signal receiving channels of up to **30 kilometers**, a range of electronic suppression affecting telemetry and data-reception channels of up to **10 kilometers**, and a range of electronic suppression affecting satellite navigation systems of small-sized UAVs of up to **30 kilometers**, used for conducting radio reconnaissance, detecting small UAVs and their ground control stations, as well as suppressing navigation and telemetry signals by creating radio interference on their control channels;

as well as a **Mortira-type radio-jamming station**, manufactured by the Military-Industrial Committee of the Republic of Armenia, creating interference on ultra-short waves, jamming communication lines and operating at frequencies of **25–2,600 MHz**.

By transporting these systems to various locations in the occupied territories of the Republic of Azerbaijan, they equipped members of the criminal association with them in order to restrict and obstruct safe and regular air traffic in the airspace belonging to the Republic of Azerbaijan. Through persons whose identities have not been established by the investigation, they installed and activated the **Repellent-1** and **Pole-21M** electronic-jamming stations in the territories of the village of **Hasanriz, Kalbajar District (now Aghdara)** (40°12'5.826" N, 46°27'30.498" E); the village of **Mekhdibeyli, Khojavend District** (39°53'32.000" N, 46°43'40.000" E); the village of **Avdur, Aghdam District** (39°49'56.023" N, 46°56'14.324" E);

and the **Mortira** radio-jamming station in the territories of the settlement of **Noragyukh in the Khojaly District**(39°57'20" N, 46°47'09" E); the city of **Khankendi** (39°49'31.738" N, 46°44'22.626" E); the village of **Garakend, Khojavend District** (39°50'48.198" N, 47°02'13.084" E); the village of **Guneykhyrman, Khojavend District**(39°44'32.959" N, 47°00'37.064" E); the village of **Kichik Garabey, Tartar District (now Aghdara)** (40°12'11.039" N, 46°44'46.390" E); the village of **Ashaghi Oratag, Tartar District (now Aghdara)** (40°11'22.515" N, 46°47'49.577" E); and, on the border of the Khojaly and Khojavend districts, on **Mount Bogurkhan**, located 1 km north of the village of **Kyzyloba, Khojaly District** (39°47'05.533" N, 46°50'44.599" E).

Using radio interference: on **31 May 2022**, against a civilian aircraft belonging to the Republic of Türkiye, model **B-77-I**, flight No. **0443-0734**, operating the **Istanbul–Almaty** route at an altitude of **10,668 meters**, while using the airspace of the Republic of Azerbaijan, beginning at **11:56** in the airspace above the **Gazakh District** and ending in the airspace above the **Sheki District** at **12:07**; on **31 May 2022**, against an aircraft belonging to the Republic of Türkiye, model “**A-21-H**”, flight No. **0434-0207**, operating the **Bishkek–Istanbul** route at an altitude of **9,600 meters**, while using the airspace of the Republic of Azerbaijan, beginning at **12:05** above the **Shamkir District** and ending above the **Gazakh District** at **12:12**; on **8 July 2022**...

...against an aircraft belonging to the Republic of Finland, model “**A-359**”, flight No. **0405-0632**, operating the **Hong Kong–Helsinki** route at an altitude of **10,000–12,000 meters**, while using the airspace of the Republic of Azerbaijan, beginning at **01:10** above the Goychay District and ending above the Gakh District at **01:15**; on **11 August 2022**, against a “**B-748**” aircraft belonging to the Grand Duchy of Luxembourg, flight No. **0470-1305**, operating the **Baku–Luxembourg** route at an altitude of **10,200 meters**, while using the airspace of the Republic of Azerbaijan, beginning from the city of Ganja at **12:12** and ending over the Gadabay District at **12:22**; on **3 January 2023**, against an aircraft of model “**A-359**” belonging to the Republic of Finland, flight No. **0471-5147**, operating the **Hong Kong–Helsinki** route at an altitude of **11,400 meters**, while using the airspace of the Republic of Azerbaijan, beginning at **13:26** over the Goychay District and ending over the Gakh District at **13:39**; on **25 March 2023**, against an aircraft belonging to the Republic of Türkiye, model “**A20H**”, tail number **0432-2463**, operating the **Kazan–Antalya** route at an altitude of **11,400 meters**, in the international aviation corridor over the territory of Azerbaijan conventionally called “**Gaspi**”, beginning at **07:18** and ending at **07:57** in the corridor within the country conventionally called “**Peman**”; on **20 September 2023**, against an aircraft belonging to Hong Kong, model “**B-77W**”, flight No. **0424-0245**, operating the **Paris–Hong Kong** route at an altitude of **10,000 meters**, while using the airspace of the Republic of

Azerbaijan, beginning at **19:37** over the Gabala District and ending at **19:40** over the Gusar District (corridors where international air routes intersect within the territory of Azerbaijan); on **20 September 2023**, against an aircraft belonging to the Republic of Ireland, model “**A-320**”, tail number **0423-6771**, operating the **Kutaisi–Alma-Ata** route at an altitude of **10,600 meters**, while using the airspace of the Republic of Azerbaijan, beginning over the Gabala District at **19:38** and ending in the same district at **19:41**, as well as against numerous aircraft and other flying objects not identified by the investigation, thereby obstructing the activities of international air transport vessels in carrying out unhindered flights and creating a threat to the safety of aircraft while in flight.

Although, during the anti-terrorist operation conducted by the Armed Forces of the Republic of Azerbaijan on **19 September 2023**, the “**Pole-21**” **electronic jamming station** was discovered and seized in working condition by the Armed Forces of Azerbaijan at a military unit used by members of illegal armed formations located in the Khojaly District, in order to prevent the seizure by the relevant authorities of the Republic of Azerbaijan of the other “**Repellent-1**” and “**Mortira**” electronic jamming stations, they were disabled by members of the illegal armed formation, and the remnants of those jamming stations were seized from the so-called military unit used by members of the illegal armed formations located in the territory of the city of Khankendi.

The accused in the case, **Ruben Karlenovich Vardanyan**, did not plead guilty to the charges brought against him under Articles **100.1, 100.2, 107, 109, 110, 112, 113, 114.1, 115.2, 116.0.1, 116.0.2, 116.0.10, 116.0.11, 116.0.16, 116.0.18, 120.2.1, 120.2.3, 120.2.4, 120.2.7, 120.2.11, 120.2.12, 29,120.2.1, 29,120.2.3, 29,120.2.4, 29,120.2.7, 29,120.2.11, 29,120.2.12,**

192.3.1, 214.2.1, 214.2.3, 214.2.4, 214-1, 218.1, 218.2, 228.3, 270-1.2, 270-1.4, 278.1, 279.1, 279.2, 279.3 and 318.2 of the Criminal Code of the Republic of Azerbaijan.

At the initial stage of the investigation, when charged under Articles **214-1, 279.3 and 318.1** of the Criminal Code of the Republic of Azerbaijan, the accused Ruben Vardanyan did not plead guilty, but gave testimony and stated that he was born on **25 May 1968 in the city of Yerevan, Republic of Armenia**; in 1985, he graduated from School No. 20 in Yerevan with a gold medal; in 1985, he enrolled in the Faculty of Economics of Moscow State University; after completing his first year, he was conscripted into military service and, in 1986–1988, performed active military service in the Armed Forces of the USSR.

Continuing his testimony, the accused Ruben Vardanyan stated that, after returning from military service, he continued his education and graduated from the university in 1992 with a diploma with honors; in 1993, in Russia, he married **Veronika Zonabend**. Four children were born of that marriage — sons **David and Georgy**, and daughters **Margarita and Maria**. Beginning in the 1990s, he engaged in commercial activities, carried out investment projects and established various companies. The principal years of his business activity were **2006–2011**. During those years, he established several companies, the most successful of which was **Troika Dialog**. He headed that company until 2012, after which he sold his stake in the company to one of the well-known banks in Russia. At present, he holds stakes in companies in Russia and in certain foreign countries; for the past 10 years, he has not participated in the management of the stakes held in those companies and, for that purpose, appointed special representatives. Until 2021, he resided in the city of Moscow, Russia, the city of London, United Kingdom, and other European countries.

After the **Second Karabakh War**, which took place at the end of 2020, guided by patriotic feelings, he decided to participate in the governance of “**Artsakh**.” In this connection, in the summer of 2022, as part of his renunciation of citizenship of the Russian Federation, he applied to the relevant authorities of that state. Prior to that, he had applied for citizenship of the Republic of Armenia and, in June 2021, obtained citizenship of that country. Beginning in October 2022, he effectively resided on a permanent basis in “**Artsakh**,” in the city of **Khankendi**. On 4 November 2022, taking into account his desire to participate in the governance of “Artsakh” and to support the Armenian population, he was appointed “**President of the said formation**” to the position of “**State Minister of Artsakh**.” As “**State Minister**,” he performed the functions of “**head of government**” and primarily carried out...

Page 213

...the resolution of economic and social issues. He served as “**State Minister**” until 23 February 2023 and was dismissed from that position by an order of the “**President**.” Despite this, of his own volition he continued to reside in the city of Khankendi and continued to participate in the socio-economic life of the local population and to provide them with whatever assistance he could.

After the military operations conducted by the Azerbaijani side on **19–20 September 2023**, the leadership of “**Artsakh**” decided to surrender. Thereafter, the Armenian population, unwilling to live together with Azerbaijanis, began leaving the said region in the direction of the Republic of Armenia, while he decided to remain in Karabakh because he regarded the said territories as ancient Armenian lands. However, in the following days, seeing that the

flow of people was becoming more intense, and since the Armenian population did not wish to integrate into Azerbaijan and live together with Azerbaijanis, he decided to leave the region in the direction of Armenia.

For this purpose, on **25 September 2023**, together with several compatriots, he set off in a **Toyota** vehicle. However, due to traffic congestion, they were able to reach the border checkpoint between Armenia and Azerbaijan located in the Lachin District only on the morning of **27 September**. During passport control, he was detained by persons wearing the military uniform of the Republic of Azerbaijan.

In response to questions put to him, the accused **Ruben Vardanyan** stated that he first visited the cities of **Shusha and Khankendi**, which, as a representative of Armenian nationality, he considered native to him, in **2002**. Although he was born in the city of Yerevan, his father was originally from the settlement of **Hadrut**. Subsequently, he repeatedly visited those regions. During those trips, Vardanyan provided financial support for the restoration of the territories, including the repair of schools and other infrastructure facilities. Wedding celebrations for hundreds of local residents were also held in Karabakh at his expense.

In addition, he repeatedly traveled to the **Azerbaijan SSR**. His visits to Baku and other cities were connected with leisure and meetings with friends who lived there. The last time he was in Baku was in **1986**.

In response to the following question put to the accused Ruben Vardanyan: **“In your testimony, you state that you held the position of ‘State Minister’ in the city of Khankendi, located within the Karabakh Economic Region of the Republic of Azerbaijan. However, the said territory is internationally recognized as territory of Azerbaijan. Neither the Constitution of the Republic of Azerbaijan nor any other legislative act provides for the existence of such a position in that territory. Nor were you appointed to any position within the state institutions of the Republic of Azerbaijan in the manner prescribed by law. You entered the territory of Azerbaijan after the signing of the trilateral statement on the withdrawal of Armenian armed formations from the occupied territories of the Republic of Azerbaijan and began your activities there. Moreover, you were not born in Azerbaijan or in its Karabakh region and are a citizen of another country. How can you explain this?”**, he replied that he had served in the position of **“State Minister of the Republic of Artsakh,”** considered the said **“formation”** an independent state with its own state structures, had stated this in interviews, and had told both local and foreign television channels that he considered **“Artsakh”** an independent state.

In addition, in response to questions, the accused Ruben Vardanyan stated that armed formations not provided for by the legislation of the Republic of Azerbaijan existed in the Karabakh Economic Region of the Republic of Azerbaijan; these constituted the **Artsakh Self-Defense Army** and were subordinate to the so-called **“president of the state.”** The armed forces were under the control of the president of Artsakh, and Vardanyan himself did not have the authority to issue military orders. However, he repeatedly stated in his...

...statements through his social media accounts that it was necessary to defend their native lands and resist to the end. He called upon the Armenian population to defend their historical lands, i.e. “**Artsakh**,” and to continue resistance until the end.

After the **First Karabakh War**, there was no established border between Armenia and the Karabakh region. Movement took place not through the border checkpoints of the Republic of Azerbaijan, but along roads laid through uninhabited territories.

At subsequent stages of the investigation, during interrogations and investigative measures, **Ruben Vardanyan refused to answer the questions put to him**.

Volume 416, case file sheets 1–39, 43–69, 109–194, 280–292.

The guilt of the accused **Ruben Karlenovich Vardanyan** in the commission of the crimes imputed to him is further confirmed by the following evidence:

The witness in the case, **Mushegh Grigoryevich Grigoryan**, testified that he was born in **1961 in the city of Khankendi**. In 1979, he graduated from the secondary school in the village of **Ballydzha, Khojaly District**. In 1982, he graduated from the agricultural technical school located in the city of Khankendi, and in 1986 from the **Pedagogical Institute** located in the city of Khankendi.

In his testimony given to the investigation concerning the circumstances of the case, the witness **Mushegh Grigoryan** stated that, like many Karabakh residents, he knew the accused Ruben Vardanyan well. Ruben Vardanyan arrived in Karabakh after the end of the **44-day war**. Before he arrived in Karabakh, the issue of integration with Azerbaijan was widespread among the Karabakh Armenians, and everyone was trying to establish ties with Azerbaijan. Many spoke in favor of living as part of Azerbaijan and obtaining citizenship. In **September 2022**, Ruben Vardanyan arrived in Khankendi, and in November he was appointed **State Minister**. After that, everything began to take on a hostile character. Ruben Vardanyan began **anti-Azerbaijani propaganda** in Khankendi. Vardanyan sought to ensure that the Karabakh Armenians hated Azerbaijanis, developed a desire to kill Azerbaijanis, and that the Armenians once again armed themselves and fought against Azerbaijanis.

In addition, according to the witness, Ruben Vardanyan gathered Karabakh Armenian soldiers under the pretext of helping women whose soldiers had died in the **44-day war**. Later, he brought those women close to himself and, by various means, forced them to engage in sexual relations with him.

After Ruben Vardanyan was appointed to a position in the so-called regime in Karabakh, he began assembling detachments consisting of mercenaries numbering **4,000 persons**. Ruben Vardanyan also called upon officers from Armenia to serve, for money, in the army of the so-called regime. Armenians living in Khankendi learned that the principal purpose of sending Ruben Vardanyan to Karabakh was to collect money sent to Armenians from various parts of

the world and direct it toward the purchase of weapons and ammunition. Ruben Vardanyan paid hired soldiers salaries ranging from **USD 700 to USD 2,000**. In addition to recruiting mercenaries, Ruben Vardanyan formed local armed detachments consisting of volunteer youths. He personally organized the provision of weapons and financial assistance to those detachments. Ruben Vardanyan studied military...

Page 215

...the military specialties of persons who had recently returned from service and recruited into the detachments those who could be useful to him. In particular, he recruited into his voluntary mercenary detachments soldiers with experience in radio engineering service. For this purpose, **Ruben Vardanyan organized a military training camp in a mountainous and wooded area by a river, near the village of Badara in the Khojaly District**, on the territory of a former camp that had previously been administered by the Federation of Sports Tourism. Military training was conducted at that camp, mainly involving young people who had recently returned from the army, students, and senior school pupils. Videos showing these training sessions circulated among the population. Outsiders were prohibited from accessing the territory where the training took place.

Thus, Ruben Vardanyan created armed detachments in two ways, supplying them with weapons and money: **1. Detachments consisting of hired professional military personnel. 2. Local self-defense detachments consisting of volunteer mercenaries who were not professionals.** In addition, Ruben Vardanyan personally participated in conducting training for detachments consisting of young people, teaching them nationalism, instilling hatred toward Azerbaijan, and providing them with weapons and physical training.

After Ruben Vardanyan arrived in Khankendi, thanks to his financing, work began to mine territories along the borders of the districts returned to Azerbaijan during the **44-day war**, that is, in the territory of Karabakh. These mines were brought from Armenia to Karabakh through the **Lachin corridor**. Armenians living in Khankendi learned that mine-laying activities in Karabakh had intensified significantly after Ruben Vardanyan's arrival.

In addition, thanks to Ruben Vardanyan's financing, **two or three military warehouses** were established in the vicinity of Khankendi. Military personnel hired by Ruben from Armenia, as well as servicemen selected by him in Karabakh, worked at these warehouses. The warehouses contained large quantities of weapons and ammunition, as well as unmanned quadcopters and other unmanned aerial vehicles brought by Ruben to Karabakh. This was known to many residents of Khankendi, and Ruben Vardanyan himself promoted the idea of arming all residents of Karabakh to fight against Azerbaijanis.

One of these military warehouses was located near the Karabakh security authorities, while another was near the territory where a lamp-manufacturing plant had previously been located.

The purpose of Ruben Vardanyan's creation of these armed detachments was to fight against Azerbaijan.

Volume 7, case file sheets 201–203.

The witness questioned in the case, **Kamo Eduardovich Hayrapetyan**, testified that he was born in **1960 in the city of Baku**. Until 1988, he lived in Baku. In 1974, he completed the 8th

grade at School No. 37 in the Narimanov District of Baku. In 1975, he entered Vocational Technical School No. 3 located in Baku and graduated from the school in 1978. He received his education in the Azerbaijani language. In 1988, because of Armenian-Azerbaijani relations, he moved to Armenia. In 2000, he returned to the city of Shusha, Azerbaijan. From that time until 2020, he lived in Shusha, after which, due to the war, he moved to the city of Khankendi.

Witness **Kamo Hayrapetyan** stated that he knew the accused Ruben Vardanyan very well. Ruben Vardanyan arrived in Karabakh after the **44-day war**. Before Ruben arrived in Karabakh, the issue of integration with Azerbaijan had become widespread among the Karabakh Armenians, and everyone was trying to establish ties with Azerbaijan. Many spoke in favor of living as part of Azerbaijan and obtaining citizenship. In **2022–2023**, Ruben Vardanyan arrived in Khankendi and began conducting anti-Azerbaijani propaganda there. After Ruben Vardanyan's arrival, hostile attitudes toward Azerbaijanis intensified among the Karabakh Armenians. In addition,

Page 216

Ruben Vardanyan gathered Karabakh Armenians under the pretext of assisting women who were family members of Armenian soldiers killed in the **44-day war**. Later, he brought these women close to himself and, by various means, forced them to enter into sexual relations with him.

After Ruben Vardanyan was appointed to a position in the so-called regime in Karabakh, he began assembling detachments consisting of mercenary fighters. Ruben Vardanyan also, in exchange for money, called upon officers from Armenia to serve in the army of the so-called regime. Armenians living in Khankendi learned that the principal purpose of sending Ruben Vardanyan to Karabakh was to collect money sent to Armenians from various parts of the world and use it to purchase weapons and ammunition. Ruben Vardanyan paid mercenary servicemen salaries ranging from **USD 700 to USD 2,000**.

In addition to recruiting mercenaries, Ruben Vardanyan formed local armed detachments consisting of volunteer youths. He personally arranged weapons and financial assistance for these detachments. Ruben Vardanyan studied the military specialties of persons who had recently returned from service and recruited into the detachments those who could be useful to him. In particular, he recruited into his voluntary mercenary detachments soldiers with experience in radio engineering service.

Thus, Ruben Vardanyan created armed detachments in two ways, supplying them with weapons and money: **1. Detachments consisting of hired professional military personnel. 2. Local self-defense detachments consisting of volunteer mercenaries who were not professionals.** In addition, Ruben Vardanyan personally participated in conducting training for detachments consisting of young people, teaching them nationalism, instilling hatred toward Azerbaijan, and providing them with weapons and physical training.

After Ruben Vardanyan arrived in Khankendi, thanks to his financing, work began to mine territories along the borders of the districts returned to Azerbaijan during the **44-day war**, that is, in the territory of Karabakh. These mines were brought from Armenia to Karabakh through the **Lachin corridor**. Armenians living in Khankendi learned that mine-laying activities in Karabakh had intensified significantly after Ruben Vardanyan's arrival. In

connection with these mines, posters were placed in schools, around buildings, in forests, and near uninhabited territories. However, before the 44-day war, no posters concerning mines had ever been placed anywhere.

In addition, thanks to Ruben Vardanyan's financing, **three military warehouses** were established in the vicinity of Khankendi. Military personnel hired by Ruben from Armenia, as well as servicemen selected by him in Karabakh, worked at these warehouses. The warehouses contained large quantities of weapons and ammunition, as well as unmanned quadcopters and other unmanned aerial vehicles brought by Ruben to Karabakh. This was known to many residents of Khankendi, and Ruben Vardanyan himself promoted the idea of arming all residents of Karabakh to fight against Azerbaijanis.

The purpose of Ruben Vardanyan's creation of these armed detachments was to fight against Azerbaijan.

Volume 7, case file sheets 189–191.

The witness questioned in the case, **Altay Seid oglu Efendiyev**, stated that **Ruben Karlenovich Vardanyan**, born on **25 May 1968 in the city of Yerevan, Armenian SSR**, a citizen of the Russian Federation, having renounced Russian citizenship on **1 September 2022**, crossed the protected state border of the Republic of Azerbaijan without the prescribed documents and bypassing state-border checkpoints, arrived in the city of Khankendi of the Republic of Azerbaijan, declared himself the **“State Minister” of the so-called “Republic of Artsakh,”** and undertook actions directed against the territorial integrity, inviolability and indivisibility of the Republic of Azerbaijan, as enshrined in **Article 11 of the Constitution of the Republic of Azerbaijan**, ...

Page 217

...as well as actions aimed at the alienation of the territory of the Republic of Azerbaijan.

Thus, in his interviews given to the Russian channels **Kommersant** (<https://youtu.be/31LvANzNr8Q>) and **Dozhd** (<https://youtu.be/XeRmnO5brro>), which are available on various Internet resources, **Ruben Karlenovich Vardanyan** carried out actions aimed at the forcible alteration of the constitutional order of the state in violation of the Constitution of the Republic of Azerbaijan, and also publicly called for the forcible alteration of the constitutional order or the partition of the territorial integrity of the Republic of Azerbaijan and disseminated materials of such content.

Continuing his testimony, witness **Altay Efendiyev** stated that, in his opinion, Ruben Karlenovich Vardanyan committed criminal acts provided for by Articles **278.1** (forcible seizure of power or forcible retention of power, forcible alteration of the constitutional order of the state), **281.1** (public calls directed against the state), and **318.1** (illegal crossing of the state border of the Republic of Azerbaijan) of the Criminal Code of the Republic of Azerbaijan.

He stated that the information provided concerning the acts committed could serve as grounds for instituting criminal proceedings, and noted that, pursuant to Part I of Article 57 of the Constitution of the Republic of Azerbaijan, citizens of the Republic of Azerbaijan have

the right to personally apply to state bodies, as well as to submit individual and collective written appeals. He also emphasized that each such appeal must receive a written response in the manner and within the time limits established by law.

Witness Altay Efendiyev also noted in his testimony that, pursuant to Article **204.1** of the Code of Criminal Procedure, reports from individuals concerning a committed or planned crime that constitute grounds for instituting criminal proceedings may be made in writing or orally; pursuant to Article **207.1.1** of the Code of Criminal Procedure of the Republic of Azerbaijan, a report concerning a committed or planned crime received from an individual or legal entity must be immediately registered and examined; and pursuant to Article **207.1.3** of the Code of Criminal Procedure of the Republic of Azerbaijan, following examination (verification) of a report concerning a committed or planned crime, a decision must be made either to institute criminal proceedings or to refuse to institute criminal proceedings.

Exercising the rights granted to him pursuant to Part I of Article 57 of the Constitution of the Republic of Azerbaijan and Article 204.1 of the Code of Criminal Procedure of the Republic of Azerbaijan, and taking into account the information he had provided, as well as the requirements of the law, he stated that the information in question constituted grounds for instituting criminal proceedings concerning a committed or planned crime.

On that basis, in **2022** he filed a complaint with the Prosecutor General's Office of the Republic of Azerbaijan requesting that criminal proceedings be instituted against **Ruben Vardanyan** and that a legal assessment be given to the actions of that person. At present, as he stated, Ruben Vardanyan's actions are regarded as a crime under the Criminal Code of the Republic of Azerbaijan.

Volume 6, case file sheets 18–20.

Davit Nelsonovich Allahverdyan, who testified as an accused in criminal case No. **232990085**, stated that he was born on **18 November 1988 in the Askeran District**, is a citizen of the Republic of Armenia, studied at the school in the village of **Siznek** from 1994 to 2005, studied at the Faculty of Agricultural Economics of the **Agrarian University** from 2005 to 2009, worked as an accountant at the agricultural fund from 2009, and from 2013 began working as a...

Page 218

...lecturer at the Agrarian University; from 2020, he worked as an “**adviser to the Minister of Agriculture of Karabakh.**”

Continuing his testimony, **Davit Allahverdyan** stated that in 2016–2018 he performed active military service in the Askeran District. He participated in the **April battles in 2016**. At that time, he was serving in the Aghdam District. However, since no fighting was taking place in the Aghdam District, he served only at a post. He was subsequently discharged into the reserve.

In October 2020, he was again called up for military service by the Askeran military commissariat and participated in the **44-day Second Karabakh War**. During the war, he took part in fighting in the **Khojavend (Martuni)–Fuzuli direction**. Until **3 November**

2020, he was engaged in fighting in those directions. After the war, he surrendered his weapon to the military commissariat.

After the war ended, he returned to the village of Siznek. Despite the end of the war, the head of the village of Siznek, **Edu Musayelyan**, summoned him, gave him an **AKM assault rifle**, and instructed him to use it in the event of war or an attack on the village. Thereafter, beginning from the end of the war in 2020, Edu Musayelyan called him every month and demanded that he report for duty at the post. Each time he received such a call, he put on a military uniform, took the weapon and went to the post to perform duty. After returning from the post, he did not hand the weapon over to anyone and kept it at his home.

In **September 2023**, while he was in Khankendi, he received a call from Edu Musayelyan, who ordered him to take up a post in the village of Siznek. He then returned from Khankendi to Askeran, took the weapon from his home and went to the post. In addition, he received a grenade from Musayelyan.

On **19 September**, when their post was shelled by soldiers of the Azerbaijani Army, he, together with **Edvin Margaryan, Melikset Pashayan, Gurgen Stepanyan, Garik Martirosyan**, as well as persons named **Daniel, Gegam and Erik**(whose surnames he does not remember), abandoned the post and fled. He, Gurgen, Melikset and Garik fled in the direction of Khankendi. He had no information about the whereabouts of the others. While attempting to reach Khankendi, they were detained by soldiers of the Azerbaijani Army in the territory of the village of **Dagdaran, Khojaly District**, after which he handed his weapon over to those soldiers.

In response to the question: “**According to the materials of the criminal case, you are accused of having, since November 2020, joined an illegal armed formation operating in the territory of the Karabakh Economic Region of the Republic of Azerbaijan, where Russian peacekeepers were temporarily deployed; of participating in the creation of an organized group for the illegal acquisition, transportation and storage of firearms, their component parts, ammunition and explosive devices; and of engaging in terrorist activity for the purpose of inciting national hostility and hatred. It is stated that you carried out attacks on enterprises, institutions, organizations and individuals, which resulted in deaths and other serious consequences. What can you say in this regard?**”, he stated that he had carried out the instructions of village head **Edu Musayelyan**. When he saw soldiers of the Azerbaijani Army, he offered them armed resistance and fired several times. No one was killed or injured as a result of the shots.

In response to the question: “**Tell us where and how you and your fellow servicemen on duty at the post obtained weapons. Who supplied you with those weapons and in what manner?**”, Davit Allahverdyan stated that the weapons had been issued to the persons going on duty by **Edu Musayelyan**. Edu Musayelyan stored the weapons and ammunition in one of the vacant houses in the village of Siznek. The vacant house used as a warehouse contained various types of weapons and ammunition. Among them were small arms, mainly **Kalashnikov assault rifles**, various types of hand grenades, as well as anti-personnel and anti-tank mines. In order to impede the movement of Azerbaijanis, mines had been placed around the posts. He personally did not take part in laying the mines, but, as a rule, the mines were installed at night so that the Azerbaijanis could not observe this. The weapons...

were supplied by the so-called **“Ministry of Defense of the Republic of Karabakh.”** These weapons were acquired with assistance from the Armenian diaspora living abroad. One of the persons involved was **Ruben Vardanyan**, who spent substantial funds on the restoration of the **“Republic of Karabakh”** and on strengthening its defense capabilities.

In response to the question, **“You state that, since November 2020, on the instructions of Edo Musaelyan, you performed service at combat posts with firearms. Did you receive any monetary remuneration for this?”**, **David Allahverdyan** stated that Edo Musaelyan had issued him an **Artsakh Bank** card and that **15,000 drams** were transferred to the card each month.

Volume 1, case file sheets 44–47.

Levon Romiki Balayan, questioned as an accused in criminal case No. **232990085**, stated that he was born on **13 April 1978 in the city of Baku**, lived in Baku until 1988, then moved to the city of Khankendi, worked as a general laborer at a hardware store from 1995 to 2022, and from 2022 worked as a general laborer at various places.

Continuing his testimony, Levon Balayan stated that, from the end of 2022, his financial situation deteriorated. In May 2023, he decided to enter the so-called **“Self-Defense Armed Forces” of the “Republic of Karabakh”** on the basis of paid service. He signed a contract with the **“Ministry of Defense of the Republic of Karabakh”** and began receiving monthly remuneration of approximately **USD 700**. This money was transferred to a plastic card opened in his name with **Artsakh Bank**. Under the terms of the contract, he was obliged to observe discipline and perform service during combat shifts. In order to become a mercenary, it was necessary to approach any military unit of the **“Ministry of Defense”** in Karabakh and state that one was capable of handling weapons; no education was required for this. After entering service, he was issued firearms and ammunition.

In response to the question, **“According to the materials of the criminal case, you are accused of having, since November 2020, joined an illegal armed formation operating in the territory of the Karabakh Economic Region of the Republic of Azerbaijan, where Russian peacekeepers were temporarily deployed; you are also accused of creating an organized group for the illegal acquisition, transportation and storage of firearms, their component parts, ammunition and explosive devices, as well as of engaging in terrorist activity for the purpose of inciting national hostility and hatred. It is stated that you carried out attacks on enterprises, institutions, organizations and individuals, resulting in deaths and other serious consequences. What can you say in this regard?”**, he stated that he had begun serving in the so-called **“Self-Defense Armed Forces” of the “Republic of Karabakh”** after signing a contract in the middle of May of that year. He performed service at posts **Nos. 844, 843, 841, 842 and 845**, located between **Shushi and Khankendi**, as a rifleman. These posts were located near a post of the Russian peacekeeping forces. The battalion commander was a captain named **Garik**. During his service, he was issued an **AKM 7.62** automatic weapon. He collected the weapon from the secondary school in the village of **Malibeyli**, where weapons were stored. After completing a 10-day period of service, he returned the weapon to the same place and then remained at home for the following 10 days. That village was used as a weapons depot. The use of the school as a weapons depot was intended to avoid arousing suspicion among servicemen of Azerbaijan and Russia. The school consisted of two floors. The weapons were stored in a room on the first floor, in the second room. Residents of the village of Malibeyli also studied at the school.

In addition, in the city of Khankendi, on **Naberezhnaya Street**, there was a former pioneer camp called “**Kangar.**” The camp contained a two-storey administrative building, and next to it there was a single-storey Finnish house, where a depot containing...

Page 220

...weapons and ammunition was located. The depot consisted of two rooms. Approximately **60–70 AK-type automatic weapons**, numerous cartridges, grenade launchers, grenades, machine guns and other types of weapons were stored there. Weapons and ammunition were also taken from this depot before reporting for duty. The last time he was on duty at a post was from **5 to 15 September**.

On **19 September 2023**, at approximately **12:00–13:00**, the battalion commander named Garik called him and ordered him to report for service. Upon his arrival at the post, Garik told them that they were to attack the **Azerbaijani Armed Forces** and assist their fellow servicemen who had gone to those posts. Garik sent him and two other fighters toward **Shusha**, to the television tower. When they arrived, they found that the post was empty, and each of them hid in the bushes. Soon they heard gunfire, and after some time they discovered that there were two persons nearby; without becoming frightened, and for the purpose of self-defense, he again exposed himself, after which he noticed military uniform nearby. Upon approaching, he realized that it was an Azerbaijani serviceman and, offering resistance, opened fire. Fire was opened in response from the other side. However, when he heard that many people were approaching, he surrendered.

During the return fire, as a result of the armed resistance he had offered to the Azerbaijani serviceman, he sustained minor injuries to the head. After he surrendered, the Azerbaijani servicemen provided him with first aid.

In response to the question, “**In your testimony, you state that your battalion commander named Garik ordered you to move toward the city of Shusha in order to attack it. Knowing that Shusha is a civilian city and that there was no military contingent there, why did you nevertheless comply with the commander’s order?**”, he stated that he knew that the city of Shusha was a civilian city, but the command had issued such an order and, since he was receiving corresponding payment for his service, he was obliged to obey the order.

Continuing his testimony, Levon Balayan stated that the military posts at which he served consisted of **8, 10, 12 and 15 persons**. Each post had **PK machine guns, light machine guns, grenade launchers, sniper rifles**, the models of which he did not know, **20 F-1 hand grenades**, and ammunition. While at the post, he personally had **four loaded magazines for an automatic rifle and a Kalashnikov automatic rifle**. The command ordered them to remain alert while serving at the post and to destroy any Azerbaijanis who approached.

The weapons depots located in the secondary school in the village of Malibeyli and in the former **Kangar** pioneer camp in the city of Khankendi also contained explosive devices, such as **anti-tank and anti-personnel mines**. He had not received any instructions concerning mines, but they had been laid near the posts by other members of the group to which he belonged.

The placement of weapons and ammunition in civilian facilities was carried out in order not to arouse suspicion on the part of the Armed Forces of Azerbaijan. In addition, the placement of weapons and ammunition in civilian facilities was also explained by a desire to prevent those facilities from being struck by the Azerbaijani side. The Azerbaijani Armed Forces carried out strikes only against military facilities.

In **May 2023**, after signing the contract, he underwent military training in **Khojaly**. The training lasted approximately **three hours**. He underwent training for a second time in July, also for approximately three hours, and both training sessions included firing automatic weapons.

He took part in the **44-day war in 2020**. During the fighting in the **Madagiz direction**, on **27 September 2020**, he was sent to the front, but on **3 October 2020**, because of flat feet, he was released from service and sent home. After **10–12 days**, when he attempted to return to service, he was not accepted into the military unit, partly because of problems with his personal documents, although the precise reasons for the refusal were not explained.

In response to the question, “**Who were the persons who created armed formations or groups in the territory of Azerbaijan that were not provided for by the legislation of Azerbaijan, as well as the persons who participated in their creation and operation and supplied them with weapons, ammunition, explosives, military equipment or other military hardware?**”, Levon Balayan...

Page 221

stated that firearms and ammunition were brought to the so-called “Republic of Karabakh” at the direction of those persons. Since the “republic” was fully under the control of the said persons, it was impossible to bring or carry weapons within the “territory of the republic” without their knowledge. Had this happened, they would immediately have been detained by the “police of the republic,” and their arrest would have been inevitable. By “leadership” he meant President **Arayik Harutyunyan** and State Minister **Ruben Vardanyan**. In each of their speeches, these persons stated that they would not remain part of Azerbaijan and would take up arms. Since Ruben Vardanyan was a billionaire, he said that he would purchase additional weapons and combat drones.

Volume 1, case file sheets 66–71.

Beglaryan Vasili Iyani, questioned as an accused in criminal case No. **232990085**, stated that he was born on **14 November 1993 in the village of Edilli, Khojavend District, Republic of Azerbaijan**. In 2008, he graduated from the secondary school in the village of Edilli, Khojavend District. In 2011, he was called up for military service and sent to a military unit located in the Khojavend District. He served as a soldier until 2013. During his service, he was assigned an **AK-74 automatic weapon**. After completing military service, until 2019 he worked as a laborer in the settlement of Hadrut.

He did not participate in the **Second Karabakh War in September–November 2020**, as at that time he was working in Yerevan.

In 2022, while living in Khankendi, he worked as a laborer, but his earnings were insufficient. Therefore, he decided to enter service in the “**Ministry of Defense of the**

Republic of Karabakh” and receive a salary. In this connection, in September 2022 he began serving in the **Chur military unit**, located in the village of Mara, Kalbajar District, under the command of commander **Harutyunyan Eniki**. In general, there was constant recruitment campaigning among people in Khankendi encouraging them to enter military service with a high salary. After applying to that military unit, he was called up, filled out a form, and signed a contract. Twenty days later, he began serving in that unit as a private. A three-year contract was concluded with him. His monthly salary was **400,000 drams (approximately USD 1,000)**. He transferred the money he earned to his mother’s card in Yerevan. He spent 14 days at home and 14 days on duty at the post. During his service, he was issued an **AK-103 assault rifle**. He served at the **Cherekdar post** of the Chur military unit. In total, six persons served at the post.

On **19 September 2023**, he was on duty. The following day, during service at the post, the posts were destroyed by mortar fire and he fled from there. At that time, five persons were killed and only one person, i.e. he himself, remained alive. He spent one day in the forests near the village of Mara. When he emerged from the forest, he entered an unfamiliar house with an open door in order to remove his military uniform and put on the clothes of an unknown person. On **20 September 2023**, while he was heading toward Khankendi, he was detained by Azerbaijani servicemen in Mara.

Automatic weapons and ammunition were not stored at the post where he served. Weapons and ammunition were kept in a warehouse in Chur. The weapons depots contained automatic weapons, cartridges of various calibers, as well as explosive devices, including **anti-personnel and anti-tank mines**. To reinforce the protection of all posts, anti-personnel and anti-tank mines had also been laid around them.

When he was detained by Azerbaijani servicemen, he offered armed resistance and opened fire. However, the Azerbaijani soldiers neutralized him.

The weapons and ammunition issued to him and his fellow servicemen at the post had been provided by the **“Ministry of Defense of the Republic of Karabakh.”** The military unit in which he served...

Page 222

...was under the control of the **“Ministry of Defense of the Republic of Karabakh.”** The regular operation of that military unit would have been impossible without the knowledge of the leadership of the “republic.” By leadership he meant, first and foremost, **“President” Arayik Harutyunyan** and **“State Minister” Ruben Vardanyan**. Moreover, since Ruben Vardanyan was a billionaire, during meetings with local residents he stated that he intended to purchase additional weapons and combat drones.

Volume 1, case file sheets 205–209.

Babayan Madat Arakeli, questioned as an accused in criminal case No. **232990085**, stated that he was born on **15 September 1952 in the village of Gozlu Korpu, Aghdara District**. From 1972 to 1974, he performed active military service.

In 1990–1993, he fought in the **42nd Self-Defense Battalion**, commanded by Lieutenant Colonel **Arkadi Shirinyan**, nicknamed **“Kholostoy”** or **“Avo.”** On **15 August 1990**, the

chairman of the village gathered men of military-service age and sent them to Aghdara (Gozlu Korpu–Drmbon–Mets Shen–Mokhratag–Aghdara). A person with the rank of major, whose name he does not remember, personally sent them to Aghdara. At that time there were 10 persons from their village of Gozlu Korpu. There they were first taken to the building of the mobilization service. There they signed papers presented to them in connection with their service. After that, they went to a school located in Aghdara. At that time, the school building had been converted into a military unit. There they were issued weapons and uniforms. There were approximately **400 armed Armenians** there. Although they did not have heavy equipment at that time, tanks were stationed in the village of **Khorat**. At that time, the armed forces were led by **Monte Melkonian**, who was in Khankendi.

After that, they were taken in the direction of the former **Mirbashir District**, about **4–5 km** away, and dropped off in an area called the “**3rd sovkhos**.” There were four vehicles carrying people in total. At the site, in trenches prepared in advance, they performed combat duty in groups of 10 persons. After 10 days, they were replaced by newly arrived personnel. They returned to the posts again 10 days later. The leader of their 10-person armed group was **Vamik Petrosyan**. They performed duty at that location for approximately three months. During that period, no exchanges of fire or attacks occurred. Three months later, they were again taken to the dormitory of the military unit.

They were then sent to the village of **Maravuz**, where they performed duty at posts. The posts were occupied at three-day intervals. There, the same group of 10 persons organized three posts. After two weeks of service, Captain **Robert Sarkisyan** took them back to **Aghdara (Mardakert)**. They spent one month in the soldiers’ dormitory, after which they were again divided into groups. They were then sent to the village of **Gozlu Korpu**, where they again organized posts.

While they were at the post, **Arkadi Shirinyan** contacted Vamik by radio and ordered them to dismantle the post and hide, informing them that a military convoy belonging to Azerbaijan was moving toward Aghdara. Azerbaijani civilians were being evacuated together with the convoy. After the convoys passed, they re-established the post in the same location. Twenty days later, when the convoy passed again, they hid once more. The convoy passed **four times**, and each time they hid without revealing their location. On one occasion, they were even subjected to fire from a gun positioned above their position.

In **May 1991**, exchanges of fire began. At that time, they were occupying positions at a post in the direction of **Kalbajar**. Upon seeing that Azerbaijani tanks had already entered the territory, they crossed the river and retreated in the direction of **Heyvali–Drmbon**. At that time, all Armenian fighters from the settlements of **Chapar, Gozlu, Vaguhas, Gasapriz, Khorat and Kochoguz** also retreated in the same direction. The order to retreat had been given by **Kholostoy**. Fighters who had been in the direction of **Mardakert** also arrived in Drmbon. By that time, a large group of armed Armenians had gathered there.

Some of the retreating Armenian fighters went to the village of **Vanklu**. The group to which he belonged took up positions at the fork of the **Vanklu–Khankendi–Drmbon** roads. Two days later, **Kholostoy** called Vamik and ordered him to send them...

...to Khankendi for rest. From there, they went to the dormitory of a military unit located in a place called **Zerinbag**, between Khankendi and Shusha. They stayed there for 10 days. Ten days later, the Azerbaijani army struck the location where they were deployed. At that time, he sustained a shrapnel wound to the upper left part of his chest.

He was taken to a military hospital for treatment, where he spent 11 days. After being discharged, he returned to Zerinbag and then went back to the village of Gozlu Kerpu. On **24 February 1992**, on the orders of **Arkadi Shirinyan**, 90 persons were assembled in the village of Gozlu Kerpu: 20 from the village of Gozlu Kerpu, 40 from the village of Gozlu, and 30 from the village of Chapar. These persons were armed with **AKM assault rifles and ammunition** and then sent toward **Khojaly** in Ural vehicles. They were ordered to attack the city of Khojaly. The group was taken to the area of the village of **Noragyukh (Tezebina)** by **Robert Sarkisyan**.

Later, another 30 persons joined them. They occupied combat positions that had been prepared in advance, dividing into groups of five.

The attack on Khojaly was planned from four directions. One of the directions was from the village of Tezebina, where their group was located. A second group, under the command of **Captain Lember**, was sent from the opposite direction, and a third, headed by **Lieutenant Araik Sarkisyan**, from the direction of Khankendi.

The main direction of the attack was to be supported by the **366th Motorized Rifle Regiment** from the direction of the city of Khankendi. On the night of **25 February**, Arkadi Shirinyan ordered Vamik to begin the attack on Khojaly. Under the order, it was intended that all Azerbaijanis be killed. The first attack was carried out from the direction of Khankendi. As a result of artillery shelling, fires broke out in various parts of Khojaly. Closer to dawn, Vamik gave the order to begin the attack. After that, everyone opened fire on Khojaly. At that moment, not a single shot had been fired from the Azerbaijani side. As a result of the shelling, Azerbaijanis living in the city began fleeing toward **Askeran**, approximately 100 meters from the attackers. An order was given to kill all Azerbaijanis. They opened fire on the civilian population. At that moment, approximately **300 Azerbaijanis** were running toward Askeran.

On **25 February 1992**, at approximately **23:00**, in accordance with a previously agreed plan, armed Armenian formations that had attacked Khojaly from the direction of Khankendi set up an ambush for civilians who were attempting to escape and were fleeing toward the Askeran District. During the attack, **more than 150 persons were killed with automatic weapons**, the majority of whom were women, children and elderly persons. Among those killed were approximately **70–80 women and 20–30 children**. At approximately 13:00, they were ordered to collect the bodies of the killed civilians. While collecting the bodies, they removed jewelry and other valuables from them as spoils. **Vamik and Shirinyan cut off the noses and ears of the dead and cut their foreheads**, claiming that the Azerbaijanis deserved this and should be afraid.

At that time, he captured **six Azerbaijani women**, whom he sent to Khankendi in a vehicle. While collecting the bodies, he found one wounded woman and a child. All the prisoners were subjected to beatings by members of the detachment. Another group, under the command of Lember, collected the bodies of the dead using two vehicles. The bodies were

either buried or sent to Khankendi. They handed the collected bodies over to other armed persons.

On the same day, at approximately 19:00, he and another five men from the village of Gozlu Kerpu were ordered to establish a post at the fork in the **Khojaly–Ballydzha–Khankendi** road. The purpose of the post was to guard the looting of houses in Khojaly by Armenian fighters and to prevent Armenian civilians from Khankendi from arriving to participate in the looting. After Khojaly had been looted by the fighters, Armenian civilians were allowed to loot the city as well. They remained at that post for approximately six days. Upon taking up the post after leaving Khojaly, he took **more than 100 head of livestock** as spoils.

On the third day of their duty, they noticed **three Ural trucks** that had arrived in Khojaly and were heading toward the **Gargar River**, located approximately 300 meters from their post. On the left bank of the river was an excavator waiting for those trucks. The bodies of the trucks were covered with tarpaulins. From a distance, he observed the trucks unloading something and the excavator burying it in the ground. Vamik and Shirinyan went to the unloading site and brought back a child's fur coat. He asked them whether bodies had been buried there, whereupon Vamik became angry and told him that it was none of his business. However, he understood that bodies had been buried at that location.

Page 224

After that, they were ordered to establish a post at the entrance to the village of **Vangli**. They arrived there together with the livestock they had seized and took up positions at the designated point. The livestock taken as spoils in Khojaly was placed on a farm located slightly above their post. After spending 15 days there, they were transferred to the village of Gozlu Kerpu.

Upon arriving in the village, they discovered that Armenians who had come from **Aghdara** had settled in the local school building. They were holding an **Azerbaijani soldier captive**. The prisoner had been captured for the purpose of exchanging him for information about the fate of two sons of his uncle Zhora, who had participated in the fighting. There was no information whatsoever about the fate of those two relatives — whether they were alive, had been killed, or had been taken prisoner.

The Azerbaijani soldier was placed in the school building, where they attempted to obtain information from him. However, despite numerous instances of torture and pressure by members of the detachment, he refused even to give his name. Approximately 15 days later, the prisoner died as a result of illness and abuse. They decided to bury the soldier's body in the cemetery near the village of Gozlu Kerpu. He, Zhora, and two other members of the detachment whose names he does not remember buried the prisoner.

Some time later, an elderly man approximately **65 years old**, whom they believed to be Azerbaijani, came to the village. He stated that he had no documents and that his name had remained in the village. The man spoke only Armenian, and one of his legs had been amputated. He settled in a small house and lived there for approximately one month, after which he died. Members of the detachment found that person dead in the house where he lived. The man's body was buried next to the other Azerbaijani, with the graves arranged in the shape of the letter **"T."**

On **27 September 2020**, the **Second Karabakh War** began. Although he did not participate in that war, his sons **Armen and Masis** participated in various battles during the war. Armen served in a tank unit in the Aghdara direction, in the village of **Hasanriz**, while Masis participated in fighting against the Republic of Azerbaijan in the Kalbajar direction as a machine gunner.

After the **trilateral statement of 10 November 2020**, Russian peacekeepers were stationed in the territory of the “**Republic of Artsakh**,” but despite this, **Ararat Zakharyan** stated that “**Artsakh**” **would not be part of Azerbaijan** and that they would offer armed resistance in this regard.

On **18 September 2023**, at approximately **19:00**, the chairman of the village of Gozlu Kerpu, Ararat Zakharyan, distributed weapons to him and other residents in **School No. 12**, telling them that they would launch an offensive against the Azerbaijani army. He and approximately 20 residents of the village received **Kalashnikov assault rifles** in the schoolyard. Those villagers included **David Martrusyan Valeriki, Ishkhan Sarkisyan Nsoni, Arut Martrusyan Sureni, Masis Grigoryan Knyazi, Musesyan Mikho Samuni, Musesyan Samu and Garnik, Samuel, Vanya, Mger, Armin Gasparyan, Tevan and Spartak**. Samu and Garnik were armed with grenade launchers.

Ararat Zakharyan had converted the school into a weapons depot. Ararat Zakharyan himself had transported those weapons to the school, although he did not know specifically when the weapons had been brought there or in what quantity. The reason for storing weapons in the school was so that neither the Russian side nor the Azerbaijani side would discover them.

Along with the weapons, each person was issued **four magazines loaded with live ammunition**. In addition, Ararat Zakharyan transported ammunition for the automatic rifles in his vehicle to the locations where the attacks were to be carried out.

After they received the weapons, at approximately **21:00**, Ararat Zakharyan transported them in a **civilian ambulance** to a combat position called “**Kyutyuz**,” assigned each of them a separate position, and ordered them to remain there with...

Page 225

...their weapons and to open fire in the direction of Azerbaijani soldiers. The following day, at approximately **13:00**, he began hearing gunshots and observed Azerbaijani soldiers approaching. In order to offer armed resistance, he opened fire, but then, becoming frightened, left the combat position and proceeded on foot toward the village through the forest. When he reached the village, Azerbaijani soldiers caught up with him, detained and disarmed him.

Weapons and ammunition were supplied to him and other villagers who went on **guard duty at the posts** by **Ararat Zakharyan**. The weapons and ammunition were stored in the local school building, which was used as a warehouse. Various weapons were kept there: **Kalashnikov assault rifles, various types of hand grenades, as well as anti-personnel and anti-tank mines**. Those mines were used to impede the advance of Azerbaijanis and were placed around the posts. He himself did not participate in laying mines, but at night unidentified persons brought by Ararat Zakharyan laid them on roads and surrounding areas.

All available weapons were supplied by the leadership of the self-proclaimed regime. Financial support for this was provided by Armenians living abroad, in particular by **Russian businessman Ruben Vardanyan, who had moved to Artsakh**. Ararat Zakharyan repeatedly told him and other villagers that he was proud of those people.

Volume 1, case file sheets 62–65.

Aren Arai Isanyan, questioned as an accused in criminal case No. **232990085**, stated that he was born on **22 November 2003 in the city of Khankendi, Azerbaijan**. On **24 January 2022**, after reaching the age of 18, he began compulsory military service as a soldier serving as a **gun-layer** in the artillery battalion of Protection Brigade No. 08. The brigade commander was **Colonel Erik Grigoryan**. On **29 August 2022**, he signed a three-year contract with the said military unit and entered extended military service for a monthly salary of **320,000 (three hundred and twenty thousand) drams**.

His permanent place of service was a position located **7 kilometers from the village of Vangli, Kalbajar District**. His duty consisted of servicing the weapon located at that position. The territory between their positions and those of servicemen of the Republic of Azerbaijan had been mined by Armenian sappers.

His commander instructed them to open fire immediately if servicemen of the Republic of Azerbaijan or representatives of other organizations approached. At the position they occupied, they were prepared to open fire unconditionally if servicemen of the Republic of Azerbaijan or representatives of other organizations approached, but they had never had such an opportunity.

On **19 September 2023**, during the local anti-terrorist operations conducted by the Republic of Azerbaijan, he was at the position he occupied. Together with him at the position was **Ayk Hovhannisyan**, an extended-service serviceman who was the commander of the second gun, while he himself was the gun-layer.

The battery had **four D-30 howitzers, 240 shells and four Ural trucks**. The battalion commander was **Lieutenant Colonel Ayk Tovmasyan**. The commander of the first gun was **Robert Hovhannisyan**, and its gun-layer was **Levon Verdyan**. The commander of the fourth gun and battery commander was **Captain Mako Badalyan**, and its gun-layer was **Ayk Ovspeyan**. He did not know the names of the commander and gun-layer of the third gun, as they had only recently been appointed.

On **19 September 2023 at 13:00**, their radio communications were disrupted, leaving them completely immobilized. Only **Mako Badalyan** had a mobile phone, but his connection was also completely cut off. From that moment, their positions came under continuous artillery fire. He went down into a basement prepared in advance, occasionally going outside to assess the situation. However, it was impossible to approach the guns and open fire. If such an opportunity had arisen, he was prepared to aim the...

Page 226

...gun and open fire on servicemen of the Republic of Azerbaijan. However, because of the intensive fire of the Azerbaijani army, no such opportunity arose.

In the evening, one of the shells struck the location from which **Captain Mako Badalyan** was observing the situation, as a result of which he sustained serious injuries. The captain was evacuated by ambulance.

On the morning of **20 September**, at approximately **06:00**, the artillery shelling ceased. He left his position and headed toward a building nearby where the battery personnel were located. There he saw two servicemen of the Republic of Azerbaijan. After calling out to them, he threw his **7.62 mm AK-103 assault rifle**, which had been issued to him and had no magazine inserted, onto the ground and surrendered. Then, on their instructions, he removed his body armor and threw it onto the ground as well. Its chest pockets contained **four magazines, each loaded with 30 rounds of 7.62 mm ammunition**, after which he surrendered.

The weapons and ammunition they carried while serving at the post were supplied by the leadership of the self-proclaimed regime. Everyone in the village knew that financial support for this was provided from foreign countries and by **Ruben Vardanyan**.

Volume 1, case file sheets 141–144.

Garik Grigori Martirosyan, questioned as an accused in criminal case No. **232990085**, stated that he was born on **27 March 1972 in the village of Yukhary Emishjan, Askeran District, Azerbaijan SSR**. In 1988, he entered the Faculty of Animal Husbandry of the **Yerevan Agricultural Institute**; in 1994, he graduated from that institute and began service in **military unit No. 34153**, located in Askeran. He served for approximately **1 year and 3 months**. During his service, he went on duty at the **Agbulag and Sardjaly posts**.

During the period of his service, the commander of military unit No. 34153 was **Vitaly Balasanyan**. The “battalion commander” of the military unit was **Villen**, another “battalion commander” was **Arno**, and **Artur Harutyunyan** also served as a “battalion commander.”

After completing his service, from **1 October 1995**, he worked as a chemistry teacher at the school in the village of Yukhary Emishjan. He worked as a teacher until 2020. During the period when he worked there, the school principal was **Melikset Sahakyan**.

At the beginning of the **Second Karabakh War**, a bomb and a shell fell near the home of the principal, Melikset Sahakyan, and he died at the scene. Thereafter, the school ceased operating and he began engaging in agriculture.

After the war began in September 2020, he left the village with his family and moved to Yerevan, and after some time returned to Khankendi. In 2018, he had purchased a house in Khankendi and moved there. His family lived permanently in that house in Khankendi, while every **2–3 months** he went to the village of Yukhary Emishjan in order to harvest the crops he had planted.

Beginning in **January 2022**, he was compelled to go to a post as a person assigned to guard the village, armed with a weapon. Authorized representatives of the leadership of the “**Nagorno-Karabakh Republic**” traveled through the villages and distributed weapons and military uniforms to all persons capable of handling weapons. They stated that this was necessary in order to clear the village and, in general, the entire “**Nagorno-Karabakh Republic**” of servicemen of the Republic of Azerbaijan.

He too was issued a weapon and military uniform in January 2022 for the purpose of defending his village. Representatives of an organization called “**Ashkharazor**” exercised control over them and the village and also provided financing. The leadership of this organization was headed by the so-called “**President of Karabakh,**” **Arayik Harutyunyan**.

From that time, the leadership of the so-called “**Nagorno-Karabakh Republic**” introduced a system of “**guard duty**.” Guard-duty shifts lasted 2–3 days. For going on duty at the post, he and the other villagers received **150,000 drams (approximately USD 150)** on three occasions in total for each shift, amounting to approximately **USD 450** in total.

The funds were provided from a fund established by the Karabakh authorities through donations from Armenians around the world, primarily from the **Russian Federation**. At that time, **10–15 persons** guarded the territory around the village around the clock. They had been ordered to open fire if any Azerbaijani serviceman appeared. The guard duty...

Page 227

was performed in groups of **10–15 persons** who defended the village. **Eduard Musayelyan** was appointed as the person responsible for the village of **Yukhary Emishjan**. After completing a shift, 15 persons returned home and were replaced by another 15 persons. After one of his shifts, he went to Khankendi to visit his family and then returned to the village.

A weapons depot had been organized in the house of village resident **Ashot Petrosyan**, located in the lower part of the village. The persons going on guard duty obtained their weapons in that house. **15–16 AK-74 Kalashnikov assault rifles and approximately 20 grenades** were stored there. In addition, weapons were kept in the houses of village residents **Ararat Mikayelyan, Levon Alaverdyan, Daniel Avanesyan, Gegam Avanesyan, Norayr Voskanian and Armen Markaryan**.

The last time he went on guard duty was **20 September 2023**. At that time, 15 persons were divided into groups of four or five and sent to different areas around the village. Initially, his group consisted of himself, **David Allahverdyan and Gurgen Stepanyan**. They were then joined by **Melikset Pashayan**, bringing the group to four persons. After that, they proceeded on foot toward the **Shusha District**. They were all armed with **AK-74 assault rifles**.

Their path was then blocked by a **KamAZ truck**. The persons inside told them that they were from the “**Yashma**” **special forces** and demanded that they surrender. Although they initially offered resistance, they then realized that it was futile, laid down their weapons and surrendered.

During guard duty at the post, village head **Eduard Roberti Musayelyan** distributed **AK-74 Kalashnikov assault rifles** to men of middle age and younger residents in order to organize the defense of the village. For performing guard duty, he and other residents of the village received **150,000 drams (approximately USD 150)** on three occasions for each shift, amounting to approximately **USD 450** in total.

The supply of weapons to the illegal armed formations located in Karabakh was carried out by the leadership of the so-called “**Republic of Artsakh**.” The leadership included persons

such as “**President**” **Arayik Harutyunyan**, “**State Minister**” **Ruben Vardanyan**, “**Minister of Defense**” **Kamo Vardanyan**, and other senior officials.

After Ruben Vardanyan was appointed “**State Minister**,” many projects of the “republic,” including the procurement of weapons and ammunition, began to be financed by him. At meetings with residents, Ruben Vardanyan stated that he would provide any financial support necessary to preserve the independence of “**Artsakh**” and that this was precisely why he had moved there.

The posts at which they served were protected using personnel, as well as **anti-personnel and anti-tank mines**. However, those mines were laid by unidentified specialists because the village residents did not possess the necessary skills. Since the mines were installed mainly at night and under conditions of limited visibility, he did not see the persons who laid them.

Volume 1, case file sheets 58–61.

Erik Roberti Gazaryan, questioned as an accused in criminal case No. **232990085**, stated that in **2003–2005** he performed active military service in the village of **Areni, Vayots Dzor Region, Republic of Armenia**. After completing military service, of his own volition, in **2021** he entered into a **three-year contract** for extended military service in the Armed Forces of the Republic of Armenia. On the basis of that contract, at the end of 2021 he began military service in Karabakh. In connection with this, a **Kalashnikov assault rifle** was assigned to him. He was paid **USD 238 per month** for his service.

From that time, he began serving in Karabakh and also undergoing training at military ranges. He spent **14 days on military duty and 27 days at home**, i.e. in the village of **Khatek (Hasanriz)**, where he lived. Although he did not personally do so, he witnessed the Armenian army laying mines around **Mount Lachinkhan**. Since he observed all this from a distance, he did not know what types of mines were being laid.

There were a total of **seven soldiers** at the post where he served, and their purpose was to fight the Azerbaijani army. The commander of the military unit located in **Mardakert**, in...

Page 228

...which he served, was **Colonel Kekyan**. His regiment commander was **Major Arut Harutyunyan**.

On **19 September**, at the beginning of the anti-terrorist operation, he was serving at a post in the area of the **Sarsang Reservoir in the Kalbajar District**. After the operation began, having realized the strength of the Azerbaijani army, he became frightened, fled into the forests of Kalbajar and hid in the village of **Khatek**. He remained in that village without food or water.

On **27 September**, he approached Azerbaijani servicemen who were in the village of Khatek and surrendered to them his automatic weapon and **three full magazines of ammunition**.

There were **hand grenades, anti-personnel mines and anti-tank mines** at the post where he served. Mining operations were also carried out around the post.

Control over the weapons depots of **military unit No. 49979**, located in the city of Mardakert, was exercised by **Major Artur Arakelyan**. He and the other servicemen serving at the post received their weapons from that person.

The weapons were supplied by the so-called “**Ministry of Defense of the Republic of Karabakh**.” Weapons and military equipment were purchased using funds received by a fund established through assistance from the Armenian diaspora abroad. One of the persons providing such assistance was **Ruben Vardanyan**.

After Ruben Vardanyan became “**State Minister**,” at rallies and meetings in the city of Khankendi he repeatedly stated his intention to provide the servicemen of “**Karabakh**” with the most modern weapons. He also often said: “**If you want peace, prepare for war; Azerbaijanis can only be answered with weapons.**”

Volume 2, case file sheets 92–95.

Gurgen Homeri Stepanyan, questioned as an accused in criminal case No. **232990085**, stated that he was born on **20 July 1987 in the Jermuk District of the Armenian SSR**.

In **2003**, he graduated from secondary school in the city of Jermuk. In **2005**, he was called up for military service and, until 2007, served as a soldier in a military unit located in the settlement of **Hadrut**. During his service, he was initially assigned an **AK-74 assault rifle** and later an **RPK machine gun**. After completing military service, he began working as a **tile setter in construction in the city of Jermuk**.

In **2009**, he and his family moved to the city of Khankendi. The reason for the move was the lack of employment and difficult financial circumstances in the city of Jermuk, where he had previously lived. In Khankendi, he rented housing in buildings located on **Zorge and Armenavan Streets**. He did not participate in the hostilities of the **Second Karabakh War**, which took place in September–November 2020.

In **November 2020**, he moved to the village of **Siznek, Askeran District**, where village head **Edu Musayelyan** provided him with a relative’s house in which to live.

After the war, the village of Siznek found itself on the border with territories where Azerbaijanis were stationed. Aware of the possibility that hostilities might resume in order to recover the lost lands, the residents began preparing for possible military operations.

Taking all of those circumstances into account, in **2021** a post was established near the village, where, under rules set by them, both **mercenary servicemen from Armenia and local residents** performed duty. He too went on duty at that post, using weapons, ammunition and military equipment supplied by village head Edu Musayelyan.

Control over the post and its financing were carried out by representatives of the organization “**Ashkharazor**.” The leadership of that organization was headed by the so-called “**President of Karabakh**,” **Arayik Harutyunyan**.

For service at the post, he was paid **15,000 drams (approximately USD 150)** on three occasions, amounting to **45,000 drams (approximately USD 450)** in total. Edu Musayelyan told him that the money was received by a fund established by the Karabakh authorities

through donations from the Armenian diaspora around the world. Financial support was also provided by **Russian billionaire Ruben Vardanyan, who later became...**

Page 229

...**“State Minister of Karabakh.”** For three months, he went on combat duty at the post every two weeks. Each period of duty lasted one week, after which he was given one week of rest.

At approximately **18 September**, the head of the village of **Siznek**, where he lived, **Edo Musaelyan**, gathered the residents and informed them that a war would soon begin, instructing them to prepare. In this connection, he issued them not only the **AK-74 assault rifles** that had previously been provided to them, but also **six full magazines, two grenades, military uniforms and body armor**. Full combat readiness was declared in the village.

One of the vacant houses in Siznek was used by Edo Musaelyan as a warehouse for weapons and ammunition.

On **20 September 2023, at approximately 13:00**, they received information that an anti-terrorist operation by the Armed Forces of Azerbaijan had begun. After that, they decided to leave the post and, together with **David Allahverdyan and Garik Martirosyan**, proceed on foot from the Askeran District to Khankendi. While in the territory of the village of **Dagdaran, Khojaly District**, they were discovered and neutralized by Azerbaijani soldiers. They surrendered the weapons and grenades in their possession. Initially, upon seeing soldiers of the Azerbaijani Army, they offered armed resistance, i.e. opened fire. However, due to the superiority of the Azerbaijani army, the latter managed to capture them. During the armed resistance, they did not cause any harm to Azerbaijani servicemen.

In addition, mines had been installed around the combat posts. These mines had been placed to prevent Azerbaijani servicemen from approaching the posts. He did not know who had placed them, but they had been prohibited from moving in the direction where the mines were located.

Volume 2, case file sheets 48–52.

Melikset Vladimiri Pashayan, questioned as an accused in criminal case No. **232990085**, stated that he was born on **28 January 1971 in the village of Ashaghi Emishjan (Siznek), Khojaly District**. In 1988–1989, he studied at an agricultural technical school located in the city of Khankendi. In 1989–1991, he performed military service in the repair and construction battalion of military unit No. **535**, located near the city of **Skaravadino, Amur Region, Russian SFSR**. After completing his military service in 1991, he returned to Karabakh. At that time, self-defense detachments consisting of persons of Armenian nationality were operating in Karabakh. Those detachments engaged in armed struggle against Azerbaijanis. Members of those detachments were supplied with firearms and ammunition. In 1992, he voluntarily joined a military formation led by **Vitaly Balasanyan** and began serving in a regiment located in the Khojaly District. The commander of the battalion in which he served was a serviceman named **Vilen Safaryan**. He last saw Vilen Safaryan three years earlier in the city of Khankendi. At that time, Safaryan held a responsible position in the Property Committee of the **“Nagorno-Karabakh Republic.”** His

own position in the said battalion was that of a rifleman. In 1993, he participated in the **occupation of Aghdara and Aghdam**. In 1995, he was discharged into the reserve.

After the **First Karabakh War**, until 2015 he engaged in animal husbandry in the village of Ashaghi Emishjan, and in 2015 he moved with his family to the city of Khankendi, where he worked as a general laborer on construction sites and was paid on a daily basis.

During the **44-day war in 2020**, he voluntarily participated in a formation led by a person named **Edward Musaelyan**. As soon as the war began, the “**Ministry of Defense of the Nagorno-Karabakh Republic**” announced mobilization for participation in the war and stated that money would be paid in connection with such participation. He voluntarily went to the headquarters of the “Ministry of Defense” and stated that he wished to enlist for military service in the village of Ashaghi Emishjan. He was immediately accepted for service and provided with an **AKS automatic weapon**,

Page 230

and, together with a group consisting of **15 persons**, was sent to serve in the village of Ashaghi Emishjan. The group was led by village head **Edward Musaelyan**. Their posts were located within the territory of the village, and their duty was to serve at those posts and promptly detect advances by Azerbaijani servicemen. However, at that time they did not encounter Azerbaijanis.

For participating in the **44-day war**, the Ministry of Defense paid him approximately **USD 500**. He received this money in Armenian drams.

After the war, he again worked on a daily basis. However, because of his poor financial situation, in **May 2023** he applied to the “**Ministry of Defense of the Nagorno-Karabakh Republic**” in the city of Khankendi, having decided to serve again as an ordinary serviceman. On the basis of his application, he was again called up for service. He was paid approximately **USD 500 per month** for his service.

This time as well, he participated in guarding posts in the village of Ashaghi Emishjan, Khojaly District, as part of a formation led by Edward Musaelyan. Under the procedure established by Edward Musaelyan, a serviceman spent **10 days per month on duty and rested for the remaining 20 days**. During service, Edward Musaelyan supplied the servicemen with automatic weapons and ammunition. The house of a resident of the village of Ashaghi Emishjan named **Ashot** was used as a warehouse.

When Azerbaijani servicemen began military operations on **20 September 2023**, he was “**on duty**” in that village. At that time, he and the other persons who were “on duty,” on the instructions of Edward Musaelyan, moved toward the village of **Malikally** through the territory of the village of Dagdaran. There they encountered Azerbaijani servicemen. They offered armed resistance, but due to the numerical superiority of the Azerbaijani servicemen, they were forced to surrender.

Weapons and ammunition were issued to the villagers who were on duty by Edward Musaelyan. The ammunition was stored in a vacant house in the territory of the village of Siznek. That house, which was used as a warehouse, contained **Kalashnikov assault rifles, various grenades, anti-personnel mines and anti-tank mines**. Edward Musaelyan stated

that these weapons had been supplied by the “**Ministry of Defense of the Republic of Karabakh.**” He also stated that the funds for the purchase of those weapons had been allocated by “**President**” Arayik Harutyunyan, “**State Minister**” Ruben Vardanyan and other persons.

Mines had been installed around the posts where he performed duty. The purpose of installing those mines was to prevent Azerbaijanis from approaching the posts. Although he himself did not participate in laying the mines, Edward Musaelyan showed them the locations where the mines had been installed and warned them not to step there.

Volume 1, case file sheets 53–57.

A letter No. 2/6489 dated 23 September 2023, received from the Main Counterintelligence Directorate of the State Security Service of the Republic of Azerbaijan, states:

“As a result of comprehensive agent-operational and operational-technical measures, it was established that, in the occupied territories of the Karabakh Economic Region of Azerbaijan, illegal armed formations engaged in terrorist and sabotage activities both during the First Karabakh War and in the subsequent period, as well as during the period of temporary responsibility of the Russian peacekeeping contingent. One of the persons suspected of committing terrorist acts using firearms, financing terrorism, organizing and conducting training for terrorist purposes, illegally acquiring, storing, transporting and carrying firearms, ammunition, explosives and explosive devices, as well as creating armed formations and groups not provided for by law, is Ruben Karlenovich Vardanyan, born on 25 May 1968 in the city of Yerevan, Republic of Armenia, who obtained citizenship of the Republic of Armenia on 15 June 2021 and is registered at the address: city of...”

Page 231

Khankendi, Ivanyan Street, building 4, lane 1. In 1985, **Ruben Vardanyan** graduated from secondary school with a gold medal and enrolled in the Faculty of Economics of **Moscow State University**. After completing his first year, in 1986–1988 he performed active military service in the Armed Forces of the USSR. In 1992, he graduated from the university with a diploma with honors. He attended courses on “**Emerging Markets**” in Italy and the United States and also studied in short-term programs at **INSEAD, Harvard, Stanford, Yale and Nanyang Technological University in Singapore**.

In 1990, Russian-American **Pyotr Derby** invited him to join his team. Thereafter, Ruben Vardanyan began working at the company “**Troika,**” which, from 18 January 1991, continued its activities under the name “**Troika Dialog.**” At that company, Vardanyan rose from the position of expert to president of the organization. The company has offices in the United States and London. From 2002 to 2004, while also managing the company, he served as General Director of **Rosgosstrakh**. Since 2019, he has served on the boards of directors of such companies as **KamAZ, Ameriabank, Global Blue Russia Holdings**, and a number of others.

In addition to business, Vardanyan is known for his activities in the field of education and is considered one of the founders of several educational institutions. He also participated in the restoration of a number of religious temples in Armenia.

He is married and has four children. On **8 April 2022**, he was registered at the address: **Yerevan, Street [REDACTED], building [REDACTED], apartment [REDACTED]**, and received an identity document of a citizen of the Republic of Armenia. He illegally crossed the state border of Azerbaijan and arrived in the territory of the Karabakh Economic Region. On **5 October 2022**, he was registered at the address: **Khankendi, Ivanyan Street, building 4, lane 1**. He resided in the city of Khankendi and the village of **Kolatar, Kalbajar District**.

He was received by the so-called “**President**” **Arayik Harutyunyan**, who, on **10 November 2022**, appointed him “**State Minister**” (“**Prime Minister**”) of the illegitimate entity. At present, he holds a valid passport, series ; [REDACTED], issued by the Republic of Armenia on **15 June 2021**. Pursuant to **Decree No. 935 of the President of the Russian Federation dated 22 December 2022**, he was deprived of citizenship of the Russian Federation.

Until **23 February of the current year**, while holding his “position,” he participated in the creation and organization of the activities of illegal armed formations not provided for by the legislation of the Republic of Azerbaijan in the territory of the Karabakh Economic Region, which was under the temporary control of the Russian peacekeeping contingent; participated in supplying those illegal armed formations with weapons, ammunition, explosives, military equipment and military gear; and was also involved in organizing attacks carried out by those formations against institutions, organizations and individuals, resulting in deaths and other serious consequences.

In addition, he provided funds and other property, in whole or in part, directly or indirectly, for use in the terrorist activities of the said illegal formations; this included the organization and commission of terrorist acts such as explosions, arson or other actions creating a danger to public safety, causing panic among the population or aimed at influencing decisions taken by state authorities or international organizations, as well as resulting in deaths, harm to health, significant material damage or other socially dangerous consequences.

Analysis of the operational data received indicates that Ruben Vardanyan not only directly financed the activities of illegal armed formations in the territory of the Karabakh Economic Region by means of monetary funds, but also used the resources of companies and charitable foundations established, co-established by him or otherwise connected with him. Among them were **Ameriabank** and **Aurora**, which operated in the city of Khankendi in 2008–2021, as well as...

Page 232

...the charitable foundations “**Artsakh Security and Development Front**” and “**We and Our Mountains**,” as well as the **Territorial Development Agency**.

According to operational information obtained during the investigation, **David Manukyan**, who until 2022 held the position of “**First Deputy Commander of the Defense Army**” of the illegitimate entity (his brother, **Gegham Manukyan**, is a member of the **Dashnaktsutyun** party and a member of the Armenian Parliament), is also a member of the public movement “**Artsakh Security and Development Front**,” established by Ruben Vardanyan.

Numerous interviews given by Ruben Vardanyan to Armenian and other foreign media through Internet resources contain direct and indirect indications of his participation in the

creation and organization of the activities of illegal armed formations in the Karabakh region, their financing, as well as instances of his crossing the state border of the Republic of Azerbaijan while bypassing border checkpoints:

Statement by Ruben Vardanyan on Moving to Artsakh and on the Creation of the Security and Development Front

“Based on the operational information received, **R. Vardanyan**, for the purpose of evading punishment for the criminal acts committed, plans in the coming days to leave the territory of Karabakh in the direction of the Republic of Armenia by passing through the **Lachin border checkpoint**.”

Volume 1, case file sheets 72–74.

A letter from the **Main Military Counterintelligence Directorate of the State Security Service of the Republic of Azerbaijan** states that:

“During the measures carried out, it was established that the telephone numbers [REDACTED] and [REDACTED], belonging to the communications network of the Republic of Armenia, are being used by **Vladimir Pogosyan Sergey**. Thus, it was established that on **11–14 November 2020**, the head of the terrorist organization ‘**VOMA,**’ **Vova Vartanov...**”

Page 233

While staying in the territory of the village of **Tagaverd, Khojavend District**, he spoke several times by telephone with **V. Pogosyan**. During telephone conversations with V. Pogosyan, he stated that he was aware that criminal proceedings had been initiated against him by the Republic of Azerbaijan and that he was being assigned the role of organizer of a recognized terrorist group, which caused him concern. In addition, he noted that he had appealed to the senior leadership with a request to replace the personnel accompanying him. During the conversation, V. Vartanov also indicated that his detachment was located in the city of Khankendi, while he himself was in the village of Tagaverd, Khojavend District, together with approximately 200 persons. He stated that on **14 November 2020** he planned, together with 70 persons, in accordance with a previously prepared list, to return from the direction of the Kalbajar District. Vartanov emphasized that not everything had been lost and that, if they succeeded in returning at full strength, the situation might develop differently.

According to available information, **V. Pogosyan** previously held the positions of Assistant to the President of Armenia for National Security Affairs and Adviser to the Chief of the General Staff of the Armed Forces. At present, he regularly participates in discussions of various topics live on social media platforms, primarily on the **Telegram** and **YouTube** channels, positioning himself as a political and military “expert.”

A study conducted on social networks showed that, in one of his interviews, V. Pogosyan reported on his trip to the city of Shusha on **4 November 2020**. He noted that, together with **Artyom Anatolyevich Harutyunyan**, the brother of the then “Minister of Defense” of the illegitimate regime, **Jalal Harutyunyan**, he had attempted to assemble a detachment and organize the defense of the city.

Operational measures established that V. Pogosyan maintained regular contacts with former “State Minister” of the illegitimate entity **Ruben Vardanyan**. They discussed the creation of new special units consisting of illegal armed formations not provided for by the legislation of the Republic of Azerbaijan in the territory of the Karabakh Economic Region, as well as the acquisition of **electronic warfare (EW) equipment**. It was planned that these special units would carry out the instructions of the so-called “President” of the illegitimate regime, while at the same time being subordinate to the Ministry of Defense of Armenia. **Ruben Vardanyan undertook the financing of the establishment of these units and the purchase of electronic warfare equipment**. However, the local anti-terrorist operations conducted on **19–20 September 2023** disrupted the implementation of those plans.

A letter of the **Main Military Counterintelligence Directorate of the State Security Service of the Republic of Azerbaijan No. 3/535 dated 28 March 2024** states that, as a result of the measures carried out, it was established that the telephone number [REDACTED] belonging to the Armenian mobile telecommunications network, was used by **Vladimir Tevayevich Vartanov** (in the databases of the **Getcontact** and **Truecaller** applications, this number is registered under the name “**Vova Vartanov**”).

According to the information, **Vladimir Tevayevich Vartanov** was born on **10 December 1965 in the city of Yerevan, Armenia**, and received his secondary education at **School No. 38**. In 1984–1986, he performed compulsory military service in the special-purpose forces of the USSR Armed Forces stationed in the city of **Lagodekhi, Georgia**. In 1986–1994, Vartanov studied at the Faculty of Law of **Yerevan State University**. At the beginning of the “square movement” in 1988, he joined the protest actions and went to the border with Azerbaijan, where he began organizing illegal armed formations called “**self-defense detachments**.” In November–December 1989, he formed a reconnaissance unit, and in January 1990 conducted his first operation in the direction of the **Gazakh District of Azerbaijan**. Vartanov was subordinate to one of the founders of those illegal formations — **Vazgen Zavenovich Sargsyan** (born on 5 March 1959 in the Ararat District of Armenia), held the position of commander of a reconnaissance and sabotage unit and...

Page 234

...participated in fighting during the **First Karabakh War**. According to media reports, Vartanov was also the commander of one of the detachments involved in the **genocide in Khojaly**.

In **2014**, in the territory of the Republic of Armenia, as well as in the occupied territories of the Republic of Azerbaijan, V. Vartanov established the Armenian terrorist organization “**VOMA**” (“**Art of Survival**”). Through Internet resources, the organization actively promotes topics connected with the fictitious “**Armenian genocide**,” “**Greater Armenia**,” territorial claims against the Republic of Azerbaijan and Türkiye, as well as the activities of Armenian terrorists. Members of the terrorist organization are instilled with absurd ideas that Armenian lands were allegedly seized by the Republic of Azerbaijan and Türkiye and that there is an intention to destroy all Armenians, thereby cultivating hatred toward those countries. The importance of every Armenian, regardless of age, profession or sex, acquiring combat skills in order to support the Armenian army in possible wars is also emphasized. Armenians residing both in Armenia and abroad travel to the organization’s military training sessions. At **VOMA** camps, various forms of martial arts are taught and military courses are conducted, including tactical training, first aid, operations in mountainous terrain, firing weapons, survival in field conditions, physical training, Armenian “nomadic” combat dances, and instruction in other similar skills.

During **2016–2018**, V. Vartanov held meetings with persons of Armenian nationality aged **18 to 35** in six cities of the Russian Federation (**Moscow, St. Petersburg, Nizhny Novgorod, Yaroslavl, Saratov and Krasnodar**). These events were organized with the support of the Armenian diaspora. At the meetings, he provided information about the activities of the center, conducted propaganda discussions and emphasized the importance of participation in the organization.

During the **Patriotic War**, V. Vartanov appealed for support to persons who had undergone training in the organization during the preceding three years and were residing in different countries. Accelerated combat training was organized for **60 volunteers**. Unlike the previous training sessions, these were conducted in the city of Yerevan, and the trained persons were immediately sent to participate in the fighting as part of the “**VOMA**” **volunteer battalion**. During the Patriotic War, a total of **340 members of the “VOMA” terrorist organization** took part in hostilities against the Armed Forces of the Republic of Azerbaijan. In order to support the activities of the “VOMA” battalion and conduct training, a financial

fund had been established in advance, with corresponding accounts opened at banks in **Russia, France, Lebanon, the United States, Germany and Austria**. During the war, **USD 200,000 (two hundred thousand)** was transferred to the budget of the “VOMA” battalion. According to data as of **August 2020**, **USD 26,500 (twenty-six thousand five hundred)** remained in the fund’s accounts.

According to the information received, the **“VOMA” organization** receives support from forces associated with the terrorist groups **“PKK”** and **“ASALA.”** Vartanov, who supports an anti-Turkish ideology and disagrees with the political leadership of the Republic of Armenia (in an interview, he described the actions of politicians and the policies pursued by them as **“childish games”**, indicating that there was no time for this and stating that he was interested only in preparing reservists for the army), maintains close friendly ties with active members of the terrorist organization **“ASALA,”** in particular with **Aleem Enigomshyan**. In addition, Vartanov states that the Armenian army has already lost its combat capability and therefore it is necessary to create an army consisting of civilians and to expand the organization’s activities in preparation for a possible war with the Republic of Azerbaijan (AR) and Türkiye. His principal idea is to conduct military training among...

Page 235

... young people who had reached conscription age, as well as among volunteers, which would make it possible to create highly qualified reserve forces.

Vartanov’s links with the **state security bodies of Armenia** are also not excluded. As a military expert, he also conducts propaganda speeches through the organization’s Internet resources aimed at establishing friendly ties between Armenians and ethnic minorities residing in Azerbaijan, such as the **Talysh (Talysh-Mughan Republic), Lezgins (the terrorist organization “Sadval”), Udins, Avars and others**. V. Vartanov calls on these peoples to fight for independence and advocates ensuring that the training of young people, including military, psychological and physical training, is maintained at a high level in order to succeed in this struggle.

According to the information received, since **2021**, the **“VOMA” organization** has begun training operators of unmanned aerial vehicles (UAVs). For this purpose, a bank account was opened in the Russian Federation with **Sberbank** in the name of **Ayastan Andranikovna** (account No. [REDACTED] into which funds were collected for the purchase of **six UAVs and a vehicle**. At the opening of a branch of the organization in the city of **Goris**, Vartanov stated that Armenians should not expect assistance from anyone in defending their territory, even from Russia, which, according to him, could at any moment stand aside. He also noted that, at the latest training sessions, everything possible would be done to ensure that every participant could operate a UAV. It should be noted that assistance in purchasing UAVs and providing material support to the **“VOMA” organization** was rendered by **Instigate Consulting**, a company registered in Georgia. The head of the company is a person of Armenian nationality named **Artur Azakharov**, who uses the mobile telephone number [REDACTED], belonging to the Georgian telecommunications network.

At present, in Yerevan (**Nork-Marash District, Armenakyan Street 121/7, rear door of the “Nairi” hotel**, telephone: [REDACTED] — “Vago Voma”; [REDACTED] and [REDACTED] — “Grant Manasyan”; [REDACTED] — “Eduard Bagdasaryan,” passport: [REDACTED] Ashtarak District, [REDACTED] Street, house [REDACTED], apartment [REDACTED], “Garmoni Vage

Sardaryan,” [REDACTED] — WhatsApp and Viber), a special training center of the organization operates. The rental fee for the building is **USD 400 per month**. In addition, instructors and managers overseeing the training are paid a monthly salary of **USD 2,836**. Training and classes are conducted mainly in field conditions, and approximately **USD 200** is spent on training one person. The organization intends to open branches in various regions. At present, branches operate in the cities of **Kapan, Goris, Sisian, Gavar, Echmiadzin, Yeghegnadzor and Davtashen**.

Although the organization is financed through the resources of entrepreneurs residing both in Armenia and abroad, its official partner is the **Ministry of Defense of Armenia**. Any person who successfully completes training with the **“VOMA” organization** is given the opportunity to become a member of the so-called **“mountain-rifle battalion,”** which constitutes a reserve of the Armed Forces of Armenia (AF) and may be used if necessary. At present, the organization has one mountain-rifle battalion within its structure, but there is also a personnel brigade with a staffing level of **1,500 persons**. For those wishing to join the organization, **“VOMA”** pays airfare and other transportation expenses. Applicants must be between **16 and 55 years of age**, and approximately one-third of them are persons arriving from abroad, including European countries and Russia.

In addition, in **August 2023**, the Armenian terrorist organization **“VOMA”** established firing positions designated **“GMBET-2”** along the conditional state border between Armenia and Azerbaijan in the areas of **Zod (Sotk), Basarkechar (Vardenis), Kapan, Jermuk, Goris (Goris), Garakilsa (Sisian)**. These fortifications were constructed for the purpose of reinforcing the second and third defensive lines and for...

Page 236

...the deployment of volunteers and reserve forces in the event of possible military clashes. Construction of these fortifications was financed through donations from Armenia and foreign countries. According to available information, by that time **more than 200 fortifications** had been constructed, each costing approximately **USD 2,300**.

At the same time, information was disseminated in the media that the terrorist organization **“VOMA”** organized engineering camps in the territory of the Republic of Armenia from **31 March to 9 April 2023**, and also involved its members in the construction of defensive structures on **22 March 2023** and **7 April 2023**. The organization purchased a **PQP-7 simulator** worth **USD 17,000** from the Armenian company **Arpicot** for use in training. On **27 March 2023**, **“VOMA”** began a fundraising campaign to continue work on the construction of defensive positions for the Armed Forces of Armenia. On **28 April 2023**, the organization purchased **two Buggy vehicles** from the People’s Republic of China for the needs of the Armenian army.

In addition, in **April 2023**, **“VOMA”** purchased mortars for a total amount of **USD 20,000**, and on **19 June 2023** conducted training using **82-mm and 120-mm mortars**. From **7 to 16 July 2023**, the organization also conducted mountain-rifle training. On **16 June 2023**, **“VOMA”** organized a new training session involving citizens of **Lebanon, France, the United States, Russia and Austria**.

Furthermore, during the said period, the organization actively conducted propaganda on social media in support of the adoption of a law that would allow citizens of Armenia to

possess individual weapons. On **11 July 2023** and **27 November 2023**, three-month artillery training courses were launched. On **1 December 2023**, accelerated **10-day military training** was initiated for a unit in the **Kapan** area. In addition, winter military training camps under mountainous conditions were planned for **3–11 February 2024**.

The Internet resources belonging to the terrorist organization “**VOMA**” are as follows:

- www.voma.am
- www.voma.center
- www.youtube.com/channel/UCDtGdMGeDt3C5n-1UXw
- www.facebook.com/vomcenter/
- www.vk.com.voma-official

- [//t.me/s/center_voma](https://t.me/s/center_voma).

During the operational measures conducted, it was established that **V. Vartanov maintained regular contacts with former “State Minister” of the illegitimate entity Ruben Vardanyan**, discussing issues relating to security, the training of fighters and instructors in the terrorist organization “**VOMA**,” the organization of training, and the commission by Armenian illegal armed formations (IAFs) of terrorist acts against the Armed Forces of Azerbaijan (AF of AR) in the territory of the Karabakh Economic Region. **R. Vardanyan undertook to finance this terrorist organization and its members**. As a result of research conducted on social media, it became known that Ruben Vardanyan participated in the weekly training sessions of the “**VOMA**” organization, which had taken place since **1 May 2022** (<https://lurer.com/?p=463373&l=am>), and regularly attended meetings of the organization; in addition, he assumed part of the expenses associated with the organization’s activities in the said area.

Additionally, we report that persons named **Akopyan Armen Volodayevich, Oganyan Arut Araikovich, Dalakyan Khachik Sevadovich, Akopyan Mikael Arturovich, Gasparyan Ovanes Sasunovich, Bakhshyan Albert Artakovich and Ovannisyan Ovanes Mikaelovich** performed the duties of instructors in the terrorist organization “**VOMA**.” **According to operational...**

Page 237

... information, they participated in fighting against the Azerbaijani Army as members of illegal armed formations during the **Patriotic War**.”

Volume 5, case file sheets 157–158.

A letter of the **Main Directorate for Counterintelligence Support of the Economy of the State Security Service of the Republic of Azerbaijan, No. 4/593 dated 18 March 2024**, states that “on the basis of information obtained as a result of the measures carried out, it was established that **Ruben Karlenovich Vardanyan**, in the Russian Federation, under taxpayer identification number [REDACTED], registered the following companies:

Avtoinvest LLC — established on 22 October 2015; operates in the field of “provision of financial services not included in other groups, except insurance and pension services”; TIN **770333351**.

Breau LLC — established on 21 July 2014; operates in the field of “computer software development”; TIN **7702841840**.

Infrastructure of Charity LLC — established on 25 November 2014; operates in the field of “provision of services in accounting, financial auditing and tax consulting”; TIN **7701415824**.

Voskhod LLC — established on 26 February 2015; operates in the field of “investment in securities and dealer activities”; TIN **7704306118**.

Feel Good LLC — established on 15 January 2020; operates in the field of “computer software development”; TIN **726461484**.

Phoneix Qrup LLC — established on 8 May 2019; operates in the “legal field”; TIN **7704490442**.

Impact Future LLC — established on 31 August 2021; operates in the field of “activities of holding companies”; TIN **9704085938**.

Avika Management Company LLC — established on 17 December 2015; operates in the field of “business and management consulting”; TIN **7704339547**.

Phoneix Advisors LLC — established on 2 July 2015; operates in the “legal field”; TIN **7704321170**.

Q Partners LLC — established on 17 August 2020; operates in the field of “business and management consulting”; TIN **9704027767**.

The following information was also obtained concerning other legal entities associated with **R. Vardanyan**:

Troika Dialog CJSC. On 18 March 1991, R. Vardanyan, together with American entrepreneur of Russian origin **Peter Derby**, founded **Troika Dialog OJSC**. In the early 2000s, the company opened offices in New York and London. According to financial statements as of the end of 2010, the company’s assets amounted to **USD 5.75 billion**, its own funds amounted to **USD 872 million**, and its profit amounted to **USD 42.346 million**. In 2012, the company became a shareholder of the corporate and investment bank **Sberbank CIB**. In 2020, investments were made in the **VCV** online video-interview service, and in 2021 in the **Ins Dating** dating service and the **Kama** electric-vehicle manufacturer.

“Vardanyan, Broitman and Co.” In 2013, R. Vardanyan, together with his partner in Troika Dialog, **Mikhail Broitman**, founded **Vardanyan, Broitman and Co**. The company specializes in asset management, raising funds and conducting transactions. In 2018, **75% of the company’s shares belonged to R. Vardanyan**. The company is a shareholder in such venture projects as **Ameriabank**, transport operator **UFS**, as well as **Lamoda**, **Pronutria** and **NtechLab**. In 2013, R. Vardanyan acquired **50% of the shares of the Avika Management Company investment fund**, belonging to **RD Group**, founded by...

...**Gagik Adibekyan**. In 2018, the partners decided to divide the company's assets, valued at **USD 1 billion**. As a result, the **Romanov Dvor** and **Vozdvizhenka** business centers remained the property of R. Vardanyan.

“Global Blue Russia.” In 2018, **Global Blue** and R. Vardanyan established a company named **Global Blue Russia**. The company was engaged in the refund of tax payments in Russia.

Q Capital LLC acts as trustee for many companies belonging to R. Vardanyan and his wife **Veronika Zonabend**. The founder of the said company was **TD Advisors**, located in the Cayman Islands. Companies and organizations founded by **V. Zonabend** include: **Avika, Mediakart Advertising Agency, Innova Cosmetic, Grebez, Phoenix Group, Onmedia Novargo, PBM Media, Avika Management Company**, as well as the **School of the World Charitable Foundation**.

Other companies founded by R. Vardanyan include **Krasnaya Pakhra, Feelgood, AR Bureau, and Vremena Goda Club**. Organizations in which he is listed as a co-owner include: **Lavr, Schools of the World, E. M. Primakov Center, Atlanty, Atlanty-Innovations, Atlanty-North-West, Skolkovo Association, Chereshnev Les Foundation, Gbisi Agro, Ingeo, BPQ, Club-2015, Moscow State University Faculty of Economics Development Fund, Luciano, HTC, VLK Properties, VBP, Fort, and PAU**.

In addition, **“idea”** is a multi-sector non-profit foundation established in Armenia. The organization's official website (www.idea.am) states that the foundation was created by **Ruben Vardanyan and his partners** and that they provide financial assistance to the foundation. Projects of the above-mentioned non-profit organization include **“Development of Dilijan,” “Artsakh Project,”** and the **Church of St. Gevorg in Tbilisi**.

The **“We and Our Mountains” Territorial Development Agency**, established by Ruben Vardanyan and his colleagues in November 2022 in the Karabakh region, which is part of Azerbaijan, with the aim of providing reliable and high-quality means of communication for the local population living under blockade conditions. The Agency is registered in Yerevan at **6 Baghramyan Street**. The principal purpose for which the Agency was established was the implementation of socially significant projects in the self-proclaimed **“NKR” (Nagorno-Karabakh Republic)**. During that period, the Agency spent **USD 2,717,900** on projects implemented in the “NKR.”

According to information published on the official website of the **Aurora Humanitarian Initiative** foundation (auroraprize.com), the organization was founded in 2015 in the Republic of Armenia at the initiative of **Vardan Gevorgyan, Noubar Afeyan and Ruben Vardanyan**. The foundation is registered in Yerevan at **3 Hakob Hakobyan Street**. The **Aurora Foundation** positions itself as an organization seeking to address humanitarian problems around the world with the aim of providing assistance to those in need. It was created as an expression of gratitude on behalf of the survivors of the so-called **“Armenian genocide”** and in memory of those who saved them.

From 2020 to 2023, the foundation implemented projects in the Nagorno-Karabakh region (NKR) under the **Aurora Artsakh** program. These projects included humanitarian assistance, healthcare development, social development, infrastructure restoration, as well as initiatives in the fields of education, culture and sports.

The Board of the above-mentioned foundation includes: **Noubar Afeyan** — founder and CEO of **Flagship Pioneering Company**; **Anna Afeyan** — co-chair of the **Afeyan Foundation**; **Anthony Barsamian** — member of the board of directors of the law firm **Hutchings Barsamian Mandelcorn**; **Eric Esrailian** — physician, Emmy Award nominee, film producer, investor and entrepreneur; **Ara Darzi** — co-founder of the **Institute of Global Health Innovation at Imperial College London**; **Arisa Greenwald** — founder and director of **Memory Matters**; **Arman Jilavian** — head of...

Page 239

of the **Aurora Humanitarian Initiative** foundation since 2015; **Laura Klein** — Vice President of **Flagship Pioneering Company**.

According to information published in Armenian sources, the “**Artsakh Security and Development Front**” movement was established in May 2023 in the city of Khankendi by Armenian activists (including organizations and individuals concerned about the fate of the self-proclaimed “**NKR**”). It is presumed that the leader of the movement is **Ruben Vardanyan**. The principal objective of the movement was proclaimed to be the struggle against the “**existing threats**.” Ruben Vardanyan acted as coordinator of the movement’s executive committee, while the committee included **David Manukyan, Narine Aghabalyan, Andranik Sargsyan, Garik Abrahamyan and Nauk Avanesyan**. The day-to-day management of the movement was carried out by the executive committee. The movement has a page of the same name in Armenian registered on the Facebook social network (**FBID: 100092774383652**).

The purpose of the platforms created was as follows:

To unite political forces, organizations, initiatives and individuals around the former so-called “NKR” and coordinate their efforts.

To harness the potential of the diaspora in connection with the situation that had developed around the former so-called “NKR,” raise awareness of the situation, conduct activities and attract international attention.

Under the conditions of the crisis that had arisen, to prepare a comprehensive security and development plan, the “Artsakh Roadmap,” based on the right of the “people of Artsakh” to self-determination.

To support the activities of the “Artsakh Security and Development Front” and generate ideas for the post-war reconstruction of Artsakh and the Armenian world jointly with Armenia.

Volume 5, case file sheets 159–161.

A letter of the **Main Counterintelligence Directorate of the State Security Service of the Republic of Azerbaijan, No. 2/1775 dated 4 April 2024**, states that:

“it was established that the user of mobile telephone number [REDACTED], registered on the telephone under the name ‘**CC**’ (in **Getcontact** as ‘**Vladimir Pogosyan**’ and in **Eyecon** as ‘**Vladimir Gen. K. (com.)**’), is **Vladimir Sergeyevich Pogosyan**, born on **30 July 1965**,

registered at the address: Republic of Armenia (RA), city of Yerevan, **Avenue [REDACTED], apartment [REDACTED]**, a security expert, participant in the **First Karabakh War**, who worked in the **National Security Service of the Republic of Armenia** and as assistant to the President of the Republic of Armenia's chief adviser on national security matters, political scientist and public figure.

V. Pogosyan uses the channel **"t.me/[REDACTED]"** on the Telegram messaging platform, the accounts **"instagram.com/[REDACTED]"** and **"instagram.com/[REDACTED]"** on the Instagram social network. In addition, V. Pogosyan is a regular guest on the **Noyan Tapan** (youtube.com/noyantapan) and **Radio Van** (youtube.com/radio_van) channels on the YouTube portal and is the host of the program **"Frank Conversation with Vladimir Pogosyan"** on local television.

In one of his speeches, V. Pogosyan openly called for actions against the Jewish people, supported the idea of a European genocide and promoted slogans concerning the necessity of the complete extermination of the Jewish people, calling on his audience to join him. V. Pogosyan is also the founder and chairman of the opposition movement **"Committee 27."**

V. Pogosyan issued calls for strikes against strategic and civilian facilities of the Republic of Azerbaijan (AR). He participated in the formation and activities of illegal armed groups in territories of the Republic of Azerbaijan that had previously been under occupation, contrary to the legislation of the Republic of Azerbaijan. These groups organized...

Page 240

...attacks on institutions, organizations and individuals, which resulted in deaths and other serious consequences. He is also involved in the illegal circulation of weapons, ammunition, explosive devices, military equipment and gear, as well as in organizing and carrying out the process of occupation of territories of the Republic of Azerbaijan.

In the course of operational measures, it was established that **V. Pogosyan**, with the financial support of **R. Vardanyan**, actively engaged in the creation of illegal armed special units and the procurement of unmanned aerial vehicles for the purpose of preventing territories temporarily under the control of Russian peacekeepers from being returned to Azerbaijan, as well as for the purpose of reoccupying the liberated territories. **R. Vardanyan assumed leadership of these activities.** However, as a result of the local anti-terrorist measures conducted by the Armed Forces of the Republic of Azerbaijan on **19–20 September 2023**, the implementation of those plans was prevented."

Volume 6, case file sheets 2–3.

A letter of the **Main Directorate for Counterintelligence Support of the Economy of the State Security Service of the Republic of Azerbaijan, No. 4/593 dated 18 March 2024**, states that "on the basis of information obtained as a result of the measures carried out, it was established that **Ruben Karlenovich Vardanyan**, in the Russian Federation, under taxpayer identification number [REDACTED], registered the following companies:

Avtoinvest LLC — established on **22 October 2015**; operates in the field of "provision of financial services not included in other groups, except insurance and pension services"; TIN **770333351**.

Volume 5, case file sheets 143–144.

A letter of the **Main Military Counterintelligence Directorate of the State Security Service of the Republic of Azerbaijan No. 3/225 dated 7 February 2024** states that “in the course of measures carried out around the village of **Kolatar, Kalbajar District**, and in adjacent territories, weapons and ammunition depots, as well as artillery firing positions belonging to illegal Armenian armed forces (IAFs), were discovered.

In the territory of the settlement of **Bazarkend, Khojaly District (x4437193, y8635226**, 6 km northwest of the village of Kolatar), a significant quantity of artillery and small-arms ammunition and military equipment, including one vehicle, was discovered inside a building outwardly appearing to be a civilian facility.

In the area of the village of **Khayad, Aghdara District (x4434778, y8640907**, 5.5 km northeast of the village of Kolatar), artillery equipment belonging to illegal armed formations was discovered.

According to the information received, the following persons: **Avanesyan Seyran Aaron, Avanesyan Gevork Aaron, Akopjanyan Albert Eduard, Akopjanyan Garik Eduard, Agasyan Samvel Areg, Agasyan Mger Reshid, Gabrielyan Garik Manvel, Gabrielyan Suren Manvel, Agasyan Sasun Ranti, Agasyan Shakhen Artur, Gabrielyan Arsen Arkady, Gabrielyan Armen Arkady, Balasanyan David Onik, Arutyunyan Arut Kamoi, Agasyan Vagram Ilyaz, Babayan Samvel Artur, Avanesyan Paylak Grant, Esayan Tatul Reshid, Akopjanyan Suren Garik, Akopjanyan Albert Eduard, Gabrielyan Kamo Alyosha, Zakaryan David Andranik, Avanesyan Hayk Aleksey, Gabrielyan Garik Manvel, Arutyunyan Zaven Kamoi, Khachatryan Nver Grigory, Arutyunyan Andranik Khatur, Gabrielyan Mkhitar Ovanes, Avanesyan Grant Artem, Babayan Artur Benik, Agasyan Vrezh Ilyaz, Avanesyan Areg Sergey, Akopyan Narine Artur and Gnoryan Seyran Mikhail** participated in hostilities against the Armed Forces of Azerbaijan as members of illegal Armenian armed formations during the anti-terrorist operations and the Patriotic War. It was also established that, during the period of occupation, the houses in which the said persons lived were used as weapons and ammunition depots. Following the local anti-terrorist operations conducted by the Armed Forces of Azerbaijan on **19–20 September 2023** in the Karabakh Economic Region, a large quantity of weapons and ammunition was seized from these houses.

In addition, during research conducted on social networks, attention was drawn to the following noteworthy statements by **Avanesyan Seyran Aaron**, who in his interviews with the media presented himself as the head of the community of the village of Kolatar, Kalbajar District:

We have also established the years of birth, registration addresses, as well as social-media profiles and mobile telephone numbers of the said persons (attached):

According to a list consisting of 18 persons:

1. **Avanesyan Seyran Aaroni:** [REDACTED], [REDACTED], 25.03.1986, address: Kalbajar District, village of Kolatar.
2. **Akopjanyan Garik Edwardi:** 20.08.1973, address: Kalbajar District, village of Kolatar.
3. **Agasyan Samvel Aregi:** 27.12.1987, address: Kalbajar District, village of Kolatar.
4. **Gabrielyan Garik Manveli:** 24.07.1988, address: Kalbajar District, village of Kolatar.
5. **Gabrielyan Suren Manveli:** 27.01.1987, address: Kalbajar District, village of Kolatar [REDACTED]
6. **Agasyan Sasun Ranti:** 12.03.1991, address: Kalbajar District, village of Kolatar.
7. **Agasyan Shakhen Arturi:** 01.05.1992, address: Kalbajar District, village of Kolatar.
8. **Gabrielyan Armen Arkadya:** 09.09.1989, address: Kalbajar District, village of Kolatar.
9. **Gabrielyan Arsen Arkadya:** 30.11.1987, address: Kalbajar District, village of Kolatar.
10. **Balasanyan David Oniki:** 01.04.1987, address: Kalbajar District, village of Kolatar.
11. **Arutyunyan Arut Kamoei:** 16.06.1994, address: Kalbajar District, village of Kolatar.
12. **Agasyan Vagram Ilyazi:** 04.10.1981, address: Kalbajar District, village of Kolatar.
13. **Babayan Samvel Arturi:** 10.02.1994, address: Kalbajar District, village of Kolatar.
14. **Avanesyan Paylak Granti:** 14.07.1984, address: Kalbajar District, village of Kolatar.
15. **Esayan Tatul Rasidi:** 27.07.1968, address: Kalbajar District, village of Kolatar.

According to a list consisting of 9 persons:

1. **Akopjanyan Suren Garik:** 25.05.1992, address: Kalbajar District, village of Kolatar.
2. **Akopjanyan Albert Eduardi:** 02.02.1982, address: Kalbajar District, village of Kolatar.

According to a list consisting of 19 persons:

1. **Avanesyan Hayk Aleksei:** [REDACTED], address: Kalbajar District, village of Kolatar.
2. **Agasyan Mger Rasidi:** 21.01.1978, address: Kalbajar District, village of Kolatar.
3. **Arutyunyan Zaven Kamoi:** 12.05.1992, address: Kalbajar District, village of Kolatar.

4. **Khachatryan Nver Grigori:** 12.11.1972, address: Kalbajar District, village of Kolatar.

Volume 5, case file sheets 105–108.

A letter of the **Main Counterintelligence Directorate of the State Security Service of the Republic of Azerbaijan, No. 3/225 dated 7 February 2024**, states that:

“**Ruben Vardanyan Karleni**, at the invitation of **Peter Derby**, an American of Russian origin, began working at a company called **Troika**. From **18 January 1991**, the company continued operating under the name **Troika Dialog** (with offices operating in the United States and London). R. Vardanyan rose within the said company from the position of expert to that of president of the organization. In **2002–2004**, in addition to managing the companies, he held the position of General Director of **Rosgosstrakh**. He also served on the boards of directors of such companies as **Kama JSC**, **Ameriabank**, **IRIS Dating**, **Philgood (10%)**, **Global Blue Russia Holdings**, **VCV (New Information System)**, **Petrovax Pharm (NCO)**, as well as a number of other companies.

Ruben Vardanyan founded such projects in the territory of the Russian Federation as the **Skolkovo School**, the **Atlanty Club**, the companies **VBP** and **Noodome**, as well as the foundations **United World School Dilijan (UWC Dilijan)**, **Aurora**, and **Future of Armenia**. With a fortune amounting to **USD 1 billion**, he was included in the list of the country’s **200 richest people**.

According to allegations, Ruben Vardanyan was connected with **Anatoly Chubais**, Chairman of the joint-stock company **Rosnano**, **German Gref**, Chairman of the Management Board of **Sberbank**, as well as with organized criminal groups engaged in “**money laundering**.” In particular, he is alleged to have organized money-laundering schemes through **Hungary**, for

which sanctions were imposed against him. However, using his connections in that country, he was able to resolve this...

Page 244

...matter. In addition, by **Decree No. 726 of the President of Ukraine dated 19 October 2022**, sanctions were imposed against Vardanyan as a shareholder of the company **Volga-Dnepr**.”

Volume 5, case file sheets 105–108.

A letter of the **Main Military Counterintelligence Directorate of the State Security Service of the Republic of Azerbaijan, No. 249 dated 30 November 2023**, states that:

“**Ruben Karlenovich Vardanyan** entered the Faculty of Economics of **Moscow State University** in 1985; after completing his first year, he performed compulsory active military service in the **Armed Forces of the USSR**, and in 1992 graduated from the aforementioned educational institution. In 1990, with the support of **Peter Derby**, a citizen of the United States of America (USA) of Russian nationality, R. Vardanyan began business activities and completed advanced training courses in economics at educational centers in **Italy, the USA, France and Great Britain**. He then began working at the company **Troika**, which from **18 January 1991** was called **Troika Dialog**, with offices in the USA and Great Britain, where Vardanyan rose from the position of expert to that of president of the organization. In **2002–2004**, in addition to managing the companies, he held the position of General Director of **Rosgosstrakh**. He also served on the boards of directors of such companies as **Kama JSC, Ameriabank, IRIS Dating, Philgood (10%), Global Blue Russia Holdings, VCV (New Information System), Petrovax Pharm (NCO)**, as well as a number of other companies.

Ruben Vardanyan founded such projects in the territory of the Russian Federation as the **Skolkovo School**, the **Atlanty Club**, the companies **VBP** and **Noodome**, as well as the foundations **United World School Dilijan (UWC Dilijan)**, **Aurora**, and **Future of Armenia**. With a fortune amounting to **USD 1 billion**, he was included in the list of the country’s **200 richest people**.

Based on information disseminated in open sources

(<https://compromat.group/main/investigations/82414-dengi-zachislyaem-virtualnyy-schet-shefa-chubaysa.html>,

<https://svoboda.org/aZ29812458.html> and

<https://minval.az/news/124299110>),

Ruben Vardanyan was connected with **Anatoly Chubais**, Chairman of the joint-stock company **Rosnano**, **German Gref**, Chairman of the Management Board of **Sberbank**, as well as with organized criminal groups, engaging in “**money laundering**.” In particular, he is alleged to have organized money-laundering schemes through **Hungary**, for which sanctions were imposed against him. However, using his connections in that country, he was able to resolve this matter. In addition, by **Decree No. 726 of the President of Ukraine dated 19 October 2022**, sanctions were imposed against Vardanyan as a shareholder of the company **Volga-Dnepr**.

R. Vardanyan is married to **Veronika Feliksovna Zonabend**, born **8 February 1967**, of Jewish ethnicity, a citizen of the **Russian Federation and Great Britain**, registered at the addresses: [REDACTED] **Avenue, apartment [REDACTED]**, **Moscow**, as well as [REDACTED] **Street, [REDACTED]**, **London**; they have **four children**.

V. Zonabend received an education in economics in Great Britain and completed advanced training courses at a business school in France. She currently holds the position of director of **UWC Dilijan School**. There is information that V. Zonabend, together with her sister **Irina Feliksovna Zonabend**, a citizen of the Russian Federation and Great Britain, born **22 June 1973**, founded in London the company **Mount Gallery**, engaged in the production of art.

Her son, **David Rubenovich Vardanyan**, born in **1995** and a citizen of Great Britain, studied at **Westminster School in London in 2009–2014**. In 2016, he performed active military service in the “**Defense Army**” of the self-proclaimed “**Nagorno-Karabakh Republic**,” after which, due to health problems that arose, he underwent treatment. At present, David Vardanyan resides in **Singapore** and holds the position of Deputy Director of **Novatek Asia Development Holding RTE**.”

Page 245

His daughter, **Margarita Rubenovna Vardanyan**, born in 1997 and a citizen of the United Kingdom, currently resides in New York, USA. She works at **Carnegie Corporation** and at the same time is a member of the board of directors of the Russian company **Noodome**, owned by her father. Ruben Vardanyan’s other children are minors.

In addition to the above, it is known that on **8 April 2022** Ruben Vardanyan registered at the address: **Yerevan, [REDACTED] Street, building [REDACTED] apartment [REDACTED]** and received Armenian identity card No. [REDACTED]. On **5 October 2022**, he registered at the address: **Khankendi, Ivanyan Street, Lane 4, building 1**, located in the Karabakh Economic Region of Azerbaijan. It was also established that on **15 June 2021** he received ordinary Armenian passport No. [REDACTED].

On **1 September 2022**, Ruben Vardanyan renounced Russian citizenship, and on **22 December 2022**, by Decree No. **935** of President of the Russian Federation Vladimir Putin, he was officially deprived of citizenship. On **4 November 2022**, he was appointed “**State Minister**” by **Arayik Harutyunyan**, the “President” of the self-proclaimed “**Nagorno-Karabakh Republic**,” and held that position until **23 February 2023**. While holding that position, he established an organization called the “**Karabakh Freedom Front**.” Ruben Vardanyan was awarded the Orders of “**Saint Mesrop Mashtots**” and “**Saint Gregory the Illuminator**.”

According to available information, representatives of the illegal regime formed in the territories of Azerbaijan, which had remained under occupation for a prolonged period, unlawfully exploited the natural resources of the Karabakh region, thereby committing environmental crimes. In particular, minerals from the “**Gyulyatag**” **copper deposit**, located in the territory of the former Aghdara District (currently the Tartar District), with a total area of **498.5 hectares (4.98 km²)**, were plundered and transported to the Republic of Armenia.

Volume 4, case file sheets 249–251.

A letter received from the **Main Military Counterintelligence Directorate of the State Security Service of the Republic of Azerbaijan**, No. 3/1484 dated 14 August 2024, states that, according to available information, representatives of the illegal regime operating in the territories of Azerbaijan that had remained under occupation for a prolonged period carried out the unlawful mining of those territories both before the Patriotic War and during the period from 2020 to 2023.

In particular, beginning in **November 2020**, a total of **4,051 (four thousand fifty-one) mines**, laid by illegal Armenian armed formations, were discovered in the territories of the **Dashkasan, Kalbajar, Lachin and Shusha districts**. Most of those mines were manufactured in the Republic of Armenia in **2021**. As a result of mine explosions, **69 persons were killed** (15 servicemen and 54 civilians), while **300 persons** (166 servicemen and 134 civilians) sustained injuries of varying degrees of severity.

During the operational measures conducted, it was established that, during the period when **Ruben Karlenovich Vardanyan** held the position of “**State Minister**” of the self-proclaimed entity, work relating to the mining of those territories was significantly accelerated, and all financial expenses associated with those activities were borne personally by him.

In addition, it was established that, prior to the anti-terrorist operation conducted against illegal Armenian armed formations in the territory of Azerbaijan on **19–20 September 2023**, the work involving the mining of those territories was financed from the personal funds of **Ruben Karlenovich Vardanyan**, and that the mining of the territories was carried out directly on his instructions, as well as on the instructions of other leaders of the said structure.

Page 246

Volume 6, case file sheets 203–204.

A letter received from the **Main Directorate of Engineer Troops of the Ministry of Defense of the Republic of Azerbaijan**, No. 3-25-11/2-1272/2024 dated 30 July 2024, states that:

Beginning in **November 2020**, the following types of mines used by the Armed Forces of the Republic of Armenia were discovered in the territories of the **Dashkasan, Kalbajar and Lachin districts**, as well as the **city of Shusha**:

- **TM-62M anti-tank mines — 86 units;**
- **TM-62P2 anti-tank mines — 38 units;**
- **TM-57 anti-tank mines — 1 unit;**
- **PMN-2 anti-personnel mines — 127 units;**
- **PMN-E anti-personnel mines — 3,794 units;**
- **OZM-72E anti-personnel mines — 5 units.**

A total of **4,051 mines** were discovered. Many of them bore markings indicating that they had been manufactured in **2021 in the territory of Armenia**.

On the basis of the above-mentioned letter, with reference to the **Prosecutor General's Office of the Republic of Azerbaijan**, the following data are provided concerning persons killed and injured as a result of mine explosions **from November 2020 until the date on which the letter was sent**:

	Servicemen	Civilians	Total
Killed	15	54	69
Injured	166	134	300

Volume 6, case file sheets 194–198.

A letter received from the **Main Directorate of Military Counterintelligence of the State Security Service of the Republic of Azerbaijan, No. 3/1890 dated 17 October 2024**, states that, in the course of a study conducted on social networks, it became known that the humanitarian organization “**Aurora**” had been founded by **Ruben Vardanyan**, the “State Minister” of the unrecognized entity, as well as by **Noubar Afelyan and Vartan Gregorian**.

In addition, open sources revealed that the organization “**Aurora**” had implemented a project entitled “**Aurora for Artsakh**” for persons of Armenian nationality residing in territories under the control of the peacekeeping forces of the Russian Federation during the Patriotic War. In particular, **USD 2,200,000 (two million two hundred thousand)** was allocated to support **63 projects from Armenia**, as well as **93 projects initiated by international partners**.

Furthermore, **Mirza Dinnayi**, a laureate of the **Aurora Prize for “Awakening Humanity,”** a public activist of Yazidi origin who was born in the Republic of Iraq in 1973 and currently resides in the city of Venice, Republic of Italy, visited the city of Khankendi on **9 December 2020** at the invitation of **R. Vardanyan**. During the visit, M. Dinnayi met with **Artak Beglaryan**, who at that time was the “ombudsman” of the unrecognized organization. He also visited the **Caroline Cox Rehabilitation Center**, supported by a member of the Parliament of the United Kingdom and a supporter of that regime, as well as a sewing factory renovated with the support of **Aurora**.

In addition, during the trip he met the father of a **20-year-old serviceman** who had participated in hostilities against the Armed Forces of the Republic of Azerbaijan during the Patriotic War as a member of illegal armed formations and had been killed, and subsequently visited his grave.

It was established that on **21 December 2020**, M. Dinnayi shared on the Facebook social network a post concerning a meeting held via the **Zoom** application with the participation of **R. Vardanyan, his wife Veronika Zonabend, and members of the Aurora organization**. During the meeting, he shared with the founders and members of **Aurora** his impressions of his recent visit to Karabakh, discussed humanitarian projects and ways of providing assistance to affected persons of Armenian nationality following the Patriotic War. He also noted that, at the initiative of the said organization, **20 projects totaling USD 200,000 (two hundred thousand)** had been financed over the preceding months.

Page 249

In addition, in 2020, a postage stamp was issued in the Republic of Armenia (RA) in honor of **M. Dinnayi**. During his visit to the RA, he also held a meeting with representatives of the local Yazidi community.

According to the operational information received, on the instructions of **R. Vardanyan**, the **Aurora** organization engaged in other activities in the city of Khankendi. Thus, using funds received through projects of initiative groups, they provided military uniforms worth **USD 2,370 (two thousand three hundred seventy)** to persons of Armenian and Yazidi ethnicity who were members of illegal armed formations.

In addition, on **22 April 2021**, with the financial support of the NGO **Air Bridge Iraq-Luftbrücke Irak**, headed by **M. Dinnayi**, a “**trauma training**” project was implemented in the RA to enhance the professionalism of teachers working with psychologically traumatized students and vulnerable groups after the war, as well as social workers. The **United World College Dilijan (UWC Dilijan)** served as a partner of the course.

It was established that **M. Dinnayi** made posts on his social media pages in support of the so-called regime and **R. Vardanyan**.

It is also reported that **Rustam Bakoyan**, a deputy of Yazidi origin from the “**My Step**” faction of the Parliament of the Republic of Armenia, stated in a press statement dated **28 September 2020** that many representatives of the Yazidi community had registered as volunteers and traveled to Karabakh to participate in hostilities. He also reported that, on **27 September 2020**, the first Yazidi detachment, named “**Karam Sloyan**,” had been created in the village of **Aknalich, Armavir Region, Republic of Armenia**, and that two more detachments had subsequently been created for the same purpose. In addition, according to available information, during the **Patriotic War**, brothers of Yazidi origin **Temur and Onnik Kotoyan** participated in hostilities against the Armed Forces of the Republic of Azerbaijan as members of that detachment; **Temur Kotoyan was killed**, while his brother **Onnik Kotoyan went missing in action in the fighting near Jabrayil**.

In addition, it became known that during the Patriotic War **R. Vardanyan** initiated a campaign entitled “**Recognize me? Recognize Artsakh**,” aimed at attempting to secure international recognition of the unrecognized regime.

Volume 7, case file sheets 135–136.

A letter of the **Main Directorate of Military Counterintelligence of the State Security Service of the Republic of Azerbaijan, No. 3/2178 dated 29 November 2024**, states that,

following the local anti-terrorist operations conducted by the Armed Forces of the Republic of Azerbaijan on **19–20 September 2023** for the purpose of neutralizing illegal Armenian armed formations (IAFs) in the Karabakh Economic Region, **three weapons and ammunition depots** were identified in the city of Khankendi, which had been established during the period when **Ruben Karlenovich Vardanyan** was “**State Minister**” and financed from his funds:

- a building located at **8 S. Kasparov Street, Khankendi** (coordinates **x4410740, y8650423**, according to the Google Maps application). The external appearance of the building indicates that it was constructed within the last **4–5 years**, and it is presumed to belong to the so-called “**justice authorities**” of the illegitimate regime;
- a structure previously used as an ammunition depot of the Combined Arms Army of the Armed Forces (AF), located on the road formerly called “**Stepanakert-Lernavan-Aygestan**” (city of Khankendi), outside the residential area (coordinates **x4412768, y8650179**, according to the Google Maps application);
- a building previously located in the military compound of the headquarters of the Combined Arms Army of the Armed Forces, near the intersection of **Tigran Mets Road** with the roundabout...

Page 250

...known as “**Azatutyan Hraparak**” (city of Khankendi) (coordinates **x4411833, y8651149**, according to the Google Maps application).

Below is a list of the significant quantity of ammunition stored in the aforementioned depots and used by the criminal organization, which was seized after the anti-terrorist operations as military trophies and identified in the course of the relevant investigation:

No.	Type	Quantity
1	5.45 mm PS cartridge	7,858,250 pieces
2	5.45 mm T cartridge	1,297,350 pieces
3	5.45 mm US cartridge	8,570 pieces
4	7.62 mm T-45 cartridge	1,205,200 pieces
5	7.62 mm PS cartridge	5,582,400 pieces
6	7.62 mm LPS cartridge	283,920 pieces
7	7.62 mm T-46 cartridge	539,440 pieces
8	7.62 mm B-32 cartridge	232,320 pieces
9	12.7 mm B-32 cartridge	180,080 pieces
10	12.7 mm BZT cartridge	288,060 pieces
11	12.7 mm MDZ cartridge	210,600 pieces
12	12.7 mm BS cartridge	108,480 pieces
13	12.7 mm Browning cartridge	31,200 pieces
14	12.7 mm SN cartridge	1,120 pieces
15	12.7 mm sniper cartridge	3,320 pieces
16	14.5 mm B-32 cartridge	29,200 pieces
17	14.5 mm BZT cartridge	6,200 pieces

No.	Type	Quantity
18	14.5 mm MDZ cartridge	19,400 pieces
19	20 mm M-57 cartridge	27,704 pieces
20	23 mm OFZ cartridge	8,500 pieces
21	23 mm BZT cartridge	4,250 pieces
22	30 mm OFZ cartridge	15,000 pieces
23	30 mm VT cartridge	9,500 pieces
24	23 mm BZT cartridge	4,250 pieces
25	30 mm OFZ cartridge	15,000 pieces
26	30 mm VT cartridge	9,500 pieces
27	F-1 hand grenade	16,760 sets
28	D-1 hand grenade	7,200 sets
29	RG-42 hand grenade	200 sets
30	Anti-tank hand grenade	1,448 sets
31	30 mm VOQ-17M	4,200 pieces
32	40 mm VOQ-25M	1,250 pieces
33	40 mm PQ-7V	2,760 sets
34	82 mm O832DU mine	3,000 pieces
35	120 mm OF843B mine	910 pieces
36	122 mm B-30 VSh-1 firing set	432 pieces
37	125 mm D-81 VOF	36 pieces
38	125 mm D-81 VBM	185 pieces

39	125 mm D-81 VBK	210 pieces
40	72.5 mm RPG-26	24 sets

Volume 416, case file sheets 293–295.

A letter received from the **Main Directorate of Military Counterintelligence of the State Security Service of the Republic of Azerbaijan, No. 3/2138 dated 25 November 2024**, states that, in the course of examining social networks, it was established that a video recording had been made on the slope of a hill located on the bank of the **Badara River in the Khojaly District** (coordinates: **39.906947, 46.655509**). In addition, in the upper left corner of the video recording there is an emblem in the shape of a tree, which is the symbol of an organization called the **“Artsakh Security and Development Front.”** This organization was established on **18 May 2023 by Ruben Karlenovich Vardanyan**.

In addition, it was established from open sources that the idea of creating this organization had been proposed by Ruben Vardanyan during the period when he held the position of the so-called **“State Minister”** of the unrecognized regime. It was also established that **David Azatovich Manukyan**, who in 2019–2021 served as deputy commander of the so-

called **“Artsakh Defense Army”** for combat training, was a member of the board of the **“Artsakh Security and Development Front.”** A search on the Facebook social network revealed that, on **17 August 2023**, with the support of the said organization and the **“Alliance of Youth Clubs,”** a sports and tactical games project called **“DAVIT VEK”** was implemented. Thus, the **“DAVIT VEK”** project is organized annually with the aim of teaching schoolchildren from various regions of the **Republic of Armenia (RA)** military skills. Participants are given an opportunity to learn the use of various types of weapons, survival skills in extreme conditions, the setting up of tents in mountainous terrain, movement in off-road conditions, and other skills. It is reported that these competitions were held in **June 2023** with the participation of boys and girls aged **16–18**, and that the project budget amounted to approximately **USD 212,000**. The principal bank account for collecting donations for the **“DAVIT VEK”** project was an account belonging to **Ameriabank** in the RA, while cooperation was also carried out with such well-known banks as **Citibank** (for transfers in US dollars), **Raiffeisen Bank International** (for transfers in euros), and **Raiffeisen Bank Russia** (for transfers in Russian rubles). It also became known that the project was supported by the organization **“We are Our Mountain,”** founded by Ruben Vardanyan.

According to the operational information received, in the territory of the **Karabakh Economic Region**, under the guise of the sports and tactical project **“DAVIT VEK,”** training sessions were conducted for terrorist purposes. Not only minor children, but also persons of various age groups, including members of the well-known terrorist organization **“VOMA,”** were involved in those training sessions. As part of this project, under the guise of teaching participants military skills, instructors from **“VOMA”** conducted training sessions with an overt terrorist orientation. According to the principles and provisions concerning the protection of children in armed conflicts enshrined in the **Geneva Conventions of 1949, the Additional Protocols of 1977, the Convention on the Rights of the Child of 1989 and its Optional Protocol of 2000**, such actions constitute a violation of international norms. Analysis of the video material showed that the instructor who trained the young people was wearing a T-shirt bearing insignia indicating affiliation with the terrorist organization **“VOMA.”** This confirms the participation of members of that organization in organizing the activities. Open sources (**OSINT**) contain a sufficient number of photographs and video materials confirming the involvement of minors in these training sessions. Thus, Armenian photographer **David Kakhramanyan**, who lived in the city of Khankendi, published materials on his Instagram account (www.instagram.com/██████████) confirming the participation of children in...

Page 252

...military training sessions. Similar publications were made by Armenian blogger **Garik Harutyunyan** on his Facebook page (<https://www.facebook.com/██████████>). In addition, video material containing similar footage was published on the **BUDROOO NEWS** YouTube channel (<https://www.youtube.com/watch?v=1VyHNVcL5Y>).

It was also established that, during the existence of the illegitimate regime, on the **“HAYORDI”** page on the Telegram social network belonging to the organization **“Alliance of Youth Clubs,”** a news item entitled **“Artsakh Youth Hold Training Camps in the Mountains of Artsakh”** was published on **7 August 2023**. The photograph published there shows approximately **50 teenagers in field uniforms** taking part in various games, setting up tents in a forested camp area, while some are holding objects

imitating weapons (t.me/youth_clubs_alliance/795, t.me/youth_clubs_alliance/820, t.me/youth_clubs_alliance/828). It was additionally established that, after the **Second Karabakh War**, especially during the period of protest actions by Azerbaijani eco-activists in the **Lachin corridor**, the activity of the said Telegram page increased. Its principal purpose was to involve young people in various public activities and disseminate information about events taking place in Karabakh “**from the Armenian point of view**” in order to attract the attention of the international community. It was also confirmed that **Ruben Vardanyan regularly participated in the activities of this organization.**

It was established that **Ruben Vardanyan assumed responsibility for organizing military training, training fighters and instructors, as well as financing the organization itself and its members.**

Volume 416, case file sheets 195–196.

The **inspection report dated 27 September 2023** concerning the items in Ruben Vardanyan’s possession at the time of his detention shows that the **first black bag** contained: **1 photograph** depicting Ruben Vardanyan with members of his family; **1 wallet containing a plastic card** bearing the inscription “**TaTever**” at the top and “**VIP CARD**” at the bottom; a **foreign passport of the Republic of Armenia No. [REDACTED]** belonging to Ruben Vardanyan; and **1 driver’s license** belonging to the said person. The passport contained visas of Ruben Vardanyan, No. [REDACTED], issued by the **United States of America**, and No. [REDACTED], issued by the **French Republic**. In addition, during the further inspection it was established that, in early **September 2022**, Ruben Vardanyan illegally entered the territory of the **Karabakh region of the Republic of Azerbaijan**, after which he left the territory of the country several times, traveling to various states, and subsequently illegally returned to the territory of the Republic of Azerbaijan.

During the inspection, documents containing information about **Operation “Nemesis”** were also discovered in the same bag, as well as documents entitled “**Achievements Accomplished in 100 Days**,” including documents entitled “**Initiative Groups and Political Parties of Artsakh (and Armenia?) Must Take the Following Steps**” and “**General Assemblies of the Population of Artsakh**,” **1 Nokia mobile telephone**, **1 Blackberry mobile telephone**, and **1 iPad tablet**.

Volume 2, case file sheets 60–91.

The **inspection report dated 22 November 2023** concerning the **Blackberry** and **Nokia** telephones belonging to **Ruben Karlenovich Vardanyan** shows that the memory of the said telephone contained the following numbers: “**Vova Vartanov**” [REDACTED], the number [REDACTED] under the name “**CC**,” **Armen Jilavyan** [REDACTED], and other numbers relevant to the case.

An examination of the **WhatsApp** application installed on Ruben Vardanyan’s **Blackberry** telephone established that he was a member of the groups **Group List (Ruben...**

Page 253

Vardanyan Karlenovich, Goar Assistant to Artur, Masha Assistant, Kristina Serobyanyan, Olga Sushina, Alexey Anishchenko, Alexey Murzin, Ara Bagdasaryan, Kirill Sobolev, Tatyana Suslova), **La Familia** (Seda Abrambrumyan, Veronika Zonabend, Alex Hambartsumyan, Benjamin, David, Amalia, Ira), **Semya** (Georgy Vardanyan, Masha Banditka, Veronika Zonabend, David, Margarita, Veronika), **GFOC Advisory Board** (Vahe Vardanyan, Lucy Ezdi, Marta Albert, Dorne, Emma Frit, James D, John Stevenson, Mike, Patricia Armstrong), **Vardazabendl** (Margarita, Georgy Vardanyan, Masha Banditka, Veronika Zonabend, Zhonna Nurgalieva), **Aurora** (Noubar Afelyan, Armen Jilavyan), **Judging Aurora**(Noubar Afelyan, Armen Jilavyan, Ara Darzi).

From correspondence dated **12 November 2022** with **Armen Jilavyan**, General Director of the **Aurora humanitarian initiative group**, in the **WhatsApp** application installed on Ruben Vardanyan's **Blackberry** telephone, it can be seen that he stated that an agreement had been reached to purchase unmanned aerial vehicles from the company **Liaz**, operating in the Czech Republic; and on **12 November 2022 at 06:24**, he sent Arman Jilavyan correspondence with **Ernest Arustamyan**, a full member of the **Russian Academy of Engineering**, concerning obtaining technical documentation for the construction in the city of Yerevan of a plant for the production of the said devices, instructing him to deal with the matter. The text of that correspondence is as follows:

“**Ruben Vardanyan:** Briefly, the essence of the matter. I held negotiations with the Czech company **Liaz**, a manufacturer of vertical-takeoff UAVs (helicopter). They agreed not only to sell, but also to provide the technical documentation for the construction of a plant in Armenia. This is a unique case. I am dealing with this issue in Yerevan at the level of the Military-Technical Committee. Things are not simple here. The UAVs (observation, reconnaissance, monitoring) have good characteristics. Few countries manufacture UAVs of this technical level. (We conducted a preliminary market analysis.) Such reconnaissance helicopters, in combination with kamikaze drones (which Armenia has), would have been useful in Artsakh. If there is a bank guarantee, the project could be implemented using loans from Czech banks under the insurance coverage of the Czech State Insurance Company — **Egal**. If you are interested in the matter, I am ready to provide you with all the necessary information. On 22.11.22 I am flying to Moscow. On the 11th–13th I will be in Sisian. I would like to help Armenia and Artsakh. If my assistance is needed.

If there is a bank guarantee, the project could be implemented using loans from Czech banks under the insurance coverage of the Czech State Insurance Company — **Egal**. If you are interested in the matter, I am ready to provide you with all the necessary information. On 22.11.22 I am flying to Moscow. On the 12th–13th I will be in Sisian. I would like to help Armenia and Artsakh. If my assistance is needed, I would be glad to meet and discuss it. **Ernest Sanaturovich Arustamyan.**”

From correspondence in the **WhatsApp** application conducted on **5 October 2020** with **Arman Jilavyan**, General Director of the **Aurora humanitarian initiative group** founded by Ruben Vardanyan, it can be seen that he arranged for **one million dollars** to be transferred to the **Aurora Foundation** under the pretext of humanitarian assistance to the Armenian population of Karabakh, in particular with the participation of Armenian billionaire **Noubar Afeyan**, residing in Canada. These funds were allegedly intended for assistance; however, half of the amount was clearly appropriated personally.

The text of the said correspondence is as follows:

“— **Ruben Vardanyan:** I spoke with Noubar, he’ll write to you now, then call me. Everything is great, 1 mil + 1 mil.

— **Arman Jilavyan:** Vov. Ok.

— **Ruben Vardanyan:** 50 Vartan, 100 Y, the difference, 850, he puts into the Armenia Fund, and together we raise 1 mil; whatever remains, we split the difference in half.”

During correspondence through the **WhatsApp** mobile application installed on the **Blackberry** mobile telephone, which was examined, Ruben Vardanyan, using mobile telephone number [REDACTED], corresponded with the user of mobile telephone number...

Page 254

[REDACTED], marked as “**Vova Vartanov**” (head of the terrorist organization “**VOMA**”). On **22 May 2022 at 02:21**, the latter sent him the following message in Armenian:

“— **Vova Vartanov:** Hello, Vartanov jan! Although belatedly, I am sending the list of instructors who will use the cable car free of charge:

1. Akopyan Armen Volodyai.
2. Oganyan Arut Araiki.
3. Dalakyan Khachik Sevadai.
4. Akopyan Mikhail Arturi.
5. Isaan Ovanes Sasuni.
6. Bakhshyan Albert Artaki.
7. Hovhannisyan Ovanes Mikaeli.”

Thereafter, the person identified as “**Vova Vartanov**,” continuing the correspondence on **22 May 2022 at 02:21**, sent the following voice message in Russian and Armenian:

“**Vova Vartanov:** Ruben jan, hello. As I said several months ago, I sent you the list. The specified instructors, using the Tatev cable car free of charge, can travel from village to village.”

On **22 May 2022 at 02:22**, the said person sent the following voice message in Russian:

“**Vova Vartanov:** To be more precise, I am sending it to you. It was sent to me by our coordinator for the Geryus District.”

The accused **Ruben Vardanyan**, through the **Signal** application installed on the telephone, using mobile telephone number [REDACTED], conducted the following correspondence in Russian with the user of mobile telephone number [REDACTED] indicated under the name “**CC**” (**Vladimir Pogosyan**):

“— **Ruben Vardanyan:** Volodya, please call me. (**2 July 2023, at 04:12**)

— **CC:** Who is this? (**2 July 2023, at 06:18**)

— **Ruben Vardanyan:** To whom did you explain the situation yesterday evening?

Please send:

1. What do you propose?
2. What resources do you have?
3. What resources do you need?
4. To whom and how will you be subordinate?
5. Where will you personally be located — here or there? (2 July 2023, from 07:08)

— **CC:**

1 — My resource is people located in Armenia and abroad (professionals). If you heard Hasanov's interview, he spoke about what we do not have, but which I have been proposing for many years.

2 — First and foremost, the state (Artsakh) and what follows from that. Individual resources may also be considered.

3 — If we create the **NCSSO (National Center of Special Operations Forces)**, it must be subordinate to the state. The NCSSO Center — subordination, all operations, research, plans, areas of operations — complete confidentiality.

4 — The NCSSO Center will be in Artsakh; the commander and two of his deputies will be there, two deputies will be here, the matrix will be in Armenia.

The rest is better discussed, because there will be questions that we will discuss for days. In a constructive manner, I will explain what ideas there are and how to implement them. I can say that if we create this, it will be very difficult for the practitioner, because the philosophy is not to sit on the defensive, but to be active. From the defensive line — to the depth of the enemy's rear, and so on. I can explain in greater detail! That is, what I mean is that in such a case I will be able to bring Artsakh out of this situation with..."

Page 255

...with heavy losses for the enemy. Even strike them! We have a good chance. Despite the time lost, there is still an opportunity. There can and should be no other philosophy or strategy.

(2 July 2023, 08:43)

— **Ruben Vardanyan:** What does it mean to be subordinate to the state? To the President? (2 July 2023, 08:44)

— **CC:** Yes. (2 July 2023, 08:48)

— **Ruben Vardanyan:** Ok, did he react to this in any way? (2 July 2023, 08:49)

— **CC:** Not yet. (2 July 2023, 08:49)

— **Ruben Vardanyan:** What kind of relationship will there be with the Ministry of Defense of Artsakh? (2 July 2023, 08:49)

— **CC:** Planning on general matters will, of course, be joint. But the special forces personnel of the Ministry of Defense, National Security Service and Ministry of Internal Affairs will transfer to the **NCSSO**. They will destroy it anyway, and the specified units do not have the specified knowledge [**meaningless string of words**]. Wrote that by mistake. (2 July 2023, 08:53)

Ruben Vardanyan: Ok. (2 July 2023, 08:54)

— **CC:** (voice message) By the way, I reached an agreement with friends in Europe; I can bring an **EW system** that is cheaper than the **Krasukha** and is more mobile and effective. It operates in a range from “0” along the horizon, from **300 MHz to 8 GHz**. It has 12 channels, as well as a library of the frequencies of all unmanned aerial vehicles. Training takes one week to ten days. We can bring it to Armenia. This device can cover up to **50 kilometers** even from deep within the territory, and so on. I am saying that there is no point in writing all of this. If there is a serious intention, let us discuss it. (2 July 2023, 09:06)

Thereafter, numerous audio calls took place between the said persons, and on 5 July 2023 at 03:36, the user of mobile telephone number [REDACTED], identified under the name “**CC**,” wrote the following message in Russian to Ruben Vardanyan:

— **CC:** Perhaps it would be possible to consider your return to Armenia.

Correspondence between Ruben Vardanyan and a person named **Artur Alaverdyan** in the **Telegram** application:

“**The Ministry of Defence of the United Kingdom transferred to Ukraine heavy Malloy unmanned aerial vehicles capable of carrying weapons and ammunition.**

In addition, they can be used to evacuate the wounded. The drone has a payload capacity of **180 kg** and an operating range of **70 km**.

If the British sold such drones, they could be purchased.

Ruben Vardanyan: Yes, that is excellent. Artur jan, find out whether they can be purchased or not, or whether there are equivalents in other countries?

Artur Alaverdyan: Unfortunately, we do not have such connections with the United Kingdom. We are also concerned that they are large in size.”

Correspondence between Ruben Vardanyan and a person named **Aik Ovakimyan** in the **Telegram** application:

“**Aik Ovakimyan:** This will be the end of sovereign Armenia. We need weapons, we need instructors from the West, and we need time. No one will simply leave the situation as it is, but rushing into trouble with our bare asses (that is a fact, and it is plainly obvious) will not solve any problem now.

Ruben Vardanyan: Inside Artsakh, they told me this directly: both the elite and the majority of the population. Many have accused me from the very beginning of supposedly wanting blood and sacrifices. When I said that, as in a Russian fairy tale, we would have to lose either

the Motherland (the horse), or dignity (the sword), or even our head, a relative majority said that none of those options suited them — let someone else...

Page 256

...decide for us. Believe me, I do not doubt you for a second, or those **120 people whom we trained over the last three months**. But this is only a drop in the ocean.”

In the course of the continuing investigative action, during an inspection of the **“One Drive”** section of the **Telegram** social platform, a document dated **23 June 2022**, in Russian and entitled **“Surface-to-Air Missile System,”** was identified.

In the section of this document entitled **“Investment Capital for Product Development,”** it is stated that:

“AQUA Company is conducting research and development of a defense product — a surface-to-air missile system for air defense — with a view to its subsequent launch into serial/mass production. The result of the development will be a prototype surface-to-air missile air-defense system that has undergone pre-production testing.

The air-defense surface-to-air missile system consists of:

- **ZUR-1** (surface-to-air guided missile);
- **TPK-1** (transport and launch container);
- **PTRS-1** (container for transportation and salvo launch);
- **SOC** (target detection station);
- **BAR** (battery and radio-transmitting device);
- **ZPS** (charging and testing station).

Upon completion of development, the approximate total value of the **AQUA** company project will amount to no less than **USD 4,000,000**.

The latest approximate valuation of **AQUA** includes:

- Expenses for development and production of the prototype.
- Fixed assets, in particular expenses for laboratory measuring equipment; computer equipment, servers, tools, office equipment; test benches and technological equipment.
- Intellectual property (IP) portfolio: patents for inventions in Armenia and other countries in the form of utility-model applications.
- Intellectual property (IP) portfolio: patents for inventions in Armenia and other countries in the form of industrial-design applications.
- IP in the form of trade secrets (know-how).
- Developed software.
- Design documentation developed for the product.
- Operational documentation developed for the product.
- Technological documentation developed for the product.
- Established organizational and cooperation chains and logistical links.
- Consideration of arising risks.
- High level of competence of the development team.

- Trademark.

Taking into account the work already performed and the expenses incurred, **AQUA requires additional financing in the amount of USD 1,200,000.**

The **Shareholders' Fund** invites mutually beneficial and effective cooperation and proposes investing **USD 600,000** in exchange for a **15% stake in AQUA**. The investment may be made in installments in accordance with an agreed payment schedule.

A representative of the Fund may be represented on the Board of Directors of **AQUA**.

The Fund undertakes, for a period of **5 years**, not to leave AQUA, and not to sell or transfer its shares to third parties. If, after 5 years, the Fund wishes to leave the company by selling and transferring its shares, it undertakes first to offer the entire **15%** to the existing shareholders of AQUA, who shall have a preferential right to purchase the Fund's entire stake (**15%**) at the entry price (in the currency in which the contribution was made). If..."

Page 257

in the course of the company's activities, the parties agree on the need to attract additional investment into **AQUA**, the parties shall provide additional financing in proportion to their respective shares in the company.

Product Manufacturing

Upon completion of the work related to the acquisition of the product, it will be necessary to commence its mass production. Excluding the costs of acquiring or leasing the necessary production facilities, the estimated cost of establishing a manufacturing company for the mass production of the product will amount to **USD 2,000,000.**

The shareholders are prepared to participate in the establishment of the manufacturing company and invite the **Fund** to engage in mutually beneficial cooperation, proposing that it invest **USD 600,000 in exchange for a 30% stake.**

If the Fund is unable to fulfil its obligations or wishes to withdraw from the transaction, the shareholders of **AQUA** shall have the preferential right to purchase all **30% of the shares in the manufacturing company** belonging to the Fund at the price applicable at the time of the Fund's entry (in the currency in which the contribution was made).

The Fund undertakes, for a period of **5 years**, not to withdraw from the manufacturing enterprise and not to sell or transfer its shares to third parties. If, after 5 years, the Fund decides to sell/transfer its shares and withdraw from the manufacturing company, the Fund undertakes first to offer the entire **30%** to the existing shareholders of AQUA, and the shareholders of AQUA shall have the preferential right to purchase those shares. The entire 30% block of shares in the manufacturing company shall be provided to the Fund at the entry price (in the currency in which the contribution was made).

If, in the course of the company's activities, the parties agree on the need to attract additional investment into the manufacturing enterprise, the parties shall provide additional financing in accordance with their respective shares in the company.

IP Licensing Activities

AQUA grants licenses to use **IP** for manufacturing purposes and charges royalties on each unit of goods manufactured/sold, or as a percentage of total sales. AQUA may also grant intellectual-property licenses to third parties — companies engaged in defense products or other manufacturers — for the purpose of receiving royalties or lump-sum payments.

Development of Third-Party Products

If the Fund additionally proposes the development of its own products and the parties reach an agreement, AQUA will develop those products. At the same time, the products may be manufactured either at the manufacturing enterprise or at other manufacturing facilities designated by the Fund.

If the products are manufactured at the manufacturer's enterprise, an equal partnership is proposed: **50% to the shareholders of AQUA and 50% to the Fund.**

If the products are manufactured at third-party manufacturing facilities designated by the Fund, a mutually beneficial solution acceptable to all parties shall be adopted.

There are **3 options for ownership of the rights to a product proposed by the Fund:**

AQUA develops the product and is the full owner of the copyright.

AQUA develops the product but is not the owner of the copyright. That is, the full rights to the product are transferred to the Fund or to a third party designated by the Fund.

Volume 4, case file sheet 149.

Page 258

The **inspection report dated 29 October 2023** concerning the inspection of **one dark-grey Apple iPad Pro tablet** belonging to **Ruben Vardanyan** shows that, in the **"Photos"** section of the tablet's main menu, there was a photograph of Ruben Vardanyan's son wearing a field military uniform, taken on **17 September 2015**.

During the continuing inspection, a video with a total duration of **41 seconds** was discovered. The video was added to the tablet's "Photos" section on **3 August 2023**. Upon viewing the video, it was established that at **00:01**, inscriptions reading **"ASALA, Nemesis, Artsakh, Avangard, Aramo, Shushi, Winchester, Bloods"** were visible on a sheet of paper attached to a board. At **00:03**, a drawing depicting a tree was visible, together with text in Armenian reading: **"Artsakh Security and Development Front."** Upon further viewing, from **00:04 to 00:12**, Ruben Vardanyan can be seen dancing with persons wearing field military uniforms. From **00:12 to 00:37**, the persons wearing field military uniforms continue dancing. At **00:38**, Ruben Vardanyan is photographed with persons wearing field military uniforms. Three seconds later, the video ends.

During the continuing inspection, another video with a total duration of **1 minute 7 seconds** was discovered. The video was added to the tablet's "Photos" section on **13 August 2023**. Upon viewing the video, the accused in the case, Ruben Vardanyan, and other persons wearing field military uniforms can be seen. The video depicts persons wearing field military uniforms conducting military training while holding firearms. The **flag of the Republic of Armenia** is displayed on the right shoulder of their military uniforms. At **00:29**, Ruben Vardanyan can be seen giving a speech. From **00:40 to 00:43**, Ruben Vardanyan can be seen dancing with persons wearing field military uniforms. The majority of the persons in military uniform shown in the video are **minor boys and girls**. The video ends with a black background bearing the inscriptions "**DAVID BEK military sports**" and "**Youth Clubs ALLIANCE.**"

During the continuing inspection, another video with a total duration of **47 seconds** was discovered. The following words in English appear in the video:

"Drones can help carry casualties, supplies and even weapon systems to help keep our armed forces safe and support them on the front line. Uncrewed aerial systems like these can lift up to 180 kg and have a range of around 70 km. Malloy and hydra drones are an impressive result of the british army's work with UK industry to help solve challenges faced on the battlefield including those encountered by our allies in Ukraine."

The source then provides the following Russian translation: **Unmanned aerial vehicles can help the armed forces remain safe and support them on the front line by transporting casualties, supplies and even weapons systems. Such unmanned aerial systems are capable of lifting loads of up to 180 kg and covering a distance of approximately 70 km. Malloy and Hydra drones are an impressive result of the British Army's cooperation with UK industry in helping to address challenges encountered on the battlefield, including those faced by our allies in Ukraine.**

The video shows the evacuation of one person wearing a field military uniform by means of a drone.

In the main menu of the **Telegram** mobile application, a group entitled "**ATR We Are Our Mountains**" was identified. Examination of correspondence in that group established that, on **14 September 2023 at 14:58**, Vardanyan received from **Artur Alaverdyan**, who had sent it that same day at **14:54**, a message reading as follows:

"Let's work through this option. The UK Ministry of Defence has supplied Ukraine with heavy Malloy drones capable of carrying supplies and weapons. They can also be used to evacuate the wounded. The drone has a payload capacity of 180 kg and a range of 70 km. We could buy such drones if the British are willing to sell them."

The above-mentioned video, with a duration of **00:45 minutes**, was also sent.

Volume 2, case file sheets 122–137.

The **inspection report dated 4 October 2023** concerning the country house located in the village of **Kolatar, Aghdara District**, in which Ruben Vardanyan resided, shows that, to the left of the entrance door, in the bedroom, on the right-hand side of the wall opposite the entrance door...

...a photograph bearing the inscription “**Artsakh**” on the reverse side was discovered and seized. On a wardrobe located to the right of the entrance door, a notebook and a book were discovered and seized. A photograph of **Ruben Vardanyan and his parents** was also discovered on the wall to the right of the entrance door in the room being inspected and was likewise seized.

During the inspection of a **container-type storage facility** located on the adjoining plot, **14 sets of military equipment intended for overnight stays under field conditions** were discovered. Of these sets, **3 sets were selected as samples, packaged and seized in accordance with the established procedure.**

Volume 1, case file sheets 127–136.

According to the **inspection report dated 3 October 2023** concerning a building located in the center of the city of Khankendi and used by **Ruben Karlenovich Vardanyan as an office and residence**, the building consisted of a basement and two floors. During the inspection of the office located on the second floor of the building, the presence of **three desks and three computers** was established. The said computers, as well as documents relating to the “**Aurora**” organization and other materials, were placed in two boxes for subsequent seizure.

During the inspection of the office, a small sheet of paper containing telephone numbers and names was discovered. The sheet indicated the **internal telephone number used by Ruben Vardanyan and his name**. That number was used in the room located opposite the office on the second floor, which made it possible to establish that the building as a whole was used by Ruben Vardanyan. During the further inspection of the second floor of the building, **one computer processor** was discovered in a room containing network equipment; it was duly packaged and seized.

During the inspection of the first floor of the building, a large conference hall was identified. On a table in the conference hall, **two notebooks containing records of manufactured products**, as well as a large album, were discovered. A large sheet of paper bearing the inscription in Russian “**The Road to Sumgait Passes Through Aghdam**” was hanging on the wall. Opposite the entrance door, **field sleeping sets** were discovered. Taking into account their possible significance for the case, the said notebooks, album, sheet of paper bearing the inscription “**The Road to Sumgait Passes Through Aghdam,**” as well as the work-record books, were duly packaged and seized.

During the inspection of the basement of the building, **5 metal helmets, 1 radio set, 5 body armor vests and field sleeping sets intended for military use** were discovered. Of the listed items, **1 helmet, 1 radio set, 1 body armor vest and 1 of the 26 discovered field sleeping sets** were selected as samples, seized and packaged.

During the further inspection of the basement, **2 boxes containing books, a notebook containing various notes, and one box containing seals** were discovered. Taking into account their potential significance for the case, these items were duly packaged and seized.

During the inspection of another room in the basement of the building, **placards bearing various inscriptions intended for mass gatherings**, as well as a **metal safe**, were found. After the safe was opened in accordance with the established procedure, it was established that it contained **7 F-1 hand grenades, 3 magazines for an automatic weapon, and 1,705 cartridges intended for an AK-74 assault rifle**. Taking into account their potential significance for the case, the placards bearing inscriptions, 7 F-1 hand grenades, 3 magazines and 1,705 cartridges were duly packaged and seized.

Volume 2, case file sheets 113–126.

According to the **inspection report dated 26 October 2023** concerning the items discovered during the inspection of the office of **Ruben Karlenovich Vardanyan**, located...

Page 260

...in the city of Khankendi, a sheet of paper entitled **“Internal Numbers”** contained Ruben Vardanyan’s name and his internal telephone number **100**, as well as the internal telephone number of his assistant **David — 102**, the internal telephone number of a manager named **Alik — 101**, the internal telephone number of **security — 301**, and the internal telephone number of the **restaurant — 200**.

A document in Russian entitled **“The Main Achievements Accomplished Over the Course of 100 Days”** was also discovered. The document contained information concerning activities carried out over a period of 100 days.

During the continuing inspection, a notebook bearing the inscription **“VARDANYAN RUBEN”** in Latin letters was identified, as well as documents entitled **“Information on the Expenditure of Funds,” “Aurora Humanitarian Initiative,” “Aurora Artsakh,” “Reference Concerning the Relationship of the Companies ‘SB,’ ‘Eve Construction,’ ‘SB and Petrol Service,’ ‘PB,’” “Duties and Responsibilities, Program of Honor and Dignity of Members of the Artsakh Security and Development Fund,”** a document entitled **“The Initiative Group and Political Parties of Artsakh (and Armenia?) Must Take the Following Steps,”** as well as **“Assemblies of the General Artsakh Population”** and lists bearing various titles.

Volume 3, case file sheets 5–96.

According to the **inspection report dated 2 November 2023** concerning the processor (system unit) of an **HP Pavilion PC a6000** computer, discovered and seized during the inspection of the office of the accused **Ruben Karlenovich Vardanyan**, located in the center of the city of Khankendi, the memory of the **“C” drive** of the said device contained lists entitled **“Nominal List of the Community”**, as well as one list entitled **“Soldiers of the Village/Community of Kolatar, Mardakert District, Republic of Artsakh,”** together with lists of members of illegal armed formations from the village of Kolatar indicating their **names, surnames, patronymics, dates of birth and military positions**.

The persons whose names appeared on the list entitled **“Soldiers of the Village/Community of Kolatar, Mardakert District, Republic of Artsakh”** were:

1. **Avanesyan Seyran Akharoni**

2. **Avanesyan Gevorg Akharoni**
3. **Akopjanyan Albert Eduardi**
4. **Akopjanyan Garik Eduardi**
5. **Agasyan Samvel Aregi**
6. **Agasyan Mger Reshidi**
7. **Gabrielyan Garik Manveli**
8. **Gabrielyan Suren Manveli**
9. **Agasyan Sasun Ranti**
10. **Agasyan Shahen Arturi**
11. **Gabrielyan Arkadi Arkadi**
12. **Gabrielyan Arsen Arkadi**
13. **Balasan David Oniki**
14. **Harutyunyan Harut Kamoi**
15. **Agasyan Vagram Ilyazi**
16. **Babayan Samvel Arturi**
17. **Avanesyan Paylak Hranti**
18. **Esayan Tatul Reshidi.**

In addition, the lists of members of illegal armed formations from the village of Kolatar, indicating their first names, surnames, patronymics, dates of birth and military positions, contained the following persons:

1. **Captain Avanesyan Seyran Akharoni**, born in 1986, **head of the community**;
2. **Private Avanesyan Hayk Aleksei**, born in 1978, **rifleman**;
3. **Private Agasyan Mger Reshidi**, born in 1978, **rifleman**;
4. **Private Gabrielyan Garik Manveli**, born in 1988, **machine gunner**;
5. **Private Harutyunyan Zaven Kamoevich**, born in 1992, **rifleman**;
6. **Lieutenant Esayan Tatul Reshidi**, born in 1968, **rifleman**;
7. **Private Khachatryan Nver Grigori**, born in 1972, **rifleman**;
8. **Private Avanesyan Gevorg Akharoni**, born in 1991, **rifleman**;
9. **Private Harutyunyan Andranik Bkhaturi**, born in 1946, **rifleman**;
10. **Private Gabrielyan Mkhitar Oganesi**, born in 1965, **rifleman**;
11. **Private Gabrielyan Arman Arkadievich**, born in 1989, **rifleman**;
12. **Private Gabrielyan Arsen Arkadi**, born in 1987, **rifleman**;
13. **Private Avanesyan Grant Artemi**, born in 1961, **rifleman**;
14. **Private Babayan Artur Beniki**, born in 1966, **rifleman**;
15. **Private Agasyan Vrezh Ilyazovich**, born in 1982, **rifleman**;
16. **Private Akopjanyan Garik Eduardovich**, born in 1973, **rifleman**;
17. **Private Avanesyan Arak Sergeevich**, born in 1966, **rifleman**;
18. **Private Akopyan Narine Arturovna**, born in 1992, **head of an army corps**; and
19. **Private Grigoryan Seyran Mikhailovich**, born in 1981, **mortar gunner**.

Page 261

The inspection shows that the list of other members of the illegal armed formations is as follows:

1. **Sergeant Agasyan Vagram Ilyazovich**, born in 1981, **rifleman**;
2. **Private Arutyunyan Arut Kamoevich**, born in 1992, **rifleman**;
3. **Private Akopjanyan Suren Garikovich**, born in 1992, **rifleman**;

4. **Private Babayan Samvel Arturovich**, born in 1994, grenade launcher operator;
5. **Private Balasan David Onikovich**, born in 1987, rifleman;
6. **Lieutenant Agasyan Samvel Erekevich**, born in 1982, machine gunner;
7. **Private Akopjanyan Albert Eduardovich**, born in 1982, rifleman;
8. **Private Gabrielyan Kamo Alyoshevich**, born in 1960, rifleman;
9. **Private Zakaryan David Andranikovich**, born in 1982, rifleman.

The list provides the following as the “necessary items” for the said persons: **9 (nine) helmets, communications equipment, 9 (nine) sleeping bags, a grenade, and 9 (nine) shelter halves.**

Volume 3, case file sheets 138–150.

The **inspection report dated 1 November 2024** concerning a camp located near the village of **Badara, Khojaly District**, intended for conducting military exercises, shows that the said territory is located near the village of Badara, Khojaly District, among mountains on the right bank of a river, close to a dirt road when traveling in the direction of the **Aghdara District**.

To enter the territory organized by the accused **Ruben Karlenovich Vardanyan** for conducting exercises for illegal armed formations, there is a path leading from the dirt road toward the river and covered with vegetation. After crossing a bridge over the river, consisting of wooden and metal components, and climbing a metal staircase, one proceeds toward the training area. This bridge and the metal staircases were recorded in video footage made during training sessions of illegal armed formations under the leadership of **Ruben Vardanyan**. A sign has been placed on the entrance door to this area stating that the territory belongs to the “**Artsakh Sports Tourism Federation**” and that entry by unauthorized persons is prohibited.

The video footage made during training sessions of illegal armed formations under the leadership of Ruben Vardanyan recorded an area located on the left bank of the river where the training sessions were conducted. Painted metal sports structures, a military tent containing beds for rest, a dining area, seating, a bathroom, a toilet, as well as a building for storing equipment were found in this area.

During the inspection of the said facilities, it was established that the persons who had participated in the illegal training sessions under the leadership of Ruben Vardanyan, when leaving the training center, had attempted to destroy traces by scattering the items located there. During the inspection of the equipment-storage building, a plastic box was found, presumably used to transport military equipment from **Domodedovo Airport in Moscow, Russian Federation, to the city of Yerevan, Armenia**. In addition, **1 gas mask** was discovered on the rocky area of the camp.

The **1 gas mask** found during the inspection of the territory was recognized as physical evidence because it was of evidentiary significance to the case and was packaged for further investigation.

Volume 7, case file sheets 196–200.

The relevant part of the findings of **expert examination No. 3-16-16/2-4/4-4/35-4/36**, issued by experts of the **Forensic Examination Center of the Ministry of Justice of the Republic of Azerbaijan on 11 March 2024**, states:

1. The **2 CD discs** containing the disputed phonograms submitted for examination contain recordings that are presented in the research section in the form of written texts.

Page 262

2. On the **8 white CD discs** containing the disputed phonograms submitted for examination, the voice and speech designated as “**K1**” in the written texts specified in the research section belong to **Ruben Karlenovich Vardanyan**.
3. The disputed video phonograms contained on the 8 submitted CD discs are identical to the video phonograms of the same names available on Internet resources in terms of frames, the content of the conversations, and duration. No signs of editing, such as alterations within frames, between frames, or synthesis of the audio stream, were detected.
4. Among the recordings submitted for examination from the **Ruben Vardanyan channel on the YouTube platform** are the following speeches by Ruben Karlenovich Vardanyan:

a recording dated **1 September 2022**, duration **06:04**, entitled “**Statement by Ruben Vardanyan on Moving to Artsakh and Creating the Security and Development Front.**”

4.1. A recording from the Ruben Vardanyan channel on the YouTube platform of a speech by Ruben Karlenovich Vardanyan dated **14 December 2022**, duration **06:30**, a program entitled “**RTVI,**” under the heading “**Comments by the State Minister of Artsakh on the Current Situation.**”

4.2. A recording from the Ruben Vardanyan channel on the YouTube platform of a speech by Ruben Karlenovich Vardanyan dated **15 April 2023**, duration **04:50**, entitled “**It Is Important to Revive Respect for Our Roots, Traditions and Especially for Vows as a Sacred Obligation.**”

4.3. A recording from the Ruben Vardanyan channel on the YouTube platform of a speech by Ruben Karlenovich Vardanyan dated **15 June 2023**, duration **28:47**, the program “**Noah’s Ark in Russian,**” under the heading “**I Do Not See Artsakh as Part of Azerbaijan in Any Form.**”

4.4. A recording from the Ruben Vardanyan channel on the YouTube platform of a speech by Ruben Karlenovich Vardanyan dated **28 June 2023**, duration **25:52**, the program “**The Bell,**” under the heading “**Living Side by Side, but Not Together.**”

4.5. A recording from the Ruben Vardanyan channel on the YouTube platform of a speech by Ruben Karlenovich Vardanyan dated **11 August 2023**, duration **34:52**, the program “**24 News,**” under the heading “**Ruben Vardanyan on the Problems in Artsakh, the Struggle, and Statements by the Armenian Authorities.**”

4.6. A recording from the Ruben Vardanyan channel on the YouTube platform of a speech by Ruben Karlenovich Vardanyan dated **2 September 2023**, duration **09:01**, the program “**RTVI**,” under the heading “**Ruben Vardanyan for RTVI on the Resignation of the President of Artsakh and the Current Situation (01.09.2023 [ARM, ENG sub]).**”

4.7. A recording from the Ruben Vardanyan channel on the YouTube platform of a speech by Ruben Karlenovich Vardanyan dated **19 September 2023**, duration **08:22**, entitled “**Ruben Vardanyan on the War Launched by Azerbaijan in Nagorno-Karabakh.**”

In the Russian-language speech, as well as in the texts displayed in the video publications and in the titles of the video publications, there are signs of **open calls aimed at violating public security, creating panic among the population, forcibly seizing or retaining power, forcibly changing the constitutional order of the Republic of Azerbaijan or violating its territorial integrity, as well as committing mass disturbances accompanied by violence and active disobedience to the lawful demands of representatives of the authorities.** In addition, there are signs of **dissemination of materials of similar content, incitement of national and social hatred and hostility, humiliation of national dignity, as well as actions aimed at restricting citizens’ rights or establishing privileges depending on their national and social affiliation.**”

Volume 5, case file sheets 164–207.

Page 263

According to the conclusions of **forensic examination report No. 3-16-16/2-3/1695, 3/1696 dated 6 November 2023**, prepared by experts of the **Forensic Examination Center of the Ministry of Justice of the Republic of Azerbaijan**:

The conclusions of the said report state that the **7 (seven) grenade bodies** submitted for examination, manufactured industrially, are bodies of **F-1 fragmentation hand grenades**. Also submitted were **7 (seven) fuses**, intended for use in detonating fragmentation hand grenades of the **F-1, RGD-5 and RG-42** types. These fuses, manufactured industrially in different years, are of the **UZRGM and UZRGM-2** types. When the said grenade bodies are combined with the corresponding **UZRGM and UZRGM-2** fuses, which constitute their component parts, they form ammunition — **F-1 fragmentation hand grenades**.

The **1,257 (one thousand two hundred fifty-seven) cartridges** submitted for examination, manufactured industrially, are **7.62 mm cartridges of the 1943 model with centerfire primers**. These cartridges are intended for use in rifled firearms of the corresponding caliber, including **Kalashnikov assault rifles of the AK, AKM, AKS and AKMS types, RPK (RPKS) light machine guns, SKS carbines, and others**. These cartridges constitute ammunition and are suitable for firing. Of these, **40 (forty) cartridges are tracer rounds**.

The **3 (three) magazines** submitted for examination are non-functionally significant component parts of **Kalashnikov-type AK, AKM, AKS and AKMS assault rifles**. They were manufactured industrially and are designed to hold **30 (thirty) 7.62×39 mm cartridges**. The magazines are suitable for their intended use.

The **448 (four hundred forty-eight) cartridges** submitted for examination, manufactured industrially, have **centerfire primers and a caliber of 5.45×39 mm**. These cartridges are

intended for use in rifled firearms of the corresponding caliber, including **Kalashnikov AK-74, AKS-74, AKS-74U assault rifles, RPK-74 (RPKS-74) light machine guns**, and others. These cartridges constitute ammunition and are suitable for firing.

Volume 3, case file sheets 253–258.

The conclusions of **report No. 4/1858 dated 23 January 2023**, prepared by experts of the **Forensic Examination Center of the Ministry of Justice of the Republic of Azerbaijan**, state the following:

1. In the articles, interviews, documents and video materials submitted for examination, as well as in the texts demonstrated by means of video clips and in their titles, signs were identified of **open calls and dissemination of materials aimed at inciting national hatred between the Azerbaijani and Armenian peoples, terrorism, violation of public security, creation of panic among the population, forcible seizure of power, its retention or forcible alteration of the constitutional order of the Republic of Azerbaijan, as well as violation of the territorial integrity of the Republic of Azerbaijan**. In addition, the materials contain calls for presenting the self-proclaimed entity called “**Artsakh**” in the Karabakh region of the Republic of Azerbaijan as an independent state, for the creation of armed formations and groups not provided for by the legislation of the Republic of Azerbaijan, and for other similar actions.

Examples of such open calls and similar materials include statements such as:

“We must begin to act decisively; our neighbors are taking an aggressive position toward us”;

“Our neighbor was not satisfied with its victory and sooner or later will continue its aggression”;

“In order for the prospect of losing Artsakh, and together with it Armenia, not to become a reality, we must simply begin to act decisively...”

Page 264

“We will make any aggression against us as difficult as possible and, if possible, make it impossible”;

“Artsakh’s right to self-determination and to make decisions in the interests of its people is not only a question for Armenia and Artsakh; it is a question for the entire people”;

“We must be strong and united so that they cannot resolve issues that are unacceptable to us”;

“Artsakh needs numerous people who can go out into the streets like soldiers”;

“It is better to remain in one’s homeland and fight for it than to live as a forced migrant.”

2. The above-mentioned open calls and dissemination of materials of such content were made by **Ruben Karlenovich Vardanyan**, born **25 May 1968**, a native of the city of **Yerevan, Republic of Armenia**, who is a citizen of both **Armenia and the Russian Federation**.

Volume 2, case file sheets 39–49.

The conclusions of **forensic examination report No. 3-16-16/2-4/717-4/730**, submitted on **26 November 2024** by experts of the **Forensic Examination Center of the Ministry of Justice of the Republic of Azerbaijan**, state:

1a. The disputed video phonograms contained on the **two white CD-R discs** submitted for examination contain conversations corresponding to the written texts presented in the research section.

1b. The voice and speech of the speaker designated as **“K1”** in the written texts in the research section of the disputed video phonograms contained on the two white CD-R discs submitted for examination belong to one person — **Ruben Karlenovich Vardanyan**.

2. In the video recordings posted on the **YouTube** video-hosting platform, **open calls for terrorism** were identified in Ruben Vardanyan’s statements.

3. The statements contained in the said video recordings include **threats to carry out explosions, arson or other similar acts creating a threat to public safety and panic among the population, as well as causing death, harm to health, significant material damage or other socially dangerous consequences, with the aim of influencing decisions taken by state authorities or international organizations**.

4. The said video recordings contain calls for **active disobedience to the lawful demands of representatives of the authorities, mass disturbances, as well as the use of violence against citizens**.

5. These video recordings contain open calls for the **forcible seizure of power, its retention, the forcible alteration of the constitutional order of the Republic of Azerbaijan, as well as violation of its territorial integrity by force**. In particular, in his statements Ruben Vardanyan says that he will never recognize **Nagorno-Karabakh, which he calls “Artsakh,” as part of the territory of Azerbaijan**; that **“without Artsakh there is no Armenia, and without Armenia there is no Artsakh”**; that he will do everything possible to ensure that **“Artsakh” is safe, happy, Armenian and free**; that **“Artsakh” has Armenian roots**; that it is necessary to prepare for a new war; that nothing is over and it is necessary to go to the end.

6. The said video recordings clearly contain actions aimed at **inciting national hatred and hostility, humiliating national dignity, as well as restricting citizens’ rights or establishing privileges depending on their nationality**.

Volume 416, case file sheets 214–237.

The conclusions of **forensic examination report No. 3-16-16/2-3/1742**, submitted on **22 November 2024** by experts of the **Forensic Examination Center of the Ministry of Justice of the Republic of Azerbaijan**, state the following: in the photographs made from the video

materials submitted for examination under the title “**TXXS0831**,” and in photographs made from a video recording submitted as...

Page 265

...the comparative material entitled “**WhatsApp Video 2024-10-30 at 16.07.55**” depicts one and the same person. That is, according to the expert conclusion, this person is the accused **Ruben Vardanyan**.

Volume 416, case file sheets 199–212.

The relevant part of the conclusions of **expert report No. 3-16-16/2-4/703-4/712**, submitted on **26 November 2024** by experts of the **Forensic Examination Center of the Ministry of Justice of the Republic of Azerbaijan**, states:

- 1a.** The disputed video phonograms contained on the two white **CD-R discs** submitted for examination contain conversations corresponding to the written texts presented in the research section.
- 1b.** The voice and speech of the speaker designated as “**K1**” in the written texts in the research section of the disputed video phonograms contained on the two white CD-R discs submitted for examination belong to one person — **Ruben Karlenovich Vardanyan**.
- 2.** In the video recordings posted on the **YouTube** video-hosting platform, open calls for terrorism were identified in the statements of Ruben Vardanyan.
- 3.** The statements in the said video recordings contain threats to carry out explosions, arson or other similar acts creating a threat to public safety and panic among the population, as well as causing death, harm to health, significant material damage or other socially dangerous consequences, with the aim of influencing decisions taken by state authorities or international organizations.
- 4.** The said video recordings contain calls for active disobedience to the lawful demands of representatives of the authorities, mass disturbances, as well as the use of violence against citizens.
- 5.** These video recordings contain open calls for the forcible seizure of power, its retention, the forcible alteration of the constitutional order of the Republic of Azerbaijan, as well as violation of its territorial integrity by force. In particular, in his statements Ruben Vardanyan says that he will never recognize **Nagorno-Karabakh, which he calls “Artsakh,” as part of the territory of Azerbaijan**; that **“without Artsakh there is no Armenia, without Armenia there is no Artsakh”**; that he will do everything possible to ensure that **“Artsakh” is safe, happy, Armenian and free**; that **“Artsakh” has Armenian roots**; that it is necessary to prepare for a new war; that nothing is over and it is necessary to go to the end.
- 6.** The said video recordings clearly contain actions aimed at inciting national hatred and hostility, humiliating national dignity, as well as restricting citizens’ rights or establishing privileges depending on their nationality.

Volume 416, case file sheets 238–276.

The **7 F-1-type hand grenades and their 7 detonators (fuses), a total of 1,705 cartridges for 7.62 mm automatic weapons, and 3 magazines for AK-type automatic weapons,** discovered and seized from an iron safe located in the basement of the office during the inspection conducted on **3 October 2023** at the office belonging to the accused **Ruben Karlenovich Vardanyan**, located in the city of Khankendi, were recognized as physical evidence and, pending the relevant decision of the court, were deposited for safekeeping with the **Main Directorate for Material, Technical and Social Support of the State Security Service of the Republic of Azerbaijan.**

Volume 6, case file sheets 139–140, 177.

One gas mask, seized and packaged in the prescribed manner on **1 November 2024** during the inspection of the territory on the left bank of the river near a dirt road leading in the direction of the Aghdara District, among the mountains...

Page 266

...located in the territory of the village of **Badara, Khojaly District**, where the accused in the case, **Ruben Karlenovich Vardanyan**, had organized training for illegal armed formations, and which was considered relevant to the circumstances of the case, was recognized as physical evidence and, pending the relevant decision of the court, was deposited for safekeeping in the evidence room of the **Main Investigation Directorate of the State Security Service of the Republic of Azerbaijan.**

Volume 416, case file sheets 298–300.

During the inspection conducted on **3 October 2023** at the office of the accused **Ruben Karlenovich Vardanyan**, located in the city of Khankendi, the following items considered relevant to the case were seized and packaged in the prescribed manner: **1 tactical helmet, 1 body armor vest, 1 field sleeping kit, 1 special communications device regarded as a radio station, 1 notebook, 1 document containing information about Operation “Nemesis,” 1 sheet bearing the inscription “Internal Numbers,” 1 document entitled “Achievements Accomplished in 100 Days,” 1 document entitled “The Initiative Group and Political Parties of Artsakh (and Armenia?) Must Take the Following Steps,” and 1 document entitled “General Assemblies of the Population of Artsakh.”**

In addition, during the inspection conducted on **4 October 2023** of the country house and adjoining plot where the accused **Ruben Karlenovich Vardanyan** had previously resided in the village of **Kolatar, Aghdara District**, the following items were seized and packaged in the prescribed manner: **1 photograph depicting Ruben Vardanyan and his parents — an elderly woman and an elderly man — as well as 3 field sleeping kits regarded as military equipment.**

All of the above-mentioned items were recognized as physical evidence in the case.

The said **1 tactical helmet, 1 body armor vest, 4 field sleeping kits, 1 special communications device regarded as a radio station, 1 photograph and 1 notebook** were transferred to the evidence room of the **Main Investigation Directorate of the State Security Service** for safekeeping until the court judgment enters into legal force.

The said **1 document containing information about Operation “Nemesis,” 1 sheet bearing the inscription “Internal Numbers,” 1 document entitled “Achievements Accomplished in 100 Days,” 1 document entitled “The Initiative Group and Political Parties of Artsakh (and Armenia?) Must Take the Following Steps,” and 1 document entitled “General Assemblies of the Population of Artsakh”** were appended to the materials of the criminal case.

Volume 6, case file sheets 199–202.

The **4 computer processors** discovered and seized from the office of the accused **Ruben Karlenovich Vardanyan** in the city of Khankendi were recognized as physical evidence in the case and transferred to the evidence room of the **Main Investigation Directorate of the State Security Service** for safekeeping until the court judgment enters into legal force.

Volume 416, case file sheets 276–279.

The **1 Apple iPad Pro tablet, 1 Blackberry mobile telephone and 1 Nokia mobile telephone** belonging to the accused **Ruben Karlenovich Vardanyan** were recognized as physical evidence in the case and transferred to the evidence room of the **Main Investigation Directorate of the State Security Service** for safekeeping until the court judgment enters into legal force.

Volume 416, case file sheets 40–42.

Page 267

The contents of the **“Entry-Exit and Registration”** query in the **IAMAS**, issued in the name of the accused **Ruben Karlenovich Vardanyan**, show that he never officially entered or left the territory of the Republic of Azerbaijan through the border checkpoints located on the country’s borders.

Volume 5, case file sheet 132.

During the examination of criminal case No. **202006081**, which is being handled by the Investigation Department of the Prosecutor General’s Office of the Republic of Azerbaijan, the following was established:

Members of the criminal organization (association), acting in accordance with the common criminal purpose and intent of the association and each of its participants, on various dates in the Karabakh region of the Republic of Azerbaijan, in a planned manner and at close distances from one another, laid numerous mines of various makes, models and places of manufacture, organized ambushes and created mined zones in furtherance of the objectives of the said criminal organization.

Thus, it was established that on **1 January 2021, at approximately 11:00, Babayev Zabil Habil oglu**, born on **26 May 1981**, a resident of the village of **Shukyurbeyli, Fuzuli District**, while in the territory of the village of **Gorgan, Fuzuli District**, which had been liberated from occupation, stepped on an anti-personnel mine that had previously been deliberately buried there by the Armenian armed forces. As a result of the mine explosion, he sustained injuries and, despite having been taken to hospital, died there.

On the basis of the **scene inspection report dated 1 January 2021**, prepared using photographic and video recording, it was established that the site of the mine explosion was located on a dirt road in the territory of the village of Gorgan, at a distance of **3.5 km from the edge of the village of Shukyurbeyli**.

Volume 111, case file sheets 5–9.

The legal successor of the victim, **Babayev Gafraz Habil oglu**, the brother of Zabil Babayev, testified that on **1 January 2021**, for the purpose of inspecting the recently liberated territories for grazing small livestock, his brother Zabil Babayev, together with his nephew **Ehtiram Gasimov**, walked through the village of Shukyurbeyli, Fuzuli District, and entered the territory of the recently liberated village of Gorgan. There, he sustained serious bodily injuries as a result of a mine explosion. With the assistance of villagers who had been informed of the incident, he was removed from the area and taken to hospital, but he died from the injuries he had sustained.

Volume 111, case file sheets 37–40.

The witness questioned in the case, **Gasimov Ehtiram Eyvaz oglu**, testified that on **1 January 2021, at approximately 09:00**, Zabil Babayev called him into the yard, where they met. During their conversation, Zabil asked him to go to the outskirts of the village of Shukyurbeyli in order to inspect new grazing areas for small livestock.

Together they proceeded on foot to that area and found themselves in the recently liberated territory of the village of Gorgan. At that time, Zabil walked ahead, while he followed behind him. Zabil entered the territory of an old trench, moved slightly forward, and he then heard **three explosions**, realizing that they were mine explosions. As a result of the mine explosion, Zabil Babayev lost both legs.

Later, with the assistance of local residents who came to help, he was removed from the said area and transported by vehicle to hospital. However, Zabil Babayev's life could not be saved, and he became a victim of mines laid by Armenian servicemen.

Volume 111, case file sheets 42–45.

Page 268

According to **forensic medical expert opinion No. 01/21 dated 1 January 2021**, the following injuries were found on the body of **Babayev Zabil Habil oglu**: combined blunt trauma to the head, torso and extremities; crushed and lacerated wounds with tissue defects on the forehead, chest, upper and lower extremities, as well as the scrotum; traumatic amputation of the lower third of both shins; the internal organs were characterized by venous congestion.

The cause of death was **acute blood loss and severe traumatic shock**. The said injuries resulted from the explosion of a mine and the impact of metal fragments scattered as a result of the explosion and are classified as **serious harm to health posing a danger to life**.

Volume 111, case file sheets 48–53.

In addition, it was established that on **2 February 2021, at approximately 17:00, Muktarov Azad Aydin oglu**, born on **11 May 1992, Mamishov Rafis Mekheddin oglu**, born on **29 January 1984**, and **Imanov Bekhruz Telman oglu**, born on **3 April 1981**, while traveling in a **GAZ-53** truck bearing state registration number **11-BF-263**, driven by the latter, through the territory of the village of **Yukhary Yaglyvend, Fuzuli District**, which had been liberated from occupation, drove over an anti-tank mine deliberately planted in the area by Armenian armed formations during the period of occupation.

As a result of the explosion, **Bekhruz Imanov died at the scene**, while **Azad Muktarov and Rafis Mamishov sustained bodily injuries**.

Volume 127, case file sheet 1.

According to **forensic medical expert opinion No. 02/21 dated 2 February 2021**, the following injuries were found on the body of **Imanov Bekhruz Telman oglu**: combined blunt trauma to the head, torso and extremities; crushed and lacerated wounds of the cheek, neck, posterior surface of the right elbow joint, anterior abdominal wall and both lower extremities; destruction and crushing of the left eyeball; traumatic amputation of the left shin in its upper third; a closed fracture of the right shin in its middle third with displacement of bone fragments; multiple abrasions in the area of the left and right thighs; and anemia of the internal organs.

The cause of death was **acute blood loss and severe traumatic shock**. The said injuries resulted from the impact of metal fragments scattered during the mine explosion and are classified as **serious harm to health posing a danger to life**.

Volume 127, case file sheets 52–58.

According to **forensic medical expert opinion No. 303/22 dated 23 August 2022, Muktarov Azad Aydin oglu** was found to have multiple fractures of the bones of the left orbital region (**the zygomatic, temporal and frontal bones forming the eye socket**), multiple shrapnel wounds to the face and left auricle, loss of vision in the left eye (**visual acuity — 0.02**), as well as reduced vision in the right eye (**visual acuity — 0.3**).

The said injuries could have been caused by the impact of metal fragments scattered during a mine explosion. In terms of severity, they are classified as **serious harm to health**, since they resulted in the loss of vision in the left eye.

Volume 327, case file sheets 1–253.

According to **forensic medical expert opinion No. 304/22 dated 23 August 2022, Mamishov Rafis Mekheddin oglu** was found to have multiple fractures of the bones of the left orbital region (**around the eye socket**), as well as multiple shrapnel wounds to the face and head, which could have been caused by the impact of metal fragments scattered during a mine explosion; in terms of severity...

Page 269

...in terms of severity, they are classified as **less serious harm to health resulting in a prolonged impairment of health**.

Volume 327, case file sheets 1–253.

The victim **Mamishov Rafis Mahaddin oğlu**, when questioned, testified that he had known **Bahrüz Imanov** and his fellow villager **Azad Mukhtarov** for a long time and maintained normal relations with them. On **1 February 2021**, they met in the settlement of **Dashburun, Beylagan District**, and decided to travel the following day to the liberated territories of the Fuzuli District in a truck belonging to Bahrüz Imanov.

The following day, i.e. **2 February 2021, at approximately 15:00**, they crossed the Horadiz checkpoint in the truck known as “**Kharam Duzu**”, without permission, and proceeded into the liberated territory of the Fuzuli District. There they saw numerous pieces of scrap metal unsuitable for use, which they collected and loaded into the vehicle. While they were traveling and leaving the Fuzuli District, he suddenly heard a loud explosion, after which he lost consciousness. When he regained consciousness, he found himself in hospital with injuries and realized that his fellow villager Azad Mukhtarov was in the same ward with similar injuries. From other persons in the ward, he learned that **Bahrüz Imanov had been killed as a result of the explosion**.

Volume 127, case file sheets 67–72.

Mamishov Azad Aydin oğlu, questioned as a victim, and **Imanov Azad Telman oğlu**, the brother and legal successor of the deceased victim **Imanov Bahrüz Telman oğlu**, gave testimony similar to that of **Mamishov Rafis Mahaddin oğlu** and confirmed the circumstances described in their statements.

Volume 127, case file sheets 48–51.

The witness questioned in the case, **Ibayev Huseyn Gurban oğlu**, a resident of the **11th Return settlement, Fuzuli District**, testified that on **2 February 2021**, together with his son **Jeyhun Ibayev**, he was traveling in a **GAZ-24** car belonging to **Aliyev Rovshan** toward the village of **Seyidahmadli**, which had been liberated from occupation. They walked around there, loaded ownerless pieces of scrap metal into the vehicle, and, while returning at approximately **18:00**, saw a **GAZ-53 truck** traveling approximately **500 meters** behind them.

After some time, they heard the sound of an explosion, returned and saw that the said truck had been destroyed as a result of a mine explosion. As a result of the incident, **one person unknown to him died at the scene, while two persons sustained serious bodily injuries**. When he approached the scene, servicemen and police officers, having heard the explosion, also arrived there.

Volume 127, case file sheets 81–84.

The witness questioned in the case, **Ibayev Jeyhun Huseyn oğlu**, gave testimony similar to that of his father **Ibayev Huseyn Gurban oğlu** and confirmed the above-mentioned circumstances.

Volume 127, case file sheets 86–90.

It was further established that **Nuriyev Nuru Aslan oglu**, born on **26 October 1976**, a resident of the settlement of **Zobujug-2, Fuzuli District**, and **Gashimov Elnur Aydin oglu**, born on **1 June 1982**, a resident of the city of **Horadiz**, on **8 July 2021 at approximately 13:00**, while in the territory of the village of **Ashaghi Abdurahmanly, Fuzuli District**, which had been liberated from occupation, stepped on one of the mines previously planted by Armenian armed formations in that territory during the period of occupation. As a...

Page 270

...result of the explosion, **Nuriyev Nuru Aslan oglu was killed at the scene**, while **Gashimov Elnur Aydin oglu sustained bodily injuries**.

According to the **scene inspection report dated 8 July 2021**, prepared using photographic and video recording, it was established that the site of the explosion was located in the territory of the village of **Ashaghi Abdurahmanly, Fuzuli District**, within the area of a military fortification. Near the fortification, namely within the trench area, a **crater formed on the ground as a result of the mine explosion** was discovered.

Volume 147, case file sheets 5–9, 11–118.

The victim questioned during the investigation, **Gashimov Elnur Aydin oglu**, testified that he and his friend **Nuru Nuriyev**, in a **VAZ-2107** car belonging to the latter, traveled to the liberated village of **Ashaghi Abdurahmanly**, after which they got out of the vehicle and proceeded on foot.

At that time, **Nuru Nuriyev was injured as a result of a mine explosion** not far from him. When he attempted to approach Nuru and help him, **a second mine exploded**, as a result of which he himself was also injured. Nuru Nuriyev called his brother on a mobile telephone and informed him of their location and what had happened. Gashimov then lost consciousness, and when he regained consciousness, he saw that he was in hospital. From the persons around him, he later learned that **Nuru Nuriyev had not been able to be taken to hospital and had died at the scene**.

They had traveled to that territory in order to determine whether there were **suitable grazing areas for livestock** there.

Volume 147, case file sheets 68–70.

During the investigation, **Nuriyev Aslan Jamil oglu**, the legal successor of the victim **Nuriyev Nuru Aslan oglu**, gave testimony similar to that of **Gashimov Elnur Aydin oglu** and confirmed the above-mentioned circumstances.

Volume 147, case file sheets 46–49.

According to **forensic medical expert opinion No. 14/21 dated 8 July 2021**, the following injuries were found on the body of **Nuriyev Nuru Aslan oglu**: **traumatic amputation of the lower third of the left shin, multiple contusions and abrasions on the surface of the body, and venous congestion of the internal organs**.

The cause of his death was **acute blood loss and severe traumatic shock**. The said injuries were caused by the impact of numerous metal fragments scattered as a result of the mine explosion and, in terms of severity, are classified as **serious harm to health posing a danger to life**.

Volume 147, case file sheets 51–55.

According to **forensic medical expert opinion No. 240/21 dated 3 August 2021**, **Gashimov Elnur Aydin oglu** was found to have sustained a **traumatic amputation of the lower third of the left shin**, abrasions on the left upper and right lower extremities. The said injuries resulted from the impact of metal fragments scattered during a mine explosion and, in terms of severity, are classified as **serious harm to health**, as they resulted in a **permanent loss of more than one-third of his overall capacity for work**.

Volume 147, case file sheets 57–59.

It was further established that on **30 September 2022, at approximately 20:00**, in the village of **Yukhary Yaglyvend, Fuzuli District**, which had been liberated from occupation, one of the mines deliberately planted by Armenian armed formations during the period of occupation exploded, as a result of which residents of the village of **Alikhanly, Fuzuli District, Asadov Amid Fatulla oglu**, born on **28 December 1986**, and **Guluzade Cherkez Bahadir oglu**, born on **6 October 2007**, were killed at the scene, having sustained bodily injuries.

Page 271

According to the **scene inspection report with photographic and video recording dated 1 October 2022**, it was established that the mine explosion occurred in the territory of the village of **Yukhary Yaglyvend, Fuzuli District**, on the **Fuzuli–Aghdam highway**. At the site of the explosion, next to a disabled truck, a crater **120 cm deep** had formed as a result of the blast. It was also established that on **2 February 2021, at approximately 17:00**, another mine explosion had occurred at the same location. As a result of that incident, **Mamishov Rafis Makheddin oglu** and **Mukhtarov Azad Aydin oglu** sustained injuries, while **Imanov Bahruz Telman oglu** died.

Volume 197, case file sheets 20–25.

The legal successor of the victim in the case, **Guluzade Cherkez Bahadir oglu** — his father, **Guliyev Bahadir Mahi oglu** — testified that his son **Cherkez Guliyev** and son-in-law **Amid Asadov** lived with him in the same house. On **29 September 2022**, when he was not at home, Amid and Cherkez left the house and told family members that they were going to look for work at construction sites in the territories of the Fuzuli District liberated from occupation. Amid and Cherkez did not return that day. Since Cherkez had changed his mobile telephone number before the incident and obtained a new number, he did not know the number and, for that reason, was unable to contact Cherkez and Amid by telephone.

The following day, he went to the territories liberated from occupation and began searching for Amid Asadov and Cherkez Guliyev. He also gave his telephone number to servicemen who were performing duty in those territories and told them that he was looking for his son and son-in-law. Toward the evening of that day, he discovered the bodies of his son Cherkez

Guliyev and his son-in-law Amid Asadov in the territory of the village of **Yukhary Yaglyvend, Fuzuli District**. Seeing a large crater in the ground next to their bodies, he understood that they had both died as a result of a mine explosion.

Volume 72, case file sheets 18–19, 51–62.

Volume 197, case file sheets 59–62.

During the investigation, the legal successor of the victim in the case, **Asadov Amid Fatulla oglu** — his wife, **Mekhizade Aynur Mekhi Bahadir gizi** — gave testimony similar to that of her father, **Guliyev Bahadir Mekhi oglu**, and confirmed the circumstances stated by him.

Volume 197, case file sheets 71–74.

According to **forensic medical expert opinion No. 23/22 dated 30 September 2022**, the following injuries were found on the body of **Asadov Amid Fetulla oglu**: combined blunt trauma to the head, chest, abdomen and extremities, incompatible with life; crushing of the brain; hemorrhage into the cerebral membranes and ventricles; traumatic loss of the frontal bones, bones of the facial skeleton and both eyeballs; amputation of the left lower extremity at the level of the hip joint; lacerated-contused wounds of the cheeks, chest, groin area and external genital organs; ruptures of the lungs; bilateral hemothorax (**accumulation of 2,000–2,500 ml of blood in the pleural cavities**); and venous congestion of the internal organs.

The cause of death was **severe traumatic shock and acute blood loss**, caused by multiple injuries to the head, chest, abdomen and extremities that were incompatible with life and resulted from the impact of numerous metal fragments scattered during the mine explosion. In terms of severity, the injuries are classified as **serious harm to health posing a danger to life**.

Volume 197, case file sheets 77–81.

According to **forensic medical expert opinion No. 24/22 dated 30 September 2022**, the following injuries were found on the body of **Guliyev Cherkez Bahadir oglu**: combined blunt trauma to the head, chest, abdomen and extremities, incompatible with life; multiple comminuted, displaced, open...

Page 272

...fractures of the cranial vault and base of the skull; crushing and destruction of brain tissue; comminuted, displaced, open fractures of the bones of the facial skeleton and of both upper and lower extremities; multiple contused wounds on the surface of the body; and venous congestion of the internal organs.

The cause of death was **severe traumatic shock and crushing of brain tissue**, caused by multiple injuries to the head, chest, abdomen and extremities incompatible with life, which resulted from the impact of metal fragments scattered during the explosion. In terms of severity, the injuries are classified as **serious harm to health posing a danger to life and resulting in death**.

Volume 197, case file sheets 83–86.

In addition, as a result of the explosion of one of the **anti-tank mines deliberately laid by the Armenian armed forces during the period of occupation** in the village of **Horadiz, Fuzuli District**, which had been liberated from occupation, on **1 May 2023 at approximately 18:00**, **Alyshov Ogtay Bayram oglu**, born on **3 June 1964**, a resident of the village of **Kazakhlar, Fuzuli District**, died at the scene.

According to the **scene inspection report dated 1 May 2023**, it was established that the mine explosion occurred in the village of Horadiz, Fuzuli District. The surrounding territories were mined. Inspection of the scene and recovery of the deceased's body became possible only after safety measures had been taken by employees of the **Demining Agency of the Republic of Azerbaijan**. As a result of the anti-tank mine explosion, a crater **85 cm deep and 50 cm in diameter** had formed in the ground next to the body of the victim, Ogtay Alyshov.

Volume 76, case file sheets 3–11, 15–20.

The legal successor of the victim in the case, **Alyshov Ogtay Bayram oglu** — his son, **Alyshov Nasib Ogtay oglu** — testified that his father Ogtay lived with him in the same house and was not officially employed anywhere. He grazed small livestock belonging to their private household. On **1 May 2023**, his father took the small livestock to the settlement of Horadiz in order to graze them there. However, unlike on previous days, on 1 May 2023 Ogtay Alyshov went approximately **1 km farther** and entered the territory of the village of Horadiz, which had been liberated from occupation. Through carelessness, he entered a mined area and, as a result, died in a mine explosion.

Volume 76, case file sheets 38–41.

Jafarov Habil Maarif oglu, questioned as a witness and serving as head of the **3rd demining group of the Demining Agency of the Republic of Azerbaijan**, testified that the group under his supervision carried out demining operations in the territory of the village of Horadiz, Fuzuli District. The place where victim Ogtay Alyshov died on 1 May 2023 as a result of a mine explosion was located away from the motor road, and the said territory had been completely mined by Armenian military personnel during the period of occupation. At the scene, a previously laid **TM 7-type anti-tank mine** had exploded.

Volume 76, case file sheets 44–46.

Employees of the 3rd demining group of the Demining Agency of the Republic of Azerbaijan, **Guliyev Samir Zakir oglu, Gashimov Safar Sanani oglu, Jamilli Emin Tofig oglu and Mammadov Elvin Adil oglu**, questioned as witnesses during the investigation, confirmed in their testimony the circumstances stated by **Jafarov Habil Maarif oglu** in his testimony.

Volume 76, case file sheets 47–49, 51–53, 55–57, 59–61.

Page 273

According to **forensic medical expert opinion No. 13/23 dated 1 May 2023**, the following injuries were found on the body of **Alyshov Ogtay Bayram oglu**: traumatic amputation of the upper third of the right thigh and of the left lower extremity at the level of the ankle joint;

multiple open comminuted fractures of the bones of the right thigh and left lower leg; numerous crushed wounds to the face; an abrasion in the area of the left thigh; and venous congestion of the internal organs.

The cause of his death was **acute blood loss and severe traumatic shock**. The said injuries were caused by the impact of numerous metal fragments scattered as a result of blast trauma. In terms of severity, they posed a danger to life and constitute **serious harm to health resulting in death**.

Volume 76, case file sheets 81–85.

In addition, it was established that on **12 July 2021, at approximately 11:00**, in the direction of the village of **Garakhanbeyli, Fuzuli District**, an **unexploded remnant of cluster munition** used by Armenian military formations during the period of occupation through the use of **cluster munitions and heavy artillery prohibited under international law** exploded. As a result of the explosion, **Khalilov Elshan Eyvaz oğlu**, born on **1 December 1987**, a driver employed by **Körpü-Bina Tikinti LLC**, sustained bodily injuries.

According to the **scene inspection report dated 12 July 2021**, the explosion occurred in the village of **Garakhanbeyli, Fuzuli District**, where **Körpü-Bina Tikinti LLC** was constructing a bridge for a motor road across the **Kendalan River**. At a distance of **20 meters from the beginning of the bridge construction site**, near a temporary structure, remnants of an unexploded cluster munition were discovered on the ground.

Volume 148, case file sheets 4–8.

Khalilov Elshan Eyvaz oğlu, who was recognized and questioned as a victim, testified that he worked as a truck driver for **Körpü-Bina Tikinti LLC**, which carried out construction and engineering works in territories liberated from occupation. In July 2021, as an employee of that company, he was working on the construction of bridges on the **Victory Road** being built in the Fuzuli District.

On **12 July 2021, at approximately 11:00**, wishing to drink water, he entered a kiosk located a short distance from the construction site, drank some water and, after coming outside, saw a piece of iron on the ground. Thinking that the piece could damage the wheel of his vehicle, he picked it up and, when he threw it aside, an explosion occurred and he lost consciousness. When he regained consciousness, he found himself in hospital. He was still undergoing treatment, and numerous fragments remained in his body.

Volume 148, case file sheets 35–39.

The witness questioned during the investigation, **Imanov Anar Jahangir oğlu**, who worked as an engineer for **Körpü-Bina Tikinti LLC**, confirmed the circumstances stated by the victim, **Khalilov Elshan Eyvaz oğlu**.

Volume 148, case file sheets 13–17.

According to **forensic medical expert opinion No. 249/21 dated 9 August 2021**, numerous shrapnel wounds were found on the body of **Khalilov Elshan Eyvaz oğlu**, including multiple shrapnel wounds to the left side of the chest penetrating the pleural cavity and complicated

by **hemopneumothorax** (accumulation of blood and air in the thoracic cavity). The said injuries were caused by the impact of numerous fragments...

Page 274

...scattered during the explosion. In terms of severity, they posed a danger to life and are classified as **serious harm to health**.

Volume 148, case file sheets 47–49.

According to **forensic medical expert opinion No. 91/22 dated 4 April 2022**, the following injuries were found on the body of **Zulfugarli Vugar Natig oglu**: a displaced comminuted fracture of the left calcaneus; a closed displaced fracture of the navicular and cuboid bones; a compression fracture of the body of the **L2 vertebra (second lumbar vertebra)** with anterior displacement; as well as a displaced fracture of the sacrum extending to the coccygeal region.

The said injuries could have been caused by fragments scattered during a mine explosion. In terms of severity, they posed a danger to life and are classified as **serious harm to health**.

Volume 327, case file sheets 1–253.

According to **forensic medical expert opinion No. 215/22 dated 20 June 2022**, **Abdullayev Khayal Bakhtiyar oglu** was found to have the following injuries: an open comminuted fracture of the distal phalanx of the fifth finger of the left hand; rupture of the **dorsalis pedis artery of the right foot**; as well as numerous wounds to the lower extremities.

The said injuries could have been caused by the impact of metal fragments scattered during a mine explosion. In terms of severity, they are classified as **less serious harm to health resulting in a prolonged impairment of health**.

Volume 327, case file sheets 1–253.

According to **forensic medical expert opinion No. 305/22 dated 24 August 2022**, **Salmanov Ilham Bakhtiyar oglu** was found to have the following injuries: an open wound on the medial surface of the left thigh and lower leg, as well as traumatic amputation of the right lower leg at the level of its middle third.

The said injuries could have been caused by the impact of metal fragments scattered during a mine explosion. In terms of severity, they are classified as **serious harm to health**, since they resulted in a permanent loss of more than **one-third of overall capacity for work**.

Volume 327, case file sheets 1–253.

In addition, it was established that employees of **Alpha Demining LLC**, which carried out demining of liberated territories under a subcontract with the **Mine Action Agency of the Republic of Azerbaijan** — **Huseynov Gylman Nijat oglu**, born on **1 June 1976**, a resident of the village of **Mahmudlu, Shamkir District**, who served as head of a demining team; **Alizade Rovshan Ruslan oglu**, born on **20 October 1991**, a sapper and resident of the village of **Ahmadalilar, Fuzuli District**; and another sapper, **Shukurov Yadigar Dilaver**

oglu, born on **18 August 1990**, also a resident of the village of Ahmadalilar, Fuzuli District — sustained bodily injuries on **2 August 2022, at approximately 10:00**, while performing their official duties in the area of the liberated village of **Garakhanbeyli, Fuzuli District**, as a result of the explosion of an **anti-personnel mine**.

This fact was additionally confirmed by the **scene inspection report dated 2 August 2022**, prepared using photographic and video recording.

Volume 176, case file sheets 148–152.

Huseynov Gylman Nijat oglu, who was recognized and questioned as a victim, testified that on **2 August 2022**, together with his colleagues **Alizade Rovshan Ruslan oglu** and **Shukurov Yadigar Dilaver oglu**, he arrived at a vacant area in the territory of the liberated village of Garakhanbeyli in order to carry out demining work...

Page 275

...demining. The military refer to the said territory as the **“Ohanyan Line,”** and the territory is mined. Their work consists of detecting planted mines, clearing the territory of mines, as well as removing concrete posts buried there. On that day, at approximately **10:00**, as they approached a concrete post, a mine exploded, as a result of which they sustained injuries. With the assistance of other colleagues, they were removed from the area and transported by vehicle to hospital.

Volume 176, case file sheets 232–235.

Shukurov Yadigar Dilaver oglu and **Alizade Rovshan Ruslan oglu**, who were recognized and questioned as victims in the case, confirmed the circumstances stated by **Huseynov Gylman Nijat oglu** and gave testimony similar to his.

Volume 176, case file sheets 208–211, 219–222.

According to **forensic medical expert opinion No. 838 dated 19 August 2022**, **Huseynov Gylman Nijat oglu** was found to have sustained a **traumatic amputation of the lower third of the right lower leg**, which occurred as a result of the explosion of a substance possessing explosive properties, under the impact of the blast wave and fragments. In terms of severity, the injury is classified as **serious harm to health**, resulting in a significant (permanent) loss of working capacity of **less than 1/2 (50%)**.

Volume 176, case file sheets 239–240.

According to **forensic medical expert opinion No. 820 dated 15 August 2022**, **Shukurov Yadigar Dilaver oglu** was found to have the following injuries: **sensorineural hearing loss** (moderate-to-severe on the right and total deafness on the left), accompanied by a neurotic reaction to severe stress, as well as a laceration on the left side of the chest. These injuries resulted from the impact of a blast wave during the explosion of a substance possessing explosive properties. In terms of severity, they are classified as **minor harm to health**, resulting in a loss of overall working capacity of **less than one-third**.

Volume 176, case file sheets 241–242.

According to **forensic medical expert opinion No. 821 dated 15 August 2022, Alizade Rovshan Ruslan oglu** was found to have the following injuries: lacerations of the right upper extremity and the right side of the abdomen, traumatic erosion of the cornea of the right eye, as well as a neurotic reaction to severe stress. These injuries resulted from the impact of a blast wave and fragments during the explosion of a substance possessing explosive properties. In terms of severity, they are classified as **minor harm to health resulting in a short-term impairment of the general state of health**.

Volume 176, case file sheets 237–238.

According to **forensic medical expert opinion No. 917 dated 27 December 2023, Khatamli Zamin Zakhir oglu** was found to have the following injuries: a wound in the area of the inner ankle of the left leg; wounds on the posterior surface of the elbow joint accompanied by damage to the ulnar nerve; as well as displaced, comminuted, open fractures of the calcaneus of the left foot. These injuries resulted from the impact of flying metal fragments under various circumstances, including a mine explosion. In terms of severity, they are classified as **moderate harm to health resulting in a prolonged impairment of health**.

Volume 327, case file sheets 1–253.

According to **forensic medical expert opinion No. 07/21 dated 7 February 2021**, examination of the body of **Guliyev Mehman Allahverdi oglu** revealed the following injuries: ...

Page 276

...combined blunt trauma to the head, torso and extremities; lacerated-crushed wounds of the cheek, neck, torso and upper extremities; multiple open fractures of the bones of the facial skeleton with displacement of fragments; traumatic amputation at the level of the middle third of the right forearm; an open fracture of the lower third of the left humerus with displacement of fragments; traumatic amputation of the second finger of the left hand at the level of the proximal phalanx; multiple open comminuted fractures of the pelvic bones with displacement of fragments; numerous abrasions in the area of the neck and chest; and anemia of the internal organs. The cause of death of **Guliyev Mehman Allahverdi oglu** was **acute blood loss and severe traumatic shock**.

Volume 131, case file sheets 102–108.

As a result of the impact of the blast wave and numerous fragments during the mine explosion, the bodies of the victims were fragmented to such an extent that only separate fragments remained, making their identification impossible. In this connection, samples of human remains were taken from the scene for genetic examination, as were samples from close relatives of the victims for comparative analysis.

According to the conclusions of **genetic expert examination No. 21/202R dated 14 March 2021**, conducted by the **Criminalistics Research Directorate of the Ministry of Internal Affairs**:

2 fragments of femoral bone seized from the scene belong to the biological father of **Huseynov Mobil Ilgar oglu** and **Ahmedov Samed Ilgar oglu**.

1 fragment of femoral bone and 1 fragment of radial bone belong to the biological child of **Guliyev Allahverdi Gurban oglu**.

1 fragment of humerus belongs to the biological father of **Alekperova Zeynab Mustakim gizi**.

During the preliminary investigation, close relatives of the victims were recognized as their legal successors in the case and questioned.

Volume 131, case file sheets 109–113.

According to **forensic medical expert opinion No. 256/MESH dated 17 November 2020, Zeynalov Telman Babir oglu** was found to have the following injuries: traumatic amputation at the level of the upper third of the left lower leg; fracture of the radius of the right arm at the typical site with slight displacement; superficial wounds on the posterior surface of the right thigh and lower leg; as well as abrasions on the forehead and right cheek. These injuries resulted from the impact of fragments during a mine explosion. In terms of severity, they are classified as **serious harm to health posing a danger to life**.

Volume 327, case file sheets 1–253.

In addition, on the basis of the **scene inspection report dated 22 January 2021**, it was established that on that day, at approximately **10:00**, an employee of the **Mine Action Agency of the Republic of Azerbaijan, Sultanov Azer Ali oglu**, born on **26 October 1974**, a resident of the city of **Horadiz, Fuzuli District**, was carrying out demining work together with colleagues in the territory of the liberated village of **Mehdili, Jabrayil District**. During the work, one of the anti-personnel mines planted by Armenian military formations during the period of occupation exploded, as a result of which he sustained bodily injuries.

Volume 125, case file sheets 7–12.

Jafarov Habil Maarif oglu, an employee of the Mine Action Agency of the Republic of Azerbaijan who was questioned as a witness, testified that on the morning of **22 January 2021** he was in the territory of the liberated village of **Mehdili...**

Page 277

...Jabrayil District. At that time, he instructed his colleagues **Sultanov Azer Ali oglu** and **Namazov Fuad Maharram oglu** to clear a section in the territory of the village of **Mehdili** that had been mined by Armenians during the period of occupation. After instructing them on mine clearance, he drove away from the area. Upon hearing sounds, he returned and saw that **Azer Sultanov had stepped on an anti-personnel mine and sustained injuries as a result of the explosion**.

Volume 125, case file sheets 39–42.

Namazov Fuad Maharram oglu, questioned as a witness in the case, confirmed the circumstances stated in the testimony of **Jafarov Habil Maarif oglu**.

Volume 125, case file sheets 92–95.

In addition, on the basis of the **scene inspection report dated 25 February 2021**, it was established that **Mirzaliyev Gyuloglan Imran oğlu**, born on **10 October 1964**, a resident of the village of **Jojug Marjanly, Jabrayil District**, on **25 February 2021 at approximately 14:00**, while grazing small livestock in the territory of the village of **Mehdili, Jabrayil District**, which had been liberated from occupation, stepped on an anti-personnel mine planted in that territory by Armenian servicemen during the period of occupation and sustained bodily injuries as a result of the explosion.

Volume 131, case file sheets 29–34.

According to **forensic medical expert opinion No. 103/21 dated 17 March 2021**, **Mirzaliyev Gyuloglan Imran oğlu** was found to have a **closed fracture with displacement of fragments of the distal (terminal) end of the femur, with intra-articular injury**. The said injury could have been caused by a fall resulting from the impact of the blast wave during a mine explosion. In terms of severity, the injury is classified as **minor harm to health resulting in a prolonged impairment of health**.

Volume 131, case file sheets 99–101.

Mirzaliyev Gyuloglan Imran oğlu, who was recognized and questioned as a victim, testified that on **25 February 2021 at approximately 14:00**, while he was moving toward an elevated area to graze animals in the direction of the liberated village of **Mehdili, Jabrayil District**, an explosion occurred. As a result of the explosion, he sustained injuries and fell to the ground. The incident was witnessed by his fellow villager **Afsar Mirzaliyev**. The latter immediately approached him, saw that he had been injured, and called another fellow villager, **Umid Aliyev**, for assistance. A few minutes later, **Umid Aliyev** arrived at their location by car and transported him to hospital.

Volume 131, case file sheets 93–96.

Mirkhaliyev Afsar Sadrkhan oğlu, a resident of the village of **Jojug Marjanly, Jabrayil District**, questioned as a witness, testified that on **25 February 2021 at approximately 14:00**, while grazing animals in the territory of the village of **Mehdili**, he heard the sound of an explosion. He began looking for his fellow villager **Gyuloglan Mirzaliyev**, who had been grazing animals nearby, and saw him lying on the ground. He approached him and, seeing that **Gyuloglan Mirzaliyev** had sustained injuries from the explosion of an anti-personnel mine, called another fellow villager, **Umid Aliyev**, for assistance in taking him to hospital. **Umid Aliyev** arrived at the scene and transported **Gyuloglan Mirzaliyev** to hospital in his vehicle.

Volume 131, case file sheets 60–63.

Page 278

Aliyev Umid Ganimat oğlu, questioned as a witness, confirmed the said fact and gave testimony similar to that of **Mirkhaliyev Afsar Sadrkhan oğlu**.

Volume 131, case file sheets 64–67.

According to **forensic medical expert opinion No. 521/21 dated 27 July 2021**, **Nasirov Bahruz Tapdig oglu** was found to have **multiple lacerated-crushed wounds in the area of the cheek and right lower leg, as well as barotrauma**. The said injuries could have resulted from the impact of fragments scattered during a mine explosion. In terms of severity, these injuries are classified as **minor harm to health resulting in a short-term impairment of health**.

Volume 327, case file sheets 1–253.

Employees of the **Mine Action Agency of the Republic of Azerbaijan**, **Guliyev Samir Zakir oglu, Hasanov Joshgun Garjugay oglu, Hasanov Ibrahim Zakhir oglu and Jafarov Habil Maarif oglu**, questioned as witnesses, confirmed the said fact and gave testimony similar to that of the victim **Bahruz Nasirov**.

Volume 125, case file sheets 43–46.

Volume 176, case file sheets 25–28, 29–32.

According to **forensic medical expert opinion No. 579 dated 14 August 2021**, **Abbaszade Elnur Refdar oglu** was found to have the following injuries: a **penetrating wound on the anteromedial surface of the upper third of the right lower leg**, as well as an **abrasion on the medial surface of the heel area of the right foot**, caused by the impact of fragments during an explosion. In terms of severity, these injuries are classified as **minor harm to health resulting in a short-term impairment of health**.

Volume 327, case file sheets 1–253.

According to **forensic medical expert opinion No. 769/21 dated 8 November 2021**, **Aslanov Khanlar Fazil oglu** was found to have a **traumatic amputation of the lower third of the left thigh**, accompanied by traumatic-hemorrhagic shock, as well as abrasions on the left forearm and right hand. These injuries could have resulted from a mine explosion. The said injuries resulted in a **permanent loss of more than one-third (60%) of overall working capacity** and are classified as **serious harm to health**.

Volume 327, case file sheets 1–253.

According to **forensic medical expert opinion No. 812/21 dated 29 November 2021**, **Mammadov Natig Veli oglu** sustained a **traumatic amputation of the lower third of the right lower leg**, accompanied by traumatic-hemorrhagic shock. The said injury could have been caused by the impact of metal fragments scattered as a result of a mine explosion. The injury resulted in a **permanent loss of more than one-third of overall working capacity** and is classified as **serious harm to health**.

Volume 327, case file sheets 1–253.

According to **forensic medical expert opinion No. 360 dated 28 March 2022**, **Aliyev Safar Akhliman oglu** was found to have the following injuries: **blast injury from a mine explosion; amputation of the lower third of the right lower leg; fractures of the bones of the lower leg and foot; as well as a crushed, lacerated and torn wound with an extensive defect of the skin and muscles**. In addition, multiple thermal and crushed-lacerated shrapnel

wounds were found on the **left arm, in the area of the left elbow joint, on both forearms, both hands, and the anterior surface of the chest...**

Page 279

...on **both thighs and the left lower leg**. These injuries resulted from the blunt and thermal effects of fragments during the mine explosion. The said injuries resulted in a permanent loss of **at least 1/3 (50%) of overall working capacity** and are classified as **serious harm to health**.

Volume 327, case file sheets 1–253.

According to **forensic medical expert opinion No. 230/22 dated 3 July 2022, Mustafayev Mahir Husameddin oglu** was diagnosed with a **closed craniocerebral injury with concussion, first- and second-degree thermal burns to the face, left upper extremity, left half of the chest and left shoulder blade area, multiple shrapnel wounds, barotrauma, and erosion of the cornea of the left eye**. These injuries resulted from the impact of numerous metal fragments scattered during the mine explosion, as well as from the flame caused by the explosion. In terms of severity, they are classified as **minor harm to health**, as they caused a temporary impairment of health.

Volume 176, case file sheets 54–57.

According to **forensic medical expert opinion No. 450 dated 28 July 2022, Gozalov Samir Arif oglu** was found to have a **closed craniocerebral injury with concussion**, caused by the impact of the blast wave from a mine explosion. In terms of severity, the said injury is classified as **minor harm to health**, as it caused a temporary impairment of health.

Volume 176, case file sheets 58–59.

According to **forensic medical expert opinion No. 448 dated 15 July 2022, Rzayev Gahraman Bilal oglu** was found to have a **closed craniocerebral injury with concussion**, caused by the impact of the blast wave from a mine explosion. In terms of severity, the said injury is classified as **minor harm to health**, as it caused a temporary impairment of health.

Volume 176, case file sheets 60–61.

According to **forensic medical expert opinion No. 449 dated 15 July 2022, Guliyeve Alasgar Asif oglu** was found to have a **closed craniocerebral injury with concussion, a closed blunt injury to the chest and abdomen, as well as bruising of soft tissues**, caused by the impact of the blast wave from a mine explosion. In terms of severity, these injuries are classified as **minor harm to health**, as they caused a temporary impairment of health.

Volume 176, case file sheets 62–63.

According to **forensic medical expert opinion No. 451 dated 15 July 2022, Nasirov Gismet Rasim oglu** was found to have a **closed craniocerebral injury with concussion and bruising of soft tissues**, caused by the impact of the blast wave from a mine explosion. In terms of severity, these injuries are classified as **minor harm to health**, as they caused a temporary impairment of health.

Volume 176, case file sheets 64–65.

According to **forensic medical expert opinion No. 452 dated 15 July 2022**, **Jabrayilli Farid Zakir oğlu** was found to have a **closed craniocerebral injury with concussion and bruising of soft tissues**, caused by the impact of the blast wave from a mine explosion. In terms of severity, these injuries are classified as **minor harm to health**, as they caused a temporary impairment of health.

Volume 176, case file sheets 66–67.

Page 280

According to **forensic medical expert opinion No. 336/MESH dated 28 July 2022**, **Veliyev Rukhin Sultan oğlu** was found to have **multiple shrapnel wounds on the inner surface of the right thigh and lower leg, on the anteromedial surface of the left lower leg, as well as a shrapnel wound accompanied by post-traumatic amputation of the lower third of the left lower leg and formation of a stump**. These injuries resulted from the impact of fragments formed as a result of a mine explosion. In terms of severity, the said injuries resulted in a permanent loss of **no more than 1/3 (50%) of overall working capacity** and are classified as **serious harm to health**.

Volume 176, case file sheets 73–75.

Veliyev Rukhin Sultan oğlu, who was recognized and questioned as a victim, testified that on **17 June 2022 at approximately 09:00**, together with his work colleagues, in the territory of the village of **Khudafarin, Jabrayil District**, which had been liberated from occupation, on the basis of instructions received, they were carrying out work to clear the territory of mines. He sustained injuries as a result of a mine explosion. At the same time, his colleagues **Farid Jabrayilli, Samir Gozalov, Alasgar Guliyev, Gahraman Rzayev, Gismet Nasirov and Mahir Mustafayev** were also injured.

Volume 176, case file sheets 49–53.

Jabrayilli Farid Zakir oğlu, Gozalov Samir Arif oğlu, Guliyev Alasgar Asif oğlu, Rzayev Gahraman Bilal oğlu, Nasirov Gismet Rasim oğlu and Mustafayev Mahir Husameddin oğlu, who were recognized and questioned as victims during the investigation, confirmed in their testimony the circumstances stated by **Veliyev Rukhin Sultan oğlu**.

Volume 176, case file sheets 20–23.

According to **forensic medical expert opinion No. 453 dated 30 June 2022**, **Shukurov Ali Shirali oğlu** was found to have wounds on the **outer surface of the middle third of the left lower leg, the outer and anterior surfaces of the upper third of the left lower leg, the anterior surface of the middle-to-upper third of the right lower leg and the posterior surface of the middle third of the left thigh, as well as an ulcer on the outer area of the heel of the left foot**. These injuries could have resulted from the impact of metal fragments scattered during a mine explosion. In terms of severity, they are classified as **minor harm to health**, as they caused a temporary impairment of health.

Volume 327, case file sheets 1–253.

In addition, on the basis of the **scene inspection report dated 14 July 2022**, it was established that on that same day, at approximately **14:00**, **Mammadov Shamil Farahim oglu**, a resident of the village of **Khubyarli, Imishli District**, while driving a **Shacman** truck bearing state registration number **90-VG-134** through the liberated village of **Dagtumas, Jabrayil District**, drove over one of the mines buried by Armenian armed formations during the period of occupation. As a result, the vehicle became unfit for use and he himself sustained bodily injuries. After the explosion, as a result of the blast, the vehicle continued moving forward, which led to **another mine explosion**.

The site of the mine explosion is located **1.4 kilometers southwest, as the crow flies, from the historical monument “Bashkesik” in the village of Dagtumas, Jabrayil District**, at the geographical coordinates **39°21'35"N, 46°45'22"E**.

Volume 176, case file sheets 85–93.

Mammadov Shamil Farahim oglu, who was recognized and questioned as a victim in the case, testified that on **14 July 2022**, while driving a truck for the purpose of transporting cargo, he was traveling through an open area in the territory...

Page 281

...of the village of **Dagtumas, Jabrayil District**, which had been liberated from occupation, the vehicle drove over one of the mines buried by Armenians during the period of occupation, causing an explosion as a result of which he sustained bodily injuries. Upon hearing the sound of the explosion, people who were nearby came to his aid, removed him from the vehicle and transported him to hospital in another vehicle.

Volume 176, case file sheets 122–125.

The witness **Khalilov Rashad Savalan oglu** testified that on **14 July 2022**, at **approximately 15:00**, he was harvesting grain in the village of Dagtumas. At that time, he saw from a distance that the vehicle driven by **Shamil Mammadov**, whom he knew personally, had struck a mine. He went to the scene together with other persons, placed Shamil in the vehicle he was driving and, on the way, saw an ambulance approaching them. He transferred Shamil to that vehicle, which then took him to hospital.

Volume 176, case file sheets 134–137.

During the investigation, **Aliyev Babek Zakara oglu, Ahmedov Omar Ramiz oglu and Shafiyev Musafir Gomush oglu** gave testimony similar to that of **Khalilov Rashad Savalan oglu** and confirmed the circumstances described above.

Volume 176, case file sheets 99–102, 129–132, 139–142.

According to **forensic medical expert opinion No. 351/MESH dated 29 July 2022**, **Mammadov Shamil Farahim oglu** was found to have sustained a **traumatic amputation of the lower third of the left lower leg, a closed displaced intra-articular fracture of the lower third of the bones of the right lower leg, and multiple wounds to the foot**. These injuries could have resulted from a mine explosion. In terms of severity, the traumatic amputation of the lower third of the left lower leg with formation of a stump

resulted in a permanent loss of more than **one-third (50%) of overall working capacity** and is classified as **serious harm to health**.

Volume 176, case file sheets 127–129.

In addition, on the basis of the **scene inspection report dated 2 November 2022**, it was established that on that day, at approximately **12:00**, **Ahmedov Ilgar Geybat oglu**, born on **1 February 1976**, a resident of the settlement of **Korgez, Garadagh District, Baku**, and a driver employed by **Improtex Industries LLC**, which was carrying out demining work under a contract concluded with the **Mine Action Agency of the Republic of Azerbaijan**, sustained bodily injuries as a result of the explosion of a mine deliberately planted in advance by Armenian armed forces in the liberated village of **Mehdili, Jabrayil District**.

The scene was located **2.8 km in a straight line from the building of the secondary school in the village of Jojug Marjanly, Jabrayil District**, at the geographical coordinates **39°37'98.720"N, 47°29'85.450"E**.

Volume 197, case file sheets 181–187.

Ahmedov Ilgar Geybat oglu, who was recognized and questioned as a victim, testified that he worked as a driver for **Improtex Industries LLC**, and that his work consisted of transporting equipment belonging to the company from one address to another. At the request of the Mine Action Agency of the Republic of Azerbaijan, Improtex Industries LLC sent demining-related equipment to the liberated village of Mehdili, Jabrayil District. On **2 November 2022, at approximately 12:00**, because he was tired, he decided to rest before completion of the testing work. In order to sit down on the ground, he supported himself with his hand, whereupon an explosion suddenly occurred and he sustained an injury to his hand. His colleagues then approached him and arranged for him to be taken to hospital.

Volume 197, case file sheets 297–300.

Page 282

The witnesses questioned during the investigation — **Huseynov Talekh Surkhan oglu, Amrakhov Eduard Geidar oglu, Alekperov Seyid Majnun oglu, Ganbarov Vusal Vugar oglu and Agalarov Parvin Miriosif oglu** — confirmed the said fact and gave testimony similar to that of the victim, **Ahmedov Ilgar Geybat oglu**.

Volume 197, case file sheets 191–193, 196–199, 301–304, 305–308, 310–313.

According to **forensic medical expert opinion No. 860 dated 23 November 2022**, **Ahmedov Ilgar Geybat oglu** was found to have sustained **traumatic severance of the first, second and third fingers of the left hand**, caused by the impact of metal fragments scattered during a mine explosion. These injuries resulted in a permanent loss of more than **one-third (45%) of overall working capacity** and, for this reason, are classified as **serious harm to health**.

Volume 197, case file sheets 315–316.

According to **forensic medical expert opinion No. 798 dated 25 October 2023**, **Gasimov Khabib Teymur oglu** was found to have wounds on the **palmar surface of the left hand, the right eye, the upper eyelid of the right eye, the forehead and the left side of the face**, as well as **burn wounds on the palmar surface of the left hand**. In addition, a **traumatic rupture of the tympanic membrane of the left ear** was identified. These injuries could have arisen under various circumstances, including the explosion of a projectile. In terms of severity, they are classified as **less serious harm to health**, as they resulted in a prolonged impairment of health.

Volume 327, case file sheets 1–253.

Since **27 September 2020**, as a result of explosions of mines and other similar types of devices in the territory of the **Qubadli District**, a total of **3 civilians** sustained bodily injuries of varying severity.

On the basis of the **scene inspection report dated 23 April 2022**, it was established that one of the anti-personnel mines deliberately planted in advance during the occupation of the Karabakh region and adjacent territories by members of Armenian armed forces and illegal armed formations exploded on **22 April 2022 at approximately 18:00** in the territory of the village of **Teymur Muskanli, Qubadli District**. As a result, **Nasibov Beybala Jabrayil oglu**, born on **16 August 1993**, who worked under an employment contract as an excavator operator for **Protean Construction OJSC**, sustained a **traumatic amputation of the left leg at the level of the lower leg**.

The mine explosion occurred **29 meters to the right of the road leading from the village of Teymur Muskanli toward the village of Davudlu, 1,600 meters west of the village of Teymur Muskanli**. The explosion formed a crater **35 cm deep** on the ground.

Volume 174, case file sheets 8–15.

According to **forensic medical expert opinion No. 428 dated 23 April 2022**, **Nasibov Beybala Jabrayil oglu** was found to have the following injuries: **traumatic amputation of the left lower extremity at the level of the ankle joint; shrapnel wounds of various locations on the left lower leg, right upper extremity and right thigh**. These injuries resulted from the impact of the blast wave and primary fragments during the explosion of an explosive device. The said injuries are classified as causing **serious harm to health** and are associated with a permanent loss of overall working capacity of **not less than one-third (50%)**.

Volume 174, case file sheets 19–20.

Nasibov Beybala Jabrayil oglu, who was recognized and questioned as a victim, testified that he worked as an excavator driver for **Protean...**

Page 283

...Construction, which carries out construction work in the territory of the **Qubadli District liberated from occupation**. On **22 April 2022 at approximately 18:00**, together with the driver of a truck belonging to the company, while traveling through the village of **Teymur Muskanli, Qubadli District**, in the direction of the city of Qubadli, he asked the driver to

stop the vehicle in order to attend to his natural needs. After getting out of the vehicle, he walked approximately **10 meters from the road**, and when he was about to go behind a bush, an explosion occurred. He does not clearly remember the subsequent events. When he regained consciousness, he saw that he was in hospital and that he had sustained injuries as a result of the explosion.

Volume 174, case file sheets 63–67.

Aliyev Khanlar Alesker oglu, questioned as a witness, testified that he works as a truck driver for **Protean Construction LLC**. On **22 April 2022**, while traveling by vehicle from the village of **Davudlu** to the village of **Khudulu, Qubadli District**, the company's excavator operator, **Beybala Nasibov**, was traveling with him. At approximately **18:00**, while passing through the territory of the village of Teymur Muskanli, Beybala asked him to stop the vehicle in order to attend to his natural needs. He stopped the vehicle on the roadside, after which Beybala got out and headed toward the bushes. Approximately one minute later, the sound of an explosion was heard. He rushed toward Beybala and discovered that he had sustained injuries as a result of a mine explosion. He immediately informed the company where he worked and arranged for the injured man to be transported to hospital with the assistance of people who had arrived to help.

Volume 174, case file sheets 50–54.

In addition, on the basis of the **scene inspection report dated 1 August 2022**, it was established that **Agamaliyev Surat Musakhan oglu**, born on **1 January 1994**, a resident of the village of **Musaly, Jalilabad District**, on **1 August 2022 at approximately 15:00**, while harvesting grain with a combine harvester in an area known as **Yazyduzu**, in the territory of the village of **Melikahmadli, Qubadli District**, which had been liberated from occupation, sustained bodily injuries as a result of the explosion of one of the mines planted by Armenian armed formations during the period of occupation.

Volume 181, case file sheets 2–9.

Agamaliyev Surat Musakhan oglu, who was recognized and questioned as a victim, testified that he works as an assistant combine-harvester driver for **Cronco** and harvests wheat using a combine harvester on a **400-hectare field** in the Qubadli District liberated from occupation. On **1 August 2022 at approximately 15:00**, while harvesting wheat in the village of Melikahmadli, Qubadli District, in the area known as Yazyduzu, he was operating the combine harvester when it struck a mine planted by Armenians, and he sustained injuries as a result of the explosion. At the time of the incident, other combine-harvester drivers were nearby, including his brother **Panah Agamaliyev**.

Volume 181, case file sheets 30–32.

The witnesses **Abbasov Jeyhun Iba oglu**, **Agamaliyev Mushvig Musakhan oglu**, **Agamaliyev Panah Musakhan oglu**, **Niftullayev Mirkhasim Tofiq oglu**, and **Suleymanli Davud Suleyman oglu** confirmed the said fact and gave testimony similar to that of **Agamaliyev Surat Musakhan oglu**.

Volume 181, case file sheets 34–36, 37–39, 40–42, 43–45, 46–48.

According to **forensic medical expert opinion No. 810 dated 2 August 2022**, **Agamaliyev Surat Musakhan oğlu** was found to have the following injuries: **burn wounds on the posterior surface of the middle and upper thirds of the right forearm, abrasions on the anterior surface of both knee joints and the anterior...**

Page 284

...surface of both lower legs, as well as wounds on the sole of the right foot. These injuries resulted from the effects of high temperature and a hard blunt object (or objects) during the explosion of a substance of an explosive nature. The said injuries, both individually and collectively, did not cause harm to health, and therefore their degree of severity is not determined.

Volume 181, case file sheets 23–24.

In addition, on the basis of the **scene inspection report dated 30 August 2022**, it was established that an employee of the **Mine Action Agency of the Republic of Azerbaijan**, **Huseynov Najmeddin Abdulla oğlu**, born on **30 May 1984**, a resident of the village of **Kerimbeyli, Fuzuli District**, sustained injuries as a result of an explosion that occurred on **30 August 2022 at approximately 10:00** in the village of **Teymur Muskanli, Qubadli District**. The explosion occurred during the demining of territory that had previously been deliberately mined by Armenian armed formations during the period of occupation; in addition, a **specially trained dog participating in the operation was killed**.

Volume 181, case file sheets 50–59.

According to **forensic medical expert opinion No. 903 dated 30 August 2022**, **Huseynov Najmeddin Abdulla oğlu** was found to have the following injuries: **abrasions on both sides of the face and a closed craniocerebral injury**. These injuries resulted from the combined effects of the blast wave and a hard blunt object during the explosion of a substance of an explosive nature. In terms of severity, they are classified as **minor harm to health resulting in a short-term impairment of health**.

Volume 181, case file sheets 76–77.

Huseynov Najmeddin Abdulla oğlu, who was recognized and questioned as a victim, testified that on **30 August 2022**, together with his colleagues, employees of the Mine Action Agency of the Republic of Azerbaijan, he was carrying out demining work in the territory of the village of **Teymur Muskanli, Qubadli District**, which had been liberated from occupation. The work was being carried out in an area mined by Armenian armed formations during the period of occupation. A **specially trained Belgian dog** was also being used for demining. On that day, at approximately **10:00**, while moving along a cleared corridor, the trained dog, through carelessness, went beyond the boundaries of the designated safe area, which resulted in an explosion. As a result, he sustained injuries, while the dog died at the scene. His colleagues then promptly provided him with first medical aid.

Volume 181, case file sheets 79–83.

Employees of the Mine Action Agency of the Republic of Azerbaijan, **Mammadov Sabukhi Majnun oğlu** and **Aliyev Mayil Yahya oğlu**, questioned as witnesses in the case, confirmed

the said fact and gave testimony similar to that of the victim **Huseynov Najmeddin Abdulla oglu**.

Volume 181, case file sheets 67–70, 71–74.

According to **forensic medical expert opinion No. 44/h dated 1 December 2020**, the following injuries were found on the body of **Yagubov Fakhreddin Yagub oglu**: **multiple open comminuted fractures of the cranial vault and bones of the facial skeleton; wounds on the anterior surface of the chest; comminuted fractures of the right humerus, elbow joint and bones of the forearm; traumatic amputation of the left upper extremity at the level of the elbow joint, as well as of the left lower extremity at the level of the thigh and the right lower extremity at the level of the thigh; and rupture of the right half of the scrotum**. These injuries resulted from...

Page 285

... a mine explosion, under the impact of the blast wave and fragments, and in terms of severity are classified as **serious harm to health posing a danger to life**. The absence of the left auricle and the smoothness of the area where it had been located make it possible to presume that the auricle was severed with a sharp object, which corresponds to the date **22 November 2020** and is considered a permanent disfigurement. The cause of death was **acute blood loss and traumatic shock** caused by the injuries sustained.

Volume 327, case file sheets 1–253.

According to **forensic medical expert opinion No. 45/h dated 1 December 2020**, the following injuries were found on the body of **Gahramanov Uzeyir Khalil oglu**: injuries caused by a mine explosion; comminuted fractures of the cranial vault and bones of the facial skeleton; destruction of brain tissue; numerous wounds and injuries to the upper and lower extremities; injuries to the internal organs; anemia of the internal organs; and acute blood loss. These injuries resulted from the impact of the blast wave and fragments during a mine explosion. In terms of severity, they are classified as **serious harm to health posing a danger to life**. The cause of death was **acute blood loss and traumatic shock** caused by the injuries sustained.

Volume 327, case file sheets 1–253.

According to **forensic medical expert opinion No. 1088 dated 4 December 2020**, **Suleymanov Vusal Zeyni oglu** was found to have the following injuries: contused wounds in the areas of the occiput, parietal region and right eye; bruising on the chest and left knee joint. These injuries arose from the impact of a hard blunt object on **22 November 2020**. The said injuries are classified as **minor harm to health resulting in a short-term impairment of health**.

Volume 327, case file sheets 1–253.

According to **forensic medical expert opinion No. 1097 dated 9 December 2020**, **Keremov Ramil Kerem oglu** was found to have the following injuries: a gunshot shrapnel wound accompanied by ptosis of the upper eyelid of the right eye; shrapnel wounds to the right half of the face, right ear, both thighs and right lower leg. These injuries were inflicted on **22**

November 2020 through the impact of fragments from a firearm. The said injuries are classified as **less serious harm to health resulting in a prolonged impairment of health**.

Volume 327, case file sheets 1–253.

According to **forensic medical expert opinion No. 09/22 dated 30 April 2022**, the following injuries were found on the body of **Salahov Parvin Famil oglu**: traumatic amputation of the left foot; multiple shrapnel wounds to the left testicle, abdominal region and left upper extremity, accompanied by an extensive tissue defect on the anterolateral surface of the left lower leg and thigh; an open comminuted fracture of the left patella; and severe anemia of the internal organs. The cause of death was **acute blood loss and severe traumatic shock**. The said injuries resulted from blast trauma caused by the impact of numerous metal fragments and are classified as **serious harm to health posing a danger to life and resulting in death**.

Volume 327, case file sheets 1–253.

According to **forensic medical expert opinion No. 396/22 dated 3 November 2022**, **Hasanov Sabukhi Telman oglu** was found to have the following...

Page 286

...injuries: a **closed fracture with displacement of fragments of the second, third, fourth and fifth metatarsal bones of the left foot**, as well as lacerations in the parietal region and on the left lower leg, which arose from the impact of a hard blunt object (or objects). These injuries could have been caused by metal fragments scattered as a result of a mine explosion and, in terms of severity, are classified as **minor harm to health resulting in a prolonged impairment of health**.

Volume 327, case file sheets 1–253.

According to **forensic medical expert opinion No. 26/22 dated 22 September 2022**, the following injuries were found on the body of **Hamidov Elsevar Sovet oglu**: numerous lacerated wounds to the head, chest, abdomen and extremities; multiple shrapnel fractures of the phalanges and metacarpal bones of both hands and of the right foot, with displacement of fragments; traumatic amputation of the metatarsal bones of the left foot at the level of their bases; and venous congestion of the internal organs, resulting from the impact of numerous metal fragments scattered during the explosion. In terms of severity, the injuries are classified as **serious harm to health posing a danger to life and resulting in death**. The cause of death was **severe traumatic shock caused by multiple injuries to the body (head, chest, abdomen and extremities) and significant blood loss**.

Volume 327, case file sheets 1–253.

According to **forensic medical expert opinion No. 1097 dated 9 December 2020**, **Abilov Mahir Ramiz oglu** was found to have the following injury: **amputation of the right foot at the level of the ankle-heel joint**, resulting from the impact of the blast wave of a firearm, in particular, the explosion of an anti-personnel mine, which caused shrapnel injuries. The time when these injuries were sustained corresponds to **21 November 2021**. In terms of severity,

this resulted in a permanent loss of more than **one-third of overall working capacity (40%)**, and the injury is therefore classified as **serious harm to health**.

Volume 327, case file sheets 1–253.

On the basis of the **scene inspection report dated 14 July 2023**, it was established that **Aliyev Sahib Isa oglu**, born on **19 July 1964**, a resident of the village of **Seyidlyar, Kalbajar District**, while engaged in beekeeping in the village of Seyidlyar, on **13 July 2023 at approximately 20:00**, stepped on one of the mines previously deliberately planted by Armenian military formations. As a result of the explosion, he sustained bodily injuries. The site of the explosion was located **15 kilometers from the village of Seyidlyar, 350 meters east of the Levchay mercury deposit, near the Armenian-Azerbaijani border**. Since the said territory is mined, it was impossible to inspect the area in the immediate vicinity of the explosion.

Volume 78, case file sheets 21–25.

According to **forensic medical expert opinion No. 1089 dated 17 July 2023**, **Aliyev Sahib Isa oglu** was found to have the following injuries: **traumatic amputation of the right lower extremity at the level of the lower third of the lower leg, as well as multiple shrapnel wounds to the left lower extremity and face**, resulting from the explosion of an explosive device. In terms of severity, these injuries are classified as **serious harm to health posing a danger to life and resulting in a permanent loss of more than one-third of overall working capacity**.

Volume 78, case file sheets 123–124.

Page 287

Aliyev Sahib Isa oglu, who was recognized and questioned as a victim, testified that he was not officially employed anywhere and supported his family by engaging in beekeeping. Although he is a native of the **Kalbajar District**, for many years he lived in the city of **Ganja** as an internally displaced person. After the liberation of Kalbajar from occupation, every summer he transported **42 beehives** belonging to his household to the Kalbajar District and stayed there himself for the season. In the summer of 2023, he set up his apiary at the foot of a mountain in the village of **Seyidlyar, Kalbajar District**.

On **13 July 2023**, early in the morning, he attended to his household, and in the evening, at approximately **20:00**, he began walking around the village of Seyidlyar, looking for a more suitable place to set up the beehives. While walking, he stepped on a mine, which caused an explosion. In order to stop the bleeding, he used an elastic band from his trousers, tied it around his leg, and crawled away from the dangerous area. With the assistance of servicemen who were on duty in the area, he was taken to hospital, where his leg was amputated.

Volume 78, case file sheets 30–31, 115–119.

According to **forensic medical expert opinion No. 1061 dated 13 November 2023**, **Askerov Gasim Sardar oglu** was found to have wounds in the area of the **left thigh and lower leg**, caused by the impact of a blunt object, which could have resulted from a mine

explosion. Since the said injuries did not cause harm to health, their degree of severity is not determined.

Volume 327, case file sheets 1–253.

Since **27 September 2020**, as a result of explosions of mines and other similar devices in the territory of the **Goygol District, 3 civilians have died.**

On the basis of the **scene inspection report dated 15 July 2021**, it was established that on **14 July 2021 at approximately 19:00**, **Ojagguliyev Ramal Kamal oğlu**, born on **3 August 1990**, a resident of the village of **Mollajalilli, Goygol District**, died at the scene as a result of injuries sustained in the explosion of one of the numerous mines laid by Armenian armed formations during the period of occupation. The explosion occurred in the territory of the Goygol District, near an area known as **“Banovshali Yaylag,”** located between the Kalbajar and Goygol Districts, while he was grazing cattle.

Volume 149, case file sheets 7–15.

The legal successor of the victim **Ojagguliyev Ramal Kamal oğlu** — his father, **Ojagguliyev Kamal Yunis oğlu** — testified that he lived with members of his family in the village of Mollajalilli, Goygol District. His son Ramal Ojagguliyev raised livestock belonging to him and was not officially employed anywhere. It could be said that every year during the summer season, Ramal, together with residents of the village, took the livestock to an area of the Goygol District known as **“Banovshali Yaylag”** and remained there until September.

His son Ramal took the livestock to the said territory on **8 June 2021**. **Muzahim Ibrahimov**, Ramal Ojagguliyev’s father-in-law, also took his animals there. On **14 July 2021 at approximately 23:00**, Muzahim Ibrahimov called him and said that while Ramal was grazing the animals, he had stepped on a mine and died.

He later learned that his son Ramal, upon seeing that the livestock had gone into territories liberated from Armenian occupation, entered a mined area in order to bring them back and, because the weather was foggy, stepped on a mine on his way back and died. A horse belonging to Ramal also died as a result of the incident.

Volume 149, case file sheets 58–61.

Ibrahimov Muzahim Hasan oğlu, questioned as a witness, testified that **Ramal Ojagguliyev was his son-in-law**. Ramal, like other residents of the village, took animals every year during the summer season to the territory known as **“Banovshali Yaylag”**...

Page 288

...in the Goygol District in order to graze them. However, because his younger daughter had an **entrance examination for higher education on 14 July 2021**, he did not go to the yaylag.

A resident of the village named **Baloglan**, who kept livestock in the said territory, called him that day at approximately **19:00** and told him that a mine had exploded and Ramal had died

as a result of the explosion. He then went to the scene together with other residents of the village.

The place where the mine exploded was a territory that had been controlled and occupied by Armenian servicemen. Since a large number of mines had been buried there, residents of the village did not enter those territories.

Volume 149, case file sheets 37–41.

According to **forensic medical expert opinion No. 5 dated 15 July 2021**, the following injuries were recorded on the body of **Ojagguliyev Ramal Kamal oglu**: **blast injury; complete amputation of the left lower leg at the level of the lower third; an open fracture of the bones of the right lower leg; a wound to the left thigh; numerous small wounds to the lower extremities; hemorrhages and hematomas; external bleeding; and traumatic shock.**

These injuries arose as a result of a mine explosion at close range. Of the injuries, the complete amputation of the left lower leg, being life-threatening, is classified as **serious harm to health**. The open fractures of the bones of the right lower leg are classified as **harm to health of moderate severity**, since they result in a prolonged impairment of health. The wound to the left thigh is classified as **minor harm to health**, since it results in a short-term impairment of health. The superficial wounds, hemorrhages and hematomas do not constitute harm to health, and therefore their degree of severity is not determined.

The cause of death was **external bleeding and traumatic shock caused by the complete amputation of the left lower leg as a result of the mine explosion.**

Volume 149, case file sheets 79–82.

According to the conclusion of the **Forensic Examination Center of the Ministry of Justice of the Republic of Azerbaijan**, the clothing submitted for examination, which belonged to **Ojagguliyev Ramal Kamal oglu** and which he had been wearing at the time of the incident, contained damage corresponding in number and size to that described in the expert opinion.

By their form, dimensions and morphological structure, as well as by the presence on their surfaces of traces of an **explosive substance (TNT)** and particles of incompletely burned **smokeless powder**, the damage is characteristic of the impact of fragments formed as a result of an explosion. The damage was directed **upward from the center of the explosion**. According to the forensic medical expert's conclusion, the location of the damage to the clothing corresponds to the location of the injuries found on the body of the deceased.

Volume 149, case file sheets 97–100.

According to **forensic medical expert opinion No. 759 dated 30 December 2021**, **Garayev Shahin Gadir oglu** was found to have sustained a **traumatic amputation of the left lower extremity at the level of the lower third of the thigh**, which could have resulted from a mine explosion. The time when the injury was sustained corresponds to **20 November 2021**. In terms of severity, the injury is classified as **serious harm to health posing a danger to life**.

Volume 327, case file sheets 1–253.

Mammadov Vusal Ziyafat oğlu, questioned as a witness, confirmed the circumstances stated by the victim **Mammadov Vugar Magsud oğlu** and testified that on **18 January 2022 at approximately 12:00**, Vugar Mammadov told him that he was going to the bank of the **Incha River** to check on the cattle and invited him to come along. Approximately an hour later, while he was walking toward the bank of the Incha River, he heard the sound of an explosion, and when he reached Vugar Mammadov's location, he saw that the latter had sustained injuries as a result of...

Page 289

...the mine explosion, rendered him assistance, removed him from the area, took him to his vehicle, and from there transported him to hospital.

Volume 123, case file sheets 170–172.

According to **forensic medical expert opinion No. 61 dated 27 January 2022**, **Mammadov Vugar Magsud oğlu** was found to have the following injuries: **amputation of the left lower extremity as a result of a mine explosion, multiple shrapnel wounds to the right lower extremity and right hand, as well as traumatic shock**. These injuries resulted from a mine explosion. In terms of severity, they are classified as **serious harm to health posing a danger to life**.

Since **27 September 2020**, as a result of explosions of mines and other similar devices in the territory of the **Shusha District**, **2 civilians have died and 2 civilians have sustained bodily injuries of varying severity**.

Volume 327, case file sheets 1–253.

According to **forensic medical expert opinion No. 70 dated 19 December 2021**, examination of the body of **Khanatov Orkhan Nazim oğlu** revealed the following injuries: **evisceration of the brain, accompanied by damage to the tongue and the organs of the neck (larynx, trachea, esophagus and thyroid gland); destruction of the head at the level of the neck; traumatic amputation of the right lower extremity at the level of the knee joint; traumatic amputation of the left lower extremity at the level of the upper third of the thigh; incomplete traumatic amputation of the left upper extremity at the base of the shoulder; an open fracture of the first metacarpal bone of the left hand; and extensive damage to the scrotum resulting in injury to the testicles**.

These injuries were life-threatening and were caused by the impact of the blast wave, as well as primary and secondary fragments resulting from the explosion. They are classified as **serious harm to health posing a danger to life and, in this case, resulting in death**.

The cause of death was **injuries incompatible with life caused by the blast wave and fragments from the mine explosion, namely evisceration of the brain accompanied by damage to the tongue and the organs of the neck (larynx, trachea, esophagus and thyroid gland), as well as destruction of the head at the level of the neck**.

Volume 327, case file sheets 1–253.

According to **forensic medical expert opinion No. 71 dated 19 December 2021**, examination of the body of **Gandiyev Vusal Firidun oğlu** revealed **multiple amputations of parts of the body**. The said injuries, both individually and collectively, constitute **serious harm to health posing a danger to life and resulting in death**.

Volume 327, case file sheets 1–253.

Gomez Ibrahim Ali oğlu, who was recognized and questioned as a victim, testified that he is a citizen of the **Republic of Türkiye**, resides in the city of **Ankara**, and since **16 May 2023** has worked as a bulldozer operator at the representative office in the Republic of Azerbaijan of **Kolin İnşaat Turizm Sanayi ve Ticaret Anonim Şirketi**. While he was in the city of **Shusha**, management instructed him to carry out work on opening roads between the sections.

On **22 September 2023 at approximately 12:00**, while clearing the **Shusha–Khalfali route** with a bulldozer pursuant to those instructions, an **anti-tank mine previously secretly buried there by Armenian armed formations** exploded. As a result, the bulldozer was damaged, and one of the fragments broke the glass of the cabin and struck him in the eye, causing injuries to his **eye and nose**.

Volume 35, case file sheets 83–85, 125–135.

Page 290

According to **forensic medical expert opinion No. 348/23 dated 23 September 2023**, **Gormez Ibrahim Ali oğlu**, born in **1965**, was found to have abrasions in the area of the nose, as well as a hematoma beneath the right eye. The said injuries resulted from the impact of a hard blunt object and could have been caused under the circumstances and during the period of time indicated by the person examined, namely as a result of the impact of metal fragments scattered during a mine explosion. In terms of severity, these injuries are classified as **minor harm to health resulting in a short-term impairment of health**.

Volume 35, case file sheets 89–91.

According to **forensic commodity examination report No. 9/9078 dated 5 December 2023**, the damage caused to a **CAT D8T bulldozer**, bearing state registration number **90H345** and manufactured in **2011**, was estimated by approximate calculation at **128,651.41 manats**.

In connection with the damage caused to the **CAT D8T bulldozer** bearing state registration number **90H345**, manufactured in **2011** and belonging to the representative office in the Republic of Azerbaijan of **Kolin İnşaat Turizm Sanayi ve Ticaret Anonim Şirketi**, on **27 November 2023** the said company was recognized as a victim in the case, and its representative, **Kazymov Emil Magomedali oğlu**, was informed of his rights and obligations.

On the basis of copies of the **employment contract dated 16 May 2023** and the notification concerning that employment contract, attached to the case materials, **Gormez Ibrahim** was employed from **16 May 2023** as a **bulldozer operator** at the representative office in the

Republic of Azerbaijan of **Kolin İnşaat Turizm Sanayi ve Ticaret Anonim Şirketi** and worked on an hourly basis.

On the basis of an extract from **Order No. 1779/23 dated 16 May 2023**, issued by **Ozturk Mustafa Hilmi oğlu**, a construction engineer at the representative office in the Republic of Azerbaijan of **Kolin İnşaat Turizm Sanayi ve Ticaret Anonim Şirketi**, **Gormez Ibrahim Ali oğlu** was appointed, effective **16 May 2023**, to the position of **bulldozer operator** at the company's representative office in the Republic of Azerbaijan.

Volume 35, case file sheets 161–165.

According to **forensic ballistic examination report No. 3-16-16/2-3/1531 dated 4 October 2023**, the **2 metal fragments** submitted for examination were manufactured industrially. These fragments are parts of a projectile intended for use as ammunition in **mortars classified as firearms**. They are fragments of the metal casing of a mortar bomb that was destroyed as a result of the firing and explosion of the munition of which they formed part, and are intended for use in mortars of the corresponding design and caliber for striking a target at a certain distance (**including manpower**).

However, due to their small size and the absence of markings on their surfaces that could indicate their intended purpose or other technical and tactical characteristics, it is impossible to determine precisely **the caliber of the mortars from which they were fired and their specific characteristics**.

Furthermore, due to the absence of clear fracture lines along the damaged edges, it is impossible to establish whether these fragments are parts of **one and the same mortar bomb**.

Volume 35, case file sheets 97–100.

According to **forensic medical expert opinion No. 106/2023 dated 26 December 2023**, **Gabibov Rahim Shirmammad oğlu** was found to have injuries caused by a **gunshot injury (mine explosion): a complete post-traumatic stump at the level of the upper third of the right lower leg; an extensive open shrapnel wound in the popliteal...**

Page 291

...area of the **left leg**; multiple shrapnel wounds of the right upper extremity, extending from the level of the upper third of the upper arm to the fingers of the right hand; multiple shrapnel wounds of the left lower extremity, extending from the medial surface of the lower third of the thigh to the middle third of the lower leg; against this background, a shrapnel wound to the upper part of the left lower leg with surgical sutures applied, and shrapnel wounds in the area of the left buttock.

These injuries, which resulted from a mine explosion, were accompanied by **hemorrhagic and traumatic shock of the II–III degree** and resulted in a permanent loss of more than **one-third (60%) of overall working capacity**, which is classified as **serious harm to health**.

Volume 327, case file sheets 1–253.

According to **forensic medical expert opinion No. 05 dated 2 February 2022**, the following injuries were found on the body of **Mikailov Ismail Vidadi oglu**: **an open craniocerebral injury; penetrating blunt wounds to the head, chest and abdomen; as well as through-and-through gunshot wounds to the right upper and lower extremities**. These injuries resulted from the impact of fragments formed during the explosion of a projectile. The injuries were life-threatening, had a direct causal relationship with the resulting death, and bore the characteristics of **serious harm to health**.

The cause of death was injuries incompatible with life caused by gunshot wounds, which resulted in damage to the **brain, lungs and liver** and were complicated by **acute blood loss**.

Volume 327, case file sheets 1–253.

According to **forensic medical expert opinion No. 236/21 dated 2 August 2021**, **Mehrallyev Yasin Mehdi oglu** was found to have **multiple contused wounds on the posterior surface of the right lower extremity**, which resulted from the impact of a hard blunt object. These injuries could have been caused by fragments scattered during the mine explosion that occurred on **21 July 2021**. In terms of severity, they are classified as **minor harm to health resulting in a short-term impairment of health**.

Volume 327, case file sheets 1–253.

According to **forensic medical expert opinion No. 237/21 dated 2 August 2021**, **Makhmudov Tahir Polad oglu** was found to have the following injuries: **traumatic amputation of the lower third of the right lower leg; open fractures of the bones of the left lower leg; and multiple abrasions on the left lower extremity and forearm**.

These injuries resulted from the impact of a hard blunt object and could have been caused by fragments scattered during the mine explosion that occurred on **21 July 2021**. In terms of severity, these injuries resulted in a permanent loss of more than **one-third (50%) of overall working capacity** and are classified as **serious harm to health**.

Volume 327, case file sheets 1–253.

In addition, on the basis of the **scene inspection report dated 25 August 2023**, it was established that **Alekperli Afghan Saiyaf oglu**, born on **15 July 1987**, a machine operator-driver employed by **Agroservis OJSC** and a resident of the village of **Bolsulu, Beylagan District**, on **24 August 2023 at approximately 12:00**, while in the area of the village of **Sygnag, Khojaly District**, which had been liberated from occupation, sustained injuries as a result of the explosion of one of the mines deliberately planted in advance by illegal Armenian armed formations.

The mine explosion occurred on the edge of a cultivated field in the village of Sygnag. As a result of the explosion, a crater approximately **1 meter deep** was formed on the surface of the ground.

Volume 78, case file sheets 133–141.

Page 292

According to **forensic medical expert opinion No. 301/23 dated 25 August 2023**, **Alekperli Afghan Saiyaf oglu** was found to have the following injuries: **multiple abrasions in the area of the face, neck and left forearm, as well as hemorrhage into the sclera of the right eye.**

These injuries resulted from the impact of a hard blunt object (or objects) and could have been caused by fragments scattered during the mine explosion that occurred on **24 August 2023**. Since the said injuries did not cause harm to health, their degree of severity is not determined.

Volume 78, case file sheets 162–163, 181–182.

Alekperli Afghan Saiyaf oglu, who was recognized and questioned as a victim in the case, testified that, while working as a machine operator-driver for **Agroservis OJSC**, he carried out earthworks in territories liberated from occupation using a tractor belonging to and operated by the company, and that on **22–24 August** he worked on a cultivated plot in the village of **Sygnag, Khojaly District**.

On **24 August 2023 at approximately 12:00**, after completing his work on the cultivated plot, while driving the tractor out onto a dirt road, a mine exploded, as a result of which he sustained bodily injuries. After hearing the explosion, servicemen who were on duty nearby came to him, rendered assistance and removed him from the area.

Volume 78, case file sheets 142–145.

Abbasov Natig Rusman oglu, questioned as a witness and working as a mechanic at **Cahan Holding LLC**, confirmed the said fact and gave testimony similar to that of the victim **Alekperli Afghan Saiyaf oglu**.

Volume 78, case file sheets 148–150.

According to **forensic medical expert opinion No. 51/23 dated 13 October 2023**, the following injuries were found on the body of **Abilov Famil Ilyas oglu**: **traumatic amputation of the lower third of the left lower leg; displaced fragments of the lower third of the left femur with an open fracture and fragments; displaced open fractures of the bones of the right foot and phalanges of the toes; multiple open fractures of bone fragments of the body; numerous contused wounds, abrasions and hemorrhages on the surface of the body; and venous congestion of the internal organs.**

The cause of death was **severe traumatic shock and acute bleeding**. These injuries resulted from the impact of metal fragments scattered during a mine explosion and, in terms of severity, were life-threatening, are classified as **serious harm to health**, and resulted in death.

According to **forensic medical expert opinion No. 841/23 dated 18 November 2023**, **Bayramov Namaz Nabadi oglu** was found to have the following injuries: **displaced fragments of the middle third of the femur of the left leg with comminuted open fractures; a contused wound in the temporal region; and a closed fracture of the left calcaneus.**

These injuries resulted from the impact of a hard blunt object (or objects) and could have been caused by metal fragments scattered during a mine explosion. In terms of severity, these injuries are life-threatening and are classified as **serious harm to health**.

Volume 327, case file sheets 1–253.

According to **forensic medical expert opinion No. 348/MESH dated 22 July 2022**, **Yalpiri Ildyray Juma oğlu** was found to have the following injuries: **shrapnel wounds on the outer surface of the left ear, left cheek, posterior surface of the left arm, palmar surface of the right hand, anterior surface of the chest, left thigh, left upper arm, and anteromedial surface of the right upper arm, as well as a burn area in the right axillary region...**

Page 293

...a tissue defect with a shrapnel wound; multiple shrapnel wounds at the level of the right knee joint; an open shrapnel wound on the anteromedial surface of the middle third of the left thigh; damage to the anterior surface of the lung with penetration into the thoracic cavity in the area of the right third rib, with a burn along the midclavicular line; and multiple shrapnel wounds to the chest accompanied by hemopneumothorax.

These injuries resulted from the impact of fragments scattered during the explosion of an **anti-tank mine**. The time when they were sustained corresponds to **14 July 2022**, as indicated in the descriptive part of the decision. In terms of severity, these injuries are classified as **serious harm to health posing a danger to life**.

Volume 327, case file sheets 1–253.

In addition, on the basis of the **scene inspection report dated 2 October 2022**, it was established that **Kerimzade Rasif Nusret oğlu**, born on **1 April 2002**, a resident of the village of **Poladtugay, Sabirabad District**, on **2 October 2022 at approximately 11:00**, while carrying out construction and repair work on a bridge built on a motor road in the area of the liberated village of **Tagaverd, Khojavend District**, sustained bodily injuries as a result of the explosion of one of the mines previously planted by Armenian armed formations in that area.

The site of the explosion was located in a wooded area covered with shrubs. **Eight unexploded mines were visible to the naked eye** in the area; however, because the site was mined, it was not possible to conduct a detailed inspection of the scene.

Volume 181, case file sheets 87–90.

Kerimzade Rasif Nusret oğlu, who was recognized and questioned as a victim in the case, testified that, on the basis of an assignment from **Azertrans LLC**, a subcontractor of the company **Kolin**, he worked as a laborer preparing a bridge that was to be constructed on a motor road passing through the territory of the village of Tagaverd, Khojavend District.

On **2 October 2022 at approximately 08:00**, he began work. While walking toward nearby bushes in order to attend to his natural needs, he stepped on a mine. As a result of the explosion, he sustained injuries and then lost consciousness.

Volume 181, case file sheets 131–135.

The witness **Ganbaraliyev Eldaniz Gurbanali oğlu** testified that he worked for the company **Kolin**. On **2 October 2022 at approximately 12:00**, he had just begun work in the territory of the village of Tagaverd, Khojavend District, when **Rasif Kerimzade** stepped on a mine near his workplace. Rasif was injured as a result of the explosion and was subsequently taken to hospital.

Volume 181, case file sheets 97–100.

The witnesses **Ahmadli Elnur Famil oğlu**, **Ahmadli Ashraf Elnur oğlu**, and **Eyvazov Namil Sarvan oğlu** confirmed the said fact and gave testimony similar to that of **Ganbaraliyev Eldaniz Gurbanali oğlu**.

Volume 181, case file sheets 102–106, 110–113, 115–119.

Huseynova Malakhat Tokhid gizi, who was recognized as the legal successor of the victim on the basis of a decision dated **29 March 2021**, testified that she lived with her family in the village of **Afatly, Aghdam District**. The deceased **Huseynov Razi Akif oğlu** was her husband.

The incident occurred on **16 March 2021**, on the eve of the **Novruz holiday**, on the last Tuesday before the holiday. On that day, they were preparing for the holiday and had gathered at the house belonging to her father-in-law, **Akif Huseynov**. At approximately **15:00**, **Razi, Bayram and Anar** were talking in the yard and agreed first to go...

Page 294

...to see **Razi's plot of land located in the village of Hajimammadli, Aghdam District**, and, after returning, to prepare shashlik. Her husband had a plot of land in the village of Hajimammadli on which Razi grew onions and grain crops.

Then **Razi, his son Huseyn, Bayram and Anar** left together in a vehicle belonging to her father-in-law. At approximately **16:00–17:00**, it became known that they had struck a mine in the liberated village of **Yusifjanly, Aghdam District**.

Initially, she was not informed of her husband's death. Later, she learned that her husband **Razi Huseynov** and her brother-in-law **Bayram Huseynov** had died at the scene as a result of the mine explosion, while her father-in-law **Akif Huseynov** and her other brother-in-law **Anar Huseynov** had sustained injuries. Her son **Huseyn** was not injured and sustained no bodily harm.

Volume 133, case file sheets 48–50.

Huseynova Gulkhanym Matlab gizi, who was recognized as the legal successor of the victim on the basis of a decision dated **29 March 2021**, testified that she lived with her family in the village of **Aftaly, Aghdam District**. The deceased **Huseynov Razi Akif oğlu** was her husband.

The incident occurred on **16 March 2021**, on the eve of the Novruz holiday, on the last Tuesday before the holiday. On that day, they were preparing for the holiday and had gathered at the house belonging to her father-in-law, Akif Huseynov. At approximately 15:00, Razi, Bayram and Anar were talking in the yard and agreed first to go and see Razi's plot of land located in the village of Hajimammadli, Aghdam District, and, after returning, to prepare shashlik.

Her husband had a plot of land in the village of Hajimammadli where Razi grew onions and grain crops. Then Razi, his son Huseyn, Bayram and Anar left together in a vehicle belonging to her father-in-law. At approximately **16:00–17:00**, it became known that they had struck a mine in the liberated village of Yusifjanly, Aghdam District. She later learned that **her husband Bayram Huseynov and her brother-in-law Razi Huseynov died at the scene as a result of the mine explosion**, while her father-in-law Akif Huseynov and her other brother-in-law Anar Huseynov sustained injuries.

Volume 133, case file sheets 59–61.

Huseynov Anar Akif oglu, who was recognized and questioned as a victim, testified that because the village of **Yusifjanly**, where he was born, had been occupied in **1993** by Armenian military formations, he and his family settled in the village of **Afatly, Aghdam District**, where he continues to reside.

In **March 2005**, while grazing livestock in the village of Aftaly, Aghdam District, he sustained an injury to the abdomen as a result of shelling by Armenian military units. Due to the injuries he sustained, he was assigned **Group II disability status**.

The deceased **Razi Huseynov and Bayram Huseynov** were his brothers, **Akif Huseynov** was his father, and **Bahrüz Abdullöv** was a fellow villager.

On the eve of the Novruz holiday, on the last Tuesday before the holiday, **16 March 2021**, at **approximately 15:00**, he, together with his brothers **Razi and Bayram**, Razi's son **Huseyn**, and his father, traveled in a vehicle belonging to his father in order to inspect Razi's plot of land located in the village of **Hajimammadli, Aghdam District**.

After inspecting the onion and grain crops, he suggested that his brothers return home. However, Razi and Bayram decided to travel to the occupied village of **Yusifjanly** in order to inspect it. He remained by the vehicle awaiting their return.

Approximately one hour later, his father arrived with **Mahmud**, who was grazing livestock nearby. At that time, he heard several explosions but assumed they were the sounds of demining work being carried out in the liberated territories.

Later, his father ran up to him in alarm and asked where his brothers were. He reassured his father that his brothers would return soon, but then heard his father speaking with villagers and saying that they had struck a mine.

They immediately began searching for them. When he found his brothers, he saw that **Razi Huseynov had injuries to both legs**, while **Bayram Huseynov had an injury to his left leg**. He understood that they were alive and that his nephew **Huseyn** had not been injured.

After passing over the breastwork into a trench, he began carrying his brothers one by one toward his father and **Berkhuz**. However, after taking Razi...

Page 295

...**Huseynov** in his arms, he stepped on a mine, which exploded. As a result of the explosion, his brother **Razi** died at the scene, his father and **Bahrüz Abdulov** sustained injuries, while he himself sustained wounds to his left leg, thigh and left arm. His brother **Bayram Huseynov** subsequently died from blood loss caused by the injuries he had sustained.

Volume 110, case file sheets 18–21.

Volume 133, case file sheets 68–70.

Huseynov Akif Mukhtar oğlu, who was recognized and questioned as a victim, testified that he lived with his family in the village of **Afatly, Aghdam District**. After his native village of **Yusifjanly, Aghdam District**, was occupied by Armenian military formations in **1993**, he and his family settled in the village of **Aftaly, Aghdam District**.

On **16 March 2021**, on the day of the last Tuesday before Novruz, he was returning home from the house of his daughter **Leyla** and, upon returning, saw his sons **Anar, Razi and Bayram** talking in the yard of the house. When Razi saw him, he said that they were going to inspect a plot of land in the village of **Hajimammadli**, where he had sown grain.

At approximately **15:00**, his sons **Anar, Razi and Bayram**, as well as his grandson **Huseyn**, Razi's son, left the house in his **VAZ-2107** vehicle in order to inspect Razi's plot of land located in the village of **Hajimammadli**, intended for sowing, and then return. His son had planted onions and grain on the said land. He also stated that the village was located near the village of **Yusifjanly**, which had been liberated from occupation.

After his sons left for the village, he spoke with fellow villagers on the roadside. Approximately one hour later, his fellow villager **Mammadov Shakhlar Baylar oğlu**, who worked with him, called him and reported that his sons had struck a mine in the village of **Yusifjanly**, saying that Razi had called Shakhlar, informed him that they had struck a mine, and asked him to come and pull them out of there and notify the emergency services.

He immediately composed himself and, together with a person named **Zohrab**, who had been near him at a teahouse, drove to the said location in a **VAZ-2106** vehicle. When he arrived, he saw that his son **Anar** and **Bahrüz, Nadir's son**, were standing at the boundary of the restricted area. However, since they were afraid, they were unable to proceed toward Razi and Bayram.

He asked **Anar** where his brothers were, but **Anar** could not give a precise answer. He immediately began searching for his sons and saw that his son **Razi** had injuries to both legs and that **Bayram** had also sustained injuries to both legs. His grandson **Huseyn** had not sustained any injuries and was in **Razi's** arms.

His fellow villager **Zohrab**, who had arrived with him, climbed down into the trench from the place where **Razi** was located, first took **Razi Huseynov** by the arms and, together with his grandson **Huseyn**, moving along the route by which they had come there, pulled **Huseyn** out

of the area. He then saw that he would not be able to climb down into the trench and help Razi and Bayram, and began calling Anar for assistance.

Anar arrived at the place where they were together with **Abdulov Bahruz**, who lived in the village of Aftaly, and they also climbed down into the broken trench. As soon as Anar took Razi in his arms and began moving toward him, he stepped on a mine located beneath their feet. The mine exploded, throwing them into the air and onto the ground.

Razi sustained numerous shrapnel injuries to the body and died at the scene. At the same time, his son Anar, he himself, and Bahruz sustained injuries. Since his other son Bayram was some distance away from the said place, he did not sustain any additional injuries. However, he died at that location from blood loss caused by the wounds he had previously sustained. After that, they were forced not to move and waited to be rescued.

Volume 110, case file sheets 24–27.

Volume 133, case file sheets 113–116.

Abdulov Bahruz Nadir oglu, who was recognized and questioned as a victim, testified that he lived with his family in the village of **Aftaly, Aghdam District**. On **16 March 2021 at approximately 17:00**, while grazing small livestock on a plot in the village where he lived, his fellow villager **Anar Huseynov** told him that his brothers **Razi and Bayram Huseynov** had struck a mine in the village of **Yusifjanly**, which had been liberated from occupation...

Page 296

...**Aghdam District**. He said that his brothers had gone to visit the graves of relatives in connection with the **Novruz holiday**.

Immediately, together with Anar and his father **Akif**, they drove in Akif's **VAZ-2107** vehicle to the military trench, and from there proceeded on foot to the scene. The scene was an abandoned military trench located at the entrance to the village of Yusifjanly.

When they arrived, they saw that **Razi and Bayram were lying covered in blood in the trench**, while Razi's **7-year-old son** was standing next to them; there appeared to be no injuries on Huseyn. He entered the trench in order to assist them.

When they were lifting Razi, **another mine exploded**. At that moment, fragments of the mine struck his body, as well as the bodies of **Anar and his uncle Akif**, and each of them sustained bodily injuries of varying severity. After that, they remained motionless in the trench, while Razi died at the scene after the second explosion. Bayram also died at that time.

Approximately half an hour later, sappers arrived and removed them from the trench. As a result of the explosion, **the vision in his left eye deteriorated**.

Volume 110, case file sheets 61–63.

Volume 133, case file sheets 137–139.

During the inspection, it was established that Armenian armed formations, acting as part of a criminal group for the purpose of waging an aggressive war, used methods capable of causing

substantial destruction. During the period from **23 July 1993 to 20 November 2020**, while the territory of the village of **Yusifjanly, Aghdam District**, was under occupation, they planted mines equipped with explosive devices in the said territory.

There were ruins and structures in an unusable condition in the vicinity of the said territory. The mined area was surrounded by trenches. The surface of the ground was covered with soil and grass.

A participant in the inspection of the scene, **Akhverdiyev Farman Tavekkul oglu**, pointed from a distance to the place where the mine had exploded after **Huseynov Anar Huseyn oglu, Huseynov Razi Akif oglu, Huseynov Bayram Akif oglu, Huseynov Akif Mukhtar oglu and Abdulov Bahruz Nadir oglu** had stepped on it, and stated that the said persons had struck the mine on **16 March 2021**.

Sappers from **military unit No. 161** cleared a **1-meter-wide safe corridor** through the mined territory. From close range, the place where **Huseynov Anar, Huseynov Razi, Huseynov Bayram and Huseynov Akif** had stepped on the mine was examined. It was established that **Razi and Bayram Huseynov had died**, while **Anar Huseynov, Akif Huseynov and Bahruz Abdulov had sustained injuries**.

During the inspection, **three unexploded PMN-E-type anti-personnel mines** were discovered.

Because the territory was mined, it was not possible to conduct a detailed inspection over a wide radius. At the same time, no material evidence relevant to the case was discovered.

Volume 133, case file sheets 4–9.

According to **forensic medical expert opinion No. 2 dated 13 April 2021**, the following injuries were recorded on the body of **Huseynov Razi Akif oglu**: **blast trauma; a penetrating wound to the abdominal cavity with rupture and crushing of the intestine; damage to the femoral artery; traumatic amputation of both thigh regions; fractures of the bones of the facial skeleton; a crushed wound of the left hand; as well as shrapnel wounds to the body accompanied by acute blood loss.**

These injuries were caused by fragments during the explosion. The cause of his death was **acute blood loss caused by damage to the intestine and femoral artery and by shrapnel wounds to the body.**

Volume 133, case file sheets 76–80.

According to **forensic medical expert opinion No. 3 dated 13 April 2021**, the following injuries were recorded on the body of **Huseynov Bayram Akif oglu**: **blast trauma; rupture and destruction of the soft tissues of the left knee and lower-leg region; comminuted fractures of the left femur; damage...**

Page 297

...to the femoral artery and vein, as well as multiple shrapnel wounds to the body accompanied by acute blood loss. These injuries resulted from the impact of fragments

during the explosion. The cause of his death was **acute blood loss caused by damage to the femoral artery and vein and multiple shrapnel wounds to the body.**

Volume 133, case file sheets 81–85.

According to **forensic medical expert opinion No. 211 dated 24 June 2021, A.M.** **Huseynov** was found to have the following injuries: **comminuted fractures of the bones of the right lower leg; closed displaced fractures of the phalanges of toes I–V of the right foot and of both left heels; open displaced fractures of the navicular, cuboid, medial cuneiform and I–II–III–IV metatarsal bones; as well as dislocation of the talus.** These injuries resulted from the impact of a blunt object and are classified as **moderate harm to health.**

Volume 110, case file sheets 28–32.

Volume 133, case file sheets 118–121.

According to **forensic examination report No. 164 dated 27 August 2021**, multiple areas of fabric damage located at intervals were found on the trousers and shirt belonging to **Huseynov Bayram Akif oğlu**. These injuries could have been caused by objects of limited size, and their occurrence under the circumstances described in the decision, namely through the impact of fragments formed during the explosion of a projectile, cannot be excluded.

The damage found on Bayram Huseynov's trousers and shirt corresponds in location to the injuries on his body, including **blast trauma, destruction of the soft tissues of the left knee and lower-leg region, comminuted fractures of the left femur, damage to the femoral artery and vein, and multiple shrapnel wounds to the body accompanied by acute blood loss.**

Multiple areas of fabric damage located at intervals were also found on the shirt, trousers and trouser fragment belonging to **Huseynov Razi Akif oğlu**. These injuries could have been caused by objects of limited size, and their occurrence under the circumstances described in the decision, namely through the impact of fragments formed during the explosion of a projectile, cannot be excluded.

The damage found on Razi Huseynov's clothing corresponds in location to the injuries on his body, including **blast trauma, penetrating intestinal ruptures, damage to the femoral artery, traumatic amputation of both thigh regions, fractures of the bones of the facial skeleton, a crushed wound of the left hand, and multiple shrapnel wounds to the body accompanied by acute blood loss.**

Volume 133, case file sheets 144–146.

The **scene inspection report dated 26 April 2021** states that the scene was located in a mined area in the previously unoccupied part of the village of **Marzili, Aghdam District**. The ground surface was covered with grass. During the inspection of the mined area, a **1-meter-wide safety strip** was created. From the earth embankment of the trench to the place where the explosion had occurred, over a distance of approximately **800–900 meters**, a mine detector was used to discover **5 unexploded PMN-E-type anti-personnel blast mines.**

A participant in the inspection, **Verdiyev Orkhan Jahid oğlu**, indicated the place where the bodies of **Shahin Verdiyev, Aydin Verdiyev and Firdosif Guliyev** had been found lying, noting that the explosion had occurred specifically in that area.

The following items were discovered at the scene: a **crowbar**, at a distance of **38 cm** from which there was a **cap bearing stains resembling blood**, belonging to Shahin...

Page 298

...**Verdiyev**; a **stain resembling blood** between the crowbar and the cap; a fragment of an exploded **anti-personnel mine** at a distance of **124 cm** from that stain; a **shovel with a damaged working part**, at a distance of **2 meters** from that mine; a **jacket bearing stains resembling blood**, belonging to Shahin Verdiyev, located **334 cm** from the shovel; and, in front of the jacket, **parts of an anti-tank mine and TNT**.

During the inspection, all the items discovered — the **crowbar, cap, stain resembling blood, part of the exploded anti-personnel mine, shovel, parts of an anti-tank mine and TNT** — were seized, packed in envelopes and sealed with the “**For Envelopes**” seal of the Prosecutor’s Office of the Aghdam District.

Volume 142, case file sheets 4–11.

Verdiyev Jahid Vahid oğlu, who was recognized as the legal successor of the victim by a decision dated **28 April 2021**, testified that **Verdiyev Shahin Vahid oğlu** was his brother. His brother returned from the **Russian Federation to the Republic of Azerbaijan in 2014**, entered into a lawful marriage with **Sharafat Verdiyeva**, and had two children. Shahin Verdiyev lived in the city of **Aghjabadi** and was engaged in buying and selling metal.

On **26 April 2021 at approximately 13:00**, Shahin Verdiyev, his other brother **Aydin Verdiyev**, and their neighbor **Firdosif Guliyev** traveled to the territory of the Aghdam District to collect metal. At approximately **17:00**, in the territory of the village of **Marzili, Aghdam District**, they struck a mine and were blown up. As a result, his brother **Shahin Verdiyev died**, his other brother **Aydin Verdiyev sustained injuries to the mouth and eye**, and their neighbor **Firdosif Guliyev sustained an injury to the eye area**.

Volume 142, case file sheets 40–42.

Verdiyev Orkhan Jahid oğlu, questioned as a witness, testified that **Shahin and Aydin Verdiyev were his uncles**, while **Firdosif Guliyev was their neighbor**. They were engaged in collecting and selling metal.

On **26 April 2021**, they traveled toward the Aghdam District to collect metal. At approximately **17:00** that day, Aydin Verdiyev called him and said that they had been caught in a mine explosion. He immediately went to the place they indicated. There he saw that **Shahin had no eye and there was blood, Aydin and Firdosif had sustained injuries to the eye area**. He immediately placed them in a vehicle and drove them to hospital, but **Shahin Verdiyev died on the way to the hospital**.

Volume 142, case file sheets 44–46.

Verdiyev Aydin Vahid oglu, who was questioned as a victim on the basis of a decision dated **13 July 2021**, testified that on **26 April 2021 at approximately 13:00**, while he was in a teahouse in the city of **Aghjabadi**, his brother **Shahin Verdiyev** approached him and said that items they used for collecting metal had remained in the territory of the village of **Pirbulag, Aghdam District**, and that they needed to go there to retrieve them.

At that time, their neighbor **Firdosif Guliyev** was also nearby and, having heard their conversation, said that he wanted to travel to the territories of the Aghdam District liberated from occupation.

After that, in a **Mercedes-Benz** vehicle bearing state registration number **04 BO 733**, they traveled to an area known as **Pirbulag, Aghdam District**, reaching it through the territory of the settlement of **Ergi, Aghdam District**. After traveling through the settlement of Ergi for approximately half an hour, they arrived at the specified location.

They took from there a **nail-pulling tool, a hammer, a small shovel and a crowbar** and headed back toward the vehicle. When approximately **500 meters** remained to the vehicle, Shahin threw a piece of wood he was holding toward the vehicle, to the right. At that moment, a powerful explosion occurred. He does not remember what happened afterward.

The explosion occurred because **Armenian armed formations had previously secretly planted explosive devices of various purposes in the territories of the Republic of Azerbaijan liberated from occupation.**

Volume 110, case file sheets 43–45.

Volume 142, case file sheets 82–84.

Page 299

Guliyev Firdosif Idris oglu, questioned as a victim on the basis of the decision dated **13 July 2021**, confirmed in his testimony the circumstances stated by the victim **Verdiyev Aydin Vahid oglu** and gave testimony similar to his.

Volume 110, case file sheets 52–56.

Volume 142, case file sheets 96–100.

According to **forensic medical expert opinion No. 06 dated 26 April 2021**, the following injuries were found on the body of **Verdiyev Shahin Vahid oglu**: blast trauma; crushing and destruction of the left eyeball and brain tissue; and numerous shrapnel wounds on the surface of the body caused by the impact of fragments resulting from the explosion of ammunition. The cause of his death was **crushing and destruction of brain tissue.**

Volume 142, case file sheets 116–120.

According to **forensic medical expert opinion No. 137 dated 13 July 2021**, **Guliyev Firdosif Idris oglu** was found to have the following injuries: destruction of the right eyeball; a through rupture of the sclera of the left eye over a substantial area; trauma with prolapse of the internal membranes through the wound opening; corneal burn; the presence of numerous foreign bodies; severe contusion of the eyeball; and a penetrating corneal wound.

These injuries resulted from the impact of fragments during the explosion of ammunition. They led to **complete loss of vision in both eyes** and, by their characteristics, are classified as **serious harm to health**.

Volume 110, case file sheets 57–59.

Volume 142, case file sheets 101–103.

According to **forensic medical expert opinion No. 138 dated 13 July 2021, Verdiyev Aydin Vahid oglu** was found to have the following injuries: penetrating wounds of the left eyeball, the presence of a foreign body inside the eye, and endophthalmitis. These injuries resulted from the impact of fragments during the explosion of ammunition. The said injuries led to **complete loss of vision in one eye** and, by their characteristics, are classified as **serious harm to health**.

Volume 110, case file sheets 46–49.

Volume 142, case file sheets 85–87.

According to **forensic ballistic examination report No. 3/825 dated 3 June 2021**, the object designated by the number “1” is a part of a factory-manufactured **PMN anti-personnel blast mine**, which separated as a result of the explosion. The object bears no inscriptions or markings indicating the country or manufacturing plant, making it impossible to establish them.

The total weight of a **PMN blast mine** is **550 grams**, of which **200 grams consist of explosive material (TNT)**. The PMN explosive device is equipped with a detonator. It is installed manually by burying it in the ground. For the mine to detonate, sufficient pressure within the range of **8 to 25 kilograms** must be applied. When such weight acts upon the mine, the striker activates the fuse, resulting in an instantaneous explosion.

The explosion of a PMN creates high pressure and high temperature, which destroy the mine body into small fragments. A crater approximately **30 centimeters deep** is formed in the ground. The body of a person exposed to the explosion and the person’s clothing are destroyed into small particles that scatter away from the epicenter.

Due to the absence of appropriate scientific methods, it is impossible to establish the exact date on which the explosion occurred.

Page 300

The mine (explosive device) used in the explosion belongs to the category of **anti-tank blast mines made of plastic and fabric and without a metal casing**. It is intended to damage the tracks of tanks and armored vehicles and is used on dangerous approaches, roads and locations where vehicles may travel.

There is a possibility that the explosion was caused by an anti-tank mine of the **TM-62P2, TM-62P3, TM-62T or TM-62V** type. The bodies of mines of these types are manufactured from **polyethylene, plastic and kapron fabric**.

In view of the above, the objects designated by the number “2” and submitted for examination may be parts of the said mines.

The operating mechanism of these mines is based on detonation under pressure; they may also be detonated by **remote control**. For the said anti-tank mines to detonate, pressure in the range of **150–200 kilograms** is required.

Due to the absence of appropriate scientific methods, it is impossible to establish the exact date of the explosion. The objects bear no markings indicating the country or manufacturing plant.

The working part of the tool submitted for examination has a lower portion that was destroyed and deformed. Based on the form, dimensions and morphological characteristics of the damage, as well as the discovery on its surface of traces of the explosive substance **TNT** and particles of unburned smokeless powder, it was established that the destruction of the lower part occurred as a result of an explosion.

The substance submitted for examination, weighing **960 grams**, is **TNT (trinitrotoluene)** manufactured industrially for military purposes. This explosive belongs to the **high-explosive group of powerful explosives** and is suitable for use. TNT itself is classified as an explosive substance.

Volume 142, case file sheets 69–73.

Hatamkhanova Ilakha Allahverdi gizi, who was recognized as the legal successor of the victim on the basis of the decision dated **22 June 2021**, testified that **Hatamkhanov Jasarat Sifayat oglu** was her husband.

On **7 June 2021 at approximately 08:00**, Jasarat ate breakfast and drove to work in a **GAZelle** vehicle belonging to the workshop where he worked. At lunchtime, he returned home, ate lunch, and then went back to work. Jasarat left the house again at approximately **13:50**. When leaving, he told her that he would return at approximately **18:00** and take her to her mother's home.

From 18:00 that day, she began calling Jasarat's telephone number, [REDACTED], but he did not answer, although the calls were reaching his telephone. She continued calling until **21:00**, but Jasarat did not answer the telephone.

She informed her brother **Vasif**. Jasarat did not answer her brother's call either, so Vasif called Jasarat's director, named **Rafik**, but he also did not answer. Her brother Vasif then called Jasarat's uncle, named **Tanryverdi**, and told him about Jasarat.

Vasif learned from workers at the stone workshop that they had transported a gravestone in the vehicle driven by Jasarat to a cemetery in the village of **Makhryzly, Aghdam District**. While they were installing the gravestone, Jasarat had remained near the vehicle. He told them that they would leave in half an hour, but afterward they could not find him.

That same day, they reported to the **Aghdam District Police Department** that Jasarat had gone missing, and an investigation was initiated.

On **17 June 2021**, officers of the district police department informed her that the body of her husband, **Hatamkhanov Jasarat Sifayat oglu**, had been found near **observation post No. 23**

of an N-designated military unit of the Ministry of Defense of the Republic of Azerbaijan, in the territory of the village of **Saryjaly, Aghdam District**.

It became known that Jasarat had entered the territory liberated from occupation without permission and, after stepping on a mine buried by Armenian armed formations, died.

Volume 144, case file sheets 186–189.

Page 301

Aliyev Anar Khudayar oğlu stated in his testimony that on 07 June 2021, at approximately 17:00, together with his co-worker Ali, they travelled from the stone workshop in the settlement of Guzanly, Aghdam District, in a Gazelle truck driven by **Khatamkhanov Jasarat Siyafet oğlu**, to the village of Mahrizli, Aghdam District, in order to install a gravestone there. Although, after completing the work, he and Ali began looking for Jasarat, they were unable to find him. Despite repeatedly calling Jasarat's mobile telephone number, [REDACTED], he did not answer, even though the calls were reaching his telephone. He and Ali then informed the workshop director, a man named Rafig, about this. Some time later, Rafig himself arrived at the cemetery in the village of Mahrizli, and together they began searching the area in question, but were unable to find Jasarat. They subsequently returned to the workshop in Rafig's vehicle.

Volume 144, case file pages 44–45.

Rustamov Ali Bakir oğlu and **Shukurov Rafig Mursal oğlu**, in their testimony, confirmed the circumstances described by Aliyev Anar Khudayar oğlu.

Volume 144, case file pages 46, 47.

Dadashev Ragub Imran oğlu testified that he knew **Khatamkhanov Jasarat Siyafet oğlu**, who lived in the settlement of Guzanly, Aghdam District, as they lived in the same settlement. On 07 June 2021, at approximately 17:40, while he was travelling to the village of Shahveliler, Barda District, on personal business, he received a call on his mobile telephone number, [REDACTED], near a hill located within the territory of the settlement of Imamgulubeyli, Aghdam District. When he answered, he recognized the caller as Jasarat Khatamkhanov, who was speaking in a very weak voice. He told him over the telephone to speak louder, but could barely hear his voice. At that time, Jasarat Khatamkhanov told him that he had stepped on a mine. Thereafter, although he called him several times, the connection was lost. As he had previously lived with Jasarat in the same settlement and they had been on good terms, he thought that Jasarat was joking with him. Since he did not believe what Jasarat had told him, he did not tell anyone about it.

Volume 144, case file pages 132–133.

On 16 June 2021, an inspection of the scene was conducted, during which it was established that the scene was located on a section of the Aghjabadi–Aghdam main asphalt road, within the territory of the village of Sarijali, under the administration of the Aghdam District territorial representation, on the right-hand side of the road, not far from former checkpoint No. 23 of the Nth military unit of the Armed Forces of the Republic of Azerbaijan, in the neutral zone. **Abbasov Rza Nazil oğlu**, chairman of the municipality of the village of

Garadaghli, Aghdam District, who participated in the inspection, stated that both sides of the road, both the right and left sides, fall within the administrative territory of the village of Sarijali and that the said territory borders the village of Seyidli. On both sides of the asphalt road, signs bearing the inscription “**mine**” had been installed and fixed to metal posts. The territory on both sides of the main road was covered with yellowed, dry natural grass. To the right of the road was a trench belonging to the former defensive position of checkpoint No. 23 of military unit N of the Armed Forces of the Republic of Azerbaijan.

Huseynov Namig AbdulRahim oglu, head of the 5th unit of the Mine Action Agency of the Republic of Azerbaijan, who participated in the inspection of the scene, used a **VALON VMN 3** device to open a safety corridor, after which the location where the body had been found was inspected. Since a trench was located between the scene and the road, they entered the said trench using the safety corridor. The safety corridor, marked with red tape—

Page 302

—was attached to wooden posts along the trench. The trench is 4 metres deep and 2 metres wide. Its upper part is covered by an earthen embankment 1.20 metres high. A protective structure has been constructed inside the trench using concrete posts, and barbed wire has been secured in certain places inside it.

The distance from the location where the body was found to the asphalt road is 145 metres, while the distance between the body and the trench is 2.80 metres. To the west of the location of the body are fruit trees, and to the east are remnants of vineyards with concrete posts embedded in the ground. The ground is covered with yellowed, dry natural grass.

The examination of the body was conditionally marked with the numbers 1 and 2. The body is that of a male, lying on his back, with his head facing west and his legs facing east. The hair is black and 3–4 cm long; the eyes are closed and the legs are spread apart. The body is in an advanced state of decomposition. The body is wearing black trousers with a brown belt and a partially preserved black undershirt. The left trouser leg is torn at the side, while the right trouser leg is absent. The left leg has been traumatically amputated below the knee and is wrapped in black fabric. In the area of the left knee, a black shirt has been wrapped around it like a bandage. The left arm of the body is devoid of muscle tissue, leaving only the bony part; the hand is absent. The clothing on the body is damaged.

At a distance of 1.80 metres from the body, conditionally designated by the number “**1**,” circular stains resembling blood and absorbed into the soil were found on the upper part of the trench, conditionally designated by the number **2**.

Guliyev Rustam Aslan oglu, who participated in the examination of the body, stated that the body belonged to his nephew, **Khatamkhanov Jasarat Siyafet oglu**. Referring to the facial features, he stated that the body was that of his nephew, Khatamkhanov Jasarat Siyafet oglu.

In addition, **Huseynov Namig**, head of the 5th unit of the Mine Action Agency of the Republic of Azerbaijan, who participated in the inspection, stated that he believed that Khatamkhanov Jasarat Siyafet oglu had sustained injuries as a result of the explosion of a **PMN anti-personnel mine (plastic)** and had died. When mines of the said type explode, no parts of them remain. Anti-personnel mines primarily cause injuries to the lower extremities.

Namig Huseynov further stated that, 30 cm from the circular stains resembling blood which had been absorbed into the soil and found at a distance of 1.80 metres from the body, there were signs of a mine explosion on the upper part of the trench conditionally designated by the number 2. Since, when the safety line was laid, the said location was covered with soil, it became level.

During the inspection of the scene, one handful of soil was taken from the area containing the circular stains resembling blood, in the presence of the attesting witnesses and the participants in the drawing up of the protocol. The soil was packaged and sealed with the seal of the Aghdam District Prosecutor's Office bearing the inscription "**For envelopes.**" In addition, no other physical evidence relevant to the case was found during the inspection of the scene, and therefore no additional objects were seized.

Volume 144, case file pages 6–15.

According to forensic medical expert opinion No. 99 dated 11 June 2021, no injuries or traces of injuries were found on the body of **Rustamov Ali Bakir oglu** during the forensic medical examination.

Volume 144, case file pages 168–169.

According to forensic medical expert opinion No. 100 dated 11 June 2021, the medical examination of **Aliyev Anar Khudayar oglu** revealed a bruise on the inner lateral surface of the middle third of the left shin. The injury had been caused by a blunt object and was classified as not having caused harm to health; therefore, its degree of severity was not determined.

Volume 144, case file pages 170–171.

Page 303

According to forensic medical expert opinion No. 10 dated 29 June 2021, the body of **Khatamkhanov Jasarat Siyafet oglu** was in a state of advanced putrefaction. The following injuries were identified on the body of Khatamkhanov Jasarat Siyafet oglu: blast injury, amputation of the upper third of the right lower leg, multiple comminuted fractures, and damage to the tibial artery. These injuries were life-threatening and occurred shortly before death as a result of the impact of fragments during the explosion of a munition. The cause of his death was acute blood loss caused by damage to the tibial artery.

Volume 144, case file pages 232–235.

Mirzoev Elmaddin Tofiq oglu, recognized and questioned as a victim, testified that he lived with his family in the village of **Yukhary Giyamaddinli, Aghjabadi District**. Since 2006, he had worked at the National Agency of the Republic of Azerbaijan for Mine Clearance. His last position was that of a detachment commander at the National Agency of the Republic of Azerbaijan for Mine Clearance. He stated that the armed forces of Armenia, acting as a criminal organization for the purpose of waging an aggressive war, used methods of warfare capable of causing significant destruction. With the aim of national enmity, hostility and killing people by a generally dangerous method, from 23 July 1993 to 20 November 2020, they planted a large number of mines with explosive devices in the territory of the village

of **Shurabad, Aghdam District**, as well as in other occupied territories of the Republic of Azerbaijan.

In accordance with the assigned task, a section of the railway line in the territory of the village of Shurabad, Aghdam District, which had been liberated from occupation, was cleared of mines planted by Armenian military formations. On 29 January 2021, at approximately 11:00, while performing his official duties, namely while clearing the railway line of mines, the victim sustained numerous bodily injuries as a result of the explosion of an anti-personnel mine planted by Armenian military formations. Due to the severity of the injuries, the lower part of his left leg was amputated below the ankle. In addition, as a result of the mine explosion, the victim sustained injuries to both eyes: the right eye completely lost vision, while only poor vision remained in the left eye.

Volume 110, case file pages 35–37.

Volume 126, case file pages 70–72.

The witnesses **Ibrahimov Rasim Imran oglu** and **Priyev Sadyg Khanlar oglu**, who were questioned, gave testimony similar to that of Mirzoev Elmaddin Tofiq oglu, who had been recognized as a victim.

Volume 126, case file pages 18–20, 21–23.

On 29 January 2021, an inspection of the scene was conducted, during which it was established that the scene was located on the right-hand side of the motor road passing through the territory of the village of Shurabad, Aghdam District, on a section of the **Barda–Aghdam road**. It was apparent that demining operations were being carried out at the scene. The surface of the ground consisted of soil and grass. A railway line ran approximately 50–55 metres from the road. Safety lines consisting of wooden posts had been installed on the right and left sides. The width of the entrance to the safety line was 2 metres.

At a distance of 2.30 metres from the entrance, a bulletproof vest and a protective “visor” were found. Four large wooden posts had been driven into the ground on the right and left sides of the safety line, with a distance of 5 metres between them. On the left side, in front of the fourth wooden post, there was a wooden structure in the shape of an “X,” indicating a stop sign. The end of the first working line was located at a distance of 15 metres. The distance from the wooden post to which the first working line was attached to the small wooden post on the only open second working line was 1 metre. On the right and left sides of the second working—

Page 304

—line, three small wooden posts had been driven into the ground, with a distance of 1 metre between them. The distance from the second small post to the “stop” sign was 0.7 metres. From the third wooden post driven into the second working line to the site of the mine explosion, the distance was approximately 1.5 metres. One telephone was found at that location.

At a distance of 5.1 metres to the right of the safety line, one shoe was found. On the right and left sides of the safety line, warning signs bearing the inscription “**mine**” had been placed along the side of the road, at distances of 10 and 28 metres respectively.

Priev Sadyg Khanlar oglu, who participated in the inspection of the scene, indicated the location where the victim, **Mirzoev Elmaddin Tofig oglu**, had stepped on the mine. He stated that on 29 January 2021, Mirzoev Elmaddin, after taking him (Priev) to a safe distance from the working line and checking the quality of the work performed, moved approximately 1.5 metres away from the safety line and stepped on a mine.

The shoe found at the scene was numbered as item No. 1, while the bulletproof vest and the “visor” were numbered as item No. 2. These items were seized, packaged in envelopes and sealed with the seal of the Aghdam District Prosecutor’s Office bearing the inscription “**For envelopes.**” It was not possible to seize the telephone found in the mined area.

Volume 126, case file pages 4–11.

According to forensic medical expert opinion No. 169/21 dated 10 May 2021, **Mirzoev Elmaddin Tofig oglu** was found to have the following injuries: traumatic amputation of the lower third of the left lower leg, complete loss of vision in both eyes, as well as numerous abrasions in the area of the left lower leg. The said injuries were caused by the impact of a hard blunt object (or objects). In terms of severity, these injuries are classified as causing grievous bodily harm, since they resulted in a lasting and permanent loss of more than one-third (35–50%) of total working capacity.

Volume 110, case file pages 38–40.

Volume 126, case file pages 78–80.

According to explosive-technical expert opinion No. 3/360 dated 04 March 2021, the uneven surfaces of the metal fragments and their jagged, uneven edges indicate that they separated from an object as a result of an explosion. Since the casings of the metal fragments are in a fragmented and splintered condition, it is impossible to determine whether those fragments are parts of any particular explosive device (mine).

Volume 126, case file pages 45–48.

Ahmedov Orkhan Kamil oglu, recognized and questioned as a victim, testified that on 13 December 2020, at approximately 13:00, he went to the home of his cousin, who lived in the village of **Zangishali, Aghdam District**, and asked him to prepare food so that they could take it with them, after which he and Togrul went out into the village. At approximately 14:30, Shamistan joined them. They decided to drive around the village in a **Niva** vehicle, the series of which he did not remember, with Aghdam registration and state registration number **135**, belonging to Togrul.

Togrul was driving the vehicle, Shamistan was sitting in the rear seat, and Orkhan was sitting in the front seat. After driving around the village for a short while, they became stuck in mud; the wheels of the vehicle were turning, but the vehicle itself was not moving. With difficulty, they pulled the vehicle out of the mud. After that, Togrul decided not to reverse along the same route so that they would not become stuck in the mud again, and therefore moved the vehicle forward.

After travelling approximately 200 metres, they came upon an earthen ditch. Togrul began driving the vehicle on the right-hand side of the earthen ditch. The indicated road led to an abandoned building belonging to the military. They had never previously been at that

location. After getting out of the vehicle, they inspected the surrounding area and made sure that there was no one in the said building or in its—

Page 305

—surrounding area. After spending approximately five minutes talking in front of the building, he met the now-deceased **Mammadov Elchin** and **Guliyev Parviz**. After greeting them, Elchin stated that he and Parviz were watering a plot of land belonging to him nearby and invited them to join them. He also mentioned that there were wine vats in the liberated territories and suggested that they go and look at them.

Everyone agreed, and the group began moving through the trench located in front of the military building. Elchin walked in front, followed by Tofig, the witness himself, Shamistan and Parviz. After walking approximately 100–200 metres, they noticed, in the liberated territory approximately 10 metres from the trench, a red rubber pipe about 10 metres long. When Elchin said that he wanted to take the pipe, Tofig objected and warned him that there might be mines in that area. However, Elchin did not listen to him and, using a metal wire, pulled the pipe towards the trench. They saw that the pipe was connected to metal spherical elements. Not realizing that it might be a mine, they began moving back.

This time, Shamistan was at the front of the group, followed by Parviz, the witness himself, Tofig, and Elchin at the rear. Elchin was dragging the pipe together with the suspected mine behind him. After walking 20–25 metres, Elchin picked up the mine and began examining it. The witness and Tofig stood next to him, while Shamistan and Parviz continued walking ahead. Suddenly, a faint sound came from the mine, whereupon Elchin smiled and said: “**Is this what you were afraid of all this time?**” A loud explosion then occurred. As a result of the explosion, the witness sustained injuries to his head and legs, Tofig sustained bodily injuries, and Elchin Mammadov died at the scene.

Volume 110, case file pages 2–5.

Ahmedov Togrul Vilayat oglu, recognized and questioned as a victim, as well as the witnesses **Rahimli Shamistan Yunis oglu** and **Guliyev Parviz Rahbar oglu**, gave testimony similar to that of the victim Ahmedov Orkhan Kamil oglu and confirmed the circumstances stated by him.

Volume 110, case file pages 10–13.

According to forensic medical expert opinion No. 300 dated 27 February 2021, the following injuries were identified on the body of **Ahmedov Orkhan Kamil oglu**: a lacerated-contused wound of the soft tissues at the outer corner of the right eye; a burn in the right periorbital area and on the posterior part of the neck; a thermal burn of the upper third of the right thigh and lower leg caused by exposure to flame; and multiple abrasions to the abdomen and right upper extremities. These injuries resulted from the impact of fragments during the explosion and are classified as causing minor harm to health.

Volume 110, case file pages 6–8.

According to forensic medical expert opinion No. 29 dated 02 December 2021, the following injuries were identified on the body of **Ahmedov Togrul Vilayat oglu**: air bubbles in the

subcutaneous fatty tissue of the left thigh; an incised-lacerated wound on the left half of the anterior abdominal wall, not penetrating into the abdominal cavity; and a displaced transverse fracture of the distal third of the left ulna. These injuries were caused by the impact of fragments during the explosion of a projectile from a firearm and are classified as causing moderate harm to health.

Volume 110, case file pages 14–16.

According to forensic medical expert opinion No. 59 dated 04 February 2021, the following injuries were recorded on the body of **Mammadov Natig Nuraddin oglu**: traumatic amputation of the middle third of the left lower leg and fragment wounds to the right forearm and right lower leg. These injuries were caused—

Page 306

—as a result of the impact of explosive firearm weaponry, caused by a mine explosion and the impact of fragments. The injuries resulted in a permanent loss of more than one-third (50%) of total working capacity and are classified as causing grievous bodily harm.

Volume 327, case file pages 1–253.

According to forensic medical expert opinion No. 171 dated 18 March 2021, **Mammadov Elbriz Malik oglu** was found to have the following injuries: a depressed fracture of the frontal bone and a fragment wound to the interbrow area of the frontal region. These injuries occurred as a result of the impact of fragments during a mine explosion. In terms of severity, they are classified as causing grievous bodily harm posing a danger to life.

Volume 327, case file pages 1–253.

According to forensic medical expert opinion No. 270 dated 12 April 2021, **Azimzade Hafiz Salim oglu** was found to have the following injuries: superficial fragment wounds to both upper extremities, as well as a fragment wound to the right lower leg complicated by amputation of the right lower extremity at the level of the upper third of the lower leg. The superficial fragment wounds of the upper extremities are classified as causing minor harm to health, and therefore their degree of severity is not determined. However, the amputation of the right lower extremity at the level of the upper third of the lower leg, caused by fragment wounds, resulted in a permanent loss of more than one-third (50%) of total working capacity and is classified as causing grievous bodily harm.

Volume 327, case file pages 1–253.

According to forensic medical expert opinion No. 287/21 dated 16 April 2021, **Bakhshaliyev Iman Eyvaz oglu** was found to have the following injuries: traumatic separation of the lower third of the right lower leg; an open displaced fracture of the distal phalanx of the first finger of the right hand; and numerous contused wounds on the surface of the body. These injuries could have been caused by the impact of fragments as a result of blast trauma. In terms of severity, they resulted in a permanent loss of more than one-third (50%) of total working capacity and are classified as causing grievous bodily harm.

Volume 327, case file pages 1–253.

According to forensic medical expert opinion No. 295 dated 26 February 2021, **Babayev Ramiz Nazim oğlu** was found to have the following injuries: contusions of the soft tissues of the left half of the chest, left elbow, left wrist, both knee areas and the frontal region. These injuries resulted from the impact of a blunt object and, overall, caused a short-term health disorder. They are classified as causing minor harm to health.

Volume 327, case file pages 1–253.

According to forensic medical expert opinion No. 66 dated 24 April 2021, during a medical examination of the body of **Shukurov Alyavsat Mursal oğlu**, the following injuries were identified: superficial contused wounds on the dorsal surfaces of the second, third, fourth and fifth fingers of the left hand. These injuries resulted from the impact of fragments during the explosion of a firearm. Since they did not cause harm to health, their degree of severity is not determined.

Volume 327, case file pages 1–253.

According to forensic medical expert opinion No. 395 dated 13 July 2021, **Guliyev Arif Sabir oğlu** was found to have the following injuries:

Page 307

traumatic amputation of the lower third of the left lower leg and hyperemia of the upper third of the left lower leg. These injuries resulted from the effects of explosive firearm weaponry. They led to a permanent loss of more than one-third (50%) of total working capacity and are classified as causing grievous bodily harm.

Volume 327, case file pages 1–253.

According to forensic medical expert opinion No. 208 dated 06 October 2021, during a medical examination of **Agayev Zafar Yunus oğlu**, the following injuries were identified: abrasions on the right half of the face, the anterior surface of the chest, as well as the anterior surfaces of the middle and lower thirds of both thighs. These injuries could have been caused by the impact of fragments in a blast injury resulting from a firearm. Since they did not cause harm to health, their degree of severity is not determined.

Volume 327, case file pages 1–253.

On the basis of the scene inspection protocol dated 16 March 2023, it was established that residents of the settlement of **Safarli, Aghdam District** — **Hasanov Amid Huseyn oğlu**, born on 05 April 1987, and **Hasanov Israil Ibrahim oğlu**, born on 01 July 1999 — went at approximately 19:00 on 15 March 2023 to the territory of the village of **Yusifjanly, Aghdam District**, liberated from occupation, in order to search for lost animals. While moving through the area, they stepped on a mine, as a result of which both died at the scene.

It was established that the scene was an area where vineyards had been planted before the occupation in the territory of the village of Yusifjanly, located on the opposite bank of the **Gargar River** from the village of **Afatli**, which had been situated on the former line of contact with Armenian armed formations, and that a large number of iron posts had been

vertically embedded in the ground in that area. A crater had formed at the scene as a result of the mine explosion.

Volume 72, case file pages 5–16, 19–25, 28–31.

According to forensic medical expert opinion No. 04 dated 16 March 2023, the injuries identified on the body of **Hasanov Israil Ibrahim oglu** — blast injury, damage to the popliteal and femoral arteries and veins accompanied by acute blood loss — were caused by the impact of a fragment or fragments during the explosion and, in terms of severity, constitute grievous bodily harm dangerous to the life of a living person. The cause of his death was acute blood loss caused by damage to the popliteal and femoral arteries and veins as a result of a fragment wound to the body.

Volume 72, case file pages 68–72.

According to forensic medical expert opinion No. 05 dated 16 March 2023, the injuries identified on the body of **Hasanov Amid Huseyn oglu** — blast injury, an open fracture of the bones of the right lower leg and damage to the artery of the left thigh accompanied by acute blood loss — were caused by the impact of a fragment or fragments in blast trauma. In terms of severity, they constitute grievous bodily harm dangerous to the life of a living person. The cause of his death was acute blood loss caused by damage to the artery of the left thigh.

Volume 72, case file pages 74–78.

Hasanov Ibrahim Alinaghi oglu, the father of Hasanov Israil Ibrahim oglu, recognized and questioned as the legal successor of the victim in the case, testified that on the evening of 15 March 2023, when he returned home, he did not find his son Israil there. That night, Israil did not return home. Since he thought that his son was somewhere within the settlement, he was not concerned about it. That same night, his nephew **Amid Hasanov** also did not return home. The following day, he reported the matter to the police. On 16 March 2023, following the police investigation, it became known that Israil Hasanov and Amid Hasanov had both died in a mine explosion in the territory of the village of Yusifjanly, Aghdam District.

Volume 72, case file pages 53–55.

Page 308

Hasanov Huseyn Magomed oglu, the father of Hasanov Amid Huseyn oglu, recognized and questioned as the legal successor of the victim in the case, testified that on the evening of 15 March 2023, his son Amid did not return home. Their relative **Israil Hasanov** likewise did not return home that night. As a result, he became concerned and reported the matter to the police the following day, i.e. on 16 March 2023. On 16 March 2023, he learned that Israil and Amid had gone together to the village of Yusifjanly, Aghdam District, liberated from occupation, and had died there as a result of a mine explosion.

Volume 72, case file pages 64–66.

According to opinion Nos. **3/644 and 3/662 dated 15 May 2023** of the Forensic Examination Center of the Ministry of Justice, the object seized from the scene and conditionally

designated by the number “1”, based on its shape, manufacturing features, traces present on it and other characteristics, is a part of a factory-manufactured **PMN high-explosive anti-personnel mine**, separated as a result of an explosion, and constitutes a striker together with the mainspring.

A PMN high-explosive anti-personnel mine has a total weight of 550 grams, while the mass of the explosive substance contained in it (TNT) is 200 grams. The PMN is equipped with a fuse containing a detonator. A load weighing 8–25 kilograms is sufficient to activate it. As soon as the specified load is applied to the mine, the pin comes into contact with the igniter and an explosion occurs instantaneously. When a PMN mine explodes, as a result of pressure and high temperature, it breaks into pieces and forms a crater approximately 30 cm deep on the surface of the ground. Likewise, parts of the body of a person subjected to the explosion of a PMN mine, as well as elements of clothing, are torn into small pieces and scattered away from the epicenter.

The objects conditionally designated by the numbers “2” and “3”, based on their shape, manufacturing features, traces present on them and other characteristics, are parts of a factory-manufactured explosive device that separated as a result of an explosion. However, since the casings of the objects are destroyed and are in a fragmented condition, and since there are no markings indicating factory manufacture, it is impossible to determine exactly which parts of which explosive device they belong to.

The clothing belonging to **Hasanov Amid Huseyn oglu** and **Hasanov Israil Ibrahim oglu** contains the number and dimensions of the damage described in the expert opinion. Based on the traces of the explosive substance (TNT) detected on the clothing, the additional effects of gunpowder, and the shape, dimensions and morphological structure of the damage, the said damage is characteristic of the effects of an explosion of explosive devices at close range from the center of the explosion, caused by the blast wave and fragments.

Since the items of clothing submitted for examination do not contain exit damage, it is impossible to determine the direction of the explosion.

Volume 72, case file pages 196–202.

On the basis of the scene inspection protocol dated 08 October 2022, it was established that employees of **Körpü-Bina-Tikinti LLC**, who were carrying out construction of a motor road in the territories of **Aghdam District** liberated from occupation—

Page 309

namely **Aliyev Ramin Amir oglu**, a resident of the village of **Seyfali, Shamkir District**, born on 24 June 1989; **Najafov Parviz Sozaly oglu**, a resident of the settlement of **Garayazi, Aghstafa District**, born on 27 September 1986; and **Abdulkhalikov Sahavat Aladdin oglu**, a resident of the village of **Uludash, Gabala District**, born on 03 January 1985, sustained bodily injuries at approximately 17:00 on 08 October 2022 as a result of the explosion of two mines among the mines deliberately planted in advance by Armenian armed formations in the said territories during the period of occupation. The scene of the incident was the 6th kilometre of the new **Aghdam–Fuzuli road** under construction, passing through the territory of the village of **Yusifjanly**, on a dirt section located 380 metres from the left side of the road.

Volume 104, case file pages 48–63.

According to forensic medical expert opinion No. 728 dated 02 November 2022, **Najafov Parviz Sozaly oglu** was found to have the following injuries: multiple open fragment wounds of both lower legs; open comminuted fractures of the lower third of the right tibia with displacement; a penetrating wound of the right orbit; and loss of vision in the right eye. These injuries resulted from the impact of a blunt object and could have been caused by a mine explosion. They are classified as causing serious harm to health and posing a danger to life.

Volume 104, case file page 160.

According to forensic medical expert opinion No. 1335 dated 03 November 2022, **Aliyev Ramin Amir oglu** was found to have the following injuries: traumatic amputation of the phalanges and metatarsal bones of the 3rd, 4th and 5th toes of the left foot; a multi-fragment fracture of the bones of the left foot; crushed and lacerated wounds of the soft tissues; and multiple fragment wounds to the posterior surface of the left shoulder, thigh and lower leg. These injuries resulted from the impact of a blast wave and fragments during the explosion of a military munition possessing an explosive effect. In terms of severity, these injuries are classified as causing serious harm to health and posing a danger to life.

Volume 104, case file pages 161–166.

According to forensic medical expert opinion No. 650 dated 10 November 2022, **Abdulkhalikov Sahavat Aladdin oglu** was found to have the following injuries: an intra-articular fracture of the upper part of the proximal phalanx of the fifth finger of the right hand; metallic foreign bodies (fragments) in the soft tissues of the right hand and right lower leg; and injuries caused by multiple metallic fragments affecting the right hand, right thigh, right foot, right lower leg, abdomen and chest. These injuries correspond to the impact of metallic fragments scattered following the explosion of an explosive device. In terms of severity, these injuries are classified as causing moderate harm to health, with long-term consequences.

Volume 327, case file pages 1–253.

Aliyev Ramin Amir oglu, recognized and questioned as a victim, testified that on 08 October 2022 he was at his workplace in the village of **Yusifjanly, Aghdam District**, in connection with the construction of the Aghdam–Fuzuli motor road. At approximately 17:00, his colleague **Parviz Najafov**, in order to relieve himself, took water with him, as he was a believer, and began walking towards old structures located at a distance from the road, which had been destroyed by Armenians during the period of occupation. A few minutes later, he heard the sound of an explosion. Immediately, together with his co-worker **Sahavat Abdulkhalikov**, he went towards Parviz in order to assist him. They saw that he had stepped on a mine and, having been injured as a result of the—

Page 310

—explosion, was sitting near an old and ruined structure. They wanted to help him, but after taking several steps, they themselves stepped on a mine and sustained bodily injuries as a result of the ensuing explosion. Since **Sahavat Abdulkhalikov** sustained less serious injuries

during the incident, he went to call for help. He does not remember what happened afterwards.

Volume 104, case file pages 153–154, 218–222.

Najafov Parviz Sozaly oglu, recognized and questioned as a victim, testified that he worked as an employee of **Körpü-Bina-Tikinti LLC** on the construction of the Aghdam–Fuzuli motor road in Aghdam District. On 08 October 2022, he was at his workplace on the 6th kilometre of that road, namely in the village of **Yusifjanly**, which had been liberated from occupation. At approximately 17:00, in order to relieve himself and, being a believer, having taken water with him, he walked approximately 200 metres away from the construction site in the direction of ruined buildings. At that location, he stepped on a mine planted by Armenians during the period of occupation. As a result of the explosion, he was wounded and fell to the side, remaining there lying on the ground. Later, after hearing the noise, his colleagues **Ramin Aliyev** and **Sahavat Abdulkhalikov** came to assist him. When they attempted to help him get out, another mine exploded, as a result of which they were thrown in different directions. He then lost consciousness and, upon regaining consciousness, found himself in hospital.

Volume 104, case file pages 150–151, 229–232.

Abdulkhalikov Sahavat Aladdin oglu, recognized and questioned as a victim, confirmed in his testimony the circumstances described by Aliyev Ramin Amir oglu and Najafov Parviz Sozaly oglu and stated that on 08 October 2022, all three of them sustained injuries as a result of a mine explosion.

Volume 104, case file pages 77–79, 240–243.

In addition, on the basis of the scene inspection protocol dated 18 March 2023, it was established that **Yusibov Elmira Islam oglu**, a resident of the village of **Afatli, Aghdam District**, born on 31 August 1976, at approximately 13:00 on 18 March 2023, while carrying out land-clearing work with a **Volvo** tractor bearing state registration number **02 BA 147** in the territories liberated from occupation between the village of Afatli and the village of Yusifjanly, also liberated from occupation, stepped on one of the mines deliberately planted in the said territory by Armenian military personnel during the period of occupation. As a result of the explosion, he sustained bodily injuries, and the machinery he was operating became unusable.

Volume 72, case file pages 90–94.

According to forensic medical expert opinion No. 81 dated 12 April 2023, **Yusibov Elmira Islam oglu** was found to have an injury in the form of scar tissue (a trace of a chop-contused wound) in the occipital region, which resulted from the impact of a blunt object. In terms of severity, it is classified as minor harm to health causing a short-term health disorder.

Volume 72, case file pages 204–205.

Yusibov Elmira Islam oglu, recognized and questioned as a victim, testified that on 18 March 2023, while using a **Volvo** tractor to carry out clearing work on a plot of land located between the village of **Afatli** and the village of **Yusifjanly**, he stepped on a mine and sustained

injuries as a result of the ensuing explosion. Although the site of the mine explosion was located within the territory of the village of Afatli, they had not travelled to the said location for many years because the neighbouring village of Yusifjanly had for many years been—

Page 311

—under occupation by Armenian military forces. Since he was inside the tractor at the time of the explosion, he did not sustain serious injuries.

Volume 72, case file pages 215–218.

In addition, it was established that at approximately 12:00 on 05 December 2023, as a result of the explosion of one of the numerous mines deliberately planted in the territory of the village of **Sarijali, Aghdam District**, by members of the criminal association during the period when Armenian armed formations held the Karabakh region of the Republic of Azerbaijan under occupation, **Akperov Vagif Sabir oğlu**, born on 05 May 1992, a sapper of the 3rd detachment of the 2nd group of the 2nd team of the Mine Action Agency of the Republic of Azerbaijan, sustained an injury to the ankle area of his right leg.

Volume 1, case file page:

It was established that the said mine was a **PMN 001 anti-personnel mine** and had been manufactured in Armenia.

Volume 1, case file page:

According to forensic medical expert opinion No. 63 dated 29 February 2024, **Akperov Vagif Sabir oğlu** was found to have injuries in the form of an amputation stump on the right lower extremity, which resulted from the impact of fragments in blast trauma. In terms of severity, these injuries are classified as grievous bodily harm associated with a permanent loss of no less than one-third of total working capacity.

Volume 327, case file page 253.

According to forensic medical expert opinion No. 67 dated 04 March 2024, **Makhmudov Zaur Eldar oğlu** was found to have the following injuries: an open displaced comminuted fracture of the bones of the left metatarsus (arch of the foot), swelling of the lower third of the left lower leg, infected fragment wounds of the lower third of the lower leg, heel, ankle and sole of the left foot, as well as mild bilateral sensorineural hearing loss. These injuries resulted from the impact of fragments in blast trauma and are classified as moderate harm to health causing a prolonged health disorder.

Volume 327, case file page 253.

According to forensic medical expert opinion No. 92 dated 16 March 2024, **Abbasov Bakhtiyar Yagub oğlu** was found to have the following injuries: traumatic amputation of the right thigh at the level of the middle third and of the left lower leg at the level of the middle third. These injuries resulted from the impact of fragments during the explosion of a projectile from a firearm. In terms of severity, they are classified as grievous bodily harm associated with a permanent loss of more than one-third of total working capacity.

Volume 327, case file page 253.

According to forensic medical expert opinion No. 111 dated 08 April 2024, **Piriyev Anar Murshud oğlu** was found to have the following injuries: a contused wound on the palmar surface of the proximal phalanx of the first finger of the right hand; multiple abrasions on the palmar surface of the proximal phalanx of the first finger of the right hand and on the palmar surface of the second phalanx of the second finger of the right hand; as well as on the anterior and outer surfaces of the upper and middle thirds of the right lower leg and in the area of the right knee joint. These injuries resulted from the explosion of a projectile from a firearm and, since they did not cause harm to health, their degree of severity is not determined.

Volume 327, case file page 253.

Page 312

According to forensic medical expert opinion No. 278 dated 08 February 2024, **Abyshov Faig Sayyab oğlu** was found to have the following injuries: open comminuted fractures of the left lower leg, traumatic amputation of the first and second toes of the left foot, fragment wounds in the area of the left humerus, both lower legs, the right thigh and the abdomen. These injuries resulted from the impact of fragments during the explosion of an explosive substance. In terms of severity, they are classified as grievous bodily harm posing a danger to life.

Volume 327, case file page 253.

According to forensic medical expert opinion No. 106 dated 04 April 2024, during the medical examination of **Aliyev Khayyam Ganbar oğlu**, no objective signs of any injuries were found on the surface of his body.

Volume 327, case file page 253.

On the basis of the scene inspection protocol dated 19 February 2021, with the use of photography and video recording, it was established that the victim, **Makhmudov Bakhtiyar Makhmud oğlu**, had travelled to the territory where the mine explosion occurred in a **Niva** vehicle bearing state registration number **01 BC 845**. The scene is located in the village of **Taly, Tartar District**, at a distance of 60 metres from a dirt road. As a result of the explosion, the vehicle became unfit for use.

Volume 130, case file pages 2–8.

According to forensic genetic examination opinion No. 21/216R dated 18 March 2021 of the Criminalistic Investigations Department of the Ministry of Internal Affairs, the blood samples taken from the body belong to the biological son of **Bakhshaliyeva Asli Mammadveli gyzy**.

Volume 130, case file pages 118–120.

Thus, the genetic examination once again confirmed that the body found at the scene on 19 February 2021 belonged to **Makhmudov Bakhtiyar Makhmud oğlu**.

Volume 130, case file pages 14–18.

According to forensic medical expert opinion No. 04 dated 19 February 2021, the following injuries were identified on the body of **Makhmudov Bakhtiyar Makhmud oğlu**: blast injury, remaining preserved tissues of the head, face and neck, destruction of the organs of the chest and abdominal cavity, traumatic amputation of the upper and lower extremities, numerous comminuted fractures and multiple fragment wounds of the body. These injuries were sustained during life and occurred shortly before death as a result of the impact of fragments during the explosion of a projectile from a firearm. In terms of severity, they are classified as grievous bodily harm resulting in death. The cause of death was injuries incompatible with life caused by the destruction of the organs of the head, chest and abdominal cavity.

Volume 130, case file pages 128–130.

Abbasova Aygun Afaddin gyzy, the wife of the victim Makhmudov Bakhtiyar Makhmud oğlu, recognized and questioned as his legal successor, testified that on 18 February 2021, Bakhtiyar Makhmudov, together with her brother **Elshan Abbasov**, went to the village of **Taly, Tartar District**, and at approximately 18:00 that day stepped on—

Page 313

—a mine and died as a result of the mine explosion; the vehicle also became unusable. Bakhtiyar had not told her in advance that he was going to the village of **Talysh**.

Volume 130, case file pages 69–71.

Abbasov Elshan Afaddin oğlu, a resident of the village of **Hajigarvand, Tartar District**, questioned as a witness, testified that he was Bakhtiyar Makhmudov's brother-in-law. At approximately 15:00 on 18 February 2021, Bakhtiyar Makhmudov called his mobile telephone and suggested that they go together to see the village of Talysh, which had been liberated from occupation. He did not object. That same day, Bakhtiyar Makhmudov drove to his residence, picked him up, and they travelled together to the said territory.

After travelling for some distance along the asphalt road toward the village of **Chayli, Tartar District**, Bakhtiyar turned onto a dirt road running above a water canal on the right-hand side and headed toward the village of Talysh. After travelling approximately 10 km, he stopped the vehicle and instructed him to wait there. He got out of the vehicle and waited for Bakhtiyar at that location. Bakhtiyar Makhmudov drove approximately 50–60 metres further, stopped the vehicle, got out, and walked approximately 100 metres in order to collect pieces of iron lying there. Some time later, he returned.

Since it had not yet become dark when Bakhtiyar was returning, he was able to observe him. As Bakhtiyar was returning to the vehicle, an explosion occurred and everything in the surrounding area became obscured. After some time, he called Bakhtiyar several times, but Bakhtiyar did not respond, and he then realized that Bakhtiyar had stepped on a mine and had been caught in the explosion. Fearing mines, he did not move in that direction and instead called Bakhtiyar's brother, **Ismail**, and informed him of what had happened.

Approximately one hour later, Ismail arrived at the scene together with police officers. Employees of the Mine Action Agency of the Republic of Azerbaijan subsequently arrived as well, but since it was already evening and the area was mined, they were unable that day to

enter the area and retrieve Bakhtiyar's body. The following day, after the area had been cleared of mines, Bakhtiyar's body was recovered.

Volume 130, case file pages 23–27.

Abbasov Veysal Ravan oglu, an employee of the Mine Action Agency of the Republic of Azerbaijan questioned as a witness, testified that he had participated in the investigative action involving the inspection of the scene in the territory of the village of Talysh, Tartar District, where Bakhtiyar Makhmudov had died as a result of a mine explosion. During the period of occupation, anti-tank and anti-personnel mines had been buried in that territory by Armenians.

Volume 130, case file pages 28–30.

Mirzoev Babek Vekil oglu, questioned as a witness, gave testimony similar to that of Abbasov Veysal Ravan oglu and confirmed the circumstances described by him.

Volume 130, case file pages 31–33.

In addition, on the basis of the scene inspection protocols dated 28 and 29 April 2023, it was established that at approximately 19:00 on 28 April 2023, as a result of the explosion of one of the anti-tank mines deliberately buried by the Armenian armed forces in the territory of the village of **Talysh, Tartar District**, liberated from occupation, employees of **PB Group of Companies LLC**, which carried out photography and video recording of territories liberated from occupation using drones for the purpose of demining operations, were killed while travelling in a **Mitsubishi** vehicle bearing state registration number **90-UH-894**. They were: **Yusifov Nadir Panah oglu**, born on 24 September 1982, a resident of the village of **Ahmadalilar, Fuzuli District**; **Gozalov Sahavat Ismail oglu**, born on 27 September 1981, a resident of the village of **Ahmadalilar, Fuzuli District**—

Page 314

—and **Sadiyev Farid Mehman oglu**, born on 06 June 1996, a resident of the city of **Sumgait**. The vehicle in which they had been travelling was destroyed.

Volume 75, case file pages 5–9, 17–36, 37–40.

Amrakhly Elgun Gakhraman oglu, questioned as a witness, testified that Nadir, Sahavat and Farid were his colleagues. They worked as part of two groups monitoring the liberated territories in the Tartar and Aghdam districts and photographing those territories. On **28 February 2023**, together with colleagues named Maarif and Vusal, they travelled from Aghdam District to Tartar District. While travelling to the house they were filming, they called the telephone numbers used by Sahavat, Nadir and Farid, but the calls did not go through. They then became concerned, thinking that the others might have been stranded on the road because their vehicle had broken down, and travelled together with other colleagues to the village of Talysh, Tartar District. While moving through the village in a vehicle belonging to the company, they saw that the vehicle had burned out and that the charred bodies of their colleagues were lying around it.

Volume 75, case file pages 63–66.

Aliyev Vusal Rovshan oglu, questioned as a witness, gave testimony similar to that of Amrakhly Elgun Gakhraman oglu and fully confirmed the circumstances described by him.

Volume 75, case file pages 67–70.

Since the bodies of the victims who died as a result of the mine explosion were charred and unrecognizable, biological samples were taken from their blood relatives for the purpose of conducting a genetic examination.

Volume 75, case file pages 42–47, 79–81, 88–90, 99–100, 224–226, 232–234, 242–243.

According to opinion No. **23/509R dated 07 July 2023** of the Criminalistic Investigations Department of the Ministry of Internal Affairs, the male body conditionally designated as “**No. 1**” is the body of the biological brother of **Gozalov Rovshan Ismail oglu**; the male body conditionally designated as “**No. 2**” is the body of the biological child of **Yusifov Panah Aghaverdi oglu**; and the male body conditionally designated as “**No. 3**” is the body of the biological child of **Sadiyev Mehman Aladdin oglu**.

Volume 78, case file pages 9–13.

According to forensic medical expert opinion No. 10 dated 29 April 2023, the body of **Gozalov Sahavat Ismail oglu** was charred as a result of burning. These injuries were caused by exposure to fire following the mine explosion. The cause of death was carbon monoxide poisoning. Since the body had been burned and charred, it was impossible to determine the exact time of death. It is not inconsistent with the conclusion that death occurred on the date specified in the decision, i.e. **28 April 2023**.

Volume 75, case file pages 244–246.

According to forensic medical expert opinion No. 11 dated 29 April 2023, the body of **Yusifov Nadir Panah oglu** was charred as a result of burning. These injuries were caused by exposure to fire following the mine explosion. The cause of death was carbon monoxide poisoning. Since the body had been burned and charred, it was impossible to determine the exact time of death. It is not inconsistent with the conclusion that death occurred on the date specified in the decision, i.e. **28 April 2023**.

Volume 75, case file pages 247–249.

According to forensic medical expert opinion No. 12 dated 29 April 2023, the body of **Sadiyev Farid Mehman oglu** was charred as a result of burning. These—

Page 315

—injuries were caused by exposure to fire following the mine explosion. The cause of death was carbon monoxide poisoning. Since the body had burned and become charred, it was impossible to determine the exact time of death. It is not inconsistent with the conclusion that death occurred on the date specified in the decision, i.e. **28 April 2023**.

Volume 75, case file pages 250–253.

Gozalov Rovshan Ismail oglu, the brother of the victim Gozalov Sahavat Ismail oglu and his legal successor, testified that Sahavat Gozalov worked as an operator for a company engaged in surveying the liberated territories for the purpose of mine-clearance operations, and that his work consisted of taking photographs and video footage of those territories using unmanned aerial vehicles. Their neighbour, **Nadir Yusifov**, also worked for that company.

On the evening of 28 April 2023, he was at home. At that time, Sahavat's co-workers called his mobile telephone and asked why their calls to Sahavat were not going through and where he might be. He told them that Sahavat was at work. At approximately 19:00 that day, one of Sahavat's colleagues called him again and said that Sahavat, together with two other employees, had struck a mine. Based on the information he received, he went to the **Tartar Central District Hospital**, where he learned that his brother Sahavat, their neighbour Nadir Yusifov, and another person had died as a result of a mine explosion while they were in the village of **Talysh**.

Volume 75, case file pages 84–87, 190–193, 228–231.

Yusifov Panah Aghaverdi oglu, the father of the victim Yusifov Nadir Panah oglu and his legal successor, testified that on the evening of 28 April 2023, one of the colleagues of his son Nadir called his mobile telephone and told him that Nadir, together with two employees, had died as a result of a mine explosion in the territory of the village of **Talysh, Tartar District**, liberated from occupation. His son had been engaged in surveying the liberated territories by means of photography and video recording.

Volume 75, case file pages 74–77, 202–205, 219–222.

Sadiyeva Sevil Salekh gyzy, the mother of the victim Sadiyev Farid Mehman oglu and his legal successor, testified that her son Farid Sadiyev had worked since 2022 for a company cooperating with the Mine Action Agency of the Republic of Azerbaijan and that, most recently, he had carried out work in the village of **Talysh, Tartar District**, liberated from occupation, where he operated a drone. She learned that her son had died as a result of a mine explosion from reports circulated on social media.

Volume 78, case file pages 53–56.

According to forensic medical expert opinion No. 26 dated 06 January 2023, the following injuries were identified on the body of **Gadiyev Yaguar Aligeydar oglu**: fragment wounds to the left shoulder region, abdomen and left forearm region, penetrating into the thoracic cavity, with damage to the heart and lungs, accompanied by acute blood loss. These injuries resulted from the impact of fragments in blast trauma. The cause of death was acute blood loss caused by damage to the heart and lungs.

Volume 327, case file pages 1–253.

Namazaliyev Javid Gurban oglu, a sapper of the Mine Action Agency of the Republic of Azerbaijan, questioned as a witness, testified that on 13 January 2021 he cleared the area around a bridge over a water canal in the territory of the village of **Talysh, Tartar District**, of mines and, after discovering seven anti-tank mines, they neutralized them. Thereafter, the pits formed at the places where the mines had been found were filled in using a tractor

(bulldozer) bearing state registration number **10 A 867**, driven by **Ojagverdiyev Aliyar Hidayat oğlu**, a tractor driver employed by **54th Road Maintenance LLC**. At that time—

Page 316

—an explosion occurred beneath the front left part of the tractor, and he realized that it had struck an anti-tank mine. As a result, the front left part of the tractor was damaged and the driver, **Aliyar Ojagverdiyev**, sustained bodily injuries. The reason the said mine had not been detected during the demining operations was that it had been buried deeply, and a mine detector cannot detect mines buried at a depth of more than 20–25 cm.

Volume 130, case file pages 102–104.

The sappers of the Mine Action Agency of the Republic of Azerbaijan questioned as witnesses — **Abbasov Emin Hasan oğlu**, **Shahlarov Shirkhan Polad oğlu**, **Allahverdiyev Sadyg Nushirevan oğlu**, **Ashrafzade Vezir Vekil oğlu**, as well as the head of the sapper group **Ismailov Mehraj Ismail oğlu**, and **Shahmammadov Rasim Feyruz oğlu**, the detachment commander within the sapper group — gave testimony similar to that of **Namazaliyev Javid Gurban oğlu**.

Volume 130, case file pages 93–95, 96–98, 99–101, 105–107.

Volume 136, case file pages 39–42.

According to forensic medical expert opinion No. 56 dated 01 March 2021, the injuries identified during the forensic medical examination of **Ojagverdiyev Aliyar Hidayat oğlu** — an abrasion on the anterior surface of the right lower leg and an abrasion on the bridge of the nose — could have resulted from the impact of the blast wave when an anti-tank mine exploded. The time at which the injuries occurred corresponds to **13 January 2021**. Since these injuries did not cause harm to health, their degree of severity is not determined.

Volume 327, case file pages 1–253.

According to forensic medical expert opinion No. 29 dated 01 February 2021, the forensic medical examination of **Alekperov Elgun Mahmud oğlu** revealed the following injuries: multiple fragment wounds to the forehead, face, nose, abdomen, chest and upper extremities; foreign bodies in the deep layers of the corneas of both eyes; as well as a non-penetrating wound of the cornea of the left eye. These injuries were caused by the impact of fragments during the explosion of a projectile from a firearm. The time at which the injuries occurred corresponds to **28 January 2021**, as stated in the decision. In terms of severity, they are classified as injuries causing a prolonged health disorder and moderate harm to health.

Volume 327, case file pages 1–253.

In addition, on the basis of the inspection protocol dated 09 April 2022, it was established that on 09 April 2022, at approximately 12:00, **Hasanov Elnur Tofiq oğlu**, born on 27 January 1976, a resident of the village of **Khoylu, Goranboy District**, while grazing small livestock in the area of the village of **Hasangaya, Tartar District**, in territory adjacent to the village of **Sugovushan**, liberated from occupation, stepped on one of the mines deliberately planted by Armenian armed formations during the period of occupation. As a result of the explosion, he sustained injuries to his legs.

Volume 174, case file pages 76–80.

Hasanov Elnur Tofig oğlu, recognized and questioned as a victim, testified that, in order to graze the small livestock kept in his private household, on 08 April 2022 he transported them by truck to the village of **Sahlabad, Tartar District**, and at approximately 06:00 on 09 April 2022 took his small livestock to the village of **Hasangaya, Tartar District**. At approximately 12:00 that day, while grazing his small—

Page 317

—livestock in the direction of the village of **Sugovushan**, which had been liberated from occupation, the livestock accidentally entered an area where mines had been buried, and as a result of an explosion he sustained injuries to his legs. He then removed the belt from his trousers, tied up the injured area of his legs and, with difficulty, crawled away from the area. After hearing the explosion, residents of the village came to the scene and, with the assistance of the police, placed him in a vehicle and took him to hospital. As a result of the explosion, he lost both legs at the knee level.

Volume 174, case file pages 137–140.

Novruzov Ayburan Maharram oğlu, a police sergeant of the Tartar District Police Department who was questioned as a witness, testified that, because numerous mines had been buried by Armenians in the villages of **Sugovushan** and **Talysh, Tartar District**, during the period of occupation, police posts were established after their liberation by the district police department in order to restrict residents from entering and leaving those villages. He served at a post established in the village of **Hasangaya**.

At approximately 12:00 on 09 April 2022, he arrived at the post to which he had been assigned for duty and inspected the surrounding area. When he looked towards the wasteland, he saw that residents were driving livestock in the direction of the territory liberated from occupation. In order to remove them from the area, he moved in that direction and heard the sound of an explosion. He then saw residents walking toward the sound of the explosion and went there as well. He learned that **Elnur Hasanov** had stepped on a mine buried near an old pipeline in the direction of the village of Sugovushan and had sustained injuries as a result of the explosion. With the assistance of village residents, he then removed Elnur from the area, placed him in a vehicle and arranged for him to be taken to hospital.

Volume 174, case file pages 91–93, 142–144.

According to forensic medical expert opinion No. 112 dated 10 May 2022, during the medical examination of **Hasanov Elnur Tofig oğlu**, the following injuries were identified: blast injury, traumatic amputation of both lower extremities below the knees, and scar tissue on the anterolateral surface of the upper third of the left forearm and on the palmar surface of the left hand. These injuries could have been caused by the impact of a fragment or fragments during the explosion of a munition (mine). The time of their occurrence corresponds to 09 April 2022, and in terms of severity they fall within the category of grievous bodily harm resulting in a prolonged health disorder.

Volume 174, case file pages 112–115.

In addition, on the basis of the scene inspection protocol dated 01 October 2022, it was established that residents of the village of **Sakhlabād, Tartar District — Jafarov Nijat Novruz oğlu**, born on 19 April 1990, and **Bayramov Rafail Kochari oğlu**, born on 11 September 1976 — sustained injuries at approximately 12:00 on 01 October 2022 as a result of the explosion of mines deliberately planted by Armenian military formations during the period of occupation. The incident occurred in the territory of the village of **Giziloba, Tartar District**, in the direction of the former **Aghdara District**, near military posts liberated from the enemy. During the inspection of the scene, it was established that the area was completely mined. Two depressions in the ground formed as a result of the detonation of two mines were found at the sites of the explosions. A trench is located around the scene.

Volume 197, case file pages 98–103.

Bayramov Rafail Kochari oğlu, questioned as a victim, testified that he owned a **VAZ-2107** vehicle bearing state registration number **56 BX 217**. He was officially unemployed and was engaged in taxi driving within the territory of the village. At approximately 11:00 on 01 October 2022, he went to the area where vehicles were parked in the centre of the village of **Sakhlabād** and happened to meet his—

Page 318

—cousin, **Nijat Jabbarov**. Nijat then showed him a military serviceman and said that the serviceman wanted to travel along a rural road through the village of **Giziloba** toward **Aghdara** to some military post and that he could pay 25 manats for the trip.

The unidentified serviceman then approached him, said that he was in a hurry, and asked him to drive him there for 25 manats. He agreed, seated the serviceman in the vehicle and, together with Nijat Jabbarov, took him to the field. On the way back, Nijat Jabbarov asked him to stop the vehicle by the roadside so that he could relieve himself and asked him to wait.

Nijat got out of the vehicle and walked toward the field. After 1–2 minutes, an explosion occurred. He immediately got out of the vehicle and headed toward the place from which the sound had come, where he saw Nijat lying wounded on the ground. It turned out that he had stepped on a mine. He tried to pull Nijat out by grabbing him by the belt of his trousers and pulling him toward himself, but at that moment a second explosion occurred. He himself stepped on a mine and sustained a leg injury.

Thus, Nijat was injured in the first explosion, while he himself was injured in the second. Despite their serious injuries, they did not lose their composure and, crawling toward the vehicle, managed to reach it. He then got behind the wheel and drove in the direction of the village of **Sakhlabād**. On the way, he stopped the vehicle near a person he encountered and asked him to take the wheel. He then lost consciousness and, when he regained consciousness, found himself in hospital.

Volume 39, case file pages 7–11.

Volume 104, case file pages 20–24.

Jabbarov Nijat Novruz oğlu, recognized and questioned as a victim, gave testimony similar to that of **Bayramov Rafail Kochari oğlu**. He stated that after he and **Rafail Bayramov** had

driven an unidentified serviceman in a vehicle in an unknown direction and were returning, he asked Rafail to stop the vehicle so that he could relieve himself. Rafail was waiting for him in the vehicle, while he went toward the wasteland in order to relieve himself and, near a trench, stepped on a mine, as a result of which his legs were injured in the ensuing explosion.

Rafail Bayramov came toward the sound and told him not to move. Rafail then pulled him toward himself by the belt of his trousers and attempted to remove him from that area. At that time, Rafail himself stepped on a mine, and a second explosion occurred, during which Rafail sustained injuries. After seeing that they were losing blood, they were forced to crawl toward the vehicle and, with difficulty, got into it. Rafail Bayramov drove the vehicle in the direction of the village of Sakhlabād. After driving for a short distance, they encountered a person and asked that person to drive the vehicle. Because of the blood loss, he was not fully conscious and subsequently lost consciousness. When he regained consciousness, he was in hospital.

Volume 104, case file pages 33–37.

According to forensic medical expert opinion No. 338 dated 20 October 2022, **Jabbarov Nijat Novruz oglu** was found to have the following injuries: multiple fragment wounds to both lower extremities and traumatic amputation of the left lower leg. These injuries resulted from the explosion of a munition and the impact of fragments. In terms of severity, these injuries resulted in a permanent loss of more than one-third of total working capacity and are classified as grievous bodily harm.

Volume 104, case file pages 6–8.

According to forensic medical expert opinion No. 339 dated 20 October 2022, **Bayramov Rafail Kochari oglu** was found to have the following injuries: multiple fragment wounds to both lower extremities and traumatic amputation of the middle third of the left thigh. These injuries resulted from—

Page 319

—result of the explosion of a munition and the impact of fragments. In terms of severity, these injuries resulted in a permanent loss of more than one-third of total working capacity and are classified as grievous bodily harm.

Volume 104, case file pages 9–11.

In addition, on the basis of the scene inspection protocol dated 23 October 2022, it was established that **Alizade Samir Buruz oglu**, a resident of the village of **Seyidli, Tartar District**, born on 21 December 1996, sustained injuries to his legs at approximately 17:00 on 23 October 2022 as a result of a mine explosion. The incident occurred while he was collecting scrap metal in the liberated territory of the village of **Chayli, Tartar District**. The mine had been deliberately planted in advance by Armenian armed formations during the period of occupation. The scene is located 300 metres from the line of former trenches created by Armenian armed formations along the former line of contact in the village of Chayli. This territory was surrounded by barbed wire and consisted of mined strips.

Volume 197, case file pages 144–151.

Alizade Samir Buruz oğlu, recognized and questioned as a victim, testified that on 23 October 2022 he went to the territory of the village of Chayli, Tartar District, liberated from occupation. The purpose of the trip was to collect discarded scrap metal. At approximately 16:00 that day, he went alone to the said territory. While walking through the liberated area along the former line of contact, he accidentally stepped on an anti-personnel mine and sustained injuries as a result of the explosion. The explosion injured his legs and eyes.

For that reason, using his mobile telephone, he called his brother **Ali Alizade** and told him that he had been injured in an area known as “**Torpag Tepe.**” Some time later, he heard his friend **Mais Mammadov** calling him and, raising his hand, signalled to him. Mais then came over, lifted him onto his shoulder and carried him out of the said territory. After Mais Mammadov carried him out of the scene, his brother Ali Alizade arrived there. He was then taken to hospital in an ambulance.

Volume 104, case file pages 185–189.

Mammadov Mais Akif oğlu, a resident of the village of Seyidimli, Tartar District, questioned as a witness, testified that at approximately 17:00 on 23 October 2022, while he was in the village, his fellow villager **Ali Alizade** called him and told him that his brother **Samir Alizade**, who was a friend of his, had sustained injuries as a result of a mine explosion in an area known as “**Torpag Tepe,**” located in the village of Chayli, Tartar District, liberated from occupation.

In order to help Samir Alizade, he immediately travelled to the village of Chayli and, after crossing the former line of contact, climbed to a higher point near the trench and began calling out to Samir Alizade. Samir, from some distance away, raised his hand and signalled to him. He immediately went there, lifted Samir Alizade onto his shoulder and carried him out of the area. At that time, Ali Alizade arrived to assist them. They then placed Samir Alizade in an ambulance and sent him to hospital.

Volume 104, case file pages 190–193.

Alizade Ali Buruz oğlu, questioned in the case as a victim, gave testimony similar to that of Mammadov Mais Akif oğlu, stating that he learned that his brother Samir Alizade had sustained injuries as a result of a mine explosion when Samir himself informed him by telephone. While travelling to the said territory to assist him, he informed his fellow villager Mais Mammadov of the incident and subsequently reached the scene and, together with him, carried Samir Alizade out of the mined area.

Page 320

Volume 104, case file pages 194–197.

According to forensic medical expert opinion No. 409 dated 23 December 2022, **Alizade Samir Buruz oğlu** was found to have the following injuries: blast injury; traumatic amputation of both lower extremities at the level of the middle third of the lower legs; traumatic disarticulation of the first finger of the right hand at the level of the proximal interphalangeal joint and of the fourth finger at the level of the distal interphalangeal joint; destruction of the eyeball of the right eye; contusion of the eyeball of the left eye; multiple fragment wounds to both cheeks, the eyelids of both eyes, the upper lip and the hands of both

arms; as well as recorded traumatic and hypovolemic shock of the second degree. These injuries resulted from the impact of a fragment or fragments during the explosion of a munition and caused grievous bodily harm dangerous to life at the time they were sustained.

Volume 104, case file pages 198–201.

According to forensic medical expert opinion No. 164 dated 22 June 2022, **Askerov Elnur Asif oğlu** was found to have the following injuries: traumatic amputation at the level of the left ankle joint; traumatic shock of the second degree; and blind fragment wounds over the entire anterior and inner lateral surface of the right lower leg. These injuries resulted from the impact of a fragment or fragments during the explosion of a munition, which led to a permanent loss of more than one-third of total working capacity. In terms of severity, these injuries are classified as grievous bodily harm.

Volume 327, case file pages 1–253.

In addition, on the basis of the scene inspection protocol dated 26 April 2023, it was established that **Babashov Khazar Tariyel oğlu**, born on 11 March 1990, a resident of the village of **Shukurbeyli, Fuzuli District**, and a driver for the **International Eurasian Press Fund**, which was carrying out demining work in territories of the Republic of Azerbaijan liberated from occupation, at approximately 09:00 on 26 April 2023, in shrubland near the 12th kilometre of the **Seyidimli–Sugovushan** motor road in the village of **Sugovushan, Tartar District**, stepped on one of the mines deliberately planted by Armenian military personnel during the period of occupation. As a result of the explosion, he sustained bodily injuries.

Volume 72, case file pages 110–114.

Babashov Khazar Tariyel oğlu, recognized and questioned as a victim, testified that he worked as a driver in the general mine-clearance team of the International Eurasian Press Fund and, together with his co-workers, was engaged in mine-clearance work in wasteland located on the outskirts of the **Seyidimli–Sugovushan** motor road in the village of Sugovushan, Tartar District. On 26 April 2023, he again began work together with his colleagues. His function was to drive the vehicle.

In this connection, approximately 30 minutes after his colleagues began working, he went into nearby bushes to relieve himself and did not attach importance to the warning sign because of the danger posed by mines. At that time, he was injured by a mine explosion. His colleagues came after hearing the explosion. He crawled out of the area, after which his colleagues took him to hospital by vehicle.

Volume 72, case file pages 126–127, 187–190.

Rahimli Shahriyar Nasimi oğlu, a sapper of the general mine-clearance team of the International Eurasian Press Fund, questioned as a witness, testified that he and his colleagues were engaged in mine-clearance work on the wasteland—

—located on the outskirts of the **Seyidimli–Sugovushan** motor road in the village of **Sugovushan, Tartar District**. At approximately 09:00 on 26 April 2023, when they next travelled to the area as a team and began working, approximately 20–30 minutes later they heard the sound of an explosion from the direction of bushes near an elevated area located close to the said territory, and smoke rose into the air.

Together with his colleagues, he went to the site of the explosion and saw that **Khazar Babashov**, who was working with them, had gone into the area of the bushes to relieve himself, without paying attention to a warning sign indicating the danger of mines in the area, and, due to his inattention, had stepped on one of the mines and sustained injuries as a result of the explosion. They then removed him from the said area together and sent Khazar Babashov to hospital by ambulance. The said territory had been deliberately and purposefully mined by Armenian armed formations during the period of occupation.

Volume 72, case file pages 135–136, 162–164.

The employees of the general mine-clearance team of the **International Eurasian Press Fund, Huseynov Jalal Huseyn oglu, Iskenderov Uzeyir Hasan oglu, and Maharzade Vusal Ogtay oglu**, questioned as witnesses, gave testimony similar to that of Rahimli Shahriyar Nasimi oglu and confirmed the circumstances described by him.

Volume 1, case file pages 129–133, 140–141, 166–168, 169–171, 172–174.

According to forensic medical expert opinion No. 572A dated 03 May 2023, **Babashov Khazar Tariyel oglu** was found to have the following injuries: mine-blast trauma accompanied by traumatic shock; amputation of the right lower extremity at the level of the upper third of the lower leg; traumatic avulsive separation of the right lower extremity at the level of the ankle joint; multiple thermal and crushed-lacerated fragment wounds of both forearms, the right hand and fingers, the left thigh, both knee joints and the left lower leg. These injuries resulted from the blunt and thermal effects of fragments during a mine explosion. In terms of severity, the injuries resulted in a permanent loss of no less than one-third (60%) of total working capacity and are classified as grievous bodily harm.

Volume 72, case file pages 176–179.

In addition, on the basis of the scene inspection protocol dated 27 May 2023, it was established that **Askerov Maksim Hasan oglu**, born on 25 December 1986, a resident of the village of **Ashaghi Surra, Neftchala District**, and an employee of **Mugansutikinti LLC**, engaged in repair work on the **Karabakh Canal**, at approximately 15:00 on 27 May 2023, while carrying out work to clear the territory of a water canal in the area of the village of **Chayli, Tartar District**, liberated from occupation, sustained an injury to his left arm as a result of the explosion of an unexploded shell-grenade left by Armenian servicemen during armed conflicts in the period of occupation.

Volume 75, case file pages 132–144.

Askerov Maksim Hasan oglu, recognized and questioned as a victim, testified that he worked as a labourer for **Mugansutikinti LLC** and was engaged in work to restore and repair the **Karabakh** water canal in the territories of Tartar District liberated from occupation. On 27 May 2023, after one of his colleagues cleaned the interior of the canal

collector in the territory of the village of Chayli liberated from occupation, he and other workers began clearing stones, metal objects and other debris at approximately 15:00.

While picking up debris located inside the canal with his hands and throwing it aside, he picked up a piece of metal from the canal without paying attention to it, at which point an explosion occurred, as a result of which he sustained an injury. He was subsequently taken to hospital.

Page 322

Volume 75, case file pages 174–175.

Volume 78, case file pages 86–88.

The employees of **Mugansutikinti LLC, Ibrahimov Fariz Agadadash oglu, Guliyev Vugar Telman oglu, and Rzayev Rovshan Elshan oglu**, questioned as witnesses during the investigation, confirmed the circumstances stated by Askerov Maksim Hasan oglu.

Volume 75, case file pages 154–155, 159–160, 164–165.

Volume 78, case file pages 64–67, 69–72, 74–77.

According to forensic medical expert opinion No. 764 dated 07 June 2023, **Askerov Maksim Hasan oglu** was found to have the following injuries: traumatic amputation of the first finger of the left hand at the level of the metacarpophalangeal joint and of the second, third and fourth fingers at the level of the middle third of the metacarpal bones; fractures of the second, third, fourth and fifth metacarpal bones; dislocation of the first metacarpal bone; a defect of the soft tissues of the left hand; multiple thermal and crushed-lacerated wounds; as well as abrasions on the anterior surface of the chest and in the abdominal area. These injuries resulted from the blunt and thermal effects of fragments during an explosion. The injuries led to complete loss of function of the left hand and a permanent loss of no less than one-third (50%) of total working capacity, and are classified as grievous bodily harm.

Volume 78, case file pages 96–99.

According to forensic medical expert opinion No. 366 dated 22 November 2023, **Hasanov Zameddin Gelender oglu** was found to have the following injuries: traumatic amputation of both lower extremities; fragment wounds to the third finger of the right hand, right elbow, right knee, left thigh and scrotal area. These injuries resulted from the impact of fragments during the explosion of a munition. The condition was recorded as of 06 October 2023. The said injuries resulted in a permanent loss of more than one-third (60%) of total working capacity and are classified as grievous bodily harm.

Volume 327, case file pages 1–253.

According to forensic medical expert opinion No. 340 dated 06 October 2023, **Nuraliyev Elchin Khanbala oglu** was found to have the following injuries: amputation of the lower third of the right upper arm; crushed-abrasion wounds on the anterior surface of the chest on both sides; and abrasions over the entire anterior and outer surfaces of the right lower leg. These injuries resulted from the impact of fragments during the explosion of a projectile and were recorded as of 26 October 2023. The said injuries resulted in a permanent loss of more than one-third of total working capacity and are classified as grievous bodily harm.

Volume 327, case file pages 1–253.

According to forensic medical expert opinion No. 337 dated 27 October 2023, **Azimov Ayaz Yusif oğlu** was found to have the following injuries: multiple abrasions in the area of the face and forehead, and hemorrhage into the conjunctiva of the inner corners of the right and left eyes. These injuries resulted from the impact of fragments during the explosion of a projectile and correspond to the date of 26 October 2023. The said injuries did not cause harm to health and are not subject to classification by degree of severity.

Volume 327, case file pages 1–253.

According to forensic medical expert opinion No. 360 dated 18 November 2023, **Agalarov Ali Alibala oğlu** was found to have the following injuries: amputation of the lower third of the right lower leg, crushed wounds of the anterior-inner—

Page 323

—surface of the right knee, the inner surface of the left lower leg and the palmar surface of the right hand. These injuries resulted from the impact of fragments during the explosion of a munition and correspond to the date of **03 November 2023**. The said injuries resulted in a permanent loss of more than one-third of total working capacity and are classified as grievous bodily harm.

Volume 327, case file pages 1–253.

According to forensic medical expert opinion No. 381 dated 12 December 2023, **Huseynov Asif Novruz oğlu** was found to have the following injuries: blast injury and traumatic amputation of the upper third of the right lower leg, resulting from the impact of fragments during the explosion of a munition and corresponding to the date of **05 November 2023**. These injuries resulted in a permanent loss of more than one-third of total working capacity and are classified as grievous bodily harm.

Volume 327, case file pages 1–253.

According to forensic medical expert opinion No. 39 dated 26 February 2024, **Mammadov Azer Ahmed oğlu** was found to have the following injuries: traumatic amputation of the left lower extremity at the level of the ankle joint, resulting from the impact of fragments during the explosion of a munition. These injuries resulted in a permanent loss of more than one-third of total working capacity and are classified as grievous bodily harm.

Volume 327, case file pages 1–253.

According to forensic medical expert opinion No. 51 dated 01 March 2024, **Aliyev Hasanali Shahin oğlu** was found to have the following injuries: traumatic amputation of the lower third of the left lower leg and multiple fragment wounds of the right foot resulting from the impact of fragments during the explosion of a munition. These injuries resulted in a permanent loss of more than one-third (50%) of total working capacity and are classified as grievous bodily harm.

Volume 327, case file pages 1–253.

According to forensic medical expert opinion No. 114 dated 02 May 2024, **Bagirov Elmin Elnur oğlu** was found to have the following injuries: blast injury; multiple fragment wounds throughout the body; amputation of the lower third of the right thigh; amputation of the upper third of the left lower leg; and dry eye syndrome in both eyes. All of these injuries resulted from the impact of fragments during the explosion of a munition. These injuries resulted in a permanent loss of more than one-third of total working capacity and are classified as grievous bodily harm.

Volume 327, case file pages 1–253.

According to forensic medical expert opinion No. 98 dated 19 April 2024, **Tagizade Arzuma Akilman oğlu** was found to have the following injuries: blast injury, multiple fragment wounds throughout the body, and an open fracture of the right humerus. All of these injuries resulted from the impact of fragments during the explosion of a munition. These injuries are classified as grievous bodily harm dangerous to life.

Volume 327, case file pages 1–253.

According to forensic medical expert opinion No. 93 dated 17 April 2024, the following injuries were identified on the body of **Ismailov Polad Abysh oğlu**: fragment wounds to the frontal part of the head, the right half of the forehead, the supraorbital region, the lateral surface of the root of the nose, the right nostril, the right zygomatic and temporal regions, the entire chest and the posterior surface of the abdomen. Abrasions were also noted on the anterior surface of the left thigh and the outer surface—

Page 324

—of the middle third of the right upper arm, as well as severe contusion of the right eyeball with foreign bodies in the subconjunctival area. These injuries resulted from the impact of fragments during the explosion of a munition. The injuries led to a short-term deterioration of health and are classified as minor harm to health.

Volume 327, case file pages 1–253.

According to forensic medical expert opinion No. 474 dated 29 April 2024, the following injuries were identified on the body of **Teymurov Khagani Allahverdi oğlu**: traumatic amputation of the middle third of the left lower leg, accompanied by signs dangerous to life, resulting from the impact of a hard blunt object, which could have been caused by a mine explosion. These injuries resulted in a permanent loss of up to 50% of total working capacity and are classified as grievous bodily harm.

Volume 327, case file pages 1–253.

According to forensic medical expert opinion No. 473 dated 29 April 2024, the following injuries were identified on the body of **Bagirov Mirfettakh Bagir oğlu**: traumatic amputation of the lower third of the left thigh, accompanied by signs dangerous to life, resulting from the impact of a hard blunt object, which could have been caused by a mine explosion. These injuries resulted in a permanent loss of up to 60% of total working capacity and are classified as grievous bodily harm.

Volume 327, case file pages 1–253.

On **04 December 2020**, at approximately 11:00, soldier **Salimov Mammad Vahid oğlu**, serving as a grenade launcher operator in the 2nd squad of the 1st platoon of the 6th company of the 2nd regiment of military unit No. 703, while on duty at combat position No. 12 near the village of **Hasangaya, Tartar District**, climbed onto the upper part of the trench in which he was serving in order to determine where the sound of an explosion had come from. As a result of the explosion of a mine previously buried by Armenian military formations, Salimov Mammad Vahid oğlu sustained injuries and was evacuated to hospital.

According to the scene inspection protocol dated 04 December 2020, the scene was a trench near combat position No. 12 in the vicinity of the village of Hasangaya, Tartar District. Several samples of bloodstains were taken from the said trench. Since the area was dangerous because of the remaining mines, it was not possible to seize mine fragments for examination.

Volume 121, case file pages 8–22.

The victim, **Salimov Mammad Vahid oğlu**, stated in his testimony that at approximately 11:00 on 04 December 2020, because there was no water at combat position No. 12, he and soldier **Nijat Ismailov** were carrying water to **Shahriyar Agaly**, who was serving at the said position. At that time, they heard the sound of an explosion. In order to determine where the explosion had come from, he climbed onto an elevated area located 5–6 metres from the said position, where a mine previously planted by Armenian armed formations exploded. Some time later, he was evacuated from the trench.

Volume 121, case file pages 68–72.

Soldier **Ismailov Nijat Yusif oğlu**, questioned as a witness, testified that at approximately 11:00 on 04 December 2020, because there was no water at combat position No. 12, he and soldier Mammad Salimov were carrying water to Shahriyar Agaly, who was serving at the said position. At that time, they heard the sound of an explosion. In order to determine where the explosion had come from, Mammad Ismailov climbed onto an elevated area located 5–6 metres from the said position, at which point a loud explosion occurred. Without understanding what had happened, he ran to a place called **gazma** and went to inform the soldiers. Upon returning—

Page 325

—he learned that soldier **Mammad Salimov** had stepped on a mine and sustained an injury to his left leg. Some time later, Mammad Salimov was evacuated from the trench.

Volume 121, case file pages 37–40.

The witnesses questioned — junior sergeant **Agaly Shahriyar Ogtay oğlu**, **Safaraliyev Rustan Rafail oğlu**, **Jadarov Orkhan Natig oğlu**, **Umudov Magerram Movsum oğlu**, and **Musayev Elgun Eldar oğlu** — gave testimony similar to that of the victim Mammad Salimov and the witness Nijat Ismailov.

Volume 121, case file pages 32–36, 75–78, 79–82, 83–86, 87–90.

According to forensic criminalistic expert opinion No. **106/tkb** dated 14 December 2020, damage was found on the clothing of **Salimov Mammad Vahid oglu**; its location, nature, shape and dimensions, as well as information concerning the case, indicate that this damage could have resulted from the impact of fragments formed during an explosion at close range, including fragments from a mine explosion. Particles of incompletely burned gunpowder and smoke were also found on the trousers of Salimov Mammad Vahid oglu, which constitutes an additional indication of the effects of an explosion.

Volume 121, case file pages 106–113.

According to forensic medico-biological expert opinion No. **84/MTB-2020** dated 21 December 2020, stains of human blood were found on the woollen sweater, military uniform, underwear, and particles of stones and soil collected from the scene. When the blood group was determined using the **ABO system**, antigen “A” and antigen “B” were detected, while antigen “H” and agglutinins were not detected. Thus, the blood in question may belong to a person with blood group **AB**, which may also correspond to the blood group of the person to whom **Mammad Salimov** belongs.

Volume 121, case file pages 118–121.

On the basis of the decision dated 13 January 2021 recognizing items as physical evidence, a yellow woollen sweater, military field trousers of camouflage colour, lower trousers, underpants, a stone and parts of soil seized from the scene were recognized as physical evidence and are being kept in the evidence room of the Special Investigation Department of the Military Prosecutor’s Office.

Volume 121, case file pages 122–125.

According to forensic medical expert opinion No. 1621 dated 15 December 2020, **Mammad Salimov** was found to have the following injuries: traumatic amputation of the lower third of the left lower leg, fragment wounds of both lower extremities and of the right upper eyelid, resulting from the impact of a blast wave during the explosion of a munition containing explosive material. These injuries are classified as grievous bodily harm.

Volume 121, case file pages 128–129.

It was established that servicemen of the 5th regiment of military unit No. 706, soldiers **Rahimli Vusal Tagy oglu** and **Ahmedov Murad Vugar oglu**, while moving on foot in the performance of their official duties within the territory of the settlement of **Shakhar, Khojavend District**, where the regiment was temporarily stationed, sustained injuries as a result of the explosion of anti-personnel mines previously buried there by members of Armenian armed formations who were not identified by the investigation. As a result, **V.T. Rahimli** sustained injuries classified as grievous bodily harm in the form of “multiple fragment wounds of the right arm and lower extremities, as well as traumatic amputation of the right foot,” while **M.V. Ahmedov** also sustained injuries classified as grievous bodily harm in the form of “traumatic amputation of the right lower extremity at the level of the hip joint and multiple fragment wounds of the soft tissues of the left lower extremity.” They were taken to Military Hospital No. 214 and subsequently evacuated to another hospital for further treatment.

According to the scene inspection certificate dated 23 December 2020, in connection with the injuries sustained by servicemen of the 5th regiment of military unit No. 706 of the Ministry of Defence, temporarily stationed in the settlement of **Khojavend**, soldiers **Rahimli Vusal Tagy oğlu** and **Ahmedov Murad Vugar oğlu**, as a result of the explosion of an anti-personnel mine buried by Armenian servicemen, it was impossible to conduct an inspection of the scene because of the existence of a real danger to human life and health, since mines had previously been buried there by Armenian servicemen.

Volume 120, case file page 5.

Rahimli Vusal Tagy oğlu, recognized and questioned as a victim, testified that at approximately 14:00 on 06 December 2020, while talking with soldier **Ahmedov Murad Vugar oğlu** and moving toward a spring located at a distance of 1 kilometre from their place of deployment, they decided to get water and obtain cigarettes and servicemen of another platoon located in that area. For this purpose, they began moving along the motor road from the regiment's place of deployment toward the platoon.

Walking ahead of M. Ahmedov, he left the motor road and wanted to look around. After taking several steps, a mine planted by Armenian armed formations exploded beneath his right foot, and he fell to the ground, sustaining an injury to his right leg. Several seconds later, he heard the explosion of an anti-personnel mine that detonated beneath the feet of Murad Ahmedov. Some time later, personnel from their platoon arrived at the scene.

Volume 120, case file pages 21–24, 32–36.

Ahmedov Murad Vugar oğlu, recognized and questioned as a victim, confirmed the circumstances stated by soldier Vusal Rahimli and gave similar testimony.

Volume 120, case file pages 25–28, 40–44.

Huseynov Faig Ali oğlu, questioned as a witness, testified that after the ceasefire was declared on 10 November 2020, on 01 December 2020 the place of deployment of the 5th regiment of military unit No. 706 was moved to the territory of Khojavend District, and the personnel of the 5th regiment, including the 13th company, began serving in the settlement of **Shakher, Khojavend District**. At approximately 14:00 on 06 December 2020, near the assembly point of the 1st platoon of the 13th company, he heard the sound of an explosion. He saw that soldiers of the 1st platoon of the 13th company, Vusal Rahimli and Murad Ahmedov, at a distance of 400–500 metres from the assembly point, had stepped on a mine buried there by Armenian servicemen. In order to assist them, he went to the said area together with other servicemen of the company. As a result of the explosion, soldier V. Rahimli and soldier M. Ahmedov sustained severe injuries to their right legs.

Volume 120, case file pages 54–57.

According to forensic medical expert opinion No. **173/MEŞ** dated 29 March 2021, **Ahmedov Murad Vugar oğlu** was found to have the following injuries: mine-blast trauma, traumatic amputation of the right lower extremity at the level of the hip joint, as well as multiple

fragment wounds of the soft tissues of the left lower extremity. These injuries are classified as grievous bodily harm dangerous to life.

Volume 120, case file pages 81–82.

Page 327

According to forensic medical expert opinion No. **174/MEŞ** dated 29 March 2021, **Rahimli Vusal Tagy oğlu** was found to have the following injuries: mine-blast trauma, multiple fragment wounds of the right arm and lower extremities, and traumatic amputation of the right foot. These injuries are classified as grievous bodily harm dangerous to life.

Volume 120, case file pages 78–79.

On the basis of Order No. 304 of the military unit dated 30 October 2020, since the conscripted military training assembly had received instructions from the local offices, departments and divisions of the State Service of the Republic of Azerbaijan for Mobilization and Conscription to include soldier **Rahimli Vusal Tagy oğlu**, as of 30 October 2020, on the personnel list of the military unit and appoint him to a position, he was appointed as a rifleman of the 3rd squad of the 1st platoon of the 13th company of the 5th battalion of military unit No. 706.

On the basis of Order No. 28 dated 26 January 2021 of the commander of military unit No. 706, in connection with the implementation of Order No. 274 dated 25 December 2020 of the Minister of Defence, **Rahimli Vusal Tagy oğlu**, who had been called up for military service under the partial mobilization declared in the Republic of Azerbaijan as of 21 January 2021, was to be removed from all types of allowances on the personnel lists of the military unit and sent for registration to the Lankaran District Department of the State Service of the Republic of Azerbaijan for Mobilization and Conscription.

Volume 120, case file pages 61–62.

On the basis of Order No. 32 dated 30 January 2021 of the commander of military unit No. 706, for the purpose of maintaining the high combat readiness of the military unit and filling vacant positions, **Ahmedov Murad Vugar oğlu** was transferred from the position of rifleman of the 3rd squad of the 1st platoon of the 13th company of the 5th battalion of military unit No. 706 to the position of rifleman of the 1st squad of the 3rd platoon of the 9th company of the 3rd battalion.

Volume 120, case file page 63.

On 08 December 2020, at approximately 14:00, in the village of **Shaheri, Khojavend District**, servicemen of Armenian armed formations, whose identities and exact number were not established by the investigation, with the purpose of killing two or more persons on grounds of national enmity and hatred, opened fire from 7.62 mm and 5.45 mm automatic weapons. As a result, serviceman of military unit No. 213 of the Ministry of Defence, warrant officer **Azizov Ragib Vidadi oğlu**, was killed, and serviceman of military unit No. 702, warrant officer **Guliyev Elchin Ziyadkhan oğlu**, sustained bodily injuries of varying severity.

Thereafter, a **Niva** vehicle bearing state registration number **99-AN-801** and a **Mitsubishi** vehicle bearing state registration number **90-PF-384**, belonging to **Azercell Telecom LLC** and travelling toward the settlement of **Hadrut, Khojavend District**, were fired upon. As a result of the shooting, the civilian driver, **Agayev Sevindik Dilaver oğlu**, as well as lieutenant **Hasanov Elnur Mezakhir oğlu** of military unit No. 702, sustained bodily injuries of varying severity.

On 08 December 2020, at approximately 14:00, in the village of Shaheri, Khojavend District, servicemen of Armenian armed formations, whose identities and exact number were not established by the investigation, with the purpose of killing two or more persons on grounds of national enmity and hatred, killed serviceman of military unit No. 213 of the Ministry of Defence, warrant officer **Azizov Ragib Vidadi oğlu**. As a result of multiple gunshot wounds, he sustained grievous bodily injury that led to diffuse destruction of the brain, accompanied by open multiple comminuted fractures of the bones of the cranial vault, which caused his death. In addition—

Page 328

—they attempted to kill serviceman of military unit No. 702, warrant officer **Guliyev Elchin Ziyadkhan oğlu**, who had been assigned to perform service in the said territory.

Thereafter, a **VAZ-2121 Niva** vehicle bearing state registration number **99-AN-801**, driven by **Rzayev Seymur Agajan oğlu**, and a **Mitsubishi** vehicle bearing state registration number **90-PF-384**, driven by **Agayev Sevindik Dilaver oğlu** and belonging to **Azercell Telecom LLC**, which were travelling from the settlement of **Hadrut, Khojavend District**, toward higher-altitude villages in order to inspect electrical lines, were fired upon, as was lieutenant **Hasanov Elnur Mezakhir oğlu** of military unit No. 702, with the purpose of killing two or more persons on grounds of national enmity and hatred.

As a result, **Seymur Agajan oğlu Rzayev** sustained bodily injury of moderate severity, classified as less serious, in the form of a gunshot wound to the left shoulder, which caused a prolonged health disorder. In addition, a through oval-shaped defect measuring **1 × 1 cm**, with uneven edges and cracks, formed in the windshield of the **VAZ-2121** vehicle bearing state registration number **99-AN-801**, and damage measuring **7 × 4 cm** was found on the vehicle's speedometer.

During the inspection of the scene, it was established that the scene was a two-storey private house in the centre of the village of **Shaheri, Khojavend District**, constructed of concrete blocks. The first floor of the house contains a basement, access to which is through a wooden door 2.4 metres high. The basement consists of two rooms. Upon entering one of the rooms, six blankets and pillows, empty tin packages, cans and beverage bottles were found on the floor. Access to the second floor of the house is by means of a staircase constructed of concrete blocks.

During the inspection, stains resembling blood were found on the 6th to 8th steps, and two cartridge cases were found on the 7th step. The entrance door to the second floor of the house is made of brown wooden material. Three empty cartridge cases were found on the floor of the room. In addition, one cartridge case was found in front of the refrigerator, one cartridge case was found in the centre of the second room among various scattered items, and one cartridge case was found in the third room among household items scattered on the floor.

Since the stain resembling blood and the eight cartridge cases were of evidentiary significance, they were seized in accordance with the prescribed procedure.

Volume 210, case file pages 27–42.

During the investigation, an inspection of the **VAZ-2121** vehicle bearing state registration number **99-AN-801** revealed damage measuring **1 × 1 cm** on the windshield, with uneven edges, accompanied by a crack, oval in shape, and damage measuring **7 × 4 cm** was found on the vehicle's speedometer.

Volume 210, case file pages 43–47.

During the investigation, when the body of serviceman of military unit No. 213 of the Ministry of Defence, warrant officer **Azizov Ragib Vidadi oglu**, was examined on 09 December 2020, it was established that on the surface of the body, in the area of the left temporomandibular joint, there was a wound measuring **0.5 × 0.6 cm**, characteristic of a bullet entry wound, with a defect of the central tissue.

In the right temporal-occipital region there was a wound measuring **12 × 5 cm**, with uneven edges, characteristic of a bullet exit wound; through the opening, an open fracture of the bones of the cranial vault and destruction of brain tissue could be seen. Examination with a probe established that the two wound channels were connected.

In the area of the right eye, on the upper eyelid, there was a wound measuring **0.5 cm**, characteristic of a bullet entry wound, accompanied by destruction of the eyeball. In the middle of the occipital region there was a wound measuring **9 × 3 cm**, with uneven edges, characteristic of a bullet exit wound; through the opening, a fracture of the occipital bone and destruction of brain tissue could be seen. Examination with a probe established that the two wound channels were connected.

In the area of the right subclavian region there was a wound—

Page 329

—characteristic of a bullet entry wound, 0.6 cm in diameter, with a defect of the central tissue. On the posterior surface of the chest on the right, along the posterior axillary line at the level of the third rib, there was a wound characteristic of a bullet exit wound, measuring **1.5 × 1 cm**, with uneven edges, from which liquid blood was flowing. Examination with a probe established that the two wound channels were connected.

On the anterior surface of the chest, in the middle, at the level of the xiphoid process, there was a wound 0.5 cm in diameter, with a defect of the central tissue, characteristic of a bullet entry wound. On the left lateral surface of the chest, along the mid-axillary line at the level of the tenth rib, there was a wound measuring **1.2 × 0.7 cm**, characteristic of a bullet exit wound. Examination with a probe established that the two wound channels were connected.

In the right lumbar region, there was a wound characteristic of a bullet entry wound, measuring **0.6 × 0.5 cm**, with a defect of the central tissue. On the anterior surface of the middle third of the right lower leg, there was a greenish bruise measuring **8 × 4 cm**, against the background of which an abrasion measuring **2 × 0.5 cm** was observed, raised above the

level of the skin and covered with a reddish crust. On the anterior surface of the upper third of the right lower leg, there was a bruise measuring 7 × 5 cm, with a violet central area surrounded by a greenish zone. No other visible injuries or traces of injuries were found on the body of the deceased.

Volume 210, case file pages 49–58.

Guliyev Elchin Ziyadkhan oglu, questioned as a victim, stated that, acting on the instructions of **Major Rovshan Guliyev**, Assistant Chief of Intelligence of the 2nd Corps of the Ministry of Defence for radio intelligence and electronic warfare, at an **Azercell Telecom LLC** point established near the settlement of **Hadrut, Khojavend District**, together with warrant officer of military unit No. 213 and station chief **Ragib Azizov**, as well as servicemen named **Orkhan** and **Tabriz**, they used an **ASENA** device to listen to radio communications conducted by Armenians and record them.

On 08 December 2020, at approximately 13:00, he and Ragib Azizov travelled on horseback to the village of **Shahyeri** to bring back firewood and water. After reaching the village and travelling along the village roads on horseback, Ragib noticed that there was firewood in one of the courtyards. After entering the courtyard, Ragib instructed him to find a container for collecting water. He went up the stairs to the second floor of the house and began looking for a container in the rooms.

Soon Ragib Azizov shouted to him, “**Run, there are many of them!**”, and immediately afterwards gunshots were heard. He saw that Ragib had fallen face down at the foot of the stairs and that a person wearing the military uniform of the Armenian side was standing by the entrance door to the basement. He then ran out through a narrow door at the back of the house, hid in the shade behind a stone wall approximately 6–7 metres away and covered himself completely with a cloak.

Using his mobile telephone, he sent a message to Major Rovshan Guliyev, as well as to **Tural Babakhanov**, a serviceman of military unit No. 218, stating that they had been ambushed and providing his coordinates. Soon afterwards, he heard gunshots and saw that his fellow servicemen had arrived at the scene. He then came out from behind the wall. Soldiers of military unit No. 218 also arrived at that time, but by then the Armenian servicemen had left the house. Thereafter, with the assistance of the servicemen, they retrieved the body of warrant officer Ragib Azizov and transported it to the settlement of Hadrut.

Volume 210, case file pages 59–64, 101–109.

Azizov Vidadi Khankishi oglu, questioned as the legal successor of the victim, testified that his son, **Ragib Azizov**, was killed at approximately 13:00 on 08 December 2020 as a result of gunfire from automatic weapons by servicemen of Armenian armed formations in the village of **Shahyeri, Khojavend District**.

Volume 210, case file pages 171–173.

Page 330

Agayev Sevindik Dilaver oglu, questioned as a victim, testified that on 08 December 2020, at approximately 17:00, for the purpose of inspecting electrical lines leading to a radio base

located at an elevation 8–9 kilometres from the settlement of **Hadrut, Khojavend District**, he travelled together with an unfamiliar serviceman in a **Mitsubishi L200** vehicle bearing state registration number **90-PF-384**, while **Seymur Rzayev**, an electrical engineer of Azercell, followed them in a **VAZ-2121** vehicle.

After travelling 6–7 kilometres, he noticed two armed persons in military uniform walking along the roadside. Judging by the untidy appearance of their uniforms, he assumed that they might be Armenian servicemen. He reduced speed and attempted to turn the vehicle around in order to return, but the engine stalled. At that time, Seymur Rzayev also stopped his vehicle and attempted to turn around. However, one of the servicemen walking ahead opened fire in their direction.

He and the serviceman then got out of the vehicle and ran in the direction of the settlement of Hadrut. Turning around to make sure that Seymur was also running, he saw that Seymur was following them and that several armed servicemen were pursuing them from a distance. Upon reaching positions of the Armed Forces of Azerbaijan, he noticed that **Seymur Rzayev** had sustained a gunshot wound to the left shoulder.

At the post, he learned that armed Armenian groups had killed an Azerbaijani serviceman in the village of Shahyeri. After first aid was provided, Seymur was evacuated to a hospital located in the village of **Ahmadbayli, Fuzuli District**. He stated that he himself had sustained no injuries and that the Mitsubishi L200 vehicle bearing state registration number 90-PF-384 had likewise sustained no damage.

Volume 210, case file pages 114–118.

Rzayev Seymur Agajan oğlu, questioned as a victim, testified that at approximately 17:00 on 08 December 2020, he travelled in a **VAZ-2121** vehicle bearing state registration number **90-AN-801**, belonging to **Azercell LLC**, to a radio base located at an elevation 8–9 kilometres from the settlement of **Hadrut, Khojavend District**, while **Sevindik Agayev** travelled there as well together with a serviceman holding the rank of lieutenant, whom he did not know, in a **Mitsubishi L200** vehicle to inspect electrical lines.

Approximately one kilometre before reaching the station, on a winding section of the road, he saw two persons in military uniform carrying weapons. When he saw that Sevindik Agayev, who was driving ahead of him, had stopped the vehicle and was attempting to turn around, he realized that the persons in military uniform ahead were Armenian servicemen and stopped his vehicle. At that time, the Armenian servicemen opened fire. One of the bullets shattered the windshield of the vehicle and wounded him in the left shoulder.

He got out of the vehicle and began running in the direction of the settlement of Hadrut. After reaching positions of an Azerbaijani army unit, he was given first aid and evacuated to a hospital located in the village of **Ahmadbayli, Fuzuli District**.

Volume 210, case file pages 124–127.

Hasanov Elnur Mezakhir oğlu, questioned as a victim, testified that he served as deputy commander for personnel of the 12th company of the 4th motorized rifle battalion of military unit No. 702. At approximately 15:00 on 08 December 2020, having learned that **Agayev Sevindik Dilaver oğlu**, an employee of Azercell LLC, together with another employee of the

company, **Rzayev Seymur Agajan oğlu**, would be inspecting electrical lines in mountainous terrain, he got into the **Mitsubishi L200** vehicle driven by Agayev in order to meet his comrades and officers from the village, while Seymur Rzayev travelled in a **VAZ-2121** vehicle.

When approximately one kilometre remained before reaching the station, he saw four persons in military field uniforms carrying weapons approximately 30–40 metres ahead. Sevindik Agayev stopped the Mitsubishi L200 and began moving backwards. Seeing this, Seymur Rzayev also attempted to turn—

Page 331

—the **VAZ-2121** vehicle around. At that time, the servicemen who were ahead opened fire in their direction, and in order to save their lives, he and **Sevindik Agayev** got out of the vehicles and ran toward the settlement of **Hadrut**. Looking back, he saw that the four Armenian servicemen were running after them. He also saw that **Seymur Rzayev**, whom they had caught up with on the way, had sustained an injury to the left shoulder because a bullet fired by the Armenian servicemen pursuing them had penetrated the windshield of the **VAZ-2121** vehicle he was driving and injured him in the left shoulder. When they reached the settlement of Hadrut, they met servicemen of military unit No. 218 and, according to the latter, the Armenian armed formations pursuing them had killed one Azerbaijani serviceman in the village of **Shahyeri, Khojavend District**.

Volume 210, case file pages 200–203.

Aliyev Ramil Shakir oğlu, questioned as a witness, stated that at approximately 15:00 on 08 December 2020, information was received that several servicemen of Armenian armed formations were hiding in one of the villages located above the settlement of Hadrut, Khojavend District, and that as a result of a shooting that had occurred, warrant officer **Elchin Guliyev**, a serviceman of military unit No. 702, had been killed in the village. In connection with the information received, he sent 20–25 servicemen of military unit No. 218 in the indicated direction in two reconnaissance groups.

At that time, he saw three persons running toward them along the motor road in the direction of Hadrut. When they approached, he established that one of them was a serviceman of military unit No. 702 with the rank of lieutenant, while the other two were employees of **Azercell LLC**. One of the latter two had sustained a bullet wound to the left shoulder. Thereafter, moving in the indicated direction, they reached the village of **Shahyeri, Khojavend District**. Guided by warrant officer Elchin Guliyev, who had met them, they entered the house where Ragib Azizov had been killed. They found the latter's body on the staircase. There were bullet wounds in the left temporal area and various other parts of Ragib Azizov's body.

Volume 210, case file pages 175–178.

According to forensic medical expert opinion No. 1920 dated **09 February 2020**, it was established that the following injuries were found on the body of **Ahmedov Elchin Rasim oğlu**: a gunshot wound, the entrance wound of which was located in the area of the left temporomandibular joint and the exit wound in the right temporo-occipital area, accompanied by an open fracture of the bones of the cranial vault along the wound channel and destruction

of brain tissue; one gunshot wound, the entrance wound of which was located on the upper eyelid of the right eye and the exit wound in the occipital region, accompanied by destruction of the eyeball along the wound channel, fracture of the occipital bone and destruction of brain tissue; one gunshot wound with an entrance wound in the right subclavian region and an exit wound on the right posterior surface of the chest, penetrating through the right half of the chest; a gunshot wound with an entrance wound in the central anterior surface of the chest and an exit wound on the left lateral surface of the chest at the level of the tenth rib along the mid-axillary line, penetrating through the chest; and a gunshot wound with an entrance wound in the right lumbar region.

On the anterior surface of the middle third of the right lower leg there was an abrasion with a brownish-red crust against a greenish background, and there was also a hemorrhage in the upper third of the anterior surface of the right lower leg with a violet central area surrounded by a greenish rim. The listed gunshot injuries resulted from shots fired from a firearm. They were sustained during life, are classified as grievous bodily harm dangerous to life, caused death, and correspond to the date of **08 December 2020**. The abrasion on the anterior surface of the middle third—

Page 332

—of the right lower leg and the hemorrhage in the upper third of the anterior surface of the right lower leg resulted from the impact of a hard blunt object, occurred **1–3 days before death**, were sustained during life, did not cause harm to health and were not causally related to the death.

The cause of death of **R.V. Azizov** was diffuse destruction of the brain accompanied by open multiple comminuted fractures of the bones of the cranial vault as a result of multiple gunshot wounds. Judging by the progression of post-mortem changes, the date of death of R.V. Azizov corresponds to **08 December 2020**.

Volume 210, case file pages 214–215.

According to forensic medical expert opinion No. **108/MEŞ** dated **17 February 2020**, the firearm injury to the left forearm found on the body of **Rzayev Seymur Agajan oglu** resulted from the impact of a bullet fired from a firearm and, in terms of severity, constitutes minor harm to health.

Volume 210, case file pages 207–208.

According to forensic ballistic expert opinion No. **3/2162** dated 03 May 2021, the **7.62 mm cartridge case** submitted for examination was factory-manufactured and constituted part of a cartridge intended for use as ammunition in **Kalashnikov-type automatic weapons of the AK model, RPK-model light machine guns, SKS carbines and other rifled firearms**. The cartridge case had been discharged by firing and was suitable for use.

The seven submitted **5.45 mm cartridge cases**, also factory-manufactured, are parts of cartridges intended for use in **Kalashnikov-type AK-74 automatic rifles**, other automatic weapons of that design, as well as **RPK-74 machine guns** and other rifled firearms. The cartridge cases had been discharged by firing and were suitable for use.

On the military jacket, military sweater, sleeveless shirt and scarf belonging to **Azizov Ragib Vidadi oglu**, damage was found in the quantity and dimensions specified in the examination section of the expert opinion. Although no traces of copper were detected around the damage, their shape, dimensions and morphological structure, as well as the presence of particles of unburned smokeless powder, which constitutes an additional factor indicative of a shot, show that the damage to the front, upper and rear lower parts of the jacket, sweater, undershirt and one of the scarves constitutes **bullet-entry damage**. The damage to the collar and upper rear part of the jacket, sweater and undershirt constitutes **bullet-exit damage**.

These injuries are characteristic of shots fired from a rifled firearm, as a result of the impact of bullets directed from front to back and from back to front, in different directions, from a distance exceeding 1 metre. By their location and according to the forensic medical expert opinion, the damage corresponds to the bodily injuries. However, it is impossible to establish precisely the specific type and calibre of firearm from which the shots causing these injuries were fired. The damage to the submitted clothing could have arisen under the circumstances described in the descriptive part of the opinion.

No damage characteristic of the impact of bullets fired from a firearm was found on the military trousers, warm underpants, pair of army boots and pair of socks belonging to Azizov Ragib Vidadi oglu. However, particles of unburned smokeless powder, constituting an additional factor of a shot, were found on these items of clothing.

Volume 210, case file pages 235–239.

During the investigation, the military pea coat, military sweater, sleeveless shirt, military scarf, military trousers, warm —

Page 333

underwear, one pair of soldiers' boots, one **7.62 mm cartridge case** and seven **5.45 mm cartridge cases** belonging to **Azizov Ragib Vidadi oglu** were recognized as physical evidence and placed in the evidence storage room of the Special Investigation Department.

Volume 210, case file pages 243–246.

The investigation also established that, on the basis of information received that Armenian armed formations, formed with nationalistic and hostile intentions, had taken up positions on **Ziyaratdag Hill** in the village of **Ajikend, Khojavend District (former Hadrut District)**, which had been liberated from occupation, a group of servicemen of military unit No. 073 was formed and sent to the said area during the night of **12 December 2020**, at approximately 01:00.

After the presence of Armenian servicemen in that area had been established, they were offered the opportunity to leave the positions they occupied. Despite this, members of illegal armed formations created by Armenians with a nationalistic and hostile purpose, whose identities were not precisely established and whose number was not determined, suddenly launched an offensive with the intent to commit premeditated murder, opening fire on our positions with various types of weapons.

As a result, servicemen of military unit No. 073, **Huseynov Azer Mahal oğlu** and **Abbasov Avaz Mayis oğlu**, were killed at the scene, while the other servicemen — **Khabibov Nijat Mahir oğlu**, **Imanaliyev Farid Jabir oğlu**, **Babayev Abbas Yadulla oğlu**, **Bagiyev Rashad Gudrat oğlu**, **Mammadov Eldzhan Elbrus oğlu**, and **Javadov Khayyam Zafar oğlu** — sustained bodily injuries of varying severity and were immediately evacuated to Military Hospital No. 214.

Abbasov Mayis Avaz oğlu, recognized and questioned as the legal successor of the victim, testified that he currently lives with his family, including his wife and two sons, in the village of **Shorsulu, Salyan District**. His son, **Avaz Abbasov**, was called up for compulsory military service on 07 January 2019 by the Salyan District Office of the State Service for Mobilization and Conscription and served in military unit No. 073 (052) of the Special Forces of the Ministry of Defence, located in the city of **Jalilabad**.

During the day on 12 December 2020, representatives of the Salyan District municipality and neighbours informed him that his son Avaz Abbasov had died heroically during combat operations. On 12 December 2020, he went to the Salyan District Hospital to collect his son's body and, after confirming that he had died, took the body and returned to Salyan District, where he buried him in the cemetery in the village of **Boranikand, Salyan District**.

Volume 122, case file pages 199–201.

Huseynov Samir Mahal oğlu, recognized in the criminal case as the legal successor of the victim and questioned, testified that his brother, **Azer**, had served since 2015 in military unit No. 171 as an extended-service serviceman holding the rank of junior sergeant. On 27 September 2020, he was seconded to military unit No. 073 (052) of the Special Forces.

During the afternoon of 12 December 2020, he was informed by the military unit that his brother, **Azer Huseynov**, had died after displaying heroism in combat in territory in the direction of **Jabrayil District**, where Armenian separatist forces were illegally stationed. On 13 December 2020, he travelled to **Fuzuli District** in a vehicle arranged by the **Gadabay District Hospital** and the Mobilization Department in order to collect his brother's body. After confirming that the deceased was his brother Azer Huseynov, he took the body and returned to **Gadabay District**, where, on 13 December 2020, his brother Azer Huseynov was buried in the cemetery in the village of **Novosaratovka, Gadabay District**.

Volume 122, case file pages 222–224.

Bagiyev Rashad Gudrat oğlu, recognized and questioned as a victim, testified that on 28 August 2020 he was seconded to military unit No. 073—

Page 334

—which formed part of military unit No. 052 of the Ministry of Defence. From that date, he served as deputy commander of the 3rd detachment of **Group F of military unit No. 072**, held the rank of captain, was provided with all types of supplies during his service, including food, and had experienced no problems with his service.

On 10 December 2020, in accordance with a combat assignment, two groups numbering more than one hundred persons were ordered to move from the direction of **Jabrayil**

District toward the **Qubadli and Lachin districts**. The purpose was to ensure the surrender or withdrawal of Armenian servicemen belonging to illegal armed formations from mountainous areas and villages located within the territory of the Republic of Azerbaijan and, in the event of resistance, to suppress them by return fire.

That day, the groups began moving in the indicated direction, and by the evening of 11 December 2020, at approximately 21:00, after passing the last village of Jabrayil District, they reached mountainous terrain in the direction of **Qubadli–Lachin**. In that area, approximately 40–50 metres from them, they encountered Armenian servicemen belonging to illegal formations, whose exact number could not be established. Those servicemen had established a post there and were performing duty.

The Azerbaijani servicemen demanded that the Armenian side lay down their weapons, surrender and leave the territory of Azerbaijan. However, one of the Armenian servicemen, speaking in Russian, stated that they would not surrender and, on the contrary, proposed that the Azerbaijani side surrender.

After this, an exchange of fire began. As a result of the exchange of fire, which lasted approximately 5–10 minutes, the Armenian side opened fire in their direction, during which senior sergeant **Avaz Abbasov** and soldier **Azer Huseynov** sustained fatal injuries and were killed. Five other servicemen were also wounded: soldiers **Nijat Gabibov**, **Abbas Babayev**, **Eldzhan Mammadov**, **Farid Imanaliyev**, and **Khayyam Javadov**.

After the Armenian side noticed that reinforcements were arriving for the Azerbaijani servicemen, they left the area. The groups remained at the scene until 05:00 on 12 December 2020. Evacuation teams then arrived and transported the dead and wounded to a military hospital. The remaining members of the groups continued their service in that area.

During the inspection of the area, fortified positions, trenches, weapons depots and tents used to accommodate Armenian armed formations were discovered, as well as a map indicating the presence of three additional firing positions. The wounded servicemen were subsequently evacuated to Hospital No. 214 and to the Internal Troops Hospital. He himself sustained a gunshot wound to the right thigh and had no other injuries.

Volume 122, case file pages 105–108.

Gabibov Nijat Mahir oglu, recognized and questioned as a victim, testified that on 11 December 2020, at approximately 15:00, under the command of the commander of **Group M**, **Major Ilgar Orujov**, and the commander of **Group F**, a serviceman holding the rank of captain, together with the personnel of Group F of military unit No. 073, they moved on foot from the said territory in the direction of **Jabrayil–Qubadli**, through mined territory, and began conducting searches, inspections and reconnaissance.

After walking approximately 6–7 kilometres, at around 20:00–21:00, in mountainous and wooded terrain, they saw the light of a flashlight. Looking more closely, they saw three persons performing armed patrol duty. All three were armed, and from the sounds of conversation in Armenian, as well as from the clothing they were wearing, they understood that they were Armenian servicemen.

At that time, they saw that behind those three persons there were personnel of Armenian saboteurs, i.e. Armenian servicemen numbering approximately 100 persons. After approximately 5–10 minutes of shooting, their servicemen, shouting in Russian, once again warned the Armenians and told them to surrender, but they did not surrender and told them that they should leave the territory within 20 minutes. An exchange of fire then broke out between them. At that time, they fired large-calibre weapons and used hand grenades. During the fighting, he sustained an injury to his left leg; in addition to him, five of his fellow servicemen — **Khayyam Javadov, Farid Imanaliyev, Abbas Babayev,**—

Page 335

Eldzhan Mammadov and Captain **Rashad Bagiyev** sustained injuries to various parts of the body, while two servicemen — **Azer Huseynov** and **Avaz Abbasov** — were killed by gunfire from the Armenian side. He further stated that there were numerous casualties among the Armenians during the fighting, after which the Armenian soldiers abandoned their positions and began running toward the village. Four servicemen, together with him, were then given first aid by a medic and were evacuated by military ambulances to a hospital, while the other servicemen continued fighting.

Volume 122, case file pages 117–120, 132–136.

Imanaliyev Farid Jabir oglu, recognized and questioned as a victim, testified that on 10 December 2020, at approximately 19:00–20:00, they reached the village of **Aghjakend, Khojavend District**; the said settlement consisted of mountainous and forested terrain.

On 11 December 2020, at approximately 15:00–16:00, under the command of the commander of Group F, Captain **Dadashev**, and the commander of Group M, Major **Ilgar Orujov**, in accordance with a combat assignment, together with the personnel of Group M of military unit No. 073, approximately 230 personnel fully prepared for combat began moving on foot from the said territory in the direction of **Jabrayil–Qubadli District**, and began carrying out searches, inspections and reconnaissance.

After they had travelled 6–7 kilometres on foot, at approximately 20:00–21:00, in mountainous and forested terrain, they saw the light of a flashlight. Looking more closely, they saw that three persons were performing armed patrol duty. All of them were armed and, from the sound of their conversation in Armenian, as well as from the clothing they were wearing, they understood that they were Armenian servicemen.

They warned the Armenians and told them to surrender, but they did not surrender, and an exchange of fire therefore began between them. At that time, the Armenians fired large-calibre weapons and used hand grenades. During the fighting, he sustained gunshot wounds to the forearm of his right arm and the thigh area of his right leg. In addition to him, five of his fellow servicemen — **Khayyam Javadov, Nijat Khabibov, Abbas Babayev, Eldzhan Mammadov**, and Captain **Rashad Bagiyev** — sustained injuries to various parts of the body, while two servicemen — **Azer Huseynov** and **Avaz Abbasov** — were killed by gunfire from the Armenian side.

He further stated that there were also numerous casualties among the Armenians during the fighting, after which the Armenian soldiers abandoned their positions and began running toward the village. Four servicemen, together with him, were then given first aid by a medic

and evacuated by military ambulances to a hospital, while the other servicemen continued fighting.

Volume 122, case file pages 113–116, 140–144.

Javadov Khayyam Zafar oğlu, recognized and questioned as a victim, testified that on 11 December 2020, pursuant to an assignment given by the command, the personnel of Groups M and F were to locate approximately 60–70 members of Armenian armed formations hiding in mountainous terrain within the territories of the **Qubadli and Jabrayil districts**, go there, conduct negotiations with the Armenian formations, secure their surrender and subsequently hand them over as appropriate; if it proved impossible to achieve this, they were to remove the Armenian armed formations from the territory by other means.

For the purpose of carrying out this assignment, at approximately 20:00–21:00 that evening, they moved on foot through the said territory in platoons consisting of 30–32 persons, approximately 120–130 persons in total. Because of the danger posed by mines in the area, four personnel equipped with **IMA-07 mine detectors** moved at the front.

At approximately 20:00–21:00, it was already dark. While they were moving as a detachment through mountainous terrain, he saw a light resembling that of a flashlight approximately 70 metres away. At that moment, he lay down on the ground in a combat-ready position. When the light was directed toward them, he realized that its source was an Armenian serviceman. Looking carefully in that direction, he saw several Armenians there. Although they initially attempted to conduct negotiations with the said servicemen and remove them from the territory, the Armenians—

Page 336

—suddenly opened fire. They then also began firing in the direction of the Armenian servicemen. During the fighting, he sustained injuries, namely a bullet wound to the left lower leg, but continued fighting.

The fighting lasted approximately one hour. During that time, extended-service servicemen of the group **Azer Huseynov** and **Avaz Abbasov** were killed, while soldiers **Nijat Khabibov**, **Eldzhan Mammadov**, **Farid Imanaliyev**, and Captain **Rashad Bagiyev** sustained injuries.

He further stated that there were numerous casualties among the Armenians during the fighting. The Armenian soldiers then abandoned their positions and began running toward the village. Four servicemen, together with him, were subsequently given first aid by a medic and evacuated by military ambulances to a hospital, while the other servicemen continued fighting.

Volume 122, case file pages 109–112, 148–152.

Mammadov Eldzhan Elbrus oğlu, recognized and questioned as a victim, testified that on 11 December 2020, at approximately 15:00–16:00, under the command of the commander of Group M, Major **Ilgar Orujov**, and the commander of Group F, Captain **Dadashev**, together with the personnel of Group F of military unit No. 073, numbering approximately 230 persons fully prepared for combat, they began moving on foot from the said territory in the

direction of **Jabrayil–Qubadli District**, and began carrying out searches, inspections and reconnaissance.

After travelling 6–7 kilometres on foot, at approximately 20:00–21:00, in mountainous and forested terrain within **Jabrayil District**, they took up positions held by Armenian saboteurs, i.e. approximately [number not specified in the text] Armenian servicemen. Because the weather was foggy and it was dark, it was impossible to determine precisely what weapons they had, but all of them were armed.

The Armenian servicemen saw them and began shooting at them. In response, for purposes of self-defence and returning fire against the enemy, they also began firing at them. At that time, the Armenians used large-calibre weapons and hand grenades.

While attempting to evade a bullet fired by an Armenian serviceman from an automatic weapon, he dislocated his leg. At the same time, five servicemen sustained injuries to various parts of the body, while two servicemen were killed. Although he did not know approximately how many Armenians were killed during the fighting, those who survived abandoned their positions and began to flee.

Since he was in a state of shock at the time, he did not know who had been killed. Among the wounded soldiers, he remembered **Abbas Babayev, Khayyam Javadov, and Nijat Khabibov**, but did not know who the other two wounded persons were. A feldsher of Group F provided first aid to the five wounded servicemen, after which they were evacuated to a military hospital by military ambulance.

Volume 122, case file pages 100–103, 212–216.

Babayev Abbas Yadulla oglu, recognized and questioned as a victim, testified that on 11 December 2020, at approximately 12:00, pursuant to an assignment given by the command, before darkness fell the personnel of Groups M and F of military unit No. 073 were to locate 50 members of Armenian armed formations hiding in mountainous terrain within the territories of the **Qubadli and Jabrayil districts**, go there, conduct negotiations with the Armenian formations, secure their surrender and subsequently hand them over as appropriate; if this proved impossible, they were to remove the Armenian armed formations from the territory by other means.

Each group consisted of 120–130 personnel. They began carrying out the assignment. The weather at that time was cold, the ground was covered with snow, and they were wearing white camouflage uniforms. The terrain through which they moved was mountainous and sparsely wooded, with only occasional bushes. They therefore moved through the said territory on foot, in platoons consisting of 30–32 persons, approximately 120–130 persons in total.

Because of the danger posed by mines in the area, four personnel equipped with **IMA-07 mine detectors** moved at the front. At approximately 20:21, it was already dark. While they were moving as a detachment through mountainous terrain, they saw a light resembling that of a flashlight approximately 70 metres away. At that moment, he lay down on the ground in a combat-ready position—

—when the light was directed toward them, he realized that its source was an Armenian serviceman. Looking carefully in that direction, he saw that there were several Armenians there. Suddenly, an Armenian serviceman fired in their direction, and they also began firing. The exchange of fire continued for approximately two minutes. They then attempted to conduct negotiations in Russian with the said servicemen so that they would voluntarily surrender and leave the territory, but the Armenians suddenly opened fire again, at which point they likewise began firing in the direction of the Armenian servicemen.

He further stated in his testimony that during the exchange of fire, the Armenian side used large-calibre weapons and grenades. During the fighting, they were able to neutralize approximately four or five members of the Armenian armed formations and also wounded some of them. Thereafter, the Armenian servicemen left the area and fled toward a nearby village.

After the opposing side withdrew, the Azerbaijani servicemen occupied the area. They had previously used a structure belonging to the Armenian armed formations as a base. During the fighting, he felt pain in the area above his left eyebrow and went to a doctor who was at the scene. After examining him, the doctor informed him that he had sustained an injury.

He later learned that one member of their group, extended-service serviceman **Azer Huseynov**, had been killed as a result of fire opened by the Armenian formations. Soldiers **Nijat Khabibov**, **Khayyam Javadov**, and **Eldzhan Mammadov** were also wounded. In the other group (**Group F**), one serviceman was killed and a captain was wounded, but he did not know the name of either serviceman.

Medical assistance was promptly provided to all wounded servicemen. The unit then continued carrying out the assigned mission, proceeding to the area toward which the retreating Armenian forces had withdrawn, in the direction of a village in **Jabrayil District**.

Volume 122, case file pages 78–81, 205–209.

According to forensic medical expert opinion No. **1923** dated 22 December 2020, the following injuries were identified during the examination of the body of **Abbasov Avaz Mayis oglu**: an entrance wound on the posterior surface of the proximal phalanx of the fifth finger of the right hand and an exit wound on the palmar surface of the distal phalanx, with fractures of the phalanges, corresponding to a through-and-through gunshot wound of the fifth finger of the right hand; an entrance wound on the anterior surface of the chest, with the bullet travelling from left to right, from top to bottom and from front to back, resulting in injury to the left lung and heart, fractures of the sternum and the left first rib, massive bleeding into the thoracic cavity (**2,500 ml**) and left-sided hemopneumothorax, as well as damage to the soft tissues at the level of the posterior processes of the lumbar vertebrae.

These injuries resulted from a gunshot bullet wound passing through the chest. The said injuries were fatal and were caused by one or more shots from a firearm. The bullet or bullets were fired from a distance of several moments before death. The cause of death of **Abbasov Avaz Mayis oglu** was acute blood loss resulting in traumatic hemorrhagic shock caused by a gunshot wound to the chest.

Volume 122, case file pages 184–186.

According to forensic medical expert opinion No. **1924** dated 22 December 2020, the following injuries were identified during the examination of the body of **Huseynov Azer Mahal oğlu**: an entrance wound on the anterior surface of the left lateral wall of the chest and an exit wound in the upper outer quadrant of the right buttock, with the bullet travelling from left to right, from top to bottom and from front to back, resulting in injuries to the left lung, diaphragm, stomach, intestine and abdominal aorta, a fracture of the right pelvic bone, as well as massive bleeding into—

Page 338

—the thoracic and abdominal cavities (**3,000 ml**), left-sided hemopneumothorax and hemoperitoneum, resulting from a combined gunshot bullet wound of the chest and abdominal cavity. The said injury was fatal and resulted from a single shot fired from a firearm.

The cause of death of **Huseynov Azer Mahal oğlu** was acute internal bleeding caused by a gunshot wound to the chest and abdominal cavities, resulting in traumatic hemorrhagic shock.

Volume 122, case file pages 187–189.

According to forensic medical expert opinion No. **1649** dated 14 January 2021, the following injuries were identified during the examination of **Javadov Khayyam Zafar oğlu**: a penetrating wound of the left eye and disruption of the integrity of the left eyeball resulting from a shot fired from a firearm. In terms of severity, this injury is classified as grievous bodily harm.

Volume 122, case file pages 192–193.

According to forensic medical expert opinion No. **1657** dated 06 January 2021, the following injuries were identified during the examination of **Bagiyev Rashad Gudret oğlu**: a through-and-through gunshot wound passing through the soft tissues of the middle third of the right thigh, and a gunshot bullet wound injuring the left thigh and causing minor tissue damage. These injuries were caused by a shot fired from a firearm and are classified as causing minor harm to health.

Volume 122, case file pages 237–238.

According to forensic medical expert opinion No. **1648** dated 14 January 2021, the following injuries were identified during the examination of **Imanaliyev Farid Jabir oğlu**: gunshot bullet wounds passing through the right thigh and the right shoulder region, resulting from shots fired from a firearm. These injuries are classified as causing minor harm to health.

Volume 217, case file pages 3–4.

According to forensic medical expert opinion No. **1647** dated 14 January 2021, the following injuries were identified during the examination of **Khabibov Nijat Mahir oğlu**: a gunshot bullet wound to the left leg; an open fracture, with slight displacement, of the medial middle portion of the tibia and of the proximal end of the second metatarsal bone, resulting from a shot fired from a firearm. These injuries are classified as causing minor harm to health.

Volume 217, case file pages 7–8.

According to forensic medical expert opinion No. **12** dated 02 February 2021, the following injuries were identified during the examination of **Babayev Abbas Yadulla oglu**: one blind fragment wound in the area of the left groin, not penetrating into the abdominal cavity, caused by the impact of a fragment separated from a projectile as a result of blast trauma, and classified as causing minor harm to health.

Volume 217, case file pages 95–96, 113.

According to forensic medical expert opinion No. **13** dated 02 February 2021, the following injuries were identified during the examination of **Mammadov Eldzhan Elbrus oglu**: concussion of the brain resulting from the impact—

Page 339

—of a shock wave in blast trauma and classified as causing minor harm to health.

Volume 217, case file pages 97–98, 112.

According to opinion No. **3/2155** of the Forensic Examination Center dated 19 February 2021, damage in the quantity and dimensions specified in the examination section of the opinion was found on items of clothing belonging to **Abbasov Avaz Mayis oglu**, namely a long-sleeved shirt, military sweater, long-sleeved undershirt and the right part of a glove.

Although no traces of metallic copper were detected around the damage, its shape, dimensions and morphological structure, as well as the presence around the damage of particles of smokeless powder, which constitute an additional indication of a shot, make it possible to conclude that the damage on the front part of the long-sleeved shirt, military sweater, long-sleeved undershirt and upper part of the right glove constitutes **entrance damage**. The damage on the inner side of the right glove constitutes **exit damage**.

The said damage resulted from two shots fired from a rifled firearm, the bullets from which left characteristic traces: on the long-sleeved shirt, military sweater and long-sleeved undershirt — from front to back; and on the right glove — from top to bottom and from right to left. The firing distance exceeded one metre. However, it is impossible to determine the specific type and calibre of firearm from which the shots were fired. The damage to the clothing corresponds to the stated circumstances.

On other items of clothing presumably belonging to **Abbasov Avaz Mayis oglu**, namely a sleeveless shirt, waist belt, balaclava, military trousers, warm underpants, a pair of soldiers' boots, a pair of socks and the left part of the glove, particles of smokeless powder were detected, constituting an additional indication of a shot.

Volume 217, case file pages 76–81.

According to opinion No. **3/2156** of the Forensic Examination Center dated 19 February 2021, damage in the quantity and dimensions specified in the examination section of the opinion was found on items of clothing belonging to **Huseynov Azer Mahal oglu**, namely a

military sweater, two long-sleeved undershirts, a short-sleeved undershirt, military trousers, warm underpants and underwear.

Despite the absence of traces of metallic copper around the damage, its shape, dimensions and morphological structure, as well as the presence around the damage of particles of smokeless powder, which constitute an additional indication of a shot, make it possible to conclude the following: the damage on the front part of the military sweater, the two long-sleeved undershirts and the short-sleeved undershirt constitutes **entrance damage**. The damage on the rear part of the sweater, the two long-sleeved undershirts, the short-sleeved undershirt, military trousers and warm underpants constitutes **exit damage**.

This damage resulted from a single shot fired from a rifled firearm. The bullet travelled from front to back, from left to right, from a distance exceeding one metre. However, it is impossible to determine the specific type and calibre of firearm from which the shot was fired. The damage to the clothing corresponds to the stated circumstances.

On other items presumably belonging to **Huseynov Azer Mahal oğlu**, namely a pair of soldiers' boots and a pair of socks, particles of smokeless powder were detected, constituting an additional indication of a shot.

Volume 217, case file pages 82–87.

On the basis of the decision issued on 31 March 2021, a military sweater, two long-sleeved undershirts, one sleeveless undershirt, military trousers, warm lower—

Page 340

—trousers, underpants, one pair of soldiers' boots and one pair of socks belonging to junior sergeant **Huseynov Azer Mahal oğlu**, as well as a long-sleeved military shirt, military sweater, long-sleeved undershirt, right glove, sleeveless shirt, waist belt, balaclava, military trousers, warm lower trousers, one pair of soldiers' boots, one pair of socks and the left glove belonging to soldier **Abbasov Avaz Mayis oğlu**, were recognized as physical evidence. Due to the large volume of the said physical evidence, it was packaged and is being stored in the evidence room of the Special Investigation Department.

Volume 217, case file pages 89–91.

Abbasov Ulfat Namaz oğlu, driver of the vehicle detachment of the logistics platoon of the 3rd regiment of military unit No. 161 of the Ministry of Defence; **Lieutenant Abbasov Rashad Yaver oğlu**, commander of the communications platoon of the said regiment and designated senior vehicle officer; **Safarov Shahveran Fazail oğlu**, a soldier of the logistics platoon; and **Kovalsky Raul Borisovich**, a soldier of the communications platoon, on 09 December 2020, at approximately 17:10, after taking dinner for the personnel of the 9th company stationed in the village of **Marzili, Aghdam District**, in a **KamAZ-43114** vehicle bearing military registration number **D588QQ**, belonging to the logistics platoon, and while returning, struck an anti-tank mine planted by Armenian armed formations on the supply route passing through the territory of the said village.

As a result of the explosion of the said mine, the servicemen travelling in the vehicle — **Ulfat Abbasov** and **Rashad Abbasov** — sustained injuries diagnosed as “**barotrauma caused by**

a shock wave”; **Shahveran Safarov** was diagnosed with “**blast injury, barotrauma, atheroma of the parietal region of the head, wound of the upper third of the right lower leg**”; **Raul Kovalsky** sustained no injuries. Material damage was caused to the **KamAZ-43114** vehicle bearing military registration number **D588QQ**.

On 09 December 2020, at approximately 17:10, after the driver of the vehicle detachment of the logistics platoon of the 3rd regiment of military unit No. 161 of the Ministry of Defence, **Abbasov Ulfat Namaz oglu**; commander of the communications platoon of the said regiment and designated senior vehicle officer, Lieutenant **Abbasov Rashad Yaver oglu**; soldier of the logistics platoon **Safarov Shahveran Fazail oglu**; and soldier of the communications platoon **Kovalsky Raul Borisovich**, travelling in a **KamAZ-43114** vehicle bearing military registration number **D588QQ** and belonging to the logistics platoon, had taken dinner to the personnel of the 9th company stationed in the village of **Marzili, Aghdam District**, and were returning, they struck an anti-tank mine planted by Armenian armed formations on the supply route passing through the territory of the said village.

As a result of the explosion of the said mine, the servicemen travelling in the vehicle — **Ulfat Abbasov** and **Rashad Abbasov** — sustained injuries diagnosed as “**barotrauma caused by a shock wave**”; **Shahveran Safarov** was diagnosed with “**blast injury, barotrauma, atheroma of the parietal region of the head, wound of the upper third of the right lower leg**”; **Raul Kovalsky** sustained no injuries. Material damage was caused to the **KamAZ-43114** vehicle bearing military registration number **D588QQ**.

According to a certificate issued by the **Karabakh Military Prosecutor’s Office** and signed by **Sarukhan Sarukhanov**, Chief of Staff–Deputy Commander of military unit No. 161, it is apparent that, in connection with the **KamAZ-43114** vehicle bearing military registration number **D588QQ**, belonging to the military unit and rendered unusable in the territory of the village of **Marzili, Aghdam District**, on 09 December 2020 at approximately 17:10—

Page 341

—because there were grounds to believe that the said territory was mined, access to the area was restricted.

It is apparent from the item-inspection protocol dated 30 December 2020 that an inspection was conducted of the **KamAZ-43114** vehicle bearing military registration number **D588QQ**, which had struck an anti-tank mine on 09 December 2020 in the territory of the village of **Marzili, Aghdam District**.

Volume 213, case file pages 101–110.

According to forensic medical expert opinion No. **01** dated 11 January 2021, **Sh.F. Safarov** sustained the following injuries: barotrauma resulting from a pressure differential in the middle ear caused by the blast wave of an explosion, as well as an abrasion wound to the middle third of the right lower leg resulting from the impact of a blunt object. These injuries did not cause harm to health, and therefore their degree of severity was not determined.

Volume 213, case file page 177.

According to forensic medical expert opinion No. **02** dated 11 January 2021, no injuries or traces of injuries whatsoever were found on the body of **R.B. Kovalsky**.

Volume 213, case file page 178.

According to forensic medical expert opinion No. **03** dated 11 January 2021, **U.N. Abbasov** sustained barotrauma resulting from a pressure differential in the middle ear caused by the blast wave of an explosion. These injuries did not cause harm to health, and therefore their degree of severity was not determined.

Volume 213, case file page 179.

According to forensic medical expert opinion No. **04** dated 11 January 2021, **R.Ya. Abbasov** sustained barotrauma resulting from a pressure differential in the middle ear caused by the blast wave of an explosion. These injuries did not cause harm to health, and therefore their degree of severity was not determined.

Volume 213, case file page 180.

According to forensic ballistic and forensic trace examination opinions Nos. **3/295 and 3/305** dated 30 April 2021, based on the shape and morphological structure of the damage present on the **KamAZ-43114** vehicle bearing military registration number **D588QQ**, the damage to the vehicle resulted from the explosion of an explosive device, from the effects of a blast occurring at a distance close to the centre of the explosion, and is characteristic of damage inflicted from the rear toward the front.

Volume 213, case file pages 189–191.

Abbasov Ulfat Namaz oglu, recognized and questioned as a victim, testified that on 09 December 2020 he had been assigned to deliver food to the personnel of the 7th and 9th companies. That day, at approximately 16:00, in order to distribute dinner to the companies, he set out together with the senior vehicle officer, Lieutenant **Rashad Abbasov**, cook-soldier **Shahveran Safarov**, and communications platoon soldier **Raul Kovalsky**. Soldier Raul Kovalsky travelled with them because there was a problem with communications between the regiment and the companies.

They first distributed food to the 7th company, then to the 9th company and to the combat positions. After distributing food at combat position No. 27 of the 9th company, they began reversing along the supply route because the road was narrow. At that time, he heard the sound of an explosion. They immediately got out and saw that the left rear wheel of the vehicle had struck an anti-tank mine.

He reported the incident to **Captain Eltun Jafarov**, Deputy Regiment Commander for Logistics. On **10 December 2021**, he was sent for treatment and—

Page 342

—examination to Hospital No. 214, where he was prescribed treatment with the diagnosis “**blast injury, headache following the effects of a shock wave.**”

Volume 213, case file pages 96–99, 128–130.

Abbasov Rashad Yaver oglu, recognized and questioned as a victim, testified that on 09 December 2020, **Ulfat Abbasov** had been assigned to deliver food to the personnel of the 7th and 9th companies. That day, at approximately 16:00, driver Ulfat Abbasov set out to distribute dinner to the companies together with him in his capacity as the senior vehicle officer, cook-soldier **Shahveran Safarov**, and communications platoon soldier **Raul Kovalsky**. Soldier Raul Kovalsky travelled with them because there was a problem with communications between the regiment and the companies.

They first distributed food to the 7th company, then to the 9th company and to the combat positions. After distributing food at combat position No. 27 of the 9th company, they began reversing along the supply route because the road was narrow. At that time, he heard the sound of an explosion. They immediately got out and saw that the left rear wheel of the vehicle had struck an anti-tank mine.

Volume 213, case file pages 92–95, 136–138.

Safarov Shahveran Fazail oglu, recognized and questioned as a victim, testified that on 09 December 2020, **Ulfat Abbasov** had been assigned to deliver food to the personnel of the 7th and 9th companies. That day, at approximately 16:00, driver Ulfat Abbasov set out to distribute dinner to the companies together with the senior vehicle officer **Rashad Abbasov**, himself in his capacity as a cook-soldier, and communications platoon soldier **Raul Kovalsky**. Soldier Raul Kovalsky travelled with them because there was a problem with communications between the regiment and the companies.

They first distributed food to the 7th company, then to the 9th company and to the combat positions. After distributing food at combat position No. 27 of the 9th company, they began reversing along the supply route because the road was narrow. At that time, he heard the sound of an explosion. They immediately got out and saw that the left rear wheel of the vehicle had struck an anti-tank mine.

Volume 213, case file pages 84–87, 120–122.

Kovalsky Raul Borisovich, recognized and questioned as a victim, testified that on 09 December 2020, **Ulfat Abbasov** had been assigned to deliver food to the personnel of the 7th and 9th companies. That day, at approximately 16:00, he set out to distribute dinner to the companies together with driver Ulfat Abbasov, senior vehicle officer **Rashad Abbasov**, and cook-soldier **Shahveran Safarov**.

He travelled with them because there was a problem with communications between the regiment and the companies. They first distributed food to the 7th company, then to the 9th company and to the combat positions. He resolved the communications problem that existed with the 9th company. After they distributed food at combat position No. 27 of the 9th company, they began reversing along the supply route because the road was narrow.

At that time, he heard the sound of an explosion. They immediately got out and saw that the left rear wheel of the vehicle had struck an anti-tank mine. He reported the incident to **Captain Eltun Jafarov**, Deputy Regiment Commander for Logistics. During an

examination at the military unit's medical station, no injuries or traces of injuries whatsoever were found on him.

Volume 213, case file pages 88–91, 144–146.

Jafarov Anar Intigam oğlu, questioned as the representative of military unit No. 161, which had been recognized as a victim, testified that on 09 December 2020, at approximately 18:00, he was informed that a **KamAZ-43114** vehicle bearing military registration number **D588QQ**, belonging to the logistics platoon of the 3rd regiment, had struck an anti-tank mine at approximately 17:00 near the village of **Marzili, Aghdam District**. Several days later, the said vehicle was—

Page 343

—brought to the motor pool of the military unit, where an internal inspection commission conducted a technical inspection of the vehicle and drew up a defect report. As a result, the vehicle was found to be unfit for use, and material damage was caused to military unit No. 161.

Volume 213, case file pages 157–159.

Jafarov Eltun Hasan oğlu, questioned as a witness, testified that on 09 December 2020 **Ulfat Abbasov** contacted him and stated that the vehicle in which they had travelled to distribute food in the territory of the 9th company had struck a mine and had become unfit for use. He reported the incident to the command, and the servicemen who had been in the vehicle were sent to the medical station of the military unit for examination and subsequently to Hospital No. 214.

Volume 213, case file pages 79–82.

On 13 December 2020, at approximately 16:20, **Hasanli Ayaz Hasrat oğlu**, a soldier serving as senior rifleman of the 3rd squad of the 1st platoon of the 15th company of the 5th battalion of military unit No. 190 of the Ministry of Defence; **Huseynov Shamistan Sabir oğlu**, a soldier serving as a grenade launcher operator in the said squad; **Ibrahimov Vugar Ayaz oğlu**, a soldier serving as driver of the said platoon; **Akperov Samir Safar oğlu**, a lieutenant of the medical service and doctor at the medical station of the military unit; and **Askerov Anar Telman oğlu**, a senior lieutenant and commander of the 15th company of the **50th battalion**, stepped on a mine in the village of **Shykhlar, Aghdam District**.

On 13 December 2020, at approximately 14:00, **Ibrahimov Vugar Ayaz oğlu**, a soldier serving as driver of the 1st platoon of the 15th company of the 5th battalion of military unit No. 190 of the Ministry of Defence, together with **Huseynov Shamistan Sabir oğlu**, a soldier serving as grenade launcher operator of the 3rd squad of the 1st platoon of the said company, went to inspect former positions of Armenian armed formations in the territory of the village of Shykhlar, Aghdam District, within the territory of the company in which they served, and proceeded toward a combat position.

While moving through the trenches, **V.A. Ibrahimov** was the first to step on an anti-personnel mine and sustained injuries described as “**traumatic amputation of both lower extremities at the level of the lower third of the lower legs, hemorrhagic and traumatic**

shock, Grade III, as a result of trauma caused by a mine explosion.” Sh.S. Huseynov, who was walking behind him, then stepped on an anti-personnel mine and sustained injuries described as “blast injury, subtotal traumatic amputation of the left lower extremity at the level of the upper third of the lower leg.”

Thereafter, **Hasanli Ayaz Hasrat oğlu**, senior rifleman of the 3rd squad of the 1st platoon of the 15th company of the 5th battalion, arrived to assist his fellow servicemen, stepped on an anti-personnel mine and sustained injuries described as **“fracture of the left leg at the level of the lower third of the lower leg, open fractures of the talus and tarsal bones, as well as subtotal amputation of the first toe.”**

Nearby, an anti-personnel mine exploded next to **Akperov Samir Safar oğlu**, a lieutenant of the medical service and doctor at the medical station of the military unit, who had arrived there to provide medical assistance to the said servicemen. As a result of the explosion, **S.S. Akperov** sustained an injury described as **“barotrauma.”**

During the evacuation of soldiers **Sh.S. Huseynov, V.A. Ibrahimov, and A.H. Hasanli**, senior lieutenant **Askerov Anar Telman oğlu**, commander of the 15th company of the 5th battalion, sustained injuries as a result of a mine explosion described as **“mine-blast injury, blast wave, a small incised wound in the area of the right zygomatic part of the face.”** Soldier **Gurbanov Jeyhun Ashraf oğlu** sustained injuries described as **“blast injury, blast wave,”** while Captain **Hasanov Jamil Adil oğlu** sustained injuries described as **“mine-blast injury, barotrauma, bilateral sensorineural hearing loss of severe Grade I, as well as a contusion of the soft tissues of the upper third of the right lower leg.”** They were evacuated to military unit No. 056.

Akperov Samir Safar oğlu, a lieutenant of the medical service and doctor at the medical station of military unit No. 190, recognized and questioned as a victim—

Page 344

—testified that on 13 December 2020, at approximately 15:00–16:00, **Ibrahimov Firuz Gazanfar oğlu**, a senior lieutenant of the medical service and head of the medical station of the 5th battalion of military unit No. 190, informed him that two soldiers had stepped on a mine and sustained injuries in the territory of the 15th company, near combat position No. 5.

Together with **F.G. Ibrahimli**, he went to the 15th company, where two servicemen were present. They travelled in an official vehicle toward combat position No. 5, after which they got into a trench running through territory previously known as neutral territory.

At the time of the incident, the company commander telephoned a soldier named **Ayaz**, who informed him about those injured by the mine explosion and specified their location. The soldier gave directions over the telephone. While moving through the trench, the commander noticed that one of the soldiers had carried a wounded man into the trench.

The commander approached the injured man, who was lying on the ground, and asked him what had happened and what injuries he had sustained. Soldier **Huseynov Shamistan Sabir oğlu** replied that he was in pain but could not specify exactly which parts of his body were injured. During the examination, he found that the soldier had a blast wound to the middle

third of the left lower leg, as well as an open comminuted fracture of the bones of the lower leg.

He remained with the injured man, while the commander of the 15th company proceeded to the scene together with him, to a location previously used as an observation post by Armenian armed formations. They were accompanied by **Major Inshallah Musayev**, Deputy Commander of the 5th battalion for Logistics.

They noticed that one soldier was standing motionless on an earthen embankment approximately 100 metres away, while another was lying wounded on the ground in a trench approximately 4–5 metres from the first. He initially wanted to approach the wounded men, but the soldier on the embankment warned him that the area was mined and advised him to be careful.

The commander instructed a soldier to assist the wounded man; however, shortly thereafter, an explosion was heard near that soldier, after which he fell into the trench. Continuing along the path on the earthen embankment, the commander and those accompanying him reached the wounded men.

Captain of Justice Jamil Hasanov and **Firuz Ibrahimov** descended into the trench and began providing assistance. One of the wounded men, **Ibrahimov Vugar Ayaz oglu**, was lying near the stretcher. Hasanov and Ibrahimov lifted one of the wounded men and handed him to the commander, who placed him on a medical stretcher. The second wounded man was then also lifted from the trench and placed on a stretcher.

While the wounded men were being transported through a sector exposed to fire on the earthen embankment, the commander heard an explosion beneath his left foot. Without losing his composure, he moved forward approximately 1–2 metres and carefully placed the stretcher on the ground. The blast wave struck him in the face, causing severe discomfort. Particles of soil and foreign objects adhered to his face.

The wounded men were evacuated to military unit No. 056. He learned that the soldiers had been serving at combat position No. 5 and had gone to inspect the territory located in front of the liberated combat post. As a result of explosions of anti-personnel mines, three soldiers were wounded. He himself sustained no physical injuries but suffered blast trauma and shock from the explosion.

Volume 212, case file pages 55–57, 176–180.

Hasanli Ayaz Hasrat oglu, senior rifleman of the 3rd squad of the 1st platoon of the 15th company of the 5th battalion of military unit No. 190 of the Ministry of Defence, recognized and questioned as a victim, testified that on 13 December 2020, at approximately 14:00, while he was on a mound located within the territory of the 15th company, he heard a conversation that his fellow servicemen **Huseynov Shamistan Sabir oglu** and **Ibrahimov Vugar Ayaz oglu** had gone to inspect a post previously under the control of Armenian armed formations, located in front of combat position No. 5 in the village of **Shykhlar, Aghdam District**.

Some time later, **V.A. Ibrahimov** and **Sh.S. Huseynov** went in the direction of combat position No. 5. Approximately 30 minutes later, he heard the sound of an explosion and

shouting. As soon as he heard the explosion, he immediately went to the said area. He first went to combat position No. 5 and looked for the soldier there but was unable to find him. He then heard screams nearby and, moving in the direction of the sound, saw soldier **Ibrahimov Vugar Ayaz oğlu** and soldier **Huseynov**—

Page 345

Shamistan Sabir oğlu and **Ibrahimov Vugar Ayaz oğlu** were lying on the ground approximately 5 metres apart. When he approached the soldiers, he saw that Huseynov Shamistan Sabir oğlu's right leg had been shattered, while both of Ibrahimov Vugar's legs had been shattered below the knees and were covered in blood.

Upon seeing the injured soldiers, he immediately called the platoon commander, **Lieutenant Khazar Alaskarov**, and informed him that their fellow servicemen had struck a mine and sustained injuries. The lieutenant replied that he and a support group would go to the scene to evacuate them.

Approximately one hour later, **Captain Jamil Hasanli**, Assistant Commander of the military unit for Legal Affairs, battalion doctors — Medical Lieutenant **Samir Akperov** and another doctor holding the rank of senior lieutenant — arrived at the scene. They stood on the earthen embankment in order to assist with the evacuation.

First, **Huseynov Shamistan Sabir oğlu** was lifted onto the earthen embankment and evacuated. They were then ordered to lift **Vugar Ibrahimov**. When he lifted Vugar in his arms and moved forward, stepping on an area resembling a post constructed from concrete, an explosion suddenly occurred. As a result of the explosion, his left leg began bleeding, his boot was torn apart, and the bones of his leg separated.

Soldier **Vugar Ibrahimov**, whom he was carrying in his arms, fell to the ground. With the assistance of the evacuation team, Ibrahimov was lifted out of the trench, placed on a stretcher and carried onto the earthen embankment.

Approximately 10 metres later, another explosion occurred, and Medical Lieutenant **Samir Akperov**, who was holding one of the stretcher handles, struck an anti-personnel mine but did not sustain serious injuries. He himself was lifted onto the earthen embankment with the assistance of **Captain Hasanli** and another doctor and was then evacuated to Military Hospital No. 056.

The following day, he was taken to the **Main Clinical Hospital of the Armed Forces**, where he underwent surgery.

The command had previously warned that areas formerly controlled by Armenian servicemen could be mined. Nevertheless, Vugar Ibrahimov and others, including Shamistan Huseynov, entered that area without authorization from the command. As a result of the anti-personnel mine explosions, Vugar Ibrahimov sustained injuries to both legs, particularly the right foot, while soldier **Huseynov Shamistan Sabir oğlu** also sustained an injury to his right leg.

Volume 212, case file pages 84–86.

The victims **Ibrahimov Vugar Ayaz oglu, Huseynov Shamistan Sabi oglu, Hasanov Jamil Gadimali oglu, Gurbanov Jeyhun Ashraf oglu, and Askerov Anar Telman oglu,** recognized and questioned as such, gave testimony similar to that of **Hasanli Ayaz Hasrat oglu.**

Volume 134, case file pages 14–17, 24–27, 35–38, 93–96, 102–104.

According to forensic medical expert opinion No. **107** dated 08 February 2021, **Akperov Samir Safar oglu** sustained the following injuries: closed craniocerebral trauma, concussion of the brain, foreign bodies in the sclerae of both eyes, and multiple blind fragment wounds in the forehead and right temple area. These injuries resulted from the impact of fragments formed during the explosion of small-arms ammunition and are classified as causing minor harm to health.

Volume 212, case file pages 229–230.

According to forensic medical expert opinion No. **1691** dated 15 January 2021, **Ibrahimov Vugar Ayaz oglu** sustained the following injuries: amputation of both lower legs at the level of the middle third and traumatic hemorrhagic shock of Grade III–IV. These injuries resulted from the impact of fragments formed during the explosion of small-arms ammunition and are classified as grievous bodily harm.

Volume 212, case file pages 204–205.

Page 346

According to forensic medical expert opinion No. **1692** dated 26 January 2021, **Huseynov Shamistan Sabir oglu** sustained the following injuries: extensive wounds with soft-tissue defects of the left lower leg and foot; traumatic amputation of the first toe of the left foot; open comminuted fractures of the diaphysis of the left tibia in its middle and upper thirds, of the lower third of the fibula, as well as of the **I–IV tarsal bones of the left foot**, with fragments and displacement; multiple blind fragment wounds of the left arm and right lower leg; and traumatic hemorrhagic shock of Grade II. These injuries resulted from the impact of fragments formed during the explosion of small-arms ammunition and are classified as grievous bodily harm.

Volume 212, case file pages 202–203.

According to forensic medical expert opinion No. **1693** dated 26 January 2021, **Hasanli Ayaz Hasrat oglu** sustained the following injuries: lacerated and crushed wounds of the left foot; closed comminuted fractures of the lower third of the femur; fractures with fragmentation and displacement of the **I–V metatarsal bones**, as well as fractures with fragmentation and displacement of the distal phalanges of the first and second toes, the fourth toe, and the proximal and distal phalanges of the third toe; thermal burns and hematomas in the area of the left lower leg; multiple fragment wounds of the left thigh; and traumatic hemorrhagic shock of Grade II. These injuries resulted from the impact of fragments formed during the explosion of small-arms ammunition and are classified as grievous bodily harm.

Volume 212, case file pages 206–207.

According to forensic medical expert opinion No. **351** dated 09 March 2021, **Askerov Anar Telman oglu** sustained the following injuries: closed craniocerebral trauma, concussion of the brain, and barotrauma (**bilateral cochlear neuritis and bilateral sensorineural hearing loss resulting from barotrauma**) caused by the effects of a blast wave. These injuries are classified as grievous bodily harm.

Volume 212, case file page 258.

According to forensic medical expert opinion No. **319** dated 01 March 2021, **Gurbanov Jeyhun Ashraf oglu** sustained the following injuries: barotrauma (**bilateral cochlear neuritis, bilateral sensorineural hearing loss, with whispered speech perceived at a distance of 4 metres by the right ear and 2 metres by the left ear**), closed craniocerebral trauma, and concussion of the brain, caused by the effects of a blast wave and blunt objects. These injuries are classified as causing minor harm to health.

Volume 212, case file page 277.

According to forensic medical expert opinion No. **379** dated 29 March 2021, **Hasanov Jamil Gadimali oglu** sustained the following injuries: closed craniocerebral trauma, concussion of the brain, and barotrauma (**bilateral cochlear neuritis and bilateral sensorineural hearing loss**) caused by the effects of a blast wave. These injuries are classified as causing minor harm to health.

Volume 134, case file page 40.

Major Musayev Inshallah Agamusa oglu, Deputy Commander of the 5th Battalion of military unit No. 190 for Logistics, questioned as a witness, testified that on 13 December 2020, at approximately 15:00, while he was in his office, he received information that soldiers of the 15th company, **Ibrahimov Vugar Ayaz oglu** and **Huseynov Shamistan Sabir oglu**, had struck a mine in front of combat position No. 5 in an area—

Page 347

—previously under Armenian control. When he went there, he saw that the said soldiers had stepped on mines and sustained injuries to their legs. Soldier **Ayaz Huseynov** was then instructed to carry the wounded soldiers. When soldier Ayaz Huseynov took soldier **Shamistan Huseynov** in his arms, he also stepped on a mine and sustained injuries. At that time, a mine exploded near the doctor, Medical Lieutenant **Samir Akperov**, who was present there to provide medical assistance to the wounded, and the latter sustained injuries. Thereafter, all of the wounded were evacuated.

Volume 212, case file pages 154–157.

Aliyev Rashad MaZakhir oglu, questioned as a witness, gave testimony similar to that of witness **Musayev Inshallah Agamusa oglu** and confirmed his testimony.

Volume 212, case file pages 150–153.

According to an extract from Order No. **361** of the commander of military unit No. 190 dated 15 December 2020, Lieutenant **Hasanov Jamil Gadimali oglu** was appointed Assistant Commander of military unit No. 190 for Legal Affairs.

Volume 212, case file pages 27–29, 143, 247, 289.

Talibli Asif Soltanagha oglu, a soldier serving as senior sapper of the 2nd squad of the engineer-sapper platoon of the engineer-sapper company of military unit No. 161 of the Ministry of Defence, and **Ibadov Mahammad Shahriddin oglu**, a soldier serving as sapper of the 1st squad of the obstacle-clearance platoon of the said company, pursuant to an order of the commander of military unit No. 161 **“On the engineering preparation of combat positions, observation posts, supply routes, evacuation and communication routes and concealed installations, and the provision of combat positions with wired communications,”** on 14 December 2020, at approximately 13:10, under the supervision of **Senior Lieutenant Kamran Hajiyeu**, Assistant Chief of the Engineering Service of the military unit, were carrying out demining work at a former Armenian position around the village of **Marzili, Aghdam District**, liberated from occupation.

At that time, at combat position No. 33 of military unit No. 161, soldier **A.S. Talibli** stepped on an anti-personnel mine and, as a result of the mine explosion, sustained injuries described as **“mine-blast injury resulting in grievous harm to health and causing a permanent loss of one-third of total working capacity; traumatic amputation of the lower third of the left lower leg; fragment wounds to both lower extremities; superficial fragment wounds to the right lower leg; traumatic hemorrhagic shock, Grade II.”**

Soldier **M.Sh. Ibadov**, who was nearby, sustained injuries classified as minor harm to health, described as **“blast injury; foreign bodies in the subcutaneous soft tissues behind the right auricle; abrasions on the right half of the face and neck.”** They were evacuated to Military Hospital No. 056.

According to a certificate issued by the Chief of Staff of military unit No. 161 concerning the injuries sustained by soldiers of the engineer-sapper company **Talibli Asif Soltanagha oglu** and **Ibadov Mahammad Shahriddin oglu** at approximately 13:10 on 14 December 2020 in the territory of Aghdam District as a result of a mine explosion, because there were grounds to believe that the said territory was mined, movement in that direction was restricted and it was impossible to inspect the scene. For this reason, an inspection of the scene could not be conducted.

Volume 214, case file page 8.

Ibadov Mahammad Shahriddin oglu, questioned as a victim, testified that on the morning of 14 December 2020, at approximately 10:00, **Senior Lieutenant Kamran Hajiyeu**, Assistant Chief of the Engineering Service of the military unit, arrived at the engineer-sapper company and informed him that he and soldier **Asif Talibli, son of Soltanagha,—**

Page 348

—would take mine-detection devices and proceed to clear combat position No. 33 of military unit No. 161, which had been liberated from Armenian armed formations. That position consisted of several trenches that had already been partially cleared of mines.

At approximately 11:00, he and soldier **A. Talibli** began clearing the trenches and the earthen embankment using mine detectors. During the work, they discovered **51 anti-personnel mines**. Senior Lieutenant **K. Hajiye**v inspected the interior of the trench, while soldier A. Talibli searched for mines on the earthen embankment.

At approximately 13:10, while the demining work was under way, an explosion suddenly occurred and soldier A. Talibli fell onto K. Hajiyev. As a result of the explosion, soldier A. Talibli's left leg was destroyed in the ankle area. Senior Lieutenant K. Hajiyev and other servicemen provided first aid by applying a rubber tourniquet to the injured leg.

Two soldiers whose names were unknown to him came to assist, and together they carried A. Talibli to the motor road. From there, a medical vehicle from the battalion medical station transported soldier A. Talibli and Senior Lieutenant K. Hajiyev to Hospital No. 056.

Volume 214, case file pages 60–63.

Talibli Asif Soltanagha oglu, recognized and questioned as a victim, as well as witnesses **Mammadov Sanan Niyazi oglu**, **Ismayilov Jeyhun Isakhan oglu**, and **Hajiye**v **Kamran Natig oglu**, gave similar testimony and confirmed the circumstances described above.

Volume 214, case file pages 51–54, 64–68, 69–71, 77–80.

According to the submitted expert opinion on the forensic medical biological examination of the physical evidence, the blood group of **Talibli Asif Soltanagha oglu** is **O(I)**. Human blood was found on the sweater, trousers, undertrousers, one pair of socks and part of the soldiers' boots. Examination of the group characteristics of the said blood revealed only antigen "**H**." Thus, the said bloodstains may belong to a person with blood group **O(I)**, including **Talibli Asif Soltanagha oglu**.

Volume 214, case file pages 97–99.

According to forensic medical expert opinion No. **1695** dated 26 January 2021, **Talibli Asif Soltanagha oglu** sustained the following injuries: amputation of the lower third of the left lower leg; fragment wounds to both lower extremities; superficial abrasions caused by fragments on the right lower leg; and traumatic hemorrhagic shock, Grade II. These injuries were caused by the impact of fragments formed as a result of the explosion of a firearm projectile and are classified as grievous bodily harm resulting in a lasting and permanent loss of more than one-third of total working capacity.

Volume 214, case file pages 103–104.

According to forensic medical expert opinion No. **124** dated 04 February 2021, **Ibadov Mahammad Shahrudin oglu** sustained the following injuries: foreign bodies in the subcutaneous soft tissues behind the right auricle, and abrasions on the right half of the face and neck. These injuries resulted from the impact of multiple fragments formed during an explosion and, overall, are classified as causing minor harm to health.

Volume 214, case file page 110.

Major Eminov Elmdar Hasan oğlu, Assistant Chief of the Operations Planning Section of military unit No. 071 of the Ministry of Defence; **Senior Lieutenant Agayev Asif Abid oğlu**, commander of the radio platoon for radio reconnaissance of the said military unit; and **Ismayilov Javad Asif oğlu**, a soldier serving as driver of the vehicle platoon of the logistics company of the military unit, on 17 December 2020—

Page 349

—at approximately 11:10, while carrying out a combat assignment in the territory of the village of **Khintaglar, Jabrayil District**, travelling in a **Great Wall** vehicle bearing military registration number **J311QQ**, struck an anti-tank mine previously planted by Armenian separatists in the said territory. As a result of the mine explosion, Senior Lieutenant **A. Aghayev** and soldier **J. Ismailov** were intentionally killed, while Major **E. Eminov** was evacuated to hospital with injuries.

Major Eminov Elmdar Hasan oğlu, Assistant Chief of the Operational Planning Department of military unit No. 071 of the Ministry of Defence; **Senior Lieutenant Aghayev Asef Abid oğlu**, commander of the radio platoon of the radio company of the said military unit; and **Ismailov Javad Asif oğlu**, a soldier serving as driver of the vehicle platoon of the logistics company of the military unit, on 17 December 2020, at approximately 11:10, while carrying out a combat assignment in the territory of the village of **Khintaglar, Jabrayil District**, travelling in a **Great Wall** vehicle bearing military registration number **J311QQ**, struck an anti-tank mine previously planted by Armenian separatists in the said territory. As a result of the mine explosion, Senior Lieutenant **A. Aghayev** and soldier **J. Ismailov** died at the scene, while Major **E. Eminov** was evacuated to hospital with injuries.

According to forensic ballistic expert opinion No. **3/13** dated 05 February 2021, damage of the quantity and dimensions described in the examination section of the expert opinion was found on the military pea coat, sweater, long-sleeved shirt, sleeveless undershirt, warm underpants, underwear and balaclava belonging to **A. Aghayev**. Based on the shape, dimensions and morphological structure of the damage, as well as the particles of explosive substance (**TNT**) and incompletely burned smokeless powder found on the surface of the clothing, it was established that the said damage was characteristic of the effects of fragments generated during an explosion, at the epicentre of the explosion and in various directions. The damage could also have been caused by the explosion of an anti-tank mine.

The military uniform belonging to **J. Ismailov**, as well as individual elements of **A. Aghayev's** uniform, contained damage characteristic of the effects of thermal factors. It is presumed that the said damage resulted from the thermal effects of the explosion.

Volume 215, case file pages 182–189.

According to forensic ballistic expert opinions Nos. **3/326 and 3/329** dated 16 March 2021, examination of the remains of the **Great Wall** vehicle bearing military registration number **J311QQ** revealed, on the front right side and left wheel rim, traces of explosive substances (**TNT, nitro compounds, sulfides and active chlorine ions**). Based on the shape and morphological structure of the damage, as well as the presence of soot traces around it, it was established that the said damage was characteristic of the effects of fragments and a blast wave generated at the epicentre of the explosion of an explosive device, including an anti-tank mine.

Volume 215, case file pages 218–221.

According to forensic medical expert opinion No. **17** dated 06 January 2021, **Eminov Elmdar Hasan oğlu** sustained the following injuries: closed craniocerebral trauma, concussion of the brain, thermal burns of Grade I–II (2%) caused by flame to the dorsal surfaces of the fingers of both hands, the lower third of the right forearm and the frontal region, and contusions of the soft tissues of both shoulder regions. These injuries resulted from the effects of a blast wave and flame caused by an explosion and are classified as causing minor harm to health resulting in a temporary health disorder.

Volume 215, case file pages 141–142.

According to forensic medical expert opinion No. **1929** dated 17 December 2020, examination of the body of **Aghayev Asef Abid oğlu** revealed the following injuries: multiple wounds on the body, damage—

Page 350

—to the major blood vessels in the soft tissues of the left thigh and left lower leg, open comminuted fractures of the bones of the left thigh and left lower leg, accompanied by massive external bleeding. The said injuries were sustained during life, occurred immediately before death as a result of the effects of primary fragments during an explosion. The direct cause of death was the open comminuted fractures of the bones of the left thigh and left lower leg, as well as damage to major blood vessels caused by primary fragments during the explosion, which resulted in massive external bleeding and the development of severe traumatic hemorrhagic shock.

Volume 215, case file pages 145–148.

According to forensic medical expert opinion No. **1928** dated 17 December 2020, examination of the body of **Ismailov Javad Asif oğlu** revealed the following injuries: thermal burns of Grades II and III to the head, neck, left upper extremity and posterior surface of the chest, accompanied by intratissue hemorrhages in the brain, lungs, intestines, mesentery and both kidneys. The said injuries were sustained during life and occurred shortly before death as a result of exposure to high temperature of both a local and general nature.

The rupture of the spleen was likewise sustained during life and occurred shortly before death as a result of the effects of the blast wave. The cause of death was acute burn shock resulting from Grade II–III thermal burns to various areas of the body, as well as massive internal bleeding (**traumatic hemorrhagic shock**) caused by rupture of the spleen.

Volume 215, case file pages 192–195.

By a decision dated 29 March 2021, the military identification card, military sweater, long-sleeved undershirt, sleeveless undershirt, military trousers, warm underpants, underwear and balaclava belonging to Senior Lieutenant **Aghayev Asef Abid oğlu**; the military pea coat, military sweater, long-sleeved undershirt, military trousers and warm underpants belonging to **Ismailov Javad Asif oğlu**; as well as the **Great Wall** vehicle bearing military registration number **J311QQ**, belonging to military unit No. 052 of the Ministry of Defence, were

recognized as physical evidence and are being stored in the evidence room of the Special Investigation Department.

Volume 215, case file pages 222–225.

According to the scene inspection protocol dated 22 January 2021, an inspection was conducted of the remains of the **Great Wall** vehicle bearing military registration number **J311QQ**.

Volume 215, case file pages 129–135.

According to an extract from Order No. **308** dated 29 October 2019 of the commander of military unit No. 071, Senior Lieutenant **Aghayev Asef Abid oglu** was appointed commander of the radio platoon of the communications company.

According to an extract from Order No. **338** dated 29 November 2019 of the commander of military unit No. 071, soldier **Ismailov Asif Javad oglu** was appointed driver of the 1st vehicle squad of the vehicle platoon of the logistics company.

According to an extract from Order No. **196** dated 24 July 2020 of the commander of military unit No. 071, Major **Eminov Elmdar Hasan oglu** was appointed Senior Assistant Chief of the Operational Department for Planning.

According to an extract from Order No. **329** dated 10 December 2020 of the commander of military unit No. 071, Major **Eminov Elmdar Hasan oglu**, as of 10 December 2020, was removed from provision under the special mess ration.

Page 351

According to an extract from Order No. **331** dated 11 December 2020 of the commander of military unit No. 071, Senior Lieutenant **Aghayev Asef Abid oglu** and soldier **Ismayilov Javad Asif oglu**, as of 10 December 2020, were removed from provision under the special mess ration.

Volume 215, case file pages 99, 100, 101, 102, 103.

Eminov Elmdar Hasan oglu, recognized and questioned as a victim, testified that on 17 December 2020, at approximately 11:00, together with **A. Aghayev** and **J. Ismayilov**, he left the personnel in the aforementioned vehicle and headed toward the main command post. Approximately 500 metres before reaching the main command post, the vehicle in which they were travelling began to skid on the road. The road had an unpaved surface. At that time, it was snowing, and because the road along which the vehicle was travelling was muddy and the vehicle was ascending an incline, it began to slide.

At that moment, he was sitting in the front right seat, Senior Lieutenant **A. Aghayev** was sitting in the rear left seat, behind the driver, **J. Ismayilov**. After the vehicle skidded and left the road, an explosion occurred beneath it. When he regained consciousness, he saw that the vehicle had overturned and was burning, and he realized that it had struck an anti-tank mine.

Volume 215, case file pages 92–95.

Manafov Azer MaZakhir oğlu, recognized and questioned as a representative of the victim, testified that the **Great Wall** vehicle bearing military registration number **J311QQ** had been rendered completely unusable and could not be repaired and returned to service.

Volume 146, case file pages 140–142.

Volume 215, case file pages 125–128.

Aghayeva Gulnara Babaverdi gyzy, recognized and questioned as the legal successor of the victim, testified that on the evening of 17 December 2020, while she was at home, relatives and neighbours began arriving and informed her that her son **Asef** had been killed while carrying out a combat assignment. She was also informed that a soldier who had been in the vehicle together with Asef had also died, while a major holding the rank of major had sustained injuries.

Volume 215, case file pages 164–167.

Ismayilov Asif Isabala oğlu, recognized and questioned as the legal successor of the victim, testified that on 18 December 2020, **Tabriz Ismayilov**, a representative for the village of **Sarvan, Salyan District**, informed his brother **Asim Ismayilov** that Javad had sustained injuries as a result of a mine explosion and was at the Diagnostic Centre of Fuzuli District. While he was travelling there together with his brother Asim, Asim received a telephone call informing him that Javad had died.

Volume 215, case file pages 176–178.

The witnesses questioned — **Ahmedov Samir Sadraddin oğlu**, **Gasimov Azer Alovzat oğlu**, **Dadashov Fuad Dashdamir oğlu**, and **Maharramov Bakhtiyar Baba oğlu** — gave similar testimony and confirmed the testimony of **Eminov Elmdar Hasan oğlu**.

Volume 215, case file pages 70–73, 75–78, 80–83, 85–88.

On 19 December 2020, a **KamAZ-43114** vehicle bearing military registration number **E727QQ**, while leaving an asphalt road and entering an area where search operations were being conducted, struck an anti-tank mine previously planted in that territory by members of illegal armed formations created by Armenian armed forces with nationalistic and hostile purposes. As a result of the mine explosion, the driver of the vehicle, **Gurbanli Mahabbat Maharram oğlu**, sustained the following injuries: “traumatic amputation of the middle third of the right lower leg,

Page 352

a wound with a tissue defect on the left lower leg, penetrating fragment wounds of the left thigh, open fragment fractures of the bones of the left lower leg, closed craniocerebral trauma, concussion of the brain, and traumatic hemorrhagic shock, Grade III.” **Gurbanov Tarlan Tajaddin oğlu**, who was in the cab of the vehicle, sustained injuries described as “injuries caused by a mine explosion, abrasions on the anterior surfaces of both lower legs and on the right hand, and subungual hematomas of the first toe of the left foot,” while **Etibar Javid oğlu Huseynli** sustained injuries described as “abrasions on the right eyelid and right knee.”

On 19 December 2020, in connection with the deployment of a team to search for unexploded shells and mines in the territory of **Jabrayil District**, personnel arrived in that district that day in a **KamAZ-43114** vehicle bearing military registration number **E727QQ**, belonging to the military unit. At approximately 11:00, when the vehicle left the asphalt road and entered the territory of the village of **Mehdili** in the said district, where search operations were to be carried out, it struck an anti-tank mine previously planted by members of illegal armed formations created by Armenian separatists with nationalistic and hostile purposes.

As a result of the mine explosion, the driver of the vehicle, an extended-service serviceman holding the rank of junior sergeant and serving as driver of the 1st squad of the obstacle-clearing platoon of the obstacle-clearing company of the military unit, **Gurbanli Mahabbat Maharram oglu**, sustained the following injuries: “**traumatic amputation of the right lower leg at the level of the lower third, open displaced fractures of the bones of the left lower leg, a wound with an extensive tissue defect, through-and-through fragment wounds of the soft tissues of the left thigh, closed craniocerebral trauma, concussion of the brain, and traumatic hemorrhagic shock, Grade II–III.**”

The commander of the squad of the logistics platoon of the headquarters of the military unit, an extended-service serviceman holding the rank of junior sergeant, **Gurbanov Tarlan Tajaddin oglu**, who was in the cab of the vehicle, sustained injuries described as “**injuries caused by a mine explosion, abrasions on the anterior surfaces of both lower legs and on the right hand, and subungual hematomas of the first toe of the left foot.**” Thus, an attempt was made to intentionally kill them.

According to the scene inspection protocol dated 19 December 2020, the territory where the incident occurred is **Jabrayil District**.

Volume 216, case file pages 5–14.

According to forensic medical expert opinion No. **61** dated 18 January 2021, **Gurbanli Mahabbat Maharram oglu** sustained the following injuries: traumatic amputation of the right lower leg at the level of the lower third; open displaced fractures of the bones of the left lower leg; a wound with an extensive tissue defect; through-and-through fragment wounds of the soft tissues of the left thigh; traumatic hemorrhagic shock, Grade II–III; and **Morel-Lavallée syndrome** in the area of the left lower leg. These injuries were caused by the impact of fragments formed during the explosion of a firearm munition and are classified as grievous bodily harm.

Volume 216, case file pages 138–139.

According to forensic medical expert opinion No. **120** dated 09 March 2021, the injuries sustained by **Huseynov Etibar Javid oglu** — abrasions on the right eyelid and right knee caused by the impact of a hard blunt object — could have occurred under various circumstances and, since they did not cause harm to health, their degree of severity was not determined.

Volume 216, case file pages 145–146.

According to forensic medical expert opinion No. **121** dated 09 March 2021, the injuries sustained by **Gurbanov Tarlan Tajaddin oğlu** were as follows: abrasions on the anterior surfaces of both lower legs and on the right hand; subungual—

Page 353

—hematoma of the first toe of the left foot, were caused by the impact of a hard blunt object, could have occurred under various circumstances and, since they did not cause harm to health, their degree of severity was not determined.

Volume 216, case file pages 147–148.

According to forensic ballistic expert opinion No. **3/387** dated 30 April 2021, based on the shape and morphological structure of the damage to the **KamAZ-43114** vehicle bearing military registration number **E-727-QQ**, it was established that the said damage was characteristic of the effects of the explosion of an explosive device; the damage resulted from a blast wave originating from the centre of the explosion at close range, with a direction from left to right. The said damage could have been sustained under the circumstances described in the descriptive part of the opinion.

Volume 216, case file pages 159–162.

Gurbanov Tarlan Tajaddin oğlu, recognized and questioned as a victim, testified that on 19 December 2020, at approximately 11:00, while approaching the territory of the village of **Mehdili, Jabrayil District**, on the right-hand side of the **Jabrayil–Zangilan** main road, opposite a road sign installed in the said area, on the left edge of the asphalt road, in front of an earthen embankment, mines and unexploded shells planted by Armenian armed formations were discovered on a large flat area.

For the purpose of neutralizing them, after turning off the asphalt road and travelling approximately 2 metres, an explosion occurred beneath the left front wheel of the vehicle. Thereafter, he felt severe pain in his leg and lost consciousness. When he regained consciousness some time later, he found himself lying on the ground at the side of the road. He then realized that a mine had exploded beneath the wheel of the vehicle.

Volume 216, case file pages 24–26.

Gurbanli Mahabbat Maharram oğlu and **Huseynli Etibar Javid oğlu**, recognized and questioned as victims, gave similar testimony and confirmed the testimony of **Gurbanov Tarlan Tajaddin oğlu**.

Volume 216, case file pages 27–30, 100–103, 110–113.

Mammadov Mehman Mammadtaghi oğlu, questioned as the representative of military unit No. 342, which had been recognized as a victim, testified that on 19 December 2020, in order to clear the territory of the village of **Mehdili, Jabrayil District**, of mines planted by enemy Armenian armed formations and to detonate the mines and ammunition that were discovered, they left the military unit at approximately 08:00.

At approximately 11:00, in the territory of the said village, a mine exploded beneath the left front wheel of the **KamAZ-43114** vehicle bearing military registration number **E-727-QQ**, rendering the vehicle unfit for use.

At the same time, the driver of the vehicle, **Junior Sergeant Gurbanli Mahabbat Maharram oglu**, an extended-service serviceman serving as driver of the 1st squad of the obstacle-clearing platoon of the obstacle-clearing company of the military unit; **Junior Sergeant Gurbanov Tarlan Tajaddin oglu**, an extended-service serviceman serving as commander of a squad of the logistics platoon of the military unit's headquarters; and **Lieutenant Huseynli Etibar Javid oglu** sustained bodily injuries of varying severity.

Volume 216, case file pages 58–61.

Najafli Farid Rashad oglu, questioned as a witness, testified that on 19 December 2020, at approximately 11:00, while approaching the territory of the village of **Mehdili**—

Page 354

—**Jabrayil District**, on the right-hand side of the **Jabrayil–Zangilan** main road, opposite a road sign installed in the said area, on the left edge of the asphalt road, in front of an earthen embankment, mines and unexploded shells planted by Armenian armed formations were discovered on a large flat area.

For the purpose of neutralizing them, after turning off the asphalt road and travelling approximately 2 metres, an explosion occurred beneath the left front wheel of the vehicle, and he realized that a mine had exploded. When he got out, he saw that the driver, **M. Gurbanli**, and **T. Gurbanov**, who had been in the driver's cab, had sustained injuries. They were sent to Military Hospital No. 214. Lieutenant **Etibar Huseynli** was also injured as a result of the incident, but because his injury was minor, he did not go to the hospital.

Volume 216, case file pages 114–117.

Kerimli Servirevan Asef oglu, questioned as a witness, gave similar testimony and confirmed the testimony of **Najafli Farid Rashad oglu**.

Volume 216, case file pages 118–121.

By a decision dated 31 December 2020, the **KamAZ-43114** truck bearing military registration number **E-727-QQ**, belonging to military unit No. 342 of the Ministry of Defence, was recognized as physical evidence and is being stored in the said military unit.

Volume 216, case file pages 44–45.

It is apparent from Order No. 295 dated 13 December 2020 of the commander of military unit No. 342 that **Lieutenant Huseynov Etibar Javad oglu**, Chief of Staff of the logistics company, and **Sergeant Gurbanov Tarlan Tajaddin oglu**, commander of a squad of the headquarters and logistics company and an extended-service serviceman, were assigned to search for mines and detonate ammunition within the engineering-support subunit of the military unit for the purpose of carrying out engineering-support tasks in territories liberated from occupation.

It is apparent from Order No. **241** dated 21 August 2019 of the commander of military unit No. 342 that, as of 02 August 2019, **Junior Sergeant Gurbanli Mahabbat Maharram oğlu** was appointed to the position of driver, included in the personnel list of military unit No. 342, and placed on all forms of provision.

Volume 216, case file pages 64–67.

On 21 December 2020, at 16:30, **Lieutenant Colonel Orudzhaliyev Ibrahim Burjali oğlu**, Deputy Commander of the 2nd Battalion for Logistics of military unit No. 284 of the Ministry of Defence; **Junior Sergeant Mammadov Elvin Islam oğlu**, commander of the maintenance platoon of the logistics company of the military unit; and **Gashimov Ilgar Etibar oğlu**, a soldier serving as commander of the 1st squad of the vehicle platoon of the said company, while travelling in an **Ural** vehicle bearing military registration number **F552QQ** through the village of **Kechikli, Zangilan District**, which had been liberated from occupation by Armenian armed formations several days earlier, were transporting equipment required for a position that was to be established on a strategic height in the territory of the said village.

They struck an anti-tank mine previously planted by Armenian armed formations. As a result of the mine explosion, Lieutenant Colonel **Ibrahim Orudzhaliyev** sustained injuries described as “**injuries caused by a mine explosion; lacerated wounds to the left half of the forehead and the right temporal region, the left half of the upper lip; closed displaced fractures of the fifth metatarsal bone of the right foot and the medial tubercle, as well as the medial and lateral tubercles of the left leg.**”

Junior Sergeant **Elvin Mammadov** sustained injuries described as “**injuries caused by a mine explosion: a lacerated wound in the area of the left eyebrow, a lacerated wound on the posterior surface of the lower third of the left thigh and on the sole of the left—**”

Page 355

—foot; open dislocation of the first toe of the right foot; closed dislocation of the first metatarsal bone of the right foot; hemarthrosis of the right ankle joint; lacerated-incised wounds on the dorsal surface of the right hand; and an open fracture of the distal phalanx of the third finger with a bone-tissue defect.” Soldier **Ilgar Gashimov** sustained injuries described as “**injuries caused by a mine explosion: abrasions on the left half of the forehead, the anterior surface of the right lower leg and the back; contusions of the soft tissues of various areas of the body,**” thereby constituting an attempt to intentionally kill them.

On 21 December 2020, at 16:30, **Lieutenant Colonel Orudzhaliyev Ibrahim Burjali oğlu**, Deputy Commander of the 2nd Battalion for Logistics of military unit No. 284 of the Ministry of Defence; **Junior Sergeant Mammadov Elvin Islam oğlu**, commander of the maintenance platoon of the logistics company of the military unit; and **Gashimov Ilgar Etibar oğlu**, a soldier serving as commander of the 1st squad of the vehicle platoon of the said company, while travelling in an **Ural** vehicle bearing military registration number **F552QQ** through the village of **Kechikli, Zangilan District**, which had been liberated several days earlier from occupation by Armenian armed formations, were transporting equipment required for a position that was to be established on a strategic height in the territory of the said village.

They struck an anti-tank mine previously planted by Armenian armed formations. As a result of the mine explosion, Lieutenant Colonel **Ibrahim Orudzhaliev** sustained injuries described as “**injuries caused by a mine explosion; lacerated wounds to the left half of the forehead, the right temporal region and the left half of the upper lip; closed displaced fractures of the fifth metatarsal bone of the right foot and the medial tubercle, as well as the medial and lateral tubercles of the left leg.**”

Junior Sergeant **Elvin Mammadov** sustained injuries described as “**injuries caused by a mine explosion: a lacerated wound in the area of the left eyebrow; a lacerated wound on the posterior surface of the lower third of the left thigh and on the sole of the left foot; open dislocation of the first toe of the right foot; closed dislocation of the first metatarsal bone of the right foot; hemarthrosis of the right ankle joint; lacerated-incised wounds on the dorsal surface of the right hand; and an open fracture of the distal phalanx of the third finger with a bone-tissue defect,**” while soldier **Ilgar Gashimov** sustained injuries described as “**injuries caused by a mine explosion: abrasions on the left half of the forehead, the anterior surface of the right lower leg and the back; contusions of the soft tissues of various areas of the body.**” They were evacuated to Military Hospital No. 214.

According to a certificate dated 22 December 2020 issued by **Lieutenant Colonel Orudzhaliev Ibrahim Burjali oglu**, Deputy Commander of the 2nd Battalion for Logistics of military unit No. 284 of the Ministry of Defence; **Junior Sergeant Mammadov Elvin Islam oglu**, commander of the maintenance platoon of the logistics company of the military unit; and **Gashimov Ilgar Etibar oglu**, commander of the 1st squad of the vehicle platoon of the said company, while travelling on 21 December 2020 at 16:30 in an **Ural** vehicle bearing military registration number **F552QQ** through the village of **Kechikli, Zangilan District**, liberated several days earlier from occupation by Armenian armed formations, sustained injuries as a result of the explosion of an anti-tank mine previously planted in that territory. However, since the weather conditions were snowy, the terrain was rugged and mountainous, the area was off-road, and mines had been planted in that territory by members of Armenian armed formations, an inspection of the scene could not be conducted because of the real danger to human life and health.

Volume 219, case file page 6.

According to forensic medical expert opinion No. **38** dated 28 January 2021, **I.B. Orudzhaliev** sustained the following injuries: displaced fractures of the distal metaphyses of both tibiae, the distal metaphysis of the right—

Page 356

—fibula, both calcaneal bones, the fifth metatarsal bone of the right foot, the bases of the third, fourth and fifth metatarsal bones of the left foot, as well as the cuboid bone of the left foot; displaced closed fractures of the posterior arch and body of the right sixth rib and the seventh, eighth and ninth left ribs; blunt trauma to the chest; and lung contusion. These injuries were caused by the impact of a blunt object and are classified as causing moderate harm to health.

Volume 219, case file pages 63–64.

According to forensic medical expert opinion No. **39** dated 12 January 2021, **E.I. Mammadov** sustained the following injuries: multiple displaced intra-articular fractures of the calcaneus, talus and navicular bones of the right foot; the bases of the first, second, third and fourth metatarsal bones and the lower third of the second metatarsal bone; closed displaced fractures of the upper and lower thirds of the right fibula; closed displaced fractures of the distal and middle phalanges of the third and fourth fingers of the right hand; open dislocation of the first finger of the right hand; compartment syndrome of the right foot; wounds to the left eyebrow, the second, third and fourth fingers of the right hand, as well as wounds in the areas of the right thigh, lower leg and knee. These injuries resulted from the impact of fragments formed during the explosion of a firearm munition and are classified as causing moderate harm to health.

Volume 219, case file pages 67–69.

According to forensic medical expert opinion No. **119** dated 10 February 2021, **I.E. Gashimov** sustained the following injuries: abrasions on the forehead, neck, chest and right lower leg; a dry perforation of the tympanic membrane of the right ear; and acute left-sided cochlear neuritis. These injuries resulted from the combined effects of fragments and the blast wave of an explosion and are classified as causing minor harm to health.

Volume 219, case file pages 71–72.

Mammadov Elvin Islam oglu, recognized and questioned as a victim, testified that on 21 December 2020 they travelled to the village of **Kechikli, Zangilan District**, in order to establish a defensive position. To establish those positions, they transported tents and other necessary materials in an **Ural** vehicle bearing military registration number **F552QQ**. That day, they first arrived in the village of **Beshdara** and then proceeded toward the village of Kechikli.

In the vehicle, in addition to him, were **Lieutenant Colonel Ibrahim Orudzhaliev**, Deputy Commander of the 2nd Battalion of the military unit for Logistics, and the driver, soldier **Ilgar Etibar oglu Gashimov**. He and Lieutenant Colonel Ibrahim Orudzhaliev were in the cab of the vehicle.

Because of the mountainous terrain, the personnel of the military unit proceeded on foot behind the vehicle, while an engineer-sapper unit moved ahead, checking the territory for mines. At approximately 16:00, while they were travelling, the left front wheel of the vehicle struck an anti-tank mine, causing an explosion. The explosion overturned the vehicle, as a result of which he, Lieutenant Colonel **Ibrahim Orudzhaliev**, and driver-soldier **Ilgar Gashimov** sustained injuries of varying severity.

Volume 219, case file pages 48–50.

Orudzhaliev Ibrahim Burjali oglu, recognized and questioned as a victim, testified that on 21 December 2020 they travelled to the village of **Kechikli, Zangilan District**, in order to establish a defensive position. To establish those positions, they transported tents and other necessary materials in an **Ural** vehicle bearing military registration number **F552QQ**. That day, they first arrived—

—they first arrived in the village of **Beshdara** and then proceeded toward the village of **Kechikli**. In addition to him, the vehicle contained driver-soldier **Gashimov Ilgar Etibar oğlu** and Junior Sergeant **Mammadov Elvin Islam oğlu**. He and Junior Sergeant Elvin Mammadov were in the vehicle cab.

Because of the mountainous terrain, the personnel of the military unit followed the vehicle on foot, while an engineer-sapper unit moved ahead, checking the territory for mines. At approximately 16:00, while they were travelling, the left front wheel of the vehicle struck an anti-tank mine, causing an explosion. Under the force of the explosion, the vehicle overturned, as a result of which he, Junior Sergeant **Mammadov Elvin Islam oğlu**, and driver-soldier **Gashimov Ilgar Etibar oğlu** sustained injuries of varying severity.

Volume 219, case file pages 42–44.

Gashimov Ilgar Etibar oğlu, recognized and questioned as a victim, testified that they travelled to the village of **Kechikli, Zangilan District**, in order to establish a defensive position. To establish those positions, they transported tents and other necessary materials in an **Ural** vehicle bearing military registration number **F552QQ**. That day, they first arrived in the village of **Beshdara** and then proceeded toward the village of **Kechikli**.

In addition to him, the vehicle contained **Lieutenant Colonel Orudzhaliev Ibrahim Burjali oğlu**, Deputy Commander of the 2nd Battalion of the military unit for Logistics, and Junior Sergeant **Mammadov Elvin Islam oğlu**. All of them were in the vehicle cab.

Because of the mountainous terrain, the personnel of the military unit followed the vehicle on foot, while an engineer-sapper unit moved ahead, checking the territory for mines. At approximately 16:00, while they were travelling, the left front wheel of the vehicle struck an anti-tank mine, causing an explosion. Volume 219, case file pages 36–38.

Idrisov Babek Rijail oğlu, representative of military unit No. 284 of the **Qubadli Border Corps of the State Border Service**, which had been recognized as a victim, testified that in mid-December 2020, after members of Armenian armed formations had left the villages located on the border of **Zangilan District** with the Republic of Armenia, the personnel of military unit No. 284 travelled to those villages to establish defensive positions, including in the direction of the village of **Kechikli**.

During that period, in addition to passenger vehicles, an **Ural** vehicle bearing military registration number **F552QQ**, belonging to the said military unit, was also sent in the direction of the village of **Kechikli** to transport supplies for the personnel.

The vehicle contained **Lieutenant Colonel Orudzhaliev Ibrahim Burjali oğlu**, Deputy Commander of the 2nd Battalion of the military unit for Logistics; driver-soldier **Gashimov Ilgar Etibar oğlu**; and Junior Sergeant **Mammadov Elvin Islam oğlu**.

At approximately 16:00 that day, information was received that the **Ural** vehicle bearing military registration number **F552QQ**, belonging to the military unit, had struck an anti-tank

mine in the area of the village of Kechikli. Together with **Captain Mubariz Khalafli**, commander of the logistics company, he arrived at the scene and found that the Ural vehicle bearing registration number F552QQ had overturned after striking an anti-tank mine on a height in the area of the village of Kechikli.

Orudzhaliev Ibrahim Burjali oglu, Gashimov Ilgar Etibar oglu, and Mammadov Elvin Islam oglu, who had been in the vehicle, had sustained injuries. All three servicemen were immediately evacuated from the scene to—

Page 358

—a hospital. As a result of the incident, the **Ural** vehicle bearing military registration number **F552QQ**, belonging to the military unit, was rendered unfit for use.

Volume 219, case file pages 83–86.

Garadayev Anar Ziyaveddin oglu, questioned as a witness, testified that at approximately 16:00 that day, the **Ural** vehicle bearing military registration number **F552QQ**, belonging to the military unit, struck an anti-tank mine in the area of the village of **Kechikli**. At the time of the explosion, he was not far from the scene.

As a result of the explosion, a crater **1.20 metres deep** was formed at the scene. The vehicle, having struck the anti-tank mine, overturned on elevated ground in the area of the village of Kechikli. **Orudzhaliev Ibrahim Burjali oglu, Gashimov Ilgar Etibar oglu, and Mammadov Elvin Islam oglu**, who had been in the vehicle, sustained injuries. All three servicemen were immediately evacuated from the scene to a hospital.

Volume 219, case file pages 93–96.

Kerimov Anar Adil oglu gave similar testimony and confirmed the testimony of **Garadayev Anar Ziyaveddin oglu**.

Volume 219, case file pages 88–91.

On 27 December 2020, at approximately 11:00, extended-service servicemen of military unit No. 218 serving in the vehicle squad of the motor transport platoon of the headquarters and logistics company — soldiers **Mammadov Vusal Elbrus oglu, Gambarov Elmir Rail oglu**, and Sergeant **Kelbaliyev Sabuhi Suraj oglu** — acting on instructions from the command of the military unit, proceeded to a combat zone in the territory of **Fuzuli District** to collect and remove ammunition remaining on the battlefield.

They set out in an **Elral** truck bearing military registration number **E906QQ**, driven by soldier **V.E. Mammadov**, from the settlement of **Hadrut, Khojavend District**, where the military unit was temporarily stationed. By 14:00, the servicemen had collected the ammunition and continued toward the village of **Atagut, Khojavend District**.

At approximately 15:00, while in that village, soldier **E. Gambarov** got out of the vehicle and entered the courtyard of one of the houses, while **V.E. Mammadov** and **S.S. Kelbaliyev** remained near the vehicle and waited for him.

Five or six minutes later, in front of the entrance to the house, E. Gambarov encountered members of Armenian armed formations who were hiding inside the house. As a result of automatic-weapons fire, he sustained severe gunshot injuries, including **“through-and-through wounds of the chest and abdominal cavity, injuries to the organs of the chest and abdominal cavity, and acute internal blood loss,”** and died at the scene.

Soldiers **V.E. Mammadov** and **S.S. Kelbaliyev** informed the command about the incident and left the scene.

After receiving the information, the command of the military unit sent an evacuation team to the scene. The location of the Armenian servicemen was established and they were offered the opportunity to surrender, but those who were on the roof of the house refused and unexpectedly opened fire on the servicemen of the evacuation team.

As a result of the shooting, soldier **Aliyev Emin Suleyman oglu** sustained severe injuries, including **“a through-and-through gunshot wound to the soft tissues of the right scapular region and the anterior surface of the upper third of the right arm; a blind gunshot wound to the right knee area; an open fracture with marginal separation of the distal metaphysis of the left humerus; and an open comminuted fracture of the medial condyle of the right femur.”**

Sergeant **Rahimov Ramil Ali oglu** sustained injuries of moderate severity: **“a blind fragment wound to the anterior surface of the right hand, a fragment wound to the fifth finger of the left hand, and an open fracture of the phalanx of the fifth finger of the left hand with avulsion of the edge.”**

Six members of Armenian armed formations who had been hiding in the house were neutralized.

Page 359

According to the scene inspection protocol dated 28 December 2020, it was established that the scene of the incident was the first floor of a two-storey house located **130 metres to the left of the exit to the village of Atagut, Khojavend District**. The said village is located on a mountain slope. After its liberation from occupation, servicemen of the Azerbaijani army were stationed in the village.

Volume 123, case file pages 29–48.

Ganbarov Rail Pirali oglu, questioned as the legal successor of the victim, testified that during the day on 27 December 2020, fellow servicemen of his son Elmir called his brother and informed him that Elmir had been wounded. They then informed him that Elmir had been taken to the **Fuzuli Diagnostic Center**. Later that same day, he learned that his son Elmir had died. As he understood from the words of his son’s fellow servicemen, Elmir had died as a result of fire opened by Armenian servicemen who had remained in one of the villages of **Khojavend District** liberated from occupation.

Volume 123, case file pages 98–100.

Rahimov Ramil Ali oğlu, recognized and questioned as a victim, testified that on 27 December 2020, at approximately 14:00, company commander **Rustam Allahverdiyev** ordered the company personnel to be ready for combat. He stated that, as a result of a provocation carried out by Armenian servicemen in the liberated territory, Azerbaijani servicemen had been killed.

Thereafter, the company personnel were placed on combat alert, took their weapons and ammunition, boarded an **Ural** vehicle and proceeded to the scene. Upon arriving in a liberated village of **Khojavend District**, the servicemen got out of the vehicle and divided into two groups to inspect houses in the village.

A total of 11 servicemen from the reconnaissance company arrived at the scene. He, **Zamir Aliyev, Emin Aliyev, Rustam Verdiyev**, and **Gulu Mirzayev**, as one group, proceeded toward one of the houses. At that moment, an Armenian serviceman stuck his head out of a window of the house and began firing at the group from a distance of **5–6 metres**.

One of the bullets fired by the Armenian serviceman struck the receiver of his weapon, after which fragments injured the second finger of his right hand, the fifth finger of his left hand, and the anterior surface of his left wrist. In addition, several bullets struck his helmet.

After the shooting, he took cover beside the window and noticed that **Emin Aliyev** had been wounded. Although wounded, Emin Aliyev crawled away. Following the shooting, the company servicemen surrounded the house. One Armenian serviceman inside the house was neutralized, while another five were taken prisoner alive.

After approximately one and a half hours of fighting around the house, six Armenian servicemen were neutralized, and the group returned to the military unit. He had two injured areas on the right side of his face. Since no medical vehicle was available in the evening, he was sent to hospital only the following day.

Volume 123, case file pages 118–121.

Aliyev Emin Suleyman oğlu, recognized and questioned as a victim, confirmed the circumstances stated in the testimony of victim Ramil Rahimov, gave similar testimony, and stated that as a result of the incident he sustained gunshot wounds to the **right knee, left elbow, right hand, shoulder, and right ribs**.

Volume 123, case file pages 128–131.

According to forensic medical expert opinion No. **1935** dated 27 December 2020, examination of the body of **Gambarov Elmir Rail oğlu** revealed the following injuries: an entrance wound on the anterior surface of the chest on the left at the level of the **4th–5th intercostal spaces**, and an exit wound on the posterior surface of the chest in the area of the right scapula. The direction was from left to right, from front to back and from bottom to top. Along the wound channel, both lungs and the aorta were damaged.

There was also an entrance wound on the anterior—

—surface of the chest on the left in the second intercostal space, with an exit wound on the right lateral wall of the abdomen **2 cm from the right iliac crest**. The direction was from left to right, from front to back and from top to bottom. Along the wound channel, the stomach and diaphragm were damaged.

There was an entrance wound on the anterior abdominal wall along the midline, **1 cm to the left**, with an exit wound on the posterior surface of the chest along the spinal line. The direction was from left to right, from front to back and from bottom to top. Along the wound channel, the stomach and diaphragm were damaged.

There was also an entrance wound on the right lateral wall of the abdomen in the subcostal region, with the projectile becoming lodged in the wound channel, which ended blindly.

In total, **three through-and-through and one blind gunshot wound** were identified. The death of **Gambarov Elmir Rail oglu** resulted from acute internal bleeding caused by gunshot wounds to the organs of the chest and abdominal cavities, which led to the development of traumatic hemorrhagic shock.

Volume 123, case file pages 165–169.

According to forensic medical expert opinion No. **129** dated 02 April 2021, **Aliyev Emin Suleyman oglu** sustained the following injuries: a through-and-through gunshot wound to the soft tissues of the right scapular region and the anterior surface of the upper third of the right shoulder; a blind gunshot wound to the right knee area; an open fracture with marginal avulsion of the distal metaphysis of the left humerus; and an open comminuted fracture of the medial condyle of the right femur.

In connection with the said injuries, the following medical procedures were performed: primary and repeat surgical debridement of the wounds (**Stages I–II**), removal of a foreign body (**bullet**), and plaster immobilization. The said injuries are classified as grievous bodily harm.

Volume 123, case file pages 200–204, 207–211.

According to forensic medical expert opinion No. **130** dated 02 April 2021, **Rahimov Ramil Ali oglu** sustained the following injuries: a blind fragment wound to the anterior surface of the right wrist, a blind fragment wound to the fifth finger of the left hand, and an open fracture with marginal avulsion of the phalanx of the fifth finger of the left hand. These injuries resulted from the impact of primary fragments from an explosion and are classified as grievous bodily harm.

Volume 123, case file pages 197–199, 212–213.

According to forensic ballistic and trace examination opinions Nos. **3/59, 3/60, and 3/61** dated 12 February 2021, the object conventionally designated by the number “**1**” is a factory-manufactured automatic rifled combat firearm of the **Kalashnikov design**, calibre **5.45 mm**, model **AK-74**, serial number **4337283**, manufactured at the **Izhevsk Mechanical Plant** in 1986 in the former USSR. It is in working order and suitable for firing; when placed into the firing position, it may discharge spontaneously without the trigger being pressed.

The weapon designated by the number “2” is a factory-manufactured automatic rifled combat firearm of the **Kalashnikov design**, calibre **5.45 mm**, model **AK-74**, manufactured at the **Izhevsk Mechanical Plant** in 1981 in the former USSR. It is in working order and suitable for firing; when placed into the firing position, it does not discharge spontaneously.

Volume 123, case file pages 217–229.

According to a letter from the head of the medical unit of military unit No. 214 addressed to the **Fuzuli Military Prosecutor’s Office**, soldier **Aliyev Emin Suleyman oglu** of military unit No. 212 was evacuated to military unit No. 214, where he underwent the appropriate surgical operation. During the operation, the clothing he was wearing was completely cut open and removed. However, as subsequently became known—

Page 361

—as, during the said period, in connection with counter-offensive operations conducted against illegal armed formations of the Republic of Armenia, a large number of wounded servicemen were admitted to the military hospital, and as a result of numerous surgical operations their clothing became soiled and was destroyed as no longer fit for use.

On the basis of a decision dated 15 April 2021 in criminal proceedings, an **AK-74 assault rifle** (No. **1185383**, No. **980235**, No. **4337283**, No. **4347654**, No. **817899**), 14 magazines for assault rifles, **277 rounds of 5.45 mm ammunition**, 4 cartridge cases, 1 bullet, as well as a military pea coat, field-type military trousers, a warm long-sleeved undershirt, warm underpants, a grey sleeveless undershirt, underwear, one pair of boots and one pair of socks belonging to **E.R. Ganbarov**, were recognized as physical evidence.

The said weapons and ammunition are being stored at military unit No. 335 of the Ministry of Defence, while the military pea coat, field-type military trousers, warm long-sleeved undershirt, warm underpants, grey sleeveless undershirt, underwear, one pair of boots and one pair of socks belonging to E.R. Ganbarov are being stored by the Special Investigation Department.

Following combat operations conducted by the Armed Forces of the Republic of Azerbaijan as part of the counter-offensive aimed at suppressing attacks by Armenian armed formations from 27 September 2020 to 10 November 2020, demining work began in the area of combat position No. 12 of military unit No. 341, near the village of **Hasangaya, Tartar District**, which had been liberated during those operations. The work was carried out by servicemen of the engineer-sapper unit of the said military unit who had previously been assigned to that area.

On 29 December 2020, at 11:15, while searching for mines in the area behind the said combat position, **Captain Shabanov Vusal Zabit oglu**, commander of the 1st engineer platoon of the obstacle-clearance unit of military unit No. 341, stepped on one of the mines previously planted by Armenian servicemen. As a result of the explosion, he sustained serious injuries causing a permanent loss of more than one-third of total working capacity, namely: **traumatic amputation of the left lower extremity at the level of the Chopart joint, compartment syndrome of the muscles of the left lower leg, and fasciotomy of the muscles of the left lower leg.**

After sustaining the injuries, Captain Shabanov was evacuated to Hospital No. 056 and subsequently to the **Main Clinical Hospital of the Armed Forces**.

On 29 December 2020, an investigator of the Tartar Military Prosecutor's Office, **Nasirli Nijat Rauf oglu**, conducted an inspection of the scene and drew up a protocol.

The scene is located in the territory of the strongpoint of the 2nd battalion of military unit No. 341 in the village of **Hasangaya, Tartar District**, beside the right-hand side of the motor supply road leading from the battalion strongpoint to combat position No. 12 of the same battalion, which had been liberated from Armenian occupation.

The location is situated behind a trench that had been used to observe the positions of Armenian servicemen at combat position No. 12. The distance in a straight line from the commandant's post at the entrance to the village of Hasangaya to the battalion strongpoint is **2 kilometres**, and from the battalion strongpoint to the scene of the incident is **3 kilometres**.

The said road has an earthen surface; to its right and left are plains and hills of varying elevation. According to **Captain Murad Kazimov**, who took part in the inspection, the scene had previously formed part of the combat positions of Armenian servicemen. After the Patriotic War, it was liberated and conventionally designated as combat position No. 12.

Numerous wooden signs bearing the inscription "**Minefield**", dug into the ground, were observed on the right and left sides of the area where the incident occurred.

After entering the minefield along the dirt road, Captain Murad Kazimov was asked to indicate the scene of the incident. Moving along the path laid across the dirt road, a pit measuring approximately **5–15 centimetres deep and 1.5 metres in radius** was found at the site of the explosion. It was presumed that the pit was the site of the explosion. Burned soil, which had partially scattered, was found inside the pit.

Captain Murad Kazimov stated that combat position No. 12 and the territory behind it, where the explosion had occurred—

Page 362

—had been liberated from Armenian occupation after the Patriotic War; before their liberation, those territories had been under the control of Armenian servicemen who, according to him, had planted a large number of mines there.

Volume 220, case file pages 9–18.

Captain Shabanov Vusal Zabıt oglu, commander of the 4th obstacle-clearance platoon of the obstacle-clearance company of military unit No. 341, recognized and questioned as a victim, testified that on 29 December 2020, at approximately 11:15, while he was **8 metres ahead of Lieutenant Mehman Mammadov**, he discovered the **11th anti-personnel mine**. After rendering it safe, he picked up the mine in order to carry it to a safe area and, turning his left leg slightly away from the path, an explosion occurred, causing him to fall onto his back.

When he looked at his left leg, he saw that the foot had been severed. Lieutenant Mehman Mammadov and other servicemen present in the area went onto the minefield and carried him to safe ground. After first aid was provided, he was evacuated in a military medical vehicle.

Volume 220, case file pages 97–102.

The witnesses questioned on 29 December 2020 — **Veliyev Elchin Eyvaz oğlu, Mammadov Mehman Baylar oğlu, Mammadov Elchin Ahmed oğlu, Jabrayilov Islam Elchin oğlu, and Kazimov Murad Mirkazim oğlu** — confirmed in their testimony the account given by **Shabanov Vusal Zabit oğlu**.

Volume 19, case file pages 47–53.

Volume 103, case file pages 45–48.

Volume 220, case file pages 55–59, 60–64, 66–70, 71–75, 76–79.

According to forensic medical expert opinion No. **40** dated 15 February 2021, **V.Z. Shabanov** sustained the following injuries: traumatic amputation of the left lower extremity at the level of the **Chopart joint**, compartment syndrome of the muscles of the left lower leg, and fasciotomy of the muscles of the left lower leg. These injuries resulted from the impact of fragments formed during the explosion of an artillery projectile, led to a permanent loss of more than one-third of total working capacity, and are classified as grievous bodily harm.

Volume 220, case file pages 110–111.

On the basis of a decision dated 23 February 2021 recognizing physical evidence in criminal case No. **22D/48740**, the military pea coat, field-type trousers, sweater, underwear and one pair of boots worn by **Shabanov Vusal Zabit oğlu** were recognized as physical evidence and are being stored in the evidence room of the Special Investigation Department.

Volume 220, case file pages 126–127.

On 26 December 2020, a senior investigator of the Tartar Military Prosecutor's Office conducted an inspection of the scene and drew up a protocol. The scene is located in the territory of the village of **Talysh, Tartar District**, near combat position No. 24, situated at the elevation designated "**1353**."

During the inspection, soldier **Pashayev Asim Fakhreddin oğlu**, driver of the vehicle squad of the logistics platoon of the 4th battalion of military unit No. 130, indicated the place where he had stopped the vehicle on the route to combat position No. 24, located at elevation "1353," and described the scene in detail.

Thereafter, soldier Asim Pashayev indicated a location on the left-hand side of the dirt road leading to combat position No. 24 where the mine explosion had occurred. During the inspection, stains resembling blood, torn pieces of military trousers, as well as fragments of an exploded tank, were found at the scene—

Page 363

—which had belonged to Armenian armed formations. A diagram of the scene was also drawn up and attached to the protocol.

Volume 119, case file pages 12–31.

Tagiyev Giyas Fariz oglu, an extended-service serviceman of military unit No. 130, recognized and questioned as a victim, testified that on 25 December 2020, at approximately 14:00, while he was in the 4th battalion of military unit No. 130 stationed in the village of **Talysh, Tartar District**, extended-service serviceman **Pashayev Asim Fakhraddin oglu** approached him and asked him to act as the senior person responsible for the **MAZ** military vehicle assigned to him, bearing military registration number **C159QQ**, in order to deliver water to position No. 24, located at the elevation known as “**1353**” in the area of the village of Talysh, Tartar District, pursuant to an order from the command. He agreed to accompany him to the said location.

He was issued a waybill, and at approximately 14:10 that same day he set off in the said vehicle together with **A.F. Pashayev**. At approximately 15:30, while travelling along a dirt road passing through a forest, they almost reached position No. 24, but while ascending a steep section of the road the vehicle began to skid and was unable to climb the incline. He therefore stopped the vehicle and decided to walk ahead in order to inspect the condition of the road.

While he and A.F. Pashayev were walking along the road, they began slipping because of the snow. Despite the warning that the surrounding area was mined, soldier Pashayev did not pay attention to this and entered the said area. Suddenly, an explosion caused by an anti-personnel mine occurred, as a result of which he was thrown approximately 2 metres toward the road. When he regained consciousness, he discovered that he had lost his right leg.

Volume 119, case file pages 140–144.

The witnesses questioned — **Pashayev Asim Fakhraddin oglu, Nasibli Amrakh Mushvig oglu, Guliyev Emin Imran oglu**, and **Seyidov Sharif Mirmekhdhi oglu** — generally confirmed the circumstances stated in the testimony of **Giyas Tagiyev**.

Volume 119, case file pages 107–110, 112–114, 122–126, 128–131.

Volume 129, case file pages 54–58.

According to forensic criminalistic expert opinion No. **01/tkb** dated 19 January 2021, numerous lacerated and torn areas of damage caused by blunt-force mechanisms were found on the front surface of the right side of the jacket, the right sleeve of the jacket, as well as on the right sleeves of the military tunic, sweater and long-sleeved undershirt, on the lower part of the right trouser leg and undertrousers, on the damaged fragment of the trousers, and on the cap belonging to **Tagiyev Giyas Fariz oglu**.

Taking into account the location, nature, shape and dimensions of the damage to the clothing, as well as the information set out in the expert opinion concerning the case, it may be stated that the damage corresponds to the effects of fragments formed as a result of an explosion at close range, including fragments generated by a mine explosion.

Additional indicators of an explosion, namely particles of unburned gunpowder and soot, were found on the trousers and damaged fragment of the trousers belonging to Tagiyev Giyas Fariz oglu.

Volume 119, case file pages 147–151.

According to forensic medical expert opinion No. **60** dated 28 January 2021, **G.F. Tagiyev** sustained the following injuries: amputation of the right lower extremity at the level of the ankle joint; wounds in the forehead and right temple areas; a lacerated-contused wound in the area of the right supraorbital arch; multiple fragment wounds of the right hand and forearm; and traumatic hemorrhagic shock, Grade II. These injuries were caused by the impact of fragments formed as a result of—

Page 364

—the explosion of a munition and, in terms of severity, are classified as grievous bodily harm resulting in a permanent loss of more than one-third of total working capacity.

Volume 119, case file pages 180–181.

On the basis of a decision dated 03 March 2021 recognizing physical evidence, the following items belonging to **Tagiyev Giyas Fariz oğlu** were recognized as physical evidence: a warm jacket, military tunic, sweater, long-sleeved undershirt, field-type trousers with a belt, civilian sleeveless undershirt, civilian underwear, the left boot from a pair of military boots, a sock, a cap, a fragment of trousers seized from the scene, as well as a blood sample belonging to G.F. Tagiyev. They are being stored in the evidence room of the Special Investigation Department.

Volume 119, case file pages 189–190.

According to an extract from Order No. **338** dated 30 November 2020 of the commander of military unit No. 130 of the Ministry of Defence, soldier **Tagiyev Giyas Fariz oğlu** was appointed as a driver in the vehicle detachment of the logistics company of the 4th motorized rifle regiment.

Volume 119, case file page 81.

According to a protocol drawn up on 02 January 2021 by investigator of the **Fuzuli Military Prosecutor's Office Ibrahimov Nariman Tokhit oğlu**, with the participation of a forensic medical expert and a laboratory assistant, the body of warrant officer **Maharramov Vasif Uzeyir oğlu** and the military clothing he had been wearing at the time of the incident were examined, after which the clothing was seized.

Volume 246, case file pages 8–22.

According to a certificate drawn up on 15 January 2021 by investigator of the **Fuzuli District Prosecutor's Office Hasanov Hasani**, since the scene of the incident was a mined area and mine-clearance work had not yet been carried out there, it was impossible to inspect the scene.

Volume 246, case file page 5.

The witnesses questioned, **Orujov Amil Akhliman oğlu** and **Orujev Goshgar Ali oğlu**, testified that on 01 January 2021, at approximately 08:00, together with a group consisting of

six persons, pursuant to an order from **Colonel Telman Huseynov**, Chief of Intelligence of the 2nd Corps, they were searching for the body of a fallen serviceman.

For that purpose, they travelled in an **Ural** military vehicle from the settlement of **Hadrut, Khojavend District**, where military unit No. 218 was stationed, toward elevation **1226**, located in **Qubadli District**. At approximately 14:00 that day, they reached the area and began moving on foot toward elevation 1226.

The said territory is located on the state border with Armenia, and mines had previously been planted there by Armenian armed formations. Searches in the area continued for approximately 3–4 hours. While they were moving, an explosion suddenly occurred: **Vasif Maharramov** stepped on a mine, his left leg was completely amputated together with part of the thigh, while his right leg was partially amputated.

Despite the fact that first aid was provided to him, he died from the injuries sustained while being transported.

Volume 246, case file pages 46–49, 67–70.

According to forensic medical expert opinion No. **01** dated 01 February 2021, examination of the body of **Maharramov Vasif Uzeyir oglu** revealed the following injuries: complete traumatic amputation of the left lower extremity at the level of the lower third of the thigh; incomplete traumatic amputation of the right lower extremity at the level of the lower third of the lower leg, associated with the presence of a skin flap; as well as an acute—

Page 365

—external blood loss. These injuries were sustained during life and resulted from the impact of numerous fragments generated by the explosion of an explosive device. Taken together, they are classified as grievous bodily harm posing a danger to life.

Volume 246, case file pages 91–94.

According to forensic ballistic expert opinions Nos. **3/184 and 3/185** dated 26 February 2021, no damage characteristic of violence against **Maharramov Vasif Uzeyir oglu** was found on his clothing. Traces of an explosive substance were found on the surface of the pea coat, field trousers, undertrousers and underwear belonging to him. Taking into account the shape, morphological structure and surrounding area of the damage, it may be concluded that the said damage is characteristic of the impact of fragments generated by the explosion of an explosive device, including a mine explosion, at close range from the epicentre of the explosion. The submitted jacket and undershirt did not contain characteristic damage associated with the explosion of an explosive device.

Volume 246, case file pages 83–87.

On the basis of a decision dated 15 March 2021 recognizing physical evidence in the criminal case, the following items worn by **Maharramov Vasif Uzeyir oglu** at the time of the incident were recognized as physical evidence and are being stored in the evidence room of the Special Investigation Department: a winter camouflage jacket, camouflage sweater, grey

long-sleeved shirt of warm underwear, trousers of warm underwear, white sleeveless shirt, military thermal jacket, field trousers, and white underwear.

Volume 246, case file pages 95–96.

On 23 December 2020, at approximately 00:15, a building belonging to **Operational Enterprise No. 55 of the State Agency of Azerbaijan Automobile Roads**, located in the village of **Chapli, Kalbajar District**, as well as the employees who were inside the building, were subjected to fire by an Armenian armed group consisting of at least two persons at close range, as well as by other members of the group positioned on the surrounding heights, using automatic weapons, with the intent to commit premeditated murder on grounds of national enmity and hatred. However, as a result of return fire by servicemen of the Internal Troops of the Ministry of Internal Affairs and employees of the Kalbajar District Police Department, the members of the group left the scene.

Najafov Magomed Farman oglu, an employee of Operational Department No. 55 of the State Agency of Azerbaijan Automobile Roads and a resident of the village of **Dashbulag, Kalbajar District**, recognized and questioned as a victim, testified that on 22 December 2020, at approximately 00:00, while he was sleeping in the building, he heard numerous gunshots outside. At that time, servicemen and police officers who were serving there informed him that Armenian armed groups had begun shooting and instructed him not to go outside. In connection with this, they switched off the lights in the building.

The shooting was directed toward the building in which they were located. It was possible that the armed group noticed the lights in the building, realized that people were inside and opened fire in order to kill them. He remained inside because he was not permitted to go outside and did not know what was happening around the building. However, he understood that the building was under fire.

Together with him, **Agil Kamalov, Oktay Kamalov, Aydin Aliyev, Mubariz Jamilov, and Parvin Ugurluyev**, whose lives were likewise subjected to an attempted attack as a result of the fire opened by Armenian armed forces, were inside the building.

Following the incident, he experienced psychological shock, and the threat of being killed caused him severe fear.

Volume 218, case file pages 19–22.

Page 366

The following persons, recognized and questioned as victims — **Kamalov Agil Alasdan oglu, Aliyev Aydin Allahverdi oglu, Jamilov Mubariz Huseyn oglu, Mamishev Nemat Galandar oglu, Askerov Azer Azim oglu, Ismailov Gashgay Aydin oglu, Gakhramanov Eldost Kochari oglu, Ugurluyev Parvin Chingiz oglu, and Abdullayev Shamo Elbrus oglu** — gave testimony similar to that of **Najafov Magomed Farman oglu**.

Volume 218, case file pages 26–29, 34–37, 41–44, 63–66, 70–73, 77–80, 84–88, 92–96, 100–103.

Captain Mukhtarov Sarkhan Ilgar oğlu, commander of the 1st battalion of military unit No. 285 of the **Qubadli Border Corps of the State Border Service**, on 12 January 2021, at approximately 13:00, while travelling toward the village of **Yukhary Emezli, Zangilan District**, for the purpose of delivering fuel to the field posts of the 1st battalion of the military unit located in Zangilan District, together with **Safarov Majid Jalil oğlu**, a soldier serving as line controller of the communications platoon of the said battalion, in a **Mitsubishi** vehicle bearing military registration number **F449QQ**, struck an anti-tank mine previously planted by members of Armenian armed formations whose identities were not established by the investigation. As a result of the mine explosion, Captain **Mukhtarov Sarkhan Ilgar oğlu** died at the scene from the injuries sustained, while soldier **Safarov Majid Jalil oğlu** sustained bodily injuries of varying severity and was evacuated to Military Hospital No. 214.

Safarov Majid Jalil oğlu, recognized and questioned as a victim, stated that on 12 January 2021, at approximately 08:00, together with commander of the 1st battalion Captain **Sarkhan Mukhtarov**, he left the battalion's place of deployment in the village of **Iskenderbeyli, Zangilan District**, in a **Mitsubishi** vehicle driven by him and travelled toward the village of Yukhary Emezli in the same district in order to deliver gasoline to the units.

They left gasoline at seven posts and were travelling toward the remaining two when, while in the area of the village of Yukhary Emezli, Captain Mukhtarov instructed him to drive toward the centre of the village because there was a water source there.

The road to Yukhary Emezli ran through mountainous terrain and was unpaved. The area was near the border with Armenia. On 12 January 2021, at approximately 13:00, while travelling along the dirt road, an explosion suddenly occurred and the vehicle he was driving overturned.

He lost consciousness and sustained injuries to various parts of his body, particularly the face. When he regained consciousness, he called out to Captain Mukhtarov but discovered that he had died. Realizing that the vehicle had struck a mine planted by Armenians, he got out of the vehicle and walked toward the 2nd detachment of the 1st company of the battalion in order to ask for assistance.

After climbing to higher ground, he called for help, after which personnel of the 2nd detachment assisted him and evacuated Captain Mukhtarov's body from the scene. Some time later, he was evacuated by a State Border Service ambulance to a military hospital.

Volume 132, case file pages 75–79.

Mukhtarov Israfil Ilgar oğlu, recognized and questioned as the legal successor of the victim, testified that at approximately 16:00 on 12 January 2021, he received a telephone call informing him that his brother **Sarkhan Mukhtarov** had struck an anti-tank mine while travelling in an official vehicle and had died.

Volume 132, case file pages 63–65.

During the investigation, it was established that as a result of the mine explosion, the **Mitsubishi** vehicle bearing military registration number **F449QQ**, belonging to military

unit No. 285, became completely unfit for use, thereby causing material damage to the military unit.

Page 367

In this connection, **Major Abbasov Vitaliy Shahbaz oğlu**, Chief of the Motor Transport Service of military unit No. 285, was recognized as the representative of the victim, military unit No. 285. In his testimony, Vitaliy Abbasov stated that the said vehicle had been assigned to **Safarov Majid Jalil oğlu**, a soldier of the 1st battalion of the military unit. As a result of the incident, the vehicle became completely unfit for use, and its repair and return to service were impossible.

Volume 132, case file pages 110–113.

According to forensic medical expert opinion No. **15** dated 12 January 2021, examination of the body of **Mukhtarov Sarkhan Ilgar oğlu** revealed the following injuries: partial traumatic amputation of the anterior part of the head, accompanied by open multiple comminuted fractures of the bones of the facial skeleton, both temporal bones, the frontal bone and the anterior parietal bone, as well as destruction and crushing of brain tissue; abrasions on the lower third of the anterior surface of the neck, the anterior surface of the chest, the anterior surface of the right shoulder joint, the lower third of the posterior surface of the right forearm, the posterior surfaces of both hands, the anterior surfaces of both lower legs and the left lateral surface of the chest; lacerated wounds on the posterior surfaces of both hands, the lower third of the posterior surface of the right lower leg, the outer surface of the right ankle joint, the plantar surface of the right foot and the middle third of the posterior surface of the left lower leg; open comminuted fractures of the proximal phalanx of the fourth finger of the right hand, the distal phalanx of the third finger of the right hand, the bones of the right lower leg, the arch of the right foot and the bones of the left lower leg.

The direct cause of death was partial traumatic amputation of the anterior part of the head, accompanied by open multiple comminuted fractures of the bones of the facial skeleton, both temporal bones, the frontal bone and the anterior parietal bone, as well as destruction and crushing of brain tissue.

Volume 132, case file pages 94–97.

According to forensic ballistic expert opinions Nos. **3/386 and 3/387** dated 26 February 2021, traces of explosive substances were found on the surface of the jacket, military field trousers, one pair of footwear and two pairs of black socks belonging to **Mukhtarov Sarkhan Ilgar oğlu**.

The nature, shape and morphological structure of the damage, as well as the effects of fragments resulting from the explosion of an anti-tank mine at close range to the right of the epicentre of the explosion, correspond to the typical characteristics of this type of impact. However, due to the absence of an appropriate scientific methodology, it is impossible to determine the specific type or calibre of weapon or explosive device by which the said damage was caused, or to establish the time at which it was sustained.

The damage to the military clothing of Mukhtarov Sarkhan Ilgar oglu corresponds to the injuries found on his body. Traces of explosive substances were also found on the military clothing.

Volume 132, case file pages 124–128, 145–147.

On the basis of a decision dated 15 March 2021 recognizing physical evidence, the winter camouflage jacket, camouflage sweater, black long-sleeved shirt forming part of a set of warm underwear, military field trousers, underwear, two pairs of black socks and one pair of black boots worn by **Mukhtarov Sarkhan Ilgar oglu** were recognized as physical evidence and are being stored in the evidence room of the Special Investigation Department.

Volume 132, case file pages 129–130.

According to Order No. **81** of the commander of military unit No. 285 dated 19 December 2020, Captain **Mukhtarov Sarkhan Ilgar oglu** was appointed commander of the **2851st**—

Page 368

—**motorized rifle battalion** on the basis of Order No. **01307** of the Minister of Defence of the Republic of Azerbaijan dated 17 December 2020. He arrived from military unit No. 707, located in **Gazakh District**, and as of 19 December 2020 was included in the personnel list of the unit, placed on all forms of provision, and commenced the performance of his duties and assumption of the position.

Volume 132, case file page 83.

According to the scene inspection protocol dated 21 January 2021, the scene of the incident was located at a combat post of the 5th company of the 2nd battalion of military unit No. 706 of the Ministry of Defence, situated in the village of **Ashaghi Veysalli, Fuzuli District**.

Volume 247, case file pages 5–21.

According to the body inspection protocol dated 21 January 2021, it was established that, as a result of a mine explosion, the body of soldier **Javadov Rashad Farzali oglu** was in a condition that made identification impossible.

Volume 247, case file pages 22–31.

According to forensic medical expert opinion No. **22** dated **04 February 2020**, examination of the body of **Javadov Rashad Farzali oglu** revealed the following injuries: complete traumatic amputation of the head, the right upper extremity, both lower extremities at the level of the torso, as well as the left hand at the level of the wrist joint; extensive wounds incompatible with life involving the right half of the chest and its posterior surface, and the anterior and lateral surfaces of the abdominal and pelvic cavities, accompanied by evisceration (prolapse) of the internal organs of the thoracic, abdominal and pelvic cavities, multiple injuries to the internal organs, and acute massive external blood loss.

The direct cause of death was extensive wounds incompatible with life caused by the impact of primary fragments resulting from the explosion, including complete traumatic amputation

of the head, the right upper extremity, both lower extremities at the level of the torso, and evisceration of organs from the body cavities.

Volume 247, case file pages 66–68.

According to forensic ballistic expert opinion No. **3/473** dated 09 April 2021, the military clothing contained damage specified in the examination section of the opinion, in the stated quantity and dimensions. Taking into account the shape, dimensions and morphological structure of the damage, as well as the presence on the surface of the clothing of traces of explosive substance (**TNT**), partially unburned particles of smokeless powder and soot, it may be concluded that the said damage is characteristic of the impact of fragments generated by an explosion and travelling from the epicentre in various directions.

However, it is impossible to determine precisely what type or types of ammunition caused the said damage.

Volume 247, case file pages 104–108.

According to forensic genetic expert opinion No. **21/31/68** dated 17 May 2021, the blood samples present on items belonging to **Javadov Rashad Farzali oglu** belong to the biological male child of **Javadov Farzali Novruzali oglu**.

Volume 247, case file pages 133–136.

Page 369

The legal successor of the victim, **Javadov Farzali Novruzali oglu**, stated that his son, **Javadov Rashad Farzali oglu**, was called up for compulsory military service in October 2019. He initially served in **Aghjabadi District** and subsequently continued his service in **Fuzuli District**. After the outbreak of hostilities on 27 September 2020, his son took part in the liberation from occupation of the **Fuzuli and Khojavend districts**. For the courage and bravery he displayed in combat, he was awarded medals.

On 21 January 2021, a representative of the Executive Authority of **Gusar District** for the village of **Khil** came to their place of residence and informed him that his son Rashad had been killed as a result of a mine explosion. On **22 December 2021**, his body was brought to his native village and buried in the cemetery.

Volume 247, case file pages 91–94, 116–119.

Ganbarov Togrul Mahir oglu, questioned as a witness, stated that on 21 January 2021 he had been assigned to combat duty together with soldier **Rafail Mammadov** from 07:00 to 09:00. Before them, soldiers **Ibrahim Manafov** and **Rashad Javadov** had been on duty. After handing over combat duty, they went out on patrol.

Soldier I. Manafov was on duty in the trench in front of the soldiers' accommodation, while soldier R. Javadov patrolled a trench bearing a mine designation and located below the combat position. At approximately 08:00, while soldier **R. Mammadov** was on duty at the post, an explosion occurred in the trench on the left-hand side. Believing that the shot had been fired by Armenians from a mortar, he continued observing.

However, R. Mammadov went down from the post to determine what had happened. Some time later, he returned to the post and reported that the explosion had occurred in a mined section of the trench and that soldier **R. Javadov** had been killed. His clothing and body parts had been scattered across different sections of the trench.

In response to the sound of the explosion, company commander Lieutenant **Huseyn Guliye**v also approached the post and stated that the person killed in the explosion was soldier R. Javadov.

Volume 247, case file pages 52–55.

Mirzoyev Javid Azer oglu, Manafov Ibrahim Mehdi oglu, and Mammadov Rafail Samed oglu gave similar testimony and confirmed the testimony of **Ganbarov Togrul Mahir oglu**.

Volume 247, case file pages 60–64, 69–72, 73–75.

According to a decision dated 29 April 2021, the following items belonging to **Javadov Rashad Farzali oglu** and worn by him at the time of the incident were recognized as physical evidence and are being stored in the evidence room of the Special Investigation Department of the Military Prosecutor's Office of the Republic of Azerbaijan: part of a military jacket, a sleeve from a military jacket, a piece of dark-green fabric resembling part of a military pea coat, a light-brown long-sleeved undershirt, and part of dark-green military trousers with a belt.

Volume 247, case file pages 109–110.

On 04 February 2021, at 13:30, **Mammadov Aykhan Kerimkhan oglu**, an extended-service serviceman serving as medical orderly of the 1st battery of the artillery battalion of military unit No. 161 of the Ministry of Defence, stationed in the village of **Shelli, Aghdam District**; **Zeynalov Ali Afghan oglu**, a compulsory-service serviceman serving as senior gunner of the 1st gun of the 2nd platoon of the said battery; **Babayev Nemat Novruz oglu**, a compulsory-service serviceman serving as a soldier and member of the crew of the 1st gun of the 2nd platoon of the said battery; **Melikmammadov Balagardash Mubariz oglu**, a compulsory-service serviceman serving as a soldier and member of the crew of the 2nd gun of the 1st platoon of the said battery; and **Zeynalov Gubad**—

Page 370

—**Islam oglu**, sustained injuries as a result of an explosion. During evacuation to Military Hospital No. 056, soldier **Zeynalov Gubad Islam oglu** died en route.

According to the scene inspection protocol dated 04 February 2021, the scene of the incident was the central part of the road leading from the village of **Shelli** toward the village of **Shykhbaba, Aghdam District**.

Volume 128, case file pages 6–16.

Mammadov Aykhan Kerimkhan oglu, recognized and questioned as a victim, testified that on 04 February 2021, at approximately 12:30, Warrant Officer **Sadi Huseynov**, serving as

senior sergeant of the 1st battery, assigned four soldiers — **Gubad Zeynalov, Nemat Babayev, Balagardash Melikmammadov**, and **Ali Zeynalov** — to deliver food and instructed him to lead the group.

Since they were responsible for supplying the 1st battalion of the artillery battalion of military unit No. 161, stationed in the village of **Shelli, Aghdam District**, they set out with food for the battalion, which was located approximately one kilometre away.

A **MAZ** vehicle was ordinarily used for this purpose, but the vehicle was unavailable that day, so he chose a shorter route across a rocky road. After reaching the battalion, they handed over the food and bread, helped the cooks, and returned by the same route.

On the way back, after travelling approximately **500–600 metres**, **Ali Zeynalov**, who was pushing a handcart, called out to the warrant officer: “**Comrade Sergeant, look over here.**” He turned around and saw an object resembling a **lamp socket**, to which a dark-red cord had been attached.

Ali Zeynalov was holding the cord and showed the object to him. He examined it from a distance of approximately one metre and told Ali Zeynalov that he did not know what it was and instructed him to throw it away.

At that moment, **Gubad Zeynalov** suggested that Ali Zeynalov hand the object to him so that he could look at it himself, and then throw it away. Ali Zeynalov passed the object to Gubad Zeynalov.

Since Gubad Zeynalov was carrying a plastic crate containing tomatoes in his hands, he tucked the crate under his arm and took the object. When he subsequently tried to pull the crate out from under his arm, the object slipped from his hands and fell to the ground. Everyone present fell to the ground.

He felt pain in his leg and began experiencing hearing problems. He then telephoned Sadi Huseynov and informed him of the explosion and the wounded. Some time later, Warrant Officer Sadi Huseynov arrived at the scene together with several servicemen, and all five injured persons were evacuated to the hospital of military unit No. 056.

He did not understand what the unidentified object was; before the incident, he had thought that it was a lamp socket. According to Ali Zeynalov, he had found the object by the side of the road not far from the scene.

At the time of the explosion, **Zeynalov Gubad Islam oglu** and **Zeynalov Ali Afghan oglu** were closest to the epicentre of the explosion. He was standing approximately **2–3 metres to the left of Gubad Zeynalov**. The other soldiers — **Melikmammadov Balagardash Mubariz oglu** and **Babayev Nemat Novruz oglu** — were approximately **2–3 metres** from the site of the explosion. As a result of the explosion, **Gubad Zeynalov died**, while he and the other soldiers sustained injuries.

Volume 128, case file pages 103–106.

Zeynalov Ali Afghan oglu, Babayev Nemat Novruz oglu, and Melikmammadov Balagardash Mubariz oglu, recognized and questioned as victims, gave testimony similar to that of the victim **Mammadov Aykhan Kerimkhan oglu**.

Volume 128, case file pages 113–116, 122–124, 159–162.

Zeynalov Islam Gubad oglu, recognized and questioned as the legal successor of the victim, testified that his son **Zeynalov Gubad Islam oglu** was called up for compulsory active military service on 05 July 2019. In September 2019, he served as a member of the crew of the 1st gun of the 1st platoon of the 1st battery of the artillery battalion of military unit No. 161.

On 04 February 2021, one of the servicemen of the military unit informed him by telephone that his son Gubad Zeynalov had been killed.

Volume 128, case file pages 213–215.

Page 371

Gasimov Shamsaddin Mustafa oglu, head of the ammunition depot of military unit No. 161, questioned as a witness, stated that **cluster munitions** are included in the list of prohibited munitions and therefore were not stored at the ammunition depot of the military unit. He assumed that the munition discovered by soldier **Ali Zeynalov** was part of a cluster rocket fired by Armenian armed forces toward Azerbaijani positions and, after the rocket was neutralized by the air-defence forces of the Azerbaijani army, part of the cluster munition may have fallen in the area where the incident occurred. He stated that cluster rockets contain numerous explosive elements which scatter around upon impact.

Volume 128, case file pages 164–167.

Lieutenant Colonel Gurbanov Javanshir Movlud oglu, Chief of the Artillery Service of military unit No. 161, questioned as a witness, gave testimony similar to that of witness **Ismailov Jeyhun Isakhan oglu**.

Volume 128, case file pages 223–226.

Medical Service Lieutenant Lelebizade Azer Khayyam oglu, physician of the medical station of the 1st battalion of military unit No. 161, questioned as a witness, testified that soldiers **Mammadov Aykhan Kerimkhan oglu, Zeynalov Ali Afghan oglu, Babayev Nemat Novruz oglu, Melikmammadov Balagardash Mubariz oglu, and Zeynalov Gubad Islam oglu**, who had sustained various bodily injuries as a result of the explosion of a projectile on 04 February 2021, were provided medical assistance at the scene and evacuated to Hospital No. 056. However, soldier **Zeynalov Gubad Islam oglu**, who was in a more critical condition, died.

Volume 128, case file pages 191–195.

Ismailov Jeyhun Isakhan oglu, Chief of the Engineering Service of military unit No. 161, and **Senior Lieutenant Veliyev Nahid Sakit oglu**, commander of the 1st battery of the

artillery battalion of the said military unit, questioned as witnesses, gave testimony similar to that of the victims and witness **Lelebizade Azer Khayyam oglu**.

Volume 128, case file pages 196–199, 201–204.

According to forensic medical expert opinion No. **05** dated 01 March 2021, examination of the body of **Zeynalov Gubad Islam oglu** revealed the following injuries: multiple superficial wounds to the face and anterior surface of the neck; a penetrating wound to the chest on the anterior left side; multiple wounds in the anterior area of the left axilla; multiple wounds to the left upper extremity; wounds on the left and right halves of the external genital organ; isolated wounds on both lower extremities and the right upper extremity; injuries to the left lung, intestinal loops and right femoral artery; hemopneumothorax; and acute blood loss.

The said injuries resulted from the impact of numerous fragments generated by an explosion. The cause of death was multiple blunt fragment wounds to the body accompanied by penetrating injuries to the abdominal and thoracic cavities, trauma to internal organs and major blood vessels, as well as acute blood loss.

Volume 128, case file pages 171–175.

According to forensic medical expert opinion No. **194** dated 16 March 2021, **Melikmammadov Balagardash Mubariz oglu** sustained the following injuries: a wound to the left half of the chest penetrating into—

Page 372

—the pleural cavity and caused by a firearm; hemopneumothorax; fracture of the nasal bones; wounds to the bridge of the nose, the right half of the forehead, the upper third of the right forearm, the left half of the neck and the right knee joint; and traumatic hemorrhagic shock, Grade II. These injuries were caused by fragments generated by the explosion of a firearm munition and are classified as grievous bodily harm.

Volume 128, case file pages 221–222.

According to forensic medical expert opinion No. **195** dated 31 March 2021, **Babayev Nemat Novruz oglu** sustained the following injuries: a fragment wound to the right half of the chest penetrating into the pleural cavity and complicated by pneumothorax; open comminuted fractures of the middle third of the shaft of the right fibula and of the upper and middle thirds of the shaft of the left tibia, with soft-tissue defects and displacement; traumatic hemorrhagic shock, Grade III–IV; and wounds to the bridge of the nose and the third and fourth fingers of the right hand. These injuries were caused by fragments generated by the explosion of a firearm munition and are classified as grievous bodily harm.

Volume 140, case file pages 7–8.

According to forensic ballistic expert opinion No. **3/454** dated 17 March 2021, the two items submitted for examination consisted of a fragment separated from the body of a **9M55K rocket**, used in the **Smerch multiple-launch rocket system**, manufactured in the Russian Federation.

The rocket has a cluster warhead and contains fragmentation submunitions and a ribbon. A **9N235** submunition contains **96 ready-made fragments weighing 4.5 grams each** and **360 ready-made fragments weighing 0.75 grams each**. The total weight of the submunition is **1.75 kg**, including **0.32 kg of explosive substance**, and its overall dimensions are **69 × 263 mm**.

The fragments are capable of penetrating armour measuring **5–7 mm** thick at a distance of **10 metres**, and **1–3 mm** thick at a distance of **100 metres**.

Volume 140, case file pages 12–15.

According to forensic ballistic expert opinion No. **3/455** dated 31 March 2021, the four submitted objects were factory-manufactured using appropriate equipment, and their design was specially developed for use in devices (**rocket projectiles**). They were manufactured from typical materials, and their shape, manufacturing characteristics, traces on their surfaces and other features indicate that they form part of factory-manufactured explosive devices or artillery projectiles.

However, because the metallic fragments were small and bore no factory markings, it was impossible to determine to which particular device or projectile they belonged, or the type and weight of the explosive substance contained in them.

Volume 140, case file pages 16–19.

On the basis of a decision dated 17 May 2021, the clothing belonging to soldier **Gubad Zeynalov** and the victims, as well as **two separated parts of a Smerch multiple-launch rocket system projectile and four fragments of explosive-device projectiles**, were recognized as physical evidence and are being stored at the **Republican Military Prosecutor's Office**.

Volume 140, case file pages 80–85.

On 13 February 2021, soldier **Hasanov Alihasan Tumar oglu**, rifleman of the 1st squad of the 2nd platoon of the 3rd company of the 1st battalion of military unit No. 130 of the Ministry of Defence, while at combat position No. 27 at the elevation known as “**1047**”, in the area of the liberated village of **Sugovushan, Tartar District**, during a rest period or while—

Page 373

—on combat duty, began moving together with the officials who had arrived from military unit No. 130 to install a surveillance camera for the purpose of timely detecting a possible diversion in the said area and ensuring its armed protection. They moved through wooded terrain located on the right-hand side of the position.

At approximately 12:40, while moving to the right through the wooded area at a distance of approximately **500 metres from the elevation**, soldier **Hasanov Alihasan Tumar oglu**, as a result of the explosion of an anti-personnel mine previously planted in the ground by members of Armenian armed formations under circumstances not established by the investigation, sustained grievous bodily injuries, namely: **traumatic amputation of the right**

lower extremity at the level of the ankle joint, abrasions on the anterior surface of the left lower leg, and traumatic hemorrhagic shock, Grade II.

Thereafter, he was evacuated to Military Hospital No. 056 and subsequently transferred to the **Central Clinical Hospital of the Armed Forces**.

According to the scene inspection protocol dated 15 February 2021, the scene was located in wooded terrain approximately **500 metres to the right of the elevation known as “1047,”** within the area of combat position No. 27 in the territory of the village of **Sugovushan, Tartar District**. The area consisted of small trees and earthen elevations. Numerous mines planted by the Armed Forces of Armenia and removed from the ground were found near the scene.

Volume 129, case file pages 1–2, 15–28.

Hasanov Alihasan Tumar oğlu, rifleman of the 1st squad of the 2nd platoon of the 3rd company of the 1st battalion of military unit No. 130 of the Ministry of Defence, recognized and questioned as a victim, testified that on 13 February 2021, at approximately 12:45, there was suddenly an explosion characteristic of the detonation of an anti-personnel mine.

The blast wave threw him approximately one metre backward, and he fell onto his back. At first, he thought someone else had stepped on a mine and tried to get up, but while attempting to stand he felt severe pain in his right leg and lay down on his left side.

When he looked at his right leg, he saw that part of his foot had been torn off. At that time, on the instructions of **Colonel R. Agakishiyev**, who was nearby, the servicemen remained where they were and did not move. Fragments of the mine had completely damaged his right leg, and therefore he did not feel pain or signs of injury in other parts of his body.

Thereafter, with the assistance of one of the officers who was nearby, whose name he did not remember, he applied a tourniquet to his right leg in order to reduce the bleeding.

Volume 129, case file pages 116–119.

The witnesses questioned — **Rahimov Rahim Gulamhuseyn oğlu**, commander of the 1st regiment of military unit No. 130 of the Ministry of Defence; **Senior Lieutenant Shammedov Geysar Amirasalan oğlu**, commander of the engineer-sapper company of military unit No. 130; and **Lieutenant Hajiyeve Yahya Vasif oğlu**, commander of the 2nd platoon of the 3rd company of the 1st regiment of military unit No. 130 — gave testimony similar to that of **Hasanov Alihasan Tumar oğlu**.

Volume 129, case file pages 76–80, 82–86, 88–92.

According to forensic medical expert opinion No. **341** dated 15 March 2021, **Hasanov Alihasan Tumar oğlu** sustained the following injuries: traumatic amputation of the right lower extremity at the level of the ankle joint; abrasions on the anterior surface of the left lower leg; and traumatic hemorrhagic shock, Grade II. These injuries resulted from the impact of fragments generated by the explosion of a munition and are classified as—

—grievous bodily harm resulting in a permanent loss of more than one-third of total working capacity.

Volume 129, case file pages 149–150.

On the basis of a decision dated 29 April 2021 recognizing physical evidence in the criminal case, the sweater, trousers, undertrousers and left boot from a pair belonging to **Hasanov Alihasan Tumar oğlu** were recognized as physical evidence and are being stored in the evidence room of the Special Investigation Department.

Volume 129, case file pages 169–171.

According to an extract from Order No. **16** dated 15 February 2021 of the commander of military unit No. 130, soldier **Hasanov Alihasan Tumar oğlu** was appointed rifleman of the 1st squad of the 2nd platoon of the 3rd company of the 1st battalion of military unit No. 130.

Volume 129, case file page 35.

On 26 February 2021, at approximately 17:00, about **10 servicemen of the engineer-sapper unit of the Qubadli Special Border Division of the State Border Service**, pursuant to an order from the command, were carrying out demining work in the territory of the village of **Ashaghi Khojamsagly, Qubadli District**, when they fell victim to explosions of anti-personnel mines previously planted in that territory by unidentified members of Armenian armed formations.

As a result of the first explosion, servicemen of the said unit **Azizli Nuraddin Gorbedin oğlu, Alishanov Elmeddin Chingiz oğlu, Nagiyev Vagif Shamil oğlu, and Ibrahimov Vugar Elkhani oğlu** sustained bodily injuries of varying severity and were evacuated to a military hospital of the State Border Service.

During a second mine explosion, servicemen of the engineer-sapper unit — **Junior Warrant Officer Maharramov Alim Ilgar oğlu** and **medical-unit feldsher Warrant Officer Nazarov Hajinazar Eldeniz oğlu** — sustained injuries and were evacuated to hospital with a diagnosis of “**barotrauma.**”

Since the scene was located on the line of contact with Armenian armed formations and there was a mine hazard in the area, it was not possible to conduct an inspection of the scene.

Volume 248, case file pages 5–6.

Junior Warrant Officer Azizli Nuraddin Gurbaddin oğlu, a sapper of the engineer-sapper company of the Qubadli Special Border Division, recognized and questioned as a victim, testified that on 26 February 2021 Junior Warrant Officers **Alishanov Elmeddin Chingiz oğlu, Nagiyev Vagif Shamil oğlu, Ibrahimov Vugar Elkhani oğlu, Khagani Mehdiyev**, and a junior warrant officer named **Amil**, whose surname he did not know, had been assigned to demining work.

That day, at approximately 16:00–17:00, while carrying out demining work at a location where he was together with Junior Warrant Officer **E. Alishanov**, a powerful explosion occurred. At that moment, he felt severe pain in his right leg.

When he raised his head, he saw that the part of his right leg below the ankle was missing and that blood was flowing from the wound. Realizing that a mine had exploded, he noticed that Junior Warrant Officer **E. Alishanov** was sitting on the ground and had an injury to his face caused by the explosion.

At the time of the explosion, Junior Warrant Officer **Vagif Nagiyev** was some distance away from them. When he approached and attempted to provide assistance while supporting his left leg, a **second mine explosion** occurred. As a result of the second explosion, he felt pain in his left leg, while Junior Warrant Officer V. Nagiyev was thrown aside.

Other servicemen who were nearby then began evacuating them from the demining area. After the evacuation, he learned that Junior Warrant Officer **V. Nagiyev** had sustained an injury to his left leg, while **E. Alishanov** had sustained injuries to his face, and, if he was not mistaken, **Vugar Ibrahimov** had sustained an injury to his left leg.

Page 375

Volume 248, case file pages 40–43.

The following persons, recognized and questioned as victims — **Nagiyev Vagif Shamil oglu, Alishanov Elmeddin Chingiz oglu, Maharramov Alim Ilgar oglu, Nazarov Hajinazar Eldaniz oglu, and Ibrahimov Vugar Elkhan oglu** — gave testimony similar to that of the other victim, **Azizli Nuraddin Gurbeddin oglu**.

Volume 248, case file pages 47–50, 54–57, 62–65, 104–107, 108–111, 115–118, 122–125.

According to forensic medical expert opinion No. **540** dated 05 April 2021, **Azizli Nuraddin Gurbeddin oglu** sustained the following injuries: post-traumatic amputation of the right lower extremity at the level of the upper third of the lower leg; an open displaced fracture of the bones of the left lower leg at the level of the middle third; and a fracture of the base of a toe phalanx of the left foot. These injuries were caused by the impact of fragments and a blast wave resulting from the explosion of an explosive munition and are classified as grievous bodily harm.

Volume 248, case file pages 139–140.

According to forensic medical expert opinion No. **541** dated 05 April 2021, **Nagiyev Vagif Shamil oglu** sustained the following injuries: post-traumatic amputation of the left lower extremity at the level of the lower third of the lower leg; multiple fragment wounds to the right lower leg, face and right arm; and post-traumatic perforation of the left tympanic membrane. These injuries were caused by fragments and a blast wave resulting from the explosion of an explosive munition and are classified as grievous bodily harm.

Volume 248, case file pages 141–142.

According to forensic medical expert opinion No. **546** dated 05 April 2021, **Alishanov Elmeddin Chingiz oglu** sustained the following injuries: multiple fragment wounds to the face, neck and right arm; contusion of the right eyeball; and a penetrating wound to the left eyeball resulting in its loss. These injuries were caused by fragments resulting from the

explosion of an explosive munition and are classified as grievous bodily harm resulting in a permanent loss of more than one-third of total working capacity.

Volume 248, case file pages 143–144.

According to forensic medical expert opinion No. **143** dated 19 April 2021, no visible injuries or traces of injuries associated with the incident were found on the body of **Maharramov Alim Ilgar oglu**.

Volume 248, case file pages 158–160.

According to forensic medical expert opinion No. **636** dated 19 April 2021, **Ibrahimov Vugar Elkhon oglu** sustained the following injuries: a small number of fragment wounds to the face; multiple fragment wounds to the dorsal surface of the left arm; and fragment wounds to the left thigh. These injuries were caused by fragments resulting from the explosion of an explosive munition and are classified as minor harm to health resulting in a temporary health disorder.

Volume 248, case file pages 165–166.

According to forensic medical expert opinion No. **139** dated 06 May 2021, no visible injuries or traces of injuries associated with the incident were found on the body of **Nazarov Hajinazar Eldaniz oglu**.

Volume 248, case file pages 171–172.

Page 376

On 20 March 2021, at approximately 11:00, in the territory of observation post No. **31** of the 9th company of the 3rd battalion of military unit No. 161, located in the village of **Kuropatkino, Khojavend District**, as a result of the explosion of an **MPN-type anti-personnel mine** previously planted by members of Armenian armed formations whose identities were not established by the investigation, with the intent to deliberately kill two or more servicemen of the Armed Forces of the Republic of Azerbaijan on grounds of national hatred and enmity, the following injuries were caused:

Deputy commander of the 1st platoon of the military company, Warrant Officer **Hajizade Ruhid Alim oglu**, sustained grievous bodily harm accompanied by **traumatic hemorrhagic shock, Grade III; traumatic amputation of the left lower extremity at the level of the ankle joint; abrasions on the anterior surface of the left lower leg and knee joint; and abrasions on the anterior and posterior surfaces of the left forearm and left hand.**

Member of the machine-gun squad of the 2nd platoon, Private **Guliyev Sirajlu Javid oglu**, sustained minor harm to health resulting in a short-term health disorder, including **acute left-sided cochlear neuritis and multiple blind fragment wounds to the left half of the face, left forearm, dorsal surface of the left hand and left lateral abdominal wall.**

Gunner of the 2nd squad of the 1st platoon, Private **Bendaliyev Khazar Vahid oglu**, sustained minor harm to health resulting in a short-term health disorder, including **non-**

penetrating blind fragment wounds to the right half of the face, upper third of the left forearm, dorsal surface of the left hand and left half of the abdomen.

Rifleman of the 2nd squad of the 1st platoon, Private **Aslanov Rashad Faraj oglu**, sustained minor harm to health resulting in a short-term health disorder, including **multiple blind fragment wounds to both upper extremities and the right half of the abdomen.**

The said injuries were caused by the impact of fragments and the blast wave resulting from the detonation of an explosive device.

According to the scene inspection protocol dated 20 March 2021, the location where Warrant Officer **Hajizade Ruhid Alim oglu** and soldiers **Guliyev Sirajlu Javid oglu**, **Bendaliyev Khazar Vahid oglu**, and **Aslanov Rashad Faraj oglu** sustained injuries was the territory of observation post No. 31 of the 9th company of the 3rd regiment of military unit No. 161. The said post is located in the territory of the village of **Kuropatkino, Khojavend District.**

During the inspection of the scene, the following were seized: the right pair of boots made of rubber material that had been worn by Warrant Officer Ruhid Hajizade; three parts of the left boot rendered unusable as a result of the explosion; and soil from the crater formed by the explosion.

Volume 249, case file pages 5–18.

On the basis of a decision dated 23 March 2021 issued by investigator of the **Fuzuli Military Prosecutor's Office Hasanli Hasan Seyfaddin oglu**, the remains of the anti-personnel mine found at the scene were seized and packaged in accordance with the protocol drawn up on the said date.

Volume 249, case file pages 52–53.

On the basis of a decision dated 25 March 2021 issued by investigator of the **Fuzuli Military Prosecutor's Office Hasanli Hasan Seyfaddin oglu**, the items of clothing worn by Warrant Officer **Hajizade Ruhid Alim oglu** at the time of the incident were seized from the relevant medical institution. The said items were inspected and damage was found on them.

Volume 249, case file pages 91–99.

Hajizade Ruhid Alim oglu, recognized and questioned as a victim, testified that, in his position as deputy commander of the 1st platoon of the 9th company of the 3rd battalion of military unit No. 161, he was carrying out a combat assignment at combat post No. 31, located on the line of contact with Armenian armed formations in the territory of the village of **Kuropatkino, Khojavend District.** On 20 March 2021—

Page 377

at approximately 11:00, while he was together with Privates **Guliyev Siraj Javid oglu**, **Bendaliyev Khazar Vahid oglu**, and **Aslanov Rashad Faraj oglu** in a trench located behind the observation post, an anti-personnel mine exploded under his left foot, as a result of which he and the above-mentioned soldiers sustained injuries.

Volume 249, case file pages 102–107.

Guliyev Siraj Javid oğlu, a soldier serving as a member of the crew of the 2nd machine-gun squad of the 9th company of the 3rd regiment of military unit No. 161; **Bendaliyev Khazar Vahid oğlu**, gunner of the 2nd squad of the 1st platoon of the said company; and **Aslanov Rashad Faraj oğlu**, a soldier-rifleman and member of the crew of that squad, recognized and questioned as victims, gave testimony similar to that of the other victim, **Ruhid Hajizade**, and once again confirmed the circumstances stated by him.

Volume 249, case file pages 44–49, 70–75, 78–83.

The witnesses questioned — **Saryzade Farid Zakir oğlu**, **Huseynov Shamistan Azer oğlu**, **Alizade Asef Adil oğlu**, and **Mastanov Ali Bakhshul oğlu** — gave testimony similar to that of the victims.

Volume 249, case file pages 37–41, 54–57, 58–62, 63–67.

According to forensic medical expert opinion No. **615** dated 12 April 2021, **Hajizade Ruhid Alim oğlu** sustained the following injuries: traumatic amputation of the left lower extremity at the level of the ankle joint; superficial abrasions on the anterior surface of the left lower leg and knee joint; abrasions on the anterior surface of the left forearm, as well as on the anterior and posterior surfaces of the left hand. These injuries were caused by fragments generated by the explosion of a munition, were accompanied by traumatic hemorrhagic shock, Grade III, and are classified as grievous bodily harm resulting in a permanent loss of more than one-third of total working capacity.

Volume 249, case file pages 197–198.

According to forensic medical expert opinion No. **200** dated **08 May 2001**, **Bendaliyev Khazar Vahid oğlu** sustained the following injuries: non-penetrating blind fragment wounds to the right half of the face, the upper third of the left forearm, the dorsal surface of the left hand, and the left half of the abdomen. These injuries were caused by primary fragments generated by the explosion of an explosive substance and are classified as minor harm to health resulting in a short-term health disorder.

Volume 249, case file page 201.

According to forensic medical expert opinion No. **201** dated 08 May 2021, **Aslanov Rashad Faraj oğlu** sustained the following injuries: multiple blind fragment wounds to both upper extremities and the right half of the abdomen. These injuries were caused by primary fragments generated by the explosion of an explosive substance and are classified as minor harm to health resulting in a short-term health disorder.

Volume 249, case file pages 202–203.

According to forensic medical expert opinion No. **148** dated 23 April 2021, **Guliyev Siraj Javid oğlu** sustained the following injuries: acute left-sided cochlear neuritis; multiple blind fragment wounds to the left half of the face, left forearm, dorsal surface of the left hand and left lateral abdominal wall. These injuries were caused by primary fragments generated by—

—the explosion and are classified as minor harm to health resulting in a short-term health disorder.

Volume 249, case file pages 208–209.

According to comprehensive forensic ballistic, traceological and explosives-technical expert opinions Nos. **3/678 and 3/679** of the Forensic Examination Center dated 04 May 2021, the object submitted for examination consisted of fragments of the body of a factory-manufactured **PMN-type blast anti-personnel mine** destroyed as a result of an explosion, as well as three submitted objects made of a plastic-like material that had been destroyed and deformed as a result of the explosion.

The three objects, presumed to be parts of the left pair of slippers and seized from the scene, were in a destroyed and deformed condition as a result of the explosion. Based on the shape, dimensions and morphological structure of the damage, as well as the presence on the surface of the objects of traces of explosive substance (**TNT**) and particles of incompletely burned smokeless powder, it was established that the said damage was characteristic of the impact of fragments generated by the explosion and travelling in various directions from the epicentre.

Such damage could have resulted from the explosion of the three submitted objects made of a plastic-like black material, as stated in the descriptive part of the expert opinion. However, it was impossible to establish whether the three submitted black-and-red objects were specifically parts of the left pair of slippers; accordingly, it was also impossible to determine unequivocally whether the damage corresponded to the injuries described on the body of **R.A. Hajizade**. If the submitted objects were in fact parts of the left pair of slippers, the damage to them corresponded to the injuries described in the expert opinion. The epicentre of the explosion was located in the area of the three objects presumed to be parts of the black-and-red left pair of slippers.

Explosive substances (**TNT and nitro compounds**) were found in the soil sample seized from the scene and on the surfaces of the three objects made of black plastic-like material. These particles did not contain an identical component composition.

Based on the discovery in the soil of an object resembling black plastic, as well as the coincidence of the explosive substances detected in the soil sample and on the surfaces of the three submitted objects, it may be concluded that the explosive substances found in the soil could have resulted from the explosion of those three objects made of plastic-like material.

Volume 249, case file pages 183–188.

According to the decision dated 06 May 2021 recognizing physical evidence, and receipt No. **388**, it was established that the following items belonging to Warrant Officer **Hajizade Ruhid Alim oglu** and worn by him at the time of the incident were recognized as physical evidence: a military field tunic; an olive-coloured scarf; olive-coloured military field trousers with a belt; a grey shirt from a set of warm underwear; black trousers from a set of warm underwear; and black socks.

Also recognized as physical evidence were the black-and-red slipper found at the scene; three fragments of the destroyed black-and-red slippers; a soil sample; and three black fragments of a **PMN-type blast anti-personnel mine** submitted by military unit No. 161.

The physical evidence, in packaged form, was transferred for storage to the evidence room of the Special Investigation Department.

Volume 249, case file pages 189–191.

*Note: the date **08 May 2001** for expert opinion No. 200 is printed exactly that way in the source; I have not corrected it to 2021.*

Page 379

On **08 April 2021**, at approximately 13:20, **Warrant Officer Alekperov Sahil Dilsuz oglu**, commander of the 2nd squad of the 3rd platoon of the 3rd mobile company of the mobile battalion of the **Qubadli Special Border Division of the State Border Service**, together with **Captain Ziyadov Rustam Ali oglu**, Deputy Chief of the 8th Border Commandant's Office for Logistics, was travelling in a **KamAZ** vehicle bearing military registration number **Q-341-SQ** through the territory of the village of **Bartaz, Zangilan District**.

The vehicle struck an anti-tank mine previously planted, with the purpose of national enmity and hostility, by unidentified members of Armenian armed formations. As a result of the explosion, Warrant Officer **Alekperov Sahil Dilsuz oglu** sustained the following grievous bodily injuries: **compression fracture of the body of the seventh thoracic vertebra; displaced fractures of the left femur and right tibia; displaced fractures of the third and fifth metatarsal bones; contusions of the soft tissues of the shoulder region of the left upper extremity; and post-traumatic plexopathy of the left brachial plexus.**

Captain **Ziyadov Rustam Ali oglu** sustained minor harm to health in the form of a **lacerated wound to the right parietal region of the head**. Both servicemen were evacuated to a military hospital of the State Border Service.

According to a certificate drawn up on **04 April 2021** by **Jabrailov Tarlan Farhad oglu**, a Class II lawyer and senior investigator of the Fuzuli Military Prosecutor's Office, since the scene of the incident was located in a mined area, the mines had not been cleared, the vehicle had not been removed from the scene, and inspection of the vehicle and the territory of the scene posed a danger to life and health.

Volume 143, case file pages 6, 24.

Captain Ziyadov Rustam Ali oglu, Deputy Chief of the 8th Border Commandant's Office for Logistics of the Qubadli Special Border Division of the State Border Service, recognized and questioned as a victim, testified that on **04 April 2021**, at approximately 11:00, he was travelling in a **KamAZ** vehicle bearing military registration number **Q-341-SQ**, driven by **Warrant Officer Alekperov Sahil Dilsuz oglu**, commander of the 2nd squad of the 3rd platoon of the 3rd mobile company of the mobile battalion of the Qubadli Special Border Division of the State Border Service, to the 8th Border Commandant's Office located in the village of **Bartaz, Zangilan District**, in order to unload iron mesh and a generator.

After they unloaded the items and were returning at approximately 13:20, an anti-tank mine exploded beneath the left front wheel of the vehicle, that is, on the side where the driver was sitting. As a result of the incident, he sustained an injury to the right side of his head, perforation of the tympanic membrane of the left ear and a fractured tooth.

Thereafter, with the assistance of personnel stationed at the post, Warrant Officer **Alekperov Sahil Dilsuz oğlu** was removed from the vehicle. They were given pain-relieving injections and evacuated by helicopter to a military hospital of the State Border Service.

Volume 143, case file pages 81–84.

Senior Lieutenant Mammadov Gonduz Elman oğlu, Chief of the Transport Unit of the Qubadli Special Border Division of the State Border Service, recognized and questioned as a representative of the victim, testified that the **KamAZ** vehicle bearing military registration number **Q-341-SQ** had been assigned to Warrant Officer **Alekperov Sahil Dilsuz oğlu**.

On 04 April 2021, at approximately 13:20, while the KamAZ vehicle driven by Warrant Officer Alekperov Sahil Dilsuz oğlu, under the supervision of **Captain Ziyadov Rustam Ali oğlu**, Deputy Chief of the 8th Border Commandant's Office for Logistics of the Qubadli Special Border Division of the State Border Service, was travelling through the territory of the village of **Bartaz, Zangilan District**, an anti-tank mine exploded beneath the left front wheel of the vehicle, that is, on the side where the driver was sitting—

Page 380

—as a result of which the servicemen sustained bodily injuries of varying severity and the vehicle became unfit for use. Since the scene of the incident was located in a mined area, the mines had not been cleared and the vehicle had not been removed from the scene, it was impossible to determine the amount of damage caused.

Volume 143, case file pages 71–74.

The witnesses questioned, **Rustamov Kamil Rovshan oğlu** and **Tapdigli Sadiq Mushvig oğlu**, confirming the above, stated that on **04 April 2021**, at approximately 13:10, they were at the “**Kelez**” post established in the village of Bartaz, Zangilan District, when the **KamAZ** vehicle driven by Warrant Officer **Alekperov Sahil Dilsuz oğlu**, under the supervision of **Captain Ziyadov Rustam Ali oğlu**, Deputy Chief of the 8th Border Commandant's Office for Logistics of the Qubadli Special Border Division of the State Border Service, struck an anti-tank mine in the territory of the village of Bartaz from the side of the vehicle's left front wheel, that is, on the side where the driver was sitting.

As a result of the incident, the servicemen sustained bodily injuries of varying severity and the vehicle became unfit for use. They immediately went to the scene and provided assistance to the victims. Both servicemen were subsequently evacuated to a military hospital of the State Border Service.

Volume 143, case file pages 85–87, 88–90.

According to forensic medical expert opinion No. **720** dated 07 May 2021, **Alekperov Sahil Dilsuz oğlu** sustained the following injuries: **compression fracture of the body of the**

seventh thoracic vertebra; displaced fractures of the left femur and right tibia; displaced fractures of the third and fifth metatarsal bones; contusions of the soft tissues of the shoulder region of the left upper extremity; and left-sided post-traumatic brachial plexopathy. These injuries resulted from the impact of hard blunt objects and, taken together, are classified as **grievous bodily harm dangerous to life.**

Volume 143, case file pages 102–103.

According to forensic medical expert opinion No. **185** dated 19 May 2021, **Ziyadov Rustam Ali oğlu** sustained a **lacerated wound to the right parietal region**, caused by the impact of primary fragments generated by the explosion of a substance with explosive properties. The injury is classified as **minor harm to health resulting in a short-term health disorder.**

Volume 143, case file pages 105–106.

According to forensic explosives-technical expert opinion No. **3/896** dated 27 May 2021, the trousers belonging to **Alekperov Sahil Dilsuz oğlu** contained damage that did not penetrate the material completely. Such damage could have arisen under the circumstances described in the decision as a result of a mine explosion.

No damage characteristic of the impact of a bullet fired from a firearm or fragments from an explosion was found on the military trousers or other military uniform belonging to Alekperov Sahil Dilsuz oğlu.

Volume 143, case file pages 110–113.

On the basis of a decision dated 11 June 2021 recognizing physical evidence, the trousers, grey trousers, black long-sleeved shirt and sleeveless undershirt belonging to **Alekperov Sahil Dilsuz oğlu** were recognized as physical evidence and are being stored in the evidence room of the Special Investigation Department.

Page 381

Volume 143, case file pages 114–115.

Hajiyev Javanshir Nadir oğlu, a junior serviceman serving under an extended active-duty contract in military unit No. 2027 of the **Qubadli Separate Border Division of the State Border Service**, on 05 April 2021, while carrying out an assignment given by the command of the military unit, took part in an operation to clear mines from the territory of the 1st border combat post of the 11th border outpost of the 4th Border Commandant's Office, located in the liberated village of **Ashaghi Khojamsakhli, Qubadli District.**

At approximately 18:00 that same day, as a result of the explosion of a previously planted anti-personnel mine laid by members of Armenian armed formations whose identities were not established by the investigation, he sustained grievous bodily injuries: **multiple fragment wounds to the face, anterior surface of the chest, both lower extremities, left upper extremity and left gluteal region; a through-and-through injury to the cornea of the left eye; and post-traumatic amputation of the middle third of the right lower leg.** He was evacuated to a military hospital of the State Border Service.

According to a certificate drawn up on 05 April 2021 by **Tagiyev Ergun Namig oglu**, senior investigator of the Fuzuli Military Prosecutor's Office, and a certificate submitted to the Fuzuli Military Prosecutor's Office by the commander of the Qubadli Separate Border Division of the State Border Service, Major General **Ramimov Bagirov**, it was established that Junior Warrant Officer **Hajiyev Javanshir Nadir oglu** sustained injuries on 05 April 2021 as a result of the explosion of an anti-personnel mine planted by Armenian armed formations in the area of the village of **Khojamsakhli, Qubadli District**, while demining work was being carried out. However, because the scene of the incident was a mined area and had not yet been cleared of mines, an inspection of the said territory was impossible at that time.

Volume 136, case file page 11.

On 03 May 2021, at the Fuzuli Military Prosecutor's Office, the clothing worn by Junior Warrant Officer **Hajiyev Javanshir Nadir oglu** at the time of the incident was inspected and seized.

Volume 136, case file pages 61–73.

Hajiyev Javanshir Nadir oglu, recognized and questioned as a victim, testified that on 05 April 2021, at approximately 09:00–10:00, from the strongpoint of the engineer-sapper platoon located in the village of **Enikend, Qubadli District**, he, **Javanshir Hajiyev**, as part of a personnel group under the command of **Major Mustafa Aslanov**, which included Warrant Officer **Habil Najafov**, Warrant Officer **Elchin Aziyev**, Warrant Officer **Atamali Fattayev**, Warrant Officer **Nurlan Khalilov**, driver **Hajiyev**, and feldsher **Hajiyev**, began moving toward the elevation known as **Khanli Gaya**, located in the territory of the village of Ashaghi Khojamsakhli.

At approximately 12:00 that same day, the group arrived at the 1st border combat post of the 11th border outpost of the 4th Border Commandant's Office and began demining work. Initially, the lower part of the slope was cleared using mine detectors, after which demining continued from the site of the explosion upward along the slope to the left.

J. Hajiyev walked in front; approximately 10 metres behind him was **Kh. Najafov**, another 100 metres behind him on the right flank was **N. Khalilov**, and behind them was **A. Fattayev**. After working in the area for approximately 3–4 hours, J. Hajiyev personally neutralized **30 anti-personnel mines**, while the remaining members of the group neutralized approximately **40**, making a total of **70 mines** discovered.

At approximately 18:00, when he placed his right foot on the ground next to a large stone, an explosion occurred. J. Hajiyev realized that an anti-personnel mine had been planted near the stone and had detonated when pressure was applied—

Page 382

—During the explosion, he felt a sharp pain in his right leg, which had been torn from his body. Fragments from the explosion struck both of his arms, the lower part of his body and his face.

Volume 136, case file pages 45–50.

Warrant Officer Khalilov Nurlan Khalil oglu, commander of the obstacle-clearance platoon of the Engineer-Sapper Center of the Qubadli Separate Border Division, questioned as a witness, confirmed the testimony of Junior Warrant Officer **Javanshir Hajiye**v and gave similar testimony.

Volume 136, case file pages 29–32.

According to forensic medical expert opinion No. **721** dated 07 May 2021, **J.N. Hajiye**v sustained the following injuries: **multiple fragment wounds to the face, anterior surface of the chest, both lower extremities, left upper extremity and left gluteal region; a through-and-through injury to the cornea of the left eye; and post-traumatic amputation of the middle third of the right lower leg.** These injuries resulted from the impact of fragments generated by the explosion of an explosive substance and, taken together, are classified as **grievous bodily harm resulting in a permanent and lasting loss of more than one-third of total working capacity.**

Volume 136, case file pages 86–87.

According to forensic criminalistic and trace examination opinion No. **3/893** dated 27 May 2021, the submitted military clothing contained damage. The damage present on the items of military clothing could have resulted from a mine explosion.

Volume 136, case file pages 91–95.

On the basis of a decision dated 11 June 2021, the following items belonging to **Hajiye Javanshir Nadir oglu** were recognized as physical evidence: military trousers, a black long-sleeved shirt, thermal undergarments, thermal trousers, underwear, a sleeveless undershirt, one left high-top boot and two pairs of socks. The socks, in one package, were transferred to the Special Investigation Department for storage in the evidence room.

Volume 136, case file pages 96–97.

During the preliminary investigation, it was established that **Junior Warrant Officer Kerimli Sarkhan Kerim oglu**, a serviceman of military unit No. 2009 of the State Border Service of the Republic of Azerbaijan, while attached to military unit No. 2027, on 30 December 2020, at approximately 16:00, was inside a building intended for use as a guardhouse, located in the liberated territory of **Jabrayil District**, within a military unit captured from Armenian armed formations.

While inside the building, he picked up a **hand-grenade fuze intended for use with M-DN 11, M-DN 21, M-DN 31 and M-DN 61 fragmentation grenades**, which had been unlawfully left there by unidentified members of Armenian armed formations for the purpose of inciting national discord and enmity.

The fuze accidentally fell to the floor, while its ring remained in his hand. When he bent down to pick the fuze up from the floor, it detonated. As a result, **Kerimli Sarkhan Kerim oglu** sustained injuries diagnosed as “**wounds to the right upper eyelid, the anterior surfaces of both thighs and the scrotum,**” which are classified as minor harm to health resulting in a short-term health disorder.

Volume 138, case file pages 5–18, 49–50, 60–63, 95–99.

Page 383

According to forensic medical expert opinion No. **1089** dated 10 May 2021, upon the admission of **Suleymanov Anar Ali oglu** to hospital, two wounds with uneven edges were found on the left side of his chest. The said injuries resulted from a single shot fired from a firearm under the circumstances and on the date specified in the expert opinion (**the bullet, after striking a concrete pillar, changed direction and caused the injury to the chest**) and are classified as minor harm to health.

Volume 327, case file pages 1–253.

It is apparent from the materials of the criminal case that, for the purpose of carrying out search operations for servicemen who had gone missing between **27 September 2020 and 10 November 2020** on the elevation conventionally designated “**951**,” which was located in the territory of the settlement of **Sugovushan, Tartar District** and had been under the control of Armenian armed forces, units had previously been deployed to the said territory during counter-offensive operations conducted by the Armed Forces of the Republic of Azerbaijan to prevent attacks by Armenian military formations.

On **06 April 2021**, at approximately 14:00, while conducting a search for missing servicemen on elevation “**951**” in densely wooded terrain, **Bakhtiyar Ilgar oglu**, an extended-service soldier and commander of the 2nd squad of the visual-observation platoon of the reconnaissance and surveillance company of military unit No. 057; **Punhan Shaban oglu Aliyev**, an extended-service soldier and commander of the 1st squad of the 2nd platoon of the engineer-sapper company of military unit No. 341; and **Sergeant Duniyamalizade Azer Imkan oglu**, an extended-service serviceman and commander of the 1st squad of the 4th platoon of the same company, were involved in a mine explosion.

As a result of the detonation of an anti-personnel mine previously planted by Armenian servicemen, soldier **P.S. Aliyev** sustained grievous bodily injuries classified as **grievous harm to health**: traumatic amputation of the right lower extremity at the level of the ankle joint; a lacerated-contused wound of the left supraorbital region; subconjunctival hemorrhage of the left eye; a penetrating injury to the left eye; and a lacerated-incised wound to the left side of the jaw.

When an attempt was made to provide assistance to P.S. Aliyev, a second mine exploded, as a result of which soldier **Bakhtiyar Ilgar oglu** sustained grievous bodily injuries classified as **grievous harm to health**: traumatic amputation of the right foot at the level of the tarsometatarsal joint; and superficial wounds to the dorsal surface of the right hand.

As a result of the blast wave, **A.I. Duniyamalizade** sustained minor injuries classified as **minor harm to health**: hematoma in the right eye-socket region; traumatic keratopathy of the right eye; abrasions of the face, right palm, right side of the back and right thigh.

They were evacuated to Military Hospital No. 056 of the Ministry of Defence.

Sergeant Duniyamalizade Azer Imkan oglu, commander of the 1st squad of the 4th platoon of the engineer-sapper company of military unit No. 341 of the Ministry of Defence,

recognized and questioned as a victim, testified that on 06 April 2021, at approximately 14:00, while mine-clearance work was under way, an explosion suddenly occurred.

Soldier **Punhan Aliyev** fell backward in the direction of the previously cleared path. It was observed that his right foot was hanging loose and that blood was flowing from beneath his left eye and eyebrow. His fellow servicemen immediately approached him and provided first aid.

Approximately two minutes later, when soldier **Bakhtiyar Ilgar oğlu** approached in order to assist Punhan Aliyev, a second explosion occurred. As a result of the explosion, fragments of stones lying on the ground struck his right eye, lumbar area and right thigh, causing him to lose consciousness and fall onto his back; as a result, he sustained additional injuries.

Volume 139, case file pages 147–152.

Page 384

The persons recognized and questioned as victims — **Aliyev Punhan Shaban oğlu**, **Bakhtiyar Ilgar oğlu**, and **Bagirov Ilyas Seidmasim oğlu** — gave testimony similar to that of **Dunyamalizade Azer Imkan oğlu**.

Volume 139, case file pages 80–84, 159–164, 170–174.

According to forensic medical expert opinion No. **699** dated 17 May 2021, **P.Sh. Aliyev** sustained the following injuries: traumatic amputation of the right lower extremity at the level of the ankle joint; lacerated-contused wounds of the left eyebrow; subconjunctival hemorrhage of the left eye; penetrating injury to the left eye; and a lacerated-incised wound to the left side of the jaw. These injuries resulted from the impact of fragments generated by the explosion of an explosive munition and are classified as **grievous bodily harm**, since they resulted in a permanent and lasting loss of more than one-third of total working capacity.

Volume 139, case file pages 229–230.

According to forensic medical expert opinion No. **688** dated 17 May 2021, **Bakhtiyar Ilgar oğlu** sustained the following injuries: traumatic amputation of the right foot at the level of the tarsometatarsal bones and superficial wounds to the dorsal surface of the right hand. These injuries resulted from the impact of fragments generated by the explosion of an explosive munition and are classified as **grievous bodily harm**, since they resulted in a permanent and lasting loss of more than one-third of total working capacity.

Volume 139, case file pages 233–234.

According to forensic medical expert opinion No. **574** dated 17 May 2021, **A.I. Dunyamalizade** sustained the following injuries: hematoma of the right periorbital region; traumatic keratopathy of the right eye; abrasions of the face and palmar surface of the right hand; and lacerated wounds on the right side of the lumbar region and the right thigh. These injuries resulted from the impact of multiple fragments generated by the explosion of an explosive substance and are classified as **minor harm to health**.

Volume 139, case file page 240.

On the basis of a decision dated 16 June 2021 recognizing physical evidence in the criminal case, the following items belonging to **Bakhtiyar Ilgar oğlu** — a military field jacket, military field trousers, sweater, warm underwear, long-sleeved shirt, sleeveless undershirt, one pair of socks and one pair of soldiers' boots — and the following items belonging to **Aliyev Punhan Shaban oğlu** — a field jacket, field trousers, underwear, belt, sweater, two sleeveless undershirts and one left boot — were recognized as physical evidence and are being stored in the evidence room of the Special Investigation Department.

Volume 139, case file pages 235–237.

According to forensic medical expert opinion No. **23** dated 27 April 2021, examination of the body of **Bayramov Ilkin Bayram oğlu** revealed the following injuries: open displaced fractures of the bones of the right lower leg at the level of the upper third of the left femur; necrotic wounds with extensive defects of the skin and muscle tissue of both thighs, the gluteal and perineal regions; as well as wounds to both hands and the auricle of the right ear. No other injuries or traces of trauma were identified.

The cause of death was **traumatic hemorrhagic shock against the background of anaerobic clostridial fasciitis and myonecrosis, severe sepsis and septic shock, resulting in multiple-organ failure**, which developed as a consequence of traumatic amputation of the left lower extremity at the level of the lower third of the lower leg, extensive wounds with defects of the skin and muscle tissue of the posteromedial surface of the left buttock—

Page 385

—the upper and middle thirds of the thigh; blunt wounds to the right buttock and the upper third of the thigh with defects of the skin; comminuted longitudinal and oblique fractures of the proximal and distal portions of the right femur; an open fracture of the fibula; as well as blunt wounds to both hands and the right auricle. These injuries were consequences of a mine explosion accompanied by **traumatic hemorrhagic shock, Grade IV**.

Volume 327, case file pages 1–253.

According to forensic medical expert opinion No. **630** dated 07 May 2021, **Rustamov Eldaniz Rustam oğlu** sustained the following injuries: an incised wound to the conjunctiva of the left eye penetrating the sclera; a lacerated-incised wound to the lower eyelid; and wounds to the left side of the forehead and face. These injuries resulted from the impact of fragments generated by the explosion of an explosive munition and, taken together, are classified as **moderate harm to health**.

Volume 327, case file pages 1–253.

According to forensic medical expert opinion No. **642** dated 04 May 2021, **Babayev Khayyam Farman oğlu** sustained the following injuries: contusions of the soft tissues of both lower extremities; subcutaneous hemorrhages; and superficial wounds and abrasions on both lower extremities and in the inguinal region. These injuries resulted from the impact of multiple fragments generated by the explosion of an explosive substance and are classified as **minor harm to health**.

Volume 327, case file pages 1–253.

According to forensic medical expert opinion No. **500** dated 05 May 2021, **Isayev Abil Ayaz oglu** sustained multiple blunt fragment wounds to both thighs. These injuries resulted from the impact of multiple fragments generated by the explosion of an explosive substance and, taken together, are classified as **minor harm to health**.

Volume 327, case file pages 1–253.

Mammadov Namig Alijavad oglu, a soldier serving as driver of the 2nd gun of the 1st platoon of the 3rd battery of the artillery battalion of military unit No. 181 of the Ministry of Defence of the Republic of Azerbaijan, stationed in the village of **Chanagchi, Khojaly District**, which had been liberated from Armenian armed forces, on 09 April 2021, at approximately 10:00, together with extended-service servicemen of the artillery battalion, soldiers **Aliyev Samir Firsed oglu** and **Aliyev Oktay Mushvig oglu**, proceeded to a wooded area located **3–4 kilometres** from the battalion's place of deployment, in an area known as "**Sygynag**," in order to remove usable spare parts from disabled vehicles belonging to Armenian armed forces.

While dismantling the disabled vehicles, soldier Namig Mammadov noticed that a horse they had tied up had broken loose and crossed the river. While attempting to retrieve the horse, he crossed the river, caught it by the reins and began returning. At that moment, an anti-personnel mine previously planted at the location where he was standing by members of Armenian armed formations whose identities were not established by the investigation, with the intent to commit premeditated murder on grounds of national enmity and hatred, exploded.

As a result, he sustained the following injuries: **traumatic amputation of the left lower leg at the level of the lower third; an extensive tissue defect involving the middle and upper thirds of the left lower leg; multiple lacerated wounds to the posterior surface of the left thigh and the left buttock; extensive Grade III–IV thermal burns to the anterior surface of the right lower leg; lacerated-contused wounds to the right lower leg; traumatic amputation of the right testicle and partial separation of the glans penis; multiple lacerated wounds to both—**

Page 386

—forearms, hands and face; Grade II thermal burns to the face; and traumatic hemorrhagic shock, Grade II.

According to certificate No. **2234** dated 09 April 2021 received from military unit No. 181, since the scene of the incident located in the village of **Chanagchi, Khojaly District**, was a mined area, it was impossible to conduct an inspection of the scene.

Volume 250, case file page 5.

According to the inspection protocol dated 26 April 2021, a sleeveless undershirt seized from military unit No. 230 was in a torn condition and bore stains resembling blood; the trousers, underwear and warm undershirt were also in a torn condition.

Volume 250, case file pages 46–48.

Mammadov Namig Alijavad oglu, recognized and questioned as a victim, testified that on 09 April 2021, at approximately 10:00, he, together with extended-service servicemen of the artillery battalion, soldiers **Aliyev Samir Firsed oglu** and **Aliyev Oktay Mushvig oglu**, proceeded to a wooded area located approximately **2–3 kilometres** from the battalion's place of deployment in order to remove usable spare parts from disabled vehicles belonging to Armenian armed formations.

While they were dismantling those vehicles, he noticed that the horse they had tied up had broken loose and crossed the river. He attempted to retrieve the animal, crossed the river, caught the horse by the reins and, while returning, a mine exploded beneath his left leg, as a result of which he sustained injuries.

Volume 250, case file pages 55–57.

Soldiers of military unit No. 181 **Aliyev Samir Firsed oglu** and **Aliyev Oktay Mushvig oglu**, questioned as witnesses, gave testimony similar to that of the victim Namig Mammadov and confirmed the circumstances stated by him.

Volume 146, case file pages 114, 115, 116, 117.

Volume 250, case file pages 31–33, 34–36.

According to forensic medical expert opinion No. **655** dated 20 April 2021, **Mammadov Namig Alijavad oglu** sustained the following injuries: traumatic amputation of the left lower leg at the level of the lower third; an extensive tissue defect involving the middle and upper thirds of the left lower leg; multiple lacerated wounds to the posterior surface of the left thigh and the left buttock; an extensive Grade III–IV burn to the anterior surface of the right lower leg and lacerated-contused wounds; traumatic amputation of the right testicle and partial separation of the glans penis; multiple lacerated wounds to both forearms, hands and face; as well as Grade II burns to the face, accompanied by traumatic hemorrhagic shock, Grade II.

These injuries were caused by fragments and exposure to high temperature resulting from the explosion of an explosive munition and are classified as **grievous bodily harm resulting in a permanent loss of not less than one-third of total working capacity**.

Volume 250, case file pages 66–67.

According to forensic ballistic expert opinion No. **3/826** dated 01 June 2021, based on the dimensions and morphological structure of the damage found on the military field trousers and underwear, as well as traces of explosive substance (**TNT**) and particles of incompletely burned smokeless powder detected on their surfaces, it was established that the said damage is characteristic of the impact of fragments generated by an explosion at the epicentre and travelling in various directions. Such damage could have arisen as a result of—

Page 387

—the circumstances described in the reasoning part of the decision, as a result of a mine explosion.

Volume 250, case file pages 79–81.

The sleeveless undershirt, warm undershirt, military field trousers and underwear worn by **Mammadov Namig Alijavad oglu**, which were recognized as physical evidence by a decision dated 30 June 2021, are being stored in the evidence room of the Special Investigation Department of the Military Prosecutor's Office of the Republic of Azerbaijan.

Volume 250, case file pages 82–83.

Senior Lieutenant Yagublu Ibadet Salman oglu, a serviceman serving as commander of the 1st engineer-sapper platoon of the engineer-sapper company of military unit No. 190 of the Ministry of Defence, on 15 April 2021, at approximately 10:45, together with servicemen of the 1st engineer-sapper squad of the said company, was carrying out an assignment to clear mines from trenches and roads in the area of former combat positions of Armenian armed formations in the territory of the liberated village of **Orta Gervend, Aghdam District**.

While the group was returning along a trench road, he stepped on an anti-personnel mine previously planted by Armenians and sustained the following injuries: **mine-blast injury; traumatic amputation of the left lower extremity at the level of the ankle joint; superficial abrasions on the anterior surface of the left knee and lower leg, as well as on the posterior surface of the right thigh; closed fracture of the middle phalanx of the second finger of the left hand; and traumatic injury to the posterior cruciate ligament of the left knee.**

According to the relevant certificate issued by the commander of military unit No. 190 of the Ministry of Defence, in view of the danger to human life, it was impossible to inspect the scene of the incident.

Shahbazov Safaraddin Mirzabek oglu, recognized and questioned as a victim, testified that, pursuant to an order of the commander of the military unit dated 26 March 2021, the personnel of the engineer-sapper company had been engaged in demining work in the said territories from 29 March 2021 through 30 April 2021.

On 15 April 2021, at approximately 10:00, together with servicemen of the 1st engineer-sapper platoon, he was moving along a trench road. While moving, he decided to stop near the right-hand wall of the soldiers' dormitory in order to relieve himself. The place where he was standing was situated on the right-hand side of the soldiers' dormitory, which formed part of the former combat positions of Armenian armed formations.

The area measured approximately **2–3 square metres**, and concrete posts had previously been laid on the surface of the ground by the Armenians. The area had already been cleared of mines, and servicemen had repeatedly moved through it.

However, when he moved two or three steps forward and stepped on one of the concrete posts, an explosion suddenly occurred. As a result of the explosion, he sustained injuries and discovered that his left foot was missing. Despite the shock and severe pain, he managed to rise onto his right leg and, hopping, reached the front of the soldiers' dormitory, where he lay down on the ground.

Thereafter, other servicemen approached him, took him to a military medical vehicle and provided first aid.

Bayramov Elmaddin Ulfat oğlu, questioned as a witness, testified that on 15 April 2021, Senior Lieutenant **Yagublu Ibadet Salman oğlu**, who was approximately **60–70 metres** behind him toward the motor road, was no longer visible on the trench road along which they had been moving after the sound of an explosion was heard behind them.

They hurried toward the soldiers' dormitory located in that combat area. Upon reaching the dormitory, they saw **I.S. Yagublu** lying on the ground in front of its doorway. He was shouting: **"My leg, my leg!"** They noticed that his left leg—

Page 388

—below the ankle had been amputated as a result of the mine explosion and that blood was flowing from the area.

Thereafter, **E.I. Huseynov** lifted **I.S. Yagublu** in his arms and carried him from the area in front of the dormitory to a wider section of the trench road. After this, **G.A. Gozalov** quickly tightened belts around **I.S. Yagublu's** left leg below the knee and around the thigh, and then carried him in his arms along the trench toward the military medical vehicle, which had already been positioned at the roadside.

The senior feldsher administered an analgesic into **I.S. Yagublu's** left leg and evacuated him by military medical vehicle to military unit No. 056.

Volume 141, case file pages 69–73.

The witnesses questioned — **Senior Lieutenant Mahmudov Orkhan Bakhtiyar oğlu**, **Sergeant Huseynov Avaz Imamverdi oğlu**, and soldier **Gozalov Ganbar Adalat oğlu** — gave testimony similar to that of the victim **I.S. Yagublu** and confirmed the circumstances stated by him.

Volume 141, case file pages 74–78, 79–83, 84–87.

According to forensic medical expert opinion No. **769** dated 18 June 2021, upon the admission of **I.S. Yagublu** to hospital, the following injuries were identified: **traumatic amputation of the left lower extremity at the level of the ankle joint (as a result of which the lower third of the left lower leg was amputated); multiple fragment wounds to the upper and lower extremities; a closed fracture of the middle phalanx of the second finger of the left hand with fragmentation and displacement; closed craniocerebral trauma; and concussion of the brain.**

The said injuries resulted from the impact of numerous fragments and the blast wave caused by an explosion and could have been sustained under the circumstances described in the expert opinion and on the date specified therein. Taken together, they are classified as **grievous bodily harm resulting in a permanent loss of more than one-third (50%) of total working capacity.**

Volume 141, case file pages 137–138.

According to forensic ballistic and trace examination opinion No. **3/1054** dated 23 June 2021, the military field trousers, undertrousers and socks belonging to **Yagublu Ibadet Salman**

oglu and submitted for examination contained traces of explosive substance (**TNT**). Based on the damage found on them, its shape and morphological structure, it may be concluded that the said damage is characteristic of the explosion of an explosive device, including an anti-personnel mine, and resulted from the impact of fragments and a blast wave at close range from the epicentre of the explosion, from the left-hand side.

The said damage corresponds to the circumstances described in the decision.

Volume 141, case file pages 139–142.

According to forensic biological expert opinion No. **41/MTB-21** dated 16 July 2021, **Yagublu Ibadet Salman oglu** has blood group **A(II), Rh-positive**.

Human blood traces were found on the tunic, dark-green long-sleeved shirt, sleeveless undershirt, military trousers, undertrousers, a fragment of socks and the right boot. Examination of the group characteristics of this blood under the **ABO system** revealed antigen “**A**”, while antigens “**B**” and “**H**” and agglutinins were not detected.

Thus, the said blood may belong to a person with blood group **A(II)**, including **Yagublu Ibadet Salman oglu**, who has that blood group.

Volume 141, case file pages 147–150.

On the basis of a decision dated 17 July 2021, the following items belonging to the victim **Yagublu Ibadet Salman oglu** were recognized as physical evidence: military field trousers, military field tunic, warm—

Page 389

—undertrousers, a warm long-sleeved shirt, two sleeveless undershirts, socks and one boot (the right boot of the pair). The said items are relevant to the criminal case and are being stored with the case materials.

Volume 141, case file pages 151–152.

By Order No. **375** of the commander of military unit No. 190 dated 31 December 2020, Senior Lieutenant **I.S. Yagublu**, as of the said date, was appointed commander of the 1st engineer platoon of the engineer-sapper company of military unit No. 190.

Volume 141, case file page 12.

Huseynli Etibar Javid oglu, holding the rank of lieutenant and serving as commander of the headquarters and supply platoon of military unit No. 342 of the Ministry of Defence, on 16 February 2021, while carrying out an assignment given by the command of the military unit, participated in an operation to clear mines from agricultural land in the territory of the liberated village of **Amirvarli, Jabrayil District**.

At approximately 12:00 that day, as a result of the explosion of an anti-personnel mine previously planted by members of illegal armed formations of Armenian separatists with the intent to commit premeditated murder, he sustained injuries diagnosed as follows: “**lacerated**

wound to the sole of the left foot; closed displaced fracture of the lower third of the bones of the left lower leg; open comminuted fractures of the first and second metatarsal bones of the left foot; superficial fragment wound to the sclera of the right eye.”

He was immediately evacuated to Military Hospital No. 214 of the Ministry of Defence and subsequently to the **Main Clinical Hospital of the Armed Forces**. The anti-personnel mine had been planted in the said territory with the intent to kill the victim; however, for reasons beyond the perpetrators’ control, their criminal intent was not brought to completion.

According to the scene inspection protocol dated 07 May 2021, **Lieutenant of Justice Mekhtiyev Ali Azer oglu**, senior inquiry officer of the inquiry unit of military unit No. 212, found no evidence of significance to the case at the location where **Huseynli Etibar Javid oglu** had been injured while carrying out a combat post assignment of military unit No. 342.

Volume 252, case file pages 21–24.

The victim **Huseynli Etibar Javid oglu** testified that on 16 February 2021, while carrying out an assignment given by the command of the military unit, he participated in an operation to clear mines from agricultural land located in the territory of the liberated village of **Amirvarli, Jabrayil District**.

At approximately 12:00 that day, as a result of the explosion of an anti-personnel mine previously planted by members of illegal armed formations of Armenian separatists with the intent to commit premeditated murder, he sustained injuries diagnosed as follows: **“lacerated wound to the sole of the left foot; closed displaced fracture of the lower third of the bones of the left lower leg; open comminuted fractures of the first and second metatarsal bones of the left foot; superficial fragment wound to the sclera of the right eye.”**

He was immediately evacuated to Military Hospital No. 214 of the Ministry of Defence and subsequently to the **Main Clinical Hospital of the Armed Forces**.

Volume 252, case file pages 46–49.

The witnesses questioned — **Gahraman Shamil Shahin oglu, Aliyev Elshan Nuraddin oglu, Balakishiyev Vugar Khangulu oglu, Zalov Kamal Vusal oglu, Abuzarli Sanan Aladdin oglu, and Mammadov Mehman Mammadtaghi oglu**— gave testimony similar to that of the victim **Huseynli Etibar Javid oglu**.

Volume 252, case file pages 50–52, 54–56, 57–59, 61–63, 64–66, 67–69.

According to forensic medical expert opinion No. **226** dated 29 May 2021—

Page 390

—**E.J. Huseynov** sustained the following injuries: blunt trauma to the right eye; lacerated wounds of the cornea and conjunctiva; myopia of the left eye; a lacerated wound to the sole of the left foot; a displaced intra-articular fracture of the distal metaphysis of the left tibia;

and open comminuted displaced fractures of the second and third metatarsal bones of the left foot.

The said injuries resulted from the effects of the blast wave and primary fragments generated by the explosion of a substance possessing explosive properties, could have been sustained under various circumstances and, in terms of severity, are classified as **grievous bodily harm**.

Volume 252, case file pages 36–37.

In connection with the performance of their official duties, employees of television channels and news agencies, as well as representatives of the territorial administration of **Kalbajar District**, who were travelling in a **KamAZ military bus** bearing military registration number **G-698-QQ**, belonging to military unit No. 172 of the Ministry of Defence, struck an anti-tank mine at approximately 11:00 on 04 June 2021 in the village of **Susuzlug, Kalbajar District**.

As a result, the following civilians were killed: **Aliyev Arif Agalar oglu, Abishov Siraj Abish oglu**, and **Ibrahimov Maharram Ali oglu**. Four other persons in the vehicle — **Aliyev Etibar Imamverdi oglu, Mammadov Emin Hasan oglu, Jafarov Shokhret Elshan oglu**, and **Abdullayev Kamil Salim oglu** — sustained bodily injuries of varying severity.

According to the scene inspection protocol dated 04 June 2021, the scene of the incident was located approximately at the entrance to the village of **Susuzlug, Kalbajar District**.

On the right-hand side of the carriageway, a circular crater, presumably formed as a result of an explosion, was observed. The crater measured **230 × 240 centimetres**. Soil samples were taken for examination from its walls, where charred areas were visible. Objects made of wood, rubber and plastic, which could be important to the investigation, were also recovered from the crater.

On the northern side of the crater was a completely damaged vehicle. The rear part of the vehicle protruded partially beyond the left side of the road, while its front part was situated on the right side, blocking the main carriageway. The distance between the lower corner of the front right tyre of the vehicle and the crater was **230 centimetres**.

The remaining tyres of the vehicle were intact and not deflated; however, the right tyre of the middle axle was completely destroyed, and it was this tyre that had struck the mine. The vehicle's cab and rear passenger compartment were completely burned out.

At a distance of **640 centimetres** from the front left wheel, in the direction of the centre of the village of Susuzlug, irregular reddish-brown stains resembling blood were observed. These stains continued for a distance of **19 metres** toward the centre of the village.

According to the participants in the inspection, the bodies of two deceased persons had been found at this location. In addition, during a search in a ravine on the left-hand side of the road, the body of a third person was discovered.

Volume 144, case file pages 14–35.

The victim **Abdullayev Kamil Salim oğlu**, in his testimony dated 05 June 2021, stated that on 04 June 2021, at approximately 06:00, he and Deputy Head **Aliyev Arif Agalar oğlu** left the city of **Ganja** for **Kalbajar District**.

They were to meet accompanying persons in the village of **Chapli, Kalbajar District**, and travel from there to the village of **Susuzlug**. At approximately 09:15, they arrived in Chapli, where they met **Ibrahimov Maharram Ali oğlu**, an employee of the **AzerTAj Information Agency**; **Abishov Siraj Abish oğlu**, a cameraman for the **AZTV television channel**; and **Mammadov Emin Hasan oğlu**, an AZTV director.

At the same time, **Jafarov Shokhret Elshan oğlu**, a representative of the administration of the village of **Yanshag, Kalbajar District**, joined them.

They then set off in a **KamAZ** vehicle driven by **Etibar Aliyev**. He was sitting in the cab on the right-hand side of the vehicle, while **Emin Mammadov** sat between him and the driver. At approximately 11:00—

Page 391

they left the village of **Chapli** in the direction of the village of **Susuzlug**. The purpose of the trip was to accompany persons who were to film destroyed buildings in the occupied territory and prepare a report.

They travelled approximately 2 kilometres and entered the village of **Susuzlug**. At a distance of approximately 1 kilometre from the centre of the village, an explosion occurred while he was filming a video on his mobile telephone. The force of the explosion lifted the vehicle approximately one metre into the air, after which it fell onto its side.

He and the other persons who had been in the cab were thrown out of the vehicle, and he noticed that he had sustained an injury to the head. He also saw the bodies of two persons lying some distance apart but was unable to identify them precisely.

The military police who had been following them provided assistance. **Emin Mammadov** and **Shokhret Jafarov** were taken away in a military police vehicle, while he and **Etibar Aliyev** remained there. Subsequently, a large number of servicemen arrived at the scene, removed the bodies of the deceased, and evacuated them to a military hospital.

Volume 144, case file pages 115–118.

The victims **Aliyev Etibar Imamverdi oğlu**, **Jafarov Shokhret Elshan oğlu**, and **Mammadov Emin oğlu** gave testimony similar to that of **Abdullayev Kamil Salim oğlu** and confirmed the circumstances stated by him.

Volume 144, case file pages 123–126, 130–133, 199–202.

Samedov Ruslan Vahid oğlu, questioned as a witness, testified that, on the basis of information received, they proceeded to the scene, taking with them a mine detector and fire extinguishers. Upon arriving at the scene, they extinguished the burning vehicle in three places using the fire extinguishers.

They then found the bodies of two persons at the scene. At a distance of approximately 60 metres from the site of the explosion, in a ravine, they found the body of another person, who was later identified as **Siraj**.

Thereafter, an inspection of the scene was conducted, and it was established that the explosion had presumably been caused by an anti-tank mine. He believed that the said mine had been planted by Armenian armed formations when they withdrew from **Kalbajar District**.

Volume 144, case file pages 146–149.

The witnesses questioned, **Babayev Kamal Nazim oglu** and **Ahmedov Anar Avazkhan oglu**, gave testimony similar to that of **Samedov Ruslan Vahid oglu** and confirmed the circumstances stated by him.

Volume 144, case file pages 175–178, 189–192.

Mammadov Miragha Aghamir oglu, recognized and questioned as a victim, testified that on 01 December 2020, in **Lachin District**, the personnel of military unit No. 287 were engaged in clearing mines from territory liberated from Armenian forces. They were also present there as part of the medical service in order to provide first aid in the event of injuries.

That day, together with him were a doctor named **Ilgar**, whose surname he did not know, Warrant Officer **Orujov**, soldier **Huseynov Safa Adilkhan oglu**, and other servicemen.

At approximately 15:00, they were searching for the bodies of deceased persons who had struck a mine approximately 10 days earlier while travelling in an ambulance and had remained at the scene ever since. While inspecting the territory, he noticed the body of a man.

Attempts to remove the body using a thick rope were unsuccessful. He then approached the vehicle located near the body in order to retrieve items from it. After approaching the vehicle, he took an identity document and a driver's licence from it and handed them to a serviceman who was nearby.

After stepping out of the vehicle and taking one step with his right foot, he stepped on a mine, resulting in an explosion. The injured man was evacuated to Hospital No. 214.

The victims **Huseynli Safa Adilkhan oglu** and **Rajibli Talekh Shakir oglu** gave similar testimony.

Volume 118, case file pages 9–12.

Page 392

According to the scene inspection protocol dated 06 December 2020, at the **10th kilometre of the Kalbajar–Zar road**, passing through the territory of the village of **Zar**, a crater had formed in the left lane as a result of the explosion of a buried mine.

The cab of a military **KamAZ-43114** vehicle bearing military registration number **H 692 QQ** had completely burned out, and the vehicle had become unfit for use.

Volume 118, case file pages 87–88.

Velizade Vusal Rahim oglu, recognized and questioned as a victim, testified that on 06 December 2020, at approximately 08:00, he set out and arrived in the village of Zar at approximately 10:00. After dropping off the personnel, he went to the village to collect firewood. The collected firewood was delivered to the place where the personnel were located.

At approximately 15:00, he began travelling back toward **Kalbajar District**. At that time, the vehicle was travelling without a load. After travelling approximately 3–4 kilometres, the front right wheel of the vehicle struck an anti-tank mine and an explosion occurred.

As a result of the impact, his head struck the metal door on the left, while the left side of his body struck the door handle. He then got out of the vehicle and was evacuated in a medical-station vehicle to military unit No. 230.

Volume 118, case file pages 109–111, 117–119.

Ahmedov Yusif Murad oglu, driver of the logistics unit of military unit No. 065, recognized and questioned as a victim, testified that on 06 December 2020, at approximately 15:00, the commander of military unit No. 191 reported that a **KamAZ** vehicle had struck a mine.

Although they had heard the sound of the explosion, they did not know exactly what had happened. In accordance with the order received, the personnel formed a convoy and waited for further instructions.

Some time later, a tractor arrived and pulled the KamAZ vehicle that had struck the mine to the side of the road. An order was then given for the convoy to begin moving, with another KamAZ vehicle travelling at the front of the convoy.

After the convoy began moving, he travelled approximately 1–2 metres. He did not remember what happened thereafter, and when he regained consciousness, he found himself in the mobile medical unit of Military Hospital No. 230.

Volume 118, case file pages 129–131, 137–139.

The servicemen of military unit No. 065 recognized and questioned as victims, **Ahmedov Javid Gahraman oglu** and **Ibrahimov Ramil Mammad oglu**, gave testimony similar to that of **Ahmedov Yusif Murad oglu**.

Volume 118, case file pages 140–143, 149–151, 152–154, 160–162.

According to the inspection protocol dated 19 May 2021, the scene of the incident was located near the state border, close to the village of **Yukhary Ayrim, Kalbajar District**, in the immediate vicinity of Armenia. The road was 3 metres wide.

On the left-hand side of the road, when facing the territory of the Republic of Armenia, a crater measuring **310 × 308 centimetres** was found. It was established that a **KamAZ** vehicle belonging to the military unit had struck a mine at that location. A metallic object was found and seized from the centre of the crater.

Senior Sergeant Mammadov Niyameddin Jamaledin oglu, a serviceman of the 1st battalion of military unit No. 071, recognized and questioned as a victim, stated that the KamAZ vehicle was driven by soldier **Aliyev Kerim Ilham oglu**.

On 17 May 2021, the day of the incident, Kerim Aliyev used that vehicle to deliver food supplies to personnel stationed at the battalion's positions. After the food had been handed over, battalion radiotelephone operator **Nazarov Ingilab Taji oglu** got into the vehicle in order to return to the battalion command post.

While they were returning to the command post, approximately **500 metres** from the post, on the road they always used, the front right wheel of the vehicle—

Page 393

—the front right wheel of the vehicle struck a mine, causing an explosion, at which point he lost consciousness. While the vehicle was moving, all three of them were in the cab: **Kerim Aliyev** was driving the vehicle, **Ingilab Nazarov** was sitting to his right, and he himself was sitting to the right of the latter.

Volume 135, case file pages 102–105.

The servicemen of military unit No. 071 recognized and questioned as victims, **Aliyev Kerim Ilham oglu** and **Nazarov Ingilab Taji oglu**, gave testimony similar to that of **Mammadov Niyameddin Jamaladdin oglu**.

Volume 135, case file pages 110–113, 118–121.

In connection with the above episodes, a decision was issued to charge **Gumashyan Koryun Lendrushy**, who was the commander of the Armenian armed formation “**Tigran Mets**,” as an accused.

Volume 135, case file pages 157–160.

According to forensic medical expert opinion No. **1565** dated 03 December 2020, **Salifov Mustafa Yashar oglu** sustained the following injuries: hematoma of the upper eyelid of the left eye; subconjunctival hemorrhage; hematoma of the subcutaneous tissues of the scrotum; traumatic amputation of the left foot at the level of the tarsometatarsal joints; and post-hemorrhagic anemia of moderate severity.

The said injuries resulted from the impact of fragments or a blast wave generated by the explosion of an explosive munition and are classified as **grievous bodily harm resulting in a permanent loss of 50% of total working capacity**.

Volume 327, case file pages 1–253.

According to forensic medical expert opinion No. **1566** dated 03 December 2020, **Khanguliyev Elvin Yusif oglu** sustained the following injuries: traumatic amputation of the right foot at the level of the tarsometatarsal joints. The injuries resulted from the impact of fragments or a blast wave generated by the explosion of an explosive munition and are classified as **grievous bodily harm resulting in a permanent loss of 50% of total working capacity**.

Volume 327, case file pages 1–253.

According to forensic medical expert opinion No. **110** dated 24 February 2021, **Imanov Samir Jahid oglu** sustained abrasions beneath the left eye, characteristic of the impact of a hard blunt object, and it cannot be ruled out that they resulted from the impact of secondary fragments generated during an explosion. Since the said injuries did not cause harm to health, their degree of severity was not determined.

Volume 327, case file pages 1–253.

According to forensic medical expert opinion No. **07** dated 11 January 2021, **Huseynov Safa Adil Khan oglu** was found to have the following injuries: pigmentation on the bridge of the nose and the right side of the face, constituting traces of healed wounds, resulting from the impact of primary fragments during an explosion. Since the said injuries did not cause harm to health, their degree of severity was not determined.

Volume 118, case file pages 42–43.

According to forensic medical expert opinion No. **24** dated 20 January 2021, **Mammadov Miragha Aghamir oglu** sustained the following injuries: traumatic amputation of the right lower leg at the level of the middle third—

Page 394

—accompanied by multiple fragment wounds to the left heel and left hand. These injuries resulted from the impact of primary fragments generated by an explosion and are classified as **grievous bodily harm resulting in a permanent loss of 50% of total working capacity**.

Volume 118, case file pages 44–45.

According to forensic medical expert opinion No. **37** dated 27 January 2021, **Rajili Talekh Shakir oglu** sustained the following injury: a wound on the anterior surface of the auricle of the right ear resulting from the impact of a hard blunt object. Since the said injury did not cause harm to health, its degree of severity was not determined.

Volume 118, case file pages 46–47.

According to forensic medical expert opinion No. **13** dated 08 January 2021, **Ibrahimov Ramil Mammad oglu** sustained the following injuries: a compression, uncomplicated, closed fracture of the body of the third lumbar vertebra; contusions in the area of the left thigh; and abrasions on the left hand and right lower leg. These injuries are characteristic of the impact of a blunt mechanism and could have resulted from the injured areas of the body

striking hard blunt objects under the effect of a blast wave. They are classified as **grievous bodily harm**.

Volume 118, case file pages 165–166.

According to forensic medical expert opinion No. **267** dated 16 April 2021, **Ahmedov Yusif Murad oğlu** sustained the following injuries: displaced fracture of the shaft of the lower third of the left humerus; fracture of the navicular bone; fractures of the heads of the first through third metatarsal bones of the left foot and the base of the fifth metatarsal bone; fracture of the proximal phalanx of the first toe; comminuted displaced closed fracture of the calcaneus; comminuted displaced open fractures of the shafts of the lower third of the bones of the left lower leg; and complete posterior dislocation of the talus.

The said injuries are characteristic of the impact of a blunt mechanism and could have resulted from the injured areas of the body striking hard blunt objects under the effect of a blast wave during the explosion of an explosive munition. They are classified as **grievous bodily harm**.

Volume 135, case file pages 34–35.

According to forensic medical expert opinion No. **31** dated 04 June 2021, examination of the body of **Abishov Siraj Abish oğlu** revealed the following injuries: a penetrating blind wound to the right lumbar region accompanied by acute bleeding and damage to the inferior vena cava and right kidney; incomplete traumatic amputation of the right lower extremity at the level of the lower third of the thigh, with a hanging skin flap; open comminuted displaced fractures of the bones of the lower leg; a blind wound in the area of the left popliteal fossa; multiple blind wounds of the soft tissues in the areas of the right buttock, left thigh and lower leg; Grade II–III thermal burns to the forehead, face, right shoulder, right humerus and thigh; and multiple abrasions on the left lateral abdominal wall and right humerus.

The injuries are characteristic of exposure to flame, a blast wave, and primary and secondary fragments generated by the explosion of an explosive munition. The cause of death was **traumatic hemorrhagic shock resulting from the injuries sustained**.

Volume 135, case file pages 218–221.

According to forensic medical expert opinion No. **32** dated 04 June 2021, examination of the body of **Ibrahimov Maharram Ali oğlu** revealed the following injuries: **multiple open fractures of the bones of the skull and facial skeleton—**

Page 395

—open craniocerebral trauma accompanied by diffuse crushing and destruction of brain tissue and destruction of the left eyeball; traumatic fractures of the first tooth on the left and the first and second teeth on the right at the level of the roots of the upper jaw; a displaced open fracture of the mandible; multiple injuries to the organs of the abdominal and pelvic cavities; multiple comminuted open fractures of the 10th, 11th and 12th thoracic vertebrae, lumbar vertebrae, pelvic bones and iliac bones, accompanied by traumatic separation of the torso at the level of the 9th thoracic vertebra with a hanging skin flap; incomplete traumatic amputation of the right upper

extremity at the level of the middle third of the forearm, of the left hand at the level of the wrist joint, and of the right lower extremity at the level of the hip joint; complete traumatic amputation of the left lower extremity at the level of the hip joint; Grade II–III thermal burns to various areas of the body, characteristic of the effects of flame, a blast wave, and primary and secondary fragments generated by the explosion of an explosive munition.

The cause of death was **trauma incompatible with life resulting from the above-described injuries.**

Volume 135, case file pages 223–226.

According to forensic medical expert opinion No. **33** dated 04 June 2021, examination of the body of **Aliyev Arif Agalar oğlu** revealed the following injuries: **comminuted displaced open fractures of the cranial vault, skull base and bones of the facial skeleton; open craniocerebral trauma accompanied by diffuse damage to brain tissue and injury to the left eyeball; a wound to the right cheek penetrating into the oral cavity; two wounds to the scrotum accompanied by destruction of both testicles; comminuted displaced open fractures of the bones of the left forearm; a blind wound to the dorsal surface of the left hand accompanied by comminuted open fractures of the second, third and fourth metacarpal bones; incomplete traumatic amputation of the left hand at the level of the wrist joint and of the right foot at the level of the ankle joint, with hanging skin flaps; an open wound to the left foot accompanied by multiple comminuted open fractures of the third, fourth and fifth metatarsal bones and the calcaneus; multiple blind wounds to the soft tissues of the right shoulder, left forearm, first finger of the left hand, both thighs and lower legs, as well as the left knee area,** characteristic of the effects of flame, a blast wave, and primary and secondary fragments generated by the explosion of an explosive munition.

The cause of death was **craniocerebral trauma caused by comminuted displaced open fractures of the cranial vault, skull base and bones of the facial skeleton, as well as diffuse damage to brain tissue.**

Volume 135, case file pages 228–232.

According to forensic medical expert opinion No. **880** dated 11 June 2021, **Mammadov Emin Hasan oğlu** sustained the following injuries: **multiple wounds to the left temporo-occipital region, right forearm, right hand, posterior surfaces of the left upper arm and forearm, and the left buccal region; blunt trauma accompanied by a contusion of the left side of the chest; and thermal burns to the dorsal surfaces of the fingers of both hands.** These injuries resulted from exposure to high temperature and the impact of a hard blunt object and, in terms of severity, are classified as **minor harm to health.**

Volume 135, case file pages 241–242.

According to forensic medical expert opinion No. **349** dated 20 May 2021, **Mammadov Niyameddin Jamaledin oğlu** sustained the following injuries: **ruptures of the syndesmosis, outward dislocation of the foot, an intra-articular displaced fracture of the tibia, a comminuted displaced closed—**

—**fracture of the distal metaphysis of the fibula, and abrasions on both lower legs.** These injuries are characteristic of the impact of a blunt object and, in terms of severity, are classified as **moderate harm to health resulting in a prolonged health disorder.**

Volume 146, case file pages 101–102.

According to forensic medical expert opinion No. 351 dated 20 May 2021, **Aliyev Kerem Ilham oğlu** sustained the following injuries: **comminuted displaced fractures of the bones of the right lower leg, the talus and both calcaneal bones; compression fracture of the body of the 12th thoracic vertebra; wedge-shaped deformity with compression fracture of the bodies of the 2nd and 5th lumbar vertebrae (uncomplicated, stable, closed fractures); complicated blunt trauma to the chest with injury to the upper lobe of the right lung; superficial contused wounds in the forehead and right wrist areas, as well as on the right hand; and a contused-lacerated wound in the nasal area.** The injuries are characteristic of the impact of a blunt object and are classified as **moderate harm to health resulting in a prolonged health disorder.**

Volume 146, case file pages 103–104.

According to forensic medical expert opinion No. 387 dated 14 June 2021, **Jafarov Shokhret Elshan oğlu** sustained the following injuries: **bilateral acute cochlear neuritis resulting from barotrauma; post-traumatic neuropathy of the ulnar nerve caused by an injury in the area of the right elbow; wounds to the soft tissues of the chest, right lumbar region and left lateral abdominal wall; multiple abrasions in the areas of the back, right forearm, dorsal surfaces of both hands, right thigh, left knee and both lower legs; and contusions of the right buttock and right thigh.** These injuries are characteristic of the impact of hard blunt objects and secondary fragments generated during an explosion and are classified as **moderate harm to health resulting in a prolonged health disorder.**

Volume 146, case file pages 108–109.

According to forensic medical expert opinion No. 350 dated 20 May 2021, **Nazarov Ingilab Taji oğlu** sustained the following injuries: **abrasions in the temporal region; craniocerebral trauma accompanied by concussion of the brain; bilateral acute cochlear neuritis resulting from barotrauma; and consolidation of the lower lobe of the right lung complicated by acute focal pneumonia caused by barotrauma.** The injuries are characteristic of the impact of hard blunt objects and are classified as **moderate harm to health resulting in a prolonged health disorder.**

Volume 146, case file pages 112–114.

According to forensic medical expert opinion No. 388 dated 15 June 2021, **Abdullayev Kamil Salim oğlu** sustained the following injuries: **right-sided acute cochlear neuritis accompanied by sensorineural hearing loss resulting from barotrauma,** characteristic of the effects of a blast wave generated by the explosion of an explosive munition, as well as the impact of the injured areas of the body against hard blunt objects. These injuries are classified as **moderate harm to health.**

Volume 146, case file pages 117–118.

By a decision dated **17 September 2021**, the following items seized during inspections of the scene were recognized as physical evidence: **two small metal objects; three small plastic objects; a short-sleeved shirt, a sleeveless undershirt, white underpants, a pair of socks and one pair of shoes belonging to Ibrahimov Maharram Ali oğlu; a short-sleeved shirt, a sleeveless undershirt—**

Page 397

—sleeveless undershirt, trousers, underwear, one boot and one pair of socks belonging to **Abishov Siraj Abish oğlu**; parts of a jacket, a short-sleeved shirt, a sleeveless undershirt, part of trousers, underwear, one shoe and one pair of socks belonging to **Aliyev Arif Agalar oğlu**, were recognized as physical evidence and attached to the materials of the criminal case.

Volume 146, case file pages 125–128.

According to forensic medical expert opinion No. **385** dated 07 June 2021, **Aliyev Etibar Imamverdi oğlu** sustained the following injuries: an abrasion in the left temporal region accompanied by concussion of the brain; contusions of the right shoulder and forearm regions; and abrasions in the left forearm and dorsal region. These injuries are characteristic of the effects of a blast wave generated by the explosion of a munition possessing explosive properties, as well as of the injured areas of the body striking hard blunt objects, and are classified as **minor harm to health**.

Volume 146, case file pages 185–186.

According to forensic medical expert opinion No. **266** dated 16 April 2021, based on the medical documentation, **Ahmedov Javid Gahraman oğlu** sustained an abrasion in the lumbar region, characteristic of the effects of a blast wave generated by the explosion of a munition possessing explosive properties, as well as of the injured area of the body striking hard blunt objects. Since the said injury did not cause harm to health, its degree of severity was not determined.

Volume 146, case file pages 194–196.

In addition, **Heydarli Orkhan Ilyas oğlu**, a soldier of the 3rd squad of the 2nd platoon of the 1st company of the 1st battalion of military unit No. 130, on **20 June 2021 at 08:45**, in the village of **Talysh, Tartar District**, at the elevation conventionally designated “**1353**,” slipped on a stone gabion and stepped on a mine with his left foot, as a result of which he sustained an injury described as “**post-traumatic amputation of the left foot**.”

According to the scene inspection protocol dated 20 June 2021, the scene was the base of the 1st division, position No. 22, located at the elevation conventionally designated “1353” in the territory of the village of Talysh, Tartar District, which had been liberated from Armenian armed formations.

When viewed from a distance of 3 metres from the trench in which the said position was located, it could be seen that the ground had collapsed and pieces of wood were lying around

the site where the explosion had occurred. The distance between the positions of the Armenian armed forces and position No. 22 was approximately **300–350 metres**.

During the inspection, it was established that there were stains resembling blood on white stones and on the ground opposite the trench. They were packaged and removed.

According to a certificate from military unit No. 130, judging by the destructive force of the explosion and other characteristics, the anti-personnel mine on which **Heydarli Orkhan Ilyas oğlu** had been injured had not been planted by them but had been planted by Armenian armed formations.

Volume 251, case file pages 6–20.

The victim **Heydarli Orkhan Ilyas oğlu**, in his statement, noted that on **20 April 2021** the company commander assigned him and soldier **Mirzali Ravan Rafiq oğlu** to clear a trench and instructed **Sahil Valiyev** to keep watch over them.

They cleared the area and threw the garbage collected in the trench onto the mined territory in front of the trench. Approximately **2–3 metres to the left of the baskets**, beside a tree, there was a small red metal plate bearing the letter “**M**,” that is, a warning sign indicating that the area was mined.

Lieutenant **Ramin Jabbarov** had repeatedly pointed it out to them and told them to be careful when throwing away the garbage and not to step beyond the small metal plate. After—

Page 398

—**Ramin Mirzali** and **Sahil Valiyev** left him to attend to something else, he climbed into the trench and began looking toward the Armenian positions.

After watching for approximately five minutes, while attempting to climb down into the trench, he slipped and fell onto the mined territory. As soon as he fell onto that area, an explosion occurred. Although he knew that it was a mine explosion, he pulled himself together and crawled toward the trench.

After he had moved somewhat closer, with the assistance of commander **Ramin Jabbarov**, he was taken to the soldiers’ dormitory, from where he was evacuated to military unit No. 056.

Volume 251, case file pages 94–97.

The witnesses questioned, **Valiyev Sahil Farhad oğlu** and **Jabbarov Ramin Mirshamil oğlu**, gave testimony similar to that of the victim **Orkhan Heydarli** and confirmed the circumstances stated by him.

Volume 251, case file pages 73–77, 79–83.

According to the forensic medical expert opinion, the bodily injuries sustained by **Heydarli Orkhan Ilyas oğlu** — open displaced fractures of the left half of the thoracic cage, the

proximal phalanx of the first finger of the left hand and the third metatarsal bone, accompanied by left-sided hemopneumothorax with penetration into the pleural cavity; blunt fragment wounds to the face and both eyes, the right cheekbone and the left lower extremity; as well as traumatic avulsion of the left lower extremity at the level of the **intercostal joints** — resulted from the impact of fragments generated by the explosion of a projectile possessing explosive properties, correspond to **20 April 2021**, and are classified as **grievous bodily harm**.

Volume 251, case file pages 109–110.

According to the opinion of the comprehensive forensic traceological and biological examination, human blood was found on the tunic, semi-woollen sweater, two long-sleeved undershirts, trousers, two pairs of undertrousers, the right pair of boots, a pair of socks, a bandage and an elastic band belonging to **Heydarli Orkhan Ilyas oglu**, as well as on stones and soil particles seized from the scene.

It is possible that the blood belongs to **Heydarli Orkhan Ilyas oglu**.

The tunic, semi-woollen sweater, both sleeves, the right and left sides of the front surface, as well as the left middle part of the rear surface of each of the two long-sleeved undershirts; the trousers; the front surfaces of both trouser legs of each of the two pairs of undertrousers; the upper part of the rear surface of each pair of trousers and undertrousers belonging to Heydarli Orkhan Ilyas oglu contained multiple penetrating and non-penetrating areas of damage.

There was also penetrating damage on the front surface of camouflage fabric sewn into the shaft of the rubber boot. The said damage corresponds to the effects of fragments generated by an explosion at close range, including fragments from a mine explosion.

Volume 251, case file pages 115–121.

By a decision dated 24 June 2021, the tunic, semi-woollen sweater, two long-sleeved undershirts, trousers, two pairs of undertrousers, socks, rubber boots, rubber tourniquet and bandage belonging to soldier **Heydarli Orkhan Ilyas oglu**, as well as the stones and soil particles seized from the scene, were recognized as physical evidence and attached to the materials of the criminal case.

Volume 251, case file pages 123–124.

Senior Warrant Officer Dadashov Sakit Akhliman oglu, Chief Technician of the Engineering and Road Department of military unit No. 341, on **06 July 2021 at approximately 17:45**, while carrying out engineering and road works on the supply and evacuation road leading to combat position No. 24 of the 12th company of the 4th motorized rifle battalion of military unit No. 190, located in the village of **Aligamli, Aghdam District**, sustained life-threatening injuries causing grievous harm to health as a result of shots fired from firearms from positions of servicemen of the Armed Forces of Armenia not established by the investigation, with the intent to deliberately kill persons on grounds of national enmity and hostility—

Page 399

On **06 July 2021**, **Sadikhov Samir Kamran oglu**, Senior Assistant to the Military Prosecutor of Karabakh, inspected the location where **Dadashov Sakit Akhliman oglu**, a serviceman serving as Chief Technician of the Engineering and Road Department of military unit No. 341, had been wounded as a result of gunfire while carrying out engineering and road works.

The scene of the incident was the supply and evacuation road leading to combat position No. 24 in the village of **Aliagali, Aghdam District**, assigned to the 12th company of the 4th battalion of military unit No. 190.

Senior Warrant Officer Dadashov Sakit Akhliman oglu, Chief Technician of the Engineering and Road Department of military unit No. 341, recognized and questioned as a victim, stated that on 06 July 2021, pursuant to an order of the acting commander of military unit No. 190, **Ismayilov Eldaniz**, he and Junior Sergeants **Novruzov Muslim** and **Rustamov Emin**, who had been seconded from military unit No. 341 and were working as tractor drivers, were engaged in constructing a road to position No. 24.

On 06 July 2021, at approximately 16:00, while construction of the road was under way, he heard approximately **5–6 shots**. After the shooting ceased, he ran toward the tractors to check whether they had been damaged. As he approached the tractors, he heard another **2–3 shots**, and one of the bullets struck him.

Volume 262, case file pages 101–102.

The witnesses questioned, **Novruzov Muslim Mursal oglu**, **Rustamov Emin Musaidin oglu**, and **Ismayilov Eldaniz Ismayil oglu**, stated that on 06 July 2021, at approximately 18:00, after finishing work, they stopped the excavator and approached **Dadashov Sakit** and **Ismayilov Eldaniz**, who were standing not far from the work area waiting for him to finish repairing the road dug up by a **CAT bulldozer**.

While speaking with Dadashov Sakit, they heard **3–4 shots** from the direction of the Armenian armed forces, after which Dadashov fell to the ground, saying: **“They shot me.”**

Volume 262, case file pages 119–122, 125–128, 134–136.

On **01 October 2021**, **Major Majidov Bakhman Aghammad oglu**, Deputy Commander of military unit No. 341, recognized as a representative of the victim and questioned as a witness, stated that during the incident that occurred on 06 July 2021 at approximately 18:00, as a result of a bullet striking the fuel tank and rear window of the cab of a **CAT D6R bulldozer** bearing military registration number **C 919 QQ**, belonging to military unit No. 341, those components were rendered unserviceable.

Volume 262, case file pages 185–187.

According to forensic medical expert opinion No. **1042** dated **22 July 2021**, the injury sustained by **S.A. Dadashov** — a gunshot wound causing loss of the descending colon, sigmoid colon, upper ampullary portion of the rectum and spleen, penetrating into the abdominal cavity through the left iliac fossa and accompanied by damage to a loop of the small intestine and the iliac-pleural venous plexus — resulted from a gunshot wound and is classified as **grievous bodily harm**.

Volume 262, case file pages 117–118.

According to forensic ballistic expert opinion Nos. **1/3263 and 1/3264** dated **06 August 2021**, the belt, military shirt with short sleeves and grey T-shirt belonging to **S. Dadashov** contained damage of the number and dimensions specified in the examination section of the expert opinion.

Judging by the shape, dimensions and morphological structure of the damage, the absence around it of incompletely burned powder particles constituting an additional factor of a shot, as well as the presence of traces of copper metal, the damage on the left side of the trouser belt, on the front of the short-sleeved shirt and on the grey T-shirt is characteristic of a **single penetrating gunshot wound caused by a bullet approximately 7 mm in diameter fired from a distance of more than 1 metre.**

Page 400

It cannot be ruled out that these injuries could have arisen under the specific circumstances described in the descriptive part of the decision. Since there is no exit opening, it is impossible to determine the direction of fire.

Volume 262, case file pages 143–145.

On **14 July 2021**, at approximately 10:30, as a result of fire opened by the Armed Forces of Armenia from firearms from an observation post located in the area of **Sadarak**, conventionally designated “**Mil-1**,” **Private Mardanli Ibadulla Mahsud oglu**, who was serving there, was deliberately subjected to an attempted killing.

In addition, at approximately 15:00, while extinguishing a fire in the said area, **Internal Service Major Ahmadli Elvin Sudayif oglu**, Head of the Duty Fire Guard of the Sadarak District Directorate of the State Fire Safety Service of the Ministry of Emergency Situations of the **Nakhchivan Autonomous Republic**, was deliberately subjected to an attempted killing.

On 14 July 2021, at approximately 10:30, as a result of fire from firearms opened from positions where servicemen of the Armed Forces of Armenia were serving toward the observation post located in the Sadarak area and conventionally designated “**Mil-1**,” **Private Mardanli Ibadulla Mahsud oglu**, who was serving there, sustained “**a gunshot wound penetrating the soft tissues of the right half of the face and involving the soft tissues of the right shoulder girdle.**”

In addition, as a result of fire opened by Armenian armed forces in the direction of the “**Mil-1**” post, at approximately 15:00, while extinguishing a fire in the said area, **Internal Service Major Ahmadli Elvin Sudayif oglu**, Head of the Duty Fire Guard of the Sadarak District Directorate of the State Fire Safety Service of the Ministry of Emergency Situations of the Nakhchivan Autonomous Republic, sustained “**a gunshot wound penetrating the soft tissues of the right shoulder and the left lumbar region**” as a result of shots fired by Armenian armed forces.

According to forensic medical expert opinion No. **153** dated **17 July 2021**, the injury sustained by **E.S. Ahmadli** — a penetrating gunshot wound to the shoulder and right side of

the back, directed from left to right and slightly from top to bottom, accompanied by damage to the soft tissues along the wound channel, with an entrance wound in the right shoulder and an exit wound on the right side of the back — is characteristic of a gunshot wound resulting from a shot fired from a firearm and is classified as **less serious harm to health**.

Volume 253, case file pages 141–142.

According to forensic medical expert opinion No. **154** dated **17 July 2021**, the injury sustained by **Mardanli Ibadulla Mahsud oglu** — a gunshot wound to the head and right shoulder girdle, directed from front to back, from left to right and from top to bottom, with an entrance wound in the right half of the upper lip, an exit wound in the right subscapular region and damage to the soft tissues along the wound channel involving the right shoulder, accompanied by fractures of the jaw and right scapula — is characteristic of a gunshot wound resulting from a shot fired from a firearm and is classified as **less serious harm to health**.

Volume 253, case file pages 143–144.

According to forensic ballistic expert opinion No. **196** dated **18 August 2021**, based on the shape, dimensions and morphological characteristics of the damage to the submitted tunic, the absence along the edges of the damage of traces of incompletely burned powder particles, soot and copper particles constituting additional factors of a shot, and taking into account the possible impact of washing on the tunic, it was established that damage “a” on this item of clothing may constitute an **exit wound caused by the direct impact of a bullet fired from a firearm**, while damage “b” may constitute a **penetrating wound caused not by a direct hit but by the impact of a fragment of a projectile (bullet) fired from a firearm after its collision with—**

Page 401

...with a hard object constituting the initial obstacle. It is impossible to determine the firing distance due to the absence of the initial barrier and the absence of penetrating damage caused by a direct hit, as well as to determine the diameter (caliber) of the projectile (bullet) that caused the damage, due to the lack of the necessary characteristics. Since the exit opening (damage “a”) has no corresponding entrance opening, and the entrance openings (damage of group “b”) have no corresponding exit openings, it is impossible to determine the direction of fire. Since the injuries of group “b” are not the result of a direct hit, it is impossible to determine the number of shots for which these injuries are characteristic; however, it cannot be ruled out that they may have been caused by a single shot. The reason why no additional factors of the shot were found on the tunic may be considered to be possible interference with the item of clothing (washing).

Volume 253, case file sheets 145–148

According to **forensic medical examination conclusion No. 197 dated 20.08.2021**, damage “a” on the military tunic and short-sleeved T-shirt that had been worn by **Mardanli Ibadulla Mahsud oglu**, and damage “c” on the military body armor are characteristic of a single passing shot caused by a projectile (bullet) containing copper metal; damage “b” on the body armor is an entry wound, while damage “d” is an exit wound, and they are characteristic of a shot fired with a copper-containing projectile (bullet) from a rifled firearm in a front-to-back, left-to-right and top-to-bottom direction. Since the injuries sustained do not possess the

necessary characteristics, it is impossible to determine the diameter (caliber) of the projectile that caused the injury or the firing distance, since the body armor was not the initial barrier. However, it cannot be ruled out that the shot at the target may have been fired from a distance exceeding the penetration distance — more than 1 meter. No damage characteristic of gunshot wounds was found on the military trousers of **Mardanli Ibadulla Mahsud oglu**.

Damage “a”, “c” and “e” on the tunic of **Eyvazov Emin Hagverdi oglu**, which had been hanging above the entrance door of the observation post prior to the incident, are entry wounds caused by the direct impact of a bullet fired from a rifled firearm; damage “b”, “d” and “h” are exit wounds; damage “f” and “g” are penetrating wounds caused not by the direct impact of a bullet, but by the impact of a fragment of a projectile (bullet) fired from a firearm after its collision with an initial hard object constituting an obstacle, and are characteristic of damage inflicted from a distance of more than 1 meter, outside the zone of additional factors of a shot at the target, with the copper-containing projectile (bullet) travelling from left to right, from top to bottom and from back to front. Since the wounds do not possess the necessary characteristics, it is impossible to determine the diameter of the bullet that caused the wound, and since injury “i” was not caused by a direct hit, it is impossible to determine the number of shots from which the injuries were sustained. However, it cannot be ruled out that they may have been caused by two shots.

Volume 253, case file sheets 152–159

According to the **inspection reports dated 14.07.2021**, the scene of the incident is located near the positions of Military Unit No. 217, conventionally designated “Mil-1”, situated on the border with the armed forces of Armenia in the Sadarak District.

Volume 253, case file sheets 5–15, 19–22

According to the **inspection report dated 16.07.2021**, the tunic bears damage.

Volume 253, case file sheets 23–26

By a **resolution dated 18.08.2021**, the tunic was recognized as material evidence and transferred to the evidence storage room of the prosecutor’s office.

Volume 253, case file sheets 149–150

By a **decision dated 20.08.2021**, the military body armor and the short-sleeved T-shirt worn by **Mardanli Ibadulla Mahsud oglu** at the time of the incident, as well as the tunic belonging to soldier **Eyvazov Emin Hagverdi oglu**, which...

Page 402

...had been hanging above the entrance door of the observation post prior to the incident, were recognized as material evidence and attached to the criminal case; the military body armor was transferred for safekeeping to Military Unit No. 217, while the short-sleeved T-shirt and the tunic were transferred to the evidence storage room of the prosecutor’s office.

On 07.09.2021, the material evidence was transferred to the responsible officer of the Special Investigations Department, **Alovsat Abdullayev**.

Volume 253, case file sheets 160–161

Mardanli Ibadulla Mahsud oglu, recognized and questioned as a victim, stated in his testimony that his place of service was the “Mil-1” post located in the Sadarak District. On 14.07.2021, at approximately 09:30, before the tractor began work, they took up positions on the embankment for observation. An hour later, the Armenians began firing at the tractor’s working area and at their observation post. While observing through the left lens, he came under fire from the Armenian armed forces and sustained an injury to the mouth area; he was provided with medical assistance.

Volume 253, case file sheets 40–44

Ahmadli Elvin Sudeyif oglu, recognized and questioned as a victim, stated in his testimony that on 14.07.2021, at approximately 12:00, a fire was reported in the border strip located in the Sadarak area. They went there with subordinate personnel. In a part of the area called “Val”, in the direction of the adversary, trees and bushes were burning in the neutral zone. During the firefighting operation, at approximately 15:00, while he was standing on the embankment and extinguishing the fire between the wires, the Armenians opened fire and hit him. After he descended on the side away from the Armenians, numerous shots were heard again. He felt pain in his back and arm. He was provided with medical assistance.

Volume 253, case file sheets 47–50

Questioned as witnesses, **Guliyev Elkhan Abbas oglu, Rzabayli Ziyalkhan Yashar oglu, Mammadov Yusif Humbat oglu, Valiyev Tural Vidadi oglu, Eyvazov Emin Hagverdi oglu, Mammadov Kamil Galib oglu, Huseynov Huseyngulu Hanifaoglu, Hasanov Royal Hafiz oglu and Mammadov Orkhan Kheyraddin oglu** gave testimony of the same substance, confirming the testimony of **Mardanli Ibadulla Mahsud oglu** and **Ahmadli Elvin Sudeyif oglu**.

Volume 253, case file sheets 94–96

Volume 253, case file sheets 52–56, 59–62, 63–67, 68–72, 73–77, 109–113, 114–118, 119–123, 135–139

On **14 July 2021 at approximately 16:50**, on a forest road leading from the village of **Najaflar** in the liberated **Zangilan District** to the village of **Shatariz**, pursuant to instructions from the command of the **Qubadli Separate Border Division**, an attempt was made to intentionally kill **Gilmizliyev Mahammad Ilham oglu**, who, in the performance of his official duties, served as a driver in the evacuation squad of the support platoon of the engineering-fortification detachment of the Qubadli Separate Border Division of the State Border Service, holding the military rank of junior warrant officer, and **Namazov Murtuz Farman oglu**, who, in the performance of his official duties, served as a driver of the 3rd platoon for clearing and engineering-road obstacles of the same unit, holding the military rank of junior warrant officer, by means of the explosion of an anti-personnel mine previously planted by Armenian armed formations for the purpose of intentionally killing them.

Gilmizliyev Mahammad Ilham oglu, while performing his official duties as a driver in the evacuation squad of the support platoon of the engineering-fortification detachment of the

Qubadli Separate Border Division of the State Border Service, holding the military rank of junior warrant officer, and **Namazov Murtuz Farman oglu**, while performing his official duties as a driver of the 3rd platoon for clearing and engineering-road obstacles of the same unit, holding the military rank of junior warrant officer, on 14.07.2021, while participating in mine—

Page 403

...clearance operation on the forest road leading from the village of **Najaflar** in the liberated **Zangilan District** to the village of **Shotariz**, pursuant to instructions from the command of the **Qubadli Separate Border Division**, at the coordinates specified in the form provided by Armenia, as a result of the explosion of an anti-personnel mine that had been deliberately planted in advance for the purpose of killing them by members of illegal armed formations created by Armenians with the aim of national hatred and enmity, the type and exact number of which were not established by the investigation, at approximately 16:50 on the same day, both sustained various injuries and were immediately evacuated to the Central Hospital of the State Border Service. The intention of the person or persons who had planted the said anti-personnel mine in that area was specifically to kill the victims; however, they were unable to complete the crime for reasons beyond their control.

According to **forensic medical examination conclusion No. 291 dated 03.08.2021**, the bodily injuries sustained by **Namazov Murtuz Farman oglu** — post-traumatic stress reactions, mild contusion of each eyeball, corneal erosion, and foreign bodies in the cornea and upper eyelid of the right eye — were caused by the impact of primary fragments and the blast wave resulting from the explosion and, in terms of severity, are classified as less serious bodily injuries.

Volume 254, case file sheet 72

According to **forensic medical examination conclusion No. 1139 dated 13.08.2021**, the bodily injuries sustained by **Gilmizliyev Muhammad Ilham oglu** — traumatic amputation of the lower third of the right leg, resulting in amputation of the right leg below the knee, and multiple shrapnel wounds of the left lower limb, sustained as a result of the impact of primary and secondary fragments following the explosion of an explosive device — are classified as serious bodily injury resulting in a permanent loss of more than one-third of overall working capacity.

Volume 254, case file sheets 85–86

According to **forensic ballistic examination conclusion No. 3/1398 dated 10.09.2021**, the field uniform tunic bears damage characteristic of injuries caused by a shot from a firearm. Traces of explosive substance (TNT) were found on the tunic.

Volume 254, case file sheets 97–99

By a **resolution dated 16.09.2021**, the military field uniform worn by **Gilmizliyev M.I.** at the time of the incident was recognized as material evidence and transferred for safekeeping to the evidence storage room of the Department for Particularly Important Investigations.

Volume 254, case file sheets 100–101

According to the **inspection report dated 03.08.2021**, the clothing worn by **Gilmizliyev Muhammad Ilham oğlu** at the time of the incident was inspected.

According to the **inspection report dated 03.08.2021**, the clothing worn by **Namazov Murtuz Farman oğlu** at the time of the incident was inspected.

Volume 254, case file sheets 39–42

Gilmizliyev Muhammad Ilham oğlu, questioned as a victim, stated in his testimony that, in accordance with instructions from the commander of the **Qubadli Separate Border Division**, several servicemen of the engineering-fortification battalion were assigned to mine-search operations in the territory of the Zangilan District at the coordinates specified in the form provided by Armenia. On 14.07.2021, he, **Nurlan Khalilov, Jafar Rzayev, Ali Mammadov, Murtuz Namazov, Gasimzade** and others, under the command of Lieutenant **Arzu Hajiyev**, searched for mines along the route from the village of **Najaflar**, Zangilan District, to the village of **Shotariz**, following the form. At approximately 17:00, having dug slightly into the...

Page 404

...upper layer of soil through the fortification belt, he discovered an iron ring located in the upper part of the mine. When he again checked the surrounding area with a mine detector, the sound indicated that there was a mine in the pit. When the engineer, guided by the sound emanating from the device, attempted to clear away the layer of gravel and soil near his right leg using a fortification shovel, an explosion occurred, and he saw that his right leg had been amputated at the knee; there was severe bleeding in that area, and he also had injuries to his left arm and left leg. He was provided with medical assistance.

Volume 254, case file sheets 20–23

Namazov Murtuz Farman oğlu, questioned as a victim, confirmed in his testimony the circumstances set out in the testimony of **Gilmizliyev Muhammad Ilham oğlu**.

Volume 254, case file sheets 34–38

Questioned as witnesses, **Hajiyev Arzu Fikret oğlu, Khalilov Nurlan Khalil oğlu and Mammadov Ali Suleyman oğlu** gave testimony of the same substance and confirmed the testimony of **Gilmizliyev Muhammad Ilham oğlu**.

Volume 136, case file sheets 29–32

Volume 254, case file sheets 43–46, 75–78, 79–82

On **16.07.2021 at approximately 08:00**, as a result of fire from firearms from a combat position where servicemen of the Armed Forces of Armenia were on duty, directed toward the “**Mil-1**” **observation post**, one of the projectiles pierced a pipe intended for removing the casing of the iron observation tower, as a result of which **Agayev Mustafa Rasim oğlu**, who

was serving there, sustained “minor shrapnel wounds to the face and both lips, as well as a traumatic fracture of tooth crowns Nos. 31–22.”

According to the **scene inspection report dated 16.07.2021**, during the inspection of the place where **Agayev Mustafa Rasim oglu** had been wounded by one of the bullets fired by Armenians at the “**Mil-1**” **observation post of Military Unit No. 217, Nadir Tairov**, acting as senior investigator of the Military Prosecutor’s Office of the Nakhchivan Autonomous Republic, discovered an observation cabin made of iron material. Inside this cabin there is an iron pipe for firing a weapon. There is a bullet mark on this pipe. A bullet fired by an Armenian struck the pipe in the observation cabin and then struck **Agayev Mustafa Rasim oglu** in the mouth. No traces or stains of blood were found at the observation post.

Volume 255, case file sheets 10–16

Victim Agayev Mustafa Rasim oglu stated in his testimony that on **16.07.2021 at approximately 08:00**, while he was on duty at the **Mil-1 observation post**, several shots were fired from the direction of Armenian units for the purpose of inciting national hostility and enmity. As a result of the firearm fire, one of the projectiles pierced the pipe used for removing the casing of the iron observation tower and broke into fragments, as a result of which he sustained minor shrapnel wounds to the face and both lips. From there, they contacted the medical center by means of communication and immediately evacuated him to hospital.

Volume 255, case file sheets 20–23

Questioned as witnesses, **Mammadov Kamil Galib oglu, Huseynov Huseyngulu Hanifa oglu, Hasanov Royal Hafiz oglu, Mammadov Orkhan Kheyraddin oglu and Rajabli Rajab Shirali oglu** gave testimony of the same substance as that of victim **Agayev Mustafa Rasim oglu**.

Volume 255, case file sheets 42–45, 47–50, 52–55, 58–60, 65–68

According to **forensic medical examination conclusion No. 165 dated 31.07.2021**, the bodily injuries sustained by **M.R. Agayev** — multiple blind shrapnel wounds of the face, neck and dorsal surface of the left hand, ...

It follows from the **resolution dated 20.08.2021 on recognition as material evidence** that, since the four metal particles discovered during the inspection of the crime scene had evidentiary significance, they were recognized as material evidence and transferred to the evidence storage room of the prosecutor’s office.

Volume 255, case file sheets 74–75

On **17.07.2021**, at the position conventionally designated “**Mil-1**”, located in the **Sadarak District of the Nakhchivan Autonomous Republic**, where the 4th Battalion of Military Unit No. 217 of the Ministry of Defense is stationed, **Mammadov Orkhan Kheyreddin oglu**, a soldier serving as an engineering-fortification worker and excavator driver, sustained a “gunshot wound penetrating the lower third of the left lower leg” as a result of fire from the Armenian armed forces.

It was established that on **17.07.2021 at approximately 09:00**, as a result of fire from a position where members of the Armed Forces of Armenia were on duty, directed at the territory of the position of Military Unit No. 217 conventionally designated “**Mil-1**”, located in the Sadarak area, **Mammadov Orkhan Kheyreddin oglu**, who was carrying out engineering work in that area using an excavator, sustained a “gunshot wound penetrating the lower third of the left lower leg.”

According to the **item inspection report dated 17.07.2021**, damage was found on a pair of trousers among the seized items.

Volume 256, case file sheets 9–12

According to the **scene inspection report dated 17.07.2021**, the scene of the incident is the position conventionally designated “**Mil-1**”, located in the Sadarak District of the Nakhchivan Autonomous Republic.

Volume 256, case file sheets 13–24

According to **forensic medical examination conclusion No. 164 dated 04.08.2021**, the bodily injury sustained by **Mammadov Orkhan Kheyreddin oglu** — one gunshot wound to the lower third of the left lower leg, inflicted from right to left and from front to back, accompanied by partial damage to the soft tissues and the Achilles tendon along the wound channel, with the entrance opening located on the inner surface of the lower third of the left lower leg and the exit opening on the posterior surface of the lower third of the left lower leg — is characteristic of a gunshot wound and, in terms of severity, is classified as minor harm to health.

Volume 256, case file sheets 78–79

Mammadov Orkhan Kheyreddin oglu, questioned as a victim, stated in his testimony that, by order of the commander of the military unit, from **11.07.2021**, in the area in front of the post conventionally designated “**Mil-1**”, where the 11th Company of the 4th Battalion was located, he began carrying out engineering-fortification work using a **Hydromek-370 excavator**, state registration number **K 056**. On **17.07.2021 at approximately 08:00**, he continued the engineering-fortification work in the area in front of the post conventionally designated “**Mil-1**.” While drilling work was being carried out behind that embankment (earthen mound), the Armenian side fired five or six shots in that direction, and since the excavator was behind the embankment, the Armenians could not see it. At approximately 09:00, while working on the excavator, he felt severe pain in his left leg, noticed a wound in his left calf and realized that one of the bullets fired during the shooting had struck his leg. He therefore quickly jumped down from the excavator and gave a signal. After he got down

from the excavator, the deputy commander of the military unit, **Elnur Mustafayev**, and the company commander, **Rajab Rajabli**, arrived there, and then...

Page 406

...the doctor, holding the rank of lieutenant, provided him with first aid and transported him to the military hospital. During surgery at the military hospital, it was established that the bullet had penetrated his left lower leg.

According to the **resolution dated 20.08.2021**, the jeans belonging to **Orkhan Mammadov** were recognized as material evidence and transferred to the evidence storage room of the Military Prosecutor's Office of the Nakhchivan Autonomous Republic.

Volume 256, case file sheets 90–91

On **19.07.2021**, **Senior Lieutenant Badally Ramal Bakhlul oglu**, commander of the 11th Company of the 4th Battalion of Military Unit No. 217 of the Ministry of Defense, while serving at the position conventionally designated "**Vagon 2**", located in the Sadarak District of the Nakhchivan Autonomous Republic, sustained a penetrating wound to the soft tissues of the middle third of the left lower leg as a result of fire from the Armenian military.

On **19.07.2021 at approximately 23:30**, as a result of fire from firearms from a position of the Armed Forces of Armenia directed at the territory of Military Unit No. 217, located in the Sadarak District and conventionally designated "**Vagon-2**", **Senior Lieutenant Badally Ramal Bakhlul oglu**, who was serving there, sustained a gunshot wound penetrating the soft tissues of the middle third of the left lower leg.

According to the **scene inspection report dated 20.07.2022**, the scene of the incident is the area conventionally designated "**Vagon 2**", located in the Sadarak District of the Nakhchivan Autonomous Republic.

Volume 257, case file sheets 9–15

According to the **item inspection report dated 20.07.2021**, damage was found on one pair of trousers among the seized items.

Volume 257, case file sheets 16–19

According to **forensic medical examination conclusion No. 163 dated 31.07.2021**, the bodily injury sustained by **Senior Lieutenant Badally Ramal Bakhlul oglu** — one gunshot wound to the middle third of the left lower leg, directed from left to right, accompanied by

damage to the soft tissues along the penetrating wound channel, with the entrance opening on the lateral surface of the middle third of the left lower leg and the exit opening on the medial surface of the middle third of the left lower leg, sustained as a result of a shot from a firearm loaded with a projectile (bullet) — may have occurred on the date and under the circumstances specified in the descriptive part of the resolution and, in terms of severity, is classified as minor harm to health.

Volume 257, case file sheets 79–80

According to **forensic ballistic examination conclusion No. 193–194 dated 18.08.2021**, the one item submitted for examination is part of a factory-manufactured **7.62 mm cartridge** used as ammunition for automatic weapons of the **AK-47, AKS-47, AKM and AKMTs** designs, **PPK and PPKS** light machine guns, **SKS** carbines and other weapons — namely, a tracer bullet partially deformed as a result of striking a hard object during firing.

Volume 257, case file sheets 82–85

Badally Ramal Bakhlul oglu, questioned as a victim, stated in his testimony that from **12.07.2021** he held the position of commander of the 11th Company of the 4th Battalion of Military Unit No. 217. The 4th Battalion of the military unit was stationed in the Sadarak District. The positions of the 11th Division were also located in the Sadarak area, on the line...

Page 407

...the line of contact with the Armenians, while the position conventionally designated “**Vagon 2**” served as the division headquarters. From the morning of **19.07.2021**, he continued his service in the unit subordinate to him and at approximately 23:00 returned to the “**Vagon 2**” position, changed into civilian clothes, put on a military shirt with short sleeves and black sports trousers, went outside, washed at the spring, then approached the firing sector in front of the barracks and told Junior Sergeant **A. Imanov** that he was tired and it was time for him to sleep, after which he sat down on a chair in his place. At approximately 23:30, the Armenian positions opened fire on the “**Vagon 2**” position, and since there was an earthen embankment in front of the barracks, the bullets they fired passed overhead. One of the bullets struck him in the left leg; he stood up, said, “**I’ve been shot,**” and went inside. Junior Sergeant **Z. Aliyev** and Junior Sergeant **A. Imanov**, who were there, assisted him, while **F. Abbasov** also helped him enter the barracks. First, they tightened his leg above the wound with an elastic band used with a weapon, and then brought elastic bands from the first-aid kit and bandaged his leg to prevent heavy bleeding.

Volume 257, case file sheets 30–33

Hasanov Royal Hafiz oglu, Aliyev Zahid Faramaz oglu and Imanov Abulfaz Abulfat oglu gave testimony of the same substance, confirming the testimony of victim **Badally Ramal Bakhlul oglu**.

Volume 257, case file sheets 43–45, 47–50, 52–55

According to the **resolution dated 18.08.2021**, one pair of sports trousers belonging to **Ramal Badally** and one tracer bullet from a **7.62 mm cartridge**, which had been

recognized as material evidence, were transferred to the evidence storage room of the Military Prosecutor's Office of the Republic of Azerbaijan.

Volume 257, case file sheets 86–87

Aslanova Sura, questioned as the lawful heir of the victim, stated in her testimony that her son, **Yagublu Farman**, had served as a military officer for approximately eight years. His last place of service was Military Unit No. 191 of the Ministry of Defense. On **19.07.2021**, she spoke with her son by telephone. On **23.07.2021 at approximately 17:00**, she received a call from Military Unit No. 191 informing her that her son **Yagublu Farman** had been wounded and was being transported to the city of Ganja. Later she was informed that her son had become a martyr. On **24 July 2021 at approximately 12:00**, her son was buried in the village of **Garamammadli**.

Volume 154, case file sheets 75–77

Questioned as witnesses, **Mammadov Vugar Vahid oglu, Salimov Ulfat Maks oglu and Agayev Tosif Shabala oglu** stated in their testimony that on **23.07.2021 at approximately 16:00**, the commander of the 10th Division, Captain **Zamin Ibrahimov**, called them on a mobile phone and reported that approximately 10–12 Armenian servicemen were approaching the combat post codenamed "**Ertogrul**." They immediately started a military medical vehicle and headed toward the Ertogrul post. They heard gunshots approximately three or four times before reaching the combat position. At a distance of approximately 30 meters from the place where combat duty was being performed, another three or four shots were heard. At that time, they were informed that Warrant Officer **Farman Yagublu** had been shot by the Armenians and that he had gone to get a medical bag to provide first aid. As they approached the combat-duty positions, they saw Warrant Officer **Farman Yagublu** lying on his back. After checking **Farman Yagublu's** pulse, they established that he had already died. The witnesses stated in their testimony that the bullet that killed **F. Yagublu** had been fired by Armenian military units.

According to **forensic ballistic examination conclusion No. 1/3359 dated 03.09.2021**, damage, the number and dimensions of which are specified in the examination section of the conclusion, is present on one military field jacket, one non-armored vest, one military field shirt with short sleeves and one gray T-shirt which, as stated, belonged to **Yagublu Farman Telman oglu**. Based on the...

Page 408

...shape, dimensions and morphological structure of the damage, the absence of incompletely burned powder particles constituting an additional factor of a shot around the damage, as well as the presence of traces of copper metal, the damage to the front part of the military field jacket and military field short-sleeved shirt is an entrance defect; the damage on the back of the military field jacket, the non-armored vest, the military field short-sleeved shirt and the gray T-shirt is an exit defect and is characteristic of the impact of a copper-containing bullet approximately **7 mm in diameter**, fired from a rifled firearm from a distance of more than **1 meter**, travelling from front to back.

Volume 154, case file sheets 79–83

According to **forensic medical examination conclusion No. 40 dated 06.09.2021**, the bodily injuries found on the body of **F.T. Yagublu** during examination consisted of one through-and-through wound with an entrance opening on the anterior surface of the left half of the chest and an exit opening on the posterior surface of the chest, in the projection of the third thoracic vertebra, with damage to the left lung and aorta along the wound channel, comminuted open fractures of the third thoracic vertebra, and acute internal bleeding accompanying the penetrating wound. The cause of death was acute internal bleeding resulting from damage to the lung and aorta caused by the penetrating gunshot wound to the chest.

Volume 154, case file sheets 86–90

According to the **resolution dated 01.10.2021 on recognition as material evidence**, the military field jacket, field short-sleeved shirt, field trousers, gray T-shirt, gray underpants, left pair of black boots, non-armored vest and one pair of black socks belonging to **Yagublu Farman Telman oglu** were recognized as material evidence in the criminal case and are kept in the evidence storage room of the Department for Particularly Important Investigations.

Volume 154, case file sheets 95–97

The investigation established that on **28.07.2021 at approximately 01:00**, the defensive posts conventionally designated **“K-1,” “K-3,” “K-4” and “Ertogrul”** of the 1st and 3rd motorized rifle battalions of Military Unit No. 191, located in the direction of the **Kalbajar District**, were subjected to intensive fire from small arms and artillery of various calibers from the direction of the villages of **Zod** and **Narimanli** in the **Basarkechar District** by servicemen of the Armed Forces of Armenia positioned opposite them, in the absence of any direct military confrontation, motivated by national hatred and enmity and with the intent to deliberately kill the servicemen stationed at those positions.

As a result, the servicemen sustained the following injuries: Major **S.N. Aliyev** — a “gunshot wound to the left thigh”; Senior Lieutenant **T.A. Farhadli** — a “gunshot wound to the soft tissues of the posterior surface of the middle third of the left lower leg”; Lieutenant **I.D. Imranli** — “gunshot wounds to the right wrist and the second and third fingers of the left hand”; Warrant Officer **I.A. Babayev** — a “blind gunshot wound to the lower third of the left thigh”; extended-service serviceman, Private **M.M. Orujov** — a “gunshot wound to the right arm”; Lieutenant **A.M. Musayev** and Private **T.T. Ibrahimli** — “barotrauma as a result of an explosion.”

Aliyev Sadir Nizami oglu, questioned as a victim, stated in his testimony that on **28.07.2021 at approximately 04:00**, the Armed Forces of Armenia opened intensive fire from various types of small arms from the northern and north-western parts of the country in the direction of the combat post of Military Unit No. 191 conventionally designated **“Ertogrul.”** The distance between the Armenians and their combat post was approximately **80–100 meters** on the northern side and **3,000 meters** on the north-eastern side. The combat post was located at an elevation of **2,473 meters above sea level**, while the Armenian military positions on the north-eastern side were located at an elevation of approximately **2,800 meters above sea level**. The Armenians opened fire on...

...their combat post from all three positions, after which they returned fire and forced the Armenian soldiers to cease firing. During the fighting, he was in full combat gear, that is, he was wearing a military field uniform, bulletproof vest and helmet. At that time, his left leg was positioned on the flank of the combat post, while the personnel at the combat post were positioned in firing sectors approximately 3–5 meters apart. At **04:20**, as a result of fire by Armenian military units from a combat position on the northern side, a bullet struck a nearby stone and changed direction, striking him in the left thigh. At that moment, he did not lose control of himself and told Warrant Officer **Babayev Israyil Alikram oglu** that he had been shot. **Israyil Babayev** immediately provided him with first aid and stopped the bleeding. After Israyil Babayev provided him with first aid, he returned to his combat post and remained there for approximately 40 minutes, returning fire in response to shots from Armenian military units so as not to leave his fellow servicemen alone. Later, fearing that his condition would worsen, Warrant Officer **Israyil Babayev** informed him that he should be evacuated. At that time, together with two servicemen of Military Unit No. 191, whose names he does not remember, they took him to a military medical vehicle waiting approximately 700 meters away, and he was evacuated in that vehicle to Military Unit No. 524 in the **Kalbajar District**. There he underwent surgery and the bullet was removed from his left thigh, after which, on **28.07.2021 at approximately 16:00**, he was sent to Military Unit No. 230 for further treatment. The first witness to the incident was Warrant Officer **Babayev Israyil Alikram oglu**, a serviceman of Military Unit No. 196. Later, he learned that Babayev had also been wounded as a result of fire from Armenian military units.

Volume 258, case file sheets 65–69

Questioned as victims, **Imranli Imran Dilgam oglu, Musayev Akshin Mehman oglu, Orujov Muzamil Mehman oglu, Ibrahimli Tunar Tumar oglu, Farhadli Telman Arzu oglu and Babayev Israyil Alikram oglu** gave testimony similar to that of **Sadir Aliyev**.

Volume 153, case file sheets 33, 41, 53, 61

Volume 258, case file sheets 47–51, 56–60, 74–78, 133–137, 174–178, 187–191

According to **forensic medical examination conclusion No. 606 dated 06.09.2021**, the bodily injury sustained by **S.N. Aliyev** — a blind wound to the left thigh, with an entrance opening located on the outer surface of the upper third of the thigh — is characteristic of a gunshot injury caused by a shot fired from a distance, travelling from left to right, without the effect of additional factors of the shot, and in terms of severity is considered minor harm to health.

Volume 258, case file sheets 262–263

According to **forensic ballistic examination conclusion No. 3/1365–1366 dated 01.09.2021**, one item — a fired component of a factory-manufactured **7.62 × 39 mm cartridge**, intended for use as ammunition in **AKM, AKS and AKMS** automatic weapons, **RPK and RPKS** light machine guns, **SKS** carbines and other rifled firearms of the Kalashnikov design — is a bullet core and is unsuitable for use (firing). It cannot be ruled out that the bending and deformation marks on the submitted metal item were caused by friction against a piece of rock or stone.

The submitted military field trousers said to belong to **Aliyev Sadir Nizami oglu** bear damage of the number and dimensions specified in the examination section of the conclusion. Judging by the shape, dimensions and morphological structure of the damage, and in the absence at the site of damage of incompletely burned powder particles and traces of copper metal constituting additional factors of a shot, the damage on the rear part of the left trouser leg is a penetrating defect caused by a shot from a rifled firearm by a bullet approximately **7 mm in diameter** and is characteristic of being inflicted from a distance of more than **1 meter**. Since there is no exit opening, it is impossible to determine...

Page 410

...the direction of the shot. These injuries may have been caused by the single metal item submitted for examination.

Volume 258, case file sheets 267–270

According to **forensic ballistic examination conclusion No. 3/1360 dated 02.09.2021**, the military field trousers which, as stated, belong to **Babayev Israyil Alikram oglu**, bear damage of the same dimensions and number as specified in the examination section of the conclusion. Based on the shape, dimensions and morphological structure of the damage, and despite the absence of traces of copper metal around the damage and of incompletely burned powder particles constituting additional factors of a shot, the damage on the front part of the left trouser leg is a penetrating defect usually caused by the impact of a bullet fragment from a distance of more than **1 meter** as a result of a shot from a firearm. Since there is no exit opening, it is impossible to determine the direction.

Volume 258, case file sheets 273–275

According to **forensic ballistic examination conclusion No. 1364 dated 30.08.2021**, the right sleeve of a military sweater which, as stated, belongs to **Imranli Imran Dilgam oglu**, bears damage of the same dimensions and number as specified in the examination section of the conclusion. Based on the shape, dimensions and morphological structure of the damage, despite the absence around the damage of incompletely burned powder particles and traces of copper metal constituting additional factors of a shot, the damage on the front surface of the right sleeve is an entrance opening, while the damage on the rear surface of the right sleeve is an exit opening and is characteristic of having been caused by a bullet approximately **5 mm in diameter**, fired from a rifled firearm from a distance of more than **1 meter**, travelling from the front of the right arm toward the rear.

Volume 258, case file sheets 278–280

According to **forensic ballistic examination conclusion No. 3/1361 dated 02.09.2021**, the military field trousers which, as stated, belong to **Farhadli Telman Arzu oglu**, bear damage of the same dimensions and number as specified in the examination section of the conclusion. Based on the shape, dimensions and morphological structure of the damage, and despite the absence of traces of copper metal around the damage and of incompletely burned powder particles constituting additional factors of a shot, the damage on the rear part of the left trouser leg is a penetrating defect usually caused by the impact of a bullet fragment from a distance of more than **1 meter** as a result of a shot from a firearm. Since there is no exit opening, it is impossible to determine the direction.

Volume 258, case file sheets 283–285

According to **forensic medical examination conclusion No. 640 dated 17.09.2021**, it cannot be ruled out that the injury sustained by **Musayev Akshin Mehman oglu** — a closed craniocerebral injury accompanied by concussion — was caused by the impact of the blast wave generated by the explosion of a firearm projectile (shell), and it is classified as minor harm to health.

Volume 258, case file sheets 288–290

According to **forensic medical examination conclusion No. 604 dated 18.09.2021**, the bodily injury sustained by **Babayev Israyil Alikram oglu** — a blind wound of the soft tissues of the lower third of the left thigh — was caused by the impact, from right to left, of a fragment formed as a result of the fragmentation of a bullet (projectile) upon striking a hard obstacle during a firearm shot, and is classified as minor harm to health.

Volume 258, case file sheets 306–307

Page 411

According to **forensic medical examination conclusion No. 687 dated 18.09.2021**, it cannot be ruled out that the injury sustained by **Orujov Muzamil Mehman oglu** — a penetrating wound to the soft tissues of the right arm — was caused by a bullet fragment that struck a hard obstacle during the shot, and is classified as minor harm to health.

Volume 258, case file sheets 310–311

According to **forensic medical examination conclusion No. 603 dated 15.09.2021**, the bodily injuries sustained by **Imranli Imran Dilgam oglu** — a penetrating wound to the lower third of the right ulna, accompanied by an open comminuted fracture of the distal end of the ulna with displacement; one penetrating wound to the joints of the proximal phalanges of the second and third fingers of the left hand, accompanied by comminuted displaced open fractures and penetrating damage to the soft tissues of the fourth finger — are typical of injuries sustained as a result of at least two shots fired from a distance at which there were no additional factors of firearm discharge, and are classified as less serious harm to health.

Volume 258, case file sheets 314–315

According to **forensic medical examination conclusion No. 605 dated 15.09.2021**, the bodily injury sustained by **Farhadli Telman Arzu oglu** — a blind wound to the soft tissues of the left lower leg — was caused by a bullet fragment striking a hard obstacle during the shot and is classified as minor harm to health.

Volume 258, case file sheets 318–319

According to **forensic ballistic examination conclusion No. 3/1521–3/1522 dated 28.10.2021**, one item is a component of a **12.7 mm cartridge**, which is considered live ammunition, is factory-manufactured and is intended for use in **DShK heavy machine guns, UB aircraft machine guns and other military weapons**; it is a bullet core and is unsuitable for use. No traces of bending or deformation were found on the submitted bullet core.

The military jacket and military tunic submitted for examination bear damage, the dimensions and number of which are specified in the examination section of the conclusion. Based on the shape and morphological structure of the damage and the presence around the damage of incompletely burned smokeless powder particles and traces of copper metal, which are additional factors of a shot, these injuries are characteristic of penetrating wounds caused by a copper-containing bullet fired from a rifled firearm from a distance of more than **1 meter**, travelling from back to front. These injuries may also have been caused by the submitted metal item. However, it is impossible to determine the specific caliber of the bullet that caused the injuries, including whether they were caused by the submitted metal item.

Volume 153, case file sheets 5–9

According to the **resolution dated 10.11.2021 on recognition as material evidence**, the tunic and military field coat worn by **Orujov Muzamil Mehman oglu** and one metal item (bullet core) removed from the field coat; the military field trousers of **Aliyev Sadir Nizami oglu**; the military field trousers of **Babayev Israyil Alikram oglu**; the military field trousers of **Farhadli Telman Arzu oglu**; and the military sweater of **Imranli Imran Dilgam oglu** were recognized as material evidence, and the tunic, military field coat, the metal item (bullet core) removed from the field coat, three pairs of military field trousers and the military sweater were transferred for safekeeping to the storage facility of the Special Investigations Department.

Volume 153, case file sheets 13–15

Page 412

On **29.07.2021 at approximately 03:00**, the defensive positions of **Military Unit No. 191**, located in the direction of the **Kalbajar District**, were shelled by representatives of the Armed Forces of Armenia whose identities were unknown to the investigation. As a result of these military actions, soldiers **Orujov Nusret Gunduz oglu** and **Dadashov Raman Ramil oglu**, Senior Soldier **Huseynov Bakhtiyar Asef oglu**, and Senior Soldier **Agayev Rashad Rafet oglu**, who were serving at the combat posts of the position conventionally designated “**Zirve-2**” of Military Unit No. 191, were subjected to an intentional attempt to kill by servicemen of Armenian military units on the opposing side.

The investigation established that on **29.07.2021 at approximately 03:00**, the defensive positions of Military Unit No. 191, located in the direction of the Kalbajar District, were subjected to intensive fire from small arms and artillery of various calibers by representatives of the Armed Forces of Armenia whose identities were unknown to the investigation, with the intent to deliberately kill the servicemen serving at those positions, motivated by national hatred and enmity.

As a result of these combat operations, the servicemen serving at the combat posts conventionally designated “**Zirve-2**” of Military Unit No. 191, situated at defensive positions opposite the villages of **Zod** and **Narimanli** in the **Basarkechar District of Armenia**, in the Kalbajar District, sustained the following injuries: Private **Orujov Nusret Gunduz oglu**, commander of the 1st squad of the 2nd company of the 2nd platoon of the 1st battalion of Military Unit No. 191 — a “**gunshot wound to the right shoulder and shrapnel wounds to the second and fourth fingers of the right hand**”; Private **Dadashov Raman Ramil oglu**, rifleman of the 1st squad of the 2nd company of the 2nd platoon of the 1st battalion of

Military Unit No. 191 — a “**shrapnel wound to the muscle of the left shoulder**”; Senior Private **Huseynov Bakhtiyar Asef oglu**, scout of the 1st reconnaissance squad of the 3rd reconnaissance platoon of the reconnaissance detachment of Military Unit No. 196 — a “**shrapnel wound to the left arm and left costal region**”; and Senior Private **Agayev Rashad Rafet oglu** — a “**penetrating wound to the fifth finger of the left hand, accompanied by an open comminuted displaced fracture of the proximal phalanx, and blind wounds to the soft tissues of the lower jaw, the left wrist and ankle joints.**”

According to **forensic medical examination conclusion No. 617 dated 04.08.2021**, the bodily injuries sustained by **R.R. Agayev** — a penetrating wound to the fifth finger of the left hand, accompanied by an open comminuted displaced fracture of the proximal phalanx, and blind wounds to the soft tissues of the lower jaw and the areas of the left wrist and ankle joints — are characteristic of the impact of fragments formed as a result of the explosion of a firearm projectile and, in terms of severity, are classified as less serious bodily injuries.

Volume 259, case file sheets 184–185

According to **forensic medical examination conclusion No. 615 dated 04.08.2021**, the bodily injury sustained by **Dadashov Raman Ramil oglu** — a blind wound to the soft tissues of the left arm — was caused by a fragment from the explosion of explosive ordnance and is classified as a minor bodily injury causing a short-term health disorder.

Volume 259, case file sheets 188–189

According to **forensic medical examination conclusion No. 616 dated 04.08.2021**, the bodily injuries sustained by **Huseynov Bakhtiyar Asef oglu** — non-penetrating blind wounds to the soft tissues of the left shoulder and penetrating wounds to the left arm, characteristic of secondary fragments produced by a primary blunt mechanism caused by the explosion of a firearm — are classified as minor harm to health.

Volume 259, case file sheets 192–193

According to **forensic medical examination conclusion No. 620 dated 04.08.2021**, it cannot be ruled out that the bodily injuries sustained by **Orujov Nusret Gunduz oglu** — a penetrating wound to the soft tissues of the right arm — were caused by a bullet (projectile) fired from a firearm, while the minor blind wounds to the soft...

Page 413

...tissues of the second, third and fourth fingers of the right hand — may have resulted from the impact of fragments formed when a bullet (projectile) struck a hard obstacle during a shot from a firearm, and are classified as minor harm to health.

Volume 259, case file sheets 196–197

According to the **item inspection report dated 13.08.2021**, puncture damage and stains resembling blood were found on the military field coat worn by **Orujov Nusret Gunduz oglu** at the time of the incident. Puncture damage and stains resembling blood were found on the military field sweater and thermal undershirt worn by **Dadashov Roman Ramil oglu** at

the time of the incident. A puncture damage was found on the military field coat and military field summer undershirt worn by **Huseynov Bakhtiyar Asaf oğlu** at the time of the incident.

Volume 259, case file sheets 105–118

By a **resolution dated 11.11.2021**, the military field summer undershirt and military field coat worn by **Orujov Nusret Gunduz oğlu** at the time of the incident, the military sweater and thermal undershirt worn by **Dadashov Roman Ramil oğlu**, as well as the military jacket and military field summer undershirt worn by **Huseynov Bakhtiyar Asaf oğlu**, were recognized as material evidence and transferred to the evidence storage room of the Special Investigations Department.

Volume 259, case file sheets 207–208

Huseynov Bakhtiyar Asaf oğlu, questioned as a victim, stated in his testimony that on **29.07.2021 at 03:00**, the Armenian armed forces opened intensive fire from various types of small arms in the direction of the post and attempted to storm the combat post. In order to prevent the Armenian advance, they opened fire and forced the Armenian armed forces to retreat. At approximately 03:00, he and **Elshad Agayev** were wounded as a result of fire from the Armenian armed forces. He sustained shrapnel wounds to his left arm and left rib area. **Elshad Agayev** sustained a shrapnel wound to his left finger. They were provided with first medical aid. After receiving first aid, they continued returning fire against the Armenian armed forces. Fifteen minutes later, **Orujov Nusret** and **Dadashov Roman** were wounded as a result of fire from the Armenian armed forces. At approximately 04:00, the Armenian armed forces were forced to retreat to their positions.

Volume 259, case file sheets 32–36

Questioned as victims, **Dadashov Roman Ramil oğlu, Agayev Rashad Rafet oğlu and Orujov Nusret Gunduz oğlu** confirmed the circumstances stated in the testimony of **Huseynov Bakhtiyar Asaf oğlu**.

Volume 259, case file sheets 42–46, 70–74, 82–86

Questioned as witnesses, **Nasibov Ramin Amrakh oğlu and Gadimov Tunar Habil oğlu** gave testimony of the same substance and confirmed the testimony of **Huseynov Bakhtiyar Asaf oğlu**.

Volume 259, case file sheets 95–98, 101–104

The investigation established that extended-service servicemen of **Military Unit No. 172 of the Ministry of Defense**, Privates **Pira Hasan Nizami oğlu, Gafarov Abbas Hasan oğlu and Allahverdiyev Khosrov Maharram oğlu**, on **02.08.2021 at approximately 00:20**, while driving a **Ural-432006** vehicle with military registration number **G503QQ** in the **Alagollar area of the Kalbajar District** for the purpose of delivering supplies to posts along the line of contact, approximately 500 meters from the **“Pora” post** located in the same area, struck a mine previously planted in that area by representatives of Armenian armed formations whose identities were not established by the investigation. As a result, **H.N. Pira** sustained barotrauma, perforating injuries to the eardrums of both ears accompanied by severe conductive hearing loss, which are classified as minor harm to health, while **A.H.**

Gafarov sustained an “abrasion in the area of the left cheek,” the severity of which was not determined because it did not cause harm to...

Page 414

...health. They were evacuated to **Military Hospital No. 230 of the Ministry of Defense**. The **Ural-432006** vehicle with military registration number **G503QQ** was rendered partially unfit for use.

According to the **inspection report dated 06.08.2021**, the scene of the incident is situated at an elevation of **2,550 meters**, approximately 500 meters from the “**Pora**” post, which is under the control of the 2nd Battalion of Military Unit No. 172, in the **Alagollar area of the Kalbajar District**. It is located approximately 100 meters to the west, near the line of contact with the Armenian armed forces. The **Gurbagachay River**, flowing from southwest to east, is located 100 meters east of the scene of the incident. The distance from the base of the 2nd Battalion of the 6th Division to the scene is **15 kilometers**; the distance to the “Pora” post is **2 kilometers**; the distance from the “Pora” post to the scene is **500 meters**; and the distance from the scene to the nearest post, the “**Serhed**” post, is **3.5 kilometers**. The terrain is predominantly mountainous, rugged and covered with grass. A round pit, apparently formed as a result of an explosion, was found at the scene. The dimensions of the pit are **93 × 87 centimeters**, and its depth is **62.5 centimeters**. The pit narrows with depth. No material evidence relevant to the case was found at the scene.

According to the inspection report, it was established that the left middle wheel and its wheel disc of the **Ural-432000** vehicle with registration number **G5030Q** had been rendered inoperative.

The vehicle’s fuel tank had been punctured; the roof of the vehicle had been pushed inward on the left side; the upper part of the roof had been torn off; certain parts of the roof in the upper-left section had been broken; the left and front windows of the cabin had been shattered; and the left door had been crushed in several places. The vehicle was partially unfit for use.

Volume 150, case file sheets 7–10

Allahverdiyev Khosrov Maharram oglu, questioned as a victim, stated in his testimony that on **02.08.2021 at approximately 00:20**, while travelling in the **Alagollar area of the Kalbajar District**, as a result of the explosion of a mine previously planted by Armenian separatists approximately 500 meters from the “**Pora**” post, the vehicle was involved in an accident, after which they quickly jumped out of the vehicle and ran back toward the base of the 6th Division. Upon arriving at the division, they were evacuated to the military unit and from there to the hospital. He had no visible serious injuries, but felt some pain. He had no information about the health condition of the other servicemen.

Volume 150, case file sheets 16–18, 26–29

Pira Hasan Nizami oglu, questioned as a victim, confirmed in his testimony the facts mentioned by the other victims, stating that during the incident he sustained head injuries and underwent treatment for hearing loss and high blood pressure.

Volume 150, case file sheets 5–6, 71–74

Gafarov Abbas Hasan oglu, questioned as a victim, confirmed in his testimony the facts mentioned by the other victims, stating that the left middle wheel of the vehicle struck the mine and that, as a result of the incident, he sustained injuries to his head and shoulder.

Volume 150, case file sheets 79–82

Regarding the fact that the **Ural-432000** vehicle with state registration number **G503QQ**, belonging to Military Unit No. 172, was involved in an accident as a result of a mine explosion, **Captain Hasanov Goshgar Fikret oglu**, deputy commander of the 4th Battalion of the 11th Division of Military Unit No. 172 for personnel and personnel affairs, who represented the military unit as the victim, stated in his testimony that on **02.08.2021**, while...

Page 415

...travelling in the **Alagollar area of the Kalbajar District** in a **Ural-432006** vehicle with registration number **G503QQ** for the purpose of delivering supplies to posts along the line of contact, the extended-service servicemen of the military unit were involved in an accident as a result of the explosion of a mine previously planted by Armenian separatists approximately 500 meters from the **“Pora” post**. The servicemen sustained injuries of varying severity, were provided with first medical aid and evacuated to hospital for examination. As a result of the incident, the **Ural-432006** vehicle with state registration number **G503QQ**, which was on the balance sheet of the military unit, was rendered partially unfit for use. The left middle wheel of the vehicle and its wheel disc were broken, the fuel tank was punctured, the roof of the vehicle was pushed inward on the left side, the upper part of the roof was torn off, certain parts of the roof in the upper-left section were broken, the left and front windows of the cabin and the left rear-view mirror were broken, and the left door was dented in various places.

Volume 150, case file sheets 34–37

According to **forensic medical examination conclusion No. 684 dated 09.09.2021**, the bodily injury sustained by **A.G. Gafarov** — a scratch on the left cheek — is characteristic of a blunt mechanism, namely an impact by a hard blunt object. Since the injury does not pose a danger to health, its severity is not determined.

Volume 150, case file sheets 85–86

According to **forensic medical examination conclusion No. 685 dated 09.09.2021**, the bodily injuries sustained by **H.N. Pira** — perforating (puncture) injuries to the eardrums of both ears, accompanied by severe conductive hearing loss — constituted barotrauma resulting from the impact of the blast wave generated by the explosion of explosive ordnance and, in terms of severity, are classified as posing a minor danger to health.

Volume 150, case file sheets 89–90

According to **forensic medical examination conclusion No. 689 dated 09.09.2021**, no bodily injuries were found on **H.M. Allahverdiyev**.

Volume 150, case file sheets 93–94

By **Order No. 367 of the Commander of Military Unit No. 172 dated 19.12.2019**, reserve serviceman **Pira Hasan Nizami oglu**, in accordance with **Order No. 0138 əç of the Commander of Military Unit No. 193 dated 07.12.2019**, voluntarily entered service in the ranks of the Azerbaijani Army from the reserve for a period of three years beyond the term of active military service under contract and was appointed driver of the 3rd squad of the 1st platoon of the rocket artillery battery of Military Unit No. 172. From **19.12.2010**, he was included in the personnel lists of the military unit, received all types of allowances and commenced the performance of his official duties.

Volume 150, case file sheet 50

The investigation established that extended-service serviceman of **Military Unit No. 343 of the Ministry of Defense**, bulldozer operator of the 1st squad of the 2nd platoon of the 1st engineering-road division, Junior Sergeant **Musayev Feyruz Muhammad oglu**, on **11.06.2021**, while carrying out engineering work in the area of elevation **3335** near the village of **Zar, Kalbajar District**, using the **Caterpillar D-6R** bulldozer equipment assigned to him, with state registration number **H830QQ**, was deliberately fired upon with heavy machine guns by servicemen of Armenian military formations whose identities were not established by the investigation, with the intent to kill him. As a result of the shooting, he sustained no physical injuries; however, the rear window of the vehicle he was operating was pierced (and completely shattered when he started the vehicle after the shooting), and bullets also damaged the seat back inside the cabin, the military registration plate, the rear and upper parts of the vehicle body, and the core of the rear hook.

According to the **scene inspection report dated 09.08.2021**, the scene of the incident is located on rocky and gravelly terrain at an elevation of **2,500...**

Page 416

...meters, near the village of **Zar, Kalbajar District**, at the combat position called "**Tanker**" in the area of elevation **3335**. The positions of the Armed Forces of Armenia are located to the north at an elevation of **2,350 meters**, at a distance of **1,500 meters**; to the south at an elevation of **2,400 meters**, at a distance of **1,500–1,700 meters**; and to the west at an elevation of **2,700 meters**, at a distance of **1,700–1,800 meters**. In the eastern direction, parallel to the specified positions, are combat posts of the Armed Forces of the Republic of Azerbaijan. As a result of the incident, the rear window of the **Caterpillar D-6R** engineering vehicle with military registration number **H830QQ** was completely shattered, while the seat back, military registration plate and central part of the rear hook were pierced by bullets. The vehicle was partially damaged and required cosmetic repairs. No material evidence relevant to the case was found at the scene.

Volume 124, case file sheets 16–22

According to the **inspection report dated 09.08.2021 of the Caterpillar D-6R engineering vehicle with military registration number H830QQ**, although the rear window of the vehicle had been pierced during the incident, it was completely shattered when the vehicle began moving, and a temporary cellophane covering was installed in its place. Bullets damaged the seat back inside the cabin, the military registration plate, the rear and upper parts of the body, as well as the rod of the rear hook. A total of **six bullet marks with a**

diameter of 12.7 millimeters were found on the equipment. At the same time, it became necessary to carry out cosmetic repairs to the engineering equipment.

No other damage affecting the intended use of the equipment was found. A makeshift cover was installed in place of the rear window of the vehicle, and it is being used for its intended purpose.

Volume 124, case file sheets 29–34

Musayev Feyruz Magomed oglu, questioned as a victim, stated in his testimony that since **31.01.2020** he had continued to serve as bulldozer operator of the 1st squad of the 2nd engineering-road platoon of the 1st engineering-road division, as an active extended-service serviceman of Military Unit No. 343. On **01.06.2021**, he was seconded to Military Unit No. 191 for a period of one month to carry out engineering work in the area of elevation **3335** near the village of **Zar, Kalbajar District**, using the **Caterpillar D-6R** bulldozer assigned to him, with state registration number **H830QQ**. On the day of the incident, that is, **11.06.2021**, at approximately **17:00–18:00**, while he was carrying out engineering work at the “**Tanker**” **combat position**, the Armed Forces of Armenia opened fire with heavy machine guns. At that moment, he quickly got out of the vehicle and took shelter in the nearest trench, where he remained until darkness fell; he then moved the vehicle and returned to the battalion. **Feyruz Musayev** also stated in his testimony that he sustained no physical injuries; however, the **Caterpillar D-6R** bulldozer with state registration number **H830QQ** was partially rendered inoperative.

Volume 124, case file sheets 69–72

The representative of the victim, **Panahov Vafadar Zakhir oglu**, gave testimony of the same substance as the victim and confirmed the above information.

Volume 124, case file sheets 80–83

Volume 151, case file sheets 81–84

Questioned as witnesses, **Mehdiyev Farahim Ulfat oglu** and **Huseynov Famil Alim oglu** confirmed the details concerning the mechanism of the incident as stated by the victim and gave testimony of the same substance.

Volume 124, case file sheets 59–61, 62–64

According to **forensic medical examination conclusion No. 691 dated 31.08.2021**, during the forensic medical examination conducted on **31.08.2021**, no bodily injuries or traces of trauma were found on the body of **F.M. Musayev**.

Volume 124, case file sheet 89

Page 417

The investigation established that on **11.06.2021, at approximately 16:00–17:00**, while engineering works were being carried out in the area of **Combat Position No. 5**, where the 5th Battalion of Military Unit No. 191 was stationed, in the village of **Yellija, Kalbajar District**, **Junior Sergeant Tamjidi Asif Azer oglu**, an extended-service serviceman of the

Ministry of Defense, serving as bulldozer operator of the 3rd engineering-road squad of the 1st engineering-road platoon of the 1st engineering-road division of Military Unit No. 343, was fired upon with heavy machine guns from the direction of the **Basarkechar District** by servicemen of the Armed Forces of Armenia whose identities were not established by the investigation, while operating **NEW HOLLAND** engineering equipment with military registration number **H175QQ**. As a result, the **NEW HOLLAND** engineering equipment with military registration number **H175QQ** was rendered partially unfit for use.

On **09.08.2021**, an inspection was conducted and it was established that the scene of the incident was **Combat Position No. 5**, located within the 3rd Battalion of Military Unit No. 191 of the Ministry of Defense, stationed in the village of **Yellija, Kalbajar District**. The road leading to the 3rd Battalion of Military Unit No. 191 is an unpaved, rocky road. Combat Position No. 5 is an area covered with grass and rocky terrain. Combat Position No. 5, where the 3rd Battalion of Military Unit No. 191 was located, is situated at an elevation of **2,613 meters**. A white tent measuring **3 × 4.2 meters** and **2.3 meters** in height had been erected at the said combat position. The position of the Armenian armed forces is located **700 meters** from the rear of the tent to the north-east. The position of the Armenian armed forces is situated on a rocky slope at an elevation of **2,700 meters**. A shelter had been constructed **2 meters north-west of the tent**, located **50 meters from the position of the Armenian armed forces**.

The engineering equipment and excavator came under fire from heavy-caliber weapons from positions of the Armed Forces of Armenia located **700 meters to the north-east**, and projectiles fired in that direction struck various parts of the equipment, damaging it in order to protect himself from the fire opened by Armenian soldiers. **A. Tamjidi** took cover in a previously dug trench located **2 meters north-east of the tent** installed at Combat Position No. 5, where the 3rd Battalion was located, and waited for the weather to become foggy.

When **A. Tamjidi** inspected the equipment after the shooting had ceased, he saw that, as a result of the firing, the **NEW HOLLAND** engineering vehicle with military registration number **H175QQ** had its right, left and rear windows shattered; the right side of the operating lever, the cylinder on the right side of that lever and the iron oil pipe of the cylinder on the left side had been pierced; the fuel tank had been pierced in two places; the radiator drain hose and oil dipstick had been damaged; and the engine oil filler cap had been broken. During the inspection of the scene, no items of material evidentiary significance to the case were seized.

Volume 151, case file sheets 51–57

During the **inspection conducted on 09.08.2021**, it was established that the **NEW HOLLAND** engineering vehicle with military registration number **H175QQ** had its right, left and rear windows shattered; the right side of the operating lever, the cylinder on the right side of that lever and the iron oil pipe of the cylinder on the left side had been pierced; the fuel tank had been pierced in two places; the radiator drain hose and oil dipstick had been damaged; and the engine oil filler cap had been broken. Some of the damage to the **NEW HOLLAND** engineering equipment with military registration number **H175QQ** had been repaired, and the equipment is currently in working condition.

Volume 151, case file sheets 58–63

Tamjidi Asif Azer oglu, questioned as a victim, stated in his testimony that he had been seconded for one month to Military Unit No. 191 to carry out engineering and technical work, specifically to dig trenches, at the site referred to as **Combat Position No. 5** in the village of **Yellija, Kalbajar District**. Pursuant to...

Page 418

...that instruction, he arrived at the site referred to as **Combat Position No. 5**, located in the village of **Yellija, Kalbajar District**, at approximately **14:00 on 11.06.2021**, and proceeded to dig trenches using the **NEW HOLLAND** engineering vehicle with registration number **H175QQ**. When the fog cleared, he stopped the engineering equipment and went into the trench. When the fog cleared and he stopped the engineering equipment and attempted to climb down from the excavator, at approximately **16:00–17:00**, Armenian separatists opened fire on the engineering equipment with heavy-caliber weapons. The bullets struck the equipment, shattering its right, left and rear windows, piercing the right side of the operating lever, the cylinder on the right side of that lever and the iron oil pipe of the cylinder on the left side, piercing the fuel tank in two places, and damaging the radiator drain hose, the oil dipstick and the engine oil filler cap.

Volume 151, case file sheets 43–44, 71–75

Panahov Vafadar Zakhir oglu, questioned as a victim, as well as witnesses **Huseynov Mamahan Elshad oglu** and **Huseynli Teyyar Ramil oglu**, gave similar testimony.

Volume 151, case file sheets 47–48, 49–50, 89–92

According to **forensic medical expert conclusion No. 722 dated 17.09.2021**, during the medical examination of **A.A. Tamjidi**, no bodily injuries or traces of injuries related to the incident described in the resolution were found on his body.

Volume 151, case file sheet 106

On **16.08.2021 at 20:50**, servicemen of the 4th Battalion of Military Unit No. 191 of the Ministry of Defense, stationed in the **Kalbajar District**, soldiers **Abdullayev Abdulaziz Elshad oglu** and **Muradov Khayal Mikail oglu**, while serving at the combat position conventionally designated “**Goycha 5**”, were subjected to an intentional attempt on their lives as a result of fire from small arms and heavy-caliber weapons opened by servicemen of the Armed Forces of Armenia whose identities were unknown, from their positions in the village of **Zarkand, Basarkechar District**.

The investigation established that on **16.08.2021 at 20:50**, servicemen of the 4th Battalion of Military Unit No. 191 of the Ministry of Defense, stationed in the Kalbajar District, soldiers **Abdullayev Abdulaziz Elshad oglu** and **Muradov Khayal Mikail oglu**, while serving at the combat position conventionally designated “**Goycha 5**”, were fired upon with small arms and heavy-caliber weapons by servicemen of the Armed Forces of Armenia whose identities were unknown, from their positions in the village of **Zarkand, Basarkechar District**, with the purpose of inciting national hatred and enmity.

As a result, Private **A.A. Abdullayev** sustained “**blind shrapnel wounds to the right temporal region of the head, the soft tissues of the right half of the chest, blind shrapnel**

wounds to the upper third of the right arm, and foreign bodies in the soft tissues,” which are classified as minor injuries resulting in a short-term deterioration of health; and Private **Kh.M. Muradov** sustained “a blind shrapnel wound to the dorsal surface of the left hand and a foreign body in the soft tissues,” which is classified as a minor injury resulting in a short-term deterioration of health.

According to the **scene inspection report dated 18.08.2021**, the scene of the incident is the combat position called “**Goycha 5**”, located in the territory of the village of **Zar, Kalbajar District**, belonging to the 4th Battalion of the stationed Military Unit No. 191 of the Ministry of Defense of the Republic of Azerbaijan.

Volume 260, case file sheets 21–25

According to **forensic medical examination conclusion No. 682 dated 27.08.2021**, it cannot be ruled out that the bodily injury sustained by **Muradov Khayal Mikail oglu** — a blind wound to the dorsal surface of the left hand and a foreign body in the soft tissues — was caused by a fragment resulting from a projectile (bullet) striking a hard obstacle...

Page 419

...during a shot from a firearm and, in terms of severity, is classified as minor harm to health.

Volume 260, case file sheet 69

According to **forensic medical examination conclusion No. 683 dated 27.08.2021**, it cannot be ruled out that the bodily injuries sustained by **Abdullayev Abdulaziz Elshad oglu** — blind wounds to the soft tissues of the right temporal region, the right half of the chest, and the upper third of the right arm — were caused by fragments formed when a bullet (projectile) struck a hard obstacle during a shot from a firearm and, in terms of severity, are classified as minor harm to health.

Volume 260, case file sheet 72

Abdullayev Abdulaziz Elshad oglu, questioned as a victim, stated in his testimony that on **16 August 2021 at approximately 18:00**, while he was in the soldiers’ barracks, servicemen on duty at the combat position conventionally designated “**Goycha 5**” reported that Armenian military units were restoring their combat positions. This was immediately reported to the battalion commander, who ordered all personnel to proceed to their combat positions. After receiving their weapons and ammunition, they arrived at the combat position and began observing. At approximately **20:00** that same day, fire from heavy-caliber weapons began from the Armenian positions, and immediately after the firing started he sustained wounds to his right arm and right temple. He lost a great deal of blood but, despite this, continued firing. He then informed the battalion of his injuries, and a military medical vehicle arrived from the battalion at the gorge near the combat position. Medical instructor Junior Sergeant **Aliyev Eljan Cherkaz oglu** provided first aid to him and soldier **Muradov Khayal Mikail oglu** and evacuated them to the military hospital in the **Kalbajar District**.

Volume 260, case file sheets 38–41

Muradov Khayal Mikail oglu, questioned as a victim, stated in his testimony that on **16 August 2021 at approximately 18:00**, while he was in the soldiers' barracks, servicemen on duty at the combat position conventionally designated "**Goycha 5**" reported that Armenian military units were restoring their combat positions. This was immediately reported to the battalion commander, who ordered all personnel to proceed to their combat positions. After receiving their weapons and ammunition, they arrived at the combat position and began observing. At approximately **20:00** that same day, fire from heavy-caliber weapons began from the Armenian positions, at which time he saw that **Abdullayev Abdulaziz Elshad oglu**, who was at the combat position with him, had sustained wounds to his right arm and temple. He saw the Armenian armed forces reloading their weapons at the enemy combat positions. Without losing any time, he returned fire on the positions of the Armenian armed forces with the weapon assigned to him. The firing then continued, and although at that moment he did not feel any injury to his left arm, a few minutes after the firing began he noticed that it was bleeding heavily. He then informed the battalion of his injury. A military medical vehicle arrived from the battalion at the gorge near the combat position, and medical instructor **Aliyev Eljan Cherkaz oglu** provided first aid to him and **Abdullayev Abdulaziz Elshad oglu** and evacuated them to the military hospital in the Kalbajar District.

Volume 260, case file sheets 46–49

Abdilhuseynov Nijat Mahir oglu, questioned as a witness, stated in his testimony that on **16.08.2021 at approximately 20:50**, as a result of numerous shots from small arms and heavy-caliber weapons fired from Armenian positions in the area of the village of **Zar, Kalbajar District**, one of the bullets struck a rock and shattered, as a result of which fragments struck servicemen of Military Unit No. 191 of the Ministry of Defense, namely a soldier of the 1st squad...

Page 420

...of the 2nd platoon of the 12th company of the 4th battalion of Military Unit No. 191, **Abdullayev Abdulaziz Elshad oglu**, and a soldier of the 1st company of the 2nd platoon of the 12th company of the 4th battalion of Military Unit No. 191, **Muradov Khayal Mikail oglu**, who sustained injuries. The "**Goycha 5**" combat position, where the incident occurred, is located at an elevation of approximately **2,770 meters above sea level**. The distance to the Armenian positions is approximately **25–30 meters**. Armenian positions are located to the left of and opposite the "**Goycha 5**" combat position. The right and rear parts are territories under the control of the Armed Forces of the Republic of Azerbaijan. After sustaining their injuries, the servicemen were evacuated to a medical facility within the shortest possible time, where they were provided with medical assistance, and they are currently continuing treatment at **Military Hospital No. 230**.

Volume 260, case file sheets 27–29

Aliyev Eljan Cherkaz oglu confirmed the statement of **Abdilhuseynov Nijat Mahir oglu**, giving similar testimony in the criminal case.

Volume 260, case file sheets 30–33

On **25 August 2021 at approximately 15:20**, while performing guard duty at a combat post located near a forested area in the village of **Chayzami, Qubadli District**, another

serviceman wearing the uniform of the Armed Forces of Armenia deliberately attempted to kill **Private Shiraliyev Ruslan Nariman oğlu**, a serviceman of the **Qubadli Separate Border Division of the State Border Service**, by inflicting stab wounds on various parts of his body.

The investigation established that on **25.08.2021**, from **12:00 to 16:00**, serviceman of the Qubadli Separate Border Division of the State Border Service **Private Shiraliyev Ruslan Nariman oğlu** was assigned to perform guard duty at a combat post located near a forested area in the village of **Chayzami, Qubadli District**. That day, at approximately **15:20**, after hearing rustling from that area and moving in that direction, he noticed a serviceman in the uniform of the Armed Forces of Armenia who was in the forested area at a distance of **29 meters** in the direction of the positions of the Armed Forces of Armenia and was moving from an ambush toward his combat position with an automatic weapon on his shoulder. He immediately readied the automatic weapon he had with him, disengaged the safety, moved **15 meters** in that direction, aimed the weapon in that direction and attempted to fire.

At that moment, he heard rustling behind him and, turning around, saw another serviceman in the uniform of the Armenian armed forces behind him. That person suddenly attacked **R.N. Shiraliyev** with a knife in his hand, intending to kill him, and began stabbing him in various parts of the body. However, **R.N. Shiraliyev** resisted the man and called for his fellow servicemen. At that time, when other servicemen from the post approached him, the Armenian servicemen left the combat position and fled, being unable to kill **R.N. Shiraliyev** for reasons beyond their control.

As a result of the incident, **R.N. Shiraliyev** was diagnosed with “**lacerations to the upper part of the left side of the chest and the inner surface of the right flank**” and was immediately evacuated to the **Military Hospital of the Border Troops in Baku**, where he was provided with medical assistance.

By a **resolution dated 14.10.2021**, the military field tunic and military field vest worn by **R. Shiraliyev** at the time of the incident were recognized as material evidence.

On **24.11.2021**, the material evidence was transferred to **Alovsat Abdullayev**, the responsible officer of the Special Investigations Department of the Military Prosecutor’s Office of the Republic of Azerbaijan.

Volume 260, case file sheets 195–196

According to **forensic medical examination conclusion No. 1204 dated 01.09.2021**, no injuries or traces of trauma were found on the left anterior surface of the chest of **R.N. Shiraliyev**, with the exception of lacerations that damaged the pectoralis major muscle without penetrating the cavity, and on the anterior surface of the right side of the chest, which damaged only the superficial layers of the skin. The said...

Page 421

...injuries resulted from the impact of a cutting object and are classified as minor harm to health.

Volume 261, case file sheets 98–99

According to the **scene inspection report dated 26.08.2021**, the scene of the incident is the territory of the 3rd border combat post of the 8th border outpost of the 3rd Border Commandant's Office, located in the village of **Chayzami, Qubadli District**, of Military Unit No. 2050 of the State Border Service.

Volume 261, case file sheets 10–25

According to the **clothing inspection report dated 26.08.2021**, the tunic of **R.N. Shiraliyev** bore damage and stains resembling blood. The military field-pattern trousers bore damage and stains resembling blood, and the military field-pattern vest bore damage and stains.

Volume 261, case file sheets 49–58

Shiraliyev Ruslan Nariman oglu, questioned as a victim, stated in his testimony that on **25.08.2021**, from **12:00 to 16:00**, he had been assigned to perform guard duty at a combat post located near a forested area in the village of **Chayzami, Qubadli District**. At approximately **15:20**, after hearing rustling from that area and moving in that direction, he noticed a serviceman in the uniform of the Armed Forces of Armenia who was in the forested area at a distance of **29 meters** in the direction of the positions of the Armed Forces of Armenia and was moving from an ambush toward his combat position with an automatic weapon on his shoulder. He moved in that direction, aimed his weapon that way and intended to open fire. Hearing rustling behind him, he turned around and saw another soldier in the uniform of the Armenian armed forces behind him. The latter suddenly attacked him with a knife in his hand, intending to kill him, and stabbed him with the knife in various parts of the body. He resisted the man and began calling for other servicemen, after which the Armenian servicemen left the combat position and fled.

Volume 261, case file sheets 71–77

Questioned as witnesses, **Ahmedov Elchin Mubariz oglu, Iskenderov Afghan Ilgar oglu, Mammadov Vusal Kamaladdin oglu, Sahibov Hasanaga Seyfulla oglu, Salmanli Rovshan Vasif oglu, Tagiyev Tofiq Intizam oglu, Aliyev Rufat Zakir oglu, Ibrahimov Sadik Aydin oglu, Jafarli Mirsayyar Vugar oglu, Ismailzade Niyazi Anar oglu and Iskenderli Iskender Yashar oglu** gave testimony of similar substance and confirmed the testimony of **Shiraliyev Ruslan Nariman oglu**.

Volume 261, case file sheets 135–137, 138–141, 142–145, 146–149, 150–153, 154–156, 157–160, 161–163, 164–167, 168–171, 172–175

The investigation established that on **10 July 2021 at approximately 09:00**, serviceman of Military Unit No. 706, Sergeant **Khalilov Nijat Yalchin oglu**, while dismantling wooden structures in a trench of an Armenian post located in the village of **Alikhanli, Fuzuli District**, pursuant to an order from the command of the military unit, stepped on an anti-personnel mine planted by servicemen of the Armenian armed forces whose identities were not established by the investigation. As a result, he sustained bodily injuries consisting of **“traumatic laceration of the lower third of the left lower leg, extensive damage to muscle tissue, extensive damage to the tissues of the anterior surface of the right lower limb, damage to the soft tissues of the first finger, defects of the soft tissues of the first finger of the right hand, palmar surface and fingers, traumatic-hemorrhagic shock of**

the third degree,” resulting in serious harm to health, and was evacuated to **Military Hospital No. 214.**

On **10.07.2021**, investigator of the Fuzuli Military Prosecutor’s Office **Salimzade Khazar Gumbat oglu** inspected the scene. The scene of the incident is the combat post **“Göyarchin”** of Military Unit No. 706, located in a dug-out trench on flat terrain in the village of **Alikhanli, Fuzuli District**. Immediately to the north of the above-mentioned open area is a military barracks, which had previously...

Page 422

...been used as military barracks, and a shelter attached to the barracks. The barracks is built of sawn stone and covered with slate. The canopy attached to the front wall of the soldiers’ barracks is **5.1 meters long, 2.9 meters wide and 2.2 meters high**. The front part of the canopy is supported by iron posts embedded in the ground, while the other side is attached to the front wall of the soldiers’ barracks. The upper, left, right and front sides of the canopy are covered with corrugated iron. In front of the canopy is an open area leading to the entrance to the shelter. No items, objects, traces or signs relevant to the case were found or seized from the soldiers’ barracks. If one stands facing the soldiers’ barracks, the trench begins on the right side of the barracks, from the right edge of the shelter adjoining the barracks, in the direction of the rear part of the barracks, leading to the firing position.

Volume 264, case file sheets 10–16

Sergeant Khalilov Nijat Yalchin oglu, a member of the machine-gun crew of the **1st anti-tank platoon of the anti-tank battalion of Military Unit No. 706**, questioned as a **victim**, stated in his testimony that on the morning of **10.07.2021**, he, Senior Warrant Officer **Zaur Sadirov**, Sergeant **Arif Zeynalov**, Junior Sergeant **Gadir Rzayev** and Sergeant **Rufat Maharov** decided to find a shorter route in order to transport by truck to the 1st Battalion the wooden structures that they had dismantled and collected the previous day, and for this purpose they moved from the military unit to the upper section of the trench road of communication used by the 2nd Karabakh War. After walking for approximately **10–15 minutes**, they saw another wooden structure inside the trench road of communication and, before reaching that structure, descended into the trench road of communication and lined up with it ahead. The explosion occurred while he was moving along the trench line approximately **3–5 meters** from that structure. After that, he felt severe pain in his right leg, and the servicemen present at that moment provided him with assistance, with whose help he was pulled out onto the road.

Volume 264, case file sheets 91–94

Questioned as witnesses, **Sergeant Zeynalov Arif Hasan oglu**, commander of the 2nd grenadier anti-tank squad of Military Unit No. 706, and **Captain Abdiyev Orkhan Oktay oglu**, commander of the anti-tank battalion of Military Unit No. 706, gave testimony similar to that of Sergeant **Khalilov Nijat Yalchin oglu**.

Volume 264, case file sheets 72–75, 76–79

According to **forensic medical examination conclusion No. 336 dated 10.03.2021**, the bodily injuries sustained by **N.Y. Khalilov** — traumatic laceration of the lower third of the

left lower leg with extensive tissue damage; extensive wounds with tissue damage to the anterior surface of the right lower limb; defects of the soft tissues of the palmar surface of the first finger of the right hand and the other fingers; and traumatic-hemorrhagic shock — resulted from the impact of primary fragments and the blast wave generated by the explosion of a **Grade III explosive substance**, and in terms of severity are classified as serious harm to health.

Volume 264, case file sheet 97

According to **forensic ballistic examination conclusion No. 1/3678 dated 20.10.2021**, the military tunic and military trousers bear damage described in the analytical section of the conclusion. Based on the shape, dimensions and morphological structure of the damage to the military clothing, and the presence on their surfaces of explosive substances (TNT and incompletely burned smokeless powder particles), the said damage is characteristic of having been caused by fragments from an explosion, with the center of the explosion located below and in front. These damages correspond to one another in their localization. Similar damage may also have been caused by fragments from the explosion of an anti-personnel mine.

Page 423

Volume 264, case file sheets 113–114

According to the **resolution dated 11.11.2021 on recognition as material evidence**, the tunic, trousers and one pair of military boots worn by **Sergeant Khalilov N.Y.** at the time of the incident in the criminal case were recognized as material evidence and are kept in the evidence storage room of the Special Investigations Department.

Volume 264, case file sheets 115–116

On **04.09.2021**, servicemen of Military Unit No. 191, **Major Farahim Mekhtiyev** and **Senior Private Vasif Namazov**, together with servicemen of Military Unit No. 343, conducted reconnaissance of roads and terrain at an elevation on **Mount Kongur**, in the direction of the villages of **Chopurlu** and **Lev, Kalbajar District**, pursuant to instructions from the command of the military unit, for the purpose of establishing an appropriate combat position. On that day, at approximately **17:50**, while the area was being cleared of mines by servicemen of Military Unit No. 343, **Senior Private Vasif Namazov**, who was moving along the left-hand side of the road leading to the presumed combat post, stepped on an anti-personnel mine planted by servicemen of the Armed Forces of Armenia whose identities were not established by the investigation.

As a result, he sustained injuries consisting of “**traumatic amputation of the right lower limb at the level of the middle third of the lower leg, accompanied by traumatic-hemorrhagic shock of the II–III degree, multiple blind wounds to the right supraorbital and nasal regions, right cheek, right scapular region, knee and calf**,” resulting in serious harm to health, and was evacuated to **Military Hospital No. 524**.

The report dated **04.09.2021** states that it was not possible to inspect the scene of the incident because the area was mined.

Volume 271, case file sheet 83

Senior Private Namazov Vasif Faig oglu, driver of the 1st platoon of the 1st squad of the engineering-fortification subdivision of Military Unit No. 191, questioned as a victim, stated in his testimony that on **04.09.2021, at approximately 17:50**, an explosion suddenly occurred and he fell to the ground. Approximately **10–15 seconds** later, he felt severe pain in the heel of his right foot, and when he looked at that area, he saw that his right leg had been severely injured as a result of the mine explosion. The servicemen present there then provided him with first aid and evacuated him to **Military Hospital No. 524**. Later, on **06.09.2021**, he was sent to **Military Unit No. 230 in Ganja** for further treatment.

Volume 271, case file sheets 89–93

Questioned as witnesses, **Mammadov Farid Aziz oglu, Yusifov Rovshan Mammad oglu, Mekhtiyev Farahim Urfat oglu, Alizade Aydin Agamoglan oglu and Agayev Khayal Mammad oglu** stated in their testimony that on **04.09.2021**, pursuant to a special order from the higher command, servicemen of Military Units Nos. 191 and 343, including themselves, were instructed to conduct engineering reconnaissance of roads and terrain for the purpose of establishing a combat post on **Mount Kongur**, at an elevation of **3,172 meters**, in the direction of the villages of **Chopurlu and Lev, Kalbajar District**. Their principal tasks there were to conduct mine-search operations in the area and organize the clearance of mines. The territory had been liberated from the Armenian armed forces after the Patriotic War. A former combat post of Armenian servicemen was located there. Approximately **4 meters** from the road leading to the post, four anti-tank mines arranged in a checkerboard pattern were discovered and neutralized.

At approximately **17:50**, an explosion was heard. When they looked toward the place from which the explosion had been heard, they saw black dust rising upward. Since the sound of the explosion was weak, they understood that it was an anti-personnel mine. Upon arriving at the site of the explosion, they saw that **Senior Private Namazov Vasif Faig oglu**, an extended-service serviceman of Military Unit No. 191, was lying on the ground with a severe injury to his right leg. They saw that he had sustained a serious injury to his right leg as a result of the mine explosion. After that...

Page 424

...the servicemen present there provided him with first aid and evacuated him to **Military Hospital No. 524**. No mine-clearance work had previously been carried out in the territory where the explosion occurred, including by their military unit or by the Armed Forces of the Republic of Azerbaijan. No signs of previously cleared terrain were found near the area in question. As a result of the incident, none of the servicemen other than **Namazov Vasif Faig oglu** was injured.

Volume 271, case file sheets 34–38, 40–44, 46–50, 52–56, 58–62

According to **forensic medical examination conclusion No. 706 dated 18.09.2021**, the bodily injuries sustained by **V.F. Namazov** — traumatic amputation of the right lower limb at the level of the middle third of the lower leg, accompanied by traumatic-hemorrhagic shock of the II–III degree; multiple blind wounds to the right supraorbital and nasal regions, right cheek, right intercostal region, knee and calf — are characteristic of the effects of the blast wave generated by the explosion of explosive ordnance and the impact of secondary

fragments resulting from a primary blunt mechanism and, as a rule, are classified as serious harm to health.

Volume 271, case file sheets 127–128

According to **forensic ballistic examination conclusion No. 1/1598 dated 21.10.2021**, based on the detection of traces of explosive substances (TNT) on the surfaces of the trousers, socks and remnants of a sock, as well as on the remnants of the right boot which, as stated, belonged to **Namazov Vasif Faig oglu**, and based on the shape and morphological structure of the damage and the presence of soot stains around it, the said damage is characteristic of cases in which it is caused by fragments from the explosion of an explosive device, including an anti-personnel mine, from a distance close to the center of the explosion, in the proper direction, as well as by the effects of the explosion.

Volume 271, case file sheets 137–140

According to the **resolution dated 15.11.2021 on recognition as material evidence**, since the tunic, trousers, short-sleeved shirt, one pair of socks, scarf, two military waist belts, the left pair of military boots and the remnants of the right pair of military boots are relevant to the criminal prosecution due to their characteristics and features, their origin, the place and time at which they were discovered, as well as the traces of the incident preserved on them, they were recognized as material evidence in the criminal case and transferred for temporary safekeeping to the evidence storage facility of the **Kalbajar Military Prosecutor's Office**.

Volume 271, case file sheets 141–142

On **18.09.2021 at approximately 18:05**, the ceasefire regime was violated by the Armed Forces of Armenia through fire from large-caliber and small-caliber weapons. At that time, soldier **Hasanov Valeh Mali oglu** went to the **“KPVT” position of the “Mil-1” post** in order to suppress machine-gun fire. At that time, shots were fired from large-caliber weapons from the Armenian positions; one of the bullets fired passed through the **“turret” of the “KPVT” position**, and a fragment of the bullet struck soldier **V.G. Hasanov** in the left side of the forehead, wounding him.

According to the **inspection report dated 19.09.2021**, an inspection was conducted at the combat position of Military Unit No. 217 where **Hasanov Valeh Mali oglu** had sustained the injury.

Volume 263, case file sheets 9–18

Victim Hasanov Valeh Mali oglu stated in his testimony that on **18.09.2021 at approximately 18:05**, the ceasefire regime was violated by the Armed Forces of Armenia through fire from large-caliber and small-caliber weapons. At that time, in order to suppress machine-gun fire, shots from large-caliber weapons were fired from the Armenian positions; one of the bullets fired passed through the **“turret” of the “KPVT” position**, and a fragment of the bullet struck him in the left side of the forehead and wounded him.

Volume 263, case file sheets 23–26

Questioned as witnesses, **Aliyev Khagani Arif oglu, Aleskerov Nazir Fariz oglu, Badally Ramal Bakhlul oglu, Mammadov Emin Jamaladdin oglu, Khalildli Rashad Ziyafet oglu, Hasanov Royal Hafiz oglu, Kerimov Kenan Vagif oglu and Abdullayev Peyman Goshgar oglu** gave testimony similar to that of victim **Hasanov Valeh Mali oglu**.

Volume 263, case file sheets 29–32, 34–37, 39–43, 45–48, 61–64, 66–69, 82–85, 86–89

According to **forensic medical examination conclusion No. 215 dated 21.09.2021**, the bodily injury sustained by **V.M. Hasanov** — a blind shrapnel wound to the soft tissues with an entrance opening in the left half of the forehead — is characteristic of the impact of primary or secondary fragments formed as a result of a shot from a firearm and, in terms of severity, is classified as minor harm to health.

Volume 263, case file sheets 72–73

According to the **resolution dated 19.10.2021 on recognition as material evidence**, since one bullet fragment and two metal fragments contained in one envelope were of substantial evidentiary significance to the case, they were recognized as material evidence, attached to the criminal case and transferred for safekeeping to the evidence storage room of the prosecutor's office.

The military helmet seized from the scene was recognized as material evidence in the case and returned to the military unit because it was fit for official use.

Volume 263, case file sheets 95–96

On **29.07.2021 at approximately 07:00**, servicemen of Military Unit No. 181 of the Ministry of Defense — Warrant Officer **Jalilov Nazir Vidadi oglu**, Sergeant **Abbasov Arif Yanvar oglu**, Junior Sergeant **Alizade Yusif Arif oglu**, Privates **Mikanayev Ali Ilham oglu, Gurbanov Vusal Tahir oglu and Heydarzade Mirsaleh Mail oglu** — while travelling on official business to the combat position conventionally designated “**29**”, located approximately **500 meters** away, in a **GAZ-33081** truck with military registration number **D107QQ**, belonging to the 2nd Battalion of the military unit, were fired upon from firearms by representatives of Armenian armed forces whose identities were not established by the investigation while travelling through the territory of the city of **Shusha**, together with Armenian servicemen of the 4th Company of that battalion.

As a result of the shooting, the window of the vehicle on the side where the driver, Warrant Officer **Jalilov Nazir Vidadi oglu**, was sitting was shattered, and the lower and upper parts of the vehicle's right fender and the left side of the front bumper were also damaged.

At that time, Warrant Officer **Nazir Jalilov** opened the door of the moving vehicle and threw himself to the ground, sustaining injuries of undetermined severity, including “**a sprain of the left wrist, bruising of the soft tissues and a laceration of the right knee.**”

On **28 September 2021**, an inspection was conducted of the vehicle, make “**QAZ33081**”, with military registration number **D107QQ**. During the inspection, after the vehicle's engine was started, traces of damage measuring **1 × 1 centimeter** were found on the lower part of the right fender, **1 × 1 centimeter** on the upper part of the right fender, and **2 × 1.8 centimeters** on the bumper. Participant in the proceedings **Nazir Jalilov** stated that these

damages had been sustained as a result of fire opened by servicemen of the Armenian armed forces on **29.07.2021**, and that the vehicle's right side window had been shattered.

Volume 265, case file sheets 7–11

Jalilov Nazir Vidadi oglu, questioned as a victim, stated in his testimony that on **29.07.2021 at approximately 07:00**, approximately **30 meters** from Combat Position No. "29", the vehicle was suddenly fired upon from Armenian armed forces posts. As a result of the shooting, the right side window of the vehicle, that is, the window on the side where he was sitting, was shattered. At that time, he ordered driver **Ali Mikanayev** to immediately move the vehicle into the field, while he himself, for safety reasons while the vehicle was moving, opened the right-hand door and jumped to the ground.

Page 426

At that time, he sustained injuries to his **left wrist, left ankle and right knee**, because his right arm went under the wheel of the moving vehicle as he was jumping out of it. After that, **Ali Mikanayev** drove the vehicle into the field. At that time, he saw that the Armenian armed forces had opened fire approximately **100 meters** from the combat position, but he did not see who exactly was firing.

After that, **Ilkin Nakhmatov** came to assist him, and they shouted, thinking that Armenians might be nearby. At that moment, a soldier unknown to them came out and said that he was an Azerbaijani, a soldier of Military Unit No. **073**, and that his name was **Ganbarli Bahruz Mutallim oglu**. **Bahruz Ganbarli** handed them his automatic weapon and insignia, and when they moved together toward Combat Position No. 29, the Armenian armed forces opened fire again. Fire was opened from Combat Position No. 29 toward the Armenian post, after which, following the return fire, the Armed Forces of Armenia ceased firing.

Volume 265, case file sheets 80–82

Questioned as victims, **Heydarzade Mirsaleh Mail oglu, Alizade Yusif Arif oglu, Mikanayev Ali Ilham oglu, Gurbanov Vusal Tahir oglu and Abbasov Arif Yanvar oglu** confirmed the facts stated by **Jalilov Nazir Vidadi oglu**.

Volume 265, case file sheets 85–87, 90–92, 95–97, 100–102, 105–107

Guliyev Agshin Fazil oglu, who participated in the criminal proceedings on behalf of the military unit as the representative of the injured party, stated in his testimony that, as a result of fire opened by the Armed Forces of Armenia in the direction of the vehicle, a bullet struck the lower and upper parts of the vehicle's right fender and the left part of the bumper, as a result of which those parts of the vehicle were damaged. After the incident, the vehicle's right side window was replaced. The parts of the vehicle damaged by bullets were not repaired because they were of no value.

Volume 265, case file sheets 71–73

Ganbarli Bahruz Mutallim oglu, questioned as a witness, confirmed the circumstances stated by the victims in their testimony.

Volume 265, case file sheets 59–62

According to **forensic medical examination conclusion No. 1094 dated 29.09.2021**, the bodily injuries sustained by **N.V. Jalilov** — a sprain of the ligaments of the left wrist, crushing injury to the soft tissues and an abrasion of the right knee — were caused by trauma from a blunt object. Since these injuries were not life-threatening, their severity was not determined.

Volume 265, case file sheet 30

On **14.10.2021 at 18:15**, during repeated shots from firearms of various calibers, with the intent to deliberately kill two or more persons, fired by members of illegal Armenian armed formations whose identities were not established by the investigation, located in the opposite direction from the combat position conventionally designated **No. 15** of the 2nd Battalion of Military Unit No. 161, situated in the village of **Gulably, Aghdam District**, approximately **400 meters** away and at comparatively higher elevations in the territory of the **Khojavend District, Private Gamzayev Afghan Bakhman oglu**, assistant rifleman-grenade launcher of the 3rd squad of the 1st platoon of the 5th company of the battalion, while entering a tent intended for soldiers to sleep in on the territory of the position, failed to comply with the order issued within the battalion to observe the ceasefire regime and, as a result of fire directed toward the combat position by members of illegal Armenian armed formations whose identities were not established by the investigation, sustained a wound to the head, with the preliminary diagnosis of **“fracture of the skull bones, contusion of the brain and one penetrating gunshot wound to the head accompanied by severe bleeding.”** He died from the injuries sustained while being transported to a medical facility.

According to the **scene inspection report dated 15.10.2021**, when the personnel of the 2nd Battalion and Private **Gamzayev Afghan Bakhman oglu** were in the tent, ...

Page 427

...behind and in front of which metal boxes and stones had been piled, located in the observation sector on the left side of the road leading to Position No. 15 of the 2nd Battalion of Military Unit No. 161 in the village of **Gulabli, Aghdam District**, the latter died from the head injury sustained as a result of fire by Armenian soldiers.

Senior Lieutenant Davud Aliyev, who participated in the inspection, stated that at the time of the incident Private **A. Gamzayev** was sitting on the first level of an additional two-tier bed standing against the right wall of the barracks, and was transmitting information to the battalion's base station via underground communication when he was wounded as a result of fire by Armenian soldiers and fell toward the bed standing against the right wall of the barracks.

During the inspection, a stain resembling blood, measuring **30 × 250 centimeters**, of irregular shape, spreading at a distance of **323 centimeters from the left wall** and **234 centimeters from the rear wall**, was found on the floor of the barracks. On the upper part of the stove, a shiny impact mark was found, **2 centimeters deep, 1.2 centimeters long and 0.4 centimeters wide**, extending **6 centimeters from front to back** and **1.5 centimeters from right to left**. Damage measuring **1 × 0.2 centimeters** was found on the rear wall, at a distance of **155 centimeters from the right wall toward the left wall**, at a height of **109**

centimeters from the floor. On the outer side of the tent, at a height of **190 centimeters from the ground**, damage measuring **0.5 × 0.5 centimeters** was found, extending **91 centimeters from front to back.**

Volume 272, case file sheets 8–20

Gasimov Gyuloglan Rauf oglu, questioned as a witness, stated in his testimony that on **14.10.2021 at approximately 18:00**, he was in the tent installed at the combat position of the 5th Company, conventionally designated **No. 15**. At that time, soldier **Gamzayev Afghan Bakhman oglu** went to fetch water at the position. When he returned, he placed the container of water on the ground and approached the entrance to the tent. When he saw that **A. Gamzayev** was tired and approached him, members of Armenian armed formations located in the eastern part of the position, in the territory of the **Khojavend District**, approximately **370 meters away** and at a comparatively higher elevation, began firing numerous shots from firearms of various calibers toward the combat position where he, Junior Sergeant **Kerimli Sahib Ahmedjan oglu**, Private **Ibrahimkhalilov Ilkin Elshad oglu**, Private **Namazov Mahiraddin Mirza oglu**, **Kerimli Namig Ramin oglu**, and Private **Gamzayev Afghan Bakhman oglu** were located.

At that time, Private **Gamzayev Afghan Bakhman oglu** entered the tent at the position in order to report, via the communication line, to the battalion's base station that the ceasefire regime had been violated by the Armenians. He ordered **I. Ibrahimkhalilov** to enter the tent to assist **A. Gamzayev**. After that, having heard the loud cries of **I. Ibrahimkhalilov**, who had entered the tent, the personnel entered the tent and saw the deceased lying on the ground, motionless, with heavy bleeding from the head. They reported this to the battalion's base station, placed him on a stretcher and evacuated him, and it later became known that **A.B. Gamzayev** had died in the ambulance.

Volume 272, case file sheets 85–87, 173–176

Questioned as victims, **Kerimli Sahib Ahmedjan oglu, Ibrahimkhalilov Ilkin Elshad oglu, Namazov Mahiraddin Mirza oglu and Kerimli Namig Ramin oglu**, as well as witness **Gasimov Gyuloglan Rauf oglu**, gave testimony of the same substance, confirming the above circumstances.

Volume 272, case file sheets 88–90, 91–93, 94–96, 97–99, 152–155, 159–161, 166–169, 180–183

Gamzayev Bakhman Huseyn oglu, questioned as the lawful heir of the victim, stated in his testimony that on **14 October 2021 at approximately 19:00**, his son-in-law **Garapur Shakhruz Eldar oglu** came to the house where he lived and informed him that **Afghan Gamzayev** had been shot in the head. At that time, he did not know that his son had died, and they went to the military unit where **Afghan Gamzayev** was serving. There he learned that, while at the combat position in the village of **Gulabli, Aghdam District**, his son had sustained a head wound as a result of numerous shots fired by Armenian...

Page 428

...armed formations positioned opposite him, and had died as a result. He was buried on **15.10.2021.**

Volume 272, case file sheets 109–111

According to **forensic medical examination conclusion No. 16 dated 14.10.2021**, examination of the body of **A.B. Gamzayev** revealed the following bodily injuries: one wound on the right anterior surface of the forehead — an **entrance gunshot wound**; and one wound in the area of the left temple — an **exit gunshot wound**. Both wounds were inflicted by a firearm loaded with a copper-containing bullet, from a distance outside the effect of additional factors of the shot.

Volume 272, case file sheets 116–120

According to **forensic ballistic examination conclusion No. 3/1789 dated 24.11.2021**, no damage characteristic of bullet wounds sustained from firearm injuries was found on the submitted items of military uniform. Particles of incompletely burned smokeless powder, constituting an additional factor of a shot, were found on the surfaces of the military sweater and military trousers with a waist belt submitted for examination. No incompletely burned smokeless powder particles constituting an additional factor of a shot were found on the surfaces of the sleeveless undershirt, underpants, one pair of military boots and one pair of socks submitted for examination.

Volume 272, case file sheets 137–140

According to the **resolution dated 07.01.2022 on recognition as material evidence**, the sweater, undershirt, trousers, waist belt, underpants, one pair of socks and one pair of military boots belonging to Private **A.B. Gamzayev** were recognized as material evidence and transferred for safekeeping to the evidence storage room of the Special Investigations Department.

Volume 272, case file sheets 141–142

On **13.10.2021 at approximately 14:20**, a motor convoy travelling from the settlement of **Sugovushan, Tartar District**, to the **Kalbajar District** along the **Aghdara–Kalbajar route**, accompanied by the peacekeeping forces of the Russian Federation, approximately **5 kilometers from the village of Kheyvali**, on a hilly and winding section of road in a forested area where vehicles were moving at low speed, was fired upon with firearms from the forest belt by members of Armenian armed formations whose identities were not established by the investigation. The forms **Sugovushan** and **Kheyvali** are attested in English-language sources; the Russian source itself identifies Kheyvali here as being in the Kalbajar District.

As a result, a **NIVA-21214** passenger vehicle with military registration number **M839QQ**, belonging to the Military Police Department of the Barda Garrison and travelling with the convoy, in which were **Junior Sergeant Shabanov Beylyar Etibar oglu**, commander of the automobile platoon of the military police detachment of the Military Police Department of the Barda Garrison, and **Warrant Officer Jabbarzade Jabbar Rasim oglu**, chief instructor of the Military Automobile Inspectorate of that department, **was damaged by three penetrating gunshot wounds**.

On **18 October 2021**, in the city of **Kalbajar**, in front of the administrative building of the Military Prosecutor's Office, trainee investigator of the Kalbajar Military Prosecutor's Office **AbdulRahimli Togrul Natig oglu**, with the participation of prosecutor-criminalist of

the Criminalistics and Information Technologies Department of the Military Prosecutor's Office of the Republic of Azerbaijan, Major of Justice **Zamanly Sabuhi Firudin oglu**, inspected a white **VAZ-21214** vehicle with military registration number **M839QQ**, bearing the inscription "**Military Automobile Inspectorate.**"

Volume 266, case file sheets 55–59

Jabbarzade Jabbar Rasim oglu, questioned as a victim, stated in his testimony that on **13.10.2021 at approximately 13:20**, several shots were fired at the vehicle in which they were travelling from a forested area on a hilly and winding section of road approximately **5 kilometers from the village of Kheyvali, Kalbajar District**. He and the driver, **B. Shabanov**, were startled by the sounds of...

Page 429

...shots, and driver **B. Shabanov** immediately stopped the vehicle at a safe location 10 meters away. They reported the incident to the Russian peacekeepers, who got out of their vehicles and inspected the area. After getting out of the vehicle, he saw that the **left front wheel** of the vehicle had been struck by a bullet and that the tire had deflated. In addition, while inspecting the vehicle, he saw damage caused by two more bullets. The driver then replaced the wheel with a spare one and continued driving. At the time of the incident, he felt that **4–5 shots** had been fired at their vehicle from the forest on the left side. The other vehicles in the convoy were not damaged.

Volume 266, case file sheets 40–44

Questioned as victims, **Shabanov Beyler Etibar oglu, Rustamov Avaz Akif oglu, Israfilov Jabrayil Khanbala oglu and Guliyev Valeh Nadir oglu** gave testimony similar to that of Warrant Officer **Jabbarzade Jabbar Rasim oglu**.

Volume 266, case file sheets 15–18, 19–23, 24–27, 50–54

According to **forensic ballistic examination conclusion No. 1/3863 dated 23.12.2021**, the **NIVA-21214** vehicle with state registration number **M 839 QQ** bears damage in the number and dimensions specified in the analytical section of the conclusion. Despite the absence around the damage of incompletely burned smokeless powder particles and traces of copper metal constituting additional factors of a shot, damage "**a**", "**c**", "**d**", "**g**", "**h**", "**i**" and "**l**" on the vehicle, based on their shape, dimensions and morphological structure, are classified as **entrance defects**; damage "**b**", "**e**" and "**f**" are **exit defects** and are characteristic of the impact of bullets and fragments resulting from **three shots fired from a firearm from a distance of more than 2 meters, travelling from left to right**.

Volume 266, case file sheets 94–96

On **30.09.2021 at approximately 00:30**, Warrant Officer **Huseynov Afar Mahir oglu**, serving in a technical position in the material and technical support platoon of the 1st Battalion of Military Unit No. 161 of the Ministry of Defense, while driving a **KAMAZ-43114** truck with military registration number **D553QQ** in the territory of the village of **Marzili, Aghdam District**, on a supply road, lost control of the truck, drove off the road and struck an anti-tank mine planted by Armenian armed formations.

As a result, the servicemen sustained the following injuries: Warrant Officer **Afar Huseynov** — a “**closed displaced fracture of the left calcaneus and blunt trauma to the chest**”; truck passenger Private **Abdullayev Yusif Shahmali oglu**, who served as a driver in the automobile squad of the material and technical support platoon of the 1st Battalion — “**superficial scratches to the crown of the head and forehead**”; driver of the 1st platoon of the 1st company of the 1st Battalion, Private **Gaziyev Rashad Rahim oglu** — a “**crush-laceration of the sole of the foot accompanied by an open displaced fracture of the left calcaneus**”; Private **Aliyev Adem Nail oglu**, who served as a member of the rifle crew of the 2nd squad of that platoon — a “**laceration of the nose and left armpit**”; and soldier **Ahadov Kenan Bakhul oglu**, who served in that unit as an assistant grenade launcher — “**crush injuries to the left heel, left instep and heel, crushed soft tissues of the right and left shoulder girdle and the left half of the chest.**”

According to the **vehicle inspection report dated 17.11.2021**, the **KAMAZ-43114** vehicle belonged to the 1st Battalion of Military Unit No. 161 of the Ministry of Defense. The military registration number of the truck was **D553QQ**. The truck had been parked at the military unit’s vehicle area. The left side of the truck’s cabin had been deformed by the impact. Head of the vehicle service **Anar Jafarov** presented the truck and stated that it had become unfit for use as a result of striking a mine planted by Armenians. The inspection was then completed. During the inspection, no items or objects of significance to the case were found.

Volume 155, case file sheets 162–166

Page 430

According to **forensic medical examination conclusion No. 1108 dated 02.10.2021**, the bodily injuries sustained by **A.N. Aliyev** — a laceration of the nose and left eyelid — were caused by impact with a blunt object. Since the bodily injuries do not pose a danger to health, their severity is not determined.

Volume 155, case file sheet 115

According to **forensic medical examination conclusion No. 1109 dated 02.10.2021**, the bodily injuries sustained by **K.B. Ahadov** — scratches on the left wrist, left side of the back and right shoulder; crush injuries to the left heel, left instep and crown of the head; and bruising of the soft tissues of the right and left shoulder girdle and the left half of the chest — were caused by the impact of a blunt object, and their severity is not determined because they do not pose a danger to health.

Volume 155, case file sheet 116

According to **forensic medical examination conclusion No. 1110 dated 02.10.2021**, the bodily injuries sustained by **Yu.Sh. Abdullayev** — superficial scratches to the crown of the head and forehead — were inflicted by a blunt object. Since the injuries do not pose a danger to health, their severity is not determined.

Volume 155, case file sheet 117

According to **forensic medical examination conclusion No. 396 dated 03.11.2021**, the bodily injuries sustained by **R.R. Gaziyeu** — superficial abrasions to the crown of the head and forehead — were caused by impact with a blunt object. He declined to undergo examination on the specified date and under the circumstances specified by the investigator, and since the bodily injuries do not pose a danger to health, their severity is not determined.

Volume 155, case file sheet 160

According to **forensic medical examination conclusion No. 397 dated 03.11.2021**, the bodily injury sustained by **A.M. Huseynov** — a closed displaced fracture of the left calcaneus — resulted from the impact of primary fragments and the blast wave generated by the explosion of explosive substances and is classified as **less serious harm to health**.

Volume 155, case file sheet 161

According to **forensic medical examination conclusion No. 3/120 dated 28.02.2022**, it cannot be ruled out that the deformation and visible traces of damage on the **KAMAZ-43114** truck with military registration number **D-553-QQ** were caused by the explosion of an anti-tank mine.

Volume 164, case file sheets 91–93

According to **forensic commodity examination conclusion No. 9/9242 dated 04.02.2022**, the cost of repairing and restoring the **KAMAZ-43114** truck with registration number **D553QQ** is determined as follows:

1. The cost of spare parts, calculated on the basis of the cost of new parts, amounts to **28,188.00 manats**, including **24,188 manats** for spare parts and **4,000 manats** for repair and restoration work.
2. The cost of replacement parts, including depreciation, amounts to **12,182 manats**, including **8,182 manats** for replacement parts and **4,000 manats** for repair and restoration work.

Volume 164, case file sheets 95–98

Major Mammadov Shahmar Khanmirza oglu, a serviceman of Military Unit No. 161 of the Ministry of Defense, questioned as the representative of the victims, stated in his testimony that on the morning of **30.09.2021**, as he later learned, due to rainy weather and the slippery road in the village of **Marzili, Aghdam District**, the **KAMAZ-43114** truck with military registration number **D-553-QQ**, belonging to the 1st Battalion, skidded, the driver lost control, the vehicle left the road and struck an anti-tank mine planted by Armenian soldiers. As a result of the explosion, the vehicle and the persons inside it sustained damage and injuries.

Page 431

Volume 155, case file sheets 175–177

Huseynov Afer Mahir oglu, questioned as a victim, stated in his testimony that, because driver **Yusif Abdullayev** was tired and wanted to sleep, he decided to drive the vehicle

himself and took the wheel. After all the above-mentioned persons got into the vehicle, they headed toward the “**Jeylidag**” road, which was mentioned by police officer **A. Aydinov**, toward the location of the farm. Since the said road had steep ascents and descents, while driving through the hilly terrain and following the course of the road, he lost control due to the rainy weather and muddy road while driving the **KAMAZ-43114** truck with military registration number **D-553-QQ** downhill. At that time, the vehicle left the road approximately **4–5 meters to the left**, onto a level area, and entered mined territory, causing a mine to explode. At that moment, he and Private **Rashad Gaziyeu** sustained minor injuries; the other persons were not seriously injured. After that, because of the consequences of the incident, he did not remember the events that had occurred.

Volume 155, case file sheets 189–194

Abdullayev Yusif Shahmali oğlu, questioned as a victim, stated in his testimony that on **29 September 2021** he went to the specified place to spend the night, and Warrant Officer **Huseynov** took the wheel. After the loading was completed, Private **Ahadov** and Private **Gaziyeu** sat next to him in the rear part of the cabin, Private **Aliyev** sat in the middle, while the police officer sat in the right front seat, and they set off. Since it was raining at the time and the ground was muddy, Sergeant Huseynov’s vehicle skidded. Some time later, he woke up to the sound of a sudden explosion. At first he did not understand what had happened, but then realized that they had struck a mine. At that time, Private **Aliyev** and Private **Ahadov** sustained minor injuries and were able to get out of the cabin on their own. Warrant Officer **Huseynov** sustained an injury to his leg, while Private **Gaziyeu** was also injured. The police officer was not injured. Later, the leadership of the military unit arrived at the scene, and a military ambulance evacuated Private **Gaziyeu** and Warrant Officer **Huseynov** to the military hospital.

...**Abdullayev**, Private **Kenan Ahadov**, Private **Adem Aliyev**, and he himself sustained injuries of varying severity.

Volume 155, case file sheets 207–212

Aliyev Adem Nail oglu, questioned as a victim, gave testimony similar to that of **Abdullayev Yusif Shahmali oglu**, stating that on **30.09.2021 at approximately 00:30**, the **KAMAZ-43114** truck with military registration number **D553QQ**, driven by Warrant Officer **Afar Huseynov**, who served in a technical position in the material and technical support platoon of the 1st Battalion of Military Unit No. 161 of the Ministry of Defense, while travelling along a supply road in the territory of the liberated village of **Marzili, Aghdam District**, left the road after skidding and struck an anti-tank mine planted by Armenian armed formations, as a result of which **Afar Huseynov**, Private **Yusif Abdullayev**, Private **Kenan Ahadov**, Private **Rashad Gaziye**v, and he himself sustained injuries of varying severity.

Volume 155, case file sheets 85–88, 137–142

Volume 164, case file sheets 7–10, 21–23

Eyvazli Farhad Eldar oglu, questioned as a witness on **07.10.2022**, stated in his testimony that on **29 September 2021 at approximately 22:00**, while he was at the base of the 1st Company, Warrant Officer **Afer Huseynov**, driver of the **KAMAZ-43114** vehicle with military registration number **D553QQ**, **Yusif Abdullayev**, and police officer **Aydin Aydinov** arrived at the battalion and informed him that battalion commander **S. Zulfugarov** had sent them and instructed him to assign soldiers from the working group to transport planks. Since **S. Zulfugarov** had previously repeatedly instructed the working group to dismantle and collect the planks, he called soldiers **Rashad Gaziye**v, **Adem Aliyev** and **Kenan Ahadov** and ordered them to go with them. At that time, he believed that police officer **A. Aydinli** was monitoring the territory and ensuring that the logs were not used for other purposes. That night, while on duty, he heard that serviceman Warrant Officer **Afar Huseynov**, in a **KAMAZ-43114** vehicle with military registration number **D-553-QQ**, had struck a mine.

Volume 155, case file sheets 102–104, 143–147

Volume 164, case file sheets 36–40

In the criminal case, **Madatov Elmir Yaver oglu**, **Aslanzade Ruslan Elman oglu** and **Chalabizade Azer Khayyam oglu** gave testimony of the same substance and confirmed the statement of **Eyvazli Farhad Eldar oglu**.

Volume 164, case file sheets 24–27, 28–31, 32–35

A group of servicemen of **Military Unit No. 082 of the Ministry of Defense**, while performing combat duty at combat positions in the area of **Lake Garagol**, located in the **Lachin District**, during the night of **19–20 May 2021**, at approximately **01:00**, were

confronted with an attempt by servicemen of the Armed Forces of Armenia to infiltrate and seize a position of the Armed Forces of the Republic of Azerbaijan, in violation of the state border.

At that time, when the servicemen of the Armed Forces of the Republic of Azerbaijan attempted to resolve the matter peacefully, the opposing side, relying on its numerical superiority, ignored the demand to retreat and used rifle butts, pieces of wood and other objects against the Azerbaijani servicemen present there.

As a result, the following servicemen of Military Unit No. 082 were injured: **Major Tagiyev Vusal Musa oğlu; Senior Lieutenant Najafov Zahid Abdulla oğlu; Senior Lieutenant Abdullazade Abdulla Abutalyb oğlu; Senior Lieutenant Sultanli Kamran Firudin oğlu; Senior Lieutenant Huseynov Kamran Namiz oğlu; Senior Lieutenant Kazimli Shamsi Khalid oğlu; Senior Lieutenant Akhundov Azad Azer oğlu; Senior Lieutenant Keroglyyev Tural Javanshir oğlu; Senior Lieutenant Jahangirov Hidayat Farhad oğlu; Senior Warrant Officer Gasimov Nuran Sabir oğlu; Senior Warrant Officer Ibrahimov Alimukhtar Gyulaga oğlu; Warrant Officer Shahpalanov Anar...**

Page 433

...Elshad oğlu; Warrant Officer Babirli Asif Oktay oğlu; Warrant Officer Hajimammadov Shirkhan Shokhrat oğlu; Warrant Officer Orujzade Kamandar Sarkhan oğlu; Warrant Officer Aliyev Panah Khaleddin oğlu; Warrant Officer Guliyev Vusal Vugar oğlu; Warrant Officer Kerimov Royal Bakhtiyar oğlu; Junior Warrant Officer Allahverdiyev Elmin Tahir oğlu; Junior Warrant Officer Mammadov Samir Sanan oğlu; Junior Warrant Officer Salimov Elvin Islam oğlu; Junior Warrant Officer Hasanli Umud Gachay oğlu; Junior Warrant Officer Beylarov Asker Ali oğlu; Junior Warrant Officer Abdullazade Khasrat Elshan oğlu; Junior Warrant Officer Huseynzade Zakariya Akif oğlu; Junior Warrant Officer Chelyabiyev Sardar Shukur oğlu; extended-service servicemen Private Mammadov Mustafa Imran oğlu, Private Sariyev Kenan Araz oğlu, Private Ankbazov Abdulla Ramazan oğlu, Private Ahmedov Samir Elshan oğlu, Private Muradov Elvin Vagif oğlu, and Junior Sergeant Heydarov Orkhan Zeynal oğlu sustained various serious bodily injuries.

Tagiyev Vusal Musa oğlu, questioned as a victim, stated in his statement dated **01.03.2022** that on **19.05.2021, at approximately 22:00**, Armenian servicemen, in a group numbering **150–200 persons**, illegally crossed the state border of the Republic of Azerbaijan and attempted to forcibly seize their positions. At that time, while the dispute with the Armenian servicemen continued, additional vehicles and servicemen arrived to assist the Armenians. Relying on their significant numerical superiority over the Azerbaijani soldiers, they attempted to advance further, and one Armenian soldier struck an Azerbaijani soldier in the face with the butt of an automatic weapon.

After that, **300–400 Armenian servicemen and civilians** surrounded the Azerbaijani servicemen, attacked them and inflicted injuries on them with the butts and barrels of their weapons. Despite all this, the Azerbaijani servicemen did not open fire, did not use weapons and, despite the numerical superiority of the opposing side, managed to force the Armenian armed formations to withdraw. During the incident, he sustained injuries to his head and both arms, and at the same time, as a result of violence by the Armenian armed formations, another **31 officers, warrant officers and soldiers** sustained injuries.

Questioned as victims, **Senior Lieutenant Najafov Zahid Abdulla oğlu, Senior Lieutenant Abdullazade Abdulla Abutalyb oğlu, Senior Lieutenant Sultanli Kamran Firudin oğlu, Senior Lieutenant Huseynov Kamran Namiz oğlu, Senior Lieutenant Kazimli Shamsi Khalid oğlu, Senior Lieutenant Akhundov Azad Azer oğlu, Senior Lieutenant Koroglyyev Tural Javanshir oğlu, Senior Lieutenant Jahangirov Hidayat Farhad oğlu, Senior Warrant Officer Gasimov Nuran Sabir oğlu, Senior Warrant Officer Ibrahimov Alimukhtar Gyulaga oğlu, Warrant Officer Shahpalanov Anar Elshad oğlu, Warrant Officer Babirli Asif Oktay oğlu, Warrant Officer Hajimammadov Shirkhan Shokhrat oğlu, Warrant Officer Orujzade Kamandar Sarkhan oğlu, Warrant Officer Aliyev Panah Khaleddin oğlu, Warrant Officer Guliyev Vusal Vugar oğlu, Warrant Officer Kerimov Royal Bakhtiyar oğlu, Junior Warrant Officer Allahverdiyev Elmin Tahir oğlu, Junior Warrant Officer Mammadov Samir Sanan oğlu, Junior Warrant Officer Salimov Elvin Islam oğlu, Junior Warrant Officer Hasanli Umud Gachay oğlu, Junior Warrant Officer Beylarov Asker Ali oğlu, Junior Warrant Officer Abdullazade Khasrat Elshan oğlu, Junior Warrant Officer Huseynzade Zakariya Akif oğlu, Junior Warrant Officer Chelyabiyev Sardar Shukur oğlu, extended-service servicemen Private Mammadov Mustafa Imran oğlu, Private Sariyev Kenan Araz oğlu, Private Ankbazov Abdulla Ramazan oğlu, Private Ahmedov Samir Elshan oğlu, Private Muradov Elvin Vagif oğlu, and Junior Sergeant Heydarov Orkhan Zeynal oğlu, in their testimony, confirmed the circumstances stated by victim **Tagiyev Vusal Musa oğlu.****

Volume 167, case file sheets 4–9, 14–19, 24–29, 34–39, 44–49, 54–59, 64–69, 74–79, 84–89, 93–98, 103–108, 121–126, 131–136, 141–146, 151–156, 161–166, 171–176, 181–186, 190–195, 199–204, 212–217, 218–222, 224–228, 230–234, 236–240, 241–245

According to **forensic medical examination conclusion No. 930 dated 23.06.2021, Muradov Elvin Vagif oğlu** sustained a laceration to the left frontal half of the head, a closed craniocerebral injury accompanied by concussion, a laceration to the back of the nose with bruising, as well as lacerations to the first and second fingers of the left hand resulting in scar formation, caused by impact with a hard blunt object. It cannot be ruled out that these injuries were sustained on **20.05.2021** under the circumstances set out above. They are classified as minor harm to health resulting in a short-term health disorder.

Volume 156, case file sheet 230

According to **forensic medical examination conclusion No. 931 dated 23.06.2021, Ahmedov Samir Elshan oğlu** sustained a crush laceration to the back of the head and a crush laceration to the fifth finger of the right hand, resulting in crushing and scarring of the soft tissues in the occipital region, caused by impact with a hard blunt object. It is undisputed that these injuries were sustained on **20.05.2021** under the circumstances set out above. Since they did not cause harm to health, their severity is not determined.

Volume 156, case file sheet 231

According to **forensic medical examination conclusion No. 932 dated 23.06.2021, Ankbazov Abdulla Ramazan oglu** sustained bruising of the soft tissues of the right and occipital parts of the head, as well as a laceration to the right cheek with pigmentation, as a result of impact with a hard blunt object. It is undisputed that these injuries were sustained on **20.05.2021**. Since they did not cause harm to health, their severity is not determined.

Volume 156, case file sheet 232

According to **forensic medical examination conclusion No. 947 dated 29.06.2021, Hasanli Umud Gachay oglu** sustained bruising of the soft tissues of the back of the head, a laceration resulting in pigmentation of the left eyelid, and bruising of the third finger of the right hand; all of these injuries were caused by impact with a hard blunt object. It is undisputed that they were sustained on **20.05.2021**. Since they did not cause harm to health, their severity is not determined.

Volume 156, case file sheet 233

According to **forensic medical examination conclusion No. 949 dated 29.06.2021, Abdullazade Khasrat Elshan oglu** sustained bruising of the soft tissues in the crown of the head as a result of impact with a hard blunt object. It is undisputed that the injury was sustained on **20.05.2021**. Since it did not cause harm to health, its severity is not determined.

Volume 156, case file sheet 239

According to **forensic medical examination conclusion No. 950 dated 29.06.2021**, the soft tissues in the crown of the head of **Beylarov Asker Ali oglu** were crushed as a result of impact with a hard blunt object. It is undisputed that the injury was sustained on **20.05.2021**. Since it did not cause harm to health, its severity is not determined.

Volume 156, case file sheet 240

According to **forensic medical examination conclusion No. 952 dated 29.06.2021**, as a result of impact with a hard blunt object, **Koroglyyev Tural Javanshir oglu** sustained a hematoma with a laceration to the middle third of the left arm, resulting in pigmentation, and a crush laceration to the left shoulder with scar formation. It is undisputed that these injuries were sustained on **20.05.2021**. Since they did not cause harm to health, their severity is not determined.

Volume 156, case file sheet 241

Page 435

According to **forensic medical examination conclusion No. 1014 dated 09.07.2021, Allahverdiyev Elmin Tahir oglu** sustained bruising of the soft tissues of the occipital region caused by impact with a hard blunt object. It is undisputed that the injury was sustained on **20.05.2021**. Since it did not cause harm to health, its severity is not determined.

Volume 156, case file sheet 242

According to **forensic medical examination conclusion No. 1015 dated 09.07.2021, Aliyev Panah Khaleddin oglu**sustained crushing of the soft tissues of the occipital region of the head as a result of impact with a hard blunt object. It is undisputed that the injury was sustained on **20.05.2021**. Since it did not cause harm to health, its severity is not determined.

Volume 156, case file sheet 243

According to **forensic medical examination conclusion No. 1016 dated 09.07.2021, Salimov Elvin Islam oglu**sustained bruising of the soft tissues of the occipital region and a hematoma in the area of the left thigh as a result of impact with a hard blunt object. It is undisputed that the injuries were sustained on **20.05.2021**. Since they did not cause harm to health, their severity is not determined.

Volume 156, case file sheet 244

According to **forensic medical examination conclusion No. 1017 dated 09.07.2021, Huseynzade Zakariya Akif oglu**sustained bruising of the soft tissues of the occipital region and a hematoma in the area of the right shoulder as a result of impact with a hard blunt object. It is undisputed that the injuries were sustained on **20.05.2021**. Since they did not cause harm to health, their severity is not determined.

Volume 156, case file sheet 245

According to **forensic medical examination conclusion No. 1018 dated 09.07.2021, Mammadov Samir Sanan oglu**sustained bruising of the soft tissues of the occipital region as a result of impact with a hard blunt object. It is undisputed that the injury was sustained on **20.05.2021**. Since it did not cause harm to health, its severity is not determined.

Volume 156, case file sheet 246

According to **forensic medical examination conclusion No. 1019 dated 09.07.2021, Mammadov Mustafa Imran oglu**sustained a bruised injury to the soft tissues of the occipital region and a bruised wound to the back as a result of impact with a hard blunt object. It is undisputed that the injuries were sustained on **20.05.2021**. Since they did not cause harm to health, their severity is not determined.

Volume 156, case file sheet 247

According to **forensic medical examination conclusion No. 1020 dated 09.07.2021, Sariyev Kenan Araz oglu**sustained bruising of the soft tissues of the occipital region and a bruised wound to the left upper limb as a result of impact with a hard blunt object. It is undisputed that the injuries were sustained on **20.05.2021**. Since they did not cause harm to health, their severity is not determined.

Volume 156, case file sheet 248

According to **forensic medical examination conclusion No. 1023 dated 12.07.2021, Tagiyev Vusal Musa oglu**sustained bruising of the soft tissues of the occipital region and hematomas of the shoulder region of the left arm and the elbow of the right arm,

caused by impact with a hard blunt object. It is undisputed that the injuries were sustained on **20.05.2021**. Since they did not cause harm to health, their severity is not determined.

Volume 156, case file sheet 249

According to **forensic medical examination conclusion No. 1041 dated 16.07.2021, Gasimov Nuran Sabir oglu** sustained a closed traumatic brain injury, a displaced intra-articular fracture of the fibula, as well as closed blunt trauma to the right knee joint accompanied by hemorrhage into the knee joint as a result of impact with a hard blunt object. It is undisputed that these injuries were...

Page 436

...sustained on **20.05.2021**. Since they did not cause harm to health, their severity is not determined.

Volume 156, case file sheet 250

According to **forensic medical examination conclusion No. 970 dated 01.07.2021, Abdullazade Abdulla Abutalyb oglu** sustained a closed traumatic brain injury accompanied by concussion and crushing of the soft tissues of the occipital region of the head as a result of impact with a hard blunt object. It is undisputed that the injuries were sustained on **20.05.2021**. Since they did not cause harm to health, their severity is not determined.

Volume 156, case file sheets 253–254

According to **forensic medical examination conclusion No. 1468 dated 03.11.2021, Babirli Asif Oktay oglu** sustained an injury to the soft tissues of the occipital region caused by a hard blunt object. It is undisputed that the injury was sustained on **20.05.2021**. Since it did not cause harm to health, its severity is not determined.

Volume 152, case file sheet 121

According to **forensic medical examination conclusion No. 1519 dated 16.11.2021, Jahangirov Hidayat Farhad oglu** sustained bruising of the soft tissues of the occipital region, a hematoma of the right knee, and a bruised wound to the back, caused by impact with a hard blunt object. It is undisputed that the injuries were sustained on **20.05.2021**. They are classified as minor harm to health.

Volume 152, case file sheet 125

According to **forensic medical examination conclusion No. 1520 dated 16.11.2021, Shahpalanov Anar Elshad oglu** sustained bruising of the soft tissues of the occipital region and a hematoma of the lower third of the left leg as a result of impact with a hard blunt object. It is undisputed that the injuries were sustained on **20.05.2021**. They are classified as minor harm to health.

Volume 152, case file sheet 126

According to **forensic medical examination conclusion No. 1512 dated 15.11.2021, Kazimli Shamsi Khalid oglu** sustained bruising of the soft tissues of the occipital region caused by impact with a hard blunt object. It is undisputed that the injury was sustained on **20.05.2021**. Since it did not cause harm to health, its severity is not determined.

Volume 152, case file sheet 130

According to **forensic medical examination conclusion No. 1511 dated 15.11.2021, Najafov Zahid Abdulla oglu** sustained bruising of the soft tissues of the occipital region caused by impact with a hard blunt object. It is undisputed that the injury was sustained on **20.05.2021**. Since it did not cause harm to health, its severity is not determined.

Volume 152, case file sheet 132

According to **forensic medical examination conclusion No. 1523 dated 16.11.2021, Kerimov Royal Bakhtiyar oglu** sustained bruising of the soft tissues of the occipital region caused by impact with a hard blunt object. It is undisputed that the injury was sustained on **20.05.2021**. Since it did not cause harm to health, its severity is not determined.

Volume 152, case file sheet 134

According to **forensic medical examination conclusion No. 1522 dated 16.11.2021, Ibrahimov Alimukhtar Gyulaga oglu** sustained a closed traumatic brain injury and concussion as a result of impact with a hard blunt object. It is undisputed that the injuries were sustained on **20.05.2021**. They are classified as minor harm to health.

Volume 152, case file sheet 136

According to **forensic medical examination conclusion No. 1516 dated 15.11.2021, Hajimammadov Shirkhan Shokhrat oglu** sustained a bruised wound to the occipital region and...

Page 437

...crushing of the soft tissues in the occipital region caused by impact with a hard blunt object. It is undisputed that the injuries were sustained on **20.05.2021**. Since they did not cause harm to health, their severity is not determined.

Volume 152, case file sheet 138

According to **forensic medical examination conclusion No. 1515 dated 15.11.2021, Chelyabiyev Sardar Shukur oglu** sustained bruising of the soft tissues of the occipital region caused by impact with a hard blunt object. It is undisputed that the injury was sustained on **20.05.2021**. Since it did not cause harm to health, its severity is not determined.

Volume 152, case file sheet 140

According to **forensic medical examination conclusion No. 1514 dated 15.11.2021, Akhundov Azad Azer oglu** sustained bruising of the soft tissues of the occipital

region caused by impact with a hard blunt object. It is undisputed that the injury was sustained on **20.05.2021**. Since it did not cause harm to health, its severity is not determined.

Volume 152, case file sheet 142

According to **forensic medical examination conclusion No. 1513 dated 15.11.2021**, **Huseynov Kamran Namiz oglu** sustained a hematoma in the area of the right knee, as well as bruising of the soft tissues of the right ear and the occipital region as a result of impact with a hard blunt object. It is undisputed that the injuries were sustained on **20.05.2021**. They are classified as minor harm to health.

Volume 152, case file sheet 144

According to **forensic medical examination conclusion No. 1525 dated 16.11.2021**, **Guliyev Vusal Vugar oglu** sustained a bruised wound to the back and bruising of the soft tissues of the occipital region as a result of impact with a hard blunt object. It is undisputed that the injuries were sustained on **20.05.2021**. Since they did not cause harm to health, their severity is not determined.

Volume 152, case file sheet 146

According to **forensic medical examination conclusion No. 1524 dated 16.11.2021**, **Heydarov Orkhan Zeynal oglu** sustained a hematoma in the area of the thigh and calf of the left leg as a result of impact with a hard blunt object. It is undisputed that the injuries were sustained on **20.05.2021**. They are classified as minor harm to health.

Volume 152, case file sheet 148

According to **forensic medical examination conclusion No. 123 dated 27.01.2022**, Warrant Officer **Orujzade Kamandar Sarkhan oglu** sustained a closed craniocerebral injury, craniocerebral trauma and concussion as a result of impact with a hard blunt object. It is undisputed that the injuries were sustained on **20.05.2021**. They are classified as minor harm to health.

Volume 167, case file sheet 117

On **16 November 2021 at approximately 11:00**, servicemen of the Armed Forces of Armenia blocked the supply routes to combat positions located in the so-called **“4th District” of the Lachin District** of the Ministry of Defense in order to seize **Position No. 42** and other combat positions in that area, with the intent to deliberately kill servicemen of the Armed Forces performing duty there, motivated by national hatred and hostility, and until **18:45** that same day conducted an offensive operation using firearms of various calibers and artillery.

While repelling the Armenian attack, servicemen of **Military Unit No. 769 of the Ministry of Defense**, who were serving in that area, sustained the following casualties: Lieutenant **Niftaliyev Umud Oruj oglu** and Warrant Officer **Jabbarov Orkhan Gatam oglu** died on the battlefield from serious injuries; extended-service serviceman Junior Sergeant **Aliyev Elchin Rovshan oglu** sustained a **“penetrating gunshot wound to the right thigh, shrapnel wounds to the shoulder, lower back and abdomen”**; Junior

Sergeant **Jahangirov Vugar Jahangir oğlu** sustained a “shrapnel wound to the facial region of the head and the right...

Page 438

...half of the chest”; Private **Ibrahimov Habil Yagub oğlu** sustained an “explosive injury”; active-duty serviceman Private **Mammadov Amil Vahid oğlu** sustained a “closed craniocerebral injury”; Private **Guliyev Murad Agagul oğlu** sustained a “shrapnel wound to the head and side”; **Kerimli Nurlan Mirsamed oğlu** sustained an “explosive injury, barotrauma, closed craniocerebral injury”; Junior Sergeant **Mirzayev Ragib Teyub oğlu** sustained an “explosive injury, barotrauma, shrapnel wound to the anterior abdominal wall”; Senior Lieutenant **Shabanly Hamid Zahid oğlu**, **Huseynov Royal Tayyar oğlu**, and Private **Amirov Nadir Azer oğlu** sustained shrapnel wounds to various parts of the body.

Among the servicemen of **Military Unit No. 157**, active-duty Privates **Agayev Elchin Marifat oğlu** and **Khalilov Murad Galib oğlu** died on the battlefield; Lieutenant **Aliguliyev Etibar Yasin oğlu** sustained a “shrapnel wound penetrating the ankle of the right leg”; Medical Service Lieutenant **Jafarov Muzaffar Eldar oğlu** sustained a “gunshot wound penetrating the patella of the right leg”; Private **Gyulbaliyev Murad Bakhtiyar oğlu** sustained a “craniocerebral injury”; Private **Hasanov Eltaj Bayram oğlu** sustained a “shrapnel wound to both legs”; **Mammadzade Ali Elnur oğlu** sustained a “gunshot wound to the leg”; Junior Sergeant **Jafarov Ramin Zokhrab oğlu** sustained an “explosive injury, barotrauma, closed craniocerebral injury”; Captain **Hasanov Gafur Jamaladdin oğlu** and Private **Nagiyev Murad Tahir oğlu** sustained shrapnel wounds to various parts of the body.

Also, Junior Warrant Officer **Hasanov Elchin Zaur oğlu**, a serviceman of **Military Unit No. 073**, sustained a “craniocerebral injury”; Private **Farzaliyev Sanan Famil oğlu** sustained a “shrapnel wound to the left arm and head region”; Private **Takhmazov Ravan Vilayat oğlu** sustained “shrapnel wounds to the right lower leg, left knee, both upper extremities, head and face”; Private **Shakhverdiyev Rahim Sadraddin oğlu** sustained a “shrapnel wound to the ring finger of the right hand”; Private **Mehdizade Huseyn Rovshan oğlu** sustained a “craniocerebral injury”; Junior Warrant Officer **Kazimov Kamran Eyvaz oğlu**, Private **Aliyev Hasan Ibrahim oğlu**, and Junior Warrant Officer **Guliyev Gulu Isakhan oğlu** sustained “shrapnel wounds to various parts of the body.”

Among the servicemen of **Military Unit No. 704**, Privates **Aliyev Elchin Ramil oğlu** and **Alizade Elmin Samir oğlu** died on the battlefield; Senior Lieutenant **Abbasov Sakhavat Yagub oğlu** sustained a “shrapnel wound to the left arm and left wrist”; Warrant Officer **Nuriyev Natig Abdulla oğlu** sustained a “shrapnel wound in the area of the heart”; Private **Takharov Samir Rasil oğlu** sustained a “shrapnel wound in the shoulder area”; Private **Tagiyev Eljan Elman oğlu** sustained a “gunshot wound to the knee and lower leg of the left leg”; Private **Yusifov Habil Habil oğlu** sustained a “shrapnel wound to the lower limb”; Private **Huseynov Oruj Nabi oğlu** sustained a “shrapnel wound to a toe of the right foot and the right rib.”

Among the servicemen of **Military Unit No. 701**, Senior Lieutenant **Khalilov Tural Nariman oğlu** sustained a “craniocerebral injury”; Junior Warrant Officer **Mamizade Tabriz Isa oğlu** sustained a “gunshot wound to the right lower leg”; Private **Abdullayev**

Hikmet Elman oglu sustained a “shrapnel wound in the area of the left knee and in the area of a finger of the right hand”; Private **Aliyev Sakhavat Rizvan oglu** sustained a “shrapnel wound to the right hand”; Private **Teyubzade Roman Ramiz oglu** sustained a “shrapnel wound to the left arm and face”; Sergeant **Adygezalov Iskender Nizami oglu** sustained a “shrapnel wound to the right knee and the rear part of the right shoulder”; Private **Gadirov Elsever Elkhan oglu** sustained a “craniocerebral injury and sprain of the ligaments of the leg”; Junior Sergeant **Alizade Namig Natig oglu** sustained a “craniocerebral injury”; **Teyubly Kenan Ramiz oglu** sustained an “explosive injury, laceration of the left side with a large soft-tissue defect, accompanied by injury to the left ulnar artery”; Warrant Officer **Mahmudov Eldeniz Abil oglu** sustained an “explosive injury, barotrauma, closed craniocerebral injury”; Privates **Mammadli Elgun Nazim oglu** and **Akhundov Mazakhir Alim oglu** sustained shrapnel wounds to various parts of the body.

Serviceman of **Military Unit No. 888, Sadygov Merkez Jahid oglu**, sustained a “craniocerebral injury”; serviceman of **Military Unit No. 058, Aslanov Aslan Shahuseyn oglu**, sustained a “blind shrapnel wound to the outer third of the right thigh”; and Junior Sergeant...

Page 439

Alyshanov Elmar Eldar oglu sustained an “explosive injury, blind shrapnel wound to the soft tissues of the right shoulder.” They survived because they were immediately evacuated to a medical facility and most of them received timely medical assistance.

As a result of the incident, **two armored personnel carriers (APCs) of Military Unit No. 769 were burned; one armored personnel carrier and one SandCat vehicle were damaged; and one KAMAZ truck belonging to Military Unit No. 052 was burned.**

Thus, during the offensive operation carried out by servicemen of the Armed Forces of Armenia using firearms of various calibers and artillery, with the purpose of seizing combat positions in the so-called “**4th District**” of the **Lachin District** of the Ministry of Defense, with the intent to deliberately kill the servicemen performing duty there and motivated by national hatred and enmity, six servicemen of our Armed Forces serving in that area were deliberately killed, and attempts were also made to deliberately kill other servicemen.

According to the **inspection report of items and objects dated 18.11.2021**, the following items worn on the body of **Niftaliyev Umud Oruj oglu** were inspected: military-pattern field trousers, soldiers’ trousers, light-gray thermal undertrousers and black underpants, two military field jackets, a camouflage military field tunic, a beige military field uniform with long sleeves, a thermal undershirt, a light-gray long-sleeved undershirt, a thermal undershirt, a black undershirt, one pair of black high military boots, one pair of black high socks, one pair of black gloves, a name badge, a shoulder belt, two A4 sheets bearing the inscription “**Certificate No. 933**,” one A4 sheet bearing the inscription “**Certificate**,” one A4 sheet bearing the names and numbers of various persons, one A4 sheet bearing the names and ranks of the mechanized division and various persons, one A4 sheet bearing the ranks, names and mobile telephone numbers of various persons, two **50-manat** banknotes, four **20-AZN** banknotes, one **10-AZN** banknote, one **5-AZN** banknote, one **0.5-AZN** coin, two **0.2-AZN** coins, two **0.1-AZN** coins, personal identification document No. **MN [REDACTED]** belonging to **Umud Niftaliyev**, one birth certificate, a handkerchief, a black wallet, three photographs

measuring 3 × 4 cm, one identity document with serial number **AZE No.** [REDACTED] belonging to **Umud Niftaliyev**, a black wristwatch, a black plastic comb, four red tablets, a pen, two sets of keys, one plastic card bearing the inscription “**BakuKart**,” three Kapital Bank plastic cards bearing the inscription “**UMUD NIFTALIYEV**,” and a card of the International Bank of Azerbaijan bearing the inscription “**UMUD NIFTALIYEV**.”

Volume 158, case file sheets 204–216

According to the **inspection report of items and objects dated 18.11.2021**, the following items worn on the body of **Alizade Elmin Samir oglu** were inspected: military-style field trousers, beige thermal undertrousers, a military-style jacket, one beige thermal long-sleeved undershirt, a military field tunic, one beige military field uniform, a thermal long-sleeved undershirt, one black thermal long-sleeved undershirt, one pair of black high army boots, one pair of black high socks, a woolen hat, and a military-style scarf.

Volume 159, case file sheet 72

According to **forensic medical examination conclusion No. 864 dated 17.11.2021**, the bodily injury sustained by **Takharov Samir Rasil oglu** — a blind wound to the soft tissues of the left shoulder girdle, accompanied by temporary impairment of the function of the left upper limb, caused by the impact of fragments formed as a result of the explosion of a projectile — is classified, in terms of severity, as **less serious harm to health**.

Volume 168, case file sheets 4–5

According to **forensic medical examination conclusion No. 49 dated 17.11.2021**, the bodily injuries found on the body of **Niftaliyev Umud Oruj oglu** — **three blind penetrating wounds into the cranial cavity, accompanied by multiple open fractures of the bones of the skull, skull base and facial skeleton, diffuse...**

Page 441

...contusion of the brain tissue and collapse of both eyeballs; a blind wound to the posterior surface of the left shoulder girdle, accompanied by multiple open fractures of the scapula; an incomplete traumatic avulsion of the left upper limb at the level of the upper third of its base, with the limb hanging by a flap of skin; blind wounds to the posterior surfaces of the third, fourth and fifth fingers of the left hand and the fifth finger of the right hand, accompanied by

comminuted open fractures of the bones of the proximal phalanges; complete traumatic amputation of the fourth finger of the left hand at the level of the distal phalanx; multiple blind wounds to the nose, both cheekbones, the lower and upper lips, the anterior surface of the chest, the right shoulder region, the left half of the anterior abdominal wall, the left hand, the anterior surfaces of both thighs, the soft tissues of the outer surface of the left thigh, both knees and the right lower leg, as well as the palmar surfaces of both hands; thermal burns to the face, left shoulder and lower back — are characteristic of the effects of flame, the blast wave, and secondary fragments of primary and blunt mechanisms resulting from the explosion of a firearm projectile. Overall, in terms of severity, they constitute injuries causing serious harm to health and resulted in death. The immediate cause of death was diffuse damage to the brain tissue.

Volume 168, case file sheets 7–10

According to **forensic medical examination conclusion No. 51 dated 17.11.2021**, the bodily injuries found on the body of **Agayev Elchin Marifat oglu** — blunt open fractures of the skull and skull base; a penetrating wound to the head accompanied by diffuse damage to the brain tissue; a blind wound to the posterior surface of the neck accompanied by a comminuted open fracture of the body of the third cervical vertebra; a blind penetrating wound into the thoracic cavity on the anterior surface of the right half of the chest accompanied by damage to the right lung and clavicle and open fractures of the first, second, third and fourth ribs; and a non-penetrating blind wound to the soft tissues of the left shoulder — are characteristic of the effects of the blast wave generated by the explosion of a firearm projectile, as well as of secondary fragments resulting from a primary and blunt mechanism. Overall, in terms of severity, they constitute injuries causing serious harm to health and resulted in death. The immediate cause of death was diffuse damage to the brain tissue resulting from the penetrating shrapnel wound to the head.

Volume 168, case file sheets 12–15

According to **forensic medical examination conclusion No. 52 dated 17.11.2021**, the bodily injuries found on the body of **Jabbarov Orkhan Gatam oglu** — three blind penetrating wounds to the cranial cavity accompanied by shrapnel wounds, open fractures of the skull and facial skeleton, and diffuse damage to the brain tissue; a blind wound to the right shoulder penetrating into the thoracic cavity; multiple blind wounds to the soft tissues of the right side of the back, right shoulder, left thigh, left knee and right lower leg; and a thermal burn to the left shoulder — are characteristic of the effects of flame, the blast wave and secondary fragments of primary and blunt mechanisms resulting from the explosion of a firearm projectile. Overall, in terms of severity, they constitute injuries causing serious harm to health and resulted in death. The cause of death was diffuse damage to the brain tissue resulting from shrapnel wounds penetrating the cranial cavity.

Volume 168, case file sheets 17–20

According to **forensic medical examination conclusion No. 53 dated 17.11.2021**, the bodily injuries found on the body of **Alizade Elmin Samir oglu** — comminuted open fractures of the skull and facial skeleton along the course of the wound channel, with an entrance opening in the occipital region and an exit opening in the area of the right cheekbone, constituting a penetrating wound to the head accompanied by diffuse damage to

the brain tissue, characteristic of a gunshot wound and life-threatening, and in terms of severity causing serious harm to health, and at the present...

Page 442

...time resulting in death. During examination of the body, superficial wounds measuring **1.5 × 1 cm** on the anterior surface of the right knee joint and **2 × 0.4 cm** on the anterior surface of the upper third of the left lower leg, with uneven edges and a moist reddish-pink surface, were found. These injuries were caused by the impact of a hard blunt object, are vital injuries characteristic of having occurred shortly before death, and their severity was not determined because they do not cause a health disorder in living persons and have no causal relationship with the death. The cause of death was diffuse damage to the brain tissue resulting from a penetrating gunshot wound to the head.

Volume 168, case file sheets 22–25

According to **forensic medical examination conclusion No. 54 dated 17.11.2021**, the bodily injuries found on the body of **Khalilov Murad Galib oglu** — multiple open fractures of the left scapula and the ninth rib; injuries penetrating the organs of the thoracic and abdominal cavities; two blind wounds penetrating the cavity of the left lateral wall of the chest, accompanied by acute bleeding; one penetrating wound to the soft tissues of the anterior surface of the chest; a blind wound to the right subscapular region not penetrating the thoracic cavity; a penetrating wound to the left thigh accompanied by multiple open fractures of the femur; a blind wound to the right thigh accompanied by multiple open fractures of the femur; and multiple blind wounds to the soft tissues of the nose and upper lip, left thigh, right thigh and lower leg — are characteristic of the effects of the blast wave generated by the explosion of a firearm projectile and secondary fragments resulting from a primary and blunt mechanism. Overall, in terms of severity, they constitute injuries causing serious harm to health and resulted in death. The cause of death was traumatic-hemorrhagic shock resulting from the injuries sustained.

Volume 168, case file sheets 27–30

According to **forensic medical examination conclusion No. 50 dated 17.11.2021**, the bodily injuries found on the body of **Aliyev Elchin Ramil oglu** — a penetrating wound to the neck accompanied by severe bleeding, multiple injuries to the main blood vessels and blunt open fractures of the cervical vertebrae; two blind wounds penetrating the abdominal cavity in the right lumbar region; and blind wounds to the soft tissues of the back and lumbar region — are characteristic of the effects of the blast wave generated by the explosion of a firearm projectile, as well as secondary fragments resulting from a primary and blunt mechanism. Overall, these are injuries that caused serious harm to health and resulted in death. The cause of death was traumatic-hemorrhagic shock resulting from the injuries sustained.

Volume 168, case file sheets 32–35

According to **forensic medical examination conclusion No. 869 dated 17.11.2021**, the bodily injuries sustained by **Huseynov Oruj Nabi oglu** — a blind wound to the soft tissues of the right half of the chest not penetrating the cavity, with a foreign body in the soft tissues; and a penetrating wound to the first toe of the right foot accompanied by a comminuted, displaced, open fracture of the distal phalanx — are characteristic of the impact of fragments

formed as a result of the explosion of a firearm projectile and are classified as **less serious harm to health**. The diagnoses of “**superficial mycosis**” and “**mild chickenpox**”, established during specialized examinations at Military Unit No. 230, are independent nosological conditions of an endemic nature and have no causal relationship with the injury.

Volume 168, case file sheets 37–38

According to **forensic medical examination conclusion No. 873 dated 17.11.2021**, the bodily injuries sustained by **Aliyev Elchin Rovshan oglu** — ...

Page 443

...a penetrating wound to the right thigh; multiple blind wounds to the soft tissues of both shoulders and the right arm — are characteristic of the effects of fragments formed as a result of the explosion of a firearm projectile and, in terms of severity, are generally classified as minor harm to health.

Volume 168, case file sheets 40–41

According to **forensic medical examination conclusion No. 879 dated 18.11.2021**, the bodily injury sustained by **Tagiyev Eljan Elman oglu** — a penetrating wound to the soft tissues of the posterior surface of the lower third of the left thigh, resulting in temporary impairment of movement in the left knee joint — is characteristic of the impact of a projectile fired from a firearm and, in terms of severity, is classified as **less serious harm to health**.

Volume 168, case file sheets 43–44

According to **forensic medical examination conclusion No. 871 dated 17.11.2021**, the bodily injuries sustained by **Farzaliyev Sanan Famil oglu** — a closed craniocerebral injury accompanied by concussion and a blind wound to the soft tissues of the occipital region — are characteristic of the effects of the blast wave generated by the explosion of a foreign body — a firearm projectile — and of primary and secondary fragments of a blunt object and, in terms of severity, are classified as **minor harm to health**.

Volume 168, case file sheet 47

According to **forensic medical examination conclusion No. 872 dated 17.11.2021**, the bodily injuries sustained by **Aliyev Sakhavat Rizvan oglu** — a blind wound to the soft tissues of the outer surface of the left shoulder girdle and traumatic avulsion of the second finger of the left hand at the level of the middle phalanx — are characteristic of the effects of the blast wave generated by the explosion of a firearm projectile and of primary and secondary fragments of a blunt object, and are classified as **minor harm to health resulting in permanent loss of less than one-third (10%) of overall working capacity**.

Volume 168, case file sheets 49–50

According to **forensic medical examination conclusion No. 870 dated 17.11.2021**, the bodily injuries sustained by **Mehdizade Huseyn Rovshan oglu** — barotrauma of both ears complicated by bilateral acute cochlear neuritis — are characteristic of the effects of the blast

wave generated by the explosion of a firearm projectile and are classified as **minor harm to health**.

Volume 168, case file sheets 52–53

According to **forensic medical examination conclusion No. 875 dated 17.11.2021**, the bodily injury sustained by **Jafarov Muzaffar Eldar oğlu** — a penetrating wound to the right knee accompanied by transverse displacement and an open fracture of the base of the patella — may have been caused by a fragment of a bullet or projectile that fragmented as a result of a shot from a firearm and is classified as **minor harm to health**.

Volume 168, case file sheets 55–56

According to **forensic medical examination conclusion No. 874 dated 17.11.2021**, the bodily injuries sustained by **Aliguliyev Etibar Yasin oğlu** — blind wounds to the soft tissues of the right lower leg, the outer surface of the right ankle and the heel region — were caused by the impact of fragments of a secondary, primary and blunt mechanism formed as a result of the explosion of a firearm projectile and are classified as **minor harm to health**.

Volume 168, case file sheets 58–59

According to **forensic medical examination conclusion No. 868 dated 17.11.2021**, the bodily injuries sustained by **Hasanov Eltaj Bayram oğlu** — acute bleeding, an oblique displaced open fracture of the upper third of the shaft of the right femur, a comminuted displaced fracture of the lower third of the shaft of the left femur, open fractures, and an extensive skin defect on the anterior surface...

Page 444

...of the lower third of the left thigh and the outer surface of the ankle joint; multiple blind wounds to both lower limbs accompanied by neuropathy of the right sciatic nerve; a non-penetrating blind wound to the soft tissues of the posterior surface of the right half of the chest; and multiple blind wounds to both arms, the perineum and buttocks — are characteristic of the effects of the blast wave generated by the explosion of a firearm projectile and of primary and secondary fragments of a blunt mechanism and are classified as **serious harm to health**.

Volume 168, case file sheets 61–62

According to **forensic medical examination conclusion No. 880 dated 18.11.2021**, the bodily injuries sustained by **Gyulaliyev Murad Bakhtiyar oğlu** — severe contusion of the left frontal lobe of the brain resulting in right-sided hemiplegia; subarachnoid hemorrhage; multiple open fractures of the frontal bone penetrating into the cranial cavity; traumatic-hemorrhagic shock; left-sided hemopneumothorax (accumulation of free blood and air in the thoracic cavity); contusion of both lungs; hemoperitoneum (accumulation of free blood in the abdominal cavity); a blind wound to the left half of the chest penetrating into the thoracic and abdominal cavities and accompanied by damage to the stomach; and a blind wound to the soft tissues of the anterior surface of the upper third of the left thigh — are characteristic of the effects of the blast wave generated by the explosion of a firearm projectile and of primary

and secondary fragments of a blunt mechanism and, depending on their severity, as a rule constitute **serious harm to health**.

Volume 168, case file sheets 64–66

On the basis of **forensic medical examination conclusion No. 887 dated 19.11.2021**, an opinion regarding the specific injuries sustained by **Bekdemirov Sahil Eldaniz oğlu**, the mechanism by which they were caused, their duration and the degree of harm to health can be given upon submission of the results of an examination by a neurologist from the Healthcare Department of the Ministry of Health and the appointment of an additional forensic medical examination.

Volume 168, case file sheet 68

According to **forensic medical examination conclusion No. 888 dated 19.11.2021**, no bodily injuries or traces of trauma were found on the body of **Akhundov Mazakhir Alim oğlu**. The diagnoses of **“crista galli cyst (crista galli tumor?)”** and **“bilateral obstruction of the external auditory canal,”** established during specialized medical examinations at Military Unit No. 230, are independent nosological conditions and have no direct causal relationship with the injury.

Volume 168, case file sheets 70–71

According to **forensic medical examination conclusion No. 883 dated 19.11.2021**, an opinion regarding the specific bodily injury or injuries sustained by **Khalilov Tural Nariman oğlu**, the mechanism by which they were caused, their duration and the degree of harm to health can be given upon submission of medical documents issued in his name (medical history, extract from the trauma register), as well as upon the appointment of an additional forensic medical examination.

Volume 168, case file sheet 73

According to **forensic medical examination conclusion No. 884 dated 19.11.2021**, during the forensic medical examination of **Gadirov Elsever Elkhan oğlu** conducted on **19.11.2021**, no bodily injuries or traces of injuries associated with the incident under consideration were found on the surface of his body. The diagnoses of **“OU — complex myopic astigmatism”** and **“vertebrogenic lumbodinia, in incomplete remission,”** established during specialized medical examinations of **Gadirov E.E.**, were independent nosological conditions and had no direct causal relationship with the injury. Since the diagnosis of **“leg fracture,”** made at the Rehabilitation Center **“Sanatorium-Resort” of the Ministry of Health of the Republic of Azerbaijan**, was not confirmed by the presence of...

Page 445

...objective signs of any injury or by the results of any clinical and instrumental examinations, and since that diagnosis was established solely on the basis of the person's subjective complaints, it is not taken into account when determining the degree of harm to health. At the **“Sanitor-Kurort” Rehabilitation Center of the Ministry of Health of the Republic of Azerbaijan**, **E.E. Gadirov** was diagnosed with a **“closed craniocerebral**

injury”; however, since its clinical classification was not recorded (concussion, brain contusion, etc.), it is currently impossible to provide a forensic medical conclusion in this regard.

Volume 168, case file sheets 75–76

According to **forensic medical examination conclusion No. 885 dated 19.11.2021**, an opinion regarding the specific injuries sustained by **Mammadli Elgyun Nazim oglu**, the mechanism by which they were caused, their duration and the degree of harm to health may be given upon submission of medical documents issued in his name (medical history, trauma certificate) and the appointment of an additional forensic medical examination.

Volume 168, case file sheet 78

According to **forensic medical examination conclusion No. 876 dated 17.11.2021**, an opinion regarding the specific injuries sustained by **Jahangirov Vugar Jahangir oglu**, the mechanism by which they were sustained, their duration and the degree of harm to health may be given upon submission of his medical documents (medical history compiled in his name at the Ministry of Internal Affairs) and the appointment of an additional forensic medical examination.

Volume 168, case file sheet 80

According to **forensic medical examination conclusion No. 865 dated 17.11.2021**, an opinion regarding the specific injuries sustained by **Takhmazov Ravan Vilayat oglu**, the mechanism by which they were caused, their duration and the degree of harm to health may be given upon submission of his medical documents (medical history compiled in his name at the Medical Center of the Ministry of Health), as well as the appointment of an additional forensic medical examination.

Volume 168, case file sheet 82

On the basis of **forensic medical examination conclusion No. 866 dated 17.11.2021**, an opinion regarding the specific injuries sustained by **Novruzov Tabriz Yusif oglu**, the mechanism by which they were caused, their duration and the degree of harm to health may be given upon submission of the results of a neurologist’s examination and the appointment of an additional forensic medical examination.

Volume 168, case file sheet 84

According to **forensic medical examination conclusion No. 867 dated 17.11.2021**, an opinion regarding the specific injuries sustained by **Shakhverdiyev Rahim Sadraddin oglu**, the mechanism by which they were caused, their duration and the degree of harm to health may be given upon submission of his medical documents (an extract from the epicrisis issued in his name by the Ministry of Health and a certificate from the Ministry of Health), as well as the appointment of an additional forensic medical examination.

Volume 168, case file sheets 86–87

According to **forensic medical examination conclusion No. 878 dated 18.11.2021**, an opinion regarding the specific injuries sustained by **Adygezalov Iskender Nizami oglu**, the mechanism by which they were caused, their duration and the degree of harm to health may be given upon submission of his medical documents (medical history compiled in his name by the Ministry of Health and Family Welfare), as well as the appointment of an additional forensic medical examination.

Volume 168, case file sheets 89–90

According to **forensic medical examination conclusion No. 889 dated 19.11.2021**, an opinion regarding the specific injuries sustained by **Agayev Orkhan Ganbar oglu**, the mechanism by which they were caused, their duration and the degree of harm to health may be given upon...

Page 446

...submission of his medical documents (medical history, certificates of the medical commission), as well as the appointment of an additional forensic medical examination.

Volume 168, case file sheet 92

According to **forensic medical examination conclusion No. 886 dated 19.11.2021**, an opinion regarding the specific injuries sustained by **Alizade Namik Natig oglu**, the mechanism by which they were caused, their duration and the degree of harm to health may be given upon submission of his medical documents (medical history, certificates of the medical commission), as well as the appointment of an additional forensic medical examination.

Volume 168, case file sheet 94

According to **forensic medical examination conclusion No. 193 dated 01.03.2022**, since a more in-depth examination and highly qualified specialists are required in order to assess the bodily injuries sustained by **Mahmudov Eldeniz Abil oglu**, and since the examination being conducted is complex, it is advisable to appoint a **forensic medical examination commission**.

Volume 169, case file sheet 140

On the basis of **forensic medical examination conclusion No. 196 dated 01.03.2022**, since the submitted medical documents contain discrepancies in the diagnoses, highly qualified specialists are required in order to assess the bodily injuries sustained by **Khalilov Tural Nariman oglu**, and since the examination being conducted is complex, it is advisable to appoint a **forensic medical examination commission**.

Volume 169, case file sheet 141

According to **forensic medical examination conclusion No. 191 dated 01.03.2022**, since a more in-depth examination and highly qualified specialists are required in order to assess the bodily injuries sustained by **Mammadov Asabali Khanlar oglu**, and since the examination

being conducted is complex, it is advisable to appoint a **forensic medical examination commission**.

Volume 169, case file sheet 142

According to **forensic medical examination conclusion No. 195 dated 01.03.2022**, it cannot be ruled out that the bodily injuries sustained by **Abdullayev Hikmet Elman oglu** occurred on the date and under the circumstances specified in the resolution; however, since a more in-depth examination and highly qualified specialists are required in order to assess the injuries, and since the examination being conducted is complex, it is advisable to appoint a **forensic medical examination commission**.

Volume 169, case file sheet 143

On the basis of **forensic medical examination conclusion No. 197 dated 01.03.2022**, since the submitted medical document contains discrepancies in the diagnosis, highly qualified specialists are required in order to assess the bodily injuries sustained by **Mamizade Tabriz Isa oglu**, and since the examination being conducted is complex, it is advisable to appoint a **forensic medical examination commission**.

Volume 169, case file sheet 144

According to **forensic medical examination conclusion No. 192 dated 01.03.2022**, the injuries sustained by **Kerimli Magerram Sakit oglu** — a laceration on the right cheekbone and a hematoma in the crown region — were caused by impact with a blunt object. It cannot be ruled out that they were inflicted on the date and under the circumstances specified by the person questioned. Since these injuries do not cause harm to health, their severity is not determined.

Volume 169, case file sheet 147

According to **forensic medical examination conclusion No. 194 dated 01.03.2022**, the injuries sustained by **Huseynov Elvin Sekhran oglu** — **vegetovascular dystonia and acute left-sided cochlear neuritis** — were caused by the impact of a blast wave generated during an explosion and by a blunt object; it cannot be ruled out that...

Page 447

...it cannot be ruled out that they were sustained on the date and under the circumstances specified by the person questioned, and in terms of severity, the harm caused to health is classified as **minor**.

Volume 169, case file sheet 148

According to **forensic medical examination conclusion No. 240 dated 22.02.2022**, during the forensic medical examination of **Shabanly Khamid Zakhir oglu** conducted on **22.02.2022**, old scar tissue was found in the area of the right earlobe, at the boundary between the neck and back on the right side, and in both groin areas. However, since the initial medical documents (registered after **16.11.2021**) contain no record of these injuries, and the morphological characteristics of the injuries in the scar tissue are insufficient, it is

currently impossible to give a precise opinion regarding the mechanism by which they were caused and the duration of their formation.

As can be seen from the medical documents, on **17.11.2021**, at Military Unit No. 524, **Kh.Z. Shabanly** was diagnosed with **“explosive injury, barotrauma, blunt injury to the fifth finger of the right hand, crushing of the soft tissues”** and was referred to the Main Clinical Hospital for specialized examination. On **19.11.2021**, MRI examinations of the cranial and lumbosacral regions were performed. An ENT physician diagnosed him with **“acute right-sided cochlear neuritis resulting from barotrauma (16.11.2021)”**, and on **20.11.2021**, a neurologist diagnosed **“lumbalgia of vertebrogenic origin.”**

From **25.11.2021 to 16.12.2021**, he underwent inpatient treatment with the diagnoses **“protrusion of the L5–S1 intervertebral disc; nontoxic uninodular goiter; right-sided acute cochlear neuritis; hepatosteatosi.”** Thus, the acute right-sided cochlear neuritis sustained by **Kh.Z. Shabanly** as a result of injury-barotrauma could have been caused by the blast wave generated by the explosion of an explosive device (projectile) and, in terms of severity, is classified as **minor harm to health**.

Volume 169, case file sheets 239–242

According to **forensic medical examination conclusion No. K/66-A dated 14.03.2022**, no bodily injuries or signs of injuries characteristic of explosive trauma, nor any pathology characteristic of **barotrauma**, were found on the body of serviceman **Bekdemirov Sahil Eldaniz oglu**.

Volume 226, case file sheets 143–145

According to **forensic medical examination conclusion No. 259 dated 05.05.2022**, during the forensic medical examination of **Hasanov Zamig Namik oglu** conducted on **05.05.2022**, no bodily injuries or traces of injuries associated with the incident were found on the surface of his body. The diagnoses of **“exacerbation of left-sided chronic sinusitis,” “reactive nonspecific cervical lymphadenitis,”** and **“subcutaneous tumor — atheroma of the right half of the face,”** made in respect of **Z.N. Hasanov** at the Main Clinical Hospital of the Ministry of Defense, are independent nosological forms of pathology and have no direct causal relationship with the injury.

Volume 226, case file sheets 240–241

According to **forensic medical examination conclusion No. 472 dated 15.04.2022**, the injury sustained by **Jafarov Muzaffar Eldar oglu** — a penetrating gunshot wound to the right knee accompanied by an open displaced fracture of the patella — was caused by a firearm injury and is classified as **minor harm to health**.

Volume 227, case file sheets 27–28

According to **forensic medical examination conclusion No. 322 dated 26.04.2022**, since the examination appointed in respect of **Almasov Nurlan Nabil oglu** is a medical examination and at the same time a complex examination, this type of examination is conducted by a commission due to its particular complexity. Therefore, in accordance with

the requirements of the relevant instructions, it is advisable to conduct a **commission forensic medical examination** in this case (with the relevant medical documents attached)...

Page 448

...in order to resolve the questions put before the examination.

Volume 227, case file sheet 47

According to **forensic medical examination conclusion No. 323 dated 26.04.2022**, since the examination appointed in respect of **Nasibov Elmaddin Nariman oglu** is a medical examination and at the same time a complex examination, this type of examination is conducted by a commission due to its particular complexity. Therefore, in accordance with the requirements of the relevant instructions, it is advisable to conduct a **commission forensic medical examination** in this case (with the relevant medical documents attached) in order to resolve the questions put before the examination.

Volume 227, case file sheet 48

According to **forensic medical examination conclusion No. 324 dated 26.04.2022**, since the examination appointed in respect of **Jafarli Rasim Oruj oglu** is a medical examination and at the same time a complex examination, this type of examination is conducted by a commission due to its particular complexity. Therefore, in accordance with the requirements of the relevant instructions, it is advisable to conduct a **commission forensic medical examination** in this case (with the relevant medical documents attached) in order to resolve the questions put before the expert.

Volume 227, case file sheet 49

According to **forensic medical examination conclusion No. 325 dated 26.04.2022**, since the examination appointed in respect of **Rustamli Parviz Ikhtiyar oglu** is an examination of his state of health and at the same time a complex examination, this type of examination is conducted by a commission due to its particular complexity. Therefore, in accordance with the requirements of the relevant instructions, it is advisable to conduct a **commission forensic medical examination** in this case (with the relevant medical documents attached) in order to resolve the questions put before the examination.

Volume 227, case file sheet 58

According to **forensic medical examination conclusion No. 330 dated 26.04.2022**, since the examination appointed in respect of **Gadirov Elsever Elkhanoğlu** is a medical examination and, at the same time, a complex examination, this type of examination is conducted by a commission due to its particular complexity. Therefore, in accordance with the requirements of the relevant instructions, it is advisable to conduct a **commission forensic medical examination** in this case in order to resolve the questions put before the examination.

Volume 227, case file sheet 59

According to **forensic medical examination conclusion No. 727 dated 14.06.2022**, the bodily injuries sustained by **Guliyev Gulu Isakhan oğlu** — blind shrapnel wounds to the soft tissues of the anterior chest wall, not penetrating the thoracic cavity, and to the second finger of the left hand — resulted from the impact of fragments formed by the explosion of an explosive device (projectile) and are generally classified as **minor harm to health**.

Volume 228, case file sheets 49–50

According to **forensic medical examination conclusion No. 728 dated 14.06.2022**, the bodily injuries sustained by **Mehdizade Huseyn Rovshan oğlu** — bilateral acute cochlear neuritis resulting from barotrauma, which could have been caused by the blast wave generated by the explosion of an explosive device (projectile) — are classified as **minor harm to health**, to the degree specified by the person himself during the examination.

Volume 228, case file sheets 51–52

According to **forensic medical examination conclusion No. 729 dated 14.06.2022**, the bodily injuries sustained by **Aliyev Hasan Ibrahim oğlu** — an abrasion on the right wrist — could have been caused by the impact of a hard blunt secondary fragment formed as a result of the explosion of an explosive device (projectile). The severity of the bodily injury is not determined, since, as the person himself stated during the examination, it does not cause harm to his health. The diagnosis of “**dissociative reaction resulting in recovery**,” which...

Page 450

...was finally established in respect of **G.I. Aliyev** at the Main Clinical Hospital of the Ministry of Defense, is an independent nosological form of mental illness.

Volume 228, case file sheets 53–54

According to **forensic medical examination conclusion No. 764 dated 21.06.2022**, the bodily injuries sustained by **Malikov Jafar Gurban oğlu** — blind shrapnel wounds to the front abdominal wall and the left temple — were caused by fragments from the explosion of an explosive device (projectile) and, in terms of severity, are classified as **minor bodily injuries**.

Volume 228, case file sheets 80–82

According to **forensic medical examination conclusion No. 765 dated 21.06.2022**, the bodily injury sustained by **Shakhverdiyev Rahim Sadraddin oglu** consists of traumatic avulsion of the middle third of the distal phalanx of the fourth finger of the right hand, sustained as a result of the impact of a fragment produced by the explosion of an explosive device (projectile). This is classified as **minor harm to health causing a slight permanent loss of overall working capacity (5%)**.

Volume 228, case file sheet 83

According to **forensic medical examination conclusion No. 766 dated 21.06.2022**, the bodily injuries sustained by **Farzaliyev Sanan Famil oglu** — a closed craniocerebral injury accompanied by concussion, resulting in vegetovascular dystonia and asthenoneurotic manifestations, and blind shrapnel wounds caused by glass fragments entering the soft tissues of the occipital region of the head, which may have been caused by the blast wave and secondary fragments formed as a result of the explosion of an explosive device (projectile) — are classified as **less serious harm to health**.

Volume 228, case file sheets 84–85

According to **forensic medical examination conclusion No. 720 dated 14.06.2022**, the bodily injuries sustained by **Kazimov Kamran Eyvaz oglu** — wounds to the soft tissues of the anterior abdominal wall not penetrating the abdominal cavity — resulted from the secondary impact of fragments from firearm injuries and are classified as **minor harm to health**.

Volume 228, case file sheets 88–89

According to **forensic medical examination conclusion No. 443 dated 08.06.2022**, since the examination appointed in respect of **Adygezalov Iskender Nizami oglu** is a medical examination and, at the same time, a complex examination, this type of examination is conducted by a commission due to its particular complexity. Therefore, in accordance with the requirements of the relevant instructions, it is advisable to conduct a **commission forensic medical examination** in this case in order to resolve the questions put before the examination.

Volume 228, case file sheet 91

According to **forensic medical examination conclusion No. 444 dated 08.06.2022**, since the examination appointed in respect of **Aliyev Sakhavat Rizvan oglu** is an examination to determine his state of health and, at the same time, a complex examination, these types of examinations are conducted by a commission due to their particular complexity. Therefore, in accordance with the requirements of the relevant instructions, it is advisable to conduct a **commission forensic medical examination** in this case (with the relevant medical documents attached) in order to resolve the questions put before the examination.

...examination, due to its particular complexity, is conducted by a commission. Therefore, in accordance with the requirements of the relevant instructions, it is advisable to conduct a forensic medical examination by a commission in this case (with the relevant medical documents attached) in order to resolve the questions put before the examination.

Volume 228, case file page 93

According to Forensic Medical Expert Report No. 446 dated 08 June 2022, since the examination assigned to **Khuduzade Asiman Ganimat oglu** is an examination assessing the state of health and is also classified as a complex examination, such examinations are conducted by a commission due to their particular complexity. Therefore, in accordance with the requirements of the relevant instructions, it is advisable to conduct a forensic medical examination by a commission in this case (with the relevant medical documents attached) in order to resolve the questions put before the examination.

Volume 228, case file page 94

Volume 235, case file page 97

According to Forensic Medical Expert Report No. K/188 dated 05 July 2022, Tahmazov Ravan Vilayat oglu had the following bodily injuries: “Condition following the primary surgical treatment of wounds caused by removal of the left eyeball and a penetrating object from the cornea as a result of blast trauma, C3F8 gas tamponade, and a blind shrapnel wound of the right lower extremity. Visual acuity of the left eye: 0.1 without correction; secondary healing following traumatic perforation of both tympanic membranes as a result of barotrauma, with visual acuity of the right eye of 1, bilateral conductive hearing loss; whispered speech is audible at a distance of up to 5 meters in the right ear and up to 5.5 meters in the left ear. A faint skin scar following primary surgical treatment of a wound caused by a penetrating shrapnel wound of the right occipital region as a result of blast trauma.” The injuries were caused by the impact of multiple fragments of a firearm during an explosion and by the blast wave of the detonation. In terms of severity, the injury is classified as minor, since it resulted in a significant permanent loss of vision (reduction in visual acuity to 0.1%) in one eye, while overall capacity for work was reduced by less than one-third (25%).

Volume 228, case file pages 242–246

According to Forensic Medical Expert Report No. K/189 dated 05 July 2022, Jahangirov Vugar Jahangir oglu had the following bodily injuries: “Blast trauma (16.11.2021). Postoperative condition following embolectomy of the left axillary artery performed due to ischemia of the left upper extremity. Penetrating wound of the right side of the face, through-and-through laceration, corneal edema, foreign body, vitreous hemorrhage, corneal opacity following the operation ‘Primary surgical treatment of wounds, vitrectomy + removal of a foreign body,’ performed due to an intraocular foreign body; reduction in visual acuity to 0.04 as a result of paramacular scarring, not amenable to correction. Visual acuity of

the left eye — 1.0. Blast trauma (16.11.2021). Blunt trauma of the left hand, crushing of soft tissues. Blast trauma. Shrapnel wounds of the soft tissues of the right anterosuperior surface of the chest. Due to a blind shrapnel wound of the left cheek, neck, and right cheek as a result of blast trauma, with an indurated skin scar following primary surgical treatment of the wounds and the presence of small foreign bodies (metal fragments) in the soft tissues, there is no impairment of vital function. Lacerated wound of the left external auditory canal. Astheno-neurotic manifestations of somatogenic origin.” The injuries were caused by the impact of multiple fragments of a firearm during an explosion and by the blast wave of the detonation; the injury is classified as severe, since it resulted in a permanent (indefinite) loss of not less than one-third of the general working capacity of one eye (loss of visual acuity to 0.04 percent).

Page 452

Volume 228, case file pages 247–249

According to Forensic Medical Expert Report No. K/190 dated 05 July 2022, Mamizade Tabriz Isa oglu had the following bodily injuries: “Blast trauma (16.11.2021). Condition following primary surgical treatment (16.11.2021) of a wound caused by a blunt shrapnel injury to the soft tissues of the upper third of the right thigh, accompanied by a nondisplaced fracture of the right sixth rib, penetrating into the pleural cavity of the right lateral wall of the chest. Foreign body (metal fragment) in the soft tissues of the right lung and the upper third of the right thigh.” The injuries were caused by the impact of multiple fragments of a firearm during an explosion and by the blast wave of the detonation. The time when the injuries were sustained corresponds to 16.11.2021; in terms of severity, they are classified as minor harm to health.

Volume 228, case file pages 250–252

According to Forensic Medical Expert Report No. K/191 dated 05 July 2022, Khalilov Tural Nariman oglu was diagnosed as follows: “Barotrauma (16.11.2021), chronic right-sided cochlear neuritis, persistent right-sided sensorineural hearing loss; whispered speech is audible at a distance of 5 meters with the right ear and at a distance of 6 (six) meters with the left ear. Astheno-neurotic manifestations and vegetative-vascular instability following a closed craniocerebral injury and concussion.” The indicated pathology may have been caused by the impact of the detonation blast wave in the course of blast trauma and, in terms of severity, constitutes less severe harm to health.

Volume 228, case file pages 253–255

According to Forensic Medical Expert Report No. K/192 dated 05 July 2022, Abdullayev Hikmet Elman oglu had the following bodily injuries: “Blast trauma (16.11.2021), primary surgical treatment of wounds caused by a blind shrapnel wound of the left kneecap, left lower leg, and fifth finger of the right hand; an open comminuted bone defect of the middle and distal phalanges of the fifth finger of the right hand; an open displaced comminuted fracture of the left patella and rupture of the extensor tendon of the fifth finger of the right hand (17.11.2021); lateral fasciotomy performed due to a foreign body in the soft tissues (metal fragment), ischemic necrosis of the external muscle group of the left lower leg, thrombosis of the left anterior cruciate artery; wounds, necrectomy, ligation of the left anterior cruciate artery (19.11.2021); open reduction of the left patella, suturing using the

Kiseta method, osteosynthesis of the fifth finger of the right hand using the Suzuki method (30.11.2021). Secondary surgical treatment of wounds (22.12.2021), postoperative condition. Blast trauma (16.11.2021), post-traumatic neuropathy of the left peroneal nerve.” The indicated injuries were caused by the impact of several bullets from a firearm, which fragmented upon explosion, and are classified as severe bodily injuries.

Volume 228, case file pages 256–259

According to Forensic Medical Expert Report No. K/193 dated 05 July 2022, Shahverdiyev Rahim Sadraddin oglu had the following bodily injuries: “Blast trauma (16.11.2021). ‘Condition following primary surgical treatment of a wound due to traumatic rupture of the distal phalanx of the fourth finger of the right hand (16.11.2021).’” The indicated injuries resulted from the impact of a firearm projectile that fragmented upon explosion and are classified as minor bodily injuries.

Volume 228, case file pages 260–263

According to Forensic Medical Expert Report No. K/194 dated 05 July 2022, Aligizalov Iskender Nizami oglu had the following bodily...

Page 453

injuries: “Closed craniocerebral injury following primary surgical treatment of wounds caused by a through fracture of the right scapula, non-penetrating blunt shrapnel wounds of the right popliteal region and the right scapula (17.11.2021), sustained as a result of blast trauma (16.11.2021); condition following concussion. Condition following bilateral acute cochlear neuritis as a result of barotrauma (16.11.2021).” The indicated injuries resulted from the impact of multiple firearm projectiles fragmented during the explosion and from the blast wave generated by the detonation and, in terms of severity, are classified as **less serious harm to health**.

Volume 228, case file pages 264–268

According to **Forensic Medical Expert Report No. K/195 dated 05.07.2022**, when **Aliyev Vugar Eldar oglu** was hospitalized at the Main Clinical Hospital of the Ministry of Defense, he was diagnosed as follows: “Bilateral acute cochlear neuritis. Right-sided acute exudative otitis media. Deviated nasal septum, slightly impairing nasal breathing. Secondary partial adentia, with teeth 3–15, 16, 17 missing in the upper jaw and 3–35, 36, 37 missing in the lower jaw. Allergic dermatitis of both hands. Myopic astigmatism of both eyes, refraction Em and M 35 D in both eyes, resulting in a reduction in visual acuity to 0.1, corrected to 0.6. Chronic autoimmune thyroiditis. Hepatic fermentopathy.” It cannot be ruled out that the pathology diagnosed as “bilateral acute cochlear neuritis, right-sided acute exudative otitis media” was caused by the blast wave from the detonation during the blast trauma and constitutes **minor harm to health**. The other diseases indicated in the diagnosis have no causal relationship with the blast trauma.

Volume 228, case file pages 269–271

According to **Forensic Medical Expert Report No. K/196 dated 05.07.2022**, when **Manafli Madat Elbrus oglu** was hospitalized at the Main Clinical Hospital of the Ministry of

Defense, he was diagnosed as follows: “Condition following a closed blunt spinal injury as a result of blast trauma (16.11.2021), uncomplicated stable compression fracture of the L2 vertebral body. Simple myopic astigmatism of both eyes, refraction Em and M 1.5 D, which resulted in a reduction of visual acuity in both eyes to 0.7, corrected to 1. Solitary cyst of the left kidney. Reactive hepatitis.” The pathology diagnosed as “closed blunt spinal injury as a result of blast trauma (16.11.2021), following an uncomplicated stable compression fracture of the L2 vertebral body” could have been caused by the blast wave from the detonation during the blast trauma. The date on which the injuries were sustained corresponds to 16.11.2021; they are characterized as **minor harm to health**, while the other diseases indicated in the diagnosis have no causal relationship with the blast trauma.

Volume 228, case file pages 272–274

According to **Forensic Medical Expert Report No. K/197 dated 05.07.2022**, when **Alizade Namik Natig oglu** was hospitalized at the Main Clinical Hospital of the Ministry of Defense, he was diagnosed as follows: “Peptic ulcer disease, in the stage of incomplete remission. Temporary impairment of digestive function due to cicatricial deformation of the duodenal bulb. Retrocerebellar arachnoid cyst. Blast trauma (16.11.2021), acute left-sided cochlear neuritis, left-sided sensorineural hearing loss; whispered speech is audible from a distance of 4 meters with the left ear and 6 meters with the right ear.” The pathology diagnosed as “blast trauma (16.11.2021), acute left-sided cochlear neuritis, left-sided hearing loss; whispered speech is audible from a distance of 4 meters with the left ear and 6 meters with the right ear” could have been caused by the blast wave from the detonation during the blast trauma. This constitutes **minor harm to health**, while the other diseases indicated in the diagnosis have no causal relationship with the injury sustained in the explosion.

Page 454

Volume 228, case file pages 275–280

According to **Forensic Medical Expert Report No. K/256 dated 01.09.2022**, on the basis of the medical documents submitted, **Teyubzade Roman Ramiz oglu** was diagnosed as follows: “As a result of blast trauma (16.11.2021), he sustained a penetrating blind shrapnel wound of the left zygomatic bone, penetrating through the area of the left cheek with impingement of the C1 vertebra, a fracture of the left scapular ramus of the jaw bone, an open multiple fracture-related wound of the left scapula with defects of the bones and extensive soft tissues, as well as right-sided [the sentence is incomplete in the original]. Primary surgical treatment of wounds caused by lung contusion and pneumothorax; osteosynthesis of fragments using the G.A. Ilizarov method; drainage of the right pleural cavity using the Bulau method (17.11.2021); removal of the drainage (23.11.2021). Examination of wounds on the left side; condition following necrectomy surgery (26.11.2021). Condition following mild post-hemorrhagic anemia, retinal detachment of the left eye, OS-type cataract. Reduction of visual acuity to 0.1 as a result of hemorrhage into the vitreous body. Visual acuity of the right eye — 1.” The injuries indicated in the diagnosis and the other pathologies (complications) that developed in connection with those injuries were caused by the impact of firearm fragments during the blast trauma and by the blast wave generated by the detonation. The date on which the bodily injuries were sustained corresponds to **16.11.2022**, and the degree of harm to health constitutes **serious harm**.

Volume 228, case file pages 280–288

According to **Forensic Medical Expert Report No. 1218 dated 15.09.2022**, the following injuries sustained by **Gulaliyev Murad Bakhtiyar oglu** were classified as severe: severe hemorrhagic contusion of the frontal lobes of the brain, subarachnoid hemorrhage, cerebral edema, foreign bodies in the brain (metal and bone fragments), blunt trauma to the cranial cavity with fracture of the frontal bone; abdominal trauma, left-sided hemopneumothorax (accumulation of blood and air in the thoracic cavity), hemoperitoneum (accumulation of blood in the abdominal cavity), a metallic foreign body in the abdominal cavity, atelectasis of the lower lobes of both lungs, and a blind shrapnel wound to the left half of the chest penetrating into the thoracic and abdominal cavities and accompanied by pulmonitis of the left lung; a blind shrapnel wound to the anterior surface of the upper third of the left thigh — these resulted from the explosion of a fragment of an explosive device (projectile). It cannot be ruled out that these injuries were sustained by the person indicated during the examination during the daytime on **16.11.2021** and under the circumstances specified, and in terms of severity they constitute **serious harm to health**.

Volume 235, case file pages 68–71

According to **Forensic Medical Expert Report No. 1153 dated 05.09.2022**, during the forensic medical examination of **Huseynov Oruja Nabi oglu** on 05.09.2022, no other visible bodily injuries or signs of injuries were found, except for scar tissue bearing traces of healed shrapnel wounds on the right scapula and the big toe of the right foot. As can also be seen from the medical documents, from 28.02.2022 to 11.03.2022, O.N. Huseynov underwent inpatient treatment with the diagnosis: “Mild prolonged post-traumatic stress disorder. Dissociative-conversion disorder. With a history of functional seizures (4–5 times per month)”; from 11.08.2022 to 31.08.2022, he was treated at the **Sheki District Psychiatric Hospital** with the diagnosis: “Post-traumatic stress disorder. With behavioral disturbances and depressive symptoms”; on 21.01.2022, the Military Medical Commission of the Central Military Polyclinic of the Ministry of Defense (in coordination with the Central Military Medical Commission of the Ministry of Defense) confirmed the diagnosis: “Mild prolonged post-traumatic stress disorder.” As a result of the blast trauma (16.11.2021), he sustained a shrapnel wound to the first toe of the right foot, a fracture of the first phalanx of the right foot caused by a fragment, a hardened skin scar, and a foreign body in the soft tissues of the chest (metal fragment). Condition following acute left-sided cochlear neuritis as a result of...

Page 455

...as a result of blast trauma (16.11.2021), with whispered speech audible at a distance of 3 meters with the left ear and 6 (six) meters with the right ear,” and the following decision was made: “This is combat trauma sustained during the defense of the Republic of Azerbaijan. It is not fit for military service in peacetime and is fit for military service with restrictions in wartime.” Thus, the shrapnel wounds resulting in a comminuted fracture of the phalanx of the first toe of the right foot and the presence of metallic fragments in the soft tissues of the chest could have resulted from the impact of fragments formed during the explosion of an explosive device (projectile); acute left-sided cochlear neuritis accompanied by audibility of whispered speech with the left ear at a distance of 3 meters (normal value: 6 meters) could have resulted from the blast wave generated by the explosion; and the mental disorder in the form of “post-traumatic stress disorder with behavioral disturbances and depressive symptoms” could have developed as a consequence of the psycho-emotional stress sustained. It cannot be ruled out that these injuries were sustained by the person examined during the

daytime and under the circumstances specified in the examination materials; in terms of severity, they constitute **serious harm to health**.

Volume 235, case file pages 81–84

According to **Forensic Medical Expert Report No. 1217 dated 15.09.2022**, the bodily injury sustained by **Nagiyev Murad Tahir oglu** — a blind shrapnel wound of the left parietal region of the head caused by a fragment from the explosion of an explosive device (projectile) — was not assigned a degree of severity because it did not pose a danger to health.

Volume 235, case file page 88

According to **Forensic Medical Expert Report No. 1152 dated 05.09.2022**, the bodily injuries sustained by **Yusifov Habil Habil oglu** — penetration through the right lumbar region into the abdominal and thoracic cavities, injury to the liver and right kidney, right-sided hemopneumothorax, fractures of the 9th and 12th ribs on the right, resulting in traumatic hemorrhagic shock of grades II–III, and a combined blunt gunshot wound of the abdomen and chest accompanied by the presence of a foreign body/bullet in the right 9th–10th intercostal space — were caused by a shot fired from a firearm and, in terms of severity, constitute **serious harm to health**.

Volume 235, case file pages 90–91

According to **Forensic Medical Expert Report No. K/255 dated 01.09.2022**, no injuries characteristic of blast trauma or any pathology associated with such trauma were found on the body of **Khuduzade Asiman Ganimat oglu**.

Volume 235, case file pages 93–95

According to **Forensic Medical Expert Report No. K/257 dated 01.09.2022**, **Aliyev Sahavta Rizvan oglu** was ultimately diagnosed as follows: “Blast trauma (16.11.2021). Shrapnel wound of the posterior surface of the left shoulder girdle, second finger of the left hand, traumatic avulsion of the middle third of the middle phalanx of the second finger of the right hand. Mild prolonged post-traumatic stress disorder. Blast trauma (16.11.2021), resulting in left-sided cochlear neuritis, left-sided sensorineural hearing loss, with whispered speech audible at a distance of 5 meters with the left ear and 6 (six) meters with the right ear.” The indicated injuries and other pathologies that developed in connection with these injuries were caused by the impact of a fragment projectile and the blast wave generated by the detonation during the explosion. The date on which the bodily injuries were sustained corresponds to **16.11.2021**; in terms of severity, they constitute **less serious harm to health**.

Volume 235, case file pages 100–103

According to **Forensic Medical Expert Report No. 1214 dated 14.09.2022**, it is possible to provide an opinion as to what specific bodily injuries were sustained by...

...**Khasmatov Sabir Seymour oglu**, the mechanism by which they occurred, their duration, the circumstances, and the degree of harm to health, upon submission of the originals of the medical documents (medical record book, extract from the “trauma registration” book, medical history, etc.) prepared after the incident at the medical station of **Military Unit No. 157**, and at the hospitals in **Kalbajar (No. 524)** and **Ganja (No. 230)** for examination, with an additional forensic medical examination to be appointed.

Volume 235, case file pages 141–142

According to **Forensic Ballistic and Chemical Expert Report Nos. 3/1937 and 3/1938 dated 14.12.2021**, the weapon submitted for examination with serial number “**963565**” is a combat rifled **AKM Kalashnikov assault rifle**, caliber **7.62 mm**, factory-manufactured in **1975**, in working condition, suitable for use and firing, and it is impossible to fire a shot without pulling the trigger.

The weapon with serial number “**715636**” is a **7.62 mm** combat **AKM rifle**, factory-manufactured in **1975**, designed by Kalashnikov. It is in working condition, suitable for use and firing, and it is impossible to fire a shot without pulling the trigger.

The weapon with serial number “**MSh 2214**” is a **7.62 mm** combat **AKM**, factory-manufactured in **1968**, designed by Kalashnikov. It is in working condition, suitable for use and firing, and it is impossible to fire a shot without pulling the trigger.

The weapon with serial number “**KP 5805**” is a **7.62 mm** combat rifled **AKM assault rifle**, factory-manufactured in **1966**, designed by Kalashnikov. It is in good condition, suitable for use and firing, and it is impossible to fire a shot without pulling the trigger.

The weapon with serial number “**LD 1186**” is a **7.62 mm** combat **AKM rifle**, factory-manufactured in **1967**, designed by Kalashnikov. It is in good condition, suitable for use and firing, and it is impossible to fire a shot without pulling the trigger.

The weapon with serial number “**82901**” is a combat rifled **SVD sniper rifle**, caliber **7.62 mm**, factory-manufactured in **1989**. It is in good condition, suitable for use and firing, and it is impossible to fire a shot without pulling the trigger.

The weapon with serial number “**SV 383**” is a **7.62 mm** combat rifled **PKM machine gun**, factory-manufactured in **1973**. It is in good condition, suitable for use and firing, and it is impossible to fire a shot without pulling the trigger.

The weapon with serial number “**ÜE 670149**” is a large-caliber combat rifled machine gun, factory-manufactured under the “**Kord**” system, caliber **12.7×108 mm**. It is in working condition, ready for use and firing, and it is impossible to fire a shot without pulling the trigger.

The weapon with serial number “**UP 771739**” is a **40-mm RPG-7V2 hand-held anti-tank grenade launcher**, factory-manufactured, a firearm in working condition and suitable for firing, and it is impossible to fire a shot without pulling the trigger.

6 boxes for Kalashnikov, AKM and AKMS assault rifles, having no functional significance and factory-manufactured, and a box with a capacity of **30 cartridges of caliber 7.62×39 mm**, are in good condition.

188 cartridges are of caliber **7.62×39 mm** and are factory-manufactured cartridges intended for use in **AKM, AKMS and AK-47 assault rifles** and **SKS carbines** of this caliber; they are considered live ammunition and are suitable for use.

99 cartridges are factory-manufactured cartridges of caliber **7.62×54 mm**, intended for use in the **SVD, Mosin carbines** of the same...

Page 457

...caliber, **PK and PKM machine guns**, and other rifled firearms of the same caliber, and are considered ammunition. They are manufactured and can be used.

1 ammunition belt is a factory-manufactured belt with a capacity of **100 rounds of 7.62×54 mm caliber**, which is a non-standard component of **PK, PKM and PKMN machine guns** and is suitable for use.

50 rounds of 12.7×108 mm caliber, factory-manufactured and intended for use in large-caliber machine guns of the same caliber, such as the **Kord, DShK and DShKM**, and other rifled firearms of the same caliber, are considered ammunition and are suitable for use.

1 ammunition belt is a factory-manufactured belt with a capacity of **50 rounds of 12.7×108 mm caliber**, which is a non-functional component of the **“Kold” machine gun** and is suitable for use.

1 item is a **PSO-1 optical sight**, No. **TB09001**, intended for use on factory-made sniper rifles, carbines and other corresponding firearms; it is a functionally important component of a firearm and is suitable for use.

The **2 metal objects** submitted for examination (recovered from the sweater of **Aliyev Elchin Ramal oglu** and from a wound on the left rear side of his neck), and **2 metal objects bearing inscriptions** (recovered from the upper lip and the upper part of the right shoulder of **Khalilov Murad Galib oglu**) — a total of **4 metal fragments** — are parts of a mine, namely shrapnel intended for use in mortars, which are considered firearms and are intended to strike and destroy targets (including living targets) at a certain distance by firing at them; they were factory-manufactured and intended for use as ammunition in mortars of the corresponding design and caliber, and were fragmented as a result of firing and explosion. However, since they are small in size and bear no markings that could indicate their precise purpose, the type and size of the mine of which they formed part before fragmentation, the type of mortar in which they were used, etc., it is impossible to determine precisely their type, caliber and intended purpose.

Based on the discovery in the barrel bores of **5 automatic weapons, 2 machine guns, 1 sniper rifle and 1 grenade launcher** of incompletely burned particles of smokeless powder, which constitute additional factors associated with firing, including the discovery of an explosive substance (**TNT**) in the barrel of the grenade launcher, it was established that these

weapons had been used for firing. However, due to the absence of the relevant scientific and methodological tools, it is impossible to determine the time and number of shots fired.

The military clothing belonging to **Khalilov Murad Galib oglu** — a military pea coat, military sweater, 2 long-sleeved shirts, 1 sleeveless shirt, military trousers with a waist belt, 2 pairs of warm trousers, and the left military boot; the military clothing belonging to **Aliyev Elchin Ramil oglu** — a military pea coat, military tunic, 1 military sweater, long-sleeved undershirt; the military clothing belonging to **Niftaliyev Umud Oruj oglu** — a military pea coat, military tunic, military sweater, long-sleeved shirt, sleeveless shirt, military trousers with a waist belt, warm undertrousers, undershirt, military shoulder board, 1 military badge and a pair of gloves; the clothing belonging to **Jabbarov Orkhan Gatam oglu** — 1 military tunic, military sweater, long-sleeved undershirt and sleeveless shirt; and the clothing belonging to **Agayev Elchin Marifat oglu** — a military pea coat, military sweater, sleeveless shirt, balaclava and neck belt — bear injuries, the size and number of which are specified in the examination section of the report. Based on the shape, dimensions and morphological structure of the damage to the items of military clothing, as well as the discovery on their surfaces of soot particles, explosive substances (TNT) and incompletely burned particles of smokeless powder, a characteristic feature of the indicated injuries is that they were sustained as a result of the impact of fragments from an explosion located at...

Page 458

...a distance close to the center of the explosion and travelling in different directions. Such injuries may have been caused by fragments of a mine intended for use in mortars, which disintegrates as a result of firing and explosion. However, it is impossible to determine the specific type and caliber of the fragments that caused these injuries, as well as the period of time during which they were sustained, due to the absence of the relevant scientific and methodological tools.

On the military cap belonging to **Alizade Elmin Samir oglu**, there is a **blind wound measuring 15×10 millimeters**. Based on the shape, size and morphological structure of this injury, as well as the discovery around it of incompletely burned particles of smokeless powder, this injury is a penetrating injury caused by a bullet fired from a firearm and is characterized as having been inflicted **from back to front**. However, it is impossible to determine the type and caliber of the bullet that caused the damage to the cap, the type and caliber of the firearm from which the shot was fired, or the period of time during which the damage occurred, due to the absence of the relevant scientific and methodological tools. Since the cap is heavily bloodstained and wet, it is impossible to conduct a chemical analysis to determine whether traces of copper metal are present around the wound, which would constitute an additional factor indicating a gunshot; for this reason, it was not possible to determine the firing distance.

On the undershirt, cap, right military boot and two pairs of socks belonging to **Khalilov Murad Galib oglu**; on the military trousers with a waist belt, warm underpants, undershirt, gloves, pair of military boots and pair of socks belonging to **Aliyev Elchin Ramil oglu**; on the pair of military boots and pair of socks belonging to **Niftaliyev Umud Oruj oglu**; on the military trousers with a waist belt, warm underpants, vest, pair of military boots and pair of socks belonging to **Jabbarov Orkhan Gatam oglu**; and on the military trousers with a waist belt, warm underpants, pair of military boots and pair of socks belonging to **Agayev Elchin Marifat oglu**; as well as on the military jacket, military sweater, long shirt and military

trousers with a waist belt, warm underpants, scarf, pair of military boots and three pairs of socks belonging to **Alizade Elmin Samir oglu**, no damage characteristic of injuries caused by fragments from an explosion or by bullets fired from firearms was found.

On the underwear, cap, right military boot and two pairs of socks belonging to **Khalilov Murad Galib oglu**; on the military trousers with a waist belt, warm underpants, undershirt, gloves, pair of military boots and pair of socks belonging to **Aliyev Elchin Ramil oglu**; on the pair of military boots and pair of socks belonging to **Niftaliyev Umud Oruj oglu**; on the military trousers with a waist belt, warm underpants, vest, pair of military boots and pair of socks belonging to **Jabbarov Orkhan Gatam oglu**; on the military trousers with a waist belt, warm underpants, pair of military boots and pair of socks belonging to **Agayev Elchin Marifat oglu**; and on the military jacket, military sweater, long-sleeved undershirt and military trousers with a waist belt, 1 pair of warm trousers, scarf, 1 pair of military boots and 3 pairs of socks belonging to **Alizade Elmin Samir oglu**, particles of the explosive substance (TNT) and incompletely burned smokeless powder were detected, which constituted an additional factor indicating that a shot had been fired.

Volume 160, case file pages 119–135

The victim, **Mammadov Asabali Khanlar oglu**, stated in his testimony that on **16.11.2021 at approximately 12:00, Post No. 40**, where they were located, came under fire from servicemen of the Armenian armed forces using incendiary bullets, mortars and anti-tank shells. At that time, **2 BTR-82A armored personnel carriers, 1 KAMAZ truck and 1 “Sandkat” infantry fighting vehicle** were parked in that area and came under rocket fire from the Armenian armed forces. At that time, a shell landed near them and exploded. As a result of the explosion, he felt severe pain in his ear and at the same time sustained wounds to his right leg and head. Then...

Page 459

He was sent to the medical station of **Military Unit No. 157**, then to **Military Hospital No. 230 in Ganja**, after which he was sent for examination to the **Main Clinical Hospital in Baku**, and subsequently underwent 15 days of inpatient treatment at the **Military Hospital of the Armed Forces in Baku**. He stated that the terrain where they were located at the time of the incident was hilly, mountainous and rocky; the distance between the positions of the Armenian servicemen and the positions where they were located at the time of the incident was, in some places, **1 kilometer**, in some places **500 meters**, and in some places **30 meters**.

Volume 169, case file pages 1–4, 9–12

The victim, **Mamizade Tabriz Isa oglu**, stated in his testimony that on **16.11.2021 at approximately 12:00, Post No. 40**, where they were located, came under fire from servicemen of the Armenian armed forces using incendiary bullets, mortars and anti-tank projectiles. At that time, **2 BTR-82A armored personnel carriers, 1 KAMAZ truck and 1 SandCat infantry fighting vehicle** parked in that area came under rocket fire from the Armenian armed forces. At that time, a mortar shell fell and exploded **5–6 meters** away from him, as a result of which he sustained wounds to his **right leg and the right side of his chest**. He was then sent to the medical station of **Military Unit No. 157**, then to the hospital in the **Kalbajar District**, and from there to **Military Hospital No. 230 in Ganja**. From **18.11.2021 to 08.12.2021**, he underwent inpatient treatment at the **Military Hospital**

of the Armed Forces in Baku. He stated that the terrain where they were located at the time of the incident was hilly, mountainous and rocky; the distance between the positions of the Armenian servicemen and the positions where they were located at the time of the incident was, in some places, **1 kilometer**, in some places **500 meters**, and in some places **30 meters**.

Volume 169, case file pages 16–19, 26–29

Volume 347, case file pages 203–206

The victim, **Makhmudov Eldeniz Abil oglu**, stated in his testimony that since **11.09.2021** he had been serving as a **feldsher at the medical station of the 2nd Battalion of Military Unit No. 701 of the Ministry of Defense**, and held the military rank of **warrant officer**. At noon on **16.11.2021**, the head of the communications reconnaissance unit, **Major Azer Gumbatov**, deputy commander of the 2nd Battalion for personnel **Major Ramiz Guliyev**, communications platoon signalman **Private Vugar Aliyev**, and he himself travelled to **Combat Position No. 39 of Military Unit No. 157** in a military medical vehicle driven by **Private Tural Aliyarov**. In the area they visited, two of the three hills contained positions of the Armenian armed forces, while the remaining hill contained a post of **Military Unit No. 157**.

That day, he saw **three Russian peacekeepers** speaking with **Major Azer Gumbatov**, head of reconnaissance of **Military Unit No. 701**. After speaking for approximately **35–40 minutes**, the peacekeepers left the area. Major Azer Gumbatov ordered them to take up their positions.

Approximately **20 minutes later**, the combat positions came under fire from servicemen of the Armenian armed forces using incendiary bullets, mortars and anti-tank rockets. First, an anti-tank rocket fired by the Armenian armed forces struck a **KAMAZ truck belonging to Military Unit No. 052**, and then an **armored personnel carrier belonging to Military Unit No. 567**. At that time, a projectile fell and exploded near him, as a result of which he sustained **barotrauma and crushing of the soft tissues in the crown area of his head**. He saw that **Namik Alizade** and **Elsevar Gadirov**, who were serving together with him at the time, had also been wounded. He later received medical assistance at the medical station of **Military Unit No. 157**.

He stated that the terrain where they were located at the time of the incident was hilly, mountainous and rocky; the distance between the positions of the Armenian servicemen and the positions where they were located at the time of the incident was, in some places, **3–4 kilometers**, in some places **500 meters**, and in some places **100–150 meters**.

Volume 169, case file pages 32–35, 40–43

Page 460

The victim, **Huseynov Elvin Sekhran oglu**, stated in his testimony that on **16.11.2021 at approximately 12:00, Post No. 40**, where they were located, came under fire from servicemen of the Armenian armed forces using incendiary bullets, mortars and anti-tank rockets. At that time, **2 BTR-82A armored personnel carriers, 1 KAMAZ truck and 1 SandCat infantry fighting vehicle** parked in the area came under rocket fire from the Armenian armed forces. At that time, a mortar shell fell and exploded **5–6 meters** away from him, causing **barotrauma**.

Later, on **19.11.2021**, he applied to the medical station of **Military Unit No. 157** because of his state of health and was sent to **Military Hospital No. 230 in Ganja**, and then to a military hospital in **Baku**, where he underwent **23 days of inpatient treatment in the neurological department**. He stated that the terrain where they were located at the time of the incident was hilly, mountainous and rocky; the distance between the positions of the Armenian servicemen and the positions where they were located at the time of the incident was, in some places, **1 kilometer**, in some places **500 meters**, and in some places **30 meters**.

Volume 169, case file pages 47–51, 57–60

The victim, **Kerimli Magerram Sakit oglu**, stated in his testimony that on **16.11.2021 at approximately 12:00, Post No. 40**, where they were located, came under fire from servicemen of the Armenian armed forces using incendiary bullets, mortars and anti-tank projectiles. At that time, **2 BTR-82A armored personnel carriers, 1 KAMAZ truck and 1 SandCat infantry fighting vehicle** parked in that area came under rocket fire from the Armenian armed forces.

At that time, while he, in his capacity as a **medical instructor**, was providing assistance to the wounded **Roman Teyubzade**, a projectile exploded next to him. As a result of the explosion, he fell, and a piece of stone that ricocheted from the ground scratched his **groin area**. Later, while he was attempting to assist another wounded man, **Hikmet Abdullayev**, another projectile fell and exploded nearby, as a result of which he sustained a **head injury**.

Later, on **19.11.2021**, he applied to the medical station of **Military Unit No. 157** because of his state of health and was sent to **Military Hospital No. 230 in Ganja**. He stated that the terrain where they were located at the time of the incident was hilly, mountainous and rocky; the distance between the positions of the Armenian servicemen and the positions where they were located at the time of the incident was, in some places, **1 kilometer**, in some places **500 meters**, and in some places **30 meters**.

Volume 169, case file pages 63–66, 71–74

The victim, **Khalilov Tural Nariman oglu**, stated in his testimony that on **16.11.2021 at approximately 12:00, Post No. 40**, where they were located, came under fire from servicemen of the Armenian armed forces using incendiary bullets, mortars and anti-tank projectiles. At that time, **2 BTR-82A armored personnel carriers, 1 KAMAZ truck and 1 SandCat infantry fighting vehicle** parked in that area came under rocket fire from the Armenian armed forces.

At that time, while he was providing assistance to the wounded **Roman**, a projectile fell and exploded beside him, as a result of which he sustained a **closed craniocerebral injury, including injuries to the head, right ear, right leg and right arm**. He was then sent to the medical station of **Military Unit No. 157**, from there to **Military Hospital No. 230 in Ganja**, and then underwent **29 days of inpatient treatment at the Main Clinical Hospital of the Armed Forces in Baku**.

He stated that the terrain where they were located at the time of the incident was hilly, mountainous and rocky; the distance between the positions of the Armenian servicemen and the positions where they were located at the time of the incident was, in some places, **1 kilometer**, in some places **500 meters**, and in some places **30–50 meters**.

Volume 169, case file pages 78–81, 87–90

The victim, **Bakdemirov Sahil Eldeniz oglu**, stated in his testimony that on **16.11.2021 at approximately 12:00, Post No. 40**, where they were located, came under fire from servicemen of the Armenian armed forces...

Page 461

...using incendiary bullets, mortars and anti-tank projectiles. At that time, a projectile fell and exploded approximately **7 meters** away from him, as a result of which he sustained **barotrauma**. He was then sent to the medical station of **Military Unit No. 157**, from there to **Military Hospital No. 230 in Ganja**, and was subsequently examined at the **Military Hospital in Baku**. He stated that the terrain where they were located at the time of the incident was hilly, mountainous and rocky; the distance between the positions of the Armenian servicemen and the positions where they were located at the time of the incident was, in some places, **1 kilometer**, in some places **500 meters**, and in some places **30–50 meters**.

Volume 169, case file pages 122–125, 130–133

The victim, **Shabanli Hamid Zakhir oglu**, stated in his testimony that on the morning of **16 November 2021**, information was received about an attack by Armenian armed formations on one of the posts of **Military Unit No. 157**. In order to provide support to that military unit, the command of **Military Unit No. 769** sent **Lieutenant Umud Niftaliyev, Lieutenant Arzu Piriyeve, Senior Lieutenant Emin Aliyev, Senior Lieutenant Rashad Mammadov, Warrant Officer Orkhan Jabbarov**, and other servicemen to the area. They arrived at a combat position of **Military Unit No. 157** in the village of **Minkend, Lachin District**. At that time, Armenian armed formations opened fire on them using machine guns and mortars. At that time, a **120-mm mortar round** fell and exploded near him, as a result of which he sustained injuries to his **spine and right arm**. He was then sent to the medical station of **Military Unit No. 157**, from there to **Military Hospital No. 524 in the Kalbajar District**, and subsequently to the **Main Military Hospital of the Armed Forces in Baku**, where he underwent inpatient treatment in the rehabilitation department from **25.11.2021 to 16.12.2021**. He stated that the terrain where they were located at the time of the incident was hilly, mountainous and rocky; the distance between the positions of the Armenian servicemen and the positions where they were located at the time of the incident was, in some places, **1 kilometer**, in some places **500 meters**, and in some places **30–50 meters**.

Volume 168, case file pages 142–145

The victim, **Abdullayev Hikmet Elman oglu**, stated in his testimony that on the morning of **16 November 2021** they went to reinforce an isolated post of **Military Unit No. 157**. At approximately **12:00** that same day, the post where they were located was shelled by servicemen of the Armenian armed forces using incendiary bullets, mortars and anti-tank projectiles. At that time, a projectile exploded next to him, and a fragment wounded his **right arm**; shortly thereafter, a second projectile exploded nearby, wounding his **left leg in the area of the knee and below the knee**. His fellow servicemen **Elgun Mammadli** and **Sahavat Aliyev** helped him get out of the area. He was then sent to the medical station of **Military Unit No. 157**, from there to a military hospital in the **Kalbajar District**, after which he underwent inpatient treatment for **3 months**, and was subsequently

treated at the **Main Military Clinical Hospital in Baku**. He stated that the terrain where they were located at the time of the incident was hilly, mountainous and rocky; the distance between the positions of the Armenian servicemen and the positions where they were located at the time of the incident was, in some places, **1 kilometer**, in some places **500 meters**, and in some places **30–50 meters**.

Volume 168, case file pages 154–157, 164–167

The victim, **Mammadli Elgun Nazim oglu**, stated in his testimony that on **16.11.2021** they split up and took up positions at different posts. At that time, **three Russian peacekeepers** were on the road at the intersection of Posts Nos. **39 and 40**. A lieutenant colonel was conducting negotiations with those peacekeepers, but they did not allow them to enter that area. Upon reaching **Combat Post No. 40**, Combat Posts Nos. **39 and 40** were shelled by servicemen of the Armenian armed formations using incendiary bullets, mortars and anti-tank projectiles. At that...

Page 462

...moment, a projectile exploded next to him, throwing him to the ground, and he experienced **dizziness and darkening of vision**. The servicemen who were with him at the time — **Tabriz Mamizade, Roman Teyubzade, Hikmet Abdullayev, Iskender Adigozalov and Sahavat Aliyev** — were also wounded. He was then taken to the medical station of **Military Unit No. 157**, from there to a hospital in the **Kalbajar District**, then evacuated to **Hospital No. 230 in Ganja**, and subsequently to the **Main Military Clinical Hospital in Baku**. He stated that the terrain where they were located at the time of the incident was hilly, mountainous and rocky; the distance between the positions of the Armenian servicemen and the positions where they were located at the time of the incident was, in some places, **1 kilometer**, in some places **500 meters**, and in some places **30–50 meters**.

Volume 172, case file pages 1–4, 7–10

The victim, **Agayev Orkhan Gambar oglu**, stated in his testimony that on **16.11.2021** they split up and took up positions at different posts. At that time, **three Russian peacekeepers** were on the road at the intersection of Posts Nos. **39 and 40**. The head of reconnaissance of **Military Unit No. 701**, an officer holding the rank of major whose name he did not know, conducted negotiations with those peacekeepers, but the peacekeepers did not allow them to enter that area. Approximately **10 minutes** after the peacekeepers left, Combat Posts Nos. **39 and 40** were shelled by servicemen of the Armenian armed forces using incendiary bullets, mortars and anti-tank projectiles. At that time, an **anti-tank projectile** exploded next to him. As a result of the blast, he was thrown **7–8 meters** to the side and lost consciousness. On **17.11.2021**, he regained consciousness at the medical station of **Military Unit No. 157** and learned that, as a result of the incident, he had sustained injuries to his **nose and left eyebrow**. They were then evacuated to **Hospital No. 230 in Ganja**, and subsequently to the **Main Military Clinical Hospital in Baku**. He stated that the terrain where they were located at the time of the incident was hilly, mountainous and rocky; the distance between the positions of the Armenian servicemen and the positions where they were located at the time of the incident was, in some places, **1 kilometer**, in some places **500 meters**, and in some places **150 meters**.

Volume 172, case file pages 13–16, 21–24

The victim, **Jafarov Muzaffar Eldar oğlu**, stated in his testimony that at noon on **16.11.2021**, while he was in the **Kilsalidag area**, where the **4th Battalion** was stationed, the battalion commander, **Major Shakhmar Hajiyeu**, contacted him by radio and informed him that fighting was taking place at **Combat Position L-40 in the village of Minkend, Lachin District**, between the Armenian armed forces and their servicemen, and that he was heading to that area to assist the wounded servicemen. He immediately proceeded to the indicated area in the battalion's ambulance, bearing military registration plate **B 251 QQ**, driven by **Jafarov Ramin Zohrab oğlu**, and in fact witnessed intense fighting in the area. After providing first aid to **four wounded soldiers** in a ravine near Post No. 40 in that area, he placed them in the ambulance so that they would not lose blood and ordered the driver, **Ramin Jafarov**, to remove them from the area as quickly as possible. On the road, servicemen of the Armenian armed forces opened fire on the ambulance, and one of the bullets struck the **front right wheel** of the vehicle and entered the passenger compartment, injuring his **knee**. He immediately removed the wounded servicemen from the vehicle, took them to a safe distance of approximately **500 meters**, and handed them over to the head of the medical service of **Military Unit No. 157, Major Gafur Hasanov**. He and the wounded servicemen were sent to the medical station of **Military Unit No. 157**, from there to a hospital in the **Kalbajar District**, then to **Military Hospital No. 230 in Ganja**, and subsequently to the **Military Hospital of the Armed Forces**, where he underwent inpatient treatment for **1 month and 15 days**. He stated that the terrain where they were located at the time of the incident was hilly, mountainous and rocky; the distance between the positions of the Armenian servicemen and the positions where they were located at the time...

Page 463

of the incident was, in some places, **1 kilometer**, in some places **500 meters**, and in some places **30 meters**.

Volume 172, case file pages 84–87, 88–91

The victim, **Rustamli Parviz Ikhtiyar oğlu**, stated in his testimony that on **16.11.2021** they split up and took up positions at different posts. At that time, three Russian peacekeepers were on the road at the intersection of Posts Nos. **39 and 40**; one of those peacekeepers, who held the rank of colonel, was speaking with the head of reconnaissance of **Military Unit No. 701, Major Azer Gumbatov**. However, the peacekeepers did not allow them to enter the territory, after which the peacekeeper holding the rank of colonel got into a vehicle and drove toward the positions of the Armenian armed forces. Approximately **10 minutes later**, Combat Posts Nos. **39 and 40** were shelled by servicemen of the Armenian armed forces using incendiary bullets, mortars and anti-tank projectiles. At that time, a projectile fell and exploded **5–6 meters** away from him. The blast wave knocked him off his feet, as a result of which he sustained **barotrauma**. He was then sent to the medical station of **Military Unit No. 157**, then to **Military Hospital No. 230 in Ganja**, and subsequently to the **Baku Military Clinical Hospital in Baku**. He stated that, since the terrain where they were located at the time of the incident was hilly, mountainous and rocky, the distance between the positions of the Armenian servicemen and the positions where they were located at the time of the incident was, in some places, **1 kilometer**, in some places **500 meters**, and in some places **30 meters**.

Volume 226, case file pages 1–4, 9–12

The victim, **Jabbarli Rasim Oruj oglu**, stated in his testimony that on **16.11.2021** they split up and took up positions at different posts. They went to reinforce **Combat Post No. 40**. At that time, three Russian peacekeepers were on the road at the intersection of Posts Nos. **39 and 40**; one of those peacekeepers, who held the rank of colonel, was speaking with the head of reconnaissance of **Military Unit No. 701, Major Azer Gumbatov**. However, the peacekeepers did not allow them to enter the territory, after which the peacekeeper holding the rank of colonel got into a vehicle and drove toward the positions of the Armenian armed forces. Approximately **10 minutes later**, Combat Posts Nos. **39 and 40** were shelled by servicemen of the Armenian armed forces using incendiary bullets, mortars and anti-tank projectiles. At that time, a projectile fell and exploded **2–3 meters** away from him. The blast wave knocked him off his feet, as a result of which he sustained **barotrauma**. He was then sent to the medical station of **Military Unit No. 157**, then to **Military Hospital No. 230 in Ganja**, and subsequently to the **Baku Military Clinical Hospital in Baku**. He stated that, since the terrain where they were located at the time of the incident was hilly, mountainous and rocky, the distance between the positions of the Armenian servicemen and the positions where they were located at the time of the incident was, in some places, **1 kilometer**, in some places **500 meters**, and in some places **30 meters**.

Volume 226, case file pages 16–19, 25–28

The victim, **Manafli Madat Elbrus oglu**, stated in his testimony that on **16.11.2021** he saw three Russian peacekeepers speaking with the head of reconnaissance of **Military Unit No. 701, Major Azer Gumbatov**. After speaking for approximately **35–40 minutes**, the peacekeepers left the area. Major Azer Gumbatov ordered them to take up their positions. Approximately **20 minutes later**, the combat posts were shelled by servicemen of the Armenian armed forces using incendiary bullets, mortars and anti-tank rockets. First, an anti-tank rocket fired by the Armenian armed forces struck a **KAMAZ truck belonging to Military Unit No. 052**, and then an **armored personnel carrier belonging to Military Unit No. 567**. At that time, a projectile exploded next to him, as a result of which he sustained **barotrauma, a closed blunt spinal injury and an uncomplicated stable compression fracture of the L2 vertebral body**. He saw that **Namig Alizade** and **Elsevar Gadirov**, who were serving together with him at that time, had also been wounded. He stated that, since the terrain where they were located at the time of the incident was hilly, mountainous and rocky, the distance between the positions of the Armenian servicemen and the positions where they were located at the time of the incident was, in some places, **3–4 kilometers**, in some places **500 meters**, and in some places **100–150 meters**.

Page 464

Volume 226, case file pages 31–34, 41–44

The victim, **Gadirov Elsevar Elkhan oglu**, stated in his testimony that on **16.11.2021**, acting as a driver, he transported personnel in a **KAMAZ truck** to **Combat Position No. 39**. At that time, he saw three Russian peacekeepers speaking with the head of reconnaissance of **Military Unit No. 701, Major Azer Gumbatov**. After speaking for approximately **35–40 minutes**, the peacekeepers left the area. Major Azer Gumbatov ordered them to take up their positions. Approximately **20 minutes later**, the combat posts were shelled by servicemen of the Armenian armed forces using incendiary bullets, mortars and anti-tank rockets. First, an

anti-tank rocket fired by the Armenian armed forces struck a **KAMAZ truck belonging to Military Unit No. 052**, and then an **armored personnel carrier belonging to Military Unit No. 567**. At that time, a projectile fell and exploded next to him, as a result of which he sustained a **closed craniocerebral injury and a comminuted fracture of the left leg**. He saw that **Namig Alizade** and **Madat Manafli**, who were serving together with him at that time, had also been wounded. He stated that, since the terrain where they were located at the time of the incident was hilly, mountainous and rocky, the distance between the positions of the Armenian servicemen and the positions where they were located at the time of the incident was, in some places, **3–4 kilometers**, in some places **500 meters**, and in some places **100–150 meters**.

Volume 226, case file pages 47–50, 56–59

The victim, **Almasov Nurlan Nabil oglu**, stated in his testimony that on **16.11.2021** they split up and took up positions at different posts. They went to reinforce **Combat Post No. 40**. At that time, three Russian peacekeepers were on the road at the intersection of Posts Nos. **39 and 40**; one of those peacekeepers, who held the rank of colonel, was speaking with the head of reconnaissance of **Military Unit No. 701, Major Azer Gumbatov**. However, the peacekeepers did not allow them to enter the territory, after which the peacekeeper holding the rank of colonel got into a vehicle and drove toward the positions of the Armenian armed forces. Approximately **10 minutes later**, Combat Posts Nos. **39 and 40** were shelled by servicemen of the Armenian armed forces using incendiary bullets, mortars and anti-tank projectiles. At that time, a **mortar mine** fell **2–3 meters** away from him and exploded. A fragment struck the cap on his head and then the automatic rifle in his hand, rendering the rifle unusable. After the shelling ceased, he was sent to the medical station of **Military Unit No. 157**, then to **Military Hospital No. 230 in Ganja**, and subsequently to the **Baku Military Clinical Hospital in Baku**. He stated that, since the terrain where they were located at the time of the incident was hilly, mountainous and rocky, the distance between the positions of the Armenian servicemen and the positions where they were located at the time of the incident was, in some places, **1 kilometer**, in some places **500 meters**, and in some places **30 meters**.

...got into a vehicle and drove toward the positions of the Armenian armed forces. Approximately **10 minutes later**, Combat Posts Nos. **39 and 40** were shelled by servicemen of the Armenian armed forces using incendiary bullets, mortars and anti-tank projectiles. At that time, a mortar round fell and exploded **2–3 meters** away from him; as a result of the explosion, he sustained a **lacerated wound to the throat and nervous problems**. After the firing ceased, he was sent to the medical station of **Military Unit No. 157**, and then

to **Military Hospital No. 230 in Ganja**, where he underwent examination. He stated that, since the terrain where they were located at the time of the incident was hilly, mountainous and rocky, the distance between the positions of the Armenian servicemen and the positions where they were located at the time of the incident was, in some places, **1 kilometer**, in some places **500 meters**, and in some places **30 meters**.

Volume 226, case file pages 77–80, 85–88

The victim, **Akhundov MaZakhir Alim oglu**, stated in his testimony that on **16.11.2021** they split up and took up positions at different posts. They went to reinforce **Combat Post No. 40**. At that time, three Russian peacekeepers were on the road at the intersection of Posts Nos. **39 and 40**; one of those peacekeepers, who held the rank of colonel, was speaking with the head of reconnaissance of **Military Unit No. 701, Major Azer Gumbatov**. However, the peacekeepers did not allow them to enter the territory, after which the peacekeeper holding the rank of colonel got into a vehicle and drove toward the positions of the Armenian armed forces. Approximately **10 minutes later**, Combat Posts Nos. **39 and 40** were shelled by servicemen of the Armenian armed forces using incendiary bullets, mortars and anti-tank projectiles. At that time, a mortar round fell and exploded **2–3 meters** away from him. The blast wave first struck his back and then his ears, causing pain in his ears and back.

The servicemen who were with him at that time — **Roman Teyubzade, Hikmet Abdullayev, Iskender Adigozalov and Sahavat Aliyev** — sustained serious injuries. Together with **Elgun Mammadli**, he evacuated them to an open area accessible to an ambulance. A military ambulance that arrived to provide assistance to the wounded also came under fire, as a result of which the doctor of the **4th Battalion of Military Unit No. 157** who was inside it sustained a leg injury. After the firing ceased, he was evacuated to the medical station of **Military Unit No. 157**, then to **Military Hospital No. 230 in Ganja**, from there to a hospital in the **Shamkir District**, and then to the **Baku Military Clinical Hospital in Baku**. He was then sent back to **Military Hospital No. 230 in Ganja**, where he underwent inpatient treatment for **14 days** with a diagnosis of “**spinal hernia**.”

He stated that, since the terrain where they were located at the time of the incident was hilly, mountainous and rocky, the distance between the positions of the Armenian servicemen and the positions where they were located at the time of the incident was, in some places, **1 kilometer**, in some places **500 meters**, and in some places **30 meters**.

Volume 226, case file pages 92–95, 100–103

The victim, **Isayev Elmaddin Nariman oglu**, stated in his testimony that on **16.11.2021** they split up and took up positions at different posts. They went to reinforce **Combat Post No. 40**. At that time, three Russian peacekeepers were on the road at the intersection of Posts Nos. **39 and 40**; one of those peacekeepers, who held the rank of colonel, was speaking with the head of reconnaissance of **Military Unit No. 701, Major Azer Gumbatov**. However, the peacekeepers did not allow them to enter the territory, after which the peacekeeper holding the rank of colonel got into a vehicle and drove toward the positions of the Armenian armed forces. Approximately **10 minutes later**, Combat Posts Nos. **39 and 40** were shelled by servicemen of the Armenian armed forces using incendiary bullets, mortars and anti-tank projectiles. At that time, a mortar round fell and exploded **5–6 meters** away from him; the blast wave threw him to the ground, as a result of which he sustained **barotrauma**.

The servicemen who were with him at that time — **Tabriz Mamizade, Roman Teyubzade, Hikmet Abdullayev, Iskender Adigozalov and Sahavat Aliyev** — were also wounded. The following day, he was sent to the medical station of **Military Unit No. 157**, then to **Military Hospital No. 230 in Ganja**, and from there to a hospital in the **Shamkir District**, where he underwent examination. He stated that, since the terrain where they were located at the time of the incident was hilly, mountainous and rocky, the distance between the positions of the Armenian servicemen and the positions where they were located at the time of the incident was, in some places, **1 kilometer**, in some places **500 meters**, and in some places **30 meters**.

Volume 226, case file pages 107–110, 115–118

The victim, **Hasanov Zamir Namig oglu**, stated in his testimony that on **16.11.2021** they split up and took up positions at different posts. They went to reinforce **Combat Post No. 40**. At that time, three Russian peacekeepers were on the road at the intersection of Posts Nos. **39 and 40**; one of those peacekeepers, who held the rank of colonel, was speaking with the head of reconnaissance of **Military Unit No. 701, Major Azer Gumbatov**. However, the peacekeepers did not allow them to enter the territory, after which the peacekeeper holding the rank of colonel got into a vehicle and drove toward the positions of the Armenian armed forces. Approximately **10 minutes later**, Combat Posts Nos. **39 and 40** were shelled by servicemen of the Armenian armed forces using incendiary bullets, mortars and anti-tank projectiles. At that time, a mortar round fell and exploded **1–2 meters** away from him. The blast wave caused him severe pain in the head, dizziness and ringing in the ears. The servicemen who were with him at that time — **Tabriz Mamizade, Roman Teyubzade, Hikmet Abdullayev, Iskender Adigozalov and Sahavat Aliyev** — were also wounded.

As the **head of the post**, he remained at that post for **10 days**, after which he was evacuated to **Military Hospital No. 230 in Ganja**, and from there to the **Baku Military Clinical Hospital in Baku**, where he underwent inpatient treatment. He stated that, since the terrain where they were located at the time of the incident was hilly, mountainous and rocky, the distance between the positions of the Armenian servicemen and the positions where they were located at the time of the incident was, in some places, **1 kilometer**, in some places **500 meters**, and in some places **30 meters**.

Volume 226, case file pages 123–126, 132–135

The victim, **Alizade Namig Natig oglu**, stated in his testimony that on **16.11.2021** he saw three Russian peacekeepers speaking with the head of reconnaissance of **Military Unit No. 701, Major Azer Gumbatov**. After speaking for approximately **35–40 minutes**, the peacekeepers left the area. Major Azer Gumbatov ordered them to take up their positions. Approximately **20 minutes later**, the combat posts were shelled by servicemen of the Armenian armed forces using incendiary bullets, mortars and anti-tank rockets. First, an anti-tank rocket fired by the Armenian armed forces struck a **KAMAZ truck belonging to Military Unit No. 052**, and then an **armored personnel carrier belonging to Military Unit No. 567**. At that time, a projectile exploded next to him, as a result of which he sustained a **jaw injury**. He saw that **Vugar Aliyev and Elsevar Gadirov**, who were serving together with him at that time, had also been wounded.

He stated that, since the terrain where they were located at the time of the incident was hilly, mountainous and rocky, the distance between the positions of the Armenian servicemen and the positions where they were located at the time of the incident was, in some places, **3–4 kilometers**, in some places **500 meters**, and in some places **100–150 meters**.

...minutes later, **Combat Posts Nos. 39 and 40** came under fire from servicemen of the Armenian armed forces using incendiary bullets, mortars and anti-tank projectiles. At that time, a projectile exploded next to him; the impact knocked him to the ground, and he sustained shrapnel wounds to his **right arm and left shoulder**, as well as **head injuries**. At that time, **Murad Khalilov**, a soldier of **Military Unit No. 157**, was killed. At the same time, an ambulance that had arrived to assist the wounded soldiers was also fired upon by Armenian armed formations while evacuating them, as a result of which a doctor of the **4th Battalion of Military Unit No. 157** was wounded in the leg. He and the other wounded were then evacuated to the medical station of **Military Unit No. 157**. He was subsequently evacuated to **Hospital No. 230**, and then to the **Baku Military Clinical Hospital**, where he underwent inpatient treatment for **1 month**.

Volume 227, case file pages 105–108, 114–117

The victim, **Kazimov Kamran Eyvaz oglu**, stated in his testimony that on the morning of **15 November 2021**, on instructions from the command of the military unit, together with **Captain Elnur Pashayev, Lieutenant Robert Ramazanov, Warrant Officer Feyzi Mustafayev**, and other servicemen serving in the same military unit, he was sent to an unknown village in the **Kalbajar District**, where they stayed for one day. On the morning

of **16 November 2021**, they were sent to one of the posts of **Military Unit No. 157**, located in an unknown village in the **Lachin District**. The command instructed him and his fellow servicemen to hold negotiations with servicemen of the Armenian armed forces in that area, within the borders of the Republic of Azerbaijan, and to secure their withdrawal from the positions they occupied; if they resisted, they were instructed to disarm them and hand them over to the command. Therefore, under the leadership of **Captain Elnur Pashayev**, a group of **25 personnel** approached the positions of the Armenian armed forces.

As a result of a dialogue between Captain Elnur Pashayev and **13–14 servicemen of the Armenian armed forces** stationed at that position, the Armenian servicemen expressed their firm refusal to leave the positions. A hand-to-hand fight broke out between the sides. He grabbed the automatic weapon of a member of the Armenian armed group who was standing in front of him and struck him in the face several times with the stock. He fell to the ground but did not let go of his weapon. The fallen serviceman of the Armenian armed formation opened fire with his automatic weapon; a bullet struck him in the abdomen, but he did not sustain serious injuries because he was wearing a bulletproof vest. However, when the bullet struck the metal part of the bulletproof vest, the metal broke and injured his abdominal cavity.

One of his fellow servicemen opened fire and killed that member of the Armenian armed group; another serviceman neutralized another serviceman who was offering armed resistance. The servicemen of the Armenian armed forces later surrendered their weapons. At that time, they took from the area **one living member of the Armenian armed group and the body of another**, as well as weapons and ammunition, loaded them into a **KamAZ** vehicle, transported them to the **Kalbajar District**, and handed them over to the command.

Volume 227, case file pages 209–212, 217–220

The victim, **Aliyev Hasan Ibrahim oglu**, stated in his testimony that on **16.11.2021**, while he was with his fellow servicemen at **Combat Post No. 42**, whose exact name he did not know and which was located **70 meters** from their post, they came under fire with incendiary bullets, mortars and anti-tank rockets. At that time, approximately **100 servicemen of the Armenian armed forces** also attacked the post where they were located. At that time, an **RQD-7 projectile** fell **1–2 meters** away from him, and the blast wave threw him aside.

Volume 227, case file pages 224–227, 232–235

The victim, **Mehdizade Huseyn Rovshan oglu**, stated in his testimony that at approximately **12:00–13:00 on 16.11.2021**, servicemen of the Armenian armed forces began shelling **Posts Nos. 39 and 40**, and...

Page 470

...then **Post No. 42**, where they were located, using incendiary bullets, mortars and anti-tank rockets. At that time, **Captain Khagani Aliyev**, chief of staff of the battalion, was commanding them at Post No. 42. At that time, he sustained **“blast trauma, barotrauma of both ears and a closed craniocerebral injury”** as a result of two mortar shells falling nearby. He was then sent to the medical station of **Military Unit No. 157**, and from there to a hospital in the **Kalbajar District**. He was subsequently sent to **Military Hospital No. 230 in**

Ganja, and then to the **Baku Military Clinical Hospital in Baku**. He stated that, since the terrain where they were located at the time of the incident was hilly, mountainous and rocky, the distance between the positions of the Armenian servicemen and the positions where they were located at the time of the incident was, in some places, **1 kilometer**, in some places **500 meters**, and in some places **30 meters**. At that time, soldiers **Rahim Shahverdiyev** and **Hasan Aliyev**, who were serving with him, were also wounded.

Volume 227, case file pages 239–242, 248–251

The victim, **Guliyev Gulu Isakhan oglu**, stated in his testimony that at approximately **12:00–13:00 on 16.11.2021**, servicemen of the **armed forces of Armenia** began shelling **Posts Nos. 39 and 40** using incendiary bullets, mortars and anti-tank rockets. At that time, as a result of a mortar shell exploding next to him, he sustained **“blast trauma, a blind shrapnel wound of the second toe of the left foot, and a shrapnel wound of the soft tissues of the chest.”** He was then sent to the medical station of **Military Unit No. 157**, and from there to a hospital in the **Kalbajar District**.

Volume 227, case file pages 254–257, 263–266

The victim, **Farzaliyev Sanan Famil oglu**, stated in his testimony that at around noon on **16 November 2021**, while he was delivering food to the posts in a **KamAZ** vehicle bearing military registration plate **J 229 QQ**, servicemen of the Armenian armed forces fired an anti-tank rocket at the vehicle he was driving. He was sent to a hospital in the **Kalbajar District** with injuries diagnosed as **“blast trauma, closed craniocerebral injury, concussion, and a blind shrapnel wound of the soft tissues of the neck.”** He was then sent to **Military Hospital No. 230 in Ganja**, and subsequently to a military hospital in **Baku**. **Senior Warrant Officer Beyokkishu Huseynov, Junior Warrant Officer Elchin Hasanov, and Private Ravan Tahmazov**, who were in the vehicle at the time of the incident, also sustained injuries of varying severity.

Volume 228, case file pages 1–4, 10–13

The victim, **Shahverdiyev Rahim Sadraddin oglu**, stated in his testimony that at approximately **11:00 on 16.11.2021**, while observing the positions of the Armenian armed forces through binoculars, he saw a person in the uniform of a **Russian peacekeeper** arrive there by vehicle, line up the soldiers and give them instructions. After that person drove away, servicemen of the Armenian armed forces moved on foot toward their positions, after which the Armenian servicemen began firing at their positions using incendiary bullets, mortars and anti-tank rockets. As soon as the shooting began, an **RPG-7 projectile** exploded next to him, wounding his **right arm**. He was then sent to the medical station of **Military Unit No. 157**, from there to a hospital in the **Kalbajar District**, then to **Military Hospital No. 230 in Ganja**, and subsequently to a military hospital in **Baku**, where he underwent inpatient treatment for **20 days**.

Volume 228, case file pages 16–19, 24–27

The victim, **Malikov Jafar Gurban oglu**, stated in his testimony that at approximately **11:00 on 16.11.2021**, while observing the positions of the Armenian armed forces through binoculars, he saw a person in the uniform of a **Russian peacekeeper** arrive there by vehicle, line up the soldiers and give them instructions. After that person drove away, servicemen of

the Armenian armed forces moved on foot toward their positions, after which the Armenian...

Page 471

...servicemen of the Armenian armed forces began firing at their positions using incendiary bullets, mortars and anti-tank rockets. As soon as the firing began, he set up a sector among the trees and stumps near the post and returned fire with a machine gun. At that time, a projectile fell near him; he saw blood begin to flow from his nose, and at the same time he sustained injuries to his nose and left temple. He was then sent to the medical station of **Military Unit No. 157**, and from there to a hospital in the **Kalbajar District**. He was subsequently sent to **Military Hospital No. 230 in Ganja**, and then to a military hospital in **Baku**, where he underwent inpatient treatment for **1 month**.

Volume 228, case file pages 31–34, 39–42

The victim, **Hasanov Gafur Jamaladdin oglu**, stated in his testimony that at noon on **16.11.2021**, while travelling from the village of **Bozlu, Lachin District**, where he was serving, to an area called **Kisalidag**, where the **4th Battalion** was stationed, the deputy commander of the **4th Army Corps** contacted him by radio and informed him that fighting was taking place between personnel at **Posts Nos. 35–42** and Armenian armed formations positioned opposite them in the village of **Minkend, Lachin District**, that there were wounded among them and that first aid had to be provided. He immediately proceeded to the indicated location, and shortly before they reached **Checkpoint No. 39**, the vehicle in which they were travelling came under fire, and he and the driver, **Simran Shafagatov**, were thrown from the vehicle onto the ground. At that moment, a projectile fell **4–5 meters** away from him and exploded. When he regained consciousness, he saw blood flowing from his left ear and realized that he had sustained barotrauma. Despite his injury, he assisted the wounded soldiers at **Posts Nos. 39, 40, 41 and 42** and organized their evacuation. He was then sent to the medical station of **Military Unit No. 157**, and from there to **Hospital No. 524 in the Kalbajar District**. He was subsequently sent to **Military Hospital No. 230 in Ganja**, and then to a military hospital in **Baku**, where he underwent examination and returned to his place of service.

Volume 228, case file pages 105–108, 113–116

The victim, **Jafarov Ramin Zohrab oglu**, stated in his testimony that at noon on **16.11.2021**, while he was in the **Kisalidag** area, where the **4th Battalion** was stationed, having arrived there from the village of **Bozlu, Lachin District**, where he was serving, the command informed him that fighting was taking place between personnel at **Posts Nos. 35–42** and Armenian armed formations positioned opposite them in the village of **Minkend, Lachin District**. Since there were wounded among the personnel and they required first aid, it was ordered that **Dr. Muzaffar Jafarov** proceed there together with him. He immediately went to the indicated location and saw wounded soldiers near **Post No. 41**. He wanted to quickly evacuate the wounded from the area in his vehicle so that they would not lose too much blood. At that time, the vehicle came under fire from servicemen of the Armenian armed forces, and one of the bullets struck the **front right wheel of the vehicle**. **Dr. Muzaffar Jafarov**, who was inside the vehicle at the time, sustained a gunshot wound to the knee. They got out of the vehicle and attempted to move to a safe place; at that time, a projectile

exploded **20 meters** away from them. The blast wave threw him against a vehicle standing nearby, causing him to vomit and experience pain in his back and head.

Volume 228, case file pages 120–123, 128–131

The victim, **Aslanli Elgun Elchin oglu**, stated in his testimony that at noon on **16.11.2021**, while he was at designated **Post No. 40**, servicemen of the Armenian armed forces began firing at their positions using incendiary bullets, mortars and anti-tank rockets. At that time, while he was attempting to take cover from the fire in a trench, one of the projectiles fired at that time fell **5 meters** away from him and exploded, and the force of the explosion threw him to the side. At that time, he felt severe pain throughout his body.

Page 472

After the firing ceased in the evening, he was sent to the medical station of **Military Unit No. 157**, and from there to a hospital in the **Kalbajar District**.

Volume 228, case file pages 136–138, 143–145

The victim, **Mammadov Amil Vahid oglu**, stated in his testimony that at noon on **16 November 2021**, he was in a vehicle together with his fellow servicemen, **Ragib Mirzayev** and others, when the positions of **Military Unit No. 157**, including the territory where they were located, came under fire from servicemen of the Armenian armed forces using incendiary bullets, mortars and anti-tank rockets. At that time, when they were already preparing to get out of the **SandCat** vehicle and take up positions, they heard the commander of the military unit, **Fakhraddin Javadov**, say: “**Incoming shell, take up positions.**” When he tried to lie down on the ground, a projectile struck the **SandCat** vehicle, and the force of the explosion threw him to the side, causing ringing in his ears, dizziness and darkening of his vision. Later, in that condition, he was sent to the medical station of **Military Unit No. 157**, and from there to a hospital in the **Kalbajar District**.

Volume 228, case file pages 148–150, 155–157

The victim, **Mirzayev Ragib Teyub oglu**, stated in his testimony that at noon on **16 November 2021**, he was in a vehicle together with his fellow servicemen, **Amil Mammadov** and others, when the positions of **Military Unit No. 157**, including the territory where they were located, came under fire from servicemen of the Armenian armed forces using incendiary bullets, mortars and anti-tank rockets. At that time, when they were already preparing to get out of the **SandCat** vehicle and take up positions, they heard the commander of the military unit, **Fakhraddin Javadov**, say: “**Incoming shell, take up positions.**” When he tried to lie down on the ground, a projectile struck the **SandCat** vehicle, and the force of the explosion threw him to the side, causing ringing in his ears, dizziness and darkening of his vision. Later, in that condition, he was sent to the medical station of **Military Unit No. 157**, from there to a hospital in the **Kalbajar District**, and then to **Military Hospital No. 230 in Ganja**.

Volume 228, case file pages 160–162, 167–169

The victim, **Ismayilli Farhad Yaser oglu**, stated in his testimony that at noon on **16.11.2021**, while he was on duty at **Combat Post No. 307** in the so-called “**4th District**” of **Military**

Unit No. 157 in the **Lachin District** for the purpose of reinforcement, the area where they were located came under fire from servicemen of the Armenian armed forces using incendiary bullets, mortars and anti-tank projectiles. At that time, while he was about to go to the tent at the post to retrieve his weapon and ammunition, one of the projectiles fired by the Armenian armed forces fell **7–8 meters** away from him and exploded. The force of the explosion threw him to the side, causing ringing in his ears, dizziness and darkening of his vision. Later, in that condition, he was sent to the medical station of **Military Unit No. 157**, from there to a hospital in the **Kalbajar District**, and then to **Military Hospital No. 230 in Ganja**.

Volume 228, case file pages 176–178

The victim, **Aliyev Elgun Elshan oglu**, stated in his testimony that at noon on **16.11.2021**, while he was on duty for reinforcement purposes at a combat post, the number of which he does not remember, located in the so-called “**4th District**” of **Military Unit No. 157** in the **Lachin District**, the area where they were located came under fire from servicemen of the Armenian armed forces using incendiary bullets, mortars and anti-tank projectiles. At that time, while he was trying to relocate using a trench, one of the projectiles fired by representatives of the Armenian armed forces fell approximately **50 meters** away from him and exploded. The force of the explosion threw him to the side, as a result of which he **lost his hearing and felt...**

Page 473

...dizziness and darkening of vision. Later, in that condition, he was sent to the medical station of **Military Unit No. 157**, from there to a hospital in the **Kalbajar District**, and then to **Military Hospital No. 230 in Ganja**. Later, he was sent to the **Baku Military Clinical Hospital**, and then underwent inpatient treatment for **3–4 days** at the medical center of **Military Unit No. 888**.

Volume 228, case file pages 186–188

The victim, **Sadygov Markaz Jahid oglu**, stated in his testimony that at noon on **16.11.2021**, while he was on duty at a combat post, the number of which he does not remember, located in the so-called “**4th District**” of **Military Unit No. 157 in the Lachin District**, for reinforcement purposes, the area where they were located came under fire from servicemen of the Armenian armed forces using incendiary bullets, mortars and anti-tank projectiles. That evening, one of the projectiles fired by representatives of the Armenian armed forces fell **7–8 meters** away from him and exploded. The force of the explosion threw him to the side, as a result of which he lost his hearing, his head began spinning, and he lost consciousness and vision. Later, in that condition, he was sent to the medical station of **Military Unit No. 157**, from there to a hospital in the **Kalbajar District**, and then to **Military Hospital No. 230 in Ganja**. Later, he was sent to a hospital in the **Kalbajar District**, where he underwent inpatient treatment for **1 day**. He stated that the terrain where they were located at the time of the incident was hilly, mountainous and rocky; the distance between the positions of the Armenian servicemen and the position where they were located at the time of the incident was, in some places, **1 kilometer**, in some places **500 meters**, and in some places **30 meters**.

Volume 228, case file pages 196–198

The victim, **Huseynov Oruj Nabi oğlu**, stated in his testimony that at noon on **16.11.2021**, while at his post, servicemen of the Armenian armed forces began shelling their posts using incendiary bullets, mortars and anti-tank rockets. When they tried to take cover from the fire by going down into the bed of a stream, a mortar shell fell beside him, as a result of which he sustained shrapnel wounds to his back and legs. He was treated at a military hospital in **Ganja** for the injuries sustained and, in addition, was hospitalized for **2 months in the psychiatric department in Sheki**. He stated that, since the terrain where they were located at the time of the incident was hilly, mountainous and rocky, the distance between the positions of the Armenian servicemen and the position where they were located at the time of the incident was, in some places, **1 kilometer**, in some places **500 meters**, and in some places **30 meters**.

Volume 235, case file pages 1–3, 8–10

The victim, **Yusifov Habil Habil oğlu**, stated in his testimony that at noon on **16.11.2021**, while at his post, servicemen of the Armenian armed forces began shelling their posts using incendiary bullets, mortars and anti-tank rockets. He tried to take up a position by crouching behind a bush and a tree trunk. At that time, fog descended over their position, and after it cleared, they saw servicemen of the Armenian armed forces approaching their position and opened fire on them. At that time, while attempting to remove his wounded fellow serviceman **Emin Alizade** from the zone of fire, he himself sustained a gunshot wound to the back. He was treated at a military hospital for the injuries sustained, after which he completed his service and was demobilized from the army.

Volume 235, case file pages 13–15, 20–23

The victim, **Nagiyev Murad Tahir oğlu**, stated in his testimony that they had been informed of a concentration of a large amount of personnel and equipment. At approximately **11:00 on 16.11.2021**, while he was at the post, servicemen of the Armed Forces of Armenia began shelling their posts using incendiary bullets, mortars and anti-tank rockets. He saw how...

Page 474

...a projectile fell in front of the trench in which he was located, and when he tried to change position, he felt pain in his head and saw blood flowing from his head. After the firing ceased in the evening, he was sent to the medical station of **Military Unit No. 157**, from there to a hospital in the **Kalbajar District**. He was then sent to **Military Hospital No. 230 in Ganja**, but there he was told that surgery on his head would be dangerous, and the fragment remained in his head. Later, he learned that his fellow serviceman **Elchin Agayev** had become a **shahid**.

Volume 235, case file pages 39–42, 47–49

The victim, **Gulaliyev Murad Bakhtiyar oğlu**, stated in his testimony that at approximately **11:00 on 16.11.2021**, while at the post, servicemen of the Armed Forces of Armenia began shelling their posts using incendiary bullets, mortars and anti-tank rockets. He returned fire using the **PK machine gun** that was being used at the time. His fellow serviceman **Eltaj Hasanov**, who was with him, also returned fire with his automatic weapon. When he attempted to load a second magazine into his weapon, the cartridges in it ran out, and a mortar mine fell in front of him. When he regained consciousness, he realized that he

had sustained injuries to his **chest, head and left leg**. He was then sent to the medical station of **Military Unit No. 157**, from there to a hospital in the **Kalbajar District**, then to **Military Hospital No. 230 in Ganja**, and subsequently to a military hospital in **Baku**, where he underwent inpatient treatment for **5 months**. He stated that, since the terrain where they were located at the time of the incident was hilly, mountainous and rocky, the distance between the positions of the Armenian servicemen and the position where they were located at the time of the incident was, in some places, **1 kilometer**, in some places **500 meters**, and in some places **30 meters**.

Volume 235, case file pages 52–54, 59–61

Questioned as the **legal heir of the victim**, **Aliyev Samir Sahib oglu** stated in his testimony that in **2002** he married **Aliyeva Aynur Israfil gyzy**, and that a daughter and a son were born of their marriage. **Elmin Alizade** was their only son. His son Elmin was called up for active military service by the **Aghdam District Department of the Armed Forces of the Republic of Azerbaijan** in **April 2021** and was first assigned to **Military Unit No. 777 of the Ministry of Defense**, and then to **Military Unit No. 704 of the Ministry of Defense**. On **17.11.2021**, while he was in the city of **Mingachevir**, where he resides, he was informed that his son Elmin had been wounded and had died during an attack by the Armenian armed forces in the **Lachin–Kalbajar direction on 16.11.2021**. On that same day, the body of his son **Elmin Alizade** was brought to the city of Mingachevir, where they live, and he was buried at the **Alley of Martyrs** located in Mingachevir. During his military service, his son Elmin had not expressed dissatisfaction with the military unit in which he served or with its personnel; on the contrary, he had always been proud of his military service.

Volume 169, case file pages 232–234

Questioned as the **legal heir of the victim**, **Jabbarova Zulfiya Mammadyar gyzy** stated in her testimony that her son **Orkhan Jabbarov** was called up for military service in **July 2013**, served as a soldier in **Military Unit No. 161 of the Ministry of Defense**, and later continued his service as an ensign in **Military Unit No. 769** and was sent to the **Lachin District**. On the morning of **17 November 2021**, her husband **Hatam Jabbarov** came home and informed her that their son Orkhan had died as a result of fire opened by the Armenian armed forces on **16 November 2021**. On **18.11.2021**, the body of her son Orkhan was buried at the **Alley of Martyrs in the Qubadli District**. During his service, Orkhan had not expressed dissatisfaction with the military unit in which he served or with its personnel; on the contrary, he had always been proud of his military service.

Volume 172, case file pages 44–46

Page 475

Questioned as the **legal heir of the victim**, **Niftaliyev Oruj Mirzammad oglu** stated in his testimony that **Umud Niftaliyev** was his biological son. His son Umud completed his education in August 2021 and received the military rank of lieutenant. Two months later, he was sent to **Military Unit No. 769 of the Ministry of Defense**, located in the **Lachin District**, and, as far as he knew, served in that military unit as a platoon commander. At approximately **08:00 on 17.11.2021**, he was informed that his son Umud had become a shahid. He later learned that his son Umud had become a shahid in the **Lachin District on 16 November 2021**. On **18.11.2021**, the body of their son Umud was handed over to them, and

he was buried in the cemetery of the village of **Nehram, Babek District, Nakhchivan Autonomous Republic**. During his service, his son Umud had not expressed dissatisfaction with the military unit in which he served or with its personnel; on the contrary, he had always been proud of his military service.

Volume 172, case file pages 63–67

Questioned as the **legal heir of the victim, Khalilov Galib Rajab oglu** stated in his testimony that **Murad Khalilov** was his biological son. On the morning of **17 November 2021**, an official from the executive authority of the settlement informed him that his son Murad had died as a result of fire opened by the Armenian armed forces on **16 November 2021**. On **18.11.2021**, the body of his son Murad was buried at the **Alley of Martyrs in the Chinarli settlement, Shamkir District**. During his service, his son Murad had not expressed dissatisfaction with the military unit in which he served or with its personnel; on the contrary, he had always been proud of his military service.

Volume 226, case file pages 199–201

Questioned as the **legal heir of the victim, Aliyev Aligardash Ashurali oglu** stated in his testimony that **Aliyev Elchin Ramil oglu** was his biological son. Elchin was called up for active military service in **April 2021** and was assigned to **Military Unit No. 704 of the Ministry of Defense**, and later was sent to continue his service in an area of the military unit located in the direction of the **Kalbajar District**. At approximately **04:00 on 17 November 2021**, he received a telephone call from the military unit where his son Elchin was serving and was informed that his son Elchin had been wounded and taken to a hospital in **Ganja**. On **17 November 2021**, while in Ganja, he learned that his son Elchin had died during the hostilities that had taken place the previous day. That same day, his son Elchin was buried at the **Alley of Martyrs in the city of Shirvan**. During his service, his son Elchin had not expressed dissatisfaction with the military unit in which he served or with its personnel; on the contrary, he had always been proud of his military service.

Volume 227, case file pages 33–35

Questioned as a witness, **Aliyev Emil Mardan oglu** stated in his testimony that on **16.11.2021 at approximately 16:00**, an armed clash took place between servicemen of the military special-purpose unit and servicemen of the Armenian armed forces stationed at the left checkpoint. As a result, **10 members of the Armenian armed forces** who had been at that post abandoned the post and began to flee. During the exchange of fire, one member of the illegal Armenian armed formations was killed by a gunshot wound to the head, while the remaining **9 persons** were captured by the group led by him together with a group from **Military Unit No. 888** and were taken to **Lieutenant General Munasib Babayev**, who was acting as corps commander. At approximately **16:00** that same day, the positions came under fire from the Armenian armed forces using incendiary bullets, mortars and anti-tank rockets. As a result of the exchange of fire, **Lieutenant Umud Niftaliyev** and **Warrant Officer Orkhan Jabbarov** were killed, and several servicemen were wounded. At approximately **19:00**, the firing ceased, and at around **21:00–22:00** they saw a **KamAZ truck** approaching their military unit and stopped it. He stated that **nine members of the illegal Armenian armed formations** were being transported in the cargo compartment of the vehicle under the escort of **Jeyhun Mammadov**, an officer of **Military Unit No. 157**, and an unidentified special forces officer to the village of **Minkend, Lachin District**. He and four

other soldiers then got into the cargo compartment of the KamAZ and transported the nine servicemen of the Armenian armed forces to the battalion base in the village of Minkend, Lachin District, where they handed them over to the special forces.

Volume 160, case file pages 113–116

Page 476

Questioned as a witness, **Khasmatov Sabir Seymour oglu** stated in his testimony that by the time the “**Alarm**” command was given on **16.11.2021**, an exchange of fire had already begun between the positions of the Armed Forces of Armenia and the troops of the Republic of Azerbaijan. After the exchange of fire ceased, he was first sent to the medical station of **Military Unit No. 157**, and from there to **Hospital No. 230**, where he underwent inpatient treatment for **12 days**.

Volume 235, case file pages 31–33

Aliguliyev Etibar Yasin oglu, Aslanov Aslan Shahhuseyn oglu, Takharov Samir Rasil oglu and Huseynov Oruj Nabi oglu gave testimony of the same substance and confirmed the statement of **Khasmatov Sabir Seymour oglu**.

Volume 158, case file pages 118–120, 121–124, 125–127, 128–130

Volume 166, case file pages 10–12

Questioned as a witness, **Gevondyan Andranik Garagenovich** stated in his testimony that at approximately **08:00 on 16.11.2021**, on the orders of the military-unit commander, **Major Narek**, who was acting as battalion commander, ordered him and the servicemen under his command — contract serviceman and grenadier **Armen Sarkisyan**, senior rifleman **Arshak Danielyan**, grenadier **Sarkis Abrahamyan**, and machine gunner **Akop Atayan** — to proceed to **Post No. 114** as reinforcements. The acting battalion commander, Major Narek, ordered them to approach that post and, in accordance with the military-unit commander's order, to attack and seize the posts located in front of them where troops of the Republic of Azerbaijan were serving. The Azerbaijani post they intended to attack was located directly opposite **Combat Post No. 114**, at a distance of approximately **40 meters** from them.

Then, in connection with the reinforcement, they were ordered to bring to that post **large-caliber weapons, machine guns, grenade launchers, hand grenades and other weapons**. They took the designated weapons and proceeded to Post No. 114, arriving there at approximately **11:00**. When they reached the post, the acting battalion commander, **Major Narek**, was there together with three soldiers. After they arrived, Major Narek showed them the direction of the attack, and they launched the attack. They began firing at the Azerbaijani military positions with grenade launchers, machine guns and automatic weapons, while the latter, in turn, opened fire on them in self-defense. After moving some distance toward the post while firing, they saw that they had been surrounded by Azerbaijani servicemen, who ordered them to lay down their weapons and surrender. When they realized that they were surrounded, they laid down their weapons and surrendered.

They were taken away from there, placed in a vehicle and transported somewhere, but he did not know where they were being taken. He did not know who had been wounded or who had not during the shooting, and after they were taken away he could not see anything because

their eyes had been covered. During his detention in the pre-trial detention facility, none of the servicemen of the Republic of Azerbaijan used physical force against him; no one beat or insulted him, he was provided with food and water, and he had no complaints regarding the conditions of detention.

Avsepyan Edik Tigranovich and **Abramyan Sargis Arturi** gave testimony of similar substance, confirming the testimony of **Gevondyan Andranik Garagenovich**.

Volume 159, case file pages 91–96, 112–115

Questioned as a witness, **Babayan Artur Seryanovich** stated in his testimony that at approximately **14:00–15:00 on 16.11.2021**, on the instructions of the military-unit commander, the personnel of the post where he was serving, each armed with weapons of various calibers, a new machine gun and a grenade launcher, opened fire and attacked the combat...

Page 477

...**post where Azerbaijani servicemen were on duty opposite them**. Having advanced a short distance toward the Azerbaijani post, attacking and opening fire, they were approached by Azerbaijani servicemen, who demanded that they lay down their weapons and disarm. They laid down their weapons and surrendered. This was the first occasion on which they had attacked a post where Azerbaijani servicemen were on duty, located approximately **50 meters** away, on the opposite side from the post where he had begun his duty. The purpose of the attack on that post was to **kill the Azerbaijani servicemen and seize their post**. He did not know in which district of the Republic of Azerbaijan that post was located, and he had neither killed nor wounded any Azerbaijani serviceman. During his service, he had fired only at simulated targets at training grounds; this was his first day at the post, and he was captured that same day.

In the criminal case, **Sargsyan Himayak Khachiki**, **Avetisyan Erik Hunani** and **Arman Tevosyan Arturi** gave testimony of similar substance, confirming the testimony of **Babayan Artur Seryanovich**.

Volume 159, case file pages 97–100, 107–111, 123–127

Questioned as a witness, **Araikelyan Araik Arshaluysin** stated in his testimony that he was born on **15 February 1980** in the city of **Vanadzor**, then called **Kirovakan**, Republic of Armenia. In 1998, he was sent for military service by the Vanadzor military commissariat and assigned to a military unit located in the city of **Echmiadzin**, the number of which he no longer remembers. After serving there for some time, he was sent as a soldier to a unit located in the village of **Yanshag, Kalbajar District**. At that time, a military unit consisting of **5 battalions** was stationed there, and he served as the driver of one of the three **Ural** vehicles in that military unit. In 2000, after completing his military service, he returned to his home address.

As he was unable to find work, he began cutting and selling firewood from a forested area in that city. Having failed to find employment, in 2004 he submitted documents to the Vanadzor city military commissariat and was accepted into the army for extended service. He was sent to serve as a private in **Military Unit No. 52258**, located in the area of the city of **Kalbajar**, at a post on the **Shikhta mountain ridge**, situated at an altitude of more than **3,000 meters**. For impeccable service and for having made no complaints while serving in that cold, unsanitary place until 2010, in 2010 he was awarded the military rank of **lieutenant** and appointed commander of the **2nd platoon of the 3rd company of the 5th battalion** of that military unit. He continued serving at the post on the Shikhta mountain ridge (“ring”) in an area called **Agda**.

In 2012, he was awarded the military rank of **senior lieutenant** and continued serving at the same location. In 2019, a sniper platoon was formed from the battalions of the military unit, and he was appointed commander of the **sniper platoon of the 2nd battalion** of that military unit. He served in the above-mentioned territory until **27.09.2020**.

On **27.09.2020**, on the orders of the commander of the military unit, **Colonel Keram Martirosyan**, he received an order from the battalion commander, **Lieutenant Colonel Astryan Ovanes**, to open fire with large- and small-caliber weapons on the posts and in the directions where Azerbaijani servicemen were located and, after opening fire, to advance. He and his staff, consisting of **40 persons**, began shelling the Azerbaijani positions at the post with mortars, automatic rifles, machine guns and other weapons. Units positioned behind them began artillery shelling of the Azerbaijani positions. They also began advancing toward the opposite side while shots were being fired; however, because they were under constant fire from the territory where the Azerbaijanis were located, they were unable to advance and returned to their positions, from where they began firing mortars and other weapons.

Following the conclusion of the trilateral agreement on **10.11.2020**, in accordance with the requirements of that agreement, he was sent to the administrative district of the city of **Jermuk, Armenia**, leaving the post where he had served and the military unit in which he had generally served in the **Kalbajar District**. However, personnel from their units were assigned to...

Page 478

...posts located approximately **30–40 kilometers from the city of Jermuk in the direction of the village of Istisu, Kalbajar District, in a straight line**. At that time, he held the position of commander of the **sniper platoon of the 2nd battalion of Military Unit No. 52258** and continued serving at his headquarters in the city of Jermuk.

On the night of **15.11.2021**, on the orders of **Major Keram Keghamyan**, who was acting as battalion commander, **Gevondyan**, together with **Andranik, Sako and four other persons whose names are unknown**, went up to **Combat Post No. 114** to reinforce it. That post was located approximately **15 meters** from the post where the Azerbaijanis were positioned.

Upon arriving there, he saw that **Major Narek Yeremyan**, deputy commander of the battalion in which he served for moral and psychological support, was also there with several servicemen. During a conversation with Major Narek Yeremyan, he learned that an attack was planned from that post against the positions of Azerbaijani servicemen located on the opposite side, from the side of the battalion of **Lieutenant Colonel Tigran Keghamyan**,

commander of the 3rd battalion of the military unit, and that it was precisely for this reason that he had been sent with his own staff to reinforce that post.

The reason for their advance in that direction was that the number of personnel at the posts where the Azerbaijanis were located was very small. Having determined from which side and in what order to attack, **N. Yeremyan and his comrades rested that night because the weather was windy.**

At approximately **12:00 on 16.11.2021**, he, **N. Yeremyan, A. Gevondyan**, as well as other servicemen whose names he does not know, acting on orders from higher command, began advancing and opened fire with small arms toward the Azerbaijani servicemen located on the opposite side. When they were approximately **4–5 meters** from the position where the Azerbaijani servicemen were located, the Azerbaijani servicemen counterattacked them, continuously firing various small arms in their direction. As a result, he and the others were forced to run back, that is, to their own post, and take cover.

At that time, Azerbaijani servicemen surrounded the post where he was located **in an instant** and offered them the opportunity to surrender. However, while **Major Narek Yeremyan** was attempting to negotiate with one of the Azerbaijani servicemen, a certain serviceman began firing at the Azerbaijani servicemen. A firefight with the Azerbaijani servicemen then ensued and lasted **3–5 minutes**; after the exchange of fire ceased, they decided to surrender because they had run out of ammunition.

After that, the Azerbaijani servicemen blindfolded him and the other Armenian servicemen who were present there and took them in an unknown direction. When his blindfold was removed, he realized that he was in **Baku**. At that time, he did not know which of them had been wounded or killed during the shooting, but he remembered that their servicemen had resisted by opening fire with automatic weapons.

Volume 159, case file pages 101–106

In the criminal case, **Vasilyan Ayik Levon, Arutyunyan Gagik Valeriv and Yerimyan Narek Volodya** gave identical testimony, confirming the testimony of **Araikelyan Araik Arshaluysin**.

Volume 159, case file pages 75–79, 116–122, 128–133

The **Armed Forces of Armenia** concentrated additional manpower, military and special equipment at border combat positions in the territories of the **Basarkechar and Garakilisa districts**, and at approximately **16:00 on 16.11.2021**, a surprise attack was carried out against combat positions located in the territory of the **Kalbajar District**, using small arms, grenade launchers and artillery of various calibers, for the purpose of deliberately killing personnel of the **Armed Forces of the Republic of Azerbaijan** with the aim of inciting national hostility and discord.

As a result of the injuries sustained, a contract serviceman of **Military Unit No. 172 of the Ministry of Defense, Junior Sergeant Aliyev Natig Yusif oglu**, died at the scene, while servicemen of the same military unit, **Senior Lieutenant Gumbatov Ulfat Rahim oglu** and **Private Hasanov Kamran Elshad...**

...oglu, officer of **Military Unit No. 707**, **Lieutenant Musali Sahil Sahibkhan oglu**, active-duty servicemen serving on extended terms, Privates **Guliyev Farhad Farrukh oglu** and **Iskenderov Tural Gahraman oglu**, active-duty serviceman serving on an extended term of **Military Unit No. 058**, **Private Alishanov Elmar Eldar oglu**, and others sustained bodily injuries of varying degrees of severity.

According to the **seizure protocol dated 18.11.2021**, in criminal case No. **25/J/50503**, Lieutenant Colonel **Avdiyev Zaur Alamdar oglu** of the Rocket and Artillery Armament Service of the Military Police Directorate of the Ministry of Defense handed over, in the administrative building of the Republican Military Prosecutor's Office, **four 7.62 mm AKM assault rifles**, bearing serial numbers **BE 7909, SL 1794, KV 265 and MS 404**, and these weapons were seized.

Volume 157, case file page 49

According to the **weapon inspection protocol dated 18.11.2021**, an AKM assault rifle bearing No. **"BE7009"** was inspected in the administrative building of the Investigation Directorate of the Military Prosecutor's Office of the Republic of Azerbaijan. The numbers and letters **"1974"** and **"BE7009"** were factory-engraved on one of the inspected AKM assault rifles. The weapon is **880 millimeters** long; the barrel is **415 millimeters** long; the internal diameter of the barrel is **7.62 millimeters**. There is a yellow strap on the pistol. There are no stains resembling blood or other stains on the weapon. The safety is on, there is no cartridge case, and the chamber is empty. Inscriptions in the Armenian alphabet were written on white paper and attached to the weapon.

Volume 157, case file page 50

According to the **weapon inspection protocol dated 18.11.2021**, three **AK-74 assault rifles** and three magazines for the assault rifles, each containing **thirty 5.45 mm cartridges**, were inspected. Before the inspection, the submachine guns and their magazines were provisionally marked with the numbers **1, 2 and 3**. The surface and holster of the AK-74 assault rifle were soiled, and minor scratches resulting from use had formed on the surface of the weapon. The pistol safety is on; there is no ridge on it. Except for the stock, all other components of the weapon, including the sling, are in place. The stock of the automatic weapon and the upper and lower parts of the gas tube are made of wood, while the grip is made of rubber. The figures **"1962 1794"** are factory-engraved on the side of the weapon. The metal parts of the weapon are slightly rusted. No bloodstains, other visible damage or traces were found on the weapon or its sling. A sheet of white paper bearing the number **18** was attached to the lower part of the pistol's gas tube.

Volume 157, case file page 51

According to the **weapon inspection protocol dated 18.11.2021**, an inspection was conducted of the weapon belonging to them in the course of the sabotage committed by servicemen of the Armed Forces of Armenia. The inscription **"1965 MS404"** was engraved on the inspected AK-74 assault rifle. The weapon is **880 millimeters** long; the barrel is **415 millimeters** long; the internal diameter of the barrel is **7.62 millimeters**. There is a yellow strap on the pistol. There are no stains resembling blood or other stains on the weapon. The

safety is on, there is no cartridge case, and the chamber is empty. Words are written on it in the Armenian alphabet.

Volume 157, case file page 52

According to **Forensic Medical Expert Report No. 877 dated 17.12.2021**, the bodily injury sustained by **Aslanov Aslan Shakhuseyn oglu** — a blind wound of the soft tissues of the right thigh, accompanied by temporary impairment of the function of the right lower extremity, caused by the impact of a fragment formed as a result of the explosion of a firearm projectile — is classified as **less serious harm to health**. The diagnosis of **“small solitary cysts of the right kidney,”** established in A.Sh. Aslanov during a specialized medical examination at **Military Unit No. 230**, is an independent nosological pathology and has no causal relationship with the trauma.

Page 480

Volume 166, case file pages 177–178

According to **Comprehensive Forensic Ballistic and Trace Examination Report Nos. 3/1939; 1940 dated 15.12.2021**, the weapon bearing the engraved inscription **“SL 1794”** is an **AKM 7.62 mm automatic weapon, No. SL 1794**, designed by Kalashnikov and manufactured at the **Izhevsk Mechanical Plant in 1962**; it is a rifled automatic combat weapon in working condition and suitable for firing, and it does not fire spontaneously unless it is placed in the firing position and the trigger is pulled.

The weapon bearing the engraved inscription **“MS 404”** is an **AKM 7.62 mm automatic weapon, No. MS 404**, designed by Kalashnikov and manufactured at the **Lvov Mechanical Plant in 1965**; it is an automatic combat weapon in working condition and suitable for firing, and it does not fire spontaneously unless it is placed in the firing position and the trigger is pulled.

The weapon bearing the engraved inscription **“KV 265”** is an automatic weapon of **Kalashnikov design**, caliber **7.62 mm**, model **AKM**, No. **KV 265**, manufactured in **1966** at the **Izhevsk Mechanical Plant**; it is a rifled automatic combat weapon in working condition and suitable for firing, and it does not fire spontaneously unless it is placed in the firing position and the trigger is pulled.

The weapon bearing the engraved inscription **“BE 7909”** is an automatic weapon of **Kalashnikov design**, caliber **7.62 mm**, model **AKM**, No. **BE 7909**, manufactured in **1974** at the **Izhevsk Mechanical Plant**; it is a rifled automatic combat weapon in working condition and suitable for firing, and it does not fire spontaneously unless it is placed in the firing position and the trigger is pulled.

One bullet is intended for use as ammunition of **7.62 mm caliber** in Kalashnikov automatic weapons of the **AK type (AKM, AKS, AKMS), RPK (RPKS) light machine guns, SKS carbines**, and other rifled firearms; it is a fired component of a cartridge — a factory-manufactured **7.62 mm bullet of the 1943 model**. In terms of its size and intended purpose, this bullet, together with the other components of the ammunition, could have been fired from any of the **7.62 mm automatic weapons** submitted for examination — the **AKM, MS 404, KV 265, SL 1794 and BE 7909** — using a cartridge manufactured by loading a **7.62 mm**

cartridge case of the 1943 model. However, because the traces left by the barrel of the weapon from which the bullet was fired are unsuitable for identification examination, it is impossible to determine whether the bullet was fired from any of the submitted **7.62 mm AKM automatic weapons, Nos. MS 404, KV 265, SL 1794 and BE 7909**, or from any other specific weapon.

Two metal objects resembling bullet cores are objects intended for use as ammunition of **7.62 mm caliber** in Kalashnikov automatic weapons of the AK type (**AKM, AKS, AKMS**), **RPKS light machine guns, SKS carbines**, and other rifled firearms of Kalashnikov design; they are fragments of cartridge bullets — factory-manufactured bullet cores of **7.62 mm caliber, model 1943**, which separated as a result of fragmentation when they struck a hard object (hard target) during firing. In terms of their size and intended purpose, these bullet cores, together with the other combat components of the bullets of which they formed part, could have been fired from any of the submitted **7.62 mm automatic weapons** — the **AKM, MS 404, KV 265, SL 1794 and BE 7909** — using cartridges manufactured by loading **7.62 mm cartridge cases of the 1943 model**. However, since by their design the cores are located inside the bullet jacket and bear no characteristic friction marks that could have arisen from contact with the barrel of the weapon from which they were fired, it is impossible to determine...

Page 481

...whether these bullets were fired from any of the submitted samples of **7.62 mm automatic weapons of the AKM type, Nos. MTs 404, KB 265, SL 1794 and BE 7909**, or from any other specific firearm.

One metal object resembling a fragment of a cartridge case is intended for use as ammunition in **Kalashnikov-type automatic weapons** — **AK (AKM, AKS, AKMS), RPK (RPKS) light machine guns, SKS carbines**, and other rifled firearms; it is a component of a cartridge — part of the cartridge case of a factory-manufactured **7.62 mm Model 1943 cartridge with a centerfire primer**, which separated when the bullet struck a hard object (hard target) during firing. In terms of its size and intended purpose, this part of the bullet jacket, together with the other components of the bullet of which it formed part, could have been fired from any of the **7.62 mm automatic weapons submitted for examination** — **AKM Nos. MTs 404, KB 265, SL 1794 and BE 7909** — using a cartridge made by loading a **7.62 mm Model 1943 cartridge case**. However, because the traces left by the bore of the firearm on the bullet casing are unsuitable for identification examination, it is impossible to determine whether the shot was fired from any of the submitted **7.62 mm AKM automatic weapons Nos. MTs 404, KB 265, SL 1794 and BE 7909**, or from any other specific weapon.

In view of the discovery in the barrel bores of the four automatic weapons of **partially burned particles of smokeless powder**, which constitute an additional indicator of firing, shots had been fired from these weapons. However, due to the absence of the relevant scientific and methodological tools, it is impossible to determine the time and number of shots fired.

On the **military tunic, military sweater, long-sleeved undershirt, sleeveless shirt, military trousers, thermal underwear and underwear belonging to Aliyev Natig Yusif oglu**, there are injuries whose dimensions and number are specified in the examination section of the

report. Although no traces of copper metal, as an additional indicator of firing, were found around the wounds, based on their shape and morphological structure, as well as on the discovery around the injuries of **partially burned smokeless powder particles**, which constitute an additional indicator of firing, the injuries on the back and lower part of the left sleeve of the military uniform, military sweater and long-sleeved undershirt; on the front, left and lower parts of the military uniform, military sweater, long-sleeved undershirt and sleeveless undershirt; and on the front left side of the trousers, one pair of thermal underpants and the undershirt are **penetrating injuries**. The injuries to the front part of the left sleeve of the military tunic and military sweater, the long-sleeved undershirt, and the front and right sides of the thermal underpants and undershirt are **exit wounds** and are consistent with shots fired from a rifled firearm at a distance of more than **1 meter**, in a direction from left to right. However, due to the absence of the relevant scientific and methodological resources, it is impossible to determine the specific type and caliber of firearm used to inflict these injuries, the type and caliber of the bullets used, or the period during which the injuries were sustained.

On the **gloves, military boots and socks belonging to Aliyev Natig Yusif oglu**, partially burned particles of smokeless powder were detected over the entire surface, constituting an additional indicator of firing.

Volume 157, case file pages 207–216

According to **Forensic Medical Expert Report No. 218 dated 17.02.2022**, after the original medical record for **Alyshanov Elmar Eldar oglu** is submitted to the **Center for Forensic Medical Examination and Pathological Anatomy of the Ministry of Defense** for an additional examination, it will be possible to provide an opinion on the location, mechanism, duration, conditions and degree of the injury sustained.

Page 482

Volume 166, case file pages 174–175

According to **Forensic Medical Expert Report No. 317/a dated 18.05.2022**, upon submission of the medical documents (medical record book) prepared in the name of **Mammadov Bayram Asad oglu** and the appointment of an additional forensic medical examination, it will be possible to provide an opinion regarding the specific injuries sustained by him, the mechanism by which they were caused, their duration and the degree of harm to health.

Volume 170, case file pages 269–270

According to **Forensic Medical Expert Report No. 318 dated 18.05.2022**, the bodily injuries sustained by **Iskenderov Tural Gahraman oglu** — a penetrating wound of the upper third of the right arm and the soft tissues of the shoulder region, characteristic of a gunshot wound — are classified as **less serious harm to health**. Since the wounds on the surface of T.G. Iskenderov's body had undergone surgical treatment and healed by the time he was presented for examination, scar tissue had formed in their place, making it impossible by forensic medical examination to determine the bullet's entrance and exit wounds, the firing distance, or the presence of additional factors of a gunshot wound along the wound margins. In order to clarify these and other features relevant to the investigation, a special

forensic medical examination of the clothing (**workwear, etc.**) worn by the person at the time of the incident must be conducted.

Volume 170, case file pages 272–273

According to **Forensic Medical Expert Report No. 310 dated 19.05.2022**, the bodily injuries sustained by **Mammadov Samir Mammad oğlu** include a superficial wound of the right lower leg and a metallic foreign body in the soft tissues of the right arm, which are regarded as **minor harm to health**. Of these injuries, the superficial wound of the right lower leg is characteristic of an injury caused by a blunt object, through impact by a hard blunt object, while the other injury is characteristic of an injury caused by fragments formed during the explosion of a firearm projectile.

Volume 170, case file pages 143–144

According to **Forensic Medical Examination Report No. K/254-2022 dated 01.09.2022**, the following diagnosed bodily injuries were found on **Alyshanov Elmar Eldar oğlu**: “Blast trauma (16.11.2021). Condition following surgical treatment of wounds (16.11.2020) resulting from a blind shrapnel wound of the left elbow joint and an open nondisplaced fracture of the olecranon process of the left ulna. Bilateral acute cochlear neuritis as a result of barotrauma (16.11.2021). Blast trauma (16.11.2021), closed craniocerebral injury, concussion. Asthenoneurotic manifestations following closed craniocerebral injury and concussion,” as well as pathologies that subsequently developed in connection with those injuries. The indicated injuries were caused by the impact of a firearm projectile that fragmented during the explosion, as well as by the impact of the blast wave generated by the detonation. The date on which they were sustained corresponds to **16.11.2021**; in terms of severity, they constitute **less serious harm to health**.

Volume 170, case file pages 150–167

According to **Forensic Medical Expert Report No. 547 dated 07.09.2022**, no bodily injuries or traces of bodily injuries associated with the incident in question were found on the body of **Gumbatov Ulfat Rahim oğlu** on **16.11.2021**. As follows from the medical documents, on **16 November 2021**, during examination of U.R. Gumbatov at **Military Unit No. 524**, he was diagnosed with: “**Blast trauma. Barotrauma. Closed cranial injury.**” However, during a specialized medical examination by a neurosurgeon at **Military Unit No. 230**, the indicated diagnosis was not confirmed.

Page 483

Volume 170, case file pages 276–277

According to **Forensic Medical Expert Report No. 546 dated 07.09.2022**, no bodily injuries or traces of bodily injuries associated with the incident in question were found on the body of **Mirzaliyev Valeh Ali oğlu** on **16.11.2021**. As can be seen from the medical documents, when **R.A. Kerimli** was examined at the medical center on **22.11.2021**, he was diagnosed with “**Barotrauma.**” However, since this diagnosis was not confirmed by any clinical or instrumental examination methods, it is currently impossible to express a definitive opinion as to whether this injury was sustained after the incident.

Volume 170, case file page 280

According to **Forensic Medical Expert Report No. 545 dated 07.09.2022**, no bodily injuries or injuries associated with the incident in question were found on the body of **Kerimli Ragib Abdulla oğlu** on **16.11.2021**. As can be seen from the medical records, when **R.A. Kerimli** was examined at the medical center on **22.11.2021**, he was diagnosed with **“Barotrauma.”** However, since this diagnosis was not confirmed by any clinical or instrumental examination methods, it is currently impossible to express a definitive opinion as to whether he sustained this injury after the incident.

Volume 170, case file page 283

According to **Forensic Medical Expert Report No. 1222 dated 15.09.2022**, the injuries sustained by **Hasanov Kamran Elshad oğlu** resulted in loss of vision in the left eye to the level of **“light perception.”** A blind shrapnel wound of the left eyeball, accompanied by post-traumatic cataract, an intraocular foreign body and corneal damage, was caused by fragments from the explosion of an explosive device (projectile), while a gunshot wound of the soft tissues of the right thigh resulted from a shot fired from a firearm. It cannot be ruled out that these injuries were sustained on the date (**16.11.2022**) and under the circumstances indicated by the person during the examination. They are considered serious harm to health resulting in a permanent and lasting loss of more than one-third of general working capacity. It should be separately noted that the blind shrapnel wound of the left eyeball constitutes serious harm to health resulting in a permanent loss of more than one-third of general working capacity, while the gunshot wound penetrating the soft tissues of the right thigh constitutes minor harm to health.

Volume 170, case file pages 249–252

According to **Forensic Medical Expert Report No. 1297 dated 28.09.2022**, during the forensic medical examination of **Musali Sahil Sahibkhan oğlu** on **28.09.2022**, no other visible bodily injuries or signs of trauma were found, except for scar tissue with healed cuts on the anterior surfaces of both hands and the posterior surface of the right hand. These injuries resulted from the impact of a cutting object; their occurrence on **25.04.2022** and in **February 2022**, respectively, corresponds to the relevant time periods, and since they are injuries that did not cause harm to health, their degree of severity is not determined. Taking into account the location, shape and other morphological characteristics of the injuries, it is entirely possible that they were inflicted by the person himself.

Volume 170, case file pages 262–267

According to **Forensic Medical Expert Report No. 677 dated 03.11.2022**, upon submission of the medical documents (**medical record book, traumatological certificate**) issued in the name of **Aliyev Elgun Elshan oğlu**, and upon the appointment of an additional forensic medical examination, it will be possible to determine what specific injuries were sustained, the mechanism by which they occurred, their duration and the degree of harm to health.

Volume 170, case file page 285

Page 484

Questioned as the **legal heir of the victim**, **Aliyev Yusif Isa oglu** stated in his testimony that his son **Natig** was born on **22.05.1989**, began serving in **Military Unit No. 172** as an extended-service soldier in **2014**, participated in the fighting that took place in **April 2016** and in the most recent “**Patriotic War.**” Following the liberation of their lands from occupation after the Patriotic War, Natig served as part of **Military Unit No. 172**, in one of the units located in the border area with Armenian servicemen in the recently liberated **Kalbajar District**. His son Natig married **Aliyeva Gulnar Gazanfar gyzy** in **2019**, and they had a daughter, **Zeynab**. From the time he was assigned to his place of service, he had never expressed any dissatisfaction regarding his service. On **16 November 2021 at approximately 19:30**, while he was at home with his family, his son **Samir** returned home and informed him that Natig had been killed as a result of shelling carried out by Armenians. At noon on **17 November 2021**, his son’s body was buried in the **Alley of Martyrs in the city of Ganja**, with the participation of the head of the district executive authority and heads of district organizations.

Volume 170, case file pages 5–7

Questioned as a **victim**, **Alishanov Elmar Eldar oglu** stated in his testimony that on **16.11.2021**, he was in the territory of the village of **Kilinjli, Kalbajar District**, as part of **Military Unit No. 058**, together with battery commander **Captain Elmaddin Jabrayilov** and several other servicemen, when they were sent to one of the villages of the **Lachin District**, the name of which he does not remember, to combat an Armenian sabotage group. While they were moving in that direction, Armenian servicemen attacked and deployed their equipment in their positions. They were therefore tasked with pushing the Armenian servicemen back from the positions they occupied and, in the event of a counterattack, destroying them.

Pursuant to that assignment, servicemen **E. Jabrayilov, Junior Sergeant Ragif Nagiyev, soldiers Kamil Yusifov and Yusif Ibrahimov**, and others positioned themselves near units of one of the military units in the **Lachin District**, not far from the border with Armenia. At that time, Armenian servicemen attacked them using machine guns and mortars. During the exchange of fire, one of their servicemen, **Private Aslan Aslanov**, was wounded, and later, as a result of a mortar shell striking nearby, he sustained a **shrapnel wound to his left elbow and a concussion caused by the blast wave**. During that battle, Armenian servicemen were driven from their positions; some were killed and others were taken prisoner.

Since at that time he himself had been wounded and evacuated from the battlefield in a military ambulance, he did not know about the other events that occurred there. After receiving treatment for his injuries for approximately **2 months**, he returned to his place of service. Upon returning, he learned that his fellow villager from their military unit, **Aslan Aslanov**, had been wounded and that there had been no fatalities.

Volume 166, case file pages 17–19, 26–28

Questioned as a **victim**, **Mammadov Bayram Asad oglu** stated in his testimony that at approximately noon on **16 November 2021**, the Armed Forces of Armenia began shelling their positions in the **Lachin District** using mortars, artillery and other large-caliber weapons. Shortly thereafter, the Armenian posts located in front of and around the post known as “**Tanker-1**” began firing on their positions with large-caliber and small arms. At that time,

he and his fellow servicemen at the post began returning fire against the Armenian armed forces, resulting in an exchange of fire.

He frequently changed positions, firing a grenade launcher at members of the Armenian military unit. He fired twice toward the Armenians, and when he attempted to fire a third time, his leg slipped as he tried to dodge bullets fired by Armenian soldiers, causing him to fall to the ground and injure his right knee. Because his knee had been bruised, he crawled toward the sector to avoid Armenian fire and took cover there, after which he continued the exchange of fire with the Armenian armed forces, although with difficulty. The firing...

Page 485

...ceased in the evening of the same day. Then, after serving at that position for **10 days**, he went to the medical station of the military unit because of swelling in his knee, from where he was referred to a military hospital in the **Kalbajar District**, and from there to **Hospital No. 230** for examination.

Volume 170, case file pages 35–37, 42–44

Questioned as a **victim**, **Iskandarov Tural Gahraman oglu** stated in his testimony that on **14.11.2021** he was sent, as reinforcement, to a position of **Military Unit No. 172**, located in a village of the **Lachin District**, the name of which he does not remember, as part of the **1st Battalion of Military Unit No. 707**, where he was serving. At approximately noon on **16 November 2021**, the ceasefire regime was violated by Armenian armed formations, which began shelling their positions with large-caliber small arms, including mortar rounds. Approximately **15 minutes** after the firing began, he sustained a **gunshot wound to the upper third of his right arm, penetrating into the shoulder region**, and was urgently evacuated, together with other servicemen, to the **Kalbajar District Hospital**. For that reason, at that time he had no information as to who specifically had been wounded or killed at the post. Later, at the **Main Clinical Hospital of the Armed Forces**, he saw **Private Gulyev Farhad Farrukh oglu**, a serviceman with whom he had served in the same military unit for more than one year, and learned that he had been hospitalized with **barotrauma** sustained during that incident.

Volume 170, case file pages 48–50, 55–57

Questioned as a **victim**, **Gulyev Farhad Farrukh oglu** stated in his testimony that on **14.11.2021** he was sent, as reinforcement, to a post conditionally designated “**K-17**” of **Military Unit No. 172**, located in a village of the **Lachin District**, the name of which he does not remember, as part of the **3rd Battalion of Military Unit No. 707**, where he was serving. At approximately noon on **16.11.2021**, the ceasefire regime was violated by Armenian armed formations, which began shelling their positions with large-caliber small arms, including mortar rounds. As a result of the blast wave from mortar shelling, he lost consciousness and later regained consciousness at a hospital in **Kalbajar**, where he was diagnosed with a “**closed craniocerebral injury**.” Approximately **15 minutes** after the firing began, while he was still at the post, he learned that soldier **Tural Iskandarov**, who had served in the same military unit for more than one year, had sustained a gunshot wound penetrating the upper third of the right arm into the shoulder region. Apart from this, at that time he had no information as to who specifically had been wounded or had become a shahid at the post.

Volume 166, case file page 139

Volume 170, case file pages 62–64, 70–72

Questioned as a **victim**, **Mammadov Samir Mammad oglu** stated in his testimony that on the morning of **14.11.2021**, on the instructions of the command of the military unit, he and his fellow servicemen from the detachment — **Major Ramin Nuriyev, Lieutenant Saleh Musali, Junior Sergeant Tural Iskandarov**, and others — were sent to an unknown village in the **Kalbajar District**, bordering the Republic of Armenia, to a post conditionally designated “**Tanker-5**.” At noon on **16.11.2021**, he saw that, in front of the combat position of **Military Unit No. 172**, located to the left of his position, Armenian servicemen were holding equipment belonging to the military unit and were not allowing it to move. A few minutes after this incident, Armenian armed formations in the **Lachin District** began shelling their positions with mortars, artillery and other large-caliber weapons. Shortly thereafter, Armenian posts located in front of and around the “**Tanker-5**” post where he was stationed began shelling their position with both large- and small-caliber weapons. At that time, he and his fellow servicemen at the post began returning fire, which resulted in an exchange of fire. During the exchange of fire, a mortar round exploded approximately **8 meters** away from him. The blast wave lifted him into the air and threw him against a large rock, as a result of which he sustained a head injury. At that time, although...

Page 486

...there was no bleeding from his head, he experienced dizziness, ringing in his ears and blurred vision. After the firing ceased, he reported the injury to the command and was sent to a military hospital in the **Kalbajar District**. After being examined at that hospital, he returned to his place of service. He also learned after the firing had ceased that **Private Tural Iskandarov**, who had been at the same post with him during the firing, had been wounded.

Volume 166, case file page 129

Volume 170, case file pages 79–81, 86–89

Questioned as a **victim**, **Ismayilov Fagan Agameli oglu** stated in his testimony that on the morning of **16.11.2021**, on the instructions of the command of the military unit, he and his fellow servicemen from the detachment — **Major Ramin Nuriyev, Junior Sergeant Magomed Askerov, Junior Sergeant Elvin Mammadov, Samir Orujov, Nurlan Salamzade, Lieutenant Sahil Musali**, and others whose names he does not remember — were sent to the territory of an unknown village in the **Kalbajar District**, bordering the Republic of Armenia, to one of the posts numbered **18 or 19**, conditionally located to the right of an area called **Alagöllar**. When vehicles of the Armenian armed forces opened fire on their positions with small arms and large-caliber weapons, they were ordered to return fire, and approximately **one hour** after the exchange of fire began, they reached that position. At that time, **11 Armenian servicemen were brought there alive, while two Armenians were brought there dead and handed over to their servicemen**. They later reinforced their positions. At that time, Armenian armed forces began continuously shelling the post where they were located, as well as other posts, with mortars and artillery. At that moment, a mortar round exploded next to him, and the blast wave threw him against a nearby rock, causing him to lose consciousness. When he regained consciousness approximately **10–15 seconds later**, he began coughing and blood came from his mouth. One of the servicemen nearby pulled him to a place where tires were stored, where they took cover beside the tires. While there, he learned that **Tural Iskandarov** and **Lieutenant Sahil Musali** had also been wounded, and

several hours later he was informed by radio that a ceasefire had been declared. Later, he and the other wounded and injured servicemen were sent from the post to **Military Unit No. 707 in the city of Kalbajar**. The following day, because he coughed up blood, he went to the medical station of the military unit, from where he was first sent to **Military Hospital No. 514 in the city of Kalbajar**, and then to **Military Hospital No. 230**.

Volume 166, case file page 110

Volume 170, case file pages 111–114, 119–122

Questioned as a **victim**, **Ismayilov Rashad Alviz oglu** stated in his testimony that on the morning of **16.11.2021**, on the instructions of the command of the military unit, he and his fellow servicemen from the detachment — **Major Ramin Nuriyev, Junior Sergeant Magomed Askerov, Junior Sergeant Elvin Mammadov, Samir Orujov, Nurlan Salamzade, Lieutenant Sahil Musali**, and others whose names he does not remember — were sent to the territory of an unknown village in the **Kalbajar District**, bordering the Republic of Armenia, to one of the posts numbered **18 or 19**, conditionally located to the right of an area called **Alagöllar**. When they moved toward one of the posts numbered 18 or 19, assuming that Armenians were located there, the Armenians began firing at them with automatic weapons, and the servicemen, in turn, returned fire with automatic weapons. Approximately **one hour** after the exchange of fire began, they reached that position and **captured 11 Armenian servicemen alive, while two Armenian soldiers were killed**, and handed them over to their servicemen. Subsequently, while they were reinforcing their positions, the Armenians began continuously shelling both their post and other posts with mortars and artillery. At that moment, a mortar round exploded next to him, and the blast wave threw him into a nearby **wicker basket filled with stones**, as a result of which his vision went dark. Approximately **10–15 seconds later**, he regained consciousness and changed position, while the Armenians continued...

Page 487

...continued shelling their positions and other posts without interruption. While there, he learned that **Tural Iskandarov** and **Lieutenant Sahil Musali** had been wounded.

Volume 166, case file page 103

Volume 170, case file pages 123–126, 131–134

Questioned as a **victim**, **Gumbatov Ulfat Rahim oglu** stated in his testimony that on **16.11.2021**, while he was on duty at **Combat Position K-21 of Military Unit No. 172**, at approximately **13:00** their positions came under continuous mortar fire from combat posts conditionally designated **K-21, 172 and 430**. He and his personnel took up positions at the post in order to avoid the mortar fire. After several hours of continuous mortar fire from the Armenian positions, at approximately **17:00**, he heard the sound of a tank in the area where the fighting was taking place, moved away from where he was positioned, and saw a tank approaching. When he tried to inform the command about this, a mortar shell exploded next to him and the blast wave threw him into the air, first causing him to strike a **wire mesh filled with stones** and then the ground. Despite the fact that he was wearing a helmet at the time, he struck his head against a rock when he fell to the ground, sustained a back injury after being struck in the back, his vision darkened, he became dizzy, and his ears began ringing. For some time he remained motionless, then crawled to the side, and when he attempted to stand up and move, his legs became stuck and he began vomiting.

Volume 170, case file pages 172–175, 180–183

Questioned as a **victim**, **Kerimli Ragib Abdulla oglu** stated in his testimony that while he was on duty on **16.11.2021**, the position where they were located came under fire from mortars and other large-caliber weapons from Armenian positions. At that time, intelligence personnel arrived at their position, including intelligence chief **Major Ramin Nuriyev**. At that time, **R. Nuriyev** formed a group consisting of him, **V. Mirzaliyev**, and other persons and gave them the relevant instructions. While carrying out this assignment under fire, they advanced from the right side, while the reconnaissance group advanced from the left side toward the positions of the Armenian armed forces. **Tural Iskandarov**, one of the servicemen who was with them during the shooting, was wounded, but no one was killed. At approximately noon that same day, the positions of the Armenian armed forces began continuously shelling them with mortars and other weapons. At that time, a mortar shell exploded approximately **10 meters** away from him. Since there was a tire between him and the place where the shell landed, the fragments did not strike him, but the blast wave and sound of the explosion caused his **right ear to become blocked**, and he felt dizzy, although he did not lose control of himself and continued guarding the post. At approximately **19:00**, the Armenian armed forces continued firing continuously at their positions, but they did not leave the position; later, when a ceasefire was reached, they handed the position over to other personnel and returned to the headquarters of the military unit. After handing over his duties, he informed the military unit doctor about the pain in his head that he had experienced after the explosion on **18.11.2021**, but he subsequently did not seek medical assistance regarding the injury because he was on leave.

Volume 170, case file pages 187–190, 195–198

Questioned as a **victim**, **Mirzaliyev Valeh Ali oglu** stated in his testimony that while he was on duty on **16.11.2021**, the position where they were located came under fire from mortars and other large-caliber weapons from Armenian positions. At that time, intelligence personnel arrived at their position, including intelligence chief **Major Ramin Nuriyev**. At that time, **R. Nuriyev** formed a group consisting of him, **V. Mirzaliyev**, and other persons and gave them the relevant instructions. While carrying out this assignment under fire, they advanced from the right side, while the reconnaissance group advanced from the left side toward the positions of the Armenian armed forces.

Page 488

Tural Iskandarov, one of the servicemen who was with him during the shooting, was wounded, but no one was killed. Later, unidentified members of the reconnaissance group captured the Armenian soldiers who had remained at the post, while his group organized security for that position. At approximately noon, the Armenian armed formations began continuously shelling them with mortars and other types of weapons. At that moment, a mortar shell exploded **5 meters** away from him, and the blast wave threw him to the side. He got up without losing consciousness. When he stood up, his vision darkened, he felt dizzy, and his nose began bleeding. Nevertheless, he pulled himself together, once again took up a firing position at the combat post, and continued organizing security at the post while observing the direction of the Armenian armed forces. Although at approximately **19:00** the Armenian armed forces continued continuously shelling their position, they did not leave it and later, when a confirmed ceasefire was reached, handed it over to other persons. After handing over the post on **16.11.2021**, he informed the doctor of the military unit about the

injury. Although he made the relevant record regarding it, he did not seek medical assistance in connection with the injury because he subsequently went on leave.

Volume 170, case file pages 201–204, 209–212

Questioned as a **victim**, **Hasanov Kamran Elshad oğlu** stated in his testimony that on **16.11.2021**, while he was on combat duty at the “**Ertugrul**” **combat position of Military Unit No. 172**, at approximately **15:00**, the “**Alarm**” command was given at the post while he was resting. When he approached that position to help prevent a sudden attack by Armenian armed formations, an Armenian serviceman who was approximately **15 meters** away saw him and fled. At that moment, he felt pain in his right leg, and when he touched his leg, he saw that blood was flowing from it. Because of the pain, he fell to the ground near a trench. Meanwhile, one of his fellow servicemen who was in the trench pulled him into the trench, then that serviceman, whose name and identity he does not remember, removed the belt from his trousers, wrapped it around his leg and tightened it firmly in order to stop the bleeding. By that time, their positions were already under heavy fire from the Armenian armed forces, and his injury was later reported to the higher command. At approximately **17:00**, the post commander, **Lieutenant Azizli**, arrived at his position, took him on his back and carried him down to the post’s strongpoint.

Because he had been wounded and all access routes to the post were under fire from Armenian positions located on higher ground, the arrival of an ambulance at the post was delayed. After the ambulance arrived, he was placed on a stretcher and put into the vehicle. **Junior Sergeant Natig Aliyev** then got into the same vehicle with him. However, the area around the post and the route along which the ambulance was to travel were under constant fire, and therefore the vehicle was unable to move for some time. After approximately **20 minutes of shelling**, when the driver attempted to move the vehicle, the ambulance came under fire from the Armenians. He heard **Natig Aliyev**, who was beside him, scream when the vehicle was fired upon. After N. Aliyev screamed, he fell onto him, and he felt that Aliyev was **gasping and wheezing**. However, he was unable to move because of the bleeding and therefore could not do anything. Suddenly, his **left eye filled with blood and went dark**, as a result of which he could no longer see anything. He does not know how many minutes he remained in that condition, but shortly afterward the rear door of the vehicle, which was under fire, opened suddenly. **Lieutenant Azizli** opened the door and jumped backward. Seeing that the door was open, he gathered his strength and first, with difficulty, pushed **N. Aliyev**, who was lying on top of him, out of the vehicle and then threw himself sideways onto the ground. The servicemen dragged them aside and took them to a safe place.

Several hours later, **battalion chief of staff Elshad Mammadov** and several servicemen came to assist after arriving along a dirt road through the valley. **E. Mammadov** then carried him on his back and walked several kilometers through the snow to an asphalt road. From there, an ambulance took him to the **military hospital in Kalbajar**, and from there to...

...**Military Hospital No. 230 in the city of Ganja**, where he was examined, after which he was transported by helicopter to a military hospital in **Baku**. He underwent inpatient treatment at that hospital until approximately the beginning of **February 2022**, after which he

was demobilized from the army. He later learned that during that exchange of fire, serviceman **Aliyev Natig Yusif oğlu** had become a shahid.

Questioned as a **victim**, **Musali Sahil Sahibkhan oğlu** stated in his testimony that in early **November 2021**, on the instructions of the command of the military unit, together with the head of intelligence of the military unit, **Major Ramin Nuriyev, Sergeant Javid Huseynov, Tural Iskenderov**, and other servicemen whom he no longer remembers, he was sent to reinforce the combat position of **Military Unit No. 172**, which was located opposite the territory of a village in the **Kalbajar District** bordering the Republic of Armenia and was conditionally called “**Tanker-2.**”

On **16 November 2021**, while he was serving there, their positions, where they were located, came under fire from mortars and other large-caliber weapons from Armenian armed formations. At that time, on the instructions of the command, a group was formed consisting of him, **Tural Iskenderov**, and others, and the group was given the relevant assignment. After receiving the assignment, the reconnaissance group approached a post of the Armenian armed forces, killed the Armenian servicemen who resisted there, and took the remaining **12 Armenian servicemen prisoner**.

Later, he, **T. Iskenderov, Seymur Abbasov, Javid Huseynov**, and another **15 persons**, whose names he does not remember, occupied that post and entrenched themselves there. Approximately **30 minutes** later, they observed several **KamAZ vehicles** and personnel approaching the post of the Armenian armed forces, and approximately **15 minutes** after they began observing them, continuous sniper fire was opened from the right, left and all sides toward the post where they were located. They lay down on the ground and at the post in order to avoid the shots.

During one of the shots, **T. Iskenderov**, who was beside him, sustained a gunshot wound to the chest. He approached him, provided first aid and gave him a morphine injection. He then reported the matter to the command by radio. Shortly after the shooting, the position where they were located came under continuous mortar fire. During that firing, a mortar round fell approximately **10–15 meters** from him, and the blast wave lifted him up and threw him to the side.

At that time, another mortar round exploded next to him, and its blast wave also threw him to the side. At that moment he fell face down and lost consciousness. When he later regained consciousness, he saw that he was lying at the edge of the post and that personnel at the post were trying to wake him. Shortly after he regained consciousness, an ambulance reached the post with difficulty, and four servicemen, including him, were taken to a military hospital in the **Kalbajar District**. After staying there for one day, they were sent to **Military Hospital No. 230**. After two days of treatment, he was sent to a military hospital in **Baku**, where he underwent inpatient treatment for several months, after which he was demobilized from the army due to illness.

Questioned as a **witness**, **Gurbanov Vilayat Hidayat oğlu** stated in his testimony that at approximately noon on **16.11.2021**, Armenian positions in the **Lachin direction** began

shelling the positions of their military unit with mortars, artillery and other large-caliber weapons. Shortly thereafter, his post came under fire from both large- and small-caliber weapons from posts of the Armenian armed forces located in front of and around the post where he was stationed.

An exchange of fire began, during which the servicemen at the post began returning fire against the Armenian fighters. At that time, he approached the vehicle he was operating and stood next to it. While the firing continued for some time, he saw several servicemen at the post carrying the wounded soldier **Tural Iskenderov** toward the communications road. At the specified time, the injured **T. Iskenderov**...

...was taken away by an ambulance that had arrived at the communications road, and therefore he did not see where he had been wounded. By the evening of that same day, the firing ceased, and at night, following the instructions of the command, he returned to the location of the military unit in his own vehicle.

Questioned as a **witness**, **Agajanyan Vage Sasunovich** stated in his testimony that on **16.11.2021**, pursuant to the instructions of the command of the military unit, they attacked the Azerbaijani side. Their objective was to seize positions located on the Azerbaijani side and to destroy the **Armenian soldiers** they encountered; however, they were forced to return to their own positions when the Azerbaijani army launched a counterattack.

At approximately **15:00**, while they were at that combat position, the Azerbaijani army launched a counterattack, stormed the position, surrounded them and told them to surrender. At that time, **Sargsyan Arutyun** pulled out an **RGD grenade** and blew himself up. After that, without using any force, Azerbaijani servicemen disarmed the remaining servicemen and took from them an **AKM assault rifle bearing serial number 17115236** and **four magazines fully loaded with cartridges**. At that moment, he was wearing a helmet, body armor and military uniform.
